

## Ancient 4581

Chapter 4581 The next generation is terrible

Hearing Ye Feng's words at this moment, even the elders had astonishment in their eyes. They seemed not to have thought that Ye Feng had such a magical ability and could see through the origin of the formation. Thereby avoiding the attack range of the formation.

This is unheard of.

Even some great formation mages can't do this. They can only find ways to break the entire wave formation.

But Ye Feng doesn't need to fight the formation at all, as long as he can see through the formation's operation and pass this formation.

This does sound a bit fanciful.

At this time, an older member of the royal family seemed to have a lot of research on the battle method. He nodded slightly and said loudly: "Theoretically, this method of little friend Ye Feng is indeed feasible, but the premise is that little friend Ye Feng can complete it." Completely see through all the context of the entire formation, otherwise, if you are not careful and move to the wrong position, you will be attacked crazily by the formation. "

Ye Feng smiled at this moment and said aloud: "I will try it by myself first, without taking everyone else into danger."

After saying that, Ye Feng jumped directly, without any hesitation, and flew quickly towards the top of the mountain in the sky.

When Ye Feng was approaching the top of the mountain, the formation patterns on the entire mountain were revealed.

However, at this moment, Ye Feng has not completely stepped into the range of the formation, so the lines of the formation on these mountains have just begun to emit light, and have not directly condensed the thunder beams to attack Ye Feng.

At this moment, Ye Feng stopped his steps, then used the Eye of Heaven and Earth to carefully look at the entire mountain ahead.

While Ye Feng was carefully observing the operation of the entire formation, everyone at the foot of the mountain, including Tang Youyou, the Seventh Prince, Nie Qianqian, and a group of older people, were all looking at Ye Feng nervously.

\u003e

After all, they had already seen the power of the formation just now. It was very terrifying, and it was enough to blow an old strong man into pieces in an instant.

But now Ye Feng has special means to lead everyone through this formation, so everyone is naturally looking forward to it, but they are also quite nervous, fearing that something unexpected will happen to Ye Feng suddenly.

After all, although Ye Feng spoke with some confidence, many people still doubted what Ye Feng said.

After all, being able to see through the entire formation's operation is a bit too miraculous. For these powerful men of the Blood Demon Dynasty, it is a bit too unbelievable.

Even the powerful elders among the major forces have never seen such a magical ability.

So they were naturally suspicious of what Ye Feng said.

However, Tang Youyou was the only one present who had inexplicable trust in Ye Feng.

At this time, Tang Youyou's beautiful and cold eyes were staring at Ye Feng, as if she was very much expecting Ye Feng to do what Ye Feng said.

At this time, everyone suddenly saw that Ye Feng started to move again where he had stopped just now.

Ye Feng is slowly moving towards the top of the mountain and continues to approach.

At this time, at the foot of the mountain, an older person couldn't help but said: "Little friend Ye Feng is approaching that formation now."

Another senior figure in the black market beside him was the ancient elder who Tang Youyou had just sent out to investigate the situation.

At this moment, looking at Ye Feng's figure high in the sky, he couldn't help but say: "Little friend Ye Feng is really about to enter."

This mountain formation is within the range covered by the formation. I was in that place just now and was attacked by the thunder beam suddenly condensed by the formation. "

At this moment, the ancient elder was speaking with some lingering fear. After all, the thunder beam suddenly condensed by the formation just now had extremely terrifying destructive power. It almost killed him due to the attack. Naturally, this black marketer The elders felt very scared.

This was the first time he encountered such a terrifying formation. It was extremely powerful, and the instantaneous attack speed was so fast that it was impossible to dodge it.

So at this time, many people present were staring at Ye Feng nervously.

And at the next moment, when everyone held their breath, Ye Feng flew alone into the range covered by the formation.

However, the formation patterns on the mountain that began to emit light did not condense thunder beams or other attack methods to attack Ye Feng.

Ye Feng was still flying safely high in the sky, and was getting closer and closer to the top of the mountain. .??.

"What?"

Seeing this scene, a group of people at the foot of the mountain suddenly widened their eyes.

Even those senior figures with high self-esteem suddenly showed deep shock in their eyes, as if they did not expect that Ye Feng actually had such a magical ability and could safely shuttle through that formation.

After all, everyone had just seen how badly the senior figure in the black market was attacked by this formation, and almost died.

But Ye Feng, now such a young man, was able to fly safely within the range of the formation without being attacked by the formation. This really made everyone horrified and shocked in their hearts.

black market

That elder figure, the ancient elder who was sent out by Tang Youyou just now, couldn't help but smile bitterly and said loudly: "I didn't expect such a magical ability to really exist in the world. It seems that my cultivation is not enough and I am a bit too arrogant. Now, you can't underestimate the people of the world."

At this time, hearing the ancient elder say this, other senior figures, including senior figures from the royal family and senior powerful men from the Demonic Sect, couldn't help but nodded one after another, with admiration in their eyes.

They stared at Ye Feng's back and couldn't help but said: "What a terrifying young man."

At this moment, hearing the unanimous praise from many senior figures, the Seventh Prince was very happy, even a little excited, because he unexpectedly got to know such a magical super-top genius like Ye Feng, which would be beneficial to his future fight for the entire Blood Demon Dynasty. His position of great power must have unparalleled help.

Ye Feng's weight alone is estimated to be greater than all the talents cultivated by the Seventh Prince.

At this moment, Nie Qianqian looked at Ye Feng with deep amazement in her eyes.

When she first met Ye Feng, Ye Feng was still a weak young man who still needed protection from her, the top ten core disciples of the Demonic Sect. However, she didn't expect that Ye Feng had grown up in a short period of time. To this extent, and with so many magical abilities.

At this moment, Tang Youyou, the eldest lady of the black market, was also staring at Ye Feng's back, with a deep brilliance in her eyes, thinking secretly in her heart, "Father gave the inheritance token to Ye Feng, could it be that he wanted to let Ye Feng Am I in charge of the entire black market with Ye Feng? In that case, my father's intention is to make me become Ye Feng's training partner?"

At this moment, Tang Youyou, the black young lady, had many inner thoughts, which gave her noble and cold face an air of fireworks like that of an ordinary girl with a lot of thoughts on her mind.

Chapter 4582 Golden Monk

While everyone was having their own thoughts, Ye Feng had safely passed through the entire formation and reached the top of the mountain.

But at this time, Ye Feng did not explore the golden palace alone, because Ye Feng was not sure whether he had the ability to explore the entire golden palace.

And this time it was a collaboration between the entire team.

So Ye Feng returned directly and landed at the foot of the mountain.

Then Ye Feng looked at everyone present, smiled and said: "I have already investigated it, and there is no problem at all. I can lead everyone safely through this ancient and terrifying formation."

Hearing what Ye Feng said, many people present stared at Ye Feng in surprise, as if they did not expect that Ye Feng actually did what he said.

After all, what Ye Feng said just now felt a bit too magical and too false.

Unexpectedly, Ye Feng actually had such a magical ability.

At this time, many senior figures couldn't help but exclaimed in admiration and said: "Young friend Ye Feng, in the future, you will definitely become an extremely brilliant figure in the Northern Territory of the Ten Thousand Monsters Interface."

Hearing these elders say this, Ye Feng just smiled and didn't say much.

The seventh prince, Nie Qianqian and Tang Youyou, both had eyes filled with wonder at this moment.

Because a young man like Ye Feng actually got the approval of these extremely arrogant elders, it is enough to show that Ye Feng's various performances since entering this ancient ruins have amazed these elders.

At this moment, everyone no longer wasted time and followed Ye Feng directly through the entire formation safely.

The ancient elder of the black market whom Tang Youyou sent before had some psychological shadows about this formation. When approaching this formation, he even took out several shields and placed them around him, as if he could resist possible attacks at any time. Coming danger.

But it turned out to be very safe. Ye Feng was very safe and led everyone to calm down.

After passing through this formation, everyone breathed a sigh of relief and once again marveled at the magic of Ye Feng's ability.

At this moment, Ye Feng led everyone directly to the golden palace on the top of the mountain.

At this time, everyone immediately saw that the door of this golden palace was closed. There were two lifelike ink jade unicorn statues on both sides of the door, giving people a very majestic feeling.

At this moment, an older person suddenly spoke up and said: "You young people, stand back, and we older strong men will explore the situation in front."

Tang Youyou, the Seventh Prince and Nie Qianqian all nodded and stood at the back. Ye Feng also stood at the back with the three of them.

After all, although Ye Feng's strength has improved a lot now, compared with these real elders, he is still far behind.

So it is the best choice to let these older people take the lead.

At this moment, the Blood Demon Dynasty, the Demonic Sect, and the elders of the black market have united together to take the lead.

When they arrived at the door of this golden palace, they immediately took action to open the door of this palace.

Boom!

The attack of a group of senior figures directly shattered the entire door into pieces the moment it touched the door of the golden hall.

But just the next moment.

Boom!

Boom!

Suddenly, accompanied by two huge roars, the two ink jade unicorn sculptures at the entrance of the golden hall came to life, with a red light emitting from their eyes, giving people a very strange feeling. Attacked by a group of senior figures and left.

Depend on

The two nearest elders, an elder from the royal family and an elder from the Demonic Sect, were first attacked by two black jade unicorn sculptures. One of their arms was blown to pieces, and they fell down one after another. He flew out, but his life was not in danger.

"ah!"

"ah!"

However, two screams suddenly sounded on the field.

After all, although the lives of these two senior figures were not in any danger, one arm was shattered in an instant, so it was still very painful.

At this moment, everyone present reacted and quickly gathered together again, working together to hold up a defensive light shield to resist the attacks of the two black jade unicorn sculptures.

Boom!

At this moment, an older and powerful member of the royal family opened his mouth and uttered some spell-like sounds.

Then I saw nine flying swords of different colors flying out of an empty box he was carrying, and instantly slashed at the nearest ink jade unicorn sculpture.

Boom!

The ink jade unicorn sculpture was directly bombarded and flew backwards, with cracks appearing on the surface.

At this moment, an older figure from the Demonic Sect who came back to his senses also stretched out a hand in an instant. His hand immediately turned into a green, huge, claw-like palm, with The extremely terrifying power of the underworld directly hit another black jade unicorn sculpture.

Boom!

This ink jade unicorn sculpture was instantly blown into a large piece.

It has to be said that these senior figures from various major forces are still very powerful. Just now, one of them was accidentally attacked. When he recovered, other senior figures carried out terrible attacks. In an instant, these two were killed. The very powerful black jade unicorn sculpture was shattered.

When Ye Feng saw this scene, his eyes suddenly showed a look of yearning.

The cultivation and strength of these older people are really great, and they are indeed much stronger than themselves currently.

While Ye Feng was thinking in his heart, everyone had already entered the golden hall in front of them.

"This is....."

The moment everyone walked in, they saw an incredible scene.

Inside this golden hall, shriveled corpses of monks appeared.

There were dozens of them, all sitting cross-legged on the ground.

The surface of these shriveled monk corpses is actually golden, just like the golden bodies of Buddhism and Taoism.

This made everyone immediately couldn't help but show deep surprise in their eyes.

An elder member of the royal family was well-informed and said excitedly: "These are actually the corpses of dozens of monks who have cultivated themselves into golden bodies of Buddhism and Taoism. These are all good things. They are used to refine many high-level Good material for weapons."

While this older person was talking, Tang Youyou said aloud: "How should we distribute the corpses of these dozens of monks who have cultivated themselves into Buddhist and Taoist golden bodies? This is the first opportunity we have received. "

The Seventh Prince spoke out at this time: "I guess the Demonic Sect doesn't need these things. Let's divide them equally between our royal family and the black market this time. When we encounter another opportunity next time, we will favor what the Demonic Sect needs for cultivation." Those things will be distributed to the Demonic Sect first."

Hearing what the Seventh Prince said, Nie Qianqian nodded slightly and said, "Okay, okay."

Although these senior figures are extremely powerful, the real ones who negotiate terms are the Seventh Prince, Tang Youyou and Nie Qianqian.

Of course, Ye Feng now belonged to the Seventh Prince's side, and was eventually assigned the bodies of two Buddhist and Taoist monks.

Chapter 4583 He is an eternal genius

Ye Feng got the corpses of these two Buddhist and Taoist monks, and there was no expression of interest on his face.

Because although this kind of monk has cultivated into a Buddhist golden body, to be honest, the corpses are all shriveled and there is no blood energy to swallow them, so Ye Feng is not that interested in this kind of Buddhist golden body.

But now that he has obtained it, Ye Feng naturally put the corpses of these two Buddhist and Taoist monks into his storage ring, maybe he can use them in the future.

At this time, everyone had distributed the corpses of dozens of monks in the golden palace, and then continued to explore the golden hall.

The Seventh Prince couldn't help but said: "This golden palace stands alone on the top of this mountain, and there is such an ancient and powerful formation guard engraved on the mountain. It must not only be like dozens of monk corpses." Simple."

Everyone nodded when they heard what the seventh prince said.

After all, it is indeed quite strange for this golden palace to suddenly appear in this primitive forest.

Therefore, the secret hidden in this golden palace cannot be as simple as what everyone sees now.

At this moment, an older figure in the black market seemed to have discovered something, and he couldn't help but said: "Come over quickly and see what this is."

At this moment, everyone was told by this black elder figure and immediately walked quickly in a certain direction.

They came to the deepest area of the golden hall, where a golden wall appeared.

However, on this golden wall, there is actually a very mysterious-looking six-pointed star formation imprinted on it.

At this time, everyone looked at the six-pointed star formation imprinted on the golden wall with deep surprise in their eyes.

I didn't expect that this golden temple is the deepest

On the wall above, there is such a mysterious-looking formation.

At this moment, an older figure in the royal family stood behind the seventh prince, staring at the six-pointed star formation on the wall, and said with some surprise: "I once read about this kind of six-pointed star formation in the ancient books of the royal family. According to the records of the law, it is said that this six-pointed star formation is a very ancient sealing formation. Is there something sealed in this golden palace? "

Hearing this senior member of the royal family say this, everyone present couldn't help but have inexplicable surprises in their eyes.

Just now, they saw dozens of monks sitting cross-legged on the ground in the main hall. Even if they cultivated to become the best in Buddhism and Taoism, their corpses were completely shriveled up, as if their life force had been sucked away by something.

So at this time, everyone thought of this, and their eyes suddenly showed deep fear.

At this moment, Tang Youyou, the eldest lady of the black market, couldn't help but said with some worry: "It seems that a very terrifying existence was born in this small world back then. The extremely powerful being in this golden hall was The monks have drained all their life force, let's get out of here as soon as possible."

Hearing what Tang Youyou said, everyone nodded. They felt that this golden palace was a bit strange.

But just when everyone was about to leave.

Buzz!

Suddenly, the six-pointed star formation on this wall lit up brightly.

Seeing this scene, everyone couldn't help but quickly retreated, wanting to stay away from this six-pointed star formation.

"Snapped

despair! "

And at the next moment, the six-pointed star formation emitted light, a broken black palm suddenly fell from the six-pointed star formation, exuding an aura of death that was extremely frightening.

Like a death hand.

At this moment, an older person who approached the hand of death was an elder from the black market brought by Tang Youyou. He was contaminated with the aura of death on the hand of death. His whole person suddenly seemed to be possessed by death. A shadow fell over him.

One of his legs was quickly withering away, as if the black hand of death was frantically absorbing life energy.

After seeing this scene, this older man was also very decisive and ruthless. He directly cut off his leg that was coated with the breath of death.

At this moment, this senior figure was freed from the entanglement of the aura of death.

"What a terrifying palm!"

"Is this the legendary palm of death? This is a hand of death!"

At this moment, everyone saw this terrible scene and couldn't help but have deep horror in their eyes.

Because they have never seen such a terrifying palm, but it is just contaminated with the aura of death, and even the elders in the black market cannot resist it.

At this time, Tang Youyou immediately said decisively: "Don't worry about this black palm. Let's escape from here. This place is too weird."

Everyone nodded and prepared to leave.

But at this moment, Ye Feng suddenly walked towards the black palm that fell from the six-pointed star formation, as if he wanted to take a good

Explore this hand of death.

Seeing this scene, the Seventh Prince hurriedly said: "Brother Ye, don't be impulsive. This hand of death is too terrifying. A little bit of the aura of this hand of death has already made everyone in the black market... A senior lost a leg. It's terrible. This thing is really weird. We need to stay away from it completely."

Ye Feng said aloud at this moment: "Seventh Prince, don't worry, I have practiced the secret of death, and I also have a spine of death in my body. I am not afraid of this kind of thing. Maybe this hand of death can give me Brings great strength."

After saying that, Ye Feng walked quickly towards the hand of death.

At this moment, Ye Feng was suddenly infected with the aura of death emanating from this hand of death.

But unlike the old figure in the black market before, Ye Feng was contaminated with this aura of death and did not suffer any harm at all. Instead, this black hand of death flew to Ye Feng's palm instantly. Above it, it merged into Ye Feng's right hand.

Buzz!

At this moment, Ye Feng exerted a little power, and Ye Feng's right hand instantly turned into a dark color, turning into the hand of death, possessing the terrifying power of death!

"this....."

Seeing this incredible scene, everyone present suddenly widened their eyes.

No one seemed to have expected that Ye Feng could control this kind of death hand, and even integrated it into his own body and became a part of himself.

At this moment, an elderly person from the black market standing behind Tang Youyou couldn't help but exclaimed in admiration: "Young friend Ye Feng is really incredible! He is truly an eternal genius!"

Chapter 4584 Testing Power

At this time, many older people looked at Ye Feng with eyes filled with deep wonder.

Because what Ye Feng did was really incredible.

At this moment, Ye Feng didn't care about others' praise, but concentrated on sensing the hand of death he had just fused.

Ye Feng could sense that his hand of death was fused into his right hand, instantly giving his right hand incredible power.

Ye Feng just waved his right hand casually. After his right hand turned into the hand of death, it had a very terrifying power of death and a very terrible destructive power.

At this time, Tang Youyou, a young lady from the black market, came over, stared at Ye Feng's black right hand, and couldn't help but said: "Ye Feng, are you sure you have fused this hand of death? Can you control it? I feel that a hand of death is sealed here, which is really weird. Even if you successfully fuse it temporarily, it may be a hidden danger in the future. "

Hearing what Tang Youyou said, Ye Feng immediately grinned and said loudly: "Since I entered the journey of cultivation, I have integrated many things, many of which have hidden dangers, but I can suppress them."

After finishing speaking, Ye Feng suddenly looked at an elder from the royal family behind the Seventh Prince, smiled and said loudly: "Senior, I wonder if you can let me test how my hand of death can be fused to my body." What kind of power can be exerted after using the right hand."

Hearing what Ye Feng said, the senior member of the royal family suddenly twitched the corner of his mouth.

After all, he had just seen the horror of this hand of death, and now Ye Feng actually wanted him to be his opponent to try the power of the hand of death that Ye Feng had just fused.

Although Ye Feng has now fused with this hand of death and can control the power of this hand of death, this does not mean that Ye Feng can completely not hurt others.

At this moment, the Seventh Prince smiled and said: "Brother Ye, it's absolutely no problem for you to get used to the power of this hand of death."

The Seventh Prince was very happy about Ye Feng's fusion of the Hand of Death this time.

Because the stronger Ye Feng is and the more methods he has, the more help he will have to the Seventh Prince in the future.

After all, the seventh prince was actually at a disadvantage in the competition among the princes of the entire Blood Demon Dynasty.

Because the seventh prince is the seventh prince born, his inherent advantages are not high.

Moreover, the seventh prince's mother clan is not that powerful, so he cannot compete with other powerful princes among the royal family of the Blood Demon Dynasty.

Therefore, the more means Ye Feng has now, the seventh prince will naturally be very happy.

At this time, the Seventh Prince immediately looked at the senior member of the royal family whom Ye Feng had named, and said with a smile: "Just have a fight with Ye Feng, just don't hurt Ye Feng."

Hearing what the Seventh Prince said, the elder of the royal family suddenly twitched the corners of his eyes slightly. He wanted to know who was not harmed by whom.

Although Ye Feng is still a young man now, in the eyes of these powerful elders, Ye Feng has become an incredibly powerful being, not to mention that Ye Feng has now integrated this strange and powerful death. hand, so naturally these older people are very afraid of Ye Feng.

At this time, it is necessary to

After fighting directly with Ye Feng, this senior member of the royal family immediately took a deep breath, walked up to Ye Feng, and said with a rather wry smile: "If the hand of death is too powerful, please invite Ye Feng." Friends can be merciful."

"What?"

Hearing what this senior member of the royal family said, several young people present showed deep horror in their eyes.

Because they never thought that such a powerful senior member of the royal family would actually make Ye Feng show mercy.

At this moment, everyone was staring at Ye Feng's dark right hand, with deep surprise in their eyes.

Could it be that the hand of death that Ye Feng fused was really as powerful as the legend says?

Even the elders of the royal family are so afraid.

However, the few young people present could not see the real power of Ye Feng's hand of death. They only knew that this hand was very weird, and they did not know how powerful this hand of death was. Strong.

But these older people are deeply aware of how terrifying this hand of death is.

At this moment, the senior member of the royal family who was dispatched by the Seventh Prince took a deep breath, looked at Ye Feng across from him, and said loudly: "Young friend Ye Feng, you can take action directly now."

Ye Feng nodded, then his eyes became quite serious, and he said loudly: "Senior, you'd better use your strongest defense method first, otherwise, I'm afraid I won't be able to control this hand of death later. The power hurt you."

"this....."

Hearing what Ye Feng said, many young people present couldn't help but have deep surprises in their eyes, as if they didn't expect Ye Feng to be so confident.

But this hand of death is indeed quite strange.

At this moment, the senior member of the royal family opposite did not think that Ye Feng was joking. Instead, he nodded very seriously, and then said directly: "Dragon Soul Guardian Shield!"

Buzz!

At this moment, this senior member of the royal family activated a very powerful protective inheritance of the royal family, and a very rich golden dragon energy suddenly burst out from his body.

These golden dragon auras were directly a dozen golden dragon souls condensed around him, and then a dozen golden dragon souls were entangled together to form a defensive shield, which was placed on the head of this senior figure in the royal family. above.

"boom!"

At this moment, Ye Feng didn't hesitate at all, and directly activated his death hand with all his strength.

This hand of death has been completely integrated into Ye Feng's right hand, so at this moment Ye Feng raised his right hand, and a very terrifying black gas of death suddenly surged out of his right hand.

Next, Ye Feng's right hand suddenly turned into a big black hand covering tens of thousands of meters, covering the sky and the sun, and struck forward fiercely.

Boom!

At this moment, Ye Feng used his hand of death and directly hit the shield formed by more than a dozen golden dragon energy condensed on the head of this senior royal figure.

"Boom!"

Along with a terrifying roar, Ye Feng's big black hand, filled with the aura of death, struck down completely, possessing unparalleled powerful destructive power!

Chapter 4585 The biggest gain

At this moment, Ye Feng immediately felt that this defensive shield was very strong.

It has to be said that the protective methods used by this senior member of the royal family are still very powerful.

But at this time, the power of Ye Feng's Death Hand has not yet completely exploded.

At this time, Ye Feng completely activated the power of his death hand, and suddenly continued to bombard it fiercely.

This time, Ye Feng's hand of death fully activated all his power. Ye Feng discovered that there was even a shadow of the will of the god of death in his hand of death, making his hand of death even more powerful. Special power blessing.

At this time, Ye Feng immediately understood. It seemed that the hand of death was integrated into his right hand, and it could indeed unleash the true power of the hand of death.

However, his current cultivation strength is not enough, so he has not yet fully stimulated the full power of the Hand of Death.

Perhaps as his cultivation level continues to improve, the power erupted from this hand of death will become stronger.

And just when Ye Feng was thinking secretly, Ye Feng's death hand struck again.

This time, a drop of cold sweat broke out on the forehead of the powerful elder of the royal family, and he couldn't help but take several steps back.

The shield condensed by more than a dozen golden dragon energy that he displayed was also shattered into pieces by Ye Feng's death hand.

And the most bizarre thing is that the aura of death exuded by Ye Feng's death hand has contaminated the body of this powerful elder of the royal family, causing his vitality to be rapidly depleted.

It can be seen that his two legs are rapidly drying up at this moment.

This powerful senior member of the royal family was unable to dispel this aura of death. It was like maggots attached to his bones, constantly eating away at his entire body.

This powerful elder from the royal family was immediately frightened.

He quickly shouted and said: "It's over, I've been contaminated by the breath of death!"

At this time, Ye Feng smiled slightly and said, "Senior, don't worry, I'll help you."

Uh-huh!

After saying that, Ye Feng rushed directly in front of the powerful elder of the royal family, and then used his hand of death to reabsorb the aura of death from his body.

At this time, the powerful elders of the royal family finally got rid of this aura of death, and their vitality no longer continued to be eroded.

After feeling all this, the powerful elder of the royal family immediately couldn't help but exclaimed in amazement: "It's so powerful. This hand of death is really too strong. It not only has terrifying destructive power and destructive power. , and the aura of death contained in the hands of death is really weird. Once it is contaminated, it can instantly erode the life force of a powerful creature, just like being cursed by death. "

At this moment, Ye Feng couldn't help but nodded when he heard this powerful elder from the royal family say this.

Ye Feng also felt the power of this death hand.

Because this kind of hand of death not only has terrifying destructive power, the unique and incomparable aura of death contained in the hand of death is also a trump card.

At this time, everyone around saw the whole process, with deep amazement in their eyes.

Because the power that Ye Feng had just exploded was actually able to break through the defense of an older and stronger man.

Moreover, the strange aura of death contained in the hands of death can also harm the powerful elders.

This naturally made everyone's attitude towards Ye Feng happen immediately.

A 180-degree change.

Those elders who thought Ye Feng was just a young man before looked at Ye Feng with deep respect, and even regarded Ye Feng as a peer.

Because Ye Feng's strength has completely surpassed that of the younger generation and can compete with the stronger ones of the older generation.

At this time, with a thought in Ye Feng's mind, the hand of death fused in his right hand immediately dissipated.

Ye Feng's right hand turned yellow again.

Therefore, Ye Feng can completely hide the power of his Death Hand and display it at critical moments. It is definitely a killer weapon and a killer weapon.

Ye Feng was very satisfied at this moment.

In this golden hall, Ye Feng is probably the one who has gained the most.

But even if this hand of death is used by others, others will not be able to use it. Only Ye Feng with such a special physique can integrate such a weird thing.

At this time, Ye Feng said loudly: "Then let's just leave here."

Everyone nodded and left the golden hall.

In any case, everyone was allocated a lot of golden bodies of monks, which can be considered a good harvest.

At this moment, Tang Youyou came outside the golden hall, looked at the surrounding virgin forest, and said aloud: "Then let's move on and walk towards the deep area of the primeval forest to see if we can pass through it. Pass through the entire primeval forest and head to other areas of this small world of ancient ruins."

Everyone nodded.

Buzz!

At this time, Ye Feng exuded his soul power and spread towards the surroundings.

To know

, Ye Feng's soul power has now been upgraded to a very powerful level, so after Ye Feng releases his huge soul power at this time, he can cover a very wide range.

At this time, the moment Ye Feng emitted his soul power, it directly covered a radius of several kilometers.

Almost at the next moment, Ye Feng immediately sensed a very unusual aura fluctuation.

At this time, Ye Feng immediately grinned and said loudly: "Everyone, follow me. I found a very good place with special energy fluctuations. It is likely to be a place created by chance."

Hearing what Ye Feng said, everyone present showed deep surprise in their eyes.

It was Ye Feng who discovered the location of this golden hall in advance.

At this time, Tang Youyou was also very curious and couldn't help but ask: "Ye Feng, what kind of ability do you have? It's really surprising that you can discover all kinds of places of chance and fortune around you in advance. It's incredible."

At this moment, Ye Feng looked at everyone with very expectant and curious eyes, and immediately smiled and said: "Because I am a soul master, I can radiate my soul power, covering the surrounding area for several kilometers." Within a kilometer range, special energy fluctuations were discovered, so it's not that I know where the place of creation is, but that I sensed some special energy fluctuations."

Hearing what Ye Feng said, everyone's eyes suddenly showed deep shock.

Even Tang Youyou, Miss Tang from the black market, couldn't help but exclaimed: "Ye Feng, you are actually the legendary soul master!"

At this moment, many people present could not help but look deeply shocked in their eyes. It seemed that they had never thought that Ye Feng, who was extremely talented in martial arts, was actually a hidden soul master!

Chapter 4586 My pleasure

Obviously, at this time, everyone knew that Ye Feng was actually a hidden soul master, and naturally they were very shocked.

Because Ye Feng has never revealed his soul master's methods, he didn't expect Ye Feng to hide it so deeply.

After all, you must know that it is absolutely rare to see a practitioner who can practice martial arts and soul master at the same time.

Not to mention, there are even fewer people who have cultivated their martial arts talents and soul master talents to the extreme.

It can be said that even within hundreds of thousands of years, we may not be able to find a being as defiant as Ye Feng.

So at this time, everyone looked at Ye Feng with more attention.

Because Ye Feng's talent is enough to become a peerless strongman in the entire Northern Territory of Ten Thousand Monsters in the future, and even become one of the top transcendent beings in the Northern Territory, overlooking all living beings from high above.

At this time, everyone's expectations for Ye Feng are naturally getting higher and higher.

Even Tang Youyou, Miss Tang from the black market, looked at Ye Feng with eyes full of a deep brilliance.

It can be said that her impression of Ye Feng is getting better and better.

Originally she thought Ye Feng was just an ordinary young man, but she didn't know why her father gave the inheritance token to Ye Feng, but now Tang Youyou understood more and more that Ye Feng was qualified enough to get the black market The inheritance token is gone.

Perhaps this was a show of goodwill from her father to Ye Feng, so that Ye Feng could help the entire black market in the future.

Just when Tang Youyou was thinking about it, the Seventh Prince also felt like he had found a treasure. He quickly came to Ye Feng, took Ye Feng's hand, and said loudly: "Brother Ye, I am the one who can meet you." What an honor."

The Seventh Prince is simply ecstatic now, because it can be said that it is an honor for the Seventh Prince that such an unparalleled top genius like Ye Feng can help him now.

Because the Seventh Prince knew very well that even if he was a noble prince of the Blood Demon Dynasty, he might not be anything in front of a rare genius like Ye Feng, so he was able to get to know Ye Feng in advance. , it is naturally an honor for the Seventh Prince.

At this moment, Ye Feng saw everyone's enthusiasm and just smiled slightly and said: "Everyone really praises me too much. In fact, I am just like everyone else. There is no difference. I am just an ordinary person." Just a young man."

After hearing what Ye Feng said, everyone couldn't help but shake their heads and smile bitterly.

Even the elders and powerful men among the major forces couldn't help but shake their heads at this moment.

If others say that they are mediocre, maybe they don't think it's a big deal, but if a top genius like Ye Feng, a heaven-defying talent among fellow Soul Martial Arts practitioners, still says that he is mediocre, then it's really outrageous. .

Because everyone has already seen that Ye Feng's talent is so incredible.

At this time, Tang Youyou's eyes also showed a deep look of surprise. She finally understood why Ye Feng was able to instantly discover this mountain with a golden palace as soon as he came to this primitive forest.

It turns out that Ye Feng relied on his soul master's skills to sense the energy fluctuations emanating from this golden palace and came here.

At this time, everyone immediately had great trust in Ye Feng, feeling that Ye Feng could lead them to continuously explore various supreme opportunities and creations in this ancient ruins.

At this time, since Ye Feng had already said that he sensed special energy fluctuations in a certain direction, everyone no longer had any doubts, but followed him with great faith.

Behind Ye Feng, let Ye Feng lead them through the virgin forest.

At this moment, the moment Ye Feng's soul power was emitted, he indeed discovered a very special energy fluctuation, which was emitting in a certain direction not far from here.

So at this time, Ye Feng led everyone to quickly shuttle through the virgin forest, flying quickly in the direction he sensed.

But just when they passed through a swampy land.

Poof!

Poof!

Colorful poisonous snakes suddenly flew out of the mud in the swamp.

These venomous snakes were very small, like tiny tentacles. They flashed out of the mud in the swamp and pierced the soles of several older people at once.

Even the seventh prince had one of his legs pierced.

Because these venomous snakes were like the sharpest spears, emerging from under the ground and instantly piercing their soles or thighs. Then the venomous snakes' teeth bit their soles and thighs, causing them to be covered instantly. They were all blackened, and they were obviously poisoned in an instant.

The seventh prince immediately screamed in fear: "Brother Ye, save me!"

Ye Feng didn't hesitate at this moment. He directly stretched out his hand and broke the poisonous snake biting the seventh prince's legs and feet. Then Ye Feng instantly released the poison-eating insects he had bred back then. He sucked out the poison from the seventh prince's body.

It can be said that poison-eating insects like this kind of toxin very much. Not only will they not be harmed by life after eating the toxin, but they will become stronger and stronger just like taking a big tonic.

At this time, several senior figures also had their feet pierced and bitten by venomous snakes.

The feet were also poisoned.

But the cultivation of these older people was very strong after all. They directly forced the poison out, then stopped the wound and crushed the poisonous snakes.

These venomous snakes actually have very weak defenses. If they are attacked or pulled, they will break and die.

But these poisonous snakes often fly out of the mud unexpectedly and can kill many powerful beings instantly.

Fortunately, everyone in Ye Feng's team had extraordinary skills and were escorted by extremely powerful senior figures, so this time it was just a small episode and did not threaten the lives of everyone in the team.

Next, everyone continued to shuttle through this swamp.

But at this time, everyone became very vigilant.

Because in this swampland full of mud and swamp gas, terrible dangers may come at any time.

Buzz!

Ye Feng also exudes soul power at this time, covering the entire team, and can detect various situations in advance at any time.

Boom!

However, just when they reached the end of this swamp, and before they could completely leave this swamp, suddenly there was a huge roar, and the entire end of the swamp, the earth suddenly Exploded.

Uh-huh!

A huge golden centipede that was several kilometers long crawled out of the mud in the swamp. It had red spots all over its body. It looked very ferocious and disgusting, and it was terrifyingly poisonous.

An elder of the royal family couldn't help but exclaimed: "This golden centipede is definitely the most vicious creature in this swamp, everyone, be careful!"

Chapter 4587 No threat

At this time, after this senior member of the royal family finished speaking, several powerful seniors from various major forces around him took action directly.

An elder from the royal family released several flying swords, emitting different colors of sword light, and attacked the big golden centipede in front of him.

"Dang! Dang! Dang!"

The flying swords directly hit the top of the golden centipede's head, but they made sounds like metal collisions.

The extremely advanced flying sword released by this powerful elder of the royal family has terrifying cutting power, but it is unable to penetrate this big golden centipede.

I have to say that this golden centipede is really a very scary creature and an extremely powerful poisonous insect.

Moreover, the body surface of this golden centipede is also protected by a golden shell.

This beetle-like shell seems to be made of the strongest metal in the world. Even the flying swords of the powerful elders of the royal family cannot destroy the shell of this golden centipede.

At this moment, an old man from the Demonic Sect directly released an extremely powerful demonic puppet.

This was a demonic puppet specially created by the Demonic Cult. After it was released, it was several thousand meters tall. In an instant, it was fighting with the golden centipede that was also several thousand meters tall.

Boom!

The two behemoths immediately had a fierce battle in the swamp.

At this moment, Ye Feng seized the opportunity and instantly used the power of the void to flash high into the sky, and then a golden sword appeared directly in his hand.

This golden long sword is the weapon that Ye Feng transformed into with the God's Ring. It has terrifying cutting power.

At this moment, Ye Feng held the God's Sword in his hand and rushed towards the golden centipede that was thousands of meters tall.

At this moment, the golden centipede just glanced at Ye Feng without paying any attention at all.

Because Ye Feng's cultivation aura is much worse than those of the elders.

Moreover, the golden sword held in Ye Feng's hand had no energy fluctuations at all, and seemed to be just a pure metal sword.

Therefore, the golden centipede completely felt that Ye Feng could not hurt it.

So this big golden centipede didn't care about Ye Feng at all, but continued to fight with several strong men of the older generation.

Seeing this scene at this moment, a cold smile suddenly appeared in Ye Feng's eyes.

It seems that this big golden centipede feels that it is not a threat.

But this is a good thing for Ye Feng, as it allows Ye Feng to succeed in an instant sneak attack.

Uh-huh!

At this time, Ye Feng rushed directly in front of the golden centipede, then waved the God's Sword in his hand and stabbed the golden centipede on the head.

The golden centipede has not even deliberately defended Ye Feng's attack because it feels that Ye Feng cannot hurt it at all.

After all, the high-level flying sword of an elder in the royal family just now was unable to penetrate his centipede carapace, let alone a young man like Ye Feng, and the weapon in his hand even radiated ripples. The long sword is gone.

But in the next moment.

"Pfft!"

Along with the sound of broken flesh and blood, Ye Feng

The golden long sword in his hand was like the sharpest magic weapon in the world. It pierced the proud carapace of this golden centipede at once, and directly penetrated the shell fiercely, and then It pierced the head of this big golden centipede and instantly pierced the head of this big golden centipede!

"Roar!!"

Almost at this moment, the golden centipede felt the terrifying pain, which spread from its head throughout its body, and it immediately let out earth-shattering screams and roars.

But it was already too late.

Because of its arrogance, Ye Feng successfully pierced its head. The golden centipede was fatally struck by Ye Feng at this moment. It struggled for a while and then fell to the ground dead.

"You're going to die now?"

Many people saw this scene with deep astonishment in their eyes.

Because they never imagined that the golden centipede that was so vicious just now would end its life with Ye Feng's sword.

At this moment, even the few powerful elders who were fighting fiercely with the golden centipede couldn't help but have deep astonishment in their eyes.

Because the golden centipede, which was so menacing just now, fell to the ground and died in an instant, which was really shocking.

At this moment, everyone was just staring at Ye Feng, their eyes once again showing deep shock.

Especially the elder royal figure who used the flying sword. At this time, he stared at the golden long sword in Ye Feng's hand. His eyes could not stop admiring him and said loudly: "Young friend Ye Feng, this golden long sword. The sword is really a peerless magic weapon. It is so sharp that it instantly pierced the carapace of the golden centipede and killed its life. "

Obviously, this senior member of the royal family who specializes in using swords is deeply aware that the seemingly ordinary golden sword in Ye Feng's hand is definitely an incredible and unique weapon.

In fact, there was no need for this senior member of the royal family to say so. Everyone understood that the golden sword that appeared in Ye Feng's hand was definitely an extremely powerful treasure and weapon.

Because when the old and powerful men fought against the golden centipede before, they couldn't even break through the golden centipede's carapace and couldn't cause any harm to the golden centipede at all.

But the golden long sword in Ye Feng's hand was able to pierce the golden centipede instantly. Naturally, everyone's eyes were fixed on the sword in Ye Feng's hand with deep curiosity and admiration. A golden sword.

However, everyone did not know that this golden sword was the most powerful treasure of the most powerful clan, the Celestial Clan.

At this moment, Ye Feng looked at the fallen golden centipede in front of him, smiled and said to a group of senior experts around him: "The carapace, scales and claws of this golden centipede are all extremely high-grade materials. Just divide it equally, I don't need it, I just need the blood energy of this golden centipede."

After finishing speaking, many senior figures nodded and agreed with Ye Feng's allocation.

Although they had previously held back the ferocious attack of the golden centipede, allowing Ye Feng to successfully assassinate him.

But without the extremely sharp golden sword in Ye Feng's hand, they really couldn't do anything to this golden centipede, and it couldn't break the armor at all.

At this moment, Ye Feng nodded expectantly, and then without any hesitation, he instantly released his Devouring Domain, covering the dead golden centipede and the towering insect body of several kilometers. He entered his own devouring domain and began to devour the blood and energy of this golden centipede! At this time, after this senior member of the royal family finished speaking, several powerful seniors from various major forces around him took action directly.

He entered his own devouring domain and began to devour the blood and energy of this golden centipede!

Chapter 4588 The Edge of the Forest

You must know that this big golden centipede is a ferocious big insect that was attacked by several powerful elders from the major forces just now, and it did not fall behind.

Therefore, this giant golden centipede, which is thousands of meters tall, contains so much skill and blood energy in its body that it is like a vast ocean.

"Rumble..."

At this moment, after Ye Feng began to swallow the golden centipede, he could immediately feel that his power was growing at an incredible speed.

You must know that Ye Feng's current state is at the Half-step Heavenly Soul state, which is a bottleneck for a large state.

Therefore, it is still very difficult for Ye Feng to break through the bottleneck of this large realm.

But with the help of the blood energy of this golden centipede, Ye Feng's skill quickly accumulated, and the bottleneck of the Half-Step Heavenly Soul Realm began to loosen the moment it was hit.

"Boom!"

Suddenly at a certain moment, Ye Feng's body suddenly burst out with a terrifying aura of cultivation.

That is the momentum of breakthrough!

At this moment, Ye Feng's cultivation actually succeeded in breaking through his current bottleneck. He directly broke through the bottleneck of the Half-step Heavenly Soul Realm and broke through to the real first level of the Heavenly Soul Realm!

At this time, Ye Feng stood up suddenly, his eyes were shining brightly, and his aura was like a vast ocean, surging and giving people a very scary feeling.

Ye Feng's fighting power surged unparalleled at this moment.

Because after Ye Feng's cultivation broke through a whole realm, he was naturally able to achieve earth-shaking changes in his combat effectiveness.

At this moment, Ye Feng sensed the powerful cultivation aura of the first level of the Heavenly Soul Realm that he had just broken through, and his eyes revealed a look of deep surprise.

This big golden centipede is indeed a high-level creature in this small world of ancient ruins. After devouring it, it has brought great help to me, allowing me to directly accumulate my skills and break through to the real first level of the Heavenly Soul Realm.

At this moment, several senior figures standing around could not help but exclaim in admiration: "Now I finally understand how little friend Ye Feng made a breakthrough so fast. It turns out that he has actually cultivated a method that can transform the power of outside creatures into one's own power is really unbelievable. This technique is so unbelievable!"

At this time, everyone couldn't help but praise.

At this moment, after Ye Feng broke through to the first level of the Heavenly Soul Realm, he could feel that not only his combat power had been unparalleledly improved, but his skill reserves had also increased dozens of times compared to before.

Moreover, Ye Feng felt that the gap between himself and the powerful elders among these royal families was getting smaller and smaller.

When Ye Feng just met these senior figures before, he still felt a lot of pressure from these senior figures. He would definitely not be able to defeat these senior figures.

But now, with Ye Feng's continuous improvement in cultivation and various powerful attack methods, such as the fusion of the Hand of Death, Ye Feng's comprehensive strength is now getting closer and closer to these powerful elders.

Even in a sense, if Ye Feng's current abilities in all aspects are fully utilized, he may have surpassed the elders and strong men among these major forces.

This fear

Tang Youyou and the Seventh Prince, including Nie Qianqian of the Demonic Sect, couldn't help but have deep admiration in their eyes at the terrifying speed of strength improvement.

They have never seen anyone who can improve his cultivation strength and various methods as quickly as Ye Feng.

You must know that whether it is Tang Youyou, Nie Qianqian, or the Seventh Prince, they are all very outstanding young people among the forces behind them.

Not only are they very powerful, but they have also seen different types of top talents over the years.

But the so-called top geniuses they saw looked very mediocre in front of Ye Feng, because Ye Feng was so incredible.

At this time, after Ye Feng swallowed the entire golden centipede, he immediately looked around, grinned, and said: "Seniors, I have absorbed all the blood energy contained in the body of this golden centipede. The body of this golden centipede will be divided equally among the seniors."

Hearing what Ye Feng said, several elders standing around nodded one after another, with expectations in their eyes. They directly dismembered the golden centipede, and then divided the material of the golden centipede equally among them. .

After all, they all saw the carapace of this golden centipede, which looked like it was cast from the strongest metal in the world.

Their attacks, including flying swords, were unable to break the carapace of this golden centipede.

So they collected these carapace and brought them back to their respective forces in the future. They could use the carapace of these golden centipedes to refine very powerful weapons.

And when they were collecting the carapace of this golden centipede, they were also very envious of Ye Feng, who had that very powerful magic weapon, and in an instant, he pierced the golden centipede like it was like piercing tofu. of carapace.

Soon, these senior figures had divided up all the materials on the golden centipede.

At this time, everyone continued on their way.

The entire team finally left this harsh swampland.

When they passed through this swamp, they finally saw the edge of this primeval forest.

When they walked out of this primeval forest, they immediately came to an area of ice and snow where the cold wind was howling.

Here is an endless glacier and snowfield, which feels very cold.

There was heavy snow falling in the sky, and even though everyone present was a very powerful practitioner, at this moment, from the whole world, I felt a coldness that seemed to freeze the body.

At this moment, the seventh prince took out a very warm coat from the storage ring and put it on. He couldn't help but said: "This glacier and snowfield is really cold. It feels a little abnormal. cold."

An elder member of the royal family standing next to the seventh prince immediately nodded and said in a rather solemn voice: "I think this glacier and snowfield may be a little more dangerous than the virgin forest."

When he said this, the senior member of the royal family immediately looked at Ye Feng and couldn't help but ask: "Little friend Ye Feng, where is the specific energy fluctuation that you sensed before?"

Ye Feng pointed to a certain direction not far away and said loudly: "It should be three thousand meters southwest of this glacier and snowfield. Let's go and take a look." Ye Feng pointed to a certain direction not far away and said loudly: "It should be three thousand meters southwest of this glacier and snowfield. Let's go and take a look."

Chapter 4589 Really Almighty

At this time, Ye Feng did not hesitate at all, and directly led a group of people to fly quickly in the direction of the energy fluctuation he sensed.

Soon, they arrived at a place three thousand meters to the southwest directed by Ye Feng.

This is already a relatively central area of the glacier and snowfield, far away from the previous virgin forest.

At this moment, everyone followed Ye Feng and when they arrived at this location, they immediately saw an incredible scene.

I saw a river flowing from the ground to high in the sky, and the surface of this river was covered with ice.

In other words, this turned out to be a long river of ice above the nine heavens.

Seeing this scene, even the elders and powerful men among the major forces couldn't help but have a hint of surprise in their eyes at this moment. .??.

Tang Youyou, the eldest lady of the black market, couldn't help but said in admiration: "The wonders of nature are indeed miraculous."

Looking at the long river of ice connecting the earth and the sky in front of them, everyone present was shocked by this strange landscape.

Because this scene does have a very strong visual impact.

However, Ye Feng is more pragmatic. After casually admiring the so-called beautiful scenery at this moment, Ye Feng began to exude his soul power, trying to find the specific location of the energy fluctuation he had just sensed.

However, Ye Feng sensed it and found that the energy fluctuation he sensed was emanating from the long river of ice connecting the earth and the sky.

In other words, this entire ice river exudes a very strange energy fluctuation.

After sensing all this, Ye Feng couldn't help but said: "Could it be that chance is hiding in this long river of ice? It seems that we are going to enter this long river of ice."

Hearing what Ye Feng said, an older person immediately nodded,

Then he said aloud: "Then let us seniors continue to take the lead."

After finishing speaking, several powerful elders walked directly towards the long ice river ahead.

But just at the moment when they were approaching the ice river.

Buzz!

A kind of terrifying cold air suddenly emanated from the long river of ice, directly freezing the senior figures in front of them into ice sculptures.

"What??"

Seeing this scene, several young people present couldn't help but change their expressions.

The seventh prince, in particular, was extremely worried.

Because among the senior figures who had just approached the Ice River, several were powerful elders from the royal family.

If it was frozen into an ice sculpture and fell, it would definitely be a huge loss to the Seventh Prince.

Because these senior figures are the Seventh Prince's backers in the entire royal family. If they die, the Seventh Prince's status in the entire Blood Demon Dynasty's royal family will definitely plummet.

But this moment.

Click!

Click!

Cracks appeared on the surface of the ice on the bodies of the powerful elders who had been frozen into ice sculptures.

Then "boom"!

Several strong men of the older generation simply shattered the ice formed on the surface of their bodies, and then successfully escaped.

But at this time, these old and powerful men were so cold that their faces turned pale.

Obviously just a moment ago, they were frozen into ice sculptures by the terrifying cold air, which almost caused their entire blood to drain.

It was frozen and almost died.

An elder and strong man from the royal family immediately couldn't help but trembled with cold and said: "The cold air in this ice river is really terrifying. It is the most terrifying cold air I have ever seen. With my level of cultivation The strong man's blood was already like an oven, endless and very turbulent, but he still couldn't resist the cold air that invaded at that moment, and was directly frozen into an ice sculpture. "

When he said this, the powerful elder of the royal family looked at the Seventh Prince, Tang Youyou and others, and said loudly: "Fortunately, you young people did not approach just now, otherwise, you will probably be frozen into ice sculptures in an instant. , there is no way to stand out, just invaded by that cold air, and the whole body is frozen into a dead corpse. "

Hearing what this powerful elder said, several people present couldn't help but have deep surprises in their eyes. It seemed that they didn't expect that this beautiful-looking ice river could be so terrifying. The cold air can freeze the vitality of a creature to death in an instant.

At this time, the faces of several people present became a little ugly.

Because there is no way to enter this long river of ice and look for opportunities in it.

Because even these elders with strong cultivation have just approached this long river of ice. They have already been frozen into ice sculptures before they entered it. They were so frozen that they almost died, let alone jumped directly. It is really too difficult to enter this long river of ice.

So at this time, for a moment, the entire field fell silent.

At this moment, Ye Feng was also thinking about how to enter this long river of ice and look for opportunities and good fortune.

Because you have come here, if you don't find a way to enter it and look for the good things in it, then your trip is really in vain, and everyone is unwilling to do so.

At this moment, Ye Feng said: "Let me try it too."

After saying that, Ye Feng walked directly towards the ice river.

Seeing this scene, the seventh prince wanted to say something.

But he thought that Ye Feng's current cultivation strength was beyond his imagination.

Moreover, Ye Feng's physical strength is already very strong, so there is probably no big danger if Ye Feng gives it a try.

Everyone looked at Ye Feng expectantly.

But just when Ye Feng approached the long river of ice, a terrifying cold air blew directly. The moment it hit Ye Feng, it directly sealed Ye Feng into an ice sculpture.

"Ye Feng!"

Seeing this scene, Tang Youyou, the eldest lady of the black market, couldn't help but scream out in surprise, as if she was afraid that Ye Feng would be frozen into a corpse.

But the next moment.

"boom!!"

Suddenly, the ice that sealed Ye Feng was melted by a terrifying flame.

Then everyone saw a very shocking scene.

At this moment, Ye Feng's body was burning with flames of different colors, melting the surrounding ice and cold air in an instant.

Moreover, Ye Feng was covered in flames and continued to walk towards the long river of ice.

Seeing this scene, an elder member of the royal family couldn't help but exclaimed: "Young friend Ye Feng is really amazing. I didn't expect that he could control so many fire-attributed wonders of heaven and earth!"

Tang Youyou breathed a sigh of relief, and then couldn't help but look at Ye Feng's Vulcan-like back, and couldn't help but say with admiration: "This guy is really all-powerful in practice! "

Chapter 4590 Ice Emperor

At this time, the flames Ye Feng exuded were naturally the various heaven and earth fires that he had merged with since he embarked on his journey of cultivation.

Ye Feng has not used these flame powers for a long time, but when he uses them now, the terrifying flame power still explodes.

So at this time, Ye Feng emitted different types of flame power, which was enough to instantly resist the ice and cold air invading this long river of ice.

At this moment, Ye Feng's whole body was burning with the power of fire, just like the legendary God of Fire, slowly and quickly walking towards the long ice river.

Everyone around saw this scene and didn't say anything.

Because they knew that Ye Feng was having a hard time resisting the cold atmosphere.

After all, these older people have already experienced it. The power of cold energy emanating from this long river of ice is very terrifying, almost terrifying to the extreme.

Therefore, if Ye Feng wants to enter this long river of ice to find opportunities, he must concentrate on resisting the cold air.

So at this time, no one disturbed Ye Feng, but all stood outside, wanting to wait for Ye Feng's triumph.

But at this time, Tang Youyou looked at the few black elders beside him and said loudly: "If Ye Feng really encounters an accident later, please elders can take action quickly to rescue Ye Feng." "

Hearing what Tang Youyou said, these senior figures in the black market all nodded.

The Seventh Prince also hurriedly spoke out at this time: "Uncles from the royal family, if Brother Ye is really in danger later, please take action quickly and be sure to rescue Brother Ye."

Hearing what the seventh prince said, the elders and powerful men in the royal family all nodded.

In fact, they also admire Ye Feng very much, and Ye Feng is also a genius of the Blood Demon Dynasty, and he is also the one beside the Seventh Prince.

Partners, if Ye Feng really encounters any danger, these elders will definitely come to Ye Feng's rescue without the help of the Seventh Prince.

Because they felt that Ye Feng might be able to grow into a peerless and terrifying figure in the future, and even be able to raise the status of the entire Blood Demon Dynasty to a very terrifying height.

At this moment, while everyone was talking, Ye Feng was burning with different types of flames, and he had already reached the edge of the ice river.

The cold air blowing at this moment became more and more terrifying.

However, Ye Feng's body was burning with endless flames, which was enough to withstand the cold air.

At this moment, Ye Feng actually did not let the female demon in the storage ring take action, because Ye Feng felt that the female demon did not need to take action for the time being, and he could still withstand this terrifying cold air.

At this moment, Ye Feng didn't hesitate at all. He took a deep breath and jumped into the ice river in front of him.

Wow!

The moment Ye Feng jumped into the ice river, he immediately felt that even though there were endless flames burning in his body, he felt a terrifying coldness invading his entire body.

The movement of blood energy all over Ye Feng's body slowed down, as if it was about to be frozen.

At this time, Ye Feng did not hesitate. While continuing to activate the extremely powerful power of fire to resist the invasion of cold air from the outside world, he was also using the original power of his immortal body to raise his physical strength to a higher level.

At this time, the strongest state of the God's Immortal Body exploded directly, and Ye Feng's whole body turned into golden light.

Then Ye Feng's blood turned into pure gold

color.

This kind of pure gold-colored blood has become more advanced and powerful, so it is enough to withstand the cold energy that comes in after breaking through the flame barrier on the surface of Ye Feng's body.

At this time, Ye Feng finally overcame the cold air of the entire ice river, and then traveled throughout the entire ice river.

Ye Feng is currently searching for what is contained in this ice river.

"That is....."

At this time, Ye Feng suddenly discovered that in the middle area of the ice river, there was actually an ice blue mirror floating at this moment.

Seeing this ice blue mirror, Ye Feng's eyes suddenly revealed a hint of surprise.

Because Ye Feng discovered that all the coldness in the entire Ice River came from this mirror.

This made Ye Feng's eyes suddenly reveal a look of deep horror. ??

Such an ordinary-looking mirror actually contained such terrifying cold air that it turned the entire river into a long river of ice. It also exuded the kind of terrifying cold air that could instantly freeze people into ice sculptures.

Ye Feng immediately understood that this ice blue mirror was definitely an extremely terrifying treasure.

Uh-huh!

At this moment, Ye Feng didn't hesitate and flew directly towards the ice blue mirror.

Soon, Ye Feng came to the ice blue mirror.

At this moment, Ye Feng immediately felt the feeling of this ice blue mirror, as if it was made of the coldest ice cube in the world, with a terrifying chill.

At this moment, Ye Feng suddenly discovered that these four ancient characters were imprinted on the surface of this mirror.

These four ancient characters are the "Ice Emperor's Mirror".

“Huh?”

Seeing this scene, Ye Feng's eyes suddenly showed deep surprise.

Does the word "Ice Emperor" on this Ice Emperor Mirror represent the title of such a very ancient and terrifying superpower?

In other words, this mirror was the natal magic weapon of a terrifying figure with ice attributes. It was left here and then changed this long river into a long river of ice.

At this time, Ye Feng thought of this and without any hesitation, he directly stretched out his hand to refine the Ice Emperor Mirror.

Because Ye Feng felt that this Ice Emperor Mirror was definitely an extremely advanced and terrifying magic weapon.

If it can be refined, it will definitely enhance its overall strength unparalleledly.

Thinking about it makes me feel very powerful.

If Ye Feng can control this Ice Emperor's Mirror, when fighting against the enemy, once he uses this Ice Emperor's Mirror, the Ice Emperor's Mirror can instantly release terrifying cold air, which can directly kill the opponent. Freeze into ice sculptures.

After all, this mirror is so terrifying. It can freeze the elders and powerful men in the royal family into ice sculptures across a whole river of ice, and they almost die.

From this we can see how terrifying it will be once you truly control the strongest source of cold energy in this mirror.

It is estimated that it can freeze the land thousands of miles away in an instant!

At this moment, Ye Feng no longer hesitated and quickly reached out to grab the Ice Emperor Mirror.

Boom!

But the moment Ye Feng's palm touched the Ice Emperor's Mirror, a very majestic shadow of will immediately stepped out of the mirror, possessing supreme majesty.

It is the shadow of the will of the super powerful Ice Emperor that was hidden in this mirror!
