

## Ancient 3971

Chapter 3971 Old Scoundrel

At this moment, Ye Feng's expression suddenly became very exciting.

Because he never expected that the demon-suppressing magic pen in front of him, who had passed endless years, would actually take the initiative to communicate with him.

At this time, Ye Feng suddenly looked slightly towards the back.

He found the silver-robed woman waiting in the distance, looking at him expectantly.

Ye Feng understood immediately, and the woman in silver robe probably didn't know that he was currently communicating with this ancient demon-suppressing magic pen.

After all, no one would have thought that such an ancient demon-suppressing magical pen would still have self-awareness after hundreds of thousands of years.

At this moment, Ye Feng was still quite happy inside.

Because he understood from the words of this demon-suppressing magic pen that the demon-suppressing magic pen had suffered huge damage in that terrible battle that year.

Therefore, this demon-suppressing magic pen needs its own Hongmeng purple energy to repair its body.

Ye Feng knew very well that his Hongmeng Purple Qi was one of the most magical gases in the world and could repair all kinds of spiritual things, including this very advanced demon-suppressing magic pen.

However, Ye Feng also knew that with his current cultivation strength, it would probably take a long time to completely repair the severely damaged Demon Suppressing Magic Pen.

However, as Ye Feng's cultivation continues to improve, the amount of Hongmeng Purple Qi will become larger and larger, and the speed of repair will naturally become faster and faster.

So at this time, Ye Feng naturally had a bargaining chip to negotiate with this demon-suppressing magic pen.

At this time, Ye Feng sorted out his words in his heart, and then directly started to communicate with the demon-suppressing magic pen in front of him, and said aloud: "Senior is a peerless magic weapon that originated from the glorious era of the world. With my current weak cultivation base, I, It is estimated that it will be very difficult to completely repair the injury of the senior, because my Hongmeng Purple Qi is not very large, and it will only become larger and larger as my cultivation level continues to improve."

Hearing what Ye Feng said, the Demon-Suppressing Magic Pen immediately sent a message to Ye Feng and said: "I can temporarily exist in your body, and you can use your Hongmeng Purple Qi to slowly help me. Repair my body, and in return, I can help you to the best of my ability. For example, you seem to be forced to come here by the little ancient thunder and lightning unicorn in the distance, and I can help you kill it directly. "

Hearing the ferocious words of the Demon-Suppressing Magic Pen, Ye Feng waved his hands quickly and said loudly: "I only have a cooperative relationship with that ancient thunder and lightning unicorn. Don't kill her. Keeping her will still be of great use."

After Ye Feng finished speaking at this time, he glanced at the dying Qilin Ancestor suppressed under the Demon-Suppressing Magic Pen, and immediately said: "Can you let this Qilin Ancestor go?"

When the Demon-Suppressing Magic Brush heard what Ye Feng said, he immediately fell silent.

After all, its purpose here is to suppress this vicious Qilin Ancestor.

At this moment, after being silent for a moment, the Demon-Suppressing Magic Pen directly sent a message to Ye Feng and said: "This Qilin ancestor was a ferocious beast that caused harm to the world. Once it is released, it will probably cause chaos in the world. , and my strength has disappeared too much now, and my body was also damaged a lot in that tragic battle that year. Therefore, once I release this Qilin ancestor and let it continue to recover its strength, then I will I don't have the ability to continue suppressing the Qilin Ancestor."

Hearing what the Demon-Suppressing Magic Pen said, Ye Feng's eyes suddenly flashed slightly and he said loudly: "If this Qilin Ancestor is not released, how can you follow me out of here, senior?"

The Demon-Suppressing Magic Pen immediately sent a voice message and said: "This is simple, I will just take this old Qilin with me."

Zu, just enter your Dantian. "

"What??"

Hearing what the demon-suppressing magic pen in front of him said, Ye Feng's eyes suddenly widened slightly, with a deep look of astonishment in his eyes.

Ye Feng never thought that the Demon-Suppressing Magic Pen would directly restrain the Qilin Ancestor underneath, take this terrifying and ferocious beast, and then cultivate it in his Dantian.

Isn't this a bit dangerous?

"Senior, you are taking too many risks, I..."

But Ye Feng hasn't said anything yet.

The demon-suppressing magic pen in front of him immediately said aloud: "Time is running out. My consciousness can only be awakened for a short period of time. Therefore, young man, please stop hesitating and make a happy decision like this."

After finishing speaking, before Ye Feng could say anything, the Demon-Suppressing Magic Brush directly took the dying Qilin Ancestor it suppressed, and took this extremely terrifying peerless evil beast, one stroke at a time, directly flew in. It entered Ye Feng's dantian and disappeared into Ye Feng's body.

"this....."

Seeing this sudden scene, Ye Feng's eyes widened immediately.

He never expected that the Demon Suppressing Magic Pen would be so wild.

Just like an old scoundrel!

Without even waiting for his own consent, he just relied on himself.

"what happened??"

And this scene at this moment also shocked the silver-robed woman who was watching in the distance.

Uh-huh!

She quickly turned into a ray of light and flew over, appearing directly next to Ye Feng.

But at this time, the Demon-Suppressing Magic Pen had brought the Qilin Patriarch into Ye Feng's dantian and could not come out.

At this moment, looking at all the things in front of me

Ye Feng, the woman in silver robe with a look of astonishment on her face, could only helplessly spread her hands and said, "Don't ask me, I don't know what's going on."

Hearing what Ye Feng said, the silver-robed woman opened her mouth and wanted to say something, but in the end she didn't.

Because she also knew that Ye Feng's cultivation was much weaker than hers, and it was impossible to control such a world-class treasure as the Demon-Suppressing Magic Pen.

In other words, all this is the will and decision of the Demon-Suppressing Magic Pen.

The silver-robed woman stared at Ye Feng's Dantian at this moment, and then said aloud: "I didn't expect such a change to happen. The ancestor was actually brought into your Dantian by the Demon Suppressing Magic Pen. I don't know if it's a good idea." It's bad."

After finishing speaking, the silver-robed woman immediately stared at Ye Feng, her cold eyes showed a firm expression, and she said loudly: "Since the ancestor is in your body, I will never leave you in the future."

"Forehead....."

When Ye Feng heard the silver-robed woman say this, he immediately showed a look of helplessness on his face.

He knew that after the Demon-Suppressing Magic Pen made this decision, the silver-robed woman transformed from the ancient thunder and lightning unicorn would definitely follow him.

Because she couldn't just watch her leave with the Demon Suppressing Magic Pen and the Qilin Ancestor.

The freedom that Ye Feng originally expected disappeared just like that.

But thinking about it on the other hand, Ye Feng thinks this is not bad.

After all, there must be unknown and huge dangers in the famous ancient mountains.

If this silver-robed woman follows him all the time, it is equivalent to having a super powerful bodyguard.

You must know that this silver-robed woman is an ancient thunder and lightning unicorn in a complete state, comparable to a half-step domination level existence, and is very powerful.

Although he is not as cool as being alone, having a powerful and beautiful bodyguard looks good.

Chapter 3972 Too outrageous

At this time, Ye Feng looked at the silver-robed woman beside him and said, "Then where should we go next?"

The woman in silver robe looked towards the top of this famous ancient mountain and said aloud: "According to what we said before, we continue to climb this famous ancient mountain and move

towards the top of the mountain. There may be very terrifying formations along the way. , but Ye Feng, you have the eye of heaven and earth, you can see through the framework and structure of the formation, there should be no problem, and if you encounter other strong people who are also competing for the opportunity of this ancient famous mountain, my strength is enough to cope with it, so we The two work together perfectly.”

At this moment, the woman in silver robe can be said to be completely following Ye Feng.

Because for some unknown reason, the Demon-Suppressing Magic Pen brought the Qilin Ancestor into Ye Feng's Dantian.

The purpose of the silver-robed woman's life is to save the ancestors of their clan.

So at this time, of course, the silver-robed woman had to discuss everything with Ye Feng.

Because she must be with Ye Feng at all times to ensure the safety of her ancestors.

At this moment, after hearing what the silver-robed woman said, Ye Feng immediately nodded and said, "Then let's continue heading towards the top of this famous ancient mountain."

At this time, Ye Feng was no longer afraid of any danger.

After all, this woman in silver robe is an ancient thunder and lightning unicorn in its complete form. Her cultivation strength is very terrifying, absolutely comparable to the peerless masters among their human race.

Moreover, Ye Feng is no longer afraid that this silver-robed woman will be in danger, and does not care about himself anymore.

Because in his Dantian, the Qilin Ancestor is inside.

If he encounters danger, the Qilin Ancestor will definitely be destroyed in an instant.

Therefore, Ye Feng felt that even if his life was in danger, the silver-robed woman would definitely save him at all costs.

It was precisely because of this consideration that Ye Feng decided to cooperate with this silver-robed woman.

No more worries.

At this time, the silver-robed woman didn't say anything more. She nodded immediately, and left the end area of the dark passage with Ye Feng, and came out of the entrance of the dark passage again.

Then the two of them flew directly towards the top of this famous ancient mountain.

Along the way, with the protection of the silver-robed woman, Ye Feng was naturally not in any danger.

Even many powerful prehistoric beasts that lived on famous mountains in ancient times sensed the terrifying thunder and lightning unicorn aura on the silver-robed woman and fled instantly, not daring to provoke them at all.

And if you encounter some very ancient and terrifying formations on this famous ancient mountain, then Ye Feng has the eyes of heaven and earth and can also see through the framework and structure of the formations.

So they passed through each formation very safely.

The two of them worked really well together, and there was basically no danger. They soon reached the area that was close to the top of the mountain.

Just when they arrived at the mountain area near the top of the mountain, they suddenly saw a very tragic scene.

I saw the corpses of many super masters, lying in various directions on the mountain, looking very cruel.

Ye Feng knew that these were probably the super masters who had entered this ancient famous mountain before and wanted to obtain the chance fortunes in the ancient famous mountain. They must include powerful beings among the major forces in the Origin World.

They compete for all kinds of wealth and opportunities here, so many strong people have fallen into it.

"The wages of avarice is death."

Ye Feng couldn't help but sigh.

These strong masters

, each one's cultivation was so powerful, but in the end they all fell here.

When the silver-robed woman saw this scene, her eyes showed a trace of solemnity, and she said aloud: "It seems that the battle on the top of the mountain is becoming more and more chaotic and fierce."

Ye Feng couldn't help but asked: "You lived in this famous ancient mountain before. Didn't you go to the top of the mountain privately to check it out?"

The silver-robed woman shook her head and said loudly: "This time, it was because of your assistance that you took me through so many ancient formations, so I came to a position close to the top of the mountain. Before, I was walking towards the mountain alone. When I was fighting on top of the mountain, I couldn't pass some very terrifying formations, so I haven't gone as far as I can now."

When Ye Feng heard what the silver-robed woman said, he immediately nodded slightly.

In this way, those who can come here are basically top masters.

There are even some masters who may be more powerful than the silver-robed woman.

Ye Feng couldn't help but guess, could there be a master-level existence coming here?

It's not impossible!

At this time, Ye Feng secretly thought in his heart, and then directly released the Devouring Domain and began to devour the blood and energy of the masters who fell in the mountain due to the battle.

For Ye Feng, the blood energy of these super masters is very powerful, and they are very sufficient nutrients, which can greatly improve his own skills.

So at this time, Ye Feng did not waste any time. He directly released the Devouring Domain and began to devour the blood and energy of these decision-making masters to strengthen his own skills.

"Rumble..."

At this moment, streams of very majestic energy skills were immediately injected into Ye Feng's Dantian, causing Ye Feng's skills to increase rapidly.

Ye Feng's cultivation

The momentum also began to rise at this time.

"boom!"

The second stage of Emperor level!

"boom!"

The third stage of the emperor level!

"boom!"

The fourth stage of Emperor level!

It has to be said that the blood energy of these fallen masters is really powerful and abundant, which immediately increases Ye Feng's skill greatly.

His cultivation actually broke through the third level of heaven in a row!

From the first stage of the emperor level, he broke through directly to the fourth stage of the emperor level.

This is a huge improvement.

"Um?"

The silver-robed woman standing next to her saw Ye Feng's domineering and strange cultivation method, and her beautiful eyes suddenly revealed a look of deep surprise.

She seemed to have never thought that Ye Feng, a young man who looked pretty and handsome, would actually practice such evil and domineering skills.

He can actually plunder other people's blood and energy and use it for himself to increase his own power.

This really makes people feel chilly in their hearts.

At this time, the silver-robed woman's eyes gradually changed when she looked at Ye Feng.

She suddenly felt that this seemingly ordinary human boy had many incredible abilities.

There are some innate abilities that even she herself feels very frightened and terrifying.

The silver-robed woman suddenly felt that this human boy might really be able to amaze the entire world of origin in the future.

Because the silver-robed woman has never encountered a monster like Ye Feng until now.

The various abilities are simply beyond imagination.

There are even some abilities that should not exist in this world because they are too heaven-defying!

Chapter 3973 The ruined palace

At this time, Ye Feng relied on devouring these fallen powerful masters to achieve so many breakthroughs at once, which made Ye Feng naturally very happy.

Ye Feng couldn't help but said: "Let's keep moving forward. Maybe there will be more corpses of super strong people approaching the top of the mountain."

Hearing what Ye Feng said, the silver-robed woman nodded slightly, with a hint of strange color in her beautiful eyes, but she didn't say much.

Next, the two continued to move quickly towards the top of the mountain.

The further he went towards the top of the mountain, the more Ye Feng saw countless formations, which were superimposed over the entire top of the mountain, looking very majestic.

Some ancient and huge formations, even Ye Feng, who has a very terrifying eye of heaven and earth, are somewhat unable to see through, and cannot even keep up with the rhythm of formation changes.

Therefore, on several occasions, Ye Feng and the silver-robed woman were almost shattered by the impact of that ancient and terrifying formation.

But in the end, the two of them passed through the terrifying formations dangerously and dangerously, and arrived at the top of the mountain.

Buzz!

From a certain direction on the top of the mountain in the distance, there was a fierce battle fluctuation.

Rumble...

There was also a huge roar.

At this time, Ye Feng sensed the battle fluctuations emanating from the air, and his eyes suddenly showed deep surprise.

Because he discovered that the auras that produced these fluctuations in cultivation were actually half-step master level beings. They were all extremely powerful, second only to the current most powerful master in the Origin World.

At this time, Ye Feng's eyes suddenly showed a deep look of solemnity. He looked at the silver-robed woman beside him and said loudly: "According to my judgment, there are half-step masters fighting on the top of the mountain in the distance. There are probably more than a dozen strong ones."

"Well, almost, I can feel it too."

The silver-robed woman nodded at this time, and then said aloud: "It seems that the number of strong men who have climbed to the top of this famous ancient mountain is much more than I imagined. Let's go and take a look first. "

The silver-robed woman spoke at this time, and there was no particular fear in her tone.

Although the silver-robed woman's cultivation is at the peak of the tenth level of the god level, her true combat power is definitely comparable to that of a half-step master level being.

Therefore, as long as there is no real master coming here, the silver-robed woman will not have any excessive fear.

At this time, Ye Feng nodded slightly, followed behind the silver-robed woman, and flew quickly towards the area on the top of the mountain.

When they arrived at the real mountain top, they immediately saw a very shocking scene.

I saw a huge dilapidated palace, piercing the clouds into the sky, very majestic, standing on the top of the mountain.

Even though it is dilapidated now, it still gives people a very ancient and terrifying feeling.

At this time, this dilapidated palace was surrounded by ancient formations.

The battle fluctuation that Ye Feng sensed just now was not that the half-step masters were killing each other, but that they were joining forces to madly attack this dilapidated palace surrounded by countless overlapping formations.

But even if they attacked for such a long time, they were unable to break those ancient and huge formations, and naturally they could not approach the ruined palace.

At this time, the woman in silver robe couldn't help but said: "That dilapidated palace is where the owner of this famous ancient mountain lived. It must contain the supreme righteousness and inheritance left by him. This is the place where many high-level officials lived." It's something that everyone in the cultivation world covets. After all, this famous ancient mountain is a remnant of the glorious age of the Origin World."

Hearing what the silver-robed woman beside him said, Ye Feng immediately nodded slightly and asked aloud: "Is the owner of this famous ancient mountain the owner of the Demon-Suppressing Magic Pen, the one you mentioned before? The most powerful person in Confucianism and Taoism in the glorious age of the Great Origin World, Tian Yangsheng?"

The silver-robed woman shook her head and said, "I'm not sure about this either."

When Ye Feng heard this, he could only use the Eye of Heaven and Earth to look forward, wanting to find out.

But the next moment, Ye Feng discovered that even if he had the Eye of Heaven and Earth, it would be extremely dangerous to safely pass through the countless formations that enveloped the ruined palace.

Because there are thousands of formations superimposed around this dilapidated palace. They are densely packed. Each formation is superimposed on one another and may change at any time.

This is also a very big challenge for Ye Feng, who has the eye of heaven and earth.

At this time, the woman in silver robe seemed to have thought of something, and immediately looked at Ye Feng beside her, and couldn't help but remind her: "By the way, you must not reveal your innate ability to see through the frame and structure of the formation later. , because once your natural ability is exposed, it is estimated that all the super strong people present will want to capture you and make you their slave to help them shuttle through the formation."

Hearing what the silver-robed woman said, Ye Feng immediately

He nodded and said aloud: "I know this. After all, my ability is unique. Once exposed, it will definitely attract the greed of many people."

At this moment, Ye Feng retreated directly behind the silver-robed woman. Obviously, he would rely on the silver-robed woman to control the home court.

Because although Ye Feng's cultivation level has made a lot of breakthroughs now, it is nothing in front of these half-step masters, in front of such super strong people.

Only the silver-robed woman is probably qualified to survive among this group of superpowers without being attacked.

At this moment, the arrival of the silver-robed woman immediately attracted the attention of everyone present.

The dozen or so half-step domination level superpowers also brought a large group of people from their own forces to stay here.

Ye Feng stood behind the silver-robed woman, with a look of surprise in his eyes.

Because he actually saw several familiar figures.

The dragon knights who had met in the City of Chaos before, and the few young masters from the western land, were all standing behind an old man wearing a white robe at this moment.

This old man in a white robe is a white-robed mage from the western land, possessing the aura of a half-step master.

In addition, Ye Feng also saw the young city lord of Chaos City, standing behind a tall middle-aged man wearing chaos-colored armor.

This tall, middle-aged man wearing Chaos Armor should be the city lord of Chaos City, and he is also a super master at the level of half-step domination.

In addition, Ye Feng also saw several children from ancient families in the eastern land.

For example, Su Mo, the young master of the Su family who had participated in the hunt for Dark Alliance geniuses with Ye Feng, was standing behind a middle-aged man who looked burly.

This middle-aged man is also a half-step master, and should be the top expert in the Su family, an ancient family.

In addition, Ye Feng also saw several demonic half-step master-level beings, who should be from the Dark Alliance in the eastern land.

It is very likely that he is a super powerful person from the Dark Demon Cult.

At this time, Ye Feng suddenly understood that only with half-step dominance level combat power could he safely reach the top of the mountain.

Even an existence at the peak of the tenth level of the god level cannot climb here.

Although the silver-robed woman is not a half-step master and is at the peak of the tenth level of the god level, with the assistance of Ye Feng, she can travel through various dangerous formations and is ultimately safe.

came here.

Ye Feng suddenly felt that the masters who died tragically before were probably not killing each other, but were wiped out by many terrifying formations while climbing this famous ancient mountain.

Because Ye Feng has seen that there are much fewer powerful people from all major forces here than when they climbed the mountain before. Apparently they all fell while climbing this famous ancient mountain.

At this moment, the arrival of the silver-robed woman caused a group of half-step masters present to have a trace of ugly look in their eyes.

Unexpectedly, another powerful being who could rival them came.

Moreover, they are all half-step masters. They can obviously sense the aura surging on the silver-robed woman's body. It is the aura of wild beasts, and their combat power is absolutely terrifying.

"This young man is not dead yet?"

At this moment, the young city lord of Chaos City instantly saw Ye Feng behind the silver-robed woman, with surprise in his eyes.

Because he didn't expect that when the ancient thunder and lightning unicorn went berserk, an ordinary young man like Ye Feng could actually escape.

You know, the young city lord of Chaos City escaped at a huge cost.

Even the old law enforcement officer who protected him was seriously injured and died.

"Ye Feng, you are not dead yet!"

Suddenly I remembered a horrifying voice not far away.

That was clearly the eldest prince of the Split Heaven Dynasty in the Dark Alliance.

He looked at Ye Feng behind the silver-robed woman, and his eyes suddenly widened.

He originally thought that Ye Feng, the divine son of the Wanjie Martial Arts Academy, would have died long ago when he came here alone.

But I didn't expect Ye Feng to be alive and well.

He even got the help of a mysterious woman who was comparable to a half-step master, and brought Ye Feng here safely.

This made Prince Split the Sky very envious and jealous!

Previously, he suffered heavy losses due to the rage of the ancient thunder and lightning unicorn. Not only did he lose the supreme treasure Luo Tianwang, but he also suffered heavy losses.

Originally, Prince Split Day thought that Ye Feng must have died in the endless thunder and lightning and was chopped into flying ash. However, it turned out that Ye Feng was alive and well, and his cultivation level seemed to have greatly improved.

Moreover, it seems that Ye Feng also received the help of a mysterious woman who was a beautiful half-step dominator and came here to share with them the supreme orthodoxy contained in the dilapidated palace on the top of the mountain.

This naturally made Prince Split Sky very angry. He felt that Ye Feng was really lucky, which made Prince Split Sky very jealous.

Chapter 3974 Stealth Action

At this time, Ye Feng obviously noticed that there were many eyes around him, all looking at him with various expressions.

But the look that made Ye Feng feel most aggressive came from the eldest prince of the Split Heaven Dynasty.

The eldest prince of the Splitting Heaven Dynasty seemed to have deep resentment in his eyes at this moment.

Ye Feng knew that the eldest prince of the Splitting Heaven Dynasty had always disliked him.

Because the eldest prince of the Splitting Sky Dynasty is the super genius of the Splitting Sky Dynasty in the Dark Alliance, he has always wanted to kill Ye Feng and become famous throughout the Dark Alliance.

At this time, Ye Feng obviously noticed the eldest prince of the Splitting Heaven Dynasty, who looked at him with eyes full of envy, jealousy and hatred. .??.

After Ye Feng understood what was going on, he just responded with a cold smile, as if to say, if you dare to mess with me, then I will let you die.

The eldest prince of the Splitting Heaven Dynasty clearly noticed the meaning in Ye Feng's eyes, and his face suddenly turned livid.

He couldn't help but send a message to Ye Feng and said: "If you don't have the protection of this mysterious strong woman, I will definitely let you die in an ugly way."

Ye Feng heard the threatening voice of the eldest prince of the Tiantian Dynasty, and immediately sent the message back, saying, "If you have the guts, take action against me now."

When the eldest prince of the Tiantian Dynasty heard what Ye Feng said, his face became even more livid.

But he didn't dare to take action at this time, because there was a very powerful mysterious female powerhouse in front of Ye Feng.

In addition to this, the most important thing now is to obtain the supreme orthodoxy and inheritance in the dilapidated palace protected by countless formations.

At this moment, the Lord of the City of Chaos suddenly spoke up: "Everyone, the most important thing now is to get the supreme inheritance contained in that dilapidated palace. You must know that this is the glorious age of our origin world. What has been handed down must be obtained, otherwise, we will not be able to deal with the next super powerful people who come from the interface of advanced cultivation civilization. "

Hearing what the city lord of Chaos City said, other super strong men from various major forces all started talking.

Everyone nodded.

At this moment, everyone suddenly looked at Ye Feng and the silver-robed woman, because the silver-robed woman was a new super strong person, comparable to a half-step master level existence.

The silver-robed woman smiled slightly at this time and said aloud: "My purpose is the same as everyone else's, just to get the supreme inheritance in that dilapidated palace, so now we don't need to kill each other together, that dilapidated palace's Inheritance, if my guess is correct, should be the supreme inheritance left by the owner of this ancient famous mountain. It is priceless and can make our cultivation even further. If we can join forces, through these layers of formations , approaching that dilapidated palace, we can understand the inheritance contained in it together. After all, inheritance is something that anyone can understand, and there is no need to fight and kill."

Hearing what the silver-robed woman said, many superpowers from various major forces nodded.

Because if they kill each other now, it would make no sense, because they are not close to the ruined palace yet.

At this moment, the white-robed mage from the western land was also a half-step master-level existence. He immediately said: "But around this dilapidated palace, there are thirty million ancient formations overlapped. , We have been attacking for a long time, but at most we only destroyed one or two formations. If we attack forcefully like this, it will probably take several years and we may not be able to get close to the ruined temple. "

After hearing what the white-robed mage from the western land said, everyone fell silent.

Even the super powerful city lord like the city lord of Chaos City did not say anything at this moment because he could not think of any useful way.

The dilapidated palace in the middle of the mountain is surrounded by tens of thousands of formations that change at any time, making it impossible to pass through.

Even if some superpowers still have

Even if the formation master came, it would have no effect.

Because these formations are really unpredictable, very ancient, and very advanced, no one can see through the specific structure of these formations, so even the formation masters can't pass through the countless overlapping formations that change at any time. The area covered by the formation.

At this moment, when everyone was silent, the silver-robed woman suddenly secretly transmitted a message to Ye Feng beside her, and asked aloud: "Ye Feng, are you able to see through the framework and structure of all formations? Penetrate all the formations and enter the ruined palace?"

Ye Feng heard the sound transmission from the silver-robed woman next to him and immediately said: "I can see through nearly half of the formations, but these formations are changing very fast almost every moment, so even if I have the eye of heaven and earth and can see through the framework of every formation. It is also very difficult to travel through all the tactics alone. It may be extremely dangerous, but it is also possible to succeed."

Hearing what Ye Feng said, the silver-robed woman immediately continued to transmit the message and said: "You just think it is possible to succeed. I estimate that if everyone here joins forces, they will not be able to approach that ruined palace, but if we act alone If we do, we will definitely be stopped by everyone. After all, no one will give up on this dilapidated palace on the top of a famous ancient mountain, so we can only act secretly. "

Hearing what the silver-robed woman said, Ye Feng couldn't help but ask immediately: "How can we sneakily approach that dilapidated palace? After all, there are more than a dozen super strong men at the half-step master level here staring at them. , We can't act secretly in public, their spiritual detection is too powerful."

The woman in silver robe suddenly said: "I will make a suggestion in public later and let all the strong men attack the countless formations around this ruined palace. When the time comes, Ye Feng, you will pretend to be swept in by a surrounding formation." , disappeared, they must have thought that you had fallen, but you actually lurked into the surrounding formations. In this case, you would have a chance to get close to that dilapidated palace, and we would directly attack these countless formations.

The result will definitely be a failure, but I will still make this suggestion just to cover you. "

Hearing what the silver-robed woman said, Ye Feng's eyes suddenly lit up and he said: "Okay, I can use the Eye of Heaven and Earth to pretend to be swept in by the power of a certain formation, and then disappear. These ancient There are thousands of formations, layer upon layer, and even the spiritual thoughts of a half-step master-level superpower cannot penetrate those countless formations and sense my actions."

The silver-robed woman received Ye Feng's confirmation and immediately nodded, "There is only one way now."

At this moment, after discussing with Ye Feng, the silver-robed woman suddenly took a step forward, looked at all the powerful men present, and said loudly: "Everyone, please stop being silent. Waiting like this is not an option. We might as well join forces once again and directly attack the thousands of overlapping formations to see if we can forcefully open up a passage and approach the ruined palace."

Hearing what the silver-robed woman said, the white-robed mage from the western land held the scepter in his hand, exuding a faint white light, and said loudly: "This fellow Taoist is right, there is only one way now. Well, these thousands of formations are unpredictable at any time. Even if there is a master-level existence, there is probably no way to safely shuttle through the thousands of unpredictable formations. method, so we can only attack by force. Now we have several half-step master level beings here. Once again, we join forces together. Maybe we can really open up a passage among these countless formations and get closer to the ruined palace. The central area where it is located."

"good."

"You can give it a try."

"That's all we can do now."

"Yes, let's try again."

At this moment, after hearing what the silver-robed woman and the white-robed Archmage said, a group of other superpowers present nodded their heads and prepared to continue trying. Maybe this time there will be more half-step masters to join forces. It will succeed.

Chapter 3975 Creating Accidents

At this moment, after everyone had discussed it, the super strong men at the half-step dominance level of the major forces led the way.

Then the other masters followed behind, preparing to join forces to attack the numerous formations stacked in front.

Because now, even the many half-step master level experts present have no way to safely pass through the surroundings of countless formations.

Therefore, we can only use forceful attacks to get close to the dilapidated palace in the middle surrounded by countless formations.

Regarding the supreme orthodoxy and inheritance contained in this dilapidated palace, all the half-step masters present showed deep greed in their eyes.

Because they know very well that if they want to further improve their cultivation strength in the current Dharma-ending era of the Origin World, they must obtain a stronger inheritance to be able to do this.

Moreover, many of the superpowers present knew very well that if they obtained the traditions and inheritance left by the powerful master of this ancient famous mountain, perhaps in the future, they would even be able to break through the most powerful master realm and become a master. A more powerful realm above.

Because everyone now knows that the Great World of Origin is currently recovering and wants to regain the glory of the ancient times.

So this is a huge opportunity to truly transcend death.

Boom!

At this time, the dozen or so half-step master level superpowers standing at the front immediately launched their own attacks and began to bombard the countless formations.

The previous formations were unable to withstand the attacks of more than a dozen half-step masters in an instant, so they were shattered and completely defeated.

But then, countless formations came up, blocking everyone's path.

"Continue the attack!"

At this time, the city lord of Chaos City roared.

A giant sword made of the energy of chaos appeared in his hand, and he slashed straight ahead.

Every time he was killed, there was endless terrifying chaos.

The energy of chaos burst out from the sword energy of this giant sword, cutting an formation in half in an instant.

And the white-robed mage from the western land holds the staff in his hand. With a casual move, an energy wave like a divine beam bursts out from the front of the staff, which can tear an ancient formation into pieces in an instant.

The attacks of all the half-step masters are extremely terrifying, and their destructive power is earth-shattering.

"So strong!"

At this time, Ye Feng saw this scene from behind the silver-robed woman, and his eyes suddenly showed deep horror.

Ye Feng couldn't help but sigh, these half-step masters standing at the top were really extremely powerful in combat.

As long as the dominator doesn't come out, basically no one can fight against the existence of the half-step dominator.

Because their cultivation background is so profound.

It is estimated that even a super genius like Ye Feng will find it difficult to cross several levels and fight against a super strong person who is half-step dominant.

At this moment, Ye Feng was somewhat lucky.

The ruined palace was surrounded by countless powerful ancient formations.

Otherwise, when he and the silver-robed woman came here, they probably wouldn't get a share of the pie at all.

He could only watch as a dozen super strong men at the half-step dominance level divided up the supreme orthodoxy and wealth contained in that ruined palace.

But now, thousands of super ancient and powerful formations were arranged around the dilapidated palace, which gave Ye Feng a chance to monopolize the wealth and inheritance in this dilapidated palace.

At this time, Ye Feng stood behind the silver-robed woman and watched silently, because he had no way to intervene.

In fact, other young geniuses are the same. They all stand at their respective majors.

Behind the super masters of power, these super masters followed, walking slowly among countless formations.

At this time, Ye Feng saw the eldest prince of the Tiantian Dynasty, still staring at him with cold eyes, as if he wanted to find an opportunity to kill him.

Regarding this, Ye Feng also sneered in his heart.

If given the chance, he wouldn't mind killing the eldest prince of the Split Heaven Dynasty mercilessly.

But now Ye Feng has more important things and has no time to deal with the eldest prince of the Tiandi Dynasty.

At this time, Ye Feng felt that it would be better for him to sneak into the surrounding formation first.

However, if you want to avoid the suspicion of the dozen or so half-step masters around you, you must create an "accident."

At this moment, Ye Feng circulated the Eye of Heaven and Earth, secretly activated the power of an ancient formation around him, and directly launched an attack in his own direction.

Boom! !

A large flame suddenly swept towards Ye Feng. .??.

That rolling wave of fire contained extremely terrifying burning power, and it enveloped Ye Feng in an instant.

The silver-robed woman standing in front of Ye Feng seemed to be concentrating on working with the super masters to destroy the formation in front, so she had no energy to pay attention to Ye Feng's situation behind her.

So at this moment, a formation around him suddenly burst out with terrifying power, engulfing Ye Feng's entire body.

The next moment, Ye Feng disappeared in an instant, and seemed to be burned to ashes instantly.

"What??"

Seeing this scene, everyone was shocked.

No one expected that there was an ancient formation behind them, and it suddenly launched an attack on everyone.

"No!!!"

At this moment, Ye Feng knew in his heart that Ye Feng had succeeded, but the woman in silver robe pretended to be in pain and couldn't help but scream.

, seems very sad.

"It was actually swallowed up by the formation in an instant, not even the scum was left."

Some people couldn't help but sigh.

At this moment, everyone saw this scene and felt a little chill in their hearts.

A young disciple from the ancient family of the Eastern Great Emperor saw this scene and couldn't help but sigh: "Even top geniuses like the Son of God from the Ten Thousand Realms Martial Arts Academy fell into this terrifying formation in an instant. It's really... It's such a bad fate."

But the happiest person at this time is probably the super genius in the Dark Alliance of the Split Sky Dynasty, the eldest prince of the Split Sky Dynasty.

At this time, the eldest prince of the Splitting Heaven Dynasty saw with his own eyes that Ye Feng was swallowed up by the power of the terrifying formation, and not even ashes were left. He immediately laughed out loud. He seemed to be very happy and felt very relaxed in his heart. .

The eldest prince of the Split Heaven Dynasty couldn't help but smile coldly and muttered to himself, "It's a pity that I didn't kill you with my own hands."

Next, Ye Feng's death can be said to be just a small episode.

After all, in the eyes of those superpowers who are half-step dominant, the death of a young genius is nothing at all.

What they are more concerned about is continuing to break through the formation in front and keep moving forward.

And just after everyone stopped paying attention to Ye Feng, Ye Feng was not harmed at all in a surrounding formation.

Instead, he stood alone in the surrounding formations, watching the many strong men outside the formations continue to move forward.

Seeing this scene, Ye Feng suddenly showed a satisfied smile on his face.

It seems that the accident he created was pretty good and he hid it from everyone.

But it was also because of the cooperation of the silver-robed woman.

At this moment, Ye Feng no longer wasted time, took a deep breath, and then used his great eye of heaven and earth to move through the layers of formations from another direction, lurking towards the dilapidated palace in the middle. And go.

Chapter 3976 The equally famous treasure

Buzz!

At this time, Ye Feng turned the Eye of Heaven and Earth.

Although the formations in front of him overlapped, the frames and structures were all seen through by Ye Feng in an instant.

At this time, Ye Feng showed deep joy in his heart.

Ye Feng did not expect that the talent he awakened after entering the sixth level of his Hongmeng Immortal Body would be so evil and heaven-defying that he could see through this ancient formation.

You must know that the formations in ancient times are very advanced and complex, and few formation masters in the current era of law can see through them.

But Ye Feng can.

Ye Feng has not specifically studied the formation.

But with the Eye of Heaven and Earth, Ye Feng is even more powerful than those so-called great formation mages.

Because after practicing the Eye of Heaven and Earth to the end, you can even directly use your own eyes to change the energy of heaven and earth, thereby changing the structure of the entire formation, thereby causing subtle changes in the formation.

Ye Feng created "accidents" for himself before.

In the eyes of everyone, he was attacked by the power released by other formations.

In fact, it was Ye Feng who used the Eye of Heaven and Earth to activate the power of a formation and swept it to where he was standing, thus causing the accident in everyone's eyes.

So at this time, Ye Feng shuttled through the layers of ancient formations with ease.

However, the closer he got to the center of the mountain, the more terrifying the formations Ye Feng came into contact with.

But Ye Feng was not in a hurry.

He tried his best to operate his eyes of heaven and earth, carefully watching the surrounding formations, trying to choose the safest path, shuttle through the formations, and enter the most central area.

The reason why Ye Feng is not in a hurry is very simple, that is, Ye Feng knows very well that although the super strong men of the major forces join forces, they cannot finally reach the dilapidated palace in the center.

Because there are thousands of formations around here, it is really terrifying.

With just a dozen half-step masters, even if they join forces, it is impossible to truly pass through these countless formations.

So Ye Feng was not in a hurry at this time, and slowly used the Eye of Heaven and Earth to see through the formations, and analyzed the specific framework and structure of the formations, and then shuttled back and forth leisurely.

Swish, swish, swish!

With the assistance of the Eye of Heaven and Earth, Ye Feng's efficiency can be said to be very fast.

So at this time, Ye Feng was shuttled through the formations, and the power of those formations could not harm him at all.

But after all, there are formations that change very quickly.

Even with Ye Feng's Eye of Heaven and Earth, it is difficult to capture the changing patterns and rhythms of these formations.

So sometimes, Ye Feng will also be

Some terrifying formation power almost hit him, almost turning Ye Feng into ashes, making Ye Feng immediately sweat.

These ancient formations are indeed very terrifying. I don't know which super formation master set up so many formations around the dilapidated temple on the top of the mountain.

Even if it is a half-step master, or even a transcendent existence at the master level, it may be difficult to break through so many overlapping formations.

Because these formations are not simply combined together, but overlap one by one.

Each formation undergoes its own changes, and naturally many people who enter the formation are unable to resist.

However, Ye Feng's Eye of Heaven and Earth has finally been cultivated to the highest level and can see through all formations.

So taking some risks, Ye Feng finally passed through all the formations and came to the middle area.

There is no formation here anymore.

Not far away, a dilapidated palace stood there, exuding an ancient and vicissitudes of atmosphere.

Uh-huh!

At this moment, Ye Feng looked in a certain direction not far away.

He discovered that there were energy fluctuations among the countless formations on the other side.

It should be the group of a dozen half-step masters who are united together, attacking each formation, trying to force their way here.

But in response, Ye Feng showed a faint smile on his face.

Because Ye Feng knew that if these dozen half-step masters tried to force the attack formation, it would be impossible to succeed.

Only his ability to see through formations could allow him to travel through so many ancient formations and successfully come here.

Uh-huh!

At this moment, Ye Feng no longer wasted time and flew directly towards the ruined palace in the middle.

When Ye Feng arrived at this dilapidated palace, he immediately saw a very ancient-looking stone tablet standing in the dilapidated palace.

This stone tablet has four big characters written on it: "The Monument of Great Suppression of Demons".

"Big Town Demon Monument?"

Seeing the stone tablet in front of him, Ye Feng had not yet spoken, but the Demon-Suppressing Magic Pen in his dantian made a surprised sound.

Ye Feng heard the sound of the Demon-Suppressing Magic Pen in his dantian, and immediately couldn't help but his eyes lit up, and he said loudly: "Senior Demon-Suppressing Magic Pen, are you awake again?"

Although the Demon-Suppressing Magic Pen is a magic weapon in ancient times, it has its own spiritual consciousness and powerful strength. It has long become a transcendent existence and is no longer a "magic weapon."

" category, so Ye Feng called him "senior".

At this moment, the Demon-Suppressing Magic Pen spoke in the Dantian: "I originally fell into a deep sleep again, but I sensed the power of this large Demon-Suppressing Monument, so I woke up. This Large Demon-Suppressing Monument, and I was a powerful treasure with the same reputation back then. My Demon-Suppressing Magic Pen and the Great Demon-Suppressing Monument were both treasures that originated in the glorious era of the world and were dedicated to suppressing demons. "

When Ye Feng heard the demon-suppressing magic pen in his dantian say this, his eyes suddenly revealed a look of deep surprise.

Unexpectedly, there is such a powerful treasure in the middle of this dilapidated palace. ??

The stone tablet in front of me is actually a large demon-suppressing tablet that is as famous as the demon-suppressing magic pen, which shows that its value is also very huge, and it is simply a priceless treasure.

At this time, the demon-suppressing magic pen in the dantian said: "However, this large demon-suppressing monument seems to have been more seriously injured than me. The consciousness

inside has been wiped out, and there is no big energy fluctuation. It is estimated that he is already disabled.

Hearing what the current demon-suppressing magic pen said, Ye Feng nodded slightly and said loudly: "Even in a disabled state, being able to be as famous as you, the demon-suppressing magic pen, shows that this large demon-suppressing monument is of great value. I Put it into your Dantian first and see if you can use Hongmeng Purple Qi to repair it."

Uh-huh!

After saying that, Ye Feng didn't hesitate at all. He stretched out his hand and touched the large demon-suppressing tablet in front of him. He immediately absorbed the large demon-suppressing tablet into his Dantian.

At this moment, the Demon-Suppressing Magic Brush said: "Your boy's Hongmeng Purple Qi does have a huge repair effect. Maybe it can really successfully repair this disabled Demon-Suppressing Monument. In that case, you will get A very powerful treasure, even if it loses its consciousness, it can still exert great power. "

Hearing what the Demon-Suppressing Magic Pen said, Ye Feng immediately nodded vigorously, and then couldn't help but ask: "Senior Demon-Suppressing Magic Pen, you were here back then, and you should be aware of the dilapidated temple in front of you. , it should be left by the owner of this ancient famous mountain."

The Demon-Suppressing Divine Pen nodded and said in his Dantian: "The owner of this famous ancient mountain is an extremely mysterious existence. Even I don't know who he is. He is definitely comparable to the Demon-Suppressing Divine Pen that was in charge of me back then. The most powerful person in Confucianism and Taoism is Tian Yangsheng."

When Ye Feng heard what the Demon-Suppressing Magic Pen said, he immediately nodded.

Originally, the silver-robed woman guessed that the owner of this famous ancient mountain might be the most powerful Confucian and Taoist man, Tian Yangsheng, who worked with the Demon-Suppressing Magic Pen back then.

But now it seems that it shouldn't be.

Because the Demon-Suppressing Magic Pen said that he did not know the owner of this famous ancient mountain, but his status was definitely very high.

At this moment, Ye Feng walked into the dilapidated palace in front of him and observed it carefully.

In this dilapidated palace, in addition to the Great Demonic Monument, there are also some weapon fragments, but they are all decayed.

Ye Feng was secretly horrified. An unimaginable tragic battle must have taken place in the place where this famous ancient mountain owner lived.

Ye Feng felt that the owner of this famous ancient mountain was probably a powerful man who controlled the Demon Monument of the Great Town.

The demon-suppressing magic pen in the dantian suddenly spoke: "Boy, this dilapidated palace should be just the place where the owner of the ancient famous mountain lived. There is no wealth. If you can get this disabled big demon-suppressing tablet, you can do it." It's already very good."

Ye Feng heard the demon-suppressing magic pen in his dantian saying this, but did not respond, because Ye Feng felt that it couldn't be that simple here, and there must be other opportunities hidden there.

Because so many top masters at the half-step domination level all say that this dilapidated palace contains the supreme tradition and inheritance left by the owner of this ancient famous mountain.

Ye Feng couldn't help but ask in his mind: "Emperor Chu, where do you think if there is the inheritance and Taoism of the supreme power here, it should be hidden?"

At this time, Emperor Chu was silent in his mind for a moment, and then said aloud: "I just used the soul gem to scan the surroundings. It is indeed as the Demon Suppressing Magic Pen said. In this dilapidated palace, except for the Demon Suppressing Monument, it seems that There is really nothing special. It should really be just a place where this ancient famous mountain owner simply lived, not a place where he left his supreme righteousness."

Hearing Emperor Chu say the same thing, Ye Feng suddenly had a look of astonishment in his eyes.

But this time, being able to obtain the treasure left by the famous ancient mountain owner, the Great Demonic Monument, was not a waste of time, and it was also an extremely rich harvest.

After all, the Demon-Suppressing Monument was as famous as the Demon-Suppressing Magic Pen back then.

Although it is about to be scrapped now, as long as it is constantly repaired with Hongmeng purple energy, it is still possible to recover.

Moreover, even if the Great Demonic Suppression Monument cannot be restored, even if it is only in a disabled state, it is estimated that it can still play a huge role and erupt with terrifying and astonishing power.

At this time, Ye Feng turned around and prepared to leave this dilapidated palace directly.

But suddenly at this moment, a hoarse voice suddenly came from the ruins under this dilapidated palace: "Young man, save me... As long as you save me, I will take you to this The real place of inheritance left by famous mountain masters..."

Chapter 3977 Ancient Mythical Beast

"who is it?"

At this time, a sudden voice appeared in his mind, causing Ye Feng to stop immediately as he was about to leave.

Ye Feng turned around at this moment, stared at the dilapidated palace in front of him, looked at the empty surroundings, and asked aloud: "Who is your Excellency?"

Hearing Ye Feng's question, the voice once again sounded from under the ruins: "Young man, I am an ancient divine beast that was suppressed under the ruins by the Dazhen Demon Monument. Now it has lost a lot of strength and cannot escape. Seal, as long as you, young man, can rescue this divine beast from the ruins, then this divine beast will take you to find the true inheritance place of the owner of this ancient famous mountain. Moreover, it will also grant you the supreme opportunity to bring you success in the future. You, a young man, soar to the sky and dominate the world."

Hearing this voice say this, Ye Feng's eyes suddenly froze.

Ancient mythical beast?

Ye Feng always felt that what this ancient beast said was a bit too bragging.

At this moment, Ye Feng walked directly to the central area of the dilapidated palace, and then saw a ruins.

Uh-huh! ??

At this moment, Ye Feng stretched out his hand and swept away all the rubble and broken weapon fragments on the ruins.

Sure enough, the next moment, Ye Feng saw that under the ruins, an underground space appeared, shrouded by a layer of formation light.

But at this time, Ye Feng looked through this transparent mask and saw the entire underground space was empty.

Um?

What about the ancient mythical beasts?

Ye Feng couldn't help but said in surprise: "Your Excellency is an ancient beast, why didn't I see you?"

The voice continued: "I am sealed under these ruins. How could you not see me? This beast can see you. I didn't expect you to be such a young boy."

At this moment, Ye Feng followed the direction of the sound and immediately looked towards a certain corner of this underground space.

Then, Ye Feng's eyes suddenly froze.

Because Ye Feng saw it, the person speaking turned out to be a toad that looked only as big as a palm.

No wonder Ye Feng didn't see it at first.

Because this khaki toad was lying in a corner of the ruins, it was really inconspicuous. At first glance, it looked like a piece of rotten stone.

Ye Feng immediately stared at the toad and couldn't help but said in shock: "Are you talking?"

Sure enough, the toad directly said: "Yes, young man, I am an ancient beast from back then.

As long as you save me, I will grant you supreme opportunities and good fortune. "

Hearing what the toad below said, Ye Feng suddenly had a look of deep astonishment in his eyes.

This was the first time Ye Feng saw an ordinary toad calling himself an ancient beast.

At this moment, seeing Ye Feng's silence, the toad couldn't help but said: "I know you must be doubting whether I am an ancient beast, because I look like this. Ordinary, but I want to tell you, I am really an ancient divine beast, but I practiced a legendary skill back then, called the 'Ninth Life Nirvana Skill'. My form is different in each life. In the seventh life, I It is still in the form of a flying unicorn, powerful and domineering, but I didn't expect that I have now lived to the eighth life and turned into the form of a toad. I don't think it looks good myself, but don't worry, when I live to the last life, I will enter After the ninth life, which is the last life of the Nirvana Skill, I will completely transform and evolve into the legendary ancient holy spirit form of the true dragon, god and phoenix level. At that time, I will be the only one in the world!"

At this moment, the toad was speaking with a very confident and domineering tone.

But combined with its current toad-like appearance, it looks particularly weird.

It doesn't give people the impression of confidence and domineering, but of being extremely lewd.

At this time, the corner of Ye Feng's mouth twitched slightly.

He always felt that the toad was bragging.

Ye Feng couldn't help but think to himself that this toad was probably a toad that became a spirit back then and became a toad spirit. It was accidentally affected by the war that year, so it was sealed here.

But what surprised Ye Feng was that this toad was quite tenacious.

You know, all the life force around this dilapidated palace has disappeared.

Even the Great Demonic Monument was beaten into a disabled state.

But this seemingly inconspicuous toad can actually survive in the seal until now, which shows that its vitality must be very tenacious.

But as for what the toad just said about the Ninth Life Nirvana Kung Fu, Ye Feng retained his doubts.

After all, Ye Feng secretly asked Emperor Chu in his mind just now, what kind of Ninth Generation Nirvana Technique this toad was talking about, and whether there is such a magical inheritance in the world.

In this regard, Emperor Chu said that he did not know either.

So Ye Feng felt that this toad was probably bragging.

If you want to save it yourself.

It is estimated that this toad was just a toad spirit among the demons.

However, Ye Feng didn't bother to care whether this toad was bragging or telling the truth. Ye Feng was still concerned about this toad and whether he knew where the true inheritance of the owner of this ancient famous mountain was.

So at this time, Ye Feng stared at the toad in the seal and asked: "You just said that you can take me to find the real inheritance place left by the owner of this ancient famous mountain. Are you sure you are not lying?" I?"

Hearing Ye Feng's question, the toad in the seal immediately croaked and said, "Cock! I am an ancient divine beast, so naturally I will not lie to others. This is not my style."

Hearing the assurance from the toad in the seal, Ye Feng had doubts in his heart. Maybe the toad was just trying to deceive himself and help it get out of the seal.

But Ye Feng felt that this toad didn't seem to be very powerful. It was not a so-called ancient beast at all. It was probably a toad spirit with a relatively tenacious vitality. .??.

Even if Ye Feng rescued the toad, he should be able to handle it easily.

So at this time, Ye Feng nodded and said: "Okay, then I will rescue you from this seal."

After saying that, Ye Feng turned directly to the eye that rotates the world and looked at the seal in front of him.

The seal in this ruins is also a very unique formation, so Ye Feng's Eye of Heaven and Earth can naturally see through it.

Soon, Ye Feng discovered the weak point of the seal and directly pointed at it with a finger.

Boom!

Along with a huge roar, Ye Feng's finger instantly shattered the seal.

It has to be said that Ye Feng's Eye of Heaven and Earth, when encountering this ancient sealing formation, is really a monster-like existence. It can instantly see through the weaknesses of various

formations and analyze the advantages and disadvantages of various formations. Structure and frame, change the entire formation at will.

At this time, Ye Feng shattered the formation in front of him, and the toad underneath immediately squatted down with its legs and jumped out of the hole in the ruins.

"Uh-huh!"

But at this moment, the toad did not fly towards Ye Feng, but rushed towards a certain direction in the distance.

Totally trying to escape!

Ye Feng grinned at this time and said loudly: "I have been prepared for this for a long time."

Boom!

At this moment, Ye Feng's whole body suddenly burst into flames. He moved the space gem and teleported behind the escaping toad, and slapped the toad on the ground.

There was a "boom"! !

Ye Feng's strength is very terrifying. After all, he is Hongmeng's immortal body. The toad withstood such a terrifying attack and directly smashed a large piece of land.

But the toad was not dead, not even a scratch.

This made Ye Feng look surprised.

Ye Feng originally thought that this slap would make the toad spirit vomit blood and teach the toad spirit a lesson.

Unexpectedly, this toad was fine and unscathed.

But the toad shouted loudly: "Hey! Boy, why are you so cruel? You almost blew the head of this beast! And what was that move just now? It was able to flash to the side of this beast in an instant. , Do you have any very high-level ancient space treasure in your hands?"

Just when the toad was croaking, Ye Feng stood in front of the toad and said, "I knew you wanted to escape, you cunning toad spirit."

"Who do you think is the toad spirit?"

Hearing Ye Feng call him this, Toad immediately said angrily: "I am an ancient divine beast! Not some bullshit toad spirit! Boy, treat a respected senior like me with respect, you know?" "

Ye Feng just said aloud: "I have never seen a respected senior who made a sworn promise to help someone one second, but then ran away the next second."

When the toad heard what Ye Feng said, he immediately smiled, touched his big toad head with one paw, and said loudly: "Young man, don't be angry, I'm not running away, I just want to test you. The reaction ability of young people, it seems now that you are a very powerful young man, very good, your reaction ability is really fast, I admire you very much. "

Snapped!

At this time, Ye Feng directly slapped the toad in front of him and said: "I finally understand that you are not a divine beast at all, and the Ninth Life Nirvana Technique you mentioned is just making up. What about the seventh-generation flying unicorn, the eighth-generation toad, the ninth-generation true dragon and phoenix? Don't talk nonsense with me. I think you are just a toad spirit, but your vitality is relatively tenacious. You have survived to this day. Now you are old to me. Be honest, take me to find the true inheritance place of this ancient famous mountain master, otherwise, I will roast you toad spirit! "

Chapter 3978 Third-rate master

Next, Toad was severely punished by Ye Feng and finally became completely honest. He even changed his normal behavior and called Ye Feng "Master Feng" behind his back.

Ye Feng was too lazy to pay attention to the toad spirit's compliment, and just said: "If you don't take me to find the true inheritance place of this ancient famous mountain master, and want to take it all for yourself, then I will roast you directly. Don't tell lies."

"Whether you want to bake or not, Mr. Feng, I'm not talking about you. You fight and kill all day long. It's not good to be too angry and it's easy to hurt your body."

The toad immediately grinned and said loudly: "Master Feng, don't worry, all the creatures in the entire ancient famous mountain have died, and I am the only one left. After all, I am an ancient beast with tenacious vitality. I have been able to hold on until Today, Ye Feng, you saved me this time, and I will naturally give you a huge reward."

As Toad spoke, he opened his mouth and spit out a small map. He looked at it carefully and said, "Don't worry, I am very familiar with this place where the true heritage of the famous ancient mountain masters came from. I will take you there directly later. It's natural for brothers to share good things together!"

At this moment, the toad said, patted his big toad head with his front paws, and directly called Ye Feng brothers, which seemed extremely superior.

When Ye Feng saw the small map held by Toad, the corners of his eyes twitched slightly.

This guy probably came here not to participate in the war, but to hunt for treasure. There is even a detailed map of this famous ancient mountain.

At this moment, Ye Feng didn't want to ask any more questions, but said concisely: "Stop talking nonsense, just tell me where is the inheritance place left by the owner of this ancient famous mountain?"

Now Ye Feng already knows that in the middle of the mountain that many top experts value, there is actually no supreme Taoism left by the masters of ancient famous mountains. This place is just a broken battlefield from back then.

However, Ye Feng finally got the supreme treasure of the year, the Great Demonic Monument, from here. Although it was in a disabled state, it was still a huge gain.

This kind of treasure from the ancient era is still very powerful. Once spread, it will definitely cause fighting in the entire world of origin.

At this moment, Toad looked at the map in his hand and said loudly: "Let's go together to explore the Taoist inheritance place left by the owner of this famous mountain, but we have to pass through many terrifying formations."

Ye Feng glanced at Toad lightly and said, "You don't need to worry about this. I have a special talent and can travel through formations without any danger."

"yes!"

At this time, Toad seemed to remember that Ye Feng had broken the sealing formation with just one finger, and asked curiously: "Ye Feng, who are you? You originated from the end of the Dharma era in the great world. It is impossible for a peerless monster like you to be born."

Now in Toad's eyes, Ye Feng is definitely considered a monster, because Ye Feng is more powerful than this ancient beast.

At this moment, if Ye Feng knew what the toad was thinking, he would definitely sneer at you. If you are a toad spirit who is more powerful than you, is he a peerless monster?

Uh-huh!

At this time, the toad made a "croak" sound and flew directly in a certain direction in the distance.

What made Ye Feng breathe a sigh of relief was that the direction in which the toad went was different from the climbing direction of the group of powerful men from all major powers.

In this case, Ye Feng would not have met those extremely powerful people who were at the half-step dominance level.

Ye Feng followed Toad, flying through the formations one after another and flying down the mountain.

Ye Feng looked confused and asked: "Toad, are you sure you didn't trick me? This is obviously the way down the mountain."

Toad immediately spoke up and said: "You, the descendants of the Dharma Ending Age, all think that the Taoist heritage of the owner of this ancient famous mountain is on the top of the mountain, because the top of the mountain is the most dangerous place, and the most dangerous place must be the place where chance will come. The more, but this is not the case in this mountain. The owner of this famous mountain had long known that the enemy was coming, so he secretly stored his Taoist heritage in an unattended place halfway up the mountain. As a result, even if he dies in battle, the enemy will not get his wealth."

When Ye Feng heard what Toad said, he nodded doubtfully.

One person and one toad moved very quickly. In less than half an hour, they had traveled through a large area of ancient formations and arrived at the halfway point of this famous ancient mountain.

At this moment, the toad jumped directly to a mountain halfway up the mountain, then looked at the map in his hand and said

Said: "It should be right here."

After the toad murmured, he continued to open his mouth and spit out a small golden token. He smiled and said: "Fortunately, I was very lucky back then. After the death of this famous mountain master, I secretly lurked into the seat of this ancient famous mountain master. The place of transformation, I got the original command card from him, which is the most critical thing to open the true inheritance place of this famous mountain master. "

When Ye Feng heard what Toad said, a trace of surprise suddenly appeared in his eyes.

Unexpectedly, this toad spirit actually still has the original command tablet of this ancient famous mountain owner.

At this moment, Ye Feng couldn't help but ask: "Toad, who is the owner of this famous ancient mountain? What is his name? Is he the top peerless strongman in the ancient glorious era?"

Toad chuckled and said aloud: "Of course, this famous mountain master, in that glorious era, was definitely a powerful man who dominated the country, but he is not the top one. The top one is someone like me who has unlimited potential. The ancient mythical beast."

When Ye Feng heard this, his face darkened.

This toad spirit really puts gold on his face and boasts about everything he says.

However, Ye Feng was too lazy to care about anything and said loudly: "You haven't said who the owner of this ancient famous mountain was."

Toad glanced at Ye Feng and said: "Anyway, he is a big shot in that ancient glorious era. Even if you tell me you don't know him, hundreds of thousands of years have passed."

Ye Feng asked: "Is he the owner of the Dazhen Demon Monument?"

Toad shook his head and said: "The owner of the Great Demonic Town Monument that you got was just a subordinate of this ancient famous mountain owner."

"What? So powerful?"

Ye Feng was shocked.

You know, the Demon-Suppressing Monument and the Demon-Suppressing Magic Pen are as famous as peerless treasures.

Therefore, the owner of the Dazhen Demon Monument must have been a person of unparalleled splendor in those glorious days.

Unexpectedly, the owner of the Dazhen Demon Monument was actually just a subordinate of this famous ancient mountain owner.

This is really beyond Ye Feng's expectation.

Toad suddenly said: "Forget it, let me tell you, this ancient famous mountain

His master is called the God Emperor of the Void. In the glorious days of the Origin World, although he was not the top transcendent existence, he was definitely a peerless and powerful man who dominated the world. He was a supreme overlord, very powerful, especially among other

things. The secrets of the great void that are cultivated simply come and go without a trace, and the attack methods are mysterious and unpredictable, making it impossible to guard against. "

Ye Feng couldn't help but his eyes moved, and asked: "Is it more powerful than the Lord?"

"hehe."

Toad smiled contemptuously and said: "Dominator? It's just a self-proclaimed title for those strong men who can't break through the shackles of the Dharma-ending era of the Origin World. What you call the realm of dominance now was in the glorious era when the Origin World was truly prosperous. , can only be regarded as a third-rate master."

"Third...third-rate master?"

Ye Feng heard the toad in front of him say this, and his eyes suddenly showed a look of astonishment.

However, Ye Feng also knows that before the decline of the Origin World, countless super strong people were indeed born. They escaped from the Origin World and established advanced cultivation civilizations in other interfaces.

But what Ye Feng didn't expect was that even if the master was not a top powerhouse in the ancient glory days, he could still be regarded as an existence that could dominate an area.

But here in Toad, the strongest master in the Age of Dharma End, could only be regarded as a third-rate player in the glorious era of the Origin World.

This really made Ye Feng a little stunned.

However, at this point, Ye Feng did not doubt Toad's statement.

Because although this toad spirit is not strong, it has experienced that glorious era after all, and it must be very familiar with that glorious era.

At this moment, when Ye Feng was thinking secretly in his heart, the toad suddenly said: "It's open."

Buzz!

At this time, Toad successfully opened the entrance to the mountain with the token.

I saw a huge rock on the mountain. It immediately moved slowly towards both sides, revealing a deep mountain passage.

At this time, Toad's eyes also showed a look of expectation, and he said aloud: "The true inheritance place of the Void God Emperor has been here for hundreds of thousands of years. I don't know if the guy who was the Void God Emperor at that time has brought him... The most powerful magic weapon 'Mirror of the Void' is placed here. If it is placed here, it will make a fortune!"

Chapter 3979 God Emperor Sculpture

At this moment, the toad successfully opened the entrance to the mountain.

Ye Feng's eyes immediately brightened, and he followed Toad towards the inner area of the body quickly.

This mountain passage is very long.

Ye Feng followed the toad and walked in it for a long time, but never reached the end. .??.

But what made Ye Feng relieved was that there wasn't much danger here.

At this time, Toad smiled and said: "Don't worry, there is nothing too dangerous. This place is exactly where the God Emperor of the Void stored his inheritance. It is his habitat. Many people simply don't I didn't know that this place existed, so the God Emperor of the Void would not arrange all kinds of terrifying formations here. The reason why he arranged countless layers of formations on the top of the mountain was just to confuse others. In fact, he The true heritage is here."

When Ye Feng heard what Toad said, a strange look suddenly appeared in his eyes.

If those half-step masters had gone through all kinds of hardships and reached the top of the mountain, only to find that there was nothing in the dilapidated palace on the top of the mountain, I wonder if they would cry without tears.

Moreover, the only valuable thing on the top of the mountain, the Demon Monument of Great Town, was taken away by Ye Feng.

Thinking of this, Ye Feng suddenly felt a little secretly happy in his heart.

Because he has accomplished something that he cannot even half-step to dominate.

At this time, Ye Feng glanced at the toad spirit chatting beside him, with a hint of surprise in his eyes.

Unexpectedly, this toad spirit actually found the true inheritance place of this ancient famous mountain master, the God Emperor of the Void.

And just as Ye Feng was thinking secretly, the toad leading the way suddenly stopped and said loudly: "We have arrived."

At this time, Ye Feng walked to Toad's side and looked forward, finding that he had indeed reached the end of the mountain passage.

\u003c

br\u003e At the end of the passage, the entire field of vision suddenly becomes clear.

The entire mountain is hollow inside.

A huge and glorious palace inside the mountain was built.

In this glorious palace, there are many tall beast puppets, humanoid puppets, and even some warrior puppets. They are wearing heavy armor made of black iron. They look very tall and shocking.

Here, it has become a palace and country like a puppet.

However, Ye Feng discovered in an instant that these ancient puppets, whether they were humanoid puppets or beast puppets, were decayed, almost motionless, and had lost their energy source.

Ye Feng immediately couldn't help but said in surprise: "Fortunately, all these puppets have lost their energy. Otherwise, we would not be able to deal with so many terrifying puppets."

The toad standing next to him immediately smiled and said aloud: "It has been hundreds of thousands of years. Even the most powerful and powerful people at that time are probably not able to last for such a long time, let alone a group of puppets. And The God Emperor of the Void is not a puppet master who specializes in puppets, it is just a puppet he made at random. It can last for tens of thousands of years at most, and it will definitely die in hundreds of thousands of years. "

The toad seemed to know the Emperor of the Void very well. At this time, he jumped directly into the glorious palace at the end of the passage.

Uh-huh!

Ye Feng also quickly followed.

At this time, Toad's eyes were filled with deep expectations, and he flew directly towards the main hall in the center of this glorious palace, quickly.

Because Toad felt that the inheritance of the Void God Emperor should be in that glorious palace.

besides

The peerless treasures left behind by the Void God Emperor might also be among them.

If you find it, you will really become rich instantly.

Ye Feng was naturally following Toad at this time.

After all, Ye Feng also wanted to find the inheritance of the Void God Emperor and accumulate his own martial arts foundation.

When they walked into the central palace, they immediately saw a huge sculpture of a middle-aged man standing in the middle of the palace.

This sculpture of a middle-aged man looks very vast and majestic, making people feel very small at first sight.

Toad immediately said, "This is the sculpture of the God Emperor of the Void."

After saying that, under Ye Feng's surprised gaze, the toad flew directly towards the sculpture, then stretched out a claw, and was about to smash the sculpture into pieces.

Boom!

But the next moment, when the toad's claws struck the sculpture.

Along with a huge roar, the toad's entire body was blown away and fell hard against the wall not far away.

The toad immediately screamed out in pain: "What material did this guy use? He cast himself into a sculpture. How can it be so strong?"

Ye Feng said aloud: "Why do you want to smash this sculpture of the God Emperor of the Void?"

Toad said aloud: "I heard rumors back then. It is said that the natal treasure refined by the Emperor of the Void, the Divine Mirror of the Void, is stored in the sculpture he cast for himself. I don't know if it is true or not, so I want to give it a try."

Hearing what Toad said, Ye Feng's eyes suddenly froze, and then he said, "Let me take a look. I guess you won't be able to break this sculpture. Your strength is too weak."

Hearing what Ye Feng said, the toad immediately said angrily: "Ye Feng, don't look down on me. I lived as a toad in this life, which really angered this beast. When this beast lives to its ninth life, You

will definitely be able to become an ancient holy spirit comparable to the real dragon, god and phoenix. When the time comes, Ye Feng, you will look up to me at my feet and beg me to give you all kinds of opportunities and fortunes, and beg me to take you flying."

Ye Feng ignored Toad's bragging, but came directly to the sculpture of the Void God Emperor and observed it carefully.

What surprised Ye Feng was that the aura contained in this sculpture was very familiar to Ye Feng.

It turned out to be the energy of chaos.

Ye Feng couldn't help but said in surprise: "This sculpture seems to be cast from a very rare material with chaotic properties."

"Um?"

Hearing what Ye Feng said, Toad immediately showed surprise in his eyes and couldn't help but said: "No wonder it's so strong. It turns out that the Void God Emperor got the chaos attribute material back then. That's such a pity. Chaos attribute The material is probably difficult to destroy. Not to mention Ye Feng, your current cultivation level at the fourth level of the emperor. Even if you break through to the god level above the emperor level, it may be difficult to destroy this kind of chaotic material. It seems that We have to wait until we become stronger before coming here."

Ye Feng shook his head and said: "Although the chaos material is very strong and cannot be broken, I have other ways, because my original power contains the power of the chaos bloodline. I will give it a try and see if I can Directly use my chaotic energy to disintegrate this chaotic material."

At this moment, Ye Feng said, he stretched out his hand and began to release a stream of chaotic energy, covering the sculpture of the Void God Emperor cast from chaos attribute material in front of him.

Seeing Ye Feng directly releasing the energy of chaos, Toad immediately couldn't help but look surprised in his eyes, and said loudly: "You kid is actually the inheritor of the chaos attribute. It's really rare."

Chapter 3980 Mysterious Space

Buzz!

At this time, streams of chaotic energy continued to emit from Ye Feng's hands, and then completely enveloped the sculpture of the God Emperor in front of him.

At this moment, Ye Feng immediately sensed that his chaotic energy could not disintegrate the sculpture in front of him.

This gave Ye Feng a hint of gloom in his eyes. .??.

Is there no other way?

At this time, Emperor Chu in his mind suddenly said: "Ye Feng, your chaotic energy should be able to be fused with the chaotic material in this sculpture, and then you can see if you can use the chaotic energy to guide it out." The super magic weapon contained in this God Emperor sculpture does not have to disintegrate the entire sculpture, it can be pulled out from the inside. "

Hearing what Emperor Chu said in his mind, Ye Feng's eyes suddenly lit up and he couldn't help but ask: "Is there really a super magic weapon in this sculpture of the Void God Emperor?"

Emperor Chu nodded in his mind and said aloud: "I just used the soul gem to detect it, and there is indeed a very obscure magic weapon fluctuation inside. It is very likely that it is the birth magic weapon of the Void God Emperor that the toad said. The Divine Mirror of the Void was indeed a very powerful peerless treasure in the glorious age of the Great World of Origin. It was recorded in the memory fragments of my recent awakening. It seems that the Divine Emperor of the Void had relied on this Divine Mirror to invade. Some very scary advanced interfaces, such as the hell interface, are amazingly powerful."

Hearing what Emperor Chu said in his mind, Ye Feng's eyes suddenly lit up, and he quickly started to follow what Emperor Chu said, not to use the energy of chaos to disintegrate the sculpture in front of him, but to merge with the sculpture in front of him.

Sure enough, after Ye Feng changed his strategy, he discovered that his chaotic energy could really integrate into the sculpture in front of him and penetrate into it.

Then Ye Feng slowly controlled the chaotic energy he released, and at once slowly pulled out the super magic weapon contained in the sculpture.

At this time, when Toad standing next to Ye Feng saw this scene, he couldn't help but show deep surprise in his eyes, and said loudly: "It seems that the legend is true, the Void God Emperor's Void Mirror" , really hidden in this sculpture."

At this moment, Ye Feng used the energy of chaos to successfully pull out a unique magic weapon from the sculpture.

It is a bronze mirror that looks like it is cast from bronze.

It is very simple and exudes a vast atmosphere.

Without any hesitation, Ye Feng took the bronze mirror directly into his hands, and then asked aloud: "Is this the magic weapon of the Void Mirror, the Void Mirror? Why does it look so tattered?"

Toad scratched his head at this time and said aloud: "It doesn't look as extraordinary as imagined. I don't know if this mirror is the Void Divine Mirror of the Void God Emperor."

Ye Feng said aloud at this moment: "You will know after you try it."

Toad said: "The Divine Mirror of the Void requires special and incomparable divine power of the void to activate it. You can't push it now at all. You must first find the inheritance of the Void God Emperor, practice the inheritance of the Void God Emperor, and possess the Void God." Only divine power can move this mirror."

When Ye Feng heard what Toad said, he directly activated the space gem in his body.

You must know that the space gem is a specialized space attribute magic weapon. It is something left by the high-level ruler Chaos God Emperor. It may be able to activate this void mirror.

But the next moment, Ye Feng was quite disappointed that the power of space in the space gem could not activate this mirror.

Emperor Chu in his mind said aloud: "Ye Feng, although the space gem is a space attribute left by a high-level master,

It is a sexual treasure, but this mirror was the natal magic weapon of the Void God Emperor back then. Compared with this mirror, the space gem is too low-level. It is just a domination level thing and cannot compare with the origin of the great world like the Void God Emperor. A super strong man in the glory days. "

When Ye Feng heard what Emperor Chu said in his mind, he immediately nodded.

At this moment, Ye Feng also sighed. Unexpectedly, these master gems that had been growing up with him were slowly falling behind, almost eliminated, and could no longer keep up with his use.

At this time, Ye Feng looked at the toad beside him and asked aloud: "So where is the inheritance of the Void God Emperor? There seems to be nothing else in this palace except this sculpture."

Hearing Ye Feng's question, Toad also scratched his head and said: "I don't know much about this. I just know that the Void God Emperor's magic weapon, the Void Mirror, is hidden in the sculptures he cast. As for his The inheritance, I don't know where it is."

Ye Feng nodded and said, "Then let's look around."

At this moment, the toad flew in a certain direction and began to search.

Ye Feng also exuded his soul power around him, groping and exploring inch by inch to see where the inheritance of the Void God Emperor was.

The God Emperor of the Void created such a place for himself to live in, and also left his natal magic weapon, the Divine Mirror of the Void, here, so his inheritance should exist somewhere in it.

However, Ye Feng searched for a long time and couldn't find any clues.

On the contrary, Toad searched for a while and couldn't find the inheritance of the Void God Emperor, so he went to collect the puppets that the Void God Emperor cast back then.

Although these puppets have decayed and cannot be used anymore, Toad feels that the materials used to cast these puppets are very high-grade materials and can be recycled.

use.

"It's strange why the puppets here can't move."

Suddenly at this moment, the toad not far away couldn't help but murmured.

Ye Feng saw that Toad had moved a lot of puppets cast by the Void God Emperor, but the remaining few puppets could not be moved no matter what.

"Um?"

Ye Feng's eyes flashed slightly, and he walked over. Using the Eye of Heaven and Earth, he immediately discovered that these puppets that could not be moved were actually surrounded by the fluctuations of several formations.

However, the energy of these formations has been exhausted, so there are only some fluctuations. Only Ye Feng's Eye of Heaven and Earth can see such fluctuations.

Ye Feng immediately couldn't help but said with surprise in his eyes: "These puppets cannot be moved. It seems that these puppets were the core of several formations here and were used as formation eyes."

Hearing what Ye Feng said, Toad seemed to understand something, and immediately couldn't help but said in surprise: "As expected of Master Feng! He saw through the mystery here at a glance! These puppets that cannot be moved should be someone A formation eye that opens a mysterious space. The inheritance and huge wealth of the Void God Emperor may be in the mysterious space guarded by these formations, but it is estimated that it cannot be opened. The formation here has been completely It's a pity that it's gone."

Ye Feng thought for a moment, and then said aloud: "Although the energy of the formation here was exhausted and completely dispersed, these puppets that are the eyes of the formation are still here. Let me give it a try. Let's see if we can use the Eye of Heaven and Earth to restore the formation here and then open up the mysterious space hidden here."

At this time, Toad couldn't help but clicked his tongue twice and said: "This guy, the God Emperor of the Void, is so scheming that he actually used formations to hide a mysterious space in his own

habitat. If it weren't for our Master Feng's cleverness, , I probably missed the huge wealth left by the Void God Emperor!”
