

Ancient 4031

Chapter 4031 lowered his head

boom! boom! boom!

At this time, Murong Bai, Murong Ling and Murong Jian, who had just been slightly injured, all burst out with extremely powerful fighting spirit and rushed towards Ye Feng in an instant.

Ye Feng didn't hesitate at all at this moment. After absorbing the divine substance in the emerald sword in his hand, he found that his fist had been tempered directly from the fifth level to the sixth level.

This made Ye Feng's eyes reveal a look of deep surprise.

Unexpectedly, this time, the competition between the Murong family geniuses would actually bring such benefits to me.

You know, Ye Feng just tempered his two fists from the third level to the fifth level from the endless rolling thunder, and it only improved by two levels.

But now that he has absorbed the divine substance in Murong Jian's natal weapon, the jade sword, he has directly raised his fist to another level, directly to the sixth level.

This naturally made Ye Feng's eyes reveal a look of deep surprise.

At this moment, Murong Jian lost his natal weapon, and he unleashed an extremely powerful sword inheritance. ??

The whole person turned into a huge sword light and headed towards Ye Feng to kill him.

And a white light giant appeared on Murong Bai's body. It seemed to be a special form of power, full of huge power, and it was also suppressing in the direction of Ye Feng in front.

As for Murong Ling's hand, a string of shiny bracelets appeared.

This bracelet looks quite weird. It is actually a bracelet made of skulls and heads, only the size of a palm.

But at this time, Murong Ling released her power and entered the bracelet in her hand. The palm-sized bracelet immediately began to expand rapidly.

Then the skull heads on the bracelet instantly became very large and floated high in the sky. They were exuding dark demonic energy and rushed towards Ye Feng with their teeth and claws bared.

It has to be said that these three top geniuses of the Murong family, their cultivation

After the junior masters attack together, the power that explodes is still very terrifying, enough to deal with the intermediate masters.

But at this moment, Ye Feng's eyes still showed no fear.

However, Ye Feng felt that the power of the gods in his two fists might not be able to directly deal with these three top geniuses from the Murong family who had joined together.

So at this moment, Ye Feng did not ask for help, but directly released the Nine Turns of Heavenly Dragon Art that he had practiced.

Now Ye Feng's understanding of the Nine-turn Tianlong Jue has been upgraded to the second-turn.

So at this moment, when Ye Feng released the Nine-turn Heavenly Dragon Technique, he only heard two earth-shattering dragon roars, which immediately resounded throughout the world.

A terrifying energy frenzy suddenly erupted from Ye Feng's body, and two pure golden ancient dragons condensed directly above Ye Feng's head.

Each pure golden ancient heavenly dragon exudes the terrifying aura of the heavenly dragon, possesses extremely high-level destructive power, roars and roars, and bombards towards the front.

All of a sudden, all their methods collided with the attacking Murong Jian, Murong Bai and Murong Ling.

Boom! !

At this moment, the entire field suddenly erupted with a huge roar that resounded throughout the sky.

The terrifying aftermath of the collision caused the young generation of the Murong family who were watching around to move back more than ten kilometers.

"What a powerful destructive power!"

At this moment, everyone looked at the earth-shattering battle scene in front of them with deep horror in their eyes.

There was a young genius from the Murong family who couldn't help but said: "We, the top young geniuses of our generation from the Murong family, should be able to defeat this..."

Ye Feng, although this Ye Feng is very powerful in combat, he is not able to deal with three top geniuses by himself. "

But the moment this younger generation of Murong family members finished speaking.

The smoke and dust in front dispersed.

Everyone immediately saw a horrifying scene.

"What?? That's..."

The two pure gold ancient heavenly dragons released by Ye Feng actually blew Murong Jian away.

Then the giant white light statue condensed on Murong Bai's body was also shattered by an ancient heavenly dragon.

As for the skulls on the bracelets released by Murong Ling, they were all shattered one after another by Ye Feng's golden fists.

"What??"

Seeing this scene, all the young geniuses of the Murong family present showed deep horror in their eyes.

They never thought that Ye Feng would have such terrifying fighting power and that he could actually defeat all three of the top super geniuses of their Murong family by himself.

"This is impossible?!"

At this moment, a young genius from the Murong family couldn't help but scream in disbelief, seemingly going crazy.

Because this has a huge blow to their self-confidence.

In their eyes, the young geniuses of their Murong family are invincible and absolutely crushable among their peers.

But I didn't expect that today, a foreign boy would defeat three of the top geniuses among them alone.

This made many geniuses of the Murong family unable to help but feel a deep sense of loss in their hearts.

At this moment, Murong Jian no longer has the strength to fight.

Being blasted away by terrifying force twice in a row made him sit on the ground in the distance, unable to get up.

\u003e

After the white light Dharma condensed on Murong Bai's body was actually shattered, he took several steps back with a pale face.

As for Murong Ling, she and the magic weapon in her hand are united.

So after the skull on her bracelet was shattered by Ye Feng's punch after punch, her beautiful face also showed a deep pale look.

At this moment, Ye Feng smiled faintly and said aloud: "I told you all to come together, don't waste time."

After finishing speaking, Ye Feng looked at Murong Jian who was not far away and said, "Are you convinced now?"

When Murong Jian heard what Ye Feng said, his face turned very ugly at first, then he struggled a little, and finally couldn't help but sigh and said, "You win."

Murong Jian is the top super genius of the Murong family. He deeply knows how terrifying Ye Feng's combat power was in the battle just now, and it is definitely not something they can resist.

Although they are also junior masters, Ye Feng's combat power is several times greater than theirs, so the three of them can't fight Ye Feng together.

At this moment, Ye Feng looked at the other two super geniuses not far away. Murong Bai and Murong Ling also lowered their heads to admit defeat.

At this time, Murong Mingyue was very happy to see it not far away, and immediately said aloud: "Everyone has seen that my friend Ye Feng, who is peerless in elegance, will lead all the young geniuses from the Murong family to join us. I think everyone has no objections to this ancient trial place within the family."

Many young geniuses from the Murong family lowered their heads when they saw this scene.

Because Ye Feng's fighting power was so powerful, they all felt deeply frightened and powerless, unable to resist at all.

At this moment, Ye Feng suddenly looked at Murong Jian and asked: "Brother Jian, the jade sword you used just now, is there any similar weapon like this? I can buy it at a high price."

Chapter 4032: Which floor did you reach?

For Ye Feng, the divine substance contained in the jade sword that Murong Jian threw on the ground was of great help to Ye Feng.

So now Ye Feng naturally wants to ask Murong Jian to see if he has any other weapons made of this special jade material.

If so, Ye Feng was not joking, he was willing to buy it at a high price.

Because for Ye Feng now, receiving this divine substance to temper his body's strength is what Ye Feng is most interested in.

Because Ye Feng knew that his biggest trump card now was the most powerful bone in the world he had just obtained, the Immortal Bone of the God.

Therefore, in order to temper his entire body into the true Immortal Bone of the Dzogchen God as soon as possible, Ye Feng must find more divine substances to temper his body.

At this time, hearing what Ye Feng said, Murong Jian opposite, the top genius of the Murong family, said helplessly: "The jade sword just now is already the most valuable thing in my body. This kind of Jade material is not something that can be obtained casually. Only the top elders of our Murong family can reward me with such materials and create such a weapon for me. Back then, I won the number one battle among the young geniuses of the Murong family. I only received such a reward when I was young, and other people probably don't have weapons made of this special material at all."

At this time, after Murong Jian finished speaking, he glanced at the emerald sword in Ye Feng's hand and said, "Now this weapon can be returned to me."

Ye Feng nodded and threw the jade sword directly to Murong Jian opposite.

For Ye Feng, the divine substance in this jade sword has been absorbed by him secretly, and it is of no great use to him.

At this time, Murong Jian didn't know that Ye Feng had already given the best thing in this jade sword to

Absorbed.

So after he got the jade sword again at this time, he always felt that this weapon was a little different from before.

But Murong Jian didn't ask anything because he didn't know what happened at all.

At this moment, Murong Mingyue looked at the audience and said: "Tomorrow, the head of the Murong family will open the ancient trial place within the entire family. At that time, Ye Feng and I will lead the team. You When the time comes, listen to us."

All the geniuses of the Murong family present nodded their heads when they heard what Murong Mingyue said. No one dared to say anything.

Because the three top geniuses among them had all been defeated by Ye Feng, no one dared to resist.

At this time, Murong Mingyue was also very happy when she saw that all the younger generations of the Murong family in the audience lowered their heads.

Because Ye Feng is her good friend, Ye Feng has now defeated the three top geniuses, which is also of great benefit to Murong Mingyue, the eldest lady, in stabilizing her position in the Murong family.

At this time, Murong Mingyue looked at Ye Feng beside her and said loudly: "Ye Feng, let's go. I will take you to the magical eighteen-story cultivation tower that I mentioned before."

Ye Feng nodded, and then followed Murong Mingyue towards a certain direction.

At this moment, Murong Jian suddenly said: "Let's go over and take a look. No one has ever been able to climb to the top of the eighteen-story cultivation tower. I want to see how many floors this Ye Feng can reach." "

Murong Bai and Murong Ling were standing next to them.

The other top geniuses also nodded at this time.

They were also very curious about which floor Ye Feng could break into the eighteen-story training tower.

Their talents are at the top of the Murong family, and they can only break into the tenth floor of this eighteen-story training tower.

At this moment, I saw the three top geniuses Murong Jian, Murong Bai and Murong Ling following behind Murong Mingyue and Ye Feng.

Many other younger generation disciples of the Murong family also followed, with deep curiosity in their eyes.

At this moment, Murong Mingyue glanced at the people following behind her, and whispered to Ye Feng: "Ye Feng, do you want to break through later? If you want to break into the 18th floor of the training tower, you will not be able to reach very high. On the floor, these people might laugh at you."

Ye Feng smiled slightly at this time and said: "Don't worry, even if I can't reach the top of the eighteen-story cultivation tower, it won't be lower than the level reached by the geniuses of your Murong family."

At this time, Ye Feng continued to ask: "What is the highest floor that the top genius of your Murong family has ever climbed to?"

Murong Mingyue thought for a while, and then said aloud: "The young geniuses of this generation, namely Murong Jian, Murong Bai and Murong Ling, the highest level they have climbed is the tenth floor, but our Murong family is in the hundreds. One of the most brilliant super geniuses appeared two years ago, and now he seems to be an ancestor of our Murong family. When he was young, he broke into the thirteenth floor of the eighteen-story training tower." "

When Ye Feng heard what Murong Mingyue said, he immediately nodded and said, "Okay, I'll give it a try later."

At this time, Ye Feng looked over his shoulder

Toad, the voice transmission voice said: "Toad, you said before that this eighteen-story cultivation tower is a powerful weapon of an ancestor of the Murong family. It seems to be called the Great Buddha Tower."

Toad immediately nodded and said: "Yes, this eighteen-story cultivation tower is the legendary Great Buddha Tower. It is a powerful weapon forged by an ancestor of the Murong family. It is very precious. The power is also very terrifying, but only by climbing to the top of the Great Buddha Tower, which is the 18th floor of the eighteen-story cultivation tower, can you control the entire Great Buddha Tower and obtain the power contained in this Great Buddha Tower. The fusion power of ancient Buddha and demon."

Hearing what Toad said, Ye Feng immediately nodded.

Toad also said before that this eighteen-story cultivation tower is the legendary Great Buddha Pagoda, which was born at the junction of the Buddhist world and the demonic world in the advanced cultivation interface.

Therefore, it absorbed the powerful interface energy of two high-level interfaces to create this unique Great Buddha Tower, which possesses the ancient power of Buddha and demon.

This level of super magic weapon is naturally extremely attractive to Ye Feng.

At this moment, Ye Feng suddenly thought of something, and immediately couldn't help but ask: "Toad, you said that if I can obtain and refine this Great Buddha Tower, I wonder if there is anything hidden in this Great Buddha Tower?" With divine substances?"

Toad shook his head and said aloud: "I don't know this either, but ancient weapons of this level might contain divine substances, because in the ancient glorious era, only materials containing divine substances could The most powerful weapons can be forged, so many powerful men from the ancient glorious era will do their best to go between heaven and earth, to all the worlds, to find

materials containing divine substances, and to forge their own natal weapons, which can Exploded with earth-shattering power.”

Chapter 4033 The first level of space

Hearing what Toad said at this time, Ye Feng immediately nodded, with a hint of anticipation in his eyes.

Because Ye Feng also felt that the powerful weapon materials forged by the ancestors of the Murong family, such as the Great Buddha Tower, must be very extraordinary, and maybe they contain divine substances.

At this time, Ye Feng secretly thought that he would wait until he reached the eighteenth floor of the training tower to have a good feeling.

Let's see if there is any divine substance in the materials of this Great Stupa.

Ye Feng took a look at the emerald sword in the hands of Murong Jian who was standing behind him, and found that the emerald sword was still emitting a faint light.

This made Ye Feng's eyes reveal a hint of surprise.

It seems that after the divine substance was forcibly extracted and absorbed by himself, the emerald sword still has spirituality and power.

However, Ye Feng knew very well that after the jade sword lost its divine substance, it would definitely not be as powerful as before, but it was not directly abolished, so it was still very good.

At this time, under the leadership of Murong Mingyue, Ye Feng quickly arrived at the location of the eighteenth floor cultivation tower.

At this moment, a majestic and boundless giant tower suddenly appeared in everyone's field of vision. It looked very vast and vast, penetrating the clouds into the sky, and very majestic, giving people a sense of ancient boundless vastness and oppression. .

It makes people feel that what is standing in front is not a giant tower, but an ancient giant that has been standing there for tens of millions of years.

At this time, Murong Mingyue said with a hint of awe in her eyes: "This eighteen-story cultivation tower is one of the oldest buildings in our Murong family. Legend has it that this eighteen-story cultivation tower is The ancestors of our Murong family forged a super magic weapon. However, this is just a legend. No one knows whether it is true or not, because no one can confirm it. However, this eighteen-story cultivation tower is definitely a legacy left by the ancestors of our Murong family. The most precious thing given to us, because every time you pass through a level of the training tower, you can get the rewards given by the training tower itself to the passers-by. For thousands of years, many young geniuses from our Murong family have been in this ten-year-old training tower. I got a lot of good things from the eight-story cultivation tower."

After Murong Mingyue finished speaking, many other young geniuses from the Murong family around them nodded.

For this eighteen-story cultivation tower, all the young geniuses have benefited greatly from it and are in awe.

Because this is the precious wealth left by the first generation ancestors of their Murong family.

At this time, everyone's eyes fell on Ye Feng who was standing at the front.

Everyone looked at this young man in white clothes with deep curiosity and expectation in their eyes.

I don't know which level of the eighteen-story training tower Ye Feng, who has surpassed the three top geniuses, can step into.

At this moment, Ye Feng did not hesitate and walked quickly towards the towering tower in front of him that penetrated the clouds into the sky.

When Ye Feng came to the eighteenth-floor cultivation tower, he stretched out his hand and touched the wall of the tower, wanting to sense whether there was any divine substance contained in it.

But the next moment Ye Feng was surprised to find that he could not sense the depth of this giant tower at all.

Because this eighteen-story cultivation tower is so advanced that Ye Feng cannot actively sense it.

\u003e If it were like the emerald sword in the hands of Murong Jian, the top genius of the Murong family, Ye Feng could forcefully absorb the divine substance from that emerald sword in one go.

But the current eighteen-story cultivation tower, according to Toad, is an extremely powerful super magic weapon, the Great Buddha Tower, forged by the legendary ancestor of the Murong family.

Therefore, the quality is very high, and the level is also very advanced. Ye Feng cannot sense it at all, nor can he forcibly extract the divine substance from it.

You can only find a way to refine it, control it, and make it your own magic weapon and thing, and then you can sense what is contained in it.

At this time, Ye Feng did not hesitate, took a deep breath, and then walked directly into the eighteen-story cultivation tower.

According to Murong Mingyue, every time he passed through the eighteen levels of cultivation, he would be able to get rewards for each level. Ye Feng was quite looking forward to this.

Even if you can't really step into the highest level of this eighteen-story cultivation tower and control this eighteen-story cultivation tower, at least you can get a lot of rewards after every breakthrough, which is still profitable.

After all, as an outsider from the Murong family, Ye Feng is not qualified to enter this special eighteen-story training tower.

However, Ye Feng has made great contributions to the Murong family, so at this time, Ye Feng directly entered the eighteenth-level training set. Many other geniuses of the Murong family who were watching did not say anything.

After all, what they are more concerned about now is which floor of this eighteen-story training tower Ye Feng can finally break into.

Because according to the records of the Murong family, even the most amazing and talented member of the Murong family hundreds of years ago only broke into the 13th floor, which is still far away from the real top 18th floor. Much worse.

At this time, Ye Feng did not hesitate. After entering the 18th floor of the training tower, the toad also jumped off Ye Feng's shoulders and waited outside.

Because only one person can enter the eighteen-story cultivation tower, and cannot rely on the power of outsiders.

At this time, Ye Feng stepped into the eighteen-story cultivation tower alone.

When Ye Feng walked into the first level of space, he immediately saw a splendid place.

I saw that the first floor of the entire eighteen-story cultivation tower was decorated very luxuriously and solemnly.

At this time, Ye Feng suddenly saw that in the first space of the eighteen-story cultivation tower, two light beings composed entirely of energy suddenly rose up from the ground.

At this time, Ye Feng looked at the two energy light people in front of him and sensed the cultivation aura on each other. They were clearly junior masters.

Ye Feng immediately understood. It seemed that the test on the first level of this eighteen-level training tower was to deal with two opponents of the same level.

This is easy to say, but difficult to say, very difficult.

Because some geniuses may be like flowers in the greenhouse, even if their cultivation reaches a very high level, their combat effectiveness is not that great.

When dealing with two energy light people of the same level who are not afraid of pain or death, it is natural to be in a hurry and it is very likely that they will lose.

But Ye Feng didn't have any fear at all at this time. Instead, he showed a faint confident smile on his face and walked directly in the direction of the two energy-light people in front.

This kind of test is a piece of cake for Ye Feng. Hearing what Toad said at this time, Ye Feng immediately nodded, with a hint of anticipation in his eyes.

Because Ye Feng also felt that the powerful weapon materials forged by the ancestors of the Murong family, such as the Great Buddha Tower, must be very extraordinary, and maybe they contain divine substances.

However, Ye Feng knew very well that after the jade sword lost its divine substance, it would definitely not be as powerful as before, but it was not directly abolished, so it was still very good.

This kind of test is a piece of cake for Ye Feng.

Chapter 4034 There is a sky outside the sky

Uh-huh!

At this time, Ye Feng didn't hesitate at all and just walked slowly forward.

On the way, the two primary master-level energy light people condensed in the first layer of space, who were in the same realm as Ye Feng, immediately rushed towards Ye Feng.

In fact, this kind of energy light person is quite terrifying.

Because they are like puppets, they don't know pain, they don't know pain, they are not afraid of death, they just attack like crazy. ??

Therefore, there may be young geniuses with insufficient combat experience who cannot withstand this first level of test.

But to Ye Feng, this is nothing at all.

Ye Feng waved his fists directly at this moment without any fear.

Because you must know that although these two energy light people have the same cultivation level as Ye Feng and are both junior masters, they are only junior masters in cultivation.

They don't have the same talents and abilities as Ye Feng, they can only be regarded as ruthless fighting machines.

So at this time, Ye Feng waved his fists and punched out directly.

At this moment, Ye Feng's two fists suddenly burst out with terrifying divine power.

You should know that Ye Feng's current Immortal Bones of the Gods have already been tempered to the sixth level in the first stage.

Therefore, every time Ye Feng punches out, he can explode the terrifying power of the gods.

So at this time, the two fists emitting thousands of meters of golden light directly blasted the two energy light people who rushed over into countless pieces in an instant.

In other words, Ye Feng passed the test on the first level of this eighteen-story training tower in an instant.

It only took a few seconds!

And at this time, the moment Ye Feng smashed the two energy light people in the first layer of space.

Everyone outside the eighteenth-floor cultivation tower immediately saw the windows of the first-floor cultivation tower, which suddenly lit up.

This means that Ye Feng has passed the first level test.

"What??"

"So fast?!"

"Ye Feng has only been in for a few seconds!"

At this moment, after seeing this scene, everyone present widened their eyes, as if they couldn't imagine that Ye Feng had passed the first floor of the eighteen-story cultivation tower in just a few seconds.

Everyone knows that the test on the first level of the eighteen-story training tower is to deal with two energy light people of the same level.

But you must know that these two energy light sources are not afraid of death or pain, just like puppets.

Therefore, it is quite difficult to deal with two energy light people of the same level as myself.

Even if it is Murong Jian, Murong Bai and Murong Ling, the top young geniuses of the Murong family, although they do not feel that they are the first

The first level test is troublesome, but it also requires some means. It is estimated that it will take several minutes to kill the two energy light people in the first level space test.

Unexpectedly, Ye Feng solved it in just a few seconds.

This is really beyond everyone's expectation.

This efficiency is really too fast.

At this moment, Murong Mingyue's eyes widened, as if she didn't expect Ye Feng's combat power to be so terrifying.

At this time, Murong Mingyue's eyes revealed a look of deep anticipation.

At this time, she really felt that Ye Feng might really surpass all the records of the Murong family.

Maybe you can actually climb to the top of this eighteen-story cultivation tower.

At this moment, in the first space of the eighteen-story cultivation tower, after Ye Feng smashed the two energy light people with his fists, the void in front of him fluctuated.

Buzz!

Suddenly, a round pill as big as a palm appeared in front of Ye Feng.

This is Ye Feng's reward for breaking through the first level of the training tower.

Ye Feng sensed it and his eyes suddenly lit up.

This pill seems to be a very high-level ancient vitality pill.

It contains the vitality power of ancient glorious times, so it has very high-level power quality.

It is definitely a great supplement after eating it.

This is similar to the energy Ye Feng sensed on the Murong Family Emerald Island before.

They are all the vital energy generated between heaven and earth in ancient glorious times, and they have a huge nourishing effect on practitioners.

At this moment, Ye Feng didn't hesitate at all. He took the ancient vitality pill in front of him and swallowed it.

Boom!

At this moment, a very majestic energy exploded in Ye Feng's dantian, and then surged into Ye Feng's limbs.

Almost at the next moment, Ye Feng immediately felt that his skill had made great progress.

If the primary master is divided into ten levels, then after Ye Feng's cultivation is nourished by this ancient vitality pill, he will directly jump from the first level of junior master to the third level of junior master.

After sensing that his skill had improved, Ye Feng's eyes showed a hint of surprise. It seemed that he did not expect that the reward from this eighteen-story training tower was still very good.

And you know, this is only the first level of rewards.

At this time, Ye Feng didn't hesitate at all and just headed towards

He walked quickly to the second floor of the eighteen-story cultivation tower.

When Ye Feng passed through the space door on the first floor and arrived on the second floor, he immediately saw eight energy light beings condensed in the space in front of him.

The cultivation strength of every energy light person is the same as that of Ye Feng, and they are junior masters.

Seeing this scene, Ye Feng suddenly grinned with a faint smile, "It seems that this second level of test is not that difficult."

But if Ye Feng's words were heard by others, they would definitely be shocked. ??

Because in the eyes of many young geniuses, even one-on-one is already very difficult.

Let alone one to eight.

At this time, Ye Feng didn't have any fear or worry, and just walked slowly forward.

boom! boom! boom! boom...

At this time, a total of eight energy light people with Ye Feng's fellow cultivators gathered in front of them and immediately charged towards Ye Feng.

The eight energy light people, like eight fierce warriors who were not afraid of death, instantly attacked Ye Feng.

From all directions, from heaven and earth, Ye Feng had no way to escape.

But Ye Feng didn't hesitate at this time, and immediately burst out the power of the immortal body of the god in his fists.

"Boom!"

Terrifying golden light burst out from Ye Feng's two fists, blasting the two energy-light people rushing in front into countless pieces.

The remaining six energy light people all attacked Ye Feng.

Because Ye Feng couldn't avoid it at all and could only withstand the attacks of the remaining six energy light people.

At this time, Ye Feng felt a little enlightened.

It seems that this second level tests the intruder's defense.

Boom! !

At this time, a total of six primary master level energy light attacks were unleashed on Ye Feng.

But you must know that Ye Feng's bones are the strongest in the world.

So at this moment, Ye Feng only felt some pain in his flesh and blood, but his bones were still very strong and did not move at all.

At this moment, Ye Feng's whole body was shaken, and his majestic magic power burst out, hitting the surroundings with crazy punch after punch.

Click! Click!

One after another, the energy light people were blasted into pieces by Ye Feng.

It has to be said that Ye Feng's attack power is very terrifying, and his defense power is also very terrifying.

Because Ye Feng's fusion of the strongest bones in the world allowed Ye Feng to possess

It has the most terrifying ability to resist attacks.

At this time, under Ye Feng's crazy attack, the eight energy light beings condensed in the second-level cultivation tower were all blasted into countless fragments and wiped out.

Buzz!

In just a few seconds, Ye Feng eliminated all the energy light people.

All the young geniuses of the Murong family who were watching outside the training tower were stunned.

Because they saw that the windows of the eighteenth-floor cultivation tower were lit up again.

It's still just a few seconds!

"hiss!"

There was a burst of gasps in the whole place, one after another. Because there were so many people gasping for air, almost all the air around them was sucked out, and the surrounding area became a vacuum for a while.

"How can this be!"

At this moment, even Murong Jian, the top genius of the Murong family, was stunned.

It is not difficult to break through the second floor of the eighteen-story cultivation tower. Many geniuses from the Murong family can pass it.

But it can pass the second level of test in just a few seconds.

This is really unprecedented.

It is estimated that there will be no successors.

"The test on the second level of this training tower is for eight fierce energy light people of the same level who are not afraid of death!"

Among the large crowd of people watching outside the tower, a young genius from the Murong family couldn't help but exclaimed in surprise, his tone full of deep shock.

Murong Bai, the most arrogant genius of the Murong family, his eyes trembled slightly at this time, and he said: "Brother Jian, how long did it take you to kill the eight energy light people of the same level on the second floor?"

Murong Jian took a deep breath and said slowly: "Half an hour..."

Murong Bai nodded slightly and said, "I'm about the same."

Murong Ling's beautiful eyes also showed a trace of exclamation, and said: "No wonder this Ye Feng can beat us one-on-three. Perhaps, in the process of fighting with us, this Ye Feng has not yet shown his true potential." Strength.

Hearing what Murong Ling said, Murong Jian and Murong Bai looked at each other and couldn't help but shook their heads bitterly.

Originally, they thought that they were all the strongest geniuses in the world.

But now I realize that there are people outside the world, and there is a sky outside the world.

"has hope!"

At this time, Murong Mingyue saw Ye Feng's uncanny speed in breaking through the level, and her beautiful eyes suddenly lit up. She felt that Ye Feng might really have hope of breaking into the highest level of this eighteen-story training tower, confirming that Is this cultivation tower that has

been passed down from ancient times, as the legend says, not an ancient building, but a super magic weapon of the Murong family?

Chapter 4035 Breaking the highest record

At this moment, in the second floor space of the eighteen-story cultivation tower.

When Ye Feng wiped out eight energy light people, he passed the second level test.

Buzz!

At this moment, the void directly in front of Ye Feng suddenly vibrated.

As the void trembled, Ye Feng immediately saw a palm-sized energy light group appearing in front of him.

"Another energy light group that can improve your skills!"

When Ye Feng saw this scene, his eyes suddenly showed deep surprise.

At this moment, Ye Feng immediately stretched out his hand and touched the energy light group in front of him.

"Buzz!"

At this time, a very majestic energy suddenly burst out from the energy light group.

It was directly injected into Ye Feng's body, making Ye Feng immediately feel that his whole body was full of majestic power.

At this moment, Ye Feng suddenly discovered the aura of cultivation in his body, and immediately began to make rapid and continuous breakthroughs.

boom!

Junior dominates the fourth level!

boom!

Junior dominates the fifth floor!

boom!

The sixth level of junior domination!

At this time, Ye Feng broke through to the sixth level of primary dominance, and his eyes suddenly showed deep joy.

This time, following Murong Mingyue to the Murong family and entering this eighteen-story cultivation tower really gave me a huge opportunity.

Otherwise, Ye Feng knew that his cultivation would not be able to break through so quickly.

Because in this cultivation tower, whether it is the first-level reward, the ancient vitality pill, or the second-level energy light group, the power contained in it is very high-level, and it is the energy of the ancient glorious era, so Ye Feng's cultivation naturally made breakthroughs very quickly.

Ye Feng couldn't help but murmur at this time, "I have broken through to the sixth level of primary master so quickly. It seems that I am not too far away from the real master of Dzogchen."

But the moment Ye Feng finished his words, Emperor Chu in his mind suddenly spoke: "Ye Feng, you are too optimistic. You are still very far away from the true master of Dzogchen. You must know that the junior master There are ten levels in total, while the intermediate master has a total of fifty levels, and the advanced master has a hundred levels, so you are still a long way from being a true Dzogchen master. "

"What??"

Hearing what Emperor Chu said in his mind, Ye Feng suddenly showed a look of astonishment in his eyes and said aloud: "The intermediate master actually has fifty levels, and the high-level master has one hundred small levels. Is it such an exaggeration??"

Emperor Chu nodded and said aloud in his mind: "Otherwise, you would think that since the Age of Ending Dharma in the Great Origin World, few people have been able to step into the real world.

The reason for the Dzogchen Master is that there are too many small levels in the two realms of Intermediate Master and Advanced Master, and many people cannot break through in their entire lives. "

Ye Feng couldn't help but asked: "What about the Master of Dzogchen?"

Emperor Chu said aloud: "The Dzogchen Master is normally divided into ten heavens. The intermediate master and high-level master are more special. They are divided into fifty and one hundred levels respectively."

Hearing Emperor Chu say this, Ye Feng immediately breathed a sigh of relief.

At this time, Ye Feng seemed to have thought of something, and immediately asked: "What is the realm above the Great Perfection of Domination?"

Emperor Chu said: "Beyond the Lord of Great Perfection is the legendary infinite realm. When you step into the infinite realm, you can travel across the stars and the universe, and you will become a very terrifying existence."

"Infinite Realm?"

Hearing what Kitchen said, Ye Feng immediately nodded.

This is the first time Ye Feng understands the realm above dominion.

At this moment, Ye Feng absorbed the energy light group in front of him. After entering the sixth level of primary dominance, he quickly walked towards the third level.

When Ye Feng came to the third level of the training tower, he immediately saw a total of sixteen energy light people appearing in the middle area of the third level.

That's twice as many as the eight energy light people on the second level!

Seeing this scene, Ye Feng was immediately stunned.

Will the energy of light people at each level increase exponentially?

But Ye Feng doesn't know yet, so he can only get through one level after another.

At this moment, facing a total of sixteen energy light people of the same realm as himself, Ye Feng rushed forward without any hesitation.

Boom! !

The entire space of the third-level cultivation tower suddenly erupted with terrifying roars.

Ye Feng has the strongest bones in the world, so he is not afraid of attacks from these energy-light people at all.

Even if his flesh and blood body suffered damage, Ye Feng's bones were still very strong and could not cause serious injury to Ye Feng.

Therefore, in the end, Ye Feng spent just a few minutes to kill all the sixteen energy light people in front of him.

The many young geniuses of the Murong family who were watching outside the training tower already had dull looks in their eyes.

Because it only took a few minutes for Ye Feng to break through the third level.

As for Murong Jian and a group of top geniuses from the Murong family, it took them half an hour to pass the third level.

This gap is really too big!

Everyone couldn't help but marvel, Ye Feng's martial arts talent was truly terrifying to the extreme and astonishing.

Next, what shocked everyone in the audience even more was that the windows on each floor of the eighteen-story cultivation tower in front of them lit up at an increasingly faster speed.

Exactly half an hour later, Ye Feng had already reached the eleventh floor of the eighteen-story training tower.

You must know that Murong Jian, Murong Bai and Murong Ling, the three top geniuses, had the strongest record at that time, but they only broke into the tenth floor of this training tower.

At this time, they all lowered their heads deeply, understanding the gap between themselves and Ye Feng.

Among the crowd, a genius from the Murong family couldn't help but said out of curiosity: "I wonder if this super genius Ye Feng can break the record of our Murong family's strongest genius and surpass the thirteenth level?"

But the moment this super genius finished speaking, the windows on the twelfth floor lit up again.

It means that Ye Feng has broken through the twelfth floor. ??

Then half an hour later, the thirteenth window suddenly lit up.

Another half hour passed, and the windows on the fourteenth floor lit up.

It means that Ye Feng has already passed the fourteenth level, completely breaking the Murong family's highest record.

"hiss!"

Seeing this scene, the whole audience couldn't help but let out a gasp.

All the geniuses of the Murong family did not expect that the record of the Murong family's most amazing super genius would be broken by Ye Feng.

And it seems that the fourteenth level is not Ye Feng's limit.

Because they saw that the windows on the fifteenth floor of the training tower were about to light up.

Murong Mingyue saw the whole process and was very excited.

Because the stronger Ye Feng is, the more beneficial it will be to Murong Mingyue, the eldest lady of the Murong family.

At this moment, inside the training tower.

Ye Feng stood in the space on the fifteenth floor of the training tower, fighting fiercely with thousands of energy light people of the same realm.

Even though Ye Feng's cultivation was very strong and his defense was very high, he was still a little unable to withstand being beaten by thousands of energy light people of the same realm who were not afraid of death, and even a trace of blood spilled from the corner of his mouth.

His body and flesh had suffered huge trauma.

However, after all, Ye Feng's bones are the unique Immortal Bones of the Gods. They are very strong and can withstand the attacks of thousands of energy light beings.

In the end, Ye Feng exhausted almost all his strength and finally completely killed all the thousands of capable people.

Measuring people.

At this moment, after Ye Feng killed the last energy light man, he finally couldn't help but sit on the ground, feeling very exhausted.

Even with Ye Feng's powerful and powerful skills, he still feels deeply tired after fighting until now.

At this moment, Ye Feng has passed so many levels, and his cultivation level has been successfully upgraded from the sixth level of junior domination to the tenth level of junior domination!

At this time, when Ye Feng wiped out thousands of energy light people in the fifteenth level of space, his reward also appeared instantly.

But this time, it's no longer some ancient elixir or energy light group that increases one's power, but a book that exudes the aura of ancient vicissitudes.

"Um?"

When Ye Feng saw the ancient book, his eyes immediately moved, and he couldn't help but said: "It turns out to be a kind of inheritance reward."

Ye Feng murmured at this moment, walked forward and opened the ancient secretary in front of him.

There are five characters written on it: "Buddhist and Taoist Qi Refining Technique".

"Buddhist Qi Refining Technique?"

Looking at the five words written on this ancient book, Ye Feng was suddenly stunned. It seemed that he did not expect that the reward appearing here turned out to be a rather basic inheritance of Buddhist practice.

It doesn't seem to have any particularly powerful power, it's just a Buddhist Qi refining technique.

But at this time, Emperor Chu in his mind suddenly said: "This Buddhist training technique is probably to allow you to practice the special power of ancient Buddhism in advance. I guess you

will continue to succeed in the next level." If so, I will most likely give you another Demonic Qi Refining Technique so that you can cultivate the power of the ancient Demonic Path."

Hearing what Emperor Chu said, Ye Feng's eyes suddenly lit up and he couldn't help but say: "Emperor Chu, what you mean is that this eighteen-story cultivation tower is the legendary Great Buddha Tower, because according to what Toad said, The Great Buddha Pagoda is a super magic weapon born at the junction of two higher interfaces, the Buddhist world and the demonic world. It contains the power of Buddha and demons. Therefore, if you want to refine the Great Buddha Pagoda, you must possess both the ancient Buddhist path and the ancient world. The power of the devil, now that I have broken through the barrier and reached here, it means that I am already qualified to refine the Great Buddha Tower, so I will be rewarded with a copy of the Buddhist Qi Refining Technique."

Hearing what Ye Feng said, Emperor Chu nodded immediately in his mind and said aloud: "That should be the case."

Ye Feng immediately nodded in surprise, and then immediately took the ancient Buddhist and Taoist Qi Refining Technique in front of him into his hands, and then engraved it into his soul, and began to continuously comprehend it. .

It just so happens that I am currently seriously injured. I can practice this Buddhist Qi refining technique in the fifteenth floor of the training tower while recovering my strength and enter the higher-level training tower space to prepare for the next breakthrough. .

Chapter 4036 Blue Scale Monster

At this time, Ye Feng was sitting cross-legged in the fifteenth floor of the training tower, silently recovering his strength.

You know, Ye Feng's current power is no longer the low-level power of chaos or the power of Hongmeng.

Instead, it became the power of the advanced and powerful Celestial Clan, the power of the Celestials.

Therefore, even if Ye Feng exhausted his strength during the battle, he could quickly recover his skills at this time.

At this moment, while Ye Feng was recovering his skills and injuries, he was also studying the ancient Buddhist inheritance he had just obtained, the Buddhist Qi Refining Technique.

This Buddhist inheritance is only a very basic inheritance of ancient Buddhism, but it allows Ye Feng to cultivate the power of ancient Buddhism and then control the entire Great Buddha Pagoda.

However, Ye Feng knew very well that if he wanted to master this Great Buddha Tower, he had to climb to the highest level before he could control and refine it.

At this time, Ye Feng did not hesitate. After recovering his skills and practicing this Buddhist inheritance, he quickly walked towards the higher floor.

When Ye Feng left the fifteenth floor and arrived at the sixteenth floor, he was almost approaching the eighteenth floor, the highest level.

Ye Feng felt that tens of thousands of energy light people might appear on this sixteenth floor, and he needed to be prepared for a hard fight.

But at this time, when Ye Feng came to the sixteenth level of space, his eyes suddenly froze.

Because he saw that in the sixteenth layer of space, there was not a lot of energy light people condensed, but a white-haired old man who looked like an immortal appeared, standing in the middle area of the sixteenth layer of space.

When Ye Feng saw this scene, he couldn't help but asked: "Who is the senior?"

Looking at the white-haired old man with immortal demeanor, Ye Feng had a look of deep surprise in his eyes.

Is this the test of the sixteenth level of space to defeat this white-haired old man?

But Ye Feng could sense that the aura emanating from the other party was unfathomable and far beyond what his current state could resist.

So at this time, Ye Feng did not take action immediately, but asked.

At this time, the white-haired old man said slowly: "Your talent is very good. You can break into the sixteenth floor of this training hall, but that's just the end of it. I am the master of this training tower." Guardian, this Great Pagoda is a supreme treasure that only belongs to the ancestors of the Murong family. Others are not allowed to refine this Great Pagoda."

Hearing what the white-haired old man said, Ye Feng's eyes suddenly moved. He didn't expect that such a situation would happen. There are super strong people guarding and sitting here to prevent outsiders from climbing to the highest level, thus refining this big pagoda. tower.

Ye Feng just flashed his eyes slightly, and suddenly two white lights appeared in his eyes, and said loudly: "You are not the guardian of this big pagoda at all, you are just pretending to be this." You were almost deceived by the inscrutable appearance of the Deputy Immortal Feng Daogu."

At this time, Ye Feng uses his eyes of heaven and earth to see through everything.

He discovered that the so-called guardian in front of him was actually a monster covered in blue scales.

This blue scale monster seems to have a kind of transformation technique that can pull others into a real illusion.

Ye Feng almost wanted to retreat just now, because this old man was unfathomable and was simply not something he could fight against in his current state.

But Ye Feng suddenly remembered it, looked at it with the eyes of heaven and earth, and found out the clues.

At this moment, after hearing what Ye Feng said, the immortal old man in front immediately showed a deep ugly look on his face.

He seemed to have never imagined that his perfect illusion would be broken by this ordinary-looking young man in front of him.

At this moment, this immortal old man suddenly showed a ferocious smile.

The whole person immediately turned into a monster covered with blue scales.

It is the true state that Ye Feng sees through with his eyes of heaven and earth.

This monster with blue scales seems to be a strange beast from heaven and earth, with the ability to pull all creatures into illusions.

At this moment, this monster with blue scales all over his body rushed towards Ye Feng and said ferociously: "Since you kid was not scared away by my illusion, then I will do it with my own hands." I have swallowed your soul. It seems that your soul is very huge, otherwise it would be impossible to see through my illusion. This is very important to me.

It's a great supplement. "

When Ye Feng heard this monster covered with blue scales say this, he couldn't help but said: "Are you a special kind of monster that disappeared in ancient times, a soul-eating beast?"

Hearing what Ye Feng said, the monster with blue scales on the opposite side just laughed ferociously and without saying anything else, rushed towards Ye Feng and stretched out its very ferocious-looking claws.

This kind of ferocious claws is very special. It does not attack the human body, but directly attacks the human soul.

However, Ye Feng is a unique soul master among the human race, so Ye Feng is not afraid at all now.

Ye Feng frantically burst out his majestic soul power.

Boom!

At this moment, powerful soul power burst out from Ye Feng's mind.

Like a boundless wave of souls, it swept directly forward, and suddenly hit the monster covered in blue scales that rushed forward.

Wow!

But at this time, what shocked Ye Feng was that the monster covered with blue scales instantly broke through the soul frenzy it had released, and directly grabbed the soul core in Ye Feng's head. past.

This made Ye Feng's eyes look horrified.

Unexpectedly, this monster covered with blue scales had such terrifying strength.

Able to break through the defense line of one's own huge soul power.

However, Ye Feng also knew very well that this eighteen-story cultivation tower was handed down from the ancestors of the Murong family in the ancient glorious era.

So the monsters that appear inside are very scary and normal.

Otherwise, this eighteen-story cultivation tower would not have become such a treasure of the Murong family.

At this time, Ye Feng deeply understood that his soul power would begin to improve rapidly.

Although his physical strength has been completely renewed after receiving the strongest bones in the world, the Immortal Bones of the Gods.

But for my own soul power and soul-level cultivation methods, I still need to find a more powerful inheritance in order to become more powerful.

At this time, Ye Feng immediately began to ask for help from Emperor Chu in his mind, and said aloud: "Emperor Chu, help me resist this monster covered with blue scales."

Emperor Chu nodded in his mind, and immediately burst out with extremely powerful soul-level power.

Although the soul gem is not very useful now, Emperor Chu himself can draw the violent soul power in a certain mysterious space to deal with the enemy.

So at this time, when this monster covered in blue scales thought he was about to succeed.

boom!

Suddenly, a red giant of light appeared in Ye Feng's mind.

It is the incarnation of Emperor Chu!

It directly sent the monster covered with blue scales flying backwards.

This monster covered with blue scales immediately said in horror: "What? How is this possible? How can you, a little junior master, have such a powerful soul and still have something in your mind? Such a terrifying giant of red light, what on earth could it be that could repel me?"

Seeing the monster covered with blue scales, such a horrified look.

Ye Feng just smiled coldly and said aloud: "My trump card is beyond the imagination of a little monster like you."

At this time, Ye Feng said directly in his mind: "Emperor Chu, can you just kill this monster covered with blue scales?"

Emperor Chu nodded and said, "It should be okay."

Uh-huh!

At this moment, Emperor Chu flew directly out of Ye Feng's mind.

A huge giant of light descended directly in front of the monster covered with blue scales.

Then without any hesitation, he started attacking the blue scale monster.

This monster covered with blue scales saw the red giant of light

It flew directly out of Ye Feng's mind. He was immediately horrified and wanted to retreat quickly.

Because at that moment, he had deeply realized how terrifying this giant of red light was, and how powerful it was at the soul level.

At this moment, the monster covered with blue scales immediately retreated quickly towards the back, wanting to leave the sixteenth layer of space and escape to another space.

But Emperor Chu would not give this monster covered in blue scales a chance. .??.

Uh-huh!

At this moment, Emperor Chu directly extended his hand.

A huge hand composed of incomparably red light, covering the sky and the sun, directly covering the head of this monster covered with blue scales.

In one fell swoop, the monster was blown to pieces.

The whole soul was immediately shattered.

Seeing this scene, Ye Feng suddenly showed deep surprise in his eyes.

Unexpectedly, Emperor Chu's current strength at the soul level has become so strong.

Because Ye Feng knew very well that the Soul Gem was going to be eliminated more and more soon, and it would not be able to exert much strength at all.

But now Emperor Chu relied entirely on his own strength to kill this extremely powerful monster covered with blue scales.

At this time, Ye Feng couldn't help but asked: "Emperor Chu, has your current strength returned to its peak state?"

Emperor Chu immediately shook his head and said aloud: "It's still far from it. I have only initially recovered some strength, because some of the memory fragments I awakened recorded the inheritance I practiced back then, so I am silently Practicing in your mind has restored a lot of strength, because I can draw out special powers from a very mysterious space, thereby increasing my strength."

Hearing what Emperor Chu said, Ye Feng immediately nodded in amazement.

Ye Feng knew very well that Ye Feng had also encountered a crisis on the soul level back then.

At the critical moment, the soul gem cannot resist.

In the end, it was thanks to Emperor Chu that he absorbed a terrifying special power from a certain mysterious space or world, and was able to resolve that soul crisis.

Therefore, Ye Feng feels more and more mysterious about the origin of Emperor Chu.

At this time, Ye Feng didn't hesitate at all. He flew forward and began to release the Devouring Domain, devouring the soul fragments left behind after the death of this monster covered with blue scales.

You know, this monster with blue scales all over its body specializes in attacking other people's soul level.

Moreover, Ye Feng's soul power was so powerful before that he was instantly pulled into the illusion by this monster.

Therefore, the soul power of this monster covered with blue scales is still very terrifying.

After being killed by Ye Feng and Chu Huang at this time, the soul fragments provided by this monster covered with blue scales were naturally very many and very majestic.

In an instant, Ye Feng's soul power began to grow rapidly and continuously.

Ye Feng's previous soul power was 30 million levels.

At this time, after absorbing and devouring the soul fragments of this monster covered with blue scales, it suddenly increased from level 30 million to level 33 million.

This made Ye Feng's eyes reveal a look of deep surprise.

Unexpectedly, such a small monster covered with blue scales could actually provide him with a full three million-level soul power.

As expected of this monster among the super magic weapons left by the ancestors of the Murong family, it is indeed very extraordinary.

Because ordinary monsters are probably not qualified to be restrained in this training tower.

At this time, Ye Feng and Chu Huang joined forces to kill the monster covered with blue scales, and they were considered to have passed the sixteenth floor.

But Ye Feng was surprised to find that there was no reward.

Ye Feng had a vague guess in his mind. It was probably that the training tower felt that he did not rely on his own strength to defeat this monster covered with blue scales, but relied on the power of Emperor Chu to unite and kill this blue monster. Colorful scale monster.

So I didn't give myself an award

Encourage.

But it still counts as passing the sixteenth level.

Ye Feng was also quite happy.

At this time, Ye Feng walked quickly towards the seventeenth level of space.

At this time, all the younger generations of the Murong family outside the training tower held their breaths, with deep horrified looks in their eyes.

Because they saw it, Ye Feng actually broke through the sixteenth level of space.

We are almost reaching the seventeenth floor!

This made everyone in the audience fall into deep shock.

Even Murong Jian, Murong Bai and Murong Ling, the three top geniuses of the younger generation of the Murong family, could not help but reveal uncontrollable wonder in their eyes.

Murong Mingyue, the eldest lady of the Murong family, also had deep shock in her eyes.

It seems that he didn't expect Ye Feng to actually get to this point.

At this moment, several old figures suddenly flew over not far away.

When the young people around saw these elderly figures, they couldn't help but clasped their fists respectfully and said, "See the Great Elder, the Second Elder, and the Third Elder!"

It turns out that these old figures are all respected elders in the Murong family.

At this moment, it was obvious that Ye Feng had reached the sixteenth floor of the eighteen-story cultivation tower and was about to enter the seventeenth floor, which made the elders of the Murong family unable to sit still.

Even going directly to the scene to see what is going on.

The third elder, Murong Shuangzhu, was also among them.

At this time, Murong Shuangzhu came directly to Murong Mingyue and couldn't help but asked with some surprise: "Miss, is it Ye Feng who entered this training tower?"

Murong Mingyue immediately nodded and said with great anticipation: "Ye Feng is really amazing. I didn't expect him to be able to approach the top of this training tower."

Murong Shuangzhu heard what Murong Mingyue said, and immediately nodded, and then said: "He has already broken the highest record of our Murong family. I don't know if he can really climb to the top of this eighteen-story cultivation tower."

Murong Mingyue's beautiful eyes revealed a look of deep expectation, and she said loudly: "I believe Ye Feng will be able to do it."

Toad was standing not far away at this time. Different from the shock of others, his face was full of surprise. He seemed to think that no matter what horrifying things Ye Feng did, it seemed to be very normal.

Because Toad knew that this kid was a complete monster, unprecedented and unprecedented.

At this moment, Murong Mingyue seemed to have thought of something, and suddenly looked at the other two elders next to the three elders Murong Shuangzhu, and asked aloud: "First elder, second elder, if Ye Feng can really climb... The top floor of this eighteen-story cultivation tower controls this cultivation tower, because it is said that this eighteen-story cultivation tower is a super magic weapon left by the ancestors of our Murong family. If Ye Feng can really control this magic weapon, can you give this training tower to Ye Feng?"

When the eldest elder heard what Murong Mingyue said, a hint of helplessness appeared on his face, and he said loudly: "Miss, this eighteen-story cultivation tower is not an ordinary thing, it is the most precious thing of our Murong family. One of the family's treasures cannot be taken away by outsiders, even if he has the qualifications."

When Murong Mingyue heard what the great elder said, she immediately showed a bad look on her face and said loudly: "But I have promised Ye Feng that if he can climb to the top and control this eighteen-story cultivation tower, I'll give this cultivation tower to Ye Feng."

When the eldest elder heard the eldest lady of his family say this, the look of helplessness on his face became even more intense.

Unexpectedly, the eldest daughter of the Murong family could bend her arms so much.

The second elder suddenly came out to smooth things over and said: "Let's see if this Ye Feng can climb to the top of this eighteen-story cultivation tower first. And even if he climbs to the top, he may not be able to control this cultivation tower, because This cultivation tower has its own will, and he must also be recognized by this cultivation tower's own will, that is, by the tower spirit."

"Taling?"

When Murong Mingyue heard what the second elder said, there was a trace of surprise in her eyes. It seemed that she did not expect that this eighteen-story cultivation tower actually had its own will and gave birth to a tower spirit.

Chapter 4037 Tower Spirit

At this time, Murong Mingyue heard the second elder say that in this eighteen-story cultivation tower, there was actually a tower spirit born in ancient times.

In other words, this eighteen-story cultivation tower has its own will, which makes Murong Mingyue sweat for Ye Feng.

Because this means that breaking into the top of the 18th floor of the cultivation tower may not necessarily be able to control this cultivation tower.

It needs to be recognized by this tower spirit born in ancient times.

And while everyone was discussing outside.

Inside the eighteenth floor cultivation tower, in the seventeenth floor space.

Ye Feng has already arrived here.

At this time, Ye Feng suddenly saw an ancient demon clan covered in black scales, dying, trapped in the seventeenth level of space by countless silver chains.

"Um?"

Ye Feng was stunned when he saw this scene. He seemed to have never expected that such an ancient demon clan was imprisoned in the seventeenth level of space.

Ye Feng looked around at this moment, seeming to be thinking about what the test of this seventeenth layer of space was before he could pass this seventeenth layer and enter the top eighteenth layer.

But while Ye Feng was observing, the ancient demon in front who was trapped by countless silver chains suddenly said: "Young man, if you save me, I will help you enter the final level of this training tower." On the top floor, on the 18th floor."

Hearing the ancient demon trapped in countless silver chains in front of him actually speak.

There was a look of astonishment in Ye Feng's eyes, and then he slowly walked over and said loudly: "Why should I believe you? You are imprisoned here, which shows that you have no ability to help me enter the 18th layer."

Hearing what Ye Feng said, the ancient demon smiled coldly and said: "Since you are disobedient, I will take away your body!"

boom!

Almost at the moment when the ancient demon clan finished speaking, a very dark mist suddenly burst out from the ancient demon clan's body.

This jet-black mist actually formed into a skull-like state and penetrated directly into Ye Feng's head.

But at this moment, Ye Feng just smiled faintly.

Because he has Emperor Chu in his mind.

At this moment, Emperor Chu indeed burst out with terrifying power.

I saw streaks of crimson divine light suddenly blasting out of Ye Feng's head. In an instant, the black mist transformed by the ancient demon clan that wanted to get into Ye Feng's head was struck. Broken.

"ah!!"

At this moment, in the black fog, an earth-shattering scream suddenly sounded, very shrill.

In the black mist, the shrill cry of the ancient demons suddenly sounded: "Damn it, what is there in the head of a human boy like you? How can you have such terrifying power? I have accumulated tens of thousands of years of demons. The fog has all been penetrated and shattered, this is impossible!"

At this time, Ye Feng didn't say a word, but Emperor Chu in his head stretched out a big red hand, grabbed the black mist, and then pulled out the demons of the ancient demon clan in the black mist. His soul was crushed in an instant.

"ah!!"

Along with a scream in the magic mist, the demon soul of the ancient demon clan in the mist instantly shattered, completely dissipated, and was directly obliterated by Emperor Chu.

"Amazing!"

Seeing this scene, Ye Feng's eyes showed deep surprise.

Emperor Chu's current strength seems to be getting more and more terrifying.

Next, Ye Feng

Without any hesitation, he opened his mouth and sucked in all the shattered demon souls in the black mist.

Ye Feng's soul power was immediately greatly strengthened.

From the previous level of 33 million, it has skyrocketed to level 35 million!

All of a sudden, it was raised to two million levels! !

At this time, Ye Feng's eyes showed deep joy.

I didn't expect that this time in this eighteen-story cultivation tower, my soul power would increase so much.

At this time, Ye Feng walked directly forward and walked directly in front of the ancient demon trapped by countless chains and locks.

At this time, the demon souls of the ancient demon clan had been completely wiped out by Emperor Chu.

So his body also turned into a walking zombie.

At this moment, Ye Feng didn't hesitate at all. He directly stretched out his hand and touched the head of the ancient demon in front of him.

Buzz!

At this moment, Ye Feng sensed it, and a look of surprise appeared on his face.

Because Ye Feng sensed that the body of this ancient demon actually contained very majestic blood energy.

Ye Feng immediately couldn't help but said: "It seems that this ancient demon has been imprisoned here for endless years, and his blood has not completely passed away, and he is qualified to be

imprisoned in this eighteen-story training tower. This shows that this ancient demon has The demons are absolutely extraordinary.”

At this time, Ye Feng did not hesitate and started to release the Devouring Domain directly.

"Buzz!"

I saw a dark devouring vortex appear in Ye Feng's palm, and then began to absorb the blood energy contained in the body of the ancient demon in front of him.

Rumble...

At this moment, a stream of very majestic energy was immediately absorbed into Ye Feng's body, rapidly strengthening Ye Feng's power.

Ye Feng's previous cultivation level has been promoted to the tenth level of primary master.

At this time, as he devoured the blood energy contained in the body of this ancient demon, Ye Feng's skills immediately underwent a huge transformation.

Boom! !

Suddenly at a certain moment, Ye Feng's body erupted with a terrifying aura of cultivation.

Ye Feng's cultivation level has successfully broken through the tenth level of the current junior master, and directly stepped into the half-step of the intermediate master!

At this moment, Ye Feng's cultivation level had reached the half-step level of intermediate master, and his eyes showed deep joy.

Unexpectedly, this ancient demon clan sent him so much energy, which improved his soul power and his cultivation strength.

Ye Feng couldn't help but want to thank the imprisoned ancient demon in front of him.

At this moment, after all the blood energy was sucked away by Ye Feng, the entire body of the ancient demon in front of him immediately became completely suffocated.

Then Ye Feng didn't hesitate and walked directly towards the seventeenth floor, which was the eighteenth floor at the top of the eighteen-story training tower.

But at this time, Emperor Chu suddenly said: "Ye Feng, if you want to refine this Great Pagoda, you also need to cultivate the power of the ancient demons. This ancient demon imprisoned here may have What you need."

Hearing the reminder from Emperor Chu in his mind, Ye Feng suddenly remembered that he had obtained the Buddhist Qi Refining Technique before and had practiced it far.

The power of ancient Buddhism.

It still lacks the power of ancient magic.

So at this time, Ye Feng immediately nodded, then walked back to the imprisoned ancient demon and observed it carefully.

The next moment, Ye Feng saw a small storage ring on the finger of this ancient demon.

Because this storage ring is pitch black, it is the same color as the scales on this ancient demon clan.

So Ye Feng just thought that the storage ring on the finger of this ancient demon was a protrusion formed by the bone hyperplasia of this ancient demon.

It turned out to be a dark storage ring.

Ye Feng's eyes lit up at this time, and he took off the storage ring from the finger of this ancient demon.

Then Ye Feng began to explore the space inside the storage ring.

Ye Feng immediately saw that inside the storage ring, there was a book exuding black energy.

After Ye Feng took it out and looked at it, he found that it was indeed the inheritance of ancient demonic power.

Without any hesitation, Ye Feng simply imprinted this set of inherited secrets into his mind, and then continued to practice.

Then Ye Feng also found a dark trident from the storage ring, which looked very extraordinary.

After Ye Feng took out the trident, he waved it around. It was so powerful and powerful.

The entire dark trident is more than ten meters long. It looks very vigorous and feels very vast.

This is a very domineering weapon.

Ye Feng directly put the dark trident into his storage ring.

This is good stuff.

It is a super magic weapon and weapon of an ancient demon clan, and it definitely has huge power.

Now, in addition to the dark trident, Ye Feng also has the True Dragon Sky-Slaying Sword from the super sect in the ancient glory days.

So Ye Feng suddenly has more weapons now.

Ye Feng was thinking about whether to absorb the divine substance from the True Dragon Sky-Slaying Sword.

However, if the divine substance in the True Dragon's Heaven-Slashing Sword is absorbed, the True Dragon's Heaven-Slashing Sword will be completely useless.

Ye Feng felt that there were only two of his current weapons, the True Dragon Sky-Slashing Sword and the Dark Trident he had just obtained, which was not too much.

So Ye Feng immediately gave up the idea of absorbing the divine substance in the True Dragon Slaying Heaven Sword, and would talk about it later.

Next, Ye Feng took a deep breath, no longer hesitated, and walked quickly towards the eighteenth floor, the top of the eighteen-story cultivation tower.

When Ye Feng arrived at the top of the training tower, everyone watching outside the tower was completely excited.

Everyone couldn't help but exclaimed.

"Oh my god! This Ye Feng actually climbed to the top of our Murong family's clan building and entered the top floor of the eighteen-story training tower!"

"Yes, the windows on the seventeenth floor are lit up, which means that Ye Feng passed the test on the seventeenth floor and actually entered the eighteenth floor."

At this moment, all the young geniuses of the Murong family showed deep horror and shock in their eyes.

Even the faces of the newly arrived Great Elder, Second Elder and Third Elder showed deep shock.

It seems that they did not expect that the young man brought back by Miss Murong Mingyue would actually be able to climb to the top of their Murong Mountain.

The Rong family's eighteen-story training tower.

At this time, the great elder's expression was very complicated.

If Ye Feng can really control this eighteen-story cultivation tower, he doesn't know what he will do.

Because if it were anyone else, the Great Elder would never agree to someone else taking the practice tower away.

But Ye Feng is Murong Mingyue's good friend, and the head of the family also attaches great importance to this Ye Feng.

In addition, Ye Feng had just saved more than seventy core members of the Murong family.

Therefore, Ye Feng's contribution to the Murong family is also very great.

It may be very unwise to offend such a promising guy.

And just when the great elder was thinking secretly in his heart and was very entangled.

The eighteenth floor of the eighteen-story training tower.

Among the topmost.

Ye Feng entered it directly.

The moment Ye Feng entered the top space of the 18th floor, he immediately saw a figure that looked like a machine puppet, with its back to him, standing at the end of the 18th floor. Area.

This is definitely a puppet man.

Ye Feng immediately walked forward, wanting to take a look at the situation.

Uh-huh!

But at this moment, the puppet turned around, looked at Ye Feng who was coming from behind, and said loudly: "I didn't expect that the genius of our Murong family spent tens of thousands of years, and it didn't work." I tried my best to reach the top of the Great Buddha Tower, but an outsider finally climbed to the top."

Hearing what the puppet said, Ye Feng's eyes flashed slightly, and then he said, "I wonder who the senior is?"

The puppet said aloud: "I am the tower spirit of this Great Pagoda, and I am also the self-will of this Great Pagoda. The fact that you can climb the eighteenth floor means that you are qualified to control this Great Pagoda." , but after all, you are not a blood descendant of our Murong family, and the previous owner of the big pagoda, the ancestor of the Murong family, established a rule that only a blood descendant of the Murong family can control a big pagoda. "

Hearing what the puppet in front of him said, Ye Feng showed an ugly look on his face. He didn't expect that this Great Pagoda would give birth to an ancient tower spirit, trying to prevent him from refining the entire Great Pagoda.

At this time, Ye Feng asked aloud in his mind: "Emperor Chu, are you sure you can kill the puppet in front of you?"

Emperor Chu immediately said aloud in his mind: "There is no great certainty. This puppet is the tower spirit that has been born in this Great Pagoda for many years. Its strength is very terrifying, and its body is an indestructible puppet. Among them, I couldn't kill it in an instant."

After hearing what Emperor Chu said, Ye Feng immediately fell silent and prepared to leave here directly.

Because Ye Feng could sense that the cultivation strength of this puppet was absolutely terrifying and unfathomable, and it was impossible for him to fight against it.

Anyway, I have received many rewards in this eighteen-story training tower, which can be considered a full harvest.

But just when Ye Feng was about to turn around, the puppet suddenly seemed to sense something, and couldn't help but said in horror: "How come you have the aura of the Celestial Clan in you? You actually put the Celestial Clan's aura into your body?" How is this possible with the strongest skeleton in the world? It's such an enviable creation! Don't leave yet, let me take a look at you. The immortal bones of the gods!"

At this time, when the puppet man spoke, there was a hint of greed in his tone, which made Ye Feng's face suddenly darken.

Chapter 4038 Double Fist Improvement

Why didn't Ye Feng think that the self-will born from this eighteen-story cultivation tower, that is, the tower spirit, and the puppet he possessed, were speaking at this moment, and his tone was actually full of hatred for his immortal bones? Huge greed.

At this time, Ye Feng finally understood how extraordinary, how precious, and how unique the Immortal Bone of the God that he had fused was.

This ancient tower spirit, an ancient existence that has lived for tens of thousands of years, is so greedy.

No wonder Toad said before that the strongest bones in the world must not be exposed in front of some super strong people.

Otherwise, it is very likely that many super strong people will fight for it at all costs.

Because there is only one Immortal Bone of the God in the whole world. It is the only skeleton of the God Clan. It is indestructible and naturally very unique, which makes many super powerful people very greedy.

Uh-huh!

At this time, Ye Feng immediately retreated quickly, wanting to leave here as soon as possible.

But seeing Ye Feng wanting to leave, the puppet possessed by the tower spirit couldn't help but said coldly and domineeringly: "I told you to stop, let me see your strongest bone in the world, you Didn't you hear that?"

boom! !

After saying that, a terrifying wave of power suddenly erupted from the puppet, and then it rushed madly in the direction of Ye Feng.

The strength of this puppet is simply terrifying to the extreme.

Moreover, this puppet is the tower spirit of this eighteenth floor cultivation tower, so he seems to be able to draw on the power of the entire eighteenth floor cultivation tower.

Ye Feng immediately felt it at this time. What rushed towards him did not look like a small puppet, but like a terrifying ancient beast.

This made Ye Feng's eyes reveal a look of deep shock.

These things that existed in the ancient glory days are indeed terrifying.

Even if it was just a puppet possessed by the tower spirit, it still possessed such terrifying combat power, making Ye Feng more and more eager to improve his strength.

Because if the world rules of the Great World of Origin continue to change, and the existence of those advanced cultivation interfaces comes, my current cultivation level may really be unable to withstand it.

Therefore, in order to survive well in the future, Ye Feng feels that he needs to quickly improve his cultivation strength, otherwise, he will not be able to gain a foothold in the upcoming magnificent world.

Boom!

While Ye Feng was thinking, the puppet in front had already rushed towards Ye Feng.

One hand fiercely grabbed Ye Feng.

Bah!

The strength of Ye Feng's body was simply unable to withstand the terrifying claws of this puppet, and his flesh and blood were torn apart directly.

The bones inside were revealed.

However, no matter how sharp the claws of this puppet were, they could not damage Ye Feng's bones.

You must know that Ye Feng's bones are the strongest bones in the world. The immortal bones of the gods cannot be damaged at all. Even the power of the ancient gods cannot destroy them, they can only destroy flesh and blood.

At this time, seeing the bones hidden in Ye Feng's flesh and blood, exuding golden light, the puppet's eyes suddenly revealed a deep greed, and said loudly: "As long as I kill you, this kid, I will kill you." All the flesh and blood on your body has been wiped away, and this skeleton belongs to me. If I can possess this strongest skeleton in the world, then I will be truly invincible."

Boom!

After saying that, the puppet crazily destroyed Ye Feng's body and flesh.

Because this puppet knows that as long as Ye Feng's body, flesh and blood are wiped out until the last drop of blood, Ye Feng will be completely dead.

Ye Feng knew the puppet man's plan at this time, and without any hesitation, he directly burst out his cultivation power crazily and released his terrifyingly powerful inheritance, the Nine-turn Tianlong Jue.

At this time, Ye Feng released the super-large inheritance of the ancient glorious era.

Behind Ye Feng, two golden dragons suddenly appeared and collided with the puppet.

Boom!

But at this moment, the puppet stretched out a sharp claw and tore the two golden ancient dragons apart at once.

The puppet man immediately smiled coldly and said: "Boy, your inheritance is vulnerable in front of me. You can't stop me. Your immortal bones of the gods must belong to me, hahaha!"

At this time, the puppet man smiled very happily, and was also very excited and excited.

Because he probably never thought that after staying in this eighteen-story cultivation tower for so many years, he would meet the strongest person in the world. This was simply a supreme opportunity that came to his door.

Naturally, the puppet possessed by the tower spirit felt deeply happy.

Because once Ye Feng can plunder the strongest bones in the world, he will become invincible.

At this time, Ye Feng felt that his whole body and flesh and blood were really being wiped out. Ye Feng immediately asked for help in his mind: "Emperor Chu, attack the tower soul possessing this puppet and see if you can interfere with his actions."

"good."

Emperor Chu nodded at this time and transformed into a giant of red light. From Ye Feng's

It flew out of my head.

Then attack the soul of the puppet in front of you.

I have to say that Emperor Chu is too powerful now, and his attacks on the soul level are very powerful.

Under Chu Huang's coordinated attack, the puppet's soul suddenly became a little unstable.

After all, it is the tower spirit of this eighteen-story cultivation tower who controls the actions of this puppet, and he is in the state of soul.

So on the one hand, he had to deal with Emperor Chu's attack on the soul level, and on the other hand, he had to deal with Ye Feng's physical attack.

However, the puppet controlled by this tower spirit is very terrifying after all. After all, it is an existence left over from the ancient glorious era.

In the end, even if Ye Feng used two extremely powerful magic weapons, the True Dragon Sword and the Dark Trident, he was still unable to fight against the puppet in front of him.

At this time, Ye Feng was beaten and retreated steadily.

Emperor Chu was also a little unable to resist.

Emperor Chu immediately spoke out at this time: "Ye Feng, you must break the puppet body of this puppet man before you can defeat him."

Ye Feng looked a little ugly at this time, and said loudly: "But all my current strength and inheritance are unable to destroy this puppet man's defense. No matter it is the True Dragon Battle Sky Sword or the Dark Trident, it is unable to deal with this puppet." The puppet's body deals damage."

Emperor Chu thought for a moment, and then said aloud: "Once your immortal body of the gods bursts out with real terrifying power, it can put aside the defense of this puppet."

Ye Feng shook his head at this time and said aloud: "My immortal body of the God is still only the first stage of my fists. My two fists are only the sixth level. They cannot break through this puppet man's defense. Unless I can Let my fists continue to improve."

Emperor Chu immediately said decisively: "Ye Feng, don't hesitate or feel pity, forcibly extract all the divine substances from the two weapons in your hands, the True Dragon Sky-Slaying Sword and the Dark Trident. Strengthen your fists and continue to improve them, so that you can have a chance to break through the defensive shell of the puppet in front of you. "

"this....."

Hearing what Emperor Chu said, Ye Feng was stunned. He didn't expect that Emperor Chu would let him directly extract all the divine substances from the two most powerful weapons.

In this case, the two ancient magic weapons, the True Dragon Sky-Slashing Sword and the Dark Trident, would be completely useless.

When Emperor Chu saw Ye Feng's hesitation, he immediately shouted loudly and said: "Don't hesitate, just do what I say. This is the only chance. Don't pity your two magic weapons. These two ancient Although the magic weapon is very precious and high-end, it is definitely not as good as this Great Buddha Tower. If you can

Once you kill the puppet in front of you and take control of the Great Pagoda, everything will be worth it. "

Hearing what Emperor Chu said, Ye Feng immediately nodded and said, "Then I'll give it a try!"

Buzz!

At this moment, Ye Feng was dealing with the attack of the puppet man while quickly absorbing the divine substance from the two super magic weapons in his hands.

Whether it is the True Dragon Sky-Slaying Sword or the Dark Trident, they contain very strong divine substances.

After all, these weapons were all made by some super strong men in the ancient glory days. The materials used are naturally divine, otherwise it would be impossible to exert such great power.

Buzz!

Buzz!

Then Ye Feng continued to absorb the divine substances from the two weapons in his hands.

The golden light on the True Dragon's Heaven-Slaying Sword suddenly dimmed.

The dark light on the dark trident also dimmed.

Now that the divine substance in these two weapons has been forcibly absorbed, the aura they possessed has naturally completely disappeared and turned into two ordinary weapons.

Then Ye Feng threw away the two weapons in his hands.

After all, the most precious divine substances have been absorbed, and these two weapons can be said to be completely useless.

At this moment, after Ye Feng obtained the divine substances from these two powerful ancient magic weapons, he concentrated all these divine substances into his two fists to refine them.

Ye Feng could immediately feel that the levels of his two fists began to increase rapidly and continuously.

Directly promoted from the sixth floor to the seventh floor, and then to the eighth floor! !

Two super magic weapons from the ancient era directly raised Ye Feng's fist by two levels!

Ye Feng could feel that when his two fists reached the eighth level, the divine power contained in them was simply surging to an extreme.

At this moment, Ye Feng's fists emitted a dazzling divine light, and struck fiercely forward, directly hitting the puppet, making a "click, click, click" sound.

After being hit by Ye Feng's two fists, the surface of the puppet's body immediately cracked open.

Like porcelain, it's about to break.

"What??"

Seeing this scene, the puppet man couldn't help but screamed in horror: "Boy, what happened to your hands? How come your two fists suddenly became so much stronger and can actually break through the defense of this super puppet of mine! What did you just do?"

Chapter 4039 Peerless inheritance

At this time, the puppet's tone was very horrified.

Because he never expected that the power of Ye Feng's two fists would suddenly increase so much.

Moreover, this puppet man could feel that the divine energy in Ye Feng's fists was so terrifying that it could instantly break through the defense of his super puppet body.

At this time, the puppet felt deeply frightened and wanted to retreat quickly.

But Ye Feng would not give the puppet a chance.

Uh-huh!

At this moment, Ye Feng did not hesitate at all, and immediately shouted: "Die to me!!"

Boom!

At this moment, Ye Feng didn't hesitate at all, he rushed forward crazily, and then punched the puppet man on the head. ??

At this moment, Ye Feng's fist burst out with a brilliant divine light, full of terrifying power.

It directly smashed the puppet's entire head into pieces and exploded completely.

Wow!

At this moment, after the entire puppet's head was blown to pieces, a group of souls emitting spiritual light flew out of the broken puppet's body.

It is this eighteen-story cultivation tower, the tower spirit of the Great Buddha Tower.

But Emperor Chu had already prepared it.

The giant of light that Emperor Chu transformed into suddenly rushed in front of the soul of the tower spirit, and then erupted with a terrifying soul attack power, which completely shattered the soul of the tower spirit.

"ah!!"

At this moment, the soul of the tower spirit among the puppets was directly obliterated, and an earth-shattering scream suddenly erupted.

At this moment, Ye Feng did not hesitate, and immediately released the devouring domain, swallowing and absorbing all the soul fragments formed by the soul of the broken tower spirit.

At this moment, Ye Feng immediately felt that his soul power was growing and improving at an incredible speed.

At the end, Ye Feng's soul power directly broke through from the 35 million level to the 37 million level, and once again increased by several million levels, making Ye Feng's eyes suddenly reveal deep excitement. color.

At this time, Ye Feng looked around, and then said aloud: "I really want to thank you, Emperor Chu, this time. Otherwise, I would have been completely obliterated by the tower spirit possessed by this puppet."

The giant of light that Emperor Chu transformed into at this time returned to Ye Feng's mind, and then said aloud: "Take a look and see if you can refine this big pagoda now."

Ye Feng nodded at this moment, and then directly released the inheritance of ancient Buddhism and ancient magic that he had obtained before.

At this moment, golden Buddha power and black magic power surged out from Ye Feng's hands.

Then Ye Feng touched the wall of the surrounding Great Buddha Tower and directly began to refine the entire Great Buddha Tower.

At this moment, Ye Feng immediately felt the extremely powerful ancient power contained in the entire Great Buddha Tower, which gave people a very vicissitude and vastness.

It's like an ant standing in the endless ocean.

At this moment, Ye Feng felt the underlying power of this weapon, and Ye Feng immediately showed deep surprise in his eyes.

This Great Pagoda is indeed a super magic weapon left by the ancestors of the Murong family. The weapons in it are so powerful that Ye Feng feels a sense of insignificance.

At this moment, Ye Feng's eyes were filled with deep excitement, and he immediately began to concentrate on refining this big pagoda.

At this time, Ye Feng understood what Emperor Chu said. Whether it was the True Dragon Sky-Slashing Sword or the Dark Trident, they were far from being the opponent of the Great Buddha Tower.

In front of this kind of big pagoda, it is simply weak.

So at this time, Ye Feng gave full play to all his magic power and frantically refined the big pagoda.

This is a supreme super magic weapon that must be successfully refined.

As for whether he can be taken away from the Murong family, it is no longer something Ye Feng can consider.

At worst, I can give the Murong family some other things in exchange.

This Great Buddha Tower plays a vital role for Ye Feng.

Because Ye Feng currently lacks extremely powerful weapons and magic weapons.

If this Great Buddha Tower can be refined, then Ye Feng will be able to obtain a super powerful and terrifying weapon.

It will definitely have huge benefits for improving Ye Feng's overall strength.

At this moment, with Ye Feng's refining, Ye Feng could clearly feel that the connection between himself and the Great Buddha Tower was getting closer and closer.

Finally, at a certain moment, Ye Feng completely refined the big pagoda in front of him.

Then Ye Feng flew out directly from the inner space of the Great Buddha Tower.

At this moment, when Ye Feng flew out of the inner space of the Great Buddha Tower, he immediately saw everyone standing around, staring at him with wide eyes.

Whether it was the group of geniuses from the Murong family around them, or the eldest lady Murong Mingyue, or even Ye Feng saw the familiar figure of the elder Murong Shuangzhu, as well as several other old figures, they were probably from the Murong family. Elder-level figures among them.

At this time, their eyes were staring at him with deep horror.

Because Ye Feng successfully entered the highest level of this eighteen-story cultivation tower and did something that the Murong family had not been able to do for thousands of years.

At this moment, seeing Ye Feng flying out of the eighteen-story cultivation tower, Murong Mingyue immediately shouted excitedly to the sky: "Ye Feng, you have now found this eighteen-story cultivation tower. The biggest secret?"

When Ye Feng heard what Murong Mingyue said, he immediately smiled and said: "Yes, Miss Mingyue, your guess is very correct. This eighteen-story cultivation tower is not a building, but an ancient tower." It's a super magic weapon, and I have been recognized by the tower spirit, and I have successfully refined and controlled this big pagoda."

"What??"

After Ye Feng finished speaking, there was an uproar in the entire field.

Even Murong Jian, Murong Bai and Murong Ling, the top super geniuses of the Murong family, had deep astonishment in their eyes at this moment.

It seems that he did not expect that this eighteen-story cultivation tower passed down from ancient times is really a super magic weapon, not an ordinary building.

The First Elder, the Second Elder, and the Third Elder Murong Shuangzhu also widened their eyes slightly at this time. It seemed that Ye Feng had actually found the biggest secret of this eighteen-story cultivation tower, and wanted to control it. An eighteen-story cultivation tower.

At this moment, Ye Feng didn't hesitate and just stretched out his hand.

As Ye Feng stretched out his hand, the Great Buddha Tower, which had been refined by Ye Feng, rose directly from the ground.

Then it quickly shrank and became the size of a palm, and was held by Ye Feng in his hand.

"this....."

Seeing this scene, everyone in the audience fell into deep astonishment.

It seemed that Ye Feng really controlled this ancient super magic weapon and was not joking.

"How can this be??"

At this time, the most shocked person was probably the Great Elder.

Because the First Elder originally thought that Ye Feng was an outsider, and it was impossible to refine and control such an ancient super magic weapon of their Murong family.

But he never expected that Ye Feng would actually refine this big pagoda in the end.

Moreover, Ye Feng also said just now that he was recognized by the tower spirit.

This made the great elder even more shocked.

This shows that Ye Feng is qualified to get this big pagoda. ??

Of course, the great elder didn't know that Ye Feng's so-called recognition by the tower spirit meant that he had destroyed the tower spirit.

However, Ye Feng would not tell this matter, because his purpose was to convince everyone in the Murong family that he had truly obtained the recognition of the pagoda spirit of this big pagoda before he built this big pagoda. Control of the tower.

In other words, you want others to think that this tower recognizes you as the master, rather than forcibly refining it yourself.

As for the authenticity of what Ye Feng said, no one doubted it.

Because this Great Buddha Tower was passed down from the ancestors of their Murong family.

Among them, the pagoda spirit was trained by the ancestors of the Murong family and was loyal to the entire Murong family.

Ta Ling is willing to recognize Ye Feng as his master, so it's hard for others to say anything.

So at this time, even the Great Elder couldn't help but shake his head and sigh, feeling that this Great Buddha Tower was destined to belong to Ye Feng.

Ye Feng saw the scene in front of him at this moment, and suddenly felt secretly happy in his heart.

It seems that these old guys from the Murong family will not ask for the Great Pagoda.

At this moment, Ye Feng directly held the Great Buddha Tower in his hands, then flew down from the sky and flew in front of Murong Mingyue.

Murong Mingyue, the eldest lady of the Murong family, was obviously very excited at this moment, and it seemed that her guess was confirmed.

This eighteen-story cultivation tower is indeed a super magic weapon.

At this time, Murong Mingyue looked at the Big Buddha Tower in Ye Feng's hand. Although it was only the size of a palm, the aura it exuded was vast and vast. It was like an ancient giant in Ye Feng's hand. A very heavy and depressing feeling.

At this time, Murong Mingyue immediately couldn't help but said: "Ye Feng, can you lend me the use of this Big Buddha Tower? I want to feel the power of this super magic weapon left by our Murong family."

Ye Feng smiled generously at this time and said, "Of course."

After finishing speaking, Ye Feng directly handed the Great Buddha Tower to Murong Mingyue.

Seeing this scene, the first elder and the second elder standing aside wanted to say something, but in the end they sighed and said nothing more.

Seeing that Ye Feng had such a good relationship with the eldest lady of his family, he casually handed over this supreme magic weapon to Murong Mingyue, seemingly not afraid that Murong Mingyue would keep this super magic weapon.

It shows that the relationship between the two has reached an incredible level.

Seeing this scene, the First Elder and the Second Elder also acquiesced in handing over the Great Pagoda to Ye Feng.

Anyway, Ye Feng has such a good relationship with the eldest lady of the Murong family, and he will definitely help the Murong family in the future.

At this time, Murong Mingyue held the Great Buddha Tower in her hand and carefully sensed it. Her eyes were suddenly shocked, and then she said aloud: "The core origin of this Great Buddha Tower just gave me a very special moment. Powerful ancient heritage."

Hearing what Murong Mingyue said, Ye Feng suddenly had a look of surprise in his eyes.

It seems that he did not expect that there is an ancient inheritance hidden in this big pagoda.

But he didn't teach it to himself, probably because he is not from the Murong family.

The blood descendants of the clan.

But Murong Mingyue is.

At this moment, hearing what Murong Mingyue said, the first elder and the second elder standing aside, these two powerful elders of the Murong family, suddenly said excitedly: "What? Great! This must be It was the inheritance left by our ancestor of the Murong family in the Great Buddha Pagoda. Unexpectedly, it was directly passed on to the eldest lady. This is a great blessing. "

At this moment, Ye Feng was indirectly helping Murong Mingyue and the Murong family, obtaining the inheritance left by this ancestor in the Great Buddha Tower.

The First Elder and the Second Elder had less and less objections to Ye Feng getting the Great Buddha Tower.

Because an ancestor-level inheritance may be of greater significance and help to the Murong family than a super magic weapon like the Great Buddha Tower itself.

After all, the Murong family has been inherited for tens of thousands of years, and there is actually no shortage of powerful magic weapons.

But they still lack some ancestor-level inheritance.

Now Ye Feng has refined the Great Buddha Tower, indirectly allowing Murong Mingyue, the eldest lady of the Murong family, to obtain the peerless inheritance of the Great Buddha Tower. This can be regarded as providing the Murong family with a very powerful suppressor that can be passed down. family inheritance.

It will definitely have huge benefits for the improvement of the overall strength of the Murong family.

Because a simple big pagoda can only increase the strength of a strong member of the Murong family by a little at most.

But a peerless inheritance at the level of ancestors can cultivate a steady stream of super geniuses and super strong people for the Murong family in the future.

At this time, the first elder and the second elder even wanted to thank Ye Feng.

Because if Ye Feng had not been able to break into the highest level of the Great Buddha Tower and control and refine the Great Buddha Tower, Murong Mingyue would not have been able to obtain the peerless inheritance contained in the Great Buddha Tower.

At this moment, Murong Mingyue immediately began to comprehend on the spot with the Great Buddha Tower in his hand, as if he was accepting that set of peerless inheritance.

When the first elder and the second elder saw this scene, they immediately ordered around: "Everyone is on alert, protect the eldest lady, and accept this set of peerless inheritance. This set of peerless inheritance has incomparable significance to our Murong family. , After all, this is an ancestor-level inheritance, which may be more advanced and ancient than the inheritance of the town clan we currently control. "

Hearing the solemn words of the First Elder and the Second Elder, many of the younger generations of the Murong family around them became serious.

Everyone immediately surrounded Murong Mingyue and became alert.

Even the three top geniuses Murong Jian, Murong Bai and Murong Ling were all on guard at the same time, guarding Murong Mingyue.

Ye Feng stood beside him and saw this scene, with a trace of satisfaction in his eyes.

Although some young geniuses in the Murong family are quite arrogant, at critical moments, they still put the interests of the entire family first, which is still very good, and there will be no jealousy or malice.

At this moment, the toad jumped onto Ye Feng's shoulder from a short distance away.

The toad's little eyes stared at Ye Feng and said loudly: "I don't believe that you got the recognition of some tower spirit. I think you just killed the tower spirit."

Hearing what Toad said, Ye Feng immediately covered Toad's mouth and said in a low voice: "Don't talk nonsense, I have been officially recognized by the tower spirit and can control this big pagoda."

After finishing speaking, Ye Feng suddenly thought of something and couldn't help but ask: "By the way, Toad, you are an ancient divine beast. You have experienced a lot in the past and gained a lot of treasures. Is there anything in you that is very good?" With the inheritance at the soul level, I found that although my soul power is very large, there is no advanced soul level inheritance to help me exert the power of my soul power."

Chapter 4040 You deserve it

Hearing Ye Feng's question at this time, Toad immediately laughed out loud: "You kid really killed the tower spirit in the Great Buddha Tower. Otherwise, it would be impossible to ask such a question, are you?" I was defeated in the battle with the tower soul, so I thought about cultivating advanced inheritance at the soul level to enhance the power of my soul."

"Forehead....."

Hearing what the toad on his shoulder said, Ye Feng's eyes widened slightly. It seemed that he didn't expect the toad to be so smart, and he guessed it all at once.

Ye Feng didn't bother to hide anything about this. He said aloud: "Yes, this tower spirit wanted to rob me of the strongest bone in the world, the immortal bone of the gods, so I killed it and took control of this big pagoda."

At this time, Ye Feng and Toad were standing far away from the many Murong family members around them, so their conversation was not heard by those Murong family members.

Otherwise, Ye Feng probably wouldn't be able to get this big pagoda.

At this time, Ye Feng did not hesitate and continued to ask: "Toad, just tell me, do you have this kind of advanced inheritance that specializes in cultivating at the soul level?"

Toad scratched his head and said aloud: "I have encountered it before, but I don't cultivate souls myself, so I don't specifically store this kind of inheritance. But when I have time, I will take you to a mysterious place where you can find it. An advanced inheritance that specializes in cultivating soul power."

Hearing what Toad said, Ye Feng's eyes suddenly lit up and he couldn't help but said, "Where?"

"Soul Burial Mountain."

The toad spoke slowly and said a special name.

When Ye Feng heard what Toad was talking about, his eyes suddenly showed a hint of surprise.

Ye Feng could feel an ancient charm from Toad's tone.

It seems that this Soul Burial Mountain is definitely a very wonderful and magical place.

At this time, Ye Feng did not ask any more questions, but nodded and said loudly: "This time I returned to the Ye family. After handling everything, we set off to this Soul Burial Mountain to look for anything. There is no advanced inheritance at the soul level."

At this time, Ye Feng is still very eager to obtain the inheritance at the soul level.

Because Ye Feng did realize the shortcomings of his soul-level attacks during the battle with the tower spirit of the Great Buddha Tower.

Because although one's own soul power is very huge, without the inheritance at the soul level to release the power that soul power should have, it is a very disadvantageous thing.

It is like Ye Feng, who possesses such huge soul power in vain, but cannot explode its huge power.

At this time, while Ye Feng was discussing with Toad, Murong Mingyue not far away suddenly opened his eyes.

The eldest lady of the Murong family immediately couldn't help but said in surprise: "I have obtained all the secrets of the peerless inheritance left by my ancestors in this eighteen-story cultivation tower."

Hearing what Murong Mingyue said, all the Murong family members present had expressions of deep surprise on their faces.

Especially the eldest elder, a powerful elder of the Murong family, immediately came to Murong Mingyue, and then said very cautiously and expectantly: "Miss, you have obtained the ancestral treasure in this eighteen-story cultivation tower. All the mysteries of the peerless inheritance left behind, that's great, now you immediately follow me to the inheritance hall of our Murong family, and put this set of peerless inheritance imprints into the inheritance hall. In this case, you will definitely make a contribution to our Murong family. made a huge contribution."

Murong Mingyue immediately nodded.

As the eldest lady of the Murong family, she is naturally willing to share this unique set of inheritance and cultivate a steady stream of new blood for the future of the entire Murong family.

At this time, Murong Mingyue suddenly looked at Ye Feng, then handed the Great Buddha Tower in his hand to Ye Feng, and said loudly: "Ye Feng, go back and wait for me first, and wait for me to imprint this set of peerless inheritance on After entering the family inheritance palace, I will come to find you."

Ye Feng nodded, took the big pagoda in his hand, and then walked directly with Toad in a certain direction not far away, first staying at Murong Mingyue's residence, waiting for the Murong family to open them An ancient place of trial within the family.

But just when Ye Feng was about to turn around, Murong Jian suddenly walked towards Ye Feng, and then said loudly: "Brother Ye, I was too conceited before and didn't know how high the world was. Now I apologize for my rudeness." "

At this moment, Ye Feng looked at Murong Jian in front of him, who even took the initiative to apologize to himself, with a trace of surprise in his eyes.

It seems that he didn't expect that such an arrogant guy would take the initiative to apologize to others.

In response, Ye Feng just smiled faintly and didn't say much. Instead, he nodded and left the scene directly.

Looking at Ye Feng's leaving figure, Murong Jian couldn't help but shake his head. He originally thought that he was already the most powerful genius in the world, but when he saw Ye Feng, he suddenly felt that he still had many shortcomings. , compared with Ye Feng, he is still far behind.

Murong Bai and Murong Ling also passed by

Come, look at Murong Jian, and say aloud: "This time Ye Feng and the eldest lady will lead us into the ancient trial place within the family. Along the way, we can learn from Ye Feng and see how he How is your talent developed and cultivated?"

Murong Jian nodded immediately.

And at this moment.

Ye Feng hummed a little tune and returned to the place where Murong Mingyue lived, settling down temporarily.

Ye Feng is still in a very good mood now.

Because this time he not only obtained the Great Buddha Tower, a powerful super magic weapon of the Murong family from ancient times, but also convinced a group of young geniuses from the Murong family to convince themselves, which can save a lot of things in the future.

Ye Feng didn't waste any time at this time. He looked at the Great Buddha Tower in his hand and continued to input his own mana into it.

Because Ye Feng had only preliminarily refined the big pagoda just now.

Now Ye Feng has to successfully refine all of this Big Buddha Tower.

Only in this way can we fully master this Great Buddha Tower.

It has to be said that this Great Pagoda is indeed a super magic weapon left by the ancestors of the Murong family in a glorious era.

The weapons in it were very profound, making Ye Feng feel a vast and endless feeling when refining them.

At this time, Ye Feng inputted his huge mana and entered the Great Buddha Tower.

You must know that Ye Feng's current power has gradually transformed into the power of the gods of the Celestial Clan.

Therefore, Ye Feng's mana contains the advanced power of the ancient Celestial Clan, and it is very fast to refine this big pagoda.

Soon, Ye Feng completely refined the entire Great Buddha Tower.

At this time, Ye Feng also understood that the Great Buddha Tower indeed contained two completely different high-level powers.

They are the power of ancient Buddhism and the power of ancient demonism.

The power of Buddha and demon merged together to form this Great Buddha Tower, so the attack power is naturally very terrifying.

Just like back then, Ye Feng once tried to fuse water and fire, two completely different powers, and the result was an even more terrifying power.

Therefore, when the powers of Buddha and Demon are fused together, the destructive power that bursts out is naturally more terrifying.

At this time, Ye Feng put away the big pagoda and was very happy. The super magic weapon he got this time would definitely give him an unparalleled increase in combat power.

Next Ye Feng

While waiting for Murong Mingyue's return, he continued to practice the Nine Turns of Heavenly Dragon Art.

You know, currently Ye Feng has cultivated the Nine-Level Heavenly Dragon Art, but he has only reached the Second Level.

In other words, every time Ye Feng used the Nine Transformation Heavenly Dragon Technique, he could only condense two ancient heavenly dragons.

So Ye Feng continued to practice, hoping to cultivate the Nine-turn Tianlong Jue to the true Nine-turn Great Perfection as soon as possible.

After half a day, Ye Feng successfully advanced the practice of the Nine-Revolution Heavenly Dragon Art to the third level.

The next time Ye Feng uses the Nine Transformation Heavenly Dragon Technique, he can directly release three ancient heavenly dragons at once, which will definitely be much more powerful than the previous two ancient heavenly dragons.

At this time, Ye Feng suddenly sensed Murong Mingyue's aura coming over from outside.

It seems that Murong Mingyue has returned.

At this time, Ye Feng stood up and opened the door.

As expected, Murong Mingyue's beautiful figure appeared outside the door.

At this moment, Murong Mingyue had unstoppable joy on her face, and said aloud: "Ye Feng, this set of peerless inheritance left by my ancestors that I got this time was rated as the Murong family's by the elders in the inheritance hall. The most advanced inheritance at present, which means I have made great contributions to the Murong family this time."

At this time, Murong Mingyue said, her tone full of deep excitement.

Ye Feng could see that Murong Mingyue, the eldest lady of the Murong family, had a strong sense of identity and belonging to her family.

Therefore, he brought a set of the highest level of peerless inheritance to the Murong family, making this eldest lady feel that she had done something very meaningful, which naturally made her very happy.

This is a sense of pride that comes from within the family.

Ye Feng also smiled slightly at this, and said half-jokingly: "It seems that those elders of your Murong family will not take my Big Buddha Tower away."

Murong Mingyue immediately shook his head and said loudly: "Ye Feng, don't worry, although you got the Murong family's big pagoda this time, it is also because of you that this set of peerless inheritance left by our ancestors has been reborn. Appearing in the world, you have brought the most powerful clan inheritance to our Murong family. The old monsters in our Murong family's inheritance hall even want to reward you. "

When she said this, Murong Mingyue suddenly seemed to have thought of something. She immediately stretched out a white finger, touched Ye Feng's eyebrows, and said loudly: "Ye Feng, this trick is unparalleled." The inheritance is by far the most advanced and powerful inheritance of our Murong family. I will pass it on to you privately. Don't tell anyone else. This is what you deserve."
