Chapter 5151 Dead Volcano Zone

At this time, as Ye Feng devoured, Ye Feng's body suddenly emanated a powerful aura of cultivation, and Ye Feng's cultivation began to break through rapidly.

Boom!

Second level of the Hun Tian Realm!

Boom!

Third level of the Hun Tian Realm!

Boom!

Fourth level of the Hun Tian Realm!

Boom!

Fifth level of the Hun Tian Realm!

Boom!

Sixth level of the Hun Tian Realm!

Boom!

Seventh level of the Hun Tian Realm!

Boom!

Eighth level of the Hun Tian Realm! !

At this time, Ye Feng's cultivation broke through seven levels at once, directly from the first level of the Hun Tian Realm to the eighth level of the Hun Tian Realm. This speed was incredible to the extreme.

After all, you have to know that Ye Feng's current cultivation strength is already quite powerful, and it can be said that it is very difficult to break through.

But even so, Ye Feng still broke through seven levels in a row and stepped into the eighth level of the Hun Tian Realm.

It must be said that Ye Feng really got a great bargain this time. He broke through so many realms, all thanks to this huge hedgehog.

Because this huge hedgehog provided Ye Feng with extremely powerful energy, and Ye Feng also harvested the extremely solid thorns and scales on this huge hedgehog.

At this moment, Ye Feng suddenly sensed something else, which turned out to be a very special blood fluctuation.

"This is..."

At this moment, Ye Feng carefully sensed it, and his eyes suddenly showed surprise.

Because after Ye Feng swallowed it just now, he found that not only his cultivation strength had been broken through, but also a very powerful blood power.

It turned out to be a very ancient blood of the ancient earth dragon.

Ye Feng immediately

It is understood that there is a trace of the ancient blood of the ancient earth dragon in the blood of this huge hedgehog.

After Ye Feng obtained the blood power of this ancient earth dragon, he could use and activate the blood of this ancient earth dragon, so as to exert the powerful talent and strength of the ancient and terrifying creatures such as the ancient dragon.

At this moment, Ye Feng tried to activate the blood power of this ancient earth dragon.

Buzz!

Almost at this moment, a huge phantom of an ancient earth dragon suddenly appeared in the void behind Ye Feng, full of terrifying pressure.

At this moment, Ye Feng could clearly sense that when he activated his blood and released the phantom of the ancient earth dragon, his strength was immediately greatly increased.

In addition, Ye Feng could also feel that the moment the phantom of the ancient earth dragon enveloped him, he was instantly blessed with extremely terrifying defense.

"Hmm?"

This made Ye Feng's eyes suddenly reveal a look of surprise.

He had obtained the blood power of an extremely powerful ancient creature, which could exert the talent and strength of an ancient and terrifying creature.

At this moment, Ye Feng left the scene quickly, because Ye Feng knew very well that other terrifying monsters might appear here at any time.

Buzz!

At this time, after Ye Feng left, the figure of the Lord of the Forest suddenly appeared from the void.

The Lord of the Forest looked at the skeleton of the giant hedgehog on the ground that had turned into ashes, and couldn't help showing a surprised smile on his old face, muttering to himself: "This little guy is lucky."

After that, the Lord of the Forest continued to disappear in the void.

However, this time, the Lord of the Forest

did not go directly to the direction where Ye Feng left, but flew and lurked in other directions of this ancient ruins.

Obviously, the Lord of the Forest brought Ye Feng to this ancient ruins this time, and he might have his own things, not just to protect Ye Feng.

So at this time, the Lord of the Forest seemed to see that Ye Feng had his own unique ability to explore in this ancient ruins, so the Lord of the Forest also put his mind at ease and prepared to take some time to do some of his own things.

At this time, Ye Feng didn't know that the Lord of the Forest had left him, but even if Ye Feng knew, he didn't think it was a big deal. After all, he couldn't rely on the Lord of the Forest to protect him. He should also have his own unique judgment and execution.

At this moment, Ye Feng calculated the time, and there were about two and a half hours left.

Buzz!

Ye Feng continued to release his soul power, covering the surroundings, trying to find other opportunities.

At this moment, Ye Feng's soul power quickly sensed some very obscure energy fluctuations around him, and his eyes suddenly lit up, and he continued to fly quickly in the direction where the energy fluctuations came from.

When Ye Feng arrived at the place where the obscure energy came from, Ye Feng immediately saw a huge dead volcano area.

There are dead volcanoes standing here, and there are occasionally some trenches on the ground around, flowing with fresh fiery red lava, and the air exudes a pungent smell of sulfur.

At this moment, Ye Feng did not hesitate at all, and immediately entered this dead volcano area, wanting to find where the energy fluctuations he sensed were.

Ye Feng has already determined that there should not be any powerful creatures living in this volcanic area.

Because the breath of death here is very strong, and there is no breath of life, it should be a very cruel and evil place in the prehistoric era

# Every time verification appears, please do not use the traceless mode!

Few creatures are willing to build their nests in such places.

However, at this time, Ye Feng sensed a very strong change in the energy of fire attribute from a specific location in this dead volcano area.

However, this energy change does not seem to be a change in the energy of life emanating from the creatures, but a change in the energy of natural resources of heaven and earth.

In other words, it is very likely a place where natural resources grow, so Ye Feng naturally has to take a closer look.

Swish!

At this moment, Ye Feng flew quickly in the direction of the energy fluctuation of natural resources of heaven and earth that he sensed, and soon arrived at the destination.

However, at this time, Ye Feng found something very special.

It turned out to be a green plant growing in the flame magma.

This green plant is incompatible with the surrounding environment.

You know, the surrounding area is all dead volcanoes, with thick black smoke and the air filled with the smell of sulfuric acid. Logically, there should be no breath or trace of life.

Unexpectedly, a green plant grew out of this piece of molten fire, which is really incredible.

Ye Feng immediately understood that this green plant is definitely much more extraordinary than he imagined.

And the energy fluctuations of the resources of heaven and earth that Ye Feng sensed are under this green plant.

Ye Feng immediately guessed that the reason why this green plant can grow in such a harsh environment of molten fire is because of the support of the natural resources of heaven and earth where its roots are rooted?

Ye Feng did not hesitate at all and immediately approached this green plant, wanting to take a good look at what the natural resources of heaven and earth under the green plant are like.

Chapter 5152 Giant Skeleton

At this time, Ye Feng didn't hesitate at all. He stretched out his hand and pulled the green plant out of the lava.

When Ye Feng pulled out the green plant, he saw the roots of the green plant, which were rooted in something that looked like a golden bead.

The faint energy fluctuation that Ye Feng sensed was emanating from this golden round bead.

Ye Feng knew very well that this golden round bead must be very extraordinary. Otherwise, it would be impossible for such an ordinary green plant to grow in the lava. It is this round bead that gives this green plant strong vitality and resistance to melt. Roasting damage from slurry flames.

At this moment, in order to prove his guess, Ye Feng directly pulled out this ordinary green plant from this round bead.

And almost the moment the roots of the green plant left the golden bead, the entire green plant immediately withered quickly, and finally turned into fly ash.

Seeing this scene, Ye Feng immediately smiled and nodded, because Ye Feng knew that this round bead was a genuine good thing.

At this moment, Ye Feng released his soul power and wrapped it around the golden bead, wanting to explore what the golden bead was like.

However, after Ye Feng's careful exploration, he could not detect any information from this golden round bead.

This golden round bead only emits obscure energy fluctuations, and its true identity cannot be ascertained at all.

Ye Feng pinched hard at this time, but he was unable to leave any trace on the golden bead.

This made Ye Feng's eyes suddenly show a look of surprise.

Because you must know that Ye Feng's current immortal body of the God is very powerful. Even if Ye Feng casually squeezes it with his hands, he can explode tens of millions of kilograms of power.

But even so,

#Every time verification appears, please do not use incognito mode!

But there is still no way to leave any traces on this golden round bead.

This is enough to show that the material of this golden bead itself is extremely strong. It was most likely a part of a powerful creature back then, or it was the core bred in the body of a certain creature.

But no matter what, Ye Feng was ready to devour it first.

After all, this golden round bead contains good energy.

At this moment, Ye Feng directly released the Devouring Domain and began to devour the golden bead in his hand.

But at this time, Ye Feng discovered that he had no way to absorb the energy from the golden bead. Instead, the moment Ye Feng started to swallow the golden bead, the golden bead exploded. A bright golden light came out.

A terrifying power burst out from the golden round bead, and it broke away from Ye Feng's hand and quickly rushed towards a certain direction of this ancient ruins.

"What?"

Seeing this scene at this moment, Ye Feng's eyes suddenly showed a look of surprise. He seemed to have never thought that this seemingly inconspicuous round bead could suddenly burst out with power, resist his own devouring ability, and even be able to escape. He was in control and wanted to escape.

At this time, Ye Feng immediately used his huge soul power to lock on the golden round bead flying not far away, laughed loudly and said: "Since I have found them all, then you can't Out of my control."

However, Ye Feng had some guesses at this time. This golden bead may have self-awareness, but it had been sleeping, and he forcibly devoured the energy in this golden bead, awakening this person.

The self-awareness of a golden ball bead, so this golden ball bead escaped from here quickly.

This result made Ye Feng not only not disappointed, but also very surprised.

Because the more it is like this, the more it shows that this golden round bead is very extraordinary.

Ye Feng immediately chased the golden bead in the direction it left, wanting to see where the golden bead was going to escape.

Ye Feng flew quickly behind the golden bead, and soon left the extinct volcano area and arrived at another area of the prehistoric ruins. .??.

This area is covered with ice everywhere, and there is heavy snow falling in the sky.

At this moment, Ye Feng didn't know which area of the prehistoric ruins this was because he had followed this golden bead too far away.

Moreover, Ye Feng felt that since the Lord of the Forest did not come out of the void to stop him, it meant that the ancient ruins area where he was located was relatively safe.

But what Ye Feng didn't know was that the Lord of the Forest was not in the void around him now, but had done another very mysterious thing.

Ye Feng has actually come to a deeper area in the ancient ruins, where dangers are dense.

But Ye Feng was lucky. He didn't encounter any particular danger while tracking the golden bead.

Soon, Ye Feng discovered that the golden bead that had escaped sank into a lake in the glacier and snowfield.

Wow!

At this moment, Ye Feng naturally did not hesitate at all, and immediately jumped into the cold lake in front of him, and then dived quickly.

During the dive, Ye Feng discovered that the water in the entire lake was not cold, but rather warm.

This made Ye Feng's eyes suddenly look like

#Every time verification appears, please do not use incognito mode!

Showing surprise.

After all, a lake appeared in this glacier and snow. Logically speaking, the water should be very cold and biting, but Ye Feng did not feel any cold breath, but instead felt an increasingly warm feeling.

Ye Feng continued with this curiosity.

When Ye Feng came to the bottom of this icy lake, he suddenly discovered that the golden round bead he had just seen fell on the head of a huge giant skeleton under the lake.

Ye Feng discovered that beneath this icy lake lay the skeleton of a huge creature tens of thousands of meters long, which seemed to be the skeleton of an ancient giant.

At this moment, the golden round bead Ye Feng discovered happened to fall on a groove on the forehead of the giant's skeleton.

At this moment, Ye Feng had not gotten close to the giant skeleton. Suddenly, as the golden beads fell into the groove on the forehead of the giant skeleton, countless pieces of flesh, blood, and tendons quickly grew on the surface of the entire giant skeleton. The pulse is actually in the process of rapid resurrection!

"It is this golden bead that gives new life to this giant's skeleton!"

When Ye Feng saw this scene, his eyes suddenly showed surprise.

Is this golden round bead so heaven-defying?

It is actually able to quickly re-grow blood, flesh and meridians from this giant skeleton. Do you want to revive this giant skeleton and turn it into an ancient giant?

Ye Feng naturally couldn't let this happen.

Because Ye Feng knew that such a huge ancient giant appeared in the prehistoric ruins. Once resurrected, his strength would be absolutely terrifying. He would not be able to deal with it at all, let alone get that golden bead.

So at this moment, Ye Feng didn't hesitate at all, and immediately rushed towards the golden bead on the giant skeleton's skull!

Chapter 5153 Sir, spare my life

At this time, Ye Feng quickly rushed to the head of the giant skeleton, trying to grab the golden round bead from the groove.

However, at this moment, the giant skeleton suddenly stretched out a hand and instantly blasted towards Ye Feng.

The hand of the giant skeleton still had no flesh and blood, but a huge bone hand, which directly blasted towards Ye Feng's body.

Ye Feng immediately burst out the immortal body of the god, and his whole body suddenly burst into a dazzling golden divine light.

Ye Feng's whole person suddenly turned into a young golden god of war, and collided with this bone hand.

Boom! !

At this moment, a huge roar suddenly sounded on the whole field.

Ye Feng's entire golden body collided with the white bone hand, causing the water in the entire lake to explode.

At this moment, Ye Feng immediately felt a terrifying and huge force bursting out from the white bone hand. ??

Even if his current immortal body was fully activated, he was unable to resist Ye Feng, and was blasted far away.

"What a strong force!"

This made Ye Feng's eyes suddenly reveal a deep surprise.

This giant skeleton was definitely an extremely terrifying creature in ancient times, otherwise it would not have such a strong power.

Because you have to know that the giant skeleton has not yet fully revived, it is just a simple bone.

You have to know that just a simple bone has such a terrifying and huge power. It is hard to imagine how terrible this giant skeleton will be once it is fully revived!

Ye Feng has only two choices at this time.

The first is to take advantage of the fact that the giant skeleton has not yet fully revived and flee from here.

The second choice is to directly

# Please do not use the invisible mode every time verification appears!

Continue to fight hard and dig out the golden round bead directly.

At this moment, Ye Feng was naturally unwilling to leave just like that, because he had finally sensed such an extraordinary golden round bead. If he ran away directly now, it would be a real loss, and it could be said that he had failed at the last hurdle.

After all, Ye Feng only had three hours in this prehistoric ruins, and now Ye Feng had wasted another half an hour, leaving only two hours.

So if Ye Feng ran away like this now, it would be a bit of a waste of this opportunity to explore the prehistoric ruins.

So Ye Feng was ruthless at this time, with a crazy look in his eyes, and he directly burst out all his means and strength, rushing quickly towards the direction of the giant skeleton's skull.

Ye Feng knew that before the giant skeleton was completely revived, if he could dig the golden round bead out of the groove of the giant skeleton's skull, all the crises would be solved.

At this time, Ye Feng fully burst out all his means and strength.

First, Ye Feng fully activated the power of the immortal body of the god, and his whole body burst out with a dazzling golden light.

After that, Ye Feng released the blood power of the ancient red dragon that he had merged with before. Red scales suddenly grew out of Ye Feng's body, and flames were burning, directly blessing the red dragon combat body.

In addition, Ye Feng also displayed the peerless inheritance given to him by Emperor Tianlong, the Golden Dragon Body Protection Divine Art.

Buzz!

A huge golden dragon phantom suddenly wrapped around Ye Feng, giving Ye Feng unparalleled defense.

In addition, Ye Feng activated the blood of the ancient earth dragon that he had just merged with before.

In the void around Ye Feng, a huge ancient earth dragon phantom appeared again, covering Ye Feng.

So under these layers of means, Ye Feng's combat power and defense power were both raised to an extremely terrifying level. Even Ye Feng himself didn't know how terrible his defense power was now.

At this moment, Ye Feng, who was at his peak, rushed madly towards the head of the giant skeleton not far away.

This time, the huge bone palm attacked again, but when it hit Ye Feng, the earth dragon phantom and the golden dragon phantom directly blocked the attack of the white bone hand.

After that, Ye Feng's immortal body burst out with power, and then blessed the red dragon battle body, and directly punched out fiercely, bursting out thousands of terrifying forces.

Boom!

This time, Ye Feng actually blasted the white bone hand back.

"Good!"

This made Ye Feng's eyes suddenly reveal a deep surprise.

I didn't expect that this time I not only resisted the attack of the white bone hand, but also blasted the white bone hand back.

Ye Feng had no obstacles at this time, and instantly used the space wormhole to teleport to the head of the giant skeleton, and then stretched out a palm covered with red scales, and immediately dug out the golden round bead on the giant's head.

"Howl!!!"

The next moment, the entire giant skeleton immediately let out a shrill howl that shook the earth.

Along with this shrill howl, the flesh and meridians that were growing rapidly on the giant skeleton dried up quickly in an instant, as if it had lost its source of life.

At this moment, Ye Feng grabbed the golden ball in his hand and controlled it.

#Every time verification appears, please do not use incognito mode!

He controlled the golden bead, preventing it from falling out of his palm, and then watched helplessly as the giant's skeleton dried up completely.

Seeing this scene, Ye Feng immediately breathed a sigh of relief.

After all, this giant did not fully recover and was stopped by himself.

Boom boom boom!

At this time, the golden round beads were struggling fiercely, trying to break through Ye Feng's palm.

But this time, Ye Feng would never let the golden ball escape from his grasp.

The first time the golden ball suddenly opened his palm and fled here, it was because Ye Feng was caught off guard. He did not expect that the golden ball had self-awareness.

But this time, Ye Feng's Immortal Body of the God was fully activated, and his palms were covered with the red scales of the Red Dragon Battle Body, so he naturally had extremely strong control.

No matter how hard this golden bead collided with Ye Feng's palm, it could not escape the control of Ye Feng's palm.

At this moment, Ye Feng immediately released the Devouring Domain and began to crazily devour the energy contained in this golden bead.

This golden round bead can resurrect the majestic giant skeleton that is hundreds of thousands of meters tall. You can imagine how much life energy is contained in this golden round bead.

Such a life energy like a vast ocean, if Ye Feng swallows it, will definitely make his cultivation level grow rapidly.

This time the golden beads can no longer escape the fate of being swallowed!

But just when Ye Feng was about to swallow the golden bead completely, a very frightening voice came out of the golden bead: "Sir, please have mercy, sir! Please have mercy! I will never escape this time. Sir, please don't eat me, I am willing to provide you with very important information about this ancient ruins! It is definitely more cost-effective than eating me directly!"

Chapter 5154 Wandering Soul

At this moment, hearing such words coming from the golden bead, Ye Feng's eyes suddenly flashed slightly, and then he stopped swallowing.

Ye Feng looked at the golden bead in front of him and couldn't help but ask: "Who are you? Why do you live in this small golden bead? What is this golden bead itself?"

Hearing Ye Feng's question, the voice inside the golden bead immediately replied: "Reporting to your lord, in the ancient times, I was a little soul wandering between heaven and earth. My own level was very low, but in this world By an unexpected opportunity, I witnessed a battle between two god-level beings. One of them was a majestic ancient giant hundreds of thousands of meters below the lake. This ancient giant died of exhaustion during the battle. The life source bead also fell into the very harsh volcanic zone environment. This life source bead had lost all its energy at that time and completely became a mundane object, but I caught it. This opportunity, I entered this life source bead. Over the long millions of years, I slowly used this life source bead to absorb the life energy of the surrounding heaven and earth, and miraculously allowed this life source bead to regenerate. I have recovered, but after all, I am just a small wandering soul in the world in the ancient times, so I have no way to control this life source bead and return to the ancient giant's bones. This time, the life source bead itself senses the adult's It was dangerous, so I automatically burst out with power and returned to the ancient giant's corpse. I wanted to revive the ancient giant's power to deal with you, so it was not controlled by me. I just lived in this life source bead. "

At this moment, hearing the explanation of the voice coming from the golden source bead, Ye Feng's eyes showed a look of surprise, as if he did not expect that the truth would be like this.

Ye Feng nodded and said aloud: "You are a wandering soul in the ancient era, so you must be very familiar with this ancient ruins."

Hearing what Ye Feng said, the wandering soul in the golden bead immediately nodded and couldn't help but said: "Of course I am very familiar with it. Although I was in the ancient prehistoric era, in that great era, I am just a little wandering soul in the world, no one can compare with me, but no one can live as long as me, and I have lived to this day."

Hearing what the wandering soul said, Ye Feng nodded, and then couldn't help but ask: "Can you come out of this golden ball?"

In fact, Ye Feng still wanted to swallow the huge life energy contained in this golden bead.

At this time, the wandering soul inside the golden bead couldn't help but shook his head, smiled helplessly, and said loudly: "Sir, this is really not possible. I have been with this life for millions of

years. The Source Bead is completely integrated into one and cannot be separated. If I leave this Life Bead, I will be destroyed instantly, because my wandering soul can no longer withstand the power of the world now. Only this Life Source Bead Only then can I protect my soul from death.”

Hearing what the wandering soul said, Ye Feng immediately nodded.

That's right, this wandering soul can live for millions of years, bringing down many powerful people in the ancient times.

#Every time verification appears, please do not use incognito mode!

All the living creatures have survived, and the biggest reason is that this wandering soul has been living in this golden bead.

At this moment, Ye Feng didn't care anymore, but nodded and said: "Then you can help me find the good things in this ancient ruins. I will definitely not treat you badly."

Hearing Ye Feng say this at this moment, the wandering soul among the golden beads was immediately very happy.

Then Ye Feng saw this golden round bead, and it started to change its shape, from a golden round bead to something that looked like a little golden man.

At this moment, the little golden man is naturally the wandering soul living in the golden ball, but now he has transformed into his own form.

Uh-huh!

At this moment, the little golden man flew directly to Ye Feng's shoulders and sat up, and then said loudly: "Sir, the closest opportunity to this area is the extinct volcano area where we met for the first time just now. That extinct volcano seems to have a very harsh environment, but it actually contains a very large underground flame crystal vein. I think it must be of great help to adults, and the reason why I can survive in that extinct volcano area Over the years, in addition to absorbing the life energy that is constantly floating between heaven and earth, there is another more important reason. The life source beads can automatically absorb the pure power of fire from the flame crystal veins under the extinct volcano, giving life The source beads replenish their own energy.”

Hearing what the Little Golden Man said, Ye Feng's eyes suddenly lit up and he said, "If there really is a huge flame crystal vein, it would definitely be of great significance to me."

For Ye Feng, if he finds some so-called magical weapons or powerful inheritances from the ancient times, it is not realistic to find a huge mineral vein.

Because Ye Feng now knows that the most important thing for him is to quickly improve his cultivation skills. As for magical weapons and inheritance, he is not in a hurry.

After all, since arriving in this monster forest, Ye Feng has deeply understood that compared with the top powerful creatures in Zhongzhou in the Ten Thousand Demon Interface, his cultivation is still much weaker, so he needs to improve as soon as possible. Only with my own cultivation skills can I successfully fight against the Dark Demon Emperor disguised as the emperor in the Daxuan Dynasty in the future.

After all, Ye Feng knows very well that the dark demon clan in the wilderness does not only have one dark demon emperor, but there may also be stronger beings. They are definitely not much weaker than these top demons in the monster forest, and may be stronger than those in the monster forest. These top level monsters are much more powerful.

Therefore, Ye Feng naturally wants to improve his cultivation skills as soon as possible.

At this moment, Ye Feng did not hesitate and immediately said: "Then hurry up and go to the extinct volcano area to see what the flame crystal veins you mentioned are like. Is it really like you?" It's so huge."

The little golden man sat on Ye Feng's shoulder, and immediately said very confidently: "Sir, don't worry, the reserves of that flame crystal vein are definitely beyond your imagination! I have been living there for a few days. In a million years, can I still be unclear?"

Chapter 5155: High Quality

For Ye Feng, it can be said that he was very lucky to meet this little golden man.

Because relying solely on the induction of Ye Feng's own soul power, it is actually difficult to detect some hidden opportunities around him.

Just like when Ye Feng explored the extinct volcano area before, he only detected the energy fluctuations of the golden beads on the surface, but he could not penetrate into the very deep space underground in this volcanic area, so he could not sense the underground. The hidden flame crystal veins.

But this little golden man was a wandering soul in this area in the ancient times, so he was very familiar with everything around him.

At this time, the little golden man sat on Ye Feng's shoulder and said happily: "Actually, I still have to thank you, sir. If you hadn't discovered this life source bead, you probably wouldn't have been able to activate the life source bead." The original power allows me to have direct control over the life source beads. Now I can fully control the life source beads, so I can transform into such a golden man. "

Hearing what the little golden man said, Ye Feng nodded slightly, smiled and said, "We are helping each other."

After Ye Feng finished speaking at this moment, he quickly followed the little golden man back to the extinct volcano area.

There are still volcanoes standing everywhere here, and the trenches are full of lava.

At this moment, the little golden man guided Ye Feng to the southwest area of this extinct volcanic area.

Ye Feng saw here, the largest volcano standing here.

However, this volcano has been completely dead and exhausted, so on the surface it looks like a piece of scorched earth, with nothing visible.

Anyone who comes here will probably feel that it is deserted and that there are no resources.

Unexpectedly, there is actually a huge underground flame crystal vein buried here.

At this moment, Ye Feng didn't hesitate at all. He looked directly at the little golden man next to him and asked: "Is the flame crystal vein you mentioned underground here?"

The little golden man nodded and said, "It's under the largest extinct volcano."

Ye Feng immediately stretched out his hands without any hesitation and attacked the ground fiercely.

Boom!

Boom!

Every time Ye Feng punched out, he could explode with overwhelming power. The entire ground was shattered into pieces, and the largest volcano was also shattered by Ye Feng.

With Ye Feng's continuous bombardment, the entire ground collapsed completely.

Following the collapse, Ye Feng saw that the entire underground geology gradually turned red.

Ye Feng continued to bombard, and finally bombarded an area tens of thousands of meters deep underground.

when!

And at the next moment, Ye Feng's fist seemed to have suddenly hit something very solid, so it was directly blocked.

Ye Feng watched carefully at this moment, and immediately saw that the thing that his fist could not break was actually a red crystal stone emitting bright light.

"Is this the flame crystal mineral vein? It is indeed so strong that even my golden fist cannot break it, or even leave a trace."

Ye Feng was naturally very happy at this time.

With such a solid vein of flame crystal, the absolute reserves are extraordinary.

#Every time verification appears, please do not use incognito mode!

Very amazing and of very high quality.

You know, ordinary mineral vein crystals can be smashed to pieces by Ye Feng with one fist.

Mineral veins of that level have very little energy storage and the quality of the crystals is very low, so Ye Feng will not be of much use if he swallows them.

But the flame crystals in the underground veins that Xiao Jinren and Ye Feng mentioned are indeed of very high quality, and the energy contained in each crystal is very majestic.

boom!

Ye Feng did not hesitate at this moment, and directly released the Devouring Domain and began to devour it to his heart's content.

Boom!

At this moment, Ye Feng felt it immediately, and the majestic energy like flames was immediately injected into his body.

Ye Feng could immediately feel that his power was growing rapidly.

At this moment, Ye Feng's cultivation aura suddenly began to break through rapidly.

boom!

Hun Tian Realm Ninth Heaven!

boom!

The tenth level of Hun Tian Realm is complete! !

At this time, Ye Feng's cultivation level directly broke through two levels, reaching the tenth level of Hun Tian Realm, which directly increased Ye Feng's skill tenfold.

Ye Feng was very happy at this time. He didn't expect that this flame mine would make his cultivation level break through two levels at once.

And don't think that just breaking through two levels means you're very low. In fact, that's not the case.

You know, ordinary mineral veins are of no use to Ye Feng.

If the quality of the flame crystals in this mine is very low, then even if Ye Feng swallows the entire vein, the energy obtained will not be able to make a direct breakthrough in his cultivation skills. At most, he can only increase his skills a little bit. , after all, Ye Feng's current cultivation level is already very high, and Ye Feng's own martial arts foundation is very strong, and his origin is very advanced.

Therefore, the energy required for each Ye Feng breakthrough is extremely huge.

Therefore, this vein of flame crystal can allow me to break through to the tenth level of Hun Tian Realm, which is already very good.

At this time, Ye Feng immediately glanced at the little golden man next to him, couldn't help but smile and said: "This flame crystal mine is indeed very good. It seems that I am very lucky to have met you."

Ye Feng knew very well that he only had three short hours in this ancient ruins, and now he only had more than two hours left.

Therefore, it is extremely important for Ye Feng to use time efficiently and find the opportunity in this ancient ruins.

Now with the help and guidance of Xiaojin Man, a wandering soul who survived from the ancient times, Ye Feng will naturally benefit a lot.

At this moment, the little golden man couldn't help but exclaimed in admiration: "Sir's devouring ability is really powerful and very magical. Even in the ancient prehistoric era, I have never seen it before. It is really incredible that someone with such a miraculous ability like you can directly refine the energy from the outside world into your own power."

Hearing what the little golden man said, Ye Feng just smiled faintly and didn't say much. Instead, he looked around and said: "Continue to take me to the next place with good fortune. I am in this ancient ruins." You only have a few hours, don't waste time. "For Ye Feng, it can be said that he was very lucky to meet this little golden man.

Because relying solely on the induction of Ye Feng's own soul power, it is actually difficult to detect some hidden opportunities around him.

Just like when Ye Feng explored the extinct volcano area before, he only detected the energy fluctuations of the golden beads on the surface, but he could not penetrate into the very deep space underground in this volcanic area, so he could not sense the underground. The hidden flame crystal veins.

But this little golden man was a wandering soul in this area in the ancient times, so he was very familiar with everything around him.

At this time, the little golden man sat on Ye Feng's shoulder and said happily: "Actually, I still have to thank you, sir. If you hadn't discovered this life source bead, you probably wouldn't have been able to activate the life source bead." The original power allows me to have direct control over the life source beads. Now I can fully control the life source beads, so I can transform into such a golden man. "

Hearing what the little golden man said, Ye Feng nodded slightly, smiled and said, "We are helping each other."

After Ye Feng finished speaking at this moment, he quickly followed the little golden man back to the extinct volcano area.

There are still volcanoes standing everywhere here, and the trenches are full of lava.

At this moment, the little golden man guided Ye Feng to the southwest area of this extinct volcanic area.

Ye Feng saw here, the largest volcano standing here.

However, this volcano has been completely dead and exhausted, so on the surface it looks like a piece of scorched earth, with nothing visible.

Anyone who comes here will probably feel that it is deserted and that there are no resources.

Unexpectedly, there is actually a huge underground flame crystal vein buried here.

At this moment, Ye Feng didn't hesitate at all. He looked directly at the little golden man next to him and asked: "Is the flame crystal vein you mentioned underground here?"

The little golden man nodded and said, "It's under the largest extinct volcano."

Ye Feng immediately stretched out his hands without any hesitation and attacked the ground fiercely.

Boom!

Boom!

Every time Ye Feng punched out, he could explode with overwhelming power. The entire ground was shattered into pieces, and the largest volcano was also shattered by Ye Feng.

With Ye Feng's continuous bombardment, the entire ground collapsed completely.

Following the collapse, Ye Feng saw that the entire underground geology gradually turned red.

Ye Feng continued to bombard, and finally bombarded an area tens of thousands of meters deep underground.

when!

And at the next moment, Ye Feng's fist seemed to have suddenly hit something very solid, so it was directly blocked.

Ye Feng watched carefully at this moment, and immediately saw that the thing that his fist could not break was actually a red crystal stone emitting bright light.

"Is this the flame crystal mineral vein? It is indeed so strong that even my golden fist cannot break it, or even leave a trace."

Ye Feng was naturally very happy at this time.

With such a solid vein of flame crystal, the absolute reserves are extraordinary.

#Every time verification appears, please do not use incognito mode!

Very amazing and of very high quality.

You know, ordinary mineral vein crystals can be smashed to pieces by Ye Feng with one fist.

Mineral veins of that level have very little energy storage and the quality of the crystals is very low, so Ye Feng will not be of much use if he swallows them.

But the flame crystals from the underground veins that Xiao Jinren and Ye Feng mentioned are indeed of very high quality, and the energy contained in each crystal is very majestic.

boom!

Ye Feng did not hesitate at this moment, and directly released the Devouring Domain and began to devour it to his heart's content.

Boom!

At this moment, Ye Feng immediately felt that a stream of flaming energy was injected into his body.

Ye Feng immediately felt that his power was growing rapidly.

At this moment, the aura of Ye Feng's cultivation began to break through rapidly.

Boom!

The ninth level of the Hun Tian Realm!

Boom!

The tenth level of the Hun Tian Realm is perfect! !

At this time, Ye Feng's cultivation broke through two levels directly, breaking through to the tenth level of the Hun Tian Realm, which increased Ye Feng's power tenfold.

At this time, Ye Feng was very happy. He didn't expect that this flame vein would make his cultivation break through two levels at once.

And don't think that breaking through only two levels is very low, it's not the case.

You know, ordinary veins are no longer of any use to Ye Feng.

If the quality of the flame crystal in this vein is very low, then even if Ye Feng swallowed the entire vein, the energy obtained would not be able to directly break through his cultivation power. At most, it could only increase his power a little bit. After all, Ye Feng's current cultivation is already very high, and Ye Feng's martial arts foundation is very strong and his origin is very advanced.

Therefore, the energy required for Ye Feng's breakthrough every time is very huge.

Therefore, this flame crystal vein can make him break through to the tenth level of the great perfection of the Hun Tian realm, which is already very good.

At this time, Ye Feng immediately glanced at the little golden man beside him, and couldn't help laughing and said: "This flame crystal vein is really very good. It seems that I am very lucky to meet you."

Ye Feng knew very well that he only had three hours in this prehistoric ruins, and now there are only more than two hours left.

Therefore, if he can use time efficiently and find the opportunity in this prehistoric ruins, it is extremely important for Ye Feng.

Now with the help and guidance of the Little Golden Man, a wandering soul that survived from ancient times, Ye Feng naturally benefits a lot.

At this moment, the Little Golden Man couldn't help but exclaimed in admiration: "Your ability to devour is really amazing and magical. Even in the ancient prehistoric times, I have never seen such a magical ability as yours. You can directly refine the energy from the outside world into your own power. This is really incredible."

Hearing what the Little Golden Man said, Ye Feng just smiled faintly and didn't say much. Instead, he looked around and said: "Keep taking me to the next place with opportunities and fortune. I only have a few hours in this prehistoric ruins. Don't waste time."

Chapter 5156 Goblin Clan

At this time, Ye Feng was very satisfied with the fact that his cultivation had broken through to the tenth level of Hun Tian Realm.

But now that he has met this little golden man, Ye Feng naturally wants to make full use of the other party's known information about this ancient ruins to get more opportunities.

Because this opportunity for Ye Feng is very rare. It was the Lord of the Forest who brought him here.

If I were alone, it would be impossible to come here.

After all, you must know that this ancient ruins area is in the deepest part of the monster forest.

The deepest part of the monster forest is inaccessible to ordinary people.

Because there are many very powerful top monsters living in the monster forest, this time Ye Feng also helped these top monsters and rescued the Lord of the Forest, so he allowed the Super Powerful Lord of the Forest to bring him here.

Therefore, Ye Feng feels that even if he becomes more powerful in the future, he may not be able to continue to come to this ancient ruins for a while.

So at this time, Ye Feng naturally asked the Little Golden Man to give full play to his memories of ancient times to help him find more opportunities here.

At this time, the little golden man thought for a while and said aloud: "There are no particularly good opportunities around here."

When Ye Feng heard what the little golden man said, he immediately said, "Then go to a farther place and search carefully."

The little golden man nodded, and then flew quickly in a certain direction, and Ye Feng quickly followed.

Soon, the little golden man passed through this extinct volcano area and came to a swamp in the adjacent area.

There are swamps everywhere and mire on the ground.

The little golden man looked at Ye Feng and couldn't help but said: "Take that

#Every time verification appears, please do not use incognito mode!

Come down and be careful about the remote monsters that may exist in this swamp. "

Ye Feng nodded and couldn't help but ask: "Is there another place that contains good opportunities and fortunes in this swamp?"

The little golden man nodded and said loudly: "The place I want to take you to now is an underground space connected to the end of this swamp. In ancient times, it was the cave lair where the goblins lived. Millions of years have passed, and I estimate that the goblins have been completely extinct, so if we can enter the goblin lair, we may be able to find the huge wealth left by the goblins. "

Hearing what the little golden man said, Ye Feng's eyes suddenly revealed a trace of surprise, and he said loudly: "The goblin clan doesn't sound like a very powerful race. How much wealth does the goblin clan have left behind? Is it worth the risk to find it?"

The little golden man immediately said: "Sir, don't underestimate the goblins. Although the goblins were not a glorious race in those ancient times, they had always been very low-key, living underground, and most importantly... One thing is that the goblins especially like to search for all kinds of rare treasures everywhere, and then silently pile them up in their lair. This is the habit of all the goblin clan, so even though the goblin clan is not very eye-catching, if they can find the treasures left behind by them, The wealth that comes down is definitely very good."

Hearing what the little golden man said, Ye Feng nodded.

In fact, it's not that Ye Feng is greedy, it's just that Ye Feng's time is limited now and he only has a few hours to explore this ancient ruins, so Ye Feng naturally wants to make a fortune

I want to search for the richest place and don't want to waste these few hours.

But since the little golden man said that the goblin clan is very good and has great wealth, then go and take a look.

At this time, when Ye Feng was thinking about it.

Boom!

Suddenly, the underground swamp and mire exploded.

Almost at that moment, as the quagmire exploded, a poisonous dragon covered with green scales rushed out, opened its bloody mouth, and headed directly towards Ye Feng, who was flying in the air. Bite away. ??

"What a powerful evil beast!"

At this moment, Ye Feng immediately felt a vicious aura, impacting from below.

Ye Feng looked down and immediately discovered this poisonous dragon.

Ye Feng could sense at this time that the cultivation strength of this poisonous dragon was three or four levels higher than his own.

However, although this poisonous dragon is very powerful, it is much weaker than the monsters Ye Feng encountered before in this ancient ruins.

So at this moment, Ye Feng did not hesitate at all, and did not run away directly. Instead, he was eager to try, just to test whether his combat effectiveness had been improved after he had just broken through to the tenth level of the Huntian Realm.

So at this moment, Ye Feng directly activated the Immortal Body of the God, and struck forward fiercely with his golden fist.

Boom! !

Almost at the next moment, Ye Feng's golden fist collided directly with the poisonous dragon.

Boom! !

The whole field suddenly erupted

#Every time verification appears, please do not use incognito mode!

There was a huge roar, and Ye Feng's fist immediately felt a terrifying power, which burst out from the poisonous dragon, causing Ye Feng to be unable to help but fly backwards in an instant.

But this poisonous dragon did not actually hurt Ye Feng, it just sent Ye Feng flying backwards.

At this moment, there was still a look of surprise in Ye Feng's eyes.

Because if it were a normal creature, even if it was three or four realms higher than Ye Feng, Ye Feng should be able to directly beat it with his golden fist.

But this poisonous dragon blew Ye Feng away in an instant. This shows that the creatures living in this ancient ruins are essentially much more powerful than the creatures in the outside world, because they all have the ability to With the power of blood from the ancient prehistoric era.

At this moment, when the little golden man saw that Ye Feng was blown away without being hurt, he immediately couldn't help but exclaimed in amazement: "The power of your body is really powerful, and you can actually compete with me." A head-to-head encounter with a prehistoric creature that is three or four realms higher."

At this moment, Ye Feng did not hesitate at all. Looking at the giant poisonous dragon not far away that continued to bite him, Ye Feng shouted loudly and fully exploded his powerful skills, activating the ancient... The power of the red dragon's bloodline directly inspires the red dragon's fighting body!

Buzz!

At this moment, pieces of red dragon scales began to grow on the surface of Ye Feng's golden body, covering Ye Feng's whole body, as if a thick layer had been put on Ye Feng. Thick red armor.

At this moment, Ye Feng blessed himself with the power of the Red Dragon Battle Body on the basis of the Immortal Body of the God.

Ye Feng's attack power and defense power were incomparably enhanced at this moment!

Chapter 5157 God-level Bloodline

boom! !

At this moment, Ye Fengtian's immortal body was blessed by the red dragon battle body, making it even more terrifying and powerful.

Ye Feng's golden fist, wrapped in red dragon scales, struck towards the poisonous dragon in front, bursting out with extremely powerful destructive power, directly hitting the poisonous dragon.

"Boom!"

A kind of terrifying brute force surged out like a giant dragon, bursting out directly from Ye Feng's fist, all pouring onto the poisonous dragon.

This time the poisonous dragon could no longer resist it, and was blown away by Ye Feng's fist. Its huge body hit the swamp not far away, directly smashing into a large piece of land. A big hole came out.

"Roar!!"

At this moment, the poisonous dragon immediately roared, and the roar was full of incredible tone. It was obvious that he did not understand why a small human boy like Ye Feng could burst out with such terrifying power.

At this moment, Ye Feng didn't hesitate at all. He was covered in red dragon scales and quickly rushed downwards. He came directly in front of the poisonous dragon and was ready to beat it severely.

"puff!"

But at this moment, the poisonous dragon suddenly opened its bloody mouth and sprayed out a stream of green poisonous air, which directly enveloped Ye Feng.

The poisonous dragon immediately laughed out loud, and even uttered words from his mouth: "Boy, what I am most powerful about is not head-on confrontation, but the poison I was born with! You are now being affected by my poisonous aura. Covered, you will definitely die! You will eventually become my food!"

But almost at the moment when the poisonous dragon finished speaking.

boom!

An iron fist had been blasted out from the poisonous air, and it hit the poisonous dragon's head hard. In an instant, the poisonous dragon's face swelled up, and it was directly swollen.

#Every time verification appears, please do not use incognito mode!

"What??"

Seeing this scene, the poisonous dragon suddenly showed a deep and incredulous expression on his face.

Because he never expected that Ye Feng, who was enveloped by his poisonous aura, not only did not die of poisoning, but had no impact at all. The power of this punch was even more severe than before.

"boom!"

And at the next moment, before the poisonous dragon could react, Ye Feng punched it hard again.

Click!

The poisonous dragon's head once again withstood Ye Feng's fist, and was directly beaten to pieces, its head cracked, and it was completely killed.

The poisonous dragon died!

"What a strong body!"

The little golden man not far away saw this scene, and his eyes suddenly showed deep amazement: "Even in the ancient prehistoric era where I lived, it would be difficult to encounter a body as terrifying as Lord Ye Feng. Physique, it's really incredible!"

At this moment, Ye Feng walked out of the poisonous aura, unscathed and without any harm at all.

At this time, Ye Feng looked at the dead poisonous dragon, just smiled indifferently, and said loudly: "Your strongest means is your innate poisonous energy, but it is a pity that you met me, the one I am least afraid of It's a poisonous gas."

Ye Feng's Immortal Body of God gives Ye Feng super strong physique and life energy, so Ye Feng's ability to resist toxins is very strong.

"Buzz!"

At this time, Ye Feng did not hesitate and directly released a dark devouring realm, sweeping the swamp and mire in front of him.

The dead poisonous dragon shrouded it and then began to devour it.

"Boom!"

At this moment, huge waves of energy were immediately injected into Ye Feng's body, rapidly strengthening Ye Feng's power.

Ye Feng's cultivation aura immediately began to grow rapidly and continuously.

Now Ye Feng's cultivation is at the tenth level of Hun Tian Realm, which is a big bottleneck.

It would be extremely difficult for Ye Feng to break through this huge bottleneck of a large realm.

But the energy contained in the body of this poisonous dragon is really too majestic.

After all, you must know that those who can survive in this prehistoric ruins are basically very advanced and powerful prehistoric relics.

Therefore, the life essence of this poisonous dragon is extremely powerful and ancient, providing Ye Feng with a terrifying amount of energy.

"boom!!"

At this moment, Ye Feng's cultivation level suddenly broke through, and a terrifying aura suddenly erupted from his body.

At this moment, Ye Feng's cultivation has successfully crossed the bottleneck of the tenth level of the Huntian Realm and reached the half-step Divine Infant Realm above the Huntian Realm!

At this time, Ye Feng could feel that his skill reserves and combat effectiveness had increased hundreds of times!

After all, this is a breakthrough and leap across a whole realm, and it naturally makes Ye Feng become a lot stronger in an instant!

Divine Infant Realm, this is a new and powerful realm. In this realm, practitioners officially begin to evolve towards the level of gods, and begin to give birth to their own divine will in their bodies. This trace of divine will is like a baby. In general, start training from a young age and slowly grow.

Once you can cultivate your "divine baby" into a real "god", that means

#Every time verification appears, please do not use incognito mode!

With this, the practitioner will completely transform into a true god!

At this moment, even if Ye Feng has only broken through to the half-step divine infant realm, he can still feel that a divine aura that belongs to him has appeared in his dantian. This divine aura is his "divine infant". Slowly cultivating and growing it, he can become a powerful existence at the level of a true god in the future.

At this moment, Ye Feng felt this change and was naturally very happy.

"Hmm?"

At this time, Ye Feng also discovered other changes.

Ye Feng felt that not only had his cultivation level broken through, but also that the blood of this poisonous dragon contained a trace of the god-level blood of the ancient poisonous dragon.

In the process of swallowing, Ye Feng directly and imperceptibly integrated this trace of the blood power of the poisonous dragon.

So at this time, Ye Feng got another powerful ancient blood, which can directly activate the blood talent of the poisonous dragon.

Buzz!

At this moment, Ye Feng tried to stimulate the blood of the Ten Thousand Poison Dragon. Suddenly, a burst of intense green poisonous gas came out of Ye Feng's body, covering the area of several hundred meters around Ye Feng.

At this moment, all the areas covered by the poisonous gas released by Ye Feng were rapidly drying up. Even the ancient trees that had grown for hundreds of thousands of years had their trunks blackened in an instant, and then completely dried up and died.

Even the microorganisms or ancient viruses that had lived in the surrounding swamps and mud for millions of years, with extremely tenacious lives, could not withstand the poisonous gas released by Ye Feng, and all died and withered.

"Hiss!"

"What a terrible toxin!"

The little golden man not far away saw this scene and immediately couldn't help but gasp in shock.

Chapter 5158 Goblin Palace

"Yes, yes, this poisonous gas is much more powerful than any poisonous gas I have encountered before."

At this time, even Ye Feng couldn't help but praise himself.

This kind of blood talent is really powerful, especially it can cause huge damage to some creatures that are not resistant to poison.

At this time, Ye Feng directly withdrew his poisonous energy, looked at the little golden man not far away, and said loudly: "Let's continue to the goblin clan's lair."

"good."

The little golden man nodded and continued to fly quickly towards the deepest part of the swamp.

At this time, Ye Feng also quickly followed.

In the swamp and mire that followed, it was always very peaceful. .??.

Perhaps the battle between Ye Feng and the poisonous dragon just now was too powerful and fierce, so all the monsters living in the swamp did not dare to act rashly.

Finally, half an hour later, Ye Feng and Xiao Jinren successfully crossed the entire swamp and arrived at the edge of the swamp.

At this moment, Ye Feng suddenly saw an endless green grassland at the end of the swamp.

This piece of green grassland looks very calm and peaceful, and it is like two different worlds from the dangerous swamp and quagmire.

Swamp and mire, extremely bad.

Green grassland, calm and peaceful.

Ye Feng looked at the little golden man beside him and couldn't help but ask: "Is the goblin clan's nest you mentioned in this green grassland? I didn't expect it to be such a peaceful and peaceful place."

The little golden man nodded and said with a smile: "The goblins have always been a peace-loving tribe, and at most they engage in petty theft."

After finishing speaking, the little golden man identified the direction and said loudly: "Go this way."

Uh-huh!

At this moment, the little golden man flew directly to a huge hillside, looked at it carefully, and then his eyes suddenly showed a look of joy, and said loudly: "Master Ye Feng, it seems that I remembered it correctly. , the entrance of the goblin clan is still here."

Ye Feng also flew over at this time, with a look of surprise in his eyes, and said loudly: "There is nothing on this hillside."

The little golden man smiled slightly at this moment, stretched out one foot, stamped somewhere on the ground, and muttered something, as if he was performing some kind of special ritual.

"Um?"

Seeing this scene, Ye Feng's eyes suddenly showed a hint of surprise, and then he couldn't help but smile. He didn't expect this little golden man to know so much.

And at the next moment, Ye Feng saw a very surprising scene.

I saw an ancient pattern shining with light immediately appeared on the ground where the little golden man was stamping his feet.

As this ancient pattern emitted light, an underground passage suddenly appeared on the ground.

"Um?"

Seeing this scene in front of him, Ye Feng immediately smiled in astonishment and said aloud: "It seems that you really have two skills. You couldn't be as simple as a wandering soul in the ancient prehistoric era."

The little golden man immediately smiled and said loudly: "Master Ye Feng, in the ancient prehistoric era, I was really just

#Every time verification appears, please do not use incognito mode!

A little wandering soul, but I was lucky. I once accidentally met a member of the goblin clan, and used this special method to open the underground lair of the entire goblin clan. "

Ye Feng nodded, not wanting to waste time. He looked at the passage on the ground and said, "Let's go down and see if there is anything good in the goblin clan's lair."

Hearing what Ye Feng said, the little golden man immediately nodded and jumped into the underground passage in front of him with Ye Feng.

Uh-huh!

Uh-huh!

The next moment, the two of them fell rapidly.

After falling for nearly a quarter of an hour, Ye Feng and Xiao Jincai stepped on the solid ground with their soles.

At this moment, Ye Feng looked around, with a hint of surprise in his eyes.

Because Ye Feng saw that the underground lair of the goblins seemed not as dim as he imagined.

The walls of each underground passage are inlaid with crystal stones of different colors, emitting a faint light, making the entire underground space quite bright.

Ye Feng sensed the crystals on the walls and found that there was no energy contained in these crystals. They were just pure luminous objects. This made Ye Feng quite disappointed. Otherwise, he could have swallowed them to strengthen his own power.

At this time, the little golden man took a look around and said loudly: "Master Ye Feng, these dense underground passages were built and dug by the goblin clan who lived underground in the past. These dense passages connect each one. As for the residences and buildings of the goblins, we only need to follow these underground passages to reach the building areas where the goblins lived and see if we can find the wealth left by the goblins. However, we still have to be careful. In case you encounter some old monsters from the goblin clan that have lived for countless years, you must escape immediately without any hesitation."

Hearing what the little golden man said, Ye Feng nodded and said, "Okay, let's not waste time, and hurry up and search along these underground passages."

The little golden man nodded, followed Ye Feng, and walked directly towards the nearest underground passage.

Next, Ye Feng and Xiao Jinren walked in the underground passage. The air was very humid and had an unpleasant smell of mold. It must be that no living creatures have moved in it for a long time, otherwise the underground environment would not be so decayed. However, The crystal stones inlaid on the walls of the underground passage still emit a faint light, seeming to silently tell the glorious past and construction art of the goblin clan.

Finally, Ye Feng and Xiao Jinren reached the end of the first underground passage, and their vision suddenly became clearer!

After walking out of the narrow passage, a huge underground palace appeared.

This underground palace looks very majestic and ancient, but it is still decayed, but the glory and grandeur of the year can be seen.

Ye Feng saw at first glance that there seemed to be a lot of sparkling things piled up in the ancient palace of the goblin clan, making the entire underground palace shine a little.

The little golden man also saw it, and immediately couldn't help but said in surprise: "Master Ye Feng, we are so lucky! This palace seems to be a place where the goblins used to pile up rare treasures. Have you seen the sparkling look in the palace? There must be many rare treasures! The goblin clan likes to collect all kinds of rare treasures from the ancient world! "" Yes, yes, the power of this poisonous gas. , much more powerful than any poisonous gas I have encountered before."

At this time, even Ye Feng couldn't help but praise himself.

This kind of bloodline talent is indeed quite powerful, especially it can cause huge damage to some creatures that are not resistant to poison.

#### Chapter 5159 Palace Text

At this time, Ye Feng naturally did not hesitate and flew directly towards the shining ancient palace of the goblin clan.

When Ye Feng entered the palace, he immediately saw a very surprising scene.

I saw that this ancient terrain palace was filled with crystal stones exuding different colors.

However, what makes Ye Feng quite disappointed is that most of these crystals that emit light of different colors are the crystals that Ye Feng fell into the underground passage of the goblin clan. The crystals inlaid on the walls that he saw only emitted light. When it emits light, there is actually not much energy fluctuation, it only has a decorative effect.

Ye Feng sighed and couldn't help but said: "It seems that we are not very lucky. This hall seems to be glowing, but the piles of these radiant stones are basically used for decoration. There are no The value." .??.

At this time, the little golden man also had a look of surprise in his eyes, as if he didn't expect that the goblins had built a special hall specifically for stacking these radiant stones.

But at this time, the little golden man seemed to have thought of something, and he couldn't help but said: "Something's wrong. This ancient palace is so majestic and built so magnificently. It can't be just used to pile up some decorations." The luminous stone, this temple itself may be a good thing. "

"Um?"

Hearing what the little golden man said, Ye Feng's eyes moved slightly and he couldn't help but said: "Do you mean that this hall itself is a very powerful treasure?"

The little golden man nodded.

At this moment, Ye Feng had a curious look in his eyes and said, "Then let's give it a try."

After saying that, Ye Feng and the little golden man walked out of the underground palace first, and then Ye Feng stretched out his hand and pressed it on the wall of the ancient palace.

#Every time verification appears, please do not use incognito mode!

Above, output your own mana and want to sense it carefully.

Buzz!

And the moment Ye Feng exported his magic power, Ye Feng immediately felt that this underground palace suddenly produced a very terrifying magic wave.

Ye Feng sensed the fluctuation of this magic weapon, and his eyes immediately revealed a look of deep surprise, and he said loudly: "This ancient palace is indeed a powerful magic weapon refined by the goblin clan. This palace itself is a A very ancient treasure."

Hearing what Ye Feng said, the little golden man also nodded.

At this moment, Ye Feng continued to output mana and directly refined the palace.

Buzz!

The next moment, with Ye Feng's thought, the palace immediately shrank rapidly, and finally turned into the size of a palm, falling into Ye Feng's palm.

At this moment, the little golden man couldn't help but asked: "Master Ye Feng, does this palace-type magic weapon have any specific effect?"

Ye Feng shook his head and said aloud: "For the time being, I have only refined it, and have not properly reacted to it. So now, except that this palace can become larger and contain many things, I have not studied the others yet. Come out and I will study it slowly."

The little golden man nodded and said with a smile: "It can be considered a huge harvest. There were many very powerful weapon refining masters among the goblin clan back then, so as long as the magic weapon is refined by the goblin clan, it will definitely be Very advanced and powerful."

Ye Feng nodded, then looked towards

Other surrounding underground passages spoke out: "Let's move on."

The little golden man also nodded and continued to follow Ye Feng towards another passage quickly.

At this moment, Ye Feng and the little golden man walked into another passage. Sure enough, the walls of every underground passage were inlaid with luminous stones.

At this time, Ye Feng was also secretly studying the magic weapon made by the goblin clan that he had just obtained, that ancient palace.

"Um?"

At this time, Ye Feng suddenly discovered something and couldn't help but put the ancient palace that had been refined before in his hands.

At this time, Ye Feng watched carefully and said aloud: "There seems to be a text engraved in this ancient palace."

"Um?"

Hearing what Ye Feng said, the little golden man's eyes also showed a look of surprise, and he asked aloud: "What words are they?"

Ye Feng watched it carefully and said aloud: "It seems to be the writing left by a certain clan member of the goblin clan. It is the writing of the goblin clan. I don't recognize it."

Hearing what Ye Feng said, the little golden man quickly said: "Write out the characters engraved in this palace and show them to me. I know the characters of the goblin clan."

Ye Feng did not hesitate at this moment and directly wrote the words he saw in the ancient palace on the ground.

At this moment, the little golden man looked at the words of the goblin clan written by Ye Feng on the ground. His eyes suddenly showed a look of deep astonishment, and then he was filled with deep ecstasy and said loudly: "Ye Feng Lord Feng, this text records the location of the goblin clan's largest treasure house."

"What?"

Hearing what the little golden man said, Ye Feng's eyes suddenly showed a look of ecstasy, and he couldn't help but say: "We are really lucky. We can actually find the location of the final treasure house left by the goblins in this palace. But why did a certain goblin tribe member write down the location of their goblin tribe's largest treasure house in this palace? Is this a trap?"

The little golden man shook his head and said: "I don't know about this. It may be for the later goblin tribe members. But the goblins have completely perished in the ancient long years, so the text left by the goblins at that time has completely lost its meaning, but it happened to be discovered by us."

Ye Feng nodded and said: "Then let's go directly to find the largest treasure house of the goblins."

You know, Ye Feng's time in this prehistoric ruins is only a few hours, and now nearly half of it has passed, so Ye Feng now has no time to wander around in this underground passage of the goblins without a clue.

Now that such a key text has been found, Ye Feng would definitely want to take a look.

Whether it is a trap or a real treasure house, this opportunity cannot be wasted.

The little golden man nodded at this time, and according to the information recorded in this text, he quickly flew in a certain direction, and Ye Feng hurriedly followed.

Ye Feng was very interested in the treasure house left by the goblins.

And if there is really any fatal danger, the forest lord who secretly protects him in the surrounding void will definitely take action and take him away.

Of course, Ye Feng does not know that the forest lord is no longer in the surrounding void.

Chapter 5160 The only remaining tribesman

At this moment, according to the location described in this ancient text, the little golden man brought Ye Feng and soon arrived at the final destination.

However, at this time, the two were surprised to find that in this area of the final destination, there was actually a huge magma land, and all the magma flames flowing on the ground were emitting a pungent sulfur smell.

Seeing this scene, Ye Feng glanced at the little golden man beside him, and couldn't help but say: "Are you sure that the place pointed to by that ancient text is here?"

After Ye Feng's voice fell, the little golden man couldn't help but say: "The place pointed to by that ancient text is here, but I'm not sure now, where is the specific final location?"

Hearing what the little golden man said, Ye Feng glanced at the magma in front of him, smiled and said: "It should be in this magma." ??

Swish!

After saying that, Ye Feng did not hesitate and jumped directly into the magma in front of him.

At this moment, the little golden man saw Ye Feng jump in and hurriedly followed.

Ye Feng's physique is extremely strong, so he is not afraid of the burning flames in these ancient magmas.

As for the little golden man, he is even less afraid.

Although the little golden man was a wandering soul in the prehistoric era, his current body is integrated with this life source bead.

This life source bead is the core thing in the body of an ancient giant of the god level, so it is almost indestructible and naturally not afraid of any external damage.

At this moment, Ye Feng and the little golden man jumped into the magma, and Ye Feng immediately dived quickly under the magma.

When Ye Feng dived to the bottom of this magma, his eyes suddenly showed a look of astonishment.

Because Ye Feng saw that at the bottom of this magma, there was actually a huge bronze door.

This bronze door looks very majestic and solid.

At this moment, Ye Feng immediately understood that the goblin clan probably

The largest treasure house in the year may be under this bronze door.

At this time, Ye Feng did not hesitate at all, and instantly punched the bronze door under the molten lava.

Boom! !

The next moment, when Ye Feng's golden fist collided with the bronze door, a huge roar was heard.

Almost in the next moment, Ye Feng did not smash the bronze door in front of him, but the golden fist was bounced back by the shock.

Swish!

At this time, Ye Feng did not hesitate at all, and directly took out the Sword of God that he had obtained before, and instantly pierced the bronze door on the ground in front of him, and then cut the entire bronze door open.

Boom!

At this moment, Ye Feng kicked hard and kicked the broken bronze door in front of him completely.

At this moment, Ye Feng did not hesitate at all, and jumped directly under the bronze door.

At this moment, the little golden man also hurriedly followed.

When Ye Feng jumped into the space under the bronze door, he immediately saw that there was an ancient secret room under the bronze door.

In this secret room, there were indeed various treasures piled up.

Ye Feng saw at first glance that in the middle of this secret room was a set of solid armor made of gold.

Ye Feng did not hesitate at all, and rushed to the golden armor in an instant, stretched out his hand, pressed on the golden armor, and output his magic power.

Ye Feng successfully refined this set of golden armor into his body. With a thought, he could let this set of golden armor cover the surface of his body, providing himself with extremely powerful defense.

At this time, Ye Feng did not hesitate at all, and continued to look at the various treasures piled up in this secret room.

In this secret room, in addition to this set of extremely advanced golden armor, there are also various treasure chests piled up.

Click!

Ye Feng opened one of the treasure chests and immediately saw that there was a crystal stone as big as a human head in this treasure chest.

"This is..."

Ye Feng's eyes suddenly showed a look of surprise.

This crystal stone as big as a human head is definitely the heart of a certain mineral vein.

Ye Feng had swallowed the heart of a mine before.

The heart of a mine is the crystal with the highest energy density produced in a mine.

This crystal the size of a human head is definitely the heart of a mine.

Buzz!

Ye Feng did not hesitate at this moment and started to swallow it on the spot.

Boom!

At this moment, as Ye Feng swallowed, a huge amount of energy from the mine was directly swallowed and absorbed by Ye Feng and injected into Ye Feng's Dantian, rapidly strengthening Ye Feng's skills.

The aura of Ye Feng's cultivation immediately grew wildly at this moment.

Boom!

At this moment, under the accumulation of the huge energy of the heart of the mine, Ye Feng's cultivation finally broke through from the previous half-step divine infant realm to the real first level of the divine infant realm, crossing an entire realm.

Ye Feng could immediately feel that his strength had increased by hundreds or thousands of times.

This made Ye Feng's eyes suddenly reveal a deep surprise.

There are really many good things in the treasure house of the goblin clan.

Swish!

The little golden man flew to Ye Feng's side at this time

, couldn't help but say: "It seems that the ancient text recorded in that palace is really guiding the future goblin clan members to return to the treasure house of the goblin clan, obtain the wealth of the goblin clan, and revitalize the entire goblin clan. This is not a trap."

Ye Feng couldn't help but nodded when he heard the little golden man say this.

Then Ye Feng continued to look at the second treasure chest and opened it directly.

"Huh?"

But the moment Ye Feng opened the second treasure chest, his eyes were immediately stunned.

Because Ye Feng discovered that the second treasure chest was not filled with treasures or natural resources, nor weapons and armor, but a little girl who looked very thin.

This little girl, who looked very frail, opened her eyes the moment the treasure chest was opened, her beautiful eyes full of innocence.

Ye Feng was about to ask something, but suddenly at this moment, the entire treasure house shook.

Buzz!

A huge shadow appeared in the middle of the treasure house, emitting a faint white light.

The huge shadow looked at Ye Feng and said, "It seems that you are the destined person. You have finally come to the core of our goblin clan. This little girl is the only remaining member of our goblin clan. She successfully survived the great catastrophe that year. For those who are destined to be together, our goblin clan is willing to give all the wealth in our treasure house. Please take the only remaining member of our goblin clan away from here. I hope you can protect her well and help her grow up."

After that, the huge shadow disappeared completely in an instant, obviously having lost all its energy support.

At this moment, the only remaining member of the goblin clan in the treasure chest, the little girl, stared at Ye Feng and said timidly and fearfully: "Grandpa the clan leader said that whoever opens me from the treasure chest will be my future follower. From now on, everything of mine will belong to you, as long as you can take me away from this desolate and disastrous place."
