### Chapter 3981 Ancient Imperial Tomb

At this time, when he heard that Ye Feng was able to restore the previous formation, Toad naturally praised Ye Feng and called him "Master Feng" while driving.

Ye Feng ignored Toad's compliments and quickly ran the Eye of Heaven and Earth to analyze the structure and framework of the formation here.

You must know that Ye Feng's Eye of Heaven and Earth, after practicing to the end, can not only see through the framework and structure of various formations, but also has a more important ability, which is the ability to mobilize the power of the surrounding heaven and earth to change the framework and structure of formations. structure.

In other words, Ye Feng's Eye of Heaven and Earth can not only see, but can also do some things.

So at this time, Ye Feng began to reconstruct the framework and structure of this formation based on the energy fluctuations dissipated by the formations in front of him.

As Ye Feng used the Eye of Heaven and Earth to mobilize the energy of the surrounding heaven and earth, the formation eyes composed of the puppets in front of him once again appeared with formation lights around them, and then restored the formation here.

Half an hour passed, and cold sweat appeared on Ye Feng's forehead.

But Ye Feng finally completed the reconfiguration of the formations in front of him. ??

Buzz!

The formation of that year was once again restored.

At this time, looking at the formation that reappeared in front of him, Toad was so impressed by Ye Feng that he said aloud: "Ye Feng, if you have the opportunity to become a master of a super formation master, your talent in formation is really great. It's amazing. With the eye of heaven and

earth you have, you are simply a natural formation master. Practicing formations will definitely get twice the result with half the effort, otherwise it would be a waste of your talent.”

Hearing what Toad said, Ye Feng just smiled slightly and said: "There may be a chance in the future, but now I'd better improve my own cultivation strength first."

Toad immediately spoke up and said: "A true great formation master, even a top powerhouse, would not dare to provoke him. You must know that formation masters mobilize the energy of the world, so some great formation masters who have studied formations deeply, even if they themselves His cultivation strength is not very strong, but he can quickly mobilize the energy of the world around him to fight against enemies. Even some powerful supernatural forces are very afraid of him.

Afraid of a great formation mage. In the glorious days of our great world, there was once a top super power standing on the earth. He offended a great formation mage. As a result, the great formation mage came to the world alone. The super powerful force's base camp simply outlined a terrifying formation, which enveloped the entire super powerful force's base camp. In the end, no one escaped, and they were all destroyed by the great formation mage's formation. killed. "

Hearing what Toad said, Ye Feng nodded slightly and said aloud: "I know this, the formation master has practiced to the extreme, it must be very terrifying, but after all, I feel that all this is external force, it is best to improve one's own strength, otherwise If I encounter some scary guys, I might be killed instantly before I can set up the formation."

When Toad heard what Ye Feng said, his eyes suddenly froze, then he nodded and said, "What you said makes sense."

While one person and one toad were talking, Ye Feng had already activated the restored formations in front of him, and successfully opened a mysterious space door in front of him.

"It's done!"

Toad immediately said with bright eyes: "Behind the door of this space is definitely the mysterious space. Let's go in quickly."

Ye Feng nodded, and he and Toad walked directly into the door of this space.

Buzz!

When they passed through the space gate, they immediately saw a shocking scene.

Behind this space gate, there is actually a majestic and endless ancient imperial mausoleum. Countless buildings were built inside, as well as various terracotta warriors and horses, as well as various mountains and terrains, which perfectly shaped the landscape controlled by the Void God Emperor back then. The power of that ancient divine dynasty.

At this time, when Toad saw this scene, he couldn't help but said with shocked eyes: "It turns out that everything outside is just a disguise. Here

This is where the Void God Emperor truly left his treasure. "

Uh-huh!

At this moment, the toad was flying directly towards the center of the ancient imperial tomb.

A majestic royal palace was built there.

It should be the place where the Void God Emperor stores his final wealth.

Ye Feng also quickly followed.

When they arrived at the palace, they immediately saw a huge skeleton sitting on a pure gold throne in the palace.

Toad immediately widened his eyes and said loudly: "Good guy! After the death of the God Emperor of the Void, he still came here. Even if he died, he would die in this ancient imperial mausoleum. Even after death, he would still enjoy it. With the treatment of the God Emperor, he rules the world."

Ye Feng nodded and walked forward directly.

He saw a huge plate next to the throne of the Void God Emperor.

On the plate, there is an ancient book.

Ye Feng walked over and immediately saw the four characters "Great Void Hand" written on the book.

The toad jumped over and said with bright eyes: "This is the peerless inheritance of the Emperor of the Void, the Great Void Hand. After successful cultivation, the cultivator can not only derive the special and incomparable divine power of the Void in the body, but also the Great Void Hand. The hand itself is a very powerful super martial arts inheritance. Once used, it can condense into a huge void hand that covers the sky and the sun. It is full of terrifying spatial oppression and ultimate spatial destructive power. Most people simply cannot Avoid this kind of big void hand, because this hand contains profound void power, which is different from ordinary Dharma palms. "

Hearing what the toad beside him said, Ye Feng immediately nodded, picked up the book, and began to read and practice.

Toad was also looking at the records in this ancient book and seemed to want to practice the Great Void Hand.

Ye Feng saw the body

The toad next to him was also looking at the book, and immediately couldn't help but asked in surprise: "My attribute power can be transformed into any attribute, so even if I am not the inheritor of the space attribute, I can still practice this kind of great void hand. , you, a toad spirit, can actually practice this kind of great void hand?"

Hearing what Ye Feng said, the toad immediately shouted: "Quack! Ye Feng, don't look down on me! I'm an ancient divine beast. What inheritance can't I practice?"

Buzz!

After saying that, the toad directly stretched out a claw, and actually condensed a huge void claw in the void, and blasted towards the distance, bursting out with terrifying destructive power.

When Ye Feng saw this scene, his eyes suddenly froze and he couldn't help but said: "You have successfully cultivated the Great Void Hands so quickly? I haven't even succeeded yet."

At this moment, Ye Feng stared at the triumphant toad beside him, with a look of uncertainty in his eyes.

Could it be that this toad spirit is really some ancient mythical beast?

Otherwise, how could he have such a talent?

Toad saw Ye Feng's surprised look and immediately felt that he had finally proved his talent. He said proudly: "Boy, now you finally understand how powerful this beast is. If you are wise, hurry up and treat this beast as your own." I promise, if this is the case, this divine beast may consider taking you to dominate the world and take you flying in the future."

Snapped!

But Ye Feng slapped the triumphant toad directly and said: "I temporarily believe that you are an ancient beast, but if your strength does not surpass mine, don't pretend to be in front of me, or I will blow up your toad." head."

Ye Feng said at this time and continued to comprehend the Great Void Hand in his hand.

Toad, on the other hand, grinned slightly after being slapped by Ye Feng, and said loudly: "Good boy, just wait for me. When I transform into the ninth life and become an ancient holy spirit state like a true dragon, god and phoenix, I will wait for you." You must kneel down in front of me and call me boss!"

Chapter 3982 Nine Color Crystal Stone

Just when the toad was angry and croaking.

Buzz! .??.

Ye Feng has also successfully comprehended the peerless inheritance left by the Void God Emperor, the Great Void Hand.

At this moment, Ye Feng stretched out a hand not far away.

Buzz! .??.

The power of the void in the surrounding heaven and earth suddenly rioted, and then directly condensed into a big black hand that covered the sky and the sun, filled with the power of the void, and suddenly bombarded towards the front.

"Boom!!"

The next moment, the entire land of the Ancient Imperial Tomb was blasted with a huge palm print.

The power is many times more powerful than what the toad released.

Seeing this scene, Toad's eyes widened immediately, and he couldn't help but said: "You kid has succeeded in practicing so quickly!"

At this time, Ye Feng successfully cultivated the Great Void Hand left by the Void God Emperor, and a special power was derived from his body, the Divine Power of the Void.

So at this time, Ye Feng could immediately start using the Void Mirror.

Uh-huh!

At this moment, Ye Feng didn't hesitate at all. He took out the ancient bronze mirror he had obtained before from the storage ring, and then directly input the void power that he had just successfully cultivated.

Buzz! .??.

As the divine power of the void was input into the bronze mirror in his hand, the entire mirror immediately burst out with bright light of the void.

Ye Feng saw it immediately, and the Void Mirror in his hand suddenly floated above his head.

It turned out that the ancient and ancient bronze mirror suddenly burst into divine light at this moment.

As long as there is a place where the mirror shines, a terrifying void light will burst out immediately, destroying and annihilating that place in an instant.

Seeing this terrifying destructive power, Ye Feng immediately

There was a look of deep surprise in his eyes.

It seems that this bronze mirror is really the Divine Mirror of the Void. It is a very powerful super magic weapon left behind by the Emperor of the Void. Its power is simply terrifying to the extreme.

At this time, Ye Feng's eyes suddenly showed deep happiness.

This time it was really a huge gain.

All the things left by the ancient powerhouse from the glorious era of the Void God Emperor were collected into his pocket.

He is definitely the person who gained the most from this trip to this famous ancient mountain.

Ye Feng thought at this time that a group of extremely powerful half-step masters from various major forces were joining forces and probably still bombarding those layers of formations.

Ye Feng couldn't help but shook his head, and a faint smile appeared on the corner of his mouth.

You are the ultimate winner.

At this time, the toad found a treasure chest made of pure gold not far away, and secretly swallowed it into his belly.

Apparently, the toad's belly is a storage space.

When Ye Feng saw this scene, he immediately stretched out a hand, grabbed one of the toad's legs, pulled it up, and said loudly: "What did you swallow just now?"

The toad immediately shouted out, "I didn't swallow anything."

An interested smile appeared on Ye Feng's face, and he said aloud: "I saw clearly just now that you secretly swallowed a box made of pure gold. It must contain the wealth of the Void God Emperor. Take it out and take a look. Look, I have something good to share with you. I found this Great Void Hand, and I want to share it with you."

Toad immediately shouted: "You also got the Void Mirror."

Ye Feng smiled

, said aloud: "You have tried it yourself before. You can't break the sculpture of the Void Mirror. It's because you can't get the Void Mirror. You can't blame me for this."

Hearing what Ye Feng said, Toad said dejectedly: "Okay."

After saying that, the toad opened his mouth and spit out the box made of pure gold that he had swallowed before.

Because Toad knows very well that he has no ability to fight Ye Feng now, and he can't escape even if he wants to.

So the toad simply lay down and vomited out the treasure chest made of pure gold.

At this moment, Ye Feng saw the treasure chest made of pure gold. Without any hesitation, he directly reached out and opened the lid of the treasure chest made of pure gold.

At this moment, the contents inside were immediately revealed.

Inside this pure golden treasure box, there are actually pieces of crystal stones that sparkle with nine colors of light.

Seeing this scene, Ye Feng couldn't help but ask immediately: "What is this?"

Toad grinned and said loudly: "This should be the most precious wealth of the Void God Emperor back then. These are all nine-color crystals, which are the purest energy crystals in the world. But now your cultivation level can be... You cannot directly use these nine-color crystals to practice, otherwise, the terrifying high-level energy in the nine-color crystals will definitely explode your body in an instant, so these crystals are too high-level and of no use to you. Otherwise I wouldn't have kept it privately."

Hearing what Toad said, Ye Feng just grinned and said, "Do you believe that with my current level of cultivation, I can absorb all the high-level energy in these extremely high-level nine-color crystal stones."

"impossible!"

Hearing what Ye Feng said, Toad immediately shook his head vigorously and said loudly: "It's impossible, your current cultivation level is too weak. This nine-color crystal stone is at the level of the Void God Emperor." Only the strong are qualified to use and absorb it, even my god

The beast's body currently does not dare to absorb and accommodate the high-level energy in these nine-color crystal stones, and the entire body will be torn apart in an instant. "

Ye Feng immediately grinned and said, "Then let's make a bet. If I can absorb and contain these high-level energies, I will absorb all these nine-color crystals."

"this....."

Toad immediately hesitated.

Ye Feng smiled and said: "You don't dare to bet? Then we will share these nine-color crystal stones equally. It turns out you are so timid."

"I'm very brave!"

The toad immediately became angry and said: "Okay, this beast will make a bet with you! I want to see you with my own eyes begging me to save you later!"

"good."

When Ye Feng heard Toad agreed, his eyes immediately lit up, and he immediately released his Devouring Domain, which immediately enveloped the dozen or so nine-color crystals in the entire treasure chest and began to absorb the energy within them.

"Boom!"

Almost at the next moment, a stream of very high-level and terrifying energy was injected into Ye Feng's dantian.

This kind of energy is very ferocious and violent, almost like a violent storm, tearing at Ye Feng's limbs, bones, flesh and blood meridians.

But the next moment, Ye Feng's devouring ability was too terrifying, and the Hongmeng Immortal Body was too strong, fully capable of withstanding this terrifying tearing force, and able to digest and absorb this high-level energy.

More than a dozen nine-color crystals dimmed instantly, and the energy in them was directly absorbed and fused by Ye Feng.

"What??"

Seeing this scene, Toad immediately widened his eyes and couldn't help shouting: "Quack! This is impossible! What kind of ability is this?"

boom!

At this moment, Ye Feng had obtained the energy of more than a dozen nine-color crystal stones, and the cultivation aura on his body suddenly began to break through.

Chapter 3983 Shock

At this time, the energy in a dozen nine-color crystals was very high-level and very majestic, causing Ye Feng's skill to be greatly improved.

At this moment, Ye Feng's cultivation momentum immediately began to rise steadily, and he simply couldn't stop.

boom!

The fifth stage of Emperor level!

boom!

The sixth level of Emperor level!

boom!

The seventh level of Emperor level!

boom!

The eighth level of Emperor level! !

At this moment, Ye Feng's cultivation finally stopped.

At this moment, Ye Feng's eyes revealed a look of deep surprise.

Unexpectedly, I broke through four levels of cultivation in one fell swoop.

This is already a huge improvement.

You know, there are only a dozen nine-color crystal stones.

At this moment, Ye Feng immediately stared at the toad beside him and couldn't help but said: "Did there be many nine-color crystals like this in the glorious era of the Origin World?"

Toad shook his head and said aloud: "Very few, only some extremely powerful people can be found in some ancient ruins. However, it is said that some great formation mages with very high attainments in formations can travel from between heaven and earth. In the boundless land, this kind of vein of nine-color crystal stones was found."

Hearing what Toad said, Ye Feng's eyes immediately lit up, and he couldn't help but say: "Listening to what you said, it seems that I really need to study the formation method in the future. Maybe there will be a great future for me." Moreover, if my Eye of Heaven and Earth is not used in the formation, this talent will really be wasted. "

Ye Feng knew very well how evil his Eye of Heaven and Earth was. It was impossible for ordinary people to have such a talent.

At this time, the toad suddenly looked in a certain direction and said loudly: "Let's go, there is nothing here anymore."

Ye Feng nodded and followed Toad directly out of here.

This time, being able to obtain the inheritance of the Void God Emperor and also obtain the Void God Emperor's natal magic weapon, the Void Divine Mirror, is already a very huge gain.

At this time, Ye Feng followed Toad and left this mysterious space and returned to the palace complex outside.

at this moment

, Ye Feng looked at Toad and said loudly: "The cooperation between us is over. You can leave directly. I will not force you to follow me."

Hearing what Ye Feng said, the toad was silent for a moment and did not fly away immediately. Then he looked at Ye Feng and said loudly: "I decided to follow you for a while, because I have just come out of the seal that lasted for hundreds of thousands of years. , I am not familiar with the outside at all, and I need a guide, and now the whole world of origin seems to be slowly reviving

from the end of the Dharma era. Your kid has such a monster talent and good luck. I will follow you. This kid may have a great future and may be able to help me live to my ninth life faster.”

Hearing what Toad said, Ye Feng's eyes showed a hint of surprise.

Unexpectedly, this toad did not leave directly, but chose to follow him for a while.

Ye Feng did not refuse.

After all, Ye Feng originally thought that this toad was just a very ordinary toad spirit, but after this period of experience, Ye Feng suddenly discovered that this toad might really be some kind of very mysterious existence.

Even if he wasn't an ancient beast, he was definitely an amazing guy.

And this toad is a living creature that has truly survived from the glorious days of the Origin World.

It must be very familiar with the glorious era of Origin World.

Now the world of origin is slowly recovering. Not only this famous ancient mountain, there will definitely be other ancient ruins from glorious times emerging in the future. Toad should be able to help him a lot by then.

Thinking of this, Ye Feng immediately smiled and said: "Okay, since you choose to follow me for a while, then you can follow me."

Next, Ye Feng and Toad left the underground palace complex and returned to the mountains again.

At this moment, Ye Feng suddenly saw a surprising scene.

I saw that the entire ancient famous mountain was shrouded in a very dark gas.

This dark gas made Ye Feng's eyes change slightly.

At this time, Toad couldn't help but said in surprise: "This kind of breath seems to be the breath of the hell interface."

When Ye Feng heard what Toad said, his eyes suddenly showed deep astonishment.

Because Ye Feng discovered that on the top of this famous ancient mountain, a towering figure like an ancient demon appeared.

That towering figure like a dark demon turned out to be the Asura demon from hell that Ye Feng had threatened him at the entrance to the hell interface in a small temple before!

Seeing this scene, Ye Feng immediately widened his eyes and couldn't help but said: "The entrance to the hell interface has been re-sealed by me and the seniors in the temple. Why does this Asura demon from the hell world appear in this place?" On top of the mountain."

At this moment, Ye Feng was a little panicked.

Ye Feng had been threatened by the Asura demon in this hell world before.

Originally, Ye Feng thought that within a few decades, the Asura demons in this hell interface would not be able to come to the world of origin, so Ye Feng was somewhat confident.

Even when he was threatened by this Asura demon, Ye Feng even mocked him.

But I didn't expect that this Asura demon would appear on the top of this ancient famous mountain.

This was something Ye Feng didn't expect.

At this time, Ye Feng's face was a little uncertain, and he just wanted to walk down the mountain with the toad.

Toad said loudly at this time: "Oops, it is probably because after the things of the God Emperor of the Void were taken away by us, the entrance to the hell world sealed in this mountain automatically opened, but it may also be because of the origin of the world of the great world. The rules changed

drastically during the process of us entering the mountain, allowing powerful demons from the hell interface, an advanced practice interface, to escape. "

And just as the toad was talking, suddenly standing on the top of the mountain, the towering demon-like Asura Demon suddenly made a majestic voice to the entire ancient famous mountain with a radius of tens of thousands of meters:

"From now on, this mountain is called the 'Great Demon Mountain' and will be controlled by the demons in our hell interface. The entire world of origin has undergone drastic changes in the world. In the future,

More and more powerful people from the advanced cultivation interface are coming here. Our hell interface has arrived here in advance and controls this famous ancient mountain. However, the demons from our hell interface will not invade other major forces. On the contrary, if there are origin Practitioners in the big world, especially demonic practitioners, are willing to join our Great Demon God Mountain and become disciples of our Great Demon God Mountain. Then we demons in the hell world will definitely not hesitate to teach the various advanced inheritances we control. For you guys. "

At this moment, when this majestic voice fell, the moment the words fell.

The entire Sea of Chaos immediately shook violently.

Everyone heard this majestic voice, announcing the official debut of the hell interface in the world of origin.

At this moment, after hearing the words of this Asura Demon, Ye Feng, who was halfway up the mountain, had a look of deep astonishment in his eyes.

Unexpectedly, after the demons from the hell interface came to the world of origin, they did not burn, kill, and loot. Instead, they chose to take control of this famous ancient mountain and establish a powerful force called the Great Demon Mountain.

Even want to recruit disciples in the origin world?

This means planning to settle down directly in the world of origin!

There was a thoughtful look in Ye Feng's eyes. It seemed that the world of origin was really not as simple as he imagined.

Even a powerful demon from a high-level interface such as the hell interface came here and did not directly declare war on this big world. Instead, he first settled down and prepared to develop his own power. It is really incredible.

Toad said aloud at this time: "It is estimated that the truly powerful demons in the hell interface will not be able to come to the origin world, because the rules of the world have not completely changed. The most powerful one now should be this Asura demon. His cultivation Because it is not enough to fight against the entire world of origin, although the world of origin is now in the end of the Dharma era, there are still many very powerful guys. He is right not to go on a large-scale campaign. He first controls an ancient famous mountain and takes root in the world of origin. , is the wisest choice, and I think that as the world of origin continues to recover, peerless opportunities from various glorious eras will continue to emerge. Powerful people from various advanced cultivation interfaces come to the world of origin, probably just to gain the glory of the world of origin. Various fortunes of the ages."

Chapter 3984 A deep sense of crisis

What Toad said at this time made Ye Feng suddenly feel an inexplicable sense of urgency in his heart.

Because now Ye Feng suddenly understands that after the gradual recovery of the Origin World, the inheritance and wealth of various glorious eras have a huge attraction for those in the advanced cultivation interface.

Moreover, as the world rules of the Origin World continue to change, more and more advanced interfaces are able to enter the Origin World.

This is a very bad phenomenon.

At this moment, Ye Feng stared at the figure of the towering demon-like Asura demon on the top of this famous ancient mountain, and suddenly felt a deep sense of crisis in his heart.

Ye Feng looked at the toad beside him and said loudly: "Let's go down the mountain quickly. This ancient famous mountain is now controlled by these demons from the hell world. It is estimated that the entire mountain will be shrouded in the power of demons in the future. Come down, we won't be able to leave this mountain."

Toad nodded and said loudly: "Anyway, the most precious thing in this famous ancient mountain, the inheritance of the Void God Emperor, has been obtained by us, so let's go directly."

At this time, Ye Feng suddenly thought of something and said: "Wait a minute, let me see if I can contact a friend of mine. He is an ancient thunder and lightning unicorn."

Buzz!

After saying that, Ye Feng directly exuded his huge soul power and spread it around, trying to contact the silver-robed woman.

But the next moment, Ye Feng didn't feel anything.

Ye Feng didn't know what happened to those half-step masters who united together on the top of the mountain.

So at this moment, Ye Feng had no choice but to follow Toad down the mountain first.

Half an hour later, Ye Feng and Toad successfully walked down this famous ancient mountain.

But at the next moment, Ye Feng saw a shocked scene.

I saw an ancient thunder and lightning unicorn with exhausted breath and serious injuries, lying in the jungle not far away, looking like it was dying.

Uh-huh!

Ye Feng flew over immediately.

This ancient thunder and lightning unicorn is none other than the woman in silver robe!

At this moment, Ye Feng directly carried the ancient thunder and lightning unicorn on his back, then looked at the toad beside him and said loudly: "Let's get out of here quickly."

Toad seemed to be aware of the crisis, and immediately nodded, and he and Ye Feng quickly left the area of this famous ancient mountain.

They came back to the ocean and quickly headed back towards the City of Chaos.

Ye Feng knew that although the Asura Demon and the demons from the hell world had taken control of this famous ancient mountain, they named it the Great Demon Mountain.

But these demons in the hell interface should not dare to directly attack the areas controlled by the major forces of the human race for the time being.

So at this time, Ye Feng directly came to the area controlled by the Chaos Ocean Human Race, the Chaos City area.

When Ye Feng returned to the City of Chaos, he finally breathed a sigh of relief.

Next, Ye Feng found an inn and put down the ancient thunder and lightning unicorn that was seriously injured and dying.

At this time, Ye Feng did not hesitate at all, and directly gave the ancient thunder and lightning unicorn, releasing waves of Hongmeng purple energy that could repair life.

Under the repair of Ye Feng Hongmeng's purple energy, the ancient thunder and lightning unicorn slowly opened its eyes.

Buzz!

In a burst of light, the ancient thunder and lightning unicorn transformed into the silver-robed woman that Ye Feng was familiar with.

At this time, the woman in silver robe was pale and her breath was very weak.

Ye Feng immediately couldn't help but asked: "What happened before? How come you are so powerful and you are so seriously injured?"

The silver-robed woman couldn't help but smile bitterly at this time, and said aloud: "It's not just me, all the half-step masters of the major forces are seriously injured."

"What?"

Hearing what the silver-robed woman said, Ye Feng suddenly had a look of deep astonishment in his eyes.

You know, there were a dozen half-step masters who joined together before.

Moreover, these dozen or so half-step masters are not ordinary half-step masters. They are all super strong men from various major forces, with terrifying inheritance and astonishing strength.

If they unite together, even if a real master-level figure comes, they probably don't need to be afraid.

Unexpectedly, the silver-robed woman actually said that all of their dozen or so half-step master level superpowers were seriously injured.

At this time, Ye Feng couldn't help but said: "No wonder when I returned to the City of Chaos, I didn't sense the aura of the half-step master of the City Lord of Chaos City. Could it be that the City Lord of Chaos City is also seriously injured now? among?"

The woman in silver robe said: "The city lord of Chaos City has fallen."

"What??"

Ye Feng was even more shocked when he heard the silver-robed woman say this.

At this moment, Ye Feng never imagined that when he and Toad were searching for the inheritance and wealth of the Void God Emperor inside the mountain, such a huge change would occur outside.

Ye Feng immediately thought of something and couldn't help but said aloud

: "Is it related to the Asura demon who ran out of the hell interface?"

The silver-robed woman nodded and said aloud: "You used the formation at that time. After you left, we continued to attack. Originally, I thought we would not be able to pass through the layers of formations, but unexpectedly, suddenly Many formations disappeared inexplicably. We were also very shocked, and then we came to the top of the mountain. But the moment we arrived at the top of the mountain, the entire mountain ground cracked in an instant, and a big black hand stretched out. When he came out, he immediately killed two of our half-step masters on the spot, including the city lord of Chaos City."

At this moment, when talking about this, the silver-robed woman, even the ancient thunder and lightning unicorn, looked a little frightened and said: "After they were killed, the blood and energy of the half-step master was directly destroyed by that one The owner of the big black hand was swallowed, and then the owner of the big black hand broke the seal of the entire mountain in an instant and escaped directly. The owner of the big black hand was the commander-in-chief of the demons in the hell interface. Ah Shura demons, such powerful beings from the realm of advanced cultivation, are so terrifying that they are simply crushing to us practitioners who originate from the age of the end of the world."

Hearing what the silver-robed woman said, Ye Feng's eyes suddenly showed deep horror.

Unexpectedly, he and the monks from the temple worked hard to activate the seal at the entrance to the hell interface and re-strengthened the seal, but the demons in the hell interface still escaped.

It seems that the entire ancient famous mountain is dedicated to suppressing the hell interface.

At this time, Ye Feng couldn't help but said: "Recover first. The Asura demon that came out of the hell interface is leading many demon teams and should not go down the mountain for the time being."

The silver-robed woman nodded and immediately settled in the inn, ready to recover.

At this moment, Ye Feng looked at the toad in front of him and said, "Let's leave here first and don't disturb her recovery."

Ye Feng and Toad left the room where the silver-robed woman was, and Toad asked: "Looking at how worried you are, do you have something to tell me?" .??.

Ye Feng nodded and asked aloud: "Does each of these ancient famous mountains and ancient ruins that suddenly appeared suppress and connect an advanced cultivation interface? Otherwise, it would be impossible to exist in the world of origin." The rules of the world have just changed, and these ancient mountains suddenly appeared from their ancient slumber. After all, the owners of these famous ancient mountains or ancient ruins have completely fallen. Even if the rules of the world change, they cannot one time

The child appeared. It is very likely that among these ancient famous mountains or ancient ruins, together with the major advanced cultivation interfaces, they used some great magical powers to force these ancient famous mountains or ancient ruins to reappear, and then attracted our great origins. The super strong men of the major forces in the world climb these famous ancient mountains or ancient ruins to find various opportunities for creation. Then the advanced cultivation interfaces connected by these famous ancient mountains or ancient ruins can pass through the Great Origin. These superpowers in the world destroyed the entire mountain, thus loosening the seals of these advanced cultivation interfaces, allowing them to arrive in the origin world in advance. "

Hearing what Ye Feng said, Toad thought for a moment, then nodded and said: "It's very possible, but we can't stop exploring those ancient famous mountains or ancient ruins just because of this, because if we don't explore, The major forces and superpowers in the origin world will also investigate."

Ye Feng nodded slightly and said loudly: "There should be no other famous ancient mountains or ancient ruins emerging for the time being. Otherwise, the entire cultivation world would have been boiling. Now the mountain of the Void God Emperor has been destroyed by Asura in the hell interface. The devil is under control, and there won't be any other changes for a while."

Toad smiled and said: "We have obtained the inheritance and wealth of the Void God Emperor. This is enough. That mountain is of no use to us."

Ye Feng nodded and said aloud: "Before the next famous ancient mountain or ancient ruins emerge, we must improve our cultivation strength as much as possible. Otherwise, it will be difficult to compete with other super strong people from the origin world. We are fighting for the ancient inherited traditions. This time we were lucky, but next time we may not be so lucky. And according to my guess, these ancient famous mountains or ancient ruins are all connected to a high-level cultivation interface. If we try again next time If other ancient famous mountains or ancient ruins suddenly emerge, it is very likely that there will also be other advanced beings with advanced cultivation interfaces. If we are not strong enough, we may be like the city lord of the Chaos City today and be directly killed by those The strong men in the advanced cultivation interface were used as pawns to break the seal and were directly obliterated."

After finishing speaking, Ye Feng walked directly towards the outside of the inn and said aloud: "There are no other famous ancient mountains or ancient ruins that have suddenly appeared. At this time, I need to complete my mission to the Sea of Chaos this time. The purpose is to find the habitat of our Ye family."

Hearing what Ye Feng said, Toad quickly followed up and said loudly: "Your kind of Hongmeng Purple Qi is very precious and rare. What kind of family does your kid come from? In the end of the Dharma era after the decline of the origin world, someone who can be born A family with your boy's physique must be very extraordinary."

Chapter 3985: Children of the Ancient Family

Uh-huh!

Uh-huh!

After Ye Feng and Toad left the City of Chaos, they flew directly towards the deep area of the Sea of Chaos.

At this moment, Ye Feng and Toad were flying above the boundless blue ocean, surrounded by surging waves. The sky was the same color and looked very beautiful.

But Ye Feng is always alert to his surroundings.

Because in this Sea of Chaos area, it is very likely that very powerful and powerful ocean monsters will suddenly appear.

Moreover, when Ye Feng and Toad came to the Sea of Chaos area, they would sometimes encounter some demon soldiers wearing black armor patrolling around.

This made Ye Feng's eyes suddenly reveal a look of deep surprise.

It seems that after the Asura demon occupied the entire ancient famous mountain, he immediately dispatched the strong ones among the demons to form teams to patrol the sea area around the Great Demon Mountain. It seemed that he had truly transformed the Great Demon Mountain. Think of it as your own place of roots.

Ye Feng secretly wondered whether some of the masters of magic in the world of origin would really worship the Great Demon God Mountain and become disciples of the devil.

But it's quite attractive when you think about it.

After all, Asura demons come from a high-level interface and have a high-level inheritance among demons.

Therefore, some casual cultivators in the demonic path might really consider joining the Great Demon God Mountain to serve the Asura Demon.

Ye Feng didn't feel unhappy at this time.

Because the demonic forces in the eastern land are basically controlled by the Dark Demonic Cult.

So now a big demon mountain suddenly appeared. This demonic force from the hell interface also has a certain suppressive effect on the expansion of the dark demon sect.

In the past, Ye Feng felt that his biggest enemy was the Dark Demon Cult.

But now it seems that the world rules of the origin world are constantly recovering.

More and more advanced cultivation interfaces are coming to the world of origin.

Therefore, the structure of the entire practice world will definitely become more complicated in the future.

But Ye Feng didn't think there was anything wrong with this.

Because the more complex the pattern, it may also have a huge effect on yourself.

If the Dark Demon Cult is always the dominant family, it will be detrimental to Ye Feng's growth. He may be hunted down by the strong men in the Dark Demon Cult at any time, suffocating a peerless genius like himself, who is gifted with evil spirits.

But now there are more powerful people and forces descending from the higher interface, which must have a suppressive effect on the Dark Demon Sect, a dominant and transcendent force.

For example, the powerful demons of the Dark Demon Sect may have patrolled and stationed forces in this sea area unscrupulously in the past.

But now, with the sudden appearance of the Great Demon God Mountain, the Dark Demon Cult may not dare to be so presumptuous in this Sea of Chaos area.

At this moment, Ye Feng and Toad avoided many demons from the Great Demon Mountain and moved forward throughout the ocean.

Because Ye Feng doesn't want to conflict with these advanced demons with advanced interfaces now.

What Ye Feng is most concerned about now is to find the traces and location of the Ye family in the Sea of Chaos area.

At this time, Toad couldn't help but asked: "Ye Feng, where exactly is the Ye family that you mentioned behind the scenes? Are we going to keep searching aimlessly like this?"

When Ye Feng heard what Toad said, he looked at the boundless ocean around him, with a somewhat ugly look in his eyes, and said aloud: "I originally thought that the area of the Sea of Chaos was not particularly large. As long as I circle around, it should be able to Finding the Ye family where my father and mother are, but now it seems that it may not be that simple. This chaotic sea area is too huge, and there may be threats from monsters and beasts from the depths of the ocean at any time. "

At this moment, Ye Feng said that he didn't know how to search for a moment.

Because now the ancient families in the entire Sea of Chaos, including the Ye family, have closed their own family spheres of influence and do not allow outsiders to enter, so it is difficult to find them.

Boom!

But suddenly at this moment, a huge roar suddenly sounded from a certain direction not far away.

"Um?"

Ye Feng immediately looked quickly in that direction and found that a terrifying battle was breaking out on a small island in the ocean not far away.

Ye Feng immediately flew quickly in that direction, wanting to see what happened.

When Ye Feng arrived near the island, he immediately saw a group of young human cultivators being besieged by several ocean monsters covered in scales.

This group of young human cultivators are all wearing very ancient clothes, like ancient clothes.

When Ye Feng saw this scene, he couldn't help but his eyes lit up.

The clothes these young people are wearing are so ancient, they are probably the children of a group of ancient families that are self-isolating in the Sea of Chaos.

They probably came out to practice, but were unlucky enough to encounter so many powerful ocean monsters, which surrounded them and made them unable to escape.

Seeing this scene, Ye Feng immediately flew forward, preparing to rescue this group of young people.

Because if this group of young people are really disciples of some ancient families in the Sea of Chaos, then asking them may know how to enter the area where the Ye family is.

At this moment, Ye Feng flew over and immediately sensed the ocean demons besieging this group of young people. There were a dozen of them in total. Their cultivation levels were all very powerful, at least among the younger generation, they were considered very powerful.

But for the current Ye Feng, it is not that powerful.

Because Ye Feng's current cultivation level has been promoted to the eighth level of the Emperor level, he is a very powerful existence among the older generations.

After all, in the Dharma-ending era of the Origin World, the most powerful one is the Overlord.

As for the emperor level, it is only two realms away from being a master.

Place

With Ye Feng's cultivation level, he is already considered a peerless master at the eighth level of Emperor level.

The young people who were besieged by the ocean monsters were probably young geniuses from the ancient families in the Sea of Chaos.

But compared with Ye Feng's cultivation, the gap was too big.

Their general cultivation levels are at the emperor level, or king level, which is below the emperor level.

So at this time, after Ye Feng arrived, this group of young disciples from the ancient family suddenly showed deep joy in their eyes, and they quickly said: "Emperor-level seniors, please save us, this group of disciples." The ocean monster is so scary."

Ye Feng nodded slightly and looked at a dozen ocean monsters.

The body of each ocean monster is very tall, huge, and towering, like a dozen hills, standing around the island, looking very terrifying and oppressive.

At this time, Ye Feng flew over without any hesitation.

These dozen ocean monsters are all at the peak of the emperor level, and there are still emperor level existences.

So when they met Ye Feng, an emperor-level human master, they did not run away, but looked at Ye Feng eagerly.

At this moment, the ocean monster standing in the middle is a huge turtle covered with blue scales.

The blue-scaled turtle stared at Ye Feng, and even spoke human language, saying: "Master of the human race, I think you are not a member of the ancient family in the Sea of Chaos. There is no need for you to be with our ocean monster family. As an enemy, you leave immediately and we don't care about your arrival."

When Ye Feng heard what the blue-scaled turtle said, he couldn't help but smile, shook his head, and said, "Do you think you have the right to threaten me?"

The huge turtle with blue scales all over its body heard Ye Feng's seemingly contemptuous words and immediately said angrily: "Human race, although your cultivation is very powerful, it does not mean that you can If you can defeat a dozen of us ocean monsters together, you humans are naturally weak in combat."

After finishing speaking, next to the huge turtle covered with blue scales, another ocean monster couldn't help but said: "Brother Turtle, don't talk nonsense with this human race. Let's join forces to kill this human race expert who doesn't know whether to live or die." Instantly obliterated and then devoured other disciples from the ancient families. Each of these disciples from the ancient families had ancient bloodlines. After being devoured, they would be a great tonic for us ocean monsters. Ah, Jie Jie Jie."

Boom!

At this moment, more than a dozen ocean demons suddenly burst out with their own powerful cultivation auras. The demonic aura was overwhelming, and they rushed towards Ye Feng.

A group of disciples from ancient families on the island not far away suddenly showed frightened expressions on their faces.

Although Ye Feng's cultivation level is at the eighth level of the Emperor level, he is one or two realms stronger than them.

But you must know that Ye Feng is now alone facing a dozen terrifying ocean monsters, and it is not that easy to deal with them.

but

The next moment, a group of disciples from ancient families on the island were stunned.

Ye Feng directly stretched out a hand, and suddenly a huge black void hand condensed in the entire void. It smashed a dozen ferocious ocean monsters into countless pieces in an instant, full of unparalleled void pressure. and destructive.

"What??"

"Killed in one move??"

At this moment, the eyes of the dozen or so young disciples from ancient families on the island immediately revealed a look of deep horror.

At this time, there were many young women in the crowd. They got closer and saw Ye Feng's true face, which was very young and delicate. They couldn't help but said in surprise: "This young master is actually so young. , They are not those old-timers at all, they are the same age as us, how can they have such terrifying fighting power, it is really incredible!"

Everyone was filled with deep shock at this moment.

Because Ye Feng's casual display of combat power just now was simply terrifying to the extreme, beyond their imagination.

You know, they are all young children from ancient families in the Sea of Chaos, so they are very confident in their own strength and talents.

But seeing Ye Feng, a peer of his own age, possessing such terrifying strength, naturally made all the young disciples present from the ancient families of the Sea of Chaos feel deeply shocked.

"I'm afraid only the top super geniuses in our ancient alliance can rival this young master."

Some people couldn't help but exclaimed in amazement.

At this moment, Ye Feng swallowed and absorbed the blood energy of more than a dozen ocean demons on the spot, which increased his skill a lot.

But what surprised Ye Feng was that his cultivation level did not directly break through.

After all, the cultivation strength of these dozen ocean demons is not very powerful in Ye Feng's eyes, so they do not provide much energy to Ye Feng.

But what Ye Feng really cares about is to find out from these young disciples the exact location of the Ye family where his father and mother are.

Uh-huh!

At this time, Ye Feng did not hesitate and landed on the island directly, asking: "Are you all from those ancient families in the Sea of Chaos?"

This group of young disciples seemed to still be in a state of shock by Ye Feng at this moment, so when Ye Feng asked questions at this time, no one dared to answer directly.

In the end, a beautiful young woman wearing a blue dress came out, bravely came to Ye Feng, and said softly: "Young Master is right, we all come from The ancient families in the Sea of Chaos, all our ancient families, have now formed an ancient clan alliance to fight against external threats. My name is Qingluo, I come from the ancient clan in the ancient clan alliance, and I am the youngest member of our ancient clan. We are among the top ten masters in our generation, but compared to Young Master's qualifications, we are too mediocre. Young Master, if you have any other questions, you can ask me."

Chapter 3986 Deep Sea

At this time, Ye Feng stared at the beautiful young woman speaking in front of him, who seemed to be called Qingluo. He immediately nodded and said loudly: "Since you are the descendants of an ancient family in this sea of chaos, then you should You are very familiar with the Ye family, do you know the specific location of the Ye family? "

Hearing Ye Feng's question, Qing Luo's beautiful eyes suddenly revealed a hint of surprise, and she couldn't help but say, "Did the young master come to the Sea of Chaos specifically to look for the Ye family?"

Qing Luo had already discovered at this time that although the young man in front of her was very powerful, he did not seem to be a member of their ancient family in the Sea of Chaos.

Because the clothes Ye Feng wore were obviously from the world outside the Sea of Chaos.

Ye Feng nodded at this time and said aloud: "I came to the Sea of Chaos just to find the Ye family in your ancient family." ??

Qing Luo immediately spoke up and said: "In fact, we don't know the specific location of the Ye family. Although all the ancient families in the entire Sea of Chaos have gradually become an ancient clan alliance, the specific location of each family's headquarters is , are all kept secret, and foreigners don't know."

Hearing Qing Luo say this, Ye Feng's eyes suddenly darkened.

Unexpectedly, none of the children of the ancient families in the Sea of Chaos knew the specific location of the Ye family.

This is very difficult to find.

But just when Ye Feng frowned, Qing Luo suddenly said: "But I heard that in the deep sea area not far from our Sea of Chaos, the ocean demon clan has established a demon city. Our Chaos Sea Masters from many ancient families in the sea have all gathered in the city of demons, hoping to uproot the city built by the demon clan. Perhaps the Ye family that the young master is looking for may also send experts there. There."

Hearing what Qing Luo said, Ye Feng's eyes suddenly lit up, and then he said, "Where is the specific location of the demon city built by the demon clan?"

Qing Luo said aloud: "I can take the young master with me."

Hearing what Qing Luo said, Ye Feng nodded slightly and said, "Thank you very much."

Qing Luo's beautiful face immediately showed a sweet smile, and she said loudly: "This time, I would like to thank you for saving us, otherwise, we would have been killed by those dozen powerful ocean monsters.

All wiped out. "

While Qing Luo was talking, a group of descendants from ancient families behind her came to Qing Luo and whispered, "We have other tasks and we can't leave easily now."

Hearing what the children of the ancient families around her said, Qing Luo seemed to have thought of something, and a trace of ugly look appeared on her face.

When Ye Feng saw this scene, he immediately smiled and said: "If you have other tasks, you don't need to take me to the Demon City in person. After all, it must be a very dangerous place. With Miss Qingluo With your current cultivation strength, it is estimated that you will be in great danger if you go there. You just need to tell me where the Demon City is."

When Qing Luo heard what Ye Feng said, she immediately nodded and said, "Okay, thank you for your understanding, sir."

After finishing speaking, Qing Luo took out a map directly from her storage ring, handed it into Ye Feng's hand, and said aloud: "This map depicts the various geography of the entire Sea of Chaos in more detail. Environment, the location of the Demon City is also marked on the map. I hope you must be careful when you go there. The Demon City is a place where the demon clan has established a stronghold. There are many powerful ocean demons. Even if The master's cultivation level is very high, and there may be dangers. You must be careful."

"Okay, thanks for reminding me."

Ye Feng immediately nodded at this time, took the map Qing Luo handed to him and said loudly: "Then I'll leave first. See you again when we have a chance."

Uh-huh!

After saying that, Ye Feng didn't waste any time, jumped directly and left here.

Halfway through, Toad caught up with Ye Feng and couldn't help but said: "Ye Feng, are you really going to that demon city? The ocean demon clan is very scary. In that kind of place, the demons are dancing around, which is extremely scary."

Ye Feng glanced at the toad next to him, couldn't help but laugh and joked: "You are an ancient beast, how can you be afraid of a group of low-level ocean monsters? This is not in line with your status as an ancient beast."

I heard Ye Feng deliberately teasing me

Himself, Toad is no longer angry now. He just curled his lips and said loudly: "I am really weak in this state. I feel embarrassed myself. It is right for me to be careful. Ye Feng, please wait for me." Just wait until I live to my ninth life and transform into the ancient holy spirit state of the ancient true dragon, god and phoenix. Then, see how I can conquer the world."

It has to be said that Toad is still very confident in himself, and he is very proud of his future in his words.

Ye Feng didn't say anything more at this time, but looked at the map in his hand and quickly flew towards the demon city built by the ocean demon.

Ye Feng discovered that this demonic city was built in the deep sea area of the Sea of Chaos, which was close to the deep part of the central ocean, and was probably in great danger.

Ye Feng restrained his aura on the road to prevent attracting the attention of some terrifying monsters in the deep sea area.

Although Ye Feng's current cultivation level was already considered a good master in the Dharma-ending era of the Origin World.

But in this deep sea area, no one knows how terrifying deep sea monsters live, and their strength is very terrifying.

Therefore, Ye Feng feels that it is better not to fly in the deep sea area with great fanfare, otherwise, it is very likely that some terrifying deep sea monsters will eat them as food.

After all, Ye Feng's cultivation is currently only at the eighth level of the Emperor level. If Ye Feng steps into the God level, second only to the Master, he may not be so afraid.

"I hope there are people from the Ye family there in the Demon City."

Ye Feng was flying at this time while secretly murmuring in his heart.

I hope to meet members of the Ye family where my father and mother live in that demonic city.

In that case, he would be able to enter the Ye family early and meet his father and mother, whom he had not seen for a long time, as well as a group of relatives from his own clan whom he had never met before.

Ye Feng and Toad were very fast. According to the guidance on the map, they quickly arrived near the Demon City.

At the mark on the map, this is a real deep sea area.

There were strong winds and huge waves everywhere, and the terrifying sounds of ancient evil beasts came from the dark deep sea, making Ye Feng feel a deep feeling.

Deep fear.

In front of the endless deep sea, human beings are like a small ant, too small.

Ye Feng was traveling in the deep sea at this moment, and soon he saw a huge island appearing on the ocean in front of him.

On this island, there is a majestic and boundless ancient city. The entire city is made of solid ocean steel. It looks very vast and majestic, giving people a feeling of endless vastness.

Ye Feng's eyes suddenly lit up: "This should be the demon city indicated on the map!"

However, according to what Qing Luo said before, the Demon City is not the headquarters of the Demon Clan.

The base camp of the demon clan. There is a demon lair deeper in the deep sea. That is the base camp of the demon clan.

This demon city is just a war city built by the demon clan to conquer the entire ocean area. It is a temporary stronghold.

Therefore, in order to prevent the demon clan from the deep sea lair area, they came to the sea level to conquer the world.

Naturally, many ancient human families living around have united many experts to come here, hoping to eradicate this demon city created by the demon clan.

As Ye Feng continued to approach this demonic city, he sensed the auras of many human masters flying around him.

These human masters should all be masters of ancient families living in the sea.

According to what Miss Qingluo said before, the purpose of these human masters from ancient families coming here is to eradicate the demon city built here by the ocean demon clan.

Ye Feng currently only wants to enter the Ye family, and does not want to fight or kill. Therefore, at this time, Ye Feng did not directly approach the Demon City on the huge island not far away. Instead, he sensed the coming masters in the surrounding area. breath.

You must know that the Ye family has inherited the blood aura of the ancestors of Hongmeng, although not everyone may be like Ye Feng, who can awaken the most powerful Hongmeng immortal body.

But as long as they are members of the Ye family, they should all have the same Hongmeng aura.

Therefore, under Ye Feng's careful sensing, as long as a member of the Ye family passes by, he will definitely be able to detect the aura of the Ye family.

## Chapter 3987 Undersea sinkhole

Buzz!

At this time, Ye Feng carefully sensed the Hongmeng aura that had the same origin as himself.

Because only through this original Hongmeng aura can one sense whether there are members of the Ye family among the masters passing by.

However, what made Ye Feng quite disappointed was that Ye Feng had not sensed the Hongmeng aura for several hours.

It seems that no members of the Ye family came here during the attack on this demonic city.

In other words, Ye Feng didn't meet him on the road.

So at this time, Ye Feng thought in his mind that it seemed that he could only go to the Demon City in person.

Perhaps the masters of the Ye family had already arrived in the Demon City before he came here.

So I couldn't sense the aura of the Ye family members on the way.

At this time, Ye Feng thought of this, no longer hesitated, and flew directly in the direction of the Demon City.

Ye Feng's current cultivation level is not considered weak.

Before the current world rules of the Origin World were completely revived, Ye Feng's eighth-level emperor level cultivation was considered a good master.

So at this time, Ye Feng went to the Demon City, feeling that there shouldn't be much danger.

As long as you don't get targeted by some super scary monsters.

At this time, Ye Feng and Toad flew quickly towards the Demon City.

Toad originally felt that he was not strong enough and did not want to go to a chaotic place like the Demon City, where demons danced wildly.

But for some reason, Toad suddenly wanted to go to the Demon City with Ye Feng.

This made Ye Feng suddenly feel in his heart that Toad was absolutely useless and must know that there were some good things in the Demon City.

But the Demon City is a garrison base just established by the demon clan, and Toad has been trapped on the top of the Great Demon Mountain, which is now controlled by demons from the hell world.

So what about this toad?

Do you know if there are any good things in the Demon City?

At this moment, Ye Feng couldn't help but asked: "Toad, tell the truth, you suddenly changed your mind and wanted to go to the Demon City with me. Did you think of something good to do so?"  
Heading to the Demon City?"

When Toad heard what Ye Feng said at this time, he couldn't help grinning and said loudly: "There are no good things in the demon city, but as far as I know, in the demon lair where the ocean demon clan lives, there is absolutely There are good things, even in the glorious age of the origin world, the demon lair is a place with many opportunities, but there are too many demons in it, and most people dare not enter. "

"What??"

Hearing what Toad said, Ye Feng's eyes widened slightly, and he couldn't help but said: "You actually want to go to the demon clan's lair to find good things? You are so audacious."

Ye Feng originally thought that the toad was very timid and cowardly, but he didn't expect that the toad was so courageous and went directly to the lair of the ocean monster clan.

Seeing Ye Feng's reaction, Toad immediately grinned and said loudly: "Ye Feng, think about it carefully. Now the entire ancient ocean family has united together to form so many human race experts to attack the demon kingdom. City, it means that most of the powerful demons of the Ocean Demon Clan must be in the Demon City to defend against the human masters who come from ancient families to attack the Demon City. "

Hearing what Toad said, Ye Feng's eyes suddenly lit up, and he couldn't help but say: "You mean, the Demon Nest, the base camp of the demon clan, may be very empty now, because most of the powerful demons , all in the Demon City."

"That's right."

Hearing what Ye Feng said, Toad immediately nodded, couldn't help but smile sinisterly, and said loudly: "Now is the time to go deep into the enemy's territory."

It's a good opportunity for Fang's base camp to make some small moves. Now in the demon lair of the entire demon clan, the defensive power must be very empty and weak. Moreover, Ye Feng, you and I have all practiced the inheritance of the Void God Emperor and can use very advanced weapons. The power of the void allows us to sneak into the demon's lair without being discovered by anyone. "

When Ye Feng heard what Toad said, he immediately fell into thinking.

Indeed, the void divine power of the Void God Emperor is very extraordinary. It is a very advanced void power, much more advanced than Ye Feng's previous space gem.

Both Ye Feng and Toad had practiced the inheritance of the Void God Emperor, and both were able to operate that advanced void power.

Taking advantage of the fact that many powerful demons are probably in the Demon City, they may lurk into the demon lair in the rear, and maybe they can actually loot good things from it.

Thinking of this at this moment, Ye Feng also showed a deep smile on his face and said loudly: "Okay, since you are here, let's go to the demon lair."

Ye Feng is not in a hurry to find the Ye family members at this time.

With such a good opportunity in front of me, it was natural to go and search the demon lair.

At this moment, Ye Feng and Toad were using the void power of the Void God Emperor to hide in the high-level void and would not be discovered by any strong person. They bypassed the demon city in front and went directly to the rear of the demon city. deep sea area.

Toad spoke up at this time: "Ye Feng, the little girl from the ancient family gave you a map. Take a look at it and identify where the demon's lair is in this deep sea area."

"good."

Ye Feng nodded, took out the map of the Sea of Chaos that Qing Luo had given him before, observed it carefully, and immediately found the approximate location of the demon's lair.

Uh-huh! Uh-huh!

Next, Ye Feng and Toad immediately flew quickly in that direction.

\u003c

br\u003e With a "pop" sound, they jumped into the ocean and lurked under the ocean.

The demon's lair is deep under the sea, not above the sea.

Ye Feng and Toad entered the sea area without any hesitation. They continued to use the void power of the Void God Emperor to hide themselves in the void of the deep sea and quickly lurked in the direction of the demon's lair.

Along the way, just as Toad guessed, they didn't encounter any extremely powerful demons at all.

Obviously, many powerful people from the demon clan are probably supporting them in the demon city now.

They probably would not have thought that someone would be so bold as to directly invade the demon lair area of their demon clan.

However, Ye Feng and Toad were able to realize this plan not only because of the right time and place, but also because of the harmony. It was mainly due to the inheritance of the Void God Emperor they received from the famous ancient mountains, and they cultivated the special and incomparable power of the Void, which allowed them to be in the best position. In the deep advanced void, it will not be noticed by the strong ones in the demon clan.

At this moment, Ye Feng and Toad quickly lurked under the seabed according to the position indicated on the map.

"Should be arriving soon."

At this time, in the void deep under the sea, Ye Feng and Toad were advancing rapidly in the void.

Ye Feng looked at the map in his hand and immediately looked forward.

The next moment, they suddenly saw a huge, pitch-black hole on the bottom of the deep sea ahead.

This huge hole is like a legendary sinkhole under the sea. It is bottomless and gives people an unfathomable feeling.

This sinkhole seems to be able to bury the entire sky in an endless abyss. It is very scary and makes people feel as terrifying as abyssal phobia for a moment.

Toad's eyes lit up and he said loudly: "The demon's lair is under the sinkhole on the seabed!"

Chapter 3988 Ocean Crystal

The huge sinkhole on the seabed is pitch black, like an endless abyss with no bottom, giving people an invisible and great fear.

But at this time, Ye Feng and Toad came here to hunt for treasure. Naturally, they did not have any fear. They charged forward and jumped into the sinkhole on the seabed.

Buzz!

The moment they entered the sinkhole, they immediately felt a very terrifying demonic aura under the entire sky.

That kind of demonic aura was like a demonic craze, which made both Ye Feng and Toad feel chills all over their bodies for an instant.

At this time, Ye Feng looked at the toad beside him and said loudly: "Such a terrifying demonic energy, toad, are your guesses correct? Are you sure that all the powerful demons have left this lair, this demon lair?" Among them, there are probably very terrifying ocean monsters."

At this time, the toad sensed the terrifying demonic energy around it, which was surging up from the bottom of the sinkhole. The toad was also a little panicked, and said with some uncertainty: "Then do we want to leave directly now?"

"this....."

Hearing Toad's cowardly words, Ye Feng suddenly showed a look of astonishment on his face.

Unexpectedly, the toad actually wanted to escape from the battlefield.

Uh-huh!

Ye Feng immediately grabbed one of the toad's legs, and then said loudly: "You're here now, don't even think about leaving."

After saying that, Ye Feng directly dragged the reluctant toad and flew quickly towards the bottom of the sinkhole.

"Oh my god, that's..."

When they arrived at the bottom of the sinkhole, they immediately saw a very shocking scene.

I saw a large black octopus with a length of more than 100,000 meters, with dense black scales all over its body, and dense eyes.

The big octopus looks very scary and evil.

This is definitely a very terrifying demon deep in the ocean. The aura of the demon emanating from the whole body is simply majestic to the extreme, like the vast ocean, as vast as the ocean.

When Ye Feng and Toad landed in the sinkhole, the frenzied demonic energy they sensed should be the demonic aura emanating from this big black octopus.

But what made Ye Feng and Toad breath a sigh of relief was that this big black octopus, this taboo-like creature, seemed to be sleeping now.

Because Ye Feng and Toad have always been running the void divine power of the Void God Emperor, covering their entire bodies.

Therefore, their arrival did not attract the attention of the sleeping black octopus.

The toad whispered in the void: "Ye Feng, let's bypass this scary big black octopus and enter the innermost part of this demon's lair. There must be a lot of good things in there."

Ye Feng nodded. He also felt that this big black octopus should be the guardian of the demon lair, but he was probably too idle, because usually no one dared to approach here, so this big black octopus fell asleep without any hesitation. , and did not notice the arrival of Ye Feng and Toad.

If this big black octopus was awake, with its terrifying cultivation, Ye Feng and Toad would most likely be noticed even if they were hidden in the void.

After all, the perception of this taboo-like ancient demon is still very terrifying.

It's just that this big black octopus fell asleep, giving Ye Feng and Toad a huge opportunity to sneak into the inner area of the demon's lair.

this

At this time, Ye Feng and Toad sneaked across the void, bypassing the big black octopus sleeping under the sinkhole, and entered the inner area of the demon's lair in the sinkhole.

Ye Feng and Toad continued walking towards the inside of the sinkhole at this moment, and immediately saw the entire seabed, with dense underground passages appearing.

It feels like the entire seabed has been hollowed out, with countless undersea passages, like a honeycomb.

At this time, Ye Feng looked at the dense undersea passages in front of him and couldn't help but said, "Which passage should we enter through?"

Toad said at this time: "Every underwater passage in the demon's lair is eventually connected together, so it doesn't matter which passage we enter from, just choose any one."

"Choose any one?"

Hearing what Toad said, Ye Feng nodded slightly, and then he and Toad directly chose a passage and walked in.

The moment they entered the undersea passage, Ye Feng saw at first glance that the walls of the passage were actually inlaid with dense stones.

These stones are all spar that emit five colors of light, and contain very pure ocean energy.

"This is an ocean spar."

At this time, Toad looked at the stones inlaid on the wall of the passage, and his eyes suddenly lit up and he said: "In this ancient demon lair, very precious materials have indeed been bred. This kind of ocean spar contains not only very precious materials, but also very precious materials." Pure ocean water attribute energy is also a good thing for refining various magic weapons. If a magic weapon

can be embedded with such an ocean crystal, it can give the treasure the water attribute power of the ocean. "

At this time, Ye Feng's eyes were shining and he said: "Refined or not?"

I'm not interested in making treasures. What I'm interested in is the pure energy contained in these ocean crystals. It will definitely improve my skills tremendously. This is a very advanced water attribute energy, which is stronger than ordinary energy crystals. Much more advanced. "

Toad nodded and said: "The nine-color energy crystals left by the Void God Emperor that you absorbed before are the most advanced ones, but these ocean spirits emit multi-colored light, which is not bad at all."

Toad said at this time, he and Ye Feng started to collect the ocean crystals on the walls.

The toad directly swallowed these ocean crystals and stored them in the space of his stomach.

Ye Feng, on the other hand, did not hesitate at all and just picked out the ocean crystals one by one, and then directly absorbed the pure ocean attribute energy in them.

"Buzz buzz..."

As he continued to absorb the pure water energy from the ocean crystals, Ye Feng immediately felt that his skills were improving rapidly.

"boom!"

The ninth stage of the emperor level!

"boom!"

The tenth level of Emperor level! !

In the end, Ye Feng's cultivation level directly broke through to the peak of the tenth level of the Emperor level!

This gave Ye Feng's skill a huge improvement all of a sudden!

Buzz!

At this moment, Ye Feng's entire body was emitting a faint blue water-attribute light, making him look divine.

Ye Feng's eyes showed wonder: "I swallowed and absorbed these water-attributed ocean crystals. Not only did my cultivation skills greatly improve, but I also seemed to have initially gained the ability to control the ocean's water attributes. This kind of ocean crystals is really magic."

Chapter 3989 Formation Patterns

It has to be said that this demon lair is indeed a place that was created in ancient times.

The materials with marine properties bred in it really have a huge effect.

At this time, Toad smiled and said: "There are a lot of good things here, these sun crystals are just appetizers."

After saying that, Toad took Ye Feng and continued to move forward in the undersea passage of the demon's lair.

When they walked for a while, they suddenly saw a huge space in front of them.

This is an undersea space.

It's like an underground palace, looking very ancient and luxurious.

At this moment, Ye Feng and Toad immediately saw that there were many powerful demons lurking in the underground palace on the seabed.

Although these demons are not as powerful as the big black octopus outside, their cultivation is also very powerful. They are basically the tenth-level emperor level demons, as well as god-level demons.

They should all be elite demons in this demon lair, and they are very powerful.

At this time, the toad immediately couldn't help but said: "Ye Feng, let's not provoke these monsters first, and don't alert them."

Ye Feng nodded and said with a smile: "That's natural. This time we came to this demon lair mainly to obtain the precious materials bred in the ocean. It's boring to fight and kill."

Ye Feng said at this time, and Toad directly bypassed the palace under the sea and lurked towards another seabed passage.

You know, the inside of this demon lair is like a huge beehive, densely packed with many undersea passages.

The places connected by each submarine channel are different.

At this moment, Ye Feng and Toad came to another underwater passage.

However, there were no ocean crystals on the wall of this submarine passage, which made Ye Feng a little disappointed.

Ye Feng and Toad walked forward.

When I reached the end area, I immediately saw a dark cave-like lair.

In this cave nest, there are densely packed withered bones of living creatures.

These creatures should all be creatures in the ocean.

After being killed by this group of monsters, they were thrown here.

But what makes Ye Feng feel regretful is that the corpses of these powerful marine creatures have completely decayed, without any blood energy.

But at this time, Toad's eyes lit up and he said loudly: "The scales and bones of these powerful marine creatures are all good things for refining magic weapons."

Toad really thought that the things that Ye Feng didn't like were treasures, so he just opened his mouth and swallowed them all into the storage space in his stomach.

Seeing this scene, Ye Feng's eyes showed surprise, and he couldn't help but asked: "Toad, do you still know how to refine weapons?"

When Toad heard Ye Feng's question, he immediately smiled proudly and said, "Of course, I am a master of weapon refining."

Hearing the toad say that he was a master of weapon refining, Ye Feng was not sure whether the toad was bragging.

However, Ye Feng did not ask any more questions, but said loudly: "Well, if you have a chance in the future, remember to refine some high-level magic weapons for me. I would like to see if you have this ability."

When Toad heard what Ye Feng said, he immediately glanced at Ye Feng and couldn't help but said with a smile: "If you want me to refine the magic weapon, it will cost a huge price."

, you know, when I was glorious, people all over the world invited me to refine treasures for them, and they even gave me all kinds of heavenly materials and earthly treasures. "

When Ye Feng heard this, he immediately couldn't help grinning and said loudly: "I always feel that you are bragging."

"Of course I'm not bragging!"

Toad immediately jumped up with anger and said loudly: "Okay, when I get the chance, I will refine a peerless magic weapon to open your eyes, Ye Feng."

While Ye Feng and Toad were talking, Toad had already put all the bones and scales of all the marine creatures in the cave into the space of his stomach.

"Um?"

But at this time, Toad seemed to suddenly find something in the mess of bones. He couldn't help but said with bright eyes: "Ye Feng, look, what is this!"

At this moment, Ye Feng immediately squatted down and saw formation patterns appearing among a group of scattered skeletons and ruins.

The lines of these formations are engraved on the ground and covered by a lot of dust. They seem to have been engraved here for many years.

If the toad hadn't collected all the skeletons of these marine creatures, it would be impossible to see the formation patterns engraved on the ground buried under these skeletons.

Ye Feng immediately couldn't help but said: "This place should have had a special formation back then. Perhaps it was the same as the ancient tomb of the Void God Emperor. This special formation might be connected to a mysterious independent... space."

Hearing what Ye Feng said, Toad immediately burst into laughter and said, "We have found a treasure land! There must be many good things in the mysterious independent spaces connected by this special formation. Maybe

It is the resting place of some old monsters among the ocean monster clan. "

Hearing what Toad said, Ye Feng's eyes lit up, and he felt more and more that this was possible.

At this moment, Ye Feng didn't hesitate at all and started to clean up the entire surrounding ruins, and then revealed the formation lines imprinted on the ground under the ruins.

At this time, there was a hint of surprise in Ye Feng's eyes.

Then he said with a smile: "Originally, I thought I needed to repair this formation again, but now it seems that it is not necessary. All the lines of this formation are perfectly imprinted on the ground, but the formation's Once the power is gone, just reactivate the lines of these formations."

Uh-huh!

After finishing speaking, Ye Feng stretched out his palm and pressed it on the ground, and began to stimulate the energy of the entire formation to reactivate the formation.

Seeing this scene, the toad standing aside immediately couldn't help but said with envy in his eyes: "Ye Feng, your formation ability is really enviable. If you have the opportunity, you can also teach me. Although I I don't have a talent like your Eye of Heaven and Earth, but there's definitely no harm in learning some basic knowledge of formations, and you might be able to use them in the future."

Ye Feng glanced at the toad beside him, smiled and said, "Yes, I can teach you, but you must promise to help me refine a powerful peerless magic weapon."

Hearing what Ye Feng said, the toad immediately stretched out its little claws, waved it and said: "Don't worry, this is absolutely no problem, I'll cover it. As long as Ye Feng can find the peerless materials to refine the peerless magic weapon, I'll start refining it for you."

While they were talking, Ye Feng input mana into the formation patterns on the ground, immediately activating this ancient formation.

Chapter 3990 Half-Step to God Level

Buzz!

As Ye Feng continued to input mana, the calm formation patterns on the entire ground suddenly lit up with rays of light.

Then the entire formation was completely activated by Ye Feng.

"Success!"

At this time, Ye Feng's eyes suddenly revealed a look of deep expectation.

Because according to Toad's guess, this formation is hidden here, and it may be connected to the place where the old monsters of the demon clan are seated in this demon lair. There must be a very good chance.

So at this time, after Ye Feng activated the formation on the ground, he stared at this formation.

Sure enough, under the gaze of Ye Feng and Toad, this completely activated formation began to condense into a space vortex.

Toad immediately said in surprise: "It seems that I guessed it right. This formation is really connected to an independent space."

Uh-huh!

After saying that, Toad rushed directly into the space vortex.

Ye Feng also walked in quickly.

When they passed through the space vortex, they immediately saw a small independent space, only as big as a basement.

The space is very dark.

But at this moment, Ye Feng and Toad's eyes showed deep surprise.

Because in this small independent space, there was actually the body of a huge black dragon lying.

This long black dragon looks very ancient and completely dead.

Toad immediately spoke out: "This long black dragon should be a very powerful demon figure in the demon lair. He died here, and this is his resting place."

Uh-huh!

After Toad finished speaking, he immediately came to the dead demon dragon, and then looked at the demon dragon.

Ye Feng quickly flew over at this moment, and immediately sensed that after the death of this demonic dragon, there was still a lot of demonic energy in its body.

.

In other words, this demon dragon has not completely decayed, and its body still contains some demon energy.

After sensing all this, Ye Feng suddenly showed a look of deep surprise in his eyes.

Then without any hesitation, Ye Feng directly began to release the Devouring Domain, absorbing the remaining demonic energy in the demonic dragon's body.

Although in the endless years, this demon dragon has been dead for many years, and the energy in its body has almost dissipated, but it still retains a part of the demon energy, stored in the deepest part of its body.

Ye Feng happened to plunder this demonic energy, which he could use to quickly expand his power.

So at this time, Ye Feng directly released the Devouring Domain and began to absorb it.

The toad didn't hesitate at this time. He took out a long knife with cold light from the space in his stomach, and then pried out the claws and scales of the demonic dragon. .

These are all good materials for refining weapons, and are naturally good things for toads.

The most useful thing to Ye Feng is naturally part of the demonic energy contained in this demonic dragon.

Boom!

At this time, as Ye Feng devoured it, the last remaining demonic energy was directly absorbed and devoured by Ye Feng into his body, and injected into Ye Feng's Dantian.

At this moment, Ye Feng's skill was greatly improved.

At this moment, Ye Feng immediately felt that his cultivation aura was improving at an incredible speed.

Ye Feng's previous cultivation level has reached the peak of the tenth level of the Emperor. It is very difficult to cross an entire realm.

But under the injection of this demonic dragon's demonic energy, Ye Feng's big...

The bottleneck will soon be a complete transformation and breakthrough.

Boom! !

At this moment, Ye Feng's body suddenly erupted with an extremely powerful and terrifying aura.

That's the momentum of a breakthrough!

Ye Feng's cultivation level, at this moment, successfully broke through from the tenth level of the emperor level to the half-step god level above the emperor level!

When Ye Feng broke through to the half-step god level, he could immediately feel that his power had grown unparalleled.

Although he has not stepped into the true god level, having stepped into the god level with one foot has already made Ye Feng's combat power undergo an unparalleled transformation.

Ye Feng's current half-step god-level cultivation has greatly enhanced Ye Feng's self-confidence.

In the current Dharma-ending era of the Origin World, a half-step god-level cultivation level is already very terrifying, and he can be regarded as a top-notch master among the major forces.

Not to mention that Ye Feng is a super genius who can leapfrog the competition.

Ye Feng's cultivation has reached the semi-god level, and Ye Feng is confident that he can fight against ordinary true god-level experts.

At this time, Ye Feng finished absorbing the demon energy and saw that the toad had also collected some precious materials such as the scales, claws, and dragon horns from the demon dragon.

Ye Feng said aloud: "This time is really an unexpected surprise."

Toad nodded, suddenly looked at a certain corner of this independent space, and said loudly: "There seems to be a storage ring there."

Uh-huh!

After saying that, Toad jumped over and immediately found a dark storage ring.

Ye Feng's eyes suddenly lit up when he saw this scene, and he said loudly: "This is most likely the storage ring of the demon dragon back then. There must be huge wealth in the storage ring of this ancient demon."

Toad nodded, also smiled, and said loudly: "We will divide it equally."

After saying that, Toad directly opened the storage ring and put the

Everything was poured out.

Suddenly, a lot of things appeared, including various precious materials, ancient books, some weapons, armors, etc.

But the three most precious things among them are: one is a yellowed book, the second is a small metal tower only as big as a palm, and the third is a set of dragon pattern armor engraved with ancient dragon totems.

Toad immediately said loudly: "These should be the most valuable things on this demon dragon back then, namely his inheritance, his weapons, and his defensive armor."

Ye Feng stepped forward at this moment, observed carefully, and immediately saw the four characters "Dragon Destroys Eight Wastelands" written on the book.

Ye Feng couldn't help but said: "This should be the inheritance of this demon dragon. It seems to be very advanced. I just want to practice it. I am lacking this ancient and advanced martial arts inheritance now." "

After finishing speaking, Ye Feng directly opened the inheritance book and began to learn the secrets of inheritance.

Toad did not read this ancient book at this time, because he and the demon Changlong were not of the same ethnic group and could not practice the inheritance of this different race.

But this does not exist for Ye Feng.

Because Ye Feng's skill can originally accommodate thousands of attributes in the world, and Ye Feng can cultivate and use any race's inheritance to explode with terrifying power.

And just when Ye Feng carefully watched and practiced this set of natal inheritance "Dragon Destroys Eight Wastelands" left by the demon dragon.

The toad on the side was refining the dragon-patterned armor left by the demonic dragon, and put it directly on his little toad body, which looked quite funny.

As for the small metal tower, Toad left it to Ye Feng.

This is the weapon of the demon dragon, which can burst out with extremely powerful power.

Obviously, they equally share the wealth left by this demonic dragon. Toad prefers this kind of defensive dragon-patterned armor, probably because Toad is more afraid of death.
