

## Ancient 5021

Chapter 5021 The person in charge

Although Ye Feng now pretends to be the ancestor of the Divine Sword and enters the inner world of the Five Poison Sect, the main reason is to find the body of the god that the founder of the sect obtained.

But since Ye Feng is now pretending to be the ancestor of the Divine Sword, it is not easy to refuse directly when the leader of the elder group asks him to go there.

After all, Ye Feng will have to hang out in this small internal world for a while.

Ye Feng immediately nodded at this time, looked at the middle-aged man in black armor in front of him, and said, "Just lead the way."

When the middle-aged man heard what Ye Feng said, he immediately clasped his fists respectfully, then turned around and flew quickly towards a certain direction in this small world.

Uh-huh!

Ye Feng also followed. ???

At this moment, Ye Feng was following behind this middle-aged man in black armor, but he was secretly exuding his soul power and perception, trying to sense how much power was hidden in the small world inside the Five Poison Sect. breath.

Buzz!

The moment Ye Feng released his soul power, his eyes suddenly revealed a look of deep surprise.

Because Ye Feng sensed that in this small internal world of the Five Poison Sect, there were at least hundreds, even thousands, of ancestor-level characters.

However, what makes Ye Feng breathe a sigh of relief is that not every ancestor's aura is stronger than his own. Most of the ancestors are basically at the same level as the ancestors of Duyun, and a few are as strong as the ancestors of the Divine Sword. Of course, there are even more powerful beings with the same level of cultivation as the ancestors.

However, these powerful beings should all be among the top few in this small internal world.

Because the ancestor of the Divine Sword said before that his strength can be ranked among the top ten among the internal small world elders of the Five Poison Sect.

Therefore, if there is a more powerful existence in this small inner world of the Five Poison Sect, it should not be too serious.

many.

This made Ye Feng breathe a sigh of relief.

Because if Ye Feng wants to hang out in this small internal world for a while, he will inevitably have some conflicts sometimes.

And his most powerful method now, which is his second avatar, the ancient demon's immortal true body, cannot be used directly, otherwise the secret will definitely be exposed.

Now he can only use the methods of the Divine Sword Ancestor, so Ye Feng's strength is greatly reduced.

However, Ye Feng's skill reserve is very powerful after all, and with the help of the divine weapon 'Celestial Sword' left by the Celestial Clan, Ye Feng feels that even if he only uses the methods and inheritance of the ancestor of the Celestial Sword, he will never be able to Weaker than the Divine Sword Ancestor.

Even with the blessing of the Divine Sword, the inheritance and martial arts of the Divine Sword Ancestor may be more powerful than the Divine Sword Ancestor itself, so Ye Feng doesn't have anything to fear.

At this moment, Ye Feng no longer thought about anything, but followed the middle-aged man in black armor with peace of mind, flying quickly towards the center of this small world.

Soon, under the leadership of this middle-aged man in black armor, Ye Feng had arrived at the middle area of the small world inside the Five Poison Sect.

Ye Feng immediately saw that in the void ahead, there appeared a majestic hall measuring tens of thousands of meters. It looked magnificent and very imposing.

At this moment, the middle-aged man in black armor who was leading the way immediately said in a very respectful voice: "Ancestor of the Excalibur, the master in charge is waiting for you in the main hall. Ancestor of the Excalibur, you can go in directly. "

Obviously, not everyone is qualified to enter the central hall of the Five Poison Sect Elders.

This middle-aged man in black armor, who was only responsible for leading the way, could only wait outside the door.

Ye Feng nodded immediately at this moment and said: "Okay."

After saying that, Ye Feng flew directly into the majestic hall in front of him.

The moment Ye Feng walked into the hall, he immediately saw that in the empty hall, there was a huge golden throne, standing at the top of the hall, like an emperor's throne.

At this moment, a tall and majestic old man was sitting on this golden chair. He looked extremely majestic, like a god sitting on it.

At this moment, Ye Feng couldn't help but said: "See the leader."

At this time, the leader of the elder group of the Five Poison Sect sitting at the top immediately nodded slightly and said loudly: "Have you brought the head of the great elder of the inner sect?"

Ye Feng nodded and directly took out the head of the inner sect elder from the storage ring.

Ye Feng has already prepared this kind of thing, and he can completely fool it.

Moreover, this is the real head left by Ye Feng after he killed the great elder of the inner sect. It is definitely more real than the real thing and will not be seen as anything strange at all.

Uh-huh!

At this time, the leader of the Elder Group reached out and grabbed the head of the inner sect elder and sucked it into his palm. Then he sensed it carefully and said with some doubts: "Huh? It's just very special." It's really strange how someone with ordinary bloodline and physique can have such strong power and be able to kill Ancestor Duyun head-on..."

Hearing the murmur of the leader, Ye Feng's eyelids twitched immediately and he quickly said: "Maybe this inner sect leader

The elder may have other special methods. "

Hearing what Ye Feng said, the leader of the elder group seemed to be too lazy to care about these trivial matters. Instead, he looked at Ye Feng in front of him and said loudly: "Ancestor of the Divine Sword, I want you to come here in person this time, and other things."

Ye Feng immediately clasped his fists and said loudly: "If there is anything you need me to do, please give me your instructions, sir."

Hearing what Ye Feng said, the leader of the veteran group immediately nodded and said loudly: "What I want you to do, don't spread it everywhere, because this matter is very secret, even if we are the Five Poisons You can't tell the internal members of the sect, including other Supreme Elders who have a very good relationship with you."

Hearing what the unfathomable leader of the Five Poison Sect said, Ye Feng's eyes suddenly flashed, and he couldn't help but say, "What exactly does the leader need me to do?"

The leader of the Five Poison Sect's elders sitting at the top immediately said: "I need you to go to the most mysterious Ancestral Land in the deepest part of our small world and help me find something. The Ancestral Land is quite mysterious. It's not just you, I have also summoned several other powerful Supreme Elders, and you have teamed up to find that thing for me."

Ye Feng immediately couldn't help but asked: "Master in charge, what kind of things do we need to find in the land of our ancestors? Master in charge has terrifying cultivation and good fortune, why don't you go there in person."

The leader of the Elder Group immediately spoke out: "I need to sit at the core of the entire small world, so I can't escape. As for what kind of thing you need to find, the special token I gave you can sense that thing's position."

After finishing speaking, the leader of the elder group reached out and waved his hand, and a token that looked like it was cast from amethyst immediately flew to Ye Feng and floated in front of him.

Chapter 5022 No discovery

At this moment, Ye Feng looked at the amethyst token floating in the void in front of him, and immediately reached out and took the amethyst token in his hand.

Then Ye Feng couldn't help but asked with some confusion: "Master in charge, who are the supreme elders traveling with me this time?"

Hearing Ye Feng's question, the leader of the elder group immediately smiled slightly and said loudly: "They are the brother and sister, Flame Ancestor and Ice Ancestor. Their cultivation strength may be stronger than you, but they are just The overall strength is stronger than yours. In terms of attack, your sword attack methods are almost unrivaled. And the reason why I asked you three to do this this time is mainly because the three of you usually attack me. You are very loyal and I believe in your ability."

Hearing what the leader of the Elders said, Ye Feng immediately nodded and said, "Then when should I set off to the land of my ancestors?"

The leader of the Elders said: "The land of ancestors contains the bodies of many ancient powerful men of our Five Poison Sect, and it was also the battlefield where our Five Poison Sect and another ancient powerful force fought fiercely. So, there may be huge dangers in the Land of the Ancestors. After you go back this time, prepare well for three days. After three days, you will set off for the Land of the Ancestors. At that time, I will ask the Ice Ancestor and the Flame Ancestor to go to your residence, meet you. This amethyst token is only owned by you, so it can be seen that I believe in you, the ancestor of the Excalibur, the ancestor of the Excalibur. Don't let me down, the ancestor of the Excalibur. You must find this piece. Help me find the mysterious thing in the place pointed by the amethyst token."

Hearing what the leader of the elder group said, Ye Feng just flashed his eyes slightly, and then said aloud: "Master in charge, I understand."

After saying that, Ye Feng turned around and left the hall.

At this moment, the leader of the elder group in the main hall was staring at Ye Feng's figure, his old eyes

It was so profound that no one knew what he was thinking at this moment.

At this time, Ye Feng took the amethyst token handed to him by the leader of the elder group and quickly flew towards his place of residence.

When Ye Feng returned to the place where the ancestor of the Divine Sword lived, hundreds of disciples recruited by the ancestor of the Divine Sword were waiting for him respectfully.

Ye Feng was very satisfied when he saw this scene.

In three days, Ye Feng will go to the so-called land of ancestors to help the leader of the elder group find something mysterious.

Ye Feng actually didn't want to do this. After all, the leader of the elder group seemed a bit scheming. It would be very dangerous for him and two other powerful ancestor-level figures to go to the land of ancestors. Otherwise, it would be very dangerous. If so, it's impossible for the person in charge to go there himself.

As for what the leader said, he himself wanted to take over the entire small world and could not leave. Ye Feng felt that it was completely nonsense and was just a refusal. What he really wanted was to let himself and the other two ancestors take risks alone. Go find out what's going on.

Ye Feng had long seen through the inner thoughts of the leader of the veteran group, and he said that he trusted him, just to let people like him become cannon fodder.

So Ye Feng didn't want to do it unless he had to.

But now that Ye Feng was pretending to be the ancestor of the Divine Sword, he had to do this.

But there are still three days left.

Ye Feng prepared for these three days and mobilized all his disciples to find the news about the body of the god obtained by the founder of the sect, and tried his best to complete this within these three days.

thing.

If Ye Feng can find the body of the god within three days, he can leave the Five Poison Sect directly, without having to worry about what the leader of the elder group asks him to do.

So at this time, the moment Ye Feng returned to the place where he lived, without any hesitation, he immediately called all the hundreds of elite disciples of the ancestor of the Divine Sword in front of him.

At this time, Ye Feng directly sent out all the elite disciples and asked them to look for information about the body of the god obtained by the founder of the sect, and see if they could find it within three days.

In addition, Ye Feng also sent Long Zhantian and the high-level demon in the storage ring to help them secretly help find the news about the god's body.

At this time, Ye Feng himself was also expanding his soul power and searching for possible relevant situations around him.

Ye Feng spent the next three days doing this.

But what made Ye Feng quite disappointed was that after three days, no one found any special information.

They searched almost the entire inner world of Wudu Sect, but found no news or smell about the corpses of living beings.

This made Ye Feng's eyes suddenly darken.

But Ye Feng will definitely not give up on searching for the body of the god.

But three days have come, and Ye Feng must help the master in charge go to the land of his ancestors to find the mysterious thing.

Ye Feng couldn't shirk this matter either.

Because if he shirks it, then Ye Feng will have no way to continue to hang out in this small internal world.

After all, Ye Feng is now pretending to be the ancestor of the Divine Sword

, must not show any rejection as this may create suspicion.

In the early morning of the third day, Ye Feng walked out of his place of residence.

Ye Feng asked Long Zhantian and the senior demon to continue to secretly lead the disciples of the ancestor of the Divine Sword to continue to explore the news about the corpse of the god, and then he went to complete the task assigned to him by the leader.

Uh-huh!

At this time, Ye Feng flew out of the mountain peak where he lived and came to the sky.

Ye Feng immediately saw two figures flying over from the end of the sky in front of him.

These two figures are a man and a woman.

The man's whole body exuded an aura of ice, giving him a very cold feeling.

The woman, on the other hand, looked extremely beautiful. She was wearing a phoenix dress that looked like it was made of phoenix feathers. It exuded a light red light and was full of the power of fire.

Obviously, these two people should be the two partners that the leader of the Elder Group told Ye Feng before, the Flame Ancestor and the Ice Ancestor.

Ye Feng did not expect that these two ancestor-level figures were not old men, but a pair of young men with extraordinary splendor.

At this moment, the Ice Ancestor and the Flame Ancestor came to Ye Feng and immediately said: "Excalibur Ancestor, the person in charge should have told you about going to the land of the ancestors. We The two brothers and sisters are with you to help you, after all, the land of ancestors is very dangerous. "

Ye Feng immediately nodded at this time. He was not too familiar with these two people and did not say anything. Instead, he took out the amethyst token that the person in charge had given him before and headed towards the land of his ancestors. Fly away quickly.

The Flame Ancestor and the Ice Ancestor looked at each other and followed Ye Feng.

Chapter 5023 Free thugs

At this time, Ye Feng quickly arrived at the ancestral land located in the deepest part of the small world inside the Five Poison Sect based on the induction of the amethyst token in his hand.

The Ice Ancestor and the Flame Ancestor were also following Ye Feng.

Ye Feng sensed it carefully and found that the cultivation realms of the Flame Ancestor and the Ice Ancestor were four or five realms higher than his own, and were almost at the same level as the Divine Sword Ancestor.

However, the inheritance and methods practiced by the two are very special. One has the ultimate ice attribute, and the other has the ultimate fire attribute. Therefore, the power exerted by the cooperation between the two is absolutely terrifying. Even Ye Feng, now Probably impossible to resist. ??

However, Ye Feng is not afraid. After all, Ye Feng is now pretending to be the ancestor of the Divine Sword. As long as they don't reveal their flaws, these two people will not do anything to him.

After all, they are partners now.

Although they are not too familiar with each other, they were all ordered to come to the land of ancestors to help the leader of the Five Poison Sect Elders find the mysterious thing.

At this time, Ye Feng directly entered the ancestral land in front of him with the Flame Ancestor Ice Ancestor.

The next moment Ye Feng saw it, the entire ancestral land was like a mass grave. There was a lot of chaos everywhere. There was a deserted tomb here, and a tombstone was erected there, which gave people a very strange look. It feels scary and weird, like a place of the dead.

At this moment, Ye Feng quickly walked towards a certain direction of the ancestral land according to the guidance of the crystal token in his hand.

While walking, Ye Feng suddenly asked: "Ancestor Ice, Ancestor Flame, do you two know what the mysterious thing that the Master needs us to find is?"

Hearing Ye Feng suddenly ask such a question, the Ice Ancestor standing aside just shook his head and didn't say much.

The flame ancestor seemed to be a woman with a slightly more outgoing personality. She immediately said aloud: "We don't know what this thing is, but it must be very important to the person in charge. Otherwise, the three of us will not be killed." The top ten Supreme Elders were sent to look for that mysterious thing together, because only when the Five Poison Sect encountered a huge crisis, would it be possible for the Supreme Elders to join forces to fight against foreign enemies. Looking for something like this, It's really an exaggeration to have three ancestor-level figures unite together."

Hearing what the Flame Ancestor said, Ye Feng suddenly showed a look of surprise in his eyes.

It seems that this time, what the leader of the elder group asked them to look for must be very precious and extraordinary. Otherwise, they would not be able to unite the three princes at once.

Ancestor at the elder level.

After all, every Supreme Elder of the Five Poison Sect is a very powerful being with a very high status and will not take action easily.

For example, the last time Ye Feng and Ancestor Duyun fought in the outer area of the Five Poison Sect, it could be said to have shocked the entire Five Poison Sect's disciples.

Because to the ordinary disciples of the Five Poison Sect, or to other surrounding forces, the supreme elder in a first-class sect like the Five Poison Sect is definitely a super big shot that the dragon has never seen before.

At this time, Ye Feng was murmuring in his heart. It seemed that the danger this time was very great. He might have guessed it before. The leader of the elder group of the Five Poison Sect was a wily and cunning figure. The thing he was looking for must be very... Otherwise, they would not have sent so many Supreme Elders to unite.

This is basically treating people like themselves as the vanguard team, completely like cannon fodder.

Although Ye Feng was thinking this in his heart at this time, he did not say it directly. After all, this was not in line with his identity as the ancestor of the Divine Sword.

And after saying such words, it is estimated that the Ice Ancestor and the Flame Ancestor will doubt his identity.

Because whether it is the Ice Ancestor, the Flame Ancestor, or the Divine Sword Ancestor that Ye Feng is currently pretending to be, these supreme elders are absolutely completely loyal and obedient to the leader of the Elder Group.

So at this time, although Ye Feng had some small murmurs in his heart, he did not say it directly. Instead, he silently sensed everything around him, in case danger suddenly appeared, and he could respond at any time.

After all, Ye Feng has now guessed that this exploration mission will definitely be very dangerous during the journey. After all, this is a dangerous place that even the leaders of the Five Poison Sect Elders are reluctant to enter.

And just when Ye Feng was thinking secretly in his heart,

boom!

Suddenly, an ancient tomb not far away suddenly exploded.

A corpse covered with blue scales, its eyes emitting green light, immediately rushed towards Ye Feng and others.

But at this moment, before Ye Feng could take action, the Flame Ancestor beside him instantly stretched out a slender finger, pointing directly not far away.

Uh-huh!

A red beam of light burst out from her fingers

It was emitted, like a laser, and it pierced the corpse's head at once.

But that's not all.

Wow!

The moment this crimson light penetrated the corpse's head, the ancient mummy suddenly burst into flames.

"Roar!!"

Then, amid a burst of screams, the entire body of the transformed zombie was immediately burned to ashes, but a dark green core fell out, which was not affected by the flames of the Flame Ancestor. Burned to ashes.

Obviously, this is a very advanced zombie core that contains good zombie energy.

Uh-huh!

At this time, Ye Feng reached out and grabbed the zombie's zombie core into his hand.

Seeing this scene, Ancestor Flame showed a look of surprise in his beautiful eyes, and couldn't help but said: "When did Ancestor Divine Sword become interested in the core of this underworld attribute? Let's touch this kind of thing. They don't want to touch it, so as not to affect their own cultivation."

Ye Feng smiled slightly and said aloud: "Recently I am studying a special weapon refining technique. I want to integrate crystal stones or cores containing various energies into weapons. In this way, the weapons can be blessed with different attributes. The power exerts great power."

Hearing what Ye Feng said, both the Fire Ancestor and the Ice Ancestor had a look of surprise in their eyes. It seemed that they did not expect that a sword cultivator like the Divine Sword Ancestor would suddenly study the art of refining weapons. .

But they didn't doubt anything. After all, ancestor-level figures like them had lived for thousands of years.

During these long years, it is quite normal to study other things besides cultivation.

Everyone has their own hobbies and interests, and there's nothing surprising about that.

So at this time, the Flame Ancestor and the Ice Ancestor didn't say much and just continued to follow Ye Feng.

At this moment, Ye Feng silently glanced at the Flame Ancestor beside him, his eyes flickering.

Although this Flame Ancestor just made a casual move, the power he unleashed was still very terrifying, making Ye Feng feel fearful for a moment.

Ye Feng became more vigilant towards the two of them at this time.

After all, if he really revealed some flaws during the mission, allowing these two people to see through his true identity and making them murderous,

Then Ye Feng still has to take preventive measures.

At this moment, Ye Feng was secretly vigilant in his heart, and then silently absorbed the energy from the advanced zombie core contained in the storage ring.

Buzz!

Ye Feng's cultivation skills immediately increased, and he broke through from the sixth level of Condensation Realm to the seventh level of Condensation Realm.

"Um?"

"It actually broke through the first level of heaven."

This made Ye Feng's eyes suddenly reveal a look of deep surprise.

The corpses in the ancestral land in the deepest part of the Five Poison Sect are really high-level. They must have been very powerful existences back then, so the zombie cores bred from the corpses left behind are extremely powerful.

The aura of Ye Feng's breakthrough was suppressed by Ye Feng's body, so neither the Ice Ancestor nor the Flame Ancestor who followed him on both sides noticed the change in Ye Feng's aura.

Ye Feng was quite interested in the power of this ancestor at this time.

After all, according to what the previous leader of the Elder Group said, buried in this Ancestral Land are not only the peerless experts of the Five Poison Sect, because this Ancestral Land was still a very terrifying battlefield back then, and there were also five other powerful people buried there. The corpses of other strong men outside the Poison Sect.

If the corpses of these ancient powerful men turned into zombies over the long years, the zombie core bred in their bodies would definitely be regarded as precious wealth.

Thinking of this, Ye Feng's original fear and nervousness about the entire land of ancestors relaxed a lot at this time. Perhaps, this is a treasure place for him.

It just so happens that there are two ancestor-level masters following him, which is equivalent to two free thugs, who can help him hunt down the powerful zombies that may appear in the land of ancestors.

After all, Ye Feng knows very well that the amethyst token that senses what the controller needs is in his hands. If he tells him how to go, the Ice Ancestor and the Flame Ancestor will definitely listen to him, thinking that it is the amethyst token's guidance. of.

So Ye Feng smiled secretly in his heart at this time, and directly radiated huge soul power, spreading secretly towards the surroundings, specifically sensing and looking for the tomb area where thousand-year-old zombies may be sleeping, and then Ye Feng walked directly towards that area, pretending to accidentally trigger the sleeping zombies, and let the two free thugs next to him help him fight off the monsters.

"Such a good opportunity, two ancestor-level super thugs, don't use it in vain, hahaha, I am really a genius!"

At this moment, Ye Feng immediately started to snicker like a thief.

Chapter 5024: Join forces quickly

Buzz!

At this time, Ye Feng exuded his soul power and spread towards the surroundings.

Since there are so many corpses of ancient powerful men buried in this ancestral land, and most of them have turned into zombies, extremely advanced zombie cores have been bred in the zombies.

The zombie energy contained in these zombie cores is like poison to other people, but for Ye Feng, it is definitely a great tonic.

Because Ye Feng can completely swallow and refine energy of various attributes, there is no problem with zombie energy.

Ye Feng now naturally wants to use these zombies in the Land of Ancestors as much as possible to improve his skill reserves.

You must know that the zombies transformed from the corpses of these ancient strong men are very terrifying in terms of their cultivation strength.

Even if Ye Feng's cultivation level has improved a lot now, some zombies may not be able to fight against him.

But you must know that Ye Feng now has two free thugs by his side.

The Flame Ancestor and the Ice Ancestor are both powerful figures at the level of the ancestors in the small world within the Five Poison Sect.

One of their attacks is like fire, the other is like ice, capable of freezing everything.

So for Ye Feng, now is a great opportunity to continue hunting those powerful zombies.

So at this time, Ye Feng exuded his soul power and spread it around, trying his best to find graves where powerful zombies might be hidden.

As for finding the mysterious thing that the controller wants, Ye Feng is not in a hurry now.

Now you should make full use of your existing conditions as much as possible to improve your strength.

In this case, if he is looking for that mysterious thing and encounters some terrible danger, Ye Feng will have enough strength to protect himself.

At this moment, Ye Feng pretended to glance at the amethyst token in his hand, and then said: "Walk to the north."

Uh-huh!

After finishing speaking, Ye Feng didn't explain much and immediately flew towards the north.

Flame Ancestor and Ice Ancestor Naturally

They didn't doubt anything. After all, only Ye Feng held the amethyst token that could identify the direction, so they naturally followed Ye Feng's back.

And just when they had just walked less than a kilometer north.

Boom!

Suddenly, a huge roar sounded from a huge tomb nearby.

It turned out that this tomb suddenly exploded.

Almost at the next moment, an ancient zombie appeared, dressed in gold jade clothes and wearing the flat crown of the ancient emperor on his head.

This ancient zombie should be an emperor zombie. It is many times more advanced than the zombie covered in green scales that they encountered before, and its fierceness is also many times stronger.

At this time, this emperor zombie appeared for a moment. Whether it was the Flame Ancestor or the Ice Ancestor, their eyes changed slightly.

Because the ferocity of this zombie exceeded their imagination, and it was many times more powerful than the zombie they encountered before.

The zombie before was just an ordinary high-level zombie. The Flame Ancestor stretched out his hand and pointed out a crimson beam, which was able to kill the ordinary high-level zombie directly.

But this emperor zombie was obviously the emperor of a certain country that cultivated immortals in ancient times. It originally had the ancient emperor's aura, and coupled with the nourishment of thousands of years of yin energy, it directly transformed into an emperor zombie. , wearing gold jade clothes, very scary.

Even Ye Feng had a look of surprise in his eyes, as if he didn't expect to accidentally cause an emperor zombie to awaken.

At this time, Ye Feng knew that if he were alone, he would definitely not be able to defeat this emperor zombie.

Because this imperial zombie can be said to be invulnerable to water, fire, and lightning, its body has long been immortal and very strong.

But now there are two big enemies beside me

, naturally we need to use their strength.

At this moment, Ye Feng couldn't help but said: "Damn it, I didn't expect to encounter such a terrifying emperor zombie, Flame Ancestor, Ice Ancestor, the three of us must work together to kill this one." Get rid of the emperor zombie, otherwise, it will be difficult for us to continue on our way. "

At this time, Ye Feng naturally would not think of escaping directly, because Ye Feng came here deliberately just to provoke these extremely powerful ancient zombies, and then hunt them down and seize his zombie core.

But Ye Feng couldn't hunt down such a powerful ancient zombie with his own strength.

Only by relying on the power of the Flame Ancestor and the Ice Ancestor beside him can he succeed.

At this moment, when Ye Feng heard what Ye Feng said, the Flame Ancestor and the Ice Ancestor beside him, the two powerful Supreme Elders, although their eyes were a little hesitant and seemed not to want to cause trouble, the emperor zombie they saw It is indeed very terrifying, and they have been targeted. Now they have to fight if they don't.

Moreover, as Ye Feng was the main person who helped the leader of the Elder Group find the mysterious thing this time, his words still had a certain weight.

So at this time, after what Ye Feng said, the Ice Ancestor and the Flame Ancestor nodded one after another.

Uh-huh!

Uh-huh!

At this moment, the Flame Ancestor and the Ice Ancestor rushed out.

I saw that the Flame Ancestor did not stretch out a finger so easily this time, because this emperor zombie was very terrifying. The Flame Ancestor took out a red long sword directly from the storage ring, and then she used force A flick.

Uh-huh!

This crimson sword flew out immediately and turned into a red lightning, hitting the emperor zombie in an instant.

Click click click!

But the next moment, what made the Flame Ancestor's face change was that her crimson long sword turned into a flying sword and hit the emperor zombie. It did not penetrate it, but the whole crimson long sword

The sword was shattered by the shock.

"What?"

Seeing this scene, the Flame Ancestor's face immediately became quite ugly, and he couldn't help but said: "The body of this emperor zombie has probably been tempered as if it were made of divine

iron. It is really too strong. Even my natal flying sword was unable to penetrate it and was even shattered into pieces. What a terrifying body this must be!"

At this moment, even the supreme elders at the level of Flame Ancestor were shocked by the solidity of this emperor zombie's body.

At this time, the Ice Ancestor on the other side hurriedly said: "With our attack, it is estimated that there is no way to break through the defense of this emperor zombie, but the Excalibur Ancestor, a powerful sword cultivator, has an attack power of We are the most powerful among all the Supreme Elders. As long as we can control this emperor zombie, we will leave it to the ancestor of the Excalibur."

Hearing what the Ice Ancestor said at this time, Ye Feng quickly said: "That's right, you two just need to help me control this emperor zombie and don't let him get close to me or hurt me, because Our sword cultivator's defense is very low, but our attack power is absolutely terrifying."

At this time, after Ye Feng finished speaking, the Ice Ancestor immediately nodded and released a large ice frenzy.

Wow!

I saw a long river of ice-blue ice rushing out of the Ice Ancestor's body, and it suddenly enveloped the Emperor Zombie not far away.

Although this emperor zombie is very fierce, it is still a little difficult to move under the ice of the terrifying ice river like the Ice Ancestor.

Seeing this scene, Ye Feng's eyes lit up, knowing that this was a good opportunity.

Ye Feng used the ancient giant sword technique, the specialty of the ancestor of the Divine Sword.

"Boom!!"

At this moment, the golden long sword in Ye Feng's hand suddenly turned into a golden giant sword covering tens of thousands of meters, slashing fiercely towards the head of the emperor zombie that was difficult to move, with a unique Terrifying destructive power!

## Chapter 5025 Golden Core

Bang!

At this time, when Ye Feng's huge sword slashed on the head of the emperor zombie, the expected scene of the emperor zombie being chopped into pieces did not appear, but instead made a sound like a metal collision. .

The head of this emperor zombie was as strong as if it were made of divine iron, and it completely withstood the attack of Ye Feng's huge sword.

"What?"

Seeing this scene, both the Flame Ancestor and the Ice Ancestor's expressions changed rapidly.

Ancestor Han Bing couldn't help but said: "This emperor zombie must have been an extremely terrifying emperor when he was alive. Otherwise, it would be impossible to have such a strong power, because the stronger the zombie becomes, the more powerful it becomes." It means that his cultivation before death was even more terrifying."

At this time, both the Flame Ancestor and the Ice Ancestor did not know what to do.

After all, although their overall strength is stronger than Ye Feng, the ancestor of the Divine Sword, in terms of attack power, Ye Feng, the ancestor of the Divine Sword, is still the strongest.

But now even the sword attack method of the ancestor of the Divine Sword can't break through the defense of this emperor zombie, then they really have no choice.

"Either we just run away and don't get entangled with this emperor zombie."

There was a hint of retreat in the beautiful eyes of the Flame Ancestor.

At this moment, not only did Ye Feng's eyes show no fear or worry, but he was even more excited.

Because the stronger and more ferocious this emperor zombie is, it means that the zombie core bred in his body becomes more advanced, and the zombie energy becomes more powerful.

So at this time, Ye Feng naturally did not flinch, but looked at the Ice Ancestor and the Flame Ancestor not far away, and said loudly: "Don't think about escaping. Since this emperor zombie has been disturbed by us, then he They will definitely hunt us down. You continue to attack and restrain the mobility of this emperor zombie. I will prepare a more powerful attack."

At this moment, I heard Ye

When Feng said this, Ancestor Flame immediately couldn't help but said: "Ancestor Divine Sword, your strongest attack method is the ancient giant sword technique. We all know this, and you don't even have the ancient giant sword technique. If we can break through this imperial zombie's defense, what hope do we have of defeating it?"

Ye Feng immediately said: "Don't worry, just leave this to me."

After saying that, the Flame Ancestor and the Ice Ancestor immediately saw that Ye Feng had discarded the golden long sword before, but instead had a ring on his finger, which transformed into a golden long sword.

"Um?"

Seeing this scene, even Ancestor Han Bing, a rather aloof man, couldn't help but said in surprise: "Ancestor Divine Sword, you can break this with a different weapon. The defense of the emperor zombie?"

Ye Feng smiled slightly and said, "Just wait and see."

And just after Ye Feng finished speaking, the Flame Ancestor and the Ice Ancestor could only continue to exert their own power to control the emperor zombie.

This emperor zombie is actually very fierce, which can be seen from the fact that Ye Feng cannot break it into pieces using his giant sword technique.

But he was so unlucky that he met a supreme elder at the level of the ancestor of the Five Poison Sect.

Therefore, under the attack of the Flame Ancestor and the Ice Ancestor, the movement speed of the Emperor Zombie was greatly restricted, and there was no way to attack Ye Feng.

At this moment, Ye Feng was holding the Sword of God in his hand, and instantly rushed in front of the Emperor Zombie, slashing away with his sword.

Ye Feng's sword was not as grand and vast as the ancient giant sword technique he used before, but with this simple sword, the moment the God's Sword touched the head of the emperor zombie, the emperor zombie immediately let out a An earth-shattering scream.

Because of Ye Feng

The sword of the gods was as simple as cutting tofu. It split the entire emperor zombie in half in one fell swoop, killing it completely.

"What??"

"What kind of existence is this weapon? It's so powerful!"

At this time, the Ice Ancestor and the Flame Ancestor not far away were both shocked.

At this moment, they suddenly remembered what Ye Feng said before about using zombie cores to refine more powerful weapons.

They immediately understood that perhaps the golden sword that Ye Feng had exchanged was a peerless magic weapon that Ye Feng had independently researched and refined. It had such terrifying sharpness and power.

At this time, Ye Feng's eyes showed a look of satisfaction. The Sword of the Gods did not live up to his expectations. It was still very simple to kill this emperor zombie. He directly broke through its indestructible zombie body in an instant. Became two halves.

"What a terrifying sharpness!"

At this time, the Flame Ancestor and the Ice Ancestor not far away couldn't help but make a sound of exclamation.

Because they all just saw how strong and terrifying the defense of this emperor zombie's entire body is.

But Ye Feng just broke it open with just one sword blow, completely cutting it in half. This kind of attack power and cutting speed were simply unbelievable.

At this moment, the Flame Ancestor and the Ice Ancestor couldn't help but look at Ye Feng a few more times.

They felt that the methods and strength of this Divine Sword Ancestor were becoming more and more unfathomable.

At this time, Ye Feng's eyes showed deep joy, and he quickly flew towards the place where the emperor zombie was split in half.

Sure enough, when Ye Feng flew to the place where the dead emperor zombie was, he immediately saw that a fist-sized zombie core fell from the corpse of the emperor zombie.

And this zombie core is different from other ordinary zombie cores. The zombie core that was bred and dropped from the body of this emperor zombie is actually golden, as if it is made of gold. Completely different from ordinary zombie kernels.

Ordinary zombie cores exude a green aura of the underworld, but the zombie core of this emperor zombie is like a golden core made of gold. It looks full of nobility and even a bit of sacredness.

Seeing this scene, Ye Feng's eyes immediately lit up, he had really made a fortune.

The zombie core bred by this emperor zombie is definitely a priceless good thing.

At this moment, Ye Feng naturally put the golden core into the storage ring without any hesitation.

The Flame Ancestor and Ice Ancestor not far away also flew over.

They also saw the fist-sized golden zombie core that Ye Feng had just collected.

Ancestor Flame's beautiful eyes revealed a look of surprise, and he couldn't help but asked curiously: "Ancestor Divine Sword, this zombie core looks very extraordinary. It's actually golden, and even a little bit... Holy aura, I wonder what kind of peerless treasure the ancestor of the Excalibur is going to use these zombie cores to refine? Can we go and watch it and see the world during the refining process? "

At this moment, the Flame Ancestor seems to be shocked by Ye Feng's powerful strength. Although she is extremely beautiful and has a very noble status, facing such a bad old man as the Divine Sword Ancestor that Ye Feng is currently pretending to be, They are all expressions of closeness.

When Ye Feng saw this scene, his eyes suddenly showed a look of sigh.

Sure enough, somewhere, strong strength can bring you absolute preferential treatment.

Even a peerless beauty like the Flame Ancestor, with a very high status, was attracted by this "bad old man" like him, and showed a very close feeling.

Chapter 5026 Ancient City

At this time, facing what the Flame Ancestor said, Ye Feng just smiled slightly and said: "Okay, if there is a chance when I refine the magic weapon in the future, I will ask the Flame Ancestor to come and observe. We can also communicate privately and exchange our spiritual practice experiences."

Hearing what Ye Feng said, the Flame Ancestor seemed to hear other inexplicable meanings, and a trace of inexplicable rosiness suddenly appeared on his beautiful face.

At this moment, Ye Feng looked in a certain direction and said loudly: "Let's go, let's continue on our way. The intensity of the amethyst token in my hand is getting stronger and stronger. I guess we are almost reaching the person in charge." Your Excellency ordered us to find the place where the mysterious thing is."

Hearing what Ye Feng said, the Ice Ancestor and Flame Ancestor beside him all brightened their eyes, nodded quickly, and followed Ye Feng to fly quickly in that direction.

At this time, Ye Feng didn't waste any time and just secretly devoured the golden core of the emperor zombie that he had just collected in his storage ring.

You know, this emperor zombie is very terrifying. Only with the joint efforts of Ye Feng and two ancestor-level elders, this emperor zombie was finally completely killed.

So for Ye Feng, the golden zombie core bred in the body of this emperor zombie is definitely no less than getting all the skills of a super strong man.

"Rumble..."

At this moment, along with Ye Feng's devouring, huge amounts of zombie energy were immediately devoured and absorbed by Ye Feng, entering his Dantian, rapidly increasing Ye Feng's power.

The zombie energy in the golden core of this imperial zombie is definitely like poison to other ordinary practitioners. It is full of poison and can make people become obsessed in an instant, and even cause the markings and scales of corpses to grow on their bodies.

But when Ye Feng absorbed the zombie energy in the zombie's core, it was a great tonic, and Ye Feng's skills immediately increased greatly.

Ye Feng's cultivation power also began to rise rapidly at this moment.

boom!

boom!

boom!

At this time, Ye Feng's cultivation momentum suddenly broke through the third level of the sky, and he went from the previous seventh level of the Condensation Realm to the tenth level of the Condensation Realm. !

At this moment, feeling the rapidly increasing power in his body, Ye Feng's eyes were full of satisfaction.

Ye Feng broke through so much this time that he couldn't suppress it anymore. His aura was directly revealed on his body, making the Flame Ancestor and Ice Ancestor who were following him suddenly turn pale in shock.

Ancestor Han Bing, a cold man, couldn't help but said in surprise at this moment: "Ancestor Divine Sword, what's wrong with you? Why did you suddenly burst out with such a powerful cultivation level? Momentum, and it has continued to increase so much."

At this moment, although they don't know what level Ye Feng's cultivation level is, they can feel that at that moment, Ye Feng's cultivation level has skyrocketed by several levels. Naturally, the Ice Ancestor and the Ancestor Flame felt deeply unbelievable.

The beautiful eyes of the Flame Ancestor also stared at Ye Feng for an instant, and he couldn't help but said: "Yes, the Divine Sword Ancestor, what happened to you just now? Why did your cultivation suddenly change?" Has the child grown so much?"

Ye Feng couldn't help but grin.

, said aloud: "During the battle with the Emperor Zombie just now, I suddenly had an epiphany, which is why my cultivation level suddenly broke through so much."

I have to say that the reason for enlightenment is really a panacea, and there is no problem in using it in any situation.

When Ye Feng said this at this moment, both Ice Ancestor and Flame Ancestor's eyes suddenly became dull.

Because they never expected that Ye Feng would be able to have an epiphany during the battle, allowing his cultivation momentum to be rapidly enhanced.

They had heard of things like this before, but he had never seen it.

After all, enlightenment is the kind of peerless genius or a rare genius who can do all this.

And you must know that they are already ancestor-level figures. They are all relatively old. It is very difficult to achieve enlightenment. After all, their cultivation has reached a bottleneck and upper limit. Every time they break through, they need to retreat for a long time. It takes time, or huge resources, to make a sudden breakthrough.

Therefore, Ye Feng's cultivation suddenly increased so much at this time, which naturally shocked the two ancestor-level figures beside him.

Because at their level, it is basically impossible to achieve enlightenment. Only hundreds of years of seclusion can break through the cultivation level.

At this moment, even the cold and aloof Ancestor Han Bing stared at Ye Feng, his eyes changed from not paying attention to him before, to looking at him very seriously.

The Flame Ancestor stared at Ye Feng, his beautiful eyes full of inexplicable colors.

At this time, Ye Feng smiled slightly and didn't seem to take it seriously. Instead, he changed the subject and said loudly: "According to the guidance of the amethyst token in his hand, we have almost arrived at the place where the Master asked us to find the mysterious place for stuff."

At this moment, when Ye Feng was talking, a huge valley suddenly appeared in front of him.

In this valley, there are countless ancient buildings scattered in various places.

Seeing this scene at this moment, the Flame Ancestor couldn't help but said in surprise: "Is the place pointed by the purple crystal in the ancient city pool in this valley?"

When Ye Feng heard this, a look of surprise appeared in his eyes at this time, and he said loudly: "I didn't expect that such a complete ancient city and all the buildings could be preserved in this mass grave-like place of ancestors. , largely intact."

The Ice Ancestor standing aside also nodded slightly and said aloud: "Master in charge, the mysterious thing we are looking for, I don't know what kind of existence it is, but it is in such a dangerous area of ancestral land. The deepest part, let's go and take a look."

"good."

Ye Feng also nodded at this time.

Now that we have arrived at our destination, we have no choice but to go now.

At this time, Ye Feng and Flame Ancestor Ice Ancestor quickly flew towards the ancient city in the valley.

But just when they were about to land in the valley.

Uh-huh!

Suddenly, a mysterious-looking man in black flew out of the ancient city built in this valley and blocked the way of several people.

This man in black is covered in black robes, his face cannot be seen clearly, and he feels very unfathomable. At this time, facing what the Flame Ancestor said, Ye Feng just smiled slightly and said: "Okay, if there is a chance when I refine the magic weapon in the future, I will ask the Flame Ancestor to come and observe. We can also communicate privately about our spiritual practice experiences."

Hearing what Ye Feng said, Flame Ancestor seemed to hear other inexplicable meanings, and a trace of inexplicable rosiness suddenly appeared on his beautiful face.

At this moment, Ye Feng looked in a certain direction and said loudly: "Let's go, let's continue on our way. The intensity of the amethyst token in my hand is getting stronger and stronger. Now that we have arrived at our destination, we have no choice but to go now.

At this time, Ye Feng and Flame Ancestor Ice Ancestor quickly flew towards the ancient city in the valley.

But just when they were about to land in the valley.

Uh-huh!

Suddenly, a mysterious-looking man in black flew out of the ancient city built in this valley and blocked the way of several people.

This man in black is covered in black robes, his face cannot be seen clearly, and he feels very unfathomable.

Chapter 5027 Whose tomb

At this moment, Ancestor Han Bing saw this mysterious man in black who suddenly flew out of the ancient city, and immediately couldn't help but said: "Everyone, be careful, the aura of cultivation on this man in black is very strong. Unfathomable and potentially very powerful."

Ye Feng and Flame Ancestor also nodded, because the moment the man in black appeared, they also sensed the man in black, giving them an invisible feeling, so the cultivation of the man in black The strength is absolutely terrifying.

At this moment, the three of them were very surprised. They did not expect that in the deepest part of this ancient ancestral land, in the ruins of such a dilapidated city that may have existed for tens of thousands of years, such a powerful man in black could still survive.

At this moment, before Ye Feng and others could say anything, the man in black suddenly spoke: "This is a forbidden area, please don't move forward any further, otherwise, don't blame my men for being ruthless."

At this moment, when Ye Feng and others heard what the man in black said, there was a look of surprise in their eyes.

Ancestor Han Bing immediately said coldly: "Who are you? This is the ancestral land of our Five Poison Sects. We are the supreme elders of the Five Poison Sects. Everything in the ancestral land belongs to our Five Poison Sects. , Where is the forbidden land? Get out of the way and let us enter this ancient city, otherwise, we will kill you directly! "

At this moment, this Ice Ancestor was speaking very domineeringly.

However, the man in black opposite him shook his head lightly and said loudly: "Everything here is not something you can get your hands on, hurry up and go back!"

"Arrogant!"

At this time, the Ice Ancestor immediately took action.

Uh-huh!

I saw an ice sledgehammer immediately condensed in the hands of the Ice Ancestor, possessing the terrifying power of extreme cold, and it directly bombarded the mysterious man in black in front of him.

But in the next moment, what shocked everyone present was that this mysterious man in black stretched out a small white hand from the sleeve of his black robe, and in an instant he took the ice sledgehammer.

Got it.

Then the mysterious man in black looked at the Ice Ancestor in front of him and said slowly: "If you continue to take action, don't blame me for being ruthless and killing you on the spot."

At this moment, the mysterious black-robed man was speaking, and the aura emanating from his body was extremely terrifying.

At this time, Flame Ancestor's eyes were a bit ugly, and he couldn't help but look at Ye Feng beside him, and said loudly: "Excalibur Ancestor, what should we do?"

Ye Feng thought for a moment at this time, and then suddenly took out the amethyst token in his hand and said loudly: "Senior, we are not here to find some mysterious thing in this ancient city, but we are ordered to. The person in charge of our Five Poison Sect Elder Group asked us to come here."

"Um?"

At this moment, seeing the amethyst token in Ye Feng's hand, this mysterious man in black seemed to have a look of surprise in his eyes.

Then the man in black spoke slowly: "Since it is the leader of the Five Poison Sect who asked you to come, then you can come in. However, your two companions cannot come in. You can only come in with the permission given by the leader himself." Only the holders of the Amethyst Token can enter."

At this time, the meaning of the mysterious man in black robe is very simple, that is, only Ye Feng, the ancestor of the divine sword, can enter the ancient city and look for the mysterious thing.

Hearing what this mysterious man in black robe said, although the Flame Ancestor and the Ice Ancestor were very helpless, they had no choice but to stop where they were.

Because the cultivation strength of this mysterious black man was so terrifying, they speculated that it might be comparable to the leader of the Elder Group.

At this time, the Flame Ancestor and the Ice Ancestor looked at Ye Feng and said, "Be careful in everything."

Although there was no relationship between them before

Not very familiar with each other, but after all, they are all supreme elders of the Five Poison Sect, and they are all practitioners of the same sect.

And after this period of getting along, the relationship between the three of them has obviously heated up a lot.

At this moment, Ye Feng just smiled slightly and said: "Don't worry, since this senior black-robed man knows the person in charge, he shouldn't be unfavorable to me. Otherwise, she would have taken action long ago. After all, We cannot resist her strength."

Hearing what Ye Feng said, Flame Ancestor and Ice Ancestor nodded one after another without saying anything more. Instead, they chose to wait for Ye Feng's return outside the valley.

At this moment, Ye Feng looked at the man in black robe in front of him and said: "Senior, let's go directly into the ancient city."

The mysterious black-robed man nodded and took Ye Feng down to the ancient city in the valley.

At this time, Ye Feng was still a little surprised. After all, Ye Feng never expected that in this ancient city with tens of thousands of years of history in the land of his ancestors, such an unfathomable and powerful mysterious black robe still existed. Ye Feng was naturally very surprised when he saw the other party's small white hands and voice. She should be an extremely young woman.

At this time, Ye Feng still couldn't help but asked: "I don't know what the identity of the senior is. Do you know the leader of our Five Poison Sect Elder Group?"

When the mysterious man in black robe heard Ye Feng's question, he seemed to think for a moment, and then said aloud: "I don't know the current generation of elders of the Five Poison Sect, but my ancestors once passed down the ancestral precepts. If we, the tombkeepers, encounter people from the Five Poison Sect, especially those sent by the elders of the Five Poison Sect, we cannot stop them and lead them into the most mysterious place in the land of our ancestors. "

Hearing what this mysterious man in black robe said, Ye Feng suddenly showed a look of surprise in his eyes. He seemed to have never thought that there was such a special tombkeeper in the ancestral land of the Five Poison Sect.

clan, and seems to have been disconnected from the external members of the Five Poison Sect. They no longer know each other, but they only have the ancestral training passed down by their ancestors.

I wonder whose tomb this tombkeeper family is guarding?

At this moment, Ye Feng's eyes suddenly showed surprise.

It seems that the leader of the Five Poison Sect Elders asked him to handle this matter. Finding that mysterious thing must be very extraordinary. I don't know what kind of thing it is.

And why don't the leaders of the elders come over in person?

Ye Feng had various questions in his mind.

But at this time, all Ye Feng could do was follow this mysterious black-robed man and fly quickly towards the core area of the ancient city in the valley.

Because now Ye Feng has no choice but to honestly complete the task assigned to him by the leader of the elder group this time.

Otherwise, there would be no way for him to continue to hang out in this small inner world of the Five Poison Sect, let alone find the corpse of that priceless god.

However, Ye Feng has already decided in his heart that he has done some hard work this time. After the task is completed, Ye Feng will seize the time to find the corpse of the god hidden in the inner world, find it as soon as possible, and then leave the Five Poison Gate directly.

Ye Feng didn't want to think that after a while, the leader of the elder group would ask him, a coolie, to do something again, and he would really become an errand boy.

Ye Feng didn't want to suffer this.

But no matter what, entering the land of ancestors this time and devouring the cores of many zombies increased Ye Feng's cultivation, which was an unexpected gain.

What Ye Feng is thinking about now is to find the mysterious thing that the leader of the Elders asked him to take back with this mysterious man in black as soon as possible, and then he can concentrate on looking for the body of the god in the inner world. There should be nothing else to trouble me.

Chapter 5028 The First Generation of Leaders

And just when Ye Feng was thinking secretly in his heart, the mysterious man in black leading the way had already led Ye Feng to the central area of the valley where the ancient city was.

An extremely huge palace appeared here. On the plaque of the palace, there were three characters "Hall of Heroes" written on it.

Seeing this scene, Ye Feng's eyes suddenly revealed a look of surprise, and he said aloud: "Is this ancient city built specifically for a dead person? It is not what was left after the decline of a certain cultivating civilization. The place of ruins."

Hearing what Ye Feng said, the man in black who was leading the way seemed not to have expected Ye Feng to say such words, but she still nodded and said loudly: "Yes, this entire ancient city is dedicated to It was built for a dead character, but we as a family of tombkeepers don't know who this character is specifically. We just follow the instructions of our ancestors and guard here, waiting for the destined person, and you are the destined person, because you hold the With the amethyst token given to you by the current leader of the Five Poison Sect, I will bring you here. Even if my mission is completed, I will be free from now on. What you want is in this heroic soul. "In the palace."

Uh-huh!

After saying that, the man in black seemed to be relieved. He jumped directly, flew high into the sky, and then disappeared into this space.

Seeing this scene, Ye Feng's eyes flickered slightly. It seemed that things were more complicated than he thought.

I didn't expect that I could come here so easily with the token of the current generation leader of the Five Poison Sect Elders. This was much simpler than I imagined, and there was no great danger or test.

At this time, Ye Feng didn't know why the elders of the Five Poison Sect didn't come over in person. After all, there was no danger.

But having already arrived here, Ye Feng will naturally not back down. .??.

At this moment, Ye Feng walked directly towards the majestic and glorious Hall of Heroes in front of him.

The moment Ye Feng walked into the Hall of Heroes, he immediately saw a huge seat made entirely of amethyst placed in the middle of the Hall of Heroes.

On this huge amethyst seat sat a skeleton with a completely shriveled body.

This mummy looks very tall and majestic. Even though it has completely died and turned into a mummy, it still gives people a very terrifying and depressing feeling.

Ye Feng saw

At this scene, I couldn't help but have a look of astonishment in my eyes.

Could it be that the mysterious thing that the leader of the Five Poison Sect Elders asked him to find was this dead body?

However, Ye Feng sensed it carefully and found that the body sitting on the amethyst chair had no use value because it was completely exhausted and did not contain any powerful power.

This made Ye Feng very confused.

But just when Ye Feng was preparing to investigate, suddenly the amethyst token in Ye Feng's hand suddenly came out automatically and turned into a stream of light, which instantly disappeared into the eyebrows of the tall mummy in front of him.

And almost at this moment, Ye Feng immediately secretly said something bad.

Because Ye Feng discovered it, the mummy began to slowly revive.

"It's a trap!"

At this moment, Ye Feng immediately understood that the person in charge of the elder group who asked him to come here was a huge conspiracy!

Uh-huh!

At this moment, I saw this tall mummy reaching out and grabbing Ye Feng, as if he was going to crush Ye Feng's whole body.

At this moment, Ye Feng immediately felt a terrifying power erupting from the palm of the mummy.

Ye Feng immediately understood. It seemed that this tall mummy was definitely an extremely terrifying ancient figure.

But Ye Feng still doesn't know why the leader of the elder group of the Five Poison Sect would lead himself, the ancestor of the Divine Sword, here.

After all, if he was killed by this tall mummy, the leader of the Five Poison Sect's elder group would not get much benefit.

But just as Ye Feng was thinking about it, a green beam of light suddenly appeared between the tall mummy's eyebrows.

Uh-huh!

At this moment, this green beam flew directly into Ye Feng's mind, trying to forcibly gain control of Ye Feng's entire body.

Ye Feng understood everything immediately at this moment. He actually

It became a "container" with the purpose of resurrecting this ancient mummy.

Then everything is explained.

At this time, Ye Feng finally understood why the elders of the Five Poison Sect wanted to take the amethyst token and go deep into this ancient city.

It turned out that he thought of himself as a brand new body dedicated to this ancient mummy.

Ye Feng felt very confused at that time.

The ancestor of the Divine Sword is definitely not a top-ranked being in the entire inner world of the Five Poison Sect. Why would the leader of the elder group give such an important task, even the only amethyst token, to him? The ancestor of the divine sword.

It turns out that the leader of the Elder Group wanted to select a person who was not very outstanding in the small world inside the Five Poison Sect, so as to minimize the loss, and then sent this person to this ancient city to let this ancient mummy regain the power of the ancestor of the Divine Sword. Walk out of this ancient city with a new body. .??.

At this time, Ye Feng was very curious about the identity of the tall ancient mummy in front of him. He was able to make the leader of the Five Poison Sects elders spend such a huge price, even sacrificing a powerful member of the Five Poison Sects. The Supreme Elder wanted to revive this mummy.

At this moment, when Ye Feng was thinking secretly in his heart, Ye Feng was actually not panicking at all.

Because if this ancient mummy completely used the powerful power of its body, maybe he would have to avoid the edge temporarily.

But this ancient mummy is too impatient. He wants to take control of his body and invade his mind and soul. Then he will be out of luck.

Because in his mind, the great god Emperor Chu lives there.

At this moment, as expected by Ye Feng, Emperor Chu in his mind turned into a giant of red light, directly suppressing the green light that entered his mind.

At this time, the green light suddenly turned into the shadow of a very dignified old man.

However, the phantom of the old man was full of fear at this moment, staring at the majestic crimson light giant in Ye Feng's mind that was hundreds of thousands of meters tall, and exclaimed in horror: "What? How is this possible?"

How could such a high-minded soul appear in this world? ? The descendants of our Five Poison Sect elders actually sent such a terrifying guy here. This is simply a trick to my ancestor! "

"Um?"

At this moment, hearing the frightened cry of the old man's shadow, Ye Feng's eyes flashed fiercely, telling Emperor Chu not to kill the old man's shadow for the time being, but directly asked: "Who are you? What was your identity back then? Why did the leader of the Elders spend such a huge price to rescue you?"

Hearing Ye Feng's question, the phantom of the old man who was instantly suppressed by Emperor Chu immediately said: "Excuse me, I didn't know that you were chosen by a higher will. I am actually the elder of the Five Poison Sects. The first generation leader of the regiment was suppressed here by the founder of the Five Poison Sect in order to compete for power with the founder of the Five Poison Sect. Our group of elders and the lineage of the patriarchs of the Five Poison Sect have actually always been the same. In a state of secret struggle, I left an amethyst token, just to allow each generation of leaders of our elders to send a loyal subordinate here so that I can capture him if there is a chance. His body walked out of the seal of this ancient city again."

When Ye Feng heard what the old man said, his eyes suddenly revealed a look of deep astonishment.

It turns out that the truth is actually like this.

As expected, he, the ancestor of the Divine Sword, is just a chess piece, just a container to carry the will of the first generation leader of the Elder Group.

However, Ye Feng still asked with some confusion: "Why have the descendants of your elders chosen me over the years?"

Hearing Ye Feng's question, the first-generation leader who was imprisoned in his mind immediately couldn't help but said: "Because I was also a sword cultivator back then, and only the body of an ultimate sword cultivator can carry me. will."

Hearing what the first-generation leader said, Ye Feng's eyes suddenly showed a look of surprise.

Immediately, Ye Feng had a good plan, and suddenly said to the first-generation leader in his mind: "If you don't want to die, then cooperate with me and use your identity to make this generation of the Five Poison Sect... The leader of the Elder Group must obey my words and help me find the body of the god left behind by the founder of the Five Poison Sect. Otherwise, I will let Emperor Chu crush your soul in an instant. "

Chapter 5029 What is the origin?

At this time, after Ye Feng finished speaking, the soul of the first-generation leader who was imprisoned in his mind immediately showed a look of fear on his face, and said quickly: "Okay, okay, I will cooperate with you no matter what you say." "

"Um?"

Seeing that the soul of this first-generation leader was so timid and cowardly, Ye Feng's eyes suddenly revealed a look of astonishment.

Because Ye Feng never thought that the first-generation leader of the Five Poison Sect Elders should be the most powerful man in the world. He didn't expect that he would succumb to being suppressed casually. , It's really a weakling.

But what Ye Feng didn't know was how terrifying and mysterious the Emperor Chu in his head was in the eyes of the first generation of rulers.

The soul body of the first-generation leader was naturally frightened when he encountered such a mysterious and high-level existence as Emperor Chu. That's why Ye Feng's words were so useful and made him surrender. He simply surrendered.

Because facing the will of a higher dimension like Emperor Chu, the soul of the first generation leader of the Elder Group had no room to resist. The only thing he could do was to surrender and beg for mercy.

At this moment, Ye Feng was very satisfied, and then he couldn't help but asked aloud in his mind: "Are there no other good things in this hall except you?"

Hearing Ye Feng's question, the soul of the first-generation leader who was imprisoned in his mind immediately couldn't help but said: "There is a good thing, but it is very difficult to take it out, because this thing, even me There was no way to destroy it back then."

After finishing speaking, Ye Feng became interested and said, "Take me to see it."

The soul body of the first-generation leader immediately nodded and began to guide Ye Feng's direction.

Soon, Ye Feng came to a wall in the hall based on the soul of the first generation leader.

At this time, the soul body of the first generation leader in his mind immediately said aloud: "This wall is where I came from at the junction of the origin world and the extraterrestrial world.

Searched through the cracks in the interface, this wall should come from the extraterrestrial world of a higher spiritual dimension. From the extraterrestrial world, good things fell into the world of our origin. I can sense this mystery. There seems to be some very mysterious and terrifying energy inside the wall, but when I was at my peak, I couldn't destroy this wall. Although Ye Feng has a high-level will from a higher dimension like Lord Chu in your head, Ye Feng, This is limited to the soul level. If you want to destroy this wall and obtain the things contained in it, you must suffer physical damage. However, only you, Ye Feng, can exert physical damage. Ye Feng, your current cultivation level , not even one percent of what I was back then. "

At this time, when he heard the soul body of the first generation leader in his mind say this, Ye Feng grinned and said aloud: "But I have a divine weapon."

After finishing speaking, Ye Feng suddenly transformed the storage ring on his finger into a golden sword.

"This is....."

Seeing this scene, the first-generation leader of the Five Poison Sect Elder Group couldn't help but exclaimed in his mind: "Could this be... the legendary treasure of the Celestial God Clan!"

At this moment, when he heard the words of the first-generation leader in his mind, Ye Feng's eyes showed a look of surprise, and he couldn't help but smile and said: "I didn't expect you were quite capable. With sharp eyesight, I could tell in an instant that this was the most precious treasure of the Celestial Clan, the Celestial Ring."

The first-generation leader in his mind immediately couldn't help but exclaimed in admiration: "It is so rare for such a small boy to have so many earth-shattering and peerless treasures hidden in his body, and you can use the Celestial Clan to... The treasure shows that you have the inheritance and bloodline of the Celestial Clan. It seems that you are really a lucky person. It is not unfair for me to fall into your hands this time. "

Hear the first thing in my mind

When the soul of a generation leader said this, a look of surprise appeared in Ye Feng's eyes, as if he did not expect that the other party was quite free and easy.

At this moment, Ye Feng did not hesitate, but stared at the wall in front of him, smiled and said: "Let me solve the mystery that you didn't solve even at your peak. Look at this side What is contained in the wall, is it really from a higher spiritual dimension than ours, the extraterrestrial world?"

Uh-huh!

At this moment, after Ye Feng finished speaking, he directly held the God's Sword in his hand and slashed towards the wall in front of him.

You must know that this wall most likely comes from an extraterrestrial world in a higher latitude of cultivation. Therefore, no power in the universe where the great world of origin is located can destroy things from higher dimensions.

However, the first race in the heaven, the Celestial Race, is not a native race of the heaven. Its true origin comes from a mysterious higher spiritual dimension. It is very likely that the Celestial Race comes from the outside world.

Therefore, the Celestial Sword of the Celestial Clan may be able to destroy this wall.

And then, the God's Sword really lived up to Ye Feng's expectations. Ye Feng held the God's Sword in his hand and quickly split the wall in half, revealing what was contained in it.

The next moment, Ye Feng was stunned because what was contained in this wall turned out to be a huge purple crystal.

The moment this piece of purple crystal was revealed, it melted rapidly. ??

"Um?"

Seeing this scene, the soul body of the first-generation leader in his mind immediately couldn't help but exclaimed: "Could it be that the special energy I sensed in this wall comes from this huge purple piece?" Crystal? What's in it?"

At this time, Emperor Chu, who had been silent, suddenly reminded Ye Feng in his mind: "Ye Feng, retreat quickly.

This amethyst is melting rapidly, and something very scary seems to be coming out of it. "

"What?"

Hearing what Emperor Chu said in his mind, Ye Feng's eyes immediately froze, and then he quickly backed away.

At this time, Ye Feng's eyes were a little stunned. Unexpectedly, what was contained in this wall was not some great chance, but some kind of very terrifying creature, which probably came from a higher spiritual dimension.

Once this thing comes out, it will definitely be able to overturn the entire Ten Thousand Demons interface.

After all, the Ten Thousand Demon Interfaces are not among the top few in the universe where the Great World of Origin is located.

And just when Ye Feng was secretly thinking something bad, the entire amethyst finally melted completely.

The next moment, Ye Feng's eyes suddenly revealed a look of astonishment, because after this piece of amethyst melted, the existence sealed in it was not a terrifying and ferocious creature, but a sleeping beauty that looked extremely beautiful.

At this moment, Ye Feng was about to say something.

But suddenly, the sleeping beauty revealed after the amethyst melted opened her eyes.

A pair of beautiful abyss-like eyes were staring at Ye Feng for an instant.

This mysterious and beautiful woman suddenly spoke up: "You saved me? A descendant of the Celestial Clan? No, you are not a Celestial Clan, you just fused the immortal bones of a Celestial Clan, you are just an ordinary human... .. No, I can't trace the fate of you. How is this possible? I can even deduce the fate of the world outside the territory. But you, a little human boy, can't deduce and see through your fate. and the future, this is impossible. Only the most mysterious and unpredictable void destiny body in the legend can interfere with my great deduction technique of the heavens, but it is only interference. I can still deduce the general fate line, but you But I can't see any trace of fate in your body. What I see is chaos and blur. What is your origin?"

Chapter 5030 More powerful

At this time, after this mysterious and beautiful woman finished speaking, Ye Feng's eyes widened slightly. He did not expect that the other party was so terrifying and powerful, and he could see all his details in an instant.

However, what the other party said also shocked Ye Feng extremely, because his fate seemed to have always been unpredictable, and Ye Feng himself had no way of grasping what kind of things he might encounter next.

Just like when Ye Feng came to Zhongzhou before, he originally wanted to directly enter the Divine Phoenix Sect based on the token given by the eldest princess Dongfang Yue.

However, due to a strange combination of circumstances, Ye Feng encountered various things on the edge of Zhongzhou, and finally joined the Five Poison Sect.

And in the future, Ye Feng may have the greatest possibility of entering the Daxuan Dynasty based on Long Zhantian's network.

So at this time, Ye Feng didn't say much, he just looked at the beautiful and mysterious woman in front of him quietly.

At this moment, this mysterious and beautiful woman who was suspected to come from the extraterrestrial world of higher dimensions stared at Ye Feng for a long time, and then suddenly looked at Ye Feng in admiration and said aloud: "You are my first person in millions of years." A person who cannot see clearly, your existence has a huge interference effect on the destiny of the entire world. According to this situation, I should hunt you down, because I am thousands of people. The guardian of the fate of the world, but by some mistake, you actually saved me. Maybe this is also a fate other than fate."

After finishing speaking, this mysterious and beautiful woman looked at Ye Feng for a while, and then said aloud: "When we meet in the outer world next time, I will give you a big gift, which can be regarded as my kindness to you for this rescue. In return, after giving this great gift, I will fulfill my principles and hunt down you, the existence that can interfere with the fate of the entire world. "

Uh-huh!

After saying that, this mysterious and beautiful woman jumped down

He jumped and disappeared directly from the scene.

At this moment, Ye Feng fell into silence.

Emperor Chu in his mind didn't say much and seemed to be thinking about something.

As for the first generation of leaders of the elder group, they were already dumbfounded.

Because everything that happened in front of him, everything that the mysterious and beautiful woman said, was beyond the imagination and cognitive perspective of him, a powerful person in the world of monsters.

So at this time, the first generation leader became even more determined. He must completely obey Ye Feng and Lord Chu, otherwise, he would be dead.

At this time, Ye Feng took a deep breath, then grinned and said loudly: "I didn't expect that I would still be an unstable factor that interferes with the fate of thousands of worlds. There may be extremely powerful people who want to hunt me down, but this time it's better. By luck, I accidentally saved this terrifying existence from the outside world, allowing me to escape disaster..."

Ye Feng knew very well at this time that this mysterious and beautiful woman came from the higher dimension of the outside world.

Perhaps Emperor Chu at his peak might be able to fight against this mysterious and beautiful woman.

At this moment, Ye Feng is becoming more and more interested in the outside world. He did not expect that there would be so many extremely powerful people in the outside world, scattered in the major cultivation dimensions. Since Ye Feng has been practicing all the way, he has encountered There are several beings from outside the world.

However, this mysterious and beautiful woman gave Ye Feng the most terrifying and mysterious feeling, because she was able to deduce the fate of thousands of worlds, and she was also a mysterious hunter wandering around thousands of worlds.

here and now

At this moment, Ye Feng didn't think much about it, because it was still very early for Ye Feng.

After all, Ye Feng has not even entered the heaven of the lower cultivation dimension where the great world of origin is, let alone the extraterrestrial world of the higher cultivation dimension.

So it's still early days.

Ye Feng wasn't too nervous, he just let nature take its course.

Of course, the most important thing is to quickly improve your own strength and make yourself as powerful and powerful as possible.

In this case, no one can hunt you, and no one can interfere with your destiny.

At this time, after Ye Feng thought for a while, he glanced at the ancient wall in front of him, and suddenly found that in the cracks of the wall, in addition to the huge piece of amethyst that had melted, there were also many fist-sized crystal stones embedded in the cracks. Among the walls.

You know, this wall fell from the extraterrestrial world of the higher cultivation dimension, so Ye Feng felt that the fist-sized crystal stones embedded in this wall must have extraordinary effects.

Uh-huh! Uh-huh! Uh-huh!

Ye Feng directly used the Sword of God to pry all these crystal stones out of the wall, and then put them into his storage ring.

There is no pure energy in these crystal stones, which cannot be used to devour and enhance one's own power. However, these crystal stones come from the extraterrestrial world of higher cultivation dimensions, so they must be very precious and very high-end. Put them in your own storage ring. Inside, it will definitely come in handy in some way in the future.

At this time, Ye Feng took a deep breath and said, "Then leave here."

At this moment, the first-generation leader in his mind suddenly said with some fear: "Master Ye Feng, Chu

Lord Huang, it's not that I mean to harm you. I really didn't know that there was such a terrifying strong woman sealed in this mysterious wall. "

Ye Feng grinned at this time and said loudly: "This has nothing to do with you, so don't panic."

Hearing what Ye Feng said, the soul of the first generation leader in his mind breathed a sigh of relief.

At this moment, after Ye Feng left the main hall of this ancient city, he said aloud in his mind: "First generation leader, what you have to do next is to cooperate with me so that I can control the entire Five Poison Sect. The elders of the inner world, ask them to help me find the corpse of the god obtained by the founder of the sect, and then I will leave your Five Poison Sect and no longer interfere with you. "

Hearing what Ye Feng said, the first-generation leader of the Five Poison Sect immediately nodded and said, "No problem."

At this moment, Ye Feng nodded and returned to his original appearance as a young man.

Because at this time, Ye Feng has already mastered the soul body of the first generation holder, so there is no need for him to pretend to be the ancestor of the Excalibur.

Uh-huh!

At this moment, Ye Feng flew out of the ancient city and immediately discovered that outside the city, the two supreme elders of the elder group, Ice Ancestor and Flame Ancestor, were still waiting for him there.

Uh-huh!

At this moment, Ye Feng flew over immediately.

But at this time, Ye Feng was no longer pretending to be the ancestor of the Divine Sword, but his original appearance.

So at this time, Ice Ancestor and Flame Ancestor were very confused when facing this strange young man. They couldn't help but look at Ye Feng and asked loudly: "Who are you? Why did you fly from the ancient city pool?" Come out? Where is our partner Divine Sword Ancestor?"
