### Chapter 4791 Edge Area

At this time, Wei Qing did not hesitate and simply accepted the token from the emperor of the Southern Barbarian Empire.

At this time, Ye Feng also had a slight smile on his face.

If the seal of the Great Wilderness Prison was really opened and countless prisoners escaped, Ye Feng felt that the entire Great Wilderness would really fall into chaos.

The first to bear the brunt are the two top overlord races in the wilderness, the Sun God Clan and the Amethyst Dragon Clan who have enmity with Ye Feng.

Therefore, Ye Feng completely felt that it was very useful to him when he did this.

Because Ye Feng now has enmity with the top overlord races in the wilderness, the Sun God Clan and the Amethyst Dragon Clan, so if all the prisoners in the entire Dahuang Prison are released with such a token, it will be a big blow to Ye Feng in some respects. , is also an assist. .??.

Moreover, Ye Feng also happened to go to the wilderness area this time to meet Princess Linglong of the Peacock Clan, whom he had made an agreement with before.

This Linglong is still very extraordinary. Not only can she become the goddess of the Wanlong Divine Sect, one of the three overlords of the Northern Territory, but she is also the princess of the Peacock clan in the wilderness.

Therefore, Ye Feng felt that cooperating with this Linglong Princess would also have a huge effect on him.

After all, the anti-overlord alliance formed by the Peacock Clan is specifically to fight against the overlord races in Dafang, such as the Sun God Clan and the Amethyst Dragon Clan.

Therefore, Ye Feng had promised Princess Linglong before that if he had time, he would definitely go to the Great Wilderness, visit the Peacock Clan, and join the Anti-Hegemon Alliance. This would

allow the Anti-Hegemon Alliance to give him some training resources. After all, if he joins the Anti-Hegemon Alliance If there is a task, there will definitely be a task. If you want Ye Feng to help, you will naturally have to pay some compensation. Otherwise, Ye Feng can't work for others in vain.

At this time, Ye Feng thought to himself, and then followed Wei Qing and a group of young masters from the team to leave the palace of the Southern Barbarian Empire.

On the way back, Ye Feng couldn't help but asked, "Senior Wei Qing, do you think we will encounter some very scary monsters in the wilderness this time we go to the edge of the wilderness to unlock the seal of the wilderness prison?" Master?"

When Wei Qing heard what Ye Feng said at this time, he immediately smiled and said, "There won't be any strong masters stationed there. The Wilderness Prison is just a relatively ordinary prison in the Wilderness. It really holds the kind of top-notch prison." The prison for strong prisoners is in the center of the wilderness, so the emperor of the Southern Barbarian Empire just wants to show his authority, and does not really want to mess up the entire wilderness. In that case, it will not be too big for the Southern Barbarian Empire. The big benefit is that after all, our Northern Territory, the Southern Barbarians and the Great Wilderness are in a three-legged state. If the emperor of the Southern Barbarian Empire does too much and completely breaks up with the Great Wilderness, then only our Northern Territory will benefit. The emperor of the Southern Barbarian Empire will not To do such a stupid thing, this time he just wanted to give Dahuang a blow. "

Hearing what Wei Qing said, Ye Feng immediately nodded, with a rather disappointed look in his eyes.

It turns out that what they want to break the seal this time is just a relatively ordinary wilderness prison on the edge of the wilderness.

But no matter what, Ye Feng was happy to be able to create some trouble for the overlord races in the wilderness.

...

On the morning of the next day, Ye Feng and Wei Qing, with a group of young masters in the team, said goodbye to the emperor of the Southern Barbarian Empire and headed straight to the edge of the wilderness.

The area flew quickly.

On the way, Wei Qing looked at the entire team and said, "After we have unlocked the seal of the Wilderness Prison this time, we don't need to worry about anything. We just leave there and return to our Blood Demon Dynasty in the Northern Territory."

Many young people in the team nodded and said, "Senior Wei Qing, we understand."

At this time, Ye Feng suddenly said, "Senior Wei Qing, I want to enter the wilderness, and I have some things to do. I won't leave with you then. After the seal of the prison is unlocked, I will be on their way."

Hearing what Ye Feng said, Wei Qing's eyes showed a look of surprise, and then he said worriedly, "Ye Feng, you are the number one super genius of our Blood Demon Dynasty, and His Majesty the Emperor values you very much." , you have offended the two dominant races, the Sun God Clan and the Amethyst Dragon Clan, in the wilderness. If you enter the wilderness alone, I am afraid that you may be in great danger. After all, although your current strength really scares me, But compared with the top overlord race in the wilderness, it is still far behind. "

Ye Feng knew that Wei Qing was reminding himself not to be too impulsive and arrogant.

Ye Feng smiled slightly and said, "Don't worry. When I enter the wilderness alone, I am not looking for trouble from the Sun God Clan and the Amethyst Dragon Clan. After all, the patriarchs of the Sun God Clan and the Amethyst Dragon Clan personally hunted me down." , I know how terrifying top powerhouses like them are. Even if my current cultivation level has improved a lot, I am still no match for such top powerhouses. This time I entered the wilderness just to meet a friend and It's not about fighting and killing."

"Meeting a friend?"

Hearing what Ye Feng said, Wei Qing's eyes suddenly showed a look of surprise.

Including the other young masters in the team, they all had surprised looks in their eyes. It seemed that they did not expect that Ye Feng had stayed in the Northern Territory for such a long time and had never been out, yet he actually had friends in the wilderness.

However, Wei Qing nodded immediately. It was quite normal for a top genius like Ye Feng to meet some young prodigies from the wilderness at some gatherings, attract each other, and become friends.

After all, there are still private circles among super-top geniuses, and ordinary people don't know what's normal.

Wei Qing didn't say anything more, but nodded and said, "No matter what, just be careful."

Obviously, Wei Qing has long regarded Ye Feng as the future pillar of their Blood Demon Dynasty, so he naturally cares about Ye Feng.

After all, even the Emperor of the Blood Demon Dynasty attaches great importance to Ye Feng.

At this time, no one said anything more, but hurried on with peace of mind, flying quickly towards the area where the Southern Barbarian Empire and the Great Wilderness meet.

Soon, they arrived at the edge of the wilderness.

There are no buildings here anymore, and the surroundings are all endless wilderness. Of course, there are also continuous forests. Tall trees tower into the sky, and there are faint and ferocious roars of beasts, which are transmitted in the forest, making people feel a little sad. Shocked.

At this time, Wei Qing immediately said out loud, "We can't continue flying. Let's land first and slowly find our way to the Dahuang Prison. Don't scare the snake. After all, we are not here to fight each other this time. We only need to unlock the Dahuang Prison." Seal and release those demon prisoners, the rest have nothing to do with us, we can just clapped our hands and leave." At this time, Wei Qing did not hesitate and took the hand of the emperor of the Southern Barbarian Empire. of this token.

At this time, Ye Feng also had a slight smile on his face.

If the seal of the Great Wilderness Prison was really opened and countless prisoners escaped, Ye Feng felt that the entire Great Wilderness would really fall into chaos.

Chapter 4792 Ancient Beasts

Hearing what Wei Qing said, everyone nodded.

really.

There is no need for them to have too many conflicts with the demon guardians in the Great Wilderness Prison. As long as they can sneak into the Great Wilderness Prison and unlock the seal of the entire Great Wilderness Prison, then their mission will be considered completed.

Thinking of this, everyone took out different treasures from their storage rings.

These are all the good things they selected from the treasury of the Nanman Empire last night.

This is also the reward that the emperor of the Southern Barbarian Empire promised to everyone.

Everyone entered the treasury last night. Naturally, they all carefully selected and selected good treasures that suit them.

At this moment, Ye Feng also took out a very special-looking black stone from his storage ring.

This piece of black stone is exactly what Ye Feng selected from the treasury of the Nanman Empire last night, and it can also be regarded as his reward.

Everyone was very confused as to why Ye Feng chose a black stone that looked very inconspicuous.

But Ye Feng's eyes revealed a look of deep surprise.

Because Ye Feng could sense a very familiar special energy wave from this black stone.

That turned out to be the fluctuation of divine matter.

The only thing needed for the evolution of Ye Fengtian's immortal body is divine matter.

Unfortunately, divine substances are so rare that they are difficult to encounter.

So this time Ye Feng was able to find this black stone containing divine substances in the treasury of the Southern Barbarian Empire. Naturally, he felt very lucky and chose this black stone as his reward without hesitation.

Because it was too late to make the selection last night, everyone went to bed directly.

On the way to Dahuang Prison early the next morning, Ye Feng and everyone had time to take a good look at the things they selected last night.

Ye Feng stared at the black stone in his hand at this moment, and then

No longer hesitating, he secretly released the devouring domain, forming a small devouring vortex in his palm, and began to devour and absorb the divine substance in the black stone.

However, just when Ye Feng released the Devouring Domain and prepared to absorb the divine substance in this black stone, he suddenly felt a very resistant feeling.

My own devouring power was actually unable to absorb the divine substance contained in this black stone for a while.

"Um?"

This made Ye Feng's eyes suddenly show surprise.

Ye Feng rarely encounters things that can resist his devouring power, and this stone is a dead object. Logically speaking, it should not be able to resist his devouring power.

At this time, Ye Feng was ready to find out and see what was hidden in this black stone.

Ye Feng transformed the storage ring on his finger into a golden knife, which was very delicate.

Then Ye Feng started to use this golden knife to directly cut open the surface of the black stone, and then cut off all the surface of the black stone like peeling an apple.

The next moment, Ye Feng saw a shocked scene.

I saw that what was contained in this black stone turned out to be an orange-red amber that looked only about the size of a finger.

In this piece of amber, a creature that looks like a small snake is condensed and sealed.

Ye Feng came up to watch carefully, and immediately saw a surprising scene

I saw that this small piece of amber seemed to contain a huge space.

The little snake sealed inside is not a snake, but an ancient dragon covered with green scales.

Ye Feng's eyes suddenly showed surprise. It seemed that he

The divine substance sensed is what is contained in the body of this ancient dragon.

It seems that this dragon must have had a very noble bloodline in ancient times, and it is very likely that it is the descendant of a god or a mythical beast. Otherwise, it is impossible to contain divine substances in its body.

However, Ye Feng discovered that the ancient dragon was completely dead and sealed in a piece of amber.

The resistance that Ye Feng felt just now was not that the ancient dragon was resisting, but that the material of the amber itself was able to resist his own devouring power.

However, the fact that this ancient piece of amber can survive to this day and resist the erosion of time is enough to show that the material of this piece of amber is very precious.

At this time, Ye Feng carefully cut open the entire amber.

You know, the golden knife in Ye Feng's hand is a weapon transformed from the god's ring, so it is naturally extremely sharp.

Even this ancient amber cannot stop the cutting of the golden knife.

When Ye Feng cut the entire amber into pieces.

boom!

Suddenly the space inside the amber seemed to burst out.

The green dragon that was originally only the size of a finger suddenly expanded into a majestic dragon that was several hundred meters tall.

This dragon seemed to have been shrunk in the inner space of amber, and now it has returned to its original appearance.

Bang!

The body of the majestic green dragon suddenly appeared and hit the ground, startling everyone around them. They thought that a beast was attacking everyone, so they all put on a defensive posture.

"This is?"

But at this moment, everyone immediately saw that it was a dead dragon, and it seemed that it was brought out by Ye Feng.

This made Ye Feng's face suddenly show a hint of embarrassment, and he said, "Don't worry, everyone, this is what I got from Nanman last night."

Among the good things obtained from the empire's treasury, the corpse of an ancient dragon was a dead dragon and was not in danger. "

When everyone heard what Ye Feng said, they all nodded in surprise.

Then many people felt very curious and interesting and came to Ye Feng's side.

Countless eyes were staring at the dead green dragon.

Wei Qing, the leader of the team, could not help but walk to Ye Feng's side at this time. Looking at the dead green dragon, he said with some surprise, "Ye Feng, I didn't expect that I questioned you yesterday. I chose such an ordinary black stone, and it turned out that there was an ancient alien beast sealed in it. Although it is a pity that it is dead, this ancient alien beast is full of treasures. Ye Feng, you really found out this time. Made a small fortune."

Everyone also showed envy in their eyes.

After all, although the thing they chose could be considered a treasure, it was indeed far inferior to the ancient dragon that Ye Feng released at this time, which looked very extraordinary.

At this moment, Ye Feng smiled slightly and didn't say anything. Instead, he directly put the dead green dragon into his storage ring, and continued on the road with everyone, heading towards the Great Wilderness Prison not far away. Lurking over, he secretly devoured the dead ancient beast, the green dragon, in his storage ring.

"Buzz!"

At this moment, Ye Feng immediately felt huge waves of dragon energy injected into his body, causing Ye Feng's cultivation aura to suddenly begin to break through.

And besides that, the divine substance that Ye Feng sensed was absolutely true.

The dragon bloodline contained in the body of this green dragon really contains divine substances, which may come from the bloodline of an ancient divine beast inherited by this green dragon.

Ye Feng absorbed this divine substance, and the strength of his immortal body was rapidly and continuously increasing.

Chapter 4793 Fifth Stage Talent

At this time, Ye Feng's cultivation skills and the strength of the God's Immortal Body are both constantly improving and evolving.

boom!

The second level of enlightenment!

boom!

The third level of enlightenment!

boom!

The fourth level of enlightenment!

boom!

The fifth level of enlightenment!

boom!

The sixth level of enlightenment!

boom!

The seventh level of enlightenment!

At this moment, Ye Feng's cultivation reached the sixth level in a short period of time!

Directly breaking through from the previous first level of Enlightenment Realm to the seventh level of Enlightenment Realm!

This allowed Ye Feng's cultivation skills to increase unparalleledly at this moment.

At this time, Ye Feng's eyes were blank for a moment.

Unexpectedly, the energy that this ancient dragon provided to him would be so majestic and terrifying, no less than Ye Feng's great opportunity.

At this time, Ye Feng couldn't help but admire the ancient beast he got. It was indeed the descendant of the mythical beast from the ancient times. The blood energy it provided to him was really terrifying.

Ye Feng originally thought that there was only divine substance in this black stone, but he didn't expect that it could make his cultivation skills breakthrough so much all at once.

At this moment, the divine substance Ye Feng absorbed also allowed the first level of the fifth stage of his immortal body to evolve to the third level of the fifth stage!

As Ye Fengtian's Immortal Body continued to improve in the fifth stage, the special bloodline talents of the Gods in the fifth stage of Ye Fengtian's Immortal Body finally began to awaken.

Buzz!

I saw a circular halo appearing above Ye Feng's head, shining with colorful light, which made people feel very magical.

At this time, Ye Feng also felt something in his heart

Understand the mysteries and secrets of this set of bloodline talents.

It turns out that the special blood talent of the Celestial Clan that I awakened in the fifth stage is called the "Celestial Aura".

The seven-colored light emitted by the halo is the legendary light of the gods.

This colorful light contains very magical power, but Ye Feng still needs to explore its specific function.

However, Ye Feng was able to tentatively figure out at this time that as long as he released the God's Halo, which was suspended above his head, he could cast a colorful light shield over himself.

This layer of seven-colored light shield can not only resist physical damage, but also damage from the spirit and soul, and can even resist various poisonous gases and poisonous miasma from outside.

It can be said that as long as the halo of the gods is suspended above Ye Feng's head, Ye Feng's defensive attributes will be greatly enhanced.

Moreover, the colorful light released by the halo of God above Ye Feng's head must have other wonderful uses.

"Huh? I feel like my injury healed quickly all of a sudden? What's going on? It's weird! It's weird!"

At this time, a young master who was relatively close to Ye Feng suddenly couldn't help but said in surprise.

He had suffered some internal injuries in a fight with young masters from the Southern Barbarian Empire, but now that he was close to Ye Feng and illuminated by the light from the halo of the god above Ye Feng's head, his internal injuries healed quickly.

He does not mean that.

Ye Feng heard the muttering of the young master next to him, and his eyes suddenly lit up.

It seems that the colorful light shed by his divine halo not only has great defensive properties, but also seems to have a healing effect.

"There must be other functions, but for the time being I still

not found. "

Ye Feng thought secretly in his heart, with a happy smile on his face.

This time I really got a huge harvest.

Not only did his cultivation skills break through so much, but he suddenly reached the seventh level of enlightenment, which greatly enhanced Ye Feng's combat power and made his skills even deeper. Like the vast ocean, it is hidden in Ye Feng's Dantian. Once it bursts out, , the rivers and seas will be turned upside down, and the world will be turned upside down.

In addition, the divine substance contained in the bloodline of this ancient dragon also increased the strength of Ye Feng's Immortal Body of God, from the first level of the fifth stage to the third level, and also indirectly caused Received his fifth stage of the Celestial Clan bloodline talent, Celestial Aura.

Ye Feng thought about it and realized that this time he really got such a huge opportunity for no reason.

"You really can't stop luck!"

Even Ye Feng himself couldn't help but sigh.

At this time, Ye Feng had already figured out that after entering the third level of the fifth stage of his immortal body, he had awakened the special talent of the blood of the gods, the god halo, and the seven-colored light, which now has both defense and treatment. kind of ability.

Ye Feng felt that each of the seven-colored rays of light probably represented a special ability. Now he had only explored two abilities: defense and healing.

At this moment, Ye Feng did not want to waste time and did not continue to explore. Anyway, as he continued to use it, he would definitely know it gradually.

And just when Ye Feng was realizing the progress of his cultivation and the awakening of his talent, Wei Qing, who was leading the way, suddenly waved his hand.

Wei Qing said aloud: "Everyone lie down first, we are almost at the Dahuang Prison ahead."

When he said this, Wei Qing took out a token from his storage ring.

This token was given to him by the previous emperor of the Southern Barbarian Empire, and could directly unlock the seal in this wilderness prison.

At this time, Wei Qing looked at the people behind him and couldn't help but said: "Let me go on this mission alone. Just wait for me here. After all, there are many people and it is very difficult for us to go there together." It might be easier to spot, and it would be more hidden if I go alone."

Hearing what Wei Qing said, everyone nodded, knowing that their cultivation base was relatively weak and they couldn't help at all. It was better to meet Wei Qing outside as a backup.

At this time, Ye Feng suddenly stepped forward and said: "Senior Wei Qing, let me go with you. I have a special talent that allows us to ignore physical defenses, shuttle directly through space, and enter. The inner area of Dahuang Prison."

Hearing what Ye Feng said, Wei Qing's eyes suddenly showed a look of astonishment, but then he thought that Ye Feng was the top genius of their Blood Demon Dynasty and had various abilities, so it was not surprising.

After all, as he got along with Ye Feng during this period, Wei Qing became more and more shocked by Ye Feng, who was simply an all-round talent.

So at this time, Wei Qing immediately nodded and said, "Okay, then let's go together."

Ye Feng's cultivation is already very powerful, comparable to that of the elders, and he also has various special abilities. Wei Qing and Ye Feng are not a burden, and Ye Feng can actually help him.

At this time, the space shuttle ability that Ye Feng mentioned was naturally the talent of the Celestial Clan bloodline that he awakened in the fourth stage of his immortal body, the space wormhole.

Ye Feng can completely open a space wormhole here, and bring the other end of the space wormhole directly into the inner area of the Great Wilderness Prison. At that time, Ye Feng and Wei Qing can directly pass through the space wormhole and avoid the Great Wilderness Overlord outside the prison. The defense of the strong race goes directly into the inner area of the prison.

Chapter 4794 Inside the Prison

Ye Feng did whatever he said at this time.

He was never one to hesitate.

So at this moment, Ye Feng directly used the talent of the Celestial Clan bloodline awakened in the fourth stage of his Immortal Body of the Celestials, the space wormhole, and prepared to open up a space wormhole in front of everyone.

For Ye Feng, using this bloodline talent requires almost no effort on his part. .??.

So Ye Feng was naturally happy at this time.

At this moment, Ye Feng, Wei Qing, and a group of people in the team were still at a certain distance from the Great Wilderness Prison.

So at this time, it is very safe for Ye Feng to put this end of the space wormhole here.

And there are so many young masters left to guard it, so there will definitely be no problem.

Buzz!

At this moment, Ye Feng directly opened up a space wormhole.

In front of everyone, a space vortex immediately appeared.

The space vortex is like a black hole, giving people a very scary feeling.

But at this moment, everyone looked at the scene in front of them with great surprise.

Because they knew that if Ye Feng could really open up a space passage connecting this place to the inner area of Dahuang Prison, it would be a huge convenience for them.

At this moment, Wei Qing was staring at the entrance of the space wormhole opened by Ye Feng, with deep shock in his eyes.

Because even an old and powerful person like Wei Qing cannot do this.

Even Wei Qing has actually seen many powerful people with spatial attributes in the Blood Demon Dynasty, but no one has ever been able to create such an exquisite space wormhole as Ye Feng, who can quietly open up a passage from Here you enter directly into the inner area of Dahuang Prison.

At this moment, Wei Qing glanced at the group of young masters from the Blood Demon Dynasty around him, and said loudly: "Then you will wait here for our return, and guard the entrance to this space wormhole."

A group of young masters in the team nodded their heads one after another.

Chang said solemnly: "Okay, we understand."

Ye Feng nodded slightly at this moment, and he and Wei Qing stepped into the vortex of space in front of them.

Buzz!

Accompanied by a violent space dizziness, when the two appeared again, they found that they had entered the inner area of the Great Wilderness Prison.

Although this is the internal area of Dahuang Prison, it is an unguarded blind spot.

Ye Feng connected the other end of the space wormhole here, so naturally he would not let any strong demon clan guarding the Great Wilderness Prison discover their whereabouts.

At this moment, Wei Qing observed the surroundings, immediately took out the token in his hand, and said loudly: "According to the guidance of the token, it is very easy to put it into the sealed formation of this wilderness prison. Once this seal is unlocked, all the prisoners imprisoned here in the Great Wilderness Prison will escape instantly, and our mission will be completed, and then we will return."

Ye Feng nodded, and the two of them immediately sneaked towards the inner areas of the wilderness prison.

With Ye Feng's soul power covering the surroundings, he would not be discovered by any of the strong demon clan guardians of the Wilderness Prison.

This made Wei Qing have a higher opinion of Ye Feng again. It seemed that he did not expect that Ye Feng's perception was so powerful, but in fact it was because Ye Feng was a soul master, but Ye Feng did not explain much.

The most important thing at this time is to quickly find the center of the sealing formation and place the token in Wei Qing's hand.

But just at the moment when the two of them walked around a corner.

boom!

Suddenly, a bolt of thunder struck down from high in the sky and struck directly in the direction of Ye Feng and Wei Qing, possessing terrifying destructive power.

"Um?"

Seeing this scene, Ye Feng immediately

He couldn't help but his face changed and he said: "No! This guardian formation actually has the function of discovering enemies. Although I can detect that there are no monster guardians around, this formation actually discovered us. His action was to lower the power of thunder to attack us. It seems that the creator of this formation is an extremely skilled formation master, and he was able to leave such an intelligent formation that can be used both offensively and defensively. "

At this moment, Wei Qing took out two long swords from his storage ring, a cyan sword and a purple sword, and slashed them directly at the light of thunder high in the sky. And go.

Boom! !

Accompanied by a huge roar, Wei Qing held two swords in both hands and instantly cut the thunderous light into two halves and shattered it.

When Ye Feng saw this scene, his eyes were filled with admiration.

Because Ye Feng could sense just now that the light of thunder had terrifying destructive power, I am afraid that it was difficult for him to resist it.

But Wei Qing held two swords and cut them off directly.

It has to be said that Wei Qing is indeed the person entrusted with the important task of leading the team by the Emperor of the Blood Demon Dynasty, and he is indeed an extremely powerful being.

At this moment, Wei Qing suddenly threw the token in his hand to Ye Feng, and then said urgently: "Ye Feng, take this token to find the formation eye of this formation, and unlock it. The seal of the entire formation. Just now, this formation has discovered our whereabouts and lowered the light of thunder to attack us. Although I broke it, the energy fluctuation just now may have already caused many monsters in the entire Great Wilderness Prison. Attention of the strong men of the clan, I am

afraid that a large number of strong men of the demon clan guarding the Great Wilderness Prison are gathering crazily towards us at this moment. I will stay and cut off the escape route for you, even though you are of the younger generation. You are a genius, but in terms of overall strength, I am still stronger than you, so it would be better for me to stay."

Hearing what Wei Qing said, Ye Feng showed a hint of admiration in his eyes. He didn't expect that this senior Wei Qing could do such a righteous and awe-inspiring behavior.

At this time, Ye Feng couldn't help but said: "But there must be a lot of strong demons guarding the entire Great Wilderness Prison. I'm afraid that it will be difficult for the seniors to defeat them with just two fists."

Wei Qing immediately laughed loudly and said: "I have been an orphan since I was a child. I have been fighting in the army of the Blood Demon Dynasty for nearly a hundred years. The purple long sword and the cyan long sword in my hand are two of them. The mother-in-law sword is an ancient sword given to me by His Majesty the Emperor himself. It is called the "Purple and Green Swords". It has the power of the ancient strong men and is extremely powerful. It is not afraid of the crowd tactics. Quickly go and unlock this one. The seal of the formation is the real thing."

When Ye Feng heard what Wei Qing said, he immediately nodded. He didn't hesitate or waste time. He immediately took the token and rushed towards a certain direction in the surrounding wilderness prison.

At this time, Wei Qing's eyes showed a fighting spirit that he had never seen before, and his face had an unusual look of madness. He murmured: "It's been a long time since I killed someone to my heart's content, and it's a good time to fight today. What a pleasure!"

Obviously, Wei Qing, a warrior who fought in the north and south, has been holding a civilian position in the Blood Demon Dynasty since he retired from the battlefield, leading the team to carry out simple and peaceful missions to other countries. , I have long been tired of leisure.

Encountering such a huge crisis this time, having to fight against the siege of many powerful demon clans with one person's strength, not only did Wei Qing not be afraid, but instead made his blood boil again.

He held the purple and green swords in his hands. The power of ancient weapons burst out from the two swords. The sword light in each sword suddenly burst out from the sword body, stretching three thousand meters across the void, like It can pierce the sky.

It has to be said that Wei Qing, a battlefield warrior who fought in the north and south, once again burst out with killing power, and his power was extremely frightening.

Ye Feng saw Wei Qing's terrifying aura from a distance, and immediately felt relieved, and then concentrated on using the guidance of the token in his hand and the exploration of his soul power to quickly find the specific location of the formation in the wilderness prison. Try to complete this mission as soon as possible.

Chapter 4795 Old Bat

With the help of Ye Feng's huge soul power, and with the help of this special token in his hand, Ye Feng quickly found the entrance to the sealing formation of this wilderness prison.

Ye Feng arrived at the location directly and immediately saw an extremely majestic tower standing in the center of the deserted prison.

Seeing this majestic giant tower, Ye Feng took a closer look and immediately discovered that at the top of this giant tower, a disk like a golden compass was rotating, exuding a very strong array. The power of law.

Ye Feng immediately understood that the golden compass at the top of the giant tower should be the formation eye of the entire Great Wilderness Prison's sealing formation.

As long as this golden compass is destroyed, the entire formation that seals the Great Wilderness Prison will definitely collapse in an instant.

You must know that prisons in the spiritual world are different from prisons in the ordinary world.

Ordinary mortal prisons, as long as they find strong and solid materials and cast them into prisons, can trap mortals firmly in the prison.

But in the world of cultivation, especially in the wilderness, these prisoners are the most vicious monsters in the wilderness, and there are even some ancient giant monsters and so on.

If you want to just use solid materials to build a prison, you will not be able to lock and control these demon prisoners with monstrous power.

Therefore, a formation must be applied to suppress all prisoners.

Uh-huh!

At this time, Ye Feng didn't hesitate at all and immediately charged towards the giant tower.

Because now Ye Feng has sensed it, a terrifying roar erupted in the distance. Ye Feng could immediately guess that Wei Qing was holding two double swords not far away, and he must be fighting with the many guardian monsters in the Great Wilderness Prison. There was a fierce battle between the strong men, and the fighting spirit was in the sky, making Ye Feng feel a panic everywhere.

It is enough to see how tragic the place where the battle occurred not far away was.

Wei Qing bought time for Ye Feng, and Ye Feng naturally did not dare to waste it. His figure flew across the void, and he would soon be close to the golden compass on the giant tower.

At this time, Ye Feng had already

Then he held the sword of the god transformed from the god's ring in his hand.

Under the sword of God, a sharp weapon that can cut everything, no matter what material the golden compass is made of, it will be instantly split in half and directly shattered by the sword of God in Ye Feng's hand.

But just when Ye Feng was approaching the top of the giant tower.

Wow!

Suddenly, bats flew out from the windows of the entire giant tower.

Each bat is the size of a palm, but there are thousands of bats. Their eyes are emitting a red bloodthirsty light. The bats' mouths are open and have dense fangs, which makes people feel very scary.

Ye Feng's eyes changed. He didn't expect that there were so many terrifying vampire bats living in this giant tower.

Ye Feng didn't hesitate at all, and directly punched forward fiercely.

"boom!!"

The immortal body of the God of Heaven burst out with terrifying power, a golden energy beam that had the power to shatter everything. It was blasted forward by Ye Feng, instantly crushing a large number of bats.

But other bats filled the hole, surrounding Ye Feng in a small space.

Many bats landed on Ye Feng's body, opened their vicious mouths, and bit directly on Ye Feng's skin. However, the bat fangs that could bite off steel bars could not break Ye Feng's skin. Obviously, Ye Feng At this time, the wind has fully stimulated the power of the immortal bones of the gods.

Even Ye Feng's skin was made of golden divine iron and was indestructible.

"Oh? You kid didn't expect to have such magical physical power. It seems that you have a special physique among the human race?"

Suddenly a rather surprising voice sounded.

This was a hoarse voice, very old, but with a depth and cunningness.

The next moment, Ye Feng immediately saw that countless bats gathered around him and turned into an old man wearing a black robe.

This old man wearing a black robe gave people a very eerie feeling.

Ye Feng immediately understood that those bats should have been transformed by the black-robed old man.

This black-robed old man is estimated to be a big bat-like monster in the wilderness. He is very powerful. He specially guards the formation eye tower and does not allow anyone to destroy the entire formation. The strength of the formation eye is very powerful.

"What a strong cultivation level."

Ye Feng felt slightly that this old bat man was actually two realms higher than his current cultivation level of the seventh level of the Enlightenment Realm. He was a powerful existence at the Tianyang Realm level above the Enlightenment Realm and the Taoist Realm.

This level of cultivation is definitely considered a very powerful existence in the wilderness.

Ye Feng's eyes were startled, he didn't expect such a powerful monster to appear here.

It seems that this wilderness prison is not as simple as Wei Qing imagined. It not only suppresses some small demon prisoners, but also extremely vicious prisoners suppressing them here. Otherwise, it is impossible to leave such a powerful vampire bat demon behind. The strong men of the tribe are here to guard the entire wilderness prison.

At this time, Ye Feng sensed the fierce aura of the distant battle between Wei Qing and a group of demon warriors in the wilderness prison, and knew that he could not delay any longer, otherwise, Wei Qing might die on the spot.

Uh-huh!

So at this moment, Ye Feng didn't bother to talk nonsense with the old bat man, and directly used the peerless inheritance of the Netherworld Emperor that he had learned before, the Hand of the Emperor.

At this moment, above Ye Feng's head, a majestic and boundless jet-black hand immediately condensed.

This big black hand not only has a terrifying sense of oppression, but also has the power and aura of the underworld.

Buzz!

The towering and boundless big black hand covers an area of several kilometers, like a

An ancient mountain that had been moved from the underworld fiercely bombarded the old bat in front of him.

The old bat man originally felt quite relaxed. After all, he felt that Ye Feng was two realms lower than him and could not be his opponent at all. He also wanted to play a trick on this young man Ye Feng.

But he didn't expect that Ye Feng would use his killing move as soon as he came up. The condensed Emperor's Hand was not an ordinary attack method, but actually had the power of the underworld. Even this vampire bat-turned-monster old man felt his own life and His spiritual power was actually being snatched away by this big hand, and his five souls and six souls were about to be sent to the underworld to undergo six reincarnations.

This terrible feeling made the old bat man immediately couldn't help but said in surprise: "You actually know the inheritance of the legendary Netherworld Emperor?? The Netherworld Emperor has been dead for countless years and disappeared in the land of Zhongzhou. His inheritance , how could you appear in such a remote and remote area on the edge of the wilderness? Who are you?"

When Ye Feng heard what the old bat man said, his eyes moved slightly. He didn't expect that the old bat man actually knew the inheritance of the Netherworld Emperor, which was rare in the wilderness area.

After all, the identity of the Netherworld Emperor is mysterious. If Ye Feng had not visited the tombs of the Netherworld Emperor twice, he would not have known about the Netherworld Emperor, a peerless figure in Zhongzhou back then.

However, Ye Feng was not in the mood to think too much at this time. After releasing the Emperor's Hand, the attack did not stop at all, and he directly took out the black broken sword.

"boom!!"

The sword body containing the power of gods and demons immediately erupted with a huge black sword light, which was enough to tear the sky and the earth apart.

The terrifying attacks continued to bombard the old bat not far away, like a violent storm, and even almost exploded the void.

"What a strong young man!"

The old bat man's face immediately turned very green. Even though he was two realms higher than Ye Feng, he had to throw out a silver shield in a panic at this time, trying to withstand Ye Feng's violent storm. attack.

Chapter 4796 Warden

This old bat man still has some skills. The silver shield he displays is engraved with an ancient totem.

Ye Feng couldn't understand what ancient totem it was, but the moment the old bat man released the silver shield.

Buzz!

Among the small shield totems, a silver giant dharma image that was exactly the same as the totem rushed out, and actually blocked the hand of Emperor Ye Feng, making a huge roar.

But at the next moment, the sword light with the power of gods and demons struck by Ye Feng's black broken sword finally chopped the silver shield into pieces.

Then under the horrified gaze of the old bat man, it immediately struck the top of his head in the air.

But almost the next moment, the old bat man suddenly tilted his body at the critical moment, and one of his arms was cut off by Ye Feng.

Phew!

An arm fell from the sky.

This made the old bat man immediately couldn't help but show deep horror in his eyes, as if he didn't expect Ye Feng to be so powerful.

Just one face-to-face encounter made him unable to resist.

After all, Ye Feng's cultivation level was two levels lower than his.

But once Ye Feng unleashed his true combat power, he turned out to be so terrifying.

At this moment, the old bat man's eyes immediately became extremely gloomy. He seemed to have never thought that Ye Feng was so powerful and that he could not block Ye Feng's violent attack.

Seeing Ye Feng's crazy attack again, the old bat man immediately shouted: "Fellow Taoist, have mercy! I am not the guardian of this wilderness prison, I am just hired by the overlord race in the wilderness. Here, the formation eye that guards this wilderness prison, the Taoist friend's methods are so powerful, there is no need for me to fight to the death with the Taoist friend, after all, we have no hatred or grudges. "

Uh-huh!

After finishing speaking, the old bat man said

Then he quickly ran away towards the distance, watching from a distance, but he didn't stop Ye Feng from destroying the formation's eye.

"Um?"

This made Ye Feng's eyes immediately show a look of surprise, as if he didn't expect that this old bat man was such a cunning person, and he was not willing to face him life and death at all.

But Ye Feng was also happy.

Because Ye Feng also felt that this old bat man was two realms higher than himself in cultivation and was an extremely powerful elder. He would not be able to kill this old bat man in a short while.

And Ye Feng also saw that the old bat man had an arm cut off by his black broken sword. The broken arm was flashing with blood, and another arm stretched out.

This made Ye Feng's eyes immediately show a look of surprise. It seemed that the entire body of this old bat man was made up of countless vampire bats. It was very difficult to kill him completely, unlike other ordinary practitioners.

At this time, Ye Feng did not have to tangle with the old bat man for so long, because Wei Qing, not far away, was helping him fend off other strong monsters guarding the Great Wilderness Prison.

So at this time, Ye Feng was happy that the old bat man stepped back directly.

Uh-huh!

Ye Feng rushed to the top of the giant tower in an instant, holding the golden sword in his hand, and fiercely attacked the golden compass in front of him.

Click!

Sure enough, the Sword of the Gods can be said to be a dimensionality-reducing blow to those in the ordinary cultivation world.

This golden compass may be a very solid thing, but it was directly shattered under the chopping of the God's Sword in Ye Feng's hand.

Almost at the moment when the golden compass was destroyed, the entire Guardian Wilderness

The prison formation was immediately completely shattered.

Ye Feng could clearly feel that the entire sealing formation in the Great Wilderness Prison was completely dissipated immediately.

And the moment Ye Feng destroyed this formation.

Far away from the gate of this deserted prison.

A middle-aged man wearing golden armor who commanded many demon clan strongmen to fight Wei Qing was a very terrifying demon clan strongman.

He was commanding many powerful demon clan men to fight Wei Qing, sitting here steadily watching the show. ??

But at this moment, his face suddenly changed, and he looked at the core area of the Dahuang Prison. He couldn't help but said in horror: "No! This middleman is holding purple and green swords." The young man and his helpers actually destroyed the entire sealing formation in the inner area of the prison! How is this possible? There is obviously a vampire bat guarding the formation, even if it is me personally. It's hard to fight against this old demon. What on earth is this vampire bat doing? It makes me destroy the formation's eyes!"

Obviously, this middle-aged man wearing golden armor is the warden of this vast prison.

Moreover, the aura faintly exuding from his body shone like the sun, and there seemed to be golden flames gushing out from his two eyes, giving people the feeling of a sun god.

The warden of this Wilderness Prison is obviously from the Sun God Clan, the number one overlord race in the Wilderness.

At this moment, the warden of the Sun God Clan immediately turned into a golden divine light, and instantly rushed towards the inner area of the Great Wilderness Prison, looking very anxious.

As for Ye Feng, when Ye Feng destroyed the formation, he was about to leave, not wanting to get entangled with too many powerful monsters.

But at this moment.

Boom!

The entire ground suddenly cracked.

Dahuang Prison

The buildings were shattered.

Countless monster prisoners, with the desire and excitement to regain freedom in their eyes, flew out of the collapsed buildings crazily.

And in addition, from the cracks in the earth, a devil's claw burning with green flames actually stretched out, giving people the feeling that there is an ancient devil sealed deep underground in this deserted prison. .

Now with the seal broken, a claw that covered tens of thousands of meters and burned with green flames emerged from the depths of the ground.

"Um?"

Ye Feng's eyes immediately changed.

This wilderness prison is so tightly guarded, and a huge formation was specially created to seal it here. As expected, this wilderness prison contains not only ordinary prisoners, but also an extremely terrifying demon-like figure.

Ye Feng immediately fled towards the distance. His mission was completed. No matter how chaotic the place became, it had nothing to do with him. He still rushed to support Wei Qing, the leader of the team.

"Where can I escape, kid!"

But just when Ye Feng was about to leave here, a tall middle-aged man with golden flames burning all over his body and wearing golden armor, like a sun god, holding a golden giant sword in his hand, flew toward Ye Feng in the air. The wind kills and goes away.

boom!

A terrifying golden sword light, the divine light was bright and shining in the sky, immediately burst out from the sword body.

The sword light had the sharpness of a sword and the burning power of the sun. It hit the top of Ye Feng's head fiercely and seemed to destroy Ye Feng's body and soul on the spot.

This person is the warden of the Great Wilderness Prison here. He is two levels higher than Ye Feng in cultivation. He is also a super master from the Sun God Clan. His attack power is terrifying, his bloodline talent is amazing, and his swordsmen are extremely powerful. , in terms of frontal combat effectiveness, it is much stronger than that old bat man.

Chapter 4797 The battle situation reverses

boom! !

Before Ye Feng could completely escape, an earth-shattering golden sword light above his head, like the bright sun, had struck down in the sky. With the edge of the sword and the heat of the fire, Ye Feng felt that his soul was about to be completely annihilated.

"Netherworld Armor!"

Without any hesitation, Ye Feng directly used the Netherworld Armor, a peerless defensive inheritance from the Netherworld Emperor's wife.

Buzz!

At this moment, the field around Ye Feng suddenly changed unpredictably, as if Ye Feng was standing on the same spot, activating the power from another mysterious interface, the underworld.

The gloomy yin energy directly condensed on Ye Feng's body and formed a set of black and blue armor, which was extremely thick.

The surface of the armor is also engraved with ancient underworld symbols and totems, giving Ye Feng extremely powerful defense.

Boom! .??.

Finally, the golden sword light came to kill and collided with the Netherworld armor on Ye Feng.

After the Yin and Yang collided together, they actually melted into each other without making a huge roar.

But Ye Feng couldn't help but take a dozen steps back.

At this moment, Ye Feng's eyes showed surprise. This warden from the Sun God Clan was indeed extremely powerful. He was worthy of being the guardian of the entire wilderness prison. Although his cultivation level was the same as that of the old bat man, he was two years taller than himself. Realm, but the frontal combat effectiveness is much stronger than that of the old bat man.

The old bat man's various methods were magical and weird, but his frontal combat effectiveness was not that great.

But this warden from the Sun God Clan, this middle-aged man, exuded bright golden light. He stood in the void, like a golden sun, suspended in the sky, and the entire world around him seemed to They are all going to be baked by the light of the sun on his body until they are about to burn.

This is a super strong one!

Ye Feng knew that the opponent's fighting power was very amazing and he was not an ordinary practitioner, so it was difficult for Ye Feng to leapfrog and fight.

At this time, Ye Feng didn't want to fight. He just continued to release the wormhole in space and quickly escaped in a certain direction in the distance.

But at this moment, the warden of the Wilderness Prison said coldly: "Boy, you broke the seal of the Wilderness Prison set up by our Sun God Clan here, and you still want to leave? This is impossible. , boy, stay and die!"

After finishing speaking, the warden of the Great Wilderness Prison turned his hand, and a strange golden feather appeared in his hand. There was a bright divine light flowing on the surface of the feather, and he threw it directly in the direction of Ye Feng.

Uh-huh!

Almost at this moment, this golden feather suddenly burst into brilliant golden light, as if it had turned into a golden sword that could pierce the sky, and was directly inserted into the heaven and earth. In an instant, all the countless spaces around him were fixed.

Even the space wormhole opened by Ye Feng was condensed at this moment. Ye Feng could not enter the space wormhole, and the entire surrounding space was locked.

"What?"

Seeing this scene, Ye Feng's eyes changed slightly.

Ye Feng stared at the golden feather inserted high in the sky between heaven and earth. It bloomed with brilliant golden light. Ye Feng felt the aura of an ancient demon overlord from it.

Ye Feng couldn't help but said: "Is this a feather from the ancient demon clan's Golden Crow beast? Otherwise, it cannot have such power."

Hearing what Ye Feng said, the warden who was standing high in the sky not far away immediately showed a cold look in his eyes, and then said disdainfully: "Yes, you have some knowledge, but You must die obediently today, otherwise, I will not be responsible for anything here. As long as you take your head back to the Sun God Clan, I will not have any responsibility."

After finishing speaking, the warden of the Sun God Clan burst out with his extremely powerful cultivation power, and a golden river of the sun appeared around him, which was a river of molten magma.

In the long golden river, golden flames were burning, cast by the power of the sun, which seemed to be able to burn everything. The entire void was on fire, countless fires appeared on the earth, and the entire forest and trees around it burned. The whole earth was boiling with flames, giving people a terrifying scene like the end of the world.

Even the old bat man was somewhat unable to withstand this terrifying sun fire. He couldn't help but retreat quickly, with a look of horror in his eyes. "Is this kid a descendant of the Netherworld Emperor of Zhongzhou? The inheritance of cultivation." The method has a deep connection with the Netherworld Emperor.

Department, but after all, his background is too weak and his cultivation is too low. It is a pity that he will die in the hands of the warden of the Sun God Clan today. "

At this moment, the old bat man murmured to himself secretly, seeming to be quite familiar with the Netherworld Emperor. It seems that this old bat man, this old demon, may not be from the wilderness, but may come from the land of Zhongzhou.

But at this moment, Ye Feng looked at the rolling river of flames without any hesitation, and of course he would not wait to die.

While Ye Feng continued to strengthen the Netherworld armor on his body to resist the burning of the golden flame, he quickly activated the Netherworld inner elixir that had been fused in his heart.

Before, Ye Feng entered the tomb of Netherworld Emperor, and by chance, he fused the treasure left by Netherworld Emperor, Netherworld's inner elixir, allowing Ye Feng to activate the power of Netherworld's inner elixir in times of crisis, allowing him to briefly obtain the ancient power of Netherworld Emperor. Powerful.

At this moment, Ye Feng naturally no longer hesitated and directly activated the power of Netherworld's inner elixir. He had to rely on the great power stored in Netherworld's inner elixir by Netherworld Emperor.

Almost at the moment when Ye Feng activated the Netherworld's inner elixir, an unparalleled and majestic power suddenly burst out from Ye Feng's heart and poured into Ye Feng's entire body.

"ah!"

Almost at the next moment, Ye Feng felt that his whole body was about to explode. If his immortal body had not entered the fifth stage, I am afraid that Ye Feng would not have been able to withstand such terrifying power and would have exploded directly. Death.

Buzz!

At this moment, Ye Feng's entire body began to expand rapidly, and finally expanded into a majestic dark giant that was several kilometers tall.

This is not an ordinary dark giant, but a dark giant with the power of the Netherworld Emperor.

Obviously at this moment, Ye Feng, with the help of Netherworld's inner elixir, directly turned his entire body into the true body of Netherworld Emperor, possessing the majestic power of Netherworld Emperor.

Ye Feng could clearly feel how powerful he was at this moment.

"You are dead!"

The next moment, Ye Feng laughed loudly and headed towards the front regardless of the impact. The long river of golden flames could not cause any harm to Ye Feng's Netherworld Real Body.

Ye Feng directly broke through the golden river, and then rushed in front of the warden of the Sun God Clan.

boom!

A big black hand that covered the sky and sun blasted out, like an ancient ancient mountain suppressing it. It could shatter the wasteland and bring peace to the world, directly trying to obliterate this warden.

This warden came from the Sun God Clan, and was certainly not an ordinary person. When he saw Ye Feng manifesting such a majestic ancient powerhouse, he immediately roared and revealed his demonic power. The true form of the clan.

It was a golden tiger that was hundreds of meters tall, but its fur was burning with the power of the sun's divine fire.

Obviously, this golden tiger, after joining the Sun God Clan, was given some of the Sun God Clan's Golden Crow bloodline, so it had the power of the Sun God Fire.

However, the warden underestimated the power of the Netherworld Emperor's true form. Of course, he did not know that this was the ancient Netherworld Emperor's true form, otherwise he would have fled long ago and would not dare to fight against it.

At this time, Ye Feng smiled coldly. There was a hint of sarcasm in the dark giant's huge eyes. His two big hands directly grabbed the golden tiger. In the frightened eyes of the other party, Ye Feng Tear it hard, and with a "puff" sound, the golden tiger transformed by the warden is directly torn into two halves, and the air is stained with blood.

Ye Feng turned into the true form of the Netherworld Emperor. He was incredibly powerful. In just an instant, the situation of the battle was completely reversed.

"What a terrifying power!"

The old bat man who was watching not far away was frightened and fled quickly. He did not dare to watch the battle anymore for fear that Ye Feng would get jealous and kill him as a spectator.

Ye Feng didn't care about the old bat man. After all, he had no actual grudges with him, and the other party just regressed.

Of course, the most important thing is that Ye Feng activated the Nether elixir and turned into the Nether Emperor's true form, which lasted for a very short time. At this time, Ye Feng only fought for a moment and felt that his power was about to be exhausted. Returned to his original human state.

Ye Feng stretched out his hand and put the body of the golden tiger that he had torn in half into the storage ring. He also put the magical golden crow feather that had just been inserted between heaven and earth into the storage ring, and then quickly Leave here and rush quickly towards the direction where Wei Qing is fighting.

Chapter 4798 Rescue Wei Qing

Uh-huh!

Ye Feng shuttled rapidly through the sky. Although he turned into a clone of the Netherworld Emperor and almost exhausted his own power, his face was pale and he felt exhausted, but there was unabashed joy in Ye Feng's eyes.

Because this time Ye Feng consumed a lot of money and almost encountered a life and death crisis, but in the end he completed the task very smoothly, killed a super master of the Sun God Clan, and even obtained a branch of the ancient demon beast 'Golden Crow' feather.

You must know that this is the real feather on the ancient divine beast 'Golden Crow'. Even if it is just one, it is made of gold and dark iron. It is indestructible and as heavy as a stone. It contains monstrous energy. It is inserted between the heaven and the earth and can determine the world. It can melt all things and has the power of the ancient sun's essence and fire.

Ye Feng once read ancient books and had a vague understanding that in the ancient times, the Golden Crow was definitely the best among the ancient mythical beasts, and was the top ancient mythical beast. ??

According to legend, the Golden Crow was one of the ten descendants of the Demon Celestial Emperor in the ancient times. He had a high status. Later, the Golden Crow turned into the sun, illuminated the universe, and scorched the earth. It attracted the superpowers of the Great Witch Clan in the ancient era to build a peerless divine bow and shoot the Golden Crow. , the sky was stained with divine blood, and the Golden Crow fell, causing a great shock in the ancient times. Of course, that was ancient history, and it has long been forgotten by countless people.

In today's age of immortals and demons, ancient beasts such as the Golden Crow have been extinct from the world for countless years. Even if the Golden Crow bloodline appears, it is only the continuation of the bloodline hundreds of millions of years later, and it has become so thin that it is impossible to distinguish.

"This Sun God Clan has some background. It can actually reward its subordinates with a real Golden Crow Feather. It has a trace of the ancient Golden Crow's divine power. It can control the world. It is a good treasure."

Ye Feng looked at the golden feather in the storage ring with joy in his eyes.

This kind of thing is more extraordinary than many magical weapons refined by so-called weapon masters. It has astonishing destructive power and monstrous divine power.

Ye Feng immediately stopped hesitating and directly released the Devouring Domain and began to devour the golden tiger that had converted to the Sun God Clan and was torn apart by him using the Netherworld Emperor's true form.

"boom!"

A huge demonic energy, like a vast ocean, vast and majestic, was instantly swallowed into Ye Feng's body, wildly increasing Ye Feng's power.

Ye Feng's cultivation aura was rising steadily at this moment, and he couldn't stop it at all.

After all, this golden tiger had strong cultivation and was extraordinary in itself. Later, he converted to the Sun God Clan and worked for the Sun God Clan. He was given a trace of the Golden Crow bloodline and could use the power of the Sun God Fire, which was naturally a great tonic.

"boom!"

The eighth level of enlightenment!

"boom!"

The ninth level of enlightenment!

"boom!"

The tenth level of enlightenment and great perfection! !

Ye Feng's cultivation aura broke through one after another, and his skill skyrocketed. What surprised Ye Feng was that the trace of Golden Crow blood contained in the body of this golden tiger turned out to be the pure blood of the real ancient divine beast Golden Crow, and it actually contained a divinity. substance.

After Ye Feng absorbed it, he immediately felt that his Immortal Body of God had been greatly improved. It was directly upgraded from the previous third level of the fifth stage to the fourth level of the fifth stage!

"The bloodline of ordinary so-called divine beasts does not contain divine substances, but the authentic prehistoric divine beasts such as the Golden Crow, which were truly born in the vast era of ancient times, do contain divine substances in their bloodlines."

This discovery made Ye Feng look quite surprised.

Ye Feng found another way to seek divine substances, that is

It is drawn from the blood of authentic divine beasts from the ancient prehistoric era, which contains divine substances.

However, the ancient mythical beasts that were truly born in the ancient times are very few in today's age of immortals and demons. Most of them perished in the turbulent wars in the ancient times, leaving very few heirs.

However, Ye Feng did not expect that the Sun God Clan in this wilderness was actually the pure descendant of the Golden Crow in the prehistoric era.

In any case, with this discovery, Ye Feng's murderous intention towards the Sun God Clan became more and more intense.

Originally, Ye Feng and the Sun God Clan were mortal enemies, but now Ye Feng wanted to kill the Sun God Clan, absorb the blood of the Golden Crow, and obtain divine substances.

Ye Feng secretly thought that he had arrived at the place where Wei Qing fought before and was ready to carry out rescue.

"Boom!"

I saw that Wei Qing was trapped in a small space by countless demon clans. Many demon clans held various weapons in their hands. There were demon long knives. When the sword was drawn out, ghosts cried and wolves howled. There was a golden bell with sound waves like waves. In an instant, it can shatter the earth, there are also gourds shining with nine colors of light, towering towers as big as mountains, and so on.

Even though Wei Qing is an elder and strong man in the Blood Demon Dynasty, he is still a little exhausted when being besieged by many demon clans. After all, he has been fighting for so long and has consumed a lot of energy.

But after all, Wei Qing was a fierce general on the battlefield in the north and south. He was holding two swords at the moment. Each sword was blooming with a shocking sword light. The sword energy spanned 30,000 miles, and he could kill all the attacks of many demon clans in a short time. Resisted.

"Senior Wei Qing, let me help you!"

Ye Feng roared in the distance, and before anyone arrived, a big black hand covering tens of thousands of meters had already bombarded him.

It is the hand of the emperor!

The hand of the Great Emperor is like a dark giant from the ancient times stretching out a hand from the ancient times. It has crossed the ancient times and shattered the heaven and earth. It has boundless power and is suppressed from high altitude. The surrounding void force field They all seemed unable to withstand the terrible pressure, and they were all distorted. Void turbulence flowed out, and the world was in chaos.

Now that Ye Feng has devoured the warden of the Great Wilderness Prison, his cultivation has once again improved by leaps and bounds. Using the Hand of the Great Emperor, his natural power is astonishing, turning the world upside down and creating a terrifying aura.

"What a terrifying power and aura!"

Wei Qing was horrified. He saw the big black hand covering the sky and the sun, covering the universe, and the gloomy energy. He thought that another powerful enemy was coming. He had a bitter smile and a miserable smile on his face. He felt that he was going to die today.

But the next moment, the big black hand that covered the sky and the sun was attacking the many monsters around them.

Boom! !

With just one fall, the big black hand instantly shattered nearly half of the powerful demon clan, creating a big hole in the ground. The earth's crust was shattered, and an endless abyss with a palm print appeared. The destructive power was terrifying.

"hiss!"

The remaining half of the powerful demon clan couldn't help but take a breath of cold air, with expressions of extreme horror on their faces.

"Um?"

Wei Qing saw that the big black hand did not kill him, but instead instantly destroyed a group of powerful monsters that besieged him. He immediately looked back and saw the familiar figure of Ye Feng.

"This is actually Ye Feng's method? How can he be so powerful? Even I can't resist the feeling!"

Wei Qing was shocked in his heart, but his face showed a look of ecstasy. He didn't expect that Ye Feng's cultivation would improve again. This was naturally a great joy for Wei Qing, as he didn't have to die. Uh-huh!

Ye Feng shuttled rapidly through the sky. Although he turned into a clone of the Netherworld Emperor and almost exhausted his own power, his face was pale and he felt exhausted, but there was unabashed joy in Ye Feng's eyes.

Because this time Ye Feng consumed a lot of money and almost encountered a life and death crisis, but in the end he completed the task very smoothly, killed a super master of the Sun God Clan, and even obtained a branch of the ancient demon beast 'Golden Crow' feather.

You must know that this is the real feather on the ancient divine beast 'Golden Crow'. Even if it is just one, it is made of gold and dark iron. It is indestructible and as heavy as a stone. It contains monstrous energy. It is inserted between the heaven and the earth and can determine the world. It can melt all things and has the power of the ancient sun's essence and fire.

Ye Feng once read ancient books and had a vague understanding that in the ancient times, the Golden Crow was definitely the best among the ancient mythical beasts, and was the top ancient mythical beast.

According to legend, the Golden Crow was one of the ten descendants of the Demon Celestial Emperor in the ancient times. He had a high status. Later, the Golden Crow turned into the sun, illuminating the universe and scorching the earth. It attracted the super powerful men of the Great Witch Clan in the ancient era to build a peerless divine bow and shoot the Golden Crow. , the sky was stained with divine blood, and the Golden Crow fell, causing a great shock in the ancient times. Of course, that was ancient history, and it has long been forgotten by countless people.

In today's age of immortals and demons, ancient beasts such as the Golden Crow have been extinct from the world for countless years. Even if the Golden Crow bloodline appears, it is only the continuation of the bloodline hundreds of millions of years later, and it has become so thin that it is impossible to distinguish.

"This Sun God Clan has some background. It can actually reward its subordinates with a real Golden Crow Feather. It has a trace of the ancient Golden Crow's divine power. It can control the world. It is a good treasure."

Ye Feng looked at the golden feather in the storage ring with joy in his eyes.

This kind of thing is more extraordinary than many magical weapons refined by so-called weapon masters. It has astonishing destructive power and monstrous divine power.

Ye Feng immediately stopped hesitating and directly released the Devouring Domain and began to devour the golden tiger that had converted to the Sun God Clan and was torn apart by him using the Netherworld Emperor's true form.

"boom!"

A huge demonic energy, like a vast ocean, vast and majestic, was instantly swallowed into Ye Feng's body, wildly increasing Ye Feng's power.

Ye Feng's cultivation aura was rising steadily at this moment, and he couldn't stop it at all.

After all, this golden tiger had strong cultivation and was extraordinary in itself. Later, he converted to the Sun God Clan and worked for the Sun God Clan. He was given a trace of the Golden Crow bloodline and could use the power of the Sun God Fire, which was naturally a great tonic.

"boom!"

The eighth level of enlightenment!

"boom!"

The ninth level of enlightenment!

"boom!"

The tenth level of enlightenment and great perfection! !

Ye Feng's cultivation aura broke through one after another, and his skill skyrocketed. What surprised Ye Feng was that the trace of Golden Crow blood contained in the body of this golden tiger turned out to be the pure blood of the real ancient divine beast Golden Crow, and it actually contained a divinity. substance.

After Ye Feng absorbed it, he immediately felt that his Immortal Body of God had been greatly improved. It was directly upgraded from the previous third level of the fifth stage to the fourth level of the fifth stage!

"The bloodline of ordinary so-called divine beasts does not contain divine substances, but the authentic prehistoric divine beasts such as the Golden Crow, which were truly born in the vast era of ancient times, do contain divine substances in their bloodlines."

This discovery made Ye Feng look quite surprised.

Ye Feng found another way to seek divine substances, that is

It is drawn from the bloodline of authentic divine beasts from the ancient prehistoric era, which contains divine substances.

However, the ancient mythical beasts that were truly born in the ancient times are very few in today's age of immortals and demons. Most of them perished in the turbulent wars in the ancient times, leaving very few heirs.

However, Ye Feng did not expect that the Sun God Clan in this wilderness was actually a pure descendant of the Golden Crow in the prehistoric era.

In any case, with this discovery, Ye Feng's murderous intention towards the Sun God Clan became more and more intense.

Originally, Ye Feng and the Sun God Clan were mortal enemies, but now Ye Feng wanted to kill the Sun God Clan, absorb the blood of the Golden Crow, and obtain divine substances.

Ye Feng secretly thought that he had arrived at the place where Wei Qing fought before and was ready to carry out rescue.

"Boom!"

I saw that Wei Qing was trapped in a small space by countless demon clans. Many demon clans held various weapons in their hands. There were demon long knives. When the sword was drawn out, ghosts cried and wolves howled. There was a golden bell with sound waves like waves. In an instant, It can shatter the earth, there are also gourds shining with nine colors of light, towering towers as big as mountains, and so on.

Even though Wei Qing is an elder and strong man in the Blood Demon Dynasty, he is still a little exhausted when being besieged by many demon clans. After all, he has been fighting for so long and has consumed a lot of energy.

But after all, Wei Qing was a fierce general on the battlefield in the north and south. He was holding two swords at the moment. Each sword was blooming with a shocking sword light. The sword energy spanned 30,000 miles, and he could kill all the attacks of many demon clans in a short time. Resisted.

"Senior Wei Qing, let me help you!"

Ye Feng roared in the distance, and before anyone arrived, a big black hand covering tens of thousands of meters had already bombarded him.

It is the hand of the emperor!

The hand of the Great Emperor is like a dark giant from the ancient times stretching out a hand from the ancient times. It has crossed the ancient times and shattered the world. It has boundless power and is suppressed from high altitude. The surrounding void force field They all seemed unable to withstand the terrible pressure, and they were all distorted. Void turbulence flowed out, and the world was in chaos.

Now that Ye Feng has devoured the warden of the Great Wilderness Prison, his cultivation has once again improved by leaps and bounds. Using the Hand of the Great Emperor, his natural power is astonishing, turning the world upside down and creating a terrifying aura.

"What a terrifying power and aura!"

Wei Qing was horrified. He saw the big black hand covering the sky and the sun, covering the universe, and the gloomy energy. He thought that another powerful enemy was coming. He had a bitter smile and a miserable smile on his face. He felt that he was going to die today.

But the next moment, the big black hand that covered the sky and the sun was attacking the many monsters around them.

Boom! !

With just one fall, the big black hand instantly shattered nearly half of the powerful monsters, creating a big hole in the ground. The crust was shattered, and an endless abyss with a slap print appeared. The destructive power was terrifying.

"hiss!"

The remaining half of the powerful demon clan couldn't help but take a breath of cold air, with expressions of extreme horror on their faces.

"Um?"

Wei Qing saw that the big black hand did not kill him, but instead instantly destroyed a group of powerful monsters that besieged him. He immediately looked back and saw the familiar figure of Ye Feng.

Wei Qing was shocked in his heart, but his face showed a look of ecstasy. He did not expect that Ye Feng's cultivation would improve again. This was naturally a great joy for Wei Qing, as he would not have to die.

## Chapter 4799 Cause and effect cycle

For Wei Qing, Ye Feng's method just now was indeed very shocking.

Because it was very difficult for Wei Qing to resist the dozens of monsters around him, but as soon as Ye Feng came, he directly used a big hand that covered the sky and the sun, full of power like an ancient giant, and smashed half of it. The demon clan naturally shocked Wei Qing.

This kind of strength has surpassed the average elders of the Blood Demon Dynasty, and is almost on par with the top experts of the Blood Demon Dynasty.

Uh-huh!

At this moment, Ye Feng flew directly to Wei Qing's side, smiled slightly, and said, "Senior Wei Qing, you didn't suffer any injuries, right?"

Wei Qing immediately shook his head, laughed and said, "These monsters can't hurt me yet, but you came just in time. There are more and more monsters. Let's get out of here quickly."

Ye Feng nodded, not wanting to get entangled. .??.

After all, although he had killed the warden of this wilderness prison, no one could predict that other super powerful people from the Sun God Clan might come later, so it was best to leave now.

After all, their mission has been completed, all the seals in the prison have been completely broken, and all the prisoners have escaped.

Even a terrifying prisoner who grabbed a claw from the depths of the earth escaped.

So Ye Feng and Wei Qing were naturally preparing to leave here quickly.

But before leaving, Ye Feng naturally swallowed up all the blood energy of those who died in the battle.

Ye Feng gained another good amount of energy, but after all, the cultivation levels of these powerful monsters who fought with Wei Qing were not very high, so Ye Feng did not improve for a while, but only strengthened his skills. Some.

At this moment, Ye Feng no longer hesitated, and he and Wei Qing immediately reopened a passage and left here.

But just when Ye Feng and Wei Qing were about to leave, suddenly the entire sky was filled with golden light.

Buzz!

A long golden bridge immediately connected here from the depths of the wilderness.

Then a beautiful woman in a golden dress walked over from the other end of the golden bridge.

This woman in a golden dress looks extremely beautiful, and is full of a noble aura, and the aura of cultivation on her body is unfathomable.

Obviously, this is an extremely powerful monster from the depths of the wilderness, and should be from the Sun God Clan.

At this time, Wei Qing saw the golden long bridge connecting from the depths of the wilderness, and immediately couldn't help but said in horror, "That is a well-known weapon among the Sun God Clan. It is said to be able to shorten space." The 'Taikoo Golden Crow Bridge' is one of the space treasures left behind by the ancient Golden Crow clan. It is somewhat similar to the space wormhole you opened up by Ye Feng. It can span hundreds of thousands of miles in an instant. It seems that this man wearing gold Although the beautiful woman in the long skirt looks very young, she is probably an ancient figure in the Sun God Clan. Otherwise, she would not have such a powerful aura of cultivation, which I felt instantly. I feel like the shadow of death, this woman is too powerful, let's go quickly."

Ye Feng nodded immediately and prepared to leave.

Buzz!

But at this moment, the cold eyes of the beautiful woman wearing a golden dress suddenly came to Ye Ye through the infinite void.

On the wind.

With just one glance, Ye Feng immediately felt the movement of power in his body, which became somewhat solidified. For a while, Ye Feng was unable to open a wormhole in space, because it was as if his power was locked. .

"What? You actually have such a strong cultivation level?"

Ye Feng's eyes widened slightly at this moment, as if he never thought that this beautiful woman from the Sun God Clan who suddenly appeared had such terrifying power.

Just one look made his power unable to function. Ye Feng was naturally shocked by such a long distance.

It seems that Wei Qing's guess is correct. This beautiful woman in a golden dress is definitely an extremely terrifying existence among the Sun God Clan. Although she looks very young, she is probably an old woman who has practiced for thousands of years. The demon clan.

At this moment, Ye Feng frantically used the power of the Celestial Clan, trying to break the blockade of the golden and beautiful woman's power.

Because Ye Feng knew very well that once the beautiful woman in the golden dress of the Sun God Clan on the golden bridge came in front of him, he would probably not be able to fight against the opponent even if he used the Nether Emperor's true body, because the gap was really too big.

This made Ye Feng deeply realize that the wilderness was not as simple as he imagined.

There are too many strong men hidden in this endless wild forest. The Sun God Clan can become the number one existence in the entire wild overlord race, which is indeed not easy to deal with.

No wonder the peacock clan that the former Princess Linglong belonged to wanted to form an anti-overlord alliance to fight against these overlord races.

Because the foundation of these overlord races is so powerful, it is impossible to fight against just one race. Only by uniting with the demon races that are oppressed by the overlord races can we fight against the Sun God Clan and the Amethyst Dragon Clan. The top dominant race.

At this moment, Ye Feng discovered that the power of his own Celestial God Clan was temporarily unable to break through the seals all over his body. This made Ye Feng's heart suddenly sink. He did not expect that the Sun God Clan would be so fast, and such a powerful person would appear. beautiful woman wearing a golden dress.

But Ye Feng's luck was pretty good, because just when the beautiful woman in the golden dress recognized Ye Feng's identity and wanted to catch Ye Feng, suddenly in the direction of the Wilderness Prison, the ground shook crazily, and a huge The demon clan's palm grabbed directly at the beautiful woman in the golden dress standing on the golden bridge, full of terrifying power.

This huge monster palm was exactly the mysterious big hand that emerged from the cracks in the ground when Ye Feng had just unlocked the seal.

He should be the most powerful demon prisoner sealed in this wilderness prison. I don't know what kind of transcendent demon clan existence he is, but he is secretly sealed under this wilderness prison, and he has such strength.

When this beautiful woman in a golden dress was grabbed by this mysterious monster hand, she was finally unable to focus on Ye Feng.

Ye Feng's power can start to work in an instant.

boom!

Without any hesitation, Ye Feng took Wei Qing, opened up a space wormhole, and quickly left here, not wanting to care about what the battle behind him was like.

In any case, Ye Feng had just unlocked the seal of the entire Great Wilderness Prison, and now he was rescued by the demon prisoner who escaped after breaking the seal, and stretched out a mysterious demon hand. It can be regarded as a peck and a drink, cause and effect cycle. For Wei Qing, Ye Feng's method just now was indeed very shocking.

Because it was very difficult for Wei Qing to resist the dozens of monsters around him, but as soon as Ye Feng came, he directly used a big hand that covered the sky and the sun, full of power like an ancient giant, and smashed half of it. The demon clan naturally shocked Wei Qing.

Chapter 4800 Head

At this time, Ye Feng finally succeeded in opening a space wormhole and took Wei Qing safely back to their hidden place in the primitive jungle outside the Dahuang Prison.

At this moment, when Ye Feng and Wei Qing walked out of the other end of the space wormhole, they immediately saw a group of other young masters from the Blood Demon Dynasty team, anxiously waiting for the two of them.

At this moment, a young master in the team couldn't help but said, "Great! You are finally back! Just now we sensed a very terrifying energy fluctuation in the Dahuang Prison here. It should be an extremely terrible thing." It was a brutal battle, and we have been worried that you two will not come back."

Wei Qing smiled slightly at this time and said loudly, "With a top genius like Ye Feng helping us, how can we not come back? Moreover, the task has been successfully completed, we can leave directly."

Hearing what Wei Qing said, the young masters in the team nodded one after another, with relieved expressions in their eyes.

Because where they are now, on the edge of the wilderness, they are likely to be attacked by the demon clan of the wilderness, so they now really want to leave this dangerous place.

At this moment, Wei Qing turned to look at Ye Feng and couldn't help but said, "Ye Feng, are you really not going to return to the Blood Demon Dynasty with us?"

Ye Feng shook his head and said with a smile, "I still have some things to deal with when I go to the wilderness. After I finish this personal matter, I will return to the Blood Demon Dynasty."

Hearing what Ye Feng said, Wei Qing also knew that Ye Feng now had the ability to venture into the wilderness alone.

Wei Qing immediately nodded, but before leaving, Wei Qing couldn't help but patted Ye Feng on the shoulder and said solemnly, "Ye Feng, you are a top-notch person that our Blood Demon Dynasty rarely encounters in ten thousand years." Genius, I hope you will come back safely. I think His Majesty will definitely attach great importance to your safety. I will not stop you now. I just hope that you will come back safely.

I hope you can be careful of the danger. "

Hearing what Wei Qing said, Ye Feng immediately smiled and said, "Senior Wei Qing, don't worry, I will definitely not throw my life away in the wilderness. That would be a pity."

Uh-huh!

After saying that, Ye Feng jumped up and left the place directly, disappearing into the wilderness.

Seeing Ye Feng's figure disappear into the primitive jungle of the wilderness in an instant, Wei Qing couldn't help but nodded, with a look of admiration in his eyes.

This is the first time he has encountered a young genius like Ye Feng who is as outstanding as Ye Feng. He possesses such powerful combat power and possesses various magical methods. It can be said that he has seen the entire Blood Demon Dynasty and even the entire Northern Territory. The most powerful young figure, if he can continue to grow in the future, his future will definitely be unlimited.

At this moment, Wei Qing glanced at the young masters beside him and said, "You all must learn from Ye Feng. Although you have such strong strength, you still have to practice hard to become our blood master in the future." The pillars of the Demon Dynasty have become first-class superpowers. You are all young geniuses personally selected by His Majesty. You must practice hard and not let down His Majesty's expectations."

Hearing what Wei Qing said, many young masters clasped their fists and said, "I will follow the teachings of my seniors."

Wei Qing nodded, and then said, "Then let's leave here and return to the Blood Demon Dynasty as soon as possible, otherwise things will change later."

Uh-huh!

After saying that, Wei Qing led a group of young masters from the team and left the wilderness.

After all, this is other people's territory. They stayed too long.

Naturally, they felt that it was very dangerous, so it would be better to return to the territory of the Blood Demon Dynasty as soon as possible. After all, they did not possess such strong strength and various special methods as Ye Feng, and were able to have the confidence to brave the wilderness alone.

And just after everyone left, Ye Feng flew quickly towards the center of the wilderness.

Because Ye Feng wanted to go to the Peacock Clan as soon as possible to meet Princess Linglong.

It is estimated that Princess Linglong has left the Northern Territory and is waiting for her among the Peacock Clan.

This time he went to the Peacock Clan. In addition to completing the agreement with Princess Linglong, Ye Feng also wanted to use the training resources in the Anti-Overlord Alliance to see if he could get some of the top resources in the wilderness to improve his overall strength. . ??

As Ye Feng continued to advance towards the center of the wilderness, the surrounding trees became taller and pinier.

Some trees are even as tall as mountains reaching into the sky through the clouds.

Ye Feng came to the central area of the wilderness, and for a while he got a little lost. He didn't know where to go. This was where the Peacock Clan lived.

When Ye Feng and Princess Linglong said goodbye before, Princess Linglong gave Ye Feng a map of the wilderness.

However, this map is not so detailed. If Ye Feng wants to find the location of the Peacock Clan, he may not be able to find it for a while.

But Ye Feng is not in a hurry. Anyway, he doesn't have any other particularly urgent matters now.

This mission to the Southern Barbarian Empire has been successfully completed, and I have enough free time to do my own personal things.

"Even if you get lost temporarily, there are countless trees and plants in this vast forest, as well as many rare and exotic fruits. It can be considered a training..."

At this moment, Ye

Feng murmured secretly, took out the map from the storage ring, and followed some of his own intuitions, walking slowly in a certain direction at this time.

Now Ye Feng is not in a hurry.

Soon, Ye Feng passed an ancient mountain and immediately discovered that there was a stream under the mountain.

Surprisingly, there are many rare and exotic fruits growing around the stream.

This is a quiet place among the mountain springs. It seems that no wild beasts have come here, but Ye Feng did not expect to encounter it accidentally.

Ye Feng was naturally very happy and immediately rushed to the mountain spring to pick those rare fruits.

Because Ye Feng sensed that these rare and exotic fruits were not dangerous, but contained great medicinal power. They should have grown here for many years, so he picked them by himself. After eating them, he should be able to give himself a lot of energy and be able to grow stronger. One's own skills, even improving physical strength.

After all, some special rare fruits have the function of tempering and refining the body.

Snap!

But just as Ye Feng flew around this mountain spring, suddenly a head rolled over.

"This is....."

Ye Feng's eyes were immediately startled.

This head was stained with blood, but Ye Feng still recognized it. It turned out to be the head of the old bat man who had blocked him when Ye Feng was destroying the formation in Dahuang Prison.

But then the old bat man couldn't beat Ye Feng before, so he gave in, and Ye Feng didn't cause any trouble for him.

Unexpectedly, the other party's head suddenly appeared here.

Ye Feng immediately looked in the direction where the head was coming, and instantly discovered an old man wearing a robe with many monster patterns engraved on it. He had a fierce aura and was standing there looking at him.
