

Ancient 4181

Chapter 4181 It's not an exaggeration at all

At this time, when Ye Feng entered the ancient ruins, he immediately felt that all areas of the ancient ruins exuded a very ancient and terrifying aura of killing.

This should be the aura left over from ancient times, and it has not completely dissipated after tens of millions of years.

This shows how tragic the war that happened here was.

At this time, Shang immediately said: "Ye Feng, let's not go deep into this ancient ruins yet, because the deeper you go into this ancient ruins, the more dangerous the danger will be, although it may also contain more precious and advanced cultivation resources. , but it is really too dangerous. Once upon a time, there was a top-level monster in our Hundred Thousand Mountains, which entered the deep area of the ancient ruins. As a result, it was trapped in a god-level formation left over from the ancient era. It was very miserable to be beaten to death by that formation."

Hearing what Shang said, Ye Feng immediately nodded slightly and said, "Okay, let's search the outer areas of this ancient ruins for the time being to see if there are any good things."

Shang nodded, and then said aloud: "In this ancient ruins, it is very likely that there will be powerful monsters from various races in the endless wild jungle of Shiwanda Mountain. We need to stay vigilant to prevent other The powerful monsters attacked us."

Ye Feng immediately nodded and said: "Okay, I will release my soul power now to be on guard. If there is danger around me, I will definitely be able to react in an instant."

Buzz!

At this moment, after Ye Feng finished speaking, he directly emitted his soul power and headed towards the surrounding cover.

Buzz!

Soon, under the exploration of Ye Feng's powerful soul power, within a short while, Ye Feng discovered some inexplicable energy fluctuations.

This made Ye Feng's eyes show joy, and he quickly flew in that direction.

Shang quickly followed him, with a look of surprise in his eyes, and couldn't help but say: "Ye Feng, your soul master's soul detection methods are really magical and effective. I used to

When a person comes to the ancient ruins to look for something, he can only wander around, look here, look there, dig here, dig there. It is difficult to find precious things, and the efficiency is very low. Sometimes You may also encounter some terrifying killing formations in the ancient ruins and be trapped in the formations. However, with Ye Feng's soul power to detect, the efficiency is too high. You can find out who is around you in an instant. The place has good stuff. "

Ye Feng immediately smiled and said loudly: "So this time you brought me to this ancient ruins, it is definitely the wisest choice you have ever made. As long as you find something good, we two brothers will share it equally." "

At this time, Ye Feng said that they had reached the place where the energy fluctuations that Ye Feng sensed were emitted.

Almost at the next moment, Ye Feng and Shang suddenly saw a collapsed hall appearing in front of them.

But what surprised them was that there were many tombstones around the collapsed hall.

There are a dozen tombstones.

Behind every tombstone is a large tomb, exuding a trembling aura of death.

At this time, Shang immediately couldn't help but said: "It is estimated that the strong men who died in that ancient war were buried here."

Ye Feng nodded slightly and said loudly: "This is not the habitat of ancient powerful men. It is just temporarily buried here. There is probably nothing good. Let's go explore the collapsed hall first."

Shang immediately nodded, and Ye Feng walked directly towards the collapsed hall.

But just at the moment they reached the entrance of the hall.

boom! boom! boom!

Suddenly, accompanied by huge roars, people around the hall

The tombs behind the dozens of tombstones all exploded.

Then, the stiff bodies seemed to be resurrected. Each nail was three fingers long. They rushed towards Ye Feng and Shang quickly, as if they were going to kill Ye Feng and Shang. .

Seeing this scene, Shang couldn't help but exclaimed: "These powerful men from ancient times have completely turned into zombies after being enveloped by the aura of death for tens of millions of years!"

boom!

At this moment, Shang immediately stretched out a steel dragon claw and grabbed the body of an ancient powerful man who rushed over first.

when! !

But at the next moment, Shang's steel dragon claws were unable to penetrate the surface of these corpses, but sparks appeared on the surface of these corpses.

The corpses of these ancient powerful men have turned into invulnerable zombie bodies!

Shang immediately said aloud: "Run or not?"

Ye Feng grinned and said: "Why are you running? Although the corpses of these ancient powerful men are very strong and difficult to destroy, they are unable to display any martial arts inheritance or release any ancient secret techniques. It's not really much of a threat."

At this time, Ye Feng said and directly released the Gate of Heaven.

Buzz!

A door exuding infinite nobility, with its entire body emitting white divine light, appeared in the void behind Ye Feng, giving people a sacred and boundless feeling.

At this time, a dozen zombies rushed in front of Ye Feng.

boom!

But at this moment, the Gate of Heaven behind Ye Feng suddenly bloomed with thousands of bright white divine lights.

The white divine light possessing boundless divine power actually directly dissipated the death aura from the dozens of zombies, including the death aura inside the corpses, all in an instant.

Snap!

Snap!

The corpses of these ancient powerful men had all the aura of death dispelled. Naturally, they transformed directly from the zombie state into ordinary corpses again, and they all fell to the ground.

"this??"

Shang on the side was dumbfounded and couldn't help shouting: "Ye Feng, you can do it! What kind of door is this? It's so sacred that it can purify these zombies of the evil spirit of death in an instant. It's really a bit strange. Incredible."

Regarding Shang, Ye Feng had no intention of hiding it. He smiled and said, "This is the Gate of Heaven, the legendary magic weapon of the Lord of Heaven."

"What??"

Hearing what Ye Feng said, Shang immediately showed a look of deep astonishment on his face, as if he couldn't believe what Ye Feng said.

Shang immediately stared at the Gate of Heaven that appeared behind Ye Feng, and shouted urgently: "Ye Feng, put the Gate of Heaven away quickly! This thing is too precious. If others see it, it will probably cause the entire Ten Thousand Monsters interface to go crazy! Then you will have endless killing disasters!"

It has to be said that Shang sincerely considers Ye Feng. The first time he is not envious, he tells Ye Feng to hide the Gate of Heaven.

Ye Feng nodded slightly, took back the Gate of Heaven, and then couldn't help but said with some surprise: "Shang, what you said is a bit too exaggerated. Will a Gate of Heaven cause the entire Ten Thousand Monsters interface to go crazy?"

"No exaggeration at all."

Shang said very solemnly word by word: "The Gate of Heaven, the legendary natal magic weapon of the Lord of Heaven, contains the great secret of being able to become the Lord of Heaven. The interface of ten thousand monsters is already very vast, boundless, and has countless strong people. However, among the hundreds of advanced cultivation interfaces, the Ten Thousand Demons Interface can only be regarded as average, while the Heaven Realm is the top-ranked advanced cultivation interface. It is the holy land of cultivation that countless practitioners yearn for. You said, the Gate of Heaven is Will this thing cause countless powerful people in the Ten Thousand Demons Interface to go crazy?"

Chapter 4182 Reach the sky in one step

Hearing Shang's solemn words, Ye Feng also showed a trace of solemnity in his eyes, and said loudly: "If you say so, it seems that you are right, Shang, I will not be able to reveal the gate of heaven easily in the future. "

At this moment, Ye Feng was speaking with a hint of emotion in his tone.

Unexpectedly, the door to heaven that I accidentally obtained back then turned out to be the legendary magic weapon of the Lord of Heaven.

Moreover, among many advanced cultivation interfaces, they are all extremely attractive, which is really unexpected.

At this moment, Ye Feng took back the Gate of Heaven, and then immediately looked at the corpses of the ancient powerful men who fell on the ground.

Ye Feng discovered that on the fingers of the corpses of these ancient strong men, there were many strong men wearing storage rings.

These storage rings should be the storage rings of these ancient powerful men, and there might be something good hidden in them.

Ye Feng naturally walked over and took all the storage rings on the fingers of the corpses of these ancient powerful men into his own hands, and then gave some of them to Shang.

At this time, Shang smiled and said aloud: "The storage rings on these ancient strong men must have hidden a lot of good things. After all, those who were able to participate in that war must be very powerful. , their storage rings naturally contain a lot of advanced cultivation resources."

At this moment, Shang said that he directly collected all these storage rings on himself. ??

Ye Feng also put away these storage items until he had time to explore them later.

At this time, Ye Feng's main focus was still on the collapsed palace in front of him.

At this moment, Ye Feng and Shang walked directly into the collapsed palace, wanting to see if there were any powerful weapons in the palace.

Because the energy fluctuation that Ye Feng sensed before came from this collapsed palace.

But the next moment, when Ye Feng and Shang walked into the collapsed palace, their faces suddenly showed a look of astonishment.

Because they saw that a living golden dragon appeared in this collapsed palace, exuding an endless terrifying aura, giving people the feeling of a living god standing here.

"this....."

At this moment, Ye Feng and Shang immediately felt a little stiff.

Because they come from this golden

The giant dragon sensed a terrifying aura as vast as the abyss.

Shang couldn't help but said in horror: "Could this be a living god? It survived from that ancient era. How terrifying must this be?"

Hearing what Shang said, Ye Feng suddenly showed a look of deep astonishment in his eyes, as if he never thought that the energy fluctuations he inadvertently sensed came from this golden dragon.

Uh-huh!

At this moment, the golden dragon suddenly turned around, staring at Ye Feng and Shang with two eyes that seemed to be made of gold.

At this time, Shang seemed to have seen something, and immediately couldn't help but said in horror: "Ye Feng, look at the claws of this golden dragon. It turns out to be a nine-clawed, three-clawed golden dragon. It's just an ordinary golden dragon." The five-clawed golden dragon is the emperor among the golden dragons, and the nine-clawed golden dragon is definitely an ancient existence at the ancestor level among the golden dragons! "

"What?"

Hearing what Shang said, Ye Feng suddenly showed a look of deep horror on his face.

He also saw that the claws of this golden dragon were indeed nine claws.

In other words, this golden dragon is a veritable ancestor-level golden dragon!

At this time, the atmosphere on the court was a bit awkward.

Originally, Ye Feng and Shang thought that they could get a lot of good things from this collapsed palace.

But now, I didn't expect that I would encounter a golden dragon that was suspected to have survived from the ancient times.

This is definitely an existence comparable to gods.

But at this time, before Ye Feng and Shang could say anything, Jin Long suddenly spoke up: "You, a junior from the Dragon Clan, have pretty good qualifications. I didn't expect that you accidentally fused the bodies of the Iron Demon Dragon and the Frost Dragon, and you have them." At the same time, it seems that you also have your own secret, and your future achievements are immeasurable."

Hearing what the ancestor-level golden dragon in front of him said, Ye Feng's eyes suddenly showed a look of astonishment, and then he couldn't help but look at Shang beside him, and said happily: "Shang, you are still standing there. What? Senior is complimenting you."

At this moment, Ye Feng also knew that this ancestral golden dragon would not care about their sudden intrusion at all.

Ye Fengjue

After all, he and Shang were just ants in front of this nine-clawed golden dragon.

At this moment, Shang also reacted quickly and said loudly: "Ancestor is right, my talent is indeed extraordinary."

Hearing what Shang said, Ye Feng was immediately speechless and couldn't help but said, "Have you ever praised yourself so much?"

At this moment, the nine-clawed golden dragon in front smiled happily and said: "You are quite interesting as a junior. I am just about to leave this world and go to the outside world. You can follow me from now on." I just want to recruit an apprentice these years to inherit my legacy. "

Hearing what the Nine-clawed Golden Dragon said, Shang suddenly showed a look of astonishment on his face and quickly said, "Ancestor wants to accept me as a disciple?"

At this moment, Shang said with a very complicated expression on his face.

On the one hand, Shang didn't want to leave his brother Ye Feng, whom he had just met. On the other hand, Shang was very surprised to be recognized by such a god-level nine-clawed golden dragon.

At this time, Ye Feng quickly glanced at Shang beside him and said, "Hurry up and agree. The future is important. We will have plenty of time to meet and chat in the future."

Hearing what Ye Feng said, Shang immediately nodded, looked at the nine-clawed golden dragon in front of him, and said, "Disciple Shang, pay your respects to the master."

The nine-clawed golden dragon immediately smiled and nodded, suddenly stretched out a dragon claw, touched Shang's eyebrows, and said loudly: "From now on, you will be my disciple."

After finishing speaking, Shang suddenly discovered that his entire scales had turned golden.

Shang immediately said in surprise: "Ye Feng, I feel that my life essence has evolved and become a more advanced golden dragon origin."

Ye Feng's eyes were a little amazed.

This nine-clawed golden dragon is worthy of being comparable to a god, and its methods are simply miraculous.

Just like the Creator, he can instantly change the life essence of a living being.

At this moment, Shang is naturally very happy. Being recognized by the nine-clawed golden dragon who is comparable to the gods and becoming his disciple is many times better than Shang silently plotting the fate of the interface of ten thousand monsters. .

Because even if Shang worked hard for many years and became the World Master of the Ten Thousand Demons Interface, he probably wouldn't be able to compete with the status of being a disciple of a nine-clawed golden dragon.

It can be said that Shang has reached the sky in one step at this time.

Shang immediately looked at Ye Feng beside him, with excitement in his eyes.

Because if Ye Feng hadn't sensed the energy fluctuations here, he would never have been able to see this ancestor of the dragon clan.

At this moment, Shang couldn't help but look at Ye Feng and said loudly: "Brother, I guess I won't be able to enter the Ten Thousand Monsters interface with you, and I won't have time to help you deal with the Blood Demon Dynasty."

Ye Feng smiled slightly at this time and said loudly: "Your future is more important."

Hearing what Ye Feng said, Shang was a little moved.

Real brothers consider each other, rather than asking each other to do something for their own selfish desires.

At this moment, the Nine-clawed Golden Dragon suddenly looked at Ye Feng and said loudly: "You are also very good. Your small and humble human body has been fused with the immortal bones of

the top gods in this world. Your future prospects are also great." It's immeasurable, but I have a rule, that is, I will not accept other races as my disciples."

When Ye Feng heard what the Nine-clawed Golden Dragon said, he just smiled and nodded indifferently, and didn't say much else.

At this moment, the nine-clawed golden dragon simply left the collapsed hall with Shang.

Before leaving, Shang immediately shouted to Ye Feng behind him: "When I follow Master and succeed in practicing outside the territory, I will find an opportunity to come back and take Ye Feng with you to dominate the world."

Hearing what Shang said, the Nine-clawed Golden Dragon standing next to him twitched his eyes, and then said calmly: "After you have seen the vastness and infinite beauty of the outside world, you will no longer look down on this rag. It's so bad for all the low-level worlds."

After saying that, the nine-clawed golden dragon disappeared directly into the void with Shang.

At this moment, Ye Feng couldn't help but shook his head and smiled helplessly, "My father and mother went to the outer world to look for the Hongmeng Ancestor and there was no news. Unexpectedly, Shang also went to the outer world. It seems that in the future, how can I I'm going to go to the outside world, but for the time being, I'd rather stay in the world of origin and improve my cultivation strength."

At this moment, Ye Feng murmured to himself, and then began to carefully explore the collapsed hall.

That nine-clawed golden dragon stayed in this hall for such a long time is enough to show that this collapsed hall is very extraordinary and must have something extraordinary.

Chapter 4183 The place of enlightenment

Buzz!

At this time, Ye Feng directly emitted his soul power, covering the entire collapsed hall around him.

During the investigation, Ye Feng couldn't help but shook his head and smiled bitterly to himself.

Unexpectedly, they followed Shang to the Ten Thousand Demons Interface. They originally planned for the two brothers to create glory together and compete for hegemony over the entire Ten Thousand Demons Interface.

But by chance, Ye Feng became a loner again.

Shang followed the mysterious nine-clawed golden dragon directly to the outside world, which really made Ye Feng himself not expect that such a thing would happen.

It can only be said that fate has its way with people.

However, Ye Feng was also happy for his brother from the bottom of his heart.

Because being able to become the disciple of the Nine-clawed Golden Dragon, a transcendent existence comparable to the gods, is definitely the greatest opportunity in Shang's life.

Even Ye Feng was a little envious of Shang's luck at this moment.

Immediately, Ye Feng stopped thinking about anything.

Ye Feng took a deep breath and concentrated on exploring the collapsed palace around him.

Now that Shang is gone, everything has to be on his own.

Ye Feng had no intention of leaving the Wanyao interface and returning to the world of origin.

Because Ye Feng feels that he can grow faster and become more powerful in the Wanyao interface.

Moreover, there is such a huge disaster as the Blood Demon Dynasty.

So now that Ye Feng has come to the interface of Ten Thousand Demons, he naturally wants to have a good confrontation with the blood demon dynasty, his mortal enemy.

And just when Ye Feng was thinking secretly in his heart, suddenly Ye Feng seemed to sense some very mysterious energy fluctuations on one of the walls of the collapsed palace.

Uh-huh!

At this moment, Ye Feng immediately dodged and flew in front of the wall, and immediately saw that the surface of the wall was actually covered with dense golden text.

The mysterious energy fluctuations that Ye Feng sensed came from these dense golden words.

radiated.

Ye Feng immediately understood at this moment that these golden words were probably left by the nine-clawed golden dragon.

The contents written in these golden characters are all the Nine-clawed Golden Dragon's understanding of the path of cultivation.

It seems that the nine-clawed golden dragon, in this collapsed hall, discussed the Tao to himself and succeeded in proving the Tao.

"Could it be that this collapsed hall was once the place where the nine-clawed golden dragon attained enlightenment?"

Ye Feng thought of this at this time, and his eyes suddenly showed a hint of surprise.

You know, this nine-clawed golden dragon is comparable to a god-like existence.

If this collapsed hall is really the place where the nine-clawed golden dragon attained enlightenment, then Ye Feng really discovered a treasure place.

It will definitely have huge benefits for Ye Feng's martial arts practice.

At this moment, Ye Feng did not hesitate at all, and directly exuded his soul power, covering all the golden words on the wall.

All the golden words left behind by the nine-clawed golden dragon are imprinted in his soul.

Although these golden words do not represent some kind of powerful inheritance or powerful techniques.

But these golden words bring together almost all the insights of the Nine-clawed Golden Dragon's successful path.

Therefore, Ye Feng imprinted these golden words into his soul, which will definitely make Ye Feng's subsequent practice rapidly improve.

For Ye Feng's next breakthrough in cultivation, it will definitely have huge and unparalleled benefits.

At this moment, Ye Feng left the collapsed hall after imprinting all the golden words.

Ye Feng did not leave this ancient ruins directly.

Because now there is no need for Ye Feng to return to Dragon Demon Mountain and develop the power of Dragon Demon Mountain.

Now Shang has left the interface of Ten Thousand Demons and followed the nine-clawed golden dragon to the mysterious and vast extraterrestrial world.

So Ye Feng is now alone. He plans to go directly to the top power in the interface of ten thousand monsters, the Blood Demon Dynasty, after improving his cultivation strength in this area of 100,000 mountains.

Let's see if we can lurk in the Blood Demon Dynasty's territory, secretly destroy the entire Blood Demon Dynasty, and completely solve this scourge.

At this moment, Ye Feng continued to emit his huge soul power, covering the surrounding land, carefully searching for various opportunities in the outer area of the ancient ruins.

In the next three days, Ye Feng used his huge soul power to indeed find many ancient resources that could improve his overall strength.

For example, Ye Feng found a burning fruit on the first day.

This fruit that is burning with flames actually takes on the shape of a phoenix.

It should be the legendary phoenix fruit contaminated with phoenix blood.

After Ye Feng swallowed it, his skill directly increased tremendously.

It was a breakthrough in an instant!

From the seventh level of the Fusion Realm, he broke through to the eighth level of the Fusion Realm.

This made Ye Feng couldn't help but marvel, the energy contained in this fruit was simply extremely huge.

If you were in the world of origin, there would be no way to find this special fruit that could instantly improve your cultivation.

But in the Ten Thousand Demons interface, you can find it in a small one hundred thousand mountain.

On the second day, Ye Feng found a set of armor that looked like it was made of diamonds. It was buried deep in the ruins, but it was found by Ye Feng's powerful soul power.

Ye Feng put it on directly, and immediately felt that he

's defense has been greatly improved.

And on the third day, Ye Feng found a storage ring left by a super strong man from the ancient times.

It was a black storage ring.

But Ye Feng couldn't open this black storage ring.

Because this black storage ring contains the spiritual blockade left by the super strong man.

Even if Ye Feng's current soul power is very huge, he cannot break through the seal of this storage ring.

So at this time, Ye Feng directly asked for help from Emperor Chu in his mind.

But Ye Feng discovered that Emperor Chu fell into a deep sleep and could not be awakened for the time being.

Therefore, Ye Feng could only put this black storage ring into his own storage ring for the time being.

Wait until Emperor Chu wakes up, or wait until your soul power becomes more powerful, then turn it on.

"Boom!"

In the early morning of the fourth day, Ye Feng was still wandering around this ancient ruins, but suddenly he heard a huge roar coming from a certain direction not far away.

There seemed to be strong men fighting in the distance.

"Um?"

This made Ye Feng's eyes suddenly show surprise.

Because Ye Feng has been wandering in the ancient ruins for three or four days and has almost never met any other powerful monsters.

But now I didn't expect that the roar of battle could be heard not far away.

This made Ye Feng's eyes suddenly reveal a look of deep curiosity, and he immediately flew quickly towards the source of the battle wave.

Because there must have been great opportunities and good things in that place, otherwise it would not have caused the strong demon clan to attack each other.

So Ye Feng is naturally very curious and interested, maybe he can benefit from it.

Chapter 4184 World Cleaner

Swish, swish, swish!

Ye Feng's speed was very fast. In less than a moment, he had arrived at the destination where the roaring sound came from.

This is already a relatively deep area in the ancient ruins.

"This is....."

But the next moment, what surprised Ye Feng's eyes was that the scene in front of him did not include strong men fighting.

Instead, it was a tall and strong man who was frantically digging a huge grave in front of him with a shovel in his hand.

The shovel in this strong man's hand seems to be a very high-end shovel. Every time he digs, a huge amount of energy is released from the shovel, which can directly blow up a huge hole in the entire ground.

"Who's watching?"

Suddenly, at this moment, the tall and tall man seemed to sense the aura of the person coming from behind, and turned around directly. A terrifying aura erupted from his body, enough to tear the heaven and the earth apart!

"Damn! It's you, Ye Feng!"

But the next moment, this strong man's eyes, which were full of murderous intent, suddenly became very stunned.

"Uncle Scar!"

Ye Feng saw the familiar scar on the strong man's face and immediately said in astonishment: "There is such a coincidence!"

Uncle Scar suddenly grinned, rushed to Ye Feng, and patted Ye Feng's shoulder hard with his broad, axe-like palm. He seemed to be very happy and said: "I haven't seen you for many years, but you are still acting like this." The appearance of a delicate and handsome young man really echoes the words, I wish you a bright future and you will still be a young man when you come back."

Ye Feng looked at the rough, mysterious and powerful Uncle Scar in front of him, and couldn't help but shake his head and smile, and said: "Uncle Scar, why did you get to the interface of ten thousand demons?"

When Uncle Scar heard Ye Feng's question, he just grinned and said: "Of course I am running around in all the worlds. Wherever there is a good tomb, I will run there. By the way, Ye Feng, you kid, why are you running all over the world?" Demon interface? Aren't you accumulating knowledge in the world of origin?"

Ye Feng shook his head and said: "In the world of origin, the rules of the world have not yet fully recovered, and many of the opportunities of the glorious years have not yet appeared. In the world of origin, my breakthrough was too slow, so I followed my brother. Arrived at the Ten Thousand Demons interface."

When Uncle Scar heard this, he immediately nodded and said: "It is true that the Great World of Origin does not have any good resources at the moment. It is better to go to the advanced

cultivation interface to find cultivation resources and improve your cultivation base as much as possible."

When he said this, Uncle Scar seemed to have thought of something, and suddenly said mysteriously: "Ye Feng, I will tell you a big secret for free, and I won't tell most people."

When Ye Feng heard this, he smiled dumbly and asked, "What a big secret? Does it have anything to do with me? It's so mysterious."

Uncle Scar's rough face suddenly showed a solemn look that resembled the vicissitudes of the ages, and he said loudly: "Our world is about to completely wither."

"What?"

Ye Feng was a little confused by what Uncle Scar said, and couldn't help but say: "So many advanced cultivation interfaces are still in their glory days, and we, the core of all heavens and worlds, originate from the great world

, is reviving from the Dharma-ending era, how could it wither? "

Uncle Scar sighed and said: "Everything is because of that mysterious and vast extraterrestrial world. In our opinion, that mysterious extraterrestrial world is a cultivation civilization of a higher latitude. They once used special means to let ten Terrible guys come from outside the realm to our low-level world. Those ten terrible guys were called the 'World Cleaners' and the 'Bringers of Doom'. All the gods were obliterated by the ten world cleansers. The ancient gods fought hard and finally managed to seal the ten world cleansers. Now that the great world of origin is resurrected, it is because it has sensed the ten world cleansers. It needs to be revived again, and our entire world needs to be cleaned up again. Therefore, the world rules of the origin world are forced to revive again in order to protect themselves. In order to give birth to the gods of this era, they must fight against the ten terrible world cleaners. However, many of those years ago The surviving god-level beings are all well aware of the terror of the World Cleaner, so they all fled our world and went to the end of the world of origin, hoping to cross the end of the world and enter the outside world to take refuge in advance. "

"this....."

At this moment, when Ye Feng heard Uncle Scar say this, his eyes suddenly showed deep astonishment and shock.

Because Ye Feng never thought that the truth of this world could be so cruel.

The resurgence of the origin world turned out to be because it sensed the huge crisis of world destruction in advance and wanted to re-create gods and protect itself.

And those ancient superpowers, such as the Lord of Origin, the Nine-clawed Golden Dragon, etc., can't wait to go to the outside world. They are actually afraid of death in order to enter the outside world to take refuge.

"Damn it..."

After Ye Feng figured this out, his expression suddenly became a little gloomy.

However, thinking that his father, mother, and brothers might have entered the outside world, Ye Feng felt a sense of relief in his heart. At least their future was safe.

At this time, Ye Feng said aloud: "It seems that we must quickly improve our strength so that we can protect ourselves in the future."

Uncle Scar nodded and said: "That's why I have been wandering around all the worlds, trying to find the opportunities left by various ancient strong men, improve my cultivation strength as much as possible, and then escape from here, Go to the outside world."

Hearing this, Ye Feng was silent for a moment and said, "Uncle Scar, don't you want to fight for your own world?"

Uncle Scar patted Ye Feng's shoulder, sighed, and said: "Who doesn't want to fight for their own world? But it is too difficult and impossible to do. All we can do is protect ourselves. Back then we How many ancient gods have fallen in this world, you can't even imagine how brutal and terrifying that battle was."

Ye Feng stared at Uncle Scar and said nothing more. He just nodded slightly and said, "How much time do we have?"

Uncle Scar said: "It can be as short as ten years, or as long as a hundred years."

Ye Feng nodded and said, "It seems that time is running out."

For ordinary people, ten years and a hundred years are very long.

But for practitioners whose lifespan can easily last thousands or tens of thousands of years, ten years or a hundred years is not a moment. Swish, swish, swish!

Ye Feng's speed was very fast. In less than a moment, he had arrived at the destination where the roaring sound came from.

This is already a relatively deep area in the ancient ruins.

"This is....."

But the next moment, what surprised Ye Feng's eyes was that the scene in front of him did not include strong men fighting.

Uncle Scar sighed and said: "Everything is because of that mysterious and vast extraterrestrial world. In our opinion, that mysterious extraterrestrial world is a cultivation civilization of a higher latitude. They once used special means to let ten Terrible guys came from outside the realm to our low-level world. Those ten terrible guys were called the 'World Cleaners' and the 'Bringers of Doom'. All the gods were obliterated by the ten world cleansers. The ancient gods fought hard and finally managed to seal the ten world cleansers. Now that the great world of origin is resurrected, it is because it has sensed the ten world cleansers. It needs to be revived again, and our entire world needs to be cleaned up again. Therefore, the world rules of the origin world are forced to revive again in order to protect themselves. In order to give birth to the gods of this era, they must fight against the ten terrible world cleaners. However, many of those years ago The surviving god-level beings are all well aware of the terror of the World Cleaner, so they all fled our world and went to the end of the world of origin, hoping to cross the end of the world and enter the outside world to take refuge in advance."

"this....."

At this moment, when Ye Feng heard Uncle Scar say this, his eyes suddenly showed deep astonishment and shock.

Because Ye Feng never thought that the truth of this world could be so cruel.

The resurgence of the origin world turned out to be because it sensed the huge crisis of world destruction in advance and wanted to re-create gods and protect itself.

And those ancient superpowers, such as the Lord of Origin, the Nine-clawed Golden Dragon, etc., can't wait to go to the outside world. They are actually afraid of death in order to enter the outside world to take refuge.

"Damn it..."

After Ye Feng figured this out, his expression suddenly became a little gloomy.

However, thinking that his father, mother, and brothers might have entered the outside world, Ye Feng felt a sense of relief in his heart. At least their future was safe.

At this time, Ye Feng said aloud: "It seems that we must quickly improve our strength so that we can protect ourselves in the future."

Uncle Scar nodded and said: "That's why I have been wandering around all the worlds, trying to find the opportunities left by various ancient strong men, improve my cultivation strength as much as possible, and then escape from here, Go to the outside world."

Hearing this, Ye Feng was silent for a moment and said, "Uncle Scar, don't you want to fight for your own world?"

Uncle Scar patted Ye Feng's shoulder, sighed, and said, "Who doesn't want to fight for their own world? But it's too difficult and impossible to do. All we can do is protect ourselves. Back then we How many ancient gods have fallen in this world, you can't even imagine how brutal and terrifying that battle was."

Ye Feng stared at Uncle Scar and said nothing more. He just nodded slightly and said, "How much time do we have?"

Uncle Scar said: "It can be as short as ten years, or as long as a hundred years."

Ye Feng nodded and said, "It seems that time is running out."

For ordinary people, ten years and a hundred years are very long.

But for practitioners whose lifespan can easily last for thousands or tens of thousands of years, ten years or a hundred years is not a moment.

Chapter 4185 Very easy

At this time, the two of them sighed.

Uncle Scar patted Ye Feng's shoulder and said with emotion: "Ye Feng, we don't have the ability to think about so many things now, so we should try our best to improve our cultivation strength, whether it is Escape from this world or fight for this world requires strong strength as support, otherwise everything is empty talk. "

Ye Feng immediately nodded and did not deny Uncle Scar's own values.

Ye Feng just said: "By the way, what kind of grave were you digging just now?"

Uncle Scar chuckled and said: "Of course it is the tomb of a peerless powerful man. This ancient ruins is not only the place where ancient gods fought, but also the burial place of a group of ancient powerful men. Otherwise, I I won't come all the way here."

At this time, Uncle Scar said, directly pulling Ye Feng to the grave he dug.

Ye Feng saw that Uncle Scar had dug deep into the ground.

An underground passage made entirely of gold and iron blocks appeared, seemingly leading to the inner space of the tomb.

Seeing this scene, Uncle Scar couldn't help laughing and said: "Let's just go in and take a look, but be careful. There are very powerful zombies likely to appear in such ancient tombs. These Zombies are all made from the corpses of strong men from ancient times. They are invulnerable to fire and water, so they are very powerful and cannot be dealt with casually. "

Ye Feng immediately nodded at this time, and followed Uncle Scar directly towards the depths of the underground passage, flying quickly.

The moment they truly entered the ancient tomb space beneath the ground, they immediately saw seven coffins lying across the inner space of the tomb.

Each coffin is made of different materials.

The first coffin was made of gold.

The second coffin was made of silver.

The third one is made of bronze.

The fourth one is made of black iron.

The fifth one is made of a very precious diamond.

The sixth and seventh coffins are made of a very special stone.

In any case, these seven coffins feel very majestic, very ancient, and exude an aura that people dare not approach.

It's like the seven gods of death are sleeping here.

At this moment, Uncle Scar pulled out a long knife more than ten meters long from his back.

The blade of this long knife is full of dense serrations, which looks very visual and gives people a very vicious feeling.

At this moment, Uncle Scar said slowly: "I can already feel that there are zombies hidden in these seven coffins, because I feel a very death aura, we must be careful."

Ye Feng suddenly grinned at this time and said loudly: "Don't worry, this kind of zombies pose no threat to me."

After saying that, Ye Feng released the Gate of Heaven without any hesitation.

Buzz!

At this moment, a door emitting white holy light appeared directly above Ye Feng's head.

Although the Gate of Heaven cannot be revealed outside, there is still no problem in showing it in front of Uncle Scar, an old friend.

In this world, apart from his parents, grandfather and aunt, the only people Ye Feng believed in the most were Uncle Nan, Uncle Scar, and He Shang.

So at this time, Ye Feng released the Gate of Heaven without any hesitation, preparing to purify these zombies.

Buzz!

In an instant, the infinite white divine light directly

It emanated from the Gate of Heaven, and then illuminated the entire place, covering all the space of the entire tomb.

It also shined on the seven coffins that looked very special.

At this moment, the aura of death in all the coffins was all dispersed by the Gate of Heaven.

The zombies among the seven coffins lost the support of the aura of death in an instant, and turned into ordinary dead corpses without any movement.

"Um?"

Seeing this scene, Uncle Scar, who was standing aside, suddenly said in astonishment: "How can all crises be solved so easily?"

Uncle Scar knows very well that the most dangerous thing about the ancient tomb is that the ancient warriors have turned into zombies, possessing very terrifying fighting power. .??.

But the door released by Ye Feng emitted sacred white light, clearing away the death aura of all the zombies in an instant.

It is really incredible that these dangers can be nipped in the bud without resorting to fighting.

Even the mysterious and powerful Uncle Scar had a look of deep surprise in his eyes at this time.

Uncle Scar stared at the Heaven's Gate released by Ye Feng and couldn't help but said: "Ye Feng, you are so lucky. You got such a treasure as the Heaven's Gate. It is simply the best tomb explorer. What a great weapon. Next, you can cooperate with me. Let's go to all the worlds and rob the tombs of all the ancient powerful men."

"Forehead....."

Hearing what Uncle Scar said, Ye Feng suddenly twitched the corner of his mouth and couldn't help but said: "I don't have time to follow you around the world now. I'll wait until I have time later. I'm here There are other important things in the Wanyao interface."

Hearing what Ye Feng said, Uncle Scar immediately said with some regret, "Okay."

Whether it is Uncle Scar or Ye Feng, they all know that some things cannot be forced.

They have known each other for many years, and they are very clear about their respective situations and will never force the other to do anything.

So at this time, Uncle Scar didn't say anything else. Instead, he walked directly to the seven coffins in front and said with a smile: "We are probably going to get rich now."

Click!

Click!

...

At this moment, Uncle Scar directly raised the shovel in his hand and pried open all seven coffins.

At this time, after the seven coffins were pried open, Ye Feng and Uncle Scar immediately saw the corpses of seven ancient powerful men lying in them.

What surprised them was that every corpse was wearing a storage ring on its finger.

In other words, after these ancient powerful men buried themselves here, the wealth and resources they left behind were all contained in their storage rings.

At this time, Uncle Scar glanced at Ye Feng, grinned, and said loudly: "This time, although I found the tomb of an ancient powerful man, you, Ye Feng, have solved the biggest problem. Let us It's very easy to get the storage rings of these ancient powerful men, so you take four rings and I take three."

"good."

Ye Feng was not pretentious. He immediately nodded with a smile and said, "We can continue to cooperate. Although I don't have time to follow Uncle Scar to wander around the world, but in this ancient ruins , we have been working together for a while and there is no problem at all. "

When Uncle Scar heard what Ye Feng said, he immediately burst out laughing and said, "Okay, with an artifact like yours that can dispel the aura of death, I have nothing to fear. I want to destroy the most evil creature in this ancient ruins." The tombs were found and dug out."

Chapter 4186 Disciples of the Ten Thousand Beast Sect

At this moment, when Uncle Scar said this, Ye Feng's mouth twitched slightly.

Unexpectedly, Uncle Scar's dream was to dig up the tombs of all the ancient powerful men in this ancient ruins.

It's really embarrassing.

At this time, Ye Feng said aloud: "Let's explore the resources in these storage rings first."

At this time, Ye Feng said and immediately opened the four storage rings he had taken.

These four storage rings were not blocked by the ancient strongman's spiritual thoughts, so Ye Feng easily opened the space of the four storage rings. ??

The next moment, Ye Feng immediately saw the various resources and wealth contained in the four storage ring spaces.

It almost felt like the next moment, Ye Feng's eyes lit up.

Because the cultivation resources in these four storage rings are very rich.

The first storage ring contains a lot of top-quality energy crystals from ancient times.

It is estimated that the ancient powerful man put it in the storage ring and used it to restore his power at any time.

But he died in the battle, so a lot of energy crystals were left behind.

Buzz!

At this moment, Ye Feng didn't hesitate and started to devour it directly.

Wow!

Almost at the next moment, Ye Feng immediately felt the energy in the energy crystal, which was directly injected into his Dantian. Ye Feng immediately felt that his power had increased tremendously.

"boom!"

At this time, Ye Feng's body immediately burst out with a breakthrough momentum.

Directly from the eighth level of the Fusion Realm, he broke through again and broke through to the ninth level of the Fusion Realm!

I have to say that the speed of this breakthrough is really too fast.

Because the Fusion Heaven Realm is already a very advanced level of cultivation.

Therefore, every breakthrough requires a huge amount of energy.

If it were an ordinary practitioner, there would be no way to devour external energy to improve oneself like Ye Feng.

You can only continue to retreat, or use some special formations to make yourself break out.

Break, or gain insights.

It is estimated that it will take a long time to break through each level.

But now Ye Feng broke through directly on the spot.

At this time, even Uncle Scar who was standing aside couldn't help but sigh and said: "Ye Feng, your kid's devouring ability is really unique. I have traveled all over the world, and I have never I have never seen such domineering and special abilities as yours. Fortunately, your heart is not bad, otherwise, all the world will be in ruins. "

When Ye Feng heard Uncle Scar say this, he immediately grinned and said loudly: "There are no evil techniques in this world, only evil users."

After Ye Feng finished speaking, he continued to explore the second storage ring.

The second storage ring space contains a set of very powerful weapons and armor.

It is a set of golden armor engraved with the totems of ancient evil beasts, and a golden spear that is more than three meters long. It feels like the armor of a god.

Ye Feng could feel that this set of equipment was definitely very advanced.

Without any hesitation, Ye Feng directly put on this set of golden evil beast armor on his body.

The next moment, Ye Feng immediately felt that his power had been greatly strengthened.

This set of armor seems to not only have very powerful defensive capabilities, but also has unparalleled and huge benefits for improving the user's overall ability.

Next, Ye Feng continued to open the third storage ring.

When Ye Feng opened the third storage ring space, a look of astonishment suddenly appeared in his eyes.

Because the third storage ring was completely empty, with nothing in it.

This made Ye Feng's eyes suddenly reveal a hint of helplessness.

It seems that the owner of this storage ring must have been very poor and didn't need to keep anything.

However, it is also possible that the owner of this storage ring has used it up.

.

At this moment, Ye Feng continued to open the fourth storage ring without any hesitation.

In the fourth space where the ring is stored, Ye Feng found an ancient book.

This book is almost decaying.

But when Ye Feng opened it, the ancient book suddenly burst into flames.

Uh-huh!

Then a golden light rushed out of it and poured into Ye Feng's mind.

This is a set of powerful inheritance secrets that can be directly learned by those who come into contact with this book.

At this moment, a golden chapter suddenly appeared in Ye Feng's mind, called "Nine Turns of the Golden Wheel".

When you practice to the extreme, you can directly move the energy between heaven and earth, and condense nine rapidly rotating golden gears around you, destroying enemies instantly. ??

This is a very powerful attack method.

This immediately made Ye Feng's eyes reveal a look of surprise.

Unexpectedly, this time he would not only achieve another breakthrough in his cultivation, but also receive such a powerful ancient inheritance.

You must know that the existences that can be buried in the ancient ruins must be earth-shaking strong men in front of them.

Their inheritance is naturally very advanced and extraordinary.

At this time, Uncle Scar beside him also opened the three storage rings he chose, and got a lot of good things.

Among them was a golden sword that was hundreds of meters long. It looked very domineering, as if it could split the world, and Uncle Scar liked it very much.

This is much more domineering and powerful than the ten-meter-long serrated knife he currently holds in his hand.

Uncle Scar couldn't help but said: "This sword should be the weapon of the ancient strongman who was called the 'Bad Sword' back then. I didn't expect that I would meet this ancient strongman. I still I admire you very much. With this powerful sword, I killed all over the world, and finally died against the world cleansers from higher dimensional cultivation civilizations outside the territory. It is worthy of admiration."

\u003e

At this moment, Uncle Scar said that he actually took out three sticks of incense from his storage ring and offered one stick of incense to the coffin of the ancient strongman known as Ba Dao.

Next, Ye Feng observed the internal space of the tomb and found that there was nothing left. He immediately said, "Uncle Scar, let's go directly."

Uncle Scar just nodded and followed Ye Feng out of the tomb and returned to the ground.

But suddenly at this moment, a group of young masters wearing uniform uniforms flew in not far away.

Their cultivation levels are all Daohai realm existences that have surpassed the Rongtian realm.

This made Ye Feng and Uncle Scar look surprised in their eyes.

Uncle Scar couldn't help but said: "These young masters are probably disciples of a powerful sect in the interface of ten thousand monsters. Otherwise, they would not have such powerful cultivation. They are probably also in this ancient ruins." Experience your own cultivation in it. After all, the Shiwanda Mountain is a good place for many surrounding dynasties and sects to train their young disciples, because there are many ancient ruins and various naturally cultivated cultivation resources in the Shiwandashan. "

Ye Feng nodded slightly and said, "Should we avoid them?"

Uncle Scar said aloud: "It's better to avoid them. Now we can rest assured and find a few more tombs of ancient powerful men in these ancient ruins."

But just as the two were about to leave, a group of more than a dozen young masters wearing uniforms flew over and immediately blocked the path of Ye Feng and Uncle Scar.

Standing at the front was a young man wearing a blue robe. His eyes were very cold. He stared at Ye Feng and Uncle Scar, and then glanced at the huge thief behind Ye Feng and Uncle Scar. Cave, suddenly smiled coldly, and said condescendingly: "You two little thieves, I didn't expect that you could find the tombs of these ancient powerful men in the ancient ruins. As the three top leaders of the nearby Shenshui Dynasty, I Disciples of one of the sects, the 'Ten Thousand Beasts Sect', naturally have to take good care of this matter. Now hurry up and hand over all the things you got from that ancient tomb, otherwise, your head will be moved. "

Chapter 4187 Contracted Beast

At this moment, this disciple from the Ten Thousand Beasts Sect, one of the three top sects of the Shenshui Dynasty, spoke with a tone full of deep condescension and contempt.

Because in his eyes, Ye Feng and Uncle Scar are just ordinary casual cultivators outside, and their cultivation base is not very strong.

Therefore, this disciple of the Ten Thousand Beasts Sect naturally arrogantly asked Ye Feng and Uncle Scar to hand over all the wealth they had obtained.

At this moment, Ye Feng suddenly smiled coldly and said: "A disciple of the Ten Thousand Beast Sect? What a majesty! Unfortunately, I have never heard of the Ten Thousand Beast Sect. Don't even think about pretending to be a big-tailed wolf in front of me. "

When this young man in a blue robe heard what Ye Feng said, he immediately stared at Ye Feng, with a deep mockery in his eyes, and said loudly: "You are ignorant, but as a humble casual person, you are ignorant." Xiu, it's normal not to know the name of our Ten Thousand Beast Sect. In the endless wild forest of Shiwan Mountain, which big monster is not afraid when he hears the name of our Ten Thousand Beast Sect? In any case, hurry up and collect all your belongings now? Hand it all over, otherwise, don't blame us for being rude."

At this time, this young man in blue robe from the Ten Thousand Beast Sect completely revealed his ambition to rob Ye Feng and Uncle Scar of all their wealth.

At this moment, Uncle Scar suddenly grinned and said loudly: "I will use you to test the domineering sword I just got."

At this time, Uncle Scar did not hesitate and took out the several hundred meters long golden sword that he had obtained before. It looked very visually shocking.

Seeing this scene, a group of Ten Thousand Beast Sect disciples behind the young man in blue robes all sneered and said, "Fancy things don't mean power."

But at this moment, Uncle Scar didn't hesitate at all. He just held the golden sword several hundred meters long in his hand and slashed forward fiercely.

past.

And the moment Uncle Scar struck out with this sword, domineering and boundless power burst out directly from the golden sword in his hand.

An extremely terrifying sword light erupted from the sword that was hundreds of meters long, extending tens of thousands of meters at once, as if it could cut into pieces the entire sky, earth, and sky.

"What?? This kind of sword light is so terrifying!"

At this moment, the expressions of all the Ten Thousand Beast Sect disciples present suddenly changed.

Their eyes were originally full of sarcasm and ridicule, but the moment Uncle Scar slashed the knife, they finally realized how powerful it was, and all of a sudden their eyes showed deep horror.

Because the power of Uncle Scar's sword was so terrifying that they felt tremendous pressure instantly.

At this moment, the young man in blue robe standing at the front should be the leader of this group of people.

An extremely powerful Daohai realm cultivation aura suddenly erupted from his body, and then he directly held up a blue light shield with both hands.

Boom!

Almost at the next moment, Uncle Scar's golden sword formed a golden sword light tens of thousands of meters long, which directly bombarded the blue light shield propped up on the body of the young man in blue robe.

"Rumble..."

The entire field immediately erupted with a huge roar.

That terrifying sound wave spread in all directions, causing the entire surrounding earth to be shaken and shattered inch by inch.

The dozen or so ordinary people around

The disciples of the Ten Thousand Beasts Sect were shocked and flew out in an instant.

Ye Feng also had a look of surprise in his eyes at this time.

Because he didn't expect that the power of Uncle Scar's sword would be so powerful, it directly knocked the young man in blue robe back several steps.

At this moment, the young man in blue robe immediately showed a deep gloomy look on his face, and then said fiercely: "Since you are toasting and not eating, you can't blame me. We, the Ten Thousand Beast Sect, The most powerful thing is not our own strength, but the strength of our contracted beasts."

Uh-huh!

Almost at that moment, the young man in blue robe took out a metal ring from his waist.

This metal ring seems to be a kind of space magic weapon specially used to feed beasts. .??.

"boom!"

Almost at this moment, a giant green dragon with huge wings flew out of the beast-control ring of the young man in blue robes. It was very huge, several kilometers long, and it was extremely majestic. .

At this time, the giant green dragon flew out in an instant and flew high in the sky, literally blocking out the sky and the sun, giving people a very scary and ferocious feeling.

This giant green dragon has a more powerful cultivation aura than this young man in blue robes.

The cultivation strength of this young man in blue robe is at the third level of Daohai Realm.

And the cultivation strength of this giant green dragon has reached perfection in the tenth level of Daohai Realm.

In addition, this is the blood power of a very ferocious ancient evil beast. It is very powerful. The scales all over its body are like casts of green metal. Under the sunlight, it glows.

It has a cold metallic luster, giving people a very cold and ferocious feeling.

"Roar!!"

At this moment, the giant green dragon with huge wings roared wildly, and opened its mouth to spit out a green mist, covering the world.

Uncle Scar inevitably took a sip, and immediately felt that his whole body had been poisoned, and his whole body was powerless.

Uncle Scar's face changed, and he immediately said: "Ye Feng, be careful, this green giant dragon is not an ordinary evil beast, it is an evil beast with extremely terrible poison. This kind of poisonous gas, even the real poison that I have carefully cultivated, The devil's body is a bit unbearable!"

Hearing what Uncle Scar said, Ye Feng immediately nodded slightly, quickly flew in front of Uncle Scar, and then directly released his Hongmeng Purple Qi, inputting some to Uncle Scar, and Uncle Scar's complexion immediately recovered. Some.

Ye Feng's Hongmeng Purple Qi can detoxify and has the power of life.

At this moment, the young man from the Ten Thousand Beast Sect not far away wearing a blue robe suddenly smiled coldly and said: "Now you know, the most powerful thing about our Ten Thousand Beast Sect is not ourselves. The strength is the powerful beast we signed the contract with."

After the young man in the blue robe finished speaking, he stared directly at the green dragon high in the sky and said loudly: "Green Dragon, don't hold back, just kill these two humble cultivators. Take away all the wealth they got from that big tomb."

"Yes, Master!"

At this time, the giant green dragon roared, spread out its huge wings that covered the sky, and rushed towards Ye Feng and Uncle Scar quickly and fiercely. It was covered with poisonous air, overwhelming and extremely... Its ferocity is hard to resist!

Chapter 4188 Am I afraid?

Boom! !

I have to say that this green dragon is very terrifying.

The cultivation aura emanating from the body is the cultivation aura of the Great Perfection of the Tenth Level of Daohai Realm. It is indeed very terrifying.

Moreover, his whole body was covered with green mist, which was very poisonous gas.

It can be seen that the power of the green dragon's own bloodline is also very ancient and ferocious.

Otherwise, it would be impossible to produce such a terrifying green poisonous mist.

"kill!"

At this moment, Ye Feng naturally did not hesitate at all, and instantly released the peerless inheritance of the ancient powerhouse that he had received before.

"Nine-turn Golden Wheel!"

boom! boom! boom.....

At this moment, rapidly rotating golden gears suddenly appeared in the void around Ye Feng.

Each golden gear is very huge, like a celestial wheel in the sky. It rotates rapidly and can crush everything.

"Crash!"

At this time, Ye Feng rushed forward crazily, with nine huge golden gears spinning rapidly around him, crushing all the green poisonous mist in the sky instantly.

Then Ye Feng rushed in front of the giant green dragon in an instant and used all his strength to activate the divine power in his two fists.

"boom!"

"boom!"

At this moment, Ye Feng's two fists suddenly burst into golden divine light.

The power of the gods burst out crazily from Ye Feng's fists, turning Ye Feng's two fists directly into gold, like peerless weapons just forged from the divine furnace, with terrifying Extreme impact and destructive power.

"boom!"

The next moment, Ye Feng's pure gold fist hit the huge head of the green dragon hard.

r\u003e

"Crack!"

Almost at that moment, the green scales on the surface of the green dragon's head, as strong as steel, were all shattered inch by inch by Ye Feng's pure gold fist.

"howl!!"

The green dragon didn't seem to expect that Ye Feng, a young human race, had the power of a god and demon, and he screamed in pain.

Then the green giant angrily stretched out a huge steel-like dragon claw and grabbed Ye Feng fiercely, trying to tear Ye Feng into pieces in an instant.

"Nine-turn Golden Wheel!"

Boom boom boom...

Ye Feng mobilized nine huge golden gears to block around him, forming an airtight defense circle to block the claws of the green dragon.

It has to be said that the inheritance of the nine-turn golden wheel that Ye Feng got from that ancient tomb is really terrifying, and it can actually withstand the attack of a green dragon that is a whole level higher than Ye Feng.

"Devil's Sky-Tearing Claw!"

At this moment, Ye Feng showed the inheritance of the Demon God without any hesitation.

Boom! !

At this time, Ye Feng's body suddenly erupted with a thick black aura, and then he stretched out a hand. This hand instantly turned into a huge devil's claw, covering the sky and the sun. The sky was filled with dark clouds and filled with a terrifying and boundless feeling.

"howl!!"

Almost at the next moment, Ye Feng's Demon Sky-Tearing Claw, full of terrifying destructive power, actually tore the green giant in front of him into pieces!

"What??"

saw this

In a tragic scene, the young man from the Ten Thousand Beast Sect not far away wearing a blue robe suddenly opened his eyes wide, with a look of deep astonishment on his face.

Because he seemed to have never imagined that the green dragon he signed the contract with, such a terrifying beast, would be torn into pieces by Ye Feng, an ordinary-looking human boy.

This is simply shocking to the extreme!

"This is impossible!"

"Senior Brother Wan's contracted beast is the top 100 green poison dragon in our Ten Thousand Beasts Sect! How could it be killed by this human kid who is not in the Fusion Sky Realm?"

"Who is this human boy? How could he have such a powerful fighting ability!"

At this moment, a group of a dozen other Ten Thousand Beast Sect disciples around them all had deep looks of horror in their eyes.

At this time, their eyes were full of fear, their whole bodies were trembling, and their faces were pale with fear.

Because of the power of Ye Feng's claw just now, it instantly tore the green dragon into pieces. It had an extremely strong visual impact and made these disciples from the major sects of Shenshui Dynasty feel deep fear.

At this time, the young man in the blue robe who was leading the group immediately became extremely stiff.

He immediately stared at the imposing Ye Feng not far away, and was so frightened that he began to stutter: "You... you are a casual cultivator, how could it be... how could it be possible..."

boom!

But before the young man in blue robe could finish his words, Ye Feng had already rushed in front of him and directly punched the young man in blue robe hard.

"Crack!"

At this moment, this young man in blue robe among all beasts, supported by

The blue light mask that came was unable to block Ye Feng's pure golden fist.

Ye Feng's pure golden fist burst out with the power of the Celestial Clan, which had the overwhelming power to destroy everything. It instantly shattered the blue protective mask that the young man had propped up.

Then Ye Feng's pure gold fist slammed fiercely on the young man in the blue robe.

"Puff!" Ye Feng's fist was just like the sharpest spear in the world, with terrible penetrating power and overwhelming brute force, and instantly pierced through the young man's entire body, leaving a bloody hole.

"No!!!"

At this time, the young man in the blue robe who was the leader of the Ten Thousand Beasts Sect immediately widened his eyes, feeling endless pain, which spread from the wound on his body to his entire body, madly stimulating his pain nerves.

The young man in the blue robe of the Wanshou Sect stared at Ye Feng in front of him, and said in a shocked and angry voice: "You... you are a humble little casual cultivator, but you dared to really kill me. You are guilty of a heinous crime and will be wanted by our entire Wanshou Sect!" Hearing the young man in the blue robe in front of him say this, Ye Feng just smiled coldly and said: "Heinous crime? If you hadn't forcibly robbed the wealth from me and my friends at the beginning, would it have led to such a result? If you cause trouble yourself, you have to bear the price. As for your Wanshou Sect's wanted, do you think I'm afraid? Haha." After saying that, Ye Feng punched out again and killed the young man in the blue robe instantly. "Senior Brother Wan!!" Seeing the young man in the blue robe die in Ye Feng's hands, the other dozen or so Wanshou Sect disciples around him, both men and women, were so scared that their faces turned pale at this moment.

Chapter 4189 Guardian

At this time, looking at a group of other ordinary disciples of the Ten Thousand Beast Sect who were trembling, Ye Feng was about to say something.

"boom!"

But Uncle Scar standing next to him had already taken action.

The golden sword in his hand suddenly struck down, and a huge golden sword light tens of thousands of meters long directly enveloped the dozen or so ordinary disciples of the Ten Thousand Beast Sect, and instantly tore all the Ten Thousand Beast Sect disciples into pieces.

At this time, Uncle Scar just smiled faintly and said loudly: "It's a disaster if we keep them all, it's best to kill them all."

I have to say that Uncle Scar is also a ruthless person, and he doesn't say much when he is ruthless.

At this moment, when Ye Feng saw this scene, he didn't say anything, but directly released his Devouring Domain and began to devour the blood energy and skills of these killed Ten Thousand Beast Sect disciples.

It has to be said that these young disciples come from the Ten Thousand Beasts Sect, one of the three top sects of the Shenshui Dynasty.

Their cultivation skills and the blood energy contained in their bodies are still very powerful.

After Ye Feng devoured this energy, his cultivation level immediately reached a breakthrough.

Boom!

The next moment, Ye Feng's body immediately burst out with a new and powerful cultivation aura.

Then, he directly broke through from the previous ninth level of the Fusion Realm to the tenth level of the Fusion Realm, Great Perfection!

At this moment, with the breakthrough in cultivation, Ye Feng's eyes suddenly revealed a look of deep joy.

This time coming to this Ten Thousand Demons interface, Ye Feng still made a lot of money.

Not only did he get a lot of powerful inheritance, weapons and armor, but he also made so many breakthroughs in cultivation in a short period of time.

At this time, Ye Feng had a completely new understanding of the advanced cultivation interface.

There are countless powerful people in the advanced cultivation interface, and the natural resources are also very rich. It is indeed many times better than the origin world that has not yet fully recovered.

Ye Feng felt that he could hang out in the advanced cultivation interface for a while, and there was no need to rush back to the Ye family in the origin world for the time being.

After all, the Ye family is now in the Sea of Chaos, with the guardians of the Chaos Formation left behind by their ancestors.

And his grandfather is also very powerful.

For the time being, those big forces and powerful people in the advanced cultivation interface will not be able to come to the origin world for a while.

In addition, the Ye family has almost reached a super power in the heaven, the Shenwen Dynasty.

Therefore, Ye Feng feels that his Ye family is now developing silently in the world of origin, and there will be no danger at all for a while.

There is no need to go back in such a hurry now.

As long as he can defeat such a huge enemy as the Blood Demon Dynasty in the Ten Thousand Demons Interface, then the Ye family will no longer be in any danger.

At this time, Ye Feng looked at Uncle Scar in front of him and said, "Then let's continue looking for the tombs left by other ancient powerful men in this ancient ruins."

Uncle Scar nodded and prepared to continue searching with Ye Feng.

But suddenly at this moment, a terrifying aura suddenly swept over from a certain direction not far away.

"Not good! He seems to be a super strong person who has surpassed the level of Daohai Realm!"

At this moment, Uncle Scar's eyes immediately changed, and he said loudly: "It is very likely that the super strong man in the Ten Thousand Beast Sect sensed the death of the disciples of the Ten Thousand Beast Sect here, so he came here. This kind of large sect The disciples' trials usually have a guardian. It is very likely that this terrifying aura is the aura of the secret guardian. "

When Ye Feng heard what Uncle Scar said, there was a hint of urgency in his eyes, and he said loudly: "Uncle Scar, let's not go looking for any big tombs now. The two of us will leave separately for now. If we are together, no one can escape if we are caught by the guardian among all beasts."

Hearing what Ye Feng said, Uncle Scar immediately nodded and agreed with Ye Feng's point of view.

That means the two of them split up and ran away.

In this case, the guardian of the Ten Thousand Beast Sect can be distracted.

At this moment, Uncle Scar stared at Ye Feng in front of him, patted Ye Feng's shoulder, and said with a smile: "It is really fate to be able to see Ye Feng here, but the time we get together is very short. Soon, we will be separated again."

Ye Feng smiled and said, "As long as we are destined, we will continue to meet."

"Okay, look forward to our next meeting."

After saying this, Uncle Scar immediately nodded, and then immediately flew quickly in a certain direction.

Uh-huh!

At this moment, Ye Feng was leaving in the opposite direction of Uncle Scar.

Not long after they left here.

Buzz!

A white-haired old man wearing a red robe appeared here and landed here.

The cultivation aura emanating from him was just as Uncle Scar had guessed. He was a super strong man at the Yuanfu level that had surpassed the Rongtian realm and the Daohai realm!

This person is one of the guardians of the Ten Thousand Beasts Sect, who is specially used to protect the talented disciples of the Ten Thousand Beasts Sect who have entered this ancient ruins.

At this moment, the white-haired old man wearing a red robe looked at the many disciples of the Ten Thousand Beast Sect who had turned into shriveled corpses around him, and his eyes suddenly showed deep shock and anger.

He said aloud: "Bold demon thief! He is so evil that he has sucked all the young geniuses out of our beasts! I must find you! I will cut you into pieces!"

boom!

At this moment, the guardian of the Ten Thousand Beasts Sect said, and immediately burst out with murderous intent, and quickly chased in a certain direction.

The direction he was chasing was exactly that of Ye Feng.

...

Half a day later.

Ye Feng was escaping from the broken buildings among the ancient ruins.

Behind him was a white-haired old man wearing a red robe.

He is the guardian of the Ten Thousand Beast Sect.

Ye Feng's eyes were a little downcast at this moment.

Because he has bad luck.

The guardian of the Ten Thousand Beasts Sect did not chase Uncle Scar, but pursued Ye Feng in the direction where he escaped.

Perhaps this guardian among the beasts sensed the devouring aura on Ye Feng, so he determined that Ye Feng had absorbed the skills of all their Ten Thousand Beast Sect disciples, so he gave priority to hunting down Ye Feng.

At this moment, Ye Feng could sense that the old guardian of the Ten Thousand Beast Sect who was chasing him had a cultivation aura that was two levels higher than his own.

No matter how confident Ye Feng is in his own strength, it is currently impossible to confront such a top powerhouse.

After all, the opponent's cultivation level far surpasses the Fusion Heaven Realm, and he is a transcendent existence at the Yuanfu Realm level above the Dao Sea Realm.

A strong man of this level, even in a large sect like the Ten Thousand Beasts Sect, is probably a first-rate master.

Ye Feng is naturally unable to resist at the moment.

He could only flee as much as possible in this ancient ruins, trying to get out of the pursuit range of the guardian of the Ten Thousand Beast Sect.

Chapter 4190 Senior Sister Su

"Damn it!"

A few days later, Ye Feng's eyes showed a downcast look and he couldn't help but cursed secretly.

Because he discovered that the old man from the Ten Thousand Beast Sect behind him was still chasing him.

"Evil demon thief! You were so audacious that you killed more than a dozen disciples of my Ten Thousand Beast Sect. You committed a heinous crime! I will cut this little thief like you into pieces!"

Not far away, the murderous roar of the guardian of the Ten Thousand Beast Sect came from behind.

When Ye Feng heard this, his eyes suddenly darkened, and then he shouted angrily to the back: "It was your group of disciples from the Ten Thousand Beast Sect who took the initiative to surround me and forced me to hand over all the wealth I had. , otherwise you will kill me, are you, the Ten Thousand Beast Sect, so indiscriminate? "

The guardian of the Ten Thousand Beast Sect said coldly from behind: "Even if they do this, you can't kill them. We, the Ten Thousand Beast Sect, are not something you, a small casual cultivator, can offend!"

overbearing!

Very domineering!

What this guardian of the Ten Thousand Beasts Sect said was really overbearing to the extreme.

This is unreasonable and overbearing.

"The God-Destroying Hand of All Beasts!"

boom!

Suddenly at this moment, the old guardian of the Ten Thousand Beasts Sect who was chasing behind him directly used a powerful inherited martial art from the Ten Thousand Beasts Sect.

He stretched out a hand, and in that hand appeared the souls of ten thousand ancient beasts. Wrapping around this hand, it immediately blocked the sky and the sun, and quickly bombarded Ye Feng. past.

"Buzz!"

"What a terrible pressure!"

Ye Feng immediately felt a terrifying pressure that made his whole body break.

Because you must know that the cultivation of this old guardian of the Ten Thousand Beasts Sect has surpassed the Fusion Heaven Realm and Daohai Realm, and he is a terrifying existence at the Yuanfu Realm level.

Therefore, even if Ye Feng's current cultivation level has been greatly improved, he is currently no match for this old man from the Ten Thousand Beasts Sect.

So at this time, the moment the old guardian of the Ten Thousand Beasts Sect displayed his powerful martial arts inheritance, Ye Feng immediately felt that his whole body was about to burst into pieces.

"boom!"

At this moment, Ye Feng did not hesitate and instantly released the nine-turn golden wheel that he had practiced before.

Boom!

Almost at the next moment, nine huge golden gears suddenly appeared around Ye Feng.

This is the super inheritance of an ancient powerful man.

After Ye Feng practiced, his power was still very terrifying.

Wow!

Nine huge golden gears rushed towards the rear quickly. Behind Ye Feng, the nine huge golden gears were intertwined together, forming an airtight defensive wall.

boom! !

"Crack!"

But the moment the big hand of the old guardian of the Ten Thousand Beast Sect collided with the nine-turn golden wheel displayed by Ye Feng, it actually directly knocked out Ye Feng's nine-turn golden wheel.

All the wheels were shattered inch by inch, and then hit Ye Feng's body hard.

Boom! !

Even though Ye Feng was wearing a set of extremely powerful armor, he couldn't help being knocked backwards at this time.

Ye Feng suddenly felt a kind of terrifying energy, which was transmitted through the armor to his limbs and bones, making Ye Feng's entire body burst into pieces.

At this moment, Ye Feng didn't hesitate at all, and immediately couldn't help but yelled loudly: "Immortal old man! If I can't die this time, I will let you know what cruelty is!"

Hearing what Ye Feng said, the old guardian of the Ten Thousand Beasts Sect behind him immediately burst into laughter and said loudly: "A little casual cultivator dares to say harsh words in front of me. I don't think you are alive." I'm getting impatient, you can't escape today, I will cut you into pieces!"

Boom!

At this moment, the old guardian of the Ten Thousand Beasts Sect once again displayed the powerful inheritance just now.

He seemed to have refined the souls of 10,000 ancient beasts before he mastered the Ten Thousand Beasts Destroying Hand.

The huge palm, with astonishing power, containing the power of ten thousand ancient beasts, once again bombarded Ye Feng.

At this moment, Ye Feng could only take out the small black sword from before, and then poured all his strength into this small black sword.

Buzz!

The small black sword immediately expanded to a length of more than forty meters, and then quickly slashed towards the rear.

When the old guardian of the Ten Thousand Beasts Sect saw this scene, he immediately smiled sarcastically and said, "No matter how powerful your weapons are, you can't possibly fight against me."

Boom!

But before the old guardian of the Ten Thousand Beasts Sect could finish his words, Ye Feng's sword strike far exceeded the expectations of the old guardian of the Ten Thousand Beasts Sect.

Ye Feng's sword slashed out, and the terrifying sword light actually cut the Ten Thousand Beasts Destroying Hand released by the old guardian of the Ten Thousand Beast Sect into two halves in an instant.

Then the terrifying sword light continued to slash, and it actually almost split the body of the old guardian of the Ten Thousand Beast Sect into two halves, causing a huge wound.

"ah!!"

The old guardian of the Ten Thousand Beasts Sect immediately couldn't help but scream in pain, and screamed in great anger: "How is this possible!! How can you, a small casual cultivator, hold such a powerful weapon in your hands?" It's impossible for ancient weapons to increase your combat effectiveness so much."

But the moment the old guardian of the Ten Thousand Beasts Sect finished speaking, he suddenly felt keenly that Ye Feng's cultivation aura suddenly became extremely weak.

The old guardian of the Ten Thousand Beasts Sect immediately understood what was going on, and couldn't help but speak out: "It turns out that you can only use one sword. After using this sword, all your strength is almost consumed."

It's over. "

At this moment, the guardian elder of the Ten Thousand Beast Sect reacted.

But Ye Feng had already run away.

Because the old guardian of the Ten Thousand Beast Sect was frightened by the power of the sword just now, a huge sword mark appeared on his body.

So the old guardian of the Ten Thousand Beasts Sect stood there for a while, stunned, and did not pursue him.

At this time, after the anticipation came over, Ye Feng was almost disappearing in the distance.

"hateful!!"

The guardian of the Ten Thousand Beasts Sect immediately started to chase Ye Feng in the direction of Ye Feng, with anger and deep greed in his eyes. He said loudly: "Boy, you can't run away. In your hands." You actually have this kind of peerless weapon. After I cut your kid into thousands of pieces, this unparalleled ancient weapon will belong to me. This black sword can actually kill you across two realms of cultivation. The opponent is really unbelievable, this weapon is definitely like a god, it is destined to belong to me! Hahaha! You can't run away!"

At this moment, the old guardian of the Ten Thousand Beasts Sect not only had murderous intentions towards Ye Feng, but also had a deep greed.

At this moment, Ye Feng was indeed exhausted.

Because the sword just now produced huge lethality and even forced the old guardian of the Ten Thousand Beasts Sect back.

But Ye Feng's own strength had been drained away by the sword just now.

So at this time, Ye Feng was very weak, but while the old guardian of the Ten Thousand Beasts Sect was stunned, Ye Feng had already escaped.

But at this moment, Ye Feng could feel that the vaguely huge spiritual thought of the old guardian of the Ten Thousand Beasts Sect behind him was still locked on his body.

In other words, he is not out of danger yet, and has not escaped from the spiritual lock range of the guardian elder among the beasts.

"hateful....."

This made Ye Feng's eyes suddenly reveal a gloomy look.

But at this moment, Ye Feng has no choice but to continue running away and see if there is any special place around him that can allow him to hide temporarily for a while, completely within the range of the spiritual mind of the old guardian of the Ten Thousand Beasts Sect. disappear.

At this moment, as Ye Feng was flying, he suddenly saw densely packed figures appearing in a ruins not far away.

Their clothes all look very noble, and they are uniform costumes. They should come from a unified force.

Ye Fengzheng wanted to avoid it. After all, he was currently being hunted by the guardian elder of the Ten Thousand Beast Sect, and he did not want to get into other troubles.

But at this moment, a beautiful woman wearing snow-white clothes appeared in front of Ye Feng, exuding an extremely terrifying aura of cultivation.

He appeared directly in front of Ye Feng, and Ye Feng didn't even notice it, causing Ye Feng's eyes to look horrified.

\u003c

br\u003e This woman in snow-white clothes is definitely a very terrifying existence.

Ye Feng was about to say something, but this beautiful woman in snow-white clothes immediately recognized Ye Feng and said loudly: "Which sect are you a disciple of? The banner of our Tianhan Valley stands here. It means that this is an area that is temporarily controlled by our Tianhan Valley Palm. No one is allowed to enter this area. You are very brave!"

When Ye Feng heard this beautiful woman wearing snow-white clothes say this, he immediately looked around and saw several special blue flags planted on the ground.

Ye Feng was running away in a panic just now, so he didn't see these special banners erected around him. Unexpectedly, he accidentally ran into an area where a large force was temporarily stationed.

Ye Feng knew that this Tianhan Valley was probably a major power in the Shenshui Dynasty, and maybe one of the three top powers comparable to the Shenshui Dynasty and the Ten Thousand Beasts Sect.

They are here probably to find opportunities in the ancient ruins.

There should be something special in this place that allows a group of strong men from Tianhan Valley to temporarily station here.

They even set up banners to prevent outsiders from entering here.

At this moment, Ye Feng immediately said: "I am just a casual cultivator. I was negligent just now and entered this area accidentally. I have no ill intentions. I will leave here right now."

Hearing what Ye Feng said, this beautiful woman from Tianhan Valley didn't say anything more. She just nodded and told Ye Feng to leave quickly.

Uh-huh!

But suddenly at this moment, a disciple from Tianhan Valley flew not far away. He came in front of this beautiful woman, clasped his fists and said loudly: "Senior Sister Su, the entrance to the underground ruins of the ancient barbarian kingdom has appeared. A very ancient and terrifying formation was created. Several of our senior brothers and sisters in front were all involved in that ancient and terrifying formation. Several died on the spot, and many others were trapped by the formation. , I guess I can't hold it anymore, even the elders we brought here can't break this formation, what should we do?"

"What?"

Hearing this Tianhan Valley disciple say this, the beautiful woman dressed in snow-white clothes, that is, Senior Sister Su, immediately couldn't help but change her face slightly, and said with an ugly look in her eyes: "If we can't break through this ancient Not only can the formation not save people, but we can't even enter the underground ruins of the Barbarian Kingdom. Then all our

efforts during this period have been in vain. Unexpectedly, those elders were unable to crack that ancient and terrifying formation. Fa, what can we do?"

Ye Feng was about to leave, but when he heard the conversation between the two people, he suddenly turned around, with a plan in mind, and said quickly: "Although I am a casual cultivator, I am very proficient in formations. Maybe I can help you solve that troublesome ancient formation, rescue your companions, and even crack that formation and let you enter the underground ruins of that ancient barbarian kingdom, but I need you to promise me one thing, then Just help me resist a super strong person who is chasing me."
