

Ancient 5391

Chapter 5391 Mutated Monster

At this time, everyone dropped quickly.

But before they reached the bottom, suddenly a pair of red eyes suddenly lit up in the darkness on the surrounding passage walls.

These red eyes are not big, but they are densely packed, giving people an extremely terrifying feeling.

At this moment, someone suddenly exclaimed: "Look, what are those red eyes in the surrounding passages?"

But at this time, everyone's reaction was already too slow.

The moment they discovered these red eyes, a bloody storm rushed towards them.

"Crack!"

"Crack!"

Several practitioners with weak cultivation levels had their necks bitten off by some terrifying creature in the darkness before they even had time to react. They turned into headless corpses and were dragged into the darkness and disappeared. No trace.

Someone clearly saw the true face of these fertile creatures and couldn't help but say: "They are a group of blood-colored bats as big as a person. Those red eyes are the eyes of those bats!"

There was an experienced old man in the team who couldn't help but said: "This seems to be a monster that has been lost in our heaven for many years. It is called the demon blood bat. It is a mutated bat that was born after being contaminated with the blood of the ancient demon giant. They have very terrifying attack power, and all of them are very aggressive and cruel, biting and killing everyone they see."

At this moment, Ye Feng was actually rushed in front of him by a demon blood bat.

But Ye Feng was already prepared, so he reacted instantly and punched out, sending a demon-blood bat flying backwards.

At this moment, many people around him looked at Ye Feng in surprise.

Because they had also seen just now that these demon blood bats were very terrifying, with teeth that looked like they were made of steel. They were very sharp and could bite off the necks of powerful practitioners at an extremely fast speed.

But Ye Feng reacted instantly. Otherwise, Ye Feng might have been dragged into the darkness and turned into a headless corpse like the few weak practitioners who were killed just now.

But at this time, several practitioners around Ye Feng noticed Ye Feng's powerful fighting power, and they were able to send these terrifying demon-blood bats flying backwards with one punch.

Others don't have time to pay so much attention.

Everyone put up their protective light shields one after another, and some even directly activated their extremely powerful weapons to float around them to prevent those demon blood bats from attacking again.

And sure enough, almost at the next moment, a dense group of demon blood bats seemed to be awakened.

Wow!

There were tens of thousands of demon blood bats, attacking everyone crazily.

Seeing this mind-numbing scene, even the city lord of Warhammer City who was leading the team couldn't help but said: "I didn't expect so many demon-blooded bats to survive under this giant dragon's lair. , it seems that this ancient dragon's lair is much more complicated than we imagined.

It is very likely that the ancient demon ancestor giants came to this ancient dragon's lair in advance, so these ancient demon giants were born. Demon blood bat."

"What?"

At this time, hearing the city lord of Warhammer City say this, many people's eyes became a little downcast.

Because they didn't expect that such a bloodthirsty and terrifying demon-blood bat monster would appear in the ancient dragon's lair.

But since everyone has come at this time, it is impossible for everyone to retreat.

The city lord of Warhammer City was the leader this time, so he naturally launched a very violent attack in an instant.

boom!

I saw a huge hammer appearing in the hands of the city lord of Warhammer City once again, blasting towards the front.

"Crash!"

As his hammer fell, rays of terrifying thunder suddenly burst out from the big hammer in his hand, forming an extremely terrifying thunder frenzy, which instantly swept away a large amount of demon blood that rushed towards him. The bats were completely blackened by the electric shock, and hundreds of demon blood bats were electrocuted to death with the power of thunder.

It has to be said that the city lord of Warhammer City is indeed the ceiling of combat power among this team, and is indeed very powerful.

However, the city lord of Warhammer City alone cannot change the situation on the entire battlefield.

Thousands of demon blood bats rushed in, instantly surrounding many powerful men.

But this time there was reaction time, so there were no major casualties.

After all, this team is basically composed of very powerful practitioners, otherwise they would not have the guts to participate in this exploration of the ancient dragon's lair.

So at this time, everyone burst out with their own attacks, frantically confronting and killing the besieging demon-blood bats.

However, none of the demon blood bats are afraid of death. These monsters are very cruel and vicious. Therefore, under the crazy siege of the demon blood bats, many practitioners gradually became exhausted and their mana was exhausted. They were killed by the demon blood bats. He bit his neck and died instantly.

At this moment, Ye Feng was at the back of the team and did not receive much impact.

While Ye Feng killed a small number of demon blood bats surrounding him, he secretly released the Devouring Domain and began to devour the blood energy of these demon blood bats.

You know, there are tens of thousands of demon blood bats here.

These demon blood bats are not ordinary dark bats, but mutant monsters stained with the blood of ancient demon giants.

Therefore, the demon blood contained in their bodies has a huge nourishing effect on Ye Feng.

After Ye Feng swallowed it, he immediately obtained a very powerful and advanced blood energy.

At this moment, Ye Feng's cultivation power immediately increased rapidly.

Ye Feng's previous cultivation had broken through to the tenth level of the Godhead Realm.

However, when he continued to swallow and absorb the demon blood bats, Ye Feng's power instantly increased to the critical point, and then broke through with a bang, directly breaking through to the half-step human god realm above the Godhead realm!

The human god realm is an extremely powerful realm of cultivation.

When a practitioner enters the human god realm, the power of God will be generated in the practitioner's body.

So this is a process of evolution from human to god.

When Ye Feng entered the half-step human god realm, he clearly felt that his power had greatly increased.

A new kind of divine power began to emerge from his body and every inch of his flesh and blood.

Chapter 5392 Team 7

Ye Feng was very happy at this time, because before Ye Feng reached the ancient dragon's nest at the bottom, he had already absorbed so much blood energy, which made his cultivation power break through.

And you know, if Ye Feng relied on himself, it would be impossible to kill so many magic blood bats in a short time.

But there were so many strong people present, including the mayor of Warhammer City, who were frantically killing the magic blood bats that surrounded them.

At this moment, it was like everyone was working for Ye Feng, helping Ye Feng kill these magic blood bats and let Ye Feng be devoured.

At this time, after Ye Feng's cultivation had broken through, the surrounding magic blood bats seemed to have seen the horror of this team, and immediately no other magic scorpion bats dared to besiege everyone.

At this moment, a guard in black armor beside the Lord of Warhammer City immediately reported: "Report to the Lord of Warhammer City, this time we lost a total of six masters, all killed by the blood bats."

Hearing what the guard of the Lord of Warhammer City said, the Lord of Warhammer City immediately showed a hint of depression in his eyes, and then said: "No matter what, we must enter the ancient dragon's lair to explore this ancient ancient ruins. Casualties are inevitable. There is no way."

Although everyone was a little frightened at this moment, no one retreated.

Because they all knew that if they wanted to explore this extremely dangerous ancient dragon's lair, they might encounter terrible dangers at any time, causing the death of the strong in the team. This is a very normal thing.

So many people had already figured it out in their hearts before coming to this team. This time, if they could get a huge opportunity to enter the ancient dragon's lair, they would definitely be able to soar into the sky.

But if they can't get it, they may die halfway.

At this moment, everyone didn't say much and continued to descend.

Finally, after another half an hour, all the masters of the entire team descended to the bottom of the underground pit.

When everyone landed, they saw a lot of ancient bones on the ground.

Most of these ancient bones have been completely decayed, and they turned into ashes when touched.

Many strong men couldn't help but say: "These bones are so huge, they should be the bones left by the ancient dragons. These are precious dragon bones. Unfortunately, they have all decayed in the corrosion of the years. Just touch them and they will disappear completely."

Many people felt very sorry, otherwise, they would be able to make a fortune just by taking these huge dragon bones back.

At this moment, everyone in the ancient dragon's nest who really came to them became very cautious, looking around to deal with the dangers that might come at any time.

Ye Feng stood in the whole team at this time and looked around.

Ye Feng was also very much looking forward to this ancient dragon's nest, hoping to get a huge opportunity from it.

After all, the ancient dragon clan was definitely one of the most famous super races in the entire heaven in ancient times, and it was a hegemonic race.

So if you can find a nest of the ancient dragon clan, you may be able to get the wealth left by the ancient dragon clan.

At this moment, the mayor of the Warhammer City, who was standing in the front, said: "Everyone must be careful next to prevent dangers that may appear at any time. The magic blood bats we encountered during the descent just now may be just one of the very small dangers. In this real ancient dragon's nest, there may be even more terrifying dangers."

Hearing the mayor of the Warhammer City say this, everyone nodded.

They all knew that they had encountered so many magic blood bats on the way here. This ancient dragon's nest may have been contaminated by the ancient demon giants, so there may be dark creatures of the demon living here.

These creatures of dark attributes are all very brutal, so everyone knows that they must be very careful.

However, thinking of the powerful strength of the city lord of Warhammer City, everyone felt relieved.

In addition to the city lord of Warhammer City, there are also peerless masters like Canqin Zhenren, who are not much worse than the city lord of Warhammer City.

So everyone is very confident in the overall strength of the entire team.

At this moment, the city lord of Warhammer City, with a group of guards from the city lord's mansion, led everyone to walk quickly towards the inner area of the ancient dragon's nest.

When they came to the deeper part of this underground nest, they immediately saw that there were passages leading to different places in front of them.

Each passage was extremely deep, and it was unclear where each passage led to.

"This..."

Seeing this scene at this moment, everyone was stunned.

Someone couldn't help but say, "Warhammer City Lord, there are suddenly so many passages in front of us, which one should we take?"

The city lord of Warhammer City was also stumped by the problem at this moment.

Because he couldn't tell which passage would have the opportunity.

At this moment, there were many powerful independent cultivators in the team who couldn't help but say: "There are so many channels. If we explore one by one, I don't know when we will finish. I think we should split the whole team into six or seven teams according to our strength and enter each channel to explore. If there is any situation, everyone can return in time to inform others of the specific situation in each channel."

At this moment, the mayor of Warhammer City suddenly became a little ugly when he heard these powerful independent cultivators say this.

Because the meaning of these independent cultivators is very clear, they don't want to walk with the whole team at all.

When they came to the ancient dragon's lair, they all wanted to act alone and explore their own opportunities.

The mayor of Warhammer City knew that he couldn't offend the public at this time, so he could only nod and agree.

Next, the whole team selected seven of the most powerful top masters, led seven teams, and walked towards each channel.

Ye Feng was assigned to the seventh team.

The seventh team was the weakest, and the captain of the team was also the weakest among the seven top masters.

Many people felt very discouraged.

Because many people want to be assigned to a team with well-known big figures like the city lord of Warhammer City or Canqin Zhenren, which will be safer.

But since they have been assigned to the seventh team, there is no other way but to follow. At least, it is much safer than acting alone.

After all, there are more than a dozen masters in each team.

At this moment, Ye Feng was also assigned to the seventh team and stood at the back.

Because from the surface, Ye Feng's cultivation level is the lowest, so naturally he walks at the back and is the least noticeable.

The captain of the seventh team is a big man in black armor, carrying a huge ice axe that looks like it was made of ice. He is an ice-attributed cultivator, and his cultivation level is ten realms higher than Ye Feng's current level.

Ye Feng estimated that the captain of their seventh team, this armored big man carrying a huge ice axe, should be at the same level of cultivation strength as the commander of the Silver Dragon City he met before.

In fact, it is already very powerful, but compared with the city lord of Warhammer City or famous figures like Canqin Zhenren, it is definitely not as good as it should be.

But Ye Feng is also happy with it.

Although he did not follow the most powerful person, his personal freedom is much higher and he will not be suppressed by particularly powerful people.

If there is really a huge opportunity, Ye Feng will try to grab it even if he does not hesitate to expose his true combat power.

After all, the whole team has been split into seven teams, and everyone is tacitly aware of it, and each of them is looking for their own opportunities.

As for the unified distribution mentioned by the city lord of Warhammer City before, it is estimated that none of these unruly and unruly cultivators took it seriously.

Chapter 5393 Sure enough, there is movement

At this moment, the captain of the seventh team, the armored man carrying a giant ice crystal ax on his back, led a dozen members of the seventh team, including Ye Feng, and immediately walked towards the seventh passage in front of them.

At this moment, the armored man couldn't help but said: "I know everyone wants to follow famous figures like the Lord of Warhammer City, but there is no way. We are now assigned to a team, so that everyone can cooperate with each other. , unite as one, in this way, if we encounter any danger when exploring this passage, we can all deal with it calmly. "

Hearing what the armored man said, more than a dozen members of the entire team nodded.

Someone couldn't help but said: "Senior, don't worry. Although senior is not the strongest among all the seven team captains, the fact that senior can tell us this matter so peacefully shows that senior is very capable." Sincerely, we will all cooperate with our seniors."

When the armored man carrying a huge ice crystal ax heard these words, he immediately nodded and said: "Don't worry, everyone, if you encounter any very terrible danger or powerful enemy, I will definitely not abandon you and run away. I will Fight until the end."

After the armored man finished speaking, he led the entire team to quickly advance through the passage.

Ye Feng followed the team, exuding soul power and covering the surroundings to prevent possible dangers.

And sure enough, when he was halfway there, Ye Feng clearly noticed something and couldn't help but said: "Everyone, be careful. There seems to be something special hidden in the wall of the passage ahead. It may be dangerous."

"Um?"

Hearing Ye Feng say this at this moment, everyone's eyes showed surprise.

Because everyone saw it, Ye Feng looked like just an ordinary young man. When he suddenly said such words, everyone naturally didn't believe it.

After all, even the captain of their seventh team didn't notice anything strange ahead.

But at this time, the armored man with the ice crystal giant ax on his back couldn't help but said: "Since this little brother said this so solemnly, it means that this little brother must have noticed something. Although this little brother The little brother's cultivation strength doesn't seem to be as strong as the rest of us, but maybe this little brother has a special ability to detect danger in advance."

It has to be said that the captain of the seventh team, a big armored man carrying a giant ice crystal ax, is still a very open-minded person. He will not look down on Ye Feng just because his cultivation is weak on the surface. He feels that what Ye Feng said Everything is unbelievable.

At this moment, hearing this armored man say this, Ye Feng also had a look of surprise in his eyes, as if he didn't expect such a powerful figure to immediately believe what he said.

In response, Ye Feng smiled slightly and said aloud: "Captain believes that I am definitely the right choice."

At this time, everyone moved forward cautiously.

Suddenly, someone from the front said: "There is indeed movement at the place where this little brother mentioned just now."

At this moment, everyone carefully observed the area that Ye Feng mentioned, on the wall, and sure enough, there were unknown things squirming, just like there were many terrible bugs on the inside of the wall.

At this moment, the armored man, the captain of Team 7, who was walking at the front, had a silver knife in his hand, and he casually scratched the surrounding walls a few times.

Swish, swish, swish...

The next moment, the earth and rocks fell off, and insects covered with blood-red spots were immediately revealed.

These bugs are covered with blood-red spots, and their small mouths are full of metal-like sharp teeth, as thin as steel needles, which seem to be able to bite everything into pieces in an instant.

"hiss!"

Seeing this scene, everyone couldn't help but gasp. Although they didn't know what these bugs were, everyone knew that these bugs were hidden in the walls and would definitely attack the creatures passing by in an instant. Eat all the flesh and blood from the living beings.

After all, bugs that can survive in the ancient dragon's lair must be very terrifying.

If it hadn't been for Ye Feng's reminder and foreknowledge just now, no one would have noticed that there were so many terrifying poisonous insects hiding on the wall in front of them, and they might have been attacked in an instant.

If you are unlucky, the entire team may be wiped out.

At this moment, everyone couldn't help but gasped when they thought of this.

The armored man, captain of the seventh team, who was leading the team in front, couldn't help but look at Ye Feng behind him, and said loudly: "Little brother is really powerful, this kind of perception is stronger than me, because even I I didn't realize there were so many bugs on the wall in front of me."

At this moment, when they heard the armored man say this, everyone suddenly showed admiration in their eyes. They all stared at Ye Feng and couldn't help but said: "Thanks to this little brother this time, I didn't know that this What's your little brother's name and where are you from?"

Ye Feng smiled slightly at this time and said loudly: "Ye Feng is a casual cultivator, and he has not been in the land of Eastern China for a long time."

"He's actually a casual cultivator?"

At this moment, everyone's eyes widened when they heard what Ye Feng said. It seemed that they did not expect that a young casual cultivator could have such a strong precognitive ability.

At this moment, the captain of the seventh team, the big man in black armor, immediately walked up to Ye Feng and said loudly: "Brother Ye Feng, you should just follow me. In this case, Thanks to your ability to predict danger in advance, the casualties of our team will definitely be much smaller."

Hearing what the big man in black armor said, Ye Feng immediately smiled and said, "Okay."

After saying that, Ye Feng walked directly to the front with the black armored man.

At this time, the big man in black armor spoke directly to the team behind him: "Are there any experts with fire attributes in our team? Can we release flames and burn all the poisonous insects in this wall to death in advance?"

At this time, Ye Feng hurriedly said: "Don't be like this, these are terrible poisonous insects in the ancient dragon's lair. Each of them has a very high level. Ordinary flames may not be able to burn them all to death. If they are burned, If we don't die, the insects in these walls will be angered, and then the entire passage will be filled with poisonous insects, and none of us will be able to escape."

Hearing what Ye Feng said, everyone felt that it made sense.

The big man in black armor couldn't help but asked: "Then how should we deal with it? We can't just stop moving forward and just exit this passage."

Chapter 5394: Huge Palace Complex

At this moment, Ye Feng smiled slightly and said, "I happen to have a very magical insect nest, maybe I can collect all these poisonous insects."

When he said this, Ye Feng directly released the starry sky insect nest he had obtained before.

The starry sky insect nest can not only hold the starry sky insect race, but also other insect races. It is a very powerful device specifically for holding insects.

And after Ye Feng collected these poisonous insects, he can release them again in the future to form an extremely terrifying attack.

At this moment, seeing Ye Feng use the starry sky insect nest to collect all the blood-red spotted poisonous insects on the wall, everyone couldn't help but say curiously: "This little brother has so many treasures."

At this moment, another strong man couldn't help but say: "Are these poisonous insects really as terrible as this little brother said? I feel that he collected them very smoothly and simply."

After saying this, the strong man suddenly saw a small poisonous insect with blood-red spots on the wall, which was missed by Ye Feng and crawled on the wall not far away.

This strong man seemed to think that this kind of insect was not scary, because he saw that Ye Feng collected it so easily, so he directly stretched out his hand and wanted to pick up this small insect covered with blood-red spots to see what kind of insect it was, whether it was as powerful as Ye Feng said, and whether Ye Feng was bluffing.

However, just when this strong man just caught this blood-red insect.

Crack!

Almost in the next moment, this blood-red insect bit the strong man's hand.

This strong man's cultivation was two or three realms higher than Ye Feng, but the moment he was bitten by this blood-red little insect, his entire palm began to rot, and it was also spreading rapidly towards the arm above the wrist.

This poisonous gas was simply terrifying to the extreme.

"Ah!!!"

Seeing this horrible scene, the strong man's face changed suddenly, and he screamed in horror.

At this moment, someone around was quick-witted and chopped directly at the strong man whose palm and arm were rotting. With a "puff", his entire arm was cut off from the shoulder.

Snap!

The broken arm fell to the ground and immediately rotted, turning into a pool of blood.

"Hiss!"

Seeing this terrifying toxin and such terrible destructive power, everyone couldn't help but gasp, as if they didn't expect that this seemingly ordinary blood-red spotted insect was so terrible and had such a terrible toxin.

At this moment, Ye Feng took the little poisonous insect that had just bitten the strong man's finger into his own starry sky insect nest.

At this time, Ye Feng glanced at the strong man whose arm had been cut off, and couldn't help but say: "I have already reminded you that this kind of insect is very scary, otherwise, I would not have specifically mentioned it to you. You didn't listen to me, and now there is a price, that is an arm."

At this moment, hearing what Ye Feng said, the strong man with a broken arm immediately endured the pain and said quickly: "I dare not do it again in the future. Now I really believe in you, little brother."

At this moment, let alone the strong man with a broken arm, other strong men also looked at Ye Feng with eyes full of deep admiration and belief.

At this time, they all understood that Ye Feng's seemingly simple collection of those small insects did not mean that these insects were very weak, but these poisonous insects were very scary.

The reason why it looks simple and easy is that Ye Feng has magical means to do all this.

After all, everyone just saw that the strong man who lost an arm was two or three realms higher than Ye Feng's cultivation, but he was bitten by this poisonous insect and his whole arm rotted in a few seconds.

If someone hadn't been quick and cut off his whole arm, it is estimated that his whole body would have rotted into a pool of blood.

At this moment, even the captain of the seventh team leading the team in front, the armored man carrying an ice crystal axe, couldn't help but give Ye Feng a thumbs up and said, "Brother Ye Feng, you are the most powerful young man I have seen in so many years. Your methods are really amazing."

However, at this moment, everyone only knew one thing, not the other.

They only saw that Ye Feng had a series of magical abilities and treasures, but they didn't know that Ye Feng's real combat power was also very terrifying.

At this time, Ye Feng did not say much, but smiled slightly and said, "Let's move on."

At this time, Ye Feng was very happy in his heart, because in a short time, he encountered such a nest of poisonous insects and collected all of them in his starry sky insect nest.

If he could release all these poisonous insects next time and cooperate with the starry sky insect race, it would definitely be a very scary killer.

Ye Feng looked at the starry sky insect nest in his storage ring, thinking that he would have to collect more very scary insect creatures in the future and raise them in this starry sky insect nest. At

the critical moment, releasing those overwhelming and scary insects would definitely be an extremely scary killer.

While Ye Feng was thinking secretly, everyone had already arrived at the end of the seventh passage.

When they walked out of the passage, they immediately saw a very shocking scene.

The end of the seventh passage was connected to a huge underground palace complex.

There were dozens of palaces in this underground palace complex.

Most of the palaces were well preserved and very huge, as if they were inhabited by giants.

At this moment, someone in the team couldn't help but say: "These huge palaces seem to be the places where the ancient dragons lived."

But some people couldn't help shaking their heads and said: "Look at these palaces, they are not made of gold that the dragons like, but are made of black stones, and they are engraved with ancient symbols and magic patterns. I feel that these are not the palaces where the ancient dragons lived, but the places where the demon giants who entered this ancient dragon's lair later lived."

At this moment, the captain standing in the front, the big man in black armor, couldn't help but nodded and said: "Based on the magic blood bats we encountered during the descent, this ancient dragon's lair must have had ancient demon giants living here before we arrived. These palaces may be the places where the demon giants built them to live."

Chapter 5395 Special Creatures

At this moment, a powerful master in the team could no longer hold back and said, "Who cares? Whether it is the place where the ancient dragons live or the place where the demon giants live, let's explore it carefully. There must be good things."

Swish! Swish! Swish!

At this moment, many people in the team suddenly scattered and explored dozens of surrounding buildings.

Seeing that the whole team was scattered at once, the captain, the big man in black armor, immediately showed a trace of ugliness on his face.

Because his original idea was to gather everyone together and explore the palaces one by one. In this way, if they encountered any danger, everyone could release their strength together to resist, and the safety would be greatly improved.

But now everyone saw so many palaces and couldn't hold back.

After all, this team is not a regular team, but a temporary team composed entirely of independent cultivators and strong men from major forces.

So when they encountered so many ancient palaces, everyone naturally couldn't help it.

At this moment, Ye Feng also smiled slightly and said: "Since everyone wants to explore their own opportunities, we can't stop other people's decisions. Let's get involved as soon as possible and try to find more good things."

Swish!

After that, Ye Feng flew alone to a certain direction on the left.

Seeing that Ye Feng had also flown away, the black armored man who led the team couldn't help but smiled bitterly and shook his head, then took the ice crystal axe on his back and concentrated on exploring the opportunities.

The first place Ye Feng came to at this moment was a hall that seemed quite shabby.

A small part of this hall has collapsed, and the ancient symbols and patterns on the walls have almost disappeared, and the traces have obviously been smoothed by time.

The other people didn't come to this shabby and collapsed palace chosen by Ye Feng in an instant.

Because this palace looks very shabby, it must be known that there is nothing good, so many people first choose those very luxurious and well-preserved palaces.

But Ye Feng's soul power had already covered the entire palace complex in an instant.

Ye Feng discovered that those seemingly luxurious and well-preserved palaces might have very terrible crises.

On the contrary, these dilapidated palaces are very safe.

At this moment, Ye Feng entered this dilapidated and collapsed palace, and immediately saw a statue standing in it.

This statue looks very strange.

Because the head of this statue is the head of an ancient dragon, but the body of the statue is the body of a demon, and there are also carvings of demon scales on the body, covering the whole body.

Seeing this scene at this moment, Ye Feng couldn't help but murmured in surprise, "Could it be that this ancient dragon's nest, the demon giant and the dragon clan combined together, and gave birth to this special creature with a dragon head and a demon body?"

At this moment, after Ye Feng murmured, without any hesitation, he directly emitted soul power and explored the entire dilapidated palace, wanting to see if there were any opportunities and good things in this palace.

But at this time, Ye Feng suddenly discovered that there was a breath of life in this dilapidated palace.

"Huh?"

This made Ye Feng's eyes stunned, and then he very vigilantly explored the breath of life he found.

The breath of life that Ye Feng sensed was in the ruins of this dilapidated palace.

Ye Feng thought in his heart, could it be that the dragon clan of ancient times, or the demon giant clan survived?

Just as Ye Feng was thinking, Ye Feng had already arrived at the place where the breath of life he sensed was.

When Ye Feng dug open the ruins and saw everything inside clearly, he immediately showed a look of astonishment in his eyes.

I saw that there was a very ancient altar in the ruins I dug open.

And in the middle of this altar, there was a small fist-sized white round bead.

And just when Ye Feng was about to observe this white round bead carefully, whether it was a dragon egg or an ancient demon giant's beast egg.

Crack, crack...

Suddenly, the surface of the white round bead cracked.

Then, a strange creature with a dragon's head but a body of a demon giant, covered with dense black scales, broke out of the white round bead and appeared in Ye Feng's field of vision.

"This..."

At this moment, Ye Feng looked at the small creature in front of him and immediately thought of the huge sculpture he had seen when he had just entered the dilapidated hall.

This small creature is exactly the same as the sculpture of a dragon and a demon that he had just seen.

Could it be that this is the place where the ancient demon giant and the ancient dragon clan wanted to create the creature that combined the demon and the dragon?

It's just that this white round bead had not hatched this special creature, and the ancient dragon clan and the demon giant clan had all withered.

Until now, when Ye Feng broke into this place, this extremely special creature was bred in this white round bead.

At this moment, Ye Feng was very surprised by this little creature.

Because if this little creature is really a combination of the ancient dragon and the ancient demon giant family, then it means that the future potential of this creature is simply endless.

Because it has the power of two of the most terrifying races in ancient times.

Once it grows up, it will definitely possess the power to destroy the world.

At this moment, Ye Feng didn't know what to call this little guy. Should he call him Dragon Demon?

While Ye Feng was thinking, this special creature with a dragon's head and black scales all over its body suddenly appeared in front of Ye Feng.

This little guy actually stretched out his little hand covered with black scales, grabbed a corner of Ye Feng's sleeve, and began to say slightly: "Brother, help me, give me some food, let me continue my life... "

At this moment, hearing what this little dragon demon said, Ye Feng's eyes suddenly showed a look of surprise.

I saw that the other person was quite cute, and seemed to be harmless to humans and animals.

Ye Feng squatted down slightly and said with a smile: "It seems that you have just been born, but you already instinctively know how to ask for help from others. It seems that your future talent is very high. When you and I meet, this is fate, no matter you How was it created? I'm afraid there's only one dragon demon like you in the world. You're so special, so just follow me in the future."

After saying that, Ye Feng took out several unused spiritual crystals from his storage ring and placed them in front of the little dragon demon.

At this time, the little dragon demon seemed to smell the very pure energy of heaven and earth contained in the spiritual crystals. He opened his small dragon's mouth and "squeaky" took out several spiritual crystals from Ye Feng. He chewed it up and swallowed it.

"Um?"

Seeing this scene, Ye Feng's eyes suddenly showed surprise.

These spiritual crystals that Ye Feng took out can be carried by Ye Feng. Naturally, they are not ordinary spiritual crystals. They are very advanced. Even if Ye Feng's current cultivation level is not enough for him, but for a person who currently has no For a small creature with cultivation level, it is absolutely solid.

But he didn't expect that the other party would already have such terrifying dragon teeth just after he was born, chewing up these spiritual crystals as strong as divine iron.

At this moment, after the little dragon demon ate several spiritual crystals, a golden and black light suddenly emitted from his body. When they blended together, it looked like a strange combination of holiness and evil. feel.

Seeing this scene at this moment, Ye Feng was quite satisfied. He didn't expect that he had accidentally received such a special little guy. As long as he cultivates it more, he will definitely become a very powerful helper for him in the future.

Chapter 5396: The Immortal True Body of the Dragon Demon

At this time, Ye Feng looked at the little dragon demon in front of him, and he was quite cute. He immediately put the other person into his storage ring, waiting for him to slowly cultivate this little dragon demon.

Maybe in the end this dragon demon will grow up and become very powerful.

After all, this is a special creature created by the combination of the legendary ancient dragon clan and the ancient demon giant clan. It is probably the only one of its kind in the world.

This harvest made Ye Feng very satisfied.

But this also means that Ye Feng and this little dragon demon may really have a lot of fate, otherwise they would not meet by such a chance.

Moreover, this little dragon demon seems to have a natural affinity for Ye Feng, which may be related to the dragon inheritance and magic inheritance that Ye Feng has practiced.

You know, Ye Feng has practiced the Demon God True Body of the Great Demon God Sect, and also practiced the Ten Thousand Dragons True God Art of the Nine Dragon God Lord.

Therefore, Ye Feng actually has the power of a dragon and a demon fused into one, so he may have a special attraction for this little dragon demon.

At this moment, after Ye Feng put the little dragon demon into his storage ring, he continued to explore other surrounding palaces without any hesitation.

Ye Feng soon arrived at the second palace.

This palace is better preserved than the first palace and looks quite glorious and solemn.

At this time, Ye Feng walked into it and immediately saw dense symbols engraved on the internal walls of the palace.

These symbols are similar to those seen outside. They may be the symbols of the ancient demon giants, or they may be the symbols of the ancient dragon clan.

Because these symbols are on the internal walls of the palace, they have not suffered the erosion of time and are still very intact.

After Ye Feng took a look, he found that he didn't seem to recognize these symbols. They should represent some special meaning, and they were probably not inheritance or something.

So at this time, Ye Feng took a casual look and prepared to leave.

But suddenly at this time, the little dragon demon in Ye Feng's storage ring suddenly said: "Brother, I really need the ancient power contained in these symbols to help me evolve."

"Um?"

Hearing what the little dragon demon in the storage ring said, Ye Feng's eyes suddenly showed a look of surprise, and then he couldn't help but smile and said: "Okay, I'll let you out and see how you absorb these walls. The power of the ancient symbols above."

At this moment, after Ye Feng finished speaking, without any hesitation, he directly released the little dragon demon from the storage ring.

Snap!

At this moment, the little dragon demon flew out of Ye Feng's storage ring and landed on the ground.

At this moment, under Ye Feng's gaze, the scales on the little dragon demon suddenly began to shine.

As the scales on the little dragon demon began to shine, Ye Feng was surprised to find that all the ancient symbols on the walls of the palace began to fall off the walls, and then turned into streaks of light. It sank into the scales of the little dragon demon itself, and seemed to be integrated into his scales.

Ye Feng discovered that when these ancient symbols were integrated into the scales of the little dragon demon, the aura of the little dragon demon became obviously much stronger than before, and the scales also became more shiny, and the texture was obviously stronger. .

"Um?"

Seeing this scene, Ye Feng's eyes suddenly showed surprise, and he couldn't help but said: "Little Dragon Demon, you have absorbed these ancient symbols on the walls, can you make the scales on your body stronger? ?"

The little dragon demon nodded slightly and said aloud: "Yes, these ancient symbols were left by my elders. You gave me birth, so I can absorb the ancient symbols among them. Strength, enhance my life origin and physique, in addition, these ancient symbols also contain ancient peerless heritage, which is a peerless heritage that belongs specifically to our family. "

"Um?"

Hearing what Little Dragon Demon said, Ye Feng's eyes lit up slightly and he couldn't help but said: "What kind of peerless inheritance have you obtained from these ancient symbols?"

Ye Feng knows very well that this little dragon demon is a special creature that combines the demon giant clan and the ancient dragon clan in the ancient times. No matter which clan's peerless inheritance it is, it must be extremely precious and advanced. It must be cultivated. It can greatly enhance one's combat power. Ye Feng naturally wants to understand it and see if he can understand it.

But when he heard what Ye Feng said, Little Dragon Demon showed a look of surprise in his eyes, and couldn't help but said: "Brother, you should be from the human race. You can't practice this kind of inheritance of ours." , if you practice it, you may become possessed."

Hearing what the little dragon demon said, Ye Feng's eyes showed a look of surprise, and then he laughed loudly and said: "Don't worry, I can practice the inheritance of any attribute or race in the world. of."

Hearing what Ye Feng said, the little dragon demon's eyes suddenly showed deep surprise, and he said loudly: "This is something very difficult to achieve. Can big brother really practice the inheritance of our dragon demon? "

Ye Feng nodded and said aloud: "You can show me the secret of inheritance first and then I will know."

The little dragon demon had no choice but to nod, and directly stretched out a little finger and tapped on Ye Feng's forehead.

Buzz!

At this moment, a huge inheritance mystery was immediately injected into Ye Feng's head.

This set of inheritance is the most powerful inheritance of the little dragon demon and his clan.

At this moment, after Ye Feng received this inheritance, he immediately knew that this set of inheritance is called 'Dragon Demon Immortal True Body'.

This set of inheritance is very powerful. After practicing to the end, it can achieve the immortal true body of the dragon and the demon, which has terrifying power.

"This is a set of body training exercises."

At this time, Ye Feng's eyes suddenly showed a bright color.

This set of inheritance is very suitable for him, because Ye Feng's immortal body of the god originally made Ye Feng's physique very strong. If he can also bless the immortal true body of the dragon demon, then Ye Feng's body power will be able to be used to a greater extent, allowing Ye Feng to have an extremely terrifying destructive power in close combat.

At this moment, Ye Feng did not hesitate at all, he nodded immediately, and then began to comprehend this set of inheritance.

The little dragon demon's eyes showed a curiosity, wondering whether Ye Feng could really practice the most special inheritance of their clan successfully.

Chapter 5397 Green Dragon

At this moment, Ye Feng did not hesitate at all, and he directly comprehended the inheritance of the immortal true body of the dragon demon with all his heart and soul.

As Ye Feng comprehended, Ye Feng could immediately feel that the power of dragons and demons appeared in his life source.

And with the emergence of this power of dragons and demons, Ye Feng's whole body immediately began to expand rapidly.

The next moment, Ye Feng actually expanded directly on the spot and became a majestic dragon membrane true body with a length of several thousand meters.

At this moment, Ye Feng turned into a dragon demon, with a dragon's head and the body of an ancient demon giant. Every move and every style has terrifying power.

In addition, Ye Feng opened his dragon mouth and could even spit out the dragon breath flame of the ancient giant dragon clan, which has terrifying burning power.

After sensing all this, Ye Feng's eyes suddenly showed deep excitement.

I didn't expect that practicing this set of inheritance would allow me to transform into a combination of ancient dragons and demons in a short period of time, with the great power and innate magical powers of the ancient dragons and the ancient demon giants. It was really surprising.

At this moment, the little dragon demon saw Ye Feng directly transformed into a dragon demon with a majestic body of several thousand meters. He couldn't help but widen his eyes and said aloud: "I didn't expect that big brother could really practice the peerless inheritance of our clan and become the ancient dragon demon. Big brother, are you a human?"

At this time, Ye Feng laughed and restored his original form. He said aloud: "Of course I am a human, but my inheritance and life origin are special. I can accommodate the power of thousands of races and attributes in the world."

At this moment, after Ye Feng finished speaking, he was very grateful for saving the little dragon demon.

Because he not only gained the little dragon demon, a helper with unlimited potential, but also let the other party pass on the peerless inheritance of the dragon demon clan to himself, which enhanced his overall strength.

Although his cultivation level did not improve this time, his overall strength has greatly increased, and he has more and more trump cards.

At this time, Ye Feng couldn't help but ask: "Little Dragon Demon, since you have awakened, you should be very familiar with this underground palace, right? Is this the place where the ancient demon giants and the ancient dragons live?"

The little dragon demon couldn't help shaking his head at this time and said: "I don't know much about this, because I just broke out of the shell and am not familiar with everything. Some of the things I know are all information imprinted in my blood and mind."

Hearing what the little dragon demon said, Ye Feng nodded immediately. It is estimated that this little dragon demon does not know that it is a creature specially cultivated by the ancient dragon clan and the ancient demon giant clan.

This little dragon demon probably still thinks that there is really a dragon demon clan in this world, but in fact there is only one of him, a product of accidental birth.

At this moment, Ye Feng did not hesitate at all. He put the little dragon demon into his pet ring, and then Ye Feng went to other palaces around him to quickly explore, trying to find other opportunities.

"Ah!"

But just when Ye Feng walked out of the second palace, a scream suddenly sounded not far away.

Ye Feng's eyes moved, it should be the scream of a member of their seventh team.

Swish!

At this moment, Ye Feng naturally did not hesitate at all, and immediately flew quickly in the direction of the scream, wanting to see what happened.

The place where the scream came from was the most glorious hall in the middle.

After Ye Feng flew over, he immediately saw a very shocking scene.

I saw that in the hall not far away, there was a green dragon that was several thousand meters long.

The green dragon was completely rotten all over, and many scales and bones had fallen off, but it still did not die completely in thousands of years.

At this moment, the green dragon has killed two strong men from the seventh team.

At this time, the green dragon's green claws, which seemed to be made of green metal, were grabbing a strong man from the seventh team, squeezing him so hard that his whole body was about to explode.

So the strong man from the seventh team was screaming.

At this moment, many other members of the seventh team rushed over and began to attack the green dragon.

But this green dragon is a member of the ancient dragon clan and is very powerful.

Almost at this moment, the green dragon blocked all the attacks of the strong men.

Ye Feng flew over in an instant, swung his fist directly, and hit the green dragon hard.

Boom!

Ye Feng's fist has the powerful power of the immortal body of the gods. The golden fist hit the green claws of the green dragon, and directly made his claws vibrate.

And the strong man caught by the claws of the green dragon was instantly freed.

The strong man from the seventh team couldn't help but look at Ye Feng immediately, and said quickly: "Thank you, brother Ye Feng, for the rescue."

Ye Feng nodded slightly, then looked at the green dragon, and found that the other party's mind had long been confused, and it seemed that he only knew how to kill and couldn't communicate at all.

This made Ye Feng have no choice but to fight with it.

Boom!

The battle between Ye Feng and the green dragon was extremely terrifying, like a battle between two ancient giants. The destructive power was very strong and caused a huge commotion.

At this moment, everyone around saw this scene, and they all showed deep astonishment in their eyes.

Some members of the team couldn't help but say: "This little brother Ye Feng, I thought he just had more treasures and methods on his body, but I didn't expect his fighting power to be so strong."

Another member of the team couldn't help but sigh and said: "Yes, just now all of us were attacking this green dragon to save that team member, but I didn't expect that in the end it was still thanks to little brother Ye Feng's punch that shook the claws of the green dragon, and then the team member was freed."

At this moment, everyone couldn't help but marvel at Ye Feng's powerful fighting power.

Because of Ye Feng's cultivation realm, they knew very well that his cultivation realm was almost the weakest at the bottom of their entire seventh team.

But I didn't expect that the fighting power would be so strong that it could fight with the green dragon that survived in ancient times. It was incredible.

At this time, Ye Feng had already beaten the green dragon back step by step.

Because the green dragon had long been decayed, with only the last bit of vitality left, and its mind was blurred, and it only knew to kill people in a daze, so Ye Feng could naturally rely on his extremely powerful body to beat the green dragon back step by step.

At this time, the green dragon suddenly seemed to realize that Ye Feng, a human boy, was not easy to mess with, and it quickly fled away.

Chapter 5398: The Corpse of Zulong

"Huh? Want to escape?"

Seeing this scene, Ye Feng naturally would not let the opponent go, but charged towards the green dragon.

Because two members of the seventh team have died in the hands of this green dragon, whether it is revenge, or killing this ancient dragon and getting the blood energy in his body, Ye Feng needs to deal with it Carry out extermination.

At this moment, Ye Feng was chasing the giant green dragon. Many other members of the seventh team around him did not move and did not follow Ye Feng.

Because they knew very well that their combat effectiveness was much inferior to Ye Feng. Even if they passed, they would only cause trouble for Ye Feng. It would be better to let Ye Feng chase and kill the giant green dragon alone.

At this time, as you chased each other, Ye Feng chased the green dragon and had reached the deepest place among the underground buildings.

A huge river appeared in front of him.

This river has completely dried up, revealing the river bed underneath.

But at this time, the giant green dragon rushed directly into the dry river.

Buzz!

Almost at this moment, the dry river burst out with bright colorful light, forming a river of light, stopping Ye Feng's actions.

"Um?"

When Ye Feng saw this scene, he couldn't help but said in surprise: "This dry river turned out to be a river covered by an ancient formation. It seems that this green dragon wants to pass through the ancient river. Formation to stop my steps."

After Ye Feng finished speaking at this moment, he immediately smiled and rushed straight into the formation of this dry river.

For Ye Feng, Ye Feng possesses the eye of heaven and earth. No matter how old and powerful these formations are, they cannot harm Ye Feng, because Ye Feng can see through the structure and context of any formation under the sky.

Ye Feng, alone, can pass through any formation safely without being attacked by the formation.

"What??"

At this moment, when the giant green dragon saw that Ye Feng had passed through the entire formation and walked into the dry river very safely, his eyes widened and he couldn't help but make a human voice. : "Who are you, this human boy? How could you have such incredible combat power, and be able to easily pass through any formation? In the end of the Dharma Era after so many years, a peerless human genius like you could be born. Sure enough, After all, the human race is still a child of God's destiny. In every era, there are always peerless geniuses born to suppress an era. "

At this moment, hearing the green dragon say such clear words, Ye Feng's eyes revealed a look of surprise, and he said loudly: "It turns out that you are still sane and can organize things so logically. With such language, it seems that you are not confused, so why did you kill those members of the seventh team just now? "

When the green dragon heard what Ye Feng said, he immediately sneered and said: "You outsiders want to rob the wealth of our ancient dragon clan. Naturally, I will kill all you outsiders. Moreover, you Humans are innate spirits, and eating you humans will be of great benefit to us, the ancient beasts."

Hearing what the green dragon said, Ye Feng's eyes showed no emotion, and he just said indifferently: "Since you insist on being our enemy, I can only take action to completely kill you. "

Almost at this moment, Ye Feng immediately burst out with extremely powerful power, stimulating the power of the Immortal Body of the God of Heaven. His whole body was filled with golden light, and he charged towards the giant green dragon.

But at this moment, the giant green dragon smiled coldly and said: "You can't kill me, I have the protection of my ancestors."

At this moment, almost as soon as the green dragon finished speaking, the entire river suddenly began to rumble and vibrate.

The next moment, as the river bed collapsed, a huge ancient tomb appeared in front of the green dragon, like the strongest fortress, guarding the green dragon behind it.

At this moment, Ye Feng saw this tomb and subconsciously felt a huge crisis.

Uh-huh!

And almost at the next moment, a dry dragon claw suddenly stretched out from the tomb. It actually had nine claws, and it grabbed Ye Feng directly.

Under this withered dragon claw, Ye Feng seemed to feel that the whole world was pressing on him, and felt that his whole body was about to break.

Ye Feng's eyes were immediately shocked and he couldn't help but said: "Is there an ancient ancestral dragon hidden in this tomb? But it is not completely dead. No, I clearly feel the breath of death!"

At this moment, Ye Feng seemed to have thought of something, and immediately couldn't help but stare at the giant green dragon behind the tomb, and couldn't help but say: "You used a special method to remove the ancestors in this tomb. The dragon corpse is refined into your puppet, which can attack the enemy."

Hearing what Ye Feng said, the green dragon hiding behind the tomb immediately gave a cold smile and said: "As expected of the peerless genius among the human race, you are indeed very smart. Yes, I will use the entire underground lair to The aura of the underworld has been continuously refining the corpses of our ancestors. Now, although this ancestral dragon corpse of our ancestors cannot be controlled by me, it is fully capable and can attack enemies approaching here at any time."
"

At this moment, when Ye Feng heard this green dragon say this, his eyes suddenly sank slightly.

An ancient ancestral dragon, it was a god-like existence.

Even if this ancestral dragon is dead now, even if it is just the power of the corpse, it is still very terrifying, and it is definitely not something that he can resist.

Ye Feng subconsciously wanted to leave here. He couldn't bear to fight against the corpse of a terrifying ancestral dragon for a green dragon that was about to decay and die.

Uh-huh!

But at this time, the little dragon demon in the storage ring suddenly flew out. He couldn't help but stare at the green dragon hiding behind the tomb not far away. He yelled and said: "You are so vicious and cruel. The ancestors directly made your puppet, which is a great disrespect to the ancestors, and the reason why you can survive to this day must be that you are constantly absorbing the origin of the ancestral dragon from the body of the ancestor!"

At this moment, the little dragon demon suddenly appeared and said such words, which made Ye Feng's eyes suddenly show a look of surprise.

The reason why the little dragon demon knows so much seems to be the memory imprinted in its bloodline origin.

At this time, the green dragon was hiding behind the tomb and saw the strange shape of the little dragon demon flying out of Ye Feng's storage ring. He couldn't help but said in horror: "They actually succeeded back then. , cultivate a new life form, you are the dragon demon! The combination of dragon and demon! "

At this moment, after the giant green dragon finished exclaiming, he suddenly stared at the little dragon demon with very greedy eyes, and couldn't help but said: "If I can settle in your dragon demon body with unlimited potential, in the future Even if I become a god and an ancestor, it's possible, God is really looking out for me!"

At this moment, this green giant actually wanted to plot against the little dragon demon's body.

At this time, the green giant spit out a mouthful of dragon blood on the tomb in front of him, seemingly casting a forbidden method that allowed him to control the entire corpse of the ancient ancestral dragon in the direction of Ye Feng and the little dragon demon in a short period of time. Attack away.

He wanted to kill Ye Feng and gain control of the little dragon demon's body!

Chapter 5399: The Power of the Dragon Demon

At this time, the green dragon controlled the body of the ancestor dragon and attacked Ye Feng directly, wanting to eliminate Ye Feng, the biggest threat.

After all, for this green dragon, he now saw that the little dragon demon was really born, so he wanted to take control of the little dragon demon's body very much, so that the green dragon could live again and may have higher achievements in the future.

The green dragon was the last dragon that survived that era, so he knew very well what the birth of the little dragon demon meant.

This means that the efforts of the two major races at that time were successful, and the two most powerful races in ancient times, the ancient dragon clan and the ancient demon clan giant clan, were perfectly combined together, giving birth to a very special creature like the dragon demon.

Although the little dragon demon looks very young and weak now, once it grows up, there are unlimited possibilities in the future.

So at this time, the green dragon is naturally very greedy for the dragon demon body of the little dragon demon.

Because the green dragon knows that it means unlimited possibilities.

At this moment, the green dragon controlled the corpse of the ancestor dragon and attacked Ye Feng.

Boom!

The corpse of the ancestor dragon was very terrifying and possessed enormous power.

At this moment, the corpse of the ancestor dragon stretched out its claws that covered the sky and attacked Ye Feng, as if it could crush everything.

Swish!

At this time, Ye Feng retreated quickly in an instant.

Because Ye Feng knew very well that even if his current immortal body of the gods was very powerful, it would never collide with a complete corpse of the ancestor dragon.

You know, the ancient ancestor dragon was a being comparable to a god. Even if it was just a corpse, it was extremely terrifying. The power of its body was definitely far beyond his current level of immortal body of the gods.

Once the corpse of the ancestor dragon touched his body, Ye Feng had no doubt that his entire body would be shattered inch by inch.

At this time, Ye Feng knew very well that the green dragon was the key.

Because the green dragon used some special secret method to allow him to control the entire corpse of the ancestor dragon in a short period of time and attack the enemy.

So what Ye Feng has to do now is to bypass the obstruction of the Ancestral Dragon's corpse and attack the green dragon.

However, at this time, the Ancestral Dragon's corpse is too huge and too majestic, and Ye Feng can't get around it at all.

At this time, Ye Feng can only resist the Ancestral Dragon's corpse as much as possible.

The Immortal True Body of the Dragon Demon!

At this moment, Ye Feng directly displayed the peerless inheritance of the Little Dragon Demon that he had just learned before.

Boom!

Almost in the next moment, Ye Feng's whole body began to expand rapidly, and directly expanded into a towering and boundless dragon demon body.

At this time, Ye Feng's head turned into the head of an ancient dragon, and his body was the body of an ancient demon giant, covered with red and black scales, looking very majestic and terrifying, with boundless power.

Boom!

At this moment, Ye Feng stretched out his palm covered with black scales, clenched into a fist, as big as a small mountain, and collided with the claws of the Ancestral Dragon's corpse, making a huge roar.

The next moment, Ye Feng just stepped back several steps.

"What?"

Seeing this scene, the green dragon that was controlling the corpse of the ancestor dragon not far away couldn't help but widen his eyes, his face full of deep horror, and said aloud: "How could you, a human boy, successfully cultivate the immortal body of the ancient dragon demon? And you can also become the body of the dragon demon? Possessing the power of the great dragon demon, this is impossible!!"

At this moment, the green dragon can be said to be completely shocked by Ye Feng's method, and felt incredible to the extreme.

At this time, Ye Feng just smiled coldly and said aloud: "I still have many methods."

Almost at this moment, Ye Feng directly burst out the Ten Thousand Dragons True God Art.

Boom!

One after another, golden dragons, completely condensed by magic power, but with the power of the ancient dragon clan, appeared directly behind Ye Feng.

Ye Feng's current cultivation has improved many times compared to before, so at this moment, Ye Feng's huge mana directly allowed Ye Feng to greatly promote the inheritance of the Ten Thousand Dragons True God Art, and condensed hundreds of golden dragons behind him.

You know, before Ye Feng could only condense dozens of golden dragons.

But at this time, Ye Feng's huge mana was enough to support Ye Feng to condense hundreds of golden dragons.

Boom!

At this moment, hundreds of golden dragons gathered together, like a long golden river, bombarding the corpse of the ancestor dragon not far away from the sky, and suddenly blocked the corpse of the ancestor dragon in the middle.

Buzz!

The next moment, Ye Feng directly operated the space wormhole, instantly shuttled through space, and suddenly came in front of the green dragon. Before the green dragon could react, he directly punched it hard.

Ye Feng has now become the immortal body of the dragon demon, possessing the great power of the ancient dragon demon, and combined with the powerful body of Ye Feng, which is the immortal body of the god.

Ye Feng's punch has a terrifying destructive power, directly smashing the entire head of the green dragon into pieces.

And in the next moment, the green dragon was instantly killed.

At this moment, without the control of the green dragon, the corpse of the ancestor dragon that was still attacking everywhere finally lost control and fell directly from the sky to the ground.

Seeing this scene at this moment, Ye Feng was completely relieved. He finally killed this greedy and hateful green dragon.

"Great!"

At this time, the little dragon demon also cheered.

Because for the little dragon demon, the death of this green dragon is equivalent to removing a huge threat to it.

Because the little dragon demon has just heard that this green dragon is very greedy for its dragon demon body, so if this green dragon dies, then the little dragon demon will be much safer.

At this moment, Ye Feng did not hesitate at all, and directly released the swallowing field and began to swallow this green dragon.

The power of this green dragon is still very good, so after Ye Feng swallowed it, he could immediately feel a huge amount of energy injected into his body.

The dragon power of an ancient green giant dragon directly broke through the bottleneck of Ye Feng's half-step human god realm, and completely rushed into the first level of the human god realm, which made Ye Feng's power undergo earth-shaking changes.

At this moment, Ye Feng suddenly saw that the little dragon demon walked in front of the corpse of the ancestor dragon, staring at the corpse of the ancestor dragon blankly, and didn't know what he was thinking about.

Chapter 5400 Dark Pangolin

At this moment, Ye Feng immediately walked over and said: "This ancestral dragon corpse is the corpse of your ancestor. Do you want to bury it directly?"

The little dragon demon shook his head and said: "It is no longer safe here. I want to take the ancestor dragon's body with me. It will be of great benefit to my future cultivation."

Hearing what Little Dragon Demon said, Ye Feng's eyes suddenly showed a look of surprise, and he said: "Little Dragon Demon, do you also want to imitate that green giant dragon and refine the corpse of this ancestral dragon?"

The little dragon demon shook his head and said aloud: "There is a piece of information imprinted deep in my bloodline, that is, I may be able to use my dragon demon power to resurrect the corpse of my ancestor, this ancestral dragon. "

"What?"

Hearing what the little dragon demon said, Ye Feng's eyes suddenly showed a look of astonishment, and he couldn't help but said in surprise: "If you can resurrect this ancestral dragon, it will be really great." alright."

Ye Feng knew very well that if the little dragon demon could really resurrect the corpse of the ancestral dragon, it would be of great help to him.

Because of the strength of an ancestral dragon, it was absolutely terrifying to the extreme.

At its true peak, Zulong could rival a living being.

Even in the weak stage, Zulong is still comparable to the top powerhouses in the heaven.

At this moment, Ye Feng was naturally very supportive of Little Dragon Demon's decision and said: "Next, you will follow Zulong's corpse and practice in my storage ring. See if you can use your power to cultivate the dragon demon." This ancestral dragon corpse was completely resurrected."

The little dragon demon nodded, directly took the corpse of the ancestral dragon, and then entered Ye Feng's storage ring space, concentrating on studying how to resurrect its ancestor.

At this moment, Ye Feng was very happy.

This time when I came to this ancient dragon's lair, I gained a huge harvest.

The biggest gain is probably the little dragon demon and the corpse of this ancestral dragon.

Of course, the little dragon demon's peerless inheritance is also very powerful.

Just now, Ye Feng relied on the combination of the immortal body of the god and the immortal body of the dragon demon to give himself unparalleled physical power, and he was able to go head-to-head with the legendary ancestor dragon corpse.

This is a very terrifying achievement!

If word spreads, it will probably shock everyone in the entire heaven.

At this time, Ye Feng looked around and found that there was nothing else. He left here and flew not far away.

And just when Ye Feng had just left the river, there was suddenly a violent sound of fighting not far away.

When Ye Feng heard the sound of fighting, his eyes immediately moved and he quickly flew in that direction.

When Ye Feng arrived at the scene, he immediately saw that the captain of their seventh team, the big man in black armor, was leading a group of members of the seventh team to attack a monster crawling out of the ground.

This monster is not a clan of ancient demon giants, nor a clan of ancient dragons, but a dark attribute monster living in the lair of this ancient dragon.

This is a black monster like a pangolin, with sharp thorns all over its body. Every attack is extremely terrifying. Even if the captain of the seventh team is very powerful, he can only rely on the weapon in his hand at this moment. The ice crystal ax releases terrifying ice energy to stop the attack of this dark pangolin.

At this time, Ye Feng suddenly discovered that there was a *Ganoderma lucidum* emitting nine colors of light growing on the ground behind the black pangolin.

This nine-colored *Ganoderma lucidum* is definitely an extremely precious treasure of heaven and earth. Otherwise, it would not have caused the attack of this dark pangolin.

At this moment, Ye Feng immediately flew over and said with a smile: "I'm here to help everyone deal with this dark pangolin."

At this moment, the moment Ye Feng came over, some of the team members cheered.

After all, some of the team members had just witnessed Ye Feng's great strength, being able to go head-to-head with a giant green dragon that had survived in ancient times.

But at this time, most of the team members still didn't know Ye Feng's strength.

Moreover, the captain of the seventh team, the big man wearing black armor, did not know Ye Feng's true combat power.

So at this moment, the captain of the seventh team, a big man in black armor, held the ice crystal ax in his hand, immediately looked at Ye Feng, and couldn't help but said: "Brother Ye Feng, I know you are quite capable. "More, but this dark pangolin is a ferocious beast that survived in ancient times. It is very cruel. You must not come over, otherwise, if it is affected by our battle, it will be killed instantly."

Hearing the kind reminder from the captain of the seventh team at this moment, Ye Feng laughed loudly and said: "Don't worry, I will be fine."

At this moment, after Ye Feng finished speaking, he charged directly towards the dark pangolin in front.

At this moment, everyone's eyes widened when they saw Ye Feng rushing towards the pangolin alone.

The captain of the seventh team, the big man in black armor, couldn't help but said: "Brother Ye Feng, don't be impulsive. This dark pangolin is very terrifying and very powerful. Even if it's me and All the members of the seventh team can only fight against this dark pangolin. If you go over there, little brother Ye Feng, you will definitely be killed in an instant."

But before the captain of the seventh team could finish his words, Ye Feng suddenly stretched out a hand and struck out fiercely.

The next moment, Ye Feng's palm turned into a dragon-demon palm, directly turning into a big hand covered with black scales, and struck hard at the dark pangolin.

Boom!

At this moment, Ye Feng's big hand was like an ancient sacred mountain, possessing terrifying and majestic power. He suppressed it from high in the sky and defeated the dark pangolin in an instant.

The next moment, many metal thorns on the dark pangolin's entire body were broken.

Then the dark pangolin didn't dare to hesitate at all, and suddenly chose to run away.

"What??"

At this time, when they saw the dark pangolin running away, everyone present widened their eyes.

Even the captain of the seventh team suddenly showed a look of deep horror on his face, and couldn't help but said: "How is this possible?" Brother Ye Feng, how can you be so strong? ?"

At this moment, it's no wonder that everyone in the audience was shocked, because even the captain of the seventh team, this extremely powerful elder, was extremely horrified.
