Chapter 5401 Final Decision

Because in everyone's impression, Ye Feng's strength is definitely the weakest among the seventh team.

You know, Ye Feng's cultivation level is the lowest, nearly ten levels lower than the captain.

Unexpectedly, Ye Feng's strength was so terrifying. He was able to beat the dark pangolin away with just one hand.

At this time, the team members who had seen Ye Feng's strength before couldn't help but said: "You don't know, little brother Ye Feng just came to rescue a few of us and fought with a green giant dragon that survived from ancient times. It was a tie, and then little brother Ye Feng went to chase the green dragon, and he probably succeeded. "

"What??"

Hearing what these members of the seventh team said, the other team members, including the captain of the seventh team, suddenly widened their eyes, as if they did not expect that Ye Feng turned out to be a hidden super master.

At this moment, the captain of the seventh team stared at Ye Feng's back, with a look of deep uncertainty in his eyes.

At this time, he seemed to be guessing who Ye Feng was and why he joined their small team.

At this time, Ye Feng didn't hesitate at all. He directly burst out with the extremely powerful dragon demon immortal body, and directly attacked the black pangolin fiercely, directly destroying the terrifying one in everyone's eyes. The ancient beast was beaten to pieces and completely killed.

"What a ferocious power!"

At this moment, everyone saw Ye Feng's ferocious battle scene, with deep horror in their eyes, and then deep admiration.

After all, they never expected that a boy in their team who everyone thought was very weak, a very inconspicuous existence, would suddenly burst out with such great strength, which naturally shocked everyone. .

At this time, Ye Feng did not hesitate at all and simply put the pangolin into his storage ring, and then secretly devoured it.

boom!

The next moment, Ye Feng's body suddenly burst out with the aura of a breakthrough in cultivation.

At this moment, after Ye Feng devoured this dark pangolin, he allowed his cultivation level to directly break through from the first level of the human-god realm to the second level of the human-god realm.

At this time, Ye Feng looked at the group of people behind him and said with a smile: "I have dealt with this ferocious beast. Let's see what level of medicinal material that nine-color Ganoderma lucidum is."

At this moment, when they saw Ye Feng flying towards the nine-color Ganoderma lucidum, no one seemed to have come back to their senses.

At this time, the captain of the seventh team hurriedly said: "You, little brother Ye Feng, took care of this dark pangolin. We wouldn't have been able to deal with this dark pangolin at all. If you hadn't come here, little brother Ye Feng, Let alone win that Nine-Colored Ganoderma, I'm afraid we can't even protect our own lives, so I think this Nine-Colored Ganoderma belongs to you, little brother Ye Feng."

At this moment, hearing the captain of the seventh team say this, other team members also said aloud: "Brother Ye Feng, please take this nine-color Ganoderma lucidum. We also came here accidentally and encountered it. This nine-colored Ganoderma lucidum, and then being attacked and hunted by this dark pangolin, you saved all of our lives."

Hearing what the team members said, Ye Feng had a look of surprise on his face, and then he smiled slightly and said: "Okay, since everyone has said so, I won't be pretentious. I am indeed very good." We need this elixir of heaven and earth."

After saying that, Ye Feng opened his mouth and swallowed the nine-color Ganoderma lucidum.

"What?"

Seeing this scene, everyone's eyes suddenly widened.

The captain of the seventh team couldn't help but said: "Brother Ye Feng, the medicinal power of this nine-color Ganoderma lucidum fluctuates very strongly. It is probably a very terrifying and advanced elixir. If you swallow it like this, it is very likely that you will not be able to withstand the huge power of the elixir, and your body will be damaged. "

But the moment the captain of the seventh team finished speaking.

Boom!

Ye Feng's body suddenly burst out with a powerful aura of cultivation.

That turned out to be a breakthrough momentum.

At this moment, Ye Feng's cultivation level directly broke through to the third level of the human-god realm!

"What?"

"Brother Ye Feng, has he digested the medicinal properties of this nine-color Ganoderma lucidum in just a few seconds?"

"Directly transformed into one's own power?"

At this moment, everyone's eyes suddenly widened, as if they did not expect that Ye Feng's digestion ability was so powerful.

But after thinking that Ye Feng could use the power of his body to collide with the dark and terrifying pangolin, it was a head-on collision. Everyone felt that it was very reasonable.

After all, Ye Feng's physical strength is probably comparable to the legendary ancient evil beast, and it seems very normal to digest a nine-color *Ganoderma lucidum* in a few seconds.

At this time, everyone looked at Ye Feng with eyes filled with wonder.

The captain of the seventh team looked at Ye Feng and couldn't help but said: "Brother Ye Feng's real combat power now has probably surpassed mine, and even the city lord of Warhammer City or Zhenqin Zhenren who are about to catch up. A well-known figure in our team."

Hearing what the captains of these teams said, Ye Feng couldn't help shaking his head and said, "My current strength has indeed made great progress here, and my various means have also increased a lot, but compared with the well-known big figures like the Lord of Warhammer City, I am still a lot behind."

Hearing what Ye Feng said, the captain of the seventh team couldn't help but smile and shook his head, patted Ye Feng on the shoulder, and said, "Don't be modest, you are more than a dozen realms lower than their cultivation, and your strength is almost catching up with them. This is really a terrible thing. If you can increase your cultivation, I'm afraid your real combat power will really be on par with the well-known big figures like the Lord of Warhammer City. And I know that you must have many other trump cards and killer moves that have not been used. Once they are used, your combat power will be many times more terrible than what we just saw. No, maybe you are now comparable to the top strong men like the Lord of Warhammer City!"

At this moment, hearing the evaluation of the captain of the seventh team, the other members of the seventh team around them all showed deep shock on their faces.

They didn't seem to expect that the captain of the seventh team would have such a high opinion of Ye Feng.

After all, in the eyes of the members of these teams, the strong man of the city lord of Warhammer City is definitely the ceiling of their combat power.

But they didn't expect that Ye Feng, such a young boy, would catch up with the strongest existence in their hearts.

Just as everyone was talking, suddenly a burst of urgent shouting came from not far away.

Hearing this shouting, the captain of the seventh team immediately changed his face slightly, and couldn't help but said: "It seems that other teams are asking for help around. This is a signal for help. I don't know which team is in crisis."

Hearing the captain of the seventh team say this, the other team members around said: "Anyway, we have already explored here, let's go and take a look. If other teams are really in danger, we have so many people, we can also help them, and now there is a guy like Brother Ye Feng in our team, who is so powerful, we can rescue them."

At this moment, the captain of the seventh team glanced at Ye Feng, as if waiting for Ye Feng's decision.

After all, they are not from the same sect, but a team formed temporarily. Everything depends on Ye Feng's decision.

At this time, many other team members saw the eyes of the captain of the seventh team, and they all understood something and looked at Ye Feng.

They were also very complicated. They didn't expect that in a short period of time, the final decision-making power of the seventh team had been transferred from the extremely powerful captain to Ye Feng, a young boy.

However, everyone also knew that Ye Feng's current strength seemed to be the lowest in the seventh team, but in fact, his combat power was the strongest.

So it was very reasonable to give the final decision to Ye Feng.

At this time, Ye Feng smiled slightly and said, "Since we are now in a team, other teams are in danger. Within our ability, we should rescue each other. Since other teams are urgently asking for help, let's go over and take a look. Maybe while saving each other, we can also get a lot of opportunities. After all, the more dangerous the place, the greater the opportunity."

Chapter 5402 River Skeleton

At this time, hearing Ye Feng say this, everyone present showed joy on their faces.

If Ye Feng agreed to rescue other teams, then their safety would be greatly improved.

Because they had just seen Ye Feng's comprehensive strength, which was extremely terrifying and not as simple as ordinary people imagined.

Even the captain of their seventh team, the big man in black armor, would never be Ye Feng's opponent.

At this moment, the captain of the seventh team immediately smiled and said, "Okay, since brother Ye Feng has agreed, let's go to the direction of the call for help and see what's going on."

At this moment, all the people in the entire seventh team gathered together and flew quickly in a certain direction in the distance.

At the forefront of the entire team stood the captain of the seventh team and Ye Feng.

Although Ye Feng is not the captain of the seventh team, he is already recognized as the most powerful.

So Ye Feng naturally stood at the forefront of the seventh team.

At this moment, Ye Feng looked around and found that many buildings in the entire underground dragon's nest were already dilapidated.

It seems that some terrible turmoil happened here in the past, otherwise it would not be so dilapidated now.

Thinking of this, Ye Feng couldn't help asking in the storage ring: "Little Dragon Demon, do you know what happened in this ancient dragon's nest back then?"

Hearing Ye Feng's question, the little dragon demon shook his head without knowing anything and said aloud: "I was still in the process of gestation and had not yet formed my own consciousness, so I don't know what happened. This memory is not imprinted in my blood."

Hearing the little dragon demon in the storage ring say this, Ye Feng immediately nodded.

It seems that something unimaginable must have happened here in the past, otherwise, the ancient dragon clan and the ancient demon clan giant clan, the two most powerful overlord races, could not have suddenly disappeared like this.

At this moment, Ye Feng thought in his heart that he had arrived at the place where the cry for help was heard before.

The next moment, Ye Feng and the members of the seventh team suddenly saw a scene that made people's scalps numb.

I saw a large group of strong men from their previous team, trapped in a river at this moment.

In this river, there is not water, but dense skeletons.

There are tens of thousands of these dense skeletons, filling the entire river, and pulling many members of the team into the depths of the river frantically, trying to drown and kill them.

At this moment, the scene in front of everyone feels like they have come to hell.

The dirty and messy river, crawling with dense skeletons, looks too creepy, and makes many members of the seventh team who came here feel a little numb.

At this moment, the dozens of strong men in the team not far away who were dragged into the river by the skeletons could not help but shout out in fear: "Hurry up and save us! These skeletons are not dead at all, and they have some kind of inexplicable power from the underworld, which is not something that our power in the world can resist. Hurry up and save us, think of a way!"

At this moment, hearing the strong men in this team say this, even the captain of the seventh team suddenly became ugly.

Because they are facing a strange power that seems to come from the underworld, it is the power in the underworld that controls these skeletons and makes them immortal.

At this moment, although the captain of the seventh team has a very ugly face, now that he has come here, he will naturally not stand idly by and must take action to see if he can kill these skeletons.

Swish!

At this moment, the captain of the seventh team held the ice crystal axe in his hand and rushed directly towards the river in front, and soon rushed to the top of this river.

Then the captain of the seventh team did not hesitate at all, and immediately held the ice axe in his hand and chopped towards the entire river fiercely.

Boom!

A terrifying icy light suddenly burst out from the ice axe in the hands of the captain of the seventh team, as if it could freeze the entire world.

But when these cold air attacked the densely packed skeletons in the river, they could not freeze these skeletons at all.

These skeletons seemed to have an inexplicable power that could block all other damage and make these skeletons immortal.

"What?"

Seeing that he could not cause any damage to these skeletons with his axe with all his strength, the captain of the seventh team immediately showed deep astonishment in his eyes.

It was the first time for him to encounter such a weird thing, and he was not afraid of powerful forces.

At this moment, the members of other teams saw this scene and were suddenly desperate.

They never thought that even the captain of the seventh team, who was a top-ranked strong man in the team, could not cause any damage to these skeletons.

At this moment, the most powerful being, the Lord of Warhammer City, had not come to rescue them.

So everyone suddenly became desperate.

The faces of the dozens of strong men who were dragged into the river skeleton group all turned extremely ugly in an instant. They were extremely desperate and felt that they would definitely die today.

"Let me give it a try."

But suddenly at this moment, Ye Feng flew up to the sky and released the Gate of Heaven directly.

Buzz!

At this moment, a strong white light burst out from the Gate of Heaven.

This white light has a sacred power, as if it can purify all the evil and darkness in the world.

And almost when this white light fell on the entire river, those terrifying and invulnerable skeletons suddenly began to decay.

Just like ice encountering the light of the sun, they began to scream one by one in an instant.

These skeletons were controlled by the power of the underworld, but they could not resist the sacred and bright power in Ye Feng's Gate of Heaven. They were directly illuminated and began to be corroded in an instant, and they were dying.

"What?"

At this moment, everyone's eyes widened when they saw this scene.

Even the strong men in other teams who were dragged into the river by countless skeletons stared at Ye Feng for a moment, with deep disbelief on their faces.

Someone couldn't help but say: "Captain of the seventh team, when did such a powerful young man appear in your seventh team? I don't think I have seen this person in the team before."

Chapter 5403 Some speculations

At this moment, everyone suddenly showed deep horror in their eyes.

All the members of the seventh team also became excited and said aloud: "Brother Ye Feng is so powerful. Even if he encounters this weird skeleton from the underworld, he still has extremely special and powerful magic weapons. , being able to prevent these skeletons from harming us is really awesome."

The captain of the seventh team couldn't help but show a look of excitement on his face. He didn't expect Ye Feng to have such a special magic weapon that could restrain the power of the underworld. It was really incredible.

At this moment, behind Ye Feng, the Gate of Heaven appeared.

The huge door seemed to be completely condensed with the power of light, emitting an incomparable sacred light.

At this moment, Ye Feng was shrouded in light, extremely sacred, like the God of Light from the sky, bringing bright light to everyone and driving away those evil and cold skeletons.

At this moment, Ye Feng suddenly discovered that these skeletons were all broken apart after being dispersed by the power of light in the Gate of Heaven.

And just after they were broken, skeleton cores that seemed to be composed of the energy of the underworld fell from their bodies.

"Um?"

At this time, Ye Feng's eyes lit up, and he stretched out his hand and sucked all the skeleton cores into his storage ring space.

To Ye Feng, these skeletons should all be strange existences bred by the power of the underworld, so it is quite normal for their bodies to have the core of underworld energy condensed.

If ordinary people come across this kind of underworld energy, their life force will be corroded in an instant.

But Ye Feng is not afraid.

The strength of Ye Feng's body is enough to accommodate the power of thousands of attributes under the sky.

Even if it is the power of the underworld, Ye Feng can directly use it. It must be said that he is extremely evil.

At this moment, after Ye Feng collected these skeleton cores, he secretly swallowed them.

Boom!

A very huge underworld energy was immediately injected into Ye Feng's Dantian, amplifying Ye Feng's power.

You know, the skeletons in the river below are densely packed, with tens of thousands of skeletons in total.

So at this moment, Ye Feng collected tens of thousands of skeleton cores at once. Even though each skeleton core did not contain much energy, when tens of thousands of them were added together, it was definitely a huge energy that cannot be ignored. energy.

Ye Feng's skill immediately increased tremendously.

Ye Feng's cultivation realm began to rise steadily at this moment.

boom!

The fourth level of the human-god realm!

boom!

The fifth level of the human-god realm!

At this moment, Ye Feng's cultivation reached two levels in a row.

It has to be said that the skeleton core of the underworld energy condensed by these skeletons is a great tonic for Ye Feng. It allows Ye Feng to break through two levels of cultivation in an instant, which can be said to be a huge improvement.

At this moment, Ye Feng took back the Gate of Heaven, and then landed from high in the sky. He couldn't help but asked: "How come there is such a long river of skeletons bred by the strange underworld power in this ancient dragon's lair?" ?"

Hearing Ye Feng's question, the members of the other teams who had been successfully rescued did not dare to hesitate in front of a young man like Ye Feng, and quickly said respectfully: "We don't know why, we just In this dry river bed, we found some ancient murals. We wanted to explore these murals, but we didn't expect that something seemed to be triggered unintentionally. The breath of the underworld suddenly came out of these murals, and then the river channel From the mud below, dense skeletons suddenly crawled out, trapping us all. Our captain was directly swallowed by the skeletons at the bottom and died instantly, so we had no choice but to send out a distress signal. "

Hearing this group of people say this, Ye Feng's eyes revealed a look of surprise, and he said, "Take me to see the mysterious murals in the rivers, and let me see what's going on."

Hearing what Ye Feng said, the surviving members of the other teams immediately nodded and flew quickly towards the river with Ye Feng.

Ye Feng had just proved that he could deal with the power of the underworld, so these people were not afraid now. They all followed Ye Feng and flew quickly towards the river not far away.

Previously, Ye Feng also fought with the green dragon in a river in the palace complex at the end of another passage, and led out the ancestor dragon's corpse.

Ye Feng guessed that this mysterious river probably ran through the entire ancient dragon's lair and contained the power of the underworld. Perhaps this river was very extraordinary and could connect to the legendary underworld and lead people from the underworld to the underworld. The power of death.

"Could it be that the demise of the two dominant races that lived in this ancient dragon's lair was related to the legendary underworld?"

At this moment, Ye Feng was thinking secretly in his heart, and then he followed everyone to the bottom of the river that the team was exploring.

Sure enough, Ye Feng saw that there were very ancient murals carved on both sides of the bottom of the river.

The content depicted on these murals has become somewhat mottled with the passage of time.

But it can still be seen that most of the paintings depicted on these murals are the patterns of the ancient dragon clan and the patterns of the ancient demon giants.

This shows that the two dominant races were not hostile to each other here, but coexisted peacefully. Perhaps they wanted to cultivate the most powerful race in history, the Dragon Demon Clan, so the two dominant races lived in peace here.

According to the description on the back of the mural, in the later period, the two dominant races seemed to have been unable to cultivate the most perfect Dragon Demon, so there seemed to be a conflict.

The ancient demon giant clan seemed to want to use some evil method, as if to use this river channel to attract the power of the underworld, breed and give birth to the Dragon Demon.

However, the ancient dragon clan was unwilling to contact the terrible interface of the underworld, thinking that even if it succeeded, the Dragon Demon would no longer be pure, and might be contaminated with cause and effect with the underworld, leaving a huge disaster.

So the two dominant races had a dispute...

And the mural suddenly stopped here.

At the end of the mural, Ye Feng only saw a very vague and majestic figure, emerging from the end of this river channel.

This very vague and majestic figure does not seem to belong to the giant demon clan, nor to the ancient dragon clan. Perhaps it is a terrifying existence from the underworld.

Seeing that the mural stopped here, Ye Feng had some guesses in his mind.

Perhaps the successful birth of the little dragon demon he encountered was also related to the legendary underworld.

At this moment, Ye Feng did not want to pay too much attention to this past history, after all, it had nothing to do with him.

He followed the whole team here just to find the wealth of the ancient dragon clan, so Ye Feng did not want to know too much.

After all, everything involved here is too weird.

At this moment, Ye Feng looked around and said: "Since all these skeletons crawled out of the mud under this riverbed, perhaps there were many powerful creatures buried at the bottom of this river channel in the past. Otherwise, there would not be so many skeletons controlled by the breath of the underworld. Let's dig up this river channel and see what is inside."

Chapter 5404: A Place of Great Danger

Hearing that Ye Feng was going to dig up this strange river channel, everyone present suddenly showed a look of deep horror on their faces.

There was an elder strongman in the team who couldn't help but said: "Brother Ye Feng, although your strength and cultivation are extremely powerful, you can't be so without taboos. There are too many weird things in this river. If you dig it out, , I don't know if something more terrible will happen."

Hearing what this elder said, Ye Feng just smiled slightly and said, "My treasure can dispel all the forces of the underworld, so don't worry so much."

After speaking, the other team members listened to Ye Feng's words very much. After all, Ye Feng had already proven his strength.

So at this time, everyone started digging this river.

Ye Feng was also high in the sky at this moment, releasing the Gate of Heaven, holding it on his head, and spreading the power of light to the entire surrounding space to prevent the power of the underworld from suddenly appearing and stop it instantly. .

With the protection of the power of light, everyone seemed to have no fear and started digging faster.

Along with the excavation, the bottom of the entire river channel was completely excavated.

"This is....."

Ye Feng and everyone immediately saw that there were graves buried under this river.

Each tomb is extremely ancient, and each tomb is built in a different style.

And those weird skeletons just now probably all came out of these graves.

Seeing this scene at this moment, Ye Feng couldn't help but said in surprise: "None of these tombs should have been built here. It seems that tombs in other places were moved here."

Hearing what Ye Feng said, the captain of the seventh team flew to Ye Feng's side. Looking at the scene below, he couldn't help but nodded and said: "Yes, the construction style of each tomb is different." The same, it should be the graves of various major races. Some people secretly moved them here and buried them all together to form this river. I don't know what its specific function is."
"

Ye Feng's eyes had an inexplicable coldness in his eyes, and he said aloud: "The function is of course very simple, that is, the river channel built with tens of thousands of tombs seems to want to use the death energy in the tombs to attract the power of the underworld. In order to accomplish some of the goals of the two dominant races here."

Hearing what Ye Feng said, the captain of the seventh team's eyes flashed slightly, but he didn't say much because he seemed to have guessed something.

At this moment, Ye Feng said aloud: "Let's go. Since there is no wealth here, let's leave directly. After all, the power of the underworld may appear here at any time."

Before leaving, everyone smashed all the tombs. After all, the owners of the tombs inside had turned into skeletons and been eliminated, so there was no need to stay here. They smashed all the tombs. , cutting off the power of this river to approach the underworld, can be regarded as cutting off a future source of trouble for the heaven.

At this moment, Ye Feng took many members of other teams and flew quickly towards other places.

Because the area at the end of the passage that these teams walked did not leave any wealth from the two dominant races.

Therefore, everyone felt that perhaps the passages walked by the teams led by the city lord of Warhammer City and other top powerful men were connected to the real place where the wealth of the ancient dragon's lair was buried.

However, Ye Feng is still very satisfied, because if Ye Feng had not been walking in the seventh channel, he would not have met the little dragon demon, let alone learn the dragon demon's strongest inheritance, the dragon demon's immortal body.

The Dragon Demon Immortal Body can be said to be the most powerful real body technique that Ye Feng has practiced besides the Immortal Body of the God.

Because the power of the dragon demon is really terrifying.

When Ye Feng transformed into the body of a dragon demon, he was enough to fight against the corpse of an ancestral dragon.

It can be seen from this that how powerful the body of the dragon demon is, which can give Ye Feng extraordinary strength and a strong and boundless physique.

At this time, everyone was following Ye Feng, with Ye Feng taking the lead.

Because Ye Feng's combat power is so powerful, everyone recognizes Ye Feng's leadership status.

Even the captain of the seventh team, this armored man with an ice crystal ax on his back, followed Ye Feng silently, as if he was Ye Feng's follower.

Now Ye Feng's combat power is extremely powerful, and he has an endless supply of rare treasures and various methods, making everyone believe in Ye Feng without reservation.

And they have experienced so much, and they also know that this ancient dragon's lair is not full of wealth and treasures as imagined, but more dangerous and weird things.

Therefore, following a magical and powerful figure like Ye Feng is naturally the safest choice.

No one is left behind, and no one goes to other places alone to explore for treasures.

Because all the dangers they encountered made them fearful, it was safest to follow a super strong person.

Buzz!

At this time, Ye Feng exuded soul power and spread towards the surroundings, trying to find where the city lord of Warhammer City or the top-ranked masters such as Zhenqin Zhenren were, and whether they had found any treasures.

However, when Ye Feng emitted soul power to other channels, he found no trace of these people.

This made Ye Feng's eyes suddenly reveal a hint of surprise.

At this time, the captain of the seventh team standing next to Ye Feng, the armored man, also showed a trace of uneasiness on his face, and couldn't help but whispered: "Ye Feng, do you think the members of other teams have also encountered accidents? I think this ancient dragon's nest is not a treasure place at all, but a place of great danger."

Ye Feng couldn't help but nod slightly at this moment.

Ye Feng suddenly felt that the two dominant races in this ancient dragon's nest must have encountered something very terrible.

It is very likely that they encountered the power of the underworld and were directly destroyed.

The biggest treasure they left behind may be the newly hatched little dragon demon that Ye Feng encountered before, as well as the peerless inheritance imprinted in the depths of the little dragon demon's memory, the immortal body of the dragon demon.

This is probably the greatest wealth left by the two dominant races in the past.

However, since everyone is a member of the same team and came together, Ye Feng does not want to leave here directly. He still wants to find the city lord of Warhammer City and other members and strong men in other teams. What is the current situation, whether they are alive or dead, and whether they have found any treasure.

Ye Feng felt that he was not the only one who had such an idea. The members of the dozens of other teams he led must have the same idea.

The captain of the seventh team couldn't help but sigh at this moment and said: "After we find the city lord of Warhammer City and the members of other teams, let's leave here quickly. This place is really weird."

Ye Feng nodded slightly, and his soul power radiated out. After all, he found something and couldn't help but say: "I seem to sense a trace of the breath of the city lord of Warhammer City. It's at the end of the third passage. Let's go and take a look."

Chapter 5405: Controlled

At this time, when they heard what Ye Feng said, everyone present looked at him, nodded, and followed Ye Feng, flying quickly in the direction that Ye Feng sensed.

When they came to the third passage, they immediately saw a scene that made people feel numb.

Everywhere in this third passage was stained with blood, giving the impression that a very terrifying battle had taken place here.

Seeing this scene, everyone had deep horror in their eyes.

Even the seventh team leader, a top expert, felt a feeling of death and couldn't help but said: "Ye Feng, it seems that there was a very fierce battle in the third channel. I didn't expect to die. So many people."

Ye Feng nodded and said aloud: "And have you noticed it? Although this passage is stained with blood and has traces of battles everywhere, no corpses were found. So I guess, I am afraid that in this third passage there may be some kind of very scary monster living in the end area. After killing these people, they dragged them all away. "

Hearing what Ye Feng said, the members of many other teams present showed deep horror in their eyes, and they seemed to be afraid to go any further.

But at this time, they had finally arrived, and there was no way they could just retreat.

Ye Feng made a quick decision and said: "Let's go to the end of the third passage and take a look to see if the top powerhouses such as the city lord of Warhammer City and Zhenqin Zhenren have encountered any mishaps."

The captain of the seventh team also agreed with Ye Feng's decision to go investigate, and immediately followed Ye Feng and flew forward.

Seeing that the two most powerful beings were flying towards the end of the third passage, the other members had no choice but to follow them.

A moment later, when everyone arrived at the end of the third passage, they immediately saw a very terrifying scene.

I saw that the end area of the third passage turned out to be a mountain of corpses and a sea of blood. Countless corpses were piled deep underground, and there was a huge blood pool next to it. The blood was rolling in it, exuding a terrifying feeling. of blood.

At this time, the captain of the seventh team saw this scene and couldn't help but said in horror: "All of these people were killed. The corpses were piled up here, and the blood was drained and poured into the blood pool. What is going on?"

At this moment, Ye Feng stared at an ancient temple next to the blood pool.

Next to this blood pool, there is an ancient temple, and inside is the city lord of Warhammer City.

But at this time, the middle-aged man, the city lord of Warhammer City, with a red light in his eyes and a very strange expression, was paying homage to a sculpture in this ancient temple.

At this time, Ye Feng saw this sculpture, which was very similar to the illusory creature from the underworld that he had discovered among the ancient patterns in the river.

In order to cultivate dragon demons, the ancient demon giants did not hesitate to use some evil methods to find the corpses of countless creatures and pile them up into a special river. They wanted to lead to the underworld and use the power of the underworld to cultivate them. Out comes the dragon demon.

But he didn't expect that in the end, he would attract very terrifying creatures from the underworld and kill the entire ancient dragon clan and the ancient demon giants.

Ye Feng saw at this time that the city lord of Warhammer City was worshipping in the ancient temple, the creature from the underworld that he saw in the mural.

It was a person with a huge bull's head and a human body. It held a huge black death sickle in its hand, like a hell messenger from the underworld.

Seeing this scene at this time, the captain of the seventh team and many members of other teams standing aside couldn't help but said: "The city lord of Warhammer City actually killed everyone and took everyone's Blood was poured into this blood pool, and he betrayed us."

Ye Feng shook his head at this moment and said loudly: "The city lord of Warhammer City did not betray us, but he was controlled. If you look carefully, the state of the city lord of Warhammer City is very wrong at this time. He is covered in blood. It is shrouded in the aura of the underworld, and his eyes are red. He is confused and seems to have lost his mind. The city lord of Warhammer City seems to be controlled by the power of the underworld. "

"What?"

Hearing what Ye Feng said, the captain of the seventh team standing aside immediately couldn't help but said: "In that case, let's hurry up and kill the city owner of the Warhammer City that has been controlled. Otherwise, I'm afraid, That pool of blood really awakens the terrifying creature in that sculpture."

At this moment, Ye Feng also saw the ancient sculpture that the city lord of Warhammer City was worshipping. With the help of the blood energy left after the death of many strong men, it seemed that it was about to revive.

This should be a terrifying creature from the underworld.

Ye Feng naturally did not dare to hesitate at all, and immediately rushed towards the city lord of the team city with the captain of the seventh team.

Boom!

But at this moment, the city lord of Warhammer City suddenly turned around, revealed a ferocious face, and uttered a hoarse and cruel voice: "If you want to prevent the master from coming, you will all die!"

Boom!

At this moment, the mayor of Warhammer City immediately stretched out a hand and reached forward.

Buzz!

As he stretched out his hand, a palm composed entirely of the breath of the underworld suddenly condensed, like a giant from the underworld, breaking through the void and attacking.

Boom!

The captain of the seventh team was directly blown away and coughed up a mouthful of blood.

"Huh?"

Seeing this scene, Ye Feng's eyes immediately showed surprise.

The mayor of Warhammer City was indeed controlled by the power of the underworld, and had abandoned his own inheritance of thunder attributes. Every move and every style could use the breath and power of the underworld.

At this moment, Ye Feng naturally did not hesitate at all, and directly released the Gate of Heaven.

Buzz!

At this moment, a brilliant white light immediately burst out from the Gate of Heaven, which was extremely sacred and could purify all the cold breath and dark power.

At this moment, the white light emitted from the Gate of Heaven shone on the Lord of Warhammer City, and immediately made the Lord of Warhammer God Pond scream in pain, and his whole body began to corrode.

Because the Lord of Warhammer City is now controlled by the power of the underworld, he has already become a creature of the underworld, and the Yin Qi is shrouded on his body. Naturally, he cannot compete with the sacred and incomparable light power in the Gate of Heaven, and is directly suppressed.

This made Ye Feng feel quite fortunate. If the Lord of Warhammer City was not controlled by the power of the underworld and fully exerted his own human thunder power, he might not be able to beat the Lord of Warhammer City at present. After all, the opponent is more than a dozen realms higher than him.

But now the Lord of Warhammer City has abandoned his own human power attribute and become a creature of the underworld, which is actually beneficial to him, because his Gate of Heaven can suppress the creatures of the underworld from a macro perspective, greatly weakening their combat effectiveness.

Chapter 5406: Anxiety

At this moment, Ye Feng used Heaven's Gate to suppress the city lord of Warhammer City. Not far away, the captain of the seventh team rushed over again, holding the ice crystal ax in his hand, and directly and fiercely aimed at the city lord of Warhammer City. Chopping away.

"Pfft!"

This time, the city lord of Warhammer City could not resist, and the captain of the seventh team used the ice crystal ax in his hand to cut off one of his arms.

"ah!"

The city lord of Warhammer City immediately let out a violent scream.

Immediately, the city lord of Warhammer City retreated in panic, directly in front of the statue.

Swish, swish, swish!

The next moment, among the statues of underworld creatures, densely packed pale palms that looked like dead people stretched out, grabbing and covering the entire city owner of Warhammer City.

The next moment, the city lord of Warhammer City seemed to have obtained the power of the underworld creatures in the ancient sculptures. His whole body immediately expanded rapidly, and he turned into a statue like a sculpture, with a huge bull's head and a long body. Covered with the scales of the underworld, he held a death scythe with a length of several kilometers in his hand. He instantly possessed part of the power of this underworld creature, possessing terrifying combat power. With just one swing of the scythe, he almost killed the seventh team. The captain's whole soul was drawn out.

At this moment, the captain of the seventh team immediately couldn't help but said in horror: "Ye Feng, be careful, its attack can directly attack the souls of our practitioners. I am afraid that the city lord of Warhammer City has been killed by that ancient sculpture." The creatures from the underworld are under control, but there should be no way for all the creatures from the underworld to come to our world, so we can only use the puppet of the city lord of Warhammer City to release part of his power. "

Hearing what the captain of the seventh team said, Ye Feng nodded and said: "You retreat first, just leave this place to me. You first destroy all the blood pools and corpse mountains and seas of blood not far away. , I estimate that the reason why the underworld creature in this ancient sculpture is able to release its power through the city lord of Warhammer City is because of the help of the blood pool and the sea of blood."

Hearing what Ye Feng said, the captain of the seventh team immediately nodded and said: "Then you must be careful."

After finishing speaking, the captain of the seventh team held the ice crystal ax in his hand and shouted directly to the other members in the distance: "You guys come with me and treat the special blood pool here and the mountain of corpses and sea of blood. Destroy all the sacrificial methods, which can greatly reduce the power of the underworld creature. "

At this moment, the captain of the seventh team led everyone and immediately began to destroy the corpse mountain, sea of blood and blood pool.

Sure enough, Ye Feng's guess was right. When the captain of Team 7 and many other strong men began to destroy various sacrificial buildings not far away, the lord of Warhammer City turned into the bull-headed monster of the underworld. It was charging towards the captain of the seventh team and many other strong men. The huge death scythe in his hand was directly heading towards the souls of everyone.

But at this moment, Ye Feng shouted loudly: "Your opponent is me."

Boom!

At this moment, Ye Feng continued to explode the power of Heaven's Gate.

A bright white light suddenly burst out from the Gate of Heaven, which was extremely sacred and directly blocked the Minotaur.

This bull-headed monster comes from the underworld, and its power is the power of the underworld, but it cannot cause harm to Ye Feng, because the power of light in Ye Feng's Gate of Heaven specifically restrains the underworld.

At this moment, the bull-headed monster suddenly stared at the Gate of Heaven behind Ye Feng and made a voice: "Who are you? This light-attributed gate magic weapon is so advanced that it can restrain the power of our underworld. It is absolutely extraordinary." It's unusual."

At this moment, this bull-headed monster from the underworld was staring at the Heaven's Gate behind Ye Feng, but he did not recognize the identity of the Heaven's Gate, which was the treasure of the Lord of Heaven.

However, there are actually many treasures with light attributes in the world. It is impossible to recognize Ye Feng's magic weapon at once as the legendary Gate of Heaven, because it is too sensational.

You must know that the Gate of Heaven is unique in the entire heaven. This bull-headed monster from the underworld probably never dared to think that the legendary Lord of Heaven's natal magic weapon, the Gate of Heaven, the largest restraint sacred object in the underworld, would be in the underworld. In the hands of a human boy.

At this moment, the bull-headed monster wanted to prevent others from destroying everything here. It immediately held the death sickle several kilometers long in its hand and slashed crazily towards Ye Feng, trying to kill Ye Feng's entire body. and souls were all shattered.

However, Ye Feng himself is a soul master, his soul is powerful and boundless, and he is protected by the power of light in the Gate of Heaven.

So at this moment, Ye Feng was not afraid of this bull-headed monster from the underworld at all, and charged forward directly. The God's Sword appeared in his hand, and collided with the death sickle in the hand of this bull-headed monster.

Click!

And at the next moment, what horrified the bull-headed monster was that the golden sword in Ye Feng's hand actually shattered the death sickle in his hand at the moment of collision and cut it off.

"What??"

Seeing this scene, the bull-headed monster from the underworld suddenly said in horror: "What kind of weapon is this in your hand? Why is it so sharp? This death sickle is a high-end treasure in our underworld. You guys?" There are very few treasures in the world that can directly resist my Death Scythe. I didn't expect it to be cut off in an instant. What kind of monster are you, how come you have all kinds of treasures?"

At this moment, this bull-headed monster from the underworld was shocked by Ye Feng's endless trump cards, and felt very incredible.

Because he knew Ye Feng's level of cultivation very well. He was just an ordinary practitioner, but he didn't expect that he had such powerful means, whether it was the Gate of Heaven that suppressed his underworld aura, or the one that appeared in his hand now. This extremely sharp golden sword shocked the bull-headed monster from the underworld.

The bull-headed monster couldn't help but said: "Even the ancient dragon clan and the ancient demon giant clan were unable to withstand my death scythe, and they were seduced to death by me one by one. I didn't expect your soul to be so strong. , the treasure is more magical than the treasures of these two overlord races, how is this possible? Are you a peerless genius among the great powers in the eastern land of China? No! Even if you are a super power in the eastern land of China? It is impossible for the peerless talent of a force, even the inheritor of a great force, to possess so many magical means at such a young age."

At this moment, this bull-headed monster from the underworld was extremely frightened by Ye Feng, and his words were a little unsteady, and he was very anxious and uneasy.

Chapter 5407: Terrible Conspiracy

At this moment, Ye Feng smiled coldly and said: "It doesn't matter who I am, the important thing is that now you don't try to use the puppet of the city lord of Warhammer City to do all kinds of evil in our world of heaven. "

At this moment, after Ye Feng finished speaking, he immediately exploded into the immortal form of the dragon demon that he had cultivated before.

boom!

At this moment, Ye Feng's whole body immediately began to expand rapidly.

Then Ye Feng's entire body transformed into a majestic and boundless dragon-demon body, and charged forward, severely attacking the bull-headed monster.

After all, this bull-headed monster briefly appeared in the ancient dragon's lair with the help of the body of the city lord of Warhammer City.

Therefore, he simply couldn't withstand the terrifying power of Ye Feng Dragon Demon's immortal form, and was beaten to pieces every inch of his body.

"Ah! Damn it!!"

At this moment, the bull-headed monster shouted unwillingly.

Suddenly, he broke away from the body of the city lord of the shattered Warhammer City, and suddenly transformed into a Yin spirit with a majestic soul state of tens of thousands of meters in the entire world, and made a majestic voice: "Boy, even if I am Without the body to carry it, I can destroy your soul in an instant."

After saying that, the majestic Yin Spirit transformed into a bull-headed monster, tens of thousands of meters tall, immediately stretched out a huge palm and pressed towards Ye Feng, as if it was going to crush Ye Feng's entire soul in an instant. .

At this moment, the bull-headed monster knew that it could not fight against Ye Feng's body, so it could only attack Ye Feng's soul.

But the next moment, Ye Feng's soul immediately burst out with terrifying soul power, transforming into Ye Feng's own dark soul giant, which was also tens of thousands of meters tall!

Buzz!

The two behemoths in soul state immediately faced off in the void of the ancient dragon's lair.

"What?? Your kid is actually a legendary soul master??"

At this moment, the bull-headed monster's eyes widened slightly. It seemed that Ye Feng was not only full of methods and magic weapons, but he was also a rare soul master.

You must know that soul masters are very rare among practitioners. After practicing to the end, they can even freely travel through all major interfaces. Their souls are immortal and can go up to heaven and down to the Nine Netherworlds. Their souls can freely travel between the Yang Realm and the Yin Realm. boundary.

At this moment, the bull-headed monster knew that Ye Feng was still far from reaching the most powerful state.

So at this time, he immediately gritted his teeth and said: "Today, even if I try my best, I will kill you. Otherwise, one day your soul will be cultivated to the extreme and you will be able to freely travel between the world of the sun and the underworld. When the time comes for you to come to the underworld and destroy me, it will be over."

At this moment, the bull-headed monster has regarded Ye Feng as a huge threat, and directly used an extremely powerful method of the underworld creature: "The soul destroys the common people!"

Boom!

At this moment, the huge Yin spirit of this bull-headed monster directly erupted into a terrifying and soul-level power frenzy, and his entire Yin spirit was integrated into this power frenzy.

Obviously, this is a desperate blow.

But at this moment, Ye Feng instantly put the Gate of Heaven in front of him, directly resisting the power surge of this soul state.

"What??"

Seeing this scene, the bull-headed monster's eyes suddenly widened, and he couldn't help but said in horror: "What kind of light-attribute magic weapon is this? It can not only restrain the underworld power of my physical body, but also It is impossible to restrain the power of the underworld at the level of my soul! Is it possible that this is the magic weapon of the Lord of Heaven, the Gate of

Heaven? But how is this possible? How could such a powerful holy object appear in the hands of a human kid like you?"

At this moment, the Minotaur can be said to be extremely frightened, but he has no chance.

He consumed all his power to form a frenzy of power. Despite the resistance of Heaven's Gate, it did not cause any harm to Ye Feng.

Instead, Ye Feng used his soul giant to completely crush the entire soul and body of the minotaur. .

At this time, the Minotaur had the last trace of regret left. Instead, he laughed loudly and said cruelly: "The Gate of Heaven! The Gate of Heaven! The legendary Gate of Heaven has finally appeared! Boy, I have memorized your breath. When I report this matter to the High Priest of Death, you will undoubtedly die. Your gate to heaven, if we, the Kingdom of Death, can obtain it, will definitely make our Kingdom of Death the greatest in the entire underworld. The kingdom of death! Hahaha!"

At this moment, amid a burst of laughter, the bull-headed monster was finally completely annihilated.

At this time, Ye Feng frowned slightly, with a hint of thinking in his eyes.

Everything the Minotaur said before his death was a huge amount of information.

Whatever he calls the high priest of death.

Or the kingdom of death in the underworld.

It seems to be the power behind him.

This bull-headed monster itself is extremely powerful, but I didn't expect that there is such a huge network of relationships behind it.

Moreover, it seems that his own gate to heaven has been learned by this minotaur.

You know, what Ye Feng destroyed today was just a trace of soul power that the bull-headed monster possessed on the city lord of Warhammer City.

The original body of this bull-headed monster is probably still in the underworld, and it is very powerful.

However, Ye Feng had heard from this bull-headed monster before that when a soul master cultivates to the extreme state, he can freely shuttle between the underworld and the living world.

It seems that he still needs to practice more as a soul master. If he can really cultivate to the extreme state, he can freely shuttle between the living world and the underworld. Even if the power behind this bull-headed monster is huge, it can't do anything to him.

At this moment, Ye Feng thought in his heart, and then stopped thinking too much. After all, this kind of thing is too far away for him. As long as he stays in the heaven and the living world at ease, he should not be captured and killed by the terrifying creatures in the underworld.

At this moment, Ye Feng thought secretly in his heart, and then looked not far away, and found that the captain of the seventh team and other members had destroyed all the surrounding buildings. It is impossible for creatures from the underworld to appear here for a while.

Boom!

At this time, Ye Feng also punched out fiercely, smashing the sculpture of the bull-headed monster into pieces.

Snap!

At the moment when the sculpture of the bull-headed monster was broken, a fist-sized green round bead suddenly fell from the sculpture and fell on the ground, making a crisp collision sound.

However, the green round bead did not break, and seemed to be extremely solid.

"Hmm?"

Ye Feng's eyes moved, picked up the green round bead, and took it in his hand to look at it carefully.

Ye Feng suddenly discovered that this green round bead contained a very powerful underworld power.

This made Ye Feng immediately understand that it seemed that the bull-headed monster controlled the city lord of the Warhammer City and had accumulated a lot of power for himself, all of which were integrated into this green round bead.

Ye Feng had a guess in his mind. If he and the captain of the seventh team did not stop it, the Minotaur would not need to possess the mortal body of the city lord of Warhammer City, but would directly assimilate the sculpture into the substance of the entire underworld. At that time, the sculpture would become the second clone of the Minotaur in the world of the living.

At this moment, Ye Feng suddenly thought of this. These underworld creatures had been planning this kind of thing in ancient times. They always wanted to come to the world of the heaven. I don't know what they want to do. Is there some terrible conspiracy?

At this moment, Ye Feng thought secretly in his heart, and then without any hesitation, he began to devour and absorb the powerful underworld energy in the green round bead to strengthen his own skills.

Chapter 5408 Leaving the Primeval Forest

"Boom!"

At this time, as Ye Feng devoured it, huge streams of underworld energy were immediately injected into Ye Feng's body.

You must know that this green round bead is something conceived by the energy of the underworld. The energy of the underworld contained in it is very pure and very rich.

After Ye Feng swallowed it, he could immediately feel that his skill was increasing dramatically.

Ye Feng's cultivation aura began to rise steadily at this moment.

Ye Feng's cultivation had already broken through to the fifth level of the human-god realm before. At this time, he absorbed the huge underworld energy in this green bead. Ye Feng successfully transformed it into his own skill, allowing his cultivation aura and realm to continue to develop. A breakthrough occurred.

boom!

The sixth level of the human-god realm!

boom!

The seventh level of the human-god realm!

At this time, Ye Feng's cultivation level directly broke through two realms on the spot.

It has to be said that this green bead is indeed something born from the power of the underworld. It is indeed extremely powerful and can provide itself with huge energy.

At this moment, Ye Feng flew quickly not far away, and soon arrived in front of everyone.

At this time, Ye Feng saw that the captain of the seventh team and the members of other teams had completely destroyed the surrounding mountains of corpses and sea of blood, as well as the built blood pools.

But at this time, Ye Feng felt that all the blood and energy had been lost, which was really a waste.

Therefore, Ye Feng directly released the Devouring Domain at this moment and began to devour the surrounding blood that had not completely disappeared.

These blood energy are all formed by the many strong men killed by the city lord who controlled the Warhammer City by the bull-headed monster from the underworld, so each of them has the power and blood of a super master. For Ye Feng, it is said that nature is a huge source of nourishment.

After Ye Feng devoured it, he immediately felt that his power was rapidly growing again.

boom!

The eighth level of the human-god realm!

boom!

The ninth level of the human-god realm!

boom!

Perfection in the tenth level of the human-god realm! !

At this time, Ye Feng's cultivation level has been greatly improved, because all the blood energy around him is provided by a group of super masters.

However, what makes Ye Feng feel quite regretful is that after the city lord of Warhammer City was controlled by the bull-headed monster, the blood energy in his body has been completely assimilated by the energy of the underworld, so it only became an empty area. Ye Feng The cultivation skills and blood energy of the Lord of Warhammer City cannot be swallowed up.

Otherwise, Ye Feng felt that he might be able to directly break through the bottleneck of the human-god realm.

However, being able to elevate himself to the tenth level of the human-god realm in such a short period of time has made Ye Feng very satisfied.

Coming here this time, I really gained a huge harvest.

At this moment, Ye Feng looked at the captain of the seventh team and said loudly: "Now that everything here is over, we can leave this ancient dragon's lair directly."

The captain of the seventh team nodded, and left the underground lair with Ye Feng and many members of the team.

When they left the entire underground dragon's lair and returned to the surface, they saw the greenery and vitality of the surrounding virgin forest, and their eyes showed deep emotion.

This time they came to this underground ancient dragon's lair to explore the destiny, but they didn't expect to encounter such a strange and terrifying danger, and they were almost wiped out.

If a person like Ye Feng hadn't appeared, all of them would have died in this underground dragon's lair.

Because the city lord of the controlled Warhammer City was so terrifying, and his combat power was so terrifying that it was impossible for anyone else to fight against him, let alone the bull-headed monster from the underworld that finally briefly transformed into the underworld.

Only Ye Feng, who possesses the most powerful treasure with light attributes like the Gate of Heaven, can resist the power of the underworld.

At this moment, Ye Feng looked at Team 7 and the members of other teams beside him, and said with a smile: "I won't go back to Warhammer City with everyone, I have other things to go to." Yes, I'm here to say goodbye to everyone."

Hearing what Ye Feng said, everyone clasped their fists and said loudly: "Anyway, thank you little brother Ye Feng for your life-saving grace this time. We will always remember this life-saving grace."

Ye Feng smiled slightly and said boldly: "If we are destined to meet again in the future, drink together and have a good chat."

Uh-huh!

After saying that, Ye Feng jumped up and left the scene.

At this moment, the captain of the seventh team and the other members of the surviving team looked at Ye Feng's leaving figure with emotion in their eyes.

At this moment, the captain of the seventh team couldn't help but said: "This little brother Ye Feng will definitely become a brilliant figure in our entire heaven in the future."

Hearing what the captain of the seventh team said, the other members of the team nodded.

Someone couldn't help laughing and said: "If Brother Ye Feng becomes a super big man in the whole heaven, we can brag to our descendants and other friends that we once went through hardships and laughed with this super big man when we were weaker."

"Hahaha."

At this moment, everyone laughed heartily.

Then, the captain of the seventh team led many members of other teams and quickly left this primeval forest and flew towards the direction of Warhammer City.

At this moment, Ye Feng was alone and had left this primeval forest and the area where the eastern Shenzhou land was located, and flew quickly towards his original place, the southern area of the heaven.

Ye Feng is now going to Changsheng Xianmen, one of the three major forces in the southern area of the heaven, to find Leng Rushuang, the saint of the Frozen Temple, to fulfill his promise to Leng Rushuang and accompany her to the most dangerous place in the heaven, the wasteland, to hunt the dark races and dark creatures from the dark world and help this saint break through the bottleneck of cultivation.

And Ye Feng is also very interested in this wasteland.

Because the wasteland is the most dangerous place in the entire heaven, and it is also a terrible place that can threaten the entire heaven in the future.

Ye Feng just wants to see how powerful and terrible the dark races from the higher cultivation dimension of the outer world in this wasteland are, which will be of great help to his future trip to the outer world.

Chapter 5409 Taming You

At this moment, Ye Feng was thinking secretly in his heart, quickly shuttled through the virgin forest, and flew quickly towards the southern area of the heaven.

But just when Ye Feng flew to the junction of the virgin forest and the southern area of the heaven.

Boom!

Suddenly, a green finger, like an Optimus Pillar, suppressed it from high in the sky and attacked Ye Feng. It seemed to crush Ye Feng, a "little ant", to death in an instant!

At this moment, Ye Feng, in front of this majestic green finger that is several kilometers long, is indeed like a little ant, very small.

"It's him!"

This green finger was very familiar to Ye Feng. It was definitely the Beast King that he had encountered when he was guarding the city at the edge of the primeval forest in the southern area of the heaven.

Previously, Ye Feng had single-handedly killed many beast kings and withstood a terrifying beast tide in the human city at the junction of the southern area of the heaven and the primitive forest.

At that time, there was a mysterious beast king who almost killed Ye Feng with a finger.

This time I didn't expect this green finger to appear again.

And now Ye Feng has no one else to protect him.

So at this time, Ye Feng could only face it alone.

But this time, Ye Feng did not run away in a hurry. Instead, he looked at the huge green finger in the sky, laughed loudly and said: "You, the beast king, have been hiding in secret and trying to kill me. Now look I came back here and wanted to attack me again and wipe me out. But I am no longer the same person I was then. I was extremely weak and fragile under your finger. I'm just like an ant, but

even though only a few months have passed, I have grown into a being that you can't afford to mess with!"

Boom!

Almost at the moment Ye Feng finished speaking, Ye Feng suddenly burst out with a terrifying and boundless power.

Ye Feng immediately stretched out a hand, clenched it into a fist, and struck at the suppressed green fingers high in the sky.

boom!

Ye Feng's palm suddenly bloomed with brilliant divine light. Ye Feng directly inspired the power of the immortal body of the god. There were thousands of tons of terrifying power in one punch, and it directly hit the person from high in the sky. On top of the green fingers pressed down.

Boom! !

Almost at the next moment, the fists and fingers collided, and a terrifying roar suddenly erupted.

The next moment, Ye Feng punched the green finger and sent it flying backwards.

"Um?"

At this moment, a surprised voice seemed to be heard from the depths of the primeval forest.

It should be the Beast King who discovered that Ye Feng's strength was indeed different from before.

At this moment, Ye Feng did not run away, but immediately stared in the direction of the green finger's retreat, and rushed over in an instant.

Uh-huh!

Ye Feng rushed into the primeval forest alone, trying to find out the beast king who was secretly killing him. He was extremely ferocious.

Now that he has encountered this beast king and wants to attack and kill him secretly, Ye Feng feels that there is no need to show mercy.

At this moment, Ye Feng rushed into the primeval forest in an instant, bursting out with brilliant golden light. Like a golden god among the human race, he rushed into the primeval forest and fought with the terrifying evil beasts.

At this moment, when Ye Feng rushed into the depths of the primeval forest, he immediately saw a humanoid evil beast covered with green scales appearing in his field of vision.

This humanoid evil beast is tens of thousands of meters tall. Sitting in the mountains of the primeval forest, it looks like a giant that has survived from ancient times.

But this is not a human giant, it just has the form of a human, but its body is covered with emerald green scales, covering its whole body.

However, his fingers were human palms, not covered with scales, but the skin was very thick and green.

At this moment, Ye Feng rushed into the depths of the forest and saw this human-shaped green monster. He immediately smiled coldly and said: "You have been trying to kill me before, but you didn't expect to attack me again this time." "

Hearing what Ye Feng said, the huge green monster immediately laughed out loud, and even made a human voice, saying: "I didn't expect that you, a boy from the human race, could increase your cultivation so much in such a short period of time. , and the combat power has also skyrocketed. It seems that I have underestimated you. I should have killed you at all costs when you were the weakest, but at that time I was afraid of those top-notch people in your human city. Master, I hesitated, now you have grown up, but even if you have grown a lot now, you cannot be my opponent."

Boom!

Almost at that moment, after the huge green monster finished speaking, he suddenly stretched out a hand and grabbed a big mountain in a certain mountain range.

This mountain was immediately grabbed and shattered by this huge green monster.

Then, with his palm, he pulled out a rusty broadsword several kilometers long from the broken ruins of the mountain.

This rusty sword looked visually stunning. It was several kilometers long, and it looked like it could split the entire world into pieces with one strike.

At this moment, the green monster held the big knife in his hand and slashed towards Ye Feng, with the power to cut the sky and split the earth.

At this moment, Ye Feng no longer held back, because facing a powerful Beast King, he still had to face it seriously.

At this moment, Ye Feng didn't hesitate at all. He took out his God's Sword and collided fiercely with the sword that was several kilometers long.

Boom!

Almost at the next moment, the swords connected and made a huge collision sound. The terrifying sound waves shook the surrounding earth for hundreds of thousands of miles and shattered it.

Many other ferocious beasts in the entire primeval forest, including some sleeping beast kings, were shocked to wake up by this terrifying attack, and fled away in panic, fearing that the gods would fight and harm Chiyu.

"Um?"

The next moment, Ye Feng was surprised that his God's Sword did not cut the opponent's sword in half.

Seeing this scene, Ye Feng's eyes suddenly showed surprise, and he said loudly: "Your weapon seems to come from a higher cultivation dimension. Otherwise, my long sword will definitely be able to defeat this big sword of yours." Split in half instantly."

Hearing what Ye Feng said, the green monster in humanoid form immediately showed a look of surprise in his eyes and said loudly: "Oh? I didn't expect that you, a human boy, so young, actually know the advanced cultivation dimension. It seems that You are indeed extraordinary, but you will definitely die today! That day you stopped the beast wave launched by me, which caused huge losses to me. Today I meet you again, and I will never let you escape like this. I must suppress you. You have such a strong fighting power. It would be a pity to kill you. When the time comes, I will defeat you and suppress you. Then I will tame you and become my own. Wouldn't it be better for a human servant to submit to me and become a dog in my hands? Hahaha!"

Chapter 5410: Leaving Money for Passage

"Hahaha!"

Hearing this green monster say this, Ye Feng immediately laughed and said: "You want to tame me and become your human servant? To be honest, I also want to tame you, the beast king. If I can step on a beast king and become my tool for traveling, it would be quite domineering."

"How dare you!"

Hearing Ye Feng's words, the beast king-level green monster immediately roared, and the big knife in his hand chopped towards Ye Feng frantically, breaking the entire earth in an instant.

Even under such a terrifying attack, Ye Feng couldn't help but retreat quickly.

Because the attack power of this beast king-level green monster is really terrifying.

At this moment, Ye Feng did not hesitate at all, knowing that this beast king was extremely powerful, and directly burst out his immortal dragon demon body.

Boom!

At this moment, Ye Feng's whole body suddenly began to swell up, and directly swelled into a huge monster in the state of a dragon demon on the spot.

At this moment, Ye Feng's form is the head of a dragon, and his body is the body of an ancient demon giant.

At this moment, Ye Feng has become tens of thousands of meters tall, and his size is almost the same as that of the green monster at the level of the beast king.

At this moment, the power of Ye Feng's immortal body and the immortal body of the dragon demon merged into one, giving Ye Feng the majestic power to tear the sky and split the earth.

Boom!

Ye Feng punched forward fiercely.

Ye Feng's fist turned into the claw of the ancestor dragon halfway, with the power of the dragon demon, and hit the big knife in the hand of the green monster fiercely.

Boom!

At this moment, Ye Feng poured all the power of the dragon demon into his palm, and directly blasted the steel big knife in the hand of the green monster into the distance, and inserted it into a lake in the distance.

Swish!

At this moment, Ye Feng continued to charge forward, and directly fought with the green monster in close combat.

You know, the power of a beast king's body is very terrifying, but Ye Feng is not afraid at all.

The combination of Ye Feng's dragon demon true body and the immortal body of the god makes Ye Feng have physical strength comparable to or even beyond the beast king.

At this moment, under Ye Feng's violent close-range attack, even this green monster was attacked and retreated step by step, cracks appeared on his body, and green blood flowed out.

This beast king-level green monster immediately said in horror: "How is it possible?? How can you, a human boy, cultivate the legendary dragon demon true body! This is the power of the ancient dragon demon, a legendary power, and it is impossible to exist in the world. How do you have such a terrifying body?"

At this moment, the green monster can be said to be extremely frightened.

Because he suddenly discovered that the human boy in front of him may have grown more terrifying than he imagined, and has grown to a level beyond him.

At this time, the green monster immediately roared and said: "Heaven and Earth Element Formation!"

Boom!

At this moment, the green monster actually directly launched a heaven and earth formation.

The five elements, thunder and fire, and other elements all gathered together to form a terrifying formation, which enveloped Ye Feng and released the power of various elements to attack.

This formation was very terrifying. It could release the power of fire to burn Ye Feng, release the power of ice to freeze Ye Feng, release the power of thunder to electrocute Ye Feng, and release hurricanes and rainstorms, all of which poured down on Ye Feng, making Ye Feng's immortal dragon demon body unable to bear it for a while.

At this moment, Ye Feng immediately understood that this green monster probably had an extraordinary bloodline and could control the power of the elements of heaven and earth in the surrounding mountains and rivers to attack the enemy.

However, Ye Feng possessed the Eye of Heaven and Earth. After the first round of formation attacks, Ye Feng calmed down and quickly saw through the various weak points of this great formation of heaven and earth elements. In an instant, he punched into these weak points one after another, and directly smashed the entire great formation of heaven and earth elements into pieces.

"What?"

Seeing this scene, the green monster of the beast king level not far away immediately widened his eyes, as if he had never expected that the great formation of heaven and earth elements that he had worked so hard to condense was directly broken and shattered by Ye Feng in a short time.

At this time, Ye Feng sneered and said, "Die!"

Boom!

At this moment, Ye Feng rushed forward directly, stretched out two palms that had turned into the claws of the ancestor dragon in an instant, and directly "squeaked" tore the green monster in front of him in half from the middle of the body, instantly killing the opponent.

A beast king, dead!

The beast king fell, and blood splattered all over the primeval forest, making countless evil beasts living in the surrounding primeval forest extremely frightened, trembling, and fleeing here frantically.

After all, the existence of the beast king level is almost the strongest creature in the primeval forest. Being killed by Ye Feng, a human boy, made the entire primeval forest feel great fear.

Boom!

At this moment, Ye Feng did not hesitate at all, and instantly released the Devouring Domain and began to devour the beast king.

The energy of a beast king is terrifying and boundless. The vast blood energy is like a vast ocean, rolling into Ye Feng's Dantian.

Ye Feng's human god realm, which he had just broken through, began to grow wildly in an instant.

"Boom!!"

The energy of a beast king is so abundant that it broke through the bottleneck of Ye Feng's human god realm, and directly broke through to the first level of the earth god realm above the human god realm! !

At this moment, Ye Feng's cultivation directly crossed a great realm without any obstacles.

It must be said that the energy provided by a beast king is indeed terrifying.

After Ye Feng stepped into the earth god realm above the human god realm, a new cultivation realm, he could immediately feel that his strength had increased thousands of times.

At this moment, Ye Feng left the scene without any hesitation.

Because there may be more terrifying existences than the beast king in the primeval forest.

He had such a fierce battle here, and killed a beast king on the spot. This was a huge turmoil for the primeval forest, so Ye Feng had to leave this troubled place as soon as possible.

At this moment, after Ye Feng left the primeval forest, he immediately flew to the southern area of the heaven.

Ye Feng identified a direction and quickly flew towards the place where the Immortal Gate of Longevity was located.

Today, Ye Feng is no longer afraid of some ordinary threats.

So on the land in the southern area of the heaven, Ye Feng did not need to hide his figure at all, and flew directly towards the Immortal Gate of Longevity.

However, when Ye Feng passed a wild mountain in the southern area of the heaven, suddenly a group of more than a dozen strong men wearing various costumes and armor jumped up from the surroundings and surrounded Ye Feng.

The leader was a big man in black armor, holding a tiger-headed sword in his hand. He looked very ferocious and stared at Ye Feng, saying, "Boy, I opened this road and planted this tree. If you want to pass through here, leave some money to buy your way through."

When Ye Feng heard what the other party said, he suddenly laughed and said, "I didn't expect that I would actually meet a mountain bandit who wanted to rob me of my wealth. Haha, it's really interesting."
