Chapter 4761 Even if you don't accept it, you have to accept it

At this moment, everyone was worried about Ye Feng.

Originally, these core masters of the Blood Demon Dynasty were very confident in Ye Feng.

But now the core master of the Southern Barbarian Empire on the opposite side, this young man wearing black armor, the storm ax in his hand burst out thousands of hurricanes, which had terrifying power, making everyone worried about Ye Feng.

Because Ye Feng had only fought against the geniuses in the Northern Territory before.

But now the opponent is the core master in the Southern Barbarian Empire, and his cultivation level is so high, which is naturally beyond everyone's imagination. ??

But at the next moment, everyone saw Ye Feng suddenly stretch out a hand.

Buzz!

Then Ye Feng's hand immediately turned into a huge golden dragon claw.

It was the peerless inheritance within the royal family of the Blood Demon Dynasty that Ye Feng had learned before, the Dragon's Claw!

boom!

At this moment, Ye Feng's palms turned into the claws of the ancient dragon, which were terrifyingly sharp and heavy. He immediately pinched the huge storm axe.

Then the thousands of hurricanes generated around the Storm Battle Ax were directly broken into pieces by Ye Feng's huge dragon claw in an instant.

At this time, Ye Feng just grabbed the black battle ax and stood motionless.

"What? You...!"

At this moment, the young man in black armor from the Southern Barbarian Empire who was holding the Storm Battle Ax couldn't help but change his face immediately.

Because he discovered that he was holding this black battle ax and couldn't break free from Ye Feng's palm.

How terrifying is this power? ?

At this moment, seeing Ye Feng's palm turn into a ferocious and powerful dragon's claw, this young man in black armor from the Southern Barbarian Empire couldn't help but said in horror: "

What kind of inheritance is this? How can it allow you to have such a strong power? And why is the power of your body so terrifying? The thousands of hurricanes in my storm ax were crushed to pieces by you in an instant. "

Ye Feng's face showed no emotion at this moment. He just smiled faintly and said, "I told you earlier, if you don't take action, you won't have a chance to take action. Do you know why now?"

boom!

After finishing speaking, Ye Feng directly moved his palm, and a dragon claw was blasted out. The dragon claw suddenly burst out with terrifying power, knocking down the young man in black armor from the Southern Barbarian Empire in front of him. After flying out, the ax in his hand was also blown away and fell to the ground not far away.

"What??"

"Is he so strong??"

Seeing this scene at this moment, everyone present could not help but have horrified looks in their eyes.

Whether it was the group of core masters from the Southern Barbarian Empire or the core masters from the Blood Demon Dynasty, they all had very shocked expressions on their faces as they stared at Ye Feng's figure at this moment.

But the next moment, the core experts in the Blood Demon Dynasty team, including the leader Wei Qing, all suddenly showed deep excitement and excitement on their faces.

They did not expect that Ye Feng was not only powerful in the Northern Territory, but was still powerful when he came to the more advanced Southern Barbarian Land! !

Facing these core strong men of the Southern Barbarian Empire, they still have a crushing attitude.

At this time, Wei Qing, the leader of the Blood Demon Dynasty, couldn't help but said with emotion: "Ye Feng is now probably the first of the younger generation in the north and south areas of our entire Ten Thousand Demon Interface. As one person, no one can shake Ye Feng's position."

Hearing what Wei Qing said, a group of core masters from other Blood Demon Dynasty teams all nodded in agreement.

At this time, two young men, Xu Jiaojiao and Wang Meng, quickly laughed and said: "It seems that we still underestimated Ye Feng's strength. It is too strong. I was worried about Ye Feng just now. No." Thinking that Ye Feng defeated this extremely powerful young man in black armor from the Southern Barbarian Empire with one move."

At this moment, these young people in the blood demon dynasty team worshiped Ye Feng to the extreme.

At this time, the emperor of the Southern Barbarian Empire not far away flashed his eyes slightly, then smiled and said: "He is worthy of being the number one genius of the Blood Demon Dynasty, and he is worthy of being the number one genius of the Northern Territory. He is indeed powerful. Incomparably powerful, these top geniuses of our Southern Barbarian Empire that I carefully selected are nothing in front of a young man like you, Ye Feng. They were defeated with a direct crushing attitude. They are indeed powerful. "

At this moment, the emperor of the Southern Barbarian Empire was speaking, his tone seemed to have an inexplicable meaning.

Ye Feng smiled slightly and said loudly: "His Majesty the Barbarian Emperor is so complimentary."

The emperor of the Southern Barbarian Empire immediately smiled and said, "You don't have to be so modest. You are indeed very powerful. I am very surprised."

At this moment, the young man in black armor who was the core master of the Southern Barbarian Empire and was blasted away by Ye Feng, immediately got up from the ground.

At this time, he stared at Ye Feng with fear in his eyes. He couldn't help shaking his head and sighing, and said loudly: "You are worthy of being the number one genius in the Northern Territory. He is really powerful. At that moment just now, Ye Feng, you should have held back." "If you didn't hold back, I think all the bones in my body would have been completely broken. I underestimated the people in the world. You still have some outstanding talents in the Northern Territory, and they are not as weak as you think."

At this moment, hearing the top young master of the Southern Barbarian Empire say this, the young people in the Blood Demon Dynasty team showed proud expressions on their faces.

The Northern Territory has always been a very weak area in the eyes of practitioners in the Southern Barbarian Land, and many people simply look down on the people of the Northern Territory.

But this time, Ye Feng, under the eyes of everyone, defeated the top core master in the Southern Barbarian Empire in an upright moment, which made everyone in the entire Northern Territory gain face.

At this time, in the eyes of these core masters of the Southern Barbarian Empire, the Northern Territory finally became tougher.

At this moment, Honglian also came over from not far away, smiled and said to everyone in the Nanman Empire's team: "Don't provoke Ye Feng. It's meaningless. Ye Feng is better than any of you." Everyone must be strong, and much stronger."

Hearing what Honglian said at this time, many other young masters in the Nanman Empire team were a little unconvinced, but they thought that Ye Feng had just blown away the strongest young man in black armor in their team. They all lowered their heads.

Now they have to accept it even if they don't accept it.

Ye Feng is indeed ridiculously powerful.

At this moment, the emperor of the Southern Barbarian Empire seemed to feel a little disappointed. He waved his hands and said loudly: "That's it for today's discussion. In three days, you will join forces and go directly to the ancient tombs under the mines. I wish you all the best." good luck."

Buzz!

After saying that, the emperor of the Southern Barbarian Empire disappeared directly from the main hall.

At this moment, Wei Qing looked at the group of people in the team, smiled and said: "Then let's take a rest in the palace of the Nanman Empire these days and recharge our batteries. After all, that ancient Tombs are very dangerous, so everyone should be mentally prepared and adjust well. "

Chapter 4762 Once participated

In the next few days, Ye Feng followed everyone in the team to practice in the palace of the Southern Barbarian Empire.

Hong Lian, a white-haired zombie, has never had a private conversation with Ye Feng. Obviously, the two have already reached a cooperation before, so there is no need to say anything more. As for how the wealth will be distributed, I'm afraid it will depend on their respective abilities. .

Finally, in the early morning of this day, the agreed departure time arrived, and Wei Qing led the entire team to the gate of the Nanman Empire's palace.

At this moment, everyone immediately saw that the team from the Southern Barbarian Empire had been waiting here for a long time. .??.

At this time, an old man wearing a black robe walked out of the palace.

Although this old man looks very old, he has the blood of the barbarians in the Southern Barbarian Empire after all, so he is very tall and gives people a tall and burly feeling, without the slightest feeling of being old.

At this moment, the old man in black robe looked at the two teams present, smiled slightly, and said loudly, "This time I will take you to the ancient tomb under the mine. I hope you all have good luck." , you can get huge opportunities and blessings from it."

Uh-huh!

At this time, after the old man finished speaking, he jumped directly and flew high into the sky.

At this time, the team from the Southern Barbarian Empire and the team from the Blood Demon Dynasty Wei Qing all flew to high altitudes, following the old man and flying quickly in the direction of the mineral deposit.

Soon everyone left the capital of the Southern Barbarian Empire and came to the virgin forest outside.

This place is almost at the junction with the wilderness.

It can be said that this ancient tomb is, in a true sense, located at the junction of the three regions of the Northern Territory, the Southern Barbarians and the Great Wilderness. In fact, it is not that far away from the tomb of the ancient Netherworld Emperor that Ye Feng explored before.

But this is also very normal. After all, according to Hong Lian, the owner of this ancient tomb knew Hong Lian back then, so it is estimated that he may also be connected with the Nether Emperor from ancient times.

At this time, Ye Feng was thinking secretly in his heart. Hong Lian, who was in the team not far away, had been staring at Ye Feng. There was an inexplicable meaning in his beautiful eyes, and he didn't know what he was thinking about.

Time passes quickly, like running water without leaving a trace.

Half a day passed quickly.

Finally, the black-robed old man from the Southern Barbarian Empire who was leading the way landed from high in the sky.

When everyone saw this, they all landed one after another.

At this time, everyone saw that a huge canyon had appeared below.

In the canyon, there are still many people digging for mineral veins.

At this time, Xu Jiaojiao, who was beside Ye Feng, suddenly said in surprise, "Look, the team that is mining the ore veins in this valley seems to have people from our Blood Demon Dynasty."

Hearing what Xu Jiaojiao said, everyone immediately looked towards the valley, and sure enough they found many miners wearing the Blood Demon Dynasty's special armor, digging the entire mineral vein.

Wei Qing, who was leading the team, smiled and said, "This is normal, because this mine was originally discovered by our Blood Demon Dynasty and the Southern Barbarian Empire at the same time, so they both sent miners to dig the entire vein here, but this There is an ancient tomb hidden under the mine, and we are probably the only ones who know about it."

And at this moment, that body

The old man in the black robe from the Southern Barbarian Empire waved to everyone and said, "The miners who are mining in this vein now don't know that there is an ancient tomb under the vein, so let's not make any noise next time, you guys Just follow me."

Hearing what the black-robed old man said, the teams of the Blood Demon Dynasty and the Southern Barbarian Empire nodded one after another, and then followed closely behind the black-robed old man.

At this moment, the old man in black robe found a small mine directly in the valley vein and walked in.

Seeing this scene, everyone followed him one after another.

Next, everyone followed the old man in black robes and walked around the mine for a long time before finally stopping at the end of the mine.

At this time, everyone suddenly saw a very shocking scene, and saw that the mine in front of them had reached the end.

At the end is a bronze gate built above the ground, which looks very ancient and majestic.

There are many unknown words carved on the bronze gate, giving people a very ancient and vicissitudes of feeling.

At this moment, the old man in black robe immediately smiled and said, "The ancient tomb is under this bronze door. Until now, no one of us has opened this bronze door and entered the underground tomb, so you are considered The first batch of beings who enter must be careful."

After finishing speaking, the old man in black robe took out a bronze token from his storage ring.

This bronze token should have been obtained by the Southern Barbarian Empire a long time ago. Unexpectedly, it could be used to open the door to the ancient tomb dug out of this vein.

So at this time, the old man placed the bronze token directly on the bronze gate.

Rumble...

Almost at the next moment, the bronze gate on the ground vibrated rapidly, and then slowly opened to both sides, revealing an underground passage.

At this time, the old man in black robe said loudly, "I won't go in. I'm here to guard the entire entrance. You can go in. After all, it is very likely that there will be masters here who do not belong to our Northern Territory and Southern Barbarian wilderness, so I want to go in." The entire entrance is guarded here."

Hearing what the black-robed old man said, everyone nodded, then clasped their fists at the old man and jumped into the underground passage under the bronze door.

Ye Feng followed the entire team of the Blood Demon Dynasty and also fell into the passage.

The moment everyone jumped down, they immediately saw it, and soon they landed in a separate huge tomb.

However, it was said that it was a tomb, but it looked like an underground palace, which made everyone look deeply shocked.

Because I didn't expect that this first tomb would be so magnificently built, it was like an underground emperor's palace.

At this moment, in the team, Honglian suddenly sent a message to Ye Feng and said, "Ye Feng, follow the plan later and create an accident. Then we deliberately get lost in the chaos, and then the two of us gather alone. Let's explore this underground mausoleum together. I am quite familiar with this underground mausoleum because I once participated in the construction of this underground mausoleum."

"What?"

Hearing Hong Lian say this at this moment, Ye Feng's eyes suddenly showed a look of surprise.

Chapter 4763 Escape mechanism

Hearing Hong Lian say this, Ye Feng immediately showed a look of astonishment on his face. He never thought that Hong Lian would actually participate in the construction of this underground mausoleum.

In this case, Honglian and the owner of this ancient tomb really knew each other back then, and they seemed to have a very good relationship. Otherwise, why would Honglian participate in the construction of the tomb of the owner of this ancient tomb.

So at this time, Ye Feng immediately couldn't help but send the message back and asked: "Honglian, if you put it this way, you and the owner of this ancient tomb were good friends back then. Otherwise, why did you help him build the tomb?" ?"

When Honglian heard what Ye Feng said, she immediately sent a message back: "The reason why I got involved in the team building the tomb back then was so that I could enter this ancient tomb and steal his tomb many years later."

"Forehead?" ??

Hearing what Hong Lian said, Ye Feng's eyes suddenly showed a look of astonishment. Even though he was quite speechless, he didn't expect that his guess was completely wrong.

Honglian participated in the construction of this ancient tomb back then, so that she could return to this tomb familiarly and steal his tomb many years later.

At this time, Ye Feng didn't know what to say.

At this moment, the teams of the Southern Barbarian Empire and the Blood Demon Dynasty entered the first chamber of this underground tomb and were already carefully searching for various things around them.

At this moment, Honglian immediately sent a message to Ye Feng and said: "Ye Feng, you go to the corner of this tomb. There is a mechanism there that can allow people to accidentally fall into another tomb. We Hurry up and create an accident and leave here. There is nothing good in these tombs in front of you. Let these idiots search here slowly. "

Obviously, Honglian's tone was very disdainful towards the team of the Blood Demon Dynasty and even the team of her own Southern Barbarian Empire.

In this regard, Ye Feng didn't say much, he just walked towards the corner of the first tomb chamber.

Go.

Soon Ye Feng walked to the edge of this corner. At this time, Ye Feng immediately saw it. Sure enough, there was a somewhat convex part on the corner wall of the tomb chamber.

At this time, Ye Feng directly touched the part protruding from the wall.

Click! Click!

Almost at the moment Ye Feng touched it, something suddenly happened. The ground in the entire corner suddenly collapsed. Ye Feng instantly fell into the space below the ground, and then the entire ground recovered again. Ye Feng's trace has disappeared.

"What??"

Seeing this scene at this moment, this sudden change suddenly shocked everyone present.

Including the team from the Southern Barbarian Empire and the team from the Blood Demon Dynasty, their faces changed drastically and they rushed to the place where Ye Feng disappeared.

They looked at the intact corner with a deeply ugly look in their eyes.

A master from the team of the Blood Demon Dynasty couldn't help but said: "I didn't expect Ye Feng to be so unlucky. As soon as he came to the first tomb, he touched some mysterious mechanism and disappeared without a trace. Do you know if it falls below the ground, will there be any terrible danger?"

Many people in the Southern Barbarian Empire team couldn't help but gloated at this time and said: "This Ye Feng is very powerful, but he is too careless. I didn't expect that he had already fallen into this underground tomb just now. Falling into a mechanism, you must know that the mechanism traps in ancient tombs are very terrifying. It is estimated that Ye Feng may have died in the mechanism traps under the ground. Many of the mechanism traps bumped into may be able to instant

The concentrated sulfuric acid that dissolves people in time! "

Hearing the people from the Southern Barbarian Empire gloating about their misfortune, several core masters of the Blood Demon Dynasty, including Xu Jiaojiao and Wang Meng, immediately couldn't help but angrily said: "Don't gloat about your misfortune! Ye Feng's strength It's so powerful that even if you accidentally fall into a trap, there won't be any danger. Ye Feng is our top talent in the Northern Territory and won't die so easily!"

Although everyone in the Blood Demon Dynasty team said this, they still looked a little worried.

Because everyone knows very well that in such mysterious ancient tombs, if you accidentally fall into some traps, no matter how powerful you are, it is likely to be a huge risk.

Now Ye Feng can be said to be in a bad situation. .???.??

While everyone was worried and discussing, no one saw Honglian. He slowly retreated among his own Nanman Empire's team, and then disappeared into the darkness behind the team.

At this moment, after Ye Feng fell from the ground, he immediately saw that there was no trap under the mechanism, but a smaller underground tomb.

This made Ye Feng's eyes suddenly show surprise. He didn't expect that there was no trap in this agency.

But just when Ye Feng was quite surprised, Hong Lian's beautiful and cold figure had appeared at the entrance of the small tomb that he had dropped.

Honglian seemed to see Ye Feng's doubts, and immediately smiled and said: "This mechanism is the escape passage left by the tomb builder when the tomb was built. It is hidden through the mechanism. Here, I participated in the construction of the entire tomb, so I know exactly where the escape routes left for the people who built the tomb."

"I see."

Hearing Honglian say this, Ye Feng suddenly realized

The nodded.

really.

In ancient times, if ancient tombs were built for such important people, those who built the tombs would leave separate and very secret escape passages for themselves, which was equivalent to leaving a way out for themselves.

Because in the ancient times, if you built ancient tombs for big figures, the consequences would be very miserable, and you would be directly killed by the big figures in ancient times, because they were afraid that the people who built the tombs would reveal the location of the ancient tombs.

Therefore, in ancient times, skilled craftsmen who specialized in building tombs would secretly leave some mechanisms and escape routes for themselves during the process of building tombs. In this way, they could avoid the final execution order left by the owner of the tomb.

At this moment, the mechanism that Ye Feng accidentally touched in the first tomb was actually the escape route and escape route left by the skilled craftsmen who built this ancient tomb.

At this time, Ye Feng looked at the red lotus in front of him and couldn't help but said: "I didn't expect you to be so familiar with this underground tomb. It seems that you also know the real precious things in this underground tomb. Where."

Honglian nodded slightly, smiled and said: "I know where most of the wealth left by this tomb owner back then is hidden in this underground tomb, but the most precious treasure left by this ancient tomb owner back then is Things, I don't know where they are, because this is the core part of the construction of ancient tombs. When I participated in the construction of the tombs, it was too strict and I didn't get involved in the end, so I'm not sure. We need to do it ourselves. Go explore, the reason why I asked you to cooperate with Ye Feng is mainly to let you help me explore the core area of this ancient tomb that I am not familiar with. "

Ye Feng nodded and said with a smile: "There is no rush to explore the core area for the time being. First find the places where wealth is accumulated that you know about."

Chapter 4764 Special Identity

For Ye Feng, the reason why he cooperated with Honglian this time was because Honglian knew all the situations in this ancient tomb very well.

Because Honglian had participated in most of the construction of this ancient tomb.

Although Honglian now says that she doesn't know much about the core area, Ye Feng is not in a hurry, and Ye Feng now needs very huge training resources to continue to improve his cultivation skills, including strength.

Therefore, Hong Lian may be quite anxious about exploring the core area of this ancient tomb, but Ye Feng is not anxious. Ye Feng now feels that other wealth and cultivation resources outside the core area can be greatly used if he obtains them. Dadi improves his comprehensive strength and heritage.

So Ye Feng looked at the red lotus in front of him and said with a smile, "Take me first to find the cultivation resources in this ancient tomb other than the core area. These things will also be of great help to me."

Hearing what Ye Feng said, Honglian immediately nodded and said with a smile, "I am also looking forward to these cultivation resources and wealth. As for the core area, I am really not in a hurry to explore it now. After all, that place is very To avoid the danger, we can first improve our overall strength in the outer areas of the ancient tombs, which will be of great help to the final exploration of the core area. "

After Guren finished speaking, he immediately walked in a certain direction.

Ye Feng followed Hong Lian.

This time, Ye Feng and the entire team were separated immediately after entering the first chamber of the ancient tomb, mainly because of Honglian.

As for the current situation of the teams of the Blood Demon Dynasty and the Southern Barbarian Empire, Ye Feng didn't know.

But Ye Feng doesn't really want to know.

After all, the emperor who agreed to the Blood Demon Dynasty this time came to the Southern Barbarian Empire mainly to promote the prestige of the Blood Demon Dynasty.

Previously, Ye Feng had severely defeated the number one genius of the Southern Barbarian Empire in the palace hall of the Southern Barbarian Empire, making the Blood Demon Dynasty famous.

Therefore, Ye Feng's promise to the Emperor of the Blood Demon Dynasty has actually been completed, so at this time, Ye Feng does not feel that he has an obligation to protect the masters in the Blood Demon Dynasty team.

The most important thing now is to concentrate on yourself and follow Honglian to find the wealth in the ancient tombs.

And Wei Qing also said before that entering this underground tomb can be said to be more rewarding for more work. Whoever has the ability will get more.

While Ye Feng was thinking secretly in his heart, he followed Honglian through the passages of the surrounding ancient tombs, and finally arrived at the first destination.

Honglian looked at the ancient tomb in front of him at this moment, and said with a smile, "The first place where wealth is hidden that I know of is in this tomb. However, when I participated in the construction, I only saw the wealth being hidden. Buried in this tomb, I don't know if other traps or other traps were later built in this tomb, so we still have to be careful. After all, the owner of this ancient tomb was indeed a very powerful guy. "

Um?

Hearing what Honglian said, Ye Feng's eyes revealed a look of surprise.

Before

Honglian had said that Honglian looked down upon the owner of this ancient tomb, as he was far inferior to the Netherworld Emperor.

But now Honglian said that the owner of this ancient tomb was a very powerful guy.

Such contradictory words made Ye Feng have to guess what kind of relationship Honglian had with the owner of the tomb.

However, Ye Feng is certain that the owner of this ancient tomb is definitely not as simple as Hong Lian said. He must have been an ancient and earth-shattering figure back then.

Otherwise, Honglian would not still want to covet the various resources, creation and wealth buried in the tomb of this ancient tomb owner after so many years.

While Ye Feng was thinking secretly, Honglian slowly placed a small wooden puppet at the door of the tomb.

Honglian smiled and said, "This wooden puppet is a remote puppet that I can control. I can let this wooden puppet go in first to explore the situation in this tomb to see if there are any terrible traps left behind."

Hearing what Hong Lian said, Ye Feng immediately nodded, glanced at the gadget Hong Lian placed on the ground, and couldn't help but smile and said, "I didn't expect you to be such a white-haired zombie who knows illusions. You can also make such a useful little puppet."

Hearing what Ye Feng said, Hong Lian immediately shook his head and said, "This is not made by me, but something made by the female swordsman in red in my disguise in the Southern Barbarian Empire. You want You know, the female swordsman in red that I pretend to have has a very high status in the Southern Barbarian Empire, and her status is very special."

Hearing what Hong Lian said, Ye Feng remembered that when Hong Lian was in the palace hall of the Nanman Empire, he said that he wanted to have a private chat with him. The emperor of the Nanman Empire did not stop him. From this, it can be seen that Hong Lian The weight of what he said is still very heavy.

Therefore, Ye Feng is quite curious about Honglian's identity in the Southern Barbarian Empire.

At this time, Ye Feng immediately couldn't help but asked, "So, what is your identity in the Southern Barbarian Empire? I feel that even the emperor of the Southern Barbarian Empire is quite polite to you, which is very rare." "

Hearing Ye Feng's question, Honglian immediately smiled and said, "The identity of the red-clothed swordswoman I pretended to be is indeed very special in the Southern Barbarian Empire. She is a subordinate of the most respected ancient witch clan in the Southern Barbarian Empire." I am a descendant of one generation, so the emperor of the Nanman Empire is quite polite to me, because I don't need to obey the orders of the emperor of the Nanman Empire at all. You have to know that in the Nanman Empire, in addition to the imperial power of the empire being supreme, other than that, the Nanman Empire The empire also has an institution that is comparable to the imperial power, and that is the Ancient Witch Clan, which is equivalent to the divine power of the Southern Barbarian Empire. "

"Um?"

Hearing what Honglian said, Ye Feng suddenly nodded in confusion.

At this time, Ye Feng finally understood why Honglian didn't seem to pay much attention to the emperor of the Southern Barbarian Empire in front of him.

It turns out that Honglian's identity is that he is the heir to the ancient witch clan of the Southern Barbarian Empire. No wonder he speaks so unscrupulously.

At this time, Ye Feng's eyes flashed slightly. It seemed that this white-haired zombie was really pretending to be someone with such a high status. He was like a fish in water in the Southern Barbarian Empire and was unscrupulous. For Ye Feng, the reason why he cooperated with Honglian this time was because Honglian knew all the situations in this ancient tomb very well.

Because Honglian had participated in most of the construction of this ancient tomb.

Although Honglian now says that she doesn't know much about the core area, Ye Feng is not in a hurry, and Ye Feng now needs very huge training resources to continue to improve his cultivation skills, including strength.

At this time, Ye Feng finally understood why Honglian didn't seem to pay much attention to the emperor of the Southern Barbarian Empire in front of him.

It turns out that Honglian's identity is that he is the heir to the ancient witch clan of the Southern Barbarian Empire. No wonder he speaks so unscrupulously.

At this time, Ye Feng's eyes suddenly flashed slightly. It seemed that this white-haired zombie was really pretending to be someone. He directly pretended to be a person with such a high status. He was like a fish in water in the Southern Barbarian Empire and was unscrupulous.

Chapter 4765 Two boxes

At this moment, while Ye Feng was thinking secretly in his heart, the wooden puppet released by Honglian had already walked into the tomb in front of him.

And the moment this wooden puppet entered the tomb chamber.

Swish, swish, swish!

Black poisonous thorns suddenly protruded from the ground of the entire tomb chamber, piercing the wooden puppet.

"Um?"

Seeing this scene, Ye Feng's eyes suddenly moved.

Honglian smiled slightly and said, "It seems that my guess is correct. This tomb that stores wealth and resources is already filled with various traps."

At this time, Honglian looked directly at Ye Feng beside him and said, "The wooden puppet has activated the trap in this tomb. We can go in directly."

Ye Feng couldn't help but asked, "What if there are other traps?"??

Honglian spread her hands and said, "I only have this wooden puppet on me. It will be gone when I use it up."

After saying that, Honglian walked directly into the tomb.

Ye Feng also quickly followed at this time.

If Honglian is not afraid, then Ye Feng has nothing to be afraid of.

You must know that Ye Feng's current immortal body is definitely stronger than Honglian's white-haired zombie body.

So Honglian is not afraid, and Ye Feng doesn't need to be afraid of anything.

At this moment, Honglian and Ye Feng walked into the tomb and directly released a fire, burning and melting all the stings on the ground.

At this time, the two of them walked into the tomb, but Ye Feng saw that the entire tomb was empty, and he suddenly asked in surprise, "Honglian, didn't you say that there was a lot of wealth and resources buried in this tomb?" Why? I see nothing now."

Honglian immediately smiled and said, "Because it is buried underground in this tomb."

Uh-huh!

r\u003e

After finishing speaking, Honglian took out a crimson long sword directly from his storage ring, and then slashed at a corner of the tomb in front of him.

Boom!

At this moment, the entire ground was split open by the red sword in Honglian's hand.

The next moment, Ye Feng's eyes immediately lit up, because he saw that after the entire ground was split open, boxes that looked like they were made of ancient bronze were placed under the broken ground.

Uh-huh!

Ye Feng immediately rushed forward and took out these boxes.

Ye Feng found a total of two boxes from under the ground!

At this moment, Honglian looked at the two boxes in front of him and immediately smiled and said, "How should we divide it equally?"

Ye Feng looked at the two boxes in front of him and said aloud, "Let's open the two boxes together first. Whoever needs what needs it will choose it first and then divide it equally."

Hearing what Ye Feng said, Honglian nodded immediately, and then the two of them opened the two boxes in front of them.

Uh-huh!

But almost as soon as the lid of the box was opened, a very small poisonous steel needle burst out from one of the boxes, instantly piercing Ye Feng's eyebrows.

"Oops!"

The next moment, Honglian couldn't help but exclaimed, "Ye Feng, are you okay?"

Ye Feng immediately shook his head at this moment. This highly poisonous steel needle only pierced Ye Feng's skin, but the moment it pierced Ye Feng's bones, it was directly hit by Ye Feng's immortal bones. It was knocked out by the shock and fell to the ground.

At this time, Ye Feng wiped the broken skin between his eyebrows, smiled and said, "If it is anyone else, even if it is Honglian, you have

With a zombie body, I am afraid that my head will be pierced by this poisonous steel needle in an instant, but my bones are the strongest in the world and cannot be pierced. "

Hearing what Ye Feng said and looking at the golden skull that appeared after the skin between Ye Feng's eyebrows was damaged, Honglian immediately showed a look of surprise in his eyes.

She knew very well how terrifying the poisonous steel needle inside the box was. After all, it was a trap left by the owner of the tomb. It could instantly pierce the strongest thing in the world.

I am afraid that even a super strong person who is several levels stronger than Ye Feng would have been pierced through the head at that moment and died instantly.

But Ye Feng's bones blocked the giant poisonous steel needle.

At this time, Honglian glanced at the golden skull after Ye Feng's skin was damaged, with deep curiosity in his eyes, and couldn't help but ask, "Ye Feng, what kind of fusion did you have? Bones? How come this steel needle is so strong that it can't even hurt your bones at all?"

Ye Feng smiled and said, "You will know in the future."

Obviously, Ye Feng doesn't want to tell Honglian what kind of bones he has. After all, he and Honglian are only in a cooperative relationship at the moment, not even friends. There is no need to leak everything.

Honglian seemed to know what Ye Feng was thinking, and just smiled without saying anything else.

At this moment, the two of them looked directly at the two boxes in front of them.

One of the boxes contained hidden weapons, but it also contained treasures.

The first box among the two boxes, which was the box that Ye Feng opened, was the box for concealed weapons. It contained pieces of beads that looked like they were cast from jade.

Ye Feng's eyes showed surprise and he said, "These beads, which look like they are made of jade, are they just decorations?"

Honglian immediately shook his head and said aloud

"It can't be that simple."

After finishing speaking, Honglian took dozens of jade beads directly from the first box.

Then Honglian took out an emerald bead alone, observed it carefully for a moment, and then suddenly his eyes lit up and he said, "These beads seem to be refined by the owner of the tomb back then called the 'Heart of the Ocean'" A component of a necklace-like magic weapon."

Hearing what Honglian said, Ye Feng's eyes suddenly showed surprise, then he shook his head and said, "If these dozens of jade beads are all powerful magic weapons refined by the owner of the tomb back then, The components cannot have any energy fluctuations at all, and I didn't feel any magic power contained in it."

Honglian nodded and said, "Perhaps after many years, the energy in these jade beads has dissipated, but if these jade beads can be put back together, maybe we can restore what the tomb owner refined back then." The powerful peerless magic weapon, the Heart of the Ocean, once reorganized successfully, a necklace-like magic weapon like the Heart of the Ocean can unleash the overwhelming power of the ancient ocean. I have seen it before, and it is very powerful. "

When speaking of this, Honglian smiled and said, "Ye Feng, then I will take the dozens of jade beads in this first box. When this exploration is over, when I return to the Nanman Empire After that, I plan to find some weapon refining masters to see if I can restore the super magic weapon of the Heart of the Ocean."

Ye Feng nodded, then looked at the second box, his eyes lit up, and he said, "The contents in the second box belong to me."

At this time, the contents of the second box that Ye Feng saw turned out to be a huge golden ginseng!

This golden ginseng is almost half the size of a human. It looks like it is about to become a spirit. Even after tens of thousands of years, it still exudes extremely strong medicinal power and medicinal fragrance. When people smell it, they can feel the energy and blood all over their body. And mana is boiling!

This is definitely a great supplement!

Chapter 4766 Becoming stronger

At this time, Ye Feng even saw the surface of the golden ginseng, which was still emitting a faint golden light, giving people a very magical feeling.

At this moment, Honglian saw this scene and immediately smiled and said: "The golden ginseng in the second box seems to be of great help to you, Ye Feng. No wonder you look so excited, Ye Feng."

Ye Feng immediately nodded and said, "This golden ginseng belongs to me. I really need such a unique elixir."

After finishing speaking, Ye Feng didn't hesitate at all. He opened his mouth and swallowed the half-human-sized golden ginseng in one gulp.

"boom!!"

At this time, after the golden ginseng was consumed, a very terrifying medicinal power immediately burst out, which was digested by Ye Feng and wildly strengthened Ye Feng's power.

At this moment, Ye Feng immediately felt that this golden ginseng had greatly improved his skill.

Ye Feng's cultivation aura immediately began to rise rapidly.

boom!

The second level of Kaidao Realm!

boom!

The third level of Kaidao Realm!

boom!

The fourth level of Kaidao Realm! !

At this time, Ye Feng's cultivation suddenly broke through the third level of heaven, directly from the first level of Kaidao Realm to the fourth level of Kaidao Realm.

This made Ye Feng's eyes suddenly show deep excitement.

I didn't expect that this golden ginseng could provide me with so much medicinal power and energy at once, improving my cultivation so much in an instant.

This was an unexpected surprise that Ye Feng had not expected.

Ye Feng's face naturally showed deep excitement at this time. As expected, this ancient tomb did not come in vain. As expected, it contained very rich and advanced cultivation resources.

There are so many people like this

Large, high-grade ancient ginseng is hard to come across outside. It can be said to be a rare treasure that can be encountered but not sought.

At this moment, Ye Feng looked at Hong Lian beside him and found that Hong Lian was staring at him with a strange look.

When Ye Feng saw this scene, he couldn't help but smile and said loudly: "What's wrong, is there a flower on my face? Why is there such an inexplicable smile?"

Honglian shook his head and said loudly: "Ye Feng, you are really the most magical person I have ever seen. Even in that ancient era, I have never seen such a magical human practitioner like you. "

Hearing what Hong Lian said, Ye Feng immediately understood. It was probably because Hong Lian saw that he had such a magical devouring ability that he could instantly convert all the energy of outside creatures, such as the medicinal power of golden ginseng, into himself. His skill suddenly broke through on the spot, so Honglian said that he was a very magical practitioner.

Ye Feng didn't explain anything at this time. After all, the swallowing ability is a blood talent that he awakened when he first started practicing. It is also a blood talent that has never been eliminated by Ye Feng. It is very practical.

Ye Feng didn't say much at this time, but said loudly: "Then let's go to the next place where wealth and resources are buried."

At this time, Ye Feng spoke with a tone full of expectation.

Because Ye Feng has received such great benefits from this first place where wealth was buried, it naturally makes Ye Feng look forward to other cultivation resources.

I don't know what good things I can get next, but it will definitely greatly improve my overall strength.

Honglian also nodded at this time, not wanting to waste time.

In fact, what Honglian cares about most is entering the core area of this ancient tomb.

But now she knew that she had to coax Ye Feng first.

Because entering the core area of this ancient tomb requires Ye Feng's help.

So now whatever Ye Feng wants to do, Hong Lian will naturally agree to it.

At this time, under Ye Feng's urging, Honglian did not hesitate and continued to lead Ye Feng towards the other direction of the tomb quickly.

Along the way, the two of them wended and passed through many tombs, which made Ye Feng's eyes suddenly show surprise.

Unexpectedly, the vastness under this ancient tomb was more complicated and larger than the tomb of the Netherworld Emperor that he had entered before.

It seems that the owner of this ancient tomb must have been as powerful as the Netherworld Emperor back then, and was definitely not as simple as Honglian said.

But no matter what, Ye Feng is still very happy, because the more powerful the owner of this ancient tomb is, the more things are left behind, and the greater help it will be to Ye Feng.

And with the help and guidance of Hong Lian, a person who participated in the construction of the tomb, Ye Feng must be more at home in this ancient tomb, and it is difficult to encounter any very dangerous situations. Compared with the first time Ye Feng followed The people who didn't know anything went down to the tomb of the Netherworld Emperor, and their situation was infinitely better.

But just when Ye Feng and Hong Lian passed through the sixth tomb, suddenly the walls inside the tomb exploded.

Uh-huh! Uh-huh! Uh-huh!

Zombies covered with blue hair immediately rushed towards the two of them, but they basically rushed towards Ye Feng. In the end, no zombies rushed towards Honglian at all.

Because Honglian is actually

A white-haired zombie is of the same kind as these cyan zombies, so it will not attack Honglian, but will attack Ye Feng, a living human being.

"Forehead?"

Seeing this scene, Ye Feng's eyes suddenly showed a look of astonishment, and then he thought of Honglian's true identity, which was a white-haired zombie. Ye Feng immediately figured out why.

In this regard, Ye Feng could only take action on his own rather helplessly.

boom! !

At this moment, Ye Feng directly displayed his group attack inheritance, which was the peerless inheritance obtained from the royal library of the Blood Demon Dynasty, and thousands of dragons returned to the clan.

This is a group attack inheritance. The moment Ye Feng performed it, golden rays of light burst out in the void behind Ye Feng. These golden rays of light instantly condensed into long dragons of energy. Ye Feng roared from behind.

Boom! !

A total of ten thousand energy dragons roared crazily and charged forward.

Even though the zombies that appeared after the walls around the tomb exploded, each one was very powerful and indestructible, and there were thousands of zombies rushing towards them ferociously, but under the attack of Ye Feng's thousands of energy dragons, they were still invincible. It was shattered into pieces in an instant.

And the moment Ye Feng smashed these zombies into pieces, Ye Feng's eyes suddenly lit up, because after each zombie was broken, a crystal fell down, which should be the zombie core produced by the zombies. !

"What a strong inheritance and power!"

Hong Lian, who was standing aside as if nothing was wrong, saw Ye Feng's huge attack scene and the roar of ten thousand dragons. Suddenly, a trace of surprise appeared in her beautiful eyes. Ye Feng was more powerful than before. It became stronger the first time they met, and it was a bit ridiculously strong.

Chapter 4767 The wisest decision

At this time, under the attack of Ye Feng's Ten Thousand Dragons Guizong, the zombies rushing out from the wall one by one were unable to block the bombardment of Ye Feng's long dragons composed of energy, and were directly attacked by crazy attacks. Countless fragments exploded.

At this time, as the zombies exploded, zombie cores fell from their bodies.

At this moment, Ye Feng's eyes suddenly revealed a look of deep surprise.

You know, there are thousands of zombies rushing out, and now there are thousands of zombie cores falling from the zombies crushed by his own dragons.

The zombie energy contained in each zombie core is very high-level.

Ye Feng didn't hesitate at this time. He didn't bother to collect them one by one. He just released the devouring domain. While killing these zombies, he devoured the zombie cores dropped from these zombies and used them directly on the spot.

Boom!

At this moment, Ye Feng immediately felt a huge amount of energy as he swallowed it, which was immediately injected into his Dantian, causing Ye Feng's skill to be greatly improved at this moment.

At this time, Ye Feng could feel that the cultivation aura that he had just broken through was rapidly and continuously breaking through again under the continuous accumulation of the core energy of these zombies.

Ye Feng's cultivation aura began to rise steadily at this moment.

boom!

The fifth level of Kaidao Realm!

boom!

The sixth level of Kaidao Realm!

At this time, after Ye Feng devoured thousands of zombie cores, he finally accumulated his own power again and directly broke through the second heaven and the sixth heaven of the Kaidao Realm.

Even if it's just a sudden

Breaking through the two layers of heaven, Ye Feng could also feel that his power had grown tremendously at this time.

At this time, Ye Feng's eyes were full of excitement, and he couldn't help but said, "I didn't expect that there are so many high-level zombies in this ancient tomb. The zombie cores contained in their bodies are really energy." It's so generous, it has raised my cultivation level by two levels."

At this time, Honglian standing beside him couldn't help but reveal a hint of helplessness in his beautiful eyes.

Because even an ancient figure like Honglian, after staying with Ye Feng for a long time, was amazed by Ye Feng's abilities. At the same time, he felt that he was very mediocre, which greatly affected his self-confidence.

At this moment, Honglian just shook his head and said, "I estimate that as long as I give you enough resources to Ye Feng, I'm afraid you can rise to a level that ordinary people can't imagine."

When he said this, Honglian seemed to have thought of something and couldn't help but said, "Ye Feng, if there is a chance in the future, let's go explore a ruins of the gods left by the gods together."

"The ruins of the gods?"

Hearing what Honglian said, Ye Feng's eyes suddenly showed a hint of surprise, and he asked aloud, "Where is that place?"

A mysterious smile appeared on Honglian's face, and she said aloud, "That is a very special place. It has all kinds of good cultivation resources you need. All of them are left by the ancient gods, but I don't have them yet." If you are qualified to enter, I will take you with me when I am qualified."

Hearing what Honglian said, Ye Feng's eyes suddenly showed a hint of surprise, then he smiled slightly and said

Said "Why are you so nice to me?"

Honglian smiled and said, "Because I am investing in you. I have helped you so much. If you rise to a level comparable to the gods or even surpass the gods in the future, wouldn't I be prosperous? I will follow you." It will definitely take over the world."

Hearing what Honglian said, Ye Feng's eyes suddenly showed a look of astonishment, and then he smiled, shook his head, and said, "You are quite confident in me."

Honglian couldn't help but said, "Your ability is really terrifying. Of course I am very confident in you, because in all my years of living, I have never seen anyone with such domineering abilities as you. And it's so magical."

Hearing what Honglian said at this time, Ye Feng immediately grinned. Without saying anything, he changed the subject and said, "Then let's move on and go to the second place where wealth is buried that you know."

Honglian immediately nodded and led Ye Feng to continue to advance quickly through the winding passages of the underground tomb.

Finally, they arrived at the door of the second tomb where wealth was buried.

At this time, Ye Feng immediately saw that the tomb in front of him was very extraordinary, because most of the tombs were basically very simple, but the tomb in front of him had a specially built bronze door, which closed the entire tomb. The door is closed.

At this time, Ye Feng couldn't help but said, "It seems that the bronze door must be broken open first."

Honglian nodded, took out a crimson long sword from the storage ring, and slashed forward to cut off the bronze door.

boom!

But the moment the crimson sword just touched the bronze door, this big bronze sword

There were many totems carved on the door, and it suddenly came alive at this moment.

Each of the totem evil beasts in their soul state immediately moved towards the two of them with their fangs and claws drawn out.

Even though Guren was transformed into a white-haired zombie who knew illusions and had very strong mental power, his face was a little pale when he was directly attacked by the soul of the evil beast in the totem, and he couldn't help but take a few steps back.

Seeing this scene at this time, Ye Feng did not hesitate at all and immediately said, "The totem on this bronze door has sealed the souls of so many evil beasts. It seems that the wealth in this tomb is very extraordinary. Otherwise, it is impossible to specially build a bronze gate that seals the souls of so many ancient evil beasts."

When Ye Feng said this, he didn't hesitate at all and immediately exploded his powerful soul power.

Buzz!

Ye Feng's huge soul power suddenly burst out, and then a golden soul giant condensed directly above Ye Feng's head.

This soul giant immediately charged forward and was instantly fighting with the souls of those ancient evil beasts.

You know, Ye Feng's current soul power is very huge, with a total of 70 million levels.

Even without the help of Emperor Chu, the soul giant condensed by Ye Feng's own soul power is still very terrifying.

So at this time, Ye Feng used his soul power to condense a golden soul giant, and he and the souls of the ancient evil beasts revived from the bronze gates of a dozen heads immediately started fighting together.

When Hong Lian standing next to her saw this scene, her beautiful eyes suddenly showed a look of wonder. She knew that this time she cooperated with Ye Feng alone, which was definitely the wisest decision she had ever made in her life. .

Chapter 4768 I can't keep up.

Boom!

At this time, although it was a confrontation at the soul level, the scene was also very chaotic.

After all, the stinky souls sealed in the ancient totems on this bronze door are still very terrifying, and there are more than a dozen of them.

However, Ye Feng's soul power is extremely powerful after all. The golden soul giant transformed by Ye Feng's soul power has a very terrifying attack power. In just half an hour, it killed more than a dozen ancient evil beasts. His soul was all shattered.

At this time, Ye Feng did not hesitate and directly released the Devouring Domain and began to devour the soul fragments of the dozens of shattered souls of ancient evil beasts.

You must know that the souls of these dozen ancient evil beasts can be sealed on this bronze door, which shows that the souls of these ancient evil beasts are very advanced, very ancient and powerful.

So after Ye Feng shattered the souls of these ancient evil beasts, he immediately got a lot of soul fragments.

After Ye Feng swallowed it, he could immediately feel that his soul power had grown tremendously.

Ye Feng's soul power had grown to a full 70 million level before, but now after devouring the soul fragments of these dozen ancient evil beast souls, Ye Feng's soul power skyrocketed again, directly to 71 million levels. !

This made Ye Feng's eyes suddenly show deep excitement.

When Ye Feng's soul power suddenly increased by a million levels, Ye Feng could immediately feel that his soul power had become much stronger instantly.

Moreover, when Ye Feng used the golden soul giant condensed with his own soul power to fight with the souls of these dozen evil beasts, Ye Feng had already felt very tired, and his soul felt very tired.

But now Ye Feng feels that his soul power is full again, and his spirit is particularly refreshing.

Apparently the soul fragments that had swallowed up the souls of these dozen ancient evil beasts not only increased Ye Feng's soul power, but also the energy and soul consumed in the battle just now.

He added it all at once.

At this time, Ye Feng looked at Hong Lian beside him, and seemed to see the other person's shocked and stunning eyes. He just smiled lightly and didn't say anything else, because Ye Feng knew very well that now his various abilities are indeed Others look very evil.

Ye Feng didn't want to say anything more about this.

At this time, Honglian was directly holding the crimson sword in his hand, and once again slashed towards the bronze door of the tomb in front.

This time, there was no movement on the totem on the bronze door. The bronze door was split open by Honglian with the red sword in his hand.

The next moment, the two of them immediately saw the scene in the tomb.

In the middle of the tomb, there was a skeleton sitting cross-legged. Countless years had passed on this skeleton, and even the flesh and blood had been worn away, leaving only a shriveled skeleton.

At this moment, a look of surprise suddenly appeared in Honglian's eyes.

She walked towards the tomb, towards the withered skeleton sitting in the middle of the tomb, and said slowly, "I think I know this skeleton. It seems to be the builder of this ancient tomb. To think that he actually stayed in this tomb and died here."

When Guren said this, there was no pity or lament in his tone, and he seemed to be very disdainful of such stupid behavior.

Regarding this, Ye Feng just flashed his eyes slightly. It is estimated that the owner of this ancient tomb had a group of very loyal followers.

After the owner of this ancient tomb died, he was buried here. Many of his followers were unwilling to live anymore, but sat in each tomb to guard the huge ancient tomb left by the owner of this ancient tomb. every part

point.

At this moment, Ye Feng couldn't help but said, "Honglian, be careful. This shriveled skeleton sitting in the middle of the tomb may have left some special traps and methods."

Ever since he was attacked by the soul of the ancient evil beast sealed on the bronze door, Ye Feng has become a lot more cautious.

Honglian also nodded slightly at this time, couldn't help but take a few steps back, stood next to Ye Feng, and walked very close to Ye Feng, walking side by side, and said slowly, "Ye Feng, your soul power is powerful. The body is strong, it seems that it is better for me to stay with you, it will be safer."

Hearing what Honglian said, Ye Feng immediately grinned and said, "Your choice is right." .???.??

At this time, Ye Feng said, and walked slowly towards the shriveled corpse in the middle of the tomb.

But Ye Feng seemed to be a little worried.

When they walked up to the shriveled corpse, nothing happened.

There were no hidden weapons or very scary spirits among this shriveled corpse to attack the two of them.

At this time, Ye Feng glanced at the mummy on the ground, and suddenly there was a hint of surprise in his eyes.

Because Ye Feng saw that there was a small red bug in the head of the mummy.

Just when Ye Feng got closer to watch, the red bugs in the head flew out, and the whole body was immediately emitting red light, as if it was about to burst.

"It's actually the Corpse Insect King!"

At this moment, Ye Feng finally recognized what this crimson bug was. It turned out to be the very terrifying poisonous bug that he encountered in the tomb of the Netherworld Emperor.

Once it explodes, even Ye Feng's current immortal body of a god will be unable to withstand the poisonous energy of this insect.

this one

In an instant, Ye Feng's expression suddenly changed and he quickly retreated because even poison-eating insects could not stop the toxin of this zombie king.

But the moment Ye Feng just stepped back, Hong Lian standing next to him suddenly opened his mouth and swallowed the poisonous corpse insect king directly.

"Forehead?"

Seeing this scene, Ye Feng immediately showed a look of astonishment in his eyes.

Then Honglian maintained a very elegant and beautiful smile and said, "This kind of corpse insect king has a great tonic effect on my white zombie body."

Hearing what Hong Lian said, Ye Feng suddenly realized. By the way, Hong Lian is now a white-haired zombie. It is originally a thing of the underworld and related to corpses. It is the zombie king who restrains this. It is also very powerful. normal.

This made Ye Feng couldn't help but sigh. Sure enough, everything in the world really fell.

However, Ye Feng couldn't help but have a strong desire to improve his immortal body quickly at this time.

Because Ye Feng discovered that the more things he came into contact with and the more advanced creatures he came into contact with, the greater the danger he would find.

For example, Ye Feng has no way to resist the poison of the Corpse Insect King for the time being. Once he is poisoned, he will probably have to wait for death.

Therefore, Ye Feng now has an even stronger desire to improve the physical strength of his immortal body.

After all, Ye Feng has never been afraid of anything, because his soul power is strong enough, and his body constitution and vitality are also strong enough.

But now Ye Feng found that his physical strength was slowly unable to keep up with the high-level things he was exposed to.

While Ye Feng was thinking secretly in his heart, Hong Lian who was standing aside walked towards the southwest corner of the tomb with a crimson sword and started digging the soil.

Obviously, the wealth buried in this tomb is buried under the ground in the southwest corner.

Chapter 4769 Divine Gold

Boom!

At this time, as Honglian dug up the entire ground with the red sword in his hand, Ye Feng saw several boxes buried in the soil.

But this time there are not just two boxes, but three boxes!

Honglian took out all three boxes directly.

When Ye Feng saw this scene, he was a little surprised and asked, "Why did most of the tomb chambers in this tomb after the death of the tomb owner have nothing, but they had to be buried in these special tomb chambers?" With all this wealth, is this something special?"

Hearing what Ye Feng said, Honglian immediately shook his head and said, "I don't know much about this. Anyway, in the ancient times, the things buried with the ancient big shots were basically very precious, and according to specific directions, maybe there is something special about being buried in different tombs, but I don't know."

Hearing what Honglian said, Ye Feng immediately nodded and didn't ask any more questions.

In any case, it is enough to obtain the cultivation resources and wealth left by these ancient big figures.

As for other things, Ye Feng doesn't think too much about it, because he can't understand it if he thinks too much, and it doesn't make much sense. Instead, it will make him fall into mental internal friction and waste his energy.

So just do what you need to do.

At this time, Ye Feng didn't hesitate at all. He walked forward with expectation in his eyes and opened the first box.

This time Ye Feng was ready to defend.

After all, in the first tomb where wealth was buried, a hidden weapon with a poisonous steel needle rushed out from the box Ye Feng opened in an instant. If his bones weren't so hard, he would have pierced his head. .

So this time Ye Feng was fully prepared, and even put on a set of powerful armor to protect every part of his body.

But this time Ye Feng opened the box and did not encounter any hidden weapons.

After Ye Feng opened the first box, he immediately saw that the first box contained pieces of gold.

"Forehead?"

Seeing this scene, Ye Feng's eyes suddenly showed a look of silence, and he said loudly, "The first box contains pieces of gold? This thing is of great benefit to people in the mortal world, but For us practitioners, it has no great significance at all. For us practitioners, gold is just a decoration. "

Hearing what Ye Feng said, Hong Lian couldn't help but have a look of astonishment in her eyes, and said, "It's impossible. Why is it that in the second tomb where wealth is buried, there are pieces of gold in the box?" Planting things is a huge wealth in the mortal world, but in our spiritual world, it has no meaning at all. It is impossible to bury such ordinary things in this tomb. "

Hearing what Hong Lian said, Ye Feng's eyes also showed a look of doubt, and he said, "The owner of this tomb was a big shot back then, so the things buried with him in his tomb cannot be ordinary things. I think these Gold may have unusual abilities."

When he said this, Ye Feng didn't hesitate at all and walked forward directly, ready to explore the pieces of gold in the box.

But when Ye Feng's palm touched

The moment he looked at these golds, his eyes immediately revealed a look of deep astonishment, and then turned to ecstasy.

Honglian saw the change in Ye Feng's expression and couldn't help but ask, "What's wrong? What did you find? Is this gold really something special?"

Ye Feng immediately couldn't help but said, "The dozens of pieces of gold contained in this first box are not gold in the mortal world at all, but divine gold containing divine substances!"

"Sacred gold containing divine substances?"

Hearing what Ye Feng said at this time, Honglian couldn't help but asked with some doubts, "What is a divine substance?"

Obviously, Honglian didn't know what kind of divine substance Ye Feng was ecstatic about. After all, Honglian had never been in contact with the Celestial Clan, so it was normal for him not to understand the divine substance.

At this moment, Ye Feng hurriedly said, "I can't explain this to you for a while. Anyway, you just need to know that the divine substance has great benefits for me and can greatly improve my body strength, but it is of no use to a zombie like you, and even the divine substance will destroy the body of a creature with the attributes of the underworld like you, because it is the most powerful and yang thing."

Hearing what Ye Feng said, Honglian immediately nodded with some enlightenment and said, "In that case, the dozens of pieces of divine gold containing divine substances in this first box will be given to you, but I've reserved this second box first."

Hearing what Honglian said, Ye Feng immediately nodded and said, "Okay, how to allocate the third box?"

Honglian thought for a while and said loudly, "Open the second box first, and then talk about the contents of the third box. We can divide it equally when the time comes."

When he said this, Honglian walked directly to the second box and prepared to open the second box.

At this moment, Ye Feng was too lazy to waste time and started absorbing dozens of pieces of divine gold contained in the first box on the spot.

The divine substance contained in these dozens of pieces of divine gold is very rich, which can quickly strengthen Ye Feng's immortal body. This makes Ye Feng's eyes suddenly reveal a deep excitement.

This is simply the rhythm of giving you a pillow when you feel sleepy.

Unexpectedly, I had just lamented that my physical strength was slowly failing to keep up with the high-level things I was exposed to. I didn't expect that in the second place where wealth was buried, the first box contained several dozen treasures. Ten pieces of divine gold containing rich divine substances, this is a very rare thing.

At this moment, Ye Feng did not hesitate and immediately began to absorb the divine substances from dozens of pieces of divine gold.

Buzz!

At this moment, Ye Feng immediately felt a very rich divine substance, which was immediately absorbed by him from the divine gold, and then injected into his limbs and bones, rapidly growing his flesh and blood.

At this moment, Ye Feng could immediately feel that the strength of his immortal body was growing rapidly.

Previously, Ye Feng's immortal body of the gods had broken through to the tenth level of the fourth stage of perfection, and he had also awakened the fourth stage of the god clan's bloodline talent, the space wormhole.

Now, relying on the divine substance contained in dozens of pieces of divine gold, Ye Feng used the physical strength of his Immortal Body of God to break through the tenth level of the fourth stage of perfection in an instant, and directly rushed into the fifth stage of the fifth stage. The first floor has entered a new fifth stage! Boom!

At this time, as Honglian dug up the entire ground with the red sword in his hand, Ye Feng saw several boxes buried in the soil.

But this time there are not just two boxes, but three boxes!

Honglian took out all three boxes directly.

When Ye Feng saw this scene, he was a little surprised and asked, "Why did most of the tomb chambers in this tomb after the death of the tomb owner have nothing, but they had to be buried in these special tomb chambers?" With all this wealth, is this something special?"

Hearing what Ye Feng said, Honglian immediately shook his head and said, "I don't know much about this. Anyway, in the ancient times, the things buried with the ancient big shots were basically very precious, and according to specific directions , maybe there is something special about being buried in different tombs, but I don't know."

Hearing what Honglian said, Ye Feng immediately nodded and didn't ask any more questions.

In any case, it is enough to obtain the cultivation resources and wealth left by these ancient big figures.

As for other things, Ye Feng doesn't think too much about it, because he can't understand it if he thinks too much, and it doesn't make much sense. Instead, it will make him fall into mental internal friction and waste his energy.

So just do what you need to do.

At this time, Ye Feng didn't hesitate at all. He walked forward with expectation in his eyes and opened the first box.

This time Ye Feng was ready to defend.

After all, in the first tomb where wealth was buried, a hidden weapon with a poisonous steel needle rushed out from the box Ye Feng opened in an instant. If his bones weren't so hard, he would have pierced his head. .

So this time Ye Feng was fully prepared, and even put on a set of powerful armor to protect every part of his body.

But this time Ye Feng opened the box and did not encounter any hidden weapons.

After Ye Feng opened the first box, he immediately saw that the first box contained pieces of gold.

"Forehead?"

Seeing this scene, Ye Feng's eyes suddenly showed a look of silence, and he said loudly, "The first box contains pieces of gold? This thing is of great benefit to people in the mortal world, but For us practitioners, it has no great significance at all. For us practitioners, gold is just a decoration. "

Hearing what Ye Feng said, Hong Lian couldn't help but have a look of astonishment in her eyes, and said, "It's impossible. Why is it that in the second tomb where wealth is buried, there are pieces of gold in the box?" Planting things is a huge wealth in the mortal world, but in our spiritual world, it has no meaning at all. It is impossible to bury such ordinary things in this tomb. "

Hearing what Hong Lian said, Ye Feng's eyes also showed a look of doubt, and he said, "The owner of this tomb was a big shot back then, so the things buried with him in his tomb cannot be ordinary things. I think these Gold may have unusual abilities."

When he said this, Ye Feng didn't hesitate at all and walked forward directly, ready to explore the pieces of gold in the box.

But when Ye Feng's palm touched

The moment he looked at these golds, his eyes immediately revealed a look of deep astonishment, and then turned to ecstasy.

Honglian saw the change in Ye Feng's expression and couldn't help but ask, "What's wrong? What did you find? Is this gold really something special?"

Ye Feng immediately couldn't help but said, "The dozens of pieces of gold contained in this first box are not gold in the mortal world at all, but divine gold containing divine substances!"

"Sacred gold containing divine substances?"

Hearing what Ye Feng said at this time, Honglian couldn't help but asked with some doubts, "What is a divine substance?"

Obviously, Honglian didn't know what kind of divine substance Ye Feng was ecstatic about. After all, Honglian had never been in contact with the Celestial Clan, so it was normal for him not to understand the divine substance.

At this moment, Ye Feng hurriedly said, "I can't explain this to you for a while. Anyway, you just need to know that the divine substance has great benefits for me and can greatly improve my body strength, but it is of no use to a zombie like you, and even the divine substance will destroy the body of a creature with the attributes of the underworld like you, because it is the most powerful and yang thing."

Hearing what Ye Feng said, Honglian immediately nodded with some enlightenment and said, "In that case, the dozens of pieces of divine gold containing divine substances in this first box will be given to you, but I've reserved this second box first."

Hearing what Honglian said, Ye Feng immediately nodded and said, "Okay, how to allocate the third box?"

Honglian thought for a while and said loudly, "Open the second box first, and then talk about the contents of the third box. We can divide it equally when the time comes."

When he said this, Honglian walked directly to the second box and prepared to open the second box.

At this moment, Ye Feng was too lazy to waste time and started absorbing the entire dozens of pieces of divine gold contained in the first box on the spot.

The divine substance contained in these dozens of pieces of divine gold is very rich, which can quickly strengthen Ye Feng's immortal body. This makes Ye Feng's eyes suddenly reveal a deep excitement.

This is simply the rhythm of giving you a pillow when you feel sleepy.

Unexpectedly, I had just lamented that my physical strength was slowly failing to keep up with the high-level things I was exposed to. I didn't expect that in the second place where wealth was buried, the first box contained several dozen treasures. At this moment, Ye Feng could immediately feel that the strength of his immortal body was growing rapidly.

Previously, Ye Feng's immortal body of the gods had broken through to the tenth level of the fourth stage of perfection, and he had also awakened the fourth stage of the god clan's bloodline talent, the space wormhole.

Now, relying on the divine substance contained in dozens of pieces of divine gold, Ye Feng used the physical strength of his immortal body to break through the tenth level of perfection in the fourth stage in an instant, and directly rushed into the fifth stage of the fifth stage. The first floor has entered a new fifth stage!

Chapter 4770 The Great Demon of the Wilderness

At this time, when the level of Ye Feng's Immortal Body of God entered a new fifth stage, Ye Feng could immediately feel that the power of his entire body had been improved as never before.

At this moment, Ye Feng's eyes showed deep excitement.

I really didn't come to this ancient tomb in vain this time. I didn't expect that in this second tomb where wealth is buried, so much divine gold containing divine substances has been found. These things are all rare but not sought after. Good things, Ye Feng sometimes can't buy them even if he has money.

So now that I met him, Ye Feng was naturally very happy and felt that he was in the right place.

After Ye Feng entered the fifth stage of the Immortal Body of the Gods, he could suddenly feel that his bloodline talents of the Gods were starting to awaken again in the fifth stage.

Ye Feng could feel a very strange power surging through his entire body, as if a special bloodline talent was about to emerge.

However, Ye Feng's feeling disappeared after a while, which made Ye Feng's eyes suddenly reveal a look of deep astonishment, and then he couldn't help but shook his head with a helpless smile.

It seems that the level of the fifth stage of the immortal body of the gods is still too low. It is only the first level of the fifth stage. There is no way to awaken the fifth stage of the bloodline talent of the gods. .??.??

After all, when Ye Feng's immortal body entered the fourth stage, it was only at the final level that he awakened the fourth stage of the Celestial Clan's bloodline talent, the space wormhole.

Ye Feng felt that he would have to continue to improve his Immortal Body in the fifth stage before he could awaken his bloodline talent in the fifth stage.

However, Ye Feng is not in a hurry. After all, he has just entered the first level of the fifth stage. There is still a long way to go. He will slowly awaken the talent of the Celestial Clan bloodline in the fifth stage.

At this time, Ye Feng glanced beside him and found that Honglian was putting the wealth in the second box into his storage ring with a face full of joy.

Ye Feng took a look and found that the second box seemed to contain some jade that exuded the properties of the underworld.

The aura emitted by these underworld jade stones is a kind of green light and breath, which is obviously something with underworld energy.

In fact, these things that Ye Feng swallowed also had a lot of energy.

It should be able to improve your own skills.

But since Ye Feng has obtained so much divine gold in the first box, the contents of the second box naturally belong to Honglian. This is the distribution plan that the two of them had agreed upon before.

And Ye Feng has actually taken advantage.

After all, things like divine gold can be encountered but cannot be sought, and energetic things that can improve one's skill can be encountered at any time.

At this time, Ye Feng was still very happy. After all, the physical strength of his Immortal Body of God had entered a new stage, the fifth stage.

Ye Feng clenched his fists and felt that his life force and physical strength had been raised to a whole new level.

Ye Feng couldn't help but murmur in his heart, "I don't know if I can use the fifth-stage Immortal Body of the God to withstand the poisonous corpse energy of the Corpse Insect King."

At this time, Ye Feng murmured, then looked at Hong Lian beside him, and couldn't help but said, "Then open the third box."

Guren nodded and opened the third box.

However, the moment the third box was opened, both of them were slightly startled.

Because the third box did not contain any precious wealth, but contained a very ancient-looking key.

This key is made of bronze, is only as big as a palm, and has no apparent use.

At this time, Ye Feng couldn't help but take out the bronze key from the box, then looked at Honglian beside him, and said loudly, "Honglian, you participated in the construction of this ancient tomb. Do you know this bronze key?" Does the key open something?"

Honglian also shook his head in confusion at this time and said, "I don't know much about this, because when I participated in the construction of this ancient tomb, I didn't understand everything. I only participated in part of it. So I don't know what the use of this bronze key is, but take it first. Maybe you will encounter something that needs this bronze key to open next. After all, there is such a small bronze key here suddenly. Will you?

It must have a special role. "

Hearing what Honglian said, Ye Feng immediately nodded and temporarily put the bronze key into his storage ring.

At this time, the two of them had already obtained all the wealth in the tomb.

Honglian smiled and said, "Then let's go to the third tomb where wealth is buried. That is also the last tomb where wealth is buried that I know of. After the wealth in that tomb is collected, we will go to this ancient tomb." The deepest core area of but I know nothing about it. There may be huge risks, but I have to go. Ye Feng, you must also help me and follow me. After all, this is what we discussed at the time. , you can't go back on your word."

Ye Feng immediately smiled and patted Hong Lian's shoulder, saying, "Don't worry, I won't regret it all of a sudden. Now that you have brought me so much wealth out here, my comprehensive Your strength has been greatly improved, which is already a huge sign of your sincerity. With such sincerity, it is naturally impossible for me to break my promise, and I will definitely help you."

When he said this, Ye Feng seemed to have thought of something, and suddenly asked, "Honglian, are you going to use your current identity to survive and cultivate in the Southern Barbarian Empire?"

Honglian nodded and said, "It should be like this in a short time, because I have no old friends after tens of thousands of years."

When she said this, Honglian seemed to have thought of something. There seemed to be an inexplicable look on her beautiful young face, and she said, "No, maybe I still have some friends from back then, but I just don't know them." Are you still alive now? If you are alive, you have probably become some big shot in Zhongzhou."

When talking about this, Honglian stared at Ye Feng, smiled and said, "With Ye Feng's evil talent, I don't think you can stay in this remote northern region and southern barbarian for long. Your future is doomed." The land of Zhongzhou, which belongs to the most glorious interface of Ten Thousand Demons, even goes to our Heaven Realm, which ranks first among all the worlds. After all, the interface of Ten Thousand Demons is still relatively low in the world, so the Heaven Realm, that is the Ye Realm. Feng your future, but that is still too far away, but the land of Zhongzhou, I think I may go there soon, and then I hope to meet you in the land of Zhongzhou,

After all, Ye Feng, you are the most magical person I have ever encountered. "

When she said this, Honglian seemed to have thought of something again, and immediately walked up to Ye Feng, staring at Ye Feng with her beautiful eyes, and said loudly, "Also, Ye Feng, when you talk to me in the future, don't always say that I am just a white-haired zombie. Before I died, I was also an extremely beautiful woman. The Honglian I have become now is actually not as beautiful as I was. If I went to Zhongzhou, I might I will definitely amaze you when I restore my true appearance."

Hearing what Hong Lian said, Ye Feng's eyes showed a look of astonishment, as if he didn't expect Hong Lian to say such a thing.

Then Ye Feng nodded with a smile and said, "Okay, now that you have completely resurrected and relived your life in the body of a zombie, when you arrive in Zhongzhou and regain your true colors, we will recognize each other again. I will treat you as a real living being."

Hearing what Ye Feng said, Honglian nodded with satisfaction, and then said with a smile, "Then let's go to the last tomb where the wealth is buried."

But just as the two of them were talking, suddenly several burly figures flew over not far away.

They all exude a monstrous aura, giving people a very vicious feeling.

Moreover, these figures still retain some characteristics of the demon clan in their physical form.

Seeing this scene, Hong Lian couldn't help but said in surprise, "It seems like a big monster in the wilderness. They also descended into this ancient tomb. It seems that the old man in black robe from the Southern Barbarian Empire guarding the entrance to the ancient tomb." , we have encountered an unexpected event, and there are so many monsters in the wilderness. It seems that we have to speed up. "

After Hong Lian finished speaking, she immediately wanted to leave with Ye Feng.

However, several big monsters from the wilderness flying from a distance obviously spotted the figures of Ye Feng and Honglian in an instant, and immediately couldn't help but said in a very domineering voice, "You two, stop quickly, you are here." After exploring this underground tomb for so long, the wise ones will answer our questions obediently and hand over their wealth. Otherwise, don't blame us for being ruthless, we are the top monsters from the wilderness! "
