Chapter 4861 Really reliable

The moment Ye Feng finished his words, the golden token in his hand suddenly sounded the voice of the Sun Goddess, which was quite surprising: "Ye Feng, is it you? I didn't expect you to come back so soon. It's great. ! I am currently in the headquarters of the Sun God Clan. There are some very critical things that need your help. And Ye Feng, you guessed it right. After the leader of the Sun God Clan was seriously injured by you taking advantage of the Feng Shui mountains and rivers, he hid in private. I went into seclusion in the Hundred Thousand Mountains at the back of our Sun God Clan's base camp. I couldn't get out for a while, and no one knew about it. Recently, I have openly stated in the Sun God Clan that I want to run for the next generation of clan leaders. position, because the old patriarch is now missing, and even many of the elders of our Sun God Clan cannot contact the patriarch of the Sun God Clan. It seems that you, Ye Feng, seriously injured him before, and he even cut off contact with the outside world. "

After hearing the voice of the Sun Goddess from the token, and understanding the basic situation of the Sun God Clan, Ye Feng suddenly had a look of surprise in his eyes.

It seemed that he had guessed everything right.

Now the patriarch of the Sun God Clan really has no energy to care about the disturbances from the outside world, but is in the process of deep retreat and recovery.

Ye Feng knew that as long as he could help the Sun Goddess win the position of the new generation patriarch of the Sun God Clan during the old patriarch's retreat, or come up with other ways to kill the previous old patriarch, then there would be no problem. .

At this moment, Ye Feng continued to speak in the token: "It seems that the situation is not bad, Sun Goddess, should we directly enter the base camp of your Sun God Clan, or will you come out to pick us up?"

The voice of the Sun Goddess immediately sounded in the token: "Don't move over there, I will pick you up personally."

After saying that, the voice in the golden token suddenly stopped.

Ye Feng looked at the nine-eyed black flame unicorn beside him at this time, with a faint smile on his face, and said loudly: "It seems that we are very lucky, everything is developing as I guessed."

The Nine-Eyed Black Flame Qilin immediately grinned and couldn't help but say: "Master Ye Feng is indeed an all-round talent. Not only is his own cultivation strength and methods very powerful and miraculous, but he also knows things like a god. I respect Master Ye Feng." His admiration is like an endless river."

At this moment, while the two were talking, less than half an hour later, a golden light suddenly flew from a direction not far away.

Enveloped in the golden light, it was the Sun Goddess.

At this moment, the Sun Goddess's injuries have completely recovered.

When she came to Ye Feng and the Nine-Eyed Black Flame Qilin, she immediately couldn't help laughing and said: "Ye Feng, you are finally here!"

When she said this, the Sun Goddess seemed to sense something. She immediately stared at Ye Feng, sensing the aura of cultivation emanating from Ye Feng, and couldn't help but said in horror: "No. Thinking of not seeing each other for just a few days, Ye Feng, your cultivation level has improved so much. You are several levels stronger than when we first met. Now you have entered the half-step into the virtual realm. Your speed of improvement is really terrifying!"

Hearing what the Sun Goddess in front of him said, Ye Feng couldn't help but shook his head and smiled, and said: "Let's not mention this first. You can take me to your place first."

Let's settle down in the headquarters of our Sun God Clan. This time, the Nine-Eyed Black Flame Qilin and I are mainly to secretly help you win the position of leader of the next generation of the Sun God Clan, and find ways and opportunities to kill the previous old leader. "

The Sun Goddess immediately nodded, and then couldn't help but say: "However, there are many strong elders in our Sun God Clan. Not all the strong elders support me, and some are against me."

Ye Feng smiled coldly and said: "Anyone who dares to oppose you, then either suppress them secretly or kill them. I will clear all obstacles for you."

When he said this, Ye Feng seemed to have thought of something and couldn't help but said: "By the way, not only will the Nine-Eyed Black Flame Qilin and I help you this time, but in addition, I also secretly brought three A top-notch monster elder from other races, their cultivation strength is very terrifying, but they can only help you secretly and cannot help you openly. "

When the Sun Goddess heard what Ye Feng said, her eyes suddenly lit up and she said, "Ye Feng, you are really reliable."

Ye Feng nodded, and then said: "My previous appearance and identity have been made public among your Sun God Clan. I was the enemy of the previous leader of the Sun God Clan, so I cannot show my true face to everyone in the Sun God Clan now. in front of."

When he said this, Ye Feng took out a dark mask from his storage ring and put it on his face.

This pitch-black mask is a defensive weapon that Ye Feng refined when he was free. It also has the effect of hiding his true face.

After Ye Feng put on this black mask, he changed from a handsome young man to a magic master with a cold temperament, giving people a rather cold and stern feeling.

The Sun Goddess smiled and said, "That's enough. No one will recognize your true identity."

After saying that, the Sun Goddess took Ye Feng and the nine-eyed black flame unicorn and flew quickly towards the headquarters of the Sun God Clan.

When Ye Feng and the Nine-Eyed Black Flame Qilin followed the Sun Goddess into the Sun God Clan's base camp, Ye Feng immediately saw the entire Sun God Clan's base camp, shrouded in a golden light mask.

At the top of this golden mask, there is a ball that shines with golden light like the sun. It is also like an energy ball, exuding terrifying power.

At this time, it seemed that Ye Feng and the Nine-Eyed Black Flame Qilin were paying special attention to the energy light group that was suspected to be the sun in the sky of the Sun God Clan. The Sun Goddess immediately smiled and said: "That is the origin of our Sun God Clan. The

original inner elixir left behind by the ancient Golden Crow Divine Beast has turned into a small sun, covering our entire base camp of the Sun God Clan, protecting us, and providing us with a steady stream of energy and light from the Golden Crow Divine Beast, allowing our Sun God Clan to Every clan member can practice faster under the cover of this little sun."

When Ye Feng heard what the Sun Goddess said, he immediately nodded and gave up the thought of plundering the energy light group.

After all, the energy of this kind of thing is too majestic, and it is not something that I can covet temporarily.

Now I feel at ease following the Sun Goddess into the base camp, settling down first, and then looking for a direction for development. The moment Ye Feng finished his words, the golden token in his hand suddenly sounded the voice of the Sun Goddess, which was quite surprising: "Ye Feng, is it you? This pitch-black mask is a defensive weapon that Ye Feng refined when he was free. It also has the effect of hiding his true face.

After Ye Feng put on this black mask, he transformed from a handsome young man into a demon master with a cold temperament, giving people a very cold and stern feeling.

The Sun Goddess smiled and said, "That's enough. No one will recognize your true identity."

After saying that, the Sun Goddess took Ye Feng and the nine-eyed black flame unicorn and flew quickly towards the headquarters of the Sun God Clan.

Now I feel at ease following the Sun Goddess into the base camp, settling down first, and then looking for a direction for development.

Chapter 4862 Consider everything comprehensively

At this moment, under the leadership of the Sun Goddess, Ye Feng and the Nine-Eyed Black Flame Qilin naturally quickly arrived at the core area of the Sun God Clan's base camp.

There are obviously a lot more buildings here. There are many tall buildings standing on the surrounding land, as well as exquisite ancient pavilions and so on.

It seems that the descendants of the Golden Crow Divine Beast Clan, the so-called Sun God Clan established, are very attentive to the construction of their base camp. Each building is unique, very beautiful, and has an antique charm. It is no better than How different are the buildings in human society?

At this time, the Sun Goddess looked at Ye Feng beside her and said with a smile: "My bedroom is not far ahead. From now on, Ye Feng, you can live in my bedroom. There are many rooms in it. As for Nine Black-Eyed Flame Qilin, if you want to find a training place suitable for you, you can also

find it in our Sun God Clan. Our Sun God Clan has a special training place for the descendants of ancient beasts. Those are some special places that require It takes contribution points from the clan to practice, but I have a lot of contribution points that can be used by you for free.”

Hearing what the Sun Goddess said, the Nine-Eyed Black Flame Qilin immediately shook his huge head and couldn't help but said: "I just need to stay with Master Ye Feng all the time. I don't need to find a place to practice alone." ”

When Ye Feng heard this, he just smiled slightly and didn't say much.

In fact, for the Nine-Eyed Black Flame Qilin, following him is indeed a better choice, because he can encounter some opportunities at any time.

If he goes to those so-called special places to practice on his own, it probably won't be of much use.

After all, the Nine-Eyed Black Flame Qilin suddenly evolved its bloodline and became more powerful. If it had not met Ye Feng, it is estimated that in a few hundred years, the Nine-Eyed Black Flame Qilin would not be able to enter the ancient tomb of his ancestor, the Lord of the Wilderness.

At this moment, Ye Feng didn't say much, and the Sun Goddess didn't persuade her any more. Instead, she took Ye Feng and Qilin directly to her palace.

Ye Feng immediately saw a huge castle appearing on the ground in front of him.

Ye Feng couldn't help but asked in surprise: "Is this castle your palace, the Sun Goddess?"

The Sun Goddess immediately nodded and said with a smile: "This is the palace that my mother spent a lot of money to build. It contains various defensive formations, as well as formations specifically designed to increase the speed of cultivation. , but my mother died in an accident a few years ago.”

When she said this, the Sun Goddess showed a look of regret on her face.

Ye Feng nodded slightly and followed the Sun Goddess into her bedroom without saying anything else.

At this time, Ye Feng didn't hesitate at all, and immediately emitted his soul power, covering the surrounding area. He couldn't help but said: "It seems that your palace is really impregnable. I felt it a little bit, There are indeed dense formations engraved in this castle."

The Sun Goddess smiled slightly and said aloud: "Of course, this is the place my mother specially built for me to live in. So this is not only a building, but also a powerful magic weapon of residential nature."

Ye Feng nodded, and then asked aloud: "Let's get down to business. Do you want to run for the position?"

What conditions need to be met by the next generation of leader of the Sun God Clan? "

Hearing Ye Feng's question, the Sun Goddess' face became solemn and she said aloud: "Now in the eyes of everyone, the whereabouts of the old patriarch of the Sun God Clan are unknown, so I want to run for election to become the leader of the new generation of the Sun God Clan. They first have to make sure that the old patriarch is completely dead, so that the next generation of young descendants of the Sun God Clan can start running to become the new generation of patriarchs. It is also very simple for the younger generation to run to become the new generation of patriarchs. It depends on strength. Whoever is the strongest and has the most say among the Sun God Clan will be able to become the leader of the new generation. "

When Ye Feng heard what the Sun Goddess said, he immediately nodded slightly and said loudly: "Your cultivation strength should be considered top-notch among the younger generation of the Sun God Clan. Your own strength is definitely no problem. The only problem is that it is insufficient. There are relatively few elders supporting you, and a more important point is that everyone in the Sun God Clan now believes that the old patriarch is completely dead."

The Sun Goddess smiled slightly and said aloud: "I have solved this problem. Previously, Ye Feng, you used the feng shui power of the mountains and rivers to severely injure the old patriarch of the Sun God Clan. The natal magic weapon in his hand, the Golden Crow Scepter, was left behind. , was held in my hand, so these days I took out this Golden Crow Scepter in our Sun God Clan. I lied that I witnessed the old patriarch fighting a very terrifying demon in the depths of the wilderness. , seriously injured and dying, his whereabouts are unknown, and he may have died. After I said these words and took out the Golden Crow Scepter, all the people in the entire Sun God Clan now feel that the old patriarch is probably in danger, so The entire Sun God Clan has begun preparations for the election of a new clan leader."

Hearing what the Sun Goddess said, Ye Feng immediately nodded with bright eyes and said loudly: "It seems that you are also very efficient in doing things, but after all, the old patriarch of the Sun God Clan did not really die, but was seriously injured. In retreat, only a few of us know this secret, so we must keep this secret and maintain it."

When he said this, Ye Feng couldn't help but said: "I want to lurk into the Hundred Thousand Mountains behind your Sun God Clan and find the place where the old patriarch of the Sun God Clan is retreating."

Hearing what Ye Feng said, the Sun Goddess couldn't help but said in surprise: "Ye Feng, are you going to deal with the leader of the Sun God Clan now? Although he is seriously injured and dying, he is extremely powerful, even if now that your cultivation level has improved enough, you don't have any confidence or chance of winning, and you can completely kill the old patriarch of the Sun God Clan."

Ye Feng smiled and shook his head, and said aloud: "Of course I will not be so arrogant as to provoke the leader of the Sun God Clan, a top figure in the wilderness. I just want to find his retreat place, and then do not disturb him. When he is in retreat, some formations to isolate the breath and energy from the outside world are applied around him. In this way, no one can find their old patriarch of the Sun God Clan. Only the patriarch himself leaves the retreat in person, will he be discovered by everyone. Discover, during this window period, we will quickly help you campaign to become the patriarch of the Sun God Clan, and find a way to kill the real old patriarch."

Hearing Ye Feng's words, the Sun Goddess immediately nodded in agreement and said loudly: "Ye Feng, you have considered it more comprehensively. Our Sun God Clan has indeed left many elders, and we want to find the true identity of the clan leader. Whereabouts, maybe they might happen to encounter the clan leader's retreat place, and that would be the end." At this moment, under the leadership of the Sun Goddess, Ye Feng and the Nine-Eyed Black Flame Qilin naturally arrived at the Sun God Clan's headquarters very quickly. core area.

There are obviously a lot more buildings here. There are many tall buildings standing on the surrounding land, as well as exquisite ancient pavilions and so on.

When Ye Feng heard this, he just smiled slightly and didn't say much.

In fact, for the Nine-Eyed Black Flame Kirin, following him is indeed a better choice, because he can encounter some opportunities at any time.

If he goes to those so-called special places to practice on his own, it probably won't be of much use.

After all, the Nine-Eyed Black Flame Qilin suddenly evolved its bloodline and became more powerful. If it had not met Ye Feng, it is estimated that in a few hundred years, the Nine-Eyed Black Flame Qilin would not be able to enter the ancient tomb of his ancestor, the Lord of the Wilderness.

Our Sun God Clan has indeed left many senior figures, and we want to find the true identity of the clan leader. Whereabouts, maybe they might happen to encounter the clan leader's retreat, and that would be the end of it."

Chapter 4863 Primitive Wilderness

Next, under the guidance of the Sun Goddess, Ye Feng went directly to the Hundred Thousand Mountains behind the headquarters of the Sun God Clan.

The mountains here are towering and majestic, and the trees are very tall, reaching into the sky, giving people a primitive and wild feeling.

The Sun Goddess pointed at this primitive and wild land in the distance and said, "According to the information I have learned, the place where the patriarch of the Sun God Clan is currently in deep

retreat is in this one hundred thousand mountain, but the specific Where, I don't know. After all, even the extremely powerful elders of our Sun God Clan are currently unable to be found. They are all very powerful in cultivation and have terrifying strength. They have never been able to find the Sun. Where is the old patriarch of the God Clan?"

Ye Feng nodded and said aloud: "Although my cultivation is definitely much weaker than those of your elders from the Sun God Clan, my soul power detection is definitely more powerful than them."

When he said this, Ye Feng looked at the nine-eyed black flame Qilin beside him and said loudly: "Qilin, you should stay with the Sun God Clan for the time being and help the Sun Goddess deal with some of her external opponents."

When he said this, Ye Feng released the three elders of the Peacock Clan that he had brought from the Peacock Clan from the storage ring.

The moment these three powerful elders appeared, the terrifying aura of cultivation emanating from them immediately made the Sun Goddess in front of them feel deeply frightened.

The Sun Goddess immediately couldn't help but said: "Ye Feng, where did you recruit these three such powerful seniors? Their cultivation aura is not even much weaker than some of the elders of our Sun God Clan. "

Ye Feng smiled and said, "You don't have to worry about this. Anyway, the three of them will definitely help you wholeheartedly."

When he said this, Ye Feng looked at the three seniors of the Peacock Clan and said loudly: "Three seniors, you will secretly help the Sun Goddess win the position of the leader of the Sun God Clan. I want to go out for a while. Time, before I come back, you will listen to the arrangements of the Sun Goddess."

The three elders of the Peacock clan had known about this for a long time, and were naturally mentally prepared. They simply nodded and said, "Don't worry, Mr. Ye Feng."

Uh-huh!

After arranging everything, Ye Feng nodded, then jumped up and rushed alone into the primitive wilderness of Shiwanda Mountain in front of him.

For Ye Feng, the arrangements and plans of the Sun Goddess in the Sun God Clan are now progressing steadily. Now he has brought three top elders from the Peacock Clan, plus the assistance of the Nine-Eyed Black Flame Qilin, in the Sun Within the God Clan, the Sun Goddess should not have too many problems for the time being.

The biggest problem now is to solve the problem of not exposing the old patriarch of the Sun God Clan.

Therefore, Ye Feng naturally had to do this arduous task personally.

And there is no one more suitable to do this than Ye Feng.

After all, in terms of detection ability, Ye Feng, as a powerful soul master, is naturally very powerful.

Many elders are very powerful, but in terms of detection, Ye Feng may not be able to detect faster and more carefully.

At this moment, Ye Feng entered the primitive jungle of Shiwanda Mountain and immediately felt an ancient and primitive feeling.

It gives people the feeling that this one hundred thousand mountain has existed in the ancient times of the gods. Unlike the ordinary wilderness areas outside, this place is more primitive, more ancient, and full of a kind of The breath of primitive wilderness.

At this moment, Ye Feng did not hesitate and directly released his huge soul power, covering the surrounding area.

Ye Feng's soul power has now been raised to a very powerful level, so after it is released, it is like a vast ocean, moving towards

Covering the surrounding area, it can cover an entire radius of several kilometers in an instant.

At this time, Ye Feng was like a scanning mobile radar, quickly scanning the entire wilderness and exploring every inch of the area.

Ye Feng was quickly scanning every inch of the surrounding land, trying to find the place where the leader of the Sun God Clan was currently retreating.

You must know that Ye Feng's soul detection ability is very sensitive, so he usually does not attract the attention of others. This is why Ye Feng dares to run out privately to find the retreat place of the terrifying leader of the Sun God Clan.

At this time, Ye Feng fully activated his soul power and quickly searched the entire Shiwandashan area. .??.

Ye Feng knew that there were probably other opportunities hidden in the Hundred Thousand Mountains area behind the Sun God's base camp, which was even more primitive than the wilderness area outside.

After all, in this primitive wilderness, it is very possible to grow some unique elixirs and rare fruits that are very rare in the outside world.

If it can be found, it will also have huge benefits for improving Ye Feng's cultivation.

Ye Feng came to the Sun God Clan this time not just to help the Sun Goddess win the power of the Sun God Clan.

More importantly, Ye Feng wanted to quickly use this place to improve his strength.

There is currently no way to obtain the cultivation resources in the Sun God Clan. After all, the Sun Goddess is not the leader of the entire Sun God Clan, and she does not have enough power in the Sun God Clan.

Therefore, it is a good choice for Ye Feng to find his own opportunities in this huge mountain.

After all, without the relationship with the Sun Goddess, I would not be able to enter the one hundred thousand mountain area behind the Sun God Clan's headquarters.

Because this area is located behind the headquarters of the Sun God Clan, there is no way to enter without passing through the entire Sun God Clan's control, so Ye Feng can be regarded as benefiting.

And Ye Feng also knew very well that if he could continue to rapidly improve his cultivation strength, it would be of huge benefit to him in dealing with the old patriarch of the Sun God Clan in the future.

After all, Ye Feng knew that although he had found three powerful elders from the Peacock Clan, it would be impossible for them to fight against the old patriarch of the Sun God Clan, who was at the top level in the wilderness.

I'm afraid you have to rely on yourself in the end.

Moreover, the three powerful elders of the Peacock clan said they came out to help him, but they could only do so secretly, and the other party would not fight for him.

So Ye Feng felt that in the end, he still had to rely on himself.

"Um?"

At this moment, Ye Feng suddenly discovered a special energy fluctuation. His eyes immediately lit up and he flew quickly in that direction.

Soon Ye Feng discovered that the place where the fluctuations were transmitted turned out to be a very hidden spring in the Hundred Thousand Mountains.

However, Ye Feng discovered that the mountain spring water in this mountain spring turned out to be very rare light golden water.

This made Ye Feng's eyes suddenly show a look of surprise, and he couldn't help but murmured, "Is there some treasure hidden under the water of this mountain spring? Otherwise, it would be

impossible to emit such strong energy fluctuations, and let the mountain spring here The water turned into a light golden color and was filled with a sacred feeling.”

Ye Feng couldn't help but sigh at this time. This land, which looked like hundreds of thousands of mountains left over from the ancient prehistoric era, indeed contained many rare treasures bred by nature. It was really a good place.

At this time, Ye Feng was not in a hurry to find the place where the old patriarch of the Sun God Clan was retreating. After all, he couldn't find it for a while.

If he encounters some good fortune along the way, Ye Feng will naturally feel that it is worth spending some time to obtain these good fortunes.

This is the so-called "hit by chance". It happens to be a chance encounter. If you don't get it, it would be a waste of nature.

Chapter 4864 Control everything

Wow!

At this moment, Ye Feng did not hesitate and jumped directly into the mountain spring water in front of him.

The moment Ye Feng jumped in, he could immediately feel that this mountain spring water that seemed to exude light gold indeed contained a very sacred energy.

However, the energy in these mountain spring water is really too thin, and Ye Feng will not be of much use if it absorbs it.

So at this time, Ye Feng wasted no time and immediately lurked towards the depths of the mountain spring water, trying to find what kind of treasure it was that caused such a magical change in the mountain spring water.

When Ye Feng sank rapidly, golden vines suddenly appeared on the rock walls around the mountain spring, rushing directly towards Ye Feng's direction.

Boom!

The moment a vine struck Ye Feng, a huge roar immediately erupted.

Ye Feng instantly felt that the entire bones in his back were about to be shattered by this vine.

It has to be said that the golden vines that suddenly grew out of the rock wall under this mountain spring are definitely very high-level creatures. They are probably a very powerful plant-type creature that is attacking Ye Feng.

Ye Feng understood immediately. It seemed that the treasure under the mountain spring water was very extraordinary, and a guardian spirit beast was actually born.

Ye Feng didn't hesitate and directly activated the god ring on his finger.

Uh-huh!

The next moment, the golden ring transformed into a golden sword in his hand, with extremely terrifying sharpness.

Click! Click!

At this moment, Ye Feng slashed towards the surroundings.

Even if these golden vines are released by very magical plants

, very strong, even Ye Feng's current Immortal Body of the God was a little unable to withstand it for a while, but under the sharpness of the God's Sword in Ye Feng's hand, it could not withstand it at all, and was directly cut into pieces and dropped. In the water.

Uh-huh!

At this moment, Ye Feng immediately looked in a certain direction and said coldly: "What kind of hero is it to attack in secret? Let me see what your true form is."

boom!

Almost at that moment, Ye Feng quickly grabbed onto a rock wall surrounding the mountain spring.

Boom!

At this moment, Ye Feng's hand immediately turned into a huge golden palm, possessing monstrous power.

The moment Ye Feng's big golden hand grabbed onto the rock wall surrounding the mountain spring, it directly shattered the surface of the rock wall into pieces.

Then at the next moment, Ye Feng's golden hands pulled out a huge creature from inside.

"Um?"

When Ye Feng saw the creature in front of him, his eyes suddenly showed a look of astonishment.

I saw that what I grabbed was not a plant, but a very large octopus, hiding in the mud behind the rock wall of the mountain spring.

The golden vines that attacked him just now were not vines, but the tentacles of this big golden octopus.

This made Ye Feng's eyes suddenly show a look of surprise, as if he didn't expect such a huge golden octopus to exist in this calm mountain spring water.

At this time, the big golden octopus saw how powerful Ye Feng was, and immediately begged for mercy in horror and said: "Human race

My Lord, please spare my life, but the Human Race Lord needs your life! The little demon doesn't know what's right and dares to attack the adults and offends the majesty of the adults. This is the fault of the little demon. Please don't kill the little demon. The little demon absorbed that in the mountain spring water. It took a whole thousand years for the power of the treasure to derive its own wisdom. It is really not easy to practice. I hope you can spare the little demon's life. "

When Ye Feng heard what the big golden octopus said, his eyes moved slightly, but he didn't kill the big golden octopus directly because it was better to conquer the opponent.

After all, this big golden octopus is still very powerful. Don't look at it being taken care of by Ye Feng so easily. That's because Ye Feng's own strength is very powerful.

The strength of this golden octopus itself is still very terrifying.

If you bring back the Sun God Clan, it will be an extra boost.

After all, if the Sun Goddess wants to run for the position of the final patriarch among the Sun God Clan, she must have the help of many experts.

But in the competition among a dominant race like the Sun God Clan, relying solely on one's own strength is not enough, a huge support team is also needed.

Therefore, when Ye Feng is looking for the retreat place of the old patriarch of the Sun God Clan in this hundred thousand mountains, if he encounters any very powerful creature, he can indeed conquer it. As his subordinate, he will assist the Sun Goddess together and become the entire sun. The new generation leader of the God Clan.

So at this time, when Ye Feng saw that the other party was begging for mercy very sincerely, he immediately nodded and said: "If you want me not to kill you, it's very simple. As long as you open your soul and let my spiritual mark, just enter your soul."

For Ye Feng, it doesn't mean that Ye Feng can let the other party live if he sees the other party begging for mercy.

Ye Feng needs to understand this golden color

Only when the big octopus has complete control can he rest assured that this golden big octopus will follow him.

So at this time, Ye Feng naturally wanted to completely control this golden octopus, so that it would not have any resistance at all.

Then you can only imprint your own spirit into the soul of this golden octopus. In this way, you can completely understand the inner thoughts of this golden octopus, and this golden octopus will never betray you.

At this time, Ye Feng said such words, which made the golden octopus immediately hesitate.

After all, the golden octopus also knew very well that if Ye Feng really imprinted a spiritual mark on its soul, it would mean that it would become Ye Feng's slave forever.

This naturally made the golden octopus very confused.

But if you don't listen to Ye Feng, you will probably be killed by Ye Feng on the spot.

At this moment, seeing the golden octopus hesitate, Ye Feng knew that the other party definitely didn't want his spiritual imprint to be engraved in its soul.

So at this moment, Ye Feng's eyes flashed with murderous intent, and he said loudly: "Well, since you don't want to, then I have no choice but to send you to the west. I don't like any feeling of not being under my control. What I want is Take control of everything, leave no hidden dangers to yourself, and let your thoughts flow. "

After saying that, Ye Feng stretched out a big golden hand, grabbed a few tentacles of the golden octopus, and crushed it directly.

"ah!"

The terrifying pain made the golden octopus scream immediately.

But Ye Feng turned a blind eye and continued to stretch out his golden hand as big as a millstone towards the head of the golden octopus, as if he wanted to crush the octopus' head directly and completely obliterate it.

Chapter 4865 The Power of Buddha

For Ye Feng, killing this kind of little monster is just a casual matter, and Ye Feng has no fluctuation in his heart at all.

But at this time, the big golden octopus felt the shadow of death, and immediately screamed in horror: "Sir, please spare my life, please spare my life! The little demon knew that he was wrong, and the little demon should not hesitate. The little demon opened his mind now, Let the spiritual imprint of the adult enter the spirit of the little demon."

After finishing speaking, a piece of spiritual light appeared above the head of the big golden octopus.

Its soul was revealed, and it turned out to be a little girl that looked a bit like golden light. Unexpectedly, it turned out to be a female octopus.

Ye Feng nodded slightly. Since the other party begged for mercy and sincerely allowed him to take control, there was no need for Ye Feng to kill it.

So at this time, Ye Feng nodded and engraved his own spiritual mark on the light of the soul of this little girl who looked like a big golden octopus.

Buzz!

At this moment, Ye Feng immediately felt that he had complete control over the entire golden octopus. He could decide the life or death of the other party in a single thought, and the other party could never betray him.

So at this time, Ye Feng's murderous intent immediately turned into a warm smile, and he said, "You should stay with me from now on." .???.??

Ye Feng spoke in a very harmonious tone, completely different from the boiling murderous intent just now.

The changes and contrasts before and after made the golden octopus even more afraid of Ye Feng's moodiness, and he did not dare to have any betrayal in his heart.

The big golden octopus said quickly and respectfully: "Thank you, sir, for sparing your life. From now on, the little demon will loyally serve by your side."

At this moment, the golden octopus had no choice but to follow Ye Feng completely.

At this time, Ye Feng was too lazy to talk nonsense. He looked directly at the mud under the mountain spring water and asked aloud: "What is the treasure buried under this mountain spring water? The energy emanating makes it... The entire mountain spring water is emitting a faint golden light, and it has allowed you to transform a small octopus into such a powerful monster. It seems that this magic weapon is very powerful. Do you know what this magic weapon is? "

leaf

Feng was naturally very curious at this time, but he did not dare to dig out and check rashly. After all, many ancient treasures were very dangerous.

In the primeval forests of the Hundred Thousand Mountains, countless treasure hunters die every year.

At this time, Ye Feng stared at the big golden octopus in front of him with admiration in his eyes.

Although this big golden octopus calls itself a little demon in front of Ye Feng, in fact, this big golden octopus was able to hurt Ye Feng in the moment of sneak attack. This is enough to show that its strength should not be underestimated. It is at most more powerful than Nine Eyes Dark. Flame Qilin is slightly weaker.

Therefore, Ye Feng was quite surprised that a small octopus could cultivate to this level in just a thousand years.

At this time, the big golden octopus in front of him couldn't help but said: "Tell me, sir, that treasure is a very ancient secret treasure. It fell from the heavens during the war between the gods. It fell to us, the monsters." In the mountain spring water on the interface, I was still a very small octopus at that time, without even basic sanity, but I subconsciously knew that this treasure could allow me to evolve, so I have been lurking here for thousands of years, and I have cultivated to the powerful level I am today. , this magic weapon is called Golden Lotus."

"Golden Lotus?"

When Ye Feng heard the big golden octopus say this, a look of astonishment suddenly appeared in his eyes.

I originally thought that this big golden octopus could name some very powerful treasure, but I didn't expect it to be such an ordinary name.

Ye Feng immediately couldn't help but said: "This magic weapon is actually called Golden Lotus? The name is really too random."

The big golden octopus immediately shook his head and said loudly: "My lord, you don't know something. This golden lotus is not an ordinary lotus. It fell from the top of the world of higher cultivation, the top of the heaven, during the war between the gods. A golden lotus. This golden lotus has a total of eighteen petals. Each lotus petal is engraved with an ancient Buddha. Each Buddha is represented by

It shows different expressions and appearances, so this should be the most precious treasure in Buddhism and Taoism in ancient legends. It is very likely that it was a treasure in the hands of a Buddha who had become a god. During the war between the gods, it fell from the heaven. , so it is very precious, otherwise, it would be impossible to have such a terrifying power of creation. "

"Oh? It's so magical?"

Hearing what the big golden octopus said, Ye Feng's eyes suddenly revealed a look of curiosity and surprise.

Unexpectedly, the origin of this golden lotus is so extraordinary. It is the treasure of the legendary Buddha who has become a god in the heaven. No wonder it has such power of creation and can directly mature a small octopus into a giant octopus in a thousand years. Such a big golden octopus has such great strength.

At this moment, Ye Feng didn't hesitate at all. He couldn't help it anymore and started digging quickly into the underground mud under the mountain spring.

At this time, the big octopus beside him couldn't help but said: "Sir, after all, this golden lotus is a peerless treasure that fell from the body of an ancient Buddha who was suspected to be a god. Therefore, with your current cultivation strength, I am afraid that it cannot be If you approach the

golden lotus, you may be harmed by the power of the Buddha in the golden lotus. After all, the power attributes of the adults are completely different from those of Buddhism. It is very likely that the treasure will be regarded as an enemy and enter an automatic defense and attack state. "

Upon hearing the reminder from the golden octopus, Ye Feng immediately grinned and said, "This is simple."

After finishing speaking, Ye Feng directly used his original power to directly transform his original power into the Buddhist power of the ancient Buddha.

Buzz!

At this moment, Ye Feng's human cultivation power aura was directly transformed into golden Buddha light.

At this moment, Ye Feng clasped his hands together, and a bright golden Buddha light bloomed all over his body, giving people a feeling of sacred Buddhist charm.

"What?"

Seeing this scene, the big golden octopus beside him was stunned.

It knew very clearly that Ye Feng had just dealt with it

At that time, the power released was completely the original power of the human race, and even contained some demonic aura.

But now, Ye Feng suddenly changed in the blink of an eye, from a human demon boy to a monk who was enlightened by the Buddha's light, just like an enlightened monk.

This really made the powerful demon clan, the golden big octopus next to him, feel deeply unbelievable and unbelievable. It was simply shocked to the extreme.

The golden octopus has lived for more than a thousand years, and has never seen an existence as defiant as Ye Feng, who can instantly transform his own power into the attribute power of Buddhism.

When thinking of this, the big golden octopus couldn't help but feel secretly horrified and thinking, could this young human race master be able to transform his power into other power attributes? For example, it can be transformed into a demon power like it.

When he thought of this, the big golden octopus felt deep awe for Ye Feng, an unfathomable human boy.

It knew that it would probably never be able to escape from Ye Feng's grasp for the rest of its life.

At this time, Ye Feng transformed all his power into the power of ancient Buddhism. His whole body was illuminated by the Buddha's light, like a compassionate monk, slowly digging towards the mud under the mountain spring water, digging quickly. Approaching the golden lotus buried deep underground.

Thanks to the reminder from the golden octopus beside him, Ye Feng was able to avoid being accidentally injured by the power of the Buddha in the golden lotus.

Soon Ye Feng dug up the underground mud under the mountain spring water, and sure enough, he saw a lotus standing proudly in the mud, emerging from the mud but not stained, giving people a very sacred feeling.

And Ye Feng also saw that this golden lotus indeed had eighteen petals, and each petal was carved with a pattern of an ancient Buddha who looked like he was crying but not crying, or smiling but not smiling. It looked very magical. But there's something weird about it.

When Ye Feng saw this golden lotus for the first time, he was instantly convinced. The golden octopus was not an exaggeration. This was definitely a rare treasure that could be encountered but not sought. It might have really fallen from heaven. Something from the ancient god-level Buddha.

Chapter 4866 Big Killer

At this time, Ye Feng could no longer suppress his inner desire. His whole body was illuminated by Buddha's light, and he swam directly towards the golden lotus growing under the mountain spring and lake bottom.

Buzz!

When Ye Feng approached this golden lotus, Ye Feng sensed a very ancient and majestic will power of the ancient Buddha from this golden lotus. At this moment, Ye Feng felt that his whole body was filled with excitement. He was enveloped by a terrifying force, as if his entire body was being crushed.

However, such an ancient Buddha's power did not cause any attack on him. Obviously, the golden octopus's reminder just now was very timely, allowing Ye Feng to directly turn his power into the power of the ancient Buddha, so he let this fellow The golden lotus of attribute power does not regard itself as an enemy.

Uh-huh!

At this moment, Ye Feng tried to reach out his hand and directly got the golden lotus.

Boom!

At this moment, thousands of bright golden divine lights suddenly burst out from the golden lotus.

This golden divine light condensed directly on Ye Feng's head to form a huge golden Buddha.

This huge golden Buddha feels like a god in ancient Buddhism, and people can't help but want to worship.

At this time, Ye Feng resisted the feeling of worship and stood very straight, like a spear that could pierce the sky.

At this moment, Ye Feng stared at the phantom of the ancient Buddha's will, and couldn't help but said: "Senior, I am also a Buddhist practitioner. After countless years, I discovered this golden lotus. I don't know what my predecessor is now." Is there a complete fall? If not, the junior can return this golden lotus to the senior. "

At this moment, Ye Feng knew that the shadow of the will of this ancient Buddha head was very terrifying, so he immediately became more tactful in his tone of voice.

After all, a good man never suffers immediate losses.

But at this moment, when Ye Feng finished speaking, the huge golden Buddha was still suspended in the void, just like the ancient Buddha standing there, eyes closed, without any response.

Seeing this scene, Ye Feng's eyes suddenly showed a look of surprise. Then Ye Feng seemed to have thought of something, and his eyes suddenly showed deep ecstasy. He couldn't help but said: "Could it be that the will of this ancient Buddha is empty?" The shadow actually has no spiritual intelligence. The spiritual intelligence has been completely wiped out. This shadow of the will of the ancient Buddha just appears here automatically. The pressure of the force just now is just this ancient shadow. The golden Buddha was emitted unintentionally and was not directed at me at all."

At this time, after Ye Feng figured this out, his face suddenly showed a look of ecstasy.

If such a terrifying golden Buddha in this golden lotus is unconscious, then he can inject his own soul into this golden Buddha, thereby controlling the terrifying power of this golden Buddha contained in this golden lotus.

At this moment, Ye Feng's eyes suddenly showed deep excitement. He quickly separated a soul from his soul and imprinted it directly on the ancient golden Buddha released by the golden lotus not far away. In the mind.

You must know that this golden Buddha is an ownerless thing. Although it is an ancient Buddha composed of energy, it has the power of the ancient Buddha's true body, a terrifying creature that is suspected of being a god.

Therefore, if Ye Feng controls the ancient Buddha's true form hidden in this golden lotus, then Ye Feng's overall strength will be greatly improved.

This is tantamount to a big killer weapon, after all, it fell from the legendary heaven.

And this time

, the big golden octopus next to him saw Ye Feng casually separate a soul from his soul and imprint it on the ancient golden Buddha. His eyes suddenly widened and he couldn't help but exclaimed.

Said: "Even an extremely powerful super demon would not dare to separate a part of his soul and imprint it on other soul bodies. Lord Ye Feng is really magical and terrifying, so casually He took out a soul body from his own soul and entered it into other soul bodies. It's really incredible."

Obviously, this big golden octopus was amazed by Ye Feng's random methods.

But it was shocking for a reason.

After all, no matter how powerful a being is, his soul is still very fragile.

If you separate a soul body, your own soul will suffer huge damage.

But Ye Feng can separate a soul from his soul at will, because Ye Feng is originally a soul master, and his soul power level is very high and his soul power is very huge.

Let alone one soul, even if there are more than a dozen souls, it is estimated that Ye Feng can handle it.

At this time, as Ye Feng imprinted his soul on the ancient Buddha's true body released from the golden lotus, at this moment, the Buddha, who had his eyes closed, suddenly opened his eyes. Two eyes as big as lanterns shone with golden Buddha light, full of wisdom.

Obviously, this ancient Buddha's true form, whose spiritual intelligence was wiped out, now has wisdom again. Of course, this wisdom was given by Ye Feng, which makes the golden Buddha more aggressive.

At this time, Ye Feng could feel that after taking control of the golden Buddha's true body, he could sense that the entire golden Buddha's body contained endless Buddhist power and had terrifying destructive power.

\u003c

br\u003e At this moment, Ye Feng even had the urge to abandon his own body and directly use this golden Buddha's true body as his first body.

After all, the power contained in this golden Buddha's true body is so majestic and terrifying.

But Ye Feng quickly suppressed this crazy idea.

Although the current golden Buddha's true body is much more powerful than his original body, there is no possibility for this golden Buddha's true body to continue to progress after all. It is the ancient golden Buddha's energy true body bred from the golden lotus, although it is indeed very powerful now. , but it is limited to this level.

And Ye Feng's body is Ye Feng's own original body, not to mention it is fused with the immortal bones of an immortal god. Therefore, as long as Ye Feng continues to work hard, the power of his own body will surpass this sooner or later. The incomparably powerful golden Buddha's true body has unlimited future potential.

So Ye Feng returned his main consciousness to his original body at this time, then put the golden Buddha's true body into the golden lotus, and then put the golden lotus into his body, so that he could release his power at any time to attack the enemy.

At this moment, Ye Feng's eyes were filled with deep excitement.

This time I was flying and searching in this hundred thousand mountain. I didn't expect to find such a precious thing so quickly. Among the super treasures from the ancient Buddha in the heaven, a golden Buddha's true body was also conceived, with overwhelming power.

Ye Feng had a huge harvest this time.

At this moment, Ye Feng suddenly looked at the big golden octopus beside him and said loudly: "You have lived here for nearly a thousand years, so you should be very familiar with the surroundings. This mountain of 100,000 people has been growing in recent times. , did you have any impression that a peerless strong man who was seriously injured suddenly appeared and was the old patriarch of the Sun God Clan? "

Chapter 4867 Hiding Place

"A severely injured, extremely powerful man from the Sun God Clan?"

Hearing Ye Feng's question at this moment, the eyes of the golden octopus suddenly showed a hint of thinking, and then he couldn't help but suddenly seemed to think of something, and said loudly: "By the way, Lord Ye Feng, you Having said that, I have a bit of an impression. Just half a month

ago, a figure with a very terrifying aura, but feeling very panicked, was the aura of the Golden Crow clan, which is what Lord Ye Feng calls the Sun God Clan. The Sun God Clan is originally The descendants of the Golden Crow beast, so the Sun God Clan can also be called the Golden Crow Clan. I remember that the figure full of the aura of the Golden Crow Clan flew from the entrance of Shiwanda Mountain, and it seemed that it had indeed passed through the mountain spring place where I lived. , but I don't know if that terrifying existence is the old patriarch of the Sun God Clan you mentioned, Lord Ye Feng, because that figure was very panicked and seemed to have been severely injured, but the aura power was still very terrifying, and I didn't dare at all. Peeping, for fear of attracting horrific murderous intent. "

Hearing what the golden octopus said, Ye Feng's eyes immediately lit up.

The big golden octopus said this, and the figure it encountered was almost certainly the old patriarch of the Sun God Clan who was seriously injured and escaped here.

Ye Feng immediately nodded and said, "It should be the old patriarch of the Sun God Clan I mentioned."

At this time, the big golden octopus couldn't help but look at the deeper area of the Shiwanda Mountain not far away, and said loudly: "He should have entered the deepest part of the Shiwanda Mountain. The monsters are dancing around with that power, and they are still alive." Abyss Troll, so I dare not enter that area, but I am sure that the old patriarch of the Sun God Clan you mentioned, Mr. Ye Feng, must have entered the deepest area of Shiwanda Mountain, but I am very surprised that since he has suffered heavy losses , why did you enter the deepest and most dangerous place in Shiwanda Mountain?"

At this time, Ye Feng smiled and said: "The old patriarch of the Sun God Clan has cultivated his skills and participated in creation. He is one of the most powerful creatures in the wilderness. Although he has suffered heavy losses, his strength is still very terrifying. , ordinary demons can't hurt him at all. He placed his retreat and recovery place in the dangerous area at the deepest part of Shiwanda Mountain. This can prevent other people from disturbing him, and it can also prevent enemies like me from smelling him. Taste, chase him."

Hearing what Ye Feng said, the golden big octopus couldn't help but said in horror: "There is a life-and-death hatred between Lord Ye Feng and the old patriarch of the Sun God Clan. It's really incredible. After all, Lord Ye Feng Although his cultivation is indeed quite powerful, it is still far behind compared to top figures like the old patriarch of the Sun God Clan."

Hearing what the golden octopus said, Ye Feng smiled slightly and said: "Yes, I have a life-and-death hatred with the old patriarch of the Sun God Clan, but this does not mean that I am much weaker than him. Although I am now My own strength is not very strong, but I know how to use unparalleled external forces to help myself. Guess, the old patriarch of the Sun God Clan, a top figure in the wilderness, was suddenly seriously injured and escaped here, deep into the depths of the Hundred Thousand Mountains. , recovering in seclusion, who do you think dared to do this to him, and who could hurt him so seriously? "

"It's you!"

At this moment, after hearing Ye Feng's words, the golden octopus reacted immediately, widened his eyes and stared at Ye Feng in front of him, and a panic surged in his heart.

He never thought that Ye Feng would be so terrifying

, with such a weak cultivation level, being able to severely injure a top figure in the wilderness, such as the old patriarch of the Sun God Clan, is really incredible, and even a bit unbelievable.

After all, the gap between Ye Feng's cultivation and the old patriarch of the Sun God Clan is really big.

Moreover, the golden octopus knew that this incident happened half a month ago. Ye Feng's cultivation level half a month ago was definitely not as powerful as it is now.

It can be seen that Ye Feng's various methods are extremely powerful.

At this moment, the golden octopus was naturally more loyal to Ye Feng.

He knew that he must not betray Ye Feng, otherwise, he would be instantly wiped out by Ye Feng using various means.

At this time, the big golden octopus couldn't help but asked: "Master Ye Feng, are you going directly to the deepest area of Shiwan Mountain now? Demons are rampant there, it is very dangerous and terrifying, I don't want to Dare to go to that place."

Ye Feng smiled and said: "Now that I know the hiding place of the old patriarch of the Sun God Clan, I naturally have to check it out, because I came to the Hundred Thousand Mountains area this time just to find the Sun God Clan. The old patriarch of the Sun God Clan secretly arranged a secret formation outside his retreat place to isolate all the atmosphere from the outside world. In this case, as long as the old patriarch of the Sun God Clan does not leave the seclusion on his own, no one can discover him, because the Sun God Clan The other elders seem to be looking for their ancestors of the Sun God Clan in the Shiwan Mountains."

Hearing what Ye Feng said, the golden octopus was naturally shocked to the extreme.

I didn't expect that Ye Feng, who looked like an ordinary young man, turned out to be a terrifying guy who could turn his hands into clouds and rain. He actually wanted to cause trouble among the top overlord race in the wilderness like the Sun God Clan. It was really shocking. audacious in the extreme.

At this moment, the golden octopus did not dare to say anything or disobey Ye Feng's order. After all, the golden octopus hesitated in front of Ye Feng before and was almost killed by Ye Feng. Therefore, the golden octopus did not dare to say anything or disobey Ye Feng's order. Octopus naturally listens to Ye Feng completely now.

Even though the deep area of the Hundred Thousand Mountains was very dangerous, the golden octopus did not dare to say anything. Instead, he led Ye Feng directly towards the deepest area of the Hundred Thousand Mountains and quickly rushed towards it.

At this moment, Ye Feng looked at the big golden octopus leading the way, with a hint of joy in his eyes.

Unexpectedly, I was very lucky this time. I accidentally encountered such a huge opportunity, and I also found clues to the discovery of the old patriarch of the Sun God Clan who was in retreat. It was a full harvest.

It is estimated that those old powerful men of the Sun God Clan who were also looking for the old patriarch of the Sun God Clan in the vast wild jungle of Shiwan Mountain would never have thought that the old patriarch of the Sun God Clan would actually enter the Hundred Thousand Mountains when he was seriously injured. Retreat in the most dangerous area in the deepest part of the mountain to regain your strength.

Ye Feng must reach the deepest area of Shiwan Mountain before these elders of the Sun God Clan and find the retreat place of the old patriarch of the Sun God Clan. Only in this way can he perfectly disguise the lie that the old patriarch of the Sun God Clan has died.

At this moment, Ye Feng naturally followed the golden octopus and rushed towards the deepest dangerous area of Shiwan Mountain with all his strength, without wasting any more unnecessary time.

Chapter 4868 Feng Shui Land

The golden big octopus and Ye Feng were very fast. In less than half a day, they had passed through most of the Shiwanda Mountain and finally reached the depths of the Shiwanda Mountain.

At this moment, the big golden octopus pointed in a certain direction not far away and said loudly: "Master Ye Feng, the mountains there are the most dangerous areas in the deepest part of our Shiwan Mountain. The demons are dancing wildly in them, very... It's extremely dangerous and terrifying, even if Lord Ye Feng has many methods, it's still very dangerous to enter the deep area of the Hundred Thousand Mountains."

Ye Feng nodded at this time, smiled and said: "Let's go, let's go together."

Although the golden octopus was a little afraid, since Ye Feng ordered it to do this, it did not dare to say anything. It could only follow Ye Feng and walked into the most dangerous tenth place in front of it. The deep area of Wanda Mountain.

Buzz!

At this moment, Ye Feng didn't hesitate at all, and immediately emitted his soul power, covering the surrounding area.

This is a very dangerous place, with demons dancing wildly, so in order to prevent the sudden and terrible danger to his life, Ye Feng naturally has to cover himself with huge soul power to prevent dangerous situations from happening at any time. Able to respond promptly.

At this time, Ye Feng, with the big golden octopus beside him, had just entered the deep area of the Hundred Thousand Mountains. Sure enough, he felt a very terrifying aura in an instant, surging in the wind and clouds, giving people the feeling of being here. In a wild forest, there are very terrifying demons living everywhere. They may suddenly jump out of the darkness or underground at any time and choose people to eat.

At this moment, Ye Feng looked at the big golden octopus beside him and said loudly: "Next, I will secretly find the place where the old patriarch of the Sun God Clan retreats to recover from his injuries. You can stay in my storage ring for the time being. In the space, just in case your demon aura attracts the attention of the old patriarch of the Sun God Clan."

Hearing what Ye Feng said, the big golden octopus naturally wanted it, and it quickly flew into Ye Feng's storage ring space.

The moment the big golden octopus flew in, he couldn't help but scream.

: "Master Ye Feng, why is there such a terrifying black flame phoenix in your storage ring space? It seems to be sleeping."

Ye Feng nodded, looked at the big golden octopus in his storage ring space, and said loudly: "You can stay in a corner of my storage space with peace of mind, and don't disturb this Black Flame Phoenix. This Black Flame Phoenix has always been there." It's in a deep sleep, and I don't dare to wake it up, for fear of losing control."

Hearing what Ye Feng said, the big golden octopus immediately nodded in fear. Its entire huge body shrank into a corner of the storage ring space, not daring to provoke the black flame phoenix.

Although this golden octopus is quite powerful in cultivation and is a very powerful demon beast, but compared with the descendants of ancient mythical beasts such as the Black Flame Phoenix, and compared with the Black Flame Phoenix that was genetically mutated, the golden octopus It seems much weaker.

So at this time, the golden octopus naturally did not dare to get even remotely close to the black flame phoenix.

At this time, Ye Feng withdrew his mind from the storage ring, then released his soul power and concentrated on covering the surroundings, hoping to find the aura of the old patriarch of the Sun God Clan as soon as possible.

Sure enough, the hard work paid off. Ye Feng's extremely powerful soul power gave Ye Feng a very sensitive perception, so Ye Feng captured a trace of the Sun God Clan's aura in less than a moment.

This aura of the Sun God Clan must be the aura left behind by the old patriarch of the Sun God Clan who was seriously injured and escaped here.

Unexpectedly, it has not dispersed for more than half a month.

But this is also very normal.

After all, the old patriarch of the Sun God Clan is one of the most powerful people in the wilderness. His aura remains between heaven and earth. It may not completely dissipate for several years, let alone half a month.

Sure enough, at this time, Ye Feng caught a glimpse of

The aura of the Golden Crow emanates from the old patriarch of the Sun God Clan.

So at this moment, Ye Feng was naturally very excited, and quickly followed the Golden Crow aura in a certain direction.

With this golden crow aura that Ye Feng sensed from the old patriarch of the Sun God Clan, it would be much easier for Ye Feng to find the place where the old patriarch of the Sun God Clan is currently retreating.

Just follow the trace of this breath to find the source.

Uh-huh! Uh-huh! Uh-huh!

Ye Feng flew quickly at this time, and finally reached the deepest place in this dangerous place.

There are dozens of towering mountains here, overlapping each other. Each mountain is tens of thousands of meters tall, piercing the clouds and reaching into the sky, giving people a very majestic and vast feeling.

Ye Feng's eyes showed a look of surprise at this time, because Ye Feng discovered that he followed this ray of the Golden Crow clan's aura emanating from the old patriarch of the Sun God Clan, and ended up in a tomb. .??.

Ye Feng's eyes suddenly revealed a look of deep astonishment.

At this time, the dozens of mountains in front of Ye Feng, and the overlapping mountains and rivers formed a general trend. It was a very suitable Feng Shui place for the tomb.

Uh-huh!

Ye Feng flew high into the sky and could instantly see dozens of mountains overlapping each other like a dragon wagging its tail.

The core point is where the dragon's tail swings.

There, Ye Feng saw a huge stone monument.

There are no words on the stone tablet.

But Ye Feng knew that this must be the tombstone of an ancient powerful man.

Ye Feng never expected that when he traced the aura of the Golden Crow clan, the old patriarch of the Sun God Clan, he would end up in such a rare Feng Shui burial place composed of dozens of mountains.

Ye Feng couldn't help but have a look of deep surprise in his eyes. Could it be that the old patriarch of the Sun God Clan, when he was looking for a retreat place, accidentally came across the tomb of such a rare ancient powerful man? He is here. Do you want to practice in seclusion amidst the feng shui protection of mountains and rivers?

At this time, Ye Feng felt more and more that this was very possible.

At this moment, Ye Feng also had a crazy idea in his heart. If the ancestor of the Sun God Clan really practiced in seclusion and recovered from his injuries, then it would give him a huge opportunity to take advantage of this opportunity. The rare feng shui power of the mountains and rivers completely killed the old patriarch of the Sun God Clan who was practicing in seclusion. There was no need to go to great lengths to set up a formation to hide the retreat place of the old

patriarch of the Sun God Clan. He just took advantage of the feng shui power of the mountains and rivers. , kill it.

However, Ye Feng was also hesitating in his heart. The old patriarch of the Sun God Clan had suffered huge injuries from the Feng Shui power of the mountains and rivers before and had already suffered a loss. This time, he may not necessarily practice in the mountains and rivers.

But no matter what, Ye Feng wanted to search first to see if the old patriarch of the Sun God Clan was practicing in seclusion in this rare mountain.

After all, Ye Feng can see the general trend of Feng Shui here as soon as he comes here, which is very good.

But the old patriarch of the Sun God Clan has never practiced the secret technique of Feng Shui. Maybe he can't see the ingenuity here at all, and he doesn't know that the dozens of mountains here overlap together, which is a special Feng Shui trend of a dragon wagging its tail. s position.

Ye Feng decided to find out first whether the old patriarch of the Sun God Clan was retreating here.

If he finds it, Ye Feng is going to go crazy and use the power of the mountains and rivers here to deal with the old patriarch of the Sun God Clan again and try to kill him directly.

If the old patriarch of the Sun God Clan didn't retreat here, he wouldn't be able to find him. Ye Feng was ready to take the risk and go to the tomb of the mysterious ancient strongman guarded by the feng shui of the mountains and rivers to see if he could find any great luck.

Chapter 4869 One step ahead

At this time, Ye Feng made a decision in his heart and plunged directly into the protection of this landscape composed of countless mountains.

Buzz!

At this moment, Ye Feng immediately felt it. Sure enough, all the mountains in the world were faintly connected together, forming a special power.

This is the power of Feng Shui's general trend, which is enough to kill the gods and shatter the world. However, as long as no one breaks in randomly, the power of Feng Shui's general trend will not explode casually.

The moment Ye Feng used his Feng Shui skills to enter safely, he immediately saw that in the center surrounded by dozens of mountains not far ahead, there was a huge stone monument, similar to what he saw in the sky. The stone tablet is exactly the same.

Ye Feng immediately understood that the stone tablet he saw in the sky was among the mountains.

Sure enough, this is the burial place of an ancient mysterious powerful man. I don't know who was buried here. He has probably been isolated from the world for countless years.

Ye Feng wondered if the old patriarch of the Sun God Clan had discovered the secrets here after he came here.

Originally, Ye Feng thought that it was impossible for the other party to discover the secrets here. After all, he was the only one who could practice the secret technique of Feng Shui to see through everything here.

But Ye Feng suddenly thought again, the old patriarch of the Sun God Clan, whose cultivation is very terrifying, and the top big shots in the wilderness should be able to understand this even if they have not practiced the secret art of Feng Shui. The terrain is different from other places.

So at this time, Ye Feng knew that this matter had created a kind of uncertainty, and what he judged was not necessarily accurate.

Perhaps the leader of the Sun God Clan is not as unbearable as he imagined, but may have entered the ancient tomb of that mysterious powerhouse, found a chance to create a fortune, and completely restored his cultivation. All this is possible.

If this is really the case, then Ye Feng must

You have to leave here immediately. After all, it is absolutely impossible to kill an old patriarch of the Sun God Clan who is at his peak, a top big shot, even if he uses the power of the surrounding mountains and rivers.

Only when the opponent is seriously injured and you use the majestic power of heaven and earth to take advantage of the surrounding Feng Shui general trend, can you possibly kill him.

After all, the feng shui here is still a lot worse than the feng shui of the mountains and rivers of the Great Wilderness Lord that Ye Feng entered before.

You must know that when Ye Feng took Qilin into the tomb of the Lord of the Wilderness, there were really ninety-nine and eighty-one mountains around it, forming the ultimate Feng Shui power. That's why Ye Feng was able to use the surrounding Feng Shui power to create The extremely terrifying majestic power of heaven and earth severely wounded the old patriarch of the Sun God Clan.

However, although the general feng shui of the mountains and rivers here is very good, it is still a little weaker than the feng shui formed by the ninety-nine and eighty-one mountains.

There are just dozens of mountains connected together to form a dragon wagging its tail, which is not as good as the dragon-veined emperor Feng Shui formed by the ninety-nine and eighty-one mountains.

So at this time, Ye Feng secretly thought in his heart that he immediately began to emit soul power and cover the surroundings to prevent the old patriarch of the Sun God Clan from suddenly appearing to kill him.

However, Ye Feng's worries seemed to be unnecessary. After Ye Feng searched all the surrounding mountains, he did not find any trace of the old patriarch of the Sun God Clan.

The aura of the Golden Crow that Ye Feng had captured before suddenly disappeared here.

Ye Feng suddenly had doubts in his heart.

Could it be that the old patriarch of the Sun God Clan knew how powerful the Feng Shui situation was here and didn't dare to enter it?

, so he directly chose another place to retreat, and he didn't discover the secret of the ancient tombs in the mountains and rivers?

Ye Feng thought secretly in his heart, and then he no longer hesitated and flew directly towards the entrance of the ancient tomb surrounded by mountains and rivers.

Since the aura of the old patriarch of the Sun God Clan has not been found, it would be a good time to explore the ancient tomb of this mysterious and powerful man, and maybe we can get a huge chance.

After all, the mysterious and powerful man who had the ability to bury himself in the deepest part of the Hundred Thousand Mountains must have been extraordinary back then. His ancient tomb must have left behind a lot of good fortune and wealth.

Uh-huh!

At this moment, Ye Feng immediately flew towards the middle area of the mountains and rivers.

When Ye Feng finally arrived at the central area, he saw a huge tombstone standing there with no words on it. It seemed to be an unnamed monument, so Ye Feng didn't know who the owner of this tomb was. What a sacred place it is. .??.

At this moment, Ye Feng saw that behind the tombstone, a huge hole appeared on the ground.

"this....."

Ye Feng's eyes immediately showed shock, and he couldn't help but said: "This tomb has been dug up!"

Ye Feng immediately felt extremely regretful. It seemed that someone had already been one step ahead of him, and had seen through the mystery of the mountains and rivers here. He had arrived at the entrance of this ancient tomb, dug up this ancient tomb, and entered it.

"Could it be the old patriarch of the Sun God Clan who dug up the tomb?"

Ye Feng felt a little confused.

But no matter what, since he has come, Ye Feng naturally wants to go down and take a look, maybe the other party has missed something.

After all it's not

Everyone is like himself, able to possess soul power and able to explore all opportunities and creations.

Maybe there was an opportunity that was missed, and I missed it.

At this moment, Ye Feng jumped directly into the entrance hole of the tomb in front of him with the mentality of coming here.

Uh-huh!

Almost at this moment, Ye Feng fell quickly.

When Ye Feng arrived at the bottom of the cave entrance, he immediately saw the entire underground space of the tomb, which was very huge.

A series of stone paths connect the underground tombs, giving people the feeling of an underground maze.

Ye Feng saw that there were many traces of fighting around him, and many ancient buildings in the tombs were smashed to pieces.

It seems that a terrible battle broke out here.

However, Ye Feng did not find that the aura of the Golden Crow remained in the fighting aura. It seemed that the old patriarch of the Sun God Clan did not come here. Ye Feng couldn't help but breathe a sigh of relief. The worst case scenario he guessed did not happen. occur.

However, Ye Feng looked at the mess around him and understood that there were many dangers in this tomb, but someone came one step ahead and cleared the obstacles along the way.

Ye Feng felt at ease and continued to walk quickly towards the depths of the underground chamber of this ancient tomb.

Of course, on the way to the deepest place, Ye Feng also exudes soul power. Every time he reaches a tomb, Ye Feng will cover the entire tomb with his soul power, searching inch by inch, trying not to let go of anyone who has been killed by others. Missing opportunities.

After all, everyone was the first to get there, and they arrived here one step ahead. It was useless to do anything now. All they could do was calm down, maintain a stable mentality, and search intently to see if there were any good things that they had missed.

Chapter 4870 Golden Seed

Ye Feng did not explore the tomb very fast this time, because Ye Feng did not want to miss any good things left behind.

Therefore, every time Ye Feng enters a tomb, he can exude soul power and explore every inch of space and land in the entire tomb, or see if there are any mechanisms or the like.

After all, this time he was the first to enter the tomb of this ancient powerful man. Although it was a pity, Ye Feng felt much more relaxed and was not afraid of any sudden dangers along the way.

Because if there is danger, the person who gets there first will definitely be the first to suffer the danger.

So this time Ye Feng entered the ancient tomb of this mysterious powerhouse, he didn't feel any danger, but instead felt like a relaxed and happy tourist.

At this time, after Ye Feng entered the fourth tomb, he suddenly sensed that there seemed to be some energy fluctuations in a statue in the upper left corner of the fourth tomb.

This statue is an ancient monster statue, and most of it has been broken into pieces.

It is estimated that a very fierce battle broke out here at that time, but there was no corpse left behind, so Ye Feng didn't know the identity of the group of people who arrived here first.

In other words, there may be only one person entering this ancient tomb, so if he didn't die, there would be no body left behind.

Ye Feng was not sure whether a group of people came here or a person.

In any case, Ye Feng found a special energy fluctuation in the statue in the fourth tomb, and immediately walked over.

Most of this statue has been broken, probably during the battle.

But it is estimated that the battle was too fierce, so those who arrived first did not have time to take away all the items in the tomb, so this half-broken sculpture was left behind.

After all, Ye Feng found every tomb in the previous tombs was empty, which meant that those who entered this tomb put almost everything into the storage ring and took it all away. Not a single root hair remains.

However, in the fourth tomb, Ye Feng found this broken sculpture. Maybe it was because the battle was too fierce at that time, so he missed it.

At this moment, Ye Feng walked up to the broken sculpture and carefully examined it, discovering that the trace of energy fluctuations came from the inner area of the sculpture.

Ye Feng reached out his hand at this moment and slowly crushed the sculpture.

Ye Feng didn't dare to smash it directly for fear of destroying the good things that might be contained in it.

So Ye Feng slowly peeled off the sculpture from the surface to the inside, just like peeling the skin of a fruit.

Ye Feng immediately discovered a surprising scene the next moment.

I saw that what existed inside this sculpture turned out to be a millet grain shining with golden light.

Then Ye Feng sensed it carefully and found that this thing that looked like millet grains not only contained very unusual energy fluctuations, but also exuded a very majestic life energy.

This made Ye Feng's eyes suddenly show a look of surprise, and he couldn't help but exclaimed: "Could this be a seed that is still alive, right?"

Ye Feng knew very well that the seeds of some ancient sacred trees were very extraordinary and very precious. If they were obtained, they might be able to plant the legendary rare fruits with special energy from ancient times.

Ye Feng saw this

The golden seed sealed in this sculpture suddenly showed a look of interest in its eyes.

I don't know what kind of fruit it will bear after this seed is planted and finally germinates.

In his mind, Emperor Chu, who had not spoken for a long time, was suddenly startled by this golden seed. He couldn't help but said aloud in his mind: "Ye Feng, what did you find? I felt a very strange feeling. fluctuations of life energy."

Ye Feng immediately couldn't help but said: "Emperor Chu, I found a golden seed from an ancient sculpture in an ancient tomb, but I don't know what kind of existence this golden seed is, and I don't know if it can be planted. What kind of ancient spiritual tree can be produced? But this small golden seed was hidden in this statue by people in the ancient times. Moreover, this statue also has the function of isolating spiritual thoughts. If it weren't for me The soul power is so strong that this faint energy fluctuation cannot be detected. The ancients tried so hard to hide this golden seed, so I guess this golden seed is very extraordinary. "

Hearing what Ye Feng said, Emperor Chu immediately nodded in his mind and said: "This golden seed is indeed very extraordinary. I sensed a very familiar energy wave from it, which may be related to my origin."

"What?"

Hearing what Emperor Chu said, Ye Feng's eyes suddenly revealed a look of deep astonishment.

Ye Feng never thought that the golden seed sealed in the broken sculpture of the ancient tomb of this mysterious powerful man that he accidentally encountered was related to the origin of Emperor Chu.

Ye Feng knew very well that Emperor Chu might not have originated from the world where the great world is located, but from a higher spiritual dimension.

It is very likely that it comes from the end of the world in the origin world,

The connected extraterrestrial world.

That is, the extraterrestrial world where his father and mother finally disappeared in order to find the ancestor of the Ye family, the Hongmeng ancestor.

Moreover, Ye Feng knew very well that Emperor Chu was a very remarkable ancient figure. Even in the extraterritorial world where Emperor Chu came from, Emperor Chu was definitely an extremely terrifying existence.

So at this time, Ye Feng suddenly realized that the golden seeds sealed in the sculpture he accidentally encountered might be related to the outside world.

Could it be the seed of a very precious high-level magic or magical medicine in the outside world?

Can a very rare miracle cure be grown?

At this moment, Ye Feng's eyes suddenly showed a rather expectant look.

Emperor Chu said aloud: "If you have time, Ye Feng, you can find a special place and use some very high-grade special soil to see what kind of existence this golden seed can grow and germinate. Then we will Just know what kind of seed it is."

Hearing what Emperor Chu said, Ye Feng immediately nodded and said loudly: "The Sun God Clan where the Sun Goddess belongs, as the first overlord race in the wilderness, must have places dedicated to growing elixirs. In those medicine fields The soil is definitely a very special soil from ancient times. It has divinity and special power. It can cultivate many high-level elixirs, and it may be able to make this golden seed germinate. "

When Ye Feng said this, he solemnly put the golden seed into the storage ring, preparing to plant it when he returned to the Sun God Clan and see what kind of things could grow.

After all, this is a golden seed that even the Emperor of Chu attaches great importance to. It must be very extraordinary. Maybe he can actually grow a unique medicinal plant!
