

## Ancient 4161

Chapter 4161 Deep doubts

Hearing Ye Feng's explanation, Shang just smiled and didn't say much.

Instead, he began to search the surroundings for good things in the ancient ruins left behind by the shattered imperial city of the Kingdom of Ten Thousand Demons.

Next, with Shang's careful search and the exploration and help of Ye Feng's soul power, the two of them really found a lot of good things.

For example, the Alchemy Hall of the Ten Thousand Demons Divine Kingdom was specially used for refining alchemy.

There are a lot of ancient elixirs stored under the ground.

Although many ancient elixirs have been completely weathered, decayed, and lost their effect within tens of thousands of years.

But after all, there are some ancient elixirs that are very high-grade and will not decay after tens of thousands of years. ??

This discovery naturally made both Ye Feng and Shang feel very happy.

They directly divided the pills equally.

These elixirs have many uses.

Some elixirs can directly strengthen the physical strength of living beings.

Some can directly improve the practitioner's skills.

Most of the pills Ye Feng obtained were used to improve his skills.

So after Ye Feng swallowed these pills, he successfully improved his cultivation level again.

He directly broke through the tenth heavenly perfection of the Transcendence Realm and stepped into the half-step Heavenly Fusion Realm above the Transcendence Realm!

Fusion Heaven Realm, this is a new and powerful level of cultivation.

Once you step into this level, it means that the whole person can integrate with the entire sky, and can simply draw on the power of the entire sky.

At this moment, Ye Feng felt that his combat power had been greatly improved even if he had only stepped into the half-step of the Heaven Fusion Realm.

At this time, Ye Feng looked at Shang in front of him, and immediately smiled and said: "This Kingdom of Ten Thousand Monsters seemed to be really glorious back then. Even if the imperial city is dilapidated and collapsed like this, there are still many good things to be found. Something that has helped my cultivation level improve tremendously."

Hearing what Ye Feng said, Shang immediately smiled, and then said loudly: "Of course

, if the Kingdom of Ten Thousand Demons hadn't left behind so many good things, how could I have gone through so much trouble to come here from the interface of Ten Thousand Demons just to find the various cultivation resources left behind by the Kingdom of Ten Thousand Demons? The demon interface is very precious, it can give us a huge improvement in our cultivation strength and the body of the living being. "

At this moment, Shang said that he also swallowed a lot of pills.

These elixirs were all refined by the Ten Thousand Demons Divine Kingdom using the blood of some ancient great demons.

After Shang swallowed these elixirs, his bloodline ability was immediately greatly improved.

The golden spots on his scales are getting bigger and bigger.

At this moment, Ye Feng was watching this scene, thinking in his heart that Shang would probably transform from an old demon dragon into a golden dragon with golden light all over his body.

At this time, Ye Feng looked around and said loudly: "Most of the good things have been collected. Let's go find other children of the Chaos family in this small world now."

Hearing what Ye Feng said, Shang immediately nodded and said: "Okay, let's go find your confidante first, her name is Murong Mingyue, right? After finding her, you ask her to bring a message to your relatives, and then Let's go directly to the Ten Thousand Demons interface and hurry up to get things done."

Ye Feng immediately nodded, and then followed Shang directly out of the life restricted area where the Kingdom of Ten Thousand Demons was located, and came to the area outside the small world.

Now with Ye Feng's cultivation strength, he is not afraid of anything even in the restricted area of life.

Let alone outside the restricted area of life.

So at this time, Ye Feng didn't have to hide anything at all. He just frantically spread out his huge soul power and spread it around, looking for other young masters from the Chaos family who entered this small world of Chaos Secret Realm. them.

However, Ye Feng searched for a long time and found no other people entering this mess.

A member of the Sea of Chaos family in the small world of Chaos Secret Realm.

This made Ye Feng's eyes suddenly reveal a hint of astonishment.

Because when Ye Feng entered this small world of Chaos Secret Realm before, he saw with his own eyes that more than a hundred families originating from the big world of Chaos Sea sent many young masters to enter it.

Except for the fact that the Ye family where Ye Feng lives is special, they just sent Ye Feng to come alone.

Other major families have sent at least a few hundred, or even thousands of young masters from their families to enter this small world to gain experience.

But Ye Feng didn't find any of them now. ??

There is no trace of the young masters of the Murong family.

This created deep doubts in Ye Feng's heart.

At this time, Shang looked at Ye Feng's confused eyes and couldn't help but said: "Could it be that they have left this small world in advance and returned to the big world of origin?"

Ye Feng shook his head and said aloud: "The time has not come yet, it should be impossible."

Swish, swish, swish!

Just as Ye Feng was talking, suddenly there was a group of demons wearing black armor walking among the mountains not far away.

They were armed with weapons exuding demonic aura and seemed to be patrolling.

Seeing this scene, Ye Feng suddenly showed a look of surprise in his eyes and said loudly: "Why do so many demon warriors suddenly appear in this small world?"

Shang seemed to have thought of something at this time, and immediately couldn't help but his face changed slightly, and he said aloud: "The small world where the Ten Thousand Monsters Divine Kingdom was located back then was not only connected to the Ten Thousand Monsters interface, but also seemed to be connected to some other advanced practices. Interface, such as the demon interface, these demons probably ran out of the demon interface and came to this small world. "

"Oops!"

Hearing what Shang said, Ye Feng couldn't help but suddenly changed his face and said: "Could it be that from the sea of chaos in the great world of origin to this world?"

Have all the young masters from the major families in the small world been slaughtered by these powerful demons from the demon interface? "

Hearing what Ye Feng said, Shang immediately shook his head and said, "We explored various places along the way and found no particularly bloody smell, which means that no tragic killings occurred. It is very likely that those from The young masters of the major families in the Sea of Chaos are all controlled and imprisoned by the powerful beings in the demon interface. Maybe there is some conspiracy. "

Hearing what Shang said, Ye Feng immediately nodded slightly and said, "What you said makes sense, so let's ask immediately."

After finishing speaking, Ye Feng descended from high altitude directly in front of the group of demon warriors patrolling the mountains.

The situation was urgent, Ye Feng didn't want to waste time at all, and directly released his huge cultivation aura.

Although these demon warriors come from the advanced cultivation interface, they are just ordinary warriors in the demon interface, so their cultivation level is not very high.

Perhaps in front of the young masters of the Sea of Chaos family, these demons from the higher demon interface are very powerful.

But compared to a peerless monster like Ye Feng, it was nothing at all.

So at this moment, when Ye Feng exuded the aura of his huge cultivation level.

This group of patrolling demon warriors didn't even have time to attack Ye Feng. All of these demons were suppressed by Ye Feng's huge and terrifying aura and fell to the ground, unable to even raise their heads.

"What??"

Their expressions suddenly became extremely frightened.

When did such a terrifying existence appear in this small world?

Even demon warriors like them, who come from advanced cultivation interfaces, have no power to fight back?

"Why is this human kid so scary??"

"Who is he?"

At this moment, a group of demon warriors showed deep shock and fear on their faces.

Chapter 4162 Conspiracy Plan

At this time, this group of demon warriors from the demon interface of the advanced cultivation interface were naturally shocked to the extreme.

Because after they came to this small world from the demon interface, the so-called strong men they met were nothing at all. They were all suppressed by their demon clan and imprisoned.

Their demon clan is absolutely rampant in this small world, and there is no living being that can stand up to them.

Even some forbidden creatures in this small world, such as the three-headed giant and the tens of thousands of meters long golden centipede king, were all killed by the top demon king among their demon clan. ??

Therefore, these demon warriors patrol the entire small world and never take anyone seriously.

But they never thought that the ordinary-looking human boy they suddenly met now had such powerful strength.

Just relying on their cultivation aura, they were able to lie on the ground, unable to even lift their heads. It was really unbelievable.

How could an existence of this level appear in this small world?

This level of cultivation is almost comparable to those of the demon commanders from their demon clan who came to this small world.

At this moment, Ye Feng didn't bother to pay attention to the shock of these demon warriors, but asked calmly: "If you don't want to die, just answer my question honestly. You demon clan has come to this small world. Have you ever captured young masters from the human race outside this small world?"

Hearing Ye Feng's question, the dozen or so demons present immediately showed deep horror in their eyes, and couldn't help but say, "Are you and that group of human masters from outside the small world the same group?" ? But you are as young as them, how come you are so much stronger than them? Those young human geniuses are all very weak and have not grown up at all. When they meet us, they are basically defeated in an instant. You have no ability to resist at all, but how come your cultivation is so much higher than theirs?"

Ye Feng felt relieved when he heard what these demon warriors said.

Because this shows that the young geniuses from the major families in the Sea of Chaos, including the young geniuses from the Murong family and his friend Murong Mingyue, are probably not dead yet.

Instead, they were captured by this group of powerful demons from the advanced cultivation interface and the demon interface.

Ye Feng immediately stared at the group of demon warriors in front of him and said loudly: "Where are you imprisoning them?"

Hearing Ye Feng's question, this group of demon warriors couldn't help but sneer and said: "You guys from the human race, no matter how powerful your cultivation is, it's of no use to us creatures who come from the advanced cultivation interface. , dismissive of all your questions."

Hearing what the demon said, Ye Feng immediately showed a cruel smile on his face and said: "If you don't drink a toast, you will have to drink a fine wine. Okay, then I will capture your memories myself."

Boom!

Almost at this moment, Ye Feng stretched out a hand, spread his fingers, and grabbed the head of a demon.

Then "puff" and "puff", every finger was like an iron bar, piercing directly into the demon's head.

Then Ye Feng directly used the soul-searching method at the soul level.

.

You know, Ye Feng's soul power has now been upgraded to a very powerful level, a full 60 million level.

So it is very simple to search the memory of a little devil.

Of course, if it was a particularly powerful being, Ye Feng would not be able to directly perform the soul search method.

Because they are too powerful beings, or beings at the same level as Ye Feng, their mental power is enough to withstand Ye Feng's search.

Or he just blew himself up and there was no way to search it.

But these demons in front of them are just ordinary demon warriors, and their cultivation levels are several levels lower than Ye Feng.

Therefore, Ye Feng was able to forcibly control this demon's spirit, not to self-destruct, and then directly search for the memory fragments in his spirit.

"ah!!"

When Ye Feng searched, the demon immediately felt endless pain.

Because his energy was completely drained by Ye Feng.

At this moment, seeing the pain of this demon, the other demons were lying on the ground, with deep horror on their faces.

Because they never thought that this human boy could actually use such evil soul-level techniques to directly search out their memories.

It's really terrible!

At this time, Ye Feng finally understood it by searching for this demon's memory fragments.

The young masters of the major families in the Sea of Chaos can be said to be very unlucky. The moment they entered this small world, most of them were directly captured and imprisoned by powerful demons from the demon interface, and they were imprisoned. Gathered in a very special place.

That place is at the northernmost edge of this small world, a land of ice and snow.

However, this demon warrior seemed to have a relatively low status, so Ye Feng did not search out it from his memory. This group of demons from the advanced cultivation interface imprisoned the young masters of the Sea of Chaos in the glacial snowfield in the north. What to do.

But no matter what, after knowing that the young masters from major families were imprisoned in the glacier and snowfield in the northernmost part of the small world, Ye Feng had a direction.

boom!

At this moment, Ye Feng suddenly burst out with a powerful cultivation aura.

A terrifying energy suddenly spread from Ye Feng's body towards the surroundings, directly smashing the other demons in front of him.

At this time, Ye Feng looked at Shang beside him and said, "We can go directly to the northernmost glacier and snowfield."

Shang nodded at this time.

On the way there, Shang couldn't help but speculate: "I guess these demon warriors are just the vanguard of the demon interface. They come here to capture various creatures in the small world and gather them together, probably for Open up the real channel between this small world and the entire demon interface. If the real interface channel is opened, the more powerful demon clan in the demon interface will be able to descend into this small world, and then use this small world as a springboard in an attempt to escape the Great Origin. The world is bound by the rules of the world and enters the world of origin."

Hearing what Shang said, Ye Feng nodded slightly and said loudly: "It's very possible that this is the case. No matter what, I have to hurry over and see if I can destroy the devil clan's conspiracy plan." At this time, this group of people The demon warriors who came from the demon interface of the advanced cultivation interface were naturally shocked to the extreme.

Because after they came to this small world from the demon interface, the so-called strong men they met were nothing at all. They were all suppressed by their demon clan and then imprisoned.

Chapter 4163 It's a bit difficult to handle

Hearing what Ye Feng said, Shang immediately nodded and said, "Okay, let's go over and take a look first."

At this moment, Ye Feng flew directly towards the northernmost direction of this small world with Shang according to the route recorded in the memory he had retrieved.

After flying for three days and three nights, they finally arrived at the northernmost point of this small world.

At this moment, Ye Feng and Shang suddenly saw a vast and endless land of ice and snow in front of them.

The entire area here is covered with endless ice and snow.

There is a cold atmosphere between heaven and earth.

It looks very magnificent and vast.

It feels like you have arrived in a dreamy ice and snow country.

At this moment, Ye Feng and Shang entered this glacier and snowfield, and immediately felt a very cold breath that wanted to invade their bodies.

However, Ye Feng and Shang's cultivation levels are both very powerful, and their blood energy source is also very majestic and vigorous.

So all of a sudden they dispelled this cold atmosphere.

At this time, Shang couldn't help but said: "I seem to sense a bloody smell, coming from a certain direction in the distance."

When Ye Feng heard what Shang said, he couldn't help but said: "Let's go over and take a look. This bloody smell is probably coming from the demons in the demon interface, killing the creatures they captured."

"Um."

Without any hesitation, Shang quickly flew with Ye Feng in the direction where he sensed the smell of blood.

At this moment, Ye Feng and Shang did not release their huge aura in a big way, for fear of alerting the enemy.

They hid their cultivation aura and lurked in that direction silently, wanting to see what the real situation was like.

After all, this group of demons are all from the demon clan in the advanced cultivation interface.

Therefore, there must also be super strong men of the very powerful demon clan among them.

Even if Ye Feng and Shang join forces, they may not be able to defeat them.

So at this time, they were all relatively conservative and felt that they should not go there in a big way for the time being.

It would be better to sneakily explore the situation first, and then take action at the right opportunity.

At this time, when Shang led Ye Feng to the source of the bloody smell he sensed, he immediately saw a very shocking scene.

In the ice and snow ahead, there were eighteen copper furnaces that looked like pillars of heaven, standing on the earth.

Each copper furnace looks like it was cast by the gods. It is majestic, towering into the clouds, and has a terrifying momentum.

At this moment, many creatures imprisoned by the demon clan, including many young masters who entered the Sea of Chaos for trial in this small world, are trapped in prisons made of steel.

Many heavily armed demon warriors poured the imprisoned creatures directly into the eighteen copper furnaces standing on the ground, just like pouring things.

The surfaces of these copper furnaces are engraved with ancient formation patterns.

The creatures who were poured into the copper furnace immediately let out miserable howls.

All the blood and vitality in their bodies was sucked out in an instant, and they screamed, turned into ashes, and disappeared into the copper furnace, as if they had never existed.

Seeing this strange and terrifying scene, Ye Feng and Shang both had deep expressions in their eyes.

The look of shock.

Shang looked at the eighteen towering copper furnaces standing on the ground from a distance, and couldn't help but said: "This seems to be a very evil sacrificial vessel. These eighteen copper furnaces are probably... The terrifying special tools brought from the ancient demon interface of the demon clan can directly sacrifice the lives of these creatures and use them to summon or revive some terrifying existences. "

"What??"

Hearing what Shang said, Ye Feng couldn't help but said in surprise: "So, these demons capture so many other creatures just to use their vitality to awaken some terrible existence, not to open up the interface channel. "

Shang nodded and said: "Yes, my previous guess was that they should want to open up the channel between this small world and the entire demon interface, but now it seems that this is not the case. They seem to want to wake up the sleeping world in this small world. There is some kind of terrifying existence, maybe it is a demon god that fell in this small world of their demon clan, because this small world once had a very terrible war of gods, and there were many gods from all major interfaces. , had fought in this small world, so the founder of the Ten Thousand Demons Divine Kingdom came to this small world from the Ten Thousand Demons Interface and founded the Ten Thousand Demons Divine Kingdom because he took a fancy to the various divine auras diffused in this small world. "

Hearing what Shang said, Ye Feng immediately became interested and couldn't help but said in surprise: "I didn't expect that this small world was the battlefield of a war between gods. It seems that these demons have descended on this small world. , not to use this small world as a springboard to enter the big world of origin, they probably want to awaken a god that their demon clan fell back then. This is indeed more important than coming to the big world of origin, because now it has Gods no longer exist in the world. They all disappeared and fell in the war of gods. If any interface and race can awaken them

A creature from our ancient times must be of great significance to their race. It is equivalent to having an additional patron saint of the race. "

Hearing what Ye Feng said, Shang immediately nodded and said: "Ye Feng, your sense is very powerful. Now carefully use your sense to sense. Among the demon clan in this glacier and snowfield, there are There is no particularly powerful existence. What is the specific level of cultivation? Let me judge whether we can directly stop the ambitions of this group of demons. If we really let them awaken the remaining demons of the demon clan in this small world. God, that would be terrible. Not only can you not save your friend, Ye Feng, but we both will probably be unable to leave this small world. A true god can block the entire small world in an instant. "

Hearing what Shang said, Ye Feng immediately nodded, and then exuded his immensely transformed perception, heading towards the surrounding glaciers and snowfields.

At this moment, Ye Feng immediately sensed a very terrifying power and cultivation aura, which was hidden in a certain area around him.

Ye Feng's eyes immediately revealed a look of deep astonishment.

Because the aura he sensed was actually two realms more powerful than his current self!

Ye Feng immediately looked at Shang beside him and said loudly: "No, the idea is annoying."

Shang immediately couldn't help but asked: "What's wrong?"

Ye Feng said aloud: "There are actually strong demons here who are two levels higher than my current level. Even if we join forces, it will probably be difficult to deal with it, let alone other demons. Experts and an army of tens of thousands of demons are here."

When Shang heard what Ye Feng said, he couldn't help but frown and said, "It's indeed a bit difficult to handle."

Chapter 4164 Black Sword

Ye Feng also frowned at this time and said loudly: "No matter what, we must prevent this group of demons from reviving the gods of their demon clan."

Hearing what Ye Feng said, Shang immediately nodded.

Then Shang seemed to have thought of something and couldn't help but said: "By the way, Ye Feng, you should still have the ability to transform into any racial attribute power aura."

Ye Feng immediately nodded and said: "Of course I can now change my life origin and aura at will and become other races. Shang, you mean to let me disguise myself as a member of these demon clans, and then enter This demon clan is stationed in the core place at this moment to investigate the situation? "

Shang nodded immediately, and then said aloud: "You blend into the demon clan, and then see if you can use some means to destroy all the eighteen ancient copper furnaces they brought from the demon interface. "

Hearing what Shang said, Ye Feng's eyes suddenly showed a hint of astonishment, and he said: "Those ancient copper furnaces should be peerless treasures forged by the demon clan, and they should not be destroyed so easily. Come on, with my current strength, I may not be able to destroy those special copper furnaces."

Shang didn't say anything at this time, but immediately took out a small black sword from his storage ring.

It is more like a short dagger than a small sword.

At this time, Shang put this little black sword into Ye Feng's hands and said loudly: "As long as you can get close to those eighteen copper furnaces, you can use this thing to destroy those copper furnaces and let those copper furnaces If it loses its function, these demons will have no way to resurrect the demon god sleeping in this land. "

Hearing what Shang said, Ye Feng suddenly showed a trace of surprise in his eyes, staring at the small black sword in Shang's hand, and reluctantly

He couldn't help but say: "Shang, are you sure this little black sword is that powerful? My most powerful weapon now, the blue electric overlord gun, probably won't be able to destroy the copper furnaces of those demon clans."

Hearing what Ye Feng said, Shang immediately smiled. He seemed to be very confident in his little black sword and said, "Don't worry, if I say it's okay, then it's definitely okay. This little black sword is okay." , the origin is very complicated, it is the only remaining thing I found from the backpack of a dead god. "

"What??"

Hearing what Shang said, Ye Feng's eyes suddenly showed a look of deep astonishment, and then a look of deep surprise, and said loudly: "Shang, I didn't expect that you are so lucky that you can meet him An ancient god's backpack, and a special black sword was found in the backpack. Have you tried the power of this black sword?"

Shang shook his head at this time and said aloud: "I tried to stimulate the internal weapon power of this little black sword, but I input my power into the little black sword. This little black sword did not move at all. I guess I have no way to activate it, but I have tried the hardness of this little black sword. Even if I can't stimulate the power of this little black sword, just relying on the hardness and sharpness of this little black sword is enough. Those copper furnaces were instantly scratched."

Hearing what Shang said, Ye Feng immediately nodded and said, "I kind of want to inspire this little black sword. Let's see if my special power of God can activate the real power in this little black sword. power."

Shang immediately stopped Ye Feng and said loudly: "Don't try it."

, this little black sword is a weapon of the gods. If you kid can really stimulate the power of this little black sword, it will cause huge energy fluctuations in an instant. By then, we here will be instantly exposed to those demons not far away. During the investigation of the strong group. "

Hearing what Shang said, Ye Feng immediately nodded and said: "Okay, then I will take this small black sword and destroy all the copper furnaces of the demon clan."

After saying that, Ye Feng directly used his power to turn his life source and breath into the ancient demon clan.

Buzz!

Almost at the next moment, Ye Feng's body suddenly emitted a jet-black aura.

Ye Feng's whole body directly transformed into the shape and aura of a demon, and he couldn't tell any abnormalities at all.

Because Ye Feng truly turned his own life source and power aura into the devil's life origin and power aura.

Seeing that Ye Feng had turned into a demon clan in front of him, even Shang, his eyes showed wonder, and he couldn't help but said: "Ye Feng, your boy's ability is really incredible, even if After so many years, I have never seen such a heaven-defying ability as yours. This ability to directly transform one's own life source and power source into any other race. Even from my perspective today, it is impossible. It's very amazing. This kind of ability is so incredible that it will never be outdated at all."

Hearing what Shang said, Ye Feng just grinned and said, "No more nonsense, I'll go directly."

At this moment, after Ye Feng finished speaking, he held the small black sword in his hand and hid it.

Then Ye Feng turned into a demon and flew forward.

go.

Sure enough, after Ye Feng disguised himself, these demons didn't even pay attention to see if Ye Feng came from outside.

Because these demons are very arrogant and arrogant, they feel that if they come to this small world, there will be no mistakes at all, and there will be no existence that can resist their demons.

Therefore, the arrogance of these demons prevented them from being very careful to detect any changes around them, allowing Ye Feng to successfully blend into the group of these demons.

At this moment, Ye Feng sneaked up to the eighteen copper furnaces.

At this moment, Ye Feng could immediately feel that these eighteen copper furnaces gave people a very vast and vast feeling.

It's like eighteen pillars that can support the sky, standing here.

But Ye Feng sensed a very evil formation fluctuation from these eighteen copper furnaces.

Obviously, these eighteen copper furnaces are evil magic weapons brought by the demon clan from the ancient demon interface.

At this time, Ye Feng stretched out his hand and touched the surface of these copper furnaces. Even if it was his god's palm, there was no way to destroy it.

This made Ye Feng's eyes suddenly show surprise.

The material of these copper furnaces is indeed very strong. It is so hard that it cannot be destroyed by oneself.

"I wonder if the little black sword Shang gave me will work? It looks ordinary..."

At this moment, Ye Feng murmured, and then he no longer hesitated and could only give it a try.

Ye Feng was secretly trying to stab the black sword in his hand directly towards the surface of the copper furnace in front of him.

Chapter 4165 Destroying the Copper Furnace

"Pfft!"

Almost at the moment Ye Feng used this small black sword to stab the surface of the copper furnace in front of him.

Only a penetrating sound was heard.

The small black sword in Ye Feng's hand actually penetrated the entire surface of the copper furnace easily and pierced in at once.

"Um?"

Seeing this scene, Ye Feng's eyes suddenly revealed a look of deep astonishment, and then a look of surprise.

Unexpectedly, the small black sword Shang gave him was actually so sharp.

It's like cutting iron like clay!

You know, Ye Feng just tried it.

My god's palm was unable to cause any damage to the copper furnace in front of me.

But this small black sword actually pierced the entire surface of the copper furnace at once.

And you must know that Ye Feng is not trying to stimulate the power of the weapon in this black sword.

So it was possible to do this entirely by relying on the sharpness of the black sword itself.

This shows how extraordinary this little black sword is.

As expected, Shang found it from a backpack that seemed to be belonging to a god. It was indeed incredible.

Ye Feng looked at the small black sword in his hand, and suddenly felt that this small sword looked like a dagger. If the power of the weapon in it could be stimulated, and the true power of the black sword could be truly unleashed, it would probably be earth-shattering. Bar.

But at this time, Ye Feng did not rashly try to input his magic power into the ordinary-looking black sword in his hand.

Because, if this little black sword is really a weapon related to the gods, and if your own divine power can really activate this little black sword, it will definitely be able to explode with terrifying and earth-shattering power in an instant.

It will definitely attract the attention of all the demon clan present.

Therefore, Ye Feng cannot alert the enemy now.

At this time, Ye Feng resisted his urge to try to activate the little black sword.

He still held the small black sword and flew to the vicinity of another copper furnace. Then he used the small black sword in his hand as a dagger and continued to pierce the surface of the copper furnace in front of him.

This kind of copper furnace is an integrated magic weapon. Once a small part is punctured, it will lose its function in an instant.

After Ye Feng destroyed the second copper furnace, he continued to fly towards the third copper furnace.

Ye Feng was disguised as a demon at this time, and no other demons noticed Ye Feng's abnormality at all.

But at this time, after all, some demon masters seemed to have discovered something. They couldn't help but said in astonishment: "Why are there so many copper furnaces for worshiping gods that have lost their function? There is no way to absorb the creatures thrown into the copper furnaces. vitality? "What's going on?"

At this time, a group of demons heard what the demon master said, and they all discovered this anomaly.

Swish, swish, swish!

They came directly to the front few copper furnaces and found that the entire copper furnace formation was not functioning.

Then a demon seemed to have discovered something, and he suddenly said in horror: "Look! There is a hole under the sky-sacrifice copper furnace, which seems to have been pierced by some strong sharp weapon. what happened?"

"How is this possible?? This copper furnace for worshiping the sky that we brought from the local interface was cast by the great demon god. How could a small hole be poked out so casually, destroying the entire thing? The formation of the Heavenly Sacrifice Copper Furnace is in operation."

At this moment, all the demons were standing there, with deep shock and anger in their eyes.

Because they never thought that there would be spies sneaking into their demon clan and secretly destroying all these precious copper furnaces for worshiping the sky.

At this moment, a demon commander wearing heavy black armor immediately spoke out: "These heaven-sacrifice copper furnaces were still functioning normally just now, but now they suddenly

don't. It means that the spy who sneaked into our place must still be able to operate normally. At the scene, we must be vigilant and find that nasty spy!"

At this moment, the demon king said that he immediately asked all the demons to reveal their identities and take out all their identity tokens.

At this time, Ye Feng had already destroyed the fifth copper furnace.

Ye Feng saw the demons not far away and around him. They all took out their identity tokens. Ye Feng immediately screamed in his heart: "Oh no! I don't have any identity tokens!"

At this moment, Ye Feng no longer hesitated and had already destroyed five copper furnaces. For the time being, these demons should not be able to wake up the demon god sleeping in this small world.

So at this moment, Ye Feng immediately took the black sword in his hand and ran away quickly towards the distance, preparing to leave here completely.

But at this time, Ye Feng had just flown halfway.

Boom!

Ye Feng immediately felt as if he had hit something very solid, and felt a little dizzy.

The next moment, Ye Feng took a closer look and saw a huge demon with a height of tens of thousands of meters appearing in the empty space in front of him.

This demon, majestic and vast, like a mountain, suddenly appeared in front of him, exuding a vast and terrifying aura.

This huge demon was surprisingly the terrifying existence that Ye Feng had sensed before, which was two realms higher than himself.

He unexpectedly discovered Ye Feng's abnormality in an instant and blocked Ye Feng's way.

"The commander-in-chief took action!"

At this moment, the other demons' eyes were shocked, and they immediately discovered Ye Feng who was blocked by the demon commander. They all rushed towards Ye Feng crazily to capture Ye Feng.

boom!

boom!

But at this moment, two red lasers suddenly appeared in Ye Feng's eyes, which were Ye Feng's Eyes of God.

The crimson laser contains divine energy and has extremely terrifying burning and penetrating power. It can directly cut off all the demons rushing towards you from behind.

Seeing this scene, the demon commander in front of Ye Feng, who was two realms higher than Ye Feng, suddenly said coldly: "You, a human boy, are so miraculous that you are able to turn your own The origin of life is transformed into the original power of our demon clan. I will imprison you and use various cruel methods to force you to find out the secret of your ability to transform the original power. If we, the demon clan, master your ability and means, then we can quietly lurk among the major races in the world, realize the great plan of our demon clan, and conquer the entire world!" "Pfft!"

Almost at the moment Ye Feng stabbed the surface of the copper furnace in front of him with this small black sword.

Only a penetrating sound was heard.

The small black sword in Ye Feng's hand actually penetrated the entire surface of the copper furnace easily and pierced in at once.

"Um?"

Seeing this scene, Ye Feng's eyes suddenly revealed a look of deep astonishment, and then a look of surprise.

Unexpectedly, the small black sword Shang gave him was actually so sharp.

It's like cutting iron like clay!

At this moment, all the demons were standing there, with deep shock and anger in their eyes.

Because they never thought that there would be spies sneaking into their demon clan and secretly destroying all these precious copper furnaces for worshiping the sky.

At this moment, a demon commander wearing heavy black armor immediately spoke out: "These heaven-sacrifice copper furnaces were still functioning normally just now, but now they suddenly don't. Chapter 4166 The power of one sword

At this moment, the demon commander was speaking, his tone full of crazy ambition.

Obviously, he felt great value for Ye Feng's special ability that could be easily transformed into the life breath of other races.

If Ye Feng's ability could be plundered, it would be of great strategic significance to the demon clan.

But at this time, Ye Feng just showed a cold smile on his face and said: "This ability is innate and no one else can learn it."

Hearing what Ye Feng said, the demon commander immediately gave a cruel smile and said: "Stop talking nonsense, when I capture you, I will use endless fire to grill you until you are worse than death. Then you will Tell me how to cultivate this special ability, I have countless torture methods in my hand that will make you miserable, and I will let you taste them all, hahaha."

At this moment, after the demon commander finished speaking, he stretched out a huge demon claw and grabbed it towards Ye Feng, covering the sky and the sun, which was very terrifying.

At this moment, Ye Feng didn't hold anything back and burst out with his huge half-step Heaven-melting realm cultivation aura.

But the next moment, Ye Feng's whole body's strength was suppressed for an instant, and he could immediately sense that the power of this demon commander was indeed very terrifying, and he could not resist it now.

Boom! !

Along with a huge roar, Ye Feng was immediately thrown backward by a devil's claw from the devil commander, and hit the ground not far away. ??

At this moment, Ye Feng climbed up from the ruins, with a trace of surprise and horror in his eyes.

The cultivation strength of this demon commander is worthy of being a Daohai realm existence that has surpassed the Fusion Sky Realm. His strength is indeed terrifying, two realms higher than Ye Feng's current level, or to be precise, one and a half realms higher.

At this time, Shang not far away immediately shouted: "If you dare to hurt my brother, I will fight with you!"

\u003c

br\u003e Boom! !

At this moment, Shang's body immediately erupted with terrifying ice energy.

This is the blood talent of the ancient frost dragon that Shang had fused before.

All of a sudden, the demon commander who was tens of thousands of meters high was frozen directly in a piece of ice.

Boom!

But the next moment, the demon commander just moved his body slightly, and all the ice that had frozen him instantly shattered.

The demon commander didn't even need to use any means. With a slight movement of his body, he broke the ice formed by Shang's terrifying absolute freezing energy.

At this time, the demon commander immediately laughed out loud: "Your cultivation is so much worse than mine, you can't be my opponent at all. It just so happened that I caught your dragon and swallowed you up. I His blood energy should be improved a lot, and I must torture him out of that human boy's special abilities."

At this time, the demon commander directly attacked Shang who was rushing towards him not far away, and in an instant he was sent flying backwards.

I have to say that this demon commander is indeed very powerful.

Not even Ye Feng can stop him, let alone Shang.

At this time, Shang howled angrily and immediately couldn't help but yelled at Ye Feng: "Ye Feng, do you still remember the little black sword I gave you before? You can try to activate it now. If we can inspire the true power of that little black sword, maybe we can turn defeat into victory and kill this demon commander! After all, I found that little black sword in the backpack of the ancient god!"

Hearing Shang's roar not far away, Ye Feng immediately nodded. Without any hesitation, he directly entered that he was special.

The power of the gods entered the small black sword in his hand.

Lian Shang has always been unable to activate this small black sword, so Ye Feng can only take a lucky shot and see if he can activate it.

Buzz!

At this time, Ye Feng felt very surprised.

The moment he input his godly power into the black sword in his hand, the entire black sword immediately emitted a very terrifying energy fluctuation.

It feels like a real god is about to resurrect from the small body of the black sword.

At this moment, the small black sword in Ye Feng's hand began to expand rapidly, and then turned into a large black sword that was dozens of meters long!

Ye Feng could feel that after the small black sword inspired by him turned into such a long black sword, its power increased many times.

Then Ye Feng used all his strength, waved the black sword in his hand, and slashed forward fiercely. ??

Buzz!

The moment Ye Feng slashed, he discovered that the shadow of an ancient god appeared in the sword body, possessing the majestic power of the ancient god.

What made Ye Feng feel even more horrified was that this sword, which he swung casually, suddenly drained all the strength from his body.

In other words, Ye Feng could only kill with one sword, and he was completely exhausted.

But before Ye Feng could worry about what was going to happen next, the power burst out from the black sword completely shocked Ye Feng.

Because after Ye Feng swung this sword, the extremely powerful demon commander in front of him was about to burst into pieces. There was deep fear in his eyes, and he let out an earth-shattering roar: "Impossible! It's actually like this. How could a legendary sword appear here?"

How can a small human boy activate this sword...ah! ! "

At this moment, the demon commander didn't even have time to say anything. The terrifying sword light emitted by Ye Feng's sword was instantly split into countless pieces and he was completely killed.

"What??"

Seeing this scene, countless demon masters present suddenly showed deep horror in their eyes, and their whole bodies froze in place, not knowing what to do.

Even at this moment, Shang's eyes suddenly widened and he shouted in horror: "What happened? Killed this demon commander with one sword? How is this possible!"

At this moment, even Shang felt deeply unbelievable.

It seems that he never thought that this small black sword, once activated, could burst out with such terrifying destructive power.

Ye Feng's eyes widened slightly at this time, as if he didn't expect the power of this sword to be so terrifying.

The extremely powerful demon commander was killed with one sword.

At this time, Ye Feng suddenly understood why when he swung this sword just now, the black sword drained all his skills and strength, and he couldn't calm down for a while.

It turns out that this sword is so terrifying.

No wonder Ye Feng was completely exhausted for a moment.

At this moment, seeing that there were many other demon masters in a sluggish state around him, Ye Feng couldn't help but immediately turned to Shang not far away and said via voice transmission: "Shang, hurry up and come to my side, in order to kill all the demon masters." I used up all my strength with that sword strike just now, and now I have no fighting power at all."

Uh-huh!

When Shang heard Ye Feng say this, he immediately woke up and quickly flew to Ye Feng's side to protect the exhausted Ye Feng.

Chapter 4167 The Supreme Treasure

At this moment, Ye Feng's whole body's strength has been completely drained by the black sword in his hand.

The sword strike just now burst out with earth-shattering destructive power, killing the demon commander in an instant.

But it also caused Ye Feng to instantly lose his ability to move and his combat effectiveness.

So at this time, Shang immediately flew to Ye Feng's side, protecting Ye Feng, for fear that other demon masters would sneak attack on Ye Feng.

But at this time, Ye Feng and Shang could be said to be worrying too much.

Because the earth-shattering sword strike that Ye Feng just made killed their demon commander in an instant.

This completely shocked all the demon masters present, and they didn't know what to do at all.

All the demons stood there dumbly, still in deep fear and shock, and had no energy to care whether Ye Feng was exhausted now.

At this time, Ye Feng looked at Shang beside him and said loudly: "What a great opportunity. Let's not waste time and quickly kill all the remaining demon masters."

When Ye Feng said this, Shang immediately nodded.

Because the most powerful demon commander now had been killed by Ye Feng at the cost of consuming all his power and activating that little black sword.

So this time is a good opportunity to beat the drowned dog.

At this moment, Ye Feng had no power.

So at this time, Shang was alone, rushing towards the surroundings quickly.

Boom! !

Under Shang's steel dragon claws, those ordinary demon masters were no match for Shang, and they were all severely attacked.

Although Shang is not as strong as Ye Feng, it is nothing to deal with these ordinary demon masters.

After all, the biggest threat on the field now, the demon commander, has been eliminated by Ye Feng.

"boom!"

At this moment, Ye Feng did not waste any time and directly released the Devouring Domain and began to devour the blood and energy of the demon commander who was killed by his sword.

You know, this demon commander was not very weak and was killed by Ye Feng.

But it is powerful to a certain extreme.

It's just that Ye Feng inspired the real weapon power in the little black sword, which contained the ancient power of the gods, so he was able to kill the demon commander.

Therefore, the blood energy provided by this demon commander is still very powerful.

After all, the cultivation level of this demon commander is one and a half realms higher than Ye Feng's now, and he is a powerful existence at the Daohai realm above the Rongtian realm.

So at this time, the Devouring Domain released by Ye Feng began to devour the blood energy left after the demon commander was killed. He immediately felt a very majestic energy, which was immediately injected into his body.

Ye Feng immediately felt that the power in his Dantian was increasing at an incredible speed.

At this moment, Ye Feng could immediately feel that his cultivation aura was undergoing rapid and continuous transformation.

You must know that Ye Feng's current cultivation level is half-step to the Heaven-melting realm, and he is at the bottleneck of a large realm, so it is very difficult to break through.

After all, Ye Feng's current cultivation level is already very high, so every breakthrough requires very majestic strength. Ye Feng's body becomes more and more like a bottomless pit.

But even so, after Ye Feng devoured the entire blood energy left by the demon commander, he finally made a complete breakthrough, directly breaking through the current super bottleneck.

From the half-step to the Heaven-melting realm, one suddenly breaks through to the real first level of the Heaven-melting realm!

The cultivation strength has been greatly increased, and the combat effectiveness has also been unparalleled.

After all, this is a breakthrough in a whole realm.

Naturally, Ye Feng's combat effectiveness has undergone a qualitative transformation.

At this moment, all of Ye Feng's power has been restored, and he has also broken through to the first level of the Fusion Realm.

It can be said that it gave Ye Feng a qualitative transformation and improvement.

At this moment, Shang was killing those demon masters around him.

It's almost there.

Ye Feng continued to release the Devouring Domain, devouring the blood energy of literally thousands of other demon masters around him.

Although these demons are not as good as the demon commander just now, after all, they all come from the advanced cultivation interface, the ancient demon interface.

Therefore, Ye Feng devoured these ordinary demon masters at this time, which also increased his energy a lot.

"boom!"

Under the accumulation of blood energy and power of thousands of demons, Ye Feng once again burst out with a powerful and terrifying aura.

Directly from the first level of the Fusion Realm, he broke through again and broke through to the second level of the Fusion Realm.

"Very good!"

This made Ye Feng's eyes suddenly reveal a look of deep joy.

Because Ye Feng knows that the stronger his cultivation is, the more he can control his own destiny and protect his family and friends.

At this time, many other young masters from the Sea of Chaos family who were imprisoned by the demons were stunned.

They knew Ye Feng.

Knowing that Ye Feng is from the Ye family in the Sea of Chaos.

At that time, they were still laughing at the Ye family. They only sent a small ordinary boy to participate in this trial of the Chaos Mystery Realm. It was just to cope with this trial of the Chaos Mystery Realm. They thought that the Ye Family had already declined.

But now, they suddenly discovered that they were too superficial. It was incredible that Ye Feng, this seemingly ordinary young man sent by the Ye family, had such terrifying strength.

Swish, swish, swish!

Swish, swish, swish!

At this time, many imprisoned young masters from the major families in the Sea of Chaos, the Great World of Origin, came to Ye Feng one after another, clasped their fists, and said sincerely: "Thank you Ye Feng this time. Brother's rescue! Otherwise, we might really be sacrificed to heaven by these evil spirits with those evil copper furnaces."

Hearing this group of young masters from major families in the Sea of Chaos say this, Ye Feng just smiled slightly and said aloud

: "It's just a matter of hands."

Ye Feng knew very well at this time that he had inadvertently saved so many young masters from major families in the Sea of Chaos, which would be of great help to him when he returned to the Great World of Origin and integrated the power of the entire Sea of Chaos.

After all, these young masters from major families who can enter the small world of Chaos Secret Realm for trials are elite talents in every family, and will be the mainstay of every family in the future.

Forging a good relationship now will definitely be of great help in the future.

At this time, Ye Feng glanced at everyone present, and then asked with some confusion: "Where are the young geniuses of the Murong family? Why didn't I see them?"

Hearing what Ye Feng said, a young master from a certain family in the Sea of Chaos immediately spoke up and said: "The young geniuses of the Murong family quickly gathered together after entering this small world of Chaos Secret Realm. , seemed to be looking for a mysterious place in this small world, so they were not captured by these demons. "

Hearing what this young master said, Ye Feng immediately nodded slightly, and then said loudly: "After you go back from this small world, bring a message to our Ye family, saying that I will not go back for the time being, and will go to a special place." place, let my grandpa and others not worry about me."

Hearing what Ye Feng said, a group of young masters from major families in the Sea of Chaos spoke up and said, "Okay, we will definitely give you a message, Brother Ye Feng."

When Ye Feng heard what these people said, he immediately nodded, and then said: "You can all leave directly now. I will destroy all the remaining things of the demon clan in this glacier and snowfield." "

"Brother Ye Feng is righteous!"

Many young geniuses from major families in the Sea of Chaos nodded at this moment, hugged their fists, and left here.

At this moment, seeing everyone leaving, Shang looked at Ye Feng, smiled, and said loudly: "It's time to find the body of the demon god that the demon clan wants to revive. It should be here.

Buried under the glacier and snowfield, is the immortal body of an ancient god. It is a supreme treasure that no amount of money can buy!"

Chapter 4168 Equally divided

Hearing what Shang said at this moment, Ye Feng also agreed very much. He nodded and said: "An ancient body left by a real god. It is absolutely immortal and has supreme value. Let's hurry up. Look for it."

Shang nodded immediately at this time.

Then the two of them started digging the entire ground right around here.

Because these demons placed all the copper furnaces used to sacrifice lives in this place.

This means that the immortal body of the ancient god should be buried nearby.

At this moment, with the efforts of Ye Feng and Shang, they finally dug something hard.

It turned out to be an extremely huge black horn.

Even with the small black sword in Ye Feng's hand, it would be difficult to destroy this huge black horn.

At this time, Shang couldn't help but said: "This huge black horn should be part of the body of the ancient demon god that the demon clan wants to resurrect. It seems that my guess is correct. That demon The body of the clan spirit is indeed buried under the earth here."

At this time, Ye Feng immediately said with great expectation: "Then dig quickly and dig out all the immortal bodies of the demon gods."

Boom! !

Next, Ye Feng and Shang didn't waste any time and started digging hard.

Finally, after digging for a long time, all the immortal bodies of the demon gods were dug out.

At this moment, only a body of a majestic demon god with a height of more than 100,000 meters was seen, standing in the earth and buried here for hundreds of millions of years.

But there is still no decay.

It even exudes an immortal divine radiance.

Facing the body of the dead demon god, Ye Feng felt that he was as small as an ant.

At this time, Shang couldn't help but said: "In fact, the fact that the demon clan can send so many strong men to revive shows that the body of this demon clan's god is very strong."

The shell is not completely dead yet. "

Ye Feng couldn't help but asked: "Then do we need to wake it up?"

Shang immediately shook his head and said, "Of course not. If we wake it up, we will both be killed instantly."

Ye Feng couldn't help but said: "Then how to use the body of this demon god?"

Shang thought for a while, and then said aloud: "We directly divided the body of this demon god. Because this demon god cannot resurrect it, there is no way to fully utilize its power, so it is better for the two of us to directly Divide his divine body into equal parts, and if we can integrate the essence of half of the divine body into our bodies, then our life essence will definitely be transformed."

Hearing what Shang said, Ye Feng suddenly showed a hint of astonishment in his eyes, and said loudly: "Shang, you actually want to fuse the body of this half demon god? This has a huge impact on your dragon body. Boosting effect, right?"

Shang immediately nodded and said: "That's right, I can not only fuse the bodies of various dragons, but I can also fuse the bodies of various other creatures to improve my own physique. I'm different from you kid. I like to devour the blood energy of other living beings to improve my own

skills and cultivation, but I fuse various precious and advanced bodies to continuously refine my own body, and eventually become an immortal body that will last forever. , even if my cultivation level cannot keep up by then, I will be able to become the top existence just by relying on the strength of my body, and it will be easy to challenge the gods. "

Hearing what Shang said, Ye Feng immediately nodded in amazement and said: "It seems that during the time we haven't seen each other, you have also mastered a very special cultivation method. Make your own path."

Shang chuckled at this time and said: "No matter what, let's divide the body of this demon god into equal parts first."

Ye Feng shook his head and said: "Our power probably cannot destroy the body of this demon god."

At this moment, Shang suddenly stared at the small black sword in Ye Feng's hand, and said with a smile: "With this small black sword, you can cut the entire body of the demon god into two halves."

Hearing what Shang said, Ye Feng's eyes showed a look of surprise.

But I thought about the small black sword from before, which could easily pierce the copper furnace of the ancient demon clan, and could also erupt with such terrifying and earth-shattering power.

Ye Feng chose to believe in Shang.

At this moment, Ye Feng couldn't help but smile helplessly, and said directly: "It seems that I will be drained of all my skills again and release the power of this little black sword."

At this time, Shang smiled and patted Ye Feng's shoulder, and said loudly: "Since you can activate this little black sword, then I will give this little black sword to you as a gift."

Hearing what Shang said, Ye Feng's eyes suddenly showed surprise and he said loudly: "Shang, are you serious?"

Ye Feng knew very well how valuable this little black sword was.

This is the weapon of the gods. .??.

Moreover, Ye Feng always had a vague feeling that this little black sword might not be as simple as he and Shang imagined.

Because Ye Feng could sense a very terrifying power and aura from the body of this small black sword.

That kind of power and aura even surpassed that of ancient gods, as if it could kill gods!

At this moment, Ye Feng held the small black sword in his hand, walked directly in front of the body of the demon god, and then directly inspired the weapon knowledge in it.

Boom!

Almost at this moment, Ye Feng once again felt a very terrifying suction force, which was released directly from the black sword, and then all the skills in his body were sucked dry.

But after sucking it dry, Ye Feng immediately saw that the small black sword in his hand was originally only the size of a palm, like a dagger, but now it suddenly expanded to a large black sword with a height of more than thirty meters.

Seeing this scene, Ye Feng's eyes suddenly showed a look of surprise.

You know, when Ye Feng killed the demon commander before, after he was drained of his power, the little black sword became more than 20 meters long.

But now that I have drained my energy again, it has become more than thirty meters long.

This made Ye Feng's eyes suddenly show surprise.

It seems that the higher my cultivation level is, the longer and longer the length of this black sword will be when I activate it.

The power that explodes will definitely become stronger and stronger.

Boom!

Almost at the next moment, Ye Feng no longer hesitated, swung the black sword more than thirty meters long in his hand, and slashed forward.

"Pfft!"

The next moment, what shocked Ye Feng was that it turned into a black sword more than thirty meters long, and actually split the body of the demon god into two halves!

"Too sharp!"

Shang was also a little stunned. After all, he was not sure whether he could really cut the body of this demon god into two halves. He didn't expect it to be so easy.

Shang realized that the little black sword was absolutely extraordinary.

Shang immediately stared at Ye Feng, grinned, and said, "I feel like I suffered a big loss."

Ye Feng held the small black sword and said with a grin: "Shang, a gentleman's word is that it is difficult for a horse to catch up."

Shang waved his hand and said: "Who makes you my good brother? I said I would give this little black sword to you, so I will definitely not come back, but you have to let me choose the upper body of the body of the demon god. Because the giant horn on his head will be of great benefit to me after fusion. "

Ye Feng immediately smiled and said, "No problem."

Chapter 4169 Spiritual inheritance

"okay!"

After obtaining Ye Feng's consent at this time, Shang immediately flew forward very happily, and then began to perform a secret technique.

Swish, swish, swish!

Swish, swish, swish!

At this moment, black threads appeared on Shang's steel dragon body.

These black threads are threads composed of energy.

They flew out densely from Shang's body, and then directly entangled the upper body shell of the demon god, and began to pull it towards the injured steel dragon body, starting to fuse.

"Um?"

Seeing this scene, Ye Feng's eyes showed a hint of surprise.

This was the first time he had seen Shang display such a magical fusion method, which could directly fuse half of the demon god's body into Shang's body.

This can indeed allow Shang's body to undergo an unparalleled transformation.

At this moment, Ye Feng did not hesitate and flew to the lower half of the demon god's body.

Then he stretched out his hand and touched the body of the demon god.

But the next moment, Ye Feng was quite disappointed that the blood energy in the body of this demon god had already been drained away.

There is no energy left at all.

Therefore, Ye Feng had no way to absorb any energy at this time.

This made Ye Feng's eyes suddenly show a hint of disappointment.

Originally, Ye Feng felt that after he obtained the blood and energy of this half demon god, his cultivation skills would definitely increase unparalleledly.

But now it seems that this is not possible.

At this moment, Ye Feng immediately asked aloud in his mind: "Emperor Chu, do you think there is any better use for the remaining half of the body of the demon god?"

Emperor Chu thought for a moment, and then said aloud: "Put it away first. This body of the demon god is after all an ancient god-level existence, and it will definitely be of great use in the future."

Hearing what Emperor Chu said in his mind, Ye Feng suddenly

He just nodded and prepared to put the body of the demon god in front of him directly into his storage ring.

But at this moment, Emperor Chu seemed to sense something in Ye Feng's mind, and suddenly said: "Wait a minute, take a look at the lower half of the body of this demon god. Is there a piece of it?" Bones that exude black light, because it stands to reason that the ancient gods of this demon clan can derive a piece of inheritance bone at the bottom of their spine. If so, then Ye Feng, you can get a set. An earth-shattering and powerful inheritance about the demon clan."

"Um?"

Hearing what Emperor Chu said, Ye Feng's eyes immediately lit up and he couldn't help but said, "Okay, then I'll take a quick look."

Uh-huh!

After saying that, Ye Feng took out the small black sword and cut open the end of the lower half of the demon god's body.

"when!"

Almost at this moment, Ye Feng noticed that the small black sword in his hand seemed to have hit something very solid and hard, and it made a crisp sound like a metal collision.

When Ye Feng heard this voice, his eyes immediately lit up, and he stretched out his hand and pulled out a piece of bone from the inside of the incision.

This piece of bone has many ancient symbol patterns on its surface, emitting black light and looking very extraordinary.

Ye Feng immediately couldn't help but asked: "Emperor Chu, is this the inheritance bone you mentioned?"

Emperor Chu immediately said in his mind: "Yes, this is the inheritance bone of this demon clan's god. If you carefully use your spirit to communicate with this inheritance bone, you may be able to obtain a set of earth-shattering inheritance of the demon clan."

"Okay, I'll give it a try."

At this moment, Ye Feng held the inheritance bone in his hand and placed it directly on his forehead.

Then he released his soul power and wanted to have some kind of soul-level communication with the inheritance bone in his hand.

Buzz!

Almost at the moment Ye Feng used his soul power to touch this piece of inherited bone.

Ye Feng immediately felt it, and a terrifying secret of inheritance was immediately transmitted to his mind.

This set of inherited mysteries is called "Devil's Sky-Tearing Claw"!

This set of inheritance comes from the martial arts inheritance created by a god among the demon clan, and it has very powerful power.

If a creature of the demon clan practices it, it can condense a special and incomparable claw of the demon god, which has supreme destructive power.

At the end of the training, this is not only a set of inheritance, but also allows the cultivator to temper one of his hands into the palm of the devil god, completely changing part of the cultivator's physique.

However, although Ye Feng is a human race, Ye Feng is completely a peerless inheritance who can display and learn any attribute.

So at this time, Ye Feng didn't hesitate and started to absorb the inheritance secret contained in this bone.

Buzz!

At this moment, Ye Feng immediately sensed the inherited secrets of the Devil's Sky-Tearing Claw, and all of them were integrated into his soul.

As long as you continue to comprehend, you can display this set of spiritual inheritance.

Ye Feng's eyes suddenly revealed a look of deep surprise.

I didn't expect that this time I would accidentally obtain the inheritance of the devil's Sky-Tearing Claw, an extremely powerful set of gods.

At this time, Ye Feng saw Shang not far away, who seemed to have successfully fused the body of the first half of the demon god.

The golden spots on the surface of his entire Steel Dragon Zone unexpectedly disappeared again, turning into a pitch-black color.

Uh-huh!

At this time, Ye Feng immediately flew over and asked: "Shang, how do you feel?"

At this time, Shang immediately burst into laughter and said, "I feel like my physique has completely changed a lot compared to before."

boom!

At this moment Shang was talking and suddenly stretched out a huge weapon

Bi's steel dragon claws quickly grabbed in a certain direction ahead.

Boom!

Almost at this moment, the power of the avenue in the sky of the entire small world actually merged with Shang's steel dragon claws, directly condensing into a huge black claw that covered the sky and the sky, with the power of The power to tear everything apart.

It directly dug out a bottomless abyss hole in the entire land not far away.

The power of one blow was so powerful that Ye Feng's eyes showed deep surprise.

At this moment, Shang immediately said excitedly: "Ye Feng, I may be stronger than you now."

Ye Feng smiled and said at this time: "That's great. If you encounter any danger next, you can go first."

Hearing what Ye Feng said, Shang immediately grinned and said, "Okay, I'll take the lead next time."

"correct."

At this moment, Ye Feng seemed to have thought of something, and immediately stretched out a finger, touched Shang's eyebrows, and said loudly: "Shang, I just realized from the inherited bones

of this demon clan god. A peerless inheritance, the inheritance of the demon clan, is called the Devil's Sky-Tearing Claw. I can learn and practice it, but I don't know if you can practice it. Anyway, I will teach it to you first."

Ye Feng knew that although he could cultivate various attributes and inherit the inheritance of various races, others could not.

But after all, this is a set of inheritance at the level of the demon clan's gods. Even if Shang cannot practice it, he may be able to understand some powerful things from the secrets of these inheritances.

At this moment, Shang immediately said in surprise: "Ye Feng, you are really lucky. You were able to discover the inheritance bones contained in the body of this demon god, and you also got the secret of inheritance from it. The soul master is indeed a magical practice. I cannot practice and use this inheritance of the demon gods, but after all, it is the secret of the inheritance at the level of the gods, which will be of great benefit to my next practice. , it allows me to understand many special cultivation methods from the inheritance of the gods, which is of great benefit to me. "

Chapter 4170 Become the King of the Mountain

When Ye Feng heard Shang say this, he immediately nodded slightly and said, "It's good for you."

At this moment, after Ye Feng finished speaking, he put the body of the remaining half of the demon god not far away into his storage ring, waiting for other uses in the future.

Then Ye Feng looked at Shang in front of him and said aloud: "Now that the crisis in this small world has been completely resolved, we can now go directly to the interface of Ten Thousand Demons."

For Ye Feng, going to the Ten Thousand Demons interface is also something he is looking forward to.

After all, the Ten Thousand Demons interface is an advanced cultivation interface.

Although it may not be as good as the top-ranked advanced interface like Tianjie.

But the Ten Thousand Demons interface is, after all, the level of an advanced cultivation interface.

Therefore, there are a lot of advanced cultivation resources in the Ten Thousand Demons interface, which will definitely be of great help to Ye Feng.

Because the cultivation resources in the Origin World, which has just begun to recover, are probably of little use to Ye Feng.

Unless the Great World of Origin completely recovers in the future and completely becomes as glorious as the ancient times again, it is possible that countless cultivation resources from the glorious eras of the ancient times will emerge.

So at this time, Ye Feng felt that it was the wisest choice to follow Shang and go directly to the Ten Thousand Demons interface.

Let's improve our cultivation strength first.

Moreover, he had previously killed a powerful being from the Blood Demon Dynasty who had descended from the Ten Thousand Demons interface.

There was a rift with the Blood Demon Dynasty, the super power in the interface of all demons, and there was no aftermath for the time being.

Therefore, Ye Feng felt that he should enter the Ten Thousand Demons interface in advance to see if he could solve the huge scourge of the Blood Demon Dynasty.

If it can be solved, it will be of great help to yourself, the entire Ye family, and even all the families in the Sea of Chaos area of the entire origin world.

At this time, after hearing what Ye Feng said, Shang Li

Ma just smiled and said loudly: "Okay, let's go directly to the interface of ten thousand monsters now. Before, I worked hard in the interface of ten thousand monsters alone. I only occupied a small hilltop. The power developed very slowly, but If Ye Feng joins me, the two of us can definitely expand our power quickly. "

Hearing what Shang said, Ye Feng's eyes showed a hint of surprise, and he couldn't help but said in a rather amused voice: "I didn't expect that Shang, after you have been in the Wanyao interface for

so long, you just occupied After climbing a mountain, it seems that there are many super strong people in the Ten Thousand Monsters interface.”

Shang immediately nodded and said with a sigh: "Although we are very powerful in this small world now, but after entering the advanced cultivation interface, our cultivation strength is actually not considered What."

After saying that, Shang immediately patted Ye Feng on the shoulder and said with a smile: "I was able to occupy a mountaintop in the interface of ten thousand monsters in just a few months and become the king of the mountain. It's pretty good, and I also have several powerful subordinates, all of whom were the original big monsters in that mountain. They were subdued by me and now respect me as their leader. When you, Ye Feng, come over with me, I asked all my subordinates to call me the first commander, and you are the second commander.”

Hearing what Shang said, Ye Feng couldn't help but grin and said loudly: "It feels like I have become a bandit. You are the first boss and I am the second boss."

"Hahaha!"

When Shang heard what Ye Feng said, he immediately laughed out loud and said: "You are right to feel this way, because our sphere of influence is indeed just a mountain, and there are many other big forces around us. Encircle and suppress big demons like us lurking in the mountains. For example, the closest dynasty to the mountain I occupy is called the 'Shenshui Dynasty', which is a vassal of the Blood Demon Dynasty.

A large dynasty in China would often send troops to clear out the monsters and beasts in the surrounding mountains. The mountain I occupied as the king was called the 'Dragon Demon Mountain', and it was often cleared out by teams composed of masters from the Shenshui Dynasty. .  
"

Hearing what Shang said, Ye Feng's eyes immediately moved slightly, and then he said loudly: "Dragon Demon Mountain? Did you name it yourself?"

Shang shook his head and said aloud: "I didn't name it myself. That mountain was originally called Dragon Demon Mountain because an ancient dragon demon fell there. The reason why I chose to occupy this dragon demon mountain was The purpose of the Magic Mountain is to obtain the ancient cave left behind by the ancient dragon demon."

"I see."

When Ye Feng heard what Shang said, he immediately nodded and said: "Anyway, let's go to the Ten Thousand Demons interface first, return to the Dragon Demon Mountain you occupy, and then make plans."

Shang immediately nodded at this time, and then took Ye Feng and flew quickly towards a certain direction in this small world.

Ye Feng couldn't help but asked on the road: "From where in this small world can we directly enter the Wanyao interface? As far as I understand, it is very difficult to enter the high-level cultivation interface from a low-level interface. It's difficult, even in the Origin World, it's difficult for me to enter the advanced cultivation interface."

Shang chuckled at this time and said aloud: "Don't worry, kid, I have found the way back to the interface of ten thousand monsters. There is an ancient formation in that place, which can connect to the interface of ten thousand monsters. It was the founder of the kingdom of ten thousand monsters back then. What people left behind, I was able to enter this small world from the interface of Ten Thousand Demons, and it was also through that ancient formation."

Hearing what Shang said, Ye Feng's eyes suddenly lit up, and then he said, "That would be great."

Ye Feng knows very well that if you want to go from a low-level interface to a high-level cultivation interface, you need to go through the very terrifying world turbulence and cosmic radiation between the interfaces.

If there is one that can be directly transferred to the advanced practice interface

The ancient formation must be excellent. There is no danger. All you need to do is activate the formation.

Next, there was no more nonsense between Ye Feng and Shang, and they flew quickly in the direction pointed by Shang.

Soon, they came to the end area of this small world.

The end area of this small world is in the center of the restricted life zone where the Kingdom of Ten Thousand Monsters was previously located.

At this time, Ye Feng and Shang passed through the layers of ruins and came to a huge bronze door.

This huge bronze door looks like it was cast by ancient beings, exuding an ancient and majestic aura of immortality.

Ye Feng immediately saw that under the bronze door, a special ancient formation made of bricks and stones appeared on the entire ground.

At this time, Shang stepped forward, immediately smiled, and said loudly: "Through this ancient formation, we can directly enter the interface of ten thousand monsters. Before, when I came to this small world from the interface of ten thousand monsters, I passed This formation has arrived, so this formation can take us back to the interface of ten thousand demons."

Ye Feng immediately nodded and said, "Then just activate this formation."

At this moment, Shang stretched out his steel dragon claw without any hesitation, then touched the ancient formation made of bricks in front of him, inputting his own power.

Boom! !

Almost at the next moment, the entire formation immediately emitted a terrifying spatial fluctuation.

A beam of light pierced the sky directly erupted!

This is exactly a space passage leading to the interface of ten thousand demons.

Shang immediately said: "Let's go!"

Ye Feng nodded, and He Shang stepped directly into the space passage and disappeared instantly.
