

## Ancient 4981

Chapter 4981 More domineering

Boom!

At this time, huge amounts of energy were immediately swallowed up by Ye Feng, and then injected into Ye Feng's dantian, rapidly increasing Ye Feng's cultivation skills.

At this moment, Ye Feng's cultivation bottleneck at the half-step Soul Dan Realm suddenly broke through under the accumulation of such a huge energy, and he instantly broke through to the real Soul Dan Realm first level.

And it goes far beyond that.

Because the wealth left by the great elder of the inner sect of the Five Poison Sect is still very huge.

Each of these cultivation resources is very precious, and the energy they provide to Ye Feng is simply beyond Ye Feng's imagination.

So at this moment, Ye Feng still had nearly half of his energy that had not been digested.

Next, Ye Feng's skill continued to grow at an incredible speed.

boom!

Soul Dan Realm Second Heaven!

boom!

Soul Dan Realm Third Heaven!

boom!

The fourth level of Soul Pill Realm!

At this moment, Ye Feng's cultivation continued to break through the entire third heaven and stepped into the fourth heaven of Soul Dan Realm!

This allowed Ye Feng's cultivation skills to increase immediately.

And Ye Feng could feel that his combat power had also increased significantly.

After all, the improvement of cultivation skills is the most direct way to increase Ye Feng's combat power.

At this moment, Ye Feng was very satisfied.

This time, the plan of pretending to be the elder of the inner sect of the Five Poison Sect and sneaking into the Five Poison Sect was very clever. It allowed him to achieve so many breakthroughs in cultivation and gain so many cultivation resources.

At this time, Ye Feng didn't hesitate and walked out of the room immediately.

Outside, the beautiful figure of the disciple of the great elder of the inner sect of the Five Poison Sect, Enchantress, was standing there, with a look of respect on her alluring face.

At this time, Ye Feng smiled and said: "Now take me away to the ancient ruins connected by the ancient formation. I want to see the so-called people of our Five Poison Sect. Do the big shots take me seriously? If anyone dares to snatch resources from me, then I don't mind giving them a good lesson."

Hearing Ye Feng's domineering words, Enchantress' admiration for Ye Feng became even stronger.

The enchantress immediately saluted respectfully and said loudly: "Master, I will take you there now."

At this moment, the beautiful figure of the enchantress flew directly into the air.

At this moment, Ye Feng followed.

At this time, Ye Feng was following behind the Enchantress while secretly inputting his power into the small Bagua Mirror he had obtained before.

You must know that this Bagua Mirror was obtained from the coffin of Old Man Du, and may be inseparable from the legendary heaven, because the Dragon of Luck is trapped in this Bagua Mirror, but Ye Feng has never had it before. The ability to untie the shackles of this destiny dragon.

But now, Ye Feng has made a huge breakthrough in his cultivation, and Ye Feng wants to continue giving it a try.

However, Ye Feng tried again and found that he still couldn't untie all the poisonous chains on this luck dragon.

Ye Feng had no choice but to give up.

It seems that I still have to wait until I become stronger before I can unlock all the chains and completely obtain this dragon of destiny in the interface of ten thousand demons.

And just when Ye Feng was thinking secretly in his heart, the demon girl leading the way had completely left the entire Wudu Sect's base camp area and arrived at the top of a mountain outside.

At this time, the witch stopped

, pointed to a jungle under this mountain, and said loudly: "The ancient formation that our disciple of the Five Poison Sect mistakenly entered before is right here. Now it is all guarded by our disciples of the Five Poison Sect. , don't let other forces get close."

Ye Feng nodded. Now Ye Feng has disguised himself as the inner sect elder of the Five Poison Sect, so now Ye Feng can be regarded as a powerful person in the entire Five Poison Sect. Ye Feng is naturally not afraid that people from the Five Poison Sect dare to block him. .

Uh-huh!

At this moment, Ye Feng did not hesitate and immediately landed with the Enchantress. .??.

When Ye Feng landed at the foot of the mountain, a group of Five Poison Sect disciples who were guarding the formation in front saw Ye Feng, the great elder of the Inner Sect of the Five Poison Sect, and immediately clasped their fists respectfully and said: "See the Inner Sect Great Elder."

Ye Feng nodded slightly at this time, with a very majestic look, and said loudly: "I heard that a disciple of our Five Poison Sect accidentally entered this ancient formation and found that this formation was connected to an ancient I want to go in and take a look at the ruins space now, please make way quickly."

After hearing what Ye Feng said, the faces of the group of disciples guarding the front showed hesitant looks.

Obviously, these disciples do not belong to the faction of Ye Feng, the great elder of the inner sect, but to the factions of other powerful figures in the Five Poison Sect.

So Ye Feng, a heavyweight, came here. If he entered the ancient ruins space connected by the ancient formation, he would probably rob the resources of other powerful people in the Five Poison Sect.

Therefore, these disciples guarding the ancient formation were naturally very hesitant.

When the enchantress saw this scene, her expression was a little ugly. After all, he had expected this situation.

But at this moment, Ye Feng suddenly snorted coldly, and then a terrifying aura suddenly erupted from his body.

Boom!

r\u003e

Ye Feng's body burst out like a vast ocean, spreading towards the surroundings, directly smashing the dozen or so Five Poison Sect disciples blocking the way in front of him in an instant, and sending them all flying backwards.

These disciples immediately showed a look of deep horror on their faces, and quickly knelt down in front of Ye Feng, and said in horror: "Inner Sect Great Elder, we know our mistake! Inner Sect Great Elder, please come in Formation."

At this time, all the disciples of the Five Poison Sect knew that if they dared to hesitate again, Ye Feng, the ruthless elder of the inner sect of the Five Poison Sect, would definitely kill them all.

When the enchantress saw Ye Feng's actions, her beautiful eyes showed deep surprise.

The witch secretly thought that the master seemed to be more domineering than before.

In the past, Master practiced on his own secretly and remained unknown. He would not participate in the overt and covert fights between powerful figures in some sects, but chose to protect himself wisely.

But now the master seems to be more domineering than before, and there is no taboo at all.

"Master seems to have changed a lot..."

The Enchantress murmured.

However, the enchantress was still very happy inside, and she admired her master even more, because she admired such a domineering figure very much.

At this moment, Ye Feng looked at the many disciples of the Five Poison Sect kneeling in front of him, smiled faintly, and said: "You know each other, otherwise, you would already be corpses."

After finishing speaking, Ye Feng, with everyone's fearful eyes and the admiring gaze of the enchantress behind him, directly led the enchantress into the formation in front.

Buzz!

Following a burst of violent spatial fluctuations, the two figures disappeared immediately, teleporting towards the ancient ruins space connected by this ancient formation.

Chapter 4982 Making trouble

A few seconds later, Ye Feng and Enchantress had arrived in a new small world through the teleportation formation.

This small world is the ancient ruins space connected by this ancient formation.

At this time, the figures of Ye Feng and Enchantress appeared on a barren land in this small world.

At this moment, Ye Feng looked in a certain direction not far away, and immediately discovered that the ground in front of him was sunken.

Ye Feng took Enchantress and flew over immediately, and immediately saw many disciples of the Five Poison Sect, mining in the sunken basin.

This mineral vein should be a mineral vein bred locally in this ancient ruins.

There are many very high-grade energy crystals in this vein.

These energy crystals emit an earthy yellow light and should have the power of the earth's attributes.

At this time, Ye Feng's eyes suddenly lit up. .??.

The reserves of this mine are astonishing, and it is of great benefit to me.

After all, if Ye Feng wants to improve his current cultivation skills, he must devour the energy in these high-level crystals.

Uh-huh!

At this moment, Ye Feng didn't hesitate at all, and immediately flew over, and then said in a very domineering voice: "This mine now belongs to me."

Ye Feng is now pretending to be the Inner Sect Elder of the Five Poison Sect. The character of this Inner Sect Elder is very ruthless and greedy, so no one will doubt Ye Feng's actions now.

These disciples of the Five Poison Sect were mining, and when they heard what Ye Feng said, their faces suddenly turned ugly.

A disciple of the Five Poison Sect couldn't help but said: "Disciple, see the Inner Sect Great Elder, but what the Inner Sect Great Elder said is a bit too domineering. This mine now belongs to the three elders behind us."

Obviously, this mining disciple directly moved out his backer.

Ye Feng immediately smiled faintly and said: "What nonsense Third Elder, I don't know him. Now that I have seen this mine, it will be of huge benefit to me, so I will get it."

Hearing what Ye Feng said, the eyes of the Five Poison Sect disciples under the Third Elder who were mining suddenly became very ugly.

Ye Feng naturally had no taboos at this time, because Ye Feng came to the Five Poison Sect and pretended to be the elder of the inner sect. He originally came to the Five Poison Sect to cause trouble, so Ye Feng was not afraid of the so-called consequences or offending anyone. Ye Feng would directly grab any powerful person in the Five Poison Sect who was good for him.

Because Ye Feng is now disguised as the elder of the inner sect of the Five Poison Sect, and he comes to the Five Poison Sect just to gain benefits for himself and does not want to waste time, so Ye Feng has no taboos at all.

At this time, Ye Feng directly wanted to forcefully seize the mineral resources obtained by the third elder.

Behind Ye Feng, Enchantress saw Ye Feng being so domineering, and her beautiful face suddenly showed an even more admiring look.

Uh-huh!

At this time, Ye Feng immediately came down. Looking at the disciples of the third elder who had ugly faces and seemed to be hesitant, he said coldly: "For the sake of you being from the same sect, hurry up and get out of here. Hand over the mineral vein, otherwise, don't blame me for going on a killing spree."

You must know that in a sect like the Five Poison Sect, which is an evil sect, some of the rules in the sect are very confusing. Disciples of the same sect often kill each other and compete for interests, so it is normal.

Hearing what Ye Feng said at this moment, these disciples under the third elder immediately gritted their teeth and fled in a hurry with ugly faces.

Because they know very well that in a sect like the Five Poison Sect, the great elder of the inner sect is so greedy and ruthless.

If the big shot is really cruel, he might really kill these disciples.

Because in the eyes of big shots like elders, ordinary disciples in the sect are really just a bunch of ants.

At this time, when he saw that all the disciples of the Five Poison Sect under the Third Elder had fled from here, Ye Feng immediately showed deep joy in his eyes and quickly landed in this mineral vein.

Ye Feng was very lucky at this time. This time he disguised himself as the great elder of the inner sect of the Five Poison Sect and came to such a chaotic sect as the Five Poison Sect. He could plunder and gain benefits for himself, because this was originally an evil sect. Door rules.

At this moment, Ye Feng looked at the enchantress beside him and said, "You are protecting me outside the mine. I want to use the entire mine directly."

Hearing what Ye Feng said, Enchantress naturally nodded respectfully and flew out of the mine.

Buzz!

At this moment, Ye Feng did not hesitate and directly released the Devouring Domain, covering the entire underground mineral vein.

Ye Feng would not leave some disciples to mine like other elders of the Five Poison Sect.

Because Ye Feng felt that it was a waste of time.

Moreover, Ye Feng was not willing to be a miser. Just like the great elder of the inner sect of the Five Poison Sect, he hid many of his cultivation resources in the place where he lived, but in the end, he benefited from Ye Feng.

And another very important reason is that Ye Feng cannot stay in the Five Poison Sect for too long, so as long as he encounters these cultivation resources, it is the most correct choice to devour and utilize them on the spot.

At this time, Ye Feng did not hesitate at all. The Devouring Domain he released immediately enveloped the entire underground mine in his Devouring Domain.

"Boom!"

At this moment, Ye Feng immediately absorbed a huge amount of energy from the entire underground mine and immediately injected it into his body.

At this moment, Ye Feng could immediately feel that his cultivation power was growing rapidly at an incredible speed.

At this time, in order not to expose the secret that his cultivation aura did not match that of the Great Elder of the Inner Sect of the Five Poison Sect, Ye Feng just asked Yao Ji to protect him outside the mine, so that no one could perceive the real change of his cultivation aura.

At this moment, Ye Feng's cultivation realm aura began to break through rapidly and continuously as he devoured.

You know, this entire underground mine is very large, and it contains a lot of energy crystals, and all the energy is absorbed by Ye Feng.

This means that Ye Feng was alone and absorbed all the energy in the entire mineral vein, which naturally increased Ye Feng's power and aura very quickly.

Boom!

Soul Pill Realm Fifth Heaven!

Boom!

Soul Pill Realm Sixth Heaven!

Boom!

Soul Pill Realm Seventh Heaven!

Boom!

Soul Pill Realm Eighth Heaven!!

At this time, Ye Feng's cultivation aura finally stopped completely, and Ye Feng's eyes were full of excitement.

I didn't expect that a whole mineral vein would increase my cultivation aura so much.

It seems that this ancient ruins world connected to this ancient formation is still very good, and it can actually breed such a high-level mineral vein.

At this time, Ye Feng became more and more interested in other natural resources in this small world.

"It seems that this time I chose to disguise myself as an evil person and come to the Five Poison Sect to seek revenge and make trouble. It was right!"

Ye Feng couldn't help but murmured secretly.

Chapter 4983 Third Elder

Boom!

At this time, with the completion of Ye Feng's devouring, all the energy in the energy crystals in the entire underground mine was absorbed and plundered by Ye Feng.

So at this time, the entire underground mineral vein suddenly collapsed, and everything was broken into pieces.

Uh-huh!

Ye Feng jumped directly to the ground.

At this time, although the enchantress who was waiting outside could not sense Ye Feng's true cultivation aura, which level it was at, she could clearly feel that after Ye Feng came out of this underground mine, the aura on his body became even stronger. Unfathomable.

The enchantress immediately understood that her master had definitely received huge benefits from this underground mine.

At this moment, Enchantress clasped her fists very respectfully and said, "Congratulations, Master, for your great improvement in skill!"

Ye Feng smiled and said: "Not bad. This time, we have indeed gained a lot of benefits from this underground mine. Let's continue to look for other good things in this small world. Since there is an Ancient ruins, then it definitely shows that in addition to the natural resources produced by heaven and earth, there are other good things."

Enchantress immediately nodded and followed behind Ye Feng, preparing to leave here. .??.

But suddenly at this moment.

Swish, swish, swish!

Suddenly, a group of people flew over quickly from a direction not far away.

The clothes worn by this group of people are all special skeleton robes.

The leader was an old man who looked very cold.

At this time, Ye Feng suddenly showed an inexplicable look in his eyes.

Because Ye Feng could feel that this old man felt very powerful and unfathomable.

Ye Feng immediately understood that this was definitely an extremely powerful senior figure.

Ye Feng immediately guessed at the next moment that the old man leading this group of people should be the previous owner of this mine, the third elder of the Five Poison Sect, and a big shot at the elder level.

At this time, the Enchantress also quickly changed her face slightly and said aloud: "Master,

The one coming in front is the Third Elder that the group of Five Poison Sect disciples mentioned earlier, and he is probably looking for trouble. "

Ye Feng nodded at this time, his expression did not change particularly, he just said: "Let's check the situation first."

At this time, Ye Feng did not intend to leave directly, because if he left now, it would mean that he was afraid of the third elder.

You know, Ye Feng is now pretending to be the greedy and domineering elder of the inner sect of the Five Poison Sect, so naturally he can't just run away in despair.

Moreover, Ye Feng sensed that the third elder of the Five Poison Sect, who flew quickly from not far away, was probably not that powerful of an elder.

Because the cultivation aura of this third elder is only two realms higher than that of Ye Feng, Ye Feng is not afraid at all.

If it was Ye Feng who had just arrived before, he would definitely turn around and leave.

But during this period of time, Ye Feng gained huge benefits from the Five Poison Sect, and his cultivation level skyrocketed, so Ye Feng was not so afraid of facing such an older person.

After all, Ye Feng's true combat power is definitely many times higher than his cultivation level.

At this time, Ye Feng just stood there with his hands behind his back, waiting for the arrival of the group of people in front.

Just as Ye Feng was thinking secretly, a group of people not far away quickly flew over and directly surrounded Ye Feng and Enchantress.

Ye Feng glanced around, his face did not change at all, but looked at the old man leading the team in front, and said slowly: "Third Elder, what do you mean? Take me and all my disciples They all gathered around."

When the third elder heard what Ye Feng said, a cold look suddenly appeared on his face, and he said loudly: "First elder of the inner sect, you have stretched your hand too long. You know that this vein is the source of this mine." How dare you just take the elder's personal belongings by force."

Hearing what the third elder said, Ye Feng suddenly laughed and said loudly: "The resources of heaven and earth, there are

The virtuous man learned that this mineral vein was originally a natural resource bred between heaven and earth. You said it was yours, and I said it was mine. "

"you.....!"

Hearing what Ye Feng said at this time, the third elder's face suddenly showed an angry look.

However, he also knew that the nature of this inner sect elder was greedy and domineering.

So at this time, the third elder immediately said coldly: "Since you said so, the great elder of the inner sect, let's see who has the strongest fist."

Almost as soon as the third elder finished speaking, an extremely powerful aura of cultivation suddenly erupted from his body.

That kind of cultivation level is astonishingly two levels higher than Ye Feng's current soul elixir level!

At this moment, the third elder's approach was obviously very simple, direct and domineering. He just wanted to fight Ye Feng to see who was more powerful, and fight directly to the death.

Obviously, this is the survival principle of the Five Poison Sects. .??.

In a sect as evil and crooked as the Five Poison Sect, if there is a conflict many times, the solution is to go directly to the subordinates to see the true chapter.

At this moment, Enchantress couldn't help but said: "Master, do you really want to fight the third elder?"

Ye Feng smiled faintly at this time and said: "Of course I have to fight him."

Ye Feng knew very well that there was no other way now. The only way was to see whose fist was harder.

Moreover, Ye Feng has another plan, that is, the third elder of the Five Poison Sect is an elder-level figure with extremely profound cultivation skills. If he can be killed on the spot and swallowed up his skills, then Ye Feng cannot imagine it. To what level will your own skill grow?

So now Ye Feng naturally chooses to fight with his last resort.

At this moment, Ye Feng asked the enchantress to retreat, and his whole body exuded a terrifying aura of power.

However, Ye Feng's true cultivation level was not revealed.

At this moment, the third elder immediately burst into laughter,

He said aloud: "You, the great elder of the inner sect, are becoming more and more incompatible with your status. When fighting against me, you don't even dare to show your full cultivation aura. It seems that you have already fallen behind me."

After finishing speaking, the third elder was very confident, and a huge black sword suddenly appeared in his hand.

A jet-black light immediately burst out from this black sword.

This dark light is obviously full of poison. As long as a layer of skin is torn, it will be poisoned and die instantly.

At this moment, the third elder held the poisonous sword in his hand and immediately slashed towards Ye Feng.

At this moment, Ye Feng shouted loudly: "Toxic field!"

Boom!

At this moment, Ye Feng's body immediately erupted with a terrifying poisonous aura, forming a field that enveloped Ye Feng's surroundings.

When the third elder saw this, he immediately burst into laughter and said loudly: "Great Elder of the Inner Sect, although the poison field is your special skill, the poisonous sword in my hand is the sword that I just came from this ancient land. The peerless weapons obtained from the ruins are enough to shatter your poisonous domain in an instant."

boom! !

At this moment, the third elder held the poisonous sword in his hand and slashed towards Ye Feng's poisonous field.

But the next moment, what made his face become horrified was that Ye Feng roared again, and the poisonous field suddenly expanded ten times.

Before the third elder could crush the poisonous field around Ye Feng, the third elder was instantly enveloped in the poisonous field, trapping him.

Ye Feng practiced the Ten Thousand Poisons Technique from Old Man Ten Thousand Poisons, so he strengthened the extremely poisonous field of the inner sect elder many times, making it extremely vast, which the third elder never expected.

At this moment, the third elder immediately said in horror: "What? How is this possible?? In a short period of time, how could you expand your poison field cultivation ten times! This is not possible in our Five Poison Sect. It has never appeared in history, what kind of luck did you get? "

Chapter 4984 Ancient Temple

At this time, the third elder of the Five Poison Sect could be said to be extremely unbelievable.

Because Ye Feng's ability really surprised him.

You must know that the extremely poisonous field is a unique skill among the five poison sects, and only a few people practice it.

But in fact, the third elder knew about the poisonous field practiced by the great elder of the inner sect, and it was not that powerful.

But now the poisonous field displayed by Ye Feng is ten times larger than the poisonous field in the previous memory of the third elder. Naturally, the third elder is horrified.

At this moment, the third elder was directly trapped in the huge poisonous field and could not escape.

The group of disciples brought by the third elder outside showed deep horror in their eyes, and they quickly said: "Third elder, do you need us to save you?"

When Ye Feng heard what the young disciples around him said, he immediately burst into laughter and said loudly: "You young people also want to rescue this third elder in this poisonous field. You are too much." You underestimated me."

boom!

After saying that, Ye Feng waved his hand instantly.

At this moment, Ye Feng's poisonous domain suddenly enveloped a group of young disciples brought by the three elders around him.

In other words, Ye Feng's poisonous field was able to expand rapidly again after expanding ten times just now.

"How can this be??"

At this moment, the third elder became even more horrified.

He suddenly realized that the Inner Sect Great Elder in front of him was different from what he had imagined. This Inner Sect Great Elder had become so unfathomable.

At this moment, the third elder finally understood why the inner sect elder dared to steal his mineral vein.

It turns out that the great elder of the inner sect has become so mysterious and powerful!

\u003c

\u003e At this moment, the third elder naturally refused to accept his fate, and quickly held the poisonous sword in his hand and slashed towards the surroundings.

But no matter how he chopped, he couldn't hurt Ye Feng.

The highly toxic field has already begun to play a role.

The first ones to be poisoned were the young disciples brought by the third elder.

Their skin began to turn black, and their orifices were bleeding. They were obviously poisoned, and they fell to the ground one after another, without any fighting ability at all.

No matter how deep the Third Elder's cultivation was at this time, it was of no use. He was directly poisoned and his strength began to decline.

Uh-huh!

At this time, Ye Feng stretched out his hand in an instant and attacked the third elder.

Ye Feng's hand immediately turned into a big golden hand, like a mountain, towering, heavy, and indestructible, and it was blasted in front of the third elder.

The third elder's combat effectiveness plummeted in the poisonous field, and he was unable to withstand the attack of Ye Feng's golden hand.

Because you must know that Ye Feng's big golden hand is the immortal body of the god, so the power of Ye Feng's hand is like oppressing an ancient mountain.

boom! !

"Crack!"

At this moment, the poisonous sword in the third elder's hand was shattered into two halves and flew not far away.

Then Ye Feng's big golden hand instantly slapped the third elder's head into his stomach, killing him completely.

Third elder, die!

At this time, I saw that the third elder was killed by Ye Feng in an instant. The other disciples brought by the other three elders were enough.

There were more than a dozen of them, and at this moment, they all turned pale with fright. They all knelt on the ground and kowtowed to Ye Feng. They shouted for mercy and said: "The elder of the inner sect is still here. Please spare my life!"

When Ye Feng saw the group of disciples begging for mercy, he smiled coldly and said: "Just now, you surrounded me and wanted to kill me. Now that you come here to beg for mercy, it is no longer of any use."

After saying that, Ye Feng's eyes showed a fierce look and he stretched out a finger.

His finger suddenly turned into a huge golden finger. Whichever disciple he touched, his whole body exploded instantly and he was killed immediately.

When Ye Feng was about to click on the last disciple, the disciple immediately said in horror: "Inner Sect Great Elder, spare your life! I can take you, the Inner Sect Great Elder, to an ancient temple that the third elder just discovered. That ancient temple must contain huge fortunes of chance. The third elder hurried over before he could enter it. As long as you spare the life of the disciple, the great elder of the inner sect, the disciple will take you, the great elder of the inner sect. "

"oh?"

At this moment, Ye Feng heard this disciple say this, and a look of surprise suddenly appeared in his eyes.

Then Ye Feng nodded slightly, stopped killing, and said loudly: "Okay, anyway, I came to this small world this time to find various opportunities and fortunes. Since you want to take me to the ancient place discovered by the third elder, Temple, then you can take me there. If you satisfy me, I can consider sparing your life."

Hearing Ye Feng relent, the disciple immediately kowtowed in front of Ye Feng in ecstasy and said loudly: "Thank you, the great elder of the inner sect!"

At this time, the enchantress not far away flew over, came to Ye Feng, and asked: "Master, should we go directly to the ancient temple now?"

\u003e

Ye Feng nodded and said aloud: "Since that ancient temple is a place that the three elders attach great importance to, it must contain good opportunities, so I just go and take a look."

When he said this, Ye Feng immediately stared at the disciple of the third elder in front of him and said loudly: "Hurry up and lead the way, don't waste time, otherwise, if someone gets there first, you will suffer a lot."

Upon hearing Ye Feng's urging, the third elder's disciple quickly climbed up from the ground and flew forward.

Uh-huh!

Ye Feng followed the third elder's disciple with his hands behind his back.

The enchantress also followed Ye Feng like a shadow.

Of course, before leaving, Ye Feng put all the disciples of the third elder who had been killed by him, as well as the bodies of the third elder himself, into his storage ring.

On the way to the ancient temple, Ye Feng naturally silently swallowed up all the skills and blood energy of the three elders and many disciples in the storage ring.

The cultivation aura on Ye Feng's body immediately increased rapidly.

The disciples of the third elder don't have much supplementary effect on Ye Feng now, they just increase Ye Feng's skill a little bit.

But the third elder himself is an elder figure in the Five Poison Sect. His skills are extremely profound and his blood energy is also very majestic. Ye Feng's cultivation level directly broke through from the eighth level of the soul elixir realm to the tenth level of the soul elixir realm in an instant. Great Perfection!

This rapid breakthrough naturally made Ye Feng very excited.

The Enchantress who was following her just felt that her master's aura suddenly became unfathomable again.

This made the enchantress unconsciously look at Ye Feng's beautiful eyes, filled with an increasingly intense look of admiration!

Chapter 4985 Ancient God Statue

Half an hour later, Ye Feng followed the disciple of the third elder and finally arrived at the ancient temple he mentioned.

A deserted area of broken buildings appeared ahead.

In this deserted building area, most of the buildings have been completely broken and collapsed.

But there is an extremely ancient temple that stands in the middle of this desolate and broken area.

This ancient temple is very majestic, with a length of tens of thousands of meters. Although it collapsed from the middle, this ancient temple, even if it lost half of its height, still looks very majestic, giving people a strong visual impression. A sense of impact.

At this moment, the disciple of the third elder suddenly spoke out: "Great Elder of the Inner Sect, the half-collapsed ancient temple in front is the ancient temple that the third elder discovered before. Before the third elder died, he told us disciples that this ancient temple is an area pointed out on a map he holds privately, and that it contains the secret of becoming a god. Although I don't know whether it is true or not, but since the three elders said so, that must mean that this ancient temple has huge opportunities, and this place can only be reached with the private map in the hands of the third elder, so there must be no one else competing with you, the great elder of the inner sect, for the best place in this ancient temple. thing."

Hearing what the third elder's disciple said, Ye Feng smiled with satisfaction and said, "It seems you didn't lie to me. It's very good."

After finishing speaking, Ye Feng suddenly stretched out a finger and tapped the head of the third elder's disciple.

Buzz!

A spiritual imprint was directly imprinted on this disciple's spirit.

Before the disciple of the third elder could turn pale in shock, Ye Feng immediately said: "The promise I made to you will be fulfilled. I will not kill you, but you have a brand of mine in your spirit. If you dare to cause trouble with me or betray me in the future, this spiritual mark will instantly detonate your soul and kill you instantly, so you will not have any problems if you act honestly. "

Hearing what Ye Feng said, the disciple of the third elder looked a little ugly at first, but then he figured it out and hurriedly knelt in front of Ye Feng and said loudly: "This disciple must follow the instructions of the inner sect elder in the future!"

After saying that, the third elder's disciple left respectfully.

At this moment, Enchantress stood beside Ye Feng, glanced at the departing figure of the disciple, and said with a smile: "Master, this disciple is the most talented one under the Third Elder. , is also one of the top ten beings among the younger generation among our Five Poison Sects. Master has now completely controlled this powerful genius. In the future, he will definitely have a huge role in our Five Poison Sects, because this is a value Huge chess pieces."

Ye Feng heard the Enchantress next to him say this and looked at her in surprise.

In fact, Ye Feng didn't think so much, but he didn't expect that his cheap disciple would think so much and regard himself as a scheming person.

In response, Ye Feng just laughed and didn't explain anything. He flew quickly towards the huge ancient temple not far ahead.

The Enchantress quickly followed.

When the two arrived at the entrance of this ancient temple, they saw the entire ancient temple and no one invaded.

.

The door on the first floor of the ancient temple is still closed.

Uh-huh!

Ye Feng didn't hesitate at all and immediately stretched out a hand.

A big golden hand directly blasted open the door of this ancient temple.

The next moment, Ye Feng led Enchantress into the ancient temple.

But at this moment, suddenly there was a huge ancient statue in the space inside the ancient temple.

This statue is most likely the statue of an ancient god.

Buzz!

The moment Ye Feng and Enchantress entered this ancient temple, the ancient statue immediately emitted a bright divine light, giving the impression that the entire ancient statue was resurrected.

The resurrected ancient statue immediately made a majestic voice and said, "Who are you? How dare you disturb my habitat."

At this time, hearing this ancient statue make such a majestic sound and emitting light all over gave people a very sacred feeling.

The enchantress standing behind Ye Feng suddenly showed deep awe in her eyes. She couldn't help but said with some fear: "Master, is this the resurrection of the gods?"

At this time, Ye Feng was staring at the ancient statue that was emitting light. Suddenly he seemed to have figured out something. He laughed and said loudly: "I can't sense anything from this so-called ancient statue." The breath of any god, I estimate, is a super strong person in a high-level cultivation interface. It is very likely that he is a super strong person in the heaven. In a low-level interface such as the Ten Thousand Demons interface, he has established a so-called statue of his own god. Sculpture, and created an ancient civilization, in order to collect the power of faith and practice for oneself. "

The reason why Ye Feng had this guess was because Ye Feng also encountered such a thing back then.

Hearing what Ye Feng said at this moment, the ancient statue's face immediately became very ugly, and he couldn't help but said: "You, a mortal, like an ant, dare to speculate on the intentions of this god at will. Moreover, it is an unforgivable sin to slander this god. Do you know that you are slandering a god?"

"Bullshit god!"

Ye Feng immediately laughed out loud.

You know, Ye Feng is the immortal body of the God, and the strongest being of the God clan is the god.

Therefore, Ye Feng is very sensitive to the breath of gods.

The power exuded by this ancient statue is not the high energy of the gods at all, it is just one level stronger than the power of the Ten Thousand Demons Interface.

At this moment, Ye Feng immediately stretched out his golden hand and attacked directly towards the ancient statue.

"What??"

The enchantress behind saw Ye Feng actually taking action directly against the ancient statue. In the eyes of mortals, this was simply treason, but the enchantress suddenly felt Ye Feng's super domineering power. Even the ancient statue could not stop Ye Feng. The will of the wind.

At this moment, seeing Ye Feng take action directly, the ancient statue immediately said angrily: "A little mortal, an ant-like existence, dares to take action against me, then I will be fine." I'll teach you a lesson!" Half an hour later, Ye Feng followed the third elder's disciple and finally arrived at the ancient temple he was talking about.

A deserted area of broken buildings appeared ahead.

In this deserted building area, most of the buildings have been completely broken and collapsed.

But there is an extremely ancient temple that stands in the middle of this desolate and broken area.

This ancient temple is very majestic, with a length of tens of thousands of meters. Although it collapsed from the middle, this ancient temple, even if it lost half of its height, still looks very majestic, giving people a strong visual impression. A sense of impact.

At this moment, the disciple of the third elder suddenly spoke out: "Great Elder of the Inner Sect, the half-collapsed ancient temple in front is the ancient temple that the third elder discovered before. Before the third elder died, he told us disciples that this ancient temple is an area pointed out on a map he holds privately, and that it contains the secret of becoming a god. Although I don't know whether it is true or not, but since the three elders said so, that must mean that this ancient temple has huge opportunities, and this place can only be reached with the private map in the hands of the third elder, so there must be no one else competing with you, the great elder of the inner sect, for the best place in this ancient temple. thing."

Hearing what the third elder's disciple said, Ye Feng smiled with satisfaction and said, "It seems you didn't lie to me. It's very good."

After finishing speaking, Ye Feng suddenly stretched out a finger and tapped the head of the third elder's disciple.

Buzz!

A spiritual imprint was directly imprinted on this disciple's spirit.

Before the disciple of the third elder could turn pale in shock, Ye Feng immediately said: "The promise I made to you will be fulfilled. I will not kill you, but if you have a brand of mine in your spirit, if you dare to cause trouble with me or betray me in the future, this spiritual mark will instantly detonate your soul and kill you instantly, so you will not have any problems if you act honestly. "

Hearing what Ye Feng said, the disciple of the third elder looked a little ugly at first, but then he figured it out and hurriedly knelt in front of Ye Feng and said loudly: "This disciple must follow the instructions of the inner sect elder in the future!"

After saying that, the third elder's disciple left respectfully.

At this moment, Enchantress stood beside Ye Feng, glanced at the departing figure of the disciple, and said with a smile: "Master, this disciple is the most talented one under the Third Elder. , among the top ten existences among the younger generation among our Five Poison Sects, Master has now completely controlled this powerful genius. In the future, he will definitely have a huge role in our Five Poison Sects, because this is a value Huge chess pieces."

When Ye Feng heard the enchantress beside him say this, he looked at her in surprise.

In fact, Ye Feng didn't think so much, but he didn't expect that his cheap disciple would think so much and regard himself as a scheming person.

In response, Ye Feng just laughed and didn't explain anything. He flew quickly towards the huge ancient temple not far ahead.

The Enchantress quickly followed.

When the two arrived at the entrance of this ancient temple, they saw the entire ancient temple and no one invaded.

.

The door on the first floor of the ancient temple is still closed.

Uh-huh!

Ye Feng didn't hesitate at all and immediately stretched out a hand.

A big golden hand directly blasted open the door of this ancient temple.

The next moment, Ye Feng led Enchantress into the ancient temple.

But at this moment, suddenly there was a huge ancient statue in the space inside the ancient temple.

This statue is most likely the statue of an ancient god.

Buzz!

The moment Ye Feng and Enchantress entered this ancient temple, the ancient statue immediately emitted a bright divine light, giving the impression that the entire ancient statue was resurrected.

The resurrected ancient statue immediately made a majestic voice and said, "Who are you? How dare you disturb my habitat."

At this time, hearing this ancient statue make such a grand and majestic sound, and radiating light all over, gave people a very sacred feeling.

The enchantress standing behind Ye Feng suddenly showed deep awe in her eyes. She couldn't help but said with some fear: "Master, is this the resurrection of the gods?"

At this time, Ye Feng was staring at the ancient statue that was emitting light. Suddenly he seemed to have figured out something. He laughed and said loudly: "I can't sense anything from this so-called ancient statue." I estimate that the breath of any god is a super strong person in a high-level cultivation interface. It is very likely that he is a super strong person in the heaven. In a low-level interface such as the Ten Thousand Demons interface, he has established a so-called statue of his own god. Sculpture, and created an ancient civilization, in order to collect the power of faith and practice for oneself. "

The reason why Ye Feng had this guess was because Ye Feng also encountered such a thing back then.

Hearing what Ye Feng said at this moment, the ancient statue's face immediately became very ugly, and he couldn't help but said: "You, a mortal, like an ant, dare to speculate on the intentions of this god at will. "Bullshit god!"

Ye Feng immediately laughed out loud.

You know, Ye Feng is the immortal body of the God, and the strongest being of the God clan is the god.

Therefore, Ye Feng is very sensitive to the breath of gods.

The power exuded by this ancient statue is not the high-level energy of the gods at all, it is just one level stronger than the power of the Ten Thousand Demons Interface.

At this moment, Ye Feng immediately stretched out his golden hand and attacked directly towards the ancient statue.

"What??"

The enchantress behind saw Ye Feng actually taking action against the ancient statue. In the eyes of mortals, this was simply treason, but the enchantress suddenly felt Ye Feng's super domineering power. Even the ancient statue could not stop Ye Feng. The will of the wind.

Chapter 4986 Coveting

Buzz!

Almost at the moment when the ancient statue's words fell, the light on the statue condensed into a huge long sword, like a sacred sword of the gods, and fiercely shot towards Ye Feng. Chopping away.

This divine sword is entirely composed of light and possesses terrifying power.

Even the enchantress standing behind Ye Feng felt a very terrible feeling at this moment, as if her whole body was about to be torn apart.

"boom!!"

But Ye Feng suddenly burst out with an extremely powerful and majestic momentum.

Ye Feng's whole body suddenly burst into brilliant golden light.

boom!

Ye Feng punched forward fiercely. His fist immediately turned into a huge golden fist with terrifying power. It suddenly hit the front and killed those who were killed. On top of the big sword composed of divine light.

"boom!!"

"Crack!!"

At this moment, under the horrified gaze of this ancient statue, Ye Feng's golden fist actually smashed his sword of light into pieces.

This great sword of light did not even cut through the membrane on Ye Feng's golden fist.

"What? How is this possible??"

Seeing this scene, the ancient statue couldn't help but screamed in disbelief and said: "My great sword of light, but I condensed it with the incomparable high-level power of the heavens, the little

ten thousand monsters." The power system of the cultivators in the interface is extremely low-level. How can you, a humble mortal, destroy the sword of light that I made up of such advanced energy? This is impossible!"

But the moment the ancient statue finished speaking, he suddenly stared at Ye Feng, who was exuding a golden light.

As if he sensed something, he couldn't help but immediately changed his face and said: "This kind of aura is wrong! Your power is not the native power of the Ten Thousand Demons Interface at all. Your power is actually the power of the legendary Celestial Clan. ?? How is it possible? ? The Celestial Clan is the ancient protoss with the highest level of advanced interface in the world. It has been lost in history for tens of millions of years. How could the legendary Celestial Clan appear in a low-level interface? Energy? This is impossible!"

At this time, as Ye Feng guessed, this ancient statue came from the highest interface heaven among all the worlds where the great world of origin is located.

He actually sensed that the power in Ye Feng belonged to the legendary Celestial Clan.

But at this time, Ye Feng didn't bother to talk nonsense at all, and just stretched out another hand.

Buzz!

Ye Feng's hand instantly expanded into a big golden hand, possessing boundless power. Like an ancient mountain, it directly and fiercely bombarded the ancient statue in front of it.

Boom! !

At this moment, this ancient statue had no resistance at all, and the entire statue was directly smashed to pieces by Ye Feng's golden hand.

But at this moment, among the ancient statues, the will of a super powerful man from the heaven immediately spoke out threatening words: "You are actually the legendary heaven who has disappeared in the course of history for tens of millions of years." Heir of the God Clan, your appearance and aura of strength have all been memorized by me. One day, I will definitely find you and plunder your noble Celestial Clan body! Hahaha! Broken my sculpture, but it doesn't matter. Once I find you, then I may

Maybe you can use your unique and perfect Celestial Clan body to achieve the greatest success in my magical power, and even make me the strongest being in the world! "

At this time, the moment the words of this super powerful man from heaven fell, his last will was completely dissipated.

At this moment, Ye Feng heard the last words of this super powerful man from heaven, and his eyes showed a deep look.

Unexpectedly, this super strong man is still alive now. Perhaps he is a super boss in the heaven. He actually sensed the power and aura of his own Celestial Clan and secretly remembered him.

For Ye Feng, this is like adding a terrifying enemy.

However, this does not pose any threat to Ye Feng for the time being. After all, this super strong man is in the heaven. No matter how powerful he is, he cannot physically come to the entire Ten Thousand Demons Interface. The interface will of the Ten Thousand Demons Interface cannot allow this to happen. .

At this time, Ye Feng suddenly felt vigilant in his heart. It seemed that he was coming into contact with more and more powerful people. Even when he reached the heaven in the future, the power and aura of his Celestial Clan still could not be easily revealed. Otherwise, it is very likely that many super bosses and super strong people in the heaven will target them, trying to plunder their unique body of the Celestial Clan.

After all, in the ancient times, the Celestial Clan was definitely the most powerful race in the heavens. It was known as the ancient Clan of Gods. Now it has disappeared in the long river of history for tens of millions of years.

Therefore, Ye Feng fused the Immortal Bones of the Gods, slowly cultivated and transformed his body, and became an extremely powerful immortal body of the Gods, which would definitely be greedy and coveted by many super strong men and big bosses.

Ye Feng immediately understood in his heart that after he arrived in the heaven, he would not be able to easily reveal the power of his Celestial Clan.

But in this Ten Thousand Demons interface,

It doesn't matter.

After all, the Ten Thousand Demons Interface is only a relatively low-ranking interface among the heavens and realms where the Origin World is located. Many people don't even know what the Celestial Clan is.

However, Ye Feng is very clear that if he wants to seek the strongest power, he must go to the number one heaven in the future.

After obtaining the most powerful power in all the worlds, Ye Feng had the confidence to go to the end of the origin world and the connected extraterrestrial world.

That is a high-level cultivation dimension, much higher than any interface in the universe where the Great World of Origin is located.

At this moment, Ye Feng was thinking secretly in his heart, and then directly released the Devouring Domain, covering the ancient statue in front of him that was broken by him.

This ancient statue is a sculpture built by a mysterious superpower in the heaven in the interface of ten thousand demons. It has absorbed and accumulated a lot of power of faith over many years.

Ye Feng absorbs the power of these beliefs at this time, and naturally can get a lot of energy.

Boom!

At this moment, as he absorbed the power of faith contained in the ancient statue, Ye Feng could clearly feel that his skill was growing rapidly.

After all, the power of faith is the purest energy in the world and can greatly increase the power of practitioners.

At this moment, the bottleneck of Ye Feng's cultivation in the tenth level of the Soul Pill Realm began to loosen due to the accumulation of such a pure power of faith.

"boom!!"

And almost at the next moment, the cultivation bottleneck of the tenth level of the Soul Dan Realm was suddenly broken through, allowing Ye Feng to directly step into the half-step Heart Refining Realm above the Soul Dan Realm!

Ye Feng's power has undergone earth-shaking changes at this moment!

Chapter 4987 Spring of Life

Although Ye Feng did not directly break through to the Heart Refining Realm above the real Soul Dan Realm this time, and only stepped into the half-step Heart Refining Realm, this was also a breakthrough in a big realm. Ye Feng's power increased a lot in an instant. .

At this moment, Ye Feng could feel that his combat power had definitely increased by nearly a hundred times with his breakthrough in cultivation, and he was much stronger than before.

This also makes Ye Feng more confident among the Five Poison Sect.

It seems that I am really lucky this time. I just came to Wudu Gate and encountered such an ancient ruins.

Moreover, Ye Feng is pretending to be the elder of the inner sect of the Five Poison Sect. In this evil sect, fists are the king, and it is normal to kill each other, which gives Ye Feng the conditions to directly snatch other people's cultivation resources.

At this time, Ye Feng looked at the enchantress beside him and found that she was staring at him with an incredible look.

There seemed to be deep admiration in those beautiful eyes.

Ye Feng understood immediately. He was probably a cheap disciple who was very shocked when he saw that he had suppressed the will of the statue of the legendary ancient god.

In this regard, Ye Feng didn't bother to explain anything. He just smiled faintly and said: "Now that the threat in this ancient temple has been removed, let's just search for it in this ancient temple,

Enchantress. You go to the left direction, and I will go to the right direction, and we will search together to see if there are any cultivation resources."

"Yes, Master."

The Enchantress immediately nodded and was about to leave.

At this moment, Ye Feng suddenly said: "If you find various cultivation resources, don't squander it for yourself. If I find out that you have squandered good things for yourself, then don't blame Master. I don't remember the relationship between master and disciple." I will punish you severely."

Hearing what Ye Feng said, the beautiful figure of Enchantress immediately trembled, and then said quickly: "Master, don't worry, the disciple respects the master very much. If the disciple discovers the cultivation resources that can be useful to the master, , I will definitely not squander it for myself. I will put all the cultivation resources directly in front of the Master and let the Master decide how to use them. "

Hearing the Enchantress say this, Ye Feng suddenly

He just nodded with satisfaction, stroked the other party's beautiful long black hair, and said loudly: "My dear disciple, you are very good, then you go and look for it."

The Enchantress nodded and flew quickly to the left.

Ye Feng walked towards the right.

The internal space of this ancient temple is very huge, and there are various winding passages in the ancient temple, just like an ancient castle.

Ye Feng walked toward the space on the right, and soon came to a room on the right side of this ancient temple.

This room was the first internal space on the right side of the ancient temple. When Ye Feng walked in, he immediately saw several boxes piled on the ground.

Ye Feng naturally opened these boxes without any hesitation.

But the next moment Ye Feng discovered that the items in these boxes had turned into fly ash. They had probably been left here for too long, so both the weapons and various training resources had completely decayed and turned into ashes. .

This made Ye Feng feel quite regretful.

Because in this ancient temple there are statues of gods left by the super powerful people from the heaven, which is enough to show that this ancient temple must have been built by an extremely brilliant force, specifically for that super powerful person in the heaven. Contribute your faith.

Therefore, this ancient temple must have been a brilliant place back then.

Ye Feng naturally knew that there must be a lot of cultivation resources in this ancient temple, and they were very advanced.

But what makes Ye Feng quite helpless is that it seems that the time interval has been too long, so the good things in the box in the first room have basically decayed and turned into fly ash.

Ye Feng glanced at these empty boxes with regret and walked towards the second room.

When Ye Feng came to the second room, he immediately saw the ground

It was very chaotic, with many corpses lying on the ground, but these corpses were basically rotten, and many of them had various weapons inserted into their bodies.

These weapons are basically rusted and broken, and they don't have much use value.

It seems that a huge turmoil occurred in this ancient temple that year, which led to the decline of the cultivation civilization here.

At this moment, Ye Feng walked directly towards the third room without any hesitation. .??.

This third room is already the last room on the right side of the ancient temple.

Although Ye Feng absorbed a lot of advanced power of faith from the ancient statue just now, which transformed his own cultivation, it can be regarded as a considerable benefit.

But it would be a pity if everything else in this ancient temple was turned into ashes.

But when Ye Feng walked into the third room, his eyes suddenly lit up.

Because there is a spring in the third room. After hundreds of thousands of years, this spring is still bubbling "Gulu" and "Gulu". It seems that this spring has some special power.

Ye Feng walked over and suddenly took a deep breath and found that his vitality had been improved.

Ye Feng couldn't help the surprise in his eyes immediately, and murmured, "This spring water seems very ordinary, but I didn't expect it to contain such a rich life energy. I walked forward and took a breath of air. , I feel that the air is full of life energy, which makes my vitality improve a lot and my blood energy becomes much stronger."

And just when Ye Feng was muttering, Emperor Chu in his mind suddenly said: "Huh? This seems to be a very rare spring of life. Only in very special places can nature breed a spring of life, because life The spring water is living water and cannot be moved. Once the life spring water is moved, the life spring water will completely dry up and die, and it will no longer have life force. "

Ye Feng's eyes suddenly lit up when he heard Emperor Chu suddenly speaking in his mind.

r\u003e

Being able to make Emperor Chu take the initiative to speak out shows that this spring of life is definitely not an ordinary thing.

Ye Feng couldn't help but said: "Emperor Chu, can I directly swallow the life energy in this spring of life? Wouldn't it be too wasteful?"

Emperor Chu nodded in his mind and said aloud: "It would be too wasteful to directly swallow the energy of the life spring water, which is a waste of natural resources. The real great effect of the life spring water is to allow the user to have infinite and long-lasting life recovery ability. In other words, a person, or a practitioner, no matter how seriously injured he is during a battle, as long as he has one breath left and jumps into this spring of life, he can directly return to his peak state, because the spring of life It represents the vitality of the entire world and nature, and can restore seriously injured and dying people to a completely normal state."

Hearing what Emperor Chu said, Ye Feng suddenly showed a look of surprise on his face. He didn't expect that he would come across such a magical spring of life.

But the next moment, Ye Feng seemed to have thought of something, and couldn't help but said helplessly: "Emperor Chu, since this spring of life cannot be moved, and it will be completely exhausted once it is moved, then for me it is not the same. It doesn't have much effect. I can't run all the way to this small world every time after being seriously injured in a battle with an enemy, come to this spring of life, and jump in to recover my injuries. I won't always be in the Five Poisons. Stay here."

Hearing what Ye Feng said, Emperor Chu smiled slightly in his mind and said aloud: "That was before you met me. What I said is that under normal circumstances, there is no way to move this spring of life, and under this world, even if it is Even strong beings can't move this life spring, but I'm different. Everything is possible here."

"Um?"

Hearing what Emperor Chu said, Ye Feng's eyes suddenly lit up.

Emperor Chu continued: "I have a way to graft this spring of life into your body, Ye Feng. In this way, you can activate the spring of life in your body at any time and continuously recover from your injuries. , has almost unlimited resilience during the battle!"

Chapter 4988 Great Protector

At this time, hearing what Emperor Chu said, Ye Feng naturally showed a look of ecstasy on his face.

Sure enough, Emperor Chu is Emperor Chu. He is worthy of being a mysterious and unpredictable existence, possessing all kinds of abilities.

At this time, Ye Feng naturally had no hesitation and immediately couldn't help but said: "Emperor Chu, then you should start the operation now and graft this spring of life into my body. In this case, next I will It can be used directly anywhere."

Ye Feng knew very well that the spring of life that Emperor Chu valued so much must be very precious.

If it can really be transplanted to his own body and can be used at any time, for Ye Feng, it will undoubtedly have a huge trump card.

Although the life spring water cannot help Ye Feng directly fight, it can provide Ye Feng with a steady stream of recovery power, which is very important during the battle.

You know, although Ye Feng is powerful in combat, many high-level inheritances consume a lot of power once they are used.

But with this life spring water, not only can one recover from injuries, but one can also replenish one's lost power and vitality, and it can also recover at an incredible speed.

Therefore, once Ye Feng can successfully graft this spring of life onto himself, it will have a huge blessing effect on Ye Feng's future battles. ??

When he heard what Ye Feng said, Emperor Chu nodded and said, "If I want to graft this spring of life into your body, the process will probably be a bit painful, because this spring of life is nurtured by nature. If you, a little human being, want to possess and integrate the treasure that came out of it, you must pay a huge pain and price."

Ye Feng nodded, without any fear in his eyes, but said firmly: "Let's begin!"

"good."

Emperor Chu nodded and immediately flew out of Ye Feng's head, turning into a giant made of red light and appearing above Ye Feng's head.

Uh-huh!

The next moment, Emperor Chu stretched out two big hands composed entirely of red light, and immediately grabbed the spring of life.

Then Emperor Chu seemed to have touched something and lifted it up fiercely.

The next moment.

Boom! !

Along with a huge roar, Emperor Chu grabbed something like a huge tree root out from under the spring of life.

Emperor Chu said aloud: "This is the root of the spring of life. It is rooted in the earth. The root of the spring of life is invisible. That is to say, if it is someone else, no matter how powerful it is, there is no way to grab the root of the spring of life. , because it is an invisible thing, integrated into the nature of the earth, but I have used my special ability to condense the invisible roots of the life spring into a tangible form similar to tree roots, so I can put it The spring water of life is grafted onto Ye Feng."

After finishing speaking, before Ye Feng could admire Emperor Chu's various miraculous abilities, Emperor Chu had already forced the huge roots of the spring of life into Ye Feng's body.

Boom! !

At this moment, Ye Feng immediately felt a majestic power as vast as nature, forcibly filling his body, causing Ye Feng to suffer great pain in an instant.

Ye Feng's face immediately became very ugly and pale, but at this time Ye Feng endured the huge pain and remained silent, making Emperor Chu even have to admire Ye Feng's endurance.

However, ever since Ye Feng entered the path of spiritual practice, he has encountered many dangerous situations and terrible crises.

The pain caused by grafting the spring water of life seems to be nothing among the countless dangers Ye Feng has experienced in the past.

Under Ye Feng's strong steel-like will and endurance, the entire integration process went very smoothly.

The source of the spring of life was forcibly grafted into Ye Feng's body by Emperor Chu.

Wow!

And at the moment of success, the spring of life on the ground automatically flowed towards Ye Feng's body.

Then all the life spring water followed the source of the life spring water and poured into Ye Feng's body.

Ye Feng immediately felt that the spring of life in his body had taken root again, and it was deeply rooted in his Dantian.

Ye Feng could feel that the extremely rich life energy of the life spring water almost filled his entire body.

Ye Feng did not swallow this life energy directly, because it was definitely a waste of resources.

The most important thing about this spring of life is to heal yourself.

At this moment, Ye Feng immediately laughed loudly and said: "Emperor Chu, we succeeded!"

Emperor Chu nodded at this time, smiled slightly and said, "If I take action, I will succeed."

It has to be said that Emperor Chu said this with great confidence and even a sense of arrogance. However, Emperor Chu did have the strength to say such things. After all, even Ye Feng, after so many years, could not know the true identity of Emperor Chu and who he is.

However, Emperor Chu himself may not even know who he is, because Emperor Chu has been slowly awakening ancient memory fragments, and found that his identity seems to be getting more and more complicated.

At this moment, after Emperor Chu finished speaking, he turned into a red light again, entered Ye Feng's head, and hibernated again.

At this time, Ye Feng glanced at the empty surroundings and left here immediately.

Because there is nothing left to explore here.

Ye Feng was ready to rush in the direction of Enchantress, the cheap disciple, to see what good things she found.

But just when Ye Feng was about to leave, suddenly a painful scream came from the other side of the ancient temple.

Ye Feng's expression immediately changed and he quickly flew in that direction.

When Ye Feng flew to the space on the other side of the ancient temple, he immediately saw a white-haired old man wearing a skull pattern, followed by a group of more than a dozen young disciples, with a disdainful smile on his face.

Ye Feng's cheap disciple Yao Ji was slapped away by one of the white-haired old man's disciples at this moment. A blood-red slap mark appeared on her beautiful face, destroying her. That absolutely beautiful face.

Obviously, this group of people was very strong, and the Enchantress was unable to fight against them, and was immediately slapped away.

\u003e

At this moment, Ye Feng arrived here, and the demon girl immediately said angrily: "Master, this is the great protector of our Five Poison Sect. He and his disciples want to rob the first one I found. The ancient elixir of this ancient temple."

At this moment, the enchantress said, pointing to a young disciple behind the great protector.

Ye Feng immediately saw that in the hand of the young disciple behind the great protector, there was a pill that exuded a faint golden light.

This elixir is absolutely very precious and high-end. It was the enchantress who discovered it first, but in the end, it was snatched away by this group of people, and the enchantress was beaten badly.

At this time, Ye Feng naturally revealed a cold murderous intent in his eyes.

Ye Feng stared at the group of people not far away, especially the big protector standing at the front with arrogant eyes, and said coldly: "I will give you a chance now to rob you." Hand over the golden elixir, and then all of you kneel down in front of my disciple Yao Ji, kowtow and admit your mistake, and let Yao Ji give you a good beating to vent your anger. In this case, I may be able to spare your lives. "

"What?"

Hearing what Ye Feng said, the group of people on the opposite side looked stunned for a moment, and then immediately made mocking sounds.

At this moment, the Great Protector was too lazy to say anything.

The disciple holding the golden elixir behind the Great Protector immediately showed deep disdain on his face and said loudly: "Inner Sect Great Elder, although you can be regarded as an elder of our Five Poison Sect, but our Master However, the Great Protector of the entire Five Poison Sect is one of the top ten most powerful elders in the entire Five Poison Sect. As for you, the great elder of the inner sect, you are just relying on your age and seniority, but in fact you have no strength at all. , you live in seclusion all day long, and you still dare to threaten us in front of us? This is so ridiculous! Our Five Poison Sect is so cruel, you are weaker than us, and we will steal your things, what can you do to me? "

At this moment, the disciple of the Great Protector spoke with great disdain and ridiculed Ye Feng.

Obviously, with the Great Protector sitting here, even this young disciple is very provocative to older people like the Inner Sect Elder and is not afraid at all.

Chapter 4989 The strong are respected

At this time, the great protector of the Five Poison Sect, and even the dozen young disciples behind him, looked at Ye Feng with eyes full of ridicule.

Ye Feng was quite surprised when he saw this scene.

It seems that the great elder of the inner sect that he pretends to be is just a guy among the Five Poison Sects who relies on his age and mixed seniority, and is not very powerful.

Many powerful people in the Five Poison Sect did not take the Inner Sect Elder of the Five Poison Sect seriously at all.

But Ye Feng thought it was normal.

Previously, the great elder of the inner sect of the Five Poison Sect ran out of the Five Poison Sect and hunted down a junior figure like himself, not just to bully the younger ones.

Moreover, when the great elder of the inner sect of the Five Poison Sect was chasing Ye Feng, it was because his lifespan was insufficient and he was about to die completely, so he was anxious to capture Ye Feng and refine Ye Feng into a peerless elixir. Medicine to regain your strength.

Therefore, the great elder of the inner sect of the Five Poison Sect is very senior among the five poisonous sects, but his strength has declined seriously, and many people do not obey the great elder of the inner sect.

At this time, Ye Feng was thinking in his heart, but his eyes became cold. .??.

Buzz!

At this moment, Ye Feng's body suddenly burst out with a terrifying killing intent, spreading forward like an icy ocean in an instant.

At this time, Ye Feng stared at the disciple who was laughing at him and suddenly snorted coldly.

Ye Feng's body suddenly burst out with a terrifying poisonous energy, which directly hit the young disciple who was laughing at Ye Feng's great protector with lightning speed.

The speed was so fast that even the senior figure, the Great Protector, was not aware of it and it was too late to stop it.

"ah!!"

Almost at the next moment, accompanied by an extremely miserable scream, the young disciple who was laughing at Ye Feng was suddenly attacked by Ye Feng's poisonous gas, and let out a miserable scream, and his whole person was completely It withered, its skin turned black, and it suddenly fell straight to the ground, completely dead.

And the golden elixir from the ancient temple that he grabbed from the Enchantress also fell from his dead palm and rolled to the ground.

Uh-huh!

Ye Feng reached out and grabbed it, and a huge suction force directly sucked the golden elixir into Ye Feng's hand.

Ye Feng casually threw it directly to the Enchantress behind him and said loudly: "This golden elixir has no great effect on me, but for young people like you, Enchantress, It has a great effect and can help you improve and stabilize your strength."

Seeing that Ye Feng casually killed the strongest disciple of the Great Protector and snatched the golden elixir back, Enchantress immediately said respectfully: "Thank you, Master, for the reward. ! Disciple will definitely serve Master well in the future!"

Enchantress was very happy at this time. Although she was extremely beautiful, she was just a weak woman after all. In such a cruel environment like the Five Poison Sect, with a powerful master like Ye Feng to protect her, it was natural for Enchantress I felt very safe and had a strong sense of confidence.

So at this time, Enchantress has already regarded Ye Feng as her biggest supporter. No matter what Ye Feng says, she will agree and give everything she has to Ye Feng.

At this moment, Ye Feng just stared at

He saw the Great Protector in front of him with a look of shock and anger on his face, and a group of young disciples of the Great Protector, with a sneer in his eyes, and said loudly: "I have just given you a chance, but you don't know how to cherish it, so I I had no choice but to be cruel."

At this moment, seeing Ye Feng's ruthless and decisive methods, the Great Protector and the remaining group of young disciples suddenly showed deep shock and anger in their eyes.

A group of young disciples could be said to be very frightened and angry, but also deeply fearful.

Because Ye Feng, the great elder of the inner sect, was so powerful, even the great protector had no time to react and directly killed the strongest young genius among them.

So at this time, although many young disciples under the Great Protector were very shocked and angry at Ye Feng's behavior, they no longer had the mocking heart as before, but their eyes were filled with deep fear.

Because the strength Ye Feng showed was so powerful, it made these young disciples feel fear.

Ye Feng can kill the strongest young genius among them, which means that Ye Feng can also kill all the remaining young geniuses at any time.

However, at this moment, many young geniuses all looked at their master, the Great Protector, and couldn't help but said: "Master, this great elder of the inner sect is so bullying. He even dares to do it directly in front of you. He killed our senior brother, Master, you must make the decision for us!"

At this moment, many young geniuses thought of their master, who was one of the top ten most powerful protectors among the Five Poison Sects, and suddenly became full of confidence.

Buzz!

At this time, the white-haired old man, the Great Protector, exuded an aura of power that was like a vast ocean.

Like a furious lion, he looked at Ye Feng not far away, his eyes full of cruelty and anger, and said loudly: "Great Elder of the Inner Sect, you are so brave, you dare to kill me in front of me. The top disciple of the Inner Sect was killed. Don't think that just because you are the Great Elder of the Inner Sect, you can be so impudent. In this small world of ancient ruins, if I kill you, no one will know that I am the one who killed you."

At this moment, it was obvious that the great protector had a strong murderous intention towards Ye Feng.

Ye Feng didn't want to talk nonsense at this time. He just glanced at the great protector and said, "If you want to kill me, just kill me. Don't talk nonsense."

"you.....!"

Hearing Ye Feng's arrogant words, the Great Protector of the Five Poison Sect couldn't bear it anymore, and power like a vast ocean suddenly burst out from his body.

Ye Feng sensed it carefully and secretly admired it in his heart.

This great protector is worthy of being one of the top ten in terms of combat effectiveness among the Five Poison Sects. As expected, his cultivation is very powerful, three realms higher than Ye Feng's current realm.

However, Ye Feng is not that afraid. After all, the poisonous attacks that are the specialty of the Five Poison Sect are almost ineffective against Ye Feng.

So even though this great protector is three levels higher than Ye Feng, the most powerful method of this great protector, the poisonous attack, does not do much harm to Ye Feng.

And you should know that Ye Feng had just merged with a spring of life.

Therefore, Ye Feng naturally did not retreat at this time, but spoke out without fear: "Everyone knows the rules of the Five Poison Sect. The strong are respected and the great protectors. Next,

let's see which of us has the stronger fist. Be tough!" At this time, the great protector of the Five Poison Sect, and even the dozen young disciples behind him, looked at Ye Feng with ridicule.

Ye Feng was quite surprised when he saw this scene.

It seems that the great elder of the inner sect that he pretends to be is just a guy among the Five Poison Sects who relies on his age and mixed seniority, and is not very powerful.

Many powerful people in the Five Poison Sect did not take the Inner Sect Elder of the Five Poison Sect seriously at all.

But Ye Feng thought it was normal after thinking about it.

Previously, the great elder of the inner sect of the Five Poison Sect ran out of the Five Poison Sect and hunted down a junior figure like himself, not just to bully the younger ones.

Moreover, when the great elder of the inner sect of the Five Poison Sect was chasing Ye Feng, it was because his lifespan was insufficient and he was about to die completely, so he was anxious to capture Ye Feng and refine Ye Feng into a peerless elixir. Medicine to restore one's strength.

Therefore, the great elder of the inner sect of the Five Poison Sect is very senior among the five poisonous sects, but his strength has declined seriously, and many people do not obey the great elder of the inner sect.

At this time, Ye Feng was thinking in his heart, but his eyes became cold.

Buzz!

At this moment, Ye Feng's body suddenly burst out with a terrifying killing intent, spreading forward like an icy ocean in an instant.

At this time, Ye Feng stared at the disciple who was laughing at him and suddenly snorted coldly.

Ye Feng's body suddenly burst out with a terrifying poisonous energy, which directly hit the young disciple who was laughing at Ye Feng's great protector with lightning speed.

The speed was so fast that even the senior figure, the Great Protector, was not aware of it and it was too late to stop it.

"ah!!"

Almost at the next moment, accompanied by an extremely miserable scream, the young disciple who was laughing at Ye Feng was suddenly attacked by Ye Feng's poisonous gas, and let out a miserable scream, and his whole person was completely It withered, its skin turned black, and it suddenly fell straight to the ground, completely dead.

And the golden elixir from the ancient temple that he grabbed from the Enchantress also fell from his dead palm and rolled to the ground.

Uh-huh!

Ye Feng reached out and grabbed it, and a huge suction force directly sucked the golden elixir into Ye Feng's hand.

Ye Feng casually threw it directly to the Enchantress behind him, and said loudly: "This golden elixir has no great effect on me, but for young people like you, Enchantress, It has a great effect and can help you improve and stabilize your strength."

Seeing that Ye Feng casually killed the strongest disciple of the Great Protector and snatched the golden elixir back, Enchantress immediately said respectfully: "Thank you, Master, for the reward. ! Disciple will definitely serve Master well in the future!"

Enchantress was very happy at this time. Although she was extremely beautiful, she was just a weak woman after all. In such a cruel environment like the Five Poison Sect, with a powerful master like Ye Feng to protect her, it was natural for Enchantress I felt very safe and had a strong sense of confidence.

Chapter 4990 What happened

"Arrogant!"

Almost at the moment Ye Feng finished speaking, the Great Protector on the opposite side immediately burst out with an extremely powerful cultivation aura, which was three realms higher than Ye Feng's current half-step Heart Refining realm.

At this moment, the Great Protector first condensed a majestic black lion that was several kilometers tall behind him.

This black lion is completely condensed from the poisonous power of the Great Protector.

Just like the law of heaven and earth, it suddenly rushed in the direction of Ye Feng.

The majestic black lion, which was several kilometers long, had a very strong sense of oppression. Ye Feng suddenly felt a huge pressure on his body.

But at this time, Ye Feng didn't have the slightest fear, but instantly burst out the power of the immortal body of the god.

In the Ten Thousand Demons interface, almost no one can recognize that Ye Feng's immortal body of the gods is the body of the gods, so Ye Feng has no scruples.

At this moment, Ye Feng's whole body immediately burst into golden light, and his whole body began to expand, turning into a majestic golden giant with a height of several kilometers, and collided with a black lion that was several kilometers long. Together.

Boom! !

The two collided with each other, and a terrifying roar suddenly erupted.

At this moment, what shocked the Great Protector was that the black lion he had condensed with the poisonous power could not poison Ye Feng. Instead, Ye Feng's golden fist blasted out, making the black lion immediately unable to bear it. He took several steps back.

It has to be said that Ye Feng's immortal body of the gods is getting stronger and stronger as it continues to evolve.

Even the black lion condensed by this great protector could not withstand the attack of Ye Feng's own power.

At this moment, the great protector's eyes widened when he saw Ye Feng transforming into a majestic golden giant several kilometers tall.

He couldn't help but exclaimed: "The great elder of the inner sect, your special skill

It's the poisonous field. Why can you cultivate such a powerful body inheritance? Can he transform into such a powerful golden giant? This is impossible! Where did you get this inheritance from? "

At this moment, when Ye Feng heard what the Great Protector said, his eyes showed no emotion at all, but he said indifferently: "You don't need to know this. What you need to know is that you will die next." It's very miserable. Anyone who goes against this elder will die!"

boom!

After saying that, Ye Feng instantly burst out with the even more powerful power of the God's Immortal Body.

And at this moment, Ye Feng also used other methods.

For example, the secret skill of the great elder of the inner sect, the extremely poisonous field.

You must know that Ye Feng has practiced the powerful inheritance from heaven, the Ten Thousand Poison Technique, so when Ye Feng uses the inheritance of poison, he is much more powerful than the real inner sect elder before.

At this moment, Ye Feng used the immortal body of the god to fight against the black lion that was condensed by the Great Protector, while releasing a huge poisonous field of tens of thousands of meters, which instantly enveloped the Great Protector.

When the Great Protector saw that the poisonous field released by Ye Feng was so huge and terrifying, he immediately couldn't help but said: "How is this possible? In the poisonous field, the

strongest practitioner I have ever seen is the master. Brother, even the master brother cannot cultivate the poisonous field to such a huge area. How on earth did you do it, Great Elder of the Inner Sect? This is unscientific!"

At this moment, the Great Protector suddenly felt that the Inner Sect Elder in front of him had become a bit strange.

You know, in the eyes of the Great Protector, the Great Elder of the Inner Sect was just an old guy with mixed qualifications and was about to die.

Unexpectedly, after the inner sect elder went out for a trip, he suddenly

Suddenly became so powerful.

Not only has the inheritance of poison become more terrifying, but he also has many other brand-new methods, which makes people feel very incredible.

The Great Protector immediately stared at Ye Feng and couldn't help but said: "Great Elder of the Inner Sect, did you find the cave of an ancient superpower during the half month you went out? Did you get some ancient treasure?" The peerless inheritance of a strong man? Otherwise, you wouldn't have become so strong all of a sudden, and you would have so many powerful methods!"

Hearing what the Great Protector said, Ye Feng laughed loudly and said, "Are you afraid of talking so much nonsense?"

When the Great Protector heard what Ye Feng said, his face was immediately filled with great anger, and he said loudly: "Great Elder of the Inner Sect, you are too arrogant! I have other secret skills that I have not used. Once I use this set of secret skills, , you will definitely die, but the damage to me will be a bit big, but now there is no need to keep anything. After killing this old thing like you, I will get all the latest peerless inheritance and secrets from you! "

After finishing speaking, a terrifying aura suddenly erupted from the Great Protector's body.

And at the next moment, the Great Protector shouted loudly: "The body of the poisonous scorpion emperor!"

Boom!

At this moment, the Great Protector seemed to have inspired some kind of special ancient bloodline.

His whole body immediately began to expand, and in the end it expanded into a huge black scorpion that was tens of thousands of meters tall.

And the scorpion tail is a scorpion stinger that is several kilometers long and looks like it is made of steel.

Seeing this scene at this moment, Ye Feng's eyes suddenly showed a look of surprise, and he couldn't help but said: "Great Protector, it seems that you used some vicious means to fuse the blood of an ancient poisonous scorpion. He actually transformed himself into a half-human, half-animal being."

At this time, the great protector turned into this huge black poisonous scorpion, and immediately let out a hoarse and roaring voice: "Great elder of the inner sect, I have transformed into the form of the ancient dark poisonous scorpion king, you will definitely die!"

At this moment, the majestic black poisonous scorpion of tens of thousands of meters that the Great Protector turned into rushed towards Ye Feng. The single sting on the back, which was tens of thousands of meters long, rushed towards Ye Feng in an instant. Ye Feng stabbed away, as if he could pierce through everything in the world.

At this moment, Ye Feng immediately roared loudly, bursting out with all his strength the power of the God's Endless Body.

In addition, a huge portal suddenly appeared above Ye Feng's head.

This door emits a white divine light, it is the door to heaven!

This advanced light power in the gate of heaven can dispel any dark power.

The poisonous scorpion transformed by this great protector has dark attributes, so Ye Feng's release of the Gate of Heaven can dispel the dark power on his body and greatly reduce his combat effectiveness.

Sure enough, at this time, the power of light in the Gate of Heaven instantly enveloped the surroundings and shone on the poisonous black scorpion, causing the poisonous black scorpion's combat effectiveness to drop rapidly in an instant.

"What??"

Feeling the rapid decline in his strength, the poisonous black scorpion transformed by the Great Protector suddenly spoke out in horror: "Great Elder of the Inner Sect, how can you have such a poison that is specially designed to restrain our darkness?" Magical weapon with attributes, where did you get it, so high-level? What happened to you during the half month you were away?"

At this moment, the Great Protector could be said to be completely shocked to the extreme. His impression of the Great Elder of the Inner Sect had undergone an earth-shaking change.

He suddenly felt that the great elder of the inner sect, who had almost lost his presence among the Five Poison Sects, suddenly became mysterious and unfathomable!
