### Chapter 5371 The End of Life

Hearing what Ye Feng said, Leng Rushuang nodded and said: "It seems that the Ninth Young Master has been in the Great Demon God Sect before, cultivating alone and not knowing many things in the heaven. It is normal, then let's Let me explain to you, although our heaven is the number one high-level interface among all the worlds, it ultimately belongs to a low-level cultivation dimension. Therefore, even if our heaven is the most advanced interface among the low-level cultivation dimensions, It can't compare to those cultivation worlds of higher cultivation dimensions."

Hearing what Leng Rushuang said, Ye Feng's eyes flickered slightly and he said, "The dark world you mentioned is not a world of advanced cultivation latitude."

Leng Rushuang shook his head and said aloud: "The end of the world in the legendary origin world, the extraterrestrial world connected to it, is the world of advanced cultivation dimensions. The dark world is not a world of advanced cultivation dimensions, but the world of advanced cultivation dimensions spreads to It is an edge area of a lower-dimensional world like ours. This edge area is ruled by dark races, so it is called the dark world."

The Young Master of the Demon Emperor Palace also spoke up at this time: "Nine Young Masters, to put it simply, the dark world is a buffer area sandwiched between our heavenly world and the higher cultivation dimension world, so the dark world is not as scary as imagined, but after all, it is The outer world is a part of the edge of the world that has spread from the higher cultivation dimension. Therefore, the dark races in the dark world are all very powerful. Although they will not cause a dimensionality reduction blow to our heaven, they are still very powerful. After all, they are Races from the extraterrestrial world, a higher cultivation dimension, and the wasteland is the junction area between our heaven and the dark world. The dark races in the dark world have always wanted to invade our heaven and occupy the fertile land in our heaven. Land and heaven and earth resources, so the super forces in each region of our entire heaven will send very powerful super strong men every year to station in the buffer area of the wasteland to fight against those ferocious dark races in the dark world. "

After the young master of the Demon Emperor Palace finished speaking, Leng Rushuang, the saint of the Frozen Temple, also became serious in her eyes. She was a little serious, but also had some natural fear. She said aloud: "Those dark races in the dark world are rumored to be... In the Outer World, a powerful race in a world of advanced cultivation dimensions, an inferior race was expelled. However, they were very cruel and vicious, more cruel and bloodthirsty than the various demon races we have encountered before. These dark races were expelled to the dark world. Later, I discovered that there was a border with our heaven, so I always wanted to invade our entire heaven

through the junction of the wasteland and kill all living beings. Therefore, the wasteland is a very cruel place of war, but also the more In a cruel and dangerous place, the more opportunities there are, many of the well-known big figures in our heaven have once fought and fought with the dark races in the dark world in the wasteland, and have obtained all kinds of things brought by the dark races from the outside world. With the help of divine weapons, powerful cultivation resources and high-level elixirs, he becomes even more powerful and transcends the level that the heaven itself can produce.”

The young master of the Demon Emperor's Palace also nodded at this moment and said aloud: "So the Wasteland has always been a very scary and cruel place in the minds of many practitioners in our heaven, and it may happen at any time. They fell after encountering the dark race, because the dark race came from the outside world after all. Even if they were expelled, they were extremely powerful, had amazing fighting power, and were cruel and bloodthirsty. However, in order to protect the safety of the entire heaven, the super giants in all major regions of the heaven The forces all have an agreement, that is, they will send extremely powerful beings among the sects into the wasteland every once in a while to resist the invasion of the dark races in the dark world. Of course, there are also many peerless geniuses in our heaven. I think You need to experience yourself in the most dangerous places and make breakthroughs in life and death, or you want to obtain advanced weapons and elixirs brought by the dark race from the outside world to break through yourself, improve your physique, and strengthen the source of life. Therefore, there are many people every year. Few of the peerless geniuses in our big sects in the heaven, or some powerful elders, take the initiative to apply to enter the wasteland to fight against the dark race. On the one hand, they want to experience themselves, and on the other hand, in the wasteland and the dark world The fight against the dark race is also the responsibility of every practitioner in the heaven. It is to protect our hometown and fight for the billions of living beings in the entire heaven."

Hearing what the two said at this moment, Ye Feng's eyes showed deep surprise.

Unexpectedly, the high-ranking No. 1 Advanced Interface Tianjie could be such a huge threat.

Practitioners in the entire heaven have such heavy responsibilities.

Every year, countless strong men enter the wasteland, fight against the dark races in the dark world, and resist the other party's invasion.

At this moment, Ye Feng seemed to have thought of something, and couldn't help but say: "The heaven is vast, there are countless powerful people on the earth, and there are even powerful beings comparable to gods. Why don't everyone unite and go directly to the wasteland?" We will go through the land of wasteland and enter the dark world where the dark races live, and wipe out all the dark races to completely solve this scourge.”

Hearing what Ye Feng said, several people present were stunned for a moment, and then Leng Rushuang shook his head and smiled, and said nothing more.

The young master of the Demon Emperor Palace smiled bitterly and said: "Young Master Ninth, do you know how the Twilight of the Gods came about tens of millions of years ago? In ancient times, countless gods in our heaven fell. What was the reason? Is it because of what you said just now, Ninth Young Master."

Leng Rushuang nodded slightly and said aloud: "When our heaven was at its most glorious, there were hundreds of god-level beings, and some were as powerful as gods. They were unwilling to participate in such a dangerous battle, but chose to leave directly. Heaven, breaking through the boundary and ascending to the higher cultivation dimension of the outside world, leaving the dangerous place of heaven, and going freely. Of course, most of the existences at the god level have a heavy sense of responsibility and choose to unite together and pass through the wasteland. , entered the dark world, and had to fight to the death with the dark race, but after that battle, almost all the super strong men of the god level in the heaven were killed and injured, and they all fell into the dark world. They still don't know that they died in the darkness. The specific location of the world, but I estimate that the terrible war of gods that year also wiped out many super strong people among the dark races in the dark world. Therefore, over the years, the dark races in the dark world have not A large-scale attack on the Heaven Realm is just at the junction of the Wasteland, constantly eroding the edge area of the Heaven Realm. So what you just thought, Ninth Young Master, is that the top powerhouses in the Heaven Realm have not done it before, but have failed. Now thousands of Thousands of years have passed, and our heaven has never given birth to a super powerful person at the level of a god. However, the dark race in the dark world seems to have given birth to a very powerful existence, almost comparable to the gods. Today's dark race is once again ready to move, and it seems that it is no longer satisfied. Instead of slowly eroding the edge of our heaven in the wasteland, we want to go through the entire wasteland and attack the heaven on a large scale. Therefore, what many ordinary practitioners in the heaven today do not know is that the heaven appears to be prosperous on the surface. In fact, it is already in danger. The giants and superpowers in various major regions of our heaven have sent more and more superpowers into the wasteland in recent years to fight in bloody battles. This is enough to illustrate the ambition of the dark race nowadays. It's getting bigger and bigger, and the attacks are getting more intense."

The young master of the Demon Emperor Palace nodded, his eyes full of solemnity, and said: "I heard that one of the Supreme Elders of our Great Demon God Sect is about to live for a long time. He did not want to waste his great strength and took the initiative to apply to go to the wasteland. At the end of his life, he tried to kill more dark races and contribute to the heaven. Finally, last month, he died in the wasteland, stained with blood on the battlefield, and died in a foreign land. "

After the young master of the Demon Emperor Palace finished speaking, Ye Feng's eyes suddenly became deep.

Unexpectedly, there is such a huge threat in heaven.

At this moment, Leng Rushuang stared at Ye Feng and couldn't help but said: "So what I want to say to the Ninth Young Master tonight is that I want to invite the Ninth Young Master to go to the wasteland with me. , help me fight life and death in the wasteland, and understand the secrets of the peerless inheritance that I have learned so far, I will be rewarded greatly, and fighting the dark race in the wasteland can also be regarded as making meritorious service to my heaven. Every time a dark race is killed, according to the strength level of the dark race, the upper levels of the alliance in each major area of the heaven will give various rewards to those of us who have made meritorious service in fighting for the heaven, and give a lot of training resources, but I don't forcibly, whether the Ninth Young Master is willing to go to the wasteland and experience the true cruelty depends entirely on the Ninth Young Master's own decision. I only provide this opportunity to the Ninth Young Master, because currently, with the Ninth Young Master's I'm afraid I won't be able to actively apply to enter the wasteland."

The young master of the Demon Emperor's Palace couldn't help but said: "Young Master Ninth, although your combat power is strong now, your cultivation is still a little weak after all. There is no need to take risks in the most cruel place like the Wasteland. , when you become truly powerful, it is no problem to go to the wasteland to fight for the human race and the heaven, because we practitioners of super powerful forces, especially outstanding geniuses, or the future To become a powerful elder, at the end of life, the final destination is to burn the last bit of life, fight for the billions of living beings in the entire heaven, enter the wasteland, and die in it, so this kind of thing is not urgent. "

At this moment, the young master of the Demon Emperor's Palace was speaking, with a fatalistic solemnity in his tone.

At this time, Ye Feng thought for a moment, and suddenly looked at Leng Rushuang in front of him, and said loudly: "I am willing to accompany Miss Rushuang to the wasteland. It is also a good thing to go and check the situation in advance, so that I am mentally prepared for my future destiny, but before that, I still have one very important thing to do. After finishing it, I will go to the Immortal Sect to find you, Miss Rushuang."

Chapter 5372 It's really a good deal

At this moment, when he heard Ye Feng suddenly say such words and actually agreed to go to the wasteland with him, a look of surprise suddenly appeared in Leng Rushuang's beautiful eyes. It seemed that Ye Feng had not expected that Ye Feng would go to the wasteland with him. The wind decided so quickly.

Leng Rushuang immediately smiled and said: "I don't know why the Ninth Young Master suddenly agreed so quickly. Just now I saw that the Ninth Young Master was still a little hesitant."

Ye Feng smiled and said: "The wasteland, although I heard you say it is a very dangerous place, but for me, it may be a place of opportunity. You also know that I need powerful creatures for my cultivation. Blood energy, so the dark races living in this wasteland come from the advanced spiritual world of the outer world. The energy contained in the bodies of powerful races in this advanced spiritual world is absolutely huge. "

Hearing what Ye Feng said, the young master of the Demon Emperor Palace couldn't help laughing and said: "These dark races are indeed very powerful races for us practitioners in the heaven, but there is one thing I need to prove. What is surprising is that these dark races are not so-called powerful races in the high-level cultivation world of the outer world, but are inferior races that were expelled to the dark world, a place of exile. In other words, the dark races are in the advanced world of the outer world. In the world of cultivation dimension, it is a very weak race, but it is definitely much stronger than the practitioners in lower dimensions like us in heaven."

Leng Rushuang said with a smile at this time: "In any case, the Ninth Young Master promised to go to the wasteland with me and help me break through the secret of my inheritance in the life and death fight. I am very grateful to the Ninth Young Master. For your help, don't worry, I will definitely give you a generous reward after the work is completed."

Ye Feng nodded slightly, and then asked with some confusion: "Actually, I am quite confused about one thing. Logically speaking, a peerless genius like you, Miss Rushuang, must have great power in the Immortal Sect. There are many You should be able to mobilize the powerful elders. As your own protective force, Miss Rushuang can bring a group of extremely powerful elders into the wasteland to protect your cultivation. Why do you have to invite someone like me? A young person? Although my combat power is also very strong, it is definitely not comparable to those of the elders in the Immortal Sect."

Hearing what Ye Feng said at this time, before Leng Rushuang could say anything, the young master of the Demon Emperor Palace couldn't help but shook his head and said with a bitter smile: "Young Master Ninth, you don't know, in the wasteland, In such a place, once a very powerful senior practitioner of the human race appears, the huge cultivation aura and life fluctuation will definitely attract the attention of the super powerful dark race in the entire wasteland, and they will focus on killing these human race. The strong elders."

Leng Rushuang also nodded slightly at this moment, with very solemn eyes, and said loudly: "If those particularly powerful elders enter the wasteland, they will definitely become the target of public criticism, so unless they are some elders who are about to reach the end of their lifespan, A

strong person will enter the wasteland if he wants to burn his last bit of life and fight for the entire heaven. At the end of his life, he will kill as many dark races as possible to prevent the dark races from invading the entire heaven. This time I entered the Wasteland, not to fight to the death, but to understand the secret of my inheritance in the fight, so I don't want to mobilize troops. If I enter the Wasteland with many powerful elders, I will definitely It would be more dangerous to cause the dark race to target us than to go there alone."

When Ye Feng heard the explanations from Leng Rushuang and the young master of Demon King Hall, he suddenly nodded in realization.

At this moment, Leng Rushuang stared at Ye Feng, smiled slightly and said: "A peerless genius like the Ninth Young Master with unparalleled combat power is the most perfect choice, because the Ninth Young Master's cultivation Because the breath is actually not that powerful, it will not attract such powerful dark races, but the real combat power of the Nine Young Masters far exceeds your own current cultivation level, so this is my perfect partner. We will neither attract very powerful dark races, nor do we have to worry about our own safety, because the fighting power of the Ninth Young Master far exceeds our own cultivation level. Even if we are surrounded by a group of dark races of the same level, I am afraid that the Ninth Young Master will also be able to solve these problems."

Hearing what Leng Rushuang said, Ye Feng immediately nodded and said, "Okay, I understand."

Leng Rushuang also stood up at this moment, and walked towards the distance with Su Xin beside him, and said aloud: "Now that the matter is over, it's time for me to leave Tianbing City, and I will return to the Immortal Sect. , I still need more preparations before I can go to the wasteland. After all, it is the most dangerous place in our world. I am preparing and waiting for your arrival, Ninth Young Master. "

Ye Feng nodded slightly, stood up, smiled and said: "After I finish my work, I will go to the Immortal Sect to find you, Miss Rushuang, and then we can go directly to the wasteland. "

"Thank you very much, Ninth Young Master, for agreeing to my invitation."

Leng Rushuang cupped her hands to Ye Feng to express her gratitude. She stared at Ye Feng with her beautiful eyes for one last time, then turned and left.

Su Xin looked at Ye Feng for a long time, and finally turned her head shyly under Ye Feng's smiling eyes, followed Leng Rushuang behind, and left the scene.

At this moment, looking at the two people's retreating figures, the young master of the Demon Emperor's Palace couldn't help but stand up, looked at Ye Feng beside him, and asked with some confusion: "Young Master Ninth, do you usually You are not a particularly adventurous person. Why would you risk going to a very dangerous place like the Wasteland? You are practicing in our Great Demon God Sect. The current cultivation resources of our Great Demon God Sect can still satisfy your current cultivation. Could it be that the Ninth Young Master has taken a fancy to Leng Rushuang, the saint of the Frozen Temple? However, the Frozen Saint is indeed a goddess-level figure, not to mention the immortal sect, and there are many in the entire southern area of the heaven. The first choice for the perfect martial arts partner in the mind of the peerless prodigy. After all, the Frozen Saint herself is extremely beautiful, and her cultivation talent is also very powerful. She has inherited the destiny of the Frozen Temple, and she will definitely become the Frozen Saint in the future. The next Holy Master of the temple has a distinguished status."

Hearing what the young master of the Demon Emperor's Palace said, Ye Feng smiled dumbly and said, "Of course I'm not attracted to Leng Rushuang, the Saint of the Frozen Temple. We haven't gotten to know each other that well yet. , this time in Tianbing City is just the first meeting between the two of us. How could I have any wrong ideas? I just think that the wasteland is a very suitable place for me to quickly improve my cultivation. Where strength lies, young master of the Demon Emperor Palace, you must know that in just one year, I will take part in the sect master assessment with you. By then, we will not only face the younger generation of the Great Demon God Sect, but also the younger generation of the Great Demon God Sect. That's right, all the powerful elders in the entire Great Demon God Sect who want to be the leader of the sect, even super big shots like the master of the Demon God's Temple. If I don't take risks to go to some special places within this year, I will How can we quickly improve our cultivation aura by relying on the meager cultivation resources distributed by the Great Demon God Sect every month?"

"Forehead....."

Hearing what Ye Feng said, the young master of the Demon Emperor's Palace immediately stared blankly, and then fell silent.

The next moment, the young master of the Demon Emperor's Palace reached out and patted Ye Feng's shoulder. He seemed to be quite moved and said, "Thank you, the ninth young master, for being so considerate of me and being able to help me so sincerely. Thank you very much!"

At this time, the young master of the Demon Emperor's Palace suddenly felt that it would be a good deal to exchange half of the wealth in the entire Great Demon God Sect's treasury for the full help of Ye Feng, a peerless genius, because Ye Feng's execution ability is really Too strong.

Chapter 5373: Searching for the Cave

At this time, Ye Feng spoke up and said: "Young Master of the Demon Emperor's Palace, we don't have anything else to do in Tianbing City."

The young master of the Demon Emperor Palace nodded and said: "There is nothing else to do for now. We can leave here directly after breakfast."

After everyone had breakfast, Ye Feng, the young master of the Demon Emperor's Palace, and a group of elders from the Demon Emperor's Palace, left Tianbing City and flew quickly in the direction of the Great Demon God Sect.

Walking on the road outside the wilderness, Ye Feng looked at the young master of the Demon Emperor's Palace beside him and said loudly: "Let's separate here in the wilderness. I will not return to the Great Demon God Sect temporarily with you, the young master of the Demon Emperor's Palace. I have other things to do. After finishing them, I will go to the Eternal Life Immortal Sect to find Leng Rushuang, the Saint of the Frozen Temple. But don't worry, Young Master of the Demon Emperor's Palace. Before the sect master's assessment in a year's time, I will definitely return to the Great Demon God Sect."

Hearing what Ye Feng said, the young master of the Demon Emperor Palace suddenly showed a look of surprise in his eyes, and asked aloud: "Before, you told the saint of the Frozen Temple that you had a very important thing to do. After that, you can go to the wasteland with her. Is what you want to do later the thing you said? "

Ye Feng nodded.

The young master of the Demon Emperor's Palace saw that Ye Feng didn't say much, knowing that the other party didn't want to talk too much to him.

Regarding this, the young master of the Demon Emperor's Palace didn't feel anything. After all, everyone has their own private secrets, and sometimes there is no need to ask so clearly.

So at this time, the Young Master of the Demon Emperor Palace smiled slightly and did not ask any more questions. Instead, he patted Ye Feng on the shoulder and said loudly: "In one year, with your peerless talent, Ninth Young Master, there will be no problem." Yes, it will definitely become much stronger than I imagined. I look forward to meeting you again in one year, Ninth Young Master."

After finishing speaking, the Young Master of the Demon Emperor's Palace once again reminded Ye Feng and said: "Young Master Ninth, you must be careful of the dangers in the wasteland. Those

dark races are too terrifying. If you encounter something huge by then, If you really can't stand the crisis, you can abandon the Saint Leng Rushuang of the Frozen Temple at the critical moment and escape alone. There is no need to risk your life for a Saint of the Frozen Temple. "

I have to say that the young master of the Demon Emperor's Palace is an extremely calm person. Although what he says is a bit ruthless, he is also sensible enough.

When he heard what the young master of the Demon Emperor Palace said, Ye Feng just smiled and said: "Don't worry, I know what to do."

The young master of the Demon Emperor Palace nodded, patted Ye Feng's shoulder, and said, "See you again in a year."

After the words fell, the young master of the Demon Emperor's Palace no longer hesitated. He quickly left the scene with a group of more than a dozen senior experts from the Demon Emperor's Palace around him, and flew towards the direction of the Great Demon God Sect.

Ye Feng took out a special map from the storage ring.

This map is exactly the map Ye Feng obtained from the Nine Dragons Shrine.

The place pointed to by this map is the place in the cave left by the most powerful group of beings in the heaven, a super strong man called the Nine Dragon Gods. It contains the legacy and wealth of the Nine Dragons Gods.

The Nine Dragons True God Technique that Ye Feng practiced was obtained from the Nine Dragons Shrine left by the Nine Dragons God.

This Nine Dragon God did not die in ancient times, but ascended to the extraterrestrial world of a higher cultivation dimension.

Therefore, if Ye Feng is looking for the cave of the Nine Dragon God, he is not afraid of encountering any danger left by the ancient powerful man.

After all, the map Ye Feng got from the Nine Dragons Shrine was originally left to his descendants by the Nine Dragons God, so he would definitely not set any trap for his descendants.

As long as Ye Feng follows this map to find the cave of the Nine Dragon God, he can obtain the mantle, inheritance and wealth of this super powerful man.

At this moment, Ye Feng glanced at the map, identified the general direction, and immediately flew towards that area quickly.

This descendant of the Nine Dragons God is in the southern area of the heaven, so the cave where the Nine Dragons God left his cave is also in the southern area of the heaven, but it is in a relatively remote place, as if it is in the surrounding primitive Deep in the forest, we are almost reaching the junction of the southern area of the heaven and the eastern land of the heaven.

This made Ye Feng's eyes suddenly show a look of hesitation.

According to the map, the location of the final cave of the Nine Dragon Gods seems to be deep in this primeval forest, close to the eastern land. When the time comes, I might encounter a powerful person from the eastern land of China. Practitioner.

Facing the practitioners in this most glorious area of the heaven, Ye Feng actually didn't have much confidence. After all, Ye Feng had seen the strength of many powerful people from the eastern land who participated in the auction in Tianbing City before. Indeed, Very scary.

Although those cultivators on the land of China in the eastern part of the world are a little aloof and do not think highly of other cultivators in remote areas, Ye Feng feels that if they are just ordinary cultivators and are not extremely vicious people, they should not target him when they see him. I am a practitioner in the southern region of heaven.

In fact, what Ye Feng is most worried about is the beasts in this primitive forest who are particularly hostile to humans.

After all, the beast tide that Tianbing City encountered before was caused by a mysterious beast king deep in this primeval forest.

Ye Feng prayed in his heart, hoping that he would not meet the Beast King, otherwise, he would definitely kill him, the peerless genius who protected the entire Tianbing City.

The Beast King stopped killing before because he was afraid of the big killer weapon prepared by a group of senior strong men in Tianbing City.

But Ye Feng is alone now, and he doesn't have any big killer weapon.

At this moment, Ye Feng is flying in the vast primeval forest area, shielding his life fluctuations and cultivation breath as much as possible, so as not to attract the attention of the Beast King level.

Ye Feng is very clear that his current cultivation realm has been greatly improved. As long as he does not encounter such a terrifying existence as the Beast King, even if he encounters more than a dozen Beast Kings, Ye Feng is not afraid.

Before Ye Feng's cultivation had not yet broken through, he was already able to fight two alone, alone, and single-handedly fight the joint attack of two Beast Kings.

Now Ye Feng's cultivation has been through the blood energy of the two Beast Kings and the huge cultivation resources provided by Tianbing City. Breakthrough a whole realm and step into the brand new fifth level of Shengang Realm.

So now Ye Feng is capable of facing more than a dozen beast kings alone without fear.

Of course, Ye Feng is not blindly confident, and he knows very well that he is still far from the beast king level.

So Ye Feng is still very low-key along the way.

After all, Ye Feng is flying in this primeval forest not to hunt ancient beasts, but just to find the cave left by the Nine Dragon God.

Ye Feng decided in his heart that after finding the inheritance and wealth in the cave of the Nine Dragon God, he would immediately leave this dangerous area and fly away.

Chapter 5374 Beast Hunting Team

In the vast primeval forest, there are towering trees everywhere, towering to the sky.

In the depths, there are roars of ancient beasts, looming, and ordinary practitioners dare not enter it at all.

Even after Ye Feng flew halfway and was about to reach the deep area of the primeval forest, he landed from the sky.

Because Ye Feng discovered that in the deep area of the primeval forest, there were sometimes terrifying giant beasts flying in the sky.

The cultivation aura emanating from those giant beasts was almost comparable to the top beast kings, and they were about to become beast kings.

So even if Ye Feng's cultivation strength has been further improved, he dare not easily fight with the top beast kings in the primeval forest.

Because Ye Feng couldn't kill with one blow, it was very likely to cause the existence of the beast king level in the primeval forest to discover him.

After all, Ye Feng came to the primeval forest this time not to hunt ancient beasts, but to find the cave of the Nine Dragon God, so it is better to keep a low profile.

Therefore, when Ye Feng was about to fly to the deep area of the primeval forest, he directly landed from the sky and landed on the forest ground alone.

The surroundings were blocked by countless high-rise trees, and it was impossible to distinguish the direction.

But based on the approximate position in the sky just now, Ye Feng could easily shuttle and walk on the most correct path on the ground of the forest.

However, the closer the primeval forest is to the deep area, the more dangers there are on the ground.

Ye Feng had not walked far when he found that a golden centipede that was several hundred meters long was entangled on a large branch in front of him that was several thousand meters high.

However, this large centipede did not move, and seemed to be sleeping. The breath it exuded was the breath of a top beast king!

Ye Feng's eyes were shocked. He didn't expect that in the deep area of this primeval forest, he could easily encounter a top beast king-level existence.

Ye Feng didn't want to entangle with this terrifying creature. He quickly moved away from the golden centipede entangled on the big tree in front of him and went around the side.

Ye Feng continued to move forward, and after walking for nearly a few thousand meters, he suddenly encountered a river in the forest, blocking his way.

In this river, the water surface looked very clear, but under the river, Ye Feng saw that there were dense fist-sized poisonous beetles crawling.

Once a beast fell into this river, it would definitely be eaten to death by countless dense poisonous beetles.

Ye Feng carefully flew over the water, shuttled, and crossed the surface of this river.

It must be said that the deeper you go into the forest, the more terrible the crisis you encounter.

However, Ye Feng is not an ordinary practitioner after all. Ye Feng is a soul master with a very terrifying perception.

So in this extremely dangerous primitive jungle, Ye Feng passed every time on his way forward without danger.

...

Time passed quickly, like flowing water without a trace.

Three days passed in a blink of an eye.

In the morning of this day, Ye Feng looked at the map in his hand, and his eyes suddenly showed a look of expectation.

Because Ye Feng was almost approaching the cave of the Nine Dragon God as indicated on the map.

Buzz!

But suddenly at this moment, a violent energy fluctuation came from a certain direction not far away, as if there were strong men fighting.

Ye Feng sensed this fluctuation, and his eyes immediately showed a look of surprise.

After all, in the deep area of this primeval forest, the battle fluctuations that Ye Feng usually encountered were two ancient beasts fighting, and it was rare to sense the fluctuations that seemed like human cultivators fighting.

"Even if there are human cultivators here, it should not be because of the cave of the Nine Dragon God. After all, the map of the cave of the Nine Dragon God is currently in my hands..."

At this moment, Ye Feng murmured, and immediately flew quickly towards the direction where the energy fluctuation came from, wanting to see what happened.

And just when Ye Feng was about to approach the location of the energy fluctuation he had just sensed, Ye Feng suddenly saw a very surprising scene.

I saw five or six fully armed practitioners standing together at this moment, besieging a big snake covered with black scales.

This big snake covered with black scales had two huge horns like dragon horns on its head. It seemed that there was a trace of ancient dragon blood in its body, and it was about to evolve into a dragon.

And the aura of cultivation emanating from its body was the aura of a beast king.

However, this black giant snake with two dragon horns was trapped by five or six fully armed human practitioners with various special chains at this moment, and it could not escape at all.

"Huh?"

Ye Feng saw this scene and found that the aura of cultivation of the five or six human strongmen was similar to his own, but they worked together to fight a beast king.

It can be seen that these people are well-trained, and they are probably specially trained to hunt some powerful beast kings in the depths of this primeval forest.

Ye Feng thought to himself that there shouldn't be such a powerful hunting team in the southern area of the heaven. It was probably a powerful hunting team from the eastern Shenzhou land on the other side of the primeval forest.

After taking a look, Ye Feng didn't intend to cause any more trouble, and turned around to leave.

But suddenly at this moment, the black snake that was locked by countless chains just now opened its mouth and spit out a large piece of thunder and lightning, and actually "cracked" and broke all the chains.

Seeing this scene, a strong man in black armor in the hunting team suddenly changed his face and couldn't help but exclaimed: "Not good! This thunder python seems to have broken through a gene lock in the battle and struggle just now, unlocking the thunder power passed down from ancient times in its blood, and can actually spurt out thunder light with such amazing destructive power!"

At this moment, the other members of the hunting team also showed ugly eyes and quickly retreated.

At this moment, the black snake opened its mouth again.

Crack!

Another terrible thunder and lightning flashed out and directly hit the captain of the hunting team just now, that is, the strong man in black armor.

At this moment, the strong man in black armor took out a large silver-white shield from his storage ring and blocked it in front of himself, trying to resist the lightning.

However, this beast king-level black snake seemed to have awakened the lightning released by this thunder talent, which was very terrifying. It directly electrocuted the silver-white shield in the hands of the strong man in black armor and instantly knocked the strong man in black armor out, and fell heavily on the ground not far away, smashing a large area of trees.

The strong man in black armor immediately spit out a mouthful of blood, and couldn't help but said in horror: "The strength of this thunder python is more than a little stronger than before, and it has also unlocked the thunder power in its blood. Let's retreat quickly. This primary beast king may have evolved into an intermediate beast king. We can't deal with it. Retreat quickly!"

The other members of the hunting team also nodded in panic, wanting to give up this prey and escape quickly.

But at this moment, a young man in white clothes suddenly appeared.

In the horrified eyes of the group of beast hunting team members, the young man in white clothes just stretched out a palm.

That palm immediately expanded rapidly and turned into a golden hand as majestic as a mountain, which suddenly blasted the ferocious Thunder Python directly to the ground.

The lightning and lightning spewed out by the Thunder Python could not hurt the golden hand at all, and its head was smashed on the spot, and it died instantly.

"Hiss!"

"What kind of terrifying strength is this?"

At this moment, all the members of the beast hunting team were stunned, their eyes full of shock.

The young man in white clothes was naturally Ye Feng.

The first reason why Ye Feng suddenly took action to kill the Thunder Python that had just entered the intermediate beast king was to rescue the members of the beast hunting team who were also human beings.

Otherwise, a mad intermediate beast king may not be able to wipe out all the members of the beast hunting team, but it will definitely cause more than half of the team to be killed or injured.

The second reason is that since this primary beast king has transformed into an intermediate beast king, his blood energy has increased greatly, and Ye Feng's move to kill it is naturally a great tonic.

Moreover, this thunder python has been attacked by the members of the beast hunting team for a long time, and it is already at the end of its strength. Even if it transforms into an intermediate beast king in a short period of time, it does not have much strength. Ye Feng does not need to use any means at all. He can kill it directly on the spot. It is very simple and will not cause a huge commotion or attract other powerful beasts.

Chapter 5375 Warhammer City

At this time, after Ye Feng killed the thunder python, he directly put the black snake into his storage ring.

For Ye Feng, this junior beast king has transformed into an intermediate beast king. The blood energy in his body has greatly increased, which can naturally provide him with good nutrients, improve his cultivation and strengthen his skills.

So Ye Feng took action at this time, and it could be said that he was sure to hit with one hit.

Of course, if it is an intermediate beast king in its heyday, Ye Feng naturally does not want to fight it, because it will be impossible to kill it for a while. Instead, the huge movement caused will attract more powerful beasts deep in the surrounding primeval forest.

At this moment, after Ye Feng collected this thunder python, he was ready to leave.

But at this moment, the leader of the hunter team not far away, a strong man wearing black armor, immediately came to Ye Feng. He couldn't help but clasped his fists and said: "Thank you little

brother for saving me, little brother." Brother's strength is so strong, it seems that it comes from some super power, I don't know which power in our land of China?"

"The land of China?"

Hearing this strong man in black armor say this at this moment, Ye Feng's eyes suddenly showed a look of surprise.

The other party turned out to be from the land of China.

In other words, the other party comes from Eastern China.

Ye Feng never expected that he would inadvertently encounter practitioners from the Eastern China, the most glorious land in the world connected to the other side of the virgin forest.

However, the cultivation strength of this member of the hunting team is average, and he does not have the strength of those powerful practitioners in the Eastern China that he imagined.

However, even in the Eastern China, the most glorious land in the world, it is impossible for all of them to be strong.

It is very normal to meet some ordinary cultivators.

And you must know that Ye Feng's current cultivation strength is already very terrifying, so even among the practitioners in the Eastern China, the most glorious land in the world, there are many practitioners who cannot match Ye Feng's strength.

At this moment, Ye Feng just nodded slightly and didn't say much.

At this time, a member of the hunting team couldn't help but said: "We have been fighting this thunder python for so long, little brother, you just took them all away, why don't you give us some?"

"shut up!"

At this moment, when Ye Feng heard what the member of the hunting team said, Ye Feng had not yet spoken, but the leading strong man in black armor quickly shouted coldly, and then said aloud: "If this little brother hadn't rescued us, I'm afraid that even if we evacuated in time, we would have lost half of our members. The intermediate Beast King and the Junior Beast King are far different. Even if this Thunder Python has just stepped into the Intermediate Beast King, it is not something we can fight against. We will be defeated by it. The thunder talent was directly smashed into pieces. We should thank this little brother for his life-saving grace, instead of morally kidnapping him and asking him to give us some giant pythons."

At this moment, when Ye Feng heard the leading strong man in black armor say this, he looked at him in surprise.

This leader is worthy of being a leading member. He is indeed very discerning. Knowing that Ye Feng does not take action, they may not be as safe as they are now, let alone get the materials from the Thunder Python. If you stand here, you will definitely suffer heavy casualties.

At this moment, when everyone in the hunting team heard what the strong man in black armor said, they all fell silent for a while and said nothing more.

At this time, Ye Feng said aloud: "If there is nothing else, I will leave."

After saying that, Ye Feng was about to leave the scene.

But at this moment, the big man in black armor suddenly said: "My little brother has such a strong strength. I wonder if you are interested in visiting our Warhammer City in the future. I think the city lord will definitely be impressed by the fact that he has such a strong strength." The peerless genius is very interested and may provide you with a lot of information about this primitive forest."

Hearing what this strong man in black armor said, Ye Feng's eyes suddenly revealed a look of curiosity, and he said loudly: "Is the Warhammer City you mentioned the place where you are from?"

Hearing what Ye Feng said, the strong man in black armor immediately nodded and said: "Our hunting team, including many other hunting teams operating in this primitive forest, are basically from As for our Warhammer City, our Warhammer City is the most powerful city at the junction of the land of Eastern China and this virgin forest. Many outstanding hunting teams and powerful walkers in the forest all came from our Warhammer City. The city lord of our noble Warhammer City is probably very willing to make friends with such a powerful and peerless genius as my little brother."

Ye Feng shook his head and said loudly: "I have other things to do. I'm afraid I won't be able to go to Warhammer City for a while. After I finish this matter, I will leave this primitive forest directly."

Ye Feng just wants to leave at this moment and does not want to have anything to do with these other people. After all, Ye Feng does not want to go to the land of Eastern China yet.

However, at this time, the black armored man could not help but speak out: "The treasure hunters in the city lord's mansion of our Warhammer City who specialize in exploring the treasures of the primeval forest recently discovered a nest suspected to be that of the ancient dragon clan, but the risk is huge, and we don't know if there are any surviving ancient dragons, so for the time being, our Warhammer City has not organized strong men to explore, but the city lord has always been very curious and interested in that dragon's nest, and wants to obtain the wealth and inheritance left by the ancient dragon, so our Warhammer City has always been recruiting various powerful strong men and passing geniuses, and wants to assemble a strong team. The team will enter the ancient dragon's lair to find out what's going on. Recruiting all kinds of geniuses is also the task assigned to our beast hunting team by the city lord of our Warhammer City. As long as we can introduce a peerless genius to join the team to explore the ancient dragon's lair, the city lord of our Warhammer City will give our beast hunting team a certain amount of resources as a reward. Of course, I invite you to go to our Warhammer City to participate in this mission to explore the ancient dragon's lair, not just for our beast hunting team. If we can really get some great opportunities in the ancient dragon's lair, I think this is also a rare opportunity for you, little brother."

Chapter 5376: Statue of the God

At this time, when Ye Feng heard this big man in black armor say this, a look of curiosity suddenly appeared in his eyes.

In fact, Ye Feng was quite interested in exploring the dragon's lair.

Because the place Ye Feng wants to go the most is this kind of place.

But if Ye Feng is alone, he won't be able to find such a good place for a while.

It has to be said that this Warhammer City is indeed the largest city in this primitive forest on the edge of the Eastern China. As expected, there is a lot of information, and it is possible to find such a special place as the ancient dragon's lair.

However, it seems that the power in Warhammer City is not that strong, and it is necessary to recruit various strong people to form a team to explore the ancient dragon's lair together.

But it's normal to think about it. The ancient dragon's lair is not an ordinary place. If there are really ancient dragons still alive, if there are not many strong people working together, the end will definitely be very miserable.

At this time, seeing that Ye Feng seemed to be thinking and did not agree directly, this black armored man seemed to be afraid of angering Ye Feng, an extremely powerful and peerless genius, so he immediately smiled and said: "No matter whether you want to go or not, little brother, we will not force it, but if you want to go to our Warhammer City in the future and join the team that explores the ancient dragon's lair, please bring the identity token of our hunting team with you before entering our Warhammer City. When entering the palace, show us the token of our hunting team. In this case, even if the little brother is introduced by our hunting team, the upper level of the city lord's mansion in our Warhammer City will definitely give our hunting team a certain introduction reward. of."

At this moment, after the black armored man finished speaking, he took out a black token from his storage ring and handed it into Ye Feng's hand. Then they stopped disturbing Ye Feng and directly organized the team members to leave. to the scene.

At this moment, looking at the retreating figures of several people, Ye Feng's eyes flickered and he put the black token into the storage ring.

Ye Feng had already made up his mind at this time. After finding the cave of the Nine Dragon God, he would not waste too much time by visiting the Warhammer City on the edge of the primeval forest.

At this moment, Ye Feng did not hesitate at all, and directly began to devour and absorb the blood energy of the thunder python that had just been loaded into the storage ring.

"Rumble..."

At this moment, huge streams of beast energy were immediately swallowed up by Ye Feng and injected into Ye Feng's dantian, rapidly strengthening Ye Feng's power.

At this moment, Ye Feng's cultivation aura immediately began to break through rapidly.

boom!

The sixth level of Shengang Realm!

boom!

The seventh level of Shengang Realm!

At this moment, Ye Feng's cultivation reached two levels in a row.

It has to be said that the skill provided by the intermediate beast king to Ye Feng is still very huge.

It's just that Ye Feng's current cultivation level has broken through to a new and powerful level of Shen Gang Realm, and the energy required for each breakthrough is getting larger and larger.

Therefore, even an intermediate beast king cannot make a rapid breakthrough in Ye Feng's cultivation. Breaking through one or two heavens is already very good.

This also further determines Ye Feng's inner plan. Maybe he can really go to Warhammer City. If he can really get a good chance in the ancient dragon's lair discovered in the city lord's mansion, then for Ye Feng It's definitely a huge profit.

After all, Ye Feng accidentally met this hunting team and learned about the mission of exploring the ancient dragon's lair. It was considered an accident.

At this moment, Ye Feng looked at the map in his hand, and first wanted to find the cave of the Nine Dragon God.

Soon, under the guidance of the map, Ye Feng came to the deepest area of this primitive forest.

There are towering trees and bushes everywhere here. Some bushes are comparable to the big trees in ordinary areas. They are dozens of meters high, covering everything.

Ye Feng walked in the depths of this primitive forest like an ant. Compared with the trees that were several thousand meters high and the bushes that were hundreds of meters high, he was like an ant. Like ants, it feels like they have arrived in the country of giants.

At this moment, Ye Feng found an ancient stone tablet in a bush according to the map in his hand.

This ancient stone tablet was obviously not created by heaven and earth, but someone deliberately placed it here. It should be the stone tablet that the Nine Dragons God placed here.

At this moment, Ye Feng followed the guidance on the map, directly stretched out his hand, touched the stone tablet, and then used the inheritance he had received at the Nine Dragons Shrine, the Nine Dragons True God Secret.

Because only by cultivating the original inheritance left by the Nine Dragons God, the Nine Dragons True God Art, can this stone tablet be activated.

At this moment, Ye Feng was running the Nine Dragons True God Secret, and as expected, he instantly inspired this seemingly inconspicuous stone tablet on the ground.

Then Ye Feng discovered it immediately, and a force of space suddenly surged out of the stone tablet, wrapping Ye Feng's entire body and pulling him directly into the space inside the stone tablet.

The next moment Ye Feng opened his eyes, he found that he was no longer in the lush virgin forest, but in a rather desolate independent space.

This independent space is not large, it seems to be only as big as two palaces.

But not far away, on the ground, stood a majestic statue that was several thousand meters tall.

Ye Feng guessed that this statue should be the statue of the Nine Dragon God.

And under this statue, there were three golden boxes.

"Huh?"

When Ye Feng saw this scene, he was immediately surprised.

It seems that his guess was right.

The cave left by the Nine Dragon God did not test his descendants, nor did it set any terrible traps. As long as you practice the Nine Dragon True God Technique, you can directly enter the cave of the Nine Dragon God and obtain the wealth and inheritance left by the Nine Dragon God.

When Ye Feng practiced the Nine Dragon True God Technique before, he felt that it should be an incomplete technique.

The true Nine Dragon True God Technique is probably in the three golden boxes under the huge sculpture in front.

At this moment, Ye Feng did not hesitate at all and walked over directly.

But just when Ye Feng was about to open the three golden boxes.

Buzz!

Suddenly, the huge statue started to move with a rumble.

The statue, which was originally calm, suddenly emitted two bright rays of light from its eyes. It stared at Ye Feng and said in a very cold tone: "I can sense that you are not my blood descendant. How can you get the secrets in the Nine Dragon Shrine to guide you here, and even practice the Nine Dragon True God Technique? Did you kill all my descendants and come here?"

Ye Feng immediately shook his head and said: "Senior, you misunderstood. I just accidentally got the Nine Dragon Shrine and understood the secrets. I didn't kill any of your descendants. I Although I kill decisively, I never kill people who have no grudges against me. I only kill my enemies. "

Hearing what Ye Feng said, the mind of the Nine Dragon God in the sculpture was silent for a while, and then said: "Then you should just get out of my cave. You are not qualified to get my things. Moreover, as an outsider, you have practiced my Nine Dragon True God Technique. I will abolish your practice inheritance."

"What?"

When Ye Feng heard this, his eyes showed a look of shock and anger. He did not expect that this Nine Dragon God would act so domineeringly and so arbitrarily.

Ye Feng immediately laughed and said: "Since the senior is so ruthless, then the junior will not be polite. The junior came here with great difficulty. If you don't get some good things, the junior will not leave. The senior has ascended to a higher dimensional world. There is no need to calculate the legacy in the heaven. The wealth and inheritance left by the senior, the junior will definitely take it!"

Boom!

After saying that, Ye Feng immediately burst out with his powerful soul power, condensed a black soul giant behind him, and rushed directly towards the huge statue, wanting to fight with the divine thought left by the Nine Dragon God!

Chapter 5377 Full Version

At this time, when he saw Ye Feng directly condensed a black soul giant, a divine thought in the statue of the Nine Dragon God, he couldn't help but said in surprise: "I didn't expect you to be one of our human races. A very rare soul master, it seems that I have underestimated you, but after all, your cultivation is too different from mine, and it is impossible to defeat my divine will."

Hearing what the Nine Dragons God said, Ye Feng immediately laughed and said loudly: "If the real body of the senior is here, then I don't even think about turning around and running away, but now this place is just a trace left by the senior. "Shen Nian, senior may not be able to defeat me."

After finishing speaking, Ye Feng did not hesitate at all, and directly controlled the soul giant condensed by his own soul power to attack the statue of the god.

boom!

At this moment, a big red hand made of divine thoughts stretched out from the statue of the god, and directly struck hard at the black soul giant condensed by Ye Feng.

But now Ye Feng's soul power is very powerful, and the condensed soul giant is also quite terrifying.

At this moment, Ye Feng's soul giant blocked the big red hand, and then wildly bombarded the big red hand.

Click! Click!

The next moment, this big red hand actually shattered, completely shattered by the attack from Ye Feng's soul giant.

Then Ye Feng was surprised to find that the divine thought in the statue of the Nine Dragon God also disappeared.

"Huh? So fragile?"

Seeing this scene, Ye Feng's eyes suddenly showed a look of surprise.

It seems that the divine thought left by the Nine Dragon God has become weaker and weaker over the long years. It was just to scare him.

But if he really had the courage to fight against it, he would disintegrate the paper tiger of the Nine Dragon God's spiritual thoughts in an instant.

But suddenly at this moment, the last voice of the Nine Dragon God came from the sculpture of the Nine Dragon God: "You and I will meet in the ruins of the gods one day, and we will have a fair fight."

After the words fell, the divine thoughts of the Nine Dragon Gods finally completely dissipated.

At this time, Ye Feng had a look of surprise in his eyes, and couldn't help but murmured: "Shenxu? Where is that place?"

Emperor Chu in his mind suddenly said: "It is the world of higher cultivation dimensions in the outer world, which is called the 'Shen Ruins'."

"What?"

Hearing what Emperor Chu said, Ye Feng's eyes suddenly showed a look of surprise, and then he said in surprise: "Emperor Chu, it seems that you really come from the extraterrestrial world, a world of advanced cultivation dimensions, and you actually know so much. , it seems that your memory fragments have recovered a lot in such a long time, and you have learned so much news."

Emperor Chu nodded and said aloud in his mind: "For so long, my memory fragments have indeed awakened a lot and I have recovered a lot of memories, but I still don't know who I am and where I come from. Does the place really come from the higher-dimensional world of the extraterrestrial world? "

When Ye Feng heard what Emperor Chu said in his mind, he just smiled slightly and said aloud: "No matter where you come from, Emperor Chu, or what your previous status was, we will always be good brothers."

When Emperor Chu heard what Ye Feng said, he was slightly silent, and then nodded in his mind.

At this moment, Ye Feng couldn't wait any longer. He stepped forward and began to explore the three golden boxes placed under the statue of the Nine Dragon God.

These three golden boxes should have been left by the Nine Dragons God for his descendants, but he didn't expect that Ye Fengjie got there first.

Ye Feng was naturally secretly happy at this time.

At this moment, Ye Feng opened the first golden box without any hesitation.

When Ye Feng opened the first box, he immediately saw that the box contained a metal book made entirely of gold.

Ye Feng saw the five characters "Ten Thousand Dragons True God Secret" engraved on the cover of this metal book.

Ye Feng immediately understood that this set of Ten Thousand Dragons True God Secrets should be the complete version of the Nine Dragons True God Secrets, and it was the true inheritance created by the Nine Dragons God.

After cultivating the Nine Dragons True God Technique to a perfect state, only nine golden dragons can be condensed.

But once the Ten Thousand Dragons True God Art is cultivated to a perfect state, you can use your own magic power to condense a total of ten thousand golden dragons in the void behind you in an instant, with the roar of ten thousand dragons and the power of thousands of dragons. That is definitely The boundless destructive power of the giant is terrifying to the extreme.

Ye Feng was naturally very happy at this moment. He directly took the golden book of Ten Thousand Dragons True God Secret contained in the first box into his hands, and then began to comprehend it on the spot.

Ye Feng's ability to comprehend is already very demonic, and he has already practiced the Nine Dragons True God Technique to the Great Perfection state, so now it is very easy to go one step further and practice this set of Ten Thousand Dragons True God Technique.

In less than a short period of time, Ye Feng had successfully comprehended the entire secret of the inheritance of the Ten Thousand Dragons True God Art.

However, it will take a long time to truly understand the Ten Thousand Dragons True God Art to the Great Perfection and condense thousands of golden dragons in an instant.

However, Ye Feng has imprinted the inheritance of the Ten Thousand Dragons True God Art in his mind. He can comprehend it directly anytime and anywhere without wasting any time. One day, he will comprehend this set of Ten Thousand Dragons True God Art to the true state of great perfection.

At that time, he will circulate his magic power in an instant and condense a full ten thousand golden dragons around him. Ten thousand dragons roar, and the scene is very shocking.

At this moment, Ye Feng continued to open the second box.

When Ye Feng opened the second box, he immediately showed a look of surprise in his eyes.

Because Ye Feng saw that the second box contained a small round bead.

However, Ye Feng saw that there was a golden light flashing in this round bead.

Ye Feng took a closer look and immediately showed a look of astonishment in his eyes.

Because Ye Feng saw that this ordinary round bead that looked only the size of a fist actually contained a small world!

This small world has heaven and earth, mountains and seas, countless lush trees, and many powerful creatures and beasts living in it, and even several snakes that are about to turn into dragons living in it.

Ye Feng immediately understood that this should be a very magical and special small world type of magic weapon. Although the main body is only a fist-sized bead, it contains a small world that can allow thousands of creatures to survive, which is somewhat similar to the "mountain and sea beads" in the hands of the ancient immortals in the legend.

Ye Feng was immediately quite surprised to refine this round bead. In this way, he can control a small world.

If Ye Feng finds some special infancy ancient beasts, or some dragon eggs of the descendants of the dragon clan, he can put them into the small world in this round bead, and use the world power in the small world in this round bead to breed various powerful beasts for his own use.

At this moment, Ye Feng once again looked at the last box, that is, the third box, with a look of expectation.

Chapter 5378 God-level Armor

At this time, Ye Feng did not hesitate at all and directly opened the third golden box.

When Ye Feng opened the third golden box, he immediately saw that the third golden box contained a set of golden armor.

However, this set of golden armor is very special. Every inch of the armor is made of a special scale.

Ye Feng saw a small sign next to this set of golden armor, with the four characters "Dragon Armor" written on it.

"Huh?"

Seeing this scene, Ye Feng's eyes suddenly showed a look of surprise, and he couldn't help but murmured, "Is every scale inlaid on the surface of this set of golden armor a scale from the ancient dragon?"

At this moment, Ye Feng's eyes suddenly showed a deep look of astonishment.

Could this be a set of god-level armor?

Buzz!

At this moment, Ye Feng naturally did not hesitate at all, and directly output his mana to enter the set of dragon armor in the golden box in front of him.

The next moment, Ye Feng really felt a very terrifying power of the dragon, which was contained in this set of armor.

This set of armor was actually made of pieces of scales from the dragon, and it contained the power of the ancient dragon!

Not only does it have the terrifying solidity of the ancient dragon scales, but it also has the power of the ancient dragon.

This is a set of offensive and defensive god-level armor!

At this moment, Ye Feng was naturally very happy. He didn't expect that he could get a set of god-level armor.

You know, although Ye Feng's immortal body is very strong and solid, sometimes it can't resist some very terrible divine weapons.

But if you have this set of dragon armor on your body, Ye Feng's defense and attack power will be greatly improved.

With Ye Feng's already very solid and powerful immortal body, Ye Feng's combat power will be raised to a whole new level.

At this moment, Ye Feng was naturally very happy. He directly operated a huge amount of mana on the spot and began to refine this set of dragon armor.

Buzz!

With Ye Feng's refining and the injection of mana, this set of armor, which was originally the size of a palm, suddenly grew rapidly, and then directly became the size of a person, and directly turned into pieces of fragments, which were attached to Ye Feng's body, and finally formed a complete set of dragon armor, which was worn by Ye Feng.

At this moment, Ye Feng was completely wrapped in this set of golden armor, even his head was wrapped in it, and his face could not be seen clearly.

In other words, other people could not recognize Ye Feng's true face when he wore this set of dragon armor, because the whole person was wrapped in metal armor, just like a dragon warrior.

At this moment, Ye Feng clenched his fists, and felt that the power of the armor and his own power could be integrated together, bursting out the power of the ancient dragon.

Ye Feng was naturally very happy. After putting on this set of dragon armor, Ye Feng estimated that his combat effectiveness would be improved by dozens of times.

And as he continued to refine this set of divine dragon armor until it was completely compatible with it, he would be able to burst out with a powerful force far beyond his current combat power.

After all, this set of divine dragon armor not only has the firmness of divine dragon scales, but also has the power of ancient divine dragons.

At this moment, Ye Feng naturally did not hesitate at all and left here immediately.

Because for Ye Feng, this cave of the Nine Dragon God was just a place for him to hunt for treasures. All the treasures had been obtained, so there was no need to linger.

"Hmm?"

However, just when Ye Feng was about to turn around and leave, Ye Feng's powerful soul power suddenly sensed something. He couldn't help but look at his feet and said in surprise: "Emperor Chu, did you sense any special energy fluctuations?"

The Emperor Chu in his mind nodded and said: "This place is an independent space opened up by the Nine Dragon God. This independent small space should be built with very special things as the cornerstone. There may be a dragon vein under your feet. No, there may be more than one dragon vein, because if you want to create a small world independently, as your own cave, you may have to pull more than a dozen dragon veins in the earth to open up such a stable independent small world space."

When Ye Feng heard what the Emperor Chu in his mind said, his eyes suddenly showed a look of surprise.

Then Ye Feng didn't hesitate at all, and directly stretched out his fist and smashed it madly at his feet.

Boom!

Ye Feng's golden fist is now very powerful and solid, and it directly smashed the entire ground into cracks.

As Ye Feng continued to smash the ground, the entire earth broke apart in an instant, and a crack in the underground space appeared.

Ye Feng looked at the space under the underground crack at this moment, and immediately saw a very shocking scene.

In the abyss under the entire ground, as expected, as Emperor Chu had guessed, there were actually 19 golden dragon veins.

At this moment, these 19 golden dragon veins were all pulled together by an inexplicable force, forming the cornerstone of this independent small world space.

At this moment, Ye Feng couldn't help but say in his mind: "Emperor Chu, if I swallow all these 19 golden dragon veins now, then the space of the entire independent small world will be completely shattered, right? Will I be directly torn into pieces by the world cracks and world fragments produced after the horrible world collapses?"

In his mind, Emperor Chu nodded immediately and said: "This situation is very likely to happen. I suggest that you take all these 19 golden dragon veins out of this independent space in an instant, and then swallow them after returning to the heaven."

Ye Feng nodded, stretched out his hand and grabbed all the 19 golden dragon veins in his hand, then jumped up and directly teleported out of this independent space through the teleportation array of this independent space.

"Boom..."

The next moment after Ye Feng left, this independent space world was completely rumbled and shattered without the support of more than a dozen golden dragon veins, turning into a piece of void turbulence and chaos.

Buzz!

At this time, Ye Feng's figure reappeared in the previous primeval forest.

At this moment, Ye Feng saw that the stone tablet that he had just sucked into the independent small world space had been completely shattered.

Obviously, after the independent small world was shattered, the stone tablet no longer existed.

At this moment, Ye Feng looked at the 19 golden dragon veins in his hand, each of which was several thousand meters long and very powerful.

Ye Feng was ready to swallow them directly at this time.

Swish!

But suddenly at this moment, a young man in a silver robe suddenly landed from the high jungle.

He saw the 19 golden dragon veins in Ye Feng's hand, and his eyes immediately showed a look of surprise.

Then the young man in the silver robe smiled faintly and said, "I didn't expect that a mere Shengang realm cultivator like you could actually capture more than a dozen such precious golden dragon veins. It seems that you are quite lucky. However, I have encountered a bottleneck in my cultivation recently. This kind of purest golden dragon vein bred by heaven and earth is of great benefit to my cultivation. Now I want you to give all the 19 golden dragon veins in your hands to me. Don't let me do it myself. If I do it myself, I may kill you without any mercy."

Chapter 5379 Silver Dragon City

At this time, the tone of this young man in silver robes could be said to be extremely arrogant, and he actually wanted to dedicate all nineteen golden dragon veins that Ye Feng had just obtained to him.

At this moment, this young man in silver robes feels like an emperor issuing orders. Whoever dares to disobey him will directly judge their fate and kill them on the spot.

At this time, Ye Feng's eyes suddenly showed a cold look, and he said loudly: "Who are you? Are you qualified to say such arrogant words in front of me?"

"oh?"

Hearing Ye Feng's words, the eyes of this young man in silver robes suddenly flickered, and then a cold murderous intent appeared in the depths of his eyes.

However, he did not take action directly, but stared at Ye Feng, smiled coldly and said: "I asked you to directly sacrifice the golden dragon vein in your hand to give you a chance to survive, but I didn't expect that you would dare to attack I said such unreasonable words, it seems that I can only take action personally, kill you as an ant-like boy, and snatch the golden dragon vein in your hand."

After the words fell, the young man in silver robes immediately walked towards Ye Feng indifferently.

This young man in silver robes did not directly launch a violent attack. He was just very condescending, walking towards Ye Feng step by step from the sky with his hands behind his back.

With every step he took, the aura of cultivation on his body became larger and larger. At the end, a silver giant dragon appeared in the void behind him. It had a very terrifying sense of oppression, as if it could suppress Ye Feng's entire body. Pressed to pieces.

It has to be said that this young man in silver robe is definitely a very powerful peerless genius nearby. He is likely to come from the peerless young figures in those powerful cities at the junction of the virgin forest and the eastern land of China. Otherwise, it would be impossible to have Such great strength.

Ye Feng sensed it slightly and found that this young man in silver robes did have two brushes. His cultivation was four levels higher than Ye Feng's current Shen Gang realm. You know, this young man in silver robes was no ordinary person. A warrior, so his fighting power definitely far exceeds the strength of his cultivation.

Therefore, this young man in silver robe is definitely an extremely powerful genius.

Ye Feng immediately smiled coldly and said: "If you want to rely on your momentum to overwhelm me, you really have the wrong person."

Boom! !

Almost at the moment Ye Feng finished speaking, a terrifying aura of cultivation suddenly erupted from Ye Feng's body.

That kind of momentum was completely condensed by the blood energy in Ye Feng's body when he didn't take action. It was as huge as the vast ocean.

Behind Ye Feng, scenes and visions of volcanic eruptions composed of blood energy appeared in the void.

The huge aura that suddenly burst out from Ye Feng's body caused the aura of the young man in silver robes to be crushed to pieces in an instant.

"Um?"

Seeing this scene, the young man in silver robes suddenly showed a look of surprise in his eyes, and couldn't help but said: "I didn't expect that a young man with such a weak cultivation level could actually develop such a powerful aura. It seems like Your fighting ability is also very powerful, no wonder you dare to talk to me like this, but it is of no use. Once I take action, you will definitely die."

After saying that, the young man in silver robes immediately appeared with a silver ax in his hand, and slashed hard in the direction of Ye Feng.

boom!

As her ax struck down, two giant silver dragons condensed on the ax and charged towards Ye Feng.

At this moment, Ye Feng immediately understood that the inheritance practiced by the other party was closely related to the ancient silver dragon. Every move and every move contained the majestic power of the ancient silver dragon, which showed that his inheritance was extremely powerful. Extraordinary.

But at this time, Ye Feng just smiled coldly and said: "The inheritance of the silver dragon is not very good."

After the words fell, Ye Feng directly burst out the peerless inheritance of the Nine Dragon Gods that he had just obtained, the Ten Thousand Dragons True God Art!

boom!

When Ye Feng used the Ten Thousand Dragons True God Art, dozens of golden dragons suddenly condensed behind Ye Feng. They roared and shouted crazily, and instantly collided with the silver ax of the young man in silver robes who stepped forward. together.

Boom!

At this moment, the entire field suddenly erupted with a terrifying roar.

Ye Feng's dozens of golden dragons instantly shattered the two silver dragons condensed by this young man in silver robes.

"What??"

Seeing this scene, the young man in silver robes couldn't help but said in horror: "Your inheritance is even more advanced than my Silver Dragon Technique. What kind of inheritance is this? You actually have ancient golden magic. The power of the dragon, this is impossible! This is a heritage that has been lost for countless years!"

At this moment, Ye Feng smiled coldly and said: "Nothing is impossible in this world. You actually want to kill people and seize treasures. Then I will treat them in the same way as others." "

After the words fell, Ye Feng directly displayed the divine dragon armor that he had refined before.

At this moment, Ye Feng's body was immediately covered with a layer of golden armor, covering his entire body and possessing terrifying power.

Ye Feng punched out hard. The palm covered with metal scales, combined with Ye Feng's already very powerful Immortal Body of the God, Ye Feng's punch had extremely terrifying power, and it directly knocked out the young man in silver robes. The silver ax in his hand shattered into pieces, and then hit him hard.

Boom!

Accompanied by a huge roar, this arrogant young man in silver robes was extremely embarrassed. He was blown away by Ye Feng and fell to the ground not far away. A large area of land was shattered.

Uh-huh!

At this moment, Ye Feng didn't give the other party a chance to breathe. He immediately rushed forward and stepped on the face of the young man in silver robes into the mud on the ground.

"Ah!! You actually humiliated me so much that you even trampled me into the mud??"

At this moment, the young man in silver robe roared angrily.

Snap!

But Ye Feng stepped down hard again, crushing half of his face into pieces.

Ye Feng immediately smiled coldly and said loudly: "Death is imminent, and you are still here in this incompetent rage!"

Ye Feng showed a terrifying murderous aura at this moment, and he was obviously going to kill him.

But at this time, the young man in silver robes immediately screamed in horror and said: "You can't kill me. I am the young city lord of the most powerful city nearby, Silver Dragon City. Our Silver Dragon City has sent a lot of troops this time. The super masters are all nearby. If I fall, they will definitely hunt down you, the culprit!"

Poof!

But the moment the young city lord of the so-called Silver Dragon City finished speaking, he didn't even react. Ye Feng crushed his head on the spot and killed him directly.

At this moment, Ye Feng smiled coldly and said: "I don't care who you are or what your backing is, but you have provoked me. If you want to kill someone and seize the treasure, you have to pay the price with your life. If you provoke I will definitely die!"

At this moment, after Ye Feng finished speaking, he directly collected the body of the young city lord of Silver Dragon City, and then quickly left the scene.

Because Ye Feng has already noticed that there are indeed several very terrifying super masters' auras, which are quickly approaching here. They are probably the super masters from Silver Dragon City. Even Ye Feng felt the huge... threats.

It seemed that the young man in silver robes was not lying. He was really the young city lord of Silver Dragon City. He was guarded by many super masters from a distance. Ye Feng decided to avoid the edge for the time being.

Chapter 5380 The Great Commander is chasing

At this time, Ye Feng left the place where he had previously killed the young city lord of Silver Dragon City, and came to a relatively hidden jungle to hide.

Because Ye Feng sensed that the cultivation levels of the super masters approaching from a short distance away were a dozen levels higher than his own, so they were not something that Ye Feng could resist at the moment. Ye Feng could only choose to avoid them temporarily. Edge, leave this land of right and wrong.

At this time, Ye Feng looked at the body of the young city lord of Silver Dragon City in the storage ring. He did not expect that this guy was really the young city lord of a big city, with such a high status.

It seems that this Silver Dragon City should also be a large and powerful city on the edge of the border between the land of China and the virgin forest in the eastern part of the heaven. Otherwise, it would be impossible to cultivate so many super masters.

At this moment, Ye Feng sighed in his heart. His cultivation strength was already considered a first-class master in the southern region of the heaven. Even some older people were no match for him.

Unexpectedly, among the large cities on the edge of the Eastern China, the most glorious land in the world, it is actually nothing.

At this time, Ye Feng secretly thought in his heart, and without any hesitation, he directly released the Devouring Domain and began to devour the nineteen golden dragons he had obtained. By the way, he also directly killed the young city lord of the Silver Dragon City that he had killed before. All his energy was swallowed up.

"Rumble..."

At this moment, along with Ye Feng's devouring, a huge amount of energy was immediately injected into Ye Feng's Dantian.

The young master of this Silver Dragon City is not very good at cultivation and does not provide much energy to Ye Feng. However, the nineteen golden dragon veins obtained from the cave of the Nine Dragon Gods were bred by heaven and earth. The extremely pure dragon veins that came out provided extremely pure and rich energy, causing Ye Feng's cultivation aura to immediately start to rise rapidly and continuously.

boom!

The eighth level of Shengang Realm!

boom!

Shen Gang Realm Ninth Heaven!

boom!

The tenth level of Shengang Realm is complete! !

At this time, Ye Feng's cultivation level was that he broke through the third level of heaven on the spot and entered the tenth level of Shen Gang Realm, Great Perfection!

Ye Feng could feel that his power had increased by a dozen times, and he was only one step away from breaking through the cultivation realm of Shengang Realm and stepping into the divine realm above Shen Gang Realm.

At this moment, Ye Feng felt the breath of cultivation that he had just broken through to the tenth level of the Divine Gang Realm, and then quickly flew towards the edge of this primitive forest.

Ye Feng has now obtained all the wealth left by the Nine Dragon God. Ye Feng is ready to leave this land of right and wrong directly and go to the Warhammer City mentioned by the previous beast hunting team. He wants to join the Warhammer City City Lord's Mansion to explore the ancient dragon. Among the team in the lair, there may be huge opportunities.

But just when Ye Feng was about to leave his hiding place.

Uh-huh!

Suddenly, a strong man in black armor, like a war machine, suddenly landed from high in the sky. His eyes were like lightning and extremely compelling. He stared at Ye Feng and his voice was like thunder. Majesty, he spoke out: "You are the one who killed the young city lord of our Silver Dragon City? You are so brave, I will twist off your boy's head and hand it to the hands of the city lord!"

At this moment, hearing this strong man in black armor who looked like a war machine say this, Ye Feng didn't even hesitate in his eyes and quickly ran away into the distance.

For Ye Feng, he doesn't want to get entangled with these people now, and this strong man in black armor is obviously very scary. His cultivation aura is more than ten realms higher than Ye Feng's. Ye Feng is not his opponent at all. The opponent can only choose to escape here quickly.

At this time, several old men in silver robes flew over not far away.

However, the cultivation level of these old men in silver robes is much lower than that of this strong man in black armor, four or five realms lower than that of Ye Feng, and only six or seven realms higher than Ye Feng.

Obviously, among the super masters guarding the Young City Lord of Silver Dragon City, this strong man in black armor is the most powerful.

At this moment, several old men in silver robes flew over and couldn't help but clasped their fists and said loudly: "The commander-in-chief has discovered the culprit. He must be executed and his head can be used to calm the situation." The anger of the city lord."

The strong man in black armor immediately nodded and said loudly: "This kid must be caught. Whether he is captured alive or his dead body is brought back, he must be brought back to our Silver Dragon City. Otherwise, Lord City Lord After hearing the news of the death of the young city lord, he will definitely be furious and may kill us subordinates to express his hatred. Therefore, if we want to calm the anger of the young city lord, we must bring back the culprit who killed the young city lord. "

At this moment, after the black armored man finished speaking, he stared at Ye Feng's fleeing back and said with a cold smile: "Since we have discovered this kid and locked his aura, he can't escape. Lose."

After saying that, this strong man in black armor led a group of old men in silver robes and quickly chased him in the direction where Ye Feng fled.

But what surprised the strong man in black armor next was that Ye Feng's cultivation level was so much lower than theirs, but his speed was extremely fast.

An old man in a silver robe couldn't help but say: "Commander-in-chief, this kid is very extraordinary. He is really capable of killing the young city lord at such a low level of cultivation."

The black-armored man nodded slightly and said: "This young man should be a peerless genius, and he seems to have cultivated the inheritance of the void attribute, so his speed is very fast. It seems that I have to use some means to catch and kill him."

At this moment, after the black-armored man finished speaking, he turned his palm and suddenly a black gear appeared.

The next moment, the black-armored man threw the black gear in his hand to his feet. The black gear turned rapidly, forming a very powerful driving force, which made the black-armored man and the six or seven silver-robed old men around him instantly faster by dozens of times. In an instant, they tore through the void and almost reached the back area of Ye Feng.

At this time, Ye Feng was fleeing in front, and suddenly found that the group of super masters from the Silver Dragon City behind him were about to reach his position in an instant, and immediately a look of surprise appeared in his eyes.

These people are indeed practitioners from the eastern Shenzhou land. Even if they are just masters in the marginal cities, they have many means.

Ye Feng has been using the void wormhole to escape, but he was still caught up by these people quickly.

At this time, seeing that Ye Feng was almost within reach, the black armored man immediately smiled cruelly and said, "Boy, you can't run away, you are dead."

After saying that, the black armored man directly roared: "Black Demon Covering the Sky Hand!"

Boom!

He used a powerful inheritance and stretched out his palm. The palm immediately turned into a black hand that covered the sky and the sun, like the palm of the ancient dark giant bear, full of monstrous dark demonic energy, covering Ye Feng, as if it could directly blast the land within a radius of several thousand meters into pieces.

Even under this dark hand that covered the sky and the sun, Ye Feng felt as if his whole body was about to shatter!
