

## Ancient 5321

### Chapter 5321 Private Chamber

At this time, the changes in the aura of Ye Feng's cultivation attracted the attention of the Fire Demon God who was rummaging through boxes not far away.

The Flame Demon God immediately couldn't help but said: "Why did you suddenly break through in your cultivation, and break through to a big realm?"

Hearing the question from the Flame Demon God, Ye Feng smiled slightly and said: "I don't know why, maybe there is some special aura in this spaceship, which made me realize it unintentionally, so I made a breakthrough in my cultivation. "

Hearing what Ye Feng said, the flame demon couldn't help but have a look of astonishment in his eyes. This was the first time he saw the existence of a breakthrough in cultivation while exploring ancient ruins.

At this time, the Flame Demon couldn't help but look at Ye Feng carefully, and couldn't help but say: "You are really a talent."

At this time, Ye Feng couldn't help but asked: "Senior Flame Demon God, did you find anything good in the third room just now?"

The Flame Demon God nodded immediately, and suddenly stretched out his hand with a smile on his face.

At this time, he held six glass tubes in his palm, each of which was filled with light blue liquid.

Seeing this scene, Ye Feng's eyes suddenly lit up and he said aloud: "This is the special blue liquid that can enhance the physical strength of the practitioner that Senior Flame Demon God said before. It is the blue liquid in this spaceship." A medicine specially refined by ancient cultivation civilization?"

Hearing what Ye Feng said, the Fire Demon God immediately nodded and said: "Yes, I discovered these glass tubes filled with blue liquid back then. After drinking all the blue liquid, my The body of the demon god has been greatly improved, making my strength become almost the highest among

the twelve demon gods. Now, although so many years have passed, I have lost a lot of power, but now I have

I found a total of six glass tubes containing these light blue liquids. It seems that my strength can be completely restored. Of course, each of us is half. "

When he said this, the Flame Demon God did not bully the small, but directly handed half of the six tubes and three tubes into Ye Feng's hands.

Ye Feng was not pretentious at this time. After all, it was the two of them who worked together to enter the spaceship.

You know, although this flame demon is very powerful in his own cultivation, he cannot crack the metal doors in every room. He can only rely on Ye Feng to quickly enter every room in this spaceship and explore the good things in it. .

So now that I have found something good, it is natural that Ye Feng has a share.

But what Ye Feng didn't expect was that the Flame Demon God was still a very good person. He didn't rely on his old age to show off his old age, but directly gave him half of it.

After all, in Ye Feng's original vision, he could only get a share of the pie.

In other words, of these six pipes, it would be pretty good if the Flame Demon God could give himself one pipe.

But he didn't expect that the other party would share it equally with him.

What Ye Feng didn't know was that the Flame Demon God really thought so. He only gave Ye Feng a small part and he took the majority. After all, he was the one who discovered the spaceship, and he was the most powerful.

But as he got along with Ye Feng, he discovered that Ye Feng's cultivation talent was getting stronger and stronger, and he was simply a monster.

The Flame Demon God was even sure in his heart that as long as Ye Feng did not die midway, he would definitely become an extremely terrifying existence in the future.

Even beyond him, the Fire Demon.

Therefore, the Flame Demon God naturally has a much better attitude towards Ye Feng now, and will give Ye Feng more wealth. In this way, Ye Feng will become very powerful in the future, and he may be able to remember his old feelings and pull him by his side in times of crisis. Bundle.

Although an older figure like the Flame Demon God is cunning, he also has his own unique understanding of the future in his heart. Therefore, he realized that Ye Feng is an extraordinary person and will definitely become an earth-shattering existence in the future, so he fawned over Ye Feng in advance.

At this moment, Ye Feng didn't show any pretense and directly accepted the three tubes.

Then Ye Feng saw the Flame Demon and opened the three glass tubes on the spot and swallowed them.

The next moment, Ye Feng suddenly saw that the entire body of the Flame Demon God was emitting light blue light.

At this moment, it was obvious that the flame demon's life breath was much stronger than before.

Obviously, the blue liquid in these three tubes really allows the Flame Demon to greatly enhance his life essence energy and physical strength.

At this time, Ye Feng didn't hesitate at all, and just imitated the Flame Demon God, opened all three glass tubes, and then swallowed all the blue liquid in the three tubes.

Seeing this scene at this moment, the Flame Demon couldn't help but said in surprise: "You are really courageous. I am here because I have a very strong physique and a very high level of cultivation. I dared to directly swallow the blue liquid in these three tubes to improve my own physical strength. But I didn't expect that you, the boy, also imitated me and swallowed all the blue liquid in the three tubes. It's very dangerous for you to do so. It is possible that it will lead to

Death caused by body explosion. "

However, at this time, Ye Feng smiled slightly and said: "Flame Demon God Senior, although my current cultivation is far inferior to yours, my physical strength is also quite strong. It should not be a big problem to bear the blue liquid in the three tubes."

When he said this, Ye Fengzi began to concentrate on refining the blue liquid in the three tubes.

At this time, Ye Feng discovered that the blue liquid in the three tubes was a very special medicine, which did not contain a very powerful medicinal energy to improve his cultivation.

All the blue liquids stored were special things that could only improve physical strength, which were somewhat similar to divine substances, but not divine substances.

Ye Feng could clearly feel that the physical strength of his entire body was rapidly improving.

Although the immortal body of the god has not evolved, Ye Feng can clearly feel that his bone strength has been strengthened and become more resilient, his muscle strength has also been greatly improved, and he has become more explosive. In addition, the fiber degree of his various bones, muscles and tendons has also been greatly enhanced, which has greatly improved his mobility and combat effectiveness in an instant.

After sensing all this, Ye Feng immediately showed deep surprise in his eyes. He couldn't help but look at the Flame Demon beside him and said, "Senior Flame Demon, this cultivation civilization from the universe is really a magical cultivation civilization. Although the special medicine they invented cannot directly improve the cultivator's skill, it can transform the cultivator's body into a stronger and stronger one. This is a bit similar to the physical cultivation in our cultivation world. Only the body is cultivated, not the soul and skill, and finally the flesh shell becomes holy and immortal."

Chapter 5322 Meeting the Young Master of the Demon Emperor Palace

Ye Feng was naturally very happy after getting this protective token at this time.

Because once the power in this protective token is stimulated, the flame shield formed is enough to withstand the attack of a super powerful person like the Flame Demon God.

Although Ye Feng didn't know how many times he could use the energy in this token, it was definitely a priceless treasure.

It will be of great help to Ye Feng as he continues to explore the ruins of this ancient civilization and encounter dangers.

At this moment, Ye Feng holds this guardian token in his hand, and can inspire the power in it to protect himself at any time.

At this time, Ye Feng became more confident.

At this moment, the Flame Demon God was searching in the second room and said loudly: "In this second room, except for these compasses that seem to be used for positioning, there is nothing else."

Ye Feng nodded and continued walking towards the metal door of the third room.

Soon, with the crack of Ye Feng's Eye of Heaven and Earth, the metal door of the third room was instantly opened by Ye Feng.

Seeing this scene, even though he knew that Ye Feng had a natural ability to crack formations, the Flame Demon God stood aside and was still shocked when he saw Ye Feng's operation. He couldn't help but praise him repeatedly and said: "You are really a talent!"

At this moment, Ye Feng and the Flame Demon God walked into the third room of the spaceship, and immediately saw several ancient skeletons lying on the ground. Their dead bodies looked quite strange.

At this time, seeing these ancient skeletons, Ye Feng couldn't help but said: "These should be the corpses of members of the ancient cultivating civilization in this spaceship."

Hearing what Ye Feng said, the Flame Demon God immediately nodded and said, "It should be so. All these corpses are inside this spaceship. Except for the members of the ancient cultivation civilization, no one else is. Maybe we were the first people to enter the interior of this spaceship. It seems that they died in their own spaceship, which is similar to what I guessed. My guess is that they arrived in the spaceship back then. After this small world, before they were ready to conquer this small world, they were all killed by some very scary and mysterious things in this small world, and were directly extinct. Therefore, their conquest plan was shelved, and all the ancient people. Members of the cultivating civilization also died mysteriously in their own spaceships."

Hearing what the Flame Demon God beside him said, Ye Feng felt an inexplicable sense of crisis enveloped his heart.

Because there must be something extremely terrifying in this spaceship, these powerful members of the ancient civilization died in mysterious circumstances in their own spaceships without ever leaving the spaceship.

God knows what they went through back then.

Moreover, the culprit who caused the death of members of the ancient cultivating civilization in these spaceships may still be in this spaceship today, which makes people worried and frightened.

But now that he's already here, Ye Feng won't back down anymore.

Ye Feng nodded, clenched the guardian token given to him by the Flame Demon God in his hand, and said loudly: "Let's explore this third room carefully to see if there is anything good.

West. "

The Fire Demon God nodded and did not pay attention to the corpses of the members of the ancient cultivating civilization on the ground. Instead, he rummaged through the many boxes and cabinets in the third room to see if he could find anything of great value.

At this time, Ye Feng suddenly sensed that there seemed to be some very secret energy fluctuations hidden among the corpses of members of the ancient cultivating civilization lying on the ground.

"Um?"

Ye Feng's eyes suddenly lit up, and he squatted down to carefully examine the corpses of these members of the ancient cultivating civilization.

Most of the corpses of members of these ancient cultivating civilizations have completely decayed and turned into skeletons, without any blood energy at all.

But Ye Feng searched carefully and suddenly dug out a crystal stone emitting emerald blue light from the chest of their skeletons.

These crystal stones were bred from the bodies of members of these ancient cultivating civilizations.

"Um?"

This made Ye Feng's eyes suddenly show surprise.

Because as we all know, in the world of cultivation, only monsters or ancient evil beasts can give birth to this kind of crystal-like energy core.

Unexpectedly, this ancient cultivation civilization was a group of creatures similar to the human race, but it had given birth to its own energy core.

It seems that this ancient cultivation civilization really came from a mysterious place deep in the universe. Otherwise, it would not be so different from the human practitioners in the heaven.

Ye Fengke had never seen a human cultivator in the heaven being able to breed something similar to the core of a monster in his chest.

It seems that the members of the ancient cultivating civilization in this spaceship are not simply human race, but similar to human race. They are a very mysterious cultivating civilization, but now they are all extinct, and only this spaceship is left. It seems that Still telling about their past.

At this time, Ye Feng naturally did not hesitate at all. He directly took out all the energy cores from the bodies of several members of the ancient cultivation civilization on the ground, and then swallowed them directly on the spot.

The energy stored in these energy cores was very pure and powerful, which made Ye Feng very happy.

Because absorbing these energy cores would definitely allow Ye Feng's current skills to continue to grow greatly.

Boom!

At this time, as Ye Feng swallowed, the ice-blue energy in the energy cores bred in the bodies of these members of the ancient cultivation civilization was immediately injected into Ye Feng's Dantian, rapidly strengthening Ye Feng's skills.

Before, Ye Feng's cultivation had been promoted to the great perfection state of the 36th level of the Tiangang Realm.

Boom!

At this time, with the energy cores in the bodies of so many ancient cultivation civilization masters, Ye Feng's cultivation broke through, breaking through the great bottleneck of the great perfection of the 36th level of the Tiangang Realm, and directly rushed into the half-step earth spirit realm above the Tiangang Realm!

At this moment, Ye Feng could clearly feel that his skill reserves and combat effectiveness had skyrocketed, and they were many times stronger than before, because this was a leap across an entire realm!

Chapter 5323 Ancient Artifact

Hearing what the Flame Demon God said at this time, Ye Feng also became interested, and immediately nodded, and then directly used the inheritance of the Nine Young Master Demon Wushuang, the Demon King's True Body Art, that he had learned.

This set of Demon King True Body Techniques is also a very powerful peerless inheritance in the Great Demon God Sect. It is very powerful when practiced to the extreme.

At this moment, Ye Feng used the Demon King's Real Body Technique, and directly condensed a huge ancient Demon King's real body with a majestic tens of thousands of meters behind him, which looked full of deep oppression.

Seeing this scene at this time, the Fire Demon God standing aside suddenly showed a look of surprise, and then his face also showed a look that seemed to be recalling and thinking.

Apparently, the Flame Demon God seemed to have seen the inheritance displayed by Ye Feng before.

But at this time, the Flame Demon God finally shook his head and said aloud: "Although many years have passed, the inheritance you are running seems to be different from the other eleven Demon Gods I know. The same original attribute power, but it may also be a powerful inheritance of another attribute re-created by one of the twelve demon gods."

Hearing what the Flame Demon God said at this moment, Ye Feng nodded.

The Flame Demon God continued to speak: "But this time after we have finished exploring the spaceship of this ancient cultivation civilization, you take me away from here, and I will follow you to the Great Demon God Sect to take a look. Maybe we can actually meet it." My old friend."

Hearing what the Flame Demon God said, Ye Feng nodded, and then continued walking towards the second room of the spaceship.

When they came to the door of the second room, the Fire Demon God said aloud: "I did not break the ancient seals and restrictions set on the metal door of the second room."

Hearing what the Flame Demon God said, Ye Feng nodded and said, "Let me take a look."

Buzz!

At this moment, Ye Feng directly turned his eyes of heaven and earth and looked towards the metal door of the second room in front of him.

The next moment, Ye Feng saw through the context of the seal on the metal door.

At this moment, Ye Feng smiled slightly and walked forward. Then he quickly stretched out his fingers and clicked a few times on the second metal door, clicking on a few special places.

Almost at the next moment, the second metal door immediately "clicked", the seal was broken, and it opened automatically.

"Um?"

Seeing this scene, the Flame Demon God standing next to him immediately widened his eyes and couldn't help but exclaimed in amazement: "You are such an amazing young man. You are so capable of this kind of formation." Terrifying research, you know, it took me decades to crack the first metal door, but this second metal door may have a stronger seal, and you only spent a short time. It was cracked in just a few seconds, it's incredible."

At this moment, even an ancient figure like the Flame Demon God was shocked when faced with Ye Feng's incredible ability, because it was so amazing.

Even the Fire Demon God has never seen such a magical ability.

Ye Feng just smiled slightly at this moment and said aloud: "I have awakened a very powerful talent innately. I can see through the context and structure of any formation, so I only need to see through the essential context of each formation or seal. and structure, I can change its structure and crack it. This is why I can pass through this long river of lava so easily and safely.

Sealed secrets. "

Hearing what Ye Feng said, the Flame Demon God took a good look at Ye Feng for the first time and said loudly: "You are so talented. You are really a rare talent. By the way, I still don't know your name?"

Ye Feng smiled slightly at this moment, and naturally said the name of the ninth young master of the Demon King's Palace that he was currently pretending to be, and said aloud: "My name is Mo Wushuang, from the Great Demon God Sect in the southern region of the heaven. I am from the Demon King's Palace. Ninth Young Master."

Hearing what Ye Feng said, the Flame Demon God nodded slightly. He actually didn't care much about Ye Feng's identity. He just cared that Ye Feng had great potential.

If it were an ordinary young genius, perhaps he wouldn't even take a second look at an ancient figure like the Flame Demon God.

Because the Flame Demon God is a figure from the ancient era, he already has his own aloofness and vision.

But everything Ye Feng showed made the Fire Demon God attach great importance to Ye Feng, a young man of this generation, even solemnly. ??

At this moment, after Ye Feng opened the second metal door, the two of them walked in directly.

The moment they walked into the second room, they immediately saw that in the second room of the spaceship, there were very ancient-looking compasses placed there.

Each compass has different nodes marked on it, which seems to represent a different area.

Seeing this scene, the Flame Demon couldn't help but said: "In the ancient times, I once heard that there were many powerful cultivation civilizations that liked to conquer one world after another. Perhaps what is marked in these compasses The point is that this ancient cultivation civilization conquered worlds one after another. However, after they came to this small world where I was, they seemed to have encountered something terrible, so all the distant objects on the entire spaceship

The strong men of the ancient cultivating civilization were all extinct, with not even a trace left. "

Hearing what the Flame Demon God said, Ye Feng said with some worry: "Since this spaceship is so evil, will there be huge dangers if we continue to explore?"

For Ye Feng, although exploring this spacecraft is also very important, his own life is more important.

After all, Ye Feng's current cultivation strength cannot be compared with the Flame Demon God. If he is not careful, he will be instantly killed by some terrible thing left by this terrifying ancient cultivation civilization.

It's not that Ye Feng is timid, but that Ye Feng is cautious enough and will not easily try opportunities that are beyond his own strength.

When Ye Feng said this, the Flame Demon God smiled slightly and said: "Don't worry, I will give you a guardian token. Once you encounter danger, this guardian token will immediately activate a layer of flame light. The shield is enough to withstand attacks from strong men like me."

When he said this, the Flame Demon God reached out and opened it, and a crimson token immediately appeared in his palm and placed it in Ye Feng's hand.

When Ye Feng heard what the Flame Demon God said at this moment, his eyes suddenly lit up as he stared at the red token.

This flame token is definitely a rare super treasure for the current Ye Feng.

You know, Ye Feng's current cultivation strength is much worse than that of a strong man from ancient times like the Flame Demon God.

The cultivation realm of an ancient superpower like the Flame Demon God may be dozens or even hundreds of realms higher than Ye Feng's current level.

Now, the token given to Ye Feng by the Flame Demon God can inspire him to withstand the attack of a super powerful person like the Flame Demon God. This is definitely a treasure of protection! Priceless!

Chapter 5324 The Son of the Demonic Temple

Hearing the question from the young master of the Demon Emperor's Palace, Ye Feng thought for a moment, and then said: "This underground cave may really be the place where the ancient artifact fell, but this underground cave is very weird, no Knowing whether there is some kind of terrible monster living inside, or some kind of mysterious power, it is really weird to be able to suck such a powerful genius into a mummy in an instant, but we are already here, we can't Back off."

Hearing what Ye Feng said, the young master of the Demon Emperor Palace immediately showed a look of joy on his face and said loudly: "Since the ninth young master said this, it seems that you are fully confident, then Let's just go in."

Ye Feng nodded and said aloud: "I will take the lead, you follow behind me."

Uh-huh!

At this moment, Ye Feng was the first person to walk into the underground cave in front of him.

Seeing this scene at this time, the young master of the Demon Emperor's Palace looked at the other dozen or so young geniuses from the Demon Emperor's Palace, and immediately couldn't help praising him and said: "You all should learn from the Ninth Young Master's behavior. Brave spirit."

After saying that, the young master of the Demon Emperor's Palace followed Ye Feng directly, and a group of other young geniuses from the Demon Emperor's Palace also bravely followed the young master of the Demon Emperor's Palace and walked into the room in front of them. In this underground cave.

At this moment, when Ye Feng walked into the underground cave entrance, he immediately saw the entire underground cave passage. It was very narrow and could only allow one person to walk in a straight line, with everyone following behind.

At this moment, Ye Feng was walking at the front, wanting to release his soul power, but just like on the ground, he was still unable to release his soul power to penetrate his body.

This made Ye Feng frown.

If there is no soul power covering the surroundings, if something happens suddenly, it may be too late to react.

However, although Ye Feng cannot use his soul power to explore the surroundings,

The situation, but Ye Feng's perception is still very good, so Ye Feng fully mobilizes his perception ability at this moment, and can burst out the power of the immortal body of the god at any time.

Even, Ye Feng secretly started to run the inheritance of the extremely powerful Ice Demon God, the Ice God-Sealing Technique, that he had learned before, and began to run it in his body.

In this case, Ye Feng can release the terrifying ice energy at any time, which can freeze all potential dangers.

At this moment, Ye Feng made all preparations and silently explored the road ahead.

The young master of the Demon Emperor's Palace and a group of other Demon Emperor's Palace geniuses who were following him all had very nervous eyes.

Because the tragic death of their partner just now was still imprinted in their minds, they were really afraid that they would suddenly be sucked into mummies by some mysterious thing.

Uh-huh!

Suddenly at this moment, in the extremely silent underground cave, a very terrifying air sonic boom sound suddenly sounded.

The next moment, a mysterious little thing flew towards Ye Feng's direction.

boom!

Ye Feng couldn't even see clearly what this little thing was. He just released the Ice God-Sealing Technique. His whole body immediately erupted with terrifying cold air, shrouding this unusual little thing, and wanted to cover it up. Frozen.

But what surprised Ye Feng was that this little thing was very fast and had strong penetrating power. Even if the cold air he released instantly could not freeze it, it would slow down its speed after all, and then This little thing directly hit Ye Feng's forehead, but it did not pierce Ye Feng's forehead.

There was a clang sound like metal collision.

The next moment, Ye Feng immediately felt a very terrifying force, which hit his forehead. Ye Feng couldn't help but take several steps back, feeling a bit concussed.

You must know that Ye Feng's Immortal Body of the God is very terrifying. Now it has transformed to a very terrifying level. Moreover, just now, he used the cold air of the Ice God-Sealing Technique to freeze its speed, but he was still hit by this little thing. My head almost split open and I couldn't help but take a few steps back. This was really unbelievable.

Ye Feng immediately looked at this little thing and saw it immediately. It turned out to be a small black snake-like insect. It was only as long as a human finger, but its body was covered with fine black scales that looked like they were made of metal. The open mouth is full of silver fangs, which looks very scary.

Ye Feng immediately understood that the young genius from the Demon Emperor's Palace who was at the entrance to the underground cave just now was attacked by this terrible little bug, so he was sucked out of all his life.

Although this little bug was very scary, Ye Feng breathed a sigh of relief.

Because what Ye Feng is more afraid of is the invisible power that sucks away the life breath of people.

It is invisible and intangible.

If it was such a small insect that could be seen and touched, it would actually make Ye Feng a lot more relaxed, because there was something practical to deal with.

At this moment, Ye Feng immediately stretched out his hand. Before the little bug could react, Ye Feng's palm turned into a golden palm, as if made of steel, and he directly pinched the little bug in his hand. .

The little bug struggled quickly, but could not escape Ye Feng's golden palm, because Ye Feng's golden palm was the immortal body of the god.

Even this

The little insect's strength was enough to break steel, but it was unable to break Ye Feng's golden palm.

At this time, a group of young geniuses from the Demon Emperor Palace behind them couldn't help but look at the little bug in Ye Feng's hand. They couldn't help but sucked in a breath of cold air and said aloud: "Our partner just now was killed by this little bug." The bug was killed by a sneak attack. It was such a terrible bug. We didn't react at all. Even a peerless genius like the Ninth Young Master didn't react. If the Ninth Young Master hadn't been so powerful, he would have been killed."

Ye Feng nodded and said aloud: "This should be a very ancient insect. It may have survived here for hundreds of thousands of years."

After Ye Feng finished speaking, he pressed hard and crushed the little bug with a "pop".

Ye Feng said slowly: "We must be careful next. There may be many such terrible insects in this underground cave. You must be careful not to be pierced through the head by their sudden attack. Then you will be powerless." If you die, you will be killed instantly."

Hearing what Ye Feng said, a group of young geniuses from the Demon Emperor Palace, including the young master of the Demon Emperor Palace, nodded very solemnly.

The young master of the Demon Emperor's Palace couldn't help but said with great joy: "I'm really lucky to have invited you, Ninth Young Master, this time. Otherwise, our group might have died here."

Everyone knew very well that even just one of the terrifying little bugs could instantly kill all the young geniuses present with its terrifying speed and terrifying penetration.

If it weren't for Ye Feng standing in front, they would all have been killed long ago.

This made everyone realize that the ancient artifact was indeed not that easy to obtain.

And this restricted area of life is also extremely dangerous, with such terrifying insects from ancient times actually surviving.

Chapter 5325 Entering the Life Forbidden Zone

At this time, hearing Ye Feng say such calm words, many young geniuses from the Demon Emperor's Palace present looked at Ye Feng with eyes full of awe and admiration.

Because in their eyes, the big black scorpion is very powerful and a very terrifying monster.

But Ye Feng casually killed the big black scorpion instantly, which was enough to show that Ye Feng's true combat power was many times stronger than them.

Even the young master of the Demon Emperor Palace, the leader of this operation, was staring at Ye Feng with deep amazement in his eyes.

The young master of the Demon Emperor's Palace knew that it was worth it to spend such a high price on inviting Ye Feng this time, because Ye Feng was worth the price.

At this moment, Ye Feng secretly began to devour the blood and energy of the big black scorpion that he had put into the storage ring.

Boom!

Along with Ye Feng's devouring, a very huge cultivation momentum immediately burst out from Ye Feng's body.

Ye Feng's cultivation directly broke through the first level of heaven on the spot, from the seventh level of Tianling Realm to the eighth level of Tianling Realm!

At this moment, the sudden breakthrough in cultivation aura caused astonishment to appear in the eyes of everyone present.

The young master of the Demon Emperor's Palace couldn't help but ask: "Ninth Young Master, why did you suddenly achieve a breakthrough in your cultivation?"

Ye Feng smiled slightly at this time and gave a reason that would remain unchanged for thousands of years. He said loudly: "During the battle just now, I suddenly had an epiphany, so I broke through a small realm."

"What?"

Hearing what Ye Feng said, not to mention the young master of the Demon Emperor's Palace, even the dozens of other geniuses from the Demon Emperor's Palace around him suddenly widened their eyes. It seemed that they had never imagined that Ye Feng actually had such a gift. The ability to be so powerful that it defies the heavens, to be able to achieve enlightenment and break through a small realm in such a short battle is really amazing.

Somewhat incredible.

You know, if they want to break through a small realm, they have to meditate in a very quiet environment for several months, maybe they can absorb the spiritual energy of heaven and earth and achieve a breakthrough, or they must take some very precious and high-level elixirs to achieve a breakthrough. Can directly break through a small realm.

But Ye Feng didn't expect that he didn't do anything and had an epiphany and breakthrough during the battle.

This kind of cultivation talent is really incredible!

At this time, the young master of the Demon King's Palace could not help but exclaimed in admiration: "The ninth young master is indeed a peerless genius in the Demon King's Palace. In a short battle, he was able to achieve an epiphany and break through his own realm of cultivation. This kind of cultivation talent is simply unbelievable to the extreme. I think even the so-called top geniuses in the Demon Temple cannot compare to your cultivation talent, Ninth Young Master."

Ye Feng smiled slightly at this moment and said loudly: "Let's move on. We have just entered the entrance to this restricted area of life, so don't waste any time."

When the young master of the Demon Emperor Palace heard what Ye Feng said, he naturally nodded immediately, and then took out the ancient scroll he found from his storage ring.

This ancient scroll is a map that guides the approximate place where the ancient artifact fell.

At this moment, after the young master of the Demon Emperor's Palace watched for a while, he immediately flew quickly in a certain direction and said loudly: "The place where the ancient artifact fell is in this direction."

Ye Feng nodded, and a group of a dozen other geniuses from the Demon Emperor's Palace followed the young master of the Demon Emperor's Palace and flew quickly in that direction.

Along the way, everyone was surprised

The thing is, no too powerful monster appeared.

The explanation given by the young master of the Demon Emperor's Palace is that the further you go towards the depths of the restricted area of life, the more terrifying the dangers you will encounter. Even very powerful monsters do not dare to survive in the depths of the restricted area of life.

Half an hour later, everyone finally followed the guidance on the ancient scroll and arrived at the deepest area of the restricted area of life.

The earth here is completely dry, and there is a smell of death everywhere, and there is no breath of life at all.

At this time, the young master of the Demon King's Palace looked at the ancient scroll in his hand and couldn't help but said: "This is the last place pointed on the map, but this area is very large. We may have to separate our actions if we find that there is There is no trace of the ancient artifact."

Hearing what the young master of the Demon Emperor Palace said, everyone nodded and spread around, forming groups of three or four.

Ye Feng was alone at this time, because Ye Feng did not need to act with other partners at all. Ye Feng's strength was comparable to the combat power of three to four top geniuses combined.

At this moment, Ye Feng exuded his soul power and spread towards the surroundings.

"Um?"

But the next moment, Ye Feng suddenly discovered to his surprise that his soul power could not spread out. There seemed to be an invisible barrier that blocked his soul power inside his body.

This made Ye Feng's eyes suddenly show a look of surprise, and he couldn't help but murmur to himself, "It seems that this restricted area of life has a special restriction that can limit the spread of the soul master's soul power."

At this moment, Ye Feng could only look for unusual places around him through his own eyes.

However, the speed of this kind of exploration is much slower, but there is nothing we can do. This life forbidden area is really

Something strange.

And just when Ye Feng had been exploring silently for a while.

"Ah!"

Suddenly, a scream came from a certain direction not far away.

This scream seemed to be the scream of one of the geniuses of the Demon Emperor Palace.

Ye Feng's eyes changed, and he immediately flew quickly in that direction.

When Ye Feng flew to the place where the scream came from, Ye Feng immediately saw that the young master of the Demon Emperor Palace and a group of other young geniuses of the Demon Emperor Palace had arrived here.

A bottomless underground cave appeared in front.

And the owner of the scream just now was indeed one of the young geniuses of the Demon Emperor Palace.

However, at this moment, the young genius of the Demon Emperor Palace had died tragically at the entrance of this underground cave, and his death was very strange. It was as if all the life energy had been drained from his body, and he was completely shriveled and turned into a mummy lying on the ground.

Seeing this scene, the young master of the Demon Emperor Palace immediately showed an ugly look in his eyes, and said aloud: "I didn't expect that we have lost two powerful geniuses along the way before finding the ancient artifact."

A genius of the Demon Emperor Palace standing aside said aloud: "It seems that there seems to be something very terrible in this underground cave, which directly sucked all his life essence and turned him into a mummy."

The young master of the Demon Emperor Palace nodded and said aloud: "The ancient artifact may be in this underground cave. We searched all the surrounding areas and found nothing abnormal. There is only this underground cave. Even if there is a huge danger, we have to go down."

When he said this, the young master of the Demon Emperor Palace suddenly looked at Ye Feng who had just rushed over to his side, and couldn't help asking aloud: "Young Master Jiu, what do you think?"

Chapter 5326 Underground Cave

And just when the Son of God of the Demon Palace was planning his conspiracy, Ye Feng followed the young master of the Demon Emperor Palace and a group of more than a dozen other geniuses of the Demon Emperor Palace, and had already left the Great Demon God Sect and been on the road for several days. Finally, we arrived at the edge of the southern area of the heaven.

This is already the edge of the southern area of the heaven. If you continue to go forward, you may completely leave the southern area of the heaven and enter another area.

At this time, the young master of the Demon Emperor's Palace looked not far ahead and said loudly: "The place where the ancient artifact held by the twelve demon gods fell was in the restricted life zone ahead."

Hearing what the young master of the Demon Emperor Palace said, many of the young geniuses present became nervous.

Although they are all powerful geniuses in the Demon Emperor's Palace, after all, they are only the younger generation, and their cultivation base is still relatively weak, and they are not as powerful as some of the elders.

So when we came to the legendary restricted area of life, we were naturally quite nervous.

But no one backed down at this time, because the young master of the Demon Emperor's Palace had promised huge rewards to these young geniuses.

Therefore, as long as they can assist the young master of the Demon King Palace to successfully obtain the ancient artifact held by the twelve demon gods, then they will be able to receive extremely generous rewards.

Of course, their remuneration is definitely not as much as Ye Feng's.

Moreover, Ye Feng also reached other cooperation agreements with the young master of Demon Emperor Palace in private.

At this moment, Ye Feng couldn't help but nodded and said loudly: "I have sensed that there seems to be a very strong aura of death in front of me."

The young master of the Demon Emperor Palace nodded and said, "The Land of the Fallen God is just ahead."

At this moment, the eyes of the young master of the Demon Emperor's Palace did not show any fear at all, but were filled with deep ambition and expectation.

Because for the young master of the Demon Emperor's Hall, if he can really get the ancient artifact left here by the twelve demon gods, it will definitely enhance the overall strength of the young master of the Demon Emperor's Hall. When the time comes, the Demon Emperor The young master of the palace has great

With confidence, he can run for the position of the future leader of the Great Demon God Sect.

Because the young master of the Demon Emperor's Palace knows very well that there are many competitors in front of him, such as the Son of God of the Demon Palace, who is his most powerful competitor.

At this moment, the young master of the Demon Emperor's Palace took a deep breath and flew forward with everyone.

Soon, they encountered an invisible barrier and could no longer fly in the air.

The young master of the Demon Emperor Palace said: "This is the restricted area barrier of the life restricted area. No matter how powerful the existence is when it comes here, it cannot fly. It must land on the ground and walk in."

Ye Feng and other young geniuses all nodded when they heard what the young master of the Demon Emperor Palace said, and then landed from high altitude.

When they landed, they immediately saw a huge stone door in front of them.

Behind this stone gate, there is an extremely dense forest, an endless river, and even the Milky Way hanging down from the sky.

Seeing this strange scene of heaven and earth, the young master of the Demon Emperor Palace said: "Let's go in directly. After this stone gate is the forbidden area of life."

Everyone nodded and walked directly into the restricted area of life. There were no living creatures around because no one dared to approach this restricted area of life.

At this moment, the young master of the Demon Emperor Palace said: "We have entered the restricted area of life. Everyone must be extremely careful and cautious every moment to prevent sudden dangers."

Click!

But the moment the young master of the Demon Emperor Palace finished speaking, the ground suddenly cracked under everyone's feet.

A sharp black thorn stabbed out from under the ground, instantly piercing the body of a young genius who had no time to react, killing him immediately.

That is, the sharp black thorns dragged the young genius's body directly into the underground space.

"What's going on??"

The sudden changes at this moment made all the young geniuses present panic.

The young master of the Demon Emperor Palace quickly spoke out: "Everyone, disperse quickly. There seems to be a very scary monster underground. Unexpectedly, we have just entered the restricted area of life, and we have lost a friend."

At this moment, Ye Feng also had a look of surprise in his eyes.

Because even Ye Feng didn't notice it just now, a sharp thorn suddenly stabbed up from the ground.

Ye Feng took a casual look just now and realized that the sharp thorn should be the spike growing from some kind of monster.

At this moment, the young master of the Demon Emperor's Palace instantly took out a light red talisman from his storage ring.

The next moment, the young master of the Demon Emperor's Palace threw the light red talisman on the ground.

Boom!

Almost at this moment, the red talisman exploded immediately, covering the entire ground with a layer of very hot flames, and the entire ground began to burn.

The young master of the Demon Emperor's Palace was obviously using the flame power of this flame talisman to force out the monster hidden deep under the ground.

Because under the ground, no one knows where the monster is.

But if this monster can be forced out, then it can be besieged.

Sure enough, the young master of the Demon King's Palace was quite smart. He used this very advanced flame talisman to burn the entire ground, and a painful howl immediately sounded from the ground.

Boom!

The next moment, the entire ground collapsed immediately, and a large black scorpion, the size of a small mountain, appeared in everyone's eyes, rising directly from under the ground.

Got out.

The corpse of the genius from the Demon Emperor's Palace who was stabbed to death just now is still penetrated and hung on the tail stinger of the big black scorpion, but only half of his body is

left. Apparently the other half has been penetrated by this black scorpion. The big scorpion was eaten.

"hiss!"

Seeing this scene, everyone felt a little chilly.

But the next moment, Ye Feng had already taken action.

boom!

Ye Feng directly exploded the Immortal Body of the God, and his golden fist was like a magical weapon just forged from the divine furnace. He directly and fiercely bombarded the big black scorpion. In an instant, he made a "plop" sound and knocked the black scorpion away. The big scorpion's head and entire body were instantly penetrated.

Boom!

The next moment, the entire huge body of this big black scorpion fell to the ground, completely dead.

"What?"

"So powerful?"

Seeing this scene at this moment, many young geniuses from the Demon Emperor's Palace present widened their eyes.

At this time, even the young master of the Demon Emperor Palace suddenly showed surprise in his eyes, as if he did not expect Ye Feng to be so powerful now.

The young master of the Demon Emperor's Palace knew very well that Ye Feng's strength must have improved a lot after he went to the small world of Demon God's Space.

But he never expected that Ye Feng would become so powerful.

You know, Ye Feng's cultivation level is several levels lower than everyone else's, but Ye Feng's true combat power is definitely several times higher than everyone else's.

Seeing the shock of everyone at this moment, Ye Feng just smiled slightly and said loudly: "This is just a monster that I encountered just entering the restricted area of life. It is normal to be weak. It is nothing to be shocked by being killed by me with one punch."

After saying that, Ye Feng directly put the body of the big black scorpion into his storage ring, preparing to secretly devour it.

Chapter 5327: Insects from the Ancient Times

Hearing what Ye Feng said at this time, the young master of the Demon Emperor's Palace immediately frowned, because Ye Feng was like a lion opening his mouth.

You must know that the Great Demon God Sect is not an ordinary force, but a giant force in the southern region of the heaven.

Therefore, there is countless wealth in the treasure house of the Great Demon God Sect. If Ye Feng is to be divided into half of it all at once, it is equivalent to making the Great Demon God Sect half poor in an instant.

But at this time, the young master of the Demon Emperor's Palace suddenly stared at Ye Feng and said loudly: "I can agree to this condition, but the premise is that you not only help me find the ancient artifact, but also assist me to become the true master of the Great Demon God Sect. "

When Ye Feng heard what the young master of the Demon Emperor Palace said, he nodded and said with a smile: "Okay, let's make the deal."

The young master of the Demon King Palace looked at Ye Feng and couldn't help but said with some doubt: "With the ninth young master's incredible talent, he will definitely be a favorable candidate to compete for the master of the Great Demon God Sect in the future. Are you so willing to assist?" Should I become the sect leader instead of choosing to be the sect leader myself?"

When Ye Feng heard what the young master of the Demon Emperor Palace said, he immediately laughed and said: "For me, the so-called master of the Great Demon God Sect has no great meaning at all. I am not a person who pursues false fame. , I want real benefits. Even if I become the master

of the Great Demon God Sect, I can't use half of the cultivation resources of the Great Demon God Sect's treasury for myself at once, because I have constraints, but the young master of the Demon King's Palace, if you become As the sect master, I don't have any constraints. I can ask you to give me half of the cultivation resources of the Great Demon God Sect's treasure house at any time. Then I will leave the Great Demon God Sect directly. I will not implicate you, nor will I let the elders of the Great Demon God Sect force me. or pester me.”

Hearing what Ye Feng said, the young master of the Demon Emperor's Palace couldn't help but show a look of surprise in his eyes. It seemed that he had not thought that Ye Feng was willing to give up the noble status of being the leader of the Demon God Sect for half of the cultivation resources. .

But at this time, the young master of the Demon Emperor's Palace didn't think much, he just smiled and shook his head.

He raised his head and said aloud: "Everyone has his own ambitions. Well, as long as you can help me find the ancient artifact and assist me in becoming the master of the entire Great Demon God Sect, I can cooperate with you and directly obtain half of the cultivation resources in the Great Demon God Sect's treasure house. , but for this matter, the elders of the Great Demon God Sect will definitely blame it. Then I can help you cover up and let you escape from the Great Demon God Sect. "

When Ye Feng heard what the young master of the Demon Emperor's Palace said, he immediately nodded and said, "Okay, since you, the young master of the Demon Emperor's Palace, are so sincere, then this matter is settled."

At this moment, the young master of the Demon Emperor Palace nodded, and then said aloud: "Then we can go directly to the restricted area of life where the ancient artifact is left. This time I invite you, the ninth young master, to be my main force. As auxiliary members, I also brought with me a dozen other young geniuses, but I didn't dare to bring with me the elders, because the restricted area of life was very strange. The higher the level of cultivation beings entered, the more danger they would encounter. However, the younger generation like us with lower cultivation levels are less dangerous when we enter it.”

Hearing what the young master of the Demon Emperor's Palace said, Ye Feng nodded and said, "Okay, then I'll wait here."

The young master of the Demon King Palace nodded and flew directly into the distance, apparently to summon the other young geniuses he invited.

After Ye Feng waited for a long time, the young master of the Demon Emperor Palace returned to this place of residence with a dozen young geniuses.

At this moment, the dozen or so geniuses behind the young master of the Demon Emperor's Palace looked at Ye Feng with awe in their eyes.

Because they had also heard that in the previous competition between the younger generations of the Demon King's Palace and the Demon King's Palace, it was Ye Feng, the ninth young master of the Demon King's Palace, who turned the tide.

, one person defeated all the masters in the entire Demon Emperor's Palace, and finally won the battle.

Therefore, the strength of Ye Feng, the ninth young master of the Demon King's Palace, has already spread throughout the entire Demon King's Palace.

At this moment, the young master of the Demon King's Palace immediately looked at the dozen geniuses behind him and said with a smile: "This time, I specially invited the nine young masters who came to the Demon King's Palace to help us. This time, we went to the forbidden area of life to find the ancients. With an artifact, the probability of success will be much greater."

At this time, hearing what the young master of the Demon King Palace said, a group of more than a dozen other geniuses from the Demon King Palace behind them all nodded their heads and said loudly: "With the help of peerless geniuses like the ninth young master of the Demon King Palace, we will be able to win this time." It will indeed be much more stable."

At this time, the young master of the Demon Emperor Palace nodded, then looked at Ye Feng and said, "Let's go directly to the restricted area of life."

Ye Feng nodded, and he and everyone flew directly to the high altitude, flying quickly towards the outside area of the Great Demon God Sect.

After everyone left, what no one noticed was that a young man in a black robe stared at the back of everyone leaving, with a look of thinking in his eyes, and then quickly left the scene.

This young man in a black robe quickly arrived within the scope of the Demon Temple, the highest level of the Great Demon God Sect, and arrived at the door of a black palace in the Demon Temple. Then he clasped his fists into the black palace and said, "Report to the Son of God. , the young master of the Demon Emperor's Palace has left the Demon Emperor's Palace with a group of young geniuses and flew towards the outer area of our Great Demon God Sect."

The moment the young man in black robes finished speaking, a young man wearing black clothes with dragon patterns walked out of the black hall of the Demon Temple in front of him.

This young man is very tall and burly, with profound eyes and a towering posture, giving people a mysterious and strong sense of oppression.

This man is the number one super genius in the Demon Temple, and he is also the only son of the master of the Demon Temple. His cultivation strength is extremely terrifying, and he is almost the number one super genius in the Great Demon God Sect.

This person is the Son of God from the Demon Temple!

At this moment, the Son of God of the Demon Palace looked at the young man in front of him who reported the situation, nodded, with a slightly sarcastic smile in his eyes, and said loudly: "The young master of the Demon Palace thinks that his information is airtight. In fact, it was revealed to me by a spy I placed next to him that his trip was to go to a restricted area of life on the edge of the southern region of our heaven to look for the ancient artifact lost by the twelve demon gods. This kind of peerless treasure, the young master of the Demon Emperor's Palace, is not worthy of holding it, it is destined to belong to this son of God."

After finishing speaking, the Son of God of the Demon Palace looked at the young man in front of him who reported the situation, and said aloud: "Send killers. After they obtain the ancient artifact, they will cooperate with the spies placed among their group of people to kill the Demon Palace directly on the spot. Get rid of it, young master, and then seize the ancient artifact and send it to me."

The young man in front of him couldn't help but said: "Don't you, the Son of God, go there in person?"

The God of the Demon Temple shook his head and said aloud: "The restricted area of life is very weird. The higher the cultivation level, the more terrifying the dangers. If I enter that restricted area of life, I am afraid that there is a risk of falling because my cultivation level is too high. , the danger I will encounter will be greater, but I will guard the exit of the life restricted area to prevent the

killers sent out from missing. Even if those killers cooperate with spies, they will not be able to get rid of the young master of the Demon Emperor Palace. If they escape, they will be killed directly by me who is guarding the entrance when they just step out of the restricted area of life."

Hearing what the Son of God of the Demon Temple said, the young man in front of him who reported the situation immediately clasped his fists and said loudly: "Yes, Lord Son of God, I will make arrangements right away."

#### Chapter 5328 Artificial Construction

Hearing the praise from this young genius from the Demon Emperor's Palace, Ye Feng just smiled and said, "Let's go, don't waste time, take me to see the young master of your Demon Emperor's Palace."

The young genius from the Demon Emperor's Palace nodded immediately and flew quickly towards the Demon Emperor's Palace with Ye Feng.

With the guidance of this young genius from the Demon Emperor's Palace, Ye Feng smoothly entered the heavily guarded inner area of the Demon Emperor's Palace and came to a white palace.

The whole body of this white palace is made of a special kind of spiritual stone, and the surface is also imprinted with formations. If a practitioner lives in it, he will be able to continuously absorb the rich spiritual energy between heaven and earth at all times. , to speed up your cultivation.

However, Ye Feng is not very interested in this kind of speed, because in front of Ye Feng's Devouring Domain, this so-called spirit gathering array is simply insignificant.

At this moment, Ye Feng took a casual look and entered the white palace in front of him with the young genius from the Demon Emperor's Palace.

When Ye Feng entered, he saw the young master of the Demon Emperor's Palace, a young man wearing a golden robe, standing among them.

Ye Feng immediately smiled and said: "The young master of the Demon Emperor's Palace invited me over. I wonder if I need to cooperate on something?"

Hearing Ye Feng's voice, the young master of the Demon Emperor's Palace turned around immediately, and then said in surprise: "The strength of the ninth young master seems to have improved a lot. I can feel that you are better than the previous day." It's much stronger now."

Ye Feng was not surprised to hear what the young master of the Demon Emperor's Palace said.

Because the other party is the young master of the Demon Emperor's Palace, and although his strength is not as good as his own, he still has some sharp eyesight.

Ye Feng just smiled slightly and said aloud: "I have been to the Demon God Space in the past few days, so my strength has improved a lot."

"Demon Space?"

Hearing what Ye Feng said, the young master of the Demon King's Palace couldn't help but look surprised in his eyes, and said loudly: "I didn't expect that the reward given to you by the master of the Demon King's Palace is quite good, and he can actually give you all away." Entering the Demon God Space, with your strength as the Ninth Young Master, you will naturally get huge opportunities to improve your strength by practicing in the dangerous small world of the Demon God Space."

At this moment, the young master of the Demon Emperor's Palace stopped talking nonsense and walked away

When he arrived in front of Ye Feng, he said aloud: "The thing I want to invite you to cooperate with is very dangerous, but the rewards are also very great. I don't know if you are interested."

Ye Feng smiled slightly and said aloud: "Please tell me what it is first."

The young master of the Demon Emperor Palace nodded, and then took out a very ancient scroll from his storage ring.

The young master of the Demon Emperor's Palace said: "I accidentally discovered this scroll from a corner of a secret room in our Demon Emperor's Palace. It is said to record a story about the twelve ancient demon gods related to the founder of our Great Demon God Sect. 's secret."

Hearing what the young master of the Demon Emperor's Palace said, Ye Feng's eyes suddenly showed a look of surprise, and he said: "The Twelve Ancient Demon Gods? Are they the legendary Twelve Ancient Demon Gods in the Demon God Space?"

The young master of the Demon Emperor's Palace nodded, then glanced at Ye Feng in surprise, and said, "I didn't expect you to have heard of the legend of the twelve demon gods in the demon god's space. I also entered the demon god's space several times." I didn't know it until the last time. I didn't expect you to know this secret just after entering it once. What is recorded in this ancient scroll is related to the twelve ancient demon gods. Legend has it that the founder of our Great Demon God Sect was one of the twelve ancient demon gods. , so the Great Demon God Sect was established and has been passed down to this day, and what is recorded in this ancient scroll has a great relationship with the Twelve Demon Gods. "

When Ye Feng heard this, he couldn't help but asked curiously: "Oh? Is it related to the twelve demon gods? Tell me."

The young master of the Demon Emperor Palace nodded and said: "It is said that the reason why the twelve ancient demon gods were able to open the interface barrier from the small world of the demon god space and enter the heaven was because they received the help of an extremely powerful and ancient artifact. This ancient artifact, after helping the twelve demon gods open the small world passage and enter the heaven, encountered the void turbulence in the interface passage between the interface barriers and fell on the edge of the blue zone of our heaven. "

When Ye Feng heard what the young master of the Demon Emperor's Palace said, he couldn't help but said in surprise: "You mean, back then, all the twelve ancient demon gods escaped from the small world of the demon god's space and entered the heaven. among?"

### Demon Emperor's Palace

The young master nodded and said loudly: "Yes, there is a record in the ancient notes left by the founder of our sect. At that time, the twelve demon gods worked together to open the interface channel, and with the help of that ancient artifact, they successfully passed The interface channel between the heaven and the heaven came to the heaven, and each created its own powerful force. However, some ancient demon gods chose to remain anonymous in the heaven. In any case, all twelve demon gods successfully entered the heaven, but they The extremely powerful ancient artifact in my hand was completely lost on the edge of the Blue Zone in our heaven, in a restricted area of life called the 'Land of the Meteor God'. This restricted area of life can be explored by ordinary cultivators. , there is no great danger. On the contrary, the more powerful people enter it, they will encounter terrible dangers. It is a very strange life restricted area. Therefore, even if the twelve demon gods have cultivated to a level close to the gods, We dare not enter the Land of the Meteor God because this restricted area of life is really strange. The stronger we are, the greater the danger we will encounter. On the contrary, the weaker we are, the less danger we will encounter. So if we form a team to go in and search for Maybe we can really find this ancient artifact, because I have this ancient scroll in my hand, which will guide us in the direction of finding the ancient artifact. "

At this time, hearing what the young master of the Demon Emperor's Palace said, Ye Feng's eyes revealed a look of deep thinking.

Ye Feng was not thinking about the dangers of this restricted area of life, but he was thinking about the flame demon he encountered in the small world of the demon space. Who was it?

Because according to the records left by the founder of the Great Demon God Sect, all the twelve Demon Gods had left that small world.

But when Ye Feng entered the small world of Demonic Space, he encountered the Flame Demon and was trapped in a spaceship. Moreover, the Flame Demon seemed to have never left the Demonic Space.

This made Ye Feng's thinking a little confused.

Could it be that the Fire Demon God he met was a fake, just pretending to be the Fire Demon God to improve his identity?

Or maybe the Fire Demon God among the twelve Demon Gods who left that small world was disguised by another strong man and was not the Fire Demon God himself.

And the Fire Demon God he encountered was the real Fire Demon God.

r\u003e

This is very possible. Maybe the mysterious man who left the small world disguised as the Fire Demon God was the strong man from the stars in the spaceship, and trapped the real Fire Demon God in the spaceship, while he himself He disguised himself as the Fire Demon God and had the official identity of cooperating with other Demon Gods, so that he could use ancient artifacts to leave the small world of those days.

Nowadays, it is very easy to enter and exit the small world of Demon God Space because the world rules of the small world are getting weaker and weaker, but back then, it was difficult for the creatures in it to leave.

At this moment, thinking about all this in his heart, Ye Feng shook his head.

This is not something you can figure out on your own.

Maybe when I meet the Fire Demon God in the future, I can ask all this in person.

At this moment, Ye Feng looked at the young master of the Demon Emperor's Palace in front of him, smiled and said: "Since it is an ancient artifact used by the twelve ancient demon gods, it can break the barrier between the small world and the heaven in ancient times. The interface channel is enough to show how terrifying this ancient artifact is. If you can really find this ancient artifact, whether you understand its charm or use it directly, it will be a priceless treasure. "

Hearing what Ye Feng said, the young master of the Demon Emperor's Palace immediately nodded and said: "If I can get this ancient artifact, the position of the leader of the Great Demon God Sect in the future will definitely belong to me, even if it is the so-called Demon Palace's The top genius is definitely no match for me. This time I have all the maps and information. I invite you, Ninth Young Master, to assist me in finding this ancient artifact. If you find it, I promise to give you one hundred thousand energy crystals. This is equivalent to ten years of your training resources. In addition, if I obtain the ancient artifact and become the master of the Great Demon God Sect in the future, then you, the Ninth Young Master, as my partner, can directly become the deputy master. , wouldn't it be nice to rule the entire Great Demon God Sect with me and dominate one side?"

At this moment, the young master of the Demon Emperor's Palace was speaking, his tone full of ambition and ambition.

Ye Feng heard what the young master of the Demon King Palace said at this time, thought for a moment, and then said aloud: "If I can really help and escort you to find the legendary ancient artifact, once you become a member of the Great Demon God Sect, Sect Master, I don't just want the false title of Deputy Sect Master, I want half of the cultivation resources in the Great Demon God Sect's treasure house as a reward. This is a real benefit, how about it?"

Chapter 5329 Completely Failed

At this time, Ye Feng naturally did not hesitate at all and directly released the Devouring Domain and began to devour the various cultivation resources stored in this private treasure house.

In addition to energy crystals, there are also many miraculous elixirs, which should have been refined or collected by the Ice Demon God back then. With his superb cultivation, he can no longer use them, so they are temporarily stored here, but now they are all Got Ye Feng's stuff.

At this time, Ye Feng did not hesitate. Along with the swallowing, a huge amount of energy was immediately injected into Ye Feng's dantian, causing Ye Feng's cultivation aura to increase at an incredible speed.

After all, you must know that the cultivation resources here are not the cultivation resources left by ordinary strong men, but the wealth left by the Ice Demon God, one of the twelve ancient demon gods, so they are naturally very abundant.

Ye Feng's cultivation aura immediately began to rise steadily.

boom!

The second level of Tianling Realm!

boom!

The third level of Tianling Realm!

boom!

The fourth level of Tianling Realm!

boom!

The fifth level of Tianling Realm!

boom!

The sixth level of Tianling Realm!

boom!

The seventh level of the Heavenly Spirit Realm! !

At this time, Ye Feng's cultivation suddenly broke through the entire sixth heaven, from the first heaven of the Heavenly Spirit Realm to the seventh heaven of the Heavenly Spirit Realm, which greatly strengthened Ye Feng's cultivation power.

This made Ye Feng's eyes suddenly show a look of joy.

Sure enough, the resources and wealth left by the Ice Demon God were extremely large and abundant, allowing him to achieve so many breakthroughs in his cultivation level all at once.

At this time, Ye Feng could feel the force as powerful as the ocean surging through his limbs, making Ye Feng feel like he could shatter the entire world with just one punch.

At this time, Ye Feng did not hesitate and continued to explore the next fortune.

In addition to the training resources that can improve one's skills, there are also many powerful inheritances, all of which are inheritances of the ice attribute. They should all be inheritances created by the Ice Demon himself.

However, Ye Feng has already understood the Ice Demon God's most powerful inheritance, the Ice God-Sealing Art, so naturally Ye Feng doesn't care much about these ordinary inheritances.

However, Ye Feng still collected them all into his storage ring.

Because although Ye Feng doesn't use these things very much, if he takes them out and sells them on the black market of the Great Demon God Sect, they will definitely fetch a lot of money.

At this moment, Ye Feng collected all the remaining powerful inheritances or ancient weapons and put them into his storage ring. Finally, Ye Feng was ready to leave here.

But at this moment, a spatial fluctuation suddenly emitted from Ye Feng's body.

Buzz!

The next moment, Ye Feng disappeared from the scene and was teleported out of the small world of the Demon God Space.

Obviously, the trial time in the Demon God's Space has come, and Ye Feng was automatically teleported out.

This made Ye Feng immediately couldn't help but sigh. Fortunately, he found the private treasure house left by the Ice Demon God at the last moment. Otherwise, he would really have missed something.

A huge opportunity.

Buzz!

At this moment, accompanied by a violent spatial fluctuation, Ye Feng opened his eyes again and found that he had returned to the area of the Great Demon God Sect.

At this time, Ye Feng saw teleportation formations all around him. What he was teleported out was the teleportation formation that belonged to the Demon God's Space.

Ye Feng looked around and found no one else who went in with him.

This made Ye Feng couldn't help but look at the elder of the Great Demon God Sect who was guarding the formation not far away, and asked: "Elder, haven't my other companions come out?"

The elder guarding the formation shook his head and said loudly: "Several people have come out early, but there are also several people who have never come out again. They have probably fallen into the small world of the Demon God Space."

Hearing what the elder said, Ye Feng nodded.

This situation is also normal.

After all, the small world of Demon God Space is a very dangerous world. Even a talented person like Ye Feng encountered several huge crises in it and almost fell into it, let alone other ordinary geniuses.

It is very normal for several geniuses to die in every trial, and it is nothing new. Therefore, the elder who guards the formation speaks in a very calm tone, as if he has long been used to it.

Ye Feng nodded towards the elder at this time, and then quickly flew directly towards his place of residence.

For Ye Feng, entering the Demon God Space Small World trial this time has brought huge benefits. Ye Feng naturally wants to return to his place of residence as soon as possible to stabilize his breakthrough in the Demon God Space Small World. practice, and refine the inheritance and treasures you have received to enhance your proficiency in use.

But just when Ye Feng was about to return to the place where he lived, a young man in black clothes suddenly blocked Ye Feng's way and said loudly: "You are the ninth young master of the Demon King's Palace, right?" ?"

Ye Feng nodded, looked at the young man in black, and asked aloud: "What's the matter?"

The young man in black immediately said: "Three days ago, the young master of our Demon Emperor Palace wanted to invite you, the ninth young master, to our Demon Emperor Palace to discuss a cooperation matter. Now the three days have passed, but you, the ninth young master, have not shown up. Do you want to break your promise? The ninth young master personally promised us that he would go to see the young master of our Demon Emperor Palace."

Hearing what the young man in black said, Ye Feng smiled slightly and said: "I didn't expect that three days would pass so quickly. I was training in the Demon God Space Small World for these three days, so I was delayed a little. Now I can go with you to see your Demon Emperor Palace Young Master."

Hearing what Ye Feng said, the young man in black suddenly He showed a look of surprise and said, "I didn't expect the Ninth Young Master to be so powerful that he could survive in the Demon God Space Small World for three whole days. There are many powerful geniuses in our Great Demon God Sect. After training in the Demon God Space Small World for one or two days, they will encounter great danger and take the initiative to request to be teleported out. It seems that the Ninth Young Master of the Demon King Palace is indeed worthy of his reputation. He is a truly peerless genius. No wonder the young masters of our Demon Emperor Palace value you so much.

You know, the young master of our Demon Emperor Palace has always been extremely arrogant and never takes anyone seriously, except for the group of top geniuses in the Demon God Palace. The fact that he can invite you, the Ninth Young Master of the Demon King Palace, to discuss cooperation is enough to show that you are a truly top genius."

Chapter 5330 Something bad is happening

Uh-huh!

At this time, Ye Feng directly stretched out his hand and touched the huge ice book.

Boom!

The next moment, a huge and boundless secret of inheritance was immediately injected into Ye Feng's head.

This set of inheritance mysteries is exactly what the Ice Demon God inherited back then, and it is called the Ice God-Sealing Technique.

This set of inheritance was created by the Ice Demon God before he became a god.

Because of this set of inheritance, the Ice Demon God finally became a god and became one of the twelve demon gods in this small world. He was ranked as a god and possessed extremely terrifying strength.

Just by looking at the complexity and vast secrets of this inheritance, Ye Feng was able to tell that this Ice Demon God might have been much more powerful than the Fire Demon God back then.

At this moment, Ye Feng did not hesitate at all. He directly began to absorb the inherited secrets of this set of Ice God-Sealing Techniques and integrated them into his own martial arts heart. In this way, Ye Feng could skillfully use this set of Ice The Art of Conferring Gods.

Ye Feng judged that the inheritance in the supreme bone of the ancient beast that he had received before, the Nine Heavens Thunder Dragon Technique, was not as good as this set of Ice God-Sealing Techniques.

However, the Nine Heavens Thunder Dragon Technique also has its own special features, because the Nine Heavens Thunder Dragon Technique allows Ye Feng to absorb the power of thunder from heaven and earth above the nine heavens without consuming his own skills.

This set of Ice God-Sealing Techniques requires consuming one's own strength to create the air of ice, but it has a terrifying freezing effect. It can be regarded as a control system inheritance, which is different from the Nine Heavens Thunder Dragon Technique.

The Nine Heavens Thunder Dragon Art is responsible for killing and violent attacks.

At this moment, Ye Feng didn't hesitate at all and started to comprehend this Ice God-Sealing Technique directly on the spot.

Ye Feng's comprehension ability is very strong, so in just half a day, Ye Feng has completely understood and controlled this set of Ice God-Sealing Techniques.

When Ye Feng successfully understood this set of Ice God-Sealing Techniques, he was naturally very happy, because his overall strength had been greatly strengthened.

At this moment, Ye Feng walked quickly towards other directions of the Crystal Palace, trying to find the remaining wealth inside.

However, what surprised Ye Feng was that apart from this set of inheritance, there seemed to be nothing else in the Crystal Palace. It was completely empty.

"Damn it, all the training resources back then may have been directly used and eaten by that one-horned monster."

Ye Feng cursed secretly in his heart.

However, if this one-horned monster did not consume so many training resources, the one-horned monster would not have become so powerful, nor would it have provided Ye Feng with so much blood energy, allowing Ye Feng to break through the big bottleneck just now and enter Entering the first level of the Heavenly Spirit Realm, a new and powerful realm.

In other words, Ye Feng indirectly used the training resources left in this crystal palace, but with the help of the one-horned monster as an intermediary.

At this time, Ye Feng thought so in his heart and became happy again.

Ye Feng was about to leave here directly at this moment, but suddenly at this moment, Emperor Chu in his mind said: "Ye Feng, don't leave in a hurry. This crystal palace seems to be hiding something."

There is a very secret formation. Your soul power is not strong enough to sense the existence of this formation, but I can sense it. You carefully search every inch of this crystal palace to see the hidden formation. Where is the law? Because I'm not sure about the location now, but I can sense the fluctuation of a very obscure formation. "

"Um?"

Hearing what Emperor Chu said, Ye Feng suddenly showed a look of surprise in his eyes, and then he couldn't help but said: "Even I, as a soul master, didn't notice this formation. Only you, Emperor Chu, To be able to sense it is enough to show how hidden this hidden formation is."

When he said this, Ye Feng's eyes suddenly showed a look of great expectation, and he said loudly: "Since this formation is so hidden, it seems that the Ice God King must have wanted to use this crystal in the past. There is something hidden in the palace. If we can find this hidden formation, it may lead to a mysterious space, where the Ice God King's most valuable wealth may be hidden."

Hearing what Ye Feng said, Emperor Chu in his mind nodded and said aloud: "It's very possible."

Ye Feng nodded excitedly, and without wasting any more time, he searched inch by inch for every part of the Crystal Palace where the Ice Demon God lived.

After Ye Feng's carpet-like search, Ye Feng finally discovered a mysterious mark from the southwest corner of the crystal palace.

This mysterious mark should be the key to unlocking that formation.

Ye Feng naturally did not hesitate at all. He directly input mana into the mysterious mark on the ground and directly activated the very secret formation.

Buzz!

At this moment, as the hidden formation was activated by Ye Feng, Ye Feng directly saw that there was a small secret room sealed inside the formation.

Although this secret room is very small, it is filled with dense treasures, including various energy crystals, cultivation resources, elixirs, and many high-level weapons. Even after many years, it still exudes the aura of weapons.

At this time, seeing the treasures that filled the entire secret room, Ye Feng's eyes suddenly showed ecstasy, and he said aloud: "This is the real private treasure house left by the Ice Demon God. The cultivation resources that the one-horned monster got in the crystal hall are just some petty gains."

At this moment, Ye Feng naturally did not hesitate at all, and directly passed through the seal of this formation and entered the treasure house secret room inside.

Next, Ye Feng first saw that there were more than a dozen boxes of energy crystals emitting different colors of light on the ground, which should be left by the Ice Demon God.

However, the Ice Demon God did not take these wealth away before leaving his residence, which means that these wealth is no longer of much use to a strong man of the level of the Ice Demon God, so they are temporarily placed in his residence.

However, these things may not have much value for a super big man like the Ice Demon God, so they are just piled up in the private treasure house of the residence.

But for a young cultivator like Ye Feng who is only in the first level of the Heavenly Spirit Realm, these things are huge wealth!
