

Another World 1351

Chapter 1351: Supreme Commander

And just like what Liu Zhen said, the second day after Zhao Hai's fight, the Machine Field's higher-ups sent people to see Zhao Hai. This time, they didn't send their family juniors. The person who came was the Fire Temple's Bishop, Ma Fenglei.

Zhao Hai and Ma Fenglei had some interactions before, so he was a familiar face. Zhao Hai also had a favorable impression of this person. It seems like the Machine Field really made some effort this time in sending Ma Fenglei.

Ma Fenglei didn't come alone. Coming with him was Zhao Hai's acquaintance from the Six Realms Beginner Competition, Captain Ma Rulong.

Although Zhao Hai drank a lot yesterday, he drank spatial water after returning to the Space that evening. So he was no longer drunk. He got up early today and returned to Yuan's fort.

When he came back, he was already aware that Ma Fenglei and Ma Rulong had arrived. The two were currently standing on the wall as they chatted with Yuan and Liu Zhen. Upon seeing Zhao Hai, they immediately went forward and greeted him. Zhao Hai looked at them and returned the gesture. Ma Fenglei and Ma Rulong also greeted Zhao Hai. Although Zhao Hai officially has no power in the Machine Field, nobody in the higher-ups dared to underestimate him.

Zhao Hai looked at Ma Fenglei and Ma Rulong, then he smiled and said, "I didn't expect Bishop and Captain to arrive here. What's the problem?"

Ma Fenglei laughed and said, "What problem? How can there be any problem? But Little Hai, you've really done a good job. You have raised the reputation of the Machine Field."

Zhao Hai smiled faintly and said, "Bishop Ma, let's head in and talk."

Everyone proceeded to enter Yuan's fort. Then Yuan and the others tactfully withdrew themselves, leaving only Ma Fenglei, Ma Rulong, and Zhao Hai inside.

After the three had sat down, Ma Rulong looked at Zhao Hai as he smiled and said, "Little Hai, I didn't expect you to be that strong. Very good."

Zhao Hai smiled and said, "This is also thanks to Captain. Thanks to your recommendation, I was able to enter the Six Realms Battlefield and rapidly improve my strength. Alright, Captain, why did you come here?"

Ma Rulong smiled and said, "What else did we come here for? The higher-ups wanted to reward you. They decided to make you the Six Realms Battlefield's Supreme Commander. Every matter in the Six Realms Battlefield will be under your control. But since you are too strong, the other realms protested. Later on, you cannot head out to hunt. Just like those Transcending Tribulation Experts, you'll be defending the Machine Field's territory."

When Zhao Hai heard this, he couldn't help but knit his brows and said, "Isn't this a little excessive? I'm just a Nascent Soul Expert, why am I not allowed to hunt?"

Ma Finglei looked strangely at Zhao Hai and said, "Little Hai, don't you feel strange when you say this? Who is Huang Daoran? He's a Transcending Tribulation Expert of the Cultivation Realm. He's well-known among the Cultivators. If such a person can't do anything to you, then wouldn't the other realms be helpless if you go out and hunt?"

When Zhao Hai heard Ma Finglei, he couldn't help but smile. He nodded and said, "I'm fine with not heading out to hunt. But if there's people who dared run to the Lock Mountain Range to cause trouble, then don't blame me for being impolite."

Ma Finglei nodded and said, "That's obvious. This is also in agreement with the other realms. You don't have to be lenient to people who cause trouble to the Lock Mountain Range. Little Hai, we cannot do anything against the protest of the other realms. The higher-ups can't do anything as well."

Zhao Hai nodded, "Rest assured, I know how difficult it is for them. To be honest, with my present strength, if I head out, I'll just be bullying others. Alright, I'll take the position as Supreme Commander. But I'll be leaving the Six Realms Battlefield from time to time. The higher-ups should be aware of this. Is it alright with them?"

Ma Rulong forced a smile and said, "Even if they aren't, they can't do anything. Feel relieved, the higher-ups said that you can leave whenever you want. Nobody will stop you."

Zhao Hai nodded and said, "That's good. Besides this, is there anything else?"

Ma Rulong looked at Zhao Hai, then he smiled faintly and said, "Little Hai, you have now acknowledged Huang Daoran as a Master. Huang Daoran is a guest elder of the Pink Clouds Pavilion. Do you think you have a chance of getting things for the Machine Field?"

Zhao Hai immediately understood what Ma Rulong was saying. Sure enough, as Liu Zhen said, those higher-ups truly had such an idea.

When he thought of this, Zhao Hai shook his head and said, "Captain, you should know under what circumstances I accepted Huang Daoran as a Master. Because of my relationship with him, the Cultivation Realm is paying more attention to me. If I engage with the people in the Pink Clouds Pavilion at this time, those folks from the Cultivation Realm would never let me off."

Ma Rulong nodded, but he didn't have a disappointed expression. Then he said, "I also think that it's impossible. Those people from above are living in fantasy. Forget about it, but just keep this matter in mind. If you have the opportunity, then mention this matter to the Pink Clouds Pavilion. You can decide on anything else by yourselves."

Zhao Hai nodded. This time, Ma Fenglei opened his mouth and said, "Little Hai, there's one more thing that they want to ask. Last time, you asked for Yalei 2. That planet isn't that good. The higher ups want to ask if you want to change it to another planet."

Zhao Hai smiled faintly and said, "There's no need. I'm already in the process of transforming the planet. It's already suitable for people to live in. Moreover, I've been able to cultivate big crabs there. After some time, I should be able to get some yield."

Ma Fenglei nodded, "Alright. But as what was said, if you want to change your planet, you can do so anytime. If you want people for Yalei 2, you can also do so. The higher-ups would even help out."

Zhao Hai nodded and said, "Okay. I'll make sure to ask for help if I need any."

Ma Fenglei nodded. Then he said, "Actually, what the higher-ups wished for you to do is to cultivate here in the Six Realms Battlefield. After all, the Machine Field doesn't have a Transcending Tribulation Expert. If you can overcome your tribulation, then the Machine Field would definitely benefit greatly. Since your battle with Huang Daoran is in the Six Realms Battlefield, not many people know about it. Only some influential people outside are able to get the news. I'm afraid we'll have to trouble you."

Zhao Hai waved his hand and said, "No need, I didn't suffer or anything. It's just reputation, it's no big deal. Right, if there's nothing else, you two should stay here for a couple of days. Allow us to entertain you for a while. What do you think?"

Ma Rulong and Ma Fenglei looked at each other and then nodded. Zhao Hai smiled faintly and said, "Alright, then let's head out. I reckon Captain Yuan and the others had already prepared the food and drinks." The three laughed before leaving the meeting room.

Just like what Zhao Hai said, Yuan and the others had already prepared the food and wine. Yuan and Ma Fenglei had a casual relationship. Although Ma Fenglei also stayed in the Lock Mountain Range, he was earlier than Yuan by about ten years. Therefore, when he retired, Yuan still hadn't reached the Lock Mountain Range. So the two didn't have much friendship to begin with.

On the other hand, Ma Rulong and Yuan were quite close. They were friends for life. Zhao Hai and the others were able to follow behind Yuan because of Ma Rulong. Naturally, the friendship between these two was quite deep.

Although they had just drunk yesterday evening, everyone was still rearing to drink. Everyone here practiced, so they don't get drunk that easily. To them, there's no such thing as overdrinking.

They drank until noon before everyone dispersed. Zhao Hai returned to the Space where Laura and the others were waiting for him. Seeing him come back, Laura gave him some spatial water. Taking a sip from the glass, Zhao Hai felt better as he let out a long breath and said, "Haaa. I've been drinking liquor for two days straight. Forget it. Now that I got the position of Supreme Commander, things are much more convenient. Cai'er, how is the Pirate Paradise?"

Cai'er waved as the display on the monitor showed the asteroid field that was known as the Pirate Paradise. However, the map was different from before. Right now, the asteroid field was divided into sections where each section was shaded with a different color.

Cai'er pointed at the screen and said, "Young Master, we only have a small understanding about the Pirate Paradise. We didn't know that the Pirate Paradise is divided into several groups. We can think of it as a smaller version of the World of Cultivation. It's also divided into six regions. The largest area in red is controlled by the pirates of the Machine Field. They still use Mechs and Battleships. Their main strength is taking advantage of the location."

Zhao hai nodded. Upon hearing Cai'er, he discovered that the Pirate Paradise was really divided into six regions. The red area was the closest to the Machine Field and was the largest region. Several regions bordered this red region.

Then Cai'er continued, "The other regions are controlled by the other realms. But some of these pirates have nothing to do with the other realms. There are also groups that flee there because they offended people in their realms. But these people still send messages back. The situation is very complicated."

Zhao Hai nodded and said, "And how about the Poison Bee Pirate Group?"

Cai'er gestured towards the screen as it zoomed in. Then Cai'er said, "This is the Poison Bee Pirate base. They're only a medium-sized group. I've been monitoring them the last few days and found nothing special. Young Master, do you want to clean them up?"

Chapter 1352: The Pirate Paradise's Complicated Situation

Zhao Hai shook his head and said, "They're nothing more than jumping clowns. As long as they don't become obstacles, I don't care about them."

Cai'er nodded and said, "Young Master, if you want to reach out to them, I hope that you'll contact Louis. His Cross Sword Pirate Group is the largest pirate group in the Pirate Paradise. Moreover, he's special. He didn't depend on the Machine Field to reach his position. The group has no backers and are true pirates. Moreover, their lineage spanned dozens of generations and had always lived in the Pirate Paradise. Therefore, their influence on the other pirate groups is very high."

Zhao Hai nodded, "I want to contact Louis as well. He's the chief of the largest pirate group, so he should need a lot of necessities. We can use this to get in touch with him."

Cai'er smiled and said, "Young Master, I want you to contact Louis not only to trade. Although the Cross Sword Pirate Group lived in the Pirate Paradise for generations, this was something that they didn't want. They hoped that, one day, they could go into the open and live in the Machine Field rather than to live in the Pirate Paradise. If there's an opportunity, they will certainly move out. If you get in touch with them, they might move to Yalei 2."

Zhao Hai stared, his eyes shone as he said, "Really?"

Cai'er nodded, "Yes. Louis and his group aren't having great lives. As I was watching them, I heard them say that the Pirate Paradise was good in the past. The other realms weren't too involved with the pirates and it was a true pirate paradise. These pirates formed alliances and resisted the other realms. Because of this, the other realms weren't able to encircle and get rid of them."

Zhao Hai gave a nod. Cai'er continued, "Afterwards, the situation changed. The realms began to stop fighting against pirates, instead they sponsored their own pirate groups. Slowly, more and more practitioners from the other realms went to the Pirate Paradise, changing the region's flavor. And eventually, pirate groups began reaching out to various realms, becoming dogs. This is what Louis and the other pirate families didn't want to see. The Pirate Alliance still exists today, but its members have become less than before. The new pirate groups began to compete with veteran pirates. But because of the realms behind them, the new pirate groups began suppressing the veteran pirates. Even if veteran pirates get an advantage, it wouldn't be long. Additionally, in the fight against the veteran pirates, the realms thought of another way to deal with the veteran pirates. This was to block the pirates in gaining resources. It became harder and harder for veteran pirates to buy resources. And if they want to sell off their looted goods, almost no one would buy it. In the end, they could only accept terrible deals from the new pirate groups. They would sell for cheap but acquire things for a lot of money. Under such circumstances, the veteran pirates' lives were getting more and more difficult."

Zhao Hai nodded and said, "I didn't expect the Pirate Paradise to be like this. It's either fighting against pirates or getting a dog that can bite people for you."

Laura said, "From what I can see, people want dogs that would bite without being involved with them. What these pirates do wouldn't affect the higher-ups of those realms. There are a lot of things that the higher-ups want to do but are inconvenient if known. They have these pirates for that. Just like the last time they planned to deal with you. If there's no support from the higher-ups, those pirates wouldn't dare act aboveboard. You have a great reputation in the Machine Field, it's impossible for the pirates to be unaware of this."

Zhao Hai smiled bitterly and said, "Alright, then let's get in touch with Louis first. Unexpectedly, they looked like good people now."

Laura and the others smiled bitterly. They don't know what to say. In fact, they expected this. Last time, when Huang Daoran came to deal with Zhao Hai, he had the help of the Pirate Paradise. From this, one could see that the pirate groups were in collusion with the realms.

Cai'er said, "Young Master, although the Pirate Alliance still has the most influence in the Pirate Paradise, they are beginning to be suppressed on all sides. Their present state isn't optimistic. Besides the Pirate Alliance, there are already several groups from the Cultivation Realm that are becoming stronger. After all, the Pirate Paradise is quite close to the Cultivation Realm. Additionally, cultivations are strong. Therefore, they are beginning to get a place in the Pirate paradise. The Machine Field also has people in the Pirate Paradise, but their status isn't that assured. But what is certain is that the Cross Sword Pirate Group isn't under any influence."

Zhao Hai nodded and said, "According to what you said, Louis' group is in a bad position? If they refuse to go under any influence, then the realms naturally couldn't control them. So they are the most suppressed group? The highest tree attracts the most wind, is that correct?"

Cai'er nodded and said, "Correct. But Louis has already noticed this. These years, they have been getting in contact with small and medium-sized families in the Machine Field. Additionally, they retaliate towards the people who suppressed them. They carry out large-scale looting towards merchant caravans of Great Families. At this point, those people don't dare suppress them. However, Louis and the others are still having a hard time. After all, a lot of people are suppressing them. There are a lot of people that they cannot afford to offend."

Zhao Hai smiled faintly and said, "Isn't that right? Hahaha. We have a lot of things in our hands. And they always have something they need."

Cai'er smiled and said, "Young Master, they need a lot of things. Most importantly, food. They can deal with other things. They have their own robot factory, mech factory, and battleship workshop. They also don't lack general living supplies. Their biggest weakness is food."

Zhao Hai laughed and said, "Good, fantastic. This is a godsend. I'll contact Louis first. Laura, you prepare things that they need. Once they agree to trade, I'll immediately bring it to them."

Laura and the others nodded. Then Zhao Hai's figure vanished and reappeared in a meteorite. Around this meteorite were spaceship wreckage. The wreckage wasn't randomly placed here. These wreckage have been transformed into living places for people. There were a lot of residences in these ships.

There's also a shield around this meteorite. This shield defends the meteorite like a protective layer. Naturally, this shield wasn't used to defend against enemy attacks, it was used as an atmosphere. Thanks to this, vegetables were grown on this meteorite. However, it was obvious that this meteorite wasn't very suitable for growing vegetables. The vegetables grown here looked diseased.

Zhao Hai couldn't help but smile when he saw this. It seems like Louis and the others haven't been living great lives. They even tried to grow vegetables in this kind of place.

As Zhao Hai was thinking about this, a person came out of one of the wreckage. It was a woman of about 20-years old. Her clothes were very ordinary and there were even patches on it.

When the woman noticed Zhao Hai, she stared for a moment before she frowned and said, "Who are you? How did you get here? Do you know where this is?"

Zhao Hai smiled faintly and said, "This one is Zhao Hai. I came to see Commander Louis. Is he here?"

When the woman heard Zhao Hai introduce himself, his eyes shone, then she turned vigilant. She took a step back and then said, "You're Zhao Hai? Are you here for revenge?"

When Zhao Hai saw her reaction, he couldn't help but laugh. Then he said, "Miss has misunderstood. I came to see Commander Louis for something, but not for revenge. I have already dealt with the previous matter with Commander Louis."

The woman was still vigilant towards Zhao Hai. At this moment, those in the residences heard the ruckus and walked out. Among them was Louis. When he saw Zhao Hai, he was stunned. Then he held his fist and said, "So it is Mister Zhao Hai. I wonder what Mister Zhao Hai came here for?"

Zhao Hai smiled faintly and said, "I came today to talk to Commander Louis about something important. Is that fine?"

Louis looked around him and made a gesture with his hand. Then Zhao Hai and Louis walked shoulder-to-shoulder into one of the ships. The woman who spoke with Zhao Hai also followed behind the two.

Zhao Hai glanced at the woman. Louis smiled faintly and said, "This is my wife's sister. Little Ling, you go ahead, don't follow me." Little Ling responded, she looked at Zhao Hai vigilantly before turning around and left.

The two proceeded to enter the ship. Before long, they reached the commander's quarters of the battleship. This was a huge ship, naturally the commander's quarter was also huge. By this point, it has turned into Louis' residence.

Louis' home looked very good. Everything in the Machine Field was available here. The quarter was also divided into rooms with stone walls.

Zhao Hai sized up the place. Louis looked at Zhao Hai, his face was slightly red as he said, "I made Mister laugh. Mister, please." After that, he led Zhao Hai into a room. After they settled down, a robot brought tea for them.

Louis drank tea before looking at Zhao Hai and asking, "Mister, what did you come here for?"

Chapter 1353: Louis' Suspicion

Zhao Hai smiled faintly and said, "I came to see Commander Louis because I have something to propose. I told Commander Louis last time that we might have an opportunity to cooperate in the future. I came today in order to talk about this cooperation."

Louis was stunned. He looked at Zhao Hai with a confused look as he asked, "Mister must be joking, right? Mister Zhao Hai has been accepted by a Transcending Tribulation Expert as a disciple. And Mister has also been named a Supreme Leader of the Machine Field. What else does Mister need from us?"

Hearing Louis, Zhao Hai's eyes couldn't help but shine. He discovered that he had underestimated Louis. He just became Huang Daoran's disciple two days ago and he just became the Supreme Commander. However, Louis was able to point it out right now. This caused Zhao Hai to elevate how he saw Louis. Being able to lead the Cross Sword Pirate Group and survive amidst being suppressed, Louis wasn't a simple man.

When Louis noticed that Zhao Hai's gaze had a profound meaning, he couldn't help but stare. Then he immediately understood what's going on, his facial expression couldn't help but change for a moment. Then he calmed down as he embarrassingly held his fist and said, "I have made Mister laugh. Naturally, I need to have some aces in my hand in order to survive."

Zhao Hai waved his hand and said, "This is none of my business. However, I really came here to cooperate with you. Commander Louis should be aware that I have my own planet and it's quite barren. But the planet has already been transformed by me and is suitable for habitation. The problem for me is that I have no one to live on the planet. I can only send undead there in order to grow grain and vegetables as well as rear some animals."

As he said this, Zhao Hai was observing Louis' expression. Sure enough, when Louis heard that Zhao Hai had a planet, he didn't seem to be surprised. His eyes just lit up for a moment before going back to normal. Then when he heard that Zhao Hai sent Undead in order to grow food on that planet, his eyes lit up once more. He looked at Zhao Hai and said, "Mister, what you're saying is?"

Zhao Hai smiled faintly and said, "I produced grain, butchered some beasts, and harvested vegetables. But I have nowhere to sell them. Originally, I wanted to sell them through the Ashley Family. But as Commander knows, the Machine Field isn't lacking in food. Moreover, the food market is controlled by the Big Families. Inserting myself into this market is impossible. Therefore, I came to Commander. Do you happen to need these things?"

Looking at Zhao Hai, Louis' eyes brightened before he laughed and said, "Mister, you've become aware of our situation, so you came here to look for me?"

Zhao Hai smiled faintly and said, "It's not only you who has cards. I can guarantee you that my grain, vegetables, and meat are of the highest grade. I can satisfy however much Commander wants. And I guarantee that it's comparable to the food in the Machine Field."

Louis stood up and walked back and forth. Then he turned to Zhao Hai and said, "Can I ask what Mister wants in return?"

Zhao Hai smiled faintly and said, "I'll accept anything. Although I have a planet, it still lacks a lot of things. The only thing present there are Undead. I can accept anything that the Commander wants. Of course, I won't buy grain, vegetables, and meat."

Louis was elated, he said, "Is Mister serious?"

Zhao Hai smiled faintly and said, "Of course. Actually, I'm aware that you have a lot of good things. After all, the Cultivation Realm's ships pass through this area, bringing items of great value. I'll use food in order to trade with these things according to market price. What do you think?"

Louis looked at Zhao Hai, then he gave a deep vow and said, "Louis thanks Mister. You'll be helping us greatly. Also, is it possible for mister to get us some cloth and salt? I'll buy them at a high price."

Zhao Hai smiled faintly and said, "No problem. However, the Commander needs to state how much you want. Only then can I prepare."

Louis was very happy, "Louis thanks Mister's kindness. Mister can rest assured, my payment won't disappoint you."

Zhao Hai smiled faintly and said, "I believe in Commander. Then it's settled. Commander, please list out how much you need."

Louis nodded, then he paused for a moment before asking, "How will Mister transport these things? If you need help, don't hesitate to tell me."

Zhao Hai smiled faintly and said, "There's no need. It's alright as long as you tell me how much you need. I'll send it to you as soon as your payment is ready."

Louis nodded, "Alright. Mister, wait a moment." Then he turned around and left the room. Before long, he came back as he smiled faintly and said, "Mister, please come with me. I made my people prepare some food and wine. Let's chat while eating."

Zhao Hai smiled faintly and said, "Alright, but there's one thing I need from the Commander. Don't tell others about our transaction today."

Louis nodded and said, "Mister can rest assured, I've already told my people to keep quiet." Then Zhao Hai followed Louis out. Before long, they reached a ship that has a restaurant inside it. Food and wine have already been prepared. However, the food and wine weren't something to boast about.

However, Zhao Hai didn't care and just sat down and drank some of the red wine with Louis. Actually, to the two, the food and wine on the table wasn't that important. They were just waiting for Louis' people to compute how much resources they needed.

After one hour, Xiao Ling entered the restaurant. She went to Louis' side and said, "Brother-in-law, here's the count." Then she handed a piece of paper over to Louis.

Louis looked at the paper before turning to Zhao Hai and saying, "Mister, please take a look. These are the things that we need. I don't know if Mister can provide them?"

Zhao Hai read the paper. Louis really needed a lot of things. Just the grain alone numbered several hundred thousand jin(0.5kg). The vegetables, meat, salt, and cloth were comparable in scale.

Zhao Hai smiled faintly and said, "Alright. Then I'll have to ask Commander to prepare your payment. Three days later, I'll return to give you your items."

Louis nodded, then he stood up and gave Zhao Hai a salute, "This Louis will never forget Mister's great kindness. Mister, there's no need to call me Commander, just call me Louis."

Zhao Hai smiled faintly and said, "Then I'll be impolite. Farewell." Then his figure vanished in place. Xiao Ling looked at Zhao Hai disappearing, her eyes couldn't help but become round as he said, "This is the mysterious spatial ability?"

Louis smiled faintly and said, "Spatial abilities aren't that mysterious, it's just that Mister Zhao Hai is too powerful. Alright, Xiong Ling, make everyone prepare the goods. We finally have something to eat. You could also wear new clothes."

Xiong Ling happily turned around and left. Meanwhile, Louis stayed in the restaurant for a while before walking out and returning to his room. Then he took out a computer and then called over a few people to meet him.

The people who Louis called were the elders in the Cross Sword Pirate Group. These were the people with the real strength and had grown up together with him. Louis considers these people as his close brothers. These were the people that Louis would call if there's something important to discuss.

Before long, a few people arrived at Louis' room. A large man looked at Louis and said, "Boss, why did you call us over? And why did you tell everyone to prepare the goods? Did you manage to get us some food?"

Louis stared for a moment and said, "Peter, sit down. I called you over because I have something important to discuss." The people present saw that Louis was serious, so they didn't delay and sat down.

Louis told them about his meeting with Zhao Hai. He didn't hide anything from these people. After he finished talking, he looked at his brothers and said, "What do you think Zhao Hai is planning?"

Several people knit their brows. Peter opened his mouth first and said, "That Zhao Hai certainly has a lot of spatial equipment. Otherwise, he wouldn't be able to transport a large amount of goods to this place. Am I correct Boss?"

Louis glared at him impatiently and said, "I didn't ask about that." Peter grunted before sitting back down. He looked left and right as though he had a nail in his butt.

Louis just gave Peter a glance and left him alone. Among these brothers, Peter was the strongest Warrior. He's also a Mech expert. But apart from these two things, he didn't have anything else. Moreover, this fellow has a little bit of something in his head. However, since everyone grew up together, they understood him and didn't mind his antics.

Before long, a gentleman wearing a uniform opened his mouth. His eyes lit up suddenly and said, "Boss, when you were talking to Zhao Hai, he mentioned several times that he has a planet, and there is no one there, right?"

Louis smiled faintly and said, "Correct. Little Ling's response is fast. I called you all here to discuss this. Zhao Hai mentioned it several times. He has a planet and there's no one on that planet. Does this mean something?"

The Little Wen that Louis mentioned was named Tang Wen. He's also someone that grew up alongside Louis. And he had been very smart since he was a child. Among the people present, he was a kind of a strategist.

As soon as the others heard Louis and Tang Wen, they also gawked. Then their expressions lit up. One of them looked at Louis and said, "Boss, you mean Zhao Hai wants to win us over? He wants us to live on his planet?"

Louis turned to the person who talked and said, "What Little Wu said was right. I think so too. But I'm not sure yet. So I plan to get in touch with Zhao Hai more and explore his intentions."

Little Wu, named Tang Wu, was Tang Wen's younger brother. He couldn't be underestimated, but he wasn't as smart as his brother. He's a commander of a squadron of the Cross Sword Pirate Group. And his ability to command troops was very good.

Tang Wen knit his brows and said, "Zhao Hai's position in the Machine Field is now very high. He's even labeled as the Machine Field's Supreme Commander in the Six Realms Battlefield. If he needs people for Yalei 2, then he only needs to say a word and people would flock over to him. He doesn't need us. Moreover, from what I heard, Yalei 2 is a barren land. It's uninhabitable."

Louis opened his computer, opened the star map and quickly found Yalei 2. He looked at the notes on the star map and nodded as he said, "Right, I saw that too. Because of this, I didn't pay attention to it anymore. But today Zhao Hai said that he has already transformed the planet. And had already grown food on it."

Tang Wen knit his brows. Naturally, he doesn't believe Zhao Hai. It's no wonder, transforming a planet isn't so easy. Experiments needed to be performed and investments had to be made. Yalei 2's temperature was very low. The Machine Field had several methods to change this.

First was to use a huge power heater, which was like a large air conditioner. But instead of supplying cold air, it constantly blew hot air.

However, using such a huge power heater for several days needed a large amount of energy. Most importantly, this heater needed to be powered constantly or else the planet's temperature would

quickly return to its previous state. In other words, installing this power heater was akin to burning money. Moreover, this heat wouldn't only heat a building, but an entire planet.

The second method was much more difficult. It was to use a large number of battleships. After making careful computations and calculating a path, battleships could pull the planet nearer to a star in order to make it warm.

However, the difficulty of this task was huge. You wouldn't only need to calculate the path of the planet, you would also calculate the gravitational effects of this move to the planets as well as the star. Making one mistake in this aspect would lead to dreadful consequences. Therefore, this method stayed in writing and has never been put to practice.

Besides these two methods, there's also another method. It was to just make dwellings on the planet. Each dwelling would have a magic shield that separates the dwelling from the temperature outside. Then there would be smaller heating devices in these dwellings. But in this case, each dwelling couldn't be made too big. Moreover, it was impossible for these dwellings to farm grain. This arrangement could only be used in meteors or asteroids. And it was for military use.

However, no matter which of the three methods, it was impossible for them to cause a complete transformation of a planet. Because of this, Tang Wen wasn't optimistic about what Zhao Hai said about the planet growing some grain.

Chapter 1354: Zhao Hai's Worry

Then suddenly, Tang Wu's expression changed as he stared at the Star Map. Louis saw this and asked, "Xiao Wu, what's wrong?"

Tang Wu pinched the star map, zooming out the display. After looking at the bigger map, he let out a long breath and said, "Sure enough, this Zhao Hai is formidable. Quite a scheming fellow."

Louis and the others were somewhat confused by Tang Wu's words. Then Tang Wen said, "Xiao Wu, what are you saying?"

Tang Wu pointed towards the Star Map, then he turned to Louis and said, "Boss, take a look. Don't just look at Yalei 2. Make sure to take its surroundings into account."

Upon hearing Tang Wu, Louis and the others stared. Then they looked at Yalei 2 as well as its surroundings. It didn't take long for them to be startled. Yalei 2's position as well as its environment made it easy to defend but difficult to conquer.

Louis let out a sigh, then he said with a serious voice, "Zhao Hai is indeed formidable. Who would have thought that such a remote and barren region would have such a place built in it. It seems like he didn't pick Yalei 2 at random. Has he really transformed Yalei 2?"

Tang Wen's current expression carried a trace of uncertainty. He solemnly said, "It has just been over a year since Zhao Hai ascended to the Machine Field. Yet his development has been extraordinary. And now that he has a base, what does he want to do?"

Tang Wu shook his head and said, "Big Brother, it's not as complex as you imagined. You should also see the asteroid belt just outside Yalei 2. It's quite enormous. With an asteroid belt that size, ships simply cannot go through it. If Zhao Hai made a ship on his planet, it wouldn't be able to come out. We could see the planet as a purely defensive base. It couldn't make any offensive maneuvers."

Tang Wen looked at Yalei 2's position and then nodded and said, "That's true. If Zhao Hai wants a safe base, then Yalei 2 is the most appropriate. Look, as long as Zhao Hai constructs monitoring stations in nearby asteroids, then he would be able to see the enemy no matter which angle they attack from. Moreover, the moons outside Yalei 2 can form a fortress. This would discourage people from attacking the planet. Is Zhao Hai really just planning to build a base here?"

Louis turned to Tang Wen and then smiled faintly as he said, "This might not be the case. Ah Wen, you forgot that Zhao Hai is a spatial ability user. Others might not be able to come in and out of Yalei 2, but he could. With his strength, along with his undead, his offensive strength couldn't be underestimated."

Tang Wen nodded and then said, "I forgot about that. If Zhao Hai really wants to use it as a base, then he would certainly put great effort in building it. Maybe it could really be transformed. But why did he come to us? With his status and influence, once he opened his mouth, people from the Machine Field would flock towards him."

Peter, who never spoke, suddenly said, "What else is there to think about? Those Machine Field fellows only want good things for them. If Zhao Hai asked them for help, then he would be letting snakes in his base. Don't forget, these are the same fellows that plotted against the Pirate Paradise."

After hearing Peter speak, everyone stared at him. This caused Peter to be somewhat terrified. He looked at Louis as he stuttered a little, "Bo-Boss. I really don't know how to talk. Don't mind my words."

This time, Louis didn't blame Peter as he laughed and said, "Haha, Peter, even if you're not smart, you still say some amazing things from time to time. What you said this time makes a lot of sense. I reckon Zhao Hai was also guarded against the Machine Field's higher-ups. After all, those higher-ups planned to remove him. Only upon knowing that they couldn't do anything did they change their mind."

Tang Wen and the others nodded. Tang Wen had an excited expression as he said, "If that is really the case, then it's possible that Zhao Hai wants to win us over. Boss, you need to probe Zhao Hai's intentions more. If he really wants to win us over, then we might be able to remove our identity as pirates."

But this time, Tang Wu frowned and said, "But this seems unreasonable. We all belong to the same group. Isn't Zhao Hai afraid that we would usurp his power once we reach Yalei 2?"

Louis shook his head and said, "He's not afraid. Also, with his strength and position, how could we dare do anything? Think about what happened today. Without us knowing, he was able to appear here. If he really wanted to take our lives, he could do it anytime. Although we're also practitioners, Zhao Hai's strength far surpasses us. We are good at fighting with mechs and battleships, but these two things are completely useless against Zhao Hai. Therefore, he won't be afraid of us usurping his control over the planet."

Tang Wen nodded and said, "That's correct. What kind of person is Zhao Hai? He was able to face a Transcending Tribulation Expert without falling. So how could such a person be afraid of us? Boss, didn't Zhao Hai say that he'll come in three days? How about you probe him at that time?"

Louis nodded and said, "I'll do that. But nobody should tell anyone else about this matter before it's confirmed. Also, keep an eye out for the other guys in the following days. If this matter goes through, we will deal with those fellows first!"

Tang Wen and the others nodded. The people that Louis was talking about were the pirate groups that had been bought by the other realms in the past few years. These people had already been marked by the Cross Sword Pirate Group. But these people were totally unaware of it. Louis' group could deal with them anytime they wanted.

At this time, Zhao Hai had already returned to the Space and was spying on Louis and the others. Hearing what Louis said, Zhao Hai couldn't help but let out a long breath before laughing, "Goodness, I didn't expect them to be this clever. They were able to guess my intentions even if I didn't give them that many clues. Hahaha, this is great!"

Laura chuckled as well as she said, "I didn't expect Louis and his group to be this formidable. This is also good. Brother Hai, what do you plan to do next?"

Zhao Hai smiled faintly and said, "I'll meet them three days later. Since he wants to probe me, I might as well push the boat along and take them to Yalei 2 to take a look. I don't believe that they won't move. As long as they agree, everything else would be easy. With their population, Yalei 2's problem would be solved."

At this moment, Lizzy opened her mouth and said, "Brother Hai, I think that even if Louis and the others agree to migrate, we couldn't forget about the Pirate Paradise. People from all walks of life live in the region and these people are connected to all six realms. It can be said that the region is well-connected. If we give up on it, then we would be losing an important source of information. The disappearance of the Cross Sword Pirate Group would also arouse suspicion. We can establish a transmission formation in that place. This way, there would be one more pathway towards Yalei 2."

Laura nodded and said, "What Sister Lizzy said is good. Brother Hai, we cannot just give up on the Pirate Paradise. If Louis agrees to migrate to Yalei 2, ask him to leave behind some people in the Pirate Paradise. We can always pad their numbers with Undead. What do you think?"

Zhao Hai nodded and said, "Alright, this is also good. Also, are the items on the list prepared? We have to provide everything on that list. This way, Louis will see us as trustworthy people."

Cai'er smiled and said, "Young Master, rest assured. Everything has been taken care of."

Zhao Hai nodded, then he said, “Master should be returning to the Cultivation Realm these days right? If we can do business with the Pink Clouds Pavilion, we would be able to get items for the Space. This will be important for our development. At this point, the Space produces a lot of things. We alone wouldn’t be able to digest them all. We might as well sell it to the Pink Clouds Pavilion.”

Laura nodded and said, “Margaret also brought some technological products to the Space through various channels. However, it’s still not enough. The Space can make products on its own, but it has to be made by the Processing Machines, which is a waste. Also, not only can we buy through the Pink Clouds Pavilion, Louis and the others also have items that we can buy. This way, everyone inside the Space could live in the same standard as the outside world.”

Zhao Hai nodded and said, “Good. However, we don’t have to push the people in the Space to a certain direction. Let’s just allow them to develop on their own. The current population of the Space isn’t much lower compared to the World of Cultivation. If everyone develops in the way they are interested in, then sooner or later, the Space’s civilization would surpass the World of Cultivation. And as long as the Space gets upgraded, I would have more confidence in exploring the mystery of the Six Realms Battlefield.”

As soon as they heard Zhao Hai, Laura and the others immediately turned solemn. To be honest, the Six Realms Battlefield was Zhao Hai’s greatest worry at this time. Although the Six Realms Battlefield doesn’t look as mysterious as the Space, it was still a subspace. And creating such a thing wasn’t something that an ordinary person could do. At the very least, Zhao Hai hadn’t heard of anyone in the World of Cultivation that was able to do it. Even legendary experts of the World of Cultivation, the Immortals, couldn’t accomplish it.

In other words, there was an expert much stronger than Immortals out there. This person might be Zhao Hai’s biggest enemy. If they can create a subspace like the Six Realms Battlefield, then they might be able to see through Zhao Hai’s Space and kill him. For Zhao Hai, this was a huge threat!

Chapter 1355: Already Waiting For Those Words

Louis walked around his room. Today was the day that Zhao Hai agreed to return. He was really afraid that Zhao Hai wouldn’t come so he was a bit nervous.

Besides Louis, Tang Wen and the others were also in the room. Louis was determined that if Zhao Hai came, he would probe Zhao Hai’s intentions and see if Zhao Hai would accept them. However, this matter couldn’t be handled by him alone. Therefore, Tang Wen and the others were present.

Tang Wen looked at Louis' expression, he smiled and said, "Boss, you don't need to be anxious. If Zhao Hai really wants us to go to Yalei 2, then he would definitely come."

Louis stopped as he forced a smile and said, "I'm aware of that, but my heart couldn't calm down. If Zhao Hai really intends to do what we think he would, then we would attain our long-time dream. If he doesn't, then..."

Tang Wen looked at Louis thinking about positive and negatives and couldn't help but secretly sigh. In fact, they were also feeling uneasy. After all, their biggest wish was to remove their pirate status and appear on any planet in the Machine Field.

In the past, nobody wanted to support them. Additionally, they had lived in this place ever since they were born, so they gradually accepted their lifestyle.

But now, Zhao Hai suddenly appeared and gave them hope. And seeing that this hope was most likely to become true, they couldn't help but get anxious.

If there was no chance, then a negative outcome wouldn't matter. However, if hope was present, their disappointment would certainly be immense.

The others didn't know how to coax Louis. In fact, they had similar feelings to Louis, so they couldn't just stop him from being nervous.

At this time, footsteps could be heard outside. The group stared at the door, then they saw Xiao Ling walking towards the door, saying, "Brother-in-law, come quick. Zhao Hai has arrived."

Upon hearing Xiao Ling, Louis let out a long breath as he nodded and said, "Alright. It's time to get our answer." Then he turned to the others and said, "Let's go meet Mister." The others nodded and followed Louis out.

Zhao Hai had actually known what Louis was planning to do. However, he didn't show anything on his face. He just calmly waited for Louis and the others to come out. Seeing Louis, Zhao Hai cupped his fist and said, "Commander Louis, good day."

Louis quickly replied, "Mister Zhao Hai, good day to you as well. Mister, just call me Louis, you're too polite."

Zhao Hai smiled and said, "Alright. And these are?"

Louis proceeded to introduce everyone to Zhao Hai. Then the two exchanged greetings before entering Louis' office. After settling down, a robot served them tea before Louis looked at Zhao Hai and asked, "Mister, have you returned to trade? Can we see the products first?"

Zhao Hai smiled and said, "No problem." Then he took out a bag of grain, a basket of vegetables and meat, and a box of salt.

Louis opened the bag of grain. Since the grain was grown inside the Space, naturally there was no problem. The quality was also very good. Louis was very satisfied as he put the bag down and shifted his attention to the vegetables, meat, and the salt. All of them were good products.

Louis put everything back down as he looked at Zhao Hai and said, "I didn't expect Mister to prepare them in a short period of time. Mister, you can rest assured, our payment wouldn't disappoint you. Mister, please come with me."

Zhao Hai nodded, then he stood up and followed Louis. Then the group flew out of the residence and went to a meteorite not far away.

This meteorite was different from the place where Louis and the others lived. Several buildings were in this meteorite. But at first glance, Zhao Hai saw that there were several magic cannons and missile launchers on these buildings. Apart from these structures, not a single civilian building could be seen.

Louis and the others flew towards the buildings. People were already there prepared to welcome them. They opened the door for Louis. This door was hidden behind a piece of boulder. This boulder looked nondescript. If it weren't for the people present, nobody would find anything special about the boulder.

Zhao Hai didn't care much about this and entered the meteorite along with Louis. Upon entering this meteorite, Zhao Hai understood that the entire body was hollowed out. Inside it was a huge warehouse.

Louis walked towards another door and placed his handprint on a scanner as well as turned a key. It took quite some time before the door opened.

Zhao Hai looked at the contents inside and couldn't help but gawk. Unexpectedly, all kinds of electronic devices were stored in this place.

Louis turned to Zhao Hai and said, "Mister, this warehouse is filled with electronic products that we have snatched or produced over the years. They range from portable computers to household appliances. They are all functional. We'll exchange these stuff for your goods. What does Mister think? If you agree, you can take them away. If something is broken, you can send them back to me at any time and we'll fix them. If you don't want some of them, then you can change it for another. We still have more things below."

Zhao Hai smiled faintly and said, "No need, I'll take everything. Once I operate my planet, these things would be very needed. Unfortunately, even if the planet has been transformed, I have nobody to settle it. Truly a pity."

Hearing Zhao Hai, the eyes of Louis and the others lit up. They exchanged meaningful glances before Louis turned to Zhao Hai and said, "Mister, you can depend on us. People who want to trade with us are very few."

Zhao Hai smiled faintly and said, "You have no choice but to be pirates. If you can live well outside, then who would want to be a pirate, right?"

Louis nodded and said, "Exactly, my ancestors were powerful families that have been forced to become pirates. Becoming commoners has become a dream for us. The moment we were born in the Pirate Paradise, we have been labeled as pirates. Therefore, our ancestors wanted us to become commoners. I have worked hard in order to achieve this dream. Mister, this Louis will be impolite and ask, are you willing to take us in?"

Zhao Hai turned his head to Louis as he smiled and said, "Mister Louis, what do you mean?"

Louis looked at Zhao Hai's expression and his heart couldn't help but jump. He didn't understand what Zhao Hai's current expression meant. However, words that had been said couldn't be taken back, so he looked at Zhao Hai and said, "Mister, you have a planet, Yalei 2, isn't that right? However, it's currently

uninhabited. If Mister doesn't mind our pirate background, our Cross Sword Pirate Group would be willing to settle on Mister's planet. Mister can rest assured. Although we are pirates, we know how to recognize gratitude. If Mister takes us in, then we would follow Mister's rules."

As Zhao Hai looked at Louis, he suddenly laughed. This caused Louis' smile to freeze. He thought that Zhao Hai was thinking that he was joking. Tang Wen and the others' expression also turned gloomy.

Before long, Zhao Hai stopped laughing. Then he tapped Louis' shoulder as he smiled and said, "I've been waiting for those words. Hahaha. Actually, I came here to invite you over to Yalei 2."

Upon hearing Zhao Hai, Louis stared. Then wild joy could be seen on his face as he asked, "Is Mister telling the truth?"

Zhao Hai nodded and said, "Of course I'm telling the truth. How could I joke about this matter? If you agree, I can immediately establish a transmission formation here and send people to Yalei 2. Rest assured, I've already transformed the planet. I even have some residences made."

Louis and the others cheered while tears flowed down their faces. Seeing their reaction, Zhao Hai smiled faintly and left them alone. He could understand their emotions.

Before long, Louis and the others calmed down and wiped their tears. Then Louis turned to Zhao Hai embarrassed and said, "We've made Mister laugh. But hearing this information is really exciting for us."

Zhao Hai smiled faintly and said, "It doesn't matter. I can understand. Right, it's better to see the place with your eyes. I'll take you to Yalei 2 so you can see it for yourselves."

Louis and the others nodded and then gathered together. Zhao Hai waved his hand as a white light flashed. Then the group disappeared from the warehouse. It was good that there was nobody else in the warehouse, or else they would be extremely shocked.

The next moment, Zhao Hai and the others appeared on Yalei 2. At this moment, the planet was very busy as the Undead were cultivating the field or herding the animals. Everyone appeared busy but the scene looked very peaceful.

At this point, the spiritual density of Yalei 2 isn't any lower than the Machine Field. It might even be a little greater. Moreover, the temperature of the planet has been adjusted by Cai'er to be suitable for human habitation. It wasn't overly cold nor was it overly hot. In the distance, a city filled with skyscrapers could be seen. Naturally, there were also other structures present.

As Louis looked in all directions, they felt that the place was very good. Zhao Hai looked at everyone and said, "Let's go and head to the city. Although the residences have been constructed, nobody has occupied them. However, I have some few friends helping me command the Undead." After he said that, he led the group towards the city.

Barlett and the others were the ones commanding the Undead. At this time, they were just doing remedial work since the city has been completed. Barlett and the others were wearing comfortable clothes and were living well. Although it hasn't been long since Yalei 2 has been transformed, they didn't suffer a bit while living here. Zhao Hai made sure that they would live good lives on the planet.

Chapter 1356: I'm Not A Good Person

At this moment, Bartlett suddenly saw Zhao Hai leading a group of people over. He immediately went forward and greeted them. Zhao Hai cupped his fist and said, "Elders, you've been working hard. Thank you for the trouble."

Barlett laughed and said, "It's not that hard. Seeing such a huge city being built by our own hands, we couldn't be happier."

Zhao Hai smiled faintly and then introduced Barlett to Louis and the others. After that, the group took a tour of the city. The planning for this city has been completed by the Space. This city can house more than 30 million people. All the public facilities that the city would need had already been built and the layout imitated the cities of the Machine Field. The greenery of the city was also very good. It can be said that it was comparable to any city in the Machine Field.

Outside the city was a vast farmland. There were grain fields as well as vegetable fields.

Besides these, there's also a huge herding ground for beasts. These beasts were purely bred for meat. Naturally, there are also the giant crabs. It's good that the city wasn't built too far from the sea. Besides farming, one could also use the sea to go fishing by boat.

In addition to normal structures in the city, Zhao Hai also reserved some huge areas for building various factories that might spring up in the future.

As Louis and the others observed the city, they could see that Zhao Hai meticulously prepared everything. And that he was hoping that Louis and the others would move over.

After looking through the entire City, Zhao Hai turned his head to Louis and the others and said, "Everyone, it's time to head back. You didn't notify your people that you're coming over. It wouldn't be good if we stayed here for a long time. They might suspect that I've done something."

Louis and the others nodded before gathering around Zhao Hai. After a white flash of light, the group returned to the warehouse. Nobody was present in the warehouse. Actually, it had only been two hours since they disappeared. The time that they were gone wasn't that long.

After returning to the warehouse, Louis and the others looked at each other. Louis was the first to take a bow as he said, "Mister, thank you for trusting us. I can promise you that the Cross Sword Pirate Group is willing to move to your planet and become your people."

Zhao Hai smiled faintly and said, "Alright, then it's settled. The transmission formation should be up in a few days. However, I still need to take these products. I'll also leave the food you asked for. It's best if you keep this thing a secret first. We shouldn't alert others."

Louis and the others complied. Then Zhao Hai waved his hand and received everything inside the warehouse. Then he took out the grain and the other goods.

After doing this, Zhao Hai turned to Louis and the others and said, "Let's head back to your place. There are still some things I want to discuss with you."

Louis and the others complied. Then they led Zhao Hai out as they returned to Louis' room. After settling down, Zhao Hai looked at Louis and the others and said, "Since you agreed to settle in Yalei 2, then you're now considered to be my people. As you saw, you can live in Yalei 2 as soon as you get there. But I hope that you won't give up on this place."

Louis and the other stared. With a confused expression, Louis asked, "Mister, what do you mean?"

Zhao Hai replied, "At this time, the Pirate Paradise is an intersection between different realms. The flow of information in this place isn't inferior to the outside. In addition, the Pirate Alliance is a special existence. If you keep a few people here, then it might lead to an unexpected surprise later on. Naturally, you can move the majority of your population to Yalei 2. Just leave behind enough people to preserve your operations. Moreover, you can rotate which people would stay here. I can also send Undead to pad your numbers so that people wouldn't notice any change. What do you think?"

Louis nodded and said, "Just as Mister said, it would be a waste to give up on this place. Then I'll do as Mister says. I'll first transfer our families to Yalei 2, leaving some combatants behind. Most of our factories can also be transferred to Yalei 2. Only two ship repairing stations and one mech station would be left. What do you think?"

Zhao Hai nodded and said, "I'll leave this to you. To tell you the truth, you don't need to leave a lot of people behind. I can just send the Undead to replace them. This way, your people wouldn't have to suffer."

Louis nodded, "Alright, then I'll have to depend on Mister. We'll immediately arrange everything."

Zhao Hai nodded, "Good, then I'll leave that to you. I don't have time to assist you in moving to Yalei 2, but there are Undead that can guide you when you get there. There's also a large number of supplies for you so you don't have to worry about your daily necessities. A transmission formation will be built here, but you have to choose where to place it. You can send the first batch of people to Yalei 2 and set up some factories. Other things can be shipped later. Small items can be sent through the transmission formation. As for the larger ones, just tell me and I'll send them over. You'll have to take care of the rest since I don't have that much free time."

Louis nodded, "Alright. Mister can rest assured, we'll take care of it."

After he heard that, Zhao Hai nodded and said, "If you need anything, just talk to Barlett and the others. You can also talk to the Undead. I'll leave behind 100 Undead to help you."

Louis gave a nod. Then Zhao Hai stood up and said, "I'll head back first. I'll take out the Undead once we're outside." Louis and the others complied. When they got outside, Zhao Hai waved his hand and took out 100 Undead. These Undead looked no different than normal humans.

Zhao Hai referred to the Undead and said, "These are the Undead that would replace your people here. Don't worry, replacing 10 to 20 million people isn't a problem. You can rest assured and move to Yalei 2."

Louis and the others nodded, but then their expression suddenly changed. Zhao Hai knew what they were thinking but he didn't care. He just patted Louis on the shoulder and said, "Louis, ever since the last time we met, I already knew that you're a smart person. Moreover, I knew that you wanted to leave this place and become ordinary people. Most importantly, you haven't done a lot of wicked things. I sought you for these reasons. I can tell you that this Zhao Hai isn't a good person. However, I'm not someone with no principles. In my eyes, there are three kinds of people in the world; friends, enemies, and bystanders. I treat my friends very well but I'm cruel to my enemies. As for bystanders, I don't care about them. I treat you as a friend, so I'm willing to help you and get you settled in Yalei 2. Although there aren't too many rules in Yalei 2, it still has its own laws. I hope that you can control your people and make them remember that they are now commoners of the Machine Field and are no longer pirates."

Louis and the other nodded. Then Louis said, "Mister can feel relieved. We understand completely. Since Mister treats us as friends, then we wouldn't make you lose face."

Zhao Hai nodded, then he cupped his fists towards everyone and said, "Alright, then you take care. Good bye." Then he vanished from the asteroid.

Louis and the others looked at the direction where Zhao Hai disappeared with expressions full of gratitude. At this time, an Undead walked towards Louis before bowing, "Commander Louis, I'll have to ask you to arrange living places for us. This way, people wouldn't see anything wrong. If you need anything later, don't hesitate to tell us."

Louis looked at the Undead in surprise as he exclaimed, "You can talk?"

The Undead smiled faintly and said, "Of course. Young Master treats us as our own race, not just simple tools. We even kept our names while we were alive. My name is Legie."

Louis and the others were startled. They have never seen talking Undead before. However, they have heard about them. There are some Cultivators in the Devil realm who catch spirit ghosts. These ghosts were as smart as humans but they didn't look like one. These ghosts were intangible. An Undead that's intelligent and could talk was something that Louis and the others didn't expect.

After Legie said those words, he stopped speaking. Louis turned his head to Tang Wu and said, "Little Wu, provide them with a place to rest. Remember, don't let anybody know about them for now. Our relocation is a secret and it needs to be kept secret." Tang Wu nodded and then led Legie and the others away.

Louis and the others returned to the meeting room and then sat down. They didn't speak for some time. Before long, Tang Wu returned. Louis looked at Tang Wu and said, "It's settled?"

Tang Wu nodded and said, "They have been settled. There's an abandoned ship nearby that people made into a house but never settled. So I let them live there. Those guys don't need to eat or drink, so they don't have many requirements for the house. They're very easy to settle in."

When he heard this, Louis sighed and said, "We still underestimated Mister. He just said that 10 to 20 million Undead isn't a problem. These Undead didn't just come out of thin air, and they're humanoid...." Louis suddenly didn't know what to say next.

Tang Wen also sighed and said, "It seems like Mister has been a God of Slaughter in the lower realms. No wonder Mister isn't afraid of us doing anything wrong. If we dared cause trouble, then he could just turn us into people like Legie."

Louis and the others nodded. Louis looked at everyone and said, "Mister showed us all of this because he trusts us. And he even gave us the status of commoners. If we settle in Yalei 2, then we couldn't lose his trust. We need to prepare well in the next few days and migrate as soon as possible."

Tang Wu nodded and said, "Right, all these things, no matter what they are, would startle people if they're revealed. It seems like Mister trusts us a lot. But Boss, I don't know if you have noticed, Mister carefully crafted Yalei 2's temperature to be comfortable for humans to live in. However, I don't see any magic formation nor heating devices. Isn't that strange?"

Louis nodded and said, "I also noticed that. It's really strange. Are the records about Yalei 2 incorrect?"

Tang Wen shook his head and said, "No, Yalei 2's previous records are absolutely correct. But there's something you didn't notice." After he said that, Tang Wen took out his computer and then projected an image he recorded himself. The quality of the recording wasn't very good.

Tang Wen pointed towards the projection and said, "Haven't you noticed? Yalei 2 might have a lot of grain and vegetables, but these grain and vegetables aren't present in the Machine Field. Moreover, the planet has these flowers and trees that the Undead seem to avoid when herding animals or constructing houses." Then Tang Wen pointed towards the colorful flowers and trees.

Louis and the others knit their brows. To be honest, they haven't paid any attention to these things. Seeing their reactions, Tang Wen added, "I have looked into these flowers. They look ordinary and don't smell special. Although they are somewhat attractive, what's special about them is that they emit a faint heat. This heat wasn't from being exposed to the sun. This heat came from the flower itself. I think the planet's temperature has something to do with these flowers."

Louis and the others were startled. Then Tang Wen gestured towards the spirit tree and said, "There's also this tree. This tree looks attractive. Although it might look fake, it was actually a real tree. Moreover, the spiritual qi surrounding this tree is very rich. Being near this tree made you feel comfortable. And as I was paying attention to these two plants, I noticed Mister looking at me with a profound look. Therefore, I am very sure that these two plants are unique to Mister. And they're very essential to transforming Yalei 2."

Louis and the others looked surprised at Tang Wen. Tang Wen looked at Louis and the others and said, "Boss, this is an absolute secret. Don't mention it to anybody. Otherwise, it would bring trouble to Mister."

Louis let out a long breath. Then he nodded as he turned to the others and said, "You hear that?" Everyone nodded.

Chapter 1357: Zhen Ling's Plan

Zhao Hai sat in the Space while looking at Louis and the others. Louis knowing what he was doing pleased Zhao Hai. There's also Tang Wen's observational skills. Tang Wen was truly a good candidate to be a strategist.

Talents, what talents! Zhao Hai sighed then he turned to Laura and said, "These guys are really smart. But I hope that they can follow what I said and won't let me down."

Laura smiled faintly and said, "Don't worry about them. Your actions today can be seen as a show of grace and power. They wouldn't ever think about wronging you."

Zhao Hai nodded and said, "Let's hope. If they really plan to do something, then I'll be impolite."

Laura smiled faintly and didn't make any noise. Zhao Hai moved on as he said, "You should make preparations to set up the transmission formation as soon as possible."

Laura nodded and said, "Don't worry about it. All the materials for establishing the transmission formation have already been brought by Legie's group. They also know the method to make a transmission formation. There will be no problem."

Zhao Hai nodded, then he said, "How about Yalei 2? The transmission formation area should be built as soon as possible. A few more transmission formations would be made there, which would be very useful for the future."

Laura nodded, "Rest assured. By the way, the transmission formation to the Sand Island has also been built. It's inside the castle." Zhao Hai nodded. There were also castles built in Yalei 2. A mountain not far from the city has been designated as Zhao Hai's territory. He prepared this area for Xiong Li and the others.

Zhao Hai nodded and said, "That's good. Once Louis and his group enter Yalei 2, things would become easier. I'll ask them to build the peripheral defense system of the planet. When this happens, I'll have to rely on you, Margaret. Those fellows are experts in this field."

Margaret nodded and said, "Rest assured, I know what to do."

Just as Margaret finished talking, his expression suddenly changed. Then he waved his hand, causing Laura and the others to look at him. Zhao Hai turned his head to Cai'er and said, "Cai'er, Master pressed the jade pendant. See if the Master is present." Cai'er complied as the image on the monitor changed.

Before long, Huang Daoran's figure appeared. He was currently sitting inside a room along with a beautiful woman.

Zhao Hai gave a gentle nod and then he said, "It seems to be the Pink Cloud Pavilion's Master, Zheng Ling. Alright, I'll have to go see Master. Laura, I'll leave things here to you." Laura nodded before Zhao Hai's figure disappeared from the Space.

It has been two days since Huang Daoran returned to the Cultivation Realm. In these two days, he has been communicating with the Great Sects. He was aware that even if he accepted Zhao Hai as a disciple, he was still seen by the Great Sects as a disgrace. He talked with the sects not just to have them forgive him, but also to stop them trying to deal with Zhao Hai.

Huang Daoran also knew why these sects wanted to deal with Zhao Hai. Zhao Hai slapped the face of the Cultivation Realm. But now that Zhao Hai had become Huang Daoran's disciple, he could be regarded as partially from the Cultivation Realm. Huang Daoran told the Great Sects that he hoped to win Zhao Hai over and have him move to the Cultivation Realm.

In this case, the Great Sects accepted it with vigor. The Cultivation Realm liked to suppress geniuses of the other realms. However, Zhao Hai's situation was a bit special. No ordinary person could suppress him. Huang Daoran was a Transcending Tribulation Expert and even he couldn't do anything to Zhao Hai. This fully explained Zhao Hai's strength. Therefore, suppressing Zhao Hai has become a very annoying matter.

If they have hope of pulling Zhao Hai over to the Cultivation Realm, then the Great Sects would be fine with it. Even if Zhao Hai didn't join a sect and becomes a Rogue Cultivator, his presence would still increase the strength of the Cultivation Realm. Don't forget, Huang Daoran was also a Rogue Cultivator. In the end, he would still have to listen to the Great Sects.

So when Huang Daoran said that he would try to bring Zhao Hai over to the Cultivation Realm, the Great Sects agreed. Actually, Huang Daoran had no intentions of pulling Zhao Hai over. He knew that Zhao Hai wouldn't really join the Cultivation Realm because he was planning on making his own power. This made it impossible for him to join the Cultivation Realm.

But since Huang Daoran's impression of Zhao Hai was very good, he made sure to make him look good in front of the Great Sects. This way, he would be able to provide protection for Zhao Hai. Huang Daoran knows that Zhao Hai was still developing his own influence. Once this period passes, even powerful experts would have to think twice if they planned to make a move on him.

Although Huang Daoran thinks that Zhao Hai wouldn't be able to catch up to the Great Sects immediately, he believes that Zhao Hai could if given enough time.

After lobbying for several days, the Great Sects agreed to temporarily leave Zhao Hai alone. Then Huang Daoran returned to the Pink Clouds Pavilion and met with Zhen Ling.

Zhen Ling's recent days haven't been better. Huang Daoran failed in his two attempts to deal with Zhao Hai. And in the end, he was compelled to receive Zhao Hai as a disciple. This was a huge attack to his reputation. And in turn, it affected Zhen Ling.

Originally, the other families in the Pink Clouds Pavilion had a lot of opinions regarding Zhen Ling being the Pavilion Master. In their view, each one of them were better leaders than Zhen Ling. However, kicking Zhen Ling out of the Pavilion was impossible. Firstly, under her leadership, the Pavilion became very profitable. Secondly, Zhen Ling's prestige among the Pavilion members was very high. Thirdly, there was Huang Daoran backing her up. Although the other families also had their own Transcending Tribulation Expert, these experts couldn't necessarily take Huang Daoran down. So even if they didn't like Zhen Ling leading them, these families couldn't do anything.

But now, a great opportunity presented itself. Huang Daoran's reputation had taken a huge hit. These people immediately made their moves. Although Zhen Ling made some preparations for this, her preparations weren't enough. Therefore, she was now forced to be passive. Fortunately, Huang Daoran came back uninjured. Or else she wouldn't have great days ahead.

Zhen Ling didn't expect Huang Daoran to call her over the moment he returned. Moreover, he told her that Zhao Hai was willing to do business with them.

Just as Zhen Ling was confused about what was happening, Huang Daoran took out a jade pendant and pressed a button on it. Seeing this action, Zhen Ling stared at Huang Daoran. Then at this time, a white light suddenly flashed. Once this white light vanished, Zhao Hai was already present.

When Zhao Hai came out, he greeted Huang Daoran, "I have seen Master."

Huang Daoran nodded, then he said, "Little Hai, this is Pavilion Master of the Pink Clouds Pavilion, Master's nominal disciple, Zhen Ling. Master already told her that you're planning to do business with her."

Zhao Hai nodded, then he turned towards Zhen Ling and said, "Zhao Hai has seen the Pavilion Master."

Zheng Ling stared. Then she immediately responded. When Huang Daoran was sent to deal with Zhao Hai, she already got information about him. Naturally, he could recognize Zhao Hai's face.

Zheng Ling hastily stood up and returned the gesture and said, "Zhen Ling has seen Mister Zhao Hai."

Huang Daoran looked at the two and then said, "You two, don't be so polite to each other. You're both disciples of this old man. You can call yourselves Senior Sister and Junior Brother."

Zhao Hai nodded, he turned to Zhen Ling and said, "Senior Sister, I came to discuss business with you. This Junior Brother has many kinds of spirit wine in hand and I want to cooperate with the Pink Clouds Pavilion. What do you think?"

Upon hearing Zhao Hai, Zhen Ling's eyes lit up. Then she replied, "Spirit wine? Junior Brother, did you say Spirit Wine?"

Zhao Hai nodded and said, "It is Spirit Wine. Moreover, it's very fragrant. Master has tasted it, you can ask what he thinks."

Zhen Ling turned her head towards Huang Daoran. Huang Daoran was smiling as he said, "This kid is too polite. His Spirit Wine is much better compared to the ones we see here in the Cultivation realm. He also asked your Martial Uncle to taste. Little Hai, the Pink Clouds Pavilion, and the Profound Clear Sect would cooperate in this business. After all, it's too big for the Pink Clouds Pavilion to eat on its own."

Zhen Ling's eyes shone as he said, "Uncle Huang, you're really planning to involve the Profound Clear Sect? If this is the case, then I have an idea. And I need your help."

Huang Daoran nodded. Then Zhen Ling opened her mouth and said, "Uncle Huang, as you know, the other families in the Pavilion are starting to get restless. They're unhappy with me being at the head of the business. If we can really cooperate with the Profound Clear Sect in this business, then I'd like to separate from the Pavilion and go independent. What do you think?"

Huang Daoran stared. Then he said, "You want to go on your own? Little Girl, why would you have such an idea? You should know that your ancestors experienced untold hardships in establishing the Pink Clouds Pavilion. If you go on your own, then wouldn't you be leaving the wealth that your predecessors worked hard on?"

Zhen Ling coldly snorted and said, "Although I would be losing my shares in the Pink Clouds Pavilion by doing this, I would gain freedom in return. Moreover, I won't let those fellows live any better. Being the Pavilion Master, I was able to establish quite a lot of connections. If I left, then those people would definitely follow me. With this, our new merchant group would be established very quickly. The reason why I didn't separate in the past was because of many reasons. Firstly, it's because I don't have any competitive products to sell. Second, it's possible that those fellows would keep suppressing me. And third, is because I don't have a strong power as a backer. But if we have the Profound Clear Sect on our backs, then those fellows wouldn't have any guts to make a move on us. And with Junior Brother's Spirit Wine, our Merchant Group would grow in a very short period of time. When the time comes, we'll crush those people to death!"

Zhao Hai looked at Zhen Ling and saw that she had the same spirit as Laura. These two capable women were strong in their convictions. Moreover, their methods were very good!

Chapter 1358: Rich Person

Huang Daoran looked at Zhen Ling for some time before he laughed and said, "Alright, well said. You have been angry with those fellows all these years. If you're that confident, then I'll support you in leaving and going on your own. I think there's no problem with the Profound Clear Sect. If your Uncle Feng speaks, the Profound Clear Sect wouldn't be able to do anything. Little Hai is also not a problem. He'll only cooperate with you and not the Pink Clouds Pavilion. But you need to prepare things well."

When Zhen Ling heard what Huang Daoran said, she couldn't help but look at Zhao Hai. She was somewhat confused. Zhao Hai and Huang Daoran had a grudge before, to the point that they wanted to kill each other. But after becoming Master and Disciple, their relationship immediately became good? What's happening?

Zhao Hai smiled faintly towards Zhen Ling and said, "Senior Sister can rest assured. Just like Master said, I won't do business with other people, so you don't have to worry. We can do business as soon as everything has been set up."

Zhen Ling didn't expect Zhao Hai to speak of such good terms. She nodded and said, "Alright, then I'll prepare everything as soon as possible. When the time comes, I'll call Junior Brother."

Zhao Hai nodded. Then he looked at Huang Daoran and said, "Master, if there's nothing else, I'll have to ask to be excused. I still have some things I need to take care of."

Huang Daoran nodded. But suddenly, he said, "Right, Little Hai. Do you have things you need? If you do, just tell the Little Girl. She's still the Pavilion Master of the Pink Clouds Pavilion, so you might as well. Once she goes independent, it would be difficult for her to get some good things."

Zhao Hai stared for a moment. Then he smiled faintly and said, "If Master says so, then I'll have to be impolite. I want some medicinal plants, preferably precious ones. I also need ores, the more precious and rare they are, the better. I don't need a lot of them, just a little piece. The same is also true for the medicinal plants. I don't need a lot, just one of each is fine."

Zhen Ling gawked, then she nodded and said, "Alright, that wouldn't be a problem. I'll give them to you the next time we meet."

Zhao Hai smiled faintly and said, "Then I'll have to thank Senior Sister. Right, Senior Sister, this Junior Brother has plenty of crystal stones in hand. If you need them, I can hand them over to you."

Upon hearing Zhao Hai, Zhen Ling's eyes couldn't help but turn bright. Then she nodded and said, "Then I'll have to be impolite to Junior Brother. If you can, I'd want ten million crystal stones."

Zhao Hai smiled faintly and then waved his hand as he took out a spatial bag. She handed the bag over to Zhen Ling and said, "Senior Sister, take a look if the things in this bag is enough. If it isn't, then just tell me."

Zhen Ling received the spatial bag that Zhao Hai handed over and then took a look inside. Much to her surprise, the crystal stones inside the bag weren't the small ones that she was used to. Instead, these

were big pieces of crystal stones. And from their quality, they seem to be high grade crystal stones. This was out of Zhen Ling's expectations.

Although crystal stones were used as a currency in the Cultivation Realm, this mostly referred to the most ordinary low grade crystals. These crystals were no larger than walnuts. However, the value of crystal stones weren't judged by their size. A basketball sized low grade crystal isn't as valuable as a walnut-sized high grade crystal. If crystal stones were the same size, a high grade crystal would be equivalent to 100 medium grade crystals or 10 thousand low grade crystals. However, no person in the Cultivation realm were willing to exchange their high grade crystals for medium or low grade crystals.

Low grade crystal stones were single-use items. After using it once, the crystal would break and be unusable. Medium grade crystal stones were also consumables. Generally, medium grade crystals could be recharged ten times before it breaks. And the energy that can be stored inside couldn't be much. As for high grade crystals, they could be repeatedly reused. One could also leave the high grade crystal alone and it would absorb energy from the surroundings on its own.

Because of these characteristics, nobody was willing to exchange their high grade crystal with the lower graded ones. In the past, Zhao Hai had been using medium grade crystals. As for high grade crystals, he rarely used them.

But after coming to the Machine Field and becoming exposed to a higher density of spiritual qi, the quality of crystal stones that the Space produced has increased. Right now, the majority of the crystals that the Space churns out were high grade crystals. There were very few medium grade crystals among them. Therefore, it can be said that Zhao Hai was filthy rich. Even in the Cultivation Realm, he could be seen as a wealthy person.

Zhen Ling raised his head to look at Zhao Hai. Then she suddenly smiled and said, "Junior Brother is actually so rich. Good, then Senior Sister will be impolite and accept these. Although I'm the Pavilion Master and can move materials at will, each product needed to be accounted for. Senior Sister can sell to you at a low price, I can't give them to you. Or else it would ruin my plan. This is why I asked you for some money. From what I can understand, Junior Brother wants different types of plants. You aren't particular about quantity?"

Zhao Hai nodded and said, "Right. The more types the better. I don't care if there's only one of each type. As long as there's one."

Zhen Ling nodded, "Alright, I understand. Junior Brother can rest assured, I'll handle everything. Uncle Huang, I'll leave first. When I'm ready, I'll let you know. Uncle, I'll leave the Profound Clear Sect to you. The sooner you get in touch with them, the better."

Huang Daoran nodded and said, "Go. You don't have to worry about the Profound Clear Sect. Your Uncle Feng should almost be back. Little Hai, I'll deal with this matter. Just prepare the wine to be delivered. Right, you have to change the containers of those wines. They need to be inside jade bottles."

Zhao Hai was stunned for a moment. Then he smiled and said, "Thank you for the reminder, Master. Then I'll go back first." Huang Daoran waved his hand. Zhao Hai bowed to the two before disappearing. After that, Zhen Ling bowed to Huang Daoran and left.

Seeing the two juniors leaving, Huang Daoran let out a profound smile. Then he took out a jade sword message and sent Feng Baiming a message. He didn't expect things to develop to this degree. Zhen Ling actually decided to leave the Pink Clouds Pavilion. But this was also good. It has been a long time since he felt disgusted with those folks from the Pavilion.

When Zhao Hai returned to the Space, he sat on the sofa and let out a long breath. Then he gave out a wide smile as he turned to Laura and said, "Laura, did you notice how similar Zhen Ling's personality is to yours? Hahaha. Interesting, it seems like we've found an interesting business partner."

Laura smiled and said, "Right, it's also good for us to cooperate with Zhen Ling rather than the Pink Clouds Pavilion. If we cooperate with the Pink Clouds Pavilion, we would be placed in an awkward manner if ever Zhen Ling gets kicked from her position. Now that Zhen Ling is planning to go independent, I believe she would achieve great results quickly with us, Master Huang, and the Profound Clear Sect supporting her."

Zhao Hai smiled faintly and said, "This is indeed good for us. Moreover, I made use of our crystal stones in order to trade for things that we badly need. This cooperation is already showing its benefits."

Laura nodded. Then she looked at Zhao Hai and said, "Brother Hai, you're now the Supreme Commander of the Lock Mountain Range. Shouldn't you also go to the Six Realms Battlefield and collect materials? There are a lot of good treasures there."

Zhao Hai smiled bitterly and said, "It's because I'm a Supreme Commander that I cannot go around the Six Realms Battlefield. I'm now similar to Feng Baiming and the others. I can only defend the Machine Field's domain. Otherwise, it'll cause misunderstandings."

Laura nodded. Then she sighed and said, "Sometimes, having a high status is really inconvenient. Now, we have to act more low-key. As long as Brother Hai reaches Transcending Tribulation, we wouldn't need to be afraid of them."

Zhao Hai smiled faintly and didn't say anything. Just like Huang Daoran said, he lacked accumulation. Once he accumulates enough, he would soar high.

Zhao Hai stayed inside the Space the following days. He could no longer roam the Six Realms Battlefield nor could he go to the soft gold mine. If someone finds him there, then the entire World of Cultivation wouldn't let him off. He had been in the limelight for too long, so he needed to act low in the meantime.

However, Zhao Hai wasn't idle. The transmission formation towards the Pirate Paradise has been constructed. It wasn't a large transmission formation and could only accommodate 100 people at a time. However, this was good. As long as it was operational.

On the other hand, Margaret as well as Barlett's group have been preparing to meet the migrants in Yalei 2.

The overall construction of Yalei 2's capital city has been completed. People could move in at any time. But even so, some work still needs to be done once the migration starts. Everyone had wages to deal with as well as stores that needed to be opened. At this time, the ones operating the stores were the Undead.

The situation in the Pirate Paradise has been going well. After Zhao Hai left, Louis and the others immediately dealt with the goods that had been brought. Since they were the leaders, it was easy to command the other people. Louis and the others were pirates who killed people and looted their goods. They were not pushovers. Therefore, troublemakers in the Cross Sword Pirate Group had long since been taken care of.

After removing the unstable factors, Louis and the others prepared to migrate to Yalei 2. This wasn't an easy task. Although a lot of people wanted to become commoners in Yalei 2, keeping the migration a secret was very hard.

Naturally, Louis and the others knew that their migration could never be hidden from the outside. However, at the very least, they wanted to keep it a secret for as long as possible. Otherwise, people might cause trouble to them. A lot of people from the six realms were staring at the Cross Sword Pirate Group. With how strong the pirate group was, it was no wonder that people were concerned about their movements.

Chapter 1359: Developments

The Cross Sword Pirate Group was very beneficial to six realms. Not to mention their reputation, even their location was a huge attraction to the other realms.

The position of the Cross Sword Pirate group was at the border of the Machine Field and the Cultivation Realm. It was farther to the Cultivation Realm and nearer to the Machine Field. This position was quite crucial.

Because it was the intersection of the two realms, whether it be the Machine Field or the Cultivation Realm, nobody dared to send too many personnel to deal with them. Otherwise, it might cause a reaction from the other realm. It was also for this reason that the Pirate Paradise existed.

The Pirate Paradise's location was very useful for both the Machine Field and the Cultivation Realm, even the other realms deemed it as important. It was for this reason that a lot of powers had reached their hands into the region. It was even beginning to be called the miniature World of Cultivation.

The Cross Sword Pirate Group was the biggest influence in this region. Anybody wanted to absorb such an influence. Once one gets the Cross Sword Pirate Group into their fold, then they could cause disturbances in the Machine Field and the Cultivation Realm. This was something that no realm wanted to let go off.

For this reason, a lot of people currently had their eyes on the Cross Sword Pirate Group. If any sign of disturbance was seen on the group, people would immediately react.

Recently, the Cross Sword Pirate Group began attacking people lurking near them. This caused the entire Pirate Paradise to turn anxious. The eyes of the realms couldn't help but turn their directions towards the pirate group. They didn't know what the Cross Sword Pirate Group was planning to do.

Besides eliminating spies, the Cross Sword Pirate Group were also beginning to go into high alert. All non-members of the pirate group weren't allowed to enter their territory. Otherwise, they would be met by an attack.

Naturally, Louis and the others already thought of an excuse for their actions. They said that the Cross Sword Pirate Group has been stolen from and they had lost something important. They said that they were now pursuing the thief with all their strength.

Nobody could find out if such an excuse was genuine or fake. This was because the Cross Sword Pirate Group had already removed all spies inside them. Moreover, in addition to blocking the external world from looking in, Louis also imposed an internal blockade towards all of their members. Without valid reason, they couldn't go out of their room and randomly stroll.

Even if their actions stopped any spies from looking in, people were thinking that the Cross Sword Pirate Group were truly catching thieves. Moreover, this action would also make those spies that hadn't been caught to come out. If they begin asking around, they would no wonder be arrested and dealt with by Louis.

Actually, during this time, Louis and the others have already begun their migration to Yalei 2. The first group to move were the families of Louis and the others. These people were the most trusted people in the group. Once they migrated to the planet, they began to familiarize themselves with the environment. This way, they could help the others who would migrate in the future. They would provide security for people who moved. After all, nothing makes one feel more relieved than a familiar face.

Once people began pouring into Yalei 2, the residences prepared for them were beginning to be given out along with various living necessities. In the Pirate Paradise, cars were also very common. The Cross Sword Pirate Group even designed their own cars. After all, there were too many people in the group. Moreover, they had sensitive identities and they couldn't just go out and buy from the outside. So there are a lot of things that they built themselves.

After the first batch of people moved to Yalei 2, Margaret and the others immediately gave them their own identification cards. This ID card was the same as the Machine Field. Not only did it indicate one's status, it also acted as a bank card. This card was a very ordinary item in the Machine Field. But when

Margaret and the others handed the ID cards, those from the Cross Sword Pirate Group cried in happiness. This card was their dream for several generations. With this card, they were no longer pirates and they can now act in the open. They could now walk the lands of the Machine Field without fear.

At this point, the transmission formation of Yalei 2 revolved nonstop from dawn to dusk. However, the biggest use of the transmission formation wasn't the transfer of people. Instead, it was mostly used to transport items.

The Cross Sword Pirate Group was among the oldest pirate groups in the Pirate Paradise. Several generations of plundering merchant caravans made them very wealthy. Louis also thought that they had to transport these riches first if they move to Yalei 2. This way, if ever the Pirate Paradise falls, these things wouldn't fall into the hands of other people. Second, they could hand these over to Zhao Hai as proof of allegiance. They wished that Zhao Hai would know how sincere they were in wishing to move to Yalei 2.

Zhao Hai understood what Louis and the others were thinking, so he didn't stop them. But since he didn't want these riches, he gave Louis and the others some warehouses to store these things.

Because Louis and the others did a good job in hiding the migration, nobody knew what the Cross Sword Pirate Group were doing. This was what Zhao Hai appreciated the most.

Zhao Hai also fulfilled his promise. As people were streaming into Yalei 2, he also replaced them with Undead.

Seeing the operation in Yalei 2 going smoothly, Zhao Hai felt relieved. As for the materials needed in Yalei 2, Zhao Hai didn't worry about it. With the Space providing what was needed, things went on smoothly.

Besides moving the Cross Sword Pirate Group, Zhao Hai was also paying attention to Huang Daoran's situation. On the day that he met Zhen Ling, Zhao Hai handed her a spatial bag with a silver needle. But actually, it couldn't be called a silver needle, more like a silver thread. This thread looked the same as a silver needle.

When Zhen Ling received the spatial bag, the silver thread attached to her body. Now, Zhao Hai was able to monitor her progress.

Since Zhen Ling has decided to leave and go on her own a long time ago, she already did a lot of preparations. Some shopkeepers and people from the Pink Clouds Pavilion had already been pulled over by Zhen Ling. They were people loyal to her. But since she didn't want to have a falling out with the Pink Clouds Pavilion yet, she hasn't made any major moves.

However, she still regarded Zhao Hai's requests with importance. She began preparing things to be given to Zhao Hai. It didn't take long before she amassed various ores as well as medicinal plants. Moreover, each one of them were rare and valuable.

From Zhao Hai's request, she focused on variety instead of quantity. The medicinal plants were placed in a jade box to preserve them.

Naturally these items were also written down. But even if the auditors of the Pink Clouds Pavilion were the ones writing them down, they wouldn't be able to find anything. After all, the Pink Clouds Pavilion was a huge entity. The goods exchanging hands throughout the group was colossal. A small transfer of goods wouldn't alert anyone.

Moreover, these goods were paid for by Zhao Hai. This also allowed Zhen Ling to easily make transactions without any mistake. At the same time, Huang Daoran was working on establishing connections with the Profound Clear Sect. He sent Feng Baiming jade sword messages as they exchanged words with each other.

Looking at Huang Daoran, things seem to be going smoothly. The Profound Clear Sect was very interested in the business. Although the Profound Clear Sect was very big, their appetite for money was similarly big. They were naturally happy to have an extra business to increase their income.

Because of Feng Baiming, the Profound Clear Sect had no words to say about cooperating with Zhen Ling. They didn't even question the source of the Spirit Wine.

The Profound Clear Sect was well aware about why Zhen Ling decided to work with them. It was so that the sect would provide the business some protection. The Profound Clear Sect wasn't new to these things. In fact, Great Sects like them repeatedly went into such transactions. The only difference was the size of the cut they would take from the profits. As for Zhen Ling's business, the Profound Clear Sect was to take the least they could. After all, they had to consider Feng Baiming's face. Moreover, there's also Huang Daoran standing behind her.

The Profound Clear Sect already sent someone to discuss matters with Zhen Ling. This was also the time that Zhen Ling prepared to leave the Pavilion and go on her own.

During this time, Zhao Hai met Huang Daoran and Zhen Ling once more. Zhen Ling gave him the medicinal plants and ores that he ordered. Zhao Hai also handed over ten thousand bottles of spirit wine. Just like Huang Daoran said, these wines have been placed inside jade bottles. The jade used was top quality, making the wine look elegant and expensive.

The profit allocation of the spirit wine has also been decided. Since the spirit wine and its container has been provided by Zhao Hai, the division would be 4 to 3 to 3. Zhao Hai would have four shares, Zhen Ling would have three, and the Profound Clear Sect would have three.

One shouldn't underestimate an allocation of forty percent. In terms of pure profit, this forty percent was huge. One must know that Zhao Hai produced spirit wine with zero initial cost. While Zhao Hai's price given to Zhen Ling was 100 crystal stones.

Zhao Hai might think that this price wasn't low. But to Zhen Ling and Huang Daoran, it was too cheap. However, Zhao Hai wasn't planning to increase the price. Otherwise, no money would be made. One shouldn't be too greedy.

The jade bottle can only hold one catty(500g). And one bottle of spirit wine costs 100 crystals. This was already expensive. One must know that 100 crystal stones was already a lot of money for Rogue Cultivators.

After handing the spirit wine over to Zhen Ling, Zhao Hai no longer cared about this matter. He didn't need to help in selling it nor did he intend to appear in the Cultivation Realm. So he took this time to relax.

Whether it be the Cultivation Realm or the Machine Field, nobody knew that Zhao Hai's influence was starting to be established.

Yalei 2 simply wasn't worthy of paying attention to. For the Machine Field, the planet was a wasteland. Moreover, seeing that Zhao Hai wasn't going there, nobody cared about it.

Since Zhao Hao was known to be in the Six Realms Battlefield, he needed to appear there from time to time. But he didn't have much to worry about there since everything was being taken care of by Yuan and the others. Yuan was also aware that Zhao Hai was somewhat busy lately, so he didn't disturb him. If things didn't need Zhao Hai's help, then Yuan wouldn't disturb him.

Zhao Hai was now the Supreme Commander of the Machine Field. This caused Yuan and the others to be happy. But this also caused them to worry.

They were happy because the Machine Field now has a powerful expert protecting them. Later on, the other realms would think twice if they wanted to attack the Machine Field's Domain. On the other hand, now that Zhao Hai has become a powerful expert, the Machine Field now had nobody to protect them in the core battlefield.

Regarding Zhao Hai's new status, Yuan and the others protested about it to the higher-ups. However, the higher-ups told them that they couldn't do anything about it. This had something to do with the demands of the other realms.

Yuan and the others understood that the other realms were putting pressure on the Machine Field's higher ups. In the end, the higher-ups could only make a compromise.

However, this was also good since the Lock Mountain Range has become peaceful. This peace also extended to the realm's partially controlled territory. Now, other realms rarely caused any trouble there.

As for Zhao Hai's visit to the Pirate Paradise, extremely few people were aware of it. The meeting between Zhao Hai, Huang Daoran, and Zhen Ling was even more confidential. Therefore, Zhao Hai became silent in this period of time. Once no more news appeared about him, the people began forgetting Zhao Hai.

Zhao Hai was happy with this situation. It's better if they forgot about him. Now, he wouldn't have to worry about people's eyes looking at him. Such a life wasn't for him.

Originally, Zhao Hai was planning on moving Zheng Li and the others to Yalei 2. However, Yalei 2's defense system had yet to be constructed. At this time, the planet was virtually defenseless. Therefore,

Zhao Hai cancelled this plan. Once the defense system has been constructed, he would discuss it with Zheng Li and the others.

As for Yalei 2's Undead, they were slowly being replaced by the Cross Sword Pirate Group's members.

Although there were a lot of robots in the Machine Field, they were still far from replacing humans. Take farming for example. Only a few people used robots to farm. They were too procedural in their actions. If you let a robot farm the land, one's harvest wouldn't be good. This was because robots would plant seeds in a predetermined way, water them at the same time per day, and remove weeds in a regular manner. Such a procedure wouldn't work in farming. After all, growing plants needed to take into consideration the environment, and other factors. Everything depends on the surrounding lands. Farming with predetermined commands wouldn't work.

Herding animals was also the same. Except, people would often use mechs. Therefore, mech pilots of the Cross Sword Pirate Group still had something they could enjoy doing.

Chapter 1360: An Event, An Acquaintance

Zhao Hai sat cross-legged under the Hundred Spirits Tree. This place has the richest concentration of spiritual qi in the entire Space. It wasn't far from the Cultivation Realm's spirit veins. This was also the place that Zhao Hai liked to cultivate the most.

Zhao Hai visited the Six Realms Battlefield from time to time. Other times, he would be inside the Space, cultivating. As Huang Daoran said, Zhao Hai's main offensive power came from the astral qi and evil qi condensed in his body. With only his own strength, it would be impossible for him to face Huang Daoran.

Accumulation, Zhao Hai needs accumulation right now. Only when his body and spiritual qi gets to a certain degree would he reach true Transcending Tribulation level.

Therefore, Zhao Hai practiced under the Hundred Spirits Tree every day. The spiritual qi around the tree was getting richer and richer. This was because of the primordial root integrating completely with the Hundred Spirits Tree. In the future, the spiritual qi around the tree would only get stronger and stronger until it fully surpasses the spirit veins of the Cultivation Realm.

Zhao Hai was now accumulating. He also cultivated before, but he would focus on tempering his body. Now, he was working on his spiritual qi. Naturally, this doesn't mean that he stopped tempering his body. He would still practice his body, this wasn't something that sitting down meditating could replace.

Body tempering fist, meditating, condensing astral qi and evil qi into his body, controlling flying swords, and practicing other weapons. Zhao Hai did these things in the past few days.

His fight with Huang Daoran caused Zhao Hai to realize how dangerous the World of Cultivation Really was. If he wanted to live well in the World of Cultivation, then he would have to practice in silence. Otherwise, he would be attracting unnecessary danger to himself.

Last time, the Cultivation Realm found a spatial ability user to deal with him. This also made Zhao Hai understand that there are a lot of strange phenomena and people in the World of Cultivation. If he has the Space, then there's no guarantee that others don't. If others have their own cheat, then the Space wasn't 100% safe.

After some time, Zhao Hai let out a long breath. Then he slowly opened his eyes. His cultivation process was being analyzed by the Universal Scanner. Naturally, the optimum results that were reported weren't absolute. After all, Zhao Hai wasn't a machine. However, having a metric on his cultivation wasn't bad as well.

Zhao Hai stood up and did some light stretches. Then he slowly walked away from the villa. Although he has seen the Space's scenery multiple times, he still felt the most relaxed while inside it.

Before long, Zhao Hai arrived at the seaside. He looked at the vast ocean and felt his heart calm down. He emptied his thoughts and completely relaxed. For Zhao Hai, this feeling was both familiar and strange.

Zhao Hai immersed in this feeling as he forgot about the passage of time. He felt himself completely relaxed not only in body but also in mind. His body and mind experienced bliss. This feeling was very good.

At this time, Cai'er suddenly flew beside Zhao Hai and reported, "Young Master, there's a situation."

Zhao Hai woke up, he turned his head to Cai'er and said, "What happened?"

Cai'er looked at Zhao Hai and said, "Young Master, it's something good. Come with me." After saying that, Cai'er and Zhao Hai flew back to the villa. Zhao Hai smiled faintly as he looked at Cai'er. To be honest, Zhao Hai felt closer to Cai'er. Now that she has integrated with the Space, it could be said that they were related. Zhao Hai could reliably trust her and Cai'er was able to rely on Zhao Hai as well.

Before long, the two arrived at the villa. Once he entered, Zhao Hai discovered that Laura and the others were currently sitting on the sofa as they stared at the screen. Displayed on the screen was a place that Zhao Hai wasn't familiar with.

From what he can see, it was a Cultivator's market. There were plenty of shops present as well as vendor stalls. It can be seen that it was a bustling market. But what was strange about it was that those in the market weren't orthodox Cultivators. All of them had dark auras, they don't seem like good people.

Zhao Hai turned his head to Cai'er and said, "Where is this?"

Cai'er smiled and said, "This is a market in the Devil Realm. We called you over because we spotted someone."

Then at this time, the image changed and focused on a person in the market. The place was behind a shop. This storefront was a medicinal pill shop. But in fact, nobody occupied this place. Inside this room was a small transmission formation. Cai'er looked at Zhao Hai and said, "Young Master, this shop is only a decoy. It has a short-distance transmission formation. The other side of the formation is a courtyard next door. Look." Then the picture changed into another courtyard. Just like what Cai'er said, this courtyard wasn't far from the shop. This courtyard wasn't used for business but for people to live in. There were a few simple magic traps in the building which looked ordinary.

Then the picture changed back into the shop. When he saw who was inside, Zhao Hai couldn't help but raise his eyebrows. He knew the person in this room.

The Yin Wind Ghost Emperor! Zhao Hai didn't expect to see the Yin Wind Ghost Emperor. This startled him greatly. It was an unexpected surprise.

In the past, the Yin Wind Ghost Emperor controlled the Underworld. Not only could he acquire medicinal plants and materials in the Underworld, he could also collect faith power. This meant that he had the method to collect faith power.

When Zhao Hai appeared, things began to change. And in the end, under Zhao Hai's help, the huge heart regained control over the entire Underworld. However, the thing that the Yin Wind Ghost Emperor used was already gone. Although it had lost its usefulness, its method of collecting faith power might still be utilized.

As long as he captures the Yin Wind Ghost Emperor, they could obtain the method to collect and use faith power. And this was something that Zhao Hai needed right now.

Zhao Hai turned his head to Cai'er and said, "When did you find him? If this guy stays here forever, then it'll be difficult for us. After all, there should be powerful influences behind this market."

Cai'er smiled and said, "We've just found him. But I think the Yin Wind Ghost Emperor wouldn't stay here for a long time. It's because we haven't just been monitoring this place for a day or two. It seems like the Yin Wind Ghost Emperor is here to stay temporarily to communicate with the outside world. He must have a secret cave somewhere. He should be here to buy a few things before returning. We can deal with him once he leaves."

Zhao Hai nodded and said, "Alright, then keep monitoring him. Did you already send a silver needle?"

Cai'er nodded and said, "Rest assured Young Master, they have been released. He cannot escape." Zhao Hai nodded and continued to stare at the Yin Wind Ghost Emperor on the screen.

The Yin Wind Emperor was sitting inside the room while calmly drinking his tea. He was probably waiting for someone. On the side, Cai'er explained, "Young Master, the pill shop outside is owned by the Yin Wind Ghost Emperor. He hired someone to look after the place for him. The person running the shop seems to be his loyal aide. After the Yin Wind Ghost Emperor arrived, he had this person help him buy some medicinal herbs. He never left the room and just waited for the shopkeeper to arrive."

Zhao Hai nodded, then he said, "It seems like the Yin Wind Ghost Emperor isn't simple. He has a way to get in touch with the outside world. Not only that, he could also buy what he needs without his tracks being discovered."

As he said that, the room flashed a white light and a person appeared in front of the Yin Wind Ghost Emperor. This person was wearing a magnificent cultivator robe. Although he looked like a practitioner, one's initial feeling upon seeing this person was that he was a merchant.

Not only was this person fat, he also had a polite demeanor about him. His eyes had a small glint of light. He looks like a profiteer.

When this person appeared, he immediately bowed and said, "I have seen Master Yin Wind Ghost Emperor. The things that Master needs have already been prepared." Then he took out a spatial bag and handed it respectfully to the Yin Wind Ghost Emperor.

The Yin Wind Ghost Emperor nodded. Then after he swept the spatial bag with his spiritual force, he nodded and said, "Very good. You will gain benefits as long as you serve the emperor. Otherwise, this emperor can take your life in a blink of an eye. This is for your loyalty." Then he threw a medicine bottle towards the shopkeeper. The shopkeeper took the bottle gratefully and expressed his gratitude towards the Yin Wind Ghost Emperor. He knelt down and said, "Thank you Master for the gift. This subordinate shall serve the Master with all my heart."

The Yin Wind Ghost Emperor nodded and said, "Alright, now leave." The person stood on the room's transmission formation and left the Yin Wind Ghost Emperor alone.

The Yin Wind Ghost Emperor glanced around before he sighed. Then he walked towards the transmission formation. After fiddling with the formation, he stood on it and then activated it. A white light flashed as he disappeared from the room.

Zhao Hai looked at the Yin Wind Ghost Emperor and couldn't help but smile faintly as he said, "This guy is really careful. He's even careful around his loyal subordinates. I don't think even his subordinates know that the transmission formation is connected to a courtyard not far away."

Laura smiled faintly and said, "People like him would never fully trust anyone. I'm afraid the shopkeeper is being controlled by him with some method."

Zhao Hai nodded and said, “No matter what method he used to control that shopkeeper, he’ll be freed later on. It’s time for us to make a move.” After he said that, Zhao Hai waved his hand and disappeared from the room.
