

## Ancient 4001

Chapter 4001 All-round Talent

Buzz!

At this moment, Ye Feng did not hesitate and simply cleaned up all the dust scattered on the formation patterns on the ground.

Then all the formation patterns imprinted on the ground were revealed in his field of vision.

Buzz!

Then Ye Feng didn't need to repair it, he directly input his own mana into the formation patterns on the ground.

Almost at the next moment, this formation pattern immediately emitted bright rays of light. .??.

The entire formation was revived again!

Seeing this scene, the eldest daughter of the Murong family, Murong Mingyue, standing aside, had a trace of surprise in her beautiful eyes.

She couldn't help but said with some envy: "Ye Feng, I found that you really have many abilities. You are simply an all-round talent."

Hearing Murong Mingyue's praise, Ye Feng just grinned and said loudly: "Since I entered the journey of cultivation, I have traveled to many places and naturally learned a lot of methods. I have a little bit of knowledge in all aspects. If you know something, you won't be able to survive in the cruel world of cultivation today."

At this time, Ye Feng said that the Eighteen-Winged Demon Clan standing behind him also showed a hint of surprise in his eyes.

He seemed not to have expected that Ye Feng could find such an ancient formation in this ancient stone chamber and be able to activate it.

The Eighteen-Winged Demon Clan shook his head and sighed. Back then, he came here to explore the entire stone chamber. In addition to finding some ancient elixirs, he recovered some strength after swallowing them and found the broken golden spear. , the others are gone.

Unexpectedly, when Ye Feng arrived, he immediately discovered an ancient formation imprinted on the entire ground, which seemed to be connected to a mysterious independent space.

This made the Eighteen-Winged Demon Clan immediately look at Ye Fenggao a lot.

He suddenly discovered that this human boy was not only extremely powerful in cultivation, but also had extremely powerful abilities and eyesight.

Very extraordinary.

This is definitely not an ordinary human boy.

It is very likely that he is a peerless genius among a super powerful force in the origin world.

At this moment, Toad was staring expectantly at the gradually reviving formation in front of him.

Finally, with the input of Ye Feng's majestic magic power, the entire formation on the ground was finally fully activated.

Buzz!

Almost at this moment, a space door suddenly appeared in this formation.

Seeing this space door, Toad immediately shouted happily: "It seems that we guessed right. This ancient formation is really connected to an ancient space. It seems that many ancient powerful People like to use this method to store their remaining wealth."

Murong Mingyue nodded slightly at this time, couldn't help but reveal a hint of amazement in his eyes, and said loudly: "It is really good to store the wealth and inheritance left behind in this way, ordinary people simply can't discover it, and even if it is discovered, it is estimated that it will not be able to revive the ancient formation on the ground. I am afraid that only Ye Feng can do this."

Toad agreed very much with Murong Mingyue's words. He couldn't help but glance at Ye Feng beside him and said loudly: "This kid is indeed the most evil guy I have ever seen."

And while they were talking, Ye Feng had already taken the first step and walked directly through the door of space and entered the independent space connected by the formation.

Buzz!

At this time, Ye Feng, Murong Mingyue and Toad, as well as the Eighteen-Winged Demon Clan behind them who were leading the way, all entered the space gate formed by this formation.

When they passed through the entire space door, they immediately saw a unique person.

standing space.

At this moment, everyone immediately saw that a huge tomb appeared in this independent space.

At the front of this huge tomb stands a tombstone.

There is no writing on the tombstone.

When Ye Feng saw this scene, he couldn't help but said: "This seems to be the burial place of an ancient powerful man."

Murong Mingyue nodded, but there was a hint of helplessness in her eyes.

Because she saw that except for the tomb, there was nothing else in the entire independent space.

Murong Mingyue was a little disappointed and couldn't help but said: "This does not seem to be a place where a strong ancient man stored his wealth. This is his final burial place."

Toad's eyes were filled with a hint of expectation as he stared at the huge tomb and said, "It is very likely that there will be grave goods of huge value."

Murong Mingyue seemed to have never done this kind of tomb robbing, and couldn't help but said with some disgust: "Are you sure you want to dig up this ancient tomb? Isn't it too unlucky?" ??

Toad glanced at Murong Mingyue, couldn't help but shook his head and said loudly: "After all, he is a descendant from a big family. He does not lack any training resources and does not understand the mood of paupers like us. He found an ancient powerful A lady from a big family like you will never be able to understand the excitement of visiting someone's grave."

At this time, Toad said, he glanced at Ye Feng beside him, rubbed his paws expectantly, and said loudly: "Ye Feng, let's do it directly."

Ye Feng nodded, without any hesitation, and followed Toad towards the tomb not far away.

Ye Feng is not like Murong Mingyue, who comes from the first family in the Sea of Chaos. Since he was a child, he has accumulated various cultivation resources, so he doesn't have to worry about any resources at all.

leaf

Along the way, Feng excavated and explored the tombs of various ancient powerful men, but gained a lot of benefits.

At this moment, Ye Feng followed Toad directly towards the huge tomb not far away.

The Eighteen-Winged Demon Clan seemed to have sensed something at this time, and couldn't help but said: "This seems to be the burial place of an ancient demon clan. I feel a kind of demonic energy from the same source, which is contained in the entire tomb." , and this kind of demonic energy seems to be still alive, maybe the ancient demons in the tomb have changed."

Boom...

And the moment the Eighteen-Winged Demon Tribe finished speaking, what made Ye Feng and Toad twitch the corners of their mouths was that the tomb in front of them really started to shake.

Toad couldn't help but glance at the eighteen-winged demon behind him, and said somewhat speechlessly: "What a crow's mouth!"

The Eighteen-Winged Demon Clan immediately shut his mouth and did not dare to say anything more.

Boom!

And at the next moment, the entire top of the tomb suddenly cracked.

A pale bone palm stretched out directly from the tomb.

In this dim independent space, this scene looks quite chilling.

At this moment, Murong Mingyue, who saw this scene, flashed directly to Ye Feng's side, and said with a serious expression: "This should be the corpse of an ancient demon clan. I felt a very scary feeling. The cold aura of the ancient demons in this tomb must have been very terrifying during their lifetime, and the yin energy generated after the corpse transformation is too terrifying. "

Ye Feng nodded and did not retreat. Instead, he said loudly: "We've already come. It's impossible to leave just like this now. Let's go straight up."

Boom!

At this time, Ye Feng was very ferocious, with a powerful fighting spirit bursting out from his whole body, and he charged directly forward, preparing to strike first and kill this zombie-turned-demon.

Chapter 4002 Lost Advantage

"Ye Feng, you..."

At this time, he saw Ye Feng rushing forward without any hesitation.

Murong Mingyue, who was standing aside, couldn't help but stare blankly.

It seemed that Ye Feng didn't even hesitate for a moment and was about to rush forward to fight the ancient demon that transformed into a corpse.

Because no one knows now how powerful and terrifying this zombie-turned ancient demon is.

The toad was also screaming and rushing forward at this time.

Although the toad doesn't look amazing, it can even be said to be very ordinary, but the toad might be some ancient mythical beast.

So at this time, the toad opened his mouth and spat out, and thunder and lightning burst out from his stomach, with powerful destructive power.

"Why!"

"You're all so impulsive!"

When Murong Mingyue saw this scene, she no longer hesitated, and a silver light suddenly lit up between her brows.

A crescent-shaped magic weapon with terrifying cutting ability burst out directly from the center of Murong Mingyue's eyebrows and charged forward.

This silver crescent moon should be a very powerful magic weapon given to her by Murong Mingyue's family.

It can cooperate with Murong Mingyue's Silver Moon bloodline to unleash terrifying destructive and cutting power.

At this moment, three powerful men attacked.

Of course, Toad is barely strong.

The violent attack force directly bombarded the ancient tomb not far away, directly smashing the entire tomb to pieces.

But the next moment, among the countless dust, a tall corpse covered with corpse spots rushed out of the broken tomb.

This tall corpse was covered with dense green corpse spots, and all the flesh and blood on both arms had disappeared, leaving only white bones. It looked very strange and made people feel chilly in their hearts.

At this time, Ye Feng didn't hesitate at all, and punched the corpse of the transformed demon with a fierce punch, then blasted away.

But at this moment, a piece of corrosive green energy burst out from the palm of the demon's corpse, directly covering Ye Feng's palm in the corrosive green energy.

Wow!

The next moment, Ye Feng suddenly felt that his palms seemed to have been corroded by concentrated sulfuric acid, with large areas of flesh and blood peeling off, and even bones appearing.

The terrible pain made Ye Feng couldn't help but take a breath of air.

"What a strong corrosive power!"

This made Ye Feng's eyes look horrified.

This ancient demon clan transformed into a corpse is too terrifying.

And it seems that after the corpse transformation, he also developed a special and incomparable corrosive green energy.

This is already considered a

A different kind of practitioner, not a dead body.

I didn't expect that this ancient demon could become so powerful after death.

However, Ye Feng also felt a sense of urgency in his heart.

My own Hongmeng Immortal Body is now probably unable to keep up with the use of my current level of cultivation.

It seems that we still need to find ways to improve the strength of Hongmeng's Immortal Body.

Ye Feng knew very well that even if the Hongmeng Immortal Body was promoted to the most powerful ninth level, it would only be comparable to the Master of Great Perfection.

The Master of Dzogchen is definitely the strongest existence in the original world of origin.

But now, with the continuous recovery of the world rules of the origin world, the prosperity of the ancient glorious era must be restored.

The Lord of Dzogchen is no longer enough to see.

Therefore, Ye Feng now naturally feels more and more that the various trump cards and powerful methods he could rely on before have gradually lost their advantage.

If I hadn't been making rapid progress, I would have been eliminated by the times.

So at this time, Ye Feng became more and more eager for more powerful inheritance and methods, as well as more powerful methods of physical cultivation.

Because whether it is the Chaos bloodline or the Hongmeng bloodline, it is estimated that it can only be used for a short period of time.

When there is really an advanced cultivation interface, a strong person who surpasses the master level will arrive.

At that time, even if Ye Feng cultivated his Hongmeng Immortal Body to the most powerful level, he probably wouldn't be able to fight against it.

Because the ninth level, the most powerful of the Hongmeng Immortal Body, only corresponds to the Great Perfection of Domination.

At this time, Ye Feng urgently needs to find a more powerful inheritance.

In this ruins of gods and demons, there are things left by ancient gods everywhere.

Ye Feng naturally regarded this place as a good place for him to find a more powerful natal inheritance.

This kind of opportunity is rare but rare.

We must seize this opportunity.

Try your best to find the natal inheritance of an extremely powerful ancient god in this ruins of gods and demons.

Because a powerful natal inheritance is of great significance to a practitioner.

A practitioner, no matter how talented he is, is of no use if he does not have a high-level and powerful natal inheritance.

The reason why Ye Feng has always been so powerful in combat is because Ye Feng possesses Chaos bloodline and Hongmeng bloodline.

That made Ye Feng's physique very strong.

It also made Ye Feng's magic power better than ordinary practitioners.

It is much more powerful.

Therefore, Ye Feng has been able to maintain such a strong combat effectiveness.

Otherwise, Ye Feng would not be able to compare with the children of those ancient families.

But now, as the world rules of the Origin World continue to revive, many advanced cultivation interfaces will definitely come to the Origin World.

By then, there will definitely be peerless geniuses or peerless masters among more powerful transcendent forces, and their inheritance will definitely be very advanced and ancient.

If Ye Feng didn't plan ahead, he probably wouldn't be able to compete with those transcendent beings with his domination-level bloodline and inheritance.

After all, Ye Feng's most powerful trump card now, whether it is bloodline or inheritance, is at the dominance level.

The dominance level was very powerful in the past.

But now, it's not enough.

And when Ye Feng was thinking secretly in his heart, Emperor Chu suddenly said in his mind: "Ye Feng, don't forget, you still have the Lord of Heaven's Gate of Heaven. You should study it carefully when you have time. The Heaven's Gate you have refined may contain the natal inheritance of the Lord of Heaven. If you obtain it, it will definitely transform your vitality once again."

Hearing what Emperor Chu said in his mind, Ye Feng immediately nodded with bright eyes.

If you have time, you should really study the Gate of Heaven you received in your early years.

This kind of unparalleled treasure from heaven is not available to many people.

After all, Tianjie is an advanced interface that ranks very high among all advanced interfaces.

While Ye Feng was thinking secretly, Murong Mingyue and Toad from behind also attacked.

The toad opened its mouth and spit out a terrifying thunderous light, which hit the corpse of the ancient demon and actually knocked the ancient demon back several steps.

When Ye Feng saw this scene, his eyes suddenly showed surprise.

It seems that the thunder power of the toad is very advanced and not an ordinary thunder power.

Otherwise, it would be impossible to cause such great harm to this ancient and terrifying ancient demon clan.

And Murong Mingyue is worthy of being the eldest lady of the Murong family. The silver crescent moon in her eyebrows has very terrifying cutting power. With a "click", she cut the corpse of this ancient demon with a finger on her palm. It was cut.

"Amazing!"

When Ye Feng saw this scene, his eyes showed envy.

Murong Mingyue's silver crescent moon is really a good thing.

It is definitely a very powerful advanced magic weapon.

It is very likely that it is a treasure handed down from the Murong family from ancient times, otherwise it would not have such terrifying power.

Destructive power.

At this moment, Ye Feng no longer held back, and just frantically used the terrifying first stage of his extremely powerful god-level magic power.

Then directly release the inheritance of the Void God Emperor.

"The Great Void Hand!"

Boom!

A huge hand of pitch-black void suddenly appeared in the entire high altitude, and suddenly struck hard on the corpse of the ancient demon clan, directly knocking the corpse of the ancient demon clan back more than ten steps.

Then Ye Feng did not stop and continued to release the Void God Emperor's natal magic weapon.

Mirror of the Void!

Buzz!

A ray of light rushed out from Ye Feng's head.

A bronze mirror appeared above Ye Feng's head, illuminating the terrifying light of the void.

The light of the void was extremely fast and could not be avoided. It directly bombarded the corpse of the tall ancient demon not far away, sending it flying backwards again and hitting the wall not far away.

It has to be said that the few people present, whether it is Ye Feng, Murong Mingyue, or the mysterious toad, all possess extremely powerful attack power.

Even though the corpse of this ancient demon was very terrifying and powerful, it was still somewhat unable to withstand the crazy attacks from Ye Feng and others.

"They are all so strong!"

When the Eighteen-Winged Demon Clan not far away saw this scene, a drop of cold sweat immediately flowed from his forehead, and he couldn't help but murmured, "Fortunately, I relented

at that time, otherwise, I'm afraid I don't even know how I died. Young people are too scary. Are there so many peerless geniuses born in the Origin World now..."

The Eighteen-Winged Demon Clan thought that many terrifying peerless monsters had been born in the Origin World.

But what he didn't know was that the young people he met happened to be very tough.

Ye Feng and Murong Mingyue are actually considered to be the top geniuses among the younger generation in the Origin World in the Dharma-ending Era, which is why they possess such terrifying attack power.

"You all deserve to die for interfering with my Qing Xiu!"

Suddenly at this moment, the demon corpse not far away that was blown away by everyone's crazy attack suddenly stood up from the ruins.

A terrifying underworld aura suddenly erupted from his body.

Actually, a giant from the underworld composed entirely of the energy of the underworld condensed behind him, possessing great majesty.

Seeing this scene, Murong Mingyue couldn't help but show surprise in her eyes, and said aloud: "This zombie-turned-devil is so powerful that he has cultivated the legendary dharma of the underworld interface. He can use the power of the legendary higher interface of the underworld, which is a bit troublesome now!"

Chapter 4003 Soul System

I have to say that this demon corpse is still very powerful.

Although he died for a long time, he has now revived and has cultivated into a special kind of underworld creature.

Moreover, he also cultivated the underworld Dharma from the underworld.

At this time, Ye Feng looked at the huge underworld Dharma behind the demon corpse, and immediately said: "Toad, your power of thunder seems to be very advanced, and you have a very strong sense of this special underworld attribute. You have the ability to restrain yourself, so you are now responsible for releasing all kinds of thunder power to attack the underworld law behind the demon corpse, while Murong Mingyue and I are responsible for attacking the demon corpse itself. "

Ye Feng knew very well that this demon corpse had now been transformed into an Inferi-like existence, so he was not afraid of any pain at all.

Only by completely destroying it can it be done.

The toad immediately nodded at this time, opened his mouth and spit out streams of thunder and lightning, directly attacking the huge underworld Dharma.

At this time, Ye Feng looked at Murong Mingyue beside him and said loudly: "The two of us, one on the left and one on the right, will directly attack the demon corpse itself."

"good."

Murong Mingyue nodded immediately.

Then she directly controlled the silver crescent moon released between her eyebrows, turning it into a silver lightning-like cutting light, and instantly killed the demon corpse from the right.

At this moment, Ye Feng did not hesitate and instantly released the inheritance of the Void God Emperor.

And he used the Void God Emperor's natal magic weapon, the Void Mirror, to shine out a very terrifying power of the void, and bombarded the demon corpse.

Boom!

At this moment, the three attacks made the demon corpse feel a little at a loss and could only retreat continuously.

In the end, the demon corpse was unable to withstand the violent attacks of the three men, and its entire body was torn apart inch by inch.

The underworld dharma condensed behind the back was also attacked by the thunder and lightning sprayed out from the toad's mouth and was about to collapse.

\u003c

br\u003e Boom!

Suddenly at the last moment, the demon corpse finally fell completely.

This time it was a complete kill.

At this moment, Ye Feng saw this scene, and his eyes suddenly showed deep joy.

Ye Feng couldn't help but said: "It seems that the strength of this demon corpse is not very good."

But what Ye Feng didn't know was that he and Murong Mingyue were already the most powerful young geniuses in the Age of Ending Law in the Origin World, so it was quite normal to have such powerful attack power.

If all those who came today were some relatively ordinary young geniuses or ordinary masters, they probably wouldn't be able to fight against this incomparably powerful demon corpse that had transformed into a corpse.

At this time, the toad jumped directly forward, and then cleaned up all the ruins on the ground.

Everyone immediately saw that there were many good things in the tomb where the demon corpse was buried.

There are many ancient crystal stones.

There are also powerful heritage books.

And a black staff that looks extremely dark.

Seeing this black staff, Ye Feng immediately sensed a very strong soul wave.

Ye Feng's eyes suddenly moved, and he couldn't help but said: "This seems to be a magic weapon with soul attributes. I sensed very majestic fluctuations of soul power from it."

When Toad heard what Ye Feng said, there was a hint of surprise in his eyes.

Toad looked at the demon corpse not far away that was knocked to the ground by them, and couldn't help but said: "No wonder the body of this demon corpse feels not very powerful. After being bombarded by us, it was immediately defeated." It turned out that he was a spiritual practitioner with the mage attribute among the demons. No wonder his body was so weak. "

Murong Mingyue's eyes were a little confused at this time, and she said aloud: "Soul system? Indeed, if this demon was a strong demon who specialized in cultivating physical fitness, then his corpse after the transformation would naturally have a very terrifying sturdiness. We can't destroy it easily."

At this time, Murong Mingyue seemed to have thought of something. She looked at Ye Feng and couldn't help but said in surprise: "Ye Feng, you can actually sense the soul power fluctuations in this black staff?"

Ye Feng smiled slightly at this moment and said: "I am a soul master, so I can naturally sense the soul fluctuations in the magic weapon with soul attributes."

"What? Are you actually a soul master?"

Hearing what Ye Feng said, Murong Mingyue's eyes suddenly showed horror.

The eldest lady of the Murong family said with great envy: "I didn't expect you, Ye Feng, to actually practice the Soul Formation. It turns out that you have always been a Soul Martial Fellow. No wonder you have all kinds of incredible methods, and you are so good at the Formation Formation." I understand, it turns out you are a soul master."

For Murong Mingyue, a soul master in the human race is naturally very powerful and mysterious.

Because soul masters are very rare in this world.

Only those who have awakened the talent of soul master innately can cultivate the soul.

Moreover, it can be said that soul masters have a natural blessing effect on various other ways of cultivation.

For example, formation, alchemy, or weapon refining all require the practitioner's spiritual power to be very huge before they can practice.

So soul masters can be said to be all-round talents, who can practice anything without so many constraints.

Unlike warriors, who can only practice magic power and supernatural powers, they can only have huge martial arts, and other skills cannot be mastered.

At this moment, Ye Feng walked directly to the ruins of the ancient tomb and picked up the black staff.

Although the demon corpse was easily solved by Ye Feng, Murong Mingyue and Toad,

because he was specialized in practicing soul power back then.

So even if the demon corpse was transformed, it was not that powerful.

What he was really good at was the means of soul attack.

So at this time, Ye Feng picked up the black staff and could immediately feel the quality of the black staff, which might be comparable to the Void God Mirror of the Void God Emperor that Ye Feng had obtained before.

The Void God Mirror is a magic weapon with the attribute of void power.

And this black staff is specifically used to attack the enemy's soul.

This is naturally of great use to Ye Feng.

You know, Ye Feng's soul power is very huge.

But Ye Feng's soul attack means are very few.

But now with the black staff left by the demon clan, Ye Feng can completely inject his huge soul power into the black staff, and then release a terrible attack through the black staff.

At this time, Ye Feng directly refined the black staff on the spot.

Then Ye Feng carried the black staff on his back, just like carrying a long sword, which looked quite cool.

At this time, Murong Mingyue picked up an ancient book from the ruins of the ancient tomb.

This book is the powerful inheritance left by the corpse of the demon clan.

However, after Murong Mingyue took a look, he said in disappointment: "Dark Soul? This is the inheritance that the demon clan specially cultivates, and we humans cannot cultivate it."

At this time, the toad said with a smile: "This does not exist for Ye Feng. Ye Feng can practice anything. Good guy, this kid is really a monster."

Hearing what the toad said, Murong Mingyue immediately showed a look of astonishment on his face.

Her beautiful eyes immediately fixed on Ye Feng in front of her, and she said in amazement: "Ye Feng, can you really practice the inheritance of the demon race? Your talent is too exaggerated!"

Chapter 4004 Immortal Bones

At this time, it was naturally impossible to fake the shock on Murong Mingyue's face.

Because she was really shocked by Ye Feng's various talents and abilities.

Ever since Murong Mingyue was rescued from the prison in the demon's lair by Ye Feng, she actually didn't spend much time with Ye Feng.

It's just a short half day.

But in just half a day, the various methods and abilities that Ye Feng inadvertently revealed were simply dazzling.

Murong Mingyue once praised Ye Feng as an all-round talent, but it was probably just a compliment on the scene.

But now Murong Mingyue really feels that Ye Feng is omnipotent.

Because no matter what it is, Ye Feng seems to have practiced it.

A formation.

Together with the soul master.

Martial arts practice.

Now Toad also says that Ye Feng can practice the inheritance of the ancient demon clan.

This really shocked Murong Mingyue deeply.

Because Murong Mingyue is not a small person.

She is the eldest daughter of the Murong family, the number one among the ancient families in the Sea of Chaos.

He has been pampered since he was a child, and he has a very high vision.

She has also seen various super geniuses from various major forces in the Origin World.

But now Murong Mingyue suddenly discovered that the so-called super geniuses she had seen before were really nothing in front of Ye Feng, they were too mediocre.

Murong Mingyue suddenly felt that Ye Feng was like a young dragon.

Once his true power and talent are completely unleashed, he will surely be able to shake the entire world of origin in the future.

But Murong Mingyue also felt very lucky.

The Origin World is absolutely lucky to be able to give birth to a super genius like Ye Feng.

Because if some peerless monsters like Ye Feng were not born in the Great World of Origin, and those transcendent beings from the advanced cultivation interface arrived in the future, they would probably not be able to compete with the powerful men and major forces in the advanced cultivation interface.

At this moment, when Murong Mingyue was secretly thinking about it, Ye Feng had already walked up to Murong Mingyue and held her in his hands.

This inheritance of the demon corpse was directly in his hands.

This legacy is called Dark Souls.

Once the cultivation is successful, you can condense a dark attribute of your own, the dark soul.

It has very powerful dark power.

Ye Feng started practicing on the spot at this moment.

Ye Feng couldn't help but sigh in his heart at this time. Although Chaos bloodline and Hongmeng bloodline were only domination-level bloodlines, they were increasingly unable to keep up with his own use.

However, many of the talents awakened by these bloodlines are still used by Ye Feng to this day, and will be able to continue to be used in the future.

They are all very amazing talents and abilities, very rare, very rare, and cannot be possessed by ordinary people.

For example, the ability to swallow, for example, Ye Feng's skill can accommodate thousands of attributes, such as the future body of Dzogchen, such as the Hongmeng Purple Qi that can repair various spiritual things, and the Heaven and Earth that can see through the energy of heaven and earth and analyze the framework of various formations. Eyes, wait...

For Ye Feng, these talents are still used to this day.

And Ye Feng firmly believes that it will not be outdated in the future.

What is outdated is only the physique and life level given to Ye Feng by these two bloodlines.

At this time, Ye Feng began to practice the dark soul inheritance he had obtained.

This dark soul inheritance comes from the ancient demon clan and is very advanced.

Buzz!

After Ye Feng practiced, the shadow of a huge dark soul suddenly appeared in the void behind him.

The Dark Soul is very tall, several kilometers long, giving people an ancient and majestic feeling.

Even the eighteen-winged demons not far away felt a kind of natural suppression from their souls and blood at this time.

The Eighteen-Winged Demon Clan couldn't help but sigh: "Lord Ye Feng, he is really an eternal monster. Even in ancient times, it is estimated that it would be difficult to be born like Lord Ye Feng.

Such a peerless genius. "

It has to be said that Ye Feng's talent is so shocking that even the Eighteen-Winged Demon Clan, an ancient demon clan, is convinced that Ye Feng is too unbelievable.

Toad, on the other hand, had long been used to it. He just grinned and said, "Some of Ye Feng's talents are indeed a bit outrageous."

Even an ancient beast like a toad, with its mysterious identity, was quite amazed by Ye Feng's talent.

At this moment, Ye Feng smiled and said very nonchalantly: "It's just some small tricks. I still lack a very high-level inheritance of life. I hope I can find it in this ruins of gods and demons."

After Ye Feng finished speaking, everyone divided up the various wealth contained in this ancient tomb.

They were all left behind by that demon corpse.

Then everyone left this independent space and returned to the cave room.

At this time, the Eighteen-Winged Demon Clan spoke out: "I have never explored the caves in this mountain range in other places."

Ye Feng nodded slightly at this time.

Buzz!

Suddenly, the broken golden spear he held in his hand emitted waves of faint energy fluctuations.

"Um?"

Ye Feng's eyes immediately moved.

When the toad beside him saw this scene, he was quite surprised and said: "The broken golden spear in your hand should still have spirituality. Perhaps it has sensed the legacy left by the owner of the golden spear. breath."

Ye Feng nodded and said aloud: "That should be the case. I can feel that there is an inexplicable attraction in this broken golden spear, attracting me to a certain place in this mountain cave."

Murong Mingyue said without any hesitation: "Then let's go over and take a look. If we can find the owner of this golden spear, we will really make a lot of money. The owner of this broken golden spear, It is definitely an ancient god-like existence that was extremely powerful in this ruins of gods and demons."

Ye Feng

He nodded and immediately led everyone to fly quickly in a certain direction.

The cave in this mountain range has dense passages, which are as complicated as the demon cave.

But at this moment, Ye Feng used the broken golden spear in his hand to guide him to where the owner of the golden spear was.

Ye Feng was not worried that the owner of the golden spear was still alive.

Because this broken golden spear had been completely broken and shattered in the war between gods and demons that year.

Therefore, the owner of this broken golden spear is probably dead long ago.

When Ye Feng arrived at his destination, he immediately saw a shocking scene.

I saw a bloody ocean appearing at the end of the cave.

In this bloody ocean, there are many ancient bones floating there, which looks very visual impact.

At this moment, the broken golden spear in Ye Feng's hand was pointing to the center of the bloody ocean.

"That is....."

There, Ye Feng saw an extremely tall and majestic figure.

This figure's entire body was broken, leaving only a skeleton standing in the ocean, standing like an immortal monument, looking very vast and vast.

"this....."

Murong Mingyue's eyes revealed a look of horror and she said loudly: "This must have been a very terrifying battle place back then. So many strong men died, and even the blood that was spilled during the war all gathered into a sea of blood. , that tall figure was most likely the holder of the broken golden spear, an ancient god who led the war. "

Uh-huh!

The toad couldn't bear it for a long time, and quickly jumped and flew in that direction, and said excitedly: "The tall corpse in the middle of this bloody sea, all the bones in the body are blooming with brilliance, only the ancient gods Only the immortal bones of an ancient god are worth a fortune. We are going to make a fortune!"

Chapter 4005 The strongest bone in the world

"Let's follow."

At this time, I saw the toad flying directly towards the middle area of the bloody ocean.

Ye Feng looked at Murong Mingyue beside him, and immediately smiled and said: "This toad is really a money addict."

Murong Mingyue smiled slightly, with a beautiful smile on her beautiful face, and then followed Ye Feng and flew directly towards the middle area of the bloody sea.

At this time, the Eighteen-Winged Demon Clan immediately shouted to the distance: "Master Ye Feng, I will not go there. I feel that the immortal skeleton left by the ancient god has a huge and terrifying pressure on me. , I feel like I can't get close to that sacred area, otherwise I will be shattered to pieces."

Hearing what the Eighteen-Winged Demon Clan said, Ye Feng turned around, smiled and said, "Okay, then you can wait for us here."

Uh-huh!

After finishing speaking, Ye Feng followed Murong Mingyue to Toad's side.

At this time, they were already standing in front of the immortal skeleton.

This immortal skeleton feels very tall and majestic, looking like a white-bone giant.

And the most amazing thing is that every inch of this immortal skeleton exudes an immortal golden light.

At this time, Ye Feng did not hesitate, and flew directly in front of the immortal skeleton, and then stretched out his hand, trying to sense whether this immortal skeleton was the legendary skeleton left by the ancient gods.

Buzz!

But just at the moment Ye Feng stretched out his hand and pressed it on this immortal skeleton.

Suddenly, this huge skeleton was emitting an extremely bright golden light.

This kind of golden light has a very terrifying divinity, and it suddenly enveloped Ye Feng's whole person.

Then Ye Feng found out, and something extremely terrifying happened.

All the blood power in Ye Feng's body, including Chaos blood and Hongmeng blood, were all absorbed by this golden skeleton extremely quickly.

"Ye Feng, are you okay?"

When Murong Mingyue saw this scene, her eyes immediately showed deep horror, and she quickly flew forward to save Ye Feng.

Boom!

But just after Murong Mingyue touched the golden light that enveloped Ye Feng's body, he was directly blasted backwards.

br

Murong Mingyue's eyes widened immediately, as if she did not expect that the light of golden energy emitted by this dead and immortal skeleton was so terrifying.

You know, Murong Mingyue is not a little person, nor is he an ordinary master.

She is the eldest lady from the Murong family, the first family in the Sea of Chaos.

She has very powerful strength and possesses a terrifying cultivation level at the tenth level of the god level, second only to the half-step master.

At this time, Murong Mingyue immediately released the most powerful magic weapon in her eyebrows.

Uh-huh!

A silver crescent moon bloomed with bright silver light, slashing directly forward, trying to split the golden light around Ye Feng.

Boom!

But a powerful magic weapon like the silver crescent moon struck the golden light around Ye Feng, and only erupted with a huge roar, which was unable to split the golden light around Ye Feng.

Seeing this scene, Murong Mingyue was completely shocked.

I didn't expect this layer of golden divine light to be so terrifying.

At this time, Toad couldn't help but said in horror: "This kind of divine golden light... Could this skeleton be left behind by the legendary head of the gods, the Immortal Clan of Gods?" Bones? This is bad!"

"Head of the gods?"

"The Immortal Celestial Clan?"

Hearing what the toad beside him said, even Murong Mingyue, the eldest lady of the Murong family, had never heard of the Immortal Celestial Clan.

She immediately couldn't help but asked: "Toad, what do you mean? Is this skeleton very extraordinary?"

"More than extraordinary!"

Toad immediately nodded very solemnly.

Even though Toad usually prefers a playful and smiling face, at this time his face became very deep and solemn, and he said loudly: "The Immortal Clan of Gods, in the ancient age of gods, was the head of the gods and one of the top 100 gods. The most powerful of the gods, this skeleton should be the Immortal Bone of the God left by the Immortal Clan of God. This kind of skeleton is very magical and has strong divinity. Once a living being comes close to the Immortal Bone of the God,

Even if the owner of this immortal bone of a god has completely perished, he can instantly absorb all the blood of the creatures that touch it and use it to temper the flesh and blood attached to the bone. "

Hearing what Toad said, Murong Mingyue's eyes immediately showed horror, and she couldn't help but said in horror: "You mean, Ye Feng will be sucked dry of everything by this immortal bone of the god." The power of blood and then become an ordinary person? "

Toad nodded and said aloud: "If nothing else happens, it should be like this, but...fortunately this kid met me."

When he said this, Toad immediately looked at Ye Feng, who was shrouded in golden light, and immediately shouted: "Ye Feng, how do you feel now?"

Ye Feng immediately yelled and said: "I feel that my blood is being rapidly absorbed by this skeleton. I feel that my whole body is about to become useless."

The toad immediately said: "Don't resist, let this immortal bone of the god absorb all your blood."

When Ye Feng heard Toad say this, his eyes suddenly showed a look of astonishment, and he said loudly: "Then am I not useless?"

The toad spoke up and said: "I will teach you a way to completely fuse this immortal bone of the gods. The immortal clan of gods was the head of the gods among the ancient gods. This immortal bone of the gods is absolutely It is unique. This may be a great opportunity for you, Ye Feng. If you can successfully fuse this unique immortal bone of a god, then you will transform your body into an immortal body of a god. By that time , your previous Chaos bloodline or Hongmeng bloodline is simply too weak. If you can really turn your bones into the Immortal Bones of the Gods, then you will be able to cultivate the most powerful Immortal Body of the Gods among the gods. When you reach the ultimate level, , you can definitely defeat everything."

Hearing what Toad said, Ye Feng's eyes suddenly revealed a look of deep horror.

I didn't expect things to change like this. ??

Do you want to give up the Chaos bloodline and Hongmeng bloodline?

But according to what Toad said, Chaos bloodline or Hongmeng bloodline are simply weak in front of this immortal body of a god.

The immortal body of the gods seems to be the most powerful physique among the heavens, the head of the gods, and the supreme body among the immortal clan of the gods.

At this time, Ye Feng immediately said: "Okay, what should I do now?"

The toad immediately said: "Don't resist now. Let this unique immortal bone of the gods absorb all the power of your blood. When the absorption is almost done, you can directly remove your own bones, and then put this one. Forcibly pulling the immortal bones of the gods into your own body and flesh is the only way, and most people don't know it at all. "

"What??"

Hearing what Toad said, Murong Mingyue beside her immediately widened her eyes slightly.

Even the eldest lady of the Murong family found this process absolutely terrifying.

Want to remove your own bones?

How terrible pain must this be? ?

Murong Mingyue immediately couldn't help but said: "In this case, Ye Feng will be hurt to death in the process."

Toad immediately shouted coldly and said: "If you want to achieve a supreme physique, what's the point of enduring a little pain? As long as he doesn't die from pain and successfully fuses this unique immortal bone of the gods, then Ye Feng's future will be There is no limit to it, this skeleton will become Ye Feng's strongest core in the future."

After Toad finished speaking at this time, he couldn't help but sigh and said: "I didn't expect that the most unique immortal bone of the gods in the world would appear here. You know, the immortal clan of gods is known as the head of the gods, but every generation of gods is immortal. The clan

has only one clan member. Since ancient times, there is only one immortal bone of the gods. Therefore, there is only one immortal bone of the gods in the whole world. Whoever obtains the immortal bones of the gods will be the only clan member of the immortal clan of gods and will lead the way in the future. Gods, of course all the gods are dead now, but this does not affect the fact that the Immortal Bone of the God is the strongest bone in the world. If Ye Feng can really fuse the Immortal Bone of the God into his body, then this God The Immortal Bone will allow Ye Feng to possess the strongest bones in the world, and this Immortal Bone of the God can exude the divine power of the God, constantly tempering the flesh and blood attached to this skeleton, making Ye Feng's The flesh and blood body gradually transformed into the true immortal body of the gods."

After saying that, Toad immediately stared at Ye Feng who was not far away, and said loudly: "Ye Feng, a once-in-a-lifetime opportunity is right in front of you. It's up to you whether you dare to give it a try and remove the mortal bones. By replacing this unique and strongest bone in the world and inheriting the power of the head of the gods, you will undergo an unparalleled transformation."

#### Chapter 4006 The Strongest Core

Hearing what Toad said, Ye Feng's eyes suddenly showed a hint of hesitation.

Because if you continue to practice the Hongmeng Immortal Body, then you may awaken several good talents in the future.

But Ye Feng has long known that the Hongmeng Immortal Body will soon be unable to keep up with his own use.

Moreover, now that the arrow is on the string, he has to fire it, otherwise he will be sucked dry by the strongest skeleton in the world.

So at this time, Ye Feng made up his mind and immediately said: "Okay, then I will directly forcibly fuse this unique immortal bone of the gods."

Toad immediately said: "Okay, I am determined. If you can successfully fuse this immortal bone of the gods, then this skeleton will become your most powerful core. Later, based on this skeleton, Continuously temper your body and flesh, and one day your entire body will become the immortal body of the Great Perfection God. At that time, you will become the strongest existence in the world. "

After Toad finished speaking, Ye Feng made up his mind and began to remove his bones from his body.

In fact, Ye Feng's own bones are also very good now. They are bones with chaotic attributes and Hongmeng attributes.

But compared with the Immortal Bone of the God, the unique and strongest one in the world, it is naturally much weaker.

Therefore, Ye Feng actually had nothing to hesitate at this time. He just started to remove his original bones and then started to fuse the Immortal Bones of the Gods.

This process is naturally very painful.

Even though Ye Feng has experienced strong winds and waves along the way, his will has been tempered and is as firm as steel.

During this whole process, I also felt great pain.

He even couldn't help but roar up to the sky!

Murong Mingyue turned around, not daring to look at this horrific and painful scene.

Toad stared at Ye Feng, hoping that Ye Feng could succeed.

No one knows better than Toad that once the fusion of this immortal bone of a god, which is unique in the world, is successful, Ye Feng will get the most powerful bone in the world.

Ye Feng's bones will definitely be indestructible when the time comes.

But the flesh and blood is still Ye Feng's.

But after possessing this kind of immortal bone of the gods, this skeleton will continuously release divine power, constantly tempering Ye Feng's own body and flesh, allowing Ye Feng's entire body to eventually become the true immortal body of the Great Perfection God. .

The whole process was extremely difficult.

But Ye Feng's will is very firm after all.

So the integration was successful in the end.

And at the moment when Ye Feng's fusion was successful,

For a moment, I felt that I had the strongest bone strength in the world.

His own bones are almost indestructible.

At this time, Ye Feng even began to exude a faint golden light.

Because the power in the immortal bones of gods is a very immortal golden power with divinity.

At this time, Toad immediately said happily: "Ye Feng, you have successfully integrated! Your future is immeasurable!"

Ye Feng said aloud: "If you put it this way, I am now invincible and no one can beat me to death."

Toad corrected: "It's just that your bones are indestructible. Your flesh and blood body is still at the original level. But with this immortal bone of the gods, this skeleton will continuously release divine power to transform your flesh and blood body. To become the final immortal body of a god, you have to go through ten stages in total."

Hearing what Toad said, Ye Feng's eyes suddenly showed surprise, and he immediately asked: "I have fused this immortal bone of a god, and I still need to temper my flesh and blood to make my physique truly authentic." Become the immortal body of a god?"

Toad nodded and said loudly: "Yes, if you want to achieve the supreme immortal body of a god, you need to constantly temper your flesh and blood body. There are ten stages in total. The first stage is mainly to temper your fists. Turn on the divine power of your fists and make your fists become the fists of the gods. The second stage is to temper your eyes and make your two eyes become the eyes of the gods. They have the eye power of the immortal clan of gods. There is also the third stage. The third stage, as well as the fourth stage, all the way to the tenth stage, each stage will allow a certain

part of your body to be tempered into the body of a real immortal clan of gods. So now you have the immortal bones of gods, but you only have a body. The indestructible bones and the flesh and blood of your body still need to be tempered from scratch. "

Ye Feng immediately asked: "How to temper it? I can feel that although the immortal bone of the gods I fused is indestructible, the divine power in it has been consumed too much and is almost gone. "

The toad said with a smile: "Then you should keep looking for various things with divine substances, absorb them with the immortal bones of gods, and then feed them back into your flesh and blood. In this way, you can continue to temper your Let your body gradually transform into the most powerful immortal body of the Great Perfection God."

When Ye Feng heard what Toad said, he immediately nodded.

It seems that I still have a long way to go.

After all, the immortal body of a god has ten major stages.

At present, I have not entered the first stage.

But now that he has been fused with the Immortal Bones of the Gods, his own bones are now indestructible.

The main thing to do now is to let your flesh and blood, that is, every part of your body, transform into the ultimate immortal body of a god.

Ye Feng had no illusions. After merging this skeleton, he would instantly become the immortal body of a god. In that case, he would be invincible in an instant, which was too unrealistic.

The immortal bone of the gods that I fused only laid the most solid foundation for myself.

After that, he must continue to temper his body and flesh on the basis of this skeleton.

Let your entire body slowly evolve into the true immortal body of a god.

This is what Toad calls the ten stages.

At every stage, you must temper a part of your body.

When every part of his body is tempered into the immortal body of a god, then he will truly become the strongest being among the gods.

By that time, it is estimated that Ye Feng will have no opponent in the world.

At this time, Ye Feng was very pleasantly surprised. He did not expect that he would receive such a heaven-defying opportunity this time, and directly obtain the strongest skeleton in the world.

This is equivalent to the strongest core in the world!

At this moment, Ye Feng immediately looked at the toad beside him and asked: "How should I absorb various divine substances? Which things have divine substances?"

The toad smiled and said: "Of course, the things left by the ancient gods have divine substances, which you can absorb, temper your body and flesh, and constantly unlock the potential of every part of your body. Of course, some The bloodlines of the descendants of powerful gods also contain divine substances. After you devour these bloodlines, you can also obtain divine substances."

Hearing what Toad said, Ye Feng nodded and initially understood how to temper his body and flesh.

Ye Feng smiled and said at this moment: "In any case, I now have the strongest bones in the world. Even if my flesh and blood are destroyed, my bones are indestructible and it is difficult to die completely."

Toad immediately laughed and said: "You should not show your skeleton to the public easily, because there is only one immortal bone of a god in the world. It is a single seedling. If it is discovered by some greedy super strong people, Maybe he will forcefully peel off your bones, and your boy will definitely end up miserable."

Hearing what Toad said, Ye Feng was immediately shocked.

What Toad reminded is indeed correct.

I can't become very arrogant and arrogant just because I have the unique and strongest bones in the world. I still have to keep a low profile.

However, Ye Feng was still in a very good mood at this time.

He has fused the immortal bone of the gods, which can be said to be the strongest creation.

Next, Ye Feng only needs to continue to search for various things with divine substances, slowly absorb the divine substances, and use them to temper his body and flesh, so that his physique can continue to move towards the final perfection of the immortal god. Just physical transformation.

At this time, Ye Fenghuo clenched his fists and could feel the terrifying power flowing through his body.

Even if he has not yet transformed into the first stage of the immortal body of a god.

Ye Feng also feels that his current strength is countless times stronger than before.

Sure enough, the Immortal Bone of the God is indeed the strongest bone in the world, and the transformation it brings to him is absolutely unparalleled.

Uh-huh!

At this time, Murong Mingyue flew over not far away, with a look of deep surprise in her beautiful eyes, and couldn't help but said: "Ye Feng, congratulations to you, you have obtained the strongest skeleton in the world. In the future, as long as you can continue to temper your body and flesh, you will be able to become the strongest immortal body in the world, and no one can be as good as you."

Ye Feng smiled slightly and said aloud: "Please Miss Murong keep this matter a secret for me."

Murong Mingyue immediately nodded and said, "Don't worry, I understand."

At this time, Ye Feng looked at the entire bloody ocean around him and said loudly: "This was a place of extremely tragic war. Countless strong men fought in the battle, forming this bloody ocean. Although it is endless The years have passed, and a lot of blood has been lost in this bloody ocean, but there is still a lot of majestic energy left. Next, I will practice here. "

Uh-huh!

After saying that, Ye Feng jumped directly and flew high into the sky above the bloody ocean.

Then he directly released the Devouring Domain and began to devour the ancient blood energy remaining in this bloody sea to strengthen his own power.

At this time, Toad looked at Murong Mingyue beside him, smiled and said: "Let Ye Feng practice here, let's continue to look around to see if there are any other good things left behind, this kid is lucky It's so good that even this divine beast is envious."

Upon hearing this, Murong Mingyue just smiled slightly and said nothing more. Then she and the Toad Soldiers split into two groups and flew towards the area surrounding the ocean, preparing to find other cultivation resources.

Chapter 4007 Monster

"Rumble..."

At this time, as Ye Feng released the Devouring Domain, a huge amount of blood energy was immediately absorbed by Ye Feng from the bloody ocean below, and then injected into his Dantian.

Ye Feng could immediately feel that the power in his Dantian was growing rapidly.

However, Ye Feng was quite disappointed that the blood energy in this bloody sea did not contain divine substances.

Perhaps in the endless years, those divine substances have completely passed away.

Therefore, the blood energy absorbed by Ye Feng cannot temper his body.

But it made Ye Feng's skill increase a lot.

At this time, Ye Feng's cultivation aura immediately began to break through rapidly.

"boom!"

The second stage of god level!

"boom!"

The third level of god level!

"boom!"

The fourth level of god level!

"boom!"

The fifth level of god level! !

At this time, Ye Feng's cultivation finally stopped.

This made Ye Feng's eyes reveal a hint of surprise.

You must know that endless years have passed in this bloody ocean, and a lot of blood energy has been lost, and even divine substances have been lost.

But he didn't expect that the remaining blood energy would still make Ye Feng's cultivation level rise four levels at once, directly stepping into the fifth stage of the god level.

It can be said that Ye Feng is very happy.

At this time, Ye Feng looked in a certain direction not far away, and immediately found a toad flying over from a distance with a happy face.

Obviously Toad must have found a lot of good things around and stored them in the space in his stomach, otherwise he would not be so happy.

Ye Feng immediately smiled and said: "Toad, it seems you found a lot of good things."

Toad curled his lips at this time and said aloud

He said: "No matter how good I find, it is not as precious as your immortal bone of a god. Your immortal bone of a god is the strongest bone in the world. It is unique and of inestimable value."

And just when the toad was talking.

Boom!

Suddenly, a violent vibration sounded from a certain direction not far away.

Ye Feng's expression immediately changed and he couldn't help but said: "Go over and have a look. It seems to be the place where Murong Mingyue is exploring. She may be in danger."

The toad immediately stopped and nodded, following Ye Feng, and immediately flew quickly in the direction of the roaring sound.

When Ye Feng arrived at his destination, he immediately saw a huge bloody monster.

This bloody monster was covered with dense tentacles, imprisoning Murong Mingyue in a tentacle prison.

These tentacles are covered with dense eyes, which look very strange.

Although the crescent moon between Murong Mingyue's eyebrows is very sharp, it can cut and break all these tentacles.

But after these tentacles are cut and broken, they will grow again instantly, as if they are immortal.

When Toad saw this monster covered with bloody tentacles, his eyes suddenly showed a trace of surprise, and he couldn't help but said: "This seems to be a blood demon born in the ocean. It can pass through Absorb the blood energy from the surrounding bloody ocean and continuously restore your body. Only by destroying its tentacles and body at the same time can its tenacious vitality be cut off. "

When Ye Feng heard what Toad said, he immediately nodded.

He also saw that Murong Mingyue was not in much danger, but was trapped inside by countless tentacles.

Because after Murong Mingyue cuts and breaks those tentacles, those tentacles will grow and recover again, making it impossible to kill them all.

Ye Feng

At this moment, without any hesitation, he just held the golden spear in his hand and rushed in front of the bloody monster in an instant.

boom!

At this moment, all the bones in Ye Feng's body were already the immortal bones of gods.

Therefore, the power Ye Feng exudes is already the golden power of the incomparable sacred immortal bones of the gods.

The broken spear in Ye Feng's hand was a weapon left behind by the Immortal Clan of the Gods.

Therefore, Ye Feng's own mana at this moment has been transformed into the unique golden mana of the Immortal Clan of Gods.

When Ye Feng injected these golden mana into the golden spear in his hand, he suddenly stimulated the extremely powerful power in this golden spear, and a terrifying golden light burst out in an instant.

A giant spear composed of thousands of meters of light was condensed in the entire sky, and it stabbed fiercely into the body of the blood demon monster not far away.

"Pfft!"

The golden spear was so sharp that it pierced the blood demon monster's body and nailed it into the ocean.

You know, what Ye Feng pierced was the body of this blood demon monster.

So at this moment, Ye Feng caused serious damage to the blood demon monster, causing it to let out an earth-shattering cry.

At this moment, Ye Feng did not hesitate and rushed directly in front of Murong Mingyue, pulling Murong Mingyue out of the imprisonment of countless tentacles.

At this moment, Murong Mingyue suddenly said: "This monster guards a very ancient cave. I wanted to enter that ancient cave to find the inheritance, but I didn't expect to be trapped here by this monster. I have never been able to I sent out a distress signal because I was afraid of affecting Ye Feng's cultivation."

Ye Feng nodded and said: "Now that I have successfully cultivated, let's work together to get rid of this monster and see what the cave he is guarding is."

After saying that, Ye Feng directly released his

Another powerful weapon of his own, the Divine Mirror of the Void.

boom!

At this moment, in the Void Divine Mirror, streaks of void divine power rushed out, and void cracks evolved directly in the space. They were even more terrifying than the space cracks released by Ye Feng using the space gems before. In an instant, Countless tentacles in front were cut and broken.

At this time, Murong Mingyue was concentrating on controlling the silver crescent between her eyebrows to cut the body of the blood demon monster in front of her.

The body of this blood demon monster has been nailed to the ocean by Ye Feng with a golden spear. It cannot move and can only watch as Murong Mingyue's silver crescent moon chops its body into countless pieces.

"Finally it's completely resolved."

Murong Mingyue immediately breathed a sigh of relief.

After all, this kind of monster that can infinitely restore its body is really difficult to deal with.

Only by destroying all his tentacles and body at the same time can he be killed.

"Crack!"

At this time, the moment the blood-colored monster died, a blood-colored crystal stone the size of a human head suddenly fell from its body.

When Toad saw this scene, his eyes immediately lit up and he said: "This is the blood crystal condensed from the body of the Blood Demon. It is the essence of the power of this Blood Demon monster!"

Although Toad wanted it very much, he also found a lot of good things around.

And he also knew that Ye Feng needed to improve his skills now.

The toad directly threw the blood crystal the size of a human head to Ye Feng and said: "Swallow it directly. It will be of great benefit to your blood energy. Moreover, this blood demon monster was born in this bloody ocean. He The blood crystal condensed from all the blood energy in your body

is very likely to contain divine substances. It may be absorbed by your immortal bones, and then feed back and temper your body and flesh. I really hope you hurry up. The immortal body of the god who has achieved great perfection will lead me to conquer the world.”

#### Chapter 4008 Tempering the fists

At this time, when he heard that Toad offered to give this blood crystal to him, Ye Feng had a look of surprise in his eyes. He couldn't help but smile and joked: "Toad, haven't you always been greedy for money? I didn't expect you. He also took the initiative to give me this blood crystal, which is very precious. "

"You kid..."

Toad curled his lips and said aloud: "Anyway, I have found a lot of good things, and this blood crystal contains divine substances, which is indeed of great benefit to tempering your body. Ye Feng, I am with you. But it's a lot of investment, so don't let me down in the future.”

Obviously, the original toad only regarded Ye Feng as an ordinary young genius, but now with the contact, the toad increasingly feels that Ye Feng may really become a being who leads the gods in the future.

After all, not everyone can successfully fuse the Immortal Bones of the Gods.

Many people would explode and die if they tried to fuse the Immortal Bones of the Gods.

But Ye Feng, with such a low level of cultivation, was able to withstand such horrific pain and successfully fuse the Immortal Bones of the Gods, which is enough to illustrate Ye Feng's potential.

And with the strongest core of the Immortal Bone of the God, Ye Feng will become more and more powerful in the future.

So today's toad is naturally particularly interested in Ye Feng and regards Ye Feng as a key investment target.

At this moment, Ye Feng stopped being pretentious and directly took over the blood crystal the size of a human head.

Then it releases the Devouring Domain and begins to devour the blood energy within it.

Of course, the most precious thing is the divine substance contained in this blood crystal.

After all, the blood demon monster with countless tentacles was a terrifying creature that was born in this bloody sea.

Therefore, the essence condensed from the tentacle monster's body and the blood crystal naturally contain a lot of divine substances, which are of great benefit to Ye Feng.

Wow!

At this moment, with Ye Feng's constant

Swallowing, the blood energy in this blood crystal was immediately sucked out, and then injected into Ye Feng's Dantian, quickly strengthening Ye Feng's power.

Ye Feng could feel that his skill had rapidly improved again.

boom!

The sixth level of god level!

boom!

The seventh level of god level!

Almost at the next moment, two extremely powerful cultivation auras burst out from Ye Feng's body.

He simply made another breakthrough and reached the seventh level of god level.

At this time, Ye Feng's face suddenly showed a deep look of joy.

Unexpectedly, a small blood crystal contained such majestic blood energy, allowing him to break through two levels in a row.

In addition, Ye Feng also absorbed a lot of divine substances from this blood crystal the size of a human head.

After these divine substances were absorbed by Ye Feng's bones, they were directly injected into Ye Feng's body and flesh.

What Ye Feng is currently tempering is the first stage of the Immortal Bone of the God.

Therefore, these divine substances, injected into the flesh and blood, are basically in the two fists that Ye Feng wants to open in the first stage.

Ye Feng could feel at this moment that after injecting some divine substances into his two fists, they suddenly became much stronger and more condensed than before.

Moreover, a vague divine power was about to be developed by Ye Feng from his fists.

According to Toad, the first stage of the Immortal Bone of the God is to activate the divine power in your fists and turn your two fists into the fists of the God.

At that time, his fist will be able to explode with unparalleled divine power.

At this time, all the divine substances that Ye Feng had absorbed were injected into his two fists.

However, the divine substance contained in this blood crystal was too little after all, and it only helped Ye Feng's fist to be slightly tempered.

There is still a long way to go before he can temper his two fists into the true fists of gods.

If the divine power to activate the double fists in the first stage is divided into ten levels from weak to strong.

So now, Ye Feng is just preliminary tempering his fists, and is just stepping into the first level of the first stage of the Immortal Bone of the God.

Only by reaching the tenth level of Great Consummation in the first stage can one truly fully develop both of his fists and make his two fists the true fists of gods.

Ye Feng couldn't help but sigh at this time: "I didn't expect that I am now on the first level of the first stage. There is still a long way to go."

Toad glanced at Ye Feng who was sighing, couldn't help curling his lips, and said loudly: "Ye Feng, just be content, being able to obtain the strongest bones in the world has laid an indestructible core foundation for you. Next, you just need to slowly search for various divine substances and continue to temper every part of your body, first from your fists, to your eyes, then to your internal organs, then to your legs, Feet, back, head, etc., temper every part of your body to the tenth level of Dzogchen as soon as possible. In that case, you will be able to turn your entire body into a true immortal body of a god. By then It's enough to defeat the world, even to the point of being immortal."

After Toad finished speaking, Murong Mingyue said not far away: "Come on, you guys, I have found the entrance to the ancient cave. Let's go in together and see if there are any good things inside, which can be used in this bloody cave. The ocean ends

An ancient cave abode was built in the first area, which is enough to show that the owner of this cave abode must have been very powerful, otherwise he would not be qualified to build his own cave abode here. "

"good!"

Hearing Murong Mingyue calling not far away, Ye Feng and Toad nodded and flew quickly in that direction.

Ye Feng is still very much looking forward to the fact that some divine substances will appear in this ancient cave for him to absorb and continue to temper his two fists.

Ye Feng wants to temper his two fists to the tenth level of perfection as soon as possible. In this case, his two fists will become the fists of gods. When the time comes, the terrifying power of the immortal clan of gods will be able to explode. Let your combat effectiveness have a qualitative bonus and improvement.

When thinking of this, Ye Feng suddenly looked at Toad beside him, and couldn't help but asked: "Toad, if my two fists have not been tempered to the tenth level of perfection, can I temper them in advance? Other parts, such as tempering my eyes, legs or feet in advance, can make other parts of my body stronger in advance."

When Toad heard what Ye Feng said, his eyes were slightly startled, as if he didn't expect Ye Feng to have such an idea.

But the next moment, Toad shook his head and said loudly: "Theoretically, it is possible, but I don't recommend you to do this, because it may cause various parts of the body to become disordered due to unstable strength, which will affect your health. In terms of fighting power and normal cultivation state, you should fight steadily, from the fists in the first stage, to the eyes in the second stage, to the feet in the third stage, to the legs in the fourth stage, to the back in the fifth stage. The head in the sixth stage, the internal organs in the seventh stage, that is, the internal organs, the meridians of the whole body in the eighth stage, the blood in the whole body in the ninth stage, and the soul in the tenth stage, are all tempered to the tenth level of perfection in the whole body, you He will become the supreme immortal body and lead the gods!"

Chapter 4009 Cave Mansion

Hearing what Toad said, Ye Feng nodded and said, "For the time being, I'll just stick to the step by step and start training with two fists step by step."

Ye Feng was quite cautious about the consequences of what Toad said.

But think about it, what Toad said makes sense.

If you temper other parts of your body in advance, it may cause the energy in various parts of the entire body to be unstable.

At that time, various serious uncoordinated consequences may indeed occur.

However, Ye Feng also had a small thought in his heart.

If you really need to temper a certain part in advance, you can also try tempering it in advance. You may have unexpected effects.

For example, if you get some special martial arts inheritance, such as some body skill inheritance.

If you can train your feet and legs in advance, your movements will definitely become very fast.

Or if you accidentally get some inheritance in eye skills, you can temper your eyes in advance and strengthen your eyes.

It will definitely be of great help to practice eye skills.

The power of the pupil technique will definitely be greatly enhanced.

While Ye Feng was thinking secretly in his heart, he and Toad had arrived not far away from where Murong Mingyue was.

At this moment, Murong Mingyue was standing on a rock at the end of the ocean.

In front of this reef, there is a cliff.

Under the cliff, there is a bottomless underground passage.

In front of this underground passage, there is a stone monument.

There are two big characters "Dongfu" written on the stone tablet.

"this....."

Seeing this scene, Toad couldn't help showing a look of astonishment in his eyes, and said loudly: "Isn't this a pit? Who would erect a stone tablet in front of his cave with the word cave on it? Isn't it clear that people are going in to search for the treasures left behind?"

Murong Mingyue couldn't help but said: "I don't know much about this. Anyway, I found this place before and wanted to go in, but a terrifying tentacle monster ran out of it."

Ye Feng said aloud: "No matter what, you are here, so let's go in and take a look. I think there shouldn't be too much danger inside, because endless years have passed in this place, even the ancient gods. All the demons and demons have completely died and disappeared. Even if there are those who survive, they are probably just like the eighteen-winged demons before. Their power is about to be exhausted and they are just hanging on. And there are really some terrible formations. If so, my eyes of heaven and earth can see through it."

Hearing what Ye Feng said, Murong Mingyue and Toad nodded, and then they walked directly into the cave.

When they came to the cave, they did not encounter any so-called danger. They quickly reached the end of the passage and arrived at the real core of the cave.

There is a small stone room here.

The environment of this stone chamber is very dim, but the few people present are experts, so they can see clearly in an instant.

Everything in this stone room.

It must have been a long time since anyone came to this cave, and there were dense spider webs everywhere.

In the middle of the cave, there sat a withered skeleton.

On both sides of this dead skeleton, there are two iron boxes.

Seeing this scene, Ye Feng's eyes suddenly lit up and he said loudly: "This cave seems to be specially designed for people to come here and get the inheritance of the owner of the cave. This is different from ordinary burial places. Many powerful people come here." The deceased left a burial place just so that they could sleep peacefully there, so they would try their best to prevent others from sneaking into their burial place. However, in this cave, a stone monument was erected outside the cave openly and openly, just to allow people to. After coming here and receiving the inheritance from this cave master, I guess this cave master hopes that his inheritance can be passed down."

When Murong Mingyue heard what Ye Feng said, she nodded happily and said, "I didn't expect it to go so smoothly."

After saying that, the two of them walked quickly forward, wanting to see what was in the two iron boxes.

"Crunch, crunch..."

But while everyone was discussing, the dry bones and shriveled skull sitting on the ground suddenly slowly lifted up, with green light in their eyes.

"scare!"

Seeing this scene, the toad immediately screamed: "Hurry up and beat this zombie to death!"

Ye Feng and Murong Mingyue also showed surprise in their eyes for a moment, and quickly retreated towards the back.

boom!

boom!

At this time, a crescent moon emitting silver light suddenly flashed out from the center of Murong Mingyue's eyebrows.

Ye Feng, on the other hand, instantly took out the broken golden spear, which emitted bright golden light and had astonishing attack power.

But at this time, the skeleton that raised its head did not directly attack the people present. Instead, it made a hoarse voice and said: "Don't be so nervous. I only have the last residual thought left. There is no need at all." Attack power."

Hearing what the skeleton said, several people present had surprised looks in their eyes.

However, Ye Feng and Murong Mingyue did not dissipate their power. After all, they were very alert and felt that the skeleton was quite strange and could not just listen to the skeleton's words.

Seeing that Ye Feng and Murong Mingyue were still in an attacking state, the withered skeleton didn't say anything more and just smiled hoarsely.

Then he said out loud: 'If you want my inheritance, I can give it to you, but you need to do one thing for me. '

Ye Feng tried to ask aloud: "What do you want us to do, senior? If it is too difficult, we probably won't be able to complete it."

The withered skeleton shook his head and said loudly: "Don't worry, this matter is not difficult. First of all,

Let me introduce my identity first. I am the sect leader of a super-large sect in the glorious days of the Origin World. The sect I founded is called the 'Dragon God Sect'. You can get our inheritance and the treasures of our Tianlong God Sect for free. In the iron box next to me, but you need to do me a favor, that is, help me find my lost daughter in the world. "

When Ye Feng heard what the leader of the Tianlong Divine Sect said, he immediately showed a hint of helplessness on his face and said loudly: "Senior, you are the leader of a super large sect that originated in the glorious era of the great world. At least tens of thousands of years have passed since the Dharma Ending Age of the great world. If your daughter was still in the human world, she would have died of old age long ago without practicing cultivation."

The withered skeleton in front of him immediately spoke out: "When the Tianlong Divine Sect was destroyed, I injected a burst of my immortal dragon energy into my daughter's Dantian, so he would not die of old age and would remain young forever. , and in order for my daughter to escape that chaos, I sent her to the deep mountains and jungles of the Origin World and sealed her in an underground cave. So I hope you can go to that deep mountains and jungles, find my daughter, and wake her up. , and teach her the inheritance of our Heavenly Dragon Sect, so that she can revive our Heavenly Dragon Sect. "

Hearing what the withered skeleton in front of him said, Ye Feng couldn't help but ask: "Where is the deep mountain jungle where the senior sealed your daughter?"

The shriveled skeleton in front of him stretched out a bone palm.

There was actually a map in his palm.

The withered skeleton spoke slowly: "I have marked the specific location on this map. It is in the western land on the other side of the central ocean, in a piece of land called the Warcraft Forest."

"Western land? Warcraft forest?"

Hearing what the leader of the Tianlong Divine Sect said, Ye Feng couldn't help but show a look of astonishment in his eyes, and said loudly: "Senior, you actually sent your daughter to the Warcraft Forest in the Western Land, and it's so far away. Wouldn't that mean crossing the entire central ocean?"

The shriveled skeleton in front of him couldn't help but smile bitterly and said aloud: "You young people today simply don't understand how chaotic the entire eastern land was when that glorious era was about to end, so in order to ensure the safety of my daughter It's absolutely safe. I sent her to the western land area which is completely far away from the eastern land. However, the Warcraft Forest is at the junction of the central ocean and the western land. It is not in the deepest part of the western land, so as long as you can cross the central Once you reach the junction of the western land and the ocean, you can reach the magical forest where my daughter is sealed. I hope you can find her and awaken her. This is my last wish. "

After saying that, the leader of the Tianlong Divine Sect did not wait for Ye Feng to agree. It seemed that his last spiritual thought could no longer hold on and completely dispersed.

The shriveled skeleton in front of him also completely lowered his head, with pieces all over his body scattered on the ground, completely unable to support himself.

Seeing this scene, Murong Mingyue actually showed a slight rosy look in her eyes. She seemed to be moved and sighed: "This is the greatness of father's love. In order to awaken himself

His daughter, relying on this small trace of regret, has been able to sustain himself for tens of thousands of years, and even gave away the powerful inheritance and treasures he created to others, just so that others can save his daughter. Father's love is so great and so heavy that it makes people sigh. Now I finally understand my father's intentions. I have become a top genius in the sea of chaos. My father has always told me to be careful and careful. Safety, it seems that in the eyes of the father, his daughter's safety is the first priority and must always be protected. "

At this moment, Ye Feng heard Murong Mingyue say this, and nodded slightly, with a look of congress in his eyes.

The father was also like this back then, trying hard to give everything for his son.

Ye Feng said aloud: "I will help this senior find his daughter. I must find it this time! I must not forget it!"

Murong Mingyue nodded and said aloud: "But our current cultivation level is probably not enough. When our cultivation level is enough, we will cross the central ocean and go to the Magical Beast Forest in the western land to find the daughter of this senior. I hope his daughter is still safely sealed in that underground cave."

Uh-huh!

At this time, Ye Feng directly took the map held in the palm of the withered skeleton, collected his own storage ring, and then directly opened the two iron boxes around the skeleton.

Click!

The first iron box was opened, revealing a yellowed book.

It reads "Nine Transformations of Heavenly Dragon Jue" in several ancient fonts.

It should be the natal inheritance of this Tianlong Divine Sect.

At this moment, Murong Mingyue opened the second iron box.

After opening it, a three-foot long sword lay quietly inside.

The body of the long sword is golden and looks very precious, flowing with immortal light and exuding the majestic dragon energy.

On the sword body, there are several large characters engraved: True Dragon Sky-Slaying Sword.

This should be the most precious treasure of the Tianlong Divine Sect.

They are the two most precious things left by the leader of the Tianlong Divine Sect.

Murong Mingyue spoke out at this time: "Ye Feng, you can take this True Dragon Slashing Heaven Sword. You are short of weapons now. The golden spear is broken and cannot exert much power, but this one is really The Dragon-Slaying Heaven Sword is a complete and unique magic weapon that allows you to exert great power."

Hearing what Murong Mingyue said, Ye Feng nodded slightly.

Ye Feng knew that Murong Mingyue, the eldest lady of the Murong family, definitely had no shortage of weapons.

Ye Feng directly took the True Dragon Slashing Heaven Sword into his hands, and immediately sensed the terrifying weapon energy in it.

Murong Mingyue held the Nine-turn Heavenly Dragon Jue in another box and said, "Ye Feng, this set of inheritance is very precious. It is the inheritance of a super sect in the ancient glorious era. Let's practice together."

At this moment, the toad was groping around the cave, seemingly looking for any other good things.

Chapter 4010 Tempering the second level

Buzz!

At this time, Ye Feng and Murong Mingyue did not waste any time and started to understand directly. The set of nine-turn Tianlong Jue they had just obtained came from the natal inheritance of the super sect "Shenlong Shen Sect" in the glorious era of the origin world.

This set of inheritance is very ancient and very powerful. It is the natal inheritance left by the leader of Tianlong Shen Sect himself, so it is very powerful.

At this time, Ye Feng and Murong Mingyue began to comprehend the Nine Transformations of the Heavenly Dragon Art, and they were immediately able to sense the majestic and extremely profound martial arts secrets contained in this super inheritance.

At this moment, Ye Feng's eyes were full of surprise.

This Tianlong Divine Sect must have been an extremely glorious super sect back then, and the legacy it left behind was so powerful!

Even with Ye Feng's demonic understanding, he could still feel the profoundness and profundness of this technique at this time, as well as the profound sense of its majestic meaning.

At this moment, Ye Feng could feel that this Nine-turn Tianlong Jue had a total of nine levels, which was the "nine turns".

You must continue to comprehend. The deeper you comprehend, the stronger the power you exert.

If you practice the Nine-turn Heavenly Dragon Art to the first turn, you can directly communicate the energy between heaven and earth, condense an ancient heavenly dragon, and release the power of the ancient heavenly dragon.

When you reach the second level of cultivation, you can condense the power of two ancient dragons in an instant.

After cultivating the Nine Transformation Heavenly Dragon Art to the state of great perfection, one can condense the terrifying power of nine ancient heavenly dragons in an instant, bursting out with earth-shattering power.

After sensing all this, Ye Feng's eyes showed a hint of surprise.

Unexpectedly, this Nine Transformation Heavenly Dragon Art actually has nine levels.

At this moment, even if Ye Feng's understanding is very evil, after practicing for a while, he has only mastered the nine-turn Tianlong Jue initially, and has not even stepped into one turn.

This made Ye Feng couldn't help but sigh.

Sure enough, as the world rules of the Great World of Origin continue to revive, various ancient inheritances from the glorious era continue to emerge, making it not as easy for Ye Feng to practice those ordinary inheritances before.

It turns out that when Ye Feng practiced some ordinary inheritance, he could realize Dzogchen at will.

But now, the inheritance Ye Feng has received is getting more advanced and older, and his cultivation speed has also slowed down a lot.

But this is normal.

If Ye Feng could understand the inheritance in an instant, then he must be very low-level and very mediocre.

Only this kind of inheritance, which is becoming more and more difficult to practice, can explain this

These inheritances are becoming more and more advanced and precious, and the power they unleash will definitely become more and more powerful.

At this time, Murong Mingyue opened her eyes, couldn't help but smile bitterly, and said aloud: "I have comprehended until now, but I feel like I haven't comprehended anything. Ye Feng, what about you?"

Ye Feng nodded slightly at this time and said aloud: "I have understood a little bit, and I am a little better than you, but this set of inheritance is indeed very large, broad and profound, and I need to continue to understand it before I can slowly Get the essence of it."

Murong Mingyue immediately nodded.

At this moment, Ye Feng had imprinted all the inheritance information of the entire Nine-turn Tianlong Jue into his soul.

Then Ye Feng said with a smile: "Miss Murong, you can take the next book of Nine Transformations of Heavenly Dragon Technique directly. I have engraved all the contents in the book into my soul and mind."

Hearing what Ye Feng said, Murong Mingyue immediately said gratefully: "That's great, I can take it with me at any time to understand and practice at any time."

When she said this, Murong Mingyue's beautiful face showed a trace of envy again, and she said loudly: "Ye Feng, I really envy you. You are so good at martial arts practice and you have also cultivated soul power. , you can imprint all the secrets of such a profound and powerful inheritance into your soul in an instant, without having to go through troublesome books, you can directly comprehend it in your soul. "

Ye Feng smiled and said, "It's indeed very convenient."

While the two were talking, Ye Feng picked up the divine magic weapon of the Tianlong Divine Sect.

True Dragon Sky-Destroying Sword!

The entire body of this long sword is made of pure gold, exuding a majestic dragon aura.

After waving it slightly, there is a majestic dragon roar, which is transmitted from the sword body, which makes people feel refreshed and feels very scary and advanced.

Ye Feng was secretly horrified.

In the glorious age of the Origin World, many unparalleled powers and supreme Taoist traditions were indeed born.

No wonder those advanced cultivation interfaces, after the world rules of the Origin World were revived, wanted to come to the Origin World to compete for the supreme orthodoxy of the glorious era.

At this time, Ye Feng couldn't help but sigh.

The glorious age of the origin world was definitely a bright one

In this boundless spiritual world, so many high-level inheritances and super powers have been born.

Uh-huh!

At this time, the toad flew over from not far away, with a slight smile on his face.

Apparently, Toad found a lot of good things again.

At this moment, Toad looked at Ye Feng and said loudly: "This True Dragon Slashing Heaven Sword is of very good quality. It is a powerful weapon from ancient times. Ye Feng, now that you have this True Dragon Sword, Dragon-Slaying Heavenly Sword, the broken golden spear you got before is actually not very useful. After all, it has been broken. You might as well just absorb the divine substance from the broken golden spear. , temper your body."

Hearing what Toad said, Ye Feng suddenly showed a trace of surprise in his eyes, and then said loudly: "The broken golden spear is also very powerful, but now we have this complete true spear." The Dragon Cutting Heaven Sword really doesn't need to use the golden spear. After all, it is a broken golden spear and its power is limited. "

The toad nodded and said aloud: "So you might as well absorb the divine substance from the broken golden spear and use it to temper your body's flesh and blood, and evolve and improve your immortal bones as much as possible. , you have to know that your most powerful core now is the Immortal Bone of the God, and the most powerful weapon in the future is the power of your body, which is your Immortal Body of the God, so everything else is external. If you can use it, If so, use it directly and don't waste it, otherwise it would be a pity if you forget the broken golden spear in the storage ring. "

When Ye Feng heard what Toad said, he immediately nodded, and then took out the broken golden spear.

After hesitating for a moment, Ye Feng directly activated his powerful bones, the Immortal Bones of the Gods, to absorb all the divine substances from the golden spear.

Although this golden spear was broken, it was once a weapon created by the Immortal Clan of the Gods. .??.

Therefore, there are still a lot of divine substances stored in it.

It was much more divine substance than the blood crystal of the tentacle monster that Ye Feng absorbed before.

At this time, what was visible to the eye were streams of divine substance like golden mercury, which Ye Feng used to suck the blood out of the golden spear in his hand using the Immortal Bone of the God.

Then all these divine substances were injected into Ye Feng's flesh and blood, quickly tempering Ye Feng's body.

Along with the absorption, the golden light on the broken golden spear in his hand slowly dimmed. \u003c

br\u003e

Because this broken golden spear has great power, mainly because of the divine substance in it.

At this moment, after the divine substance in the golden spear was absorbed by Ye Feng, it naturally lost its divine light and turned into an ordinary weapon.

Then Ye Feng threw away the broken golden spear that had absorbed the divine substance.

Because it is of no use anymore.

It has become a disabled weapon.

After Ye Feng absorbed these divine substances, he directly started the first stage of tempering the immortal bones of the gods, which was to temper his fists.

Buzz!

At this time, Ye Feng injected all the absorbed divine substances into his fists.

At this moment, Ye Feng's two fists suddenly emitted a faint immortal golden light, looking very noble.

Almost at the next moment, Ye Feng succeeded in tempering and integrated all the absorbed divine substances into his two fists.

Ye Feng immediately said with surprise in his eyes: "The tempering level of my fists has been improved from the first level to the second level. I feel that the power of the gods in my two fists is much stronger than before. "

Toad immediately smiled and nodded, and said loudly: "Although this golden spear is broken, there is still a lot of divine substance in it. It will directly raise your two fists to the second level and enter the second level." Layer, this speed is still very good. "

Ye Feng nodded immediately, feeling that what Toad said was very reasonable.

After Ye Feng tempered his two fists from the first level to the second level, he could clearly feel that the divine energy contained in his two fists had become much stronger.

When Ye Feng blasts out with both fists, the power of the God's Immortal Bone will naturally become much stronger.

At this time, Ye Feng looked at Murong Mingyue beside him and said, "Let's just leave here. There is nothing left in this cave."

Murong Mingyue nodded, with a hint of happiness in her eyes.

This time her harvest was also very good.

Directly obtained the natal inheritance of the Tianlong Shenzong, a super sect that originated from the glorious era of the Great World.

This super inheritance from the glorious era is very advanced, very ancient, and contains unparalleled secrets of martial arts. It is definitely no less than the inheritance of the Murong family!
