Chapter 4471 Tianshan Cold Pool

"cooperate?"

At this time, Ye Feng was stunned when he heard Glacier Snowman say this.

It seemed that he didn't expect that just now the two of them were preparing to have a good fight, but they didn't expect that the next moment, the glacier snowman would directly cooperate with him.

This sudden change made Ye Feng unable to react for a while.

Ye Feng immediately couldn't help but asked: "Why do you suddenly want to cooperate with me? Is it because my body is stronger? But your body is also very powerful. Your body is completely made of heaven and earth. It is made up of the ice and mountains in the world, and it should be a little more powerful than my flesh and blood body. Why don't you go to look for some treasure in the cold pond of Tianshan Mountain?"

Hearing what Ye Feng said, Glacier Snowman immediately couldn't help but said: "Because my entire body is bred by nature and is composed of ice and mountains, there is no way for me to enter that Tianshan Mountains In the cold pool, because the Tianshan Cold Pool is the holy land of this ice and snow field, as long as the native creatures in this ice and snow field have no way to enter the Tianshan Cold Pool, you saw the people who died in the valley just now There were about a dozen young people. They all wanted to cooperate with me, but they all froze to death in the cold pond of Tianshan Mountain. I brought them back and buried them here. "

Hearing Glacier Snowman say this, Ye Feng's eyes suddenly froze.

Ye Feng originally thought that the dozen young geniuses of the Murong family who were frozen in the valley were killed by this glacier snowman, but he did not expect that it was because of his cooperation with this glacier snowman that he could not withstand the cold weather of the Tianshan Mountains. The cold air in the pool froze him to death.

Then he was brought back here by the glacier snowman and buried here. .??.

That being said, this glacier snowman is pretty good.

Ye Feng immediately said: "Then why did you attack me when I wanted to leave just now?"

Glacier Snowman immediately couldn't help but said: "There are two reasons why I suddenly attacked you. The first is because your aura is very powerful. I thought some powerful enemy came over and wanted to cause trouble for me, so I I subconsciously took action against you. The second reason is because I just want to take action and test your strength. If your strength is not enough, I will not say anything about cooperation, so as to save you from dying. Like those dozen young people, but I found that the power of your body is extremely powerful, almost comparable to a terrifying body bred by nature like mine, so you can try it in the cold pond of Tianshan Mountain, it should not Frozen to death."

Hearing what the glacier snowman said, Ye Feng immediately nodded, and then said loudly: "Okay, then I'll give it a try. There is a treasure in the cold pond in Tianshan that you really want to get. It must be very valuable." Extraordinary, but after I get the treasure, how do we divide it equally? Is the treasure a separate entity, or is it a treasure trove of many things combined? "

Hearing what Ye Feng said, Glacier Snowman immediately said: "According to what I know, there should be more than one treasure in the cold pond of Tianshan Mountain. I don't know the details. I need you to go in and take a look. look."

Hearing what Glacier Snowman said, Ye Feng immediately smiled and said: "Then if I swallow all the other treasures and leave you one, wouldn't you consider this situation?"

Glacier Snowman immediately shook his head and said: "I will be with you when the time comes, as long as I stay in the space inside your storage ring, relying on the strength of your body to survive the cold pond of Tianshan Mountain. "

Hearing what the glacier snowman said, Ye Feng's eyes immediately froze. This glacier snowman seemed to have some sense and was not that stupid.

At this time, Ye Feng nodded and said, "Then let's cooperate. Being able to obtain very precious treasures in a place like this is also of great benefit to me."

Although Ye Feng is now anxious to go to the central area of this small world of inherited ancestral land to find the blood of the True Flame Dragon for Murong Changming.

But when encountering such a chance encounter on the road, Ye Feng would naturally not refuse. After all, it wouldn't take long.

You know, this time the Murong family's trial to inherit the ancestral land lasted for a full month, so Ye Feng still had plenty of time.

At this time, Ye Feng walked directly towards the valley with the glacier snowman.

Ye Feng suddenly saw the corpses of a dozen young geniuses from the Murong family frozen in the valley.

This made Ye Feng couldn't help but shake his head.

These dozen young geniuses are really unlucky.

I guess I was very happy to cooperate with this glacier snowman at first, but I didn't expect that I underestimated the power of ice in the cold pond of Tianshan Mountain and froze to death.

However, Ye Feng is quite confident in the strength of his body, so there shouldn't be any big problems.

After all, the power of Ye Feng's body is the immortal body of a god.

Although he has not yet entered the true state of Dzogchen, he is still much stronger than ordinary young geniuses.

At this time, Ye Feng looked at the glacier snowman in front of him and asked: "Shall we go directly to the Tianshan Cold Pond now?"

Glacier Snowman immediately nodded, and then said loudly: "Just follow me."

At this moment, the majestic glacier snowman, tens of thousands of meters tall, is leading the way.

Every step he took made the whole earth shake.

It has to be said that the majestic shape of this glacier snowman, which is tens of thousands of meters tall, gives people a very terrifying sense of oppression.

At this moment, Ye Feng was flying high in the sky, suspended behind the glacier snowman.

Soon, they passed through a large snowfield and finally came to a huge pool.

It's not so much a pool of water as it is a huge lake.

The color of the entire lake is ice blue, exuding a chilling chill.

At this time, the glacier snowman pointed at the large lake in front of him and said loudly: "This is the Tianshan Cold Pool. It is very vast. Only by swimming through this Tianshan Cold Pool can you reach the Tianshan Mountain I am talking about." The cold pond is where treasures are hidden."

Hearing what the glacier snowman said, Ye Feng looked at the endless ice-blue lake in front of him, like a vast ocean, and the corner of his mouth suddenly twitched slightly.

I didn't expect that Tianshan Hanchi would be such a big lake, with no end visible at a glance. It was comparable to a vast ocean.

But now that he has arrived here, Ye Feng naturally wants to give it a try.

Ye Feng immediately nodded at this moment and said: "The glacier snowman, you can just enter my storage ring. I will jump directly into the cold pond of Tianshan Mountain to see if I can swim to this Tianshan Mountain." The end of the cold pool. "Cooperation?"

At this time, Ye Feng was stunned when he heard Glacier Snowman say this.

It seemed that he didn't expect that just now the two of them were preparing to have a good fight, but they didn't expect that the next moment, the glacier snowman would directly cooperate with him.

This sudden change made Ye Feng unable to react for a while.

Chapter 4472 The world is impermanent

"Plop!"

At this time, Ye Feng did not hesitate at all. He put this majestic glacier snowman into his storage ring, and then jumped directly into the ice blue lake in front of him, quickly heading towards the ice blue lake. Swim past the end area.

"Buzz!"

Almost the moment Ye Feng jumped into the ice-blue lake, he immediately felt a very cold breath invading his entire body.

The muscles all over Ye Feng's body were frozen and very hard. At this time, Ye Feng felt that he could not even continue swimming.

At this moment, Ye Feng immediately understood how a dozen top geniuses from the Murong family froze to death.

This ice blue lake, the so-called Tianshan Cold Pool, is indeed very terrifying. The cold air contained in the water is so terrifying that it can instantly freeze an extremely powerful practitioner into an ice sculpture.

"Blood energy circulates!"

boom!

At this time, Ye Feng immediately started to use all his blood energy.

You know, Ye Feng's immortal body of the God made the blood energy contained in Ye Feng's body extremely powerful.

So at this time, Ye Feng burst out with his extremely powerful blood energy, and suddenly Ye Feng's whole body was like a burning furnace.

Terrifying heat burst out from every inch of Ye Feng's body, directly expelling all the cold air that invaded Ye Feng's body, or directly melting it.

At this time, Ye Feng immediately felt that his whole body was warm, and all the coldness was dispelled by Ye Feng.

At this moment, Ye Feng immediately regained his strength and swam quickly towards the end of the ice lake.

Because this icy lake is so magical that there is no way to fly

OK, so Ye Feng can't fly, he can only swim in this water.

At this moment, the glacier snowman in Ye Feng's storage ring looked at Ye Feng who had expelled all the cold air, and his eyes were extremely surprised.

Ye Feng's whole body felt like a human-shaped sun at this moment, not afraid of any extreme cold.

Even the air-conditioning in the Tianshan Cold Pond could not freeze Ye Feng.

Ye Feng's terrifying heat naturally shocked the glacier snowman.

At this time, he felt more and more that the human boy he met was definitely an incredible existence.

At this moment, Ye Feng relied on his extremely powerful body and furnace-like blood energy to quickly swim to the end of the ice-blue lake.

At this time, Ye Feng suddenly saw a huge mountain appearing at the end of the ice-blue lake.

This mountain is made entirely of ice and looks unattainable.

At this moment, Ye Feng came directly under the ice blue mountain and quickly climbed up.

When Ye Feng reached the top of the mountain, he immediately saw a huge golden palace on the top of the ice-blue mountain, which looked very sacred and ancient.

At this moment, the glacier snowman in Ye Feng's storage ring suddenly flew out.

Glacier snowmen cannot swim in the ice blue lake, because this is the holy land of the entire snowfield, and native creatures cannot enter the Tianshan Cold Pool, which is the ice lake.

Among the blue lakes.

But now Ye Feng has successfully relied on his powerful body to cross the entire icy blue lake and arrived on the iceberg at the end of the area. The glacier snowman can naturally come out directly.

At this time, Glacier Snowman stood next to Ye Feng, looking at the golden hall in front of him, his eyes suddenly revealed a look of deep expectation, and he said loudly: "This should be the place where the treasure is hidden. Yes, the ancient legend is indeed true. There is such a magical place hiding treasures at the end of Tianshan Hanchi."

Uh-huh!

At this moment, the glacier snowman was running forward quickly, wanting to enter the golden hall.

Ye Feng also quickly followed.

But just when Ye Feng was about to leave. ??

boom!

The Glacier Snowman, who had already arrived in front of the golden hall one step ahead, suddenly saw groups of extremely terrifying fireballs appearing in the surrounding void.

These fireballs, covered with terrifying flames, suddenly appeared in the void. They were definitely ancient formations that had been deployed around this golden hall.

The moment the glacier snowman approached, countless fireballs suddenly appeared and bombarded the glacier snowman in an instant.

"ah!!"

Almost at the next moment, the glacier snowman only had time to let out a scream, and his entire majestic body was directly hit by countless fireballs.

Then the entire body was completely burned and melted, turning into a puddle of snow and falling on the ground.

Glacier Snowman, died.

"What?"

At this time, Ye Feng saw this scene not far away, and his eyes immediately revealed a deep look.

A look of astonishment.

Ye Feng never thought that this glacier snowman would be so unlucky. As soon as he approached the golden hall, he was burned into a puddle of water by the fireball released by the ancient formation around the hall.

It can be said that this iceberg snowman is extremely unlucky.

It took a lot of effort to get here, but before entering the golden hall and finding the treasure, he died.

"It's really fate that makes people change. Everything in the world is unpredictable."

At this time, Ye Feng could only sigh and then walked directly forward.

There are indeed formations around this golden hall.

However, at this time, Ye Feng used the Eye of Heaven and Earth he had awakened before, and could completely avoid the attack of the formation, and walked into the golden hall easily.

It can only be said that the glacier snowman was really impatient and wanted to enter the golden hall, so he couldn't eat hot tofu in a hurry.

Ye Feng took a warning in his heart at this time. He must not be arrogant or impetuous in anything he does in the future, and he should not be too impatient. If he is too impatient, accidents will often occur and bring danger to himself.

At this time, Ye Feng passed through the formation surrounded by countless fireballs and finally entered the golden hall.

The moment Ye Feng entered the golden hall, his eyes suddenly showed deep excitement.

Because Ye Feng saw that there were indeed many ancient things piled up in this golden hall, just like a treasure house.

However, the piles were very messy, giving the impression that someone had hurriedly stored all the good things in this golden hall, and then left here, never to return.

So at this time, the good things piled up in the entire golden hall will naturally become Ye Feng's things!

Chapter 4473 The Ancient Temple of Heaven

At this time, Ye Feng's eyes naturally lit up when he looked at all the good things in the golden hall.

After all, the things contained in this golden hall should all be good treasures left behind by a super powerful man back then.

Ye Feng discovered that among these things, there were pills that could improve his own skills, various heavenly materials and earthly treasures that could strengthen his cultivation power, as well as many very advanced weapons and inherited skills.

These are what Ye Feng urgently needs to improve his overall strength.

The first thing Ye Feng saw was a golden elixir.

This golden elixir exudes a faint divine light, and the golden light is faintly condensed into a dragon-shaped form.

This made Ye Feng's eyes suddenly show surprise.

This golden elixir is definitely a very precious elixir.

Ye Feng immediately walked over and grabbed the small golden elixir that first caught his eye, directly into his hands.

Ye Feng immediately sensed at the next moment that the medicinal power contained in this golden elixir was very powerful and majestic.

At this moment, Ye Feng did not hesitate and swallowed the golden elixir directly into his stomach.

Boom! !

Almost the moment Ye Feng swallowed the golden elixir into his stomach, Ye Feng immediately sensed a very terrifying power of the medicine, which exploded in his entire body.

Ye Feng could feel at this moment that the energy contained in this golden elixir was simply like the energy of the ancient five-clawed golden dragon, which was very advanced.

This made Ye Feng couldn't help but wonder whether the golden elixir was fused with the power of an ancient five-clawed golden dragon and entered it, so it could release such a huge potency and energy.

At this time, Ye Feng did not hesitate at all, and immediately began to concentrate on refining the medicinal power contained in this golden elixir, striving to achieve a rapid breakthrough in his cultivation.

At this time, even this small golden elixir allowed Ye Feng's skill to be rapidly and continuously improved at this moment.

However, Ye Feng's current cultivation level is, after all, at the Half-Step Return to One Realm. Therefore, the power Ye Feng exploded after swallowing this golden elixir did not allow Ye Feng's cultivation level to directly break through the current Half-Step Return to One Realm. .

After all, the Half-Step Return to Unity Realm is a huge bottleneck, and it is still very difficult to break through.

Ye Feng even felt that only by devouring the power of a super strong man could he completely break through this big bottleneck and reach the true state of unity.

However, the golden pill that Ye Feng swallowed at this time has increased Ye Feng's skill a lot, and he will soon break through the half-step to the realm of return to unity and step into the true realm of return to unity.

but

Still missing some energy.

So at this time, Ye Feng continued to look for other things in the golden hall to see if there were anything else that could increase his power.

Soon, Ye Feng found a red fruit.

This crimson fruit was placed in a corner of the golden hall.

But Ye Feng sensed it with his soul power.

At this time, the fruit contains majestic energy belonging to the attributes of heavenly materials and earthly treasures.

So Ye Feng didn't hesitate at this time and just swallowed the red fruit.

boom!

Ye Feng immediately felt a majestic energy like fire, which was directly injected into his body.

Ye Feng felt it immediately, and his skill increased violently again.

Coupled with the energy contained in the previous golden elixir, Ye Feng could clearly feel that his big bottleneck was about to be loosened by the impact.

Finally at some point.

"Boom!"

Ye Feng's body suddenly burst out with a new and powerful aura of cultivation.

That is the momentum of breakthrough!

At this moment, Ye Feng's cultivation has truly broken through the Half-Step Return to One Realm, and stepped into the real first level of the Return to One Realm above the Half-Step Return to One Realm!

At this time, after Ye Feng stepped into the first level of the true Guiyi Realm, he could immediately feel that his skills had grown unparalleled.

Moreover, his combat effectiveness was also improved unparalleledly at this moment.

At this moment, Ye Feng immediately showed a deep look of joy on his face.

Unexpectedly, in this golden hall, I just swallowed a golden pill and an unknown-looking fiery red fruit, and my bottleneck was completely broken.

Let yourself break through to a new and powerful level of the true first level of Guiyi Realm.

At this time, Ye Feng could clearly feel the terrifying power surging through his entire body.

Ye Feng felt that now that he had entered the true realm of unity, he could kill his previous self with one punch.

This shows how much Ye Feng's skill has increased at this moment, and his combat effectiveness has also increased countless times.

After all, this is an improvement to a large realm. It is many times stronger than an improvement to a small level.

this

At that time, Ye Feng did not hesitate and continued to explore other things in the golden hall.

Soon, Ye Feng found what he wanted among the piles of things in the golden hall.

It was an ancient book with dense text written on it, but Ye Feng didn't recognize the text. It seemed to be very ancient text.

At this moment, Ye Feng could only turn to Emperor Chu in his mind, and couldn't help but ask: "Emperor Chu, is what is recorded in this book some kind of powerful inheritance?"

The Emperor Chu in his mind immediately spoke out: "This is not a inheritance, this is a history book that records a glorious and powerful force in the past."

"Um?"

Hearing what Emperor Chu said, Ye Feng's eyes suddenly froze.

It seems that my judgment was wrong.

Ye Feng thought that this ancient book was some kind of extremely powerful super inheritance.

I didn't expect that it was just a history book recording a certain powerful force.

It should be the powerful force that belonged to the super powerful man who put down these treasures in this golden hall.

At this moment, Ye Feng suddenly lost interest and continued to search among a pile of things.

In fact, there are a lot of things piled up in the hall, but most of them are no longer needed by Ye Feng. They can no longer keep up with Ye Feng's level of cultivation, and Ye Feng doesn't like them very much.

What Ye Feng is really interested in, apart from the golden pill and the fiery red fruit he saw just now, he is still looking for.

Suddenly, Ye Feng found a jade pendant emitting a faint cyan light among a pile of things.

This cyan jade pendant gave Ye Feng a very magical feeling.

Because Ye Feng could see that there seemed to be a small world hidden in this cyan jade pendant, and there were thousands of creatures living in this small world in the jade pendant.

This made Ye Feng's eyes suddenly show a strange look, and he took the cyan jade pendant in his hand.

At this time, Ye Feng radiated his soul power and entered the cyan jade pendant. He indeed saw that there was a small world inside the cyan jade pendant, and there were many lives living in it.

This is a very rare cave-like magic weapon. Ye Feng liked it very much and wore it directly on his body.

Ye Feng knew that this kind of magic weapon that nurtured a small world was definitely a very terrifying treasure that could only be forged by a super strong person.

At a critical moment, you can enter the small world in this jade pendant and hide it so that no one else can find it.

Uh-huh!

The next moment, Ye Feng waved his hand and directly removed all the people in this golden hall.

All the remaining items are put into their own storage rings.

Although there are many things that Ye Feng doesn't like, they are still very precious and priceless to ordinary people.

After Ye Feng takes them out, he can exchange them for the training resources he needs in the Imperial City Shop of the Blood Demon Dynasty.

At this moment, Ye Feng just left this golden hall and wanted to leave here directly. After all, the things here have been done.

But at this time, Emperor Chu suddenly said in his mind: "Ye Feng, this golden hall itself seems to be an ancient magic weapon that has been lost for a long time. You can give it a try and see if you can refine this golden hall." success."

"What?"

Hearing what Emperor Chu said in his mind, Ye Feng suddenly showed a trace of color in his eyes, as if he did not expect that this golden hall was actually a super magic weapon in itself.

Ye Feng's eyes suddenly lit up and he couldn't help but say: "It seems that this golden hall itself is the most precious treasure."

Because Ye Feng could sense a very eternal and immortal aura from this golden hall.

This seems to be an immortal level ancient magic weapon.

At this time, Ye Feng didn't hesitate at all. He nodded immediately, walked to the golden hall, stretched out his hand, touched the golden hall, and then began to input his own magic power into the golden hall.

Let's see if we can completely refine this golden palace and make it our own.

And almost the moment Ye Feng input his magic power and entered this golden hall, a very ancient message was immediately injected into Ye Feng's mind.

Ye Feng immediately knew the true identity of this golden hall.

This is indeed a very ancient super magic weapon called the "Ancient Celestial Temple". It was a super magic weapon forged by the leader of the Celestial Clan in the ancient times.

Ye Feng's eyes suddenly revealed a look of deep surprise. He did not expect that he would encounter the super magic weapon of the Celestial Clan again.

This Taikoo Celestial Temple is definitely a very terrifying treasure, capable of bursting out with extremely powerful power and terrifying lethality. After all, it is a super magic weapon forged by a certain generation of commander of the Celestial Clan.

This made Ye Feng's eyes suddenly show surprise.

It just so happens that his body contains the power of the gods, so he can give full play to the power of this ancient temple.

If it were other practitioners who obtained this Ancient Heavenly Temple, it would probably be of no use at all.

Because only the Celestial Clan can use the magic weapons and things of the Celestial Clan, but Ye Feng is the only exception.

Chapter 4474 Very possible

At this time, after Ye Feng obtained the Ancient Heavenly Temple, he naturally increased his mana, input his very special Celestial Clan energy, and entered the Ancient Heavenly Temple.

Buzz!

Almost at the next moment, Ye Feng felt it immediately. The golden hall in front of him immediately gave back to him very vigorous divine energy, causing Ye Feng's immortal bones to echo it at this moment.

Ye Feng's whole body suddenly burst into golden light, which was the light of the Celestial Clan.

Only the purest Celestial Clan can refine this ancient magic weapon.

But Ye Feng did this.

Because Ye Feng's physique has gradually transformed and evolved into a true immortal body due to the Immortal Bone of the God.

So at this time, Ye Feng and the entire golden hall can naturally echo together.

Almost in the next moment, Ye Feng completely refined the Ancient Heavenly Temple.

At this moment, Ye Feng had a thought in his mind. ??

"boom!"

The golden hall was actually in Ye Feng's field of vision. It immediately shrank quickly, and then shrunk into a palm-sized golden hall, which landed on Ye Feng's palm.

At this time, Ye Feng saw this miniature golden hall with deep affection in his eyes.

Because this golden hall is not an ordinary magic weapon, but a magic weapon forged by the commander-in-chief of the Celestial Clan back then. It is very powerful.

Moreover, Ye Feng is originally the immortal body of the gods, and his body contains the power of the gods. Therefore, as long as Ye Feng uses the power of the gods to activate this golden hall and promote the ancient temple, he can make this hall play its full potential. Terrifying power.

This will naturally have a huge benefit for improving Ye Feng's overall strength.

At this moment, Ye Feng didn't hesitate at all, he just wanted to test the power of this ancient temple.

At this moment, Ye Feng immediately inspired his Celestial Clan power and injected it into the Ancient Celestial Temple in the palm of his hand.

boom!

I saw that the small golden hall in the palm of Ye Feng's hand was injected with the power of Ye Fengtian's divine clan, and it immediately expanded rapidly.

Then it turned into a majestic golden hall measuring tens of thousands of meters, just like the Lingxiao Palace where the ancient Emperor of Heaven lived.

At this time, the golden hall directly bombarded away in the distance, with a terrifying sense of oppression that oppressed everything, directly blasting the land hundreds of thousands of meters away into pieces.

"What a powerful force!"

Seeing this shocking scene and this terrifying destructive power, Ye Feng's eyes suddenly revealed a look of deep surprise.

As expected, it was a super magic weapon forged by a certain commander of the Celestial Clan. After I used the special power of the Celestial Clan to activate it, this ancient Celestial Temple was indeed able to burst out with earth-shattering power. It was just like a weapon of the gods, capable of destroying people. The sky destroyed the earth, and the eight wastelands were shattered.

At this time, Ye Feng was very satisfied. He stretched out his hand and directly put the Taigu Celestial Temple into his body, and then left here directly.

On the way back, Ye Feng still swam quickly in the entire icy blue lake, and soon swam back to the original starting point.

At this time, Ye Feng glanced at the ice-blue lake in front of him, and then without any hesitation, he quickly flew towards the end of the glacier and snowfield.

Ye Feng was almost approaching the center of this small world.

But what makes Ye Feng quite surprised is that this small world seems to be very big and the area is very vast. Ye Feng has not met any living young geniuses from the Murong family until now.

The only thing they encountered were a dozen geniuses from the Murong family who had frozen to death in a valley in the iceberg and snowfield just now. They were extremely miserable.

At this time, Ye Feng didn't think much. Anyway, he quickly flew towards the center of the Murong family's ancestral land.

Now Ye Feng's cultivation has directly broken through to the real first level of Guiyi Realm, and he has also obtained an extremely powerful weapon like the Ancient Heavenly Temple.

Therefore, Ye Feng's overall strength at this time is much stronger than before.

Ye Feng felt that even if the young geniuses of the Murong family all united to attack him, Ye Feng would not have any fear.

Moreover, Ye Feng felt at this time that even some older figures in the Blood Demon Dynasty were no longer his opponents.

He is now far beyond the younger generation of the Blood Demon Dynasty, and can even compete with some powerful older figures.

At this time, Ye Feng was thinking in his mind, but his speed was very fast, flying towards the center of this small world.

...

Time passes quickly, like running water without leaving a trace.

Three whole days passed.

Ye Feng passed through most of the

After dividing the area, we finally did not encounter any danger or accident, and we successfully arrived at the center of this small world where the Murong family inherited their ancestral land.

At this time, Ye Feng looked into the distance and immediately saw ancient buildings standing in the center of this small world.

In the central area of this small world, an ancient cultivating civilization seemed to have survived, which is why so many buildings were left behind.

This made Ye Feng's eyes suddenly reveal a trace of surprise. .??.

Ye Feng guessed that the origin of the Murong family was probably here.

The cluster of buildings in the center of this small world should be the place where the first generation ancestor of the Murong family founded it.

Finally, he settled down in the imperial city of the Blood Demon Dynasty.

At this time, Ye Feng's eyes suddenly showed surprise.

Ye Feng did not expect that the origin of the extremely powerful Murong family actually came from such a small world.

At this moment, Ye Feng didn't think too much, and was preparing to find the blood of the ancient flame dragon, Murong Changming, as soon as possible.

At this time, Ye Feng walked directly into the ancient buildings in front of him.

But the next moment, Ye Feng saw it for the first time.

Around this ancient building, corpses appeared one after another.

These corpses turned out to be the corpses of young geniuses from the Murong family.

Moreover, most of the corpses have shriveled up and lost all their blood essence, as if they had been drained of all their life force, which is somewhat similar to Ye Feng's devouring ability.

This made Ye Feng's eyes suddenly reveal a look of deep horror.

Because Ye Feng knew that members of the Murong family, including these young geniuses, were not allowed to enter the center of this small world where the ancestors of the Murong family were buried.

He did not expect that so many corpses of young geniuses from the Murong family would appear here, and their blood and energy had all been drained.

This made Ye Feng's eyes suddenly reveal a look of deep surprise and uncertainty. He didn't know what happened, so that all the young geniuses from the Murong family came to the center of this small world regardless of everything.

He even violated the family rules by trying to enter the burial place where the Murong family's first ancestor was buried, and he died in such a strange way.

At this moment, Ye Feng suddenly felt that maybe these Murong family members

The young geniuses did not actively want to enter the central area of this small world, but were involuntarily attracted by something inexplicable, and then were brutally killed here, drained of all life.

At this time, Ye Feng suddenly made a bold guess.

Could it be that the first generation ancestor of the Murong family did not die. It attracted so many young geniuses from the Murong family and attracted these descendants of him to come here just to contribute their blood essence to him and make this the number one of the Murong family. The ancestors can come back to life and revive again.

"hiss!"

The moment this bold guess appeared in his heart, Ye Feng would never forget it again.

Because Ye Feng thinks this is very possible.

At this moment, Ye Feng suddenly felt that it would be a very dangerous thing to search for the blood of the ancient flame dragon for Murong Changming and enter the burial place of the first generation ancestor of the Murong family. It was very dangerous. Ye Feng was a little frightened at this time.

However, after all, Ye Feng was a brave man and did not back down.

Ye Feng's current cultivation level, after passing through the accumulation of golden elixirs and fiery red fruits in the golden hall, directly broke through to the true first level of Guiyi Realm, which is almost comparable to the cultivation level of some older figures in the Blood Demon Dynasty.

Not to mention, Ye Feng's combat power far exceeds his own cultivation.

So at this time, Ye Feng did not flinch, but continued to walk quickly towards the interior of this ancient building complex.

But at this time, Ye Feng became cautious and released the super magic weapon he had obtained before, the extremely powerful Taigu Celestial Temple.

Buzz!

The small golden hall was suspended above Ye Feng's head at this moment, slowly rotating, casting down pieces of golden light, covering Ye Feng.

These golden rays are the power of the Ancient Heavenly Temple. They fall around Ye Feng and can provide Ye Feng with a very powerful energy barrier, which can protect Ye Feng from harm from the outside world.

At this time, Ye Feng was relieved and continued walking towards the interior of this ancient building.

At the same time, Ye Feng also released his huge soul power, which covered the surroundings like a tide. He could sense the danger in advance, and he could also detect the ancient flame essence that Murong Changming needed. The breath of dragon blood.

After all, the death state of the geniuses of the Murong family at the door of this building was so weird and miserable that Ye Feng had to be cautious. After all, he was careful to sail the ten thousand year ship.

Chapter 4475 Snake Nest

At this time, the Taigu Celestial Temple was suspended above Ye Feng's head, scattering pieces of golden light, forming an energy shield that allowed Ye Feng to resist sudden attacks from the outside world.

On the other hand, Ye Feng also released his huge soul power, allowing him to be aware of possible movements around him at any time.

"Uh-huh!"

And the moment Ye Feng walked into this building, a very strange black shadow suddenly attacked Ye Feng.

It seemed to be a kind of black vine, rushing towards Ye Feng's direction quickly, like an extremely strong black war spear, trying to pierce Ye Feng's entire body.

At this moment, Ye Feng immediately understood. The bodies of the young geniuses from the Murong family that he had seen before were all shriveled up. They seemed to have been sucked out of all their life essence. There was a small bloody hole on their head. It must have been these black vine-like things that pierced the head. .??.

At this moment, Ye Feng suddenly noticed what looked like a black vine attacking.

After all, Ye Feng's soul power is now spreading around him, so he is naturally very sensitive to sudden attacks around him.

So at this moment, Ye Feng didn't hesitate at all. He directly activated the Taigu Celestial Temple above his head and bombarded forward.

Boom! !

Almost at the next moment, the Taigu Celestial Temple collided with the black vine that attacked, making a huge roar.

What surprised Ye Feng the next moment was that such a powerful magic weapon from the Ancient Heavenly Temple did not break the black vine.

It just sent the black vine flying backwards.

"Huh? This is..."

Almost in the next moment, Ye Feng immediately saw clearly that the black vine that attacked him was not the tentacle vine of the plant as he imagined, but a very...

Weird black snake.

Almost at the next moment, Ye Feng was shocked to discover that there were densely packed black snakes hovering in the surrounding buildings and ruins.

Ye Feng only felt that he had arrived at a huge snake's nest!

At this moment, Ye Feng's scalp immediately felt numb.

Because among the ruins of the surrounding ancient buildings, all these black snakes are circling and living.

Moreover, this black snake is very strong. The snake scales growing on its surface are as if they were made of steel. They are very strong.

Even the extremely powerful magic weapon Ye Feng had just refined and obtained, the Ancient Heavenly Temple, was unable to bombard and shatter these black snakes.

But Ye Feng also knows that the main function of magic weapons like the Ancient Heavenly Temple is for defense.

The Ancient Heavenly Temple is mainly a defensive magic weapon, not an offensive magic weapon.

Buzz!

At this time, Ye Feng didn't hesitate at all and just moved the god ring on his finger.

Uh-huh!

At this moment, with a golden light, the God's ring on Ye Feng's finger directly changed its form and became a God's sword.

Ye Feng held the Sword of the Gods in his hand and used the Ancient Celestial Temple to protect himself. He attacked and defended directly and killed the black snake.

"Pfft!"

Sure enough, at this moment, Ye Feng used the God's Sword in his hand to kill the whole body of the black snake in half instantly.

Just like cutting a tofu, it was cut in half instantly and killed directly.

At this moment, seeing this scene, Ye Feng immediately showed a relaxed look in his eyes.

Sure enough, the God's Sword was still very powerful, and it easily cut these black snakes in half.

At this moment, Ye Feng directly released the Devouring Domain, devouring the blood of this black snake.

This black snake looks very small, like a slender black vine.

But the small body contains immense blood energy.

After all, you must know that this black snake can even defend against attacks from Ye Feng's Ancient Heavenly Temple.

It can be seen that the level of this black snake must be very high.

Otherwise, it would be impossible to fight against the Ancient Heavenly Temple that Ye Feng had just released.

After all, although the Ancient Celestial Temple is a defensive magic weapon, it was ultimately created by the commander-in-chief of the Celestial Clan.

Therefore, even if it is a defensive magic weapon, its attack is very terrifying and its destructive power is astonishing.

However, these black snakes were able to withstand the bombardment of the Ancient Heavenly Temple, which is enough to show that the level of these black snakes is still very high.

At this moment, after Ye Feng swallowed a black snake, he immediately felt that his skill had increased a lot.

Although Ye Feng did not directly break through, it also allowed Ye Feng to absorb enough energy.

Ye Feng could feel that his skill level had increased by nearly half.

What made Ye Feng's eyes shine even more was that among these black bodies, the blood contained very rare divine substances!

This made Ye Feng immediately show deep excitement in his eyes.

Ye Feng hasn't encountered a divine substance for a long time.

Unexpectedly, the ferocious black snakes that appeared in this place where the first generation ancestors of the Murong family rested, actually contained divine substances in their blood.

It can be seen that these black snakes definitely inherit a very ancient bloodline, so the bloodline contains divine substances.

At this moment, Ye Feng didn't hesitate at all. He went directly to the Taigu Celestial Temple above his head, with a bright divine light blooming all over his body. He held the Sword of the Celestial God in his hand and rushed into the surrounding buildings, frantically killing all the people. A coiling black snake.

Perhaps in the eyes of the young geniuses of the Murong family, these black snakes are hard to guard against and even more difficult to kill. They are like the God of Death in the dark, able to sneak up and kill people in an instant.

But for Ye Feng now, these weird black snakes have a huge effect on Ye Feng.

Because the blood of these black snakes contains divine substances, after Ye Feng swallows the blood energy of these black snakes, he can not only increase his own power, but also absorb the divine substances contained in these black blood to use for tempering. His own immortal body as a god.

You know, Ye Feng's physical strength has not been improved for a long time.

Ye Feng's current Immortal Body of the God has just been tempered to the first level of the third stage.

So at this time, Ye Feng suddenly encountered this kind of black snake that contained divine substances. Naturally, he wanted to kill all the black snakes. It happened that these black snakes took the initiative to provoke him, making Ye Feng aware of these. The blood of the black body contains divine substances, which can help Ye Feng's physical strength continue to grow.

At this moment, with deep excitement in Ye Feng's eyes, he quickly killed the nests of black snakes circling in these buildings.

Perhaps in the eyes of other young geniuses from the Murong family, the black snake was as weird as the god of death, but in Ye Feng's eyes, it became a meat and potatoes.

Chapter 4476 True Dragon's Lair

Boom!

At this time, Ye Feng fully unleashed all his power, and the God's Sword in his hand burst out with bright sword light, quickly killing the surrounding people.

The God's Sword in Ye Feng's hand is very sharp.

Although the scales growing on these black snakes are very strong, even the Ancient Temple of Heaven cannot destroy these black snakes.

But with the God's Sword in Ye Feng's hand, it can be said that each sword can kill a black snake.

At this time, with Ye Feng's killing, the blood energy that Ye Feng swallowed became more and more powerful. ??

Although these black snakes looked very small, they contained very majestic blood energy, which made Ye Feng's cultivation skills immediately begin to grow rapidly.

Ye Feng's cultivation momentum also began to break through rapidly.

You must know that Ye Feng has now broken through to the true first level of Guiyi Realm. Every breakthrough, even if it is only a small realm, requires a huge accumulation of energy.

However, these black snakes seemed to have very noble blood, so the energy contained in their small black bodies was also very powerful, causing Ye Feng's cultivation aura to suddenly begin to break through.

Ye Feng had just broken through to the first level of Guiyi Realm, and immediately began to break through again.

boom!

Return to the second level of the One Realm!

boom!

Return to the Third Heaven of the Realm of Return!

boom!

Return to the Fourth Heaven of the One Realm!

At this time, Ye Feng killed nearly thousands of black snakes, and finally allowed his cultivation level to break through the third heaven in a row, and directly stepped into the fourth heaven of Guiyi Realm.

Ye Feng's combat power also increased greatly at this moment, and Ye Feng's eyes suddenly revealed a look of deep surprise.

At this moment, the divine substances contained in the blood energy of the thousands of black snakes Ye Feng swallowed were also absorbed by Ye Feng.

Ye Feng's physique, Ye Feng's Immortal Body of God, after absorbing enough divine substances from the first level of the previous third stage, also transformed directly to the fifth level of the third stage!

You know, Ye Feng's Immortal Body of God is Ye Feng's foundation, and every improvement is very difficult.

r\u003e

Because divine substances are very rare.

But this time, Ye Feng himself did not expect that so many divine substances could be extracted and absorbed from the blood of these thousands of black snakes.

Let your Immortal Body of God grow directly from the first level of the third stage to the fifth level of the third stage. It can be said to be a huge progress!

At this time, Ye Feng could feel that his physical strength had indeed increased a lot.

Ye Feng used the power of his Immortal God Body a little, and immediately saw that his two soles turned into pure gold, with the power of stepping on the earth and breaking mountains and rivers.

The third stage of the Immortal Body of the God is to start tempering one's feet.

Now in the third stage of the Immortal Body of the God, it has received so many divine substances and transformed to the fifth level, which naturally makes Ye Feng's feet much stronger than before.

At this time, Ye Feng's eyes suddenly revealed a look of deep surprise.

Encountering these strange black snakes this time may be like the god of death to others, like poisonous snakes lurking in the dark that may give people a fatal bite at any time.

But for Ye Feng, it did allow Ye Feng to absorb enough blood energy, allowing Ye Feng to greatly improve his cultivation skills.

Moreover, the bodies and blood of these black snakes also contain very rare divine substances, which allowed Ye Feng's Immortal Body of God to be tempered from the first level of the third stage to the fifth level of the third stage.

At this moment, Ye Feng's physical strength was greatly improved.

This made Ye Feng very happy.

Even happier than having his cultivation level improved.

Because things that can improve cultivation are very common, such as some ancient elixirs, some high-level treasures of heaven and earth, as well as some enemy skills and blood energy, all of which can help Ye Feng improve his cultivation. .

But the physical strength that Ye Feng values most is very difficult to improve.

Ye Feng had never been able to encounter divine substances before, so he was delayed in the enhancement and evolution of his immortal body.

But this time, Ye Feng encountered this very special black snake. Its blood contained divine substances, which naturally made Ye Feng very happy.

At this moment, Ye Feng couldn't help but guess that in this place where the first generation ancestor of the Murong family slept, was there anything related to divine substances?

After all, these black snakes with special bloodlines cannot appear out of thin air.

And this place is like a snake nest. There must be something very special that gave birth to these special black snakes. .??.

So at this time, Ye Feng was even more looking forward to it.

If the place where the first generation ancestor of the Murong family is buried really contains good things related to divine substances, then it will definitely be of great help to Ye Feng.

After all, Ye Feng has always felt that improving his cultivation level is a very important thing for him.

But the improvement of physical strength is also very important.

Because Ye Feng knows that the stronger the body is, the stronger his martial arts foundation will be, and the higher the upper limit of his future cultivation will be. When fighting, the combat effectiveness displayed will naturally become more and more powerful.

So at this time, Ye Feng saw that the blood of these black snakes contained divine substances, and couldn't help but guess in his heart that there might be a peerless thing related to divine substances in the place where the first generation ancestor of the Murong family was buried. treasure.

At this moment, Ye Feng thought of this and without any hesitation, he immediately continued to fly quickly towards the depths of the burial place of the first generation ancestor of the Murong family.

Soon, Ye Feng came to the deepest part of the burial place of the first generation ancestor.

Ye Feng immediately saw a very shocking scene.

In the deepest area where the first generation ancestor of the Murong family was buried, a black tree with a height of tens of thousands of meters appeared unexpectedly.

This black tree is completely black, even the leaves are pitch black.

But at this moment, there is a huge nest on top of the black trees tens of thousands of meters high.

\u003e

In this lair, at this moment, there is a giant dragon covered with fiery red scales.

But what made Ye Feng breathe a sigh of relief was that this giant dragon covered with fiery red scales was completely dead and was just a corpse.

Ye Feng never thought that in the deepest place where the first generation ancestor of the Murong family was buried, there would be such a strange black tree growing. There was also a nest on the tree, which was the legendary true dragon's nest.

Ye Feng immediately understood in this time and space that the blood of the ancient flaming true dragon that Murong Changming asked him to search for should refer to the fiery red dragon in the true dragon's lair.

At this time, Ye Feng immediately flew over, wanting to put the giant dragon corpse covered with fiery red scales into his storage ring, and bring it back to Murong Changming for use.

This giant dragon covered with fiery red scales had actually completely shriveled up and lost all its life essence, making Ye Feng not even bother to devour it.

But Ye Feng could indeed sense some blood energy from the dragon's shriveled corpse.

"There should still be some blood left, just bring it back to Murong Changming for use."

Ye Feng couldn't help but murmured.

boom!

But just when Ye Feng was approaching the real dragon's lair on the black tree, suddenly the black tree in front of him, which was tens of thousands of meters tall, suddenly made a majestic voice: "Where did you come from, kid? You dare to come to the place where I am sleeping and disturb my rest. Moreover, you have the death aura of many dragon-blooded black snakes that I have bred on your body. Did you take those precious dragons that I bred? Have you killed all the blood-black snakes? This is a heinous crime! I want to kill you!"

Almost at this moment, with this majestic voice, the black tree in front of him, which was tens of thousands of meters tall, suddenly stood up from the ground.

Countless tree roots burst out from under the soil.

The entire black tree came alive, giving people a very strong sense of oppression, as if they had encountered a thousand-year-old tree demon!

Chapter 4477 Leave far away

At this moment, Ye Feng never thought that the black tree in front of him was actually a living creature.

And it is estimated that it has been practiced for thousands of years, or even tens of thousands of years. It is a very ancient tree demon, which gives people a very terrifying feeling.

After all, the majestic tree body, which is tens of thousands of meters tall, is completely dark and looks full of strong oppression.

Moreover, this tree was able to allow the flaming dragon to build its own dragon's lair on top of the tree, which is enough to show how terrifying and powerful this old black tree demon is.

At this time, before Ye Feng could think about it, the old black tree demon released a huge black vine and charged directly towards Ye Feng.

This black vine is a branch growing from the old black tree demon. It is very strong and very sharp. It hits Ye Feng instantly, and it feels like a black spear from the god. Able to penetrate everything.

At this moment, Ye Feng did not dare to take it lightly, and directly released the Ancient Heavenly Temple and blocked it in front of him.

A bang! !

Almost at the next moment, the black vine released by the old black tree demon bombarded the Taigu Celestial Temple in front of Ye Feng, and immediately made a metal collision sound like a bell, resounding throughout the room. The whole world.

At this moment, Ye Feng immediately felt a very terrifying power, which was directly transmitted from the black vine, and then transmitted to himself through the entire Taikoo Temple, making Ye Feng suddenly I just couldn't help but take a dozen steps back.

"What a powerful force!"

At this time, Ye Feng's eyes suddenly revealed a look of deep horror.

You must know that Ye Feng's current cultivation level has been greatly improved, and his physical strength has just been tempered by those divine substances and has become much stronger.

But even so, Ye Feng still couldn't block the power of a vine released by this old black tree demon.

Moreover, you must know that there is an Ancient Heavenly Temple in front of Ye Feng.

Therefore, Ye Feng was naturally frightened by how terrifying this old black tree demon's power was.

Ye Feng never thought that this place where the first generation ancestor of the Murong family was buried would actually give birth to such a terrifying thousand-year-old tree demon.

At this time, Ye Feng didn't hesitate at all and was immediately ready to leave.

After all, Ye Feng knew that he could not be the opponent of this thousand-year-old tree demon, so he could only leave here first.

In this small world of the Murong family's ancestral land, Ye Feng is planning to go to other places to look for other opportunities, and then improve his cultivation strength, and finally come to trouble this thousand-year-old tree demon.

After all, Ye Feng had promised Murong Changming that he would definitely help him find the blood of the flaming dragon from the ancient times.

And the body of the flaming true dragon is now in the true dragon's lair on the branch of this thousand-year-old tree demon.

Therefore, Ye Feng knew that he would definitely have a battle with this thousand-year-old tree demon.

At this time, Ye Feng immediately retreated quickly, wanting to leave here and not wanting to confront this thousand-year-old tree demon for the time being.

After all, this thousand-year-old tree demon just made a casual move, which made Ye Feng feel a very terrifying feeling that he couldn't resist.

At this time, seeing Ye Feng trying to escape, the thousand-year-old tree demon immediately made a cold and murderous voice: "It's impossible to escape now. You have killed so many precious animals that I have raised." The dragon-blooded black snake disturbed my sleep, and I must pay the price with my life."

Swish, swish, swish!

Almost at that moment, thousands of black vines sprouted from the body of this thousand-year-old tree demon.

All of them are like steel spears, with terrifying sharpness and piercing power, attacking Ye Feng, able to pierce the void, as if they can penetrate everything.

At this moment, Ye Feng immediately retreated quickly, using the extremely powerful defensive magic weapon, the Ancient Heavenly Temple, to guard in front of him to resist the attacks of thousands of vines.

Then Ye Feng resisted and retreated.

"Um?

"

Seeing this scene, the thousand-year-old tree demon suddenly showed a trace of surprise in his eyes, and then his face showed a deep greed, staring at the ancient temple suspended in front of Ye Feng. , said aloud: "This golden hall is definitely an extremely high-level super magic weapon. It can actually block the attacks of so many black vines like mine. You know, let alone you, a little Guiyi Realm boy, you are a Guiyi Realm boy." Even the super masters of the Time Realm level cannot stop my attack from thousands of black vines, but you kid did it. It must be relying on this extremely precious golden hall in front of you. What is this? A super magic weapon? It has such terrifying strength and defense. I must get it!"

At this moment, as the thousand-year-old tree demon spoke, he rushed towards Ye Feng crazily, wanting to keep Ye Feng here, kill Ye Feng, and snatch Ye Feng's Ancient Heavenly Temple.

At this moment, Ye Feng just smiled coldly and said: "If my cultivation level could reach a higher level, I would have killed you long ago, but now I will spare your life."

Uh-huh!

After saying that, Ye Feng instantly activated his void power and quickly fled in the distance.

Seeing that Ye Feng didn't say anything nonsense and wanted to run away directly, the thousand-year-old tree demon immediately became anxious and chased Ye Feng crazily.

But after Ye Feng left this area of ancient buildings, the thousand-year-old tree demon had no way to continue chasing him. He could only roar angrily in this area of ancient buildings.

"Um?"

Seeing this scene, Ye Feng suddenly had a look of surprise in his eyes.

It seems that although this thousand-year-old tree demon is extremely powerful and terrifying, there is no way to get out of the place where the first generation ancestor of the Murong family is buried.

At this time, Ye Feng couldn't help but guess that this thousand-year-old tree demon must have been an extremely vicious creature back then, and was sealed here by the first ancestor of the Murong family. There was no way to leave the place where the first ancestor of the Murong family was buried. of this place.

At this time, Ye Feng suddenly understood everything and left far away

here.

Because Ye Feng knew very well that this thousand-year-old tree demon was an extremely terrifying ancient creature, very powerful, and he could only fight it if he continued to improve his cultivation.

This time Ye Feng can be said to have failed and returned without getting the blood of the Ancient Flame True Dragon.

But Ye Feng had already found the body of the flaming true dragon from the ancient times, lying in the true dragon's lair on the branch of this thousand-year-old tree demon.

Therefore, Ye Feng needs to seize the next time and quickly find other opportunities to improve his cultivation in this small world inherited by the Murong family. Only then can he fight against this thousand-year-old tree demon and obtain The body of the flame dragon in the dragon's lair on the branch of this thousand-year-old tree demon got the blood of the flame dragon from it.

At this time, Ye Feng was thinking secretly, and then suddenly stretched out his finger and wrote a line of words in the outer area of the burial place of the first generation ancestor of the Murong family: "There are very vicious creatures among them, please don't Get close, or you'll die."

Ye Feng wrote such a paragraph at this time, naturally to remind the young geniuses of the Murong family not to be rashly attracted into this dangerous area.

This is the only thing Ye Feng can do, and it can be regarded as the most benevolent and righteous thing.

Next, Ye Feng left here quickly and flew quickly towards the other direction of this small world where the Murong family inherited their ancestral land.

You must know that in this small world where the Murong family inherits its ancestral land, there are still many opportunities left by some ancient strong men of the Murong family.

If Ye Feng could get some good cultivation resources left by the ancient strong men of the Murong family, it might be possible for Ye Feng to rapidly improve his cultivation strength in a short period of time.

Of course, this depends on Ye Feng's luck.

However, Ye Feng has powerful soul power and can detect various energy fluctuations within a few kilometers around him.

It can be said that Ye Feng has an extra cheating device compared to other young geniuses of the Murong family, and can quickly find various opportunities and fortunes in the small world of the Murong family's ancestral land.

Chapter 4478 Blood Pool

At this time, Ye Feng was flying around in the small world of the entire Murong family's ancestral land.

For Ye Feng, he shouldn't provoke the thousand-year-old tree demon now.

After all, the thousand-year-old tree demon is still very terrifying, and his cultivation strength is too strong.

You know, Ye Feng had previously released his own Ancient Celestial Temple, the Sword of the Gods, etc., very powerful inherited magic weapons, but there was no way to fight against that thousand-year-old tree. ??

Ye Feng even guessed that the cultivation strength of the thousand-year-old tree demon was probably two or three levels higher than his own now.

Although Ye Feng's fighting power is very terrifying, he will definitely not be the opponent of the thousand-year-old tree demon at present.

So at this time, Ye Feng felt that he was still in the small world of the Murong family's ancestral land, and he was looking for other opportunities to create fortunes. First, he could quickly improve his cultivation level, and then he would have a way to deal with that person. Thousand-year-old tree demon.

Ye Feng felt that he would have to break through at least a big realm before he could have a chance to fight the thousand-year-old tree demon head-on, and then get the ancient weapon lying in the true dragon's lair on the branch of the thousand-year-old tree demon. The body of the flame dragon.

At this time, Ye Feng was thinking in his heart, and then said aloud in his mind: "Emperor Chu, your soul power and detection power are stronger than mine. Now don't fall asleep. I want to ask you to help me find possible possibilities around me." Due to the opportunities that exist, you should be able to detect some very obscure energy fluctuations. My time is very tight now. I have to hurry up and find more opportunities so that my cultivation can be improved and my strength can be improved. Only by transformation can we fight against the terrifying thousand-year-old tree demon just now."

Hearing what Ye Feng said, Emperor Chu immediately nodded in his mind and said aloud: "That thousand-year-old tree demon is indeed a very powerful guy for you now, and he has bred these There is actually a divine substance hidden in the blood of the black snake's body, which means that there may also be a very strong divine substance in the body of this thousand-year-old tree demon. So if Ye Feng really has the ability to kill that thousand-year-old tree demon next, As for the old tree demon, he must drain all the life energy from his entire tree, and he will definitely be able to get a lot of divine substances."

Hearing this from Emperor Chu

So, Ye Feng's eyes suddenly lit up.

yes!

The bloodlines of the black snakes he had killed before contained so much divine substance, which greatly transformed his immortal body.

If this thousand-year-old tree demon who has cultivated so many black snakes can be killed, the trunk and body of this thousand-year-old tree demon must also contain a lot of divine substances.

After all, Ye Feng knows very well that this ancient and special creature can cultivate so many black snakes with divine substances, which is enough to show that this thousand-year-old tree demon itself must also contain a lot of divine substances. Otherwise, It is impossible to cultivate so many black snakes with divine substances.

Thinking of this at this time, Ye Feng was even more looking forward to killing this thousand-year-old tree demon.

At this moment, when Ye Feng was thinking about it, Emperor Chu in his mind suddenly said: "There seems to be obscure energy fluctuations about three hundred kilometers away from you in the southeast. Go and take a look. "

Hearing what Emperor Chu said, Ye Feng immediately nodded, and then quickly flew in the direction directed by Emperor Chu.

Soon, Ye Feng arrived at the place mentioned by Emperor Chu.

Ye Feng saw here that a broken building appeared in the boundless wilderness.

This area of dilapidated buildings seems to be an ancient village.

But now the village has been completely ruined and seems to have suffered a huge disaster.

All the living creatures in the entire village died and disappeared.

At this time, Ye Feng saw that there were many broken bones buried in the soil.

It should be left behind by the surviving tribesmen in this village.

Ye Feng knew that this small world was not only the ancestral land where the first generation ancestor of the Murong family was buried, but also the existence of the small world itself.

There are many native creatures.

For example, the giant crocodile that Ye Feng encountered in the swamp and the glacier snowman that he encountered in the snowfield are all native creatures of this small world and have nothing to do with the Murong family.

So at this time, Ye Feng was not surprised to encounter such a separate village in this small world.

Because in this small world, many local living creatures may be born.

At this time, Ye Feng walked directly into this village that seemed to have been in decline for a long time. ??

At this time, Ye Feng suddenly saw that the energy fluctuations that Emperor Chu mentioned were emanating from a stone tablet in the middle of the village.

This stone tablet is very huge. It looks like it is made of a very ancient black gold material. It looks like it has an inexplicable charm and momentum.

At this time, Ye Feng saw that this black gold stone tablet was still stained with a lot of dried blood.

Ye Feng immediately understood that this ancient stone tablet was probably a stone tablet specially used for sacrifice in this village back then, so it was so ancient and stained with so much blood.

These blood should be the blood of ferocious beasts that many tribesmen in this village captured from the wilderness and used them for sacrifice.

At this time, Ye Feng didn't have much interest in his eyes.

Because it was just a sacrificial stone tablet for a small village, although it emitted some energy fluctuations, it was just a very ordinary magic weapon, and Ye Feng didn't look down on it at all.

But at this moment, Emperor Chu suddenly said in his mind: "Ye Feng, take out this stone tablet and see what is under this stone tablet."

Hearing what Emperor Chu said, Ye Feng's eyes suddenly moved.

What I sensed was that the stone tablet itself was just an ordinary sacrificial instrument and had no great effect.

But Emperor Chu said that there seemed to be something extraordinary underneath this stone tablet.

This made Ye Feng's eyes flash, and then he stretched out his hand and grabbed the black gold stone tablet in front of him.

boom!

When Ye Feng pulled up the black gold stone tablet with force, there was a huge roar, and Ye Feng immediately saw that there was a huge blood pool under the ancient black gold stone tablet.

This blood pool immediately exuded a huge amount of blood energy, giving the impression that there were once countless ferocious beasts in the wilderness, and all the blood produced was accumulated here.

At this time, Ye Feng immediately understood that what Emperor Chu sensed should be the blood pool under the black gold stone tablet.

After all, in this blood pool, there may be so much blood accumulated by the clansmen of this ancient village who slaughtered many ferocious beasts in the endless wilderness.

This is a great tonic for Ye Feng.

Because these ferocious beasts and ferocious beasts from ancient times have very strong blood.

There must be a lot of energy in their blood.

And it has not been corrupted until today, which is enough to show that this ancient village must have been a very powerful spiritual and civilized village.

The ancient ferocious beasts and ferocious beasts they slaughtered in the endless wilderness must have been of a very high level, otherwise it would be impossible for their blood to remain uncorrupted to this day, looking very fresh and exuding strong blood energy.

At this time, Ye Feng's eyes were naturally filled with deep joy. Without any hesitation, he quickly released his Devouring Domain and began to devour the blood energy contained in the blood in the blood pool.

For Ye Feng, this is indeed equivalent to the Great Tonic Pill, which is equivalent to indirectly devouring the blood and energy of many ferocious beasts and monsters.

"Rumble..."

At this time, along with Ye Feng's devouring, streams of extremely majestic blood essence were immediately injected into Ye Feng's Dantian, allowing Ye Feng's skill to improve at an incredible speed!

Chapter 4479 Beast Fighting

At this time, Ye Feng could feel that his cultivation skills were growing at an incredible speed.

After all, the blood energy contained in this blood pool is extremely majestic.

You must know that the blood energy in this blood pool is most likely accumulated in this ancient village for hundreds of years.

After all, this black gold stone tablet was a place dedicated to ancestor worship in this ancient village.

Therefore, the very precious ferocious beasts killed by these ancient village strongmen were all placed in the blood pool under this stone monument for sacrifice.

But now they have all become the source of Ye Feng's power and the nourishment for Ye Feng's cultivation.

Buzz!

At this time, with the devouring, Ye Feng could clearly feel that his cultivation aura was growing at an incredible speed.

Boom!

Ye Feng suddenly burst out with a new and powerful cultivation aura.

Ye Feng's cultivation level immediately made a rapid breakthrough.

boom!

Return to the fifth level of heaven!

boom!

Return to the sixth level of the realm!

At this time, Ye Feng's cultivation level directly broke through two heavens in a row, from the fourth heaven of Guiyi Realm to the sixth heaven of Guiyi Realm.

This is already a big breakthrough and a big improvement for Ye Feng.

Because Ye Feng's current cultivation level has broken through to a new and powerful level of cultivation level, the Guiyi Realm.

Therefore, every time Ye Feng makes a breakthrough, the energy required is terrifying and majestic.

But just a small blood pool made Ye Feng's cultivation reach two levels in a row, which made Ye Feng very satisfied.

At this moment, Ye Feng did not hesitate and continued to observe other things in the ancient village around him.

See if there are any good cultivation resources that you can continue to devour.

But apart from this pool of blood, Ye Feng didn't find anything else.

This made Ye Feng's eyes suddenly show a hint of disappointment.

It seems that the heritage of this ancient village is a little weaker than I thought, and there are no very powerful magic weapon inheritance or ancient cultivation resources left behind.

However, being able to discover such a small blood pool and absorb the blood energy of so many ancient beasts and ferocious beasts allowed his cultivation to break through the second heaven and step into the sixth heaven of Guiyi Realm. Feng was very satisfied.

After all, Ye Feng knows very well that with his current level of cultivation, every breakthrough requires a huge amount of energy, so it is a good thing to be able to break through.

At this moment, Ye Feng exuded his soul power and continued to explore the surroundings.

But just at the moment when Ye Feng released his soul power.

A huge roar suddenly came from a certain direction not far away.

It seemed like someone was fighting in that direction.

This made Ye Feng's eyes suddenly reveal a look of deep surprise.

I didn't expect that I would be able to encounter a battle with a strong person.

Could it be the young geniuses of the Murong family?

At this time, Ye Feng did not hesitate and immediately left the ancient village and flew quickly in the direction of the roaring sound not far away, wanting to see what happened.

At this time, Ye Feng was very fast, and in a blink of an eye he arrived at the place where the battle he had just sensed took place.

Ye Feng immediately saw it at this moment

, those fighting not far ahead were not the young geniuses of the Murong family, but two behemoths.

One of the behemoths was a huge rhinoceros with black scales all over its body.

This huge rhinoceros, covered with black scales, was as big as a mountain and several kilometers tall. Every time it moved or ran, the entire earth shook crazily, and it seemed to be filled with a strong sense of oppression.

Moreover, on the top of the head of this rhinoceros, which is covered with black scales, there is a huge golden horn, like an ancient war horn, emitting bright golden light, which seems to be able to penetrate anything solid.

And the other behemoth fighting this majestic giant rhinoceros was a phoenix bird whose whole body was burning with flames.

This phoenix bird is a very mysterious bird. Its body is several kilometers long. With its wings spread out, it can even cover a distance of tens of thousands of miles. It makes people feel like an ancient bird god. Burning with crimson flames, it can spit out an endless river of flames when it opens its mouth, capable of burning everything and boiling a vast ocean dry in an instant.

At this time, these two very terrifying beasts were fighting on the desolate land in the distance. They probably disliked each other and wanted to kill each other.

After all, for this ancient beast, as long as anyone invades their territory, they will fight to the death.

At this time, Ye Feng saw these two behemoths fighting, and his eyes suddenly showed deep surprise.

Because these two behemoths, whether it is the golden-horned rhinoceros with black scales all over its body, or the phoenix bird with red flames burning all over its body, are extremely powerful beasts.

The ferocious aura exuding from their bodies made people feel like they were fighting ancient mythical beasts.

Ye Feng knows that this

The two ancient beasts were probably about as powerful as the thousand-year-old tree demon that he had encountered before.

However, the thousand-year-old tree demon is very strange and is probably more powerful than these two normal beasts.

But these two behemoths are already very terrifying.

The aftermath of their battle shattered the surrounding ground, making Ye Feng dare not approach rashly.

Ye Feng did not leave at this time, but carefully followed the battle between these two behemoths.

Because Ye Feng discovered that these two majestic beasts seemed to be focusing on a certain direction when fighting.

Ye Feng looked in that direction and found that the place where the two beasts had been paying attention was a lush primeval forest.

In this primeval forest, there is a towering mountain.

Ye Feng's eyes suddenly revealed a look of deep speculation.

It seems that these two behemoths did not fight casually. They seemed to be fighting for something in the mountains in the primeval forest.

Ye Feng's eyes suddenly lit up when he thought of this.

Taking advantage of the fierce battle between these two behemoths, Ye Feng used the power of the void to hide himself deeply in the void, and then quickly lurked towards the mountains of the virgin forest not far away. .

Although doing this is very dangerous, after all, if you are discovered by these two behemoths, you will be in a huge crisis.

But at this time, Ye Feng felt that being able to cause a life-and-death struggle between these two behemoths meant that the treasures hidden in the primeval forest mountains must be very precious. Ye Feng was naturally very interested, and he quickly moved in that direction. fly away.

Wealth can be found in danger, Ye Feng naturally understands this truth.

Chapter 4480 Imperial Mausoleum

Swish, swish, swish!

At this time, Ye Feng took the greatest risk and flew quickly towards the virgin forest not far away.

Ye Feng could actually observe that the reason why these two very powerful ancient beasts were fighting each other just now seemed to be because that mountain in the primitive forest seemed to contain something incredible and good.

After all, it can cause a fight between these two very high-level ancient beasts, which is enough to show that the good things hidden in that virgin forest and mountains must be of great value.

At this time, Ye Feng naturally watched the two behemoths fighting and fighting fiercely, and quickly flew away in that direction.

For Ye Feng, if he can find good things that these two behemoths are very interested in, his overall strength will definitely be greatly improved.

Because these two very high-level ancient beasts can fight for life and death, and the thing they want to fight for must be very extraordinary.

At this time, Ye Feng did not hesitate and quickly flew towards the primitive forest.

With the very magical power of the void hidden, Ye Feng successfully avoided the spiritual exploration of these two behemoths and came directly to the virgin forest not far away.

At this time, Ye Feng immediately saw that this primitive forest seemed to be very peaceful, and there were no wild beasts living in it. It seemed that they were all scared away by the battle between these two giant beasts.

At this time, after Ye Feng entered the forest, he directly emitted his soul power to find what the two ancient beasts were fighting for.

Soon, Ye Feng sensed some unusual energy fluctuations.

Uh-huh!

At this moment, Ye Feng immediately flew towards the energy wave quickly.

Soon, Ye Feng came to a mountain in the deepest part of this primitive forest.

☹️

At this time, Ye Feng was surprised to find that at the foot of the mountain in the primeval forest, a golden gate appeared, standing just like that on the ground.

This golden door looks very ancient, giving the impression that it is the door of an ancient god, with a very sacred and ancient atmosphere.

At this time, Ye Feng's eyes suddenly showed doubts.

Are those two ancient beasts fighting for this golden door?

But there seems to be nothing special about this golden door.

At this time, Ye Feng stepped forward very curiously, stretched out his hand, and touched the golden door.

Buzz!

Almost at this moment, this golden door burst out with a bright golden light.

Uh-huh!

Then this golden door suddenly rushed into Ye Feng's mind and floated in Ye Feng's mind.

At this moment, Ye Feng's eyes suddenly froze. It seemed that he had never thought that this golden door would run directly into his head before he had even refined it.

At this moment, Ye Feng immediately asked in his mind: "Emperor Chu, look at what this golden gate is? Is it some kind of treasure from ancient times?"

Hearing what Ye Feng said, Emperor Chu in his mind had actually noticed that something outside had entered Ye Feng's mind.

After all, Emperor Chu is in Ye Feng's head.

At this moment, Emperor Chu was immediately observing the golden door Ye Feng entered in his mind.

At this time, Emperor Chu observed it, and then couldn't help but said: "This seems to be a very ancient passage, an ancient passage?"

"Um?"

Hearing what Emperor Chu said, Ye Feng was stunned for a moment and couldn't help but said: "Emperor Chu, you mean that this golden door is not a magic weapon, but an ancient space door. Similar to a teleportation formation, leading to a mysterious place?"

Hearing what Ye Feng said, Emperor Chu nodded and said: "Yes, that should be the case, because I sensed a very ancient space energy fluctuation from this golden door, but I haven't found a way yet. Opening this golden door, I don't know where it leads."

Hearing what Emperor Chu said, Ye Feng couldn't help but nodded, and then said, "Let me investigate."

But just when Ye Feng was about to investigate, suddenly the golden door in Ye Feng's head burst out with a bright golden light, emanating from Ye Feng's head.

Then it shined directly on the mountain in front of Ye Feng.

Buzz!

Almost at the next moment, an ancient passage appeared on the surface of this mountain.

When Ye Feng saw this scene, his eyes suddenly showed a look of surprise.

This golden door seems to be able to open the space inside this mountain.

Uh-huh!

At this time, Ye Feng immediately entered the passage revealed by the mountain.

When Ye Feng entered this mountain passage, he immediately saw a very shocking scene.

I saw that a huge palace complex was built inside the entire mountain.

It's like an ancient emperor sleeping inside this mountain

.

At this time, Ye Feng immediately saw that there was a huge throne in the center of the palace complex.

This throne is entirely made of amethyst and looks very extraordinary.

Moreover, on the amethyst throne, there was a shriveled corpse sitting at this moment.

This corpse was still wearing ancient royal robes.

Seeing this scene, Ye Feng immediately understood.

The two behemoths who were fighting outside, the golden-horned rhinoceros and the phoenix divine bird, should be fighting over the ancient emperor's burial place hidden inside the mountain.

At this time, Ye Feng saw the entire palace complex inside the mountain, as well as the ancient emperor with a shriveled body sitting on the amethyst throne.

Ye Feng immediately understood. It seemed that an emperor from the ancient era was buried inside this mountain.

This seems to be an ancient imperial mausoleum!

At this moment, after Ye Feng understood all this, his eyes immediately revealed a look of deep surprise.

Unexpectedly, I accidentally found an emperor's tomb from ancient times.

There must be endless resources and treasures hidden in it.

At this time, Ye Feng glanced at the golden-horned rhinoceros and the phoenix divine bird fighting on the deserted land in the distance.

These two behemoths seemed to have not sensed the fluctuations here.

This made Ye Feng's eyes even more joyful.

It is estimated that these two behemoths are so confident that they would never have thought that someone would dare to come here privately and be able to avoid the spiritual exploration of these two behemoths.

It can only be said that Ye Feng's hiding ability is really powerful, and he is also very courageous.
