

Ancient 4951

Chapter 4951 The first step

At this time, Ye Feng saw that the entire hall was empty, thought for a moment, and then left here directly.

At this time, after Ye Feng left the Dragon Blood Green Snake's base camp, he flew directly towards the edge of the wilderness and flew quickly.

The place Ye Feng went to at this time was the land of Zhongzhou connected to this vast wilderness.

This time Ye Feng experienced such a thrilling experience in the wilderness, but the benefits he gained were also huge.

Not only did he achieve a breakthrough in his cultivation, but he also successfully attracted the attention of a top demon.

With this relationship, Ye Feng feels that he will have a strong backer in the future. .??.

After all, the future future of the Dragon Blood Green Snake is immeasurable. Once he becomes a demon god, even if he goes to the land of Zhongzhou, he will be treated as a guest by countless large sects.

With such a backer, Ye Feng felt a lot more confident.

At this moment, Ye Feng secretly thought that he was about to leave this vast wilderness area.

Ahead, Ye Feng saw a rich and continuous land, which was the land of Zhongzhou.

When Ye Feng officially set foot on the land of Zhongzhou, he could immediately feel that the aura of heaven and earth in the entire land of Zhongzhou was much richer than other places.

Ye Feng made a rough estimate and found that the concentration of heaven and earth vitality floating on every inch of land in Zhongzhou was definitely dozens of times thicker than that in the Northern Territory where he was before.

This made Ye Feng couldn't help but be a little surprised.

The land of Zhongzhou is indeed the most glorious place in the entire interface of Ten Thousand Demons. There are many strong men and countless talents. No wonder everyone in the entire interface of ten thousand demons wants to squeeze out their scalps and enter the land of Zhongzhou to practice, especially those super people who have worshiped in the land of Zhongzhou. Among the bulk.

You must know that many of the many super sects in Zhongzhou were inherited from the age of gods hundreds of thousands of years ago.

In the hands of each super sect, it is estimated that they hold the inheritance and magic weapon of the ancient god level, which can suppress the heritage of a sect for tens of thousands of years, or even tens of thousands of years.

One hundred thousand years.

However, according to Ye Feng's understanding, he holds the token that the eldest princess Dongfang Yue gave him before, and the super sect he wants to enter is called the Divine Phoenix Sect.

This Divine Phoenix Sect does not seem to be inherited from the age of gods hundreds of thousands of years ago, but is a super sect that emerged in the land of Zhongzhou in the later period, so its foundation may not be as powerful as other super sects.

However, the fact that the Divine Phoenix Sect can be a rising star, alongside some of the established super sects, and become a super sect-level existence in the entire land of Zhongzhou is enough to show that even if the Divine Phoenix Sect is not inherited from the ancient era of gods, the sect's heritage is still very rich. Otherwise, If so, it would be impossible to stand on an equal footing among the many established super-bulkers.

After Ye Feng entered the land of Zhongzhou, he soon came to a small city.

In this small city, most of them are very ordinary cultivators. Of course, there are also young geniuses from other remote places, such as the Eastern Region or the Western Wilderness. They also want to enter the super sect like Ye Feng, but most of them Their cultivation strength is not very good. After all, the so-called young geniuses from small places cannot all be monsters like Ye Feng.

Ye Feng restrained his cultivation aura, so no one noticed that Ye Feng was a top genius.

Ye Feng came to this small city just to rest for a night and to understand the current division of power in Zhongzhou.

There is also the Divine Phoenix Sect, which is approximately how far away from here.

After all, Ye Feng now holds the token that allows him to directly enter a super sect like the Divine Phoenix Sect and become an official disciple of a super sect like the Divine Phoenix Sect.

Then the first thing Ye Feng had to consider was naturally to join the Divine Phoenix Sect, not to mention that there was also his old friend in the Divine Phoenix Sect, Dongfang Yue, the eldest princess who also came from the Blood Demon Dynasty in the Northern Territory.

and

The relationship between the two was very good, so Ye Feng's first consideration was naturally the Divine Phoenix Sect.

After Ye Feng entered the small city, he could immediately see some stalls selling some basic manuals about the land of Zhongzhou. They were basically prepared for young people who came to the land of Zhongzhou from other remote places.

Ye Feng naturally bought one.

In the evening, Ye Feng stayed in the inn and opened this basic introduction to the land of Zhongzhou in his own room.

In the end, Ye Feng gained some understanding of the entire land of Zhongzhou.

Those super sects throughout Zhongzhou are definitely transcendent forces standing at the top of the pyramid.

Of course, there are also some first-rate sects under the super sects, including second-rate sects, three religions and nine sects, all of which can be said to be a mixed bag.

But the ones who really have the initiative are the super tycoons who stand at the top of the pyramid.

There are many first-rate sects, second-rate sects, including three religions and nine sects, and these introduction manuals do not go into details one by one.

What the manual actually introduces are the super-large traders who stand at the top.

Each of these super sects is a well-deserved overlord in the land of Zhongzhou.

The most famous among these super sects, the Divine Phoenix Sect, is among them.

Of course, the entire land of Zhongzhou is vast and infinitely glorious, and there is not only one super sect like the Divine Phoenix Sect, but there are also super sects that are more famous than the Divine Phoenix Sect, including the Ten Thousand Swords Tianmen, the Million Monster Mountain, the Daxuan Dynasty, and the Land of Gods and Demons. Cave, Endless Sea Clan...etc.

Therefore, even the super sects have many, not to mention other so-called forces and alliances that are not popular. This simply makes Ye Feng feel a little dazzled.

Sure enough, the land of Zhongzhou is an extremely glorious place, with so many super sects standing at the highest peak. There is no tripartite confrontation like the Northern Territory, or a southern sect like the Southern Barbarians.

The Barbarian Empire controls the entire Southern Barbarian land.

The entire land of Zhongzhou is too vast and has too many inheritances, so many super sects have been born.

Because this fertile ground for cultivation is enough to breed so many top transcendent powers.

After reading it, Ye Feng became quite clear about the division of power in the entire Zhongzhou land.

In general, the land of Zhongzhou is still in a rather chaotic situation, with various super-large entities emerging one after another and competing with each other.

After looking at it for a while, Ye Feng locked the location of the Divine Phoenix Sect. Ye Feng planned to wait for the next morning to go to the Divine Phoenix Sect. He would use the token left by Dongfang Yue to directly enter the Divine Phoenix Sect and become a member of the Divine Phoenix Sect. A formal disciple.

At that time, you can start to practice the peerless inheritance of a super sect like the Divine Phoenix Sect, and you can also get more cultivation information from the Divine Phoenix Sect, and go to some places in Zhongzhou that contain opportunities to explore resources and creation, and improve your own abilities. Cultivation strength.

Ye Feng knows that he must work hard to use everything in Zhongzhou to cultivate and improve himself. Only in this way can he be qualified to break the shackles of the Ten Thousand Demons Interface and enter the most advanced advanced cultivation interface of the Heavens Interface where the Origin World is located. ,skyline.

And only after entering the heavenly realm, can he find the final secret of the heavenly gods in the heavenly realm, the headquarters of the heavenly gods, and let his immortal body of gods completely enter the Great Perfection.

Only in this way can Ye Feng have the confidence to enter the extraterrestrial world connected to the origin world, enter this higher spiritual dimension world above all the heavens and worlds, and look for his father and mother, including looking for all the various things that happened to the Ye family back then. Ancestors, and seeking greater power.

No matter what, the meal must be eaten one bite at a time and the road must be walked step by step. Although Ye Feng has a big goal in his heart, Ye Feng also knows very well that he must be down-to-earth at the moment and cannot aim too high.

Therefore, the first step is to accumulate one's own strength in the land of Zhongzhou in the interface of ten thousand monsters.

Chapter 4952 Backcountry

It was late at night, and Ye Feng was going to rest directly at the inn.

But before Ye Feng could sleep for a while, Ye Feng suddenly opened his eyes.

Because Ye Feng discovered that at some point, a poisonous gas filled the air.

Uh-huh! .??.

At this moment, Ye Feng immediately got out of bed, slightly opened the window of his room, and looked out at the city streets.

Ye Feng discovered that it was not just his own room that was filled with poisonous gas, but the entire small city was filled with poisonous gas.

But no one noticed, they all seemed to be sleeping soundly, or in other words, most of them had been fainted or poisoned to death.

After all, this small city is just a small city on the edge of Zhongzhou. There are no strong people stationed there. Those who come from south to north are basically adventurers or young geniuses who come here from remote places around Zhongzhou. them.

However, Ye Feng's cultivation was uniquely powerful in this small city, so he noticed the poisonous gas in an instant and was not directly stunned or killed by the poison.

At this time, Ye Feng had some doubts in his heart. Where did the poisonous gas come from? It was produced by nature. It happened to drift to this small city, or someone deliberately poisoned it.

At this moment, Ye Feng was thinking to himself, and suddenly he saw a figure wrapped in a black robe appearing in the dark sky.

This black-robed figure holds an ancient black scepter in his hand. The top of the scepter is inlaid with a dark gem. It seems to be a very powerful poisonous gem, which can emit a colorless and odorless poisonous gas. It can invisibly poison all living creatures around it to death.

At this time, Ye Feng immediately understood that this small fringe city was targeted by such an evil cultivator.

It seems that the land of Zhongzhou is very dangerous, the area is too vast

Well, not every place can be covered by the protection of the super sect. All small and marginal cities without strong righteous people stationed there are very likely to be targeted by some evil independent practitioners and directly destroyed. .

Ye Feng was too lazy to remain silent at this time, because Ye Feng sensed that this evil cultivator in black robes had a cultivation level similar to his own, only one level higher than his own.

So Ye Feng was naturally not afraid and rushed out of his room.

Uh-huh!

Ye Feng jumped and flew directly to the city streets outside.

"Um?"

At this moment, I saw a young man suddenly flying out of the inn, standing in the poisonous gas that filled the streets of the entire city. Nothing happened at all. The evil cultivator in black robes suddenly showed a look of surprise in his eyes. color.

The black-robed evil cultivator immediately couldn't help but said: "Oh? I didn't expect that in this small city on the edge, I would meet such an interesting boy like you, who can withstand my secret release. The dark poisonous gas coming out, it seems that you, a young man, are very special, but you are too impulsive and dare to run out directly in front of me. The most correct thing for you to do is to sneak away. "

Hearing what the black-robed evil cultivator said at this moment, Ye Feng suddenly showed a faint smile in his eyes and said loudly: "Why should I run away? I stand up to get rid of this evil person like you. "

"Hahaha!"

When the black-robed evil cultivator heard Ye Feng's words, he immediately burst into laughter.

He said aloud: "You kid, you are too arrogant. The people who can appear in this small city are basically low-level cultivators from remote places outside Zhongzhou. Do you really think that you are a big sect of Zhongzhou?" Are you a peerless genius in the sect? I can only say that you are too naive and have no idea how much you are worth. You may be a peerless genius among the younger generation in some area outside Zhongzhou, but here you are. Zhongzhou, even if you are only on the edge of Zhongzhou, you are ordinary and cannot be more ordinary."

When he said this, the black-robed cultivator immediately smiled coldly and said loudly: "The reason why I said so much is because you are not a bad boy. If you can bow down in front of me now and accept me as your master, , become my subordinate, maybe I can spare your life, otherwise, your cultivation level is a whole level lower than mine, and your methods all come from remote places, and you can't stand on the stage at all, you are in my In his eyes, he is really ready to kill."

When Ye Feng heard this, he couldn't help but smile indifferently and said: "If you can't get on the stage, you'll know if you give it a try."

boom!

Almost at the moment Ye Feng finished speaking, Ye Feng burst out with the powerful cultivation momentum of the first level of the Lord Realm that he had just broken through, and rushed directly towards the black-robed evil cultivator in front of him.

When the black-robed evil cultivator saw that Ye Feng had taken the initiative to attack, he naturally showed a look of astonishment in his eyes. Then he couldn't help but shook his head and said: "Since you are so ignorant of current affairs, then I will directly kill him." Just kill him! Let your kid know that there are people outside the world."

"Poison Scepter!"

boom!

At this moment, the black-robed evil cultivator directly raised the black scepter in his hand. The poisonous gem on the top of the scepter was immediately

A burst of extremely poisonous black energy burst out, overwhelming the sky, like a dark ocean, surging towards Ye Feng.

The black-robed evil cultivator smiled coldly and said: "Boy, my cultivation level is a whole level higher than yours, and this poisonous scepter is one of the top treasures of our Five Poison Sect. Although the most powerful magic weapon I stole is not as good as those of the famous sects, the Five Poison Sect is considered a local hegemon in this fringe area of Zhongzhou, and it is not something that a kid like you from a remote country can compete with."

At this moment, the black-robed evil cultivator was speaking, his eyes full of contempt, as if he had seen Ye Feng being instantly poisoned to death in the ocean of poisonous gas released by his poisonous scepter.

"boom!"

But at the next moment, Ye Feng's whole body suddenly lit up with a bright golden light. He transformed from an ordinary human boy with golden light all over his body into a young golden god of war. He was not afraid of those dramas. The poisonous aura suddenly passed through the poisonous ocean and rushed in front of the black-robed evil cultivator.

"boom!"

At the moment when the black-robed evil cultivator didn't even react, Ye Feng waved his golden fist and struck hard on the black-robed evil cultivator's head.

Although the evil cultivator in black robes reacted quickly and quickly turned his head, his left shoulder was hit by Ye Feng's golden fist and exploded with a "puff".

"ah!"

The black-robed evil cultivator immediately screamed and said in shock: "What? How is it possible? You come from a remote country, how can you have such a powerful physique? What kind of special physique does your golden body have? , how can you carry my poisonous scepter?"

Chapter 4953 Medicine King

At this moment, the black-robed evil cultivator could be said to be completely stunned because he had underestimated Ye Feng, a so-called young man from a remote area.

Ye Feng's immortal body of a god, with its extremely powerful life essence, could withstand the poisonous energy of this evil cultivator in black robes, and the evil cultivator in black robes was caught off guard.

This black-robed evil cultivator probably could never have imagined that Ye Feng, a low-level cultivator he looked down upon at all, could possess such a high-level and powerful physical strength.

At this time, the evil cultivator in black robe endured the pain of his broken left arm, his forehead was covered with cold sweat, and he gritted his teeth and said loudly: "Which big force nearby are you a disciple of?"

Hearing this, Ye Feng couldn't help but grin and said, "Don't you know, I'm not a disciple of any big force. I come from a remote place outside the land of Zhongzhou."

"you.....!"

Hearing what Ye Feng said, the black-robed evil cultivator's face immediately turned very ugly and livid.

Uh-huh!

At this time, Ye Feng wasted no time, beat the drowned dog, and continued to attack the evil cultivator in black robes.

Ye Feng didn't even need to use any powerful inheritance. Facing this black-robed evil cultivator who only knew how to use poison, his extremely powerful Immortal Body of God was enough to deal with it.

At this time, seeing Ye Feng continuing to rush towards him, the black-robed evil cultivator's eyes suddenly revealed a deeply ugly look, because he knew very well that the poisonous method he was most proud of would not be effective against someone like Ye Feng. For practitioners who are born with special physiques, it is of no use at all.

So at that moment, the black-robed evil cultivator immediately turned around and ran away, apparently thinking that he would not be afraid of running out of firewood if he kept the green hills.

However, Ye Feng naturally would not let this evil cultivator in black robes go. The other party secretly poisoned everyone at night, intending to poison everyone in the entire city, and almost poisoned himself to death.

Therefore, Ye Feng naturally wants to eradicate such a scourge. If it is left, it will definitely be a huge disaster.

Big hidden danger.

"Where to escape!"

At this moment, Ye Feng was chasing the black-robed evil cultivator out of this small city and into the wilderness outside.

Uh-huh!

But at the next moment, the black-robed evil cultivator who was running in the wilderness ahead suddenly stiffened and fell to the ground, killing him directly.

"Um?"

Seeing this scene, Ye Feng's eyes moved sharply. He looked carefully and found that a fiery red arrow appeared on the head of this evil cultivator in black robes.

The head of this black-robed evil cultivator had just been pierced by the fiery red arrow.

"Are there any masters?"

Ye Feng's eyes immediately showed a vigilant look. He didn't know whether the strong man who secretly killed this evil cultivator in black robe was an enemy or a friend.

Although Ye Feng's cultivation is strong, he has to be more cautious now that he has come to the glorious land of Zhongzhou.

After all, this is not a remote place like the Northern Territory, and Ye Feng can walk sideways.

In the land of Zhongzhou, even in the fringe areas, a strong person might jump out at any time, much stronger than Ye Feng.

At this moment, Ye Feng suddenly saw a beautiful young woman wearing a red dress appearing in front of her, walking out of the darkness.

In her hand, she was holding a large fiery red bow. The surface of the large bow was engraved with ancient spiritual patterns and flowing with red fire. It was obviously an extremely powerful magic weapon.

When Ye Feng saw this, he immediately understood that this beautiful woman in a red dress holding a fiery red bow was the master who secretly shot the black-robed evil cultivator just now.

Ye Feng felt carefully

After a moment, his eyes were slightly startled. The other party's cultivation level was a whole realm higher than his own, and he was a master of the soul elixir realm above the Lord realm.

This made Ye Feng couldn't help but sigh. It was indeed the land of Zhongzhou. Although there were people weaker than him, such as the cultivators in the small city before, most of them were much weaker than Ye Feng, but they might risk it at any time. There are extremely powerful beings, such as the beautiful woman in a red dress who suddenly appeared in front of her, and she is still so young.

Ye Feng immediately concluded in his heart that the other party must be a disciple of a big force in Zhongzhou. Although he may not be a disciple of a super sect, he is definitely a disciple of a big force nearby.

Sure enough, before Ye Feng could say anything, the beautiful young woman in a fiery red dress who came not far away glanced at Ye Feng and asked with some surprise: "Which big power is this

disciple of?" ? I was able to hunt down the black-robed protector of the Five Poison Sect and let him escape in panic, so I had the opportunity to shoot him from a distance. I have been following this black-robed protector of the Five Poison Sect for many days. "

When Ye Feng heard this, he knew that the other party was also a righteous person and had no hostility. He immediately smiled and said: "I am Ye Feng. Currently, I have no sect. I come from the Northern Territory. I entered the land of Zhongzhou for the first time in order to worship. Practice among the great forces in Zhongzhou to gain stronger inheritance and power. As for this black-robed protector of the Five Poison Sect, he happened to want to poison everyone in the small city where I live tonight, so I took action. "

"oh?"

When the beautiful young woman in the red dress heard what Ye Feng said, a trace of surprise suddenly appeared in her beautiful eyes. She couldn't help but take a good look at Ye Feng, and said aloud: "Ye Feng? No. Considering that you are from an area outside our Zhongzhou, and that you have such powerful cultivation and skills when you first came to Zhongzhou, it seems that you must be the top powerhouse in the Northern Territory before you."

Hearing this, Ye Feng couldn't help but smile and asked: "I don't know, aunt?"

What is your mother's identity? Why are you following this black-robed protector of the Five Poison Sect? "

The woman in the red dress said loudly: "My name is Mu Qingqing. I come from the first-class sects around, Fire Cloud Sect. The Five Poison Sect and our Fire Cloud Sect are mortal enemies nearby. Therefore, as a disciple of the Fire Cloud Sect, if I can hunt A black-robed protector from the Five Poison Sect can give me a huge amount of sect contribution points, which is a huge asset to me."

When he said this, Mu Qingqing glanced at the body of the black-robed evil cultivator on the ground, thought for a moment, and said aloud: "Ye Feng, this black-robed protector of the Five Poison Sect, if you hadn't severely injured him before, I can't hunt him down, so let's take this black-robed protector's head away. This is my proof of getting the sect's contribution points. As for the storage ring on this black-robed protector and the powerful magic weapon in his hand. How about you accept the poison scepter, Ye Feng?"

When Ye Feng heard this, his eyes moved slightly. Mu Qingqing, who came from the Fire Cloud Sect, was an upright woman who did not take advantage of others. However, Ye Feng also knew

that maybe the other party was afraid that he would snatch everything from the black-robed protector. After all, the premise of respect is that Ye Feng's strength makes the other party fearful.

At this time, Ye Feng immediately grinned and said, "Okay, no problem."

Mu Qingqing harvested the heads of the black-robed protector, then suddenly looked at Ye Feng, as if he had made some decision, and suddenly asked: "Although your Excellency has no family and no sect, and you are even new to the land of Zhongzhou, your cultivation skills are definitely Unusual, I wonder if you, Ye Feng, are interested in going with me to the nearby "Ten Thousand Poison Valley" in the hinterland of the Five Poison Sect to look for the rumored King of Medicines, "Shen Kucao". It is said to be the most advanced medicinal material of the Five Poison Sect and is worth a lot of money. Liancheng is of great benefit to the tempering of the practitioner's life constitution. Not only are we, the disciples of the Fire Cloud Sect, looking for that medicine king, but it is said that some other first-class powers around, such as Lei Jian Villa, Baibao Hall, etc. , are all looking for the King of Medicines, 'Shendongcao'. I am alone and unable to support myself. Ye Feng, are you interested in forming a team with me?"

Chapter 4954 Ten Thousand Poison Valley

Hearing Mu Qingqing say this, Ye Feng's eyes suddenly showed a trace of interest.

Anyway, Ye Feng came to the land of Zhongzhou for the first time and was not familiar with everything around him, so it was a good choice to follow the local Mu Qingqing to explore the opportunities and fortunes and get familiar with the various cultivators and forces in the land of Zhongzhou.

Moreover, Ye Feng knew very well that disciples from marginal sects like Mu Qingqing were so powerful, let alone a super sect like the Divine Phoenix Sect that he was going to, and his disciples would definitely be even more terrifying.

Therefore, Ye Feng is not in a hurry to go to the Divine Phoenix Sect now. It seems to be a good choice to practice on the edge of Zhongzhou to continue to improve his strength.

At this time, Ye Feng looked at Mu Qingqing in front of him and said with a smile: "Since Miss Mu invites you so kindly, then naturally there is no problem for me. I am also very interested in good things like Medicine King, but If you want to enter the hinterland of the Five Poison Sect, the Ten Thousand Poison Valley, which Miss Mu mentioned, it will probably be very difficult, and you will definitely encounter strong guards from the Five Poison Sect."

Ye Feng is still very wary of the background of these forces in Zhongzhou. After all, he is just a black-robed protector with such powerful cultivation and strength, let alone an entire Five Poison Sect.

When Ye Feng said this, a smile appeared on Mu Qingqing's beautiful face, and she said: "Originally, this was indeed a point to worry about, but we have already killed all the people from the Five Poisons. The black-robed guardian of the Wudu Sect must have a map of the Five Poison Sect on his body. As long as we follow the guidance on the map of the Five Poison Sect, we can safely reach the hinterland of the Five Poison Sect, the Ten Thousand Poison Valley. "

"yes."

When Ye Feng heard this, he immediately picked up the black-robed guardian's storage ring from the ground. After searching it carefully, he found a map in it.

This map is the internal map of the Five Poison Sect.

Ye Feng looked at Mu Qingqing in front of him and said with a smile: "It seems that Miss Mu has already thought about everything. Miss Mu is chasing the protector of the Five Poison Sect not only to get the sect's contribution points, but also to get the sect's contribution points." I think I want to get the map and clues to enter the Ten Thousand Poison Valley in the hinterland of the Five Poison Sect from this black-robed protector of the Five Poison Sect."

"That's right."

Mu Qingqing nodded, staring at Ye Feng with her beautiful eyes, and said loudly: "Now that the map has been found, let's set out together and try to reach the Ten Thousand Poison Valley of the Five Poison Sect as soon as possible. After all, this is It's not just our Fire Cloud Sect who wants to get the King of Medicine in the Ten Thousand Poisons Valley, there are also Thunder Sword Villa, Baibao Hall, and even the Five Poison Sect itself who want to capture this innate plant. The king of medicines raised, the sacred withered grass."

When Ye Feng heard this, he nodded immediately and said, "Okay, let's set off directly."

When he said this, Ye Feng put the body of the black-robed protector of the Five Poison Sect into his storage ring, and silently devoured the opponent's blood and energy.

Of course, the cultivation level of this black-robed protector of the Five Poison Sect is only one level higher than Ye Feng's current level. Therefore, after devouring it, Ye Feng's real cultivation level did not directly improve, but his skill did increase a lot in an instant. few.

At this time, Ye Feng didn't say much, but silently followed Mu Qingqing, looking at the map, quickly heading towards the Ten Thousand Poison Valley of the Five Poison Sect.

On the way, Mu Qingqing looked at Ye Feng beside him and reminded him loudly: "Ye Feng, you came to our land of Zhongzhou from a small place like the Northern Territory. Do you have any other plans now? For example, join a big force. middle?"

Ye Feng smiled slightly and said aloud: "I want to join the top super sects in Zhongzhou."

"Um?"

Hearing what Ye Feng said, Mu Qingqing immediately showed a look of surprise in his eyes, and couldn't help but smile and said: "It seems that you are not unfamiliar with our Zhongzhou land. You all know that the most powerful person in our Zhongzhou land is , are those super sects who stand at the top of the pyramid, but it is very difficult to enter such a super sect. Even the most amazing and brilliant super geniuses in our generation of Fire Cloud Sect are not qualified to join the super sect. In order to become a disciple of the super sect, Ye Feng, I advise you to be more pragmatic and join a first-class force in the fringe area such as our Fire Cloud Sect before considering higher-level things."

When Ye Feng heard what Mu Qingqing said, his eyes immediately showed a smile and said, "I have my own plan for this."

Hearing what Ye Feng said, Mu Qingqing nodded and said nothing more.

And then, with the two people rushing one after another, in less than three days, they had arrived at the territory of Wudu Sect.

According to the map in their hands, the two of them successfully bypassed the various hidden sentries at the Five Poison Gates along the way without alerting the enemy, and arrived at the Ten Thousand Poison Valley smoothly.

A large stretch of mountains appeared here. Although the mountains were not high, there were ten or twenty mountains, all connected together. There were black trees and forests everywhere, giving people a very terrifying sense of depression.

Moreover, Ye Feng and Mu Qingqing also discovered that there were really more and more poisonous insects in the grass on the ground, and they could be seen almost everywhere.

Mu Qingqing seemed to have a natural fear of those ferocious poisonous insects, and couldn't help but said: "Ye Feng, when we are looking for that medicine king in this valley of ten thousand poisons, we must be careful of the poisonous insects everywhere. I heard that the five most powerful poisonous insects of the Five Poison Sect exist in the Ten Thousand Poison Valley. Once they are poisoned, they may die instantly. "

When Ye Feng heard what Mu Qingqing said was so serious, he didn't have any big fluctuations in his heart, because Ye Feng's own body constitution was really ridiculously strong.

You must know that the poisonous gas in the poisonous scepter in the hands of the black-robed protector of the Five Poison Sect did not have much harm to Ye Feng, which is enough to show that Ye Feng's current immortal body of the gods at the fourth level of the sixth stage is still very powerful, and some ordinary poisonous insects and poisons are not afraid at all.

At this moment, Ye Feng and Mu Qingqing didn't say anything more, but went directly into the continuous valley of ten thousand poisons, trying to find the recently appeared King of Medicines, the sacred withered grass.

And just when the two of them had been searching for a while, a very weak wave sound suddenly came from a certain direction not far away.

The voice was very weak, but Ye Feng and Mu Qingqing, both young masters, noticed it in an instant.

Mu Qingqing's beautiful eyes flashed, and she immediately said loudly: "Is it possible that we were a step too late and that masters from other forces discovered the Medicine King in advance? Let's go over and have a look."

Chapter 4955 Baibao Hall

Mu Qingqing knew very well that the masters who came to the Ten Thousand Poison Valley to look for the Medicine King this time were not only her and Ye Feng, but also masters from other first-class powers around, including the Five Poison Sect themselves.

At this moment, a slight power fluctuation came from the distance, which made Mu Qingqing immediately alert and quickly flew in that direction.

Ye Feng didn't hesitate at all. He followed Mu Qingqing and flew in that direction, wanting to see if someone had really found the Medicine King one step ahead.

But when they arrived at the direction where the power wave came from, the two of them suddenly looked at each other for a moment.

It turns out that the power fluctuation is not the appearance of the King of Medicine, but a large area of poisonous insects and poisonous substances, all of which are fighting together to compete for a red bead growing in the middle of the lake ahead.

This crimson round bead grows in the stamen of a huge lotus in the middle of the lake.

When Mu Qingqing saw this scene, she couldn't help but reveal a hint of surprise in her eyes, and couldn't help but say: "This crimson round bead that can attract so many poisonous insects and poisonous creatures to fight for is probably very extraordinary. It is born with Good things to raise."

Ye Feng nodded slightly and flew quickly towards the middle area of the lake, hoping to plunder the crimson bead that he suddenly encountered.

But Mu Qingqing next to her immediately grabbed Ye Feng's arm and couldn't help but said: "Ye Feng, what are you doing? Don't be impulsive. Everything around the lake is densely packed with poisonous insects and poisons. If you snatch the crimson bead from the lotus in the past, you will definitely be attacked by countless poisonous insects and poisonous creatures. With your current cultivation level, we simply cannot withstand the attacks of so many poisonous insects and poisonous creatures in the Ten Thousand Poison Valley."

Hearing this, Ye Feng couldn't help but smile and said: "Don't worry, although my current cultivation level is not very powerful, my physical strength is enough for me to deal with these poisonous insects and poisons."

Uh-huh!

After saying that, Ye Feng jumped up and rushed towards the middle of the lake quickly.

Seeing this scene, Mu Qingqing's beautiful eyes suddenly showed a look of helplessness. It seemed that she didn't expect Ye Feng to be so impulsive. You know, this is the Ten Thousand Poison Valley of the Five Poison Sect. Every poisonous insect and poison is extremely poisonous. It is high-grade and has strong toxins, which are not comparable to the poisons found in other small places outside Zhongzhou.

Obviously, Mu Qingqing felt that Ye Feng came from a small place like the Northern Territory and was a bit too confident. He did not understand that the land of Zhongzhou was completely different from other small places. Any existence in the land of Zhongzhou would be much more advanced and dangerous. .

But the next moment, before Mu Qingqing could think about it, she saw an incredible scene.

I saw Ye Feng rushing into the lake. Those poisonous insects and poisonous creatures attacked Ye Feng, but they were unable to poison Ye Feng.

The poison of those poisonous insects seemed to have lost its effect in front of Ye Feng's body and constitution.

"this....."

Seeing this scene, Mu Qingqing's beautiful eyes immediately widened slightly. She seemed to have never expected that Ye Feng actually had such a strong physique and was not afraid of the poison of these advanced poisonous insects.

At this moment, Ye Feng rushed to the middle area of the lake in an instant, stretched out his hand, and fiercely took out the lotus flower.

A crimson round bead was picked out.

At this time, Ye Feng could feel that this crimson bead contained very powerful energy of heaven and earth, and also contained the power of creation between heaven and earth. No wonder it attracted so many poisonous insects and poisonous creatures to fight and fight for it.

But in the end, the crimson bead growing from the lotus became Ye Feng's bag.

At this moment, the moment Ye Feng picked up the crimson bead, he returned directly.

But not before Ye Feng came to his partner Mu Qingqing.

Uh-huh!

Suddenly, in the surrounding dark jungle, a silver steel needle as long as an arm suddenly flashed out, and it stabbed directly towards Ye Feng's head, seeming to take Ye Feng's life instantly.

"Uh-huh!"

However, Ye Feng's reaction was very fast. After all, Ye Feng was still a soul master with terrifying perception, so Ye Feng instantly stretched out his hand and clamped the arm-long silver steel needle in an instant!

"This is Baibaotang's Void Silver Needle. It is the ninth hidden weapon in Baibaotang's weapon spectrum!"

At this moment, when he saw the silver steel needle that Ye Feng clamped not far away, Mu Qingqing on the other side immediately changed his face slightly and said loudly: "In the dark jungle around here, there are masters from Baibaotang." Lurking, it seems that he has been here a long time ago, and he wants to plot the crimson bead in the lotus, but he doesn't dare to confront the poisonous insects and poisons head-on. Now that he sees that Ye Feng has obtained the crimson bead, he secretly wants to Assassinate you."

Ye Feng held the silver steel needle in his hand at this moment, and a cold look suddenly appeared on his face, and he said loudly: "You dare to plot against me, then I will pull him out and kill him completely!"

Ye Feng is not a vegetarian. Even though he is new to Zhongzhou, he is not afraid of offending any so-called first-rate powerful forces.

Uh-huh!

So at this moment, Ye Feng almost didn't hesitate and flew quickly in the direction of the silver steel needle, rushing into a dark jungle ahead.

"Wow!"

The next moment, the dark jungle exploded, and a young man wearing black clothes jumped out of it with a hint of surprise in his eyes. He couldn't help but said: "I didn't expect you to have such a name. This unheralded boy can actually evade the assassination of my Void Silver Needle in an instant. He is worthy of being roped in by Mu Qingqing, the core disciple of the Fire Cloud Sect, as his helper. You should also come to the Ten Thousand Poison Valley to find that Medicine King."

At this moment, seeing the young man in black clothes showing his true face, Mu Qingqing, who was not far away, suddenly changed his face and said, "Third Young Master of Baibaotang? I didn't expect that a medicine king would treat you with such a distinguished status. The three young masters were all attracted."

Mu Qingqing immediately looked at Ye Feng and said loudly: "Ye Feng, let's retreat quickly. This is the third young master of Baibaotang. He is one of the most powerful top geniuses near us. He is very powerful and has treasures on his body. There are many, you are no match, but if we retreat together, he will not dare to continue to entangle."

"retreat?"

When Ye Feng heard what Mu Qingqing said, his eyes flashed fiercely, and he stared at the so-called Third Young Master of Baibao Hall not far away, and said loudly: "He almost assassinated me just now, and he will definitely die today!" Mu Qingqing knew very well that the masters who came to the Ten Thousand Poison Valley to look for the Medicine King this time were not only her and Ye Feng, but also masters from other first-class powers around, including the Five Poison Sect themselves.

At this moment, a slight power fluctuation came from the distance, which made Mu Qingqing immediately alert and quickly flew in that direction.

Ye Feng didn't hesitate at all. He followed Mu Qingqing and flew in that direction, wanting to see if someone had really found the Medicine King one step ahead.

But when they arrived at the direction where the power wave came from, the two of them suddenly looked at each other for a moment.

It turns out that the power fluctuation is not the appearance of the King of Medicine, but a large area of poisonous insects and poisonous substances, all of which are fighting together to compete for a red bead growing in the middle of the lake ahead.

This crimson round bead grows in the stamen of a huge lotus in the middle of the lake.

When Mu Qingqing saw this scene, she couldn't help but reveal a hint of surprise in her eyes, and couldn't help but say: "This crimson round bead that can attract so many poisonous insects and poisonous creatures to fight for is probably very extraordinary. It is born with Good things to raise."

Ye Feng nodded slightly and flew quickly towards the middle area of the lake, hoping to plunder the crimson bead that he suddenly encountered.

But Mu Qingqing next to her immediately grabbed Ye Feng's arm and couldn't help but said: "Ye Feng, what are you doing? Don't be impulsive. Everything around the lake is densely packed with poisonous insects and poisons. If you If you snatch the crimson bead from the lotus in the past, you will definitely be attacked by countless poisonous insects and poisonous creatures. With your current cultivation level, we simply cannot withstand the attacks of so many poisonous insects and poisonous creatures in the Ten Thousand Poison Valley."

Hearing this, Ye Feng couldn't help but smile and said: "Don't worry, although my current cultivation level is not very powerful, my physical strength is enough for me to deal with these poisonous insects and poisons."

Uh-huh!

After saying that, Ye Feng jumped up and rushed towards the middle of the lake quickly.

Seeing this scene, Mu Qingqing's beautiful eyes suddenly showed a look of helplessness. It seemed that she didn't expect Ye Feng to be so impulsive. You know, this is the Ten Thousand Poison Valley of the Five Poison Sect. Every poisonous insect and poison is extremely poisonous. It is high-grade and has strong toxins, which are not comparable to the poisons found in other small places outside Zhongzhou.

Obviously, Mu Qingqing felt that Ye Feng came from a small place like the Northern Territory and was a bit too confident. He did not understand that the land of Zhongzhou was completely different from other small places. Any existence in the land of Zhongzhou would be much more advanced and dangerous. .

But the next moment, before Mu Qingqing could think about it, she saw an incredible scene.

I saw Ye Feng rushing into the lake. Those poisonous insects and poisonous creatures attacked Ye Feng, but they were unable to poison Ye Feng.

When Ye Feng heard what Mu Qingqing said, his eyes flashed fiercely, and he stared at the so-called Third Young Master of Baibao Hall not far away, and said loudly: "He almost assassinated me just now, and he will definitely die today!"

Chapter 4956 Five Elements Talisman

Boom!

Almost at the moment when Ye Feng's words fell, Ye Feng did not hesitate at all, and did not respond to Mu Qingqing's persuasion at all. He directly burst out with his incomparable power, and instantly moved towards the man not far away who had just plotted to assassinate him. The three young masters of Baibaotang rushed away, wanting to kill the opponent directly.

At this time, seeing Ye Feng rushing towards him, the third young master of Baibao Hall did not have any fear at all, but showed a sarcastic smile on his face and said loudly: "Haha, a person with a lower cultivation level than me. A young man with a great realm and no sect dares to provoke this young master? Okay, I will let you know how stupid your behavior is."

After saying that, the third young master of Baibao Hall immediately burst out with his incomparably powerful cultivation. The momentum of his cultivation was a whole level higher than that of Ye Feng, and it was the Soul Dan realm, which is the supreme master realm. The existence is on the same level as Mu Qingqing of the Fire Cloud Sect.

However, Mu Qingqing is at the third level of the soul elixir realm, while the cultivation of the three young masters of Baibao Hall is at the tenth level of the soul elixir realm, which is much stronger than Mu Qingqing. No wonder even Mu Qingqing is A core disciple of the Fire Cloud Sect would not dare to directly confront the Third Young Master of the Baibao Hall.

Even the third young master of Baibao Hall took the initiative to assassinate Ye Feng. Mu Qingqing advised Ye Feng to leave here temporarily and not to confront him tit for tat, because Mu Qingqing felt that it was better to endure the anger for a while than to die directly.

However, Mu Qingqing may not be very clear about Ye Feng's powerful methods and strength.

So Ye Feng didn't explain much, and just charged towards the three young masters of Baibao Hall, directly bursting out the power of the Immortal Body of the God.

The third young master of Baibao Hall immediately had an amethyst sword in his hand.

The third young master of Baibaotang smiled coldly and said: "No matter how powerful your body is, I have various abilities.

The treasure is enough to break your body. You know, our Baibao Hall is famous for its treasures, otherwise we wouldn't call it Baibao Hall. There are so many weapons in my hands and their power is so powerful. A casual cultivator like you It is simply unimaginable. Don't think that you are great just because your body can withstand those poisonous insects and poisons. "

After saying that, the third young master of Baibao Hall instantly threw up the amethyst sword in his hand and pierced Ye Feng Cave.

This amethyst long sword does not need to be held by the three young masters of Baibaotang to kill the enemy. Instead, it is like a flying sword. In an instant, the amethyst long sword automatically flies to the sky and heads towards Ye. The wind stabbed away.

And at the moment when the amethyst sword was stabbing Ye Feng, the amethyst sword suddenly shook, and ten swords exactly like the amethyst sword appeared around him.

I have to say that the third young master of Baibao Hall is worthy of coming from such a magical sect as Baibao Hall. As expected, the treasures on his body are very magical and powerful.

At this moment, Ye Feng didn't have any hesitation or fear at all. He blasted his golden fist forward, not even bothering to distinguish which one was the main body of the amethyst sword. Punch after punch.

Click! Click!

And at the next moment, what shocked the three young masters of Baibaotang and even Mu Qingqing not far away was that Ye Feng's golden fist could not only withstand the toxicity of countless poisonous insects and poisons, but also the poisons from Yu Baibaotang's powerful weapon, the amethyst sword, was unable to damage Ye Feng's body at all. It was directly shattered into pieces by Ye Feng's golden fist.

Ye Feng immediately smiled coldly,

He said aloud: "It seems that the Hundred Treasures Hall is nothing more than that. The so-called powerful treasures are as fragile as tofu and were shattered by my punch."

"Um?"

At this time, he saw the fragments of the amethyst sword falling from the sky. The third young master of Baibaotang looked very ugly.

Originally, he thought he could kill Ye Feng casually, but he didn't expect that Ye Feng's body was much more terrifying and stronger than he imagined. He could kill his proud amethyst sword with just two blows. Broken to pieces.

At this time, the third young master of Baibaotang saw Ye Feng continuing to charge, and finally felt the threat. He immediately shouted loudly and said: "Five Elements Talisman!"

Swish, swish, swish!

Almost at this moment, five spiritual talismans rushed out from the body of the third young master of Baibaotang.

Each talisman flashes a different color.

One of the talismans was shining with red light, obviously representing the elemental power of fire attribute.

The second talisman carries ice-blue light, which obviously represents the elemental power of ice air.

The third talisman is shining with blue-purple light, representing a very rich power of thunder attribute elements.

The fourth spiritual talisman and the fifth spiritual talisman also represent the power of other attributes, namely the khaki power of the earth attribute, and the wind attribute power of the hurricane.

The five magic talismans seemed to be only the size of a palm, but after each talisman was released, each one suddenly became the size of a mountain, and then rotated rapidly, surrounding Ye Feng's entire body with five different talismans. Among the talismans of attributes.

It was as if they were transformed into five mountains with different attributes, each with its own attribute power, carrying overwhelming coercion and suppressing it towards Ye Feng.

It has to be said that the third young master of the Hundred Treasures Hall does have two brushes and a lot of treasures on his body. Although his combat power may not be very strong, the magic weapons he releases are more magical and powerful than the last.

At this moment, Ye Feng didn't hesitate at all, and directly used the extremely powerful inheritance he had learned before, the Ancient Ten Thousand Demons Art.

Boom!

At this moment, a burst of dark gas suddenly burst out from Ye Feng's body.

These dark gases instantly condensed around Ye Feng into the shadows of thousands of big demons, and then went straight towards the surroundings to attack crazily.

Boom!

Even a powerful treasure like the Five Elements Talisman could not withstand the power of thousands of big demons gathered by Ye Feng, and all of them were shattered by the bombardment.

"What??"

Seeing this horrific scene at this time, the contempt on the face of the third young master of Baibaotang finally turned into deep shock and anger. He couldn't help but said in horror: "How is this possible? You are alone. How could a random cultivator boy with no sect and no sect, whose cultivation level is so much weaker than mine, be able to unleash such a powerful attack and inheritance? You said that you have no sect and no sect. The inheritance you just used was so terrifying and powerful. How is this possible, who are you!"

Boom!

But the next moment, Ye Feng was too lazy to talk nonsense, and the three young masters of Baibao Hall did not need to know who Ye Feng was, because Ye Feng rushed directly to this place after releasing the Ancient Ten Thousand Demons Secret to smash the Five Elements Talisman. In front of the third young master of Baibaotang, his head was smashed into pieces with one punch, killing him instantly!

"ah!!"

The third young master of Baibaotang suddenly let out an earth-shattering scream and was killed on the spot.

Chapter 4957 Far from it

"Ye Feng, did you really kill the third young master of Baibao Hall?"

At this moment, Mu Qingqing flew over from a short distance and looked at the three young masters of Baibaotang who had turned into a headless corpse on the ground. His eyes were full of

surprise, as if he did not expect Ye Feng to really He has such courage and dares to kill the young master of a powerful force like Baibaotang.

What made Mu Qingqing even more incredible was that Ye Feng was able to burst out with such powerful power at a critical moment, killing all the three young masters of such a powerful Baibao Hall on the spot.

This requires extremely powerful means and strength to do this.

Especially the Ancient Ten Thousand Demon Art that Ye Feng used at the end can transform into thousands of big devil clones in an instant, and each big devil clone has very terrifying power, and the kind of clone that confuses others. The skills are different. Every demon that Ye Feng clones has tremendous power, so he can break the five-element talisman, a very famous treasure in the Baibao Hall, and successfully destroy the three young masters of the Baibao Hall. The Lord struck him down.

At this moment, hearing the surprised words of Mu Qingqing next to him, Ye Feng showed a cold smile in his eyes and said loudly: "How dare the third young master of Baibao Hall secretly attack? Kill me and take away the crimson orb in my hand, then I will naturally kill it, otherwise, keeping it will always be a disaster, and even if the other party is a young master of Baibao Hall, in my eyes, as long as Anyone who dares to provoke me is the same. Anyway, I have no sect and I am not afraid of those who wear shoes. If I kill this third young master, and he is still in this Ten Thousand Poison Valley, no one will know who killed him. "

When Mu Qingqing heard what Ye Feng said, she couldn't help but shook her head and said loudly: "The direct bloodline descendants of such a big force have special information methods on their bodies, which can make them remember to kill when they are killed. His human aura and appearance, this information will be transmitted back to the headquarters of Baibaotang, and this method is also a method specially set up by major forces to protect their direct heirs, so Ye Feng, you may have entered now Baibaotang's blacklist."

When Ye Feng heard what Mu Qingqing said, he still had no fear. He just spread his hands quite casually and said, "Then let them come."

"Then let them come?"

Hearing Ye Feng's light words, but full of endless domineering power, an inexplicable look suddenly appeared in Mu Qingqing's beautiful eyes.

She stared at Ye Feng, and suddenly felt that the young man with no family or sect she had accidentally met seemed ordinary, but in fact he was a very powerful person, definitely not an ordinary person.

Even though Mu Qingqing knew that Ye Feng came from a remote place outside Zhongzhou, she knew very well that if Ye Feng could become a member of a big force, coupled with Ye Feng's various methods and abilities, as well as this unreasonable With his fear of power and perseverance, Ye Feng will surely grow into an extremely terrifying existence in the future.

So at this time, Mu Qingqing really paid attention to Ye Feng for the first time.

Originally, she met Ye Feng accidentally and saw that Ye Feng was very good. Mu Qingqing simply wanted to make friends with Ye Feng and then go together to find the Medicine King in the Ten Thousand Poison Valley. She only regarded Ye Feng as a helper. , in fact, they didn't pay much attention to Ye Feng, a young man from a small place.

But now after spending some time with Ye Feng, especially Ye Feng's terrifying killing methods just now, Mu Qingqing suddenly understood that Ye Feng was definitely an extraordinary guy.

\u003e

At this moment, Mu Qingqing obviously paid a lot of attention to Ye Feng and no longer listened to her in everything like before.

Mu Qingqing looked at Ye Feng at this moment and asked aloud: "Then what should we do next? I estimate that the powerful men from Baibaotang will come here soon to hunt down you, the culprit. We will leave here directly. Or continue to look for that medicine king in the Ten Thousand Poison Valley?"

Hearing Mu Qingqing's question, Ye Feng looked at the other party in surprise, because Mu Qingqing had always made his own decisions before, while Ye Feng followed Mu Qingqing to do things.

Ye Feng did not expect that Mu Qingqing, a core disciple from the Fire Cloud Sect, would take the initiative to ask for his opinion.

However, the other party did not choose to leave him at this time, which made Ye Feng feel that the other party was not bad.

After all, if it were other people, they might feel that Ye Feng had completely offended Baibaotang, and would leave Ye Feng directly to seek freedom and not want to get angry.

But Mu Qingqing was not like this, which made Ye Feng's trust in this partner increase a lot.

At this time, Ye Feng thought for a while and said aloud: "It is a pity to leave this Ten Thousand Poison Valley just to avoid being chased. We don't need to leave now. After all, this Ten Thousand Poison Valley is an important area near the Five Poison Gate. , so even if the powerful men from Baibao Hall really come to hunt me down, they don't dare to make a big show of it, otherwise they may provoke the super masters from the Five Poison Sect to take action, so I judge that even if they send super masters here, The strong man is chasing me, the culprit, but he doesn't dare to make too much noise, which is in our favor. Besides, we haven't found the Medicine King yet, so how can we leave so easily."

When he said this, Ye Feng's eyes showed a trace of cold murderous intent, and he said loudly: "And if they really dare to come after me, then I don't mind letting them know that I really How terrifying it is when the fighting power breaks out."

Ye Feng originally thought that these top geniuses in Zhongzhou must be very powerful as they were a whole level higher than his own.

But after repeated battles, Ye Feng suddenly discovered that these people were actually not as powerful as he thought. Although their cultivation background was indeed much deeper than Ye Feng's current level, in terms of real combat power and various inheritances, These ordinary first-class powerful masters on the edge of Zhongzhou are actually not as powerful as imagined, and they are even far worse than Ye Feng.

Ye Feng felt that the truly powerful people in Zhongzhou were all among the super sects.

These so-called first-class forces are just a group of ordinary forces, claiming to be "first-class". In fact, they do not have much profound knowledge and strong inheritance. They can only fight in small places, and they are not even as good as coming from the north. Ye Feng of the domain.

At this moment, hearing Ye Feng say such domineering words, Mu Qingqing couldn't help but nodded and said: "Okay, with such a powerful helper as Ye Feng, what was born in the Ten Thousand Poison Valley?" We can definitely get that King of Medicine 'Shen Kucao'!"

At this moment, Mu Qingqing has obviously regarded Ye Feng as a top master among the younger generation, and her tone of voice is much more confident.

At this time, Ye Feng did not waste any time. He put the corpse of the third young master of Baibao Hall into his storage ring, swallowed it silently, and started to search for all kinds of wealth on the third young master. After all, the other party Coming from the Hundred Treasures Hall, which is famous for its many treasures, there must be a lot of good things in it. "Ye Feng, did you really kill the third young master of Baibao Hall?"

After all, the other party Coming from the Hundred Treasures Hall, which is famous for its many treasures, there must be a lot of good things in it.

Chapter 4958 I was simply stunned.

Boom!

At this moment, as Ye Feng silently devoured the skills and energy of the three young masters of Baibaotang in the storage ring, Ye Feng immediately felt a very pure energy, which was immediately injected into his Dantian.

It has to be said that although the third young master of Baibao Hall is not very good in combat and relies entirely on the weapons in his hands, he is still a whole level higher than Ye Feng, and he is also a high-level cultivator in Zhongzhou.

Therefore, the skills in his body are still very pure and very good. After Ye Feng swallowed them, he directly made a qualitative change in his cultivation, from the first level of the Lord Realm to the second level of the Lord Realm.

The sudden breakthrough in Ye Feng's cultivation momentum immediately attracted the attention of Mu Qingqing, a core disciple of the Fire Cloud Sect next to him.

Mu Qingqing stared at Ye Feng and said incredulously: "Ye Feng, why did you suddenly break through?"

For Mu Qingqing, if a practitioner wants to make a breakthrough, he must have some kind of huge opportunity, or he must understand the secret of practice during a long period of seclusion before he can suddenly make a breakthrough.

But Ye Feng was searching for the good things in the storage ring in the hands of the third young master of Baibaotang, and suddenly he had a breakthrough.

The timing of this breakthrough really made Mu Qingqing a little dumbfounded, so she was very curious and wanted to ask Ye Feng what happened?

After all, Ye Feng is now the representative of a very mysterious existence in Mu Qingqing's eyes.

At this time, hearing Mu Qingqing's question, Ye Feng just grinned and said, "I don't know what happened, but I suddenly had a breakthrough. Maybe this is the legendary epiphany."

"What?"

Hearing what Ye Feng said, Mu Qingqing's beautiful eyes suddenly revealed a look of deep astonishment, as if she didn't expect that Ye Feng would suddenly have an epiphany.

Although Ye Feng said it very casually and seemed a bit unbelievable, Mu Qingqing felt that this might be an epiphany.

Because there was no reason that could be explained, Ye Feng suddenly had a breakthrough.

Only sudden enlightenment can allow a practitioner to suddenly achieve a breakthrough.

Mu

Qingqing was deeply shocked by Ye Feng at this moment. She didn't seem to expect that this young genius from a small place she accidentally met had so many incredible abilities.

Not only is his cultivation strength terrifying, his combat power is also very powerful, and even his cultivation talent is so shocking.

While searching for treasures, did you break through casually?

This is really incredible.

At this moment, Ye Feng didn't say anything more, but sighed.

Sure enough, these advanced cultivators from the land of Zhongzhou, even if their combat power is much weaker than themselves, their cultivation skills and blood energy are so rich that they can break through by casually devouring a high-level cultivator who is one level higher than themselves. .

But this also depends on Ye Feng's previous accumulation.

At this moment, Ye Feng didn't say anything more, but continued to search and check the contents of the storage ring in the hands of the third young master of Baibaotang.

The third young master of Baibao Pavilion comes from a force known for its abundance of treasures, and he is also the third young master, so he still has a lot of treasures.

Ye Feng immediately discovered a crystal that exuded nine colors of light.

When Mu Qingqing saw this crystal, her eyes immediately revealed a look of surprise, and she said aloud: "This is a very precious nine-color gemstone in the Baibao Hall. It contains crystals condensed with the energy of nine attributes between heaven and earth. The stone is probably a

good thing that the Third Young Master of Baibaotang brought with him for practice and to use it to break through, but I didn't expect that you ended up taking advantage of it, Ye Feng."

Ye Feng nodded immediately at this time, and then without any hesitation, he directly released the Devouring Domain, and used the nine-color crystal stone he obtained from the three young masters of Baibao Hall, as well as the poisonous insects and poisons he had just obtained. All the crimson beads that were snatched were swallowed up.

These things contain rich pure energy. After being swallowed directly, they can give Ye Feng

Provides a huge amount of energy instantly.

At this moment, Ye Feng immediately felt that his skill had increased tremendously.

boom!

Ye Feng's cultivation aura, at this moment, with the help of these two energy crystals, unexpectedly broke through again, from the second level of the Lord Realm to the third level of the Lord Realm!

"What?"

Ye Feng made another breakthrough, and Mu Qingqing, who was observing the surroundings for any danger, was once again shocked. Her beautiful eyes were full of shock at this moment.

Mu Qingqing stared at Ye Feng, wanting to ask something, but she seemed to feel that there was no need to ask, because Ye Feng seemed to have an epiphany again?

What kind of evil talent is this that enables him to do this?

Mu Qingqing could be said to be stunned at this moment.

Although Mu Qingqing is a core disciple from the Fire Cloud Sect, a top-notch power in the surrounding area, and has seen many powerful geniuses in Zhongzhou, she has never seen anyone as defiant as Ye Feng, who has sudden enlightenment and breakthrough, and another sudden breakthrough. Wow, it's simply unbelievable and has an incredible dreamy feel.

"When did it become so easy for practitioners to achieve breakthrough?"

Mu Qingqing immediately shook her head.

No, it's not that practitioners' breakthrough has become so easy, but that Ye Feng's breakthrough is too easy.

In other words, Ye Feng is a rare cultivation wizard!

At this time, Mu Qingqing looked at Ye Feng with eyes full of deep respect. She felt that Ye Feng would definitely be able to shine in the land of Zhongzhou in the future.

Even though Ye Feng comes from a very remote northern region, if Ye Feng can continue to maintain this evil talent and terrifying fighting ability, then on the land of Zhongzhou, Ye Feng will not only be amazingly talented, but at least he will be able to break through. Make a name for yourself.

Thinking of this, Mu Qingqing looked at Ye Feng with an inexplicable look in her beautiful eyes, as if she deliberately wanted to get close to Ye Feng and please Ye Feng.

Mu Qingqing is extremely beautiful. She has been in the cultivation world for so many years and is a realistic person.

She originally thought that Ye Feng came from a small place and was very ordinary, so she just regarded Ye Feng as her partner.

But with the contact, Mu Qingqing discovered that Ye Feng was simply a hidden dragon in the abyss. Once born, he would definitely shock the world!

Mu Qingqing felt that if she could build a good relationship with Ye Feng when he was still weak and young, then she would definitely be valued by Ye Feng in the future, and might even become the object of Ye Feng's favor in the future.

Mu Qingqing is a very practical and beautiful young woman. As soon as she thought of this, Mu Qingqing immediately came to Ye Feng's side, leaned very close, and said loudly: "Ye Feng, since the matter here has been resolved, then Let's continue looking for the Medicine King in the Ten Thousand Poison Valley."

When she said this, Mu Qingqing took the initiative to stretch out her plain white wrist, took Ye Feng's arm, and said in a very intimate voice: "Ye Feng, we must help each other from now on, you are so powerful, I have to follow you closely."

Seeing Mu Qingqing's sudden behavior and behaving so intimately, Ye Feng's eyes immediately showed a look of surprise, as if he didn't understand that this core female disciple of the Fire Cloud Sect, who had seemed quite beautiful and cool before, suddenly suddenly He became quite proactive and intimate with himself.

However, Ye Feng didn't think much about it. He just thought that the other party might have seen his strong strength, so he naturally regarded him as a reliable partner.

Ye Feng immediately smiled and said: "Miss Mu, you brought me here because of this opportunity. If we really encounter any danger, we will definitely help each other."

And while the two were talking.

Boom!

Suddenly, a huge roar came from a certain direction in this dense forest, and it seemed that there was a very powerful force pulsating.

"This kind of strong fluctuation must be the fluctuation of the battle."

Ye Feng's eyes immediately lit up and he said, "Maybe someone is already taking action for that Medicine King. Let's go over and have a look!"

"good."

Mu Qingqing nodded immediately, her beautiful eyes full of submission, obviously listening to Ye Feng in everything.

Chapter 4959 Golden Trees

At this time, Ye Feng did not hesitate at all and immediately flew quickly towards the direction of the battle wave not far away.

For Ye Feng, his strength has been greatly improved now. If he really encounters other masters competing for the Medicine King Divine Dry Grass, he may be able to join in and participate in the competition.

After all, Ye Feng was originally afraid of these masters in Zhongzhou.

After all, Ye Feng comes from such a remote place in the Northern Territory. He has always heard that Zhongzhou is very glorious, so naturally, Ye Feng is more cautious in doing things after entering Zhongzhou.

But now after experiencing this series of events, Ye Feng suddenly discovered that among the super sects in Zhongzhou, there may be many terrifying masters, but in the edge of Zhongzhou, the so-called masters of the first-class forces His cultivation seemed not as outrageous as he imagined.

Even though Ye Feng is a level lower than their cultivation level, in terms of combat effectiveness, Ye Feng is still strong.

So at this time, Ye Feng naturally had a lot more confidence.

However, Ye Feng also knew that the people he met so far were all young practitioners from the major first-class forces around him. Perhaps the older and stronger men from these first-class major forces were still very scary.

At this moment, Ye Feng and Mu Qingqing quickly came to the direction where the previous battle wave came from.

The next moment, Ye Feng suddenly discovered that there were several figures engaged in a chaotic battle in the mountains ahead.

And in the center of their chaotic battle, there was a golden tree that was running away in a hurry.

There are many dense golden leaves growing on this golden tree.

This turned out to be a living tree, able to escape on its own instead of taking root in the earth.

But his legs to escape were just tree roots.

When Ye Feng saw this scene, he immediately couldn't help but said: "This tree covered with golden leaves, could it be the Medicine King Divine Withered Grass that you mentioned, Miss Mu? I didn't expect that the Divine Withered Grass is not the same tree." Grass, but a tree."

Mu Qingqing nodded at this time and said aloud: "This should be the legendary Medicine King Shen Kucao, but it doesn't seem to be similar to the name. It is a golden tree. Do we want to fight for it?"

Ye Feng observed at this time and found that there were three masters fighting each other and snatching the golden tree.

Among the three masters, two of them should be from the same sect. They are both wearing the same blue clothes. They are a man and a woman. They may be a pair of brothers and sisters.

The third person confronting them was wearing a black skeleton robe and holding a scepter in his hand. Every time the scepter was released, it could release a large amount of poisonous gas.

It can be seen that this master wearing a black skull robe should be a master of the Five Poison Sect.

The two senior brothers and sisters, the young man and woman who were fighting against the Five Poison Sect should be from another group nearby.

A powerful force, Lei Jian Villa.

Mu Qingqing couldn't help but speak out at this time: "Almost all the people from the four sects around us have gathered. The Five Poison Sect, Fire Cloud Sect, Lei Jian Villa and Baibao Hall are just the three young masters of Baibao Hall. I wanted to assassinate you, Ye Feng, but I was killed early by you, which was unfortunate. "

Ye Feng couldn't help but smile and said aloud: "Who dares to provoke me without knowing whether to live or die?"

Mu Qingqing nodded at this time and couldn't help but ask: "Ye Feng, what should we do now?"

Ye Feng sensed it carefully and said aloud: "Those two senior brothers and sisters from Lei Jian Villa are similar to the three young masters of Baibao Hall. They are a whole level higher than me at present. If the two of them join forces, it will be quite good." He was very powerful, but the most powerful one was the Five Poison Sect master who was fighting against the two of them. The Five Poison Sect master who was wearing a black skull robe was actually two realms higher than me in cultivation, and he unleashed The poisonous energy may be even more powerful than the black-robed protector of the Five Poison Sect we dealt with at the beginning. I am not sure now that my physique can resist the more intense poisonous energy, so we should not act rashly for the time being. Check out the situation secretly."

"good."

Mu Qingqing nodded and said aloud: "I think so too. After all, we are in the dark and they are in the open. There is no need for us to expose ourselves so early. On the contrary, it will cause unnecessary trouble. After all, neither side has decided the winner yet." "No, it's not yet certain who owns that golden tree. It's indeed the best way for us to observe it secretly and find the best time to take action."

When she said this, Mu Qingqing glanced at Ye Feng who was lurking beside her, with a slight smile on her beautiful face, and said loudly: "Ye Feng, didn't you see that you are so brave in combat? The third young master of Baibaotang just killed him without any hesitation. I didn't expect you to be so cautious at the critical moment and not rush out directly. "

Hearing this, Ye Feng glanced at the beautiful face next to him and couldn't help but smile and said: "No matter how powerful the combat power is, you still need to be vigilant at all times. Unless it is a crushing force, you don't need to go through it." Think more, but the masters on the field now are very powerful, and there are many of them. Naturally, I can't be so impulsive. In my life, I have been walking on thin ice, otherwise I would not be where I am today. I just rely on brute force and no brains. I would have died long ago. I know how many times I have died."

Hearing what Ye Feng said, Mu Qingqing seemed to see Ye Feng's deep eyes full of stories, and couldn't help but asked curiously: "Ye Feng, you are so young, but you seem to have gone through many vicissitudes. If you have the opportunity, can you tell me about your past?" Cultivation story?"

Ye Feng glanced at Mu Qingqing next to him in surprise, and couldn't help but smile and said: "Since Miss Mu is so interested and so good, I will tell you if I have the chance. However, along the way, from the beginning I don't know how much I have gone through in my practice to this day, and I have almost forgotten many things..."

When Mu Qingqing heard this, she couldn't help but become more curious. Her beautiful eyes were filled with an inexplicable brilliance. She couldn't help but said: "When this matter is over, Ye Feng, I invite you to be a guest of our Fire Cloud Sect. Then we can hold candles privately." Let's talk at night and have a good chat."

Ye Feng smiled slightly and said: "Okay, at that time I want to consult you about the super sects around you, because next I want to join the real super sect in Zhongzhou." At this time, Ye Feng didn't have any Without hesitation, he immediately flew quickly towards the direction of the battle wave not far away.

Chapter 4960 Seizing food from the tiger's mouth

"Ye Feng, you originally wanted to join the super sects in our Zhongzhou land?"

Hearing what Ye Feng said at this time, Mu Qingqing's beautiful eyes suddenly showed a trace of surprise, and couldn't help but said: "No wonder I wanted to invite Ye Feng to join us later. Fire Cloud Sect, you didn't directly consider agreeing. It turns out that Ye Feng has such lofty ambitions and wants to join the super sect that truly stands at the top of the pyramid."

When talking about this, Mu Qingqing did not feel that Ye Feng was overestimating his abilities, because after getting along and experiencing this period of time, Mu Qingqing felt that Ye Feng's various abilities and talents were really too powerful to join the Super Sect. Among the overlord forces, this is the most correct choice, which can give full play to Ye Feng's strong cultivation talent.

At this moment, Mu Qingqing's eyes showed a trace of fighting spirit, and she said loudly: "If I become stronger and stronger in the future, I will also join the super sect. By the way, Ye Feng, you want to join us Which super sect in Zhongzhou?"

Ye Feng replied: "The Divine Phoenix Sect."

"The Divine Phoenix Sect?"

When Mu Qingqing heard this, a look of surprise suddenly appeared in her eyes, and she couldn't help but say: "The Divine Phoenix Sect is indeed very famous, but it is a super sect established by the demon god Phoenix, and it recruits basically all the major demon clans. Or a human cultivator who has the blood of divine beasts in his body. Ye Feng, you are a pure human being. It is probably very difficult to join the Divine Phoenix Sect."

"Um?"

Hearing what Mu Qingqing said, Ye Feng's eyes suddenly flashed with surprise. He didn't expect that the Divine Phoenix Sect had such a rule.

However, when he thought that he had obtained a token from the eldest princess Dongfang Yue that could directly enter the Divine Phoenix Sect, Ye Feng immediately smiled and said, "I have my own way."

"Um?"

After hearing what Ye Feng said, Mu Qingqing felt that Ye Feng had become quite mysterious.

But Mu Qingqing didn't ask any more questions, because the victory or defeat on the battlefield not far away was almost over.

"boom!"

With a huge roar, it was the master from the Five Poison Sect who finally gained the upper hand.

The poisonous energy released by the scepter in his hand directly poisoned the pair of senior brothers and sisters in Lei Jian Villa to the point of weakness. They were unable to exert their strength at their peak. The senior brothers and sisters were beaten back and forth.

"Brother, we can't go on like this, otherwise not only will we not be able to get the Medicine King, but both of us will be killed by the elder of the Five Poison Sect!"

At this moment, the junior sister of Lei Jian Villa spoke up.

The senior brother next to him had a ruthless look in his eyes and said loudly: "Then I can only choose to sacrifice you, junior sister!"

"What??"

The junior sister was suddenly shocked.

But the next moment, it was too late for her to resist.

I saw this senior brother from Lei Jian Villa, instantly took out blue talismans from his storage ring, pasted them all around his junior sister, and then instantly chased his junior sister not far away. The elder of the Five Poison Sect who came over threw it over.

The next moment, the senior brother of Lei Jian Villa looked at the junior sister who was thrown out by him, with a trace of struggle and a hint of cruelty in his eyes, and said aloud: "Junior sister, please lead me.

Explode these eighteen thunderstorm talismans to fend off the elders of the Five Poison Sect. "

boom! !

Almost at the moment when the senior brother of Lei Jian Villa finished speaking, the junior sister was instantly detonated by the thunderstorm charms around her. It was equivalent to her senior brother forcing her to self-destruct, which produced extremely terrifying destructive power in an instant. .

Even the elder of the Five Poison Sect who was chasing him suddenly felt a death threat and quickly released a poisonous light shield to resist the terrifying self-destructive power.

Taking advantage of this gap, the senior brother from Lei Jian Villa had eyes full of greed, and instantly rushed to the golden tree in the distance, and immediately grabbed towards the golden tree.

Uh-huh!

But at this moment, a pair of golden palms, faster than the senior brother of Lei Jian Villa, directly snatched away the golden tree.

"What?"

Seeing this scene, the senior brother from Lei Jian Villa immediately turned extremely ugly and couldn't help but yell angrily: "Who is so bold and dares to secretly seize food from the tiger's mouth!"

The senior brother of Lei Jian Villa was naturally extremely frightened and angry at this moment, because he had spent such a high price, even ruthlessly sacrificing his own junior sister, to create a chance for him to plunder the golden trees in advance.

Unexpectedly, at the last critical moment, he would be snatched away by someone secretly, which naturally made the senior brother of Lei Jian Villa feel furious.

At this time, the senior brother from Lei Jian Villa immediately looked forward and found that the one holding the golden tree was a very handsome young man.

At this moment, this handsome young man is naturally Ye Feng who is watching secretly.

When Ye Feng saw that the senior brother from Lei Jian Villa was about to grab the golden tree, he finally couldn't help it anymore and took action directly, snatching the food from the tiger's mouth, and successfully captured the king of medicine, the golden tree, into his own hands.

Mu Qingqing's beautiful figure also appeared next to Ye Feng, with a faint smile on her face.

"It's you! Mu Qingqing from the Fire Cloud Sect! I didn't expect your Fire Cloud Sect's masters to be lurking around!"

At this moment, the senior brother from Lei Jian Villa obviously recognized Mu Qingqing's identity, and his eyes suddenly revealed a look of shock and anger.

After all, Fire Cloud Sect, Lei Jian Villa, Baibao Hall and Five Poison Sect are considered to be the four major sects in the fringe area of Zhongzhou, so it is quite normal that the core figures in each sect know each other. .

At this moment, the senior brother of Lei Jian Villa immediately shouted angrily: "This Medicine King is mine, no one can take it away! Boy, I'm going to kill you!"

At this moment, the senior brother of Lei Jian Villa shouted loudly, and a blue war sword flashing with thunder suddenly appeared in his hand, and he rushed directly in the direction of Ye Feng. He chopped down with his sword, and the sword immediately, a large amount of thunderous light erupted from the blade, and a huge thunder lightsaber was condensed directly. It hit the top of Ye Feng's head in an instant, and seemed to be able to split Ye Feng into two in an instant. Half, completely obliterated.

It has to be said that the senior brother of Lei Jian Villa is still very powerful. He is a whole level higher than Ye Feng's current cultivation level. He is an existence at the level of the tenth level of Soul Dan Realm above the Lord Lord Realm. Cooperate with us The destructive power erupted from the Thunder War Sword is even more astonishing. "Ye Feng, you originally wanted to join the super sects in our Zhongzhou land?"

Hearing what Ye Feng said at this time, Mu Qingqing's beautiful eyes suddenly showed a trace of surprise, and couldn't help but said: "No wonder I wanted to invite Ye Feng to join us later.
