Chapter 4111 Go alone

At this moment, when Ye Feng heard what Emperor Chu said, there was a trace of surprise in Ye Feng's eyes.

I didn't expect that my casual words would actually be feasible.

At this time, Ye Feng said expectantly: "After I arrive at the Temple of Origin later, Emperor Chu, please investigate carefully. If the absorption of divine substances does not affect the function of the Temple of Origin, then what will happen to me?" Said that it has huge benefits. If it affects the function of the Temple of Origin to increase the cultivation speed by a hundred times, then I cannot absorb the divine substances in it. "

Ye Feng spoke at this time with a very firm tone, because Ye Feng knew very well that the Temple of Origin can increase the speed of cultivation a hundred times, which may not mean much to him, but it has great significance to the entire Ye family.

Uh-huh!

Next, Ye Feng did not hesitate and flew quickly towards the central hall of the Ye family.

Soon, Ye Feng flew to the area of the central hall.

When Ye Feng walked into the central hall, he immediately saw his grandfather Ye Qingcang, who was happily discussing something with a group of Ye family elders.

At this time, Ye Feng walked in and immediately attracted the attention of everyone present.

Many elders of the Ye family showed surprise in their eyes at this moment.

Because since the previous trip to Central Ocean, all the elders of the Ye family have become aware of Ye Feng's supreme talent, and it has even been recognized by super powerful figures from the heaven.

Therefore, in the eyes of many top elders of the Ye family, Ye Feng is no longer a junior figure, but the hope of the Ye family in the future.

Because they know very well that even if their elders can continue to improve their cultivation in the future, the upper limit is probably not high.

But Ye Feng is still so young and possesses supreme cultivation talent. He can even achieve enlightenment and improve his cultivation at any time.

Therefore, these elders of the Ye family know very well that in the future, Ye Feng's cultivation level will reach an extremely terrifying level, and he will definitely become the leader of the entire Ye family in the future.

At this time, Ye Qingcang saw Ye Feng arriving and immediately said very happily: "Grandson, you are here! Come to grandpa quickly. We are discussing something related to you. It just so happens that you come

Okay, I just wanted to ask for your opinion. "

"Things related to me?"

When Ye Feng heard what Ye Qingcang said, there was a hint of surprise in his eyes, and he couldn't help but ask, "What's going on?"

Ye Qingcang immediately said: "Our family alliance in the Sea of Chaos wants to open an ancient space in our Sea of Chaos, called the 'Secret Realm of Chaos'. It is the first generation of the Lord of Chaos in our Sea of Chaos." The habitat left behind contains countless opportunities and creations left by the Lord of Chaos. However, to open this secret realm of chaos, we need the heads of the 108 ancient families in the Sea of Chaos to gather together to open the chaos. The secret realm, so even though our Ye family has sealed ourselves using the formation, we are still invited to participate in this secret realm of chaos."

At this moment, when he heard Ye Qingcang say this, Ye Feng suddenly showed a look of surprise in his eyes and said loudly: "Grandpa, you mean, let me take many young geniuses from the Ye family. Participate in this trial of the Chaos Secret Realm?"

"No."

Ye Qingcang shook his head and said, "I just want you to go alone."

Ye Feng had a look of astonishment on his face and said, "Am I going alone?"

Ye Qingcang nodded and continued: "Now our Ye family already has the Temple of Origin, which can increase the speed of cultivators a hundred times, so now, instead of taking the risk to participate in the Chaos Secret Realm trial, it is better to let the many young geniuses of our Ye family and other masters of the Ye family enter the Temple of Origin to practice, which will be safer. After all, our Ye family has very few young geniuses now, unlike other major families where there are so many young geniuses. I can no longer bear the huge loss of death. After all, the secret realm of Chaos is said to have endless opportunities, but after all, the Lord of Chaos was the most ruthless person in the Sea of Chaos. The place left behind must be extremely dangerous, so I and I Many elders have reached the same opinion, that is, let Ye Feng go to this Chaos Secret Realm on behalf of our entire Ye family. After all, the Temple of Origin is not of much use to you Ye Feng."

Now Ye Qingcang already knows that the reason why Ye Feng has achieved such a rapid breakthrough in cultivation is entirely because he can absorb external energy and increase his strength.

Therefore, Ye Qingcang felt that letting Ye Feng participate in the Chaos Secret Realm trial was the most correct choice.

Ye Feng represents the entire Ye family and can handle invitations from the entire Sea of Chaos Family Alliance.

On the other hand, Ye Feng participated in this Chaos Secret Realm alone, which meant that all the resources Ye Feng obtained in the Chaos Secret Realm belonged to Ye Feng alone and did not need to be distributed to others.

In fact, this point also contains a little bit of Ye Qingcang's own selfishness.

Because he knew very well that if his eldest grandson took many young geniuses from the Ye family, he would probably be dragged down by the many young geniuses from the Ye family.

And now, the Ye family really cannot bear the loss of every young genius.

Therefore, it is much better to let many young geniuses enter the Temple of Origin to practice a hundred times faster than going to a dangerous place like the Chaos Secret Realm.

As for Ye Feng's strength, Ye Qingcang is not worried at all.

This time going to the ocean to find the Temple of Origin, Ye Feng has already proven his powerful adaptability and cultivation strength.

At this moment, Ye Feng understood what his grandfather was thinking, and immediately nodded, with a hint of expectation in his eyes, and said: "Okay, then I will go to the Secret Realm of Chaos on behalf of the entire Ye family this time. I am also very interested in this secret place left by ancient powerful men. The chance and good fortune in it may allow me to further increase my cultivation. For the future of the entire Ye family's fight against the dark demon sect, the fight will come from high-level. The powerful forces in the cultivation interface have huge benefits."

Although Ye Feng has now come to Ye's house and settled down, he still has a sense of crisis in his heart.

Because the threat of the dark demon cult is still there.

And in the future, there will be more superpowers in the advanced cultivation interface coming.

Although now the Ye family also has the support of the Shenwen Dynasty.

But Ye Feng knew very well that the Shenwen Dynasty only regarded the Ye family as a puppet force.

So the whole future

The Ye family still needs to rely on the experts of its own family for support.

In addition, my father and mother were lost at the end of the world in search of Hongmeng Ancestor.

The end of the world is a mysterious place.

Perhaps it is connected to an extraterrestrial world that is different from the big world of origin.

Extremely dangerous.

In the future, I will need to improve my strength even more so that I can go to the end of the world, and it is very likely that I will go to the outer world to find my father and mother.

At this moment, Ye Feng was thinking secretly in his heart.

Ye Qingcang looked at Ye Feng and said happily: "This time, go to the Chaos Secret Realm and give full play to your strength. Let other families know that although our Ye family is in decline now, we still have a bright future. A new generation of leaders."

After finishing speaking, Ye Qingcang looked towards the center of the hall and said, "Let Elder Jian take Feng'er with you this time."

Uh-huh!

After finishing speaking, Ye Qingcang took out a black token directly from his storage ring.

It is the head token of the Ye family.

Ye Qingcang handed it directly to Elder Jian.

Among the many elders of the Ye family, Elder Jian, although not the highest in cultivation, is definitely the most powerful in combat and the most ferocious in attack power.

Therefore, Ye Qingcang felt more at ease when Elder Jian took Ye Feng to join other families.

As for Ye Qingcang himself and other elders of the Ye family, they need to be in charge of the Ye family.

Last time, because the Temple of Origin was too important, they went out together.

Under normal circumstances, the ancient elders in these families cannot leave the family's base camp easily.

Otherwise, it would be terrible if someone took advantage of it and destroyed the entire Ye family's headquarters and foundation.

At this moment, Ye Feng suddenly said: "By the way, grandpa, I came here this time because I wanted to go to the Temple of Origin to have a look. Although I don't like the hundred-fold cultivation speed of the Temple of Origin, but I also I am very curious about the mystery of the Temple of Origin, so I want to visit it before leaving. "

Chapter 4112 Ten levels of perfection

Hearing what Ye Feng said, Ye Qingcang naturally did not refuse at all, and directly laughed and said: "Okay, I will take you there myself."

Uh-huh!

After saying that, Ye Qingcang took Ye Feng and walked out of the hall directly, flying quickly in a certain direction outside the hall.

At the very back of the Ye family base camp, there is a vast forest park.

In this forest park, a huge hall is suspended in mid-air, exuding a faint golden light.

At this time, Ye Feng saw this scene, and his eyes immediately showed surprise.

It seems that the Temple of Origin has now been completely activated by the Ye family's strong men using the energy of origin.

Uh-huh!

At this moment, Ye Feng immediately flew over and immediately saw the Temple of Origin. It was now tens of thousands of meters wide and could accommodate thousands of people.

At this moment, Ye Feng flew directly into the Temple of Origin, and immediately saw many young masters of the Ye family, as well as other middle-aged masters and old people of the Ye family, all starting to practice there.

These people should be the first batch of talents worthy of training carefully selected by the Ye family, and they want to improve their strength as soon as possible.

At this moment, Ye Feng also saw many older people among them.

It seems that the elders of the Ye family also want to improve their current cultivation bottlenecks by a hundred times the speed of cultivation and become super strong as soon as possible.

At this time, Ye Feng sensed it carefully and his eyes lit up slightly.

Because he sensed that the source that could increase the speed of cultivation a hundred times in the Temple of Origin seemed to be an ancient and complex formation imprinted in the Temple of Origin.

It should be the formation engraved by the Lord of Origin.

At this moment, Ye Feng couldn't help but said aloud in his mind: "Emperor Chu, please check again to make sure and see if what I sensed is true."

Emperor Chu immediately nodded, then directly released his soul power and began to sense.

To know,

Emperor Chu's research on the soul was very profound.

Moreover, the true origin of Emperor Chu is very mysterious.

As his ancient memory fragments continued to awaken, Emperor Chu's methods became more and more powerful.

At this time, Emperor Chu sensed it carefully, and then confirmed Ye Feng's guess, and said: "Yes, the reason why the Temple of Origin can increase the speed of practitioners practicing in it by a hundred times is because of the Origin. The ancient formation that was engraved in this palace back then, so Ye Feng, you can try to absorb the divine material in this temple of origin. It should not affect the function of the temple of origin. At most, it will weaken the material of the temple of origin. "

Ye Feng nodded at this time.

The material of the Temple of Origin is weaker, but it actually doesn't have much impact.

Because the Ye family's use of the Temple of Origin is mainly to take advantage of the function that can increase the speed a hundred times.

And if it weren't for Ye Feng, the Ye family wouldn't have been able to obtain the Temple of Origin.

Therefore, it is harmless and reasonable for Ye Feng to seek some benefits for himself now.

So at this time, Ye Feng no longer hesitated and walked directly to the door of the Temple of Origin, then stretched out his hand and touched the door of the Temple of Origin.

Buzz!

At this moment, Ye Feng immediately sensed that the entire Temple of Origin gave people a very vast and boundless feeling.

Ye Feng immediately sensed a very sacred power and substance, which was a divine substance.

At this moment, Ye Feng did not hesitate at all, and directly began to operate his fused Immortal Bone of the God, and began to absorb the divine substance contained in the temple of origin.

Then it merges into his own fist and continues to temper part of his body.

Buzz!

At this time, as Ye Feng absorbed it, waves of golden energy were exactly the divine objects.

The essence is being rapidly absorbed from the depths of the entire Origin Temple material and injected into Ye Feng's body.

At this time, Ye Feng gathered all the divine substances he had absorbed towards his two fists.

Because Ye Feng's current tempering level of the Immortal Body of the God is at the eighth level of the first stage of the double fists.

So now, Ye Feng naturally wants to temper his two fists to perfection as soon as possible.

Then you can continue to the second stage of tempering the immortal bones of the gods, the eyes.

"boom!"

The first stage of the Immortal Body of the God, double fists, ninth level!

"boom!"

The first stage of the Immortal Body of the God, double fists, the tenth level of perfection!

At this moment, Ye Feng's eyes suddenly revealed a look of deep surprise.

Unexpectedly, there were so many divine substances contained in the Temple of Origin, which caused his fists to directly increase by two levels, transforming into the tenth level of perfection.

This also means that Ye Feng's two fists have completely transformed and evolved into a brand new immortal body of a god, completely transformed and evolved from the life level.

Buzz!

At this time, Ye Feng clenched his fists and could feel that the divine energy contained in his two fists was surging to an extreme.

I have to say that Ye Feng's choice this time was very correct.

Absorbing enough divine substances from the Temple of Origin, his two fists were directly tempered and upgraded to the tenth level of perfection.

Ye Feng could feel that his fist had become very powerful, many times stronger than before.

If you swing it directly, you will definitely have infinite divine power, bursting out from your two fists, which may be comparable to some extremely powerful weapons.

At this time, Ye Feng had successfully tempered the first stage of the God's Immortal Body, the double fists, to the tenth level of perfection.

The next step is to carry out the second stage of tempering and improvement of the Immortal Body of the God.

That is the binocular stage.

Next, if Ye Feng can still absorb the divine substance, he can directly use it to temper his two eyes, turning his two eyes into a real immortal body of a god.

Ye Feng felt that by then, his two eyes might be able to shine with the incomparably bright light of divine power, which could have extremely terrifying destructive power.

In any case, Ye Feng is still very much looking forward to tempering all parts of his body into the immortal body of a god.

Because the Immortal Celestial Clan is the head of the gods.

Therefore, if Ye Feng can temper every part of his body and become the complete immortal body of a god, Ye Feng will be immortal and become the most powerful existence in the world.

At this time, Ye Feng looked at Ye Qingcang beside him, smiled slightly and said, "Grandpa, I've made my decision. You can leave directly now."

Ye Qingcang immediately nodded, and then said aloud: "Elder Jian should be waiting for you outside the gate of our Ye family now. You can follow Elder Jian directly to participate in this trial of the Chaos Secret Realm, grandson, You must pay attention to your own safety. Although I am very confident in your strength, and there are not many young geniuses in other major families who can surpass you, there must be huge dangers in the Chaos Secret Realm. While plundering resources, Safety first."

Ye Feng immediately nodded, smiled and said: "Grandpa, don't worry, I will pay attention to safety."

At this time, Ye Feng was still very confident.

This time, before heading to the Secret Realm of Chaos, Ye Feng successfully tempered his fists to the tenth level of the God's Immortal Body.

This is of great help to improve Ye Feng's combat effectiveness, and it is equivalent to Ye Feng having another super powerful trump card.

Once his fists burst out with the divine power of the Great Perfection, they will be able to smash everything!

No one can stop it!

Chapter 4113 Who is this son?

When Ye Feng came to the door of Ye's house, he immediately saw a straight old man standing there.

It's like a sword standing in the void, giving people the impression of sharpness and sharp eyes.

This is Elder Jian.

Elder Jian can be said to be second only to the family leader Ye Qingcang in combat prowess among the many elders of the Ye family.

So this time, Ye Qingcang asked Elder Jian to take Ye Feng to participate in the trial of the Secret Scripture of Chaos, and he was naturally very relieved.

Elder Jian is considered a top-notch existence among the powerful elders in the entire Sea of Chaos, and is very powerful.

At this time, Ye Feng walked over and immediately said with a smile: "Elder Jian, we can set off directly now."

Ye Feng still had a very good impression of this sharp-edged sword elder.

When he went to the Sea of Chaos to find the Temple of Origin, Elder Sword was the first to actively hunt the demonic beasts in the ocean to provide himself with blood energy.

Moreover, Elder Jian has always been very dedicated to the entire Ye family. It can be said to be the sharpest "sword" in Ye Qingcang's hand.

At this moment, when Elder Jian saw Ye Feng arriving, a smile appeared on his originally cold and stern face, and he said loudly: "Okay, I will take you directly to the entrance of the Chaos Secret Realm. There should be many people of Chaos there. The big family of Hai gathered together."

Uh-huh! Uh-huh!

Next, Elder Jian took Ye Feng and left the Ye family directly, flying quickly towards the center of the Sea of Chaos.

After they hurried for half an hour, they finally arrived at the center of the Sea of Chaos.

There is a very strong atmosphere of chaos here.

In the hazy atmosphere of chaos, there seemed to be a huge steel door suspended high in the sky.

This steel gate is very old, and it seems to be stained with mottled blood, giving people a very iron-blooded and murderous feeling.

At this time, Elder Sword immediately said: "This gate is the entrance to the secret realm of chaos, but it has always been in a sealed state. Only the tokens of the heads of all the families in our sea of chaos can be gathered together." Open the entrance to this secret realm of chaos."

Hearing what Elder Jian said, Ye Feng immediately nodded.

At this moment, the two people immediately flew quickly towards the area where the steel gate was.

When they arrived here, they immediately saw many members of the ancient families in the Sea of Chaos gathered here.

estimate

Already more than half way there.

There were tens of thousands of people present.

Crowds of people.

Because many ancient families come here with their young geniuses, wanting to enter the secret realm of Chaos and find various resources left by the Lord of Chaos.

You know, the Secret Realm of Chaos is where the Lord of Chaos lived.

It is also the base camp where the Lord of Chaos established his own power.

Therefore, in the Chaos Secret Realm, there are naturally many powerful inheritances and rich natural resources of heaven and earth.

After all, the Lord of Chaos was the strongest man in the Sea of Chaos thousands of years ago.

As for the Ye family, the main reason why many young geniuses are not allowed to enter the Secret Realm of Chaos is because they are afraid of losing young geniuses.

Moreover, the Ye family has now secretly obtained a training artifact such as the Temple of Origin, which can increase the speed of cultivators a hundred times, so naturally there is no need for the young geniuses in the family to venture into the secret realm of chaos.

But other families can't.

No other family has such a powerful training artifact as the Temple of Origin.

They can only take the young geniuses from many families and take advantage of this opportunity to open the Chaos Secret Realm and let them enter this ancient secret realm to plunder resources, find ancient inheritance, and improve their cultivation.

When Ye Feng and Elder Jian came here, they immediately attracted the attention of many Sea of Chaos families.

Because everyone knows that the Ye family has been in self-isolation for many years.

So seeing the arrival of the Ye family, many families breathed a sigh of relief.

Because if the Ye family does not come, the head of the family cannot gather together, and this secret realm of chaos cannot be opened.

But what surprised many families was that only two people from the Ye family came.

And there is also an elder who leads the team.

He is an older person and cannot enter the secret realm of chaos.

Therefore, the Ye family actually sent only one young genius to participate in entering the secret realm of chaos.

"Who is this only young genius sent by the Ye family? Why does he look so strange? It seems that he is not the genius we are familiar with in the Ye family."

"Maybe the Ye family doesn't want to participate in this Chaos Secret Realm at all, so they just

He randomly selected a young genius to come over and deal with it. "

"That's right, the Ye family is now in decline, and there probably aren't many young geniuses under his command, so we don't want to send those young geniuses into the secret realm of chaos to die."

"It's really disappointing. Back then, the Ye family was the most powerful family in our Sea of Chaos. It's a pity that it has fallen to this level now. Just sending a young man over to make up for it is ridiculous and generous. It's a pity and a shame."

...

At this moment, the masters from the many families present couldn't help but talk aloud. Apparently they felt that the Ye family did not have the resources to send many young geniuses into the secret realm of chaos, so they could only take a random photo. Ordinary teenagers come to top up their numbers.

At this moment, Elder Jian and Ye Feng both heard the discussion, but no one else said anything.

Because there is no point in saying anything now.

When Ye Feng truly bursts out his terrifying fighting power, these families in the Sea of Chaos will understand that although the Ye family has declined, it is now becoming more glorious again.

"Um?"

At this moment, Ye Feng found an acquaintance in the crowd.

It was the eldest lady of the Murong family, Murong Mingyue.

There are also a bunch of other geniuses from the Murong family.

Ye Feng also spent a lot of time in the Murong family before.

Moreover, he brought the genius of the Murong family with him and gained considerable benefits in the internal trial space of the Murong family.

It also indirectly solved some crises in the Murong family.

Therefore, although the young geniuses of the Murong family are all arrogant, they are very convinced of Ye Feng.

So at this time, Ye Feng's arrival immediately made a group of young geniuses from the Murong family show joy on their faces.

They quickly flew to Ye Feng's face and chirped, asking for help.

Murong Mingyue, the eldest daughter of the Murong family, was very happy to see Ye Feng, her sweetheart, again. She hurriedly came to Ye Feng's side and couldn't help but hold Ye Feng's arm. Her words were very... Kindly, he asked aloud: "Ye Feng, is it okay to return to the Ye family during this time? No one in the Ye family targets you, a genius who lives outside, right? But you are so powerful, and if someone dares to target you, I guess you They have already been trampled underfoot."

Obviously, Murong Mingyue knew Ye Feng very well. Speaking at this moment, Ye Feng also

I couldn't help but laugh out loud.

"what's the situation??"

At this moment, a group of super geniuses from the Murong family gathered around Ye Feng to inquire about his welfare.

Even the eldest lady of the Murong family, Murong Mingyue, one of the three beauties in the Sea of Chaos, stood beside Ye Feng, even holding Ye Feng's arm, and her behavior was quite cordial. .

This made many other masters and young geniuses from the Sea of Chaos family suddenly widen their eyes, with deep astonishment on their faces.

They never thought that such an ordinary young man sent by the Ye family in their eyes would actually make all the super geniuses in the entire Murong family excited.

They knew very well that the Murong family was now the number one super family in the Sea of Chaos.

Therefore, all the super geniuses in the Murong family are arrogant.

Especially the eldest daughter of the Murong family, Murong Mingyue, is praised as a goddess-level figure by all the young geniuses in the big family, and she is very cold towards everyone.

But now that Ye Feng is so enthusiastic, and does not shy away from suspicion, and behaves very intimately, it really makes everyone's eyes widen, and they almost fall out of their eyes in shock.

"Um?"

Elder Jian was quite surprised when he saw this scene. He seemed not to have expected that Ye Feng would be so popular in such a super big family like the Murong family.

You know, in the Sea of Chaos, the geniuses from ordinary ancient families are all very arrogant, thinking that they are young disciples of ancient families, and all of them are pretentious.

So let alone the Murong family, the number one super family in the Sea of Chaos.

The young geniuses of the Murong family must be more arrogant and arrogant, and no one takes them seriously.

But for Ye Feng to show such enthusiasm, he was even a little in awe.

This really surprised Elder Jian.

A group of masters and young disciples from other families who had looked down on Ye Feng, a so-called ordinary boy, at this moment, their eyes widened, and they simply couldn't believe what they saw.

"Who is this son?"

At this moment, the senior leaders and young geniuses from dozens of ancient families around them were all shocked and confused to the extreme.

Chapter 4114 Open

At this time, many other family members were shocked because of Ye Feng's special performance.

Ye Feng had a very pleasant conversation with Murong Mingyue, the eldest lady of the Murong family.

At this moment, Murong Mingyue said excitedly: "Ye Feng, this opening of the Chaos Secret Realm will definitely improve the cultivation level of all the masters of our entire Chaos Sea family."

Ye Feng nodded and said aloud: "I also heard from the elders in our family that this secret realm of chaos is where the strongest man in the sea of chaos, the Lord of Chaos, stayed ten thousand years ago. It is said that that The Lord of Chaos almost unified the entire Sea of Chaos, so the place he left must be very extraordinary, and it must contain very powerful inheritance and various opportunities for growth in the world. "

Murong Mingyue nodded slightly, and then said aloud: "But this Lord of Chaos was the most ruthless person in the Sea of Chaos back then. He was both good and evil, so the place where he stayed might have very terrifying things. It is said that this Lord of Chaos liked to keep some ferocious and evil beasts in captivity. When we enter the secret realm of Chaos, we must be careful of those evil beasts that may still be alive. "

Hearing what Murong Mingyue said, Ye Feng immediately nodded and said: "Okay, I will definitely pay attention to it when the time comes."

Murong Mingyue nodded slightly, and then said aloud: "Ye Feng, since you are here alone this time, then explore the entire secret realm of chaos with us."

When Ye Feng heard what Murong Mingyue said, he nodded and said, "Okay, we will see the situation at that time. I hope that entering this chaotic secret realm will not be a random teleportation."

While the two were talking, the elders leading the teams from other major families arrived one after another.

They all bring young geniuses from their respective families, and basically bring dozens or even hundreds of people.

Obviously, although some families are not ranked very high, they have young descendants emerging one after another, and in the future they may be able to become one of the top families in the entire Sea of Chaos.

In any case, the opening of the Chaos Secret Realm this time has naturally attracted the interest of all the families. They want to put all the young geniuses into the Chaos Secret Realm, hoping that they can find various powerful inheritances and opportunities in the Chaos Secret Realm. And in the experience of blood and fire, he can improve his true strength, thus improving the overall strength of the family.

So at this time, only Elder Jian and Ye Feng came to the Ye family, which naturally made all the families feel very surprised.

But everyone knows that Ye Feng must be very extraordinary.

Although they felt that this young genius from the Ye family was very strange, as if they had never seen him before.

But being able to make many young geniuses of the Murong family proud and arrogant, all revolve around Ye Feng, which shows that the only young man in the Ye family must be very powerful and powerful.

At this time, the elders and powerful men in many families looked at the young geniuses in their own families, reminding them not to provoke the only young man in the Ye family who participated in the Chaos Secret Realm.

However, the closeness between Murong Mingyue and Ye Feng also attracted a lot of jealous eyes from Ye Feng.

Those are top geniuses from major families. In their minds, Murong Mingyue, the eldest lady of the Murong family, is a goddess-level figure in the Sea of Chaos.

Therefore, in the minds of many top geniuses from major families, Murong Mingyue should be aloof and sacred.

It is beyond the reach of ordinary people.

But now, seeing a strange young man chatting happily with Murong Mingyue, and even Murong Mingyue holding the man's arm, naturally made many top young men from major families look at each other. The deep fire of jealousy.

Because in their eyes, Murong Mingyue is the proud daughter of heaven and a goddess among the younger generation.

Even if they can't get it, they will never allow any other man to get it.

But now, Murong Mingyue's special attitude towards Ye Feng naturally makes many top male geniuses feel very envious, jealous and hateful.

At this moment, Ye Feng immediately felt a series of rather hostile eyes looking at him, which was a bit piercing.

At this time, Ye Feng looked at Murong Mingyue, who was very close to him, and immediately smiled and said: "It seems that I have attracted the jealousy of many people. Many people seem to be very fond of me. Opinions, because I stand with the goddess in their eyes and are so close."

When Murong Mingyue heard what Ye Feng said, her eyes were slightly stunned at first, and then she immediately smiled sweetly and said loudly: "If you are not jealous, doesn't it mean that Ye Feng is mediocre, and if you attract jealousy, it means that Ye Feng is excellent. ah."

Hearing what Murong Mingyue said, Ye Feng immediately laughed and said, "You can really speak."

While the two were talking, suddenly a tall middle-aged man appeared.

He is the head of the Murong family.

The Murong family is the number one super family in the Sea of Chaos, so this time it is natural that the head of the Murong family will preside over the entire trial.

At this moment, the head of the Murong family immediately looked at the audience, his voice was quite majestic, and he said with a smile: "Now that all the ancient families in our Sea of Chaos have arrived, please lead the team. Elders, release the Patriarch's Token in your hands directly into the sky and begin to open the seal on the steel gate leading to the Chaos Secret Realm."

"good."

Many elders from major families present were all nodding their heads at this moment.

Uh-huh! Uh-huh! Uh-huh...

At this moment, the senior leaders of the major families threw all the family head tokens they had brought into the sky high into the sky.

There are a total of one hundred and eight ancient families living in the Sea of Chaos.

A total of one hundred and eight family head tokens all flew high into the sky, and were actually sucked directly into the steel gate by a mysterious force.

"Buzz!"

And almost at the next moment, the steel gate immediately began to emit bright light of chaos.

Apparently, the steel gate was activated.

A space passage appeared in the gate.

The head of the Murong family immediately spoke out: "Young geniuses from all major families, hurry up and enter the secret realm of chaos. I hope you can all get your own opportunities and fortunes and improve your cultivation!"

Although there are some internal conflicts among the 108 ancient families in the Sea of Chaos, most of the time they belong to an alliance.

At this time, the young geniuses from various major families flew quickly towards the space passage in the steel gate.

At this moment, Elder Jian looked at Ye Feng beside him and said: "Go, pay attention to safety, I will wait for your triumphant return outside." At this time, many other family members, because of Ye Feng's special performance And when I felt extremely shocked.

Ye Feng had a very pleasant conversation with Murong Mingyue, the eldest lady of the Murong family.

At this moment, Murong Mingyue said excitedly: "Ye Feng, the opening of the Chaos Secret Realm this time will definitely improve the cultivation level of all the masters of our entire Chaos Sea family."

Ye Feng nodded and said aloud: "I also heard from the elders in our family that this secret realm of chaos is where the strongest man in the sea of chaos, the Lord of Chaos, stayed ten thousand years ago. It is said that that The Lord of Chaos almost unified the entire Sea of Chaos, so the place he left must be very extraordinary, and it must contain very powerful inheritance and various opportunities for growth in the world. Murong Mingyue nodded slightly, and then said aloud: "But this Lord of Chaos was the most ruthless person in the Sea of Chaos back then. He was both good and evil, so the place where he stayed might have very terrifying things. It is said that this Lord of Chaos liked to keep some ferocious and evil beasts in captivity. When we enter the secret realm of Chaos, we must be careful of those evil beasts that may still be alive. "

Hearing what Murong Mingyue said, Ye Feng immediately nodded and said: "Okay, I will definitely pay attention to it when the time comes."

Murong Mingyue nodded slightly, and then said aloud: "Ye Feng, since you are here alone this time, then explore the entire secret realm of chaos with us."

When Ye Feng heard what Murong Mingyue said, he nodded and said, "Okay, we will see the situation at that time. I hope that entering this chaotic secret realm will not be a random teleportation."

While the two were talking, the elders leading the teams from other major families arrived one after another.

They all bring young geniuses from their respective families, and basically bring dozens or even hundreds of people.

Obviously, although some families are not ranked very high, they have young descendants emerging one after another, and in the future they may be able to become one of the top families in the entire Sea of Chaos.

In any case, the opening of the Chaos Secret Realm this time has naturally attracted the interest of all the families. They want to put all the young geniuses into the Chaos Secret Realm, hoping that they can find various powerful inheritances and opportunities in the Chaos Secret Realm. And in the experience of blood and fire, he can improve his true strength, thus improving the overall strength of the family.

So at this time, only Elder Jian and Ye Feng came to the Ye family, which naturally made all the families feel very surprised.

But everyone knows that Ye Feng must be very extraordinary.

Although they felt that this young genius from the Ye family was very strange, as if they had never seen him before.

But being able to make many young geniuses of the Murong family feel arrogant and arrogant all revolve around Ye Feng, which shows that the only young man in the Ye family must be very powerful and powerful.

At this time, the elders and powerful men in many families looked at the young geniuses in their own families, reminding them not to provoke the only young man in the Ye family who participated in the Chaos Secret Realm.

However, the closeness between Murong Mingyue and Ye Feng also attracted a lot of jealous eyes from Ye Feng.

Those are top geniuses from major families. In their minds, Murong Mingyue, the eldest lady of the Murong family, is a goddess-level figure in the Sea of Chaos.

Therefore, in the minds of many top geniuses from major families, Murong Mingyue should be aloof and sacred.

It is beyond the reach of ordinary people.

But now, seeing a strange young man chatting happily with Murong Mingyue, and even Murong Mingyue holding the man's arm, naturally made many top young men from major families look at each other. The deep fire of jealousy.

Because in their eyes, Murong Mingyue is the proud daughter of heaven and a goddess among the younger generation.

Even if they can't get it, they will never allow any other man to get it.

But now, Murong Mingyue's special attitude towards Ye Feng naturally makes many top male geniuses feel very envious, jealous and hateful.

At this moment, Ye Feng immediately felt a series of rather hostile eyes looking at him, which was a bit piercing.

At this time, Ye Feng looked at Murong Mingyue who was very close to him, and immediately smiled and said: "It seems that I have attracted the jealousy of many people. Many people seem to be very fond of me. Opinions, because I stand with the goddess in their eyes and are so close."

When Murong Mingyue heard what Ye Feng said, her eyes were slightly stunned at first, and then she immediately smiled and said loudly: "If you are not jealous, doesn't it mean that Ye Feng is mediocre, and if you attract jealousy, it means that Ye Feng is excellent. ah."

Hearing what Murong Mingyue said, Ye Feng immediately laughed and said, "You can really speak."

While the two were talking, suddenly a tall middle-aged man appeared.

He is the head of the Murong family.

The Murong family is the number one super family in the Sea of Chaos, so this time it is natural that the head of the Murong family will preside over the entire trial.

At this moment, the head of the Murong family immediately looked at the audience, his voice was quite majestic, and he said with a smile: "Now that all the ancient families in our Sea of Chaos have arrived, please lead the team. Elders, release the Patriarch's Token in your hands directly into the sky and begin to open the seal on the steel gate leading to the Chaos Secret Realm."

"good."

Many elders from major families present were all nodding their heads at this moment.

Uh-huh! Uh-huh! Uh-huh...

At this moment, the senior leaders of the major families all threw the family head tokens they had brought into their hands into the sky.

There are a total of one hundred and eight ancient families living in the Sea of Chaos.

A total of one hundred and eight family head tokens all flew high into the sky, and were actually sucked directly into the steel gate by a mysterious force.

"Buzz!"

And almost at the next moment, the steel gate immediately began to emit bright light of chaos.

Apparently, the steel gate was activated.

A space passage appeared in the gate.

The head of the Murong family immediately spoke out: "Young geniuses from all the major families, hurry up and enter the secret realm of chaos. I hope that you can all get your own opportunities and fortunes and improve your cultivation!"

Although there are some internal conflicts among the 108 ancient families in the Sea of Chaos, most of the time they belong to an alliance.

At this time, the young geniuses from various major families flew quickly towards the space passage in the steel gate.

At this moment, Elder Jian looked at Ye Feng beside him and said loudly: "Go, pay attention to safety, I will wait for your triumphant return outside."

Chapter 4115 Marriage

"good."

At this time, Ye Feng nodded to Elder Jian, and then flew directly to a group of young geniuses from the Murong family, and stood with the eldest daughter of the Murong family, Murong Mingyue.

Murong Mingyue was very happy when she saw Ye Feng coming over. There was a look of expectation on her beautiful face, and she said loudly: "This time I can try with you Ye Feng again. I like to be with you Ye Feng the most." "

At this time, hearing the unabashed and straightforward words of Murong Mingyue, the eldest lady of the Murong family, even Ye Feng couldn't help but froze slightly.

It seems that she did not expect that this recognized goddess of the Sea of Chaos would actually say such words to herself.

In this regard, Ye Feng didn't say anything more, just smiled and said: "Okay, I hope that we can all get a huge improvement in the Chaos Secret Realm this time, and in the future, many families in our Chaos Sea will also have the best Join together to form an unbreakable force."??

Hearing what Ye Feng said, the head of the Murong family suddenly stared at Elder Jian, smiled and said: "Elder Jian, your young master of the Ye family is a perfect match for my daughter. Why don't we do it then?" Let's get married between our two families."

"What??"

At this moment, I heard the head of the Murong family say this, and he said it in front of everyone's attention.

The other leaders of the ancient families in the Sea of Chaos, including the young geniuses, all widened their eyes as if they couldn't imagine that the head of the Murong family would actually say such a thing.

You know, the head of the Murong family is not an ordinary person.

What he said couldn't possibly be a joke, but he really meant it.

Elder Jian was also stunned at this time. It seemed that the head of the Murong family, who was unparalleled in majesty and majesty, would actually offer to marry the Ye family.

You know, there are many families in the Sea of Chaos, all hoping to marry into the Murong family, the number one family, so that they can unite together and use the Murong family's huge

Big force.

But now, the head of the Murong family actually proposed to marry the Ye family.

Elder Jian couldn't help but look at Ye Feng, who was not far ahead, with even more surprise in his eyes.

It seems that he did not expect that this young master who had just returned to the family could be recognized by the head of the Murong family. It was really incredible.

Because Elder Jian knew very well that the reason why the head of the Murong family said this could not be because he took a fancy to the declining Ye family, but because he took a fancy to Ye Feng as a person.

You must know that the head of the Murong family is not an ordinary head, but the head of the number one family in the Sea of Chaos. He is unparalleled in majesty and has huge power. He can be said to be one of the top super figures in the Sea of Chaos.

Can such a super big man take the initiative to send his daughter out for marriage.

This shows how important Ye Feng is in the mind of the head of the Murong family.

At this time, Murong Mingyue heard her father say this, but she showed a trace of shyness on her face.

This is very rare.

Ye Feng was also slightly stunned, as if he did not expect that the head of the Murong family would say such a thing in front of everyone.

Elder Jian suddenly smiled at this time, with a hint of helplessness on his sharp face, and said loudly: "Murong Family Master, this kind of thing is not something I can decide, and I need to ask for help. According to my opinion, the Murong family can come to our Ye family as guests in the future and have a good talk with our head."

What Elder Jian said at this time was also watertight. There was no blind agreement or direct rejection.

After all, he didn't know what Ye Feng thought about this matter.

Murong

When the head of the family heard what Elder Jian said, he immediately laughed and said: "Okay, after this trial of the Chaos Secret Realm is over, I will go to your Ye family and have a good talk with your head. There will also be a meeting. Something very important needs to be discussed."

"Is there something particularly important to discuss?"

When Elder Jian heard what the head of the Murong family said, his eyes flashed slightly, and then he nodded without saying anything more.

"The Ye family has fallen into decline now. Why is it that the Murong family, the largest family, suddenly pays so much attention to it?"

At this moment, the leaders and elders of many other families present had deep surprises in their eyes.

Because every move of the behemoth Murong family definitely touches the hearts of all the families in the entire Sea of Chaos.

At this moment, many leaders of major families secretly recorded what happened today.

Obviously, their views on the declining Ye family will begin to change in the future.

At this time, Ye Feng, Murong Mingyue, and a group of young geniuses from the Murong family had already stepped into the space passage between the steel gates high in the sky.

Buzz!

Following a burst of extremely violent space fluctuations, the figures of many geniuses suddenly disappeared into the space gate.

At this moment, the leaders and elders of many families did not leave here, but were waiting outside.

Many family leaders are looking forward to this trial in the Chaos Secret Realm.

Because this is the secret trial space left by the Lord of Chaos.

If you are lucky, you may be able to get earth-shaking powerful inheritance from it.

At this moment, Ye Feng opened his eyes accompanied by a severe sense of spatial dizziness.

He found that at this moment he was standing on an extremely huge

Among the green grasslands.

The surrounding area was deserted and deserted.

The endless green as far as the eye could see made Ye Feng feel relaxed and happy for a moment.

Seeing that there was no one around, Ye Feng couldn't help but smile helplessly.

It seems that the entrance to this chaotic secret realm trial space is a random teleportation entrance.

Therefore, even if Ye Feng, Murong Mingyue and a group of young geniuses from the Murong family stood together, they would not meet in this chaotic secret realm in the end.

Instead, he was randomly transported to this chaotic secret world.

However, Ye Feng was not dissatisfied with this.

Because for a person like Ye Feng, who has super individual combat power, there may be greater benefits to trial alone in this chaotic secret realm.

There is no need to huddle together for warmth like other ordinary geniuses in order to be able to cope with the dangers in this chaotic secret realm.

At this moment, Ye Feng began to look around, wanting to observe this chaotic secret world first.

This secret realm of chaos is a small world left by the Lord of Chaos, the strongest man in the Sea of Chaos. Therefore, there must be a lot of opportunities hidden in it, but it also contains great dangers.

Murong Mingyue said before that the Lord of Chaos liked to keep some very evil and ferocious beasts in captivity.

So despite the fact that the green grassland where Ye Feng was at this time was very quiet and peaceful, a terrible crisis might suddenly come.

"Boom!"

And sure enough, just when Ye Feng was about to walk around and take a look, suddenly the green grassland soil under Ye Feng's feet suddenly cracked.

Then a huge golden centipede, several kilometers long, with scales like golden iron sheets and a cold metallic sheen, emerged from the ground in an instant. It was vicious and biting towards Ye Feng. And go.

Chapter 4116 Fierce beasts

Boom! !

The entire surface of the golden centipede is covered with golden demonic scales.

Under the sunlight, it exudes a cold metallic luster, looking very ferocious and terrifying.

Moreover, the top of its head was covered with densely packed metal barb-like teeth, which were more than ten meters long and emitted a dark blue light. It looked very scary and was obviously highly poisonous.

"Roar!!"

The big golden centipede suddenly opened its bloody mouth and bit towards Ye Feng, trying to swallow Ye Feng directly.

In front of the golden centipede that is thousands of meters long, Ye Feng, a small human race, looks very small and insignificant.

Buzz!

But at this moment, the blood energy in Ye Feng's body surged violently, and suddenly earth-shaking and terrifying life energy burst out from that small body.

"boom!"

At this moment, Ye Feng's fists burst out with brilliant golden light, and he immediately attacked the golden centipede rushing forward.

Boom! !

At this moment, Ye Feng's fist seemed to contain huge power, and it hit the top of the golden centipede's head. It directly sent the golden centipede flying backwards, and directly fell hard to the ground. On the green grassland not far away, a large piece of land was smashed.

The distance suddenly turned into ruins.

Uh-huh!

Then Ye Feng flew over and found that the head of the golden centipede had been shattered into pieces by himself, and it was completely killed.

"died?"

Ye Feng's eyes were surprised. He didn't expect this big golden centipede to look ferocious and ferocious. He didn't expect it to be so easy to fight.

However, I have to say that the cultivation aura of this golden centipede is still very powerful. It is at the same level as Ye Feng and belongs to the seventh heaven level of the Great Perfection Master.

But under the attack of Ye Feng's fist, he was killed directly.

This shows that Ye Feng's current combat effectiveness is simply terrifying to the extreme.

Because Ye Feng's two fists now have been tempered with divine substances to the perfect state of the immortal bones of the gods.

Therefore, Ye Feng's two fists are naturally filled with the terrifying power of the gods.

"Swallow!"

At this time, Ye Feng didn't hesitate at all and immediately released the swallowing energy.

Eat the field.

Buzz!

The boundless swallowing field of darkness directly enveloped all the golden centipedes thousands of meters in front of it.

Then Ye Feng quickly absorbed the blood energy and powerful demonic energy of the golden centipede.

Buzz!

At this moment, Ye Feng immediately felt that his skill had increased a lot.

However, Ye Feng's cultivation level has not broken through.

Because although this golden centipede is extremely powerful, it is nothing to Ye Feng.

He is at the same cultivation level as Ye Feng, so he doesn't bring much energy to Ye Feng.

You know, Ye Feng's skill reserve is dozens or even hundreds of times that of the same level.

Therefore, as Ye Feng's cultivation level increases, the energy required for each breakthrough becomes more and more terrifying.

The blood energy of creatures in the same realm simply cannot satisfy Ye Feng's breakthrough.

However, devouring the blood energy of this golden centipede finally improved Ye Feng's skills a lot.

Ye Feng's eyes immediately lit up at this time.

In this small world of Chaos Secret Realm, as Murong Mingyue said before, there are many evil and ferocious ancient beasts living there.

Rumble...

And just when Ye Feng was thinking, he suddenly found himself at the end of this green grassland.

Accompanied by a huge roar, a majestic three-headed giant tens of thousands of meters tall ran over.

This three-headed giant is like an ancient Titan, with three heads on its shoulders and six arms.

The palms of each arm hold different weapons.

There are maces, steel swords thousands of meters long, and metal balls burning with flames...

It looks very vicious.

Obviously, this ancient giant with three heads and six arms is an extremely powerful creature that lives in this small world of chaotic secret realm.

He was attracted by the sound of Ye Feng fighting with the golden centipede.

He immediately sensed the surging energy coming from Ye Feng's body.

The majestic blood energy actually made a majestic voice: "Such a small human race, the blood energy emanating from the body makes me feel like a vast ocean. It is really surprising. If you are If you swallow it, it will definitely be of great help to my life evolution, and I can also sense a very precious and immortal sacred aura from your body. You, the human race, must have received some extremely terrifying innate opportunity. That's how powerful it is."

After this giant with three heads and six arms finished speaking, his majestic body measuring tens of thousands of meters suddenly rushed towards Ye Feng.

Even though this giant with three heads and six arms has a very towering body, it is as big as a mountain.

But its speed is extremely terrifying.

boom!

Accompanied by a terrifying sonic boom that pierced the space, this huge giant with three heads and six arms rushed in front of Ye Feng, directly waving six different weapons held by its six arms towards Ye Feng. Attack comes.

The six different weapons held by his six arms turned out to be magic weapons with different attributes.

At this time, the attack came, and six kinds of light of power with different attributes burst out, blasting Ye Feng to pieces in an instant.

At this moment, Ye Feng did not hesitate at all, and directly waved his two fists, and the power of the Celestial Clan was immediately stimulated in his fists.

Buzz!

Ye Feng's two fists immediately expanded from the size of humans to two fists the size of mountains. They were full of extreme pressure, and they were directly fighting against the ancient giant with three heads and six arms. together.

Boom!

A huge roar suddenly sounded across the entire field, almost shattering the entire sky.

The entire Qingqing Grassland was bombarded by this terrifying battle, and countless cracks appeared in the ground.

It was as if the entire grassland was about to collapse.

I have to say that this kind of terrifying collision is really terrible.

The aftermath was astonishingly destructive.

At this time, Ye Feng's eyes showed surprise.

Because he discovered that this ancient giant with three heads and six arms could actually resist the power of the gods in his two fists.

enough to say

Ming, this ancient giant with three heads and six arms is an extremely powerful creature.

It is many times more powerful than the golden centipede that emerged from the ground before.

Ye Feng sensed it carefully and found that he could not accurately sense the cultivation aura of this ancient giant with three heads and six arms.

However, Ye Feng estimated that this ancient giant with three heads and six arms was at least at the tenth level of Dzogchen Master.

Even an existence that transcends the Infinite Realm level of the Lord.

Because only creatures with this kind of cultivation can compete with Ye Feng now.

Ye Feng didn't hesitate at this time and immediately burst out his soul power.

The ancient Nine Sun Diagram obtained by Ye Feng previously analyzed the powerful inheritance at the soul level, the Immortal Sun Technique.

Now Ye Feng realizes that the power of this ancient giant with three heads and six arms is very terrifying, with boundless brute force and defensive power.

So Ye Feng was ready to attack him from the soul level.

At this time, Ye Feng released the inheritance at the soul level, the Immortal Sun Art.

boom! !

I saw that Ye Feng's head suddenly bloomed with the bright light of the sun, and directly impacted a bright solar laser. In an instant, it directly hit the head of the towering three-headed and six-armed giant tens of thousands of meters ahead. It hit instantly.

This giant with three heads and six arms wanted to take up weapons for defense.

But Ye Feng is attacking the soul at this time, and physical weapons cannot defend him at all.

Therefore, the spirit and soul of the giant withstood the attack of Ye Feng's soul power. It was directly the light of the soul sun released by Ye Feng. It was bombarded continuously and retreated, and even couldn't help but scream.

"ah!!"

This ancient giant with three heads and six arms immediately let out a shrill scream.

Obviously, he probably never thought that Ye Feng, a small human race, not only has a terrifying physical strength, but also has an extremely powerful soul attack ability.

The Immortal Sun Art made Ye Feng's soul power completely explode.

Just like the sun, it is rapidly burning and destroying the spirit and soul of this ancient giant with three heads and six arms!

Chapter 4117 Pangolin

"ah!!"

At this time, the soul of the ancient giant with three heads and six arms was quickly burned by Ye Feng using the Immortal Sun Art.

This ancient giant with three heads and six arms was covering his head, feeling deep pain, lying on the ground, rolling around crazily.

Because Ye Feng is now using soul attack methods.

So this ancient giant is simply unstoppable.

No matter how high his physical defense is, he can even withstand Ye Feng's fists with the power of gods.

But he couldn't resist Ye Feng's soul attack.

So at this time, accompanied by painful screams, this ancient giant with three heads and six arms suddenly became sluggish, no matter how powerful his combat power and defense were, and his soul was severely damaged.

Uh-huh!

Ye Feng rushed forward and punched hard.

The ancient giant with three heads and six arms, whose soul was in great pain now, no longer had any ability to resist Ye Feng's fist.

Therefore, Ye Feng's golden fist emitting golden light directly hit the ancient giant's head.

"Puch" sound!

This ancient giant was killed instantly.

At this moment, Ye Feng was very satisfied.

I have been practicing the Immortal Sun Art for such a long time, and as expected, my soul attack methods have become much more powerful.

Because without the powerful soul inheritance of the Immortal Sun Art, Ye Feng simply released his soul power, and it was estimated that he would not be able to cause much damage to this ancient giant, and it would be impossible for him to lose his combat effectiveness instantly.

But with the bonus of the Immortal Sun Art, Ye Feng's soul attack power has the burning power of the sun, directly burning the ancient giant's soul to the point of excruciating pain, causing him to instantly lose his defense capabilities.

At this time, Ye Feng also deeply realized how important a powerful inheritance is to practitioners.

"I hope to find a powerful and advanced inheritance in this small world left by the Lord of Chaos."

At this moment, Ye Feng murmured, and then without any hesitation, continued to release the Devouring Domain and began to devour the blood and energy of this ancient giant with three heads and six arms.

This ancient giant with three heads and six arms was probably one of the rare and exotic beasts kept in captivity by the Lord of Chaos in this small world back then. He was very powerful.

If he escapes from this small world, it is estimated that this ancient giant with three heads and six arms will be able to compete with many elders and powerful men in the Sea of Chaos and become the overlord of one party.

But now he was killed by Ye Feng.

It has to be said that Ye Feng is getting stronger and stronger now.

But don't look at Ye Fengzhan

It's so easy to kill these vicious beasts.

That's because Ye Feng is too powerful alone.

If they were young geniuses from other families in the Sea of Chaos, even if they united together and encountered such a terrifying ancient giant with three heads and six arms, they would probably suffer heavy losses, or even be wiped out.

But Ye Feng was able to kill such a powerful creature by himself.

I have to say that Ye Qingcang's vision was not wrong.

This time, the Ye family only sent Ye Feng alone, which could match the thousands of troops from other families.

"Buzz buzz..."

At this time, along with Ye Feng's devouring, waves of powerful energy were immediately injected into Ye Feng's Dantian.

At this moment, Ye Feng could feel that this energy was very majestic and powerful, many times more powerful than the golden centipede he had swallowed before.

At this moment, Ye Feng's skill suddenly increased tremendously.

"boom!"

Dzogchen rules the eighth heaven!

At this moment, Ye Feng's cultivation finally made a complete breakthrough, and a new and powerful cultivation momentum burst out from his body.

At this moment, Ye Feng did not hesitate and put all the six weapons held by this ancient giant with three heads and six arms into his storage ring.

Although these weapons are not as good as some of the powerful magic weapons that Ye Feng now possesses.

But since they were used by this ancient giant with three heads and six arms, the level of these weapons must be very high, and the materials must be very good.

When the time comes to bring out this small world of Chaos Secret Realm, it should be able to sell for a good price.

At this time, Ye Feng continued to fly quickly towards a certain direction in this small world of chaotic secret realm.

But just when Ye Feng was about to leave here, he suddenly saw that Ye Feng seemed to sense something.

"Who is it? Watching in secret? Come out!"

boom!

At this moment, Ye Feng immediately punched out a fist in a certain direction.

"boom!"

At this moment, a golden beam of light burst out from Ye Feng's fist.

Like the sharpest spear in the world, it suddenly hit a green grassland not far away.

Click!

It directly exploded a large piece of soil.

soil

Underneath, a small pangolin unexpectedly appeared.

However, this pangolin is very strange. Instead of gray-black scales, it is covered with dense golden scales.

Each golden scale looks like it is cast from the strongest molten iron in the world, exuding a cold metallic luster.

Moreover, Ye Feng's punch contained the power of the gods, and even the ancient giant with three heads and six arms was unable to withstand it.

But now the divine golden beam on Ye Feng's fist hit the pangolin, but it didn't kill the pangolin in an instant.

Moreover, Ye Feng could sense the pangolin's cultivation aura, which was a whole level lower than his own.

Can he actually withstand his own God's fist?

Ye Feng's eyes immediately fell on the golden scales on the pangolin, with a hint of interest in his eyes.

Uh-huh!

At this moment, Ye Feng did not take any more action and immediately flew over.

"Sir, please forgive me! Little Demon, I just happened to be passing by here, I had no other intention!"

Ye Feng looked at the pangolin covered with golden scales in front of him, smiled faintly, and said aloud: "You happened to get here? Why don't I believe it? I think you want to lurk here, waiting for me and that ancient giant with three heads and six arms to be injured, and then reap the benefits."

"this....."

The pangolin immediately showed a hint of embarrassment on his face.

Seeing this, Ye Feng just smiled lightly.

Ye Feng naturally saw the purpose of this pangolin at a glance.

Because Ye Feng is also an expert in this aspect.

Back then, I did a lot of things like spying on people secretly and reaping the benefits.

When the pangolin saw that Ye Feng had immediately seen through his lie, he immediately said in horror: "Sir, please forgive me! I am a little demon, and I really don't dare to have any plans against you!"

At this moment, Ye Feng said aloud: "You were able to withstand the golden beam of light erupted from my fist without suffering any damage. It seems that the golden scales on your body are very strong. You should be no ordinary person. Pangolin?"

The golden pangolin in front of him immediately nodded and bowed and said: "What your lord is saying is that you are really wise and powerful. You can tell it at a glance. Yes, I am not an ordinary pangolin. There is a trace of the ancient golden eight in my body." I have the bloodline of the Arm-Scale Evil Beast, so my body is covered with these extremely strong golden scales, which are almost indestructible. However, my combat power is very weak, so I am definitely not in any danger to you adults."

br\u003e

When Ye Feng heard what Pangolin said, he immediately nodded.

He also sensed that the cultivation aura of this pangolin was very weak, a whole level lower than his own, so it was nothing at all.

But this pangolin was able to block the attack of his God's Fist at such a low level, which shows that this pangolin's defense is absolutely terrifying to the extreme, it is like the strongest shield in the world.

At this time, Ye Feng thought for a moment, and then said aloud: "You like to crawl around in this small world so much and want to take advantage. It seems that you are very familiar with this small world of Chaos Secret Realm, right?"

Ye Feng knew that this pangolin was probably a kind of existence similar to the local snakes in this small world.

Although his cultivation strength is not very good, he must be very familiar with the entire small world.

Ye Feng just lacks such a local snake-like leader.

Therefore, Ye Feng did not directly kill the pangolin.

Anyway, there is no threat to myself.

Killing and devouring it means nothing.

Even if Ye Feng swallows that little bit of blood energy, it will probably only be able to increase his own power a little bit. It's not interesting. He might as well make full use of the role of this pangolin.

So at this time, Ye Feng asked something like this.

At this moment, when hearing Ye Feng's question, Pangolin immediately nodded and bowed and said, "Sir, you are indeed wise, mighty, and wise. Yes, I am very familiar with the entire small world. I have survived in this small world for so long. Over the years, I have become very familiar with every corner of this small world. This is where the Lord of Chaos lived. I also know many special places where the Lord of Chaos left good things. But I am not strong enough. There is no way to enter those special places and look for the treasures left by the Lord of Chaos. However, with your powerful cultivation and my familiarity with every place, I can definitely bring all the good things in this small world to you. After searching everything, I can lead the way for you, as long as you don't kill me and save my little life."

Pangolin spoke quickly, telling all the benefits he had to Ye Feng, for fear that Ye Feng would kill him if he was unhappy.

After all, Pangolin knows very well that although the human boy in front of him looks weak and delicate, he seems harmless to humans and animals.

But the pangolin was underground just now and witnessed this young man kill the terrifying ancient giant with three heads and six arms.

It's really terrifying.

Therefore, in Pangolin's heart at this time, he was naturally completely obedient to Ye Feng and did not dare to have the slightest dissent.

Chapter 4118 Misty Forest

At this time, Ye Feng nodded slightly and said: "As long as you serve me wholeheartedly, then I will not kill you."

After finishing speaking, Ye Feng looked in a certain direction not far away and said loudly: "Now you take me to a nearby place with good fortune. I have just come to this small world. I basically don't know it and I am very unfamiliar with it. familiar."

The pangolin immediately said with surprised eyes: "I guessed that the adults should come from outside this small world. The humans in this small world are very weak, and it is impossible for there to be a strong human being as powerful as the adults. "

After saying that, the pangolin made a "crash" sound, got under the ground, and then said loudly: "I will take you, sir, to the nearest place nearby that contains chance creation. That place is called the Misty Forest. There are many powerful beasts alive, which should be of great use to adults. "

Pangolin had seen it with his own eyes before, Ye Feng swallowed the ancient giant with three heads and six arms.

The ancient giant with three heads and six arms was tens of thousands of meters tall, but after being swallowed by Ye Feng, it shriveled up, making the pangolin very frightened.

The pangolin said such words at this time, which made Ye Feng quite satisfied and said: "Okay, then I will go with you and take a look. In that misty forest, in addition to many powerful beasts that can make Are there any other opportunities for me to increase my power by swallowing it?"

The pangolin immediately nodded and said loudly: "Of course, those beasts are just appetizers. I have been to the misty forest many times and am very familiar with most of the locations, but there is one place that I have never dared to do. Entering, that is the deepest part of the misty forest. It is said that the deepest part of the misty forest is the burial place of the most powerful warrior under the command of the Lord of Chaos, the iron-armored black knight. Back then, this iron-armored black knight was worshiped by the Lord of Chaos. Ordered to enter the misty forest to fight, but encountered an accident in the deepest part of the misty forest. It seemed that some ancient treasures were discovered, and some ominous encounters occurred. As a result, he died in the deepest part of the misty forest. In the end, the Lord of Chaos personally took the The iron-armored black knight was buried in the deepest area of this misty forest, and the ancient treasure was also buried as a funerary object in the place where the iron-armored black knight was buried. So we can go there and take a look now. If we find it If you find the treasure from back then, you will definitely become rich!"

Hearing what Pangolin said, Ye Feng nodded.

The fact that the most powerful warrior under the Lord of Chaos, the iron-armored black knight, could be buried in the deepest part of this misty forest is enough to show how huge treasures are buried in the deepest part of this misty forest.

As for the dangers and unknowns that may arise in that treasure, they may have been solved by the Lord of Chaos back then.

Now is the time to go find that treasure.

And just as Ye Feng followed the pangolin to the misty forest, Ye Feng seemed to have thought of something, and immediately said: "By the way, pangolin, you have lived in this small world for so many years, do you know the world of chaos?" Where are the inheritance and treasures of the Lord?"

When the pangolin heard Ye Feng's question, he immediately showed a trace of fear in his eyes and said loudly: "The Lord of Chaos fell in the center of this small world. There is a restricted area of life there called 'Blood Demon' It is said that there is a very terrifying blood demon clan living in it, as well as various other terrifying and strange existences that threaten life. Therefore, even if the Lord of Chaos was powerful to a very terrifying level, he would eventually die.

It fell into the Blood Demon Land, so the things left behind by the Lord of Chaos should be in his own storage ring. Along with the body of the Lord of Chaos after his death, they remained in the Blood Demon Land forever. deepest. "

Ye Feng immediately asked with bright eyes: "Have you been to that blood demon land? Are you familiar with it?"

The pangolin immediately shuddered and said: "No, let alone going to the deepest part of the Blood Demon Land, I don't even dare to go to the surrounding areas of the Blood Demon Land. That place is dangerous for all life in the entire small world." In the restricted area, I advise you not to take risks. People will really die! After all, although your current cultivation level is very powerful, it is still much worse than the Lord of Chaos. Even the Lord of Chaos fell. If you go there, your life will definitely be in danger, and there are a lot of other cultivation resources in this small world, which should be enough for you to plunder. "

Hearing what the pangolin beside him said, Ye Feng immediately nodded and said, "We'll talk about this later. I'll improve my cultivation first."

After finishing speaking, Ye Feng said nothing more and just followed the pangolin and flew quickly towards the misty forest.

Soon, after half a day, they finally arrived at the edge of the misty forest.

Along the way, they passed through a large green grassland, then through a desert, and then through an oasis, and finally arrived at the edge of this misty forest.

At this moment, Ye Feng looked forward and found that there were dense trees growing in front, forming a forest.

And it is worthy of being a misty forest. Even in the edge areas, the entire world is shrouded in thick fog.

"Um?"

Ye Feng stepped forward at this moment, with a hint of surprise in his eyes.

Because he discovered that the mist in this misty forest seemed to be very special, able to isolate himself from the exploration of his spiritual thoughts and soul power.

In other words, when walking in this foggy forest, one's own mental and soul power cannot be used, and one cannot detect the dangerous situation around him.

"What a special mist."

This made Ye Feng feel a little surprised in his heart.

It seems that the small world that the Lord of Chaos lived in back then was indeed very extraordinary.

This was the first time Ye Feng encountered this kind of mist that could isolate his spiritual thoughts and soul power.

At this moment, Ye Feng looked at the pangolin beside him and suddenly felt that it was very useful to save this pangolin's life.

If there were no pangolins taking him into the misty forest, Ye Feng had no doubt that he would definitely get lost after entering the misty forest.

At this time, the pangolin was leading the way and immediately reminded him: "After you enter this misty forest, all your spiritual thoughts will become invalid and will be isolated by this special mist,

so you must follow the little demon closely. Otherwise, I would probably get lost in this misty forest."

When Ye Feng heard what the pangolin said, he immediately nodded and said, "Just lead the way and take me to the deepest core of this misty forest to find the burial place of the iron-armored black knight who served under the Lord of Chaos. If you encounter some ferocious creatures in this misty forest, I will be behind you and kill them instantly. Just lead the way with peace of mind." At this time, Ye Feng nodded slightly and said, "As long as you do it wholeheartedly. If I serve, I won't kill you."

After finishing speaking, Ye Feng looked in a certain direction not far away and said loudly: "Now you take me to a nearby place with good fortune. I have just come to this small world. I basically don't know it and I am very unfamiliar with it. familiar."

The pangolin immediately said with surprised eyes: "I guessed that the adults should come from outside this small world. The humans in this small world are very weak, and it is impossible for there to be a strong human being as powerful as the adults. "

After saying that, the pangolin made a "crash" sound, got under the ground, and then said loudly: "I will take you, sir, to the nearest place nearby that contains chance creation. That place is called the Misty Forest. There are many powerful beasts alive, which should be of great use to adults. "

Pangolin had seen it with his own eyes before, Ye Feng swallowed the ancient giant with three heads and six arms.

The ancient giant with three heads and six arms was tens of thousands of meters tall, but after being swallowed by Ye Feng, it shriveled up, making the pangolin very frightened.

The pangolin said such words at this time, which made Ye Feng quite satisfied and said: "Okay, then I will go with you and take a look. In that misty forest, in addition to many powerful beasts that can make Are there any other opportunities for me to increase my power by swallowing it?"

The pangolin immediately nodded and said loudly: "Of course, those beasts are just appetizers. I have been to the misty forest many times and am very familiar with most of the locations, but there is one place that I have never dared to do. Entering, that is the deepest part of the misty forest. It is said that the deepest part of the misty forest is the burial place of the most powerful warrior under the command of the Lord of Chaos, the iron-armored black knight. Back then, this iron-armored black knight was worshiped by the Lord of Chaos. Ordered to enter the misty forest to fight, but encountered an accident in the deepest part of the misty forest. It seemed that some ancient

treasures were discovered, and some ominous encounters occurred. As a result, he died in the deepest part of the misty forest. In the end, the Lord of Chaos personally took the The iron-armored black knight was buried in the deepest area of this misty forest, and the ancient treasure was also buried as a funerary object in the place where the iron-armored black knight was buried. So we can go there and take a look now. If we find it If you find the treasure from back then, you will definitely become rich!"

Hearing what Pangolin said, Ye Feng nodded.

The fact that the most powerful warrior under the Lord of Chaos, the iron-armored black knight, could be buried in the deepest part of this misty forest is enough to show how huge treasures are buried in the deepest part of this misty forest.

As for the dangers and unknowns that may arise in that treasure, they may have been solved by the Lord of Chaos back then.

Now is the time to go find that treasure.

And just as Ye Feng followed the pangolin to the misty forest, Ye Feng seemed to have thought of something, and immediately said: "By the way, pangolin, you have lived in this small world for so many years, do you know the world of chaos?" Where are the inheritance and treasures of the Lord?"

When Ye Feng heard what the pangolin said, he immediately nodded and said, "Just lead the way and take me to the deepest core of this misty forest to find the burial place of the iron-armored black knight who served under the Lord of Chaos. If you encounter some vicious creatures in this misty forest, I will kill them instantly from behind, so you can just lead the way with peace of mind."

Chapter 4119 Thunder Tribulation

Hearing what Ye Feng said, the pangolin immediately felt relieved.

In fact, pangolins don't dare to go too deep into the deepest part of this misty forest.

Because it's a very dangerous place.

The most powerful warrior under the Lord of Chaos at that time, the iron-armored black knight, all died in it.

Although the strange and unknown place where the Iron Armored Black Knight is buried is probably suppressed by the later Lord of Chaos.

But no one can say for sure whether the horror in that place has really been solved by the Lord of Chaos.

Therefore, for thousands of years, many powerful creatures in this small world have not dared to go to that place to find the ancient treasure buried with the iron-armored black knight.

The pangolin thought of this and even regretted for a moment that he had to bring Ye Feng to this terrifying place.

But now that he has come, Pangolin knows that Ye Feng will not leave easily.

After all, the ancient treasure buried in the deepest part of the misty forest was coveted by the Lord of Chaos. Otherwise, he would not have sent his most powerful warrior, the iron-armored black knight, to look for the ancient treasure in the deepest part of the misty forest.

Pangolin even speculated that the Lord of Chaos had euphemistically buried the ancient treasures in the deepest part of the misty forest with the Iron Armored Black Knight in memory of the Iron Armored Black Knight.

In fact, the real situation is that the Lord of Chaos may not be able to take the ancient treasure, so he said some words to cover up the world.

And just when the pangolin was thinking secretly in his heart.

They have entered the real misty forest.

Ye Feng looked around at this time and found towering trees growing everywhere.

There is thick fog in every jungle, making it impossible to see everything around you.

Although these fogs can isolate practitioners from the exploration of their spiritual thoughts.

But Ye Feng could still occasionally feel that there seemed to be unknown giants walking in the thick fog around him, and occasionally passed by where he and the pangolin were.

In this regard, Ye Feng became more cautious.

This misty forest is indeed better than I imagined

It's a lot more mysterious and dangerous.

However, under the leadership of Pangolin, they did not go the wrong way, and they were getting closer and closer to the core center of the misty forest.

at this time.

"boom!"

Suddenly, patches of trees not far away were falling rapidly.

The pangolin immediately exclaimed: "Sir! There is a powerful beast flying towards us!"

Ye Feng nodded at this moment, and immediately clenched his fists, stimulating the divine power in his fists.

Boom!

Finally, there was a huge roar.

In the mist ahead, a crocodile measuring several kilometers in size flew out.

This crocodile has green scales all over its body, and its two huge eyes are burning with golden flames. It looks very extraordinary. It is definitely a beast that has inherited the bloodline of powerful ancient evil beasts.

At this moment, this green-scaled crocodile seemed to be running away. It didn't even have time to look at Ye Feng, and ran quickly from around Ye Feng into the distance.

"Um?"

Seeing this scene, Ye Feng lowered his fist ready to attack, with doubts in his eyes.

Uh-huh!

At this moment, the pangolin suddenly emerged from the soil and walked to Ye Feng's side.

The pangolin couldn't help looking at the huge crocodile fleeing not far away with some doubts, and said loudly: "Sir, it seems a bit strange. This beast is very powerful, but it seems to be fleeing far away. Could it be that it is running away in the distance? Something terrible happened in a certain direction not far away? "

When Ye Feng heard what the pangolin said, he immediately nodded and said, "That should be the case. Otherwise, when the crocodile saw us, he would definitely attack us directly. But he left us alone and panicked. To run away quickly in a certain direction far away, just say

Something terrible must have happened in front of Ming Dynasty, which made these beasts run away like crazy. "

After finishing speaking, Ye Feng showed a hint of interest in his eyes, and said to the pangolin: "Let's go over and take a look."

When the pangolin heard what Ye Feng said, he was immediately startled and said, "Sir, think twice. Such a powerful beast is afraid. Let's go over and see if our lives are in danger?"

Ye Feng smiled and said loudly: "The more dangerous the place, the more likely it is that valuable things are hidden. Haven't you heard the old saying, the bigger the wind and waves, the more expensive the fish."

After saying that, Ye Feng didn't hesitate at all and immediately took the pangolin and flew quickly in a certain direction ahead.

That direction was exactly where the crocodile had fled.

It can be said that Ye Feng now knows that there are tigers in the mountains, so he prefers to travel to the tiger mountains.

Because based on Ye Feng's experience, a place where so many ferocious beasts are afraid and afraid to flee must have had something extraordinary happen.

Go and take a look, you might be able to get huge benefits.

At this moment, the pangolin was on the verge of crying, and was grabbed by Ye Feng and rushed towards the dangerous place ahead.

At this time, the pangolin finally understood that the human boy he met was really a guy who was not afraid of anything. He was completely different from the timid character of the pangolin.

At this moment, when Ye Feng and Pangolin came to a certain place ahead, they immediately saw countless trees broken.

A large area of ruins appeared on the scene, as if it had gone through a terrifying battle.

But there are no powerful demons or beasts around.

This made Ye Feng's eyes reveal a hint of surprise.

Originally, Ye Feng was thinking that there might be two very terrifying ancient evil beasts fighting here, which caused many monsters in the misty forest to quickly escape from this place.

but

Now, it seems that is not the case.

"Huh? That's..."

At this time, Ye Feng suddenly noticed that among the ruins of countless broken trees, there was a fruit that exuded a faint emerald green light.

This fruit is growing on a very old tree trunk.

Ye Feng suddenly discovered that the entire ruins were centered on this tree trunk and spread out to the surroundings.

At this time, the pangolin seemed to have discovered something. He immediately looked at the sky and said loudly: "Look, sir, the sky above the ruins is not shrouded by the fog in the misty forest, and there is thunder raging. There may have been a terrible lightning strike here just now."

"Lightning strike?"

Ye Feng's eyes showed surprise at this time.

It seems that the reason why there are so many ruins and countless broken trees here, causing so many beasts to flee frantically, is not because there are terrifying creatures fighting here, but because of the power of God.

Terrifying thunder descended from the sky, bombarding this place into such a huge ruin.

And these beasts in the misty forest are naturally very afraid of the thunder between heaven and earth.

Ye Feng immediately understood at this moment that it was probably the emerald-green fruit growing on that tree that caused the thunderous bombardment between the whole world.

Ye Feng immediately thought of something and couldn't help but said in surprise: "A fruit born in the thunder of heaven and earth? Could it be that the trees grown from this fruit were going through the thunder tribulation just now?"

Hearing what Ye Feng said, the pangolin was also very horrified and said: "If you put it this way, the tree that grows emerald green fruits may be some kind of sacred tree in the legend, and it can actually trigger the thunder above the nine heavens. Overcoming the Tribulation, that emerald-green fruit was born during the thunder tribulation of heaven and earth. It is definitely of great value. And

the tree that grew this emerald-green fruit is absolutely extraordinary in itself. Perhaps it is the legendary god. Tree!"

At this time, Pangolin said, his tone also became excited.

Chapter 4120 Lightning Strikes Wood

The pangolin has lived in this small world for many years and traveled to most of the lands in this small world of chaotic secrets.

But it has never encountered such a magical tree in front of it, which can directly trigger the power of thunder above the nine heavens to overcome the disaster.

It's incredible!

Extremely rare!

At this time, Ye Feng was staring closely at the emerald green fruit growing on the lightning tree not far away.

For Ye Feng, the fruit grown on the lightning-strike tree is the most precious.

Because this fruit grew from a divine tree that was undergoing a thunder tribulation, it must have absorbed the essence of heaven and earth from the thunder tribulation, and contained supreme energy.

Once Ye Feng gets it and swallows it, Ye Feng's skill will definitely increase tremendously.

Uh-huh!

At this time, Ye Feng was thinking in his heart, and flew quickly towards the central area in front of him that was bombarded into ruins by thunder, hoping to get the emerald green fruit that grew from the lightning strike technique.

Ye Feng could sense a very majestic thunder energy from that fruit.

This fruit is very special. It was born in the thunder and can definitely greatly improve one's skills.

If an ordinary person swallows it, he will probably become a peerless master in an instant.

For a strong man like Ye Feng, it also has a huge effect on improving his skill.

When the pangolin saw Ye Feng flying out, he immediately couldn't help but remind him: "Sir, be careful. This ruins has just been bombarded by thunder from the sky. There must be a lot of thunder power around. The body is definitely extremely destructive, and the lightning strike tree can survive the nine-day thunder and survive the thunder tribulation. It must be very terrifying. It is an extremely powerful sacred tree. It is estimated that ordinary masters will not be able to get this lightning strike. The fruit that grows on the tree."

Ye Feng smiled and said aloud: "Don't worry, these thunderbolts can't damage my body, and although this lightning strike tree can trigger the thunder above the nine heavens and survive the thunder tribulation, it may be really powerful in itself, but You have to know that any creature will be very weak after going through the thunder tribulation, so now is the period of weakness when the lightning strikes the tree."

Uh-huh!

After finishing speaking, Ye Feng had already flown to the front of the lightning strike tree.

He just stretched out his hand and quickly grabbed the fruit growing on the lightning strike tree.

But almost at this moment.

"Boom"!

The lightning struck the tree, and the seemingly charred tree trunk suddenly burst out with blue-purple thunder light, directly bombarding Ye Feng, as if it was going to blast Ye Feng in an instant. broken.

Obviously, this lightning strike tree already has its own sanity and wants to protect the fruit that grows on itself.

But at this moment, Ye Feng clenched his fists tightly and directly unleashed the power of the gods.

boom! boom!

Two golden rays of light burst out from Ye Feng's fist and collided with the lightning flash released from the lightning strike tree.

Boom!

Immediately there was a huge roar on the field.

Ye Feng felt a terrible destructive power of thunder, which was transmitted to his fists and arms through the golden power of the God he released, and then spread to his entire body.

Click! Click...

At this moment, Ye Feng could even feel that his whole body was being penetrated by tens of millions of volts of terrifying voltage.

The endless thunder and lightning struck every inch of Ye Feng's body crazily, causing Ye Feng's flesh and blood to become a little burnt in an instant.

However, Ye Feng's bones are the most powerful immortal bones of gods in all the worlds.

Therefore, this terrifying voltage, which is huge enough to crush the Infinite Realm powerhouse above the Dominator, cannot break Ye Feng's bones at all.

It only hurt Ye Feng's flesh and blood, but did not hurt Ye Feng's roots.

So at this moment, Ye Feng passed through the terrifying light of thunder, withstood the terrifying voltage of tens of millions of volts, and suddenly came to the front of the lightning strike tree, and used one hand to directly touch the fruit growing on it. Picked it off.

"What? How is this possible?"

"How can you, a small human race, withstand such a huge thunder and lightning that I just passed through?"

Press! "

At this moment, a horrifying sound came from the lightning strike tree.

But at this moment, Ye Feng grinned.

As long as his immortal bones of the gods are not broken, he cannot die in an instant.

Therefore, even such a terrifying voltage could not kill Ye Feng in an instant.

At this moment, Ye Feng didn't hesitate and swallowed the fruit he just picked, which contained infinite power of thunder and lightning.

"Rumble..."

At this moment, Ye Feng immediately felt the terrifying thunder energy exploding in his body.

Ye Feng's skill suddenly improved at an incredible speed.

"boom!"

Dzogchen rules the ninth heaven!

"boom!"

Dzogchen rules the ten heavens!

"boom!"

Half step to infinite realm! !

At this time, Ye Feng's cultivation was like crazy, breaking through the third heaven in a row, and stepping into the half-step infinite realm above the master.

This made Ye Feng's eyes suddenly reveal a look of deep surprise.

You know, as Ye Feng's cultivation level continues to increase, the energy he needs becomes more and more huge.

His body became more and more like a bottomless pit.

Therefore, since Ye Feng entered the realm of domination, it was difficult to break through many levels at once.

But this time, under this fruit that contains infinite thunder energy, Ye Feng's cultivation level suddenly broke through the third level, which naturally made Ye Feng very surprised.

This fruit is exactly what I imagined. It has very terrifying energy and can increase my skill unparalleledly.

At this time, Ye Feng stepped into the half-step infinite realm, clenched his fists, and felt that his combat power had improved a lot.

You know, those older people in the Sea of Chaos are at the Infinite Realm level.

But now, Ye Feng is almost catching up with the top senior figures in the Sea of Chaos.

"What?"

Absorbing the infinite thunder energy in this fruit on the spot, directly breaking through three levels? "

At this moment, seeing Ye Feng's momentum of continuous breakthroughs, directly breaking through to the half-step infinite realm, the eyes of the pangolin chasing behind him suddenly revealed a look of deep horror.

At this time, a rather surprising voice came from the lightning strike tree: "You are not a human, are you? How could a human have such a weird ability? Being able to absorb all the energy in this fruit in an instant? Incredible! "

Ye Feng didn't bother to respond at this moment. He just felt very satisfied. His cultivation level had been greatly improved and his combat effectiveness had been greatly enhanced.

This will definitely be of great help for me to explore the ancient treasure in the deepest part of this misty forest and the hiding place of the iron-armored black knight.

Your own safety will also be improved.

At this time, Ye Feng looked at the lightning strike tree in front of him and said aloud: "Although this fruit grows on your torso, it should not be your own. This fruit should be completely formed by the thunder tribulation." The power of thunder is condensed. By the way, what kind of tree are you? You can actually trigger the thunder and lightning disaster in the nine heavens, and you have successfully survived the thunder disaster."

Lei Zhimu was silent for a moment, and then said aloud: "I admit that you are now qualified to talk to me on an equal footing. Just now I thought you were just an ordinary human boy, but I didn't expect you to be such a monster and have such special abilities." With such a weird absorptive ability, people like you really can't be offended."

After saying that, Lei Zhimu actually pulled out his own tree roots from the soil.

A tree, like a person, walked up on the ground and said loudly: "I have just survived the thunder tribulation, and I am still very weak. The fruit just now, even if I was rude to you, I apologize, I will give it to you for free, and I will not pursue any further charges. Next, I hope you can protect me for a while, and I can give you some of the thunder energy that I evolved after I passed through the thunder tribulation. Maybe it can help you continue to improve. Cultivation, break through the current bottleneck of the Half-Step Infinite Realm. If you want to forcefully kill me for refining, then I will fight to the death, but you may not be able to win."

Hearing what Lei Zhimu in front of him said, Ye Feng suddenly had a look of surprise in his eyes. He didn't expect that Lei Zhimu was so calculating that he wanted to become her bodyguard.
