Chapter 851 Using strength

The mysterious deaths of the four supreme beings in the Zhongzhou Protector Hall caused shock to the entire Zhongzhou land.

But no one placed suspicion on Ye Feng at all.

Because when Qingyuan Supreme took Ye Feng to the Protector Palace, it was very secretive, and few people saw it.

Even if there may be some low-level guards who saw Qingyuan Supreme and Ye Feng walking together, they would not dare to speak out at all.

Whether it was the four fallen supreme beings or Ye Feng, the lord of the Southern Territory, a peerless ruthless man who had conquered an entire territory, they were all big figures that those low-level guards could never imagine.

Naturally, they did not dare to say any speculation, lest they would not know how they died.

So in the end, the Zhongzhou Protectorate Palace gave a ridiculous result, that is, the four masters tried to refine the entire Danhuang Pavilion elixir. As a result, after refining tens of thousands of precious elixirs, the power of the medicine was too huge, and the four supreme masters simultaneously He became possessed and passed away.

This reason is very ridiculous, but some people in Zhongzhou really believe it.

After all, the four supreme beings are all great saint-level beings. It is impossible for them to die unknowingly in the entire Longyuan Continent, and they died on their own territory.

Even the powerful quasi-emperor cannot do this.

This incident has become the biggest unsolved case in Zhongzhou. No one knows what happened in the small Danhuang Pavilion, which caused the four supreme beings to die inexplicably.

...

A month later, the True Dragon Competition was successfully held in Zhongzhou.

No one from the Southern Territory was present.

This made many big shots, and even some old monsters in the Human Race Temple, look very ugly.

Some people criticized Ye Feng, the Lord of the Southern Territory, for being so arrogant that he didn't even come to the Zhongzhou True Dragon Competition.

But one person knew that Ye Feng had been to Zhongzhou before the True Dragon Competition.

That is the temple messenger Zixuan.

No one in the world knew that Ye Feng had been to Zhongzhou, but Zixuan knew that Ye Feng had arrived in Zhongzhou a long time ago, but she didn't know where he went.

Moreover, Zixuan also knew that Ye Feng had a relationship with Qingyuan Supreme before. At that time, there was some unpleasantness because Ye Feng ignored Qingyuan Supreme.

At this time, Zixuan, the temple messenger, suddenly thought of the mysterious deaths of the four supreme beings in the Zhongzhou Protectorate Palace, including Supreme Qingyuan.

"Could it be that the four supreme beings were secretly killed by Ye Feng..."

This guess suddenly popped into Zixuan's mind, and she was immediately a little stunned.

Although this idea is very bold and unbelievable, Zixuan feels that this may be the case.

However, Zixuan would not tell her guess. After all, four great saints died. This matter was too involved, and it was not something that a small temple messenger like her could bear. What's more, Zixuan's feelings for Ye Feng still has a lot of good feelings.

...

.....

In the Southern Territory, deep within the Great Emperor Alliance in the Chaotic Ancient Sea.

In the dim training room, Ye Feng's whole body was shining with divine light.

Every inch of bone and flesh is filled with layers of sacred light.

Now Ye Feng's cultivation aura is that of the Nine-Star Saint King!

There is only one step left before you can step into the realm of the true great sage!

Now, two full months have passed since the last time Ye Feng returned from Zhongzhou to the Great Emperor Alliance.

In the past two months, Ye Feng had really turned a deaf ear to what was going on outside the window, focusing only on refining the best elixirs.

Therefore, in the past two months, Ye Feng's cultivation mana was accumulated to the peak of Nine-Star Saint by the terrifying energy of tens of thousands of miraculous pills and three Great Sage Creation Pills.

At this moment, Ye Feng was sitting in the secret cultivation room, frowning.

Because he discovered that at the critical moment when he was about to enter the realm of the Great Sage, the medicinal energy of the numerous elixirs refined in his body was almost exhausted.

It's just a little short of being able to truly break through the final bottleneck of cultivation and step into the true level of a great sage.

Ye Feng's heart sank. He didn't expect that his body was really such a bottomless pit. He had absorbed tens of thousands of pills, as well as three Great Sage Creation Pills. None of them had entered the realm of the Great Sage, which really left Ye Feng speechless. .

"No, the demon army will arrive in more than ten days. I must step into the Great Sage before I can have a chance to rush into the space light gate to fight, find the space node, and escape from the prison of Longyuan Continent. Prison', enter the real spiritual world

Vast earth, return to my true homeland and hometown! "

Ye Feng was thinking in his heart at this time, and the firm light in his eyes became more and more intense.

"In the end, if I am short of energy, maybe I can use the Dragon of Luck to break through! You Lian once taught me a secret technique to use the Dragon of Luck, maybe I can give it a try!"

Ye Feng suddenly stepped out of the secret training room, rushed out of the central hall, and stepped into the sky above the entire Great Emperor Alliance.

At this time, Ye Feng shouted to the entire Great Emperor Alliance: "All members of the Great Emperor Alliance, please lend me a helping hand, raise your right hand, silently recite my name in your heart, contribute your part to me, and help me complete the task." The ultimate transformation."

"Yes, Alliance Leader!"

"Yes, Alliance Leader!"

Ye Feng's prestige in everyone's hearts now has reached its peak.

So the moment Ye Feng finished speaking, no matter who it was, whether they were disciples at the magical realm or elders at the holy realm, men and women, young and old, they all stood up in an instant and followed Ye Feng's order. He raised his right hand and silently recited Ye Feng's name in his heart.

"boom!"

Almost at this moment, everyone felt that part of the energy in their bodies disappeared, as if it had been extracted out of thin air.

At this moment, the Dragon of Luck hovering high in the sky at the central square of the Great Emperor Alliance suddenly became filled with divine light, as if it had taken a tonic pill.

"swallow!"

Ye Feng suddenly opened his mouth, and suddenly a huge black hole appeared, swallowing the Dragon of Luck directly.

"boom!!"

Almost at the next moment, a majestic and extremely vast energy burst out in Ye Feng's body.

At this moment, Ye Feng felt as if his whole body was being washed by the holy spring in the sky. Countless cells in his entire body were greedily absorbing this essence and powerful power of luck belief.

At this moment, Ye Feng had absorbed part of the energy of millions of monks from the entire Great Emperor Alliance.

Therefore, such a huge energy was extremely terrifying. At this moment, Ye Feng was as if he was penetrated by the light of the Nine Heavens. His body bloomed with billions of divine lights, shining brightly across the entire ancient sea area, making the

People look to gods.

"boom!"

And just when everyone was shocked, a huge energy that frightened everyone to the extreme was released from Ye Feng's body in an instant.

"The realm of the Great Sage! I finally stepped into it!"

Ye Feng looked up to the sky and screamed. After working hard for so long, he finally entered the level of the Great Sage!

At this time, Ye Feng suddenly looked in a certain direction, and the divine light in his eyes was bright, like two beams of divine light that could pierce the blue sky.

At the end of the ocean in the distance, a tall figure of an old man in a golden robe was speeding over.

It turned out to be the Demon Emperor of Yama!

This ancient demon who almost asked the Ancient Emperor had left the Human Emperor Peak half a year ago, and now he has returned.

Ye Feng dissipated his aura and said with a long smile: "Senior Yama, I haven't seen you for half a year. How are you?"

The Demon Emperor of Yama was very shocked by Ye Feng's current achievements, and couldn't help but said in horror: "Ye Feng, you... have entered the Great Sage?"

Ye Feng smiled slightly, nodded and said: "What a coincidence, the great sage just made a breakthrough."

"hiss!"

At this time, even Yama Demon Emperor couldn't help but take a breath of air.

The speed of Ye Feng's breakthrough was too fast, and the Demon Emperor of Yama could feel a sense of fear from Ye Feng's aura.

In other words, Ye Feng broke through very quickly, and his martial arts foundation was extremely strong, so he definitely had heaven-defying combat power.

Demon Emperor Yama couldn't help but sigh: "It seems that I shouldn't have left back then, and I missed a lot of your wonderful experiences."

Ye Feng smiled and said: "The real excitement is that in the real spiritual world, there are still more than ten days, when we break this prison of heaven and earth!"

Demon Emperor Yama nodded and said: "I came back just for this matter. It seems that Ye Feng has already planned it."

Ye Feng nodded. He had seen the future a hundred days later. Naturally, he knew when and where the demon army from the Southern Region would arrive.

Therefore, everything is in Ye Feng's plan. He is waiting for the final moment in more than ten days. Whether he can reverse his destiny or not, success or failure depends on this.

Chapter 852 Infinite Hope

Day 19.

Buzz!

Buzz!

Buzz!

Suddenly on this day, huge dark space light doors appeared all over the vast and peaceful Longyuan Continent.

Originally, there were many powerful forces who were very curious about these dark space light gates, thinking that some strange treasure had appeared, so they all gathered there and wanted to snatch the dark space light gates.

But when countless tall and ferocious demons surged out from the light door in the dark space and roared around the world, everyone was dumbfounded.

Boom! ??

Boom! ??

In addition, behind these demons, there is a giant demon war beast with a head length of tens of thousands of meters, roaring to the sky, giving people an extremely shocking epic feeling.

At this moment, everyone realized that the demons had invaded in large numbers.

What makes many creatures in Longyuan Continent even more desperate is that in every dark space light gate, there is a huge and majestic demonic shadow, full of unparalleled terrifying pressure.

"That's the Demon Emperor!"

"There is also a demon emperor coming to the demon world!"

On the ground, countless strong men roared in shock, their faces filled with deep anger and boundless fear.

No one expected that on this suddenly peaceful day, such a devastating disaster would befall the earth.

Suddenly, countless demonic armies surged into Longyuan Continent through this dark light gate. There were hundreds of millions of demonic clans. The scene looked really shocking.

Of course, after the shock, there was deep fear and desperate struggle.

"Conquer Longyuan Continent! Kill them all! Leave no one behind!"

At this moment, among the countless demon armies, there was the demon lord sitting on the throne of darkness, with cold and ruthless red eyes and a voice of iron blood.

"boom!!"

The army of hundreds of millions of ferocious demons started a killing feast in an instant.

Even Zhongzhou, the most prosperous city in Longyuan Continent, was in chaos at the moment, with demonic energy surging and the sky dark.

...

Southern Territory.

On a certain piece of land, a huge door of dark light also appeared.

Boom! ??

Boom! ??

Countless demons rushed out from the dark light door. The tall and ferocious demons were all wearing ancient demon armor, holding saw-tooth war weapons, exuding evil and boiling demonic energy.

"Kill all the creatures in the southern region of Longyuan Continent! Become our blood food!"

At this moment, countless demon generals led an army of hundreds of millions of demons, rushing out from the huge dark space light door, roaring in preparation for invasion and massacre.

But at the next moment, what shocked the countless demon army was that they looked up and found that the entire vast land of the Southern Region, whether it was the cultivating sects, the mortal dynasties, or the sea, was completely empty. No one.

No, not even a hair!

All the people and creatures in the entire Southern Territory seemed to have disappeared overnight. It was completely empty, with only buildings left empty.

"what's the situation?"

"Where have the hundreds of millions of humans in the Southern Territory gone?"

At this time, countless demonic armies were fierce, but at this moment they could only wait in place, looking at the empty scene of the entire Southern Territory in front of them, a little dazed.

For a moment, hundreds of millions of demon armies, as well as major demon generals, stood there, somewhat at a loss.

The scene looked a little funny.

"Buzz!"

\u003e But suddenly at this moment, a young figure suddenly rushed out of a void near the light gate of the dark space.

This young figure is dressed in a black robe and is covered with a strong demonic aura. It is Ye Feng!

At this time, all the creatures, monks, and strong men in the entire Southern Territory were put into the vast space of the Great Emperor Tower by him!

The Great Emperor's Tower is a high-grade imperial weapon. The space hidden in the tower is extremely vast and huge, just like a small world contained in the Great Emperor's Tower.

Therefore, it is more than enough for the Great Emperor Tower to house all the creatures in the Southern Region and all the powerful monks from the Great Emperor Alliance.

At this time, Ye Feng alone was the entire Southern Territory.

Therefore, after the demon army from the Southern Territory arrived, they found that the entire Southern Territory was deserted and deserted.

At this time, Ye Feng used the Divine Art of Creation to change his own power attributes, making himself surrounded by demonic energy. Just like a demon soldier, he quickly wandered through the huge dark space light gate.

Ye Feng sent a message to the bald bird in the spirit beast bag: "Master Bird, hurry up and find the space node in the light gate of this dark space."

The bald bird also knew the urgency of the matter at this time. It said quickly: "I am looking for it, please give me some time. What covers the Longyuan Continent is a super formation arranged by a demon god back then. It is still a bit difficult."

Ye Feng was about to say something.

"boom!"

Suddenly, at this moment, a powerful demon lord sitting on the throne of darkness suddenly stared at him.

This demon lord has the terrifying cultivation of a great sage. At this time, he stared at Ye Feng, who was wrapped in a black robe, and shouted: "Which demon general's soldier are you? I think you are very suspicious, so hurry up Open the black robe that covers you, I want to find out your identity."

At this time, the tall demon lord said that he stood up directly from the dark throne. His whole body was covered with huge demonic energy, giving people a sense of vastness and heaviness.

The Great Sage-level Demon Lord was so terrifying that the entire sky suddenly became dim, and he forced himself directly towards Ye Feng.

"Sure enough, there are still powerful people among the demons who can discover my hidden skills!"

Ye Feng couldn't help but sigh secretly in his heart.

"Boy Ye Feng, the space node has been found!"

Suddenly, the voice of the bald bird sounded: "At the very center of the light gate in this dark space, there is a very weak void. When you reach that space node, you can directly jump out of the entire dragon. Bound by the Abyss Continent and the Super Demonic Array, enter the true spiritual world."

Ye Feng's eyes were filled with joy, and he shot directly towards the center of the space light gate.

"What do you want to do?"

When the Demon Lord saw Ye Feng suddenly speeding up, he immediately said angrily: "Stop!"

boom!

The Demon Lord stretched out one hand and turned it into a huge claw, grabbing at Ye Feng.

This demon lord is a peak saint, almost reaching the quasi-emperor level, very powerful.

If Ye Feng's current cultivation level was hit by bombardment, he would definitely be blasted to pieces and killed.

"All the Southern Region monks in the Great Emperor's Tower give me a helping hand!"

Ye Feng suddenly roared.

"Yes, Alliance Leader!"

"Leader, we will all help you!"

At this moment, wait

Countless Southern Region monks in the Great Emperor's Tower, the powerful ones from the Great Emperor Alliance, including Xiao He, Master Bai Yuchen, Senior Sister Murong Yunyin, Jian Wushuang, Luo Lingxi, Elf Queen, Hundreds of Great Wilderness Clans, etc., all roared. He spoke out and raised his right hand.

boom!

Suddenly, a huge force of luck blessed Ye Feng's body.

In addition, Ye Feng was also blessed by part of the power of hundreds of millions of monks in an instant.

"boom!"

He punched out instantly, and it was the most powerful punch.

This punch bloomed with boundless bright divine light!

This was not only a punch from Ye Feng, but also a punch from countless creatures in the entire Southern Territory.

boom! !

A terrifying roar exploded instantly, and the demon lord who was about to step on the quasi-emperor was directly blasted to pieces.

"Boom!!"

The terrifying fist light wave penetrated the entire sky and the earth at once. The destructive power of this punch was unstoppable, directly destroying tens of millions of demons and opening up a bright road for Ye Feng.

"Uh-huh!"

Ye Feng instantly rushed to the center of the light gate in the dark space. His soul power emitted, and he immediately captured the location of the space node discovered by the bald bird.

"Void jump!"

Ye Feng roared, and his whole body directly tore through the void, entered the endless void turbulence, and jumped towards the sky.

Ye Feng suddenly jumped thousands of feet into the sky.

This is the first time that he has truly escaped from Longyuan Continent, and his whole body is suspended high in the sky.

Hoo ho ho!

Hoo ho ho!

The endless cold wind blows on the body, making the whole person feel very refreshed, just like a bird that has been trapped for decades, suddenly escaped from the birdcage, and suddenly turned into a goshawk, impacting When you reach the boundless sky, you can enjoy the boundless vastness and pleasure.

Ye Feng looked around at this time, and immediately saw the infinite blue ocean, endless, vast and endless.

And at the bottom of him is a huge island, standing in this endless ocean, that is Longyuan Continent!

"It really jumped out!"

Ye Feng felt an extremely happy feeling in his heart. He finally came to the spiritual world in a real sense.

Buzz!

Without any hesitation, Ye Feng jumped directly into the void and quickly jumped towards the ocean in the distance.

According to the memory of the bald bird, that direction is the most prosperous human race in the Nineteenth Prefecture in the spiritual world, and the birthplace of countless cultivation civilizations.

"Buzz!"

But suddenly at this moment, a huge black hand reaching the sky suddenly rose from a certain piece of land in Longyuan Continent. It was filled with infinite power and was suddenly caught in the void. It actually escaped from Longyuan Continent. , Ye Feng, who was jumping in the void, was stopped abruptly.

"The ancient emperor of the demon clan!"

Ye Feng's eyes were suddenly startled, and the aura released from the big black hand was as frightening as the power of heaven, giving people an irresistible sense of vastness and heaviness.

This is the action of an ancient emperor among the demon clan.

Apparently, a certain demon emperor who had arrived in several other regions of Longyuan Continent discovered the anomaly in the southern region. At this time, he was hundreds of millions of miles away, directly heading towards the position where Ye Feng was crossing the void, and fiercely shouted. A terrifying blow.

"Frozen Throne!"

Ye Feng roared, and a huge Ice Throne appeared. He was sacrificed by Ye Feng, and a huge river of cold air rushed out.

.

"Crack!"

But what shocked Ye Feng's heart was that with just a flick of the demon emperor's finger, the entire top-grade emperor-level Ice Throne was directly shattered and turned into shattered ice crystals all over the sky.

"What? It's definitely a peak-level demon emperor!"

Ye Feng's heart was shocked. The strength of this demon emperor was too terrifying.

Although he jumped out of the southern domain, he was discovered by a peak demon emperor from another domain, who directly crossed the endless space and attacked him fiercely.

"Boom!!"

This attack cannot be avoided.

Ye Feng knew that whether it was the future body of Dzugchen, the backbone of the God of Death, etc., there was no way he could withstand the attack of a peak demon emperor and would be directly obliterated.

At this moment, Ye Feng could only protect his body with the Great Emperor Tower and the City of War. The Human Emperor Armor was also condensed, and then he crazily activated the Sun and Moon Battle Body.

"boom!!"

A horrific attack is coming.

The attack of the peak demon emperor was too terrifying.

The only top-grade imperial weapon in Longyuan Continent, the City of War, was shattered into pieces, and the scene was terrifying.

However, in the city of war, the demon emperor's blow consumed nearly half of its destructive power and 50% of its energy.

"Boom! Click!"

The Human Emperor's armor was also shattered, and the Demon Emperor's attack once again consumed 10% of his energy.

There is still 40% energy left, which is terrifying.

"Crack!"

The ancient tower of the Great Emperor Tower actually shattered.

The bald bird immediately shouted in the spirit beast bag: "Boy Ye Feng, you can no longer use the Great Emperor Tower to resist. If the Great Emperor Tower is broken, the small world in the tower will also be broken. All your friends and partners in Longyuan Continent will be destroyed." They will be cut into pieces by countless space fragments in an instant, and they will all die!"

Ye Feng's eyes were startled, and then he grabbed the Great Emperor Tower and threw it hard in a certain direction in the void. He shouted: "Everyone, the Great Emperor Tower is about to be broken. You must escape before the Great Emperor Tower is broken." !”

The moment the words fell, the Great Emperor Tower had disappeared at the end of the void, and landed somewhere in the spiritual world.

At this time, Ye Feng was the only one left on the field.

"Boom!!"

The last 40% of the demon emperor's power suddenly descended on Ye Feng.

"ah!!"

Ye Feng howled in an instant, and his entire body was shattered into pieces.

But after all, the Sun-Moon Combat Body is very powerful, and it has already entered the middle stage of the Sun-Moon Combat Body.

Although Ye Feng's entire body was shattered into pieces by the bombardment, it was not completely shattered after all.

"boom!!"

And the power of the Demon Emperor is so terrifying, with a huge impact.

This demon emperor did not kill Ye Feng at once. The huge impact directly blew Ye Feng's body into pieces and flew to the end of the endless ocean. The terrifying pain made Ye Feng fall into a trap for an instant. In deep coma.

Before his consciousness turned dark, Ye Feng had only one thought left in his mind, that is, he had succeeded after all!

As long as you are not dead, there is infinite hope!

Ye Feng felt the horrific pain of his torn body, a hint of helplessness and bitterness flashed across the corner of his mouth, and murmured, "I hope I won't be swallowed by the evil ocean beasts in the endless ocean of the spirit world before I wake up..."

Chapter 853 The Evil Alchemist

"Bang!"

In the dark and hazy state of consciousness, after an unknown amount of time, Ye Feng suddenly felt that his body was being thrown hard on the hard ground.

"it hurts....."

Ye Feng gasped in pain as his whole body hurt. He struggled and forcefully opened his tired eyes.

"This is?"

The next moment, Ye Feng's eyes suddenly showed deep horror.

At this moment, he saw that all around him were the corpses of various creatures, including humans, monsters, and many unknown corpses.

At this time, everything is piled together.

At this moment, Ye Feng suddenly discovered that he was actually in a huge furnace.

This cauldron is extremely huge, and now it contains thousands of corpses.

"Chirp!"

At this moment, a bird song sounded from the sky.

Bang!

A black strange bird appeared high in the sky above the cauldron. The strange bird held a tall barbarian corpse in its mouth and dropped it directly, hitting Ye Feng's side.

Then the strange black bird left again.

Ye Feng's eyes changed slightly and he couldn't help but murmured: "Isn't it possible that I was regarded as a dead body by that strange bird and thrown into this huge furnace? Who set this furnace here? To use thousands of corpses to make elixirs, could it be that they are alchemists working with evil spirits in the spiritual world?"

Ye Feng thought quickly in his mind, and he jumped up, wanting to fly high into the sky.

"Bang!"

But the next moment, Ye Feng's body suddenly fell into the furnace again.

"Oops! The Demon Emperor has severely injured me! Although my body has recovered under the life energy of the Immortal Tree, my cultivation has not been restored. It will take some time to return to the original realm of cultivation."

Ye Feng's heart moved, and he simply sat in the pile of dead people in this huge cauldron, and began to run the Divine Art of Creation to recover.

At this time, Ye Feng's soul power was still able to be used. He used the Divine Eye of Creation and looked through the thick walls of the huge furnace. He immediately saw a vast primeval forest around him, with giant plants growing everywhere. The trees are towering and majestic.

"It's land!"

Ye Feng's eyes were filled with joy. It seemed that he had been blown away by the demon emperor before. The huge impact directly made him fly across the endless ocean and arrived at the main land of the nineteen states of the human race in the spiritual world!

Although Ye Feng was in the pile of dead people in the huge cauldron at this time, he could still breathe. The breath of this land was very familiar. It was exactly the same as the breath he breathed three thousand years ago. It was definitely the breath of the real earth in the spiritual world!

At this moment, Ye Feng's Divine Eye of Creation "saw" that sitting on a huge bluestone outside the huge furnace was a white-haired old man wearing a robe with skull patterns.

This white-haired old man was sitting on the huge blue stone, and the cultivation level exuding from his body was that of a great sage.

"As expected of the land of the spirit world, in this area near the edge of the endless ocean, if you encounter an evil alchemist at random, it is the cultivation of the great sage. It is really amazing. The main land of the human race in the spirit world is indeed prosperous. If every one of them is On the Longyuan Continent, they are all super powerful, but in the spiritual world, they are probably not considered masters. "

Ye Feng secretly thought in his heart, although the mana in his body is now exhausted, but his body has recovered, even if it is just the power of the body, the mid-term sun and moon battle body will definitely be able to instantly destroy a high-level saint.

So even though Ye Feng is here

He was not afraid in the pile of dead people. Seeing that the evil alchemist outside the furnace made no movement, Ye Feng did not scare the snake for the time being. He sat directly in the huge furnace cauldron filled with corpses and began to sit cross-legged and meditate, operating the God of Creation. Jue, absorb the spiritual energy of heaven and earth, and work hard to restore your cultivation.

"Look, Your Highness! That evil alchemist is there! Oh my god, he is using so many dead bodies to refine some weird and evil elixir! It was he who stole a great sage creation elixir from our Rain Kingdom, and he actually broke through At the level of a great sage! Damn it!"

Suddenly at this moment, a man's frightened and angry voice suddenly came out from the dense forest of the primitive forest not far away.

Wow!

And at the next moment, along with the sound of rapid movement, in the direction of the sound, from the dense forest, more than a dozen armored guards wearing silver armor and holding silver giant swords came out one after another.

In the middle of this group of silver-armored guards, there was a young woman with an extremely perfect appearance. She was wearing a noble purple-gold noble robe. She had long black hair, tied with a crisp silver hairpin, and her skin was crystal clear. It looks full of classical and noble temperament.

"Your Highness the Princess, that evil alchemist has committed a heinous crime, and I request that he be killed directly. Your Majesty's strange poison was caused by this evil alchemist!"

Among the dozen or so silver armored guards, the tallest armored guard is obviously the commander of the guards. He is majestic and handsome, holding a silver giant sword in his hand, giving people a strong sense of intimidation, like a man with the ability to slay a dragon. Like the powerful ancient warriors.

The aura of cultivation on his body is clearly that of a great saint!

And the perfect Princess of the Rain Kingdom is in the realm of the Nine-Star Saint King.

Ye Feng stayed in the pile of dead people in the huge cauldron. He was a little surprised when he saw this scene on the field. It seemed that this evil alchemist didn't need to deal with it himself. Someone helped him deal with it.

The noble Princess of the Rain Kingdom and a dozen armored guards holding silver giant swords were all very powerful, and the evil alchemist could not resist them.

"Jie Jie Jie."

Suddenly at this moment, the evil alchemist wearing a skull-patterned robe suddenly let out a sinister sneer.

"You are all on the verge of death, and you still dare to say that you want to kill me? When I kill you, I will go to the Rain Kingdom and release a poison that will kill all of you in the Rain Kingdom." Everyone is poisoned to death!"

The evil alchemist let out a cold laugh, and his words were extremely cruel.

"presumptuous!"

The commander of the armored guards could no longer suppress his anger. He held a silver giant sword in his hand, and his whole body was filled with thousands of silver lights. Like an ancient swordsman, he roared and killed directly towards the evil alchemist. His fighting spirit surged into the sky, and his sword glowed. boiling.

"Bai Ze! Something's wrong! Be careful of the trap!"

Suddenly at this moment, the Princess of Rain Country not far away seemed to notice something, her beautiful eyes were suddenly startled, and she quickly reminded her.

"Hey, it's too late!"

The evil alchemist immediately smiled cruelly and grabbed the guard leader in the direction from which he was charging.

"Boom!"

Suddenly, the ground beneath the guard commander's feet burst open, and a beam of poisonous gas burst out instantly, directly covering the guard commander's entire body.

"ah!!!"

That was boiling with murderous intent

The commander of the guards suddenly let out an extremely miserable and painful howl.

The poisonous gas beam that burst out from the ground was very terrifying. The moment it was contaminated by the guard commander, the silver armor, giant sword, and body of the guard commander were all corroded and melted in an instant. The scene was very strange.

However, in just a short moment, the great sage-level guard commander, including his armor, was corroded by the poisonous gas beam and turned into a pool of blood and broken bones.

"hiss!"

Seeing this terrifying scene, the remaining dozen or so silver-armored guards standing not far away could not help but tremble, and they clenched the silver giant sword in their hands, very nervously.

Princess Yu's beautiful face was also filled with an ugly look at this time.

Her eyes showed deep shock and anger, staring at the evil alchemist, and said: "Your Majesty, please don't go too far. Although our country of rain is the weakest vassal country in the snow state, our country of rain and the other seven states in the snow state are The seventeen vassal states are all vassals entrusted by the supreme Divine Emperor Tongtian. If you go against our Rain Kingdom, you are going against the entire court. If the state capital set up by the court in Xuezhou finds out about this, you will be punished. Even if you run away to the ends of the earth, you will die without a burial place."

When the evil alchemist heard what the Princess of the Rain Kingdom said about the "imperial court" and "Xuezhou Prefecture," his cruel and proud expression suddenly turned serious, and his eyes were a little ugly.

Obviously, in the land of the spirit world, the unified immortal dynasty of the Tongtian Divine Dynasty represents the destiny. Even lawless evil people like the evil alchemist are very afraid when it comes to the imperial court.

The Tongtian Divine Dynasty ruled the spiritual world. For three thousand years, the power of the Divine Emperor reached its peak. No matter how powerful the monks were, or the super sects with profound foundations, holy lands, ancient tribes, divine religions, etc., they all He showed surrender and obedience to the unified Tongtian Divine Dynasty and did not dare to go against the imperial court at all.

Nowadays, Emperor Tongtian's cultivation level is even more unfathomable, and he has also obtained the most powerful artifact in the world, the Gate of Immortality. No one knows how powerful Emperor Tongtian is now.

The world only knows that in the first restricted area "above the sky" in the boundless sky of the spiritual world, gods once came to the land of the spiritual world and wanted to harvest faith, but they were killed by the Emperor Tongtian.

That battle was like the Twilight of the Gods. It completely established the great majesty and power of the Tongtian God Emperor. No one in the sky dared to come down to the spirit world to act recklessly. And in the entire spiritual world, all races surrendered to the Tongtian God Emperor, and countless large sects The great clans and the Holy Land Divine Religion all voluntarily submitted to the rule of the Tongtian Divine Dynasty.

The Tongtian Divine Dynasty established state capitals in each of the nineteen states, and enfeoffed various vassal kingdoms. The hierarchy was strict.

There are ancient elders in the spirit world who praise the glory of the Tongtian Divine Dynasty, which is even more prosperous and prosperous than the Creation Divine Dynasty three thousand years ago. The Tongtian Divine Emperor has achieved this in a true sense. The entire land of the spirit world, under the whole world, is not the king's land. , on the shore of the land, could it be the king's ministers?

At this time, Ye Feng in the huge cauldron saw that the Princess of Rain Kingdom had only mentioned the imperial court, and the evil alchemist had a hesitant and ugly look on his face.

Ye Feng's heart suddenly sank, because this meant that the majesty of the Tongtian Divine Dynasty had probably been engraved into the bones of the people of the world, creating fear.

This means that the Tongtian Divine Dynasty is at its peak and most prosperous.

The Princess of the Rain Kingdom walked towards the evil alchemist at this time, the expression on her beautiful face gradually softened, and persuaded: "If you hand over the antidote to the strange poison in my father's body, I will not hold you responsible for stealing my Grand Princess of the Rain Kingdom." How about I just let you go without holding you responsible for killing one of my bodyguard commanders?"

The evil alchemist seemed to be thinking, there was a trace of struggle in his eyes, and then he nodded heavily and said: "Okay, I promise you, you let these guards disperse, then let me go, and I will give you the antidote."

"good."

Princess Yu's eyes immediately lit up with joy, and she directly ordered the people around her: "You all should disperse."

"Yes, Your Highness Princess."

The dozen or so silver-armored guards immediately clasped their fists and made a sound, and then they all dispersed.

"Princess of the Rain Kingdom, you keep your word, then I will give you the antidote and you can continue."

The evil alchemist threw a small box directly, and the princess of the Rain Kingdom immediately looked overjoyed and caught the small box.

"Crack!"

But almost at that moment, the small box opened automatically, and a small black scorpion with seven tails popped out of it, and it bit directly into the palm of the princess of the Rain Kingdom.

"Seven-tailed poisonous scorpion!"

The princess of the Rain Kingdom turned pale with shock, her eyes suddenly filled with shock and anger. She never expected that the evil alchemist could be so sinister!

"Plop!"

She was suddenly poisoned. Even though she had a strong cultivation level, she felt weak and weak all over. She fell directly to the ground, her vitality disappearing quickly.

"your Highness!"

More than a dozen silver-armored guards immediately roared in fright and anger, and rushed directly towards the Princess of Rain Kingdom to guard Her Royal Highness.

"A bunch of naive young people really think that my title of Breaking Bad Master is for nothing?"

The evil alchemist smiled coldly, waved his sleeve, and infinite poisonous gas spurted out, covering all the dozen or so silver-armored guards.

"ah!"

"ah!"

More than a dozen powerful Saint King-level guards suddenly let out shrill screams. They were all corroded by the poisonous mist and turned into white skeletons. They fell to the ground and were scattered all over the place.

"No!!!"

The princess of the Rain Kingdom lay on the ground, and her beautiful face showed deep despair in an instant.

This evil alchemist is so vicious that no one can stop him with his poison skills.

"Even if I die, my father's strange poison will not be cured. The Rain Country will definitely be annexed by other vassal states in Snow State. The life and death of us small vassal states, the behemoths like Snow State Prefecture simply don't care. Is the sky going to destroy my country of rain?"

The Princess of the Rain Kingdom stared at the evil alchemist walking towards her, and saw the cruel look in the alchemist's eyes. The princess's originally bright eyes were filled with a look of deathly gray for an instant.

She is the only descendant of the Lord of the Rain Kingdom and the princess of the Rain Kingdom. She is burdened with the heavy responsibility of revitalizing the Rain Kingdom. But at this desperate moment, the Princess of the Rain Kingdom feels endless fatigue and helplessness. Maybe it would be better to die like this. , I'm just sorry for my father's expectations, I'm sorry for the expectations of countless people in the Rain Kingdom...

"This is the land of Snow State? Rain Country? I haven't heard of it. It seems to be a small vassal country. Princess of Rain Country, right? If you promise to take me back to Rain Country and use the resources of Rain Country to help me restore my damaged cultivation, How about I help you kill this evil alchemist?"

Suddenly, at this moment, a slightly casual young man's voice sounded.

Ye Feng punched out, and with a "boom" a big hole was blasted out of the huge cauldron full of dead people. He walked out of the giant cauldron and stared at Yu Guo, who was lying on the ground and was poisoned. On the princess.

Chapter 854 Searching for Wealth

"Boy, who are you?"

Ye Feng smashed the furnace cauldron with one punch and walked out of it. The expression of the evil alchemist suddenly changed.

He never thought that there would be a living person in the cauldron where he was going to make elixirs.

Princess Yu's eyes suddenly lit up, as if she had grasped the last straw.

Although she was poisoned by a strange poison and fell to the ground unable to move, she hurriedly said: "Master, if you can really kill Breaking Bad, I will agree to all your requests. I am Yu Guo Princess, my promise is absolutely true and reliable."

Although the black-clothed young man who came out of the furnace looked very young, he was only eighteen or nineteen years old, and there seemed to be no mana fluctuations in his body.

But the Princess of the Rain Kingdom is now on the verge of despair. She now regards everything as her own life-saving straw. The appearance of Ye Feng, whether it can save herself or not, finally gives the Princess of the Rain Kingdom a glimmer of hope.

She immediately said: "Young Master, you must be careful about this Breaking Bad Master. He is an extremely evil alchemist, and his methods are very vicious. He kills people invisibly, so you must be careful."

Ye Feng nodded and said very easily: "He is just a one-star junior great sage who has just broken through after taking the great sage's creation pill. He is not really a person. He just relies on a little poison to cause harm." People can't get on the stage."

When the evil alchemist heard what Ye Feng said, he immediately smiled coldly and said: "Boy, don't pretend to be sophisticated. I have practiced a kind of spying technique, and I can feel a kind of spirit from you." Weak breath, you must have been seriously injured."

Ye Feng smiled slightly and said: "Yes, I was indeed seriously injured, but it is more than enough to deal with you."

"Arrogant!"

The evil alchemist immediately gave a sharp shout and waved his sleeve, and a large amount of poisonous gas rushed toward Ye Feng like a hurricane.

Just now, it was this poisonous gas that corroded a dozen powerful silver-armored guards into white bones in an instant.

Very terrifying and vicious!

"Master, be careful!"

The princess of the Rain Kingdom, who was lying on the ground, had a big change in her beautiful eyes at this moment, and she quickly exclaimed to remind her.

boom!

However, Ye Feng did not dodge at all at this time, and suddenly walked into the poisonous gas.

"It's over!"

Princess Yu's eyes suddenly turned gray. She was indeed a young man, too impulsive.

"Stupid, boy, you're dead."

The evil alchemist suddenly laughed out loud.

"Stupid? Do you think that if I wasn't sure of victory, I would walk into your poisonous atmosphere so openly? Am I that stupid?"

Ye Feng suddenly spoke out, and a cold arc appeared at the corner of his mouth.

"boom!"

Almost at this moment, every inch of Ye Feng's body suddenly burst out with the divine light of the sun and moon.

The dazzling light made Ye Feng look like a young god had descended.

The skin of his body was made of the strongest divine iron in the world, and those corrosive poisonous gases did not harm him at all.

Although Ye Feng suffered heavy injuries and his magic power was exhausted, his vitality was extremely strong, and the power of his body stimulated

Rise up and burst into brilliance.

"boom!"

Ye Feng instantly rushed out of the poisonous gas and punched the evil alchemist directly.

The red-gold fist exudes the light of the blazing sun and the cold moon. The light of extreme heat and extreme cold complement each other. It is like a top-quality treasure that has just been tempered from the divine furnace. It is blasted out with one punch, destroying everything.

"Pfft!"

The evil alchemist was only powerful in his poison skills, but his combat power was not strong at all. After being approached by Ye Feng, a bloody hole was suddenly blasted out of his chest by Ye Feng.

"ah!!"

The evil alchemist immediately let out an extremely painful roar.

However, he suddenly took out a reddish-brown emitting elixir from the storage ring and swallowed it directly. The blood hole in his chest was instantly reorganized, and his heart grew again. It recovered in an instant.

"Such a precious elixir with miraculous effects would be a waste of resources if used on you."

Ye Feng's eyes had a look of pity, and his eyes immediately turned cold. He rushed forward and grabbed the evil alchemist with a slap in the face.

"Seven-tailed poisonous scorpion! Bite this boy to death!"

Suddenly, the evil alchemist shouted loudly.

Uh-huh!

It turned out that at some point, the extremely poisonous seven-tailed scorpion had sneaked up behind Ye Feng, opened its mouth full of fangs, and bit Ye Feng's neck in an instant.

"Crack!"

But at the next moment, the seven-tailed poisonous scorpion bit Ye Feng's skin, and its fangs shattered into pieces.

"Hiss!"

The poisonous insect immediately let out a painful hissing sound, and black blood dripped from its small mouth.

The area of Ye Feng's skin where he was bitten had no scars at all and was completely intact.

"What?"

Seeing this scene, even Princess Yuguo was shocked, her beautiful white face was full of surprise.

The poisonous gas of the evil alchemist and the seven-tailed poisonous scorpion can corrode and destroy even the high-grade emperor-level armor cast by their country of rain for the royal guards.

But it couldn't cause any harm to Ye Feng's body or even his skin.

What body is this?

It's too scary!

The evil alchemist himself was shocked. He stared at Ye Feng and exclaimed: "How can there be such a terrifying body in our human race! Impossible! I don't believe it!"

Ye Feng smiled indifferently and said, "Believe it or not, it's not up to you to decide."

boom!

Ye Feng took a direct step forward and approached the evil alchemist with long, unstoppable strides.

"boom!"

The completely pure power of the body can defeat ten levels with one force, break through all means with one punch, and directly defeat all the methods of the evil alchemist.

"Pfft!"

With one punch, rays of light radiated out. Ye Feng's whole body was as bright as the sun at this moment. His terrifying brute force directly blew the head of the evil alchemist, leaving him headless.

The body suddenly fell to the ground.

"died?"

At this moment, Princess Yuguo was dumbfounded.

This black-clothed young man who suddenly appeared, his combat power is really terrifying, especially his body, which is as if it is made of divine iron. It is indestructible and contains great power. His brute force is overwhelming. A great sage was simply and directly killed. The hammer is dead.

"puff!"

Suddenly at this moment, the Princess of the Rain Kingdom spurted out a mouthful of blood, and the blood had turned black.

Her eyes suddenly changed and she said: "Oh no! I have been poisoned to the point of death. Even if you give me an antidote now, I won't be able to survive."

Princess Yuguo immediately looked at Ye Feng, her beautiful face was pale, and she left her last words, saying: "After I die, young master, take my princess jade pendant and the solution from the evil alchemist. Yao, go to King Yu and find my father. He will fulfill my promise to you and use all the resources of Rain Kingdom to help you restore your cultivation."

Ye Feng came over, holding a small poison-eating insect in his hand, and said with a smile: "I am not familiar with this place, and I don't know the way to your Rain Country, so I still need to trouble Her Royal Highness to help me show the way. You are here now Swallow this bug, and it will swallow up all the toxins in your body. Don't worry, with me here, you won't die so easily."

Princess Yuguo looked at the poison-eating insect in Ye Feng's hand. Although she didn't know what kind of insect it was, after Ye Feng showed off his skills just now, she immediately swallowed the poison-eating insect and said: "I believe in the master's methods."

Ye Feng stared at the Princess of Rain Kingdom and said with appreciation: "Your Highness, you are so refreshing. I didn't save you in vain."

After the princess of the Rain Kingdom swallowed the poison-eating insect, half an hour later, she felt that her vitality was recovering.

This made Princess Yuguo very surprised. This young man in black who suddenly appeared was astonishing whether it was his own cultivation strength or other methods. However, judging from his words, it seemed that he didn't care much about Snow State. familiar.

"Could it be that a young prodigy from another state, or a descendant of a hidden ancient clan, came to Snow State to gain experience?"

Princess Yuguo secretly stared at Ye Feng at this moment, silently guessing in her heart.

At this time, Ye Feng was searching for the wealth of the evil alchemist.

While Ye Feng was searching, he stared at the corpse of the evil alchemist and murmured: "Actually, I would like to thank you. If it weren't for your pet black strange bird, which brought me to the land from the endless ocean, maybe I would I won't wake up so quickly, but it's a pity that if you want to refine me into an evil elixir, you are still a person full of evil, so I can only kill you."

The wealth of this evil alchemist is still very rich.

Ye Feng searched for several very advanced poison technique secret books, and also found some methods for cultivating poisonous insects. This is a good thing. Ye Feng can use it on poison-eating insects, or on the two ancient gods that Ye Feng obtained before. On the silkworm babies, the cultivation of these spiritual insects is accelerated.

In addition to these, Ye Feng also found a lot of crystal cards from the evil alchemist's storage ring.

These crystal cards are made of a special material. They have the same principle as the crystal cards issued by the first bank in Longyuan Continent and can be used as a medium of transaction.

However, in the spirit world, these crystal cards were issued by the imperial court of the Tongtian Divine Dynasty, and were more authoritative. They were widely used in the nineteen states of the human race.

On the ground, it is universal.

"The amount shown on the six crystal cards is worth nine million spiritual crystals in total, which is a huge fortune."

Ye Feng's eyes were slightly happy, but what made him a little disappointed was that the evil alchemist didn't have many miraculous elixirs to restore and strengthen his magic power.

At this time, the Princess of Rain Country not far away had fully recovered. She stood up, and her pale face turned rosy again.

At this time, she walked up to Ye Feng, bowed solemnly, and said, "Thank you for saving me this time. Yu Xin can't thank you enough."

Yuxin?

Ye Feng's eyes moved, and it seemed that this was the name of the princess of the Rain Kingdom.

He also smiled slightly at this time and said: "It doesn't matter, I originally planned to kill this evil alchemist. Besides, I also saved you for myself, so that I can get the help of Yuguo's cultivation resources and recover quickly. "Cultivation."

Princess Yuguo immediately showed a touching smile and said: "Don't worry, sir, this is for sure."

"Who is it? Dare to kill my elder of the Erysipelas Sect! How audacious!"

Suddenly at this moment, a voice full of rage suddenly sounded from a certain direction in the primeval forest.

Buzz!

And almost at the next moment, a murderous aura that was extremely frightening swept over from that direction.

"The existence of the Nine-Star Great Sage at the pinnacle!"

As soon as Ye Feng sensed this cultivation aura, his expression suddenly changed slightly.

The Great Sage at the peak level of Nine Stars is truly a strong man.

Don't say that your mana is exhausted now.

Even in his prime state, he probably wouldn't be able to defeat him without summoning his future self.

Ye Feng immediately said to Princess Yuguo: "Let's hide for a moment. This evil alchemist is actually a member of the sect. There is a powerful master behind him who sensed his death."

Princess Yu's face turned pale and she said, "I just recovered and I can't run at all."

"I'll carry you."

Ye Feng didn't care whether Princess Yuguo minded or not, he directly carried the beautiful woman in front of him on his back, and a faint fragrance hit his nostrils.

However, Ye Feng was not in the mood to appreciate this now. He stepped on his feet in an instant, and the power of his powerful body exploded.

"boom!"

Ye Feng suddenly seemed to transform into a soaring eagle, jumping tens of meters high. With extreme speed, he rushed directly into the depths of the primeval forest like a humanoid tyrannosaurus.

The princess of the Rain Kingdom lay on Ye Feng's back. She was a little shy at first, but then she felt that the pinnacle saint behind her was tightly locking the position of their aura.

Princess Yuguo also realized the seriousness of the matter. She immediately said in Ye Feng's ear: "Sir, you are not familiar with this area. Let me guide you. Nearly 10,000 meters away in the southeast, there is a wilderness. The area where the Wild Barbarians live, and by hiding in the territory of the Wild Barbarians, we should be able to stop the nine-star peak sages from the Erysipelas Sect from chasing after them. "

Ye Feng nodded and immediately said: "Okay, I understand!"

boom!

He summoned up all his strength in an instant and ran quickly in the direction pointed by the Princess of Rain Kingdom.

Chapter 855 Pretty big sword

Uh-huh!

Uh-huh!

Uh-huh!

Although Ye Feng has suffered heavy injuries and has exhausted his mana and has not yet recovered, his body has returned to its peak condition under the treatment of the life energy of the Immortal Tree in his body.

So even though he was carrying the Princess of Rain Country on his back, he ran very fast in this primeval forest, running nearly 10,000 meters in the blink of an eye.

At this moment, Ye Feng suddenly saw barbarian tribes appearing in a large mountain forest in the distance, located in the mountains, ancient and barbaric.

Princess Yuguo looked very excited and said: "Sir, let's go to the largest tribe of barbarians. The leader of the tribe is a good friend of my father in the past. He will definitely rescue us."

"good." ??.

Ye Feng nodded and galloped directly towards the center of this barbarian tribe.

"Boom!!"

But suddenly at this moment, there was a violent roar in the distance of the virgin forest behind them.

Boom!

Boom!

The earth was shattered, and all the huge towering ancient trees collapsed.

Amidst the countless chaos, a tall young man wearing a black robe was speeding over from a distance.

He was surrounded by nine black hurricanes of poisonous gas, like nine evil dragons roaring around him, giving people the feeling of a poisonous lord.

Buzz!

The terrifying cultivation momentum of the nine-star peak sage spread out from his body, giving people an extremely heavy sense of oppression.

Obviously, this person is the leader of the Erysipelas Sect, the Nine-Star Peak Great Sage, a super strong man who is about to step into the quasi-emperor with half a foot.

The evil alchemist Ye Feng killed before was an elder of the Erysipelas Sect.

At this time, Ye Feng suddenly understood why the evil alchemist from before chose to refine his evil pill here.

Medicine, no scruples, it turns out that the sect behind him is nearby.

Sure enough, the evil alchemist was dead, and the most powerful person in the Erysidia Poison Sect, the Sect Leader, came after him directly.

"You are dead!"

The eyes of the leader of the Erysipelas Sect were extremely fierce, with a cold murderous intent.

The evil alchemist before was the great elder of their Elisabeth Sect, and he also had a lot of the Elisabeth Sect's wealth and various poisonous secrets.

Now that the evil alchemist is dead and his wealth has been plundered by Ye Feng, the Erysipelas Sect has suffered huge losses. At this time, the leader of the Erysipelas Sect naturally has a strong murderous intention towards Ye Feng.

In addition, if Ye Feng saves the princess of the Rain Kingdom, he will definitely be able to save the leader of the Rain Kingdom. When the time comes, the Rain Kingdom will really want to settle accounts and send troops to destroy the Erysipelas Poison Sect. The Erysipelas Poison Sect will definitely not be able to withstand the army of a vassal state. .

So at this time, the leader of the Erysipelas Sect had a firm intention to kill, and he must kill both Ye Feng and Princess Yu.

At this time, Princess Yuguo lay on Ye Feng's back, and immediately shouted to this barbarian land: "Uncle Man Da Dao, there are bad guys chasing me, please save us!"

"boom!"

And almost at the moment when Princess Yu's words fell, a surge of blood energy suddenly burst out from the center of the large barbarian tribe not far away.

The blood energy turned into an endless river, running through the sky. The majestic energy and blood gave people the feeling that an ancient behemoth had resurrected from the depths of the large tribe.

"Is that the voice of girl Yuxin? Who dares to chase and kill my brother's daughter? That's so audacious! I'll come with you for a while!"

Accompanied by a heroic voice, an extremely strong middle-aged man walked out of a huge tribe.

He is over three meters tall, powerful and wearing an animal skin.

The coat, holding a black iron sword more than ten meters long in his hand, was dragged on the ground, making a heavy friction sound of "chachacha", giving people a creepy and depressing feeling.

At this time, many figures came out one after another among the large tribe. They were all barbarians. Both men and women were very large in size. They were enveloped in the vast aura of the primeval forest and full of power. They were born in the jungle. warrior.

Uh-huh!

Ye Feng carried Princess Yuguo on his back and rushed to the territory of the big tribe in an instant, standing behind the big sword.

At this time, Princess Yuguo was put down by Ye Feng. She immediately looked at Man Da Dao and said anxiously: "Uncle Da Dao, the one who is chasing us is the leader of the Erysipelas Sect."

"Master of the Erysipelas Sect?"

There was a trace of coldness on Man Da Dao's rough face, and he said: "I have known for a long time that the Dandu Sect has evil intentions towards Yu Xin, girl, your Yu Kingdom, but your father has too much trust in the Dandu Sect's alchemy skills and wants to rely on it. It was really unwise to break through to the imperial realm with the elixir refined by the Poison Master of the Erysidia Poison Sect. As expected, he was killed and fell into a trap. "

"Now my father has been poisoned by Breaking Bad, and he is now repenting."

The Princess of the Rain Kingdom also showed a hint of helplessness in her eyes, and then said: "Furthermore, Breaking Bad has been killed by Mr. Ye, and the antidote has been found. As long as we can return to the Rain Country safely, my father will be saved. " .??.

"Breaking Bad was killed? Did this kid kill him?"

Man Da Dao's eyes were fixed on the black-clothed young man next to the Princess of Yu Kingdom, as if he was a little suspicious.

Because he couldn't feel any powerful aura fluctuations from Ye Feng's body at all.

"Huh? Your body?"

But at the next moment, Man Da Dao suddenly stared at Ye Feng's arm. He seemed to be able to hear a river-like roar coming from Ye Feng's seemingly thin body.

"

What a powerful body and blood! "

Man Da Dao's eyes lit up. He was a nine-star peak great sage. His perception was very strong and he could see something extraordinary about Ye Feng.

"We'll wait until we drive away the leader of the Erysipelas Sect."

Man Da Dao instantly withdrew his gaze from Ye Feng, and then looked towards a jungle not far away.

"Boom!"

In the distance, patches of ancient forest trees collapsed, the ground cracked, and dust flew into the sky.

The figure of the leader of the Erysipelas Sect has a supreme aura, floating in the sky in the distance, surrounded by hurricane gas, leaping from the endless dust.

At this time, he stared at Man Da Dao in the central tribe area, with a hint of fear in his eyes, but he still threatened: "Man Da Dao, you are a barbarian, and you don't go hunting in the mountains and raising your tribe, now jump out and fight This sect leader is against me, are you hungry and have nothing to do?"

Man Da Dao smiled coldly and said: "Du Qianjue, the leader of the Erysipelas Sect, has heard of your name a long time ago, but it is notorious. Yuxin is the daughter of my brother. I will naturally protect her. Your Excellency, please come back. "

The leader of the Erysipelas Sect was not angry, but said indifferently: "I don't want to talk nonsense anymore, quite a big sword, I will give you two choices. First, hand over the Princess of the Rain Kingdom, and the black-robed man who killed my Erysipelas Sect elder. Boy, secondly, I will take action directly, even if it costs a little, I will kill you and then kill those two young men."

Man Da Dao immediately clenched the black iron sword in his hand, which was more than ten meters long, and shouted: "Then I will give you a choice, that is, leave quickly, otherwise I will split you in half with one knife!"

Hearing this, the leader of the Erysipelas Sect suddenly showed a ruthless look in his eyes and said: "Stubborn! Since you, a barbarian, are so ignorant, I will kill you directly, and then kill hundreds of thousands of your entire barbarian tribe." All the clan members will be poisoned, and this is the price for daring to go against me!"

Chapter 856 Plan and act later

The moment Du Qianjue, the leader of the Erysipelas Sect, finished speaking, he rushed towards the barbarian tribe.

"Boom!"

He was surrounded by more than a dozen lines of black poisonous gas, forming a hurricane of poisonous gas that surrounded his entire body. Wherever it passed, whether it was trees, grass, or various beasts and insects, they were all corroded into ashes.

This scene looks very strange and terrifying. It is obvious that Du Qianjue is the leader of the Erysipelas Sect and has the cultivation of a nine-star peak saint. His poison skills have already reached the realm of transformation, which is very scary.

"You guys stand back!"

Man Da Dao suddenly shouted loudly, causing Ye Feng, Princess Yu, and many other barbarian tribesmen to retreat.

His tall body suddenly took a step forward, and instantly the energy and blood soared into the sky, penetrating the sky, as if a bloody war god had arrived.

"Wow!"

The majestic blood energy formed a storm of blood energy around Man Da Dao, and he rushed directly into the hurricane of poisonous gas. The fierce poison gas could not get close to Man Da Dao's body.

"The sword cuts through the sky!"

Man Da Dao roared loudly. His hands contained infinite power. He grasped the black iron knife that was more than ten meters long, jumped up in an instant, and slashed down from the sky.

boom!

A bright bloody sword light, like a long river of divine light, instantly burst out from the black iron sword in Man Da Dao's hand, crossing the sky with a force so majestic that it could split the sky.

"Wow!"

This knife was so terrifying that it directly split the hurricane of poisonous gas around Du Qianjue into two halves. Then, the bright blood-colored knife light remained unabated and continued to slash, knocking Du Qianjue back again and again.

It has to be said that Man Da Dao is the most powerful tribal leader in this primitive forest, and his brute force is unrivaled in the world.

"Vicious Claw!"

Suddenly at this moment, Du Qianjue roared loudly, and instantly flashed to the left side of Man Da Dao, directly hitting him with one hand.

"boom!"

Man Da Dao's left arm was hit by a claw. Even though he was full of blood, he was a barbarian at the nine-star peak saint level and had a strong body.

But at this moment, a black claw mark suddenly appeared on the left arm, and the boundless black energy quickly invaded towards Man Da Dao's chest like a tide.

"Hahaha, you have been hit by my vicious claws and will definitely die!"

Du Qianjue laughed loudly, and his tone was full of cruelty: "This Vicious Claw, I smelted the Vicious Claw from the 9981 most poisonous insect poisons in this primitive forest, don't Even if you are a top saint, even if you are a quasi-emperor, if you are hit by my sinister claws, you will definitely die within half an hour, and even gods can't save you."

Kick, kick, kick!

This moment is quite big

Dao suddenly felt weak in his body, and the majestic energy that was surging in his limbs could not be released at this moment.

"Too careless!"

Man Da Dao's eyes suddenly darkened. In a battle with the leader of the Erysipelas Sect, his poisonous technique was simply impossible to guard against.

"Senior Man, if you swallow this poison-eating insect, your poison will be released instantly!"

Suddenly at this moment, a young man in black walked up to Man Da Dao.

It's Ye Feng!

He held a small dark golden insect in his hand. The insect's mouth was densely packed with silver fangs, making it look very ferocious.

But at this moment, Man Da Dao directly swallowed the poison-eating insect without any hesitation.

When Du Qianjue, who was not far away, saw this scene, he burst into laughter and said, "How childish! What a big knife, you actually believe the nonsense of a kid who doesn't have all the hair? If just a little insect can untie it." My sinister claws, the ninety-nine and eighty-one kinds of poisonous insects and poisons that I have smelted for decades, have become a joke, pretty big sword, just accept your fate, you are dead!"

"Oh, is it so?"

But at this time, Man Da Dao suddenly raised his head, and the fierce poisonous energy contained in his face, body, and the arm that was hit by the sinister claw suddenly disappeared.

Uh-huh!

At this time, the poison-eating insect flew out of Man Da Dao's body, neighing, and seemed very happy.

The poison of the Sinister Claw is indeed powerful, but for the poison-eating insects, it is a great tonic.

Ye Feng could see that after this poison-eating insect absorbed the toxins in the body of the broad sword, black spots even appeared on the dark golden insect shell, which seemed to have evolved and become more vicious.

"boom!"

Huge fighting spirit once again burst out from Man Da Dao's body, and he roared loudly, shaking the mountains and rivers.

"What? The poison of my vicious claws disappeared in an instant?"

Du Qianjue's originally complacent expression suddenly turned into extremely horrified, and his eyes were ashen.

He stared at Ye Feng gloomily and said: "Boy, who are you? The bug in your hand is definitely an ancient insect. What family of spiritual insects do you come from? Otherwise, it is impossible to master such terrifying bugs."

Ye Feng just smiled calmly and said: "I'm just a casual cultivator. Don't make random guesses. You should still worry about your own safety now."

"boom!"

The broad sword has already struck out with another blow at this time.

Go, moreover, knife after knife.

boom!

boom!

boom!

Seventeen consecutive slashes were carried out, and the terrifying sword light tore through the sky, covering the entire tribal land and almost submerging the entire primeval forest. The scene was vast and terrifying.

This is the chaotic wind chopping technique that Man Da Dao has painstakingly practiced for decades!

Use the wind to control the sword, the sword cuts through the sky, life and death can only be a matter of one sword!

"Boom!" ??

"Boom!" ??

Countless violent sword rays of sword energy suddenly caused a huge explosion in the sky. After Du Qianjue's strongest method, the poison technique, had no effect on Man Da Dao, his combat power was suddenly greatly reduced, and he was enveloped by countless violent sword lights. Finally, his whole body was hacked to pieces.

"ah!!"

Du Qianjue roared in pain, his body was covered in blood and he was seriously injured.

But after all, he is a nine-star peak saint with terrifying vitality. He did not die. Instead, he ran away quickly towards the distance and shouted: "Man Da Dao, no matter how strong your sword is, as long as you have not entered the realm of quasi-emperor, you will never die." If you can't kill me, I will set up a poisonous killing array at the only exit of this primeval forest, and I will personally guard it. Princess Yu, and that kid, don't even think about it! Hahaha!"

The moment Du Qianjue's words fell, everyone immediately saw the only exit of the primeval forest not far away, and they were suddenly enveloped by countless colorful poisonous gases.

At this moment, Du Qianjue did not confront him head-on. Instead, he was hidden in countless poisonous gases, making it impossible to find where he was.

At this time, Man Da Dao's eyes were furious and he said: "Girl Yuxin, and this Mr. Ye, I will escort you out of that poisonous killing array!"

A fierce voice suddenly came from the poisonous killing array not far away: "Man Da Dao, if you dare to escort the Princess of Yu Kingdom and the boy in black out, I will take advantage of you to leave and kill all the people in your barbarian tribe." Poison them all!"

Man Da Dao's eyes were filled with anger, and he immediately shouted: "You... villain! Shameless!"

Du Qianjue laughed loudly from a distance: "I hate a small person who is not a gentleman, who is not a poisonous husband! I am a villain and a shameless person! What can you do to me?"

boom!

Man Da Dao was so furious that he held up the knife and rushed into the poisonous killing array to fight Du Qianjue to the death.

But at this time, Ye Feng pulled the violent Man Da Dao and said: "Senior, don't be impulsive. That Du Qianjue is just trying to anger you and make you leave the tribe, so as to sneak attack on your tribe, Yu Xin and I." Princess."

Princess Yuguo also immediately advised: "Uncle Da Dao, Master Ye, did you say that?"

Wrong, let's not be anxious now. Du Qianjue is going to surround us, so we will confront him for the time being. "

When Man Dadao heard what the two said, he couldn't help but calm down and said: "Yes, there is plenty of time anyway."

At this time, Ye Feng looked at Princess Yu and said, "Is your father's poison serious?"

Princess Yuguo shook her head and said: "Although the strange poison on my father's body cannot be cured, my father's skill is profound and he will not die for a while. We don't have to worry, we can only kill the enemy by planning first!"

Ye Feng agreed very much and said: "The princess is very sensible, I admire you. Since the leader of the Rain Kingdom is fine for the time being, there is plenty of time. As long as I can recover my cultivation in a short time, senior Man Da Dao and I will join forces. You can kill that Du Qianjue."

Man Da Dao glanced at Ye Feng in surprise at this moment and said: "Brother Ye, although the power of your body that I can see through is very extraordinary, your cultivation aura, even if it is restored, is only one star." The realm of the Saint is far different from that of the Peak Saint Du Qianjue. Even if you can use insects to restrain his poisonous skills, you are still far from his opponent. Even if you join forces with me, you can't kill Du Qianjue."

Ye Feng smiled slightly, very confident, and said: "Senior Man, don't worry, I have cultivated a secret technique. As long as my cultivation level is restored, I can release the power of the great sage. The destructive power may exceed that of the nine-star peak sage." "

Man Da Dao's eyes were startled and he said, "Is what Brother Ye said true? Is there such a secret skill in the world?"

Ye Feng was very sure and said: "Senior Man, don't worry, I won't lie at this critical moment."

Hearing this, Man Da Dao nodded slightly and said with a bold smile: "If you said this as soon as we met, I would definitely think that you are bragging, little brother Ye, but just now you took out a small insect and helped me swallow enough of it in my body. With the terrifying poison that killed a quasi-emperor, I knew that Brother Ye was definitely not an ordinary person, but a young prodigy with a big secret."

Princess Yu's beautiful eyes also showed a hint of excitement at this time, and said: "Uncle Dadao, in the next period of time, Mr. Ye and I will live in your tribe. I hope that Mr. Ye can resume his cultivation as soon as possible."

Ye Feng nodded and said: "I will temporarily live in Senior Man's tribe. I will go deep into the primitive forest to hunt ferocious beasts, replenish my blood and restore my cultivation as soon as possible."

Princess Yuguo immediately walked to Ye Feng's side, and actually took Ye Feng's hand. With a firm look on her beautiful face, she said: "Young Master Ye and I will hunt ferocious beasts together. I am not even good at cultivation." Weak, I can help Mr. Ye hunt more ferocious beasts and monsters."

Man Da Dao laughed and said: "I will take you to the back mountain area, where there are many demons and ferocious beasts. You help me kill these evil beasts, which can relieve some of the pressure on the tribe."

Chapter 857 Touched

In the next few days, Ye Feng and Princess Yuguo temporarily lived in the barbarian tribe.

With Man Da Dao guarding the tribe, they were not afraid of a sneak attack by Du Qianjue, the leader of the Erysipelas Sect.

Ye Feng cooperated with the Princess of Rain Country to hunt down the monsters and beasts in the primitive forest very quickly.

When the Princess of the Rain Kingdom saw Ye Feng releasing a devouring vortex, swallowing up all the demonic beasts full of blood and turning them into shriveled bodies, the Princess of the Rain Kingdom was not only surprised by Ye Feng, but also A sense of fear.

After all, Ye Feng's devouring ability to seize the creation of other living beings and achieve his own achievement is really amazing. Although there are many cultivation civilizations in the spiritual world, this is the first time for the Princess of Rain Kingdom to do such a weird and terrifying technique. See.

...

On this day, Ye Feng was meditating cross-legged in a wooden house in the tribe to regain his strength.

Suddenly, an extremely powerful momentum, full of vitality, spread from Ye Feng's body.

"Buzz!"

Ye Feng suddenly opened his eyes, with bright divine light surging in his pupils.

At this time, his right eye is the light of the sun, and his left eye is the light of the cold moon. They are like yin and yang, and they look extremely magical.

"After swallowing and refining the blood of hundreds of monsters and ferocious beasts, all my cultivation and mana have finally been restored! The creatures on the land of the spirit world, even those of the same level, have the power of creation contained in their bodies. It is also many times more abundant than the creatures born on Longyuan Continent."

Ye Feng murmured at this time, and his eyes were slightly happy. After arriving in the real land of the spirit world and the land of the human race in the Nineteen States, the Divine Secret of Creation truly began to show its prowess.

Ye Feng suffered such a heavy blow, but under the Divine Art of Creation that captured the creation of other living beings, he quickly returned to his prime state.

At this moment, Ye Feng was really relieved, and his survival was not a big problem for the time being.

"It's a pity that the power of the demon emperor was too strong at that time, and the emperor's tower ended up somewhere in the endless ocean. I don't know if master, senior sister, and the others can reach the human land in the spiritual world. My spirit beast bag is also there. He was lost in a coma, and Master Bird has no idea where he went..."

Ye Feng thought secretly in his heart, and a bitter smile couldn't help but cross his lips.

Although I had been preparing for so long, I finally led everyone to break the shackles of the Super Demonic Array of Longyuan Continent, rush out of Longyuan Continent, and come to the real land of the spiritual world.

But this success comes at a huge price.

However, Ye Feng is not too worried about his master Bai Yuchen, senior sisters Murong Yunyin, Xiao He, and Jian Wushuang.

At that time, when he was attacked by the Demon Emperor, Ye Feng finally threw the Emperor Tower far away with all his strength. Although the Tower was cracked a little by the Demon Emperor's attack, the many creatures in the southern region who were guarding the Tower should not be there. What's the problem.

Moreover, Masters Bai Yuchen, Murong Yunyin, Xiao He, Jian Wushuang, and Yan Ruyu all possess extremely powerful talents. It is only because of the innate shackles of Longyuan Continent that they are restricted from the evil talents they should have.

.

If they escape from the Great Emperor's Tower and enter a truly prosperous place in the spiritual world, they will definitely be able to grow quickly and become big shots.

"One day, we will definitely be able to see them again in the spiritual world..."

Ye Feng murmured at this time, stood up, and walked out of the wooden house. He was going to find Man Da Dao to see if the two of them could join forces to kill Du Qianjue, the leader of the Red Poison Sect.

If Du Qian Bu died, it would be a huge disaster for Ye Feng, the Rain Country, and the barbarian tribes.

Now that Du Qianjue is hiding in the poisonous killing array at the entrance of the primeval forest, it is a good opportunity to kill him with a thunderous strike.

If Du Qianjue really escapes secretly, there will be endless troubles.

But just when Ye Feng walked out of the wooden house where he lived, a young barbarian man as tall as an iron tower, three or four meters tall, very strong and tall, as majestic as a mountain, and menacing, stepped towards Ye Feng.

"Are you the Ye Feng who is very close to Princess Yuxin?"

This iron-tower-like barbarian young man spoke out, with a hint of ill-intentioned tone in his tone.

"Yes, I am Ye Feng. Who are you? I don't seem to know you?"

Ye Feng nodded, feeling the hostility of the young barbarian man in front of him, and couldn't help but frown slightly.

The young barbarian man who looked like an iron tower announced his family name and said proudly: "My name is Mangu, and I am the number one warrior of our tribe. I admire Her Highness Princess Yuxin very much, but Princess Yuxin seems to be very attracted to you, so, I Now I challenge you to a duel between men. Whoever wins will get Her Royal Highness Princess Yuxin."

Ye Feng couldn't help but froze slightly when he heard the words of this so-called first warrior of the barbarians.

What?

Is there such a single-minded person in the world?

In order to pursue a woman, he actually went to a competitor to fight with brute force?

Ye Feng felt that the man in front of him was a little silly, so he shook his head and said with a smile: "If you want to pursue the Princess of Yu Country, just find a way on your own. I don't have time to play these childish duels with you."

At this moment, many barbarian tribesmen in the tribe were attracted by the movement here.

When they saw Mangu stopping Ye Feng, they all guessed something.

"Man Gu is going to challenge Mr. Ye Feng to a duel?"

"Young Master Ye Feng is so thin. Man Gu challenges him to duel. Isn't this bullying?"

"Man Gu, Mr. Ye Feng is a distinguished guest of our tribe. Don't be rude. It will be bad if you hurt him."

At this time, all the barbarian tribesmen spoke out one after another.

Although the words seemed to be speaking for Ye Feng, but

Everyone felt that Ye Feng was much weaker than Man Gu.

After all, Mangu is the number one warrior in the tribe, and his body still contains the blood of the ancient Barbarian Bull. He grew up bathing in the fight between demons and beasts in the virgin forest, and he is very ferocious.

Mangu just stared at Ye Feng at this time and said very solemnly: "Master Ye Feng, you and I are both one-star great saints. We have a fair fight. Whoever wins will get the Princess of Rain Country!"

Man Gu often went to the Rain Kingdom with Man Dadao, the leader of the barbarian tribe. After all, Man Dadao was the brother of the leader of the Rain Country, and there were frequent contacts between the two.

So when Man Gu met Princess Yu Xin of the Rain Kingdom when he was young, he felt that she was a goddess descending to earth. He has always regarded Princess Yu Xin as his dream lover.

But this time, during this period of time, Mangu saw that Princess Yuxin had always been with Ye Feng. The two were in pairs, hunting monsters and beasts in the virgin forest together, which made Mangu very anxious. .

So out of desperation, he waited until Ye Feng's cultivation level recovered and then came directly to him for a duel.

It has to be said that Mangu's thoughts are very pure and simple, with the simplicity of the barbarians. For example, he waited until Ye Feng recovered his cultivation before coming to fight Ye Feng for a duel, but he was also stubbornly stupid, thinking that he would win a woman's heart. It's all about strong power.

Perhaps, this is the thinking of barbarians, which is relatively simple and direct.

At this time, Princess Yuxin walked out of a wooden house in the distance. She also saw the movement here and ran over immediately. She stood next to Ye Feng and stared at Man Gu with a little anger on her pretty face. : "Mangu, what are you doing?"

When Mangu saw Princess Yuxin getting angry, his face immediately turned red. He felt that he had done something wrong, but when he thought of the purpose of his visit today, he immediately said firmly: "Your Highness, I am going to duel with Ye Feng today." , whoever wins will get the heart of the princess."

When Princess Yuxin heard what Mangu said, she suddenly became furious and wanted to say something.

"It goes without saying."

But at this moment, Ye Feng suddenly spoke up and pulled Princess Yuxin behind him.

Then Ye Feng took a step forward and stared at Mangu not far away. His face was calm and he said: "I promise you to take action, but it is not because of the duel to get Her Royal Highness, because what you win in the duel is the spoils, and Her Highness, in In my eyes, they are not trophies, but friends, living flesh-and-blood people, not objects!"

Ye Feng spoke very firmly. After his words fell, many barbarian tribesmen around him looked shocked.

"Master Ye is so handsome!"

At this moment, many barbarian girls in the tribe stared at the handsome young figure in black with their beautiful big eyes, and their hearts were suddenly moved.

Because in the Rain Kingdom and barbarian tribes, women are often possessions in the eyes of men, very similar to trading goods, without any status, and men are superior to women.

But what Ye Feng said at this moment, Her Royal Highness the Princess is not a trophy, but a friend, a living person of flesh and blood!

These words completely touched the hearts of many women in the audience.

At this moment, Princess Yuxin, who was standing behind Ye Feng, also had her eyes trembling, and her heart was deeply touched. She looked at Ye Feng's back, and there was a warm current of emotion flowing in her heart.

Ye Feng didn't know that his words had a huge impact on everyone's hearts.

Ye Feng's words were not meant to elevate and flatter himself, he was just saying what he truly thought in his heart.

"you you....."

At this moment, Man Gu was told by Ye Feng that he didn't know what to say. In the end, this simple-minded and well-developed tribe's first warrior could only blush and yelled: "No matter what, you promise If you win the duel, then I will defeat you severely and let you know that only the strong deserve to have such a beautiful woman as Her Royal Highness!"

"Manniu Ancient Dragon Fist!"

boom!

Mangu took action, and the moment he punched out, the whole arm suddenly appeared with the blood-colored shadows of a bull and a dragon. This punch was full of huge power, like a wild wave erupting, capable of destroying everything. .

"Master Ye, be careful!"

At this moment, Princess Yuxin immediately exclaimed.

"Mangu, you injured Mr. Ye, we are not done with you!"

Barbarian girls from dozens of tribes actually spoke out one after another at this time, all standing on Ye Feng's side. They were obviously moved by Ye Feng's words just now, and they all shouted in support of Ye Feng.

But after all, everyone felt that Ye Feng looked much weaker, and Man Gu's sense of oppression was too heavy, just like a ferocious giant beast that could crush everything.

"boom!"

But suddenly at this moment, Ye Feng stretched out a hand and punched an ordinary punch.

Two disproportionately large fists collided.

"ah!"

Suddenly a miserable howl sounded.

It's quite ancient!

At this time, his sandbag-sized fist was directly broken by Ye Feng's small fist. The bloody shadows of bulls and dragons wrapped around his arms were also damaged by the divine light of the sun and moon on Ye Feng's fist. Crushed.

Boom!

Under the shocking gazes of everyone, Man Gu, the tribe's number one warrior, failed to block Ye Feng's mediocre punch and was directly blown away. His tall body hit a large mountain in the distance.

Wow...

The gravel rolled, and a huge hole was directly knocked out of the mountain.

"Amazing!"

At this moment, countless barbarian tribesmen, including Princess Yuxin, stared in disbelief at Ye Feng, who was standing motionless on the field.

They never thought that Ye Feng, who looked thin and frail compared to Mangu, who was more than three meters tall, actually contained terrifying power like an ancient beast in his body!

Shocking!

Chapter 858 Old Priest

quiet!

Deadly quiet!

At this time, the entire tribe fell into a dead silence.

You can hear the needle drop!

Obviously, everyone was stunned by the shocking scene just now.

Mangu, that is the number one warrior of the younger generation in the tribe!

Not only is he a one-star great saint, but he also has the bloodline of ancient beasts.

The body of a barbarian is very strong.

But even so, he still couldn't resist Ye Feng's mediocre punch.

It was blown away directly and smashed into a big mountain. It was very miserable.

"Bang!"

At this moment, Mangu's tall body was stained with blood and climbed out of the ruins of the broken mountain not far away.

It has to be said that this Mangu is still very tough, and he withstood the impact of the power of Ye Feng's mid-stage Sun and Moon Battle Body. He only suffered a broken fist and some minor injuries.

At this time, Mangu walked towards Ye Feng step by step. The aloof look on his face had long disappeared, but he was deeply surrendered and said: "I lost!"

Mangu is the number one warrior in the tribe, and he very much follows the concept of respecting the strong.

At this time, Ye Feng knocked him away with one punch, which was more effective than a thousand words. Man Gu was immediately convinced.

"Roar!"

Suddenly at this moment, a terrifying roar came from outside the tribe.

"Boom!"

The mountains collapsed, and a behemoth with a height of several thousand meters, a three-eyed giant with green scales covering its body, was revealed. It was a very ancient and powerful relic creature that came out from the depths of the primeval forest. The earth shook and the mountains shook.

"A powerful alien beast came out of the depths of the forest!"

At this time, Mangu's eyes changed, and he immediately said to the many barbarians around him: "Go and invite the old priest over!"

"yes!"

Several agile barbarians immediately ran towards the tribe's mountains.

"Three-eyed giant! This is an ancient relic. Why did it come out of the depths of the forest?"

At this moment, a tall and majestic figure walked over from a distance. It was Man Da Dao, the tribal leader.

Even he, the nine-star pinnacle saint, looked deeply solemn when he looked at the thousand-meter-tall three-eyed giant standing on the ground in the forest in the distance.

Ye Feng looked at the majestic three-eyed giant like a mountain in the distance and was a little shocked. He didn't expect that he would have the opportunity to see such an ancient relic creature walking out of the depths of the ancient forest.

At this time, as soon as the three-eyed giant's footsteps fell, the ground shook violently. Fortunately, the direction he came in was not the direction of the tribe, so everyone breathed a sigh of relief.

Ye Feng looked at Man Da Dao and said: "Senior Man, it turns out that

The primitive forest is so dangerous, do these ancient relics often appear? "

Man Da Dao shook his head and said: "I have lived in the tribe for hundreds of years. I have only seen ancient relics come out of the wilderness from the depths of the primitive forest once when I was young. If I come out often, , then our tribe has perished long ago. I remember that the ancient relic was a giant green turtle the size of a mountain. Now another ancient relic has appeared. It may be that something appeared in the deep jungle of the primeval forest. The treasure of heaven and earth, or ancient ruins may have appeared, otherwise these noble and powerful ancient relics would not have come out, they must have discovered something..."

Boom! Boom! Boom...

At this time, the majestic body of the three-eyed giant quickly disappeared at the end of a forest in the distance.

Not far from the tribe, a skinny old man wearing a white robe and sacrificial attire appeared and walked over.

This man is the only living old priest of the tribe. It is said that he is a mysterious spiritual master who has mastered many powerful connections between heaven and earth. He is very powerful and has mysterious methods. He can compete with the legendary soul masters. .

At this moment, even Man Da Dao looked solemn when he saw the old priest in white robes, and quickly clasped his fists and said: "Old priest, why are you here?"

The white-robed old priest's voice was hoarse as he said, "I heard that there are creatures of ancient relics in the depths of the wild forest that appear in the surrounding areas of the tribe. This is a good omen."

"A good omen?"

At this time, everyone on the scene was a little surprised when they heard the old priest's words, including Man Da Dao and Ye Feng.

They thought that the old priest came out because they were afraid that the three-eyed giant would be harmful to the tribe, but the old priest said that this was a good omen and a good thing?

The old priest smiled slightly and said rather mysteriously: "Every appearance of ancient relics indicates that in the depths of this primeval forest, there must be ancient treasures of heaven and earth appearing, or powerful ruins being opened. This Isn't it a good thing? The inheritance of our tribe is almost lost. This time, if we can win some opportunities from the ancient relics, it may bring prosperity to our tribe. "

When everyone heard that the purpose of the old priest was to compete with that kind of terrifying creature that was an ancient remnant, everyone couldn't help but look slightly shocked. They didn't expect that the old priest was old-hearted and had lived for almost a thousand years. There was still such a thing. The spirit of competing with the ancient relics is admirable.

The old priest looked at Man Da Dao and said: "Put aside the matter of Du Qianjue for the time being. He doesn't dare to actually come and attack the tribe. You go to summon the powerful warriors in the tribe first. Maybe in a few days we will go to the deep virgin forest." Fighting for the treasure in a dangerous area, our tribe cannot miss this opportunity. "

"Yes, old priest, I'll do it right now!"

Pretty big sword takes orders

Left, apparently to get ready.

At this time, Ye Feng looked at the Princess of Yu Kingdom and said: "Your Highness, my cultivation has recovered now. I can lead you to break through the poisonous killing array safely. You don't have to worry about the poisonous Qianjue."

Princess Yuguo was about to say something, but the old priest suddenly looked at Ye Feng at this time, with a strange purple light in his old eyes, and said: "This little brother has practiced soul, right? Is he a soul master?"

Ye Feng's eyes were startled. He didn't expect that this old tribal priest was so unfathomable. He could tell at a glance that he was practicing as a soul master.

So Ye Feng stopped being secretive, smiled and clasped his fists and said: "The old man has a keen eye, and the junior has indeed cultivated the soul, and he is considered a soul master."

This old priest did not have martial arts training, but there was an extremely mysterious aura surrounding him. Others could not feel it, but Ye Feng could sense it. It was a powerful spiritual power, as majestic as the sea and vast. deep.

Ye Feng turned his Divine Eyes of Creation and stared at the old priest in front of him, trying to see through him. However, he saw a bottomless dark abyss from the old priest's body. He almost let his soul fall into it and lost himself. , fortunately I woke up quickly.

"What a powerful spiritual power! Even my soul strength almost fell into it!"

Ye Feng's eyes were a little shaken.

At this time, the old priest's skinny old face showed a smile and said: "The soul and the spirit are interconnected. The soul master uses the power of the soul to look at the general trend of Feng Shui and determine the fate of the world, while the spirit pattern master uses spiritual power to communicate with the world. The avenue veins outline powerful spiritual patterns, which can borrow the creative energy of the general trend of the world. The two have something in common, but the soul master focuses on his own attack and defense, while the spiritual pattern master can provide all kinds of heaven and earth to external objects. The blessing of the power of creation, one is internal and the other is external."

Ye Feng heard this and knew that the old priest was a very terrifying and unfathomable spirit pattern master. He nodded and said: "I once heard an old friend say that the spirit pattern master is the most powerful person in this world who has been influenced by countless people. A highly respected cultivator, even more famous than the soul master, because the spirit master can use his spirit to communicate with the veins of heaven and earth, trace various spiritual patterns, and release huge power. "

The old priest shook his head and said: "In the final analysis, the soul master is more powerful. After all, he is cultivating the most profound soul, but the soul master cannot cultivate it acquiredly, he must have innate talent, while the spirit pattern master can cultivate it acquiredly. Of course, the training of spirit pattern masters is very difficult, which makes spirit pattern masters very scarce in this land, but after all, they are much more numerous than the most mysterious lineage of soul masters in the world. "

Ye Feng nodded, with some emotion in his heart. If the gems of the gods in his brain hadn't unlocked his soul potential, I'm afraid he wouldn't be able to become a soul master even if he obtained the Black Soul Art and the Soul Emperor Seal.

At this time, Ye Feng came out

He said: "Actually, my cultivation path as a soul master has always been stumbling, and I have never studied orthodoxly."

The old priest nodded and said: "Soul masters are indeed the most mysterious group of people in all the worlds. Even in the vast and endless spiritual world, there are no orthodox soul master training sects. There is no trace to be found, but there are many large sects. The gate, the holy land, the ancient tribes, and even the current court of the Tongtian Divine Dynasty all have spirit pattern master training halls dedicated to training spirit pattern masters."

When Ye Feng heard this, he looked a little confused and said: "Senior has told me so much, does he want me to practice as a spiritual pattern master?"

The old priest said: "Yes, for you, for the time being, learning the spirit pattern master and increasing your spiritual power is of great use. Not only can it feed back your soul power, learning the spirit pattern technique can also help improve your overall strength. With his strength, no matter what prosperous capital he goes to in the future, he will be treated as a guest among any major forces."

Ye Feng was a little surprised and said: "Senior is willing to pass on the inheritance of the spirit pattern master to me?"

The old priest smiled and said: "You are a soul master, with strong soul power, and naturally strong spiritual power. You will definitely learn to be a spiritual master very quickly. I am willing to teach you the inheritance of the spiritual master, but I hope you will learn well, little brother." After that, this time I can follow our tribe members into the depths of the wilderness, and help me compete with those ancient relics to seize the great opportunities in the depths of the wilderness. "

Princess Yuguo walked to Ye Feng at this time and whispered: "This old priest is very powerful. He is very famous in more than a dozen princes in this area. His spiritual pattern master inheritance Many people are very coveted and want to learn, but there is no chance. Mr. Ye, you must seize this opportunity, but there are huge dangers in entering the depths of the wilderness to compete with the ancient relics, you must think about it yourself. "

Hearing this, Ye Feng nodded slightly to the princess beside him, then looked at the old priest and said: "Spirit Pattern Master is indeed very magical. It is the second spiritual path in the spiritual world besides martial arts. It is better than alchemy." The way of art, the way of refining weapons, the way of talismans, the way of puppets, etc., all need to be noble. I will definitely seize such an opportunity to become a spirit pattern master."

Ye Feng knew that if the Three-Eyed Giant hadn't appeared in the depths of the wilderness this time, there might have been a great opportunity to be born. The old priest of the tribe was eager to hire people. I'm afraid he wouldn't have had such a great opportunity to directly obtain a powerful spiritual pattern master. of imparting teaching.

At this time, when the old priest heard that Ye Feng had agreed, he was very happy. He grabbed Ye Feng's hand and said, "Great, come with me. I will open the spiritual pattern space in the spiritual sea for you now. After turning it on, you can practice as a spirit pattern master and trace spirit patterns. Of course, you also need a high-quality spirit pattern pen. Spirit patterns are the veins of the great avenues of heaven and earth, and a specially made spirit pattern pen is required to trace them. "The higher the quality of the spirit pattern pen, the more powerful the spirit patterns it traces will be, and the more powerful it will be. Time is urgent, I will give you a spirit pattern pen when the time comes."

Chapter 859 Brute Force Spirit Pattern

Deep in the tribe, in a small ancestral temple.

Ye Feng sat in front of the old priest and was undergoing the most important and initial process of becoming a spirit pattern master, which was to open the spirit pattern space.

At this time, a pale golden pen appeared in the old priest's hand. The pen barrel was made of a rare metal, and the tip of the pen seemed to be condensed from the hair of a strange monster. The roots were like steel needles, giving people a An extremely sharp feeling.

"Uh-huh!"

At this moment, the old priest directly raised his pen and touched Ye Feng's eyebrows with one stroke.

"boom!"

Almost at the next moment, the countless general trends in the air around the two people all gathered on the stroke of the old priest's pen.

At this moment, Ye Feng immediately felt a huge spiritual power, which hit his mind from the spirit pattern pen in the old priest's hand.

Wow!

It was as if a new mental space had been opened up in his mind, and Ye Feng felt shocked all over.

The voice of the old priest sounded at this time: "The spiritual pattern is all-encompassing. The higher the level of the veins in the world, the stronger the power of the traced spiritual pattern. Ye Feng, you are a soul master. This It's the best foundation for learning to be a spirit pattern master."

"The levels of the heaven and earth patterns have been divided by generations of spirit pattern masters from weak to strong, into first level, second level... all the way up to level nine. Above the ninth level, there are holy level spiritual patterns, and above the holy level, there are It is a forbidden level. As for the greatest god-level spiritual pattern, it only exists in legends."

"How many levels of spiritual patterns a spiritual pattern master can comprehend is how many levels of spiritual patterns a spiritual pattern master can be called. I have spent my whole life comprehending three types of spiritual patterns, namely two first-level spiritual patterns and one second-level spiritual pattern. Level 2 spirit pattern, so I can barely be called a level 2 spirit pattern master."

"Even though I am only a second-level spirit pattern master, the power and destructive power I can exert is comparable to that of a quasi-emperor, because the spirit patterns are the lines of the great avenue of heaven and earth, and what I release is the majestic power of heaven and earth, which is very powerful. "

"Nowadays, in the court of the Tongtian Divine Dynasty, there are civil servants and great scholars who are proficient in the way of spiritual patterns. Although they do not have martial arts training and magic power, they have strong spiritual souls and are also peerless experts."

"There is a great scholar

With the help of the spirit patterns of heaven and earth, write an enemy-killing poem on a piece of ordinary paper, and the ordinary paper will reveal the infinite murderous aura of the words, which can destroy millions of demons. "

"There is a great painter with extraordinary spirit, who uses the spiritual patterns of heaven and earth to draw a beautiful picture of mountains and rivers. The moment the picture is completed, infinite light rushes out from the picture scroll, and in reality a small world of beautiful mountains and rivers is derived, with the characteristics of heaven and earth. Weili."

"These all belong to the way of spiritual patterns. A truly powerful spirit pattern master's every move implies the patterns of heaven and earth. Although he has no energy to practice martial arts anymore, he can refine his spirit and transform himself into void, and his spiritual power is strong to a certain extent, and he and his soul become immortal. , can also achieve the realm of immortality."

At this time, the old priest spoke word by word, staring at Ye Feng in front of him, showing his expectations for the younger generation, and said: "You are extraordinary. You are actually a born soul martial fellow. Now that you have a soul master as your foundation, you can cultivate your spirit and The spirit pattern master definitely has an innate advantage over anyone else. The spirit pattern master is the second path of cultivation in the spiritual world besides martial arts. I am now helping you to introduce this path, and I hope you will treat it seriously. "

Ye Feng looked at the old priest in front of him and felt a sense of gratitude in his heart. He knew that the old priest helped him introduce the spirit pattern master this time. In addition to helping the tribe find opportunities deep in the wild forest, he also had a feeling for the genius. Cherish the talents of the younger generation.

Ye Feng stood in front of the old priest at this time, solemnly clasped his fists, and said: "The great kindness of the seniors, the juniors dare not forget it."

"Hahaha."

The old priest immediately laughed out loud and said with emotion: "It's not a big favor or not, I just think you are really a good candidate to practice as a spirit pattern master. I can't just watch the spirit pattern masters doing everything. A good seedling was buried."

Ye Feng's eyes moved slightly. He could see that the old priest had a unique and deep feeling for the spirit pattern master.

The old priest walked deep into the ancestral hall of the ancestral temple and took out a emerald-blue spiritual pen that looked like jade from a small box. The tip of the pen was condensed from the hair of an unknown, pale golden monster. It looks better than what the old priest himself used

The appearance of the spirit pattern pen is a bit more advanced.

The old priest handed the pen to Ye Feng and said with a smile: "This pen is called 'Cui Ling'. It belonged to a friend of mine who was a spirit pattern master. Unfortunately, he died in the wilderness, and this pen will never be used again." No one has ever used it. This is a top-grade second-grade spiritual pattern pen, which is enough for you, Ye Feng, to use in your early stages. My own spiritual pattern pen is only a low-grade third-grade spiritual pattern pen."

Ye Feng took the emerald-colored spirit pattern pen and immediately felt a very mysterious energy of heaven and earth surging in the emerald-colored pen, giving people a sense of vastness.

At this time, Taotie in his mind suddenly spoke: "Ye Feng, the human emperor pen you encountered in Longyuan Continent was actually a spirit pattern pen, and it was very advanced. If you encounter it in the future, you can use it It is refined into his own spiritual pattern pen, which may be blessed by the human emperor's energy, which will greatly improve the quality of the spiritual patterns traced. "

At this time, Ye Feng heard what Taotie Soul said in his mind, and his heart moved slightly.

At this time, the old priest spoke up: "Ye Feng, let me teach you the first type of spiritual pattern I got. It is a first-level spiritual pattern, called the 'brute force spiritual pattern'. If you understand it,

you will be Officially entered the spiritual pattern path and became a qualified first-level spiritual pattern master. If the brute force spiritual pattern is traced on oneself or others, it can instantly increase the powerful brute force and can greatly enhance a person. The power, possessing super brute strength like a giant beast..."

At this time, the old priest taught him word by word, asking Ye Feng to try to understand this kind of spiritual pattern and capture this kind of spiritual pattern from the underworld of the great road of heaven and earth.

The spirit pattern is very difficult to capture, but with the teachings of the old priest and the method of visualizing the brute force spirit pattern taught to Ye Feng, Ye Feng quickly captured the powerful vein of heaven and earth, which is the brute force spirit pattern!

"Uh-huh!"

At this moment, Ye Feng instantly picked up Cuiling's spiritual pattern pen and directly traced and outlined an extremely complex pattern in the void.

After the pattern was formed, Ye Feng suddenly felt a little weak in spirit. It was obvious that tracing out the pattern of heaven and earth consumed a lot of mental energy.

But not bad

Ye Feng is a soul master, with sufficient soul power and naturally not weak mental power, so he succeeded the first time. He successfully traced the brute force spiritual pattern, which bloomed brightly in the void, but it quickly dissipated.

"Not bad."

The old priest smiled cheerfully and said: "Although the traced brute force spirit pattern only lasted for three seconds, Ye Feng, this is the first time you have traced it, and you can completely outline the entire brute force spirit pattern. It's already amazing. It's true that I have the foundation of a soul master, and learning the spirit pattern master is really like a divine help."

Ye Feng was also a little happy at this time. If he could really achieve something as a spiritual pattern master, it would definitely be a huge help to his overall strength.

At this time, Ye Feng asked curiously: "Senior, how long can it last for tracing this brute force spiritual pattern?"

The old priest smiled and said: "About three hours."

Ye Feng's eyes were startled and he said: "It took me only three seconds."

The old priest couldn't help but shook his head and smiled, and said: "Then I have been practicing as a spiritual pattern master for a whole life. I am only a second-level spiritual pattern master. My talent is not high, but you are different. You will definitely be able to reach an extremely high level in the future. Even though I have a mediocre life, I am proud to see a peerless spirit pattern master genius who was introduced to me as a spirit pattern master grow up. "

The spirit pattern masters attach great importance to the succession of teachers, so the old priest feels that he is very honored to be Ye Feng's first teacher.

At this time, the old priest said: "In the next time, Ye Feng, you will continue to trace this brute force spirit pattern. There is still a first-level spirit pattern and a second-level spirit pattern left. I will help you convert the brute force spirit pattern." The spirit pattern will be traced out and taught to you for half an hour. This time, our entire tribe of warriors will go to the depths of the wild forest to find opportunities to compete with those ancient relics that came out of the depths of the primeval forest. We two spirit pattern masters The role of the two of us is very important. The two of us can definitely increase and build the thousands of barbarian warriors in the tribe into an indestructible barbarian army in a short period of time!"

Ye Feng nodded and said: "Okay, during this period I will try my best to understand and practice the spirit pattern master."

Chapter 860 Iron Scaled Giant Elephant

In the next few days, Ye Feng has been concentrating on understanding the brute force spiritual pattern.

Spirit patterns are the veins of heaven and earth intercepted by spirit pattern masters from the great avenues of heaven and earth.

Even the lowest level one spiritual pattern contains great power and great fortune, and is very difficult to cultivate.

Ye Feng holds the second-level spiritual pattern pen 'Cui Ling' in his hand. In just a few days, he has traced the brute force spiritual pattern hundreds of times.

During these days, he would rest when his mental energy was exhausted, and then continue to trace the spiritual patterns if he had enough energy, and the cycle continued.

Monotonous, but fulfilling.

On the seventh day, Ye Feng traced the brute force spiritual pattern in the void, which lasted for a full hour before the brute force spiritual pattern slowly dissipated.

"One hour! I have exceeded the requirements of the old priest!"

Ye Feng was very happy, jumped down from the cliff where he was practicing tracing the spiritual patterns, and flew towards the barbarian tribe.

He has now successfully traced the brute force spirit pattern in the void for a full hour. It is time to find a real person to try it.

But who to look for?

"Boom!"

Suddenly there was a huge roar not far away.

Outside the tribe, a giant iron-scaled elephant that was more than ten meters tall ran out of a primitive swamp and was running rampant in the tribe's territory.

This iron-scaled giant elephant is not a ferocious monster, but a low-level ferocious beast with no intelligence.

But the body of the iron-scaled giant elephant, which is more than ten meters tall, is covered with layers of thick armor-like black scales, and the two huge tusks next to the evil beast's mouth are like two giant blue swords. , piercing the sky, making people daunting.

"Rumble..."

At this time, this ferocious and huge beast was rampaging through the tribal village, destroying everywhere, but the real strong men in the tribe did not directly kill it.

Instead, the teenagers from the barbarian tribe were asked to charge towards the iron-scaled giant elephant with weapons such as large bone clubs, iron swords, and bronze spears in their hands.

These barbarian warriors are obviously deliberately taking advantage of this opportunity to train the next generation.

The fighting abilities of the children in the tribe.

After all, their barbarian tribe has lived in this primeval forest for generations, and there are often evil beasts in the wilderness. Therefore, these children need to cultivate the ability of iron-blooded killing and fighting consciousness from an early age.

Therefore, the world says that everyone in the wild barbarian tribe, even children and women, has superior fighting ability, which is not unreasonable.

Although the children in the barbarian tribe are only more than ten years old, they are already the size of ordinary adults in the normal human race. This is the innate advantage of the barbarian body. They are tall and majestic and are born warriors.

"Boom!"

"Boom!"

"Boom!"

But the power of the ten-meter-tall iron-scaled giant elephant was so powerful that every impact was able to knock away more than a dozen barbarian children. Each of these children suffered serious injuries.

"Dang! Dang! Dang!"

But the bronze war spears, big bone clubs, black iron swords and other weapons in their hands were slashing at the iron-scaled giant elephant, and they just made the sound of metal being delivered.

However, under the siege of hundreds of barbarian children, many of the scales on the Iron Scaled Giant Elephant were shattered and blood flowed, which made the Iron Scaled Giant Elephant become furious.

"Roar!!"

This evil beast roared crazily, its eyes were red, and its entire huge beast body suddenly rushed in a certain direction, knocking away all the dozens of barbarian children along the way.

At this time, two giant sword-like tusks, as sharp as heavenly swords, rushed directly towards the last little boy who looked to be only eight or nine years old.

This terrifying impact, coupled with the giant sword-like ivory, can definitely instantly pierce the body of the little barbarian boy standing at the back.

"not good!"

At this time, many powerful barbarians who were watching from a distance suddenly changed their expressions when they saw this scene, and said: "That iron-scaled giant elephant actually made the blood go crazy!"

They wanted to rush to the rescue, but it was too late.

Seeing that the iron-scaled giant elephant was about to charge over, everyone in the entire barbarian tribe felt tense. Many women could not help but cover their eyes, unable to bear to see the scene of blood splattering on the spot.

Uh-huh!

But suddenly at this moment, a young figure in black suddenly flashed next to the eight or nine-year-old barbarian boy.

It's Ye Feng!

However, he did not take action at this time, but looked at the helpless little boy and said: "Don't panic, I will give you infinite brute strength."

Saying that, Ye Feng immediately took out the spiritual pattern pen 'Cui Ling' and quickly traced the first-level brute force spiritual pattern taught to him by the old priest directly onto the little boy's arms.

Ye Feng has a strong soul and abundant mental energy, and his natural tracing speed is also very fast.

In less than a second, Ye Feng had completely traced and outlined a set of brute force spiritual patterns on the surface of the two arms of the little boy.

"Buzz!"

"Buzz!"

And almost at the next moment, this timid little barbarian boy suddenly felt that his arms were filled with infinite power.

"boom!"

The little barbarian boy suddenly raised his arms, and the brute force spirit patterns on his arms suddenly burst into bright light.

"That is....."

Under the shocked gazes of countless barbarian tribesmen around him, the little boy's arms were originally thin and short, but at this moment, with the blessing of brute force spiritual patterns, his

arms suddenly expanded several times, and suddenly became The two legs were as strong as thighs, and the palms became the size of millstones.

"boom!"

The little boy roared, and the palm of his majestic arm as big as a millstone slammed forward and suddenly grabbed the two sword-like tusks of the charging iron-scaled elephant with his bare hands.

"Crunch! Crunch!"

The little boy's thick arms and big hands at this time seemed to contain infinite brute force, capable of moving mountains and reclaiming seas. He roared, and under the horrified eyes of countless people, he directly held two ivory tusks and weighed several tusks. The ten-ton iron-scaled giant elephant was lifted up with bare hands, and then tossed into the distance.

"

Boom! ! "

A huge crater was created in the ground, and the giant iron-scaled elephant was smashed to pieces, dizzy, and fell to the ground, unable to get up again.

"hiss!"

Seeing this sudden scene, everyone couldn't help but gasped.

An ordinary little boy suddenly possessed immense strength, his arms were like unicorn arms, and the giant iron-scaled elephant was knocked down in an instant, which was truly astonishing.

"It's Young Master Ye Feng!"

At this time, someone noticed the young figure dressed in black appearing next to the little boy.

"Just now, Er Lengzi's arms suddenly burst out with huge power. I can see clearly that it was Mr. Ye Feng who traced the spiritual patterns on Er Lengzi's arms!"

"What? Spiritual pattern? Is it possible that Mr. Ye Feng is not only a powerful warrior who can defeat the first warrior of our tribe, but also a mysterious spiritual pattern master like the old priest? No wonder I saw the divine light shining on Erluzi's arm. It turns out to be The power of heaven and earth spirit patterns!"

"Where does Mr. Ye Feng come from? Why can he do everything? He is an all-around genius. If our tribe can have Mr. Ye Feng's help this time, we will definitely get the opportunity in the deep mountains and forests. Those ancient relics that came out of the mountains are not the same. Need to be afraid."

At this moment, many members of the barbarian tribes exclaimed in surprise, their voices full of joy and awe.

At this time, Ye Feng looked at the young boy next to him who was showing off his skills. He was extremely brave. He couldn't help but grinned: "I finally succeeded!"

"The leader of the Erysipelas Sect, Du Qianjue, actually poisoned all kinds of food plants and wild beast food we planted outside the tribe! This is to cut off the retreat of our tribe! Come and help!"

Suddenly at this moment, a panicked shout suddenly came from not far away from the tribe.

"Du Qianjue?"

Ye Feng's eyes suddenly turned cold, and he immediately rushed in the direction of the cry. He looked in a certain direction of the tribe and shouted: "Senior Man Da Dao, let's go kill the powerful enemy together!"

Now that his cultivation has been completely restored and he has become a first-level spiritual pattern master, his strength has greatly increased. It is time to get rid of Du Qianjue, the leader of the Erysipelas Sect.
