### Chapter 5311: Dried Monster

Hearing Ye Feng say this at this moment, the Flame Demon God immediately nodded and said, "Back then, I discovered this ancient cultivation civilization that came from the universe and the stars to this small world. It is a very special cultivation civilization. It is different from our other cultivation civilizations. They don't seem to practice any powerful skills or inheritance, but concentrate on studying various special potions that can increase the body or physical strength of practitioners to help themselves become very powerful and become as terrifying as the ancient saints. They rely more on external forces rather than their own hard work."

Hearing what the Flame Demon God said, Ye Feng immediately nodded and said, "I feel it too."

At this time, the Flame Demon God said, "Let's continue to explore this spaceship."

Ye Feng nodded and walked directly to the door of the fourth room.

A metal door also appeared here, blocking the entrance to the fourth room.

At this time, Ye Feng did not hesitate at all and continued to operate the Eye of Heaven and Earth to see through the seal on the entire metal door.

Under the insight of the Eye of Heaven and Earth, the seal on the fourth metal door was quickly solved by Ye Feng, and the fourth metal door was cracked directly and opened instantly.

The next moment, Ye Feng and the Flame Demon walked in and immediately saw a rather surprising scene.

Because the fourth room was not as small as imagined, just a room.

It was a huge internal space. ??

Seeing this scene, the Flame Demon couldn't help but say: "We may have reached the core area in the middle of this spaceship. The space here is so huge, we have to explore it well."

Ye Feng nodded, and separated from the Flame Demon, heading towards their respective explorations.

Ye Feng walked on the right side, and along the way he saw that in the largest internal space of this spaceship, the walls were all made of metal.

And the metal on the walls of the interior of this spaceship had grooves.

Ye Feng thought for a moment, touched these grooves, and immediately a small metal cabinet stretched out from them.

Ye Feng opened these metal cabinets and immediately saw that each of them contained a very special heavenly and earthly elixir, as well as some special medicinal materials with very strange shapes.

Seeing this scene, Ye Feng immediately understood something. It seemed that in the space inside this spaceship, the heavenly and earthly treasures and elixir stored in these medicine cabinets should be the rare and precious herbs that this ancient cultivation civilization had plundered from various small worlds, used to refine that special blue liquid.

At this moment, Ye Feng naturally had no hesitation and swallowed all the various elixir and herbs in these metal cabinets directly.

Now Ye Feng and the Flame Demon God Army split into two groups and explored from the entrance of this internal space to both sides. In fact, it was also tacitly agreed that if the two of them got any opportunities and fortunes on both sides, they would belong to each other, which could be regarded as an equal share.

At this moment, Ye Feng was lucky. The metal cabinets he found were filled with spiritual medicines and herbs from various worlds. After Ye Feng ate them, he could immediately feel a huge amount of medicinal energy injected into his body, which instantly injected Ye Feng with a huge amount of energy.

Ye Feng's

Before, at the bottleneck of the half-step earth spirit realm, Ye Feng swallowed different spiritual medicines and herbs, and with the impact of the huge energy, finally at a certain moment, a "boom" sounded.

Ye Feng suddenly burst out with an extremely powerful aura of cultivation.

Ye Feng's cultivation completely broke through the bottleneck of the half-step earth spirit realm and stepped into the real first level of the earth spirit realm.

At this moment, Ye Feng was naturally very happy.

This time, entering this spaceship, he really got a huge opportunity and fortune, which allowed his cultivation to directly cross a whole realm.

You know, after Ye Feng came to the heaven, he has been troubled by the fact that his cultivation foundation cannot keep up with the accumulation of some masters in the heaven.

But now Ye Feng feels that he is catching up step by step.

Of course, for the time being, Ye Feng cannot be compared with the ancient and powerful strongman like the Flame Demon God.

After all, if the Flame Demon God comes out of this small world of the Demon God Space, he may be able to match the level of the ruler of the giant power in the southern region of the heaven, such as the Great Demon God Sect.

This time, Ye Feng can establish such a deep friendship with the ancient super strongman like the Flame Demon God, which can be regarded as an invisible opportunity for Ye Feng.

Because you know, being able to establish a deep friendship with a super strongman will naturally have huge benefits for Ye Feng in the whole heaven, which means that Ye Feng has a strong network of contacts.

At this moment, Ye Feng ate the spiritual medicine in the last few cabinets he found, which made his cultivation breakthrough and continued to explore forward.

Soon, Ye Feng discovered a shocking scene. On the wall not far away, there appeared a huge glass coffin, embedded on the wall.

In each huge glass coffin, there was a dried corpse of a very special monster stored inside.

These monsters probably come from different worlds, because the cultivation civilization represented by this spaceship has conquered every world.

To Ye Feng's disappointment, the monster corpses stored in these glass coffins had been completely dried and lost all their blood.

Ye Feng doesn't have any blood energy to devour.

However, Ye Feng still used the God's Sword to cut open all these glass coffins. After careful exploration, his eyes suddenly lit up.

Because these dried monster corpses are all very old. Although they have lost their blood and been completely dried, there is actually a trace of divine substance contained in the bones and dried flesh.

This made Ye Feng's eyes suddenly show surprise.

It seems that the origins of these monsters are very extraordinary.

Because only creatures with very noble inheritance can have divine substances in their bodies.

At this moment, Ye Feng naturally directly absorbed the divine substances from the dried monster corpses.

The strength of Ye Feng's Immortal Body of God immediately began to increase rapidly and continuously.

Ye Feng suddenly absorbed all the divine substances from the monster corpses in the six glass coffins and integrated them into his own constitution.

Ye Feng's previous Immortal Body of God was on the third level of the seventh stage, and was directly promoted to the sixth level of the seventh stage, which greatly enhanced Ye Feng's physical energy! Hearing what Ye Feng said at this moment, the Flame Demon God immediately nodded and said: "Back then, I discovered that this ancient cultivation civilization that came from the starry sky to this small world is a very special practice. , civilization is different from our other cultivating civilizations. They don't seem to practice any powerful techniques or inheritance, but focus on researching various special potions that can increase the body or physical strength of the cultivators to help them become very powerful. Powerful, they become as terrifying as the ancient saints. They rely more on external forces instead of relying on their own hard work. "

Hearing what the Flame Demon God said, Ye Feng immediately nodded and said, "I feel it too."

At this time, the Flame Demon God said aloud: "Let's continue exploring this spaceship."

Ye Feng nodded and walked directly to the door of the fourth room.

A metal door also appeared here, blocking the entrance to the fourth room.

At this time, Ye Feng did not hesitate and continued to operate the Eye of Heaven and Earth to see through the seal restrictions on the entire metal door.

With the Eye of Heaven and Earth seeing through, the seal on the fourth metal door was quickly solved by Ye Feng. He directly cracked the fourth metal door and opened it instantly. ??

The next moment, Ye Feng and the Flame Demon walked in, and immediately saw a rather surprising scene.

Because this fourth room is not as small as imagined, it is just one room.

Rather, it is an extremely huge internal space.

Seeing this scene, the Flame Demon couldn't help but said: "We may have reached the core area in the middle of this spaceship. The space here is so huge, we need to explore it carefully."

Ye Feng nodded, separated from the Flame Demon God, and headed towards their respective explorations.

Ye Feng walked to the right. Along the way, he saw that in the largest internal space of the spacecraft, the walls were all made of metal.

Moreover, the metal on the interior walls of this spacecraft has grooves.

Ye Feng thought for a moment and touched these grooves, and immediately small metal cabinets stretched out.

Ye Feng opened these metal cabinets and immediately saw that each metal cabinet contained a very special elixir of heaven and earth, as well as some special medicinal materials with very weird shapes.

Seeing this scene, Ye Feng immediately understood something. It seems that in the space inside the spaceship, the treasures and elixirs stored in these medicine cabinets should be the ancient cultivation civilization from various sources. The rare and exotic herbs collected in the small world are used to refine that special blue liquid.

At this moment, Ye Feng naturally did not hesitate and swallowed all the various elixirs and herbs contained in these metal cabinets.

Now Ye Feng and the Flame Demon Soldier are divided into two groups, exploring both sides from the entrance to the inner space. This is actually acquiescence. If they are on both sides, whatever opportunities and blessings they get will belong to each of them, and it can be regarded as an equal share. .

At this moment, Ye Feng was pretty lucky. The metal cabinets he found contained elixirs and herbs from all over the world. After Ye Feng took them, he could immediately feel a huge pot of medicinal power. Energy was immediately injected into his body, and Ye Feng's whole body was immediately injected with huge energy.

Ye Fengzhi

Half a step ahead of the big bottleneck of the Earthly Spiritual Realm, Ye Feng swallowed different elixirs and herbs, and with the help of the impact of the huge energy, at a certain moment, there was a "boom".

Ye Feng suddenly burst out with an extremely powerful aura of cultivation.

Ye Feng's cultivation completely broke through the bottleneck of the half-step Earth Spirit Realm and stepped into the true first level of the Earth Spirit Realm.

At this moment, Ye Feng was naturally very happy.

This time, when I entered the spaceship, I really got a great opportunity, which made my cultivation level directly cross a whole realm.

You know, after Ye Feng came to the heaven, he was always troubled by the fact that his cultivation level could not keep up with the accumulation of some masters in the heaven.

Because you know, being able to establish a deep friendship with a super strongman will naturally have a huge benefit for Ye Feng in the whole heaven in the future, which means that Ye Feng has a strong network of contacts.

At this moment, Ye Feng ate the spiritual medicines in the nearest cabinets he found, which made his cultivation break through, and continued to explore forward.

Soon, Ye Feng discovered a startling scene. He saw huge glass coffins appearing on the wall not far away, embedded on the wall.

In each huge glass coffin, there was a very special monster corpse that was dried and stored in it.

These monsters probably came from different worlds, because the cultivation civilization represented by this spaceship had conquered one world after another.

What disappointed Ye Feng was that these monster corpses stored in these glass coffins had been completely dried and lost all their blood.

Ye Feng had no blood energy to devour.

However, Ye Feng still used the Sword of God to cut open all these glass coffins. After careful exploration, his eyes suddenly lit up.

It seems that the origins of these monsters are very extraordinary.

Because only creatures with very noble inheritance have divine substances in their bodies.

At this moment, Ye Feng naturally directly absorbed the divine substances in these dried monster corpses.

The strength of Ye Feng's immortal body of the gods immediately began to increase rapidly and continuously.

Ye Feng absorbed all the divine substances in the monster corpses in the six glass coffins at once and integrated them into his physique.

Ye Feng's immortal body of the gods was previously at the third level of the seventh stage, and it was directly upgraded to the sixth level of the seventh stage, which greatly enhanced Ye Feng's physical energy!

Chapter 5312: Insect Nest

At this time, Ye Feng's physique was greatly enhanced, causing Ye Feng's combat power to skyrocket.

And what Ye Feng is most happy about is that his immortal body of the god has evolved.

You know, although Ye Feng has been practicing very hard, he wants to get as much energy as possible to improve his skills.

But Ye Feng actually knows that his most important thing is his immortal body.

Because a person's physical fitness is the most important.

As long as the body is immortal, then the person will not die.

And you must know that there is a great god named Emperor Chu sitting in Ye Feng's soul.

Therefore, Ye Feng's soul does not have to worry about encountering any great danger.

The stronger Ye Feng's physical strength is, the greater benefit it will be to Ye Feng.

Not only will the combat effectiveness be improved, but the origin of life will also be evolved.

Ye Feng is still looking forward to his immortal body of gods. Once it is strengthened to the tenth stage of the real immortal body of gods, and becomes the real immortal body of gods, how powerful will it be?

I am afraid that even the ancient gods can compete with or even kill them by relying on the strength of their bodies instead of relying on magic power.

At this time, Ye Feng was thinking secretly and continued to explore the largest internal space of this spaceship.

Soon after Ye Feng passed through the glass coffins, he saw corpses that looked like small insects appearing on the ground.

Ye Feng looked at these little bugs and clearly felt a huge sense of crisis.

"This is....."

At this moment, Ye Feng's eyes suddenly showed a look of horror, because Ye Feng discovered these little bugs, which seemed to be very scary bugs recorded in ancient books. It enters a person's body and instantly absorbs all the person's internal organs.

#Every time verification appears, please do not use incognito mode!

All were devoured.

Fortunately, these little bugs had died and their bodies fell to the ground.

But Ye Feng suddenly had a guess at this time.

Could it be that those ancient civilization practitioners who came from the depths of the universe and were inside this spaceship were invisibly burrowed into their bodies by these terrible little bugs, so they died?

With this guess in his mind, Ye Feng became more cautious and wanted to remind the Flame Demon God.

"ah!!"

But at this time, suddenly there was a huge movement not far away.

Ye Feng's eyes were startled, and he immediately flew quickly in that direction.

The next moment, Ye Feng saw a very nerve-wracking scene.

At this moment, the old man, the Flame Demon God, was seen standing in front of a huge insect nest.

Countless small black insects emerged from this insect nest, which were exactly the same as the ones Ye Feng saw just now.

At this moment, these densely packed black bugs surrounded the Flame Demon God. They were all on the Flame Demon God. They wanted crazily to get into the Flame Demon God's seven orifices, and even wanted to escape from the Flame Demon God. It penetrated into the pores of the flame demon's skin.

This is so mind-numbing!

It was like falling into a pile of countless insects.

"ah!!"

"Get everyone out of my way!!"

At this time, the Fire Demon God screamed in pain, and his whole body was burning with terrifying power of fire, but it was of no use. These terrible insects, like

Invulnerable to water and fire.

Ye Feng did not rush forward at this time, because even an extremely terrifying powerhouse like the Flame Demon God could not deal with these little bugs, let alone himself.

Because Ye Feng's cultivation level is dozens of realms lower than the Flame Demon God.

Moreover, the flame power of the Flame Demon God is so terrifying, but it cannot harm these little bugs.

At this time, Ye Feng seemed to have thought of something, and immediately released his soul power and spread it forward.

Ye Feng's guess was indeed correct. His soul power could actually attack the souls of these little insects.

Although these little bugs are bugs, and even the flames of the Fire Demon God cannot burn or harm these little bugs, these little bugs are living creatures after all and have their own souls.

Their souls were so weak that Ye Feng's soul power was able to overwhelm them in an instant and forcefully control them.

The next moment Ye Feng thought, countless small insects immediately flew away from the Flame Demon God's body.

Seeing this scene at this time, Ye Feng's eyes suddenly showed surprise.

This time he not only saved the Fire Demon God, but also found a way to control these little bugs.

That is to control these little bugs through his huge soul power.

Although these little bugs are very terrifying and even the Fire Demon God cannot harm them, the souls of these little bugs are extremely weak.

Ye Feng's extremely powerful soul power is enough to control these little bugs.

But before Ye Feng could be surprised, suddenly a very terrifying soul power was transmitted from the insect nest not far away, directly attacking

#Every time verification appears, please do not use incognito mode!

The blow hit Ye Feng's soul, making Ye Feng couldn't help but take several steps back, his face became extremely pale, and his soul suffered heavy damage.

Ye Feng couldn't help but say: "There is a queen in this insect nest, which has a very terrifying soul power. It is this queen that controls these small insects through its terrifying soul power."

At this moment, Ye Feng immediately asked for help from Chu Huang in his mind without any hesitation, and said: "Chu Huang, come and help me control or kill this queen."

The kitchen heard Ye Feng's voice at this moment, woke up from his deep sleep, and simply scanned the situation in front of him with his soul. He immediately understood something and said: "Okay."

After that, Chu Huang rushed out of Ye Feng's head and turned into a giant of light with a height of tens of thousands of meters. Then he stretched out a big hand of light and attacked fiercely in the direction of the insect nest.

Chu Huang's attack was completely at the soul level, so it would not hurt the insect nest itself, but directly attacked a queen in the deepest part of the insect nest.

"Howl!!!"

The next moment, only a shrill and terrifying scream was heard from the insect nest.

The queen was killed instantly by the Emperor Chu.

Swish!

The Emperor Chu returned to Ye Feng's mind at this time.

Ye Feng was very surprised at this moment. He killed the queen, which meant that he controlled the entire insect nest.

Ye Feng just sensed that there were countless dense black insects in this insect nest. Even the Flame Demon could not escape the siege of countless black insects. He had picked up a super terrifying weapon for nothing!

Chapter 5313 Friends

"How did you do it?"

At this time, the Flame Demon God widened his eyes not far away.

Because even an ancient and powerful person like the Flame Demon God was shocked by Ye Feng's operation at this moment.

Just now, the Flame Demon God was surrounded by these terrible insects, and he couldn't even escape, and he was going to die completely.

Because these terrible insects, with his power, he couldn't hurt them.

And these insects were frantically gnawing at every part of its body.

But just now, the Flame Demon God was shocked to see that Ye Feng just shouted, and all the insects retreated in an instant, and all retreated from his body like a tide back to the huge insect nest not far away.

This shocked the Flame Demon God.

Because he never thought that Ye Feng actually had the ancient ability to control insects.

At this moment, the Flame Demon stared at Ye Feng, and couldn't help but said in shock: "How many secrets are you hiding from me?"

Ye Feng smiled slightly at this moment and said: "Senior Flame Demon, I just happen to have a special talent that can control these insects. I just tried it casually, and I didn't expect it to succeed."

Hearing Ye Feng say this, the Flame Demon suddenly shook his head and said: "You are definitely not as simple as the Ninth Young Master of the Demon King Palace of the Great Demon God Sect. Who are you?"

Hearing the Flame Demon say this, Ye Feng's face suddenly became calm, then smiled slightly, and slowly said: "Well, with a powerful senior like you, the Flame Demon, Communication, there is really no need to hide anything. I am indeed not the ninth young master of a small Demon King Hall in the Great Demon God Sect. My real name is Ye Feng. I come from a low-level interface under the heaven. I finally entered the heaven through step-by-step efforts. The reason why I pretended to be the ninth young master of the Demon King Hall of the Great Demon God Sect is not a conspiracy. I just want to use this identity to get some benefits for myself in the Great Demon God Sect. I can leave the Great Demon God Sect at any time. "

The reason why Ye Feng told the truth at this time is that this Flame Demon God and the Great Demon God Sect have no special relationship anyway, so it doesn't matter to tell it, and it can allow the two to communicate more frankly and cooperate in the future.

At this moment, hearing what Ye Feng said, the Flame Demon God's face suddenly showed a look of realization.

"It turns out that he climbed up step by step from the small interface and the low-level interface. No wonder he has so many means and such a powerful talent. It is impossible for ordinary people to do all this."

At this time, the Flame Demon God not only did not look down on Ye Feng because he came to the heaven from the low-level interface, but admired Ye Feng very much for being able to climb up to the heaven from the small interface and the low-level interface.

Because such people are often the strongest, even more terrifying than the native practitioners of the heaven.

At this time, the Flame Demon God could not help but clasped his fists and said: "Thank you for saving my life just now. This is the second time you have saved me."

Hearing what the Flame Demon God said, Ye Feng's eyes showed a hint of smile, and he said aloud

# Every time verification appears, please do not use the invisible mode!

"The reason why I said everything is because I think that Senior Flame Demon God is not an ancient figure who likes to bully the weak, but a figure who is truly worthy of my friendship."

Hearing what Ye Feng said, the face of the Flame Demon God suddenly became solemn. He couldn't help but tidy up his clothes, then bowed his hands very solemnly and said, "In the future, we will be equal friends."

The Flame Demon God is such an ancient figure. Now he is so solemnly performing an equal ceremony for Ye Feng. Naturally, he respects Ye Feng very much to do this.

At this time, Ye Feng did not hesitate at all. He immediately responded, bowed his hands, and said, "In the future, we can work together to find more opportunities and become stronger."

Hearing what Ye Feng said, the Flame Demon God nodded immediately.

Although Ye Feng's current cultivation is much worse than his, and is dozens of realms lower, in the eyes of the Flame Demon God, Ye Feng may just be a very weak young boy.

But now the various methods that Ye Feng has shown have made ancient figures like the Flame Demon God treat him as his peers. They think Ye Feng is very powerful and worthy of his serious treatment.

At this time, the Flame Demon God looked at the huge insect nest not far away, and couldn't help but said with a little fear: "It was really dangerous just now. If it weren't for Ye Feng's ability to control insects, I'm afraid I would have completely fallen just now. These insects are really terrible. It is estimated that all the people of the ancient cultivation civilization in this spaceship died because of the insects in this insect nest. This insect nest is definitely not in this small world where I am, or even in the heavens. It is very likely to be a starry sky insect nest from the depths of the universe."

Hearing what the Flame Demon God said, Ye Feng nodded, his eyes full of excitement at this time.

He is truly in control of the entire insect nest.

He is equivalent to having a huge killer next.

At this moment, Ye Feng put this mysterious starry sky insect nest into his storage ring and can use it at any time.

At this moment, the Flame Demon God looked at Ye Feng, his eyes full of admiration, and said loudly: "This time you have really harvested a big killer weapon. Once this kind of thing releases all the bugs, It's absolutely terrifying. Just now I was crawled all over my body without any precautions, and I couldn't break free. It's really terrifying."

Ye Feng also nodded with deep understanding and said aloud: "These bugs are really scary. Even a powerful and ancient figure like you, the Fire Demon God, who is powerful enough to burn mountains and seas, can still not hurt these bugs at all. It's true." It's shocking. If I hadn't learned a certain insect control technique innately, I would have panicked and been unable to solve the crisis just now."

At this time, Ye Feng naturally followed the words of the Flame Demon God and said that he knew some insect control techniques instead of using soul power, because soul power was also one of Ye Feng's biggest trump cards, so it was best not to say it easily.

The Fire Demon God nodded at this moment, couldn't help but look at the interior space of the entire spaceship, and said aloud: "We continue to explore, the innermost area of this spaceship definitely contains huge wealth, I feel that we have not touched this area yet. "How did you do it?"

At this time, the Flame Demon God's eyes widened immediately not far away.

Because even an ancient and powerful man like the Flame Demon God was shocked by Ye Feng's operation at this moment.

Just now, the Flame Demon God was surrounded by these terrifying insects. He could not even escape and was about to die completely.

Because of these terrible bugs, even with his strength there was no way to harm them.

And these bugs are eating every part of its body crazily.

But the Flame Demon God was shocked to see it just now. Ye Feng just shouted, and all the insects retreated in an instant. They all retreated from his body like a tide back to the huge insect nest not far away. ??

This shocked the Fire Demon God.

Because he never thought that Ye Feng actually had the ancient ability to control insects.

At this moment, the Flame Demon God stared at Ye Feng and couldn't help but said in shock: "How many secrets do you still hide from me?"

Ye Feng smiled slightly at this moment and said: "Senior Flame Demon God, I just happen to have a special talent that can control these bugs. I just tried it casually, and I didn't expect it to be successful."

Hearing what Ye Feng said, the Flame Demon God suddenly shook his head and said loudly: "You are definitely not the ninth young master of the Great Demon God Sect or the Demon King's Palace. Who are you?"

Hearing what the Flame Demon God said, Ye Feng's face suddenly became calm, then he smiled slightly and said slowly: "Well, there is really no need to hide anything when communicating with an extremely powerful senior like you, the Flame Demon God. , I am indeed not the Ninth Young Master in a small Demon King's Palace in the Great Demon God Sect. My real name is Ye Feng. I come from the lower interface under the heaven. It was through my hard work step by step that I finally entered. In the heaven, the reason why I pretended to be the Ninth Young Master of the Demon King Palace of the Great Demon God Sect has no conspiracy. It is just to use this identity to gain some benefits for myself in the Great Demon God Sect. I can leave at any time. Great Demon God Sect."

The reason why Ye Feng told all the truth at this time was because there was no special relationship between the Flame Demon God and the Great Demon God Sect anyway, so there was no harm in telling it, and it would allow the two to have more candid communication and future cooperation.

At this moment, hearing Ye Feng say this, the Flame Demon God suddenly showed a look of surprise on his face.

"It turns out that I climbed up step by step from the small interface and the low-level interface. No wonder I have so many methods and such powerful talents. It is impossible for ordinary people to do all this."

At this time, the Flame Demon God not only did not look down on Ye Feng because he came to the heaven from the lower interface, but also admired a character like Ye Feng who could climb to the heaven step by step from the small interface and the low interface.

Because often such characters are the strongest and more terrifying than the local practitioners in the heaven.

At this time, the Flame Demon couldn't help but clasped his fists and said: "Thank you for saving my life just now. This is the second time you have saved me."

Hearing what the Flame Demon God said, Ye Feng's eyes showed a trace of smile and said aloud

Said: "The reason why I told everything is because I feel that the senior Flame Demon God is not an ancient figure who likes to bully the small, but a person who is truly worthy of my friendship."

Hearing what Ye Feng said, the Flame Demon God's face suddenly became solemn. He couldn't help but straighten his clothes, and then he cupped his hands very solemnly and said, "In the future, we will treat each other as equal friends."

The Flame Demon God is such an ancient figure. Now that he is giving such a solemn equal gift to Ye Feng, he naturally does this because he has great respect for Ye Feng.

At this time, Ye Feng didn't hesitate at all. He immediately responded, cupped his hands, and said, "In the future, we can work together to find more opportunities and become stronger."

Hearing what Ye Feng said, the Flame Demon God immediately nodded.

Although Ye Feng's current cultivation is much worse than his, and is lower by dozens of realms, in the eyes of the Flame Demon God, Ye Feng may be just a very weak young boy.

But now the various methods shown by Ye Feng make the ancient figure like the Flame Demon God treat him as his peer, and think that Ye Feng is very powerful and worthy of his serious treatment.

It is estimated that all the people of the ancient cultivation civilization in this spaceship died because of the insects in this insect nest. Hearing what the Flame Demon God said, Ye Feng nodded, and his eyes were full of excitement at this time.

He is truly in control of the entire insect nest.

He then had a huge killer weapon.

At this moment, Ye Feng put this mysterious starry sky insect nest into his storage ring and could use it at any time.

At this moment, the Flame Demon looked at Ye Feng with admiration in his eyes and said, "This time you really got a killer weapon. Once all the insects are released, it is extremely scary. I was caught off guard just now and was crawled all over my body. I couldn't get rid of it. It was really scary."

Ye Feng also nodded in agreement and said, "These insects are really scary. Even a powerful and ancient figure like you, the Flame Demon, whose power is enough to burn mountains and boil seas, still can't hurt these insects at all. It's really shocking. If I hadn't learned a kind of insect control technique by nature, I'm afraid I would have panicked and couldn't solve the crisis just now."

At this time, Ye Feng naturally followed the words of the Flame Demon and said that he knew some insect control technique instead of using soul power, because soul power is also one of Ye Feng's biggest trump cards, so it's best not to say it easily.

The Flame Demon God nodded at this moment, and couldn't help but look at the interior space of the entire spaceship, and said aloud: "Let's continue exploring. The innermost area of this spaceship definitely contains huge wealth. I feel that we have not yet touched the core area of this spaceship."

Chapter 5314 Unboxing

At this time, both Ye Feng and the Flame Demon God were no longer afraid.

Because the biggest threat in this spaceship, these starry sky insect nests, had been completely conquered by Ye Feng.

So both of them were ready to continue exploring the core area of this spaceship.

Soon, they walked to the end of this inner space and saw a huge golden door made of an unknown metal, blocking their way.

Swish! ??

The Flame Demon God did not hesitate at all, and directly stretched out his hand. A very terrifying and hot flame suddenly gushed out from his palm, and immediately melted the golden door in front of him into drops of molten iron, which dripped onto the ground.

"What a terrifying flame!"

Seeing this scene, Ye Feng's eyes immediately showed a look of amazement.

After all, the Flame Demon God is still an extremely powerful ancient warrior, and he was almost the strongest person in this small world back then, so the strength of the Flame Demon God is still very terrifying, especially this kind of flame power, which is so terrible that it can almost burn any solid object under the sky.

At this time, Ye Feng and the Flame Demon God walked into the space behind the golden door, and immediately saw that there was a huge closed space behind this golden door.

In this huge closed space, there are boxes of metal storage boxes.

These metal storage boxes are shining with silver luster, and you can tell at a glance that they are places dedicated to storing wealth.

At this time, the Flame Demon God couldn't help but say: "This should be the warehouse in this spaceship. In the past, the starry sky practitioners in these spaceships fought one world after

another, and the plundered wealth, including their own strategic materials, were all stored here. Now we are rich."

After that, the Flame Demon God walked to the side and began to open the metal storage boxes one by one.

Ye Feng also walked to the other side at this moment, ready to open every storage box on the ground.

Click!

When Ye Feng opened the first metal storage box, he immediately saw a huge golden Ganoderma lucidum, which was sealed in this storage box, and it seemed to be full of powerful medicinal power.

This huge golden Ganoderma lucidum, at a glance, must have grown in a very powerful cultivation world, otherwise, it would be impossible to breed such a huge Ganoderma lucidum.

Ye Feng naturally did not hesitate at all, and directly stretched out his hand and touched this huge golden Ganoderma lucidum, and then directly released the swallowing field, and began to absorb and swallow the powerful medicinal power in this golden Ganoderma lucidum.

As Ye Feng absorbed, a huge amount of medicinal power was immediately injected into his Dantian, rapidly strengthening Ye Feng's skill.

Ye Feng's skill was immediately greatly improved at this moment.

Boom!

Ye Feng had just broken through the first level of the Earth Spirit Realm, and at this moment, he broke through and directly broke through to the second level of the Earth Spirit Realm!

"What a strong medicinal power!"

This made Ye Feng's eyes suddenly show deep excitement.

The huge Ganoderma lucidum sealed in this metal box is really high-level. He has broken through to such a high level of cultivation. Just one Ganoderma lucidum has allowed him to break through a whole level. Ye Feng is really surprised.

It seems that the cultivation civilization in this spaceship was indeed a very powerful starry sky cultivation civilization. It must have conquered one world after another to be able to plunder such high-level natural treasures.

At this time, Ye Feng continued to open the second box,

but seeing the things inside, Ye Feng was almost scared.

The second metal box contained a dead head.

This dead head was still quite fresh, but there was nothing special about it.

Ye Feng couldn't help but murmured, "Could it be that a cultivator in this spaceship had a special hobby and liked to collect every part of the corpse, so he collected this dead head."

Ye Feng murmured at this moment and wanted to continue to look at the third metal box.

But at this moment, Ye Feng felt something was wrong, because this was the place where the strategic materials of the entire ancient cultivation civilization were stored, and it was impossible to seal an ordinary head in a metal box so solemnly. .??.

Ye Feng observed carefully and suddenly found that the dead head sealed in the metal box had a third eye between the eyebrows.

However, this third eye had completely closed its eyes with the death of this head, leaving only a gap, so Ye Feng didn't see it at first glance.

At this moment, Ye Feng opened the third eye on the eyebrows of the dead head, and immediately saw an eyeball emitting red light, appearing in the head of this head.

When Ye Feng opened the eyelids of the third eye, the eyeball emitting red light directly flashed a red laser, which instantly bombarded in front of Ye Feng, and blasted Ye Feng directly backwards, and most of the skin and bones on his face were shattered.

Fortunately, Ye Feng had a strong vitality, and the immortal body of the god had a strong recovery ability, so Ye Feng's head was not directly smashed and he died immediately.

"What's going on?"

At this time, the Flame Demon who was exploring the metal box on the other side not far away sensed the energy fluctuations here

# Every time verification appears, please do not use the invisible mode!

, flew over immediately, and seeing that half of Ye Feng's head had been shattered, he couldn't help but said in shock: "Ye Feng, what's wrong with you? Is there anything scary here?"

Ye Feng immediately shook his head at this moment, and used the fountain of life to restore himself, restoring the entire broken half of his head to a completely normal state, and then couldn't help but said in surprise: "I just found a dead head, but it has grown a third eye. There is an eyeball in the third eye, which has a very terrifying power. It can burst out extremely terrifying red lasers and has a very terrifying destructive power."

At this time, Ye Feng walked over and directly dug out the red eyeball in the third eye of the dead head, and then directly put it into his storage ring.

This thing, if you can find a way to merge it into your eyebrows in the future, it will definitely be a huge killer.

The Flame Demon God saw that Ye Feng didn't seem to be in any great danger at this time, nodded, and continued to explore the metal box on his side.

And Ye Feng opened the third metal box at this moment.

The third metal box contained a fist-sized round bead emitting a faint golden light, which contained a very powerful dragon essence power.

Sensing this power, Ye Feng immediately showed a look of surprise.

This fist-sized golden round bead should be a dragon bead bred by an ancient dragon.

Ye Feng naturally did not hesitate at all, and directly released the devouring field, began to devour the dragon essence power in it, and strengthened his own power.

At this moment, Ye Feng looked at the piles of metal boxes around him, and his eyes were full of satisfaction.

The feeling of opening the boxes and harvesting treasures again and again is really very satisfying!

Chapter 5315 Supreme Inheritance Bone

The golden dragon ball contained in the third metal box is definitely very high-end.

It is very likely that the dragon ball was conceived in the body of a very powerful dragon, and was obtained after being hunted by the ancient practitioners of this spaceship in a certain world.

Because after Ye Feng swallowed it, he could immediately feel the very powerful and huge dragon power of the dragon clan, which was immediately injected into his dantian, and he was growing his power crazily and rapidly.

Ye Feng knew that after his current cultivation reached such a high level, every breakthrough, even if it was just a small level or a first-level breakthrough, would require a huge accumulation of energy to cause a quantitative change to cause a qualitative change, thus completely breakthrough.

But now that Ye Feng had absorbed the energy from this dragon ball, he could immediately feel that his cultivation bottleneck was loosening up quickly again.

The next moment there was a "boom"!

A very huge cultivation aura suddenly burst out from Ye Feng's body.

At this moment, Ye Feng's cultivation level actually broke through from the second level of the Earth Spirit Realm that he had just broken through to the third level of the Earth Spirit Realm!

I have to say that the energy contained in this golden dragon ball is really powerful.

At this moment, Ye Feng continued to open the fourth metal box without any hesitation.

When Ye Feng opened the fourth metal box, he immediately saw that the fourth box contained an ancient book.

This ancient book is entirely made of black steel and has only two short pages.

After Ye Feng opened it, he immediately saw that what was recorded in this metal book was an ancient inheritance method in a certain world.

This kind of inheritance is different from the inheritance in the ordinary sense. The inheritance recorded in this metal book seems to be a very mysterious breathing method that can interact with the entire world.

#Every time verification appears, please do not use incognito mode!

Resonance, thereby enhancing the speed of absorbing spiritual energy.

In other words, once you practice this mysterious breathing method, you can absorb the spiritual energy between heaven and earth several times, or even ten times faster than ordinary practitioners.

However, Ye Feng was only moderately interested in it.

Because the reason why Ye Feng's cultivation level breakthrough speed is so fast is because he did not rely on himself to absorb the spiritual energy between heaven and earth and cultivate in a regular manner.

Instead, he relies on his domineering and powerful swallowing ability, the ability to swallow external enemies, or the energy in the resources of heaven and earth to break through.

Therefore, even if you practice this breathing method and increase the speed of absorbing the spiritual energy of heaven and earth by more than ten times, it is of little significance.

Because for Ye Feng, it is still a very small and pitiful amount of spiritual energy, and it does not have much obvious help in improving Ye Feng's skill.

However, Ye Feng still understood it, and it was better than nothing, and then he threw the metal book into his storage ring.

If you can sell it outside in the future, you might be able to get a good price.

After all, this is absolutely a priceless treasure for ordinary practitioners.

After all, no one can have such terrifying and domineering devouring ability like Ye Feng.

At this time, Ye Feng continued to open the fifth metal box.

After opening the fifth metal box, Ye Feng immediately saw that sealed inside was a fruit emitting red flames.

This crimson flame fruit feels like a fruit condensed with the purest fire power in the world. It seems to be able to burn Ye Feng's entire body to ashes in an instant.

Uh-huh!

Ye Feng was about to investigate, but the Flame Demon God not far away suddenly rushed over, stared at this fruit, and couldn't help but said excitedly: "This turns out to be the legendary Sky Fire Fruit. Only the flames above the nine heavens can produce this kind of fruit, which is of great benefit to a fire-attribute practitioner like me. It can greatly enhance the origin of my flames and improve the quality of my flames."

When Ye Feng heard what the Flame Demon God said, he immediately nodded and said with a smile: "Then Senior Flame Demon God, you can use this Sky Fire Fruit. Anyway, I use this so-called Sky Fire Fruit. It can only absorb the energy in it and strengthen your own skills. It is indeed a waste of its original effect, but for a practitioner of the flame attribute like you, Senior Flame Demon God, it does have a great enhancement effect. Essentially improve the quality of your flames, Senior Flame Demon God."

The Fire Demon God nodded immediately and couldn't help but said: "Thank you very much. If I find something more suitable for you later, I will give it to you."

Ye Feng nodded, smiled and said aloud: "We are cooperating with each other this time. In the distribution of wealth, sometimes it is not necessary to be so clear-cut. Whoever is more useful to him can use it."

When the Flame Demon God heard what Ye Feng said, he couldn't help but patted Ye Feng's shoulder and said loudly: "You have extremely talented cultivation, powerful and magical abilities, and you are not arrogant or impetuous, like There are really too few young people like you nowadays. Being able to make friends with young people like you, Ye Feng, is considered a blessing for an older generation like me."

At this moment, the Flame Demon God sighed sincerely.

Because if it were a person with incredible abilities and means like Ye Feng, especially a young person, he would have been high-minded and low-handed, and extremely arrogant. He would not put anyone in his eyes at all. It seemed that the whole world regarded him as

#Every time verification appears, please do not use incognito mode!

Same as respect.

However, Ye Feng is still neither impatient nor impatient in his dealings with others, and he is enterprising and very kind when communicating with others. This makes the Flame Demon God naturally admire young people like Ye Feng very much.

At this time, Ye Feng smiled slightly and said, "Let's continue exploring."

The Fire Demon God nodded, took away the Sky Fire Fruit, and then went to his side to investigate.

At this time, Ye Feng continued to unpack.

When Ye Feng opened the sixth box, he immediately saw that the sixth box contained a very strange thing.

It's not a natural treasure or an ancient inheritance, but a bone that looks like it's made of jade.

Ye Feng picked up the bone sealed in the sixth metal box, sensed it a little, and his eyes immediately lit up.

This piece of bone actually contains a very powerful ancient inheritance.

Ye Feng immediately understood that this was a supreme inheritance bone bred from the body of a powerful creature.

Only the body of a very powerful creature can give birth to this kind of supreme inheritance bone derived from bloodline.

It records the strongest inheritance of the race where this creature belongs.

Ye Feng input some of his soul power at this time, and immediately discovered that small golden characters appeared on this piece of bone, which were imprinted in Ye Feng's mind.

This turned out to be a set of extremely terrifying and ancient inheritance of ancient mythical beasts, called the "Nine Heavens Thunder Dragon Technique".

Ye Feng immediately determined that this piece of supreme inheritance bone must be the bone obtained by the cultivating civilization in this spaceship from an ancient dragon with thunder attribute hunted in a prehistoric world.

Chapter 5316: A Herbal King

At this moment, Ye Feng naturally did not hesitate at all, and directly began to understand the secret of inheritance in this supreme inheritance bone, imprinting this set of Nine Heavens Thunder Dragon Technique in his mind.

This set of Nine Heavens Thunder Dragon Technique is the inheritance of a very powerful ancient evil beast. Human cultivators cannot practice it, but Ye Feng's power can accommodate the power of thousands of attributes in the world, so Ye Feng can practice it. The attribute strength of any race.

So at this time, Ye Feng could naturally comprehend this set of inheritance in an instant.

Buzz!

At this time, Ye Feng casually tried to use it, and a giant dragon composed entirely of thunder suddenly appeared in the void behind him, with terrifying destructive power.

You know, the thunder attribute is the most terrifying attribute power in the world, and Ye Feng has also sensed it. If he continues to comprehend this set of Nine Heavens Thunder Dragon Technique, in the end he can even directly activate the power of thunder above the nine heavens, and then Guide the entire Nine Heavens Thunder Power to your body, thus condensing a real Nine Heavens Thunder Dragon, with the power of the terrifying Thunder Dragon.

At this moment, Ye Feng was naturally very happy. It seemed that he had done the right thing by exploring this spaceship this time. There were too many good things stored in it.

Next, Ye Feng continued to open the box and got a lot of good things, including many heavenly materials and earthly treasures. After Ye Feng devoured them, his cultivation level improved greatly, and he successively broke through to the sixth level of the Earth Spirit Realm. sky.

This made Ye Feng very happy. He didn't expect that he was about to break through to the middle level in the great realm of the Earth Spirit Realm, and would soon break through to the tenth heavenly perfection state.

If he practiced normally, Ye Feng didn't know that it would take until the Year of the Monkey to raise his cultivation level to the sixth level of the Earth Spirit Realm.

But now Ye Feng just spent a few hours to open so many boxes, obtained a lot of resources, and accumulated his cultivation to the sixth level of the Earth Spirit Realm.

At this time, Ye Feng had already finished opening the boxes on his side.

The Flame Demon God not far away suddenly seemed to have discovered something, and couldn't help but said: "Ye Feng, come over and take a look. This thing may be of great use to you."

When Ye Feng heard what the Flame Demon God said, his eyes immediately moved and he quickly flew in that direction.

When Ye Feng came to the Flame Demon God, he immediately saw a rather surprising scene.

I saw the Flame Demon God digging out a huge ginseng in a wall.

This ginseng seems to be about to become a spirit, but it has not yet completely become a spirit. It was captured here by the practitioners of the ancient civilization in this spaceship and sealed in it.

Ye Feng could feel that the medicinal power contained in this huge ginseng was extremely powerful.

The Flame Demon God knew that Ye Feng needed this kind of external power to accumulate his own skills, so the Flame Demon God naturally wanted Ye Feng to absorb the huge medicinal power stored in this huge ginseng.

After all, Ye Feng gave the Sky Fire Fruit to the Fire Demon God unconditionally just now, so when the Fire Demon God discovered this extremely rare treasure of heaven and earth, he naturally immediately thought of letting Ye Feng absorb and devour it, as a way of giving back to Ye Feng just now of gift.

The Flame Demon God can't bear it at this time

#Every time verification appears, please do not use incognito mode!

Zhu said aloud: "This ginseng plant is already the size of a human race. I am afraid it has been growing for nearly tens of thousands of years. It can even be regarded as a medicine king. It is the king of elixirs, so the medicinal power stored in it is It is absolutely majestic. After you absorb the power of the medicine, you will definitely be able to greatly improve your skills. In the future, when you practice in such a vast interface as the heaven, your current cultivation accumulation will indeed be a little worse. This medicine King ginseng can help you improve your underlying strength and skill reserves as much as possible."

Hearing what the Flame Demon God said, Ye Feng was naturally very grateful. He quickly raised his hands and said, "Thank you, Senior Flame Demon God, for being so considerate of this junior."

Hearing what Ye Feng said, the Fire Demon God immediately laughed, patted Ye Feng's shoulder, and said loudly: "You and I can treat each other as equals, and just now you gave up such a precious Sky Fire Fruit to Now I will give you this ginseng that has become the king of medicine. This can be regarded as mutual cooperation and mutual benefit. "

At this time, Ye Feng nodded, and without any pretense, he directly released the Devouring Domain and began to devour the huge ginseng that had grown to the level of Medicine King.

"Rumble..."

The moment Ye Feng swallowed it, a huge amount of medicinal power rushed directly into Ye Feng's Dantian like a vast ocean, wildly and rapidly increasing the power in Ye Feng's Dantian.

At this moment, Ye Feng's eyes immediately revealed a look of deep surprise.

This ginseng is indeed the king of medicines. It is truly terrifying, and the medicinal power it contains is simply boundless.

Ye Feng could feel it immediately, and his cultivation aura immediately began to rise.

boom!

Earth Spirit Realm Seventh Heaven!

boom!

The eighth level of the earth spirit realm!

boom!

Earth Spirit Realm Ninth Heaven!

boom!

The Great Perfection of the Tenth Level of the Earth Spiritual Realm! !

At this time, after Ye Feng absorbed this huge ginseng of the King of Medicine level, his cultivation level actually broke through to the tenth level of the Earth Spirit Realm. He was only one step away from entering the new and powerful realm of the Heavenly Spirit Realm above the Earth Spirit Realm.

This naturally made Ye Feng's eyes reveal a deep surprise.

I didn't expect that this King of Medicine would have such a terrifying medicinal power that it could accumulate his cultivation skills to such a high level.

At this time, the Flame Demon God standing aside saw the whole process, and his eyes also showed a deep surprise. He couldn't help but said: "Ye Feng, your devouring ability is really magical and domineering. You can actually directly plunder the energy of the outside world and turn it into your own power. It's incredible. I have lived for so many years, and I have never seen such a magical and terrifying devouring ability like you."

When Ye Feng heard the Flame Demon God say this at this moment, he just smiled slightly and said aloud: "There is no way, it's innate."

Hearing Ye Feng's seemingly teasing words, the Flame Demon God immediately couldn't help but smile bitterly and shook his head.

For some reason, facing Ye Feng, a junior who is so much lower than himself, the Flame Demon God always feels unconfident.

After spending too much time with Ye Feng, the Flame Demon God's mentality of being the only one who is the strongest has changed a lot. At this moment, Ye Feng naturally did not hesitate at all, and directly began to comprehend the inheritance mystery in this piece of supreme inheritance bone, and imprinted this set of Nine Heavens Thunder Dragon Art in his mind.

This set of Nine Heavens Thunder Dragon Art is a very powerful inheritance of ancient evil beasts. Human cultivators cannot practice it, but Ye Feng's power can accommodate the power of thousands of attributes under the sky, so Ye Feng can practice the power of the attributes of any race.

So at this time, Ye Feng can naturally comprehend this set of inheritance instantly.

Buzz!

At this time, Ye Feng tried to perform it casually, and a giant dragon composed entirely of thunder suddenly appeared in the void behind him, with terrifying destructive power. .??.

You know, the thunder attribute is the most terrifying attribute power in the world, and Ye Feng also sensed that if he continued to comprehend this set of Nine Heavens Thunder Dragon Art, in the end he could even directly induce the thunder power above the Nine Heavens, and then guide the entire thunder power above the Nine Heavens to himself, thus condensing a real Nine Heavens Thunder Dragon, with the power of a terrifying thunder dragon.

At this moment, Ye Feng was naturally very happy. It seems that this time he explored this spaceship, but it was really right to explore it. There are too many good things stored in it.

Next, Ye Feng continued to unpack and got a lot of good things, including a lot of natural treasures. After Ye Feng swallowed them, his cultivation had made great progress again, and he broke through to the sixth level of the Earth Spirit Realm.

This made Ye Feng very happy. He didn't expect that he was about to break through to the middle level in the Earth Spirit Realm, and would soon break through to the tenth level of the Great Perfection.

If he practiced normally, Ye Feng didn't know when he would be able to raise his cultivation to the sixth level of the Earth Spirit Realm.

But now Ye Feng only spent a few hours, opened so many boxes, obtained a lot of resources, and accumulated his cultivation to the sixth level of the Earth Spirit Realm.

At this time, Ye Feng had already opened all the boxes on his side.

The Flame Demon God not far away suddenly seemed to have discovered something, and couldn't help but said: "Ye Feng, come and see, this thing may be of great use to you."

When Ye Feng heard the Flame Demon God say this, his eyes moved immediately, and he quickly flew in that direction.

When Ye Feng came in front of the Flame Demon God, he immediately saw a very surprising scene.

I saw that the Flame Demon God dug out a huge ginseng from a wall.

This ginseng seemed to be about to become a spirit, but it had not yet fully become a spirit, so it was captured here by the ancient civilization practitioners in this spaceship and sealed in it.

Ye Feng could feel that the medicinal power contained in this huge ginseng was simply magnificent.

The Flame Demon God knew that Ye Feng needed this kind of external power to accumulate his own skills, so the Flame Demon God naturally wanted Ye Feng to absorb the huge medicinal power stored in this huge ginseng.

After all, Ye Feng had just given the Skyfire Fruit to the Flame Demon God unconditionally, so when the Flame Demon God discovered this extremely rare treasure, he naturally thought of letting Ye Feng absorb and devour it first, as a reward for Ye Feng's gift just now.

The Flame Demon God couldn't help it at this time

Zhu said aloud: "This ginseng is already the size of a human. I'm afraid it has been growing for nearly tens of thousands of years. It can even be regarded as a king of medicine, the king of spiritual medicines, so the medicinal power stored in it is absolutely magnificent. After you absorb the medicinal power, you will definitely be able to greatly improve your own skills. In the future, when you practice in such a vast interface as the heaven, your current cultivation accumulation is indeed a bit lacking. This king of medicine ginseng can help you improve your inherent strength and skill reserves as much as possible."

Hearing what the Flame Demon said, Ye Feng was naturally very grateful. He immediately arched his hands and said, "Thank you, Senior Flame Demon, for considering me so much."

Hearing what Ye Feng said, the Flame Demon immediately laughed, patted Ye Feng on the shoulder, and said, "You and I can just call each other equals. And just now you gave me such a precious Skyfire Fruit. Now I give you this ginseng that has become the King of Medicine. This is considered mutual cooperation and mutual benefit."

At this time, Ye Feng nodded, without any pretense, and directly released the Devouring Field, and began to devour this huge ginseng that had grown to the level of the King of Medicine.

"Boom..."

When Ye Feng devoured, a huge amount of medicinal power, like a vast ocean, rushed directly into Ye Feng's Dantian, madly and quickly strengthening the power in Ye Feng's Dantian.

At this time, Ye Feng immediately showed a deep surprise in his eyes

This ginseng is indeed a medicine king. It is really terrifying and contains boundless medicinal power.

Ye Feng could feel it immediately, and his cultivation aura began to rise step by step.

Boom!

Earth Spirit Realm Seventh Heaven!

Boom!

Earth Spirit Realm Eighth Heaven!

Boom!

Earth Spirit Realm Ninth Heaven!

Boom!

Earth Spirit Realm Tenth Heaven Great Perfection!!

At this time, after Ye Feng absorbed this huge ginseng of the medicine king level, his cultivation broke through to the tenth heaven of the earth spirit realm. He was only one step away from entering the new and powerful realm of the sky spirit realm above the earth spirit realm.

This naturally made Ye Feng's eyes reveal a deep surprise.

I didn't expect that this medicine king had such terrifying medicinal power that it could accumulate his cultivation skills to such a high level.

At this time, the Flame Demon God standing aside saw the whole process, and his eyes showed deep amazement. He couldn't help but say: "Ye Feng, your devouring ability is really magical and domineering. You can actually directly plunder the energy from the outside world and turn it into your own power. When Ye Feng heard what the Flame Demon God said at this moment, he just smiled slightly and said: "No way, it's innate."

Hearing Ye Feng's seemingly teasing words, the Flame Demon God immediately couldn't help but smile bitterly and shook his head.

For some reason, facing Ye Feng, a junior who is so much lower than himself, the Flame Demon God always feels unconfident.

After spending too much time with Ye Feng, the Flame Demon God's mentality of the strongest person who was the only one in the past has changed a lot.

Chapter 5317 Dangerous Snowfield

At this time, Ye Feng did not respond to this, but changed the topic and said: "Since this spaceship has almost explored, we can leave here directly."

The Fire Demon God nodded, and he and Ye Feng left the inside of the spaceship and came outside.

Under Ye Feng's Eye of Heaven and Earth, Ye Feng easily took the Flame Demon away from the ancient formation that trapped him.

Seeing Ye Feng pass through this formation so easily, the Fire Demon God's eyes were filled with sighs.

You know, the Flame Demon God was trapped by this formation for hundreds of thousands of years. It was so long that the Flame Demon God was almost going crazy from being trapped.

Unexpectedly, Ye Feng passed through this formation so easily.

This kind of ability makes even the Fire Demon God feel inferior.

At this moment, Ye Feng seemed to have thought of something and couldn't help but said: "Senior Flame Demon God, when I leave this small world of Demon God Space, I will be randomly teleported out. When the time is up, I will be randomly teleported. But Senior Flame Demon God, you are a native creature of this small world of Demon God Space. Even if you are out of trouble now, I'm afraid you won't be able to do it like me. The spell of our Great Demon God Sect has been cast on your body. When the time comes, you will be automatically teleported out. What should you do?"

Hearing what Ye Feng said, the Flame Demon God immediately smiled and said: "Now that I have escaped from the ancient formation of that spaceship, I am now completely free. With my powerful cultivation, It is very simple to leave this small world and enter the heaven."

Hearing what the Flame Demon God said, Ye Feng immediately showed a look of surprise in his eyes, then nodded and said: "That's right, an ancient and powerful self-improvement person like you, Senior Flame Demon God, has broken away from the formation. If you want to enter the heaven from this small world, there are naturally many ways, but I consider the problem of seniors based on my weak status. "

#Every time verification appears, please do not use incognito mode!

Ye Feng was naturally a little worried at this time, because with the powerful cultivation of an ancient figure like the Flame Demon God, it was very simple to leave this small world and enter the heaven.

At this moment, Ye Feng asked aloud: "Senior Flame Demon God, are you going directly to the heaven now, or are you staying in this small world for a while?"

The Flame Demon God looked around and couldn't help but say: "Although I haven't come out for hundreds of thousands of years and am very unfamiliar with this small local world where I live, I still want to go to my place." I will wander around my hometown, and when the time comes, I will go to the heaven, and then go to the Great Demon God Sect to find you."

Ye Feng nodded and said, "Okay, then I wish you a happy journey, senior."

Ye Feng did not expect that an ancient and powerful person like the Flame Demon God would follow him and protect him. That was really unrealistic.

Being able to gain the attention of the Fire Demon God and having this network of connections is already a huge gain for Ye Feng.

At this moment, the Flame Demon God nodded slightly, smiled and said, "I will never forget your kindness in rescuing me."

After saying that, the Flame Demon jumped up and left the place directly.

At this moment, Ye Feng was counting the time. It was estimated that he would be teleported out of this small world of Demon God Space in more than a day.

It seems that I should seize the time and find as many opportunities as possible in this small world of Demon God Space to strengthen my cultivation power. Only in this way can I do well in the heaven in the future.

At this moment, Ye Feng didn't hesitate at all. He directly exuded his soul power and covered the surroundings.

Go and continue to explore this very special little world of Demonic Space.

Soon, Ye Feng passed through a large virgin forest, then passed through a desert area, and came to an ice and snow field.

This piece of ice and snowfield, with heavy snowflakes floating in the sky, gives people an extremely cold feeling.

Ye Feng had just arrived at this ice and snow field and immediately saw many frozen corpses on the ground.

These corpses are not the geniuses who entered the Demon King's Palace in the Demon God's Space with Ye Feng this time. They should be the geniuses who entered this Demon God's Space before. They came to this ice and snow field to explore opportunities and creation. I don't know what kind of crisis they encountered, and ended up freezing to death here.

Ye Feng took a moment to sense that the blood and energy of these talented masters of the Great Demon God Sect who were frozen to death have completely drained away. It seems that many years have passed and there is no great value anymore.

However, Ye Feng cut open the ice that froze the corpses of these talented masters of the Great Demon God Sect, and found several storage rings from the fingers of these genius masters. It was a good harvest, and they were missed.

At this time, Ye Feng explored the storage rings in the hands of these young geniuses, and immediately discovered a lot of good things.

This actually made Ye Feng a little surprised.

But it's normal to think about it.

Among the Great Demon God Sect, those who can enter this small world of Demon God Space to explore the fortunes of chance must be extremely powerful super geniuses. Otherwise, they are not qualified to enter the small world of Demon God Space to explore.

Therefore, these young geniuses must have been among the top geniuses in the Great Demon God Sect back then. It was very normal that they had a lot of wealth in the storage rings on their fingers.

Ye Feng put some powerful inheritances and weapons in these storage rings

#Every time verification appears, please do not use incognito mode!

, are all directly understood and refined.

However, what makes Ye Feng quite disappointed is that these storage rings do not store the heaven and earth cultivation resources that can increase Ye Feng's skills, or some energy crystals.

However, Ye Feng thought for a while, and perhaps before dying, these young geniuses had used up all the training resources and energy crystals that could restore their physical strength in order to extend their lives, and they finally died here.

This made Ye Feng feel vigilant in his heart. It seemed that this piece of ice and snow was far from being as peaceful and peaceful as it seemed, and extremely terrifying dangers might appear at any time.

Because the top geniuses of the Great Demon God Sect who can enter this small world of Demon God Space will definitely not be weaker than themselves in cultivation strength, and may even be much stronger than themselves.

But they still died in this ice and snow field.

It seems that this ice and snow field is an extremely dangerous area in this small world of demon space.

However, a more dangerous place often means that there are more and more advanced cultivation resources.

Ye Feng naturally would not flinch, and walked quickly towards the inner area of the ice and snow field, and emitted soul power to surround himself at any time, so that he could detect danger or discover hidden resources in the world at any time.

The main reason why Ye Feng is so confident at this time is because Ye Feng possesses soul power that no one else has.

Ye Feng's soul power is like a radar, covering his surroundings. He can detect dangers or world resources from all directions at any time.

This is why Ye Feng dared to enter this dangerous ice and snowfield.

Because Ye Feng can detect any sneak attack, sudden danger, or unexpected crisis instantly or in advance, which is a huge help for exploring this dangerous ice and snowfield.

Chapter 5318: Ice and Snow Trees

Swish!

Ye Feng did not hesitate at this time, and flew directly and quickly towards the deep area of the glacier snowfield.

Along the way, Ye Feng's soul power was radiating around him, covering the area around him like a radar, allowing Ye Feng to detect danger in advance. This was the biggest confidence for Ye Feng to explore this glacier snowfield.

Because he was a soul master, he would not be killed by some terrible power or danger like the super geniuses he met at the entrance of the glacier snowfield before, and then be frozen in this glacier snowfield.

And just after Ye Feng flew for a while, suddenly a piece of ice under his feet exploded and a crack appeared.

"Swoosh!"

A tentacle that looked like it was made of steel, with dense scales on the surface, suddenly rushed out from the ground of this glacier snowfield, and directly stabbed Ye Feng, trying to pierce Ye Feng's whole body.

At this moment, Ye Feng's huge soul power covering the surroundings had already sensed the movement underground.

Boom! ??

Ye Feng naturally did not hesitate at all, and directly burst out the immortal body of the gods with all his strength. The golden fist slammed out fiercely, and slammed into the tentacle that seemed to be cast out of steel.

"Boom!!"

At this moment, the whole field suddenly erupted with a huge roar.

After Ye Feng's golden fist collided with the steel tentacle, Ye Feng immediately felt a terrifying force, which was immediately transmitted to his golden fist, causing Ye Feng to fly backwards.

But the steel tentacle also quickly retracted under the ground.

After feeling all this, Ye Feng's eyes suddenly showed a trace of surprise.

You know, Ye Feng's current cultivation has been greatly improved, and he has entered a new and powerful realm.

And Ye Feng's immortal body of the gods has absorbed a lot of divine substances before, which has also been strengthened a lot.

Now Ye Feng's real combat power has become much stronger than before.

But after colliding with this steel tentacle, Ye Feng couldn't help but retreat.

You know, Ye Feng's golden fist is comparable to ordinary magic weapons, but it still can't compete with the steel tentacle.

Ye Feng immediately understood why he saw so many top geniuses' bodies at the entrance of this glacier snowfield before.

It seems that the hidden dangers in this glacier snowfield are much more terrifying than he imagined.

At this moment, Ye Feng saw that the ground crack not far away had become calm again.

Ye Feng didn't even know what part of the creature the steel tentacle that suddenly appeared just now was.

I'm afraid that the creature hiding in the ground crack just now knew that Ye Feng was not easy to mess with, so after the sneak attack failed, it left here directly and didn't harass Ye Feng again.

This made Ye Feng's eyes reveal a look of surprise.

It seems that the monster hidden in this glacier snowfield is not only very terrifying, but also very insidious, and likes to sneak attack. In addition, it is also very smart, knowing that if you miss a sneak attack, you will escape thousands of miles away.

This made Ye Feng more cautious about this glacier and snowfield.

At this time, Ye Feng couldn't help but say in his mind: "Emperor Chu, I came to a place that may be full of great dangers, but there may be good opportunities here, so I don't want to give up here and leave directly, but relying on my own soul power alone, I may not be able to detect danger in time. Emperor Chu, if you have time now, help me pay more attention to the dangers that may appear around at any time."

You know, Emperor Chu's perception is tens of thousands of times more terrifying than Ye Feng, so if Emperor Chu can sense the changes in the surrounding dangers for Ye Feng at any time, it will definitely be a huge help for Ye Feng.

Although Ye Feng knew that Emperor Chu also needed to rest and recover, and was usually in a sleeping state, but now this glacier and snowfield gave Ye Feng a feeling that it was too threatening, so Ye Feng could only let Emperor Chu work for him temporarily.

Hearing Ye Feng's voice, the Chu Emperor in his mind nodded immediately and said, "Don't worry, I will enter the awakening state next and detect the dangers that may appear around you at any time. If there are any subtle changes, I will notify you in advance."

Ye Feng nodded, and then couldn't help but sighed and said, "When my soul power becomes as strong as you, Chu Emperor, it will be great."

When Chu Emperor heard Ye Feng say this, he said, "By that time, you won't need me."

When Ye Feng heard Chu Emperor's words, he couldn't help but laugh and said, "What do you mean I don't need you? We will always be good brothers."

At this moment, after Ye Feng finished speaking, he immediately continued to fly towards the inner area of this glacier snowfield.

With Chu Emperor's induction, Ye Feng became a little more relaxed. If he encountered any danger along the way, he could avoid it in advance at any time, and he didn't need to fight some terrible monsters head-on.

Soon, without any danger, Ye Feng came to the deepest area of this glacier snowfield.

He immediately saw that on the ice surface in front of him, there were crystal trees that looked like they were cast from transparent crystals.

However, these were not crystal trees, but ice and snow trees that were bred in the extreme cold.

These ice and snow trees are spiritual objects between heaven and earth. Although they are not as good as some very high-level natural treasures or elixirs, these ice and snow trees are bred by the extreme cold after all, and they contain very rich ice power.

Swish!

Seeing this, Ye Feng's eyes naturally lit up, and he immediately flew over, wanting to directly absorb and devour the ice power contained in these ice trees, which would definitely have great benefits for the improvement and increase of his own skills.

At this time, Ye Feng could quickly feel that after absorbing the cold air in these ice trees, a layer of fine ice crystals appeared all over his body.

However, the ice power in these ice and snow trees did increase Ye Feng's skills a lot.

However, what made Ye Feng quite disappointed was that the power added by these ice and snow trees was not enough to allow him to directly break through the bottleneck of the entire realm of the tenth level of the Earth Spirit Realm.

But at this time, the Chu Emperor in his mind suddenly spoke: "Ye Feng, don't rush to leave. This area can breed so many ice and snow trees, which means that there must be special ice-attributed treasures underneath. Dig up the ground and dig underground to see if you can dig up anything good." Swish!

Ye Feng did not hesitate at this time and flew directly and quickly towards the deep area of the glacier and snowfield.

Along the way, Ye Feng's soul power was radiated around him, covering the area around him like a radar, allowing Ye Feng to detect danger in advance. This was the biggest confidence for Ye Feng to explore this glacier and snowfield.

Because he was a soul master, he would not be like the super geniuses he met at the entrance of the glacier and snowfield before, who were killed by some terrible power or danger and then frozen in this glacier and snowfield.

Just after Ye Feng had been flying for a while, a piece of ice under his feet suddenly exploded and a crack appeared.

"Swoosh!"

A tentacle that looked like it was made of steel, with dense scales on its surface, suddenly rushed out from the ground of the glacier and snowfield, and directly stabbed Ye Feng, trying to pierce Ye Feng's entire body.

At this moment, Ye Feng's huge soul power covering the surroundings had already sensed the movement underground.

Boom!

Ye Feng naturally did not hesitate at all, and directly burst out the immortal body of the god with all his strength, and his golden fist slammed out fiercely, colliding with the tentacle that looked like it was made of steel.

"Boom!"

At this moment, the whole field suddenly erupted with a huge roar.

After Ye Feng's golden fist collided with the steel tentacle, Ye Feng immediately felt a terrifying force, which was immediately transmitted to his golden fist, causing Ye Feng to fly backwards.

However, the steel tentacle also quickly retracted under the ground.

After feeling all this, Ye Feng's eyes suddenly showed a trace of surprise.

You know, Ye Feng's current cultivation has been greatly improved, and he has entered a new and powerful realm.

And Ye Feng's immortal body of the gods has absorbed a lot of divine substances before, which has also been strengthened a lot.

Now Ye Feng's real combat power has become much stronger than before.

But after colliding with this steel tentacle, Ye Feng couldn't help but retreat.

Dig up the ground and dig underground to see if you can dig up anything good."

Chapter 5319: One-horned monster

Hearing what the Emperor Chu in his mind said, Ye Feng nodded immediately, and then began to dig the land under the snow-covered trees.

When Ye Feng dug the entire ground, he saw that the roots of each snow-covered tree were connected to a very strange-looking token.

This token did not look big, only the size of a human palm, and the whole body seemed to be made of crystal ice, emitting an extreme coldness, giving people a very terrifying and huge breath feeling.

Ye Feng sensed the breath emanating from this token, and immediately couldn't help but move his eyes.

Because the breath power level emitted from this ice token is very similar to that of the Flame Demon God that Ye Feng had encountered before.

It's just that one is the breath of fire attributes, and the other is the breath of ice attributes.

Ye Feng immediately guessed that this token could not be something left by another demon god among the twelve demon gods in this demon god space world back then?

Ye Feng felt more and more that his guess must be correct.

This piece of ice token must be a treasure left by one of the twelve demon gods back then, otherwise, it would be impossible to emit a huge aura similar to that of the fire demon god.

At this time, Ye Feng was naturally very happy, and he quickly stretched out his hand, wanting to grab this piece of ice token in his hand and carefully examine it.

However, just when Ye Feng just touched this piece of ice token, a terrifying cold air suddenly burst out from this piece of ice token, directly covering Ye Feng's entire palm.

At this moment, Ye Feng immediately felt this cold air, wanting to invade his entire body, wanting to control himself.

Ye Feng immediately understood that this ice token still contained the power of the demon god with ice attributes back then.

"Boom!"

At this time, Ye Feng immediately burst out the powerful blood energy of his immortal body.

At this moment, Ye Feng's blood energy was mobilized, all poured into his palm, and quickly fought against the cold air in this piece of ice token.

If the Ice Demon God from the twelve demon gods had descended, Ye Feng would probably not be able to resist him.

But it was just the cold air in an ice token, and Ye Feng had no problem, and he directly offset the terrifying cold air instantly.

Then Ye Feng successfully mastered this ice token.

At this moment, Ye Feng's consciousness entered this ice token, and he immediately saw that there was a map stored in this ice token.

This map seemed to lead to a mysterious place.

This mysterious place seemed to exist in a deep area of this glacier and snowfield.

Ye Feng saw all this from the ice token, and his eyes suddenly showed surprise, and he couldn't help but murmured, "The place indicated by this ice token, could it be the cave of the Ice Demon God from the twelve demon gods back then?"

Ye Feng had a guess in his heart, and naturally there was no hesitation, and he directly followed the guidance of the map in the ice token and flew quickly towards the final place.

Anyway, I accidentally got the token left by the Ice Demon God, one of the Twelve Ancient Demon Gods, so I naturally have to go and take a look.

After all, Ye Feng has been searching for a long time in this piece of ice and snow, and he has not found any particularly precious treasures or cultivation resources.

And I have been in this small world of the Demon God space for almost two or three days, and I may be automatically teleported at any time, so in this last time, Ye Feng naturally wants to do a big deal.

That is to find the place where the Ice Demon God lived in the past through the guidance of this ice token.

Whether there is danger or not, Ye Feng has to take a look.

At this time, according to the guidance of the map in the ice token, Ye Feng soon came to the deepest area of this piece of ice and snow.

There are towering glaciers and mountains everywhere on the ground,

which look very majestic and magnificent.

At this time, Ye Feng did not hesitate at all. He immediately carefully identified several glaciers according to the guidance of the map in the token, and selected one of them.

According to the instructions in the map, the final residence of the Ice Demon God is in this glacier.

Ye Feng did not hesitate at all, and punched out fiercely, trying to smash this glacier.

"Stop!"

But at this moment, a loud shout suddenly sounded.

Swish!

The next moment, a monster covered with black scales suddenly flew out from behind this glacier.

This monster covered with black scales had three huge horns on its head, and its body was very majestic, as big as a hill.

The moment this unicorn monster appeared, it immediately flew in front of Ye Feng, stopped Ye Feng from attacking, and said: "This is the sleeping place of my master, the Ice Demon God, and no outsiders are allowed to disturb it. If you are sensible, leave here quickly, otherwise, if my master is awakened by you in his sleep, then you will die without a burial place!"

Hearing what this one-horned monster with a single horn on its head said, Ye Feng's eyes suddenly revealed a chuckle, and he said loudly: "When I just entered this glacier and snowfield, I jumped from under the ground. You should be the one who attacked me."

Ye Feng recognized it at this time. The steel-like tentacle that attacked him before was not a tentacle at all, but the horn on the top of the monster's head. It had a very terrifying impact and destructive power, like the sky. Like the sharpest spear underneath.

Hearing what Ye Feng said at this moment, the one-horned monster's face suddenly became quite ugly, and he couldn't help but said: "You, a human boy, have a good memory, but I still have to say, you are the most important person now." You should hurry up and get out of here, otherwise, when my master, the Ice Demon God, wakes up, you will not be able to withstand the anger of such a big shot, and you will be crushed to pieces in an instant. "

When the one-horned monster said this, Ye Feng suddenly laughed and said: "Don't think that I don't know that you are lying to me. There is indeed an Ice Demon God sealed in this glacier, but he is not you at all. Master, you are just an ownerless monster bred in this ice and snow field. The reason why you threatened me to leave with the Ice Demon God is because you know that you can't beat me, and you want to scare me away, and then Is this right for me to devour the wealth left here by the Ice Demon alone?"

The reason why Ye Feng said such words at this time was because Ye Feng sensed the lifeless fluctuations and breath in this glacier.

Even for the sake of safety, Ye Feng just asked Emperor Chu to confirm that there was indeed no life in this glacier.

In fact, this means that there is no ice demon sleeping in this glacier at all.

The place pointed to by the Ice Token is not the final habitat of the Ice Demon God, but the cave where the Ice Demon God left it.

The Ice Demon himself is not here.

In other words, the Ice Demon God has fallen.

At this moment, after hearing what Ye Feng said, the one-horned monster couldn't hold it any longer and shouted angrily: "You hateful boy! I didn't succeed in attacking you before. What a shame." "This is my biggest mistake. The wealth left by the Ice Demon God belongs to me alone. No one can take it away. I will kill you, you damn boy!"

Boom!

After saying that, the one-horned monster immediately burst out with a terrifying air of ice, surging crazily towards Ye Feng, possessing the terrifying power of ice.

When Ye Feng saw this scene, he immediately couldn't help laughing and said: "Sure enough, it is a monster that has obtained the wealth left by the Ice Demon God. It actually has such a powerful means of controlling the ice attribute power. Look at it. It turns out that you have already entered the cave left by the Ice Demon God, and you have been blessed with incredible opportunities. Otherwise, you would not be so powerful. I hope you have not used up all the wealth in the cave. Otherwise, wouldn't I be in vain? Come for a visit."

Chapter 5320 Crystal Palace

Hearing what Ye Feng said at this moment, the Flame Demon God immediately nodded and said: "Back then, I discovered that this ancient cultivation civilization that came from the starry sky to this small world is a very special practice. , civilization is different from our other cultivation civilizations. They don't seem to practice any powerful techniques or inheritance, but focus on researching various special potions that can increase the body or physical strength of practitioners to help them become very powerful. Powerful, they become as terrifying as the ancient saints. They rely more on external forces instead of relying on their own hard work. "

Hearing what the Flame Demon God said, Ye Feng immediately nodded and said, "I feel it too."

At this time, the Flame Demon God said aloud: "Let's continue exploring this spaceship."

Ye Feng nodded and walked directly to the door of the fourth room.

A metal door also appeared here, blocking the entrance to the fourth room.

At this time, Ye Feng did not hesitate and continued to operate the Eye of Heaven and Earth to see through the seal restrictions on the entire metal door.

With the Eye of Heaven and Earth seeing through, the seal on the fourth metal door was quickly solved by Ye Feng. He directly cracked the fourth metal door and opened it instantly.

The next moment, Ye Feng and the Flame Demon walked in, and immediately saw a rather surprising scene.

Because this fourth room is not as small as imagined, it is just one room.

Rather, it is an extremely huge internal space.

Seeing this scene, the Flame Demon couldn't help but said: "We may have reached the core area in the middle of this spaceship. The space here is so huge, we need to explore it carefully."

Ye Feng nodded, separated from the Flame Demon God, and headed towards their respective explorations.

Ye Feng walked to the right. Along the way, he saw that in the largest internal space of the spacecraft, the walls were all made of metal.

Moreover, the metal on the interior walls of this spacecraft has grooves.

Ye Feng thought for a moment and touched these grooves, and immediately small metal cabinets stretched out.

Ye Feng opened these metal cabinets and immediately saw that each metal cabinet contained a very special elixir of heaven and earth, as well as some special medicinal materials with very weird shapes.

Seeing this scene, Ye Feng immediately understood something. It seems that in the space inside the spaceship, the treasures and elixirs stored in these medicine cabinets should be the ancient cultivation civilization from various sources. The rare and exotic herbs collected in the small world are used to refine that special blue liquid.

At this moment, Ye Feng naturally did not hesitate and swallowed all the various elixirs and herbs contained in these metal cabinets.

Now Ye Feng and the Flame Demon Soldier are divided into two groups, exploring from the entrance to the inner space to both sides. This is actually acquiescence. If they are on both sides, whatever opportunities and blessings they get will belong to each of them, and it can be regarded as an equal share. .

At this moment, Ye Feng was pretty lucky. The metal cabinets he found contained elixirs and herbs from all over the world. After Ye Feng took them, he could immediately feel a huge pot of medicinal power. Energy was immediately injected into his body, and Ye Feng's whole body was immediately injected with huge energy.

Ye Fengzhi

Half a step ahead of the big bottleneck of the Earthly Spiritual Realm, Ye Feng swallowed different elixirs and herbs, and with the help of the impact of the huge energy, at a certain moment, there was a "boom".

Ye Feng suddenly burst out with an extremely powerful aura of cultivation.

Ye Feng's cultivation completely broke through the bottleneck of the half-step Earth Spirit Realm and stepped into the true first level of the Earth Spirit Realm.

At this moment, Ye Feng was naturally very happy.

Entering this spaceship this time, I really got a huge opportunity, allowing my cultivation to directly cross an entire realm.

You know, after Ye Feng came to Tianjie, he has been worried that his cultivation base cannot keep up with the accumulation of some masters in Tianjie.

But now Ye Feng feels that he is catching up step by step.

Of course, for the time being, Ye Feng cannot compare with an ancient and powerful powerhouse like the Flame Demon God.

After all, once the Flame Demon God leaves this small world of Demon God Space, he may be able to compete with the leaders of the Great Demon God Sect, a giant power in the southern region of the heaven.

This time Ye Feng can establish such a deep friendship with an ancient superpower like the Flame Demon God, which can be regarded as an invisible chance of Ye Feng.

Because you must know that being able to establish a profound friendship with a super strong person will naturally have huge benefits for Ye Feng in the entire heaven. It means that Ye Feng has a strong network of contacts.

At this moment, Ye Feng ate the elixirs in the last few cabinets he found, making a breakthrough in his cultivation, and continued to explore forward.

Soon, Ye Feng discovered a shocking scene. Huge glass coffins appeared on the wall not far away, embedded in the wall.

In each huge glass coffin, a monster corpse with a very special shape was dried and stored in it.

These monsters may come from different worlds, because the cultivation civilization represented by this spaceship has conquered many worlds.

What disappointed Ye Feng was that the monster corpses stored in these glass coffins had been completely dried up and lost all their blood and energy.

Ye Feng had no blood and energy to devour.

However, Ye Feng still used the Sword of God to cut open all the glass coffins. After careful exploration, his eyes suddenly lit up.

Because these dried monster corpses were very old, although they had lost their blood and energy and were completely dried up, there were traces of divine substances in their bones and dried meat.

This made Ye Feng's eyes suddenly show surprise.

It seems that the origins of these monsters are very extraordinary.

Because only creatures with very noble inheritance have divine substances in their bodies.

At this moment, Ye Feng naturally directly absorbed the divine substances in these dried monster corpses.

The strength of Ye Feng's immortal body began to increase rapidly.

Ye Feng absorbed all the divine substances in the monster corpses in the six glass coffins and integrated them into his own body.

Ye Feng's immortal body was at the third level of the seventh stage before, and it was directly upgraded to the sixth level of the seventh stage, which greatly enhanced Ye Feng's physical energy!
