Chapter 4061 Breakthroughs one by one

Buzz!

The moment Shang swallowed the entire core of the moon, his entire tens of thousands of meters long steel dragon body was suddenly enveloped in an icy blue cold air.

It was as if the entire body was about to be frozen.

Shang couldn't help but shudder immediately and said aloud: "It's so cold, but the energy in it is very pure and huge. This time it will definitely completely transform my cultivation. When the time comes, I will deal with this. The four top experts in the small world are much more confident."

While Shang was talking, Ye Feng, who was standing aside, felt the endless majestic energy exploding in his entire body after swallowing the entire core of the sun.

You know, this solar core is the core of the entire sun.

This is the core of the star bred by the heaven, earth, universe and nature.

Nature is very terrifying and contains a lot of energy.

So at this time, after Ye Feng swallowed the core of the sun, the bright golden sun light emitted from his body.

Then Ye Feng's skill suddenly continued to improve at an incredible speed.

"boom!"

Intermediate dominates the 47th floor!

"boom!"

Intermediate dominates the 48th floor!

"boom!"

Intermediate dominates the 49th floor!

"boom!"

Intermediate master reaches the fiftieth level of perfection! !

At this time, Ye Feng's skill had simply improved to an incredible level.

With the help of this extremely precious core of the sun, Ye Feng's cultivation was finally directly accumulated to the fiftieth level of intermediate domination, Great Perfection.

There is only the last step left to become a high-level master.

So at this time, Ye Feng's eyes showed deep joy.

I didn't expect my own cultivation level

Surprisingly, the breakthrough happened so quickly.

I originally thought that there were fifty small levels in the big realm of Intermediate Dominance, which made people feel very hopeless and would be a very long improvement process.

However, the various adventures in this small world made Ye Feng's cultivation improve very quickly.

In just a few days, he has been promoted to the fiftieth level of Great Perfection as an intermediate master, and is not far away from the high-level master.

Ye Feng couldn't help but marvel at himself. The improvement of his cultivation level was so fast, so fast that it was unbelievable.

One word, absolutely!

At this time, Ye Feng could feel that his combat effectiveness had been greatly improved.

I don't know how many times stronger than when I fought against the Demon Commander before.

At this time, Shang not far away also successfully integrated the core of the moon.

His dragon body seemed to have grown a lot bigger all of a sudden.

In addition, Shang's cultivation level has also improved a lot.

After all, the energy contained in the core of the moon is as majestic as the core of the sun.

Shang's cultivation level has also been greatly improved.

At this moment, Shang immediately burst into laughter and said loudly: "Feng Boy, thanks to your powerful soul master's induction this time, otherwise, the two cores of the sun and the core of the moon would be under this pool of water. Precipitating, I probably won't be able to discover it. I have swallowed a moon core now, which is greater than the accumulation of the sun and moon essence in this sun and moon pool in several years."

Shang was speaking at this moment, his tone full of excitement.

Obviously, this moon core brought Shang a huge improvement, which made Shang feel very happy.

Ye Feng was also embarrassed at this time.

There was a look of surprise on his face, and he said aloud: "Yes, these cores of the sun and the core of the moon are really good things, but these things are all bred by the heaven, earth, universe and nature. They can be encountered but not sought. It can only be said that the two of us were lucky,

and happened to encounter the core of the sun and the core of the moon, and fell into the deepest part of this pool. "

When he said this, Ye Feng clenched his fists, feeling the powerful surging power all over his body, and said loudly: "I have now entered the realm of the fiftieth level of great perfection of the intermediate master, and I should be able to deal with the high-level master. The profound ones exist, but as you said before, the four top powerhouses in this small world seem to be at least the existence of the 100th level of the Great Perfection of senior masters, so the two of us still have to join forces. Only then can we deal with them."

Hearing what Ye Feng said, Shang immediately nodded and said, "Let's deal with the best one among the four top powerhouses first."

When Ye Feng heard what Shang said, he immediately couldn't help but ask: "The Lord of Death in the Mountain of Death, the King of the Souls in the Swamp of Souls, the Dark Master in the Black Wind Forest, and the Holy Lord of Light in the Temple of Light, what are these Which of the four is the best to deal with?"

Shang smiled slightly and said aloud: "The Lord of Death in the Mountain of Death should be the best to deal with, because I have dealt with this Lord of Death before. A year ago, in order to find out the news, I went outside the Mountain of Death. , looking at the Lord of Death from a distance, he is a headless black knight wearing black armor, holding a very powerful ancient dark war spear in his hand. This headless black knight should be a powerful man who has been dead for many years. The Lord of Death who was transformed into a person, so he has no skills, only the power of his extremely powerful body, and the extremely ancient ancient dark war spear in his hand, so it is easier to deal with these four top powerhouses. Among them, the Holy Lord of Light in the Temple of Light is the most mysterious and unpredictable existence. Let's break through one by one and deal with the Lord of Death in the Sea of Death first."

Hearing what Shang said, Ye Feng immediately clicked

He nodded, and then followed Shang directly on the road.

For the next half day, Ye Feng and Shang flew quickly on the road.

One person and one dragon passed through a large stretch of wild forest, then passed through a large stretch of desert, and finally arrived at the end of the desert.

At the end of this desert, there is a stretch of mountains.

These mountains are emitting dark gas, which looks very dark and deep, giving people a feeling of infinite terror.

Ye Feng immediately said: "I sensed the strong aura of death. The mountains at the end of the desert in front of me should be the Mountain of Death."

Shang immediately nodded and said: "Yes, this stretch of mountains is the restricted area of life. The Mountain of Death is one of the four restricted areas of life in this small world. Many practitioners in the small world have In my eyes, this place is simply a forbidden area that cannot be entered."

And just as Shang was talking, Ye Feng and Shang suddenly saw a huge team appearing in the desert below.

Everyone in these teams was wearing uniform armor, as if they were a team from a certain cultivating dynasty.

At the front is an old man wearing a black dragon robe.

The old man wore a purple gold crown on his head, a dragon robe on his body, and held a golden sword engraved with dragon-shaped patterns in his hand. He looked very imposing.

Obviously, this is an old emperor who practiced the dynasty.

At this moment, high in the sky, Shang immediately smiled and said loudly: "It should be an old emperor from a certain cultivating dynasty in the mortal world in the small world. He is probably nearing his longevity, so he brought so many teams here. When you arrive at the Mountain of Death, you should want to enter the Mountain of Death and pick the legendary fruit of immortality to use it to restore your old body and try to live another life."

Chapter 4062 Headless guy

When Ye Feng heard what Shang said, there was a look of surprise in his eyes, and he said loudly: "Is there a fruit of immortality growing in the Mountain of Death? It's really ironic. A place that represents death can grow a fruit that can make people live forever." The magical fruit of immortality, is this real or fake?"

Shang shook his head and said, "I don't know either. I guess this old emperor who cultivates the dynasty is really desperate, so he wants to have a try in the forbidden area of the Mountain of Death."

While Shang was talking, Ye Feng sensed it and discovered that the cultivation strength of this old emperor of the dynasty was still very good.

It turned out to be a junior master.

Although the junior master is nothing in the eyes of Ye Feng and Shang now, he is simply too weak.

But in the ordinary world of secular cultivation, the junior master is already an extremely important person, an ancestor-level existence.

Therefore, this old emperor who practiced the dynasty was actually very powerful.

At this moment, in the desert below.

The old emperor was wearing a dragon robe, his eyes were filled with determination to die, and he was holding the golden sword in his hand. Suddenly, a wave of power burst out from his body, and with a roar, he rushed into the mountain of death. I want to find the legendary fruit of youth and live a new life.

But the moment the old emperor rushed into the Mountain of Death, his whole body immediately began to be entangled by a strange force.

Then it begins to wither quickly.

"No!!!"

Almost at this moment, the old emperor who cultivated the dynasty couldn't help but yell in horror.

The majestic mana in his body was of no use at all. His whole body immediately began to wither quickly and turned into a shriveled skeleton.

The light of the golden sword in his hand dimmed instantly, and was eroded by a strange force and turned into scrap metal.

Snap!

The extremely powerful and powerful man, the old emperor of the secular cultivation dynasty, completely fell.

The shriveled corpse fell from a high altitude into the depths of the Mountain of Death, leaving no intact corpse.

\u003e

"Ancestor!!"

A group of Cultivation Dynasty teams waiting outside were all yelling sadly at this moment.

Unexpectedly, the top ancestor in their dynasty entered this mountain of death and fell instantly.

It's so terrifying, it's worthy of being a restricted area of life.

"Look, what is that?"

But at this moment, countless practitioners in the team of this cultivation dynasty suddenly saw a young man in white clothes and a huge steel black dragon high in the sky, and they entered the Mountain of Death without any scruples. , disappeared in the blink of an eye.

The man and the dragon seemed to ignore the strange power in this mountain of death.

In the Mountain of Death, the terrifying and strange power that instantly wiped out the old emperor had no effect at all on that one person and one dragon.

This scene really made everyone present in this secular cultivation dynasty feel deeply horrified and boundlessly shocked.

"That one person and one dragon, what kind of terrifying existence must they be, ignoring the strange power in this restricted area of life?"

“What did they want to do when they entered the Mountain of Death??”

All the guards present in the Cultivation Dynasty were stunned into silence.

Everyone's hearts were in turmoil, and they couldn't calm down for a long time.

The seemingly ordinary man and dragon must have reached an extremely terrifying level of cultivation. They must be countless times stronger than their ancestors to be able to do this and ignore the strange power in the restricted area of life.

At this moment, a group of guards in this mortal cultivating dynasty looked at the beautiful woman in purple skirt standing on a unicorn monster in the front, and said in shock: "Princess Ziyun, look see it?"

This beautiful woman in purple dress is called Princess Ziyun,

Even though she was the most noble princess in the Great Xia Dynasty, her eyes showed deep shock at this time.

Princess Ziyun said slowly: "I saw it. The person and the dragon just now are probably transcendent existences that we can't guess at all. Those existences have transcended the world and even ignored the forbidden area of life and just broke in. Going in, it was so shocking.”

The surrounding guards immediately said excitedly: "Since we have encountered this kind of transcendent existence, if we can wait here for that kind of transcendent existence, and if we can talk to them, maybe we can let them save us. The Great Xia Dynasty, now that our ancestors are dead, if nothing can be done, our entire Great Xia Dynasty will be completely wiped out sooner or later by the army of dark monsters in the Black Wind Forest. "

Hearing what the guard beside her said, the beautiful Princess Ziyun immediately nodded heavily, looked at the mysterious figure of a man and a dragon disappearing, and said aloud: "Let's not go back yet, here we are. Wait, if we can really get those two transcendent beings to help our Building Dynasty, maybe our Building Dynasty can turn the crisis around. Even if there is only the slightest chance, we have to wait here. This is our Daxia The only chance for the dynasty."

At this time, Princess Ziyun and a group of guards from the Great Xia Dynasty were in despair when they saw that their strongest ancestor fell into the mountain of death in an instant.

Unexpectedly, they accidentally encountered the transcendent existence of the man and the dragon just now.

If you can talk to that kind of transcendent existence, you might be able to ask them to help their Daxia Dynasty.

Princess Ziyun murmured: "We continue to wait here. Among the two transcendent seniors just now, in addition to the terrifying dark dragon, there is also a figure who looks like a pretty handsome boy. Maybe It is the rejuvenated form of an old senior among our human race. Perhaps we can ask him to help our human dynasty, the Great Xia Dynasty."

The guard beside him immediately said: "But it is difficult to persuade such a transcendent existence to help us. After all, this kind of transcendent existence can't help us."

Existence, every one of them is like a dragon. They may not pay attention to us, a practicing dynasty in the mortal world. In their eyes, we may be just a group of ants. "

Hearing what the guard beside her said, Princess Ziyun's beautiful eyes also showed a hint of helplessness, and then she fixed her eyes and said loudly: "No matter what, we are waiting here, as long as there is a chance, we will If you want to catch her, even if you let me become a slave to an old human being, it will be worth it as long as you can save the Great Xia Dynasty."

While Princess Ziyun was discussing with a group of imperial guards around her, Ye Feng and Shang had already flown into the depths of the Mountain of Death.

They didn't know that there was a group of people from the imperial dynasty outside, waiting for them.

Even the princess of the Cultivation Dynasty had to work as a slave to Ye Feng, a "senior of the human race".

After all, in the eyes of Ye Feng and Shang, that kind of cultivation dynasty was simply irrelevant. They just looked at it casually and stopped paying attention.

After all, both Ye Feng and Shang are almost the top superpowers in this small world.

At this time, when they went deep into the mountains of Death Mountain, Ye Feng looked at the surrounding mountains and couldn't help but asked: "How to find the Lord of Death? There are too many mountains here, who can I don't know where he is."

When Shang heard Ye Feng say this, he just smiled and said, "This is simple."

Then I saw Shang immediately yelling in a very high-pitched voice, saying: "Lord of Death, headless guy, come out quickly! This Dragon Emperor is here to trouble you. Either surrender or die!"

"Headless guy?"

When Ye Feng heard Shang next to him calling the headless black knight the Lord of Death, the corners of his mouth twitched slightly.

Although he is indeed the headless black knight, calling him that is really a bit funny.

Ye Feng couldn't help but said: "Can you really call out the headless black knight by shouting like this?"

Chapter 4063 What a weapon

At this time, after Ye Feng finished speaking, Shang smiled very confidently and said: "Of course I can call out the headless black knight with this voice, because this headless black knight is the death of the entire Mountain of Death. Lord, whoever dares to step into the Death Mountain area where he lives will first be killed by the weird energy contained in this area. For example, the old emperor who rushed into the Death Mountain area withered instantly. If this strange power cannot kill the intruder, the headless black knight will naturally take action himself. "

After Shang finished speaking, a dark figure suddenly flew over from the mountains not far away.

When this figure flashed closer, Ye Feng immediately saw it. This dark figure was like a tall and majestic dark ghost. He was wearing dark armor and had no head. He was holding a huge weapon in his hand. The spear looks very scary.

Ye Feng knew immediately that this should be the Lord of Death of the Mountain of Death that Shang mentioned, the terrifying headless black knight.

Ye Feng could immediately sense that the aura emanating from this headless black knight was indeed as Shang said, very unfathomable.

He is worthy of being the master of the restricted area of life.

He is worthy of being one of the four top powerhouses in the entire small world.

Even if it is very likely that he is the weakest among the four top powerhouses, he is not something ordinary people can provoke.

But at this time, Ye Feng and Shang came here just to provoke this headless black knight.

Boom!

At this moment, Shang hadn't even said anything about asking the headless black knight to discuss the matter. The tall and majestic figure of the headless black knight, like a dark ghost, rushed in front of Ye Feng and Shang.

The ancient dark war spear in his hand was a very terrifying ancient weapon from the ancient times. It suddenly burst out with terrifying piercing power, as if it could tear the sky and shatter the wilderness. It suddenly bombarded Shang in front of him. .

Boom!

Terrifying power burst out from the ancient dark war spear.

Even though Shang possessed the body of the Dark Steel Dragon King, he still felt like he was being bombarded by the ancient dark war spear in the hands of this headless black knight.

severe pain.

Click!

A black scale on Shang's body was directly pierced and blood oozed out.

Shang immediately couldn't help shouting angrily: "You headless black knight, you don't have martial ethics! You didn't even say a word, you just took my life, I will fight you!"

At this moment, Shang immediately roared loudly, and a terrifying dragon power erupted from his body.

You know, Shang's current cultivation level is very terrifying, and he also has a level of about seventy or eighty as a senior master.

So at this moment, Shang fully unleashed his majestic power, which was naturally extremely terrifying.

The dark steel dragon body, which was tens of thousands of meters long and seemed to be made of steel, was full of strong visual shock. It suddenly collided with the headless black knight.

Boom! !

The entire field suddenly heard a crash like thunder, shaking the surrounding void to the point of shattering.

This attack is very terrifying.

After all, it is a battle between high-level masters.

Moreover, it is a battle between advanced beings among high-level masters.

Shang's cultivation power is at the 70th or 80th level of the Senior Overlord, and the cultivation of this headless black knight is at the 100th level of the Great Perfection state of the Senior Overlord.

Moreover, these two are not ordinary high-level masters. They both have their own methods, bloodlines, and abilities, which are very terrifying existences.

So the battle between them was naturally terrifying.

Ye Feng immediately wanted to take action.

But at this time, Shang shouted loudly and said: "Little Feng, don't take action yet, just hold the battle next to me. I want to challenge this headless black knight alone today and teach him how to be a good man!"

"All right."

Hearing Shang's domineering words, Ye Feng couldn't help but smile helplessly, but he also respected Shang, an old man.

Dude's choice.

Ye Feng immediately looked around, watching Shang duel with the headless black knight.

At this moment, a fierce battle was taking place on the field.

The ancient dark war spear in the hand of this headless black knight is truly terrifying, stronger than the steel dragon claws of the old demon dragon Shang that can cover the entire world.

At the end of the battle, Shang's dragon claws had cracks and seemed to be about to break.

"What a weapon!"

At this moment, Ye Feng was watching the battle. His eyes suddenly lit up when he saw the terrifying ancient dark war spear in the hands of the headless black knight.

This war spear is definitely an extremely ancient and terrifying weapon, capable of unleashing terrifying attack power.

And it is very strong. It is definitely a terrifying weapon made by a super big man in ancient times using special and incomparable high-grade materials.

The reason why this headless black knight is so ferocious is that in addition to his terrifying strength, the ancient dark war spear in his hand also helps a lot.

At this moment.

Boom!

A huge buzzer sounded immediately on the field.

Shang's steel dragon body, which was tens of thousands of meters long, suddenly flew out and hit the mountains not far away, smashing many mountains.

Shang was beaten once again by this headless black knight and his nose was bruised and his face was swollen.

Shang immediately shouted: "Feng Boy, I can't hold it anymore, hurry up!"

"good!"

At this moment, Ye Feng nodded immediately. Without any hesitation, he rushed directly to the sky and stood between Shang and the headless black knight.

"Um?"

The headless black knight seemed not to have thought that Ye Feng, a little human boy, would dare to block his attack.

After all, this headless black knight didn't even care about Ye Feng, a little human boy.

Because this headless black knight can sense that the cultivation aura on Ye Feng is only at the fiftieth level of the Intermediate Dominator.

It's a big difference.

Therefore, in the eyes of the headless black knight, Ye Feng, a human boy, is just a soy saucer.

He can be destroyed at any time.

The biggest threat is Shang. This king of monsters from the wild forest, a senior master on the 70th and 80th levels, is still worthy of the headless black knight's attention.

So the headless black knight didn't take Ye Feng seriously at all.

But he never thought that he would immediately kill the King of Monster Beasts in the Wild Forest, the Steel Black Dragon King.

But he didn't expect Ye Feng, a little human boy, to dare to block his way.

"Ants."

The headless black knight didn't even bother to speak. He smiled sarcastically. He held the ancient dark war spear in his hand, like a black lightning, and stabbed Ye Feng directly. He simply regarded Ye Feng as an ant and wanted to kill him. Killed in an instant.

"war!"

But at this moment, Ye Feng suddenly roared, and his two fists suddenly burst out with brilliant golden light. Both fists turned into pure gold, like golden fists that had just been cast from the

divine furnace. All of a sudden, it collided fiercely with the ancient dark war spear that was assassinating from the front.

Boom! !

It was accompanied by a terrifying roar.

The next moment, what shocked the headless black knight of the Mountain of Death was extremely shocking.

Ye Feng's two golden fists actually blocked his ancient dark war spear.

This pair of golden fists is even stronger than the Iron Black Dragon Emperor's dragon claws, and can block his terrifying impact and assassination.

It shows how terrifying Ye Feng's physique is, being able to withstand such a terrifying impact.

Simply incredible!

"this....."

The headless black knight suddenly froze in place.

He suddenly looked at Ye Feng in front of him and suddenly realized that this human boy who looked like an ant was probably more terrifying than the Iron Black Dragon Emperor, the king of monsters in the wild forest!

Chapter 4064 The carving up is complete

At this time, the headless black knight, the Lord of Death on the Mountain of Death, was shocked.

Because the power contained in Ye Feng's fists was so terrifying that it blocked the ancient dark war spear in his hand.

But at this time, Ye Feng didn't have any overly proud expression on his face.

Because he knew very well that the headless black knight's attack on him just now was just a very ordinary attack.

That's why I was able to block this ancient dark war spear with two fists.

Because the true power of this ancient dark war spear has not been unleashed. This kind of weapon is very terrifying and its attack power is very powerful. Once the true power of the weapon is released, it can split mountains and seas in an instant and shatter the sky.

So at this time, it was naturally impossible for Ye Feng to let this headless black knight burst out the true power of the ancient dark war spear.

Otherwise, his two fists may be somewhat unstoppable.

So at this moment, Ye Feng's two fists, emitting bright golden light, suddenly grasped the other end of the ancient dark war spear in the hands of the headless black knight in front of him, and then pulled it towards him. .

Obviously, Ye Feng wanted to snatch this ancient dark war spear by force.

Not only to make this headless black knight lose his weapons and weaken his strength.

In fact, just now, when Ye Feng watched Shang fighting the headless black knight, he already felt a deep liking for the ancient dark war spear weapon in the headless black knight's hand.

Therefore, Ye Feng wanted to plunder this extremely rare and powerful ancient dark war spear from the Headless Black Knight.

At this moment, feeling Ye Feng violently pulling the ancient dark war spear in his hand, the headless black knight immediately understood what Ye Feng was thinking.

This human boy probably wants to take his weapon away.

The headless black knight immediately shouted angrily: "You want to get my weapon. It's impossible. This weapon is so ancient that it has become one with me."

Boom!

Almost at this moment, the headless black knight suddenly burst out with the true power of the ancient dark war spear in his hand.

A dark and boundless energy was directly input from the palm of the headless black knight into the ancient dark war spear in his hand.

Rumble...

Almost at the next moment, the spear body of the ancient dark war spear

In the middle, an infinite and terrifying light of darkness suddenly burst out, directly shaking Ye Feng's fists away.

At this moment, Ye Feng immediately felt the danger and quickly retreated.

Almost at the next moment, the ancient dark war spear in the hand of the headless black knight suddenly grew longer, extending several thousand meters. In an instant, it stabbed in front of Ye Feng, trying to kill Ye Feng's entire body. pierce.

But at this moment, Ye Feng did not hesitate and directly released the super magic weapon he had obtained from the Murong family before, the Great Buddha Tower!

A "dang" sound!

The ancient dark war spear directly stabbed the Great Buddha Tower, making a fierce metallic roar.

But the ancient dark war spear did not pierce the Great Buddha Tower, but only left a tiny mark on the surface of the Great Buddha Tower.

Seeing this scene, Ye Feng immediately breathed a sigh of relief.

It seems that even if the Great Buddha Tower is lower-level than this ancient dark war spear, it should not be much lower-level.

Otherwise, the Great Buddha Tower will definitely not be able to stop the ancient dark war spear that explodes with all its power at this time, and will definitely be pierced in an instant.

But now, the ancient dark war spear only left a tiny trace on the surface of the Great Buddha Tower, and Ye Feng immediately became confident again.

The next moment, Ye Feng didn't hesitate at all. He directly input his huge mana, entered the Great Buddha Tower, and crazily activated the power of the Great Buddha Tower.

Boom!

At this moment, Ye Feng input all his magic power and entered the Great Buddha Tower. He immediately went crazy and activated all the magic power in the Great Buddha Tower.

At this moment, two terrifying rays of light suddenly erupted from the Great Buddha Tower.

Respectively, there is a dark and dark light.

There is also a golden Buddha light.

The power of Buddha and Demon was output again, and then merged together, directly transforming into a huge Buddha exuding black energy.

It can be said that this is a "Magic Buddha"!

Cover the sky

The huge magic weapon in the sun, carrying all the weapon power of the ancient super magic weapon of the Great Buddha Tower, instantly attacked the headless black knight in front.

Boom! !

It has to be said that this Great Pagoda is indeed one of the most powerful super magic weapons in the Murong family. At this time, Ye Feng inputs mana with the vast cultivation base of the intermediate master of the fiftieth level of Dzogchen, which directly makes the Great Pagoda explode. He gathered the strongest power and condensed a towering demon that reached the sky, possessing the power of ancient Buddhas and demons.

The demon that covered the sky and the sun looked holy and dark, and attacked crazily towards the headless black knight.

The terrifying roar is endless.

At this time, even the headless black knight was temporarily unable to resist the crazy attack of this terrifying demon.

At this time, the headless black knight couldn't help but screamed in horror: "This is impossible! Boy from the human race, your cultivation level is a whole level lower than mine, and you are only the fifth-level master of the intermediate level. The tenth level, and I am the 100th level of high-level master, how can it be possible that your power is more terrifying than mine?"

Hearing the words of the headless black knight, Ye Feng just smiled coldly and didn't say much at all.

Next, Ye Feng continued to input his immense mana, entered the Great Pagoda, and crazily suppressed the headless black knight.

But it cannot be killed.

However, Shang was not far away and had regained his strength. At this moment, he was directly launching a sneak attack on the headless black knight.

Boom!

Shang's steel dragon claws immediately grabbed onto the back of the headless black knight.

Although this headless black knight is wearing dark armor, Shang's steel dragon claws are also very terrifying.

Moreover, at this time, Shang also added the power of martial arts inheritance to his steel dragon claws.

So this moment.

Only a "click" was heard.

The dark armor on the back of the headless black knight was instantly scratched to pieces by Shang's steel dragon claws, directly piercing the entire body of the headless black knight.

"ah!!"

At this moment, the headless black knight suddenly let out an earth-shattering scream.

The whole stalwart figure

, fell instantly from a high altitude, and was unexpectedly attacked by Shang and killed with one blow.

But the most important thing is that he has been suppressed by Ye Feng using the power of the Great Buddha Tower, so Shang had the opportunity to sneak attack and deliver a fatal blow.

The lord of the restricted area of life, the lord of death, has completely fallen!

Shang immediately laughed heartily and said, "Little Feng, if we join forces, we are invincible!"

When Ye Feng saw the fallen headless black knight, there was a hint of wonder in his eyes.

Unexpectedly, he and Shang teamed up to really kill a high-level master who was on the 100th level of Dzogchen.

You must know that the Dark Yuan Zun, who originated from the Dark Demon Cult in the big world, was a high-level master-level existence.

At that time, in Ye Feng's eyes, the senior master was definitely a top-notch figure who could not be disobeyed at all.

Unexpectedly, just a few years later, he was able to kill a transcendent being at the 100th level of Dzogchen, a senior master.

However, Ye Feng also knows that as the world rules of the Origin World continue to revive, whether it is the Dark Yuan Zun, the Dean of the Heavenly Book, or the masters of the major forces in the Origin World, their cultivation bases will skyrocket, and he cannot take it lightly.

Ye Feng guessed that the current Dark Yuan Zun of the Dark Demon Sect may have already surpassed the high-level master, and may have entered a powerful realm above the master.

While Ye Feng was thinking secretly in his heart, Shang smiled and said, "There is a dark mine vein where the headless black knight lives. Let's go there and explore it."

Ye Feng did not hesitate and took the fallen headless black knight's weapon, the ancient dark war spear, into his own hands.

As for the headless black knight itself, because it is a creature with the attribute of death, it has no blood energy and no energy to devour it.

So Shang obtained the entire strong body of the headless black knight and said that he would refine the headless black knight into a puppet.

One person and one dragon, after the division was completed, they flew directly towards the depths of the Mountain of Death.

Because Shang said that the place where the headless black knight lives has a dark mineral vein. If it is found and the huge mineral energy is obtained, the power of the two of them will definitely skyrocket.

Chapter 4065 Next Target

When heading to the deepest area of the Death Mountain, looking for dark mineral veins.

Ye Feng held the ancient dark war spear in his hand, with deep joy in his eyes.

This war spear is very terrifying, very precious, and priceless.

Before, when the headless black knight fought Shang, Ye Feng had already seen the powerful attack power of this ancient dark war spear.

And for Ye Feng, this kind of completely offensive weapon is very suitable for Ye Feng.

Because Ye Feng is now constantly tempering his flesh and blood body, allowing his immortal body of gods to gradually evolve and transform rapidly in the direction of Great Perfection.

Therefore, Ye Feng actually specializes in extremely ferocious attacks, and his fighting style is very similar to that of the Headless Black Knight.

Therefore, Ye Feng obtained this extremely powerful ancient dark war spear, which naturally has huge benefits for improving Ye Feng's combat effectiveness.

And Ye Feng knew that the level of this ancient dark war spear must be higher than that of the Great Buddha Tower.

Because the ancient dark war spear had previously attacked the Great Buddha Tower, leaving a tiny trace on the surface of the Great Buddha Tower.

Therefore, it shows that the material of this ancient dark war spear is more advanced than that of the Great Pagoda.

However, the power of the Great Buddha Tower seems to be even more majestic, because it contains the fusion power of Buddha and demon, which is very special.

Anyway, both are weapons with their own strengths.

Now that Ye Feng has obtained this ancient dark war spear with very powerful attacks, he is naturally very happy.

At this moment, Shang, who was leading the way, suddenly said: "Let's land quickly."

Ye Feng immediately followed Shang and landed below.

The next moment, one person and one dragon suddenly saw that there was a huge pothole in front of them.

In this pit, the light of dark power is emitting everywhere.

All these lights are emitted from the stones in this pit.

Shang immediately said excitedly: "There is indeed a dark mineral vein in the deepest area of the Mountain of Death. The reason why this headless black knight can become so powerful is entirely due to the absorption of this dark mineral vein. The dark energy is constantly tempering his body."

After Shang finished speaking at this time, he sensed it carefully and couldn't help but shake his head and said: "This dark vein was originally very huge, but I didn't expect that the headless black knight on his back had already used more than half of it. Now it's only The remaining half, Feng Xiaozhi, let's split it equally."

Ye Feng naturally had no objections.

This time, he and Shang join forces to attack the top powerhouses in this small world and divide the wealth. Naturally, it is the most reasonable and fair way to share it equally with each other.

After all, brothers also settle accounts.

So at this time, Ye Feng didn't have any objections and just jumped into the pothole with Shang.

Then one person and half began to dig the dark veins.

Next, Ye Feng simply stopped digging to avoid wasting time.

boom!

Ye Feng directly released the Devouring Domain on the spot and began to devour it.

Seeing Ye Feng do this, Shang also gave up digging, feeling that it was a waste of time.

Wow!

Shang directly opened his bloody mouth like steel and ate the remaining half of the dark mineral veins one by one.

At this moment, Ye Feng felt the very powerful and majestic dark energy as he swallowed it. He immediately absorbed it from the dark mineral veins and injected it into his Dantian.

Let Ye Feng's whole body of skills quickly and continuously grow stronger again.

You know, Ye Feng's current cultivation level has broken through to the fiftieth level of Intermediate Dominance, Great Perfection.

Therefore, it is very difficult for Ye Feng to cross a big realm.

If you relied on ordinary cultivation, it would probably take several years to achieve a breakthrough.

But now with the help of the majestic dark energy in this dark mineral vein, the skill in Ye Feng's body is growing at an incredible speed.

Even a bottleneck of a large realm is very difficult to break through.

At this time, with the help of the dark energy in the majestic mineral veins, Ye Feng also felt that his bottleneck was about to loosen.

"Boom!!"

Finally, at a certain moment, Ye Feng's body suddenly burst out with a terrifying aura of cultivation.

Ye Feng successfully crossed the most difficult bottleneck, directly from the intermediate dominator to the fiftieth level of perfection, and stepped half a step into the advanced dominator!

Buzz!

As Ye Feng stepped into the high-level domination with one foot, even if it was only half a step to high-level domination, Ye Feng could feel his own strength, and he didn't know how much he had improved.

His fighting ability has naturally improved greatly.

At this time, as the old demon dragon not far away devoured the dark mineral veins, its aura also increased a lot, and it was directly promoted to the ninetieth level of the advanced master.

Shang immediately laughed out loud with great excitement: "Quack! Sure enough, looting is the best way to quickly accumulate and improve!

"

Ye Feng nodded slightly at this time, put the ancient dark war spear on his back, and then said loudly: "Who is our next target?"

Shang spoke up at this time: "The next target is the leader of another restricted life area, the Black Wind Forest, the Dark Master. This Dark Master of the Black Wind Forest has learned ancient black magic and has lived a whole life. Tens of thousands of years old, very ancient and terrifying, and mastered many forbidden arts. It is much more difficult to deal with than a reckless man like the Lord of Death, but compared to the weird King of the Souls in the Swamp of the Souls, and the unfathomable light. The Holy Lord of Light of the Divine Religion is naturally more relaxed, so the second person we have to deal with is naturally the Dark Master of Black Wind Forest."

When he said this, Shang glanced at Ye Feng and said loudly: "Boy Feng, don't have any psychological burden. The masters of the life restricted areas I want to deal with are all big demon kings who have done many evil things. Put them Killing them all would be considered as justice for heaven."

Hearing what Shang said, Ye Feng just grinned and said: "Since I entered the world of spiritual practice, it has become more and more difficult for me to distinguish between right and wrong. I stand in different positions and have different opinions. So in the end, there is only one thought left, that is, let yourself live well and protect the friends and relatives you want to protect. "

After saying that, Shang just grinned, nodded, and flew directly into the sky, flying quickly towards the outside of the Death Mountain.

Ye Feng also quickly followed.

And this time, just when they flew out of the edge of the Death Mountain. .??.

Suddenly a large team appeared in front.

"Is it that group of mortal cultivators from the imperial dynasty?"

Ye Feng and Shang's eyes suddenly showed surprise.

This group of teams was exactly the group of people from the mundane world's cultivation dynasty that they had just seen when they entered the Mountain of Death.

Shang's towering steel dragon body, which was tens of thousands of meters tall, exuded a dark demonic energy that covered the sky and the sun. It was unparalleled in majesty, like a dark god. He said to the front: "You ants, you are so brave, dare to block me. The way to go."

The power of Shang was really too great. The dark steel dragon body, tens of thousands of meters long, hovered high in the sky, blocking out the sky and the sun. It was so oppressive that the group of ordinary masters of the dynasty in front of them were all stunned. There was a horrified expression on his face, and he almost fell to his knees on the ground.

But at this time, Princess Ziyun of the Cultivation Dynasty, who was standing at the front, stepped forward very respectfully, with deep awe in her beautiful eyes, and said loudly: "Please also invite the magic dragon Your Excellency, please forgive us for being rude. I am from the Great Xia Dynasty.

Princess Ziyun, this time I am anxiously waiting for the two seniors here to talk to the human senior among the two seniors. I hope that the human senior next to the Demon Dragon Emperor can listen to what I have to say. , this will be my greatest honor. "

I have to say that what Princess Ziyun said was very sincere and she also kept her attitude very low.

But there is no way. Although Princess Ziyun is a distinguished princess of a super cultivating dynasty like the Great Xia Dynasty, in the vast territory of the Great Xia Dynasty, Princess Ziyun may be inferior to one person or superior to ten thousand people.

But in front of the lord of the restricted area of the Demon Dragon Emperor's level, he naturally had to keep his posture very low.

Because Princess Ziyun knew very well that she was indeed just an ant-like existence in front of such a taboo existence.

Ye Feng, who was standing next to Shang, had a look of interest in his eyes. He stared at the extremely beautiful Princess Ziyun in front of him and said loudly: "Do you have anything special to tell me? Here you go. After waiting for so long, I see that you have a good attitude, so I'll let you say one word, but just one sentence, if you can't attract me, then I will leave directly, so don't waste my time anymore."

When Princess Ziyun heard what Ye Feng said, she immediately felt as if she had received a huge gift. A deep smile of joy suddenly appeared on her beautiful and noble face, and she quickly said: "Senior, we are the same human race. , now the Great Xia Dynasty of our human race has encountered a huge crisis, and is about to be wiped out by countless armies of dark monsters in the Black Wind Forest. For the sake of being a human race, seniors, please come to the rescue. Seniors With my unparalleled cultivation, those armies of monsters will definitely be wiped out in a snap. Moreover, I will definitely not let my predecessors do it in vain. The most precious treasure of our Great Xia Dynasty, the Holy Grail of the Human Emperor, which is said to have been left over from the age of gods, is contaminated. I have acquired the breath attribute of the gods and am willing to dedicate it to my senior. Moreover, if my senior does not dislike it, this princess of the Great Xia Dynasty is willing to follow my senior and work as a slave. As long as my senior takes action to save our Great Xia Dynasty. !"

It has to be said that at this time, in order to get the help of Ye Feng, a transcendent being, Princess Ziyun completely risked her life.

Although she is a peerless princess of the Cultivation Dynasty and the number one goddess in the entire Great Xia Dynasty, in the face of a transcendent existence like Ye Feng, she may only be able to invite such a dragon by dedicating everything of herself. A transcendent existence that sees the beginning but not the end.

After all, being able to walk side by side with the Lord of the Wild Forest, the Demonic Dragon Emperor, this seemingly young boy is definitely a terrifying existence.

In the eyes of Princess Ziyun and a group of experts from the Great Xia Dynasty, Ye Feng may have become that kind of old monster from the human race who survived from ancient times and has a lifespan of tens of thousands of years.

Chapter 4066 Daxia Dynasty

So at this time, Princess Ziyun naturally responded to Ye Feng's requests.

At this moment, when hearing Princess Ziyun in front of him say this, Ye Feng's eyes showed a hint of interest.

Ye Feng was not interested because Princess Ziyun wanted to be his slave.

But just now, Ye Feng heard what Princess Ziyun said. In their Great Xia Dynasty, there was an ancient thing passed down from the era of gods, called the Holy Grail of the Human Emperor, which seemed to be contaminated with the breath of living things.

If you put it this way, this Holy Grail of the Human Emperor might contain a divine substance, which would allow you to temper your immortal body as a god.

This made Ye Feng very interested.

Because Ye Feng's biggest trump card now is his immortal bone.

Therefore, Ye Feng naturally wanted to temper his body to its strongest state as soon as possible.

In that case, you will be invincible.

Therefore, once Ye Feng encounters a divine substance, it is naturally impossible for him to give up.

What's more, this Holy Grail of the Human Emperor is something that is delivered to your door, so it is impossible not to refuse it.

So at this time, Ye Feng looked at the very low-profile Princess Ziyun in front of him, and a group of masters from the Great Xia Dynasty, nodded slightly, and said loudly: "It just so happens that next, I and my partners will deal with the darkness of the Black Wind Forest. Archmage, just go and have a look at your Daxia Dynasty."

Hearing what Ye Feng said, Princess Ziyun's beautiful face suddenly showed a look of deep joy, and she quickly said: "Senior is willing to go to our Great Xia Dynasty, that would be great."

After finishing speaking, Princess Ziyun immediately looked at the group of guards from the Great Xia Dynasty beside her and said loudly: "Let's go back to the dynasty."

At this time, Princess Ziyun's tone was very excited and excited.

Because of the transcendent existence of Ye Feng, this extremely powerful "old-timer" of the human race, if he is willing to go to their Great Xia Dynasty, then their Great Xia Dynasty will definitely be saved.

\u003c

\u003e Because Princess Ziyun knows very well that the Great Xia Dynasty may be an extremely huge dynasty in the eyes of some practitioners in the mortal world.

But in the eyes of Ye Feng and Demon Dragon Emperor, it is just a land of ants.

Therefore, if these two terrifying beings could be brought back to the Great Xia Dynasty, then absolutely no one in the Great Xia Dynasty would dare to attack them.

At this time, Shang looked at Ye Feng beside him and asked with some doubts: "Boy Feng, are you really attracted to this Princess Ziyun of the Great Xia Dynasty? If you really If you want maids, I have plenty of them. In my wild forest, there are many transformed demon women, all of whom are very beautiful. I'll give it to you, Feng Boy."

When Ye Feng heard what Shang said, he immediately couldn't help but smile helplessly and said aloud: "For this Great Xia Dynasty, the Holy Grail of the Human Emperor left over from the ancient times, that kind of ancient thing, was contaminated. The breath of the gods may contain divine substances, which will be of great benefit to my physical improvement, because I need the divine substances to absorb and temper my body. "

Hearing what Ye Feng said, Shang immediately showed a look of surprise in his eyes, and then couldn't help but said: "I understand."

Next, Shang didn't say anything more and just followed Ye Feng.

At this moment, among the large group of Daxia Dynasty troops leading the way, Princess Ziyun glanced behind her secretly and saw Ye Feng and Shang, both of whom were following her, with a trace of excitement in her eyes.

Because for Princess Ziyun, she originally just invited Ye Feng, a senior human race, to go to their Great Xia Dynasty.

Unexpectedly, the taboo-like Demon Dragon King in the wild forest also followed.

This is simple

It's like killing two birds with one stone.

At this time, Princess Ziyun was increasingly shocked by Ye Feng's identity.

Who is this senior human being? It is really shocking that the Demonic Dragon Emperor, the master of the restricted area of life in their world, is willing to follow him and never leave him.

Next, under the leadership of many teams from the entire Daxia Dynasty, Ye Feng and Shang quickly traveled across a large area of the desert and came to the other end of the desert.

In the direction of the other end, a huge oasis appeared, with various ancient trees growing everywhere, all covered with green grass and full of vitality.

In the center of this oasis stands a huge building.

That group of buildings was surrounded by huge walls.

At this moment, Princess Ziyun immediately made an introduction and said: "Two seniors, that is where our Great Xia Dynasty is located."

Hearing what Princess Ziyun said, Ye Feng immediately nodded slightly, then moved his eyes and looked into the distance.

He immediately discovered that this side of the Great Xia Dynasty was an oasis.

On the other side, there was an extremely dark and dense forest.

That should be the Black Wind Forest.

It is one of the four restricted areas of life in this small world.

The dark mage that Ye Feng and Shang want to deal with lives in this dark wind forest.

In fact, the reason why Ye Feng came to the Great Xia Dynasty this time was not just for the treasure of the Mansion Dynasty, the Holy Grail of the Human Emperor.

In addition, Ye Feng also wanted to ask people about the Black Wind Forest through the people of the Great Xia Dynasty.

After all, the Great Xia Dynasty has stood here for so many years and is so close to the Black Wind Forest, so it should know the Black Wind Forest very well.

r\u003e

It is wise to make a wise choice by understanding the situation in advance.

At this moment, Princess Ziyun and a group of guards from the Great Xia Dynasty, together with Ye Feng and Shang, soon arrived at the mansion dynasty.

Although the Great Xia Dynasty was a cultivating dynasty in the mortal world, it was definitely the top super power in the mortal world.

After all, their ancestors have all entered the primary master realm.

Therefore, all the buildings in the entire Daxia Dynasty were very majestic and looked very impressive.

When Princess Ziyun brought Ye Feng and Shang to the interior of the Great Xia Dynasty, they immediately saw densely packed towering buildings dotting the territory of the Great Xia Dynasty.

Moreover, in the entire imperial city of the Great Xia Dynasty, there was an extremely huge spirit-gathering formation, which gathered all the energy of the surrounding world. It was still very large.

However, Ye Feng and Shang are both people who have seen big scenes, and their current cultivation levels are also very terrifying, so they are no longer surprised by these.

At this time, Ye Feng and Shang were expressionless as they followed Princess Ziyun to the central area of the Imperial City of the Great Xia Dynasty.

The royal palace of the Daxia Dynasty is located here.

Under the leadership of Princess Ziyun, the group of people landed in the palace smoothly and arrived at the square inside the palace.

At this moment, Princess Ziyun immediately said: "I will take the two seniors directly to see the emperor of our mansion dynasty, who is my father."

Ye Feng naturally had no objections at this time.

He came here just to get the Personal Imperial Holy Grail.

So Ye Feng immediately nodded and said: "Okay, then you can lead the way and go to meet the emperor of your Great Xia Dynasty. I happen to have some things to ask him about the Black Wind Forest."

Chapter 4067 Timid

At this moment, hearing what Ye Feng said, Princess Ziyun immediately showed a look of joy on her face and said loudly: "Okay, then I will take the two seniors to see my father."

After saying that, Princess Ziyun took Ye Feng and Shang directly towards the palace ahead.

When they passed through the glorious palace gate, they immediately came to the main hall inside the palace.

At this time, a very majestic middle-aged man wearing a golden dragon robe was sitting on the top dragon chair.

Obviously, this person is the emperor of the Great Xia Dynasty.

But at this time, in the inner hall of the Great Xia Dynasty's palace, in addition to the emperor, there were also a group of figures wearing black robes.

These figures in black robes were all wrapped in black robes. They exuded a strange and dark aura, which made people very uncomfortable. They didn't know their identities.

At this time, it was obvious that something very secret was being discussed in the hall.

The emperor of the Great Xia Dynasty immediately shouted sternly at Princess Ziyun who came in from the door: "Ziyun, you cannot break into the hall without my permission. Hurry and get out."

At this moment, when the emperor of the Great Xia Dynasty said this, Princess Ziyun couldn't help but said: "Father, you don't know, this time I invited two very powerful seniors. With this With the help of these two seniors, our Daxia Dynasty will definitely be able to repel the attack of the army of warcraft in the Black Wind Forest."

Hearing what Princess Ziyun said, the emperor of the Great Xia Dynasty seemed to change his eyes slightly, and said quickly: "We will talk about this later, now hurry up and get out."

Obviously, the emperor of the Great Xia Dynasty simply did not believe that the little Princess Ziyun could bring back a so-called senior who could fight against so many terrifying armies of monsters.

You know, the emperor of the Great Xia Dynasty knew very well that the Black Wind Forest was a very terrifying restricted area for life.

The army of warcraft among them were all trained by the mysterious dark mage.

Their Great Xia Dynasty simply couldn't resist.

In these halls, the figures in black robes who were talking and discussing matters with the emperor of the Great Xia Dynasty were actually several transformed monsters from the Black Wind Forest.

All of them are subordinates of the dark master.

Obviously, the emperor of the Great Xia Dynasty seemed to have completely given up on resisting the army of warcraft in the Black Wind Forest, and was about to surrender and compromise under the rule of these armies of warcraft.

At this time, Princess Ziyun seemed to have seen something. She couldn't help but exclaimed: "Father, these figures in black robes all exude the breath of black magic in the Black Wind Forest. Are they? Is it a monster from the Black Wind Forest? Father, what are you going to do? Are you going to betray our entire human race?"

"presumptuous!"

Hearing Princess Ziyun's question, the emperor of the Great Xia Dynasty immediately stood up from the dragon throne angrily, and then shouted loudly: "Get out of here, don't think you are my daughter, You can be unscrupulous, this matter is not something you can interfere with, and you are not qualified to interfere. "

After finishing speaking, Princess Ziyun's face was very pale, and her beautiful face was filled with a look of deep disbelief.

She never seemed to have thought that her father, who was unparalleled in her mind, would one day completely betray the human race and surrender to the Black Wind Forest.

In front of these powerful monsters.

At this moment, those figures in black robes were obviously powerful monsters in the Black Wind Forest.

They just smiled coldly and said aloud: "Emperor of the Great Xia Dynasty, you made a completely wise choice. From now on, as long as you pay tribute to our Black Wind Forest 100,000 human slaves with sufficient blood every year, your Great Xia Dynasty will temporarily You can live here safely, our army of monsters in the Black Wind Forest will not attack you."

Hearing what the black-robed figures in front of him said, the Emperor of the Great Xia Dynasty showed a hint of fear in his eyes, and then said, "Okay, I promise you."

"no!"

Hearing what the Emperor of the Great Xia Dynasty said, Princess Ziyun, who was at the door not far away, couldn't help but said angrily: "Father, are you just going to succumb to these cruel armies of monsters? And you actually... You want to pay a tribute of 100,000 human beings to these monsters every year? Father, you are too weak. Even if all of us in the Great Xia Dynasty die on the battlefield, you cannot do this. It is too shameful and humble. "

Obviously, the emperor of the Great Xia Dynasty was very timid and a coward.

Even Princess Ziyun is very strong.

At this time, after hearing what Princess Ziyun said, the Emperor of the Great Xia Dynasty had not said anything yet.

Among the group of men in black robes transformed by monsters, there was a man in black robes who could not help but stare at Princess Ziyun at the door not far away.

He sneered and said: "A little human ant dares to talk nonsense here, I will die!"

Boom!

Almost at that moment, the man in black robe suddenly burst out with a terrifying power.

That is exactly the terrifying aura of Warcraft.

It turned out to be a junior master level existence!

It has to be said that the cultivation strength of this group of monsters from the Black Wind Forest is indeed very terrifying.

No wonder the emperor of the Great Xia Dynasty was so frightened that he directly agreed to this humiliating request.

At this moment, the black-robed man in the form of a monster stretched out a hand.

That hand turned out to be a huge black bear paw. The claws were as if they were made of black steel. It was very terrifying. It was grabbing at Princess Ziyun in an instant, trying to kill Princess Ziyun in an instant. Kill.

Buzz!

But suddenly at this moment, a huge steel dragon claw stretched out from Princess Ziyun's back.

All of a sudden, it collided with the black bear's paw.

Click!

The bear claw extended by this black-robed man in the form of a terrifying monster was instantly shattered by the steel dragon claw.

"ah!"

This black-robed man who came from the Black Wind Forest and took the form of a monster immediately couldn't help but scream.

One of his bear paws was completely broken.

"What??"

The surrounding men in black robes, who were also in the form of monsters, immediately looked at the back of Princess Ziyun with horror in their eyes.

"That is....."

The next moment, they saw a huge steel dragon walking in from outside the hall.

It is sorrow. At this moment, hearing what Ye Feng said, Princess Ziyun immediately showed a look of joy on her face and said loudly: "Okay, then I will take the two seniors to see my father."

Chapter 4068 Transcendent Existence

"The Demonic Dragon King of the Wild Forest?"

In the palace hall, there was a burst of exclamations.

Obviously, this group of black-robed men transformed into the top monsters of the Black Wind Forest knew Shang.

Their eyes immediately filled with fear, and then they said aloud: "Demon Dragon Emperor, why do you want to help this ant of the Great Xia Dynasty? We in the Black Wind Forest seem to have no grudges against you, and you have to know that we The master behind it, the Dark Master, is much more powerful than you, the king of monsters in the wild forest. You dare to provoke our Black Wind Forest, but it is an unwise choice. "

Shang didn't have any fear at all, he just smiled carelessly and said: "What if I provoke you? You are just minions under the Dark Master, and you dare to reprimand me? How brave are you? too big."

Buzz!

At this moment, Shang was very domineering. He took action quickly and stretched out a steel dragon claw in an instant, directly killing the black-robed man who had threatened him just now.

Then the dead man in black robe instantly transformed into his original form and lay on the ground.

It turned out to be a huge demonic bear covered with black scales, with two huge horns on its head.

"you.....!"

Seeing that Shang killed one of their companions in one fell swoop, the remaining men in black robes yelled angrily: "Devil Dragon Emperor, you are so presumptuous, we can't They are all top-level monsters carefully cultivated by their master. If you kill us top-level monsters like this, when the master comes, he will definitely kill you. Although you and our master, the Dark Master, are among the masters of the four life restricted areas, Our master has surpassed the realm of domination, and it is absolutely easy to kill you, the Demonic Dragon King!"

"Oh? Has the Dark Master now transcended the realm of domination? Has he entered a level above domination?"

Suddenly at this time, a young man dressed in white and snowy clothes walked out from behind Princess Ziyun.

It was Ye Feng.

At this time, Ye Feng stared at the remaining black-robed men in the form of top-level monsters, and immediately said: "Then you don't have to leave, stay and get all the information about the dark mage in the Black Wind Forest." , all told me truthfully, it seems that this trip was correct."

After saying that, Ye Feng directly stretched out his hand and grabbed the black-robed men who had transformed into top-level monsters, hoping to capture the henchmen of these dark archmages.

In this case, we can better deal with the terrifying existence of the Dark Master.

But at this time, the remaining black-robed men in the form of top-level monsters suddenly said sarcastically: "The Demon Dragon Emperor is just provoking us. You, a little unknown human kid, can't do it." Dare to deal with us? You are really asking for death."

Boom!

At this moment, these black-robed men transformed into top-notch monsters burst out with terrifying cultivation auras.

All of them are at the junior master level.

There is even an intermediate domination level being who is very powerful.

But in the next moment, what frightened them to the extreme was that Ye Feng, a seemingly unknown human boy, stretched out a hand.

That hand was like a god's hand that covered the sky and the sun, suppressing all their cultivation momentum at once.

\u003e Then their entire bodies were unable to move and were banned by Ye Feng in an instant.

"What??"

"How can this be??"

"Our strength cultivation was all blocked in an instant. What kind of terrifying cultivation is this to be able to do this?"

At this moment, after feeling all this, these top Warcraft experts from the Black Wind Forest suddenly revealed a look of deep horror in their eyes.

They were simply stunned, staring at this ordinary-looking young man in white clothes, with expressions of extreme horror on their faces.

They suddenly discovered that the cultivation of this seemingly unknown young man in white seemed to be even more unfathomable than that of the ferocious Demonic Dragon King.

"How can this be?"

"When did such a terrifying human transcendent existence appear in our world?"

A group of top Warcraft experts from the Black Wind Forest were simply shocked to the extreme at this moment, with dull looks of shock on their faces.

At this time, the most shocked person was actually the emperor of the Great Xia Dynasty.

He never thought that his daughter, Princess Ziyun, such an ignorant young person, would actually bring back these two terrifying transcendent beings.

One is the world-famous Iron Demon Dragon Emperor, the master of the restricted area of life in the wilderness.

The other young man in white clothes, Sheng Xue, has a mysterious identity and a mysterious origin, but he seems to be even more terrifying and terrifying than the Iron Demon Dragon Emperor, the lord of the restricted area.

"What exactly is going on??"

The emperor of the Great Xia Dynasty was immediately stunned.

He even couldn't help but his legs went weak and he fell down on the dragon chair.

Everything that happened in front of him was far beyond the expectations of the emperor of the Great Xia Dynasty.

At this time, even the emperor of the entire dynasty didn't know what to do.

Because he knew that although he was the emperor of a super cultivating dynasty, he was nothing more than an ant in front of such a transcendent existence.

So at this time, the timid emperor of the Great Xia Dynasty could only shrink his head and did not dare to say anything.

At this moment, Ye Feng walked directly in front of the controlled Warcraft masters.

Uh-huh!

At this moment, Ye Feng waved his hand, and these powerful Warcraft men suddenly levitated into the air, floating in front of his eyes.

"you....."

"who are you?"

At this moment, the eyes of these powerful Warcraft warriors were filled with deep shock and horror.

They stared at the young man in white clothes and snow in front of them, their voices full of disbelief, as if they didn't understand why such a heaven-defying human transcendent existence suddenly appeared in the world of cultivation.

However, this group of monsters probably never imagined that Ye Feng was not from their small world of cultivation at all, but from the outside world.

At this time, Ye Feng was too lazy to talk nonsense. He stared at the few powerful Warcraft men in front of him and said lightly: "Information about the dark mage behind you, including his various trump cards, true cultivation, and Please tell me the exact location of your habitat, otherwise, you will move your head." "The Demonic Dragon King of the Wild Forest?"

In the palace hall, there was a burst of exclamations.

Obviously, this group of black-robed men transformed into the top monsters of the Black Wind Forest knew Shang.

Their eyes immediately filled with fear, and then they said aloud: "Demon Dragon Emperor, why do you want to help this ant of the Great Xia Dynasty? We in the Black Wind Forest seem to have no grudges against you, and you have to know that we The master behind it, the Dark Master, is much more powerful than you, the king of monsters in the wild forest. You dare to provoke our Black Wind Forest, but it is an unwise choice. "

Shang didn't have any fear at all, he just smiled carelessly and said: "What if I provoke you? You are just minions under the Dark Master, and you dare to reprimand me? How brave are you? too big." .???.??

Buzz!

At this moment, Shang was very domineering. He took action quickly and stretched out a steel dragon claw in an instant, directly killing the black-robed man who had threatened him just now.

Then the dead man in black robe instantly transformed into his original form and lay on the ground.

It turned out to be a huge demonic bear covered with black scales, with two huge horns on its head.

"you.....!"

Seeing that Shang killed one of their companions in one fell swoop, the remaining men in black robes yelled angrily: "Devil Dragon Emperor, you are so presumptuous, we can't They are all top-

level monsters carefully cultivated by their master. If you kill us top-level monsters like this, when the master comes, he will definitely kill you. Although you and our master, the Dark Master, are among the masters of the four life restricted areas, Our master has surpassed the realm of domination, and it is absolutely easy to kill you, the Demonic Dragon King!"

"Oh? Has the Dark Master now transcended the realm of domination? Has he entered a level above domination?"

Suddenly at this time, a young man dressed in white and snowy clothes walked out from behind Princess Ziyun.

It was Ye Feng.

At this time, Ye Feng stared at the remaining black-robed men in the form of top-level monsters, and immediately said: "Then you don't have to leave, stay and get all the information about the dark mage in the Black Wind Forest." , all told me truthfully, it seems that this trip was correct."

After saying that, Ye Feng directly stretched out his hand and grabbed the black-robed men who had transformed into top-level monsters, hoping to capture the henchmen of these dark archmages.

In this case, we can better deal with the terrifying existence of the Dark Master.

But at this time, the remaining black-robed men in the form of top-level monsters suddenly said sarcastically: "The Demon Dragon Emperor is just provoking us. You, a little unknown human kid, can't do it." Dare to deal with us? You are really asking for your own death."

Boom!

At this moment, these black-robed men transformed into top-notch monsters burst out with terrifying cultivation auras.

All of them are at the junior master level.

There is even an intermediate domination level being who is very powerful.

But in the next moment, what frightened them to the extreme was that Ye Feng, a seemingly unknown human boy, stretched out a hand.

That hand was like a big hand of a god that covered the sky and the sun, suppressing all their cultivation momentum at once.

Then their entire bodies were unable to move and were banned by Ye Feng in an instant.

"What??"

"How can this be??"

"Our strength cultivation was all blocked in an instant. What kind of terrifying cultivation is this to be able to do this?"

At this moment, after feeling all this, these top Warcraft experts from the Black Wind Forest suddenly revealed a look of deep horror in their eyes.

They were simply stunned, staring at this ordinary-looking young man in white clothes, with expressions of extreme horror on their faces.

They suddenly discovered that the cultivation of this seemingly unknown young man in white seemed to be even more unfathomable than that of the ferocious Demonic Dragon King.

"How can this be?"

"When did such a terrifying human transcendent existence appear in our world?"

A group of top Warcraft experts from the Black Wind Forest were simply shocked to the extreme at this moment, with dull looks of shock on their faces.

At this time, the most shocked person was actually the emperor of the Great Xia Dynasty.

He never thought that his daughter, Princess Ziyun, such an ignorant young person, would actually bring back these two terrifying transcendent beings.

One is the world-famous Iron Demon Dragon Emperor, the master of the restricted area of life in the wilderness.

The other young man in white clothes, Sheng Xue, has a mysterious identity and a mysterious origin, but he seems to be even more terrifying and terrifying than the Iron Demon Dragon Emperor, the lord of the restricted area.

At this time, Ye Feng was too lazy to talk nonsense. Chapter 4069 The Holy Grail of the Human Emperor

For Ye Feng, the most important thing now is to find out all the details and trump cards of the dark master in the Black Wind Forest.

In this case, it will be much easier to deal with the dark mage in the Black Wind Forest.

Because only by knowing your enemy and yourself can you be victorious in every battle.

But at this time, after Ye Feng finished speaking, the top-level monsters in the Black Wind Forest who were controlled in front of him turned out to be very loyal and refused to speak to any of them.

Seeing this scene, Ye Feng immediately smiled coldly and said: "Since you are so ignorant, there is no use value." .??.

Boom!

Almost at this moment, Ye Feng snorted coldly, and the heads of several top-level monsters in front of him suddenly exploded, and they died on the spot.

Seeing this scene, the emperor of the Great Xia Dynasty, who was shrinking his head not far away, immediately showed fear in his eyes.

I didn't expect that this human youth in white clothes and snow, who looked delicate and handsome, could be so cruel and ruthless once he made a move.

These top-level monsters were unwilling to answer his words, so they directly killed all these top-level monsters without any hesitation. It was really scary.

Buzz!

At this moment, Ye Feng released the Devouring Domain, swallowing up all the blood and energy of these top-level monsters that had been killed.

At this moment, Ye Feng's skill suddenly increased greatly.

However, Ye Feng's cultivation has not achieved a breakthrough.

After all, Ye Feng is now at a half-step advanced level, which is a big bottleneck.

To completely break through this big bottleneck requires a lot of energy.

Naturally, what these top-level monsters provide is not enough.

But if you can accumulate a little skill, that's a little bit.

Ye Feng understands the principle of accumulation and accumulation.

At this moment, Ye Feng looked at Shang beside him, couldn't help but shook his head helplessly, and said aloud: "I originally thought I could get to know this dark mage of the Black Wind Forest, but now it seems that he is still I can't understand the owner of this Black Wind Forest."

At this moment, Shang shook his head and said: "Feng Boy, you don't have to be too cautious. The most powerful thing about this dark mage is actually black magic. As long as you can block the black magic attack of this dark mage, then Nothing is wrong anymore."

Hearing what Shang said, Ye Feng couldn't help but ask: "What kind of power is black magic?"

Shang shook his head at this time and said: "I don't know much about this. Anyway, it's very magical. It's just as magical as your soul master, Mr. Feng. It's a special and incomparable power of cultivation. It feels like it doesn't belong to this world. I It has long been speculated that this dark master comes from outside this small world, and is most likely a cultivator in the universe. "

Hearing what Shang said, Ye Feng could only nod slightly, but he was still a little afraid of this dark mage.

After all, according to what those top Warcraft said before they died, this dark mage has surpassed the true realm of domination and stepped into a level above domination.

This is much more powerful than the Lord of Death.

Even though Ye Feng and Shang are now much stronger than when they dealt with the Lord of Death before.

But we really have to deal with the Lord

The existence above Zai may be very difficult.

At this time, Shang couldn't help but said: "I think it is impossible for this dark mage to have completely stepped into the realm above the master. Maybe he has only stepped into the realm of the master with one foot."

Ye Feng nodded slightly and said aloud: "Even if you only step into the realm above the master with one foot, it is still very powerful. But now that you have come here, you must surrender or kill this dark mage." of."

At this time, Ye Feng said, suddenly looking at the emperor of the Great Xia Dynasty who was huddled on the dragon chair in front of him, and asked aloud: "Hey, what do you know about this dark mage?"

When the Emperor of the Great Xia Dynasty heard Ye Feng suddenly ask him, he was immediately frightened and trembled all over. Then he quickly stood up tremblingly and said loudly: "Senior, I am not interested in the restricted area of the Black Wind Forest." , we don't know much about it, but there is a legend left by our ancestors of the Great Xia Dynasty, that is, it is said that this dark mage is not actually a real living mage, but a powerful dark mind from outside the territory. It was attached to an ordinary person in our world, and then cultivated to become the dark mage today."

Hearing what the Emperor of the Great Xia Dynasty said, Ye Feng's eyes moved slightly, then nodded, and said loudly: "Maybe when the time comes to deal with this dark mage, we can start from the level of his soul."

At this moment, Ye Feng no longer wasted time, looked at Princess Ziyun behind him, and said loudly: "Where is the precious treasure of your Great Xia Dynasty, the Holy Grail of the Human Emperor, that you mentioned before? Take me there now. Take a look."

Ye Feng is very interested in this Holy Grail of the Human Emperor, which is contaminated with the aura of the gods.

If it really contains divine substances, it will definitely be of great benefit to the tempering of your body and flesh.

Ye Feng felt that if he could continue to temper his two fists to a higher level, he might be able to obtain more powerful divine power.

It will definitely be much safer to deal with the Dark Master by then.

Princess Ziyun did not hesitate at this time, and immediately looked at the emperor of the Great Xia Dynasty above the main hall, and said loudly: "Father, I want this senior human race to take action to help our Great Xia Dynasty resist the Black Wind Forest. In the event of an invasion, please ask my father to take out the Holy Grail of the Human Emperor and give it to this senior human being."

Hearing what Princess Ziyun said, the Emperor of the Great Xia Dynasty immediately nodded and bowed and said: "Okay, okay, I'll go get the Holy Grail of the Human Emperor right now."

The emperor of the Great Xia Dynasty has now seen the terror of Ye Feng and Shang. He knows that these two guys are definitely transcendent beings at the level of the lord of the restricted area.

So of course he didn't say anything at this time, and immediately ran out of the palace hall, obviously going to get the Holy Grail of the Human Emperor.

Seeing this scene, Ye Feng couldn't help but shook his head and said: "Such a weak guy became the emperor of the Great Xia Dynasty. Even without the invasion of the Black Wind Forest, it is estimated that your Great Xia Dynasty will not be stable for long. "

When Princess Ziyun heard what Ye Feng meant, her face suddenly became silent, and then she said loudly: "When the crisis in Black Wind Forest is resolved this time, I will find a way to solve this matter."

At this time, Princess Ziyun showed her domineering side and seemed to want to become the emperor herself.

Ye Feng didn't care at all about this, he just reminded him casually.

Then Ye Feng and Shang waited in the palace hall. For Ye Feng, the most important thing now is to find out all the details and trump cards of the dark master in the Black Wind Forest.

At this time, Princess Ziyun showed her domineering side and seemed to want to become the emperor herself.

Ye Feng didn't care at all about this, he just reminded him casually.

Then Ye Feng and Shang waited in the palace hall.

Chapter 4070 Breaking through the Advanced Dominator

Ye Feng and Shang were waiting patiently in the palace hall of the Great Xia Dynasty.

However, they waited for a long time and did not find that the emperor of the Great Xia Dynasty had returned.

In response, Ye Feng glanced at Princess Ziyun beside him.

Princess Ziyun just said with some confusion: "With my father's character, it is impossible for him to let you go, because he doesn't dare to do so at all. There may be other things that delay him."

And just as Princess Ziyun finished speaking, a very embarrassed-looking figure suddenly ran in from outside.

This is a palace guard of the Great Xia Dynasty wearing golden armor.

He immediately ran in, his whole body covered with scars, and said in a disheveled voice: "To inform Her Royal Highness, the treasure house area of our Great Xia Dynasty was attacked by dozens of transformed monsters in the Black Wind Forest. The treasure trove protection formation of our Great Xia Dynasty was destroyed, and His Majesty the Emperor was also killed in the chaos. Now there is chaos. "

"What??"

Hearing what the palace guard who ran in said such words, Princess Ziyun couldn't help but show deep horror in her eyes.

She never seemed to have thought that there were other monsters from the Black Wind Forest lurking in the palace, trying to steal the treasure troves of the Great Xia Dynasty.

Princess Ziyun was about to say something about this, but Ye Feng and Shang had already flown out of the palace hall in an instant, flying quickly towards the treasure house area of the Great Xia Dynasty.

What Ye Feng cares about is not the chaos of the Great Xia Dynasty. What he cares about is the Holy Grail of the Human Emperor. He must not be snatched away by those monsters in the Black Wind Forest.

So at this moment, Ye Feng and Shang immediately used their magic power to teleport to the protected area of the Great Xia Dynasty.

When they came here, they immediately saw a broken formation.

Completely damaged.

The treasure house buried in the ground of the Great Xia Dynasty has been completely breached, and several strong transformed monsters wearing black robes are guarding it outside.

Another group of powerful Warcraft warriors are plundering wealth from the dynasty's treasury at this moment.

Seeing this scene, Ye Feng naturally did not hesitate at all, and said coldly: "These monsters in the Black Wind Forest are supported by the Dark Master. As expected, each one of them is so arrogant. Come directly. To plunder the wealth of our human dynasty, it seems that the group of monsters who just negotiated with the emperor of the Great Xia Dynasty were just to provide cover for this group of monsters who stole the treasure house. "

Uh-huh!

At this moment, Ye Feng said and flew forward quickly.

At this time, when he saw a young man in white clothes flying over, and the dozens of powerful Warcraft warriors with junior master cultivation who were guarding outside, they immediately smiled coldly and said: "Another one who is not afraid of death. The boy is here, just send him to the West."

boom! boom! boom!

But at this moment, before the group of powerful Warcraft warriors guarding the dynasty's treasure house could take action, their bodies exploded involuntarily, killing them instantly.

Obviously, Ye Feng is now so powerful that he has reached a very terrifying level. To deal with the junior masters, he doesn't even need to use his hands. As long as he moves his mind, the energy of the world will be used for him. He can directly destroy all the weak and powerful monsters. They were all killed.

At this moment, Ye Feng jumped directly into the dynasty's treasure house.

leaf

The soul power that Feng exuded at this moment directly noticed that there were dozens of strong monsters in the treasure house who were plundering the wealth.

At this moment, they are all surrounding the deepest area of this treasure house.

When Ye Feng flew to the deepest area, he immediately saw more than a dozen powerful Warcraft beasts, all exuding the overwhelming aura of Warcraft beasts, attacking a pure golden Holy Grail.

This should be the Holy Grail of the Human Emperor.

Obviously, the Holy Grail of the Human Emperor has its own wisdom and power to prevent these powerful monsters from plundering it.

The bright light emanating from the Holy Grail of the Human Emperor actually blocked dozens of powerful Warcraft masters at the intermediate master level in an instant.

Seeing this scene, Ye Feng's eyes suddenly lit up.

Such a powerful treasure must contain divine substances.

Ye Feng didn't hesitate at this moment and rushed forward, swinging punch after punch and attacking the dozens of powerful Warcraft men.

Boom!

Boom!

With each of Ye Feng's punches, a junior master-level Warcraft expert fell and exploded.

"Someone is attacking us from behind!!"

At this time, the Warcraft warrior standing at the front transformed into an extremely tall middle-aged man.

He turned around in an instant and saw Ye Feng killing his companions. He immediately said angrily: "Resist this kid! He dares to sneak attack us. It's a life-threatening situation!"

At this moment, the aura of World of Warcraft exuding from this tall middle-aged man was clearly that of a half-step advanced master level existence.

this

This middle-aged Warcraft man is very powerful, and he is in the same realm as Ye Feng today.

But the next moment, when Ye Feng's golden fist struck him, a look of deep fear suddenly appeared in the eyes of this tall middle-aged man.

Because he discovered that he couldn't resist Ye Feng's fist at all.

"No!!!"

Accompanied by an earth-shattering scream, this extremely powerful demonic beast that had reached the level of a half-step advanced master was instantly blown into countless pieces by Ye Feng's punch.

I have to say that the combat effectiveness of Ye Feng Center is really terrifying.

Practitioners at the same level were simply unable to withstand Ye Feng's punch and were killed directly.

At this moment, Ye Feng killed dozens of powerful Warcraft warriors. Without any hesitation, he also took out the corpses of the powerful Warcraft warriors he had killed outside, and then devoured them all.

Buzz!

At this moment, Ye Feng's skill suddenly increased tremendously.

Boom! !

Almost at the next moment, Ye Feng's body suddenly erupted with a terrifying aura of cultivation.

That's the momentum of a breakthrough!

At this moment, with the help of the skills of so many top-level monsters, Ye Feng successfully broke through his current level of cultivation and was directly promoted to the first level of Advanced Domination!

Although there are a hundred small levels in the big realm of high-level masters.

But at this moment, Ye Feng has broken through to the realm of true advanced mastery. Even if it is only the first level, it is a qualitative transformation!

At this moment, Ye Feng looked towards the pure golden Holy Grail of the Human Emperor not far away, his eyes filled with deep anticipation.
