

## Ancient 4571

Chapter 4571 Green Goblin Gang Treasure House

Obviously at this time, the female demon would never have thought that Ye Feng would still want to go to the Green Goblin Gang's base camp to ransack his home.

But think about it, this is also a very good choice.

After all, the Green Goblin Gang has been rooted in the black market for so many years, and there must be a lot of wealth stored in the base camp.

And now the leader of the Green Goblin Gang, as well as the nine top powerhouses, have all been killed. ??

Therefore, the Green Goblin Gang's base camp must be very empty, with no strong men stationed there at all.

This is a good time to go to the Green Goblin to help ransack your home.

So at this time, the female demon nodded immediately, without any hesitation, and said with a smile: "Brother Ye Feng has really thought carefully."

When Ye Feng heard the female demon's slightly teasing words, he immediately smiled awkwardly and said, "Then I definitely can't let go of any good opportunity to get training resources. I'm poor."

After saying that, Ye Feng didn't think there was anything wrong. After all, he and the Green Goblin Gang had completely quarreled with each other. Even the gang leader and the nine top powerhouses had been killed. So the wealth in the Green Goblin Gang's base camp After searching for it myself, it seems quite reasonable.

After all, the Green Goblin Gang has been causing trouble for Ye Feng, so now Ye Feng naturally wants to wipe out the Green Goblin Gang.

At this moment, Ye Feng was directly leading the female demon in a certain direction.

When the people watching around saw this scene, their eyes showed deep amazement.

Someone couldn't help but say: "This combination of the boy in white and the stunningly beautiful woman will, I estimate, completely shock the entire black market, and even become famous among the entire Blood Demon Dynasty, because they are so powerful." "Especially that young man in white, with such a weak cultivation, can burst out with such a powerful fighting power, it is really amazing."

At this moment, while everyone was talking, Ye Feng and the female demon had arrived at the headquarters of the Green Devil Gang.

Base camp.

At this time, Ye Feng was ready to use his magic power to kill the remaining members of the Green Goblin Gang who wanted to disobey him.

But the entire base camp of the Green Goblin Gang was already deserted.

"Um?"

Seeing this scene, the female demon suddenly said in astonishment: "The entire Green Goblin Gang seems to be an empty shell now."

Ye Feng couldn't help but nodded and said: "I guess they have already learned the news that we killed the leader of the Green Devil Gang and the nine top powerhouses. All the members in the entire Green Devil Gang base camp have run away. I hope they didn't take away the wealth."

Ye Feng's worries were actually unfounded, because at this moment Ye Feng and the female demon entered the empty base camp of the Green Devil Gang, and immediately discovered a lot of training resources piled up in the treasure house.

Because these members of the Green Goblin Gang did not dare to take away the wealth, as if they were afraid that Ye Feng and the female demon would come to their door one by one and demand the wealth.

So when they left, they all abandoned their armor and did not dare to take any resources with them.

Seeing this scene at this time, Ye Feng was naturally very happy. He quickly smiled and said to the female demon next to him: "It seems that we made a lot of money this time."

Boom!

At this time, Ye Feng arrived at the core area of the Green Goblin Gang, and directly punched the door of the treasure house in front of him into pieces.

Then Ye Feng and the female demon walked into it, and immediately saw piles of spiritual crystals emitting bright light, piled on the ground, forming the size of a small mountain.

This is a huge amount of wealth!

Ye Feng grinned and said, "Sister Xia, let's split it equally between the two of us."

After all, the female demon also played a large part in the fight against the entire Green Goblin gang this time.

If the female demon hadn't focused on fighting the leader of the Green Goblin Gang, Ye Feng wouldn't have been able to kill the leader of the Green Goblin Gang.

So at this time, Ye Feng naturally asked the two people to share it equally.

The female demon didn't say much, but smiled and said: "Okay."

In fact, the female demon got along with Ye Feng and felt that Ye Feng was a very good person. He would not just monopolize something because he wanted something, but would share it equally according to their contribution or distribute according to their work.

This is something that the female demon admires Ye Feng very much.

After all, if some weak teenagers meet some super strong people, they may ask that super strong person to protect them without giving them any benefits, just like a giant baby.

However, Ye Feng does not hold himself morally hostage, nor does he feel that since he is weaker, he should get more training resources to use.

Ye Feng will put himself and the female demon on the same level, help each other, and share all kinds of wealth equally with each other. ??

At this time, Ye Feng and the female demon didn't waste any time. They just divided the mountains of spiritual crystals in front of them equally.

It has to be said that the Green Goblin Gang is indeed the largest gang in the black market, and there are a lot of training resources in the treasure house.

After the two divided the mountain of spiritual crystals equally, they continued to walk towards the inner area of the treasure house.

Soon, they saw rows of racks filled with various weapons and armors.

On these shelves filled with weapons and armors, there are high-end weapons, including armors, various swords, guns, swords and halberds.

The female demon is not interested, so Ye

All the wind was absorbed.

Although Ye Feng has obtained the divine blood sword from the Green Devil Gang leader Old Man Red Jian, which is the most powerful weapon, these weapons are all high-end weapons among the Green Devil Gang. Even if Ye Feng himself cannot use them, Ye Feng will not be able to use them. Feng can then be sold in the black market to exchange for the training resources he needs.

Next, the two continued to move forward and saw nine more boxes.

Each box is filled with various inheritances.

When Ye Feng saw this scene, he became interested.

After all, the Domain of Ten Thousand Weapons and the Dark Giant Dharma that Ye Feng had previously obtained from the young man in black robes from the Green Devil Gang, these two sets of inheritance are very powerful.

After practicing, Ye Feng's comprehensive combat effectiveness has been unparalleledly improved.

So at this time, Ye Feng was naturally very interested in the inheritance secrets stored in the Green Devil Gang's treasure house.

Since he encountered it at this time, Ye Feng walked directly towards the nine boxes, then opened each box, and began to look through each inheritance secret book to see if there was any advanced inheritance he needed.

However, Ye Feng looked through several boxes and found that they were all quite ordinary inheritances.

Of course, a rather ordinary inheritance in Ye Feng's eyes may be a very advanced and precious inheritance in the eyes of other practitioners.

So at this time, Ye Feng didn't need these inheritance books, so Ye Feng continued to look for them.

Finally, Ye Feng found a set of inheritance in the last box, the ninth box, which made Ye Feng feel very powerful.

This set of inheritance is very high-end, and even the books that are printed with the secrets of the inheritance are made of special metal pages.

This set of inheritance is called "Blood Drawing Sword Technique", and it seems to be related to the divine blood sword that Ye Feng obtained before.

Chapter 4572 Frozen Beast

Ye Feng looked at this Blood Drawing Sword Technique at this time and immediately understood that it was related to the method finally released by the old man Chi Jian, the leader of the Green Devil Gang.

The previous leader of the Green Goblin Gang, when fighting the female demon, once spat out a mouthful of blood, and then caused the divine blood sword to exert tremendous power, even activating the phantom of the divine will in the divine blood sword.

In fact, this method is the basic secret of the Bloody Sword Technique.

In other words, as long as you can give the Divine Blood Sword a special sword and high-level blood, you can make the Divine Blood Sword stronger and stronger.

This made Ye Feng's eyes suddenly show surprise.

This divine blood sword is really a very evil sword. As long as you drink high enough blood, you can make this divine blood sword exert stronger power.

This discovery naturally shocked Ye Feng. The divine blood sword he got was definitely an extremely magical sword.

At this time, Ye Feng didn't hesitate at all. He opened the Blood Drawing Sword Technique directly and imprinted the inherited secrets in his mind. In this way, Ye Feng could continue to comprehend and practice. .

At this time, the female demon suddenly found something in a box, and couldn't help but said: "There is actually the inheritance of our Celestial Demon clan here. It's really unexpected."

After finishing speaking, the female demon directly took out a book that looked like it was made of jade from a box, and then looked at it carefully.

Seeing this scene, Ye Feng also showed a happy smile in his eyes.

The female demon can obtain secrets worth practicing from these books, which is also of great benefit to the female demon.

This time when we come to the treasure house of the Green Goblin Gang, if both Ye Feng and the female demon can get good things at the same time, Ye Feng will naturally be very happy.

At this time, Ye Feng put all the remaining unnecessary inheritance secrets into his storage ring.

Although Ye Feng and the female demon don't look down on these remaining inheritance secrets at all, for other ordinary practitioners or some ordinary masters, they are definitely very high-level inheritances, and they must all be vying for them.

So Ye Feng put all these secrets into his storage ring, and then he could trade them on the black market and exchange them for what he needed.

Ye Feng is already very skilled in this kind of operation.

At this moment, after Ye Feng collected all the inheritance books, he continued to follow the female demon towards the inner area of the treasure house.

Soon, they came to the true deepest area of the treasure house.

There turned out to be an icehouse that looked like it was made of ice.

At this moment, Ye Feng's eyes suddenly revealed a look of surprise. He didn't expect that in the deepest part of the Green Devil Gang's treasure house, there would be such an icehouse. I don't know what the leader of the Green Devil Gang stored here. The icehouse created seems to want to preserve something for a long time.

When the two of them saw this scene, they walked directly into the icehouse.

"This is....."

Almost at the next moment, Ye Feng and the female demon immediately saw that in this icehouse, the bodies of ancient ferocious beasts of different shapes were frozen.

These ancient ferocious beasts should have been completely dead, but they still remain in their original state, frozen by thick ice. They seem to have been preserved in this icehouse for a long time.

"Um?"

Seeing this scene, Ye Feng couldn't help but said in surprise: "These ancient ferocious beasts sealed by ice, could it be that the leader of the Green Devil Gang discovered them from the underground of an ancient glacier and snowfield?" Then he dug them out of the ancient ice and put them in the icehouse at the deepest part of the Green Goblin gang's treasure house. Does he want to resurrect all these ancient beasts? "

The female demon shook her head and said aloud: "Although these ancient ferocious beasts are frozen, they seem to be lifelike, but I can't feel any breath of life. They are completely dead. I guess the Green Goblin Gang's The gang leader dug them out of the ancient ice and tried to resurrect them, but unfortunately it was all in vain. "

While the female demon was talking, Ye Feng's eyes were full of deep anticipation and he said loudly: "No matter what, these are good things to me."

Although these frozen ancient ferocious beasts can no longer be resurrected and are completely dead, all their blood energy and skills are intact in the ice. Ye Feng can completely devour these ancient beasts. The energy in the body of the ferocious beast that was frozen and preserved intact.

At this moment, Ye Feng didn't hesitate at all, and just waved his fist, trying to break the ice, release the corpses of these ancient beasts, and then devour them.

Boom!

However, the moment Ye Feng's fist struck the ice on the surface of these ancient ferocious beasts, there was only a huge roar.

Ye Feng's fists were unable to break the ice on the surface of these ancient ferocious beasts, not even leaving a single crack.

"What?"

Seeing this scene, Ye Feng's eyes suddenly showed deep surprise.

You must know that Ye Feng's current physical strength is very strong. Even if he does not activate the power of the God's Immortal Body, Ye Feng's own body is still in the ordinary state of the God's Immortal Body.

The ordinary state of the Immortal Body of the God is also very terrifying. It can easily bombard some extremely high-level magic weapons into pieces. However, I didn't expect that there is no way to destroy the ice on the surface of these ancient beasts in front of me. Ye Feng really didn't expect anything at all.

The female demon standing next to her had a smile in her eyes and said, "Brother Ye Feng, these ices should be tens of thousands of years old. With your current cultivation methods, there is indeed no ice. How to destroy these ices."

Hearing what the female demon said, Ye Feng immediately nodded.

These ices are probably a very advanced type of ice from the ancient times. Otherwise, the fists of my immortal body of gods would definitely be able to smash them into pieces in an instant.

At this time, Ye Feng didn't hesitate at all. He took out the God's Ring that he had obtained before, and then transformed the God's Ring on his finger into a God's Sword.

Uh-huh!

Ye Feng held the God's Sword in his hand and slashed at the ice in front of him.

"Click" sound!

These extremely strong ices had no resistance at all under the weapons turned into by Ye Feng's Godly Ring. They were chopped into pieces by Ye Feng and fell to the ground.

Chapter 4573 Advanced Blood

At this time, Ye Feng chopped all the ice into countless pieces, releasing the ferocious beasts frozen in the ice.

Sure enough, just as the female demon said, these ancient beasts were frozen in the ice and had long since died.

So at this time, Ye Feng chopped all the ice into pieces, and directly obtained the corpses of these extremely advanced ancient beasts.

At this moment, there were a dozen frozen ancient ferocious beasts, all of which were released by Ye Feng.

Then without any hesitation, Ye Feng directly released his Devouring Domain and began to devour the energy in the corpses of these ancient ferocious beasts.

"boom!"

You must know that these ancient ferocious beasts are frozen in the ice, so the blood energy does not flow much.

After Ye Feng swallowed it, he could immediately feel that the energy of very huge ancient beasts was directly injected into his body, causing the cultivation aura on Ye Feng's body at this moment to start going crazy quickly and continuously. Breakthrough.

Ye Feng's cultivation level, which he had just broken through to the sixth level of the Holy Vein Realm, skyrocketed again.

boom!

The seventh level of the Holy Pulse Realm!

boom!

The eighth level of the Holy Pulse Realm!

boom!

The ninth level of the Holy Pulse Realm!

boom!

The tenth level of the Holy Pulse Realm is complete!

At this time, Ye Feng's cultivation level suddenly made rapid and continuous breakthroughs.

Suddenly, he continuously broke through to the level of the tenth level of the Holy Pulse Realm!

This naturally made Ye Feng's eyes suddenly reveal a look of deep surprise.

These ancient ferocious beasts collected by the leader of the Green Devil Gang had been frozen in the ice for so many years. They were finally released by Ye Feng, giving full play to their value and becoming the nourishment for Ye Feng's cultivation.

At this moment, Ye Feng's cultivation level has reached the level of Holy Vein.

After reaching the Great Perfection of the Tenth Heavenly Realm, I can feel that my combat power has increased exponentially compared to before.

At this time, Ye Feng looked at the female demon beside him and said loudly: "We can leave here directly now. Let's go directly to the intersection of this black market and wait for the team of the Seventh Prince and Miss Tang from the black market. When the time comes, Go directly to develop that ancient ruins."

The female demon immediately nodded at this time, and then said aloud: "I'd better stay in your storage ring. It's better to hide it, so as not to attract other people's attention and be a little troublesome."

Apparently, the succubus doesn't seem to like interacting with other strangers.

Ye Feng immediately nodded at this time, smiled and said: "It's okay, Sister Xia, you can make your own decision."

Uh-huh!

After saying that, the female demon nodded, and then flew directly into Ye Feng's storage ring space.

Ye Feng was alone at this moment, flying quickly towards the entrance of the black market, preparing to wait for the team of the seventh prince and the daughter of the black leader, Miss Tang Youyou.

Ye Feng felt that they were all waiting for him at the entrance of the black market.

But just when Ye Feng was about to leave the base camp of the Green Goblin Gang.

Uh-huh!

Uh-huh!

Uh-huh!

Suddenly, several masters wearing black armor descended from high altitude and surrounded the Green Goblin Gang's base camp.

Ye Feng looked at the masters in black armor in front of him, who seemed to be hostile to him. He couldn't help but said: "Who are you? What's wrong with stopping me?"

Hearing what Ye Feng said, the faces of these masters wearing black armor suddenly changed.

He showed a rather cold smile and said loudly: "We are the black armored guards of the black market, specializing in maintaining the balance of the entire black market. You have killed the entire Green Goblin Gang and have seriously damaged the gangs in our black market. Now you need to come with us and accept the trial of our black market superiors. "

Hearing the words of these so-called black armored guards in the black market, Ye Feng immediately smiled lightly and without any hesitation, directly took out the inheritance token that the black master had given to him from his storage ring. .

"This is....."

At this moment, seeing the inheritance token that suddenly appeared in Ye Feng's hand, the eyes of these black-armored guards from the black market who were still arrogant suddenly showed deep horror.

They stared at Ye Feng with a look of deep uncertainty in their eyes, as if they did not expect that such a young man in white would suddenly have their black market's supreme inheritance token in his hand.

At this moment, Ye Feng immediately smiled and said: "If you don't want to die, just leave quickly and don't block my way."

Uh-huh!

After saying that, Ye Feng left here in a swagger.

The faces of the black-armored guards were uncertain, and their eyes were filled with fear, and they did not dare to stop Ye Feng.

Being surrounded by these black armored guards was just a small episode in Ye Feng's eyes.

After all, Ye Feng now has the inheritance token given to him by the black leader. In the black market, as long as he is the upper-level power of the black market, he is not afraid at all.

Because no matter who it is, they will probably murmur when they see the inheritance token of the black market leader on Ye Feng.

Even Tang Youyou, the daughter of the black market leader and the eldest lady who is now in charge of the entire black market, was surprised when they saw the black inheritance token in Ye Feng's hand, and she paid great attention to Ye Feng.

So Ye Feng holds it in his hand

With the inheritance token given to him by the black market leader, he will not be afraid of any so-called big forces in the black market, let alone walking sideways in the black market.

At this time, Ye Feng left the Green Goblin Gang's base camp and flew directly towards the entrance of the black market.

When Ye Feng came to the entrance of the black market, he found it empty and no one came.

"Um?"

This made Ye Feng's eyes suddenly show surprise.

It seems that I came a little early.

But at this time, Ye Feng didn't have anything special to do. He just stood here, waiting for the arrival of the seventh prince and Tang Youyou, the black market lady.

While Ye Feng was waiting, Ye Feng pulled out the divine blood sword that he had snatched from the leader of the Green Devil Gang from behind, and then began to understand the set of instructions about the divine blood sword that he had obtained before. Inherited, blood-drawing sword technique.

According to the records in the Blood-Inducing Sword Jue, as long as Ye Feng can get enough high-level blood and drip it on the divine blood sword, the power of the divine blood sword will become stronger and stronger.

In fact, Ye Feng's own current blood is also very high-grade.

Although Ye Feng has not yet completely transformed into the true immortal body of the gods, and is still far away from it, Ye Feng's current physique has slowly evolved from the life level of ordinary people to the level of the more great and advanced gods.

Therefore, Ye Feng's current blood is actually considered to be quite high-end blood.

In addition, Ye Feng felt that he could look for any particularly advanced blood during the training process.

For example, the blood of some ancient ferocious beasts, the blood of some ancient beasts, some mythical beasts, and the blood of ancient superpowers.

If Ye Feng finds these high-level blood, he can collect them. At critical moments, he can use this blood to run the Blood-Inducing Sword Art, thereby stimulating the most powerful power of the divine blood sword.

Chapter 4574 Eternal interests

Just when Ye Feng was slowly comprehending, a group of people finally walked slowly from a certain direction not far away, from the inner area of the black market.

It was Miss Tang Youyou, the daughter of the black market leader.

As the daughter of the leader of the black market, Tang Youyou is now the apparent manager of the entire black market, so she still looks like a powerful person.

At this moment, Tang Youyou was followed by several mysterious figures wrapped in black robes. They should be the senior masters that Tang Youyou brought with him to develop the ancient ruins this time.

After all, the ancient ruins to be developed this time are very dangerous, and everyone is the first batch to enter and develop them. Although they may get the most precious wealth in the ancient ruins, often the first batch to develop also means that they will encounter the most dangerous things. Dangerous situation.

So Tang Youyou naturally brought many powerful people from the black market with him this time.

Ye Feng could sense at this moment that the cultivation auras of the black-robed figures standing next to Tang Youyou were unfathomable, and they were much more powerful than Ye Feng now.

This made Ye Feng's eyes suddenly show surprise.

You know, Ye Feng killed the entire Green Devil Gang this time and devoured many super strong men. His cultivation skills have been raised to a very powerful level.

Unexpectedly, there would still be someone more powerful than himself in the black market.

Ye Feng immediately understood. It seemed that the upper echelons of the entire black market had recruited many super powerful beings.

At this moment, Ye Feng didn't say anything. He just looked at Tang Youyou and said with a smile: "Miss Tang, you are finally here. I have been waiting for you here for a long time."

At this moment, Tang Youyou came to Ye Feng with a group of senior experts from the black market. He glanced at Ye Feng in surprise, as if he was sensing something.

"Um?"

and

At the next moment, Tang Youyou finally discovered that Ye Feng was unusual, because the aura of cultivation on Ye Feng was two or three levels stronger than when he saw it a few days ago.

"this....."

This made Tang Youyou's eyes widen immediately.

Even the daughter of a black market leader, Miss Tang in the black market, was shocked by Ye Feng's improvement in cultivation at this moment.

Uh-huh!

Tang Youyou immediately came to Ye Feng and got very close. His beautiful and cold eyes were fixed on Ye Feng in front of him. He couldn't help but said in horror: "Ye Feng, what have you been doing these days?" What did you do? Why did your cultivation level suddenly improve so much?

Compared with when I first met you, your cultivation level has improved so much. It's incredible that you can do this in just a few days. ”

Seeing Tang Youyou's horrified expression in front of him, Ye Feng just smiled faintly, as if he had done something trivial, and said aloud: "A gang with no eyesight has provoked me these days. I will go and kill them." They were all destroyed and all the cultivation resources were snatched away, so my cultivation level improved a lot."

"Forehead....."

After hearing Ye Feng's direct and simple words, Tang Youyou immediately had a look of astonishment in his eyes.

She took a closer look at Ye Feng at this moment, and suddenly realized that this handsome young man in white clothes would definitely be a terrifying and cruel person once he got angry.

At this time, Tang Youyou nodded immediately and did not say anything more in this regard. Instead, he asked aloud: "You should keep the inheritance token that my father gave you properly, right?"

Tang Youyou was really afraid that Ye Feng would lose the inheritance token. In that case, it would be a huge loss to the entire black market.

Because that piece of inheritance token is not only the representative of the black market inheritor, but it is also said to hide a big secret. Of course, this Ye Feng does not know.

When Ye Feng heard what Tang Youyou said at this moment, he just smiled and said: "Of course I keep it properly. That inheritance token has a huge role in the black market, allowing me to not have to worry about everything. , be as wanton as you like."

Hearing what Ye Feng said, Tang Youyou couldn't help but roll his eyes at Ye Feng and said, "Just don't use that token to get into trouble."

After finishing speaking, Tang Youyou wanted to ask something else, but at this time, Ye Feng suddenly looked in a certain direction and said loudly: "The seventh prince is finally here."

When Tang Youyou heard what Ye Feng said, he immediately looked in that direction.

Sure enough, the Seventh Prince, a prince of the Blood Demon Dynasty, was wearing a golden python robe. He was surrounded by many powerful elders from the royal family, including Nie Qianqian, and several strong men from the Demonic Sect wearing skull robes. Together, we are walking towards this side.

Obviously, this time the seventh prince attached great importance to the development of the ancient ruins, so he brought many elders from the royal family with him.

As one of the ten core disciples of the Demonic Sect, Nie Qianqian also recruited many powerful elders of the Demonic Way from the Demonic Sect and gathered around her.

When Tang Youyou saw this scene, he was quite satisfied and said aloud: "Master Ye Feng, it seems that you have kept your promise very much and told the seventh prince what I said, so that he can be very considerate of this development of ancient ruins. Attention has brought so many powerful people from the royal family. This time we are even more...

I'm sure. "

At this time, the Seventh Prince led a group of senior experts and walked directly in front of Ye Feng and Tang Youyou.

The seventh prince first smiled at Tang Youyou and said: "Miss Tang, this time I will definitely follow your request and bring many seniors from our royal family, and Nie Qianqian also brought many seniors from the Demonic Sect. "Characters, our overall strength is very strong this time, Miss Tang doesn't have to worry so much, not to mention, we still have a top genius like Brother Ye."

Hearing what the Seventh Prince said, Tang Youyou immediately nodded, glanced at the older people following the Seventh Prince, and nodded slightly.

Tang Youyou also discovered at this time that the elders of the royal family around the Seventh Prince, including the strong men of the Demonic Sect brought by Nie Qianqian, were all very powerful.

But at this time, Tang Youyou showed a teasing smile on his face and said loudly: "His Royal Highness the Seventh Prince, you are really amazing. Not only have you brought so many powerful elders from the royal family, but you can also Invite all the powerful enemies of your Blood Demon Dynasty and the Demonic Demon Cult."

The seventh prince just smiled slightly at this time and said aloud: "Man will die for money, and birds will die for food. As long as the benefits are sufficient, the so-called enemies do not exist at all. There are only eternal benefits, and there are no permanent enemies or friends."

After hearing the seventh prince's words, Tang Youyou's eyes flashed slightly but he said nothing more.

At this moment, Nie Qianqian came to Ye Feng's side and couldn't help but whisper: "Ye Feng, your strength has improved so fast. You have become so much stronger after not seeing me for a few days. It seems that I There will never be a way to catch up with you. You know, when we first met, Ye Feng, your cultivation level was much lower than mine, and you still relied on me to deal with the enemy. "

Chapter 4575 The junction

Hearing Nie Qianqian next to him say this, Ye Feng just smiled slightly and said: "I have indeed done a lot of things in the past few days, which has improved my cultivation a lot, but Nie Qianqian, as a demon sect, The top ten core disciples, if you can cooperate with the Seventh Prince to find enough resources in that ancient ruins, I believe your strength will improve quickly. "

Hearing what Ye Feng said, Nie Qianqian immediately nodded solemnly and said: "This time I specially invited several elders from our Demonic Sect. They are all very powerful elders. It's because of me We attach great importance to the development of ancient ruins this time. It is said that the ancient ruins discovered on the black market this time should be ancient ruins at the level of gods, and have never been set foot on. As the first batch of people to enter it, although we may have It's a huge risk, but it also means that we have a greater possibility of getting more good things from the ancient ruins than anyone else. After all, we are the first people to enter."

Ye Feng nodded, his eyes showing a look of expectation.

At this moment, the Seventh Prince could no longer bear it any longer and hurriedly said: "Miss Tang, since our team has been gathered together and Brother Ye is here, we will head directly towards the ancient ruins. lets go."

Tang Youyou nodded and without wasting time, he took out a palm-sized boat from his storage ring.

But the next moment, Tang Youyou threw the palm-sized boat high into the sky.

Buzz!

This palm-sized boat immediately began to expand rapidly, and finally expanded directly into a huge spiritual boat several hundred meters long, floating high in the sky, and looked very imposing.

At this time, Tang Youyou immediately smiled slightly, with a rather proud expression on her beautiful face, and said loudly: "This huge spirit boat is the one my father invited us to be the first refiner in the Northern Territory of the Ten Thousand Demons Interface. Master Gu, the master of weapons, has specially forged the spirit boat for me. It has various types of formations imprinted on it, and it also has various attack and defense capabilities. You will know when you experience it."

Uh-huh!

After finishing speaking, Tang Youyou took a group of senior black market experts around him and instantly flew to the huge spirit boat.

At this moment, Ye Feng flew up without any hesitation.

The Seventh Prince also led a group of senior powerful men from the royal family around him, as well as Nie Qianqian and a group of powerful men from the Demonic Sect, all of which flew high into the sky and landed in the spirit boat.

The moment everyone landed in the spirit boat, Tang Youyou directly activated the defensive formations in the entire spirit boat.

Buzz!

At this moment, countless rays of light were seen immediately emanating from the spirit boat, surrounding the entire spirit boat.

At this moment, Tang Youyou smiled and said: "The defensive formation of this spirit boat and the energy shield formed by it are enough to withstand the attacks of the top elders of our Blood Demon

Dynasty. When the time comes, we will enter the ancient ruins. , using this spirit boat as our base camp, we can spread out and inspect the entire ancient ruins."

After hearing Tang Youyou's arrangement, everyone nodded without saying anything else.

After all, it was Black Market who first discovered the ancient ruins this time, so everything was decided by Black Market.

Now that Tang Youyou is the public manager of the black market, it is obvious that

Has become the leader of this team.

At this moment, everyone adjusted their status in the spirit boat, and then under Tang Youyou's control, the huge spirit boat rushed quickly towards the black outside at high altitude.

"Whoosh!"

Soon, the huge spirit boat completely left the black market, even away from the Blood Demon Dynasty, and flew quickly towards the desolate place in the northern domain of the Ten Thousand Demons Interface.

At this time, the Seventh Prince looked at Tang Youyou and couldn't help but ask: "Miss Tang, where is the ancient ruins discovered by your black market this time in the northern region of our Ten Thousand Demons Interface?"

Tang Youyou said aloud: "At the junction of the Northern Territory and the Southern Barbarians."

"What? In such a remote place, even close to the southern barbarian land?"

At this moment, when they heard Tang Youyou tell the specific location of the ancient ruins, many people present couldn't help but have a look of astonishment in their eyes.

Ye Feng was not very familiar with these and couldn't help but ask: "Is there anything special about the border with the Nanman?"

The Seventh Prince quickly explained: "Brother Ye, you don't know, there are often all kinds of frictions and battles between our Northern Territory and the Southern Barbarians. If this ancient ruins is at the junction of the Northern Territory and the Southern Barbarians, it will At some point, there may be super powerful people from the big forces in the Southern Barbarian region who will interfere with our exploration of the ancient ruins."

Hearing the seventh prince's explanation, Ye Feng suddenly nodded.

Ye Feng also knows that the Northern Territory is the weakest region among the entire Ten Thousand Monsters interface.

The comprehensive strength of other major regions, such as Eastern Barren, Southern Barbarians, etc., is much stronger than that of Northern Territory.

In each area, there are also many superpowers standing.

Some super powers are much more powerful than the major powers in the Northern Territory.

So at this time, Tang Youyou said that the ancient ruins were at the junction of the Northern Territory and the Southern Barbarians, which naturally made many people worried.

Even Nie Qianqian, one of the top ten core disciples of the Demonic Sect, looked serious at this moment.

The only ones present who didn't think it mattered were probably Ye Feng and Tang Youyou.

Tang Youyou said very simply and directly at this time: "If we really encounter the super strong people in the Southern Barbarian area who intervene, we can just kill them all."

Hearing what Tang Youyou said, the Seventh Prince couldn't help but smiled bitterly, shook his head, and said loudly: "Our Northern Territory ranks at the bottom among all major areas in the entire Ten Thousand Demons Interface. The strong ones among the Southern Barbarians are better than our Northern Territory." The comprehensive strength of the strong men in the domain is much higher. If we meet the super strong men of the Southern Barbarians, we may not be our opponents. "

Tang Youyou smiled and said aloud: "This time we are not the only ones here, we also brought the senior figures from the forces behind us. If a strong man among the Southern Barbarians really appears, if we unite together, we may not necessarily You can't beat the opponent."

When he said this, Tang Youyou suddenly looked at Ye Feng, smiled and said: "Furthermore, Master Ye Feng has such a powerful talent for cultivation. Perhaps in the process of exploring ancient ruins, his cultivation will continue to improve rapidly. With the improvement, Young Master Ye Feng's strength may surpass those of the older generations we brought here. With a super-top genius like Young Master Ye Feng here, what should we be afraid of?"

Chapter 4576 Very dangerous

Hearing what Tang Youyou said, the Seventh Prince's eyes were slightly startled. It seemed that he did not expect that Miss Tang, the daughter of the black market leader, would appreciate Ye Feng so much.

But what the seventh prince didn't know was that Ye Feng held the inheritance token given to him by the black market leader himself.

And precisely because of this, Tang Youyou felt that Ye Feng was definitely an extraordinary being.

Otherwise, her mysterious father would not have given the inheritance token from the black market directly to Ye Feng.

Therefore, Tang Youyou seemed to have an inexplicable trust in Ye Feng, and she even felt that Ye Feng might be able to quickly surpass the elders they brought this time in the future.

But when I heard Tang Youyou say this, whether it was the elders of the royal family brought by the Seventh Prince, or the elders of the Demonic Sect brought by Nie Qianqian, or even the black market brought by Tang Youyou himself. The elders and powerful men glanced at Ye Feng at this moment, with a hint of chuckle in their eyes.

Obviously they didn't believe Tang Youyou's words and felt that Ye Feng could surpass them, the elders, in a very short time.

Although Ye Feng's current cultivation strength is at the tenth level of the Holy Pulse Realm, it has far surpassed the cultivation level of the younger generation in the Blood Demon Dynasty.

But compared with the elders, they are still far behind, especially those who are powerful among the major forces.

Therefore, many senior experts present felt that Tang Youyou had over exaggerated Ye Feng's talent.

But at this time, Ye Feng didn't say much and just remained silent.

Because Ye Feng still doesn't know how powerful the strong men in the Southern Barbarian region outside the Northern Territory are, so Ye Feng is not sure whether he has the ability to fight against the strong men in other regions.

But it just so happened that Ye Feng could take advantage of this opportunity to see how powerful the strong men in other areas outside the Northern Territory were.

After all, Ye Feng knows very well that in the future, when he stands at the peak of the Blood Demon Dynasty, he may unify the entire northern region of the Ten Thousand Demons Interface. At that time, he will definitely have conflicts and frictions with the major forces in other regions of the Ten Thousand Demon Interfaces. .

When the time comes, Ye Feng

After all, they have to confront the powerful forces in other regions outside the Northern Territory.

So this time, if there is a strong man from the Southern Barbarian Land outside the Northern Territory, Ye Feng can just test the opponent's strength.

While Ye Feng was thinking secretly in his heart, the huge spirit boat had already traveled through a large area of the Northern Territory and finally arrived at the edge of the Northern Territory.

This is already the junction of the Northern Territory and the Southern Barbarians.

Below is a dense forest with no end as far as the eye can see.

Everyone can hear the roar of ancient beasts in this dense frontier forest, which makes people feel a little frightened.

At this time, Tang Youyou said aloud: "Our black market experts have been stationed at the entrance to the ancient ruins for a long time. We can just go down later."

When everyone heard what Tang Youyou said, they all nodded.

At this time, the seventh prince could not help but sigh and said: "The intelligence capabilities of the black market are really powerful. They can even find the entrance to ancient ruins in such a remote area."

When Tang Youyou heard what the Seventh Prince said, a trace of pride appeared on her beautiful and cold face, and she said loudly: "Our black market's intelligence capabilities are indeed very strong, even better than those of your Blood Demon Dynasty. The ability is even stronger."

Hearing what Tang Youyou said, the seventh prince suddenly became slightly speechless and said nothing more at any time.

After all, this is not a glamorous thing.

You must know that the Blood Demon Dynasty is the top power in the Northern Territory, and the black market is just a trading market attached to the Blood Demon Dynasty.

However, the intelligence capabilities in the black market were stronger than the top power of the Blood Demon Dynasty, so the seventh prince did not want to say anything more at this time, feeling a little embarrassed.

At this moment, the huge spirit boat shuttled to the end of this frontier forest.

When they raised their heads, everyone immediately saw a huge mountain appearing below.

On top of this mountain, there are many masters wearing black armor standing.

These masters wearing black armor are naturally strong men secretly cultivated in the black market.

This time they discovered the entrance to the ancient ruins, located inside the mountain at the end of the frontier forest.

At this moment, Tang Youyou drove his huge spirit boat and descended directly.

These powerful people in the black market naturally knew Miss Tang's exclusive spirit boat, and they all respectfully clasped their fists and said, "Welcome Miss Tang."

Tang Youyou stood on the spirit boat, just nodded slightly, and then said aloud: "There is nothing unusual during this time, right?"

A strong man from the black market stationed here came over and said: "A few days ago, we discovered the figure of a strong man suspected to be from the Southern Barbarian Land, but they did not conflict with us. They seemed to just come to investigate the situation. Maybe you don't know that there is an entrance to an ancient ruins here."

Hearing what this black market expert said, Tang Youyou nodded with satisfaction and said loudly: "It seems that the big forces in the southern barbarian land don't know that there is an ancient ruin here. Our speed is still there." It's fast."

After finishing speaking, Tang Youyou looked directly at everyone on the spirit boat and said aloud: "We will directly enter that ancient ruins soon. Everyone had better be mentally prepared, because we don't know what's inside that ancient ruins either." What kind of risks are there?"

Hearing what Tang Youyou said, Seventh Prince Nie Qianqian, Ye Feng, and a group of senior figures all nodded, and their expressions became solemn.

After all, the ancient ruins discovered on the black market are not ordinary ancient ruins. They are ancient ruins that are suspected to exist as gods. Naturally, they are very strange and very dangerous.

At this time, Tang Youyou drove a huge spirit boat and landed directly at the bottom of the mountain.

Then everyone saw it immediately. At this time, a huge nothing appeared in the middle of the mountain.

The holes were obviously dug by strong men in the black market.

Inside this pit, a slowly rotating space vortex appeared.

"Through this space vortex, you can enter the ancient ruins."

At this time, a strong man from the black market raised his fists and said: "Miss, are you going to enter it directly now?"

Tang Youyou nodded, with a hint of solemnity on his face, and said loudly: "That's right, we have to enter it directly now."

After finishing speaking, Tang Youyou directly drove his huge spirit boat, guarding everyone within the defensive light shield of the spirit boat, and then rushed directly into the huge space vortex.

Buzz!

Almost at the next moment, everyone felt a wave of space fluctuations, and the world was spinning.

When everyone's vision became clear again, they discovered that the huge spirit boat was already floating on a vast ocean.

However, in this vast sea, it is pouring rain at this moment, there are violent storms everywhere, the entire sea surface is choppy, and the sky is gloomy and dark, giving people a very depressing feeling.

At this moment, Tang Youyou glanced at the harsh environment around him, and immediately couldn't help but said: "We have entered this ancient ruins, but our luck does not seem to be very good. We have landed in this ancient ruins." On a harsh ocean in the ruins world."

And just when Tang Youyou was talking.

Boom!

Suddenly, a huge golden tentacle appeared in the slightly dark depths of the ocean.

It seemed to be a very scary big golden octopus.

The tentacles of this evil ocean beast were indestructible. They rushed out from the depths of the ocean and instantly charged towards the huge spirit boat that everyone was riding on, as if they were going to penetrate the entire spirit boat.

Sure enough, this ancient ruins world was very dangerous. As soon as everyone entered, they encountered an active attack from a terrifying ocean beast, which was very ferocious.

Chapter 4577 Begin to Pay Attention

The big golden octopus is very terrifying and majestic. It floats in the dark depths of the ocean, giving people a visually shocking beauty, but it is full of endless ferocity.

Uh-huh!

That huge octopus tentacle seemed to be made of pure gold. Like an extremely sharp spear, it shot out from under the ocean in an instant, trying to penetrate the entire huge spiritual boat.

Boom!

But at this moment, Tang Youyou immediately activated the entire spirit boat's defensive light shield, blocking the golden tentacle's attack.

The golden tentacles attacked the energy shield around the spirit boat, and an earth-shattering roar erupted, causing the entire surrounding ocean to be shaken and rolled up quickly.

"We need to leave here immediately!"

Tang Youyou didn't hesitate at this time, driving the spirit boat to stay away from this place completely.

Because she discovered that this ocean was very terrifying. Not only was there the big golden octopus, but there were also other ocean monsters in the dark depths of the sea, which seemed to be rushing towards them.

But just when Tang Youyou was about to leave, Ye Feng smiled and said: "This big golden octopus is not as powerful as imagined. It is only one level higher than me."

Uh-huh!

After saying that, Ye Feng actually rushed out of the spirit boat and jumped into the ocean.

"Ye Feng, don't be impulsive!"

Seeing this scene, Tang Youyou, including the seventh prince and others, couldn't help but exclaimed.

Because it is very safe under the protection of the energy shield of the spirit boat.

You must know that even the extremely powerful senior figures in the Blood Demon Dynasty cannot break through the protective light shield of the spirit boat inspired by Tang Youyou.

So everyone came to this ancient ruins at this time, and came to this extremely harsh dark ocean area. Under the protection of the spirit boat, it is the best.

for safety.

Unexpectedly, Ye Feng rushed out directly.

Nie Qianqian's face didn't seem to have any fluctuations at this time, and she said loudly: "You don't have to worry too much about Ye Feng, he is like this. If he is not sure, he will not do such an impulsive thing. Since he chose to rush out If the spirit boat enters the ocean, it will definitely be able to defeat the big golden octopus."

After finishing speaking, everyone glanced at Nie Qianqian, and then didn't say anything more, but stared at the dark ocean area below.

At this moment, Ye Feng had already rushed into the ocean.

Ye Feng came to the sea and saw a huge golden octopus with a height of tens of thousands of meters, suspended in the depths of the ocean.

However, Ye Feng cannot see the bottom of the sea, which means that the bottom of this dark ocean is very deep, and there may be even more terrifying ocean beasts lurking there.

So Ye Feng naturally wanted to make a quick decision at this time.

This big golden octopus is indeed very powerful, a whole level higher than Ye Feng's current level.

But for Ye Feng, there is nothing to be too afraid of. After all, Ye Feng's combat power has improved a lot.

"How dare a human race like ants dare to come in front of me? It's really courageous."

This big golden octopus actually made a human voice at this time, but the tone was full of ridicule. He obviously felt that Ye Feng was just an ant in his eyes.

After all, this big golden octopus is indeed a very terrifying evil ocean beast. Even if it is a human practitioner of the same realm in front of him, he will not take it seriously.

After all, this kind of ocean evil beast is huge in size and has terrifying attack power. Even human practitioners who are at a higher level than these ocean evil beasts

, it is very difficult to fight against this ancient evil beast, not to mention that Ye Feng's current cultivation level is a whole level lower than this golden big octopus.

So naturally this big golden octopus didn't take Ye Feng seriously.

Boom!

At this moment, the golden octopus stretched out a huge tentacle and attacked Ye Feng, like the sharpest spear in the world, as if it could crush Ye Feng in an instant.

But the next moment, Ye Feng took out the divine blood sword directly, and then moved forward to kill.

Boom!

At this moment, the divine blood sword in Ye Feng's hand immediately grew in size and turned into a huge sword more than 10,000 meters long. It directly collided with the tentacles of the golden octopus that charged in front of him.

boom! !

Accompanied by a huge roar, the divine blood sword in Ye Feng's hand burst out with monstrous power. It actually sent the golden tentacle flying backwards and even cut a crack.

"What?"

Seeing this scene, the golden big octopus immediately couldn't help but said in horror: "Impossible! How can you, a weak human being, be able to fight against my golden tentacles? The sword in your hand seems to be It's a very high-end weapon. You must be so powerful because of this peerless sword. I'll just kill you and plunder this high-end weapon. I really like collecting such high-end weapons!"

At this moment, the big golden octopus was talking, and its huge and majestic body rushed towards Ye Feng, as if he wanted to seriously fight against Ye Feng.

Seeing this scene at this moment, Ye Feng couldn't help but shook his head. The divine blood sword may be very powerful in group attacks, but the single-target damage is still a bit weak.

If Ye Feng was using the God Ring just now,

The god's sword transformed into a finger can definitely cut and shatter that golden tentacle in an instant.

At this time, Ye Feng did not continue to use the divine blood sword, but directly transformed the storage ring on his finger into a golden sword, and then rushed forward in an instant.

At this moment, the big golden octopus was not too wary of Ye Feng, because he just discovered that the power of the sword Ye Feng burst out was not enough to hurt him.

So at this time, the golden big octopus pressed towards Ye Feng, trying to crush Ye Feng to death.

But at this moment, Ye Feng rushed directly in front of the golden octopus, and stabbed it fiercely with the God's Sword in his hand.

"Pfft!"

Almost at the next moment, what shocked the big golden octopus to the extreme was that the golden long sword in Ye Feng's hand actually pierced his extremely strong body and penetrated directly into the inside of his body, piercing through his heart.

The golden sword in Ye Feng's hand seemed to be extremely sharp and could pierce through anything.

"ah!!"

At this moment, the golden octopus couldn't help but let out an earth-shattering scream. Ye Feng instantly pierced his body and heart, causing the golden octopus's vitality to flow away quickly.

"What?"

After seeing this scene, everyone in the spirit boat above the ocean suddenly had a look of horror in their eyes.

Even an older expert couldn't help but say: "Killed that big golden octopus so quickly? This little friend Ye Feng is indeed as powerful as Miss Tang said."

At this moment, many older people began to pay attention to the young man Ye Feng, and felt that if Ye Feng continued to grow, he might be able to surpass older people like them very quickly.

Chapter 4578 More and more expectations

It turned out that these elders of the royal family, including elders from the Demonic Sect and the black market, had heard Tang Youyou say before that Ye Feng's rapid growth would enable him to surpass them.

These words naturally made these powerful elders feel very disdainful, and even felt that Tang Youyou was just bragging about Ye Feng on purpose.

But now that they have seen Ye Feng's incomparable fighting power and his brave and diligent martial arts will, all the older people have begun to have a deep respect and appreciation for Ye Feng.

After all, it is difficult for someone as young as Ye Feng to be able to break out of the protection of the spirit boat, enter the dark ocean, and fight against the evil ocean beasts. This is really a very dangerous thing.

And while everyone was admiring, Ye Feng had already pierced the body and heart of the golden octopus with the sword of the gods in the ocean.

"Damn you boy, how dare you attack me!"

At this moment, the golden octopus did not die completely, but instead let out an angry roar.

Ye Feng smiled slightly at this moment and said: "You are absolutely wrong. This is not a sneak attack, but a head-on confrontation with you. You yourself underestimated me and thought I was an ant and could not hurt you. , it's a pity that you were harmed by your arrogance."

After saying that, Ye Feng directly used all his strength to activate the God's Sword in his hand, making the body of the God's Sword grow a lot, and directly turned into a golden sword that was tens of thousands of meters long.

Ye Feng held the golden sword in his hand and slashed forward, almost splitting the entire ocean in half.

This big golden octopus was naturally unable to block the God's Sword in Ye Feng's hands at this time. In the final panic, it was split into two halves alive by Ye Feng, staining the spot with blood.

At this time, Ye Feng did not hesitate and directly released his Devouring Domain and began to quickly absorb and devour this golden octopus.

The majestic blood energy contained in the body.

You know, this big golden octopus is a marine evil beast that lives in the primitive ocean of this ancient ruin. It is a whole level higher than Ye Feng's current level of cultivation.

Moreover, you must know that this evil ocean beast is inherently much more powerful and powerful than human warriors.

Under the same realm, it is estimated that the blood energy of this golden octopus ocean beast is dozens of times more powerful than a human practitioner of the same realm.

So at this time, Ye Feng was equivalent to absorbing the skills and blood energy of dozens of powerful human beings who were a level higher than himself. Therefore, Ye Feng naturally received a very sufficient blood energy in an instant, and immediately injected it into Arriving at Ye Feng's body.

The skill in Ye Feng's dantian immediately surged rapidly and continuously.

Now Ye Feng's cultivation is at a big bottleneck, and he has reached the Great Perfection in the tenth level of the Holy Vein Realm. Therefore, if Ye Feng wants to continue to break through, he must break through the big bottleneck of the Holy Vein Realm.

But now, with the powerful and vast accumulation of skill and blood energy of this golden octopus, Ye Feng's cultivation bottleneck has been completely broken. At this moment, Ye Feng's cultivation has directly broken through the tenth level of the Holy Pulse Realm. Chongtian Dzogchen has stepped into the half-step Heavenly Soul Realm above the Holy Pulse Realm!

Although Ye Feng did not step into the real first level of the Heavenly Soul Realm at this moment, and was only half a step into the Heavenly Soul Realm, the power of the Heavenly Soul Realm, a new and powerful realm of cultivation, had allowed Ye Feng to come into contact with him. His combat effectiveness became much stronger at this moment.

At this time, Ye Feng could feel that his skill had increased hundreds of times. This also made Ye Feng immediately realize that with the improvement of cultivation level

With continuous improvement, the gap between each major realm is getting wider and wider.

At this moment, after Ye Feng had absorbed all the power of the golden octopus, he also collected some of its blood and put it in his storage ring.

Because this golden octopus, at first glance, you can tell that it is a very high-level evil beast of the ocean, so the blood of this golden octopus must also be very high-level. When the time comes, you can use the blood of this golden octopus to stimulate the divine blood. The sword can unleash the incomparable power of the divine blood sword.

After all, the power of the divine blood sword itself is not very powerful. Just like when Ye Feng used the divine blood sword to fight against the big golden octopus before, he just barely blew away one of the tentacles of the big golden octopus.

In order for the divine blood sword to exert its true power, it needs to be activated with extremely high-grade blood to trigger the true power and destructive power of the divine blood sword.

So at this time, Ye Feng naturally collected some high-grade blood of this golden octopus.

Ye Feng was even looking forward to meeting other ocean beasts to test out what kind of power the divine blood sword would have after it was activated by high-level blood.

But Ye Feng waited for a while and didn't find any other ocean beasts swimming over in the ocean. Maybe they were frightened by the terrifying battle fluctuations and fled in all directions.

After all, this big golden octopus is probably already a dominant ocean beast in this sea area.

At this moment, everyone in the spirit boat high up in the sky saw that Ye Feng was still under the sea and had not left.

An older person couldn't help but said in astonishment: "Young man Ye Feng, could he be deliberately waiting for other evil ocean beasts to come this way, and then want to continue fighting?"

Hearing what this elder said, many people present couldn't help but nodded, thinking that this was very possible.

At this moment, the seventh prince also had a look of deep amazement in his eyes. He was very lucky that Nie Qianqian could recommend such a powerful partner as Ye Feng to him.

At this moment, Tang Youyou, the daughter of the black market leader, Miss Tang of the black market, stared at Ye Feng with a deep brilliance in her beautiful eyes.

At this time, she finally understood why her mysterious father gave Ye Feng the black market inheritance token the first time he met Ye Feng.

It seems that his father has already seen through this young man Ye Feng, and he can tell at the first glance that Ye Feng will have a brilliant future.

Regardless of whether Ye Feng is willing to accept the meaning of the Black Market's inheritance token, it will definitely be very helpful for the Black Market to have a good relationship with Ye Feng now in the future.

While everyone was thinking, Ye Feng waited for a while, but did not wait for the arrival of other ocean beasts. He could only leave the ocean with great disappointment and returned to the spirit boat high in the sky.

But no matter what, Ye Feng is still quite happy. After all, the golden octopus in this dark ocean has provided him with so much blood energy, allowing his cultivation to break through a big bottleneck and step into the half-step of Heavenly Soul. environment, this can be regarded as an unexpected gain.

After all, they had just entered this world of ancient ruins, and before they started exploring, Ye Feng had already broken through half of the realm, which was already a very good gain.

At this moment, Ye Feng returned to the spirit boat, looked at Tang Youyou in front of him, smiled and said: "Miss Tang, we can start to officially explore this ancient ruins world. I am more and more interested in this ancient ruins world. The more I look forward to it."

#### Chapter 4579 Awakening

At this time, Tang Youyou saw Ye Feng's expectant look, and seemed to be very eager to continue fighting with the other ferocious creatures in the ancient ruins.

Tang Youyou immediately couldn't help but shook his head helplessly, and said loudly: "Ye Feng, you are really a fighting maniac, and I feel that there is an adventure factor in your bones."

When Ye Feng heard Tang Youyou's slightly teasing words, he immediately grinned, nodded and said, "Yes, I really like to explore such ancient ruins, and since I started practicing, I don't know how many I have explored. Various secret realms or ancient ruins, these places can allow my cultivation to grow rapidly. "

When Tang Youyou heard this, he just shrugged, and then began to drive the huge spirit boat, flying quickly towards a certain direction in this dark ocean.

At this moment, the Seventh Prince couldn't help but said: "The real good things in this ancient ruins should not be hidden in the ocean area. As soon as we entered this ancient ruins, we came to this ocean area with a harsh environment. It can be said that Quite unlucky."

When he said this, the Seventh Prince glanced at Ye Feng, smiled and said, "But this harsh ocean environment may be a good place for you, Brother Ye."

Ye Feng nodded at this time and said with a smile: "In any case, we should fly towards the land as soon as possible. The good things should be on the land. As for this ocean, if we encounter anything good, Chances are good, you can also search for them on the way. "

Hearing what Ye Feng said, everyone nodded.

At this moment, Tang Youyou was concentrating on driving the spirit boat, flying quickly towards a certain direction in the dark ocean.

But just when they left the place where the ocean descended.

In the deepest part of this ocean.

"Click, click...

"

Suddenly, a huge gap opened in a piece of stone on the seabed.

Then the entire seabed collapsed, revealing an undersea palace.

In this extremely ancient underwater palace, an extremely shriveled corpse was sleeping at this moment.

But at this moment, this extremely shriveled corpse suddenly opened its eyes, and a hoarse voice came out of its throat: "God help me, after so many years, there is actually a power from the outside entering this little..." In the world, the moment they entered this small world, the energy from the outside world burst into this place, allowing my seal to be broken. "

After finishing speaking, the eyes of this extremely shriveled corpse suddenly revealed a cruel and vicious aura.

He looked at the vast ocean around him, and then couldn't help but murmured, "During the countless years I have been sleeping, this ocean has also given birth to many powerful marine creatures. When I take over all the oceans, All the marine life has been drained of life. I should be able to regain one-tenth of the strength I had at my peak. Then I will be able to walk on land and control thousands of creatures in this small world again!"

At this moment, this shriveled corpse was speaking with infinite ambition in his tone.

Tang Youyou and others probably never expected that when they broke into this small world of ancient ruins, they would accidentally awaken a mysterious and terrifying strong man from his slumber...

...

At this time, Tang Youyou and his group had completely left the place where they had descended. They were driving a huge spirit boat and were about to arrive.

On the edge of this dark ocean.

At this moment, everyone on the spirit boat looked in the distance and suddenly said in surprise: "We are almost reaching the land range."

Ye Feng also looked forward at this time, and sure enough he saw the shore of the ocean appearing in front of him.

When everyone arrived at the shore, they immediately saw an endless virgin forest covering the shore area of the ocean.

Seeing this scene, everyone had a look of surprise in their eyes.

Unexpectedly, there is such a dense and dense virgin forest growing on the edge of this dark ocean.

Some of the trees in these primeval forests even tower into the clouds, covering the entire sky, giving people the feeling of coming to a country of green forests.

At this time, an older figure in the black market couldn't help but said: "In a primitive forest like this, we can't continue flying at high altitudes. Otherwise, it is very likely to cause many terrifying creatures deep in the primitive forest to attack. Note that there will be huge dangers. We have to walk on land. In this case, we will receive much less attention and will be safer."

Hearing what this senior figure in the black market said, many people present nodded in agreement.

Tang Youyou couldn't help but say at this moment: "The ancient elder is right. In this ancient primitive forest, it is indeed impossible to fly at high altitude openly. Although the defensive light shield of my spirit boat is very It is powerful, but it may not be able to resist some overlord-level taboo creatures in the primitive forest, so we should keep a low profile in this primitive forest, and in this small world of ancient ruins, many good things may be buried in this

In a primeval forest, when we walk on land and shuttle through the forest, the probability of finding opportunities will be much greater. "

After hearing this, everyone nodded, jumped off the spirit boat, and came to the forest on the shore.

Tang Youyou also took back the huge spirit boat at this moment, then jumped up and stood among the crowd.

Ye Feng was observing the surroundings at this moment, because Ye Feng discovered an unusual aura.

Seeing Ye Feng's seemingly solemn expression, Tang Youyou couldn't help but asked: "Ye Feng, what did you find?"

Now Tang Youyou, Miss Tang from the black market, is very concerned about Ye Feng and attaches great importance to it, and even started to ask Ye Feng for his opinion.

Ye Feng glanced around at this time and said aloud: "I sensed a very terrifying and vicious aura that existed on this shore, but it is estimated that the owner of that aura has moved away from here."

Hearing what Ye Feng said, Tang Youyou's eyes suddenly showed a look of surprise, and he couldn't help but said: "Ye Feng, I didn't expect that your perception is so powerful, you can even sense the fluctuations of the breath a long time ago. "

When Ye Feng heard Tang Youyou's compliments, he just smiled and said, "My perception is naturally much stronger than that of ordinary people."

When he said this, Ye Feng seemed to have discovered something, and he immediately said: "I sensed a special energy wave in the outer area of this forest. Let's go and take a look."

After saying that, Ye Feng jumped directly and flew towards a certain direction in the outer area of the forest.

When Tang Youyou saw this scene, he quickly said to the people around him: "Let's follow Ye Feng."

Chapter 4580 Mountain Formation

At this moment, many older people saw this scene with helpless expressions in their eyes.

Because none of them had expressed their opinions yet, Tang Youyou directly chose to follow Ye Feng.

After all, the more experienced these older people are, the higher their chances of finding opportunities.

But since Tang Youyou has decided to follow Ye Feng, it's natural that these older people can't say much. ??

After all, they were invited here this time just to protect the safety of many young people.

After all, these older people still have no control over what these young people want to do and what decisions they make.

At this moment, Tang Youyou followed Ye Feng, brought a group of senior figures, as well as the Seventh Prince and Nie Qianqian to the place where Ye Feng sensed it.

The next moment everyone saw a small mountain appearing in the forest ahead.

On the top of this hill, there is a golden palace that looks different.

Seeing this scene, everyone's eyes suddenly showed surprise.

Because in this primitive forest with a strong wild atmosphere, a golden palace suddenly appeared. It was completely inconsistent with the surrounding lush trees, giving people a rather stunned feeling.

But the next moment, Tang Youyou said happily: "Ye Feng, your perception is really powerful. You can sense the existence of a golden palace here from such a distance."

Ye Feng nodded and said, "I just sensed a special energy fluctuation, so I came over to take a look. Unexpectedly, a rather mysterious golden palace appeared here."

The Seventh Prince and Nie Qianqian also came over at this time, and said in surprise: "Then let's go over and investigate now."

Tang Youyou nodded, then glanced at an old man in black robes around him, and said loudly: "Elder Gu, go and investigate first and look around the golden palace.

Are there any dangerous situations? "

Obviously Tang Youyou is still very cautious, because the strength of Tang Youyou, the Seventh Prince and Nie Qianqian is definitely not as good as that of a top genius like Ye Feng, so this time they entered this dangerous ancient ruins, they relied more on their side The strong elders.

At this time, the elder figure in the black market, whom Tang Youyou called Elder Gu, immediately nodded, and then a dark light erupted from his body, and he quickly rushed towards the mountain.

But just when the elders of this black market were approaching the mountaintop area.

Formation patterns appeared on the surface of the surrounding mountains.

boom!

Then a thunder beam as thick as a bucket instantly hit the old man in the black market, and a huge roar broke out.

This thunder beam has a very terrifying destructive power. Even if this old man in the black market is extremely powerful, he was hit at this moment and felt a very terrifying destructive power. He immediately sacrificed it. A huge black shield, a very powerful defensive magic weapon, blocked the attack of the thunder beam.

Click!

But the moment the thunder beam hit the black shield, it shattered into pieces.

However, this black shield was able to withstand most of the destructive power of the thunder beam formed by this formation, so this old figure in the black market only suffered a slight injury and was knocked down from the sky, with his hair disheveled. , obviously a little embarrassed.

"What? This formation on this mountain is so powerful that even the top elders can't resist it?"

When the seventh prince saw this scene, he couldn't help but exclaimed in surprise.

Because he knew very well that each of the senior figures in the black market brought by Tang Youyou were very powerful, not much weaker than the senior figures in their royal family.

But unexpectedly, this veteran figure in the black market had a very powerful defensive magic weapon destroyed and suffered minor injuries.

This shows how powerful the formation imprinted on this mountain is.

Tang Youyou couldn't help but said: "Elder Gu, are you okay?"

This senior figure in the black market immediately nodded slightly, but also said with some fear: "If it weren't for my black iron and black gold shield to resist it, I would have been hit by the thunder beam formed by that formation just now. Into pieces!"

"hiss!"

Many people present couldn't help but gasped after hearing the words of this veteran black market figure.

Nie Qianqian was standing among a group of elders from the Demonic Sect, staring closely at the top of the mountain, and couldn't help but say: "I guess that golden hall is very extraordinary. There is such a powerful figure engraved in this mountain." The formation is just to protect a small golden palace, but this formation is so powerful that even the elders can't resist it. It seems that we are destined to miss that golden palace. "

Hearing what Nie Qianqian said, many people present couldn't help but look quite ugly. .??.

Whether it is the elders of the Demonic Sect or the powerful elders of the Blood Demon Dynasty brought by the Seventh Prince, they are all a little frightened at this moment.

Because they knew very well that the old man from the black market whom Tang Youyou sent just now was a practitioner at almost the same level as them. Even the old man from the black market couldn't resist it, and they definitely couldn't resist that formation either. Terrorist attacks caused by law.

At this time, many people present were somewhat silent.

Because this formation is really terrifying.

Even the senior figures in the black market brought by Tang Youyou were unable to withstand the attack of this formation. They even consumed an extremely advanced shield to withstand the destructive power of that formation.

So at this time, many people present, including those of the older generation, suddenly looked a little gloomy.

Because if there is no way to solve this formation problem, they will have no way to get close to the golden palace on the top of the mountain.

At this time, Ye Feng suddenly said: "Let me give it a try."

"What?"

Hearing what Ye Feng said, many people present couldn't help but change their expressions, including the Seventh Prince and Tang Youyou, young and distinguished figures, who couldn't help but say: "Ye Feng, you If you go directly now, your life may be in danger. Although your current cultivation level has improved a lot, it is still far behind compared with the older people we brought. If you even bring these If the elders can't resist the attack from that formation, then you definitely can't resist it either."

Hearing the exhortations from Tang Youyou, the Seventh Prince and others, Ye Feng just smiled slightly and said: "I once awakened a very special talent called the Eye of Heaven and Earth, which allowed my eyes to see through anything in the world. The context of the formation's operation, so let me try to see if I can see through the context of the formation's operation. If I can see through it,

I can avoid being attacked by this formation and can pass through it safely. , then I can take everyone through this formation without being attacked by the formation."

"What?"

Hearing what Ye Feng said, everyone present couldn't help but have deep surprises in their eyes.
