

Ancient 4101

Chapter 4101 Set off directly

In the main hall, Ye Qingcang, Ye Qinglan and Ye Feng didn't wait long. Nine old men suddenly walked in from outside.

The cultivation auras of these nine old men are very huge and terrifying, giving people the feeling that they are like nine mountains, standing there, majestic and boundless.

These people are the nine elders of the Ye family.

Among the Ye family, apart from Ye Qingcang, the most powerful head of the family, the nine elders are the most powerful.

Their cultivation auras are all unfathomable, and they are all existences that surpass the master.

At this moment, there was a hint of surprise in Ye Feng's eyes.

Unexpectedly, the Ye family's background was much more powerful than I imagined.

There are actually nine existences that have transcended the realm of domination.

At this moment, the old man wearing a white robe standing at the front is the Great Elder.

The first elder looked at Ye Qingcang in the hall and immediately asked: "The master of the house has asked us all nine elders to gather here this time. Is there anything particularly important?"

Ye Qingcang nodded slightly, and then said aloud: "I wonder if you have heard of a legend about our Ye family, that is, the first generation ancestor of our Ye family, in the glorious age of the Origin World, I once went to that mysterious place at the end of the world and grabbed a forbidden treasure."

"We seem to have heard of it."

At this time, the nine elders present all nodded their heads when they heard what Ye Qingcang said.

They are all the oldest members of the Ye family, so they have naturally heard of this legend.

But what exactly it is is unclear.

At this moment, Ye Qingcang nodded slightly, and then said aloud: "This legend, I can tell you responsibly, is true. This is a secret passed down by each generation of our family heads. The first generation ancestor of our Ye family The treasure that was grabbed is one of the ten most precious treasures of the legendary Lord of Origin, the Temple of Origin. As long as this Temple of Origin continuously consumes the Qi of Origin, any practitioner who enters the Temple of Origin can practice at a direct speed. Increased by a hundred times, this can cultivate a steady stream of fresh and powerful people for our Ye family in the future."

Hearing what Ye Qingcang said, the faces of the nine elders present suddenly changed.

Especially the first elder couldn't help but said excitedly: "Master, are you telling the truth? This legend about our Ye family is actually true!"

A group of other elders all exclaimed: "I didn't expect that what our ancestors left behind would be such a precious treasure. If we can really find the origin temple of the Lord of Origin, it will definitely have unparalleled influence on the future of our Ye family." With help, because the person who controls the Temple of Origin is equivalent to controlling an artifact that can cultivate a steady stream of powerful people."

Hearing what Ye Qingcang said at this moment, Ye Feng, who was standing in the main hall, also showed a trace of surprise in his eyes.

Unexpectedly, the Temple of Origin is not a magic weapon with particularly powerful attack power, but a treasure that allows anyone to enter the Temple of Origin and increase their cultivation speed by a hundred times.

\u003e

Perhaps this is not of much help to Ye Feng.

After all, Ye Feng's cultivation relies on devouring the power of the outside world to improve himself crazily, extremely fast.

But you must know that ordinary people cannot constantly devour the energy of the outside world to improve themselves like Ye Feng.

Ordinary practitioners can only continuously absorb the vitality of heaven and earth, or swallow some pills, and rely on the operation of the secrets of the skills to improve their skills and enhance their cultivation.

If the cultivation speed of these ordinary practitioners can be increased a hundred times, it will definitely be of great benefit to these ordinary practitioners. It will indeed allow the Ye family to cultivate a steady stream of masters and strong people.

At this time, Ye Feng finally understood why when he communicated with the phantom of the will of the first generation ancestor in the sculpture, the first generation ancestor of the Ye family said that if he could find the treasure he left behind, he could let the Ye family become the most glorious family in the Origin World.

Ye Feng now finally understands that if he really gets the Temple of Origin, the cultivation speed of all the masters of the Ye family can be directly increased a hundred times. Ye Feng cannot even imagine that if the Ye family is given enough time, what will happen to the Ye family? How many super strong people can be cultivated.

This is equivalent to having one more accelerator for practice.

Moreover, it is a hundred times the cultivation accelerator, so it is naturally very powerful.

But to be honest, the so-called cultivation artifact, the Temple of Origin, actually doesn't matter to Ye Feng himself.

Because since Ye Feng entered the path of cultivation, he rarely absorbed the vitality of heaven and earth and practiced the exercises honestly.

Because Ye Feng thought it was too slow.

Ye Feng's devouring ability is the real trump card.

However, for ordinary masters, it would be extremely rare if they could achieve a hundred times the cultivation speed.

This kind of thing can indeed allow the Ye family to grow crazily in a short period of time and cultivate a steady stream of masters.

And just when Ye Feng was thinking secretly in his heart, the nine elders present immediately showed deep excitement on their faces when Ye Qingcang said this.

They are all elders of the Ye family, so they naturally hope that the Ye family will get better and better.

Therefore, if we can really find one of the top ten treasures left by the Lord of Origin, the Temple of Origin, it will definitely be of unparalleled help to their Ye family, and it will definitely help their entire Ye family revive.

At this moment, the elders immediately looked at Ye Qingcang above the main hall, and said excitedly: "The head of the family called us here to gather us together, and then go together to find the place left by the first generation ancestor. The treasure that came down?"

Ye Qingcang immediately nodded and said: "Yes, this temple of origin left by the first generation ancestor is very precious and very important to our entire Ye family. It can be said that this statue

Whether we can get the treasure is related to the future destiny of our Ye family, so we must ensure that this time is foolproof, so I gathered all of you elders, because you are the most powerful group of beings in the Ye family. This time I will lead the team myself. "

After finishing speaking, Ye Qingcang suddenly looked at Ye Feng beside him, smiled slightly and said: "By the way, I almost forgot to tell you, the reason why I was able to get this crucial gift left by the first generation ancestor this time is The important information all depends on my grandson, Ye Feng. It was he who triggered the shadow of the will left in the sculpture of our first generation ancestor in the central square of our Ye family, making our first generation ancestor appear. "

At this moment, Ye Qingcang was speaking with unconcealable pride in his tone.

Obviously, Ye Qingcang also did this to help Ye Feng improve his status in front of the elders.

Hearing what Ye Qingcang said at this moment, many elders present looked at Ye Feng with a hint of surprise in their eyes.

In fact, many elders had already learned the news the moment Ye Feng arrived at the Ye family.

But they felt that this heir of the Ye family, who had been living outside all year round, was probably just an ordinary boy.

After all, it is difficult for a practitioner from a humble background to have the resources to grow into a super genius.

But they never expected that this ordinary boy in their eyes could actually inspire the sculpture of the first generation ancestor in the central square.

You know, for hundreds of thousands of years, no one in the Ye family has ever been able to arouse the shadow of the will of the first generation ancestor in the sculpture.

It's incredible.

At this time, the elder who was closest to the family leader immediately burst out laughing and said, "Congratulations to the family leader for having such an unparalleled talented grandson! This is the family's luck, and also the luck of our entire Ye family!"

At this moment, the great elder was speaking, and many other elders around him also congratulated him.

However, among the crowd, several elders who had always wanted to win the position of head of the family seemed to look a little unhappy.

Because Ye Feng was able to get the recognition of the will of the first generation ancestors, he even directly told Ye Feng the crucial information about the Temple of Origin that was left behind back then.

All this is enough to show that Ye Feng has been recognized by the first generation ancestors.

It can be said that it is certain that he will inherit the position of head of the entire Ye family in the future.

Because no one in the entire Ye family is qualified to be recognized by the first generation ancestor.

This makes the elders among the nine elders who want to be the head of the family naturally feel quite complicated in their hearts.

This means that they have no hope of winning the position of head of the family in the future.

Because Ye Qingcang himself is very powerful.

Now that he has such an unparalleled grandson, it can be said that he has a successor.

This leaves the branches controlled by other elders with almost no hope of obtaining the position of head of the family.

However, although these elders have faces

The color is a bit ugly, but this time Ye Feng was able to arouse the phantom of the will of the first generation ancestor and pass on the location information of the Temple of Origin. This is a great good thing for the entire Ye family.

Although they have internal struggles, they are members of the entire Ye family after all.

Therefore, the emergence of the information about the Temple of Origin is definitely the happiest thing in this life for the elders.

Therefore, the elders present who had somewhat ugly faces were very complicated in their hearts.

On the one hand, because of the appearance of Ye Feng, there is no hope for them to compete for the position of the family.

But precisely because of the appearance of Ye Feng, the secret of the Origin Temple was taught by the first generation ancestors. Maybe the Ye family will become strong and prosperous again because of this, which is a huge good thing for the entire Ye family.

At this time, Ye Qingcang said aloud: "Since everyone has no objections, let's go directly."

After saying that, Ye Qingcang walked directly out of the hall.

Ye Feng and Ye Qinglan followed Ye Qingcang.

At this time, Ye Qinglan said aloud: "Dad, if you all leave the Ye family, the Ye family cannot be left without someone. I will stay in the family."

Ye Qingcang nodded and said, "Okay, but Feng'er wants to go with us."

The other elders around him couldn't help but said: "Young Master Ye Feng is young and his cultivation is only half-step to the Great Perfection Master. If he follows us, will it be too dangerous?"

Ye Qingcang shook his head and said: "This time it was Feng'er who communicated with the will of the first generation ancestor, so he got the location of the Temple of Origin. The map that guided the specific location of the Temple of Origin was imprinted on Feng'er's In our minds, we must take him with us. Moreover, the first-generation ancestors hid the Temple of Origin in a very special place. It may not be that easy to obtain, and Feng'er is the only one recognized by the first-generation ancestors. The most talented descendant of the Ye family may need Feng'er's help to obtain the Temple of Origin."

Hearing what Ye Qingcang said, the other elders nodded and felt that what he said made sense.

The Great Elder immediately smiled and said: "It's good to let Master Ye Feng follow us to find the Temple of Origin. It just allows Master Ye Feng to expand his horizons in the dangerous ocean

outside, and it can help Master Ye Feng hone his character. And it is very rare for so many of our top powerhouses to go out together. When we encounter some good resources in the ocean full of natural treasures, we can get those resources and cultivate Master Ye Feng's strength. "

Hearing what the great elder said, Ye Feng glanced at the old man in white robes in surprise.

It seems that what my aunt said is right. The great elder's lineage is indeed very close to the family head's lineage. This great elder has been speaking for himself and his grandfather.

Hearing what the great elder said at this moment, the other elders didn't say anything more and nodded.

Next, everyone left the main hall, flew quickly towards the ocean area outside the Ye family, and set off directly.

Chapter 4102 Sudden Enlightenment

At this time, the nine elders of the Ye family, including the head of the family, Ye Qingcang, all flew out of the Ye family's base camp and then flew to the surrounding ocean.

I have to say that the lineup this time is very strong.

Almost all the top experts in the Ye family were dispatched.

This shows that the Ye family attaches great importance to getting the Temple of Origin this time.

Ye Feng was also with his grandfather Ye Qingcang and the nine elders.

At this moment, Ye Feng looked around and found that the entire ocean was very huge and could not be seen to the end.

You must know that the Sea of Chaos is only a small part of the ocean in the middle of the origin world.

So when everyone came to the real ocean, they naturally saw the vastness of the entire ocean in an instant.

At this moment, Ye Feng suddenly understood why many strong men in the eastern land could not cross the entire ocean to go to the western land.

The area of this ocean is really too huge.

And there are very scary ocean monsters and evil beasts in the ocean.

If you cross the ocean, you may encounter attacks from terrifying ocean monsters at any time.

At this moment, Ye Qingcang stood at the front of the team, looked at the nine elders behind him, and said aloud: "This action must not be too high-profile. We must keep a low profile. We move forward silently and do not spread out. If we draw the attention of some other families or the demon clan forces in the ocean, our search for the Temple of Origin may be exposed. In this case, it will be troublesome. After all, Origin The temple is related to the future destiny of our entire Ye family. Even if we are top experts, we old guys need to be careful."

Hearing what Ye Qingcang said, several elders around him nodded their heads to express their understanding.

At this moment, the elder came to Ye Feng's side, smiled slightly and said: "After Master Ye Feng returned to the Ye family, have you adapted to everything?"

Ye Feng saw the very kind old man next to him and knew that the great elder was close to the family.

Therefore, Ye Feng also showed a smile on his face at this time and said: "I am very adaptable to everything. Thank you to the great elder for your concern."

The Great Elder nodded slightly, and then said loudly: "Your father is really stubborn. He insists on going to the end of the world to find the Hongmeng Ancestor, which makes the head of the family very worried. But now, Master Ye Feng, you have returned to our Ye family. "Pulse, we finally have a successor."

At this moment, the Great Elder spoke with a rather pleased tone.

When Ye Feng heard what the Great Elder said, he nodded slightly and said, "Don't worry, Great Elder, I am a relatively rational person. As for my father and mother, when I become stronger in the future, I will definitely I will go to the end of the world to look for them. As long as they are not dead, I will definitely be able to find them."

Hearing what Ye Feng said, the great elder couldn't help but sigh and said: "The end of the world is a mysterious and unpredictable area. It is very scary. The first generation ancestors of our Ye family, including those who later The ancestors of Hongmeng, who were almost as talented as the first generation ancestors, were lost at the end of the world and never came back. Even the most powerful Lord of Origin in the Origin World disappeared back then. At the end of the world, that place is mysterious and may have great blessings, but it is really terrifying."

Hearing what the great elder said, Ye Feng's eyes showed a trace of solemnity.

It seems that the end of this world is indeed a mysterious place.

Perhaps it is not one with the entire origin world.

It is very likely that it is another independent extraterrestrial world.

At this moment, Ye Feng was thinking secretly in his heart.

Wow!

Suddenly at this moment, a huge black octopus suddenly rushed out of the calm sea not far ahead.

This big black octopus is tens of thousands of meters tall and has eight huge tentacles. The surface of each tentacle is covered with black scales. The scales look like they are made of molten iron and have terrible oppressive power.

This big black octopus charged directly towards a group of people, and the cultivation aura exuding from it was that of the Great Perfection Master of the Tenth Heaven.

This level of ocean beast is simply terrifying to the extreme. It is the top predator in the ocean and a nightmare for any marine creature.

However, this group of old guys in the Ye family are all existences that surpass the master.

The big black octopus living in the ocean probably didn't realize the terror of this group of people and thought it had encountered food, so it attacked them directly.

At this moment, among the nine elders, a thin elder with a long sword on his back pulled out the sword directly like a peerless swordsman.

boom! !

Then the sword light flashed, and earth-shattering power burst out from the sword body, which actually split the big black octopus into two halves with a "plop" sound.

This extremely powerful black octopus in the ocean is most likely a powerful demon lord.

But when they met the top group of old monsters in the Ye family, they were naturally unable to resist and were killed on the spot.

Ye Qingcang nodded slightly at this time and said aloud: "Next, you must be like Elder Sword. When encountering a provocation from a demon in the ocean, kill it directly without wasting time or causing too fierce a battle. Fluctuate so as not to expose our whereabouts."

Hearing what Ye Qingcang said, many elders nodded.

At this moment, Ye Feng was recalling the sword strike just now, with a solemn look in his eyes.

These top elders of the Ye family are indeed super powerful, and their strength is very terrifying.

Not only are their cultivations strong, but their combat effectiveness is also very strong. They are not ordinary existences that have surpassed the master.

Uh-huh!

At this moment, Ye Feng didn't hesitate at all. He flew forward and used his storage ring to put the big black octopus that was cut in half into his storage ring.

Seeing Ye Feng do this, Ye Qingcang was stunned for a moment, and then said with a smile: "This big black octopus is not of much value. It has no strong bones, and the taste of its flesh and blood is very bad. You can't sell it at a high price, Feng'er, if you are short of money, grandpa can give it to you. You have to know that when you return to the Ye family, you are no longer an ordinary young man wandering outside, but have become the rich second generation of the ancient family! "

Ye Qingcang obviously thought that Ye Feng was used to being short of money, so he took this big black octopus in order to sell it for money.

But Ye Feng is not after the various materials on this big black octopus. What he wants is the majestic blood energy contained in the body of this big black octopus.

This one

The big black octopus had just been killed by Elder Jian. The corpse was still fresh and still contained strong blood.

For Ye Feng, nature has a huge nourishing effect.

However, Ye Feng did not reveal his devouring ability at this time.

After all, there is not only my grandfather here, but also the nine elders.

After all, my own devouring ability is too great, so it would be better not to expose it in front of these old guys for the time being.

So at this time, Ye Feng looked at Ye Qingcang, made up a random reason, and said with a smile: "I have a lot of research on alchemy. If the scales and flesh of this big black octopus are mixed with some elixirs, it may be able to improve the attribute power of the elixir."

Hearing what Ye Feng said, the elder next to him showed a trace of surprise in his eyes, and couldn't help but said: "I didn't expect that Young Master Ye Feng could actually make elixirs. So after returning to the Ye family this time, Young Master Ye Feng's talent in alchemy can be well

cultivated. A powerful alchemy master has a huge impact on a family and can refine a steady stream of good elixirs for the entire family. "

The elder was obviously thinking about the future of the entire Ye family, so every word he said was related to the future of the Ye family, which made Ye Feng respect the old man quite a bit.

This old man completely thinks about the entire Ye family.

At this moment, Ye Qingcang laughed loudly and said: "Great Elder, my grandson will become an extremely powerful martial arts master in the future. Studying alchemy is really a waste of my grandson's talent." .???.??

At this time, everyone was talking and continued to move forward on the sea.

Following the guidance of the map in Ye Feng's mind, he quickly flew towards a location in the center of the ocean.

At this moment, Ye Feng did not hesitate at all. He directly released the Devouring Domain, entered his storage ring, and began to devour the big black octopus contained in the storage ring space.

This big black octopus seemed to be killed by Elder Sword with one strike. It seemed very weak.

But you must know that Elder Sword is a strong man at the infinite level that has surpassed the master.

Moreover, it is a profound existence in the infinite realm.

So it's not that this big black octopus is weak.

But Elder Jian is simply too strong.

After all, this big black octopus is the existence of the tenth heaven of Dzogchen, and it is still very powerful.

Therefore, the blood energy contained in it is very huge.

Ye Feng quickly devoured the storage ring, and immediately felt a huge amount of energy injected into his Dantian, causing Ye Feng's skill to grow rapidly.

"Boom!!"

Finally, at a certain moment, the bottleneck that Ye Feng had accumulated for a long time was finally broken through with the help of the blood energy of this big black octopus.

Ye Feng's body suddenly burst out with an extremely powerful breakthrough momentum.

At this moment, Ye Feng's cultivation level directly broke through to the level of the real Great Perfection Master!

"what happened?"

"Sudden breakthrough??"

At this moment, Ye Feng's breakthrough aura immediately attracted the attention of many elders around him.

Even Ye Qingcang couldn't help but have a look of surprise in his eyes. He seemed not to have thought that his eldest grandson was following the crowd.

While walking, I actually made a breakthrough.

And it still breaks through a big realm.

It really makes all the elders and powerful people unable to help but feel very incredible.

Ye Feng just grinned at this moment, pretending to be stupid and said: "I don't know why, but I suddenly had an epiphany."

"A sudden epiphany?"

Hearing what Ye Feng said, all the elders present widened their eyes slightly.

It seemed that Ye Feng's talent was so incredible.

This was the first time they saw the existence of a monster who suddenly became enlightened while walking.

Ye Qingcang was stunned for a moment, then immediately laughed out loud, and said with pride in his tone: "As expected of my eldest grandson! This kind of talent, even in the hundreds of thousands of years of our Ye family's historical inheritance, He is definitely a unique monster!"

At this time, Ye Feng himself was secretly happy.

Unexpectedly, my own cultivation level, with the help of that big black octopus, directly broke through to the first level of the Great Perfection Dominance.

If he practiced according to the cultivation methods of ordinary practitioners, he probably wouldn't know that it would take until the Year of the Monkey to break through this big bottleneck.

But a big black octopus that dominated the tenth heaven of Dzogchen simply allowed himself to break through.

This shows how incredible the devouring ability is.

Even the so-called cultivation artifact like the Temple of Origin is simply weak in the face of Ye Feng's devouring ability.

However, the devouring ability only belongs to Ye Feng after all, and there is no way for Ye Feng to teach this ability to other new generations of the Ye family.

Therefore, the Temple of Origin, an artifact that can increase a practitioner's cultivation speed a hundred times, is still needed and is of great significance to the entire Ye family.

Ye Feng also had an uncontrollable look of joy on his face at this time.

There are indeed many benefits to hanging out with this group of powerful old guys.

I don't know how much better it would be than getting up early and going on an adventure alone.

And it's safer too.

At this time, thinking of this, Ye Feng felt that he should make better use of this great opportunity.

After all, this group of top old monsters from the Ye family don't just walk around casually on weekdays. They are all big shots that Shenlong never sees.

At this time, Ye Feng immediately looked at Ye Qingcang beside him, and couldn't help but said: "Grandpa, I am actually very interested in alchemy. This time, so many elders finally came to the ocean area. I hope that everyone can hunt down some powerful monsters and monsters in the ocean for me. When I return to the Ye family, I can use the bodies and materials of these monsters and monsters to refine many precious elixirs. "

Hearing what Ye Feng said, Ye Qingcang was stunned for a moment, as if he didn't expect Ye Feng to be so interested in alchemy.

However, Ye Feng is his eldest grandson, and Ye Qingcang is naturally very doting on him. He immediately burst out laughing and said: "Okay, since we old guys are out this time, let's have a good time here." Move your old bones around in the ocean and hunt once."

Hearing what Ye Qingcang said, the other elders didn't say much.

After all, they all know that the head of the family has finally reunited with his eldest grandson who has been living outside for many years, so they naturally want to provide good support to his eldest grandson.

Chapter 4103 Another epiphany

In fact, Ye Qingcang still felt indebted to his grandson Ye Feng.

Because Ye Feng had been living outside without the protection and cultivation of his family, he must have suffered a lot before he achieved what he has today.

So Ye Qingcang was very proud of Ye Feng, but he also felt deeply indebted to his grandson.

So this time, Ye Feng actually took the initiative to put forward his request, and Ye Qingcang naturally agreed 100%, without any hesitation at all.

It can be said that if Ye Feng wanted the moon and stars in the sky now, Ye Qingcang would pick the stars and the moon as long as he had the ability.

After all, Ye Qingcang only has such a grandson now.

And this grandson is so talented.

The old man must be very doting.

The other elders seemed to understand what Ye Qingcang was thinking, so they did not raise any objections.

Then everyone continued to fly quickly over the boundless ocean.

But this time, the speed of everyone's flight slowed down a lot.

Because they could sense while rushing on the road to see if there were any powerful sea monsters and giant beasts around to hunt them.

Suddenly at this moment, the same Elder Jian seemed to sense something. Elder Jian immediately said, "I'll go to the deep sea area in the distance to investigate." After that, Elder Jian made a "swish" sound, and the whole person turned into a sword light, like lightning, and instantly sank into the depths of the ocean. In less than a moment. Suddenly, there was a "crash" sound! The entire sea surface was boiling violently. Elder Jian actually flew up with a majestic golden turtle that was tens of thousands of meters long. This golden turtle was obviously an extremely powerful marine evil beast living in this ocean, otherwise it would not have grown to be tens of thousands of meters huge. It can be seen from this that this golden turtle is estimated to have lived for tens of thousands of years, and the aura of cultivation exuded from its body is that of a great perfection master of the

tenth heaven. It is a marine monster of the same level as the previous black octopus, and is very powerful. But it was quickly killed by Elder Jian. At this moment, Ye Feng immediately showed a look of surprise on his face. I didn't expect to hunt down such a powerful marine monster so soon.

At this moment, Elder Jian came to Ye Feng and threw the majestic golden turtle of tens of thousands of meters to Ye Feng.

Ye Feng immediately put it into his storage ring, then clasped his fists to Elder Jian and said, "Thank you, Elder Jian."

Elder Jian just nodded slightly, didn't say much, and returned to the crowd.

Ye Qingcang laughed at this time and said, "I hope everyone can be as active as Elder Jian to find more marine monsters for my grandson."

Hearing Ye Qingcang say this, all the elders nodded.

They knew that if they could really get the Origin Temple this time, then Ye Qingcang's position as the head of the family would be more stable.

After all, the information of the Origin Temple was obtained by Ye Qingcang's grandson Ye Feng, so all the elders felt that Ye Qingcang might not be able to step down from the position of the head of the family in the future.

So all the elders had their own thoughts in their hearts.

Now they should do more for Ye Qingcang.

In this way, they will have a very good impression in Ye Qingcang's heart in the future.

Obviously, Elder Jian is a very sensible person, and he was the first to hunt this powerful marine monster.

At this moment, everyone continued to move forward.

The elders no longer laughed, but all exuded their old monster-like divine thoughts, looking for powerful marine monsters and giant beasts in the boundless ocean.

In fact, in the boundless ocean, hunting various marine monsters and marine monsters is a very dangerous thing.

Because some marine monsters and monsters have very terrifying cultivation, and there may be great forces in the ocean behind them to support them.

But what kind of existence is this group of people around Ye Feng now?

That's the collective movement of the top old monsters of the Ye family!

Naturally, they are not afraid of heaven or earth.

At this time, Ye Feng directly released the Devouring Domain, and in the storage ring, he secretly absorbed the blood energy of the golden turtle just now.

Hualala!

Suddenly, another extremely powerful and pure energy of the monster was directly swallowed up, and then injected into Ye Feng's Dantian, rapidly strengthening Ye Feng's cultivation.

"Boom!!"

"Boom!!"

Suddenly at a certain moment, two extremely powerful auras burst out from Ye Feng's body.

At this moment, Ye Feng's cultivation suddenly broke through from the first level of the Great Perfection Domination to the third level of the Great Perfection Domination.

Directly broke through two levels!

This made Ye Feng's eyes suddenly show joy.

The energy provided by these powerful monsters and giant beasts living in the deep sea is indeed very vigorous, allowing him to break through so much at once.

"What??"

At this moment, many elders of the Ye family who were on their way around once again sensed the cultivation aura emanating from Ye Feng, and he broke through two levels at once, which immediately made all the elders present widen their eyes.

Even Ye Qingcang couldn't help but exclaimed: "Feng'er, what's wrong with you?"

Ye Feng looked very innocent at this moment and said: "I don't know what happened. I must have had another epiphany, so I achieved a breakthrough in my cultivation."

"Another epiphany?"

Hearing what Ye Feng said, many elders present suddenly had expressions of deep astonishment on their faces.

Even the very cold Elder Jian, with a look of surprise on his majestic face at this time, seemed not to have thought that Ye Feng's talent was so incredible.

At this moment, Ye Feng didn't want to explain anything more. Anyway, he wouldn't tell anyone about his devouring ability.

As for what these old guys are thinking in their hearts, let them think for themselves.

At this time, Ye Qingcang seemed to realize something, and immediately laughed out loud and said: "No matter what, as long as my eldest grandson can continue to make breakthroughs and improvements, that is a good thing."

Ye Qingcang's words made a group of elders who wanted to get to the bottom of the matter immediately shut their mouths about to speak.

But at this time, many elders were looking at Ye Feng, and they no longer had the previous contempt.

This young man from the Ye family who has been living outside for many years must have a few tricks up his sleeve to be able to get to where he is today. It is not as simple as they imagined.

At this moment, the Great Elder suddenly discovered something and couldn't help but said: "It's a bit bad. We are hunting these marine monsters in the ocean, and it seems that we have attracted the attention of some powerful forces among the monsters in the ocean. I can sense that there are many powerful ocean monsters around, following us."

Chapter 4104 Under control

"What?"

At this moment, after hearing what the elder said, many other elders of the Ye family present showed a trace of surprise in their eyes.

It seems that they did not expect that they would be targeted by the demonic forces in the ocean so quickly.

You know, they have only hunted two monsters now.

Of course, these two demons were very powerful in cultivation and probably had a relatively high status in the ocean, so they caused a huge stir after their death.

Elder Jian looked at Ye Qingcang, his tone was very calm, and he didn't seem to be panic at all, and asked: "Master, should we avoid being followed by these demonic forces, or should we kill them head on."

At this time, what Elder Jian said was very domineering.

He didn't seem to pay attention to the demonic forces in this ocean at all.

The sword elder is just like the sword he carries on his back, with its sharp edge unsheathed and boundless domineering power.

At this time, the other elders of the Ye family also looked at Ye Qingcang, seeming to be waiting for the order from Ye Qingcang, the head of the family.

Ye Qingcang thought for a moment, then shook his head and said aloud: "It is better not to encounter the demonic forces in this ocean head-on for the time being, otherwise, it will be very troublesome. After all, our main mission this time is to find The most precious treasure sought by the first generation ancestors, the Temple of Origin, don't let these trivial matters delay our main mission this time."

Hearing what Ye Qingcang said, many elders nodded.

Ye Feng's eyes flickered slightly at this time.

In fact, he still wanted this group of powerful old monsters from the Ye family to continue to hunt the powerful monsters and beasts among the monster forces. In this case, he estimated that his cultivation would be able to increase tremendously.

But what my grandfather said makes sense.

Now it is most important to find the Temple of Origin first.

If they rashly confront this group of monsters in the ocean and start a killing spree, it may cause chaos in the entire surrounding area, which will definitely not be conducive to their obtaining the Temple of Origin.

So Ye Feng didn't say much at this time, but nodded and said: "Grandpa is right, the most important thing now is to get the third

In the temple of origin left by a generation of ancestors, do not rush into massacres to avoid causing unnecessary problems. "

Hearing what Ye Feng said, many elders around him looked at Ye Feng in surprise.

They didn't seem to expect that Ye Feng was such a person who understood the overall situation.

Because some young people have received benefits and will definitely want to keep asking for them.

But Ye Feng knew that enough was enough and considered the entire future of the Ye family.

Ye Feng's words made many elders around him have a good impression of this young man Ye Feng.

This is a young man who knows the basics.

At this moment, Ye Qingcang also glanced at Ye Feng with great satisfaction and said: "Feng'er, if you really need the bodies of many powerful demon beasts in the future, wait until we successfully get them this time. Temple of Origin, after returning to the Ye family, Grandpa, I will take you to the sea alone, enter the ocean, hunt the monsters and beasts in the ocean, and help you improve your cultivation. "

Ye Qingcang said at this time, obviously he had already guessed that Ye Feng's desire to obtain those monsters and beasts was not for refining pills at all, but must be related to the improvement of his own cultivation.

Although Ye Qingcang didn't know how Ye Feng used the bodies of those demonic beasts to improve his cultivation strength.

But as long as it is useful to his eldest grandson, Ye Qingcang will naturally do his best.

Hearing what Ye Qingcang said, Ye Feng's eyes showed warmth again and again.

This was the first time Ye Feng felt protected by his relatives.

This feeling is pretty good.

Ye Feng had a good impression of this grandfather whom he had not met for a long time.

Ye Feng nodded slightly and said aloud: "Let's talk about this later. Now we should find the origin temple left by the first generation ancestor as soon as possible. It is really important for the rise of our entire Ye family."

After finishing speaking, Ye Feng began to think in his mind

Carefully explore the map of the soul state left by the first generation of ancestors.

Soon Ye Feng said aloud: "We are now getting closer to the temple of origin left by the first generation ancestor. According to the guidance of the map left by the first generation ancestor in my mind, That place should be in the ocean area a hundred kilometers away in the southeast. "

"What?"

"Are we almost at the place where our ancestors left the treasure?"

At this moment, when Ye Feng said this, the eyes of many elders around him suddenly lit up.

The faces of many elders of the Ye family instantly became excited and excited.

Because they know how important the Temple of Origin is to the future of the Ye family.

At this moment, Elder Jian couldn't help but said: "Then let's go directly to the location of the origin temple left by the first generation ancestors, and first take this treasure that is of vital significance to our Ye family. Let's wait until we get it."

Ye Qingcang nodded slightly at this moment and said: "Okay, let's finish the most important things first."

After saying that, everyone quickly flew in a certain direction according to the direction pointed by Ye Feng.

For Ye Feng, this time is mainly to help the Ye family obtain the Temple of Origin.

So now Ye Feng naturally has no reservations and told the elders of the Ye family present in detail all the locations guided by the soul map in his mind.

Half an hour later, they got rid of the tracking of the demonic forces and arrived at the center of the ocean.

"Wow, wow..."

At this moment, there are boundless ocean waves rolling around.

The sky is a little dark, giving people a very depressing feeling, giving people a feeling of deep sea phobia.

At this moment, Ye Feng said aloud: "According to the guidance on the map, the first ancestor of the year hid the Temple of Origin in a deep sea under this ocean.

In the cave. "

Hearing what Ye Feng said, Ye Qingcang immediately nodded, then looked at the group of elders around him and said, "Then let's go down directly."

"good."

Many elders of the Ye family nodded and rushed into the water one by one.

At this moment, Ye Qingcang looked at Ye Feng beside him and said: "Feng'er, there may be huge dangers under this deep sea. Follow me later and don't fall behind. Otherwise, being alone may be life-threatening."

Ye Feng immediately nodded and said, "Okay, I will definitely follow you closely, grandpa."

After finishing speaking, Ye Feng looked at the many elders who had rushed into the deep sea area, and couldn't help but look at Ye Qingcang beside him, and asked aloud: "Grandpa, so far, it seems that no elder has betrayed us. Signs of the Ye family."

Ye Qingcang nodded, his eyes were very deep, and he said loudly: "Because it's not the time yet. When we really find the Temple of Origin, maybe an elder will be unable to help but take action."

After speaking, Ye Qingcang's tone was full of confidence, as if everything was under his control.

Ye Feng just frowned at this moment and said loudly: "Even if there is a traitor, he will probably come prepared. We still have to be careful, maybe there will be a super powerful person from the Dark Demon Cult. Because my aunt said before, the elder who betrayed our Ye family is very likely to collude secretly with the Dark Demon Cult. Therefore, in order to deal with us, the elder who betrayed the family must have already contacted the super master of the Dark Demon Cult. The strong ones have communicated."

Hearing what Ye Feng said, Ye Qingcang glanced at Ye Feng approvingly and said loudly: "Your guess is very correct, but don't worry Feng'er, I must have thought of everything you can think of, your grandfather I'm already prepared."

Hearing what Ye Qingcang said, Ye Feng's eyes suddenly flashed slightly, and he glanced at the empty sea around him. He said nothing more, but followed Ye Qingcang into the deep sea area and opened the way to the front. The elders of the Ye family quickly lurked towards the deepest part of this ocean area.

Chapter 4105 I also have helpers

Swish, swish, swish!

At this moment, in the depths of the boundless ocean, a group of elders of the Ye family were sinking rapidly.

All the elders of the Ye family were dispatched this time. They were all boss-level figures. If they encountered any terrifying ocean monster, they were immediately killed.

When everyone dived into the depths of the ocean, they saw a very obscure underwater cave.

The entrance to this underwater cave is very hidden and is surrounded by all kinds of emerald green seaweed and marine life.

If it weren't for the map in Ye Feng's mind that guided this location, no one would have been able to discover that there would be an entrance to an undersea cave here.

At this moment, Ye Qingcang's eyes were filled with deep anticipation, and he immediately said: "Let's go in directly. There shouldn't be much danger. After all, this is the place where the first generation ancestors of our Ye family left their treasures. , and won't set any fatal traps."

Hearing what Ye Qingcang said at this moment, many of the elders of the Ye family present nodded.

Then everyone walked directly into the entrance of this underwater cave.

When they entered the underwater cave, they saw a very vast underground space.

In this underground space, there is no water, and everything is empty.

There is only a huge stone tablet standing at the end of this underground space.

Everyone saw the ancient stone tablet and quickly flew over.

"This is....."

When they came to the stone tablet, they saw the four characters "Ancestor of the Ye Family" written on the stone tablet.

These four characters, stroke by stroke, are like iron paintings and silver hooks. They are vigorous and powerful, exuding infinite momentum.

"This is the handwriting left by the first generation of ancestors!"

Ye Qingcang saw this scene at this time and was very excited.

Elder Jian said with emotion at this time: "Even if hundreds of thousands of years have passed, and countless years are far away, I can see the words as if they were face to face, I seem to see the peerless grace of my ancestors back then."

At this time, Ye Qingcang looked around and found that there was nothing in the entire underground space except this stone tablet.

Many elders are a little confused and don't know where to find the treasure left by the first generation ancestors, the Temple of Origin.

At this moment, Ye Qingcang suddenly looked at Ye Feng beside him and said: "To untie the bell, you need to tie the bell. Feng'er, it was you who triggered the sculpture in the central square of our Ye family." The shadow of our first-generation ancestor's will gave him the map, so now it's up to you, Feng'er, to find a way to find the Temple of Origin that our ancestors left behind."

Hearing what Ye Qingcang said, Ye Feng nodded slightly and said, "Give me some time."

Buzz!

After saying that, Ye Feng directly exuded his soul power and touched the stone tablet in front of him.

Before, Ye Feng sensed the will of his ancestors in the sculpture in the central square of Yejia, also relying on

Sensed by one's own soul power.

So at this moment, Ye Feng also tried to exude soul power.

But at this moment, many of the elders of the Ye family around him, including Ye Qingcang, couldn't help but look slightly startled.

"Young Master Ye Feng is actually a rare soul master. He is worthy of being the third-generation successor of the family leader. His talent is unparalleled and unmatched by anyone in the world." At this time, the First Elder spoke out in shock.

There was a trace of surprise on the faces of the other elders.

Obviously, Ye Feng turned out to be a fellow soul martial artist, which shocked the old monsters of the Ye family.

Because they rarely encounter the existence of soul cultivators.

The human warriors who practice Hunwu only exist in legends.

Unexpectedly, they met today.

And he is still such a young boy.

At this moment, the look of relief in Ye Qingcang's eyes became even stronger, and he became even more proud.

My eldest grandson is indeed a genius!

"I, Sun Yefeng, am invincible!"

Ye Qingcang couldn't help but speak out proudly.

Buzz!

And just when many elders of the Ye family were amazed by what happened to fellow practitioner Ye Fenghunwu.

Ye Feng used his soul power to touch the ancient stone tablet in front of him, and suddenly the ancient stone tablet emitted a faint golden light.

Along with this stone tablet exuding a faint golden light, there was a pattern of a six-pointed star teleportation formation on this stone tablet.

Buzz!

Then a small palace flew directly out of the six-pointed star teleportation formation and floated directly in front of everyone's eyes.

This small palace is only as big as a palm, but it exudes an aura of boundless antiquity and vastness.

It feels like an eternal monument, standing there, high and sacred.

Ye Qingcang immediately said in surprise: "This is exactly the treasure left by our first generation ancestors. It was one of the ten treasures of the Lord of Origin, the Temple of Origin. The future of my Ye family depends entirely on this. "

A group of other elders from the Ye family showed deep excitement on their faces when they saw the Temple of Origin flying out of the stone tablet.

Even though these old guys are all old monsters who have lived for thousands of years, their moods have long been as calm as water, and they have remained unchanged forever.

But now that they see the Temple of Origin, an artifact that can change the fate of the entire Ye family, these old guys can't hide their joy and excitement.

at this time.

Boom!

Suddenly, a terrifying force rushed towards Ye Qingcang's back.

However, Ye Qingcang seemed to have been prepared. He turned around, stretched out a hand, and struck with the terrifying force.

Uh-huh!

The next moment, everyone immediately saw the person who took action, it was the third elder who had been silent!

At this time, many elders of the Ye family shouted angrily: "Third Elder! What are you doing? Why do you want to attack the family head in a sneak attack??"

At this time, the third elder immediately retreated quickly, with a gloomy look on his face, and said coldly: "Ye Qingcang, I didn't expect that you have been guarding against me for a long time."

Ye Qingcang stared at the third elder at this time, with a cold look in his eyes, and said loudly: "I have known for a long time that there is a traitor among us, but I didn't expect it to be you, the third elder. You are usually not showy, but at the critical moment The secret was exposed immediately. I didn't expect that you couldn't help but take action when you saw the Temple of Origin. Unfortunately, I discovered it in advance. Now I want to clean up the door for the entire Ye family!"

"Hahaha."

The third elder immediately laughed out loud: "Ye Qingcang, although you escaped my sneak attack, do you think I came alone? I came prepared, and you will all die today."

After finishing speaking, the third elder suddenly looked at a certain void around him and said loudly: "Demon Lord of Disaster, you can come out and kill them all. When the time comes, you can take them back to the Temple of Origin to claim credit, and I can control the entire Ye family."

"The Demon Lord of Disaster??"

Almost as soon as the third elder finished speaking, many of the Ye parents present showed deep shock on their faces.

Especially the first elder, he immediately stared at the third elder, roared with hatred, and said loudly: "Third elder, you traitor! For your own ambition, you want to bury so many top experts in our Ye family. Here! You are so cruel! Even if you fight for power, you can't do it at the expense of our Ye family's heritage! This is irresponsible to the entire Ye family!"

Elder Jian also spoke out very solemnly at this time: "Demon Lord of Disaster, that is the existence second only to the Dark Yuan Zun in the Dark Demon Cult. He is one of the six top demon powerhouses in our Eastern Earth Demon Dao. I am afraid that Xiu Because it has surpassed the infinite realm and exists in the transcendent realm above the infinite realm!"

"A strong man beyond the realm?"

At this moment, many elders of the Ye family were in deep shock.

Unexpectedly, the third elder secretly colluded with the top powerhouse in the dark demon sect.

You must know that among the many elders of the Ye family, the most powerful elder is at the level of the seventh heaven of the Infinite Realm.

The most powerful head of the Ye family, Ye Qingcang, is at the ninth level of the Infinite Realm.

Compared with the real Transcendence Realm powerhouse, it is still far behind.

If the devil of disaster really comes, he will

Together they are no match.

"Hahaha, this time I can finally catch all the top experts in your Ye family."

At this moment, accompanied by an arrogant laugh, in the void that the third elder was looking at, a tall figure exuding overwhelming demonic aura stepped out.

It was like a god of darkness, walking out.

Wearing black iron armor, it feels very depressing and heavy.

It is the Demon King of Disaster!

At this moment, the hearts of many Ye family elders present suddenly sank completely.

Unexpectedly, the Demon King of Disaster has really arrived!

Ye Feng also had a dignified look in his eyes at this moment.

If it is the tenth level of the Infinite Realm, or half-step beyond the Realm, everyone present can still give it a try if they unite.

But the Demon Lord of Disaster is a true transcendent realm powerhouse, so there is almost no possibility of winning.

The major realms above Domination, the gap between each realm is like the gap between heaven and earth.

Therefore, a true Transcendence Realm powerhouse can definitely crush a group of Infinite Realm powerhouses.

What's more, there is the third elder, a strong man from the sixth level of the Infinite Realm, who is conducting a sneak attack.

The third elder stared at the ugly-faced people at this moment, laughed loudly and said: "Ye Qingcang, you have become the head of our Ye family for so many years, it's almost the same. From now on, the entire Ye family will be mine." "

"Oh, is it so?"

But at this time, Ye Qingcang didn't seem to panic at all. Instead, he looked at the void beside him and said slowly: "Third Elder, you have your helpers. Don't I have helpers? I have them too. Help! Dean Xiao, you can come out."

Buzz!

Almost at the moment Ye Qingcang finished speaking, what made the three elders and the Calamity Lord across from him freeze their smiles for a moment was that a middle-aged scholar with a feather fan and a turban appeared from the void not far away.

This middle-aged scholar seemed to be very elegant, but the aura of cultivation exuding from him was as terrifying as the vast ocean.

That is clearly a more terrifying existence than the Infinite Realm and the Transcendental Realm!

Unfathomable!

It's impossible to guess what his true cultivation level is!

"What??"

The third elder immediately widened his eyes, as if he couldn't believe that there was such a terrifying existence beside Ye Qingcang.

The domineering smile of the Demon Lord of Disaster also suddenly stiffened. He stared at the middle-aged scholar in horror and said loudly: "How can there be such a powerful existence? You... are you from a high-level interface!! "

This middle-aged scholar was none other than Xiao Chen, who had discussed cooperation with Ye Qingcang before. He came from the powerful super powerful Shenwen Dynasty in the higher realm of heaven, Dean Xiao!

Chapter 4106 Very interested

The reason why Ye Qingcang has very strong self-confidence is naturally because he has already negotiated with Xiao Chen, who comes from the advanced cultivation interface.

Ye Qingcang had actually known for a long time that searching for the Temple of Origin this time would definitely lead to the traitor lurking in the Ye family who was colluding with the Dark Demon Cult.

But Ye Qingcang also knew that if he lured out this traitor, it was very likely that he would draw out the super powerful person in the dark demon sect behind this traitor.

You may not be able to cope with it by then.

So before setting off, Ye Qingcang asked Xiao Chen to hide in the surrounding void and follow this team so that he could take action at any time.

At this time, in order to gain the trust of Ye Qingcang, the head of the Ye family, Xiao Chen naturally chose to set off with Ye Qingcang without any hesitation or refusal.

You know, Xiao Chen comes from the super powerful force in the advanced cultivation interface, the Shenwen Dynasty.

Therefore, Xiao Chen's cultivation strength is very terrifying.

Perhaps this Xiao Chen is not that powerful in the Shenwen Dynasty, and he is a smart person in the Shenwen Dynasty.

But after all, he came down from the realm of advanced cultivation, so his cultivation is naturally capable of defeating the so-called strong men in the world of origin and the end of the Dharma era.

So at this time, Xiao Chen appeared, and the expressions of the three elders and the Demon Lord of Disaster, who were arrogant just now, suddenly became very gloomy, and even a little frightened.

Because the aura of cultivation in Xiao Chen's body was too unfathomable.

So almost at this moment, the Demon Lord of Disaster was preparing to flee from here.

Because he knew that he had no chance of winning against the high-level experts who descended from such an advanced interface.

Boom!

At this moment, the entire body of the Calamity Demon Lord turned into a black mist and disappeared in an instant.

But at this time, Xiao Chen seemed to be very casual, smiled faintly, and said: "Stay here."

Come down. "

Buzz!

After finishing speaking, Xiao Chen casually stretched out a hand.

Suddenly, the infinite energy of heaven and earth began to riot in an instant, and then a super big hand composed of the energy of heaven and earth was condensed, and it was instantly grasped into the void in front of it.

Then he grabbed the Demon Lord of Disaster from the void, crushed it into pieces, and turned it into a rain of blood that filled the sky and sprinkled the ocean.

Seeing this scene at this moment, the third elder suddenly turned pale as death.

Because such a powerful being as the Demon Lord of Disaster was suddenly crushed to death by the mysterious middle-aged scholar next to Ye Qingcang.

This kind of strength is really terrifying.

It's so terrifying!

"hiss!"

At this moment, a group of elders from the Ye family couldn't help but gasp.

Because the strength Xiao Chen showed was truly terrifying to the extreme, simply too terrifying.

They have never seen such a powerful existence!

And what shocked this group of Ye family elders the most was that the head of the family had secretly arranged for such a terrifying existence to be lurking in the void, seemingly waiting for the traitor, the third elder, to show up.

It can be seen that the head of the family has actually anticipated what might happen at this moment, so he is fully prepared.

At this time, Ye Feng, who was standing not far away, saw this scene and couldn't help but show a trace of horror in his eyes.

Because the cultivation aura emanating from Xiao Chen's body was so unfathomable that even Ye Feng couldn't see through it.

Ye Feng why?

I didn't expect that my grandfather would have such a powerful helper.

It turned out to be a transcendent existence from the advanced cultivation interface.

I don't know when I contacted my grandfather.

And he was actually willing to travel thousands of miles to come here for his grandfather to help him eradicate the traitors, which is really unbelievable.

At this time, Ye Feng suddenly thought that Ye Qingcang said that he was fully prepared before, and it turned out to be because there was such a powerful transcendent existence that was always with him.

No wonder Ye Qingcang was so confident that he was not afraid that the traitor would contact the powerful demons in the dark demon sect.

Because as long as the leader of the Dark Demon Cult, Dark Yuan Zun, doesn't come in person, there is probably no need to be afraid at all.

Because this transcendent existence from the advanced cultivation interface, the strength and cultivation level are too terrifying.

At this moment, Ye Feng stared at Xiao Chen, guessing in his heart, who is this person's identity?

He came to the Ye family from the advanced shape modification interface. Why did he spare no effort to help the Ye family?

But I will probably have to wait until this matter is over to ask my grandfather about all these secrets.

At this moment, there was a sudden "plop", and the third elder not far away turned pale. He knelt down on the spot and kowtowed to Ye Qingcang.

The third elder said in horror: "Master, I'm sorry, I shouldn't have betrayed the family. I have sinned, but I have made so many contributions to the Ye family over the years. I hope the family can leave me alone." "Little life."

Hearing what the third elder said, Ye Qingcang's eyes were very cold, without any mercy, and he said: "You attacked me just now and wanted to kill me, and you also secretly colluded with the strong men in the dark demon sect. If you want to kill all the top elders of our Ye family, your character is too ruthless and dark, and I absolutely cannot spare your life.

Otherwise, the future will be like a time bomb for our Ye family. "

After saying that, Ye Qingcang directly stretched out a hand, very determined and iron-blooded. He must eradicate such traitors who betrayed the family and colluded with foreign enemies.

At this moment, Ye Qingcang directly killed the third elder on the spot and completely eliminated this scourge.

Then Ye Qingcang let out a deep breath. This time, taking advantage of the opportunity to find the Temple of Origin, he finally completely uncovered and killed the traitor hidden among the elders.

It can be regarded as eradicating a huge disaster for the future of the Ye family.

At this time, the other elders stared at Ye Qingcang in shock. They did not expect that their family leader was so powerful and had trump cards, and could get help from transcendent beings from the advanced cultivation interface.

At this time, many elders suddenly felt deep hope for the future of the Ye family.

Because the Temple of Origin is now also obtained.

Moreover, behind the Ye family, there are also transcendent beings from the advanced cultivation interface secretly supporting them.

The Ye family will definitely become very prosperous in the future!

At this moment, Ye Qingcang looked at Xiao Chen who was not far away, clasped his fists and said, "Thank you very much, Dean Xiao, for following me here."

Xiao Chen smiled slightly at this time and said aloud: "It should be, we are partners now, this little thing is not worth mentioning."

After finishing speaking, Xiao Chen suddenly looked at Ye Feng, who was standing in the crowd, and there seemed to be a hint of interest in his eyes, and said loudly: "Master Ye, your little grandson is extremely talented. Even if he is here, In our Shenwen Dynasty, it is rare for young people with such extraordinary talents to appear. It is very interesting and I am very interested. Next, I will be in the Ye family. I hope to communicate more with your grandson Ye Feng. I like to communicate with this kind of people very much. Super genius communication."

Chapter 4107 Return to base camp

At this moment, hearing Xiao Chen say this, Ye Feng's eyes showed a hint of surprise.

It seemed that he didn't expect that this super powerful man from the high-level interface would be interested in himself, an ordinary young man from the end of the Dharma era.

After all, in Ye Feng's impression, these super powerful people from the advanced cultivation interface are all very aloof and will not take anyone seriously at all.

So at this moment, Ye Feng was a little surprised to see that Xiao Chen's attitude seemed to be quite gentle and elegant.

Because this Xiao Chen's temperament is completely different from other arrogant and powerful men who came from the advanced cultivation interface. ??

At this time, Ye Feng smiled slightly, clasped his fists and said loudly: "Thank you, Senior Xiao, for helping me this time. Otherwise, all of us would probably die in the hands of the third elder and the super strong men of the Dark Demon Cult. "

Hearing what Ye Feng said, Xiao Chen just smiled slightly and said aloud: "It should be, your grandfather and I have a cooperation agreement, I will definitely help your Ye family, and according to the relationship between me and your grandfather, Regarding the cooperation content, I will carry out training work in the Ye family. At that time, I hope that young master Ye Feng will support my training work, and I will also focus on training you, young master Ye Feng. "

At this moment, hearing what Xiao Chen said, Ye Qingcang was very happy and said: "My grandson Ye Feng is invincible. If Dean Xiao can train my grandson well, then my grandson will definitely be a good person in the future." Able to shine."

When Xiao Chen heard what Ye Qingcang said, he immediately smiled and said, "I am also very optimistic about your grandson's future."

The reason why Xiao Chen was quite polite to Ye Feng, a young man, was mainly because he now completely regarded the Ye family as a puppet force supported by their Shenwen Dynasty.

Therefore, if he can cultivate a very powerful super genius, he will be able to return to the Shenwen Dynasty when the time comes.

Enough to be rewarded.

Because the Shenwen Dynasty is now expanding its territory throughout the heavens, and will come to the Great World of Origin in the future to compete with countless major forces, it is in great need of the injection of fresh blood.

And Ye Feng, a super genius who originated from the big world, can have such achievements in the Age of Ending Law, which is enough to show that his potential is extraordinary.

If he can be properly cultivated, he might actually become a big shot in the future.

At this moment, Ye Qingcang walked up to Ye Feng and said in a low voice: "This Dean Xiao comes from the Shenwen Dynasty in the heaven. The Shenwen Dynasty is the super powerful force in the heaven. Come down and learn all kinds of cultivation knowledge from Senior Dean Xiao. If you can pass Dean Xiao and enter the Divine Wen Dynasty in the heaven, your future will be bright."

Hearing his grandfather's whisper, Ye Feng's eyes showed a hint of surprise.

It turns out that Dean Xiao is a super powerful force from the higher realm of cultivation in heaven.

No wonder he has such a strong cultivation strength.

You know, there are many advanced cultivation interfaces, but not many are at the top.

Heavenly Realm, among the many advanced cultivation interfaces, can definitely be ranked at the forefront.

At this time, Ye Qingcang looked around and said loudly: "The Temple of Origin has been obtained and the traitors have been eliminated. We can go back now."

Many elders of the Ye family nodded.

At this moment, before Ye Feng left, he secretly released the Devouring Domain, killing the people who had been hit before.

All the blood and energy scattered in the sea water after killing the Calamity Demon Lord and the three elders were swallowed up and absorbed.

Ye Feng's skill immediately increased greatly!

boom!

boom!

boom!

boom!

At this moment, Ye Feng suddenly burst out with four extremely powerful cultivation auras. ??

Ye Feng's cultivation level directly broke through the fourth heaven in a row, from dominating the third heaven of Dzogchen to dominating the seventh heaven of Dzogchen!

"What??"

The aura of Ye Fengxiu's breakthrough immediately aroused deep horror among the surrounding Ye family elders.

But no one said anything more.

Because along the way, the elders of the Ye family have long been accustomed to Ye Feng's sudden breakthroughs.

At this moment, Xiao Chen, a super strong man from the advanced cultivation interface, stared at Ye Feng, his eyes flickering slightly, as if he had discovered something.

He seemed to be more interested in Ye Feng, a young boy.

Ye Qingcang laughed and said nothing more.

Because the stronger Ye Feng is, the happier Ye Qingcang will naturally be.

After all, he had high hopes for his eldest grandson.

After everyone left the deep sea area, they returned to the surface of the sea and flew quickly towards the Ye family's base camp.

For everyone, now that they have obtained the crucial treasure, the Temple of Origin, they naturally return to the Ye family as soon as possible, use the Temple of Origin quickly, and then quickly train the masters in the Ye family to let them The cultivation level is getting stronger and stronger.

After all, practicing in the Temple of Origin, the speed of practice

The speed can be increased a hundred times.

However, if you want to use the Temple of Origin's ability to speed up your practice, you must consume the energy of origin.

When everyone returned to the Ye family, Ye Qingcang immediately sent the experts from the Ye family to the surrounding sea areas to search for mineral veins containing the gas of origin.

Mineral veins containing the energy of origin are still very easy to find.

After all, this is the origin world, and it is an ocean area.

Deep in the seabed, there are many mineral veins that contain the energy of origin.

And just when Ye Qingcang returned to the Ye family, he was busy with a group of Ye family elders.

Ye Feng was called over alone by Xiao Chen.

In a house dedicated to entertaining distinguished guests in the central park of the Ye family, Xiao Chen, an elegant scholar with a feather fan and turban, looked at Ye Feng in front of him, smiled slightly and said: "You are the kind who can absorb other blood energy, improve The ability to cultivate one's own skills is so domineering and miraculous. I have never seen it before. It is the most miraculous ability I have ever seen. This kind of magic has never appeared even in the heaven of the higher cultivation interface where I come from. With your abilities, no wonder you were able to improve your cultivation so quickly in the Age of Dharma Ending. You are already on the verge of breaking through at a young age and are almost as good as the elders who have been cultivating for thousands of years. "

Ye Feng couldn't help but his eyes flashed slightly when he heard this.

This Xiao Chen is worthy of coming from the advanced cultivation interface, and he actually discovered that he can swallow and absorb other blood energy and enhance his own power.

Ye Feng did not deny this, but said slowly: "Senior Xiao asked me to come alone this time. Is there anything special?"

Xiao Chen nodded and said aloud: "It is indeed a very special thing to come to Young Master Ye Feng alone this time."

Chapter 4108 Successor

After Xiao Chen finished speaking, he suddenly took out a sword-shaped bone from his storage ring.

This piece of sword-shaped bone is white and exudes a faint golden light, giving people a very sacred feeling.

Ye Feng looked at this sword-shaped bone and immediately couldn't help but said in surprise: "This seems to be the bone of a mythical beast, right? I sensed infinite sacred power."

Xiao Chen nodded, glanced at Ye Feng approvingly, and said loudly: "Your perception also surprised me very much. Yes, this bone is exactly the bone of a mythical beast, and it is not an ordinary mythical beast. The bones are the bones of the supreme divine beast left behind by the divine beast of our Shenwen Dynasty, the Heavenly Sword Divine Tiger."

"What?"

Hearing what Xiao Chen said, Ye Feng's eyes suddenly showed a hint of shock.

Being able to become the guardian beast of a major force in the heaven like the Shenwen Dynasty shows how ancient and powerful this Heavenly Sword Tiger is.

It is estimated to be the top mythical beast among the mythical beasts.

Ye Feng couldn't help but asked: "Has the guardian beast of your Shenwen Dynasty fallen?"

Xiao Chen nodded and said with emotion: "Back then, our Shenwen Dynasty encountered a huge disaster and angered the owner of the restricted area of life in the heaven. Finally, the protector of our Shenwen Dynasty The national divine beast, Senior Heavenly Sword Divine Tiger, tried his best to completely kill the Lord of the Forbidden Zone and saved our entire Divine Wen Dynasty. However, Senior Heavenly Sword Divine Tiger, even though he is an extremely ancient divine beast, is still In that terrifying battle, he suffered serious injuries and eventually died, leaving behind this piece of the supreme bone of the divine beast. It is said that this piece of the supreme bone of

the divine beast can automatically find the successor in the world recognized by the senior Tianjian Shenhu. , this successor must have a profound understanding of the way of swords, and must have the seeds of the way of swords innately, in order to be qualified to be recognized by this supreme bone of the divine beast. After all, Senior Tianjian Shenhu, the leader of their clan The ancestors finally transformed into a clan of divine beasts by merging a terrifying heavenly sword that descended from the outside world.”

Hearing what Xiao Chen said, Ye Feng's eyes showed slightly

With a hint of surprise, he couldn't help but ask: "Senior Xiao Chen, what do you mean is that this piece of supreme bone of the divine beast left by senior Heavenly Sword Divine Tiger guides the unseen successor. In our great world of origin?"

Xiao Chen immediately nodded and said aloud: "That's right, so this time I came from the heaven to the Origin World. In addition to supporting a spokesperson force of our Divine Dynasty in the Origin World, I also have an important secret mission. That is to find the successor of the divine beast that protected the country in the past of our Shenwen Dynasty, let him fuse with the supreme bone of the divine beast left by the Heavenly Sword and Divine Tiger, obtain the power of the supreme divine beast from the Heavenly Sword and Divine Tiger, and become the protector of our Shenwen Dynasty again. The national beast.”

Hearing what Xiao Chen said, Ye Feng immediately nodded and said: "I am familiar with all interfaces of the Origin World. I can take you, senior Xiao Chen, to find the successor of the Heavenly Sword Tiger. ”

Ye Feng also understood at this time that senior Xiao Chen asked him to come here so that he could lead the way. After all, Xiao Chen had just arrived in the world of origin and was not very familiar with the major low-level interfaces in the world of origin.

Xiao Chen immediately smiled slightly at this moment and said loudly: "Ye Feng, don't worry, I won't let you run errands in vain."

After finishing speaking, Xiao Chen took out an ancient book directly from his storage ring and handed it to Ye Feng's hands.

Ye Feng saw the five characters "The power of words" written on this ancient book.

Seeing this very special book, Ye Feng's eyes suddenly revealed a look of surprise, and he couldn't help but ask: "The power of words? Is this a special inheritance?"

Xiao Chen nodded slightly and said aloud: "In our Divine Wen Dynasty, many super strong people practice the power of Wen Dao, that is, the power of words. Some ordinary words, if guided, can explode with earth-shattering power. It's the so-called simplicity."

After finishing speaking, Xiao Chen suddenly took out an ancient writing brush from his storage ring.

Uh-huh!

Then he waved his hand and wrote a big word "fire" in the void.

"Boom!"

Almost at the moment when the word "fire" was formed, this word spurted out blazing flames, burning in the entire void, as if it could burn the entire sky to ashes.

Feeling the terrifying burning power, Ye Feng's eyes suddenly showed a trace of surprise, and he said with great interest: "A simple word can actually erupt into something that can burn the sky and destroy the earth." "Power, the way of cultivation of your Divine Wen Dynasty is indeed very magical. The study of words has reached an extremely deep level."

Xiao Chen smiled at this time and said aloud: "So the power of this book of words, although it is the most basic knowledge of the use of words, can introduce you Ye Feng into the path of literary practice, and it will have a great impact on your overall strength. Promotion has huge benefits, because some special words can sometimes burst out with earth-shattering power. "

After Xiao Chen finished speaking, Ye Feng nodded solemnly and put the "Power of Words" book into his storage ring. Then he could slowly read the book and comprehend the words. the power of.

For Ye Feng, this is a brand new way of practice. It is quite similar to the Confucianism and Taoism that Ye Feng once practiced. However, the study of words is more profound and can unearth the hidden meanings in words. Truly earth-shattering power.

At this time, Ye Feng knew why the Shenwen Dynasty could stand in the heaven and become a super power.

This special way of practice can indeed allow the Shenwen Dynasty to exert earth-shattering power.

Because ordinary practitioners may need to expend a lot of skill to unleash a heaven-destroying attack.

But just now Xiao Chen just casually wrote a word in the void, and he was able to automatically draw out the most original power contained in this word, exerting earth-shattering power.

It really makes people feel very magical and incredible.

This is a brand new practice method, and Ye Feng is naturally very interested.

After all, one more means means one more life-saving trump card.

It will naturally have huge benefits for the improvement of Ye Feng's comprehensive strength.

At this moment, Ye Feng stared at the supreme bone of the divine beast in Xiao Chen's hand and asked aloud: "Actually, I am still very confused. Logically speaking, the successors of this top divine beast should all be in the advanced cultivation interface. Thoughts lead us to the origin of the great world."

Xiao Chen shook his head and said solemnly: "Ye Feng, your view is a bit wrong. I need to correct you. You must know that the Origin World was the most glorious world in the entire universe back then. Today's advanced cultivation interfaces, in fact, their founders and origins came from the Great World of Origin, so don't think that there are no talents in the Great World of Origin. In fact, many living beings in the Great World of Origin are just those who were trapped in the Age of Ending Dharma. The Great Dao of Heaven and Earth has been suppressed. In fact, many talents who originated from the big world are very talented. Once their potential is released, they can soar into the sky. They are even more amazing than the strong ones in the advanced cultivation interface."
”

When Ye Feng heard what Xiao Chen said, he immediately nodded, and then said aloud: "Then how can we use this supreme bone of the divine beast to find the top divine beast such as the Heavenly Sword and Divine Tiger? The successor?"

Ye Feng said at this time, but he was very curious in his heart, who would be the luckiest darling to be chosen by this supreme bone of the mythical beast.

You must know that whoever is selected will be able to directly fuse this piece of divine beast supreme bone, instantly gain the power of the top divine beast such as the Heavenly Sword Divine Tiger, and will also be re-named as the national guardian beast by the entire Divine Dynasty, and enjoy extreme The high salary is equivalent to skyrocketing!

Chapter 4109 The familiar old figure

At this time, Xiao Chen said aloud: "There is currently no way to determine who can get the recognition of this supreme divine beast bone. Currently, the supreme divine beast bone leads only one general direction, and that is in the great world of origin. , it is estimated that we need to be closer to the person chosen by the supreme beast to find out who the exact successor is."

Ye Feng heard what Xiao Chen said and asked in surprise: "In that case, we are going to travel to various places in the entire world of origin, maybe we can find it."

Xiao Chen nodded and said: "This is the only thing we can do for the time being."

Ye Feng nodded and said loudly: "With our current cultivation level, it won't take long to travel through all the low-level interfaces of the entire Origin World and the affiliated Origin World."

Xiao Chen nodded, took the piece of supreme divine beast bone in his hand, and said loudly: "As long as the person selected by the supreme divine beast bone is relatively close, the supreme divine beast bone should be able to react."

Hearing what Xiao Chen said, Ye Feng immediately nodded and said nothing more. Instead, he took Xiao Chen and flew quickly towards the outside of Ye's house.

Then the two of them traveled towards the low-level interfaces attached to the entire world of origin.

Not to mention, the cultivation level of Xiao Chen, a super strong man from the advanced cultivation interface, is absolutely earth-shattering.

Even with Ye Feng's current cultivation level, it is enough to visit all the low-level interfaces of the attached Origin World in just a few months. ??

At this time, Ye Feng took Xiao Chen directly from the direction of the Sea of Chaos of the Origin World, leaving the land area of the Origin World and entering the various low-level interfaces affiliated with the Origin World.

Exactly half a month has passed.

On this day, Ye Feng and Xiao Chen were flying among the endless prairie in a low-level interface, feeling a little bored.

Because in the past half month, they have visited nearly dozens of low-level interfaces, but they have not gained anything.

The bones of the supreme divine beast in Xiao Chen's hands have always been missing.

millimeter reaction.

But at this moment, the supreme divine beast bone in Xiao Chen's hand suddenly emitted a faint golden light, and a sky-high sword energy burst out from the supreme divine beast bone.

Seeing this scene, Ye Feng and Xiao Chen couldn't help but their eyes lit up immediately.

Ye Feng hurriedly said: "Has the successor been found?"

Xiao Chen immediately nodded and said happily: "Yes, it seems that we have finally found the mysterious successor identified by the bones of the supreme beast, and we are not far away from him."

Uh-huh! Uh-huh!

After saying that, Ye Feng and Xiao Chen immediately followed the guidance in the bones of the supreme beast and flew quickly towards a certain direction of this low-level interface.

As they walked, Ye Feng's eyes became more and more stunned.

Because he suddenly discovered that he seemed to be becoming more and more familiar with the direction they were going in based on the bones of the Supreme Divine Beast.

This is the place I visited back then.

It seems that Ye Feng arranged a place for Uncle Nan to rest before leaving.

At the end, when Xiao Chen and Ye Feng arrived at a large mansion based on the bones of the supreme beast.

Ye Feng was immediately stunned when he saw Uncle Nan's familiar old figure.

The unseen successor chosen by the bones of the supreme divine beast to protect the country of the Divine Wen Dynasty turned out to be Uncle Nan!

"this....."

For a moment, Ye Feng was a little confused and couldn't help but said to the old man in the house:
"Uncle Nan..."

"Uncle Nan?"

Xiao Chen beside him couldn't help but have a trace of surprise in his eyes when he heard Ye Feng's name.

It seems that he did not expect that Ye Feng would actually know the successor chosen by the bones of the supreme divine beast left by the divine beast that protected the country in the Divine Wen Dynasty.

This made Xiao Chen feel very incredible.

Because the interface they are currently on is a very, very low-level interface, which is too low-level compared to the origin world.

Unexpectedly, Ye Feng, a young master from an ancient family in the big world, would actually know such an old man in a low-level interface.

But what Xiao Chen didn't know was that the reason why Ye Feng was able to be where he is today was because he had practiced step by step from the lowest level.

From the lowest level interface, we have worked hard step by step to the origin world today.

Therefore, along the way, Ye Feng still has many acquaintances in many low-level interfaces.

Some of these people in the past were friends of Ye Feng, and some were partners who had some fate with Ye Feng.

However, due to the gap in talent, as Ye Feng's cultivation continued to improve, those former partners and friends gradually became alienated, and even eventually lost contact.

But there is nothing that can be done about it.

Because everyone has a different path.

Just because Ye Feng's cultivation level is getting higher and higher, he can't bring his partners and friends with him to make them as strong as him.

That is tantamount to moral kidnapping.

Therefore, Ye Feng could only let nature take its course for many things.

Ye Feng can do whatever he can. If he really can't do it, there is nothing he can do.

After all, in life, there is not much freedom but helplessness.

So ever since he started practicing cultivation, Ye Feng knew that many people were destined to be just passers-by in his life.

You may have experienced an unforgettable friendship or love, but in the end you had to forget each other.

But Uncle Nan is really special to Ye Feng.

It was Uncle Nan who helped him change his fate against the will of heaven and protected his blood and bones for three thousand years, allowing him to be reborn three thousand years later.

Only then could he continue to practice and become so powerful that he could change his innate tragic fate.

And Ye Feng has never forgotten that when he was the weakest, Uncle Nan patiently taught him how to practice swordsmanship and powerful swordsmanship. During the early growth process, he always protected himself secretly until he became stronger than Uncle Nan. Still strong.

Ye Feng had told Uncle Nan before that when he found his father and mother and returned to his Ye family, he would take Uncle Nan over.

Unexpectedly, before Ye Feng came to pick up Uncle Nan, Xiao Chen, a strong man from the advanced level of cultivation, actually found Uncle Nan with the bones of the supreme beast.

In other words, the mysterious successor of the supreme divine beast bones left behind by the divine beast of the Divine Dynasty turned out to be Uncle Nan.

At this time, Ye Feng suddenly thought of something.

Xiao Chen seemed to have said before that the divine beast protecting the country of the Shenwen Dynasty was a very special clan of the Heavenly Sword and Divine Tiger.

If the Heavenly Sword God Tiger wants to find his successor, he must have a super talent that is difficult for ordinary people to possess, as well as an ultimate understanding of the sword.

Ye Feng knew that Uncle Nan's understanding of the way of swordsmanship was very powerful.

At this time, Ye Feng suddenly understood that the bones of the supreme beast left by the protector beast of the Shenwen Dynasty automatically found Uncle Nan as his successor, probably because Uncle Nan's understanding of the way of the sword had reached an extreme level.

At this time, when he saw Ye Feng appearing in front of him, Uncle Nan immediately said with relief: "Brother Feng, I haven't seen you for many years, and you still look like a young man when you come back. Very good. Come here this time, it's Will you take me somewhere to retire? I am an old man, and I am satisfied to see you become so strong, Mr. Feng."

Chapter 4110 Can Still Help

Hearing Uncle Nan say this at this moment, Ye Feng also showed a hint of emotion in his eyes.

Recalling the past years, Ye Feng felt a sense of vicissitudes of life in his heart.

At this time, Ye Feng seemed to have remembered something, and said quickly: "Uncle Nan, I am not here to come to you specifically this time. Originally, I planned to wait until my position in the Ye family was stable before taking you over to take care of you, but Now I guess you won't be able to support yourself in old age, Uncle Nan."

After finishing speaking, Ye Feng looked at Xiao Chen beside him, and then introduced him quite solemnly: "Uncle Nan, I would like to introduce you to a heavyweight. This senior Xiao Chen comes from a very high-level spiritual master. The great transcendent force in the interface came to our world of origin this time, bringing with them a supreme divine beast bone from the divine beast of the Divine Dynasty behind them. This supreme divine beast bone is looking for the successor in the dark, who happens to be Uncle Nan, it can be said that it is a very coincidence, even I find it a bit unbelievable. "

Hearing what Ye Feng said, Uncle Nan couldn't help but show a trace of surprise in his eyes.

It seems that he did not expect that he would be selected by the supreme beast bone of the national guardian beast of such a high-level and powerful force.

At this moment, Uncle Nan looked at Xiao Chen, clasped his fists slightly, and said loudly: "Senior, are you sure that I am the successor chosen by the Supreme Divine Beast Bone?"

Uncle Nan is not a simple person. He knows very well that if he can be chosen as the successor by such a supreme beast bone, his future will be extremely brilliant.

Hearing Uncle Nan's question at this moment, Xiao Chen immediately smiled and said, "You can't be wrong. The successor chosen by the Supreme Divine Beast Bone is you. I didn't expect that you and Young Master Ye Feng actually know each other. That's great, you can all work for our entire Shenwen Dynasty in the future."

The reason why Xiao Chen spared no effort to help and train Ye Feng at this time was naturally to cultivate extremely powerful masters for the Shenwen Dynasty behind him.

When Ye Feng heard what Xiao Chen said, his eyes flashed slightly and he didn't say much.

In fact, Ye Feng does not object to the so-called big influence. After all, it is the same as joining some powerful sects and becoming a disciple of the sect. It is no different.

At this time, Ye Feng looked at Xiao Chen beside him and said, "Can Uncle Nan directly fuse this piece of supreme beast bone now?"

Xiao Chen shook his head and said aloud: "It is not possible to fuse directly yet, otherwise this old man's body will not be able to withstand the power of the divine beast in this bone. First, bring back the old man you call Uncle Nan." Ye family, I need to prepare some other materials to help this old man fuse the bones of the supreme beast."

After finishing speaking, Xiao Chen looked at Uncle Nan in front of him, and his eyes did not become contemptuous because of Uncle Nan's very low cultivation level.

Because Xiao Chen knew very well that once Uncle Nan fused with this piece of supreme divine beast bone, he would become the successor of the new generation of Heavenly Sword and Divine Tiger.

In the future, he will be able to become the protector of the entire Shenwen Dynasty.

At that time, his status may still be higher than that of the dean of the Theological College of the Shenwen Dynasty.

So at this moment, Xiao Chen was very polite to Uncle Nan.

Because Uncle Nan was personally selected by the Supreme Divine Beast Bone of the Heavenly Sword Tiger, no one can deprive Uncle Nan of his subsequent identity and status.

At this moment, Ye Feng also understood this and was naturally very happy for Uncle Nan.

Because Uncle Nan had consumed all his original power for himself and became old and weak.

Now that Uncle Nan can be selected by the bones of the supreme divine beast and become the new generation protector of the Shenwen Dynasty, inheriting the power of the divine beast, he can naturally become a super powerful being and a big shot.

This is much better than Uncle Nan's future planned by Ye Feng.

Ye Feng's original plan was that after his position in the Ye family was stable, he would take Uncle Nan over to take care of him in his old age. He would use some means to make Uncle Nan stronger and live longer.

But now, Uncle Nan has actually been recognized by the Supreme Divine Beast Bone, the guardian beast of the Shenwen Dynasty from the heaven. This is much better than using some means to cultivate Uncle Nan himself.

Because once Uncle Nan fuses this piece of supreme beast bone, Uncle Nan's future will be much more brilliant than he imagined.

At this moment, Ye Feng immediately nodded and said: "Uncle Nan, let's just leave here now."

Uncle Nan nodded. He had nothing to miss about the place where he was recuperating.

At this moment, Ye Feng didn't hesitate at all and just took Uncle Nan and Xiao Chen back to the world of origin quickly.

When they left this low-level interface and returned to the world of origin, they immediately rushed towards the Ye family.

In less than half a month, they returned to Ye's house.

At this moment, Xiao Chen's face was smiling.

Because finding the successor of the Heavenly Sword Tiger was his secret mission to the world of origin.

I didn't expect it to be completed so quickly.

Xiao Chen then returned to the Heavenly Divine Wen Dynasty so that he could explain to His Majesty.

At this time, Uncle Nan looked at the luxurious buildings of the ancient family around him, and couldn't help but sigh with eyes, and said aloud: "The young man back then has grown to what he is today."

Because Uncle Nan really looked at Ye Feng from the beginning to the end, from the weakest little warrior in the true martial realm.

Step by step, I went through hardships and grew up to

to its current level of strength.

Naturally, this old man, Uncle Nan, was very emotional.

At this time, Xiao Chen couldn't wait to take Uncle Nan directly to the place where he lived, hoping to let Uncle Nan fuse this piece of supreme beast bone as soon as possible.

Because after the fusion, it will take a long time for Uncle Nan to digest the power of the divine beast, and then step by step inherit all the power of the divine beast left in this bone by the Heavenly Sword Divine Tiger.

Uncle Nan looked at Ye Feng and said happily: "Originally, I thought my mission had been completed and the road was coming to an end. Now it seems that I may be able to help you, Mr. Feng, in the future."

Ye Feng smiled slightly and couldn't help but said: "Uncle Nan, you can fuse the supreme beast bone with peace of mind. When the fusion is successful, I will take you to see grandpa."

Uncle Nan nodded, and then followed Xiao Chen and left the place directly.

At this moment, Ye Feng flew towards the central hall of the Ye family, wanting to ask how his grandfather was using the Temple of Origin.

Ye Feng also wanted to try to see if practicing in the Temple of Origin would really speed up his practice a hundred times.

Moreover, the Temple of Origin is one of the ten greatest treasures of the Lord of Origin. The materials used for casting are very ancient and advanced, and they seem to contain divine substances.

Ye Feng couldn't help but ask in his mind: "Emperor Chu, you said that I absorbed the divine substances in the Temple of Origin, will it affect the function of the Temple of Origin to increase people's cultivation speed by a hundred times?"

In his mind, Emperor Chu was silent for a moment, and then said: "It may not affect it. We need to explore it in the Temple of Origin at that time. If the function of the Temple of Origin can increase people's cultivation speed by a hundred times, it relies on the ancient imprint in the Temple of Origin. If you use the equipment formation to achieve it, then if you absorb the divine substance from the Temple of Origin, it will not affect this function. At most, it will affect the material hardness of the Temple of Origin."
