

Ancient 4051

Chapter 4051 One light and one dark

"Rumble..."

At this time, as Ye Feng swallowed, huge amounts of blood energy were immediately injected into his Dantian.

You must know that what Ye Feng has devoured at this moment are all powerful demons from the eighth level or even the ninth level of intermediate masters.

These powerful demons are originally creatures in the realm of advanced cultivation.

Therefore, the blood energy hidden in their bodies is naturally more surging and powerful.

So at this time, after Ye Feng withstood these dozen or so powerful demon clansmen, he could immediately feel that his power was growing at an incredible speed.

Moreover, Ye Feng has accumulated a lot of skills before. .???.??

boom! !

So at this moment, Ye Feng suddenly burst out with a terrifying aura of cultivation.

That's the momentum of a breakthrough!

The bottleneck of Ye Feng's half-step mid-level dominance was finally completely broken through the powerful blood energy of these dozen powerful Heavenly Demon clan men.

It is a direct breakthrough from the half-step intermediate dominance to the first level of the real intermediate dominance!

"Finally a breakthrough..."

At this time, Ye Feng couldn't help but murmured, with deep joy in his tone.

At this time, Ye Feng clenched his fists and felt infinite terrifying energy surging through his entire body.

At this time, Ye Feng finally felt that the intermediate master was indeed a more powerful realm, much more powerful than he knew before.

However, Ye Feng also knows that just because he has entered the first level of the Intermediate Dominator, it does not mean that he is unscrupulous.

In this dark cave, there are still more powerful Heavenly Demons surviving, so you still need to be very careful.

However, Ye Feng finally broke through to the first level of true intermediate dominance, and his combat power was many times stronger than before.

However, Ye Feng also knows that the realm of intermediate domination has a total of fifty levels, which is quite special.

So next, I need to find more energy and resources to quickly improve myself.

Murong Jian and Murong Mingyue, who were standing aside, also sensed the powerful cultivation aura of Ye Feng at this moment, and their eyes suddenly showed deep joy.

They quickly congratulated and said: "Ye Feng, great, you have broken through to a real intermediate master. If you do this, we will be safer in the future."

Ye Feng nodded slightly and said, "Let's continue into the deepest part of this dark cave and see if there are any other extremely powerful demons."

But just after Ye Feng finished speaking, Murong Jian seemed to have seen something, and immediately said loudly: "Look, there is a demon clan

There is a black storage ring on the strong man's finger. If you don't look carefully, you can't see it.
"

At this time, Murong Jian ran over and took off the storage ring from the finger of a strong man from the Heavenly Demon Clan who had been sucked dry.

Buzz!

Then he opened the storage space in the storage ring.

There was actually a lot of black ore inside, exuding a dark aura and power.

In addition, there is a map in this storage ring.

There are many red dots marked on this map, which seems to be the topographic map of the entire dark cave.

Murong Mingyue looked over and couldn't help but said with some confusion: "What do these marked red dots mean?"

At this moment, Ye Feng glanced at the black ore in the storage ring, and suddenly said: "Perhaps these marked red dots are the places where these ores were mined. The dozen demon clan strongmen just now The reason why I'm here is to mine the veins of dark ore nearby."

Murong Jian couldn't help but said: "So, there are a lot of dark ores in this dark cave."

When he said this, Murong Mingyue, who was standing next to him, suddenly said: "But the dark energy contained in these dark ores seems to be very weak. Even if it is absorbed, it will not be of much use. They dig these What's the dark ore for?"

Murong Jian stared at the black rock ores at this time, and suddenly thought of something, and immediately couldn't help but said in horror: "These dark ores seem to be a material for casting ancient demon formations. I once worked in the family I have seen records about this in an ancient book. Although there is not much dark energy in these dark ores, because these dark ores are not used by practitioners for cultivation, but are used to cast a very special kind of energy. The ore of the special demon formation is a very special teleportation formation."

"The demon's teleportation formation?"

At this moment, there was a trace of surprise in Ye Feng's eyes, and he said speculatively: "These powerful demon clan experts were sent everywhere in this dark cave to dig out these dark ores for the purpose of casting them. An ancient demon teleportation formation, intended to be used to connect the ancient demon world with this small world. "

Hearing what Ye Feng said, Murong Mingyue also showed deep surprise in her eyes, and said loudly: "If you say that, the blue-blooded human race in the space battleship before may not know that there are actually people here. Many powerful Heavenly Demons are secretly digging various dark ores to build an ancient Demonic teleportation array to connect to the advanced cultivation interface of the Ancient Heavenly Demon Realm."

Murong Jian nodded and said: "

The blue-blood human probably thought that there was only one entrance to this small world connected to the ancient demon world, so he was working hard to repair the space warship and wanted to destroy the demon king at the only entrance. But what he didn't know was that there was still a part of him there. The strong men of the Demon Clan in this small world are secretly digging for this dark ore, hoping to cast another teleportation formation and attract the super strong men of the Demon Clan in the ancient Demon World. "

Ye Feng nodded at this time and said aloud: "I think the situation is probably like this. The ancient demon world wants to enter this small world and come to the big world of origin. It has thought of two ways. The first way is to send An extremely powerful Heavenly Demon King from the Heavenly Demon Tribe attacked the entrance seal that had been handed down from ancient times. However, the entrance seal was suppressed by the blue-blooded humans in the universe and the stars with the Ancient Nine Suns Diagram. And now There are also blue-blooded humans who are repairing the space warship and want to destroy the demon king who attacks the ancient seal entrance. Therefore, the big figures in the demon world feel that this method may not succeed, so they secretly think of another method, that It is to allow many other demons who have survived in this small world to secretly dig various dark ores in this dark cave to cast an extremely ancient demon teleportation array to guide the ancient demon world. The truly powerful supernatural beings among them."

Hearing what Ye Feng said, Murong Mingyue nodded, with a very solemn face, and said loudly: "This should be the situation. The ancient demon world wanted to come to this small world, and they thought of two ways, one bright and one dark. Fortunately, We discovered this by accident,

otherwise, I am afraid that this small world will become a battle ground for the entire Demon Clan, and our Murong family will also face another crisis of genocide. "

Murong Jian said very urgently at this time: "One light and one dark, the demons are too insidious these days. In that case, we must hurry up to prevent this from happening. We will go directly to the deepest part of this dark cave to destroy That ancient demon teleportation formation is being built."

Ye Feng shook his head at this time and said loudly: "It is definitely an unwise choice for us to rush over rashly now."

Murong Mingyue also nodded and said: "Ye Feng is right, because we still don't know how powerful the Heavenly Demon Clan is in the deepest part of this dark cave. If the deepest part of this dark cave, The powerful Heavenly Demons who are forging the Demonic Teleportation Formation are all very powerful and terrifying. We can only die if we go there."

Murong Jian immediately said with some urgency: "Then what should we do now? Are we just going to watch all this happen? In this small world, we can't contact the elders and strong men of our Murong family. We can only rely on Our own strength."

Ye Feng thought for a moment, and then said aloud: "Murong Mingyue and Murong Jian, you two are weaker than me, and you

You do not have the power of the void, so you are a little behind in lurking. You two will follow the mine locations of the dark ores marked on this map and go to these vein locations to kill the demons who are mining. Stop them from carrying the dark ore, and I will go directly to the deepest part of this dark cave to see how far the demon teleportation array has been cast. "

Hearing what Ye Feng said, Murong Jian immediately shook his head and said: "In the depths of the dark cave, we don't know how terrifying the demon clan exists. Ye Feng, it is absolutely very dangerous for you to go alone. This Absolutely not."

Ye Feng shook his head and said with a smile: "Don't worry, I have the power of the void. No one can find me while lurking, and if I am really discovered, I can definitely blend in with those demons." "

After finishing speaking, before Murong Jian could say anything, Ye Feng suddenly used his power to transform himself, the source and breath of his entire life, into the breath of the Demon Clan.

Buzz!

At this moment, Ye Feng's body suddenly emitted dark demonic energy, and he directly turned into a demon clan with strong demonic energy.

Even the eyes glowed with scarlet light.

All of a sudden, he changed from a human being to a demon.

"What? Ye Feng, you..."

This huge change really made Murong Jian and Murong Mingyue in front of them reveal deep horror in their eyes.

Even Murong Mingyue, who had been with Ye Feng for a long time, never thought that Ye Feng had such magical means of transformation.

Looking at Ye Feng in front of him, who was completely no different from the Demon Clan, Murong Jian couldn't help but exclaimed in amazement again: "Ye Feng, you are really amazing, I feel like I have been shocked for the rest of my life. , it's all used up by you."

Murong Mingyue couldn't help but said in shock: "I thought that after being together for so long, I would have seen all of Ye Feng's various methods. I didn't expect that you also have such a perfect transformation technique. It's really... It's so unbelievable, I feel like there is a real demon in front of me, not a human race at all."

Ye Feng smiled at this time and said: "So it is best for me to go to the depths of the dark cave alone. Let's explore the situation first, and then we can split up."

After hearing what Ye Feng said, Murong Mingyue and Murong Jian no longer had any worries and nodded immediately.

They directly followed the map in their hands and went to the location of each dark ore vein to prevent the demons from carrying the dark ore.

Ye Feng, on the other hand, disguised himself as a demon and quickly lurked towards the deepest part of the dark cave where the ancient demon teleportation formation was built.

Chapter 4052 Almost Completed

Swish, swish, swish!

At this time, Ye Feng disguised himself as a demon with a strong demonic aura and lurked directly towards the depths of this dark cave.

For Ye Feng, now that he has disguised himself as the aura of the Demon Clan, Ye Feng is not so afraid.

Even if there is really a very powerful transcendent existence of the demon clan deep in this dark cave, it should not be discovered by his disguise.

And even if his disguise is seen through, Ye Feng has practiced the inheritance of the Void God Emperor in the ancient glorious era, and has cultivated the power of the Void.

With the speed of Ye Feng's Void Divine Power, even a particularly powerful Heavenly Demon Tribe might not be able to catch up with Ye Feng.

At this moment, Ye Feng accelerated his speed without any hesitation and flew quickly towards the depths of this dark cave.

Finally, half an hour later, Ye Feng reached the deepest part of this dark cave.

An extremely desolate land appeared here.

But on this desolate land, buildings unexpectedly appeared.

The people living in these buildings are actually all creatures of the demon clan from the ancient demon world in the advanced cultivation interface.

"That is....."

At this time, Ye Feng's eyes suddenly showed a shocked expression.

Because he saw that in the center of the desolate land ahead, a super large demon formation was built.

This demon formation is as majestic and majestic as the ancient mountains.

It looks very majestic.

At this moment, Ye Feng was horrified to discover that this ancient super-large demon teleportation formation was almost completed.

Only the last part of the dark ore is needed to completely complete this super large demon formation.

Seeing this, Ye Feng suddenly felt a thump in his heart.

It seemed that there was no point for Murong Mingyue and Murong Jian to stop the many demon clans who were mining in the dark cave and prevent them from carrying ore here.

Because this super large demon teleportation formation is almost completed and we can't wait any longer.

Ye Feng murmured at this time, "There is no point in waiting for Murong Mingyue and Murong Jian to arrive now. It seems that I still need to take action myself."

At this time, Ye Feng murmured with a determined look in his eyes. He must not let this super large demon teleportation formation be completed.

Otherwise, the transcendent beings among the demon clan will be led into this dark cave by this super large teleportation array.

At that time, the whole small world will be plunged into chaos.

And it can also invade the entire origin world.

Ye Feng would naturally not let this happen.

Because now Murong Mingyue is his good friend.

Moreover, the Murong family treats me quite well.

Not only did he give himself a lot of opportunities, but he also

Gave himself the Great Stupa.

Therefore, Ye Feng felt that if there was a chance, he would still destroy this demon teleportation formation.

At this moment, Ye Feng disguised himself as a demon and lurked in the surrounding open space.

He saw a lot of demons who were quickly building a super-large demon teleportation array and wanted to complete it as soon as possible.

Ye Feng knew at this time that it seemed that he had to approach the super large demon teleportation array in person to destroy it.

Ye Feng already has his own plan in mind.

That is, he disguises himself as a demon and approaches that super-large demon formation.

Then find a way to sneakily destroy this teleportation formation.

Then he took advantage of the chaos and escaped.

However, Ye Feng sensed at this time that in the deepest core area of this dark cave, there was a very terrifying aura of the cultivation of the demon clan.

Ye Feng has now sensed that there are not only superpowers here who dominate the 20th and 30th floors at the intermediate level.

There is even the cultivation aura of a high-level master!

After sensing all this, Ye Feng couldn't help but feel a sense of crisis in his heart.

If you destroy this super-large demon teleportation formation, you will probably be targeted by those terrifying demons in an instant.

I don't know if I can escape then.

But Ye Feng felt that he should give it a try.

Otherwise, it would be terrible if this super large demon teleportation formation was really completed.

At this time, Ye Feng firmed up his inner plan and without any hesitation, he quickly flew towards the super-large demon teleportation formation in the core area.

There are many heavenly demon guards guarding this super large demon teleportation formation.

However, Ye Feng is now disguised as a demon, and he also pulled a car with a lot of dark ore on it.

Ye Feng is now disguised as a miner from the Demon Clan, carrying these dark ores into the traditional formation of the super large Demon Clan.

So along the way, Ye Feng passed various inspections and finally came to this super large demon teleportation formation.

At this time, Ye Feng was piling the dark ores he had transported on top of this super large demon teleportation formation, while thinking about how to destroy this formation.

Ye Feng secretly tried the hardness of these dark ores and found that his own strength could not damage the ores of this super large demon formation.

Therefore, it is probably not feasible to attack by force.

At this time, Ye Feng suddenly thought of his devouring ability.

You know, the dark ore that cast this super-large demon teleportation formation, among which

Dark energy is not so powerful.

Therefore, Ye Feng felt that if he used his devouring ability, he might be able to quickly drain all the energy of the dark ore in this super-large demon teleportation array.

In this case, this super-large demon inheritance formation will lose the dark energy in the dark ore and may become ineffective.

Thinking of this at this time, Ye Feng immediately decided to do this without any hesitation and no longer wasting time.

At this time, Ye Feng directly stretched out his hand and touched the super large demon teleportation formation in front of him.

This super large demon teleportation formation is as towering and majestic as an ancient mountain.

But the Devouring Domain released by Ye Feng at this time was also absorbed very quickly.

At this moment, Ye Feng could immediately feel that a stream of very dark energy was immediately absorbed by him from this super large demon teleportation array.

Perhaps these days, the Demon Tribe has never thought that a human race could disguise itself as one of their Heavenly Demon Clan, and also has the ability to absorb dark attribute power, and can absorb the energy of this super-large Demon Tribe's teleportation formation. energy of.

So at this time, Ye Feng absorbing the energy in this formation will not attract the attention of any demon clan.

Because Ye Feng was not forcibly destroying this super large demon teleportation formation.

Instead, it is draining the core energy of this super-large demon teleportation formation.

So for a while, no powerful person from the Demon Clan could notice all this.

Ye Feng slowly absorbed it, and suddenly found that the core energy in this super large demon teleportation formation was actually very majestic.

Murong Mingyue has already investigated before and found that the dark energy in these dark ores is very rare, and it is of no use at all when used for cultivation.

But this super-large demon teleportation array was built with countless dark ores in a special way, so it produced very majestic core energy.

Ye Feng absorbed the core energy of this formation and could immediately feel that his cultivation skills were improving at an incredible speed.

At this moment, Ye Feng's skill and cultivation level immediately began to skyrocket.

"boom!"

Intermediate dominates the second level!

"boom!"

Intermediate dominates the third level!

"boom!"

Intermediate dominates the fourth floor!

"boom!"

Intermediate dominates the fifth floor!

"boom!"

Intermediate dominates the sixth floor!

"boom!"

Intermediate dominates the seventh floor!

Boom boom boom...

Boom boom boom...

...

"boom!"

Intermediate dominates the 16th floor! !

With the continuous devouring, even Ye Feng did not expect that the core energy in this super-large demon teleportation formation would directly increase his cultivation level to the sixteenth level of the Intermediate Dominator.

Suddenly it was promoted to a full fifteenth level!

From the first level of Intermediate Domination, he directly accumulated and broke through to the sixteenth level of Intermediate Domination!

This made Ye Feng's eyes suddenly show deep excitement.

I didn't expect that the core energy in this super-large demon teleportation formation would suddenly increase my skill so much.

His cultivation level has simply skyrocketed!

At this time, Ye Feng's continuous breakthroughs in cultivation were suppressed by Ye Feng, but the subtle fluctuations finally attracted the attention of many powerful people among the Demon Clan.

Swish, swish, swish!

Swish, swish, swish!

At this moment, a dozen strong men from the Demon Tribe wearing black armor flew over not far away.

The cultivation auras on their bodies were all impressively from the 20th level of the Intermediate Dominator, and there were even powerful beings at the 25th, and even the 30th level.

These are obviously the core members of the powerful Heavenly Demon Clan.

They suddenly arrived in front of Ye Feng and said coldly: "How could you, a little absentee from work, achieve such a breakthrough in cultivation so quickly? What on earth are you doing?"

At this time, Ye Feng heard what these dozen or so powerful men from the Heavenly Demon Tribe said, but he hadn't said anything yet.

Click, click...

Suddenly, cracks appeared on the surface of the entire super-large demon teleportation formation behind Ye Feng.

Then part of the foundation of the demon formation collapsed all of a sudden.

Boom!

Next, as if it caused a chain reaction, under the horrified eyes of countless powerful demon clansmen, the super-large traditional demon clan formation that they had worked so hard for hundreds of years to build was completely destroyed. All of a sudden everything collapsed.

"What??"

"How is this going??"

"Our hard work! It's just wasted!!"

At this moment, countless demons noticed the collapsed super-large demon formation here.

The numerous demon clans were suddenly frightened and angry to the extreme.

The dozen or so core members of the powerful Heavenly Demon Clan who surrounded Ye Feng and dominated the 20th and 30th floors immediately stared at Ye Feng in front of him in shock and anger, and yelled angrily: "It must be you, kid. ! Stealing the core energy of this demon formation! No wonder your cultivation aura breaks through so quickly. This is a heinous crime and you must die!"

At this moment, more than a dozen extremely powerful core members of the Demon Tribe rushed towards Ye Feng with murderous intent, trying to kill Ye Feng instantly!

Chapter 4053 Fighting with you

Boom! !

At this time, there are more than a dozen extremely powerful core members of the Demon Clan, and their cultivation auras are all on the 20th level of the Intermediate Dominator, and there are even existences on the 30th level.

They all burst out with terrifying cultivation power, their demonic energy soaring into the sky, and they rushed towards Ye Feng, with deep killing and angry expressions on their faces.

Because they knew that it was Ye Feng, a small miner, who stole all the core energy from this super-large demon teleportation formation and used it to enhance his own power.

That's why the entire formation collapsed.

All of their hard work for hundreds of years was destroyed in one fell swoop.

So at this time, more than a dozen core strong men of the Demon Clan naturally charged towards Ye Feng crazily, intending to kill Ye Feng, a small miner, in an instant and take revenge.

But at this time, Ye Feng's cultivation level had been improved unparalleledly just now.

Directly promoted to the fifteenth floor, entering the sixteenth floor of the Intermediate Dominator.

Therefore, Ye Feng is naturally not afraid of these mid-level masters who are on the 20th or 30th floor.

"Since you want to kill me, then I will just kill you too!"

boom! !

At this moment, Ye Feng didn't hesitate at all, and directly unleashed his most terrifying magic power.

You know, Ye Feng's magic power is much deeper and more powerful than ordinary beings of the same realm.

So at this time, Ye Feng directly burst out his powerful magic power.

Then he directly used the extremely powerful inheritance he had learned before, the Demon Dance.

At this moment, very terrifying phantoms of the demons suddenly appeared around Ye Feng, charging crazily towards the dozen or so core strong men of the demon clan who were rushing over.

The next moment, the phantoms of the demons that appeared on Ye Feng were so terrifying that they directly bombarded the dozen or so powerful demons and flew them away.

"What??"

"How can this be??"

Sensing Ye Feng's terrifying attack power, the dozen or so core experts of the Demon Clan in front of them all widened their eyes and opened their mouths for a moment, obviously extremely shocked.

They seemed to have never imagined that Ye Feng, a small miner, could actually unleash such a terrifying attack.

The combined efforts of more than a dozen of them, the core experts of the Demon Tribe, were directly repelled.

"This kid is so weird! He must not be a creature of our Demon Clan!"

"That's right! This kid must be disguised as another race, otherwise he wouldn't be so powerful."

At this time, the core strongman of the Youtian Demon Clan guessed this and immediately shouted: "Let's join forces and use the joint attack technique to trap this kid. Even if we can't kill him, we must trap him, and then ask a companion to inform the Lord of the Dark Crypt, Lord Demon Commander."

After finishing speaking, more than a dozen of the demon core experts immediately began to chant a very ancient spell.

This seems to be a special feature of the Demon Clan

Some spells.

The moment they started chanting this incantation, their bodies suddenly released black light.

Buzz!

Buzz!

These black rays of light burst out from each of the core experts of the Heavenly Demon Clan, directly condensing into a huge dark Heavenly Demon giant high in the sky.

This dark demon giant is as terrifying as an ancient giant. It is very towering and exudes a vast and vast aura.

It feels like the ancient dark gods have descended, bringing the entire world into endless darkness.

At this moment, the dark demon giant flew in front of Ye Feng.

Then he directly stretched out a big hand that covered the sky and the sun, and wanted to directly obliterate Ye Feng's entire body.

But at this moment, Ye Feng didn't hesitate at all and immediately used his most powerful super magic weapon, the Great Buddha Tower.

Ye Feng poured his powerful mana into the Great Pagoda.

Buzz!

I saw the Great Pagoda, which suddenly began to expand rapidly and became very majestic. It suddenly turned into a giant tower with a height of tens of thousands of meters, full of the power of Buddha and demon.

In fact, around the Great Buddha Tower, the phantoms of the ancient Buddha and the ancient demon god appeared.

It feels both sacred and dark.

The Great Buddha Pagoda, where the Buddha and the devil manifested together, was huge and majestic, like the Cangshan Mountain. It directly collided with the huge dark demon giant.

Boom! !

The entire field suddenly heard a huge roar.

As a result, the next moment, the Great Buddha Tower was still very terrifying, and it directly smashed the dark demon giant into pieces.

"ah!"

"ah!"

"ah!"

Then the next moment, screams erupted from the entire field.

The dozen or so core experts of the Heavenly Demon Clan and the dark Heavenly Demon Giant they condensed are obviously related to each other.

So this dark demon giant was blown to pieces by the Great Buddha Tower, which Ye Feng had inputted all his mana into.

The dozen or so core members of the Demon Clan all of a sudden spat out a mouthful of blood, and their aura suddenly collapsed.

Their eyes were fixed on Ye Feng, and they were full of deep disbelief.

It seems that he never expected that Ye Feng, a young boy who didn't know where he came from, would have such terrifying fighting power. It was really difficult to understand how this kind of power was generated.

Because Ye Feng's cultivation level is indeed many levels lower than them.

But the fighting power that broke out was terrifying.

Terrible.

At this time, Ye Feng did not waste any time and directly used the Nine Turns of Heavenly Dragon Technique that he had learned before.

"hold head high!"

"hold head high!"

"hold head high!"

Along with a dragon roar, three golden dragons flew out from Ye Feng's body.

It is an energy dragon condensed by Ye Feng's magic power, but it really has the true majesty and power of the ancient dragon.

Although the golden dragon was formed by condensing mana, it was almost as real as it was majestic and boundless, sweeping across all directions and making the entire void shatter.

The dozen or so core experts of the Demon Tribe who were exhausted were almost unable to withstand Ye Feng's terrifying martial arts inheritance attack, and were killed one by one.

At this moment, Ye Feng immediately stretched out his hand and put the corpses of more than a dozen core experts of the Demon Clan into his storage ring.

Then Ye Feng stopped when he saw that he was ready, and immediately escaped from here quickly.

Because Ye Feng had sensed before that there was an extremely terrifying high-level master in the deepest part of this dark cave.

That is an extremely powerful existence.

Ye Feng is simply unable to deal with it now.

Even though Ye Feng's previous cultivation had improved a lot, he was still unable to deal with the high-level master.

So at this time, since he had destroyed the super large teleportation formation and killed and collected the bodies of more than a dozen core strong men of the Demon Clan, Ye Feng had already made a lot of money.

Naturally, I'll give it up as soon as it's good.

I want to leave here immediately.

But suddenly at this moment.

Deep in the dark basement, a majestic voice sounded:

"Human boy, you are so brave. You dare to disguise yourself as our demon clan and lurk here, destroying our hundreds of years of hard work and making all our hard work go to waste. I will definitely arrest you today, but I won't kill you, but I will make you die of endless torture and pain, so that I can relieve the hatred in my heart!"

Buzz!

At this moment, the moment this majestic voice finished speaking, a terrifying aura immediately covered the entire dark cave.

That is exactly the cultivation aura of the high-level master.

And it's not an ordinary high-level master.

It is very likely that it is a profound existence among high-level masters.

Because the realm of high-level master is very special, but it has a hundred levels of small levels.

So at this time, Ye Feng sensed this aura and immediately felt a little creepy all over his body.

Ye Feng immediately understood that the master of the cave, the commander of the demons mentioned by the dozen or so core experts of the demon clan just now, was probably not an ordinary high-level master.

Because if it was just an ordinary high-level master, such as the second or third level of high-level masters, Ye Feng might still be able to fight with it.

But the kind of feeling that Ye Feng sensed at this time

The terrifying and majestic aura that covers the world is definitely a profound existence among high-level masters.

It is very likely that it is an existence on the twentieth, or even the thirtieth or forty levels among the senior masters.

Ye Feng naturally cannot be his opponent for such a super powerful demon leader.

Uh-huh!

Therefore, Ye Feng did not hesitate at this time and immediately activated the power of the void. He lurked directly into the void and rushed outside crazily.

Moreover, Ye Feng did not look for Murong Mingyue and Murong Jian on the road.

Because it will only bring disaster to both of them.

Ye Feng can only escape alone now.

Boom!

But just when Ye Feng escaped from the dark cave, the entire ground suddenly collapsed.

An extremely dark claw rose up in an instant, directly covering Ye Feng's head and hitting Ye Feng's body fiercely.

This is the claw of the demon leader, full of terrifying and monstrous power.

With this attack, Ye Feng suddenly felt that his whole body was about to shatter.

However, although Ye Feng's flesh and blood was broken a lot, his bones were very strong.

Because Ye Feng's bones are the strongest in the world, they will not be damaged in any way.

So Ye Feng saved his life.

"Buzz!"

At this moment, Ye Feng continued to use the power of the void, dragging his broken body and fleeing crazily in a certain direction outside the dark cave.

The direction Ye Feng fled was actually the direction where the blue-blooded humans were repairing the space warship.

Because Ye Feng wanted to use the power of the blue-blooded human race's space warship to deal with this demon leader.

The only powerful helper Ye Feng can think of now is this blue-blooded human.

So at this time Ye Feng wanted to escape from here quickly.

But what made Ye Feng's eyes look ugly was that the demon leader in the dark cave was so terrifying that he turned into a dark mist that covered the sky and sun, chasing after him, covering the entire Tian Qiong could not escape from the pursuit range of this demon commander.

This made Ye Feng's heart suddenly sink.

It is estimated that before he could reach the place where the blue-blooded human race was, he had already been wiped out by the demon leader.

After all, the devil's claw stretched out by the demon commander just now made Ye Feng deeply aware of how terrifying the attack power of this demon commander was.

At this time, Ye Feng's heart suddenly turned violent, his eyes became fierce, and he immediately began to absorb the power of the dozens of corpses of the core strong men of the Demon Tribe that were previously contained in the storage ring.

Ye Feng immediately yelled: "Since you are forcing me like this, then I will fight you to the death!"

What Ye Feng wants to do at this moment is to absorb all the energy of the dozen or so core experts of the Demon Clan, see what level he can break through to, and then engage in a deadly battle with this Demon Leader. !

Chapter 4054 Helpless

"Boom!"

At this time, Ye Feng released the Devouring Domain and directly began to devour the blood and energy of the dozen or so core powerhouses of the Demon Tribe contained in his storage ring.

The cultivation bases of the dozen or so core warriors of the Demon Tribe that Ye Feng killed before were still very powerful.

All of them are existences at the 20th, 30th or 40th level of intermediate masters.

Therefore, the blood energy provided by a dozen core strong men of the Demon Tribe is naturally very powerful.

Ye Feng's skill immediately improved rapidly at this moment.

Swish, swish, swish!

At this moment, Ye Feng was running away while quickly absorbing the blood energy of more than a dozen core strong men of the Demon Clan, using it to increase his own skills and break through his own cultivation.

At this moment, Ye Feng's cultivation level immediately began to improve rapidly and continuously.

"boom!"

Intermediate dominates the seventeenth floor!

"boom!"

Intermediate dominates the 18th floor!

"boom!"

Intermediate dominates the 19th floor!

"boom!"

Intermediate domination of the twentieth floor!

"boom!"

Intermediate domination of the twenty-first floor!

"boom!"

...

...

"boom!"

Intermediate dominates the 30th floor! !

At this time, Ye Feng's cultivation level suddenly increased by more than ten levels, making Ye Feng's eyes show deep excitement.

Unexpectedly, these dozen core experts from the Demon Tribe could improve their skills so much all at once.

At this time, Ye Feng no longer hesitated, and directly burst out the terrifying cultivation aura of the thirtieth level of his intermediate master. He turned around and looked at the demon commander who was chasing behind him.

Buzz!

At this time, Ye Feng's body was exuding an extremely bright divine light, and he was directly facing the surging black mist behind him.

The majestic black mist shrouded the entire world, blocking out the sky and the sun. It was very powerful, very majestic, and extremely depressing.

But at this time, Ye Feng could no longer escape.

In the black mist that filled the sky, a majestic voice suddenly sounded.

It was exactly what the demon commander said.

When the demon commander saw Ye Feng, he stopped running away and stood there, facing himself, the demon commander.

He immediately made a sarcastic voice and said, "Boy, who gave you the courage to face me directly?"

There was no fear on Ye Feng's face at this time.

Although this demon leader is very powerful and a profound existence among high-level masters.

But Ye Feng felt that his cultivation had improved so much now, and there was no way to escape, so he might as well have a deadly battle with this demon leader.

Maybe he can win.

Even if you can't win

, but also to seriously injure this demon commander.

At this time, Ye Feng immediately said coldly: "Commander of the Demon, you are indeed very powerful, and your cultivation is much higher than mine, but I am not a vegetarian either."

Boom! !

At this moment, after Ye Feng finished speaking, he immediately burst out his Nine-turn Tianlong Jue.

boom! boom! boom!

The next moment, golden dragons burst out from Ye Feng's body, directly bombarding the dark mist ahead.

Rumble...

The golden dragon has extremely terrifying attacks, not to mention that Ye Feng's current cultivation level has improved a lot.

Therefore, the power of these golden dragons became even more powerful, and they collided crazily with the dark mist in the entire high altitude.

Finally, the endless dark mist shrank rapidly, and then condensed into the figure of a tall and majestic middle-aged man.

This tall and stalwart middle-aged man was dressed in jet black armor, holding a jet black sword in his hand, and a helmet on his head. His eyes were glowing red, and he looked very terrifying. momentum.

Just like the demon war god from an ancient era.

This is the Lord of the Dark Crypt.

That is, the leader of the demons among the demon clan.

It is a profound existence at the advanced master level, very powerful.

At this moment, the demon commander stared at Ye Feng in front of him, smiled coldly and said: "Good boy, I didn't expect that your cultivation level has improved so much all of a sudden. It seems that you have some kind of secret skill. , can stimulate your potential in a short period of time and improve your cultivation by a lot. "

Apparently, Ye Feng secretly devoured the skills of more than a dozen core demon warriors and improved his cultivation level. The demon leader mistakenly thought that he was running some secret technique, so he forcibly improved his cultivation level.

But at this moment, Ye Feng was too lazy to explain anything, but he was full of fighting spirit, and there was a divine light in his eyes, and he said loudly: "Today I will fight you to the death. If you force me to have no way to escape, then I will die." , I will drag you to hell!"

Boom!

At this moment, Ye Feng did not hesitate and directly released the power of the Great Buddha Tower.

Ye Feng poured his powerful mana into the Great Buddha Tower in his hand.

Buzz!

Buzz!

Then, an ancient Buddha and an ancient demon god rushed out from the Great Buddha Tower.

Buddha, exuding bright golden light, is extremely sacred.

As for the ancient demon god, it was pitch black, giving people a feeling of boundless darkness.

At this time, behind the large pagoda suspended above Ye Feng's head, there were an ancient Buddha and an ancient demon god floating respectively. They were directly attacking the demon leader in front, with very terrifying attack power.

At this moment, he saw the big pagoda above Ye Feng, looking towards

He rushed over himself.

The demon commander still seemed to be very disdainful.

He directly raised the long black sword in his hand and shouted: "Boy, let me show you the true power. The magic sword can destroy all living beings!"

Boom!

At this moment, the demon leader seemed to have launched a very powerful inheritance among the demon clan.

The long black sword in his hand immediately expanded rapidly.

Then it turned directly into a black sword that was tens of thousands of meters long. It exuded a terrifying demonic energy and slashed towards Ye Feng in an instant.

Boom! !

The tens of thousands of meters long dark magic sword suddenly hit the Great Pagoda above Ye Feng's head, directly cutting off the Great Pagoda and starting to shake it.

But at this moment, the ancient Buddha and the ancient demon god who appeared behind the Great Buddha Tower immediately stretched out their hands to support the tens of thousands of meters long dark sword.

Then Ye Feng didn't hesitate at all, and directly burst out the power of the gods in his fists, and blasted forward fiercely.

At this moment, incomparable bright golden light burst out from Ye Feng's two fists.

His fists were as if they were made of god-level gold. They were strong and powerful. They seemed to be able to smash everything into pieces. They hit the demon leader fiercely in one fell swoop.

Click! Click...

At this moment, the pitch-black armor worn by the Demon Commander was unable to withstand the power of the God in Ye Feng's fists.

Every inch was shattered by the golden energy.

Then the terrifying impact force directly hit the body of the demon leader.

The face of the demon commander suddenly changed.

All of a sudden it was a crazy retreat.

There was even a trace of blood spilling from the corner of his mouth.

At this time, the sarcastic smile on the face of the Demon Commander finally disappeared, but became very evil. He said coldly: "Boy, how dare you hurt me? I am really angry now. , I will let you know what a place of death is!"

Boom!

At this time, the Demon Commander finally knew that Ye Feng was not someone to be trifled with, and also knew that this boy was too cruel.

So at this moment, the demon commander immediately shouted: "The demon's true form!!"

At this moment, the entire body of the demon leader began to expand rapidly, and the black iron armor on his body was burst.

Then his whole body expanded directly and turned into a majestic dark giant that was tens of thousands of meters tall.

This is the Demonic God Body. It was the Demonic Commander who inspired the bloodline power of the Demonic God in his body, turning himself into the legendary Demonic Divine Body, possessing part of the power of the Demonic God.

So at this time, the demon commander turned into a demon giant with a cultivation level of tens of thousands of meters. He held a dark sword of more than 100,000 meters in his hand and charged towards him crazily.

The leaves were chopped away by the wind.

That terrifying attack caused the Great Buddha Tower suspended above Ye Feng's head to shake rapidly and almost fall.

Ye Feng, who was mentally connected to the Great Buddha Tower, felt the terrifying attack power at this moment, even though he was protected by the Great Buddha Tower, and it was unleashed on his entire body.

Ye Feng couldn't help but turned very pale immediately. He felt like he was about to fall from a high altitude and suffered huge trauma.

It has to be said that this demon commander directly used his strongest inheritance at this moment and became the legendary demon giant, possessing part of the power of the god of demons.

His attack power naturally became extremely terrifying all of a sudden, making Ye Feng a little unstoppable.

At this time, Ye Feng could only use the divine power in his fists to resist with difficulty.

At this time, Ye Feng immediately said aloud in his mind: "Emperor Chu, now I need your help to directly attack the spirit and soul of this demon commander. I don't ask you to wipe out the spirit and soul of this demon commander. As long as you can It's enough to interfere with his fighting state and create opportunities for me."

Emperor Chu also knew the importance of this battle at this time.

Uh-huh!

He was no longer sleeping. He woke up from his slumber, transformed into a red giant of light, flew out of Ye Feng's head, and instantly attacked in the direction of the demon giant's head.

"What is this?"

At this moment, when he saw a majestic red giant of light suddenly flying out of Ye Feng's head, the Demon Commander's eyes widened suddenly. It seemed that he did not expect such a terrifying thing to exist in Ye Feng's head. s things.

Because the demon commander can feel that there is a huge pressure on his spirit and soul, which is obviously the pressure exerted on him by this red giant of light.

At this moment, the demon commander suddenly shouted: "The devil protects us!"

Almost at the next moment, a jet-black light shield lit up inside the head of the demon leader, protecting his entire head from attacks at the soul level.

Even the crimson giant of light that Emperor Chu transformed into could not break the black light mask surrounding the head of the Demon Commander in a short period of time with its crazy attacks.

It has to be said that this demon commander is indeed a profound existence among high-level masters.

Whether it is the inheritance of methods, cultivation, or combat power, they are all terrifying to the extreme.

It is the most difficult existence that Ye Feng has encountered so far.

At this moment, the demon commander seemed to see that Ye Feng was helpless, and he immediately burst out laughing: "Boy, no matter how powerful your cultivation methods are, you can't deal with me. I have been practicing for several days." Although you, a high-ranking bloodline member of the Ten Thousand Years Demon Tribe, can be considered astonishing and talented, you will definitely not be my opponent. I will completely obliterate you and remove all the power contained in your body. The powerful bloodline may be plundered, and it may be able to enhance the original power of this demon, allowing me to evolve again and become a more powerful and advanced demon!" Hahaha!

Chapter 4055 Beyond the Dominator

At this time, the demon commander was determined to kill Ye Feng, and he was very greedy for Ye Feng's bloodline.

Because Ye Feng can burst out with such terrifying cultivation strength, it is enough to show that the blood flowing in Ye Feng's body is definitely very advanced, otherwise it would be impossible to fight beyond the level.

Because the Demon Commander is not an ordinary high-level master.

He is a profound being among high-level masters.

And he possesses the bloodline of the ancient demon god.

So the combat effectiveness is very terrifying.

But Ye Feng was able to resist it with difficulty.

Therefore, Ye Feng's body definitely has a very powerful and advanced bloodline flowing through him to be able to do this.

After all, Ye Feng's cultivation level was a whole level lower than that of the Demon Commander.

And you must know that the intermediate master has a total of fifty small levels, and the high-level master has a total of one hundred small levels.

This is not just a gap in one big realm, but also a gap in countless small realms.

Therefore, the various methods and terrifying power that Ye Feng unleashed just now naturally made the demon commander attach great importance to Ye Feng and become extremely greedy.

At this moment, Ye Feng didn't hesitate at all, knowing that this demon commander was extremely greedy for him and wanted to take away his god's bloodline.

So at this time, Ye Feng frantically activated all his power, and then directly displayed the Dzogchen future body that he had not used for a long time.

"boom!!"

At this moment, Ye Feng's cultivation momentum immediately began to surge rapidly.

Directly from the mid-level dominator on the thirtieth floor, he suddenly rose to the mid-level dominator on the fiftieth level of great perfection in a short period of time.

Suddenly, the terrifying power of cultivation burst out from Ye Feng's body, allowing Ye Feng to break free from the shackles of this demon leader.

"What?"

"How can this be?"

At this moment, seeing the aura of the intermediate master's fiftieth level of perfect cultivation erupting from Ye Feng, the Demon Commander's eyes suddenly revealed a look of deep horror.

He couldn't help but said in horror: "This is impossible. Your kid has just used a secret technique to forcibly improve your cultivation. How is it possible that you can continue to improve your cultivation now? Directly. You have been promoted to the fiftieth level of Intermediate Dominance! There is no such magical secret technique in the world! And it is impossible for your body to withstand such continuous promotions!"

At this moment, looking at the horrified expression of the demon commander, Ye Feng didn't bother to explain anything at all, he just said coldly: "There are many things you don't know."

this moment

, Ye Feng directly possessed the majestic mana of the 50th level of the Intermediate Master in a short period of time, all of which was injected into the Great Buddha Tower in his hand.

The Great Buddha Tower is the most powerful magic weapon that Ye Feng has obtained so far.

So at this moment, Ye Feng directly used all his magic power to activate the Big Buddha Tower in his hand, frantically activating this super magic weapon left by the ancestors of the Murong family.

Boom!

At this moment, the Great Buddha Tower suddenly became even more majestic, turning into a majestic giant tower of more than 100,000 feet, and more than one ancient Buddha and ancient demon gods manifested around it.

A total of eighteen phantom Buddhas and eighteen ancient demon gods were revealed, surrounding the Great Buddha Tower. They looked very solemn, but were also filled with a dark and boundless evil. feel.

I have to say that the Great Buddha Tower is really a perfect masterpiece.

The powers of ancient Buddha and demons were fused together and turned into this super magic weapon.

Under Ye Feng's majestic mana output, the Great Buddha Tower burst out with truly terrifying power, directly manifesting eighteen ancient Buddhas and eighteen ancient demon gods.

Then the entire giant tower became more than 100,000 feet majestic, and it fiercely bombarded the front.

The majestic and majestic power burst out from the Great Buddha Tower, almost capable of shattering the eight wastelands and suppressing the entire world.

Even an extremely powerful existence like the Demon Commander was so shocked that he couldn't help but fall back.

Even though he had unleashed his true form of the Demonic Giant, and the long black sword in his hand had become tens of thousands of meters long, he still could not withstand the power of the terrifying Great Pagoda at this moment.

But at this time, the demon commander laughed loudly, seemingly without the slightest fear, and said: "Boy, even if you can burst out such terrifying power in a short period of time, at most you can only repel me. You can't even do that." You can't really hurt me. When your power is exhausted, I will cut you into pieces."

Ye Feng suddenly rushed high into the sky at this time. Without any nonsense, he directly released his most precious trump card, the Gate of Heaven.

Buzz!

At this moment, endless bright white divine light burst out crazily behind Ye Feng.

In the infinite white divine light, a high and sacred portal appeared, possessing boundless power and immortal light.

That is the gate of heaven!

Full of pride and vicissitudes of life.

At this moment, even if the Demon Commander was illuminated by the light of the Gate of Heaven, he felt as if his whole body was about to be wiped out.

For the first time, the demon commander felt that his spirit and body were rapidly collapsing.

The Demon Commander finally panicked, and immediately screamed in horror: "Could this be... could this be the legendary Gate of Heaven? It is the natal magic weapon of the Lord of the Heaven Realm, the highest interface. It is the supreme treasure." How could this treasure, a peerless treasure, appear in a little human being like you? It's impossible!"

The demon commander was obviously extremely frightened at this time, and suddenly he retreated crazily towards the back, turning into endless dark mist, trying to escape from here.

But Ye Feng had just fully stimulated the power of the Great Buddha Tower, suppressing the demon leader around, and now he has also released the Gate of Heaven.

Under the attack of two terrifying magic weapons, this demon leader could not escape after all, and was completely wiped out and obliterated.

"ah!!"

Along with an earth-shaking howl, the demon leader was completely wiped out.

At this time, Ye Feng fell from the sky with a pale face.

Although the terrifying attack just now was extremely lethal, it almost exhausted all of Ye Feng's skills and strength.

At this moment, Ye Feng was extremely weak. He immediately took back the Gate of Heaven and the Great Pagoda, flew forward tremblingly, and found the fallen body of the Demon Commander.

Ye Feng was overjoyed and was about to swallow it directly to restore his damaged strength and increase his skill.

Boom!

But suddenly at this moment, a terrifying giant claw that covered the sky appeared in the sky, filled with mighty power, far beyond the level of the demon commander, and clawed directly at Ye Feng. Taken over.

This claw that covers the sky and the sun is not grabbed from the small world, but seems to be grabbed from another interface.

Ye Feng immediately guessed that this dark claw contained boundless kingly power, and it was definitely the king of the demon clan from the ancient demon world who was attacking the sealed entrance of this small world.

That is, the terrifying king of the demon clan that the blue-blooded humans repaired the space warship and wanted to eliminate.

At this moment, he seemed to sense everything that happened here, and he was actually able to let one of his claws break free from the rules of this small world, break through the seal, and kill Ye Feng.

he

It seemed that he felt a threat from Ye Feng.

Ye Feng had a look of deep horror in his eyes at this time. He never thought that after the war, when he was at his weakest, the king of the Demon Clan would act so viciously, trying to kill his weakest self. obliterate.

At this moment, Ye Feng didn't hesitate at all. He quickly put the corpse of the demon commander on the ground into his storage ring, and then ran away crazily into the distance.

But that claw that covers the sky and the sun is the claw of the king of the demon clan, and it is extremely terrifying.

Ye Feng even felt that this had surpassed the power of the Great Perfection Master.

In a hurry, Ye Feng released the life-saving trump card given to him by Dean Tianshu, the Son of God Token!

Ye Feng didn't know what kind of terrifying level the current Dean of Heavenly Book had risen to with the resurgence of world rules.

But this Son of God Token was a life-saving trump card given to him by Dean Tianshu before. The energy stored in it was also the power stored by Dean Tianshu in the Great Perfection.

So at this time, Ye Feng released the energy of the Son of God's Token, and suddenly a terrifying wave of power from the Lord of Great Perfection protected him.

"Click, click..."

But what made Ye Feng feel horrified was that the sky-shielding claw of the king of the demon clan was so devastating that it completely shattered the power surge in Ye Feng's Son of God's token.

Sure enough, just as Ye Feng guessed, the cultivation power of this king of the demon clan has probably surpassed that of the Great Perfection Lord, and he is a terrifying existence above the Lord.

This kind of creature from the advanced cultivation interface is indeed terrifying and powerful to the extreme.

However, the power of the Great Perfection Master inputted into the Son of God's Token by Dean Tianshu finally helped Ye Feng buy time, and also withstood the main damage from that claw.

In the end, Ye Feng's entire body was hit by a small claw tip of this demonic claw that covered the sky.

Ye Feng still underestimated the power of this king of the demon clan. Even if he was only touched by a small claw tip, Ye Feng only felt that at this moment, an overwhelming terrifying destructive power was destroying his entire body crazily.

Flesh and blood shattered.

But the bones remain strong.

Ye Feng was miserable. He was instantly reduced to a skeleton state, with only a little bit of flesh and blood left.

But Ye Feng finally escaped and fell into a coma in a jungle-covered wilderness in the distance.

As for the king of the Demon Clan, it seems that he can only attack this time for the time being, and the claws that covered the sky and the sun disappeared.

The whole world returned to calm once again.

Chapter 4056 Tribe

For Ye Feng, he gained a lot after entering this dark cave this time, and his cultivation methods have been greatly improved.

But this time he encountered this extremely powerful demon leader, which made Ye Feng consume all his strength.

But in the end, the demon commander was killed.

And if you get the other party's body, it must contain a huge amount of blood energy.

But what Ye Feng never expected was that in the end, the king of the Demon Clan would forcefully break through the seal and stretch out a claw.

Although it just touched him briefly, his entire body was almost destroyed.

If it weren't for the Immortal Bone of the God, the strongest bone in the world, Ye Feng would have been completely destroyed and died.

At this moment, Ye Feng was knocked unconscious by this blow, and even turned into a skeleton, lost in the vast wilderness in the small world.

When Ye Feng woke up, he immediately saw that he was lying on a bed made entirely of animal skins.

At this time, Ye Feng looked around and found that he was in a very antique small room.

Ye Feng stood up with difficulty and found that his entire skill was unable to be used for a while.

Because his injuries were too serious.

But what surprised Ye Feng was that all his flesh and blood had grown back.

It seems that the power of his body is still very terrifying after all, and he has completely recovered.

But the skill cannot be condensed for a while.

This made it impossible to open his storage ring and absorb the blood energy from the corpse of the extremely powerful demon leader that Ye Feng collected at the last moment.

Ye Feng could only decide that it would take a few more days to recover before he could regain his power.

Crunch!

While Ye Feng was thinking, suddenly the door of the hut opened.

A beautiful-looking woman walked in.

This woman looked to be only eighteen or nineteen years old.

When she saw Ye Feng waking up, a look of surprise immediately appeared in her eyes.

There was surprise in Ye Feng's eyes, and he immediately asked: "Girl, where am I now?"

This beautiful girl in a blue dress immediately said loudly: "We are a small tribe in the wilderness. Yesterday when the guards of our tribe went out to hunt, my grandfather found you seriously injured. Originally, my grandfather thought it was okay. Even if I gave you the most magical healing elixir in our tribe, it would take ten days and a half to wake up. I didn't expect you to wake up in just a day or two."

When Ye Feng heard what this beautiful girl said, a trace of surprise suddenly appeared in his eyes.

Unexpectedly, I was now in a wild tribe.

It seems that he was saved by the people in this tribe.

Ye Feng stood up immediately and said gratefully: "Thank you very much."

The beautiful tribe girl shook her head and said loudly: "We are all human beings, and we should help each other."

After finishing speaking, this beautiful tribal girl seemed to have thought of something, and immediately ran out in a hurry and said loudly: "Grandpa told me to notify him when you wake up. I want to go over and inform grandpa."

After saying that, this beautiful tribal girl had walked out of the house and disappeared.

Ye Feng was walking towards the door at this moment.

When Ye Feng opened the door, he immediately saw a very simple scene.

I saw that the entire wilderness tribe had tents and wooden houses erected everywhere, which looked very simple and primitive.

However, Ye Feng was surprised to find that although all the humans in these wilderness tribes had no skills, their blood and energy were extremely surging.

one big

The human tribe in the wilderness tribe are like small stoves, giving people a very hot feeling.

Ye Feng was a little surprised by the powerful blood energy.

No matter what, Ye Feng immediately understood that the tribes in the wilderness in this small world must be very extraordinary, otherwise they would not be able to survive in such a ferocious wilderness.

But what makes Ye Feng feel regretful is that the humans in these wilderness tribes are all practitioners who have not developed any skills.

They only cultivate the power of their bodies and probably have little research on skill cultivation, so asking for help from them will not be of much help to the recovery of their own skills.

However, Ye Feng is still very grateful to this group of tribesmen. If it weren't for them, he might have passed out in the wild jungle and been swallowed up by many powerful wild beasts in just a day or two.

And just as Ye Feng was thinking secretly in his heart, an old man wearing animal skin clothes walked over not far away.

Next to the old man was the tribal girl in a blue dress who had just talked to Ye Feng.

This old man, who is covered in animal skins, looks very burly and has a cane in his hand, but he gives off the impression that he is full of energy.

Ye Feng immediately stepped forward and said, "It must be the old man who saved me. Thank you very much, old man."

Ye Feng could sense that this old man did not have any fluctuations in skill, and the blood energy in his body was not very rich.

But the other party saved him, Ye Feng was naturally very grateful.

Seeing Ye Feng like this, the old man's eyes were full of surprise and he said loudly: "Young man, you recovered too quickly. I originally thought it would take at least half a month for you to wake up. After all, your injuries were too severe. It's serious. I was following the escort team of our tribe outside to collect medicine. When I found you, you were lying in a chaotic jungle, unconscious, and all the flesh and blood in your body had been broken, and almost all of you were left. "You have no bones. I didn't expect that in just a day or two, your flesh and blood would grow automatically. It's so fast, it's really incredible."

At this time, the old man knew very well that Ye Feng's recovery ability was so evil. He immediately understood that Ye Feng was definitely not a simple person, and he was probably an extremely noble person outside.

Ye Feng smiled slightly at this moment and said aloud: "I am born with strong recovery power, but although my body strength has recovered, my skill has not recovered at all."

When he said this, Ye Feng stared at the old man in front of him and asked aloud: "Old man, is there any elixir in your tribe that can restore your skills? If so, I can exchange it for high-value materials."
”

Hearing Ye Feng's question, the old man in front of him shook his head and said: "You can only rely on yourself for this, young man, because all the people in our tribe can only polish their own physical strength and cannot cultivate their skills. This seems to be a rule passed down by our ancestors, so there is no elixir in our tribe that can restore your power, so you can only rely on yourself. "

Hearing what the old man said, Ye Feng nodded slightly and was not disappointed. After all, he had just sensed that in the bodies of all the tribesmen in the entire Great Wilderness tribe, there was no fluctuation in skill, but the blood energy was very majestic.

Therefore, it can be concluded that this tribe specializes in cultivating the power of their bodies, and it is normal for them not to know how to restore their power.

Ye Feng clasped his fists at this time and said loudly: "Anyway, thank you to the old man for bringing me back in the dangerous wild jungle. Otherwise, I might have been swallowed by some ferocious beasts."

When he said this, Ye Feng took out a lot of flesh and blood of monsters and monsters directly from his storage ring, handed them to the old man in front of him, and said loudly: "These are very precious monsters and monsters. I got the flesh and blood of my descendants from some very special places. This kind of thing is not suitable for those of you who specialize in polishing yourselves.

It is of great help to the tribesmen who are flesh and blood. This is my thanks. Please accept it. "

"all these are....."

Hearing what Ye Feng said, the old man in front of him immediately widened his eyes.

Because he saw that among the flesh and blood that Ye Feng took out, there was actually the flesh and blood of the ancient dragon clan, and even the Qilin clan.

These are absolutely wonderful things.

The old man immediately shook his head and said: "You are in a weak state now, and you still need these to supplement your strength. I can't ask for these things from you."

Ye Feng immediately laughed and said: "These things are already very low-level to me now. I don't have much use for them after eating them. They are all collected by me in my early years and now they are given to the elderly." You, because I observed that your blood energy does not seem to be so majestic anymore. You are probably too old. If you eat the flesh and blood of the descendants of these mythical beasts, it will definitely be of great benefit to your blood energy, and it will also increase your energy. life."

"Can it increase grandpa's lifespan?"

Hearing what Ye Feng said, the beautiful tribal girl in a blue dress standing nearby couldn't help but said: "Grandpa, this is the young master's wish, let's accept it."

Hearing what his granddaughter said, the old man wearing animal skins finally nodded and happily accepted the flesh and blood of the descendants of these divine beasts that Ye Feng gave as a thank you.

These things are indeed of great help to the old man wearing animal skins. They can help him improve his health and allow him to survive longer.

After all, in his early years in the wilderness, he fought with some terrifying demons and beasts and damaged his origins, so now he can only research some medicines to treat injuries in the tribe and cannot continue to fight.

Because his blood energy was consumed too much, he had a hidden disease and could not recover at all.

But the flesh and blood of the offspring of mythical beasts and demons that Ye Feng now gives him can definitely extend his lifespan and even reactivate his blood energy.

At this time, Ye Feng said aloud: "I need to stay here for a while longer, because my skills have not been fully recovered. I want to wait until my skills recover before I leave here."

Hearing what Ye Feng said, the old man wearing animal skins immediately spoke out very generously: "Young man, you can stay here for as long as you want. Now you rashly walk out of the tribe and enter the dangerous wilderness. My skills have not been fully restored, so there is definitely a huge danger."

Ye Feng immediately nodded.

The old man in animal skin gave Ye Feng some medicinal materials and said loudly: "These things should be of some benefit to your recovery. They are medicines I have recently researched that can nourish the spirit of our human race. Although they are not I don't know if it can restore your skills, but it will definitely be of great benefit to your injury."

Hearing what the old man said, Ye Feng still had a hint of surprise in his eyes.

I didn't expect that this seemingly unspectacular old man from a primitive tribe could have such erudite knowledge and be able to develop various medicines with special effects.

Ye Feng immediately accepted it at this time, smiled and said: "Thank you very much, old man."

The old man in the animal skin smiled slightly, and then said aloud: "I will go to other places to work first. If you have any questions, just ask my granddaughter."

After saying that, the old man left here directly.

The beautiful tribal girl in a blue dress stayed behind.

The tribe girl was staring at Ye Feng at this moment, with deep curiosity in her beautiful eyes, and couldn't help but ask: "I just heard what the young master said, is the young master a practitioner who has developed martial arts? The young master should come from an area outside our wilderness, right?"

Hearing the tribal girl in front of him ask this question, Ye Feng smiled slightly and said, "Yes, I come from outside the wilderness."

In fact, Ye Feng also wanted to say, I not only

It comes from outside the wilderness, and it also comes from outside this small world.

But if you talk too much, even the simple girls in this tribe may not be able to understand it.

After all, this tribal girl has lived in the tribe her whole life and doesn't know anything about the outside world.

Not to mention that I definitely don't know much about the world outside this small world, so there is no point in saying more.

At this moment, after hearing Ye Feng say that she really came from outside the wilderness, the beautiful tribal girl wearing a blue dress in front of her couldn't help but walked up to Ye Feng out of curiosity.

She quickly grabbed Ye Feng's arm, walked towards the hut in front of her, and said excitedly: "I heard my father say in the early years that the world outside our wilderness tribe is very beautiful and magical. Master, can you Tell me about the prosperity of the outside world? I am very curious! What I have always wanted to do since I was a child is to get out of the wilderness and see the prosperous world outside, but I have never had the chance because I don't seem to have much knowledge about spiritual practice. My talent is too great, so naturally my grandfather won't let me take the risk of leaving the wilderness tribe."

At this time, Ye Feng looked at the beautiful and enthusiastic tribal girl in front of him and couldn't help but shook his head and said loudly: "Although the outside world is prosperous, it is also full of intrigues and intrigues. If you are not careful, you may die. So it's better for you to stay in the tribe."

Hearing what Ye Feng said, the beautiful tribal girl who held Ye Feng's arm enthusiastically opened her beautiful eyes slightly and couldn't help but said: "Is the outside world really so dangerous? However, If I have a chance in the future, I still want to go out and take a look."

When she said this, the tribe girl continued to hold Ye Feng's arm and asked reluctantly: "Sir, please tell me some interesting things about the outside world. I'm too curious. "

Seeing the curious look of the tribal girl in front of him, Ye Feng could only smile slightly and said: "Okay, then I will tell you."

In the next few days, Ye Feng told the tribe girl some stories that interested her, such as some of his bizarre encounters, while he continued to restore the strength of his body and tried to find ways to restore his skills.

As long as he can restore his power, open the storage ring, absorb and swallow the majestic blood energy contained in the body of the demon leader, he can instantly return to his peak state, and may even break through, then Ye Feng You can get out of this tribe.

In the past few days, after hearing Ye Feng tell so many bizarre experiences, this beautiful tribal girl has become extremely interested in Ye Feng.

In her heart, perhaps Ye Feng was already that kind of legendary figure from outside, which made the girl quite obsessed with Ye Feng.

As long as Ye Feng agrees, this tribal girl will follow Ye Feng without hesitation.

In this regard, Ye Feng could only smile helplessly.

This kind of girl who grew up in a small tribe really yearned for the outside world to the extreme, and she was also extremely naive.

And on Ye Feng's third night in this primitive tribe in the wilderness, Ye Feng was practicing alone in his room.

Buzz!

Suddenly at a certain moment, a burst of skill suddenly appeared in Ye Feng's dantian.

Ye Feng's eyes opened immediately, and there was a divine light in his eyes.

There was a hint of ecstasy in Ye Feng's eyes.

I finally developed my skills.

Almost at the next moment, without any hesitation, Ye Feng directly used his recovery power to open his storage ring.

Uh-huh!

The body of a burly demon commander was immediately released from the storage ring by Ye Feng.

Then without any hesitation, Ye Feng directly released the Devouring Domain and began to devour the powerful blood energy and demon skills of this demon leader!

Chapter 4057 Return to Peak

"Boom!"

At this moment, along with Ye Feng's devouring, the majestic demon blood energy contained in the body of this demon leader was immediately absorbed by Ye Feng.

Then everything was integrated into Ye Feng's dantian.

Ye Feng's Dantian, which was almost exhausted, immediately began to grow rapidly and continuously.

The skill in Ye Feng's dantian suddenly became more and more powerful.

It's like a small pond suddenly turned into a vast ocean!

At this moment, Ye Feng continued to absorb.

Ye Feng's skill immediately became powerful at an incredible speed.

Then, Ye Feng's cultivation aura also began to increase at an incredible speed.

You know, this Demon Commander is not an ordinary Demon Clan strongman, but a very terrifying Demon Clan strongman.

Although Ye Feng had not sensed the specific level of the cultivation aura of the leader of the Heavenly Demon Clan before, it was definitely a profound existence among high-level masters.

It is very likely that it is an existence on the twentieth level among senior masters, or even on the thirtieth level among senior masters.

Otherwise, Ye Feng would not have been able to kill the leader of the Demon Tribe with such effort.

So at this time, the power of the demon clan contained in the body of this demon leader naturally allowed Ye Feng to gain unparalleled growth.

Moreover, this Demon Commander is a very powerful creature.

In addition to his skill, the blood energy contained in his body is naturally very powerful, almost to the extreme.

In a short period of time, all Ye Feng's lost power was replenished.

And it continues to grow.

The cultivation aura on Ye Feng's body immediately began to make continuous breakthroughs.

"boom!"

Intermediate domination of the thirty-first floor!

"boom!"

Intermediate domination of the 32nd floor!

"boom!"

Intermediate dominates the 33rd floor!

"boom!"

Intermediate domination of the 34th floor!

"boom!"

Intermediate dominates the 37th floor!

"boom!"

Intermediate dominates the 38th floor!

"boom!"

Intermediate dominates the 39th floor!

"boom!"

Intermediate dominates the 40th floor!

At this time, the breakthrough of Ye Feng's cultivation aura finally stopped completely, leaving a look of deep surprise in Ye Feng's eyes.

Because Ye Feng suddenly improved his cultivation level by ten levels.

Unexpectedly, the skill and blood energy contained in the body of this leader of the demon tribe were so powerful and majestic to such a terrifying level that Ye Feng

His skills have greatly improved.

At this time, Ye Feng couldn't help but marveled and said to himself: "This demon commander is really an extremely terrifying strong man. The blood energy and skill he provides are really powerful."

At this time, Ye Feng suddenly stood up in the room, and his whole body was filled with a very terrifying aura of cultivation.

Ye Feng has completely recovered to his peak state this time, and has also directly broken through to the fortieth level of the Intermediate Dominator, many times more powerful than before.

At this time, Ye Feng was ready to leave the tribe directly.

Because Ye Feng knew that Murong Mingyue and Murong Jian probably felt that they had fallen under the clutches of the king of the demon clan, so he had to go back quickly to stop them from worrying.

But at this moment, Ye Feng had just walked out of the tribe's wooden house, and suddenly saw a chaos in the surrounding area not far away from the tribe.

Many tribesmen seemed to be shouting in fear.

"what happened?"

Ye Feng immediately moved his eyes and flew quickly in a certain direction ahead.

When Ye Feng came to the edge area of the tribe, he immediately saw something that made Ye Feng's eyes turn cold.

Several very ferocious monsters, each of them as tall as a mountain, were violently destroying the wall on the edge of the wilderness human tribe, as if they wanted to directly destroy the wilderness tribe.

There are more than a dozen of these monster beasts, and their cultivation auras are very terrifying.

Of course, these monsters are only very terrifying in the eyes of the humans of the Great Wilderness Tribe.

But in Ye Feng's eyes, these dozen monster beasts were nothing at all.

Although the body is very large, it is like a mountain.

But in Ye Feng's eyes, they are just a few little demons.

At this time, Ye Feng came over, and immediately people from the wilderness tribe saw Ye Feng.

These simple tribesmen immediately couldn't help but said: "This young master, you were rescued by our tribe leader. Your body is still very weak. Do not come close to this place. These monsters living in the depths of the wild forest The beast has come to destroy our tribe again. The purpose is to make us hand over the various medicinal materials collected by our tribe. Master, we should leave here as soon as possible. We have a guard in our tribe and will negotiate with these monsters."
"

Hearing this tribe member from the wilderness say this, Ye Feng's eyes showed a hint of warmth.

The tribesmen in this group of wilderness tribes are all very simple and kind-hearted.

At this time, Ye Feng did not leave directly. Instead, he smiled slightly and said, "Don't worry, I have returned to my peak condition."

Boom! !

At this moment, Ye Feng suddenly rose from the ground and rushed directly to the sky.

Then under the horrified and shocked gazes of countless tribesmen in the wilderness, Ye Feng

Immediately, there was an aura of cultivation that was as majestic as the ocean.

The dozen or so monster beasts that were destroying the tribe's wall could no longer withstand the pressure of Ye Feng's terrifying aura, and they fell to the ground under pressure.

All of them were "plop" and "plop" and he knelt in front of Ye Feng, unable to even lift his head.

At this moment, the eyes of the group of monster beasts that had been showing off their power just now suddenly revealed a look of deep fear.

They sensed that there was an extremely terrifying aura on Ye Feng.

This is definitely a super strong person among the human race.

"What??"

"The young man rescued by the patriarch actually has such a terrifying cultivation level?"

At this moment, Ye Feng was seen flying into the air, and just relying on his momentum, he suppressed these dozen ferocious monsters to the ground.

All the tribesmen in the surrounding tribes suddenly opened their eyes and opened their mouths. They were shocked to the point of being dazed and petrified.

"Master Ye Feng! He is so powerful!!"

At this moment, the beautiful tribal girl who had been taking care of Ye Feng in the crowd saw Ye Feng who was like a god in the air, and her eyes suddenly showed deep shock.

Then came the deep infatuation.

Ye Feng perfectly fits the image of Prince Charming in the mind of this beautiful tribal girl.

Not only does he have a handsome appearance, but he also possesses extremely terrifying cultivation power.

"Master Ye Feng is so perfect! Who can be worthy of such a perfect man!"

The tribe girl thought to herself, her eyes full of admiration.

At this moment, the clan leader of the tribe, the old man wearing animal skin who had rescued Ye Feng, suddenly had a look of deep horror in his eyes.

The old man didn't seem to expect that Ye Feng would return to his peak condition in a short period of time.

In fact, this old man wearing animal skin knew that Ye Feng was definitely an extraordinary person with noble status from outside.

But he probably never expected that Ye Feng would be so extraordinary to such an extraordinary degree.

Just the momentum alone made a dozen terrifying beasts from the depths of the wild forest crawl on the ground, unable to move.

This kind of ability is simply shocking.

But at this time, Ye Feng just had a very calm expression on his face. He stared at the dozen monster beasts and said loudly: "Who assigned you to destroy this tribe's city wall and coerce them into handing over various materials?"

Ye Feng knew that the cultivation of these dozen monster beasts was not very powerful, but with such intelligence, there must be more powerful monsters behind the scenes.

Since Ye Feng has been rescued by the entire Great Wilderness tribe this time, Ye Feng naturally wants to completely eradicate the people behind this group of monsters, so that all crises can be completely resolved.

\u003c

br\u003e Ye Feng is not a person who likes to be nosy.

But this wilderness tribe was kind to him, so Ye Feng naturally wanted to take care of this matter.

At this moment, after hearing Ye Feng's question, more than a dozen monster beasts did not dare to hide it.

Because they can sense the cultivation aura of Ye Feng, which may be stronger than their master.

So they were naturally very scared, fearing that Ye Feng would wipe them out instantly.

Because Ye Feng does have this ability.

The leading monster is a giant goat with three big horns, and its body is covered with golden hair.

He immediately said in awe, "Sir, it is our master who instructs us to do this."

Ye Feng said aloud: "Does your master live in the depths of this wild forest?"

A giant goat with golden fur all over its body, this monster immediately said: "Yes, the master lives in the deepest part of our wild forest, the 'Sun Moon Divine Pond', and his cultivation is unpredictable."

When Ye Feng heard what the giant goat said, he immediately smiled and said, "Then who do you think is more powerful, your master or me?"

The giant goat immediately crawled on the ground, lowered its head very low, and said loudly: "Little monster, don't dare to speak nonsense!"

Hearing what the giant golden goat said, Ye Feng just nodded slightly and said loudly: "Take me to find your master."

"What??"

Hearing what Ye Feng said, the dozens of monsters present immediately widened their eyes.

They never seemed to have imagined that Ye Feng would dare to do such a bold thing.

At this moment, the people in the Great Wilderness tribe also showed deep shock in their eyes.

It seemed that Ye Feng was so brave and wanted to go directly to the deepest part of the wild forest to find the terrifying master behind this group of monsters.

At this moment, the old man wearing animal skin couldn't help but persuaded: "Brother Ye Feng, you have suppressed these dozen monster beasts now. They should not dare to attack us in the future. Tribe, little brother Ye Feng, you must not go to the deepest part of the wild forest. It is a forbidden area for life and contains extremely terrifying dangers. The master behind this group of monsters is definitely a taboo monster. It's not something you can offend, little brother. Our tribe understands your kindness, but we can't let you die in vain."

Hearing what the clan leader of this tribe said, Ye Feng just smiled slightly and said, "Don't worry, it'll be fine."

After finishing speaking, Ye Feng flew directly in front of the dozen monster beasts and said loudly: "Take me to see your master."

Hearing what Ye Feng said, these dozen monster beasts were all trembling with fear, as if they did not dare to lead the way easily.

But at this time, Ye Feng suddenly burst out with a terrifying aura, and the dozens of monsters that were oppressing him were about to burst into pieces.

Ye Feng immediately said coldly: "Hurry up and lead the way, or your head will move."

Chapter 4058 Old man

Hearing Ye Feng's categorical words, these dozen monster beasts no longer dared to hesitate. They quickly nodded and bowed and said, "Sir, please don't kill us. We will take you to see our master right now."

Swish, swish, swish!

Swish, swish, swish!

After saying that, more than a dozen monster beasts all flew into the air, and then flew quickly towards the depths of the wild forest.

Seeing this scene, Ye Feng was also ready to leave directly with them.

But at this time, the leader of the Great Wilderness tribe behind him was the old man wearing animal skin who saved Ye Feng.

He immediately shouted and said: "Brother Ye Feng, you must be careful. Deep in this wild forest, there are extremely terrifying taboo-level monsters and terrifying demons. Even our tribe The god of the tribe at that time did not dare to go deep into the deepest part of this wild forest. He might be in danger of falling. Brother Ye Feng must be careful. "

Hearing what the tribe leader said, Ye Feng just smiled slightly and said, "Okay, I will be careful."

Uh-huh!

After saying that, Ye Feng jumped up and flew quickly in the direction led by more than a dozen monster beasts.

For Ye Feng, in addition to helping this tribe solve its worries, it is also necessary to completely eradicate the demons and beasts in these wild forests.

There is another important reason.

That is because Ye Feng wants to see how powerful the forbidden monsters living in the depths of this wild forest are.

If you can hunt down a few very terrifying monsters, it will also be of great benefit to your own skills.

This is a rare opportunity.

For the next half an hour, Ye Feng followed a dozen monsters and flew quickly towards the deepest part of the wild forest.

Finally, half an hour later, they arrived at their destination.

There are all towering trees growing here. They look very dense and block out the sky and the sun, just like an isolated primitive forest.

At this moment, more than a dozen monster beasts were already trembling, and they immediately said: "Our master lives in the Sun Moon Divine Pond area at the front. We are not qualified to continue on the next road, sir." If you want to find our master, you can go alone."

Hearing what these dozen monster beasts said, Ye Feng just waved his hand casually, and then continued flying forward.

Suddenly, just when Ye Feng was about to fly to the core area in the deepest part of this wild forest, the Sun Moon Pond.

"boom!!"

Suddenly, a huge jet-black dragon claw was snatched from the deepest part of the primeval forest in an instant, blocking out the sky and the sun, trying to reach the people high up in the sky.

Ye Feng was directly imprisoned.

Buzz!

But at this moment, Ye Feng's fists suddenly burst out with the power of the Celestial Clan.

I saw bright golden divine light erupting from Ye Feng's two fists, and blasted forward in an instant, directly stopping the huge jet black claw high in the sky.

However, what surprised Ye Feng was that this jet-black dragon claw was still very strong and was not directly blown into pieces by his two fists.

You know, Ye Feng's current fist has been tempered to the eighth level of the Immortal Body of the God.

Therefore, Ye Feng's fists are still very terrifying and their destructive power is amazing.

Even some advanced magic weapons may not be able to withstand Ye Feng's two fists, and they will be directly blasted into countless metal fragments.

But at this moment, Ye Feng was quite surprised that this jet-black dragon claw could block the power of the gods in the two fists.

At this time, Ye Feng did not hesitate and looked directly towards the deepest part of the primitive forest.

I want to see who this taboo monster in the wilderness is.

But at this moment, Ye Feng suddenly saw a shocking scene.

In the deepest part of the primeval forest, among the countless trees and jungles, beside a pool, lay a very huge black dragon.

This giant black dragon, with scales all over its body, looks like it is made of black steel. It is like a long steel dragon, tens of thousands of meters long, lying in the deepest part of the primeval forest, blocked by countless green shades. , it looks very visually stunning.

But Ye Feng was shocked that this black dragon, which looked like it was made of steel, turned out to be his old buddy.

It turned out to be the old demon dragon Shang!

At this moment, Shang seemed to have not discovered Ye Feng's true identity, and continued to stretch out a dark dragon claw.

There are even black thunder and lightning flashing in the dragon's claws, which have very terrifying destructive power.

At this moment, Ye Feng immediately shouted: "Shang, don't be impulsive, look who I am?"

Hearing Ye Feng's name, the steel-like black dragon underneath immediately retracted its dragon claws.

Then he raised a huge and ferocious dragon head.

The face that was originally majestic also became very stunned.

Shang couldn't help but exclaimed: "Feng Boy?! It's you!"

Swish

!

Ye Feng also had a look of emotion in his eyes at this time, and he quickly flew down from the sky.

Ye Feng never thought that he would meet this old friend Shang here.

Ye Feng knew that he and Shang had encountered a huge crisis before and were temporarily separated.

After that, Ye Feng didn't know where Shang went. He didn't expect to meet his old friend deep in the wilderness of this small world.

Ye Feng landed from high altitude at this moment.

Before Ye Feng could say anything, Shang couldn't help but flew in front of Ye Feng, stretched out two huge black dragon claws, and immediately hugged Ye Feng.

Shang said excitedly: "Little Feng, I thought you were dead, but I didn't expect you were not dead yet. We encountered such a huge crisis before. After I became stronger in practice, I went back to find you, but You have disappeared for a long time. I thought you were dead, which made me cry for the first time in my life."

At this time, Ye Feng's eyes showed a sigh of relief, and he said loudly: "I didn't expect to meet you Shang here."

When he said this, Ye Feng suddenly seemed to have thought of something, and immediately couldn't help but said: "In that case, all the monsters in the entire wild forest are now under your control. They That master I'm talking about is you."

Shang nodded at this time and said loudly: "Yes, I am indeed the king of monsters in the entire wilderness now."

Ye Feng's eyes showed surprise, as if he didn't expect Shang to be able to dominate the forest in the wilderness of this small world.

It seems that the mix is still very good.

At this moment, Ye Feng couldn't help but said: "But this is just a small world, Shang, you might as well follow me back to the big world of origin. That is the real future, the big world of origin. The rules of the world will continue to revive and the glory of ancient times will be restored. Many advanced cultivation interfaces will come to the world of origin, which will be the most glorious stage in the future, with the strongest inheritance and the strongest power. "

When Shang heard what Ye Feng said, he immediately shook his head and said, "I will definitely come to the big world of origin, but not now, because I have my own plan in the wild forest of this small world."

When he said this, Shang suddenly stared at Ye Feng in front of him and said loudly: "Boy Feng, your current cultivation aura is so powerful, and I feel that your fighting power is definitely more real than what you show." Your cultivation level is much stronger. Your origin is too powerful, even more powerful than the body of the steel and dark dragon emperor that I fused. You are indeed a little strong person who cannot be beaten to death.

The more I mess around, the better I get. I really need your help now. "

Hearing what Shang said, Ye Feng had doubts in his eyes and said loudly: "You are now the king of monsters in this wild forest, and you are not willing to follow me to the big world of origin, in this small world." In this world, although you are not invincible, you should be afraid of few people. Do you need my help? "

Shang spoke up at this time: "The reason why I don't go to the big world of origin now is because I have a huge plan. Do you know that this small world is actually part of the 'Ten Thousand Demons Interface', a high-level cultivation interface. However, after the war between the gods, this small world was shattered, and the advanced cultivation interface of Ten Thousand Demons was lost. "

When Ye Feng heard this, his eyes suddenly showed a trace of surprise, and he couldn't help but said: "In this small world, I didn't expect that my origins were so extraordinary."

Shang nodded and said: "So the reason why I lurk in this small world is not to dominate the world, nor to seek temporary enjoyment and stability. I want to steal the high-level Ten Thousand Demon Interface from this small world." Part of the interface luck of the cultivation interface, because this small world was once a very important part of the interface of ten thousand demons, so this small world seems very ordinary, but in fact, the interface of this small world contains the advanced cultivation of interface of ten thousand demons The interface luck of the interface, once I can plot and steal the interface luck of a part of the Ten Thousand Demons Interface in this small world, I can use this small world to continuously steal all the interface luck of the real Ten Thousand Demons Interface, a high-level cultivation interface. The luck of the interface, once I steal and fuse enough luck of the interface of ten thousand demons, I will be able to become a natural son of luck of the interface of ten thousand demons. At that time, the entire interface of ten thousand demons, this vast interface of advanced cultivation, They will all be controlled by me, and I will be able to become the true master of all demons."

Hearing what Shang said, Ye Feng's eyes widened slightly. He didn't expect that Shang had such a grand plan. He wanted to become the Lord of Ten Thousand Demons and control a vast and boundless interface of advanced cultivation.

Ye Feng immediately couldn't help but give a thumbs up and said loudly: "Shang, I have been separated for three days and I look at each other with admiration. I didn't expect your ideal to be so grand."

Shang couldn't help but shook his head at this time, chuckled, and said aloud: "But this huge plan of mine has just begun. At present, I don't even control this small world, but only control this small world and the wild forest. area, so I am in urgent need of helpers to help me truly command the entire small world, and thus begin to steal the fate of all monsters in this small world. And your appearance, Ye Feng, is like dozing off. Give me a pillow, we two old guys We can join forces to do something together again! Help me conquer the whole small world! Let's share the luck of this small world. In the end, you can also share with me the supreme power of luck in the entire Wan Yao interface. !"

Chapter 4059 Essence Energy of the Sun and Moon

At this moment, hearing Shang's great ideals and plans, Ye Feng felt a little bit of admiration for Shang.

Originally, in Ye Feng's heart, Shang was just an unreliable old demon dragon who liked to eat and wait for death.

But now Ye Feng suddenly discovered that Shang's pursuit of powerful power was almost the same as his own.

In fact, what Ye Feng didn't know was that the reason why Shang suddenly became like this was because he was stimulated last time.

The last time Ye Feng and Shang encountered a huge crisis, Ye Feng led the huge crisis away alone, which made Shang feel deeply helpless and desperate.

That's why Shang's personality has undergone a huge change, and now he pursues power and plots huge plans in order to save his partners in dangerous moments.

At this time, Ye Feng immediately nodded and said loudly: "If I can help, then I will definitely help. As for dividing the power of luck in the Ten Thousand Monsters interface, it depends on our luck. , after all, you don't have control over this small world yet, and the road is still very long."

Shang laughed loudly at this time and said aloud: "Feng Boy, you have shown up, then I won't be lonely and alone. We two old friends can slowly plot their plans. I miss the two of us working together." Those days, although I was very weak at that time and the practice environment I was in was very low-level, it was really interesting and it was the happiest time for me."

Ye Feng suddenly shook his head at this time and said loudly: "This time I followed the young strong men of the Murong family in the Sea of Chaos, the big world of origin, and entered this small world. When one month is up, I will I was forcibly transported out of this small world, so if you need my help, you need to act as soon as possible. I have been in this small world for many days now, and I don't have much time left."

Hearing what Ye Feng said, Shang suddenly had a look of astonishment in his eyes, as if he didn't expect that Ye Feng would leave this small world so soon.

He originally planned to have a good chat with Ye Feng.

At this time, Shang knew that Ye Feng's time was limited, so he stopped wasting time and immediately said: "Okay, then I won't talk nonsense anymore. To make a long story short, although I am now in this vast wilderness, The king of monsters, but here

In this small world, there are several other forbidden creatures that are more powerful than me, including the Lord of Death in the Mountain of Death, the King of the Souls in the Swamp of Souls, the Dark Master in the Black Wind Forest, and the Saint of Light in the Temple of Light. Lord, if you want to control this small world, you must surrender or kill these four top powerhouses. "

Hearing what Shang said, Ye Feng suddenly showed a trace of surprise in his eyes and said loudly: "I didn't expect so many powerful beings to be born in this small world. What are their cultivation levels?" level?"

Shang said aloud: "I don't know the details, but they should be at least the powerful beings of the 100th level of the Advanced Overlord. They are much stronger than me. My current state is at the 50th level of the Advanced Overlord. So I never dared to act rashly, but stayed in this wild forest, practicing silently, training the army of monsters, and accumulating strength."

Hearing what Shang said, Ye Feng suddenly showed a hint of fear in his eyes, and said loudly: "I fought with a demon commander from the demon clan before. That demon commander was around the 30th level of the senior master. , I tried my best to kill him. Although the demon commander whom I devoured with my current cultivation level has improved a lot and entered the fortieth level of the intermediate master, but I want to deal with the one hundredth level of the high-level master. It is still very difficult to exist at the level of Dzogchen."

Hearing what Ye Feng said, Shang immediately said: "I will help you continue to improve your cultivation. As for how much you can improve, it depends on you."

After finishing speaking, Shang suddenly looked at the huge lake beside him and said aloud: "This lake is a very magical lake called the Sun and Moon Lake. It is said that the sun and moon fell from the sky. After that, the remaining essence of the sun and moon condensed into a lake, which contained very magical power. The reason why I was able to improve so quickly was that, in addition to getting the body of a steel dark dragon king before, I also had a relationship with this sun and moon god. The energy of heaven and earth in the pool is related to help. Boy Feng, you can jump directly into the Sun and Moon Pool now and see how far you can transform."

Hearing what Shang said, Ye Feng couldn't help but said: "I

I'm afraid that when I release the Devouring Domain, I won't be able to control it, and swallow up all the essence of the sun and moon in this Sun Moon Divine Pond. By then, I'll let you, Shang, have no cultivation resources in this small world. . "

Shang immediately burst into laughter and said loudly: "You are my closest old friend, so what if I give you this little thing? And you will help me deal with so many powerful beings next. If Feng Boy, your cultivation level has been greatly improved by relying on this Sun Moon Divine Pond, and you can work with me to surrender or kill the top powerhouses in the small world that I mentioned. We also have a huge amount of cultivation resources stored behind each other, which is enough for the two of us to share."

Hearing what Shang said, Ye Feng's eyes suddenly lit up, and then he said, "Okay."

Uh-huh!

After saying that, Ye Feng jumped directly into the Sun Moon Pond in front of him.

Buzz! ??

Almost at this moment, Ye Feng could immediately sense that the water of the Sun and Moon Divine Pond indeed contained a very terrifying energy of the essence of the sun and moon.

This is definitely a great tonic for Ye Feng.

Because this is the energy of heaven and earth condensed by the extremely pure nature.

So at this moment, Ye Feng did not hesitate and directly released the Devouring Domain.

Wow!

Suddenly, all the energy of the sun and moon essence in the pool around Ye Feng was quickly swallowed by Ye Feng, and then integrated into Ye Feng's body.

The skill in Ye Feng's dantian immediately began to grow rapidly and continuously.

Then Ye Feng's cultivation aura immediately exploded and improved crazily.

"boom!"

Intermediate Domination Level 41!

"boom!"

Intermediate domination of the 42nd floor!

"boom!"

Intermediate domination of the 43rd floor!

"boom!"

Intermediate dominates the 44th floor!

"boom!"

Intermediate domination of the 45th floor!

"boom!"

Intermediate Dominate the 46th floor!

At this time, Ye Feng's cultivation finally stopped completely.

At this moment, Ye Feng's eyes revealed a look of deep surprise.

Unexpectedly, the essence energy of the sun and moon in the Sun Moon Divine Pond allowed me to break through six small levels in a row.

This is already considered a very rapid breakthrough.

But at this time, Shang, who was standing on the shore, showed a look of dissatisfaction in his eyes, and said loudly: "Damn it, the energy of heaven and earth and the essence of the sun and moon in this Sun Moon Divine Pond have been destroyed by me during this period of time. It's too much to absorb. I didn't expect that it would only lift you up six small levels, Mr. Feng. I originally thought that you could be directly promoted to the fiftieth level of intermediate domination, but I didn't expect that you would only be promoted to the fortieth level of intermediate domination. On the sixth floor, either I have overestimated the energy of the essence of the sun and moon in this Sun-Moon Divine Pond, or the power of your body, Mr. Feng, is becoming more and more evil and more and more like a bottomless pit. "

No one knows Ye Feng better than Shang.

At this moment, Ye Feng immediately smiled and said: "It's good to be able to improve so much."

Ye Feng said at this moment, preparing to go ashore.

But suddenly at this moment, Ye Feng seemed to sense something. His eyes suddenly moved, and he couldn't help but said: "Shang, there seems to be an inexplicable power in the deepest part of the Sun and Moon Pond. That power is very small. , most people can't notice it at all, only I, the soul master, have noticed it, have you ever explored the deepest part of the Sun Moon Divine Pond?"

Shang immediately shook his head and said: "I have never explored this, because this Sun Moon Divine Pond seems to have no real bottom, just like an abyss. I have never dared to lurk to the deepest point."

Hearing what Shang said, Ye Feng's eyes showed a deep bright color, and he said loudly: "The formation of the Sun and Moon Pond was caused by the sun and moon falling from the sky. Perhaps the Sun and Moon Pond was formed In the deepest part, at the very bottom, there is the core of the sun and the moon that originally formed this altar of the sun and the moon, sinking at the very bottom."

Hearing this, Shang's eyes suddenly lit up and he said, "Is it true? Then let's go and investigate!"

Chapter 4060 Kernel

Wow!

At this time, Shang was so excited that he jumped into the water and came to Ye Feng's side.

Ye Feng immediately said: "Shang, let's go down and take a look."

"good."

Shang nodded immediately at this time.

One person and one dragon quickly lurked under the pond.

For Ye Feng and Shang, if they can really find the core formed after the sun and moon fell under this pool, then they will really make a lot of money.

Wow!

At this time, as Ye Feng and Shang continued to dive, they soon reached the deepest point.

At first glance, they saw two bright groups of light shining in a certain direction in the deepest part of the water.

They are a crimson light group and an icy blue light group.

Seeing this scene, Ye Feng suddenly showed deep surprise in his eyes and said loudly: "That red light group is definitely the core of the sun, and that ice blue light group is definitely the moon. Kernel."

Hearing what Ye Feng said, Shang looked at the two light groups in the distance and was extremely excited. He couldn't help but said loudly: "Hey, Mr. Feng, you really guessed it right. Under the water, The cores of the sun and the moon actually dropped, and we made a lot of money!"

At this moment, Ye Feng and Shang immediately flew towards the deepest part of the water without any hesitation.

But just at the moment when they were approaching the core of the sun and the core of the moon.

"boom!!"

Suddenly, a shadow with a bright light all over its body appeared and released a terrifying power, knocking both Ye Feng and Shang back in an instant.

"What??"

This made Ye Feng and Shang both look deeply shocked.

You know, the two of them are no longer the weak guys before, but have grown into earth-shaking strong men.

but

Even so, the phantom that was emitting thousands of rays of light just now sent them flying backwards.

This is really incredible.

"What kind of existence is that?"

At this moment, Ye Feng and Shang took a closer look and immediately saw the shadow that was emitting thousands of rays of light. Half of it was emitting red light, and the other half was emitting ice blue light.

Ye Feng immediately couldn't help but said with some astonishment in his eyes: "It is the spirit body condensed by the essence of the sun and the moon. I didn't expect that the spirit body of the essence of the sun and the moon with intelligence was born here, trying to prevent us from seizing the sun." Kernel and Moon Kernel."

Hearing what Ye Feng said, Shang couldn't help but said: "So, this essence of the sun and moon is born from the core of the sun and the core of the moon."

Ye Feng nodded and said, "That's right."

Shang immediately asked: "No wonder it is so powerful that it blew us away in one fell swoop. So what should we do now?"

Ye Feng spoke out at this moment: "This kind of essence of the sun and the moon completely relies on the power of the core of the sun and the core of the moon, so it can force us back. He did not kill us in an instant, which shows that he has no intention of killing us at all. It has no ability to kill us, it can only repel us, so we don't need to be too afraid. Now, Shang, you go and hold back this sun and moon essence spirit, and I will plunder the sun core and moon core. Then this sun and moon essence spirit The body naturally loses its source of power and becomes less threatening."

Shang naturally believed Ye Feng very much, and immediately said: "Okay, I will hold back this sun and moon essence spirit. Although his power is very powerful, the body of the Steel Dark Dragon King that I have now merged with him is also The very powerful dragons in the universe are made of divine iron, and they won't be able to kill me for a while."

boom!

At this moment, Shang was talking without any hesitation, and with a direct "ouch", he rushed forward and fought with

The essences of the sun and the moon, which were radiating light all over their bodies, were fighting together like crazy.

Rumble...

The whole place under the water was suddenly beaten to pieces, and the entire pool was about to evaporate from the terrifying fighting spirit.

Uh-huh!

At this moment, Ye Feng naturally did not waste any time. He directly used the power of the void and lurked in front of the two sun cores and moon cores not far away, the deepest part of the water.

At this moment, Ye Feng could feel that the core of the sun contained extremely terrifying hot power, which seemed to be able to melt people in an instant.

The core of the moon contains a very cold energy that can freeze people in an instant.

Sensing these two completely different energies, Ye Feng's eyes showed a hint of surprise.

Ye Feng knew that it was normal for the sun's core to contain hot power that could melt everything.

But I didn't expect that the moon's core contained such terrifying freezing power, which was a bit strange.

Because Ye Feng has known since he was a child that the reason why the moon shines is not because the moon itself can shine, but because it reflects the light of the star, the sun, so that the moon can emit moonlight.

Therefore, the energy contained in the moon should also be the hot energy of the sun's light attribute.

Unexpectedly, the inner darkness of this moon actually contains extremely cold frozen energy.

It was really unexpected for Ye Feng.

However, Ye Feng couldn't care so much at this time. He just stretched out his hands to pull out the core of the sun and the core of the moon from the mud at the bottom of the water.

Buzz!

But the next moment, Ye Feng exerted force and found that he could not pull out the sun core and moon core at all.

Obviously, these two seemingly very small cores are very dense, reaching an extreme point, so they are very heavy and have planets.

Generally heavy.

At this moment, Ye Feng did not hesitate and directly burst out the power of the gods in his hands.

The next moment, Ye Feng's hands suddenly emitted a bright golden light.

At this moment, Ye Feng released the power of the Celestial Clan. In his two hands, a huge amount of power suddenly burst out, and he lifted up the core of the sun and the core of the moon in front of him.

Then Ye Feng didn't hesitate at all, and immediately rushed towards the water.

Because the energy contained in the core of the sun and the core of the moon is so terrifying, it is almost like the energy of two planets is compressed into a small core.

Therefore, Ye Feng did not dare to put the sun core and moon core into his storage ring, fearing that his storage ring would expand and explode.

At this moment, Ye Feng rushed to the pond with the core of the sun in one hand and the core of the moon in the other.

The essence of the sun and moon that was fighting Shang instantly lost its source of power and simply dissipated.

Even though Shang has now transformed into the body of the Iron Dark Dragon King, he was beaten up by the essence of the sun and moon in the battle just now, and his face was bruised and swollen.

Obviously, the spirit body born from the core of the sun and the core of the moon is extremely terrifying, and its combat power is so powerful that even Shang can't resist it.

But in the end, Ye Feng and Shang plotted together to obtain the core of the sun and the core of the moon.

At this moment, although Shang received a beating, he was very happy and overjoyed. He immediately laughed and said loudly: "Great, let's share it equally."

Ye Feng nodded, threw the moon core to Shang, and then quickly swallowed the energy in the entire sun core.

"Gulu!"

Shang didn't hesitate at all, and now he was very vigorous. He directly swallowed the moon core in one gulp, hoping to quickly integrate the energy in the moon core into his body and increase his strength.
