Chapter 5431 True Identity

At this time, Ye Feng had such a bold guess in his heart, but he did not say it out loud because it might be true.

If he spoke out, it might cause Leng Rushuang unnecessary trouble.

After all, the dark race is definitely a taboo existence in the minds of all practitioners in the entire heaven, and is recognized as the enemy of the entire heaven.

Although Leng Rushuang may have a very strong sense of belonging to the heaven in her heart, she will not take refuge in the dark race.

But if she really has part of the dark race bloodline, it may really bring a huge crisis to Leng Rushuang.

So at this time, Ye Feng did not reveal this matter, but secretly guessed in his heart.

At this moment, Leng Rushuang looked at his master, seeming to confirm whether this black book was related to his life experience.

The master of the Frozen Temple stared at Leng Rushuang and nodded slightly.

Everything is in silence.

Leng Rushuang's beautiful eyes trembled slightly, remained silent, and put the black book into her storage ring.

At this time, the Holy Lord of the Frozen Temple suddenly spoke up: "This is the only thing your mother left for you. Remember to keep it. It may be of great help to you in the future."

Hearing what the master of the Frozen Temple said, Ye Feng's eyes suddenly showed a look of surprise.

However, Ye Feng didn't say much and remained silent.

At this moment, Leng Rushuang nodded heavily and put the black book into his storage ring.

At this moment, Leng Rushuang looked at Ye Feng, as if Ye Feng had guessed something.

Leng Rushuang looked at Ye Feng with a deeply complex look in her beautiful eyes.

After a long time, Leng Rushuang slowly asked softly: "Ye Feng, do you dislike me for having some relationship with the dark race?"

Ye Feng smiled slightly and couldn't help but said: "I won't dislike you no matter what race you are related to. As long as you are kind and sincere in your heart and will not do bad things, then I will always stand by you." Your side."

Hearing Ye Feng's heartfelt words, Leng Rushuang was moved to tears.

Although Leng Rushuang has always maintained aloofness on weekdays, he has never been too close to others, or even said a few words.

But for Ye Feng, a young man who suddenly broke into her life, Leng Rushuang felt the long-lost warmth and a sense of reliability.

Because Ye Feng's values are very upright and Ye Feng's strength is also very strong, this gives Leng Rushuang a very reliable and warm feeling, which Leng Rushuang has never felt before.

Even the master who adopted her since childhood did not give Leng Rushuang this special feeling of reliability and warmth.

At this moment, Leng Rushuang stared at Ye Feng in front of him, nodded very solemnly, couldn't help but reveal a trace of ruddy color in his beautiful eyes, and said aloud: "Ninth Young Master, thank you for being able to do this. Believe in me and support me."

When he heard the two people talking like this, Ye Feng smiled slightly and said: "A person's background is not important. What is important is what kind of person she can become in the future. This is the most important thing."

Hearing what Ye Feng said at this moment, Leng Rushuang immediately nodded very seriously.

At this moment, the master of the Frozen Temple smiled and said: "Now that you have chosen your own magic weapons, I have done what I can do, and now you have to rely on yourselves. "

Buzz!

After the Holy Lord of the Frozen Temple finished speaking, his figure moved and disappeared.

At this moment, Ye Feng followed Leng Rushuang, leaving the room and walking towards the outside of the Frozen Temple.

At this moment, Leng Rushuang took out two golden tokens from his storage ring.

Each golden token is engraved with the word "Wasteland".

Leng Rushuang said aloud: "Nine Young Masters, these two golden tokens are my qualification tokens for applying to enter the wasteland. You and I each have one token. In this case, we can directly enter the wasteland. "

Hearing what Leng Rushuang said, Ye Feng nodded, and immediately took one of the golden tokens in his hand and placed it in his storage ring.

At this time, Ye Feng did not hesitate. He suddenly looked at Leng Rushuang and said very solemnly: "Since our relationship has reached this point, I don't have to hide it from you anymore. In fact, I am not The Ninth Young Master of the Demon King's Palace of the Great Demon God Sect, my real name is Ye Feng. I come from a cultivation interface that is lower than the heaven. I have cultivated to this day step by step by myself. In fact, I don't know about this matter. It needs to be said, but I think it's better to tell you."

After saying that, Ye Feng revealed his true face and became more delicate and handsome than the Ninth Young Master himself.

Seeing Ye Feng reveal his true identity at this moment, Leng Rushuang was not surprised at all, but said with some relief: "You can only say such words and reveal your true identity if you trust me very much. In fact, I have already guessed your identity. You may not be the ninth young master of the Great Demon God Sect, because the ninth young master of the Demon King Hall in the Great Demon God Sect has never been very outstanding. It is very strange that he suddenly became so powerful. Moreover, the various inheritances and methods you have used have nothing to do with most of the Great Demon God Sect. So I have already guessed that you may not be the ninth young master of the Demon King Hall of the Great Demon God Sect. I think the young master of the Demon King Hall of the Great Demon God Sect may also know this, but he wants to use your strength to consolidate his position, so he has not exposed you."

Hearing Leng Rushuang say this, Ye Feng's eyes showed a look of surprise.

But it is normal to think about it.

The peerless geniuses among the giant forces in the southern region of the heavens are not just powerful in cultivation, but also very smart, so it is normal for them to find some clues about their hidden identities.

In response, Ye Feng just smiled and said: "The world is bustling, all for profit. After going to the wasteland with you and helping you comprehend the secret of the peerless inheritance in your family, I will return to the Great Demon God Sect to fulfill my promise to the young master of the Demon Emperor Palace."

Leng Rushuang nodded, smiled and said: "If there is a chance in the future, I will go with you, and I can help you at that time. After I comprehend the secret of the peerless inheritance in my bloodline, my strength will definitely catch up with your current strength, Ye Feng, and then I will help you wholeheartedly."

At this moment, Leng Rushuang's tone of voice has a hint of love.

Ye Feng also heard the tone of voice, but did not respond much. He just nodded and said, "Let's go directly to the wasteland. Where is the entrance to the wasteland? It should not be in the southern area of our heaven."

Chapter 5432 Fortress

Hearing Ye Feng's question, Leng Rushuang immediately shook his head and said, "The dark world invaded our heaven and formed a buffer zone called the wasteland. Therefore, the wasteland has

many gaps in our entire heaven. For each gap, our heaven has built it into a defensive fortress to prevent the dark races in the wasteland from entering the real interface of our heaven. Therefore, there are dozens of entrances to the wasteland in the entire heaven, but they are all uniformly deployed by the human alliance of our heaven to guard the safety of each entrance. Therefore, in the southern area of our heaven, there are three guard fortresses of the wasteland. We have directly Just go to the nearest one, which is in the southwest area of our Changsheng Xianmen territory. In addition to the strong men in our human alliance, there are also many super strong men from our local Changsheng Xianmen stationed there. "

"Hmm?"

Hearing Leng Rushuang's words, Ye Feng immediately nodded and said, "Since it's so close, it's great. There's no need to travel thousands of miles to the most glorious eastern Shenzhou land in the heaven, and there may be dangers on the road."

Leng Rushuang nodded slightly, flew side by side with Ye Feng, and shuttled through a large area of land in the southern area of the heaven, and finally came to the fortress guarding the wasteland of the Changsheng Xianmen territory.

Ye Feng looked forward and found that a huge mountain appeared in front of him.

In this mountain, there are many huge trees, and it looks like a very ordinary and ordinary forest mountain.

But after Ye Feng's careful perception, he suddenly showed a look of surprise in his eyes.

Because Ye Feng sensed that this huge mountain was shrouded in a very terrifying formation.

Even if Ye Feng had the Eye of Heaven and Earth, he could not crack the mystery of this formation for a while.

It might take a long time to crack this ancient formation.

After sensing all this, Ye Feng's eyes suddenly showed surprise.

There are still very powerful formation masters in the heavens who can arrange such an exquisite formation to protect the gap in the entire wasteland.

At this moment, Leng Rushuang immediately took out a golden token, then looked at Ye Feng and said, "Ye Feng, take out the golden token in your hand, and we can go in directly."

Ye Feng nodded and took out his identity token from the storage ring.

Then the two of them immediately flew forward quickly.

This formation seemed to be able to sense the identity tokens in the hands of the two. After the two approached this formation, they did not trigger the power of the entire formation, and flew directly into the formation safely.

At this moment, Ye Feng followed Leng Rushuang and soon flew to this mountain.

When Ye Feng flew in, he saw a series of steel fortresses stationed in this mountain.

Even the entire mountain was made of a very special and extremely strong metal. It looked very extraordinary and had terrifying defensive power.

At this moment, Ye Feng couldn't help but ask: "Is the entrance to the wasteland in this mountain?"

Leng Rushuang nodded and said: "The wasteland is the buffer zone between our heaven and the dark world. It is a special space. There are many gaps in our heaven. Our entire human alliance in the heaven has built all the gaps into huge fortresses and sent super strong people among the human race to be stationed in each fortress to guard against the dark race that may sneak into the heaven from the wasteland world at any time."

At this time, while the two were talking, they had already landed from the sky and landed on the mountain below.

Swish!

Swish!

At this time, two old men in white robes flew out from the depths of the mountain, stopped in front of the two men, and said, "Are you here to enter the wasteland?"

The two old men in white robes should not be the masters of Changsheng Xianmen, but the old masters of the human alliance stationed in this fortress.

Leng Rushuang nodded immediately, raised the identity token in his hand, and said, "Two seniors, I am a disciple of Changsheng Xianmen. I have been recognized by the Supreme Master of our Changsheng Xianmen, and let us enter the wasteland in advance to train and fight against the dark race."

Hearing what Leng Rushuang said, the two white-robed old men immediately nodded and said: "You two young people are very strong in cultivation. You can indeed enter the wasteland to fight with the dark race. , but each of you is a potential new star among our human race, so don't stay in the wasteland for too long. Come back directly after a period of experience. And the most important thing is that you must remember that thousands of Don't go too deep into the wasteland. This side of the wasteland is connected to our heaven, but the other side of the depths of the wasteland is connected to the home of the dark race, which is the dark world. It is a A place more dangerous and terrifying than the wasteland, all the strong men of the dark race live in the dark world. Among the strong human race in our heaven, even the ancient unparalleled emperors and supreme emperors do not dare to enter the darkness. In the world, I am afraid that only in the ancient legends at Ragnarok, all the super powerful gods in the heaven dared to invade the dark world, but they still failed, so don't go too deep into the wasteland. Earth, because the closer you get to the dark world, the stronger the dark race becomes. The super strong ones in our human fortress will not be able to rescue you in time, and you will most likely fall into it. "

Hearing the reminder from the old man in white robes, Leng Rushuang immediately nodded and said, "Thank you, senior, for the reminder. We will remember it."

At this moment, Ye Feng also nodded slightly and said loudly: "Thank you seniors for the reminder."

The two old men in white robes nodded slightly, and then flew directly into the inner area of the mountain with Ye Feng and Leng Rushuang.

Buzz!

When they entered the interior, Ye Feng immediately saw a huge space vortex like a time and space tunnel, slowly rotating inside the entire mountain.

Two white-haired old men spoke out: "You can directly enter this space vortex and enter the wasteland world through the interface channel."

Chapter 5433: Induction Jade Pendant

At this time, Ye Feng could see that next to this huge space vortex, there were gray-haired old men with a heroic death expression on their faces, and they flew into a space vortex one after another.

These gray-haired old men are not weak in cultivation, they are very powerful. Obviously they should all be very powerful elders of the human race in the world of heavenly cultivation.

However, their lives were coming to an end, so in the last stage of their lives, they entered the wasteland one by one to make their last contribution to the human race in the entire heaven.

At this time, Ye Feng couldn't help but cast an admiring look.

These old and powerful men should all know very well that when they enter the wasteland, there will only be one end, and that is death.

They are very different from Ye Feng who entered the wasteland coldly as frost.

When Ye Feng and Leng Rushuang entered the wasteland, it was just a short-term experience. Although it was dangerous, there was still a way out.

But these old and powerful human beings from major forces or casual cultivators, at the end of their lives, walked into the wasteland solely to use their last strength to fight against the dark race, trying to kill as many people as possible. Kill some dark races, make your last contribution to the entire heaven, and stop the entire dark race from invading the heaven.

At this moment, Leng Rushuang couldn't help but sigh and said: "If it weren't for the seniors of the human race, with their lofty will and firm belief, they would rush into the wasteland one by one without fear of death. Among them, if we continue to kill the dark races, then the entire heaven will not be able to be peaceful until now. "

At this time, Leng Rushuang looked at Ye Feng beside him and immediately said: "Let's directly enter this space vortex."

Ye Feng nodded.

At this time, Leng Rushuang stretched out her white little hand, grabbed Ye Feng's palm, and flew into the space vortex in front of her with Ye Feng.

Buzz!

Following a violent space fluctuation, Ye Feng and Leng Rushuang disappeared into this space vortex.

The next moment, when they opened their eyes, they found that they had left the heaven and arrived in the wasteland.

The wasteland is a very vast space. The sky is dark, there is no sun or moon, and the earth is full of decay and death. It feels like an abandoned place, and every inch of the ground They were all scattered with broken bones or dried blood, which looked creepy.

Obviously, in the buffer zone of the Wasteland, whether it is the heaven or the dark world, there are countless strong people fighting each other here, causing heavy casualties.

At this time, Ye Feng did not hesitate at all, and immediately radiated his soul power to cover the surroundings to prevent danger that might appear at any time.

Leng Rushuang looked at the withered and dead surroundings and the dim world, and felt an endless sense of depression.

Leng Rushuang couldn't help but said: "No wonder the strong men of the human race who entered the wasteland were either dead or injured. There is a withered place everywhere, and there is no power to replenish it. The strong men of the human race come here. , there is really only a dead end."

When Ye Feng heard Leng Rushuang say this, his eyes flickered slightly.

Because this wasteland was invaded by the dark world, the atmosphere of this wasteland is very similar to the dark world. It is full of withered and dead silence, without any vitality, and does not have the rich spiritual energy in the heaven, but only strong The dark aura of the incomparable dark race.

Ordinary human cultivators have no way of absorbing this kind of dark aura, because it is like a highly poisonous thing. They even need to use their skills to prevent this highly toxic dark aura from invading the body and poisoning the cultivators. itself.

But when Ye Feng came to this place, he had no such difficulty at all, because Ye Feng could absorb this poisonous dark aura at any time, refine the dark energy in it for his own use, and replenish his power consumption.

Moreover, Ye Feng discovered that the dark energy contained in these dark auras was very advanced, much more advanced than the power of the demons he encountered in heaven.

Ye Feng's eyes suddenly lit up. These dark demons, including these dark auras, are indeed the dark races emanating from the dark world.

Although they are inferior races expelled from the higher cultivation dimension, they are from the higher cultivation dimension after all, so the dark aura they release is naturally much higher than that of the heaven.

Ye Feng absorbed it a little at this time and could immediately feel that his skill was increasing rapidly.

This made Ye Feng's eyes suddenly show a look of surprise.

It seems that this wasteland, which makes all human cultivators feel very scared, is simply an excellent place for cultivation for myself.

Because the dark air and dark energy in it are very advanced and pure, after Ye Feng absorbs it, he can greatly increase his skill.

At this time, Ye Feng did not reveal the information that he could absorb the dark air and dark energy here to strengthen his cultivation skills, because this was really too shocking.

At this moment, Ye Feng just looked at Leng Rushuang beside him and said: "You can directly practice in this wasteland. If there is any danger, I will come out to help you at any time. of."

Leng Rushuang nodded immediately and said, "Ye Feng, you don't have to follow me for the time being. If you keep following me or hiding around, I will feel dependent on you. I have no way to comprehend the profound meaning of the peerless inheritance in my bloodline in the life-and-death struggle. So you just need to move around near me. Even if I really encounter any danger, I should be able to hold on for a while. It's okay to wait for you to come and rescue me. As long as I don't go deep into the deep area of this wasteland, the danger should not be great."

When he said this, Leng Rushuang suddenly took out a light green jade pendant from his storage ring, and then broke the jade pendant directly into two halves.

At this time, Leng Rushuang handed one half of the jade pendant to Ye Feng and said, "Take this half of the jade pendant. You can contact the other half of the jade pendant in my hand at any time through the jade pendant. The two jade pendants can sense each other's positions and transmit sounds and information."

Chapter 5434 Two or Three Times

Hearing Leng Rushuang's words, Ye Feng's eyes immediately showed a look of surprise, as if he didn't expect Leng Rushuang to be so bold, but also very determined, to train alone in this wasteland.

At this moment, Ye Feng naturally respected the other party's choice, and immediately said: "Okay, then I will take this half of the jade pendant and wait for you to send a distress signal before rushing over."

"Yeah."

Leng Rushuang nodded immediately, and said with a smile: "Ye Feng, you can also have a good experience in this wasteland next, which will also be of great benefit to your cultivation."

"Okay."

Ye Feng nodded, and then reminded: "If it really comes to a life-and-death moment, don't hold on, notify me at any time."

Leng Rushuang nodded, then jumped up and left the place directly.

At this moment, Ye Feng looked at the half of the jade pendant in his hand and saw that the surface of this half of the jade pendant was emitting a faint light.

Obviously, as long as they can keep in contact with Leng Rushuang, the two halves of the jade pendant will emit a faint light to each other, indicating that they are still within the effective range.

With this thought, Ye Feng was relieved and flew in other directions around him to look for opportunities.

For Ye Feng, this wasteland is definitely a natural paradise, because the energy and everything in it are much more advanced than the heaven, after all, they are all brought by the dark race from the higher cultivation dimension.

So there were many super figures in the heaven before, who were originally ordinary practitioners, but because they found the higher inheritance and the strongest magic weapon brought by the dark race from the higher cultivation dimension world in the wasteland, they were reborn and became extremely powerful. After returning to the heaven, they directly grew into a giant-level existence in the heaven.

At this moment, Ye Feng exuded his soul power and quickly spread it around, trying to find the opportunities that may exist around him.

Since he was here, Ye Feng naturally had to make good use of this opportunity and see if he could get some good things.

Boom!

Just when Ye Feng passed by a deserted place, the whole land suddenly exploded.

A humanoid monster with two huge black wings on its back suddenly flew out from the crack under the ground. Its body was covered with dense black scales. It stretched out two hands. No, they were

not hands, but claws that seemed to be made of black metal. It grabbed Ye Feng fiercely, as if it wanted to tear Ye Feng in half in an instant.

"Get out of here!"

Ye Feng reacted in an instant and immediately punched him hard.

But at this time, this monster, who was obviously from the dark race, immediately smiled coldly, his eyes emitting scarlet light, revealing a mouthful of silver fangs, and said: "You are too young, boy from the human race in the heavens. This is your first time in the wasteland. How dare you fight against us dark races with your body strength? You are too naive. Don't you know that the bodies of our dark races are many times stronger than the bodies of your heavenly creatures? You heavenly creatures are just ants of low latitudes...ah!!"

Crack!

However, at this moment, before the voice of this black human-shaped bat-like dark race completely fell, the moment Ye Feng's fist touched his claws, he actually smashed his claws into pieces in an instant.

"Ah!!"

At this moment, this dark race suddenly screamed in pain, obviously feeling severe pain, because his claws were all broken by Ye Feng's fist.

At this time, the dark race no longer had the contempt it had before, but stared at Ye Feng in horror, and couldn't help but said in horror: "How could you have such a powerful body, a human boy from the heaven? How is this possible?"

But at this time, Ye Feng didn't hesitate at all, but fully exploded his immortal body of the gods.

Boom!

Ye Feng was covered with golden light, like a golden god, with a terrifying aura like the abyss and the sea surging on his body, and he pressed directly towards the dark race with broken claws in front of him.

"This... this kind of power is... the gods??"

At this moment, the dark race immediately said in horror: "This is impossible! How could the legendary gods appear in the low-level cultivation dimension world! This is impossible!!"

At this time, Ye Feng's eyes showed a look of surprise, as if he didn't expect that the dark race could see his physique in an instant, belonging to the immortal body of the gods.

At this moment, Ye Feng's eyes showed no mercy, and he continued to press towards the dark race.

"No!!"

In the horrified eyes of the dark race, Ye Feng directly burst out with powerful strength and killed the dark race instantly.

At this moment, Ye Feng did not hesitate at all and directly released the Devouring Domain to devour the dark race completely.

"Buzz!"

At this moment, Ye Feng immediately sensed that a huge amount of energy was immediately injected into his body's Dantian, causing Ye Feng's skills to grow rapidly.

However, Ye Feng's current cultivation is at the tenth level of the Earth God Realm, and he is at a big bottleneck. Therefore, he only devoured a not-so-powerful dark race, which did not allow Ye Feng to directly break through the current bottleneck of cultivation. It only increased his power a lot, but it also made Ye Feng very satisfied, because Ye Feng's power increased a lot.

Ye Feng roughly estimated that the dark race and the heavenly human race with the same cultivation level, the dark race's power energy is two or three times deeper than the heavenly human race.

This made Ye Feng a little emotional. These dark races are indeed from the higher cultivation latitude. As expected, their life level is very high and their energy level is very strong.

However, this is definitely a huge benefit for Ye Feng, because after killing these dark races, they will bring Ye Feng several times the energy, making Ye Feng's cultivation more effective.

At this moment, Ye Feng did not hesitate at all. After devouring this dark race, he left the scene directly.

If this scene was seen by other dark races, they would probably be terrified, because all along, it was them, the dark race, that devoured the human race to strengthen their own blood and energy. But now, a human race has appeared who can devour them, the dark race, and strengthen their strength. This is simply going against the will of Heaven.

Chapter 5435: Advanced Human Race

Ye Feng knew very well that this time his chance to enter the wasteland was very rare, and time was limited. Naturally, he wanted to find as many opportunities as possible in this black land, devour more dark races, and make contributions to the entire human race.

At this time, Ye Feng continued to emit his soul power, covering the surroundings, trying to explore whether there were other opportunities or other dark races around.

However, after searching for a while, Ye Feng found that there were indeed many other dark races active around, but most of their cultivation auras were basically weak, or similar to his own.

So after Ye Feng killed them, he actually didn't get much energy, which made his power increase very slowly, and he couldn't break through the current bottleneck for the time being.

This made Ye Feng quite anxious. It seemed that the strength of the dark race in this area where he was was too weak. It seemed that he had to go deeper into this wasteland.

So Ye Feng thought for a moment and flew directly to the deeper area of the wasteland.

Because the deeper the wasteland, the stronger the dark demons will definitely be.

Ye Feng did not go too deep into the wasteland, because if he went too deep, he might lose the connection with Leng Rushuang who was undergoing trials in other places.

So Ye Feng kept holding the half of the jade pendant that Leng Rushuang gave him in his hand. As long as the two jade pendants could still sense each other, it meant that Ye Feng had not left the effective range where the two jade pendants could sense each other.

At this moment, as Ye Feng continued to go deeper, the land of the entire wasteland became darker and darker. The land was stained with deep black matter. It looked like every inch of the land was covered by demonic energy, full of a terrifying and poisonous feeling, as if every inch of the land was full of dark and poisonous energy.

At this time, Ye Feng still exuded his soul power and covered the surroundings, wanting to find the powerful dark race that was alone.

Because before Ye Feng came to the wasteland, someone had reminded Ye Feng that a large part of the dark race in this wasteland acted in groups.

Like the lone dark races that Ye Feng killed before, they were generally weak. Some dark race teams were unwilling to take these weak dark races with them, so they often acted alone.

So the lone dark races that Ye Feng was looking for before were not very strong.

However, Ye Feng did not dare to challenge a particularly powerful dark race team alone, because that was no different from seeking death.

Ye Feng now exuded soul power, wanting to find the lone powerful dark race that he could kill and devour.

While Ye Feng was silently exploring, suddenly Ye Feng's soul power keenly sensed an inexplicable energy fluctuation that was radiating from a certain direction.

At this time, Ye Feng's eyes moved immediately, and he immediately flew quickly in that direction.

For Ye Feng, now in this wasteland, the most important thing is to improve his cultivation skills as much as possible.

As for if Leng Rushuang encountered an irresistible danger, she could always pass information to him through the jade pendant she carried with her, so Ye Feng was not worried. He just had to keep an eye on whether there was any distress message from Leng Rushuang in the jade pendant.

Swish!

At this time, Ye Feng quickly flew towards the direction of the energy fluctuations he sensed around him.

Soon Ye Feng arrived at his destination.

A huge black mountain appeared here.

And on this black mountain, there was a big black iron hammer standing at the top of the mountain.

At this moment, two strong men from the dark race with scales all over their bodies were fighting for this big iron hammer.

Seeing this scene, Ye Feng's eyes suddenly showed a look of surprise, as if he had not expected that he would encounter a fight within the dark race.

It seems that the dark race is just a general summary. The dark race is divided into many other small races, such as the dark race with two black wings on its back that Ye Feng had encountered before, and other dark races are all in different forms.

At this moment, the black hammer that the two dark races are fighting for should be an extremely powerful high-level treasure.

At this moment, Ye Feng can sense that the cultivation aura of these two dark races is nearly three or four realms higher than his own.

You know, the dark race's own combat power is many times stronger than that of the human race of the same realm.

So Ye Feng did not show up directly for a while, but hid in the dark to see if the two dark races could kill each other and take advantage of it.

But suddenly at this moment, one of the dark races suddenly looked in the direction where Ye Feng was hiding and said, "Someone wants to reap the benefits in secret."

At this moment, another dark race fighting with this dark race immediately flew towards Ye Feng's direction and said coldly, "It seems that the human cultivator in the heaven dared to run to such a deep area in our wasteland. Let's kill this human cultivator in the heaven first, divide his flesh and blood, and then we will fight for the final ownership of this dark hammer."

Another dark race immediately nodded and charged in Ye Feng's direction.

Of these two dark races, one is a dark race with a leopard head, and the other is a snake head with dense bone spurs growing on its back.

The cultivation strength of the two dark races was very strong. They rushed in front of Ye Feng in an instant and wanted to deal with Ye Feng.

Boom!

At this moment, Ye Feng knew that he was exposed, so he no longer wasted time and directly burst out his extremely powerful cultivation aura, activating the power of the immortal body of the god with all his strength.

boom!

At this moment, Ye Feng's whole body was covered with golden light, and he punched out with two fists.

Two golden fists collided with two dark races respectively, and a terrifying roar suddenly erupted on the field, resounding throughout the surrounding land, and the ground immediately shattered quickly.

The next moment, Ye Feng couldn't help but take several steps back.

But the other two dark races that collided with Ye Feng suddenly took dozens of steps back.

"What?"

After seeing all this, the eyes of these two strong men from the dark race suddenly widened.

The leopard-headed dark race couldn't help but said: "Are you really a human race in the heaven? How do you feel that you come from the higher cultivation dimension we were in back then? Only in the world of that higher cultivation dimension can someone be born with someone like this This is impossible for the advanced humans with terrifying physiques!"

Chapter 5436 This must be an illusion

"Higher human race?"

At this time, Ye Feng heard what the two dark races in front of him said, and his eyes suddenly showed surprise.

It seems that there are also human beings in the world of higher cultivation dimensions, and they are much stronger and more powerful than the humans in the lower cultivation dimension worlds such as heaven.

At this time, Ye Feng also understood that these dark races called themselves high-level humans, apparently because of their immortal bodies.

Ye Feng also knew very well that the Celestial Clan actually came from the legendary world of higher cultivation dimensions, and the immortal body of the Celestial God that the Celestial Clan finally cultivated was naturally very powerful.

This is also the reason why Ye Feng has always been so powerful in combat.

That is, relying on his extremely strong and strong body, Ye Feng has super combat power that can crush practitioners of the same level, or even several realms higher.

Ye Feng knew very well that once the Immortal Body of the Celestial God Clan was completed, it would be immortal. At that time, just relying on the power of the body would be enough for Ye Feng to compete with the legendary god-level existence.

Of course, this god refers to the god in the heaven. If it is a god-level existence in the world of advanced cultivation dimensions, then Ye Feng will definitely not be able to compete.

However, Ye Feng also knew very well that the Celestial Clan must have had their own reasons for living in the lower cultivation latitude of the heaven.

Perhaps the Celestial Clan once encountered a huge disaster in the world of advanced cultivation dimensions.

Just like the dark races that Ye Feng faced at this time, they were expelled from the world of advanced cultivation dimensions by other extremely powerful races or forces, and wandered into the dark world, and then wanted to pass through the wasteland and invade the heaven.

At this moment, Ye Feng was still very happy. If he had not fused with the Immortal Bone of the God, and allowed his body to evolve and develop in the direction of the Immortal Body of the God, it is estimated that his current combat effectiveness would definitely not be so strong, let alone to contend with these dark races from the world of advanced cultivation dimensions.

Ye Feng didn't think too much at this moment, but smiled coldly and said: "You two dark races will die in my hands today."

Boom!

At this moment, Ye Feng unleashed his Immortal Body of God with all his strength, and instantly charged towards the leopard-headed dark race, punching out hard.

At this moment, this leopard-headed dark race immediately raised his hands toward the sky.

"Boom!"

Almost at this moment, the entire dark air and dark energy between heaven and earth was pulled over by his hands, forming a huge dark vortex, which actually blocked Ye Feng's golden fist, and even It also bounced back, making Ye Feng couldn't help but take a dozen steps back.

"Um?"

This made Ye Feng's eyes suddenly show a look of surprise, and he said: "Oh? I didn't expect that your dark race in this wasteland can actually mobilize all the dark atmosphere and dark energy in the entire world."

Hearing what Ye Feng said, the leopard-headed dark race immediately burst into laughter, with a cruel smile in his eyes that exuded scarlet light, and said loudly: "What you are saying is nonsense, the wasteland has been destroyed by us The dark energy of the dark world has been invading for so many years and has long been assimilated by our dark world. Therefore, even in the wasteland, we can mobilize the dark energy between heaven and earth for our own use. You humans in the heavenly world enter the wasteland. In the land of wasteland, we will naturally be suppressed by us, because when you humans in the heavenly realm enter the wasteland, you are simply unable to compete with this dark energy. The dark energy of our dark race is very harmful to the creatures of your heavenly realm. , it is definitely a highly poisonous energy, and as it waxes and wanes, you are naturally at a disadvantage."

At this moment, another snake-headed dark race immediately flew to the other side of Ye Feng, smiled coldly and said: "Today you, a human boy, will definitely die. Although you come from the heaven, you have the body of a high-level human race. It seems that you have a great secret. After we kill you and steal the secrets from you, we will definitely be able to evolve our life levels, because I can feel this golden power of yours. It is absolutely very powerful. Mysterious and advanced, I'm afraid they are all powerful races in the advanced spiritual dimension world where we were expelled."

At this moment, after the snake-headed dark race finished speaking, it also used the dark energy in the surrounding heaven and earth to form a dark vortex. Together with the leopard-headed dark race just now, it trapped Ye Feng in the middle area, leaving Ye Feng There is no escape from the wind.

The leopard-headed dark race from before immediately gave a cruel smile, stared at Ye Feng, and said loudly: "Young boy from the human race, you are in a dead end. It is impossible to escape, because with your own strength, you cannot compete with the entire world. of dark power."

But the moment the leopard-headed dark race finished speaking, Ye Feng suddenly smiled, looked at the two dark races around him coldly, and suddenly said: "You can control this wasteland. Don't I know the dark energy and dark atmosphere between heaven and earth?"

Boom!

Almost at this moment, Ye Feng did not hide it and directly displayed his talent of being able to control and integrate thousands of attribute powers in the world.

Ye Feng stretched out his hands and gathered the dark energy between the heaven and earth around him. The dark vortex controlled by the two dark races was instantly disintegrated by Ye Feng, because Ye Feng could also control the dark energy and dark energy between heaven and earth.

"What?"

Seeing this scene, the two dark races, who were originally full of playful expressions, suddenly became extremely shocked.

Especially the leopard-headed dark race just now, couldn't help but said in horror: "How is this possible?? You are obviously a human race in the heaven, but you have the body power of a higher human race in the higher cultivation dimension world, and now you can control the dark energy and dark power of our dark race. How is this possible! This is absolutely impossible! This must be an illusion!!"

At this moment, the leopard-headed dark race can be said to have seen the most impossible thing in the world.

The dark energy and dark energy that their dark race is proud of can actually be mobilized and used in front of Ye Feng, a young man from the heavenly human race.

This is absolutely a terrifying thing for the entire dark race.

This means that Ye Feng has changed from a weak party to an advantageous party in the wasteland.

The advantage of the dark race over the human race in the heavens has completely disappeared!

At this moment, the snake-headed dark race not far away immediately said in horror: "Leopard head, hold this weird human boy, this situation is too terrible for our entire dark race, we must report it to the upper echelons of our dark race! I will report it now, hold this human boy!"

Chapter 5437: Strange Magical Weapon

At this time, these two dark races were completely panicked.

Because they knew that Ye Feng's ability was so incredible that it was not something that ordinary people could imagine.

You know, their dark race has also seen many extremely powerful human race experts. There were even the top human race powerhouses in the heaven who gathered together and broke into the dark race's lair in the dark world, stirring up trouble. Everything turned upside down.

These dark races have seen it all and are not afraid.

Because the vitality of the dark race is very tenacious, in the depths of the dark world, the dark race's lair can also hatch a steady stream of dark races, increasing their combat effectiveness and members.

But Ye Feng's ability to directly assimilate the dark air and dark energy that their dark race is proud of is really terrifying.

Because this means that Ye Feng can become the gravedigger of the entire dark race.

At this moment, this snake-headed dark race is naturally very scared.

Although Ye Feng's current cultivation level is not very powerful, and he is still far away from the top powerhouse of the human race in heaven, Ye Feng's unique ability to fuse with dark energy is so special that it is incredible. .

Therefore, the first thought of this snake-headed dark race is to quickly report to the upper-level figures of the dark race, and this extremely special celestial human race boy must be completely eliminated.

At this moment, the snake-headed dark race quickly ran towards the distance.

The leopard-headed dark race not far away rushed towards Ye Feng in an instant, stretching out two black leopard paws to block Ye Feng.

But at this moment, Ye Feng knew that the situation was urgent and he could not let the snake-headed dark race escape. Otherwise, if his special ability was exposed, he would probably become the public enemy of the entire dark race.

Even if he returns to the heaven, I am afraid that he will attract the most powerful person from the dark race to secretly destroy him.

So at this moment, Ye Feng knew very well that he had to kill the snake-headed dark race who wanted to leak the information.

At this moment, seeing the leopard-headed dark race rushing towards him and trying to stop his actions, Ye Feng did not hesitate and directly released the black turtle shell.

This basalt turtle shell is a super treasure that Ye Feng chose from the peerless treasure room in the Frozen Temple of Immortal Immortal Sect. It is the turtle shell left by an extremely powerful basalt beast in the past. It has super defensive power.

At this moment, Ye Feng released the basalt turtle shell. Ye Feng's body was immediately covered with a huge layer of basalt turtle shell, which instantly blocked the attack of the extremely powerful leopard-headed dark race.

Immediately, Ye Feng looked at the snake-headed dark race escaping in the distance, and directly released another powerful magic weapon he had chosen before, the copper coin dagger.

This short sword is completely made of copper coins interspersed with red threads. It is very special and has a very strange shape.

The first and strongest magic wave that Ye Feng sensed at that time was emanating from this copper coin dagger.

So Ye Feng knew very well that this copper coin dagger was definitely a super powerful magic weapon, but Ye Feng had never had the chance to use it.

So at this moment, Ye Feng directly used this copper coin dagger.

boom!

The moment Ye Feng activated the copper coin forging, the copper coin dagger suddenly passed through the void, like a bolt of lightning, directly piercing the head of the snake-headed dark race that was escaping not far away. In an instant Killed it.

"What?? So powerful?"

At this moment, when the leopard-headed dark race who was resisting Ye Feng saw this scene, their eyes immediately showed deep astonishment, and they ran away frantically.

Because Ye Feng's magic weapon is so terrifying, it can pass through the void in an instant, regardless of distance.

This kind of magic weapon is really terrible, it can kill people invisible.

At this moment, Ye Feng himself was shocked. He couldn't help but said in surprise: "I didn't expect this copper coin dagger to have such powerful power and terrifying speed. No wonder the magic weapon emanating from it fluctuates. The most powerful and violent, it turns out that this copper coin dagger is really a super magic weapon. "

At this moment, Ye Feng was naturally very happy, and he quickly continued to control the copper coin dagger and stabbed the other dark race with the leopard head that escaped.

But at this moment, this leopard-headed dark race immediately released its own magic weapon.

It was a set of black armor that instantly covered his whole body.

But in the next moment, with a "plop" sound, the copper coin dagger emitted a strange red light, directly piercing his armor, and then pierced the entire body, instantly killing the leopard-headed dark race.

"So strong?"

Ye Feng's eyes suddenly showed surprise when he saw that this copper coin dagger had such terrifying lethality.

This copper coin dagger is really an extremely powerful magic weapon.

If I had known and used it earlier, I wouldn't have needed to fight until now.

But at the next moment, before Ye Feng could be surprised, two extremely powerful dark races were wiped out effortlessly.

But at this moment, Ye Feng suddenly saw two dark races that were killed, and their entire bodies suddenly shrank down, as if they had lost all their life essence and blood energy in an instant.

"Huh?"

Seeing this scene, Ye Feng was about to devour, and suddenly his eyes showed a look of astonishment.

Then Ye Feng looked at the copper coin dagger he controlled, and suddenly understood something.

"Could it be that this copper coin dagger drained the life essence of these dark races at the moment of killing them?"

At this moment, Ye Feng thought of this possibility, and immediately controlled the copper coin dagger to fly in front of him.

At this moment, after the copper coin dagger killed the two dark races, it was all emitting a strange red light and full of blood.

Obviously, the bodies of the two dark races just now shrank down instantly, and it was definitely this copper coin dagger that took away their life essence.

Ye Feng stared at the copper coin dagger in front of him, and suddenly felt that this copper coin dagger was probably more weird and terrifying than he had imagined.

However, although the life essence of the two dark races was absorbed when they were killed by the copper coin dagger, the dark cores were finally bred in the bodies of the two dark races, containing the essence of the two dark races' skills.

Ye Feng directly began to devour the two dark cores.

Ye Feng has devoured and killed a lot of dark races during this period.

So with the energy of the dark cores of the two dark races, Ye Feng's cultivation momentum finally broke through, and finally broke through the bottleneck of the tenth level of the earth god realm, and stepped into the half-step soul realm above the earth god realm!

At this moment, Ye Feng's cultivation broke through, and he was naturally very happy.

However, at this moment, Ye Feng stared at the copper coin dagger in front of him, thinking that although this was an extremely terrifying magic weapon, killing people invisibly, and indestructible, with amazing destructive power, he still had to use it with caution.

Because although this copper coin dagger can quickly solve powerful enemies and solve troubles for himself, this copper coin dagger itself also took away the life essence of the creatures he needed most, it seems that he still has to use it with caution.

At this moment, Ye Feng put this strange copper coin short sword into his storage ring, and then looked at the dark hammer on the mountain not far away.

Just now, the two dark races were fighting for the weapon of this extremely powerful dark race. Ye Feng naturally wanted to get this dark hammer because it must be very powerful.

Although Ye Feng is a human, he can accommodate the power of thousands of attributes in the world, so Ye Feng, as a human in the heaven, can completely use the weapons of the dark race.

Chapter 5438 Dark Hammer

At this time, Ye Feng naturally did not hesitate at all, and flew directly to the top of a mountain not far away.

A huge black iron hammer appeared in Ye Feng's eyes.

At this time, Ye Feng could see that the surface of this black iron hammer was also engraved with densely packed dark race characters.

Ye Feng could not understand these characters, but Ye Feng felt that this black iron hammer was definitely much more powerful than he imagined, otherwise, it would not cause a fight between two dark race masters with such high cultivation.

At this moment, Ye Feng no longer wasted time, and directly landed from a high altitude and landed on the black iron hammer.

Then Ye Feng stretched out his hand and touched the surface of the black iron hammer, inputting his mana, wanting to sense what level of magic weapon energy contained in this black iron hammer.

However, just when Ye Feng was about to refine this black iron hammer, suddenly this dark hammer burst out with a terrifying will power.

Buzz!

The next moment, a shadow of a black giant with a height of tens of thousands of meters suddenly burst out from the Dark Hammer and condensed in the sky, with a terrifying sense of majesty and power.

At this time, Ye Feng did not hesitate at all, and immediately burst out his soul power, and a soul giant condensed behind Ye Feng.

At this moment, the shadow of the dark giant's will condensed in the Dark Hammer stared at Ye Feng directly, and said coldly: "Who are you, kid? I can sense that your life source is not from our dark race. How can you refine my life treasure Dark Hammer?"

At this time, Ye Feng smiled faintly and said slowly: "It doesn't matter who I am. What matters is that this Dark Hammer must become mine."

At this moment, Ye Feng's words were very decisive and domineering.

At this moment, Ye Feng was too lazy to talk nonsense. He was a powerful soul master and was not afraid of the shadow of will in this so-called magic weapon.

So at this moment, Ye Feng did not hesitate at all, and immediately burst out the power of his soul giant, rushed forward at once, and fiercely attacked the will phantom condensed in the dark hammer, and directly beat the opponent to death.

Obviously, the will phantom condensed in the dark hammer is not as powerful as imagined.

But the most important thing is that Ye Feng himself is a soul master, with his own soul giant, which has extremely powerful damage to enemies in the soul state.

You know, every time Ye Feng kills an enemy, he can not only devour the enemy's blood and energy to improve his own cultivation skills, but also some soul fragments left after the enemy's death, Ye Feng's devouring field can also directly devour and strengthen his soul power.

So all along, Ye Feng's soul power has been slowly growing.

Now, Ye Feng's soul power is already very huge, enough to deal with those will phantoms that are not too powerful.

So at this time, after Ye Feng destroyed the will phantom of the dark race strongman in the dark hammer, he could directly refine the dark hammer without any hindrance.

As Ye Feng was refining, he suddenly discovered the power of the magic weapon contained in the Dark Hammer, which was indeed more terrifying and huge than he had imagined, and Ye Feng's eyes suddenly showed a look of amazement.

This Dark Hammer, which caused the masters of the two dark races to fight for, was indeed an extremely powerful magic weapon.

Moreover, Ye Feng could feel that the Dark Hammer itself was definitely an extremely ancient magic weapon. It was not necessarily the magic weapon refined by the Will Phantom just now. It might be the magic weapon that the Will Phantom just now accidentally obtained during the practice process.

The true identity of this Dark Hammer was probably more complicated than he had imagined.

At this moment, Ye Feng did not hesitate at all, and immediately picked up the Dark Hammer in his hand, and then fully stimulated the power of the Dark Hammer.

Boom!

As Ye Feng input his own mana into the Dark Hammer, the Dark Hammer suddenly burst out a dazzling black light.

Then the entire Dark Hammer began to expand rapidly in Ye Feng's hand, and expanded directly to a height of tens of thousands of meters, like a black ancient demon mountain, with a terrifying sense of oppression.

Ye Feng waved the Dark Hammer in his hand, just like a god moving a towering Dark Demon Mountain, and in an instant, he could shatter the land of tens of thousands of meters.

Seeing this terrifying destructive power, Ye Feng's eyes immediately showed surprise.

I didn't expect that I could get such a powerful treasure just after arriving in the wasteland. It can be said that I was very lucky.

At this time, Ye Feng naturally carried the Dark Hammer on his back and could use it at any time.

Then Ye Feng left the scene and explored other places.

Before leaving, Ye Feng paid attention to the jade pendant in his hand and found that there was no signal for Leng Rushuang to ask for help in it, and the jade pendant still emitted a faint light, which

meant that Leng Rushuang was not in danger at the moment, and the two were still within the effective distance.

At this moment, Ye Feng was relieved and continued to explore the surroundings.

Just when Ye Feng had just left the place, he suddenly heard a shout of killing coming from not far away.

"Huh?"

Ye Feng's eyes moved, and he immediately flew quickly in that direction.

When Ye Feng flew to the direction where the shouting and killing came from, a look of surprise suddenly appeared in his eyes.

Because Ye Feng saw that an ancient city appeared not far ahead.

This ancient city was completely made of black stone, and the surface was engraved with the words of the ancient dark race.

Seeing this, Ye Feng immediately understood that this ancient city should have been built by the dark race.

Although this is a wasteland and has not yet entered the dark world, there are many dark races active in the wasteland, and it is very normal to build a temporary ancient city.

After all, the dark race ran out of the dark world and entered the wasteland, wanting to invade the entire heaven, but they couldn't succeed in the invasion for a while, so they temporarily established their own foundation and base camp in the wasteland as a bridgehead to continuously erode and attack the heaven, so the entire wasteland is indeed built with large and small cities of the dark race.

Ye Feng's luck is still very good, he didn't expect to encounter a dark city so soon.

Chapter 5439: Moths to the Flame

At this moment, when Ye Feng came to this city, he immediately saw several elders of the human race, exuding bright divine light, frantically attacking this dark city.

The attacks of these powerful elders were simply desperate charges, which made Ye Feng feel a little emotional.

These powerful elders of the human race should have reached the end of their lives and entered the depths of this wasteland to kill and destroy the various cities built by the dark race as much as possible to reduce the pressure on the heaven.

Uh-huh!

At this moment, Ye Feng naturally didn't hesitate and rushed over immediately.

When Ye Feng rushed outside the city, he saw a total of three powerful elders, two men and one woman. Each of them was old, with gray hair and many wrinkles.

But the power they unleashed was extremely powerful, a dozen levels higher than Ye Feng's current level of cultivation.

It can be seen from this that these three elders are probably famous masters in the heaven. They were also extremely powerful young talents back then. Now when they are about to die in their old age, their life span has come to an end and they have entered this wasteland. In this land, he must burn out his last vitality to fight to the death with these dark races, kill as many dark races as possible, and relieve some pressure on the new generation of humans in the heaven.

Thinking of this, Ye Feng couldn't help but cast an admiring look.

These elders who are not greedy for life and fearful of death, and who spend the last bit of their lives for the safety of the heavens, are worthy of admiration. They are heroes among the human race.

Even though many people don't know their names, where they come from, or where they died.

But now that Ye Feng encountered him, he naturally wanted to come to the rescue.

"boom!"

At this moment, Ye Feng burst out with his incomparable power, rushed to the side of the three seniors, and started to attack the city.

"What?? Why is a young man coming?"

At this time, among the three powerful elders, an old man wearing black armor immediately stared at Ye Feng.

This old man wearing black armor is very tall and towering. He was obviously a practitioner who cultivated the power of the body back then. Although he is now very old, his life is about to come to an end, and his blood and energy are about to dry up, he is still It gives people a feeling like a lion.

At this time, Ye Feng smiled slightly and said aloud: "I come from the Immortal Sect in the southern area of the heaven. This time I entered the wasteland for training, but I accidentally encountered several seniors who were attacking. This is a city of dark races, so the younger generation will naturally do their part."

Hearing what Ye Feng said, the old man in black armor immediately sighed and said: "Young people like you shouldn't come here. Even if you are practicing in the wasteland, you can't do it." You shouldn't join us, because our attack will most likely attract the attention of other extremely powerful dark races around us, and we may be wiped out at any time."

After the black-armored old man finished speaking, an old woman in a purple dress among the three people must have been a peerless and beautiful woman back then. Even now, even though she is old, she can still see the peerless look in her eyebrows. Style.

The old woman in a purple dress couldn't help but said: "Young man, get out of here quickly. If you help us, you will most likely fall into extreme danger, and your cultivation level is higher than ours." The difference is too big. I'm afraid your attack won't be of much help to us. I don't want to see the younger generation of our heaven just fly into the flames and die here. The three of us are already old. Life is coming to an end and I have nothing to worry about, so I am so bold to attack a city of a dark race. "

Among the three people, the last old man was wearing a Taoist robe. He looked like a child with white hair and a fairy-like demeanor.

He couldn't help but said: "Yes, young man, hurry up and get out of here. We are fighting here like moths to the flame. This is our mission, not the mission of you young people. Of course, maybe you can leave later." At the end of life, when we become old, we will come here like moths to the flames, just to give our human race in heaven a breath of relief."

Hearing these three elders persuading him to leave, Ye Feng immediately smiled and said: "Three seniors, there is no need to say more, I will definitely not stand idly by, and my strength is really not as good as you think. So weak."

boom!

Almost at this moment, Ye Feng did not hide it, and directly burst out his immortal body of the god, and displayed the immortal body of the dragon demon.

At this moment, in attacking the city of the dark race, Ye Feng may not be able to do much by relying on his own body strength.

So at this time, Ye Feng did not hesitate and directly used the dragon demon's immortal form.

Boom!

At this moment, under the astonished gazes of the three elders, Ye Feng's whole body expanded rapidly, directly expanding into a majestic dragon demon body with a height of tens of thousands of meters, with the head of an ancient ancestral dragon. The towering body of the demon giant and two large golden dragon claws.

Ye Feng transformed into such a powerful and towering form, and immediately became like a war machine, charging crazily towards the city of the dark race below.

"Boom!!"

At this moment, Ye Feng relied on the terrifying destructive power and impact force of his dragon demon body to smash the entire dark race's long-defeatable city into pieces in an instant, and a huge gap was forcibly knocked out.

"Good!"

Seeing this scene, the human elder in black armor laughed and said, "Sure enough, each generation is stronger than the previous one. There is such a genius among our heavenly human race, and his strength is so strong. It is really lucky for our heavenly world."

The old woman who persuaded Ye Feng to leave just now couldn't help but nodded at this moment, with a look of amazement in her eyes, and said, "Since our human descendant is so determined to help us, and he does have extremely powerful strength, almost as strong as us, and even stronger than us in some aspects, then we will fulfill his wish and attack this dark city together, and directly wipe out this dark city from this territory."

"Good!"

The third human elder in Taoist robes and immortal style also nodded.

He saw a floating tool in his hand, and waved it forward, directly waving out a very heavy river of sand. Every grain of sand in this river of sand seemed to have a huge gravity, so heavy that it immediately crushed the city wall that had already had a gap.

Then, the three old strong men of the human race rushed into the dark city in an instant.

Chapter 5440: Heaven's Luck

At this moment, Ye Feng turned into the body of a dragon demon. He had already passed through the gap of the previous impact and entered the city of the dark race. He was killing the dark race in the city.

The dark races in these wastelands are all very cruel. As long as they see human beings, they will kill and devour them as food.

Therefore, the human race and the dark race in the wasteland could be said to be enemies when they met, and they became extremely jealous and began to kill each other.

Each of the three elders of the human race has extraordinary abilities and strong fighting power, so their killing methods are very terrifying.

The dark race in this dark city couldn't stop the aggressive and violent attacks of the three powerful elders of the human race, and most of the dark race were wiped out in an instant.

At this moment, Ye Feng turned into a giant dragon demon body, and was also crushing each dark race quickly.

boom!

Suddenly at this moment, a terrifying aura suddenly rushed out from the dark city.

It was a very special dark race. It was tall and towering, more than three meters tall. It was covered with dark golden armor and looked very ferocious.

This dark race is obviously very special and powerful, and should be the top master in the dark city.

He held a steel broadsword made of black metal in his hand, and struck directly at the nearest elder.

It was the old man from the human race wearing Taoist robes.

This old man from the human race with an immortal spirit is very terrifying in long-range attacks, but his close defense seems to be extremely weak.

So if he wasn't careful, his arm would be cut off by this top master of the dark race who suddenly rushed out.

"Ugh!"

At this moment, the old man from the human race wearing Taoist robes immediately grunted in pain, but did not scream, but quickly retreated. He couldn't help but remind him and said: "This is the blood of the king among the dark races. He is a special master who is very powerful. Everyone must be careful. Moreover, the armor he wears is very strong. Ordinary weapons cannot harm him at all. Unexpectedly, a member of the dark race appeared in this small city. Masters of the king's bloodline, if we can't stop them, retreat as soon as possible."

At this moment, this king of the dark race, who was wearing dark gold armor and holding a steel sword, immediately smiled cruelly and said loudly: "You humans are so bold that you dare to attack the city where I am stationed. You will all die." ! And all of you will become my food! You, the

low-level humans, are just like bugs, and will be wiped out and enslaved by our dark race sooner or later!"

At this moment, after the king's blood master of the dark race finished speaking, he immediately attacked the old man from the human race who was wearing a Taoist robe, hoping to kill the old man from the human race who had been severely injured by him as soon as possible.

The other two elders of the human race not far away were killing other dark races at this moment. They were trapped in a tight siege and had no time to support the elders in Taoist robes.

But at this moment, suddenly a huge creature with the head of a dragon and the majestic body of a dark demon giant suddenly stood in front of this master of the blood of the king of the dark race.

"Who are you, and you dare to block my way?"

At this moment, the master of the king's blood of the dark race held the steel sword in his hand and immediately slashed towards the true form of the dragon demon transformed by Ye Feng.

But at this moment, a big black hammer suddenly appeared in Ye Feng's hand. It was the Hammer of Darkness. It turned into the size of a mountain. He was grabbed by Ye Feng and fiercely fought with the king of the dark race. The steel swords in the blood master's hands collided together.

Boom! !

Accompanied by a huge roar, the two collided and immediately produced terrifying sound waves.

The sound waves spread to all directions, shaking the entire city into pieces.

Cracks appeared in the earth tens of thousands of miles around.

Even some of the dark race and human race elders who were fighting around them couldn't help but take several steps back.

It has to be said that the collision between the two is terrifying.

And in the next moment, the steel sword in the hand of this master of the king's bloodline of the dark race was knocked upside down by Ye Feng's hammer of darkness, and it came out of his hand and shattered into pieces.

"What??"

Seeing this scene at this moment, the king's blood master of the dark race suddenly widened his eyes, as if he couldn't believe that the hammer of darkness in Ye Feng's hand was so powerful.

At this time, the master of the king's blood of the dark race stared at the hammer of darkness in Ye Feng's hand for an instant, and said in horror: "You are a human race, even if you transform into the dragon demon's true form, you will not be able to do anything." After all, you are still a human race, and it is impossible to use the powerful weapon of our dark race! Is the dark hammer in your hand the original weapon of our dark race? Why can you use it? "

At this moment, Ye Feng smiled coldly and didn't say much. Instead, he held the hammer of darkness in his hand and frantically bombarded the master of the king's bloodline of the dark race.

Ye Feng's attack was too fierce and overbearing. Even though this dark race had the blood of a king and was very powerful, it could not withstand Ye Feng's terrifying hammer after hammer attack. After all, Ye Feng's own strength was very terrifying, and the Dark Hammer was also extremely powerful.

Therefore, this dark race king blood master could not resist Ye Feng's attack and was beaten back step by step. He was horrified and shouted out loud, "No!! This is impossible!! A little human boy actually has such a strong power, even surpassing the power of the dark race king blood that I have. I don't believe it!!"

Boom!

But at this moment, Ye Feng was too lazy to talk nonsense. He directly burst out all his strength, and then madly bombarded the dark race king blood master, and directly smashed the other party's body into pieces in the other party's horrified and unbelievable eyes, and killed him instantly.

"What?"

Seeing this scene, the other dark races in the dark city suddenly widened their eyes, as if they had never expected that their city lord would be killed so quickly by that seemingly ordinary human boy.

These dark races panicked and fled in panic.

Seeing this scene, Ye Feng immediately laughed and said, "Although the dark races are extremely cruel, they are also as cowardly as mice when facing death. They flee everywhere. I thought you cruel and ruthless dark races are really not afraid of death."

At this moment, the other three old strong men of the human race not far away suddenly said in amazement: "My heaven is really full of talents. Such a powerful and peerless genius has appeared. It is really lucky for my heaven!"

At this moment, whether it is the three old strong men of the human race or Ye Feng, they will not let other dark races escape. They will kill them with all their strength and wipe out all the dark races in the entire dark city, because as long as one more dark race is killed, the future pressure of the heaven will be reduced.
