

Ancient 491

Chapter 491 Who is that tough guy?

Half an hour later, Ye Feng and Shui Bingyan traveled through many beautiful buildings and finally came to a huge mountain.

The entire shape of this mountain is like a huge pyramid, with a long staircase on the ridge.

The entire staircase is made of bluestone, and each brick has mottled traces of history, exuding an ancient atmosphere.

"This is the legendary Gravity Mountain. It is said that the entire gravity mountain was moved from the far north by a great magical practitioner of our Poseidon Academy. The more you walk towards the peak of the mountain, the more gravity you will feel on your body. The bigger it is, but as long as it can withstand this gravity, it will be of great benefit to the tempering of the warrior's body. "

Shui Bingyan stood next to Ye Feng and said. It was obvious that she had been learning about the Gravity Mountain in the past few days.

Both of them now put on Poseidon Academy's exclusive student uniforms, with a golden three-pointed star on their sleeves, representing their status as registered students.

However, one of them is a saint-level genius and the other is an emperor-level genius. Although they are new students, they are handsome men and beautiful women with extraordinary temperament, giving people a noble feeling at first glance.

There are many students from Poseidon Academy around Gravity Mountain, and they all seem to come here to challenge Gravity Mountain.

Both Ye Feng and Shui Bingyan have extraordinary temperaments, and Shui Bingyan is even more like a princess of the water tribe. She looks like she is wearing a student uniform, with a perfect figure, black hair, snow-white skin, and a beautiful face, which instantly attracted the attention of many people.

"This junior sister is coming to Gravity Mountain for the first time. There are many details here. If you want senior brother, let me tell you about it."

Beauty attracts attention wherever she goes. At this moment, several male students immediately walked towards Shui Bingyan.

"Ye Feng, let's go to Gravity Mountain together."

However, Shui Bingyan didn't even look at the male students and directly pulled Ye Feng towards Gravity Mountain.

"this....."

Seeing the two figures disappearing quickly, the male students suddenly turned pale.

"Zhao Kang didn't expect to be defeated this time, hahaha."

Many students from Poseidon Academy were staring at a young man among the male students with sneer smiles on their faces.

Among the male students, the young man standing in the middle was called Zhao Kang, because there was a genius brother of a senior student in the college who had been doing evil in the outer courtyard of the college, and no one dared to punish him.

But today, the female student didn't even look at him, and just dragged another young man in black away, which made many people around him secretly feel very happy.

After all, many people are unhappy with this Zhao Kang and are afraid that a flower will be stuck in cow dung again.

Among the male students with livid faces, one of them said to Zhao Kang: "Senior Brother Zhao, don't worry. I saw the three-pointed star on their sleeves, just one star. They should be new students who have just entered the academy. , The boy in black is probably just a poor boy from a rural place. After they come down from Gravity Mountain, we can just warn that boy and keep him away from the beautiful junior sister just now. "

Zhao Kang was immediately satisfied after listening to what several people around him said.

He nodded and said: "Then I'll leave this matter to you. I'm going to find out the name of the junior sister who was just as beautiful as a fairy."

After saying that, Zhao Kang left, and several of his younger brothers immediately stood guard under Gravity Mountain, waiting for the return of Ye Feng and Shui Bingyan.

These students are low-level students, but each of them has a good level of cultivation and is a life-threatening warrior.

They felt the aura of cultivation from Ye Feng before, but it was from the ninth level of the supernatural power realm. They could just teach such a short-sighted boy a lesson when the time came. They had done this kind of thing a lot, so naturally they were familiar with it.

At this time, under Gravity Mountain.

Ye Feng and Shui Bingyan came to the stairs of Gravity Mountain.

Looking at the long staircase leading to the top of Dayue, straight into the sky, through the clouds and into the sky, it seems to have no end.

Shui Bingyan said: "This ladder to heaven is said to have a total of ninety-nine thousand nine hundred and ninety-nine steps. Every time we step on a ladder, the gravity on our body will double, so this is a ladder that can Breaking the ladder to reach your own limits and cultivating within the limits has a great possibility of breaking through the final bottleneck of cultivation. "

Ye Feng nodded and said, "I read the introduction manual carefully before I came here. It seems that for every hundred steps you climb, you can get 10,000 contribution points."

"That's right."

Shui Bingyan said: "But stepping on the 100th step means having to withstand a hundred times the gravity. Many life-killing realm experts are unable to do this. I hope we can all break through the limit."

As soon as he finished speaking, Shui Bingyan stepped directly onto the ladder to heaven.

Ye Feng also stepped forward.

"Buzz!"

At this moment, Ye Feng suddenly felt twice the gravity exerted on himself.

Double gravity is nothing to Ye Feng.

"What a magical mountain."

Ye Feng's eyes were bright, and he rushed towards the top of the mountain in an instant.

"boom!"

"boom!"

"boom!"

Every time he took a step, every time he climbed a staircase, he felt one after another gravity enveloping him.

When Shui Bingyan reached the thirty-fourth step.

Thirty-four times the gravity was a terrifying pressure that made Shui Bingyan, the princess of the water tribe, break out in cold sweat on her forehead and began to feel exhausted.

Her pace suddenly slowed down.

Uh-huh!

But at this moment, Ye Feng suddenly appeared.

Ye Feng's face remained motionless, as if he didn't feel anything at all. He stood beside Shui Bingyan, smiled and said, "I'll go up first."

"Don't you feel anything?"

Shui Bingyan stared at Ye Feng in surprise.

"It feels a little bit, but nothing."

Ye Feng smiled, then jumped up and jumped ten steps in a row. .??.

"Too fierce!"

There were many other academy students around who were climbing the ladder. At this time, they saw Ye Feng's ten steps, and their eyes widened suddenly as if they were running and playing.

"Where did this boy in black come from?"

Many people couldn't help but murmur.

Shui Bingyan looked at the young man in black who was walking as fast as flying in front of him. A wry smile could not help but appear on his beautiful face. No wonder Ye Feng could have such a powerful fighting power. This kind of body strength was like a humanoid beast. It was really It's so scary.

Uh-huh!

Uh-huh!

At this time, Ye Feng was running fast on the ladder to heaven. His Divine Art of Creation had entered the fourth heaven, and his body of creation had also entered the fourth stage, the primary glazed battle body.

This gave Ye Feng an extremely strong physique, and his flesh, flesh, and bones were as indestructible as crystal diamonds.

A mere tens of times gravity may be very scary to other students.

But for Ye Feng, it was just a trivial matter.

"OMG!"

"Who is that tough guy?"

At this time, a running figure in black on the entire ladder to heaven attracted the attention of countless people.

Everyone on this ladder to the sky is subjected to dozens of times the gravity, just like climbing a mountain, climbing up step by step, panting.

But now, a group of young people suddenly appeared. Climbing the ladder to heaven was like taking a leisurely stroll in the garden.

This made countless people's eyes widen and their jaws dropped to the ground in shock.

"The hundredth step!"

At this time, Ye Feng reached the 100th step.

boom!

Almost at this moment, a huge pressure came down from the sky.

One hundred times the gravity!

"Crunch, crunch..."

Finally, all the bones and joints in Ye Feng's body began to vibrate, but they were still within the tolerance range.

Uh-huh!

Suddenly, an expressionless red-haired old man suddenly came to Ye Feng.

He stretched out his hand like lightning, took the identity token from Ye Feng's waist, and said in a mechanical voice: "Registered student Ye Feng, climbed the 100th step, and received 10,000 contribution points."

"Ten thousand contribution points?"

Ye Feng took back the identity token at this time and saw the blue light emitting from the upper right corner of the identity token, showing the number of ten thousand.

"You can get 10,000 contribution points just like that? It's too easy.

"

Ye Feng couldn't help but murmured.

"puff!"

A student who had been in the six-time death realm who was on the ladder not far away from him heard Ye Feng's murmur and couldn't help but spit out a mouthful of blood.

"You think everyone is as strong as you! Freak!"

This is a girl student in red, she looks very cute, but at this moment she muttered: "After all, I am also a middle-level student, a registered student of the ninth level of the supernatural realm, a young boy, how dare you It's so abominable to mock me like this in front of me!"

The girl student in red seemed to have misunderstood Ye Feng and felt that what Ye Feng just said was to ridicule her, a middle-level student.

When Ye Feng heard someone calling him a freak, he couldn't help but look at the girl in red on the ninety-sixth step and said, "Who are you? Little girl, it's not polite to call someone a freak."

"Little girl's house?"

The girl in red immediately became furious and said, "I am twenty-five years old this year!"

"Twenty-five?"

Ye Feng stared at the woman in red, his eyes were suddenly surprised, and then his eyes moved slightly downwards.

Huh?

like.....

It does seem quite big!

But she looks like a girl of fourteen or fifteen years old, extremely cute.

This made Ye Feng quickly say: "It turns out to be senior sister. Senior sister must have misunderstood. I just sighed to myself just now. I didn't mean to ridicule senior sister."

As he said that, Ye Feng jumped casually on the 100th step, as if to say: Look, it's really easy.

"Damn it! Damn it!"

The woman in red felt that Ye Feng was provoking her, and she immediately shouted: "Young boy, being tough is nothing! My name is Gong Yu, the palace of the palace, the feather of the feather, what is your name? Let's make some gestures after we get down the mountain!"

Ye Feng knew that he was able to climb the ladder so easily because his fighting body was as powerful as a humanoid beast.

But the aura of this baby-faced woman in red named Gong Yu is actually the aura of the Sixth Death-killing Realm, which cannot be offended for the time being.

"Well, our Poseidon Academy is an academy, not a sect. We are not good at fighting and killing. We want to be civilized students and forget about making gestures. Junior brother, I will leave first. Bye."

Ye Feng waved his hand to the woman in red and immediately continued running towards the top of the ladder.

"Young boy! Stop!"

Gong Yu suddenly shouted loudly, revealing his crystal little tiger teeth. His baby face was full of ferocity, but he looked fierce. It didn't look like he was angry at all, but made people feel very cute.

But when Gong Yu finished speaking, Ye Feng's figure disappeared in front of her eyes.

"Damn it, this young boy dares to tease this girl, I will definitely find you and give you a good beating!" Gong Yu said to himself bitterly.

Chapter 492: Killing

"boom!"

The moment Ye Feng stepped onto the 200th step.

A gravity of two hundred times, terrifying and huge, was exerted on him in an instant.

At this time, Ye Feng's whole body was shaking, and his spine made a faint cracking sound.

"It's the limit!"

Ye Feng gasped for air and was sweating profusely.

Two hundred times the force of gravity is already an amazing achievement.

This can be seen from the fact that Gong Yu, who had been in the fatal realm six times just now, had only climbed about a hundred steps.

"Uh-huh!"

At this time, the red-haired old man who appeared before appeared again.

The red-haired old man had no expression on his face and said mechanically again: "Registered student Ye Feng has climbed the 200th step and received 10,000 college contribution points."

Uh-huh!

The red-haired old man's hands were like lightning. He took away the identity token hanging from Ye Feng's waist, then gave it back to Ye Feng with a touch of his finger.

Ye Feng saw at this time that the number on his identity token became 20,000.

"Twenty thousand contribution points."

Ye Feng's eyes lit up. When he saw the red-haired old man leaving, he couldn't help but ask: "Senior, if I start all over again next time and climb the 200th step, can I get another 20,000 contribution points?"

The red-haired old man paused, as if this was the first time someone asked him such a question.

He turned back, stared at Ye Feng, and said expressionlessly: "It's a good idea. The steps you have walked before cannot be repeated to obtain contribution points. If you want to get 10,000 contribution points again, you need to climb the 300th step." ladder."

As soon as he finished speaking, the red-haired old man jumped up and disappeared into the Gravity Mountain.

Ye Feng's eyes were surprised. This red-haired old man's cultivation was absolutely terrifying to the extreme.

The terrifying gravity of Gravity Mountain seemed to have no effect on this old man at all.

"Continue! Only under the limit can we break through the final shackles!"

Even though Ye Feng felt the endless gravity all over his body at this moment, the gravity of two hundred times had indeed reached a limit for him now.

But Ye Feng knew that this was not enough;

Feel the bottleneck of cultivation being loosened.

Ye Feng's martial arts cultivation has accumulated to a full level in the second half of the Hundred Dynasties War.

Only because of the limitations of his cultivation on the battlefield outside the territory, Ye Feng did not dare to break through to the life-threatening realm.

But now Ye Feng has no scruples.

"boom!"

He immediately stepped up the two hundred and first steps.

Two hundred and one times gravity!

"Crunch!"

Ye Feng's body bent suddenly, as if he could no longer hold up.

The moment he reached the 232nd step.

"boom!!"

The huge pressure immediately caused Ye Feng to undergo his final transformation.

A new and powerful martial arts aura suddenly burst out from his body.

"boom!"

At this moment, the wind and clouds in the sky changed, and large dark clouds appeared.

A bolt of thunder and lightning struck downwards in an instant, directly attacking Ye Feng.

This is a thunder disaster at the life-threatening level!

The life-taking realm is a realm beyond the magical power realm, with nine opportunities to take lives.

To take one's life is to take one's life to heaven and to the rules of heaven and earth.

Therefore, every time you take a life, you will encounter a thunder tribulation released by the rules of heaven and earth. As long as you successfully overcome the tribulation, you can gain a hundred years of life.

Nine lives lost, that is nine thunder tribulations, nine hundred years of life.

Generally, when a warrior in the fatal realm feels that he is about to break through, he will make various preparations to resist the thunder catastrophe.

But Ye Feng's black hair was dancing wildly at this moment, and he looked up at the sky.

"boom!"

He unexpectedly rushed up to the sky and smashed the thunder calamity that came down with one punch.

"boom!"

The terrifying energy and blood in Ye Feng's body,

In an instant, it hit high in the sky, and the fierce human battle blood caused the dark clouds in the sky to be shattered by the impact.

"What my father said back then was indeed correct. After practicing the Divine Art of Creation to the end, with the unparalleled human battle blood and the power of Gangzhiyang, you can easily resist the thunder tribulation and disperse the clouds of tribulation."

Ye Feng thought secretly in his heart, his eyes filled with unstoppable confidence.

Perhaps for ordinary people, going through a tribulation is like facing a powerful enemy and facing a life-or-death crisis.

But for Ye Feng, it does not exist. Whether it is his hard and powerful body or the human blood boiling like the sea, they are the nemesis of Thunder Tribulation.

"Nine times of killing, the thunder tribulation gets stronger towards the end. In the future, Ye Feng, you should be more careful, don't just go through the tribulation casually, and make more preparations." Shang reminded in his mind at this time.

He didn't know the ultimate secret of Ye Feng, so he was afraid that Ye Feng would find it easy to survive this thunder catastrophe, and he was afraid that Ye Feng would despise future thunder catastrophes, which would cause serious consequences.

"Shang, don't worry." Ye Feng immediately smiled and spoke in his mind.

"Now that I have entered a life-threatening realm, I still have 20,000 contribution points. I should be able to certify the identity of a low-level student."

Ye Feng was still very satisfied with Poseidon College at this time. ??

Poseidon Academy does have a lot less intrigue than sects and the like.

Because any resource in the academy will not be monopolized by any arrogant disciple forces. As long as individuals have the ability, they can use it.

Moreover, the academy completely prohibits cliques among students. Except for a few extremely powerful saints, who have special preferential treatment, other students, even elite students, can only have their own mountain. Although he extradited his subordinates and attendants, he was unable to win over other disciples in the academy and establish disciple influence.

Uh-huh!

Ye Feng entered a life-threatening situation at this time, and his strength was greatly improved.

At this moment, Ye Feng did not go down the mountain, but continued to move forward.

Soon, he came to the three hundredth step.

But at this time, Ye Feng was almost pressed down by the three hundred times gravity and rolled down the mountain.

At this moment, Ye Feng felt that his steps were trembling.

"You can't do it again, otherwise your body will definitely not be able to bear it."

Ye Feng thought secretly in his heart, waiting silently at this time.

Uh-huh!

And sure enough, the next moment, the familiar red-haired old man appeared again.

The red-haired old man came to Ye Feng and with a touch of his finger, the contribution points on Ye Feng's identity token increased again by 10,000 to 30,000!

After earning these 10,000 contribution points, Ye Feng turned around and ran down the mountain.

After certifying low-level students, it seems that the college will have generous rewards, and Ye Feng can't wait.

He knew very well that in order to gain a foothold in Poseidon Academy, senior student status was essential.

The higher the student status, the greater the authority and power they will have in the academy.

"You are a pretty good young man. You will come to Gravity Mountain frequently in the future. Even if you don't climb higher stairs, your body will slowly transform under this gravity environment of hundreds of times."

The red-haired old man behind him suddenly spoke.

"Thank you, senior, for your guidance."

Ye Feng immediately turned around and hugged the red-haired old man, then ran down the Gravity Mountain.

On the way back, Ye Feng didn't see Shui Bingyan, maybe she had left.

After all, I have been climbing this ladder for nearly half a day.

Ye Feng went down the mountain alone, just the moment he walked out of the range of Gravity Mountain.

Ye Feng immediately saw two waves of people, all staring at him eagerly.

There are several male students with cold faces, and their cultivation levels are all in the second or third life-threatening realm.

In addition, there was a familiar woman in red with a baby face, staring at him. It was the child-faced senior sister Ye Feng met on the ladder to heaven, Gong Yu!

Chapter 493 It's too miserable

"Boy, you're finally down."

Those male students with gloomy faces were naturally Zhao Kang's younger brothers.

They are all low-level students, with powerful cultivation levels that have killed them twice.

At this time, several people immediately rushed towards Ye Feng. ??

"Little brat, you're finally down."

But at this moment, another woman's voice sounded.

Gong Yu stepped towards Ye Feng. Although she looked like a girl of fourteen or fifteen years old, her figure was graceful and perfect, and she was very mature.

With a trace of teasing in her beautiful eyes, she said: "You little brat, are you finally willing to give up? Weren't you very arrogant on the ladder to heaven, and now you are gesticulating with me, sister?"

But before Ye Feng could say anything, those Zhao Kang's henchmen spoke out: "This kid is what we want to teach him a lesson. Who are you? Get out of here."

These Zhao Kang's henchmen just saw Gong Yu's extremely young appearance and thought she was just an ignorant little girl, so they spoke without hesitation.

Buzz!

But at the next moment, Gong Yu was all focused on Ye Feng.

Her body suddenly erupted with a huge martial arts aura that was terrifying to the extreme.

She instantly looked at those Zhao Kang's henchmen and said coldly: "What are you talking about? Don't you want to live anymore?"

"This is?"

"Six fatal situations!"

The expressions of several Zhao Kang's henchmen suddenly changed, and they quickly said: "Senior...Sister! We were wrong, we looked down upon others..."

"boom!"

"boom!"

"boom!"

But before they could finish speaking, Gong Yu took action boldly and blew away those losers almost instantly.

They fell hard to the ground, their noses were bruised and their faces were swollen, and they ran away in despair.

At this time, Gong Yu turned around again and looked at Ye Feng, who was not far away, and said, "Little brat, it's your turn now."

Ye Feng was a little helpless and said: "Senior sister, you really misunderstood me. I was just sighing for myself at that time, not to ridicule you."

Gong Yu's eyes rolled around, and he walked up to Ye Feng and said, "I believe you, then let's shake hands and make peace."

r\u003e

"Forehead?"

Ye Feng glanced at the child-faced senior sister in front of him in surprise, and couldn't help but stretched out his hand in surprise.

"Buzz!"

But the moment their palms touched each other.

Gong Yu suddenly exerted force, her small white palm tightly grasped Ye Feng's palm, and pulled Ye Feng violently, as if she was going to do a backflip and fall to the ground.

"What?"

But at the next moment, what made Gong Yu's expression change drastically was that she found that she couldn't pull Ye Feng away at all.

Ye Feng stood there, like an eternal green pine, rooted in the earth, like a monument, as if no force could shake it.

"What? How can you have such a powerful power in your body, little brat?"

Gong Yu was shocked, his beautiful eyes filled with shock and anger.

She pulled Ye Feng, but she couldn't pull him at all, and even almost broke her own arm.

You know, she is a master of the fatal realm six times!

"You have achieved a breakthrough in your cultivation, and you have entered the life-threatening realm with the help of the ladder to heaven!"

Gong Yu let go of Ye Feng. The child-faced senior sister stared at the black-clothed young man in front of her, and she suddenly felt a trace of fear in her heart.

Originally, she thought that Ye Feng was just a little kid who had just started, and she could teach him a lesson casually.

But what I didn't expect was that this little kid seemed to have a body like a big bell, and had tremendous strength. Even a six-time death-killing master like her couldn't shake her at close range.

Ye Feng looked at Gong Yu, who suddenly became wary, and couldn't help but smile and said: "Senior sister, you see I have no hostility towards you at all, otherwise I could have killed you the moment you got close. "

Although Ye Feng had a gentle smile on his face at this time, his words "I can kill you" made Gong Yu, who had always been fearless, feel an inexplicable chill all over his body.

Gong Yu's fierce look disappeared. She walked up to Ye Feng again and said, "It seems that you didn't mean it. It was me who misunderstood."

Sorry, I admit my mistake. "

As he said this, Gong Yu actually stood up on tiptoes and kissed Ye Feng, making Ye Feng stunned.

"I never take advantage of others, little brat, my sister will give you an apology by kissing you."

Gong Yu said, without the slightest bit of shyness, but in a generous manner, he turned around and left.

Ye Feng stood there, a little dazed. This mature senior sister with a girlish face was really straightforward.

Next, Ye Feng went to the central student hall of the college and spent 10,000 contribution points to verify his identity as a low-level student.

But when Ye Feng returned to his residence, he suddenly saw a group of people surrounding him in the distance.

"It's too awful."

Some people in that group couldn't help but sigh.

"That's where Shui Bingyan and I live? Could it be?"

At this time, Ye Feng suddenly thought of the male students with malicious intentions that he had encountered after coming down the mountain.

He suddenly thought of something, and his face changed slightly, "It's so tragic? Could it be that something happened to Bingyan?"

Ye Feng's face suddenly turned cold, and he immediately walked towards not far away.

But when he pushed aside the crowd and saw the scene in front of him, his originally cold face became a little stunned.

Ye Feng immediately saw that in the open space surrounded by people, Shui Bingyan's feet were stepping on a man wearing a blue student robe.

This young man is none other than Zhao Kang.

Surrounded by several Zhao Kang's younger brothers were lying on the ground wailing, their noses were bleeding, their hair was disheveled, and they were obviously beaten badly.

Shui Bingyan stepped on Zhao Kang's face and said coldly: "How dare a bunch of trash come to block my way? I'm really tired of living!"

At this time, the aura of the water tribe princess was clearly in a life-threatening state.

Obviously, she also broke through the limit on the ladder to the Gravity Mountain.

Shui Bingyan was originally a saint-level genius, and he came from the super rich Shui tribe and was very powerful.

It was just because she kept hanging out with Ye Feng, a peerless evildoer, that many people thought she seemed

Very mediocre.

But in fact, this was not the case at all. Shui Bingyan broke through to a life-threatening state and her strength increased greatly. Low-level students like Zhao Kang were no match for her at all, and they were all beaten to the ground. It was very miserable.

At this time, Ye Feng suddenly realized that the "too miserable" that everyone said was referring to how miserable Zhao Kang and others were.

"Junior sister, junior sister!"

Zhao Kang's nose was bruised and his face was swollen. He cried and said, "I really don't want to block Junior Sister's way. I just want to get to know Junior Sister. That's all. I have no other thoughts."

Zhao Kang also had ten thousand grievances in his heart at this time. Originally, he just wanted to strike up a conversation with a beautiful junior sister who seemed to have just entered the academy. Isn't this a normal thing, but the result was that he was taught such a miserable lesson.

If he had known earlier, he would have run far away from Shui Bingyan, a scary woman who looked gentle but was extremely ruthless in her attacks.

Ye Feng stepped forward, looked at Shui Bingyan, and said, "Bingyan, what's going on?"

When Shui Bingyan saw Ye Feng, the murderous look in her brows immediately dissipated.

She glanced coldly at the few people lying on the ground and said, "Nothing, just teaching a few short-sighted losers."

She is a princess of the water tribe, so she naturally has her own arrogance.

You know, the foundation of the super rich clan is second only to the overlord force, equivalent to half of the overlord force.

Therefore, Shui Bingyan was very proud in her heart. She was so kind and gentle to Ye Feng entirely because of Ye Feng's peerless and evil martial arts aptitude, which completely convinced the water tribe princess.

"get out."

Shui Bingyan uttered two words coldly.

"Thank you, Junior Sister... No! Thank you, Senior Sister! Let's get out of here! Get out of here!"

Zhao Kang and his younger brothers immediately got up from the ground and left dejectedly.

Seeing this, Ye Feng didn't ask any more questions. He just showed the identity token on his waist, smiled and said to Shui Bingyan: "Did you see that I have certified the low-level students? Next I want to Take over some college tasks and earn more contribution points. Contribution points are really useful. I just went to the central student hall and saw that even holy weapons and various ancient powerful inheritances can be exchanged for contribution points. , It's really exciting."

Chapter 494 Sound Transmission

Ye Feng said this, making Shui Bingyan look a little surprised.

She obviously didn't expect Ye Feng to be certified as a low-level student so quickly.

Shui Bingyan couldn't help but ask: "Ye Feng, then you must have finally stepped onto the 100th step and obtained 10,000 contribution points."

Because to certify low-level students, in addition to having the cultivation strength of a life-threatening realm, it also needs to consume 10,000 contribution points.

Ye Feng nodded and said with a smile: "That's right, I climbed the 100th step. There are indeed rewards for certifying low-level students. I got a Life Creation Pill. I guess after refining it, I might Can kill twice."

The Shengsheng Good Fortune Pill is an extremely precious pill that requires gathering seven kinds of precious medicinal materials from heaven and earth, plus the blood of eight kinds of strange beasts to refine it.

Such an elixir is impossible to see in a mortal dynasty, and it is impossible to gather the materials to refine it.

But in Poseidon Academy, it is directly used as a reward for certifying low-level students.

It has to be said that Poseidon Academy is indeed the number one martial arts holy land in the Southern Territory, and its foundation is so rich.

At this time, Ye Feng finally understood why so many young geniuses wanted to join the overlord force.

Because here means that there are more resources, which can greatly expand a warrior's horizons. No matter how bad he is, he is still many times more noble than those in the ordinary small sects of the dynasty.

Shui Bingyan stared at Ye Feng and suddenly asked with some curiosity: "Ye Feng, since you have climbed the 100th step, you must have met the legendary red-haired old devil, right?"

"The old red-haired devil?"

Ye Feng's eyes were slightly surprised and he said: "I did meet an old man with red hair. His cultivation is probably very terrifying. Gravity Mountain has no effect on him at all."

"That's the old red-haired devil!"

Shui Bingyan seemed to be very excited, with a pair of beautiful eyes shining brightly, and said: "I once heard from the elders in the clan that there is an ancient old devil sealed on the Gravity

Mountain of Poseidon Academy, and now he has become the young genius on the mountain climbing ladder. Successful managers are truly amazing.”

When Ye Feng heard what Shui Bingyan said, he couldn't help but

His eyes twitched slightly.

It turns out that the red-haired old man turned out to be a sealed demon, and now he has become a coolie in Gravity Mountain.

"What are your plans next?" Shui Bingyan asked aloud.

Ye Feng thought for a while and said: "I want to take over some tasks in Poseidon Academy and earn as many contribution points as possible."

Ye Feng's idea is very simple. If he contributes more points, he can not only continue to improve his student level, but also exchange for various training resources and powerful inheritance.

What Ye Feng wants now is to grow up as quickly as possible.

Maybe it's safe for him to stay in the academy now, but Ye Feng knows that he doesn't belong here after all.

Ye Feng has never dared to relax due to the overwhelming secrets he carried.

"You can try it out with our water tribe."

Shui Bingyan suddenly spoke up and said: "Our Shui Tribe is a super powerful tribe, and there are many brothers and sisters in the Poseidon Academy. They are now highly cultivated. We will go on trials with them, and they will go to some high-level people that we cannot take over." Trial tasks can help us quickly improve our strength.”

Ye Feng immediately looked slightly happy and said, "If you can join, then I will definitely be willing to join you."

Ye Feng knew very well that if he were alone, with his current status as a low-level student, he would not be able to take over those high-level trial tasks.

Some low-level trial tasks may just help a small mortal dynasty deal with the demon invasion, or eliminate some members of the demon sect.

These low-level trial tasks are not very helpful in improving one's strength, and the contribution points obtained are pitifully few.

But if you can follow some intermediate students or even advanced students to a more dangerous advanced trial place, you may get unpredictable and huge opportunities.

And after the task is completed

, there are also a lot of contribution points. Even if everyone shares the contribution points equally, it will still be much more than taking over some low-level trial tasks by yourself.

Although Ye Feng is now a low-level student, he is confident that he is not much weaker than some middle-level students.

Shui Bingyan is also very clear about this, otherwise she would not have taken the liberty to invite Ye Feng like this, because if you are weak, going to the high-level trial mission place is asking for death.

Shui Bingyan was very happy to see Ye Feng agree, and said: "I will discuss it with one of my clan sisters tonight. She is a senior student and a master of the nine-time fatal realm. She has formed a team. , prepare to go to an underground cave in the northwest to investigate the movements of the underground demon clan. "

"A clan of underground demons?"

Ye Feng's eyes showed a look of fear.

Back then, in the depths of the wilderness, he once encountered a demon king, who seemed to be an underground demon clan. He was very powerful and almost killed him at that time.

Fortunately, Ye Feng was rescued from a coma in a wilderness tribe and was able to get out of danger.

Shui Bingyan also looked a little solemn at this time and said: "The underground demons are a branch of the extraterrestrial demons. They have been preparing to make some big moves recently. The upper management of the academy attaches great importance to it, so they have released many related trial tasks, and even... There are extremely noble and powerful saints in our academy who will personally go to investigate. The team formed by my clan sister only investigates a small part of the underground grotto. The danger should not be too great. Maybe we can join."

Ye Feng nodded and said: "If you can join, I am willing to join you."

Although the underground caves are extremely dangerous, they are the territory of the underground demon clan.

But this time their small team is only exploring a small area, so there shouldn't be much danger.

And the main reason Ye Feng wanted to join was that since he was in the extraterritorial battlefield, he discovered that the extraterritorial evil demon power he had devoured was actually more advanced than any other creature on Longyuan Continent, and the benefits to him were huge.

This made Ye Feng go from hating encountering extraterrestrial evil spirits to now particularly wishing to encounter extraterrestrial evil spirits.

Extraterrestrial demons may be a nightmare to others, but to Ye Feng, they are an extremely advanced source of energy.

The Divine Secret of Creation seizes the creation of heaven and earth and forges the strongest self, but it requires extremely terrifying energy and practice resources to accumulate.

Especially with the improvement of cultivation level, the energy required towards the end becomes more terrifying, which is simply an astronomical figure.

Ye Feng was originally a little pessimistic about his future practice, but since he devoured the high-level energy of foreign demons in the foreign battlefield, he seemed to have opened a door to a new world.

The extraterrestrial evil spirits that everyone hates and fears will be the most precious "nutrient" for Ye Feng's practice.

After the two people discussed it for a while, they went home.

Bang!

Ye Feng closed the door of his room and asked in his mind: "Shang, have you controlled that trace of the power to kill the heavens? This time you go to the underground cave to test the territory of the demon clan, and you may encounter a big enemy. In this crisis, I need this power of heaven to be used as soon as possible."

"It's almost done, it's almost done."

Shang immediately shouted in his mind: "Boy Ye Feng, you think that the power of heaven is like cabbage on the roadside. How can it be controlled so easily? However, after so many days of refining, that trace of The power of heaven will soon be completely integrated into your kid's spiritual consciousness. At that time, you will be baptized by the power of heaven every day. Although it is only a trace, it is a rare blessing in all eternity. "

"Snapped!"

And just as Shang was talking endlessly in his mind, suddenly a small talisman flew in through the window.

Before Ye Feng could react, the talisman suddenly burned in front of his eyes, and a familiar voice came from the flames: "Feng'er, if you have time now, come to the temple on the top of the north mountain of the college immediately. The six masters of the temple want to see you."

This voice is none other than Senior Bai Yuchenbai!

Chapter 495: Six Hall Masters

temple?

The Sixth Hall wants to see me?

Ye Feng was sure that the voice coming from the flames was Senior Bai's.

That's why he felt very strange. This was not a prank, it was really the Lord of the Six Halls meeting him.

Temple!

That is a place that only powerful saints who have cultivated beyond the life-killing realm and the divine orifice realm above the myriad phenomena realm are qualified to enter.

But now, I, a low-level student in the one-time death-killing realm, was to be personally summoned by the six hall masters in the temple, a mighty master of the martial arts holy realm?

"Is it because I gained emperor-level luck in the Hundred Dynasties War?"

Ye Feng thought to himself, stood up and walked outside the house.

Since it was what Senior Bai said, he must go there.

With Senior Bai here, Ye Feng is not worried about someone deliberately trying to kill him.

Senior Bai Yuchenbai, who was very good to him in the Sword Sect, always gave Ye Feng a very stable sense of security.

At this time, Ye Feng suddenly had deep doubts in his heart. What is Senior Bai's identity?

When Bai Yuchen's voice came out of the talisman flame just now, when he talked about the six masters of the temple, his tone was not awe-inspiring, but rather very casual.

Ye Feng was secretly surprised. Senior Bai's status in Poseidon Academy must be amazing.

"I didn't expect that Senior Bai, who was lurking in the Sword Sect, a small mortal sect in the Great Yan Dynasty, would have such a big background."

Ye Feng was thinking in his heart as he walked towards the top of the north mountain of the college.

Under the boundless dark sky, Ye Feng, covered with stars and the moon, soon arrived under Beishan.

However, at the entrance, there were several bald men with the blood of the giant spirit god standing there. They were three or four meters tall, wearing heavy platinum armor, holding giant axes in their hands, and they were heavily guarded.

Because Beishan is the place where the temple is located, which is sacred and inviolable in Poseidon Academy.

The entire Beishan was enveloped by a huge forbidden air formation, so it was impossible to fly.

At this time, Ye Feng stepped forward and walked to the entrance.

"He who comes is stopped."

A big man in giant spirit armor immediately stepped forward and said to Ye Feng: "Low-level students are not qualified to enter Beishan."

Ye Feng clasped his fists and said, "I came to Beishan Temple at the invitation of the masters of the six halls. Please let me go up the mountain."

"Invitation from the six hall masters?"

Another giant spirit god suddenly laughed out loud: "How dare you, a small student in the life-threatening realm, to deceive us? The masters of the six major halls are all extremely noble. Even the noble saints of our Poseidon Academy are not qualified to let you." The masters of the six halls are invited together. Who are you? If you dare to say such arrogant things, then we can only ban you.

Sanctioned! "

boom!

The giant spirit god man immediately waved the giant steel ax in his hand and slashed towards Ye Feng.

In the eyes of these giant spirit god guards who have been killed six times, even if they kill a low-level student like Ye Feng, who has been killed once, there will be no guilt.

"You are so presumptuous!"

Ye Feng suddenly smiled coldly, and he immediately stretched out a hand.

when!

The huge steel ax of the giant spirit god hit Ye Feng's palm. It did not break Ye Feng's palm, but instead made a sound of metal collision.

"What?!"

What shocked the eyes of several giant spirit gods on the field was that the heavy steel ax was actually held by Ye Feng's palm at this time.

"Get away!"

Ye Feng roared loudly, the sound was like thunder, and with a sudden force on his palm, he crushed the giant steel ax with a "click", turning it into pieces of broken iron fragments and falling to the ground.

Ye Feng broke the limit on Gravity Mountain, and his body became even stronger, comparable to a supreme weapon.

At this moment, everyone was dumbfounded by the giant spirit god.

"Go together!"

Several giant giants ran over from a distance, seven of them, all wearing platinum armor, like seven little steel giants, charging towards Ye Feng.

"Get away!"

But Ye Feng just slapped it out, and his hand directly expanded into a large glazed crystal hand in the void, shining with immortal brilliance and indestructible, and directly blew away all the seven giant spirit guards.

"Boom!"

Ye Feng slapped him again, almost smashing a giant spirit guard into pieces.

"ah!"

The giant spirit god let out a scream, and felt like his whole body was about to burst into pieces.

They are all members of the giant spirit god clan in the wilderness. They entered Poseidon Academy with noble status and became the guardians of the temple.

Relying on the naturally strong bodies of their clan, although they were at the six-time death-taking realm, they were forced to fight against ordinary warriors at the ninth-time life-taking realm.

But today, what shocked these giant spirit gods and the guards was that the ordinary-looking young man in black in front of them actually had physical power that far exceeded theirs.

The moment the big glazed crystal hand struck down, the giant spirit guard felt as if an ancient mountain had struck down. It was so terrifying, with such monstrous brute force that he smelled the smell of death.

.

"Spare your life! We are blind!"

Several giant spirit guards immediately retreated towards the surroundings.

Ye Feng snorted coldly, put his hands behind his back, and walked directly into Beishan.

These giant spirit guards were arrogant and arrogant. Ye Feng gave them a harsh lesson, but he didn't really want to kill them.

Because this is Poseidon Academy after all, and these giant spirit guards are the guards of Beishan after all, and killing them will have bad effects.

Soon, Ye Feng climbed to the top of Beishan. In the distance, he immediately saw a palace made entirely of noble white jade. It looked like a palace above the nine heavens, standing on the top of the great mountain.

Under the illumination of the moonlight, the entire temple reflected a misty and cold light, looking like a painting in the dark night, giving it a psychedelic feeling.

"This is the temple."

Ye Feng walked towards the temple, pushed open the jade door, and immediately saw six gods-like figures shrouded in divine light, floating in the sky above the temple.

"Meet the six palace masters."

Ye Feng immediately raised his hands and made a sound.

These six beings were all shrouded in divine light, their faces could not be seen clearly, and their figures were extremely blurry.

But a kind of breath that makes people feel unfathomable, like an abyss and a prison, is conveyed from the six figures. It is vast, boundless, and awe-inspiring, just like the master of this world, very terrifying.

"You are Ye Feng."

The second divine figure on the left spoke up, and it turned out to be a woman's voice. Her tone was gentle, without any authority, saying: "Little guy, let me introduce myself first. I am the Queen of the Sun and Moon, the master of the Sun and Moon Palace. I She is a saint of this generation of the elves. She is now the master of the Sun and Moon Palace in Poseidon Academy. Little one, are you interested in becoming my disciple? From now on, you can choose from all the beauties of our elves. "

Ye Feng heard the voice of the Queen of the Sun and Moon, and secretly thought in his heart that indeed, the master of the six halls met him tonight to recruit disciples, and the master of the Sun and Moon Palace said such direct words as soon as he came up, and he seemed to be impatient.

Ye Feng was originally surprised. He was a genius of the Hundred Dynasties War Emperor level. Even though he had to keep everything simple when entering the academy for safety reasons, it was not like no one would care about him.

Now there was indeed a strong man who wanted to accept him as his disciple, but what Ye Feng never expected was that the choice he had to face turned out to be a noble existence like the master of the six halls.

You know, in Poseidon Academy, in addition to the supreme dean, there are the six hall masters and the supreme elders.

These beings are all powerful beings at the holy realm of martial arts. They are truly the pinnacle-level creatures in the entire Longyuan Continent. Their cultivation is unparalleled and their strength reaches the sky.

"Ye Feng, I think you are not suitable for a place like Sun Moon Palace where all female disciples are."

Suddenly, the first divine figure on the right spoke out. It was the voice of a middle-aged man with a strong voice: "I am the master of the War King Palace, War King. I have seen the scene of you fighting the wild beast through the Great Thousand Mirror. , I am very shocked, I, a human race

man, should be like this! Therefore, the most suitable thing for you is to join my War King Palace, I will be your personal disciple, and you will be treated like a saint, how about it?"

At this moment, when the War King finished speaking, several other palace masters made surprised sounds.

Obviously they didn't expect that the master of the War King Palace would be so fond of Ye Feng and give him such a great treatment.

"Let's not argue for now. You see, the little guy is so nervous that he can't speak."

Another divine light figure spoke out, a woman with a soft voice. Although she was shrouded in divine light, it was vaguely visible that she was a graceful and beautiful figure.

"Little Ye Feng, I am the Saint of Hundred Flowers and the master of the Hundred Flowers Palace. I know that when you come to the temple, you must have made your own choice."

Saintess Baihua said with a smile: "Then now we still want to hear your own choice."

After Baihua Saint's words fell, the other palace masters fell silent.

Although they were unwilling to admit it, Ye Feng did have the qualifications to choose his future master.

Because this young man in black is the only emperor-level lucky genius in thousands of years. As long as he doesn't die young, his future achievements will be too high.

Therefore, the masters of the six major halls all hoped that Ye Feng would become their master, but they did not dare to force him for fear of backfiring.

If the scene that happened in the temple at this time were spread, I am afraid that the entire Poseidon Academy would suddenly boil, and I don't know how many people would be shocked by this.

You know, even many elite students can't even say a word to the six hall masters.

Even many saints are just registered disciples of the six hall masters.

But now, Ye Feng, a newcomer who had just entered Poseidon Academy, was secretly personally summoned by the masters of the six halls, which was really shocking.

Ye Feng's eyes flashed at this time. These top powerful people in the overlord force are indeed qualified to be his masters on the path of martial arts.

But at this time, Ye Feng suddenly raised his head and said: "Seniors, before I make a choice, I want to ask a question."

"Little guy, what question do you want to ask?" Saintess of Hundred Flowers spoke up, her tone always so gentle.

However, her gentleness may only be so for Ye Feng, an emperor-level genius.

Ye Feng looked around and then said slowly: "I would like to ask, what is Senior Bai's identity?"

Chapter 496: The grudges of the past

Senior Bai's identity.

This is a question that has been in Ye Feng's mind for a long time.

Senior Bai has such a powerful cultivation, but he has been lurking in a small place like the Great Yan Dynasty Sword Sect for so many years.

Moreover, Senior Bai's sudden departure back then was probably also because of his own appearance.

Ye Feng knew that Senior Bai had many secrets, but he didn't know what these secrets were.

Now that he came to Poseidon Academy, Ye Feng naturally wanted to ask clearly.

So facing the six hall masters at this time, Ye Feng asked this question.

But what surprised Ye Feng was that all the six hall masters suddenly fell silent at this time.

It seems that everything about Senior Bai is a memory that he doesn't want to mention.

Seeing that the six hall masters were silent, Ye Feng was about to continue saying something.

But at this moment, the Saint of Hundred Flowers from the Baihua Palace spoke up: "The Senior Bai you are talking about is the junior brother of our current president of Poseidon Academy. In other words, he is the junior uncle of our six major hall masters."

"Senior Bai is the uncle of the six palace masters?"

Ye Feng's eyes suddenly showed a look of horror.

This is too big!

"but....."

The Saint of Hundred Flowers continued to speak, seemingly with the tacit consent of someone in the dark. She said slowly: "Senior Bai was once the most amazing and talented genius in the Southern Territory, but due to some changes, he suffered heavy losses. , both his cultivation and his will have become decadent, so he chose to escape, but now for some reason, he has returned. "

When Ye Feng heard what the Saint of Hundred Flowers said, he suddenly thought that a long time ago, Senior Bai had said to him that he was the hope he saw.

Did Senior Bai return to Poseidon Academy because of his appearance?

"Feng'er, I will explain to you one by one what happened back then. Now you choose a master first. The masters of the six major halls are all the top powers in the Southern Region."

At this moment, a familiar man's voice suddenly sounded.

"Senior Bai."

Ye Feng turned around immediately and saw a young man with white hair walking in from outside the temple.

Today's Senior Bai has grown from a white-haired middle-aged man to a younger man with white hair.

Obviously, Senior Bai's cultivation has reached an extremely advanced level. When he was in Sword Sect, he was a white-haired old man, but he just didn't want to control his image.

But now, Ye Feng has appeared in Senior Bai's world, and some kind of ambition in his heart has once again burned. In just two years, he has almost regained his former energy and spirit, and became a White-haired young man.

But that face was still very familiar to Ye Feng.

"Feng'er."

Senior Bai walked to Ye Feng's side and said with some sigh: "I didn't expect that little guy in a remote place, after countless hardships and dangers of life and death, finally came to Poseidon Academy."

No one knows everything about Ye Feng better than Senior Bai, because Ye Feng can be regarded as Senior Bai watching him every step of the way.

One step has led us to where we are now.

"Uncle Master."

At this time, the light voice of the Hundred Flowers Saint suddenly sounded.

"Uncle Bai."

The War King of the War King Palace also spoke out.

However, the other four palace masters remained silent and seemed not to be in awe of Senior Bai at all.

This made Ye Feng feel a little confused.

At this time, Shang suddenly said in his mind: "Ye Feng, you, Senior Bai, must have suffered a huge blow back then. His cultivation and strength have dropped too much. I'm afraid he has fallen from the martial arts holy realm now." , only the cultivation strength of the Cave Heaven Realm."

Shang's perception was strong, and he felt something in an instant.

"What kind of heavy damage did Senior Bai suffer that caused his cultivation to fall from the holy realm of martial arts?"

Ye Feng was a little shocked at this time.

No wonder the other four palace masters seem to be ignoring Senior Bai now.

Ye Feng stared at Senior Bai in front of him. Although he had regained his youthful appearance, he was still seriously injured and seemed unable to recover.

For a moment, Ye Feng felt a little silent in his heart.

He understands very well what a complicated feeling it is to go from being an extremely talented and powerful man to suffering heavy losses and becoming a useless person, suffering the disdain of everyone around him.

However, Saint Maiden of Flowers and King of War still have respect for Senior Bai. It seems that the two of them once had a good relationship with Senior Bai.

Senior Bai smiled indifferently at this time. He seemed to have been used to it for a long time. He smiled and said: "Feng'er, please choose your master quickly."

Ye Feng turned around and looked at the six figures of divine light floating above the temple. All six eyes were fixed on him.

"Senior Bai."

Suddenly Ye Feng looked at the white-haired young man beside him and said, "You once asked me if I would like to be your disciple, and now my answer is, I am willing."

"What?"

Almost at the moment Ye Feng finished speaking.

The six masters of the temple couldn't help but exclaimed in surprise.

The Queen of the Sun and Moon of the Sun and Moon Palace, a saint of the Elf tribe, immediately spoke out: "Ye Feng, Senior Bai was indeed a peerless powerhouse back then, but he is now half useless. Are you sure you want to become his disciple? You If you become my direct disciple, I will marry you the most beautiful woman in the Elf clan, and you will have the support of our entire Great Wilderness Elf clan in the future."

The Fire King of the Flame Palace also spoke up at this time: "Ye Feng, although Bai Yuchen is our senior uncle in terms of seniority, his strength is less than one-tenth of each of our palace masters. Are you sure you want to choose A road of no return?"

At this time, Bai Yuchen stared at Ye Feng with a deep look in his eyes, and said: "It is not a small matter for a warrior to become a disciple. Feng'er, are you sure you want to become my disciple?"

Although Bai Yuchen's eyes were deep at this time, it could be seen that there was a faint feeling in his eyes.

The shock and excitement in the room.

Ye Feng nodded and said: "I have decided that I want to worship you, Senior Bai, as my teacher, master!"

"Hahaha, okay!"

Bai Yuchen was so happy that he couldn't help laughing.

"Walk!"

Bai Yuchen directly pulled Ye Feng and left the temple.

In the temple, the six palace masters all fell silent for a moment. ??

After a long time, Saintess Baihua sighed softly: "Uncle Master still can't let go of everything that happened back then."

The master of the Flame Hall snorted coldly at this time and said: "Bai Yuchen, this lunatic, does he really think that he can cultivate a super genius and help him avenge his shame? Both Jin Shengxiao and Luo Qingcheng are now consecutive The dean is extremely afraid of this existence. That Ye Feng is just a young boy. Even if he has terrifying qualifications, he will never be able to catch up with those two terrifying people."

...

At this moment, Ye Feng was pulled by Bai Yuchen to a grassland under Beishan.

Bai Yuchen stared at Ye Feng seriously at this time and said: "Feng'er, are you sure your decision just now to worship me as your teacher was not a temporary impulse? I don't need your pity."

"Not pity."

Ye Feng stared at Bai Yuchen and said: "Senior Bai, you are the only person I trust in this Poseidon Academy, and I believe that Senior Bai, you will one day return to the top."

"Are you still calling me Senior Bai?"

Bai Yuchen immediately smiled.

"Master."

Ye Feng immediately cupped his fists and said.

"Well, we are all so familiar, so we don't need these false courtesy."

Bai Yuchen looked at the boundless night sky at this time, his eyes became vicissitudes of life, and said: "Feng'er, haven't you always wanted to know what happened to me as a teacher back then, and why you went to lurk in a small place like Jianzong? I am now I will tell you the grudges from back then, because after listening to it, if you feel that it is too dangerous to become my disciple, you still have a chance to change your mind."

Ye Feng shook his head and said: "Since I have made a decision, it will not change. I can guess that Master, you have a very dangerous enemy, but I believe that even the King of Heaven, as long as you give me enough time, , I can even trample him to the ground!"

"Good boy!"

Bai Yuchen patted Ye Feng's shoulder hard and said, "I really did not misjudge you! It's not as if I valued you so much in the Sword Sect back then!"

When Bai Yuchen finished speaking, his eyes suddenly became distant and he said, "Back then, my senior brother and I, who are now Dean Wuji of Poseidon Academy, were the two most amazing and talented disciples of the old Dean."

"At that time, I cultivated and achieved the body of a true dragon. When I was less than twenty-five years old, I entered the holy realm of martial arts. I am the most eye-catching genius in the entire Southern Territory!"

"It's a pity that I was too young and fell madly in love with a woman. Her name was Luo Qingcheng, who was the most beautiful woman in the Southern Region at that time."

"During an exploration of ancient ruins, I sent a mission for her.

After some fall, he finally got two holy-level elixirs, the Nine-pole Dragon Soul Pill. As long as he swallowed these elixirs, he would have the chance to achieve the realm of an ancient saint. "

"But when I gave a Nine-pole Dragon Soul Pill to Luo Qingcheng with great joy, she suddenly stabbed a dagger soaked in poison into my heart with a faint smile..."

Speaking of this, Bai Yuchen covered his chest. After so many years, he still felt a cramp in his heart.

"Why?"

Ye Feng's eyes slowly turned cold and he said: "Master, you love her so much. Even if she doesn't accept you, she shouldn't want to kill you."

"She killed me to get the second Nine-pole Dragon Soul Pill."

Bai Yuchen spoke up, with a deep coldness in his tone: "When she took the second Nine-pole Dragon Soul Pill away from my hand, a person appeared behind her, the eldest prince of the Holy Ancestor Dynasty, Jin Shengxiao !"

"Jin Shengxiao?"

Ye Feng's eyes changed slightly and said: "The college's new student handbook has an introduction. The current Lord of Shengxiao of the Holy Ancestor Dynasty seems to be called..."

"Yes, that's him."

Bai Yuchen said: "Back then, Jin Shengxiao was just the eldest prince of the Holy Ancestor Dynasty. I never thought that the two of them would collude together."

"They want to kill me and silence me, huh, but how could they have imagined that I have a fully formed true dragon body and two hearts!"

"I finally escaped, but my true dragon body suffered heavy damage, my strength and cultivation plummeted, and I was poisoned by an eternal poison. I am no longer qualified to compete with the two of them, and I can't even compare with the third-rate genius."

"Back then, the Supreme Elders of Poseidon Academy wanted to settle the matter, but I was unwilling to give in! I promised everyone in the world that I would find a disciple who was even more amazing and talented than me, to help me avenge my shame! "

"At that time, everyone in the world was laughing at me. I couldn't find a disciple with greater potential than me. Frustrated, I left Poseidon Academy alone and completely withdrew from the big stage of the Southern Territory."

"I came to a remote place like the Great Yan Dynasty in a daze, and lurked in the Sword Sect. I originally wanted to end my life here, until I met you, Feng'er."

Bai Yuchen said at this time, his tone suddenly became extremely serious, and said: "Feng'er, you have become my disciple. In the future, you may face the entire Holy Ancestor Dynasty, as well as the aloof Emperor Shengxiao. They Knowing that I have accepted you as an emperor-level genius, I will definitely try my best to kill you, do you still want to worship me as your teacher?"

Ye Feng was silent for a moment, then raised his head slightly, his eyes bright, and said: "Whoever dares to mess with me, even the King of Heaven, I will kill without fail."

Ye Feng said it very calmly, but at this moment Bai Yuchen had tears in his eyes and said: "Okay! Okay!"

Bai Yuchen was very relieved that he had not misjudged the person after all.

At this time, Shang muttered in his mind: "The master you worship is actually very powerful. He has the body of a true dragon. Back then, the old boy, Emperor Styx, also encountered the body of a true dragon. The two of them had the fighting strength Fifty-five, but you, the master, have suffered a bit more misfortune, and it is a bit sad that you were tricked by a woman. "

Chapter 497: Get rid of the root cause of the disease

Ye Feng looked at the lonely figure next to him at this time, never expecting that Senior Bai had gone through so much and was framed by a woman.

Suddenly Ye Feng seemed to have thought of something and said to Bai Yuchen: "Master, you just said that your strength plummeted so much back then because your heart was pierced and you were infected with an eternal poison?"

Bai Yuchen's eyes showed a kind of hatred, and he said: "Yes, after she pierced one of my hearts, I actually had another true dragon heart. The true dragon heart was more powerful than my human heart, so I didn't suffer too much damage, but the dagger in that woman's hand was covered with a very terrifying poison. Even my master, the old dean, could not undo that kind of poison, and that kind of poison was... Toxins like tarsal worms have always existed in my body, suppressing my cultivation. Decades have passed, and I am still suffering from the poison. "

Speaking of this, Bai Yuchen's eyes were full of pain. It was obvious that he was betrayed by his beloved woman and almost killed. This was the pain in his heart for the rest of his life.

Ye Feng felt a slight movement in his heart at this time. He couldn't help but said: "Master, since you still have toxins in your body, maybe I can help you untie it."

"What?"

When Bai Yuchen heard what Ye Feng said, his face immediately showed a look of surprise.

You must know that the poison in his body is extremely terrifying. Even the Great Saint Master of the Natural Temple, known as the Living God in Longyuan Continent, was helpless.

So when Bai Yuchen heard Ye Feng say this, he didn't have much expectations in his heart.

Because he knew that this kind of poison could not be solved by a young boy.

But since Ye Feng said so, Bai Yuchen thought for a while and said: "Feng'er, I don't know what method you are talking about?"

Ye Feng stretched out a hand, and small dark golden insects appeared in the palm of his hand. In the mouths of these small insects, there were dense silver teeth, which looked very ferocious and scary.

"What's this?"

Bai Yuchen subconsciously felt an unusual feeling.

"They are poison-eating insects."

Ye Feng smiled slightly and said: "This is a very strange insect that I got in my early years. After so many years of cultivation, it has entered the growth stage from its infancy and can swallow many toxins in the world."

Bai Yuchen had never heard of poison-eating insects, and he said with a somewhat uncertain look: "Feng'er, do you mean to let these poison-eating insects crawl into my body and swallow the eternal poison in my body?"

Ye Feng nodded and said: "Yes, that's what I mean. Master, don't worry, these poison-eating insects are very powerful. In the ancient times, a great achievement

The poison-eating insects of the early stage can poison an ancient dragon that is ten thousand feet long in an instant. Therefore, even in that legendary era, the poison-eating insects were notorious and feared by all living beings. "

When Bai Yuchen heard what Ye Feng said, he couldn't help but twitching his lips slightly and said, "It's so dangerous, why do you still want to treat my master?"

Ye Feng smiled and said: "But the group of poison-eating insects I got were imprinted with spiritual thoughts by me when they were young. These little guys now regard me as their parents and will listen to my words."

Bai Yuchen felt the poison that had accumulated in his body for decades, and couldn't help but feel cruel and said: "Then Feng'er, just give it a try."

"good."

Ye Feng was eager to try. If the poison-eating insects could really swallow the poison in Bai Yuchen's body, and Bai Yuchen regained his former martial arts talent, how terrifying it would be.

"Go ahead."

Ye Feng's thoughts moved at this moment, and dozens of poison-eating insects suddenly crawled into Bai Yuchen's body through his seven orifices.

At this moment, Ye Feng could sense the vision of the group of poison-eating insects.

He "saw" through the poison-eating insects that the flesh, bones, meridians, and even the internal organs in Bai Yuchen's body were all entangled with poisonous gases. They were about to decay and became extremely black.

Bai Yuchen's body was indeed in a state of decay and had been corroded by poison for decades, which was shocking to see.

Ye Feng fell silent immediately. He finally understood why Senior Bai had so much hatred for Jin Shengxiao and Luo Qingcheng.

"Master, don't worry. Even though these two villains have become earth-shattering big shots now, one day they will have to pay the price for everything they did back then!"

At this moment, Ye Feng's eyes were extremely cold, and he silently made a promise in his heart.

"Poison-eating insect, swallow."

At this moment, Ye Feng's thoughts moved, and the poison-eating insects in Bai Yuchen's body began to devour those terrible poisonous toxins.

It has to be said that the poison-eating insect is worthy of being the thirty-seventh ranked creature on the list of ancient spiritual insects.

Those powers that made Bai Yuchen reach the martial arts holy realm back then were helplessly poisonous. At this time, they were quickly disappearing under the devouring of dozens of poison-eating insects.

Originally, Ye Feng was still worried about whether the poison-eating insect, which had just grown from infancy to adulthood, could withstand the kind of poison in Bai Yuchen's body.

Eternal poison.

But in the end, Ye Feng sensed through the insect thoughts fed back by a group of poison-eating insects that these little guys were very happy to eat, and even helped their evolution.

This made Ye Feng slightly dumbfounded, and then he couldn't help but smile. It seemed that the so-called eternal poison in Longyuan Continent was nothing more than that.

But no matter what, poison-eating insects, such strange insects in the world, are indeed very powerful.

At this time, Bai Yuchen also sensed something.

"Um?"

As time passed, Bai Yuchen suddenly felt something unusual.

He discovered that the mana in his body, which was originally obscure and immobile due to the poison, began to slowly and automatically circulate in his body.

In addition, the poison that had been causing Bai Yuchen to feel pain in his bones was slowly dissipating.

"this?!"

Bai Yuchen finally could no longer remain calm.

There was a hint of excitement on his face.

Because the toxins are really disappearing slowly, and it is a permanent disappearance, not a temporary suppression.

This is equivalent to directly eliminating the root cause of the disease!

"Even the Great Saint Master of a sacred place like the Zhongzhou Natural Temple could not get rid of the eternal poison. Feng'er, you got rid of it in just a short moment!"

Bai Yuchen stared at Ye Feng in front of him, his heart surging.

No wonder Bai Yuchen was so excited, because this poison, like a tarsal insect, has been pestering him for decades.

For decades, he spent in endless pain. This kind of poison tortured him from a young man to an old man, losing his energy and spirit. Sometimes Bai Yuchen really wanted to kill himself, but in his heart The overwhelming hatred made Bai Yuchen hold back.

But now, this highly toxic toxin is slowly disappearing from the body, and his invincible talent, everything about him, is back!

Bai Yuchen didn't care at all about the punctured human heart. The true dragon heart condensed from his great true dragon body was the core of his martial arts.

So at this time, the eternal poison was dissipated, and Bai Yuchen was given a new life!

At this moment, Bai Yuchen's white hair slowly turned into pitch black.

The aura on his body slowly became unfathomable as the poison in his body disappeared, like an abyss or hell.

Next, Ye Feng took back the poison-eating insect.

At this time, Bai Yuchen controlled the surging excitement in his heart.

Ang, he looked at Ye Feng and said: "Feng'er, starting from today, the entire Southern Territory belongs to you and me, master and disciple!"

Bai Yuchen's words were extremely conceited, but he had the qualifications to be so conceited.

Because back then, he was the most amazing and talented top genius in the Southern Territory. His true dragon body crushed everything and suppressed an era. All his peers were just a foil beside him.

But once he was killed and abandoned for decades, people all over the world had long forgotten this figure who once made the entire Southern Territory feel terrifying.

But now, the poison in his body has dissipated, and his invincible talent has returned.

Bai Yuchen has great ambitions at this time. As long as he is given time, he can set foot on the top of the Southern Territory again.

Bai Yuchen stared at Ye Feng in front of him and said: "However, Jin Shengxiao and Luo Qingcheng each swallowed a Nine-pole Dragon Soul Pill back then, which was the foundation that could make them saints. Now they have become earth-shattering existences. , let's hibernate quietly for now and accumulate strength."

Ye Feng nodded and said: "Master is right. Now Jin Shengxiao has become the emperor of the Holy Ancestor Dynasty, controlling an overlord force with power reaching the sky and unfathomable cultivation."

Bai Yuchen smiled happily and said, "Feng'er, if my teacher had been as stable as you at your age, maybe he wouldn't have been hurt so badly by that woman."

"Let the past be in the past. How to do well in the present is the most important thing."

Ye Feng said.

"That makes sense."

Bai Yuchen nodded. Suddenly he thought of something and said, "By the way, I told Feng'er before that when you come to Poseidon Academy, I will give you a great blessing."

When Ye Feng heard what Bai Yuchen said, he immediately became interested and stared at him curiously.

Bai Yuchen said slowly: "One month later, Feng'er, come to Dragon Soul Peak where I live. I will take you to the Demonic Dragon Island in the West Sea to kill the evil dragon and cast the foundation of your true dragon body for you."

"The body of a true dragon!"

Ye Feng's eyes suddenly trembled.

The great fortune that Senior Bai gave me was to create a true dragon body for myself!

At this time, Shang couldn't help but clicked his tongue in his mind and said: "Boy Ye Feng, this master you worship is always kind to you, and he is even willing to spend a huge price to build the foundation of a true dragon body for you. The body is a very terrifying physique in ancient times. There are very few people who know how to forge the body of a true dragon. Emperor Styx didn't even find the method of forging the body of a true dragon back then. Your master wants to take you to the Demon Dragon of the West Sea. The island seems to be plundering dragon blood and dragon bones from the evil dragon clan. It's really domineering, interesting, interesting!"

Chapter 498 Team

When Ye Feng returned to his residence from the top of Beishan, it was almost dawn.

But Ye Feng didn't feel sleepy at all, because too many things happened last night.

And he finally knew all the secrets about Senior Bai.

"I worship Senior Bai as my master, and the masters of the six halls call Senior Bai my uncle. So, from a seniority point of view, I and the masters of the six halls of the temple are of the same generation."

Ye Feng thought in his heart, and couldn't help but have an inexplicable smile on his lips. He returned to the house and carefully observed the changes in the poison-eating insects.

Because they had swallowed so many ancient poisons, pitch-black spots began to appear on the dark golden carapace of these poison-eating insects, as if some kind of special evolution had occurred.

"It seems that we need to find more poisons from heaven and earth for the poison-eating insects to eat, otherwise these little guys will evolve too slowly."

Ye Feng stared at the poison-eating insects in his storage ring. He was still waiting for these small insects to grow up quickly and become his trump card.

But think about it, these poison-eating insects are already half of your trump card.

The poison-eating insects can even swallow the terrifying poison in Senior Bai's body. In this way, I don't have to be afraid of any poison in the future.

Shang said in his mind: "Boy Ye Feng, you are thinking too simply. If it is an extremely terrifying toxin, your boy will be poisoned to death in an instant. If he dies on the spot, these poison-eating insects will be of no use."

Ye Feng: "..."

Boom, boom, boom!

Suddenly at this moment, there was a knock on the door.

Squeak!

Ye Feng stood up, opened the door, and found Shui Bingyan standing outside.

Beside her, there were several other unfamiliar faces standing.

"Ye Feng, let me introduce you."

Shui Bingyan pointed to a woman in white clothes standing next to her who was about twenty years old, and said: "This is a powerful sister of my Shui tribe in Poseidon Academy, named Narcissus Lan, who has killed nine times. His cultivation level is that of an advanced student."

"Hello, senior sister."

Ye Feng immediately said with a smile.

"You are the supreme genius that Bingyan mentioned. You are indeed good. Although you are only in a life-threatening state, your martial arts aura is as deep and powerful as the sea. You can expect a promising future."

Narcissus Lan was not cold-blooded. Although he was a master of nine fatalities, at this time he very politely stretched out a plain white hand and gave Ye Feng a slight shake.

A distinguished genius?

At this time, Ye Feng glanced at Shui Bingyan and saw Shui Bingyan blinking at him.

Ye Feng immediately understood that Shui Bingyan was hiding his identity as an emperor-level genius.

After all, Yi Qingge, the person who introduced him before, also said that the higher-ups of the college had an order not to reveal his identity as an emperor-level genius easily, otherwise he would be too embarrassed.

Amazing.

After all, there are countless forces in the Southern Territory and they are extremely complex. There may also be spies from other major forces hidden among the disciples of Poseidon Academy.

If Ye Feng's identity is exposed, it is very likely that he will attract killers from other major forces.

Although the four major overlord forces, as well as many other first-rate forces in the Southern Territory, get along very harmoniously on the surface.

But secretly killing the young geniuses of other forces is what all the major forces are doing secretly.

Even Poseidon Academy itself is no exception.

Something happened back then. A peerless genius emerged from a first-rate wealthy family with unparalleled qualifications.

Originally, that big clan wanted to take this opportunity to reach the top and become the fifth overlord clan in the Southern Territory.

But in the end, the four overlords secretly took action, and in an ancient ruins, they took action to kill the unparalleled talent of the first-class clan.

Finally, it was said that strong men from the four major overlord forces participated in that hunt.

Although very cruel.

But, this is reality.

Shui Bingyan comes from a super wealthy family, so she naturally knows this very well.

For the sake of Ye Feng's safety, Shui Bingyan concealed Ye Feng's status as an emperor-level genius from her clan sisters, including others.

Ye Feng nodded slightly to Shui Bingyan to express his gratitude.

"By the way, this time we are going to carry out a high-level trial mission. We will enter the underground caves of the demon clan in the southwest of the Southern Territory to explore the movements of some demon clan. It is very dangerous. This Bingyan should tell Junior Brother Ye."

Narcissus Lan looked at Ye Feng and smiled slightly.

She had rich experience and could tell at a glance that Shui Bingyan, the little princess of her own water tribe, had a deep affection for Ye Feng.

So I was very polite to Ye Feng and Narcissus Lan. After all, although Shui Bingyan is not as high as her now, she has unlimited potential in the future.

"I already know all this, and I choose to join."

Ye Feng said immediately.

"Okay, then I will introduce our small team to you."

Narcissus Lan looked at the other three people standing next to her.

They are a thin man in yellow clothes, a cold man in a gray gown, and a beautiful woman in palace clothes with a classic atmosphere.

"These three people were admitted to Poseidon Academy together with me. During the Hundred Dynasties War, we were all supreme geniuses."

Narcissus Lan pointed at the thin man in yellow clothes and introduced to Ye Feng: "This senior brother is called Huang Wu, a seven-time death-killing master and a middle-level student.

"

"Hello, Senior Brother Huang."

Ye Feng clasped his fists and said with a slight smile.

"Junior brother Ye, you're welcome."

Although Huang Wu is thin and small, he gives people a sense of heavy and powerful momentum. It seems that he is practicing a kind of inheritance of opening and closing. He clasped his fists and

returned the greeting: "Junior brother Ye who can make the water tribe princess so enamored must have his own qualities." Extraordinary."

When Ye Feng heard what Huang Wu said, he couldn't help but look slightly surprised.

Shui Bingyan's face turned slightly red, but she didn't say anything.

Narcissus Lan just smiled slightly when she saw this. She pointed at the second cold man in gray and said: "This senior brother is called Shi Kongfan. He has extremely powerful swordsmanship. Now he has not only entered the eight-time life-threatening realm, but also He is a Dacheng Sword King who once killed a nine-time fatal monster with one sword. In terms of combat power, he is the most powerful among us."

"Hello, Senior Brother Shi."

Ye Feng's eyes moved and he immediately clasped his fists.

"Junior brother Ye has a sharp sword intent, which makes me a little afraid."

Shi Kongfan made a sound and then stopped talking.

He seemed to be so cold by nature, not deliberately pretending to be cold in front of Ye Feng, but also to other people.

Ye Feng didn't care at all, he just smiled and said: "Now I can understand the realm of Dacheng Sword King. Compared with Senior Brother Shi, I am still far behind."

For a whole year in the foreign battlefield, Ye Feng never had the opportunity to learn the art of swordsmanship, and it was a bit wasted.

However, the three earth-shattering sword moves that Uncle Nan once taught him allowed Ye Feng to burst out terrifying and boundless sword power at a very low level of swordsmanship.

However, the artistic conception of kendo is the foundation of sword practice. Ye Feng thought that he must continue to improve his kendo if he had the chance.

After entering Poseidon Academy, Ye Feng found that there were too many geniuses. For example, Shi Kongfan, just an ordinary middle-level student, mastered the artistic conception of Dacheng Sword Emperor, which was really shocking.

As expected, the overlords in the Southern Region were the places where countless geniuses gathered.

"My name is Liu Piaopiao."

The last young woman in palace attire had already stretched out a small white hand towards Ye Feng before Narcissus Lan could introduce her.

This young woman in palace attire has a kind of classic beauty. Her beautiful eyes are deep, and she stares at Ye Feng and says: "I am very happy to meet such a handsome junior brother, Junior Brother Ye."

Junior brother?

Ye Feng secretly smiled in his heart. If his identity as Senior Bai's disciple was exposed, I'm afraid these students would all call him their master.

However, Ye Feng didn't care about these false reputations. He smiled slightly, stretched out his hand and gently shook the classical beauty Liu Piaopiao, and said: "Senior Sister Liu."

Ye Feng wanted to let go, but found that Liu Piaopiao had been squeezing his hand.

When Shui Bingyan saw this scene, her cold eyes couldn't help but reveal an inexplicable look.

Narcissus Lan pulled Liu Piaopiao's hand away with a headache and said: "Liu Piaopiao, I brought you out this time so that you can use your racial talent to help us predict danger. This Junior Brother Ye is serious. Man, put your little thoughts away."

Ye Feng's eyes were slightly stunned, not knowing what Narcissus Blue meant.

Huang Wu walked up to Ye Feng at this time, leaned into his ear, and whispered: "Junior brother Ye, you don't know that your senior sister Liu Piaopiao is not a human race, but a snake tribe."

"Snake clan? Snake demon?"

Ye Feng's eyes were slightly shocked. He didn't expect that such a beautiful woman who looked very classical was actually a snake demon.

Huang Wu nodded and said: "Junior brother Ye, you'd better stay away from this Liu Piaopiao. She likes to charm pure young people like you. Don't be charmed and lose your life and wealth."

"Don't listen to their nonsense."

Liu Piaopiao pushed Huang Wu away and stood next to Ye Feng. She said in a soft voice, "I am just very interested in Junior Brother Ye and have no other thoughts. Junior Brother Ye, don't be afraid. My sister won't eat it." "

"enough!"

Shui Bingyan couldn't stand it any longer. The water tribe princess got a little angry and stretched out her hand to pull Ye Feng to her side. Then she muttered: "Snake spirit."

"Okay, let's go straight away, don't waste any time."

Narcissus Lan spoke up, with a serious tone, and said: "The underground cave is the territory of the demon clan. It is very dangerous. No one should be careless. Our main goal this time is to detect the recent movements of the demon clan and then return to the sect. Just report it and the contribution points will be divided equally."

Shi Kongfan nodded, touched the ice crystal long sword exuding cold air on his waist, and said in a murderous tone: "This time I will kill more demons to completely complete my conception of the Dacheng Sword Emperor. "

The next few people walked directly towards the central area of Poseidon Academy.

Ye Feng was a little confused as to why they didn't go outside the academy.

Shui Bingyan whispered in his ear: "There is a super-large cross-domain teleportation array in the center of the academy. By spending some contribution points, we can directly teleport to a Poseidon Academy stronghold not far from the underground cave."

Ye Feng nodded suddenly. It seemed that Poseidon Academy had set up strongholds in many places in the Southern Territory, and all of them were imprinted with teleportation arrays that could connect to the center of the academy. They were like a network that spread throughout the Southern Territory.

"It's really a big deal. This is the terrifying foundation of the overlord's power..."

Ye Feng couldn't help but sigh.

Chapter 499 Mineral Deposits

Buzz!

Following a burst of extremely strong spatial fluctuations, Ye Feng and others in the teleportation array at the center of Poseidon Academy disappeared instantly.

...

In a small town hundreds of millions of miles away from the base camp of Poseidon Academy.

A noble palace stands in the center of the small town.

At this time, inside the palace, the formation patterns on the ground suddenly began to glow.

boom!

Following a violent spatial fluctuation, the figures of several young people were immediately revealed.

It was Ye Feng, Shui Bingyan, Narcissus Lan, Huang Wu, Shi Kongfan and Liu Piaopiao.

They spent six low-grade holy stones, used the large teleportation array at the center of Poseidon Academy, and arrived at a town very close to the underground cave almost in an instant.

At this time, Ye Feng and the others walked out, and immediately saw that the entire town was not big, and even a little dilapidated and deserted.

This palace standing in the center of the town is where Poseidon Academy has set up a stronghold.

"Look, he's a disciple of Poseidon Academy!"

"The aura of each one is so powerful, so noble."

At this time, many people around saw Ye Feng and others coming out, and their eyes showed awe.

Even the various wandering warriors and vicious mercenaries living in the town had restrained their murderous aura at this time and did not dare to show it for fear of disturbing this group of distinguished Poseidon Academy disciples.

"The underground cave we are going to is not far from here. Let's just go there."

At this time, Narcissus Lan took out a map from the storage ring, found a direction and immediately sped away.

Naturally, Ye Feng and others followed immediately. This time, according to the steward in the sect mission hall, it seemed that the demon clan in the underground cave was indeed planning to make some big move, so time was running out.

Soon a few people crossed the boundless wilderness and came to a barren mountain.

At the very front of the barren mountain, there is a deep entrance that is as tall as a person.

That is the entrance to the underground cave.

"Uh-huh!"

Several people rushed into it instantly. It was very narrow at first, only big enough for one person to walk across, but after walking for more than ten steps, everyone's vision suddenly became clearer.

In front of them, an extremely dark underground world appeared.

this place

The cave at the bottom is different from what Ye Feng imagined.

Everything in front of him seemed as if this was not a cave at all, but a vast underground world.

"The demon clan lives here, let's be careful."

Narcissus Lan, as the captain of the team this time, couldn't help but remind everyone to be cautious.

Ye Feng and others nodded, their eyes becoming serious.

You know, in this underground world, there are countless demon creatures.

In the deep underground areas, even the powerful human race dare not break in rashly, as they may be killed.

"We can just search and explore in this peripheral area. If we can find some underground mineral deposits, mark the location and report it back to the academy, we can also get a lot of contribution points."

At this time, Huang Wu spoke up, with a hint of excitement in his eyes, saying: "Although the underground world is extremely dangerous, there are also countless treasures buried there, those precious and rare materials, gems and rare materials for forging powerful warriors. Metals, and some mineral veins, if we can find them, we will make a fortune."

Shi Kongfan, who was carrying the ice crystal sword on his back, nodded and said: "As long as we don't get close to the depths, we won't anger some taboo beings, and we will be safe."

"Don't worry, you won't encounter any danger with me here." Liu Piaopiao covered her mouth and laughed.

She is a snake demon who has awakened a racial talent. She can sense any danger within a hundred meters, which is very magical.

This kind of magical talent may not be of much use in the daily practice in the academy.

But once you get out of the academy, in this wilderness, when exploring in this dangerous place, it does have an extremely huge effect.

And this is why Liu Piaopiao likes to cause trouble, but Narcissus Lan is still willing to take her out.

Because Liu Piaopiao is by their side, not only will they avoid all dangers and crises, but their safety factor will definitely rise sharply.

Tap tap tap...

Tap tap tap...

This underground world is extremely desolate, the ground is covered with sand and dust, and people's feet make crisp sounds when they step on it.

"Squeak!"

Suddenly at this time

, a fist-sized black scorpion suddenly emerged from the dust on the ground, and instantly bit Shui Bingyan's leg.

"Pfft!"

Ye Feng had quick eyes and quick hands, and directly pointed out a sword energy with one finger, piercing the black scorpion and splitting it in half.

"Thanks."

Shui Bingyan looked at the dead ferocious black scorpion, and immediately thanked Ye Feng with a pale face.

"Everyone, be careful."

Narcissus Lan said at this time: "The threats in this underground world are not only from the demon clan, but also many other dangers, such as the poisonous insects that suddenly emerge from the sand on the ground. Once bitten, it will definitely kill you." You're losing half your life, so be careful."

Everyone looked at the dead fist-sized ferocious black scorpion on the ground, and nodded in fear.

"Let's go to a mine first. There are miners from our Poseidon Academy working there to see if we can find out anything about the recent news about the demon clan in the underground world."

Narcissus Lan, a master who has killed nine times, is obviously not the first time he has come to this underground world.

She was very familiar with it and quickly led everyone towards a certain direction.

Soon a huge barren mountain appeared in everyone's field of vision.

In that barren mountain, a kind of extremely pure spiritual energy is exuding all the time.

This is an underground holy stone vein!

Great value!

"Not good! The air smells of blood!"

Narcissus Lan's expression suddenly changed, and an ice-blue scimitar instantly appeared in her hand, flying towards the mineral deposit.

"Qiang!"

Shi Kongfan also instantly pulled out the ice crystal sword on his back. His whole body was enveloped in sword energy, turned into a sword light, and rushed into the mine in an instant.

"Let's go, follow!"

Ye Feng and Shui Bingyan looked at each other and followed immediately.

When they entered the mine, they found that Narcissus Lan and Shi Kongfan's weapons were dripping with black blood.

On the ground, several corpses of demons were lying there, recently dead.

"this....."

At this time, the entire mine was empty, and all the spiritual stones and holy stones had disappeared.

"

This mineral land was robbed by the demon clan, and all the miners at Poseidon Academy died. "

Narcissus Blue's voice was a little deep.

"I'm afraid it's more than that."

At this time, Ye Feng suddenly spoke up.

"What did Junior Brother Ye find?"

Everyone looked towards Ye Feng.

At this time, Ye Feng stretched out his hand, grabbed a ball of air, and sensed it carefully.

He closed his eyes and said: "What remains in the air is not only the aura of the demon clan, but also the aura of the troll clan, the Yaksha clan, and the Shura clan."

Ye Feng had previously pretended to be the leader of the demon clan for a period of time in the battlefield outside the territory, so he was very sensitive to the auras of different races of the demon clan and could distinguish them in an instant.

"What?"

At this time, everyone couldn't help but be shocked when they heard Ye Feng's words.

Although they didn't know how Ye Feng could distinguish so many auras, they knew that it was impossible for Ye Feng to joke about such a thing.

At this moment, even Narcissus Lan, a senior student and a nine-time fatal master, looked extremely solemn.

"No wonder the entire mine has been emptied. I was still wondering just now. The demon clan alone does not have the power to wipe out all the miners and guardians of our Poseidon Academy so quickly, and emptied the entire mine."

Narcissus Lan's voice was solemn at this time, and he murmured: "With so many different demon clans suddenly appearing in this underground world, is there really something earth-shattering about to happen?"

Ye Feng's eyes flashed slightly at this time and said: "Senior Sister Xianlan, are there any other mineral deposits nearby?"

Narcissus Lan nodded and said: "There are many other human mineral deposits, but they do not belong to our Poseidon Academy. There are also several from the Holy Ancestor Dynasty, Taixuan Sword Sect and Netherworld Demon Sect."

"Let's go take a look together."

Ye Feng spoke up, and had a bad guess in his heart, saying: "So many demons suddenly appeared, and they even went to war with the overlords of the human race to rob these minerals. I'm afraid they are accumulating holy resources. Shi, want to do something."

"possible!"

Narcissus Blue's eyes immediately changed.

At this time, Shi Kongfan also spoke in a serious tone: "Let's go check out other mineral deposits quickly."

Chapter 500 Magical Treasure

When everyone arrived at the second mine, they saw the same scene.

All the human miners inside were dead, and all the holy stones in the mines had been snatched away.

Everyone's faces were very ugly. Unexpectedly, Ye Feng guessed it. This group of demons suddenly became so crazy. What did they want to do?

Narcissus Blue's beautiful eyes were very ugly at this time, and she said: "I think we have really discovered the big secret. In this underground world, so many demons from different branches suddenly appeared. They united together to single out our overlord forces. They started with the huge mineral deposits and robbed so many holy stones. What on earth do these extraterrestrial demons want to do? "

Ye Feng looked around at this time and caught an unusual aura. He immediately said: "The demons in this mine haven't been gone for too long. Let's follow up and have a look."

"good."

Everyone stared at Ye Feng in amazement. They did not expect that Ye Feng had such a magical method and could track the demons.

At this time, Shui Bingyan's cold beautiful eyes were staring at Ye Feng, seeming to be thinking about something. .??.

"Probably not, that demon leader clearly exudes such terrifying evil energy..."

Shui Bingyan murmured in her heart. At this time, in her eyes, she only felt that Ye Feng and a certain figure in her mind overlapped.

But she shook her head and didn't think about it any more. There was no point in thinking about these things now.

Soon everyone followed Ye Feng across a large desert and arrived at a very remote place.

In an oasis not far away, there stood a huge cliff. There was a huge mine under the cliff. At this time, tall demons were standing outside the mine, seemingly guarding it.

"This mine belongs to the Taixuan Sword Sect." Narcissus Lan pointed at a stone tablet outside the mine not far away and said.

The stone tablet was light green in color, with a sword-shaped imprint carved on it, and its infinite edge shone through.

But at this time, the stone tablet was already dyed red.

Blood.

Apparently, the Taixuan Sword Sect's mineral deposits have been occupied by demons, and all the miners inside have been killed.

At this time, Narcissus Blue wanted to go up and kill those demons directly.

But Ye Feng immediately grabbed her and said, "Don't alert the enemy, I'll go check it out first."

"How to find out?"

Narcissus blue eyes were confused.

"Wow!"

Ye Feng took out a set of black robes from his arms and immediately wrapped himself up, with his face also covered by a huge hood.

The next moment, he released a strong aura of extraterrestrial demons all over his body.

This is an extremely pure evil spirit, which is different from the evil spirit of human demon practitioners.

"What?"

At this moment, Narcissus Lan and Shi Kongfan had extremely horrified looks in their eyes.

They faced the figure wrapped in black robes beside them and sensed the rich and pure aura of extraterrestrial evil spirits, and they almost couldn't help but take action directly.

It felt like an extraterrestrial demon was standing beside them.

At this time, Shui Bingyan was the most shocked, because she immediately understood that the demon leader wearing dark gold armor in the outer battlefield was Ye Feng!

"No wonder he finally achieved emperor-level luck. The most precious shrine in the Holy Demon Cemetery finally fell into Ye Feng's hands."

Shui Bingyan didn't say anything. All she felt was wonder at Ye Feng's methods, which were incredible!

"I'll blend in first and see how the situation is inside the mine. You guys wait for my news outside."

Ye Feng said and lurked directly towards the mineral deposit.

The last time on the battlefield outside the territory, Shang grafted the evil spirit into his body and pretended to be the leader of the demon clan.

When Ye Feng finally came out of the battlefield outside the territory, he thought that the evil spirit might be used in the future, so Ye Feng did not disperse the evil energy at that time, but compressed the evil energy into a small Group energy is stored in his body.

This time, it really came in handy.

The two demons guarding the entrance to the mine were not powerful. Ye Feng was enveloped by the aura of the extraterrestrial demons, and they were unable to notice the black-robed figure in the darkness.

Uh-huh!

Ye Feng took advantage of the fact that the two demons were not paying attention, and instantly used Thunder Flash, and entered the mine in a flash.

"Is it too dangerous?"

Narcissus Lan looked at Shui Bingyan outside and asked.

"Don't worry, his methods are magical and there will be no problem. We can just wait quietly outside."

Shui Bingyan was very confident in Ye Feng and said with a smile.

Back then, on the battlefield outside the territory, he was able to sneak into the leader of the demon clan and compete with many super clans.

There is no way something could go wrong with such a small deposit.

At this time, Ye Feng had already entered the mine.

He saw an extremely shocking and magical scene.

In the center of the mine, a dozen powerful demons stood there.

The demon leader in the center was holding a strange, arm-thick transparent glass tube in his hand.

Buzz!

At this time, the demon leader opened one end of the transparent glass tube, and Ye Feng immediately saw that countless energy-containing spiritual stones, holy stones, and other stones in the mine that had not yet been mined were drained out of the stones in an instant. Yun

The hidden energy then turned into pieces of divine light and was sucked into the transparent glass tube.

The transparent glass tube was originally dim, but the next moment it emitted a bright divine light.

As the ore in the entire mine is depleted, the divine light in the transparent glass tube becomes more and more intense, exuding an extremely powerful energy fluctuation.

"This group of demons actually have such a magical treasure in their hands. A small transparent glass tube can contain all the energy in the entire huge mineral vein. It's incredible."

For the first time, Ye Feng had a deep regard for this group of extraterrestrial demons.

Because in the understanding of many human races, although these extraterrestrial demons are powerful in individual combat, they are far inferior to the powerful and creative humans in terms of weapon refining and inheritance.

But now, seeing that the small transparent glass tube in the hands of the leader of the demon clan had such magical functions, Ye Feng immediately had a huge change in his view of the demon clan.

"Boy Ye Feng, these demons seem to have extraordinary origins. They may be from the noble lineage of the demons, and they actually possess such magical treasures."

At this time, Shangdu's voice was filled with a hint of surprise, and he spoke in his mind.

When this old demon dragon was practicing a long time ago, he had been to the territory of the demon clan and stayed for a long time. He was very familiar with the demon clan. It knew very well that ordinary demon clan could not even build a decent soldier. It is impossible to have that magical transparent glass cylinder treasure in your hands.

"A noble among the demons?"

Ye Feng felt more and more that this time the demons in the underground world were moving, it was definitely a big move, it was not simple.

But now Ye Feng couldn't control that much. He rushed forward and instantly released a huge amount of power to kill the demon leader.

What he wants is exactly the transparent glass tube in the hands of the demon leader that stores the energy of the entire mineral vein!
