

## Ancient 4901

Chapter 4901 Bronze Bell

Buzz!

At this moment, Ye Feng ignored the doubts and disdain from everyone present, but walked firmly into the Hundred Demons Holy Tower in front of him.

For Ye Feng, other people's comments will automatically disintegrate the rumors when he shows his strong strength, and there is no need for him to explain anything.

The moment Ye Feng stepped into the Hundred Demons Holy Tower in front of him, the first layer of the Hundred Demons Holy Tower in front of him was immediately revealed in front of his eyes.

I saw ancient weapons hanging everywhere on the first floor of the Hundred Demons Holy Tower. .??.

Seeing this scene, Ye Feng suddenly showed a look of surprise in his eyes, and couldn't help but murmured to himself, "Could it be that the first floor of the Hundred Demons Holy Tower is not a test floor, but a special place for... How many weapons are there for people to choose from? "

Ye Feng's eyes were filled with surprise, but then he stopped being polite, rubbed his hands, and walked expectantly towards the weapons hanging on the first floor, wanting to carefully explore which weapon was the most advanced.

But just at the moment when Ye Feng approached these hanging weapons.

boom!

boom!

Suddenly, the two weapons closest to Ye Feng suddenly erupted into terrifying weapon fluctuations.

They were a golden sword and a huge black iron hammer.

The golden sword burst out with bright sword light. The sword energy stretched across three thousand meters, and directly condensed a huge golden sword light that was three thousand meters long. It was slashing towards Ye Feng, with extremely terrifying metal energy fluctuations. , as if it can cut through everything and cut off the sky.

And in that huge black iron hammer, a soldier soul was actually born. A huge black light giant came out of the black iron hammer, stretched out two mountain-like black fists, and struck towards Ye Feng. , as if it can break mountains and rivers, the destructive power is amazing.

"What a powerful weapon!"

At this moment, Ye Feng immediately understood that the weapons hanging on the first floor were not for people to choose from, but were used to attack intruders.

The test of this first level is to pass through each of these suspended weapons, resist the power erupted by these weapons, and successfully enter the second level.

Ye Feng had just entered the first level when he was attacked by two super weapons.

"boom!"

But when the power of these two weapons hit Ye Feng, there was only a huge roar, and even Ye Feng's body could not be damaged at all.

The golden sword's three-thousand-meter-long sword struck the top of Ye Feng's head. It just made a "dang" sound, just like it struck a copper wall. It did not damage Ye Feng's skin at all, and even Ye Feng's skin was not damaged at all. Not a single hair of the wind can be cut off.

The moment the black hammer's weapon soul attacked Ye Feng, it had no effect. Not to mention hurting Ye Feng, it couldn't even stop Ye Feng's steps.

At this time, Ye Feng did not fight back at all and directly withstood the attacks of these weapons.

Because Ye Feng now has great confidence in his body strength.

Ye Feng's Immortal Body of God has entered the first level of the new sixth stage.

Therefore, Ye Feng's physical strength can be said to be very terrifying and extremely strong.

Ye Feng stood there, absolutely like a robot made of the strongest steel in the world, indestructible, and nothing could destroy Ye Feng's terrifying steel body!

"What a strong physical strength!"

At this moment, the guardian of the holy tower who had looked down on Ye Feng before was actually observing in secret. Seeing Ye Feng shouldering the damage of those high-level weapons, his eyes suddenly showed surprise, "This kid's body, Is it really a human body? Why does it feel stronger than the body of the descendant of the divine beast in our wilderness?"

At this time, Ye Feng continued to walk forward firmly without any hesitation.

boom! boom! boom.....

At this moment, more weapons were activated, including swords, guns, swords and halberds, axes, hooks and forks, as well as special magic weapons such as purple gold and copper hammers, golden scissors, the Great Wilderness Black Tower, etc., were activated, and the power of the weapons was bombarded crazily. On Ye Feng's body.

However, everything is in vain.

Ye Feng didn't need to take action at all. His steel body alone was enough to withstand the damage of these magic weapons.

"Boom!"

At this time, amid the violent attack frenzy of countless weapons, Ye Feng walked steadily towards the entrance from the first floor to the second floor.

As for the weapons that have been attacking Ye Feng, even Ye Feng's body cannot be destroyed, so Ye Feng naturally has no great interest in these low-level weapons.

However, Ye Feng also unintentionally released his soul power while walking, exploring some powerful weapons that might appear around him.

After all, Ye Feng entered the Hundred Demons Holy Tower not only to pass the test, but more importantly, to gain enough benefits and opportunities from the Hundred Demons Holy Tower.

When Ye Feng had just reached the end of the first floor, suddenly a terrifying weapon light struck in front of Ye Feng, making him

Ye Feng couldn't help but release the god's halo, which shed a colorful light and blocked the weapon's attack.

Because the attack of this weapon is the most powerful weapon Ye Feng has ever encountered.

Ye Feng immediately looked not far away at this moment, and immediately discovered a huge bronze bell appearing not far ahead.

This big bronze bell is very old, and there are incomprehensible ancient demon characters engraved on the surface, which seems to be telling something about the past.

Every time the bronze bell rang, the sound wave turned into a weapon attack, which had extremely terrifying destructive power, making Ye Feng unable to resist it.

"What a powerful weapon!"

At this moment, Ye Feng's eyes immediately lit up.

This big bronze bell is definitely the strongest of all the weapons on the first floor.

Uh-huh!

Ye Feng was naturally very interested, and immediately rushed to the bronze bell, wanting to refine it.

After all, for Ye Feng, if he could get this extremely powerful bronze bell weapon, which was also a rare sonic weapon, it would definitely be of huge benefit to Ye Feng's overall strength.

After all, for Ye Feng, this time he came to the Hundred Demons Holy Tower of the Sun God Clan, naturally he wanted to get some benefits, otherwise it would be in vain.

"This big bronze bell is definitely an ancient magic weapon among the demon clan. It can erupt such a terrifying sonic attack without anyone activating it, just vibrating on its own, let alone being refined by someone. It will definitely explode. More power!"

Ye Feng was very much looking forward to it. He stretched out his hand and grabbed the big bronze bell. In an instant, he outputted huge mana and began to forcibly refine the big bronze bell.

Chapter 4902 You are very likely

Buzz!

At this time, Ye Feng frantically forced his powerful magic power into the bronze bell.

This big bronze bell actually appears on the first floor of the Hundred Demons Holy Tower, which shows that this big bronze bell is definitely an ownerless thing, so it is very easy to refine.

Ye Feng frantically stimulated his own power, transforming it into a steady stream of demonic energy, and injected it into the bronze bell.

Because this bronze bell must be the magic weapon of the demon clan, Ye Feng naturally has to convert his own power into the power of the demon clan in order to successfully refine this bronze bell.

At this moment, Ye Feng quickly completely refined and controlled this bronze bell.

At this moment, Ye Feng could immediately feel that this bronze bell contained a very ancient and majestic demon power.

The sonic attack released by the bronze bell just now is just the simplest attack of this magic weapon.

Now that Ye Feng has completely controlled the bronze bell, the power released is definitely many times more terrifying than the sonic attack caused by the vibration of the bronze bell itself.

This made Ye Feng's eyes suddenly brighten, and he couldn't help but murmur, "As I expected, after I completely refined and controlled this bronze bell, the power and ability it unleashed using my magic power, Much more powerful than itself."

At this time, Ye Feng got such a powerful treasure, so he was naturally very happy.

Entering the Ten Thousand Demons Holy Tower this time was indeed a wise choice.

It seems that the Sun Goddess still prefers Ye Feng very much. She knows where is the most suitable place for Ye Feng, so she brought Ye Feng to the Hundred Demons Holy Tower.

At this moment, after Ye Feng got the bronze bell, the next weapons were no longer of any use to him.

Ye Feng quickly arrived at the end area of the first floor, and then walked quickly towards the space of the second floor.

When Ye Feng entered the second floor, Ye Feng immediately looked at

When it arrived, the second level was filled with endless flames.

And this kind of flame is not an ordinary flame, it is the flame of the Golden Crow unique to the Sun God Clan.

The entire second floor was a sea of fire.

Above the sea of fire, there are three golden suns shining.

In other words, the sea of fire on the ground is burning, and there are three suns high in the sky releasing the flames of the Golden Crow, continuously baking the entire second layer of space.

Ye Feng immediately understood that the second level tested the endurance of the challenger.

Only by surviving this sea of fire and withstanding the baking of three full suns in the sky can we enter the third level.

But at this time, Ye Feng felt a little underestimated in his heart. He didn't know why after entering the Hundred Demons Holy Tower, he always felt that the Hundred Demons Holy Tower itself seemed to have an inexplicable attraction.

In other words, Ye Feng feels that the Hundred Demons Holy Tower may not only be a place of trial, but the entire Hundred Demons Holy Tower itself may very well be a powerful magic weapon.

However, Ye Feng felt that even if the Hundred Demons Holy Tower was a powerful magic weapon, it would not be something he could obtain.

After all, this is the sacred object of the entire Sun God Clan, and it is also a holy place in the hearts of countless owners of the entire Sun God Clan.

Ye Feng felt that if he really refined the entire Hundred Demons Holy Tower, the entire Sun God Clan would probably not let him go.

Ye Feng secretly thought, but this was just a guess. It was not certain whether he could reach the last hundred floors of the Hundred Demons Holy Tower.

At this time, Ye Feng took a deep breath and walked quickly towards the second level of space.

Ye Fengfei was above the sea of fire, although Ye Feng knew this

The power of these seas of fire and the three suns high in the sky are very terrifying, but to Ye Feng's current powerful body, it is nothing at all.

Ye Feng's current steel body can not only withstand the penetration and damage of solid objects, but also the baking of the sea of fire and the sun cannot harm Ye Feng's own body.

So at this time, Ye Feng can be said to be strolling in the garden and flying in the second level of space with his hands behind his back.

But just when Ye Feng was flying halfway, his eyes moved slightly.

Because Ye Feng sensed that the three suns in the sky seemed to be transformed by something very powerful.

Ye Feng's eyes suddenly lit up.

Could it be that these three suns are not real suns, but three things?

Uh-huh!

Ye Feng immediately rushed towards the sky, trying to get close to the three suns. .???.??

The higher Ye Feng flew, the more terrifying he felt the power of the sun.

Even in the end, Ye Feng's clothes started to catch fire, but it was unable to harm Ye Feng's body.

Ye Feng's steel body is enough for Ye Feng to withstand the baking of three suns.

When Ye Feng approached these three high-altitude suns, his eyes suddenly froze.

Because Ye Feng saw that these three suns were indeed, as he had guessed, not real suns, but three suns transformed into golden beads emitting golden light.

These three golden beads, Ye Feng guessed, should be very ancient and powerful treasures among the Sun God Clan.

Ye Feng sensed the surging power of the sun from the three golden beads.

Ye Feng knew that these three golden beads should be good things refined by the powerful men of the Sun God Clan. They were specially used to transform the sun and test the level.

By.

Ye Feng looked around and found that no one seemed to be here. This made Ye Feng couldn't help but want to take away the golden beads that turned into three suns. After all, this is a good thing, and it contains If you absorb and swallow the majestic power of the sun's essence, you will definitely be able to increase your power a lot.

But just when Ye Feng was about to snatch away these three golden beads.

Buzz!

Suddenly an old man wearing a white robe appeared in front of Ye Feng.

It was the former guardian of the Holy Tower.

The guardian of the holy tower immediately shook his head and said: "Ye Feng, these three golden sun crystals were left behind by the ancient strong men of our Sun God Clan. They are specially used to transform into three suns. As the second The test items of the second level are different from the weapons of the first level. You cannot take them away directly. If you take them away, the second level test will be of no use to those who come after you. "

Hearing what the guardian of the holy tower said, Ye Feng could only nod helplessly.

In fact, Ye Feng also knew that these three suns were used for the second-level assessment, and it would indeed be inappropriate if he took them away.

In fact, Ye Feng also guessed that the guardian of the holy tower would definitely appear to stop him.

So at this time, Ye Feng didn't say much, just nodded and prepared to leave.

But at this time, the guardian of the holy tower couldn't help but said: "Ye Feng, you make me impressed. I didn't expect that your ability is so strong. The strength of your body is simply terrifying. It is the strongest body I have ever seen." , you, a human, have cultivated to such a powerful body, it is really incredible. There was a legend spread in the Hundred Demons Holy Tower. If anyone can break through all the layers and enter the 100th layer, he will get An unparalleled chance, but no one in our Sun God Clan has accomplished this feat for tens of thousands of years, but I think it is very possible for you."

Chapter 4903 Break through with all your strength

At this time, hearing the words of the Holy Tower Guardian, Ye Feng's eyes suddenly revealed a trace of surprise. It seemed that he did not expect that the Holy Tower Guardian of the Sun God Clan was so hostile to him before. As a result, Now he is praising himself so much.

But Ye Feng also knew that it was probably his various powerful performances that made the guardian of the holy tower look at him with admiration.

Ye Feng just smiled slightly at this time and said aloud: "Thank you for the praise, senior, but I am not sure whether I can get through the entire hundred floors of the Hundred Demons Holy Tower."

At this time, after Ye Feng finished speaking, he left the scene directly.

Looking at Ye Feng's leaving figure, the guardian of the holy tower showed a faint smile in his eyes.

He knew that Ye Feng was just being modest when he said this. He could see that although Ye Feng was quite humble and gentle on the surface, he had a kind of soaring arrogance in his heart.

At this moment, the guardians of the Holy Tower were looking forward to Ye Feng. They wondered whether Ye Feng, this incredible human boy, could break the record of the entire Sun God Clan in the Hundred Demons Holy Tower.

At this moment, Ye Feng left the place where the guardian of the holy tower was, and soon passed through the entire second floor space and entered the third floor.

The space on the third floor was completely white, making it difficult to see the direction.

Ye Feng's eyes moved. It seemed that the third round tested the challenger's grasp of various surrounding situations and judgment of direction. .??.

This is not difficult for Ye Feng at all, because you must know that Ye Feng is a soul master.

Buzz!

At this time, Ye Feng radiated his soul power, and like a radar, he found various roads on the third floor very accurately. He soon came to the last area of the third floor, and entered with almost no obstacles. The fourth floor.

And while Ye Feng was going through the levels one by one, outside the Hundred Demons Holy Tower, many members of the Sun God Clan who were ready to watch the joke had expressions of uncertainty in their eyes.

Because they saw that each level of the Hundred Demons Holy Tower lit up very quickly, which meant that the passers-by were able to break through the levels very quickly.

Because every breaker who enters the Hundred Demons Holy Tower, as long as he enters a new layer, the wall of that layer will emit light, which represents which layer the breaker has broken into.

Therefore, Ye Feng's first, second, third, and fourth floors all started to flicker with light, indicating that Ye Feng was rapidly passing through each floor.

This naturally surprised the members of the Sun God Clan.

Because among them there are many passers-by who have entered the Hundred Demons Holy Tower, and many tribesmen have watched others break into the Hundred Demons Holy Tower many times. Almost no one can break through the barrier faster than Ye Feng.

Many members of the Sun God Clan know that every level of the Hundred Demons Holy Tower is extremely difficult.

Therefore, even for the first level, the test is quite hard-core, and it is impossible for a passer-by to continuously enter higher levels so quickly.

But Ye Feng did it. In just a few minutes, Ye Feng had already broken into the fifth floor.

And as everyone watched, the walls of the sixth, seventh, eighth and ninth floors also began to emit light.

This shows that Ye Feng is rushing through the levels at an incredible speed.

many books

Those who came to watch the show had their mouths wide open at this moment, and their eyes looked shocked and dull.

Some people couldn't help but exclaimed: "How on earth did this Ye Feng do it? How did he break through the level so quickly? In the blink of an eye, he had already reached more than ten levels, and he was still breaking through the level quickly. Is this Ye Feng really a person? An incredible young man from the human race? That's why he was chosen by the patriarch and became the honorary elder of our Sun God Clan."

At this moment, these words made many sarcastic people around who were ready to watch the show and thought that Ye Feng would die tragically in the Hundred Demons Holy Tower, all the sarcasm on their faces disappeared, replaced by a deep look of sadness. Shocking.

The Sun Goddess' face was quite calm at this time, because she knew very well how powerful Ye Feng's qualifications were.

However, she was still a little surprised. She didn't seem to expect Ye Feng to break through the Hundred Demons Holy Tower so quickly.

After all, the Sun Goddess also broke into the Hundred Demons Holy Tower back then. She knew very well that each level of the Hundred Demons Holy Tower was very difficult. Even if she could safely pass the test of each level, she would not be able to do so quickly.

But Ye Feng was simply riding through the levels as fast as a rocket.

In the midst of everyone's discussion, in less than half an hour, Ye Feng had already reached the ninety-first floor.

"this....."

"It's so shocking!"

This almost shocked everyone's eyes.

Because this kind of speed is simply unprecedented, and I'm afraid it will never be seen again. It's really incredible.

Some people couldn't help but said in shock: "Can this Ye Feng really break the highest record of our Sun God Clan? I remember that the highest record of our Sun God Clan was an old man in the clan, who was unparalleled in his glory at that time. Now he has become a powerful person in our Sun God Clan. He once broke into the 97th floor of the Hundred Demons Holy Tower. I wonder if this Ye Feng can do it. "

At this moment, everyone looked at the Hundred Demons Holy Tower with deep anticipation and shock.

Because they really underestimated Ye Feng.

Originally, they thought that Ye Feng would die tragically in the Hundred Demons Holy Tower, but Ye Feng used his strength to slap everyone in the face, letting them know what it means to have people outside the world, and there is a sky outside the world.

At this moment, inside the Hundred Demons Temple, on the 92nd floor, Ye Feng finally entered.

At this time, Ye Feng's expression did not change much, but his face was a little pale. It was obvious that he had broken through the level so quickly just now, which also consumed a lot of Ye Feng's strength.

However, Ye Feng's magic power is powerful enough, so it doesn't have much impact yet.

After Ye Feng entered the 92nd floor of the Hundred Demons Holy Tower at this time, he didn't know that the outside was already boiling because of the speed with which he broke through the level and his entry into such a high level.

Now Ye Feng just wants to see if he can get through the entire hundred floors of the Hundred Demons Holy Tower, so as to get the huge opportunity that the guardian of the Holy Tower said.

Ye Feng knew very well that the solemn words spoken by the guardian of the holy tower were enough to show that if he really broke through the entire hundred levels, he would definitely get rich rewards. Ye Feng was naturally looking forward to it. .

That's why Ye Feng tried his best to break through. He wanted to work hard as soon as possible to break through the 100th floor of the Hundred Demons Holy Tower and see what was hidden on the top of the 100th floor of the Hundred Demons Holy Tower. What was it? This kind of chance made the guardians of the Holy Tower pay so much attention to it. At this time, hearing the words of the Holy Tower Guardian, Ye Feng's eyes suddenly revealed a trace of surprise. #### Chapter 4904 Mist Crisis

At this time, Ye Feng entered the 92nd floor of the Hundred Demons Holy Tower, and immediately saw that the ground on the 92nd floor of the Holy Tower was filled with densely packed sharp knives.

These sharp knives are all silver-white knives. They look very sharp and exude the intimidating Gengjin aura. It seems that as soon as they get close, thousands of knives will be fired in an instant, directly piercing any existence.

Buzz!

At this moment, Ye Feng had just entered the holy tower space on the 92nd floor. The sharp knives stuck on the ground immediately burst out with terrifying knife energy, which had terrifying penetrating power. It was heading towards Ye Feng to assassinate him, seeming to want to pierce Ye Feng's entire body.

At this time, Ye Feng did not hesitate and instantly activated his immortal body.

Buzz!

At this moment, Ye Feng's body suddenly emitted a bright golden light.

Every inch of Ye Feng's body, at this moment, was directly made of pure gold, possessing terrifying sturdiness.

"when!"

"when!"

"when!"

The sharp knives struck Ye Feng's body one by one, unable to pierce Ye Feng's body at all, but made sounds like metal collisions.

Not to mention piercing Ye Feng's body bones, even Ye Feng's skin could not be pierced, and not even a trace could be left behind.

It has to be said that since Ye Feng's transformation into the sixth stage of the Immortal Body of the God, the improvement of his body's power has been a huge leap, and his body has reached an extreme level of strength.

Even these specially crafted sharp knives in the Hundred Demons Holy Tower were unable to harm Ye Feng.

At this time, Ye Feng did not hesitate and directly accelerated his speed, flying quickly towards the end area of the 92nd floor, wanting to enter the 93rd floor as soon as possible.

But the next moment, all the sharp knives on the ground around him flew up.

Clang, clang, clang!

Clang, clang, clang!

A bunch of silver-white sharp knives were all combined together at this moment to form a huge steel sword, with a length of more than 10,000 meters. It instantly killed people from high in the sky, directly Slashing towards Ye Feng's head, it has a very terrifying lethality.

A steel sword of more than 10,000 meters was chopped down from a high altitude on the spot. This scene was really shocking, as if it could split the entire earth in half.

At this moment, even Ye Feng felt a very terrifying sharp energy in an instant, which was about to pierce his head and split his body into pieces.

So at this moment, Ye Feng couldn't remain indifferent. Instead, he instantly burst out with the powerful power of the God's Immortal Body and punched high into the sky.

"boom!!!"

At this moment, Ye Feng's fist turned into pure gold and collided with the 10,000-meter steel sword chopped down from high in the sky. A wave of terror suddenly erupted on the entire field. Incomparable roar.

The next moment, Ye Feng didn't hesitate and punched the 10,000-meter steel sword again.

boom! !

"Crash!"

At this moment, Ye Feng's golden fist burst out with tremendous power, and he suddenly hit the 10,000-meter-long steel sword directly.

It was blasted into countless small sharp knives and scattered all over the ground.

At this time, all the sharp knives on the 92nd floor of the Holy Tower no longer made any changes and no longer attacked Ye Feng.

Obviously, these sharp knives knew that together they could not fight Ye Feng.

Ye Feng smiled slightly at this time and flew directly towards the deepest area of the 92nd floor.

Soon, Ye Feng passed through the stairs on the 92nd floor and entered the 93rd floor of the Holy Tower.

Ye Feng could feel at this time that as he reached the last few floors of the Hundred Demons Holy Tower, the test difficulty of each floor became more and more difficult, making people feel that it was not that simple.

Just like the sharp knives on the 92nd floor, if Ye Feng's body wasn't so powerful, like a body of steel, he might not have been able to withstand the attacks of countless sharp knives all over the sky.

Not to mention that the sharp knives can be combined together to form a steel sword, which has very terrifying power and can cut the sky and the earth, and split the universe.

At this time, Ye Feng recovered a little bit of his energy consumption, and then stepped directly into the ninety-third space.

When Ye Feng entered the 93rd floor, he immediately saw that the Holy Tower space on the 93rd floor was completely covered in white mist, making it difficult to see anything at all.

"Um?"

This made Ye Feng suddenly show a trace of surprise in his eyes.

Could it be that this ninety-third floor tests one's ability to judge the direction?

However, when Ye Feng was in the first few floors of the Hundred Demons Holy Tower, he had encountered this kind of space shrouded in white mist. Through his own soul power, he was quickly able to identify and find the correct direction, and passed That layer.

However, we have reached the ninety-third floor now and are about to pass the level. Why is there still the same test as the previous floor?

"It's not simple. It's definitely not that simple."

Ye Feng looked thoughtful, knowing that the ninety-third space in front of him was definitely not as simple as imagined.

There must be a huge crisis hidden in this fog.

At this moment, Ye Feng exuded his soul power and moved towards the surrounding area, trying to sense possible dangers.

"Um?"

But the moment Ye Feng just released his soul power, Ye Feng immediately noticed something was wrong.

Because Ye Feng discovered that his soul power could not be dispersed into the surrounding foggy space.

These mists are so special that they can detect the soul power and perception of living beings!

In other words, even if Ye Feng is a soul master, in the foggy space on the 93rd floor, his eyesight is completely black. He is just like an ordinary practitioner and cannot use his soul power to detect in advance. Routes and dangers.

"this....."

After discovering this, Ye Feng suddenly showed a look of helplessness in his eyes. It seemed that he could no longer use his soul power to take advantage of the foggy space on the 93rd floor.

"No matter what, always keep moving forward."

However, Ye Fengyi was a brave man and would not back down at this time. Instead, he walked firmly into the foggy space on the 93rd floor in front of him.

At this time, nothing around him could be sensed. Ye Feng could only passively accept any danger that might come and be ready to fight at any time.

Chapter 4905 Find it out

Now that Ye Feng has reached the ninety-third floor, he must continue to move forward. He can't just quit midway. It would be such a loss.

After all, Ye Feng was not sure whether he would be able to get the greatest opportunity that the guardian of the holy tower said after entering the 100th floor.

But Ye Feng always has to enter the 100th level. If he takes a closer look, there might be something good that can make his cultivation skyrocket.

So at this time, in the foggy space on the 93rd floor, Ye Feng didn't hesitate at all and rushed directly into the fog in front of him.

These fogs isolate Ye Feng's soul power, making it impossible for Ye Feng to detect the surrounding situation, but Ye Feng's own five senses are still relatively strong after all.

So at this time, Ye Feng could still sense the surrounding area within a dozen meters.

Of course, this is indeed much smaller than the range that Ye Feng can perceive within a few kilometers with his soul power, but it is also much higher than that of ordinary practitioners.

After all, ordinary practitioners, if they are in this special fog, can only sense a few meters around them.

But Ye Feng can sense anything within a dozen or even twenty meters around him through his powerful five senses.

This is related to Ye Feng's own life level.

Ye Feng's Immortal Body of God not only improves Ye Feng's physical strength, but also improves Ye Feng's life level.

In other words, although Ye Feng is still a human race, his life level is much higher than that of the descendants of some powerful mythical beasts.

After all, Ye Feng's physique and life are evolving towards a greater level of the Celestial Clan.

At this time, Ye Feng was walking while alert to possible dangers around him.

Suddenly at this moment, Ye Feng had not taken several steps.

Uh-huh!

A huge black tentacle rushed towards Ye Feng from the surrounding fog in an instant, seemingly instantly.

It can penetrate Ye Feng's entire body.

Ye Feng immediately sensed this huge black tentacle at this moment, and immediately burst out with his extremely powerful power, waving his golden fist, and fiercely aimed at the black tentacle piercing through the fog in front of him. Attack away.

Boom! !

At this moment, the moment Ye Feng's golden fist attacked this huge black tentacle, Ye Feng immediately felt the extremely terrifying power of this black tentacle, which was immediately transmitted to Ye Feng's golden fist. , Ye Feng's skin immediately cracked, and even his flesh and blood burst.

However, Ye Feng's bones were not broken. After all, Ye Feng's bones were the only immortal bones of the gods in the world, so there was nothing that could destroy the bones in Ye Feng's body.

But this also made Ye Feng feel very shocked.

After all, when he was on the 92nd floor, those terrifying sharp knives were unable to damage Ye Feng's body.

But this huge black tentacle attacked from the mist, causing Ye Feng's skin and flesh to burst.

This naturally shocked Ye Feng.

It seems that there is indeed great danger in this ninety-third layer of fog, and there are extremely terrifying indescribable monsters that are attacking me.

At this moment, Ye Feng didn't hesitate at all, and immediately flew quickly in the other direction, trying to escape the attack of the monster hidden in the fog.

After all, this black tentacle is just a tentacle, and it is so powerful, not to mention how terrifying the owner of this black tentacle, that monster, is.

Ye Feng became quite cautious at this time. It seemed that although he was very difficult to break through in front of the Hundred Demons Holy Tower,

It's easy, but by the last ten levels, each level is very terrifying. Each level is more dangerous and more terrifying than the previous level.

Uh-huh!

At this moment, Ye Feng did not hesitate and rushed towards the deepest part of the 93rd layer of foggy space.

Because Ye Feng knew that if he continued to delay in this foggy space, sooner or later he would be killed by that indescribable and weird monster.

So I had better go through this layer of foggy space as soon as possible.

Because Ye Feng was in this misty space, he couldn't use his soul power, including his perception.

Therefore, during the battle, his combat effectiveness will definitely be greatly reduced.

After all, how can we fight if we don't even know where the opponent is?

Therefore, Ye Feng does not want to passively respond. Now he can only pass through this foggy space as quickly as possible, pass through the ninety-third floor, and break into the next floor.

However, Ye Feng had just accelerated and rushed towards the end of the ninety-third floor. As a result, Ye Feng had not been flying for long when four or five black tentacles rushed towards him.

Each black tentacle is as huge as the first black tentacle that attacked Ye Feng before. Like the tentacles of the devil, it can penetrate everything and has great power.

Even if Ye Feng's Immortal Body of God has entered the sixth stage, it is somewhat difficult to resist.

This made Ye Feng immediately couldn't help but have a look of horror in his eyes, and couldn't help but murmured, "Even my powerful sixth stage of the Immortal Body of the God is somewhat unable to withstand these black tentacles. Those who have broken through before How do you get through this foggy space?"

In fact, what Ye Feng didn't know was that the guardian of the holy tower who was watching in secret at this time had long been shocked and dumbfounded by Ye Feng's actions.

Because the members of the Sun God Clan will be reminded before entering the Hundred Demons Holy Tower that before entering the ninety-third layer of the foggy sky,

During this time, you must not touch the black tentacles rushing towards you in the mist, otherwise you will definitely be crushed into pieces in an instant.

No matter how powerful a member of the Sun God Clan or a super genius is, they cannot touch those black tentacles.

Because the owner of those black tentacles is an indescribable monster in the fog, living in ancient times.

It's just that when Ye Feng entered the Hundred Demons Holy Tower, the Sun Goddess was negligent and did not remind Ye Feng.

So when Ye Feng and the black tentacles punched each other hard, it was only the skin and flesh that spattered, instead of instantly crushing Ye Feng into pieces.

In fact, Ye Feng really relied on his own strength to withstand the attack of the black tentacles, which naturally shocked the guardians of the Holy Tower.

Because even the guardians of the Holy Tower do not have the courage to confront the black tentacles born from the indescribable monster through pure physical strength.

So Ye Feng was surprised at this time, but the guardian of the Holy Tower who was observing in secret was even more horrified because he found that Ye Feng's body power was so abnormal that it could actually compete with that indescribable mist. The tentacles of the monsters competed with each other and directly shook them. This is really incredible.

In fact, the ninety-third level tests the evading and hiding abilities of the challenger.

But Ye Feng abruptly changed the 93rd floor's escape and dodge into combat mode.

That's why Ye Feng felt that it was very difficult. In fact, the idea of breaking through the level was not quite right.

But Ye Feng didn't have anyone to remind him now, so at this time, Ye Feng's eyes turned fierce, and his whole body immediately erupted with a bright golden light, and he shouted at the surrounding fog: "You are in the fog. A monster, without revealing his true identity, keeps attacking me with his tentacles and sneaking up on me secretly. It is really a villain's behavior. I will not run away today. I will personally find you, the monster. I want to see you. What a monster!"

Chapter 4906: Loose

boom!

At this time, Ye Feng was covered in golden light, just like a young god of war. He instantly stretched out two big golden hands, with the power to move mountains and fill seas, and directly grabbed a black tentacle around him, fiercely He pulled hard in his direction.

Seeing this scene, the guardian of the Holy Tower who was watching secretly opened his eyes wide. He couldn't help but show deep astonishment in his eyes, and murmured, "Is this guy planning to kill the indescribable thing in the mist?" The monster was dragged out by force? That's a taboo!"

At this time, the guardians of the holy tower were so shocked that their eyes were dazed, and they felt that Ye Feng was a little too aggressive!

At this moment, in the foggy space on the 93rd floor, Ye Feng doesn't care about any taboos. Ye Feng's idea is very simple, that is to drag the monster out of the fog, face to face, and have a direct fight. Let's see who is more powerful.

But at this time, Ye Feng grabbed the black tentacle and wanted to pull out the owner of the black tentacle, the monster in the fog, but it was too heavy and Ye Feng couldn't pull it out for a while.

"I don't believe it!"

Ye Feng roared loudly and unleashed the terrifying power of his immortal body with all his strength.

At this moment, Ye Feng's golden hands bloomed with brilliant golden light, and billions of powerful powers emerged from his palms.

"Boom!!"

Finally, Ye Feng fiercely pulled out the monster connected by the black tentacles.

Rumble...

At this moment, accompanied by a huge roar, a behemoth, with a towering height of more than 100,000 meters, was instantly pulled out by Ye Feng, and fell to the ground not far away, splashing Dust all over the floor.

"This is....."

At this time, Ye Feng immediately looked towards the behemoth, with a hint of astonishment and a hint of weirdness in his eyes.

Because that behemoth turned out to be an indescribable giant monster.

It was an extremely strange creature, its whole body covered with dense black tentacles, but at the end of each black tentacle, there grew a pale white eyeball, with thousands of eyeballs.

Each of the pale eyeballs had streams of white gas coming out, which looked very strange.

"Um?"

Seeing this scene, Ye Feng's eyes suddenly showed a trace of surprise, and he couldn't help but murmured, "Could it be that all the fog on the 93rd floor is every eyeball of this weird monster?"  
What formed this fog?"

At this moment, the huge monster with countless black tentacles that was forcefully pulled out by Ye Feng did not roar or howl because the monster had no mouth.

The densely packed black tentacles all over its body were shaking crazily, and it rushed out quickly, sweeping towards Ye Feng crazily, wrapping Ye Feng's whole body, and then quickly tightened it, as if to Ye Feng was completely wrapped up!

"Break it for me!!"

At this moment, Ye Feng roared loudly, directly stimulating the original power of his immortal body.

Now Ye Feng's strongest strength is the strength of his body.

Buzz!

At this moment, Ye Feng completely inspired his god

With the power of the Immortal Body, his entire body suddenly began to grow rapidly, turning directly into a majestic golden giant tens of thousands of meters tall. Every inch of flesh and blood seemed to be made of golden steel. It looked like Full of terrible power.

At this moment, Ye Feng turned into a majestic golden giant tens of thousands of meters tall. With tremendous power, he broke free from the siege of thousands of black tentacles and successfully escaped.

"kill!"

At this time, Ye Feng roared loudly. The tens of thousands of meters tall golden giant was full of visual impact. He rushed forward and hit the man covered with black tentacles with one punch after another. The monster emitted roars that seemed to shake the sky.

It can be seen from this that the bombardment of Ye Feng's fists contains such terrifying power that it can literally move mountains, fill seas, and shatter the world.

Therefore, even this monster in the mist covered with black tentacles was somewhat unable to withstand the bombardment of Ye Feng's punches, and cracks appeared all over its body.

In the darkness, the guardian of the holy tower who was watching secretly was simply stunned. His mouth opened wide and he was very shocked: "What? This...this taboo and indescribable tentacle monster was actually punched by Ye Feng." died??"

At this moment, the guardian of the holy tower was simply shocked to the extreme, because no one had ever dared to attack this strange monster in the 93rd layer of fog so hard.

But Ye Feng did this!

"Die to me!!"

And in the fog on the 93rd floor, with Ye Feng's 9876th punch, the black tentacle monster in front of him was finally completely killed!

He was beaten to death by Ye Feng with a pair of iron fists!

"..."

The guardian of the Holy Tower who was observing in secret saw this scene on the 93rd floor and his eyes widened. He no longer knew how to deal with such a situation.

Originally, the guardian of the holy tower was planning to remind Ye Feng not to touch the black tentacles sticking out of the mist, because it represented an indescribable and strange existence.

But in the end, not only was Ye Feng okay, he actually took the initiative to pull out the owner of the black tentacles and beat him to death on the spot.

This... is really unbelievable!

At this moment, in the foggy space on the 93rd floor, Ye Feng has returned to normal human size.

Buzz!

At this time, Ye Feng instantly released his Devouring Domain, shrouded the huge monster covered in black tentacles in front of him, and began to devour the blood energy contained in this huge monster.

"Rumble..."

At this moment, waves of energy and blood as vast as the ocean were immediately swallowed and absorbed by Ye Feng into his Dantian, rapidly and continuously strengthening Ye Feng's power.

The aura of cultivation in Ye Feng's body suddenly increased steadily.

This indescribable giant monster with black tentacles provides extremely powerful blood energy.

The big bottleneck of the Half-Step Heavenly Dao Realm that Ye Feng had just broken through would have taken an extremely long time to accumulate before he could finally break through.

But now with the help of the majestic energy of this huge monster, Ye Feng was at the bottleneck of the Half-Step Heavenly Dao Realm, and was immediately shaken loose by the impact of that terrifying energy. boom!

At this time, Ye Feng was covered in golden light, just like a young god of war. He instantly stretched out two big golden hands, with the power to move mountains and fill seas, and directly grabbed a black tentacle around him, fiercely He pulled hard in his direction.

But now with the help of the majestic energy of this huge monster, Ye Feng was at the bottleneck of the Half-Step Heavenly Dao Realm, and was immediately shaken loose by the impact of that terrifying energy.

Chapter 4907 Ninety-Fourth Floor

Boom! !

At this moment, Ye Feng's cultivation aura suddenly experienced a qualitative transformation and breakthrough.

Ye Feng's cultivation level has finally completely broken through from the previous half-step of Heavenly Dao Realm to the real first level of Heavenly Dao Realm!

At this moment, Ye Feng's eyes suddenly revealed a hint of surprise. He seemed to have never thought that this monster covered in black tentacles in the mist was so powerful and contained such majestic energy. A breakthrough that created a major bottleneck in his cultivation.

This naturally gave Ye Feng an unexpected surprise.

At this moment, Ye Feng did not hesitate and immediately flew towards the deepest part of the 93rd layer of foggy space.

Next, Ye Feng did not encounter any danger again.

Because the biggest threat in the 93rd layer of space fog, the monster covered with black tentacles, was killed by Ye Feng. Naturally, there was no other danger anymore, so Ye Feng was very successful. Passed through the foggy space on the 93rd floor and successfully climbed to the 94th floor.

At this moment, Ye Feng is getting closer and closer to the final 100th floor of the Hundred Demons Holy Tower. Naturally, Ye Feng is looking forward to the 100th floor of the Hundred Demons Holy Tower more and more. What kind of things exist on the 100th floor of the Hundred Demons Holy Tower? .

At this time, after Ye Feng entered the ninety-fourth floor, a breeze blew by, making Ye Feng feel a little creepy.

Because Ye Feng saw that the entire ninety-fourth floor was completely deserted and dilapidated, and the surrounding environment was very dark and gloomy. The moon high in the sky was also a waning moon, and it looked very cold and air-cold.

At this time, Ye Feng seemed to sense a very special aura, and immediately couldn't help but said in surprise: "This 94th floor space seems to have no aura of any living beings, and is filled with a kind of aura everywhere." The smell of death."

After Ye Feng finished speaking, Emperor Chu in his mind said aloud: "I also sensed a very special aura, the ninety-fourth of the Hundred Demons Holy Tower.

It seems that the first layer is not the Yang world, but the underworld. "

"What?"

Hearing what Emperor Chu said in his mind, Ye Feng suddenly showed a look of astonishment in his eyes. It seemed that he did not expect that the ninety-fourth floor of the Hundred Demons Holy Tower was actually a space in the underworld.

In other words, this is a living space for the undead.

Ye Feng immediately understood that the test on the 94th floor should be a test of whether living people can successfully pass the 94th floor when the underworld is full of undead creatures.

Ye Feng remembered that the Sun Goddess seemed to have said that her father, now the patriarch of the Sun God Clan, was such a big shot, but he only stopped at the 94th floor of the Hundred Demons Holy Tower.

Ye Feng knew that each subsequent level of test would probably become more and more terrifying and difficult, so he had to maintain the highest vigilance.

However, Ye Feng would not back down, but would rush forward with full confidence.

At this time, the cold wind whistled around Ye Feng, and the smell emanating from the earth was all the smell of corruption and death.

Ye Feng walked throughout the ninety-fourth level of the underworld, feeling that the entire world was filled with the breath of death, and he was the only living person here.

Buzz!

At this moment, Ye Feng naturally exuded his majestic soul power and explored the surroundings to prevent undead creatures hiding in the dark from suddenly attacking him.

Sure enough, not long after Ye Feng entered the underworld space on the 94th floor, Ye Feng was galloping and flying on a barren land.

Suddenly, a black mountain nearby exploded, and a headless skeleton warrior riding a unicorn, holding a huge bone rod in his hand,

With a spear on his head, he rushed towards Ye Feng in an instant.

The bone spear in his hand had extremely terrifying penetrating power, and it pierced Ye Feng's face all of a sudden, seeming to tear Ye Feng's entire body and soul apart.

It has to be said that the living space of the undead creatures on the 94th floor is a very scary place.

These undead spirits living on the ninety-fourth floor are all very terrifying. They can not only harm the body and flesh of those who enter the barrier, but also directly harm the spirit and soul of the barrier breaker.

So at this moment, this skeleton warrior riding on the one-horned bone horse wanted to pierce not only Ye Feng's body, but also Ye Feng's soul.

So at this moment, the damage was so terrifying that it was hard to resist.

But this is not difficult for Ye Feng. After all, Ye Feng is not only a physically powerful body refiner, but also a soul master who has cultivated soul power.

Therefore, Ye Feng has a strong body and a strong soul.

At this moment, Ye Feng shouted loudly: "You dare to sneak attack on me, you will die!"

After saying that, Ye Feng directly extended a palm.

Buzz!

This hand immediately turned into a big golden hand in the air, filled with unparalleled power, and directly bombarded the skeleton warrior riding on the one-horned bone horse.

Ye Feng's big golden hand collided with the bone spear in his hand, and a huge roar suddenly erupted.

The next moment, the indestructible bone spear broke inch by inch under the bombardment of Ye Feng's golden hand.

Then Ye Feng slapped the one-horned bone horse into pieces, and then pressed the huge skeleton warrior to the ground.

Not allowed

Not to mention, Ye Feng's current cultivation level has once again been promoted to a new and powerful realm, the first level of the Heavenly Dao Realm. In addition, Ye Feng's body and physical strength have been unparalleledly improved. Ye Feng's current comprehensive strength is definitely better than that of the Northern Territory. Or some of the older characters in the wilderness area are even stronger.

So at this time, Ye Feng didn't feel that it was so difficult in the ninety-fourth level test.

After all, when we were in the foggy space on the 93rd floor, the actual assessment content was just to avoid the attacks of those black tentacles.

But Ye Feng forcefully killed the owner of the black tentacles, that terrifying monster.

Therefore, Ye Feng turned the test of escaping into a direct fight against the fog monster, which naturally made Ye Feng feel that the test of the 93rd layer of fog space seemed quite difficult.

But in the test of the ninety-fourth level, Ye Feng felt much more relaxed when dealing with these undead creatures.

At this moment, Ye Feng looked at the skeleton warrior in front of him who was kneeling down on the ground and was pressed down by his golden hands. He smiled faintly and used his incomparable power.

Click, click!

That big golden hand, like a golden mountain, burst out with overwhelming power, directly smashing the skeleton warrior who was still struggling on the ground to pieces.

Snap!

At this moment, when the skeleton warrior was shattered, a crystal stone shining with ice-blue light fell.

Ye Feng's eyes lit up immediately when he saw this icy blue crystal. It seemed to be the necromantic core of the necromantic creature bred by the skeleton warrior.

It contains very pure power of death. Ordinary creatures would not dare to refine this core containing the energy of death. However, Ye Feng had no scruples and simply grabbed the core and swallowed it. The stomach is definitely a great tonic for Ye Feng.

Chapter 4908 Bone Dragon

Buzz!

At this time, when Ye Feng swallowed this Necromantic Crystal, Ye Feng immediately felt a very pure power of death, which immediately merged into his Dantian, allowing Ye Feng's power to flow through it. In an instant, there was considerable growth.

However, although the death power contained in a small skeleton warrior's Necromantic Crystal is extremely pure, the amount is very small, and it is not enough to allow Ye Feng to break through his newly achieved cultivation level again.

However, Ye Feng is quite satisfied with the increase in his skill.

After all, when Ye Feng broke through in front of the Hundred Demons Holy Tower before, it was difficult for him to get the opportunity to achieve a breakthrough in his cultivation strength.

In the ninety-fourth level of the undead space, after killing these undead creatures, undead crystals with pure power of death fell from these undead creatures. Ye Feng swallowed them. Being able to increase one's own skills in the future is also a good discovery.

This made Ye Feng not want to leave this 94th floor space as soon as possible.

Because Ye Feng plans to treat the ninety-fourth level of the necromantic space as his hunting ground, he might be able to accumulate his skills to a very powerful level.

If someone knew what Ye Feng was thinking now, their eyes would probably drop in surprise.

Because when the people of the Sun God Clan entered this undead space, the undead souls in these undead spaces were the descendants of these masculine beasts who specifically restrained them.

But Ye Feng didn't have any restraint at all. Instead, Ye Feng was able to hunt these undead creatures in the undead space and absorb the undead crystals bred from the undead creatures, thereby increasing Ye Feng's skills.

It can be said that the necromantic space on the ninety-fourth floor may be a very scary place for other intruders of the Sun God Clan, because it is full of the air of death and wandering undead.

But for Ye Feng, this is simply a natural hunting ground.

Because Ye Feng's body and soul are very powerful and solid, and it is difficult to be harmed by undead creatures.

Therefore, Ye Feng can be said to be uniquely endowed in the ninety-fourth level of the necromantic space.

The necromantic space that made the patriarchs of the Sun God Clan stop at the ninety-fourth floor of the Hundred Demons Holy Tower was like a natural paradise to Ye Feng.

What Ye Feng didn't know at this moment was that the guardian of the Holy Tower who was observing in secret saw that Ye Feng had swallowed a Necromantic Crystal, and his aura of skill seemed to have increased. This made the Guardian of the Holy Tower He almost blinked his eyes out in surprise.

Because Ye Feng's behavior was really shocking.

Ye Feng was actually able to directly swallow the undead crystals bred from the undead creatures, digest the death power in the undead crystals, and improve his own skills.

This kind of thing is simply unheard of and unseen!

The elders of the Sun God Clan like the Guardian of the Holy Tower were so shocked that they were speechless.

The guardians of the holy tower secretly observed Ye Feng. They originally thought that Ye Feng was a very extraordinary genius, but now the guardians of the holy tower discovered that Ye Feng was not only defiant, but also a monster. He was almost like a humanoid monster. What he possessed The means and abilities, as well as some behaviors, simply make the world

Incomprehensible, extremely shocked.

At this time, the guardian of the holy tower suddenly felt that Ye Feng was in the 94th floor of the dead space. It didn't look like he had entered a dangerous place at all, but just like he had entered a paradise.

Because he saw that Ye Feng was currently in the 94th floor of the necromantic space. He was not in a hurry to go to the next floor. Instead, he was looking for something everywhere in the huge necromantic space on the 94th floor. .

The guardian of the holy tower had an idea in his heart, and couldn't help but mutter to himself in shock and horror: "This guy...could he be hunting those terrible undead creatures?"

The guardians of the Holy Tower were shocked to the extreme at this time. If other intruders from the Sun God Clan entered the necromantic space on the 94th floor, they would probably avoid those terrifying necromantic creatures like snakes and scorpions.

But for Ye Feng, Ye Feng is not afraid of those undead creatures at all, and even actively seeks out and fights those undead creatures.

The guardian of the holy tower remembered again that Ye Feng directly killed the indescribable and strange monster in the fog in the foggy space on the 93rd floor.

The guardian of the holy tower immediately understood that Ye Feng was not a very mysterious and terrifying existence that he could understand at all.

At this time, the guardian of the Holy Tower suddenly understood why the patriarch of the Sun God Clan named Ye Feng the honorary elder of their Sun God Clan.

It turns out that the patriarch of the Sun God Clan was not trying to let Ye Feng take advantage, but to take advantage of Ye Feng.

Because such a monster boy, once he truly grows up in the future, he will definitely become famous throughout the Ten Thousand Monsters interface.

When the Sun God Clan has a super big man like Ye Feng as its honorary elder, I am afraid that no one in the wilderness will dare to invade or offend the Sun God Clan.

The guardian of the Holy Tower thought of this and immediately nodded thoughtfully. He couldn't help but murmured in admiration: "The patriarch is worthy of being the patriarch. He has really considered the long term. I was a little underestimating this Ye Feng before. , Now it seems that I was a little too stupid, this Ye Feng is simply a humanoid monster! "

Just as the guardian of the holy tower was secretly admiring, Ye Feng finally found the second undead creature in the undead space on the ninety-fourth floor.

It was a huge bone dragon living in an abyss.

This dragon has no flesh and blood in its body. It is a dragon in a state of death. Its whole body is made of thick bones. It is several kilometers tall and majestic. It is lying in an abyss.

Uh-huh!

At this time, Ye Feng immediately flew above the abyss, stared at the huge bone dragon several kilometers long in the abyss, and said loudly: "You should be the most powerful undead creature in this area, right? Just in time. Let me test my current strength with you!"

Roar! !

At this time, he saw that Ye Feng dared to challenge him, and he also discovered that the extremely rich blood energy in Ye Feng was exactly the food he needed.

This huge bone dragon in the state of death immediately let out an earth-shattering roar and said: "Where did this human boy come from, so arrogant and arrogant that he dared to disturb my sleep? The blood and energy in your boy's body, It's so rich and powerful that if I swallow you, my bone dragon body will continue to evolve! Jie Jie Jie, you really brought food to me!

At this time, when Ye Feng swallowed this Necromantic Crystal, Ye Feng immediately felt a very pure power of death, which immediately merged into his Dantian, allowing Ye Feng's power to flow through it. In an instant, there was considerable growth.

However, although the death power contained in a small skeleton warrior's Necromantic Crystal is extremely pure, the amount is very small and is not enough to allow Ye Feng to break through his newly achieved cultivation level again.

However, Ye Feng is quite satisfied with the increase in his skill.

After all, when Ye Feng broke through in front of the Hundred Demons Holy Tower before, it was difficult for him to get the opportunity to achieve a breakthrough in his cultivation strength.

In the ninety-fourth level of the undead space, after killing these undead creatures, undead crystals with pure power of death fell from these undead creatures. Ye Feng swallowed them. Being able to increase one's own skills in the future is also a good discovery.

This made Ye Feng not want to leave this 94th floor space as soon as possible.

Because Ye Feng plans to treat the ninety-fourth level of the necromantic space as his hunting ground, he might be able to accumulate his skills to a very powerful level.

If someone knew what Ye Feng was thinking now, their eyes would probably drop in surprise.

Because when the people of the Sun God Clan entered this undead space, the undead souls in these undead spaces were the descendants of the masculine beasts who specifically restrained them.

But Ye Feng didn't have any restraint at all. Instead, Ye Feng was able to hunt these undead creatures in the undead space and absorb the undead crystals bred from the undead creatures, thereby increasing Ye Feng's skills.

It can be said that the necromantic space on the ninety-fourth floor may be a very scary place for other intruders of the Sun God Clan, because it is full of the air of death and wandering undead.

But for Ye Feng, this is simply a natural hunting ground.

Because Ye Feng's body and soul are very powerful and solid, and it is difficult to be harmed by undead creatures.

Therefore, Ye Feng can be said to be uniquely endowed in the ninety-fourth level of the necromantic space.

The necromantic space where the patriarchs of the Sun God Clan stayed on the 94th floor of the Hundred Demons Holy Tower was like a natural paradise to Ye Feng.

What Ye Feng didn't know at this moment was that the guardian of the Holy Tower who was observing in secret saw that Ye Feng had swallowed a Necromantic Crystal, and his aura of skill seemed to have increased. This made the Guardian of the Holy Tower He almost blinked his eyes out in surprise.

Because Ye Feng's behavior was really shocking.

Ye Feng was actually able to directly swallow the undead crystals bred from the undead creatures, digest the death power in the undead crystals, and improve his own skills.

This kind of thing is simply unheard of and unseen!

The elders of the Sun God Clan like the Guardian of the Holy Tower were so shocked that they were speechless.

The guardians of the holy tower secretly observed Ye Feng. They originally thought that Ye Feng was a very extraordinary genius, but now the guardians of the holy tower discovered that Ye Feng was not only defiant, but also a monster. He was almost like a humanoid monster. What he possessed The means and abilities, as well as some actions, simply make the world

Incomprehensible, extremely shocked.

At this time, the guardian of the holy tower suddenly felt that Ye Feng was in the 94th floor of the dead space. It didn't look like he had entered a dangerous place at all, but just like he had entered a paradise.

Because he saw that Ye Feng was currently in the 94th floor of the necromantic space. He was not in a hurry to go to the next floor. Instead, he was looking for something everywhere in the huge necromantic space on the 94th floor. .

The guardian of the holy tower had an idea in his heart, and couldn't help but mutter to himself in shock and horror: "This guy...could he be hunting those terrible undead creatures?"

The guardians of the Holy Tower were shocked to the extreme at this time. If other intruders from the Sun God Clan entered the undead space on the ninety-fourth floor, they would probably avoid those terrifying undead creatures like snakes and scorpions.

But for Ye Feng, Ye Feng is not afraid of those undead creatures at all, and even actively seeks out and fights those undead creatures.

The guardian of the holy tower remembered again that Ye Feng had directly killed the indescribable and strange monster in the fog in the foggy space on the 93rd floor.

The guardian of the holy tower immediately understood that Ye Feng was not a very mysterious and terrifying existence that he could understand at all.

At this time, the guardian of the Holy Tower suddenly understood why the patriarch of the Sun God Clan named Ye Feng the honorary elder of their Sun God Clan.

It turns out that the patriarch of the Sun God Clan was not trying to let Ye Feng take advantage, but to take advantage of Ye Feng.

Because such a monster boy, once he truly grows up in the future, he will definitely become famous throughout the Ten Thousand Monsters interface.

By the time the Sun God Clan has a super big man like Ye Feng as its honorary elder, I am afraid that no one in the wilderness will dare to invade or offend the Sun God Clan.

The guardian of the Holy Tower thought of this and immediately nodded thoughtfully. He couldn't help but murmured in admiration: "The patriarch is worthy of being the patriarch. He has really considered the long term. I was a little underestimating this Ye Feng before. , Now it seems that I was a little too stupid, this Ye Feng is simply a humanoid monster! "

Just as the guardian of the holy tower was secretly admiring, Ye Feng finally found the second undead creature in the undead space on the ninety-fourth floor.

It was a huge bone dragon living in an abyss.

This dragon has no flesh and blood in its body. It is a dragon in the state of death. Its whole body is made of thick bones. It is several kilometers tall and majestic. It is lying in an abyss.

Uh-huh!

At this time, Ye Feng immediately flew above the abyss, stared at the huge bone dragon several kilometers long in the abyss, and said loudly: "You should be the most powerful undead creature in this area, right? Just in time. Let me test my current strength with you!"

Roar! !

At this time, he saw that Ye Feng dared to challenge him, and he also discovered that the extremely rich blood energy in Ye Feng was exactly the food he needed.

This huge bone dragon in the state of death immediately let out an earth-shattering roar and said: "Where did this human boy come from, so arrogant and arrogant that he dared to disturb my sleep? The blood and energy in your boy's body, It's so rich and powerful that if I swallow you, my bone dragon body will continue to evolve! Jiejie, you really brought me food!"

Chapter 4909 The Forbidden Curse of the Undead

At this time, this huge bone dragon spoke very arrogantly, very domineeringly, and condescendingly. It was obvious that he did not take Ye Feng, a young human race, into his eyes at all.

After all, this huge bone dragon is definitely the overlord of the 94th floor of the undead space. It is a very advanced undead among the undead creatures.

So when this huge bone dragon saw that Ye Feng dared to challenge him, he stretched out a huge dragon claw.

The claws of this bone dragon are very strong. Although they are bones, they look like they are made of hardened steel. Even the void is about to be shattered with one grasp. It can be seen from this that the claws of this bone dragon are How terrifying are the claws?

At this moment, Ye Feng saw this huge bone dragon, and it actually attacked him directly, as if he regarded himself as food. Ye Feng immediately laughed out loud, without the slightest fear, and said: "You treat me As food, I came to you to hunt you, you are also food in my eyes."

Ye Feng knew that the undead crystals bred from such a high-level and huge bone dragon body were definitely very huge, and the power of death contained in them was definitely very powerful and majestic.

So at this moment, Ye Feng didn't hesitate at all and immediately burst out with the power of the immortal body of the god.

boom!

Ye Feng's whole body bloomed with brilliant golden light, and the blood energy in Ye Feng's whole body was like a rolling wave at this moment, surging among the limbs and bones, like the Yangtze River, rolling and roaring, rushing out of the body, A sea of blood formed.

Ye Feng's blood energy was so terrifying and majestic that even this extremely advanced undead bone dragon was forced to take several steps back at this moment by Ye Feng's terrifying blood energy. .

At this moment, Ye Feng stretched out his big golden hand, like an ancient mountain, and fiercely fought with this undead bone dragon.

They collided together, and when the two collided, a huge roar broke out.

The next moment, Ye Feng remained motionless, and the dragon claws of the huge bone dragon in front of him were blown away by Ye Feng. Even this huge undead bone dragon couldn't help but feel huge. The body took a dozen steps backward before finally stopping.

Seeing this scene at this moment, the Undead Bone Dragon couldn't help but said in horror: "What?? How is this possible?? Boy, you are just a young human race boy, how can you have such a powerful With the power of my body, my dragon claws are not ordinary bone claws, but steel dragon claws that I have tempered for thousands of years using the death energy of the undead world. They are enough to grab any solid thing under the sky! But your kid's palm turned into a big golden hand, which has such great power, and you are just a human boy, how come it feels like steel and iron bones? How is this possible, I don't believe it!"

At this time, this huge bone dragon can be said to be a little doubtful about life, because the power released by Ye Feng is really terrifying, and not only is the blood in Ye Feng's body terrifying, but Ye Feng's own physical strength is also as strong as Made of the hardest steel in the world, this bone dragon cannot have the upper hand in any aspect.

In terms of body constitution, Ye Feng's flesh, flesh and bones are harder than the bone dragon claws he has tempered for thousands of years, and the death aura emanating from this bone dragon cannot compete with the pounding body of Ye Feng. Incomparable blood energy.

Because the blood energy in Ye Feng's body is so majestic, it is like a vast ocean, so it can completely compete with everything in this huge undead bone dragon.

The smell of death emanating from it.

At this time, the huge undead bone dragon was doubting life, and realized that the seemingly delicate and handsome human boy in front of him was actually an extremely terrifying figure, and his overall strength was really terrifying.

At this time, the Undead Bone Dragon immediately yelled very unwillingly and said: "I don't believe it. I have been practicing for thousands of years, but I can't beat you, a young boy in his twenties!"

After finishing speaking, this undead bone dragon immediately roared: "Forbidden Curse of the Undead! Claws of Evil Spirits!"

Almost at this moment, this undead bone dragon directly cast the forbidden spell of death attribute that it had practiced.

When this undead bone dragon cast this powerful undead curse, the whole world changed, and countless death auras quickly formed a huge whirlpool.

Then from the whirlpool formed by the condensed air of death, a huge evil spirit claw suddenly stretched out.

This kind of claws of evil spirits is actually condensed from the air of death between heaven and earth, but it feels like the claws of an undead monarch stretched out from the ancient and terrifying kingdom of death. It has an extremely terrifying sense of oppression and destructive power, giving people the feeling that their soul is about to be crushed.

At this moment, Ye Feng felt a terrible pressure, which was pressing down on him, as if he was going to destroy his entire body and soul.

At this moment, Ye Feng didn't hesitate at all, and directly used his powerful magic weapon, Gate of Heaven, which was specially used to restrain this underworld attribute.

Buzz!

At this moment, a door emitting bright white light rushed out from Ye Feng's head.

This door appeared behind Ye Feng. It was completely condensed with white light and almost became a substance.

Like a huge white jade door, it appeared above Ye Feng's head, immediately releasing endless power of light.

Then Ye Feng used the power of light in the Gate of Heaven to directly condense the powerful creatures in the Gate of Heaven, the eighteen-winged archangel.

I saw an eighteen-winged archangel with eighteen wings of white light on his back. He immediately rushed out from the gate of heaven, holding a huge scepter of light in his hand.

This eighteen-winged archangel immediately charged towards the claws of evil spirits high in the sky.

Boom! !

When the two collided, they immediately made an extremely terrifying roar. The terrifying sound waves rolled towards the surroundings, shattering the surrounding earth and sea.

At this moment, the death claws condensed by the undead curse cast by the undead bone dragon were unable to withstand the power of the Gate of Heaven. The eighteen-winged giant in fighting form condensed in the Gate of Heaven. The angel was blown to pieces.

"What? This is the legendary gate to heaven? This is impossible! The legendary supreme magic weapon of the Lord of Heaven, a treasure that specifically restrains our underworld attributes, how could it be in the hands of an ordinary human boy like you??"

At this moment, the Undead Bone Dragon screamed in horror, but it was of no use.

The eighteen-winged archangel held the scepter of light in his hand and struck down from high altitude. With one stroke of the scepter, he shattered the entire body of the huge undead bone dragon into two halves.

Snap!

The huge undead bone dragon's entire body was blasted into two halves from the middle and fell to the ground.

Chapter 4910 Huge Secret

At this time, the power of light emanating from the eighteen-winged archangel gave people a very sacred and supreme feeling.

After all, this is an extremely sacred creature condensed from the pure power of light in the Gate of Heaven. The eighteen-winged archangel naturally has a natural suppression against undead creatures such as the Undead Bone Dragon.

At this moment, after this huge undead bone dragon was blasted into two halves, it fell to the ground, but it did not die completely.

After all, it is difficult to completely kill undead creatures unless they are all crushed to pieces.

At this time, Ye Feng immediately said indifferently: "Archangel, completely kill this undead bone dragon, and then dig out the undead crystal that it gave birth to. I want to refine it."

"What?"

At this time, hearing Ye Feng say such words, the Undead Bone Dragon suddenly trembled with fear.

Because he never thought that Ye Feng, a young human race boy, could actually swallow the undead crystals bred from their undead bodies. It was really terrifying.

At this time, the undead bone dragon immediately understood that Ye Feng was definitely not an ordinary person, but a terrifying existence whose true abilities were impossible to guess. .??.

At this time, the eighteen-winged archangel heard the command of the master Ye Feng, and naturally without any hesitation, he immediately flew towards the bottom quickly. The power of light emanating from his body made the whole world seem to turn into A piece of pure white.

At this moment, the Undead Bone Dragon immediately felt the real threat of death, and immediately couldn't help shouting in horror: "Sir, I was wrong, I was really wrong, I shouldn't underestimate it. Your Majesty, you shouldn't regard you as your own food. As long as you spare my life, I am willing to tell you a huge secret about this necromantic space."

"oh?"

Hearing what the undead bone dragon said, Ye Feng had a look of surprise in his eyes, and then he couldn't help but smile and said, "What huge secret do you have that can be exchanged for your life?"

At this moment, the eighteen-winged archangel was floating behind Ye Feng, like a loyal guard, with eighteen wings flapping behind his back. Each wing was as white as snow, exuding the power of bright light. It gives people a very sacred and supreme feeling.

At this time, Ye Feng was set off by the eighteen-winged archangel like a young god, giving people a feeling of supreme nobility.

Even the undead bone dragon, the evil undead dominating one side, has eyes full of fear at this moment.

He quickly spliced the two halves of his body together, and then the huge bone dragon body knelt in front of Ye Feng. This evil undead running rampant had a very low posture and said loudly: "Sir, can you I know that this undead space was not such a desolate and dilapidated place in ancient times, but a unified undead country was born. "

"The Kingdom of the Dead?"

Hearing this undead bone dragon say this, Ye Feng's eyes suddenly showed a look of surprise, and then he said thoughtfully: "Why do you know all this?"

The Undead Bone Dragon immediately replied honestly: "Tell me, sir, I was

He is the descendant of an undead dragon in the unified undead kingdom. These histories are recorded in the inherited memories passed down by my ancestors. If you can spare your life, I can take you to that place back then. Among the ruins of the palace in the Kingdom of the Undead, look for the huge wealth and inheritance left by the most powerful undead monarch. Originally, this kind of thing is of no use to practitioners other than our undead clan. After all, this is exclusive to the wealth of our undead creatures, but just now I saw with my own eyes that the Lord actually said that the undead crystal can directly refine our undead creatures. It seems that the Lord is an extremely incredible being who can cultivate with the power of multiple attributes. Therefore, I think you must be very interested in the inheritance and wealth of the undead monarch left behind by the ruins of the royal palace in that unified undead country. It is definitely the most noble and precious inherited wealth of our undead clan. "

At this moment, hearing what the undead bone dragon said, Ye Feng's eyes suddenly became interested. After all, Ye Feng knew very well that in the ninety-fourth floor of the undead space, in this huge land To establish a unified undead nation on the earth, it is definitely not an ordinary person, and it is definitely an extremely terrifying existence that can achieve such a grand plan.

The undead monarch mentioned by this undead bone dragon must have been an extremely terrifying existence in that era, so he was able to establish a huge undead space in the vast undead space on the 94th floor of the Hundred Demons Holy Tower. A unified kingdom of the undead.

The inheritance and wealth left by this undead monarch must be extremely terrifying, extremely rich and precious, and absolutely priceless and immeasurable.

At this moment, Ye Feng's interest was suddenly piqued.

Ye Feng waved his hand, and the eighteen-winged archangel behind him nodded, and then flew directly into the sky into the huge gate of heaven and disappeared.

At this time, Ye Feng also put the Gate of Heaven into his head.

At this moment, the immense power of light in the entire world suddenly disappeared.

Under the abyss, the huge undead bone dragon kneeling on the ground also breathed a sigh of relief at this time.

He knew that his life was saved for the time being.

At this moment, the eyes of the Undead Bone Dragon looked at Ye Feng, filled with deep awe and fear.

Because the feeling Ye Feng gave him was really terrible.

Moreover, the Heaven's Gate that Ye Feng had just released was extremely restrained and stressful for undead creatures like them.

So at this time, the Undead Bone Dragon naturally did not dare to hide anything, and directly told Ye Feng everything about the undead monarch in the 94th layer of space.

This information may not even be known to the Sun God Clan. After all, the test that the Sun God Clan has endured is to pass through the ninety-fourth level of the undead space as quickly as possible, and they will not delve into this dangerous and vast undead land at all.

But Ye Feng learned from this undead bone dragon that the real secret of the entire ninety-fourth floor of the undead space was that it was once the realm of the undead established by an undead monarch.

If you can find the place where the wealth left by the undead monarch was, then Ye Feng will become rich instantly! At this time, the power of light emanating from the eighteen-winged archangel gave people a very sacred and supreme feeling.

After all, this is an extremely sacred creature condensed from the pure power of light in the Gate of Heaven. The eighteen-winged archangel naturally has a natural suppression against undead creatures such as the Undead Bone Dragon.
