Chapter 4751 Anti-Hegemon Alliance

Seeing the beautiful woman in front of him looking at him with a smile, Ye Feng immediately stared blankly and couldn't help but said: "Goddess of the Wanlong Divine Sect, didn't you leave? I thought you went back to Wanlong directly. It's the Dragon God Sect."

Hearing what Ye Feng said, Linglong, the goddess of the Ten Thousand Dragons Sect, immediately smiled beautifully and walked slowly in front of Ye Feng. Her graceful figure was dazzling.

She couldn't help but said out loud: "Ye Feng, I stay here alone just to see you again. I want to talk to you about cultivation in person."

"Let's talk about spiritual practice?"

At this moment, hearing the inexplicable words of the Goddess Linglong of the Ten Thousand Dragons Divine Sect, the Seventh Prince and Yin Kai, who were standing not far away, both had a look of watching the show in their eyes.

They stared at Ye Feng, obviously saying, Ye Feng, this delicate goddess Linglong of the Ten Thousand Dragons Divine Sect, actually came to you in person. The meaning is self-evident, obviously she is very interested in you Ye Feng, and even It is possible that he just threw himself into his arms.

At this time, the seventh prince looked at Yin Kai beside him and immediately said: "Yin Kai, let's not disturb the conversation between the two talented men and beauties. Let's leave here."

With that said, the seventh prince took the silver armor and hurriedly left his place of residence, leaving all areas of his palace to Ye Feng and the goddess Linglong of the Ten Thousand Dragons Sect.

I have to say that the seventh prince is quite interesting, and he is absolutely considerate to Ye Feng.

At this moment, I watched the Seventh Prince and Yin Kai leave directly, leaving me alone to face Linglong, the goddess of the Ten Thousand Dragons Sect.

Ye Feng immediately showed a rather embarrassed look in his eyes and said loudly: "I didn't expect that they all left directly."

The goddess Linglong of the Wanlong Divine Sect immediately smiled and said: "It doesn't matter, I came here this time just to find you Ye Feng alone. I don't care whether they leave or not. They leave just so that I can be with Ye Feng." Mr. Feng, you have time and space to be alone."

When he said this, Linglong, the extremely beautiful goddess of the Ten Thousand Dragons Divine Sect, swaying her graceful figure, walked directly towards the main hall and said loudly: "Master Ye Feng, come in, stand outside. I feel a little tired from chatting, so we can chat alone in the room."

Seeing the goddess Linglong of the Ten Thousand Dragons Sect walking into the main hall, Ye Feng's eyes

The god flashed slightly and walked in.

At this moment, in the empty hall, only Ye Feng and the goddess Linglong were standing inside.

At this moment, Ye Feng couldn't help but asked: "Goddess Linglong, you can tell me directly why you came to me this time."

Ye Feng didn't believe that Linglong, the goddess of the Ten Thousand Dragons Sect, had become the object of her so-called worship just because he defeated Long Dingtian and wanted to be alone with him and fall in love.

Ye Feng felt that Linglong, the goddess of the Ten Thousand Dragons Sect, was definitely not such a love-minded person.

And sure enough, the moment Ye Feng finished speaking, Linglong, the goddess of the Ten Thousand Dragons Sect, immediately smiled and said: "Master Ye Feng, I do have other things to do here, but I admire your strength and talent. , completely from the heart. I came to see you alone. Except for one other thing to talk about, the rest is really just to see you alone. People really admire such a unique talent like you. , so charming."

When she said this, the goddess Linglong stopped trying to show off and said directly: "Master Ye Feng, I know that you are an epoch-making genius with unparalleled talent for cultivation and powerful strength. Originally, in my In my heart, Jun Wudao, the great disciple of the Demonic Sect, or Long Dingtian, the divine son of our Ten Thousand Dragons Sect, are the top geniuses in the Northern Territory. But now I realize that among the strong, there are even stronger ones. A mountain is higher than a mountain. Young Master Ye Feng, you are the most talented young man in our entire Northern Territory. It is not impossible that you will become a leader of the younger generation in our entire Northern Territory in the future."

Hearing what the goddess Linglong said, Ye Feng immediately couldn't help but grin and said loudly: "Goddess Linglong, you have been praising me for so long, it's time to tell you why you are looking for me, right?"

Ye Feng has experienced countless ups and downs since he started practicing cultivation, so he has long been immune to the temptation to brag about himself.

Therefore, this goddess Linglong could not distract Ye Feng at all.

Seeing Ye Feng's righteous words, Linglong, the goddess of the Almighty God Sect, immediately forbore.

He couldn't help shaking his head and smiling, and said aloud: "Master Ye Feng is indeed different from other people. If it were other people, even a top genius like Long Dingtian, under the bragging and temptation of a little girl like me, , I guess you will also feel proud, but Mr. Ye Feng, you are different from others, I admire you very much, you are a real man."

When he said this, Ye Feng couldn't help but shrugged and said: "If you have anything to say, just tell me. If I can promise you, I will try my best to promise you. After all, having multiple friends is not a bad thing, let alone you." She is still a goddess of the Ten Thousand Dragons Divine Sect, and her connections are still strong. Of course, if it really involves my principles, then there is no way I can agree to you. For example, if you invite me to directly join the Ten Thousand Dragons Divine Sect, I will definitely not do this for the time being. considerate."

Hearing what Ye Feng said, the goddess Linglong immediately smiled and said: "Of course not, what I want to invite you to join is not the Ten Thousand Dragons Divine Sect where I am now, but the wilderness where my own clan is. I am from the Peacock Clan in the Great Wilderness. I joined the Wanlong Divine Sect just to get in touch with the top geniuses in the Northern Territory. I hope they can join the Peacock Clan in our Great Wilderness and increase the power of our Peacock Clan. "

"Um?"

Ye Feng was a little stunned when he heard the goddess Linglong in front of him say this. He didn't expect that the goddess Linglong of the Ten Thousand Dragons Sect turned out to be a member of the Peacock Clan in the wilderness. Maybe she had a higher status in the Peacock Clan. Also very high.

No wonder when Ye Feng saw this goddess Linglong for the first time, he felt that she had a kind of beauty that human women did not have. It was a kind of pure and charming beauty.

At this time, Ye Feng couldn't help but asked: "But you should have heard of what I did. I am the enemy of your entire Great Wilderness Overlord Race."

When Ye Feng said this, the goddess Linglong immediately laughed and said: "What you offended is only the top overlord race in the wilderness. It has nothing to do with our other races. In our wilderness, not all The races are all united together, and there are various internal struggles. Although our Peacock Clan is not the overlord race in the wilderness, it is definitely a first-rate race under the overlord race. Moreover, our Peacock Clan, and others Several first-class races united together to form an 'anti-overlord alliance' in the wilderness.

Because the two old overlord races, the Sun God Clan and the Amethyst Dragon Clan, have gone too far to oppress other races in our community. They have robbed and occupied our various mineral veins and various cultivation resources in the wilderness, and cannibalized us. territory, so the reason why I found you, Ye Feng, is not only because I value your ability, but also because I can let you take revenge. The races that help us in the anti-overlord alliance are also fighting against your biggest enemies, the Sun God Clan and the Amethyst Dragon Clan, of course, our anti-overlord alliance will not let your help go in vain. There are a lot of natural resources in the wilderness. When the time comes, Mr. Ye Feng, you will follow me into the wilderness and you can enjoy all kinds of natural cultivation in the wilderness. Resources, this is a matter of killing two birds with one stone, what do you think, Mr. Ye Feng? "

At this moment, looking at the graceful Linglong in front of him, Ye Feng took a serious look at this beautiful young woman for the first time, and suddenly found that the other party was not as simple and brainless as he thought. This was a very scheming person. Women are particularly good at winning over top geniuses.

It seems that the anti-overlord alliance formed by these races in the wilderness will probably not be able to find other top geniuses in the wilderness. They can only find extremely powerful young

figures from the northern regions or southern barbarians adjacent to the wilderness. In this case, Only then can they accumulate strength to fight against the two established overlord races in the wilderness, the Sun God Clan and the Amethyst Dragon Clan.

After knowing this situation, Ye Feng was quite happy. It seemed that the wilderness was not monolithic.

Although he had offended the two strongest overlord races, not all other races in the wilderness would follow these two overlord races to encircle and suppress him.

This is good news.

But at this moment, Ye Feng was thinking about what the goddess Linglong said in front of him.

But at this time, the goddess Linglong showed a touching smile on her beautiful face and said loudly: "Master Ye Feng, don't misunderstand me. I invite you to join our anti-overlord alliance in the wilderness. It does not mean that you will leave the Blood Demon Dynasty, but that you will become a part-time member of our anti-overlord alliance. You do not need to stay in our wilderness around the clock. You only need to be able to go with us when our anti-overlord alliance has something to do. Just help. Just like me, I am a princess of the Peacock clan, but I am also a goddess of the Ten Thousand Dragons Sect. I wear many hats and make full use of various resources and connections. "

Chapter 4752 Agree

At this time, after hearing what the goddess Linglong said, Ye Feng started to think carefully.

This goddess Linglong comes from the anti-overlord alliance in the wilderness. If she joins, not only will she be able to get the natural training resources in the wilderness given to her by the anti-overlord alliance, but this anti-overlord alliance was originally designed to resist the top-ranked people in the wilderness. Overlord races such as the Sun God Clan and the Amethyst Dragon Clan.

It can be said that he and this anti-overlord alliance are actually on the same camp now, both to fight against the top overlord races such as the Sun God Clan and the Amethyst Dragon Clan.

Therefore, Ye Feng feels that if he can really join this anti-overlord alliance, it will be a good thing to kill two birds with one stone. It can not only help him fight against the Sun God Clan and the Amethyst Dragon Clan, but also allow him to obtain training resources.

However, Ye Feng also knows that joining the anti-overlord alliance is definitely not just about getting benefits for himself, but there must also be obligations that they need to do, such as some tasks assigned to him by the anti-overlord alliance, etc.

However, Ye Feng felt that there was no big disadvantage in joining this anti-hegemon alliance. There were so many benefits, so he might as well join it.

So at this time, Ye Feng just stared at the goddess Linglong in front of him, smiled and said, "Then I will join your anti-overlord alliance, but I can't be bound and free by you, because I also have my own things to do. Of course, if your anti-overlord alliance needs me to do something, you can notify me in advance. If I have time or ability, I will try my best to complete it."

Hearing what Ye Feng said, the goddess Linglong suddenly showed a look of deep joy on her beautiful face. She quickly stood up, came to Ye Feng, stretched out her white little hands, and said "Then I wish us a happy cooperation."

Hearing what the goddess Linglong said, Ye Feng also stretched out his hand and shook it slightly.

Ye Feng knew very well that this goddess Linglong was probably the Peacock clan in the anti-overlord alliance, specially sent to operate in various major areas, looking for peerless geniuses with great prospects like himself, and to recruit them into the anti-overlord alliance in advance.

In this way, the comprehensive strength of the anti-hegemon alliance can be continuously strengthened.

Because for the anti-hegemon alliance in the wilderness, they can no longer find particularly powerful high-level talents in their native wilderness area to increase their strength.

Because the young geniuses of the powerful ancient races in the wilderness will definitely give priority to joining the top overlord race forces such as the Sun God Clan or the Amethyst Dragon Clan, instead of joining the alliance of ordinary wilderness races such as the Anti-Hegemon Alliance.

Therefore, the anti-overlord alliance began to think of other ways, that is, to find peerless geniuses from the other two regions adjacent to the Great Wilderness, the Northern Territory and the Southern Barbarians, accumulate their own heritage, and strive to shake the Sun God Clan and the Amethyst Dragon Clan, the two top The dominance of the overlord race in the wilderness.

At this moment, hearing that Ye Feng directly agreed to join the anti-overlord alliance, the goddess of the Ten Thousand Dragons Sect, or the princess of the Peacock Clan, Linglong, was naturally very happy in her heart.

Because she knows very well how evil and talented Ye Feng is. Once Ye Feng is given time to grow,

Ye Feng will definitely become an extremely terrifying existence in the future, and maybe he will become a superpower at the level of giants in the entire north and south regions.

So the goddess Linglong is also betting on Ye Feng's future.

And she felt that Ye Feng would have a brilliant future.

Because the goddess Linglong originally thought that Long Dingtian, the son of the Wanlong Divine Sect, was already the most powerful peerless genius, but when she saw the battle between Ye Feng and Long Dingtian during the royal competition, she saw Ye Feng's incomparable bravery. With his figure, incomparable strength and fighting power, Linglong immediately understood that Ye Feng was the true pride of heaven, and he was a young top figure with undisputed unparalleled elegance.

That's why Linglong stayed alone, wanting to talk to Ye Feng and seek cooperation with Ye Feng.

Now that Ye Feng directly agreed to her request for cooperation, the goddess Linglong was naturally very satisfied.

Because Goddess Linglong knows very well that if she can bring a super-top genius like Ye Feng into the anti-overlord alliance in their wilderness, the upper echelons of their anti-overlord alliance will definitely give her a huge reward, and this will also have implications for their Peacock clan. huge help.

Because the anti-overlord alliance is not just composed of races in the wilderness, but an alliance of the Peacock clan and a dozen other ordinary races in the wilderness.

Therefore, if the Peacock clan wants to secure its leadership position in the anti-overlord alliance, it must seek the help of extremely powerful geniuses or extremely strong men.

And when the goddess Linglong draws Ye Feng into the anti-overlord alliance, she is actually drawing Ye Feng into the Peacock clan behind her.

Now that the cooperation has been successful, Goddess Linglong naturally becomes closer and gentler towards Ye Feng.

At this time, Linglong walked directly in front of Ye Feng and said with a smile, "Young Master Ye Feng is so elegant and unparalleled. If he joins our anti-overlord alliance in the wilderness in the future, he will definitely become the core and important part of the anti-overlord alliance." Characters like Mr. Ye Feng, a peerless genius, are really alluring in my eyes."

When he said this, the exquisite and graceful figure got closer to Ye Feng.

At this time, Ye Feng smiled and said, "I will go to the Southern Barbarian Empire in a while. The Southern Barbarian land and your wilderness can be said to be connected together. If there is a chance, I will go to the wilderness." Your anti-overlord alliance will take a look."

Hearing what Ye Feng said, Linglong immediately nodded and said with a smile, "When I return to the Wanlong Divine Sect this time, I will tell the upper management of the sect that I will return to the Peacock Clan for a while. When Young Master Ye Feng goes to the Southern Barbarian Empire, remember to contact me through the summons token. I will take Young Master Ye Feng to visit the base camp of the Anti-Hegemon Alliance in the wilderness, and Young Master Ye Feng can stay there. In our Peacock clan, I will treat you well, Mr. Ye Feng, and I will definitely make you very satisfied and even forget to leave."

At this time, Linglong said the word "entertainment" with a very strong pronunciation, which seemed to have other inexplicable meanings, which was quite tempting.

Ye Feng smiled slightly and said, "Okay, I will definitely visit your Peacock Clan when I have time."

Chapter 4753 Mission

Next, Ye Feng and Linglong chatted for a long time in this separate hall, and then discussed matters related to cultivation.

The goddess Linglong of the Ten Thousand Dragons Divine Sect, or in other words, the princess of the Peacock Clan in the Wilderness, is finally ready to leave.

When Linglong left, Ye Feng looked at Linglong's leaving beauty, with a slight smile in his eyes from behind.

This time, the princess of the peacock clan came here and invited herself to join the anti-overlord alliance in the wilderness. Ye Feng was quite satisfied.

Because this Linglong has promised herself that as long as she joins the Anti-Hegemon Alliance, the Anti-Hegemon Alliance will give her a lot of natural cultivation resources in the wilderness.

In addition, the Peacock clan will also privately provide Ye Feng with various resources.

However, the premise is that Ye Feng must first go to the Great Wilderness to express his official willingness to join the Great Wilderness Anti-Hegemony Alliance.

Therefore, Ye Feng planned to take advantage of this time when the team of the Blood Demon Dynasty went on an envoy to the Southern Barbarian Empire to take time to go to the wilderness.

Although the wilderness is very dangerous, after all, the Sun God Clan and the Amethyst Dragon Clan have been chasing him, but Ye Feng feels that with the arrangement of the goddess Linglong, he should not be caught by the Sun God Clan and the Amethyst Dragon Clan in the wilderness.

If the anti-overlord alliance cannot do this, then Ye Feng feels that joining the anti-overlord alliance is meaningless.

After all, if the anti-hegemon alliance is really too weak, then there is no need to join this anti-hegemon alliance.

It just so happened that I went to the wilderness this time to see what the strength of the anti-overlord alliance was like.

At this moment, Ye Feng was thinking in his heart, and then he seemed to have thought of something, and immediately took out the peerless inheritance he had received from the royal library.

There are two sets of inheritances, one is Ten Thousand Dragons Returning to the Clan, which is a group attack inheritance.

another set

It is the inheritance of the dragon's claw, which can greatly enhance the attack power of a single target.

At this time, Ye Feng started to comprehend directly in the square outside the Seventh Prince's Hall.

Ye Feng's comprehension speed is very fast.

In less than a few days, it can be said that he has completely mastered these two extremely powerful blood demon dynasty's unique royal inheritances.

At this moment, Ye Feng looked at a rockery not far away and shouted loudly: "Dragon's Claw!"

Buzz!

At this moment, Ye Feng's palm immediately began to expand rapidly, and then directly expanded into a huge golden dragon claw covering a majestic area of several kilometers, with very terrifying destructive power.

Ye Feng looked at his palm that had turned into a golden dragon claw, and a look of surprise suddenly appeared in his eyes.

When Ye Feng displayed this unique set of inherited dragon claws, his palms really turned into the claws of a giant dragon, possessing terrifying cutting and destructive power.

After all, the golden dragon claws covered a majestic area of several thousand meters. The claws were extremely sharp, not to mention that such a large dragon claw also had terrifying destructive power. Ye Feng suddenly felt that he was The power of the golden dragon claw that this palm turned into at this time.

At this moment, Ye Feng did not bombard forward, because Ye Feng had already sensed how terrifying power his palm had after it turned into a golden dragon claw.

So at this moment, Ye Feng didn't hesitate at all, and directly dispersed this set of huge golden dragon claws, and once again became the original

The appearance has become the size of a normal person's hand.

Obviously, this set of inheritance is a very special transformation technique, which can turn part of one's body into the body of an ancient dragon, thus possessing the majestic power of the ancient dragon and producing terrifying destructive and cutting power.

At this moment, Ye Feng continued to use another set of the internal peerless inheritance of the Blood Demon Dynasty that he had obtained before, and Wan Long returned to his clan.

Boom! !

Almost at this moment, Ye Feng's whole body suddenly burst out with very huge dragon energy, and then in the void behind him, tens of thousands of golden energy suddenly condensed out. Long dragon of energy.

It is simply the roar of thousands of dragons!

Once it bombards the front, it will be an attack by tens of thousands of energy dragons, which is extremely terrifying.

At this time, Ye Feng's eyes suddenly showed a trace of excitement.

It seems that the two sets of peerless inheritances I chose are still very powerful. It can be said that they should be ranked among the first-class powerful inheritances among the royal families of the Blood Demon Dynasty.

Now that Ye Feng has learned these two sets of inheritance, he naturally feels that his combat effectiveness has improved a lot.

After all, Ye Feng knows that the improvement of cultivation level is the essence, but if he can learn more powerful advanced inheritance, it will also have a huge blessing effect on the improvement of his overall strength.

For the next period of time, Ye Feng did not leave the palace, nor the place where the Seventh Prince lived. Instead, he chose to retreat silently in his own room, continuing to understand the inheritance he had learned, and to stabilize his recent breakthrough. of cultivation.

Time passes quickly, like running water without leaving a trace.

Half a month passed in the blink of an eye.

On the morning of this day, a guard wearing golden armor came directly to the residence of the seventh prince. He shouted outside the hall and said, "Is Lord Ye Feng here?"

Ye Feng walked out of the house and said, "I'm here, what's wrong?"

The guard wearing golden armor immediately clasped his fists respectfully and said: "Master Ye Feng, His Majesty would like to invite you to come over, join the team, and go on a mission to the Southern Barbarian Empire."

Hearing what the golden armored guard in front of him said, Ye Feng immediately nodded. During this period of retreat, Ye Feng was also calculating the time by himself. He estimated that half a month would be coming soon. Sure enough, the emperor of the Blood Demon Dynasty sent someone to find him this morning.

At this moment, Ye Feng nodded and said, "Lead the way."

"Yes, Master Ye Feng."

This golden armored guard immediately led the way.

This golden armored guard was a close guard beside the emperor of the Blood Demon Dynasty, and his status was still very high.

But in front of Ye Feng, he didn't show any disrespect at all, but his tone was full of awe.

Because Ye Feng had won the first place in the royal competition before, and then forcefully suppressed Long Dingtian, the Son of God who was causing trouble from the Wanlong Divine Sect.

Today, Ye Feng has become the well-deserved leader of the younger generation of the Blood Demon Dynasty in everyone's minds.

In addition, Ye Feng's strength is even comparable to some powerful elders.

Therefore, whether it is Ye Feng's future potential or Ye Feng's own strength at this moment, it is enough to make these royal guards feel in awe!

Chapter 4754 Among the Team

At this time, under the leadership of the golden armored guard, Ye Feng quickly arrived at the palace hall of the Blood Demon Dynasty.

At this moment, when Ye Feng walked into the hall, except for a middle-aged man wearing a golden dragon robe sitting at the top, he was the emperor of the Blood Demon Dynasty.

In addition, there are many people standing below the main hall.

Most of these people are masters trained by the Blood Demon Dynasty themselves.

At this time, seeing Ye Feng walking in, the emperor of the Blood Demon Dynasty immediately showed a smile on his face and said, "Ye Feng, you are here."

Now in the eyes of the emperor of the Blood Demon Dynasty, Ye Feng has become a figure that he attaches great importance to.

After all, Ye Feng has shown great strength and future cultivation talent in the royal competition. It can be said that Ye Feng has become the most valuable figure in the Blood Demon Dynasty.

At this moment, after the emperor of the Blood Demon Dynasty said these words, everyone in the entire palace hall suddenly focused their attention on Ye Feng.

Ye Feng immediately sensed at this moment that there were still many powerful cultivation auras among these people.

But that is only for ordinary practitioners, who are very powerful masters.

But for today's Ye Feng, these so-called masters are no longer enough.

However, Ye Feng still maintained basic etiquette, smiled and clasped his fists, and said loudly, "Ye Feng, I am going to the Southern Barbarian Empire with you this time. If there is anything you don't understand, please give me an answer. After all, I am It's also my first time as an envoy to another country, and I don't understand many things."

After hearing Ye Feng's gentle and humble words, many experts present softened their attitude toward Ye Feng.

There are men and women in these teams. The leader is a middle-aged man wearing black armor. He looks mature and stable, but there is a centipede-like scar on his face, which gives him a rather ferocious look. Feel.

Obviously, the middle-aged man wearing black armor leading the team is a powerful being who has been on the battlefield for a long time.

.

This time when the envoy was sent to the Southern Barbarian Empire, he needed to be led by such an iron-blooded killing figure, so that he could stabilize people's hearts and be neither humble nor arrogant when in the Southern Barbarian Empire.

Ye Feng saw the middle-aged man leading the team, especially the scar on the middle-aged man's face. Ye Feng suddenly remembered one of his old friends, Uncle Scar.

I don't know where Uncle Scar is practicing now...

Before, when Ye Feng and Uncle Scar separated, Ye Feng was thinking about when he would be able to see Uncle Scar again, maybe he would never have the chance in this life.

Now it has been a long time since the last separation from Uncle Scar, and Ye Feng has not seen Uncle Scar again.

Maybe Uncle Scar is practicing and experiencing in a certain interface now, and he doesn't know when he will meet him again.

But Ye Feng just thought about it and sighed slightly.

In fact, since Ye Feng embarked on the journey of cultivation, in addition to practicing hard, he also met many good friends, good brothers, and confidants along the way.

But most people dispersed as they walked.

This is also something that can't be helped.

After all, in a person's life, he will always meet all kinds of people. Most of them are passers-by. They may have experienced together for a period of time, then separated in a hurry, and will never see them again in the next life.

Ye Feng thought secretly in his heart and sighed a little.

And just when Ye Feng was thinking in his heart, the middle-aged man in black armor, who was the leader of the Southern Barbarian Empire team this time, immediately walked up to Ye Feng and smiled boldly. Then he said aloud, "Brother Ye Feng's name is as loud as thunder. When I met him in person today, he was well-deserved. No wonder even His Majesty admires and values little brother Ye Feng so much."

Hearing what the middle-aged man in black armor who was leading the team said, Ye Feng immediately grinned and said, "This time we are on a mission to the Southern Barbarian Empire, everyone should help each other. I hope we can go safely this time." , come back safely."

Hearing what Ye Feng said, the emperor of the Blood Demon Dynasty immediately smiled and said, "Don't worry about safety issues. Although the Southern Barbarian Empire has always been hostile to all the major forces in our northern land, sometimes there are some Potential cooperation, and with the continuous improvement of the comprehensive strength of our Blood Demon Dynasty, the

Southern Barbarian Empire, even as the sole controller of the Southern Barbarian land, must pay attention to our Blood Demon Dynasty. This time when you go to negotiate, you must not be weak. In order to maintain the prestige of our Blood Demon Dynasty, we must do our best to fight for the resources to mine that mysterious mineral deposit."

Hearing what the Emperor of the Blood Demon Dynasty said, more than a dozen people in the team present respectfully clasped their fists and said, "Please rest assured, Your Majesty, we will definitely do our best to win the greatest victory for our Blood Demon Dynasty." on interests."

The emperor of the Blood Demon Dynasty was very satisfied when he heard what everyone said. Then he waved his hands and said loudly, "Then you can set off directly."

After finishing speaking, the middle-aged man wearing black armor who led the team immediately nodded and asked Ye Feng to join the team.

Everyone left immediately.

When they walked to the square outside the palace, they found an old man wearing a white robe, driving a huge spiritual boat flying in mid-air, already waiting for everyone.

At this moment, the middle-aged man in black armor who led the team directly took more than a dozen people in the team, including Ye Feng, to the huge spiritual boat in the sky.

Then there was a "boom"!

The old man in white drove the huge spiritual boat and took everyone to turn into a stream of light, flying quickly towards the border of the Blood Demon Dynasty, preparing to cross the entire northern region and go to the southern barbarian land.

At this time, Ye Feng sat on the spiritual boat, looking at the surroundings, including the mountains and rivers that were rapidly retreating below, and his eyes showed a trace of expectation.

After all, Ye Feng had never been to the southern barbarian land, nor had he been to the southern barbarian empire. He didn't know what kind of surprises the only controlling force in the southern barbarian land would bring him.

At this time, Ye Feng and the people in the team started chatting. After all, if they hurried on the road, it would take about two or three days, and they were just sitting around anyway.

Ye Feng also learned from chatting with everyone that the leader of this team, the middle-aged man in black armor, was called Wei Qing, who had made great contributions in the army of the Blood Demon Dynasty.

This Wei Qing's status is also very high. He is not only a general in the army, but also a member of the Wei family, one of the six top families in the imperial city of the Blood Demon Dynasty.

At this moment, many young people in the team are quite curious about Ye Feng.

Because the strength that Ye Feng showed in the royal competition before was so amazing that even the top prodigy in the Northern Territory, such as Long Dingtian, the son of the Ten Thousand Dragons Sect, was just like a weak chicken in Ye Feng's hands and was beaten directly.

So many people are very curious about Ye Feng's true strength.

At this time, there was a young girl named Xu Jiaojiao in the team. She had a pair of simple and beautiful eyes that showed deep curiosity. She stared at Ye Feng and couldn't help but said, "Ye Feng, just tell us how you practiced to be so powerful. It's incredible. I have never seen a peerless genius as powerful as you, Ye Feng, in our Blood Demon Dynasty." At this moment, after Xu Jiaojiao finished speaking, there was a young man next to her who seemed to be called Wang Meng. At this moment, he also quickly responded and said, "Yes, brother Ye Feng, can you tell us how you practiced and how you became so powerful? We all want to learn from you."

Chapter 4755 Under the Mineral Deposit

These young people were selected to join the team that was sent as envoys to the Southern Barbarian Empire. In fact, each of them had very extraordinary origins.

They were either the heirs of a certain prince, or members of the top families, and some even came from the royal family.

However, although their status is very noble, they all show great respect and respect in front of Ye Feng, a person who does not seem to have a noble status.

Because Ye Feng relied entirely on his own strength to achieve his current status, many people are in awe of Ye Feng.

Even if their status is very noble, they don't dare to show any arrogance in front of a top genius like Ye Feng.

At this time, seeing that everyone was very curious and asking about himself, Ye Feng immediately smiled and said, "Okay, since it's quite a long time to go to the Nanman Empire, I will tell you about my practice on the way. Experience it."

When he said this, Ye Feng's thoughts drifted to the small Longyuan Continent in the spiritual world where he was. ??

Next, Ye Feng began to tell the story of his own cultivation. The dangers and difficulties along the way made everyone feel very horrified, and then felt special admiration and respect.

It turns out that the reason why Ye Feng has achieved what he has today is because he has gone through so much suffering and training before he has the strength he has today.

At this moment, whether it was the young girl Xu Jiaojiao, Wang Meng, or others in the team, they looked at Ye Feng with admiration in their eyes.

They never thought that Ye Feng would go from such a small low-level interface to today. I am afraid that among tens of millions of people, they may not be able to find a person like Ye Feng.

At this moment, even Wei Qing, the middle-aged man in black armor who was standing at the front of the spirit boat and leading the team, the iron-blooded general who roamed the battlefield, couldn't help but glance at Ye Feng at this moment.

It was obvious that he had heard all the stories Ye Feng had just told, and he felt sincere admiration and admiration for Ye Feng's legendary life.

Because very few people can work hard from such a weak and low-level cultivation interface to today and become such a powerful existence.

At this moment, Ye Feng smiled and said, "By the way, I have always wondered what kind of mineral deposit is worthy of His Majesty the Emperor sending a team like us to go to the Southern Barbarian Empire to negotiate for that mineral deposit." , aren't the reserves so amazing?"

Hearing Ye Feng's question, many young people in the team couldn't help but shake their heads.

Their eyes were also a little confused.

There was a hint of doubt in Xu Jiaojiao's beautiful big eyes, and she said aloud, "Actually, we don't know exactly what kind of ancient mineral deposits our Blood Demon Dynasty and the Southern Barbarian Empire jointly developed are worth it." Your Majesty attaches so much importance to it, and it seems that the Southern Barbarian Empire also attaches great importance to it, and specially invited us to come over to discuss how to mine it. "

Hearing Xu Jiaojiao say this, Ye Feng's eyes flashed slightly. Even the insiders in this group of teams didn't know. It seems that the mineral deposits in the mine that was negotiated and developed by the Southern Barbarian Empire this time were very mysterious.

At this time, Ye Feng couldn't help but look at Wei Qing, the middle-aged man in black armor at the front of the team.

Wei Qing is the person leading the team this time.

He should know a lot of secrets.

When Ye Feng looked at Wei Qing at this moment, the other young people in the team were actually very smart. They immediately understood what Ye Feng meant, and they all looked in the direction of Wei Qing.

At this time, the young girl named Xu Jiaojiao seemed to have an unusual relationship with Wei Qing, as if they were relatives.

So at this time, Xu Jiaojiao was the first to speak out, "Uncle Wei, please tell us, what kind of mineral deposit are we going to negotiate with the Southern Barbarian Empire to mine this time? Is it worthy of our blood demon?" The two hegemonic forces, the Imperial Dynasty and the Southern Barbarian Empire, attach so much importance to it that they even engage in some kind of negotiation to distribute the benefits and develop it together. "

When Wei Qing heard what Xu Jiaojiao said, his face changed slightly, but then his eyes revealed a look of helplessness, and he said loudly, "This matter is too secret. Your Majesty asked me not to reveal it to you in advance. But since you asked about it, and we are about to go to the Southern Barbarian Empire for negotiations, it doesn't hurt if I tell you in advance."

At this moment, when they heard Wei Qing say such solemn words, everyone's eyes suddenly showed a look of deep surprise, and then a strong look of curiosity. Even Ye Feng suddenly felt... Became interested.

The dozen or so people in the team were all staring at the leader of the team, Wei Qing, at this moment, as if they wanted to wait for Wei Qing's next words.

Is this mineral deposit really very mysterious?

What kind of mineral deposits did the two hegemonic forces, the Blood Demon Dynasty and the Southern Barbarian Empire, attach so much importance to, and they had to cooperate in developing them and even negotiate in advance to distribute the benefits?

It can be seen that this mineral deposit is probably far from being as simple as everyone imagines.

At this moment, Ye Feng was also murmuring in his heart. He suddenly felt that the emperor of the Blood Demon Dynasty asked him to join this team. Maybe it was not just as simple as negotiating with the Southern Barbarian Empire and letting himself shine. There is a deeper reason, which is likely to be related to the ancient mineral deposits that were jointly mined.

And just when Ye Feng was thinking secretly in his heart, Wei Qing's next words made everyone suddenly change their expressions.

Wei Qing looked at everyone and said slowly, "Actually, the ancient mineral deposits that we and the Southern Barbarian Empire want to mine are not so-called mineral veins at all, but the tomb of an ancient great figure. This The burial place of the ancient great figures is buried under that mine, so the mine we are talking about is just a cover to hide the truth from others. What we really want to mine are the tombs of the ancient great figures under that mine. , this ancient big man is not from our Northern Territory or Southern Barbarians, but from the glorious land of Zhongzhou, so this operation is very confidential. Only the upper echelons of our Blood Demon Dynasty and Southern Barbarian Empire know the truth of this matter. , and we are not only a team sent as envoys to the Southern Barbarian Empire, we are also the ones who want to enter the tombs of ancient figures under that mine. So this time, your Majesty has chosen you, all of whom are from the royal family of our Blood Demon Dynasty. The core young figures in the family and the royal family are

specially trained for you. If any of you can obtain the peerless inheritance of that ancient figure in the tomb of that ancient figure, His Majesty will directly seal you as our blood. The first-class nobles of the Demon Dynasty can command a hundred thousand soldiers, so now you know why His Majesty attaches so much importance to this matter and selects the core figures among the younger generation. "These young people can be selected to join this group. In fact, among the ranks of the Southern Barbarian Empire, each one has a very extraordinary origin.

They were either the heirs of a certain prince, or members of the top families, and some even came from the royal family.

However, although their status is very noble, they all show great respect and respect in front of Ye Feng, a person who does not seem to have a noble status.

Because Ye Feng relied entirely on his own strength to achieve his current status, many people are in awe of Ye Feng.

Even if their status is very noble, they don't dare to show any arrogance in front of a top genius like Ye Feng.

At this time, seeing that everyone was very curious and asking about himself, Ye Feng immediately smiled and said, "Okay, since it's quite a long time to go to the Nanman Empire, I will tell you about my practice on the way. Experience it."??

When he said this, Ye Feng's thoughts drifted to the small Longyuan Continent in the spiritual world where he was.

Next, Ye Feng began to tell the story of his cultivation. The dangers and difficulties along the way made everyone feel very horrified, and then felt special admiration and respect.

It turns out that the reason why Ye Feng has achieved what he has today is because he has gone through so much suffering and training before he has the strength he has today.

At this moment, whether it was the young girl Xu Jiaojiao, Wang Meng, or others in the team, they looked at Ye Feng with admiration in their eyes.

They never thought that Ye Feng would go from such a small low-level interface to today. I am afraid that among tens of millions of people, they may not be able to find a person like Ye Feng.

At this moment, even Wei Qing, the middle-aged man in black armor who was standing at the front of the spirit boat and leading the team, the iron-blooded general who roamed the battlefield, couldn't help but glance at Ye Feng at this moment.

It was obvious that he had heard all the stories Ye Feng had just told, and he felt sincere admiration and admiration for Ye Feng's legendary life.

Because very few people can work hard from such a weak and low-level cultivation interface to today and become such a powerful existence.

At this moment, Ye Feng smiled and said, "By the way, I have always wondered what kind of mineral deposit is worthy of His Majesty the Emperor sending a team like us to go to the Southern Barbarian Empire to negotiate for that mineral deposit." , are the reserves very amazing?"

Hearing Ye Feng's question, many young people in the team couldn't help but shake their heads.

Their eyes were also a little confused.

There was a hint of doubt in Xu Jiaojiao's beautiful big eyes, and she said aloud, "Actually, we don't know exactly what kind of ancient mineral deposits our Blood Demon Dynasty and the Southern Barbarian Empire jointly developed are worth it." "

Chapter 4756 Capital City

Hearing what Wei Qing said, more than a dozen people in the entire team present had deep horror in their eyes.

No one thought that the mine they were going to negotiate for mining in the Southern Barbarian Empire would contain such a big secret.

Unexpectedly, under that mine, there was actually the burial place of an ancient figure from Zhongzhou.

No wonder the emperor of the Blood Demon Dynasty paid so much attention to it this time and specially selected so many core young men to form an initial team and go to the Southern Barbarian Empire.

At this moment, Ye Feng among the crowd also had a hint of surprise in his eyes.

In fact, Ye Feng had already realized that something was wrong when he entered the palace hall just before the beginning.

Because the members of envoys sent to other empires are generally relatively experienced old people.

But when Ye Feng entered the palace hall for the first time, he saw that most of the people on the mission to the Southern Barbarian Empire were young people, which made Ye Feng very confused.

Now it seems that my guess is correct. This mine is indeed a very mysterious place. There is actually the burial place of an ancient figure from Zhongzhou buried underneath.

Ye Feng is also very interested in the burial place of such ancient figures.

After all, Ye Feng had cooperated with others not long ago to get a lot of good things from the tomb of an ancient tomb of a peerless and magnificent figure from the land of Zhongzhou, the Netherworld Emperor.

Therefore, Ye Feng is still very interested in exploring such ancient tombs.

Because in the tombs of ancient figures from the glorious land, although there are huge dangers, there are also many opportunities, which can greatly improve one's cultivation strength.

And for some young geniuses, if they can get a person from the glorious land of Zhongzhou,

The peerless inheritance of an ancient great figure means that he can be reborn and become a more powerful existence.

You must know that in relatively remote areas of the Ten Thousand Monsters interface, such as North Vietnam or the Southern Barbarians, although there are many powerful inheritances, they are nothing compared to the most glorious land of Zhongzhou.

Therefore, many people want to find the sleeping place and burial place of this ancient great figure from a glorious place. In this way, they can obtain the peerless inheritance left by this ancient great figure, which can trigger the rapid development of the practice world in a remote area. promote.

After all, a set of peerless inheritance can greatly enhance the overall foundation of the cultivation world in a certain area.

And when Ye Feng was thinking secretly in his heart, many young people in the team present had deep excitement in their eyes.

Because they are also very interested in the burial place of such ancient figures.

They knew very well that this ancient figure who came from a glorious place like Zhongzhou must have a very extraordinary status. There must be countless opportunities and good fortunes in the tomb where he was buried.

But at this time, seeing everyone's excitement, Wei Qing, the middle-aged man who led the team, immediately smiled and said, "Don't get so excited in advance. After all, there is a tomb of an ancient figure under the mine. The land is a very dangerous place, so everyone must explore carefully when the time comes, otherwise, there is a high risk of falling. "

Hearing what Wei Qing said, someone in the team immediately said, "The burial place of such an ancient figure is extremely dangerous and must be very terrifying, but if you want to obtain a huge opportunity, death and injury are inevitable."

Wei Qing nodded and said aloud

"I will go down with you when the time comes, and I will try my best to ensure the safety of each of you."

After that, no one said anything more, but sat silently in the spirit boat, quietly waiting to arrive at the territory of the Southern Barbarian Empire.

After all, now that they knew the true purpose of their trip, although they were a little excited and excited, they were also a little uneasy and nervous.

After all, that was the burial place of an ancient figure from the most glorious land of Zhongzhou, and it must be very dangerous.

At this moment, many people in the team couldn't help but start to swallow some pills to improve their cultivation skills in a short time, or to quickly practice some powerful inheritance.

Nowadays, these people have to practice harder than ever, hoping to increase their strength as quickly as possible, so that they can be safe in that ancient tomb.

Because they knew very well that even if Wei Qing, the leader of the team, was a very powerful middle-aged man, in the ancient tombs of such ancient big figures, no one knew when an accident would happen.

So even if Wei Qing is very powerful, it is impossible to protect everyone.

The young people in the team are basically from major top families or the royal family, so their thoughts are very exquisite, and they understand in an instant that this time may be an opportunity to change their destiny.

Naturally, they are all starting to practice hard now, wanting to improve their strength as much as possible. When the time comes, whether it is to protect their own safety or to obtain the wealth in the tomb of that ancient big man, it will be of great help.

Ye Feng was sitting quietly at this time, thinking in his heart, who is the owner of the tomb of this ancient important person from the land of Zhongzhou? I wonder if he is as powerful as the Netherworld Emperor.

However, Ye Feng thinks that it should be

Not as powerful as the Nether Emperor.

After all, the Netherworld Emperor was the most glorious figure that ever appeared in the land of Zhongzhou.

But even if it is not as powerful as the Netherworld Emperor, the tomb of an ancient figure who is so valued by the Blood Demon Dynasty and the Southern Barbarian Empire must be very extraordinary.

And with the experience of exploring the tomb of the Netherworld Emperor last time, Ye Feng felt that this time he would be much better off in the ancient tomb under the mine.

At this moment, Ye Feng suddenly thought of the mysterious white-haired zombie in the tomb of the Netherworld Emperor, disguised as a female swordsman in red from the Southern Barbarian Empire, who seemed to be called Honglian.

I wonder if she will enter this ancient tomb jointly developed by the Southern Barbarian Empire and the Blood Demon Dynasty?

Ye Feng felt that it was very likely that she would enter this ancient tomb, because the female swordsman Honglian in red was now a white-haired zombie. This white-haired zombie was originally born in a relatively dark and dangerous place like ancient tombs. So maybe she will join the expedition this time.

Just as Ye Feng was thinking secretly in his heart, on the morning of the third day, the huge spirit boat finally began to slowly descend from the sky.

At this time, Wei Qing suddenly stood up in the spirit boat, looked into the distance, and said loudly, "We have arrived at the capital area of the Southern Barbarian Empire."

"Are you here already?"

Swish, swish, swish!

At this time, everyone stood up one after another and looked forward.

They immediately saw a shocking scene.

In the primeval forest ahead, a huge and shocking capital city appeared.

The capital is very large, and some buildings even tower into the sky, giving people a vast and majestic visual impact. This is the imperial capital of the Southern Barbarian Empire!

Chapter 4757 Barbarian Emperor

It has to be said that the Southern Barbarians and the Great Wilderness are almost connected together.

The imperial capital city of the Southern Barbarian Empire was built almost in the wild primeval forest.

Therefore, in an endless green forest, such a huge imperial city that covers a vast area and reaches into the sky suddenly appeared, which naturally gave people a very abrupt visual impact.

Buzz! .??.??

At this moment, the huge spirit boat landed on the ground.

Wei Qing looked at the people behind him and said loudly, "Next, we will go directly to the imperial capital of the Southern Barbarian Empire. Because the Southern Barbarian Empire has regulations, flying spiritual weapons are not allowed to enter within a radius of five thousand meters around the imperial capital. We still Just follow this rule, after all, this time we are here for negotiation, not for war."

Hearing what Wei Qing said, everyone nodded, and then followed Wei Qing and walked towards the huge city in front of them.

Although we were walking in the primitive jungle, we did not encounter any dangers along the way. After all, this was already covered by the central capital of the Southern Barbarian Empire, so there were no ancient evil beasts or beasts in the primitive forest or wild forest. Powerful monsters come here to run wild.

The group of people arrived at the gate of the capital of the Nanman Empire very smoothly.

However, at this time, there were indeed many guards at the gate of the capital, and they immediately surrounded everyone, with alert eyes.

These guards should all be powerful guards in the capital of the Southern Barbarian Empire. However, they are very tall and different from ordinary people in the Northern Territory. They should be humans with barbarian blood, so all of them are very tall. He is burly, estimated to be three to four meters tall, and is wearing heavy black iron armor. He gives the impression of being a berserker, very oppressive.

But this time the Blood Demon Dynasty Faction

The team that came, including Ye Feng, didn't feel any pressure at this moment because they were all core experts.

Wei Qing immediately smiled slightly, took out a golden token from his storage ring, looked at the group of tall Nanman guards at the city gate, and said loudly, "Don't be nervous, everyone, we are from the blood The envoy of the Demon Dynasty, please let us go to see your emperor of the Southern Barbarian Empire, we have important matters to discuss with him."

At this moment, they saw the golden token in Wei Qing's hand and confirmed the identity of the group. The guards of the Southern Barbarian Empire City immediately nodded and opened the door.

At this moment, a guard of the Southern Barbarian Empire who was more than four meters tall was wearing black armor and holding a spear made of black iron in his hand. He was like a metal giant. He immediately stood up. He said loudly, "Envoys from the Blood Demon Dynasty, please let me take you to see our Majesty the Barbarian Emperor."

Wei Qing immediately nodded, smiled and said, "Thank you then."

After finishing speaking, this tall black armored guard led everyone directly towards the inner area of the capital of the Southern Barbarian Empire.

When everyone arrived at the capital of the Nanman Empire, their eyes revealed a look of surprise.

Because the capital of the Southern Barbarian Empire seemed very huge, but when we actually walked into the capital, we found that there were actually very few buildings on the streets, and most of them were not as built as the buildings in the imperial city of the Blood Demon Dynasty. It is not exquisite, but looks simple and rustic.

Apart from this, there is no such thing in the entire capital.

There were so many people coming and going, it was completely different from the lively scene in the Imperial City of the Blood Demon Dynasty.

At this time, Ye Feng saw this scene in the crowd, and his eyes showed a trace of surprise, and then his eyes showed a trace of surprise. Ye Feng figured it out, the Southern Barbarian Empire and the Blood It is normal for the demon dynasty to have different prosperity. This is a cultural difference.

The Nanman Empire is a large force that mainly engages in wars all year round, so there are not many people waiting in the capital. Most of them should be the upper class of the Nanman Empire living there, so naturally there are not that many people coming and going, and there is no excitement. Extraordinary look.

It is estimated that the Nanman Empire did this to ensure safety and tranquility in the capital.

While Ye Feng was thinking secretly, a group of people, led by the tall guard, had entered the most central area of the capital. ??

This should be the imperial palace of the Nanman Empire.

The moment everyone walked in, they immediately saw a huge castle-like building, standing in the palace. There was nothing else, just such a huge castle.

"Forehead?"

Seeing this scene, everyone's eyes once again revealed a look of astonishment. It was obvious that the architectural style and customs of the Southern Barbarian Empire were completely different from those of the Blood Demon Dynasty, giving people a very weird, yet strange feeling of alien beauty.

At this time, when the extremely tall guards led everyone into this huge castle, everyone immediately saw an extremely tall, giant-like figure with a height of six or seven meters sitting in the castle. Inside the castle is a throne made entirely of crystal.

This person should

He is the emperor of the Southern Barbarian Empire.

For this mysterious and majestic looking barbarian emperor, when everyone saw it for the first time, they all felt a huge sense of depression in their hearts, as if they were looking up at a legendary statue. Like giant gods.

At this time, Wei Qing immediately clasped his fists and said, "I, Wei Qing, am the leader of this mission. I have met the noble Emperor Mandarin."

Hearing what Wei Qing said, the emperor of the Southern Barbarian Empire, who was sitting on the crystal throne at the top, immediately nodded slightly, and then made a majestic voice, "I already know the purpose of your visit this time. After all, I had blood with you before. The emperor of the Demon Dynasty once communicated with his spiritual thoughts across the sky, so you don't need to say anything. Now that you are here, stay temporarily in our Southern Barbarian Empire. In three days, our people will take you to the location of the mine. "

At this time, when he heard the emperor of the Southern Barbarian Empire say this, Wei Qing immediately clasped his fists and said loudly, "Your Majesty, the Emperor of the Southern Barbarian Empire, we are here mainly to cooperate in the development of that mine." The tomb of an ancient figure, but before that, I think we need to distribute the benefits in advance. "

Hearing what Wei Qing said, the emperor of the Southern Barbarian Empire suddenly flashed his eyes, and then said loudly, "How do you think the wealth obtained from the tomb of that ancient figure should be distributed?"

Wei Qing's eyes moved, and then he said aloud, "According to what His Majesty the Blood Demon Dynasty means, we will distribute the benefits according to the conditions of those who are able to work more. The meaning is very simple, that is, after going to that ancient tomb, whoever has the ability to get more wealth will get it directly instead of sharing it equally. In this case, it can mobilize everyone's enthusiasm even more. I wonder what His Majesty the Barbarian Emperor thinks? "

Chapter 4758 My old friend

At this time, after hearing what Wei Qing said, the emperor of the Southern Barbarian Empire thought for a moment, then nodded and said, "It seems that the emperor of the Blood Demon Dynasty is very confident in the strength of your team this time. "

Wei Qing immediately smiled and said, "I wonder what your Majesty, the noble Emperor of the Southern Barbarian Empire, thinks of you?"

"No problem, just do as you say."

At this moment, the emperor of the Southern Barbarian Empire suddenly said, "The emperor of the Blood Demon Dynasty is very confident in his team, and I am also very confident in the team I selected."

After finishing speaking, the emperor of the Southern Barbarian Empire looked directly at the guard wearing black armor beside him and said loudly, "Go and bring out the team we selected so that everyone can get to know each other so that they can cooperate with each other later and enter that ancient big shot." Exploring the situation among the tombs."

"Yes, His Majesty the Emperor."

At this time, the black armored guard just hugged his fists and left.

When the black armored guard came back again, everyone immediately saw that a group of more than a dozen people were following behind the black armored guard.

This group of more than a dozen people should be core experts specially selected by the elite of the Southern Barbarian Empire to carry out this exploration mission of the tombs of ancient figures.

At this time, Ye Feng's eyes suddenly moved, because he saw among the teams of the Southern Barbarian Empire, and sure enough, Hong Lian, the female swordsman in red whom he had met in the ancient tomb of the Netherworld Emperor, was among them. .??.

This female swordsman in red is still as young and beautiful as before, very beautiful and moving.

The moment she appeared, everyone's eyes were immediately focused on her.

Because of such an extremely beautiful and heroic female swordsman, anyone would want to take a closer look at her. The attraction is too great.

But Ye Feng's eyes showed no fluctuation at this time.

Ye Feng knew very well that the real female swordsman in red was completely dead. The female swordsman in red who came here now, this Honglian, was

A very strange white-haired zombie transformed into the tomb of the Netherworld Emperor, so Ye Feng's eyes did not waver at this time.

However, Ye Feng did not fluctuate, but Hong Lian, a female swordsman in red, smiled and said loudly not far away, "I didn't expect to meet my old friend, Ye Feng, here."

"What?"

"Ye Feng actually knows this heroic and beautiful swordsman from the Southern Barbarian Empire?"

At this moment, everyone present looked surprised when they heard Honglian suddenly making a sound.

Many male experts stared at Ye Feng with envy in their eyes.

Because she is such a beautiful and heroic female swordsman in red, and she is also a core figure personally selected by the emperor of the Southern Barbarian Empire. She must have a very high status in the Southern Barbarian Empire. Unexpectedly, she met Ye Feng and was an old friend. And from the tone of Hong Lian, the female swordsman in red, it can be heard that her relationship with Ye Feng seems to be quite close.

At this time, Ye Feng heard Hong Lian say such words directly, and he recognized him directly. The corner of Ye Feng's mouth immediately twitched slightly. Unexpectedly, this white-haired zombie turned into the red-clothed female swordsman Hong Lian. , to be so bold, don't you know how to keep a low profile?

After all, Honglian's identity is disguised.

However, Ye Feng also knows that the other party is probably very confident in his disguise and is not afraid of others recognizing him.

After all, even the emperor of the Southern Barbarian Empire in the palace at this moment, this unfathomable emperor, could not tell Honglian's true identity.

Therefore, Ye Feng felt that this white-haired zombie's transformation skills were so powerful that no one could tell.

If he hadn't witnessed the real Guren's head being bitten off and soaked in the body water, he probably wouldn't have known that this Guren was the white-haired zombie in disguise.

here and now

At this moment, Ye Feng smiled in a coping manner and said, "I didn't expect to meet Miss Honglian again here. After all, it's been a long time since we last saw each other."

Hearing what Ye Feng said, everyone's eyes suddenly showed surprise. They didn't expect that Ye Feng really knew this Honglian from the Southern Barbarian Empire.

At this moment, the young man in the previous team, Wang Meng, couldn't help but come to Ye Feng's side, and whispered with great envy, "Ye Feng, you are so amazing, you actually know someone like this from the Nanman Empire." You are an unrivaled beauty, Ye Feng, you must seize the opportunity. If you can win the heart of this goddess, you will definitely enjoy good treatment in the Southern Barbarian Empire."

At this moment, the emperor of the Southern Barbarian Empire also had a look of surprise in his eyes. He couldn't help but smile and asked, "Oh? I didn't expect you, Honglian, to know this little brother from the Blood Demon Dynasty. His name is Hong Lian." Ye Feng, right? Ye Feng... I seem to have heard some time ago, is it the young genius who ranked first in the recent blood demon dynasty royal competition, who seemed to have defeated Long Dingtian, the son of the Wanlong Divine Sect? He's a pretty good talent with unlimited future potential."

"What? This young man in white clothes is the same as Ye Feng?"

At this moment, hearing the emperor of the Southern Barbarian Empire say this, everyone present showed surprise in their eyes.

Especially the other people in this group of people from the Southern Barbarian Empire were all shocked.

Originally, they felt that Ye Feng and their goddess Honglian, a female swordsman in red, were quite close, and they were a little envious and jealous.

But now that they learned about Ye Feng's identity, he turned out to be the number one in the Royal Competition of the Blood Demon Dynasty. Someone in the Southern Barbarian Empire's team couldn't help but said, "I didn't expect that such an ordinary-looking young man could be the recent one." The most rumored one is the blood demon dynasty's first place in the royal competition. This Ye Feng is now regarded by everyone in the entire northern region as the number one peerless genius in the entire northern region. I didn't expect him to be so powerful. ,No

It seems that this Ye Feng has made a huge noise in the wilderness before, and completely offended the top overlord races in the wilderness, the Sun God Clan and the Amethyst Dragon Clan. I guess this Ye Feng must be a thorn in the side. , it's better not to offend him. "

At this moment, there are several young and powerful men from the Southern Barbarian Empire among this group of Southern Barbarian Empire. They originally wanted to have a good fight with Ye Feng, but now they all suddenly became a little timid, because Ye Feng The power of the wind is simply too strong.

At this time, the emperor of the Nanman Empire suddenly smiled and said, "Since everyone has met, let's get to know each other. If anyone wants to learn from each other, that's even better. I happen to be watching here. I want you to compete and see who is more powerful, the younger generation of core masters from our Southern Barbarian Empire and the younger generation of masters from your Blood Demon Dynasty, especially Ye Feng, the peerless genius from your Blood Demon Dynasty. I have been talking for a long time, and I want to see if his true strength is really as powerful as the rumors."

When Wei Qing heard the emperor of the Southern Barbarian Empire say this, there was no surprise on his face, because he knew very well that when they came to the Southern Barbarian Empire at this time, they would definitely encounter such a thing.

So at this time, Wei Qing looked very calmly at the dozen young masters from the Blood Demon Dynasty behind him, including Ye Feng, and said with a smile, "Since the noble Emperor of the Southern Barbarian Empire has said so, Then we can't refuse. Is there any of you who is willing to compete with these young core masters of the Southern Barbarian Empire? It would be a friendly exchange between our two top powers."

But at this time, Honglian, the female swordsman in red among the Nanman Empire's team, suddenly looked at Ye Feng, with a slight smile on her beautiful face, and said loudly, "I don't want to die before going to the tomb." Fighting and killing is a waste of my energy. Now I just want to invite Mr. Ye Feng to the side hall to drink tea and chat. How about it? I don't know if Mr. Ye Feng

will appreciate it. If others want to discuss it, You can do whatever you want, just don't disturb my private chat with Young Master Ye Feng."

Chapter 4759 Uniquely blessed

At this time, Honglian suddenly said this, causing many people present to have deep surprises in their eyes.

Everyone looked at Hong Lian and Ye Feng, and they seemed to have never thought that Hong Lian, in such a tense atmosphere at this moment, actually said that she wanted to have a private chat and drink tea with Ye Feng, which really gave people a very special feeling. Abrupt feeling.

However, this female swordsman in red, Hong Lian, seems to have a very high status in the Southern Barbarian Empire. Even the emperor of the Southern Barbarian Empire could not help but smile and say at this moment, "Since Hong Lian, you have such a high status." Yaxing, then go to the side hall and have a good chat with this young man Ye Feng."

After finishing speaking, Honglian nodded, then walked towards Ye Feng, smiled and said, "Ye Feng, let's go directly to the side hall to chat. As for others who want to compete, let them be there." The fight here is none of our business."

When Ye Feng heard what Hong Lian said, his eyes flickered slightly, and then he smiled and said, "Okay, then let's have a private chat."

Ye Feng actually wanted to know that Hong Lian was looking for him alone to discuss the ancient tombs under the mine, because Ye Feng was the only one present who knew Hong Lian's true identity, that he was transformed into a white-haired zombie. of.

At this time, Ye Feng looked at Wei Qing, the leader next to him, and said, "Senior Wei, I will go to the side to chat with Hong Lian from the Southern Barbarian Empire. You guys will fight first. If I have time, I'll compete again."

Wei Qing immediately nodded, patted Ye Feng's shoulder, smiled and said, "Okay, I'll let the others compete with the young masters from the Southern Barbarian Empire first. You can go and compete with that group with peace of mind." Let's talk to Honglian."

Wei Qing knew very well that this Honglian did not follow the instructions of the emperor of the Nanman Empire to fight, but wanted to chat with Ye Feng alone, and the emperor of the Nanman Empire also agreed, which is enough to show that this Honglian has a certain identity in the

Nanman Empire. The status is very high, even the emperor of the Southern Barbarian Empire seems to have special preferential treatment for Honglian.

This made everyone in the Blood Demon Dynasty team couldn't help but guess that this Hong Lian who looked extremely beautiful was definitely not just as beautiful as she looked. The identity of this Hong Lian must also be very extraordinary.

At this moment, Wei Qing led a group of young masters from the team and began to compete with the young masters from the Nanman Empire's team in the main hall.

Ye Feng followed Honglian to the side hall next to the main hall.

At this time, Ye Feng saw no one around, and finally couldn't help but said, "Miss Honglian, I wonder what specific matter you have for me?"

Hearing what Ye Feng said, Honglian smiled slightly and said, "The owner of the ancient tomb under the mine that I am going to enter this time knew me back then, so I will need your help, Ye Feng."

Hearing what Honglian said, Ye Feng's eyes suddenly showed a look of astonishment, but then he nodded suddenly.

This red lotus is now a white-haired zombie, and the white-haired zombie in the ancient Netherworld Emperor's tomb must have been a very powerful figure in the ancient times before he died that year, otherwise he would not be qualified to be a person in the Netherworld Emperor's tomb. Buried people.

So now in the Southern Barbarian Empire and Blood

The ancient figure found under this mineral deposit at the junction of the Demon Dynasty is said to have come from the land of Zhongzhou, and was Honglian's old friend, which makes sense.

At this time, Ye Feng couldn't help but said, "Why do you need my help alone? Logically speaking, the female swordsman in red you are pretending to be in the Southern Barbarian Empire has such a high status, you should be able to find a very powerful one." Helpers help you."

When Honglian heard what Ye Feng said, she immediately smiled and shook her head, saying, "I'm too lazy to cooperate with those people. The so-called masters in the Southern Barbarian Empire are just a group of idiots, and among the ancient tombs The dangers encountered are very strange, and only special people can handle them with ease. Ye Feng, you are very capable. I know this. You were able to break my powerful illusion under the ancient tomb of the Netherworld Emperor. And you finally got the Netherworld Emperor's Netherworld elixir, which naturally shows that your ability is very strong."

"Um?"

Hearing what Hong Lian said, Ye Feng's face suddenly changed slightly, and he couldn't help but said, "How do you know that I got the inner elixir of Emperor Netherworld?"

Honglian immediately smiled and said, "I know the aura of Netherworld Emperor better than anyone else. You exude the huge energy of Netherworld Emperor. Others may not be able to sense it, but I can feel it clearly. I want Netherworld Emperor." Not only have you obtained the inner elixir, you have also successfully integrated it into your heart. Now you can even use the power of the Netherworld Emperor in the Netherworld inner elixir, right?"

Hearing Hong Lian's words, Ye Feng immediately took a slight breath. This white-haired zombie turned into Hong Lian, and he was indeed a very powerful guy.

At this moment, since Ye Feng has been seen through, there is no need to hide anything anymore. Instead, he smiled and said loudly, "Yes, I successfully integrated the Nether elixir into my heart, and I did Being able to use part of the Nether Emperor's power to play a huge role at critical moments is why you asked me to cooperate, right?"

Honglian immediately nodded and said, "The power of Emperor Netherworld is related to the legendary underworld. The secret of eternal life that Emperor Netherworld found back then actually came from the underworld, so you have part of Emperor Netherworld's power. Naturally, we have unique conditions for exploring ancient tombs and places related to the underworld, so I want to work with you."

When Ye Feng heard what Honglian said, he nodded slightly.

This Honglian was originally a white-haired zombie. It was a strange existence born in ancient tombs and places related to the underworld. The other party must be able to navigate the ancient tombs with ease. It would be a good thing to cooperate with this Honglian.

But at this time, Ye Feng couldn't help but said, "But this time we entered the ancient tomb as a team of two big forces. By then, we are in our respective teams, and it is estimated that it will not be possible to cooperate together, and some methods have been used. Your identity may be exposed."

Ye Feng knew very well that the beautiful looking beauty in front of him was actually a white-haired zombie, a very strange existence.

When Ye Feng said this, Hong Lian chuckled and said, "Isn't this simple? When the time comes, we will follow our respective teams and enter the ancient tomb, and we will randomly create an accident. In the chaos, we will be alone." Just spread out." At this time, Honglian suddenly said this, causing many people present to have deep surprises in their eyes.

Everyone looked at Hong Lian and Ye Feng, and they seemed to have never thought that Hong Lian, in such a tense atmosphere at this moment, actually said that she wanted to have a private chat and drink tea with Ye Feng, which really gave people a very special feeling. Abrupt feeling.

Chapter 4760 Getting worried

Hearing what Honglian said, Ye Feng immediately nodded and said, "Okay, then it depends on the situation. We will leave the team alone and then get together again."

At this time, Ye Feng still very much agreed with Honglian's method.

Because Ye Feng knew very well that whether it was the team of the Southern Barbarian Empire or the team of the Blood Demon Dynasty on his own side, the core masters among them were actually not very good to be honest.

Ye Feng and Hong Lian are estimated to be the strongest.

So if there are any benefits in this ancient tomb, then Ye Feng naturally wants to get it alone.

At this time, after the two of them had discussed it, Ye Feng seemed to have thought of something, and immediately couldn't help but asked, "Honglian, since you know the owner of the ancient tomb under the mine, can I ask in advance?" , who is the owner of this ancient tomb? Is he more powerful than the Netherworld Emperor?"

Hearing what Ye Feng said, Hong Lian showed a hint of contempt in her beautiful eyes and said, "How transcendent is the Nether Emperor? How worthy is he to compare with the Nether Emperor?" ??

When Ye Feng heard what Hong Lian said, his eyes flashed slightly. It seemed that the owner of the ancient tomb that he was going to enter this time was not as powerful as the Netherworld Emperor, and seemed to be far worse than the Netherworld Emperor.

However, Ye Feng could tell from Hong Lian's tone that Hong Lian seemed to have a very deep hostility towards the owner of the underground tomb and was very rude in his words. Maybe they were enemies back then.

However, Ye Feng didn't think much at this time and just said, "Since you don't want to reveal too much, I don't bother to ask. Anyway, this time I went to the ancient tomb under the mine to get good things. The owner of the tomb is Who are you and what grudges did you have with Honglian back then? I'm not very interested."

After saying that, Ye Feng turned around and left.

When Ye Feng walked into the hall, he found several young people beside Wei Qing, all with bruises on their noses and swollen faces.

Seeing this scene, Ye Feng immediately understood that he was probably beaten by the core master of the team from the Southern Barbarian Empire.

At this moment, Ye Feng saw the emperor of the Southern Barbarian Empire obviously looking happy on his face.

, obviously the Southern Barbarian Empire team performed very well.

At this moment, when Wei Qing saw Ye Feng finally coming over, he couldn't help but said, "Ye Feng, you are finally here. Come quickly and compete with the core masters of these Southern Barbarian Empire teams." "

At this moment, Wang Meng, who had been chatting with Ye Feng a lot on the spirit boat before, this young man, also quickly pulled Ye Feng towards the team and said loudly, "Ye Feng, you must teach these bastards a lesson, they will do it." Too cruel."

Xu Jiaojiao, a beautiful and generous woman, also said quickly, "Yes, Mr. Ye Feng, you must teach the core masters of these teams in the Southern Barbarian Empire a lesson."

When Ye Feng heard what these people said, he immediately smiled dumbly and nodded.

At this moment, Ye Feng walked directly to the middle of the hall.

At this time, when they saw Ye Feng walking directly to the middle area, Wei Qing, and a group of core young masters from other Blood Demon Dynasty teams, their eyes suddenly showed excitement and they stared at him. Ye Feng, I am very much looking forward to Ye Feng's next performance.

Because in the previous royal competition of the Blood Demon Dynasty, they had all seen with their own eyes that Ye Feng's cultivation and strength were so powerful that he could hang up and beat the top talents of the Northern Territory like Long Dingtian, the son of the Wanlong Divine Sect.

Therefore, they still have great faith and confidence in Ye Feng's skills and strength.

At this time, they naturally wanted to see Ye Feng's performance, and he would definitely be able to give this group of core masters of the Southern Barbarian Empire a good beating.

However, the core masters of the Southern Barbarian Empire did not look at Ye Feng that seriously.

Although they had heard of Ye Feng's reputation, they felt that they might be able to fight against Ye Feng.

Because these core masters of the Southern Barbarian Empire have always lived in the Southern Barbarian land, they have no control over the weaker region of the Northern Territory.

, is naturally born with a look-down mentality.

Moreover, Ye Feng and Honglian, the goddess-level figures in their Southern Barbarian Empire, actually had a private chat with Ye Feng in the side hall for so long, which made many core masters of this group of Southern Barbarian Empire teams, They were all very envious of Ye Feng.

They had long wanted to compete with Ye Feng and then give him a blow.

At this moment, a young man wearing black armor, who should also have barbarian blood, was very tall and majestic, two to three meters tall.

At this moment, he was wearing black armor, holding a black ax in his hand, and slowly walked out of the Southern Barbarian Empire's team. ??

He looked at Ye Feng, grinned, his eyes were very savage and ferocious, and said loudly, "Ye Feng, right? Your partners just now, those so-called core masters of the Blood Demon Dynasty, I am very happy, now you are here, it's of no use, you'll still be beaten badly by me."

When Ye Feng heard this man in black armor from the Southern Barbarian Empire say this, he immediately smiled lightly and said, "Take action, otherwise you will have no chance to take action."

"Arrogant!"

Hearing what Ye Feng said, this young man in black armor in the Southern Barbarian Empire's team immediately showed a trace of cynicism on his face, and then said loudly, "I want to see, you, the so-called Northerner who has been blown up to the sky during this period." Is the top genius in the domain that powerful? Can he survive a hundred moves under my storm axe?"

At this time, hearing this young man in black armor from the Southern Barbarian Empire say this, Ye Feng just shook his head lightly and said, "Take action, otherwise you really have no chance to take action."

"You're too arrogant!"

Seeing Ye Feng repeating these words again, this young man in black armor from the Southern Barbarian Empire felt that Ye Feng was looking down on him, and an extremely powerful aura of cultivation suddenly burst out from his body.

boom!

This aura of cultivation is clearly at the level of Dao Dao Realm, which is the same realm as Ye Feng!

But this young man in black armor is the cultivation aura of the Great Perfection in the tenth level of the Kaidao Realm, while Ye Feng is only in the first level of the Kaidao Realm.

It has to be said that having this kind of cultivation is definitely considered a very high and powerful cultivation level in the Northern Territory or in the Southern Barbarians.

So at this moment, this young man in black armor felt that Ye Feng, the so-called number one genius in the Northern Territory, was nothing in front of him.

Boom! !

At this moment, the young man in black armor held the black ax in his hand and slashed towards Ye Feng.

Wow!

Along with his chopping, very terrifying hurricanes burst out from his axe, which seemed to be able to smash everything, and the power was particularly terrifying.

At this moment, seeing Ye Feng still standing there, many core experts in the Southern Barbarian Empire couldn't help but sneered and said, "I see this so-called number one genius in the Northern Territory. It's nothing among us Southern Barbarians, you can see he's been frightened."

At this time, a group of core masters from the Blood Demon Dynasty beside Wei Qing, including Wang Meng and Xu Jiaojiao, saw the thousands of hurricanes erupting from the ax in the hands of this young man in black armor from the Southern Barbarian Empire. , this terrifying power also made me feel a very terrible feeling.

They suddenly became worried about Ye Feng!

Xu Jiaojiao couldn't help but said, "These young masters of the Southern Barbarian Empire are indeed too powerful. They are a whole level stronger than our Northern Territory as a whole. Ye Feng's ability to defeat the Son of God of the Ten Thousand Dragons Divine Sect in our Northern Territory may also represent It's nothing, but when we come to the land of the Southern Barbarians, these geniuses are all too powerful, much higher than Ye Feng's cultivation level. I wonder if Ye Feng will be in danger."

At this moment, even the leader of the Blood Demon Dynasty, Wei Qing, had a solemn look in his eyes.

Because the younger generation of these core masters in the Southern Barbarian Land are indeed a level higher than those in the Northern Territory, and their cultivation strength, including the weapons in their hands, are too terrifying.
