

## Ancient 5621

### Chapter 5621 Agreement

Hearing what Leng Qingzhu's master said, Ye Feng immediately couldn't help but smile and said: "I am lucky to know such a proud girl like Miss Leng."

Hearing Ye Feng's answer, Leng Qingzhu's eyes suddenly showed a look of joy.

Leng Qingzhu's master couldn't help but nodded and said, "With your talent, you will definitely be able to enter the world in the future. I hope that you and Qingzhu can meet again in the world in the future."

Hearing what his master said, Leng Qingzhu couldn't help but smile and said: "On the way back from the Sea of Exile, I had made an agreement with Ye Feng. In the future, in the vast world, if we can meet again, we can practice together and make a name for ourselves."

Leng Qingzhu's master smiled slightly, and then turned around, obviously not wanting to discuss anything further.

Seeing this scene, Leng Qingzhu took Ye Feng and left the pavilion.

When they walked outside the pavilion, Ye Feng couldn't help but said: "Your master's cultivation strength is indeed very terrifying and unfathomable."

Leng Qingzhu immediately smiled and said: "Of course, Master is also a peerless powerhouse who has been famous for a long time in the higher world outside the Great Thousand World. This is what Master told me, but I don't know Master Are you bragging?"

Hearing what Leng Qingming said, Ye Feng laughed and said, "You are very lucky to have met such a powerful master since you were a child. Your future will be bright and bright."

Leng Qingzhu shook his head and said aloud: "In any case, everything still requires my own efforts. It is not enough to just rely on Master's guidance."

Ye Feng nodded, smiled and said: "Yes, your own efforts are the most important."

The two of them continued to talk some more, and Ye Feng was about to say goodbye and leave.

Before leaving, Leng Qingzhu couldn't help hugging Ye Feng, and then a smile appeared on his beautiful face, and he said loudly: "Ye Feng, I hope we will see you again in the future."

Ye Feng immediately responded with a smile: "Okay, I look forward to that day."

Uh-huh!

After saying that, Ye Feng jumped up, left the underground arena, and flew towards the outside of the imperial city of the Red Dragon Empire.

Ye Feng didn't waste time. He was on the road in the next few days and soon returned to the Dark Empire.

When Ye Feng returned to the Dark Empire, he did not make a big fanfare to express his return. Instead, he went directly to the palace of the Dark Empire, hoping to find the Emperor of the Dark Empire and fulfill his previous agreement with the Emperor of the Dark Empire.

For Ye Feng, the most important thing now is to report and practice in the Dark Court of God as soon as possible.

Of course, before heading to the Dark Court of God, Ye Feng's agreement with the Emperor of the Dark Empire also needs to be completed.

At this time, Ye Feng was thinking in his mind and came to the palace hall of the Dark Empire.

When Ye Feng entered the palace hall, he did not see the emperor of the Dark Empire.

Buzz!

At this moment, Ye Feng directly emitted his huge spiritual energy, spreading towards the surroundings, and soon sensed the aura of the Dark Empire Emperor.

Ye Feng directly sent a message to the emperor of the Dark Empire, saying that he was back.

Uh-huh!

A moment later, a stalwart middle-aged man appeared in front of Ye Feng and walked into the palace hall.

It is the Emperor of the Dark Empire.

At this moment, the Emperor of the Dark Empire stared at Ye Feng, with a seemingly incredible look in his eyes, and couldn't help but said: "I didn't expect that you really won the first place in the martial arts conference, and in just a short time I haven't seen you for a long time, and your cultivation has improved to such an extent that even I can't see through your true strength."

At this time, Ye Feng couldn't help but grin and said: "This time I went to the Red Dragon Empire, in addition to the martial arts conference, a lot of other things did happen. My cultivation skills have indeed improved a lot."

At this moment, when the Emperor of the Dark Empire heard what Ye Feng said, he couldn't help but nodded and said: "You did not go directly to the Dark Court to practice. It seems that you have not forgotten our previous agreement."

Ye Feng nodded and said aloud: "The reason why I returned to the Dark Empire is to fulfill the agreement I made with you, the emperor."

The Emperor of the Dark Empire nodded and said aloud: "With your current cultivation strength, you are fully capable of completing what I want you to do most. Now you can go directly to the edge of the Dark World and find Tianlei. This powerful race from the higher world outside the territory is stationed in a base there, steal a sky thunder seed and give it to me. If it succeeds, the reward promise I made to you will definitely be fulfilled. "

Hearing what the Emperor of the Dark Empire said, Ye Feng immediately nodded and said: "Okay, I will try my best to complete this task, but I don't know the specific location on the edge of the dark world where the Tianlei Clan is stationed. Where."

The emperor of the Dark Empire nodded, took out an ancient map from his storage ring, gave it to Ye Feng, and said: "According to the instructions on the map, you can reach the edge of the dark world where the Tianlei Clan is stationed. There should be a base of the Tianlei Clan stationed in the place marked on this map. You must be careful. The Tianlei Clan is not an ordinary race, but comes from the higher world outside the domain. Even if the Tianlei Clan strongmen who come to the base stationed at the edge of the dark world may not be as powerful as imagined, but for our dark world practitioners, they are definitely one of the best super strongmen. You must find a way to steal a Tianlei seed safely, and don't fight hard."

Ye Feng nodded, smiled and said: "Don't worry, I will find a way."

At this moment, Ye Feng took the map from the Emperor of the Dark Empire, took a quick look at it, and said directly: "Then I will go to the edge of the dark world now."

The Emperor of the Dark Empire nodded, couldn't help but patted Ye Feng on the shoulder, and said: "You are the most extraordinary genius I have ever seen. I hope you can successfully steal a Thunder Seed. If you can successfully steal a Thunder Seed and give it to me, I may be able to cultivate an army that is no longer afraid of the Thunder Clan. By then, our Dark Empire will become a first-class dominant force in the entire dark world. By then, you will have the greatest contribution, and I will definitely not treat you unfairly."

When Ye Feng heard what the Emperor of the Dark Empire said, he just nodded slightly, and didn't say much. He flew out of the palace hall and flew quickly towards the edge of the dark world.

Chapter 5622 Very smooth

For the next three days and three nights, Ye Feng was on the road.

According to the map given to him by the emperor of the Dark Empire, Ye Feng soon arrived at the edge of the dark world.

This place is deserted and sparsely populated, and the entire land is a scorched earth. It is obvious that an extremely terrible war took place that year, destroying the natural environment here.

Buzz!

At this moment, Ye Feng directly emitted his soul power, and according to the guidance on the map, he began to search for and search for the base of the Tianlei clan from the higher cultivation dimension stationed here.

You know, as a powerful race in the higher world outside the domain, the Tianlei clan has always been ambitious and wants to attack the entire dark world, but due to the limitations of the interface barrier, the super strong men of the Tianlei clan cannot descend on the dark world on a large scale.

So it can only cost a great price to send a small number of Tianlei clan strongmen to the dark world first, station a base on the edge of the dark world, and slowly plot the entire dark world.

So the base of the Tianlei clan that Ye Feng wanted to find was not as dangerous as imagined.

After all, Ye Feng came here this time not to fight with the strong men of the Tianlei Clan, or to destroy the base of the Tianlei Clan stationed here, but just to steal a Tianlei seed.

So the best way for Ye Feng now is to disguise himself as a member of the Tianlei Clan after finding the base of the Tianlei Clan, blend in, steal a Tianlei seed, and run away directly. This is the best way.

However, if Ye Feng wants to disguise himself as a member of the Tianlei Clan, he must first sense the specific aura of the Tianlei Clan.

Otherwise, without a reference, Ye Feng has no way to perfectly transform his power and life breath into the Tianlei Clan.

Swish!

At this moment, Ye Feng was wandering quickly in the edge area of the dark world around him, and spreading his huge soul power to sense where the base of the Tianlei Clan around him was.

Hard work pays off.

With Ye Feng's continuous search, he finally found a base of the Tianlei Clan on the night of the third day.

The base of the Tianlei Clan is like a steel fortress cast by black steel.

Moreover, around the base of the Tianlei Clan, there are many protective formations covering it.

These formations flashed different colors of light in the dark night, which looked very beautiful.

At this moment, Ye Feng did not hesitate at all and directly approached the base of the Tianlei Clan.

At this time, Ye Feng could see that there were two Tianlei Clan strongmen standing at the door of this base, seemingly guarding it.

At this moment, Ye Feng saw this scene and immediately showed a look of joy in his eyes.

As long as he could capture the breath of these Tianlei Clan bodies, Ye Feng could perfectly disguise himself as a member of the Tianlei Clan.

At this moment, Ye Feng did not hesitate at all and directly locked the breath of the two Tianlei Clan strongmen standing outside this steel fortress. Then Ye Feng could immediately turn his life breath and skills into the original power of the Tianlei Clan.

At this time, after Ye Feng became the original power of the Tianlei Clan, he disguised himself as a member of the Tianlei Clan and walked directly towards the base of the Tianlei Clan.

For Ye Feng, the formations guarding the Tianlei Clan base were completely useless. Ye Feng's Eye of Heaven and Earth could see through any formation and directly pass through the entire formation to enter the Tianlei Clan base.

When Ye Feng entered the Tianlei Clan base, he released a huge amount of soul power and soon found a Tianlei seed stored in a box in the Tianlei Clan base.

Ye Feng quickly took the Tianlei seed in his hand through his disguise and put it into his storage ring.

At this moment, the Tianlei Clan strongmen in the Tianlei Clan base saw Ye Feng, although they were a little confused, and didn't know why a new member suddenly appeared in their base.

But they didn't ask much, because the Tianlei Clan had many bases in the dark world, and sometimes it was normal for some Tianlei Clan members from other bases to come to do things.

When Ye Feng left the Tianlei Clan base with the Tianlei Seed, it did not cause any waves, and Ye Feng himself showed some sighs in his eyes.

Unexpectedly, this time it was so smooth, and I got a Thunder Seed directly and completed the task.

However, Ye Feng also knew that this time it was thanks to his very magical camouflage ability, otherwise, it would be impossible to deceive the two Thunder Clan members guarding the gate of this fortress.

At this moment, Ye Feng directly left the base of the Thunder Clan and quickly returned to the direction of the Dark Empire.

However, just when Ye Feng left, there was a sudden space fluctuation at the original place.

Buzz!

The next moment, a mysterious figure of the Thunder Clan suddenly appeared.

This figure of the Thunder Clan should be a very terrifying existence among the Thunder Clan.

Otherwise, Ye Feng's huge soul power could not fail to detect that it was hidden around.

At this moment, the mysterious existence of the Tianlei Clan did not attack Ye Feng. She just watched Ye Feng's back quietly and couldn't help but murmured: "What a magical ability to change. I will send someone to secretly pay attention to this mysterious young man. I must not alert the enemy. See if I can recruit this magical young man to serve under our Tianlei Clan. This ability is really amazing. It will be of great help to the future of our Tianlei Clan."

And when the mysterious figure of the Tianlei Clan watched Ye Feng leave, Ye Feng thought that he had successfully avoided the detection of all the Tianlei Clan strongmen and returned to the Dark Empire with a Tianlei Seed.

When Ye Feng came to the palace again and met the Emperor of the Dark Empire, the Emperor of the Dark Empire felt very incredible. It seemed that he did not expect that Ye Feng had been away for so many days and had successfully brought back an extremely precious Tianlei Seed.

This made the Emperor of the Dark Empire extremely happy. He immediately laughed and said, "Ye Feng, you are truly the most evil genius in our Dark Empire. Now that you have fulfilled your promise, I can allow you to enter the treasury of our Dark Empire and choose three treasures at will. After you have chosen, you can go to the Dark Court to practice with peace of mind. I hope you can become more and more powerful in the Dark Court!"

#### Chapter 5623 Selecting Treasures

At this time, after the emperor of the Dark Empire finished speaking, he said directly to the outside of the palace hall: "The guards are coming in."

At this moment, after the emperor of the dark empire finished speaking, a royal guard wearing golden armor walked in from outside the palace hall.

The emperor of the Dark Empire immediately said: "Now you take Ye Feng and go directly to our Dark Empire's treasury and let Ye Feng pick three treasures at will. No matter what they are, as long as Ye Feng chooses them, they must be I want to give it to Ye Feng, do you know?"

Hearing what the Emperor of the Dark Empire said, the royal guard suddenly showed a look of surprise in his eyes. It seemed that he did not expect that this young man, Ye Feng, had such great power and could do whatever he wanted in the treasury of the Dark Empire. Pick three treasures.

At this moment, the royal guard nodded and said loudly: "Yes, Your Majesty."

After the words fell, the golden armored guard walked directly outside the palace hall and towards the treasury.

Ye Feng quickly followed.

Before Ye Feng left, he looked at the emperor of the Dark Empire and said, "After I find three treasures from the treasury, I will go directly to the Dark Court to practice."

Hearing what Ye Feng said, the Emperor of the Dark Empire immediately nodded, patted Ye Feng's shoulder solemnly, and said loudly: "How can you be in one of the three holy places in the dark world, the Dark God's Court?" Cultivation is your blessing, but it is also what you deserve. You

won first place in this martial arts competition. The Dark Court will recruit you no matter what. Don't worry, you are in the Dark Court. I will practice hard first and become stronger and stronger. After I use the Sky Thunder seeds to cultivate warriors who are no longer afraid of the Sky Thunder Tribe, I will lead the entire dark empire to expand to the edge of the dark world and strive to conquer the Sky Thunder Tribe. Once the Thunder Clan's territory is seized, our Dark Empire will be able to become as powerful as the Holy Land in the entire Dark World, and then you and I will work together to achieve the great cause of the entire Dark World."

Hearing what the Emperor of the Dark Empire said, Ye Feng's eyes suddenly showed a look of surprise. It seemed that he did not expect that the Emperor of the Dark Empire had such huge ambitions. Not only did he want to fight against the Tianlei Clan and seize the Tianlei Clan's territory, but also He also wants to use this as a base to attempt to control the entire dark world.

However, the fact that the emperor of the Dark Empire was able to tell Ye Feng such a huge ambition directly shows that he attaches great importance to Ye Feng and is very optimistic about Ye Feng's future.

Ye Feng immediately nodded and said, "Then I wish in advance that His Majesty the Emperor can complete his great cause."

After he finished speaking, Ye Feng walked out of the palace hall and followed the golden armored guard as he walked quickly towards the Dark Empire's treasury.

When Ye Feng came to the treasury, the golden armored guard opened the door of the treasury and said loudly: "Master Ye Feng, please choose directly. After selecting any three treasures, please leave the treasury as soon as possible. After all, The treasury is the most important place in our dark empire and cannot be opened for too long to prevent outsiders from entering. "

Hearing what the royal guard said, Ye Feng immediately smiled and nodded, saying, "I will choose as soon as possible."

At this moment, Ye Feng walked into the treasury and directly released his huge soul power, covering the entire treasury.

Ye Feng had visited the Dark Empire's treasury before and selected many treasures.

But after Ye Feng finished the selection, he also wanted many other good things in the treasury, but he was not qualified to get them.

Now that Ye Feng has entered the treasury again, he naturally has to carefully select three more treasures.

After all, after this selection, Ye Feng may leave the Dark Empire directly and go to the Dark Divine Court, one of the three holy places in the dark world, to practice. By then, Ye Feng will rarely return to the Dark Empire.

Buzz!

At this moment, after Ye Feng released his soul power, he first found a blue crystal ball that was the size of a human head.

This blue crystal ball should be cast from some very high-grade blue crystal ore and contains very powerful energy.

After Ye Feng found the blue crystal ball, he took it directly into his hand.

At this moment, the royal guard who was following him couldn't help but exclaimed in admiration: "Master Ye Feng really knows how to choose good things. This piece of blue crystal is the super power of our dark empire. In the dark An ancient ore dug from the depths of the world's extremely cold places, recently estimated to be more than 30,000 years old. This blue crystal-like ancient ore is what our Emperor plans to use to build the jade seal of our entire dark empire. But in the end it was shelved due to some special reasons."

Hearing what the royal guard said, Ye Feng immediately smiled and nodded, and said loudly: "This piece of blue crystal is indeed extraordinary. The energy contained in it is as big as the ocean. Although it is only the size of a human head, it contains It seems to contain an ocean of energy, and it is indeed an ancient ore from 30,000 years ago."

Next, Ye Feng continued to select, and finally found a golden elixir the size of a fist from a very delicate-looking box.

Ordinary elixirs, even very high-end elixirs, are only the size of a finger at most.

But this golden pill is as big as a fist, which is more than ten times larger than ordinary pills, so it looks very strange and precious.

At this moment, the golden armored guard standing by immediately said: "This golden pill is a pill that has been passed down from ancient times. It is an ancient pill passed down from the first generation of our Dark Empire. Although we don't know what specific effects it has now, it must be very precious."

Ye Feng nodded and said with a smile: "The reason why I chose this golden pill is not for its efficacy, but just to get the huge medicinal power contained in it."

Ye Feng's criteria for selecting treasures at this moment are still continuing his previous standards, that is, to give priority to good things that can increase his own skills.

Because Ye Feng knows very well that only when his own strength is essentially improved, that is the real kingly way, and other things are ultimately external forces.

So with this opportunity to directly select good treasures, Ye Feng naturally tries to select resources that can directly improve his own cultivation skills and make his realm very powerful.

Then Ye Feng continued to search and found that there were no cultivation resources that could directly improve the power in the entire Dark Empire's treasury.

This made Ye Feng's eyes suddenly reveal a look of surprise. He couldn't help but look at the royal guards beside him and said, "In such a huge treasury, are there only these two cultivation resources that can directly improve the power? What about other cultivation resources? Why do I feel that there are so few of them all of a sudden? The last time I came here, I found that there were many other cultivation resources in this treasury that could directly improve the power. Why did they all disappear this time?"

#### Chapter 5624 Dark Barbarians

Hearing Ye Feng's question at this moment, the royal guard standing aside couldn't help but smile bitterly and said: "Master Ye Feng doesn't know, this time Master Ye Feng went to the Red Dragon Empire to participate in the martial arts conference. During this period, the fringes of our dark empire suffered attacks from the dark mountains. During the invasion of the dark barbarians, many cultivation resources were given to the army of the Dark Empire guarding the border for them to use to resist external crises. Therefore, the treasury is now very empty, and many cultivation resources have been used up. After all, War consumes the most resources of an empire."

"Invasion of dark barbarians in the dark mountains?"

At this time, when he heard the royal guard beside him say this, Ye Feng's eyes suddenly showed a look of surprise.

Then Ye Feng nodded and said loudly: "It seems that this war is very cruel and very critical. Otherwise, almost all the training resources in the entire treasury will be consumed."

The royal guard standing aside couldn't help but nodded and said loudly: "Yes, this war is indeed very cruel and huge. The dark barbarians in the dark mountains don't know what happened. Suddenly He was frantically attacking the frontier areas of our Dark Empire, burning, killing, and looting. The frontier cities of our Dark Empire were devastated. Therefore, in a fit of rage, His Majesty the Emperor directly led the conquest in person. I have just returned to our palace recently, but the disaster has still not been completely solved. It is really a troubled time now. Fortunately, Lord Ye Feng won the first place in this martial arts competition, giving us the Dark Empire's position among the three major empires in the entire southwest plate. The competition has given us more natural resources and territory, giving us the confidence to continue the war with the dark barbarians in the dark mountains of the frontier."

Hearing what the royal guard beside him said, Ye Feng was silent for a moment, and then said: "I will ask His Majesty the Emperor later to see if the borderlands need my help."

Ye Feng calculated the time at this time and found that there was still more than a month left before he could report to the Dark Court within the three-month time limit.

In this more than a month, Ye Feng can still freely control it. There is no need to go to the Dark Court of Darkness so early. Anyway, he will go there sooner or later, so there is no need to rush.

After all, Ye Feng still had a good impression of the emperor of the Dark Empire, who helped him a lot, and the other party was also a person who valued him very much.

So now the borderland of the Dark Empire is being invaded by the ferocious dark barbarians from the Dark Mountains. They are burning, killing, looting, and destroying all lives. Ye Feng feels that if he has the ability, he can take advantage of this period to see if he can be of any help.

At this time, Ye Feng continued to choose the third treasure.

Most of the training resources in the entire treasury had been consumed. In the end, Ye Feng chose a giant sword made of ice for his third treasure.

This is a frozen giant sword. According to the royal guard beside him, it is the holy sword of the ancient frozen giant family and has the power of the saint of the ancient frozen giant family.

It's just that it is very difficult to activate the power of the saint in this frozen giant sword.

Ye Feng chose this frozen giant sword, naturally because his current weapons are indeed lacking. The weapons in his hands are basically on the verge of being eliminated, and they are far behind his own cultivation strength.

At this moment, Ye Feng had finished selecting all three treasures and started to devour them on the spot.

First of all, Ye Feng simply swallowed the energy blue crystal ball the size of a human head that he had chosen at the beginning.

Then Ye Feng swallowed the golden elixir the size of a fist in an instant.

Boom!

Boom!

At this moment, two extremely huge energies exploded in Ye Feng's body, surging into the limbs and bones of Ye Feng's entire body, rapidly increasing Ye Feng's skill and body strength. .

At this moment, Ye Feng was suddenly surprised to discover that the fist-sized golden elixir he swallowed contained not only ancient elixir energy, but also very rare divine substances.

The divine substance can help enhance Ye Feng's immortal body and strengthen Ye Feng's physical strength.

This discovery surprised Ye Feng very much.

It seems that this golden elixir, inherited from ancient times, is indeed extraordinary and actually contains divine substances.

At this moment, Ye Feng did not hesitate and began to quickly devour and refine the energy in the blue crystal ball and golden elixir, including the divine substance contained in the golden elixir.

At this moment, Ye Feng's cultivation level immediately began to improve rapidly.

Ye Feng's current cultivation level is at the tenth level of Tianshou Realm, and he is at the bottleneck of a big realm.

But at this moment, under the impact of the huge energy in Ye Feng's body, with a "boom", Ye Feng's bottleneck suddenly broke through, directly hitting the half-step destiny realm above the tenth level of Tianshou realm!

Boom!

The next moment, another huge momentum exploded on Ye Feng's body.

Ye Feng's cultivation once again broke through a major bottleneck and directly entered the first level of the real Destiny Realm! !

The Destiny Realm is a new and more powerful realm. If the Tianshou Realm allows practitioners to gradually live as long as Heaven, then when a practitioner enters the Destiny Realm, it means that the fate of the cultivator is the same as that of the entire Heaven. , immortal and immortal.

At this moment, after Ye Feng entered the first level of the Heavenly Fate Realm, he entered this new realm and could instantly feel that his strength had been enhanced by thousands or tens of thousands of times.

This made Ye Feng's eyes suddenly show deep amazement.

As expected, with the continuous improvement of the realm of cultivation, the increase in strength gained by each breakthrough was simply exponential.

At this time, the royal guard standing by, who had witnessed the rapid breakthrough of Ye Feng's realm of cultivation, broke through a whole realm in just a few minutes, suddenly widened his eyes and felt incredible. He felt that this most amazing young man in the Dark Empire was like a demon. No wonder His Majesty the Emperor valued Ye Feng so much.

At this time, Ye Feng integrated the divine substance in the golden elixir, and the physical strength of the immortal body of the God was also rapidly improved, directly from the previous seventh stage and eighth level to the seventh stage and tenth level of perfection!

Only one step away, Ye Feng's immortal body of the God will evolve to the next new stage, the eighth stage.

By then, Ye Feng will once again awaken a special and powerful innate bloodline talent of the immortal body of the God.

Ye Feng is very much looking forward to this.

#### Chapter 5625 Falling into a Trap

At this time, both Ye Feng's cultivation strength and his physical strength have been greatly improved, allowing Ye Feng's combat power to increase as never before.

At this moment, Ye Feng was naturally very happy and followed the royal guard back to the palace hall.

In the palace hall, Ye Feng once again met the emperor of the Dark Empire.

At this time, when the emperor of the Dark Empire saw Ye Feng coming back, he couldn't help but his eyes suddenly revealed a look of surprise, and he said loudly: "What's going on? Why are you back again? Didn't you say that you have finished selecting the treasures?" After that, will you go directly to the Dark Temple to practice?"

When Ye Feng heard what the Emperor of the Dark Empire said, he immediately smiled slightly, glanced at the royal guard beside him, and said loudly: "I just heard from this guard that now the entire border land of the Dark Empire, Suffering a huge crisis, the dark barbarians in the dark mountains seem to be invading our dark empire, so I want to help the emperor completely solve this border crisis before I leave. "

"Um?"

Hearing what Ye Feng said, the Emperor of the Dark Empire suddenly showed a look of surprise in his eyes. Then he couldn't help but shake his head, smiled bitterly, and said: "The dark barbarians of the Dark Mountains are a very vicious race. There is no strong person in the entire race. A few, even if I personally conquered it before, I couldn't completely eliminate these dark barbarians in the Dark Mountains, so if you just rely on Ye Feng, it won't have much effect. You should go to the Dark God's Court with peace of mind now. Practice."

Hearing what the Emperor of the Dark Empire said, Ye Feng smiled slightly and said: "Although my strength may not be as strong as you, the Emperor, or some of the super strong people in our Dark Empire, I have a very perfect disguise, power, and this is why I was able to steal a Tianlei seed from the Tianlei base very smoothly and brought it back so quickly, so I have my own special way to completely solve the threat of the dark barbarians in the dark mountains. That is, I will lurk as a dark barbarian, enter the deepest part of the dark mountains, and enter the lair of the dark Manchu. As long as I can put him in his lair. If it is taken away, the dark barbarians will be severely weakened, and they may not dare to attack the dark empire again for hundreds of years."

Hearing what Ye Feng said, the emperor of the Dark Empire suddenly brightened his eyes and said loudly: "This plan of yours is okay."

After finishing speaking, the emperor of the Dark Empire very solemnly took out a palm-sized black token from his storage ring, handed it to Ye Feng very solemnly, and said loudly: "This black token contains extremely terrifying destructive power. As long as you can bring this black token to the dark barbarian's lair, and directly detonate the terrifying destructive power contained in this black token, the entire dark barbarian lair will be destroyed. It will definitely be blown up in an instant."

Hearing what the Emperor of the Dark Empire said, Ye Feng immediately nodded, put the black token into his storage ring, and said, "Okay, I will try my best."

At this moment, after Ye Feng finished speaking, he flew quickly towards the outside of the palace of the Dark Empire.

Ye Feng's destination for this trip is to go directly to the frontier of the Dark Empire.

However, Ye Feng also knows very well that even if he can disguise himself as a dark barbarian, it may be difficult to enter the dark barbarian's lair.

After all, the Dark Barbarian's lair will definitely be guarded by the Dark Barbarian's powerful guards.

Even if he pretends to be an ordinary dark barbarian, he is not qualified to enter the lair.

In any case, Ye Feng first went to the borderland to see the situation.

Next, Ye Feng hurried on his way quickly. In less than three days and three nights, Ye Feng had arrived at the frontier of the Dark Empire.

There is desolation everywhere here, and many cities have been destroyed by the dark barbarians.

When Ye Feng arrived at a border city, there were only a few surviving members of the Dark Empire's border cities left in the entire city, struggling in it.

The moment Ye Feng arrived here, he immediately attracted the attention of many dark barbarians around him.

These dark barbarians immediately showed cold smiles on their faces and said loudly: "Sure enough, if you keep a few members of the Dark Empire and let them survive here, they will attract strong men from the Dark Empire to come to help one after another. into our trap."

Uh-huh! Uh-huh! Uh-huh!

At this moment, hundreds of extremely powerful dark barbarians swarmed up around the ruined city.

Each of these dark barbarians are very tall, like little giants, with terrifying power. No wonder the entire dark barbarians are very difficult to deal with, because every dark barbarian is like a little giant. The physical strength is terrifying to the extreme, and this race is simply a natural war machine.

At this moment, Ye Feng didn't hesitate at all. He immediately smiled coldly and said, "I came here this time just to destroy you. I didn't fall into your trap."

"Hahaha!"

Hearing what Ye Feng said, the many powerful dark barbarians who swarmed around laughed mockingly and said, "Boy, even if the emperor of your Dark Empire came here in person, it would be useless, let alone you, a young man. You came here just to die. Your passion will only end in death."

At this moment, these dark barbarians laughed and rushed towards Ye Feng, wanting to tear him apart in an instant.

But at this moment, Ye Feng immediately used the Dark Emperor's skill.

Boom!

The next moment, Ye Feng's whole body began to expand rapidly, and he expanded directly into an extremely huge black giant.

It was the true body of the first generation of the Dark Emperor of the Dark Empire.

At this moment, after Ye Feng became the true body of the Dark Emperor, he became this black giant with very terrifying power.

Even if the body of the dark barbarians was very powerful, they could not compete with the true body of the first generation of the Dark Emperor that Ye Feng had become at this time.

At this moment, after Ye Feng turned into a black giant, within just a few minutes, he immediately suppressed the hundreds of dark barbarians around him who were like small giants.

"What? Who are you, young man? Why can you successfully practice the strongest and most peerless inheritance of the Dark Empire, the Dark Emperor Gong?"

At this moment, a group of hundreds of dark barbarians around couldn't help but show deep horror in their eyes.

Obviously, they knew the Dark Empire very well. As expected of the Dark Empire's old enemy who had fought for thousands of years in the borderland, they saw at a glance that the dark giant that Ye Feng had turned into at this time was the Dark Emperor Gong, the most famous Dark Empire!

Chapter 5626 Resource Library

At this moment, all the dark barbarians showed deep shock in their eyes.

It seemed that they did not expect that Ye Feng, such a young man who suddenly came to this border city, would be such a powerful dark empire.

In just a few minutes, they suppressed hundreds of dark barbarians.

At this time, a dark barbarian could not help but exclaimed: "You young man, you are not the first pride of the dark empire that has recently shaken the entire southwest plate, the first place in the martial arts conference, Ye Feng?"

"Huh?"

At this moment, hearing this dark barbarian say this, Ye Feng's eyes showed a deep surprise, as if he did not expect that his name is so loud now.

Even the dark barbarians in the borderland know his name?

At this time, Ye Feng smiled slightly and said aloud: "Yes, I am the Ye Feng you are talking about."

Hiss!

At this moment, hearing Ye Feng admit it himself, these dark barbarians couldn't help but take a breath of cold air.

Because they never thought that this border war would attract Ye Feng, a top genius.

However, at this time, one of the hundreds of suppressed dark barbarians immediately smiled coldly and said, "Even if you, the top genius, come, it will be useless. The emperor of your dark empire, who led the army in person before, failed to break through the nest of our dark barbarians. Now he

still wants to fight a war of attrition with us. No matter what, this time we must divide up enough territory in the border of your dark empire before we stop."

Hearing what this dark barbarian said, Ye Feng just smiled coldly, and was too lazy to talk nonsense. He directly killed all the hundreds of dark barbarians on the spot.

Then, Ye Feng began to devour the power of these dark barbarians.

However, although the physical strength of these dark barbarians is very strong, they are no longer considered strong to Ye Feng. Therefore, after absorbing the power and blood energy of hundreds of dark barbarians, Ye Feng's cultivation did not break through, but his power increased a lot.

At this moment, since Ye Feng has encountered these dark barbarians, he can naturally disguise himself as a dark barbarian perfectly.

Swish!

At this moment, after Ye Feng disguised himself as a dark barbarian, he immediately flew quickly towards the outside of the border and soon arrived at the Dark Mountains.

Ye Feng saw from afar that in the deepest part of this dark mountain range, there were many densely packed black palaces standing in several mountains.

These buildings should be the territories of the dark barbarians.

At this moment, Ye Feng disguised himself as a dark barbarian and immediately flew quickly towards these territories.

When Ye Feng passed through layers of jungle, he finally arrived at the deepest area of this dark mountain range.

There are various buildings built between the mountains, on the hillsides, and on some mountain tops.

There are ancient black temples and huge palaces, which look very magnificent.

At this moment, Ye Feng disguised himself as a dark barbarian and flew quickly towards the dark barbarian's nest.

For Ye Feng, it is absolutely impossible to kill all the dark barbarians.

Even if the emperor of the Dark Empire leads the army in person, he may not be able to do it.

But this time, Ye Feng's main purpose is to blow up the dark barbarian's nest and then seriously injure the dark barbarian's vitality. In this way, within a hundred years, the dark barbarians will never dare to continue to attack the Dark Empire.

At this moment, Ye Feng held the black token given to him by the emperor of the Dark Empire in his hand, ready to find the dark barbarian's nest at any time, and then detonate this black token to blow up the dark barbarian's nest, and his mission will be completed.

However, just when Ye Feng was approaching this core area, a group of dark barbarian guards wearing black armor suddenly stopped Ye Feng and asked coldly: "Which war department of our dark barbarian tribe are you from? Why did you suddenly return to the core area? What is your purpose?"

Hearing this group of dark barbarian black armored guards say, Ye Feng's eyes did not panic at all, because Ye Feng was disguised as the group of dark barbarians who appeared in the city before, and Ye Feng also knew the specific identity of that group of dark barbarians.

At this moment, Ye Feng directly told these dark barbarian black armored guards that he was a member of the generals of the previous group of dark barbarians.

"Oh?"

Hearing what Ye Feng said, the black armored guards immediately showed a look of surprise in their eyes, and said: "The mission of your war department is mainly to destroy the border cities of the Dark Empire in the border territories of the Dark Empire. Why did you suddenly return to the core area of our Dark Barbarians alone?"

When Ye Feng heard the black armored guard ask this, although he wanted to kill these black armored guards of the Dark Barbarians in an instant, this was the core area of the Dark Barbarians after all. If he took action here, it would definitely cause a huge commotion, and then he would alert the enemy and his mission would be impossible to complete.

So at this moment, Ye Feng could only bite the bullet and perfunctorily answer: "Our combat department has been fighting outside for such a long time, and most of the cultivation resources have been consumed. Therefore, the leader of our combat department specially sent me back to the core area to apply for more cultivation resources to bring back to support our continued actions."

At this moment, Ye Feng's words were naturally a reason he came up with.

But unexpectedly, this group of black armored guards of the Dark Barbarians actually believed it.

They actually nodded and said: "Your combat department has been fighting on the frontline battlefield of the border of the Dark Empire. It is indeed very difficult. In this case, you follow me. I will take you to our Dark Barbarians' resource library and apply for more cultivation resources for your team as much as possible, so that you can have enough support and destroy as many border cities of the Dark Empire as possible."

At this moment, this black armored guard of the Dark Barbarians asked the other group of guards to continue patrolling, while he took Ye Feng alone and walked towards the inner direction of the core area.

At this moment, Ye Feng followed behind the black-armored guard of the Dark Barbarian, with a look of astonishment in his eyes. He didn't expect that he would be taken to the resource library of the Dark Barbarian without knowing it. For Ye Feng, this was simply a pleasant surprise!

Chapter 5627: Clearing Out

At this time, Ye Feng remained calm and followed the black guard of the Dark Barbarian Tribe, quickly walking towards the Dark Barbarian Tribe's resource library.

Although Ye Feng's goal this time was the Dark Barbarian Tribe's lair, he was not in a hurry now.

If he could directly enter the Dark Barbarian Tribe's resource library, perhaps Ye Feng could get a huge amount of wealth and treasures.

So at this time, Ye Feng naturally did not hesitate at all, and naturally followed the black armored guard of the Dark Barbarian Tribe and walked towards the Dark Barbarian Tribe's resource library.

When Ye Feng came to the Dark Barbarian Tribe's resource library, he immediately saw that a huge black iron castle appeared in a mountain range in front of him.

In this castle made entirely of black iron, all the Dark Barbarian Tribe's cultivation resources and various treasures were placed.

At this moment, the black armored guard of the Dark Barbarians who was leading the way in front immediately said, "We are here."

At this moment, the black armored guard took out a special black token from his storage ring and casually pasted it on the gate of the Black Iron Castle.

"Boom..."

The next moment, the gate of the entire Black Iron Castle was immediately opened quickly.

Ye Feng followed the black armored guard and walked directly into the resource treasure house.

When Ye Feng walked into the warehouse, he saw piles of ancient ores and various cultivation resources piled up in it.

In addition, there are many powerful weapons and armors made by the Dark Barbarians, as well as some other very precious cultivation resources and treasures, all piled up in it.

At this moment, Ye Feng looked at everything around him, and his eyes were already extremely excited.

At this time, the black armored guard of the Dark Barbarians who was leading the way smiled and said, "You can pick some cultivation resources here and bring them back to your war department, and try to destroy more border cities of the Dark Empire, and plunder more women and slaves of the Dark Empire for us to enjoy."

But just as the black armored guard of the Dark Barbarians finished speaking, Ye Feng suddenly flashed in front of him, smiled slightly, and said, "Thank you for bringing me to this place."

"What do you mean?"

Looking at the strange smile on Ye Feng's face, the black armored guard of the Dark Manchus felt something was wrong and was about to leave.

"Puff!"

But suddenly at this moment, Ye Feng stretched out a hand and directly crushed the head of the black armored guard of the Dark Barbarians, killing him instantly.

The black armored guard of the Dark Barbarians was not very good at cultivation, so he was solved by Ye Feng in one move.

However, it was mainly because Ye Feng's cultivation strength had improved a lot after this period of training, and naturally his combat power had also become much stronger.

Otherwise, Ye Feng would not dare to enter the core area of the Dark Barbarians alone.

Because even if Ye Feng could perfectly disguise himself as a Dark Barbarian, if his own cultivation strength was too weak, he might be in danger at any time.

Buzz!

At this moment, Ye Feng did not hesitate at all, and directly released the Devouring Domain, and began to frantically devour all the cultivation resources in the resource treasure house of the Dark Barbarians.

Piles of ancient ores excavated by the Dark Barbarians were all covered by Ye Feng's Devouring Domain, and were frantically absorbing the energy in the ores.

In addition, there were huge pills the size of a human head in this resource treasure house, which were specially used for the Dark Barbarians to take. The pill energy contained in them was naturally very powerful and rich.

After Ye Feng swallowed it, he immediately felt a huge amount of energy, which was immediately injected into his body, rapidly strengthening Ye Feng's skills.

For Ye Feng, this time he happened to come to the treasure house of the Dark Barbarians, so he naturally had to devour and absorb it well, otherwise he would feel sorry for being alone and taking risks to come to the nest of the Dark Barbarians.

At this moment, along with Ye Feng's devouring, all the cultivation resources in the Dark Barbarians' treasure house were devoured and absorbed by Ye Feng alone.

With the help of such a huge energy, Ye Feng's cultivation power immediately began to break through at an incredible speed.

Boom!

Second level of the Destiny Realm!

Boom!

Third level of the Destiny Realm!

Boom!

Fourth level of the Destiny Realm!

Boom!

Fifth level of the Destiny Realm!

Boom!

Sixth level of the Destiny Realm!

Boom!

Seventh level of the Destiny Realm! !

At this moment, Ye Feng's cultivation broke through six levels at once, breaking through six small levels and entering the seventh level of the Destiny Realm!

This made Ye Feng's cultivation power and combat effectiveness increase exponentially.

At this moment, Ye Feng was naturally extremely excited.

It was indeed the resource treasure house of the entire Dark Barbarian Tribe. The cultivation resources contained in it could actually make such a big transformation in his cultivation. Ye Feng was really delighted.

At this time, Ye Feng collected all the other treasures, such as the powerful armor and weapons forged by the Dark Barbarians, some special mechanisms, and war puppets, into his storage ring, almost emptying the entire Dark Barbarians' resource treasury.

Although Ye Feng could not use these things to directly improve his own skills, and Ye Feng himself did not necessarily use these relatively low-level war machines and weapons and armor forged by the Dark Barbarians.

But these things are very valuable outside. Ye Feng collected all of them. In the future, he could sell them to the chambers of commerce in some big cities and exchange them for cultivation resources.

So at this time, Ye Feng naturally did not waste them. He collected all the things he could see into his storage ring and emptied the entire Dark Barbarians' resource treasury.

Then, Ye Feng left the resource treasury and immediately flew quickly towards the core area of the Dark Barbarians, the middle area.

Now, Ye Feng, led by this black armored guard, has entered this core area, so no one stopped him along the way.

At this moment, Ye Feng held the explosive token given to him by the emperor of the Dark Empire, and was about to approach the most central area of the Dark Barbarians' lair.

As long as the command hall there was blown up, the entire Dark Barbarians would be leaderless and fall into chaos.

At that time, the Dark Barbarians would no longer have the strength to start a war in the border areas of the Dark Empire.

Chapter 5628 Senior Brother, Spare My Life

As Ye Feng continued to fly, Ye Feng soon arrived at the center of the dark barbarian core.

Ye Feng saw that there were three towering halls, standing on the mountains in the core place.

Ye Feng knew that this was the command post of the entire dark barbarian tribe, and it was also the most important place where the entire dark barbarian tribe was based.

At this moment, Ye Feng had almost no hesitation, and he didn't even get too close. He just threw the explosive token that the Emperor of the Dark Empire had given him, and threw it out with all his strength.

When this black token was approaching the three middle halls.

"Boom!!!"

A terrifying and destructive power was immediately released from this token.

Immediately, accompanied by a huge mushroom cloud, a terrifying explosive light wave suddenly appeared.

The three halls were all made of very special and strong divine iron, but under the power of this explosive token, there was nothing left at all, and they were all destroyed directly.

Jiang Yefeng was shocked by the terrifying aftermath of the explosion.

Ye Feng was standing very far away, but he was suddenly knocked backwards.

Seeing this scene, Ye Feng couldn't help but show deep astonishment in his eyes.

It seems that the Emperor of the Dark Empire is much simpler than he thought. The explosion token he created is so terrifying and has such terrible destructive power.

But no matter what, Ye Feng had completed his mission at this time and successfully blew up the entire dark barbarian command post.

Uh-huh!

Ye Feng left here quickly.

At this moment, the entire dark barbarian tribe's lair suddenly fell into chaos.

Because their core command post was directly blown up.

At this time, Ye Feng took advantage of the chaos and successfully escaped from the dark barbarian's lair and returned to the frontier of the dark empire.

At this time, Ye Feng saw many armies of dark barbarians along the way, and they all began to evacuate.

Obviously, such huge changes have taken place in the territory of the Dark Barbarians. The palaces commanded by them were completely blown up. Naturally, the entire Dark Barbarians fell into extreme chaos. They were leaderless and could only retreat quickly.

At this moment, Ye Feng watched all this with satisfaction and flew quickly towards the direction of the Dark Empire Palace.

When Ye Feng returned to the palace hall, the emperor of the Dark Empire should have received the information long ago, and he immediately said excitedly: "I didn't expect that in just a few days, Ye Feng, you have successfully blown up The command post of the entire Dark Barbarian's lair. It seems that you are much more complicated than I thought. I still underestimated you. I thought you might have to lurk for ten days and a half, but I didn't expect it to be so short. You did it all in just a few days."

Hearing what the Emperor of the Dark Empire said, Ye Feng smiled slightly and said: "This time it was indeed relatively smooth, mainly because of some coincidences, I entered the core area smoothly, otherwise If so, I'm afraid it will take some means."

After finishing speaking, Ye Feng clasped his fists and said: "Now that the crisis in the borderland has been resolved, it's time for me to go to the Dark Court of God."

The emperor of the Dark Empire immediately nodded, couldn't help but patted Ye Feng's shoulder, and said loudly: "When you go to the Holy Land of Cultivation in the Dark World, such as the Dark Divine Court, practice hard and strive to become stronger and stronger in the future. I will attach great importance to you and even work with you to plan the great cause of the entire dark world."

Hearing what the Emperor of the Dark Empire said, Ye Feng nodded slightly, without saying anything more, but clasped his fists once again and turned to leave.

"Wait a moment."

At this time, the emperor of the Dark Empire suddenly thought of something. He took out a black token from his storage ring, handed it to Ye Feng, and said loudly: "This is what I have spent hundreds of years on." , there are nine tokens in total, which are very rare. The other tokens are basically All the above have been used up. This is the last token. It is exactly the same as the token you used to blow up the dark barbarian command palace. It is incredibly powerful. I will give this token to you. When you are in the most critical moment, At any time, you can throw it out instantly and kill enemies hundreds of times stronger than you."

Hearing what the Emperor of the Dark Empire said, Ye Feng's eyes suddenly lit up.

Ye Feng knew very well how terrifyingly destructive this black token was.

At this moment, Ye Feng nodded immediately, expressed his gratitude, and then left the palace hall directly.

When Ye Feng left the palace hall, he also directly left the entire Dark Empire, and even left the southwest plate where the Dark Empire was located, and flew quickly toward the center of the entire Dark World.

The Dark Divine Court is one of the three holy places of cultivation in the dark world. It is very large and has amazing power, spreading throughout the entire dark world.

The headquarters of the Dark Court of God is located in the middle of the dark world.

This time, Ye Feng went directly to the middle area of the dark world, preparing to join the Dark Court.

Ye Feng traveled for seven days and seven nights and finally arrived at the center of the dark world.

During this period, Ye Feng passed by many cities. After asking around, Ye Feng finally arrived at the Dark Court.

At this moment, a vast and boundless prairie appeared in front of Ye Feng.

On this prairie, various ancient palaces and towering pavilions are built everywhere, which look very brilliant.

Moreover, powerful men with extremely powerful auras were shuttled among them.

This is where the headquarters of the Dark Court of Gods is located.

Ye Feng held the token he received from the martial arts conference and went directly to the central hall of the Dark Court headquarters. He handed over his token and successfully joined the Dark Court and became an official member of the Dark Court. Outer disciple.

For Ye Feng, it doesn't matter what kind of disciple he becomes. What matters is that he has joined the Holy Land of Cultivation in the Dark World, the Dark Divine Court, which means that he will be able to obtain more information and more training resources in the future, as well as various A stronger inheritance.

At this moment, after Ye Feng went through the entry procedures for new disciples in the central hall of the Dark Divine Court, he received a formal identity token and was directly taken to the residence of the outer disciples by an old disciple.

The residences of the outer disciples are high-rise dark training towers.

These dark cultivation towers are tens of thousands of meters tall, towering into the clouds and engraved with ancient formations. They can gather the surrounding dark energy, allowing practitioners to obtain more dark energy from the world and increase their own skills.

When Ye Feng entered this dark training tower, he saw many other outer disciples practicing in it.

These should all be old disciples of the Dark Divine Court.

However, Ye Feng did not meet any acquaintances from the other three empires.

After all, during the martial arts conference of the three major empires in the southwest sector, Ye Feng got to know a lot of young geniuses from the three empires, who were all qualified to join the Dark Court.

But Ye Feng didn't meet him in this training tower. Maybe the others haven't arrived at the Dark Court yet, or they may have been assigned to other places to live.

At this moment, Ye Feng didn't think much, he just entered the dark training tower, found a spot at random, and was about to sit down and start practicing to see how effective this dark training tower was.

But suddenly at this time, three old disciples of the Dark Court with evil faces suddenly walked up to Ye Feng.

The leader was a rather ferocious-looking young man. He stretched out his hand to Ye Feng, grinned, and said loudly: "Seeing that your face is so unfamiliar, you must have just come to our Dark Court. As usual, you All the training resources received as a new disciple must be turned over. Come out, which is considered as protection money to honor us old disciples. If you hand it over honestly, we can prevent you from being bullied by other old disciples. Of course, if you don't hand

it over, then don't blame us for giving it to you. "Relax your muscles and teach this new kid a lesson."

Ye Feng just glanced at these old disciples at this moment and said indifferently: "Boring."

boom! !

The next moment, Ye Feng casually waved his hand, and a terrifying energy suddenly burst out, blasting these three powerful old disciples away, unable to resist them at all.

"What??"

"How can this new disciple be so powerful??"

The next moment, in the entire dark training tower, many other watching disciples were shocked to the extreme.

They have never encountered such a powerful new disciple.

"Senior Brother, have mercy!!!"

At this moment, the old disciples who had just wanted Ye Feng to pay the protection fee suddenly ran to Ye Feng in horror and horror, and quickly begged for mercy, and even called him "senior brother".

At this time, these three old disciples were very proactive, putting all their cultivation resources in front of Ye Feng, and said in a flattering voice: "We are ignorant and have offended our senior brother. These are our All the cultivation resources I have are dedicated to you, senior brother. Please forgive me."

After saying that, the three old disciples crawled away from the training tower.

Chapter 5629 Dark Battlefield

At this time, seeing the three old disciples crawling away, many other disciples in the Dark Court suddenly looked at Ye Feng in awe.

Originally, they thought that Ye Feng, a new disciple, would definitely be bullied miserably by the old disciples in this dark training tower.

Unexpectedly, the three famous bully old disciples could not even block a move in front of Ye Feng, and were all blown away by Ye Feng with one move.

This made everyone deeply amazed at Ye Feng's cultivation strength.

At this moment, Ye Feng watched everything happening in front of him without expression.

Because for Ye Feng, he has experienced too many such things, so now it can no longer arouse Ye Feng's inner fluctuations.

However, at this time, the training resources provided by the three old disciples to Ye Feng were still very good.

Ye Feng immediately began to devour these training resources at this time.

Ye Feng's skill immediately began to grow rapidly and continuously.

However, the cultivation resources of these old disciples were not very good. After Ye Feng absorbed and devoured them, he found that his cultivation had not produced a qualitative breakthrough, but his skill had increased a lot.

Next, Ye Feng practiced in this dark training tower, and his skills slowly increased, but his cultivation was still unable to break through.

This made Ye Feng's eyes suddenly reveal a rather helpless look.

It seems that even in the top spiritual holy land of the dark world, such as Dark Divine Court, an ordinary cultivation tower has no effect on Ye Feng.

For Ye Feng's breakthrough, if he wanted to rely on meditation or retreat to gain enlightenment, it was really not possible. He still needed to go out and look for cultivation resources.

However, Ye Feng knew very well that since he joined the Dark Court, he would get more information.

Ye Feng is going to go to the central hall of the Dark Court to consult on how to obtain more cultivation resources in the Dark Court, or to ask which place in the dark world has more cultivation resources.

At this time, Ye Feng did not hesitate and left the Dark Cultivation Tower directly, flying quickly towards the central hall of the Dark Court.

When Ye Feng came to the central hall, he directly found a person in charge of the central hall.

This person in charge looks like a very young girl, but being able to become the person in charge of the central hall of the Dark Court of God at such a young age is enough to show that this girl is either very extraordinary in her own strength or very smart. Of course, the most likely reason is her background. Very deep.

At this moment, Ye Feng didn't care so much and asked directly: "Senior sister, hello, I am a new disciple who has just joined the Dark Divine Court, and I am not familiar with everything. I would like to ask, what do you want to do with us? How to get more cultivation resources in the Dark Court?"

Hearing Ye Feng's question, this young-looking female disciple immediately couldn't help but smile, shook her head, and said loudly: "You are a new disciple who wants to obtain a lot of cultivation resources in a short period of time. It is unrealistic, because you must make a huge contribution to our sect in order to obtain contribution points. Only by using the contribution points can you exchange various cultivation resources and peerless inheritance within our Dark Court. You are a newcomer. There is no way for disciples to get so many contribution points at the moment."

Hearing what the female disciple said, Ye Feng hesitated for a moment, and then asked aloud: "Then I also want to ask, in addition to obtaining cultivation resources internally, is there any place outside where I can quickly accumulate various kinds of cultivation resources?" Cultivate resources and obtain all kinds of wealth?"

Hearing what Ye Feng said, the female disciple's eyes suddenly showed a look of surprise. It seemed that this new disciple was quite tough.

Unlike some new disciples who have just arrived at the Dark Court, they want to use their status as a disciple of the Dark Court to go to some remote places or small cities to dominate and enjoy themselves for a while.

But the first thing the new disciple in front of him considers is to obtain more cultivation resources to improve his strength, just like an ascetic monk.

This made this female disciple admire Ye Feng a little.

The female disciple in the central hall immediately smiled and said: "Okay, as a new disciple, you have such a strong pursuit of strength and are not greedy for pleasure at all. It is very good. I can tell you that there is a good place. It allows you to hone your fighting will and fighting skills, get rich training resources, and even get contribution points from our sect, that is the dark battlefield."

"Dark battlefield?"

At this time, Ye Feng's eyes suddenly showed a look of doubt, and he said: "I have never heard of a dark battlefield."

Hearing what Ye Feng said, the female disciple in the central hall immediately smiled and said: "This is the benefit of joining a large sect in a holy land of advanced cultivation like ours. You should have come from a relatively remote place before. No It's normal to know this, but now that you have joined the Dark Court, you are qualified to know this. Something has happened. On the edge of our dark world, it is at the junction with the legendary higher world outside the territory. At this junction, there is a very chaotic junction land. It is called the extraterritorial battlefield, and some people call it In the dark battlefield, there are often ferocious beasts from outside the territory, running to the edge of our dark world. Land, so if you go to the dark battlefield and have enough strength to hunt the ferocious beasts from outside the territory, you can accumulate merit points in our Dark Court. These merit points can be exchanged for various rewards within our sect. A kind of cultivation resources and peerless inheritance, and all kinds of things on those extraterrestrial ferocious beasts you hunted, For example, the claws of ferocious beasts, the eyeballs of ferocious beasts, the hearts, scales, cores of ferocious beasts, etc., are all good things. Take them back to our Dark Court of God, or go to the chamber of commerce in any big city in our dark world. They can all be sold at extremely high prices. This is a good place for you to quickly accumulate wealth as a new disciple."

"Um?"

Hearing what this female disciple said, Ye Feng's eyes suddenly lit up.

It sounds like this so-called dark battlefield is indeed very suitable for me.

Ye Feng was immediately ready to leave.

But the female disciple in the central hall suddenly said: "Wait a minute."

When Ye Feng heard this, he immediately turned around and asked aloud: "Sister, is there anything else you want to remind me?"

The female disciple immediately couldn't help but roll her eyes at Ye Feng and said loudly: "Not everyone can enter the dark battlefield, because although it is very dangerous, it also contains all kinds of wealth, so the entire dark battlefield is controlled by us. The places controlled by the three holy places of practice in the dark world can only enter the battlefield outside the territory if they are certified by our three holy places of practice. And I Our Dark Court's standard for its disciples is that only the more powerful inner disciples are qualified to enter the dark battlefield. The outer disciples are not allowed to enter the dark battlefield, because the outer disciples are generally weak in strength and cannot enter it. You are always seeking your own death, so as a new disciple, it is impossible for you to change from an outer disciple to an inner disciple in a short period of time."

Chapter 5630 Senior Sister Lan

"Um?"

When Ye Feng heard what this female disciple said at this moment, his eyes immediately froze, and then he couldn't help but said: "Sister, please explain, how do I qualify to enter the dark battlefield?"

Seeing Ye Feng's humbly asking for advice, the female disciple immediately couldn't help but nodded and said loudly: "Although you are a new disciple, judging from your words and deeds, you are a very good person. , I admire you very much, so I can lend you my identity token and let you enter the dark battlefield."

"Um?"

Hearing what this female disciple said, Ye Feng's eyes suddenly showed a look of surprise.

The female disciple smiled and said: "The reason why I do this is because I admire you very much, and the aura of strength in you is unfathomable to me. It may be stronger than some inner disciples. You are indeed qualified to enter the dark battlefield."

When she said this, the female disciple suddenly stared at Ye Feng and said loudly: "When you come back from the dark battlefield, you can consider joining the disciple group within my sect. Of course, I will not force you. , I just think you are a talent. In the future, if you want to thrive in a huge practice holy land like our Dark Court, you will not join some powerful disciples. You can only be bullied, and if you join a powerful disciple group, you can also share with the group the location and various information about the cultivation resources of the entire dark world, as well as the sharing of peerless inheritance, etc., and Powerful senior brothers and sisters sometimes personally take new members of the group to some special places for training to help them improve their cultivation level. "

Hearing what this female disciple said, Ye Feng suddenly had a look of surprise in his eyes.

No wonder this female disciple was even willing to lend her identity token to herself. It turned out that she was trying to recruit herself into her disciple group.

In response, Ye Feng just smiled slightly and said: "Since senior sister appreciates me so much, I have to give senior sister face. When I come back from the dark battlefield this time, I will definitely give priority to joining the disciple group where senior sister belongs. "

For Ye Feng, it doesn't matter which disciple group he joins. What's important is that he can share various information from this group.

Because Ye Feng knew very well that it was impossible for him to meditate and practice honestly in the Dark Court at present. The improvement speed was too slow, and Ye Feng couldn't stand it at all.

So Ye Feng was actually a little tempted by what the female disciple said just now.

If you can join a powerful disciple group and be able to share in this group the latest information about the dark world and the places where various cultivation resources may be hidden, this will naturally be a huge convenience for Ye Feng. I need to be like a headless fly, running around trying to catch up with the immortals.

When Ye Feng said this, the female disciple immediately smiled and said: "Okay, then I'll look forward to your next decision. By the way, my name is Lan Tianran, you can call me that from now on." Senior Sister Lan."

After the words fell, Lan Tianran, the mysterious senior sister, directly handed her identity token to Ye Feng and said with a smile: "When you come back from the dark battlefield, remember to return the identity token to me. When the time comes, I hope you will tell me your decision on whether to join the disciple group I am in. By the way, the group I am in is There is a disciple group, but among the disciple groups within our Dark Divine Court, the top three giant groups have many benefits after joining. Most people, I am not willing to let them join, but for some reason, although it is the first time we meet, I see When I first met you, I felt that you were extraordinary. Maybe it's a woman's intuition."

Hearing Senior Sister Lan in front of him say this, Ye Feng couldn't help but reveal a rather surprised smile in his eyes, and then said aloud: "When I come back, I will tell Senior Sister Lan the answer. No matter what, Thank you, Senior Sister Lan, for answering so many questions for me and for taking such a new disciple like me, thank you."

At this moment, after Ye Feng finished speaking, he took Lan Tianran's identity token and left the central hall, flying quickly towards the dark battlefield.

When Ye Feng came to the Dark Court before, he had already seen the map of the entire dark world in the training tower of the outer disciples of the Dark Court. Therefore, the location of the dark battlefield is at the edge of the dark world and outside the territory. The higher worlds seemed to be connected together, forming a junction, and Ye Feng naturally knew them.

But just when Ye Feng left the central hall and was about to fly towards the edge of the dark world.

Suddenly, several unfamiliar disciples of the Dark Divine Court blocked Ye Feng's path.

Seeing these unfamiliar Dark Divine Court disciples blocking his way, Ye Feng suddenly showed a rather impatient look in his eyes, and said loudly: "You are also old disciples, you want me to protect you." Fee, right?"

Hearing what Ye Feng said, the eyes of the strange disciples who stopped Ye Feng were slightly startled, and then they shook their heads.

The leading disciple immediately spoke up and said: "The upper echelons of our sect in the Dark Divine Court are looking for you, Junior Brother Ye Feng. We have something special to discuss. Please also ask Junior Brother Ye Feng to follow us."

Hearing these strange disciples directly say their names, Ye Feng's eyes suddenly showed a look of surprise.

It seems that the other party really wants to find him for something, otherwise, it is impossible to know the name of a new disciple like me.

However, Ye Feng is still a little confused. After all, he has just arrived at the Dark God Court and is just a new disciple. Why would the upper echelons of the sect find a new disciple like him to discuss something?

It is really a bit strange.

After all, he has just arrived at the Dark God Court and can only be regarded as a little transparent.

However, although Ye Feng is a little confused, he thinks in his heart that it may be related to his previous participation in the martial arts conference of the three empires and winning the first place.

So at this time, Ye Feng decided to follow these disciples to see what is going on.

At this moment, Ye Feng immediately nodded and said, "Since the upper echelons of the sect are looking for me, then please lead the way."

These strange disciples immediately nodded and said, "Brother Ye Feng, just follow us."
