

Ancient ST 2301

Chapter 2301 - A Violent Collision, First Killing She Chou

The boorish old man was a master strategist. It extremely fitting of the sentence: "Don't judge a book by its cover".

The old man looked strange, completely ignoring everyone. Even though Wu Tianchou was there, it was like he never saw him, just walking straight towards the area where they discussed about troop deployment.

No one said anything. Generally, capable people also tended to have the worst temper. As such, when they saw this, they felt happy instead as it meant that the Wu family would definitely have difficulty in dealing with this expert.

The old man stood up and looked around from time to time. The more he looked, the more his brows began to furrow. He went around touching objects at random time intervals and even took out a jade-looking object and threw it. Without realizing it, a quarter of an hour had passed.

"Is this old head really powerful?" She Chou couldn't help but ask.

At this moment, Wu Tianchou was also inwardly unconfident, but he awkwardly laughed out, "This old man is a formation master. It also hasn't been that long, just wait a bit more."

There wasn't an expert formation breaker on hand, so there was no harm in letting the old man have a try. After all, the supposed "formation masters" that they brought along were only of a low skill level, as such, no one could say anything to dispel everyone's ridicule.

Qing Shui observed the old man wandering around the room. Sometimes, his face would contort into one displaying a strange expression. At this time, the old man held a mystical staff, and the top of this staff emitted strong devouring powers. He then picked up a mystical nail, setting it down somewhere and started drilling.

Formation Meridian!

Qing Shu never thought that this old man would be this skillful. The eye of the formation was the weakest spot, easy to break but incredibly well-hidden. There were even many special fail-safes to protect it, so the next weakest spot would be the Formation Meridian.

It was also well-hidden, and breaking it wouldn't cause the whole formation to fall apart, but only chip away the small spot.

Now that the old man had found the meridian and also had decent tools, it wouldn't be long before the formation at this side was destroyed.

The old man didn't show much joy at his success as if it all came naturally. He moved forward, using a few jade stones to probe his surroundings before walking north. Thereafter, he started to place down his own formation.

After arranging, the old man found a specific position and used the nail to drill in, causing this section of the formation to break down...

Wu Tianchou laughed but did not say anything. At this moment, She Chou said, "This old man is not bad. His skills in creating battle formations are really exceptional!"

Qing Shui could tell that if the old man continued like this, the battle formations would naturally break. As such, he took some people and walked out, "That's enough, there's no need to break it further. We hadn't provoked you guys, yet since you're here now, you can't leave without paying the price."

"What an arrogant boy, I want to see what gives you the right to be so arrogant?" She Chou roared. He was instantly enraged.

Qing Shui used supporting techniques, and everyone in the Chi Clan had been working extremely hard to prepare for a large-scale battle. Although the opponents were very strong and capable and had a lot of manpower, the Chi Clan members were still brimming with ferocity.

"Sure, do you want both of us to fight a one-on-one battle?" Qing Shui's eyes were filled with ridicule.

"A young and inexperienced small boy coming to battle me... You're not worth it." She Chou scornfully spat.

She Chou knew that there was something odd about this place. When he sent a large troop here, not a single person made it back; there was definitely a reason for this. As such, this time he had already decided that there would be no solo battles. They would be going straight into the plan of killing everyone.

"Haha, put away your pitiful superiority. In my eyes, you are nothing. Listening to what you said earlier made me feel disgusted. You don't even deserve to say those kinds of words. Don't you know that if you say things that you are not in a position to say, people will feel beyond disgusted?" Qing Shui calmly mocked.

She Chou's face flushed with anger, so much that he wanted to charge. However, at this time, the Reverend Human Buddha exclaimed, "Continue your actions if you want to die!"

Such a simple sentence caused She Chou to stop in his tracks, his whole body feeling chilly. He turned to the Reverend Human Buddha, "Are you saying this boy here is very capable?"

"Did you not realize that he is the backbone of this place spiritually? It is exactly because of this young man that these people, even facing opponents outnumbering them by ten times, are not fearful at all. They even seem eager to battle. It's not that these people do not know us... Even under the circumstances that they know us and how powerful we are, they still choose to do such things, don't you think it's a little strange?" The Reverend Human Buddha lightly mentioned.

"Could this be a bluff?" Even as She Chou said this, he felt the nonsense in his words.

The Reverend Human Buddha did not reply to his question.

Upon hearing the Buddha's words, Xiang Ba continuously stared at Qing Shui. He wanted to see how this young man was different from everybody else, so much so that he could be the spiritual backbone of this place. The people here were all Chi family members. If he really was someone who was acknowledged by the Chi family as their spiritual backbone, then how strong was this person exactly?

Qing Shui kept on looking at this strange Buddhist Monk. He was too stable, so much so that it made Qing Shui curious as to how he was so relaxed. Such emotional stability could not be faked, and it was clearly due to ignorance. He seemed to have unshakable confidence in some knowledge.

Qing Shui himself also possessed some trump cards, thereafter, he was also feeling relatively confident. Looking at things this way, the other party probably prepared strong trump cards as well which explained their confidence.

“There’s nothing left to say, only a battle to do. We’re coming, begin!” The Reverend Human Buddha exclaimed to Qing Shui.

Qing Shui smiled. “You guys can do the first attack!”

Battle Formations!

Qing Shui launched the Four Symbols Formation. This formation had shrouded all around them. Even if he wasn’t at each spot personally, his strength could allow up to a hundred people to stand in the requisite spots to start up the formation despite their lack of understanding of the underpinnings of the formation.

It was ok to have such a small number of people here because of it.

Qing Shui looked at the Chi Yang couple before stomping his feet all of a sudden, causing the power of the Art of Pursuing and Emperor’s Qi to shroud the surroundings.

Area Dominance!

The Chi Yang couple directly charged towards She Chou, while Qing Shui charged towards the Reverend Human Buddha.

The Buddha’s face tensed up as he raised a hand, ready to attack Chi Yang. He could tell that the Chi Yang couple wanted to kill She Chou.

However, Qing Shui glared at the Buddha, not allowing him to attack Chi Yang. He started with a Stellar Transposition and began his frantic assault!

The Buddha’s expression’s dramatically changed, and his figure rapidly drew out a long fragmented shadow, before reaching out to send out two seals.

Bang Bang!

The Stellar Transposition caused the two seals to be destroyed, and it still struck the Buddha’s body, though the blow was lessened by a bright light being emitted from his body.

It was possible to ignore and disregard defense. However, some treasure could still block it, just like Qing Shui’s Parry Heavenly Fate Treasure Pagoda. Regardless of whether the parrying power was the power to ignore defense, it would still be parried.

As such, Qing Shui knew that the opposing party’s treasure had something to do with parrying, but he was not sure whether or not it was the pagoda... The Buddha had been pushed away by Qing Shui, who

didn't continue his chase. He raised his hand to apply a Buddha Bright Seal to greatly reduce She Chou's speed.

Immediately, She Chou's body stiffened as he stood unmovingly.

At this time, he was scared to the point of his soul nearly flying away. He felt as if all the hairs on his body were standing while the Chi Yang duo cut at him with their weapons.

Chapter 2302 - The Human Buddha's Nine Caves

Qing Shui's Bright Buddha Seal stunned She Chou who was already bogged down by his other abilities.

Currently, the Chi Yang couple's power, with Qing Shui's help, had become relatively terrifying. Two shattering sounds rang as She Chou exploded.

She Chou died right as the battle started!

Roar!

Upon seeing She Chou's death, endless roaring rang out beside the Reverend Human Buddha. Many people summoned their beasts, and a gigantic red wolf appeared next to the Human Buddha. The Chi Yang couple and the others also summoned their own beasts.

In an instant, the place was filled with gigantic beasts. Qing Shui also summoned his own beasts but lost them amongst the sea of beasts.

The Human Buddha was also surprised as he felt that this young man was truly strange. He had a rough gauge of this man's strength but couldn't actually fathom the true depth of his abilities.

The battle had merely just begun, yet the majority of casualties thus far had been on the Human Buddha's side, amidst the furious clashes.

The Divine Flying Sword and the Emperor's Qi had already halved the opponent's power and doubled their own. This allowed the Chi Clan to stomp on the She Clan's alliance, especially with the Chi Yang couple on their side.

Qing Shui didn't even bother attacking. This battle was to re-establish the prestige of the Chi Clan, so unless necessary, he would just simply watch. Besides, there would be plenty of opportunities to fight in the Eight Desolates Region.

The Chi Yang couple still had the third Chi uncle, the fifth Chi uncle, and the people on Qing Shui's side like Hao Tian. They were like tigers amongst sheep. While working alongside Qing Shui's demonic beasts, they were killing machines, even capable of saving quite a few of the weaker Chi clan members.

The Chi clan was inferior in terms of numbers, outnumbered several to one. Therefore, when the battle started, some of them were surrounded, but this situation displayed the advantage of the formation. There were tens of people clustered together, allowing them to watch out for one another. Furthermore, each position had someone powerful guarding them. As for the Chi Yang Couple, they were in charge of the White Tiger position in the West.

The Western White Tiger position specialized in killing, increasing the user's attack power to terrifying levels. The Chi couple's power was simply unrivaled. Hao Tian and the rest guarded another spot, while a portion of the Chi family took up another spot in the formation.

Qing Shui occupied the last remaining position, facing the Human Buddha.

Qing Shui caught the Human Buddha's attention right from the start. He felt that as long as he killed Qing Shui, his opponents would collapse in on themselves. However, the previous face off nearly blew him up. From then on, there remained a lingering fear in him against Qing Shui.

He was in too deep; he had no choice but to charge ahead.

Buddha Clothing!

The clothing on the Human Buddha instantaneously glowed with golden Buddha Light. He became very solemn. His figure seemed to be continuously expanding, just like a gigantic Buddha.

The air was filled with an aura of death and reeked of blood. However, at this moment, his solemn state was less intense. The Human Buddha stared at Qing Shui with his gigantic eyes wide open, and two golden rays locked onto Qing Shui.

Qing Shui did not expect this Human Buddha to have such great attainments in his Buddhist doctrine. This Divine Buddha Sect truly had deep foundations. The Human Buddha also seemed to have unlimited resources, as well as having great talent and perseverance.

Golden Buddha Eye!

The Golden Buddha Eye that Qing Shui picked out was similar to the Buddha clan's real eyes. However, compared to Qing Shui's Heavenly Vision Technique, these techniques were all inferior.

Whoo!

The Human Buddha's Hands struck with the force of a divine mountain.

This moment, Qing Shui realized that the Human Buddha's power was terrifying and had already reverted back to his original strength. However, under Qing Shui's boost, his defense was also particularly unbreachable.

Mountain Push Stance!

Qing Shui knew that the Human Buddha had called on the Golden Buddha which required him to be stably seated. Any vibrations to its foundation would cause it to collapse in on itself.

Qing Shui did not defend against the opponent's strong attack. He chose to attack instead.

Bang!

The gigantic hands slammed onto Qing Shui, but he seemed unharmed as though nothing had happened. He slowly extended his hands.

Boom!

The unthinkable happened. The enormous Buddha was flipped over by Qing Shui.

This image shocked the people around—the enormous, seemingly almighty image of Buddha fell and collapsed, just like that.

Boom!

The gigantic boom rang out as though the heavens had collapsed. Thereafter, the Golden Buddha's image collapsed and returned to its human form once again. However, it seemed much more disordered, not as composed as before.

"Aren't you always calm and collected? Continue!" Qing Shui mocked as he smiled at the Human Buddha.

He couldn't stand the Divine Buddha Sect at all. Dozen of years ago, their sect was in the wrong, yet they killed a bunch of people from the Chi Clan. Finally, they were not even expressing any regret or apology, as well as not punishing the initial offender.

"I admit that you are very strong, but it won't turn out well if you continue going against the Divine Buddha Sect!" warned The Human Buddha, his face ghastly pale. He had never been in such miserable straits as an expert of the Divine Buddha Sect. Moreover, he was the next Sect master, with a chance to exceed the sect master and become the Divine Buddha Guardian.

"You think I don't know that you're from the Divine Buddha Sect? Since I dare to fight you, it means that I never thought much about your sect! Don't you feel dumb using your sect's name now?" Qing Shui replied with disdain.

At this moment, the Chi Yang couple were already clashing against the Demonic Elephant sect's Xiang Ba.

"How can you be so strong?" asked Xiang Ba as he retreated. He had suffered great injuries. And if not for his big and powerful body, he would have long since been chopped up.

"The Demonic Elephant Sect has helped the evil side by attacking our Chi Clan. It seems like you never expect today's revenge?" Chi Yang said as he continued attacking.

"It doesn't matter if you are a lone warrior or an expert from a prominent sect, you always need to be aware of the possibility of being destroyed," said the Elephant Overlord calmly, blood dripping from the corner of his little smile.

"You seem pretty at ease. It seems like you are already mentally prepared, then let's send you on your way. Don't worry, the Demonic Elephant sect will be visited by us as well."

The Dragon Slaying Beast trod through the crowds. Every time it struck, someone died. The Dragon Spider was even more terrifying, immediately laying out the Inescapable Net, capturing one-third of all opponents, tangling them up into a gigantic dumpling. The ground was filled with cobweb, and any movement from them would just worsen their situation.

The Human Buddha was burning with anger. He extended his hands and opened his caves simultaneously—Nine caves!

Qing Shui could tell that this rascal was strong, but having nine caves was truly the pinnacle of all experts, especially since having ten caves could only be a myth.

Roar, zoom...

Between the nine caves, there was the silhouette of a demonic beast waving about. In a moment, it struck with unmatched brightness, landing like a gigantic interwoven net.

A cave also opened behind Qing Shui. An enormous golden figure appeared.

Primordial Golden Bear!

With an indomitable spirit and a deafening roar. It started to expand as though it was the beginning of the universe, blowing apart its surroundings as a resplendent halo dispersed in all directions.

Upon seeing the Primordial Golden bear, the Human Buddha's complexion paled once again. This young man actually had such a high-level trump card.

Chapter 2303 - Golden Shield Talisman, The Mysterious Young Miss Bu

Qing Shui directly called out the Golden Primordial Bear. Even if he had confidence, he wouldn't let his guard down and would still go all-out even if he was fighting against someone weaker. Moreover, the Reverend Human Buddha, whom he was up against, was in no way weak. If he were to have some killer moves hidden up his sleeves and managed to turn the tables around, then Qing Shui could only die in regret.

Qing Shui needed to be decisive. Since he had already thought it through that he was going to get rid of the opponent, he had to get to action. If he could kill with a single move, then he really shouldn't use two moves. That meant if he were to drag things out, the situation could possibly change.

Roar!

The Golden Primordial Bear pounced out fiercely toward the Reverend Human Buddha. Although those demonic beasts in the Reverend Human Buddha's cave were powerful, they were a lot weaker as compared to the Golden Primordial Bear. Moreover, with their abilities, they wouldn't be able to retaliate against Qing Shui's current battle prowess.

The Reverend Human Buddha also sensed this, but it was a little too late; he could only live in regret. He was also feeling very anxious, fearing that he would die here.

Golden light... Brilliant golden light...

Just as the Golden Primordial Bear was about to land a hit on the Reverend Human Buddha, the latter broke out in a brilliant golden light. At that moment, Qing Shui saw something that was like a piece of a one cubic meter golden rug under the Reverend Human Buddha's feet. The Reverend Human Buddha then disappeared.

Golden Shield Talisman!

Qing Shui was extremely shocked. To think that there was such a great treasure. This was a life-saving treasure, used mainly for escaping. It could send the user 10,000 meters away and could also allow the user to conceal themselves.

There were many treasures in this world. Seeing that the Golden Shield Talisman had appeared, Qing Shui felt that there should be other Five Elements Talismans used for escaping as well.

This item was very precious. After all, it was used to save one's life. Each of these talismans could be used for about ten times. Of course, those of better quality could possibly be used more, and those of poorer quality could only be used once. Regardless of how many times the talisman could be used, this item was still extremely precious and had very high value as well.

The Reverend Human Buddha's escape made the others lose the will to fight. She Chou had died, and so did Xiang Ba. Right now, there was only Wu Tianchou left. Wu Tianchou felt like cursing the Reverend Human Buddha. This time around, the reason that he had come was all on the Reverend Human Buddha's account. He hadn't expected that he would be made a scapegoat.

"Can we discuss something?" Looking at the current situation, Wu Tianchou felt that only a fool would continue to fight. Therefore, he looked for an opportunity to speak to Qing Shui.

"Discuss something? You're here to kill. What's there to discuss?" Qing Shui smiled and controlled the Nine Continents Mountain to send it smashing incessantly while he continued to attack using hidden weapons. Right now, Wu Tianchou's face and his other vital parts were all dripping with blood.

"Isn't there a saying that there's no eternal foes nor friendships that last forever? I owed Reverend Human Buddha a favor, but I hadn't expected that he would make me a scapegoat." Wu Tianchou said bitterly.

Now that things had come down to this, he could only take a gamble.

"Sometimes, a person can have a chance to turn over a new leaf even if they had committed a lot of bad deeds, but sometimes, just one bad decision was enough and there would be no chance to turn over a new leaf. You must die, but some of the people in your clan might be pardoned," Qing Shui said seriously.

Wu Tianchou smiled bitterly. Knowing that there were no chances of redeeming himself, he sighed and said, "Thank you!"

"Qing Shui, the Chi Clan needs to have some friends in the Eight Desolates Region in the future. Maybe..." At this moment, Chi Yang spoke up.

Qing Shui gave it some thought before asking, "What's your status in the Wu Clan?"

Wu Tianchou's eyes lit up. He knew that this was a chance, and he quickly said, "The clan's head is my eldest brother, but my words still carry some weight in the Wu Clan."

"Alright, I can let you off. But when we head to fight against the Divine Buddha Sect and the She Clan, I hope that the Wu Clan will join us. Otherwise, I don't mind wiping out the Wu Clan altogether. You better think over this carefully." Qing Shui gave it some thought and threatened the poor man a bit.

Wu Tianchou left by himself as the others that had come along had all died. This time around, only Wu Tianchou and the Reverend Human Buddha hadn't died. The Reverend Human Buddha could escape only thanks to his Golden Shield Talisman. Qing Shui hadn't known about it, otherwise, he would have applied confinement on him.

Qing Shui had the Nine Palace Laws which had the ability to confine the opponent. However, the duration of the confinement would be dependent on the opponent's strength. Moreover, the confinement would be to confine the target into a domain, not allowing them to come out. It didn't affect any other thing.

Therefore, Qing Shui wasn't worried. Since he now knew that the Reverend Human Buddha had a Golden Shield Talisman, unless the Reverend Human Buddha were to escape immediately, it would be all over the moment Qing Shui got near him. Qing Shui had a Sacred Jade Divine Stone Ring and thus, it was very easy for him to get close to someone.

With the exception of the escaped Reverend Human Buddha and Wu Tianchou, everyone else was killed.

Hopefully, Wu Tianchou would make the right decision. Otherwise, Qing Shui really wouldn't mind wiping out the Wu Clan.

Qing Shui thought of the Bu Clan's Young Miss. Her fiancé was the Wu Clan's Junior Sect Master, and it should be Wu Tianchou's nephew. He hoped that this lady would have a blessed life. If Wu Tianchou made the right decision, then she would have a good life. Otherwise, she wouldn't.

But even after some thought, Qing Shui had no idea if it was a good idea for this lady to be married into the Wu Clan.

This battle made the people from the Chi Clan even more agitated. The Reverend Human Buddha had run off, while Xiang Ba and She Chou had died. The people that they had brought with them, close to 1,000 people in total, were all killed. These people could be considered the strongest batch of people from various forces. Of course, this was just part of them. Despite so, these people were no match for the Chi Clan.

The members of the Chi Clan felt excited, especially the second batch of people who joined in later. They were already prepared to live and die together with the Chi Clan. When the Chi Clan was in danger, it was impossible for them to not come, even if they knew that they would be courting death. However, they hadn't expected that things would end up in this manner.

They still felt very happy, and everyone celebrated the victory with lots of good food and wine, as well as boastings. The place became very lively. After all, to many people, it was as if they had just been through a life and death situation—as if they had just been reborn.

The other forces in Hua City were also very shocked, especially the Bu Clan. Miss Bu was the strongest in the clan, and the Bu Clan knew that their Young Miss' abilities were unfathomable. They weren't sure how strong she actually was, but when there were important matters, they would definitely look for Miss Bu to get her to call the shots.

Just then, a man entered, "Junior Sect Master, Wu Tianchou has been killed. Please give your instructions!"

Miss Bu nodded, "Continue to keep an eye on the Chi Clan!"

"Yes!" The man turned to leave.

If Qing Shui was here, he would definitely be very shocked. Why did Miss Bu kill Wu Tianchou? Which force did she belong to? Wasn't this action creating contradictions between the Chi Clan and the Wu Clan? Wasn't she arranged to be married into the Wu Clan?

However, Qing Shui didn't know about this at all and thus couldn't make any assumptions.

The days in Hua City were unusually calm that it was unnerving. Everything was because of the Chi Clan. Many forces, who thought that they were quite strong in the Hua City, were very well-behaved, knowing that the Chi Clan was such a powerful existence.

These forces felt that they had been too much of a frog in the well in the past. The ignorants were all fearless. Only then did they realize how great of a difference their force had when compared to the Chi Clan. It was like how a household, with an annual household income of 10,000 dollars, was considered to be rich in a village, but they wouldn't head to the city. Although they were very rich in the village, someone had suddenly driven a car that was worth several ten thousand dollars into the village.

These martial arts cultivators naturally knew that there were people who were stronger than them, but there had not been such existences in Hua City. They grew up here, would live their lives here until they died and wouldn't stray too far off. Therefore, they had never seen legendary experts before. They called the shots here and even suspected if the other regions had the same power level as theirs. After all, they were already considered to be at the top of the pyramid at their level. At least, this was what they thought. As for the differentiation between the Lower Three Regions, Middle Three Regions, and the Upper Three Regions, it was merely segregation of the regional tiers for them...

Chapter 2304 - Onwards to the Eight Desolates Region, Undiscovered Things

After this incident, many members of the Chi clan returned, most of them of a different surname. They were welcomed all the same. Although returning now did not reflect well on them, it was understandable and unreasonable to expect otherwise.

There was jubilation here, but the Eight Desolates Region was filled with fury and uncertainty.

The Human Buddha returned to the Divine Buddha Sect, informing the other powers of this development.

The major powers all had lost many experts, especially the younger generation members, as they had assumed the result to be a foregone conclusion. However, all of their warriors had been slain, with even the Human Buddha trudging that delicate line.

The Divine Buddha Sect would not say that he had escaped but rather he had returned to warn everyone.

The other powers were boiling with fury, ready to come out in full force, but they calmed down as the Chi Clan seemed to have some inexplicable strength, able to overcome the absolute gap in numbers and even slaughter their people.

Many forces knew that they would soon return and that even caused headaches for all of them. The She Clan was especially distraught as they had sustained the greatest losses, while the Wu Clan had barely suffered.

“Even She Chou died, what kind of encounter could have strengthened the Chi Clan this much?” A white-haired elder sighed in the hall.

This was the She clan’s discussion hall. It was large but simple. The plain walls had different types of snakes carved into them, some with nine heads and even some with claws.

The idiom “drawing legs on a snake”, which meant overdoing something, meant nothing here since snakes were indeed of varying appearances.

“If the Chi clan is really that powerful, they will definitely pick a fight with us. We need to be prepared,” another elderly man said, opening his eyes.

“Fourth uncle is right. Even the Human Buddha was forced to flee, so who knows how strong Chi Yang is?” said a slightly younger elderly person with wrinkled eyebrows.

“The Human Buddha already said that it was a young man who defeated him. He is the reason why the Chi clan is so strong; this young man’s power is truly heaven-defying,” a youngster added.

“Hm, I also heard this but didn’t think about it back then. She Dao, do you have any ideas?” The clan lord asked the youngster.

Though She Dao was young, he had a special place in the She clan. He was the youngest son of the clan lord and a rare talent. Albeit his young age, his power was great. He was even noticed by the Divine Snake Emperor, becoming his youngest disciple.

The She clan had many members, and some of its members were even joining the Divine Buddha Sect. It was exactly those She Clan juniors from the Divine Buddha Sect who had framed the Chi clan, causing the Chi clan to nearly be destroyed.

Not only did She Dao have great aptitude, but he was also highly experienced.

His knowledge and viewpoints were different, allowing him to tackle problems more thoroughly than those old fogeys.

“Father, I am not clear on the strength of the Human Buddha, but there should be people who are clear. Since the Human Buddha came back in such a miserable state, everyone should know that the Golden Shield Talisman was used. To force the Human Buddha to do so, he must be very strong. I wonder if he has some treasure or a master supporting him,” said She Dao after some thinking.

“Young master, then what should we do? Can we defend against the Chi clan?” An elderly asked upon hearing She Dao’s irrelevant answer.

“Since things have reached this stage, we do not need to think about this question. We have to preserve the She Clan’s strength, and we can only do this by relying on the Wu Clan.” She Dao smiled.

“Wu clan?” the elderly asked, puzzled.

“I’m talking about the Wu clan’s young master, Wu Xingyun. He is a disciple of the Divine Rain Sect. If we can get them to help, it wouldn’t matter how strong this young man is,” said She Dao very seriously.

Many picked up the hidden meaning within: without the death of an important member, it would be hard to move the Divine Rain Sect to action.

Thinking up to this point, many people gave She Dao a strange stare.

Everyone could tell that he actually meant to send Wu Xingyun to his death, drawing the Divine Rain Sect into the fold. They had to accomplish this quickly, or else the She Clan may already perish before the Divine Rain Sect could get rid of this man.

The lord of the She Clan gestured in admonition, then looked at the others, "Does anyone have any other good ideas?"

"The Divine Buddha Sect has been here for a very long time. Rumors have it that the Guardian Beast they have is very strong; it might be able to defend against our opponents?"

"The Divine Buddha Sect won't be able to have a clean escape. So, once their hand is forced, they will use the Guardian Beast," said the lord of the She clan, as though he had slightly more confidence in the situation.

"We have so many powerful members, there is no need to fear them. Unless he really has the power to fight so many of us? We are sure to succeed." Someone assured.

.....

.....

The Chi clan was now preparing to enter the Eight Desolates region. Though there weren't that many people yet, it was still enough to restore the clan.

This was a massive migration. The enemies had arrived by a minor teleportation array since they were in different regions. And the Hua City itself didn't have one, and thus they had teleported to the Nine Continents' Star Ocean Domain before flying here on demonic beasts.

Qing Shui and the others also rushed to the city in the northern part of the Star Ocean Domain, where there was a Teleportation Array.

There were multiple cities with Teleportation Arrays here, not just that one, such as the Nine Peaks City, Searise City, the continent's capital and others. They all had Teleportation Arrays, but only this array could reach the Six River City and the Eight Desolates City.

Despite taking their time, Qing Shui and the party had arrived at Star City in less than 3 days.

Compared to Hua City, Star City seemed much more majestic and boundless. However, the Teleportation Array here was controlled by three main clans; the common folk would have no access to it.

The Star city's Teleportation Array was controlled by the Cui clan, the Qi clan, and the Hiddensea Sect.

Furthermore, these three clans were not very open to letting people use the Teleportation Array.

They knew that Qing Shui's party was from the South's weakest city, Hua City and outright rejected their request.

"Oh, not open to providing such a service, then I wonder how the people from the Eight Desolates Region came over."

They actually did not know whether the people from the Eight Desolates Region had gone through Star City, the Continent's capital, Nine Peaks city or even Searise City to travel here, but it did not matter. The important part was that the other party had stated clearly that they were not allowing Qing Shui's party to use it.

"We don't know about that. Alright, if there's nothing else, you may leave. We are very busy," said the leader of Star City annoyingly.

Hao Tian walked over and grabbed his neck, he laughingly said, "I'll give you another chance."

"Kid, if you have the guts, then strangle me to death. If you dare to act crazily here, you're done for." The man countered, seemingly not caring about the possibility of being strangled to death.

"If I choke you to death, how would you see us using the Teleportation Array?"

Hao Tian then threw him onto the floor.

"Trash, you dare to touch me. What are you trying to do!" The man who got thrown onto the ground yelled with disdain.

Crack!

Chapter 2305 - Eight Desolates Region's Eight Desolates City, Starting from the She Clan

Kacha!

"Ahhh! How dare you break my leg! You're dead meat! I'm Qi Clan's Qi Yuanhang. The Qi Clan will chop you up into minced meat to feed the dogs!" The man howled.

Kacha!

Hao Tian raised his leg once again and broke Qi Yuanhang's other leg as well.

"Ahh! How dare you stomp again! You fool! I'll let you die a horrible death!" Qi Yuanhang gritted his teeth and howled.

"How dare someone like you with an undeveloped brain call others a fool? Putting aside whether I'll die a horrible death, I'll let you know what horrifying is first." Hao Tian said this and stomped down twice again.

"Who are you guys? Let go of our Young Master Qi!" At that moment, someone called out.

What that happened earlier was too fast. The Qi Clan was a great force in the Star City and it'd be good if they didn't find trouble for others. Who would possibly dare to find trouble for the Qi Clan? Qi Yuanhang's cultivation wasn't good, but he was a profligate. Even people who were stronger than him could only accept being bullied by him.

However, he was the one bullied now and was in a bad state, right in front of his house.

Hao Tian looked at those people who were questioning him and slapped out toward them, causing them to puke blood from the lashing.

Not long later, a group of people arrived in a hurry. Before they arrived, their voices already rang out, "Who dares to create trouble in Star City?"

Qing Shui looked toward the people who came. There weren't many of them, only about 20 to 30. The person in the lead was a tall man with broad shoulders and a thin waist. His eyes appeared very energetic, and when he saw Qi Yuanhang under the foot of someone else, he was extremely infuriated.

"Eldest Brother, save me! I've been badly beaten up!" When Qi Yuanhang saw this man, he called out pitifully.

When the man saw Qi Yuanhang's pathetic state, his countenance changed. His eyes locked onto Hao Tian and strong auras burst out from him, "Who are you people? Why did you beat up a member of our Qi Clan so badly?"

When Qing Shui saw this man, he knew at once that this person was different from Qi Yuanhang. This man was enraged, but he hadn't lost his rationality.

"I'm only teaching him how humans should behave. A person like him deserves to be given a beating. Otherwise, he wouldn't achieve anything in the future," Hao Tian smiled and said.

"No matter whether our Qi Clan's members achieve anything or not, they aren't for others to beat. Let him go." The man's voice was very cold. He had already come here, but the other party was still stepping on his younger brother. Even though his younger brother was really a profligate and wasn't a person of many achievements, it was not for outsiders to meddle with.

"I'm not letting him go. Scram aside, otherwise, I'll beat you up as well," Hao Tian said outright.

This man from the Qi Clan was stunned. He had encountered people without any reason, but he hadn't encountered a person who was so domineering.

When Hao Tian saw that this was how the people from the Qi Clan were like, he knew that in order to deal with people like them, he needed to be more domineering and unreasonable than they were.

"Alright, alright. I shall see what you're made of." He then turned around and said, "Go call for help." The man's countenance was grim.

Qing Shui's side had close to 200 people, and they only had over 20 people on their side. If they were to make a move now, they were just asking for a beating.

Hao Tian continued to torture Qi Yuanhang, letting him cry out agonizingly.

"Hao Tian, let him go. We still have proper matters to attend to and don't have time to waste here. When the people who can call the shots in the Qi Clan comes, we'll just head to the Eight Desolates Region directly." Qing Shui said to Hao Tian.

Hao Tian nodded and kicked Qi Yuanhang out.

"You..."

Not long later, more people from the Qi Clan came. There weren't many of them, but there were a few old men at the front who were taking great and strong strides. Their faces were glowing and they appeared to be very strong.

"Who are you?" One of the old men in the lead spoke out. His voice rang out forcefully like a bell.

"We're from the Chi Clan. We wished to return to the Eight Desolates Region and hoped to borrow your teleportation array." At that moment, Chi Yang spoke out.

"Chi Clan?"

The countenance of the old man in the lead changed, and he quickly said, "Alright, alright. We'll make the preparations right away. Do pardon us for having been poor hosts earlier!"

Those people from the Eight Desolates Region's She Clan had entered the Star City through this place back then. Therefore, they placed more attention onto this place and thus found out about these matters. In the end, the Reverend Human Buddha was the only one who had escaped through this route in an extremely pathetic manner, moreover, the people who had come with him never appeared again.

Chi Yang smiled, "Thanks for going through such trouble for us!"

The countenance of Qi Yuanhang and that man were a great sight to behold, especially Qi Yuanhang. He just found out that he had received a beating for nothing. He had both of his legs broken, and yet the seniors of his clan still had to offer their apologies. Who on earth were these people?

The old man's attitude was very good and thus Qing Shui and the others didn't say anything else. They headed for the teleportation array with the old man directly.

The teleportation array was a formation. It wasn't very big but could transport 10,000 people at once. It was impossible to transport even more people as the space wasn't big enough, and the amount of required materials was also very precious.

This place was like that of a hexagram, and there were mysterious totem pillars in the surroundings, carved with densely packed things that were like runes. There was a huge Spiritual Stone on each of the pillars, and there was a Five-Colored Stone in the middle of the hexagram.

Qing Shui knew that formations, especially teleportation arrays were definitely very costly to maintain. Each time a teleportation was initiated, quite a number of Spiritual Stones would be depleted.

Spiritual Stones were the currency used between martial arts practitioners. Ordinary gold and silver were of no use to them. They used Spiritual Stones as their currency. After all, many things couldn't be bought with gold or silver.

Spiritual Stones contained spiritual Qis and could be used to set up formations, forge weapons, as well as increase one's cultivation efficiency. They had many uses and of course, were differentiated by their quality. The higher their quality, the higher their worth.

Very soon, a bright glow lit up from the hexagram, followed by a blurred feeling that lasted for only a moment. Things then returned to how they were, and they appeared in a teleportation array in the Eight Desolates Region.

A teleportation array like this could only teleport people via predetermined teleportation. It meant that even though one side would teleport the people, the other end must take efforts in receiving. However, as the distance was too far, both parties must discuss properly and both parties must have the arrays activated. Otherwise, the teleportation would not pass.

Therefore, Qing Shui's group didn't have to worry that the Eight Desolates Region didn't take efforts to receive them.

The teleportation array here wasn't any different from the one in the Star City. However, the moment they came out, they were stopped. "Who are you guys? You need to pay to use the teleportation array."

There were people guarding the teleportation array. Seeing that the group came out, a young man walked over and said.

Qing Shui was stunned for a moment before he smiled and said, "It's none of your concern who I am, right? How much does it cost to use the teleportation array?"

"100 pieces of Grade Four Spiritual Stones." The young man smiled and said.

"I remember that it was 50 pieces of Grade Three Spiritual Stones. How has it become so expensive?" Chi Yang asked, puzzled.

"I have no idea either. The people above says to charge this amount. Our job is just to collect the payment." The young man smiled and said.

"Which clan does this teleportation array belong to? Where have we arrived at?" Qing Shui asked, puzzled.

"This is She Clan's teleportation array. This place is the Eight Desolates City." The young man said arrogantly.

"The She Clan's teleportation array? This is great. I can't be bothered to go and look for them. Let's just head to the She Clan directly." Qing Shui gave it some thought and said.

Chi Yang nodded, "Alright, let's head to the She Clan first."

"Quickly pay up, don't be blabbering non-stop." The young man wasn't afraid that there were over 100 people in Qing Shui's group and said this impatiently.

Putting aside 100 over people; they wouldn't even be afraid if there were several hundreds of them. This was the Eight Desolates City and not many people could afford to offend the She Clan can. Moreover, the people who appeared in the teleportation array were people from the Lower Three Regions. Whom amongst the Lower Three Regions had the She Clan ever been scared of?

Chapter 2306 - Our She Clan Is Righteous And Isn't Afraid of What Others Say

These people from the She Clan were badly bashed up by Qing Shui until they were covered in bruises and also sustained internal injuries. Qing Shui's group then left the She Clan's teleportation array and headed for the She Clan's manor which wasn't far away.

Qing Shui's group moved too quickly. The She Clan and other forces had scouts in Hua City, and thus, they knew when the Chi Clan had set off. However, it would take some time just to travel from Hua City to the Star City, and they hadn't expected that Qing Shui and the group would arrive in the Eight Desolates Region within only three days.

The most valid reason the Eight Desolates Region got its name from was because of the existence of desolate lands in all eight directions of the Origin Region. The eight desolate lands were very dangerous, with complicated terrain, strange beasts, powerful demonic beasts, as well as heavenly and earthly treasures. It was the most dangerous place but was also like heaven to many people.

The She Clan was located in the extreme east of the Eight Desolates City, having an extravagant manor that took up a lot of land area and had massive structures. The structures there weren't pavilion buildings but were of about the same height. They only had one story, the buildings were strong and sturdy while appearing dignified and rustic, just like a huge Desolate Beast that was in deep sleep.

The sun was shining brightly, bestowing great vitality to everyone. Qing Shui looked around as he walked with calm breathing. It was as though he was traveling and enjoying himself, not feeling anxious at all. However, the entire group seemed to have been prepared by him and was ready for battle.

Qing Shui took in a deep breath and said, "Brother, after wiping out the She Clan, rebuild the Chi Clan immediately and then continue to wipe out the rest. Oh, right, have you sent people to inform the Wu Clan?"

Chi Yang was actually not as calm as he appeared to be. "Alright. I've already sent someone over, but we haven't seen any actions from them!"

"I hope that the Wu Clan won't make an unintelligent choice." Qing Shui sighed and said.

...

At this moment, a member of the Chi Clan was standing at the Wu Clan's entrance, stopped by the guards.

"Who are you? What matter do you have?" One of the guards who appeared smart in his middle age walked over and asked.

"We're from the Chi Clan and are looking for Mister Wu Tianchou." The member of the Chi Clan said seriously.

Hearing this, the man was taken by surprise and a thought ran through in his mind. "Duanhu, lead this brother to the hall. I'll go in and inform his arrival."

The young man felt a little puzzled. Wu Tianchou hadn't returned, so what was there to inform? Regardless, he still decided to lead the person to the hall.

The smart looking man was from a side branch of the Wu Clan, but he still had the Wu Clan's blood running in him. He was going to report to the clan's head that the people from the Chi Clan had actually arrived so quickly. He hadn't left very far when a handsome man walked toward him.

"Junior Sect Master!" The man bowed respectfully.

"Mmm, Uncle Gua, why are you in such a hurry?" The man smiled and asked.

"The Chi Clan has fought their way here. They are already in the Eight Desolates Region. Someone from the Chi Clan has come to look for Brother Tianchou. I got someone to lead him to the hall. Junior Sect Master, what do you think we should do?"

Wu Clan's Junior Sect Master frowned, shocked to find out that they had arrived so quickly. He said, "Alright, I've got it. You can take your leave!"

It didn't take long for the Wu Clan's Junior Sect Master and clan's head to arrive in the hall. The Wu Clan's head, Wu Tiannan, was a sharp man that was like an unsheathed sword. He wore purple robes and stood upright. He could be said to be an outstanding talent of his generation.

The Wu Clan's Junior Sect Master, Wu Xingyun, was in no way inferior when he stood next to his father. He had a long and slender figure as well as handsome features. Most importantly, he was a disciple of the Divine Rain Sect, and this status was very powerful. The Divine Rain Sect was the top in the Lower Three Regions and even the Divine Buddha Sect would have to lower their heads before them.

The Wu Clan naturally hated the Chi Clan a lot. Wu Tianchou had died. He had been a character with an inestimable future before him. Thereafter, they knew that the Chi Clan was already rushing over for the She Clan and therefore, the reason they had sent one of their members to relay Qing Shui's words was so that they could get the Wu Clan to head to fight against the She Clan with them.

This made Wu Xingyun so angry that he slammed his palm out.

This member of the Chi Clan had initially thought that he had found a good task to do but hadn't expected to die just like that. Until the moment he died, he still didn't understand why.

"Father, what should we do now?" Wu Xingyun asked the other man.

"Don't make a move yet. Let's see what the She Clan would do and then observe what the other clans will do," Wu Tiannan gave it some thought before saying.

"Junior Sect Master, someone outside is looking for you. He says that he is your friend and has an important matter to tell you." At that moment, a man walked in through the hall's entrance.

"Alright, I got it. I'll head over immediately!" After saying that, Wu Xingyun got that person to leave first.

"Since you have something to attend to, then you can leave first. Be careful!" Wu Tiannan instructed.

"I got it, Father!"

Wu Xingyun walked out and saw a man in the front courtyard. He knew this man—She Clan's She Chenggang. When he saw Wu Xingyun, he smiled and walked up, "Hello Brother Wu!"

"I was wondering who it was, so it's Brother She. Come in and have a sit." Wu Xingyun warmly invited She Chenggang in.

She Chenggang shook his head, "Brother Wu, other than inviting you to help out, someone also came to ask me to pass you a piece of news."

"What news?" Wu Xingyun ignored the first part about the request for help.

"That guy from the Chi Clan, currently an important figure in the Chi Clan, has an abnormal relation with Miss Bu. Many people know about this and it's not good for Wu Clan's reputation," She Chenggang looked around and said softly.

Wu Xingyun was raging in flames. Although he knew that this She Chenggang didn't come with good intentions, there were no waves without wind. Moreover, Miss Bu was his reverse scale and there was no way he could let others taint her reputation like this.

"Aren't you here to seek for help? Come, I'll go with you to meet this proud talent." Wu Xingyun said outright.

She Chenggang nodded, "Come, let's go and get rid of him together. To think that people from the Nine Continents Star Ocean Domain are so arrogant. And that Chi Clan as well... I shall see what right do they have to be so arrogant."

Wu Xingyun looked at She Chenggang, smiling coldly inwardly. He looked down on She Chenggang. She Chenggang was many notches inferior to him no matter in which area they were to compare.

...

Chi Yang stepped out while standing in front of the She Clan's gates. "People from She Clan, listen up! Our Chi Clan is back! We've come for the debt many years ago!"

His voice wasn't very loud, but it reached out for very, very far. Basically, everyone in the Eight Desolates City could hear him.

"It's been several decades. The Chi Clan is back," said someone.

"Back then, the She Clan has gone overboard. I hope that they can wipe out the She Clan this time around. But I wonder if they'll be able to do it."

"Back then, She Clan wasn't the only one involved. Therefore, there'll definitely be others who stand with them. When that happens, the Chi Clan won't be up against only one force. It's very hard for the Chi Clan to seek vengeance!"

"The people of the Chi Clan are no fools. They must definitely have some backing to dare to come back and issue a challenge so openly. There's no way that they're here to court death." Someone held a different view.

...

"Back then, your people from the She Clan joined hands with the Divine Buddha Sect to make our Chi Clan a scapegoat. You even brutally massacred countless of our people. So many years have passed. It's about time for us to settle this." Chi Yang continued to say slowly. Before they sought revenge, he wanted to let many people understand what was going on. They must be on the righteous side.

Although people fight with their fists on many occasions, righteousness must not be forgotten.

"Hahaha, you've really become capable. Who dares to kick up a fuss before the She Clan? Why, are you guys going to bully the She Clan in the Eight Desolates City? I don't remember what happened back then, but our She Clan is righteous and aren't afraid of what the others say. Don't blame our She Clan for

not standing on ceremony when you come to slander us." A group of people came out from the She Clan. The one in the lead who spoke up was a mature man who looked devilish.

Chapter 2307 - Wanting You Guys to Also Experience the Feeling of Having Your Clan Wiped Out

Chi Yang looked at this arrogant and devilish looking man. They were of the same generation, but the other party looked more like a young man. He was the She Clan's Junior Sect Master, She Dao. He was one who would do things his way and was a little arrogant. It was very normal for him to be occasionally trampling over the common regulations and lie through his teeth to spite others.

"I always felt that I'm shameless, but it's only now that I know I'm still far from that. So, there's no such thing as a limit to shamelessness; there are only people who are even more shameless. I've finally seen it for myself today," Hao Tian looked at She Dao and said seriously.

Although Hao Tian's words weren't very loud, the people around could hear him very clearly. The people from the Chi Clan felt that his words were very right, and there were even others who chipped in.

"If a person is shameless, then he'd be invincible."

"There's nothing strange about this. It's not the first day that we know of this b*stard from the She Clan being this shameless. Who in the Eight Desolates City isn't aware of it?"

"Calling him shameless is showing him too much respect. He's just outright despicable. If this b*stard were to die one day, it will definitely be because he's too despicable." Hao Tian continued.

Qing Shui hadn't expected that Hao Tian was so exceptional in scolding others.

"Brother Hao Tian can really see through things. I wonder if you can tell if he'll die of being overly despicable today?" A man who got along well with Hao Tian smiled and said.

"Today? It'll definitely happen," said Hao Tian seriously.

The people on the Chi Clan's side were extremely lively, but those from the She Clan were all wearing grim countenances, especially She Dao. Usually, it would be She Dao who spite others, but now, he was the target of spite. Those words earlier carried a much greater impact than what he had said before.

If the Chi Clan were enraged and cursing them, She Dao wouldn't feel angry but overjoyed instead. He had always wanted to spite others to the extent that they would puke blood. However, not only were the Chi Clan not angry, he was the one who was so enraged that he felt like puking blood instead.

"Won't stand on ceremony? I shall see how the She Clan is going to not stand on ceremony with us. Do you know what standing on ceremony means? You're just a bunch of crazy and evil creatures." Chi Yang looked at She Dao and said coldly.

There were over ten elderly men behind the She Clansmen. They were also the She Clan's experts. Although there were quite a number of people behind them, those people weren't really strong enough to put up a fight against the Chi Clan.

"The people from the Chi Clan are really bold. To think that you've really returned!"

At that moment, a group walked over. The person in the lead was a monk who was the size of a king kong. As he was bald, it was hard to tell his age. He had a tall and strong physique, didn't look too handsome but appeared domineering. He held a huge staff.

A group of monks of varying ages followed behind him; each of them seemed as if they weren't weaklings.

The Divine Buddha Sect!

The Divine Buddha Sect was the first to rush over. Back then, the Divine Buddha Sect had sent the most number of people and thus, there was no way that they could wash their hands off this matter. Therefore, it would be better for them to come over earlier and join hands with the She Clan. With him around, the Demonic Elephant Sect and the Wu Clan wouldn't shy away from stepping forth.

"The Divine Buddha Sect's name has really been put to shame. People who are under the teachings of Buddhism and eminent monks are all righteous people who eliminate evil and support what's right, providing salvation and help to the people. People who cultivate Buddhism saves people in trouble, and saving people is also a form of cultivation for themselves. They would strive to reach a selfless state, becoming extremely benevolent. You people have tainted the word 'Buddhism' and can never become true 'Buddhas'," Qing Shui said to the monk who was in the lead.

"Who are you? What rights do you have to speak about Buddhism here?" The monk from the Divine Buddha Sect was stunned for a moment. A strange glow shone in his eyes before he bellowed toward Qing Shui.

"Who am I? I'll show you who I am!"

Buddha Diamond Seal!

Stellar Transposition!

An extremely big buddha's image appeared around Qing Shui, surrounding him. This towering Buddha shone in a brilliant gold color, and its powerful aura gave many people the urge to want to kneel down and lay prostrate. The monk was also taken by surprise by Qing Shui's Buddhism arts. Moreover, his mastery of the skill seemed to be very high.

Pa!

The monk exploded from the strike!

Qing Shui could already tell how powerful this monk was. Moreover, he was a person who cultivated in dark Buddhism arts. He cultivated the Thousand-heart Poison Palm, a technique which required 1,000 hearts of young children to train.

This was also why Qing Shui annihilated him directly when the monk said something earlier.

Qing Shui was infuriated. Toward someone who was so crazy, he wouldn't go easy.

This one strike astonished everyone. At this moment, Wu Xingyun and She Chenggang had just arrived and saw this scene. Both of them were taken by great shock. The people from the Demonic Elephant

Sect had also arrived. This time around, many people had come and there were now over several thousand people. About 80% of the experts from the various forces had come.

Wu Xingyun had initially come to fight against Qing Shui, but when he saw Qing Shui killing the monk so easily, his fighting momentum wilted.

Earlier on, Qing Shui had already applied formations and the Battle God Halo on himself. Qing Shui boosted his defensive prowess and then applied the Buddha Diamond Seal, followed by Stellar Transposition. The prowess of this strike was too powerful. In the Lower Three Regions, this attack would be able to wipe out everyone in its way, even god or Buddha.

When Wu Xingyun saw this scene, he lost confidence. He had no idea if these few clans would be able to stop Qing Shui. If they couldn't, then the results would be clear. However, at the thought of how the Divine Buddha Sect was also a massive force, he felt that it wasn't that easy for these people to wipe them out.

"How vicious!" An old monk looked at Qing Shui and said furiously.

"Vicious? Since you guys are from the Divine Buddha Sect, do you know what martial technique he cultivated? It's the Thousand-heart Poison Palm. He must have already succeeded in learning this technique. Do you know what must one do to be able to learn this technique? It requires the use of the hearts of 1,000 children." Qing Shui didn't let them ask and answered directly.

"What? Back then, I had a child who had died from having his heart dug out. Could it be that it was done by them?" Someone from the She Clan bellowed out.

"Calm down. Why are we bringing this up at a time like this? Don't fall into this guy's trap to bring us apart." An elderly man from the She Clan quickly said.

However, everyone knew that this possibility was very high. Many people knew how vicious the Thousand-heart Poison Palm was. However, given the current situation, they weren't too sure if what the monk had cultivated was really the Thousand-heart Poison Palm.

"You're talking rubbish. Although my Teacher cultivates the Thousand-heart Poison Palm, he uses the hearts of demonic beasts. Teacher is a kind and benevolent person." A younger monk said loudly.

"If the hearts of demonic beasts are used, one could either entered a state of Qi Deviation or even possibly have died long ago. There's no way to cultivate the skill. The Thousand-heart Poison Palm requires the use of human hearts, and the children mustn't be over 12 years old." Qing Shui answered right back at the young monk.

This young monk had wanted to speak up for his Teacher but ended up being on the disadvantage. With that, everyone now knew that the monk had really cultivated the Thousand-heart Poison Palm.

"Chi Clan, what happened back then has already passed. Why doesn't everyone sit down to have a good talk? Don't worry, we're in agreement for the Chi Clan to set up a place in the Eight Desolates City." The She Clan's head stood out and said.

"It's true that what happened back then has already passed. But if I were to let this go, the ancestors in the family won't be able to die in peace, and they would come to ask me to seek redress for them. If I

don't kill you people, I won't be able to eat or sleep well. Moreover, who do you guys think you are? Allowing us to set up our Chi Clan here? Now, what I want is for you guys to also experience what the Chi Clan had felt back then," Chi Yang raised his head to look at the She Clan's head before saying this slowly.

Chapter 2308 - Subdue and Kill, Suppress, She Dao's Means

This was what Chi Yang wanted to say and was also the results that he wanted. He had been through a lot of pain until the extent that he could have been better off dead. He was forced to give away his son and daughter, and the chances of his father and other seniors in the family surviving were very low. This was considered a broken family. Was there anything that was worse off than this?

His words were very heavy, and even the She Clan and the other clans felt that it was very heavy. Right now, they didn't feel reassured and fearless, because they felt that how things would turn out might really be an unknown. They had a faint feeling that they might have to pay some kind of price before they would be able to wipe out these people from the Chi Clan.

"Old Snake Freak, I'm going to start the kill with you today!" Chi Yang looked at the She Clan's head and charged out.

At this moment, the Mighty Strength Battle God swung his huge hammer up in the air and after Qing Shui had increased his strength by a sufficient amount, he suddenly smashed down towards the ground.

Impact Waves!

This was a unique battle technique that the Mighty Strength Battle God had-using a powerful strength to smash and create a huge trough in the ground, forming a huge dilacerated area. As long as the targets didn't leave this area, they would be affected even if they were floating in the sky.

Buddha Bright Seal!

Qing Shui lashed out his towering golden Buddha, whose golden glow was so piercing that it was hard for one's eyes to open. Quite a number of people next to the She Clan's head were hauled out by the dilacerated force, but the She Clan's head was still within it and only felt a little faint.

He wanted to retreat the moment he regained his senses, as at this time, Chi Yang's violent slash was already pouncing toward him. That powerful attack left him on tenterhooks. And just as he was about to use an instant teleportation technique, he realized that a huge golden Buddha had encompassed him.

Dizziness!

At this moment, his expression was that of despair. He knew that it was all over for him. To think that he was going to be killed just like that with a single slash...

Pfft!

Chi Yang's merciless slash cut off the head of the She Clan's leader.

All of these happened in just a moment. The head of the She Clan's leader fell on the ground, and the sound struck the hearts of everyone in the She Clan. This was a heavy sound to the She Clan, but to the

Chi Clan, it was a very pleasant sound. After putting up with grieving for several decades, they had finally had a small vent to their anger.

The eyes of Third Uncle Chi, Fifth Uncle Chi, and Chi Yang turned red, and they felt a little excited, especially Chi Yang. All these years, Chi Yang had felt that the burden on his shoulders was extremely heavy. Moreover, his hidden illness that he had had previously made him feel that it was really hard for him to hang on anymore.

Chi Yang looked at Qing Shui, this mysterious and powerful man. He didn't harbor any thoughts toward Qing Shui. In the past, if someone could let him take revenge, he could give up everything he had. Even if he was asked to give up his life, he wouldn't have a moment of hesitation.

"The clan's head was killed! Kill them!" Someone from the She Clan shouted out.

She Dao's eyes turned red. Everything happened too quickly and at this moment, he wasn't impulsively wanting to seek revenge for his father. Instead, he turned to those old men in the clan.

Those old men immediately stepped up, bringing out their weapons as they looked at Chi Yang. In an instant, a series of light and shadows flashed as they charged out toward Chi Yang.

"After the She Clan is done with, you guys will be next. What are you guys still waiting for and not making a move? Back then, we had done the deed together, and we should all attack at once to wipe them out, returning peace to our Eight Desolates City." She Dao shouted out with all his might.

The Divine Buddha Sect made a move, and a large group of people dashed out toward the Chi Clan. The people from the Demonic Elephant Sect and the Wu Clan made their moves as well.

She Dao stared at Qing Shui with vicious eyes, but in the end, his gaze landed on Wu Xingyun.

"Junior Sect Master!" An elderly man arrived next to She Dao.

...

Art of Pursuing, Emperor's Qi, Area Dominance!

Qing Shui kept on performing his skills. Nine Continents Mountain, Seal of Xuantian, Buddha Wisdom Seal...

There were too many people on the opposing side. Qing Shui called out his demonic beasts. The other people called out their demonic beasts as well. The scene suddenly became an impressive sight. There were huge demonic beasts everywhere, and Qing Shui and the people from the Chi Clan stayed together. Right now, they were a team and weren't very far from each other. This made it easier for the application of Qing Shui's formations and the Divine Weapon Flying Sword's ability.

Qing Shui kept on moving about but was still unable to assure that there were no injuries or deaths. He did his best to reduce the casualties to a minimum. In order for them to have fewer casualties, they had to deal with the leader amongst the enemies as soon as possible.

There were now several tens of experts from the She Clan coming. Qing Shui, Chi Yang and his wife were putting up a tough fight. Although they were quite strong now, the enemies had an advantage in numbers, and they were held back.

Nine Continents Mountain!

Boom!

The Nine Continents Mountain was considered quite strong at the moment. Moreover, with its Shield Attack, it was beyond terrifying.

Great Buddha Imprint!

Qing Shui put out his hand and used a powerful suppressing force to press down on the Nine Continents Mountain.

Quite a large space was smashed in the area. When those people were sent flying, Chi Yang and his wife, together with Qing Shui's demonic beasts all made their moves.

The Diamond White Tiger King's huge body kept on darting around in the crowd, and there were occasional agonizing cries that rang out.

The two ladies of Qing Shui called out their Sun Phoenix and the Black Ice Divine Worm!

...

When Wu Xingyun saw the situation, he gradually backed off.

At that moment, She Dao looked toward the old man next to him and said, "Grandfather Nu, kill him!"

The old man nodded and his body, which was only skins and bones, flashed out like a gust of wind. The sharp dagger he was holding pierced into the back of Wu Xingyun's heart.

Wu Xingyun wasn't weak to begin with, and he was still quite strong even after he had been weakened by Qing Shui. After all, he was from the Divine Rain Sect. However, he was directly killed by the old man without any warning. The old man's speed was like that of a ghost, not bringing up any Origin Qi waves in the surroundings.

"You!" Wu Xingyun fell silent after saying this word, looking at this old man from the She Clan with his bitter eyes.

Then, the old man abruptly kicked onto the back of Wu Xingyun's heart, creating a bloody hole there. Wu Xingyun's dead body landed amongst the people from the Wu Clan.

"Xingyun!" The Wu Clan's head cried out in great pain.

Qing Shui found it strange. Wu Xingyun wasn't weak to begin with, so how did he get killed without any warning? Neither he nor Chi Yang and his wife had made a move, and as for the others, it was either they didn't make any move or that they didn't have the ability to achieve such a thing.

However, he didn't give it too much thought. He was here to kill and these people needed to be killed sooner or later.

The battle continued on and lives were lost at every moment. Weapons swung around everywhere. Qing Shui's Buddha Wisdom Seal would lash out once in a while, reducing the damage inflicted by the opponents without them realizing it.

This was also one thing that Qing Shui relied on a lot. It was because even Miss Bu's strength was at 800 billion Dao Force, and it would be very normal for there to be dark horses in the Eight Desolates Region. However, Qing Shui still didn't feel any pressure. It was because he could reduce the damage of the opponents' attacks to an unbelievable stage.

There were few casualties on Chi Clan's side, and it was thanks to their knowledge of the simple Combination Attacks. Although these Combination Attacks were simple, they were very practical. If they worked together with the demonic beasts, even the weaker ones would be able to protect themselves at the very least.

Pfft pfft...

Chi Yang's saber was like a butcher's knife, and those old men from the She Clan kept on falling.

"I knew that not only would I have to pay with my life for the debt left behind back then, but I would also have to pay back in interest." An old man felt freed just right before his death.

Subdue and kill! Suppress!

Chapter 2309 - Killing She Dao, Berserk Dragon Fist

The battle didn't continue for very long. Blood dyed the surroundings of the She Clan in red and the air was filled with the stench of blood. Qing Shui's Spiritual Sense was always activated throughout the battle and suddenly, he saw two figures leaving rapidly through his senses. They were about to disappear from the boundaries of his Spiritual Sense.

Heavenly Vision Technique!

Qing Shui used his Heavenly Vision Technique immediately and then rapidly leaped out in the direction where the two people had disappeared from.

Nine Palace Steps!

He immediately surpassed the two figures and when Qing Shui opened his eyes, he saw She Dao and an aged old man.

"There's no escape for you!" Qing Shui said softly.

Toward someone from the She Clan, Qing Shui decided that it was better to get rid of them. He didn't wish to let too many people from the She Clan off, especially people like She Dao.

"You've already created a great trouble. When the time comes, all of you will die." At this moment, She Dao smiled and said cruelly.

"There's no need for you to worry about this. You'll die before the time comes," said Qing Shui without any hint of changes in his icy expression. He had already activated the Nine Palace Laws' confinement ability. This was an ability which he had gotten from the Nine Palace Laws at a later time. Within the Nine Palace, Qing Shui was the heaven. He was the one to call the shots.

There were some abilities, which the Nine Palace had, that would allow Qing Shui to be able to suppress the opponents no matter how powerful they were.

She Dao wasn't too anxious and continued to do something without batting an eyelid as he said, "You've killed Wu Xingyun. Do you know who Wu Xingyun is?"

Of course, Qing Shui knew about this. The reason he had remembered this name was because of Bu Clan's Young Miss. Moreover, he also found Wu Xingyun's death strange. Now, he had a faint suspicion, but he said without batting an eyelid, "It doesn't matter who he is. He's already a dead man now."

"Have you heard of the Divine Rain Sect?" She Dao smiled coldly and said.

"The Divine Rain Sect? What's that?" Qing Shui hadn't heard of them before. However, he didn't fear any ordinary force in the Lower Three Regions. However, if it was some major influence that came from the Upper Three Regions, then it would be a different story altogether.

"The Divine Rain Sect is the dominator in the Lower Three Regions. Do you know what it means? It means that even if the top-notch forces were to join, they wouldn't be a match for the Divine Rain Sect." She Dao looked at Qing Shui and smiled brutally.

Although Qing Shui wasn't very worried, he was still shocked for a moment, what kind of existence was this Divine Rain Sect...?

"I've already said it, you're doomed. If you have something to say, then go ahead and say it!" Qing Shui knew that the other party would definitely go on and speak his mind. The more Qing Shui tried to stop him from continuing, the more the other party would speak up.

"Wu Xingyun is the youngest and most doted on disciple of the powerful Grand Elder in the Divine Rain Sect. If someone were to kill the Grand Elder's disciple, I wonder if you guys will be able to withstand his fury?" She Dao grinned coldly.

"Alright, it's about time for you to go on your way!" Qing Shui was about to make his move.

"That might not be the case. If I want to go, there's no way for you to stop me..."

However, before he finished his words, his countenance changed drastically and became extremely pale. He looked at Qing Shui as if he had seen an unbelievable existence.

"Are you going to use your Five Elements Talismans to escape?" Qing Shui smiled.

The reason She Dao had remained here was because he had a final ability to escape—the Gold Shield Talisman. However, he now realized that there wasn't any reaction from this treasure at all nor was there any hint of spiritual wavelength. The reason he was able to remain so calm earlier was because of his last ability to escape.

When this ability lost its effect, terror rapidly filled his entire body. He suddenly felt extremely cold, and his legs seemed as if it had been filled with lead and sunk in the soil, unable to move in the slightest.

The old man was equally shocked. When She Dao escaped, he would bring the old man along with him. The old man was very powerful, and She Dao was still young after all. Even if they were to make their escape, She Dao would still have to rely on this old man for the next few decades.

The old man appeared a little lewd and was very skinny. His clothes appeared very loose and strange on him. It could be because his age was too old that he didn't appear very anxious even after finding out that they were unable to escape. Instead, he stared at Qing Shui with a pair of eerie eyes.

The old man made his move. He held a rustic dagger and his movements were as elusive as a ghost's. He charged out toward Qing Shui with a dash and then pushed She Dao toward the distance, "Quick, run. Run a little further and you'll be able to use the Gold Shield Talisman. He has applied confinement onto this area."

The old man was knowledgeable after all and knew that with Qing Shui being so young, it was impossible for him to be able to apply confinement onto a very large area.

She Dao appeared a little hesitant. Although he wasn't a good person, he was still very respectful toward the old man. This person was someone of his grandfather's generation. He was a personal bodyguard of the previous clan head and was apt in the art of assassination and concealment. He treated She Dao very well and had also saved his life before.

How could Qing Shui possibly let She Dao escape? He used his Heavenly Vision Technique to lock She Dao.

The moment he made his move, it was with Stellar Transposition!

She Dao might be considered quite strong amongst people of his age, but he was still of a different level when compared with existences like Wu Xingyun and the Bu Clan's Young Miss. With the Nine Palace Laws, the speed reduction from earlier in addition to the Heavenly Vision Technique, the result was decided.

Pa!

She Dao had already disappeared at the moment he died an unresigned death.

The old man's countenance still appeared to be very calm, and he knew that the difference between him and this young man was huge. Qing Shui's movement technique was so much better than his. He was an assassin and his movement technique was his strongest skill. However, even the skill he was the proudest of was not comparable to Qing Shui's.

If he were to know that what Qing Shui was using was the Windwhisk Willow, he wouldn't be so surprised. This was one of the most terrifying and best movement technique there was in the past.

Windwhisk Willow!

One punch!

Qing Shui didn't think about anything and merely smashed out a violent punch.

Boom!

The old man wasn't able to avoid under Qing Shui's Nine Palace Laws and was struck by the punch. This was nothing, but Qing Shui was stunned. It was because a set of fist technique rapidly flashed past in Qing Shui's mind.

An additional set of fist technique had appeared in the Dragon Form of his Nine Animals Mimicry Technique!

Berserk Dragon Fist!

It had a simple name. At this moment, Qing Shui no longer cared about taking a long look at it. He directly performed it to check how strong its prowess was.

Roar!

Qing Shui launched out his punch and with a faint dragon's roar, it was as if his entire arm had the movements of a dragon's shadow. When Qing Shui swung out this punch, he felt that it came with a strong turbulence of power. This was something that he had never felt before. Even when he performed the Paragon Strike, he didn't seem to feel that it had been this powerful.

Boom!

With a loud boom, the old man was sent flying and spurting blood by Qing Shui's punch.

This result left Qing Shui stunned. The power of this punch was very strong, but he felt that there hadn't been a need to deal such a heavy blow. However, this wasn't the time to give it so much thought. He immediately gave chase with a flash and then followed with another Berserk Dragon Fist. Both his arms seemed to be like huge dragons and when his punch struck out, it felt exhilarating. The prowess of that punch made even Qing Shui feel exhilarating. It was as if he could blast a hole through the sky.

This punch landed on that old man's chest and ended the battle directly. Qing Shui looked at the surroundings and saw that everything seemed to be ending soon. A number of people from the She Clan, Wu Clan, and the other opposing forces had run off. After all, there were too many of them and some of them had mysterious items that could allow them to escape. Therefore, it was impractical to want to make all of them stay.

The battle ended. Putting aside those with slight injuries, there were twenty people from Chi Clan's side who had died and eighteen of them who were injured. The twenty members who had died were the weakest amongst them and although it was a little saddening, all in all, it was still a happy ending.

Chapter 2310 - Powerful Berserk Dragon Fist, Rebuilding the Chi Clan

Looking back at their struggle until now, Chi Yang was in a daze. Right now, he had an urge to cry. He raised his head to look up into the sky, wanting to tell of the deceased members of the Chi Clan to take a look. The Chi Clan had returned!

Right now, everyone in the Chi Clan was feeling very emotional. Everyone had their sense of belonging. A clan gave them exactly it. It was just like how things were for everyone in Qing Shui's previous life. No matter what kind of insignificant characters they were, they would have a sense of belonging to their own countries. It matched the saying that a country's prosperity is the responsibility of everyone.

Qing Shui looked around before turning his attention onto the Nine Animals Mimicry Technique. There was now an additional Berserk Dragon Fist below the Dragon Form. It had been very long since he had last comprehended a new battle technique. He hadn't expected that this time around, with the use of the Windwhisk Willow, the Dragon Form's Berserk Dragon Fist was awakened.

This was an awakening. It was a Dragon Form's battle technique. However, before this, it was just that he didn't meet the requirements to obtain it and thus hadn't comprehended it.

Qing Shui looked toward the Berserk Dragon Fist!

Berserk Dragon Fist!

The dragon race's powerful physical fist technique for attacking. The most basic requirement for learning this fist technique was to have a powerful body. It was because the Berserk Dragon Fist's prowess was tremendous. If the body wasn't powerful enough, one would get injured when trying to attack the other party. Without a powerful body, one wouldn't be able to unleash the Berserk Dragon Fist's prowess.

The second thing was strength. Strength wasn't the most important thing, but the stronger the strength, the better. However, there must be a relative relationship with one's defense. One's strength mustn't surpass one's own defense. Otherwise, it would be very easy for one to become injured.

Another thing was speed. Speed was power. When two attacks were of the same level of power, speed was a very important factor.

Qing Shui finally understood the importance of the Windwhisk Willow. It was because without the Windwhisk Willow, he would probably be unable to comprehend this Berserk Dragon Fist anytime soon.

Qing Shui continued to read on and felt especially happy. There wasn't a concrete strength indicator for the Berserk Dragon Fist. He only knew that speed decided the Berserk Dragon Fist's prowess. As long as one's body defense could withstand it, then the prowess for the Berserk Dragon Fist could become increasingly terrifying.

Other than that, the Berserk Dragon Fist itself had a unique ability-Damage Increase. If the damage you had was 5, when it hit the target, the damage could be 8 or higher. This was the Berserk Dragon Fist's unique trait.

The Berserk Dragon Fist used one's defense as the foundation. Each punch brought forth every bit of one's terrifying drive, and the strength of the attack would be determined by the speed.

This was the Berserk Dragon Fist. Qing Shui felt that this was a fist technique that was tailor-made for him. This made sense. This technique was part of the legacy that belonged to him, and it wasn't strange for it to be tailor-made for him. After all, the Nine Animals Mimicry Technique was an existence that belonged to his own soul's imprint.

Legacies were good things. It was because the Berserk Dragon Fist seemed as if it was imprinted into his soul and there wasn't a need for him to study too hard into it. Thus, there wasn't much room for improvement nor any unfamiliarity. It would be as if he had practiced it for several ten thousands of times.

Qing Shui gave it some thought. If he were to strengthen his body's toughness and then tried hard to raise the level of his Windwhisk Willow to increase his speed, the prowess of the Berserk Dragon Fist would become increasingly strong. By then, one might be able to become like a humanoid Berserk Dragon.

Qing Shui yearned for that power as well. After all, which man wouldn't like to have overwhelming strength and power? All this while, he had focused more on control skills. His output abilities would only be considered mediocre. Right now, with the Stellar Transposition and the Flying Sword, he was able to make up for the difference. However, both of these didn't have that much relation to himself. Moreover, the Stellar Transposition could only be used once every five minutes while the Flying Sword primarily focused on sharpness and speed.

The addition of Berserk Dragon Fist felt very exhilarating for Qing Shui. He finally had a fist technique which would allow him to engage in close combat with others.

Qing Shui regained his senses and noticed that the others were bandaging their wounds, taking care of their comrades' corpses, or drinking water. He walked toward Chi Yang and his wife. The two ladies were nearby as well.

The battle was over and many people were in dire straits. However, the two ladies still looked clean and untainted. It didn't appear as if they had just experienced a battle.

The prowess that Shen Huang had displayed during the battle earlier astonished many people. She had received the Divine Flower Inheritance and thus no one had been able to get close to her during the battle. Moreover, she had an adolescent Rainbow Divine Dragon next to her. As for whether the others knew it was a Rainbow Divine Dragon, it was of little importance.

"Brother, let's go to the Chi Clan. I wonder if the previous Chi Clan is still around." Qing Shui looked around and said.

Several decades had passed, and they had no idea if the building was still around. If it was, then who did it belong to now?

"Mmm. I really don't know how to thank you." Chi Yang pat Qing Shui's shoulder and said.

"I don't know what to make of our relationship previously. Chi Ao and Chi Feng are my foster children, so even if taking them into consideration, we'll be considered brothers. If we're brothers, then don't stand on ceremony. Be more carefree," Qing Shui smiled and said.

"If I were you, I would be carefree too. I hadn't been helped by someone else like this. To be helped when I'm in so much despair that I almost can't get back on my feet... That feeling isn't something that can allow you to be as carefree as you want." Chi Yang said bitterly with a little smile on his face,

"I understand. But now that everything is resolved, you can be carefree at last. Just treat me as your best friend or brother." Of course Qing Shui understood this. If one was indebted to someone else, it would be hard to feel carefree.

Chi Clan!

The previous Chi Clan's manor was still around. It was a huge and rustic building. When Chi Yang stood before the place and looked at the rustic gates, he teared uncontrollably. He wasn't the only one. Many people also couldn't hold back their tears.

It had been close to forty years. They hadn't expected that they would be able to return to this place one day, back to the Chi Clan.

Chi Yang looked at the door of the gate. He walked over slowly and pushed open the heavy door. Back then, many people had died here. It could be due to this reason that no one lived in this great manor. Of course, only those few forces could afford to live in such a great manor, but they had their own manor anyway. If you were to let them stay in the Chi Clan's manor, they wouldn't feel at ease.

Chi Yang pushed open the doors, walked in, and a desolate scene was presented before his eyes. Wild grass grew everywhere and a lot of them was taller than that of a person. However, there would occasionally be rats or other things running past. The pond in the courtyard had already dried up, only dried up grasses could be seen inside.

Everyone took out some weapons and started cleaning up the place. There was strength in numbers. With there being over 100 of them, all of them being powerful warriors, it was a breeze to clean up the place.

Under ordinary circumstances, they wouldn't have to do such chores. However, things were different now and doing these chores seemed to be a kind of things for them to enjoy. After all the weeding and cleaning up, the place was taken care of very quickly. Some people started to fill up the pond with water, and many people started to clean up the interior of the manor.

Qing Shui and the two ladies didn't help out. Qing Shui held the two ladies' hands and looked around, starting to set up formations. This place might become a battlefield. Qing Shui thought of that Divine Rain Sect. Moreover, the Demonic Elephant Sect, the Divine Buddha Sect, and the Wu Clan were still existing. The She Clan was the only group which was considered to have landed in a similar plight as the Chi Clan back then.

Not only did they clean up, but there were also people who purchased a lot of flowers and grass to plant in the garden. Some things which needed to be replaced were also replaced. After all, the fighting back then had damaged quite a number of things.
