Chapter 551: The Great Wilderness Demon Lord

Boom!

Boom!

The huge golden chariot, with its incomparable majesty, spread hundreds of meters high in the sky, like a golden dragon, soaring high in the sky.

At this time, Ye Feng and other young geniuses were sitting on their respective golden sedan chairs.

They looked at the rapidly receding mountains and mountains below, the deep mountains and forests, and the surrounding clouds and mist, which made people feel as if they were about to become immortals.

It has to be said that wherever the King of Immortality goes, he is indeed very impressive, full of the momentum and majesty of a royal nobleman of the Lihuo Empire.

"Jie Jie Jie, King of Immortality, you actually dare to walk alone in the sky with so many top young geniuses from the human race. This time, I will take action and kill you all. The human race will definitely suffer heavy losses, and I will make a huge profit. Very profitable."

Suddenly at this moment, a cold and sinister laughter suddenly sounded.

"what sound?"

"Who's talking?"

In the golden motorcade, the young prodigies heard this voice, which seemed to contain an eternal chill, and their expressions suddenly changed.

This voice sounds like a big demon is about to be born?

"boom!"

Almost at this moment, in a certain area deep in the wilderness beneath the golden convoy, monstrous demonic energy suddenly rushed out from a gap in the dark mountains.

Buzz!

The demonic energy turned into an infinite demonic cloud and rushed into the sky with great force, covering the entire space in front of the golden convoy.

"Is that a big demon in the wilderness?"

Many people in the golden motorcade looked at the infinite demonic energy that shrouded the world with horror in their eyes.

No one would have thought that they would encounter such a terrifying big devil while following the super powerful King of Immortality.

"It is said that there are countless dangers hidden in the wilderness. Even the super masters of the human race dare not go deep into it. It is indeed not unreasonable."

Many people finally understood at this time that once they left the human area guarded by the strongest human beings and entered the wilderness or the endless wilderness, there were too many terrible dangers.

In this vast land of Longyuan Continent, in addition to the human race, there are too many forbidden creatures that cannot be provoked at all.

"King of Immortality, your reputation is indeed very bright in the land of Northern Xinjiang. Even many powerful people in the demon clan where I belong have heard of you and have been suppressed by you. But today I am going to If you kill me, all your glory will be destroyed on this day!"

At this moment, high in the sky in front of the golden motorcade, infinitely thick demonic energy surged like clouds and mist, and suddenly condensed into a powerful

The burly demonic figure several thousand meters tall, stepping under the sky, possesses boundless and majestic unparalleled demonic power in the land of Optimus Prime.

Under the boundless blue sky, a majestic demon standing thousands of meters high, its demonic aura is overwhelming and deep for all eternity.

This scene is extremely visually shocking.

Even Ye Feng and You Lian were shocked. They had never seen such a powerful demon before.

As for the other nine young geniuses, their faces were pale with fright, and they were sitting on the golden sedan, their whole bodies trembling.

"A demon lord-level extraterrestrial demon!"

Someone in the convoy exclaimed.

This is a very powerful demon master living in the depths of the wilderness. It is definitely comparable to the super strong men in the human race who are in the martial arts holy realm.

In the martial arts holy realm, even in the entire Longyuan Continent, he is considered a first-rate powerhouse.

However, there are also strong and weak beings in the martial arts holy realm.

Obviously the Immortal King belongs to the very category.

At this time, facing the Demon Lord with a towering body of several thousand meters in front of him, the face of the Immortal King did not waver at all.

He slowly stood up from his throne, with incredible divine light flashing in his eyes, staring at the huge demonic figure in the distance, and said indifferently: "A demon who has just stepped into the demon lord level. , If you don't practice hard to accumulate strength, you dare to come out to provoke me. I think you are impatient. "

"Hahaha!"

The thousand-meter-tall Demon Lord immediately laughed out loud and said with a mocking tone: "King of Immortality, I have long admired your name. I heard that you are a human race who rose from the wilderness. When you were young, I have killed countless monsters in the wilderness, but today I want to see if you are as powerful as the rumors say."

"boom!"

Almost at this moment, the Great Wilderness Demon Lord stretched out a big black hand like a mountain, and the monstrous demonic energy exploded, almost dyeing the entire sky into darkness, as if the end was coming.

The big black hand, like an ancient troll attack, grabbed at the golden convoy, trying to crush the entire golden convoy.

That terrifying sense of oppression made everyone in the audience breathless.

"snort!"

But at this moment, the King of Immortality suddenly stepped out of the chariot, and he stood directly in front of the entire golden motorcade.

"The Great Wilderness Dragon Monument Bearer!"

At this moment, the Immortal King directly displayed a set of extremely powerful inheritance.

It is a kind of holy martial arts that transcends the level of respect. This kind of martial arts is extraordinary and can only be created by ancient saints.

Buzz!

Under the shocked gazes of countless people, the Immortal King struck out with a palm, and his hand immediately turned into a golden dragon in the sky.

The giant dragon was ferocious and extremely powerful. It had an ancient stone tablet in its mouth, and it had supreme power. It suddenly struck the big black hand of the Demon Lord of the Wilderness.

Boom!

Boom! !

Suddenly a terrifying big explosion appeared, and an earth-shattering roar resounded throughout the sky.

"Master of the Great Wilderness Dragon Monument? I didn't expect that by practicing the Immortality Technique, which is famous for its gentle healing, you can actually comprehend this completely different set of Great Wilderness killing martial arts to Dacheng. King of Immortality, you are indeed a genius of the human race, but today , you must die!"

The Great Wilderness Demon Lord walked out of the big explosion that filled the sky without any damage.

At this time, the huge face of the Great Wilderness Demon Lord suddenly became extremely serious, and it uttered a series of ancient demon languages in its mouth.

"God-Killing Spear!"

Suddenly at a certain moment, the Great Wilderness Demon Lord suddenly roared.

He circulated all the demonic energy in his body and performed a forbidden demonic killing technique.

God-killing spear!

It seems to use the most powerful taboo method to completely obliterate the Immortal King.

"Buzz!"

I saw the mountain-like big hand of the Great Wilderness Demon Lord suddenly grabbing it, and immediately pulled out a huge black spear from the void.

The surface of the black spear was engraved with countless ancient and complex patterns, exuding a strange blood-black light.

The tip of the spear was dripping with the blood of the gods, as if many gods had really died under this spear, making horrifying wailing sounds.

"ah!"

Hearing this ancient and terrifying howl of the gods, many of the young geniuses in the golden caravan and the golden guards of the Changsheng Mansion immediately screamed and their orifices bled. It was obvious that their minds were disturbed for a moment and they suffered heavy injuries.

The only ones on the field who could remain calm were Ye Feng and You Lian. Both of them were soul masters with strong souls. They guarded their hearts tightly and successfully withstood the wailing sound of the gods coming from the God-killing Spear.

This shocked everyone. This Great Wilderness Demon Lord was so terrifying. He even condensed the legendary God-killing Spear. Can the Immortal King be able to stop it?

"God-killing spear? It's a good forbidden inheritance of the demon clan. It's a pity that you have just stepped into the demon lord's kingdom."

Realm, cultivation level is still too shallow, it's a pity, you are going to die! "

The Immortal King was extremely indifferent. His whole body was now bursting with divine light, like a human god of war, standing directly in front of the golden motorcade, resisting the dark evil energy and power covering the sky.

"King Immortal, stop talking nonsense. What means can you use to block my god-killing spear?"

The Great Wilderness Demon Lord laughed, and instantly held the terrifying God-killing Spear, heading directly towards the Immortal King.

Hoo ho ho!

In an instant, countless demonic winds covered the sky and the earth, lifting up the entire wilderness mountains and ridges. The earth was shattered, ancient trees collapsed, and countless wild beasts died in the aftermath.

This spear was incomparably terrifying. A large number of ferocious demon heads shot out from the tip of the spear. The demonic power was terrifying and roaring, as if it could extinguish all life in the world and take away the life of any creature!

"Wow!"

But suddenly at this moment, a huge picture scroll, surging with thousands of rays of light, rushed out of the body of the Immortal King.

This seems to be an ancient treasure with powerful power. It is a huge picture scroll, which depicts countless scenes of the wilderness, including mountains, wilderness, deep water and swamps, ancient beasts, demons roaring, and barbarian kings splitting the sky. ...

Each scene seemed to include everything in the world in the wilderness, all integrated into this huge picture, bursting out with shocking power, and suddenly covering the God-killing Spear.

"sensation!"

"sensation!"

The God-Killing Spear emits a monstrous light, surges out with terrifying power, and crazily hits the huge scroll, but it is like a trapped dragon fighting, unable to break through the scroll barrier.

"What kind of treasure is this? My god-killing spear can pierce the sharpest things in the world. It can even tear through meteorite iron easily. Why can't it break through your picture scroll?"

The thousand-meter tall Great Wilderness Demon Lord made a frightened and angry sound.

He stared carefully at the picture scroll covering the world in front of the Immortal King.

On the huge picture scroll, there are depicted ancient beasts in the wilderness, ferocious beasts, evil beasts, as well as portraits of barbarian kings, evil spirits of the wilderness, etc. At this time, they are all resurrected, directly from the picture scroll. Coming out of it, like a torrent of steel, an army of wild beasts, crushing everything.

Suddenly, the Demon Lord of the Great Wilderness seemed to have discovered something. His expression suddenly changed, and he couldn't help shouting: "This picture... could it be... the legendary Ji Dao Saint Weapon, the Great Wilderness War Picture? Impossible! Back then, the Lord of the Wilderness fought with Emperor Styx, staining three thousand miles of rivers and mountains with blood. Didn't this Battle Map of the Wilderness fall into the Nine Nether Abyss? How could it be obtained by a human boy like you, the King of Immortality!"

Chapter 552: Eternal Life Mansion

Boom!

The Immortal King doesn't care about the horror of that demon lord.

He directly inspired the terrifying power of the Great Desolate Battle Map, and in an instant, the infinite divine light and fighting energy directly enveloped the Demon Lord.

"ah!!"

The demon lord was directly trapped in the Great Wilderness Battle Map, as if imprisoned in a small independent world, with no way to escape.

"Boom!"

"Boom!"

Many powerful creatures depicted in the Great Wilderness Battle Map, including the King of Barbarians, Evil Spirits of the Great Wilderness, behemoths of the abyss, etc., have all been resurrected and are frantically attacking the Demon Lord.

The demon lord immediately let out a painful roar. Its thousand-meter-long majestic demon body was scarred and shattered by the attack in just a short moment.

"God-killing Spear!" ??

The Demon Lord was so angry that he was almost desperate. He held the God-killing Spear in his hand and attacked crazily, bursting out sharp magic light and killing all the barbarian kings, evil beasts, and ferocious monsters in the Great Wilderness Battle Map. All killed.

But as long as the power of the Immortal King is not exhausted, powerful creatures will continuously appear in Dahuang Zhangtu to attack the demon lord.

Moreover, the demon lord is trapped in the Great Wilderness Battle Map, as if he is locked in a small world. He cannot escape at all. He can only choose to fight and die from exhaustion.

"The fight between trapped beasts."

The Immortal King snorted coldly, grabbed it with his big hand, and took the Great Desolate Battle Map back into his body.

He knew that within half an hour, this demon lord would fall into the Great Desolate Battle Map, adding another powerful creature to the Great Desolate Battle Map.

"Too powerful, worthy of being the Immortal King!"

"It is said that the Lihuo Empire's previous generation of young prodigies had the highest combat power. Is this reputation in vain?"

"You suppressed a Great Wilderness Demon Lord at the martial arts holy realm with just one hand. That Great Wilderness battle map is really terrifying."

"It is said that the battle map of the Great Wilderness was once the natal treasure of the Lord of the Great Wilderness. It is a supreme holy weapon exceeding the ninth level. The best among the holy soldiers, it is naturally unparalleled in power and has shocking power."

At this moment, many young geniuses are

Discussing quietly.

Their eyes were full of excitement. They had always heard that King Changsheng was very powerful and was a legendary figure in the Lihuo Empire.

But no one knows exactly how powerful the Immortal King is.

But today, they saw the terrifying combat power with their own eyes, which was simply shocking.

"This is the real strong man, the super being who stands tall on this land."

At this time, even Ye Feng couldn't help but marvel.

The battle between the Immortal King and the Great Wilderness Demon Lord just now was short-lived, but it left a deep impression on Ye Feng's heart.

Although Ye Feng was the crown prince of the Creation God Dynasty three thousand years ago, due to the cursed body, his body was weak and he was always trapped in the palace, never seeing the magnificent mountains and rivers and super strong people outside.

The only thing Ye Feng witnessed was the occasional actions taken by his father, Emperor Ye Qing.

But in this life, Ye Feng was able to see and experience the magnificent battles and martial arts journey with his own eyes, which made him feel extremely excited.

"Okay, let's keep going."

The Immortal King returned to his throne at this time.

The entire golden convoy continued to drive high in the sky as if nothing had happened.

At this moment, many creatures hiding in the depths of the wilderness, waiting for opportunities to take advantage of this war, could not help but shrink their heads and did not dare to show up again.

After all, this human race's Immortal King's combat power is really frightening.

...

The golden fleet traveled at high speeds without any obstacles or blockages. It passed through cities and mountains and rivers in the territory of the Lihuo Empire. Finally, on the seventh day, it arrived in front of a huge and towering ancient city.

The ancient giant city was composed of large cities, stretching tens of thousands of meters across the land. It looked like a giant beast, lying on the ground.

Above the ground.

The city walls, which look like cast steel, tower into the sky. The entire giant city complex is extremely majestic, deep, and indestructible.

Here is the imperial city of Lihuo Empire!

When Ye Feng's soul left his body in Emperor Dragon City and communicated with the creatures of heaven and earth, the central area far away from the Fire Empire that his soul saw was a pillar of divine light that spanned the sky. In the city.

"Let's land."

The King of Immortality was sitting on the throne and suddenly made a sound.

When they arrived at the Imperial City area of the Lihuo Empire, even the noble Immortal King had to land his golden convoy and could not fly openly in the Imperial City area. ??

The entire imperial city is composed of countless ancient cities united to form a super imperial city.

Therefore, the entire imperial city area is extremely prosperous.

Moreover, the Lihuo Empire is located on the northern border of the wilderness, on the edge of the wilderness, and is at the border with the wilderness.

So Ye Feng and others discovered that in addition to the human race, there were also many strong men from the barbarian race in the imperial city, as well as big demons from the wilderness, who had transformed into human beings and were walking around and doing various transactions. .

The King of Immortality let the golden convoy leave first, and he personally led Ye Feng and the geniuses to walk in the imperial city.

At this time, the Changsheng King seemed to see the doubts of the young people. He couldn't help but smile and said: "Our Lihuo Empire is very tolerant and is located on the edge of the wilderness. Naturally, it is inevitable to interact with some large tribes of barbarians, as well as The various demon clan forces in the depths of the wilderness are closely connected. As long as they are not hostile to our human race, the barbarians or the demon clan of the wilderness, our Lihuo Empire is very welcoming, and this is why our Lihuo Empire has always maintained prosperity. s reason."

When everyone heard the explanation from the Immortal King, they suddenly felt enlightened.

No wonder many ordinary civilians in the imperial city were not afraid at all when they saw those strong barbarians more than ten meters tall, as well as some semi-transformed monsters with human bodies and tiger heads. They were obviously not surprised and were used to it.

A group of people followed the Changsheng King and took a tour of the imperial city.

After the prosperous scene, they finally arrived at the destination of their trip, Changsheng Mansion!

The Changsheng Mansion is extremely majestic. The gate of the mansion occupies a full dozen meters in width. The whole porch is made of gold, with carved dragons and phoenixes, which is very noble.

The Immortal King did not show much majesty in front of the young people. After all, these few people are now considered disciples of the Immortal King.

The King of Immortality noticed the astonished looks in everyone's eyes as they looked at the magnificent gate made of gold. He couldn't help but smile and said: "I am a common man, so this is the only thing I want."

After the words fell, a group of young geniuses immediately complimented him: "Your Majesty is an upright man, unlike those hypocrites in the court. We are really lucky to be able to enter the Changsheng Mansion."

Ye Feng also has some favorable impressions of the Immortal King. Not only did the Immortal King save his life, but the Immortal King's unparalleled combat power and unhypocritical character made it easy for people to have a favorable impression of him.

"The Immortal King rose in the wilderness and grew up from an ancient human tribe. He naturally has a bold personality." Bai Yu, the first genius of Jusword City, came to Ye Feng's side and said with a soft smile.

"Jianyi."

Suddenly King Changsheng spoke to the inside of the mansion.

Uh-huh!

Suddenly a stern young man holding an ancient sword appeared.

He clasped his fists and said in a cold voice, "What instructions does the prince have?"

The King of Immortality looked at the ten young geniuses behind him, as well as the guards and maids who came with the young geniuses, and said: "Jian Yi, please arrange the accommodation for these people, and then let me choose this time before noon. The ten young people who came out gathered at Changsheng Villa, and you have to tell them the rules here. "

After the words fell, the figure of the Immortal King moved and disappeared from everyone's sight.

The stern young man named Jian Yi glanced at the crowd and said in a calm tone: "Come with me. Entering the Changsheng Mansion does not mean that you can sit back and relax. If you can't grow up as soon as possible, you will be killed by the prince." Kick out of Changsheng Mansion, the rules here are very strict, I will explain them to you one by one. "

Chapter 553 Little Dragon Veins

Jianyi led everyone towards the deep area of Changsheng Mansion.

Along the way, everyone saw many golden buildings, which were shining with gold. It seemed that the Immortal King really liked gold.

Half an hour later, everyone followed Jian Yi through the various pavilions and palaces of the vast Changsheng Mansion, and arrived at a barren mountain at the back of the Changsheng Mansion.

This barren mountain is full of signs of desolation and dilapidation, which seems to be incompatible with the golden and brilliant buildings of the Changsheng Mansion along the way.

However, everyone felt an extremely rich spiritual energy from heaven and earth from this barren mountain.

Even on some ground in the barren mountains, there is a golden light, which shines through the cracks in the soil on the ground, looking extremely magical.

Jian Yi said indifferently: "This seems to be a barren mountain, but it is a treasure land. Under this barren mountain, a small dragon vein has been sealed by the King of Eternal Life. Therefore, if you practice in this barren mountain area, you will not only have ten times the spiritual energy of the outside world." The concentration can also be nourished by the dragon veins of heaven and earth, which is of great benefit to martial arts practice. "

"Little dragon vein?"

"There is actually a small dragon vein buried under this seemingly shabby barren mountain?"

Everyone was shocked.

Ye Feng's eyes also lit up. Although the little dragon vein is not a dragon creature, it is the destiny dragon vein bred by heaven and earth after all. Shang is the body of the demon dragon. Maybe this little dragon vein can revive Shang.

However, it is necessary to find the source of this small dragon vein, because only the source of a dragon vein will produce the purest dragon vein energy and energy.

Ye Feng hesitated for a moment, and finally asked: "Senior Jianyi, could you please tell me where the small dragon veins in this barren mountain come from. I heard that the source of the dragon veins has the purest dragon vein energy. It has a miraculous effect on spiritual practice."

"You know a lot."

Jian Yi glanced at Ye Feng in surprise, and then explained: "Behind this barren mountain is the Changsheng Villa, which is where you will live for some time to come. The source of the Little Dragon Veins is in the center of the Changsheng Villa. "

\u003e

At this time, Jianyi led everyone over the barren mountain, and the scene in the mountain behind suddenly appeared in everyone's field of vision.

"Why are there so many people?"

At this time, a young genius couldn't help but exclaimed.

At this time, in the back mountain area of the barren mountain, there are bronze palaces, huge martial arts arenas, competition platforms, training towers, climbing ladders, etc., which are all special buildings to assist warriors in their training.

However, what shocked Ye Feng and others was that in the back mountain area, there were young people, both male and female. They were all wearing uniforms of Changsheng Palace disciples and were practicing there.

There are estimated to be thousands of young people active in the entire back mountain area.

Jian Yi spoke up at this time: "Don't be surprised, they are just like you, they are young people with peerless talents recruited by the King of Immortality from the entire Lihuo Empire, and even from the vast land outside the Lihuo Empire. So if you want to stand out, the process is still very long."

At this time, Jian Yi looked specifically at Ye Feng and said, "Didn't you just say that you wanted to know where the source of the small dragon veins in the entire barren mountain is?"

As he said that, he pointed his sword into the air at the back of the mountain.

Everyone followed the direction of his finger and immediately saw nine silver pavilions floating in the sky. They were really castles in the air, standing above the clouds and mist. It was obvious that they had spent a lot of effort to use the suspended formation to surround these nine silver pavilions. It's suspended high in the sky.

At this time, Ye Feng immediately saw that nine golden dragon veins of energy, like golden chains, broke out of the ground and connected nine silver castles in the sky.

Jianyi said: "The energy of the source of the nine small dragon veins has been divided up by the nine castles in the sky. Therefore, if you want to bathe in the source energy of the small dragon veins and practice, you must practice hard and grab the energy.

Seize the right to use nine castles in the air. "

A young genius couldn't help but ask: "How can we seize the right to use the nine space pavilions?"

Jian glanced at him and said, "I've already said it, snatch it."

"Snatch?" ??

Everyone's eyes changed slightly.

Jian Yiyi said: "Challenge the owners of the nine castles in the air. If the challenge is successful, you will get the right to use the castles in the sky and become one of the nine deities of the

Changsheng Villa. Not only can you occupy a castle in the sky, but you will also receive abundant resources from the Changsheng Mansion, and even It's the prince who will personally guide your cultivation.”

The moment Jian Yi finished speaking, the ten young geniuses, including Ye Feng, couldn't help but stare at the nine noble air castles made of pure silver, their eyes showing anticipation.

Jianyi couldn't help but nodded with satisfaction when he saw everyone's fighting spirit.

When King Changsheng established the Changsheng Villa, he also spent a huge price to draw out the source energy of the nine small dragon veins and build nine castles in the air, just to stimulate the enthusiasm of the young geniuses in the Changsheng Villa.

Now it seems that every time a new person comes to Changsheng Villa, they will be attracted by the nine castles in the sky, and the effect is still very good.

Ye Feng naturally hopes to get the right to use the castle in the air at this time. Not only will it be of great benefit to his own practice, but it will also have a great possibility of reviving the old demon dragon.

As for the legendary Immortality Pond in the Eternal Life Mansion, Ye Feng has no idea for the time being.

Because along the way he heard from people around him that the Changsheng Pond had undergone tremendous changes half a year ago.

It is said that the entire Immortality Pond was secretly released by a Blood Demon Lord from the Blood Demon Clan among the extraterrestrial demons, polluting the entire Immortality Pond.

This left the Immortal King, who was extremely capable, with no way to recover. He could only seal the Immortal Pond permanently and no longer open it to the outside world.

Many people feel it is a pity that a precious pool of immortality was destroyed by the Blood Demon.

The source was completely destroyed by pollution.

This also means that today's Eternal Life Pond is no longer a paradise, but a pool of blood demon. As long as ordinary people are contaminated with a drop of water in the pool, they will be infected with the blood demon's energy and become possessed.

When Ye Feng heard the news, he was a little disappointed. He didn't expect that the Changsheng Pond was blocked.

However, the Eternal Life Pond was contaminated by the source of the blood demon, but it had no impact on Ye Feng at all.

Ye Feng practices the Divine Art of Creation, and his body is like a furnace of heaven and earth. It can contain the power to devour any attribute in the world. Even the energy of hell can be swallowed and refined. Is there anything that Ye Feng can't swallow?

Therefore, Ye Feng could only think about waiting for him to get familiar with the Changsheng Mansion to see if he could sneak into the sealed Changsheng Pond.

After all, the Immortality Pond contains infinite power, which is of great benefit to the accumulation of martial arts origins and the growth of the saplings of the Immortality Tree in one's body.

Ye Feng naturally hopes that the Immortal Tree sapling will grow up quickly.

The last time Ye Feng's entire body and flesh were destroyed by the thunder of heavenly tribulation, leaving only a skeleton, it was all because the life energy of the Immortal Tree was restored.

If the Immortal Tree completely grows in his body, Ye Feng will have immortality!

"You are newcomers to Changsheng Villa, so the place to live can only be in the bronze halls built at the edge of the back mountain. You can choose it yourself."

At this time, Jianyi made a sound.

Uh-huh!

After he finished speaking, he jumped up and disappeared into the villa.

"Let's go."

Ye Feng walked towards a bronze palace on the edge with You Lian.

"Let's hurry up and select the bronze palace."

Several other young geniuses also walked towards the back mountain with their respective guards and maids, and began to choose their own place to live.

Chapter 554 The Fourth Spiritual Realm

In the next few days, Ye Feng lived in his bronze palace and practiced quietly.

Youlian took out an ancient book from the storage spirit ring, which seemed to be about the soul path. She sat next to Ye Feng and read quietly.

In the past few days, Ye Feng has been wandering around the entire back mountain area, and he has almost figured out the entire back mountain situation.

The young prodigy who can enter Changsheng Villa must have a minimum martial arts cultivation level of the first spiritual realm of the Vientiane Realm, and must have special talents in some aspects.

Therefore, all the young geniuses in the Eternal Life Villa are not bad, and they all have their own powerful trump cards.

The nine top geniuses living in the nine castles in the sky are called the "Nine Lords". They are all powerful beings in the first level of the Divine Aperture Realm, and no one dares to mess with them.

Ye Feng knew that his current cultivation level was still too weak, so he was overestimating his ability to challenge Jiu Zun now.

So for the next half month, Ye Feng concentrated on practicing and didn't care about worldly affairs.

In fact, the state of most of the young geniuses in the entire Changsheng Villa is very similar to Ye Feng.

They are like puppets, practicing, eating, sleeping, etc. every day.

Although there are thousands of people living in the entire Changsheng Villa, the atmosphere every day is quiet and strange.

Everyone is silently accumulating strength and doing everything possible to improve their cultivation, so that they can be favored by the King of Changsheng and truly become the core figures in the Changsheng Mansion.

Everyone's enthusiasm is very high, because among the young geniuses recruited by the last Immortal King, some of them were arranged by the Immortal King to join the core guards of the Immortal Mansion because of their outstanding performance, and became the guard commanders.

The guard commander of the Changsheng Mansion is definitely a big shot in the imperial city of the Lihuo Empire. Who wouldn't show respect to him?

He is a real big shot!

Time is like quicksand, passing quietly through your fingertips.

In the blink of an eye, another half month has passed.

This night.

Ye Feng sat cross-legged in his bronze palace.

At this time, he finally spent a whole month to successfully communicate with the three remaining Holy Spirits of Heaven and Earth except Qinglong, White Tiger, Xuanwu, and Suzaku in an instant.

That's right!

Tonight, Ye Feng will break through to the fourth spiritual realm of the Vientiane Realm at once!

"Buzz!"

Ye Feng's soul left his body again, passed through the dome of the bronze palace, and jumped into the night sky outside.

At this time, the entire Changsheng Villa and the entire back mountain area were in darkness.

But with Ye Feng's soul eyes at this time, he could see that the entire Changsheng Villa was bright.

Each light and shadow exists in Changsheng Villa, and the brightest light and shadow exists in the nine towers in the sky.

These lights and shadows shining in Ye Feng's soul eyes are naturally the soul lights of the young geniuses living in Changsheng Villa.

However, even for the genius who lives in the Nine Pavilions in the Sky, the light of his soul is very weak, and cannot be compared with Ye Feng, just like the light of a firefly to the bright moon.

Therefore, if a simple martial artist is not a true martial arts master, if he encounters a soul master of the same level, he will almost be tortured to death.

Ye Feng withdrew his gaze at this time, carefully comprehending the mighty immortal will of the Holy Spirit in the entire world.

Ye Feng had been preparing for a whole month, so at this time, his soul and spiritual thoughts spread out, and he immediately sensed three immortal and majestic Holy Spirits at the same time, existing in every corner of the entire world.

"boom!"

At this moment, the three terrifying holy spirit wills, White Tiger, Black Tortoise, and Suzaku, all turned into the light of heaven and earth and merged into Ye Feng's soul will.

"Buzz!"

At this time, Ye Feng, who was sitting in the bronze palace, suddenly shook his body and opened his eyes.

Eye.

Uh-huh! Uh-huh!

Two golden rays of light burst out from his pupils, directly piercing the solid bronze foundation, as simple as piercing tofu.

"Even my golden eyes have become stronger." .??.

Ye Feng murmured.

At this time, he had finally achieved the level of the Great Perfection of the Vientiane Realm and successfully communicated the will of the four holy spirits of heaven and earth.

Ye Feng has refined the four wills of Qinglong, White Tiger, Xuanwu and Suzaku into his own spirit.

Youlian was lying on a small bed not far away at this time, and opened her beautiful eyes in a daze.

The soul girl looked at Ye Feng, who was sitting upright in the darkness. His eyes were as golden as the sun, his blood and energy were as strong as a dragon, and his spirit and soul were as strong as iron. There was a trace of horror on her face.

"What a perverted guy..."

You Lian murmured, and then fell into sweet sleep again.

...

"Dong dong dong!"

Early the next morning, Ye Feng was awakened by a knock on the door.

"Who is it, so early in the morning?"

Ye Feng rubbed his eyes, got up and walked towards the door.

In the past month, he had not slept for a whole month because of his one-time breakthrough to the fourth spiritual realm of the Vientiane Realm last night.

After staying up late and working overtime every day, I finally successfully entered the Dacheng level of the Vientiane Realm last night.

So Ye Feng was ready to have a good sleep and replenish his almost depleted energy.

But he didn't expect that he hadn't slept for a few hours, and it was just getting dark, when someone knocked on the door so hard. Ye Feng naturally didn't have a good temper.

Youlian was sleeping on the second floor of the Bronze Palace, lying on the bed, so Ye Feng had to get up and open the door by himself.

"Squeak!"

The door of the palace was slowly opened by Ye Feng, and a head popped out from outside and said anxiously: "Yu

Haoxuan! Brother Yu! Come out quickly, someone is going to challenge Jiuzun! This is a big deal! Come and see! "

Before Ye Feng could react, he was directly dragged out by the owner of the head.

"Wait, I'm not dressed yet!"

Ye Feng shouted immediately. He saw that the person holding him was Bai Yu.

The number one genius of Giant Sword City has become very familiar with Ye Feng in the past month.

Some time ago, this guy accidentally saw Ye Feng practicing swordsmanship. At that time, Ye Feng was practicing the first sword move taught to him by Uncle Nan, the iron painted silver hook.

At that time, Bai Yu was so shocked by Ye Feng's iron-painted silver hook sword that he almost knelt down and immediately wanted to become Ye Feng's teacher and asked Ye Feng to teach him this sword.

Ye Feng was naturally very shocked. He didn't expect that this Bai Yu would really give up any face in order to practice swordsmanship. After all, he was the number one swordsman in Giant Sword City.

Both of them came from the top ten major cities, and they both had a great love for swordsmanship, so over time, Bai Yu became one of Ye Feng's few friends in Changsheng Villa.

"What? Someone challenges the Nine Lords to fight for the castle in the air? I want to see it too!"

You Lian, whose ear is astonishing, a beautiful silhouette instantly shot out from the second floor of the bronze palace.

Uh-huh!

The girl from the Soul Clan ducked directly to Bai Yu and Ye Feng. Her big eyes were full of excitement and said to Ye Feng: "Anyway, you also broke through to the fourth spiritual realm last night. Today you will also break through to the fourth spiritual realm." Let's grab a castle in the air and let me experience the feeling of living in the sky, like a free bird in a bird's nest. It will definitely be interesting. "

Ye Feng couldn't help but be speechless at You Lian's smiling voice.

This soul girl is really curious about everything.

But at this time, Bai Yu suddenly stiffened, his eyes flashed, and he suddenly stared at You Lian beside him, his expression changed drastically, and he shouted in shock: "What did you say? Brother Yu stepped into the door last night The fourth spiritual realm?"

Chapter 555 Dark Rules

Bai Yu heard what You Lian said at this time, and he couldn't hide the deep shock in his eyes.

Ye Feng looked at Bai Yu's shocked look and couldn't help but nodded slightly and said: "In the past month, I have been working tirelessly to understand the will of the Holy Spirit of Heaven and Earth. I indeed entered the fourth spiritual realm last night."

"hiss!"

Bai Yu, the number one genius of Giant Sword City, received the affirmation of the person in front of him and immediately took a breath of air.

After a month of preparation, he stepped directly from the first spiritual realm to the fourth spiritual realm?

This... is simply amazing speed!

You know, after Bai Yu himself entered the Wanxiang Realm, it took him a whole year and a lot of effort to move from the first spiritual realm to the third spiritual realm.

Because the Vientiane Realm is a very special realm, it does not require much accumulation of mana. What is needed is to use the most mysterious soul spirit to continuously communicate with the four holy spirits of heaven and earth.

Sometimes those with poor talent may have to communicate thousands, or even tens of thousands, of times before they can sense the hazy will of the four Holy Spirits.

Therefore, at the level of Wanxiang Realm, one cannot improve one's realm by relying on arrogant hard work.

Only those with super powerful soul perception and martial arts understanding can do this.

So thinking of this, Bai Yu admired Ye Feng so much that he fell to the ground. .

The great genius of Jusword City's admiration for Ye Feng was like a surging river, endless.

At this time, Bai Yu also suddenly thought of Ye Feng's super powerful fighting power.

Previously in Emperor Dragon City, when the top ten major cities were competing against each other.

The young prince of Ziyuan Hou Mansion seems to be in the first spiritual realm and can kill a third spiritual realm strongman like Chu Ba with one sword.

Moreover, you must know that Chu Ba also inspired a special Lei Yuan Hegemon Body at that time, and his combat power was comparable to that of an ordinary early stage powerhouse in the Divine Aperture Realm.

But he was still killed instantly with a sword!

Now Ye Feng has directly broken through to the fourth spiritual realm and achieved the great level of Wanxiang Realm.

So to what extent has his current combat power skyrocketed?

It's scary to think about it!

At this time, Bai Yu suddenly felt that what You Lian said was not a joke.

Now Ye Feng may really be able to directly challenge one of the Nine Lords and snatch a castle in the air.

"Brother Yu, this time we will first see how others challenge the Nine Lords. If possible, Brother Yu can really challenge the Nine Lords. If we can win a castle in the air, then I will go to your place to visit you. You can also dip your toes in the light and absorb some of the dragon's energy!"

At this time, Bai Yu didn't feel embarrassed at all, he just laughed and said.

"How shameless."

You Lian rolled her eyes and couldn't help but complain.

"Hey, sister Youlian, I'm not being shameless, but I have a deep brotherly relationship with Brother Yu. Good brothers, we naturally share the blessings."

Bai Yu stared at Ye Feng and said with a smile: "Brother Yu, are you right?"

"Whether we can grab the castle in the air or not, let's see what happens when the time comes."

At this time, Ye Feng actually had this idea in his mind, because he needed the energy of the dragon source so much.

But after all, the Nine Masters are all powerful men at the Divine Aperture Realm level.

And they are all powerful geniuses from the Lihuo Empire, or even from outside the Lihuo Empire.

They must all have their own peerless inheritance and methods.

Probably not that easy to deal with.

But Bai Yu said that someone happened to challenge Jiu Zun today.

Go and see for yourself first.

Only by knowing your enemy and yourself can you be victorious in every battle.

...

Soon, the three of them arrived at the center of Changsheng Villa.

A lot of people have gathered here at this moment.

Everyone's eyes were staring at the nine castles in the sky made of pure silver, their eyes full of desire.

Obviously, all the young geniuses in Changsheng Villa covet the castle in the air.

After all, every castle in the air is connected to the energy of a dragon source, which is of great benefit to cultivation.

Many young geniuses are basically in the third or fourth spiritual realm.

If they want to break through to the true divine realm, they must open an orifice in their own bodies.

The Dragon Origin Qi that bursts out from the small dragon veins has a huge assistive effect on the warrior opening the acupoints in the body.

The human body is like a dragon, with hundreds of orifices. Warriors in the divine orifice realm must constantly open up all the orifices in the body.

Opening the ten orifices means stepping into the first level of the divine orifice realm.

Opening twenty orifices means reaching the second level of the divine orifice realm.

Therefore, in the divine orifice realm, a total of hundreds of orifices need to be opened.

After all the apertures reach the divine realm, one will reach the tenth level of the divine aperture realm.

At that time, the warrior will be able to stimulate the power of all apertures to connect with the gods, forge his own martial arts domain, and develop his own small martial arts world in the body, called "Dongtian".

Dongtian Dongtian, as the name suggests, means that the human body is like a cave.

That level is the Cave Heaven Realm that transcends the Divine Aperture Realm.

At the Cave Heaven level, the stronger the talent of a warrior, the more caves he can open.

Some martial arts

The person's talent is weak and can only open one cave.

However, some warriors are extremely talented and can open five or even six caves.

The greater the number of caves, not only means the more terrifying the talent, but also the stronger the warrior's combat power in the caves.

According to ancient historical records, the upper limit of the Cave Heaven Realm is nine Cave Heavens.

The talent represented by the nine caves is naturally amazing and unparalleled throughout the ages. It is a terrifying talent that the ancient emperor only had when he was young.

Of course, for Ye Feng, the Cave Heaven Realm is still too far away now. The Divine Aperture Realm requires opening all the human body's orifices, which is already a huge project.

Some people spend their whole lives unable to open all the body's orifices, and eventually their lifespan will be exhausted and they can only die of old age in the realm of divine orifices.

Ye Feng was standing in the crowd at this time, looking towards the nine towers in the sky that were shining with pure silver light.

The dragon's energy in every air castle is extremely powerful and majestic, making Ye Feng yearn for it.

"Brother Yu, look, there are several people who want to challenge Jiu Zun today. I don't know if anyone can succeed."

At this time, Bai Yu was staring at several figures with powerful auras not far away, his eyes filled with unstoppable excitement.

You Lian, a soul girl who was curious about everything, her beautiful eyes were shining with interest as she looked forward.

At this time, on the huge competition stage not far away, two men and one woman, all wearing uniform black uniforms, looked towards the sky.

Among the three, a tall, sturdy young man with a strong waist and a strong back chose to be the first to take action.

He held a snow-white ice ax and looked toward the sky.

Each of the nine castles in the sky and the portals have a number engraved on them.

From one to nine, it seems to represent the ranking of the nine gods.

Obviously, the higher the ranking of the pavilion, the more powerful the people living in it.

The higher the ranking of the castle in the air, the richer the dragon source energy.

At this time, the eyes of the sturdy young man holding a huge ice ax finally stopped at the fifth castle in the air.

He sounded serious and said: "Beiming Haotian, I want to fight you."

"Beiming Haotian!"

The moment everyone heard the strong man's words, their eyes showed a hint of surprise.

"This person is really brave and dares to provoke Beiming Haotian."

"Beiming Haotian is the most amazing and talented disciple of this generation of the super wealthy Beiming family. And most importantly, Beiming Haotian has inherited the Beiming family's most precious treasure, which is a very powerful set of ancient armor."

At this time, many people around

There was a lot of discussion.

Uh-huh!

At this time, a handsome man wearing purple mysterious clothes suddenly jumped down from the fifth air castle.

This young man is indeed very handsome, even so handsome that he is almost evil.

He stared at the sturdy young man at this time, with a smile that seemed to be disdainful at the corner of his mouth, and said: "You are so courageous that you dare to provoke me. Don't you know that if I hadn't been at the critical moment of cultivation, the top three I wanted to grab the pavilion, but I've already grabbed it."

The moment this handsome young man finished speaking, many people on the field were shocked.

What a crazy tone!

But this handsome man is qualified to say this.

Because he is Beiming Haotian, he has this qualification!

When the successor of this super-rich clan was selected by the King of Immortality, the King of Immortality was full of praise, saying that Beiming Haotian was the one who had the best chance of becoming the strongest person in the entire Lihuo Empire.

Because the Five Elements Holy Technique practiced by Beiming Haotian represents the five most original attributes of power in the world. The more you practice to the end, the stronger the power will be, and it has unlimited potential.

Beiming Haotian said lazily: "I'm actually too lazy to come down, but naturally I'm too embarrassed to refuse the wealth that comes to me for free."

The strong man was extremely serious at this time and said: "Beiming Haotian, since I'm here, I'm ready to die. If I win, I will soar into the sky. If I lose, I will die." I also accept the consequences of being robbed of wealth."

Wow!

The moment the burly man finished speaking, the entire venue suddenly fell into a boil.

Challenging the Nine Lords, the consequences of failure are death and the plunder of one's wealth?

Many geniuses in Changsheng Villa, like Ye Feng and others, are newcomers and do not know this rule.

Now that they knew it, their eyes immediately became different, and there was a kind of fear.

Even Ye Feng, who was standing in the crowd, couldn't help but his eyes changed slightly when he heard the strong man's voice.

The rules of challenging the Nine Lords are so cruel?

"This kind of dark rule was formulated by the prince himself. When you come to the Changsheng Mansion and enter the Changsheng Villa, if you want to make progress and become a master, you must step on the bones and climb to the top!"

Suddenly Jianyi appeared on the field. The manager of Changsheng Villa, dressed in white and dressed in snow, had a free and easy temperament, but his tone was full of cold edge and cruelty.

He stared at the two people in the huge martial arts arena and said indifferently: "I will personally witness the process of challenging the Nine Lords. The winner will live and the loser will die. You can start now."

Chapter 556: Five Elements Inheritance

The moment Jian Yi finished speaking, the thousands of young geniuses on the field suddenly fell silent.

There were looks of fear on many people's faces, and they were obviously frightened by the dark rules mentioned by Jian Yi.

Originally, there were many young geniuses who wanted to try to challenge the Nine Masters today, but they all took a few steps back silently.

Obviously these people didn't know that challenging the Nine Lords would have such serious consequences.

The winner lives, the loser dies!

At this time, many young geniuses who have newly entered Changsheng Villa finally began to realize that wanting to eventually become that high-ranking big shot is full of endless dangers.

"Take action, I'll give you a move."

At this time, Beiming Haotian's eyes showed a hint of disdain and he spoke lightly.

"Although you are one of the Nine, it does not mean that I challenge you. I have waited too long for this day!"

The strong man suddenly roared.

boom!

His body suddenly burst out with a majestic martial arts aura.

"First level of Divine Aperture Realm!"

At this moment, the expressions of many people present suddenly changed, and then they couldn't help but exclaim.

"Hahaha, I have already surpassed the Vientiane Realm and entered the first level of the Divine Aperture Realm, just for today!"

The strong man seemed to be a strong man with brute strength.

But at this time, his eyes showed a hint of cunning, and he said: "Beiming Haotian, I know that you have been meditating on a powerful inheritance recently, and your cultivation power is unstable, so I caught it. This opportunity, now, you can die!"

boom!

After the strong man revealed his huge ambition and calculation, he immediately took action, as if he couldn't wait to tear Beiming Haotian into pieces.

One of the two had a disdainful tone, and the other was thoughtful. Neither of them was a simple person.

"Blizzard Giant Ax!"

"The sky and the earth split apart!"

A strong fighting spirit erupted from the strong man. He held the ice ax in his hand and struck Beiming Haotian directly with the axe.

boom!

The terrifying ice and snow storm suddenly rushed out from the axe, condensing a huge ice crystal axe blade high in the sky.

\u003c

br\u003e When the ax struck down, it seemed as if the entire world was about to be frozen, and then violently chopped into pieces!

Everyone was shocked by this horrific attack.

That ice ax is definitely a very terrifying and powerful weapon!

"Ants."

But at this time, Beiming Haotian just said two words coldly.

Facing the mighty ice and snow giant ax attack, he just smiled disdainfully.

"Buzz!"

Beiming Haotian directly stretched out a big hand, and five divine halos of different colors suddenly lit up around the big hand, wrapping around his arm.

That is the power of the five elements!

The moment the big hand surrounded by the light of the five elements touched the ice-cold giant axe.

Wow!

Countless snowstorms, ice crystals, ax blades, etc. all melted quickly and turned into nothingness, disintegrating in an instant.

"What? How is that possible!"

At this time, the strong and confident man was immediately shocked.

His expression changed, and he immediately retreated crazily. He finally understood how terrifying Jiuzun was, and his methods were truly magical to the extreme.

The five elements of light wrapped around Beiming Haotian's palm can disintegrate almost any attack and power.

How to fight this?

All the strong men retreated frantically, trying to escape from here.

As long as they can escape from this huge fighting platform, there is still hope of living.

"Are you thinking about escaping now? It's already too late!"

A devilish and cold smile appeared on Beiming Haotian's face. He instantly activated the surging power of the Five Elements in his body, and the Five Elements halo wrapped around his hand suddenly shone brightly.

boom!

That hand suddenly became extremely majestic, and even faster, passing through everything, and suddenly grasped the body of the strong man who was retreating.

"Senior Brother Beiming, please spare my life! I know I was wrong...ah!!!"

The strong man wanted to beg for mercy, but before he could finish speaking, his whole body suddenly

He let out a shrill scream.

Snap!

His legs were directly crushed into pieces by Beiming Haotian's big five-element hand.

This is a horrible pain!

When the many young geniuses around the fighting stage saw this scene, their faces showed fear.

Jianyi stood beside the martial arts platform, watching this scene with cold eyes, his expression expressionless and without any emotion.

"Meteor burst!"

The strong man whose legs were crushed still wanted to live. He roared, and a meteor-like divine light suddenly burst out from his dantian.

boom!

A surging and powerful gas burst out, causing the strong man to flee quickly in the distance.

Uh-huh!

Almost at that moment, the sturdy man suddenly appeared among the crowd under the fighting stage.

"Five elements of great power!"

"Mountain Capture!"

Beiming Haotian's eyes were cruel, and with his crazy power, every finger immediately became as majestic as a pillar of heaven.

Even the skin on the palms began to petrify and become as stiff as iron!

"boom!"

In the end, the attack turned into a majestic five-finger mountain and bombarded directly in the direction of the strong man under the martial arts platform.

You must know that at this time, the strong man fled to the crowd area under the fighting stage, and there were many other young geniuses around him.

Beiming Haotian's attack, bombarded by the huge and majestic Wuzhi Mountain, will definitely affect Chiyu, and will blast all the dozen young geniuses around the burly man to pieces.

Beiming Haotian's eyes showed no scruples at this time, and he was completely lawless.

There was a cruel smile on his face, and the life and death of other people were like ants in his eyes, which he could trample on at will.

"Damn it!"

At this time, the majestic Five Elements Mountain was about to bombard them. The terrifying pressure made it impossible for the dozen young geniuses around the strong man to escape.

Bai Yu happened to be beside the strong man at this time. He instantly felt a terrifying coercive weight on his shoulders, which was as heavy as a million pounds.

His body was even "crunching", and his bones

My head is about to break.

He couldn't move at this point, let alone escape.

Jian Yi didn't make the slightest move. In his eyes, perhaps these were a kind of "trial" in Changsheng Villa.

boom!

The big hands of Five Elements Mountain were about to completely bombard them, wiping out all the burly men and a dozen innocent young geniuses.

"Qiang!"

But suddenly at this moment, a sword light suddenly appeared in the darkness like lightning, shattering the sky.

"boom!"

The iron painting's sharp edge like a silver hook instantly split the Five Elements Mountain Hand in half, and then exploded into countless fragments that dissipated between heaven and earth.

"call!"

At this moment, everyone breathed a sigh of relief.

"Um?"

Beiming Haotian's eyes suddenly changed, and he immediately stared at a young figure in black who didn't know what appeared at the front of the area.

"Brother Yu!"

When Bai Yu saw the person who made the move, he immediately looked overjoyed.

He had just walked away from the gate of hell, and now he was covered in cold sweat.

Ye Feng slowly sheathed the long sword in his hand, glanced at Beiming Haotian indifferently, and said nothing. Instead, he turned to look at Bai Yu and said, "Let's go."

Bai Yu nodded quickly. He didn't want to stay here for a second now.

"Who is this person? That sword strike just now was so strong!"

"The sword's light was like lightning, and it shattered Beiming Haotian's five-element hand in an instant, at least the Dzogchen Sword Emperor!"

"Looking at his age, he is only eighteen or nineteen years old. He should be a newcomer. When did such a terrifying newcomer come to our Changsheng Villa? We haven't discovered it until now."

...

At this time, many people around him had expressions of horror and shock in their eyes.

They are all young talents from all over northern Xinjiang, and they are all top talents in the area.

They are not ordinary warriors, so at that moment, many people saw the real amazingness of that sword.

Swish, swish, swish!

Almost at this moment, eyes full of surprise and shock were focused on Ye Feng.

Chapter 557 Not Qualified

"Cut off my Five Elements Hand with one sword? That's pretty cool."

Beiming Haotian suddenly let out a cold laugh.

He stared at Ye Feng's back and took action directly without any scruples.

"The light of the five elements!"

"Lock sleepy!"

Beiming Haotian shouted loudly. He pointed his finger high in the sky. Five haloes of divine light of different colors exuded rich attribute power, representing the five basic attribute powers of metal, wood, water, fire, and earth. All of a sudden, they descended from high altitude and swept Ye Feng to the sky. Shrouded.

Buzz!

At this moment, the five-element halo in the space around Ye Feng actually emitted a terrifying attribute frenzy, rushing towards Ye Feng, destroying all the various elements contained in Ye Feng's body.

There are various elemental powers in the human body, and the five elements are even more essential.

This Beiming Haotian's Five Elements inheritance is really terrifying and weird. It has terrifying abilities. It can actually disintegrate the Five Elements elements in living beings, and can make people's bodies collapse in an instant.

"What a cruel method!"

Many people around him had shocked and angry eyes.

Bai Yu even yelled: "Beiming Haotian, Brother Yu has not even stepped onto the fighting stage. You have violated the rules of Changsheng Villa by taking action like this!"

"rule?"

Beiming Haotian immediately burst into sarcastic laughter: "The rule of Changsheng Villa is that the strong can control the life and death of the weak! Did you see the sword move?"

At this time, Bai Yu looked towards Jianyi and found that the manager of Changsheng Villa did not move at all, but just stood there steadily.

Jian Yi said indifferently: "Beiming Haotian is one of the nine deities. He is no longer an existence that I can manage. He can violate the rules."

"you.....!"

Bai Yu immediately looked extremely frightened and angry. His eyes were red and he had endless regrets. He regretted that he should not have brought Ye Feng here to watch the fun today.

"Don't worry, he's very strong, he's not as fragile as you think.

weak. "

Youlian suddenly walked up to Bai Yu at this time, with a slight smile on her beautiful face, seemingly without the slightest worry.

"you sure?"

Bai Yuzheng wanted to ask something.

"boom!"

But suddenly at this moment, an extremely violent momentum suddenly burst out from Ye Feng's body.

"Five Elements Halo? It's interesting, but if you want to kill me, you're far from qualified!"

Ye Feng roared loudly, and his whole body suddenly erupted with divine light.

The glazed battle body explodes!

Ye Feng's body, which looked like it was made of crystal, contained endless brute strength.

At this time, under the horrified eyes of countless people, Ye Feng stretched out his hands, grabbed the Five Elements Halo, and then tore it apart with all his strength.

"Boom!"

The monstrous brute force exploded, and the five-element aura that could disintegrate the bodies of ordinary divine orifice warriors was torn into pieces by Ye Fengsheng at this moment.

"hiss!"

Everyone who saw this scene couldn't help but gasped in shock.

At this moment, Ye Feng's whole body was filled with divine light, his black hair was dancing wildly, and his momentum was overwhelming.

He suddenly turned around, his golden pupils instantly fixed on Bei Ming Haotian on the martial arts stage, and said in a bone-chilling voice: "You almost killed my friend Bai Yu just now. I originally wanted to settle the score with you after a while, but You used such ruthless means to kill me, so take revenge today!"

boom!

Ye Feng took a sudden step, and as the entire hundred meters of land beneath his feet shattered, his body flew to the fighting stage in an instant.

Ye Feng held a long sword in his hand and pointed it at Beiming Haotian. His voice was cold and he said: "Heir of a super powerful family? One of the Nine? An existence that tramples on the rules? Despises everything? That's good! I'll kill one today for everyone to see. !"

Wow!

The moment Ye Feng finished speaking.

The entire field suddenly fell into a boil. "Cut off my Five Elements Hand with one sword? That's pretty cool."

Beiming Haotian suddenly let out a cold laugh.

He stared at Ye Feng's back and took action directly without any scruples.

He suddenly turned around, his golden pupils instantly fixed on Bei Ming Haotian on the fighting stage, and made a voice as cold as ice: "You almost killed my friend Bai Yu just now. I originally wanted to settle the score with you after a while, but You used such ruthless means to kill me, so take revenge today!"

boom!

Ye Feng took a sudden step, and as the entire hundred meters of land beneath his feet shattered, his body flew to the fighting stage in an instant.

Wow!

The moment Ye Feng finished speaking.

The entire field suddenly fell into a boil.

Chapter 558: Great Five Elements Armor

Ye Feng's words were extremely overbearing.

Even more overbearing than Bei Ming Hao Tian!

The feeling given to everyone was like, you are crazy, I am more crazy than you!

At this time, Bei Ming Hao Tian's eyes finally revealed a trace of gloom, he said coldly: "Your swordsmanship is good, but compared with me, it is still far behind."

Ye Feng smiled faintly and said: "Whether it is far behind or not is not up to you, but your fists."

"Ignorant boy, then I will let you know how serious the consequences of angering me are!"

Bei Ming Hao Tian shouted coldly, and the whole person rushed towards Ye Feng at once.

His speed was very fast, and at this time he punched out suddenly, and the earth attribute power in the five elements burst out.

"Boom!"

Under Ye Feng's feet, the ground suddenly burst open, and a huge mud hand stretched out suddenly, extremely heavy, pinching Ye Feng at once.

Clang!

The purple flame sword in Ye Feng's hand was directly wrapped by a piece of mud, and then fell to the ground.

"I have the inheritance of the five elements, and this world is my help. Boy, you are a sword cultivator, and you can't even use your sword. What can you use to fight me?"

When Bei Ming Hao Tian saw the sword in Ye Feng's hand fall, he laughed sarcastically.

"Sword of Fire!"

Bei Ming Hao Tian shouted loudly, and he grasped the air, and the fire attribute power in the air condensed together and turned into a giant flaming sword. He held the flaming sword and chopped it down in the air, trying to tear Ye Feng apart directly.

"I am in the strongest state when I lost my sword."

Ye Feng stared at Bei Ming Hao Tian who rushed over, but a cold smile suddenly flashed across his mouth.

"Acala Power!"

Boom!

Ye Feng roared, and a hundred-meter-tall phantom of the Ming Wang appeared around him. The big hand

contained tremendous power, and in an instant, it broke the mud hand that was holding his body apart.

"Ancient Dragon Elephant Fist!"

Ye Feng punched out directly, and the torrent of power of thousands of evil beasts dragons and elephants rushed out instantly.

Boom!

It was like a torrent of steel, and it rushed to Bei Ming Haotian's body.

"Crack! Crack!"

The flaming giant sword in Bei Ming Haotian's hand was directly shattered by the impact, and he was blown away in an instant.

"What? You are a sword cultivator, why is your body so terrifying, like a wild dragon evil beast!"

Bei Ming Haotian made an incredible sound in an instant.

"As for this question, when I kill you, you can ask the King of Hell yourself."

Ye Feng blasted out with a palm, and once again performed a set of terrifying and powerful martial arts.

"Burning Sky Palm!"

This is a set of elementary-level martial arts, which was activated by Ye Feng's powerful power.

Boom!

A flaming hand that could cover the sky suddenly bombarded from the sky.

Like an extraterritorial star, it fell from the sky, crashed into the earth, and could break the mountains and rivers.

"Boom!"

Bei Ming Haotian was hit by the Burning Heaven Palm in an instant, and the whole person was wrapped in a sea of flames.

"What a powerful attack!"

At this moment, countless people around were simply stunned.

Originally, they thought that Ye Feng would have a hard time resisting Bei Ming Haotian's attack. After all, Bei Ming Haotian's inheritance was so magical that it could disintegrate everything.

But now, no one would have thought that Ye Feng would be so fierce. A series of attacks were like the roar of an angry god, and he didn't give Bei Ming Haotian a chance to react at all.

"Boy, you are very good... You actually hurt me..."

Suddenly at this moment, a low and hoarse voice suddenly came from the sea of flames.

Bei Ming Haotian's hair was charred black, and he stepped out of the sea of fire.

At this time, his whole body, every surface of his body, was covered with a thick layer of red and yellow armor.

Around the red-yellow armor, there are layers of five-element auras emitting dazzling light, namely golden aura, green aura, blue aura, red aura and earth-colored aura.

They represent the five elements of gold, wood, water, fire and earth respectively.

The five-element auras surrounding this armor are many times more powerful and powerful than the five-element auras condensed by Bei Ming Hao Tian himself through his magic power.

"Is the armor on him the legendary five-element armor?"

"Five-element armor! The treasure of the super-large Bei Ming family, a very rare half-step holy soldier-level armor treasure!"

"I didn't expect that Bei Ming Hao Tian would actually use this armor. It seems that he is really going to fight to the death!"

At this moment, countless people around were shocked.

They stared at the five-element armor on Bei Ming Hao Tian, and their faces showed expressions of envy and jealousy.

The Great Five Elements Armor is a stone armor made of extremely rare and precious Five Elements stones. When activated, a five-element attribute aura covers the entire body and has extremely high defense. In the early levels of the Divine Awakening Realm, with such a set of armor protection, one is almost invincible.

Beiming Haotian's eyes were extremely cold at this time, staring at Ye Feng, and said: "You can force me to use the Great Five Elements Armor. I have to say that you are indeed the top being in Changsheng Villa, but since I If you use the Great Five Elements Armor, you will not be defeated. Even Gai Wuya, who lives in the First Sky Tower, and his rune sword contains the power of ancient alchemical runes, cannot split my Great Five Elements Armor. So, you Dead!"

"Invincible defense?"

Ye Feng's eyes showed a hint of sneer and said: "Just because others can't break your turtle shell doesn't mean I can't break it."

"Turtle shell?"

When everyone heard Ye Feng's name for the Great Five Elements Armor, they couldn't help but almost burst into laughter.

"Boy, I won't allow you to insult the treasure of my Beiming family!"

Beiming Haotian was even more furious and said: "You can only live with your mouth now. I will trample you under my feet later, and you will know what despair is!"

boom!

Beiming Haotian rushed toward Ye Feng with strong strides. Every move he made seemed to have the power of the five elements between heaven and earth being used by him.

"Boom!"

"Boom!"

Beiming Haotian fully stimulated the power of the Great Five Elements Armor, and in an instant, big clay hands appeared on the ground, with the power of holding the sky, and they grabbed Ye Feng with a bang.

In addition, long rivers of flames appeared high in the sky, and vast oceans appeared on the ground. There were also weapons made of metal from countless geniuses around them, such as war swords, long knives, hammers, mountain-splitting axes, and bloody weapons. Didi... and so on, all were controlled by Beiming Haotian, who was wearing the five-element armor, and bombarded Ye Feng.

This kind of attack was really violent. Ye Feng stood there alone, helpless. It was as if he wanted to fight the entire world with one person's power!

Chapter 559 Infinite Brute Force

"Oops! This five-element armor is too powerful! It seems like the whole world is being used by Beiming Haotian!"

Bai Yu looked extremely anxious under the martial arts platform. He wanted to step forward to help, but he couldn't even touch the corners of the martial arts platform.

You Lian, a girl from the soul tribe, also had a serious look on her face at this time. The power of the Five Elements was indeed terrifying. The Great Five Elements Armor was really a very magical armor. Its defense was invincible and its attack was so fierce.

"If the world is against me, then I will use my fists to blast away the world!"

Ye Feng suddenly roared, and at this moment he no longer had any reservations.

The accompanying talents are crazy exciting.

He burned his majestic energy and blood, and ancient divine rings appeared in the space behind Ye Feng.

Hundreds of ancient divine rings floated in the back of Ye Feng's head, making him look like a young god descending into the world.

Each ancient divine ring can double Ye Feng's combat power.

At this moment, hundreds of ancient divine rings raised Ye Feng's combat power to an extremely terrifying level in an instant.

Hundreds of times more combat power!

Instant stacking!

"boom!"

At this moment, Ye Feng's entire body began to expand rapidly, becoming taller and bigger, and finally became a human giant dozens of meters tall that looked like it was made of glazed crystal!

"This is?"

"The legendary ancient fighting body of my human race!"

"He actually has the special physique of our ancient human race!"

At this moment, everyone was shocked by the scene in front of them.

Ye Feng's fighting power exploded wildly, and at this moment he turned into a human giant dozens of meters tall!

His body is indestructible, with muscles like a horned dragon. Every inch of flesh and bone is filled with a shocking sense of power, as if there is infinite divine power contained in every inch of his body.

brutal!

violent!

ferocious!

This is the moment when Ye Feng fully inspired Liuli's battle body to become a human giant.

"Boom!"

"Boom!"

At this moment, Ye Feng has truly become a

For a ferocious beast in human form.

He doesn't need any martial arts or weapons at all. His body is the most terrifying weapon.

Ye Feng's monstrous brute force allowed him to tear everything apart.

Wow!

Wow!

What kind of sea of molten fire, what kind of big clay hands, what kind of metal weapons... all these attacks were torn apart by Ye Feng's hands full of infinite brute force, as if they could poke a hole in the entire sky!

"What?!"

At this time, Beiming Haotian looked at the huge savage figure that looked like a humanoid beast with frighteningly developed muscles, and his face suddenly turned pale with fear.

He wanted to back away.

"boom!"

But at this moment, Ye Feng had already tore everything apart with his terrifying beast-like body, and his huge feet directly trampled Beiming Haotian to the ground.

"Aren't you crazy?"

boom!

Ye Feng's eyes were filled with blood, like a human demon, and he stepped down with a sudden kick.

Click!

Although the Great Five Elements Armor was not trampled to pieces, the terrifying concussive force penetrated the armor, causing Beiming Haotian's chest to crack with a click, breaking several ribs.

"No! Don't kill me!"

Beiming Haotian made a sound of fear.

"boom!"

But Ye Feng didn't speak at all. The ferocious giant's feet were full of shocking power and he stepped down again.

"Crack!"

The Five Elements Divine Rings on the Great Five Elements Armor suddenly dimmed.

Most of the bones in Beiming Haotian's entire body were shattered.

"ah!!"

Beiming Haotian screamed miserably, and blood began to flow from his eyes. He was obviously seriously injured.

"So cruel!"

Countless people around are watching

I was stunned, my whole body was shaking.

"No!"

At this time, Jian Yi suddenly came from a distance, with his hands behind his back, and said to Ye Feng in a condescending senior manner: "Beiming Haotian has a distinguished status, and he is the top genius in Changsheng Villa. If you kill him, Changsheng Mansion will suffer losses." It's too big, please stop."

"boom!"

But the moment Jian Yi finished speaking, Ye Feng laughed ferociously and stepped down with his third foot.

"Pfft!"

Beiming Haotian was directly shattered in the armor and died instantly. .??.

"you.....!"

Seeing this scene, Jian Yi's expression suddenly changed, and his eyes became extremely ugly.

Ye Feng's huge and ferocious giant body turned around, his red pupils staring at Jian Yi.

That terrifying ferocious aura made Jian Yi, a strong man at the sixth level of the Divine Aperture Realm, unable to help but feel a chill coming out of his body.

"Beiming Haotian can trample the rules. I killed him and am stronger than him. Why can't I trample the rules?"

A voice with deep domineering power came out of the giant's mouth. It was hoarse, but it had a chilling tone that made people fearful.

Jian Yi's expression changed for a while, but in the end he gave in, nodded, and said: "You are indeed qualified to trample on the rules. From now on, the fifth castle in the air will be yours."

After finishing his words, Jian left without looking back.

The nine-level prodigy's fight was no longer within his control, so he might as well leave to avoid losing face.

Ye Feng just lost his strength at this time, and his face was slightly pale at this time.

Although he had just turned into a little giant with infinite brute strength, the full stimulation of the ancient divine ring and combat body caused Ye Feng to consume a huge amount of energy.

But in the end, I won!

"Uh-huh!"

Ye Feng directly stretched out his hand to collect the Great Five Elements Armor into his bag, and then searched out an ancient book inheritance from Beiming Haotian's storage spirit ring, which was the Five Elements Holy Secret.

Ye Feng knows this magical skill.

There are definitely huge benefits to meditating and enlightening oneself.

"Too fierce!"

At this time, seeing Ye Feng collecting treasures, all the young geniuses in the martial arts arena seemed to have woken up from the shock just now.

After all, the ferocious little giant just now used infinite brute force and monstrous power to tear the world to pieces and kill Beiming Haotian. It was really shocking.

At this time, everyone suddenly had a new understanding of the term power.

"It's too fierce! It's too fierce!"

Bai Yu's expression was extremely excited at this time. He laughed loudly and said: "With such a brother, who dares to bully me when I am in Changsheng Villa in the future?"

You Lian, a girl from the soul clan, was also shocked. It was the first time she saw Ye Feng in such a violent state.

All along, in You Lian's mind, Ye Feng always had the gentle image of a humble gentleman.

But today, You Lian saw another side of Ye Feng. He became a violent little giant with incredible muscles. He could tear everything apart with just brute force. He was savage, ferocious, and cruel!

At this time, on the fighting stage.

At this time, Ye Feng secretly rejoiced in his heart. Fortunately, the clothes he was wearing were specially made by the Changsheng Mansion, and they could automatically expand and shrink as his body shape changed to adapt.

Otherwise, the clothes of the little giant who had just turned into a few tens of meters tall might have been torn and all of his clothes would be gone. That would not be good.

Ye Feng walked down from the martial arts stage at this time, and countless young geniuses around him took the initiative to get out of the way, seeming to welcome a young king.

Bai Yu is very proud to be Ye Feng's friend.

He immediately came over, punched Ye Feng in the chest, and said, "You can do it! You're so strong! I'm completely convinced!"

Bai Yu originally thought that Ye Feng was only powerful in swordsmanship, but he did not expect that the power of Ye Feng's body was simply terrifying to the extreme.

At this time, Bai Yu suddenly understood what Ye Feng had said before.

"I am the strongest when I lose my sword!"

Chapter 560 Awakening

In the next few days, Ye Feng tidied up and moved directly into the fifth air castle, replacing the original position of Beiming Haotian.

Youlian also moved in. This soul girl was the first to absorb the energy of the dragon source, and she immediately felt that her soul was sublimated.

Bai Yu also occasionally visits the Fifth Sky Pavilion to soak up some light and absorb some of the dragon's energy.

Ye Feng lives in a small room in the deepest part of the fifth air castle, and he tells You Lian not to let anyone disturb him.

You Lian was very angry and felt that she had become Ye Feng's maid.

But following Ye Feng, you can indeed see all kinds of different experiences, which makes the soul girl couldn't bear to leave like this, which would not be fun.

So You Lian eventually became Ye Feng's "maid" and protected Ye Feng's practice.

At this time, deep in the pavilion.

In the small room, there was only a futon on the ground, which was very simple.

Ye Feng was sitting cross-legged on the futon and was meditating on the trophies he had collected from Beiming Haotian, the Five Elements Holy Technique. .??.

This set of inheritance is very magical, allowing warriors to quickly sense the power of the five elements between heaven and earth, and use it to become their own means of attack and defense.

But what Ye Feng is most interested in is the method of sensing the power of the five elements contained in the Five Elements Holy Technique.

Because when Ye Feng was practicing Soul Dao, he had actively awakened the power of three elements of heaven and earth, namely fire, water, and gold.

Now that he has obtained the Five Elements Holy Technique, Ye Feng can obtain the method of comprehending the remaining two elemental attributes in the power of the Five Elements.

In this way, the Five Elements Holy Technique helped Ye Feng improve the shortcomings of the Five Elements in his soul path.

Three days later, in the small room.

Ye Feng stretched out his hand, and suddenly five divine halos lit up around his palm, which was the divine light of the five elements.

"It seems that some of the inheritance of martial arts techniques and the practice of the Soul Dao still have something in common."

Ye Feng stared at the Five Elements Divine Light in his hand, which shone faintly, and he couldn't help but murmur.

But now Ye Feng has just comprehended the Five Elements Holy Technique, and for the Five Elements

The concentration of the power of action is still very unfamiliar, so the divine light of the Five Elements is very weak at this time.

But since the Five Elements Holy Technique has been successfully practiced, it means that Ye Feng is qualified to use the Great Five Elements Armor.

Because if you want to use the Great Five Elements Armor, you must master the secrets of the Five Elements Holy Technique.

Ye Feng accomplished this in only a few days.

This is the benefit brought by the strength of the soul master, which can assist the super-speed practice of martial arts.

If Beiming Haotian was resurrected at this time and saw that Ye Feng had mastered the Five Elements Holy Technique and the Great Five Elements Armor in just a few days, I am afraid he would be scared to death again.

"Boy Ye Feng, I haven't seen you for a long time. You even got the Great Five Elements Armor. You're doing well."

Suddenly, a familiar voice that had not sounded for a long time suddenly sounded in Ye Feng's mind.

"Sad?!"

Ye Feng's originally silent face suddenly showed deep joy.

At this time, his spiritual thoughts sank into his spiritual world, and he immediately saw the majestic black dragon body lying on the ground of the spiritual world, but the huge head was slowly raised. .

Shang finally wakes up!

However, he looked very tired.

"Sure enough, the energy of the dragon source plays a huge role in Shang's recovery."

Ye Feng's eyes were full of excitement at this time.

In the past few days, since he lived in the fifth air castle, he has been using the swallowing vortex to absorb the dragon's source of energy into his body, and then guided it into his own sea of spiritual consciousness, covering the sleeping body with the dragon's source of energy. On the huge dragon body.

Sure enough, while Shang was sleeping, he passively absorbed a lot of dragon energy while breathing in and out, which really allowed the old demon dragon to regain some strength and wake up.

Ye Feng couldn't help but ask in his mind: "Shang, how do you feel now?"

Shang immediately shook his huge dragon head with a wry smile and complained:

"Last time, Ye Feng, you were so crazy that you were struck by lightning hundreds of times. Your consciousness was almost shattered. But in the end, I was hit by the lightning. I couldn't escape the thunder. Dianmang, what a bad luck!"

Ye Feng couldn't help but feel speechless when he heard what Shang said.

He originally thought that Shang was seriously injured because he was trying to protect his spiritual consciousness.

As a result, the old demon dragon Ganqing was hit by Chiyu, and he was severely injured after being unable to escape.

But no matter what, it's a good thing that Shang has recovered.

Ye Feng said in his mind: "Shang, I have now arrived at the imperial city of the Lihuo Empire and entered the Eternal Life Mansion. There is an Eternal Life Pond inside."

"What? Eternal Life Pond?"

Shang immediately shouted in surprise: "Is there a Pond of Immortality here? Take me there quickly! I'm worried about not being able to absorb the life energy. This dragon source energy is too thin and of no use."

Ye Feng's head was full of black lines and he said: "A place as precious as the Eternal Life Pond cannot be visited just by asking. I haven't reached that status yet."

At this point, Ye Feng changed the subject and said somewhat mysteriously: "Shang, you are an old senior. Do you know how to plant your thoughts into another life form and let that life form become me?" 's clone?

"Um?"

Shang suddenly became interested, a pair of dragon eyes showed green light, he smiled and said: "Ye Feng boy, what good thing have you got? Let me see, I know how to plant thoughts, show me, I'll tell you what to do right away."

"good."

Regarding Shang, there is nothing to hide.

Ye Feng directly activated the spiritual blockade of the storage ring and asked Shang to look into the space of his ring.

"That is....."

In an instant, Shang saw a huge thing among the piles of messy things in Ye Feng's storage space, standing in a corner of the space where the spiritual ring was stored.

It was an incomparably huge ancient demon body, towering like a hill, lying in the storage spirit ring space. Although it was dead, the whole body was still intact.

In the body of this ancient demon, there is a stream of powerful energy and blood flowing like a long river.

"Holy shit!"

Shang immediately widened his eyes and shouted: "This... this is the immortal body of an abyss troll! Ye Feng, where did you get it! It's too exaggerated! This kind of creature has disappeared long ago. How did you find a troll body in the long history?"

Shang originally thought that Ye Feng had hunted some wild beast, an eight-armed evil beast or something like that.

But what the old demon dragon never expected was that Ye Feng secretly obtained the immortal body of an abyss troll while he was sleeping.

This is a treasure!

Once you can plant your thoughts into it and occupy the right to use the body of the abyss troll, every move will definitely have the power to move mountains and reclaim seas, and it will definitely be a big killer!

Ye Feng saw Shang's exaggerated expression of shock and immediately knew that the abyss troll he accidentally picked up must be a good thing.

After Shang got excited, he immediately calmed down and said with a frown: "The Abyss Troll is too terrifying and too ancient. It is difficult to control. But let me think about it carefully. There must be a way."

Ye Feng knew that Shang was bragging just now, and he had no hope of being able to control the abyss troll now.

As long as Shang wakes up and gives this old demon dragon time, it will definitely come up with a solution.

"Next, let's find a way to reach the Divine Aperture Realm as soon as possible. After entering the Divine Aperture Realm, even in the entire Eternal Life Mansion, it will belong to the master level. Then we can find opportunities to sneak into the sealed area of the Eternal Life Pond. to steal the life force from the Immortality Pool."

Ye Feng thought secretly in his heart. Naturally, he has always been thinking about the Changsheng Pond.

Before leaving the land of Northern Xinjiang, you must go to the Changsheng Pond and take a good bath!

"Ye Feng, someone is looking for you outside and wants to talk to you about something urgent. He said his name is Gai Wuya and he is the resident of the No. 1 Castle in the Sky. He seems to be the most powerful young prodigy in Changsheng Villa."

Suddenly at this moment, You Lian's voice sounded outside the small room.
