Chapter 4331 The wild land of the northwest

At this time, after the middle-aged man in golden robe finished speaking, he led a large group of young geniuses present and flew quickly towards the imperial city of the Blood Demon Dynasty ahead.

Along the way, they met many guards of the Blood Demon Dynasty who were wearing black armor and were carefully guarded.

But under the leadership of the middle-aged man in golden robe, they passed through layers of strict security and finally arrived in the imperial city.

The moment everyone arrived in the imperial city, they immediately felt the splendor of the entire Blood Demon Dynasty.

Because in the imperial city of the Blood Demon Dynasty, there are all kinds of towering buildings standing everywhere.

Each of these buildings is very majestic. Standing in the imperial city, they are like giants towering under the sky. They give people a very depressing feeling, but they also make people feel the grandeur of the entire imperial city. and majestic.

At this time, the middle-aged man in golden robes led a group of young geniuses directly to the royal institution in the center of the imperial city.

This is the benefit of participating in the Great War of Ten Thousand Dynasties.

Because the Ten Thousand Dynasties War was personally organized by the royal family of the Blood Demon Dynasty. ??

Therefore, if you can stand out in the war of ten thousand dynasties, you can directly enter the royal institution.

If you are an ordinary casual cultivator who wants to join a behemoth like the Blood Demon Dynasty and enter such a big force, you will probably have to start from the lowest level.

For example, there are other relatively remote areas of the Blood Demon Dynasty far away from the imperial city, and some small cities.

But for the top geniuses like Ye Feng who participated in the Ten Thousand Dynasties War and were selected, the Blood Demon Dynasty naturally gave them very huge benefits, allowing them to directly enter the imperial city's royal institutions to work.

At this time, the middle-aged man in golden robes led Ye Feng and a group of young geniuses directly to the palace in the middle of the huge imperial city.

Inside the palace, they came directly to an ancient hall.

The middle-aged man in golden robe walked in with a group of young geniuses.

Inside the main hall, there were people from the Blood Demon Dynasty wearing different costumes.

It seems that the heads of various departments are here.

At this moment, a big man in black armor saw the middle-aged man in gold robe, and immediately laughed out loud and said: "Is this Wanchao War over again? I brought a lot of people, so Let me take a pick."

The middle-aged man in golden robe couldn't help but shook his head and smiled, and said loudly: "General Yuwen, these young people are young geniuses who have just been selected from the Great War of Ten Thousand Dynasties. They are all very young and are not suitable for the time being. Following you, they will enter the battlefield and enter the bloody battlefield. They need to hone themselves some more. These are the elites selected from more than 10,000 dynasties.

It would be a pity for such talented people to go to the battlefield casually. They would all have very high achievements in the future. "

Hearing what the middle-aged man in gold robe said, the man in black armor, known as General Yuwen, just laughed and said: "How could I be willing to let these carefully selected elites go to the

battlefield? I just want to choose Several of them will serve as my lieutenants and I will train them carefully so that they can lead my team in the future.”

Obviously, the meaning of General Yuwen, who was wearing black armor, was very clear, that is, he would definitely not let these elite talents directly go to the battlefield and become cannon fodder.

He selected these elite talents in order to focus on training them and become his capable generals.

Hearing what General Yuwen said at this moment, the middle-aged man in gold robes moved his eyes slightly, then nodded, looked at the dozens of young geniuses behind him, and said loudly: "This General Yuwen is our blood demon One of the most famous generals in the royal family, he specializes in guarding the wild northwest of our Blood Demon Dynasty. There are primitive jungles and deep swamps. Many ferocious ancient ferocious beasts and ferocious beasts live there. The conditions are very difficult, but General Yuwen also said that if any of you are willing to follow him, he will focus on training you and become his capable generals, and will not let you become soldiers or cannon fodder. After all, you are all carefully selected elites, worthy of our need for the dynasty. With good training and treatment, whoever among you is willing to follow General Yuwen can choose directly now, and you will also choose various other departments in the future."

Hearing what the middle-aged man in golden robe said, the many young geniuses present understood that they came here just to allow them to choose to enter every department of the Blood Demon Dynasty.

This General Yuwen is a general who specializes in guarding the wild land in the northwest of the Blood Demon Dynasty. Following him means bloodshed and a very harsh and harsh environment.

But he can instantly become a noble being at the level of deputy general, and he can also receive key training from General Yuwen.

In the future, he may be able to command a powerful team, which can be regarded as the real power department in the royal family of the Blood Demon Dynasty.

At this moment, after the middle-aged man in golden robe finished speaking, many young geniuses present had a trace of resistance in their eyes.

Because they came to the Blood Demon Dynasty mainly to enter the royal institution or to work for other top families in the imperial city.

If you come to the Blood Demon Dynasty, go directly to the wilderness of the northwest and go to the harsh and harsh environment.

Although it may improve your overall strength very quickly, it can greatly sharpen your

Strengthen your martial arts will.

But many of the young geniuses present were well-off talents in their respective dynasties. Naturally, it was impossible for them to want to go to such a difficult place. They felt that the Imperial City was the safest and most secure place.

So at this time, no young genius wanted to follow General Yuwen.

This made General Yuwen's face suddenly look a little shameless, and his face became a little embarrassed.

But suddenly at this moment, a voice sounded: "I am willing to follow General Yuwen and go to the wild land of the northwest."

The moment the words fell, everyone in the audience looked over.

I found it was a young man wearing a red robe.

Ye Feng's eyes were quite surprised at this moment.

Because the person who said this was actually Prince Brahma standing next to him. ??

Ye Feng knew that it was quite unexpected that Prince Brahma, a guy who loved delicious food, would be willing to go to such a harsh environment in the wilderness of the northwest.

At this time, Ye Feng couldn't help but whispered: "Brother Fan, there are many dangers in the wild northwest of the Blood Demon Dynasty. Are you sure you want to go there directly?"

Prince Brahma nodded slightly and couldn't help but whisper: "Brother Ye, I think I am still too pampered and lack the spirit of adventure. Unlike you who have such a firm and strong martial arts will, I think I need to hone my martial arts will as soon as possible, so I want to follow General Yuwen and go to the harsh environment of the wilderness in the northwest, which can greatly improve my willpower and hone myself, and also An important point is that Mr. Huo just said in my mind that although the wilderness in the northwest of the Blood Demon Dynasty is very dangerous, it also grows many natural materials that are not found in other places, such as some special mineral veins ore. , there are also some naturally raised natural materials and treasures, all growing in the primitive jungles and deep water swamps. When the time comes, I can find ways to pick and mine them to hone my alchemy skills. After all, Huo Lao's alchemy skills Technology requires a lot of natural resources for continuous training. In the imperial city, I don't have such a free environment and so many natural resources, so this is a matter of killing two birds with one stone."

Hearing what Prince Brahma said, Ye Feng immediately nodded, smiled, patted Prince Brahma's shoulder, and said, "Okay, I support you."

At this moment, the moment Prince Brahma finished speaking, General Yuwen, who was not far away, immediately burst out laughing and said, "Okay, what's your name?"

Prince Brahma immediately spoke up and said, "General, this junior is called Brahma."

\u003e

General Yuwen immediately laughed and patted Prince Brahma on the shoulder, and said loudly: "Okay, you have your own ideas and are willing to follow me to the wilderness of the northwest. I will definitely not treat you badly. I will definitely cultivate and train you to become the strongest talent under my command."

At this moment, after General Yuwen said this, several young geniuses suddenly stood up in the crowd, clasped their fists and said loudly: "The juniors are also willing to follow General Yuwen."

General Yuwen saw that under the leadership of Prince Brahma, several young geniuses had appeared and were willing to follow him to the wild land of the northwest. He immediately laughed very happily and said: "Okay, you will all become the focus of this general in the future. Don't worry, the ones you want to train. Follow me, and I will definitely lead you to the hot and spicy food."

This General Yuwen is obviously a very forthright person. After all, he has been fighting in the wild lands of the west all year round, so he naturally has a very bold and heroic character.

At this moment, General Yuwen was in a good mood, he just laughed and left with Prince Yu Fantian and several young geniuses.

Before leaving, Prince Brahma looked at Ye Feng and Jian Youlan, and said with great anticipation: "I hope we will meet again in the future. We have both grown up and our status has been improved. Moreover, we must be mutually beneficial to each other." Help, don't forget the promise the three of us made before."

Hearing what Prince Brahma said, Ye Feng and Jian Youlan both nodded.

Ye Feng smiled and said: "No matter what, safety comes first. In such a harsh environment, in addition to sharpening your martial arts will, you must also pay attention to your own safety. If there is anything that cannot be handled, please contact us at any time. I, I will go directly from the imperial city to the wilderness in the northwest to help you."

Hearing what Ye Feng said, Prince Brahma was a little moved.

Because Ye Feng actually traveled hundreds of millions of miles to the wild and wild land of the northwest to help him.

Prince Brahma immediately nodded and didn't say much. He just hugged Ye Feng's fists and then left directly with General Yuwen and several other young geniuses.

At this moment, after these people left, the middle-aged man in golden robe immediately looked at the remaining group of young geniuses with a smile, and then said loudly: "In this hall, there are dozens of departments in our royal family. , the heads of these dozens of departments are here, you can choose at will now, no matter which department you enter, you will work for our Blood Demon Dynasty, there is no problem. "

Hearing what the middle-aged man in gold robe said, the dozens of remaining young geniuses present nodded their heads, and then began to look around curiously to see which departments were worth joining.

Chapter 4332 The Land of Divine Ruins

At this time, the young geniuses dispersed and walked towards the dozens of departments in this ancient hall.

At this moment, Ye Feng looked at Jian Youlan beside him and said, "Let's take a look too."

Jian Youlan immediately nodded, and then asked curiously: "Ye Feng, I wonder which department you want to join?"

Ye Feng shook his head slightly at this moment and said aloud: "I'm not sure now, but the department I want to join must be able to provide me with a steady stream of training resources that can make me stronger quickly. That's the most important thing. I estimate that the first department most young geniuses want to join must be a relatively safe department. In this way, they can develop steadily, but I want to become stronger quickly. So the department you choose is probably a bit more dangerous."

When Jian Youlan heard what Ye Feng said, she couldn't help but said: "Then just now you should have followed that General Yuwen to the deserted land in the northwest with Prince Brahma. That kind of place is full of year-round battles and killings. It will definitely help you improve your cultivation."

When Ye Feng heard Jian Youlan say this, he couldn't help but shook his head and said loudly: "The borderland is not the place I want to choose." ??

At this moment, after Ye Feng finished speaking, he didn't explain much.

After all, Ye Feng knew very well in his heart that the main purpose of coming to the Blood Demon Dynasty was to control the entire Blood Demon Dynasty.

Because Ye Feng had conflicts with the strong men who came to the Origin World from the Blood Demon Dynasty before, and killed a strong snake man who wanted to do evil in the Origin World.

Therefore, in order to avoid this disaster, Ye Feng must either destroy the entire Blood Demon Dynasty or control the entire Blood Demon Dynasty to maximize profits.

So in the end Ye Feng chose to see if he could secretly plot to control the entire Blood Demon Dynasty.

Therefore, if Ye Feng goes to the borderland now, although he can improve his cultivation strength as much as possible, it will be too far from Ye Feng's real purpose.

Therefore, Ye Feng wanted to develop in the imperial city and slowly climb up from the lowest level of the royal organization until he could finally control the entire power structure of the Blood Demon Dynasty.

So Ye Feng naturally doesn't want to go now.

The border land, in that case, would be separated from the center of the power structure of the imperial city.

At this moment, she saw that Ye Feng had no intention of explaining, and Jian Youlan didn't ask any more questions, because she knew that Ye Feng must have his own plan.

At this moment, Jian Youlan suddenly saw a department of the royal family called "Picket Team".

This department is specially used to arrest some very vicious absconding suspects, as well as some wandering warriors who threaten the safety of the Blood Demon Dynasty, etc.

At this time, Jian Youlan was naturally very interested, and couldn't help but say: "I practice swordsmanship, and I need to join such a department to hone my killing ability. Facing such vicious suspects or The absconding rebel warrior can greatly improve my overall strength and judgment during the life and death battle."

Obviously, Jian Youlan joined this department mainly to continue to hone her kendo abilities.

Hearing what Jian Youlan said at this time, Ye Feng immediately nodded and said: "Then it seems that this department is quite suitable for you."

Jian Youlan immediately nodded, then looked at Ye Feng and said aloud: "Ye Feng, we have looked at more than a dozen departments, aren't there any that satisfy you? I think the treasure hunting department just now is quite suitable. Yours, directly based on the ancient treasure maps discovered by some important figures in the Blood Demon Dynasty royal family, to find some treasures in relatively remote places. I think this kind of adventure mission is very suitable for you, because you are a soul master with strong senses. It's suitable for exploring these ancient ruins and treasures."

Hearing what Jian Youlan said, Ye Feng nodded slightly and said aloud: "This treasure hunting department is indeed more suitable for my various abilities, but this kind of treasure hunting department generally needs to go to many places to explore various treasures. All kinds of ancient ruins are a waste of time. They take up too long time to go back and forth, so I have to see what other departments are more suitable for me next. This treasure hunting department can be used as a backup. If it really happens There is no other more suitable department, so I will join the treasure hunting department."

Hearing Ye Feng say this

Said, Jian Youlan nodded immediately, and then said loudly: "Then I will report directly to the picket team department first."

Ye Feng immediately smiled and nodded, then patted Jian Youlan's shoulder and said, "I hope you can quickly hone your abilities in this department."

Jian Youlan's beautiful eyes immediately showed determination, and she said loudly: "Okay, I will definitely work hard."

At this moment, after Jian Youlan finished speaking, he walked quickly towards the picket department.

At this time, Ye Feng continued to look at the remaining departments.

Suddenly, Ye Feng stopped in a department.

The head of this department is an old man wearing very shabby clothes. He looks very down and out, so no genius comes to this department.

But Ye Feng suddenly became very interested in this department.

This department is called the "Scavengers Department".

Scavengers, in layman's terms, are those who pick up rags.

So no genius wants to come here.

The head of this department, this old man, also wore shabby clothes and looked very low-end.

However, Ye Feng's eyes lit up and he walked directly in front of the scavenger department.

There is a sign around the scavenger department that states the specific responsibilities of this department, which allows many young geniuses to clearly understand what this department does in an instant.

At this moment, the content selected on the sign surrounding the scavenger department is that joining the scavenger department requires entering the unattended area of the Northern Territory, the land of the gods, and looking for various good things left over from ancient civilizations.

For example, broken weapons, incomplete ancient techniques, some strange things from ancient cultivation civilizations, and even the corpses of ancient creatures can be brought back to the royal family of the Blood Demon Dynasty for special study within the royal family. To study the institutions of ancient spiritual civilization.

The higher-grade the items you pick up and the greater their value, you will be rewarded with huge training resources from the royal family of the Blood Demon Dynasty.

However, there may also be dangers.

Because you must know that the land of Shenxu is the most special place in the Northern Territory.

The place itself may have mysterious dangers.

Moreover, among the top powers in the Northern Territory, there is not only one Blood Demon Dynasty.

Among the three top powers, there are also two other top powers, namely the Demonic Sect and the Ten Thousand Dragons Divine Sect.

Maybe in the land of Shenxu, when you encounter two other powerful men from the top powers, there will be a life-and-death conflict in order to compete for the treasure.

In any case, this department made Ye Feng very interested.

This is somewhat similar to the treasure hunt department.

However, the treasure hunting department is usually spread throughout the entire Ten Thousand Demons interface. It is a waste of time and far away to find various ancient ruins.

But this scavenger department specializes in finding things left over from various ancient cultivation civilizations in a fixed area, the land of the gods.

Even if the thing found has no practical use and is just a damaged weapon or broken bones, as long as it has research value and is brought back to the Blood Demon Dynasty, the institution in the royal family of the Blood Demon Dynasty that specializes in this research can analyze it. Important things can earn scavengers huge rewards.

Moreover, once some particularly advanced ancient inheritance can be discovered from the land of the gods and brought back to the Blood Demon Dynasty, so that more practitioners of the Blood Demon Dynasty can learn it, it will be equivalent to creating a cultivation sect, which will then allow This scavenger became the master figure who founded the practice sect, enjoyed great respect and prestige, and became a man of the hour in the Blood Demon Dynasty.

So at this time, Ye Feng was naturally very interested in this and said directly: "Senior, I want to join the scavenger department."

After Ye Feng finished speaking, many of the other young geniuses present had expressions of astonishment on their faces, as if they did not expect that Ye Feng would join such a rag-picking department.

Because there is no way to rise at all.

And they know that Ye Feng is the most amazing and talented top genius in this war of ten thousand dynasties. The fact that he would choose to join this scavenger department really surprised everyone.

Chapter 4333 Deputy Sect Leader

At this time, it was obvious that no one in the room would understand that Ye Feng would choose to join such an inferior scavenger department.

At this moment, even Jian Youlan, who was standing not far away and had just joined the picket team, had a trace of surprise in his eyes.

It seems that he did not expect that Ye Feng would choose such a department.

But thinking of Ye Feng's superb wisdom along the way, Jian Youlan's eyes suddenly showed a hint of thinking.

Since Ye Feng made this choice, there must be a reason for his choice, but other ordinary people don't understand Ye Feng.

At this moment, the old man from the scavenger department standing in front of Ye Feng immediately showed a look of surprise in his eyes, stared at Ye Feng, and said loudly: "I can sense that you are among this group of geniuses. They are the strongest among them, so why choose our scavenger department?"

Ye Feng smiled slightly and said aloud: "Because I want to enter the land of Shenxu and find the inheritance of ancient civilization. Then I can become a grandmaster in the Blood Demon Dynasty. As long as I learn the inheritance I found All practitioners will call me "teacher" when they see me.

From the introduction on the previous sign, Ye Feng already understood the rules of the Blood Demon Dynasty's scavenger department.

That is, if anyone can find the inheritance of a powerful ancient civilization in the land of the gods, it means that this person is the founder of this inheritance.

In the Blood Demon Dynasty, as long as practitioners learn this inheritance, they must respect each other as their teachers.

This rule is very good in Ye Feng's opinion, because it can enhance his prestige.

And Ye Feng's purpose is to climb up step by step and control the entire Blood Demon Dynasty in the future.

The higher the prestige, the better it will be for you to control the entire Blood Demon Dynasty in the future.

So this is also the inner reason why Ye Feng entered the scavenger department.

At this time, after Ye Feng finished speaking, the head of the scavenger department standing in front of him, this old man who seemed a little downcast, immediately smiled and said loudly: "The ideal is good, but the reality may not be that good." Okay, it's not that easy to find a peerless inheritance that everyone is willing to practice. Ordinary inheritances are hard to find, so in our scavenger department, I am the only one left alone now. If you join, that's it. The second person, it can be seen from this that our scavenger department rarely finds particularly powerful inheritance from the land of Shenxu, even

Even finding some precious things is very difficult, because after so many years of exploration and mining in the Shenxu Land, all the basic good things have been looted, and there are even better things in the deepest parts of the Shenxu Land. This place is a forbidden place, and even powerful people with advanced cultivation levels dare not enter it rashly. "

Hearing what this down-and-out old man said, Ye Feng was immediately stunned. It seemed that he did not expect that this old man was the only one left in the official establishment department of the royal family.

This made Ye Feng couldn't help but respect the old man.

It seems that this old man is very conscientious and responsible.

Even if I become so depressed, I still have to stick to the scavenger department so that this department will not be directly cancelled.

At this moment, Ye Feng immediately clasped his fists and said loudly: "Senior is a very responsible person, and I admire him."

Seeing what Ye Feng said, the only old man in the scavenger department immediately smiled and said: "You are a very good young man. Although I don't know what your real purpose is in joining

the scavenger department, but you If you are willing to join our department, then I am very welcome. ”

At this moment, the old man from the scavenger department said this, and Ye Feng's eyes suddenly flashed slightly.

This old man is not simple.

He knew that the real reason why he joined the scavenger department was not just to find a peerless inheritance and become a master as he said verbally.

But at this time, the old man didn't ask any more questions, which made Ye Feng feel relieved.

At this moment, this old man who looked a little downcast immediately said: "My name is Murong Changming. Young man, you can just call me Brother Murong from now on."

"Murong...brother?"

Hearing what the down-and-out old man in front of him said, Ye Feng couldn't help but show a look of astonishment in his eyes immediately, and couldn't help but say aloud: "Senior is so much older than me, he is almost the age of my grandfather." Now, it seems a little inappropriate for me to call my senior brother, right?"

Hearing what Ye Feng said, Murong Changming immediately smiled and took the photo

He patted Ye Feng on the shoulder and said loudly: "In our scavenger department, now that you have joined, there are only two of us. I am the head of the scavenger department, so you will definitely be the deputy head of the scavenger department. , So, it's okay for you to call me brother. It's totally fine. We are the boss and second child of the scavenger department. Of course, our department only has the boss and second child. "

Hearing what Murong Changming said, Ye Feng's eyes immediately twitched slightly.

This old man is quite casual.

It seems that the scavenger department is really empty.

As soon as he entered, he was directly appointed as the deputy sect leader by Murong Changming, which really surprised Ye Feng.

Seemingly seeing the awkward look in Ye Feng's eyes, Murong Changming immediately said solemnly: "I just saw your identity token. Your name is Ye Feng, right? Boy Ye Feng, I solemnly tell you, I personally made you the deputy sect leader, this is not a joke. If I make you the deputy sect leader now, it means that your current status is at the same level as the deputy sect leaders of other departments. As long as other departments are Members under the deputy sect leader must bow respectfully when they see you. After all, although there are only two of us in the scavenger department, it is still one of the official establishment departments of the royal family, and we still have the status and treatment we deserve. "

Hearing what Murong Changming said, Ye Feng's eyes immediately lit up.

To put it this way, I was directly promoted and made a fortune in this instant. I was directly promoted to the level of deputy sect leader of a department. It was like I had taken decades fewer detours than others.

At this time, Ye Feng suddenly felt that joining the scavenger department was really a good choice.

At this moment, after seeing the conversation between Ye Feng and Murong Changming, a group of other young geniuses suddenly showed deep astonishment on their faces.

It seemed that Ye Feng had never expected that Ye Feng would directly become the deputy head of the scavenger department.

At this time, as if he was afraid that Ye Feng would not believe it, Murong Changming suddenly dragged Ye Feng directly to the middle area of the hall.

Then looking at the heads of dozens of other departments, Murong Changming said loudly: "These heads are not very important people in their departments, so they are assigned here to be responsible for some simple registrations. After all, several other heads are here." Ten departments are staff

There are many, probably thousands of members, but they still have to be respectful when they see us. "

After finishing speaking, Murong Changming looked directly at the heads of dozens of other departments who were registering, and immediately said: "You juniors, hurry up and come to us. You have seen the new deputy sect leader of our scavenger department. Sir, Ye Feng."

Hearing what Murong Changming said, Ye Feng immediately twitched the corner of his mouth, as if he didn't expect that the old man would do such a high-profile thing.

And the next moment, when Murong Changming finished speaking, the heads of dozens of other departments seemed not to dare to disobey Murong Changming, a big figure at the level of the sect leader.

Dozens of people in charge came directly in front of Ye Feng. They all clasped their fists respectfully and said, "See the deputy head of the scavenger department, Mr. Ye Feng."

Regardless of whether the heads of these departments are sincere or fake, they must follow the proper etiquette, otherwise they will violate the rules of the entire Blood Demon Dynasty and need to be punished.

Seeing the scene on the field at this moment, the other young geniuses suddenly widened their eyes, as if they had never expected that such a situation would occur.

At this time, some young geniuses couldn't help but secretly said: "This Ye Feng is indeed the strongest young genius among our group. Just now I laughed at him for choosing such a declining Scavenger Department. Department, I didn't expect that he was going to be the deputy sect leader, and his status was suddenly promoted to the deputy sect leader level, which is really enviable!"

Obviously, at this moment, in the eyes of many young geniuses, Ye Feng has become a being with superb intelligence, able to discover information that others cannot.

At this moment, in the entire palace, many young geniuses looked at Ye Feng, no longer with suspicion and ridicule, but with deep envy and jealousy.

After all, Ye Feng suddenly became a department-level deputy sect leader, and he definitely had fewer detours than them by decades.

And even if they struggle for decades, they probably won't be able to become deputy sect leaders of a department.

"This Ye Feng is so powerful!"

"Absolutely an idol!"

All the young geniuses present had deep admiration in their eyes at this time.

Chapter 4334 A good start

At this time, Ye Feng also showed a hint of surprise in his eyes.

After all, the reason why the heads of these dozens of departments are here is that their positions in their respective departments should not be low.

Unexpectedly, at this time, he actually saluted himself respectfully.

It seems that his identity as the deputy sect leader is still very true and not just a show.

At this moment, Ye Feng was a bit blind and met a dead mouse.

Joining this scavenger department has suddenly improved his status so much.

With this high-level status, it will be a lot more convenient in the future among a large and hierarchical force like the Blood Demon Dynasty.

At this time, the downcast old man beside him, Murong Changming, immediately grinned and said, "How are you, Mr. Ye Feng? It's not bad."

Ye Feng immediately nodded, looked at the head of the scavenger department in front of him, and said loudly: "Brother Murong, let's go back to the headquarters of our scavenger department now."

Murong Changming immediately nodded and said with a smile: "Okay, I just want to take you to see the headquarters of our waste picker department. You will live there from now on."

After saying that, Murong Changming grabbed Ye Feng's shoulders and flew out of the hall in an instant.

At this moment, Ye Feng could feel that Murong Changming was not as depressed as he looked at all.

Although this Murong Changming looks extremely old, the moment he uses his skills, he gives people the feeling of a vast ocean boiling.

Ye Feng immediately understood that this Murong Changming was definitely not as simple as he seemed. He was an extremely terrifying guy.

But Ye Feng also thought it was normal.

After all, this Murong Changming is the only one in the scavenger department and a sect leader level figure.

Naturally, it is very powerful.

At this time, Murong Changming looked at Ye Feng beside him and said loudly: "Boy Ye Feng, you have now become the deputy sect leader of our scavenger department, so you must improve yourself in the future. Otherwise, if someone provokes our department, you must have the strength to knock them down and not weaken the prestige of our scavenger department. "

Hearing what Murong Changming said, Ye Feng suddenly showed a look of astonishment in his eyes, and couldn't help but said: "In the Blood Demon Dynasty, are there also overt and covert conflicts among the major departments?"

Murong Changming glanced at Ye Feng and said: "Nonsense, of course. Blood Demon Dynasty is such a huge thousand-year-old dynasty. It has naturally spawned various major departments, various families, and various interest groups, which are intertwined. , so the open and secret fighting in the entire dynasty is very fierce, and you will know next. "

After saying that, Murong Changming took Ye Feng and flew to somewhere in the palace.

Since all the organizations that Ye Feng and others joined were formal organizations of the royal family, the headquarters of these organizations were all in the palace.

At this time, when Murong Changming brought Ye Feng to the headquarters of the scavenger department, Ye Feng was almost blinded immediately.

I saw the headquarters of the scavengers, built on a mountain that was not too big or too small.

On the top of the mountain, a pure golden hall was built out of pure gold.

The surface of the golden hall was also inlaid with many gems of different colors and diamonds, which sparkled under the sun, almost blinding Ye Feng.

Ye Feng looked at the extremely luxurious person in front of him.

He was immediately stunned and couldn't help but said: "Brother Murong, are our scavenger departments really just picking up rags? Why is this palace at the headquarters base made of pure gold and inlaid with so many Jewelry and diamonds, this is so luxurious."

Murong Changming smiled at this time, patted Ye Feng's shoulder, and said loudly: "These things, I did not consume the royal resources of our dynasty, they are all things I looted from the land of Shenxu. These gold, jade and diamonds do not have much energy, so they are not of great value to our spiritual world. I can only use these flashy things to waste and build a luxurious palace as our How about the headquarters palace of the Scavenger Department? I think my taste is pretty good."

At this moment, after Murong Changming finished speaking, he immediately pointed to a small wooden house next to the golden jewelry hall and said loudly: "Ye Feng, look, that small wooden house was the headquarters of our scavenger department before. It's really It is too shabby, so when the head of the scavenger department comes to my generation, I naturally want to carry it forward, and the first step to carry it forward is naturally to make the headquarters base more luxurious, otherwise people will really think that we are The department is for picking up rags. In fact, our scavenger department made the greatest contribution to the Blood Demon Dynasty. At its peak, our scavenger department had tens of thousands of people searching for all kinds of wealth in the land of the gods. Various high-level inheritances and broken treasure weapons were brought back and studied by the research institutions in the dynasty. Many powerful inheritances were analyzed and new powerful weapons were forged, which laid the foundation for the expansion of our territory in the Blood Demon Dynasty. Thanks to all the hard work, although the scavenger department has declined and I am the only one left, with the addition of Ye Feng, I think this is a good start. Our scavenger department will definitely become stronger and stronger in the future. "

\u003c

br\u003e Hearing what Murong Changming said, Ye Feng immediately showed a trace of surprise in his eyes.

Unexpectedly, the scavenger department was so prosperous that year, with tens of thousands of scavengers searching for all kinds of good things in the land of the gods.

I didn't expect it to be like this now. It probably has something to do with the fact that most of the good things have been looted in the outer areas of the Shenxu Land.

After all, even some powerful powerful men dare not enter the deep areas of the Land of Gods.

And all the good things in the periphery have been looted, which naturally makes ordinary scavengers worthless.

At this time, Ye Feng suddenly asked: "Brother Murong, let's go to the Shenxu Land to search for things next. Do we want to enter the deep area?"

Murong Changming shook his head and said: "With my current strength, I can enter the deep area and search briefly, but you definitely can't. Your kid's current cultivation level is still too low, so I can only search in the outer area first." Search, it's okay. Ye Feng, don't worry. You have just joined our scavenger department. There is no task target yet, and there is no stipulation on how much things must be collected and contributed to the royal family. You have a night's rest today, and I will take you directly tomorrow. Go to the Shenxu Land and take a look first to let you get used to the environment."

Hearing what Murong Changming said, Ye Feng immediately nodded.

Ye Feng is still looking forward to the mysterious Shenxu place.

After all, although there are no good things in the outer areas of Shenxu Land, it may be that others can't find good things.

Ye Feng's perception is powerful, and he also has huge soul power. He might be able to find good things in the outer areas that others can't find.

Chapter 4335 Hidden Corner

Early the next morning, Murong Changming came directly to Ye Feng's residence, and then pulled Ye Feng up from his sleep.

Ye Feng immediately said: "What happened?"

Murong Changming grinned and said aloud: "As promised, I will take you to the Shenxu Land today to have a look. First, let you feel the environment where you will work in the future."

After finishing speaking, before Ye Feng woke up, Murong Changming directly grabbed Ye Feng's shoulders and moved quickly. He soon left the entire territory of the Blood Demon Dynasty and came to an area estimated to be ten miles away from the border of the Blood Demon Dynasty. Tens of thousands of kilometers away.

At this moment, the two of them had arrived in the outer area of a ruined land.

Several mountains appeared ahead.

On the other side of the mountain, there seemed to be a very ancient and sinister aura.

At this time, Murong Changming immediately said aloud: "Behind these mountains is the entrance to the Land of Shenxu. You must be careful and cautious next time, because the Land of Shenxu is not only very special. It is very dangerous, and you may encounter some strong men from other major forces looking for various treasures here, and there are also some extremely vicious wandering strong men traveling through this land of gods."

Hearing what Murong Changming said, Ye Feng's eyes suddenly revealed a hint of solemnity, and he said, "Okay, Brother Murong, I understand."

Murong Changming nodded and said aloud: "This is your first time coming to this land of gods, so you have to follow me. I will first take you to familiarize yourself with the peripheral areas of the land of gods. As for You are not allowed to enter the deep area of the Land of Gods. When the time comes, I will personally enter the deep area to see if I can find any good things to bring back to the royal family. After all, our scavenger department has not contributed anything to the royal family for a long time. The upper echelons of the royal family have a very bad attitude towards our

scavenger department. They seem to want to abolish our department, which has existed in name only, but I will never allow it.

Maybe something like this will happen. When the time comes, I will personally enter the deep area of the land of Shenxu to see if I can find any precious good things. As for Ye Feng, you kid will have a good stroll in the outer area and wait for me. Just come out. "

Hearing what Murong Changming said, Ye Feng immediately nodded and said, "Okay."

Uh-huh!

At this moment, Murong Changming did not hesitate at all, and directly took Ye Feng to fly quickly towards the mountains in front.

After they passed through several mountains in front, Ye Feng immediately saw the front, an endless ruins appeared, with broken weapon fragments everywhere, ancient buildings collapsed, and some had already Rotting corpses.

Ye Feng even saw many warriors with low cultivation levels, looking for something everywhere at the edge of this sacred ruins.

Murong Changming immediately spoke up and said: "These are ordinary warriors who dare not even enter the real inner areas of the Land of Gods. They can only make a living on the fringes to see if they can find some resources. "

Ye Feng nodded and did not pay attention to these ordinary warriors. He and Murong Changming flew quickly towards the inner area of the land of gods.

On the way, Murong Changming explained to Ye Feng that the entire Shenxu land was very vast, and he didn't know how it came into being.

Some people say that these are the ruins of ancient wars left behind after many wars between gods in the ancient age of gods.

Others say that many powerful cultivating civilizations were born here, but they eventually encountered terrible disasters, which turned them into ruins.

Anyway, the entire land of Shenxu,

It is very mysterious and unpredictable, and also very vast and grand. No one has ever been able to explore all the scope of the entire Shenxu Land.

Just when the two of them entered the land of Shenxu, Ye Feng immediately sensed that the entire land of Shenxu contained a very strong aura of death.

This made Ye Feng's eyes suddenly reveal a trace of surprise.

It seems that this land of divine ruins must have gone through very brutal killings and battles to form such a ruin.

Otherwise, it would be impossible to have such a strong aura of death and such a sky-high resentment.

Ye Feng immediately couldn't help but said: "Staying in this kind of sacred ruins for a long time will probably affect your mind and will, and even make people go crazy, because it contains too much death energy and resentment."

Hearing what Ye Feng said, Murong Changming, who was standing next to Ye Feng, immediately showed a look of surprise in his eyes, and then said with some surprise: "It's amazing, I can sense this. In fact, it is This is the case, so you can't stay too long in the land of the gods."

After Murong Changming finished speaking, he led Ye Feng around the entire outer area.

Ye Feng saw many collapsed buildings, as well as some ancient formations that were still shining with light.

There will even be some slowly moving skeleton zombies crawling out from the ground.

Anyway, the entire land of Shenxu gives people the feeling of coming to the legendary world of the dead, which represents the decay and death of everything.

At this moment, Murong Changming said aloud: "Ye Feng, you can walk around the outskirts of this sacred ruins alone to see if you can find any good things. But for a newcomer like you, It's not that important to find good things. You need to familiarize yourself with the environment first. I'm going to be alone now.

Go to the deep area of this sacred ruins place. "

At this moment, Murong Changming said, pointing to an ancient stone tablet in front of him, and said loudly: "The innermost part of this stone tablet is the deep area belonging to the land of the gods. It is very dangerous. You must not cross this place." A stone monument."

Ye Feng nodded and said with a smile: "Okay, then I will walk around the outer area, maybe I can encounter something good. Brother Murong, you have entered the deep area of the Shenxu Land. , we must pay attention to safety, after all, we are the only two people left in our scavenger department. If you die, what will I do? "

Hearing what Ye Feng said, Murong Changming immediately grinned and couldn't help but said, "Don't curse me, okay?"

After saying that, Murong Changming jumped up and left the place.

Ye Feng smiled and started wandering around.

In fact, Ye Feng wasn't too worried about Murong Changming's safety.

Because Ye Feng could sense that Murong Changming's cultivation and strength were absolutely unfathomable and terrifying, and he would not fall so easily.

At this moment, Ye Feng waited for Murong Changming to leave. Without any hesitation, he directly released his soul power and spread it towards the surroundings.

You know, Ye Feng's soul power level has now increased to a full 65 million levels, so it is still very huge.

After Ye Feng diffused his soul power, he immediately started wandering around the outer areas of this sacred ruins to see if he could find anything good.

It is said that all the good things in the peripheral areas of the Land of Gods have been looted.

But Ye Feng feels that there may be many good things hidden in secret corners that are not known by ordinary people. Only soul masters like himself can sense them.

Chapter 4336 Black Lotus

But just when Ye Feng was about to explore the surroundings, Murong Changming, who was supposed to have gone away, suddenly turned back.

Uh-huh!

Murong Changming's old figure was seen in front of Ye Feng in an instant, and he said loudly: "By the way, I forgot one thing just now. We see that the scavenger department has a special detector that can detect this The grades of various materials found in the land of the gods."

At this moment, after Murong Changming finished speaking, he handed Ye Feng a palm-sized detector that looked like it was made of metal directly from the storage ring.

Murong Changming said aloud: "As long as you bring the material you are looking for close to this detector, the detector will emit light. If a light is emitted, it is a first-class material, the lowest level and of little value. , you can throw it away directly. If there are two kinds of rays of light, it is a second-level material. It is not bad and has some value. You can keep it. The highest one is nine rays of light, which represents a ninth-level material. A ninth-level material is definitely a The sacred materials left by ancient saints are very precious. Even broken materials can be exchanged for a lot of resource rewards when brought back to the royal family of the Blood Demon Dynasty. However, the more advanced the materials, the harder it is to find them. , after all, there are basically no very high-end materials in the peripheral areas of this land of gods. However, as long as you find materials of level two or above, you can put them in your own storage ring and return to them when the time comes. You can exchange them for cultivation resources in the palace."

Hearing what Murong Changming said, Ye Feng immediately nodded and said, "Okay, I understand."

Murong Changming also nodded at this time, then jumped up, flew quickly towards the deep area of the Shenxu Land, and disappeared in the blink of an eye.

At this time, Ye Feng was holding the detector in his hand, with a hint of surprise in his eyes.

I didn't expect that the Blood Demon Dynasty's craftsmanship and technology were quite advanced, and they could actually create something like this that could instantly detect the grade of ancient materials.

Detector.

It is worthy of being one of the three top forces in the Northern Territory of the Ten Thousand Demons Interface.

At this moment, Ye Feng held the detector in his hand and did not directly check the surroundings one by one.

In that case, the efficiency is really low.

Ye Feng first prepared to use his soul power to detect unusual weapon fluctuations or energy fluctuations, and then used this detector to detect the specific level of materials.

Buzz!

At this moment, Ye Feng no longer hesitated, and immediately exuded his huge soul power, exploring the surroundings.

The area covered by the soul power that Ye Feng can now emit is about a few kilometers in radius, so it is still a very vast area.

Ye Feng was wandering around quickly at this time.

Just when Ye Feng had been wandering for a few minutes, Ye Feng's soul power immediately sensed a very extraordinary energy fluctuation.

Ye Feng's eyes lit up and he immediately flew in that direction. In a blink of an eye, he arrived at the place where the energy fluctuations were emitted.

That energy wave was buried in the ruins not far away, and ordinary people couldn't find it.

At this moment, Ye Feng's eyes were full of expectation, and he directly took out his giant-toothed sword, and then began to dig the ground, digging out the ruins of the entire ground.

In the end, Ye Feng actually dug out a palm-sized broken jade stone from under the ruins.

This broken jade stone must have been a fragment of something very precious back then.

Otherwise, it would be impossible to spread

Ye Feng felt very extraordinary energy fluctuations.

Ye Feng didn't hesitate at this time. He took out the detector that Murong Changming had given him before and approached the broken jade.

"Buzz!" "Buzz!" "Buzz!"

Almost at this moment, three rays of light suddenly lit up on the detector.

It means that this broken jade is actually a third-level material.

"It's actually a third-level material? Not bad, Brother Murong said before that as long as it is a second-level or above material, it is considered valuable. It can be stored in your own storage ring, and then it can be handed over directly to the royal family. A department that researches special materials in exchange for training resources."

At this moment, Ye Feng was so happy that he put the broken jade into his storage ring.

Although I don't know if this broken jade is a fragment of something from ancient times.

Moreover, this broken jade stone has no effect on Ye Feng at all, because it has no actual effect at all.

But for the research institutions in the Blood Demon Dynasty's palace that specialize in special materials from ancient times, this kind of thing is still very valuable. It allows them to analyze the specific refining method of this material, and then it can provide information for the entire Blood Demon Dynasty. Warriors build stronger armor, more powerful weapons, and more.

At this moment, Ye Feng directly put the broken jade into his storage ring.

Then, Ye Feng continued to emit his soul power and explored the surroundings.

After Ye Feng wandered for a while, he felt a very extraordinary energy fluctuation, which was radiating from a certain direction.

After Ye Feng sensed all this, he immediately

There was a look of joy in his eyes.

It seems that my guess is right. It is not that all the good things are gone in the peripheral area of this sacred ruins place, but there are many good things hidden under the ruins, or hidden in some unknown corner. An ordinary search The searcher couldn't find it at all.

Only a soul master like himself, with strong perception and the ability to use soul searching, can find such hidden good things.

So at this moment, Ye Feng immediately flew towards the area he had just sensed without any hesitation.

Soon, Ye Feng came to the place where the second energy wave that he noticed was emitted.

When Ye Feng arrived here, a look of surprise suddenly appeared in his eyes.

Because this is not a place of ruins, but there are several ancient buildings that are quite well preserved.

These ancient buildings are very strange castle-type buildings.

Ye Feng walked directly into a certain building and immediately saw the entire castle being empty.

But just when Ye Feng was ready to explore the corner where the energy fluctuation was hidden.

From the other gate of the castle, a tall and beautiful woman walked in and said calmly: "We are very destined to come here at the same time, but I advise you not to waste your efforts looking for this ancient castle. The good things have been looted a long time ago. If you want to find really good things, you can join our Black Lotus Team. My name is Black Lotus and I am the captain of the Black Lotus Team."

At this moment, after this tall and beautiful woman in black finished speaking, several figures followed behind her, including men and women, all obviously members of the Black Lotus Team.

Chapter 4337 Jade Beads

At this time, Ye Feng saw this tall and beautiful woman wearing black clothes, who seemed to be called Heilian.

Ye Feng sensed the cultivation aura on the opponent's body, and it seemed to be very powerful, one or two realms higher than himself.

This made Ye Feng's eyes suddenly reveal a hint of surprise.

Sure enough, wherever a large force like the Blood Demon Dynasty is located, the warriors are very powerful.

But it's normal to think about it. These practitioners can be very powerful in the land of Shenxu.

Moreover, Ye Feng could sense that the members of the other teams following this Black Lotus were not weak in cultivation.

Ye Feng immediately understood at this moment that his current cultivation level was indeed not that powerful in the Half-Blood Demon Dynasty.

In the entire more advanced training area where the Blood Demon Dynasty is located, it is not that powerful.

No wonder Murong Changming said that his current cultivation level was too weak and he needed to improve his cultivation level before he could survive in the Blood Demon Dynasty.

At this moment, Ye Feng did not say that he was from the Blood Demon Dynasty, nor did he say that he was a deputy sect leader in a department of the Blood Demon Dynasty.

After all, Ye Feng's current cultivation strength is still relatively low. Even if he reveals his identity, it will not be of much use in a chaotic place like the Land of Gods.

In the chaotic area outside, strength is still king.

So at this time, Ye Feng just smiled slightly and said: "Thank you Miss Black Lotus for your kindness, but I came to the land of Shenxu this time just to explore some things alone, and I don't want to join any team."

Hearing what Ye Feng said, Hei Lian didn't seem to care. After all, she and Ye Feng didn't know each other. She just thought Ye Feng looked quite handsome, so she wanted to invite Ye Feng to join their team.

Black Lotus glanced at Ye Feng with cold eyes at this moment, and then said loudly: "Since you don't want to join our Black Lotus team, then let's form a good relationship. If we encounter any conflicts in the future, I hope we won't fight."

After saying that, Heilian led his team members directly and left this ancient castle.

Obviously, Heilian felt that there was nothing good here at all and it had been completely looted.

But Ye Feng saw this time

After the other party left, he immediately started to use his soul power, and then carefully explored the energy fluctuations he had sensed somewhere in this ancient castle.

At this time, Ye Feng determined the point where the energy fluctuations were emanating, and then took out the giant-toothed sword and continued digging.

Rumble...

As the entire ground was completely dug up, Ye Feng immediately began to dig three feet into the ground.

when! !

Suddenly, the giant-toothed sword seemed to hit something very solid, and it made a crisp sound of metal collision.

"Um?"

Ye Feng immediately showed a look of surprise in his eyes, quickly put the giant-toothed sword back on his back, and then immediately started to use his hands to peel away the surrounding soil.

Next, the solid object that the giant-toothed sword touched suddenly appeared in front of Ye Feng.

It turned out to be an iron box.

It looks very ordinary.

But it exudes an inexplicable fluctuation.

Ye Feng didn't hesitate at this moment. He took out the iron box and opened it.

This seemingly ordinary iron box actually contained an emerald bead that exuded emerald light.

Ye Feng immediately showed a look of surprise in his eyes.

This jade bead contains a very vast energy.

The weak energy fluctuations that Ye Feng sensed just now were emanated from the jade beads inside the iron box.

However, this iron box containing jade beads seems to have the effect of isolating energy.

Therefore, the energy Ye Feng sensed was very weak.

And because of this, ordinary people have no way of finding this iron box.

If Ye Feng hadn't cultivated his soul power, which made Ye Feng's perception very powerful, Ye Feng would not have been able to sense such very weak fluctuations.

At this moment, when Ye Feng dug up the iron box and opened the entire iron box, the energy emitted by the jade beads completely exploded, making Ye Feng very surprised.

At this moment, Ye Feng immediately understood that this jade bead was absolutely extraordinary. The fact that it was secretly buried under the ground of this ancient castle in an iron box that isolated energy fluctuations was enough to prove its preciousness.

If it weren't for his strong perception, there would be no way to sense such weak energy fluctuations from beneath the ground and dig them out.

At this moment, Emperor Chu in his mind suddenly spoke: "Ye Feng, this emerald bead seems to be the inner elixir of an ancient beast, the 'Emerald Jade Dragon'."

Hearing what Emperor Chu said in his mind, Ye Feng suddenly had a look of surprise in his eyes.

Unexpectedly, this jade bead turned out to be the inner elixir of an ancient rare beast. No wonder it contained such majestic energy fluctuations.

Gulu!

Ye Feng didn't hesitate at this moment, he just opened his mouth and swallowed the jade bead.

Because of this kind of good thing, Ye Feng was not willing to contribute it to the royal family who needed it.

What Ye Feng is willing to contribute to the royal family is of no special use to him.

For example, some broken magic weapon fragments, and some special materials that can be used to create powerful weapons.

These things are of no practical use to Ye Feng, but they are of great research use to the research institutions in the royal family.

Ye Feng is willing to hand over these things to the royal family in exchange for training resources and improve his status.

But when Ye Feng encountered something good like jade beads that could directly have an effect on him, Ye Feng would not hand it over to the royal family, but would use it himself.

So at this moment, Ye Feng swallowed the jade bead without any hesitation.

Boom!

At this moment, a huge amount of energy exploded in Ye Feng's entire body.

Ye Feng's skill suddenly grew rapidly at this moment.

Emperor Chu was right, this jade bead was not a magic weapon, but the inner elixir of a special ancient beast.

It contains the demonic power of a very majestic ancient beast.

So at this moment, Ye Feng's skill immediately began to increase rapidly, and his cultivation aura also began to rise steadily.

"boom!"

Yuanding Realm Eighth Heaven!

"boom!"

The ninth level of Yuanding Realm! !

At this moment, Ye Feng's cultivation actually broke through two heavens on the spot. He suddenly broke through from the seventh heaven of Yuanding Realm to the ninth heaven of Yuanding Realm.

At this time, Ye Feng opened his eyes, his eyes full of surprise.

Unexpectedly, the emerald bead he accidentally discovered contained such majestic monster energy that his cultivation reached two levels in a row.

This is very rare.

Because you must know that Ye Feng's current cultivation level requires a huge accumulation of energy to break through.

But this small jade bead made Ye Feng's cultivation reach two levels in a row, which was already very powerful. It was considered a pretty good chance.

Uh-huh!

At this time, Ye Feng stood up directly, becoming more and more interested in exploring the entire Shenxu land.

If you find something good that has no actual effect on you, you can keep it and contribute it to the royal family, in exchange for cultivation resources from the royal family.

If you find good things that have a practical effect on you, such as the inner elixir that can directly swallow ancient monsters that increase your skill, you can directly swallow them and improve your own cultivation.

At this time, Ye Feng stood up, ready to continue to radiate his soul power and explore other areas for good things hidden in unknown corners or underground.

But just at the moment when Ye Feng released his soul power, Ye Feng suddenly sensed a violent smell of fighting and fighting coming from a certain direction not far away.

Ye Feng immediately thought of the Black Lotus team that had just left before, and his eyes moved slightly.

Could it be that there is some huge chance of creation not far away?

Let this Black Lotus team be fighting for it?

Ye Feng naturally wanted to go over to see the excitement and quickly flew in that direction.

Chapter 4338 Magical Means

Swish, swish, swish!

Ye Feng's speed was very fast, and in a blink of an eye he came to the place where Ye Feng had just sensed the fighting.

But at the next moment, Ye Feng suddenly showed a look of astonishment in his eyes.

Because what Ye Feng guessed was not correct, it was not that the Black Lotus team had discovered some good fortune and were fighting for it.

Instead, this Black Lotus team was being besieged by teams of skeletons wearing tattered armor.

A huge tomb appeared in front, and a portal appeared on the tombstone of the tomb.

From the portal of this tomb, densely packed skeleton warriors wearing tattered armor ran out, frantically besieging the Black Lotus team.

There are seven people in the Black Lotus team, but now they are killed by this group of skeletons. In the end, only the captain, Black Lotus, is holding on.

At this moment, this tall and charming woman in black clothes looked very embarrassed.

Because all her team members died, and she herself was trapped in the quagmire of the battle. She was surrounded by hundreds of skeleton warriors and was about to be completely killed in the next moment.

"That is....."

But at this moment, Heilian suddenly saw Ye Feng flying over not far away, and his eyes immediately showed surprise, and he was about to ask for help.

But she suddenly thought that Ye Feng's cultivation level was one or two realms lower than hers, and he would die even if he came.

Moreover, Hei Lian knew that she and Ye Feng only had a relationship, and it would be impossible for the other party to take risks to save her.

Thinking of this, Heilian's pair of beautiful eyes suddenly showed a dim look. If he wanted to ask for help, he did not say it after all. Instead, he was gradually drowned in the endless killings of the skeleton warriors. .

Boom!

But at this moment, what made the despairing Hei Lian's eyes suddenly show excitement was that a figure in white clothes, Sheng Xue, flew over from a distance and landed directly beside her. Then, holding the big knife in his hand, He slashed wildly towards the surroundings, directly slashing away dozens of skeleton warriors nearby. \u003c

br\u003e

The figure in white clothes Shengxue is naturally Ye Feng.

"you....."

Heilian never thought at this time that this young man who had only met once would actually dare to risk huge risks to save himself.

This made Hei Lian's originally cold heart suddenly melt.

At this moment, Heilian looked at the extremely handsome boy in white next to him, and there was an inexplicable look in his beautiful and cold eyes.

At this moment, Ye Feng looked at Hei Lian beside him and said, "Why did you provoke so many skeleton warriors? Is there anything special in this tomb?"

The reason why Ye Feng came to rescue the Black Lotus at this moment was not only because he had a good impression of it, but also the grave with a steady stream of skeleton warriors running out of it must contain something very extraordinary, otherwise it would be impossible to hide so many skeletons. warrior.

Moreover, when the Black Lotus team came to the area where this tomb is located, there must be some ulterior secret.

That's why Ye Feng came to the rescue.

Hearing what Ye Feng said at this moment, Black Lotus immediately nodded and said loudly: "There is indeed something extraordinary hidden in that tomb. Our Black Lotus team spent a huge price to get it from our gods." The secret information bought from the city near the Ruins, this tomb contains the place where an ancient saint fell. In other words, this is the tomb of an ancient saint, and it is the resting place of an ancient saint. It is very possible that It contains the saint-level inheritance and treasures left by this ancient saint, as well as cultivation resources."

Hearing what Hei Lian said, Ye Feng suddenly had a look of surprise in his eyes.

Unexpectedly, there is an ancient saint-level existence hidden in this tomb.

You must know that the person who can be called an ancient saint was definitely an extremely terrifying super strong man back then, and was probably at the level of an ancient power.

It exists, so it has such a high title.

In other words, this tomb contains a huge amount of good fortune.

At this moment, Ye Feng's eyes immediately showed joy. It seemed that he had not saved the wrong person.

At this moment, Heilian watched hundreds of skeleton warriors surrounding him continue to attack, and immediately said anxiously: "We have no way to fight against these skeleton warriors now. Although the sword in your hand is quite powerful, but In the end, all the strength will be exhausted by these skeleton warriors, because these skeleton warriors have no way to destroy their skeletal bodies, and there are still a steady stream of skeleton warriors running out of that huge tomb. We still Let's leave here first and think about it long term. All my team members died in the battle. It's such a pity."

At this moment, Hei Lian was speaking, with a huge sense of pity in his tone.

However, Heilian's tone didn't seem too sad.

After all, the team formed by wanderers like them was originally a temporary team formed to find treasures together.

Death and injury were commonplace.

So Hei Lian didn't seem to be very sad at this time, but just felt it was a pity.

Perhaps she herself eventually fell into the land of the gods and felt that this was her fate.

For wandering warriors like them, the Land of the Gods is the place where they struggle, and it is also the destination of their final death.

Ye Feng shook his head at this moment and said aloud: "The movement here is too big, and it has probably attracted many other strong men who are looking for opportunities in the land of the gods, so we have to deal with it as soon as possible. The opportunity in this tomb has been created, otherwise, if other powerful people come here, we may not have a share in the inheritance of ancient power in this tomb. "

At this moment, when Hei Lian heard what Ye Feng said, there was a tangled look in his eyes, and he felt that what Ye Feng said was reasonable.

Then Heilian couldn't help but asked: "Then what should we do now? There are so many skeletons

Soldiers, we can't defeat them at all. "

Ye Feng smiled slightly at this time and said: "Don't worry, these skeleton warriors are nothing to me."

After saying that, Ye Feng directly turned the gate of heaven in his mind.

Ye Feng did not directly release the Gate of Heaven, because the Gate of Heaven is the most precious treasure in the heaven and the natal magic weapon of the Lord of Heaven, so Ye Feng cannot use it easily.

Although it is very possible that Hei Lian cannot recognize the true identity of Heaven's Gate, but to be on the safe side, Ye Feng is just running the power of Heaven's Gate in his mind.

Then the white holy light of Heaven's Gate was directly attached to the giant toothed sword in Ye Feng's hand.

The giant-toothed sword in Ye Feng's hand was very strong and sharp, but there was no way to chop up the skeleton warriors around him.

However, when the blade of Ye Feng's broadsword was enchanted with the white holy light of Heaven's Gate, it would cause tremendous damage to creatures with evil attributes like the skeleton warrior.

Click! Click! Click!

The next moment, Ye Feng held the giant-toothed sword with the blade shining with the holy light of the Gate of Heaven, and slashed towards the surroundings.

This time, instead of blasting the skeleton warriors away, they directly chopped the surrounding skeleton warriors into two halves. The skeletons were scattered on the ground, completely destroyed.

"What??"

Seeing the scene in front of him, Heilian's beautiful eyes suddenly revealed a look of deep surprise.

This female wanderer with a cool temperament stared at Ye Feng beside her, and was very shocked in her heart.

This young man, who seemed to be a lot weaker than his own cultivation level, did not expect to have such a magical method that could instantly kill these evil and strange skeleton warriors.

"Who is he?"

Heilian's beautiful and cold eyes immediately revealed a look of deep curiosity. It was the first time that she had such a strong sense of surprise and curiosity towards a boy.

Chapter 4339 Of course we are friends

Heilian has always been very indifferent to others, and she was originally an orphan. Although she looks very beautiful and cool, she has many suitors and is very famous among the wandering warriors.

Even the controllers of some big forces will pursue Heilian, the cool black rose.

But Heilian has never been attracted to anyone of the opposite sex.

But now for some reason, looking at Ye Feng who saved him, looking at this young man who was even somewhat handsome, Hei Lian's cold heart felt an inexplicable fluctuation that had never happened before.

Ye Feng seems to have a special magic power and has an inexplicable attraction to Hei Lian.

At this moment, Ye Feng didn't know what Hei Lian was thinking.

Ye Feng just quickly used the broadsword attached with the Holy Light of Gate of Heaven to cut all the skeleton warriors rushing around in half.

After these skeleton warriors were cut in half, all the skeletons on the skeleton warriors were scattered on the ground. ??

These bones are quite strong, and they can actually block the ordinary slashing of the giant-toothed sword in Ye Feng's hand, which shows that they are very strong.

So at this moment, Ye Feng directly used the detector in his hand to detect the material of the bones scattered on the ground after the skeleton warriors were killed.

Buzz! Buzz! Buzz! Buzz! Buzz!

Almost at the moment Ye Feng started to detect these bones with the detector, five rays of light suddenly lit up on the detector!

"What?"

The scene in front of him immediately revealed a look of deep astonishment in Ye Feng's eyes.

Unexpectedly, the bones of these skeleton warriors scattered on the ground turned out to be level five materials.

This is very precious!

Although these bones have no practical effect on Ye Feng himself, if they are brought back to the palace of the Blood Demon Dynasty and given to the research institutions that specialize in studying materials, they will definitely get a lot of rewards.

At this moment, Ye Feng didn't

If there was any hesitation, he immediately happily put all the bones left behind after breaking hundreds of skeletons around him into his storage ring.

The material grade of these bones is so high, they are all good things.

But it's normal to think about it.

These skeleton warriors were able to withstand the attack of Ye Feng's giant toothed sword before.

If Ye Feng hadn't possessed the Heaven's Gate, an artifact that specifically restrained evil spirits, and attached the holy light of the Heaven's Gate to the blade of the giant-toothed sword, Ye Feng would not have been able to cause such huge damage to these skeleton warriors.

At this moment, seeing Ye Feng happily collecting all the skeleton bones into his storage ring, there was a trace of confusion in Hei Lian's eyes.

I don't know why Ye Feng is so interested in these bones.

But Hei Lian didn't ask any more questions, because she knew that there must be a reason for Ye Feng to do this./

At this moment, Heilian was just waiting silently.

After Ye Feng collected all the skeleton bones, he came directly in front of Hei Lian and couldn't help but said: "Is there any danger in that ancient tomb?"

Heilian shook his head and said aloud: "I'm not sure about this. Anyway, the information we got is that this huge tomb contains the inheritance and treasures left by the ancient powers. We just opened the tomb just now. A steady stream of skeleton warriors suddenly ran out of the gate, catching us off guard. I guess the ancient power in this tomb has probably transformed into a corpse, so he was able to cultivate so many skeleton warriors. "

Hearing what Hei Lian said, Ye Feng shook his head and said loudly: "If that ancient great power has really transformed into a corpse, then he must have turned into a corpse."

It has become a very terrifying existence. There is no need to use this ordinary skeleton warrior to deal with you. He can crush you all to death with one hand, so there is no need to bother. "

Hearing what Ye Feng said, Hei Lian's cold and beautiful eyes showed a trace of surprise, and couldn't help but said: "You are right, if that ancient great power has really transformed into a corpse. If so, there is really no need to go to such trouble, he can crush us to death in an instant with his own hands."

Ye Feng nodded, with a hint of expectation in his eyes, and said loudly: "Anyway, let's just go in and take a look. If there is really any particularly big danger, we will exit directly."

Hearing what Ye Feng said, Hei Lian immediately nodded, with a hint of surprise in his eyes, and couldn't help but said: "Look at your appearance, you are delicate and pretty, like a member of a big family." Greenhouse flowers, I didn't expect you to have an adventurous heart like wandering warriors like us, I didn't expect your courage to be so high."

When Ye Feng heard Hei Lian's praise, he immediately couldn't help but shake his head and smile, and said loudly: "Wealth is gained through danger. How can we get precious things without taking risks?"

At this moment, after Ye Feng finished speaking, he took the first step and walked quickly towards the door of the ancient tomb in front.

Black Lotus just flashed and came to Ye Feng's side. Her beautiful and cold eyes were fixed on Ye Feng and she said loudly: "Although your cultivation level is a whole level lower than mine, I feel that your true strength must be very powerful, and it is definitely not just a matter of having special means to kill evil creatures."

Hearing what Hei Lian said, Ye Feng just smiled slightly and said: "My current level of cultivation is indeed not too high, so I entered the land of the gods to look for various opportunities to improve myself. "

Heilian couldn't help but ask: "I saw you used that very special detector just now. That kind of detector only has some special features."

Only among high-end big forces. Where are you from? Is he a descendant of an ancient family? "

Hearing Hei Lian's question, Ye Feng just smiled faintly and said, "Is identity really that important?"

Hearing Ye Feng's answer, Hei Lian's eyes were suddenly startled, and then her beautiful eyes were filled with brilliance, and she couldn't help but said: "You are indeed the most bizarre person I have ever seen. If you are like me, , are all wandering warriors in this land, it is impossible to have such magical means and powerful fighting power, but if you come from some behemoth-level big forces, you don't want to show off your identity, so you are in my eyes He is really a very talented person. It's not like I haven't met some people from big forces. They usually show off their precious identity, especially in front of wandering warriors like us, they are even more proud. But you Not at all."

Hearing what Hei Lian said, Ye Feng just shook his head, smiled, and said, "Everyone is different."

When Hei Lian heard what Ye Feng said, he seemed to be struggling internally, and then suddenly said, "Are the two of us considered friends now?"

Hearing this, Ye Feng glanced at the stunning beauty next to him, couldn't help but smile and said, "We are now considered partners, and of course we are friends."

Hearing what Ye Feng said, a rare smile appeared on Hei Lian's cold and beautiful face, making her look even more beautiful.

At this time, Ye Feng had already walked to the door of the huge tomb. He suddenly said with a very cautious expression: "We must be careful next time. If we encounter danger, your cultivation is strong and you are responsible for protecting me. I will Then use my special holy light power that specifically suppresses evil attributes to deal with the terrifying existence of evil attributes that may exist in the tomb."

Hearing what Ye Feng said, Hei Lian immediately nodded solemnly, approached Ye Feng directly, and said, "Don't worry, I will do my best to protect you."

Chapter 4340 Lie to me

At this moment, both of them were ready to step directly through the gate of the tomb and entered the interior of the tomb.

The moment they entered the tomb, they saw a shocking scene.

I saw that everything under the tomb had been hollowed out, and a huge underground space appeared.

This underground space was actually cast into a place that looked like an underground palace.

At this moment, a huge bronze coffin stood in a palace-like place in the middle of the underground palace.

In most areas of this underground palace, the ground was broken, and skeleton warriors crawled out.

At this moment, Ye Feng did not hesitate. He held the giant-toothed sword with the Holy Light of Heaven's Gate in his hand and charged directly forward, killing these skeleton warrior minions first.

At this moment, Black Lotus who was following Ye Feng followed closely behind, directly releasing a very powerful guardian technique: "Black Lotus Guardian".

Buzz!

At this moment, Hei Lian's body suddenly emitted pieces of black light, forming black lotuses, surrounding Ye Feng and Hei Lian.

As long as a skeleton warrior approaches them and wants to attack them, these black lotuses spinning around will resist the attack of these skeleton warriors.

Under the protection of Black Lotus, Ye Feng can concentrate on displaying his terrifying attack power.

Boom! Boom! Boom!

At this moment, Ye Feng held the giant-toothed sword in his hand, exuding the holy light of the Gate of Heaven, and frantically slashed towards the surroundings.

These skeletons were just a group of minions, and Ye Feng quickly killed them all.

Then Ye Feng put all the bones of these skeleton warriors scattered on the ground into the storage ring.

After all, these bones are fifth-level materials. If they are brought back to the palace of the Blood Demon Dynasty, they will definitely be able to exchange for good cultivation resources.

At this time, after Ye Feng killed all the skeleton warriors, he quickly walked towards the bronze coffin in the middle of the underground palace in the tomb.

Hei Lian couldn't help but speak out at this time: "Ye Feng, this bronze coffin is most likely the final resting place of the ancient power. I don't know if it is dangerous."

Ye Feng's eyes flickered at this time, and he said loudly: "We have such a huge fighting movement here, and the bronze coffin has not moved at all. I guess this ancient power has not transformed into a corpse, or it has not been completely transformed." Corpse transformation, otherwise, he would not have made any movement at all. "

Heilian nodded and said loudly: "Then let's go over and take a look."

Ye Feng nodded slightly at this moment, and walked directly to the bronze coffin with Hei Lian.

At this time, there was a hint of vigilance in Black Lotus's eyes, and he quickly strengthened the power of his Black Lotus guardianship. More and more Black Lotus flowers were spinning around the two of them.

At this moment, Ye Feng is ready to sacrifice the gate of heaven at any time to suppress the evil spirits.

After the two of them were fully prepared, Ye Feng used a huge toothed sword to pry open the lid of the bronze coffin in front of him.

Click!

But when the lid of the bronze coffin was opened and Ye Feng looked inside, a look of astonishment suddenly appeared in his eyes.

Hei Lian also looked over, couldn't help but change his expression and said, "Why is it empty?"

At this moment, the bronze coffin was empty, with nothing in it.

There was no corpse of the ancient power lying among them as they had imagined.

At this time, Ye Feng seemed to have thought of something. He immediately looked at Hei Lian beside him and couldn't help but said, "Is the businessman who provided you with the information a businessman in a regular store?"

Heilian immediately shook his head and said aloud: "On the edge of the land of Shenxu, there is a city spontaneously formed by the wanderers, called the City of Shenxu. There are many wandering merchants in it, and I am one of them. I bought the map from a wandering businessman. The wandering businessman said that he was alone and did not dare to come here to explore the inheritance of the ancient power, so he sold it to our Black Lotus team at a high price. "

Hearing what Hei Lian said, Ye Feng suddenly showed a helpless smile on his face and said: "I feel that you have been cheated. That wandering businessman probably lied to you. There is no ancient giant here at all." It is a very dangerous place to breed skeleton warriors. Have you seen that these skeleton warriors seem to be buried here with a premeditated plan, and are nourished by the yin energy of the world in the tomb. "

Hearing what Ye Feng said, Hei Lian's beautiful and cold face suddenly showed a hint of ugliness, and couldn't help but said: "But I bought a lot of things from that wandering businessman before, basically There was no problem at all, so I believed him. Otherwise, I wouldn't have been so brainless as to just trust a wandering businessman. I was an old customer of that wandering businessman, and there had been no problems with my transactions all along. I didn't expect this. He actually lied to me once

, it's really puzzling. "

Hearing Ye Feng's guess, Hei Lian naturally felt at this time that the wandering businessman had really lied to their Black Lotus team.

In this tomb, there are no corpses or inheritance left by the ancient great powers at all. There are only very dangerous and terrifying unkillable skeleton warriors.

If Ye Feng hadn't happened to come here this time, their entire Black Lotus team would have been wiped out.

At this moment, while the two were talking, suddenly the door of the tomb suddenly lit up with a black light, which directly sealed the entire entrance to the tomb.

"What??"

Seeing this scene, the faces of Ye Feng and Hei Lian inside the tomb suddenly changed. ??

Almost at the next moment, a figure shrouded in black robes appeared outside the tomb.

A cold voice suddenly came out from the black robe: "It's a pity, it's a pity that your Black Lotus team met a young man with a special weapon to suppress evil spirits, and not all of them died. Otherwise, I would have killed all of you." All the storage rings and wealth were plundered, but the boy in white next to you, Heilian, I must crush him to ashes. He actually destroyed hundreds of skeleton warriors that I have worked hard to cultivate for more than ten years. It's simply an unforgivable crime!"

The moment the man in black robe finished speaking, Heilian, who was trapped inside the tomb, couldn't help but look extremely ugly.

Then Hei Lian's beautiful and cold eyes suddenly showed deep anger. Looking at the black-robed figure outside the entrance, he said with murderous intent: "Wandering merchant, I am your boss." Customer, how dare you trick our Black Lotus team? You deliberately brought us here just to provoke us to the skeleton warriors you trained here, and to destroy us all and rob us of our training resources."

When the wandering businessman heard what Hei Lian said, he immediately laughed coldly and said loudly: "It is precisely because you are my old customer that I understand that your Black Lotus team has traveled all over the land of Shenxu these years. After plundering a lot of resources, the pigs have been fattened, and of course they have to be slaughtered. "

Obviously, this wandering businessman is a very sinister character.

Everyone who did business with him was secretly included in his assassination list.

He even compared the Black Lotus team to a pig. When it gets fat, it will be slaughtered.

At this moment, Ye Feng, who was standing next to Hei Lian, stared at the wandering businessman outside with cold eyes.

Then Ye Feng looked at Hei Lian beside him, coldly

said loudly: "It seems that the real situation is more sinister than what I guessed. This wandering businessman not only sold you fake maps at a high price, but also wanted to kill your entire Black Lotus team in one fell swoop and get all the money you have accumulated over the years. All wealth and resources."

At this moment, when Ye Feng heard what Ye Feng said, the wandering businessman outside immediately laughed out loud: "Boy, don't be proud, although your knife does seem to have something, and it can actually make me indestructible." All the skeleton warriors were cut in half, but your cultivation is too weak after all. Just relying on a knife that can suppress the evil attributes is of no use. Now the entire entrance to the tomb has been blocked by me with a special formation. The law has sealed it. Next, you can enjoy the thousands of terrifying zombies I cultivated in this tomb. The skeleton warriors are just appetizers."

At this moment, after the wandering businessman finished speaking, the ground inside the tomb suddenly exploded.

boom! boom! boom.....

Zombies covered with green scales, with green faces and fangs, looking very ferocious and terrifying, all rushed out.

There were thousands of zombies, their fingernails were more than ten meters long, and they were full of violent corpse poison. In an instant, they rushed towards Ye Feng and Hei Lian in the middle, trying to tear them apart!

These zombies are much more ferocious than skeleton warriors!

when! !

And when the giant-toothed sword in Ye Feng's hand slashed at these zombies, it only chopped the scales of these zombies into pieces.

Then the blade of the big knife was embedded in the flesh of the zombie, but it was unable to cut the zombie's entire body in half in an instant.

After all, these zombies are all very full of flesh and blood, and their surfaces are covered with dense scales, making it difficult to cut them in half in an instant.

It's not like those skeleton warriors, where only the skeleton is left, and it falls apart when cut.

Seeing this scene at this moment, Hei Lian's beautiful face suddenly showed a deep ugly look.

Even the sword in Ye Feng's hand, which was specially designed to restrain evil spirits, was unable to kill zombies for a while.

You know, there are thousands of zombies around now, and they are attacking like crazy.

At this moment, Heilian immediately looked at Ye Feng beside him, with a look of deep guilt in his beautiful eyes, and said loudly: "Ye Feng, it was me who harmed you and caused you trouble. I can't repay your kindness and make up for my mistakes! Originally, I wanted to wait until I left the grave to repay you with everything I have, but now, I have no time..."
