

Ancient 4781

Chapter 4781 Deep Sea Dragon Veins

At this moment, hearing what the old man in black in front of him said, Ye Feng immediately nodded and said, "Since you are not a zombie, there is no conflict between us."

For Ye Feng, the old man in black disguised himself as a zombie and lurked in this sculpture in order to avoid being pursued by the Nether Emperor.

When he suddenly bit himself just now, he probably thought that he was someone sent by Emperor Netherworld to hunt him down.

So now that the misunderstanding has been resolved, Ye Feng is ready to leave here directly and go to the next place to find treasures.

But the moment Ye Feng turned around, the old man in black behind him immediately said: "You must be here to rob the tomb, right?"

Hearing what the old man in black said, Ye Feng immediately grinned and said loudly: "You can't say that, we were just digging and suddenly discovered the ancient tombs under this mine, so we wanted to come in and investigate. Of course, it would be better if we could get some of the treasures left by the Netherworld Emperor's wife."

Hearing what Ye Feng said, the old man in black just smiled and said nothing more. Instead, he walked towards Ye Feng and said loudly: "Young man, what's your name?"

Ye Feng said aloud: "My name is Ye Feng, I don't know what I call you, senior?"

The old man in black nodded and said: "You can call me Master Yi. At that time, I was also a powerful Feng Shui master, so I was forced to come over and be the person in charge of the builder of the tomb of the Nether Emperor's wife. "

Hearing what the old man in black in front of him said, Ye Feng immediately nodded, with a trace of surprise in his eyes.

After all, in that ancient and glorious era when there were countless strong men, he was able to become a powerful Feng Shui master. This shows how high Master Yi's Feng Shui attainments are.

But it's normal to think about it. This Master Yi was able to build a tomb for a transcendent being like the wife of the Netherworld Emperor, and he also became the person in charge of the construction of ancient tombs. This shows that this Master Yi does have two skills.

At this time, Ye Feng did not dare to take it lightly. He clasped his fists quickly and said loudly: "Master Yi, since there is a misunderstanding between us, then now

There shouldn't be much to say now. I'm going to look for treasures elsewhere. Seniors won't stop me, right? After all, the Nether Emperor wanted to murder you back then. "

Master Yi immediately smiled and shook his head, with a hint of coldness in his eyes, and said loudly: "Of course I will not stop you, and I will even help you. In order to take revenge on Emperor Netherworld, I am going to kill Netherworld Emperor." The emperor's wife's conspiracy to seek eternal life was shattered."

"What?"

Hearing what Master Yi said, Ye Feng suddenly had a look of surprise in his eyes.

Previously, Ye Feng found the secret about eternal life in the tomb of the Netherworld Emperor, but Ye Feng never understood what the piece of paper that said the eternal life of the God of Death meant.

Unexpectedly, the wife of the Netherworld Emperor actually wanted to live forever, and it seemed that the practice of eternal life was in this tomb.

Ye Feng couldn't help but asked: "Master Yi, what is the secret of immortality? Is the wife of the Netherworld Emperor really immortal?"

Master Yi shook his head and said aloud: "I don't know the details, but I was the person in charge of this ancient tomb in the middle of the year. I once heard some fragments of words and accidentally heard about the relationship between the Nether Emperor and his wife. In a private conversation, Emperor Netherworld buried his wife in this place. It was not a random place, but this place seems to be naturally connected to the legendary underworld. There is a passage directly leading to the

underworld, so the secret of eternal life, I guess. It is estimated that it is through the energy of the underworld that we living creatures can maintain the state of half human and half ghost. This is what the Netherworld Emperor calls immortality, which is also the so-called living dead. "

"this?"

Hearing Master Yi in front of him say this, Ye Feng's eyes suddenly revealed a look of deep astonishment. He didn't expect that the secret of eternal life that he had thought about for a long time was to turn himself into a living dead, neither human nor ghost. , in this case, you will live forever.

This made Ye Feng feel a little ridiculous.

But since the Netherworld Emperor is so transcendent,

Big names have done this, which is enough to show that this method may be feasible.

Ye Feng couldn't help but asked: "Did Emperor Netherworld refine his wife into a zombie? Because only zombies are the living dead-like existence between the world of heaven and the underworld."

Master Yi shook his head and said aloud: "I don't know the specifics, but you will know once you enter the central palace of this underground country. That is where the wife of the Netherworld Emperor is buried. There must be a secret."

When he said this, Master Yi looked at Ye Feng beside him, smiled and said: "Let's go together. I was responsible for building this underground mausoleum, so I am very familiar with most of the area. Do you want Looking for training resources to improve your skills, right? I'll take you to find them."

Hearing what Master Yi said, Ye Feng immediately showed deep joy in his eyes. .???.??

If there is a guide, then I can naturally find various cultivation resources quickly and accurately in this underground tomb. I don't need to exude powerful soul power to explore one by one like I do now. The efficiency is really too slow.

At this moment, Ye Feng couldn't help but said with great anticipation: "Then there is Master Lao Yi."

Master Yi nodded and said aloud: "Your arrival brought a glimmer of life to this underground tomb and allowed me to revive. It was also you who allowed me to wake up from my endless sleep, so you helped me. , it's natural for me to help you."

When he said this, Master Yi took Ye Feng and flew in a certain direction.

Soon, Master Yi led Ye Feng to a collapsed city wall.

At this time, Ye Feng looked a little confused and asked: "Master Yi, what good things can be found in this collapsed city wall?"

Master Yi smiled slightly at this moment and said: "Under the edge of the city wall, there is an ancient dragon vein buried. It is the ocean dragon vein that I captured from the depths of the endless sea. I used sixteen of them to The Fengshen Nail is fixed at this place, as the guardian dragon vein of this underground country, guiding the energy and Feng Shui of the underworld.

Gathering in this place allows the wife of the Netherworld Emperor to continuously absorb and accumulate the energy of the underworld after her death, allowing herself to undergo wonderful changes and achieve immortality. However, this process is very long. She is not immortal yet. I have She woke up early and wanted to ruin her plan. Haha, maybe this is a cycle of cause and effect. "

Hearing Master Yi's words, Ye Feng's eyes suddenly revealed a look of deep admiration.

I didn't expect Master Yi to be so capable, to know so much, and to be able to do things that would change the world.

At this moment, Ye Feng saw that Master Yi stretched out his hand and smashed the ground into pieces. Under the collapsed ancient city wall, a section of the body of an ice-blue dragon was actually revealed.

Moreover, Ye Feng also saw a long nail that looked like it was made of black iron, nailed to this section of the ice-blue dragon vein body, locking it here and unable to move.

Master Yi said with a cold look in his eyes: "Back then, I worked so hard to build the entire mausoleum for the wife of Emperor Netherworld. I didn't expect that Emperor Netherworld would kill us builders in the end. So today I will use it to build the tomb." The way of a man is his own, and I will destroy everything I have built with my own hands."

When he said this, Master Yi directly stretched out two fingers.

Ye Feng discovered that Master Yi's two fingers were very special. The two middle fingers were actually pure gold in color and possessed extremely terrifying power. The divine nail was suddenly pulled out of the ground.

Master Yi smiled and said: "Although there are more than a dozen God-Sealing Nails, as long as you pull out one, this ice-blue dragon vein will be completely alive. Ye Feng, you can now directly capture this ice-blue dragon vein." The blue dragon veins, the energy contained in them, is the infinite energy of the ocean, which will be of great help to you. "

Obviously, this Master Yi is a guy who must take revenge. The Netherworld Emperor wants to kill him, so he wants to destroy the magnificent underground kingdom he built for the Netherworld Emperor's wife.

And Ye Feng was kind to him, so he gave Ye Feng a deep sea dragon vein in return.

Chapter 4782 My home court

At this time, Ye Feng did not hesitate at all. He directly stretched out his hand and pressed it on the ice blue deep sea dragon vein, and then directly released the Devouring Domain, preparing to start devouring this deep sea dragon vein.

For Ye Feng, the energy contained in this deep sea dragon vein is still very rich. If he swallows it all, it will definitely increase his skill greatly.

But just when Ye Feng was about to devour it, a dozen burly figures suddenly flew over not far away.

All of them were actually the top monsters from the wilderness that Ye Feng had encountered before!

Their cultivation aura is two to three realms higher than Ye Feng's now.

A dozen big demons united together are definitely a very terrifying force.

These big demons immediately stared at Ye Feng, smiling coldly from high in the sky.

A big demon said aloud, "You kid actually found such a precious deep-sea dragon vein here secretly? You kid is so lucky, but now this deep-sea dragon vein belongs to us."

Another big demon said loudly, "This kid caused us to be surrounded by thousands of mummies before. Our brothers were injured and died. We must make this kid pay a huge price."

After finishing speaking, more than a dozen big monsters from the wilderness suddenly erupted with terrifying aura of cultivation. They all released their own extremely powerful power and attacked Ye Feng, trying to kill Ye Feng. Killed on the spot.

The cultivation levels of more than a dozen big monsters are all two or three realms higher than Ye Feng. If they attack together, the power is indeed very terrifying and the damage is astonishing.

Even Ye Feng couldn't help but look at Master Yi beside him at this moment, and couldn't help but say, "Master Yi, let's escape from here as soon as possible. These dozen big demons unite together, it's really... It's too scary. Although this deep-sea dragon vein is very precious, it's not worth it if you sacrifice your life for it."

Ye Feng decided to wait until his cultivation level improved, and then he must fight back and regain this place.

But just when Ye Feng was about to take Master Yi away, Master Yi suddenly smiled and said, "Although I was forced to sleep this

After so many years, my strength is no longer one percent of what it was back then, but my Feng Shui skills have not deteriorated at all, and I built all the Feng Shui and structures of this underground tomb. In my eyes, this underground tomb is This is my home court. "

After finishing speaking, Master Yi suddenly took out a golden compass from his storage ring and threw it high into the sky.

Buzz!

At this moment, Master Yi seemed to have activated the Feng Shui power in the entire underground tomb, that is, the power of heaven and earth.

Then Ye Feng immediately saw an incredible step.

I saw several huge statues around me. They were all broken, but now they seemed to have been given life, and they suddenly came to life.

Several majestic statues measuring tens of thousands of meters, as if they had become puppets that Master Yi could control, attacked directly towards the dozen big demons that were rushing towards them.

Boom! !

These majestic statues were all cast by Master Yi for the wife of Emperor Netherworld, so the materials used were very high-end. Now they have been given the power of Feng Shui by Master Yi. These statues are like It suddenly became alive and had terrifying attack power, sending more than a dozen big monsters flying backwards under attack.

"What??"

"How can this be?"

More than a dozen big demons were immediately stunned.

At this time, Ye Feng's eyes showed deep surprise when he saw that these majestic statues were suddenly resurrected and had tremendous power.

At this moment, the dozen or so big monsters that were blown away were already stunned.

They stared at Master Yi who was standing next to Ye Feng, and immediately said viciously: "Old man, although I don't know who you are, I advise you not to meddle in other people's business, otherwise, I will kill you too later." !”

I heard these dozen big demons say this

So, Master Yi suddenly smiled coldly and said out loud, "Brother Ye Feng is now my good friend. If you dare to do anything bad to him, you are going against me. If you are outside, maybe I have consumed a lot now." With years of skill, there is no way I can deal with you, but in this underground tomb, I am the home field."

Uh-huh!

After finishing speaking, Master Yi stretched out his hands, and Ye Feng saw Master Yi's two extraordinarily long golden fingers, moving slightly towards the void, as if they were playing a piano in the void.

"boom!"

Almost at this moment, the surrounding ground shattered, and two more ancient giant-like sculptures rushed out of the earth again, frantically attacking the dozen big monsters.

At this moment, the dozen big demons were immediately attacked crazily by so many ancient sculptures, and they were unable to resist. Three big demons were killed on the spot.

When the remaining monsters saw that something was wrong, they immediately screamed and fled the scene.

At this moment, Ye Feng saw the scene on the entire field, with deep surprise in his eyes.

This Master Yi is worthy of being the main person in charge of building this underground tomb. He is indeed extremely powerful. He can control the power of heaven and earth and resurrect the sculptures he built back then to fight against more than a dozen big monsters.

At this time, Ye Feng couldn't help but exclaimed in admiration, "Master Yi, you are so awesome."

Master Yi smiled slightly and said, "These ancient sculptures were cast by me back then. They were placed here to help the wife of Emperor Netherworld to deal with enemies coming in from the outside. But I didn't expect that one day, they would actually help Myself."

When he said this, Ye Feng didn't hesitate at all. He immediately rushed forward and engulfed the three monsters who were killed before they had time to escape. He immediately enveloped them in his Devouring Domain and swallowed them up.

Ye Feng's skill immediately increased tremendously.

boom!

Sacrifice to the fourth level of Dao Realm!

boom!

Sacrifice to the fifth level of Dao Realm! \u003c

br\u003e

At this moment, Ye Feng's cultivation reached two levels in a row, and Ye Feng's eyes suddenly showed a look of surprise.

The skills contained in these big demons are indeed very powerful, which is a great tonic for me.

Uh-huh!

At this moment, Ye Feng returned to Master Yi.

Master Yi showed a look of surprise in his eyes, stared at Ye Feng, and said loudly, "Your devouring ability is quite rare. In our ancient times, very few people had this ability, and you are a human race, but you are It's incredible to be able to directly absorb the power of the demon clan and use it for yourself."

At this moment, ancient Feng Shui masters like Master Yi are incredulous at Ye Feng's devouring ability. This shows how magical Ye Feng's devouring ability is to outsiders.

At this time, Ye Feng continued to stretch out his hand without any hesitation and began to devour and absorb the deep sea dragon vein.

Originally, Ye Feng wanted to capture this deep-sea dragon vein, and then see if he could refine it into some very special elixirs with dragon vein attributes, so that he could increase his power more efficiently.

But now Ye Feng finds that the threat of these big monsters is too great, so now Ye Feng directly devours this deep sea dragon vein on the spot, wanting to improve his cultivation skills as soon as possible to avoid encountering more powerful big monsters in the future. , I have the ability to resist.

If Master Yi hadn't been here this time, if he hadn't happened to be in this underground tomb and could use the power of the majestic puppet that was cast in the underground tomb, Ye Feng would probably have ended badly.

So at this time, Ye Feng didn't want to waste time anymore and just started to devour and absorb the power of this deep sea dragon vein to quickly improve his skills.

Ye Feng felt that as long as he could break through to a greater realm, he would not have to be afraid of these great monsters in the future.

Master Yi was very careful at this time. He controlled the ancient puppets and stood sideways behind them in a row, as if they had become an insurmountable wall to prevent those powerful monsters. Turn back and attack again.

Chapter 4783 Repay the kindness

Boom!

At this moment, as Ye Feng devoured it, the power of the dragon vein in the deep sea dragon vein was immediately absorbed by Ye Feng into his Dantian.

Waves of extremely majestic energy boiled in Ye Feng's limbs, causing Ye Feng's skill to greatly increase at this moment.

Ye Feng's cultivation momentum naturally began to rise.

boom!

Sacrifice to the sixth level of Dao Realm!

boom!

Sacrifice to the seventh heaven of Dao Realm!

boom!

Sacrifice to the eighth level of Dao Realm!

boom!

Sacrifice to the ninth level of Dao Realm!

At this moment, Ye Feng's cultivation realm suddenly broke through the fourth level of the sky, directly from the fifth level of the Sacrifice Realm to the ninth level of the Sacrifice Realm. It can be said to be a huge breakthrough, which made Ye Feng His power suddenly increased tremendously.

At this time, Ye Feng couldn't help but sigh, this is indeed a deep-sea dragon vein captured from the depths of the ocean in ancient times, and the energy of heaven and earth contained in it is indeed very powerful.

At this time, Ye Feng looked at Master Yi beside him and immediately said, "Master Yi, we can leave here."

Master Yi nodded and took Ye Feng to fly quickly in another direction.

And not long after they left, dozens more big demons came to the place where the battle was taking place.

They looked at the corpses of the three great demons lying on the ground. They were all completely shriveled up. Their death conditions were very miserable and strange. Their eyes immediately revealed a look of deep shock and anger.

A big demon couldn't help but said, "That boy should be Ye Feng, the number one genius in the Northern Territory. He also angered the top overlord races in our wilderness, the Sun God Clan and the Amethyst Dragon Clan. Apart from him, other young people are not the same." May have such terrifying strength."

Hearing this big demon say this, other big demons are also

They all nodded.

During this period of time, the most difficult enemy they encountered in this underground tomb was this young man in white clothes.

They compared the top geniuses in various major fields and finally determined Ye Feng's identity.

At this moment, dozens of big demons immediately discussed and prepared to no longer disperse, but to gather together at all times. In this way, the next time they meet Ye Feng, they will not be killed by Ye Feng. .

And just when these dozens of big demons were planning to unite and kill Ye Feng.

Ye Feng followed Master Yi to another building in this underground country.

At this moment, the place Master Yi brought Ye Feng to was a huge tower that looked very ancient.

This huge tower has a total of eighteen floors, giving people a very ancient and majestic feeling.

Master Yi said slowly, "This eighteen-story giant tower is called the Tower of Hell. It was cast by me using a special material. It represents the eighteen levels of hell in the underworld. In this hell tower, Emperor Netherworld packed a lot of burial objects back then, we can go in and take a look."

Ye Feng immediately nodded and followed Master Yi as he walked quickly towards the eighteen-story hell tower.

When they came to the entrance of Hell Tower, they immediately saw the ancient totem on the gate of Hell Tower.

These totems are all creatures from the underworld and hell.

Seeing this scene, Ye Feng couldn't help but think to himself that the Nether Emperor and his wife were really persistent in their pursuit of the power of the underworld. They seemed to think that as long as they could obtain the power of the underworld, they would be able to live forever. This is really true. It makes people feel a little ridiculous.

While Ye Feng was thinking secretly in his heart, Master Yi and Ye Feng had already arrived at the entrance of the Hell Tower.

Uh-huh!

Master Yi stretched out his hand and touched the door of the Hell Tower in front of him. The door seemed to be activated by some mechanism. Suddenly, it was opened with a roar, and then Ye Feng followed Master Ye. Got in.

Ye Feng's face was filled with joy at this time. Following Master Yi, the builder and leader of the underground country, there was almost no obstacle and he could easily enter any place in this underground country.

At this time, Ye Feng followed Master Yi into the Hell Tower and immediately saw rare treasures stacked in this giant tower.

Moreover, Ye Feng also saw a lot of ancient books piled on the bookshelf nearby. They should all be inheritance left by the Netherworld Emperor. ??

The reason why the Netherworld Emperor built this underground tomb like an underground kingdom was because the Netherworld Emperor felt that his wife could one day achieve immortality and revive, and then the entire underground kingdom could become the base camp of the Netherworld Emperor's wife.

When the time comes, the wife of the Netherworld Emperor will go to the Netherworld Emperor's tomb and resurrect the Netherworld Emperor. In this way, they will be able to realize their dream and be able to revive again tens of thousands of years later and achieve eternal life.

However, all of this was destroyed by Ye Feng who came here accidentally and Master Yi who woke up.

"This Netherworld Emperor is actually willing to pile up so many rare treasures and inherited books in this hell tower. Naturally, it is for the recovery of his wife in the future, but now they have become my wealth."

Ye Feng said at this time, his eyes were full of joy, without any politeness at all. He immediately opened the storage ring and collected all the rare treasures in the hell tower into his own pocket.

Inside his storage ring.

Now Ye Feng doesn't have much time to carefully identify what these rare treasures are, because the situation is urgent now, and the top monster in the wilderness has entered this underground country, so Ye Feng doesn't want to waste time and destroy the entire hell at once. The rare treasures in the tower are all stored in his storage ring.

After this mission of exploring the ancient tomb of the Netherworld Emperor's wife is over, I will sort out the specific rare treasures.

And in addition, Ye Feng also put those inheritance secretaries into his storage ring.

While Ye Feng was collecting, he suddenly thought of something and couldn't help but look at Master Yi beside him, and said awkwardly, "Master Yi, do you need these cultivation resources? I can give you half of it." , after all, this is the result of our joint efforts."

Hearing what Ye Feng said, Master Yi smiled slightly, patted Ye Feng's shoulder and said, "Just take it. I don't need these. I can revive after tens of thousands of years. That's all." It's my greatest luck. As for these things, I don't value them very much. If I want them, I can get them at any time."

Hearing what Master Yi said, Ye Feng's eyes suddenly showed a look of surprise.

yes!

Master Yi was a top Feng Shui master in that ancient era when there were countless powerful men. Wherever he went, he would probably be treated as a guest by various powerful forces and receive countless wealth.

Moreover, such an ancient strong man has come to this era, and what he understands is simply a dimension-reducing blow to current practitioners and Feng Shui masters.

So if Master Yi wants any wealth, he can easily get it.

The main reason why Master Yi took Ye Feng to these places where wealth was hidden was to repay Ye Feng's kindness to him.

Chapter 4784 Hand of the Emperor

Ye Feng collected them very quickly. In less than a moment, he had collected all the rare treasures and inherited books specially left by the Netherworld Emperor in this huge tower into his storage ring.

Ye Feng didn't even have time to carefully identify the specific items. Anyway, he collected them all into his storage space first.

After Ye Feng collected it, he followed Master Yi and left the giant tower.

When Ye Feng followed Master Yi out of the giant tower, Master Yi looked at Ye Feng beside him and couldn't help but said: "Now that I know where the wealth is accumulated, I have found it, we can go directly I want to go to the palace in the middle of this underground country and see what the Netherworld Emperor's wife has become now and whether she has eternal life."

Hearing what Master Yi said, Ye Feng immediately nodded and said: "Okay, let's go directly to the central palace area now."

Next, Ye Feng followed Master Yi directly and advanced rapidly among the ancient ruins of this underground country.

Master Yi knew the route, so Ye Feng didn't have to look for it by himself, he could just follow Master Yi.

While walking, Ye Feng started to explore the various rare treasures and inheritance books that he had just collected in his storage ring to see if there were any that he could use directly.

After all, Ye Feng still poses a great threat. Dozens of monsters with terrifying cultivation levels may appear at any time to surround and kill him.

Although Master Yi can control the puppets in this underground tomb to deal with the enemy through the power of Feng Shui and Heaven and Earth.

But Ye Feng also knows that it can only be done in a specific environment. For example, when he was dealing with those big monsters in that place just now, there happened to be several majestic puppet giants around and underground that could be controlled by Master Yi. \u003c

br\u003e

If there are no puppets, Master Yi will not be able to control those giant puppets to deal with the dozens of big monsters.

Even if you bring the puppet itself with you, it will be of no use, because only specific fields can allow Master Yi to activate the power of Feng Shui to control the enemy.

So at this time, Ye Feng felt that he had to quickly improve his own strength after all.

Master Yi woke up after countless years of slumber, and his strength has dropped to a very weak level. Not to mention his Feng Shui skills, but his own combat power may not be as powerful as the current Ye Feng.

So at this time, Ye Feng quickly searched for the rare treasures contained in his storage ring.

Ye Feng did not check the inheritance books for the time being. The first thing Ye Feng searched for was whether there was anything containing pure power among those rare treasures that he could devour directly on the spot and break through his own skills on the spot.

Because Ye Feng's cultivation is different from others, other people's cultivation may require a very slow and long process, but as long as Ye Feng has the energy to devour himself, he can directly devour and break through.

At this time, Ye Feng continued to explore the rare treasures that he had included in his storage ring, and finally found three treasures that he could devour on the spot.

They are a dragon ball that exudes golden light, a plant that looks like a monster and seems to contain great medicinal power, and the other is an emerald jade stone that contains rich energy.

These three things are the treasures that Ye Feng found from those rare treasures.

Energy things can be used to devour and enhance one's own power.

At the next moment, Ye Feng didn't care what other uses each of these three things had. Anyway, what Ye Feng needed now was to devour the pure energy in them to improve his skills.

Therefore, Ye Feng was like a cow chewing a peony. He enveloped these three ancient treasures in his devouring domain and began to devour them.

Boom! !

At this moment, streams of very pure and high-level energy were immediately injected into Ye Feng's limbs, causing Ye Feng's skills to increase rapidly.

Ye Feng's cultivation aura once again began to break through rapidly.

boom! .??.

Sacrifice to the tenth level of Dao Realm, Great Perfection!

boom! .??.

Half step to Taoism!

At this time, Ye Feng actually broke through the bottleneck of the tenth heavenly perfection of the Dao Sacrifice Realm and stepped into the Half-Step Dao Realm. It can be said to be a huge gain.

Although he has not stepped into the real first level of enlightenment above the sacrifice realm, the half-step to enlightenment has allowed Ye Feng to step into the enlightenment realm, a new and powerful level of cultivation. For Ye Feng, it is also With huge help, Ye Feng's combat power increased unparalleledly at this moment.

Ye Feng clenched his fists at this time and could feel that the power of the new realm of enlightenment was boiling in his body.

You must know that Ye Feng is different from other people. Even if Ye Feng only breaks through to the half-step of the Dao Realm, Ye Feng's combat power can instantly rival that of a true Dao Realm level expert.

At this moment, Ye Feng didn't hesitate at all and just continued to explore the other things he had obtained before.

Inherited books, see if any of the inherited books left by Emperor Netherworld are worthy of your own cultivation.

Ye Feng feels that there should be good high-level inheritance books, because the Netherworld Emperor is such a superhuman figure. The inheritance books he left behind, even if they are not specially reserved high-level inheritances, even if they are just ordinary inheritances, are still important to Ye Feng. Of great help.

After all, an ordinary inheritance in the eyes of a transcendent figure like Netherworld Emperor is definitely a very advanced inheritance for today's Ye Feng.

At this moment, Ye Feng was exploring those inheritances, and sure enough, Ye Feng found two very powerful inheritances, which are very suitable for Ye Feng's current practice.

These two sets of advanced inheritances are called Hand of the Emperor and Netherworld Armor respectively. These two sets of inheritances should be the inheritances created by the Netherworld Emperor back then. After Ye Feng discovered it, he felt that it was very advanced. If he practiced it on his own, he could greatly benefit from it. The improvement of his own power is many times stronger than the two inheritances that Ye Feng selected in the Royal Library of the Blood Demon Dynasty.

Therefore, Ye Feng feels that the few sets of inheritances obtained by the royal family can be eliminated directly, because now he has received a stronger inheritance.

After using the Hand of the Emperor, you should be able to possess a share of the power of the Netherworld Emperor.

The Netherworld Armor is similar to the inheritance of the Netherworld Domain that Ye Feng received before. It may also use the energy of the underworld to condense a set of indestructible armor on his body. It is a defensive inheritance.

In any case, Ye Feng has obtained these two sets of inheritance, which can be said to be priceless treasures. After all, this is the inheritance left by the Netherworld Emperor, the super big man in Zhongzhou back then.

At this moment, Ye Feng directly started to practice these two sets of inheritance, practicing while rushing on the road. It can be said that he did not waste any time to improve his strength.

Chapter 4785 Fiercely opening the way

Whether it is the Hand of the Great Emperor or the Netherworld Armor, although it is a very advanced inheritance left by the Netherworld Emperor and is difficult to practice, it is actually not that difficult for Ye Feng.

After all, Ye Feng's comprehension ability has become very evil after being transformed by the Dominator Gem.

Therefore, Ye Feng's speed in understanding various inheritances has always been very fast.

It can be said that Ye Feng's innate understanding is much more terrifying than others.

Therefore, even if it is a high-level inheritance left by Emperor Netherworld, Ye Feng can quickly understand it in a short period of time and start to use it.

At this time, Ye Feng first understood the Emperor's Hand, and then began to understand the Netherworld Armor.

In the end, in just half an hour, Ye Feng had already mastered the secrets of these two inheritances.

At this time, Ye Feng was following Master Yi and suddenly stretched out a hand towards a collapsed building next to him.

Buzz!

The moment Ye Feng stretched out his hand, the surrounding world suddenly dimmed.

Then it seemed that the energy of the underworld appeared out of thin air, summoned by Ye Feng from the ancient interface of the underworld.

Immediately afterwards, a towering hand that covered tens of thousands of meters condensed in the sky above Ye Feng's palm.

This majestic hand exudes blue-black light, giving people the feeling of the hand of the emperor of the underworld, capable of suppressing everything.

This is the Hand of the Emperor created by the Netherworld Emperor. It allows Ye Feng to condense the energy of the underworld into a palm of the underworld emperor in a short period of time, which has extremely terrifying and destructive power.

Moreover, this kind of hand of the emperor has the energy of the underworld. When dealing with living creatures, it can suppress the enemy's blood energy and consume the opponent's yang energy. It can be said that it has very terrifying power.

It has terrifying destructive power, and also has a very strange ability to reduce life.

"Um?"

At this time, he saw Ye Feng suddenly condensing a big hand with the attributes of the underworld in the sky. Master Yi, who was leading the way, immediately showed deep surprise in his eyes and stared at Ye Feng behind him. , couldn't help but said: "Have you learned the inherited hand of the Great Emperor that you just obtained from the giant tower?"

Hearing what Master Yi said, Ye Feng immediately nodded, and then said in surprise: "Master Yi, you actually know that the inheritance I just performed is the hand of the emperor. It seems that you have also seen this trick back then. The power of inheritance."

Master Yi nodded, and then said with admiration in his eyes: "This set of inheritance is a powerful inheritance specially created by Emperor Netherworld for his wife. It has very terrifying power. I didn't expect Ye Feng to You have learned this set of Emperor's Hands in a short period of time, and you are also able to exert the powerful power of the Emperor's Hands. I have to say that you are really the most evil wizard I have ever seen, even when I was that In the ancient glory days, it was rare for young wizards with such evil talents to appear like you."

When he said this, Master Yi couldn't help but shook his head and said: "Back then, I also had a disciple who was as amazing and talented as you. Unfortunately, he died in an ancient tomb. At that time, I The art of Feng Shui was passed down to him, but he was too impulsive and thought he was invincible in the Feng Shui tombs, so he entered various terrifying tombs and eventually died inside. "

Hearing what Master Yi said, Ye Feng fell silent slightly and didn't say much.

At this moment, Ye

Feng Ze continued to experiment with his inheritance of Netherworld Armor.

Buzz!

At this moment, Ye Feng cast the Netherworld Armor, and saw countless Yin Qi immediately emitted from under Ye Feng's earth, and then directly condensed a set of thick Netherworld Armor around Ye Feng's body, which had a very special Terrifying defense.

Ye Feng was very satisfied with this.

The two sets of inheritances he obtained this time happened to be one for offense and one for defense. They had very advanced secrets and power. Ye Feng was naturally very satisfied and very happy.

It has to be said that Ye Feng got a lot of good things this time he entered this underground tomb, and his overall strength was greatly improved.

While Ye Feng was thinking secretly, Master Yi in front had stopped.

At this time, they had arrived at the destination of their trip, which was the palace area in the middle of this underground kingdom ruins.

At this time, Ye Feng looked forward and saw an extremely splendid palace, standing on the ground in front of him, exuding ancient majesty, and also exuding a terrifying aura that people were afraid to approach.

At this time, Master Yi spoke up and said: "It seems that the wife of the Nether Emperor was not completely dead. I can still sense her special aura, but it is very weak. I guess she has not succeeded in immortality. Let's go and stop her." "

Hearing what Master Yi said, Ye Feng immediately nodded and followed Master Yi directly into the palace.

But just at the moment they entered the palace gate.

Boom!

I saw that above the palace hall, a sculpture of a golden dragon opened its eyes, and something appeared in it.

The green light emitted, directly and quickly impacting in the direction of Master Yi.

boom!

Master Yi had no time to react, and was directly bombarded by the golden dragon sculpture and flew backwards, spitting out a mouthful of blood.

Although Master Yi is a Feng Shui master from the ancient times and knows the terrain of mountains and rivers and how to find dragons and acupuncture points, his own strength is not very strong.

At this moment, Master Yi immediately said in horror: "I built all the sculptures here. Only I can control the Feng Shui around me to awaken these sculptures and fight for me. I didn't expect this." The sculpture actually attacked me, something unspeakable must have happened here."

At this time, Ye Feng stared at the golden dragon sculpture with green eyes, and immediately rushed to Master Yi, helped Master Yi up, and then said loudly: "Master Yi, this golden dragon The sculpture is probably controlled by the power of the underworld. You see, the eyes of this golden dragon sculpture are emitting green light. That is the energy of the underworld. I feel that the entire palace in the center has been enveloped by the energy of the underworld. , Everything here has changed, and Master Yi, the original builder, has no control. "

Master Yi immediately nodded, his eyes a little solemn.

At this time, Ye Feng said loudly: "The next step is up to me. My current cultivation and comprehensive strength have been greatly improved compared to before. Let's rush in directly."

boom! !

After saying that, Ye Feng directly exploded with the powerful power of the Immortal Body of the God, and his whole body was covered with golden light, and he rushed directly towards the golden dragon sculpture controlled by the energy of the underworld.

The two golden iron fists, possessing boundless power, struck out fiercely and fiercely opened a path directly in front!

Chapter 4786 Realizing Eternal Life

Boom! !

At this moment, Ye Feng's whole body burst into divine light, like a young golden god fighting with this golden dragon sculpture controlled by the energy of the underworld.

One man and one dragon were fighting at high altitude, and the energy fluctuations produced caused the entire surrounding earth to shake.

Master Yi who was not far away felt worried for Ye Feng when he saw this scene.

After all, everything in this underground tomb was cast by Master Yi back then.

Therefore, Master Yi knows better than anyone else how powerful this golden dragon sculpture is.

In order to cast the royal palace area, which is the core of the underground tombs, Master Yi searched for the strongest metals and strongest materials from all over the world, and cast this golden dragon sculpture, which hovered above the palace to protect it. The wife of the Netherworld Emperor.

So now that this golden dragon sculpture is controlled by the energy of the underworld and regains its own power, it is still very scary. At this time, Master Yi is naturally worried about Ye Feng.

But then Master Yi saw with some astonishment that although Ye Feng looked delicate and delicate, after bursting out his strength, he looked like an invincible macho man with terrifying power. With one punch and one kick, They were all capable of bursting out with overwhelming brute force, and even the golden dragon sculpture they hit kept retreating.

Seeing this scene, the worry in Master Yi's eyes immediately disappeared, and instead was filled with deep admiration.

Master Yi couldn't help but said, "This young man is indeed more terrifying than I imagined. What kind of character is he? In my glorious ancient era, it was impossible for such a defiant young man to appear. "

And just when Master Yi was sighing, a golden long sword suddenly appeared in Ye Feng's hand. It was the God's Ring that turned into the God's Sword.

At this time, Ye Feng beat the golden dragon sculpture until it almost fell to the ground, and then held the God's Sword in his hand to give the golden dragon sculpture a fatal blow.

Boom!

At this moment, the golden long sword in Ye Feng's hand was so terrifyingly sharp that it was like cutting tofu.

The entire head of the golden dragon sculpture was cut in half.

Snap!

And at the next moment, a golden round bead the size of a human head suddenly fell from the head of the golden dragon sculpture, exuding bright golden light and seeming to contain vigorous energy.

"Um?"

Seeing this scene, Ye Feng's eyes lit up, and he quickly reached out and grabbed the golden bead the size of a human head in his hand.

Ye Feng couldn't help but said, "Why is there a dragon ball in the sculpture? Is this really a living dragon?"

Uh-huh!

Master Yi flew over from not far away and explained with a smile, "This is indeed a sculpture dragon that I cast back then. It is not a real dragon. And this round bead is not a real dragon bead, but I used a special material to imitate a dragon ball. The purpose is to make this golden dragon sculpture exert great power in the future. However, in this round bead, I injected a lot of pure and high-level energy of heaven and earth. So it feels like a real dragon ball. In fact, to be honest, this bead condensed from the energy of heaven and earth may be more precious than the real dragon ball. After all, it is condensed from the pure high-level energy of heaven and earth. of beads."

Hearing what Master Yi said, Ye Feng's eyes suddenly showed a look of joy, and he quickly opened his mouth and swallowed the round bead, which was the size of a human head, into his stomach.

"boom!"

At this moment, Ye Feng immediately felt that this round bead indeed contained very majestic energy of heaven and earth, and it exploded in his entire body in an instant.

Buzz!

Ye Feng immediately felt the infinite energy in his body, which rapidly increased his power.

Ye Feng immediately began to guide this force to break through the bottleneck of his current Half-Step Dao Realm.

Boom!

Finally, at a certain moment, an extremely powerful new cultivation momentum burst out from Ye Feng's body.

That is the momentum of a complete breakthrough!

With the help of this dragon ball, which was condensed from the energy of heaven and earth the size of a human head, Ye Feng successfully broke through the current bottleneck of the half-step enlightenment realm and stepped into the true first level of enlightenment!

When Ye Feng entered the first level of the true enlightenment realm, he could clearly feel that his strength had been improved dozens of times, and his combat effectiveness had also achieved a huge breakthrough. .??.

Ye Feng was very happy at this time. Entering this underground tomb, his cultivation level improved as fast as a rocket.

Sure enough, this kind of ancient place is the place where I can quickly improve my cultivation level.

After all, everything contained in this kind of place is very high-level and can be of great help to him. After Ye Feng steps into this realm of cultivation, ordinary cultivation resources can no longer meet Ye Feng's needs.

At this time, Ye Feng felt that if he returned to the Blood Demon Dynasty this time, he could even consider going to Zhongzhou.

Because Ye Feng felt that such a remote place in the Northern Territory was no longer enough for him to break through quickly.

In fact, Ye Feng's idea all along was to quickly improve his cultivation strength so that he could go to the outside world to find his parents.

As for the various people and things that Ye Feng encountered along the way of cultivation, sometimes Ye Feng had to let go of them, and they could only be regarded as a past event and a few passers-by on his journey of cultivation.

There is no way around it.

After all, Ye Feng's cultivation speed is too fast, and sometimes there is no way to stay in one place for too long.

While Ye Feng was thinking secretly, Master Yi beside him had already entered the palace.

Ye Feng quickly walked up and stood beside Master Yi, keeping alert in case other dangers suddenly appeared.

After all, although Master Yi is very knowledgeable about Feng Shui, how can Master Yi

After so many years, his own strength is no longer very strong, not even as strong as Ye Feng.

Therefore, Ye Feng felt that it would be better for him to follow Master Yi closely to protect his safety.

At this time, Master Yi suddenly looked in a certain direction in the palace and said, "She is indeed not dead yet."

Ye Feng also looked in the direction of Master Yi at this moment, and immediately saw a very strange scene.

I saw a woman of unparalleled beauty, still maintaining the most youthful and beautiful posture, but at this moment, her hands and feet were tied by four huge black chains, tied to an ancient totem pole. superior.

There are many ancient totems engraved on this totem pole. These totems seem to be creatures from the underworld. They look weird in shape, have ferocious faces, and exude the atmosphere of the underworld.

Moreover, the bottom of this totem pole actually goes deep into the ground. No one knows how deep this totem pole goes into the ground.

Master Yi said aloud, "This totem pole is an underworld artifact that Emperor Netherworld obtained from a mysterious place. He seemed to have found the space interface node leading to the underworld here, and put this totem pole. One end goes deep into the ground and connects to the underworld, and the other end is tied to the wife of the Netherworld Emperor and connects to the underworld, so that she can continue to absorb the energy of the underworld for endless years, but she will not be completely assimilated by the underworld in the underworld. , thereby becoming some kind of special and strange existence and achieving eternal life."

And just as Master Yi was talking, the wife of Emperor Netherworld, who was tied to the totem pole, this ancient female figure with unparalleled grace suddenly opened her eyes, but there were no eyeballs, only pure white ones. Whites of eyes.

And you can see that her face suddenly changed from a peaceful state of sleep to a ferocious expression. Her black hair also began to grow crazily, and she suddenly turned into a very ferocious and weird-looking creature.

When Master Yi saw this scene, he couldn't help but his face changed immediately, and he said loudly, "Back off! This is the forbidden woman! In order to live forever, she turned herself into a forbidden woman, a weird and yin-yang-no-yang kind of thing. biology!"

Chapter 4787 Ignore Defense

hiss!

At this time, even Ye Feng couldn't help but take a breath of air.

I didn't expect that the wife of the Netherworld Emperor, such a great woman with unparalleled grace in the ancient times, would ruin herself like this in order to gain eternal life, and turn into such a weird underworld creature, a forbidden woman.

This is a very strange existence and state. Even if she is said to be a creature in the upper world, she is not, and even if she is said to be a creature in the underworld, it does not count, so it is very strange.

At this moment, Ye Feng looked at Master Yi beside him and couldn't help but asked, "Master Yi, how should we deal with this?"

Master Yi immediately pulled Ye Feng back quickly and said, "Stay away from the Netherworld Emperor's wife. She has turned into a ghost-like forbidden woman. It is better to stay away, but now I guess she has set her sights on us." "

Uh-huh!

And sure enough, the moment Master Yi finished speaking, the wife of Emperor Netherworld smiled ferociously and flew towards the two of them quickly. ??

Her flying speed was very fast. It could be said that she would move a few hundred meters in a blink of an eye, and she would be in front of the two of them in an instant.

At this moment, Ye Feng quickly released the Nether Armor to resist.

But the strange forbidden woman that the Netherworld Emperor's wife turned into stretched out a hand, and every nail seemed to be in a state of nothingness, and it suddenly pierced Ye Feng's heart.

"ah!"

Ye Feng immediately felt that his heart was pierced by five sharp sword-like nails. The horrible pain made Ye Feng immediately couldn't help but scream and quickly retreated.

At this moment, if it weren't for the powerful vitality of Ye Feng's god body, his heart might have been completely crushed by the wife of the Netherworld Emperor who turned into a forbidden woman.

At this moment, Ye Feng's face turned pale and he quickly flew to Master Yi's side and said, "This creature is so weird. It can ignore any physical defense and directly attack my internal organs. It's so scary."

At this moment, Ye Feng

No one knows how to deal with such a strange existence.

Master Yi was thinking quickly, as if he wanted to find a way to get rid of this forbidden woman.

But just when the forbidden woman transformed from the Nether Emperor's wife once again attacked the two of them, dozens of towering figures suddenly descended from high in the sky not far away.

The cultivation auras on their bodies are very terrifying, one or two realms higher than Ye Feng's current level.

It turned out to be the big monsters who wanted to cause trouble for Ye Feng before.

They got secret news from the wilderness and came to the ancient tombs under this mine, hoping to find the inheritance and wealth left by the ancient lost civilization.

Unexpectedly, he encountered such a thorn in the side of Ye Feng and suffered miserably from Ye Feng.

Now they found Ye Feng again, and immediately rushed towards Ye Feng with a ferocious smile.

A group of dozens of big demons shouted angrily, "Ye Feng, I finally found you again. You will definitely die today."

But the moment these dozens of big monsters appeared, the wife of the Netherworld Emperor who originally wanted to continue attacking Ye Feng and Master Yi turned into a strange creature, the Forbidden Woman, suddenly abandoned Ye Feng and Master Yi, and turned to His eyes exuded a faint green light, and he quickly rushed towards dozens of big demons.

"Um?"

Seeing this scene, Ye Feng was immediately stunned.

Master Yi said with bright eyes, "The vitality of these dozens of great demons is like a vast ocean, dozens of times more vigorous than the two of us combined, and the wife of the Nether Emperor has absorbed This strange creature transformed by the energy of the underworld, the Forbidden Woman, relies entirely on the energy of blood to determine the location of the enemy, because although the Forbidden Woman is very strange, this creature cannot see the specific appearance of the creatures in the underworld. ,so

You can only rely on blood energy to sense where the enemy is. "

At this time, dozens of extremely powerful demons suddenly arrived. The majestic blood energy was as vast as the ocean. For a strange creature like the Forbidden Woman, it was definitely the biggest target, so it naturally gave up. The combination of Ye Feng and Master Yi quickly rushed towards the direction where dozens of big demons had just descended.

Seeing this scene, Master Yi immediately breathed a sigh of relief, and couldn't help but said happily, "Ye Feng, it seems that these dozens of big monsters want to hunt us down, but now they have to deal with it for us." After such a big trouble, now we can go and explore the good things left by the Nether Emperor's wife in the palace. "

Hearing what Master Yi said, Ye Feng couldn't help but look in surprise at the slightly thin figure of the Netherworld Emperor's wife who was rushing towards dozens of great demons not far away, and said with some uncertainty, " Dozens of big monsters should be able to quickly transform the Netherworld Emperor's wife into this weird forbidden woman and kill her."

When Master Yi heard what Ye Feng said, he immediately smiled, gave it a try, and said, "You'll find out later."

After saying that, Master Yi took Ye Feng and walked quickly towards the middle of the palace.

At this moment, Ye Feng and Master Yi arrived at the coffin of the Nether Emperor's wife, and immediately saw countless treasures piled in the Nether Emperor's wife's coffin.

Most of them are priceless things, and of course there are things that Ye Feng needs.

For example, an agate that looked like a gem actually contained a very rare three-headed dragon, which made Ye Feng's eyes light up immediately.

In addition, there were many shining golden weapons and armors, which were obviously extremely high-end weapons. Even Master Yi could not help but take many needed treasures from the coffin.

At this moment, Ye Feng was collecting these treasures while looking behind him.

\u003e At this moment, the Netherworld Emperor's wife turned into the Forbidden Woman, a very thin-looking female soul-like figure in white, and instantly flashed in front of dozens of great demons.

When a big demon saw this scene, he immediately couldn't help but slap it with a slap, and released a terrifying power. He said loudly, "A mere female spirit dares to deal with top demons like us, hurry up and give it to me." Get out of here!"

But before the big demon's palm touched the forbidden woman transformed by the Nether Emperor's wife, suddenly the Nether Emperor's wife in front of him disappeared all of a sudden. When she appeared the next moment, she had already appeared. In front of this big monster.

Moreover, the palm of Mrs. Nether Emperor's hand actually ignored the heavy armor and flesh and blood worn by this great demon and directly pulled out his demon heart out of thin air.

"Ah! My heart, my heart was taken out, I have no heart!!"

At this moment, the great demon's initially disdainful expression immediately turned into one of extreme panic. He was killed on the spot, his heart was pulled out, and he died miserably.

"What??"

Seeing this scene, the dozens of remaining demons immediately showed deep astonishment in their eyes.

Obviously, they never thought that an extremely powerful demon among them would be killed by the soul of this thin and weak-looking beauty, who immediately took out his heart and killed him.

A big demon seemed to have thought of something. Looking at the disheveled hair, ferocious face, and green eyes of the Netherworld Emperor's wife, he couldn't help but said in horror, "This is not an ordinary female spirit. This is The extremely weird and legendary forbidden woman! This thing ignores any physical defense! It is a very vicious and weird creature! Let's gather together and release our huge blood energy to form a river of blood. , let's see if we can fight against this forbidden woman. Why is there such a strange creature in this damn place that should not exist in the world? "

Chapter 4788 Top Feng Shui Secrets

Uh-huh!

At this time, the Netherworld Emperor's wife turned into a forbidden woman, and once again flashed in front of a great demon.

"Get away!!"

The big demon roared loudly, picked up the long knife in his hand, and immediately slashed forward, the light of the knife shining brightly for 30,000 meters!

But the forbidden woman just stretched out a pale hand, ignored any attacks, and took out his heart again.

"ah!"

The big demon immediately screamed, screamed and fell from the sky, completely dead.

fear!

Extremely terrifying!

In just a few seconds, the forbidden woman transformed from the Netherworld Emperor's wife killed two big monsters in succession, and the method was extremely cruel and cold. She took out their hearts and let them die.

When the remaining dozens of big demons saw this scene, they were all frightened and turned pale.

Although they are strong-blooded and powerful, they cannot withstand the torment of the forbidden woman.

At this moment, dozens of big demons immediately united together, releasing their own blood energy, and condensed a long river of blood.

A long river of blood-red vitality instantly appeared around dozens of big demons, charging towards the Forbidden Woman ahead.

The forbidden woman that the Netherworld Emperor's wife turned into seemed to be extremely afraid of this kind of extremely strong and powerful river of blood. She actually did not flash in front of another great demon again, but just floated in the sky. , seems to be waiting for an opportunity.

At this moment, dozens of big demons saw that this method was effective, and their faces immediately showed surprise.

But the next moment, a big demon looked at the tomb area in the center of the palace and found Ye Feng and Master Yi frantically collecting the rare treasures in the coffin.

"Damn it!"

These big demons immediately turned extremely pale.

A big demon couldn't help but said, "You guys stop this forbidden woman, and I'll stop that boy Ye Feng and that old man from looting the wealth left by the Netherworld Emperor's wife."

Uh-huh!

But just at the moment when this big demon flew out of the river of blood.

Uh-huh!

The Netherworld Emperor's wife became a forbidden woman

, suddenly flashed in front of the big demon, and just like before, he ignored any defense, took out his heart, and crushed it directly.

"ah!"

The big demon immediately screamed and fell from a high altitude.

"Damn it!!"

Seeing this scene, the dozens of big demons who were united suddenly showed a deep ugly look in their eyes.

They never thought that the dozens of top demons who were extremely famous in the wilderness would be forced to be blocked by a forbidden woman at this moment. They could only watch Ye Feng and Master Yi coffin the wife of the Netherworld Emperor. All the rare treasures among them were collected.

They even saw Ye Feng, a boy, put the coffin of the Nether Emperor's wife into the storage ring.

"Depend on!"

"Even the coffin boards are not spared!"

This caused the eyes of these big demons to suddenly show a deep livid and ugly look.

They couldn't help but yell, "Ye Feng, you are so greedy. You actually took away the coffin of the Nether Emperor's wife and didn't even leave a hair for us??"

Ye Feng heard the big monsters not far away yelling and cursing, but his eyes did not waver at all. He just smiled faintly and said, "You guys can play here slowly with the forbidden woman!"

Immediately, Ye Feng didn't bother to pay attention to these big monsters at all, and then looked at Master Yi beside him, and couldn't help but said, "Master Yi, do you think I can pick up the leaks now? There are several big monsters who were beaten by the forbidden woman. Killed, the body fell to the ground."

Hearing what Ye Feng said, Master Yi immediately shook his head and said, "Don't be harmed by these petty profits. As long as you approach the forbidden area, you will definitely be killed by this forbidden woman in an instant. Just now You were extremely lucky that you didn't die after being ripped out by the forbidden woman. "

Hearing what Master Yi said, Ye Feng couldn't help but nodded.

In fact, Ye Feng still wanted to release the natal magic weapon of the Lord of Heaven that he had obtained before, the Gate of Heaven, and see if he could use the Gate of Heaven.

The extremely advanced power of light can deal with this forbidden woman.

But now this forbidden woman is holding back dozens of top-level monsters. If she wants to deal with the forbidden woman, she will be helping these dozens of big monsters.

When dozens of top demons unite together, he and Master Yi will probably be no match.

Now Ye Feng has obtained countless rare treasures left by the Nether Emperor's wife, and has become rich overnight, so Ye Feng is not greedy at this time, and just follows Master Yi and leaves here immediately.

When dozens of big demons saw Ye Feng and Master Yi running away, they cursed and wanted to hunt down Ye Feng and Master Yi.

But the Forbidden Woman suddenly flew in front of them, forcing them to stop and unite together again to form a river of blood to fight against the Forbidden Woman.

At this time, Ye Feng was too lazy to care about who was more powerful among these big demons and forbidden women. He had already taken Master Yi and quickly left this ancient tomb and returned to the ground. .??.

When Ye Feng and Master Yi came to the ground, they discovered the entrance to this ancient tomb. The black-robed old man from the Southern Barbarian Empire who had been guarding it before was indeed dead.

He should have been killed by dozens of big monsters that sneaked out from the wilderness. It can be said that he was very unlucky.

Ye Feng buried the old man in black robe who guarded the entrance to the ancient tomb on the spot, and then left here directly with Master Yi.

Uh-huh!

At this time, Ye Feng immediately flew quickly towards the palace of the Nanman Empire.

Because those dozens of big demons might very well escape from the ancient tombs, it would be better for him to return to the Southern Barbarian Empire as soon as possible.

On the way, Ye Feng looked at Master Yi beside him and couldn't help but ask, "Master Yi, what are your plans next?"

Master Yi looked at the unfamiliar world around him with deep emotion in his eyes. He couldn't help but say, "I am already very unfamiliar with this world tens of thousands of years later, but I still want to go to the land of Zhongzhou and see it." Let's see if we can find some descendants of our old friends."

Hearing what Master Yi said, Ye Feng immediately nodded.

In fact, Ye Feng still

I very much hope that Master Yi can follow me and help me a lot. After all, this is a top Feng Shui master from an ancient era.

But Ye Feng also felt that Master Yi would probably not follow him, and Ye Feng still respected his friend's choice very much.

So at this time, Ye Feng did not say what he wanted to say in his heart, but nodded, clasped his fists, and said loudly, "The green mountains will not change, the green water will flow forever, Master Yi, we are destined to meet again."

After saying that, Ye Feng jumped directly and prepared to leave here directly.

Uh-huh!

Master Yi suddenly stretched out his hand and gave Ye Feng a book that radiated light, and said loudly, "Little friend Ye Feng, I am destined to be with you, and I will give this priceless book to you, but you don't want to spread it to others. You can only understand and practice by yourself."

After saying that, Master Yi, the top Feng Shui master in ancient times, simply disappeared.

Ye Feng was surprised to find that when Master Yi left, he did not need to fly by himself. He could actually use Feng Shui to mobilize the mountain gods in the two surrounding mountains.

Boom!

Two khaki giant-like mountain gods walked out of the mountains, directly supported Master Yi, left the place, and disappeared into the distance.

At this moment, Ye Feng lowered his head slightly and looked at the book in his hand, which had the ancient characters "Top Feng Shui Secrets" written on it.

This made Ye Feng's eyes suddenly light up.

Obviously, this is the inheritance of Feng Shui that Master Yi has practiced all his life.

If you can understand and practice successfully, then you can become the top Feng Shui master in the world of monsters like Master Yi.

This is truly a priceless treasure!

It's something that you can't find anywhere else, and you can't buy it with money.

Ye Feng immediately faced the back of Master Yi who was being carried away by the mountain god, clasped his fists, and murmured, "Thank you, Senior Master Yi, for your gift. If this junior is destined to meet Senior again in the future, I will repay you well."

Uh-huh!

After saying that, Ye Feng turned around and left the scene, flying towards the palace area of the Nanman Empire.

Chapter 4789 Stay for now

When Ye Feng returned to the Southern Barbarian Empire, he was surprised to find that the teams they had entered into the tombs under the mines before, whether they were the Southern Barbarian Empire team or the Blood Demon Emperor team, had all returned.

This made Ye Feng breathe a sigh of relief.

After all, no matter what, this time I was helping the emperor of the Blood Demon Dynasty, leading this team to explore this ancient tomb.

If everyone in the entire team died, then he would be a bit AWOL.

Fortunately, everyone in the team returned safely.

But this made Ye Feng still very confused as to why they could return so smoothly and safely.

Ye Feng immediately walked up to the Blood Demon Dynasty team, looked at the leader Wei Qing, and couldn't help but asked, "Senior Wei Qing, in the underground tombs under that mine, I met several powerful people. Scary monster, how did you escape?"

When Wei Qing heard Ye Feng's question, he immediately said, "The old man in black robe who guarded the entrance of the cave sent us a message before he died, so we didn't dare to waste too long in the underground tomb and quickly exited the underground tomb." Tomb, fortunately, we didn't encounter those big monsters."

Hearing what Wei Qing said, Ye Feng immediately nodded slightly. It seems that this group of teams also has a sense of self-awareness. They know that they are not strong enough and dare not compete with the top monsters in the wilderness, so in the tomb The peripheral space was withdrawn in advance, which can be regarded as closing in as soon as possible. .??.

While Ye Feng was thinking, Wei Qing stared at Ye Feng in front of him, with deep horror in his eyes.

Because the feeling Ye Feng gave Wei Qing now was simply terrifying to the extreme.

If we say that when Ye Feng followed Wei Qing to the Southern Barbarian Empire, in Wei Qing's eyes, Ye Feng was just a super-top genius, but after all, he was still in the ranks of young people, and he was not so oppressive.

But now Wei Qing stood in front of Ye Feng again, feeling that the young man in front of him no longer looked like a young man, but like an old monster, giving him a very terrifying sense of oppression.

\u003c

br\u003e Because the aura on Ye Feng's body was so terrifying, although Ye Feng did not directly release all his cultivation aura, the faint fluctuations emitted even caused vibrations in the surrounding void, which made Wei Qing The person who led the team felt deeply horrified.

He couldn't help but wonder, what did Ye Feng get in the underground tomb? How come the cultivation level has improved so horribly?

Not seeing each other for a few days felt like not seeing each other for decades.

Ye Feng's improvement in cultivation and strength made it feel like he had been practicing hard for decades, but in reality it had only been a few days.

This is enough to show that Ye Feng must have obtained something extraordinary in the ancient tombs.

However, Wei Qing did not dare to ask about the specific situation after all, because although Ye Feng was a member of their team and Wei Qing was the leader, Ye Feng's identity was too special, not just a top genius.

Now that Ye Feng's cultivation strength is so terrifying, even Wei Qing, an older man who leads the team, does not dare to question or talk nonsense in front of Ye Feng.

At this time, Wei Qing wisely chose to remain silent.

At this moment, the other young people in the team did not feel as strongly as Wei Qing.

Xu Jiaojiao, who had been chatting happily with Ye Feng before, this young woman immediately came to Ye Feng. She couldn't help but stretched out her white hands and grabbed Ye Feng's arm like a little girl. Likewise, he said in anticipation, "Ye Feng, how did you manage to come out safely after searching in the underground tomb for so long?"

nonsense! Of course it is powerful!

Wei Qing beside him couldn't help but want to say this.

But in the end, he didn't say it out loud.

At this moment, Ye Feng was looking at

Looking at the innocent and cute Xu Jiaojiao in front of her, she couldn't help but smile and said, "I actually didn't stay in the underground tombs for too long. After I met a few big demons, I didn't have too much entanglement with them and just chose Escaped from the underground tomb and returned to the Southern Barbarian Empire."

What Ye Feng said now is naturally false, but Ye Feng didn't want to tell the truth, because if these people knew that he was in the underground tomb, they would not only kill many great demons, but also get the ancient owner of the tomb, Mrs. Netherworld Emperor The countless rare treasures will probably make your eyes red with envy.

Therefore, Ye Feng felt that it was better not to speak out about this matter. After all, this was not the Blood Demon Dynasty, but the Southern Barbarian Empire.

However, even if Ye Feng casually told some lies, the young girl Xu Jiaojiao's eyes were filled with shock. She couldn't help but said with admiration, "Ye Feng, you are really amazing, those top monsters It's amazing. Uncle Wei Qing told us that your cultivation level is very terrifying, four or five realms higher than ours, but you, Ye Feng, were able to escape from their hands. It's really amazing."

Hearing what Xu Jiaojiao said, Ye Feng smiled slightly and didn't say much.

If Xu Jiaojiao knew that Ye Feng did not escape successfully at all, but successfully killed many top monsters, Xu Jiaojiao would probably be surprised and her eyes would widen.

At this moment, while the two were talking, suddenly a tall and mighty middle-aged man walked out of the palace hall of the Nanman Empire.

This middle-aged man wears a black dragon robe and a flat crown on his head, giving people a very majestic look. .??.

This person was the former emperor of the Southern Barbarian Empire.

But at this time, the emperor of the Southern Barbarian Empire looked very gloomy.

Apparently, this time the exploration of the ancient tombs under the mines was interfered by the great demon in the wilderness, which made the emperor of the Southern Barbarian Empire very angry.

Everyone thinks that all the ancient tombs under that mine are

Wealth is now obtained by those terrifying top demons.

No one knew that the countless rare treasures were all collected by a young man like Ye Feng who was present.

However, Ye Feng will not tell this matter. After all, this man is innocent and guilty of possessing the jade. He holds in his hand all the rare treasures owned by the Netherworld Emperor's wife. It is probably a shock to the whole world. matter.

Therefore, Ye Feng felt that if he did not want to be greedily hunted by everyone in the world, it would be better for him to die in his own stomach after he obtained countless rare treasures from the Netherworld Emperor's wife.

At this moment, Ye Feng looked at Wei Qing beside him and said, "Since the matter here is over, let's go directly."

When Wei Qing heard what Ye Feng said, he nodded.

After all, the purpose of coming to the Southern Barbarian Empire this time was to explore the ancient tomb.

Now being disturbed by dozens of top monsters in the wilderness, everyone was bored and naturally wanted to leave.

"Wait a minute."

But at this time, the emperor of the Southern Barbarian Empire suddenly said, "I am the emperor of the Southern Barbarian Empire. Due to the ancient agreement between the major domains, I cannot take action casually, but this time dozens of top-level monsters entered the ancient times. In the tomb, the black-robed old man of our Southern Barbarian Empire was killed. This place must be recovered, otherwise our Southern Barbarian Empire will be laughed at by everyone in the world. "

When he said this, the emperor of the Southern Barbarian Empire stared at Ye Feng, Wei Qing and other blood demon dynasty teams, and said loudly, "I hope you can stay temporarily and help me go to the wilderness to do something and establish my authority." , you came all the way from the Blood Demon Dynasty and are not members of our Southern Barbarian Empire. If you take action against Dahuang, Dahuang will never dare to say anything even if he knows that I, the Emperor of the Southern Barbarian Empire, is secretly supporting you behind the scenes. After all, those The big demon also sneaked into the underground tomb, unless Dahuang wanted to fully develop with our Southern Barbarian Empire, but they didn't dare."

Chapter 4790 Dahuang Prison

Hearing what the emperor of the Southern Barbarian Empire said at this time, Ye Feng, Wei Qing, and a group of young masters from the Blood Demon Dynasty team all suddenly became silent.

Because they never thought that the emperor of the Southern Barbarian Empire would actually let them, the masters from the team of the Blood Demon Dynasty, go to the wilderness to actively cause trouble and establish their authority.

In this regard, everyone fell silent.

At this time, Wei Qing looked at Ye Feng beside him and asked, "Ye Feng, what do you think?"

Obviously, in the eyes of the person led by Wei Qing, Ye Feng has become an extraordinary figure in the team.

So at this time, he was asking Ye Feng for his opinion.

Ye Feng just smiled slightly at this time and said, "Then it depends on what kind of benefits the Emperor of the Southern Barbarian Empire can give us."

Hearing Ye Feng's words, Wei Qing's eyes suddenly froze, and then he couldn't help but shake his head and smile bitterly.

He knows that Ye Feng is a person who likes to take advantage and is never willing to suffer losses. This time he followed the team to the Southern Barbarian Empire because His Majesty the Emperor of the Blood Demon Dynasty gave Ye Feng enough benefits.

At this time, when the emperor of the Southern Barbarian Empire heard what Ye Feng said, he immediately burst out laughing and said, "Good boy, you are very suitable to my taste. He speaks so directly, but since I asked you to help me, the Southern Barbarian Empire I will definitely not treat you badly if you let out a fierce breath on the edge of the wilderness, and the reward I will give you this time will definitely be very sincere."

When he said this, the emperor of the Southern Barbarian Empire looked at an imperial guard wearing black armor beside him and said loudly, "You take them into the treasury of our Southern Barbarian Empire. Everyone can choose anything for free as a gift." own reward."

"What?"

Hearing what the Emperor of the Southern Barbarian Empire said, the core masters of the Blood Demon Dynasty who were present suddenly showed a look of deep astonishment on their faces. They seemed not to have expected that the Emperor of the Southern Barbarian Empire would be so generous. But then there was deep ecstasy.

Because if they can really choose a treasure from the treasury of the Southern Barbarian Empire, it will be no less than a small fortune for them.

Because everyone knows very well that there must be countless rare treasures and good things in the treasury of a unified empire like the Nanman Empire.

Even if you only get to choose one piece, it's an opportunity that only comes by chance!

At this time, not to mention Ye Feng and Wei Qing, but also the other ordinary young masters in the team, all nodded their heads and said loudly, "Okay, we are willing to help His Majesty the Emperor of the Southern Barbarian Empire with this favor."

Hearing that a group of young masters in the team agreed, Wei Qing, the leader of the team, couldn't help but shake his head and smile bitterly. As expected, young people are impulsive.

Wei Qing, as the leader of the team and an elder of the Blood Demon Dynasty, knew very well that the reason why the emperor of the Southern Barbarian Empire gave them such a large reward was that what they were asked to do must be very dangerous.

But thinking about his own strength and having a powerful helper like Ye Feng, Wei Qing felt that maybe he could really give it a try.

Moreover, Wei Qing himself was also looking forward to the treasures in the treasury of the Southern Barbarian Empire.

So at this time, Wei Qing

He immediately nodded and said, "Since His Majesty is so sincere, we can consider helping His Majesty the Emperor of the Southern Barbarian Empire, but we need to know in advance what exactly is it that His Majesty the Emperor asked us to do? If we are asked We can never agree to go directly to some overlord races in the wilderness to cause trouble. Our team does not have that much ability. "

Hearing what Wei Qing said at this time, a group of young masters in the team also calmed down and looked at the emperor of the Southern Barbarian Empire.

At this moment, when the emperor of the Southern Barbarian Empire saw everyone's questioning looks, he immediately smiled and said, "Don't worry, I won't let you do such dangerous things. I just want you to stay at the border between our Southern Barbarian Empire and the Great Wilderness." Let's make some noise and let the big monsters in the wilderness know that our Southern Barbarian Empire is not easy to mess with."

When he said this, the emperor of the Southern Barbarian Empire suddenly took out a black token from his storage ring, then handed it to the leader, Wei Qing, and said loudly, "This token belongs to me." I secretly obtained the token of the Great Wilderness Prison on the edge of the Wilderness. This token can open the entire Great Wilderness Prison on the edge of the Wilderness and release all the prisoners in the Great Wilderness Prison. What I want you to do is to sneak into the Great Wilderness Prison secretly. Use this token to open the seal of the entire prison and let all the prisoners who are enemies of Dahuang escape."

"What??"

Hearing what the emperor of the Southern Barbarian Empire said, everyone present couldn't help but their eyes were shocked, and then they couldn't help but secretly thought that the emperor of the Southern Barbarian Empire was really cunning, and could actually come up with such a vicious plan. He must be ruthless. There is a lot of pitfalls.

Although I don't know where the emperor of the Southern Barbarian Empire got this token, it is indeed not a difficult thing for the team of the Blood Demon Dynasty. They can try it.

At this time, Wei Qing directly took the token and said, "Okay, we will try our best to complete this task."

Ye Feng couldn't help but shake his head and smile at this time. The emperor of the Southern Barbarian Empire did not expect that such a highly respected man and such a thief would come up with such a cunning and treacherous method.

Because you must know that the Great Wilderness Prison on the edge of the Great Wilderness contains all kinds of enemies who are enemies of the entire Great Wilderness. Many of them come

from other places, and even evil beast overlords from the depths of some primeval forests are imprisoned. In the wilderness prison.

If the seal of the Great Wilderness Prison is unlocked and all the prisoners are allowed to escape, although it will not be as exaggerated as the destruction of the entire Great Wasteland, it can completely turn the entire Great Wasteland area into chaos.

Such a move by the emperor of the Southern Barbarian Empire can be said to be a killing with a borrowed knife, and it can also make the Southern Barbarian Empire be remembered as a favor by the prisoners in the wilderness prison. It can be said that it kills two birds with one stone, killing two birds with one stone. Even Ye Feng has to admire the emperor of the Southern Barbarian Empire. How could he come up with such a deliberate move?

However, the emperor of the Southern Barbarian Empire actually had the token to unlock the seal of the Great Wilderness Prison, which showed that the emperor of the Southern Barbarian Empire had wanted to do this for a long time, but he had never found a suitable opportunity.

It just so happened that this time the top monsters in the Great Wilderness sneaked into the territory of the Southern Barbarian Empire, entered the ancient tombs under the mines, and killed an old man in black robes from the Southern Barbarian Empire. This was just the opportunity for the Emperor of the Southern Barbarian Empire to At the right opportunity, use this token to deceive Dahuang.
