

Ancient 4701

Chapter 4701 Corpse Insect King

But at this time, Ye Feng could no longer care about what he was thinking, because everyone had already passed through a robbery hole on the hillside and entered the tomb below.

At this time, Ye Feng followed the team without any hesitation and jumped into the robbery cave.

When Ye Feng descended inside, he immediately saw that everyone was in a seemingly very small underground space.

This underground space seems to be like a hall. All the carvings on the surrounding stone walls are ancient totems and patterns, giving people a very mysterious and vicissitudes of feeling.

At this moment, everyone immediately saw that this small tomb should be just the first layer of tombs on the periphery.

Because there is actually a passage at the end of the tomb, which leads to an unknown place. It may lead to a larger space in the underground tomb.

At this time, everyone immediately saw that in the first tomb, there was a very ancient-looking coffin in the middle. ??

The coffin was pitch black and seemed to be made of some kind of black wood.

At this time, everyone saw that the coffin lid seemed to be half broken, with wood chips scattered around it.

The broken half of the coffin lid seemed to have been chopped into pieces by some kind of special weapon.

Seeing this scene, Shen Lan couldn't help but said, "It seems that when those strong men from our World Chamber of Commerce came down to the first tomb, they cut the coffin lid in half. It seemed that they wanted to get the wealth buried in the coffin, but they encountered an accident. In other words, the danger they encountered came from this coffin. "

Crunch, crunch...

But the moment Shen Lan finished speaking, a grinding sound that made people's teeth hurt suddenly sounded in the entire claustrophobic and quiet tomb.

The next moment, everyone was shocked to discover that the coffin lid, which was originally very quiet, was moving slowly at this moment, as if something was about to come out.

"Everyone, be careful!"

At this moment, the heroic female swordsman stood in front of everyone first, holding the fiery red sword in her hand, and couldn't help but said, "I want to see what is inside this coffin."

What kind of thing, even if it is a zombie, I will cut it into several pieces! "

And just as the female swordsman was talking, a very old-looking zombie actually slowly sat up inside the coffin, with its skin turning black and an iron-green color.

However, this ancient zombie did not attack anyone at this time. It seemed to be dead and failed to transform into a corpse.

However, from the rotting head, several fiery red bugs suddenly flew out and flew towards everyone.

Seeing this scene, the female swordsman didn't hesitate at all. She just waved the long sword in her hand and slashed forward.

Click! Click!

The few fiery red bugs that flew over were cut in half by the long sword in her hand and exploded instantly.

When the female swordsman saw this scene, she immediately smiled lightly and said, "That's all."

But the moment she finished speaking, the young brother standing in the crowd who looked silent couldn't help but his face changed slightly, and he quickly said, "Everyone, please retreat and leave this tomb!"

"What's the meaning?"

At this time, when they heard this young brother say this, everyone present couldn't help but look surprised in their eyes.

But at this moment, the female swordsman standing at the front suddenly saw that after the small red bugs that she had chopped off, a crimson gas suddenly emitted from her body and spread. Come over to the crowd.

"ah!"

"ah!"

The few guards of the Tianxia Chamber of Commerce standing at the front seemed to have relatively weak cultivation. After breathing this red gas, their eyes suddenly widened and they covered their necks tightly, as if they had eaten. Like chili, I can't speak.

Then everyone saw a horrifying scene. They saw only the skin of these guards.

It immediately turned red, and then oozed blood, as if it had turned into a bloody corpse. It immediately roared and grabbed everyone, as if it had turned into a monster that no one knew about its relatives.

At this time, when Shen Lan saw this scene, she couldn't help but exclaimed, "They turned into blood corpses on the spot! Just like the few strong men who came down to explore from our World Chamber of Commerce before! They absorbed those The red gas produced after the red bug explodes is definitely highly toxic corpse gas. It can make a living person turn from human to blood in an instant after breathing in this highly toxic corpse gas. corpse!"

After seeing this highly toxic gas at this moment, even the heroic female swordsman in red could not help but change her eyes slightly and quickly retreated.

At this time, the red gas almost spread to the entire tomb in the blink of an eye. ??

The old man in the Bagua robe, a Feng Shui master, immediately said, "I know! This is the legendary corpse insect king! They themselves are not in any danger, but the red gas produced after the explosion is highly poisonous. The incomparable corpse energy can instantly turn living people into blood corpses and monsters. No matter how high your cultivation level is, you can't stop the poisonous corpse energy of this corpse insect king. This is the corpse energy accumulated for tens of thousands of years. It is not simple. Poisonous gas, this kind of bug can only be born in the most terrifying tombs, let's get out of this tomb as soon as possible!"

At this moment, even the mysterious young brother carrying a golden ancient sword quickly backed away.

But at this time, everyone suddenly saw a figure in white rushing towards the coffin.

When Shen Lan saw it, she immediately couldn't help but exclaimed, "Master Ye Feng, be careful!"

Ye Feng went to the coffin at this time, naturally to find the other half of the Nine Saints Boxing Book.

The half of the Nine Saints Boxing Technique that I bought was snatched hastily from the coffins in the first tomb by a strong man from the World Chamber of Commerce.

In other words, the other half of the inheritance must still be in this coffin.

The reason why Ye Feng dared to rush into this place at this moment

In addition to being very confident in his physical fitness amid the red poisonous corpse gas, another important reason is that Ye Feng had previously raised poison-eating insects that specialized in eating poisonous gas.

However, Ye Feng was shocked to discover that the poison-eating insects turned red all over after eating the poisonous corpse gas produced by the explosion of these red corpse insect kings, and died miserably.

"Oops!"

Ye Feng's expression changed drastically. He had underestimated the poisonous corpse energy of this corpse insect king. This was the first time Ye Feng had seen toxins that the poison-eating insects could not eat.

This big tomb is really scary and weird!

But at this time, Ye Feng held his breath, rushed to the coffin, reached out his hand directly into the coffin, and sure enough found the other half of the Nine Saints Boxing Book.

It seems that the inheritance of this set of Nine Saints Boxing Technique is the unique inheritance of the zombie in the coffin when he was alive.

The Nine Saints Boxing Technique is very ancient and advanced, and is a peerless inheritance. Therefore, the owner of this set of boxing techniques, the zombie in this coffin, was definitely an earth-shattering super strong man when he was alive.

Unexpectedly, such a super strong man could only be buried as a companion in the first tomb of the owner of this large tomb.

Ye Feng couldn't imagine who the owner of this large tomb was, and that the tomb had such a high standard.

But at this time, Ye Feng could no longer hold his breath. After getting the other half of the Nine Saints Boxing Book, Ye Feng immediately retreated quickly.

Uh-huh!

But suddenly, the zombie who just sat up in the coffin was not dead. Instead, green light suddenly appeared in his eyes, and he stretched out a zombie palm covered with cyan nails, and grabbed Ye Feng. With his arm, he instantly grabbed the flesh from Ye Feng's body.

Ye Feng's arm immediately turned pitch black. It was obvious that he was instantly poisoned by the zombie's corpse poison!

And what's even worse is that the highly toxic corpse energy produced by the explosion of the zombie king around him also penetrated into Ye Feng's flesh and blood body through the wounds on the surface of Ye Feng's arms. Ye Feng's whole body immediately turned red, and it seemed that he was about to turn into blood. Dead!

Chapter 4702 Whose tomb

The violent poisonous gas produced after the corpse insect king explodes is really terrifying.

Even Ye Feng's current divine body will not be able to resist this poison for a while.

And now Ye Feng was poisoned by a double layer of poison. His arm was poisoned by the corpse poison of the ancient zombie, and then he was poisoned by the poisonous red corpse gas produced by the explosion of the zombie king.

Ye Feng could feel that his skin was starting to turn red, and even blood was oozing from the surface of his skin. It was exactly the same as the previous guards who had turned into blood corpses. It was like they were turning into blood corpses immediately. Something.

At this time, Shen Lan couldn't help but exclaimed, "Master Ye Feng, are you going to turn into a blood corpse? What should we do?"

The Feng Shui master, an old man wearing a Bagua robe, quickly said, "Hurry and cut off Ye Feng's head. Otherwise, a top genius like him will turn into a blood corpse, and his fighting power will be very terrifying. We I'm afraid I can't resist it."

When everyone heard what the Feng Shui master said, their eyes showed horror. They didn't expect that the Feng Shui master could be so ruthless and decisive.

The female swordsman in red clothes couldn't help but nodded immediately, holding the crimson sword in her hand, and rushed towards Ye Feng, as if she wanted to cut off Ye Feng's head.

The female swordsman said loudly, "Brother Ye Feng, don't blame me for being cruel. I'm here for everyone's safety. Besides, instead of turning you into something weird like a blood corpse, it's better to end it as soon as possible."

But at this moment, the little brother who was silent and carrying an ancient golden sword suddenly said, "He did not turn into a bloody corpse instantly, which means that his physique is extraordinary and he can still be saved."

Almost at the moment when the little brother with the golden ancient sword on his back finished speaking, he looked directly at Ye Feng and said, "Quickly leave the area where the poisonous gas generated by the explosion of the corpse insect king, I can help you suppress it." toxin."

When Ye Feng heard the little brother carrying the golden ancient sword say this, he immediately showed a look of surprise in his eyes and rushed towards the crowd.

This time, even Ye Feng overestimated his ability and underestimated the danger in this tomb.

The corpse poison inside is really terrifying.

especially

Especially the weird corpse insect king. The red poisonous corpse gas produced by the explosion can turn people into blood corpses in an instant, which is simply weird.

Even if the poison-eating insects eat the poisonous corpse energy produced by the explosion of the zombie king, they will be killed instantly. This shows how terrifying this poisonous corpse energy is.

At this moment, Ye Feng immediately rushed towards everyone and came in front of them.

Many people couldn't help but retreat quickly because they saw that Ye Feng was about to turn into a bloody corpse.

Although Ye Feng did not turn into a bloody corpse instantly like other guards, looking at Ye Feng's whole body being red, he probably would soon.

But at this time, the little brother carrying the golden ancient sword came directly in front of Ye Feng.

This somewhat sullen little brother looks very young, but at this moment he does show an extraordinary calmness, much calmer than the top-ranked Feng Shui master in the Northern Territory.

He seems to be very familiar with all kinds of strange things in this kind of tomb.

At this time, he came directly in front of Ye Feng and saw the golden blood flowing from the wound on Ye Feng's arm, and there seemed to be a look of surprise in his eyes.

But immediately, this look of surprise was restrained by him.

The little brother carrying the golden ancient sword directly stretched out one of his fingers, and then forced out a drop of very strange black blood from the finger.

This drop of black blood fell directly on Ye Feng's head.

Buzz!

Almost instantly, this drop of black blood penetrated directly into Ye Feng's body. Ye Feng could immediately feel a cool feeling, covering his whole body, and then the red skin all over his body suddenly recovered. normal.

The red poisonous corpse energy was immediately dissipated.

"Um?"

look

At this scene, everyone present couldn't help but have deep surprises in their eyes.

Especially the Feng Shui master, the old man wearing Bagua robe, stared at the little brother carrying the golden ancient sword, with a look of deep astonishment in his eyes, as if he had thought of something, but he didn't say anything more.

At this moment, Ye Feng was also very happy. He couldn't help but stare at the silent young brother in front of him and said, "Thank you for saving me. I will repay this kindness."

Ye Feng also felt a little scared at this time. It seemed that this mysterious burial place under the barren mountain was much scarier and weirder than he imagined. There were many things living in it that had never appeared on the ground.

For example, the corpse insect king mentioned by that Feng Shui master.

At this moment, Ye Feng was deeply curious about the little brother in front of him who was carrying a golden ancient sword.

Who is the other party? He has such magical blood.

It is incredible that that drop of black blood can cure thousands of poisons.

Even Ye Feng's current Celestial Body is unable to compete with the red poisonous corpse energy produced after the corpse insect king explodes. It may be that his Celestial Body has not yet evolved to the highest level and is currently only in the fourth stage.

But the black blood of this little brother carrying the golden ancient sword can dispel corpse poison in an instant. This shows that the other party must have a very significant identity in the tomb industry.

At this moment, Ye Feng did not hesitate at all, and directly combined the other half of the Nine Saints Fist Technique that he had snatched with the first half that he had purchased before, and finally obtained the complete Nine Saints Fist Technique. inherited.

At this time, Ye Feng was shocked by the vast and complete inheritance of the Nine Saints Boxing Technique.

Because this kind of boxing technique is practiced to the extreme, when you wave your fist, you can get the terrifying and majestic power of the Nine Ancient Saints, and the phantoms of the nine ancient saints will appear behind you to give you strength.

Such a powerful set of peerless inheritance,

If it is released, it will definitely cause a bloody storm and cause countless big forces to fight for it.

But the owner of such a peerless inheritance is only worthy of being buried in the first small tomb as the basic burial companion in this mysterious tomb under the barren mountain.

It is hard to imagine who the owner of the entire tomb under the barren mountain is. He has such great ability to bury himself in such a remote place, but has such a high-standard tomb layout. It's really incredible.

At this time, even the Feng Shui master, an old man wearing a Bagua robe, couldn't help but look at Shen Lan, the young president of the Tianxia Chamber of Commerce, and couldn't help but said seriously, "Young president, under this barren mountain Whose tomb is it? How could such a weird and terrifying vicious insect as the Corpse Insect King appear in the first small attached tomb? This tomb is definitely not simple, and it is very terrifying. I have been there several times. There are hundreds of tombs, and there have been dozens of very scary and huge tombs, but this is the first time I have encountered such a weird and scary tomb. This is just the first tomb, and it contains such terrifying things. Today Young President, if you don't make it clear, I won't go further into this tomb with you, and I will quit halfway."

At this moment, this Feng Shui master who ranked among the top in the Northern Territory couldn't help but feel deep fear.

As for the little brother carrying the golden ancient sword, he returned to his silent state and said nothing. No one knew what he was thinking.

At this moment, the female swordsman holding the fiery red sword also looked at Shen Lan with a questioning look in her eyes.

Because this is completely different from what Shen Lan said before. This tomb is really terrible, far beyond everyone's expectations.

Even Ye Feng had a look of surprise in his eyes at this time.

Because Ye Feng had visited many tombs of ancient powerful men before and got a lot of good things, he felt that such large tombs of ancient powerful men should be dangerous, but he did not

expect that this mysterious tomb under the barren mountain would be in such a remote place. There is such a strange and terrifying danger in the corner, which is really scary.

Chapter 4703 The First Legend

At this time, the atmosphere on the court was somewhat silent and tense.

Because even the top Feng Shui master in the Northern Territory, the old man wearing Bagua robe, wanted to withdraw from this action at this moment, because he felt the uncertainty and great danger.

If Shen Lan, the young president of the Tianxia Chamber of Commerce, didn't give an explanation, it is estimated that many people would quit on the spot.

At this time, even the heroic female swordsman who was fearless was frightened by Ye Feng's previous experience.

Because everyone knows that Ye Feng is not an ordinary warrior, but a top genius brought over by Shen Lan, and during this time they have also heard some experiences about Ye Feng.

The combat power of a top genius like Ye Feng is terrifying. In the wilderness, he even dared to provoke the overlord race in the wilderness and managed to escape, which is enough to show how terrifying Ye Feng's strength is.

But even such a top-notch genius with strong combat power could not resist when he encountered some weird things in the ancient tombs under the barren mountain.

This shows how terrifying this tomb is.

This is no longer something that can be solved by relying on strong combat power.

It's about the strange dangers of the exclusive tombs that ordinary people can't touch.

At this time, even Ye Feng looked at Shen Lan with some questioning eyes.

At this moment, Shen Lan, the young president of the Tianxia Chamber of Commerce, suddenly had a wry smile on his face and said loudly, "Since everyone wants to know so much, then I will tell

everyone. In fact, I originally I am going to tell you directly about some of the circumstances of the tomb under this barren mountain, but my father asked me not to tell you in advance for fear of triggering investigations from other large chambers of commerce or powerful forces."

When he said this, Shen Lan looked at everyone present seriously and said loudly, "If I tell the truth, you must not spread it, otherwise everyone's life will be in danger."

Hearing what Shen Lan said, everyone present couldn't help but have expressions in their eyes.

A hint of surprise.

I am afraid that only the silent young brother, who was carrying the golden ancient sword on his back, remained silent, with no strange expression on his face, as if he was not interested in this matter at all.

At this moment, the old face of the top Feng Shui master in the Northern Territory suddenly showed a look of interest and a hint of pride, and said loudly, "If you say that, I am even more curious. , I want to hear the real information about the tomb under the barren mountain. You said that knowing the real information about this tomb will put the lives of all of us in danger. I don't agree with this. I am one of the top ranked people in the Northern Territory. Feng Shui master, how many powerful forces are willing to treat me as a guest, how can I risk my life? "

Hearing what the Feng Shui master said, Shen Lan, the young president of the Tianxia Chamber of Commerce, just smiled bitterly, and then said four words, "Great Netherworld Emperor."

Bang!

"What??"

The moment Shen Lan said the words "Netherworld Emperor", the feng shui master who was so confident just now, the old man in Bagua robe, was so frightened that the ancient compass in his hand fell to the ground.

Then the Feng Shui master quickly picked up the ancient compass from the ground. There was a trace of fear and a trace of enthusiasm in his eyes. He couldn't help but said, "The Netherworld Emperor...the tomb under this barren mountain, with Is it related to the legendary Netherworld Emperor?"

At this time, the heroic female swordsman holding the red sword suddenly widened her eyes and couldn't help but exclaimed, "Is this the tomb of the Netherworld Emperor?"

At this moment, Shen Lan couldn't help but smiled bitterly, shook her head, and said, "I'm not sure about this. Regardless of whether the tomb under the barren mountain is the tomb of the Netherworld Emperor, it must have a huge relationship with the Netherworld Emperor." "

When talking about this, Shen Lan suddenly took out a thin piece of paper from his storage ring.

This paper seemed to be cast from a special material. It was torn in half in the middle, leaving only half of the fragment.

But above this half of the fragment, there are four ancient fonts that read "Netherworld Emperor".

Shen Lan said aloud, "This torn piece of paper was excavated from a piece of soil near this barren mountain. Therefore, our Tianxia Chamber of Commerce attaches great importance to this tomb exploration and even invited us to come." Everyone of extraordinary ability."

Ye Feng was probably the only one who was confused at this time. He couldn't help but asked, "Who is the Emperor Netherworld? What surprises you so much?"

The heroic female swordsman walked directly in front of Ye Feng, couldn't help but patted Ye Feng's shoulder, and said loudly, "Little brother, although you are extraordinary in strength, in the world of cultivation in the interface of ten thousand demons, you are still too weak." You're young, so it's normal that you haven't heard of the legend of Netherworld Emperor. Let me spread the knowledge to you."

When she said this, the female swordsman showed deep awe in her eyes and said, "It is rumored that tens of thousands of years ago in our world of ten thousand monsters, the most powerful existence was the Netherworld Emperor. The Netherworld Emperor was in our world back then. Zhongzhou, the most glorious land of all demons, has established the largest sect of demons, the Netherworld Sect. Its sphere of influence covers the entire Zhongzhou, and even extends to several remote areas around Zhongzhou, including the Northern Territory, the Southern Barbarians, the Great Wilderness, and the Eastern Territory. Territory and so on. When the Netherworld Sect was at its most glorious, it could be said that it almost controlled nearly two-thirds of the territory of the Ten Thousand Demons Interface. The entire land of Zhongzhou was the headquarters of the Netherworld Divine Sect, and the Netherworld Emperor was also known as the Ten Thousand

Demons Interface. The first person since ancient times, but tens of thousands of years ago, the Netherworld Emperor didn't know what happened. His cultivation and strength declined greatly. However, even though his strength retreated, no one dared to provoke him. But in the end, the Netherworld Emperor's strength retreated further and further. More and more, he was eventually besieged and killed by the leaders of the three top giants in Zhongzhou. The Netherworld created by the Netherworld Emperor

The divine sect has also split into small demonic forces, and they are still surviving. Now the entire land of Zhongzhou in the interface of ten thousand demons is controlled by the leaders of the three top giant forces who jointly killed the Nether Emperor. Therefore, the Nether Emperor is The entire Ten Thousand Demon Interface can be said to be the first legendary person since ancient times, and the most glorious transcendent existence tens of thousands of years ago. After the death of the Netherworld Emperor, the three most precious things left behind have also disappeared. One is the natal magic weapon of the Netherworld Emperor, the Six Paths of Reincarnation, and the other is the Netherworld Jade Seal on the Netherworld Emperor. It is said that if you master the Netherworld Jade Seal in the hands of the Netherworld Emperor, you can command the thousands of ghost armies in the Netherworld for your own use. As for the third one, The treasure is the inner elixir of the Netherworld produced in the body of the Netherworld Emperor. It is the core of the Netherworld Emperor. Therefore, for tens of thousands of years, many powerful forces have been looking for the tomb of the Netherworld Emperor. Unexpectedly, we encountered it..."

At this moment, the female swordsman was speaking with deep admiration in her tone.

When Ye Feng heard what the female swordsman said, a look of deep amazement appeared on his face.

The Netherworld Emperor turned out to be such a powerful being, no wonder everyone was horrified.

At this moment, the Feng Shui master also sighed with emotion and said, "A transcendent existence like the Netherworld Emperor suddenly declined in strength. I don't know why. Some people say that he found the secret of eternal life and arrived at the eternal life." The mysterious place that exists, but the secret of eternal life is too supreme and too terrifying, so the Netherworld Emperor encountered an unknown disaster and his strength was greatly reduced. "

Shen Lan couldn't help but said at this time, "So the tomb under this barren mountain is most likely the tomb of the Nether Emperor who died suddenly tens of thousands of years ago and then disappeared. That's why there is such a thing in this tomb." There are many dangers and strange existences, and after knowing this information, none of you can leak it, otherwise, let alone the

entire Northern Territory, the Southern Wilderness, and even the top giants in Zhongzhou will go crazy. If we are tracked down, the consequences will definitely be disastrous.”

Chapter 4704 Corpse Sealing Wall

Hearing Shen Lan's words at this moment, everyone present fell silent.

Although the consequences Shen Lan said were very serious and seemed a bit exaggerated, they were actually not exaggerated at all.

After all, the Netherworld Emperor is the most legendary person in the entire Ten Thousand Demons interface since ancient times. If the news of the Netherworld Emperor's tomb is really revealed, it will definitely attract countless powerful forces to grab it.

It even attracted the pursuit of those ancient terrorist forces and families in Zhongzhou, the most glorious land of Ten Thousand Monsters.

So at this time, everyone fell silent.

Because they knew very well that what Shen Lan said was indeed true.

After everyone learned about this matter, even a high-status being like a Feng Shui master was in danger of life.

After all, although this old man wearing a Bagua robe is the top Feng Shui master in the entire Northern Territory and seems to have a very transcendent status, in fact, this Feng Shui master is nothing compared to the legendary Netherworld Emperor. A powerful witch, not even comparable to an ant.

At this time, everyone realized the serious consequences of this matter and couldn't help but fell silent.

But everyone's eyes showed a very fanatical and excited look.

Because this is the legendary tomb of the Netherworld Emperor.

If they can get some benefits from the tomb of the Netherworld Emperor, it will definitely be an unparalleled opportunity for them.

If you are really lucky and get the three precious things left by the Netherworld Emperor, even if you only get one of them, it will be the best chance to rank at the top of the entire Ten Thousand Demons interface.

So at this time, everyone's eyes suddenly became hot.

At this moment, the Feng Shui master who just said he was quitting, this old man in Bagua robe, suddenly became very excited and said loudly, "Although there are huge dangers in this tomb, I think we should still explore it." After all, you have come here, and you can't leave empty-handed, even if you die

In this kind of peerless tomb, I can be considered a worthy death. "

Hearing what the Feng Shui master said, Shen Lan's eyes revealed a hint of a wry smile, and she said, "Then let's move on."

Obviously, the wry smile on Shen Lan's face is enough to show that the young president of the Tianxia Chamber of Commerce is also a little afraid of exploring this ancient tomb that is suspected to be the Netherworld Emperor.

But this is related to whether their Tianxia Chamber of Commerce can rise in the future.

Because you need to know that if this tomb is really the legendary tomb of the ancient Netherworld Emperor, the Tianxia Chamber of Commerce will be able to command the countless undead armies in the Netherworld to fight for it if they obtain the Netherworld Jade Seal among the three treasures left by the Netherworld Emperor. For your own use.

Then their Tianxia Chamber of Commerce will become the entire Blood Demon Dynasty, and even become the largest chamber of commerce in the entire Northern Territory.

He holds in his hands the entire undead army that Emperor Netherworld cultivated back then. Everyone can imagine how terrifying it is. It is definitely the strongest army in the world and no one can stop it.

That's why Shen Lan, including the Tianxia Chamber of Commerce, attaches so much importance to this investigation.

He even bet the future of the entire Tianxia Chamber of Commerce on this investigation.

Shen Lan had told Ye Feng before that their World Chamber of Commerce wanted nothing for exploring this ancient tomb, but only one of the most special and precious things. That thing was the Netherworld Jade Seal that the Netherworld Emperor once left behind, which could command the undead army.

At this moment, everyone unanimously decided to continue exploring deep into the tomb under the barren mountain.

Even the female swordsman who was a little panicked before has a look of fanaticism in her eyes at this moment.

Because she knew very well that if this was really the tomb of the legendary Nether Emperor, even if she could get a piece of information from this tomb,

A little bit of benefit is also a great opportunity.

At this time, everyone left the first tomb and walked deeper into the tomb.

They entered the passage and found that the passage was very narrow, the surrounding atmosphere was very humid, and the light was very dark.

And everyone discovered that the wall next to this passage was not made of stone, but a translucent material similar to resin.

And while everyone was walking, suddenly someone couldn't help but exclaimed, "Look, everyone, something is coming out of the walls of the passage around us."

At this moment, the person speaking was one of the elite guards from the World Chamber of Commerce.

With a trace of panic in his eyes, he looked at the wall beside him, very panicked.

After all, they had experienced the scene where several guards in the first tomb instantly turned into blood corpses on the spot. Everyone was very nervous. It can be said that everyone in this tomb was tense.

At this time, everyone also looked towards the wall of the passage beside them, and sure enough, they discovered that ghost-like black shadows appeared in the translucent resin wall.

These black shadows were slowly approaching the crowd from the depths of the resin wall, gradually revealing their appearance.

They turned out to be strange corpses covered with corpse spots, as if they were sealed in these resin walls, but at this moment, they seemed to be awakened by the arrival of everyone.

Seeing this scene, many people had horror in their eyes.

The Feng Shui master in Bagua clothes in the crowd saw the pointer on the ancient compass in his hand trembling rapidly. He couldn't help but his face changed and he said loudly, "Run! Get out of this narrow passage. I know." Well, the material cast on the walls on both sides of this passage is not resin, but the material after people were burned.

The grease produced and the wall cast were specially used to seal corpses. This is an extremely weird corpse sealing wall! It is rarely seen in the tombs, but I didn't expect it to appear here! "

Hearing what the Feng Shui master said, the female swordsman in the crowd holding a flaming red sword immediately couldn't help but said in disgust, "The walls on both sides of such a long passage are actually made of human grease, too." Disgusting!"

The Feng Shui master wearing Bagua clothes immediately couldn't help but said, "The corpses approaching us in the wall are definitely the transformed corpses that were abandoned here. They were sleeping in the grease wall, but It seems to have been awakened by our blood energy and is moving towards us. If we fall into the thousands of corpses, we will definitely suffer heavy casualties. "

At this moment, when they heard what the Feng Shui master said, everyone's expressions changed and they rushed towards the end of the passage.

Originally they were walking slowly, but now they didn't dare to waste time.

Even Ye Feng quickened his pace.

Originally, Ye Feng thought that the danger in such ancient tombs might not be that great.

But since he experienced such a dangerous scene in the first tomb, Ye Feng naturally paid more attention and caution to the burial place of the Netherworld Emperor.

There are some things here, some weird existences, which are indeed beyond my ability to imagine and fight against at the moment. It is better to be careful.

Fortunately, among the group of people invited this time, there were two people who seemed to know a lot about tombs.

They were the top Feng Shui master in the Northern Territory, and the silent young brother carrying a golden ancient sword.

"Poisonous zombie, zombie king, corpse-sealing wall..."

At this moment, the Feng Shui master in the Bagua robe was muttering, his face getting more and more serious, but thinking that this was the tomb of the Netherworld Emperor, he could only grit his teeth and move forward and continue exploring.

Chapter 4705 Eighteen Coffins

At this time, everyone hurriedly left the passage and finally arrived at the end of the passage.

When everyone left the passage, they immediately breathed a sigh of relief.

Because they discovered that after they were no longer in the passage, the corpse in the resin wall stopped moving.

When everyone saw this scene, they couldn't help but relax.

It is hard to imagine that if these thousands of corpses break out of the wall, it will definitely cause great chaos and cause huge casualties.

At this time, everyone couldn't help but glance at the Feng Shui master wearing Bagua robe not far away, with a hint of fear in his eyes.

Fortunately, this Feng Shui master recognized the possible danger in this wall in time and led everyone to leave the passage quickly. Otherwise, the consequences would be unimaginable.

Ye Feng also looked at this Feng Shui master in surprise at this time. It seems that this Feng Shui master has very strong professional knowledge. He knows a lot about such ancient tombs and can make correct judgments in time. .

At this moment, after everyone walked out of this passage, they came to a larger tomb.

This tomb is very dark.

"This is....."

When everyone saw the scene in the tomb clearly, they couldn't help but gasp.

I saw eighteen coffins lined up in this tomb on the ground.

The eighteen coffins are all pitch black, exactly the same as the pitch black coffins in the first tomb.

In other words, there were a total of eighteen people buried in this second tomb.

And it was a pitch-black coffin of the same size as the first tomb.

This also means that the people buried in these dark coffins are probably very powerful super beings.

Super strong person.

At this moment, everyone saw this scene, with deep wonder in their eyes.

Even the Feng Shui master wearing Bagua robe couldn't help but said, "I feel that there is a 90% chance that this ancient tomb under the barren mountain is the tomb of the Netherworld Emperor. Otherwise, the interface of ten thousand monsters No one is qualified to have such a high-standard tomb. I have been to many tombs in my life, but I have never seen such a huge tomb. "

At this moment, a guard from the World Chamber of Commerce suddenly walked up to a coffin and wanted to use a long knife to pry open the lid of the coffin and get the wealth inside.

But when he saw this scene, the Feng Shui master couldn't help but said, "Don't move yet! When we were in the first tomb, we were attacked by the Corpse Insect King. In this dark coffin, said There may be a lot of corpse insect kings, so let's not be impulsive and think of other more secure ways to open these coffins."

Hearing what the Feng Shui master said, everyone showed a hint of fear in their eyes.

Because in the first tomb, even a top genius like Ye Feng couldn't resist the red poisonous corpse energy produced after the corpse insect king exploded, and almost turned into a blood corpse, so everyone naturally It's very scary.

The guard of the World Chamber of Commerce was ready to retreat and did not dare to continue to attack.

Click!

But suddenly at this moment, in the calm coffin, a black zombie hand suddenly burst out of the coffin, and like lightning, directly grabbed one of the legs of the guard who was about to retreat. , directly amidst the frightened screams of the guard, the guard of the World Chamber of Commerce was pulled into the coffin.

"Ah! Save me..."

In the end, the guard of the World Chamber of Commerce only had time to say two words. He was directly pulled into the coffin by the zombie palm that suddenly burst out of the coffin, and disappeared without trace and sound.

"hateful!"

Seeing this scene, Shen Lan, as the young president of the Tianxia Chamber of Commerce, immediately took action.

An ice blue long sword immediately appeared in Shen Lan's hand, slashing hard at the coffin in front of him. ??

Boom!

The ice blue sword in Shen Lan's hand immediately burst out with bright sword light, directly smashing the coffin into pieces.

"hiss!"

And the next moment, as the coffin was broken, everyone saw a terrifying and strange scene, and couldn't help but gasp.

I saw that in this dark coffin, the guard of the World Chamber of Commerce who had just been pulled in had all his flesh and blood eaten away, leaving only a bloody skeleton.

The corpse lying inside the coffin was covered with green hair, and its eyes were shining with green light at this moment, making it look extremely ferocious.

"Roar!!"

The green-haired zombie jumped out of the broken coffin and charged directly towards Shen Lan.

Shen Lan quickly swung the long sword, but the green-haired zombie's zombie palm gave a "click" and broke the long sword in his hand.

"What??"

Seeing this scene, Shen Lan couldn't help but immediately changed her face. The ice blue sword in her hand was a very advanced weapon in the Tianxia Chamber of Commerce. It was a special sword forged from the fusion of ten thousand years of ice and blue iron. , but I didn't expect that the green-haired zombie would casually smash the sword to pieces.

It can be seen that this green

Mao Zombie must have been an extremely terrifying strong man when he was alive. Otherwise, he would not be so powerful after becoming a zombie.

Boom!

Ye Feng was standing next to Shen Lan at this moment, the closest to Shen Lan, and he immediately took action.

Ye Feng directly used the Nine Saints Boxing Technique that he had just practiced before.

Buzz!

When Ye Feng punched out, nine tall and majestic ancient saints immediately appeared in the void around Ye Feng, giving Ye Feng the power of nine ancient saints.

Ye Feng's punch erupted with a bright saint's light, which directly sent the green-haired zombie rushing in front of him flying backwards.

"What a strong strength!"

Seeing this scene at this moment, everyone around them couldn't help but show surprise in their eyes.

Especially the Feng Shui master, looking at Ye Feng, couldn't help but say, "He is indeed the top genius in our Northern Territory. He is really powerful in combat."

Although Ye Feng's knowledge about tombs is not as good as that of the Feng Shui master and the silent little brother carrying a golden ancient sword, Ye Feng's own fighting power is very powerful. In the team, he can be called the best with the female swordsman. The most powerful representative.

At this moment, Ye Feng's eyes immediately focused on the green-haired zombie not far away who was blown away by him, and found that the other party was not harmed, but was sent flying backwards.

But he was very lucky, because the cuckold zombie in the broken black coffin did not give birth to a terrifying poisonous insect like the Corpse Insect King.

At this time, Ye Feng suddenly stared at the coffin where the green-haired zombie was lying just now.

After the black wood coffin was chopped into pieces by Shen Lan, a golden key appeared in the debris. I don't know what it was used for, but it should be a good thing.

Chapter 4706: People are divided

Uh-huh!

At this time, Ye Feng did not hesitate and rushed towards the broken coffin, trying to grab the golden key.

After all, Shen Lan, the leader of the team, also said that this time when the entire team entered the ancient tomb under the barren mountain, the World Chamber of Commerce would not interfere with anyone's robbery of treasures. They only needed the Netherworld Jade Seal left by the Netherworld Emperor. , For other things, those who can do more work, and whoever has the ability will grab more.

So at this time, Ye Feng naturally didn't hesitate and just wanted to grab the golden key.

But at this moment, Ye Feng grabbed the golden key.

Boom!

Boom!

Suddenly, the remaining seventeen pitch-black coffins around them began to shake rapidly, and then completely shattered.

A total of seventeen zombies covered with hair of different colors rushed out from the broken coffin. Each of them looked very ferocious, roaring and roaring, charging at everyone like monsters. And go.

All of a sudden, a total of seventeen zombies jumped out, causing the scene to fall into chaos.

At this moment, Ye Feng did not hesitate at all, and immediately rushed towards the remaining broken coffins, hoping to get the wealth among the dozen broken coffins.

However, Ye Feng discovered that not every coffin contained good things, and most coffins did not contain any particularly precious burial objects.

In the end, Ye Feng got another ancient bronze sword that looked a little rusty, and a sapphire jade pendant of unknown use.

Of course Ye Feng is very fast, but others are also very fast.

At this moment, the old-looking Feng Shui master simply ran faster than the young man, and also grabbed several other coffins.

The good stuff in.

At this time, everyone immediately burst out with their own strength and fought with the zombies in the dozen coffins that were attacking from around them.

What shocked Ye Feng was that his golden fist could not break through the defense of these zombies and could only blast them away.

In the end, Ye Feng directly transformed the God's ring on his finger into the God's Sword.

Ye Feng held the golden sword in his hand and slashed towards the surroundings.

Ye Feng was extremely surprised by the zombies that rushed over. His golden sword could not cut off the opponent's body instantly, but it could leave huge wounds on the opponent's body.

When Ye Feng saw this scene, his eyes suddenly showed surprise.

This burial place of the ancient Netherworld Emperor is indeed very terrifying.

Among the zombies buried with them, each of them must have been very powerful in cultivation, otherwise it would be impossible to become such a powerful zombie. Even his own sword of the gods can only leave huge wounds on their bodies, and there is no way to heal them in a short time. Will split them into half.

Moreover, Ye Feng saw that the wounds he made on these zombies actually had streaks of dark light, which seemed to protect the bodies of these zombies.

Seeing this scene, Ye Feng immediately understood that it was not that his sword of the gods was not sharp enough, nor that the bodies of these zombies were too hard, but that some mysterious force was maintaining the operation of the entire bodies of these zombies.

Therefore, my God's Sword cannot cut these zombies into half in an instant, because these zombies seem to contain some very mysterious and advanced power.

The strength allows them to resist very huge damage.

At this moment, Ye Feng was holding the Sword of the Gods in his right hand, and with his left hand he took out the black broken sword that the old man who guarded the tomb gave him.

Uh-huh!

Uh-huh!

Ye Feng held the sword in both hands and slashed towards the surroundings. The sword of the gods was terrifyingly sharp. The black broken sword given to him by the old man guarding the tomb was

not as sharp as the gods, but it contained a hidden secret. It is possessed by the power of gods and demons, so the power it unleashes is also very terrifying.

At this moment, the five or six zombies that rushed to Ye Feng were completely hacked to death by Ye Feng.

At this time, after Ye Feng killed these zombies, he looked around and suddenly found that everyone had disappeared while fighting these dozen zombies.

It must have been too chaotic just now. After all, even a top genius like Ye Feng would have a hard time fighting against these zombies, let alone other people.

So it is estimated that several waves of people have fled here. Only Ye Feng is here and the five or six zombies who stayed behind to fight.

Uh-huh!

But at this time, a fiery red figure flew over not far away, it was the female swordsman.

At this time, when the female swordsman saw that Ye Feng did not die in the siege of zombies, a look of surprise suddenly appeared in her eyes.

At this moment, Ye Feng saw the female swordsman returning, staring at him, and immediately couldn't help but said, "Don't you think that I died in the siege of several zombies, and you want to come back to search for the treasures on me?" Bar?"

When the female swordsman heard what Ye Feng said, her face immediately revealed a vaguely ugly look, and then she left here without saying anything.

Seeing this scene, Ye Feng's expression was very

Very calm, it seems that I guessed it right.

After all, he was besieged by five or six terrifying zombies, and the probability of death was very high.

Moreover, since she entered this ancient tomb, her strength and skills have been very strong. It is estimated that this female swordsman feels that she must have a lot of good things in her body, so she feels that she may be able to loot many precious treasures after her death. .

At this time, Ye Feng immediately understood that although this group of people was gathered together by Shen Lan and wanted to explore the ancient tomb of the Netherworld Emperor under the barren mountain, in fact, people were not united. It seemed that everyone had their own problems. the goal of.

So at this time, Ye Feng got separated from everyone, and felt that it was good. It was a good choice to act alone.

Although his professional knowledge may not be as good as that of seniors like Feng Shui masters who specialize in going to graves, Ye Feng feels that his skills are definitely stronger than anyone else's.

What's more, he still has a trump card, which is the Gate of Heaven.

The supreme power of light attribute contained in the Gate of Heaven can dispel the evil attribute.

So at the critical moment, if he really encounters some irresistible and strange danger, Ye Feng can directly release the Gate of Heaven to protect himself.

Although Ye Feng did not expect to use the Gate of Heaven to kill everyone in the ancient tomb of the Netherworld Emperor, he could definitely protect himself at the critical moment.

At this time, Ye Feng was thinking in his mind and took a look at the three good things he quickly grabbed in the chaos. They were a golden key, a rusty ancient bronze sword, and a jade pendant made of sapphire. , get ready to explore these trophies.

After all, this is the ancient tomb of the Netherworld Emperor. Even if it is just the contents of the burial chamber, they are definitely priceless.

Chapter 4707 Defense inheritance

At this time, Ye Feng first looked at the first golden key. After examining it with his spiritual thoughts and soul power, he did not find that this golden key had any special function. It looked like an ordinary key. of a key.

Ye Feng immediately lost interest, but he still put the golden key into his storage ring. Maybe he would be able to discover the secret in it later.

Then Ye Feng continued to explore the second thing he got.

The second thing was a rusty bronze long sword. Ye Feng looked at it carefully and found that this ancient bronze sword did not contain any special power and seemed to be just a decoration.

This made Ye Feng's eyes suddenly show a look of disappointment.

Then Ye Feng continued to explore the third thing.

It was a jade pendant made from a piece of sapphire, and it looked very extraordinary.

Ye Feng took this piece of sapphire jade pendant in his hand, put it in front of his eyes, and observed it carefully.

"This is....."

Suddenly Ye Feng saw that there were many small words engraved on the side of this sapphire jade pendant.

These small characters were very ancient. After Ye Feng read them all, a look of surprise suddenly appeared in his eyes.

This turned out to be an ancient inheritance method, with small characters printed on the side of the jade pendant. If Ye Feng hadn't observed it carefully, he wouldn't have been able to see the densely packed small characters, thinking it was just a mottled friction surface.

At this moment, Ye Feng was naturally very pleasantly surprised, and quickly began to understand the inheritance secrets recorded on this jade pendant.

The Nine Saints Boxing Technique that Ye Feng obtained before came from the first chamber of the ancient tomb under the barren mountain.

Ye Feng also used the Nine Saints Fist Technique just now, which was very powerful.

So at this time, Ye Feng saw another set of words that seemed to be inherited from this green jade pendant. Naturally, he was very happy and quickly started to understand.

In the end, Ye Feng realized that the inheritance recorded in the small green characters on the jade pendant was not an attack method, but a protective method, called Qinglong Body Protection Technique.

This set of Qinglong body protection tactics should have been created in ancient times.

After successfully practicing the powerful defense method created, the moment the user uses the Green Dragon Body Protection Technique, a blue dragon phantom will immediately appear around the user's entire body, surrounding the entire body, with a very powerful effect. of protective power.

At this time, Ye Feng was naturally very happy and quickly began to practice this set of Qinglong body protection techniques.

Previously, Ye Feng obtained the complete Nine Saints Fist in the first tomb, which greatly increased Ye Feng's attack power.

You know, Ye Feng's body constitution is originally the immortal body of a god, which is very powerful.

Therefore, Ye Feng's extremely powerful celestial body, combined with the Nine Saints Fist Technique, which is a great opening and closing boxing inheritance secret book, naturally increased Ye Feng's attack power to a very terrifying level.

Now that he has obtained such a set of Qinglong body protection techniques, Ye Feng's defense power can also be greatly increased, which naturally makes Ye Feng very happy.

At this time, while Ye Feng was comprehending the entire Qinglong Body Protection Technique, he began to use the God's Sword to cut open the bodies of several powerful zombies that he had killed on the ground around him.

Then Ye Feng immediately discovered that these zombies were indeed extremely advanced zombies. Each zombie's body contained a zombie core that glowed with green light.

These things cannot be used by ordinary practitioners and can only be sold to some practitioners who specialize in cultivating the Yin and Evil attributes.

But Ye Feng doesn't refuse anyone who comes.

Ye Feng's body is enough to accommodate the power of thousands of attributes in the world.

Ye Feng can directly utilize even the energy in the core of the most bizarre and evil zombie.

At this moment, Ye Feng dug out six zombie cores, each of which was about the size of a fist and glowing with green light.

"Buzz!"

The next moment, Ye Feng didn't hesitate at all. He directly released the Devouring Domain and began to devour the energy contained in the cores of these zombies.

At this moment, Ye Feng immediately

I felt it, and my skill suddenly increased tremendously.

You know, each of these zombies are very high-level and very powerful. They are zombies transformed from the corpses of very powerful superpowers back then.

Therefore, the zombie cores bred in their bodies are naturally very high-level and contain very majestic energy.

At this time, after Ye Feng absorbed a full six zombie cores, his skill immediately increased tremendously, and his cultivation level also increased steadily.

boom!

The ninth level of the Fusion Dao Realm!

boom!

The tenth heavenly perfection of the Fusion Dao Realm! !

At this time, Ye Feng's cultivation suddenly broke through two levels.

Directly breaking through from the eighth level of the Fusion Realm to the tenth level of the Fusion Realm, Ye Feng's cultivation skills immediately increased tremendously.

Ye Feng could also feel that his combat effectiveness had been greatly improved at this moment.

This made Ye Feng's eyes suddenly reveal a look of deep surprise.

I didn't expect that these six zombie cores could actually make my cultivation reach two levels in a row. It was a huge breakthrough.

After all, you must know that Ye Feng's cultivation has now reached such a powerful level. Every breakthrough requires the support of vast energy to enable Ye Feng to break through quickly.

Ye Feng's body and dantian became more and more like a bottomless pit.

So at this time, Ye Feng was naturally very surprised that he was able to swallow six small zombie cores and improve his cultivation skills so much.

At this moment, Ye Feng looked around and found that there was no one else in the empty tomb.

Ye Feng knew that everyone was probably separated in the chaos just now.

But Ye Feng is now happy to explore this ancient tomb alone.

After all, this time the team is not united, so it is better to act alone to avoid having to deal with interpersonal relationships.

Moreover, Ye Feng has

His personal strength and methods have given Ye Feng the confidence to explore the entire ancient tomb.

At this time, Ye Feng didn't hesitate at all. He immediately looked around the tomb and found that there were four dark passages in the tomb, leading to nowhere.

Ye Feng didn't know which passage the others took, after all, it was too chaotic just now.

At this time, Ye Feng could only randomly select one of the four tomb passages and walk towards the deeper space in this direction.

Ye Feng chose this passage, and after walking for a while, he discovered that the bodies of several elite guards of the Tianxia Chamber of Commerce appeared on the ground.

The guards of the Tianxia Chamber of Commerce all died in a very miserable manner. Their foreheads were pierced by something very sharp, and a bloody hole appeared. Then their whole bodies turned black and they turned into mummies and died.

"Um?"

This made Ye Feng's eyes suddenly become wary. He didn't know what kind of terrifying and strange thing attacked these powerful guards of the World Chamber of Commerce. Not only did one blow penetrate the entire head, killing these guards, but also killed these guards. All the energy in the body of several guards was sucked away, and their death state could be said to be very strange.

At this moment, Ye Feng suddenly thought in his heart, could it be that Shen Lan, the young president of the World Chamber of Commerce, was in a panic and walked through the passage he chose, otherwise, the guards of the World Chamber of Commerce would not have appeared here.

Because these guards, even in the chaos just now, would undoubtedly surround Shen Lan and protect Shen Lan, the young president of the World Chamber of Commerce, from leaving.

Ye Feng took a quick look and continued walking quickly towards the end of the passage without stopping.

But just when Ye Feng was about to leave here.

Uh-huh!

From the body of a guard who had turned into a mummy, a small blood shadow like a chopstick suddenly appeared. Like a bolt of lightning, it pierced Ye Feng's forehead, trying to pierce Ye Feng's head.

The speed was so fast that even Ye Feng had no time to react, and instantly felt a chill on his forehead.

Chapter 4708 Destined Person

This small blood shadow, like a chopstick, rushed to Ye Feng's forehead in an instant, seeming to want to pierce Ye Feng's forehead.

Ye Feng immediately understood that the dead corpse-like guards of the World Chamber of Commerce on the ground around them were the heads that were pierced by this extremely fast tiny blood shadow.

Ye Feng didn't even see clearly what this tiny blood shadow looked like, but he already felt a chill on his forehead, as if it was going to pierce through his forehead.

But that tiny blood shadow had just pierced Ye Feng's skin, but it hit the skull on Ye Feng's forehead.

The skull on Ye Feng's forehead is golden. It has long been the immortal bone of the god that Ye Feng has fused, so it is immortal.

This small figure, no matter how strong the penetration power is, cannot penetrate Ye Feng's head at all. It can only penetrate a layer of Ye Feng's skin and flesh, but it cannot penetrate Ye Feng's skull at all. After all, it is the sky. Underneath is the only immortal skeleton of a deity who has cultivated to the Great Perfection state.

So at this time, Ye Feng actually did not encounter any danger. Ye Feng stretched out his hand like lightning and directly grabbed the small blood shadow in front of him.

At this moment, Ye Feng immediately saw that this small blood shadow was a crimson worm that looked like an earthworm, but it was filled with a strong aura of death and corpse.

Obviously, this is also a very weird and terrifying insect with terrible evil attributes that is similar to the corpse insect king bred in this ancient tomb. It is a vicious insect that can only appear in tombs.

After all, this kind of insect is slightly better than the Corpse Insect King. After all, the poisonous red corpse gas produced by the Corpse Insect King after it explodes cannot even be stopped by Ye Feng's fourth-stage god body.

This red worm looks like an earthworm, at least it doesn't have much

Ye Feng is not afraid of the poison, but its speed and penetrating power are very strong. After all, Ye Feng's bones can be said to be indestructible.

At this moment, Ye Feng exerted force with his disgusted palm, and his golden palm crushed the small, chopstick-like crimson worm in front of him, and then threw it to the ground.

Ye Feng glanced at the guards of the World Chamber of Commerce on the ground, with a hint of sadness in his eyes.

These guards are actually very strong in cultivation, otherwise they would not have been carefully selected to join the team exploring ancient tombs this time.

Unfortunately, this ancient tomb is much scarier and weirder than the World Chamber of Commerce imagined. Even a top genius like Ye Feng sometimes has difficulty dealing with possible dangers.

Although these guards of the World Chamber of Commerce are extremely powerful and are probably considered to be extremely powerful beings in the Blood Demon Dynasty, they are absolutely nothing compared to super-top geniuses like Ye Feng.

At this time, Ye Feng continued to move forward and soon reached the end of this dark passage.

At this moment, Ye Feng immediately discovered the end of the passage, which was connected to a separate tomb.

But at this time, Ye Feng discovered that the tomb had no traces of damage by outsiders and was still intact.

This made Ye Feng immediately have doubts in his eyes. It seemed that his guess was wrong. Shen Lan and a group of guards from the World Chamber of Commerce might not have entered the passage they chose. Otherwise, they would have definitely been one step ahead. I arrived at the place connected to this passage.

A tomb.

It seems that the two guards of the World Chamber of Commerce who died miserably when Ye Feng met in the passage just now were the guards who got separated from the large group.

At this time, Ye Feng entered the tomb and found no coffin.

In this separate tomb, there is only one built pool.

This pool is a circular pool, and there are many ancient patterns carved on the walls of the pool.

But what surprised Ye Feng was that the water in this pool turned out to be milky white, and it even smelled like milk.

This made Ye Feng immediately couldn't help but walk to the pool, wanting to explore whether there was some energy from heaven and earth contained in the milky white water.

After all, this kind of very special-looking pool water is usually a place of spiritual springs created by heaven and earth. Maybe the pool water is a good thing.

However, Ye Feng still has some doubts in his heart. After all, this is not a good place, but a very strange ancient burial place. Logically speaking, it is impossible to breed such a spiritual spring of heaven and earth, and it is impossible to breed any hidden treasures. A pool of water filled with energy from heaven and earth.

But Ye Feng still wanted to investigate.

But just when Ye Feng approached the shore of the milky white pool.

"Buzz!"

Suddenly, the middle area of the pool began to fluctuate rapidly. As the water splashed, Ye Feng saw an ancient coffin slowly floating out of the pool.

Seeing this scene, Ye Feng couldn't help but reveal a disgusting look in his eyes.

Just now, Ye Feng wanted to taste this milky white pool water. Is there any world?

energy.

But there was an ancient coffin inside, which made me feel sick just thinking about it.

At this time, Ye Feng stared at the coffin with a hint of surprise in his eyes.

Is this tomb really the tomb of the Netherworld Emperor?

Why does it always give people a very weird feeling? There are so many people buried with them, and the coffins are soaked in this very special milky white pool water for burial.

This kind of operation is something Ye Feng has never seen before.

So at this time, Ye Feng even suspected that the tomb under the barren mountain was not the tomb of the Netherworld Emperor at all, but some kind of very weird existence that buried himself in such a weird place.

"Click, click..."

And just when Ye Feng was thinking secretly in his heart at this moment, the lid of the coffin soaked in the milky white pool water slowly opened automatically, making a tooth-aching friction sound.

In this dark little tomb, people feel very scary and weird.

However, Ye Fengyi was a brave man. At this time, he just stared at the coffin with the lid slowly opening, in case a terrible zombie jumped out from inside, and he could respond at any time.

But just when the coffin lid automatically opened halfway, no ferocious zombie popped out of it, but a beautiful woman wearing white clothes and black hair slowly sat up.

This beautiful young woman's face is a little pale, but she gives off a beauty that makes me pity her.

This woman in white with long black hair stared at Ye Feng with her sickly and pitiful eyes at this moment, and made a beautiful and seductive voice, "Destined one, come to my place and please give me a hug. I am cold....."

Chapter 4709 Bai Zhan

In this dark and unfamiliar tomb, a beautiful woman that I feel pity for appears in the coffin and wants to throw herself into your arms. This scene looks both tempting and weird.

Ye Feng even couldn't help but walk towards the beautiful woman sitting up in the coffin.

Because the other party is so beautiful and pitiful that people can't help but want to love her.

At this time, Ye Feng's powerful soul clearly felt something abnormal.

But for some reason, Ye Feng couldn't control himself and walked straight towards the beautiful woman sitting up in the coffin. .??.

This made Ye Feng feel a vague sense of tension in his heart. He wanted to control his steps, but he couldn't.

Even with his huge soul power, he was unable to exert his power at this moment.

This made Ye Feng immediately extremely vigilant.

But Ye Feng just couldn't control himself and walked in that direction.

"Oops! This beautiful woman is either a soul master more powerful than me, or an extremely terrifying monster. She can actually make my whole spirit and soul sink into her attraction."

At this moment, it was the first time that Ye Feng encountered a being that he could not fight against at the soul level.

Moreover, Ye Feng discovered that his current spirit was immersed in this attraction, and he was unable to call out the Emperor Chu in his mind.

Ye Feng encountered a situation that he could not handle for the second time in this ancient tomb under the barren mountain.

This tomb is really weird!

At this time, Ye Feng was very anxious and wanted to find a way to get rid of this forced attraction.

Click!

Suddenly at this moment, a figure suddenly flashed not far away.

This figure, holding a golden ancient sword in his hand, went directly towards the beautiful woman who sat up in the coffin, and directly killed the beautiful woman who was reaching out towards Ye Feng to attract her. The white palm was cut off.

"howl!!"

Almost at this moment, a sound like a howling ghost came out from the entire small tomb.

It was the beautiful woman who was howling. The howling didn't sound like a human voice, but a strange and shrill scream.

The beautiful woman's palm was cut off, but what fell was not a white palm, but a palm covered with white hair.

At this moment, Ye Feng looked at the coffin again and found that the person sitting up on the coffin was no longer a beautiful woman that I felt pity for, but a zombie whose skin was covered with white hair and mold!

It looks disgusting and ferocious!

"this!"

Seeing this scene, Ye Feng's eyes immediately changed.

Obviously, the beautiful woman whom I felt pity for just now was just an illusion, and Ye Feng was immersed in it.

You know, Ye Feng's soul power is extremely powerful, but he still can't help but fall into this illusion.

This shows how weird and terrifying this white-haired zombie is.

At this moment, the figure who cut off this palm was none other than the boring figure in Ye Feng's previous team.

The silent little brother.

At this moment, he had already held the ancient golden sword on his back in his hand, looking warily at the white-haired zombie in the coffin in the middle of the milky white pool.

Ye Feng immediately said, "Thank you."

This was the second time that this young brother had saved himself. Ye Feng was very surprised by the other party's ability.

Ye Feng can feel that this young brother is not actually that powerful in cultivation, not even as good as himself. However, under the tomb, he seems to have knowledge and abilities that are different from ordinary people, even better than that Feng Shui master. It's time to be more professional.

At this time, Ye Feng couldn't help but be very curious about the identity of the other party. Maybe he was a descendant of a special tomb family, so he knew the tombs very well.

At this moment, the young brother holding the golden ancient sword looked at Ye Feng and said loudly, "This is a white zombie, and it is a high-level existence among the white zombies. Otherwise, it would be impossible to defeat you, a soul master." He was pulled into her illusion and walked towards her involuntarily. If you had really been close to this white zombie just now, you would have had your head bitten off and died. "

And the moment the young brother finished speaking, Ye Feng immediately saw a scene where his scalp went numb.

I saw headless corpses emerging from the milky white pool of water around the howling white-haired zombie sitting in the coffin.

Some corpses have decomposed, while others are still very fresh.

And what surprised Ye Feng was that among the corpses emerging from the pool, there was a headless corpse that looked very familiar. It turned out to be the corpse of the female swordsman in red clothes who wanted to take advantage of Ye Feng!

This heroic female swordsman was extremely powerful, and her real combat power might be comparable to that of Ye Feng, but now she had become a cold, headless corpse, soaked in this pool of water, and had completely lost all her life essence.

This made Ye Feng couldn't help but sigh, this white-haired zombie is really powerful. After all, even his own soul master fell into the trap of this white-haired zombie, let alone the female swordsman.

Although the female swordsman was powerful in combat, she was naturally unable to resist this strange power at the mental and soul level. It could be said that she died in a very aggrieved manner.

At this moment, Ye Feng suddenly discovered that the white-haired zombie sitting on the coffin did not stand up and rush towards the two people on the shore. Instead, he howled inside the coffin and looked at the two people. His eyes were filled with bloodlust.

The young brother next to him put the golden ancient sword in his hand back on his back, glanced at the white-haired zombie in the coffin in the middle of the milky white pool, and said loudly, "This kind of white zombie is equivalent to the soul master among zombies. The illusion is very scary, but it is very fragile. She can only attract prey through illusions, but now that the illusion has been broken by us, she dare not approach us. "

Uh-huh!

After finishing speaking, the young brother unexpectedly flipped his hand, and a golden dagger appeared on his palm, and he quickly threw it forward.

The golden dagger immediately turned into a stream of light, and with a "puff" sound, it pierced the head of the white-haired zombie that was made from the coffin, and sealed her death in the coffin.

The illusion was broken, and the body of the white-haired zombie was indeed very fragile. He had no time to dodge or defend against the golden dagger in the hands of the young brother, and was nailed to the coffin on the spot.

Chapter 4710 Instant breakthrough

Wow!

At this moment, the coffin immediately sank quickly to the bottom of the pool.

But at this moment, the young brother carrying the ancient golden sword rushed forward and stretched out his two hands.

The next moment, Ye Feng suddenly saw that the two arms of this young brother seemed to have turned into rubber figures.

This young brother didn't need to jump into those disgusting pools of water. He stood on the shore. His arms seemed to have turned into rubber men. They could quickly extend and then directly grabbed the sinking coffin. Inside, two things were fumbled out, and then the arms retracted again and became the size of a normal person.

"Um?"

Seeing this scene, Ye Feng's eyes suddenly showed surprise.

As expected, this young brother's identity is very extraordinary, and his various abilities are also very practical in such ancient tombs. It seems that he was born for tombs.

Ye Feng knew that the two arms of this young brother could be stretched so much at once and spanned the entire pool. It was not just a simple bone shrinking skill. This was a very extraordinary ability.

At this moment, Ye Feng looked at the young brother's palm and found that the two things he took out from the coffin before the coffin completely sank under the water were a very ancient-looking piece. A golden mirror, and another object is a round bead exuding seven colors.

At this time, the young brother looked at Ye Feng and gave a rare explanation: "These two treasures should be magic weapons used by special zombies like white-haired zombies during their lifetime, and they are all related to illusions."

When Ye Feng heard what the young brother said, he couldn't help but said in surprise, "You mean, this special kind of white-haired zombie that can use illusions also knew how to use illusions during his lifetime, so he became like this." A special kind of white-haired zombie that can use illusions?"

The young brother nodded and took in these two things.

In his storage bag, after all, this is the treasure he got.

Ye Feng didn't covet him. After all, this was what the other party deserved, not to mention that the other party saved him once.

At this time, seeing this young brother carrying a golden ancient sword on his back, he was about to leave the tomb. Ye Feng immediately couldn't help but said, "Brother, I want to ask, is this tomb under the barren mountain really a good place?" Why are there so many weird things in the legendary tomb of the Netherworld Emperor? Logically speaking, the tomb of such a peerless powerful man seems to have no special significance because it is so complicated to build. The peerless powerful man usually has a very majestic tomb. , but I didn't see any very brilliant buildings in this tomb, I just saw weird and weird little tombs, and so many weird zombies were born."

Hearing Ye Feng's question, the young brother with the golden ancient sword on his back paused, and then said slowly, "This is indeed the tomb of Emperor Netherworld. There is no doubt about it. As for why the tomb of Emperor Netherworld was born?" So many weird things are related to the Netherworld Emperor's constant communication with the Netherworld. In addition, they are related to the legendary secret of eternal life that he is looking for. Perhaps the Netherworld Emperor encountered an inexplicable curse in his later years because of his search for the secret of eternal life. Well, so the strength was greatly reduced during his lifetime, and there was no peace in the tomb after his death, and many strange things happened. "

Ye Feng heard this and couldn't help but asked, "You are very mysterious. Your purpose of coming here is not just to join the team and search for the wealth in this ancient tomb. You should have other purposes."

Hearing what Ye Feng said, the young brother carrying the golden ancient sword didn't say anything. He just walked towards another passage in the tomb in silence and disappeared at the dark end of the passage in a blink of an eye.

When Ye Feng saw this scene, he did not pursue him because he did not have a close relationship with this mysterious young brother.

, Ye Feng just thought that the other party was very mysterious. He might have other purposes for coming to the tomb of the ancient Netherworld Emperor, and it was definitely not just to search for treasures from the ancient times.

After all, among the team, Ye Feng felt that the most mysterious person was this young brother.

Moreover, the other party is very familiar with various things about this weird ancient tomb. One has to suspect that he may know more about this ancient tomb than Shen Lan, the young president of the Tianxia Chamber of Commerce. Some.

However, Ye Feng thought for a moment and stopped thinking about it. After all, these things had nothing to do with him.

The reason why Ye Feng joined this team and entered the tomb of the Netherworld Emperor was to search for various wealth and cultivation resources, as well as the magic weapons left by the strong men in ancient times. Ye Feng was not interested in other things.

Uh-huh!

At this moment, Ye Feng did not hesitate and flew directly into the mid-air of the pond. The God's ring in his finger transformed into the God's sword and cut open the body of the white-haired zombie that had not yet sunk into the coffin.

Sure enough, Ye Feng found another zombie core from the white-haired zombie's body.

This kind of zombie core is not even needed by the mysterious little brother carrying the golden ancient sword, but for Ye Feng, it is a very good supplement.

At this moment, Ye Feng didn't hesitate at all. He directly took the zombie core of the white-haired zombie in his hand, then activated his devouring ability and began to devour and absorb the energy in the zombie core.

This zombie is not an ordinary zombie, but a very powerful white-haired zombie. It can be said to be a high-level existence among zombies.

"Buzz!"

At this time, after Ye Feng absorbed the core of this white-haired zombie, he immediately felt that his skill had once again increased tremendously.

This white-haired zombie is better than the previous one

The zombies inside the eighteen pitch-black coffins in the tomb are more advanced and powerful, so the energy in the core allows Ye Feng's skill to instantly break through.

"boom!"

As Ye Feng burst out with a huge momentum of cultivation, Ye Feng, who had just broken through to the tenth level of the Dao Fusion Realm, once again broke through and stepped onto the Dao Fusion Realm. The half-step Dao realm!

If the Fusion of Dao realm allows cultivators to begin to integrate the various inherited moral principles they have cultivated with the power of the great avenues of heaven and earth, then the Open Dao realm means that cultivators begin to create their own inherited moral principles.

This is a completely new level of cultivation, very powerful.

Even if Ye Feng only broke through to the half-step of the Dao-Opening Realm and did not step into the real Dao-Opening Realm, it still gave Ye Feng an initial exposure to the power of this new and powerful realm.

Ye Feng could feel that his fighting power had increased tremendously at this moment.

At this moment, Ye Feng was not so afraid of the various weird zombies and creatures in the tomb of the Netherworld Emperor.

After these monsters and zombies were killed, this advanced core was bred in their bodies. The energy contained in it can be said to be a huge tonic for Ye Feng's cultivation.

It can be said that this was an unexpected surprise for Ye Feng, which allowed Ye Feng to achieve so many breakthroughs in cultivation in a short period of time.

At this moment, Ye Feng discovered that there were still four passages in the tomb.

The passage that the young brother carrying the golden ancient sword took was the third passage.

Ye Feng did not follow this young brother, but chose the second passage.

Because Ye Feng knew that if he followed this mysterious young brother, he would probably have to drink soup behind his back, and the good things would definitely be obtained by this young brother in advance, so Ye Feng chose to be different from this young brother. channel.
