

Ancient 4481

Chapter 4481 Searching for Resources

At this time, Ye Feng was still very fortunate that he had the power of the void and could avoid the spiritual exploration of top ancient monsters such as the Golden Horned Rhinoceros and the Phoenix Divine Bird.

Moreover, the golden door obtained by Ye Feng opened the emperor's tomb space inside the mountain, and it did not cause much energy fluctuations.

Therefore, the two ancient beasts were not allowed to sense what was happening here.

At this time, Ye Feng still had time to quickly search for good things in this ancient emperor's tomb.

Buzz!

At this moment, Ye Feng directly exuded his soul power and spread towards the surroundings.

Ye Feng knew that time was running out now, and he might be discovered by the golden-horned rhinoceros and phoenix bird fighting in the distance at any time.

So at this time, Ye Feng naturally picked the best things to search for first.

At this moment, Ye Feng didn't hesitate at all, and immediately quickly searched for the good things in the entire emperor's tomb around him.

For Ye Feng, some ordinary high-level inheritance and the like are no longer needed by Ye Feng.

What Ye Feng wants most is something that can improve his cultivation skills.

At this moment, Ye Feng immediately discovered that there was a whole box of amethyst placed in a corner of the emperor's tomb inside the mountain.

These crystals seem to be a kind of energy amethyst. They are not ordinary crystals. They have very high-level and vigorous energy.

At this moment, Ye Feng naturally swallowed all these energy amethysts in his stomach.

Because if Ye Feng collected it directly into his storage ring and kept it for a long time, he might forget it.

Therefore, it is best to find it on the spot and swallow it on the spot to improve your own skills.

At this moment, Ye Feng swallowed the whole box of energy amethyst. Ye Feng immediately felt a very magical purple energy, which exploded in his entire body, and then grew rapidly. Follow your own skills.

Boom!

Almost at the next moment, Ye Feng's body immediately

It was a powerful momentum of cultivation that broke out.

Ye Feng made a breakthrough at this moment.

From the sixth level of Guiyi Realm, he broke through to the seventh level of Guiyi Realm!

It has to be said that the entire box of energy amethysts that Ye Feng swallowed was still very high-end. It was very difficult for Ye Feng to break through to the first level of the sky all at once.

At this time, Ye Feng continued to search, and soon found a golden elixir in a dilapidated palace in the golden mausoleum.

This golden elixir turned out to be in the form of a phoenix, and it was as big as a person's head.

Ye Feng immediately sensed a very powerful medicinal power from this golden elixir in the form of a phoenix.

At this moment, Ye Feng naturally did not hesitate and continued to swallow. In one fell swoop, he swallowed the phoenix-shaped pill that was as big as a head into his stomach.

Boom! !

Almost at the moment Ye Feng swallowed the phoenix pill, the shadow of an ancient phoenix appeared on Ye Feng's body.

Obviously, this elixir must be fused with special materials from the ancient phoenix, a mythical beast, so the moment Ye Feng swallowed this elixir, it was as if he had been blessed by the power of a phoenix.

Therefore, the energy contained in this golden elixir in the form of a phoenix is still very terrifying.

At this moment, Ye Feng immediately felt a very huge power of the elixir, exploding in his entire Dantian, and then rapidly increasing his power.

Boom!

Almost at the next moment, Ye Feng once again burst out with an extremely powerful cultivation aura.

Ye Feng's cultivation level actually broke through again, reaching the eighth level of Guiyi Realm!

At this time, Ye Feng's eyes suddenly revealed

A look of deep joy.

These cultivation resources are worthy of being found in the tombs of ancient emperors. They are indeed very high-end.

It is indeed something that the two behemoths want to fight for. The things buried in it are indeed very precious and priceless.

In just a short moment, Ye Feng's cultivation reached two levels.

At this time, Ye Feng naturally continued to look with deep expectation in his eyes, exuding his soul power, and continued to search for the good things in this ancient emperor's tomb. .??.

At this moment, Ye Feng quickly found the third thing that could improve his cultivation power.

It was a fruit that exuded bright blue light.

This blue fruit looks like it is made of jade, it looks very magical, and it is like a perfect work of art, giving people a very beautiful feeling.

But this is indeed not a work of art, but a real fruit.

At this moment, Ye Feng didn't care what kind of fruit it was, as long as it contained energy.

Ye Feng simply swallowed the blue fruit into his stomach.

"Boom!"

At this moment, Ye Feng once again felt a very terrifying energy surging through his body.

At this moment, Ye Feng's skill continued to be greatly improved, and he directly broke through to the ninth level of Guiyi Realm.

At this moment, Ye Feng's eyes were filled with deep surprise.

Unexpectedly, in just a short moment, I swallowed a box of energy amethyst, swallowed a golden pill, and now I swallowed this very magical-looking blue fruit, and my cultivation level suddenly improved. Successive breakthroughs can be described as huge gains.

This made Ye Feng's eyes suddenly show deep excitement.

Taking the risk to come here this time was indeed a very wise choice.

“I didn’t expect that I would encounter such an ancient emperor’s tomb that stored so many advanced cultivation resources.

At this time, Ye Feng continued to look for other good things.

In fact, there are many other precious treasures in this emperor's tomb.

Of course, it may be a treasure to ordinary people.

For example, some golden armors and some powerful weapons.

But these are nothing to Ye Feng.

There are even some ancient inheritances, but they are not as powerful as some of the powerful inheritances that Ye Feng is currently practicing.

For example, Ye Feng obtained the Jun family's peerless inheritance, the Ice Dragon Domination Body Technique.

In addition, the rewards Ye Feng received from the upper echelons of the Blood Demon Dynasty, including a set of powerful inheritance called the Dragon and Tiger Law, were not as good as the inheritance Ye Feng was practicing now.

So Ye Feng just looked at these things casually and put them directly into his storage ring, waiting to be sold later.

At this time, what Ye Feng is looking for is naturally something that can be used on the spot and can quickly improve his cultivation power.

After all, Ye Feng felt that if he searched for the cultivation resources in the emperor's tomb here, he would probably be discovered sooner or later by the two ancient beasts fighting outside.

By then, he might be chased by these two ancient beasts.

Therefore, I am now using these cultivation resources as much as possible to improve my cultivation strength. Maybe I can directly confront those two ancient beasts.

At this moment, Ye Feng continued to search.

Buzz!

But suddenly, Ye Feng sensed a very strong energy fluctuation and immediately looked in a certain direction.

The next moment, what made Ye Feng feel a little chilled in his heart was that the shriveled emperor's corpse sitting on the purple crystal throne not far away had green light in his eyes and he slowly lifted it up. The head is looking at me, very strange...

Chapter 4482 Immortal Golden Pill

At this time, Ye Feng's eyes suddenly revealed a look of deep horror.

I never expected that in the tomb of an emperor from this ancient era, the emperor's corpse would be resurrected.

At this time, Ye Feng immediately began to use his soul power to protect his soul.

But at this moment, the resurrected emperor's corpse did not directly attack Ye Feng.

Instead, he slowly stood up from the amethyst throne, looked at Ye Feng, and uttered an ancient voice: "Young man, please give me some resources. This is not a big deal. I will tell you what you want next." What you said is very important." .??.

Hearing what the emperor's corpse in front of him said, Ye Feng suddenly had a look of surprise in his eyes.

It seemed that he never thought that the resurrected emperor's corpse would actually want to discuss something with him.

At this moment, Ye Feng suddenly asked: "I wonder what the important thing that senior wants to tell me is?"

After all, eating people has a short mouth and grabbing people has short hands. Ye Feng has just received a lot of cultivation resources in the emperor's tomb, which has improved his cultivation. So at this time, Ye Feng plans to listen to the emperor's corpse first. What to say.

At this moment, the emperor's corpse immediately spoke out: "The two ancient beasts fighting outside were the guardian spirit beasts under my command back then. After my death, I was buried here. Their original duty was to protect My mausoleum, I didn't expect that in order to get the treasure in my mausoleum, they fought with each other and woke me up from my sleep. But I have just woken up now and my strength is still very weak, so I want to cooperate with you, a young man, to kill my two guardian spirit beasts directly. Otherwise, when they see me waking up, they will definitely find ways to kill me, my former master."

I heard that the emperor's corpse was like this

Said, Ye Feng's eyes suddenly showed a look of astonishment.

Ye Feng never thought that the golden-horned rhino and phoenix bird fighting outside were actually the guardian spirit beasts left behind by the emperor's corpse.

At this moment, Ye Feng suddenly showed a trace of thinking in his eyes, and then said loudly: "Yes, I can cooperate with you, but you also know, senior, that with my current cultivation strength, even if I just got I have a lot of cultivation resources in this mausoleum of my predecessor, and I have just been promoted to the ninth level of Guiyi Realm. However, the two ancient beasts fighting outside, the golden-horned rhinoceros and the phoenix divine bird, are two full heights taller than me. They are very powerful beings, and their fighting power is very terrifying, and they may have special bloodline talents. Even if senior and I join forces, I guess we are no match for those two ancient beasts now, let alone senior, you are really You are very weak. I can feel it. Senior, your current aura is so weak that you may not be able to defeat me. "

At this moment, Ye Feng's words were very direct and did not save the emperor's corpse at all.

But Ye Feng said it directly.

Because Ye Feng knew that his life might be in danger if he wanted to deal with those two ancient beasts, so it was better to tell the truth.

At this time, after hearing Ye Feng's analysis of the situation, the emperor's corpse immediately smiled slightly, walked towards Ye Feng from the Crystal Throne area not far away, and said with a smile: "Don't worry, since I want to talk to you. If we cooperate, I will definitely come up with a very good solution."

When Ye Feng saw the emperor's corpse walking over, he immediately took a few steps back.

After all, Ye Feng was still somewhat wary of the emperor's corpse.

Carefully, in case the other party suddenly attacks you.

After all, he and the emperor's corpse had only exchanged a few words, not even friends.

Seeing Ye Feng take a few steps back, the emperor's corpse immediately shook his head, smiled, and said loudly: "Young man, don't worry, I won't take action against you, because I have long sensed that there is something in your head. You are a very terrifying existence. If I take action against you, I will definitely die."

"Um?"

Hearing what the emperor's corpse said, Ye Feng suddenly showed a look of surprise in his eyes.

It seemed that he did not expect that the emperor's corpse could actually detect the aura of Emperor Chu in his mind.

Because Ye Feng knew that what the emperor's corpse said was that there was a very terrifying existence in his head, and it was definitely Emperor Chu.

At this time, Ye Feng immediately nodded and said, "Then what should we do now?"

The emperor's corpse smiled and said: "My current body is completely dead, so the immortal golden elixir condensed by my cultivation is not of much use to me now. I now use my soul

completely." The state is still alive, so I can give you the Immortal Golden Pill directly. After you swallow it, your cultivation level will increase dramatically, and your combat effectiveness will be rapidly improved. "

"What?" ??

Hearing what the emperor's corpse said at this moment, Ye Feng's eyes suddenly widened slightly.

It seemed that he never thought that the emperor's corpse would actually give him an immortal golden elixir that he had condensed through hard work.

Ye Feng knows very well that only the most powerful person, after practicing to the end, can condense a heart composed entirely of skills in his body.

The immortal golden elixir.

At this time, Ye Feng's eyes immediately shone and he couldn't help but said: "Is what the senior said true?"

The emperor's corpse immediately nodded, smiled and said: "Of course."

After finishing speaking, the emperor's corpse took out a fist-sized golden bead directly from his withered body, which was emitting a faint golden light.

This golden bead is the immortal golden elixir condensed from the emperor's corpse.

This immortal golden elixir contains the most powerful crystallization of the emperor's body during its heyday, and it contains very majestic energy.

Even though he was far away, Ye Feng instantly sensed the energy contained in this immortal golden elixir, which was very majestic and terrifying.

At this moment, Ye Feng didn't hesitate at all, and immediately said with bright eyes: "Okay, as long as senior can give me this immortal golden elixir, after my cultivation has skyrocketed, I will

definitely devote myself to it." Help senior deal with the two guardian spirit beasts who betrayed you."

Hearing what Ye Feng said, the emperor's corpse immediately nodded, and then suddenly said: "Can I make a small request?"

Hearing what the emperor's corpse said, Ye Feng immediately nodded.

Ye Feng knew that the emperor's corpse must have other plans, and it was impossible for him to give such a precious immortal elixir to him casually.

Even if he needs his own help to deal with the two betraying guardian spirit beasts outside, he can't be so generous.

At this time, Ye Feng was guessing what kind of demands the emperor's corpse would make of him.

If it's not too much, Ye Feng should agree.

Chapter 4483 Strengthening the Soul

At this time, Ye Feng was waiting for what kind of demands the emperor's corpse would make for him.

At this moment, the emperor's corpse standing in front of him seemed to think for a moment, and then said aloud: "Young man, what is your name?"

Hearing the emperor's corpse ask this question, Ye Feng suddenly showed a look of surprise in his eyes, and then said loudly: "My name is Ye Feng."

The emperor's corpse immediately nodded and said loudly: "Ye Feng Ye Feng, as free as the wind, is a good name."

Hearing what the emperor's corpse said, Ye Feng's eyes suddenly showed a look of astonishment.

I didn't expect that such a simple and ordinary name would be praised by this emperor's corpse.

There is really nothing to do.

And just when Ye Feng was stunned, the emperor's corpse also expressed his request.

I saw the emperor's corpse looking at Ye Feng's head, cupping his hands, and said loudly: "I hope you can agree to my request, that is, you can make the mysterious existence in your mind, what I sense That great existence, help me strengthen my soul. I just woke up, and my soul is still very unstable, so I need a big boss at the soul level to help me strengthen my soul. Only in this way can I survive forever. , otherwise, during the battle later, I will most likely be attacked by the two guardian spirit beasts who betrayed me, and my currently unstable soul will be dispersed. "

Hearing the emperor's corpse say this at this moment, Ye Feng's eyes suddenly froze.

He thought the emperor's corpse had some very unreasonable demands, but he didn't expect it to be so simple.

At this time, Ye Feng just smiled and said, "Of course, it's very simple. I'll just tell him and it'll be over."

After finishing speaking, Ye Feng said directly in his mind: "Emperor Chu, please help this emperor's corpse and strengthen his soul. This is just a trivial matter."

At this moment, hearing Ye Feng agree so simply, the emperor's corpse suddenly showed deep astonishment in his eyes.

It seems that Ye Feng did not expect that Ye Feng directly agreed to this matter on behalf of the great being in his head.

After all, the reason why the emperor's corpse was so cautious in stating his request was mainly because he felt that the great being in Ye Feng's head must be an extremely terrifying being, and might not listen to Ye Feng's words.

That's why he used a negotiating tone, but he didn't expect Ye Feng to agree directly.

In other words, the great existence in Ye Feng's mind listens to Ye Feng.

Hearing what Ye Feng said at this time, the emperor's corpse was naturally extremely surprised. He never thought that Ye Feng could directly command the great being in his mind to do anything.

After all, the emperor's corpse had a very strong sense just now. The very great existence in Ye Feng's head had an extremely terrifying aura, and it was definitely not an existence he could imagine.

Unexpectedly, he actually listened to Ye Feng.

At this time, the emperor's corpse was naturally even more shocked by Ye Feng.

He felt that Ye Feng was definitely not a very ordinary young man, but an extremely terrifying being. He could actually command such a great being in his mind in such a weak state.

It's really unimaginable.

The emperor's corpse was naturally a little shocked at this moment.

At this time, Ye Feng didn't think so much, because he and Emperor Chu had met a long time ago and were very familiar with each other. It was not that he ordered Emperor Chu to do anything, but that the two of them could talk about everything casually. .

at this time

After Ye Feng finished speaking, Emperor Chu in his mind immediately nodded and flew out of Ye Feng's head.

Buzz!

At this moment, a soul giant radiating red light suddenly emerged from Ye Feng's head, and then floated directly above Ye Feng's head, exuding an ancient and sacred aura. breath.

Ye Feng guessed at this time that Emperor Chu's memory fragments had probably awakened a lot, otherwise, it would be impossible for such a sacred temperament to appear again.

At this time, Ye Feng began to guess the origin of Emperor Chu. It was definitely very mysterious. Maybe he came from a higher level of cultivation outside the world of origin.

At this time, when Ye Feng was thinking in his heart, the emperor's corpse standing in front of him had already respectfully saluted Emperor Chu and said loudly: "See you, senior!"

At this time, the emperor's corpse was in front of Emperor Chu, and he felt the boundless sense of holiness and vastness. He even called Emperor Chu his senior.

At this time, this scene made Ye Feng in front of him immediately have a cheerful smile on his face.

It seems that Emperor Chu is still very good at bluffing people.

At this time, Emperor Chu just nodded slightly, and then directly stretched out a red soul hand and pressed it on the head of the emperor's corpse in front of him.

At this moment, Emperor Chu's majestic soul power directly enveloped the emperor's corpse in front of him, making the soul and soul of the emperor's corpse suddenly stabilized.

It has to be said that Emperor Chu's methods at the soul level are getting more and more powerful now. With just one move, the soul of the emperor's corpse can be stabilized.

Uh-huh!

At this moment, after Emperor Chu had done all this, he flew into Ye Feng's head again.

At this time, the emperor in front of him

The corpse was very surprised and excited. He quickly saluted Ye Feng's head respectfully and said, "Thank you, senior."

At this time, when the emperor's corpse looked at Ye Feng, his eyes became more solemn than before.

At this time, the emperor's corpse immediately said: "Then the two of us can cooperate completely."

At this time, the emperor's corpse continued to speak: "Ye Feng, hurry up and swallow this immortal golden elixir of mine. It can greatly enhance your power. In this case, we can deal with the two outside Betrayed my guardian spirit beast."

Hearing what the emperor's corpse said, Ye Feng couldn't bear it any longer. He immediately grinned and said, "Okay."

"Gulu!"

At this moment, Ye Feng swallowed the golden elixir the size of a human head.

Boom!

Almost the moment Ye Feng swallowed this immortal golden elixir, Ye Feng immediately felt a terrifying and majestic ability, which was immediately injected into his Dantian.

Terrifying energy, like ancient dragons, surges through his entire body, entire meridians, and entire flesh and blood.

In an instant, Ye Feng felt that his skill was increasing at an incredible speed.

Ye Feng's cultivation temperament also skyrocketed crazily at the same time.

After all, this is an immortal golden elixir condensed by an ancient emperor. It contains the essence of the ancient emperor's skills that he has cultivated for a lifetime, so the energy contained in it is naturally terrifying to the extreme.

The energy in the immortal golden elixir is like a vast ocean, like an endless river, surging in Ye Feng's body, wildly increasing Ye Feng's power!

Chapter 4484 I can't help it

At this time, Ye Feng's skill immediately grew rapidly and continuously.

Ye Feng's cultivation momentum also broke through at this moment, and the breakthrough was very fast.

Because the energy and skill contained in this immortal golden elixir are too fierce and advanced.

"boom!"

The Great Perfection of the Tenth Heavenly Realm of Returning to Oneness!

At this moment, Ye Feng's cultivation level directly broke through to the tenth level of Guiyi Realm, the Great Perfection. There was almost no obstacle at all, and it was a direct breakthrough.

Moreover, at this moment, Ye Feng's cultivation aura is still growing.

suddenly at a certain moment

"Boom!"

Ye Feng's cultivation level once again made a breakthrough.

From the tenth level of the Guiyi Realm to the Great Perfection, one directly crosses an entire realm and breaks through to the Half-Step Time Realm above the Guiyi Realm!

At this time, Ye Feng's eyes naturally showed deep surprise.

Unexpectedly, the immortal golden elixir left behind by the emperor's corpse for so many years could actually allow him to directly break through to the half-step time realm.

Although it is only one foot that has stepped into the realm of years above the Guiyi realm, it is already very difficult. This is already a very huge improvement.

At this time, Ye Feng entered the Half-Step Realm of Time, and Ye Feng's combat effectiveness was unparalleledly improved.

At this time, Ye Feng became more confident and said quickly: "Let's go directly to deal with those two ancient beasts now."

Although the two ancient beasts, the golden-horned rhinoceros and the phoenix divine bird, were very powerful, they were the guardian spirit beasts of the emperor back then.

But at this moment, Ye Feng has broken through to the half-step time realm, and there is such an emperor's corpse to help him.

Therefore, Ye Feng felt that dealing with the two guardian spirit beasts should not be a big problem.

Although the two guardian spirit beasts are also very powerful, Ye Feng has made so many breakthroughs now that he is no longer so fearful.

At this moment, seeing Ye Feng break through to the half-step age realm in just a short moment with the help of the Immortal Golden Pill, even with the emperor's corpse in front of him, he couldn't help but have deep amazement in his eyes. color, speak out

Said: "Your devouring ability is really powerful. In my time, there has never been such a weird and domineering devouring ability like yours. In just a short moment, you can absorb all the energy of my immortal golden elixir." Everything is digested and then converted into your own cultivation skills. This efficiency is really high. "

Hearing the emperor's corpse say this at this moment, Ye Feng just grinned and didn't say much.

Then Ye Feng walked quickly towards the outside of the emperor's mausoleum with the emperor's corpse.

At this time, when Ye Feng walked out of the emperor's tomb, he immediately saw the two giants fighting each other not far away. At this moment, they all looked at the place where he was.

Obviously, these two behemoths have noticed the movement here.

At this time, Ye Feng's eyes suddenly revealed a deep look of indifference. He looked at the two ancient beasts and said loudly: "You two didn't protect this tomb here properly, and you actually turned against each other because of greed. You betrayed your master back then and broke your promise, and you will all pay the price for it today."

Hearing what Ye Feng said, the faces of the two ancient beasts, the golden-horned rhinoceros and the phoenix divine bird, suddenly showed expressions of deep shock and anger. It seemed that they had never imagined that there was such a person when they were fighting. The young boy lurked in the mountains behind them, and even entered the tomb of the emperor's body they wanted to get.

At this moment, the golden-horned rhinoceros immediately made a majestic and terrifying voice, and said loudly: "Damn boy, cunning boy, you actually took advantage of our fight and profited by being sneaky. You must die."

Boom!

Almost at that moment, the huge and majestic body of the golden-horned rhinoceros crossed thousands of mountains and rivers and came to Ye Feng.

The thick golden rhinoceros hooves, like ancient mountains, were bombarded crazily from high in the sky, making Ye Feng feel a heavy pressure at this moment.

It has to be said that these two ancient beasts are indeed the subordinates of the emperor in ancient times.

The two powerful guardian spirit beasts below are still very terrifying in strength.

The golden-horned rhinoceros that attacked at this moment had extremely terrifying destructive power.

But at this time, Ye Feng's cultivation also relied on the immortal golden elixir to break through to the half-step time realm.

So at this moment, Ye Feng didn't have any fear at all, and directly attacked with a fierce fist.

Boom! !

When Ye Feng's golden fist collided with the golden-horned rhino's huge hoof, a huge roar suddenly sounded across the field.

The sound waves generated by this roar had extremely terrifying destructive power. All the surrounding mountains and earth were quickly shattered, creating an extremely terrifying scene.

The surrounding area turned into countless ruins in an instant, and a tragic aura suddenly appeared on the entire field.

I have to say that the aftermath of the collision between Ye Feng and this golden-horned rhinoceros was really terrifying.

At this time, Ye Feng was not repulsed, but the golden-horned rhinoceros was knocked back several steps.

"What? How is this possible?"

At this moment, the golden-horned rhinoceros saw the scene in front of him, and immediately felt some pain in his hoof.

He immediately stared at Ye Feng in disbelief, staring at this human boy who looked very small. He couldn't help but exclaimed: "Human boy, how can you have such a terrifying body? You... A humble human boy, as small as an ant, can actually withstand my hoof, this is impossible! "

Hearing what the golden-horned rhinoceros said at this moment, Ye Feng just smiled and said: "There is nothing impossible in this world. You think it is impossible because your knowledge is too narrow."

Almost the moment Ye Feng finished speaking, the golden-horned rhinoceros immediately shouted angrily: "Boy, you are too arrogant!"

After finishing speaking, the golden-horned rhinoceros looked at the phoenix divine bird beside him and said loudly: "This kid is really weird. A small human boy has such a strong power."

With great cultivation strength, this boy definitely has an extraordinary origin. We can only work together to kill this boy first. Anyway, the emperor's tomb has been opened by this boy using some inexplicable means. As long as this guy is killed, we will share the treasure in the tomb equally. "

Hearing what the Golden-horned Rhino said, the Phoenix Divine Bird immediately nodded and said, "I want the immortal golden elixir that was bred in the emperor's body. That one must be given to me."

When the golden-horned rhinoceros heard what the Phoenix Divine Bird said, he immediately nodded and said, "Okay."

But just when these two giants agreed to divide everything.

Suddenly, a figure that frightened them appeared around Ye Feng.

It was the emperor's corpse.

At this time, the emperor's corpse slowly walked out from behind Ye Feng, with a cold and majestic expression on his face. He looked at the golden-horned rhinoceros and the phoenix bird, and said angrily: "You two, actually You dare to betray me after so many years. If I hadn't woken up early, you two would have succeeded."

"What?"

At this moment, when they saw the emperor's body appearing behind Ye Feng and walking out, whether it was the golden-horned rhinoceros or the phoenix, their expressions suddenly changed.

Even though their cultivation is very strong, they still subconsciously feel fear when they meet their former master.

But almost at the next moment, the golden-horned rhinoceros immediately revealed a ferocious look in its eyes and said loudly: "Phoenix Divine Bird, don't be afraid of him. He has just woken up now, and his soul has not been stabilized yet. He must still be very weak. If he continues It is impossible for him to become the powerful person he was back then. We must kill him directly so that we can break the inner demons in our hearts."

Obviously, the emperor's corpse was the owner of these two ancient beasts, so they could only kill the owner to break the inner demons controlled in their hearts.

At this moment, the Phoenix Divine Bird also showed a deep murderous look in its eyes, and said loudly: "Yes, even if he was our master back then, it was of no use. Now we must kill him, Our destiny must be in our own hands, I can't help it!"

Chapter 4485 The joining of super strong men

When the Phoenix Divine Bird said that my fate was up to me, this ancient beast immediately launched a very fierce attack.

"boom!!"

At this moment, the body of the phoenix divine bird suddenly erupted with a very terrifying red flame light.

These crimson flames of light suddenly condensed in front of the phoenix bird, forming a long river of flames. They rushed directly towards Ye Feng and the emperor's corpse, and quickly attacked Ye Feng and the emperor's corpse. Burn them all directly to ashes.

At this time, I have to say that this phoenix bird is still very cruel. Even her former master will completely kill her former master at this time.

Seeing this scene at this time, the emperor's corpse was completely disappointed.

Originally, he thought that his words might be able to make these two guardian spirit beasts turn around.

Unexpectedly, the Phoenix Divine Bird and the Golden-Horned Rhino didn't listen to him at all, and directly launched a very violent attack on him, trying to completely kill his former master.

At this time, the emperor's corpse immediately looked at Ye Feng beside him, and said in a very disappointed voice: "It seems that these two traitors have completely betrayed me, so let's take action and kill them all."

Ye Feng immediately nodded when he heard that the emperor's body was full of murderous words at this time.

He knew that the emperor's corpse had completely given up on the two guardian spirit beasts.

At this moment, Ye Feng naturally did not hesitate at all, and directly inspired the power of his Celestial Clan.

You know, Ye Feng's current cultivation level has just made a huge breakthrough, so the power of the Celestial Clan released by Ye Feng at this time is even more terrifying.

Ye Feng waved his fists, each fist bursting with brilliant golden light, like two suns, bursting out from Ye Feng's fists, and suddenly bombarded forward, and the Phoenix God The flame released by the bird is long

The rivers collided directly.

Boom! !

At this moment, the entire field suddenly erupted with a huge roar.

Almost at the next moment, Ye Feng immediately felt the terrifying flames, which melted his two fists and burned them to ashes.

At this time, Ye Feng's eyes suddenly showed surprise.

This phoenix divine bird is still very scary.

The power of fire released by the Phoenix Divine Bird is indeed very terrifying. It has extremely terrifying burning power and can burn everything.

But at this time, the emperor's corpse also took action.

With the help of Emperor Chu, the corpse of the previous emperor had completely stabilized his soul.

Therefore, the emperor's corpse is now able to exert some of its strength back then.

At this time, only the emperor's corpse was seen, and a huge emperor's scepter was taken out directly from his storage ring.

Almost at this moment, a bright golden light burst out from the scepter.

These bright golden lights condensed directly on the scepter of the emperor's corpse, forming a very majestic figure.

This majestic figure should be the clone of the emperor's corpse. It was very powerful. It attacked directly forward and shattered the long river of flame released by the phoenix bird.

Seeing this scene, the golden-horned rhinoceros couldn't sit still and rushed towards the emperor's corpse.

The golden-horned rhinoceros does not use any bloodline magical powers, because the golden-horned rhinoceros itself has very terrifying destructive power.

force.

The golden-horned rhinoceros has a towering body of several kilometers. In addition, the golden-horned rhinoceros is covered with dense black scales and the golden horn above his head is like a war horn. Rhinos have the power to collide and break everything.

At this time, the four strong men immediately collided.

However, the golden-horned rhinoceros and the phoenix divine bird are very powerful after all. They are ancient beasts at their peak, and their strength is still very powerful.

So at this time, for a moment, the golden-horned rhinoceros and the phoenix divine bird had the upper hand.

Even if Ye Feng and the emperor's corpse join forces, they are still somewhat unable to withstand their attacks.

At this time, Ye Feng did not hesitate and directly released the Bone Demon Saint from his storage ring.

You must know that the White Bone Demon Saint was the first generation of saints in the Northern Territory of the Ten Thousand Demons Interface.

Although he has just been resurrected, the Bone Demon Saint has also recovered a lot of strength in Ye Feng's storage ring during this period. ??

So at this time, Ye Feng directly released the White Bone Demon Saint, and immediately a super strong man joined him.

The moment the Bone Demon Saint appeared, it was very shocking.

After all, although the body of the White Bone Demon Saint is a skeleton, it is also a majestic skeleton tens of thousands of meters long, which is very shocking.

At this moment, looking at the tens of thousands of meters of white bones and skeletons that suddenly appeared, even the phoenix bird and the golden-horned rhinoceros, these two ancient beasts were shocked.

They immediately couldn't help but stare at Ye Feng, and said in shock: "Human boy, who are you? How can you have so many means?"

At this time, Ye Feng smiled coldly and said: "You don't care who I am, what you have to care about is whether you can leave here alive today.

inside. "

Boom! !

Almost at this moment, Ye Feng issued an order to the Bone Demon Saint, which was to attack the golden-horned rhinoceros and the phoenix divine bird crazily.

At this time, the Bone Demon Saint naturally took action directly.

You must know that the bones of the White Bone Demon Saint are extremely strong. Even the flames of the Phoenix Divine Bird or the golden horns of the Golden Horned Rhino cannot destroy the skeletal body of the White Bone Demon Saint.

So at this moment, the golden-horned rhinoceros and the phoenix divine bird were immediately entangled by the Bone Demon Saint and could not get away at all.

At this moment, Ye Feng did not waste this good opportunity, and immediately released the extremely powerful magic weapon he had obtained before, the Ancient Heavenly Temple.

Boom!

Almost at this moment, Ye Feng's Ancient Heavenly Temple was released directly.

The golden hall, which was thousands of meters tall and towering, exuded bright divine light, suddenly appeared above Ye Feng's head, and suddenly bombarded the golden-horned rhinoceros and phoenix bird in front.

Boom!

You must know that this ancient heavenly temple is a powerful magic weapon forged by a certain commander of the Celestial Clan back then, and it has the power to destroy everything.

At this moment, under Ye Feng's crazy attack, the two ancient beasts, the golden-horned rhinoceros and the phoenix divine bird, were somewhat unable to resist. They were vomited blood and their breath suddenly became weak.

At this moment, the emperor's corpse seized the opportunity and immediately moved the golden scepter in his hand, releasing an earth-shattering golden giant shadow.

This golden giant phantom flew out from the scepter, and in an instant completely killed the golden-horned rhinoceros and the phoenix divine bird, which were about to lose their strength after being beaten by Ye Feng and the Bone Demon Saint. The ancient beast was completely killed at this time!

Chapter 4486 The Holy Mountain of Ten Thousand Demons

At this time, Ye Feng's eyes suddenly revealed a look of deep surprise.

Unexpectedly, the scepter in the hands of the emperor's corpse could exert such great power.

Although the golden-horned rhinoceros and the phoenix divine bird have been suppressed by Ye Feng and the Bone Demon Saint together, they have almost exhausted all their power.

However, the physical strength of these two ancient beasts is still very terrifying and very resistant to beatings.

Unexpectedly, the golden giant released by the scepter in the hand of the emperor's corpse instantly killed these two ancient beasts.

It has to be said that this emperor's corpse must have been an extremely terrifying superpower in its heyday.

Even after so many years of death, he still has very powerful methods.

Ye Feng had no doubt that if the emperor's body had not sensed the aura of Emperor Chu in his mind, it would probably not be possible for him to take him so seriously.

After all, in the eyes of the superpowers of this ancient era, I am probably just as weak as an ant.

At this time, Ye Feng didn't think much, but directly released the Devouring Domain.

Buzz!

Suddenly, the devouring realm of infinite darkness spread out from Ye Feng's body, immediately covering the bodies of the two behemoths, the golden-horned rhinoceros and the phoenix divine bird, which were killed.

At this moment, Ye Feng's Devouring Domain quickly and continuously absorbed the majestic blood energy from these two behemoths.

You must know that whether it is the golden-horned rhinoceros or the phoenix divine bird, they are both very powerful beasts. They are guardian spirit beasts in ancient times. They are very powerful in strength and have noble blood.

Therefore, the blood energy contained in their bodies is simply sufficient.

At this time, after Ye Feng devoured these two behemoths, he immediately received an extremely terrifying energy, which was like a vast ocean, instantly injected into his Dantian.

The aura of cultivation in Ye Feng's body immediately increased rapidly!

Boom!

Almost at this moment, without any hindrance, Ye Feng's cultivation completely broke through the current bottleneck.

It is a direct breakthrough to a new level of cultivation, the first level of the Time Realm!

You know, it is still very difficult for Ye Feng to break through this big bottleneck of an entire realm.

It may take many years of accumulation of skill to achieve a breakthrough.

But at this moment, the energy provided by the two ancient guardian spirit beasts, the golden-horned rhinoceros and the phoenix divine bird, to Ye Feng was so huge that it reached an extreme level, so Ye Feng was able to accumulate breakthroughs at this moment. The current bottle that is very difficult to break through

Neck, completely entered a new level of cultivation!

At this moment, Ye Feng could immediately feel the endless power surging through his body.

Moreover, Ye Feng could sense that his combat power was many times stronger than before.

At this time, Ye Feng felt that if he was fighting the two ancient beasts just now, he would not need the help of the Bone Demon Saint at all. He could deal with these two powerful ancient beasts by himself.

At this time, the emperor's corpse standing not far away stared at Ye Feng in amazement.

He saw the whole process of Ye Feng devouring the entire guardian spirit beast.

Ye Feng swallowed up all the energy in the guardian spirit beast's body, and then it became his own power, and he broke through in an instant.

This ability is really terrifying to the extreme and also weird to the extreme.

Even the emperor of this noble ancient era felt a sense of panic.

But at this time, the emperor's corpse didn't say much.

Because he knew that Ye Feng was an extremely mysterious human race boy and came from the outside world. He probably wouldn't have much interaction with him in the future.

So at this time, the emperor's corpse just watched Ye Feng, swallowing up all the blood and energy of his two guardian spirit beasts, without stopping him or caring about anything.

After all, being able to form a good relationship with a mysterious young man like Ye Feng might be able to use this good relationship in the future.

After all, no one can predict fate.

At this time, Ye Feng finished devouring it and looked directly at the emperor's corpse not far away. He smiled and said: "Senior, the matter is done, so I will leave first."

At this time, after Ye Feng broke through to the real first level of the Time Realm, he finally felt that he had the ability to fight the thousand-year-old tree before.

However, Ye Feng knew that as he was only at the first level of the Time Realm, he would probably have no problem fighting the thousand-year-old tree demon.

But if you want to completely kill the thousand-year-old tree demon, it may still be a bit difficult.

So at this time, Ye Feng looked at the emperor's corpse in front of him and immediately asked: "Senior, you lived in this small world back then, and you should be very familiar with this small world. Senior, do you know this small world?" In what other area is there a lot of chance and good fortune?"

Hearing Ye Feng ask this, the emperor's corpse thought

After a moment, he said aloud: "Thirty thousand miles southeast of here, there is a place called the "Ten Thousand Demons Holy Mountain". This Ten Thousand Demons Holy Mountain is composed of countless towering mountains. I am afraid that there are There are thousands of mountain peaks. In the glorious period, there was an extremely powerful monster saint living on each of them. It is recognized as the most mysterious and unpredictable place in our small world. But now there are thousands of mountains. Thousands of years have passed, and the Holy Mountain of Ten Thousand Monsters has long been in ruins. But after all, it is the place where thousands of super strong monsters have lived. Ye Feng, go and take a look. Maybe you can find many monsters back then. The chance that the saint of the clan left behind."

Hearing what the emperor's corpse said, Ye Feng's eyes suddenly lit up and he immediately said: "Holy Mountain of Ten Thousand Demons? It seems like a good place. I'll go over and take a look."

At this time, Ye Feng felt that if he could get a lot of opportunities in the next Ten Thousand Demons Holy Mountain and improve his cultivation level, he would definitely be able to completely fight against the first generation ancestor of the Murong family. That thousand-year-old tree demon in the land.

At this time, Ye Feng said goodbye to the emperor's corpse without any hesitation, and then flew non-stop towards the Holy Mountain of Ten Thousand Demons.

But just when Ye Feng turned around, the emperor's corpse behind him suddenly seemed to think for a moment, and then said, "Ye Feng, wait a moment."

Hearing the sudden words spoken by the emperor's corpse behind him, Ye Feng turned around immediately, with a confused look in his eyes and asked: "Senior, what's wrong? Is there anything else?"

The emperor's corpse walked in front of Ye Feng, and then suddenly stretched out a bone finger, touched Ye Feng's forehead, and said: "It is fate to meet you, and you will help me this time." , completely stabilized my soul, and helped me kill the two guardian spirit beasts who betrayed me. Now I pass on my most powerful inheritance to you, Ye Feng, as my thanks to you. "

After the emperor's corpse finished speaking at this moment, a very mysterious secret of inheritance was immediately injected into Ye Feng's mind through the fingers of the emperor's corpse.

The emperor's corpse said aloud: "This set of natal inheritance I have practiced is called the 'Golden Giant Spirit God'. After practicing to the end, I can directly condense it into a majestic and boundless golden giant spirit god, with the power of the ancient giant spirit god. , the attack I just dealt with the two guardian spirit beasts was the golden giant spirit god I had cultivated. I stored it in my magic weapon scepter and can be used at any time without requiring me to output additional power. "

Hearing what the emperor's corpse said, Ye Feng's eyes suddenly lit up.

It seems that the cultivation method of this golden giant spirit god is not only a simple method of cultivating the Dharma, but also a method of cultivating the traditional methods.

The mentioned cultivation method of external incarnation is related to the incarnation of a golden giant spirit god that can be directly and slowly cultivated.

When confronting the enemy, you can release this golden giant spirit god at any time to deal with the enemy without consuming your own power.

At this time, Ye Feng nodded very gratefully and said loudly: "Thank you, senior, for the gift."

After saying that, Ye Feng quickly flew towards the direction of the Ten Thousand Monsters Holy Mountain mentioned by the emperor's corpse.

Along the way, Ye Feng passed through nearly half of the small world, passing through many different types of terrain, including desert swamps, primitive jungles, very weird places where

skeletons walk, and even some places that can only be seen underground. Pass through the underground cavern lair.

But in the end, Ye Feng finally successfully arrived at the place where the emperor's corpse said was the most glorious and mysterious place in the small world, the Holy Mountain of Ten Thousand Demons.

At this moment, Ye Feng emerged from a hole in the ground and looked toward the end of the earth in the distance.

Suddenly he saw ancient peaks standing on the vast land in front of him.

Thousands of peaks, all pitch black, standing together, look full of a very strong visual impact.

At this time, Ye Feng did not hesitate at all and immediately flew towards the place where the countless mountains stood in front of him.

Because that is the destination of Ye Feng's trip, the Holy Mountain of Ten Thousand Demons.

It was the most glorious and mysterious place in this small world back then.

There are many monster saints living there, as well as many great monsters with powerful strength, all of whom are practicing and surviving here silently.

Buzz!

At this time, Ye Feng had just approached the area of the Ten Thousand Demons Holy Mountain, and he immediately felt a strong breath of death.

Ye Feng immediately understood. It was estimated that the Holy Mountain of Ten Thousand Demons had already been reduced to ruins.

Those demon saints and powerful demons back then had probably died in the turmoil.

This made Ye Feng couldn't help but feel horrified in his heart.

I don't know what happened to this small world back then. The powerful Murong family had to move out of this small world, and it also caused so many demon saints and powerful demons to die in their own way. place.

But at this time, in order to quickly break through his cultivation power and deal with the thousand-year-old tree demon, Ye Feng decided to enter the Ten Thousand Demons Sacred Mountain area.

Although it is very risky, this is now the best place for Ye Feng to find advanced opportunities.

Chapter 4487 The corpse of the ancient demon clan

At this moment, Ye Feng walked directly into the dark mountains in front of him.

For Ye Feng, this time he traveled thousands of miles to come to the most mysterious and unpredictable place in the small world, the Holy Mountain of Ten Thousand Demons, in order to find very advanced training resources to quickly improve his strength.

In this case, Ye Feng would be able to fight the thousand-year-old tree demon where the first ancestor of the Murong family was buried, and have a chance to kill it.

So at this time, Ye Feng naturally hopes to find good things in this mysterious and unpredictable Holy Mountain of Ten Thousand Demons.

Because ordinary chance creation is no longer of much use to Ye Feng who is currently practicing.

For example, right now, at this moment, many young geniuses of the Murong family may be in other safer places in this small world, looking for the opportunities left by some strong men of the Murong family back then.

Those young geniuses from the Murong family are no longer on the same level as Ye Feng.

Ye Feng no longer liked what they wanted, or in other words, it was of no practical use to Ye Feng at all.

Therefore, what Ye Feng is looking for now is naturally to go to very dangerous places in order to find high-level opportunities that satisfy him and allow him to quickly improve his strength.

Therefore, this time Ye Feng ventured to this sacred mountain of ten thousand demons, naturally hoping to find enough high-level cultivation resources.

After all, according to what the emperor's corpse said, this Holy Mountain of Ten Thousand Monsters was home to many extremely powerful monster saints, as well as great monsters with heavenly strength. They all lived and practiced in this Holy Mountain of Ten Thousand Monsters. Pass.

Therefore, the things they left behind must be very precious and high-end.

At this moment, Ye Feng walked into this sacred mountain of ten thousand monsters and immediately felt a very strong aura of death permeating the air.

Obviously, a very terrible turmoil and chaos occurred in this Holy Mountain of Ten Thousand Demons, which resulted in the death of all the demon saints and those powerful demons, so there were so many deaths. Qi.

In this day and age, this glorious land

The Demonic Holy Mountain has become a ruin.

At this time, Ye Feng was walking among the mountain peaks, and he immediately saw many broken ruins, as well as some ruins caused by terrible battle fluctuations.

This made Ye Feng immediately confirm his inner guess.

This sacred mountain of Ten Thousand Demons, and even this entire small world, may have been invaded by a very terrifying force back then, and that's why it turned into such a ruined and dilapidated state now.

At this time, Ye Feng shuttled among many collapsed ruins. Suddenly Ye Feng saw a collapsed palace on a mountain peak.

Uh-huh!

Ye Feng flew over immediately.

Because Ye Feng had already sensed a very powerful energy fluctuation from this collapsed palace.

Being able to emit such powerful energy fluctuations is enough to show that there must be something very precious inside this collapsed palace.

After all, you must know that in this area of the Ten Thousand Demons Sacred Mountain, there were no ordinary creatures that survived at that time. They were all demon saints and ancient demons with extraordinary strength.

The things they left behind, even if they were just small things, were definitely very high-end things for Ye Feng who was currently in the realm of cultivation.

At this time, Ye Feng immediately flew towards the collapsed hall on this mountain peak.

The next moment Ye Feng saw it, there was a demon corpse that looked very fresh in the collapsed hall.

At this time, Ye Feng saw that the entire top of the monster's corpse was pierced by a very terrifying weapon, and he died here.

But tens of millions of years have passed, and this corpse has not yet decayed, which is enough to show that this corpse was definitely an extremely terrifying existence back then.

At this moment, Ye Feng immediately released the Devouring Domain without any hesitation and began to devour the dead demon.

This dead monster looked like a human being, but it had a leopard head and a tail like a steel whip. I don't know what kind of monster it was, but it must have been a very powerful one back then. A strong man from the demon race.

Buzz!

At this time, along with Ye Feng's devouring, a stream of very high-level ancient demon clan energy was immediately devoured by Ye Feng, sucked out, and then injected into Ye Feng's Dantian, allowing Ye Feng's cultivation skills to What's happening is that it's growing rapidly.

Boom!

Almost at the next moment, Ye Feng's body suddenly burst out with a powerful aura of cultivation.

Ye Feng actually broke through.

Directly breaking through from the first level of the Time Realm to the second level of the Time Realm!

It has to be said that the monsters living in this monster holy mountain area are indeed very powerful.

The monster corpse that Ye Feng accidentally encountered at this moment actually made Ye Feng break through to the next level.

After all, you must know that Ye Feng has broken through to such a profound level as the Time Realm. Every breakthrough, even if it is just through a small realm, is very difficult and requires extremely majestic energy to accumulate.

But it was just the corpse of a monster. The remaining blood energy allowed Ye Feng to break through and reach the second level of the Time Realm. It can be said that Ye Feng was very surprised.

At this time, Ye Feng also saw a box next to the corpse of the ancient demon.

This made Ye Feng's eyes suddenly reveal a look of deep surprise.

Back then, this big demon was killed by some kind of terrifying weapon, most likely because of robbing this box.

Uh-huh!

At this moment, Ye Feng immediately picked up the box and opened it.

The next moment, Ye Feng's eyes suddenly showed a look of surprise.

I saw that inside this box, there was actually a round bead that exuded a faint light.

This bead is all over the body

The golden piece feels like the inner elixir of a five-clawed golden dragon.

But Ye Feng couldn't sense any energy from this golden bead.

In other words, this golden bead is not an energy-based thing, and it will be of no use if you swallow it yourself.

However, since this ancient monster clan held the box tightly in his arms before dying, it is enough to prove that the golden bead in the box is definitely something extraordinary.

At this time, Ye Feng immediately asked aloud in his mind: "Emperor Chu, what do you think this golden bead is? Is it some kind of magic weapon? But I can't sense any fluctuations in the magic weapon, nor can I sense it. Any required energy means that this golden bead is neither a magic weapon nor the inner elixir of a strong demon clan, nor is it an elixir. Emperor Chu, can you tell what it is?"

At this moment, Emperor Chu in his mind immediately took a look at it, and then said aloud: "I can't judge the specific function of this golden bead at the moment. You put it in your head first and let me study it."

Ye Feng immediately nodded, put the golden bead into his mind, and asked Emperor Chu to study it.

At this time, Ye Feng suddenly thought of the Bone Demon Saint in the storage ring, and immediately released the Bone Demon Saint.

After the White Bone Demon Saint came out of the storage ring at this time, his eyes immediately showed joy, and he quickly said: "I feel that there is a strong aura of death in the surrounding environment. This is not good for me." It is said to be of great help. After all, I am dead now and living in a skeleton state. I really need this death energy, which can greatly restore my strength. "

Hearing what the Bone Demon Saint said, Ye Feng immediately smiled and said, "Of course I know this, so I let you go."

Hearing what Ye Feng said, the White Bone Demon Saint suddenly showed a look of surprise in his eyes. He looked at the surrounding black mountains and looked very depressed. He couldn't help but said: "What place is this? It feels like a Very extraordinary place."

Chapter 4488 Green Dragon Phantom

At this time, when he heard the White Bone Demon Saint ask this question, Ye Feng immediately nodded and said: "This place is called the Ten Thousand Demons Holy Mountain. It was a very mysterious place in this small world. Back then, in this Ten Thousand Demon Saint Mountain, In the mountains, there is a demon saint living on every peak, and countless ancient demons live and practice here. It is the most glorious place in this small world, but it seems to have experienced an unknown event. The disaster caused the current glorious end and turned into a land of ruins. The main reason I came here this time was to find the remains of those demon clan sages and Tongtian great demons in this sacred mountain. The opportunity that comes down can quickly improve my cultivation strength."

Hearing what Ye Feng said, the White Bone Demon Saint immediately nodded, and then said: "I am very sensitive to the aura of death. I can help you find places where the aura of death is very strong. Where the aura of death is very strong, The place must be the place where the demon saints and those ancient demons finally fell, and maybe there are good things left behind by them hidden there."

"Um?"

Hearing what the Bone Demon Saint said, Ye Feng's eyes suddenly lit up.

yes!

The Bone Demon Saint was originally a creature from the underworld, a being with the attributes of death formed after death.

Therefore, the White Bone Demon Saint is very sensitive to the aura of death.

This is more accurate than emitting soul power to look for energy fluctuations.

At this time, Ye Feng originally just wanted to release the White Bone Demon Saint so that he could absorb more of the death energy here and regain his strength as soon as possible.

After all, the strength of the Bone Demon Saint is also very terrifying.

If the White Bone Demon Saint can continue to restore his own strength, it will be of great help to Ye Feng in the future.

So at this time, Ye Feng released the White Bone Demon Saint. His original idea was to let the White Bone Demon Saint simply absorb the death aura from the surrounding Holy Death Mountain.

Unexpectedly, Ye Feng had new ideas when the Bone Demon Saint said such words.

At this time, Ye Feng immediately nodded and said quickly: "Okay, then Bai

Bone Demon Saint, please sense the place where the aura of death is very strong around you. It should indeed be the area where many monster saints and ancient demons died. There must be good things left behind after their deaths. "

The Bone Demon Saint immediately nodded, and then said aloud: "However, in the area where the demon saints and ancient demons died, there are probably some immortal souls, and these souls are still very terrifying."

When Ye Feng heard this, he immediately smiled and said: "You don't have to worry about this. The so-called undead souls in the soul state, or the ancient high-level undead souls, are nothing at all in my eyes."

Hearing what Ye Feng said, the Bone Demon Saint suddenly thought of the Heaven's Gate that Ye Feng had used to deal with him before. He immediately nodded and said, "Okay, I understand."

At this moment, the Bone Demon Saint immediately began to sense the aura of death around him, and immediately said aloud: "I have sensed a place with the strongest aura of death. I will take you there now."

Ye Feng immediately nodded and followed the White Bone Demon Saint to fly quickly in that direction.

Soon, they passed through a large mountain peak and arrived at a deeper place in the Holy Mountain of Ten Thousand Demons.

A huge valley appeared here.

At this moment, the Bone Demon Saint immediately said: "The place where the death aura I sensed is the strongest is in this valley. This may have been the location of a very tragic battle back then."

Hearing what the White Bone Demon Saint said, Ye Feng immediately nodded, and then directly led the White Bone Demon Saint down towards the valley.

At this moment, Ye Feng immediately saw that there were indeed many ancient corpses and bones in this valley, most of which were decayed and broken.

And the entire surrounding valley was shattered.

It seems that the Bone Demon Saint was right, this place was indeed a very tragic battlefield back then.

At this moment, Ye Feng didn't hesitate at all, and flew directly to the valley quickly, and then wanted to find the things left over from the battle that year.

After all, this is the Holy Mountain of Ten Thousand Demons, where many demon saints and even ancient demons lived and cultivated.

Those fighting in this valley must be the demon saints and ancient demons who lived in the Ten Thousand Demons Holy Mountain.

The things left behind after their death must be very precious.

However, what made Ye Feng quite disappointed at this moment was that he did not see the very fresh monster corpses that he had encountered before. All of them were already decayed and destroyed in the battle.

However, Ye Feng found several magic weapon fragments among the ruins.

After tens of millions of years, these magic weapon fragments still exude a faint divine light, which is very magical.

Although these magic weapon fragments are no longer of much use, Ye Feng still puts them all into his storage ring.

Because the materials that can be used to cast these magic weapons must be very high-end, when the time comes to bring them back to the Blood Demon Dynasty and contribute them to the Blood Demon Dynasty's research institutions, they will definitely be rewarded with huge resources.

After all, this is considered waste utilization.

At this moment, Ye Feng continued to search, and finally found a storage ring buried underneath among the ruins.

This storage ring is the only thing that is well preserved in this tragic battlefield in the entire valley.

Seeing that this ancient storage ring seemed very extraordinary, Ye Feng immediately revealed a look of deep surprise in his eyes.

"This storage ring is still complete. I don't know what is hidden inside..."

At this moment, Ye Feng immediately released his soul power and wanted to open the storage ring.

Boom!

But just

The moment Ye Feng touched this storage ring.

Inside this storage ring, a bright green light suddenly bloomed.

These green rays of light suddenly condensed into a huge phantom of a blue dragon.

This green dragon phantom looked very ferocious. He stared at Ye Feng in front of him with his teeth and claws, and immediately let out a cruel laugh: "Jie Jie Jie, after so many years, finally a living creature has come here. , I found this storage ring of mine, human boy, your body belongs to me from now on!"

Uh-huh!

After saying that, the green dragon phantom burrowed directly into Ye Feng's head.

"be careful!"

Seeing this scene at this moment, the Bone Demon Saint beside him couldn't help but exclaimed: "This green dragon phantom is definitely the remnant soul of an ancient demon that fell here. It is attached to the storage. Above the ring, it's for the person who wants to get this storage ring."

"boom!"

But the moment the White Bone Demon Saint finished speaking, endless crimson light suddenly burst out from Ye Feng's head.

It was Emperor Chu who took action.

It directly destroyed the green dragon phantom instantly.

"ah!"

At this moment, the Bone Demon Saint could only hear a scream in Ye Feng's mind, and then everything calmed down.

This made the Bone Demon Saint immediately reveal a look of deep horror in his eyes.

He knew that Ye Feng had completely destroyed the terrifying Azure Dragon Phantom.

This speed is really too fast.

Therefore, it shows that there is something very terrifying hidden in Ye Feng's head, which is beyond the imagination of the Bone Demon Saint.

At this time, the Bone Demon Saint was very lucky that he begged for mercy in front of Ye Feng.

It is estimated that there is something more terrifying in Ye Feng's head than the Heaven's Gate that dealt with him before.

Chapter 4489 The inheritance of the peerless demon clan

At this time, Ye Feng didn't hesitate at all and just asked Emperor Chu to take action to destroy the green dragon phantom.

Perhaps this green dragon phantom was a very powerful ancient demon with heaven-reaching strength during his lifetime.

But now this Azure Dragon Demon only has a remnant soul left, so this Azure Dragon phantom has no way to fight against the Chu Emperor in Ye Feng's head.

After all, you must know that during the time when Emperor Chu was sleeping, Emperor Chu's power over the soul became stronger and stronger.

So the moment the green dragon phantom appeared, Ye Feng didn't even need to react on his own.

He directly let this blue dragon phantom enter his head.

Because Ye Feng knew very well that the fate of this green dragon phantom entering his head was very simple, that is, immediate death.

Because Emperor Chu, a great god at the soul level, is sitting here, in his mind, he is not afraid of the attacks and damage from the so-called remnant souls of ancient demons such as Qinglong Xuying.

At this time, Ye Feng did not hesitate and opened the ancient storage ring he had obtained.

This storage ring should be the natal storage ring of the Azure Dragon Demon back then.

He has retained it to this day, and its resources and wealth have certainly not been consumed.

So at this time, Ye Feng felt that there must be very precious cultivation resources in this ancient storage ring.

Buzz!

At this moment, Ye Feng opened the storage ring without any further hesitation.

Because the remnant soul of the Azure Dragon attached to the storage ring had been completely obliterated by Emperor Chu, at this time, there was no longer any obstacle for Ye Feng to open the storage ring, and he directly opened the storage ring in front of him. .

Buzz!

The moment the storage ring opened the space, Ye Feng's eyes suddenly lit up.

.

Because Ye Feng immediately discovered that there were many good things in this storage ring.

Most of them are very ancient weapons and armors, which are made of special materials. Although Ye Feng cannot use them himself, he can sell them after he brought them out of this small world and returned to the Blood Demon Dynasty in the interface of ten thousand monsters. Go and exchange for huge wealth.

In addition, there are some powerful ancient magic weapons in the storage ring, which should be precious treasures left by the ancient demons who lived here in the Ten Thousand Demons Holy Mountain.

In addition, Ye Feng also found a lot of ancient elixirs from this storage ring.

The grades of these ancient elixirs are very high, and the medicinal power contained in them is very majestic.

Ye Feng guessed that the elixirs should have been refined by the Azure Dragon Demon himself.

It is estimated that it has been left in the storage ring without being used, just to wait for so many years, he will take another person's body again, resurrect it, and use it for himself.

But this Azure Dragon Demon was so unlucky. He met Ye Feng, a monster boy who couldn't be guessed by common sense.

For Ye Feng, these ancient elixirs are all good things and can be swallowed directly to improve his skills.

Wow!

So at this moment, Ye Feng didn't hesitate and just swallowed the pills in the storage ring like fried beans.

"boom!"

Almost at the next moment, streams of extremely majestic elixir power exploded directly in Ye Feng's body.

Ye Feng immediately felt that his power was growing at an incredible speed.

At this moment, Ye Feng's skill and cultivation momentum were rapidly and continuously making breakthroughs.

Ye Feng just broke through the first level of the sky, and now he continues to break through again.

boom!

The third level of the Time Realm!

boom!

The fourth level of the Time Realm!

boom!

The fifth level of the Time Realm! !

At this time, Ye Feng's eyes suddenly revealed a look of deep surprise.

Unexpectedly, the medicinal power in these ancient elixirs was so powerful. As expected of the high-level elixirs forged by the Azure Dragon Demon himself, it actually allowed me to break through the third heaven in a row and step into the fifth heaven of the years. It can be said that It was a huge improvement, and Ye Feng was very surprised.

At this time, Ye Feng continued to search among the storage rings and found another ancient book.

The moment Ye Feng opened the book, five big characters were written on the cover: Azure Dragon Destroying Heaven Claw.

At this time, Ye Feng's eyes suddenly revealed a look of deep surprise.

It seems that he has received another very powerful set of peerless demon clan inheritance.

After all, for Ye Feng, the inheritance Ye Feng currently has is actually very limited, and it has slowly been unable to keep up with Ye Feng's current use of realm improvement.

So at this time, Ye Feng can obtain the peerless inheritance of an ancient demon in the Ten Thousand Demons Holy Mountain. This is naturally of great significance to Ye Feng and allows Ye Feng to exert more powerful combat effectiveness.

At this moment, the Bone Demon Saint, who had witnessed the entire process, suddenly showed deep amazement in his eyes.

\u003e Because he saw with his own eyes that Ye Feng swallowed so many pills at once and refined them instantly, which greatly improved his cultivation.

And he broke through the third heaven in a row!

This is simply unimaginable to ordinary people.

And in addition, the White Bone Demon Saint also saw that Ye Feng had learned to use this set of inheritance at the moment he saw the peerless inheritance of the Azure Dragon Demon.

Buzz!

At this moment, Ye Feng suddenly stretched out his hand and activated the inherited secret of the Azure Dragon's Heaven-Destroying Claw.

At this moment, Ye Feng's hand expanded rapidly, and then directly expanded into a blue dragon claw. It had very terrifying power and lethality, and it could instantly destroy a large mountain in the distance. It was broken into pieces in an instant.

When Ye Feng saw this terrifying destructive power, his eyes suddenly revealed a look of deep surprise.

It seems that this set of inheritance of the Azure Dragon Great Demon is still very powerful. It is worthy of being the peerless demon inheritance of a demon saint from the Ten Thousand Demons Holy Mountain.

At this time, Ye Feng's eyes suddenly showed deep joy.

This time I came to the Holy Mountain of Ten Thousand Demons, and I really gained a lot. Not only did I get so many ancient elixirs, which made my cultivation level break through so much, but I also got a set of peerless demons from the Azure Dragon Demon. family inheritance.

This is very precious.

This is probably impossible to estimate by price outside.

Because this is something that even money cannot buy.

Only by going deep into these very dangerous places can we get this kind of luck.

At this moment, Ye Feng has no doubt that if this secret book of the Azure Dragon's Heaven-Destroying Claw is spread to the outside world, it will probably cause a huge bloody storm in the entire Ten Thousand Demons interface!

Chapter 4490 The Broken Ancient Battlefield

At this time, Ye Feng was very satisfied after testing the power of the Azure Dragon's Heaven-Destroying Claw.

Because of the Azure Dragon Sky-Destroying Claw, after Ye Feng used it, the destructive power it caused was extremely terrifying.

After all, Ye Feng's own body is the immortal body of a god, which is very powerful.

In addition, the Azure Dragon Heaven-Destroying Claw itself requires a very powerful physical force to be very powerful when used.

Because this Qinglong Heaven-Destroying Claw was also a martial arts inheritance created by a peerless demon clan strongman like Qinglong Da Yao.

And this kind of Azure Dragon Great Demon is definitely a very terrifying powerful demon clan in the Ten Thousand Demons Sacred Mountain.

Therefore, only practitioners with strong bodies can exert the strongest power by using the Azure Dragon's Heaven-Destroying Claw.

At this time, Ye Feng was very satisfied, then he looked at the Bone Demon Saint beside him and said, "Continue to see if there are any other good things in this valley."

The White Bone Demon Saint immediately nodded and said, "Now I can absorb the air of death directly in this valley, which can greatly enhance my power."

Ye Feng nodded and said, "Then you can just absorb it with peace of mind."

After saying that, Ye Feng continued to search the surrounding ruins alone to see if there were any other good things.

At this time, the White Bone Demon Saint did not waste any time. He directly opened his big skeletal mouth in the entire valley and sucked all the extremely rich death gas in the entire valley into his stomach.

At this moment, Ye Feng was immediately surprised to find that the aura of the White Bone Demon Saint was indeed much stronger.

And Ye Feng even saw some ancient black symbols appearing on the surface of the White Bone Demon Saint's bones.

This made Ye Feng's eyes suddenly show a look of surprise, and he couldn't help but ask: "White Bone Demon Saint, have you mutated?"

At this time, the White Bone Demon Saint saw ancient black symbols appearing on the surface of his bones, and his eyes suddenly revealed a look of astonishment.

Then he thought for a while and said aloud: "Perhaps the death energy I absorbed is the death energy of the ancient demon clan, so the energy contained in these death energy is the same as the death energy I absorbed during my previous practice. It's very different, so my whole body has changed."

Hearing what the White Bone Demon Saint said, Ye Feng immediately nodded and said: "These powerful monsters who fell and died in the Ten Thousand Monsters Holy Mountain are all monster saints and ancient great monsters. They are extremely terrifying existences. The aura of death after their fall must be very advanced, so I think your mutation should be a very beneficial mutation. It may make your life level much more powerful than at your previous peak. .

"

Hearing what Ye Feng said, the White Bone Demon Saint immediately nodded and said: "I think so too. After I absorbed the death energy in this valley, these ancient words and symbols appeared on the surface of my bones. , I feel that my strength is indeed much stronger, and the hardness of my bones is also much stronger, much higher than before. "

Hearing what the Bone Demon Saint said, Ye Feng immediately nodded, with a smile in his eyes.

It seems that this is a blessing in disguise for the Bone Demon Saint.

At this moment, Ye Feng did not hesitate and continued to look for other things in the valley.

But in the end Ye Feng didn't find anything good.

In the end, Ye Feng only found a broken sword among the ruins in this valley.

This broken sword is completely black in color.

This black broken sword feels very broken, with only a hilt and half of the sword body left.

The other half of the sword tip was broken off and went somewhere unknown. Perhaps it was completely destroyed in that tragic battle that year.

When Ye Feng pulled out this black broken sword from the ruins on the ground, Ye Feng immediately sensed a majestic and boundless energy hidden in this black broken sword.

Ye Feng only felt that what he pulled out was not a broken black sword, but half the body of a god.

Ye Feng's face suddenly showed a look of deep surprise at this moment.

Being able to give Ye Feng such a majestic and vast feeling is enough to show how extraordinary this black broken sword is.

Ye Feng couldn't help but shook his head and sighed, and said: "It's a pity that it was just a broken sword that was broken in that tragic battle. Otherwise, this would definitely be a peerless sword."

Although Ye Feng felt it was a pity at this moment, he still carried the black broken sword behind his back.

Because Ye Feng felt that this black broken sword contained very terrifying energy.

Even if half of it is broken, it is still comparable to some peerless magic weapons.

Although the God's Ring in Ye Feng's hand can transform into a God's Sword, it has terrifying sharpness.

But in the end, Ye Feng still had no way to find out the true power of the Sword of God. He could only bring out the sharpness of the Sword of God, but there was no way to bring out the terrifying weapon power of the Sword of God.

but

Ye Feng felt that this black broken sword, even if half of it was broken, would definitely allow him to unleash extremely terrifying weapon power.

At this time, Ye Feng naturally carried this black broken sword on his back, which could be regarded as the weapon he was currently using.

At this time, Ye Feng searched carefully again and found nothing else in the valley.

But Ye Feng was already very happy.

Because in this valley, Ye Feng's cultivation aura achieved a huge breakthrough, and he also received a set of extremely powerful inheritance, the Azure Dragon's Heaven-Destroying Claw.

In addition, getting this black broken sword, which is suspected to be a god's weapon, has already been a great gain.

At this time, Ye Feng's cultivation was at the fifth level of the Time Realm, and he finally felt that he was truly powerful.

At this moment, Ye Feng looked at the deepest part of the Ten Thousand Monsters Holy Mountain and felt that there was great terror in the deepest area. .??.

At this time, the White Bone Demon Saint also came to Ye Feng's side, and said with some fear and some expectancy: "Ye Feng, should we continue to go deep into the deepest area of the Ten Thousand Demons Holy Mountain? But give me that place A trembling feeling, very scary."

Hearing what the White Bone Demon Saint said, Ye Feng nodded slightly and said aloud: "I also feel this way. I just feel that the deepest area of the Ten Thousand Demons Sacred Mountain is like hiding many demon gods. The feeling is too scary."

At this time, after Ye Feng finished speaking, he thought for a moment, and then said aloud: "Keep moving forward and go deeper. It's coming. You have to investigate. If there is really any danger that you can't resist, just run away."

Hearing what Ye Feng said, the Bone Demon Saint immediately nodded.

At this time, Ye Feng said: "If my current cultivation strength can continue to improve, then that thousand-year-old tree demon will definitely not be my opponent. When the time comes, I will let him know what it means to be powerful. "

At this moment, after Ye Feng finished speaking, he took the Bone Demon Saint and walked quickly towards the deep area of the Ten Thousand Demons Holy Mountain.

At this time, Ye Feng did not put the Bone Demon Saint into his storage ring.

Because the Bone Demon Saint is also very powerful.

If you really encounter any danger in the depths of the Ten Thousand Demons Holy Mountain, the White Bone Demon Saint can completely help you fight against those dangers.

Ye Feng had not let the White Bone Demon Saint come out before because the White Bone Demon Saint's cultivation strength had not recovered yet. Even if he came out, he would be very weak and of no great use.

but now

In this Holy Mountain of Ten Thousand Demons, the White Bone Demon Saint absorbed so much death energy that even his bones mutated and his strength increased a lot.

So at this time, the White Bone Demon Saint can become Ye Feng's strongest supporter and thug.

At this moment, a human youth in white clothes and a huge skeleton walked side by side, walking quickly towards the dark depths of the Ten Thousand Demons Sacred Mountain.

This scene, among the black mountains, is very visually impactful.

Time passes quickly, like running water without leaving a trace.

In the blink of an eye, half an hour passed.

Ye Feng and the Bone Demon Saint finally arrived at the deepest area of the Ten Thousand Demons Holy Mountain.

The next moment, Ye Feng saw a very shocking scene.

I saw that in the deepest area of the Ten Thousand Monsters Holy Mountain, thousands of mountains were destroyed by terrifying power.

This place is simply like a Shura field, an ancient battlefield, filled with endless killing energy and death energy.

Ye Feng could even see undead souls emitting green light, wearing broken armor and holding broken weapons, wandering around the broken ancient battlefield in the deepest part of the Holy Mountain of Ten Thousand Demons, seemingly aimlessly. .

Seeing this scene, even the Bone Demon Saint next to Ye Feng was a little shocked and couldn't help but said: "There must have been an earth-shattering and extremely terrifying tragic battle here. It's almost like In a Shura field, I don't know how many monster saints and ancient monsters died back then. I don't know what kind of existence they were fighting against back then. It was so terrifying that it killed so many monster saints and ancient monsters. The demons were all wiped out, and such a brutal war took place."

Ye Feng nodded at this time, then took a deep breath and said aloud: "This dilapidated ancient battlefield must be the place where the battle was the most brutal that year, and it is also the place where the most opportunities may be left in this sacred mountain of monsters. We have to carefully search for the place of creation, which will definitely lead to a qualitative transformation in our strength."

You know, Ye Feng just found some chance creations in the outer area of the Holy Mountain of Ten Thousand Demons, and it has already improved Ye Feng's cultivation and comprehensive strength so much.

Now they have come to the final dilapidated ancient battlefield in the deepest part of the Holy Mountain of Ten Thousand Demons. If they can really find a lot of opportunities, Ye Feng can't even imagine how high his strength will be.

At this time, the Bone Demon Saint was also looking forward to it, and he quickly said with shining eyes: "Then let's search quickly, but we must be careful. There are many powerful undead wandering in this dilapidated ancient battlefield, and there may be other terrifying things. The presence."
