

Another World 1481

Chapter 1481: Attack

Strictly speaking, Zhao Hai was now someone from the Hundred Treasures realm. However, he was still a stranger to the realm. Just because he was accepted by the realm, it doesn't mean that he was one of them. He has to obtain the approval of the people from the Hundred Treasures Realm.

So how could he make the people of the Hundred Treasures Realm approve of him? Naturally, it would be dealing with the Giant Spirit Realm. The Giant Spirit Realm and the Hundred Treasures Realm were longtime enemies. The more ruthless his attacks towards the Giant Spirit Realm, the more the Hundred Treasures Realm would treat him as their own.

One of the main reasons why Zhao Hai wants to join the Hundred Treasures Realm soon was because he wanted to confirm whether Laura and the others' analysis was correct. He wanted to see whether the Hundred Treasures Realm was being led by someone to fight the Giant Spirit Realm or not.

Zhao Hai had just joined the Hundred Treasures Realm, so it was still impossible for him to find out about the realm's secrets. Therefore, he needs to have the Hundred Treasures Realm accept him as soon as possible. Only then could he know the realm's secrets and make plans for later on.

With other reasons added, Zhao Hai had to deal with the Giant Spirit Realm. Although the Giant Spirit Realm had Immortal Experts based in the Ten-thousand Realm Battlefield, the Hundred Treasures Realm had Immortal Experts as well. And since the Hundred Treasures Realm has prepared to deal with the Giant Spirit Realm for several years, they should have prepared against the Giant Spirit Realm's Immortal Experts. Otherwise, they wouldn't have decided to make a move this time.

To destroy a high-grade realm, the first thing one needs to think of shouldn't be the people of that realm nor the people of the subordinate realms. Instead, one needs to first think about the Immortal Stage Experts. As long as you aren't sure about dealing with the Immortal Stage Expert, then the conflict would die down sooner or later. After all, Immortal Stage Experts were the ultimate weapons of a realm.

Normally, Immortal Experts wouldn't make a move. However, nobody dared to look down on their strength. Immortal Stage Experts were like pillars supporting a realm. As long as they exist, the realm wouldn't be eliminated.

The World of Cultivation also had its own Immortal Experts. However, whether in quantity or strength, they all fell short compared to the Immortal Experts of the Hundred Treasures Realm and the Giant Spirit Realm.

If Zhao Hai hadn't joined the Hundred Treasures Realm, he wouldn't have been able to deal with the Giant Spirit Realm. Then the World of Cultivation would have to retreat from the Ten-thousand Realm Battlefield.

The next morning, Zhao Hai came out of his cave residence. As for Mo Sheng he didn't follow behind. Zhao Hai didn't know why, but when he returned a couple of days ago, Mo Sheng experienced an insatiable hunger. He ate almost nonstop. After eating for two days straight, Mo Sheng might have eaten a pile of food as large as a whale. In the end, he fell asleep and hasn't woken up yet.

Although Zhao Hai didn't know what happened to Mo Sheng, he didn't go and disturb his sleep. Zhao Hai taught Mo Sheng a body cultivation method of the Giant Spirit Realm. It must be said that Mo Sheng was indeed built for body cultivation. Because of his cultivation method, he needed to eat a lot of food. Currently, he is digesting what he has eaten.

Zhao Hai also had the Space look into Mo Sheng's situation. In the end, it showed that he was just asleep and wasn't sick. Zhao Hai felt relieved. As long as Mo Sheng is fine, he can eat and sleep whenever he wants.

Upon leaving his residence, Zhao Hai saw the people from various subordinate realms of the Hundred Treasures Realm. Mu Yu was currently talking to their respective commanders.

Zhao Hai directly flew towards Mu Yu's side. The people present also knew Zhao Hai and were curious. They knew that he was a Nascent Soul Expert of the World of Cultivation that became a Refining Grandmaster of the Hundred Treasures Realm. This was a lofty position. Regarding these legendary people, naturally they were very curious. However, they didn't dare ignore him and thus gave him a salute.

Zhao Hai returned the greeting as he stood behind Mu Yu and kept silent. Mu Yu nodded towards Zhao Hai before turning his head towards the various commanders before saying, "As everyone already knows, once we attack the Giant Spirit Realm, the majority of the troops will stay inside Little Hai's large artifact. You need to listen to his instructions and not cause any trouble. Understood?" Everyone responded at the same time.

Mu Yu turned his head to Zhao Hai and said, "Little Hai, is everything prepared?"

Zhao Hai nodded, then he waved his hand as the Hell King's Ship appeared beside him. However, the two Giant Spirit Treasure Ships didn't appear. Zhao Hai already handed them over to Mu Yu.

Mu Yu didn't release his Giant Spirit Treasure Ships right now. Instead he looked at Zhao Hai and said, "Little Hai, can everyone fit inside your ship?"

Zhao Hai was tuned, then he immediately understood what Mu Yu was thinking. Nobody knew that the Giant Spirit Treasure Ships and the Eight Cyan Imperial Chariots have been repaired. It seems like Mu Yu wanted to keep this fact a secret for now. So he smiled faintly and said, "Yes, Big Brother Mu."

Mu Yu nodded, then he turned his head and called Tang Jie and the others over, making them enter the Hell King's Ship. Tang Jie didn't hesitate and immediately commanded everyone to enter the ship.

Although the Hell King's Ship didn't appear large, it didn't appear crowded at all after so many people entered. And this time, Zhao Hai expanded the space inside and divided it into partitions. Everyone has their own room which was a surprising thing.

After everyone embarked, Mu Yu and Zhao Hai got into the ship. Mu Yu first looked at the troops cabins. Upon seeing that everyone has their own room, he couldn't help but be startled. But he didn't ask about it as he just gave a nod. Then he went with Zhao Hai to the pagoda on the top level.

The pagoda also has its own internal space that can be expanded. At this time, the internal space of the pagoda was very big and has several rooms in it. Moreover, the pagoda had a flat roof that one could see the situation in all directions.

Mu Yu looked around with a satisfied expression. Then he took Zhao Hai, Tang Jie, and Tang Wen to the roof as they looked into the distance.

At this moment, the Hell King's Ship left the Octopus Islands in a slow manner. Mu Yu looked at the scene ahead of him in silence, Zhao Hai and the others were the same.

To be honest, besides Zhao Hai and Mu Yu, everyone else were quite anxious. They had no choice but to be nervous. Battles consisting of tens of thousands of people were quite rare even in the Ten-thousand Realm Battlefield.

Mu Yu also noticed the mood of Tang Jie and the others, but he didn't say anything. Mu Yu wanted them to adapt.

However, regarding Zhao Hai's calm demeanor, Mu Yu couldn't help but ask, "Little Hai, have you experienced a battle between tens of thousands of people before?"

Hearing Mu Yu, Zhao Hai couldn't help but smile as he said, "Big Brother Mu, don't forget that I'm from the lower realms. In the lower realms, people aren't as strong and couldn't even fly. Because of this, the battles in the lower realms are much more ruthless than here. Battles consisting of tens of thousands of people are very common. The largest fight I participated in the lower realms consisted of more than 3 million people."

Mu Yu immediately replied, "3 million? Are you sure that it's 3 million?"

Zhao Hai smiled faintly and said, "Of course I'm sure. Otherwise, where does Big Brother Mu think my Undead came from? The wars on the lower realms are quite brutal."

Tang Jie and the others were also attracted to Zhao Hai's words. Upon hearing Zhao Hai, Tang Jie curiously asked "Little Hai, how many Undead do you have right now?"

Zhao Hai gave a faint smile as he replied, "I have a lot. I haven't counted them all, but I'm confident that I have more Undead than the number of people currently in the Ten-thousand Realm Battlefield."

Upon hearing Zhao Hai, Tang Jie and the others couldn't help but be shocked. They let out a long breath. Mu Yu looked at Zhao Hai and said, "Little Hai, do you know how many people there are in the Ten-thousand Realm Battlefield?"

Zhao Hai shook his head and said, "I also don't know. But from what I can estimate, there's at least more than a billion people."

When Mu Yu heard what Zhao Hai said, he smiled bitterly and said, "That's about right. Nobody really knows how many people there are in the Ten-thousand Realm Battlefield. But there a billion should be a safe estimate. So you have more than a billion Undead?" Disbelief could be heard from Mu Yu's voice.

Zhao Hai smiled and said, "About that much. Back in the lower realms, I was a ruined noble that was able to become a ruler. Then for some reason, two realms connected themselves to ours. The inhabitants of those realms are much more powerful than the ones in mine. I led my people to fight these realms and in the end we managed to subdue one. As for the other realm, their inhabitants couldn't be subdued so I killed them all. That genocide killed several billion people. Every single person who died during those wars have been turned into my Undead. Because of this, I don't know how many Undead I have."

Mu Yu had a blank expression on his face. He didn't know if he should believe Zhao Hai or not. In the Ten-thousand Realm Battlefield, gathering tens of thousands of people was only something that a high-grade realm could do. A population of hundreds of millions was something unfathomable for them.

Zhao Hai looked at them as he smiled and said, "Big Brother Mu, there's no need to be startled. Do you know how many Ascenders a lower realm have? In ten billion people, it's already fortunate to have one ascender among them. And these Ascenders could easily be wiped out by anyone here in the Ten-thousand Realm Battlefield. It simply couldn't be compared."

Mu Yu nodded. People on his level rarely get in contact with ascenders, so Mu Yu didn't have much understanding about the lower realms. Only Zhao Hai was the Ascender who was able to reach this level.

After Zhao Hai said that, Tang Jie and the others were drawn to his past. They asked Zhao Hai more about the lower realms and Zhao Hai also didn't hide too much. As the groups was talking, the ship was going farther and farther away from the Octopus Islands.

Chapter 1482: Bitter Experience

Ba Tu stood on the Giant Spirit Treasure Ship with a bitter mood. He had been attacking the Immortal Stage diligently before he was abruptly called over to deal with the Hundred Treasures Realm. This caused his mood to sour.

Ba Tu wasn't good at dealing with the higher-ups. He has no backing in the Giant Spirit Realm since he came from an ordinary background. But because his talent was very good, he was able to reach his current strength.

Originally, he had quite some popularity among his people. But ever since the higher-ups gave him an idle job, he slowly faded from everyone's sight.

Ba Tu was currently an Elder. But the rank of elder was divided into various grades and ranks in the Giant Spirit Realm. Ba Tu was just an idle elder with no influence and importance.

The ones holding the true power of the Giant Spirit Realm were the Great Elders. But for someone with an ordinary background like Ba Tu, it was practically impossible to be among them.

A few years ago, Ba Tu's momentum was very strong. When the Giant Spirit Realm and the Hundred Treasures Realm were in deep conflict, he was able to kill a lot of powerful enemies. He was very popular among the people of the Giant Spirit Realm. If he continued with his current state, he would no doubt enter the ranks of the Great Elders. Otherwise, the people of the Giant Spirit Realm would cause trouble.

Once that conflict sizzled down, the realm gave him a reward and promoted him into an Elder. Ba Tu was very happy at that time. Being an Elder had been a dream for most people. Not only can he obtain resources, he can also cultivate in peace and take care of his family members.

But later on, Ba Tu discovered that he was only given an empty position. The resources he received weren't that much. Also, he was no longer given any opportunities to gain more merit in the battlefield. His dream of establishing his own clan was shattered.

Ba Tu was no fool, he knew that his post was a plot by some people. But even if he knew, it was already too late.

Ba Tu was aware that he had been played by the higher-ups. He wasn't strong enough to do anything to them, he wasn't influential enough either. So the only thing he could do was cultivation and reach the Immortal Stage. As long as he becomes an Immortal Expert, he would become a Great Elder and get more resources. He would then have no problem establishing his own base of power.

Naturally, even if he has an empty status, he was still aware of what happened to the outside world. He knew that the realm was once again in conflict with the Hundred Treasures Realm. Moreover, Ba Li, that clueless idiot, seems to have pushed two subordinate realms into the enemy's side.

Hearing this information, Ba Tu couldn't help but feel pleasure from Ba Li's misfortune. Originally, Ba Tu should have Ba Li's position, but he was plotted against by the higher-ups. With the higher-ups sending Ba Li, his loss was surely damaging to their reputation.

However, Ba Tu believed that this matter had nothing to do with him. Because of his idle position, he wouldn't be given any chances to gain merit. Also, Ba Tu didn't want to fight right now. He was now half-step into the Immortal Stage. It wouldn't be good for him to fight the Hundred Treasures Realm in this critical moment.

But suddenly, there was news of Ba Li's great defeat, just a few days after his first one. Ba Li asked the realm for help twice, causing the Giant Spirit Realm to be shaken.

At this time, a transfer order came, appointing Ba Tu as the Chief Commander of the new army. Ba Li has been dismissed! Upon receiving this order, Ba Tu's first reaction was that it was another plot by the higher-ups to stop him from reaching the Immortal Stage. Those old fogies really aren't planning to give him any peace.

However, Ba Tu still had to take this order. The entire realm had its eyes on this event. If he doesn't take the order, then he would be seen as a coward. When the time comes, even if he reaches the Immortal Stage, he still wouldn't be able to enter the ranks of the Great Elders. Ba Tu knew that this had been arranged by those old fogies. They were indeed ruthless. He would suffer a loss if he accepted the order and would suffer even more if he didn't. In the end, Ba Tu had to grit his teeth as he took the transfer order and brought reinforcements to the Imperial Spirit Sect.

Although Ba Tu was angered, he was still someone from the Giant Spirit Realm who hated the Hundred Treasures Realm. After reaching the Imperial Spirit Sect, he immediately asked for information. He wanted to know how the battle went. He even asked Ba Li, who he looked down on.

But after seeing Ba Li, Ba Tu's anger dissipated a bit. This was because Ba Li's current state was indeed very bad.

Ba Li's complexion was very pale and he had gotten thin. Moreover, he coughed continuously, sometimes even with blood. Seeing Ba Li, Ba Tu knew that Ba Li's path forward had ended. He would no longer be able to progress. For a Cultivator, this was the cruelest fate.

Ba Li was also aware of his current situation. His head was now clear. If he can't progress further, then he might as well use his last bit of strength to help the realm. Therefore, he told Ba Tu everything about the fight. He also added a few of his speculations.

After hearing Ba Li, Ba Tu couldn't help but frown. He quickly latched on to a key point in Ba Li's words, someone named Zhao Hai!

Ba Tu also heard about Zhao Hai, but at that time he didn't care. In his opinion, ascenders weren't people worth looking into.

However, upon hearing Ba Li, it's clear that Zhao Hai was someone that was hard to deal with. The large artifacts in Zhao Hai's hands as well as the needle-shaped artifacts were now in Ba Tu's mind.

Unfortunately, there wasn't enough time so Ba Tu couldn't investigate much. Otherwise, he would have confidence in dealing with Zhao Hai and the others.

Ba Tu was no longer the youth that he used to be. He was very clear about the situation of the Giant Spirit Realm. Because of the two losses, as well as the betrayal of the World of Cultivation, the subordinate realms were feeling uneasy. It was due to this knowledge that Ba Tu was eager to attack. He wanted to level the Octopus Islands and gain victory in order to stabilize the state of the Giant Spirit Realm.

Because of this, Ba Tu had to go out and attack immediately. Ba Tu was also afraid that the Hundred Treasures Realm would send a large number of reinforcements. When that time comes, they would be in trouble. The more this matter was dragged on, the more disadvantageous it would be for the Giant Spirit Realm.

Ba Tu came out with all the strength he had. He wanted to destroy the Octopus Islands in the shortest time. But he was still angry at those old fogies, thus explaining his current expression.

He never thought that the Hundred Treasures Realm would take the initiative to attack. In his opinion, the Hundred Treasures Realm wouldn't leave the Octopus Islands. Otherwise, they wouldn't have sent so few reinforcements after the first attack. Ba Tu expected the Hundred Treasures Realm to use the Octopus Islands' strength in order to block the Giant Spirit Realm. This way, they would be able to humiliate the Giant Spirit Realm.

Just as Ba Tu was thinking about this, a whisper came from beside him. Ba Tu immediately regained his senses. He glanced at the person next to him and then was suddenly attracted to something else.

Ba Tu saw dark spots ahead. But after using his spiritual force, Ba Tu discovered that it was a huge flying artifact. Although it was smaller than a Giant Spirit Treasure Ship, it wasn't that much smaller.

Most importantly, the flying artifact looked like Zhao Hai's Hell King's Ship. To be honest, Ba Tu didn't like this name.

Seeing the Hell King's Ship, Ba Tu frowned. He knew what the Hell King's Ship appearance meant. The Hundred Treasures Realm has taken the initiative to attack.

When he thought of this, Ba Tu immediately said, "Pass the order to everyone, line up!" Someone immediately passed Ba Tu's order. The people from the Giant Spirit Realm got on the treasure ships while the others formed up behind.

Ba Tu's army was more disciplined like Ba Li's. When he first arrived at the base of the Imperial Spirit Sect, he killed a few people from the subordinate realms in order to make everyone obey.

Zhao Hai also spotted Ba Tu and the others. Unlike Zhao Hai who only had one ship, Ba Tu had 2 Giant Spirit Treasure Ships, 30 Eight Cyan Imperial Chariots, and tens of thousands of people. It was very easy to see them from far away.

Mu Yu smiled faintly and said, "I didn't expect to meet them this soon. Alright, pass the order. Get ready to meet the enemy!" After that, Mu Yu waved his hand as two Giant Spirit Treasure Ships appeared right behind the Hell King's Ship. After that, the Eight Cyan Imperial Chariots appeared as well. Zhao Hai also handed over 3 Eight Cyan Imperial Chariots.

The Giant Spirit Treasure Ships and the Eight Cyan Imperial Chariots were all behind the Hell King's Ship. Mu Yu was aware that Ba Tu has two Formation Breaking Spirit Snake Needles in hand.

Along with Mu Yu's command, people disembarked from the Hell King's Ship and transferred to the Giant Spirit Treasure Ships. The two sides slowly advanced towards each other.

Ba Tu looked at the other side in apprehension. There had only been the Hell King's Ship at first but then more artifacts were taken out. After that, tens of thousands of people were seen. Ba Tu didn't expect the Hundred Treasures Realm to have a lot of troops.

What surprised Ba Tu even more was the fact that two Giant Spirit Treasures Ship appeared along with 20 Eight Cyan Imperial Chariots. Upon seeing these things, Ba Tu's eyes almost flew out of their sockets.

Only the Giant Spirit Realm possessed the method to make the Giant Spirit Treasure Ships. Even the materials used to make it was a secret, much less its manufacturing method. Even more, the Hundred Treasures Realm wasn't good at making large artifacts.

How could Ba Tu just accept the Hundred Treasures Realm releasing so many large artifacts. There's even the unique large artifact of the Giant Spirit Realm.

While Ba Tu was still surprised by the Giant Spirit Treasure Ships that Mu Yu took out, the two sides got closer to each other. Ba Tu got back to his senses as he looked at Mu Yu who was standing on top of the Hell King's Ship.

Ba Tu didn't wait for Mu Yu to speak, he coldly snorted and said, "Mu Yu, I didn't expect the cowards of the Hundred Treasures Realm to actually come out and fight. This is rare, rare."

Mu Yu looked at Ba Tu, then he smiled and said, "I didn't expect the Giant Spirit Realm to be this stupid. You're already defeated twice, yet here you are planning another attack. It just saves us more time. Ba Tu, I didn't expect someone like you to come out again. It seems like the Giant Spirit Realm has nobody else left to send."

Ba Tu coldly snorted and said, "Enough talking. Mu Yu, I'll make you meet your wife's Master today."

Hearing Ba Tu, Mu Yu's complexion changed. He coldly snorted and said, "It depends if you have the skill. I really want to thank the Giant Spirit Realm for giving us Giant Spirit Treasure Ships and Eight Cyan Imperial Chariots. Ba Tu, good news, the Giant Spirit Realm aren't the only ones that have Giant Spirit Treasure Ships. The Hundred Treasures Realm can now refine them. It's good news right? Hahaha."

When Ba Tu heard Mu Yu, his expression changed. But he soon calmed down as he coldly snorted and said, "A mere bluff. If our Giant Spirit Treasure Ship is that easy to imitate, then the Hundred Treasures Realm wouldn't be the ones making them. Mu Yu, you have killed my people, today I'll enact their revenge!"

Mu Yu laughed and said, "Ba Tu, what are you so confident about? I thought we're finished talking? Later you will find that these Giant Spirit Treasure Ships are the same treasure ships that your realm has."

Ba Li coldly snorted before waving his hand. The troops slowly drew back, obviously wanting to get a certain distance before charging. Unfortunately for them, Zhao Hai wouldn't give them this opportunity. As Ba Tu and the others retreated, Zhao Hai's Hell King's Ship began its charge.

Ba Tu was startled. He expected that since the Hundred Treasures Realm has large ship artifacts, then they would also retreat before charging. He didn't expect Zhao Hai to actually make his ship charge immediately.

Seeing this, Ba Tu's eyes flashed a grim light. He waved his hand as a Formation Breaking Spirit Snake Needle appeared in his hand. Then he howled as he sent the needle over towards the Hell King's Ship.

Ba Tu just howled but didn't increase his imposing aura. His howl was a command to the people behind him to input their energy into the spirit snake needles. This way, the needle can exert its greatest offensive power.

This was arranged by Ba Tu before they set off. He created two thousand-man teams from the Giant Spirit Realm. These thousand-man teams wouldn't do anything else other than concentrating their energy into the spirit snake needles the moment Ba Tu gave the signal.

Chapter 1483: Dare to Fight!?

The Formation Breaking Spirit Snake flew like a meteor as it struck towards the Hell King's Ship. Ba Tu's action wasn't just noticed by Zhao Hai and Mu Yu, a lot of people were able to see it. Almost everyone's vision was on the flying spirit snake needle.

Formation Breaking Spirit Snake Needles are very useful in dealing with guardian formation. However, if it was used against large artifacts, even though it can cause significant damage, the action would damage the spirit snake needles. It can be said that spirit snake needles had its limitations when it came to dealing with large artifacts. After all, it wasn't really made to attack large artifacts.

But Ba Tu didn't care about this. He knew from Ba Li that Zhao Hai's Hell King's Ship wasn't simple. That ship can act as a battering ram to attack. Moreover, its offense was incredibly powerful. Ba Li even suspected that the Hell King's Ship frontside was hiding a Formation Breaking Spirit Snake Needle.

It was precisely because of this that Ba Tu decided to use the Formation Breaking Spirit Snake Needle in order to break the Hell King's Ship in one go, eliminating the Giant Spirit Realm's army's greatest threat.

The spirit snake needle was very fast. And with how close Ba Tu and the Hell King's Ship was, the Formation Breaking Spirit Snake Needle collided with the Hell King's Ship in a blink of an eye.

Under everyone's gaze, the Formation Breaking Spirit Snake Needle jabbed itself into the Hell King's Ship. The Hell King's Ship turned into liquid momentarily. Then the spirit snake needle acted like a needle dropped into a pond. Nobody saw the spirit snake needle after that.

Everyone stared at the Hell King's Ship, unsure as to what just happened. Was the Hell King's Ship just a mirage?

While everyone's imaginations were running wild, a bang was heard as the Hell King's Ship crashed into Ba Tu's boat. Naturally, Zhao Hai wouldn't be polite as he rammed the Giant Spirit Treasure Ship that Ba Tu was on, just like the last time with Ba Li.

This time, Ba Tu's ship fared better than Ba Li's. After all, they had been too close to each other from the beginning. The Hell King's Ship wasn't able to pick up much speed, so its damage wasn't too strong.

Although the impact wasn't great, the collision still shook Ba Tu's ship. Moreover, it was clear that the ship was now ruined.

Fortunately for Ba Tu, he was prepared. When the Hell King's Ship collided with his ship, he already flew up so he wasn't injured. However, Ba Tu's expression was still very ugly. This was because he felt his connection towards the spirit snake needle being cut off. He had completely lost control of the spirit snake needle. It had been taken away.

In order to control artifacts, one needs to have a spiritual force connection to it. And this spiritual force was connected directly into the artifact's core. If one wanted to steal an artifact, then they would have to wipe out this spiritual force connection.

However, canceling out the enemy's spiritual force connection to their artifact wasn't easy. First, the core formation needed to be scanned. Then after that, one would need a stronger spiritual force in order to wipe out the opponent's.

In a way, it was a battle between spiritual forces. If one wasn't careful, they would be injured if they failed to win. Even if they weren't injured, the formation core of the artifact might be jeopardized. With two spiritual forces battling, it's possible for the formation core to be destroyed. If it does, then the artifact would be turned to trash.

Besides wiping out the opponent's spiritual force, another way to cut out spiritual force connections was killing the other party outright. As long as the other party was killed, then naturally their spiritual force would disappear.

The spiritual force connection on formation cores weren't like spiritual seals in jade slips. Spiritual seals on jade slips were permanent. It was like a lock, besides the one holding the key, it wouldn't be easy to open it.

A spiritual force connection was like a hand holding onto the artifact. Once this hand gets cut off, the artifact would no longer be under the control of its owner.

Ba Tu was now half-step into the Immortal Stage, this meant that he had extremely powerful spiritual force. His spiritual connection to the spirit snake needle was very firm. If one wanted to take control of the spirit snake needle, then they would need to erase Ba Tu's spiritual force connection. There weren't

a lot of people who could do this. Even Immortal Stage Experts would have a hard time doing so. But now, Zhao Hai and the others were able to do it.

Ba Tu wasn't aware that Zhao Hai has a cheat weapon like the Space. Although his spiritual force was formidable, once it enters the Space, it would be classified as a threat and would thus be eliminated. Once the Space makes a move, even Ba Tu's spiritual force would be easily wiped out.

Once the first Giant Spirit Treasure Ship was destroyed, Mu Yu and the others immediately dispersed to attack the other large artifacts of the Giant Spirit Realm. This was also the plan that Zhao Hai and the others had come up with.

Although the Hundred Treasures Realm has obtained a lot of large artifacts, they weren't proficient in using them. If they confronted an army, then they might suffer a loss. Therefore, Zhao Hai proposed that they might as well use their large artifacts in order to deal with the large artifacts of the Giant Spirit Realm. Once the other party's large artifacts become useless, then the Hundred Treasures Realm would be able to deal with the army with ease.

The plan might look simple, but this would target the Giant Spirit Realm's core strength. In the battles between the Hundred Treasures Realm and the Giant Spirit Realm, the latter was able to use their expertise of using large artifacts in order to deal with the Hundred Treasures Realm. But once their large artifacts were dealt with, the Giant Spirit Realm's hands would be tied. Naturally, this would be the part where the Hundred Treasures Realm would take the upper hand.

Ba Tu also discovered the Hundred Treasures Realm's intentions. He felt regretful about making his army draw back. He thought that the Hundred Treasures Realm would retreat to gain momentum as well. He didn't expect the Hundred Treasures Realm charge in such close quarters.

However, since Ba Tu was also an experienced veteran, he immediately made adjustments to the army. There was no longer any use in making the army retreat. The only thing they could do right now was to meet the enemy's attack.

Naturally, Mu Yu and the others wouldn't let this opportunity go. They immediately charged the enemy. Artifacts began flying in the sky, causing a magnificent scene.

Zhao Hai and Mu Yu were still standing on top of the Hell King's Ship. Although the Hell King's Ship was also being attacked by enemy artifacts, the ship stayed undamaged. They weren't even enough to scratch the ship.

At this time, Ba Tu got on to another Giant Spirit Treasure Ship. He led the treasure ship towards the Hell King's Ship.

Zhao Hai could also see Ba Tu's movement. Zhao Hai turned his head to Mu Yu and said, "Big Brother Mu, it seems like Ba Tu really wants to deal with you."

Mu Yu smiled faintly and said, "I also want to deal with him. Little Hai, I'll block him while you take the Hell King's Ship to battle. As long as we cause the Giant Spirit Realm's Army to turn chaotic, we will win."

Zhao Hai nodded. At this time, Ba Tu flew out of the Giant Spirit Treasure Ship. Then he called out, "Mu Yu, do you dare fight me?"

Mu Yu laughed, then he also flew up as he replied, "Why wouldn't I dare. I've been waiting for those words." He waved his hand as his Ten-thousand Flower Rain attacked Ba Tu.

Ba Tu also waved his hand as two axes appeared beside him. After that, he charged towards Mu Yu. Mu Yu's artifact was like a flower that blossomed. It looked like a huge flower at first before it trembled and shook.

After the flower blossomed, it became two flowers, and then four, then eight. Before long, the skies were filled with flowers. One shouldn't underestimate these flowers. Each one of them had extraordinary offensive strength. And they were numerous enough to blot out the sky,

Ba Tu's attack was simpler. He waved his two axes as he sent an attack towards Mu Yu. The attacking style of the two were completely in contrast.

Mu Yu's attack danced in the sky attractively. But at the same time, it could be seen that controlling these flowers was very complicated. Moreover, the attack flowed like water, seizing every opening it could find.

On the other hand, Ba Tu's attack was straightforward. Every gesture and motion was as basic as it could be.

Seeing this, Zhao Hai knew that he doesn't have anything to do with this duel. He turned his head to Tang Jie and Tang Wen and said, "Brother Tang, go command the troops first. I'll have to fly around and deal with the other large artifacts of the Giant spirit Realm. With them present, it would be very hard to defeat the army."

Just as he said that, the Giant Spirit Treasure Ship that Ba Tu left continued advancing towards the Hell King's Ship. Because of this, Zhao Hai didn't have enough distance to build the ship's momentum. This was Ba Tu's plan, to tie down the Hell King's Ship so that it wouldn't be able to cause chaos in the battlefield.

But what Ba Tu didn't know was that the Hell King's Ship wasn't the same as the Giant Spirit Treasure Ship. The Giant Spirit Treasure Ship couldn't be controlled by just one person. Ba Tu can store the treasure ship in his spatial equipment, but he would still need a hundred people to control it once he takes it out. This was also the reason why it wasn't easy to move a Giant Spirit Treasure Ship.

On the other hand, Zhao Hai's Hell King's Ship could be operated by Zhao Hai alone. Moreover, the distance that the Hell King's Ship needs to gain momentum was much shorter than the Giant Spirit Treasure Ship. This allowed Zhao Hai to charge with ease.

Tang Jie understood Zhao Hai, so he nodded and began to command the Hundred Treasure Realm army. Once Tang Jie and the others disembarked, Zhao Hai received the Hell King's Ship and disappeared.

Chapter 1484: Immortal Experts Make A Move

Although Ba Tu was currently fighting against Mu Yu, he was also paying attention to the Hell King's Ship. He was aware that Zhao Hai and the Hell King's Ship were huge threats to the Giant Spirit Realm.

From Ba Li's testimony, Ba Tu became aware that the reason Ba Li lost miserably twice was because of this Zhao Hai.

When Ba Tu heard Ba Li's description of Zhao Hai, he could hear a trace of admiration in his tone. Ba Tu knew that Ba Li was a proud person. Although he was defeated this time, his pride was still intact. However, he wasn't as arrogant as before. There weren't a lot of people that could awe Ba Li. This caused Ba Tu to pay more attention to Zhao Hai.

One shouldn't think that Ba Tu was truly focused on his fight with Mu Yu. In fact, he wasn't going all out. If he really did, although he couldn't overwhelm Mu Yu, he could still exhaust him. Because of this, while he was fighting Mu Yu, Ba Tu was also paying attention to Zhao Hai.

Seeing Zhao Hai vanish, Ba Tu began to feel unwell. He was also aware that Zhao Hai has a spatial divergent ability. Back then, he didn't care much about it. This just meant that Zhao Hai can travel much faster than other people. But now, Ba Tu felt that if Zhao Hai were to appear somewhere else with the Hell King's Ship, then the Giant Spirit Realm army would be in trouble.

Thinking of this, Ba Tu immediately strengthened his attacks on Mu Yu. He wanted to get out of this engagement in order to stop Zhao Hai. However, he underestimated Mu Yu. Mu Yu knows what Zhao Hai plans to do, so he needs to prevent Ba Tu. Mu Yu knew that Ba Tu was stronger than him, with the latter being half-step into the Immortal Stage. Because of this, he didn't go all out. He was saving his strength to stop Ba Tu when it's critical.

When Ba Tu strengthened his attacks, Mu Yu knew what needed to be done. He also began to get serious as he withstood the attacks. He wouldn't allow Ba Tu to disentangle himself.

As soon as Ba Tu knew that he couldn't leave, he began to feel anxious. He began to intensify his attacks, but he still underestimated Zhao Hai's speed. Zhao Hai appeared about 5 li away from behind the Giant Spirit Realm army. Then he took out the Hell King's Ship, the Pagoda, and a Giant Spirit Treasure Ship. Soon after, the three large artifacts began to charge towards the army.

There were a lot of Giant Spirit Realm people behind the army. Naturally, there were also a lot of people from other realms. Cultivators fight differently compared to other people. Artifacts were flying all over the sky. Moreover, with how many there were, even if one was blind, they can still feel the powerful turbulence of spiritual energy in the air. So this wasn't to say that the back was safer, nowhere else was safe.

The Giant Spirit Realm people on the back were supervising the battle. If there were any deserters, they would kill them.

Because of this, the people in the back were among the elite. Sensing Zhao Hai's actions, these people turned their heads only to see three large artifacts aggressively charging towards them.

This time, in order to increase the impact, Zhao Hai separated the Pagoda from the Hell King's Ship. Then along with the Giant Spirit Treasure Ship, the three large artifacts charged towards the enemy. Actually, Zhao Hai can release more large artifacts. After all, Liquid Silver can transform into anything. However, he didn't do this. He already gave Mu Yu and the others the impression that Liquid Silver can only change into one piece of equipment.

Even if he decided to expose his strength, he wouldn't expose all of it. It's already good that Mu Yu and the others understood that Zhao Hai was strong. There's no need to go extra.

Seeing the three large artifacts, the expression of the people from the Giant Spirit Realm immediately changed. They quickly turned around to defend. Since they didn't have large artifacts at the back, they could only use their own artifacts. They hoped that they could block Zhao Hai and give the Giant Spirit Realm an opportunity to turn the tides of the battle.

Zhao Hai didn't think so much as he just charged on at full power. Once these three large artifacts hit their target, their impact would certainly be very strong. Although one of the three was the Giant Spirit Treasure Ship, it was improved by the Space. Therefore, it was very fast. It didn't hold back the Pagoda and the Hell King's Ship.

Although the Giant Spirit Realm army did their best to block the three large artifacts, they couldn't do anything to stop them. The moment the three large artifacts hit the formation, chaos occurred.

When Ba Tu saw this, he couldn't help but stop himself from spitting out blood. He now understood what Ba Li felt. From the beginning up to now, he was being led by the nose. This annoyed him so much.

However, Ba Tu has no way to command the army. Mu Yu completely locked him down. Ba Tu was mad and angry that he couldn't do anything.

Zhao Hai's three artifacts moved unhindered inside the Giant Spirit Realm's formation. Nobody was able to stop them. The people from the subordinate realms were also left with nothing to do. These realms

were like the World of Cultivation. If they lose too many people, then they wouldn't be able to fare well in the future. Even if the Giant Spirit Realm won, they would still have a hard time.

Adding on to the multiple defeats that the Giant Spirit Realm suffered against the Hundred Treasures Realm and the World of Cultivation's defection to the Hundred Treasures Realm, the subordinate realms had a shadow cast on their heart. Because of this, it was impossible for them to go all out for the Giant Spirit Realm this time.

It was said that the first loss of the Giant Spirit Realm was because of the Hundred Treasures Realm's luck. The second was because the Hundred Treasures Realm was prepared. Nobody knew how the Hundred Treasures Realm were able to get so many large artifacts. And that time, it was reasonable for the Giant Spirit Realm to be forced to retreat. But what about this time?

This time was a field battle! Two armies were pitted against each other, going head to head. In this case, if they were defeated, then this would consume the last shred of confidence that the subordinate realms had for the Giant Spirit Realm.

The hearts of the people from the subordinate realms were in tatters. And it became impossible for the Giant Spirit Realm to keep them in line. The Giant Spirit Realm tried to kill a few deserters in order to frighten them, but they didn't expect the people from the subordinate realms to rebel and kill people from the Giant Spirit Realm. This caused the formation to be more chaotic.

In the minds of the people from the subordinate realms, the Giant Spirit Realm was finished. They wouldn't just accept the Giant Spirit Realm commanding them to die. And because of the successive defeats of the Giant Spirit Realm, the subordinate realms were no longer afraid of them. In this case, it became impossible for the Giant Spirit realm to kill some of them in order to strike fear on the others. Every single realm who managed to come to the Ten-thousand Realm Battlefield wasn't simple. These people fought hard to gain their current status. Naturally, they would fight back if they were forced into a corner.

At this moment, an angry snort was heard. It was very resounding as it thundered in the ears of everyone present. Their minds couldn't help but shake.

This snort froze the entire battlefield. Everyone stopped fighting. Then someone's words were heard, "Hundred Treasures Realm bastards, you actually dared to make a move on the Giant Spirit Realm. This old man will have to teach you a lesson!"

This voice wasn't too strong, but everyone in the battlefield were able to hear this. Moreover, an imposing aura could be heard in the voice. It was a resounding aura, making people give up any means of resistance.

Everyone was horrified. The weakest of them were at the Transcending Tribulation Stage. To overwhelm then in such a manner only meant that the owner of the voice was a person at the Immortal Stage!

Only an Immortal Stage Expert could have such overbearing aura! Thinking of this, everyone's heart sank. This was an Immortal Stage Expert, the top existence in the Ten-thousand Realm Battlefield. These were people that couldn't be treated lightly. They simply couldn't resist against them. The people from the Hundred Treasures Realm couldn't help but lose some courage. There were even some people who felt like giving up!

Not to say others, even Mu Yu, a peak Severed Soul Expert, was shaken by this. His heart dropped.

At this time, another voice was heard, "What? An Immortal Expert of the Giant Spirit Realm wants to make a move? Hahaha. It seems like we really pushed the Giant Spirit Realm into a corner. The decision of the World of Cultivation to defect towards us is truly a good choice. What hope is there to follow such a hopeless realm!"

With this voice, the battlefield was so quiet that one could hear a needle dropping. Everyone looked towards where the voice came from. Then they saw Zhao Hai standing on top of the Hell King's Ship. The Pagoda was back on the ship while the Giant Spirit Treasure Ship was nowhere to be found.

Zhao Hai was standing on top of the ship looking at the people of the Giant Spirit Realm with contempt. Everyone who saw this felt that there must be something wrong with their brains.

Although Zhao Hai was looking at the people from the Giant Spirit Realm, his message was actually directed at the Immortal Stage Expert. Was Zhao Hai that courageous? Or was he just too arrogant?

Zhao Hai discovered in the beginning that the Immortal Stage Expert didn't just use his spiritual force to overwhelm others. There was also a trace of spiritual attack in his voice. This kind of large-scale attack using sound can only be used by somebody at the Immortal Stage. However

However, such an attack wasn't effective on him. The Enlightenment Technique far surpassed any spiritual attack. As soon as the voice from the Immortal Stage Expert came out, Zhao Hai knew that he wasn't planning on participating in the battle. He just wants to extinguish the spirit of the Hundred Treasures Realm and let the Giant Spirit Realm win.

People who use this kind of method to gain victory was something Zhao Hai hated. Therefore, he decided to counter!

Chapter 1485: Fierce Immortal Stage Expert!

Zhao Hai didn't intend to annoy the Immortal Stage Expert with what he said. He just wants to remove the spiritual attack that was affecting the Hundred Treasures Realm's side.

The spiritual attack of the Immortal Stage Expert was very formidable. He just borrowed his cultivation base in order to oppress the enemy. Because of this, he was able to cause Mu Yu and the others to feel extreme pressure deep inside.

Such an attack was very easy to get rid of. Mu Yu and the others were experts at the Transcending Tribulation and the Severed Soul Stage, so their spirits were already strong to begin with. As long as they were given a gentle push, they could immediately erase this kind of spiritual attack. After all, the Immortal Stage Expert couldn't exert real pressure on the battlefield.

What Zhao Hai did was to remind Mu Yu and the others so that they would wake up and get rid of the Immortal Stage Expert's attack.

Zhao Hai's move was very useful. His words caused Mu Yu and the others' body and mind to shake. Then they discovered the state they were in. They couldn't help but feel that they were laughable.

Mu Yu and the other Severed Soul Experts understood that they had just been attacked by an Immortal Stage Expert. This angered them. Mu Yu coldly snorted and said, "The Giant Spirit Realm is truly despicable. An Immortal Stage Expert actually used such an underhanded method."

Just as his words fell, the Immortal Stage Expert replied, "Kid, you're courting death!"

Along with this response, a cyan fist flew over from a distance. However, this fist wasn't aimed at Mu Yu. Instead, it was going towards Zhao Hai.

Seeing this fist, Mu Yu's expression changed. Although this fist looked ordinary, one shouldn't underestimate the strength of a fist from an Immortal Stage Expert.

And this fist was heading towards Zhao Hai. If Zhao Hai suffers an accident, then it would be a huge loss towards the Hundred Treasures Realm.

If he hadn't met Zhao Hai, then Mu Yu wouldn't have thought of this. But after meeting Zhao Hai and learning about his ability, he became aware of how powerful Zhao Hai was. If Zhao Hai was killed now, then the losses wouldn't be worth it even if the Hundred Treasures Realm won.

If others knew what Mu Yu was thinking, they would certainly be startled. Mu Yu was now giving Zhao Hai more importance than his hatred towards the Giant Spirit Realm.

Actually, Mu Yu's thinking held some truth. If they defeat the Giant Spirit Realm, what would they get? They would take the Giant Spirit Realm's territory, and they wouldn't even be able to get all of it. They have to split the territory with other realms. Besides the territory, they would obtain the Giant Spirit Realm's subordinate realms. This was important for the Hundred Treasures Realm, but not as important as Zhao Hai.

Not to say anything else, Zhao Hai's ability to reconstruct an artifact and its components would infinitely benefit the Hundred Treasures Realm.

The amount of materials the Hundred Treasures Realm uses every year for refining was astronomical. And most of these materials are wasted and become useless sludge.

It can be said that the materials the Hundred Treasures Realm waste every year was much more than the tribute they receive from their subordinate realms. But if they had Zhao Hai, these materials can be recycled and reused. For the Hundred Treasures Realm, this was a source of massive profit.

Additionally, they can acquire artifacts from other realms and have Zhao Hai reconstruct them and get the refining method. This was even more beneficial for the Hundred Treasures Realm. As long as they copy the artifacts of the other realms, they would be more confident fighting against them in the future.

Because of this, Mu Yu was very worried about Zhao Hai. However, he was too far from Zhao Hai. He doesn't have any spatial abilities so it was impossible for him to go to Zhao Hai. The only thing he could do right now was to wish for Zhao Hai's safety.

Actually, Mu Yu's earlier words were meant to attract the attention of the Immortal Stage Expert. He wanted the Immortal Expert to attack him instead of Zhao Hai.

In Mu Yu's mind, the Immortal Stage Expert should be attacking him. Although Zhao Hai destroyed the Immortal Expert's attack, Mu Yu was stronger and more famous. Moreover, Mu Yu was the commander of the entire Hundred Treasures Realm army. Killing him was much more efficient than killing Zhao Hai. Because of this, Mu Yu thought that the Immortal Expert would attack him, not Zhao Hai.

Mu Yu didn't expect the Immortal Expert to ignore him and instead go for Zhao Hai. Seeing the fist going towards Zhao Hai, Mu Yu's heart was stuck in his throat.

Zhao Hai also saw the fist attack coming for him. This fist wasn't fast, but Zhao Hai knew that he couldn't just hide this time. Firstly, the Immortal Expert was using their own spiritual force to control the fist. If he didn't use the Space, it would be impossible for him to avoid it. Secondly, if he hid at this time, then it would affect the morale of the Hundred Treasures Realm. Because of this, he couldn't hide.

Actually, Zhao Hai wasn't thinking of hiding. He coldly snorted as he waved his hand. Then a spirit snake needle appeared in his hand. Then the dark mist covered spirit snake needle charged towards the fist.

The fist and the spirit snake needle met in the air. A loud bang was heard as the fist was broken. At the same time, Zhao Hai and the Hell King's Ship retreated more than a thousand steps before stopping.

Zhao Hai was still standing on the Hell King's Ship, his complexion was pale. However, his back was straight as he sneered and said, "Immortal Stage, mediocre!" His statement caused the entire battlefield to turn their eyes towards him.

For many years, nobody dared to disrespect Immortal Stage Experts. This even extended somewhat to half-step Immortal Stage Experts like Ba Tu. Immortal Experts were much more powerful than Severed Soul Experts. Offending them was basically courting death.

Zhao Hai didn't only offend the Immortal Expert, he even mocked him as mediocre. Hitting the face of the Giant Spirit Realm's Immortal Expert, how could this Immortal Expert let him off.

Sure enough, hearing Zhao Hai, an angered shout was heard, "Brat, you're too arrogant. Die!" After this a sword qi cut through the sky, targeted towards Zhao Hai.

This sword qi was very solid and exuded a golden light. It could be clearly seen that it was much more powerful than the fist qi. It seems like the Immortal Expert has been angered and wanted to kill Zhao Hai.

Zhao Hai coldly looked at the sword qi. He waved his hand and took out a large needle. The needle didn't charge immediately. Instead, it stayed in place as it got darker and darker. In the end, the needle was covered by a black sheen.

At this time, Zhao Hai waved his hand, sending the needle towards the incoming sword qi. The aura brought by the long needle was astonishing. It caused waves along the path it took.

The sword qi also caused ripples along its path. So when the two collided, a loud boom was heard. The area around the collision was leveled. Waves of spiritual energy could be felt from far away.

The people present felt that their bodies were like leaves as they were swayed by the collision. They simply couldn't stand in place as they were blown away.

As for Zhao Hai and the Hell King's Ship, he was blown back by 1000 steps before stopping. His complexion was even paler. However, his back was still straight.

Seeing Zhao Hai's appearance, Mu Yu's eyes shone. He felt his blood rushing as he shouted, "Good!"

With this boost, Mu Yu commanded everyone to attack the Giant Spirit Realm. The formation of the Giant Spirit Realm army was already destroyed. They no longer have any means to resist. And with Zhao Hai blocking the Immortal Experts two attacks, this caused the Giant Spirit Realm's morale to drop even more. It didn't take long before the army scattered.

At this time, the Immortal Expert attacked once more, "Brat, this old man will kill you today!" Several sword qi went towards Zhao Hai one after another. It seems like the Immortal Expert was resolute in killing Zhao Hai.

Zhao Hai's current state wasn't good. He underestimated the strength of the Immortal Expert. Although he managed to receive the two attacks, they also caused him to be injured. Most importantly, the shock of the attack harmed his body, reducing the flow of spiritual energy. He could no longer block another attack from the Immortal Expert. Right now, he was thinking of hiding inside the Space.

Then at this moment, a cold snort was heard, "Ba Si, why would a respected elder like you bully a kid? Aren't you ashamed? Did you really think that you can bully my Hundred Treasures Realm?"

Following this voice, several needle-shaped qi collided with the sword qi. This time, there was no sound from the collision. The qi just vanished as they cancelled each other out.

After the collision, the previous voice was heard, "Ba Si, if you want to play with this old man, then I'll keep you company. Doing it here will just make these juniors suffer. Let's find another place to play in."

Ba Si let out a cold snort before the two vanished. Although the people on the battlefield heard the dialogue between the two, their battle didn't stop. The Giant Spirit Realm was now being suppressed and beaten by the Hundred Treasures Realm. The subordinate realms of the Giant Spirit Realm were already beginning to flee.

Seeing the situation, Ba Tu knew that he couldn't do anything. So he ordered everyone to retreat. Ba Tu was better than Ba Li. At least he can gather the people from the Giant Spirit Realm and then slowly retreat. He was able to minimize their losses.

Although Mu Yu wanted to give chase, he noticed a problem with Zhao Hai. After blocking the attacks of the Immortal Expert twice, Zhao Hai stood there without moving. Normally, Zhao Hai would use his Hell King's Ship to attack Ba Tu's group. But now, he didn't. It's clear that something was wrong.

Thinking of this, Mu Yu stopped pursuing the Giant Spirit Realm and instead headed towards the Hell King's Ship. When he arrived, he saw Zhao Hai standing still with his eyes closed.

Mu Yu's heart jumped and he panicked for a while. But he quickly felt that Zhao Hai's breath was fine. But he was injured and in the process of recovery.

Knowing this, Mu Yu relaxed. But he was still worried. He knew that if it was only a small injury, then Zhao Hai wouldn't have stood in place to heal. It's certain that Zhao Hai was heavily injured this time.

With Zhao Hai's strength, he wouldn't be easily injured. But if he did, then it should be serious. Even if the injury was treated with a pill, he wouldn't be able to recover quickly. Mu Yu was worried that Zhao Hai's injuries would affect his future cultivation.

Tang Jie and the others kept chasing the Giant Spirit Realm. Meanwhile, Mu Yu stood behind as he waited beside Zhao Hai.

Mu Yu knew that Zhao Hai shouldn't be disturbed right now. If Zhao Hai was disturbed, then it might worsen his injury.

An hour passed by, two hours, three hours, Zhao Hai was still in place. At this time, Tang Jie and the others went back after chasing the Giant Spirit Realm for 1000 li. Upon returning, Mu Yu smiled and welcomed them, "Little Jie, have everyone surround the Hell King's Ship. Little Hai shouldn't be disturbed. We need to protect him!"

Tang Jie stared, then his complexion changed as he asked, "Big Brother Mu, how is Little Hai? Is he alright?"

Mu Yu sighed and said, "He's injured and currently recovering. He cannot be disturbed." Tang Jie nodded and immediately arranged the army to surround the Hell King's Ship. Moreover, the enclosure was watertight, even mosquitoes wouldn't be able to enter.

Seeing Tang Jie's arrangement, Mu Yu let out a long breath. Then he recounted their victory. They dispatched about 80 thousand people against the Giant Spirit Realm who had the same number of

troops. Altogether, they managed to kill 30 thousand people, 2000 of which were from the Giant Spirit Realm. On the other hand, the Hundred Treasures Realm suffered 10 thousand casualties. About a thousand people from the Hundred Treasures Realm died. But this was already a good result.

Although they weren't able to kill a lot of people from the Giant Spirit Realm, the result was still very good. They managed to defeat the Giant Spirit Realm once more. For the Hundred Treasures Realm, this was an exceptional outcome.

Chapter 1486: Transcending Tribulation

Zhao Hai was trying hard to route the qi inside his body. The Immortal Expert was indeed very strong. Zhao Hai didn't pay attention when the qi of the Immortal Expert entered his body. He thought that it could be easily resolved. But now it seems like this wasn't the case at all. The qi of an Immortal Expert wasn't easy to deal with.

The qi of an Immortal Stage Expert wasn't the same as those from the lower stages. Most qi that Zhao Hai met were like an iron rod. As long as it was grinded down, it would sooner or later vanish.

On the other hand, the qi of an Immortal Stage Expert was like an onion, it had layers upon layers. Each layer is more formidable than the last. Once you grind one layer down, another would show up.

Because of this, it was very difficult for Zhao Hai to get rid of the invasive qi inside his body. He needs to digest it bit by bit.

However, Zhao Hai soon came upon an issue. There seems to be something that was layered on top of the Immortal Expert's qi. It was like a law or some sort.

Zhao Hai felt more and more curious about the Immortal Stage. In the end, he had to use faith power in coordination with his own qi in order to surround the Immortal Expert's qi and grind it down bit by bit.

Upon using faith power, Zhao Hai discovered that the process had become much easier. Not only that, before this, when Zhao Hai used only his spiritual qi, he would need to consume energy corresponding to the amount of energy he erased. In other words, Zhao Hai needs to spend the same amount of energy in order to remove the Immortal Expert's qi.

But now, after using faith power, things became different. Zhao Hai discovered that as the Immortal Expert's qi vanished, some of it was added to Zhao Hai's own. This caused Zhao Hai to be somewhat puzzled.

He carefully observed the qi that he absorbed and discovered that it was solidified energy. Although it was still spiritual qi, it actually gave a feeling of a steady mountain.

Zhao Hai was stunned for a moment. But he immediately thought about the sword qi that was released by the Immortal Expert. It was golden yellow so its attribute should be earth. The feeling of a stable mountain should be part of the laws of the earth.

Zhao Hai still had little experience regarding these things. He might not know what laws were, but this still didn't prevent him from comprehending them. Laws weren't very difficult. After all, Zhao Hai already had the five attributes, with earth being one of them. This allowed him to comprehend the qi inside his body.

Zhao Hai controlled his spiritual force towards the foreign qi. This qi was much more dense compared to Zhao Hai's spiritual qi. When Zhao Hai's spiritual force touched it, it felt like climbing a huge mountain. A mountain that was present since ancient times. Winds cannot move it, lightning can't shake it, earthquakes can't destroy it. It was an eternally standing mountain.

Zhao Hai immersed himself in this feeling. He felt himself become a mountain. He just stood there indifferently, almost sensing the passage of millions of years.

As Zhao Hai's comprehension deepened, the Immortal Expert's qi also began to sizzle away from his body. However, Zhao Hai didn't stop from feeling the law of this mountain.

Meanwhile, as they defended the Hell King's Ship, Mu Yu began to worry. Zhao Hai has stood motionless for two days. They didn't make a move in these two days. Mu Yu wasn't worried that the army would be held back. He feared that something wrong had happened to Zhao Hai.

At this moment, Mu Yu discovered Zhao Hai's body glowing with yellow light. It got brighter and brighter before Zhao Hai's entire figure turned into yellow light.

Although this yellow light was bright, it wasn't dazzling. Conversely, it gave off a solemn feeling. Mu Yu tried to scan Zhao Hai with his spiritual force but found out that he couldn't. Instead, what he saw was a mountain. Zhao Hai turned into a mountain!

This caused Mu Yu to be stunned, then he immediately understood that Zhao Hai was about to break through. He quickly shouted, "Everyone, distance yourselves from the Hell King's Ship!"

Mu Yu knew that if Zhao Hai were to break through, then he would be facing tribulation thunder. Mu Yu didn't want everyone to be pulled into Zhao Hai's tribulation.

The power of this tribulation lightning couldn't be underestimated. If these people were to stand alongside the Hell King's Ship, then they would be hit by this lightning. Although these people were all experts, this didn't mean that they weren't afraid of tribulation lightning. If they cause any changes to the tribulation lightning, then Zhao Hai would be in danger.

Recalling a matter that happened in a small realm in the Ten-thousand Realm Battlefield. A Severed Soul Expert wanted to help his nephew during his tribulation. He took it upon himself to sit and guard his nephew. However, nobody expected the tribulation to be very strong. Additionally, the nephew has been spoiled since he was a child. Seeing such a powerful tribulation lightning, he panicked and didn't know what to do.

Because of his affection towards his nephew, the Severed Soul Expert personally shielded his nephew from the tribulation. However, something surprising occurred. The tribulation somehow felt the Severed Soul Expert's meddling and increased the power of the tribulation lightning. Not only was the nephew turned into ash, the Severed Soul Expert was also injured.

Because of this lesson, people became aware that they shouldn't help someone during their tribulation.

This was the reason why Mu Yu had everyone vacate the area. He was afraid that they would affect Zhao Hai's tribulation. If they were caught in the tribulation, their instinct would make them resist it, which would in turn cause the tribulation to be more powerful. When the time comes, the one who would suffer would be Zhao Hai.

Everyone also understood Mu Yu's command. After all, they were all who went through their tribulations. When they saw Zhao Hai's state, they knew what was going on. They immediately retreated. Before long, a black cloud appeared above Zhao Hai. More and more clouds grouped up until it became a thick black cloud. Then the clouds began to rumble as if there was a dragon lurking inside it.

Among the dark clouds, silvery lightning could be seen snaking through. Seeing this, Mu Yu couldn't help but frown. This was because he could feel that Zhao Hai's tribulation was much stronger than most people.

At this time, Tang Jie arrived beside Mu Yu as he whispered, "Big Brother Mu, something feels wrong. Zhao Hai's tribulation looks several times stronger than mine. Little Hai will be fine right?"

Mu Yu shook his head and replied, "I don't know. From what I heard, the power of tribulation lightning is directly related to the cultivation of the person who will receive it. Although Zhao Hai is just a Nascent Soul Expert, he was able to block two attacks from an Immortal Stage Expert. This strength already exceeds the Transcending Tribulation Stage. Because of this, his tribulation lightning should be very strong. But I believe Zhao Hai will be able to take it."

As they were talking, a thick lightning bolt came down from the dark clouds as though it wanted to chop Zhao Hai in half. But at the same time, a group of yellow light flew out from Zhao Hai's body and met the lightning. What strange was that when the group of yellow lights hit the lightning, it began to fizzle out. It was as though the yellow lights were the bane of the tribulation lightning. Before long, the lightning vanished.

Mu Yu and the others were stunned, they didn't know what happened. Then they saw the group of yellow lights flying upwards into the dark clouds. The clouds surged fiercely, no longer having any lightning to pour down unto Zhao Hai.

After some time, Mu Yu discovered that the dark clouds were beginning to shrink. As Mu Yu was doubting his eyes, the clouds vanished at a rapid rate. Before long, the clouds shrunk into less than ten mu in size.

Everyone was stunned as they saw the dark clouds completely vanish. And in the place where the clouds were was a group of yellow lights.

The yellow lights seemed to have eaten their full as they shook for a moment before returning to Zhao Hai's body. It was also at this time that Zhao Hai opened his eyes.

When Mu Yu saw this, his eyes couldn't help but shine. He immediately flew back to the Hell King's Ship. Seeing Mu Yu arrive, Zhao Hai immediately gave a salute and said, "Big Brother Mu, I've worried you. I didn't think I'd be able to break through this time."

Mu Yu smiled faintly and said, "It's alright. As long as you're well. How is it? Are you feeling great after breaking through?"

Zhao Hai smiled faintly and said, "Fantastic. I'm not at the Transcending Tribulation Stage. Before this, I was struggling to dissolve the Immortal Expert's qi inside my body. But now I was finally able to remove it."

Mu Yu laughed, then he patted Zhao Hai's shoulder and said, "Alright, that's good. While you recuperate, we'll head towards the Imperial Spirit Sect." Zhao Hai nodded, then they went back to the Pagoda.

When everyone got back on the Hell King's Ship, Zhao Hai and Mu Yu sat on the top of the pagoda. But instead of going to the roof, Mu Yu took Zhao Hai to his room while Tang Jie and Tang Wen remained outside.

Seeing this, Zhao Hai looked confused. Mu Yu went straight to the point, "Little Hai, tell me the truth. Do you have faith power?"

When Zhao Hai heard Mu Yu, his body couldn't help but shake. He looked at Mu Yu in amazement. Seeing Zhao Hai's reaction, Mu Yu sighed and said, "Sure enough, you're really a lucky kid. You even have faith power, something other people could only dream of. Where did you get your faith power from?"

Zhao Hai didn't reply to Mu Yu's question. Instead, he asked, "Big Brother Mu, how did you find out that I have faith power? Do you cultivate it as well?"

Chapter 1487: Lightning Pool

Mu Yu looked at Zhao Hai in annoyance as he said, "What do you think faith power is? Can anyone just get it? I know some methods of cultivating faith power, but I don't have any means to get it."

Zhao Hai stared, then he said, "Then Big Brother Mu, how did you find out that I have faith power?"

Mu Yu smiled faintly and said, "It's because of your tribulation. One of the advantages of faith power is removing the obstacles in the way of its user. This means that those with faith power have no bottlenecks whatsoever. When the tribulation lightning went after you, it was blocked by faith power. Apart from faith power, there's no other power that can do this."

Zhao Hai smiled bitterly. He didn't think that it was because of this. But he was helpless against it. When the tribulation lightning came down, he was prepared to resist it, he was just waiting to make a move. However, his faith power just flew out on its own and attacked the dark cloud.

Mu Yu looked at Zhao Hai and said, "Little Hai, where did you get faith power?"

Zhao Hai smiled bitterly and replied, "It's a long story. I got it by accident. Back in the World of Cultivation, I belonged to the Machine Field. I had some scuffles with the Cultivation Realm and later on with the Devil Realm. At that time, I became enemies with someone named the Yin Wind Ghost Emperor. I killed his underling so he looked for me for revenge. In the end, he failed to kill me and was killed instead. That fellow had a lot of evil artifacts but one of them was an iron token. This iron token was actually an item that can collect faith power from a lower realm. Later on, when I turned him into an Undead, I asked him about faith power and learned a simple method to use it. That iron token wasn't made with great materials, so I was only able to collect a little bit of faith power. I was impatient at that time that I threw it back into the lower realm. But I didn't expect the iron token to actually disappear. In the end, I was only able to get a small amount. I didn't expect it to be used today."

Zhao Hai's story was a mix of truth and lies. He truly obtained the iron token from the Yin Wind Ghost Emperor. Moreover, he really lost it in the Underworld. But now, the Underworld has been unified with the Space. Also, the Underworld wasn't the only place he can get faith power from.

Mu Yu didn't suspect Zhao Hai's story. He was from the Hundred Treasures Realm so he was aware of items that held control over a lower realm. The attitude of the Hundred Treasures Realm towards this token was quite calm. Whoever gets these tokens would own it. Nobody would snatch it from them.

Mu Yu shook his head and said, “You’re really a lucky kid. With faith power, your future progress would be smoother. This is good. But Little Hai, you need to remember that faith power is only a tool to help your cultivation. In the end, your cultivation base is the most important. Right, what method did you use to control your faith power?”

Zhao Hai told Mu Yu about the method he got from the Yin Wind Ghost Emperor. Mu Yu shook his head and said, “Your method is too primitive. Wait a while. I’ll write to Master so that he can help you find a better method. This way, you can use your faith power better.”

Zhao Hai nodded and thanked Mu Yu. To be honest, he didn’t expect Mu Yu to be calm upon hearing about his faith power. Moreover, it seems like he sees faith power as a supportive thing.

In Zhao Hai’s view, faith power was infinitely useful for cultivation. Take the Buddhist Techniques for example. Without faith power, one couldn’t practice them at all. How can this be just a supportive thing to Mu Yu? What’s this about?

What Zhao Hai didn’t know was that tokens that connected to lower realms were also rare in the Hundred Treasures Realm. It was very difficult to obtain faith power from lower realms. Lu Wei and the Yin Wind Ghost Emperor can’t go to the lower realms and perform miracles, so the people from the lower realms weren’t too connected to them. This caused their faith to be weak. Since this was the case, it was impossible for these token owners to realize the terrifying ability of faith power.

Although Zhao Hai didn’t understand what happened, he didn’t ask. He knew that the more he asked, the more he would reveal. Therefore, he’d rather not take the risk.

Mu Yu led Zhao Hai to the terrace of the pagoda. Tang Jie and the others were already waiting there. Mu Yu nodded and said, “Now that Little Hai has successfully entered the Transcending Tribulation Stage, we should think about our next action. We’ll march towards the Imperial Spirit Sect.”

Zhao Hai nodded, then he controlled the Hell King’s Ship to head towards the Imperial Spirit Sect. Once the Hell King’s Ship was on the way, Zhao Hai turned to Mu Yu and said, “Big Brother Mu what happened to the Immortal Expert that attacked me?”

Mu Yu smiled and said, “Just as the Immortal Expert attacked the third time, an Immortal Expert of the Hundred Treasures Realm blocked it. After that, they fought somewhere else. We don’t know where they fought, but we can only do what we can at this time.”

Actually, Zhao Hai knew about this, he just pretended to be clueless. Therefore, as soon as he heard Mu Yu, he feigned a fearful expression as he replied, “If it weren’t for the Hundred Treasures Realm’s Immortal Expert, I would have been finished. I used the energy of my Undead to power the spirit snake needles in order to block the first two attacks. I really didn’t expect the Immortal Stage to be this powerful.”

The last sentence was what Zhao Hai really thought deep inside. He truly didn’t expect the Immortal Expert to be this powerful. There was even a trace of domain in this attack.

Zhao Hai knew about laws before, but after comprehending the Immortal Expert’s qi, he discovered that it wasn’t just a law, but instead a comprehension of domain. At that time, he transformed himself into a mountain. Domains could increase someone’s offensive power.

Before reaching Transcending Tribulation, Zhao Hai didn’t think that the stage would be useful for himself. This was because his current strength was already on par with Severed Soul Experts.

But after going through his tribulation, Zhao Hai understood that the stage wasn’t so simple. It tempered one’s spiritual qi and removes impurities, making spiritual qi denser.

Because he practiced the Yin Yang Stellar Transformations Art, the density of Zhao Hai’s spiritual qi already far exceeded those on the same level. This was the reason why he can fight Severed Soul Experts while in the Nascent Soul Stage.

Zhao Hai thought that the tempering that was provided by the Transcending Tribulation Stage wouldn’t have any effect on him. Unexpectedly, although the tribulation lightning has been dissolved, its strength was absorbed by the faith power and added to Zhao Hai’s body. This immediately caused a transformation in Zhao Hai’s body. Needless to say, since Zhao Hai’s body was already formidable, there’s no longer any need to temper it.

Meanwhile, Zhao Hai’s spiritual qi was upgraded. Right now, Zhao Hai’s spiritual qi was 20 times denser than before. All of this was because the tribulation lightning has been absorbed by faith power.

When ordinary people undergo their tribulation, the tribulation lightning would become an aid to temper their spiritual qi. This type of tempering was very formidable, but also extremely painful. Because of this, plenty of people fail and perish during their tribulation.

Zhao Hai's situation was different. His faith power absorbed the tribulation lightning and then brought it directly to Zhao Hai's body, tempering it in the process. The power of the lightning has already been subdued by faith power, so it was no longer violent. This was the reason why Zhao Hai's spiritual qi became 20 times denser.

Besides a more condensed spiritual qi, Zhao Hai's qi also has the power of lightning. His offensive strength became even more powerful.

The power of the tribulation lightning was different from a domain. The lightning was an additive property to attacks. Because Zhao Hai's faith power absorbed the tribulation lightning, he can now extract its power and use it. This kind of lightning was yang lightning, a complete opposite of yin lightning.

The moment the Space extracted the yang lightning, it immediately tried combining it with the yin lightning. Now, Zhao Hai's Space has developed something called the lightning pool. This lightning pool looked like a yin-yang fish, but it spewed out lightning from time to time.

Once the lightning pool was created, the Space immediately gave a prompt informing Zhao Hai that the pools can be used to increase his combat power. The yin-yang pond in Zhao Hai's Hell King's Ship was now replaced by a lightning pond. Because it has formidable offensive strength, it was much better to use the lightning pond for the Hell King's Ship.

Chapter 1488: The Ten-thousand Realm Battlefield's Big Five

In the past, Zhao Hai thought about how to use the yin-yang pond into the other weapons that Liquid Silver can transform to. This way, his overall strength would increase.

However, since the yin-yang pond would need to shrink in order to fit these artifacts, its benefit would be affected. Therefore, Zhao Hai didn't do it.

But now Zhao Hai could do it because of the lightning pools. The lightning pool was different from the yin-yang pond. The yin-yang pond absorbs outside energy for utilization.

On the other hand, the lightning pool generated its own strength. The yin and yang lightning exist with each other, without beginning or end. They can naturally produce their own energy.

Zhao Hai installed lightning pools into all of his artifacts. Now, the strength of his magic artifacts has increased.

At this time, Cai'er was thinking about combining the lightning pool with the yin-yang pond. This way, the power of the lightning pools would increase.

After reaching the Transcending Tribulation Stage, Zhao Hai's spiritual qi became more condensed. He also has a new lightning attack along with a hint of a domain. Moreover, the two can be superimposed into each other.

The strength of the domain was very formidable. His new understanding about domains informed Zhao Hai how powerful Immortal Experts really were.

At the same time, it allowed Zhao Hai to understand the Immortal Stage even more. Although he just reached transcending tribulation, he now understood that in addition to their cultivation, Immortal Experts were also powerful due to their comprehension of domain.

People said that after reaching Transcending Tribulation, cultivation would be smooth sailing to the Severed Soul Stage and the Immortal Stage. There were no barriers between these realms. In fact, this wasn't true. There were stages between the Transcending Tribulation Stage and the Severed Soul Stage. However, the division wasn't as clear as the barrier between Nascent Soul and Transcending Tribulation. In order to reach the Severed Soul Stage, the hurdle was the severed soul.

From its name, severed soul means the division of one's divine soul. Making another soul from the original one. This carried a huge risk. If one's spiritual qi and spiritual force was insufficient, it would be impossible to reach the Severed Soul Stage. In a way, it was a barrier. Then another barrier appeared between the Severed Soul Stage and the Immortal Stage. This barrier was the comprehension of a domain.

Now that he entered the Transcending Tribulation Stage, because of the lightning pool and his minor understanding of domains, Zhao Hai was certain that if the Immortal Expert came back, the other party could no longer attack his body using their qi.

Despite that, Zhao Hai still admired the strength of the Immortal Stage Expert. The first two attacks that he received caused him to think about retreating to the Space. One could see how powerful they were from this.

Moreover, nobody can guarantee that this was the only ability of the Immortal Stage. Even with his Transcending Tribulation Stage, Zhao Hai still couldn't compete against Immortal Stage Experts.

Because he understood this point, Zhao Hai could say that Immortal Experts are extremely powerful.

Hearing Zhao Hai, Mu Yu couldn't help but laugh as he said, "Little Hai, you succeeded in going through your tribulation. With your aptitude, I'm certain that it wouldn't be difficult for you to enter the Severed Soul Stage. Then sooner or later, you will reach the Immortal Stage. There's no need to be anxious."

Zhao Hai smiled and said, "I'm not anxious. But now that the Giant Spirit Realm's Immortal Expert has made a move, other Immortal Experts will come out as well. If the other Immortal Experts of the Giant Spirit Realm make a move, then will the Hundred Treasures Realm have enough time to save us?"

Mu Yu stared, he didn't expect Zhao Hai to be worried about this. To be honest, he hasn't considered this issue before. Now that Zhao Hai brought it up, he couldn't help but think about it.

After thinking for a moment, Mu Yu replied, "Rest assured, we will make some preparations. Now that the Giant Spirit Realm's Immortal Expert has made a move, the Hundred Treasures Realm wouldn't be idle. They will find a way to deal with the Immortal Experts."

Zhao Hai nodded and said, "That would be best. But there's still no need to be afraid of a few Immortal Experts. I was able to block their attacks before reaching Transcending Tribulation. Now that I have become stronger, I should be able to hold off more attacks."

Hearing what Zhao Hai said, Mu Yu couldn't help but laugh. Then he patted Zhao Hai's shoulder as he said, "Kid, you're really reckless. That time, the Immortal Expert released a casual attack. Do you really think that you can block an attack with their full strength?"

Zhao Hai just smiled. At this time, a jade sword message stopped in front of Mu Yu.

Upon catching the sword, Mu Yu searched it using his spiritual force. Then his expression changed as he looked at Zhao Hai and said, "Little Hai, stop the ship."

Zhao Hai stared, then he quickly stopped the Hell King's Ship. He looked at Mu Yu and said, "Big Brother Mu, what happened?"

Mu Yu's expression was ugly as he said, "We can't go to the Imperial Spirit Sect in the meantime. Immortal Experts have stationed themselves there. They are also authorized to make a move if we attack."

Zhao Hai, Tang Jie, and Tang Wen stared. Then their expressions changed. Zhao Hai looked at Mu Yu and said, "Big Brother Mu, are you telling the truth? Immortal Experts can make a move? How is this possible? Do they want to cause chaos to the Ten-thousand Realm Battlefield?"

Mu Yu replied, "This is information that the realm just sent over. Those Giant Spirit Realm bastards asked the Fireweaver Race for help. With the Fireweaver Race on their side, they're confident in dealing with us. Therefore, Immortal Experts are now allowed to make a move. The realm is now trying to find a solution."

Zhao Hai knit his brows and said, "Fireweaver Race? What race is this? Are they very strong?"

Mu Yu's expression was ugly as he replied, "They're very strong. The Fireweaver Race is one of the strongest groups of people in the Ten-thousand Realm Battlefield. Little Hai, you've just come to the battlefield recently, so you don't have much understanding about the people here. Although the World of Cultivation has some materials about the Ten-thousand Realm Battlefield, it is still a medium-grade realm in the end. There's still plenty of things that they don't know." After he said this, Mu Yu let out a long breath.

Tang Jie and Tang Wen's expressions weren't great either. However, they didn't make any noise. Mu Yu continued, "In the Ten-thousand Realm Battlefield, high-grade realms are seen as powerful and prestigious. Actually, high-grade realms are also classified into groups. The Hundred Treasures Realm and the Giant Spirit Realm can only be classified into medium-level high-grade realms. As for those at the high-level, there are only five. There's the Primal Chaos Realm, the Fireweave Realm, The Sword Realm, the Buddhist Realm, and the Divergent Realm."

Mu Yu sighed and said, "These five powers are the strongest groups in the Ten-thousand Realm Battlefield. Nobody dares to touch their territories. They had large swathes of land as well as innumerable subordinates. But lower-grade realms under them don't get in contact with them most of the time. These realms just live inside these five realms' territory. This is the reason why only a few people are aware of their existence."

"Of the five realms, the Primal Chaos Realm is the most complex and also the most mysterious. They rarely come in contact with others. One could identify their people in just a glance. People from the Primal Chaos Realm always have some mutation in their bodies, like a tentacle for a hand. Not only could these mutations elongate and shorten, it's also very powerful and can be used as weapons. There's also people whose feet are different, along with other parts of their bodies. However, these mutations only happen in the men of the realm. Women of the Primal Chaos Realm were generally mages that use special staffs that are connected to their spatial items. Once they cast their spells, potions from their spatial items would aid to reinforce the spell. Their offensive strength is formidable. Once one enters the Primal Chaos Realm, it would be very hard for them to survive."

"As for the Fireweaver Race, they're also known as the Hunter Race in the Ten-thousand Realm Battlefield. They carry rifles along with them and also have at least two beasts that they tamed. Their rifles aren't like the usual rifles that we see. These rifles can launch powerful qi attacks for long-range. Additionally, their tamed beasts not only help them during battle, they can also track people. The Fireweaver Race can also borrow the strength of their beasts in order to increase their own strength."

"The Divergent Realm consists of people with divergent abilities. They had all kinds of abilities just like Little Hai's spatial ability or material reconstruction ability. These people are very proficient in using their divergent abilities. They're the most difficult to deal with."

"There's nothing more to say about the Sword Realm. They're all sword cultivators. Some rumors even state that all the sword cultivation methods present in the Ten-thousand Realm Battlefield come from the Sword Realm. However, these sword cultivation methods are inferior ones compared to the methods used by the Sword Realm. The Sword Realm's true cultivation methods cannot be learned by an outsider. And even if someone did, they would be hunted down by the realm."

“The Buddhist realm is almost like the Sword Realm. Everyone there practices Buddhist Methods. Most importantly, the Buddhist Realm specialize in faith power. Their methods use a lot of faith power, but they also provide a large boost in strength.”

Hearing Mu Yu, Zhao Hai’s eyes shrank. This was the first time he heard about faith power techniques from other people. Moreover, there’s a Buddhist Realm that has Buddhists that practice these techniques. Zhao Hai couldn’t help but think about his 18 Arhat Techniques.

At this time, Mu Yu continued, “Nobody knows about the relationship between these five realms. However, these realms rarely participate in any conflicts. The Giant Spirit Realm pulling the Fireweaver Race to their side isn’t good news. With the Fireweaver Race in the mix, things have become more complicated. Let’s return to the Octopus Islands first and wait for orders.”

Zhao Hai didn’t ask anything as he nodded and turned the ship’s direction towards the Octopus Islands. Meanwhile, Mu Yu went to the cabins and informed everyone about the situation. Naturally, Mu Yu would tell them about the Fireweaver Race. Only very few people from lower-grade realms know about the Fireweaver Race, so it was useless to tell them. Mu Yu just informed everyone that the situation has changed and that they need to return to the Octopus Islands.

Although they felt that it was strange, everyone didn’t say anything. To them, returning to the Octopus Islands was good news. It was much better than going to the Imperial Spirit Sect to fight. However, some people began to ponder about the matter. They felt that the situation wasn’t as simple as Mu Yu made it out to be, but they still didn’t open their mouths.

After telling everyone the news, Mu Yu returned to the top of the pagoda. His expression was still gloomy. Zhao Hai looked at Mu Yu and said, “Big Brother Mu, does the Hundred Treasures Realm have no connections to the Five Realms?”

Actually, Zhao Hai’s question was a probe. He guessed that the Hundred Treasures Realm’s conflict with the Giant Spirit Realm was instigated by someone else. He wanted to know which of the five it was.

Disappointingly, Mu Yu shook his head and said, “We don’t. Our Hundred Treasures Realm don’t have any connections with the Five Realms. It’s precisely because of this that the realm made us go back. The Fireweaver Race isn’t just any high-grade realm. The rules for the Immortal Stage don’t apply to them. This is the reason why the Giant Spirit Realm is allowed to use their Immortal Experts. The jade sword

message revealed that the Immortal Expert who attacked you has been killed by our Immortal Expert. Because of this, the Fireweaver Race began to appear. Now, the Hundred Treasures Realm is trying to solve this problem. This is the best opportunity for the Hundred Treasures Realm, and we're not prepared to let it go."

Zhao Hai knew what opportunity Mu Yu was talking about. This is the opportune moment for the Hundred Treasures Realm to get rid of the Giant Spirit Realm. If they missed this opportunity, the Giant Spirit Realm would be able to recover and the stalemate between the two realms would continue. The Hundred Treasures Realm doesn't want this to happen. They had prepared for a long time, so they didn't want to give this chance up. The Giant Spirit Realm wouldn't make the same mistake twice!

Chapter 1489: Revealing Cards

The grudge between the Hundred Treasures Realm and the Giant Spirit Realm run deep. Their conflict has been going on for a millenia. Most grudges would sizzle out throughout that period of time. It has been too long, and the Hundred Treasures Realm has paid too much. Now that they have forced the Giant Spirit Realm into a dead end, how can they just cower before the Fireweaver Race and retreat?

The Fireweaver Race was a strong group even compared to the Hundred Treasures Realm. However, the Hundred Treasures Realm's hatred towards the Giant Spirit Realm was much bigger than their fear.

The Hell King's Ship returned to the Octopus Islands. Once they arrived, Mu Yu told everyone to take a rest. Then he led Tang Jie, Tang Wen, and Zhao Hai towards his residence.

Once the group had sat down, Mu Yu gloomily said, "Our Hundred Treasures Realm doesn't have a backer like the Fireweaver Race. I didn't expect the Giant Spirit Realm to use this card."

Zhao Hai frowned and said, "Big Brother Mu, go back and inquire about the situation. With us here, defending the island wouldn't be a problem."

Hearing Zhao Hai, Mu Yu stared for a moment before he nodded, "Right, I should go back and see what we can do. If we just retreat, then it would be a huge blow to the subordinate realms. Moreover, all of our previous efforts would be wasted."

Zhao Hai replied, "Big Brother Mu can go back. I'll guarantee that no matter who comes over, the Octopus Islands will be ours. Even if they manage to steal the island, I'll take care of the people we have here."

Hearing Zhao Hai, Mu Yu couldn't help but stare. Then he asked, "Little Hai, did you discover something?"

Zhao Hai bitterly smiled, he didn't expect Mu Yu to see through his words. He nodded and said, "It seems like people from the Fireweaver Race has reached the Imperial Spirit Sect."

Mu Yu couldn't help but stare, then his complexion changed as he said, "Are you sure? If that's the case, then the Giant Spirit Realm will certainly come over to attack. This time, the Fireweaver Race will be involved. This is becoming a huge problem."

Zhao Hai replied, "Big Brother Mu, you need to head back. Leave this place to us. The Octopus Islands have 60 thousand people. We should be able to hold on for some time. What's most important right now is to deal with the Fireweaver Race. If we can't deal with them, then we'll have to retreat."

Mu Yu nodded, he sighed and said, "The problem is that we don't even know what the Giant Spirit Realm offered to the Fireweaver Race. It's difficult to have the Fireweaver Race exit this war. I think the realm would find one of the five to be allied with. But in this case, we wouldn't have enough time to deal with the Giant Spirit Realm."

Mu Yu's emotions were very heavy, but he has calmed down now. He knew that the presence of the Fireweaver Race has made the situation more complicated.

The Fireweaver Race weren't known to be charitable. They certainly received benefits in order to participate in this war. Without this, they simply wouldn't make a move. These powerful realms were innately greedy. Mu Yu was a key person trained by the Hundred Treasures Realm, so he knew things regarding these realms. The reason these five realms don't reveal themselves in the Ten-thousand Realm Battlefield was because they were surrounded by realms like the Hundred Treasures Realm and the Giant Spirit Realm.

Although the Hundred Treasures Realm and the Giant Spirit Realm were bitter enemies and wanted to get rid of each other, things became different when it came to these five realms. These five realms

shouldn't participate in any battles in the battlefield. Otherwise, sooner or later the realm would be divided amongst the five of them.

Therefore, the other high-grade realms reached an agreement. As long as one of the five realms interfere, then the other high-grade realms would work against them.

But the situation now became different. This time, the Giant Spirit Realm asked the Fireweaver Race to come. Otherwise, the Fireweaver Race wouldn't have arrived lest they incur the anger of the other realms.

As long as it was the Giant Spirit Realm that asked for help, then the Fireweaver Race can use this as a pretext to participate in the battle. This was a troublesome matter. This meant that the Giant Spirit Realm had let a wolf into their house.

When he thought of this, Mu Yu couldn't help but grit his teeth in anger. Those idiots from the Giant Spirit Realm didn't know what they just did. Now that the Fireweaver Realm has come out, it wouldn't be long before the Giant Spirit Realm gets swallowed.

Mu Yu didn't hide the truth from Zhao Hai and the others and told them about this matter. Upon hearing this, Zhao Hai's eyes shone as he said, "Big Brother Mu, if that's the case, then things would be easier. Since the Fireweaver Race inserted themselves into this battle, we can call upon the other high-grade realms for help. This would not only increase the enemies of the Giant Spirit Realm, we can also teach the Fireweaver Race a lesson. They need to learn that they cannot just insert their claws wherever they want."

When he heard Zhao Hai, Mu Yu froze for a moment. Then his eyes lit up. He forgot about this. He nodded and said, "Good. Then I'll leave things here to you. Little Jie, Little Wen, although you're good commanders, you still fall short compared to Little Hai. I'll leave the Octopus Islands to him while you two help him manage things. Remember, this matter is important for the Hundred Treasures Realm."

Tang Jie and Tang Wen had no objections. The two had already spent some time with Zhao Hai. Naturally, they know Zhao Hai's skill. Hearing Mu Yu, Tang Jie smiled faintly and said, "Big Brother Mu, don't worry. I'll help Little Hai. Nothing will go wrong here. But Big Brother Mu needs to find a solution as soon as possible. I reckon the Fireweaver Race would want to attack us as soon as possible. As long as we hold them back, our discussion with the other high-grade realms and even the rest of the Five Great Realms might become easier."

Mu Yu nodded then he stood up and said, "Little Hai, we can't lose the Octopus Islands. I don't care what other trump cards you have, but you need to hold the island. If I find out that you're still holding back, let's see how I deal with you."

Zhao Hai stared, then he smiled faintly and said, "It seems like things won't work out this time if I don't work hard a bit. Big Brother Mu, don't worry. I'll make sure to keep the Octopus Islands before you come back." Mu Yu nodded then turned around and left. The three sent Mu Yu off at the transmission formation before returning to Tang Jie's residence.

After entering the residence, Tang Jie turned to Zhao Hai and said, "Little Hai, what do you plan to do right now?"

Zhao Hai smiled faintly and said, "Brother Tang, let's call the commanders of the subordinates first and tell them about the situation and make some arrangements. I think the Fireweaver Race will arrive in a couple of days."

Tang Jie stared, his expression changed as he asked, "They're coming?"

Zhao Hai nodded and said, "They're coming. There's two thousand Fireweavers along with 30 thousand subordinates. With the Giant Spirit Realm and its 60 thousand subordinates, the total number of people coming over is over 90 thousand."

Tang Jie's expression became difficult as he said, "How many people do we have right now?" They suffered losses in the last battle, and some people were also injured. These injuries were quite major, making the afflicted unable to fight.

Zhao Hai replied, "We have about 58 thousand people. Five thousand of which are from the Hundred Treasures Realm."

Tang Jie's brows turned tighter. He discovered that things had taken a huge turn. Although they had never been defeated, once they were, the Hundred Treasures Realm would be in danger.

Thinking of this, Tang Jie couldn't help but look at Zhao Hai and ask, "Little Hai, what do you think we should do?"

Zhao Hai replied, "We defend. Put all of our power in defending. As long as we keep the Octopus Islands, we win. We need to let the others see that the Fireweaver Race isn't to be feared. They can also be defeated."

Tang Jie nodded and said, "Alright. Little Wen, immediately call every commander here." Tang Wennodded, then he took off to call everyone over.

After Tang Jie and Zhao Hai sat down, Tang Jie sighed and said, "I haven't seen someone from the Fireweave Race before, but I heard about them. They have three main methods of attack, their tamed beasts, their rifles, and their fire techniques. They are called Fireweavers because of their innate ability to control fire. Their control over fire is so terrifying that they can form fire into a solid thread and weave it into a net. This is also the origin of their Fireweaver name. In addition to their control over fire, their rifles are also terrifying. Their rifles might look ordinary, but they are inscribed with formations. Most artifacts would be destroyed by these rifles. As long as it hits someone, the target's body would immediately burn. No matter what method is used, it would be impossible to put out the fire. Even Severed Soul Experts cannot save themselves. Then there's their tamed beasts. They had been trained since they were young. The Fireweaver Race seem to have pills that can make their beasts stronger without turning them into Demons. Any one of these three attacking methods is a headache to deal with, let alone all three of them at once."

Zhao Hai nodded, "The Fireweavers didn't bring any large artifacts this time. However, they have an enormous beast that can contend with large artifacts. It would be hard to deal with them. It seems like we can only use the fake spirit snake needles to deal with them."

Tang Jie replied, "The fake spirit snake needles? But we only have very few. What do we do?"

Zhao Hai smiled faintly and said, "This time, I won't let everyone go out on their own. I want everyone to be inside the Hell King's Ship, the Pagoda, and the Giant Spirit Treasure Ship. With the defensive strength of these three artifacts, we should be able to protect ourselves. Then we can slowly deal with the attackers."

Zhu Gufeng stood on the back of his Jade Flame Toad. He looked in front as his eyes couldn't hide his excitement. He had no reason to be unhappy. After all, they were the vanguard sent out by the Fireweaver Race.

The Fireweavers, like other realms, always wanted to conquer other territories in the Ten-thousand Realm Battlefield. But because of the contradictions between the five realms, they weren't able to work together. They also couldn't stop the combined force of the other lower-grade realms. In the end, they can only look at the big fat meat that is the Ten-thousand Realm Battlefield and drool. They couldn't do anything.

They didn't expect the Giant Spirit Realm to look for them for help. And they even promised half their territory just so that the Fireweaver Race could eradicate the Hundred Treasures Realm. Moreover, after dealing with the Hundred Treasures Realm, the Fireweaver Race would get all of the spoils of war.

Actually, the Giant Spirit Realm doesn't need to give them all these things. This was because the Giant Spirit Realm has already given the Fireweaver Race their most important possession. The territory agreement was just an excuse.

They wanted to make a move on the other territories in the Ten-thousand Realm Battlefield before, but realms like the Hundred Treasures Realm and the Giant Spirit Realm, which were quite strong, were united against them. If they send troops, these realms would unite and push them back. They need a pretext to attack. However, this excuse wasn't easy to find.

This time, they didn't expect things to take a favorable turn. The Giant Spirit Realm basically invited them into the Ten-thousand Realm Battlefield. Moreover, they even handed over a bunch of benefits. This allowed them to send their troops and annex territories.

The Five Realms always called their territories the 'Great Lands' while the territories outside the 'Land of Chaos'. They always thought that the other realms couldn't control their own territories, that was why they had been fighting all these years. The Five Realms were much more peaceful compared to the other realms. Thus the name 'The Great Lands'.

Annexing the 'Land of Chaos' was the dream of the Five Realms. However, doing so wasn't easy. The Five Realms weren't peaceful with each other and had small conflicts between themselves. None of them could make a large move without the others interfering.

Since the Five Realms couldn't just conquer each others' territories, their goal was the 'Land of Chaos'. In their opinion, it was the best place to expand. However, the Giant Spirit Race, the Hundred Treasures Realm, and all other realms wouldn't allow them. Once these realms unite, even the Five Great Realms together couldn't stop them. But at the same time, these realms were killing each other. Unless they were pushed into a corner, they wouldn't unite. Therefore, the Five Realms behaved themselves and waited for any opportunity.

Now, this equilibrium has vanished, and it was broken by the other realms! When he thought of this, Zhu Gufeng couldn't help but feel a burst of excitement. The blood in his body was boiling.

His Jade Flame Toad probably felt his emotions as it opened its mouth and roared. Zhu Gufeng couldn't help but smile as he sat down. He touched the head of the toad as he chuckled and said, "Old Fellow, you're excited too? This rare achievement will be in our hands."

The Jade Flame Toad roared once more as though responding to him. Zhu Gufeng couldn't help but laugh. He raised this Jade Flame toad ever since he was a child. He spent a lot of effort in order to nurture it. The Jade Flame Toad was a fire-attribute beast. Once it reached adulthood, its body length would exceed 20 meters. Its skin was like red jade and its eyes were like fine sapphire. It could also fly incredibly fast.

Just as Zhu Gufeng was laughing loudly, an eagle's cry could be heard above him. Zhu Gufeng looked up and saw a huge golden eagle with a wingspan of over a hundred meters. Zhu Gufeng smiled and said, "You're also excited? Hahaha. Don't waste your energy now, we still have to play later."

This golden eagle was also something he raised. It was named Goldfeather Thunderhawk. Its defensive strength was formidable. It has a body length of 30 meters and a wingspan of over 100 meters. It had a hooked beak and two sharp red talons. One could see how extraordinary it was.

This Goldfeather Thunderhawk can fly extremely fast. And with its lightning-attribute, its offensive strength isn't ordinary. A grown-up Goldfeather Thunderhawk can reach Transcending Tribulation-level strength. However, Goldfeather Thunderhawks raised by the Fireweaver Race can resist attacks from Severed Soul Experts.

Zhu Gufeng was wearing a robe that resembled a buddhist's. He had a scarf on his head and strips of cloth on his body. He wore leather boots and had two golden chains across his chest. He carried his spear on his back. The spear was more than a meter long and had a wooden handle. It looked like an old-fashioned spear.

Behind Zhu Gufeng were people with the same outfit as him. Some of these people stood on top of their tamed beasts, some rode on them, and some flew side by side. They looked like an army of men and beasts.

And further behind were two Giant Spirit Treasure Ships. Alongside it were numerous flying cultivators.

Ba Tu stood on the Giant Spirit Ship as he looked at the Fireweavers flaunting their strength. His heart couldn't help but feel bitter and unwilling. He knew how easy it was to bring the Fireweavers out. The real problem was how to make them return.

The Fireweaver Race was known to covet the lands of others. Ba Tu also knew how greedy the Five Realms were. It was precisely because of this that he thought badly about inviting the Fireweavers. This was practically inviting a wolf into their home.

Ba Tu also understood why the Giant Spirit Realm did this. They had been forced into a corner by the Hundred Treasures Realm. Now, the Giant Spirit Realm is unable to control their subordinate realms. If things went on like this, then those subordinates would certainly rebel and attack the Giant Spirit realm. And with the attack of the Hundred Treasures Realm, the Giant Spirit Realm would be finished.

Those old fogies certainly understood the situation. Therefore, they invited the Fireweaver Race over. To put it bluntly, the Giant Spirit Realm wanted to take everyone down with them.

For the Giant Spirit Realm, inviting the Fireweavers and giving away their lands was practically suicide. Right now, the Fireweavers still need the Giant Spirit Realm to give them an excuse to go out. But once the Hundred Treasures Realm has been dealt with, the Giant Spirit Realm would be the ones suffering next. But for the Giant Spirit Realm, they were already satisfied if they could see the Hundred Treasures Realm perish before their eyes!

Hatred can make people patient. Similarly, hatred can also cause people to go crazy and do stupid decisions. The Giant Spirit Realm was now making a stupid decision.

Zhao Hai was now calmly sitting inside his residence. They had already made the situation clear to the people from the subordinate realms. Although they didn't know about the Fireweaver Race, they also

knew that the enemy would be hard to deal with. Would someone that made the Hundred Treasures Realm retreat easy to deal with? Certainly not.

The Octopus Island was now making its arrangements. Everyone needs to be at their peak when the battle happens. It was already planned that they would settle themselves inside the Hell King's Ship, Giant Spirit Treasure Ship, and the Pagoda. All of these artifacts belonged to Zhao Hai.

Zhao Hai and Tang Jie planned to meet the other party head on. However, everyone needs to stay inside the three large artifacts. Nobody was allowed to venture out on their own.

Although these people didn't understand why Zhao Hai did this, they didn't say anything. On the contrary, they were happy to stay in the Hell King's Ship. This meant that only the large artifacts would get in contact with the enemies and they wouldn't need to defend themselves. Large artifacts were much more defensive compared to other artifacts.

Despite staying in his residence, Zhao Hai was actually waiting for Cai'er to integrate the yin-yang pond to the lightning pool in order to form the yin-yang lightning pool. This yin-yang lightning pool couldn't only absorb energy from outside, it could also make its own energy. It could also transform the energy it produced into lightning energy and release it. It was now much more formidable than before.

As long as the yin-yang lightning pool was made, Zhao Hai would immediately install them into his large artifacts to prepare for the incoming attack. This was because the Fireweavers and the Giant Spirit Realm were now quite close to the Octopus Islands.

After one hour, Zhao Hai opened his eyes. His face couldn't hide his flee. Finally, yin-yang lighting pools have been installed into his large artifacts. Not only would this enhance the large artifacts' abilities, it could also improve their defense.

Moreover, the yin-yang lightning pool can be used on smaller artifacts, even liquid silver's needle. With the yin-yang lightning pool, the silver needles are now much more potent. But in the end, the larger the yin-yang lightning pool, the bigger benefits it could bestow. So larger artifacts benefited more from them.

At this time, Zhao Hai was thinking of visiting the Primal Chaos Realm. This was because the realm has something that's very attractive to him. It had something to do with the Space.

Zhao Hai remembered Mu Yu's introduction of the Primal Chaos Realm. The women from the Primal Chaos Realm were mages whose staffs can directly connect to their spatial equipment. This allows them to use potions that could improve their spells. Inside their spatial equipment should be a large supply of potions. Otherwise, they wouldn't be able to use it for battle. What Zhao Hai wanted was the technology used by these people in order to have this kind of access into their spatial equipment.

This technology might not look special at first glance, but when you think about it deeper, it becomes more complicated. The space inside spatial equipment is an expanded space. If one makes a direct connection to it that's open all the time, then this connection will be broken by the discrepancy between the inside and outside space. Being able to access the space inside the equipment all the time was something that Zhao Hai wanted.
