

## Ancient 4711

Chapter 4711 Act together

When Ye Feng entered the second passage, he continued to walk towards the end of the passage.

In this dark passage, Ye Feng couldn't help but think to himself that the underground tomb of the Netherworld Emperor was like a beehive, with one tomb connected to another.

These dense passages and tombs are like an underground maze and at the same time like an underground hive, giving people a very intricate feeling.

But now that he has come, Ye Feng will naturally not return easily. Instead, he will continue to search for other wealth and resources left over from ancient times in this tomb.

After all, this kind of huge tomb is not that common. It can be said to be very rare. Naturally, it is necessary to explore it carefully. This will bring more benefits than exploring some ancient ruins by yourself.

What's more, there might be a chance to get the real good things left by the legendary first person in the Ten Thousand Demons Interface, Netherworld Emperor, tens of thousands of years ago.

So Ye Feng became more and more interested in this tomb.

Although it may be full of weirdness and danger at any time, the rewards are also very great.

But at this time, Ye Feng had to sigh, the tomb of the Netherworld Emperor under the barren mountain was indeed dangerous, it was too big, and it was too weird.

Sometimes even I feel like my life is in crisis, let alone others in the team.

You know, it didn't take long for the whole team to enter the tomb under the barren mountain, but as far as Ye Feng knew, many people had already died.

First of all, six or seven of the powerful elite guards in the Tianxia Chamber of Commerce have died.

Then the heroic female swordsman in red who was in the team with a similar fighting ability to her own, now died tragically in the milky white pool of water in the tomb just now. The white-haired zombie used illusions to eat off her head and lost all her life. Essence, death is very miserable.

Therefore, Ye Feng feels that this tomb is indeed not something that ordinary people can explore. It is simply a place full of weirdness and danger.

at this time

At this moment, Ye Feng abandoned some distracting thoughts in his mind and continued walking towards the end of the passage.

Soon, Ye Feng arrived at the end of the passage.

But this time, what Ye Feng saw was not another tomb, but a huge underground cave.

This underground cave looks like it was formed naturally, and there are no traces of artificial construction.

At this time, Ye Feng was standing at the end of the passage, with a huge cave underneath appearing in his field of vision.

Uh-huh!

Ye Feng jumped down directly, wanting to see if there was anything good in this underground cave.

But when Ye Feng jumped down, he didn't find anything good. This was really like a natural cave.

Ye Feng saw a small flowing river on the other side of the cave. Ye Feng walked to the small flowing river and walked in the direction of the flowing river, heading towards the deeper area of the underground space.

Soon, Ye Feng came to the end of this small flowing river.

There was a cliff here, and this small flowing river formed a small waterfall, flowing downwards.

Ye Feng saw that the space under the waterfall seemed to go deeper into the ground, but Ye Feng saw that it was pitch black underneath and could not see exactly what kind of scene there was.

"Brother Ye Feng, is that you?"

Suddenly at this time, a surprising voice came from a certain direction not far away.

Ye Feng immediately looked in that direction, and immediately saw the Feng Shui master wearing Bagua robe who had joined the team at the beginning, and he happened to come out of a certain intersection in the cave.

At this moment, this Feng Shui master

His Bagua robe seemed to be torn apart by some very sharp claws, and his hair was still a little disheveled.

Ye Feng also saw that the peach wood sword carried on the back of the Feng Shui master was broken into several sections. It looked quite embarrassed, as if it was some terrible thing that he had encountered before.

Ye Feng looked at the Feng Shui master, nodded slightly, and said loudly, "It seems that senior is not doing well alone in this underground tomb."

The Feng Shui master immediately came to Ye Feng and couldn't help but said in surprise, "I can indeed rank among the top few in the Northern Territory in terms of Feng Shui, but this tomb is too weird. Sometimes Through the art of Feng Shui, there is no way to solve some problems. Strong combat power is still needed to pass through some dangerous places safely. It is great to meet you now, little brother Ye Feng. With the reputation of little brother Ye Feng, I have heard that in our entire Northern Territory, he is definitely considered to be the top genius, and he can also provoke the two overlord races in the wilderness without dying, and even escape back. This shows how little brother Ye Feng's combat effectiveness is. How powerful."

At this moment, this Feng Shui master simply blew Ye Feng to the sky. His attitude towards Ye Feng was completely different from when he first joined the team.

Ye Feng actually knew why, because when he first joined the team, everyone gathered together and there were many people who could help each other.

But now this Feng Shui master seems to have encountered something very terrible, and he has been separated from the entire team. His own strength is not very good, but the Feng Shui technique is very powerful, so he met a powerful fighter like Ye Feng. His companions now naturally want to hold Ye Feng firmly. In this case, he will naturally be much safer when he looks for good things in the next tomb.

Ye Feng knew very well at this time that this Feng Shui master probably wanted to go with him.

At this moment, before Ye Feng could say anything, the Feng Shui master immediately

After sorting out his clothes, he took out a brand new mahogany sword from his storage ring and carried it on his back.

The Feng Shui master looked at the ancient compass in his hand and said aloud, "Brother Ye Feng, this underground tomb is so weird and terrifying. I feel that it is not just the Nether Emperor who was buried here, but there may be others." There are other secrets, so it is best for the two of us to join forces now. My Feng Shui skills can solve many dangerous and weird things, and little brother Ye Feng, your powerful combat power can fight against those zombies that have been awakened. , or some powerful monsters, it will definitely be much better for the two of us to work together than to act alone in it. If we encounter any wealth, we can just share it equally. "

Hearing what the Feng Shui master in front of him said, Ye Feng thought for a moment, then nodded and said, "Okay."

In fact, this Feng Shui master does have two brushes. When he first entered this tomb, he helped everyone survive several dangers and learned a lot about the strange existence and things in the tomb.

And the most important thing is that Ye Feng feels a little disoriented in this underground tomb, because he can't tell the direction at all, and he doesn't know where the main cemetery where the owner of this tomb actually buried himself is.

So at this time, if Ye Feng had the help of this Feng Shui master, he could at least identify the direction and predict some dangers in the tombs that he did not understand.

At this moment, after hearing Ye Feng's promise to act together, the Feng Shui master immediately laughed happily. He quickly took the ancient compass in his hand, looked at the dark place under the flowing river and waterfall, and spoke. "According to the compass, the darkness under the waterfall seems to be the only way for us to find the tomb owner's tomb, so we can only bite the bullet and go down, hoping not to encounter it again." What's so dangerous? I've been to so many graves in so many years, and this is the first time I've encountered this difficult grave."Chapter 4712 Opened eyes

Hearing what the Feng Shui master said at this moment, Ye Feng immediately nodded and said, "Then let's go down directly."

Uh-huh!

After saying that, Ye Feng jumped directly into the darkness under the cliff.

Although I don't know what's underneath, there is no way ahead now, so I can only jump off the cliff to see what's underneath.

At this time, seeing Ye Feng jumping down, the Feng Shui master quickly followed Ye Feng and jumped down.

At this moment, the two of them were falling rapidly from high in the sky.

However, just in case, Ye Feng still used the defensive inheritance he had just learned before, the Qinglong Body Protection Technique.

Buzz!

At this moment, a giant cyan dragon was condensed by Ye Feng's power and turned into a giant cyan dragon composed entirely of light, surrounding Ye Feng and the Feng Shui master.

At this time, looking at the huge cyan dragon spinning around, the Feng Shui master immediately breathed a sigh of relief.

He knew that he had met Ye Feng, which could be said to be his savior.

Because the Feng Shui master's own cultivation strength is still very weak, but Ye Feng has extremely powerful strength.

Therefore, the Feng Shui master and Ye Feng were exploring this strange ancient tomb at this time, and they immediately felt a lot safer.

At this moment, the Feng Shui master seemed to have thought of something, and immediately couldn't help but said, "By the way, little brother Ye Feng, the female swordsman in red who joined our team, I want to remind you, beware of her. , this red-clothed swordsman Li is not from our northern region, it seems to be from the Southern Barbarians, maybe a practitioner in the Southern Barbarian Empire. As the saying goes, if you are not of my race, your heart must be different, so this female swordsman in red is from In the southern barbarian land, she may have her own selfish motives and purposes, so be careful with her. "

When Ye Feng heard the Feng Shui master say this, his eyes immediately revealed

A look of surprise.

Unexpectedly, the female swordsman in red came from the southern barbarian land. No wonder she felt different from the others.

But at this time, Ye Feng smiled and said, "There's nothing more to say about this, because I just found the body of the female swordsman in red in a tomb. She was eaten by a white-haired zombie." He lost his head and died tragically in a pool of water."

"What?"

Hearing what Ye Feng said, the Feng Shui master immediately showed a look of astonishment in his eyes, and then couldn't help but said, "This female swordsman in red from the southern barbarian land is not just a swordsman on the surface. It's so simple. She seems to possess a very special ancient witchcraft from the Southern Barbarians. Did she die so easily?"

At this time, the Feng Shui master still had some doubts in his heart, but since Ye Feng had seen it with his own eyes, he could only say that the female swordsman in red was really unlucky. She had not yet gone deep into this ancient tomb, and was directly in the outer area of this ancient tomb. He died in the tomb.

At this moment, the Feng Shui master didn't say anything more, but concentrated on following Ye Feng's side, quickly falling.

Soon, they finally landed on the ground under the cliff.

At this time, the surroundings were pitch black.

Ye Feng immediately had a ball of fire appear in his palm and threw it forward.

As Ye Feng threw the fire ball, the entire ground under the cliff and the surrounding scene were suddenly illuminated.

The next moment, Ye Feng and the Feng Shui master couldn't help but gasped.

On the ground under the cliff, there was a person's head buried in the ground.

Each head looked stiff and completely shriveled, as if it had been buried here for a long time.

Thousands of human heads were buried on the ground. It looked like pustules growing on the ground, giving people a very weird and disgusting feeling.

At this moment, when the Feng Shui master saw this scene, he couldn't help but gasped and said, "This is actually a grave with human heads."

"A grave with human heads?"

Ye Feng looked at the thousands of heads buried on the ground, and immediately couldn't help but asked in surprise, "What's the significance of this?"

The Feng Shui master immediately nodded and said, "In ancient tombs, it is said that the presence of human head graves in the tombs means that the tomb is a tomb that has been cursed by nature, and may have something to do with the underworld. The more heads there are in the Tomb of Human Heads, the stronger the curse. There are thousands of heads buried here, which shows that this ancient tomb is under a huge curse. "

When it came to this point, the Feng Shui master even wanted to retreat.

But thinking that in this ancient tomb, the Netherworld Emperor, the first legendary person in the interface of ten thousand monsters since ancient times, was buried, the Feng Shui master had no choice but to go on.

At this moment, Ye Feng nodded and walked slowly among the human head graves with the Feng Shui master.

The Feng Shui master looked at the ancient compass in his hand, discerned the direction, and wanted to leave this land of human head graves as soon as possible because it was too weird.

Ye Feng seemed to have thought of something at this time, and immediately couldn't help but asked, "By the way, I want to ask, do you know that young brother who is silent and carries the golden ancient sword on his back?"

When the Feng Shui master heard Ye Feng's question, his eyes seemed to show surprise.

With a look on his face, he said loudly, "Yes, but we can't say we know each other. It's just that I have met that little brother several times before when I went to the tomb. That little brother has the ability to explore graves, but he is extremely powerful and can be used in dangerous situations." It's easy to navigate among the incomparable tombs."

When Ye Feng heard what the Feng Shui master said, he nodded and said, "I always feel that this little brother carrying a golden ancient sword entered the ancient tomb of the Netherworld Emperor, not only to search for wealth, but also to Our purposes seem to be different, and I always feel that he is familiar with everything."

Hearing what Ye Feng said, the Feng Shui master showed a look of horror in his eyes, and then he couldn't help but said, "The little brother carrying the golden ancient sword is indeed very mysterious. He has a very high reputation in the tomb industry. But no one knows where he comes from. Ye Feng, you said he knows the tomb of the Nether Emperor very well. Could it be that he

has been to this tomb before? But if he has entered this tomb once, why did he follow us again? the second time?"

Hearing what the Feng Shui master said, Ye Feng immediately shook his head and said, "I don't know this either. I'm just talking. Anyway, all this has nothing to do with me. I just want to be here." Search for the treasures left by the Netherworld Emperor in the ancient tombs."

Hearing what Ye Feng said, the Feng Shui master immediately smiled and said, "As long as the two of us unite, there will be no problem."

And just when the Feng Shui master said that, Ye Feng suddenly seemed to have discovered something, and immediately couldn't help but said, "Look, these heads have opened their eyes."

"What??"

Hearing what Ye Feng said, the Feng Shui master was immediately startled. He looked around and saw that the heads buried on the dark earth opened their eyes one by one. Exuding a faint green light, the scene was simply weird to the extreme.

Chapter 4713 Main Tomb Chamber

"Oops!"

Seeing this scene at this moment, the Feng Shui master's eyes suddenly showed a look of horror. He quickly pulled Ye Feng and ran away, saying loudly, "This human head grave should have been awakened by the blood energy of our two outsiders." Yes, these heads must have been extremely vicious beings before their heads were chopped off and buried on this ground. So if they wake up, they will turn into vicious beings, and we will be very dangerous by then. "

Hearing what the Feng Shui master said, Ye Feng immediately nodded.

There are indeed a lot of weird things under this ancient tomb, so it's better to leave as soon as possible.

However, Ye Feng and the Feng Shui master were still a little slower after all. Before they could completely leave the grave of human heads, they saw that the human head on the ground suddenly flew up from the ground.

Everyone opened their eyes, with green light emitting from their eyes, and flew quickly towards Ye Feng and the Feng Shui master.

In the process of flying away, these heads all had their mouths open, and their mouths were filled with dense black teeth. They looked very scary and were about to swallow Ye Feng and the Feng Shui master.

boom! !

At this moment, Ye Feng directly exploded with the power of his immortal body, and his golden fists glowed with bright golden light, blasting towards the surroundings.

Boom!

The power of Ye Feng's fists was very terrifying, but when it hit these strange heads, it was unable to smash them into pieces, causing Ye Feng to take several steps back.

Seeing this scene, Ye Feng's eyes suddenly showed deep astonishment. He didn't expect these heads to be so powerful.

At this moment, the Feng Shui master hurriedly said, "These heads are not ordinary heads, but heads that have been cursed by a strange curse, so their power is very terrifying."

Terror, supported by the mysterious power of curse, we practitioners have no way to resist, so we should run away quickly. "

Ye Feng couldn't fight against these heads at this time, so he nodded immediately.

Mainly, it doesn't make much sense to deal with these heads. There is no zombie core in these heads. After all the effort to kill them, there is no reward. Ye Feng naturally chooses to stay away from here instead of doing a thankless thing.

"boom!"

At this moment, Ye Feng used the Green Dragon Body Protection Technique. A huge blue dragon, composed of light, directly surrounded Ye Feng and the Feng Shui master.

When those heads rushed in front of the two of them, the giant cyan dragon would vibrate its entire body crazily, shaking the heads so that they could not get close to Ye Feng and the Feng Shui master.

Seeing this scene, the Feng Shui master's eyes immediately lit up, and he immediately felt that he was right to follow Ye Feng. Otherwise, if he fell into the grave of human heads under the cliff, he would probably not be able to survive at all. Unable to fight.

At this moment, the Feng Shui master looked at the property in his hand, quickly identified the location, and rushed with Ye Feng towards the direction outside the human head grave.

Soon, they finally arrived at the end of the human-head tomb and finally broke out of the human-head tomb.

At this moment, the flying human heads in the human-head graveyard seemed to be fixed in this fixed area. Therefore, after Ye Feng and the Feng Shui master left the area of the human-headed graveyard, there were no heads to attack them immediately.

Ye Feng also dispersed the Qinglong Body Protection Technique at this moment.

At this time, Ye Feng's face was a little pale. After all, running the Green Dragon Body Protection Technique and condensing a huge green dragon still consumed a lot of power, let alone resisting the attack of thousands of heads.

At this moment, Ye Feng looked around and found that they had left the area of the Human Head Tomb and came to the entrance of a narrow passage.

At this time, the Feng Shui master said, "Let's leave here directly through this passage."

Ye Feng nodded, and he and the Feng Shui master walked directly into the passage and walked quickly towards the other end of the passage.

When they passed through the entire passage, they immediately saw a quite shocking scene.

At the end of the passage, there was a huge underground tomb.

This tomb is different from the previous tombs with accompanying burials.

The tombs for burials are all very small, but this tomb is extremely huge, and it looks like it was built into an underground palace.

At this time, in this huge underground tomb, there is a huge bronze tree in the middle.

On top of the bronze tree, there is a coffin.

This coffin is very large, and there are many ancient symbols carved on the surrounding walls.

These symbols are like the symbols of the underworld, giving people a very strange feeling.

Seeing this scene at this time, the Feng Shui master couldn't help but said in surprise, "Could this be the tomb of the tomb owner? Could it be that the coffin on the bronze tree is the body of the Netherworld Emperor?"

Hearing what the Feng Shui master said, Ye Feng had a look of surprise in his eyes. He didn't expect that they would arrive at the main tomb so quickly.

?

However, Ye Feng looked at the entire huge tomb and found that it was very grand. It is very likely that the coffin hanging on the bronze tree was the coffin in which Emperor Netherworld was buried.

At this moment, Ye Feng nodded and said, "Just go and take a look and you will know."

The Feng Shui master also nodded. After all, the two of them could not help but want to find out who was lying in the coffin and whether it was the Netherworld Emperor. If so, then the two of them would be rich.

At this time, Ye Feng and the Feng Shui master immediately flew quickly towards the coffin hanging on the top of the bronze tree in front.

But just when they were about to approach the huge coffin, suddenly bronze chains rushed out from the entire underground tomb wall.

These bronze chains were like ancient snakes, quickly circling in the direction of Ye Feng and the Feng Shui master, trying to bind them all.

At this time, the Feng Shui master immediately took out a Bagua mirror from his storage ring.

This Bagua Mirror turned around and quickly attacked the bronze chains that were rushing around it. It quickly bombarded in an attempt to resist the bronze chains that were rushing towards it.

At this time, Ye Feng also pulled out the black broken sword he was carrying on his back, and then the power of gods and demons suddenly burst out from the black broken sword.

A golden light group and a pitch black light group surrounded the sword body, also frantically attacking the attacks from the surrounding bronze chains.

At this time, the two of them looked at each other, with excitement in their eyes. They became more and more certain that the huge coffin hanging on the bronze tree, lying inside, must be the body of the Netherworld Emperor!

Chapter 4714 In Crisis

Boom!

At this time, the bronze chains emerging from the surrounding walls possessed very terrifying power.

Even the swords in the hands of Feng Shui Master and Ye Feng were somewhat irresistible.

The Bagua Mirror released by the Feng Shui master is definitely not as powerful as the black broken sword in Ye Feng's hand. After all, the black broken sword in Ye Feng's hand contains the power of ancient gods and demons.

But Ye Feng was a little unable to resist at this time.

After all, more and more bronze chains emerged from the wall, like giant blue snakes, attacking the two of them crazily, preventing them from getting close to the coffin hanging on the bronze tree.

At this time, Ye Feng couldn't bear it anymore and directly released the bloodline talent that he had awakened when his Immortal Body entered the fourth stage, the space wormhole.

At this moment, a space wormhole suddenly appeared in front of Ye Feng. Ye Feng pulled the Feng Shui master into the space wormhole.

Buzz! .??.

When they came out the next moment, they had already crossed a large space and arrived in front of the bronze coffin.

At this time, Ye Feng did not hesitate. He took the black broken sword in his hand and directly pried open the bronze coffin.

Boom!

The bronze coffin was not as difficult to pry open as expected. When Ye Feng pried it open, he saw a shocking scene.

Lying inside this bronze coffin was not the body of the Netherworld Emperor, but the body of a woman who looked extremely beautiful.

Moreover, the body was still very fresh, as if it had just been laid down.

But Ye Feng knew that tens of thousands of years had passed in this underground ancient tomb, so Ye Feng was very surprised at this time. He couldn't help but look at the Feng Shui master beside him, and said speechlessly, "Didn't you say that this should be the place?" The main tomb, where the Netherworld Emperor is buried? Why is there a woman lying in the coffin? Could it be that the Netherworld Emperor is a woman? "

When the Feng Shui master heard what Ye Feng said, his eyes were stunned for a moment, and then he said, "Maybe it's possible. After all, no one knows whether the Netherworld Emperor is a male or a female. They only know that he is the Ten Thousand Demons from tens of thousands of years ago." The person with the strongest interface might actually be a woman."

Hearing what the Feng Shui master said, Ye Feng's eyes were also filled with astonishment.

Ye Feng looked at the lifelike body of a woman in the coffin and couldn't help but said in astonishment, "Is this really the Netherworld Emperor?"

After saying that, Ye Feng squatted down slightly, wanting to see if there were any other good things in the coffin besides the corpse, such as the Netherworld Emperor's natal magic weapon.

Shen Lan from the Tianxia Chamber of Commerce also said before that these three powerful magic weapons were the most precious things left behind by the Emperor Netherworld after his death.

They are the "Netherworld Jade Seal" that can command the army of the undead, the "Six Paths of Reincarnation Diagram", the natal magic weapon of the Netherworld Emperor, and the most precious core essence "Netherworld Inner Elixir" cultivated by the Netherworld Emperor.

But at this time, Ye Feng fumbled for a while and didn't find any other good things in the coffin.

This made Ye Feng's eyes suddenly reveal a hint of astonishment.

He said aloud, "It seems we are on the wrong track."

At this time, the Feng Shui master couldn't help but said, "It seems that this is not the body of the Netherworld Emperor. This tomb is built with such grandeur and grandeur. Logically speaking, it should be the main tomb of the Netherworld Emperor. It's really strange."

At this time, Ye Feng was staring at the lifelike figure of the beautiful woman in the coffin, and couldn't help but said, "Even if this beautiful woman is not the Netherworld Emperor, I'm afraid she had a very good relationship with the Netherworld Emperor back then. Otherwise, , it is impossible to be buried here alone, and the body is still so intact. "

When he said this, Ye Feng was about to close the lid of the coffin. After all, this beautiful woman did not have any energy fluctuations in her body, and there was nothing good in it. Ye Feng thought it was better to let her lie down quietly. It's better inside the coffin.

At this time, the Feng Shui master looked around and said, "Even if this is not the main tomb in the tomb of Emperor Netherworld, it is probably not far from the main tomb. After all, the woman in the coffin was buried according to such high standards." Here, it shows that it is not too far away from the main tomb. Only those who are closer and more valued will be closer to the main tomb. "

Hearing what the Feng Shui master said, Ye Feng thought it was possible.

But at this time, before the lid of Ye Feng's coffin was closed, suddenly the beautiful woman in the coffin suddenly opened her eyes, and her eyes were actually emitting red light.

Seeing this scene, Ye Feng and the Feng Shui master were stunned.

But the next moment, Ye Feng hurriedly said, "Close your eyes quickly, don't look!"

At this time, Ye Feng suddenly remembered that the white-haired zombie he had encountered before. Maybe this beautiful woman and the white-haired zombie were capable of terrible illusions.

At this time, the Feng Shui master was already too late. He had already been attracted and immediately put his head in front of the coffin.

The next moment, before Ye Feng could even react, the head of the Feng Shui master who was close to the coffin was chewed off by the beautiful woman lying in the coffin.

Before the Feng Shui master could even let out a scream, he turned into a headless corpse and fell from the sky.

"Depend on!"

Seeing this scene and seeing the beautiful woman with blood on her mouth, Ye Feng felt extremely weird and disgusting. He quickly held the black broken sword in his hand and slashed towards the coffin.

Boom!

But the next moment, what made Ye Feng's eyes look astonished was that this beautiful woman stretched out a white jade-like palm and directly grabbed her black broken sword.

At this moment, Ye Feng immediately activated the power of gods and demons in the black broken sword. A ball of golden light and a ball of black light suddenly burst out from the sword body, directly shaking the palm of this beautiful woman away. .

Then Ye Feng held the black broken sword and quickly retreated.

But at this time, the countless bronze chains behind Ye Feng were almost rushing to Ye Feng's front.

There was also the terrifyingly beautiful woman in the coffin in front of her. Her eyes were glowing red. She sat up from the coffin and stared at Ye Feng.

It can be said that Ye Feng is now under attack from both sides and is in a huge crisis in an instant.  
Boom!

At this time, the bronze chains emerging from the surrounding walls possessed very terrifying power.

Even the swords in the hands of Feng Shui Master and Ye Feng were somewhat irresistible.

The Bagua Mirror released by the Feng Shui master is definitely not as powerful as the black broken sword in Ye Feng's hand. After all, the black broken sword in Ye Feng's hand contains the power of ancient gods and demons.

Boom!

But the next moment, what made Ye Feng's eyes look astonished was that this beautiful woman stretched out a white jade-like palm and directly grabbed her black broken sword.

At this moment, Ye Feng immediately activated the power of gods and demons in the black broken sword. A ball of golden light and a ball of black light suddenly burst out from the sword body, directly shaking the palm of this beautiful woman away. .

Then Ye Feng held the black broken sword and quickly retreated.

But at this time, the countless bronze chains behind Ye Feng were almost rushing to Ye Feng's front.

There was also the terrifyingly beautiful woman in the coffin in front of her. Her eyes were glowing red. She sat up from the coffin and stared at Ye Feng.

It can be said that Ye Feng is now under attack from both sides and is in a huge crisis in an instant.

Chapter 4715 Mechanism

At this moment, Ye Feng didn't hesitate at all and just fully activated the power of his immortal body.

At this moment, Ye Feng fully activated his Celestial Clan bloodline, and his entire body immediately began to expand rapidly, and he immediately turned into a majestic golden giant several hundred meters tall.

when! when! when!

At this moment, the bronze chain directly attacked Ye Feng's body, but was unable to penetrate Ye Feng's body.

The beautiful woman with red eyes who sat up in the coffin in front did not attack Ye Feng at this time, but she lay down directly, lay back in the coffin, and closed her eyes.

Seeing this scene, Ye Feng suddenly had a look of astonishment in his eyes.

Then Ye Feng withstood the attacks of countless bronze chains and came to the coffin again. He looked at this beautiful woman lying in the coffin with a look of surprise in his eyes.

Ye Feng had actually checked it with his spiritual mind before. There was no energy fluctuation in this beautiful woman. In other words, this beautiful woman was not a zombie, but the red light emanating from her eyes could indeed instantly Draw people into the illusion.

So at this time, Ye Feng felt very strange.

And just when Ye Feng approached this beautiful woman, the beautiful woman sat up again, her eyes glowing red.

Seeing this scene, Ye Feng immediately understood that this was like a mechanic's behavior.

It's not that this beautiful woman is alive, but that this beautiful woman is like a puppet, like a set mechanism. As long as someone approaches her, she will sit up directly from the coffin, and then Inducing someone to come over and chewing off the other person's head.

At this moment, Ye Feng closed his eyes. If he didn't look at the red light in this beautiful woman's eyes, he wouldn't be tempted.

Then Ye Feng stretched out directly

He took out a golden palm and groped carefully, and suddenly he touched the place where the beautiful woman lay in the coffin, and there was a mechanism.

It was this mechanism that supported the beautiful woman to sit up.

Ye Feng immediately understood that this was just a mechanism to scare people.

At this moment, the institution guarded by this beautiful woman must have some other purpose.

Ye Feng immediately pressed the mechanism inside the coffin.

Boom!

Almost the moment Ye Feng pressed the mechanism, a passage leading deeper appeared directly under the coffin.

Seeing this scene, Ye Feng's eyes immediately lit up.

Is this tomb really the main tomb?

It's just that the real burial place of the Netherworld Emperor is not on the surface of the main tomb, but deeper in the passage leading to the coffin.

Ye Feng didn't hesitate at this time. He directly restored his body size, then jumped directly into the passage under the coffin.

I have to say that this design is still very confusing, because no one would have thought that the real main tomb chamber is actually inside.

But if you want to find the burial place of the Nether Emperor, you need to find the mechanism inside the coffin.

At this moment, Ye Feng jumped into the passage inside the coffin and was falling rapidly.

Finally, when Ye Feng fell to the ground, he discovered that underneath the coffin passage led to another even more magnificent and huge tomb.

At this time, Ye Feng saw the whole thing. Countless ancient totems were carved on the surrounding walls, which seemed to symbolize extraordinary significance.

In addition, Ye Feng also saw that in a huge square at the top of this huge tomb, a total of eighteen golden dragon carvings appeared, surrounding a huge bronze coffin.

Ye Feng's eyes immediately showed surprise.

This bronze coffin should be the real coffin of Emperor Netherworld. .??.

At this moment, Ye Feng immediately walked towards the coffin in front of him.

But suddenly at this time.

Boom!

Ye Feng was shocked to discover that the huge bronze coffin and the eighteen golden dragon carvings around it seemed to come alive. They burst out of the ground and attacked Ye Feng with their teeth and claws.

Seeing this scene, Ye Feng immediately showed deep surprise in his eyes.

Ye Feng originally thought that these eighteen golden dragons were sculptures, but now they seem to be machine puppets still in the soil. They are puppets in the shape of a giant dragon. They seem to be made of special magical iron. They are very of strength.

At this moment, a total of eighteen golden dragon puppets were attacking Ye Feng, possessing extremely ferocious destructive power.

Without any hesitation, Ye Feng directly held the black broken sword in his hand and inspired the divine and demonic power in the black broken sword.

Then a ball of golden light and a ball of black light surrounded Ye Feng's sword body, and Ye Feng fiercely attacked forward.

Boom! !

At this moment, a sword light that penetrated the sky and the earth suddenly and fiercely slashed forward, directly attacking the person who was the first to rush.

A giant golden dragon puppet that came over was blown away by the bombardment.

However, what surprised Ye Feng was that his most powerful sword did not cut the golden dragon puppet directly in half, and did not even leave a trace.

This made Ye Feng's eyes suddenly reveal a look of deep surprise.

These golden dragon puppets are really strong, and they don't know what materials they are made of. They are actually able to withstand the black broken sword that contains the power of gods and demons in their hands.

At this moment, the other seventeen golden dragon puppets had already attacked in front of him.

The golden dragon puppet that was blown away by him got up again and attacked Ye Feng crazily.

Ye Feng did not hesitate at this moment and directly released the ancient coiled dragon clone that he had obtained before.

Boom! !

At this moment, a majestic ancient coiled dragon measuring tens of thousands of meters flew out directly from Ye Feng's storage ring, and then collided with the eighteen golden dragon puppets in an instant.

A huge roar suddenly sounded throughout the huge tomb chamber.

At this moment, Ye Feng also activated the Qinglong Body Protection Technique in an instant.

A huge cyan dragon appeared around Ye Feng, guarding Ye Feng.

Then Ye Feng burst out with the Nine Saints Fist Technique crazily.

Buzz! Buzz! Buzz...

A total of nine towering phantoms of saints appeared behind Ye Feng, giving Ye Feng strength.

At this moment, Ye Feng and the ancient Coiling Dragon clones were fighting crazily with a total of eighteen golden dragon puppets, and the scene suddenly became extremely chaotic.

Chapter 4716 disappeared

At this moment, the entire main tomb was in chaos, with terrifying battle fluctuations everywhere.

At this time, Ye Feng united with his Coiling Dragon clone and collided crazily with the eighteen golden dragon puppets, causing extremely terrifying fluctuations.

However, Ye Feng discovered that the various energy fluctuations generated by his battle were unable to destroy even a single bit of the main tomb chamber.

There are no traces left even on the ground, including the walls.

This made Ye Feng's eyes suddenly show a look of horror. What a solid material this was to be able to cast such an extremely strong main tomb chamber.

You must know that his current cultivation strength is considered very powerful, but even so, the power he generates cannot destroy the main tomb chamber at all.

At this time, Ye Feng suddenly understood. It is estimated that there is no point in fighting these eighteen golden dragon puppets between himself and the ancient coiled dragon, because he has no way to destroy these eighteen golden dragons. puppet.

However, Ye Feng also knew that if he used the Sword of God, he might be able to destroy it, but Ye Feng was a little reluctant to let it go.

Because the black broken sword contained in his own divine and demonic power was unable to destroy these eighteen golden dragon puppets.

Therefore, Ye Feng felt that if he could find a way to control these eighteen golden dragon puppets, then he would have received a huge help, even more powerful than his ancient coiled dragon clone.

At this time, Ye Feng did not hesitate at all, and immediately released his soul power, trying to find the weaknesses of these eighteen golden dragon puppets.

Because Ye Feng knew very well that in direct confrontation now, it was estimated that he would not be able to kill these eighteen golden dragons instantly, so he might as well look for the weaknesses of these eighteen golden dragon puppets.

If you can use it for yourself, it will be a huge gain.

However, Ye Feng silently discovered that his soul power was used to explore every inch of the bodies of these eighteen golden dragon puppets, but he could not find any traces of these eighteen golden dragon puppets.

Have any weaknesses.

Ye Feng felt that this kind of golden dragon puppet must have a place to install energy crystals, so that these eighteen golden dragon puppets can burst out with such powerful power.

But Ye Feng discovered that these eighteen golden dragon puppets were like complete bodies, and there was no place where energy crystals could be placed.

This made Ye Feng couldn't help but wonder, are these really the puppets of the eighteen golden dragons?

It looks like a real living creature with eighteen golden dragons.

At this time, Ye Feng was thinking of a way quickly.

"correct!"

Suddenly Ye Feng seemed to have thought of something, and took out a golden key from his storage ring with some uncertainty.

This golden key was exactly what Ye Feng had snatched from the coffin in a certain tomb.

At first, Ye Feng didn't think this golden key was of any use, so he casually put it into his storage ring.

But now Ye Feng suddenly thought that the material of this golden key and the material of these eighteen golden dragon puppets seemed to be exactly the same, and maybe there was some connection between them.

So at this time, Ye Feng directly took out the golden key he had obtained before.

And the moment Ye Feng took out the golden key, the eighteen golden dragon puppets that had been frantically attacking Ye Feng and Panlong clones suddenly stopped.

They stood in front of Ye Feng and stopped moving.

At this time, Ye Feng discovered that the golden key in his hand was emitting a special golden light at this moment.

Then with a burst of energy fluctuations, Ye Feng discovered a total of eighteen golden dragons.

The puppets all stood together and lined up in front of him.

And Ye Feng could feel that there was a certain fit between his mental power and the golden key in his hand.

Then Ye Feng can control these eighteen golden dragon puppets through this golden key.

This discovery made Ye Feng's eyes suddenly reveal a look of surprise.

Unexpectedly, the golden key he accidentally obtained could command the eighteen golden dragon puppets guarding the bronze coffin in the final main tomb.

At this moment, Ye Feng's face immediately showed a deep look of joy.

This time I really gained a lot!

You must know that these eighteen golden dragon puppets can withstand the black broken sword that contains the power of gods and demons in his hand.

This shows how terrifying these eighteen golden dragon puppets are.

But now, everyone is listening to Ye Feng's orders.

At this time, Ye Feng tried his own thoughts and radiated them through the golden key in his hand.

The next moment, these eighteen golden dragons knelt on one knee in front of Ye Feng, making Ye Feng's eyes immediately reveal deep excitement.

You know, each of these eighteen golden dragon puppets is equivalent to an ancient coiled dragon clone of Ye Feng.

So Ye Feng got a total of eighteen golden dragon puppet clones all at once, and they were all puppets that knew no pain and were not afraid of death. The materials they made were also very strong, and they didn't even need to install energy crystals. It can directly explode with extremely powerful power.

At this moment, Ye Feng temporarily stored these eighteen golden dragon puppets in his storage ring.

Then Ye Feng walked step by step towards the bronze coffin on the top square of the main tomb.

When Ye Feng walked in front of the huge bronze coffin, he suddenly sensed an aura of eternal vicissitudes.

It was as if what this bronze coffin contained was not a corpse, but a period of eternity.

At this time, Ye Feng didn't hesitate at all. He stretched out his hand and slowly pushed the coffin lid open.

"this....."

But the next moment, Ye Feng saw a shocked scene.

I saw that this huge bronze coffin was completely empty.

The imagined corpse of the Netherworld Emperor was not among them, and seemed to have disappeared.

"Um?"

Seeing this scene, Ye Feng's eyes suddenly revealed a look of deep astonishment.

Ye Feng originally imagined that the bronze coffin contained the body of the Netherworld Emperor and contained three extremely precious things left by the Netherworld Emperor, but he did not expect that it turned out to be empty.

Could it be that the Netherworld Emperor was resurrected?

Or maybe someone has come here in advance and stolen the body and treasures of the Netherworld Emperor?

Ye Feng suddenly thought of the mysterious little brother who was carrying a golden ancient sword. He seemed to be very familiar with the tomb under the barren mountain.

Could it be that he came here in advance and took away all the corpse and treasures of the Netherworld Emperor?

But if that young brother really came here in advance, it would be impossible not to disturb the eighteen golden dragon puppets lying around the bronze coffin.

When Ye Feng came here, he discovered that the eighteen golden dragon puppets were lying intact around the bronze coffin without any trace of fighting.

So this made Ye Feng very confused. It was impossible for anyone to come here in advance.

Then there is only one possibility left...

The Netherworld Emperor is still alive!

At this moment, Ye Feng looked around at the empty main tomb chamber, with a look of deep panic in his eyes.

Chapter 4717 Delicate Balance

Could the Nether Emperor still be alive?

At this moment, Ye Feng had such thoughts in his heart, and he could no longer restrain himself.

At this time, Ye Feng immediately looked around the entire main tomb chamber, trying to find any trace that the Netherworld Emperor might still be alive.

After all, only the Netherworld Emperor himself is still alive and can not be in the coffin.

Ye Feng thinks this possibility is very high.

After all, the Netherworld Emperor was the most legendary person in the Ten Thousand Monsters interface back then, so it was impossible for him to die so easily.

Although the Netherworld Emperor seemed to have encountered an inexplicable curse in the end in order to find the secret of eternal life, so his strength declined and he was killed by the leaders of the three top powers in Zhongzhou.

But Ye Feng felt that the Netherworld Emperor was after all the most powerful and legendary figure in the entire Ten Thousand Demons interface since ancient times. It should not be so tragic that he was directly killed by the three superpowers.

So at this time, Ye Feng felt that maybe the Nether Emperor wanted to resurrect himself in this tomb in some very weird way.

After all, there were too many weird things in this entire tomb, so Ye Feng felt that maybe the Netherworld Emperor had used some very weird means to create such a weird underground tomb for himself, thereby resurrecting himself.

However, while Ye Feng was thinking in his heart, he did not notice anything unusual around him, nor did he find any living beings in the main tomb chamber.

This made Ye Feng feel very strange.

However, Ye Feng was still prepared to search the bronze coffin carefully.

Ye Feng suddenly found a small round bead in the innermost part of the bronze coffin.

This small round bead was only the size of Ye Feng's fist, but it gave Ye Feng the feeling of being like a scourge, very scary.

This small round bead exudes a dark light, giving people a sense of evil and eternal vicissitudes.

At this time, Ye Feng's eyes suddenly showed a look of surprise. He stretched out his hand and grabbed the ball in his hand, wanting to carefully explore what it was.

But just when Ye Feng grabbed this round bead,

moment.

boom! !

Inside this round bead, a terrifying power immediately erupted.

Uh-huh!

At this moment, the ball burrowed into Ye Feng's chest and flew quickly towards Ye Feng's heart.

At this moment, Ye Feng's expression immediately changed, and he couldn't help but said in horror, "Could this round bead be the Netherworld inner elixir of Netherworld Emperor? If Netherworld Emperor is not in this coffin, it's not that he has been resurrected, but He has completely died in this coffin, and his body has turned into nothingness and disintegrated, leaving only the most essence of the Netherworld Alchemy."

At this moment, Ye Feng immediately felt a huge danger.

This netherworld inner elixir rushed towards his heart quickly, as if it wanted to occupy his heart and core position.

And just when the Netherworld inner elixir came to Ye Feng's heart, lines composed of black energy suddenly appeared in the entire Netherworld inner elixir, just like black meridians growing out of the Netherworld inner elixir. From the core of Ye Feng's heart, it covers Ye Feng's entire body, seeming to want to transform Ye Feng into some inexplicable existence.

Ye Feng immediately understood that this Netherworld inner elixir wanted to transform his entire being into the state of the Netherworld Emperor back then.

This is the resurrection method that the Netherworld Emperor finally left behind!

That is to take over the body of Ye Feng, a latecomer, and use the Nether Alchemy, the most essential thing left by the Nether Emperor, to transform Ye Feng into the Nether Emperor and resurrect him.

At this time, Ye Feng immediately said in his mind, "Emperor Chu, what should I do now?"

At this moment, Ye Feng's own strength could no longer suppress the Netherworld inner elixir that suddenly flew into his body, because it contained the power of the Netherworld Emperor.

The Netherworld Emperor was the most terrifying figure in the world of monsters back then. He even found the secret of eternal life. If he hadn't been cursed by an inexplicable curse, he would have been unified.

He has conquered the entire Ten Thousand Demons Interface, and can even become the master-level existence of the entire Ten Thousand Demons Interface.

So at this time, Ye Feng was naturally relying on his own strength, and was still unable to suppress the Netherworld Emperor's Netherworld inner elixir.

After all, this is one of the three greatest treasures left by the Netherworld Emperor.

At this time, Ye Feng immediately started asking for help from Emperor Chu in his mind.

Emperor Chu was also awakened by Ye Feng's voice at this moment, and immediately woke up from his deep sleep.

Emperor Chu felt it a little at this time and immediately understood the dangerous situation Ye Feng was encountering now.

However, Emperor Chu immediately spoke very calmly, "If you want to suppress the Netherworld Emperor's Netherworld inner elixir in your body, you still need to rely on yourself, because this is not an attack on the mental and soul level, so I can't help you." "

Hearing what Emperor Chu said, Ye Feng's heart immediately sank, and then he said out loud, "How can I rely on myself?" .??.

Emperor Chu said aloud, "Ye Feng, you have to know that the skeleton you fused is the only immortal bone of the God in the world that has been cultivated to the Great Perfection, so as long as you can activate the true power of the Immortal Bone of the God, you should be able to suppress it." This inner elixir of the netherworld that lives in your body and occupies your entire body."

Hearing what Emperor Chu said, Ye Feng immediately nodded and said, "Okay, let me give it a try."

After saying that, Ye Feng directly used the power of his immortal bone.

At this moment, golden divine light suddenly appeared in Ye Feng's bones.

These golden divine lights emerged from Ye Feng's bones, like divine substances, and quickly attacked the black meridians spreading out of the Netherworld's inner elixir.

At this moment, the two collided with each other in Ye Feng's body, and became entangled together, forming a stalemate and reaching a short-term delicate balance.

In other words, there is no way to remove Ye Feng's Nether Inner Pill, but he can suppress the dark nether power in the Netherworld's inner elixir through the divine substance in his immortal bones.

Seeing this scene at this time, Ye

Feng's face suddenly became a little stunned.

When Emperor Chu saw this scene in the sea, he said aloud, "This should be the best result at present. As long as you continue to improve your cultivation strength, you will be able to completely suppress everything in the Netherworld's inner elixir." The black meridians that spread out will not let these black meridians occupy your entire body and turn you into the resurrection body of the Netherworld Emperor. "

At this time, Ye Feng immediately breathed a sigh of relief when he heard Emperor Chu say this in his mind.

At this moment, Emperor Chu continued to say suddenly in his mind, "Perhaps this is a huge opportunity for you, because this Netherworld inner elixir is now restrained by Ye Feng in your body. You will be fine next." If you stimulate this Netherworld inner elixir, you might be able to absorb the power of the Netherworld Emperor."

Hearing what Emperor Chu said, Ye Feng's eyes suddenly moved.

But Ye Feng doesn't want to stimulate this Netherworld elixir for the time being.

After all, if the Netherworld inner elixir is stimulated too violently and a stronger Netherworld Emperor's power bursts out from it, it is very likely that he has not used the Netherworld Emperor's power, but the power in the Netherworld inner elixir has taken over his entire body. .

So at this time, Ye Feng can only maintain this balance temporarily.

At this moment, Ye Feng was still quite surprised. He didn't expect that in this coffin, he would find one of the three most precious things left by the Netherworld Emperor, the Netherworld inner elixir.

I don't know where the other two precious things of the Netherworld Emperor, the Diagram of Six Paths of Reincarnation and the Netherworld Jade Seal, are.

At this moment, Ye Feng was preparing to leave here, because there was nothing left here.

But suddenly at this moment, the corner of the main tomb not far away suddenly cracked.

In the cracked gap, suddenly soul monsters with green light all over their bodies ran out one by one from the crack in the corner of the tomb chamber.

It feels like the crack in the corner of the main tomb chamber is the legendary underworld, and creatures from the underworld have escaped!

Seeing this scene, Ye Feng was immediately stunned, and then hurriedly lurked around.

Chapter 4718 Reappearance

At this moment, Ye Feng was lurking in the shadows in a corner around him, watching the cracks in the wall of the main tomb not far away, and creatures with souls that seemed to have come from the underworld emerged from the cracks.

These creatures are of different types. Some creatures are like monsters, and some creatures are just like soldiers wearing armor. They feel like things running out of the underworld.

At this time, Ye Feng suddenly thought of something, and immediately couldn't help but have a look of astonishment in his eyes, staring at the group of underworld creatures running out of the cracks in the wall, and couldn't help but think secretly in his heart.

Could this be the undead army controlled by the legendary Netherworld Emperor?

Ye Feng also heard from people in the team before that the Netherworld Emperor once left three most important treasures.

One is the Netherworld inner elixir containing all the life essence and power of the Netherworld Emperor.

One is the most powerful magic weapon of the Netherworld Emperor back then, the Six Paths of Reincarnation Diagram.

And the last one is the Netherworld Emperor's Netherworld Jade Seal that Shen Lan, the young president of the Tianxia Chamber of Commerce, wants to find.

It is said that as long as you control this Netherworld Jade Seal, you can command the undead army that the Netherworld Emperor once secretly controlled.

Legend has it that the Nether Emperor signed an agreement with a mysterious big man in the underworld, and he could use the army of the undead in the underworld to fight for him.

Therefore, the Netherworld Emperor was able to almost unify the entire Ten Thousand Demons interface back then. In addition to being extremely powerful, the indestructible undead army he controlled also played a huge role.

So at this time, Ye Feng looked at the creatures with souls that looked like the underworld rushing out from the cracks in the wall, and immediately guessed, could this be the undead army that the Netherworld Emperor controlled and left behind? .

In other words, could this place where the cracks in the wall are connected really be the legendary underworld?

But if it is really the undead army of the Netherworld Emperor, then who ordered them to run out of the underworld?

It was impossible to run out on his own.

at this moment leaf

Feng seemed to have thought of something, and immediately looked towards the army of undead running out of the underworld.

Ye Feng suddenly saw a shocking scene. Among this group of undead army, a figure that looked very familiar to Ye Feng appeared.

It's the young brother carrying the ancient golden sword!

At this moment, he was actually mixed in with the undead army that ran out of the crack.

Moreover, Ye Feng also saw that this young brother was holding a dark jade seal in his hand, exuding a faint green light.

Ye Feng's eyes were suddenly shocked. Could it be the Netherworld Emperor's Netherworld Jade Seal?

The little brother carrying the golden ancient sword had a mysterious identity. He found the legendary Netherworld Jade Seal alone in the tomb of the Netherworld Emperor, and was able to control this army of undead and escape from the underworld. .

At this moment, while Ye Feng was silently observing, the young brother who was among the strange undead army not far away suddenly looked in the direction of Ye Feng, directly looking into Ye Feng's eyes.

At this moment, Ye Feng's expression immediately changed slightly.

However, the young brother carrying the golden ancient sword did not seem to have any ill intentions towards Ye Feng.

He did not control the undead army to attack Ye Feng, but smiled at Ye Feng, and then directly controlled the undead army and disappeared into the dark depths of the tomb.

This army of undead, including the young brother carrying the golden ancient sword on his back, seemed to be integrated into this army of undead.

Therefore, he controlled the Netherworld Jade Seal and was able to follow this undead army, penetrate the entire underground and walls, disappear into a certain wall of the tomb, submerge into the earth, and disappear.

Ye Feng was very confused when he saw this scene.

Who is this young brother?

And Ye Feng guessed that this young brother had already arrived at the real main tomb one step ahead of him.

However, he did not activate the eighteen golden dragon puppets guarding the bronze coffin of the Netherworld Emperor, which was puzzling.

Moreover, he did not take away the Netherworld Emperor's most precious Nether elixir, but only took away the Netherworld Jade Seal. He just wanted to get this army of the undead, which is even more puzzling.

This immediately caused Ye Feng to have doubts in his heart. If he was really an ambitious man, this young brother should have plundered all his wealth. However, he did not touch anything. He just held the Netherworld Jade Seal and guided him. This army of undead has no idea where it is going.

In addition, why didn't this young brother trigger the eighteen golden dragon puppets guarding the bronze coffin of the Netherworld Emperor?

These questions made Ye Feng very confused.

The identity of this young brother is absolutely mysterious to the extreme.

Ye Feng decided that the next time he met this mysterious young brother carrying a golden ancient sword, he would ask him about his identity and thank him for saving his life twice. .??.

Moreover, he led an army of undead and sank into the depths of the earth, where was he going?

But what Ye Feng didn't know was that for a long time, Ye Feng never saw this mysterious young brother who saved him twice.

Until many years later, when Ye Feng had almost forgotten this past event, Ye Feng once again met this young brother carrying a golden ancient sword. He had not aged, he was still as young as ever, carrying a golden sword on his back. The golden ancient sword looked dull and silent, but at that time, Ye Feng was already a different kind of existence...

At this moment, Ye Feng looked at the undead army disappearing into the depths of the earth, and the young brother carrying the golden ancient sword on his back. Ye Feng did not stay for too long and left the main tomb directly.

\u003e In any case, this young brother left behind the Netherworld Emperor's Netherworld Alchemy, which can be regarded as a huge blessing for him.

At this time, Ye Feng had restrained the Netherworld inner elixir in his body, and it could be said that he had obtained a source of unlimited potential, which contained the monstrous power of the Netherworld Emperor.

Uh-huh!

At this moment, Ye Feng left the main underground tomb and walked quickly towards the entrance of the underground tomb.

When Ye Feng passed through the main tomb chamber passages, he finally came to the previous entrance.

Uh-huh!

At this time, Ye Feng rushed towards the entrance and flew out from the top of the barren mountain again.

Looking at the boundless wilderness around him, Ye Feng suddenly took a deep breath.

This time entering the ancient tomb under the barren mountain was full of twists and turns and experienced many dangers.

But just when Ye Feng flew out of this ancient tomb and returned to the ground, Ye Feng saw a shocking scene.

Not far away, I saw a fiery red female figure standing there, and behind her were barbarian warriors wearing heavy armor, surrounding the entire barren mountain area.

At this moment, the leader of the previous team, Shen Lan, the young president of the Tianxia Chamber of Commerce, and a group of armored guards from the Tianxia Chamber of Commerce were protecting Shen Lan and staring warily at a group of barbarian warriors not far away.

At this moment, the fiery red female figure leading this group of barbarian warriors shocked Ye Feng.

That turned out to be the female swordsman in red who followed the team into the underground tomb!

But Ye Feng clearly saw that in a certain chamber of the tomb, the female swordsman in red was decapitated by a white-haired zombie, and her body was soaked in the pool. He saw it with his own eyes.

But why did this female swordsman in red appear here again?

Isn't she dead?

Chapter 4719 You owe me a hug

At this time, Ye Feng looked at the female swordsman in red not far away with a stunned look in her eyes.

Seeing Ye Feng's stunned look, the female swordsman in red who was standing in front of a group of barbarian warriors and leading the team immediately smiled and said, "Are you surprised that I can command so many powerful barbarian warriors?"

Ye Feng shook his head and said aloud, "I'm not surprised by this, because I met that Feng Shui master before, and he once secretly told me that your identity is not from our Northern Territory, but from The land of the Southern Barbarians."

Hearing what Ye Feng said, the female swordsman in red suddenly showed a look of surprise in her eyes and said, "Then why are you looking at me with such a stunned look?"

Ye Feng said slowly, "Because I clearly saw your headless body in a certain underground tomb, why did you suddenly appear here again? Although the Feng Shui master once told me that you are from Nanman The land is even related to the ancient witches who specialize in witchcraft in the Southern Barbarian Empire, but I don't believe that the witchcraft of the ancient witches is so magical that it can resurrect the headless dead. "

Hearing what Ye Feng said, the female swordsman in red immediately smiled and said, "So that's what happened. I am indeed from the ancient witch clan of the Southern Barbarian Empire, but I can reappear here and... It's not that I was resurrected, but that I was not dead in the first place, and the headless corpse you saw should be my surrogate puppet."

"Death puppet?"

Hearing what the female swordsman in red said at this moment, Ye Feng suddenly showed a look of astonishment in his eyes, then nodded slightly, and couldn't help but murmured, "The ancient witch clan can really create a surrogate puppet." Is this such a magical thing..."

When he said this, Shen Lan, who was not far away, and a group of remaining elite guards from the World Chamber of Commerce all came to Ye Feng, and his eyes suddenly showed an expression of relief.

Because they all know that Ye Feng is very powerful and is the top genius in the Northern Territory.

At this moment, Shen Lan looked at Ye Feng and couldn't help but said with a wry smile, "Master Ye Feng, our World Chamber of Commerce has suffered heavy losses this time. After entering this underground tomb, not only did we not find the Netherworld Emperor who had stayed there, The Netherworld Jade Seal, and even lost dozens of elite guards, these are all strong men trained by our World Chamber of Commerce. Even we don't know whether this underground tomb is the tomb of the legendary Netherworld Emperor, because we He didn't even get to the end, and then he ran away in a panic."

Hearing what Shen Lan said, Ye Feng nodded slightly and asked, "Does this female swordsman in red and a group of barbarian warriors want to rob you of your treasures?"

Shen Lan nodded, and then said aloud, "But we don't have what they need. They want the treasure left by Emperor Netherworld, so he didn't take action against us."

Hearing what Shen Lan said, Ye Feng immediately clicked

Nodding, it seems that this female swordsman from the Southern Barbarian Empire only wants to get the three treasures left by the Netherworld Emperor.

But now, it is estimated that only Ye Feng knows what the three treasures are.

Among the three treasures, the Netherworld inner elixir is restraining Ye Feng's body at this moment.

The Netherworld Jade Seal, which can command the undead army, was obtained by the young brother carrying the golden ancient sword on his back. It has disappeared into the depths of the earth, and it is unknown where it went with the undead army.

As for the Six Paths of Reincarnation Diagram, the natal magic weapon of the Netherworld Emperor, Ye Feng did not find it in the real main tomb chamber.

Maybe Emperor Netherworld didn't put the Six Paths of Reincarnation Diagram in his tomb at all back then. Maybe it was lost somewhere in the interface of ten thousand demons when he died.

Of course, it is also possible that the Six Paths of Reincarnation Chart was also taken away by the mysterious young brother carrying the golden ancient sword.

However, Ye Feng felt that it should not be the case. This young brother was not even interested in the Netherworld Alchemy, let alone the Six Paths of Reincarnation.

At this moment, Ye Feng looked directly at the female swordsman in red and said, "There is nothing here you want, you can just leave."

Hearing what Ye Feng said, the female swordsman in red immediately glanced at Ye Feng meaningfully and said, "Have you successfully entered the main tomb of the underground tomb where the Netherworld Emperor is buried?"

Ye Feng remained calm and said, "No, I even doubt whether this ancient tomb is the tomb of the Netherworld Emperor."

Hearing what Ye Feng said, the female swordsman in red obviously didn't believe it. She just stared at Ye Feng with an inexplicable look in her eyes.

Behind him, a group of dozens of barbarian warriors from the Southern Barbarians stared at Ye Feng with hostile eyes, as if they were ready to take action at any time.

Buzz!

But at this time, Ye Feng exuded a majestic aura of cultivation. He stared at the female swordsman in red and dozens of barbarian warriors in front, and said, "If you want to fight, then I will definitely accompany you."

At this moment, although the female swordsman in red is very powerful in single combat, she is also assisted by dozens of barbarian warriors.

But Ye Feng has now gone through the entire underground tomb experience, and his cultivation strength has improved a lot, not to mention that Ye Feng still has a Netherworld inner elixir in his body.

Ye Feng can stimulate the Netherworld's inner elixir and obtain the monstrous power of the Netherworld Emperor in a short period of time, which can greatly enhance Ye Feng's combat effectiveness.

So Ye Feng is not afraid of these coming from

To the powerful men of the Southern Barbarian Empire.

At this moment, sensing Ye Feng's majestic cultivation aura and Ye Feng's mentality of not being afraid of fighting at all, the female swordsman in red suddenly showed a hint of fear in her eyes.

She seemed to be thinking about whether to have a conflict with Ye Feng. After all, she was really not sure whether Ye Feng had ever entered the real main tomb of the Netherworld Emperor. It was not a good thing to be against such a top genius. After all, Even the overlord race of the Great Wilderness couldn't do anything to Ye Feng.

At this moment, a guard from the World Chamber of Commerce next to Shen Lan suddenly said, "Everyone, please stop arguing. I think all the good things from Emperor Netherworld must have been obtained by that young brother carrying the golden ancient sword." , because I accidentally saw before that the young brother carrying the golden ancient sword was holding a very mysterious jade seal in his hand. Before entering the tomb, I had already seen it. The jade seal seemed to exude a faint light. The aura of the underworld, I think this young brother may be holding the Netherworld Jade Seal, so this young brother went to this ancient tomb just to get all the other wealth of the Netherworld Emperor. "

"What?"

Hearing what the guard next to Shen Lan said, Ye Feng's eyes trembled.

The young brother who was carrying the ancient golden sword actually had the Netherworld Jade Seal in his hand before he entered the tomb of the Netherworld Emperor.

Then it makes sense that when he entered the main tomb of the Netherworld Emperor, he would not arouse the eighteen golden dragon puppets.

Perhaps it is precisely because this young brother already holds the Netherworld Emperor's Netherworld Jade Seal in his hand that he will not attract the eighteen golden dragon puppets, because the Netherworld Jade Seal represents the majesty of the Netherworld Emperor.

Ye Feng suddenly understood at this time that the reason why this young brother followed the whole team into the ancient tomb under the barren mountain was probably to enter the main tomb of the Netherworld Emperor and find the crack in the corner of the main tomb leading to the underworld. , through the Netherworld Jade Seal, to attract the undead army.

But why didn't this young brother go down by himself?

Are they really afraid of the guards of the Tianxia Chamber of Commerce at the entrance to this tomb?

Ye Feng thought it was impossible. That mysterious young brother was absolutely terrifying in strength and would not be afraid of masters from ordinary chambers of commerce like the World Chamber of Commerce.

The young brother carrying the ancient golden sword must have other motives for going to the grave with everyone.

But Ye Feng couldn't guess the real intention of this young brother.

Is it because of myself?

At this moment, everyone present fell into silence, secretly cursing the young brother for being greedy.

I'm afraid only

Ye Feng knew that the young brother did not want to get other wealth left by the Netherworld Emperor. The young brother just wanted to use the Netherworld Jade Seal to attract the undead army from the underworld. I don't know. Where to go.

But at this moment, Ye Feng's expression remained unchanged.

The mysterious female swordsman in red from the Southern Barbarian Empire on the opposite side said loudly, "I also suspect a young brother."

After finishing speaking, the mysterious female swordsman in red glanced at Ye Feng, and then said loudly, "Ye Feng, I will not conflict with you today. One day, we will meet again. After all, you are I'm from the Northern Territory, but I'm from the Southern Barbarians."

When she said this, the female swordsman in red turned and left with a group of powerful barbarian warriors.

However, the female swordsman in red suddenly turned her head and looked at Ye Feng. A touching smile appeared on her delicate melon-seed face with exotic beauty, and she secretly sent a private message to Ye Feng: "Ye Feng, you But my destined person, you owe me a hug. Remember to give me this hug again when we meet next time."

After finishing speaking, the female swordsman in red jumped up, flying to high altitude with dozens of barbarian warriors in an instant, and disappeared into the territory of the distant southern barbarian land.

"you.....!"

At this moment, Ye Feng, who was standing there, was shocked.

Destined person?

Owe her a hug?

"The ancient white-haired zombie who knew illusions is not dead..."

Ye Feng's eyes were shocked at this time, and he felt cold all over his body.

In other words, the female swordsman in red who really came from the Southern Barbarians had actually died in the water in that tomb.

But the white-haired zombie who was nailed to death by the young brother with a golden dagger did not die completely at all. Instead, he used some special ability to disguise himself as this southern barbarian female swordsman in red, and then emerged from the underground Ran out of the tomb.

Moreover, this camouflage technique is so magical that even the dozens of top barbarian warriors who were outside to assist the female swordsman in red didn't notice anything unusual.

As for the female swordsman in red, what the white-haired zombie calls the scapegoat, she was probably just made up on the fly to fool everyone present.

At this moment, Ye Feng looked at the retreating figures of the female swordsman in red and dozens of barbarian warriors, and felt a chill in his heart for the Southern Barbarian Empire.

This weird white-haired zombie "transformed" into a female swordsman in red and returned to the Southern Barbarian Empire. There is no telling how much trouble it will cause.

But this doesn't seem to have much to do with Ye Feng, who can't control that much.

At this moment, Ye Feng just looked at Shen Lan beside him and said, "Miss Lan, let's go, we should go back."

Chapter 4720 Private Transmission

At this time, Ye Feng looked at Shen Lan with a hint of surprise.

Because he discovered that Shen Lan had a gloomy look on his face, which was completely different from the usual high-spirited look of the young president of the World Chamber of Commerce.

She used to be a very energetic and high-spirited young woman, but now after experiencing this underground tomb, Shen Lan seems to have become a little sad and sad.

Seeing this scene, Ye Feng immediately understood. It is estimated that this time Shen Lan brought many elite guards from the World Chamber of Commerce and suffered heavy losses in the entire tomb of the Netherworld Emperor, which was why Shen Lan's confidence was hit.

In response, Ye Feng just stretched out his hand, patted Shen Lan's shoulder slightly, and said, "Don't be so discouraged. Occasional failures and setbacks are normal. As long as you work hard, you can always reverse your predicament."

Hearing what Ye Feng said, Shen Lan nodded slightly, smiled bitterly, and said, "Ye Feng, do you think I really don't have the ability to become the Young President of the World Chamber of Commerce?"

Hearing what Shen Lan said, Ye Feng just shook his head slightly and said with a smile, "Miss Lan, you are actually very capable, but this underground tomb is indeed too weird and dangerous for your level." People can contact you, no matter how capable you are, if you are not strong enough, you will not be able to reverse this predicament. "

Hearing what Ye Feng said, Shen Lan immediately nodded, with a look of emotion in his eyes, and said loudly, "Indeed, I found that no matter how much I learn about the professional knowledge of the Operator Association and various team knowledge, it still doesn't matter. Not as useful as personal strength. I have decided that this time when I return to the Tianxia Chamber of Commerce, I will focus more on improving my own personal cultivation strength. It seems that personal strength is the real king. This is what I see from you, Mr. Ye Feng."

Hearing what Shen Lan said, Ye Feng immediately smiled and said, "Okay, it is indeed a good choice to focus part of your energy on improving your own strength. If you don't understand anything during your cultivation, Yes, you can ask me anytime."

Hearing what Ye Feng said, Shen Lan immediately showed a smile with a trace of sadness dissipating on his face, and a smile suddenly appeared in his beautiful eyes, and said loudly, "Okay, if I have any questions about cultivation, I will go I'll find you, Mr. Ye Feng, at the seventh prince's residence."

\u003c

\u003e Hearing this, Ye Feng immediately nodded, and then directly took Shen Lan and a group of remaining guards from the World Chamber of Commerce to return to the imperial city of the Blood Demon Dynasty.

The group moved very quickly, and in less than half a day, they had returned to the royal city of the Blood Demon Dynasty.

At this time, Ye Feng had actually silently memorized the specific location of this ancient tomb.

Because Ye Feng felt that if his strength could continue to improve, he could come back and check again if he had the chance. Maybe there might be something else hidden in this underground tomb.

After all, Ye Feng followed the entire team into the underground tomb this time and did not explore many tombs. There must be many other tombs in the underground tomb, densely packed in them.

Although Ye Feng entered the tomb under the barren mountain this time, he successfully found the real main tomb of the Netherworld Emperor according to the ancient compass guidance in the hands of the Feng Shui master.

But Ye Feng felt that this ancient tomb under the barren mountain might not be as simple as he imagined.

Because Ye Feng encountered too many weird things in this tomb.

Even with his various abilities, sometimes there is no way to resist them.

Therefore, Ye Feng felt that this was not just the tomb of the Netherworld Emperor. There might be other secrets in this tomb under the barren mountain.

At this time, Ye Feng suddenly thought that the white-haired zombie who successfully deceived everyone and ran out of the tomb turned into the mysterious red-clothed female swordsman of the Southern Barbarian Empire.

Ye Feng felt that if he had the chance to see the female swordsman in red in the future, he might have a chat with her and ask her what kind of ancient tomb under the barren mountain it was and why it was so weird.

After all, when he finally left, the white-haired zombie turned into a female swordsman in red, hiding it from others, but not from herself, and finally transmitted the message

Giving herself such a sentence was obviously to take the initiative to reveal her true identity.

This means that this white-haired zombie should not have much hostility towards him.

Therefore, Ye Feng felt that if he had the opportunity to go to the southern barbarian land in the future, he must ask carefully about the white-haired zombie-turned-red swordswoman he met again.

And just when Ye Feng was thinking in his heart, they had returned to the imperial city of the Blood Demon Dynasty.

At this time, the several surviving guards of the Tianxia Chamber of Commerce, even if they were elites, experienced in hundreds of battles, and killed with iron blood, all had expressions of joy on their faces, as if they were surviving a disaster.

Because the ancient tomb under the barren mountain was so weird and terrifying, many of their companions died.

They were extremely lucky to be able to survive.

At this time, Shen Lan didn't say anything and just took Ye Feng into the imperial city of the Blood Demon Dynasty.

At this time, Ye Feng actually found a lot of good things from that ancient tomb.

At this moment, Ye Feng thought for a while, looked at Shen Lan beside him, and said loudly, "Miss Lan, I actually gained a lot of good things from that underground tomb. There are some things that I

don't need. I don't know how to use them." Can't I sell it to your Tianxia Chamber of Commerce? Or auction it at your Tianxia Chamber of Commerce."

Hearing what Ye Feng said, Shen Lan immediately smiled and said, "Of course, we welcome it very much. If something of great value can be auctioned, it will also be a huge contribution to the spread of the statement of our World Chamber of Commerce." benefit."

When Ye Feng heard Shen Lan say this, he immediately nodded.

Ye Feng also knows that the Tianxia Chamber of Commerce not only conducts private transactions, but also conducts auctions in public places.

So now in the entire imperial city of the Blood Demon Dynasty, the only one he trusts may be the Tianxia Chamber of Commerce where Shen Lan belongs.

Although Tianxia Chamber of Commerce is a medium-sized chamber of commerce, not as good as those top chambers of commerce, Ye Feng feels that as long as he trusts it, that is enough.

And Ye Feng felt that,

With a thoughtful young president and successor like Shen Lan, the World Chamber of Commerce may not be able to become the largest chamber of commerce in the entire Blood Demon Dynasty in the future.

At this time, Ye Feng followed Shen Lan directly to the headquarters of the Tianxia Chamber of Commerce in the imperial city.

Ye Feng brought all the things he didn't need in front of Shen Lan and asked Shen Lan to auction them.

As for how much money could be auctioned, Ye Feng directly asked Shen Lan to set the price. He was too lazy to take care of such tedious matters, as long as he waited to collect the money in the end.

At this time, Shen Lan asked Ye Feng to temporarily stay in the guest room of the Tianxia Chamber of Commerce to rest. After the auction is over, Shen Lan will hand over the wealth obtained from

the auction to Ye Feng, and their Tianxia Chamber of Commerce will take a 3% commission from it.

Ye Feng immediately nodded to this, and then temporarily lived in the guest room of the Tianxia Chamber of Commerce.

And on this night, in a slightly dark room.

Suddenly, a voice message rang in Ye Feng's ears: "Young man, I told you before that the next time you come to the Tianxia Chamber of Commerce, talk to the old man and I have a chat. Now you can come."

The moment this voice sounded, Ye Feng's eyes suddenly moved.

Ye Feng suddenly remembered that when he came to the Tianxia Chamber of Commerce, Shen Lan took him to the treasure house of the Tianxia Chamber of Commerce. In the deepest area of the treasure house, in a small room, sat a rather mysterious old man.

This old man is the guardian of the treasure house of the World Chamber of Commerce, but his cultivation aura is very mysterious and unfathomable, and he can definitely become a guest of the top chamber of commerce.

Therefore, Ye Feng felt at that time that the guardian elder in the treasure house of the World Chamber of Commerce must be an extraordinary being. He didn't know what the purpose of taking the initiative to sit in the treasure house of an ordinary chamber of commerce like the World Chamber of Commerce.

Moreover, this old man seemed to be quite interested in him, and he invited himself to talk to him about cultivation when he had nothing to do in the future.

At this time, Ye Feng heard the private message from the old man who was the guardian of the World Chamber of Commerce's treasure house, and immediately walked out of his guest room and walked towards the treasure house of the World Chamber of Commerce.
