

## Ancient 5381

Chapter 5381 Both sides suffer

"What a terrifying cultivation strength!"

At this moment, Ye Feng felt that his whole body was about to break apart.

If it weren't for the divine dragon armor wrapped around his body, Ye Feng would have been completely crushed into pieces by the terrifying pressure at this moment.

At this moment, Ye Feng directly released several space wormholes in succession and escaped from the scene in an instant.

Boom!

And the next moment, the black hand exerted by the commander-in-chief of the Silver Dragon City fell directly from the sky, smashing the land within a radius of a thousand miles, and all the trees and the land were shattered.

"Huh?"

Seeing this terrifying destructive power, even Ye Feng couldn't help but take a breath.

The commander-in-chief of the Silver Dragon City is indeed an extremely terrifying figure.

At this moment, Ye Feng continued to flee quickly, thinking about countermeasures in his heart.

Ye Feng knew very well that his breath was now being stared at by the other party, and he was afraid that the other party would not stop until he died.

At this time, Ye Feng could only flee while trying to get rid of the lock of the commander-in-chief's divine thoughts.

However, Ye Feng carefully searched for all the treasures on his body and found that none of them could deal with the commander-in-chief of the Silver Dragon City.

"That's right!"

Ye Feng immediately thought of it at this moment, maybe the Starry Sky Insect Nest could deal with the commander-in-chief of the Silver Dragon City.

However, the insects in the Starry Sky Insect Nest can't attack the enemy remotely at all, and it will be easy for the enemy to dodge. It needs to be very close to release countless insects in an instant, so that the enemy has no time to dodge and is infected by countless insects.

At this moment, Ye Feng thought of a countermeasure and immediately slowed down his pace deliberately.

Boom!

The next moment, the huge dark hand of the commander-in-chief of the Silver Dragon City fell again, directly hitting Ye Feng, blasting Ye Feng to a piece of land not far away, smashing a large area of ruins.

Then Ye Feng lay in the ruins, and seemed to have completely fainted.

The commander-in-chief of the Silver Dragon City who was chasing Ye Feng not far away, and several old men in silver robes, saw this scene, and immediately showed a happy look on their faces.

An old man in a silver robe said, "The commander-in-chief is so powerful. This kid ran so fast, but he was finally killed."

The commander-in-chief of Silver Dragon City nodded and said, "I'll check the boy's body to see if he is completely dead."

At this moment, the commander-in-chief of Silver Dragon City landed directly from the sky and landed in front of Ye Feng, wanting to catch Ye Feng to see if he was dead.

But at this moment, Ye Feng suddenly opened his eyes, and before the other party could react, he directly released the starry sky insect nest he had obtained before.

Hua La La!

The next moment, a very terrifying insect frenzy gushed out from the starry sky insect nest, and surrounded the commander-in-chief of Silver Dragon City in an instant.

At this moment, countless insects were frantically gnawing at the whole body of the commander-in-chief of Silver Dragon City.

"Ah!"

No matter how powerful the commander of Silver Dragon City was, he had no way to deal with the bugs in the starry sky insect nest at this moment, and the one being eaten immediately screamed.

At this time, several old men in silver robes around saw this scene and immediately attacked Ye Feng, shouting: "Sly boy, you are so vicious! Hurry up and take back all the bugs on the commander, otherwise we will kill you directly!"

Boom! Boom!

At this moment, several old men in silver robes immediately released their extremely powerful cultivation aura and rushed towards Ye Feng.

Ye Feng smiled coldly at this moment and said: "I can't beat your commander, but you old guys are only six or seven realms higher than me, which is nothing in front of me."

Boom!

Almost at this moment, Ye Feng directly performed the Ten Thousand Dragons True God Technique.

Boom boom, at this moment, dozens of golden dragons condensed directly behind Ye Feng, rushing forward, and knocked several silver-robed old men flying backwards, spitting blood.

"What?"

"It's so powerful?"

At this moment, these old men in silver robes immediately showed deep horror in their eyes.

Because they never thought that a young man who was six or seven realms lower than them could use a powerful inheritance to repel them in an instant.

At this moment, Ye Feng did not hesitate at all and continued to use the claws of the ancestral dragon.

Boom!

Ye Feng's right hand immediately turned into a huge golden dragon claw, and directly tore a silver-robed old man who had no time to react into pieces.

The next moment, Ye Feng continued to use the extremely powerful super magic weapon he had refined before, the Sun and Moon Flying Sword.

Swish!

Swish!

At this moment, two extremely terrifying flying swords suddenly flew out from above Ye Feng's head. They were as fast as lightning, extremely sharp, and contained the great power of the sun and the moon. They directly cut the other two silver-robed old men in half and killed them directly.

"What a terrifying young man!"

At this moment, there were only two or three old men in silver robes left on the field, and they actually wanted to escape quickly.

boom! !

But at this moment, Ye Feng fully unleashed his extremely powerful magic power, activating the power of the dragon armor worn on his body.

At this moment, the dragon armor worn by Ye Feng directly activated the power of the ancient dragon inside.

A brilliant golden light burst out from the divine dragon armor, and an ancient divine dragon composed entirely of energy was condensed directly above Ye Feng's head, and it rushed forward in an instant.

The power of the divine dragon was so terrifying that it killed all the two or three old men in silver robes who were fleeing.

At this point, Ye Feng has killed all the old men in silver robes.

Not far away, the commander of the Silver Dragon City, who was surrounded by the terrifying bugs in the Starry Sky Bug Nest, saw the whole scene, and immediately said in disbelief: "How can you have such a low cultivation level? Such a strong fighting power? And you also have so many terrifying methods that ordinary people don't have? This is simply incredible. What kind of existence are you, where do you come from? "

At this moment, Ye Feng just smiled coldly and said: "You don't care where I come from, as long as you know that you will die."

At this moment, the commander of the Silver Dragon City suddenly shouted: "World-Destroying Demonic Flame"

boom!

At this moment, an extremely dark flame burst out from his body, blocking all the insects released from the starry sky insect nests through this layer of extremely dark flames, making these insects no longer Eat his body.

However, the insects in the Starry Sky Insect Nest are extremely terrifying after all. Even though the commander of Silver Dragon City is extremely powerful, he cannot completely escape from all the insects. He is still wrapped in many insects and crawls all over his body. He can only resist them temporarily. That's all.

But at this moment, the commander of Silver Dragon City suddenly launched a very terrifying curse power: "Heavenly Demon Blood Curse!"

Uh-huh!

At this moment, blood-colored spells burst out directly from the commander of the Silver Dragon City, and hit Ye Feng directly before Ye Feng could react.

The next moment, Ye Feng immediately felt that the power of a terrifying blood curse was eroding his entire body, and even the immortal body of the God was unable to withstand it.

At this moment, Ye Feng's face immediately darkened.

"hateful!"

Ye Feng never thought that while he was pretending to be dead, he could instantly activate the starry sky insect nest and kill the commander of the Silver Dragon City on the spot, but he didn't expect that the other party would use a special kind of flame in a short while. , resisted the gnawing of so many insects, but still had the energy to release such a terrible curse power, and cursed himself.

At this moment, Ye Feng also felt that his vitality was rapidly declining.

This time it can be said that both sides suffer losses!

It has to be said that these powerful men from the land of Eastern China are indeed extremely powerful.

In particular, the commander of Silver Dragon City is indeed a very powerful person with many methods and terrifying combat power.

At this moment, seeing Ye Feng's very depressed look, the commander of Silver Dragon City not far away immediately said: "Why don't we each take a step back, I will lift the power of the curse on you, and you will crawl all over me." How about getting rid of all the bugs on your body?"

Chapter 5382 Replace him

"impossible!"

At this moment, when Ye Feng heard the words of the commander of Silver Dragon City, he immediately shook his head and said loudly: "Your cultivation level is much stronger than mine. Now I finally use these terrible insects to kill you." Trapped, if you and I each take a step back and remove each other's deadly means, then I will definitely die next."

Hearing what Ye Feng said, the commander of Silver Dragon City immediately turned downcast and couldn't help but said, "Do you really want to lose both sides? If this continues, we will all die!"

Ye Feng shook his head and said loudly: "Of course not."

At this time, Ye Feng seemed to have thought of something, and couldn't help but said: "You and I can each take a step back, but the premise is that I remove the insect crisis from you, and you remove the curse power from me. You want me to Just leave here and stop chasing me, if that's the case I can agree."

"That's impossible!"

Hearing what Ye Feng said, the commander of Silver Dragon City immediately shook his head.

Seeing how determined the other party was, Ye Feng suddenly became a little angry and couldn't help but said: "It was the young city lord of Silver Dragon City who provoked me and wanted to kill people and seize treasures, so I killed him. I am Just for self-defense, and I killed the young city lord of Silver Dragon City, not your son. Why do you insist on nagging me so much, and must you kill me all? Now all the old men in silver robes under your command have been killed by me? Killed, no one knows what happened here. After you return to Silver Dragon City, report directly to your city lord. You said you don't know who killed the young city lord. It may have been by a beast in the primitive forest. If you eat it, just lie, why are you so stubborn!"

Hearing what Ye Feng said at this moment, the commander of Silver Dragon City looked very ugly. He shook his head and said loudly: "It's not that simple. You don't know. Our Lord of Silver Dragon City is a very cruel and ruthless person." I have worked under him for so many years and I have never dared to make a mistake. Once I make a mistake, I will be severely punished. This time his son is killed by you, our Lord of Silver Dragon City will definitely be furious and say They might kill me directly to vent their anger, so I have to take the head of the culprit back and report it to the city lord, otherwise, I will be dead, so if I let you go today, I will die if I go back, so I You must be caught."

Hearing what the commander of Silver Dragon City said, Ye Feng immediately showed an expression of astonishment on his face and said loudly: "Is your city lord so cruel? This matter is not your fault, but he wants to It's really unreasonable to kill you to vent my anger."

"Be reasonable?"

Hearing what Ye Feng said, the commander of Silver Dragon City immediately laughed at himself and said: "As the city lord's subordinates, we are not qualified to question whether the city lord's decision is reasonable. We can only bear it silently."

Hearing what the commander of Silver Dragon City said, he seemed to sense a sense of self-deprecation in his tone. Ye Feng's eyes flashed for a moment, and then he suddenly said: "None of us need to die."

"Um?"

Hearing what Ye Feng said, the commander of Silver Dragon City couldn't help but asked: "What do you mean?"

A cold smile appeared on Ye Feng's face, and he said loudly: "If you die, your Lord of Silver Dragon City will also die. There is no big grudge between you and me, just because of this arrogant person you are guarding." The incomparable young city lord caused trouble. Since you go back, you will be killed by the city lord to vent your anger. So why not take the initiative and you and I cooperate to kill the city lord of Silver Dragon City that you fear. In this case , you and I don't have to kill each other, and after killing the city lord of Silver Dragon City, you, the great commander, can completely replace him and become the new generation of city lord of Silver Dragon City. This is not a matter of killing two birds with one stone for you. "

"What? You..."

Hearing Ye Feng's words at this moment, the leader of Silver Dragon City's expression changed drastically, but then he began to think.

What Ye Feng said at this time does make some sense.

The lord of Silver Dragon City, who was cruel and ruthless, and even often killed to vent his anger, was indeed not worthy of his allegiance.

At this moment, he was thinking secretly in his heart, and the commander of Silver Dragon City suddenly shook his head and said loudly: "What you said makes sense, but our Lord of Silver Dragon City has a very strong cultivation base, and he is not you at all. It is impossible for me to kill him with my cooperation. If I had this ability, I would have rebelled against this cruel and ruthless city lord."

Hearing what the commander said at this moment, Ye Feng's eyes showed a look of joy, and the other party was indeed moved by his words.

At this time, Ye Feng immediately said: "How much higher is the cultivation level of your Silver Dragon City City Lord than you?"

The commander immediately spoke out: "My cultivation level is a dozen realms higher than yours, and the cultivation realm of our Silver Dragon City's city chief is six or seven realms higher than me, but I It's not like you have such a powerful and terrifying combat power, so it's impossible for us to fight against the Lord of the City."

At this time, Ye Feng said with a smile: "As long as you and I cooperate properly, we can completely kill the city lord of Silver Dragon City, who is only six or seven realms higher than you. The killer is my starry sky insect nest. The insects in my starry sky insect nest are so powerful that even the Flame Demon God, one of the twelve demon gods back then, can't fight against these insects. So as long as you can get close to the city lord of your Silver Dragon City, I will instantly release all the insects in my starry sky insect nest and wrap up the city lord of Silver Dragon City. Then you and I will assist in the attack from a distance and interfere with the city lord of Silver Dragon City to release power to resist the eating of these insects. In this way, these insects will definitely be able to kill the city lord of Silver Dragon City."

"Hmm?"

Hearing Ye Feng's words, the commander of the Silver Dragon City in front of him suddenly moved his eyes.

He did realize the threat of Ye Feng's terrible insects, which was very terrifying. Maybe Ye Feng's plan would really work.

At this time, Ye Feng did not say anything more, but remained silent, waiting for the other party's response.

The future and interests have been made clear, it depends on whether the other party has the courage to do it.

And just a moment later, the commander of the Silver Dragon City, who was in great pain as countless star bugs continued to eat his body, finally stopped hesitating, nodded and said: "Okay, I agree to your plan. There is no personal grudge between you and me. We can temporarily take a step back and then cooperate with each other to kill the cruel and ruthless city lord of the Silver Dragon City who I have long disliked."

Hearing that the other party agreed, Ye Feng suddenly said: "After the matter is done, not only will you not be killed by the city lord to vent your anger, but you can become the new generation of city lord of the Silver Dragon City. You really made a lot of money, so I also need some benefits after the matter is done."

When the commander-in-chief of Silver Dragon City heard what Ye Feng said, he immediately couldn't help but say, "What benefits do you want?"

Ye Feng said, "After the matter is done, I don't need any false reputation, I just need some practical things. After you become the new generation of city lord, open the treasure house of your Silver Dragon City and let me pick out some cultivation resources I want."

When the commander-in-chief of Silver Dragon City heard what Ye Feng said, he immediately said, "I thought you wanted something, some cultivation resources, of course no problem, if I become the new generation of city lord of Silver Dragon City, these are all trivial matters, I agree."

Chapter 5383 Ready to go

At this moment, Ye Feng and the commander of Silver Dragon City can be said to have reached a very secret cooperation.

That is the cruel and ruthless city lord who united together to kill the Silver Dragon City.

At this time, Ye Feng directly used the Starry Sky Insect Nest to collect countless insects.

At the same time, the commander of the Silver Dragon City also kept his promise and took back the power of the curse from Ye Feng and released it directly.

At this time, both of them were freed from the shackles of life and death and felt a sense of relief.

At this moment, the commander of the Silver Dragon City stared at Ye Feng in front of him, staring at this seemingly ordinary young man, and couldn't help but said in amazement: "Your cultivation level is lower than mine. If it were anyone else, it would be just an ant in my eyes. But I didn't expect you to have such a powerful combat power and such powerful means. This kind of insect of yours is really scary. Incomparable, it is a killer weapon, I have never encountered such a terrifying insect in the heaven."

Hearing what the commander of the Silver Dragon City said, Ye Feng smiled slightly and said: "This swarm of bugs is not bugs in the heaven, but the starry sky bugs from the mysterious and vast starry sky, so It is very terrifying. Even the strong ones at the level of demons cannot destroy these bugs. However, one disadvantage is that the bugs from this starry sky insect nest rush out very slowly. If they are very far away from the opponent, or are attacked by If the opponent knows in advance that I have this terrible bug, there is basically nothing he can do to the opponent, because the opponent can easily avoid the siege of this kind of bug, only if the opponent does not know about it and is very close to the opponent. Under such circumstances, when the opponent is not paying attention, all the bugs are released and crawled all over the opponent's body, so that the terror of the starry sky bugs can be fully brought out. "

Hearing what Ye Feng said at this time, the commander of Silver Dragon City immediately nodded his head and said with some lingering fear: "At that moment, I just felt like my whole body was about to be chewed to pieces, almost Just killed."

At this moment, Ye Feng nodded slightly, without saying anything more, but directly released the Devouring Domain on the spot, swallowing up all the old men in silver robes that he had killed before.

These old men in silver robes are all super masters from the powerful city of Silver Dragon City. Their cultivation skills are six or seven realms higher than Ye Feng. Therefore, after Ye Feng devoured this group of super masters, , got a very huge energy.

boom! !

At this moment, Ye Feng's body suddenly erupted with a terrifying aura of cultivation.

Ye Feng's previous bottleneck of cultivation in the tenth level of the Shengang Realm was instantly overcome, and he was directly promoted to the half-step Divine Realm above the Shen Gang Realm!

At this moment, Ye Feng stepped into the new divine realm with one foot, and felt that his cultivation power had been improved as never before.

Ye Feng only felt that his fighting power was dozens of times stronger than before.

And this is only half a step into the divine realm.

However, Ye Feng also knew very well that if he wanted to break through the bottleneck of the Half-Step Divine Realm, he would probably need an even greater force.

I am afraid that even after devouring a super powerful man of the level of the Silver Dragon City Commander in front of him, he may not be able to break through the bottleneck of the half-step godhead realm.

But Ye Feng now has a better candidate.

That is the city lord of Silver Dragon City.

You know, the city lord of Silver Dragon City is six or seven realms more powerful than the commander of Silver Dragon City.

If he could devour a big shot like the city lord of Silver Dragon City, Ye Feng would definitely be able to completely break through the current bottleneck of the half-step godhood realm.

At this moment, after Ye Feng finished devouring it, the commander of Silver Dragon City who was standing aside watched the whole process of Ye Feng devouring it. He watched helplessly as Ye Feng devoured all the blood, energy and skills of those super masters, with a look in his eyes. Suddenly there was a look of horror.

He didn't seem to have thought that Ye Feng, a young man who looked pretty and handsome, could actually practice such an evil and domineering technique. No wonder he had such strong power.

It turns out that this young man can swallow other people's skills and use them for himself.

But at this time, the commander of Silver Dragon City didn't say much, because this was Ye Feng's own matter and he couldn't comment.

And next, he has to work with Ye Feng to kill the big shot of the city lord of Silver Dragon City. Therefore, the current leader of Silver Dragon City will naturally not say anything bad to Ye Feng, even if Ye Feng devours His former companion.

At this moment, the commander of Silver Dragon City just looked at Ye Feng and said loudly: "Since our cooperation has been reached, let's not waste time and go directly to Silver Dragon City. Changes will happen later."

Ye Feng nodded and said: "This starry sky insect nest has been completely refined by me. The starry sky insects in it only listen to my orders. Only I can control this starry sky insect nest, so next I will hide in your storage ring first, and you will return to Silver Dragon City alone, approach the city lord of Silver Dragon City, and then be ready to go, listen to my orders, and take action directly. I don't ask to kill the city lord of Silver Dragon City in an instant, but at least I have to severely injure him before he has time to react, so that my starry sky insects can exert their gnawing ability more."

Hearing what Ye Feng said, the commander-in-chief of Silver Dragon City was still a little hesitant, but since he had made up his mind, he didn't say anything more, but nodded and said: "Okay, I will cooperate with you with all my strength."

At this moment, Ye Feng nodded slightly, jumped directly, turned into a stream of light, and flew into the storage ring space in the hands of the commander-in-chief of Silver Dragon City.

Swish!

At this moment, the commander-in-chief of Silver Dragon City was alone and immediately left the primeval forest and flew quickly towards the edge of the primeval forest.

Silver Dragon City, like Warhammer City, is an ancient city at the junction of the Shenzhou land and the primeval forest in the eastern part of the heaven. Each city has a very deep foundation and many powerful people.

Silver Dragon City is a powerful city that ranks very high among the many surrounding cities.

When the commander-in-chief of Silver Dragon City returned to Silver Dragon City, Ye Feng looked through the storage ring space and immediately saw a huge steel city, which was made entirely of silver metal and stood on the land in the distance, like a giant beast lying there, giving people a terrifying feeling.

At this moment, the commander-in-chief of Silver Dragon City immediately flew into this silver city and flew quickly towards the direction of the city lord's mansion.

The commander-in-chief had a serious face and cold eyes, but he was still a little nervous inside.

But as the saying goes, fainting is not death.

Now that the matter has come to an end, we must make up our minds and give it a try.

So at this moment, whether it is the commander-in-chief of Silver Dragon City or Ye Feng in the storage ring, they are all ready to go, waiting for blood to splash all over the City Lord's Mansion!

Chapter 5384 It's not important anymore

At this time, the commander of Silver Dragon City walked into the city lord's mansion alone.

In the empty hall, a middle-aged man wearing a golden robe was sitting on a seat. He looked full of supreme majesty, but there was a deep sinister feeling in his eyes.

This middle-aged man wearing a golden robe should be the city lord of Silver Dragon City.

At this time, the commander stepped forward and couldn't help but clasped his fists and said loudly: "See the Lord of the City."

The city lord of Silver Dragon City looked at the commander below and asked with some confusion: "Where is my son?"

Hearing what the city lord of Silver Dragon City said, the commander immediately couldn't help but said: "The young city lord seemed to have provoked some mysterious and powerful ancient beast in the primeval forest, and died in the primeval forest."

"What did you say?"

At this moment, after hearing what the commander said, the face of the city lord of Silver Dragon City suddenly changed drastically. He immediately stared at the commander below and said angrily: "You big commander. What did the commander do to let my son die in the virgin forest? "

The commander immediately couldn't help but said: "Lord City Lord, you don't know the temper of the Young City Lord. He wants to go on an adventure alone and does not want his subordinates to follow him, so there is nothing he can do. "

Hearing what the commander said, the city lord of Silver Dragon City showed extreme anger in his eyes, and he immediately stretched out his hand.

boom!

A terrifying suction force directly sucked the commander into his hand.

At this moment, the city lord of Silver Dragon City held the commander's shoulder with his palm. The cultivation aura emanating from his body was extremely terrifying. He said coldly: "You are a piece of trash. You can't even protect the young city lord. You might as well be." Die immediately!"

At this moment, just as the commander-in-chief had guessed, the city lord of Silver Dragon City was unreasonable at all. Regardless of whether it was the commander-in-chief's fault or not, he just wanted to kill the commander-in-chief to vent his hatred.

At this time, the commander seemed a little unwilling, and couldn't help but said: "Lord City Lord, it's really not my fault. It was the young City Lord who refused to let me follow, so I encountered an unexpected event, and after all these years, my subordinates, I have always been loyal to the Lord of the City, and I would like to ask the Lord of the City not to vent your anger on your subordinates."

Hearing what the commander said, the city lord of Silver Dragon City immediately smiled cruelly and said: "Who are you? In my eyes, you are just a dog under me. No matter whether you are wrong or right, I If I want to kill you, I will kill you! Now that my son is dead, I am very angry!"

When it comes to this, the city lord of Silver Dragon City directly wants to kill the commander.

At this moment, the commander simply gave up, his eyes suddenly became extremely cold, and he said loudly: "Since the Lord of the City is so ruthless and unjust, as I imagined, then don't blame the subordinates for the offence. ! Take action!"

Almost at this moment, the commander opened his storage ring.

Uh-huh!

As he opened his storage ring, Ye Feng rushed out immediately, holding the Starry Sky Insect Nest in his hand.

At the same time, the commander-in-chief was ready to go, and a golden sword appeared in his hand. It was the sword of the gods that Ye Feng had given to the commander-in-chief in advance.

Ye Feng was afraid that the commander's own weapons would not cause any harm to the city lord of Silver Dragon City, so he handed over the God's Sword to the commander in advance and asked him to directly assassinate him at the critical moment.

At this moment, Ye Feng's Starry Sky Insect Nest and the God's Sword in the hands of the Grand Commander took action almost at the same time.

At this moment, no matter how powerful the city lord of Silver Dragon City was, he did not expect that his subordinates had already had the intention of rebellion.

So at this moment, he didn't react. He was instantly pierced into the heart by the sword of the gods in the hands of the commander. Then the dense starry sky bugs in the starry sky bug nest also crawled all over the Silver Dragon City in an instant. The city lord was all over his body.

"ah!!"

At this moment, the city lord of Silver Dragon City couldn't help but roared and let out an earth-shattering scream.

But by this time, it was already too late.

His heart had been stabbed in half by the Commander-in-Chief, and his body was covered with bugs from the Starry Sky Insect Hive.

The continuous blows in an instant caused the city owner of the Silver Dragon City to suffer heavy losses immediately. He was unable to resist the gnawing of the Starry Sky Zerg and was killed in an instant.

Seeing this scene at this moment, even Ye Feng had a look of surprise in his eyes and said loudly: "I didn't expect it to be solved so quickly. I thought it would take a while."

At this time, the commander couldn't help but shook his head and said loudly: "Our carefully prepared assassination was carried out in an instant, and they were all killing moves. No matter how powerful the city lord is, he cannot resist it."

At this moment, the earth-shattering screams that the city lord of Silver Dragon City made before his death seemed to have attracted the attention of many elders and powerful men outside the city lord's palace.

Uh-huh! Uh-huh! Uh-huh!

Almost at this moment, several old men in silver robes flew over from outside the City Lord's Mansion and rushed directly into the City Lord's Mansion.

"What?"

At this moment, a group of senior strong men from Silver Dragon City saw the dead city lord of Silver Dragon City, and their eyes immediately showed horror.

They wanted to say something, but the commander-in-chief waved his hand and said, "Don't panic! Our Lord of Silver Dragon City seems to have encountered some strange witchcraft in the primeval forest. His mind was controlled and he wanted to harm me, so my friend Ye Feng and I eliminated him on the spot, solving a huge disaster for our Silver Dragon City."

At this moment, the strong men of Silver Dragon City who rushed in from the door didn't know whether what the commander-in-chief said was true, but now that the incident had happened, they could only choose to believe it.

After all, the commander-in-chief is the second best master in the entire Silver Dragon City after the Lord of the City, and his majesty in the entire Silver Dragon City is still very deep.

Now that the Lord of the City is dead, it doesn't matter what the truth is.

The old masters of the Silver Dragon City immediately clasped their fists and said, "Yes, Commander-in-Chief."

The Commander-in-Chief nodded slightly and said, "I will be the new generation of the city lord of the Silver Dragon City in the future. You will draft a notice to inform all the residents and practitioners of the entire Silver Dragon City, saying that the city lord was controlled by the strange monsters in the primeval forest, became cruel and ruthless, and wanted to harm his loyal subordinates, so my friend and I found him in time and directly eradicated him. From now on, I will be the new generation of the city lord of the Silver Dragon City and take charge of the overall situation."

"Yes, Commander-in-Chief... No, it's the city lord!"

At this moment, a group of old masters outside the city lord's mansion heard what the commander-in-chief said, and they might have some small murmurs in their hearts, but since things had come to this point, everyone did not dare to say anything more and nodded in response.

Before leaving, they took a deep look at Ye Feng, a seemingly ordinary boy standing next to the commander-in-chief, with horror in their eyes.

They knew that this seemingly ordinary young man was definitely an extremely terrifying guy who was able to assist the commander-in-chief and kill the extremely powerful city lord.

Chapter 5385 Greatest Sincerity

At this time, Ye Feng looked at the group of elders and powerful men leaving in the distance and couldn't help but said: "These people may not necessarily believe what you say."

The Commander-in-Chief smiled very confidently at this time and said: "The matter is over, it doesn't matter what the truth is. All they have to do is obey me, the new City Lord."

Hearing what the commander said, Ye Feng smiled slightly and said: "Okay, then I congratulate you on becoming the new generation of Silver Dragon City Lord, but don't forget your promise to me."

Hearing what Ye Feng said, the commander of Silver Dragon City immediately smiled and said: "Let's go, I will take you to the treasure house of our Silver Dragon City."

At this moment, Ye Feng said aloud: "Wait a moment and let me deal with the city lord of Silver Dragon City."

After the words fell, the commander's eyes flickered, because he knew that Ye Feng was probably going to use that weird and domineering devouring ability again.

At this moment, the commander nodded slightly and said loudly: "I will help you protect the law. Others will not enter it and see you devouring the city lord."

Ye Feng smiled and said, "Thank you very much."

After the words fell, Ye Feng directly started to activate the Devouring Domain.

Buzz!

A dark field directly enveloped the entire body of the city lord on the ground.

Then Ye Feng quickly swallowed it.

Boom!

At this moment, a very huge amount of skill and blood energy was immediately swallowed up by Ye Feng and injected into Ye Feng's Dantian, rapidly strengthening Ye Feng's skill.

You must know that the cultivation strength of the city master of this Silver Dragon City is six or seven realms higher than that of the great commander.

If Ye Feng and the commander hadn't suddenly prepared for a direct attack, they might not have been able to kill the city lord of Silver Dragon City.

Therefore, the blood energy and cultivation skills contained in the city lord of Silver Dragon City are simply extremely powerful.

After Ye Feng swallowed it, he was immediately supported by a huge amount of energy.

"Boom!!"

At this moment, Ye Feng's body suddenly burst out with an extremely powerful aura of cultivation.

Ye Feng suddenly broke through the bottleneck of his cultivation at the Half-Step Divine Realm, and was directly promoted to the first level of the Divine Realm!

"Very good!"

This made Ye Feng's eyes suddenly reveal a look of surprise.

Sure enough, as he expected, he devoured such a powerful figure as the city lord of Silver Dragon City, and he was able to break through his big bottleneck in an instant without any hindrance at all.

What's more, what surprises Ye Feng is that at this moment, Ye Feng's cultivation has broken through a big bottleneck. After breaking through to the first level of the divine realm, the skill and energy of the city lord of the Silver Dragon City that he devoured has not yet been exhausted.

Ye Feng can still feel that there is still a very huge energy that has not been digested by him.

Ye Feng continued to devour, and at this moment, Ye Feng's cultivation aura increased again.

boom!

The second level of the divine realm!

boom!

The third level of the divine realm!

At this moment, Ye Feng's cultivation once again broke through the second level and entered the third level of the divine realm. Finally, his aura stopped and he completely digested all the skills and energy of the Lord of Silver Dragon City, completely Swallowed cleanly.

At this moment, the commander of Silver Dragon City who saw this scene not far away seemed to be stimulated. He stared at Ye Feng and said in amazement: "Ye Feng, your ability is really too great." It's scary. I have been walking in the heaven for so many years, and I have never seen such a terrifying inheritance. Which super power in our eastern land of China are you? Why do you have such a terrifying inheritance? I have never heard of it. "

Ye Feng smiled slightly at this moment and said: "I am not a practitioner from your eastern China. I come from the southern region of the heaven."

"What? The southern region of Heaven?"

At this time, the commander's eyes immediately froze, and he couldn't help but said: "I didn't expect you to come from a very remote place in our eyes, and to have such powerful combat power and methods, as well as such terror And the strange and domineering inheritance is really incredible. As expected, every mountain is higher than the other, and the strongest has its own strength. "

At this moment, Ye Feng squatted down and took the storage ring from the hands of the Lord of Silver Dragon City.

Ye Feng explored it slightly, and his eyes suddenly showed a look of joy.

The storage ring in the hands of the city lord contains a lot of wealth, but there are no cultivation resources or some ancient elixirs that can improve cultivation skills.

However, Ye Feng is already very satisfied with being able to obtain all the wealth of the Lord of Silver Dragon City.

After all, Ye Feng is very likely to participate in some grand auctions and get good things. Being able to obtain the wealth of the Lord of Silver Dragon City will be a great supplement to his private wealth for Ye Feng. .

At this moment, seeing that Ye Feng had finished his work, the commander-in-chief immediately said, "Ye Feng, follow me. I will take you to the treasure house of our city lord's mansion. I will definitely do what I promised you. You can choose whatever you need from the treasure house. Just don't empty our treasure house. After all, I have become the city lord of Silver Dragon City now, and I still need to be responsible for the entire Silver Dragon City."

Ye Feng immediately laughed, patted the commander-in-chief on the shoulder, and said, "I won't empty the treasure house of your entire city. I will only choose what I need."

After the voice fell, the commander-in-chief also grinned, without saying much, but took Ye Feng to the direction of the treasure house of Silver Dragon City.

On the way, the commander-in-chief's face was full of emotion.

Unexpectedly, this time, not only did he not die in the primeval forest, but he cooperated with Ye Feng to kill the previous city lord and became the new generation of city lord of Silver Dragon City.

This experience made the commander-in-chief feel like he was in a dream.

However, the commander-in-chief deeply understood that without Ye Feng's help, it would be impossible to kill the Lord of Silver Dragon City.

Thinking of this, the commander-in-chief paid more and more attention to Ye Feng, and couldn't help but said: "If Ye Feng wants to come to our Eastern Shenzhou to settle down and practice from the southern area of the heaven in the future, you can come to our Silver Dragon City. I will always keep a position of deputy city lord for you, Ye Feng. Although you may not look down on this position, this is my greatest sincerity."

Hearing what the commander-in-chief said, Ye Feng smiled slightly and said: "Okay, if I really want to come to Eastern Shenzhou to practice in the future, I will consider settling in your Silver Dragon City first."

Chapter 5386 Arrived

Next, Ye Feng followed the commander and soon came to the treasure house of Silver Dragon City.

Ahead, Ye Feng saw a huge metal hall, standing on the ground.

Ye Feng couldn't help but said in surprise: "Is the treasure house of your Silver Dragon City this metal hall?"

The commander nodded and said: "Most of the wealth of our Silver Dragon City is basically stored in this metal hall. You can just follow me."

The commander-in-chief brought Ye Feng to the door of this metal hall.

Buzz! Buzz!

But suddenly, there was a fluctuation in the void.

Two old men wearing silver robes were revealed.

One of the old men said aloud: "No outsiders are allowed to enter the treasure house of Silver Dragon City."

The commander's eyes immediately showed a faint smile, and he said loudly: "Ye Feng is a good friend of mine, not an outsider, and he may be the deputy city lord of our Silver Dragon City in the future."

"What?"

Hearing what the commander said, the guardians of the Silver Dragon City's treasure house immediately showed a look of astonishment in their eyes.

At this time, the commander-in-chief said loudly: "Ye Feng, let's go in directly and ignore these people."

After saying that, the commander was very domineering and led Ye Feng directly into the treasure house in front of him.

After all, the guardians of the two treasure houses did not dare to take action, but retreated and disappeared into the void again.

At this moment, Ye Feng followed the commander and walked into the metal hall.

The next moment, Ye Feng immediately saw that a lot of wealth was piled up in this golden hall.

Seeing the mess and random piles on the scene, even the commander-in-chief scratched his head in embarrassment and said: "Our Silver Dragon City seems to be a little too lazy in the management of the treasure house. All the wealth They are all piled randomly on the ground, Ye Feng, you can look at them and pick them as you like, I will wait for you outside. "

Ye Feng nodded, and directly released his soul power, covering the entire treasure house, giving all the treasures that could improve his cultivation skills, such as some rare treasures of heaven and earth or peerless elixirs, as well as some ancient elixirs, etc. He searched them all in an instant, and then sucked them into the palm of his hand.

At this time, Ye Feng didn't hesitate and simply swallowed all the training resources.

In the next moment, energy ores, ancient elixirs, treasures from heaven and earth, peerless elixirs, etc. were all swallowed by Ye Feng.

"Rumble..."

Waves of extremely huge energy suddenly spread throughout Ye Feng's entire body.

The cultivation aura on Ye Feng's body immediately broke through rapidly and continuously.

boom!

The fourth level of the divine realm!

boom!

The fifth level of the divine realm!

boom!

The sixth level of the divine realm!

boom!

The seventh heaven of the divine realm!

boom!

The eighth level of the divine realm! !

At this moment, Ye Feng's cultivation level suddenly broke through the entire fifth heaven and entered the eighth level of the divine realm. He was almost on the verge of crossing the great realm of the divine realm.

At this moment, Ye Feng's eyes suddenly showed deep joy.

I didn't expect that I would get so many cultivation resources in the treasure house of a small Silver Dragon City, which would allow me to achieve so many breakthroughs in cultivation.

At this time, Ye Feng left the treasure house without any hesitation and walked outside.

When Ye Feng walked outside, the commander was waiting at the door.

When the commander saw Ye Feng coming out, he immediately couldn't help but asked: "Ye Feng, have you selected everything? Is it so fast?"

Ye Feng smiled slightly and said aloud: "I just selected the cultivation resources I need. I am not very interested in other things."

For Ye Feng, this Silver Dragon City's foundation is still much weaker after all.

Therefore, Ye Feng was not interested in many of the inheritances and weapons at all.

Weapons and inheritances that may be very high-end in the eyes of ordinary practitioners are nothing in Ye Feng's eyes.

Therefore, it was enough for Ye Feng to just choose the cultivation resources that could increase his cultivation skills and achieve a breakthrough in his cultivation.

At this time, the commander took a look inside the treasure house and found that many things in the treasure house had not moved, which made him relieved.

At this time, the commander immediately clasped his fists and said loudly: "Brother Ye Feng, I have other things to deal with. After all, the city lord just died, and I need to take action as soon as possible to stabilize the situation in the entire Silver Dragon City. "

Ye Feng immediately clasped his fists and said, "We'll see you later. I've finished my work here, and it's time to leave."

When he said this, Ye Feng seemed to have thought of something, and immediately couldn't help but said: "By the way, Commander-in-Chief, as an old member of Silver Dragon City, you should be responsible for the land of China in the east of the heaven and the primitive land. You know the many cities at the edge of the forest. Do you know how to get to the Warhammer City?"

"Warhammer City?"

Hearing what Ye Feng said, the commander immediately nodded and said: "Among the many cities in our entire edge area, Warhammer City is several levels more powerful than our Silver Dragon City. It is a very large ancient city. I have the map in my hand."

When he said this, the commander-in-chief directly took out a slightly worn map from his storage ring and said, "I bought this a long time ago. I haven't been to other cities for a long time. After all, since I became the commander-in-chief of Silver Dragon City, there have been a lot of things to do."

Ye Feng smiled slightly, took the map, and said, "Thank you."

Swish!

After saying this, Ye Feng jumped up and flew directly into the sky, flying quickly outside the Silver Dragon City.

The commander-in-chief couldn't help but sighed when he saw Ye Feng leaving: "It's really cool."

At this moment, the commander-in-chief sighed, his face became serious, and he flew towards the City Lord's Mansion of Silver Dragon City, ready to deal with the next thing.

...

At this moment, after Ye Feng left the Silver Dragon City, he quickly flew towards the Warhammer City according to the map in his hand.

In just half a day, Ye Feng had passed through hundreds of thousands of miles of edge forests and arrived at the Warhammer City.

At this moment, in Ye Feng's vision, a city that was even more majestic and taller than the Silver Dragon City appeared, standing on the ground not far away. The city walls were very high, ancient and majestic, giving people a heavy and vast atmosphere.

This city was the Warhammer City!

When Ye Feng came to the Warhammer City, he naturally wanted to join the team organized by the City Lord's Mansion of the Warhammer City to explore the ancient dragon's lair.

At this moment, Ye Feng held the token given to him by the Beast Hunting Team in his hand and quickly flew towards this Warhammer City.

Chapter 5387: Many Strong Ones

At this time, Ye Feng quickly arrived at the gate of Warhammer City and walked in directly.

After Ye Feng entered Warhammer City, he immediately saw that the entire city was very prosperous.

Moreover, many high-rise buildings were built on both sides of the city wall, which looked very prosperous.

Ye Feng did not linger for too long, but flew directly towards the direction of the City Lord's Mansion of Warhammer City.

Because Ye Feng came to Warhammer City this time, not to play, but to be able to join the team organized by the City Lord's Mansion to find the ancient true dragon's nest.

Ye Feng planned to go to Changsheng Xianmen after this matter was over, and find Leng Rushuang, the saint of the Frozen Temple of Changsheng Xianmen, to fulfill his promise to her.

At this moment, Ye Feng quickly flew to the gate of the City Lord's Mansion.

But at this time, several strong men in black armor immediately appeared at the gate of the City Lord's Mansion, blocking Ye Feng's way and saying, "The City Lord's Mansion is an important place. No outsiders are allowed to enter or approach. Please leave as soon as possible."

Ye Feng immediately showed his token, which was the token given to him by the Beast Hunting Team before, and then said, "Look, this is the recommendation token given to me by your Warhammer City Beast Hunting Team."

"Hmm?"

Hearing what Ye Feng said, looking at the token in Ye Feng's hand, it was really the token of a beast hunting team in their Warhammer City. The armored guard at the gate of the City Lord's Mansion nodded and said, "People who can be recognized by the elite beast hunting team in our Warhammer City must be very extraordinary, and are qualified to join our City Lord's Mansion team."

At this time, the guards of the City Lord's Mansion took Ye Feng directly into the City Lord's Mansion.

Ye Feng saw that the City Lord's Mansion was built very luxuriously, with a lot of greenery, rockery, water, and courtyards built everywhere.

Next, the guards in the City Lord's Mansion took Ye Feng through the layers of water courtyards and pavilions, and finally came to a hall in the middle of the City Lord's Mansion.

At this time, the guards of the City Lord's Mansion said: "If you want to join the team organized by our City Lord's Mansion, just enter this hall and wait for a while. Our Lord City Lord will summon everyone today to discuss the specific situation of going directly into the depths of the primeval forest to find the dragon's nest."

Ye Feng immediately clasped his fists and said: "Thank you for leading the way."

At this moment, Ye Feng walked directly into the hall in front of him.

When Ye Feng walked in, he saw a lot of other masters standing in this hall, and they should have come recently.

Ye Feng saw that there were a total of sixty or seventy people in this hall, almost all of whom came from the surrounding cities or some casual cultivators.

Ye Feng knew that these people probably had the same idea as himself, and wanted to join the team organized by the City Lord's Mansion and follow the strong men in the City Lord's Mansion to find the dragon's nest.

If they could enter the lair of the ancient dragon, even if they only got a share, they would be able to get a huge opportunity.

After all, for some casual cultivators, even if their own cultivation was quite powerful, they would not dare to go deep into such a terrifying place to look for opportunities.

But this time, since the top cities such as Warhammer City have invited heroes from all over the world to form a team to explore the dragon's lair, everyone is naturally very interested.

At this moment, Ye Feng walked into the hall in front of him without any hesitation, and began to close his eyes and rest, waiting for the city lord of Warhammer City to arrive here.

However, when Ye Feng closed his eyes and rested, Ye Feng also began to release his soul power and slightly explored the cultivation skills of dozens of masters in the entire hall.

Ye Feng found that most people's cultivation was similar to his own, and there were even some who were several realms lower than him. Ye Feng didn't care about these people.

What Ye Feng really cared about were the strong men who were six or seven realms higher than him.

Only practitioners who are six or seven realms higher than Ye Feng may make Ye Feng feel serious.

However, Ye Feng did not have hostility towards these people.

After all, everyone came to participate in the team organized by the City Lord's Mansion of Warhammer City to explore the ancient dragon's lair, so everyone is considered a partner in the future.

Ye Feng explored a little at this time and found that there were only two or three people who posed a threat to him.

Ye Feng did not say much, but continued to close his eyes and wait for the arrival of the city lord.

After waiting for nearly half a day, the sky was about to darken.

At this time, a middle-aged man in golden armor, with great majesty and a golden helmet, was full of the breath of killing and battlefield. This person was the city lord of Warhammer City.

At this time, after seeing the arrival of the city lord of Warhammer City, dozens of masters from all directions on the field all became serious and stood up quickly.

Ye Feng also stood up from the ground at this time and looked at the city lord of Warhammer City.

The lord of this Warhammer city gives people a very majestic impression at first sight. The aura of his cultivation is like a vast ocean, extremely vast, giving people a very terrible feeling of oppression.

Even Ye Feng felt the majesty and fear of the city lord of the Warhammer City at this time. He was definitely an extremely terrifying strong man.

Because Ye Feng could not detect the specific level of the other party's cultivation realm.

Ye Feng couldn't help but sigh in his heart. Sure enough, this Warhammer City is worthy of being one of the most powerful cities on the edge of the Shenzhou Land in the eastern part of the heaven. It has a much deeper foundation than the Silver Dragon City, and the city lord is also much more powerful.

Ye Feng can sense that the city lord of this Warhammer City is at least half as powerful as the city lord of the Silver Dragon City.

In other words, the real cultivation aura of the city lord of this Warhammer City is probably a full twenty or thirty realms higher than Ye Feng's current one.

This made Ye Feng sigh in his heart.

Sure enough, the Eastern Shenzhou Land is worthy of being the most glorious and brilliant place for cultivation in the entire heaven, and it is a holy place in the minds of many practitioners.

Many practitioners in other regions will want to go to the Eastern Shenzhou Land in the end.

Because the land of Eastern Shenzhou represents the most brilliant cultivation background of the entire heaven.

At this moment, when Ye Feng was thinking in his heart, the city lord of Warhammer City, standing on the high platform of the hall, smiled slightly, looked at the dozens of masters gathered here from all directions, and couldn't help but said: "I am the city lord of Warhammer City. I am very honored to have all the masters from all directions gather in my Warhammer City to help my Warhammer City explore the dangerous ancient dragon's lair."

At this moment, the words of the city lord of Warhammer City made everyone present smile.

Because the city lord of Warhammer City did not despise everyone because he was a super strong man who dominated one side, but was very polite.

This naturally made many masters present feel very satisfied and honored.

At this moment, an old man carrying a half-broken guqin on his back suddenly appeared in the crowd. He smiled and said, "The mayor of Warhammer City has always won people over with virtue and is very open-minded. In just ten years, he has led the entire Warhammer City from the weakest city to one of the most powerful cities today. Today, I see that it is indeed worthy of its reputation."

At this moment, the mayor of Warhammer City saw the old man carrying a half-broken guqin on his back, and immediately showed a look of surprise in his eyes. He couldn't help but say, "It turned out to be the real person Canqin, who entered the Tao with the guqin. When the sound of the guqin came out, the world shook. I didn't expect that the great god Canqin could come to this small temple in my Warhammer City. It's really an honor for me."

At this time, Ye Feng looked at the old man carrying a half-broken guqin, and his eyes also showed surprise.

Just when his soul power was emitted, he didn't even notice the breath of this old man.

This made Ye Feng couldn't help but take a breath.

It seems that there are many very powerful masters hidden among the people who came to join the team, and some of them are not much weaker than the city lord of Warhammer City.

It seems that many people are very interested in the mysterious ancient dragon's nest in the primeval forest.

Ye Feng is even more looking forward to it at this time. It seems that he has come to the right place. The ancient dragon's nest must be a very remarkable place, which contains great opportunities and luck, and attracts many super strong people.

Moreover, the more super strong people in this team, the higher the safety of everyone. Ye Feng naturally feels safer in the big team.

Chapter 5388: Severe Injury from a Hammer

At this time, the city lord of Warhammer City looked at the whole crowd and said loudly: "Since everyone is almost here, we can leave directly."

After hearing this, everyone showed a trace of anticipation in their eyes, and of course, there was also some nervousness.

Because everyone knows very well that the ancient dragon's lair they are about to explore is definitely an extremely dangerous place, but it also contains great opportunities.

At this time, Ye Feng followed the crowd and said nothing.

At this moment, the city lord directly led a group of more than a dozen armored guards from the city lord's palace and flew quickly towards the outside of Warhammer City.

Uh-huh! Uh-huh! Uh-huh!

At this moment, many masters in the city lord's mansion followed suit.

Among the people, Ye Feng also followed the large team and followed behind the Lord of Warhammer City.

Ye Feng's cultivation level is neither low nor high among the entire team, so he is inconspicuous. No one knows how powerful Ye Feng's combat power is.

Ye Feng was also happy.

Because Ye Feng knew very well that when the entire team was exploring the ancient dragon's lair, the more conspicuous they were, the more dangerous they would be.

Because in dangerous places like the ancient dragon's lair, the more powerful a practitioner is, the greater the danger he may encounter.

Practitioners like Ye Feng are the most perfect, and their cultivation aura is not very eye-catching, but once their fighting power breaks out, the attack is simply terrifying, far beyond the realm of cultivation revealed on the surface.

At this moment, a huge group of teams flew directly away from the Warhammer City and came to the virgin forest outside the city.

The city lord of Warhammer City, who was standing at the front, immediately said: "Now that we have entered the entire primeval forest area, everyone will land directly on the ground and walk to the ancient dragon's lair. Otherwise, it will be really difficult." It is too eye-catching. When our group of powerful human cultivators gather together, it is easy to attract the attention of some powerful beasts in the entire primeval forest, such as the top beast kings, and even beast king-level existences will appear, so everyone starts from It's best to walk on the ground."

Hearing what the city lord of Warhammer City said, everyone nodded and landed from the sky.

At this time, Ye Feng also followed everyone and landed on the ground from high altitude.

At this moment, Ye Feng was guessing that the city lord of Warhammer City and the master Canqin in the team were strong men of this level who were twenty or thirty realms higher than his current level. He didn't know that this kind of Can a powerful human being of this level fight against the Beast King?

The Beast King, in this primitive forest, can definitely be regarded as an extremely powerful transcendent existence and the overlord among the beasts.

Ye Feng had experienced the power of the Beast King before when he fought against the beast tide in Tianbing City.

At that time, the mysterious Beast King did not even reveal his true identity. He just stretched out a finger and almost killed Ye Feng.

Of course, Ye Feng is much stronger now than when he was in Tianbing City.

But Ye Feng knew very well that he was definitely still no match for the Beast King.

Ye Feng felt that the Beast Emperor was probably much more powerful than the city lord of Warhammer City and well-known strong men like Zhenqin Zhenren. Otherwise, the city lord of Warhammer City would not be so cautious.

And just when Ye Feng was thinking secretly in his heart.

The entire team was walking on the forest floor and happened to pass by a huge mountainous area.

boom!

And suddenly at this moment, a huge silver scorpion suddenly jumped out of this mountain.

This big silver scorpion is extremely majestic, the size of a small mountain, and its tail sting is also silver. It is raised high and is hundreds of meters long. Under the sunlight, it shines with a cold metallic luster.

"It's a beast king!"

"And he's the top beast king!"

At this moment, some strong men in the team couldn't help but exclaimed.

No one expected that they had just set out and encountered such a ferocious giant insect beast halfway.

"roar!"

At this moment, the big silver scorpion that rushed out of the mountains and rivers roared and charged directly in the direction of the entire team. The roar resounded throughout the sky, carrying the smell of blood and blood.

At this time, everyone was preparing to attack.

boom!

But suddenly at this moment, the city lord of Warhammer City suddenly raised his hand, and a huge black hammer suddenly appeared in his hand.

As the Lord of Warhammer City activated his power, the big black hammer in his hand immediately erupted into brilliant thunder and lightning.

Buzz!

At this moment, the city lord of Warhammer City was shimmering and shrouded in thunder, boundlessly bright. The black hammer in his hand suddenly fell, triggering the power of thunder above the nine heavens, and directly hit the silver scorpion that rushed forward. On the big scorpion.

"Boom!"

Accompanied by a huge roar, the entire field suddenly shook, and the scene was terrifying.

Even if the big silver scorpion was a top beast king, under such a terrifying attack from the Lord of Warhammer City, he was suddenly bombarded and flew backwards. His whole body was smoking, and half of his body was shattered by the power of thunder. He suffered. Severely injured.

"What a powerful force!"

At this moment, everyone in the audience had deep amazement in their eyes.

At this time, Ye Feng was also shocked.

I didn't expect that the lord of Warhammer City actually possessed such a powerful force.

At this moment, Ye Feng immediately understood that it seemed that his guess was right. The strength of the lord of Warhammer City, even if it was not as strong as the Beast King, was almost there.

After all, with one move, he directly hit a top beast king, which was enough to show how terrifying his strength was.

At this moment, it seemed that the lord of Warhammer City was frightened. The silver scorpion, even if it was a top beast king, cried out, suffered a heavy blow, and quickly fled into the mountains and rivers.

There were strong men around who wanted to chase after it, but they were stopped by the mayor of Warhammer City, who said, "The main purpose of our trip is to find the lair of the ancient dragon. This silver scorpion is a top beast king. Even though it was severely injured by my holy hammer, it still has a very strong fighting power. We should not chase it rashly, so as not to alert the enemy. If we get entangled with it and attract the existence of the beast king, it will be troublesome."

The mayor of Warhammer City meant very simply. He just deliberately burst out such a powerful move to drive away the silver scorpion. He didn't want to get entangled with it too much, so as not to cause greater disasters.

Everyone nodded when they heard this, and didn't continue to chase the silver scorpion, because even if a top beast king was severely injured, if everyone chased it relentlessly, the counterattack before death would be extremely terrifying.

At this moment, the mayor of Warhammer City led a group of people and continued to fly quickly towards the lair of the ancient dragon.

However, at this time, Ye Feng was staring at the direction where the top beast king, the silver scorpion, had fled, and his eyes flickered.

"A seriously injured top beast king, while it has not fully recovered, maybe I can kill it alone."

Ye Feng thought to himself, and then he stopped hesitating, secretly used the space wormhole, and disappeared inexplicably at the end of the team, and no one noticed that there was one person missing in the team.

Ye Feng decided to go alone to hunt down the seriously injured top beast king, and then return to the team after the hunt was successful.

After all, this is a free bargain, and it is not worth it. Ye Feng is not a person who keeps to himself. As long as the benefits are huge, Ye Feng will take risks.

Chapter 5389: The Boundless Map of Ten Thousand Beasts

Before leaving, Ye Feng secretly noted down the approximate direction of the entire team.

Ye Feng decided that after secretly hunting down the seriously injured top beast king, the silver scorpion, he would immediately and quickly return to the direction of the team's advance. As long as he managed the time well, he should not fall behind.

You know, that silver scorpion is a top beast king. Under normal circumstances, it is almost impossible for Ye Feng to hunt down a top beast king.

Even if Ye Feng can beat a top beast king, he can't hunt down the other party at all.

The combat power of a top beast king is definitely not much worse than Ye Feng.

So now, with the help of the city lord, Ye Feng has the opportunity to hunt down that top beast king instantly.

Boom!

At this moment, the silver scorpion fled in fear, as if it had witnessed the terrifying power of the human just now.

This top beast king quickly fled to a river in the mountains and rivers, and found that the terrifying human race strongman did not chase him, and he was relieved immediately.

The silver scorpion saw a group of human race coming and thought that food was delivered to the door, so it was ready to feast on those human race warriors.

But what it didn't expect was that among this group of human race warriors, there was such a powerful human race with terrifying power, which severely injured it in an instant, naturally making the silver scorpion flee quickly.

At this moment, the silver scorpion was sure that the human race warrior did not chase it, so it relaxed directly and began to wash its wounds in the river of this mountain and river.

This river was nurtured by the spirit of the mountains and rivers. Every drop of river water contains the spiritual energy of the mountains and rivers, which can greatly restore the flesh and blood of living beings.

Every time the silver scorpion fought with its opponent and was seriously injured, it would come to this magical river to wash its wounds. The river water covered the wounds and quickly restored all its injuries.

However, this time the silver scorpion was seriously injured, half of its body was broken, and its whole body was charred by the terrifying thunder and lightning.

But just when the silver scorpion was completely relaxed and immersed in the healing of the river.

Buzz!

Suddenly, the void fluctuated slightly.

Even the silver scorpion did not react. A golden long sword suddenly appeared from the void not far away, like a golden lightning, and pierced the head of the silver scorpion with a "puff".

"Bang!"

The huge body of the silver scorpion fell down with a bang, and it had no time to react and died directly.

Before dying, the top beast king of the silver scorpion widened his eyes, as if he could not believe that there was a weak human boy who dared to be so bold and had been sneaking behind it, and he had not been discovered yet.

Buzz!

At this time, with the fall of the top beast king of the silver scorpion.

The void fluctuated, and Ye Feng's figure appeared.

At this time, Ye Feng held the golden sword of the gods in his hand, looking at the silver scorpion that fell in front of him, with a satisfied look in his eyes.

Sure enough, just as he guessed, the severely injured silver scorpion had no intention of noticing that he, a weak human cultivator, was lurking in the surrounding void. He was killed by him in one blow, and he succeeded in assassinating him directly without even having to do anything.

Buzz!

The next moment, Ye Feng naturally released his devouring domain without any hesitation and began to devour the blood and energy of the silver scorpion.

You know, this silver scorpion is not an ordinary ancient beast, but an extremely powerful top beast king.

The blood and energy and beast essence contained in a top beast king are extremely powerful.

"Boom boom..."

As Ye Feng devoured, a huge amount of energy was immediately injected into Ye Feng's dantian, rapidly strengthening Ye Feng's skills.

Boom!

The ninth level of the divine realm!

Boom!

The tenth level of the divine realm is perfect! !

At this time, Ye Feng's cultivation directly broke through to the level of the tenth level of the Godhead Realm!

Ye Feng could feel that after he devoured the top beast king, the silver scorpion, his strength had increased by dozens of times, and was many times stronger than before.

This made Ye Feng very happy.

Because the ancient dragon's nest that Ye Feng followed everyone to explore next was very dangerous.

The stronger Ye Feng's cultivation strength, the safer Ye Feng's own safety.

Although there are many strong people in the whole team, at the critical moment, others may not protect you.

So strong own strength is the hard truth.

At this moment, Ye Feng did not leave the valley directly, but looked at the huge river in the mountains in front of him with interest.

Just now, Ye Feng was lurking in the void and clearly saw that this river was very magical.

The river water seemed to contain innate life aura, which could actually allow the flesh and blood of a top beast king to recover quickly.

Ye Feng immediately guessed that there might be something good under the river, otherwise it would be impossible for the river to become so magical.

Splash!

The next moment, Ye Feng did not hesitate at all and jumped directly into the river in front of him.

Ye Feng quickly dived into the river and soon reached the bottom of the river.

Ye Feng immediately saw that at the bottom of the river, in the river bed, there were stone tablets.

Each stone tablet is engraved with an ancient orc text.

Under the entire river, there are hundreds of ancient stone tablets standing in it.

On each stone tablet, there is a special ancient orc text, which seems to represent some special meaning.

At this moment, Ye Feng didn't want to think too much. Knowing that these stone tablets definitely had extraordinary origins, he simply pulled out all the hundreds of ancient orc stone tablets under the river and put them into his own in the storage ring.

Immediately, Ye Feng jumped out of the river and flew in the direction of the previous Warhammer City team.

In less than half an hour, Ye Feng had returned to the original route, flying towards the direction of the team in his memory, trying to find the previous team route.

Soon, Ye Feng saw the entire team from a distance.

Buzz!

Ye Feng circulated the void wormhole and subtly came to the back of the team and rejoined the team. No abnormalities were found.

After all, the strongest beings always lead the way at the front of the entire team and have no intention of noticing the situation at the back of the team.

Those standing at the back of the team are basically the most ordinary and inconspicuous practitioners in the entire team.

Ye Feng rejoined the team, and while following the team, he secretly explored the hundreds of ancient orc stone tablets that were included in his storage ring.

Ye Feng couldn't find anything, so he could only consult Emperor Chu in his mind: "Emperor Chu, wake up and help me find out what these hundreds of ancient orc stone tablets are and what their secrets are."

Emperor Chu woke up in his mind, observed for a moment, and said aloud: "It seems to be part of the treasure in a certain beast clan's divine court in the ancient dark ages. That treasure seems to be called the 'Ten Thousand Beasts Without Borders Map'. These hundreds of ancient The Beast Tribe Stone Tablet is not a stone tablet, but the fragments that were broken down after the Beasts Without Borders was shattered. However, it was not complete. After the Beasts Without Borders was shattered, it was broken into ten thousand pieces. But you're lucky if you can find hundreds of pieces at once."

Chapter 5390 Underground Pit

At this time, hearing what Emperor Chu said in his mind, Ye Feng's eyes showed a look of surprise. It seemed that he did not expect that these stone tablets he accidentally obtained were fragments of a very powerful super magic weapon.

According to Emperor Chu, this super magic weapon is called the Map of the Endless Beasts. It is a super treasure among the orcs in ancient times. It seems to be very powerful.

This immediately made Ye Feng become interested, and he couldn't help but say: "It seems that if there is a chance in the future, I want to inquire about the other fragments left over from Beasts Without Borders. If they can be pieced together completely, maybe I can put them together." The incomparably powerful super magic weapon of Beasts Without Borders is re-appeared in the world, and the power of Beasts Without Borders is once again exerted. "

When Emperor Chu heard what Ye Feng said in his mind, he immediately nodded and said aloud: "This Ten Thousand Beasts Without Borders map was a natal magic weapon refined by the highest-level Orc Super Emperor among the Orcs. It has ancient The majesty and power of the super

emperor of the beast race is almost surpassing that of the gods, so if you can really get a full 10,000 fragments of the Beasts Without Borders map, you might be able to revive the super magic weapon of the Beasts without Borders map. "

Ye Feng nodded slightly and then said nothing more.

But at this time, Emperor Chu continued to speak: "Even if you have only discovered a few hundred fragments of the World of Beasts, if you can refine all these hundreds of fragments and put them back together, even if it only forms part of the Map of All Beasts, and it can also exert part of the power of the Map of All Beasts. You must know that the power exerted by this terrifying super magic weapon of the super emperor of the beasts, even if it is just a fragment of the map, is terrifying. Boundless."

Hearing what Emperor Chu said in his mind, Ye Feng's eyes suddenly lit up and he immediately said, "Okay, let me give it a try and see if I can refine these fragments."

At this moment, Ye Feng was following behind the team while quickly refining hundreds of pieces of Beasts Without Borders in the storage ring.

As Ye Feng continued to refine it, Ye Feng really felt that each of these fragments contained the power of a very ancient and terrifying magic weapon, and it had the majesty of the Orc Emperor.

At this time, Ye Feng did not hesitate and continued to increase his power and began to quickly refine these hundreds of fragments.

For Ye Feng, whether it is the improvement of cultivation skills or the refining of super magic weapons, it will greatly improve Ye Feng's overall strength.

You know, Ye Feng is now following the entire team to find the ancient dragon's lair, where he may encounter terrible dangers.

Therefore, if you can refine these hundreds of fragments and piece together part of the super magic weapon of the ancient super emperor of the Ten Thousand Beasts Divine Court, such as the Map of the Borderless Beasts, it can also greatly improve Ye Feng's combat effectiveness.

Because the power of the ancient orc super emperor is not something that ordinary people can resist, and it can destroy everything in an instant.

And while Ye Feng was silently refining these hundreds of fragments, at the front of the entire team, the city lord of Warhammer City suddenly said: "Everyone, be careful, we are almost at the entrance to the ancient dragon's lair."

"Um?"

At this moment, when everyone heard what the city lord of Warhammer City said, their faces suddenly became very excited, and they quickly looked in a certain direction ahead.

Sure enough, the next moment they saw a huge mountain appearing in front of them.

And under this mountain, there was a huge bottomless cave.

This huge underground hole feels very scary, like the bloody mouth of an abyssal beast, as if it can swallow people into the endless abyss and darkness in an instant, never to see the light of day again.

At this time, the city lord of Warhammer City spoke out: "A certain treasure hunting team in our Warhammer City found this underground entrance and found some corpses and fragments of ancient dragons. Therefore, we judged that there is something inside this underground cave. The lair of the ancient dragons back then, but now we don't know if any ancient dragons still survive, so everyone must be careful. If there are really ancient dragons that survive, even if they are extremely old, they will definitely have extremely terrifying power. Everyone must work together when the time comes, don't panic, and fight together against the dangers in the ancient dragon's lair. There is also the chance of creation in the ancient dragon's lair. If discovered, we, Warhammer City, must first have the upper levels of the City Lord's Mansion collect them, and then redistribute them to everyone after they finally return to Warhammer City safely. This way, everyone can avoid fighting with each other in the chaos. "

Hearing what the city lord of Warhammer City said, many people's faces suddenly sank slightly. It seemed that they did not expect that the city lord of Warhammer City actually wanted to put all the opportunities into his own private storage ring first, and then wait. Distribution will be done after returning to Warhammer City.

However, although some people have their own opinions, considering that the city lord of Warhammer City is an upright person and a well-known figure, he should not be tempted to take all the wealth for himself.

So at this time, everyone nodded and said nothing.

When Ye Feng heard the city lord of Warhammer City say this, he couldn't help but his eyes flickered slightly.

For Ye Feng, he is just an insignificant figure in the team this time, so the biggest opportunity is probably not his turn. It is already very good that he can get a share of the entire team.

As for if there is any chaos, then Ye Feng will definitely try his best to plunder the opportunities and fortunes he needs.

At this moment, Ye Feng was thinking secretly in his heart, and followed the entire team directly into the huge hole in the ground under the mountain in front.

The next moment, everyone immediately felt that they were descending rapidly.

And it has been falling for half an hour, and it has not yet reached the bottom.

This made many people couldn't help but say in surprise: "The ancient dragon's lair is indeed the place where the ancient dragon clan lives and hatches its little dragons. As expected, it is very far away from the entire ground, in the deepest part of the underground. "

At this time, the old man who was quite powerful in the team, Can Qin Zhenren, couldn't help but said: "It is rumored that in ancient times, there were ancient dragons that even opened the underground passages of the entire interface directly from the ground. , entered the chaos at the bottom of the entire interface, absorbed the energy of chaos, and gave birth to a chaos dragon with the power of chaos. Of course, that is just a legend. "

At this moment, everyone was chattering, obviously looking forward to exploring the ancient dragon's lair.

However, Ye Feng followed the team at this time and radiated his soul power, covering the surroundings in order to prevent any terrible danger and have time to react.

Ye Feng has always been quite cautious, and now is no exception.

Although everyone thought there was no danger, Ye Feng had always been cautious.

After all, the ancient dragon's lair is a very special place. Even if you haven't actually reached the bottom of the lair, you may encounter danger halfway, so it's better to be careful in advance.
