Chapter 2311 - Lower Three Regions' Dictator, The Divine Rain Sec

The Chi Clan's manor wasn't very big, but it definitely wasn't small at all. There were five main courtyards, each of them having two rows of courtyards, and each row having over 100 smaller courtyards. The two rows at the back had even more. Taking these into consideration, the Chi Clan's manor was really not small. After all, the manor was like a compound with a few houses, having ponds and pavilions, and the size of each small courtyard was about the size of 1.5 mu.

The only reason that it was considered small was that in comparison to the other clan's manors; it was indeed more on the smaller side.

Qing Shui and the two ladies were given a courtyard at the back. In a rich clan's manor, the deeper the location was, the higher the person's status was. The ones staying at the furthest back tended to be the clan's Old Ancestor since it was quiet.

The others were assigned places to stay as well. Not everyone got assigned a courtyard for themselves. This place had been the Chi Clan's main manor in the past and thus, the people who stayed here were all from the Chi Clan's main branch. For most of it, one family would be given a small courtyard.

The Chi Clan had had other manors in the past that was even bigger than the main manor itself. They were primarily used to house people who had guarding roles.

However, with the number of people there were now, even if everyone were to be assigned with a small courtyard each, they would still be unable to fill up one main courtyard.

Everyone felt very tired, but they also felt very excited and none of them wanted to rest. Therefore, many people gathered together to chat about the past, the present, and the future.

"It's already over for the She Clan. I wonder if the clan's head will take the initiative to deal with the Divine Buddha Sect. The Wu Clan actually wasn't that involved in the matter back then, but I have no idea why they were involved this time around. As for the Demonic Elephant Sect, I really have no idea whether they had participated back then or not." An old man sighed.

"The Divine Buddha Sect is a massive force and it's said that they have a powerful Guardian Beast. They'll probably come for us before we even take the initiative to look for them."

"Let them come if they want to. We aren't afraid of them. We don't have many people, but Mister Qing is even more powerful compared to any Guardian Beast." A young man said excitedly.

"That's right. I wonder what's Mister Qing's background. Why is his cultivation so powerful and why does he have such terrifying abilities? If it wasn't for Mister Qing, we'll have many more casualties. Even if we managed to wipe out the She Clan like that, we would probably all be dead as well," exclaimed one other guy.

"This isn't something that needs to be considered. It's for sure!"

"I heard that Mister Qing is the adoptive father of Young Master and Young Miss," said Someone.

"Oh? You're saying that Young Master and Young Miss are both still alive?!" Someone asked in surprise.

"He's right!" At this moment, Chi Yang and his wife walked over, smiling. Right now, one-third of the people present were all from the Chi Clan's main branch while the rest had all been bestowed with the surname Chi as well. Everyone who had come back to take part in this battle were now all considered a member of the Chi Clan.

"Clan head, when are we going to fight the Divine Buddha Sect?" Someone asked agitatedly.

"We'll take it slowly. Right now, our Chi Clan has appeared in the Eight Desolates City once again. We're going to let the Eight Desolates City know that our Chi Clan is back and we're going to announce what had happened back then." Chi Yang smiled and said.

News had already spread out back when they were fighting at the She Clan's manor. For cultivators of their level, it took only a small Heavenly Technique to let their voice spread throughout the entire Eight Desolates City. Of course, the requirement was for one's abilities to reach Beihuang Fan's and Shen Huang's level.

When it was time for their meal, Chi Yang went to look for Qing Shui to join them.

Qing Shui brought the two ladies along to join Chi Yang and his wife. Third Uncle Chi, Fifth Uncle Chi and the others all ate together. Hao Tian, Zi Ye, and some members of the Chi Clan were also chatting while eating together.

"Brother, do you know of the Divine Rain Sect?" Qing Shui asked.

"The Divine Rain Sect?" Chi Yang's countenance changed and nodded.

"Is the Divine Rain Sect very strong?" Qing Shui asked, a little puzzled.

"They are the dictators of the Lower Three Regions. They detached themselves from the world and are a massive influence. Even the Divine Buddha Sect isn't fit to polish their shoes. The Divine Rain Sect is the Guardian of the Lower Three Regions, and they are the ones who grasp the protection rule." Chi Yang said.

"Protection rule?" Qing Shui was stunned.

"It's a type of Heavenly Technique. There's a unique place in the Lower Three Regions. If there's an expert, who is much stronger than those in the Lower Three Regions, comes on a killing spree, the Divine Rain Sect can move themselves and the opponent to that unique place where both parties' strength would be constrained. This is what the Protection rule is." Chi Yang explained.

"There's such a regulation ability?" Qing Shui was very surprised.

"Mmm, otherwise, who would be able to handle those people from the Middle Three Regions and the Upper Three Regions?" Chi Yang said.

"I heard from She Dao that Wu Xingyun is the youngest disciple of an Elder in the Divine Rain Sect."

Chi Yang's countenance was a little pale, and the green veins on his hand popped up a little. He grew up in the Lower Three Regions and in the Eight Desolates City. Of course, he knew how terrifying the Divine Rain Sect was. It was an unrivaled existence in the Lower Three Regions which was like that of a god. If the Divine Rain Sect wished to wipe out the Chi Clan, it would be as easy as moving their little pinky.

"If we really killed someone from the Divine Rain Sect, then we're probably goners." Chi Yang smiled bitterly, no longer feeling as relaxed as he had been earlier.

"Alright, Brother, don't worry. It'll be fine if the Divine Rain Sect doesn't come to look for us, but it won't matter even if they were to come. However, if they are unreasonable, then we'll just beat them up as well. We've beaten up quite a number of people anyway and adding them wouldn't make much of a difference." Qing Shui started to console Chi Yang.

"Brother, I know that you're very strong, but the Divine Rain Sect is a terrifying existence here." At the mention of the Divine Rain Sect, Chi Yang felt very bitter.

"Things have already come down to this, thus, there's no use to think too much into it. Don't worry, I won't do things that I have no confidence in. I've asked an expert before. I don't know if the person was one who was from the Lower Three Regions, the Middle Three Regions, or the Upper Three Regions, but he said that I'm capable of carrying my weight around in the four lowest regions." Qing Shui smiled and said.

Chi Yang had blind confidence in Qing Shui. However, the impression that the Divine Rain Sect had in his heart was too deep. This was why he reacted like this. Thinking about it, Chi Yang knew that previously he had been too deplorable and too cowardly.

At the thought of this, with a tinge of embarrassment, he said, "Brother, I'm actually not scared of anything now. Although we've yet to fully complete our vengeance yet, it's mostly been dealt with. Even if I were to die now, I won't feel too upset. I'm just afraid that I'll get you in trouble."

"You guys can't die. Chi Ao and Chi Feng have been lonely for too many years. They still need to return home." Qing Shui smiled and said.

At the mention of Chi Ao and Chi Feng, the eyes of Chi Yang and his wife were filled with yearning. Their children were still infants back then, but now they had already grown up. Chi Yang and his wife had no idea how their children had tide through the years, but although they didn't say anything, the yearning the couple felt really drove them crazy.

The world was very big, and they hadn't expected to be able to reunite with their children one day. Heaven had really treated them well...

The next day, the Chi Clan prepared to make a move again, but they hadn't expected the enemies to be faster than them—the Divine Buddha Sect, the Demonic Elephant Sect, and the Wu Clan.

This time around, more people from the three forces came. There were over 100,000 of them and all of them were experts. They surrounded the Chi Clan's manor. With there being over 100,000 people, it meant that each of the forces had called out all of their experts. And considering how the Chi Clan only had less than 200 people on their side, the three forces were clearly out for blood...

Looking out from the Chi Clan's manor, their surroundings were filled with people. Even though they were all feeling extremely confident, they still felt a little gloomy. There were too many people on the opposing side, so many that the numbers could drown their Chi Clan.

"Chi Clan, you guys force us time and time again. Today, we'll settle this once and for all. There's no need for you to spread any more rumors," said an old man who appeared very dominating.

Chapter 2312 - Overwhelming Army, The Battle Has Started

"Chi Clan, you guys force us time and time again. Today, we'll settle this once and for all. There's no need for you to spread any more rumors."

This dominating old monk was the Divine Buddha Sect's sect lord. As for whether he was the strongest existence in the Divine Buddha Sect, it was something which no one knew. However, just his status as the Divine Buddha Sect's sect lord was sufficient as a proof of strength.

Chi Yang looked at this person who should be an old man. He had no hair nor beard, and thus looked a little young. However, the words that he said made him sound like an insolent, retarded old man.

"Divine Buddha Sect, when I see you again and hear what you say, I feel that the words 'Divine Buddha Sect' are very disgusting. The Chi Clan forces you time and time again? Did we force you to wipe out our Chi Clan? Did we force you to go all the way to the Nine Continents Star Ocean Domain to remove all the remnants? You're already so old, so why is it that the words you say all sound like crap? Have you been living all your years as a dog?" Chi Yang asked coldly.

Qing Shui was stunned. Although Chi Yang's character wasn't especially mild, he was still considered to be a more gentle kind of a person. Qing Shui felt that Chi Yang wasn't really the type to quarrel or scold others. However, Qing Shui discovered a new thing. A person who was extremely infuriated would be filled with the power of fury, and that power would be included in the words they said.

When a person was infuriated, their blood and energy would surge. At this moment, the power of their blood would increase by 20%. This was the same even for ordinary people. This kind of power wouldn't be factored into consideration to their overall strength. This power was a little hard to explain and was also extremely unstable. Sometimes, it could only last for one attack before the person returned to their original state.

"He's just an old dog, a shameless old dog."

"The Divine Buddha Sect had also once been an embodiment of justice, but look at what they have become now. Their ancestors who had died are probably waiting down there to teach them a lesson."

"This is what they mean when one does shameless things but yet still wants to be respected. I now know what a hypocrite is like. Looking at him makes a villain appear especially cute." Hao Tian laughed out loud.

Qing Shui didn't curse but just continued to look at that four-eyed black toad. Through his Heavenly Vision Technique, Qing Shui noticed that this was a pure-blooded ancient demonic beast. It was very powerful with a strong blood lineage. Not only did it have a strong body, but it also excelled in sound waves and poison attack. It was also skillful in both the water and earth elements.

This four-eyed black toad was too strong. This made Qing Shui feel that this four-eyed black toad should be the Divine Buddha Sect's Guardian Beast.

"Young man, you're too impolite. Didn't your senior tell you to respect your elders?" The old man wasn't anxious and put up an appearance as if he was teaching juniors a lesson.

"Since you want to settle things, then I'll let you have your wish." Chi Yang couldn't be bothered to continue the crap talk with the old monk.

Reverend Human Buddha stared at Qing Shui with an extremely intense vicious glow in his eyes. He no longer appeared as calm as he had been in the past.

"Brother, when we start fighting later, be careful of that four-eyed toad. Don't charge on too fast and be stable. You don't have to worry about the other things." Qing Shui said softly to Chi Yang.

"Alright! What should I do later?" Chi Yang asked.

"You can just fight that old monk then. I'll help you to confine him." Qing Shui said.

...

"Alright, then let's do it. Buddha Lingering Chant!" The image of a Buddha appeared before the old monk and concurrently, a faint Buddhist chant rang out in the surroundings. This was like the light rays at dawn, where a mysterious power rose in the surroundings. The will of battle for the people on the opposing side was very high, and even their strength had been raised by a lot.

"Remember the way to enter and leave the formation. Don't overdo things as they have more people on their side. Once you see the situation isn't good, enter the formation first. You'll be safe then." Qing Shui said to everyone. Those people who were seriously injured couldn't take part in the battle, but all of them stood in the formation, watching. They hoped to be able to join in the fight.

The opposing side had surrounded the entire Chi Clan. After all, they had too many people on their side. Qing Shui came out from an exit of the formation. He had already applied formations, and the one he had used was the Cone-shaped Formation?. He and Chi Yang stood at the very front, together with Qing Shui's Dragon Slaying Beast, Diamond White Tiger King, and other demonic beasts.

Qing Shui wanted to make use of his powerful defense to make an opening on the opponents' side. Therefore, the moment he headed out, he applied weakening techniques on the enemies repeatedly.

And then, he instantly killed one of the experts with a Stellar Transposition.

Buddha Wisdom Seal!

Qing Shui's Buddha Wisdom Seal hit the old monk. This old monk also had a very terrifying strength. Qing Shui performed his movement technique and then the Berserk Dragon Fist. The Nine Continents Mountain kept plunging down, and the Dragon Slaying Beast kept on charging forth while working together with Qing Shui.

Long Zhu'er's huge body also darted about rapidly, and there were countless demonic spiders around her.

Kill!

When Qing Shui's side came out, the opponents made their moves as well. The sea of humans charged out toward Qing Shui. However, even though they had strength in numbers, there weren't many of them who fought directly. After all, there weren't that many people on Qing Shui's side.

Boom boom...

Loud clashing sounds kept ringing out and streams of brilliant glow kept exploding in the sky. The old monk and some others led the fight, and Chi Yang waved his Scarlet Flaming Saber and fought against the old monk.

Thankfully, with the strengthening effects of Qing Shui's skills in addition to Qing Shui having weakened the old monk, Chi Yang managed to be on the upper hand.

The fight went on and the opposing side suffered great casualties. The Nine Continents Mountain kept on dispersing their groups. Qing Shui didn't let the people from the Chi Clan charge out too far in case they weren't able to return to the formation in times of need. If that were to happen, there wouldn't be enough people on the Chi Clan's side to activate the Killing Formation.

After the weakening effect, many people were unable to take Qing Shui's current Berserk Dragon Fist.

Windwhisk Willow!

Pa!

A terrifying sharp arrow struck the head of a member of the Chi Clan, causing the person's head to explode on the spot. A bit of chaos immediately spread around the people.

Qing Shui rapidly searched through the crowd. Most people's arrows couldn't be this fast nor would they have such terrifying power. A person with such a capability would already be considered a marksman, and there wouldn't be many of them. Otherwise, the Chi Clan would be annihilated instantly.

Qing Shui soon saw a man in golden armor; he was holding a huge bow. He appeared to be middle-aged with a tall and muscular build, and he was almost 1.5 times the height of ordinary people.

Someone from the Demonic Elephant Sect!

The people from the Demonic Elephant Sect had a tall stature, just like little giants. They had the blood lineage of huge elephants in them, rumored to be that of the Divine Elephant. If someone amongst them had really revived the true Divine Elephant's blood lineage, then the Demonic Elephant Sect would be able to rise up once again.

Right now, the man had drawn his bow, aiming toward Chi Yang who was in the midst of battle.

This wasn't all. Qing Shui saw that the four-eyed black toad's huge body suddenly bulged up, and it instantly became bigger, like a small mountain.

Nine Continents Mountain!

Qing Shui charged out directly toward the man in golden armor.

The Nine Continents Mountain put up an obstruction before the big toad. It was also blocking the view of the man in golden armor.

Boom!

The huge toad opened its big mouth and swallowed up the Nine Continents Mountain. Croak croak...

And at that moment, the man in golden armor released the bow, and the sharp arrow shot out with a brilliant glow and lethal aura.

Divine Weapon Flying Sword!

Qing Shui controlled the Divine Weapon Flying Sword with his mind, sending it out to clash with the arrow's sharp tip.

Boom!

An explosion occurred. The material of that arrow was naturally not as strong as that of Qing Shui's Flying Sword. Moreover, the current Divine Weapon Flying Sword was at a very high grade. Its speed and abilities were now a lot stronger than what it was before.

Dragon-capturing Hands!

A huge dragon figure locked onto the man in golden armor. At that moment, Qing Shui had also arrived next to the man. After all, the Windwhisk Willow allowed him to move very quickly.

Chapter 2313 - The Terrifying Big Toad, The Means to Tackle It

Dragon-capturing Hands!

When the man in golden armor was caught and noticed that he couldn't move, his countenance changed drastically. And when he saw Qing Shui appear next to him, his facial expression turned even paler.

Berserk Dragon Inch-Force Explosion!

Qing Shui struck out a simple but violent punch onto the throat of the man in golden armor.

Kacha!

Qing Shui's silhouette disappeared from the spot, and he returned to where he had been earlier. It was a long story, but he only took a moment, as he couldn't leave for too long. Otherwise, the place would definitely be in a state of chaos.

The opposing side also had many means. The Chi Clan had already suffered from five casualties, two dead and three injured, where one of them was seriously injured. Fortunately, all three injured parties had already returned to the formation to the Chi Clan.

The four-eyed black toad that had swallowed the Nine Continents Mountain seemed to want to digest it. It kept on releasing loud croaks, and strong gales formed in the sky, causing many people to be unable to stand with stability.

It was only now that many people knew that this huge black toad was a terrifying existence.

Qing Shui wasn't worried that the Nine Continents Mountain would be digested. It was a Supreme Treasure and the Nine Continents Mountain's weight was very terrifying. Therefore, he didn't plan on bringing it out for now. The Nine Continents Mountain which had become bigger caused the four-eyed black toad's body to bloat. It let out an agonizing cry, and its body became a lot heavier and clumsier.

After looking at the vast difference in numbers between both sides, Qing Shui brought out four huge Black Ice Divine Worms.

This was a great cost.

The moment the four Black Ice Divine Worms came out, the temperature instantly dropped by several hundred degrees. Even the clouds in the sky were frozen. Only powerful cultivators would be able to withstand this temperature. Ordinary people would die instantly.

The Black Ice Divine Worms were powerful to begin with, let alone that these four had been strengthened from the moment they were still in their eggs. Since then, they had continued to become stronger. And even though their bodies had already matured, their age was still quite young.

All these weren't important. Their powers had already matured, and their condition was at their peak as well. The Realm of the Violet Jade Immortal wouldn't affect their lifespans in the outside world.

The huge Black Ice Divine Worms kept on moving about, spewing out snow-white air. These air were great toxins-the Black Ice Cold Poison. These were the Black Ice Divine Worms' essence poison, and even cultivators wouldn't be able to withstand them. Back then, Shen Huang was already very powerful, but she wasn't able to withstand the Black Ice Cold Poison either.

The Black Ice Divine Worm's toxin that Shen Huang had encountered was something that wasn't comparable with the toxins of Qing Shui's Black Ice Divine Worms. The differences were comparable to the distance between heaven and earth. The one that Shen Huang had encountered was already very terrifying, so there was no need to elaborate more on how terrifying Qing Shui's Black Ice Divine Worms were.

Death counts rose in many areas.

With the inclusion of the Black Ice Divine Worms, the situation became a lot easier to handle. There were too many people on the opposing side, but there weren't that many people who had taken part in the battle due to the restrictions of space. Therefore, at this point in time, it was a test of endurance for the Chi Clan.

Endurance wasn't an issue. It was because Qing Shui had already told the people from the Chi Clan, "If you're tired, then head back to get a rest. Come back again after you're rested."

The enemies kept on falling, and the corpses at the bottom had already piled up into a small mountain. The aura of blood filled up the place, but the ice that had frozen up the air kept the bloody scent from spreading around.

The four-eyed black toad still continued to croak. Qing Shui had already transformed the Nine Continents Mountain to its biggest state. However, he was still unable to cause the toad to burst. It seemed that it was impossible for him to kill this huge toad in that manner.

In such a situation where there were too many enemies, it would be best to first kill the person in the lead. Without the leader, the opponent's battle prowess would be greatly affected.

The Wu Clan's head had already been killed by the two ladies, and they were now fighting against the few Wu Clan's Elders or Custodian level experts.

The Demonic Elephant Sect's head was still around. He appeared to have a strong head, and his battle prowess was very strong. Hao Tian and the others were barely able to keep up against him.

Qing Shui got the Dragon Slaying Beast to head over. Right now, the Dragon Slaying Beast wasn't like how it used to be. It should be able to handle the situation right now.

Croak!

A loud sound rang out, and the four-eyed black toad finally spewed out the Nine Continents Mountain. Then, its huge figure went crashing toward the Nine Continents Mountain. Its huge body was like a black mountain peak and was a lot bigger than that of the Nine Continents Mountain.

A strong gale blew all of a sudden, followed by the aura-like black fog behind it.

Poison fog!

Qing Shui had already used his Area Dominance. The people on the Chi Clan's side was bathed in a hint of snow-white silver light, blocking the black fog outside.

Boom!

The Nine Continents Mountain was sent flying away. Qing Shui had no idea if the huge toad was trying to destroy the Nine Continents Mountain or just trying to vent its anger.

After sending the Nine Continents Mountain flying, the huge toad's green eyes had now turned slightly red. It now went charging toward Qing Shui, opening its large mouth. A pitch-black liquid poured out toward Qing Shui and his surroundings.

At almost the same time, the huge toad's arm smashed out toward Qing Shui.

Flying Sword!

Qing Shui didn't dare to be too careless. This huge toad was very strange. Putting up his hand, a golden glow shone, blocking the black liquid out. When the glow came into contact with that liquid, an intense sizzling sound rang out, as if the glowing light was being melted down incessantly.

Pfft!

The Flying Sword cut into the four-eyed toad, but its size was too different from the huge toad's body. It wasn't even comparable to using a needle to poke an adult man. It was like using a needle that was as fine as a strand of cow's hair to poke someone, where not much damage could be dealt.

Boom!

Qing Shui was stunned to see that he was sent flying by this huge toad.

Earth Thorn!

Qing Shui waved his hand and an Earth Thorn rose up from under the huge toad.

Pa!

The Earth Thorn was unable to pierce through the huge toad and it shattered immediately. Qing Shui was skilled in the earth element, and he was clear about the Earth Thorn's prowess. This Earth Thorn was many times tougher than high-grade metal. Despite so, it was still not as tough as the huge toad's physique.

Croak!

The huge toad cried out angrily as if it was feeling infuriated that it had not knocked this young man to death. It opened its huge mouth, and its large tongue suddenly shot out toward Qing Shui. It was extremely smelly and the viscous liquid dripping from it was of dark gray color. The tongue was several meters long and looked very disgusting. If one were to wrapped in it, even if they weren't dead because of the poison, they would die of disgust.

Suddenly, Qing Shui recalled that he still had the "Exploding Crystals". Without a second thought, he picked up a few of them and tossed them into the large toad's mouth. Feeling that this wasn't enough, he then applied Area Dominance onto its mouth as well.

Area Dominance could negate poison and also had other effects. This four-eyed black toad was of extreme toxic nature and if the toxin was negated, Qing Shui wondered if this would deal some damage to it.

Boom boom...

A loud explosion rang out, causing the huge toad's black body to take on an even darker shade. It kept on croaking furiously as though in great pain. However, Qing Shui realized that its pain wasn't because of the Exploding Crystals but was due to the Area Dominance.

Earlier on, the Nine Continents Mountain had been eaten and gone into its stomach. This meant that the capacity of its mouth and stomach were also very big and strong. Therefore, these Exploding Crystals wouldn't have dealt any harm to it. On the other hand, the Area Dominance had managed to cause it to let out agonizing cries. The pitch black color of its body seemed to have become a little lighter.

This change left Qing Shui stunned for a moment and then he smiled happily. He charged up right to the huge toad, his hands becoming translucent like jade, emitting a holy glow.

Saintly Hands!

Berserk Dragon Fist!

Qing Shui abruptly punched out onto this huge toad's body.

Pa! Pffft!

A sound as if something had burst rang out. Qing Shui looked at the spot he had just hit and was stunned.

Chapter 2314 - Complete Victory, The Divine Buddha Portrait Is the Ancient Drawing of the Divine Realm

Pa! Pffft!

A sound as if something had burst rang out. Qing Shui looked at the spot he had hit and was stunned.

Qing Shui looked at the spot he had struck. A small part had caved in, and it was the size of 100 million cubic meters. It was in a bloody state.

The huge toad's body was very big, but the caved in part wasn't considered small either.

The huge toad let out an agonizing cry. The wound wasn't considered big, but that heart-piercing pain was something that it couldn't bear. It was a pain that went straight down to its bones, as if the pain was going to tear it apart, like the feeling of having a bamboo skewer pierced into one's nails. Its huge body couldn't help but shiver.

It was too painful. This power made the huge toad feel scared. It was an extremely toxic creature, a demonic beast of the darkness element. Its weakness was sacred and purification power. And at this moment, Qing Shui rapidly struck out the Berserk Dragon Fist like a violent storm.

Croak croak...

Agonizing cries rang through the skies, the aftershock blowing away all the clouds. Qing Shui's punches struck the toad's flesh every single time, all aimed at the spot within a range of ten square meters. Right now, he had beaten up the huge toad's body so much that its organs were exposed.

Qing Shui had initially been prepared to use the Stellar Transposition, but he now felt that there wasn't a need for it. He had found a more effective way to fight against the huge toad. Otherwise, with just the Berserk Dragon Fist alone, he wouldn't be able to beat up the huge toad into such a terrible state.

Croak croak!

The huge toad, which was still letting out agonizing cries, unleashed its black auras. It no longer dared to try to swallow Qing Shui. Its powerful defense that it was so proud of was so weak that it couldn't even take a single blow from this human. The other party's power was something it had the most reservations toward as if it had encountered its natural enemy.

The huge toad's agonizing cries took the old monk by surprise, and he couldn't help but look toward it. He entered a state of tenterhooks. The huge toad was an existence that the Divine Buddha Sect relied heavily on. How could it possibly be so badly beaten up by a young man?

This moment of distraction caused him to suffer a slash on the arm; a part of his arm had been chopped off by Chi Yang! The old monk felt apprehensive. If the fight were to continue, he would definitely die. At this moment, a strand of spider thread entangled his ankle.

The old monk saw a huge spider, and he slashed out his Diamond Shovel toward the thread.

However, the result stunned him even more than before. To think that his Diamond Shovel didn't manage to break the spider thread. During the moment of surprise, another strand of spider thread entangled his other ankle.

The old monk was scared out of his wits. He hadn't been that scared earlier because he believed that he would be able to break the spider thread. However, when he discovered that this spider thread was so sturdy, he seemed to have already predicted what his future holds.

Chi Yang's saber kept slashing downward. He, who had been on the upper hand to begin with, was now able to easily get rid of this old monk. The latter had lost an arm, and both of his legs were restrained. If Chi Yang was still unable to take him down, then it wouldn't be justifiable.

With the leaders dying one after another and the appearance of the four Black Ice Divine Worms that were like massacre machines, many people's will was shattered and thus they started to run. Earlier on, the reason why no one had escaped was due to their pride; they didn't want to be the first one to do so. But now that there were people taking the lead, what were they still waiting for?

The battle continued on for very long and none of the leaders managed to escape. Quite a number of people ran off. After all, there were so many of them, and it was impossible for Qing Shui to pursue every single one of them. About 10% of the gangs were killed and most of them had been killed by the Black Ice Divine Worms.

Even though the Chi Clan had less than 200 people on their side, they managed to kill not less than 10,000 people. They faced over 100,000 opponents but they still won. It was really unbelievable.

Chi Clan had several tens of casualties, but this number could almost be neglected. As long as they didn't die, Qing Shui would be able to save their lives. There weren't that many who had died. All in all, this battle was a great victory for them, and this established a foundation for the Chi Clan in the Eight Desolates City.

Both the Divine Buddha Sect's sect lord and their Guardian Beast had died. The Reverend Human Buddha had also been killed by Qing Shui. The Reverend Human Buddha had used the Golden Shield Talisman to escape previously, but he wasn't as lucky this time around. The Wu Clan was dealt a great damage and regardless if they were wiped out or not, they were no longer capable of being one of the top-notch forces in the Lower Three Region.

The Demonic Elephant Sect was in a similar state. There had been a reshuffle of the forces in the Eight Desolates City. The Chi Clan had become a unique existence, and there were even people who felt that they could be a match for the Divine Rain Sect.

No one knew why someone spread this rumor. Was it just for the sake of comparison or did they actually want to make use of the Divine Rain Sect to get rid of the Chi Clan?

Qing Shui didn't give a lot of thought about this. Regardless of how others see the Divine Rain Sect, he didn't give a damn. He hoped that they wouldn't come to create trouble for him. Otherwise, he wouldn't mind flipping the Divine Rain Sect upside-down.

Chi Yang was feeling very happy now. The Chi Clan could now be said to have gotten their vengeance.

Every member of the Chi Clan offered incense and prayer to their ancestors. At this moment, all of them felt very agitated. Several decades had passed, with them thinking that their Clan was completely annihilated, not capable of having their revenge. How could they possibly not feel agitated now?

This time around Qing Shui once again was elected as a Guardian of a clan-the Chi Clan. Qing Shui wasn't the only one. The two ladies, as well as Hao Tian, had also been given the title of Honorary Elders. Qing Shui was the only one to be given the title of Honorary Guardian.

Qing Shui didn't reject this offer. In the future, the Chi Clan would be a place of lodging when he was in the Lower Three Regions or the Middle Three Regions. He could even help the Chi Clan develop, bringing them into the Middle Three Regions or even the Upper Three Regions. Even if he were to join the Divine Palace in the future or if the Divine Palace were to move over, they could help to take care of each other.

The corpses were left to the others to clean up, burned if there was a need to. Very soon, the place returned to its peaceful state. However, the Chi Clan's moment of peace wasn't long. After a while, quite a number of forces came to pay them a visit. Many major forces of the Eight Desolates City came by, and for most of them, their clan's head had come personally.

Without realizing it, several days passed by. What surprised Qing Shui was that there wasn't any action taken by the Divine Rain Sect. However, quite a number of Chi Clan's branches had returned. A lot of them were from the Chi Clan of old where only the main branch had been killed.

The clan was mainly supported by the people in the main branch, but a great clan or force would still need a lot of manpower to manage their clan. Therefore, there would be many side branches, and these people had slowly returned.

The Chi Clan's businesses were also recovering slowly. Only that the main branch had fewer people now, causing the Chi Clan's manor to appear a little spacious. It would probably take very long for them to regain their original number.

It wasn't an issue for there to be fewer people. As long as they were strong, just a few people would be able to make a stand for themselves. Chi Yang and his wife had gotten a lot stronger, but they still weren't the strongest in the Eight Desolates City. This was unless Qing Shui continued to stay here to reinforce them with his control abilities.

It wouldn't be an issue for Qing Shui to stay for a short while, as Qing Shui would be staying in the Lower Three Regions for the time. But what were they going to do in the future?

Many of the things in the Divine Buddha Sect's and She Clan's treasure chambers had been brought to the Chi Clan, filling up their storage. There were quite a number of good things there. There had also been many things which they had obtained from the battle, including quite a number of good stuff.

One of them was the Divine Buddha Portrait, something which almost caused the Chi Clan's annihilation. It was now in Qing Shui's hands.

It was a golden color drawing that was on a piece of golden beast hide. It emitted a sacred aura. Although Qing Shui had no idea how long ago this drawing had been created, there was still a very strong aura coming from it. This showed that this beast hide wasn't something simple.

The drawing was one of a big golden Buddha that had an upright posture and appeared awe-inspiring. It was as if the Buddha's body emitted a golden light. The Buddha sat down cross-legged, looking a lot like the Tathāgata from Qing Shui's previous life. The Buddha sat in the air, surrounded by clouds. However, it appeared like a phantom image. Although it was a drawing, one could sense how big the Buddha was. The clouds around the Buddha seemed very small.

This was a drawing that could stabilize one's spirit and realm, like Beihuang Fan's Ancient Drawing of Divine Realm. However, the realm of this "Ancient Drawing of Divine Realm" was higher.

Chapter 2315 - Three Treasure Pagodas, Divine Rain Sect Comes Knocking

Qing Shui was a little agitated now. He had already reached the ninth level of the Cave Realm and had achieved the Gold Refinement for seven of his caves. He hadn't made any breakthroughs since then.

Although he yearned to reach the tenth level of the Cave Realm, it was a legendary realm after all; it wasn't something that could be forced. He also hadn't heard that the peak was absolutely at the tenth level of the Cave Realm. Qing Shui only wished to wait for all of his nine caves to turn into gold before obtaining the last crucial breakthrough.

This Divine Buddha Portrait was useful, or rather, very useful to Qing Shui. However, it didn't mean that this Divine Buddha Portrait would be able to let Qing Shui attain a breakthrough to achieve ten caves. However, it could help to raise Qing Shui's realm. As for the actual effects, it would be a test of Qing Shui's comprehension.

Chi Yang gave every treasure for Qing Shui to look at, letting him take whatever he wished. However, there weren't many things that could pique his interest. Although this was the Lower Three Regions, Qing Shui would hardly care about their treasures.

After Qing Shui looked over the things, he helped Hao Tian and the others choose some stuff. Some of the items were veritable treasures, and ordinary people wouldn't know how to use them. They would mostly be collected as strange items.

For example, there were actually three Heavenly Fate Treasure Pagodas. All of them hadn't been unsealed before; they seemed old and rustic.

These were good items and the three of them looked exactly the same. They were all Parry Heavenly Fate Treasure Pagodas. The two ladies and himself, each already had a set. Qing Shui gave it some thought, and after some consideration, he let Chi Yang, the Mighty Strength Battle God, and Hao Tian to bind each of the Pagodas.

If the two ladies didn't have the Parry Heavenly Fate Treasure Pagoda, he would naturally give the chance to the two ladies. If there were good things, they would naturally have the priority. Other people wouldn't be able to say anything.

The Mighty Strength Battle God and the Beast King Battle God joined his Divine Palace at the same time. The same went for Hao Tian and Zi Ye. Therefore, when Qing Shui got his hands on good stuff, he would try his best to distribute it fairly. As for the Chi Clan, he naturally had to give them a share, too.

Qing Shui was still wondering about how he should make the Chi Clan stronger. Thankfully, the Parry Heavenly Fate Treasure Pagodas came up at the right time. It would actually be even better if they came up earlier, as the earlier battle would have been won even more easily.

The Mighty Strength Battle God was like a tiger that had gained wings; his might increased a lot after he got the Parry Heavenly Fate Treasure Pagoda. This ability to fend off attacks was too terrifying. Even attacks that ignored one's defenses could be blocked off. This wasn't a form of defense, but negation.

Qing Shui always had a Parry Heavenly Fate Treasure Pagoda, but he knew that it was a waste for him since his attacking prowess was too weak. At the very least, at his current level, he didn't feel content with it.

When they felt the powerful ability of the pagoda, the three of them almost couldn't believe it. Those small pagodas were definitely Divine Artifacts. Chi Yang could block off an attack of over 1.6 trillion Dao Force. What kind of concept was this? Even if he were to fight against that old monk again, even without Qing Shui's support, the old monk would not be able to do anything to him.

As long as they couldn't do anything to Chi Yang, then there wouldn't be any problems for the Chi Clan to establish their standing in the Eight Desolates City. No one would go and create trouble for them.

Both the Mighty Strength Battle God and Hao Tian were very agitated as well. The Mighty Strength Battle God had always admired Qing Shui. Qing Shui had cured him of his condition, allowing his awakened powers to increase from 20% to the current 80%. The medicinal pills and other things thereafter, allowed his strength to increase by many a fold.

Right now, with this little pagoda, he could become an unrivaled existence amongst people of strength similar to his.

It wasn't that Hao Tian couldn't accept Qing Shui; otherwise, he wouldn't have joined the Divine Palace. During this period of time, he knew that the difference between himself and Qing Shui was inestimable. Jealousy was something that would only exist between two people who didn't have too vast of a gap, but one party had a lot more luck. An ordinary family would be envious of a millionaire, but they wouldn't harbor much thoughts toward a billionaire.

Their gap was too big and therefore they didn't have the luxury of feeling jealousy.

It could be said that Qing Shui had given him a great gift that day, making him develop a feeling of worship toward Qing Shui.

The others also had a share of good stuff, but there weren't any more of such small pagodas. The effect of the small pagodas wasn't made known to irrelevant people. Nothing good would arise from having this fact revealed to others. Only the three, who had gotten the pagodas to recognize them as their owners, knew about their effects. None of them would tell to other people. After all, there would be no benefits if this were made known, except to bring about jealousy in others.

In the battle earlier on, the two ladies' battle prowess had already been very terrifying. They seemed to have handled the battle with ease. It was because their attacking prowess wasn't bad and thus the Parry Heavenly Fate Treasure Pagodas had blocked almost all of their opponents' attacks. Therefore, the enemies hadn't been able to deal much damage to the two ladies.

The three Parry Heavenly Fate Treasure Pagodas allowed the battle prowess of this group to increase by a lot.

Although they had only returned to the Chi Clan's manor for a few days, things were slowly recovering. Many people from the Chi Clan's side branches had gathered around the manor and things started to slowly get back on track.

This situation continued on for slightly more than a week before two people arrived at the Chi Clan manor.

They were two middle-aged men who appeared poised and dignified, both wearing a snow-white Cloudrain attire. They gave off a great feeling of tranquility and wouldn't be taken lightly no matter where they went. They said outright that they were looking for the Chi Clan's head the moment they arrived.

The snow-white Cloudrain attire was the typical clothing that the people from the Divine Rain Sect wore. Many bystanders were especially curious to see the people from the Divine Rain Sect visiting the Chi Clan. The Divine Rain Sect was the dominator over the Lower Three Regions; a super existence, an absolutely massive force. Just an Elder from the Divine Rain Sect would be able to wipe out a great clan like the Chi Clan.

The dominating force of the Lower Three Regions had a long standing legacy, and it was said that they had already existed since ancient times. They were an unrivaled existence in the Lower Three Regions.

When Chi Yang knew that people from the Divine Rain Sect had come, his heart let out a thud. What would come would eventually come. He had no idea if this was considered fast or slow. Just then, Qing Shui coincidentally arrived and Chi Yang told him that people from the Divine Rain Sect had come.

"Since they're here, then let's go have a look. Come, I'll go with you." Qing Shui was slightly stunned but still remained calm.

Qing Shui felt very stuffy. He had already come to the Eight Desolates Region for a while yet was still unaware of how strong the forces in Eight Desolates City were. Other than in the Eight Desolates City, what other powerful cities were there? Were there any Divine Palaces or Demon Gates? Was Tantai Lingyan in the Lower Three Regions...?

This was good as well. Qing Shui had initially wanted to skip the Lower Three Regions and head to the fourth region directly. The Sky-Obstructing Crow had told him that with his abilities, he could head to the fourth or even the fifth region directly. Therefore, Qing Shui had planned on heading to the Middle Three Regions.

Qing Shui didn't know how strong the Divine Rain Sect was, but he knew that an existence that dominated over the Lower Three Regions would still be a powerful existence even in the Middle Three Regions. They might not even be weak when compared to those at the top of the Middle Three Regions.

When they entered the hall, they saw two poised and dignified middle-aged men.

"May I ask what's the reason the Divine Rain Sect has come to visit the Chi Clan?" Chi Yang asked calmly.

The Divine Rain Sect would usually not appear. When they did, it would definitely not be for anything good. The Divine Rain Sect was like a great sect that was in seclusion, the god in the Lower Three Regions. They usually wouldn't have any liaison with other forces and the reason they appeared would be to punish the force concerned.

"We're here to settle a debt on behalf of our Master. We seek the cooperation of the Chi Clan's head." The man on the left said softly, giving off a feeling of confidence and superiority. He gave off the feeling

that he was above all others, like what he was doing now. Although he addressed Chi Yang as the Chi Clan's head, he probably viewed this position as worthless and didn't give a damn about him.

"May I ask what the Chi Clan owes you?" Chi Clan frowned but still asked calmly.

Chapter 2316 - Domineering Divine Rain Sect, Asking for a Head

"May I ask what the Chi Clan owes you?" Chi Clan frowned but still asked calmly.

"Master's youngest disciple, our Youngest Martial Brother has been killed by your people. Therefore, we're here to ask for a head," The man on the left said slowly.

"I don't know who your Youngest Martial Brother is. The people we killed were all evil-doers and trash. We didn't kill your Youngest Martial Brother," At this moment, Qing Shui smiled and said.

Seeing that Qing Shui had spoken, Chi Yang didn't continue.

The man on the left frowned but still said, "Wu Xingyun was our Youngest Martial Brother."

"Oh, so it was him. I was wondering who that was. A person of that capability didn't know any better and wanted to kill us. In the end, he got killed by us instead. People like him who come to seek trouble deserves to be killed. If someone were to head to the Divine Rain Sect to create trouble, how would they be punished?" Qing Shui said very smoothly.

"They would deserve to be killed!" The man on the right said outright.

However, after saying this, the man seemed to feel that something was off. At this moment, Qing Shui was clapping. "You're right. That's why we killed him. Heading to seek trouble with another party is an act of the strong bullying the weak. When faced against these kinds of people, one must give them a harsh beating."

By now, anyone could tell the intention hidden behind Qing Shui's words. It felt as though he was challenging them. It was hard for them not to notice it.

"Alright, we won't say much. We've gotten our Master's orders to bring a head back," said the man on the left, clearly displeased.

"Taking someone's head? Coming to take someone's head? Whose head are you going to take?" Qing Shui asked nonchalantly.

"We're here to take the head of the perpetrator. Since this matter was done by the Chi Clan, then the clan head should bear the responsibility. You people should feel lucky. If it was in the past, the heads of everyone here would probably be taken," The man on the left said this as a matter of fact, as if this was something he was very familiar with. Both of them were wearing an expression as if the Chi Clan was the one who had benefited from this arrangement.

Chi Yang's countenance was very grim. He had sought his vengeance. If he were to die now as the price, the other members of the Chi Clan could live, it wouldn't be that bad of a deal...

"Has the Divine Rain Sect always been like this, not caring what's right or wrong and making judgements based on their perspectives?" Qing Shui frowned, but his tone was still very calm.

"What do you mean? Young man, who are you? Be careful of what you say. Is the Divine Rain Sect's actions something you can criticize?" The countenance of the man on the left appeared to be darker by the second.

"Qing Shui, if my death can ensure the safety of the entire Chi Clan, it's not bad. My only regret is that I've yet to see Ao`er and Feng`er," said Chi Yang bitterly, finding this a little hard to accept.

"Brother, have you forgotten what I said earlier? You're already this strong, so how can you accept death so willingly? It's no wonder that it's hard for you to attain a breakthrough and advance further. You are the one who has restricted yourself." Qing Shui shook his head.

"Hahaha, young man, it seems that you don't wish to accept fate. Should we say that you're young and arrogant, or that you're young and ignorant, hmm?" The man seemed to find this very funny.

"I don't care what the Divine Rain Sect is. If you insist on bringing back a head, I'll give you your wish. One of you can take the other man's head back." Qing Shui looked at the two of them.

"Lad, do you know that you're courting death?" The man on the left frowned like he never did before.

"Forget it. You've been flaunting a lot. I'll just take your head for you then," Qing Shui took action immediately after saying this.

Confinement!

Art of Pursuing!

Berserk Dragon Fist!

Qing Shui used the Berserk Dragon Fist to perform Combination Fist Technique. This meant that he could beat the opponent to the extent that they wouldn't be able to retaliate, aiming for their weaknesses.

Heavenly Vision Technique!

Qing Shui then continued to slow the man's speed down until it was equal to that of a snail's. The Heavenly Vision Technique reduced the opponent's speed to a terrifying extent. The person's speed had been weakened by half at the start of the battle; adding the Heavenly Vision Technique, it didn't even need to be mentioned anymore.

Pa!

Before this, when he performed the Combination Fist Technique, it had been ineffective due to his low attacking prowess. But now, it was alright. He landed a punch onto that man's chest and then got close with the Windwhisk Willow.

Gouging Strike!

Kneeing!

Qing Shui kned the opponent's lower body...

Pa!

The sound of something shattering rang out loud. Qing Shui didn't harbor any good will toward this man. And since he had decided to kill, he decided to be even more straightforward.

Ahhh!

A terrifying cry had just rung out when Qing Shui reached out his hand and locked the man's throat!

Kacha!

Everything came to a standstill. Shockingly, the battle only took the time it needed for one to blink three times, for it to come to an end. Qing Shui waved his hand and the man's corpse landed next to the other man, saying, "Take him back to see your Master. Tell him that I welcome his arrival."

Since they were going to compare the strength of their fists, Qing Shui couldn't be bothered to say much. He merely asked the man to relay the message so that they could just go ahead and fight it out. He was obviously not scared of the Divine Rain Sect, as well as not having any good will towards them. They were overbearing and would bully the weak just because they were strong.

The other guy was in a daze. They tended to be the side to take other people's lives without batting an eyelid. This was the first time they were on the losing side, almost getting wiped out in the blink of an eye.

Also, this man was not exactly the only one who was stunned; Chi Yang was so flabbergasted that he could only stare at him blankly. Earlier on, he could only see a series of afterimages from Qing Shui's actions. To think that with his current strength, he could only see afterimages. How strong was Qing Shui?

Qing Shui's Heavenly Vision Technique didn't actually reduce the opponent's speed, but instead, increased his own perception of speed. It was unlike the Art of Pursuing. Otherwise, the effects of the Heavenly Vision Technique could be shared with other people.

It wasn't that these two men were weak, only that Qing Shui's strength was too terrifying. Qing Shui was trying to help Chi Yang regain his confidence.

Chi Yang wasn't to blame. All the people from the Lower Three Regions would feel helpless before the members of the Divine Rain Sect. Only Qing Shui wouldn't feel fear toward this massive force.

Chi Yang smiled bitterly. They had no way of retreating now. The other party would definitely not let this matter slide, as right now, the matter wouldn't be settled by just a single head. If they were to take any action next, the Chi Clan would be wiped out.

That man sighed, picked up that dead man whose eyes were wide open. The man who died probably didn't think that he would die in such a way.

The man left. Many people had seen the two men from the Divine Rain Sect entering, but now they saw one of them end up being carried out. A commotion broke out.

Compared with the commotion within the Chi Clan, the commotion outside was like an erupting volcano.

After knowing that the Chi Clan had killed a member of the Divine Rain Sect, no one else dared to visit the Chi Clan. It would only bring trouble their way.

"The Chi Clan is too idiotic and arrogant this time around. To think that they're so overconfident to want to go up against the Divine Rain Sect. They really think of themselves as some kind of unmatched force."

"That's right. They've become dizzy with success that they don't even see who they are up against."

"How many years has it been? No one has dared to raise a hand against the Divine Rain Sect. I wonder how angry the Divine Rain Sect would be this time around?"

"What can happen? The Chi Clan will bleed rivers of blood, and they will be completely wiped out. We better stay far away from the Chi Clan in case we get implicated."

"The Divine Rain Sect has become accustomed to being domineering. I wonder if the Chi Clan has any ability to put up a fight."

"Shush, be careful; the Divine Rain Sect may hear you," said an old man

"When someone reaches that realm, the ones who are domineering are the people under them. The main people won't have the time to be domineering!" joked one of the men.

"That's true. I wonder if the Chi Clan will be able to defeat those domineering people under them. If the people in charge took part in this, then the Divine Rain Sect might have to go through some reorganizing," The old man smiled and shook his head.

Chapter 2317 - Two Ladies, Amorous Feelings

The Divine Rain Sect left while the people in the Chi Clan were in a state of commotion and panic. After everyone knew that Qing Shui had killed a member of the Divine Rain Sect, they found it hard to believe.

The Divine Rain Sect had always been an invincible existence that shouldn't be offended. There were few people who would comment about the Divine Rain Sect in public, let alone killing one of them.

"I've thought it through. The Divine Rain Sect will definitely not leave this matter be. We can only fight it out," Chi Yang said.

Qing Shui wasn't anxious at all. He smiled, "It's impossible for an existence like the Divine Rain Sect to be filled with people like them. It's probably only the people at the bottom who act so arrogantly. We're just helping them in clearing out the bugs. Don't worry, it'll be fine. Even if someone were to come, they wouldn't dare to do anything to the Chi Clan."

Chi Yang and the others trusted Qing Shui a lot. Qing Shui had given them a lot of confidence. For example, in the case of Hao Tian and the Mighty Strength Battle God, as long as they were to fight together with Qing Shui, they wouldn't worry even if they were to head to the Upper Three Regions.

...

Right now, the Eight Desolates City was extremely lively. After all, someone had dared to make a move against the Divine Rain Sect openly.

Somewhere else, there was a golden and shimmering palace, filled with detailed drawings which were engraved with a luxurious and extravagant feeling. Right now, in this palace, an elderly man saw a person carrying a dead man's body; his countenance was extremely grim.

"Shi Yan, tell me what's going on!" The old man said in a low and deep voice.

These two men were the previously poised and dignified men who had gone to the Chi Clan. However, one of them had died, and the person who had survived was named Shi Yan. That elderly man was their Master. The elderly man wore golden and luxurious robes but had a pair of triangular bereaving brows that made him appear very fierce.

The man who had survived felt very stuffy, but he still slowly spoke about what had happened in the Chi Clan, sparing no detail.

The elderly man's countenance turned even grimmer, and he only spoke after very long, "You overconfident little b*stards. You're forcing me to wipe out the Chi Clan."

The elderly man abruptly unleashed a powerful aura, suppressing the man and making it hard for him to stand up.

...

Qing Shui studied the Berserk Dragon Fist since he had time on his hands. The Mighty Strength Battle God used fist arts and therefore Qing Shui studied it together with the Mighty Strength Battle God, imparting the technique to him. He wanted to see if other people could also achieve the Heavy Strike effect if they used the Berserk Dragon Fist.

A long time afterwards, Qing Shui realized that other people could also achieve the same effect after cultivating the Berserk Dragon Fist. However, he knew that it was impossible for them to achieve the exact same effect as him. Even if the others were to devote their lifetime's effort trying to perfect it, they wouldn't be able to achieve Qing Shui's level. However, it was good that they could also learn it.

Qing Shui was never one who would be stingy toward imparting others with his battle techniques. As long they were techniques that he could teach to others, he would do so.

Therefore, Qing Shui taught the Berserk Dragon Fist to everyone present. They could practice it if they had time. Those who relied on fist techniques were all overjoyed, but even those who didn't, felt very happy as well, being able to acquire an additional self-defense ability.

The Mighty Strength Battle God was like a tiger who had gained wings after getting the Parry Heavenly Fate Treasure Pagoda. Right now, after being taught the Berserk Dragon Fist, he soared in leaps and bounds again. His powerful battle prowess increased time and time again.

This was an increase in battle prowess as his own strength didn't increase much. It was just an increase in strength distribution, being able to unleash the power of one jin to an extent of several jins. Moreover, his own defensive ability was also increasing at a terrifying rate.

Many people from the Chi Clan seemed to have forgotten about the Divine Rain Sect. It was because they couldn't accept seeing the people from the Divine Rain Sect take Chi Yang's head. Without Chi Yang, the Chi Clan wouldn't be able to stand its ground. Therefore, what Qing Shui had done was right.

The worst that could happen was for them to give up their lives. After all, they hadn't expected that they would be able to survive their previous battle anyway.

In the courtyard where Qing Shui and the two ladies were staying...

Qing Shui was watching the two ladies practice the Berserk Dragon Fist. He had to say that no matter what martial techniques the beauties practiced, they would always look very beautiful. The two ladies were usually both graceful and cold, but now, they were emanating an additional wild and powerful aura.

There was an indescribable impact after seeing it with both eyes. The two ladies had never practiced this first art before others and had only practiced it in front of Qing Shui. They also practiced traditional martial arts since those were the foundations. However, the Berserk Dragon Fist was different. The way it attacked from a distance and the way it exerted force was different. Otherwise, they wouldn't have been able to hit with such strong powers.

Qing Shui felt a little hot at the sight of this. His eyes kept on looking at their well-developed peaks. The two ladies knew what Qing Shui was looking at and it made them blush. After their practice, both of them glared at Qing Shui, their faces flushed.

Qing Shui rubbed his nose and walked over, "I really want to have a bite!"

Qing Shui took each of them by the hand and looked at the two of them. The great peaks right before his eyes took his soul away. And even with Qing Shui's strong will, he still couldn't hold it in.

Directly, two small hands reached the sides of Qing Shui's waist and pinched.

Qing Shui cooperatively let out a cry and then embraced the two of them, groping their well-rounded butts. The two ladies shivered, gritted their teeth so they wouldn't cry out. Since both ladies were shy, they resorted to burying their faces into Qing Shui's neck.

Qing Shui felt very agitated and his Soft-Tendon Hand Technique moved to and fro their butts while his chest rubbed against their peaks. That pressure made Qing Shui feel their protruding tips.

Qing Shui's Soft-Tendon Hand Technique was very powerful, and the two ladies' cries kept ringing into his ears. This made Qing Shui have the feeling that he was enjoying the best of both worlds. He knew that it was really hard for one to be able to enjoy it like him. However, this feeling—to have two great beauties crying out softly in his arms... it was simply priceless! Their bodies trembled slightly as Qing Shui did what he wished.

When the two ladies stopped trembling, they realized that they were both on Qing Shui's bed. Earlier on, when the two ladies had just turned weak, they were already on the edge of bed. Right now, they were still feeling very weak and even if Qing Shui were to do anything to them, they wouldn't be able to resist...

Qing Shui was now on top of the two ladies while their clothes were in a mess. Their tops were almost all taken off. Although Shen Huang and Beihuang Fan hadn't really gone all the way with Qing Shui, they had their fair share of 'fun' moments with him. Shen Huang had even satisfied him using her hands before.

Right now, the two ladies appeared as if they had just woken up. As they noticed the state they were in, their expressions became even redder due to their feelings of exhilaration.

"I want to feast on you two!" Qing Shui's hands removed the ladies' tops.

The two ladies only closed their eyes, and Qing Shui's heart thumped fiercely. Judging from the ladies' reactions, they didn't seem to be objecting?

Could it be that he really was going to enjoy a threesome now...?

After knowing about the matter with the Divine Rain Sect and having been with Qing Shui for so long, the two ladies knew that this day would come sooner or later. It wasn't really good to get him to keep holding it in...

Looking at the snow-white proudly protruding peaks with perfect shapes, Qing Shui gnawed on them wildly. The ecstatic feeling enchanted him.

However, Qing Shui noticed a hint of awkwardness in their eyes. This woke him up immediately. It didn't seem fair for him to take them together for their first time. It would still be better for him to 'guide' them one-on-one for their first time. At the thought of this, Qing Shui suppressed his burning desire bitterly, but not until he had bitten all over their bodies...

"I'm a little nervous. Leave the doors unlocked for me. Tonight... I want the two of you to become my women." Qing Shui laid down between the two of them, holding each of them, their heads resting on his arms.

Chapter 2318 - Beihuang Fan

Qing Shui really wanted to make them his women right at that moment, but he knew that it was not the right thing to do. It was a little unfair to take them both in this manner for their first time, so Qing Shui held it in. They should be spending a separate, 'private lesson' with him for something like this.

Neither of the ladies replied and Qing Shui didn't continue, letting them heave a sigh of relief. If Qing Shui were to insist on taking them here, they wouldn't be able to say no, either. However, they would still feel a little uncomfortable.

After helping the two ladies with their clothes, Qing Shui brought the two of them out to take a stroll around the Eight Desolates City. He noticed that it had been a very long time since he had gone out to take a stroll along the streets.

It was only after coming to this world that Qing Shui knew what taking a walk on the streets really meant. The streets here were how streets should be like.

Things in town remained as usual. It wouldn't change just because the Chi Clan had some kind of problems with others. Regardless of the rise and fall of the great forces, it wouldn't change the lives of ordinary people at all. The world would continue to move just like any other day. Before nature and the entire world, no matter how powerful a Clan was, they would still be small and insignificant.

"Look, that's the young man from the Chi Clan. It's said that he killed someone from the Divine Rain Sect," voices rang out from the distance.

"Those two ladies are so beautiful, just like goddesses," said a man, his eyes losing the ability to blink all of a sudden.

"Hu Liuzi, be careful. You'll be beaten to death one day if you continue to stare at women like this," A female voice chided.

"It's better for everyone to steer clear of this person. No one whom the Divine Rain Sect targets has ever managed to get away. It's a pity. Not only him will face the storm, but the entire Chi Clan would be pulled in as well."

"It's such a pity for these two beauties. I wonder if they'll die too."

...

Qing Shui and the two ladies weren't interested in other people's discussions at all. They continued to walk on. Suddenly, Qing Shui's Spiritual Sense stirred and he looked toward a spot. A lady was standing there and looking at them.

She had a slender waist, a well-rounded bosom and protruding chests. She had a demonic figure and although her beauty might not be comparable to that of Beihuang Fan and Shen Huang, she emitted a kind of indescribable elegance. The Charm was fatal for her surroundings.

Bu Clan's Young Miss!

Qing Shui hadn't expected the Bu Clan's Young Miss to be here. He thought of how she had been Wu Xingyun's fiancée, and then, how Wu Xingyun had already died. Last time, he had asked if she would be a beauty with a tragic end, but now it really seemed to come true.

Seeing that Qing Shui was looking at her, the Bu Clan's Young Miss smiled and then turned to leave.

The Bu Clan's Young Miss felt a hint of guilt. She was from the Divine Rain Sect but she didn't wish to get married to Wu Xingyun. However, Wu Xingyun's Master had made a marriage proposal for Wu Xingyun to her Master. Wu Xingyun's Master was stronger than her Master. No matter the reason, her Master would still have to agree.

In order to get out of this marriage proposal, she had to resort to some tricks. Back then, she saw that Qing Shui was so strong that she had given it a push. She hoped that Qing Shui would have a feud with the Wu Clan and even kill Wu Xingyun. She hadn't expected that all her hopes had been realized.

However, she was a member of the Divine Rain Sect and between her and Qing Shui, there could only be enmity. She had reached her goals and she was now the Bu Clan's Young Miss, the Divine Rain Sect's disciple, and a proud daughter of the heavens...

Qing Shui would probably have never expected that this beautiful Young Miss had done him in. If Wu Tianchou could've returned to the Wu Clan back then, then things might have turned out differently.

That night, Qing Shui snuck into Beihuang Fan's room when the night was still young.

This woman's door wasn't locked. After all, it wasn't too late yet.

Seeing Qing Shui's entrance, Beihuang Fan's face turned a little red. It seemed that she recalled the scene between the three of them earlier and had thought of how Qing Shui told them to leave their doors unlocked for him.

She knew that she would become his woman tonight. It wasn't that she was unwilling, but she was still feeling a little nervous. She stared at Qing Shui; her eyes looked a little out of it. She clearly overthought and her face turned crimson.

"I'll feel embarrassed when you look at me like this. Tonight, I'll become yours. You must be gentle..." Qing Shui walked over and buried his face in her arms.

Beihuang Fan was both embarrassed and angry. This guy was really too shameless.

"I don't care for it... Mmmm!"

Beihuang Fan had just started to say something when she felt a numb feeling in her chest. Qing Shui sucked on the pearl at the tip through her clothes.

"Damn!"

Beihuang Fan was caught by surprise, and her body turned weak as though she had been shocked by electricity. She instantly turned extremely red, feeling both embarrassed and awkward. She instinctively wanted to push him away but saw that Qing Shui was hugging her very close. Even if she wanted to push him away, it wasn't easy. Moreover, she was already prepared to become his woman tonight.

Beihuang Fan turned weak and shook continuously from Qing Shui's sucking. She couldn't even stand properly.

Qing Shui was really shameless and enjoyed the sucking. Not only did he refuse to let go, but he even deliberately made sucking sounds. His rhythmic motions and the sound made Beihuang Fan's heart beat very quickly.

"Mmmm!" Beihuang Fan's mind turned blank. Although she was a virgin, human nature was like this. It was one's instincts, an ability that all ordinary women would have. Moreover, she had been with Qing Shui for very long, and they had previously had some intimate contact as well. She couldn't help but let out a cry.

She looked down at this man she loved, her face flushed. His calm face gave her an indescribable feeling. He also felt a lot of pressure...

Beihuang Fan stretched out her hand to slowly stroke this handsome face as she looked at this man who had barged into her life. She had thought that she would never marry in this lifetime. She was a woman who would rather give up totally rather than making sacrifices. She didn't want to make herself feel grief over this.

She knew a lot of things about Qing Shui. One could imagine how much pain Qing Shui had gone through to reach the height he was at today. The heavens wouldn't give something to him for free, and the heavens wouldn't only dote on a single person.

Beihuang Fan had no idea how much of a price he had paid, what sacrifices he had made, and how much blood he had bled.

Qing Shui was unlike her who had quite a good family; her path had always been smooth-sailing. Although there were pains as well, they were different from the pain what he had been through.

Just as Beihuang Fan was thinking about a lot of things, Qing Shui spoke, "Woman, how dare you be out of it at a time like this! I'm going to punish you harshly!"

Qing Shui stood up abruptly, sweeping her off her feet and headed for the bedroom.

"Ahhh, you rascal. What are you going to do..." At the sight of this, Beihuang Fan felt a little anxious and said this instinctively.

Her expression changed, not expecting for Qing Shui's reaction to be so intense.

"Pa!"

Qing Shui slapped her beautiful and well-rounded butt gently. "What do you think I'm going to do? I'm going to make you my woman."

"Rascal!" Beihuang Fan chided softly.

Qing Shui put Beihuang Fan down on that comfortable and bouncy bed. The comfortable snow-white bed gave off a very wonderful feeling to them, and there was also a faint fragrance which was identical with the scent on Beihuang Fan.

Beihuang Fan gasped and Qing Shui pressed down on her. The flame that had been lit up in Qing Shui's heart by the two ladies was very strong.

Qing Shui kissed those beautiful and sexy lips. His hands skillfully removed Beihuang Fan's clothes and this time around, left her completely naked, revealing a beautiful and slender figure.

Chapter 2319 - Peaceful and Prosperous Times, Shen Huang

Beihuang Fan was in the prime of her youth, with her beauty and body already matured. Her skin was bouncy and exquisite... smooth and tender... and it exuded a natural fragrance. This was the greatest scent in the world.

Although she was still a virgin, she was older than Qing Shui. Her experience in life, her disposition, and her figure... all of them were extremely beautiful. She had what young inexperienced ladies had, but also had what matured ladies had as well.

Even though Qing Shui was used to seeing beautiful ladies, he could not help but have a strong sense of yearning, especially in this situation where his blood was boiling. He pressed his body down heavily and once again enjoyed the ecstatic kiss that inebriated him.

"Mmm!"

This time around, the feeling that Beihuang Fan felt was more intense than earlier, several times so. This was because she was completely naked at the moment and that ecstatic feeling made her body feel increasingly heated up. A hint of hesitation could be seen on her face, resisting a bit. After all, she was still a virgin.

Qing Shui once again sucked on the pearls at the tip of her peaks, causing Beihuang Fan to shiver non-stop. She felt as though her soul was going to fly away. This impact made her feel like a small boat in the middle of the ocean, bobbing up and down rhythmically. After all, earlier on, it was through clothes. But now, it was done directly.

Beihuang Fan felt both embarrassed and overwhelmed by the impact at the same time. She cursed inwardly, wondering why this rascal seemed to be so obsessed by her nipples. She then thought back on how this guy had grabbed her 'there' on their first encounter. He seemed to be fixated on that spot as well...

That place was a woman's sensitive spot to begin with, and many women were very sensitive there. Beihuang Fan was no exception. Biologically, she was already mature and also had desires. Moreover, Qing Shui had already lit up a fire in her with his hands. She wasn't a little girl who didn't know anything. At this moment, she also embraced Qing Shui instinctively.

She slowly started to stick out her plentiful peaks and responded to Qing Shui.

Qing Shui was very agitated right now. It was extremely hot for a goddess-like woman like her to do such actions, then Qing Shui answered with his hands going wild around her peaks and valleys.

Unknowingly, Qing Shui's clothes had also disappeared. On the peak of their surging desires, he then found his way to her moist flowerpath, completely entering without being too domineering. It was tight and smooth; that overwhelming feeling made Qing Shui's soul want to leave his body.

"Ahh~ Mmmm~"

Qing Shui felt that he had pierced through her 'barrier' and stopped his thrust on her sweet spot. While staying inside her, he kissed Beihuang Fan incessantly, his hands gently stroking her voluptuous body. This little pain was actually nothing for such a strong woman. It only made her frown a little. After all, every cultivator had been through a lot of pain and this little pain was something that even ordinary people could stand, let alone powerful cultivators.

When the time came, Qing Shui started to stir the blossom slowly and rhythmically. Beihuang Fan gradually started to let out bewitching moans. Her moans kept on stimulating Qing Shui. Knowing that Beihuang Fan had gotten used to it, Qing Shui took her to the next level—wilder than a raging fire! Miss Fan grabbed onto Qing Shui like never before, wrapping her limbs tight around this 'beastman'.

Although this was their first, Beihuang Fan had experienced ecstasy before. Only this time around, the feeling was even more intense since it was the real deal. Right now, she was experiencing a great spiritual and physical clash, as well as the joy of becoming a woman.

"Mmmmm~ Qing Shui!"

Beihuang Fan felt that she was soaring higher and higher as if she were in the midst of raging waves. This was only her first lovemaking but she already felt as if she had been brought to the nine heavens.

"Be good, call your husband!"

Beihuang Fan knew what husband meant. She had called him this in the past as well.

"Husband!" Beihuang Fan's cry was very alluring, agitating Qing Shui to no end. His manhood turned as solid as diamond.

This feeling of exhilaration gushed forth like raging torrents, letting her put down many of the reservations she usually held. Her heart and soul were entangled with Qing Shui, tightly knitted together.

"Husband, this feels amazing!"

"Mmmm, I'm really going to die!"

Beihuang Fan's subconscious cries made Qing Shui feel an unprecedented sense of satisfaction. Beihuang Fan had always been a woman with a unique personality. However, he hadn't expected that a goddess would also have such a charming and alluring side to her.

Having past the almighty storm, she arrived on cloud nine. It was a satisfaction that couldn't be described by words. She knew there was no way that she could leave this man anymore.

After an unknown period of time, the goddess fell completely limp, laying in Qing Shui's embrace. The flush on her face hadn't receded, and her eyes were filled with an alluring charm. Her beautiful body was glowing with satisfaction. At the thought of what she had mumbled subconsciously earlier, she felt really embarrassed.

When Qing Shui saw this feminine side to her, he felt an indescribable sense of accomplishment. She laid on Qing Shui, her snow-white peaks landing right where Qing Shui's chin was at. Her twin peaks emitted a wonderful fragrance, causing Qing Shui to gnaw on them greedily...

The ecstatic battle from earlier gave both of them a tremendous sense of satisfaction. This was especially so for Beihuang Fan who had just experienced an unprecedented level of satisfaction. She finally released what had been accumulated in her for several decades.

Neither of them spoke and both of them silently enjoyed the lingering glow after having reached the climax. They had been satisfied spiritually, and even their strength had increased by a huge margin.

Beihuang Fan didn't ask. She hadn't expected the rubbish book that Qing Shui had shown her previously—which the images were still clear in her mind—to be real. She hadn't expected that after becoming his, her strength had increased explosively by about 40%. This was unbelievable.

Beihuang Fan's strength now reached close to 11 trillion Dao Force. This wasn't just it. Her essence, Qi, and spirit seemed to have gone through a change, as if her body had been optimized.

In the end, Beihuang Fan chased Qing Shui away when she was feeling sleepy. Although she didn't say it clearly, her intentions were clear. He should head to Shen Huang's place now.

Qing Shui really wanted to give her a complete night, but Beihuang Fan said, "Fan`er understands. Alright, go look for sister Huang now. Be good!"

Qing Shui looked at this woman who was smiling beautifully. He kissed her for a while before he left.

Shen Huang hadn't slept. The two ladies' room were next to each other and it was hard for Shen Huang not to hear everything. After all, the sounds that the two of them made weren't soft.

The moment Qing Shui entered Shen Huang's blankets, a heated body went into his arms. This left him stunned. He hadn't expected this Young Miss to be so agitated as well.

Qing Shui masterfully removed her clothes. Seeing her beautiful body that didn't lose out to Beihuang Fan's in the least, it made Qing Shui turn into a wolf again; luckily, his Nine Yang Golden Body could give him support in this regard. Shen Huang, whose clothes had been removed, laid facing down, feeling embarrassed. She buried her face into the bedsheets.

She had a fair and beautiful skin. With her beautiful back and slender waist, it contrasted with the beautiful curves leading to her well-rounded butt. The fragrance she emitted made Qing Shui unable to hold himself back as he kissed her round butt.

Shen Huang's body stiffened and she turned to embrace Qing Shui. Very soon, alluring voices continued to ring out until dawn broke. Wearing a satisfied expression, Beihuang Fan fell asleep.

Chapter 2320 - The Divine Rain Sect Has Come, Golden Robed Old Man

This time around, both Shen Huang and Beihuang Fan had gotten a lot stronger. Both of them were basically on the same level of strength. Compared to the two ladies', Qing Shui's abilities had also undergone a tremendous change once again. This time around, his attacking prowess had increased by 80%.

Qing Shui's current strength was around 190 billion Dao Force.

His defense, 1.9 trillion Dao Force.

The Heavenly Fate Treasure Pagoda of Defense increased his protection by 20%. Therefore, Qing Shui's defense reached 2.28 trillion Dao Force.

The Heavenly Fate Treasure Pagoda of Violence and the Parry Heavenly Fate Treasure Pagoda increased his blocking ability by another 190 billion Dao Force, which resulted in the total defense of 2.47 trillion Dao Force.

No matter how much mental preparation Qing Shui had, he was still awed by his current abilities. He didn't know what he should feel about it. No matter how much hard work he had put in his cultivation, the increments he attained from it was in no way greater than what he gained after having intimate relationships with the ladies.

However, after some thought, he felt that it made sense. It wasn't that easy to be able to get into an intimate relationship with these two ladies. After a bit of thinking, Qing Shui came to understand the essence of his cultivation. Firstly, the increment of his strength after going through Duo Cultivation with women was also related to his abilities at that exact moment. This was why he experienced such a great upgrade this time.

Secondly, His first Duo Cultivation with each lady would result in the greatest increment. And lastly, it was also related to the ladies' aptitude and talent.

Shen Huang and Beihuang Fan could also be counted as the ladies of the Portraits of Beauty.

At this moment, Qing Shui was still very happy about the large increment to his abilities. With his recent strengthening, he felt that the Divine Rain Sect shouldn't pose too much of a problem to him.

Nevertheless, he still hoped that the fight wouldn't involve the entire Divine Rain Sect but only the arrogant people at the bottom.

Although Qing Shui didn't sleep, he didn't get up late. He went to the courtyard and slowly practiced his Taichi Fist, Yu Emperor Fist, and the Berserk Dragon Fist.

The Yu Emperor Fist had just reached grade four, and its power had increased by quite a lot. However, the most important aspect of the Yu Emperor Fist would still be its ability to temper the user's body. It could also raise one's realm, clear meridian channels, and strengthen the bones.

The prowess of the Berserk Dragon Fist, even Qing Shui found it terrifying. He suppressed the force to be within one meter around him and held onto his Origin Qi. Qing Shui now felt that his attacking prowess when performing the Berserk Dragon Fist had surpassed even Chi Yang's. This had completely made up for the situations where Qing Shui's ordinary attacks were insufficient.

After practicing fist arts, he saw the two ladies walk out to the courtyard. When the two ladies saw each other, they were both stunned for a moment and their faces turned red. They knew what had happened last night. Moreover, the three of them had... Right now, the two ladies were actually closer to each other than actual sisters.

When Qing Shui saw the two ladies walk out while holding hands, he felt especially happy.

Their smiles were very beautiful, and their faces still had the lingering glow from the previous night. At this moment, they were so beautiful that it took his breath away. Although the two ladies looked different, there was an indescribable sense of harmony when they stood together, giving off a feeling that they complemented each other. This was the most beautiful scene that Qing Shui had seen in his life.

Seeing that Qing Shui was in a daze as he looked at them, the two ladies felt a little embarrassed but very sweet inside. Right now, they looked at Qing Shui differently than before. This was how things were between men and women. Although they did see themselves as his women previously, the feeling was different after they had really become his.

"The two of you are awake? Why don't you sleep in a little longer? You guys must have been exhausted from last night!" Qing Shui smiled, teasing them as always.

"Sister, this rascal is too bad. Shall we give him a good beating?" said Beihuang Fan shyly.

"Alright!"

With that, the two ladies dashed out toward Qing Shui.

"You aren't allowed to dodge!"

"You aren't allowed to retaliate!"

A series of bangs rang out. Qing Shui didn't move and let the two ladies beat him up. Of course, they didn't bear to use too much strength and only hammered him lightly. It felt just like a massage.

In the end, the two of them were embraced by Qing Shui.

"I've always felt that it's a little unreal. To think that I can have both of these wonderful ladies," said Qing Shui softly.

"Then you must treat us well," answered Shen Huang.

"The two of you are my precious babies!" Qing Shui said happily.

"Mushy!"

"Babies!" Qing Shui called out the two of them softly.

"Disgusting!" Two ladies giggled, making Qing Shui feel hot. He planted a kiss on each of their cheeks, feeling extremely satisfied.

...

At noon, a group of people wearing Cloudrain attire appeared at Chi Clan's door. When the powerful Origin Qi waves surged, Qing Shui knew that the people from the Divine Rain Sect had come. He just hadn't expected that they would come so quickly after the two men from before had been sent back black and blue, not to mention bloody.

When Qing Shui came out, almost all of the Chi Clan's people stood at the door. The formations had already been activated, and Qing Shui walked over to where Chi Yang was. There were many people outside, and the Divine Rain Sect had several hundreds or close to a thousand people. There were even more people from the Eight Desolates City who didn't dare to get close. They merely watched from a distance.

The person at the very front was an old man. Qing Shui recognized a man behind him; he was one of the two who had come the other time. Seeing him trailing behind the old man's back, Qing Shui knew that this old man would likely be his Master.

Qing Shui was frowning when he looked at the old man. He was just too ugly! He had triangular eyes and bereaving brows, completely unsightly. But then, the golden Cloudrain attire he wore also showed that his status in the Divine Rain Sect wasn't ordinary.

Right now, the old man was emitting an extremely violent aura that seemed almost tangible. He looked toward the people from the Chi Clan, "Shi Yan, is it that young man over there?"

"That's right, Master!" Shi Yan said respectfully.

"It has been so many years since someone dared to kill a member of our Divine Rain Sect time and time again. Good, good, good." The old man's voice was a little sharp, and it spread through the entire Eight Desolates City.

Just from the ability to control his Qi, it was clear that this old man was very terrifying.

His words weren't just directed toward Qing Shui, but also toward the other people in the Eight Desolates City. At this moment, Qing Shui had already walked out. Chi Yang and the others followed suit.

When the people from the Divine Rain Sect saw Qing Shui and the others, their gazes seemed as if they were looking at dead people. They weren't the only one with such gazes. The other people from the

Eight Desolates City also wore similar gazes. It was one thing for the Chi Clan to come back. It was fine for them to wipe out forces like the She Clan. But why did they have to offend the Divine Rain Sect? The Divine Rain Sect wasn't an existence that the She Clan and the Divine Buddha Sect could be compared to. Weren't they just courting death when offending the Divine Rain Sect?

"If others don't offend me, I won't offend them. I only kill people who deserves to be killed." Qing Shui smiled and said calmly.

"Only kill people who deserves to be killed? You're saying that the people from our Divine Rain Sect deserve to be killed?" The old man said coldly.

"There's no need for you to tag a label on me. The Divine Rain Sect was the one who sent people here to claim a head. It's such a joke. Who are you to be coming to claim someone's head? Do you really think of yourselves as dominators who can decide on people's lives and deaths? Those who make light of other people's lives are all courting death," replied Qing Shui coldly.

"You people killed my youngest disciple. Is it wrong to ask for a life in exchange for a life?" The old man looked at Qing Shui.

"We don't have any enmities with the Wu Clan, but they took the side of the evildoers to come and kill us. Don't people like these deserve to be killed?"

"Since the feud has been established, are you saying that we should just see whose side's stronger?" The old man continued to say.

Qing Shui slowly said, "No matter what, I have a reason to back me up. A true man must be upright and reasonable. I won't bully the weak, but neither would I give in to the strong." His words emitted intense righteous energy.

"Young man, this world isn't as simple as you think it is. Don't you know that in this world, people are forced to submit to circumstances? Nothing is absolute in this world. Since you want to step into this world, then you have to adapt to the regulations. Survival is the true path. If you are unable to change the rules, then you have to accept. Doing as you wish despite not having any abilities is foolish! You're courting death!" The old man's triangular eyes shot out a fierce glare.
