### Chapter 471 The Relics of All Saints

In the next few days, Ye Feng sent out waves of demon power to search based on the light vein diagram drawn by Shang in his mind.

First of all, using extraterritorial evil spirits to search in this holy area will not make other extraterritorial evil spirits suspicious.

Secondly, Ye Feng took this opportunity to let the demon clan under his command spread the news that he, the leader of the demon clan, seemed to know some secrets about the ruins of the saints.

In this way, Ye Feng will gain the support of more and more demons.

Because Ye Feng had heard from the sidelines at this time that the entire extraterrestrial evil demons did not have a unified alliance, but were somewhat scattered. They seemed to be divided into teams, plundering those who entered the super-rich clans in the holy area, thinking It is necessary to learn from the population of the super-rich clan the legacy of the ancient saints in the saint-level area.

In other words, when these extraterrestrial evil spirits captured the young geniuses, they also felt that people from super wealthy families must have some knowledge of the relics of the saints.

At this time, Ye Feng was pretending to be the leader of the demon clan, so naturally he couldn't reveal his secret.

So during this period, he ordered his subordinates to continue to capture the geniuses of the human race.

However, their part of the extraterritorial demons are not strong, and many demons were sent out by Ye Feng to explore the ruins of the ancient saints.

So half a month has passed, and there are not many young geniuses in Ye Feng's detention place.

But what made Ye Feng slightly happy was that on this day, a group of demons walked into the demon hall and said: "See the commander, we found an ancient place in the southwest according to

the route map you gave me, the commander. In the basin, there are architectural relics of the ancient human race, but I don't know if they are the relics of the ancient saints of the human race."

"Go and have a look."

\u003c

br\u003e Ye Feng's eyes lit up immediately, he stood up and walked towards the outside of the Demon Palace.

On the way, Ye Feng was extremely excited. As expected, he used this group of powerful demons to search for the ancient saints based on his own light vein diagram, which was very efficient.

"See the Commander-in-Chief!"

When Ye Feng came out, countless demons knelt down on one knee and showed Ye Feng the highest awe.

Because during this period, a forbidden monster in the holy area broke the ancient seal and ran out to wreak havoc.

Just when all the demons felt that they were extremely unlucky and certain to die.

However, Ye Feng stretched out a hand from the Demon Palace, instantly pierced the sky, and crushed the forbidden monster to death.

That scene was very shocking.

And this also made many demons feel the power and unfathomability of this great commander.

So now every demon clan is in awe of Ye Feng, the great commander.

Even many of the young geniuses and sealers from super wealthy families in prison could not help but show deep fear and a kind of despair in their eyes.

In this holy level area, there is such a demon leader with the highest combat power in the life-threatening realm. Their super clan really has no hope at all this time.

"Commander, we have captured another wave of humans, people from the Sky Hammer clan. Moreover, this time we used the ancient formation to capture a half-step holy weapon from these stupid humans. The Nine Heavens Star Hammer of the Infantry Saint Soldier! Specially presented to the Commander-in-Chief!"

Suddenly, at this moment, a convoy of demons escorting humans rumbled from a distance. The demon convoy captain standing at the front immediately announced the good news to Ye Feng respectfully from a distance. Suddenly, at this moment, a convoy of demons escorting humans rumbled from a distance. The demon convoy captain standing at the front immediately announced the good news to Ye Feng respectfully from a distance.

Chapter 472: Half-step Holy Soldier

The Sky Hammer Clan?

Even the town's most precious half-step holy weapon, the Nine-Heaven Star Hammer?

Ye Feng was very surprised.

But then there was an evil arc at the corner of his mouth.

This day, the Tianchui clan was actually caught by themselves.

It's really a turn of events.

It was outside the holy level area before.

If he hadn't run so fast, he might have been killed by the Sky Hammer Clan, the Black Demon Clan, and the Sword Clan.

But now, the Tianchui clan is so unlucky. Not only everyone has been arrested, but even the clan's treasures have been taken away.

Ye Feng stepped forward, but he didn't expect that his subordinates were quite capable.

He saw that on the prison car, there were more than a dozen young geniuses from the Tianmai Clan and several sealers, all of whom were imprisoned in disgrace and in great embarrassment.

"Commander, please take a look."

The captain of the team, the demon, came over at this time, lowered his head, held an arm-length silver-gray hammer in his hands, and handed it to Ye Feng.

Ye Feng was holding the silver hammer at this moment, and his palm suddenly sank.

This made Ye Feng slightly surprised.

You must know that his current cultivation level, physical strength, and brute strength of his fighting body are very terrifying.

But even so, holding the hammer is still a bit difficult.

It is worthy of being a holy weapon level treasure.

Although it is a half-step holy soldier.

But the essence is still a holy soldier.

There is a trace of ancient and terrifying saintly charm in this weapon.

"The supreme treasure of our Heavenly Hammer Clan is a holy weapon left behind by our powerful human race. You evil spirits cannot use it."

A sealer from the Heavenly Hammer Clan looked extremely arrogant at this time. Although he was imprisoned, he still spoke coldly.

"Buzz!"

But at this moment, Ye Feng released

He released powerful magic power and entered the silver hammer in his hand.

boom!

Suddenly, an extremely terrifying saint's power surged out of the hammer crazily.

Ye Feng suddenly waved the silver hammer in his hand, and suddenly the silver hammer turned into a towering and huge mountain.

And at this moment, the silver hammer in Ye Feng's hand moved, and the stars in the nine heavens shook with it.

Buzz!

Pieces of holy and bright starlight suddenly fell from the nine heavens and merged into Ye Feng's hammer.

"Boom!!"

It was accompanied by an extremely terrifying roar.

A towering mountain in the distance suddenly shattered, shattered by Ye Feng's hammer.

"good!"

Ye Feng suddenly shouted with joy.

This is the most precious treasure of the Heavenly Hammer Clan, the half-step holy weapon Nine Heavens Star Hammer.

Although it is not a complete holy weapon, it is after all integrated with the aura of the ancient saint and has extremely terrifying destructive power.

Moreover, the hammer is a weapon that can be used in a wide range of ways, so it is very suitable for Ye Feng to use now.

With this half-step holy weapon, Ye Feng felt that he was truly invincible in the life-threatening realm.

"The feeling of getting something for nothing is wonderful."

Ye Feng was holding the silver hammer that was always surging with terrifying energy in his hand, and his heart was filled with joy.

"How is it possible? How can you, an evil demon, be able to use the supreme treasure of our Heavenly Hammer Clan!"

That day, the sealer of the Hammer Clan suddenly screamed in horror, his eyes full of disbelief.

"Snapped!"

But the next moment, a demon clan slapped the sealer of the Sky Hammer clan.

Then he respectfully knelt down on one knee to Ye Feng and complimented: "Our great commander is a scholar of heaven. He is mysterious and unpredictable. How can a stupid human like you be able to guess it!" The Sky Hammer Clan?

Even the town clan's most precious half-step holy weapon, the Nine-Heaven Star Hammer?

Ye Feng was very surprised.

But then there was an evil arc at the corner of his mouth.

He saw that on the prison car, there were more than a dozen young geniuses from the Tianmai Clan and several sealers, all of whom were imprisoned in disgrace and in great embarrassment.

"Commander, please take a look."

The captain of the motorcade, the Demon Race, came over at this time, lowered his head, held an arm-length silver-gray hammer in his hands, and handed it to Ye Feng.

Ye Feng was holding the silver hammer at this moment, and his palm suddenly sank.

This made Ye Feng slightly surprised.

You must know that his current cultivation level, physical strength, and brute strength in battle are very terrifying.

Then he respectfully knelt down on one knee to Ye Feng and complimented: "Our commander-in-chief is a scholar and heavenly being. He is mysterious and unpredictable. How can you, a stupid human being, be able to guess it!"

Chapter 473: The Commander-in-Chief of the Demonic Horn

"Hahaha."

Seeing all the powerful men from the Heavenly Hammer Clan, their eyes looked dull.

Ye Feng immediately laughed out loud, and then walked directly in a certain direction outside.

"The Commander-in-Chief is now going to a basin that is suspected to be the ruins of the ancient saints. Let's follow him quickly."

All the demons immediately followed behind Ye Feng.

"boom!"

Ye Feng suddenly stepped out, and the ground suddenly opened. A ferocious monster with eight wings crawled out from the depths of the earth.

This eight-winged ferocious beast was a magical beast that Ye Feng easily conquered after becoming the commander of this place of imprisonment.

At this time, Ye Feng stepped forward and jumped directly onto the eight-winged monster.

"boom!"

The eight-winged monster took off directly, leaping high into the sky.

"Swish, swish, swish!"

At this time, a group of hundreds of demons, all wearing black iron armor and holding weapons emitting demonic energy, followed directly behind Ye Feng.

Their speed was very fast. In less than half a day, Ye Feng and his group of demons had arrived at the edge of a huge basin.

This basin occupies an extremely vast area, covering thousands of miles in radius.

The huge basin with a radius of several thousand miles can be imagined how shocking it is.

At this time, Ye Feng saw that underneath the basin, there were indeed ancient buildings as reported by the demon before, but they all collapsed and were very dilapidated.

However, in the far center of the basin, there was actually a trace of sacred golden light surging, giving people a strong desire to explore.

"The center of the ancient ruins in this basin may really be the true inheritance of the ancient saints in the holy region."

At this time, Shang's voice sounded in Ye Feng's mind.

During this period, for half a month, Ye Feng used his power as the leader of the demon clan to dispatch many demons.

The tribe was divided into small teams, and based on the light diagram in their minds, they explored the lost places in the entire holy area.

Some demons died in the ancient formation, and some died in the mouths of taboo evil beasts.

But after all, a team found the ancient ruins of the basin in this saint-level area, and it is very likely that the treasures left by the ancient saints are hidden.

So Ye Feng can't wait to enter the ancient ruins in this basin.

"A group of demons also want to find the treasures of the ancient saints. They are really wishful thinking!"

Suddenly at this moment, a cold and stern voice came from not far away.

At this time, Ye Feng looked in a certain direction and immediately saw dozens of people appearing around the ancient ruins in the basin.

These people all carry an ancient long sword on their backs. Each of them has sharp eyes, and their bodies are faintly exuding the sword intent that pierces the sky.

"He's from the Sword Clan."

Ye Feng's eyes flashed slightly, it was true that they were enemies on a narrow road.

"A group of stupid humans entered this holy area. Do they really think they can get the treasures of the ancient saints? I'm afraid you don't even know what the ancient saints are doing here, right?"

Suddenly at this moment, another sneer sounded.

At this time, in the direction not far away, above the sky, a large black team was slowly driving.

The entire team was made up of jet black purebred demon horses pulling chariots, with powerful and burly demons standing on them.

The leader of the demon clan is the tallest demon clan, with a height of more than ten meters. His body is covered with black scales, and he looks full of shock.

This is the leader of another demon clan. He seems to be from the troll clan. He is very tall and taller than the demon clan led by Ye Feng.

, the overall look is more powerful.

"This is the troll leader of the troll clan."

The hundreds of demons next to Ye Feng all showed excitement in their eyes. It was obvious that this troll leader was very famous among the entire extraterrestrial demon clan.

The demon who just spoke was naturally the majestic leader of the demon clan who was more than ten meters tall.

His pupils were red, and there was a sarcastic smile on his ferocious face. He stared at the group of young geniuses from the Sword Clan and said: "Do you really think that the ancient saints came here to leave some treasures? Really? It's too naive."

When the young prodigies of the Sword Clan saw the arrival of the troll leader, their faces became a little ugly.

Although they hold the Sword Clan's holy soldiers to suppress the clan, in addition to the hundreds of demon teams led by the troll commander, there is also a demon commander not far away who is covered in dark gold armor and leads own team.

The two demon clan leaders appeared at the same time, making everyone in the sword clan feel a deep threat.

"Did the ancient saints come to this holy area not to leave their treasures, but for other purposes?"

At this time, the words of the troll commander caused Ye Feng, who was hidden in the demon king's armor, to change his expression slightly.

He had seen so many extraterritorial demons appear in this holy area before. He just guessed that maybe this holy area was not as simple as he thought.

Now that he heard the words of the Troll Commander, the genuine Demon Tribe Commander, Ye Feng's suspicions were further confirmed in his heart.

That is, it is not certain whether there are treasures left by the saints in the center of this holy area, but what is certain is that the ancient saints must have done something in this holy area, and it was related to the evil spirits outside the territory. .

Ye Feng was thinking secretly in his heart and planning silently.

This time, because I was hiding my identity, even though I showed

They appear to be demons, but they are actually humans.

So this time Ye Feng has a natural advantage.

It can not only rely on the powerful forces of the demon clan, but also secretly deal with human forces such as the super clan.

Ye Feng's original idea was to unite the super clans of the human race to fight against the entire extraterrestrial evil.

But now that he himself has become the leader of the demon clan, the changes in the world are really unpredictable.

So now Ye Feng is not in a hurry to unite with any super clan to fight against the extraterrestrial evil spirits.

The only thought in his mind now is to find the ancient ruins of the ancient saints, and then see what the ancient saints were doing in this holy area.

Ye Feng did not directly ask the troll commander, because that was really a stupid choice, which could directly reveal that he was not a demon at all.

So at this time, Ye Feng knew that he could just stay silent.

"The ancient ruins of the Saints have finally been found!"

Suddenly, at this moment, another group of hundreds of demon soldiers came from a distance.

The leader was a demon leader with wings growing from his back and a black devil horn on his head.

This made everyone in the Sword Clan in the distance look increasingly ugly.

"Oh? Where does this demon clan come from? Why have I never seen it before?"

At this time, the Demon Horn Commander suddenly stared at Ye Feng, who had remained silent, with a pair of red eyes.

With a joking look on his face, he walked towards Ye Feng and said: "Which branch of the demon clan are you a newly born commander-level demon clan? This set of dark gold armor is pretty good. Can you give me a try? "

As he said that, the Demonic Horned Commander directly grabbed Ye Feng with one hand, extremely arrogant and domineering.

Obviously, among the demon clan, it is so simple and straightforward to bully the newly born leader!

Chapter 474: Devastated

The words of the Demon Horn Commander were very presumptuous and overbearing.

As he spoke, he stretched out a huge magic hand and grabbed Ye Feng.

There was a joking look on the face of the Demon Horn Commander.

Obviously, Ye Feng, the commander-in-chief wearing dark gold armor, had never seen him before and thought he was a new commander-level demon clan that had just been born from the ordinary demon clan.

This new commander was not very powerful, so the Demon Horn Commander naturally took action casually because he took a fancy to the noble-looking armor that Ye Feng was wearing.

Among the demon clan outside the territory, weapons and treasures are very scarce.

Even the demons at the level of great commanders do not have any powerful treasures on their bodies. .???.??

Compared with the casting craftsmanship that has developed and prospered to its peak in the human race, this is completely a world away.

That's why the evil spirits outside the territory wanted to launch a dark turmoil, occupy all the human race's territory, and then enslave the human race for their use.

It's a pity that in the end, after the endless years of battle between the ancient saints and the human emperor, the extraterrestrial evil demon lost.

They can only huddle in a dark corner for the time being, waiting for another revival.

"Commander Demonic Horns, the armor on my body is the pulse-suppressing treasure of my lineage, and it is not something you can covet."

Ye Feng's indifferent and low voice came out from the dark golden metal mask.

"boom!"

He casually stretched out an armor-wrapped palm and directly struck the claws extended by the Demonic Horn Commander.

"Boom!!"

Suddenly a terrifying force burst out.

"ah!"

The Demon Horn Commander's eyes suddenly changed, and then he screamed.

His huge claw was shattered inch by inch by Ye Feng's fist.

The devil's claws shattered, and the hand of the devil-horned commander suddenly turned into a bare wrist.

The Troll Commander not far away had a hint of surprise in his eyes.

Because Ye Feng's random punch just now had such terrifying power, it directly knocked out the devil's horn.

The commander's claws were shattered.

This requires an extremely terrifying force to do.

"Demons are really inherently bad!"

When a group of people from the Sword Clan not far away saw this scene, they couldn't help but talk about it.

"Boy, it seems that the set of dark gold armor you are wearing is indeed an extremely powerful treasure. It has actually given you, a newly promoted commander, instant strength comparable to that of a veteran commander like me!"

Not only did the Demon Horn Commander not retreat at all, but there was a deep greed in his eyes.

"All the sons of my Demon Horn Clan, come together, kill them, and seize their treasure armors!"

The commander of the Demonic Horns suddenly shouted loudly, and would start a team fight if they disagreed.

"boom!"

"boom!"

Suddenly, hundreds of demon soldiers from the Demon Horn Clan all rushed towards Ye Feng.

"kill!"

A group of demons behind Ye Feng also rushed forward to kill him.

Sometimes the fights between demons are often so sudden.

"Originally, I just wanted to quietly plot the ruins of the ancient saints, but now that you are so ignorant, I have no choice but to kill you!"

Seeing that the Demon Horn Commander was going to kill all the demons in his group at the slightest disagreement, Ye Feng's voice suddenly became as cold and bone-chilling as the eternal abyss.

Not far away, a group of people from the Sword Clan looked like they were watching a good show.

They didn't expect that this group of demons would start fighting among themselves before they even took action.

"It's just a matter of watching the fire from the other side. When the time comes, we will take the opportunity to take action and see if we can weaken the power of this group of demons."

A sealer from the Sword Clan spoke out, his eyes filled with cold murderous intent.

At this time, the edge of the ruins was not far away.

"boom!"

Ye Feng reached the heights in one step

Above the sky, a silver hammer emitting a faint divine light suddenly appeared in his hand.

"That silver hammer?"

The eyes of a group of sword masters were suddenly filled with deep shock: "That is the Heavenly Hammer Clan's supreme treasure, a half-step holy weapon, the Nine-Heaven Star Hammer! How could such a treasure as our human race appear? In the hands of a demon leader?"

The expressions on the faces of everyone in the Sword Clan, including several sealers, suddenly darkened.

They guessed a very bad outcome, that is, all members of the Sky Hammer Clan might have been wiped out.

"Half-step holy soldier!"

The Demon Horn Commander heard the exclamations of the Sword Clan people in the distance.

His eyes were fixed on the silver hammer in Ye Feng's hand, and his face immediately showed a deep fiery look. ??

The greatest treasure of the human race!

Half-step holy soldier!

For the Demon Horn Commander, this is simply a treasure-like existence.

"Boy, you are dead! You must die! The wealth you have is so exciting!"

The Demon Horn Commander made an extremely greedy voice, and his body suddenly erupted with infinite demonic energy.

His whole body suddenly began to swell, and eventually he took the form of a huge demon that covered the sky and the sun, like an ancient demon in hell.

"It's not certain who will die."

There was no fear in Ye Feng's tone.

Now in this foreign battlefield, Ye Feng's comprehensive strength is enough to rank at the top level.

"kill!"

Ye Feng waved the Nine Heavens Star Hammer in his hand.

"boom!"

Above the nine heavens, thousands of stars suddenly appeared, and the bright light of the stars instantly fell down and merged into Ye Feng's hammer.

Buzz!

The hammer in Ye Feng's hand swung down violently, as if thousands of stars in the entire starry sky were smashed down, filling the entire world with mighty power.

"What? Half-step Saint Soldier

So terrifying! "

The Demon Horn Commander's face, originally full of confidence, suddenly turned ugly.

Even though he manifested his true form at this time, he became a huge ancient demon in hell.

But at this moment, the Demon Horn Commander suddenly felt a frightening and terrifying force like the power of heaven exerted on himself.

"Crack!"

The ground he stepped on immediately shattered, and the cracks spread for thousands of meters.

With the blow of Ye Feng's hammer, the Demon Horn Commander had almost no resistance and was directly blasted deep into the ground.

"ah!!"

The Demon Horn Commander didn't even realize what kind of person he had offended. At this time, his demonic bones were broken, and the blood dyed the entire ruins red.

"What?!"

The demon soldiers of the Demon Horn Clan who were fighting in the distance froze in place in fear at this moment.

"How is it possible? How can you be so powerful?"

The Demon Horn Commander's eyes were filled with deep disbelief, as if he couldn't believe that a newly promoted Commander was so powerful.

"What? This great commander of the armored demon race actually defeated another great commander with overwhelming force?"

Not far away, the Sword Clan people who originally wanted to make some small moves, but at this moment, looking at the distant scene of Ye Feng instantly suppressing the Demon Horn Commander, their bodies stiffened and they felt chilled all over.

At this time, the leader of the trolls suddenly came over and said to Ye Feng: "We are all demons. Don't hurt the harmony. This time the demon horn is wrong. I will apologize to you on his behalf..."

"Crack!"

But before the Troll Commander could finish speaking, Ye Feng instantly flashed to the side of the Demon Horn Commander, stretched out his feet wrapped in dark gold metal armor, and crushed the Demon Horn Commander's head.

"you.....!"

The Troll Commander's face suddenly became extremely ugly.

Ye Feng's tone was cold, his armor was stained with blood, and he said coldly: "If an apology was useful, would there still be so many killings in this world?"

Chapter 475 Green Vine

The moment Ye Feng's words fell, the Troll Commander immediately stopped what he was about to say.

He stared at the cold figure wrapped in armor in front of him, feeling very surprised in his heart.

This seemed to be the newly promoted leader of their demon clan. His voice sounded like he was not very old, but he didn't expect to have such great strength.

Moreover, they even captured the Heavenly Hammer Clan's most precious treasure, the Nine Heavens Star Hammer.

This newly promoted young commander is really not simple.

Naturally, the Troll Commander no longer blamed Ye Feng, because he felt that he was not qualified to blame Ye Feng at all.

He was afraid of making Ye Feng unhappy, so he directly killed him, the leader of the trolls. Wouldn't that be too bad luck?

After all, the Troll Commander felt that he was no better than the Demon Horn Commander, and he would definitely not be able to defeat Ye Feng.

At this moment, Ye Feng grabbed the Demonic Body of the Demonic Horn Commander, and instantly started to devour it with his devouring power.

Since becoming a demon by grafting, Ye Feng found that the demonic power of devouring these extraterrestrial demons had no side effects at all. On the contrary, the power of these demons was much purer than other ordinary creatures on Longyuan Continent.

This discovery suddenly gave Ye Feng an inexplicable feeling.

He only felt that the energy in the bodies of these extraterrestrial evil spirits was much higher than the energy of the creatures on Longyuan Continent.

This discovery gave Ye Feng a vague guess.

According to the legends on Longyuan Continent, these evil spirits ran in from a mysterious space outside Longyuan Continent and were not native creatures of Longyuan Continent.

But now Ye Feng has discovered that the energy of these extraterrestrial evil spirits is higher than the energy of the local creatures in Longyuan Continent.

Ye Feng had a bold guess in his mind. Maybe the "outside the territory" among the people in Longyuan Continent refers to

It is the land of the spiritual world where I was three thousand years ago.

But this is just Ye Feng's own guess at this time, and he still needs to verify it.

At this time, Ye Feng suddenly became more interested in these extraterritorial evil spirits.

If we can find the source of these extraterrestrial demons entering Longyuan Continent, then we might be able to know whether the "outer territory" is our former homeland, the land of the spirit world.

"Buzz!"

Suddenly at this moment, a huge and dazzling golden divine light burst out from the ancient ruins in the center of the basin in the distance.

The aura of the saints, which made people feel very sacred and ancient, spread to the surroundings of the entire basin in an instant.

"It's the breath of the ancient saints!"

At this time, Ye Feng's face hidden under the metal mask suddenly changed.

In an instant, he led his group of demon soldiers and rushed into the huge basin, heading towards the center of the ancient ruins.

"Walk!"

At this time, the Troll Commander and everyone in the Sword Clan were all running towards the center of the ancient ruins.

But everyone is not taking the same route.

Because this basin covers an area of nearly a thousand miles, it is so big that it is almost like a small landmass, and the route is very tortuous.

When Ye Feng led a group of demons into the basin, they suddenly felt like they had entered a huge maze.

The ancient ruins in the entire basin are like a huge maze covering an area of thousands of miles!

"I didn't expect that a huge air-forbidden formation would be set up in this entire basin.

French flying. "

What made Ye Feng a little speechless was that after entering this basin, he was unable to release his flying magic.

Even his own flying mount with wings cannot fly into the air.

"I guess everyone else is like this. They can only walk directly among the countless dilapidated ancient buildings on the ground."

With a hint of helplessness in his eyes, Ye Feng led a group of demon soldiers towards the center of the basin.

"ah!"

Suddenly at this moment, there was a howling sound in the distance.

"Go and see!"

As soon as Ye Feng's eyes moved, he immediately shot towards the distance, and a group of demons immediately followed him.

Almost at the next moment, Ye Feng saw directly, next to a dilapidated altar in the distance, the troll commander was entangled with a long and strange green tentacle, which was absorbing the troll commander's energy and spirit. .

"ah!!!"

The Troll Commander's eyes were full of fear, and he yelled in horror: "Save me! Save me quickly!!!"

But the demon soldiers around him didn't dare to step forward at all, because all of them would die if they did.

There was something strange in Ye Feng's eyes, because at this moment, when he saw the green vine-like tentacles wrapped around the troll leader, the immortal tree seed planted in his body was originally calm, but now But it is throbbing.

Ye Feng could feel that the seeds of the Immortal Tree seemed to be very eager for the weird green vine tentacles sticking out of the altar.

"This green tentacle is probably a strange plant elf. The seeds of the Immortal Tree are at the level of the King of Woods. I must be very interested in this special spiritual wood attribute elf."

Shang spoke up in his mind, saying

: "Ye Feng, I told you before that planting the seeds of the Immortality Tree in the body has huge magical effects, but you have never experienced it until now. Now is the opportunity. Swallow the green vines and let the seeds of the Immortality Tree grow. , you will definitely get a huge surprise."

When Ye Feng heard what Shang said, his eyes suddenly lit up.

Even the mysterious big yellow dog said that the seeds of the Immortal Tree were very precious and must be extraordinary.

If Ye Feng could let the seeds of the Immortal Tree grow in his body, he didn't know what effect it would have.

He needed to test it out.

Tap tap tap!

Ye Feng instantly walked towards the ancient altar not far away.

At this moment, the troll commander had been sucked dry by the weird green vine tentacles, and he had become a shriveled demon body.

Swish, swish, swish!

At this time, Ye Feng stepped forward, and suddenly the green vine tentacles flew towards him and entangled themselves.

Dang Dang Dang!

Dang Dang Dang!

The green vines, like spears, touched the Demon Lord's armor covering Ye Feng's body, making bursts of sounds like metal delivery, which was very harsh.

But the Demon Lord's armor was very hard, and those green vines couldn't penetrate it at all.

"Buzz!"

At this time, Ye Feng suddenly activated the seeds of the Immortality Tree in his body, and a light green life energy suddenly emitted from his body surface.

That is the original power of the seeds of the Immortal Tree.

"howl!"

And almost at this moment, the ferocious green vine tentacles, like a mouse meeting a cat, let out a frightened howl and quickly shrank towards the ancient altar behind it. .

Chapter 476: Confidence

At this time, I saw those green vines shrinking crazily towards the ancient altar.

Ye Feng's eyes suddenly showed a strange look, and he suddenly stretched out his hand: "You can't run away!"

boom!

Almost at this moment, Ye Feng's palm, wrapped in dark gold armor, suddenly burst into a glazed crystal light, grabbing those green vines.

"Come out!"

Ye Feng roared, and a huge force burst out from his palm.

boom!

Those green vines couldn't withstand Ye Feng's terrifying power, and were violently and violently pulled out.

"Swallow!" .??.

At this moment, Ye Feng directly activated the longevity tree seeds in his body.

Suddenly a green light appeared on his palm, and the aura of the Emperor of Ten Thousand Woods washed away.

"howl!"

The green vines, amidst the bursts of shrill roars, were swallowed up by the longevity tree seeds in Ye Feng's body, and the essence of the wood attribute was swallowed up!

At this moment, all those green vines were withered and dry.

But at this time, Ye Feng saw that the immortal tree seed in his body had grown into a small emerald green tree, more than one meter tall, after absorbing enough wood-attribute power.

The seeds of the Immortality Tree finally broke out of their cocoons and sprouted, growing into a one-meter-tall tree in the ocean of mana within Ye Feng's body.

Although it is still very young, the emerald green immortal tree at this time is exuding an extremely rich wood-attribute energy, radiating towards Ye Feng's entire body, with an incomparable vitality that is constantly warming. Maintaining Ye Feng's entire body, bones, flesh and blood, meridians, and even soul are slowly growing.

Shang laughed loudly in his mind at this time: "Ye Feng, I didn't expect that the wood essence contained in these green vines is so powerful that it can directly transform your immortal tree seeds into an immortal tree over one meter high. Knowing how to plant an immortal tree in your body is a

blessing that many ancient emperors could not get when they were young. When the immortal tree is young, it is not of much use. At most, it only warms and nourishes you.

body, but once the Immortality Tree grows to a certain extent, Ye Feng, you will receive a steady stream of life supplies. During the battle, the Immortality Tree will also quickly repair your damaged body. As long as you do not die instantly, you will slowly His recovery was more perfect than any healing medicine or holy magic in the world. "

When Ye Feng heard Shang's voice, he immediately nodded with joy in his eyes.

If it's really like what Shang said, then he really made a lot of money.

Because the process of finding the Immortal Tree was obtained without encountering any danger.

Moreover, there are still several ripe longevity fruits in his storage ring.

This immortal tree seed in his body has endless potential.

"What are your plans?"

Ye Feng turned around and looked at the hundreds of demon soldiers of the troll clan under the command of the troll commander.

"We are willing to follow the leader!"

This group of troll soldiers were all very sensible at this time, and they all knelt down on one knee in front of Ye Feng.

"very good."

Ye Feng nodded with satisfaction. In this way, he suddenly had hundreds of powerful troll and demon soldiers under his command.

A group of demons, led by Ye Feng, continued to move forward.

Soon they arrived at the middle of the basin's ancient ruins.

At this time, a large group of people appeared in the distance. They were all powerful men from super wealthy clans. They gathered here and seemed to be discussing something.

At this time, Ye Feng, who was wearing a ferocious demon armor, arrived with thousands of demon soldiers, and the atmosphere on the entire field suddenly became depressed.

Swish, swish, swish!

At this moment, countless eyes were looking in Ye Feng's direction.

When everyone saw that this was a large demon army, there were thousands of demon soldiers, and there was also a man wearing dark clothes.

The eyes of everyone who looked at the golden-armored demon clan leader became a little ugly.

They originally thought that the major super clans would join forces to monopolize the entire relics of the ancient saints.

But now, such a large army of demons suddenly came, looking menacing and very difficult to mess with.

Ye Feng looked through the metal mask and saw those super chefs, almost all gathered together.

"Shui Bingyan..."

At this time, Ye Feng suddenly saw a familiar figure among the group of people.

People from the water tribe also appeared among the super-rich tribe not far away.

Obviously, there are also people with great abilities in the water tribe, who actually found this place of all the saints' ruins.

There are hundreds of people in the super wealthy clan, all of whom are top-notch masters.

But as Ye Feng has now become the leader of the demon clan, leading thousands of demon clan soldiers, he naturally has the confidence to fight against the super clans.

At this time, Ye Feng was even a little lucky. He pretended to be a demon commander and gathered a bunch of demon soldiers.

If he were alone, he might not have the confidence to fight against these super wealthy people.

But now that he is a big devil, he can do whatever he wants, and he has armor covering his whole body, so he has no scruples at all.

At this time, Ye Feng put his hands on his back, led thousands of tall demon soldiers, and walked very forcefully around a group of super rich people.

People from the super wealthy clans all moved out of the way, obviously very afraid of this group of evil demons.

Ye Feng didn't say anything. He looked not far away and found a dozen huge sculptures standing in the open space.

The ground in the open space was engraved with extremely complicated ancient patterns.

"This seems to be an ancient formation, but it seems that certain means are needed to activate it."

Ye Feng observed carefully for a while and secretly made some guesses in his heart.

☺

This formation with sculptures of ancient saints seems to be able to connect to another space.

However, Ye Feng didn't know how to activate this ancient formation.

He looked at the super clan not far away, and suddenly said: "You should have a way, we can cooperate, you activate these ancient saints' ruins, and we will enter another space where the saints' treasures are hidden. If we encounter anything Dangerous, I can help you."

"Why should we trust such an evil demon like you?"

Suddenly, a young man in white walked out from the super wealthy family.

This person turned out to be Chu Changsheng of the Chu clan.

He seemed to be relying on the Chu clan behind him. He had several sealers, and he also had the clan's holy weapons in his hands, so he was not afraid of anything at all.

Seeing how brave and generous Chu Changsheng was at this time, many people from super wealthy families looked at him.

Even Shui Bingyan, the princess of the water tribe, stared at Chu Changsheng with a look of surprise in her beautiful eyes.

Chu Changsheng saw Shui Bingyan's surprised look, and he was immediately filled with strength.

It turned out that Chu Changsheng stood up to attract Shui Bingyan's attention and wanted Shui Bingyan to know that he was also very powerful.

"Are you sure you are qualified to talk to me?"

But at this moment, Ye Feng's voice was filled with a hint of teasing, staring at Chu Changsheng.

"I....."

Chu Changsheng saw the cold and ferocious armored figure looking at him, and his eyes suddenly showed a hint of fear.

But at the next moment, Chu Changsheng wanted to avoid losing face, and he did not believe that the leader of the demon clan dared to take action in the face of so many powerful people from their super powerful clans.

So at this time, Chu Changsheng smiled coldly and said: "I am the young master of the Chu clan. I represent the entire Chu clan, so I am naturally qualified to speak. A demon like you is ignorant and evil, and you still want to get the treasures of the saints. Really It's just wishful thinking, now hurry up and get out, you are no match for our super rich family!"

Chapter 477: Looking down on the world

After Chu Changsheng finished speaking, he originally wanted to enjoy the feeling of being in the spotlight.

Buzz!

But at this moment, a dark and boundless demonic energy suddenly enveloped him.

"The demon leader has taken action!"

At this moment, what made Chu Changsheng's face turn extremely pale was that the powerful men from all the super clans around him retreated and frantically stayed away from him.

"What?"

Chu Changsheng's face suddenly turned livid.

Because this is completely different from what he imagined.

Originally, he thought that if he stood up directly, he would be followed by many super wealthy people, and even Shui Bingyan would stand up and fight alongside him.

Dreams are always beautiful, but reality often hits you head-on.

Tap tap tap...

At this time, Ye Feng slowly stepped forward, with thousands of demon soldiers watching eagerly behind him.

The terrifying demonic energy surged for nine days, turning the entire sky into darkness.

At this moment, the whole world suddenly dimmed.

It was like an ancient evil beast hidden in the darkness had resurrected.

"You... you..."

At this time, Chu Changsheng's eyes were filled with deep shock and anger, staring at the various super-rich clans around him who were quickly retreating away.

Seeing the irrelevant expressions of a group of super wealthy people, Chu Changsheng knew that he was wrong, and that he was very wrong.

"Young Master, let's retreat quickly."

A sealer whispered beside Chu Changsheng.

"Okay, let's go."

Chu Changsheng immediately wanted to run away.

But at this moment.

"boom!"

A huge pressure of demonic energy suddenly cut off the retreat of the entire Chu clan.

"Great Commander of the Demon Clan, are you sure you want to

Be enemies with our Chu people who hold the holy weapons? "

A Chu sealer walked up to Chu Changsheng, his eyes were indifferent, and he spoke.

This sealer holds a small crystal ball in his hand.

The crystal ball looks very exquisite, like a work of art.

But at this moment when the sealer of the Chu tribe injected a trace of mana, a saintly aura, ancient and vast, suddenly appeared that frightened everyone present.

Obviously, this crystal ball is the Chu Clan's Saint Soldier, a treasure that contains the terrifying power of the Saint.

"Do you think the holy soldiers can stop me?"

Ye Feng's cold voice came out from the golden mask in an instant.

"boom!"

Almost at the next moment, a huge silver hammer appeared in Ye Feng's hand.

He suddenly waved the silver hammer in his hand, and suddenly the light of stars appeared in the sky, like a nine-day light chain, piercing the void and connecting to the silver hammer in Ye Feng's hand.

"boom!!"

Ye Feng slammed down with a hammer, and suddenly a sea of stars descended, covering dozens of people in the entire Chu clan.

"Crystal Holy Ball!"

The Chu sealer immediately raised the crystal ball in his hand, and a light shield as if cast from crystal surrounded their area to resist the power of thousands of stars.

"What? What the demon leader is holding is actually the Nine Heavens Star Hammer of the Sky Hammer Clan!"

"Has the Sky Hammer Clan been completely wiped out?"

"This great leader of the Demon Clan is not simple. He can actually use the body of a Demon Clan to activate the Nine Heavens Star.

The charm of the ancient saint in Chen Chui. "

A group of powerful men from super wealthy clans in the distance were shocked and couldn't help but exclaim.

"Oops! This demon leader has a half-step holy soldier in his hands."

The Chu sealer's face suddenly became extremely ugly.

He never expected that the demon clan, which lacked equipment, would actually grab a half-step holy weapon.

Moreover, this holy weapon, in the hands of the demon leader, actually exerted such terrifying power, and even pulled down the power of thousands of stars above the nine heavens.

The Chu Clan sealer was very frightened and angry. If the Chu Clan did not have the holy weapons in his hands, I am afraid that at that moment, all the dozens of strong men from their Chu Clan would have been wiped out in an instant. .???.??

"I...what did I do..."

Chu Changsheng's eyes were extremely frightened at this moment.

Ye Feng's anger and overwhelming demonic power completely frightened the young master of the Chu clan.

Ye Feng's cold voice came from the metal mask: "You are nothing but rat guts, but you are still pretending to be brave. Do you think true bravery can only be expressed through your mouth? True bravery is fearlessness. ! Even if there is no one behind me, I can support the world alone!"

Ye Feng's voice was cold and domineering, but full of truth, making it impossible for everyone to refute for a moment.

No one would have thought that such words would come from the mouth of a demon leader.

Even Shui Bingyan, the princess of the water tribe, stared at the figure in dark gold armor with a look of surprise in her beautiful eyes.

Shui Bingyan always felt that although the voice of the demon leader was extremely hoarse and deep, the underlying timbre of the voice always felt familiar to her, as if she had heard it somewhere before.

"boom!!"

and

At this time, Ye Feng held the Nine Heavens Star Hammer in his hand and immediately struck it down with a hammer.

"Crack, click, click..."

Like the roar of a thunder god, or like an extraterrestrial star crashing down from high in the sky, the ground under the feet of the Chu sealer holding the crystal ball was shattered inch by inch.

"boom!"

Ye Feng struck down with another hammer, and the ground beneath the Chu sealer's feet suddenly shattered.

"Well!"

The Chu sealer's chest felt tight, and a trace of blood suddenly flowed from the corner of his mouth.

Although the Crystal Holy Ball, the Holy Weapon of the Chu Clan, is very powerful.

However, the Chu sealer's power was limited, and he was simply unable to exert the true power and heritage of this holy weapon.

Therefore, under Ye Feng's crazy bombardment at this time, the Chu sealer began to gradually lose his strength.

Because no matter how bad the Nine Heavens Star Hammer is, it is still a half-step holy weapon, and its power is still very terrifying.

Under the urging of Ye Feng's vast power, nearly one-tenth of the saint's heritage in the Nine Heavens Star Hammer was released.

Therefore, every time Ye Feng hits the hammer, it is equivalent to a saint exerting one-tenth of his power.

The ancient saints were so terrifying. A drop of holy blood could dye a river red and shatter a huge mountain.

Boom boom boom!

Under Ye Feng's crazy bombardment, the Chu sealer spewed out a mouthful of blood with a "pop" sound, and his breath suddenly became weak.

"This kind of attack is so terrifying! Even the holy soldiers can't resist it!"

Ye Feng, who was holding the Nine Heavens Star Hammer, was filled with demonic aura, but he was shrouded in the light of thousands of stars in the Nine Heavens. He looked like a demon and a

fairy, giving people an extremely shocking and mythical feeling, looking down at the world, Invincible!

#### Chapter 478 Collapse

At this time, Ye Feng, every time the hammer fell, it was like stars falling from the sky, and the power of the Chu sealer was weakened.

At this time, Ye Feng also stepped towards a group of Chu people.

Chu Changsheng was extremely frightened at this time. He knew that he had offended a being who should not be offended.

He hid behind the sealer of his Chu tribe, huddled up with his head in his hands, his eyes filled with fear.

At this time, not to mention people from other super wealthy clans, even members of the Chu clan themselves sighed deeply when they saw their young master being so cowardly.

At this time, many super-rich clans suddenly thought of the leader of the Wind God Alliance who fought in the wilderness and killed the Barbarian King.

That unparalleled human youth, his courage and fearlessness are astonishing.

"I still miss Ye Feng..."

At this time, many people from the super wealthy clan even began to hope that Ye Feng would appear to fight against this group of demons.

"Boom!"

Finally, just when Ye Feng struck with his last hammer, the holy ball mask over the Chu clan was instantly shattered inch by inch.

Ye Feng's power was almost endless. He used the Nine Heavens Star Hammer again and again, triggering the terrifying coercion of the heaven and earth from thousands of stars above the Nine

Heavens. The sealer of the Chu tribe consumed a huge amount of power, and finally could no longer support it. The protective mask shattered.

"not good!"

At this moment, the eyes of many Chu people changed.

They want to do something.

But Ye Feng was faster.

Thunder flash!

Swish!

Ye Feng had already teleported to the area around the fallen Chu sealer, and immediately grabbed the crystal ball into his hands.

"No! It's my clan's holy soldier who suppresses the clan!"

All the Chu people's eyes turned red all of a sudden.

If the crystal ball is taken away, then

As a result, their Chu clan heritage was deprived of them.

This is definitely a huge blow to the Chu people.

It is even possible that the Chu clan will withdraw from the level of the super clan of Longyuan Continent and fall to a third-rate small family.

"Buzz!"

Suddenly, at this moment, a tall figure filled with incomparable sanctity stepped out of the crystal ball. His voice was like the power of heaven: "I, the Holy Soldier of the Chu Clan, have suppressed luck for thousands of years. Who am I?" Dare you plunder my Chu clan's treasure?"

"It's the ancestor's spiritual mark!"

"The ancestor's spiritual imprint has revived. It was a saint from our Chu tribe back then!"

Dozens of people from the Chu clan suddenly showed deep surprise in their eyes.

"The will of the saint in the crystal sacred ball of the Chu people has revived!"

At this time, many super clans not far away looked horrified.

Even if there is just a trace of the saint's will, even if thousands of years have passed, it is still filled with extremely terrifying power. It cannot be resisted by the creatures at the level of magical powers. Even the strong ones in the life-threatening realm, in the face of a saint's will, All spiritual souls will be destroyed in an instant.

"Hahaha, I, the saint of the Chu tribe, have revived my will. You, a lowly demon, just wait to die!"

Suddenly Chu Changsheng stood up and laughed wildly and ferociously.

Obviously, the resurrection of the saint's will in the crystal ball made Chu Changsheng suddenly bold.

"It's better for people like you not to live in this world anymore."

Suddenly Ye Feng spoke up, and his cold words made Chu Changsheng shiver.

He wanted to escape.

But right now.

"Pfft!"

Ye Feng instantly teleported in front of Chu Changsheng, and his five fingers were like iron bars, piercing into Chu Changsheng's head.

"ah!"

Chu Changsheng's head was broken, and he suddenly let out an earth-shattering howl.

Before Chu Changsheng died, his face was full of horror and his pupils were wide open, as if he couldn't believe that he was killed by Ye Feng.

"I...I still have a great future, I still..."

Chu Changsheng finally let out a roar unwillingly, and then his body suddenly fell to the ground, completely dead.

"Demon clan? You actually killed my descendants of the Chu clan, die!"

Suddenly at this moment, the saint's will of the crystal ball suddenly became furious and he pointed his finger sharply.

Buzz!

Immediately, countless vitalities in the world rioted, and in the sky, a huge finger of spiritual light suddenly appeared, like a finger of a god, and it stabbed down instantly, which could literally penetrate the earth and tear apart rivers.

A saint is worthy of standing at the top of the living pyramid, possessing extremely terrifying power.

With just one finger, it can trigger the general trend of the world and unleash terrifying and destructive power.

"Buzz!"

The terrifying pressure fell on Ye Feng in an instant.

Ye Feng's eyes were extremely ugly. He did not expect that the Chu clan was indeed a super rich clan, but it had a rich foundation and was not as simple as he imagined.

"Golden elixir!"

At this moment, Ye Feng instantly activated the golden elixir in his brain.

boom!

His body suddenly burst out with an infinite aura that was as immortal as the vast universe, with epic boundlessness and the supreme will of the ancient gods.

"What is this aura of will?"

At this moment, the huge aura finger in the sky suddenly stopped.

The saint's will that had awakened from the Chu crystal sacred ball had an indifferent and majestic face, but suddenly it revealed a look of deep uncertainty.

At this moment, this Chu saint's will felt like he was being stared at by the supreme master of the gods. Even though he was a saint's will, he was as weak as an ant in front of the immortal will emanating from Ye Feng's body. .

He stared at the figure wearing Demon Lord's armor below. Under the shocked eyes of countless people, he couldn't help but kneel in front of Ye Feng.

"What?"

"The saint kneels down?"

"What? What did I see? What happened?"

At this moment, the eyes of countless people present showed deep horror and dullness.

Originally, in their eyes, the will of an ancient saint among the holy soldiers was revived, and the demon leader might be wiped out in an instant.

But now, the ancient saint of the human race knelt down in front of the demon commander wearing dark gold armor.

At this time, not to mention the powerful men of the major super clans on the field, even the thousands of demon soldiers following Ye Feng were all stunned, their eyes filled with shock and dullness.

Obviously, at this moment, no one except Ye Feng and the ancient saint's will knew what was happening.

Buzz!

And at the next moment, what shocked everyone even more was that the will of the saint of the Chu tribe dissipated, and the crystal holy ball of the Chu tribe's saint weapon suddenly flew towards Ye Feng, and then there was a "click", It fell into Ye Feng's hands.

"This...what happened..."

At this moment, the mentality of countless powerful Chu people finally collapsed.

Chapter 479: Gate of Light

quiet!

Deadly quiet!

At this moment, watching the crystal sacred ball of the Chu clan's holy weapon fall into Ye Feng's hands, it seemed like a spiritual creature recognized its owner.

This shocking scene completely plunged the entire field into a dead silence.

No one could believe that the impossible happened.

Everyone's eyes were staring at the demon leader wearing dark gold armor, full of disbelief and disbelief.

At this time, the commander in dark gold armor became very mysterious and unfathomable in the eyes of everyone, including the eyes of many demon soldiers.

Ye Feng was holding the crystal holy ball at this time, feeling the power of the saint's energy contained in it, which was like a vast ocean.

He himself felt a little incredible in his heart.

Because Ye Feng originally just wanted to try it out to see if he could use the aura of the golden elixir to make the Chu tribe's saint's will feel fearful.

But the result was that he never expected that the will of the saint of the Chu tribe would kneel directly to him, and he also took the initiative to dissipate the will of the saint and give the crystal holy ball to himself.

Such humble actions and gestures made people feel that the saint seemed to be afraid of offending some taboo being.

This made Ye Feng feel more and more in his heart that the golden elixir that came with him three thousand years later, which his father had snatched from the sky, was definitely the most precious treasure among all the treasures.

Let the ancient saints revive and let the ancient saints bow their heads.

This is simply amazing.

Shang, the old demon dragon, screamed in horror in his mind: "Ye Feng, tell me the truth, where did you get this golden elixir in your mind?"

Ye Feng shook his head and said: "This golden elixir has existed since I was born."

What Ye Feng said was actually not a lie. After all, three thousand years after his rebirth, the golden elixir was still with him in his mind.

At this moment, Ye Feng swallowed the extremely precious crystal ball into his body

, warm and nourish in the sea of mana and spirit in one's Dantian.

This crystal holy ball is a defensive holy weapon that suppresses the clan. It rises and falls in the body. You can use the saint's energy to constantly warm your body and spirit, exorcise inner demons, and calm the thoughts of killing. It has a huge impact on future practice. benefit.

At this moment, Ye Feng didn't care about the desperate Chu people.

He just stared at the hundreds of people from seven or eight super wealthy families not far away, and said, "Am I qualified to cooperate with you now?"

"We can cooperate."

The water tribe was the first to stand up.

Granny Lan, the sealer of the water tribe, walked out tremblingly at this time and said: "Since the commander-in-chief holds a holy weapon and a half-step holy weapon in his hands, he is qualified to talk to us."

Although several other super wealthy families were reluctant, they had no choice at this time.

Because they knew that if their super clan did not compromise, the demon leader might really go crazy, and they would both lose.

This time everyone entered this holy area and went through countless hardships before finally reaching the final entrance.

Naturally, everyone didn't want anything to happen again. The leader of the Demon Clan was so powerful that it seemed impossible not to allow him to participate and get a share of the pie.

Ye Feng looked through the metal mask and stared at Granny Lan, the sealer of the water tribe in the distance. He smiled and said: "Those who know the current affairs are heroes."

Now that Ye Feng was disguised as the leader of the Demon Tribe, his voice had been deliberately changed, and naturally the people from the Water Tribe would not be able to recognize him.

"The leader of the demon clan."

Suddenly at this time, Shui Bingyan stepped out of the aquarium.

The princess of the water tribe stared at the figure wrapped in dark gold armor with her beautiful eyes. She thought for a moment and said, "I think you and I are a friend."

Very similar. "

Ye Feng's face hidden under the metal mask moved slightly, thinking that Shui Bingyan might have recognized him.

If you really rely on some behavior and words, you can tell that it is you who is in this armor.

It can only be said that Shui Bingyan's five senses are too powerful.

Ye Feng didn't say much. He would be misled if he spoke too much. He still needs the disguised identity of being the leader of the demon clan.

Otherwise, when the time comes, I will not be able to control thousands of demon soldiers, and my true identity will be discovered by the super clan, and I will not have the power to talk to many super clans on an equal footing.

At this time, Ye Feng just stared at Granny Lan and said: "My friend from the human race, just start and open the way into the ruins of the saints."

"good."

Granny Lan nodded.

Although she is very reluctant to share the treasures of the saints with the demons.

But now the demon leader himself is very powerful, coupled with the thousands of ferocious demon soldiers.

Such a force cannot be wiped out by their super wealthy clan.

Can only compromise.

"All the inheritors of the super clans, come to these statues of saints and drop a drop of your blood into the ancient lines on the ground."

Granny Lan spoke up and looked at the seven or eight super wealthy families behind her.

"good."

The inheritors of the super-rich clans all nodded.

Ye Feng's eyes moved at this time. It turned out that to open the last entrance to the ruins of the ancient saints, the blood of the inheritors of the major super clans was needed.

No wonder every time during the Hundred Dynasties War, entering the space of the saints in the saint-level area and looking for the inheritance and creation left by the saints were monopolized by these super wealthy families.

Because if you want to enter the final space of saints, you must have the bloodline of the inheritors of the major super clans.

Ye Feng now also understands why the foreign demons did not kill the people of the major super clans before, but instead kept them in captivity.

It seems that there are masters among the extraterrestrial evil spirits who know the secret of opening the last space of saints.

But what Ye Feng is a little strange about is why he doesn't seem to have encountered any very powerful demons until now.

Although he had this doubt in his heart, Ye Feng didn't think too much now.

"Zi la!"

At this time, Ye Feng threw the dead Chu Changsheng, the young master of the Chu clan, onto the ground. Chu Changsheng's blood immediately dripped onto the ground where the saint sculptures were engraved with ancient patterns.

"Buzz!"

And almost at that moment, all the blood of the inheritors of the major super clans dripped onto the ground.

The ancient lines on the ground, which were originally dull, suddenly lit up with dazzling lights. Each type of blood represented a kind of energy.

After all, the inheritors of the super-rich clan are all the inheritors of a certain saint in the past, and their blood contains strange power.

At this time, Ye Feng suddenly showed a hint of surprise in his eyes.

Because he saw that the many sculptures of saints standing on the ground at this time were actually resurrected!

They all pointed towards the sky, and a huge light door immediately appeared in the mid-air.

On the other side of the light door, there is an extremely sacred and ancient aura coming out.

"Behind that space portal is the Space of All Saints, let's go in quickly! Look for opportunities and good fortune!"

All the super-rich clans moved at this moment and rushed towards the light door.

"Follow me, go!"

At this time, Ye Feng suddenly stepped into the sky and flew towards the light door.

The thousands of demon soldiers behind him also had excited eyes and immediately followed Ye Feng into the sky.

Chapter 480 Holy Demon Cemetery

Uh-huh!

Uh-huh!

Uh-huh!

When the figures passed through the light door one by one, everyone immediately discovered that they had passed through the light door and came to a small world that was extremely peaceful.

In this small world, the vegetation is lush and full of vitality, and it seems that it is not as dangerous as everyone imagined.

"There is a medicine field in the distance!"

Suddenly I felt that at this time, a young prodigy from a super rich family exclaimed in surprise.

Everyone looked in that direction and immediately saw a colorful medicinal field with shining light.  
.??.

In this medicine field, there are many magical medicines that have never been seen by the outside world.

"Those are...the legendary three dragon roots!"

"And that little green tree, it seems to be the green blood tree recorded in ancient books, which is the holy medicine for healing."

Everyone rushed over and immediately saw that in the medicine field, there were all kinds of precious elixirs that were only recorded in ancient books.

"Grab it!"

At this moment, several young geniuses from super wealthy families rushed into the medicine field.

"return!"

But their elders shouted loudly.

But it's too late.

"boom!"

"boom!"

Almost at the moment when the young prodigies rushed into the medicine field, streaks of thunder suddenly appeared above the otherwise calm sky.

The thunderous dew as big as the mouth of a bowl struck down instantly, directly hitting the bodies of the young geniuses.

"ah!"

"ah!"

Accompanied by several screams, the young prodigies were covered in smoke and fell to the ground. Their bodies were scorched by electricity and they looked like they would not survive.

"There is an ancient killing array in the space around this medicine field. It seems calm and calm, but in fact

It is full of danger. "

"Let's go and search somewhere else."

At this time, many super wealthy people have left this place. They seem to have other plans and want to find other opportunities in this small world.

The people from the Shui Tribe also left, seemingly without any nostalgia for the medicine field.

Ye Feng's eyes were filled with a hint of thinking. It seemed that these super wealthy families still had other information in their hands. They must have a certain understanding of this small world of saints.

However, Ye Feng did not go with others, because he currently lacks the accumulation of knowledge, so he is still very fancy about the medicine field in front of him.

"The soil in this medicine field is very rare spiritual soil. If it can be taken out, it may be possible to continuously cultivate rare spiritual medicines."

Shang said aloud in Ye Feng's mind at this time.

Ye Feng nodded slightly, his eyes flickering, obviously thinking about how to take the medicine field away.

Thousands of demon soldiers stood behind Ye Feng, keeping quiet and not daring to ask any questions.

"It seems there is no other way but to force it through."

Ye Feng's eyes were fierce and he rushed into the medicine field in an instant.

"boom!"

High in the sky, a thunder beam as big as a bowl suddenly struck down.

However, Ye Feng was wearing Demon Lord armor at this time, and he directly withstood the thunder.

Boom!

The thunder had terrifying destructive power and impact, making Ye Feng almost fall to the ground unsteadily.

But in the end, the Demon Lord's armor was extremely powerful and was able to withstand the thunder.

Buzz!

Ye Feng instantly stretched out a hand and activated the Liuli Battle Body. His hand immediately expanded into a huge crystal hand in the void.

Wow!

But a large field of medicinal herbs was torn to pieces, and each elixir was grabbed out along with the soil by Ye Feng and put into the storage ring.

"Boom!"

At this time, another thunder beam struck down.

But Ye Feng had already rushed out of the medicine field and came outside.

"These elixirs may not be valued by the super wealthy, but they are huge wealth to me."

Ye Feng thought to himself as he led a group of demon soldiers towards a certain direction in the small world of the saints constructed by the saints.

At this time, Shang exuded powerful soul power in his mind, wanting to find the true legacy of the saints.

"Buzz!!"

And suddenly at this moment, an aura that made everyone in the entire small world feel extremely frightened suddenly emanated from a certain direction.

"Uh-huh!"

Ye Feng's eyes were startled and he immediately flew in that direction.

Because the frightening aura just now was very ancient, and only the saints could exude that kind of aura.

When Ye Feng arrived here, he discovered an ancient cemetery.

In the cemetery, there are tombstones, and what is written on the tombstones is the name of a saint who respects the ancients.

The most shocking thing is that there are black stone tablets next to the tombs of ancient saints.

These black stone tablets exude a strong demonic aura and are obviously the burial places of extremely powerful extraterrestrial demons.

"The cemetery of saints and demons, the cemetery of saints and demons!"

At this time, many people from super wealthy families also rushed over.

When they saw the scene on the field, their eyes showed deep horror.

Obviously no one thought that there were saints and powerful demons buried in this part of this small world.

It seems that there was an extremely tragic war that year. Many saints and demons died, but they were secretly buried here by someone unknown, and they were buried together.

"Holy Demon Cemetery! I didn't expect the legend to be true! Hahaha! I have finally found it!"

Suddenly at this moment, one of the thousands of demon soldiers behind Ye Feng burst out laughing.

Everyone looked over, even Ye Feng was no exception.

They saw that the laughing Demon Soldier's body suddenly began to swell, his bones and muscles were growing crazily, and in the blink of an eye he swelled into a Demon Lord who was more than ten meters tall!

"There is actually a demon lord hiding in this demon army, disguised as a small demon soldier?"

Everyone in the super wealthy clan was shocked.

Even Ye Feng was a little surprised, but he didn't expect that he had made a mistake.

Originally, he was still wondering why no powerful demons appeared to compete for the relics of the saints this time.

Unexpectedly, he was hiding among his own demon soldiers!

"The Holy Demon Cemetery, the miraculous place where the ancient saints and the ancient demons fought, contains endless luck, but now, all of it belongs to me."

At this time, the demon lord walked directly in front of Ye Feng and said calmly: "You, the commander-in-chief, are very courageous, and you actually helped me get to this point, but now that I don't pretend, you can Just retreat behind me, now everything is under my control."
