

## Ancient 5461

### Chapter 5461 Headless Skeleton Knight

Although the little princess doesn't know how powerful Ye Feng really is, she knows very well that she has definitely found a treasure.

Because the strength Ye Feng has shown from the first encounter to now is indeed very terrifying.

And now the little princess seems to have discovered that she has never seen Ye Feng take action with all his strength.

This also shows that Ye Feng's strength is many times stronger than what he shows now.

At this time, Ye Feng just smiled slightly and said: "Your Highness, don't worry. Since I choose to follow Your Highness, I will definitely do my best to help Your Highness."

Ye Feng now knows very well that if he wants to survive in the palace of the Dark Empire, he must correct his position. Only in this way can he have enough time to help Leng Rushuang and find Her mother.

Seeing Ye Feng's efforts outside, Leng Rushuang in the storage ring, including Leng Rushuang's father, Leng Binghuang, were all very moved.

Because it was entirely for them that Ye Feng had to endure hardships in the Dark Empire.

Leng Rushuang was very moved by this, with some tears in her beautiful and cold eyes, and said in the storage ring: "Ye Feng, after I return to the heaven, I will definitely repay you."

When Ye Feng heard the cold voice of gratitude in the storage ring, he smiled slightly and said nothing more.

In fact, Ye Feng came to the Dark Empire in this dark world not only to help Leng Rushuang find her mother, but also because Ye Feng also wanted to go deep into the dark world to see the strength and heritage of the dark race. What is it like? This will naturally be of great benefit to Ye Feng in fighting against the dark races in the future.

At this moment, Ye Feng followed the little princess and continued walking throughout the green prairie, trying to find the light door leading to the second floor.

Soon they saw that there was indeed a door emitting light at the end of the grassland not far away.

Seeing this scene, the little princess immediately said happily: "Ye Feng, we have found the light door leading to the second floor, right there."

Hearing what the little princess said, Ye Feng immediately nodded, and couldn't help but said in shock: "I didn't expect that the test of the Dark Tower was not that difficult. We just solved a big golden centipede, and we have already finished it." Found the light door leading to the second floor."

Hearing what Ye Feng said, the little princess couldn't help but shook her head with a wry smile, and said loudly: "Ye Feng, don't be too confident. This is just the trial of the first level of the Dark Tower. One level of difficulty. At the end, the difficulty of the test and trial has increased exponentially, so we will encounter more and more dangers, and the monsters we encounter will become stronger and stronger, and may even be life-threatening. "

Hearing what the little princess said, Ye Feng immediately smiled slightly, and said with a still very confident smile: "Don't worry, let's not talk about getting to the top, but if you get to the thirty or forty floors, there shouldn't be any big problems. "

"Forehead?"

Hearing what Ye Feng said, the little princess opened her mouth slightly. She didn't know whether she was infected by Ye Feng's confidence or felt that Ye Feng was bragging.

But at this time, the little princess was still very happy, because she had such a powerful guard captain guarding her, which was definitely much better than trying to get through on her own.

At this moment, Ye Feng and the little princess walked directly into the light door at the end of the green prairie without any hesitation.

Buzz!

Along with a violent spatial fluctuation, the two figures had disappeared from the first floor.

At this time, when the two opened their eyes again, they found that they had arrived at the second level of space.

On the second floor of the Dark Tower is a desolate and dilapidated area.

At this moment, there are many ancient collapsed buildings around, giving people the feeling that they have arrived at the ruins of a cultivating civilization in ancient times.

"Um?"

Seeing this scene, the little princess suddenly showed a look of surprise in her eyes, and said loudly: "This is very similar to the environment I encountered on the first floor when I came to the Dark Tower to pass the trial last time. It is a desolate and dilapidated place, and we must be careful about the possibility of very strange monsters appearing in the ruins, such as some soul-like ghosts and so on."

Hearing what the little princess said, Ye Feng's eyes revealed a look of surprise, and he said, "Have you ever encountered a ghost?"

The little princess nodded and said aloud: "Those are the souls transformed by the spiritual thoughts of the strong after death. In fact, they are not as scary as imagined, but they will directly attack your spirit and soul, so you must be careful."

Ye Feng heard the little princess's reminder and nodded slightly. He was not so nervous in his heart, because Ye Feng himself was a powerful soul master, so facing the remnants of those so-called ghosts or powerful souls, Ye Feng thought it is not so scary at all.

At this moment, Ye Feng followed the little princess and walked quickly in the dilapidated land of the second level of space.

"ah!!"

And just when they didn't go far, they suddenly heard a scream.

The moment she heard the scream, the little princess couldn't help but said: "It seems that there are other people trying in this dark tower, but this is normal, there are many people in our dark empire palace every day. The purpose of the younger generation entering this dark tower to test is to prove their talents and gain the attention of the upper echelons of the royal family, thereby gaining a higher status and more training resources. Let's go over and take a look. There something must have happened."

Ye Feng nodded and followed the little princess to fly quickly in the direction of the scream just now.

When they flew to the place where the screams came from, they immediately saw several young figures lying on the ground, completely dead.

And in front of them, a headless knight wearing black armor appeared, riding on a huge bone wildebeest.

At this moment, the black armored headless knight was holding a bloody black gold spear in his hand, giving people a very terrifying, cold and weird feeling.

At this time, the little princess couldn't help but exclaimed: "This is the legendary headless skull knight. I didn't expect it to appear here. These young people seem to be very powerful young people in our Dark Empire Palace." Genius, I didn't expect that he would die in the hands of this headless horseman."

At this moment, Ye Feng also had a look of surprise in his eyes. It seemed that entering this dark tower trial might be life-threatening.

At this moment, Ye Feng started to pay more attention to the trial of the Dark Tower.

After all, in Ye Feng's original imagination, if he entered this dark tower for a trial, he would at most be defeated by the monsters and power inside, and then be automatically teleported out.

But now it seems that is not the case.

If you really encounter a very scary monster, if you can't defeat it, you will probably be killed instantly by the monster in the Dark Tower, and you won't be able to be automatically teleported out of the Dark Tower in time.

It seems that the dark race is more cruel than I imagined. It has such cruel trials for the practitioners and members of its own race.

At this moment, the little princess immediately pulled Ye Feng and said loudly: "Let's go quickly, don't be discovered by the black armored headless skull knight, otherwise we will be in trouble. It is too powerful, and it is also undead. Attack Weird and impossible to guard against."

Chapter 5462 Undead Core

At this time, after the little princess finished speaking, she didn't have time to pull Ye Feng away from here.

Suddenly, the headless skeleton knight not far away grasped the black gold spear in his hand and quickly threw it directly in the direction of the two people with a huge force.

"Whoosh!"

The black-gold spear was like the sharpest sword in the world. It pierced the void in an instant and produced a violent sonic boom. It had an extremely terrifying impact, as if it could destroy the entire world. The strongest shields were pierced.

Buzz!

At this moment, the little princess immediately felt a threat of death.

Because she felt that the black gold spear was like a black gold lightning, piercing the void in an instant, causing inexplicable pain all over her body, and it seemed that it would be completely shattered and cracked in the next moment. open.

boom!

But at this moment, a powerful palm suddenly appeared in front of the little princess, and immediately grabbed the lightning-fast black gold spear, and firmly grasped it. There was no movement in the hand.

At this moment, the little princess immediately turned around and found that one of Ye Feng's hands had grabbed the dark gold spear.

Seeing this scene, the little princess couldn't help but reveal a look of deep amazement in her eyes, and said aloud: "At that moment just now, not only was I unable to react, but I felt like I was going to die and was about to be killed by this... A spear pierced through the body. I didn't expect Ye Feng to react so quickly and with such great strength. You caught the dark gold spear in an instant."

At this time, Ye Feng grabbed the dark golden spear in his hand, looked at the headless horseman not far away, couldn't help but smiled and said: "Don't be afraid of this headless horseman, let me deal with him."

Uh-huh!

Almost at this moment, Ye Feng held the dark gold spear in his hand and quickly threw it back.

The next moment, Ye Feng threw the spear with force, even faster than before, faster than lightning. In an instant, there was a "puff", and it pierced the body of the headless knight, killing the headless knight. The head knight was immediately nailed to the ground not far away.

"It's amazing!"

Seeing this scene, the little princess couldn't help but cheered.

At this moment, the spear did not cause fatal damage to the headless horseman, because there was a skeleton inside the headless horseman's armor, so it would not be pierced through the body and he would die directly.

Click!

At this moment, the headless horseman let out an earth-shattering roar from his entire body. He directly pulled out the dark gold spear nailed to his body, and then rushed towards Ye Feng in an instant.

At this moment, Ye Feng did not hesitate at all, and said with a cold smile: "Since you dare to provoke me, then I will let you know what it means to come back and never come back."

Boom!

At this moment, Ye Feng stretched out a hand and struck forward fiercely.

Ye Feng's palm immediately turned into a big black hand, possessing the power to oppress the world.

Nowadays, many of Ye Feng's human methods cannot be used, but Ye Feng's powerful physique allows Ye Feng to overwhelm any enemy physically.

The strength of Ye Feng's body is enough to give Ye Feng a great advantage in the palace of this dark empire.

At this moment, Ye Feng's big black hand collided with the headless horseman.

Boom!

The entire field suddenly erupted with a terrifying roar.

At this moment, the headless armored knight couldn't even block the power of Ye Feng's big black hand, and was sent flying backwards as if he was hit by a mountain.

"So strong!"

Seeing this scene, the little princess immediately cheered and said from behind: "Ye Feng, you are so powerful, you can kill this headless horseman. The legendary undead core is definitely bred in his body. , this kind of undead core is very precious, each one is priceless. "

When Ye Feng heard what the little princess said, he immediately nodded.

The reason why Ye Feng took the initiative to attack the headless horseman just now was because he sensed the energy core contained in the headless horseman's body. If he swallowed it, he would definitely gain huge energy.

Uh-huh!

At this moment, Ye Feng did not hesitate and chased forward.

The headless skeleton knight also made a strange sound at this moment, a terrifying invisible force attack that immediately spread towards Ye Feng.

This weird attack should be an attack on the soul level.

When the little princess saw the strange noise made by the headless horseman, she couldn't help but remind her: "Ye Feng, you must be careful. This headless horseman seems to have started to use undead methods to attack you, and he will attack you directly. You must protect your spirit and soul."

Ye Feng didn't need the little princess's reminder at this time. The moment the headless knight made that weird sound and launched a soul attack, Ye Feng had already spread out his huge soul power and directed it towards his entire body. Cover and go.

At this moment, the soul attack launched by the Headless Horseman could not cause any harm to Ye Feng at all. Instead, it was repulsed by Ye Feng's huge soul power, and he couldn't help but take several steps back.

"Woo!"

The Headless Horseman immediately made a sound of panic, because he was physically and spiritually unable to fight against Ye Feng, a seemingly ordinary young man.

So at this moment, the headless horseman knew that he had kicked the iron plate, and immediately ran away quickly towards the distance.

But at this moment, Ye Feng smiled coldly and said, "You're already here, so don't even think about leaving."

Boom!

At this moment, Ye Feng stretched out a big hand and caught the headless horseman, making it impossible for him to escape.

At this moment, the skeleton horse that the Headless Horseman was riding on immediately opened its mouth and spat out a stream of dark blue flames from the mouth of the skeleton horse, which had extremely terrifying soul-burning lethality. .

But at this moment, Ye Feng roared and exploded with his huge soul power, instantly wiping out the soul of the skeleton horse. The skeleton horse suddenly fell to the ground, completely dead.

At this moment, Ye Feng instantly tore open the black armor of the headless skeleton knight, and then revealed the skeleton body inside.

The next moment, Ye Feng crushed the skeleton knight directly, and a fist-sized core emitting light blue light suddenly fell from the skeleton's body.

This is what the little princess calls the core of the undead, which contains the power of the undead.

At this moment, the little princess couldn't help but said: "This kind of undead core is very rare, because every headless horseman is very powerful. It is estimated that those few people just wanted to hunt this headless horseman. I want to get the undead core from him and take it out. It is definitely a priceless good thing and can be auctioned for a sky-high price. But I didn't expect that he was killed by this headless horseman. Ye Feng, leave this undead core to me. , I can definitely help you negotiate the sky-high price."

But what shocked the little princess the next moment was that Ye Feng didn't seem to have any intention of handing the undead core to her. Instead, under the astonished gaze of the little princess, Ye Feng swallowed the undead core in one go. . "

"What?"

Seeing this scene, the little princess immediately revealed a look of deep astonishment in her eyes. She never expected that Ye Feng would not listen to her words, but directly swallowed the undead core.

#### Chapter 5463 Lake Swamp

At this moment, the little princess looked at Ye Feng who had swallowed the core of the undead, with a deep and incredible look in her eyes. It seemed that she did not expect that Ye Feng was so courageous. Firstly, he did not listen to her orders, and secondly, he If the undead core containing such strange power is swallowed directly, this may cause death.

At this moment, the little princess didn't bother to care about Ye Feng's disobedience to her orders. She just wanted Ye Feng not to die because she still relied on Ye Feng to get through.

So at this moment, the little princess immediately ran in front of Ye Feng, and couldn't help but said in anger: "Ye Feng, how can you eat randomly? Once this kind of undead core is eaten, it is very likely that The undead energy in it will detonate your Dantian, killing you immediately, and you won't have anywhere to cry."

At this moment, hearing the words of the little princess that seemed to be a bit reproachful and angry, Ye Feng smiled slightly and said: "Your Highness, you don't have to worry about this. My physique is very abnormal. I swallowed Whatever I put down will not cause any harm to me, but will actually strengthen me."

"What?"

Hearing what Ye Feng said, the little princess's eyes suddenly showed a look of astonishment, as if she did not expect Ye Feng to be so bold and confident.

But the next moment, when Ye Feng suddenly burst out with a huge cultivation aura, the little princess opened her mouth slightly and widened her eyes.

Because the aura of cultivation that Ye Feng just erupted from was a breakthrough aura!

After Ye Feng swallowed the undead core, not only was his life not in danger, but his cultivation suddenly broke through, directly breaking through the first heaven and entering the tenth heaven of the Yuanshen Realm.

At this moment, Ye Feng immediately smiled and said: "Yes, yes, the undead core contained in the body of this headless horseman is indeed very energetic and powerful. After I swallowed it, I directly let my cultivator for a breakthrough."

Hearing what Ye Feng said, the little princess opened her mouth slightly and didn't know what to say.

Because everything Ye Feng showed was beyond her imagination.

At this time, the little princess suddenly realized that the young man in front of her who volunteered to become the captain of her guard might not be someone she could control. The relationship between her and him was not a superior and subordinate relationship, but a cooperative relationship.

At this time, the little princess seemed to realize that she probably had no right to order Ye Feng at all, because a peerless genius like Ye Feng was beyond the ability of a little princess like her to order and control.

So at this time, the little princess fell silent for a while, and her eyes when looking at Ye Feng also changed, becoming a little awed.

She no longer regards Ye Feng as a subordinate, but as her partner and an equal attitude.

At this time, Ye Feng didn't know that the little princess's inner view of him had changed, but it didn't matter even if Ye Feng knew it, because Ye Feng came to the palace of the Dark Empire for his own purpose. I don't really want to do anything in this dark empire.

The reason why he helped this little princess was also for his own benefit.

Becoming the captain of the guard in front of this little princess is, on the one hand, giving yourself a legitimate identity and walking freely in the palace of the Dark Empire. The second is to follow this little princess and participate in some of these Dark Tower events. Trials can also make breakthroughs in one's own cultivation.

After all, the Dark Empire is a huge force in the dark world, and the cultivation resources contained in it are still very rich.

Ye Feng may not always be able to encounter these advanced and rich cultivation resources casually in the heaven.

So now that there is such an opportunity, Ye Feng will naturally not waste this opportunity, but make full use of this opportunity.

On the one hand, he fulfilled his promise to Leng Rushuang, and on the other hand, he worked hard to obtain more training resources of the dark race in this dark empire to strengthen himself.

At this moment, Ye Feng did not hesitate. After killing the headless horseman, Ye Feng and the little princess continued to walk in the second layer of the dark tower.

Next, the two of them did not encounter any great danger, and successfully found the light door on the second floor.

Ye Feng and the little princess walked in directly.

Buzz!

The next moment, with a violent spatial fluctuation, Ye Feng and the little princess successfully left the second floor and entered the third floor of the Dark Tower.

When the two opened their eyes again, they found that the environment on the third floor of the Tower of Darkness was an endless lake.

Next to every small lake, there are many swamps.

Apart from that, there is nothing else.

"Um?"

Seeing this scene, the little princess couldn't help but said: "I have never encountered such an environment. The seemingly calm lake may actually hide huge dangers."

Ye Feng shook his head slightly and said loudly: "There shouldn't be much danger in the lakes, because the water here is very clear and cannot hide any evil beasts. The real danger should be in the muddy swamps in the middle of every lake. , you see, there are many swamps that are covered with highly toxic miasma, we'd better avoid those poisonous gases, otherwise, we are likely to be poisoned and die. "

When the little princess heard what Ye Feng said, she nodded and said, "Then let's take a walk among the lakes that can't hide monsters and see if we can find the light door leading to the fourth floor."

Ye Feng nodded, and he and the little princess began to wander in the lake in the third level of space.

But after wandering for a day, they did not find the light door.

Seeing this scene, the little princess's face suddenly sank slightly, and she couldn't help but said: "It seems that the light door leading to the fourth floor must be in the swamps full of poisonous swamp gas. It seems that we have to go into those dangerous swamps."

Ye Feng's eyes flickered at this time, and he said aloud: "There is really no other way now. After all, if you want to enter the fourth floor, you must find the light door on the third floor. Since the light door on the third floor is not in those calm lakes, it must be in those miasma-filled swamps. Let's go, let's explore one by one. You follow me, don't go too far, because something may appear at any time in these poisonous swamps. Danger."

The little princess nodded, and suddenly took out two transparent masks that looked like they were made of glass from her storage ring, and said loudly: "These are the gas masks with the purification formation engraved on them, which I received last year. , we can prevent poisoning by wearing it on our face."

When Ye Feng saw the little princess taking out this special gas mask, he immediately smiled, put it on his face, and said loudly: "It seems that you are quite well prepared."

The little princess immediately smiled slightly proudly and said aloud: "In order to break into the Dark Tower this time, I did prepare a lot of good things, which may be used at any time. I didn't expect that I would actually use them."

Ye Feng nodded. This gas mask was indeed of great help to them in exploring this swamp full of poisonous miasma. It was a good thing.

Chapter 5464: Very Satisfied

Uh-huh!

Uh-huh!

At this time, Ye Feng and the little princess both put on gas masks and flew quickly towards the nearest swamp.

When they flew to the edge of the swamp, they immediately felt the poisonous miasma emanating from the swamp, which was very harmful to people.

Even if they wear protective masks, these highly toxic miasma can enter the body's blood through the pores of the body, thus poisoning them.

Buzz!

At this time, the little princess immediately raised her body-protecting light.

A layer of black light was seen, covering the whole body of the little princess.

At this time, Ye Feng didn't need to do anything at all, because Ye Feng's physique was very strong.

Seeing this scene, the little princess sincerely admired and said: "Ye Feng, your physique is really strong. I don't know which bloodline of our dark race you are, but you are so talented and have such a strong body. The power is so terrifying."

Hearing what the little princess said, Ye Feng just smiled slightly and said, "Maybe I am born with supernatural powers."

Hearing what Ye Feng said, the little princess immediately showed a look of astonishment in her eyes. Then she couldn't help but shake her head, smiled bitterly and said: "Ye Feng, you are so mysterious. I thought I just met someone." A very powerful young genius, but the longer I stay in contact with you, the more I realize that you are definitely not as simple as I thought, and I don't

know why you have been working as a lowly person in the outer walls of our dark empire. Guard, with your talent and strength, you have long been able to become an elite guard in the palace."

Ye Feng just smiled faintly at this time and said aloud: "I don't have any connections or background. No matter how strong I am, I can't enter the center of power of the palace of the Dark Empire."

"Um?"

Hearing what Ye Feng said, the little princess's eyes suddenly showed a look of surprise, and then she nodded thoughtfully and said: "You are right, there are really unappreciated people in this world. There are too many. Without background and connections, no matter how strong you are, sometimes your talents will be obscured by dust, and your talents will be unrecognized, and you will be inactive throughout your life. "

Hearing what the little princess said, Ye Feng nodded, smiled and said: "So at that time, I was favored by you, the little princess, then I will definitely become the captain of the guard of the little princess. In this case, I There is also a chance to enter the palace power of the Dark Empire."

Hearing what Ye Feng said, the little princess's eyes just flashed and she said, "It seems that you are also an ambitious person."

Ye Feng smiled and didn't say much, but said aloud: "Let's search carefully in this swamp to see if the light door leading to the next level is here."

The little princess nodded and quickly searched in this poisonous swamp.

Boom!

But at the moment they were looking for it, the mud of the poisonous swamp suddenly burst open.

A large scorpion with silver scales all over its body suddenly appeared in front of the two of them.

Uh-huh!

The huge scorpion tail stinger, like the sharpest spear in the world, cut through the void in an instant, and stabbed towards the little princess in an instant.

Obviously, this poisonous scorpion knew that the little princess was weaker, so he wanted to deal with the weakest person first, and then concentrate on dealing with Ye Feng.

But as a royal child of the Dark Empire, the little princess is not so easy to deal with.

The headless horseman just now was really terrifying, and the little princess didn't even have time to react.

But this big silver scorpion is nothing.

The little princess immediately took out a black scepter from her storage ring.

Then she directly stimulated the power in the black scepter. The next moment, a very terrifying black flame burst out from the black scepter, which evaporated all the surrounding mud in an instant. The tail of the big silver scorpion was instantly roasted and cracked, and burned directly to fly ash.

"howl!"

At this moment, his scorpion tail was burned to ashes, and the silver scorpion immediately screamed in pain.

At this time, the little princess immediately laughed and said loudly: "A little evil insect dares to take action in front of me."

But before the little princess could be happy, suddenly, along with the screams of the big silver scorpion, dense scorpions crawled out of the surrounding swamp and mire.

These scorpions are not as big as the big silver scorpions, but each one is full of poisonous gas. They are densely packed and cover the entire ground. They are trying to cover the little princess whole and eat her alive. .

Seeing this scene, the little princess immediately panicked, because these poisonous scorpions did not show any fear of her flames, but came towards her like a violent storm.

Uh-huh!

At this time, when Ye Feng saw that something was wrong, he immediately flew up and punched out hard.

Ye Feng's fist was full of terrifying destructive power and impact, instantly shattering the numerous poisonous scorpions that covered him.

The next moment, Ye Feng used his powerful fist to forcibly open up a path in the overwhelming tide of scorpions in front of him. In an instant, he punched the entire body of the silver scorpion and killed it instantly.

And with the death of the silver scorpion, the densely packed poisonous scorpions in the surrounding mud seemed to have lost their backbone. They all fell to the ground or disappeared in the mud.

"Huh!"

Seeing this scene, the little princess immediately breathed a sigh of relief and couldn't help saying, "This silver scorpion itself is not very strong. I didn't expect that it actually raised so many poisonous little scorpions. Each little scorpion is invulnerable to water and fire. It's really scary. I almost trapped it to death just now."

Ye Feng smiled slightly at this moment and said, "This should be the insect nest of this silver scorpion, so there are so many poisonous little scorpions, all obeying the orders of this silver scorpion."

Buzz!

At this moment, Ye Feng flew forward and released the Devouring Domain, sucking all the power and blood energy of the silver scorpion.

At this time, the little princess saw Ye Feng devouring the silver scorpion without any concealment not far away, and saw with her own eyes that the huge body of the silver scorpion, which was originally bulging, was swallowed by Ye Feng, leaving only a shriveled corpse.

This made the little princess immediately reveal a cold look in her eyes.

The inheritance that Ye Feng cultivated was really weird.

Even though the little princess was a member of the dark race in the Dark Empire, she felt that Ye Feng's inheritance was very scary at this time, and Ye Feng did not shy away at all, and used it directly in front of her, obviously not afraid of what the little princess said.

The little princess also knew in her heart that Ye Feng was not a person she could control.

Being able to cooperate with Ye Feng has made the little princess very satisfied.

So at this time, the little group leader did not comment on Ye Feng's weird devouring ability, but just waited for Ye Feng to finish devouring.

#### Chapter 5465 Ambush and Plunder

After a while, Ye Feng finished swallowing the silver scorpion, and his power increased a lot, but it did not make a qualitative breakthrough in Ye Feng's cultivation.

After all, Ye Feng has reached a big bottleneck now. If he wants to break through, he needs to absorb and swallow more energy to make a qualitative transformation of Ye Feng's current big bottleneck.

However, being able to absorb a silver scorpion also increased Ye Feng's power a lot.

After all, if Ye Feng wants to break through a big bottleneck now, he needs a huge amount of energy. It may not be enough to swallow it just once, unless he encounters a super powerful creature.

But in this dark tower, in the first few layers, there will definitely not be such powerful creatures and monsters.

So Ye Feng naturally has to accumulate slowly now. If swallowing it once doesn't work, swallow it twice, and if it doesn't work twice, swallow it three times, four times, there will always be a moment when it reaches the critical point, and then it will be a natural thing, and the big bottleneck will be broken.

Ye Feng is not in a hurry, after all, there are still many layers to go.

In fact, at this moment, Ye Feng likes staying in this dark empire.

Because there are really a lot of cultivation resources in it.

For example, this Dark Tower, or the various resources that the little princess had mentioned before that she had collected from the Dark Empire.

When the time came, Ye Feng and the little princess returned to the palace of the Dark Empire and to the little princess's bedroom. The little princess had promised to give Ye Feng enough rewards.

Ye Feng was naturally looking forward to it this time.

At this moment, Ye Feng looked around and said, "The space light gate leading to the next level doesn't seem to be here. Let's continue to explore in the next poisonous swamp."

The little princess nodded. Now she almost took Ye Feng as the main person, because Ye Feng's strength far exceeded hers, and Ye Feng's wisdom and means were also very many. The little princess completely regarded Ye Feng as the current backbone.

At this moment, the little princess suddenly developed a sense of dependence on Ye Feng that she had never had before.

She suddenly felt that Ye Feng was very safe by her side, and that he could give her extremely strong self-confidence.

Because if the little princess relied on herself, it would be impossible to pass the levels so quickly.

Only with Ye Feng's strong strength can the little princess quickly break through the Dark Tower.

At this moment, the little princess suddenly thought of what Ye Feng said before, that at least more than 30 or even more than 40 floors of the Dark Tower can be broken into.

Originally, the little princess thought that Ye Feng was bragging, but now she suddenly found that it might really be possible.

Because the strength shown by Ye Feng is so strong, maybe he can really help her reach a point that she dared not imagine before.

For this, the little princess can be said to be more and more looking forward to it.

And the little princess is also very fortunate that she can accidentally meet Ye Feng, a genius hidden in the crowd. If she hadn't met Ye Feng when she came back, I'm afraid Ye Feng might serve other princesses or princes in the future.

At that time, the little princess will not have this blessing to enjoy the convenience brought by Ye Feng.

After all, Ye Feng's strength is so strong that sooner or later he will stand out one day.

The little princess was able to meet Ye Feng when he was at his most miserable, when he was the lowest-ranking guard. It was really a fate.

While the little princess was thinking secretly in her heart, Ye Feng had brought her to the second poisonous swamp.

Here, they still did not find the light gate, so they walked towards the third poisonous swamp.

When they came to the vicinity of this poisonous swamp, they had already seen that there was a door emitting light in the poisonous miasma in this swamp.

"Huh?"

Seeing this scene, the little princess was naturally very happy, and hurriedly said: "Ye Feng, we found the light gate to the next level."

Ye Feng nodded and was about to walk directly into this poisonous swamp.

Boom!

But at this moment, this poisonous swamp suddenly erupted with a very terrifying poisonous miasma, and it actually took the initiative to invade the direction of the two people, and in an instant, Ye Feng and the little princess were shrouded in the poisonous wind, unable to get out.

"What?"

Seeing this scene, the young princess couldn't help but said in surprise: "How can these poisonous miasma attack people actively? This is impossible."

Ye Feng took a look at this moment, and then said coldly: "It is the power of the formation that controls these poisonous miasma and traps us. There should be someone guarding near this light gate, specifically wanting to ambush the trialists who want to enter this light gate, so as to rob us of our wealth."

"What?"

Hearing what Ye Feng said, the young princess immediately said angrily: "Those who can enter the Dark Tower for trial are basically the descendants of nobles or princes in the palace of our Dark Empire. How can these people be so immoral that they dare to ambush the trialists of the same clan in the palace. It's really hateful."

And just as the two were talking, suddenly accompanied by several laughs of successful treacherous plots, several young men suddenly walked out of the poisonous swamp.

The clothes these young men wore were all brocade robes, and they were obviously the sons of the rich and powerful in the Dark Empire's palace.

There were three of them in total, and each of them had a very strong cultivation power.

At this moment, they were staring at Ye Feng and the little princess who were trapped in the poisonous miasma formation. They immediately smiled coldly, stretched out their hands and said loudly: "Those who know better, hurry up and take the treasures you obtained during the trial, and hand over all the wealth you usually collect, otherwise, you will not be able to get out of this poisonous miasma formation, and you will be directly poisoned to death by us."

At this moment, one of the three young men wearing light blue clothes immediately smiled and said loudly: "You see, my strategy is very good. As long as we stay on this floor leading to Near the light door on the next floor, you will definitely be able to ambush the trialists passing by."

At this moment, after hearing the discussion and blatant blackmailing of these three young men, the little princess was immediately furious and couldn't help shouting: "Which prince of our Dark Empire Palace do you three belong to?" Heirs? To be so immoral and to ambush the trial members who are also members of the palace, you are simply bringing shame to our entire royal family."

Hearing what the little princess said, the young man in light blue clothes among the three young men, who should be the leader, immediately smiled coldly and said loudly: "You two are not princes or princesses of the royal family at all. Princess, you should just be the heir of a certain prince or some remote noble. So what if we offend you if you are not the prince or princess? But if you are the prince or princess, we don't dare to offend you. As for the descendants of some important powerful people, there will be no problem, we will take care of you, hahaha!"

At this moment, after the young man in light blue clothes finished speaking, one of the other two young men beside him immediately said loudly: "This man and woman, it seems that they don't want to hand it over directly." We have lost all their wealth, so we might as well just poison them to death here, in the formation, and no one will know that we did it anyway."

After the second young man finished speaking, the third young man also nodded and said: "Yes, don't waste time, hurry up and kill this man and woman, and get their wealth, then we will Go to the light gate on the next floor and continue to ambush the other trialists. This time we entered the Dark Tower not to break through, but to ambush and plunder wealth. As long as we don't offend those powerful princes and princesses, Everything else is nothing, hehe."

Chapter 5466 How to practice

At this time, Ye Feng looked at the three young men in front of him who were talking very arrogantly, and immediately glanced at the little princess beside him, and said loudly: "Do you know these three people? Which nobles in our Dark Empire Palace are they? Heir?"

The little princess immediately shook her head and said aloud: "I don't know these three people. I'm afraid they are some unknown nobles or princes, or the heirs of some princes with different surnames."

After the little princess finished speaking, she immediately stared at the three young people and said loudly: "If you are discovered by doing this, not only will your own lives be in danger, but the fathers behind you will also have to bear huge consequences. cost."

Hearing what the little princess said, the young man at the head immediately said coldly: "Since you have said so, it seems that you are really ignorant, so I have no choice but to control this miasma formation and If you poison them all, no one of you will be able to tell the truth."

At this moment, the young man leading the group was indeed more skilled than the other two. He actually set up the miasma formation that controlled the entire swamp.

In other words, the young man at the head is an array mage, which is extremely rare.

Because in the Dark Empire, many dark races are inherently unable to control formations, because the dark races have their own racial restrictions. Although their own strength and heritage are very deep, they have no understanding of weapon refining and formations. .

The young man at the head actually knew how to control formations, which showed that he was a very talented person. Unfortunately, his talent was used in the wrong place, and he was used to harm fellow trial members who were members of the royal family.

At this moment, the young man in charge immediately began to control the poisonous miasma formation, and rolled directly towards Ye Feng and the small county chairman.

Obviously, he was ready to kill the two of them by poisoning them directly in this formation, and then rob them of their wealth and destroy their corpses.

At this moment, the little princess said nervously: "Ye Feng, this formation is very terrifying, we must be careful to confront it."

At this moment, Ye Feng smiled slightly and said: "It's just a very simple formation, it's nothing."

Almost at this moment, Ye Feng did not take any defensive measures at all, but walked directly in the direction outside the formation, directly facing the attacking formation poisonous gas.

"What?"

Seeing this scene, the little princess couldn't help but said in surprise: "Ye Feng, do you also know the formation?"

After all, seeing Ye Feng walking forward so easily, the little princess naturally felt that Ye Feng might also know the formation.

Ye Feng smiled slightly at this moment and said aloud: "I don't know how to set up the formation, but don't even think about the formation harming me."

Almost at this moment, Ye Feng flew directly forward.

At this moment, everyone can see that Ye Feng's steps are very strange and tricky. Every step he takes makes the poisonous gas in the formation unable to harm Ye Feng.

"What??"

Seeing this magical scene, not to mention the little princess, even the young man outside who wanted to kill the two people couldn't help but slightly widen their eyes and said aloud: "How is this possible? The formation I control The method is so exquisite, why can't it hurt you, kid? Are you also an array master? But even if you are an array master, you can't evade my formation attack so easily."

At this moment, Ye Feng smiled coldly and said, "It's ridiculous that a small and unconventional formation dares to ambush and harm me."

Almost at that moment, Ye Feng walked out while the three people outside the court looked at him in stunned silence, and then stretched out a hand.

Ye Feng's hand immediately turned into a big black hand, possessing extremely terrifying power. In an instant, he grabbed the young man who was the leader and shattered it into pieces.

"What??"

Seeing this scene, the other two young men suddenly widened their eyes with deep fear.

What they are most proud of is the poisonous gas formation controlled by the young man in charge, which can poison even more powerful people than them in the formation.

But now, Ye Feng is in a deserted place in this poisonous gas formation. This poisonous gas formation cannot harm Ye Feng at all.

So after Ye Feng walked out of this formation, he released such a powerful combat power that the other two people immediately flew towards the swamp in panic, wanting to leave this layer of space.

But at this moment, Ye Feng casually flicked his fingers and blew the two of them away.

The cultivation skills of these three people are actually not very good, they are all relatively weak. Otherwise, they would not come up with such a despicable way to harm the passing testers here.

At this time, Ye Feng casually devoured the skills of these three people and found that his own skills had not increased much at all. He couldn't help but shook his head in disappointment and said aloud: "You are really weak."

At this moment, no one could control the formation of swamp miasma behind it, and it completely dissipated.

The little princess also flew out and came to Ye Feng's side. Seeing Ye Feng easily kill the three ambushers in an instant and crack such a poisonous formation, the little princess was amazed at Ye Feng and said, "Ye Feng, I didn't expect that not only your own cultivation strength is so strong and your methods are magical, but you also have such a great research on the formation. You can easily pass through that poisonous formation. It's really amazing. Ye Feng, how did you practice? How do you have so many magical methods? And you are still so young, Where do you get so much time to learn so many things? "

Hearing the little princess's series of questions, Ye Feng just smiled slightly and said: "Your Highness, you don't have to worry about this. I am self-taught."

Hearing what Ye Feng said, the little princess could only smile bitterly and shook her head, saying: "Okay, okay, I won't ask anymore. Anyway, my identity as a princess is probably useless in front of you. Let's enter the next level of space."

Ye Feng nodded and followed the little princess into the swamp not far away. Sure enough, he saw a light door inside.

The two walked in directly.

Buzz!

Accompanied by a violent space fluctuation, the figures of the two disappeared from this level and entered the next level.

After a while, the two opened their eyes and found that they had entered the next level of space, which was actually a world of ice and snow.

The little princess couldn't help but shiver from the cold and said, "It's such a cold space. It's probably very difficult to find the light gate to the next level here because it's freezing cold and snowy everywhere. Not to mention the threat of other monsters, this horrible and harsh natural environment will probably freeze us to death."

Chapter 5467: Glacier Monster

Hearing what the little princess said, Ye Feng nodded slightly and said, "This piece of ice and snow environment is indeed very bad, but I have no problem."

At this moment, the little princess suddenly found that Ye Feng was not shivering at all, nor did he feel the slightest bit of cold.

The little princess carefully sensed it and found that Ye Feng's whole body was just like a stove, emitting a terrifying huge blood energy, generating a lot of heat, so that Ye Feng was not afraid of the severe cold between heaven and earth.

After sensing all this at this moment, the little princess couldn't help but exclaimed in amazement: "Ye Feng, what kind of physique do you have among our dark race? Why do I feel that you are many times stronger than the original physique of our dark race?"

Ye Feng smiled and said, "I have said before that I was born with supernatural power."

And just after Ye Feng finished speaking, suddenly an iceberg not far away exploded.

Shua!

A huge monster suddenly appeared from the iceberg.

This monster, covered with snow-white hair, looked like a huge glacier bear, roaring and charging towards the two.

The little group leader immediately said, "This monster is very powerful, and its cultivation level is far beyond ours. Do you want to fight it?"

The little princess did not run away immediately at this moment, because she knew that Ye Feng's combat power was far beyond the cultivation level shown by Ye Feng, so she was listening to Ye Feng's advice.

At this moment, Ye Feng's eyes were full of fighting colors, and he said, "Wait for me here, I'll see if I can fight this ice monster. If I can kill this ice monster, swallowing his blood and energy may allow me to break through my current cultivation level. I don't want to waste this opportunity."

Ye Feng knew very well that his cultivation was at a big bottleneck. If he wanted to break through, it would not be of much use to kill some weak creatures. It was not known when he would accumulate.

Now that he suddenly encountered such a powerful monster, Ye Feng naturally wanted to kill it and devour its blood and energy. In this way, perhaps his power would undergo a qualitative change and his bottleneck would be completely broken.

At this moment, Ye Feng did not hesitate at all. He asked the little princess to wait for him, and then Ye Feng jumped and rushed forward directly.

At this moment, a black axe appeared in Ye Feng's hand. This black axe was the weapon that Ye Feng had obtained before. It was the weapon of the dark race, and Ye Feng could naturally use it.

And now that Ye Feng was disguised as a dark race, he could naturally use this dark axe more legitimately.

At this moment, Ye Feng held the dark axe in his hand and immediately chopped it forward fiercely.

Boom!

The dark axe in Ye Feng's hand burst out with brilliant black light, with the power to split the sky and split the earth, and in an instant it chopped the glacier monster fiercely.

But the glacier monster roared instantly, and blue ice appeared on its body, wrapping it up completely, forming something like an ice armor, which directly blocked Ye Feng's dark axe.

Ye Feng's dark axe was unable to split the ice armor condensed on the glacier monster.

"Huh?"

Seeing this scene at this time, Ye Feng's eyes suddenly showed a look of surprise, as if he didn't expect that this glacier monster was much stronger than he imagined.

Moreover, this glacier monster seemed to be able to use the power of the surrounding heaven and earth elements, combine it with its own power, and then directly condense such a solid ice armor.

At this moment, Ye Feng naturally did not hesitate at all, and immediately burst out the physical strength of his entire body, punching hard towards the front.

Seeing this scene, the glacier monster actually laughed sarcastically and said, "Even your weapon can't break the ice protection on my body, let alone your fist."

Boom!

But at this moment, when Ye Feng's fist attacked the glacier monster, although Ye Feng's fist could not shatter the ice armor condensed on the glacier monster, a terrifying impact force directly penetrated the ice armor covering the surface of the glacier monster's body and directly penetrated his entire body, causing him internal injuries.

"Ah!"

At this moment, the ice monster screamed in pain and couldn't help but said in horror: "What, how is this possible? How can you, a young man of the dark race, have such a strong body strength? Your fist force can actually penetrate my ice guard and directly hurt my body? This is impossible! Even those super masters in your dark race can't do this!"

At this moment, Ye Feng smiled coldly, and didn't bother to say anything more. He just madly punched one punch after another, hitting the ice armor on the glacier monster.

Boom!

Boom!

At this moment, a huge force suddenly penetrated the ice armor on the glacier monster, directly hurting his body, causing the huge body of the glacier monster with ice attributes to retreat again and again.

At this moment, the little princess not far away saw this scene and immediately said in amazement: "Ye Feng, your body strength is really terrifying. Even this huge glacier monster can't stop your fist. It's incredible."

At this time, Ye Feng was concentrating on bombarding the glacier monster frantically.

Because Ye Feng wanted to get the huge blood energy contained in the glacier monster very much.

So at this time, Ye Feng naturally burst out his natural immortal body with all his strength, but suppressed the golden light.

Because if Ye Feng exuded golden light from his body, maybe the little princess would see through his true identity.

So Ye Feng suppressed the golden light, secretly stimulated the terrifying power of the immortal body of the god, and frantically attacked the glacier monster, beating the opponent back step by step.

Just when Ye Feng was about to kill the glacier monster on the spot, the icy ground not far away suddenly broke apart.

Swish!

An ice dragon that was tens of thousands of meters long instantly flew up from the ground, stretched out an ice dragon claw that covered thousands of meters, grabbed Ye Feng, and issued a majestic voice: "Dare to run wild in our frozen kingdom, you young man of the dark race, you are so brave!"

Seeing this scene at this moment, seeing this visually shocking ice dragon, Ye Feng's eyes moved violently.

I didn't expect that there were so many ancient monsters with ice attributes living here, and it seemed to be a place called the frozen kingdom.

I didn't expect that the space of each floor of this dark tower was so vast, and in each floor, some monsters within the territory were bred and gathered together.

But for Ye Feng, this is not only a challenge, but also a huge opportunity.

Because what Ye Feng saw was not a monster, but a source of power that contained huge blood energy!

Chapter 5468 The Strongest Combat Power

At this time, Ye Feng's eyes did not show any fear at all. Instead, he stared at the ice crystal dragon that suddenly appeared, and said with a smile: "What kind of frozen kingdom is this? If you dare to provoke me, there is only one outcome, and that is death."

Swish!

Almost at the moment when Ye Feng's voice fell, a huge hammer suddenly appeared in Ye Feng's hand.

This dark hammer is the most powerful weapon of the dark race that Ye Feng has recently obtained.

Ye Feng held the dark hammer in his hand and immediately attacked the glacier monster in front of him that was about to be severely injured by Ye Feng.

Boom!

At this moment, the dark hammer in Ye Feng's hand immediately became as majestic and majestic as a mountain, and it was suppressed from the sky fiercely, and instantly hit the glacier monster that had been severely injured just now.

Crack!

Crack!

At this moment, the glacier monster could no longer resist Ye Feng's fierce attack. Its entire body was immediately shattered by Ye Feng's dark hammer and completely killed.

"What?"

Seeing this scene, the ice crystal dragon that just flew out of the underground ice layer immediately said angrily: "You are so brave!"

At this time, Ye Feng did not hesitate at all. He immediately released the Devouring Domain and immediately used a dark Devouring Domain to cover the glacier monster that he had just killed, and immediately devoured the blood and energy of the glacier monster.

Boom!

Almost at this moment, Ye Feng immediately felt a huge amount of blood and energy, which was immediately absorbed by Ye Feng and directly injected into his Dantian.

Ye Feng's skill suddenly broke through at this moment, and finally broke through the bottleneck of the current tenth level of Yuanshen Realm and stepped into the half-step Tianshen Realm above Yuanshen Realm!

Tianshen Realm, this is a new and powerful level.

When a practitioner enters the Heavenly God Realm, the legendary power of the Heavenly God will be derived from his body, allowing the practitioner to obtain unparalleled divine power.

At this moment, Ye Feng has only one foot in the Heavenly God Realm. Although he is in the Half-Step Heavenly God Realm, Ye Feng's combat power and skill reserves have also increased hundreds of times in this instant.

At this moment, Ye Feng's combat power has increased greatly, and he continues to fight against the ice crystal dragon that just flew over.

Boom!

Ye Feng's fist hit the dragon claws of the ice crystal dragon, and suddenly a terrifying roar broke out.

A huge force instantly exploded at the collision point, and Ye Feng couldn't help but retreat more than ten steps.

It must be said that this ice crystal dragon is indeed an extremely powerful monster in this frozen country, and its power is indeed terrifying.

But at this time, seeing that Ye Feng was only blasted back a dozen steps, the ice crystal dragon suddenly widened his eyes slightly, and couldn't help but said in a horrified voice: "What? How is this possible? My dragon claws are enough to instantly wipe out a weak dark race young man like you. I didn't expect you to only retreat a dozen steps today. This is impossible. How terrifying is your body strength?"

At this time, the ice crystal dragon was extremely shocked, because Ye Feng gave him a terrifying feeling. After all, Ye Feng looked like an ordinary young man, but once he released his strength, he was so powerful.

Especially Ye Feng's seemingly very weak body, I didn't expect that it actually contained such a great power. Even his ice crystal dragon, which was tens of thousands of meters long, couldn't shake Ye Feng's body, but only made Ye Feng retreat a dozen steps.

At this moment, the ice crystal dragon could not help but roar out loudly, saying, "The icy energy of heaven and earth, gather in front of me and help me."

At this moment, the ice crystal dragon seemed to be in resonance with the entire world.

Obviously, in this so-called frozen kingdom, this creature with icy attributes can use the power of nature between heaven and earth.

At this moment, a large and terrifying ice storm immediately condensed around the ice crystal dragon.

This ice storm enveloped the ice crystal dragon and swept towards Ye Feng, as if it could tear Ye Feng into countless pieces in an instant.

At this moment, Ye Feng did not retreat at all, but burst out with fighting spirit and roared out loudly: "Kill!"

Boom!

At this moment, Ye Feng also burst out his extremely powerful body strength with all his strength, his whole body was covered with black light, almost releasing his most powerful physical strength.

And Ye Feng also displayed the extremely powerful inheritance he had learned before, the immortal body of the dragon demon.

This set of inheritance, Ye Feng will not be exposed if he uses it now.

Because the immortal body of the dragon demon originally carries the inheritance of some dark attribute power of the dark race.

So at this time, Ye Feng used this set of inheritance, not afraid of exposing his identity.

At this moment, Ye Feng saw that the whole person immediately began to expand rapidly, and directly expanded on the spot into a towering dragon demon body with a height of more than 100,000 meters, with terrifying and majestic power, and suddenly collided with the ice crystal dragon that was rushing in front of it with an ice storm.

Boom!

At this moment, a thunderous roar suddenly sounded throughout the world.

The terrifying aftermath of the battle shattered countless surrounding lands, the void was about to split, and the world was about to be wiped out, just like the end of the world.

Seeing this terrifying scene, the little princess not far away couldn't help but retreat quickly to avoid the center of the battle. Otherwise, if she was affected by the terrifying aftermath of the battle, she would probably be torn apart in an instant.

"This power is too strong..."

At this moment, the little princess couldn't help but sigh. She knew that the power displayed by Ye Feng at this time was probably Ye Feng's strongest combat power. He could actually fight with the legendary ice crystal dragon. It was really terrifying. This strength was enough to rival some very powerful old figures in their Dark Empire Palace.

Ye Feng's combat power surprised the little princess. She didn't expect Ye Feng to hide so deeply and have such strong strength.

While the little princess was sighing in her heart, the aftermath of the battle on the field finally calmed down.

At this time, the little princess looked closely and immediately showed a deep look of horror in her eyes.

At this moment, Ye Feng's huge black dragon claws actually dug a bloody hole in the entire huge body of the ice crystal dragon, completely killing the opponent!

"So strong!"

At this moment, the little princess immediately showed a deep look of shock on her beautiful little face.

Chapter 5469 Blood-sucking vines

At this moment, in the entire ice and snow, this ice crystal dragon can be said to be the overlord-level evil beast of this frozen country. It was killed by Ye Feng on the spot, its entire body was shattered, and it was completely killed.

At this time, Ye Feng did not hesitate at all. He immediately released the Devouring Domain and began to devour the blood and energy of this ice crystal dragon.

The big bear-like glacier monster that Ye Feng had just swallowed had already broken through his bottleneck.

At this moment, Ye Feng swallowed up the majestic power of this ice crystal dragon again, and the cultivation aura on his body immediately surged at an incredible speed.

"Boom!"

Suddenly at a certain moment, Ye Feng's body suddenly burst out with a terrifying aura of cultivation.

After obtaining the huge energy of this ice crystal dragon, Ye Feng's skills have once again undergone a qualitative transformation, and his cultivation aura suddenly breaks through, directly impacting the real first level of the God Realm!

At this moment, Ye Feng's cultivation completely transformed, and his combat power once again increased hundreds of times compared to before.

At this moment, Ye Feng clenched his fist and felt that the power of the ocean was surging through his body, as if one punch could smash a hole in the entire world.

This majestic power shocked Ye Feng.

"Is this the power of the God Realm?"

At this moment, Ye Feng couldn't help but murmur secretly, feeling extremely happy in his heart.

Unexpectedly, the dark empire that came to the dark world this time not only did not encounter any danger so far, but also received so many opportunities, which made a huge breakthrough in his cultivation. This was very important to Ye Feng. It's naturally a great thing.

After all, the stronger your cultivation is, the more trump cards and confidence you will have in the future, and you will be able to control your own destiny.

Uh-huh!

At this moment, the little princess not far away flew over, looked at Ye Feng, and said in admiration: "Ye Feng, what was your last move just now? It turned you into something like The dragon is like a huge demonic monster, which suddenly increases your strength by thousands of times. It is incredible to be able to directly go head-to-head with such a giant ice crystal dragon. "

Hearing the little princess ask this question, Ye Feng showed a smile in his eyes and said loudly: "This is my natural talent, which can directly transform my body into the body of an ancient dragon demon in a short period of time. It has With the majestic power of the ancient dragon demon."

Hearing what Ye Feng said, the little princess's eyes suddenly showed a look of astonishment, and she said loudly: "The ancient dragon demon clan? Isn't this a legendary race? There is no such race in the world, right? Longhe The combination of magic is really incredible."

Ye Feng smiled at this time and didn't say much.

Anyway, I was very satisfied with everything I encountered this time. I didn't expect that after encountering such a powerful ice-type monster, killing and devouring it, my cultivation would undergo a qualitative transformation.

Ye Feng now knows very well that after he broke through to the new realm of cultivation, the God Realm, his strength has become many times stronger.

The increase in cultivation level and combat effectiveness will make it more advantageous for Ye Feng to help Leng Rushuang find her mother in the dark empire palace in this dark world in the future.

Because the stronger the strength, the more confident Ye Feng will be.

And now Ye Feng has become the captain of the little princess's bodyguard. The stronger Ye Feng is, the higher his status in the Dark Empire Palace will be, and the little princess will become more and more dependent on him.

Just as Ye Feng was thinking about it, the little princess said loudly: "Ye Feng, the light door leading to the next level has appeared."

At this moment, Ye Feng saw a shining door appearing not far away.

Ye Feng immediately nodded and walked into the light door with the little princess.

Buzz!

Following a violent spatial fluctuation, Ye Feng and the little princess disappeared into this layer of space.

When they opened their eyes again, they had arrived at the next level of space.

The space of this level of the Dark Tower is very vast, but it gives people a very corrupt feeling.

The entire earth is filled with decaying plants and animal remains, and the entire world is filled with an aura of corruption and death.

Seeing this scene, the little princess couldn't help but frowned and said aloud: "Why do we encounter such a harsh environment every time? When I first came to the Tower of Darkness for training, there were many The environment in the space is very good. "

Ye Feng smiled at this time and said aloud: "It seems that every experience in the Tower of Darkness really randomly creates various environments for the trialists, but it doesn't matter if the environment is bad, as long as the danger inside is not too dangerous. Just be big."

Ye Feng carefully sensed it at this time and released his soul power. He did not find any danger. He directly took the little princess and flew quickly in this space full of corruption, looking for the way to the next level. The light door.

For Ye Feng, now that he has disguised himself as the captain of the guards of the little princess, and in the palace of the Dark Empire, he may encounter various good cultivation resources at any time, Ye Feng has now settled down and will help the little princess to break through a few more levels of the Dark Tower.

As long as the little princess's performance is higher, she will be valued by the upper echelons of the royal family.

The more attention the little princess receives, the higher the status of Ye Feng, as the captain of the guards in front of the little princess, and the greater his power in the palace of the Dark Empire.

Just as Ye Feng was thinking secretly in his heart, suddenly several black vines sprang out from the corrupt mud not far away.

These black vines, covered with insects, seemed to have life, and rushed towards Ye Feng and the little princess at once. The speed was too fast, as fast as lightning.

Even Ye Feng and the little princess did not react for a while, and were directly tied up by the black vines.

Almost in the next moment, sharp thorns appeared in these black vines, piercing the skin of the two people and quickly absorbing their blood.

"This is a very evil blood-sucking vine!"

At this moment, the little princess immediately shouted: "Dark flame!"

At this time, a black flame immediately emerged from the little princess' body, burning the blood-sucking vine tied to her body into ashes.

At this time, Ye Feng's body shook slightly, and a terrifying shock force burst out from Ye Feng's muscles, directly shaking the blood-sucking vine tied to his body into pieces.

However, although the two people easily got rid of the restraints, more and more blood-sucking vines rushed out of the surrounding mud, covering the sky and the earth, and entangled with Ye Feng and the little princess crazily, even forming a net to entangle the two people and completely suck their blood. It was really evil!

Chapter 5470 The Eternal Kingly Way

Swish, swish, swish!

Swish, swish, swish!

At this time, all the blood-sucking vines around them were swarming in the direction of Ye Feng and the little princess, seeming to surround them all, and then suck their blood dry. The situation was OK It is said that the crisis has reached its extreme.

At this moment, the little princess did not hesitate and immediately continued to release the natural flame of her dark race.

Buzz!

I saw a black flame burning on the little princess's body. When the blood-sucking vines around her were about to approach the little princess, they were immediately burned by this black flame.

However, more and more blood-sucking vines emerged from the surrounding corrupt sludge, which could not be burned cleanly. Moreover, more and more blood-sucking vines were attacking around the little princess. The dark flames on the little princess' body were also somewhat He couldn't hold on any longer, and the flames from the attack were almost extinguished.

After all, the little princess's power reserve was not as huge as Ye Feng imagined. However, within a moment of releasing the dark flames, the little princess's already consumed power was somewhat bottomed out. That beautiful little face They all showed some pale color.

Seeing this scene, Ye Feng immediately said: "It's not an option to waste it like this now. We must break out of this circle of blood-sucking vines. Your Highness, since your dark flame has fatal burning power against these blood-sucking vines. , then you open the way in front, and I will help you block the siege of as many blood-sucking vines as possible. You are only responsible for opening the way in front. "

Hearing what Ye Feng said, the little princess immediately nodded, and directly focused the dark flames she released to open a path ahead.

As for the blood-sucking vines attacking from around and behind, the little princess left them all to Ye Feng to deal with.

At this moment, Ye Feng didn't hesitate at all and immediately released the magic weapon he had obtained before, the basalt turtle shell.

This basalt turtle shell is the treasure Ye Feng obtained from the Immortal Sect of Immortality before.

Ye Feng's display at this time will not arouse others' suspicion.

After all, although this is a dark world, sometimes there are things left behind by ancient beasts.

The appearance of a basalt turtle shell in Ye Feng's hand is also very reasonable.

At this moment, Ye Feng injected his own mana into the Xuanwu turtle shell. The Xuanwu turtle shell immediately expanded rapidly and turned into a huge shield, protecting Ye Feng and the little princess. .

Boom!

Boom!

Countless blood-sucking vines attacked from the surrounding area. Each vine was like the sharpest spear in the world, possessing terrifying penetrating and destructive power.

But when these blood-sucking vines bombarded the Xuanwu turtle shell released by Ye Feng, they made a series of muffled sounds, unable to cause any damage to the Xuanwu turtle shell at all, not even leaving a trace.

Seeing this scene, Ye Feng's eyes suddenly showed a look of joy.

This basalt turtle shell is worthy of being the shell left by the ancient mythical beast basalt. It is indeed extremely strong. Although it does not have any particularly powerful attack power, in terms of defensive power, this basalt turtle shell is definitely comparable to the strongest armor in the world.

At this moment, when she saw that Ye Feng actually owned a basalt turtle shell, and it was a very high-level basalt turtle shell. Even these blood-sucking vines could not destroy the basalt turtle shell, the little princess immediately showed a look of surprise in her eyes. Colorful, he couldn't help but said: "Ye Feng, I didn't expect that you have so many tricks, and you even have such a strong basalt turtle shell. The owner of this basalt turtle shell has probably reached a very high level of cultivation." The level of terror, otherwise, it would be impossible to create such a strong turtle shell."

Hearing what the little princess said, Ye Feng smiled slightly and said, "Just concentrate on your journey."

Hearing what Ye Feng said, the little princess immediately nodded. Now she was even more confident. She wildly inspired her dark flames and quickly opened a path ahead, burning all the blood-sucking vines rushing towards her. Became ashes.

At this moment, the little princess and Ye Feng finally got rid of all the blood-sucking vines and left the corrupt land.

At this time, the little princess glanced behind her and seemed to still have some lingering fears. She couldn't help but said: "I didn't expect there to be so many weird blood-sucking vines in this space. This kind of blood-sucking vines are very uncommon in the outside world. No. I thought that such strange creatures could be born in the space of the Dark Tower."

At this moment, Ye Feng couldn't help laughing and said: "In the space of the Dark Tower, even behemoths from ancient times such as ice crystal dragons will appear, let alone these so-called blood-sucking vines. Yeah, that's not very normal."

Seeing Ye Feng's calm look, the little princess couldn't help but asked curiously: "Ye Feng, you have always been a low-level guard on the outer wall of our dark empire. Logically speaking, you should also have never experienced any particularly huge dangers. Why do you feel that you are calm and calm in every situation, and never seem to be impatient or impatient? I can't learn this kind of mentality. How do you do it? "

Hearing the little princess's question, Ye Feng smiled slightly and said: "When I was weak, I also experienced a lot of hardships, so I was able to develop the indifferent mentality I have today."

Hearing what Ye Feng said, the little princess could not help but nodded and said: "It seems that I need to go through more hardships in the future, so that I can mature and be able to deal with any situation calmly and think rationally like you, Ye Feng. Of course, the most important thing is to be strong in one's own strength, because if one's own strength is not enough, even if one has a calm mind, it will not be of much use."

When Ye Feng heard what the little princess said, he immediately laughed and said: "Yes, strong in one's own strength is the eternal kingly way."

While the two were talking, the little princess looked in a direction not far away and said: "I saw the light door leading to the next level, in the mountain range not far away, it is flashing with light, let's go and take a look."

Ye Feng looked at the mountain range not far away at this time and saw a lot of fog, covering the mountains. It was a little misty, but there was indeed a door emitting light flashing in the misty mountains.
