

## Another World 1451

### Chapter 1451: Ba Muer

Zhao Hai doesn't understand what Tang Jie was doing, he didn't know why they stopped. They were so far from the action that Tang Jie shouldn't have noticed anything.

Zhao Hai immediately talked to Cai'er, "Cai'er, check and see what's the matter with Tang Jie. Does he have a connection with the other groups?"

Cai'er complied and immediately checked. Before long, Cai'er answered, "Brother Hai, Tang Jie contacts the other groups every hour. But this time, two groups didn't reply. It's possible that Tang Jie had become suspicious."

Zhao Hai nodded and said, "So it's this. It seems like our fishing strategy has come to an end. However, our progress is already good."

Cai'er didn't say anything. As for Zhao Hai, he kept his eyes on the battle currently ongoing. The numbers of those from the ambushed group continued to decrease. In less than an hour, the group from the Hundred Treasures Realm have been eliminated. But at the same time, Tang Jie became even more suspicious. Zhao Hai discovered that Tang Jie and the others were beginning to convene with the other groups. It was now impossible to lure them over without the others noticing.

Yuan Ding's group was about to head out after cleaning the battlefield, but they were stopped by Zhao Hai. Zhao Hai looked at everyone and said, "It's time to stop. The Hundred Treasures Realm already noticed the disappearance of the two groups and had become suspicious. They would no longer be tricked. On the contrary, it has become dangerous for Master Yuan Ding's group to head out. You should take a rest and resume your previous tasks."

Yuan Ding heard Zhao Hai and understood what he meant. Zhao Hai wanted them to return to setting up formations. This wasn't a problem. After all, it's much more convenient for them this way.

Yuan Ding nodded and then led his people back. Zhao Hai nodded to everyone before flying towards Kong Miao to give a report.

Just as he arrived, Zhao Hai couldn't help but stare. This was because he could see people from the Giant Spirit Realm. These people looked very arrogant. The person standing next to Kong Miao was angrily staring at him.

Kong Miao's expression wasn't good to look at either as he returned the gaze of the person from the Giant Spirit Realm. The smell of gunpowder could be smelled between the two. Seeing this Zhao Hai couldn't help but be stunned. He was focused on monitoring the Hundred Treasures Realm that he wasn't able to pay attention to what was happening here.

Zhao Hai looked at Xu Wuzun who also didn't have a good expression. He couldn't help but ask, "Mister, what happened?"

Xu Wuzun looked at the person from the Giant Spirit Realm, then he coldly snorted and said, "That is the Great Spirit Realm's Ba Muer. He wants us to send troops and have a decisive battle with the Hundred Treasures Realm. We can't allow for this despicable move."

Xu Wuzun heavily emphasized the word 'despicable'. As soon as Zhao Hai heard this, he understood what the Giant Spirit Realm wanted. His expression immediately turned heavy. They want to have a decisive battle against the Hundred Treasures Realm? These people are really speaking nonsense. This wasn't their home base, so they didn't care.

Most importantly, if they really fought against the Hundred Treasures Realm, their losses would be very big. Although the Hundred Treasures Realm only had more than 1000 people left by this point, their strength was still something that could cause the World of Cultivation and the Xu Race to lose a lot of men.

The two previous attacks that they did was basically a 'divide and conquer' tactic. It was a numbers game and not a pure brawl. Zhao Hai even had to cause chaos among the Hundred Treasures Realm's group in order for them to win. Even then, they lost more than 100 people. If they were to really face the Hundred Treasures Realm, then the casualties would certainly affect the World of Cultivation and the Xu Race for generations to come. The World of Cultivation and the Xu Race couldn't afford to lose a lot of people right now.

And now, the Giant Spirit Realm wants the World of Cultivation and the Xu Race to sacrifice lives. What were they thinking?

Zhao Hai looked at Ba Muer and could see that Ba Muer was the type of person who looked down on them. His posture was the same as those from the higher ups, completely different to Yan Dong. They were aloof as they looked down on others. Zhao Hai was disgusted with these people the most.

However, Zhao Hai didn't refute Ba Mier. No matter what, Ba Muer came to represent the Giant Spirit Realm. There's no advantage to the World of Cultivation and the Xu Race if they were to offend him.

Zhao Hai stepped forward as he gave a bow and said, "I have seen Grandmaster Ba Muer. This one has a report to give Grandmaster Kong Miao. If Grandmaster Ba Muer is interested, you can listen as well."

Although Ba Muer hasn't been in contact with the World of Cultivation for a long time, he knew about Zhao Hai. It must be said that Zhao Hai's fame was bigger than Kong Miao in the Ten-thousand Realm Battlefield. Moreover, Kong Miao likes to discuss matters with Zhao hai. Because of this, Ba Muer didn't embarrass Zhao Hai and instead said, "Oh? You have a report, let me hear it then."

Kong Miao also looked at Zhao Hai. He didn't know what Zhao Hai was about to say. Zhao Hai looked at the two as he smiled and said, "Our World of Cultivation and Xu Race alliance used a luring tactic in order to destroy two groups from the Hundred Treasures Realm. In total, we managed to kill 1135 people. Meanwhile, our casualties numbered 147 people."

Upon hearing Zhao Hai, everyone in the room stared. Then Kong Miao and Xu Wuzun's expressions lit up. On the other hand, Ba Muer had a suspicious look on his face. Naturally he didn't believe the report.

Before Kong Miao could speak, Ba Muer looked at Zhao Hai and said, "Mister Zhao Hai, are you telling the truth? Do you have evidence to prove that you killed more than a thousand people from the Hundred Treasures Realm?"

Zhao Hai smiled faintly as he took out a bunch of spatial items. There were more than 500 spatial items. Space rings, space bracers, spatial bags, all of these things were sprawled on the ground. Then Zhao Hai looked at Ba Muer and said, "Grandmaster Ba Muer, this is the spatial equipment of the second group that we dealt with. I sent the first batch to Grandmaster Kong Miao. I wonder if Grandmaster already received them."

Kong Miao nodded and said, "I received it. I didn't expect you to clean up the second group this quickly. Great job. By the way, why did you return here?"

Kong Miao asked the person who came before so he knew that the success of the two ambushes was due to Zhao Hai's abilities. Without Zhao Hai, the plan wouldn't be able to proceed smoothly.

Zhao Hai shook his head and said, "We're no longer able to make a move. The enemy's commander gets in contact with all the groups every hour. Now that they lost contact with two groups, he began to be suspicious. If we lured them over this time, not only would we fail, we would also suffer a huge loss."

Kong Miao nodded and said, "So what are you planning to do now?"

Zhao Hai smiled and said, "I had Master Yuan Ding and his group to arrange formations. We'll stall the people from the Hundred Treasures Realm for now. Once they become tired, we might be able to find an opportunity to attack. But if we attack now, we would certainly suffer heavy losses."

Ba Muer coldly snorted and said, "How can these spatial items prove that you killed the people from the Hundred Treasures Realm? These items have seals on them. We can't open them at all. Who knows if you are only taking these things out in order to fool people."

Hearing Ba Muer, Zhao Hai couldn't help but frown slightly. Ba Muer was too much. However, Zhao Hai still calmly replied, "Grandmaster Ba Muer, this is the stronghold of the World of Cultivation, our final bastion here in the battlefield. Now that we have robbers in our home, it's natural for us to beat them out. Why would we deceive ourselves with mere spatial items? Do you really think that's necessary? Also, I can open these spatial items right now."

After he said that, Zhao Hai waved his hand as he released Undead from the Hundred Treasures Realm. Then he pointed towards the spatial items and said, "Take your spatial items and take out all of the contents inside."

The Undead complied as they stepped forward and took their own spatial items and took out everything inside. The people from the Hundred Treasures Realm were very rich. Various ores and plants began to be revealed, as well as their small artifacts.

The small artifacts of the Hundred Treasures Realm were indeed small. They also looked very refined. Zhao Hai already opened these bags in order to spawn ore veins in the Space as well as add more plants to the Space's shop.

Because of this, Zhao Hai wasn't too aggrieved when these things were taken out. Conversely, he was glad. These bags provided dozens of ores and plants for the Space. It must be known that all of these things were highly-valuable goods. The people from the Hundred Treasures Realm despised low-quality items.

However, Kong Miao and the others weren't paying attention to the items on the ground. Instead, their gazes were on the Undead that Zhao Hai summoned. These Undead looked exactly like living people. They didn't have any wounds. Except for their lack of heartbeat and the presence of death qi, they could be mistaken as alive. Moreover, one could see from their clothing that they were experienced in battle. Naturally, these Undead were those from the Hundred Treasures Realm.

Upon seeing the Undead, Ba Muer's expression finally changed. He didn't expect Zhao Hai to win against the Hundred Treasures Realm. Moreover, he even turned them into Undead.

After releasing everything from the spatial items, Zhao Hai received all of the Undead. Kong Miao looked at all the items on the ground before looking at Zhao Hai and saying, "Little Hai, take these items and have your Undead use them. The Hundred Treasures Realm's artifacts are just too small for other people to use. It's also not worth melting them."

#### Chapter 1452: Friends? Enemies?

Hearing Kong Miao, Zhao Hai couldn't help but stare. He didn't expect Kong Miao to hand all of these things over to him.

However, he changed his mind and felt relieved. The artifacts of the Hundred Treasures Realm were indeed very sophisticated. With the manufacturing methods of the World of Cultivation, it would be difficult to reforge them. Additionally, these artifacts are very small. There's not much to gain when melting them down. Because of this, Kong Miao decided to hand them over to Zhao Hai. As the matter stands, Zhao Hai wouldn't be able to acquire the ores and plants on the ground.

Zhao Hai didn't object. He already had these ores and plants in the Space. To be honest, he wanted to have these artifacts, he was just too embarrassed to ask.

Now that Kong Miao handed them over to him, Zhao Hai got what he wanted. So he gave a bow and said, "I thank Grandmaster."

Kong Miao waved his hand, then he turned his head to Ba Muer and said, "Mister Ba Muer, as you can see, our plans have been quite effective. Mister, please return. Our World of Cultivation and our friends from the Xu Race have confidence in dealing with the Hundred Treasures Realm."

Kong Miao's words might seem proper, but when you think about it, you would find some faults. The Xu Race and the World of Cultivation are confident in dealing with the Hundred Treasures Realm. This meant that they didn't need the Giant Spirit Realm. This also told Ba Muer that even if their reinforcements didn't arrive, they can still survive.

Although Ba Muer was arrogant, he wasn't a fool. He could understand what Kong Miao wanted to express. His expression turned ugly, but he didn't know what to say. It has been a long time since Yan Dong went back to ask for reinforcements. It has also been several hours since word about the attack was received. But even so, the Giant Spirit Realm didn't send any reinforcements. Kong Miao and the others were dissatisfied with this. At the same time, Ba Muer was also surprised.

From Ba Muer's experience, in these types of situations, the realm would immediately send reinforcements in order to attack the Hundred Treasures Realm. Not only could they deal damage to the Hundred Treasures Realm, they would also gain respect from Kong Miao and the others. It was essentially killing two birds with one stone.

However, the realm didn't send any reinforcements. This caused Ba Muer to be surprised. Kong Miao and the others were giving Ba Muer a discontented look. But saying anything at this time was useless. After all, no reinforcements arrived.

To be honest, Ba Muer could understand Kong Miao's dissatisfaction. He knew that the Giant Spirit Realm was being excessive this time. The World of Cultivation had been filial with their tributes every year. They did this so that the Giant Spirit Realm would provide them with help when the time comes. Now, not only did the World of Cultivation need their help, it was also to deal with their sworn enemies from the Hundred Treasures Realm. In this case, the Giant Spirit Realm should be sending people to help the World of Cultivation. But besides them, nobody else could be seen. This couldn't be justified.

Although he could understand Kong Miao's thoughts, Ba Muer wouldn't allow them to be discontented with the Giant Spirit Realm. For Ba Muer, the Giant Spirit Realm was his home while the World of Cultivation was just a low-rank realm. If the Giant Spirit Realm wanted to rescue the World of

Cultivation, then they would. If they don't want to, then they wouldn't. If the World of Cultivation is dissatisfied with this, then it would be disrespecting the Giant Spirit Realm.

Such overbearing ideas could only appear on those from high-grade realms. Therefore, hearing Kong Miao say such searing words, Ba Muer's expression turned pale.

Kong Miao didn't care about Ba Muer. To be honest, he was greatly disappointed with the Giant Spirit Realm. Not sending reinforcements up to this time meant that they wouldn't send any at all. This caused Kong Miao's expression to turn heavy.

Seeing Kong Miao's expression, Ba Muer coldly snorted as he turned around and led the other people from the Giant Spirit Realm to leave.

Kong Miao coldly snorted after Ba Muer left. Then he said, "If the Giant Spirit Realm is like this, then they could no longer guarantee their place as a high-grade realm."

Zhao Hai also sighed and agreed to Kong Miao's words. From the Undead, he knew the Hundred Treasures Realm's plan on how to beat the Giant Spirit Realm. In order to fight against the Giant Spirit Realm, the Hundred Treasures Realm targeted their subordinate realms. Then the Hundred Treasures Realm take these subordinate realms under their banner, weakening the strength of the Giant Spirit Realm. After that, they would attack the Giant Spirit Realm itself.

Yan Dong knew about this, but when he went back to the Giant Spirit Realm, the Giant Spirit Realm didn't send any reinforcements. This only explained that the Giant Spirit Realm was planning to give up on the World of Cultivation!

Zhao Hai couldn't understand why the Giant Spirit Realm would do this. It was a serious blow to their reputation. It can be said that this doesn't only mean that the Giant Spirit Realm has given up on the World of Cultivation and the Xu Race. This meant that the Giant Spirit Realm has given up on its subordinate realms.

The Giant Spirit Realm was like the Hundred Treasures Realm. Not only was their strength formidable, their influence was also very powerful. They had hundreds to thousands of subordinate realms below them. If they were to fight against another high-grade realm, then these subordinate realms would rally under their banner and fight.

It can be said that realms like the World of Cultivation were important components of a high-grade realm's strength. If a high-grade realm's subordinate realms disappear, then that high-grade realm's strength would be critically affected. They might drop their title as a high-grade realm.

Xu Wuzun's expression wasn't attractive. Ba Muer was no more than a vice captain of the Giant Spirit Realm. Ba Muer being this overbearing in front of Xu Wuzun and the others made him uncomfortable.

Kong Miao no longer paid any attention to this matter. He turned his head to Zhao Hai and said, "Little Hai, our current situation isn't going very well. If the Giant Spirit Realm has really given up on us, then our troubles would be huge. We've offended the Hundred Treasures Realm and now we're all alone."

Xu Wuzun also knit his brows. The Xu Race was willing to cooperate with the World of Cultivation because they had the Giant Spirit Realm as a backer. The Giant Spirit Realm could help them deal with the Hundred Treasures Realm. But now, the Giant Spirit Realm had given up on them. They're in deep trouble.

Zhao Hai frowned, he looked at Kong Miao and said, "Grandmaster, if you allow it, I want to meet the people from the Hundred Treasures Realm."

Kong Miao stared, he looked at Zhao Hai in confusion. Then he asked, "Meet the Hundred Treasures Realm? Why? You think they will take us in?"

Zhao Hai forced a smile as he answered, "We'll never know if we don't try. You should be aware of our current situation. Without the Giant Spirit Realm, we have to find another way. We have a grudge with the Hundred Treasures Realm, but if we give them greater benefits, they might forget it. Naturally, they may retaliate in the future. But as long as we bring them even greater benefits, then we might be saved."

Kong Miao couldn't quite understand Zhao Hai's plan. But he also had to recognize that this was the safest way for them at this time. Then suddenly, Zhao Hai's expression changed as he disappeared. Zhao Hai reappeared on the stronghold's transmission formations. He waved his hand and sealed the formations. After he did that, he returned to Kong Miao and the others.

Kong Miao was just wondering about what Zhao Hai said when Zhao Hai vanished. When he reappeared again, he couldn't help but ask, "Little Hai, what happened?" Kong Miao asked because he discovered that Zhao Hai's expression wasn't good to look at.

Zhao Hai looked at Kong Miao and said, "Grandmaster, just after Ba Muer left, he received a jade sword message. When he read its contents, he suddenly rushed towards the transmission formation. I think they want to escape towards the Giant Spirit Realm. I just went to the transmission formations and sealed them all up. I'll go talk with the Hundred Treasures Realm now. We can't let Ba Muer and his people leave. Perhaps they might become a bargaining chip!"

Hearing Zhao Hai, Kong Miao's expression couldn't help but change. He understood what Zhao Hai meant. Ba Muer rushing towards the transmission formation after receiving a jade sword message meant that the Giant Spirit Realm had truly given up on the World of Cultivation.

Zhao Hai sealed the transmission formations because he didn't want Ba Muer and his people to return. If Zhao Hai was really able to negotiate with the Hundred Treasures Realm, they can offer Ba Muer and the others to them. Perhaps they might be able to gain something in return.

Xu Wuzun also understood what Zhao Hai wanted. But before they could say anything, Zhao Hai already vanished. Xu Wuzun looked at the spot where Zhao Hai disappeared as he turned his head to Kong Miao and said, "Do you think he would succeed? If he did, will the Immortal Stage Experts agree?"

Kong Miao shook his head as he sighed and said, "I don't know. But this is our final chance. If the Hundred Treasures Realm doesn't accept us, then I'm afraid we wouldn't have a place in the Ten-thousand Realm Battlefield."

Xu Wuzun stared, then in the end he sighed. At this time, a voice was heard inside their heads, "If Zhao Hai can convince the Hundred Treasures Realm, then we agree to this decision." This voice resounded inside their heads, but it sounded ancient.

Kong Miao and Xu Wuzun understood that this was the voice of an Immortal Stage Expert. The two didn't expect the Immortal Experts to say such words. It seems like they were also disappointed with the Giant Spirit Realm.

.....

Tang Jie's mood wasn't very good. Now that everyone has gathered together, they only numbered less than 2000. They had actually lost more than a thousand people. Tang Jie didn't think this would happen.

Tang Jie was certain that the World of Cultivation's Immortal Stage Experts haven't made any moves. This was because they wouldn't dare do so. Since he was aware of this, then Tang Jie was even more aggrieved. He didn't expect the World of Cultivation and the Xu Race to cause such heavy losses to the Hundred Treasures Realm. Most importantly, they weren't even able to cause heavy losses to the enemy.

The loss of more than 1000 people was beyond the estimates of the Hundred Treasures Realm. This wasn't good. Because the mines were small, Tang Jie decided to separate his men into groups. Now that they're together, there were just too many. Fighting will become very inconvenient.

Just as Tang Jie was prepared to give the order to traverse the mines, a person suddenly appeared in front of them. When Tang Jie saw this person, his pupils shrank. This was because he could recognize this person, it was Zhao Hai!

Tang Jie's most important target when coming here was Zhao Hai. Therefore, he was very familiar with him. Seeing Zhao Hai coming alone, Tang Jie couldn't help but be curious. Zhao Hai doesn't look like he was here to fight them. This caused Tang Jie to be puzzled. Because of this, he didn't speak and just looked at Zhao Hai.

Tang Jie didn't speak, but the people behind him could no longer bear it. This was because Zhao Hai already fought against them. They all knew that he was a dangerous enemy. Some of them were already getting ready.

Zhao Hai didn't mind as he looked at everyone. In the end, his vision turned towards Tang Jie. He cupped his fist and said, "Zhao Hai has seen Captain Tang Jie."

Zhao Hai's words caused Tang Jie to stare. He looked at Zhao Hai and said, "Mister Zhao Hai's information gathering is truly fast. You were actually able to know my name."

Zhao Hai smiled faintly and said, "I am a Dark Mage, so I can turn corpses into Undead. I can also command my undead to tell me everything they know."

Hearing Zhao Hai, Tang Jie's eyes shrank. With a cold voice, he said, "Did you turn our people into your Undead?"

Zhao Hai nodded and said, "Correct. We are enemies, naturally I wouldn't be lenient towards you. I believe Captain Tang Jie is the same person, are you not?"

Tang Jie suddenly smiled, he looked at Zhao Hai and said, "What you said is correct. I will never be lenient towards the enemy. I appreciate your honesty. I really don't want to be enemies with you. But now it seems like we can no longer be friends."

Zhao Hai looked at Tang Jie and said, "That's not for certain. Sometimes enemies can become friends and friends can be enemies. It just depends on whether there's a need to do so. What do you think?"

Chapter 1453: Such A Chapter!

When Tang Jie heard Zhao Hai, he couldn't help but raise his brows. Then he said, "I don't quite understand what Mister Zhao Hai means. We can't be friends. You now have the blood of more than 2 thousand people from the Hundred Treasures Realm in your hands. Do you still think we can be friends?"

Zhao Hai smiled faintly and said, "Of course we can. We killed more than 2000 people from the Hundred Treasures Realm, but we were enemies at that time. We cannot afford to hold back against you. But if we have a common enemy, then an enemy of an enemy is a friend. The World of Cultivation and the Xu Race altogether has nearly 10 thousand people in the Ten-thousand Realm Battlefield. If we help the Hundred Treasures Realm, then you would gain a new force of 10 thousand people. But at the same time, we would also be providing benefits for the Hundred Treasures Realm. Isn't that better than the numbers you said before?"

Hearing Zhao Hai, Tang Jie couldn't help but stare. Then his eyes shone as he said, "I hear that the World of Cultivation has the Giant Spirit Realm as its backer. The Giant Spirit Realm is the mortal enemy of the Hundred Treasures Realm. Aren't you afraid of offending the people from the Giant Spirit Realm?"

Zhao Hai knows that Tang Jie was testing him. He didn't hide the truth from Tang Jie as he said with a serious expression, "Captain Tang, I won't lie in front of so many people. I think Captain Tang also saw

the people from the Giant Spirit Realm. When you used your Formation Breaking Spirit Snake Needle, one of them went back to ask for reinforcements. But how long has it been? The Giant Spirit Realm didn't send any reinforcements. And just now, the Giant Spirit Realm sent a jade sword message for their people telling them to return. This means that they had given up on us. Although our World of Cultivation is just a medium-grade realm, we have never skipped our annual tributes. Although we are weak, we'll never take anything lying down. Since the people from the Giant Spirit Realm want to give up on us, then we will no longer have anything to do with them. If Captain Tang is willing, we can even hand over the 48 people from the Giant Spirit Realm. What does Captain Tang think?"

Zhao Hai was well aware that telling the truth at this time was much better than lying. If he tells the truth, then Tang Jie might think that they are desperate to defect to the Hundred Treasures Realm. But if lies were involved, then things might get troublesome in the future.

Hearing what Zhao Hai said, Tang Jie couldn't help but raise his brow. However, he didn't speak as he only looked at Zhao Hai with a pondering expression.

Tang Jie needed to think about it. Zhao Hai's words already laid everything on the table. Zhao Hai and the others were subordinated to the Giant Spirit Realm, naturally they were enemies with the Hundred Treasures Realm. It wasn't strange for them to kill their enemies. After all, you can't invite your enemy to tea. But now that the Giant Spirit Realm has abandoned the World of Cultivation, Zhao Hai and the others were resentful and detained members of the Giant Spirit Realm. This expressed their anger towards the Giant Spirit Realm. The separation between the World of Cultivation and the Giant Spirit Realm would only bring benefits to the Hundred Treasures Realm.

Just as Tang Jie was thinking about these things, Zhao Hai said, "I know that the Hundred Treasures Realm targeted the World of Cultivation because you want to negatively affect the Giant Spirit Realm's relationship with its subordinate realms. You want them to leave the Giant Spirit Realm's side. However, the Hundred Treasures Realm's follow-up plan is nothing more than spreading rumors. But if the World of Cultivation joins the Hundred Treasures Realm and announces it to the world, the effect would be much better."

Tang Jie stared, he didn't expect Zhao Hai to know. His attention is now on Zhao Hai. Seeing Tang Jie's gaze on him, Zhao Hai smiled faintly and added, "Moreover, I think you have underestimated the World of Cultivation. We aren't really strong, only at mid medium-grade. Now, the Xu Race has allied with us. We have offended both you and the Giant Spirit Realm. It can be said that the two of us are on the same boat. If we act together, we can reach upper medium-grade level. Even if the Hundred Treasures Realm wants to deal with us, it would take a lot of effort and lives in order to do so. This wouldn't bring any benefits to the Hundred Treasures Realm at all. Instead, the Giant Spirit Realm would like to see that

happen. So why don't you take us in? Compared to dealing with two medium-grade realms, I reckon the Hundred Treasures Realm is more interested in attacking the Giant Spirit Realm. Am I right?"

Tang Jie looked at Zhao Hai and understood what's terrifying about him. Zhao Hai wasn't scary because of his strength, but instead his grasp on a person's heart. Every word he said spoke straight to one's heart and interests. Tang Jie knows that the World of Cultivation were in a tight rope right now. If the Hundred Treasures Realm doesn't accept the World of Cultivation and the Xu Race, then the World of Cultivation and the Xu Race's final move would be to leave the Ten-thousand Realm Battlefield. But even if that was the case, so what? Instead of losing them, it's much better to have them as a sword in the Hundred Treasures Realm's hand. Giving up on the World of Cultivation and the Xu Race was equivalent to giving up on dealing a heavy blow to the enemy. At the same time, they would also bring losses to themselves. In this case, only an idiot wouldn't know what to do.

Because of this, even though Tang Jie knew that taking them in would bring greater benefits to the World of Cultivation and the Xu Race, he was still tempted to accept.

Not only Tang Jie, but the people behind him weren't talking anymore. They quietly listened to Zhao Hai's words and were attracted to what he said. They couldn't help but agree that Zhao Hai made sense. Although they were now in a desperate situation, it was indeed advantageous for the Hundred Treasures Realm to take them in. They had a fair and honest reason to turn on the Giant Spirit Realm. For the Hundred Treasures Realm, the World of Cultivation and the Xu Race weren't their enemy. Their true enemy was the Giant Spirit Realm. In order to deal with the Giant Spirit Realm, they could accept the condition of the World of Cultivation and the Xu Race.

After some time, Tang Jie looked at Zhao Hai and said, "This matter is too big. I cannot take responsibility for it. I need to report back to the higher-ups."

Zhao Hai smiled faintly and said, "Alright. We won't attack you until you give your answer. We also wouldn't let the people from the Giant Spirit Realm go away. If the Hundred Treasures Realm agrees to help us, then we'll give the people from the Giant Spirit Realm to you. If you don't, then we'll kill them before fighting you. After that, we'll leave the Ten-thousand Realm Battlefield."

It was a threat towards Tang Jie. Tang Jie looked at Zhao Hai with a cold gaze as he said, "Are you threatening me?"

Zhao Hai smiled faintly and said, "I wouldn't dare. Our World of Cultivation has already offended the Hundred Treasures Realm, and now the Giant Spirit Realm. So why would we stay in the Ten-thousand

Realm Battlefield? As the gods fight, the mortals suffer. We've suffered a disaster because of the battle between your realms. Since there's no way out for us, then the World of Cultivation and the Xu Race would no longer be kind. Before leaving the battlefield, we might as well expel some bad air. Alright, I'll no longer disturb you. I'll leave you to get in touch with your higher-ups. Goodbye." Then Zhao Hai's figure disappeared.

Tang Jie looked at the place where Zhao Hai disappeared. A flash of anger appeared on his face but was quickly replaced with a smile. Then he slowly began to laugh.

Tang Wen looked at Tang Wen and asked, "Senior Brother, why are you laughing?"

Tang Jie replied, "I didn't expect the World of Cultivation to have such a character. This person knows what he's doing. Moreover, his analysis of the situation is done meticulously. He presented the situation to us and gave us choices. If we choose something beneficial to ourselves, it would also be beneficial to himself. If it's disadvantageous to us, it's disadvantageous to him as well. He's good. I need to urge the higher-ups to take the World of Cultivation and the Xu Race in. If they join us, we would have more confidence in dealing with the Giant Spirit Realm."

Tang Wen said, "Senior Brother, do you really have to value Zhao Hai so much?"

Tang Jie smiled faintly and said, "That man is intelligent. The reason why he was our enemy was their relationship with the Giant Spirit Realm. They wanted to support the Giant Spirit Realm, so they showed their loyalty and opposed us. But when they discovered that the Giant Spirit Realm had given up on them, he immediately detained the people from the hundred Treasures Realm. The fate of the people from the Giant Spirit Realm was already sealed the moment they're detained, they will no doubt be killed. He's showing his attitude to us. If we accept them, then they would give us the people from the Giant Spirit Realm as a courtesy. If we don't accept them, they would kill those people from the Giant Spirit Realm. Zhao Hai's last words to us aren't a threat. He was only stating facts. If we don't take them in, none of us will be able to run away."

Tang Wen stared, then he asked, "Will they really dare kill us? Aren't they afraid of the Hundred Treasures Realm's retaliation?"

Tang Jie looked at Tang Wen, then he sighed and said, "They're compelled to leave the Ten-thousand Realm Battlefield, so what else do they fear? As long as they destroy all formations here, it wouldn't be easy for us to find the World of Cultivation. When the time comes, their Immortal Stage Experts would make a move. After all, they no longer have anything to worry about."

Upon hearing Tang Jie, Tang Wen couldn't help but shiver. If what Tang Jie said was real, then they have to take Zhao Hai and the others in. Otherwise, their poor lives would end here.

#### Chapter 1454: Getting Ready To Set Off!

After leaving Tang Jie's group, Zhao Hai returned to the command tunnel. At the same time, he was paying attention to the people from the Hundred Treasures Realm. When he heard Tang Jie and Tang Wen's conversation, Zhao Hai couldn't help but feel an appreciation towards Tang Jie. Tang Jie was a person who could afford to let things go.

Zhao Hai needed to go back to the command tunnel quickly because the people from the Giant Spirit Realm were already causing a disturbance.

The people from the Giant Spirit Realm originally wanted to sneak back into their realm. They received a message for them to return immediately. Ba Muer was a smart man. He knew his people very well. What does it mean for them to go back? The Giant Spirit Realm was giving up on the World of Cultivation and the Xu Race.

Ba Muer couldn't understand the realm's decision to abandon Zhao Hai and the others. Giving up on the World of Cultivation would have a great influence on the Giant Spirit Realm.

However, Ba Muer wasn't a fool. He discovered that Kong Miao and the others were discontented with them. If they went to Kong Miao and the others right now and told them that they had to leave, then Kong Miao and the others would certainly decline. Once they were sure that the Giant Spirit Realm was abandoning them, Ba Muer couldn't imagine what would happen to him and his men.

Ba Muer knew that if the World of Cultivation was really pushed to a corner, then they wouldn't be afraid to commit to murder. Zhao Hai's more than a thousand Undead was enough to startle him.

If they left with huge fanfare, Ba Muer was certain that Kong Miao and the others wouldn't let them go. It was possible for them to be killed. So after reading the message, Ba Muer immediately led his people towards the transmission formations. In any case, they already knew where it was. Also, the World of Cultivation was still unaware of the message, so they only needed to ask and the monks would point

them the way. And once they reach the transmission formations, they would be able to leave immediately.

However, Ba Muer would never think that his every action was being monitored by Zhao Hai. Seeing Ba Muer rush towards the transmission formations after receiving a message, he understood what happened. So he sealed the transmission formations immediately.

When Ba Muer and the others arrived at the transmission formations, they discovered that all the transmission formations couldn't be used. The monk in charge only said that Zhao Hai appeared and waved his hand before disappearing once again. After that, the transmission formations could no longer be used.

Just as Ba Muer wanted to order the monk to forcefully start the transmission formation, Kong Miao, Xu Wuzun, and the others arrived.

Seeing Kong Miao and the others arrive, Ba Muer wasn't feeling very well. However, he didn't show a startled expression. Instead he looked at Kong Miao coldly and asked, "Kong Miao, what are you doing? You sealed the transmission formation, what if the reinforcements come over? Open the transmission formations immediately. I want to go back and ask them to send people as soon as possible."

Kong Miao gave a faint smile towards Ba Muer as he said, "Grandmaster, don't worry. Please come with me, we just got the latest combat report. This report would be useful for the Giant Spirit Realm." After he said that, he gave a small gesture.

Ba Muer looked at the people who were with Kong Miao and couldn't detect any hostility towards them. They look like they were here to greet Ba Muer and the others. This caused Ba Muer to be puzzled. He couldn't understand why Kong Miao suddenly appeared here. Did they discover that they're about to leave? If they didn't know, then why did they seal the transmission formations?"

Ba Muer looked at Kong Miao with a puzzled expression. Seeing Ba Muer's appearance, a smile appeared on Kong Miao's face as he said, "Mister Ba Muer, we just received information that the Hundred Treasures Realm has discovered our transmission formations' coordinates and are prepared to use it to pass through. Therefore, we could only seal it for now. Don't worry about it, we'll open them later on. For now, please come with us."

Although Ba Muer was still somewhat confused, he didn't say anything. If he forced Kong Miao to activate the transmission formation right now, then they would certainly get suspicious. When the time comes, they would be attacked. Although Ba Muer felt aggrieved, he agreed and walked with Kong Miao. But what he didn't see was the killing intent in the eyes of the Cultivators and the Xu Race members.

This killing intent only appeared in a flash. Although they weren't the strongest beings in the Tenthousand Realm Battlefield, they were experienced experts and could easily hide their killing intent. Unless it was someone like Zhao Hai who has special techniques to look into the heart, it would be impossible to detect the killing intent.

Kong Miao took Ba Muer and the others to the command tunnel. Kong Miao asked everyone to sit down before he turned to Ba Muer and said, "Little Hai is out eavesdropping. He was able to hear the Hundred Treasures Realm say that they had discovered our coordinates. He'll be back soon, please wait for a moment."

Ba Muer nodded, then he knit his brows and said, "Grandmaster Kong Miao, can Mister Zhao Hai eavesdrop? And how does he plan to do that?"

Kong Miao smiled and said, "Of course. Little Hai is a Dark Mage with various kinds of Undead. He can use small undead in order to eavesdrop. This is how he's able to find clues."

Ba Muer nodded, he looked at Kong Miao and said, "Grandmaster Kong Miao, when do you plan to attack the Hundred Treasures Realm? If you let them continue strolling like this, they would cause a lot of destruction."

Hearing Ba Muer, Kong Miao and Xu Wuzun's expressions changed. Both of them knew that Ba Muer was planning to leave and that the Giant Spirit Realm had given up on the World of Cultivation and the Xu Race. But even in this case, Ba Muer still said those words. Wasn't he just pushing them into a fiery pit? He wanted them to fight against the people from the Hundred Treasures Realm, this intention was too sinister.

Kong Miao almost couldn't stop himself from killing Ba Muer on the spot. He suppressed his killing intent as he calmly replied, "The Hundred Treasures Realm already turned around. They're no longer breaking formations. Instead, they're beginning to arrange a transmission formation. They want to emerge in our formation. If we don't deal with it, we would be eradicated. I wouldn't be too late for us to fight against them."

Ba Muer nodded, he looked at Kong Miao and said, "Since they found out that they could no longer use your transmission formation, then I reckon they would no longer use this plan anymore. How about opening the transmission formations right now? It wouldn't be good if the reinforcements fail to arrive because the transmission formations couldn't be used."

Kong Miao couldn't help but curse inwardly. But on the surface, he was still calm as he nodded and said, "Mister is correct. But it wouldn't work like that. We have to make sure first that they would no longer be using this method. Right, Mister, when will the reinforcements arrive? It's been so long but they're still not here."

Ba Muer looked at Kong Miao and said, "What does Grandmaster Kong Miao mean? Are you saying that our reinforcements are late? Mobilizing our men needs time. We already sent someone back in order to ask for help. Perhaps they didn't think that the Hundred Treasures Realm would send 3000 people. It's normal for them to be late for a few hours."

Kong Miao looked at Ba Muer and then talked with a grave tone, "We can deal with less than 3000 people from the Hundred Treasures Realm on our own. But why would the Hundred Treasures Realm attack us. Mister knows this, we know this as well. Small groups like the World of Cultivation and the Xu Race aren't worth being attacked by the Hundred Treasures Realm. Their true target is the Giant Spirit Realm. I just didn't expect that the Giant Spirit Realm wouldn't have the courage to fight the Hundred Treasures Realm!"

Kong Miao has long since endured Ba Muer's disrespect. He wanted to imprison Ba Muer and the others at first. He didn't want to cut off any relationships yet. At least, he wanted to leave a way out for the World of Cultivation. However, he didn't expect Ba Muer to act like he's superior and talked condescendingly. In the end, Kong Miao couldn't help but talk in a scolding tone.

When Ba Muer heard Kong Miao, he was stunned for a while. He didn't expect Kong Miao to be this impolite. Without waiting for Ba Muer to react, someone from the Giant Spirit Realm said, "Audacious! Who do you think you are to speak like that towards the Captain!"

Kong Miao looked at the person from the Giant Spirit Realm, then he coldly snorted and said, "I am the commander of the World of Cultivation's army. I can say that I represent the World of Cultivation. How about you? Even Ba Muer doesn't have any qualifications to treat me as an equal. Is he a captain? He's just a vice-captain. Even Yan Dong wouldn't talk to me like that. What qualifications do you have to shout in front of me?"

Ba Muer's expression changed. He didn't expect Kong Miao to speak to him like that. Indeed, he was just a vice-captain of this 50-man group. However, they are from a high-grade realm. Not to say Vice-captains, even ordinary people from high-grade realms would have the qualification to be equal to Kong Miao. In their minds, it's normal for them to speak this way to people like Kong Miao. They think that they were acting proper and that it was Kong Miao who didn't have any qualifications to talk to them.

Who would've thought that Kong Miao was the one to say that he wasn't to be treated as their equal! This shocked Ba Muer. The other people from the Giant Spirit Realm stood up, some have even drawn their weapons.

But at this time, people from the Hundred Treasures Realm and the Xu Race began spilling into the tunnel. They also took out their artifacts. The battle between two sides was ready to set off at any time!

#### Chapter 1455: Price For Playing Tricks

Just as the atmosphere was turning heated, a voice was heard, "Oh, what's wrong? Why is everyone drawing their weapons? Did something happen?" A single person was seen flying into the tunnel. Seeing this person, Kong Miao relaxed, it was Zhao Hai.

Although Zhao Hai had no rank in the World of Cultivation, everyone knew who he was. Kong Miao found himself relying on Zhao Hai more and more.

Back when they drew their weapons against Ba Muer and the others, Kong Miao lacked confidence in winning. He felt nervous deep inside. But when he saw Zhao Hai, his heart couldn't help but calm down.

Ba Muer also noticed Zhao Hai, but he didn't say anything. In his mind, Zhao Hai wasn't someone to be afraid of. He just coldly snorted and said, "Zhao Hai, you have no right to speak here. Go away!"

Zhao Hai looked at Ba Muer and then smiled faintly as he said, "It seems like Captain Ba still hasn't figured out the situation. Do you know where this is? This is the stronghold of the World of Cultivation, and I am from the World of Cultivation. How about you, what gave you the right to shout here? Do you really think that we don't know what you're planning to do? Don't you find it weird that the transmission formations have suddenly been sealed? It seems like Grandmaster Kong Miao has been too polite to you that you failed to realize what situation you're in."

Hearing Zhao Hai's words, Ba Muer's face changed color. Zhao Hai scolding him already turned his expression dark. But Zhao Hai's words after that caused his face to turn pale white. He discovered that he had made a mistake. All of the things that Kong Miao has said might have been a lie.

Zhao Hai looked at Ba Muer, he coldly snorted and said, "When you left this room earlier, you received a jade sword message. After that, you immediately headed towards the transmission formation without even saying a word. What, you want to return to the Giant Spirit Realm? I can tell you that it's too late. After seeing your move, I immediately sealed the transmission formation. Do you want to know where I went just now? Let me tell you. I just went to meet the people from the Hundred Treasures Realm. The World of Cultivation and the Xu Race would rather side with the Hundred Treasures Realm to deal with the Giant Spirit Realm. As long as they're willing to accept, you would be sent over to them as a tribute. And yet you still had the guts to shout and yell here. If the Giant Spirit Realm is filled with idiots like you, then you're not far from being defeated!"

Ba Muer's face was pale as he looked at Zhao Hai. Then he coldly snorted and said, "Ungrateful! You people from the World of Cultivation are all ungrateful people. The Giant Spirit Realm always treated you well. Now you want to detain us and hand us over to the Hundred Treasures Realm? Are you still humans?"

Zhao Hai looked at Ba Muer and then suddenly laughed. After some time, Zhao Hai stopped laughing as he said, "Ba Muer, don't put gold on your faces. The Giant Spirit Realm treats the World of Cultivation well? The World of Cultivation has been using vast amounts of resources as tribute every year in order to get your protection. But now, the Hundred Treasures Realm has come to deal with us, why would they attack us? We're just a medium-grade realm and everyone who encounters the Hundred Treasures Realm always takes the long way around. It's impossible for us to offend them. They attacked us because we're tied with the Giant Spirit Realm. We had a conflict with them and we killed more than a thousand people. All of this is because of the Giant Spirit Realm. We were willing to follow you and help deal with the Hundred Treasures Realm. But now what happened? You only came to check the situation. And when confirmed that the report was real, you still refused to send reinforcements. In the end, you still decided to abandon us."

"Together with the Xu Race we would have the strength of an upper medium-grade realm. Even if we're only an upper medium-grade realm, you should see the amount of tribute we can give each year. We became enemies with the Hundred Treasures Realm for your sake. You should have sent troops to help us. Instead, you abandoned us without even a fight. Is this what the people from the Giant Spirit Realm do? From the moment you abandoned the World of Cultivation, the Giant Spirit Realm is finished. You have already lost the heart of a high-grade realm. Without this, you can no longer be a high-grade realm.

You can't even protect your own subordinates. What qualifications do you have to be a high-grade realm?"

"You better behave yourselves, and I'll let you live for a while. If you really irritate me, I'll just kill you and hand your heads over to the Hundred Treasures Realm."

As he listened to Zhao Hai, veins bulged on Ba Muer's pale face. At this moment, someone from the Giant Spirit Realm roared as he took his giant axe and flung it towards Zhao Hai.

The action was very sudden. Nobody thought that someone from the Giant Spirit Realm would suddenly launch an attack. Moreover, it was swift, Zhao Hai wouldn't be able to avoid it.

Kong Miao's expression paled. Just as he was about to panic, he saw Zhao Hai stretch his hand and lightly snapped his fingers. Along with the snap, a cloud of blood burst out from the throat of the person from the Giant Spirit Realm. A round hole appeared on the person's neck. His blood gushing out like a fountain. Then the eye of the person from the Giant Spirit Realm lost its lustre. The giant axe that attacked Zhao Hai also fell to the ground.

Zhao Hai looked at the people from the Giant Spirit Realm, then he said in a soft voice, "I don't know whether you will live or die. Thousands of people from the Hundred Treasures Realm came to attack us and were trapped in this mine. With less than 50 of you, what storms can you stir up? Ba Muer, you better behave. I don't mind killing you all right now."

Zhao Hai's move not only shook Ba Muer, but Kong Miao and the others as well. All of them looked at Zhao Hai in a daze, not knowing how Zhao Hai did it.

Zhao Hai flew towards Kong Miao's side and said, "Grandmaster, the Hundred Treasures Realm's Tang Jie said that this isn't something he could take responsibility for. So he had to report back to his higher-ups. But from what I can see, it's highly possible that they would agree."

Kong Miao recovered. He immediately nodded and said, "Alright, that's good. So what do we do to them?"

Zhao Hai glanced towards Ba Muer and then sneered as he said, "A group of arrogant idiots. Just watch them first. If they dared make any trouble, just kill them."

Kong Miao nodded, then he turned his head and gave an order. After that, people from the World of Cultivation and the Xu Race suppressed Ba Muer's group and then took their weapons.

When Ba Muer and his group left, Kong Miao looked at Zhao Hai and asked, "Little Hai, how did you do that just now? Why didn't I see you make an attack?"

Zhao Hai smiled faintly, then he whispered to Kong Miao, "When I talked to them before, I secretly turned Liquid Silver into very small needles. I used words to attract their attention and quietly inserted the needles into their necks. They didn't notice it because they move too much. If I want to attack, I just use the needles. I just made them think that I can kill them with a snap of my fingers."

When he heard this, Kong Miao couldn't help but get stunned for a moment. Then he said, "That works?"

Zhao Hai smiled and said, "Of course. I got this method when studying the artifacts of the Hundred Treasures Realm. Grandmaster, the Ten Thousand Transformation Staff should be able to do this."

Kong Miao's eyes lit up. But he didn't say anything. Just now, the two of them were close to each other and used sound transmission so nobody could hear them.

At this time, Xu Wuzun walked towards them as he laughed and said, "Little Hai, good. That was too liberating. I've been getting annoyed by those fellows."

Zhao Hai smiled faintly and said, "This time, even if the people from the Hundred Treasures Realm doesn't accept us, those people from the Giant Spirit Realm wouldn't be able to survive. We'll kill them and blame it on the Hundred Treasures Realm, making the two fight over it. With this, they wouldn't have time to find our coordinates. Ba Muer and the others would die sooner or later, so we might as well let them be arrogant."

Hearing what Zhao Hai said, Xu Wuzun and Kong Miao's hearts turned cold. To be honest, they didn't want to be in conflict with Ba Muer. They still want to keep an escape route for themselves. If the

people from the Hundred Treasures Realm don't accept them, they would want to ask the Giant Spirit Realm one more time.

Actually, they understood that the Giant Spirit Realm wouldn't help them. Even if they beg the Giant Spirit Realm, nothing will happen. After all, the Giant Spirit Realm was a high-grader realm. People aren't too willing to kill them. They weren't like Zhao Hai. Zhao Hai doesn't care whether the Giant Spirit Realm was a high-grade realm or not. He only did things that would be beneficial to himself. The moment Zhao Hai discovered that the Giant Spirit Realm had given up on them, Ba Muer's fate was sealed.

The two people looked at each other in dismay, they weren't able to speak for some time. Then at this moment, Zhao Hai's expression changed as he said, "Reckless things. Still unwilling to give up."

Hearing Zhao Hai, Kong Miao's expression changed as he said, "What happened? Is Ba Muer causing a problem?"

Zhao Hai nodded and said, "Ba Muer secretly sent out a jade sword message. It seems like he wants to report the situation to the Giant Spirit Realm. But there's no need to worry, my Undead intercepted it. I'll return quickly." Then after he said that he vanished in place.

When Zhao Hai left, Kong Miao sighed. Then he looked at Xu Wuzun and said, "I now know what a top expert is like. Before ascending, I'm certain that Little Hai must have been a top expert. Hard-hearted, merciless, but he can afford to do so. Once he makes a move, he would be unforgiving."

Xu Wuzun smiled bitterly. To be honest, him and Kong Miao couldn't be considered as top experts. The two put their cultivation as the priority. Because of this, there were a lot of things that they didn't know about. Because of this, when the two of them did something, there would be times when they would miss a thing or two. They weren't as decisive as Zhao Hai.

At this moment, Ba Muer's face was pale as he looked at the Xu Race and the people from the World of Cultivation. He didn't think that he would be reduced to this situation one day.

Ba Muer swallowed his breath as he quietly took a jade sword message and let it go. Although he hid his action from the World of Cultivation and the Xu Race, he didn't conceal it from the others from the Giant Spirit Realm. The others from the Giant Spirit Realm cooperated as they attracted the attention of

the people from the Xu Race and the World of Cultivation. This allowed Ba Muer to smoothly send his jade sword message away.

Actually, this was also because of the relaxed relationship of the World of Cultivation and the Xu Race. Zhao Hai being able to snap his fingers to kill an enemy caused them to let go of any worries. This caused the people of World of Cultivation and the Xu Race to let down their guard, allowing Ba Muer to send his jade sword message undiscovered.

Seeing his jade sword message fly away, Ba Muer couldn't help but sneer. He looked at the people from the World of Cultivation and the Xu Race and a cold glint sparkled in his eyes. He was currently thinking about what methods to use when he gets his revenge.

Then at this moment, a person appeared in front of Ba Muer and the others. When he saw this person, Ba Muer's expression couldn't help but turn ugly. It was Zhao Hai. Ba Muer didn't understand what Zhao Hai wanted this time. He simply didn't think that his jade sword message would be blocked by Zhao Hai. Jade sword messages are very fast. Moreover, it was very small. Once they were released, it was extremely hard to block them. Therefore, Ba Muer didn't think towards that direction.

Ba Muer and the others from the Giant Spirit Realm couldn't help but feel pressure when Zhao Hai arrived. They immediately stopped and looked at him in confusion.

With a cold expression, Zhao Hai looked at Ba Muer and said, "Ba Muer, I already warned you to not play any tricks with me. Now that you neglected my warning, you'll have to pay the price."

Ba Muer looked at Zhao Hai, with an ashen expression he said, "Zhao Hai, don't go too far. We didn't resist. What do you mean playing tricks? If you want to kill us, then you might as well do it now."

Zhao Hai looked at Ba Muer, then he sneered and said, "No tricks? Then what is this? Isn't this jade sword message yours? I'm not joking when I said that you'll pay the price. You sent a jade sword message, so I'll kill five of your people. That wouldn't be excessive wouldn't it?"

Seeing Zhao Hai take out a jade sword message, Ba Muer's expression changed. And hearing Zhao Hai's words, his expression turned even darker. Without waiting for Ba Muer to talk, Zhao Hai waved his hand and the throats of five people from the Giant Spirit Realm were punctured. Before long, they all fell down.

Zhao Hai looked at Ba Muer and said, "If you want to live for a while more, then behave. If you dared play any more tricks, then I'll kill ten more next time."

Then Zhao Hai looked at the people from the World of Cultivation and the Xu Race and said, "Take them away!" They quickly complied. Their expressions weren't good to look at.

#### Chapter 1456: The Way Forward

The Cultivators and the Xu Race had ugly expressions not because of what Zhao Hai said. Instead, it was because they felt sorry about not noticing Ba Muer's actions when he was just right in front of them.

At this point, it was impossible for these people to feel any discontent against Zhao Hai. Zhao Hai had the strength to cement his reputation. Moreover, Zhao Hai's contributions were higher than anybody else in the stronghold. So they weren't dissatisfied with Zhao Hai. They were just angry that they didn't notice the sneaky move of the Giant Spirit Realm.

The Cultivators and the Xu Race people looked at the people from the Giant Spirit Realm with disgust. Even if they weren't as strong as the Giant Spirit Realm, they weren't that weak either. As long as they get serious, Ba Muer and the others would have to think twice about making a move.

After Ba Muer and his men were imprisoned in a cave, Zhao Hai returned to the command tunnel. He has to discuss the matter with the Hundred Treasures Realm with Kong Miao and Xu Wuzun.

When Zhao Hai returned to the tunnel, Kong Miao and Xu Wuzun were discussing current matters. The Immortal Stage Experts already give them the authority to deal with the situation as they see fit. Now the two were discussing what to do if the Hundred Treasures Realm takes them in.

Besides the two, there were also several Severed Soul Experts present. Xu Ning, Jianyi, and others were present. All of them sat in the room while they discussed.

Naturally, at this time, they were just idly talking without making concrete decisions. They were still waiting for someone to arrive, and of course it's Zhao Hai.

When Zhao Hai appeared back in the tunnel, he immediately went to Kong Miao's side. After asking Zhao Hai to sit down, Kong Miao looked at him and asked, "Little Hai, what happened? Why did you suddenly leave?"

Zhao Hai smiled faintly, "Everything's fine. There are just fellows who decided to play some tricks. I already dealt with it. What is everyone discussing right now?"

Kong Miao replied, "We're talking about what to do next. Little Hai, what do you think?"

Zhao Hai looked at the people in the room and said, "The Giant Spirit Realm has given up on us. Since that is the case, we will have to side with the Hundred Treasures Realm. However, we've had so many conflicts with the Hundred Treasures Realm before. This means that we have grudges against them, so we have to guard against them in the future. In order to prevent this, we need to make more effort once the Hundred Treasures Realm and the Giant Spirit Realm goes into battle."

Kong Miao and the others nodded. But then, Kong Miao said, "But what if the Hundred Treasures Realm doesn't accept us? What should we do?"

Zhao Hai replied, "Then we'll retreat back to the World of Cultivation. Let the two of them fight. I also want them to fight for a long time. Once the two weaken themselves, we'll return to the Ten-thousand Realm Battlefield. At that time, they would have no choice but to accept us."

Kong Miao, Xu Wuzun and the others stared. They don't understand what Zhao Hai meant. Although the Hundred Treasures Realm and the Giant Spirit Realm are bitter enemies, they were very restrained when they fought. They would injure each other, but they don't cause damage deep enough to touch bone. When both sides reach a certain level of casualties, they would stop and return to their own territories to mend their wounds and prepare for the next fight.

Both the Hundred Treasures Realm and the Giant Spirit Realm knew that even if they were each other's bitter enemies, once their casualties got too big, they would just be easy pickings for others. It was for this reason that both sides held back during their battles. It was also because they knew about this point that Kong Miao and Xu Wuzun believed that the Hundred Treasures Realm and the Giant Spirit Realm wouldn't fight a life and death battle.

Although it seems like the Hundred Treasures Realm were prepared and that the Giant Spirit Realm made the wrong decision putting them in a disadvantage, a skinny camel is always bigger than a horse. The Giant Spirit Realm wouldn't be easy to deal with. Once the Giant Spirit Realm fights it out with the Hundred Treasures Realm and causes heavy damage, the two sides would enter a truce. It's almost impossible for the two sides to cripple themselves over their grudge.

Zhao Hai looked at Kong Miao and Xu Wuzun, then he smiled faintly and said, "Everyone here should have read information about me. You should be aware of my most important ability." Hearing Zhao Hai, everyone present paused once more. They have read about Zhao Hai's abilities a long time ago. However, they didn't think about it at this time.

Just as those present were pondering, Jianyi said, "Your Spatial abilities?"

Jianyi's voice caused everyone to be stunned. Then they looked towards Zhao Hai with bright eyes. Zhao Hai smiled faintly and said, "Correct, my spatial ability."

Kong Miao and the others weren't fools. Hearing about Zhao Hai's spatial ability, they immediately understood what Zhao Hai meant.

Zhao Hai looked at everyone and then smiled faintly as he said, "Even if the people from the Hundred Treasures Realm doesn't accept us, our departure from the Ten-thousand Realm Battlefield would only be temporary. As long as I want to come back here, I can. Therefore, let's hope that the Hundred Treasures Realm accepts us, otherwise the Hundred Treasures Realm and the Giant Spirit Realm wouldn't have good days ahead." Hearing the killing intent in Zhao Hai's words, the hearts of Kong Miao, Xu Wuzun, and the others present couldn't help but turn frigid. They discovered that it was a wrong move for the Hundred Treasures Realm and the Giant Spirit Realm to annoy Zhao Hai. As long as Zhao Hai takes this matter in his hands, the two realms wouldn't be able to live well.

Kong Miao took a deep breath to calm down his mood. Then he turned his head to Zhao Hai and said, "If the Hundred Treasures Realm accepts us, what would you do?"

Zhao Hai replied, "If the Hundred Treasures Realm accepts us, then our first step would be to give up on this place and move back to the Octopus Islands."

Hearing Zhao Hai, everyone couldn't help but stare. Kong Miao asked, "Leave here? Why?"

Zhao Hai replied, "This place is too close to the Giant Spirit Realm's base. If they dispatch troops to attack us, we wouldn't be able to block it. On the other hand, if we go to the Octopus Islands, things would be different. The Octopus Islands are far from the Giant Spirit Realm's base. Although it was also far from the Hundred Treasures Realm's base, it's still a much better place compared to here. We can also establish a transmission formation on the island. Additionally, even if we cannot stall the Giant Spirit Realm, we can still retreat to the seas. I reckon, after many years, the Xu Race has made some investigation about the seas. Therefore, it's much better for us to use the Octopus Islands as a base."

Kong Miao frowned. Although what Zhao Hai said was reasonable, he was unwilling to let go of the stronghold.

Zhao Hai looked at Kong Miao's expression, then he smiled faintly and said, "Grandmaster, in order to survive, our Xu Race friends trusted us and came to our stronghold. So why can't we go to their base? Right now, our two realms are on the same boat. Naturally, we need to work together."

Kong Miao nodded and said, "Alright, if the Hundred Treasures Realm accepts us, we'll move to the Octopus Islands."

Xu Wuzun and the others were extremely happy. To be honest, although they had been treated very well in the World of Cultivation's stronghold, nor were they being looked down on, they still couldn't help feeling uncomfortable. Naturally, they would be glad to return back to the Octopus Islands.

Zhao Hai nodded and said, "Even if we move to the Octopus Islands, those guys wouldn't let us off. But that doesn't matter. We can just beat them up. As long as we become known, even the Hundred Treasures Realm would need to think twice if they want to deal with us. After all, we would have helped them a lot. If they really dared to kill the donkey after transporting the grain, they would follow the footsteps of the Giant Spirit Realm."

Kong Miao and the others now understood Zhao Hai's plan. They also understood that Zhao Hai wanted them to earn great merit. They would become known by the Hundred Treasures Realm as the most loyal and meritorious subordinates. As a result, it would be very hard for the Hundred Treasures Realm to move against them. Unless they want to affect their reputation in the Ten-thousand Realm Battlefield.

Kong Miao nodded and said, "This is a good plan. As long as the Hundred Treasures Realm is willing to take us in, we'll be fine. However, the Giant Spirit Realm isn't good to deal with. When the time comes,

they would target us. After all, our action isn't as simple as changing our allegiance to the Hundred Treasures Realm. Their reputation would take a blow as well."

Zhao Hai smiled faintly and said, "Not only that, we can hold off the Giant Spirit Realm while in the Octopus Islands. And once we succeed, what would happen next? I'm afraid that people would no longer treat the Giant Spirit Realm as a high-grade realm. Not being able to deal with a medium-grade realm would be a huge blow to the Giant Spirit Realm."

Xu Wuzun and the others nodded. The reason why the high-grade realms have their current status in the Ten-thousand Realm Battlefield was because they were people that couldn't be provoked. Everyone who did so was eradicated. As long as someone offends them, high-grade realms would move swiftly to deal with the enemy. This way, they would be showing their strength.

If a high-grade realm fails to deal with a disaster in a swift manner. Everyone will think that they no longer deserve being called a high-grade realm. When that time comes, the Giant Spirit Realm would be finished.

Actually, all of these benefits should have belonged to the Giant Spirit Realm. If the Giant Spirit Realm didn't give up on the World of Cultivation, Zhao Hai would have fought with the Hundred Treasures Realm to the end. By then, all problems would be solved with the defeat of the Hundred Treasures Realm. The Giant Spirit Realm could attack the Hundred Treasures Realm through this matter. The Hundred Treasures Realm would be in trouble by that time. Unfortunately, the Giant Spirit Realm gave up the opportunity and caused trouble onto itself!

Chapter 1457: Agreed!

Tang Jie was starting in front of the people from the Hundred Treasures Realm. Tang Jie was the captain, so everyone present respected him very much. Since Tang Jie didn't make any noise, these people didn't make a noise as well. They were just looking at Tang Jie.

Tang Jie was currently waiting for news. He clearly stated the situation and the information related to it. Tang Jie believed that the higher-ups would agree. This was because their target in the end was the Giant Spirit Realm. Moreover, it would be more convenient for their plans if the World of Cultivation joins under their banner.

At this time, Tang Wen arrived by Tang Jie's side and said, "Senior Brother, aren't you worried about the people we left back in the Octopus Islands? It's been some time since we received information about them."

Tang Jie was stunned for a moment, then he shook his head and said, "I'm afraid it's already too late. But let me send a message." Then he released a jade sword message. However, there was no response soon after.

Seeing this, Tang Jie sighed and said, "Just as I thought. Zhao Hai is truly cruel."

Tang Wen looked at the jade sword message and couldn't help but ask, "Senior Brother, what's wrong? Did something happen to the Octopus Islands?"

Tang Jie sighed once more, "I found it strange when the first group said that Zhao Hai killed his way into the World of Cultivation's stronghold. Now, I'm sure that Zhao Hai went to the Octopus Islands and killed the people there before coming back to attack us. This person is truly vicious and merciless. It's a bad idea to become his opponent."

When Tang Wen heard what Tang Jie said, his expression changed. Then he said, "Is Zhao Hai that strong? That's impossible. Senior Brother, aren't you overestimating his abilities?"

Tang Jie shook his head and said, "Absolutely not. The people on the Octopus Islands are definitely dead. Moreover, they were killed by Zhao Hai. Little Wen, don't underestimate Zhao Hai. You should have seen the information about him. After he ascended from the lower realms, he immediately caused small and large troubles. Have you seen the losses we suffered against him? Back in the World of Cultivation, he was chased down but managed to survive. In the end, he went against a Transcending Tribulation Expert. After that, he went into seclusion for four and a half years. Although he's still at the Nascent Soul stage, you can see that he isn't any weaker than Severed Soul Experts. And he's also a Dark Mage. You cannot underestimate a person like him."

Tang Wen nodded and said, "Dark Mages have been known to be vicious and merciless. They make Undead from the corpses of their enemies. This Zhao Hai is no better."

Tang Jie nodded and said, "Zhao Hai's undead is also very special, and they have helped him fight before. Most Dark Mages learn more advanced techniques and abandon dark magic when they ascend.

However, Zhao Hai's undead are still very strong, providing him with huge help. But did you discover that Zhao Hai barely uses his Undead during his earlier battles? Do you know why this is?"

Tang Wen asked, "He can't control the Undead for a long time?"

Tang Jie shook his head and said, "He's preserving his strength, keeping cards hidden. When it's necessary, he would pull out these cards. In other words, Zhao Hai hasn't been using true strength. I'm afraid even the people from the World of Cultivation don't know his true strength. This person's plans go very deep. If we have that person on our side. Moreover, having the World of Cultivation with him would be a great advantage."

Tang Wen replied, "What advantage?"

Tang Jie looked at Tang Wen and whispered, "Think about the times the Hundred Treasures Realm suffered against the World of Cultivation and the Xu Race. Instead of bringing more trouble, we might as well accept the Xu Race and the World of Cultivation and make them our sword against the Giant Spirit Realm. Think about it, if the Giant Spirit Realm couldn't keep these two realms, what troubles would they have?"

Tang Wen didn't answer for some time, then he understood Tang Jie's thoughts. He nodded and said, "Senior Brother is right. If the Giant Spirit Realm couldn't keep the World of Cultivation and the Xu Race, their reputation would take a huge hit. And with the betrayal of the World of Cultivation, the Giant Spirit Realm would have a difficult time."

Tang Wen's eyes shone, "It's truly a good idea to receive the World of Cultivation and the Xu Race. But Senior Brother, didn't you report about our past troubles with them?"

Tang Jie looked at Tang Wen and said, "Little Wen, some enmity needed to be remembered, and some enmity needed to be forgotten. Zhao Hai and the others would be a great use for us. Our true enemy is the Giant Spirit Realm. When Zhao Hai and the others were fighting with us, they were still subordinated to the Giant Spirit Realm. But once they come under us, they would be on our side. Our Hundred Treasures Realm doesn't settle accounts after the autumn. Do you understand what I mean?"

Tang Wen understood what Tang Jie was saying. The Giant Spirit realm would only cause troubles for themselves if they don't save the Giant Spirit Realm. If the Hundred Treasures Realm settled accounts

after using the World of Cultivation, then those who follow them would begin to have doubts. It would be harmful for the Hundred Treasures Realm.

Tang Wen nodded and no longer spoke. Now he could only hope that they would accept the World of Cultivation and the Xu Race. Otherwise, it would be a huge loss.

The two didn't use voice transmission during their talk. Therefore, other people also heard them. When they heard the two, they couldn't help but contemplate.

Strictly speaking, these people were also Cultivators. Back in the Hundred Treasures Realm, they had groups of their own. It was only when they're here in the Ten-thousand Realm Battlefield that they combined their strengths and became an army. Each of them would serve in the battlefield for ten years before they could go back to the Hundred Treasures Realm. If you talk about the friendship they had with each other, then it's not that much in reality. They were all selfish and thought of their own survival. They didn't care about the greater good. Even if their comrades die, or even their brothers and nephews, they wouldn't feel anything.

The people from the Hundred Treasures Realm understood that they were only able to walk sideways in the Ten-thousand Realm Battlefield because they were from the Hundred Treasures Realm. If the reputation of the Hundred Treasures Realm gets damaged, then they would be suppressed on all sides. Their days wouldn't be better. Therefore, when these people heard Tang Jie, they couldn't help but ponder over it. In their opinion, accepting the World of Cultivation and the Xu Race would be really good for the Hundred Treasures Realm. Thinking that the Giant Spirit Realm would be losing two realms caused their hatred towards the World of Cultivation to slowly disappear.

Tang Jie deliberately let everyone hear this because of his appreciation for Zhao Hai's skills. In the Ten-thousand Realm Battlefield, vicious and merciless wasn't a derogatory term. Cultivators needed to have this personality in order to progress.

Zhao Hai doesn't hesitate in making ruthless moves. Such a person was absolutely a genius. If Zhao Hai can stall the attack of the Giant Spirit Realm, then it would be a great benefit for the Hundred Treasures Realm.

Tang Jie glanced at the people behind him and a smile appeared on his face. At this moment, a jade sword message flew in front of Tang Jie. He took the jade sword message and used his spiritual force to read the message inside. After he read the contents, he took a sigh of relief.

Seeing Tang Jie's reaction, Tang Wen asked, "Senior Brother, what did the higher-ups say?"

Tang Jie handed the jade sword message to Tang Wen as he smiled and said, "Go read it yourself." Tang Wen didn't hesitate and took the jade sword and read it. Reading the contents inside, a smile couldn't help but bloom on his face as he said, "Fantastic. The higher-ups agreed!"

Just as Tang Wen finished talking, someone's voice was heard, "Then the medium-grade realm World of Cultivation and the Xu Race thanks the Hundred Treasures Realm for taking us in." Tang Jie and Tang Wen followed the voice and saw Zhao Hai, Kong Miao, Xu Wuzun, and other Severed Soul experts standing not far from them.

Tang Jie quickly recovered and welcomed Zhao Hai and the others with a smile. At this time, the person standing in front of the group was Kong Miao. Tang Jie cupped his fist towards Kong Miao and said, "Grandmaster is too polite. It should be us who need to thank you for joining our side."

Kong Miao smiled faintly and said, "Our World of Cultivation and the Xu Race are no more than ghosts that nobody wants. We are deeply grateful to the Hundred Treasures Realm for taking us in. Friends from the Hundred Treasures Realm, please accept our invitation to come in."

After exchanging greetings, Tang Jie smiled and said, "Then I'll accept." The two flew shoulder to shoulder towards the command tunnel. Tang Wen followed Tang Jie while Xu Wuzun was behind Kong Miao. Xu Ning and the other Severed Soul Experts followed further behind. The same was true for the experts from the Hundred Treasures Realm. As for Zhao Hai, he didn't move. He was at the last of the group.

Along the way, the people from the Hundred Treasures Realm could see people from the World of Cultivation and the Xu Race arranging formations. Just on their path alone, they could already see a lot of formations. If the Hundred Treasures Realm didn't agree, then they would have to deal with all of these.

It didn't take long before the group arrived at the command tunnel. Tang Jie made Tang Wen and the others follow Xu Ning's group in order to get settled down. As for Tang Jie, he followed Kong Miao to discuss matters.

Xu Ning and the other Severed Soul Experts helped settle the people from the Hundred Treasures Realm. Only Kong Miao, Xu Wuzun, and Zhao Hai accompanied Tang Jie.

Once the group arrived inside the room, Zhao Hai immediately took out a bottle of liquor as well as some jade cups. After handing everyone a glass of liquor, he positioned himself behind Kong Miao, acting like an attendant.

Despite this, Tang Jie didn't dare underestimate Zhao Hai. He also paid special attention to Zhao Hai's actions. After receiving his cup, Tang Jie smiled and said, "It's an honor to be served personally by Mister Zhao Hai."

Zhao Hai smiled faintly and said, "Captain Tang Jie is too polite. This Zhao Hai is no more than a Nascent Soul Expert. It's my honor to be able to serve you."

Hearing this, Tang Jie laughed and said, "It's Mister who is too polite. If every Nascent Soul Expert is like Mister Zhao Hai, then I'm afraid all Severed Soul Experts would be losing their jobs." Kong Miao and Xu Wuzun also laughed when they heard this.

#### Chapter 1458: Call Me Brother Tang

Zhao Hai just smiled and didn't mind it. But he couldn't help but get a favorable impression of Tang Jie. This person was a bit arrogant, but he was very good at getting along with others.

After some time, things settled down. Tang Jie drank from his liquor glass and then nodded as he said, "Nice wine. It could be a high-end good even in the Hundred Treasures Realm. I didn't expect the World of Cultivation's winemaking techniques to be this good."

Kong Miao smiled and said, "Captain Tang is too polite. This liquor is the World of Cultivation's best liquor. Moreover, it's not something that everyone can have. In the entire World of Cultivation, only one person is able to make it. And this person is right in front of you."

Tang Jie stared, then he turned his head to Zhao Hai and said, "I didn't expect Mister Zhao Hai to also brew alcohol. Mister's talents are really versatile."

Zhao Hai smiled and said, "I just happen to have good ingredients. And this wine isn't made by me. If Captain Tang likes it, I can give you a batch."

Tang Jie nodded, then he looked at Kong Miao and said, "Grandmaster, our Hundred Treasures Realm has agreed to your terms. Starting from today, the World of Cultivation and the Xu Race are under the Hundred Treasures Realm. Do you have any requests?"

Kong Miao shook his head and said, "We have no requests. Being sheltered by the Hundred Treasures Realm is already a great boon to the World of Cultivation and the Xu Race. I know that the Hundred Treasures Realm is about to go to war with the Giant Spirit Realm. We'll do our best to help you out."

Tang Jie nodded, "Then does Grandmaster have plans on what to do next?"

Kong Miao replied, "We're planning to move to the Octopus Islands. It's because it's farther from the Giant Spirit Realm's base and also because the surrounding seas are controlled by the Xu Race. Being able to survive on that place for many years meant that it's a good defensible base. This base is too close to the Giant Spirit Realm. We're basically deep inside the Giant Spirit Realm's area of influence. If the Giant Spirit Realm decides to take action, it would be very hard to defend this base even with the help of the Hundred Treasures Realm. It would also cause the Hundred Treasures Realm to incur unnecessary losses. Therefore, we're moving to the Octopus Islands. What does Captain Tang think?"

Tang Jie also thought about this when the World of Cultivation and the Xu Race asked the Hundred Treasures Realm to take them in. The stronghold of the World of Cultivation was too close to the Giant Spirit Realm's base. If the World of Cultivation really does go under the Hundred Treasures Realm, then they would no longer be able to use this base.

Originally, he wanted to urge the World of Cultivation and the Xu Race to move. He didn't expect Kong Miao to put it out first. Tang Jie looked at Kong Miao and said, "Oh, this is a good idea. How did Mister think about it?"

Kong Miao smiled and said, "It's Little Hai's idea. We also think that it's reasonable."

Tang Jie couldn't help but look at Zhao Hai. He discovered that he still underestimated him. Meanwhile, Zhao Hai didn't mind what was happening as he looked at Tang Jie and smiled.

Tang Jie nodded to Zhao Hai, then he turned his head to Kong Miao and said, "Little Hai's proposal is good. I have no problem with it. However, I think that we should move quickly. Otherwise, the Giant Spirit Realm would discover what's happening here and attack."

Kong Miao nodded and said, "We've already made some preparations. Right, Captain Tang, we have some gifts to give you. I'll have to ask you to take a look later."

Hearing Kong Miao, Tang Jie stared, then with a gloomy face he said, "You mean the people from the Giant Spirit Realm? How many are there?"

Kong Miao smiled and said, "There are 48 of them. But since they caused some trouble, Zhao Hai eliminated six of them. Now there's only 42 of them left. When does Captain Tang want to see them?"

Tang Jie replied, "I want to see them now. Where are they?" Kong Miao smiled faintly and then turned to Zhao Hai as he said, "Little Hai, please take Captain Tang there."

Zhao Hai complied, he stood up as he said, "Captain Tang, please." Tang Jie nodded. Then he turned to Kong Miao and Xu Wuzun and gave them a salute before following Zhao Hai.

Zhao Hai brought Tang Jie away from the command tunnel and towards the tunnel where the people from the Giant Spirit Realm were imprisoned. As Tang Jie flew beside Zhao Hai, he asked, "Little Hai, those people from the Giant Spirit Realm, they didn't play any tricks?"

Zhao Hai smiled faintly and said, "If they want to live longer, they wouldn't dare play any tricks."

Upon hearing Zhao Hai, Tang Jie couldn't help but feel his scalp tingle. Although the Giant Spirit Realm was his enemy, he has to recognize that they were very strong. Even the Hundred Treasures Realm would have a hard time winning against them one-on-one. However, it seems like Zhao Hai can kill them at any time. It was terrifying to think about.

Before long, the two arrived outside of a tunnel. Although the World of Cultivation and the Xu Race were preparing to move, there were still a lot of people present in this tunnel. Moreover, these people were in full attention. With their current attitude, even Zhao Hai wouldn't be able to sneak in a few silver needles.

Seeing Zhao Hai and Tang Jie arrive, the people from the World of Cultivation and the Xu Race cupped their fist. Zhao Hai returned their gesture as he said, "Ba Muer, take your people out here. A friend wants to see you."

The people from the World of Cultivation and the Xu Race separated, allowing a small opening. Ba Muer and the others didn't plan anything this time as they just flew out of the tunnel.

Seeing Tang Jie when he flew out, Ba Muer's expression couldn't help but change. He now knew that the Hundred Treasures Realm chose to accept the World of Cultivation. Ba Muer's heart turned cold. He wasn't only thinking of his own fate, but also the Giant Spirit Realm.

Ba Muer discovered that the Giant Spirit Realm made a very wrong decision. It's a real mistake abandoning the World of Cultivation. As soon as they gave up the World of Cultivation, the Hundred Treasures Realm accepted them. This doesn't mean that the Hundred Treasures Realm were fools that pick up others' trash. On the contrary, the Hundred Treasures Realm was smart. They received the World of Cultivation quickly because the World of Cultivation can bring them greater benefits.

The Giant Spirit Realm abandoning the World of Cultivation would be a huge hit to their reputation. The Hundred Treasures Realm taking them in would increase their reputation. This rise and fall wasn't as simple as one-to-one.

Ba Muer was really unwilling to accept his fate. If the Giant Spirit Realm's higher-ups were in front of him, he would definitely ask what they were thinking. Why did they have to abandon the World of Cultivation, a loyal and devoted subordinate?

Ba Muer knew clearly that the World of Cultivation only betrayed the Giant Spirit Realm because the Giant Spirit Realm had abandoned them. If the Giant Spirit Realm sent reinforcements, then the World of Cultivation would still remain loyal. After all, the World of Cultivation has already killed a lot of people from the Hundred Treasures Realm.

Thinking of this, Ba Muer couldn't help but feel dejected. He wasn't afraid of being labeled as not knowing what was good. Instead, he was afraid of being compared. He judged the difference between the Giant Spirit Realm and the Hundred Treasures Realm. The Giant Spirit Realm abandoned a subordinate who had been loyally sending them tribute year after year, it was as though they were

discarding trash. Meanwhile, the Hundred Treasures Realm accepted someone who killed 2000 of their people. The Giant Spirit Realm couldn't compare to such a mindset.

No matter how unwilling Ba Muer was, he didn't want his enemies to stand in front of him triumphantly. Therefore, he looked at Tang Jie and coldly said, "Tang Jie, don't be happy too soon. If the World of Cultivation betrayed us today, they will betray you tomorrow. People like them couldn't be trusted."

Tang Jie was a famous expert of the Hundred Treasures Realm, so Ba Muer was able to recognize him. Upon hearing Ba Muer, Tang Jie couldn't help but laugh as he said, "Ba Muer, did I get your name right? It's obvious that you're trying to drive a wedge between the World of Cultivation and the Hundred Treasures Realm. Also, betrayal? Did the World of Cultivation betray you, or did the Giant Spirit Realm betray the World of Cultivation? You should be well aware of the answer to this. I think there's already no hope for the Giant Spirit Realm."

Ba Muer coldly snorted, he turned to Zhao Hai with a look of hatred, then he said, "Zhao Hai, don't be proud. You have killed a lot of people from the Hundred Treasures Realm. You think the Hundred Treasures Realm would forget that. When the time comes, you wouldn't have a good future."

Zhao Hai looked at Ba Muer, then he smiled faintly and said. "I don't think so. I'm sure that the Hundred Treasures Realm aren't the type to settle accounts after the fact. And my future will be good. Since I killed people from the Hundred Treasures Realm, then I'll compensate by killing ten or even a hundred times more people from the Giant Spirit Realm. I reckon the Hundred Treasures Realm would forget my previous actions with this. What do you think of my plan?"

Everyone present couldn't help but feel a cold sweat running down their backs. The atmosphere turned gloomy as the temperature dropped. Even the bravest of those present could feel goosebumps.

Tang Jie turned to look at the smiling Zhao Hai and couldn't help but bitterly smile. Zhao Hai's reply wasn't what he expected. But he has to say that he liked this reply.

Ba Muer's complexion paled as he looked at Zhao Hai. Then he coldly snorted and closed his eyes. He really didn't want to see Tang Jie and Zhao Hai's faces. He doesn't want them to see the frightened expression in his eyes. He's a person from the Giant Spirit Realm, he cannot make the enemy see his weak side.

Zhao Hai no longer cared about Ba Muer, he turned to Tang Jie and said, "Captain Tang, how do you want to deal with these people?"

Tang Jie looked at Zhao Hai and said, "Do what you did before. Let's take care of it right now."

Zhao Hai smiled and said, "Then I'll comply with your command." After he said that, Zhao Hai gently waved his hand. Soon after that, blood spurted out of the holes that appeared on the throats of Ba Muer and the others. Then all of them fell down. But before they hit the ground, they were wrapped by a black gas. Once the black gas dissipated, Ba Muer and the others were gone.

This was the first time that Tang Jie saw Zhao Hai turning someone into Undead. The process looked very simple. However, this simplicity was what made Tang Jie feel cold. It could be seen from Zhao Hai's movement that he was used to this. Who knows how many times he did this action. This is what terrified Tang Jie.

Tang Jie turned to Zhao Hai and said, "Little Hai, take them out so I can see them."

Zhao Hai smiled faintly and said, "Sure." Then he waved his hand as he took out 48 Undead people from the Giant Spirit Realm. These people looked just the same before their death. There were no wounds on their bodies. It was only their absent heartbeats that informed people that they were Undead.

Looking at the refined Undead in front of him, Tang Jie couldn't help but be speechless. He began to feel how terrifying Zhao Hai was. But then, he noticed something else. The aura around Ba Muer and the others didn't change. They stood there giving the pressure that only Transcending Tribulation Experts could give out. This caused Tang Jie's expression to change, he turned to Zhao Hai and asked, "Little Hai, don't tell me that these Undead also have Transcending Tribulation-level strength."

Zhao Hai smiled and said, "That's impossible. These Undead are only at Qi Refining Stage. Only the aura is preserved, it's very useful in giving people a fright."

Tang Jie let out a soft sigh of relief. If these Undead really preserved their previous strength, then that would be unacceptable.

After receiving the Undead, Zhao Hai looked at Tang Jie and said, "Captain Tang, let's head back. I think everyone has finished preparing. We can head to the Octopus Islands using the transmission formation. We still have to make some arrangements there in order to defend against the Giant Spirit Realm."

Tang Jie nodded, then they flew back to the command tunnel. As they flew back, Tang Jie asked, "Little Hai, do you think the Giant Spirit Realm is aware of what happened here?"

Zhao Hai sighed and said, "I think so. The last jade sword message that they sent over ordered Ba Muer and the others to return immediately. However, Ba Muer and the others have been imprisoned by us. Also, since I intercepted the jade sword message that Ba Muer sent, the Giant Spirit Realm would be suspicious when no reply came. We also sealed the transmission formations. I'm afraid the Giant Spirit Realm might be heading over with an army."

Tang Jie's expression darkened as he said, "Can we still go to the Octopus Islands? The defensive formations there have been destroyed. We need to fix it as soon as possible. Moreover, we received orders from the higher-ups to stay here with you and fight against the Giant Spirit realm. As long as there's a need, the realm would send reinforcements immediately."

Zhao Hai looked at Tang Jie and then he smiled faintly and said, "Captain Tang, rest assured, when you agreed to help us, the World of Cultivation and the Xu Race already sent people to the Octopus Islands to fix the formations. I believe everything would be alright once we get there."

Tang Jie looked at Zhao Hai and trusted his words. Then he couldn't help but ask, "This, is this something you arranged as well?"

Zhao Hai smiled faintly and said, "I just made a suggestion. Everything is executed by Grandmaster Kong Miao and Xu Wuzun."

Tang Jie laughed out loud as he said, "From now on, call me Brother Tang!"

Chapter 1459: Formation Breaking Spirit Snake Needle, Get!

White light flashed as Zhao Hai, Tang Jie, and Tang Wen appeared on a Transmission Formation. They're currently at the Octopus Islands. They were the last batch of people who came to the Island. Kong Miao,

Xu Wuzun, and the other Severed Soul Experts already led the troops to the island. This made Tang Jie, Tang Wen, Zhao Hai, Mo Sheng, Li Zongdao, and the other Cultivators from the Hundred Treasures Realm the final batch to be sent here.

Since they're the last, they were the ones to destroy the stronghold's transmission formations. This time, it was a complete destruction, nothing was left.

This was something that Kong Maio and the others had firmly decided on. In any case, they have truly angered the Giant Spirit Realm. Later on, they would be the Giant Spirit Realm's enemies. There's no longer any amity between the two of them. Therefore, they had to give up on their stronghold.

And since they decided to give the stronghold up, they couldn't leave a clue behind for the Giant Spirit Realm. Therefore, the World of Cultivation's stronghold was completely destroyed. Naturally, this was also under the approval of the World of Cultivation's Immortal Stage Experts.

Nobody liked giving up their home. But in order to maintain their livelihood, the World of Cultivation could only give up on their base. The World of Cultivation knew clearly that if they didn't leave, they would only be pushed into a dead end. The World of Cultivation just couldn't give up the Ten-thousand Realm Battlefield. Once they gave it up, their future development would be heavily affected.

Therefore, the World of Cultivation's Immortal Stage Experts could only clench their teeth and agreed to Zhao Hai's plan to destroy the entire stronghold. Another thing that urged the Immortal Stage Experts to make this decision was their hatred towards the Giant Spirit Realm.

The people from the World of Cultivation hated the Giant Spirit Realm more than the Hundred Treasures Realm. At first, they were enemies with the Hundred Treasures Realm, so they weren't too surprised by the methods that the Hundred Treasures Realm used. After all, in order to deal with an enemy, one shouldn't stop at anything.

But the Giant Spirit Realm was different. They had always treated the Giant Spirit Realm as their guardians, giving them tributes every year. However, the Giant Spirit Realm abandoned the World of Cultivation when they needed them the most. This caused the people from the World of Cultivation to feel that the Giant Spirit Realm had betrayed them.

Just as people hate traitors more than enemies, the same was true for the World of Cultivation. Compared to the Hundred Treasures Realm who had always been their enemy, the World of Cultivation hated the Giant Spirit Realm more.

Because of the destruction of their stronghold, the World of Cultivation hated the Giant Spirit Realm even more. Zhao Hai was also the same. He no longer looked at the Giant Spirit Realm as an enemy, they were now a target for destruction. He wanted the Giant Spirit Realm to fall.

As the group stepped out of the transmission formation, Kong Miao and Xu Wuzun walked forward and gave Tang Jie a salute. Tang Jie also returned the greeting. Then the group proceeded towards the Xu Race's Great Hall.

Once everyone was settled inside the Great Hall, Tang Jie looked at Xu Wuzun and Kong Miao and said, "Grandmasters, how are the preparations on the Octopus Islands doing?"

Kong Miao nodded and said, "The preparations are almost complete. The defensive formations on the island have been restored. Right now, we're currently arranging formations on the island. There's also spirit formations being prepared."

Tang Jie nodded and said, "That's good. I think the Giant Spirit Realm would arrive soon. We need to make the best use of our time. Little Hai, do you still have some Undead for surveillance? Once the Giant Spirit Realm begins to move, they would certainly go to the stronghold first."

Zhao Hai gave a nod, "It's been arranged. If the Giant Spirit Realm goes to the stronghold, we will immediately know."

Tang Jie said, "The people from the Giant Spirit Realm aren't fools. They should quickly discover that they made the wrong move. They will certainly make up for their mistake. Their means would be as fast as a thunderbolt, erasing the World of Cultivation from the Ten-thousand Realm Battlefield. Therefore, as soon as they arrive, their attack would be fierce. Although the defenses of the Octopus Islands are good, it would still be difficult to prevent the attacks from the Giant Spirit Realm. The Giant Spirit Realm should also have their own Formation Breaking Spirit Snake Needle. If they use it, we would be in danger."

Zhao Hai's eyes shone, he turned to Tang Jie and said, "Brother Hai, can you let me borrow your Formation Breaking Spirit Snake Needle for research? I like crafting things. I want to take a look if I can make a counterfeit version of the spirit snake needle. If I succeed, it would be an additional ace in our hands."

Hearing Zhao Hai, Tang Jie stared for a moment before nodding. Then he waved his hand and took out his Formation Breaking Spirit Snake Needle and handed it over to Zhao Hai.

Tang Jie wasn't afraid of Zhao Hai copying the spirit snake needle. In fact, the process of making the spirit snake needle was widely known to the entire Ten-thousand Realm Battlefield. Even the World of Cultivation has the method of creating the Formation Breaking Spirit Snake Needle. However, the World of Cultivation didn't have the means to make one.

Tang Jie didn't think that Zhao Hai had the ability to make a Formation Breaking Spirit Snake needle. In Tang Jie's mind, the World of Cultivation couldn't make it, much less Zhao Hai. It's for this reason that he handed the spirit snake over to Zhao Hai. In his opinion, it's nothing more than Zhao Hai borrowing it, so it's no big deal. He was fond of Zhao Hai and didn't want him to be dissatisfied over a small thing.

Zhao Hai was excited. After receiving the Formation Breaking Spirit Snake Needle, he immediately cupped his fist and said, "Brother Tang, Grandmaster, Mister Xu Wuzun. I'll be heading back to research this spirit snake needle. I won't be accompanying you."

The three waved their hands. When Zhao Hai left, Tang Jie looked at the door before turning to Kong Miao and saying, "Little Hai looks excited. Is his crafting skill very good?"

Kong Miao smiled faintly and said, "It's very good. Back when we're fighting the Xu Race, Little Hai developed a device that's capable of seeing the stealthed Xu Race. This allowed us to have the upper hand against them. Unfortunately, it's made from a special metal. Even in the Ten-thousand Realm Battlefield, we haven't heard of its existence. However, this metal has a weak point, limiting its capabilities. It dissipates very quickly. No matter which environment, it would vanish as soon as it touches air. It can be said that it's a disposable product. But we could see from this point how good Zhao Hai's refining skill is."

Upon hearing Kong Miao, Xu Wuzun couldn't help but stare. Then his expression went through a huge change. It must be known that the Xu Race's biggest advantage was their stealth robes. However, from what Kong Miao said, they have a way of detecting the robes? How could this not startle him?

The reason why Kong Miao revealed this was because they were already allies with the Xu Race. Also, they were inseparable allies. Moreover, Zhao Hai's device could only be used for a year. After a year, the device would be a piece of scrap, so Kong Miao didn't mind revealing it.

Seeing Xu Wuzun's appearance, Kong Miao smiled faintly. Then he handed the searching device over to Xu Wuzun and said, "This is the device that Little Hai made. As long as there's someone from the Xu Race within 10 thousand meters, they would be shown, even if they are stealthed. This was what we used to deal with your people. But it's not needed now. Also, this device can only be used for one year before becoming scrap. And without the special metal, Little Hai can no longer make it. So you don't have to worry."

Xu Wuzun took the device and looked at it carefully. Using this device was very easy. Before long, he could see his location on the device. Then he immediately tried to use stealth, but it was useless. The red dot that represented him was still on. After Xu Wuzun reappeared, his expression was ugly to look at.

He now understood how the World of Cultivation gained the advantage during their fight. They actually had this kind of weapon in their hand. The World of Cultivation would always be one step ahead of the Xu Race. This was the most important reason for the Xu Race's failure.

But what worried Xu Wuzun the most was this method being studied by others. That would be a disaster for the Xu Race.

Kong Miao could also see Xu Wuzun's worries. He didn't say anything and just took out a glass jar. Inside the jar was a small amount of liquid metal. Then he introduced the metal to Xu Wuzun and Tang Jie. Just like what Kong Miao said, even Xu Wuzun and Tang Jie haven't heard of this metal.

In fact, it would be fishy if they heard of it. It's because this material didn't exist. This liquid metal was just liquid silver.

In the end, Kong Miao opened the glass jar. In almost no time, the liquid metal inside the jar vanished. Seeing this Xu Wuzun let out a relieved sigh.

Zhao Hai didn't care much about what Kong Miao and the others were doing. Although he knew what they were talking about, it wasn't worthy of his attention. Naturally, he didn't care. At this moment, he was placing the Formation Breaking Spirit Snake Needle through the Universal Scanner.

What Zhao Hai needed to do right now was to decompose the Formation Breaking Spirit Snake Needle, have all of its materials, then reconstruct it. Then later on, he could make the Formation Breaking Spirit Snake Needle. Moreover, with Liquid Silver, he can make multiple needles that can break formations.

The offensive strength of the Formation Breaking Spirit Snake Needle was very good. It was specially used to break guardian formations, so how could it be weak? Moreover, not only can it break through guardian formations, it also had great power against defensive formations. It can be said that as long as Zhao Hai obtains it, his offensive strength would improve a lot.

Imagine having countless numbers of Formation Breaking Spirit Snake Needles, what would it be like? At that time, nobody would be able stop Zhao Hai.

As for the Universal Scanner, decomposing an artifact was a very easy matter. After the artifact was decomposed, the Space would create mineral lodes from its components. Formation would also be added to the database. Then the properties would be fused with Liquid Silver, making it even more powerful.

#### Chapter 1460: Counterfeit

Zhao Hai had a happy expression as he looked at the cyan colored Formation Breaking Spirit Snake Needle in front of him. This spirit snake needle looked like the one that Tang Jie had but thinner and more smooth. It looked more like a needle.

Naturally, this Formation Breaking Spirit Snake Needle was the one that Liquid Silver has turned into. This spirit snake needle was very different to the original spirit snake needle. It had more magic formations in it as well as more materials. It also had Liquid Silver's characteristics. It can be said that this needle was much better compared to the original Formation Breaking Spirit Snake Needle.

Also, this Formation Breaking Spirit Rate Needle can use Faith Power. Tang Jie's spirit snake needle just couldn't compare to this one.

Zhao Hai held the Formation Breaking Spirit Snake Needle and gently caressed it. He thought that it should no longer be named Formation Breaking Spirit Snake Needle. Instead, it should just be called Spirit Snake Needle. This needle can either be big or small, long or short. It could also divide itself and recombine. It's extremely powerful. Its existence alone elevated Zhao Hai's offensive strength.

With a wave of his hand, Zhao Hai put away his Spirit Snake needle and then another thing appeared in his hand. This thing looked like a broken spirit snake needle but if you look carefully you would notice that it's not. Although it also hovered in place, it looked very stiff. It's much bigger than the Formation Breaking Spirit Snake Needle that Tang Jie took out, but it's not as strong, only about a tenth of the original. However, its offensive strength couldn't be looked down on. Compared to most artifacts, it's still much more powerful.

This was the counterfeit that Zhao Hai made. This imitation was designed by the Space. Its materials could be acquired by someone like Zhao Hai. And with the help of the scanner, it was finally made.

He made it known that he was going to refine artifacts and he already spent three days inside the Space. If he doesn't take anything out, then his absence would be unreasonable. So he made this counterfeit version. This thing needs at most ten Experts at the Severed Soul Stage. If the ten experts were adept at using their strength together, then it wouldn't be impossible for them to break a guardian formation. It can be said that the counterfeit was a success.

However, Zhao Hai didn't care much about it. To him, this thing was very weak. This would be the artifact he would hand over to Kong Miao and the others.

After looking through the imperfections of the counterfeit, Zhao Hai flashed out of the Space and returned to the residence that Xu Wuzun arranged for him. Then he walked out.

Although Zhao Hai stayed inside the Space for several days, he kept paying attention to the situation outside. The Giant Spirit Realm arrived at the World of Cultivation's stronghold in less than two hours. They numbered 5000. After going to the World of Cultivation's stronghold, they immediately went to the Octopus Islands.

Originally, it would be impossible for them to be this fast. In Zhao Hai's calculations, even with using shuttles like the Highcloud Flying Shuttles, it would take the Giant Spirit Realm five days before they would arrive from their base. The reason why the Giant Spirit Realm was so fast was because they used the transmission formations of the realms close to the World of Cultivation. After three days of traveling, they were able to reach the World of Cultivation's base.

Naturally, Zhao Hai heard the conversation that these people were having. Regarding the Giant Spirit Realm's approach, Zhao Hai couldn't help but hold back a barf. He discovered that the people from the Giant Spirit Realm were stupid.

What happened to the World of Cultivation hasn't been spread out in the Ten-thousand Realm Battlefield. Although the Hundred Treasures Realm wanted to use this method to deal with the Giant Spirit Realm, they didn't expect things to go this fast. They weren't ready to capitalize on the situation yet. Because of this, they still haven't spread rumours attacking the Giant Spirit Realm's reputation.

However, after using so many transmission formations, the Giant Spirit Realm informed other people that something happened. After all, the Hundred Treasures Realm's attack on the World of Cultivation wasn't a secret. This was akin to the Giant Spirit Realm publicizing what happened on their own, which was convenient for the Hundred Treasures Realm.

Zhao Hai was really speechless at people from the Giant Spirit Realm. If it was Zhao Hai, he would first destroy the World of Cultivation and then spread the information to everyone, so they can demonstrate their strength. But the Giant Spirit Realm let people know first. Zhao Hai didn't know what they were thinking.

However, the Giant Spirit Realm was now his enemy, so he no longer needed to worry about them. After heading out of his cave residence, Zhao Hai flew towards Tang Jie and the others. In these three days, the Octopus Islands have been at full power in preparation. They were working hard on turning the Octopus Islands into an impregnable fortress.

Before long, Zhao Hai arrived at the Great Hall. Although people were protecting the Great Hall, all of these people knew Zhao Hai. Seeing Zhao Hai come, they didn't block him. On the contrary, all of them gave Zhao Hai a salute.

As soon as Zhao Hai entered the hall, he saw Kong Miao and the others standing before a huge stone table. This table was a sand table shaped like the Octopus Islands. It was divided into all kinds of colors.

Tang Jie and the others were also able to feel Zhao Hai's presence. Tang Jie looked up and smiled faintly as he said, "You're out? How did it go?"

Zhao Hai smiled and then took out Tang Jie's Formation Breaking Spirit Snake Needle and handed it back. Then he took out the imitation he made and said, "I was able to make a counterfeit. But it's very far from the original one."

Tang Jie and the others looked at Zhao Hai's spirit snake needle with curiosity. Although it was an inferior product, they couldn't help but recognize that it was really good.

After Zhao Hai explained the abilities of the counterfeit, he discovered that Kong Miao and the others were looking at him in shock.

Zhao Hai looked at everyone and said, "What's wrong? Although it isn't a success, it can still be used. I tried my best making it."

When he heard Zhao Hai saying this, Tang Jie was speechless. Tang Jie smiled bitterly at Zhao Hai and said, "Little Hai, who said that it's not a success? Let me tell you, this is the best counterfeit that I've seen. It can even destroy guardian formations."

Zhao Hai looked at Tang Jie in confusion as he asked, "Don't other realms make fake versions of the spirit snake needles? Although it's not easy, it's not completely impossible. Although this imitation only has a tenth of the original one's power, if ten Severed Soul Experts use it, it could still break formations. Even the guardian formation of the Octopus Islands wouldn't be able to stop it after a few attacks."

Tang Jie sighed and said, "You're right. But people have been trapped in making a perfect imitation of the real product. After numerous failures, people stopped trying one by one. So in the end, nobody succeeded."

Hearing Tang Jie, Zhao Hai didn't know what to say. He smiled bitterly and shook his head. Then he handed the counterfeit Formation Breaking Spirit Snake Needle to Kong Miao and said, "Grandmaster, you take this."

Kong Miao wasn't polite as he nodded and received it. Then Zhao Hai turned to Xu Wuzun and forced a smile as he said, "Grandmaster Xu Wuzun, I wanted to make two at first, but the materials I have in hand are lacking. Once you give me some materials, I'll make one for you as soon as possible. Do you need one?"

Hearing this, Xu Wuzun's eyes shone as he repeatedly nodded and said, "Need, we need one. Give me a list of the materials you need and we'll get it for you." Zhao Hai didn't hesitate and took out a jade slip and then handed it over to Xu Wuzun before saying, "All the things I need are in here. You can have someone prepare it. But it's better to hurry up, the Giant Spirit Realm is arriving soon."

Kong Miao and Tang Jie were just looking at the counterfeit spirit snake needle, but after hearing Zhao Hai, they couldn't help but look up. Then Tang Jie quickly said, "How far are they from here?"

Zhao Hai smiled and said, "It's fine. It's been an hour since they departed from the World of Cultivation's stronghold. They brought 5000 people, 200 of which are Severed Soul Experts. Moreover, they brought flying shuttles. It shouldn't be long until they arrive."

Tang Jie coldly snorted and said, "Five thousand people, it seems like they're really intent on eradicating you. But 5000 people aren't enough. We just don't know if they brought a Formation Breaking Spirit Snake Needle with them."

Zhao Hai nodded, "That's something we don't know. But they don't know that you've brought a Formation Breaking Spirit Snake Needle. I don't think they would bring one. If there's no spirit snake needle, what do people usually use to break guardian formations?"

Without waiting for Tang Jie to reply, Kong Miao said, "Large artifacts. If there's no Formation Breaking Spirit Snake Needle, people would use large artifacts to break guardian formations. However, the process is slower than using a Formation Breaking Spirit Snake Needle."

Zhao Hai nodded, then he said, "If they use a Formation Breaking Spirit Snake Needle, can we do something?"

Tang Jie shook his head and sighed as he said, "So far, there's no counter to Formation Breaking Spirit Snake Needles. The best we have is using another spirit snake needle in order to deal with the other party's spirit snake needle. However, doing so is actually very dangerous. It must be known that the defensive capability of the spirit snake needles aren't very good. It might end with both needles being destroyed. Because of this, nobody would use this method."

Zhao Hai stared, then his eyes shone as he said, "Interesting. If the spirit snake needles are defensively weak, then I don't mind trying to break it."

Hearing Zhao Hai, Tang Jie couldn't help but knit his brows as he said, "Little Hai, don't be complacent. Although the spirit snake needles are defensively weak, they're still more resilient than most artifacts. Also, spirit snake artifacts are as agile as serpents, it's hard to hit them with artifacts."
