

Another World 841

Chapter 841 - Right to Speak!

In fact, when the Divines were subjugating the Goblins, they having quite the trouble. Although the Goblins didn't focus their research on weapons, they still had their magic cannons and magic armors. The power of both of those were extraordinary.

The Divines were completely terrified about those two things. They believed that if they made the Goblins continue to develop then they would sooner or later reach a dominant status compared to the Divine Race. Because of this, the Divines decided to eliminate the Goblins and prevent them from continuing on with their research.

The magic cannons were left to the Divine Race, of which they used to conquer various other planes.

The Divine Race also thought about researching the metal armors to improve their overall strength. However, the metal golems were just too complex. The Goblins used a lot of secret techniques in order to manufacture them, and those secrets couldn't be acquired by the Divine Race. In the end, the Divines did their best to stop those things from being made. After all, the iron golems were able to kill a lot of Divine Race soldiers.

Fei'er and the others didn't know about any of these. In the Divine Realm, the battle against the Divines and the Goblins were minimally recorded. Fei'er only saw a broken metal armor, but although it was broken, it still left a very deep impression on him.

Now that Fei'er heard that Atlanta Continent's magic armors were more advanced than the ones made by the Goblins, he couldn't help but stare. After some time, his complexion turned ugly as he said, "Mister, are you telling the truth?"

Zhao Hai smiled faintly and said, "How could I lie about this matter. Right, I have some kind of magic. I learned it from the Fishman Race. It allows me to save what I had seen before. Take a look." Then he waved his hand and showed the scene with Axe.

The big metal armor made Fei'er and the others gasp. Only when Axe's armor transformed into an aircraft and left Blazing Island did they manage to recover. But it still took them a long time before a word went out of their mouths.

Zhao Hai retrieved the monitor before he looked the three and said, "Those are the flying magic armors of the Atlanta Continent. Before I arrived, they already eliminated magic beasts and flame demons of Blazing Island. Moreover, it only took them a short time to do so."

Fei'er looked confused at Zhao Hai as he asked, "Mister, how did you know that they have arrived in the Ark Continent?"

Upon hearing Fei'er, Zhao Hai couldn't help but smile, "Everybody wonders how I am able to know what happens in the Ark Continent. Let me tell you in simple words. I have scouts all throughout the continent. Almost all of the continent is under my watch."

Fei'er didn't say anything, he believed Zhao Hai's words. When Zhao Hai was fighting against the Divine Race, he was always a step ahead. If Zhao Hai didn't have his eyes on the continent, that feat would've been impossible.

Zhao Hai looked at Fei'er and said, "But me discovering them only came due to an accident. At that time I wanted to sneak an attack against the Radiant Empire. Since you were entangled at Accra Mountain, I encircled all around to attack the south of the Empire. It was then that I managed to see them."

Fei'er and the others didn't doubt this point. After they came here, they found out that the Radiant Empire has already been destroyed. Moreover the damage seemed to come from the southeast then headed northwest. It wouldn't be strange if Zhao Hai met the people from the Atlanta Plane at that time.

Barbarian Shan looked at Zhao Hai and said, "Is mister confident in blocking the attack from the Atlanta Continent?"

Zhao Hai smiled faintly and said, "I've already considered this point. Don't forget, there's a strange and dangerous enemy currently in the Ark Continent. The Underworld!"

The Divine Race only understood about half of the underworld. Just as Zhao Hai said, the underworld was too strange. Even the Divine Race wouldn't dare open a spatial rift towards the underworld since they didn't have a full grasp of its properties.

It was because of this mystery that it was deemed dangerous. Fei'er and the others nodded, they also understood what Zhao Hai said. Now that the underworld's spatial rift has been opened, its creatures would surely reach the center of the Ark Continent. Once the Atlanta Plane decided to conquer the Ark Continent, they would surely come into conflict with the Underworld. At that time, the Atlanta Plane would have no time attack Zhao Hai's group.

After hearing this, Fei'er and the others relaxed. However, their expression suddenly changed, they remembered that the Underworld affected them as well.

The Underworld being in the Ark Continent meant that the underworld creatures would surely reach the spatial rift. When the time comes, they would be able to reach the Divine Realm. If they were to overrun the Divine Realm, then that would be extremely troublesome.

Zhao Hai looked at their expressions and immediately knew what they were thinking. Zhao Hai smiled faintly and said, "You don't have to worry, they won't reach us for some time. We'll deal with the Divine Race first. Even if we can't finish it, we can still use the Taurus Continent as a battlefield. Additionally, we can also find ways to close the spatial rifts of your own planes. You can't do it before because of the Divines, but now nobody will be able to stop it."

Fei'er and the others thought that Zhao Hai's idea was reasonable. In the past, the Divine Race were stopping them from closing the spatial rift. But now they weren't under the Divine Race's control anymore. As long as the Taurus Divines were dealt with, who would be able to stop them?

Fei'er nodded and said, "That's true. So it looks like dealing with the Divine Race is our foremost goal. Mister, will we be attacking tomorrow?"

Zhao Hai nodded, "It would be best if we do our attack tomorrow. Moreover, I'll tell you that the Demons already had a prior meeting with the underworld. A spatial rift appeared in the Demon Realm that was connected to the Underworld. In the end, they were able to seal that rift. So as long as we buy enough time, we should be able to seal the spatial rift here. You don't have to worry about it."

Fei'er and the others felt their hearts loosen. Then Fei'er looked at Zhao Hai and said, "Then we'll prepare for the attack tomorrow. Right, Mister, can we have some liquor? Our people have been stressed all this time. They needed to some liquor to aid their weariness."

Zhao Hai nodded and said, "That is not a problem. I'll have some people send it later. But don't drink too much, we don't want to affect your performance tomorrow." Fei'er immediately nodded.

Zhao Hai discussed further details about tomorrow's attack before taking his leave. While Zhao Hai left, Fei'er and the others remained inside the hall. Shan turned to Fei'er and said, "Fei'er, do you think that mister Zhao Hai's words are true?"

Fei'er nodded, "They're true. Actually, he only told that in order to tell us that the attack on the Divine Race isn't only about revenge. He needed a chance to bind them so that he can deal with the underworld."

Yue nodded, "That would be good. Mister Zhao Hai's strength is formidable. If he can face the Divine Race, then we would be more confident in defeating them as well."

At this time, Fei'er's tone turned serious, "However, we can't count on Mister Zhao Hai at all times. We need to make him understand that our three races aren't worse than him. Otherwise, we'll lose any courage to look at mister in the eye."

Shan and Yue weren't fools, they immediately understood what Fei'er meant. Therefore, both of them nodded.

To put it bluntly, although Zhao Hai was their ally in dealing with a common enemy, their alliance was actually quite frail. There was small resentment between them so who knows if Zhao Hai would use some plot to deal with them in the future. Because of this, they needed to keep their right to speech in this alliance. Otherwise, the only ones to suffer losses would be them.

Fei'er looked at the two and said, "Alright, let's go back and prepare. Tomorrow, we need to fight against the Divines. It's best if we combine our three armies, otherwise we'll look weak in comparison to mister Zhao Hai."

The two nodded, then after exchanging a few more words they dispersed.

After Zhao Hai returned to the Space, he immediately arranged his undead to deliver some liquor to Fei'er and the others. Zhao Hai didn't spy on Fei'er and the others since he knew that they would make

the right choice. This alliance could only bring benefits, especially to the three races. It would be a stupid idea to separate from it.

At this time, Zhao Hai was focused on the Atlanta Plane's situation. After two days of observation, he came to know that the Atlanta Plane didn't have any countries. Also, he came to know that Axe's family is called the O'Neal Family.

Axe's status in his family wasn't low, so this allowed him to listen to the things discussed by the family. This was quite fortunate for Zhao Hai because he would also be able to listen to the O'Neal family's discussions. Upon eavesdropping, Zhao Hai was also able to gauge the strength of the family.

However, when the family discussed about their magic armors, Zhao Hai was like a duck listening to thunder and lightning. He was completely clueless regarding what they were talking about.

Although he couldn't find out about the power of those magic armors, Zhao Hai could still understand some of the words of the family. It seems like the family's magic armors were no less than 100 thousand, this wasn't a small amount.

Imagine having a battle on Earth involving 100 thousand tanks. What scene would that show? Now replace those tanks with mechas.

However, if the O'Neal family were to attack the Ark Continent, they wouldn't be able to do it in a day or two. They still need some time to move and prepare their magic armors. Also, the O'Neal family doesn't want to inform the other families about the newly appeared spatial rift. It can be said that they wanted to take the whole continent for themselves. Because of this, the preparation needed for the task would take a bit longer. It might take a few months or so before they are finished.

Naturally, the O'Neal family wouldn't just do nothing. At the very least, they had already located the spatial rift and placed a thousand magic armor soldiers to watch over it. This way, even if the Ark Continent were to find out, they would have no way of closing it down.

For the O'Neal family's approach, Zhao Hai didn't intend to stop it. He just wanted the O'Neal family to attack the Continent so that he can acquire some magic armors and give them to the Goblins to study. At this time, Zhao Hai had sent some literate undead to the Goblins in order to teach them. And it seems like the Goblins were learning very fast.

Zhao Hai was now able to make sense about why the heads of the Goblins were too big. It seems like it had something to do with their learning and thinking capacity.

The living materials acquired from the Radiant Empire have also been given to the Goblins, besides the ones being provided to the Demons. Although they were old items, the Goblins were still very happy to get them.

While looking at the Goblins' expressions, Zhao Hai couldn't help but think about the initial expression that his slaves had. When the slaves received their first belongings, they also had the same reaction.

Although the slaves' lives had been improved in Haven Island, you can only see few slaves wearing gold and silver. This was because their pursuit wasn't based on riches. Instead, they were coming after their ability. Even if they had no talent in magic or battle qi, the slaves were still working hard on their craft.

The reason why the slaves were doing this was because in their heart, Zhao Hai the most importance. They knew that the greater their ability, the greater help they could provide Zhao Hai. Because of this, they made sure to focus on improving themselves every day. This action touched Zhao Hai's heart.

Zhao Hai was now hoping that the Goblins would become the same as the slaves. He believed that once the Goblins regain their previous vigor, they would be able to make even more powerful magic armors.

After thinking about those magic armors, Zhao Hai couldn't help but get the urge to understand why the Divines decided to destroy the Goblin civilization. Because of this, Zhao Hai summoned a high ranking Divine Race general. He wanted to get the exact details as to why the Divines decided to eliminate the Goblins.

This general has been transformed by Zhao Hai into an advanced undead specifically to provide intel regarding the Divine Race. However, since he has been quite busy, Zhao Hai was never able to ask things in detail.

Chapter 842 - Secret

Zhao Hai sat there silently in the living room. He had just listened to the undead general about the reason why the Divine Race decided to eliminate the Goblins. Initially, Zhao Hai thought that the Divines

were scared of the Goblins' technology so they decided to destroy their civilization before everything gets out of hand.

However, after listening to the explanation, Zhao Hai discovered that things weren't as simple as he imagined. The Divine Race destroyed the Goblins not only because of the technology, but also because they were asked to do so by Lu Wei.

Lu Wei usually gave the Divines an order through the shadows. Every few days or so, the Divines would make a report to Lu Wei, telling him about the events happening in the Divine Realm.

The Divine Race's destruction of the Goblins happened nearly a thousand years ago. At that time, Lu Wei's appearance was the same as his appearance when Zhao Hai saw him. Because of this, the Divines thought that Lu Wei must have been god.

Eliminating the Goblins was an order given by Lu Wei himself. At that time, the Goblins had just started to make their iron golems. Naturally, the Divine Race had heard about this and reported it to Lu Wei.

After hearing the report, Lu Wei actually paid great attention to it and immediately ordered the Divine Race to destroy the Goblins at all cost, and they weren't allowed to develop their technology in the future. Since the Divines also felt threatened by the iron golems, they immediately agreed. It was precisely because of these two reasons that the Goblin civilization was suddenly destroyed, all inheritances were cut off.

This thing might seem like nothing special, however, in Zhao Hai's mind, it felt somewhat strange.

It was impossible for the Goblins to know about the existence of Lu Wei, he didn't appear before the Goblins before. So why did he immediately order the destruction of the Goblin civilization once they made their iron golems? This was too unusual.

There was another thing that confused Zhao Hai. If Lu Wei was really opposed to these magical constructs, then how could the existence of the Atlanta Plane be explained? Their mechas were more advanced than the iron golems made by the Goblins. So why did Lu Wei allow the Atlanta Plane to prosper with their magic armors while he destroyed the Goblins for making iron golems? Something was definitely not right.

Laura and the others were also confused as they all frowned. They were smart people so they were able to notice this peculiarity.

Laura suddenly opened her mouth and said, "Brother Hai, maybe Lu Wei suffered a loss from these iron golems before. And because of this, he didn't want the goblins to make their own."

Zhao Hai shook his head and said, "That shouldn't be the reason. If Lu Wei had really suffered a loss against those magic constructs, he shouldn't have stopped the Goblins from making them. Instead, he would have just studied them to find some weak point that he could exploit in the future. Moreover, why would the Atlanta Plane have magic armors while the Divine Race didn't? Isn't that a little too strange?"

Laura and the others nodded, they were truly confused about this. Zhao Hai looked at the monitor and said, "Perhaps we can only find out once we reach the Immortal Cultivation Realm. We're just wasting time thinking about it right now."

Laura nodded, "Then Brother Hai should take a rest. Tomorrow, we still need to attack the Divine Race's defensive line."

Zhao Hai nodded and said, "It looks like we need to use the Domain Weapon tomorrow. We need to deal with the Divine Race in the shortest time. We don't want them to have an opportunity to fight back."

Laura agreed, "Right, but it won't be very easy. The Divine Race would be prepared for our javelins, magic cannons, and formations. Dealing with them using the same methods would be a challenge."

Zhao Hai smiled faintly and said, "I know what to do. Besides, with our current strength, I doubt they would be able to resist. Nothing will go wrong, you can rest assured."

The rest of the day quickly passed. The next day, Zhao Hai woke up early then he called the Demon Dragon King to lead the Devil Legion. He also took his undead out before he met Fei'er and the others. This enormous party then started to go towards the Divine Race's defensive line.

After the alliance gathered, the Divine Race immediately sounded their horns. It didn't take long before the defensive line started to move.

Zhao Hai didn't even think about these defending people. He knew that it would be impossible for them to stop the alliance army's advance.

Zhao Hai had the group slowly form as they advanced towards the Divine Race's defensive line. And just like what was expected, the defenses differed compared to before. Their magic cannons were placed indoors, with only the tip seen outside. This limits the flexibility of the cannons, but it made the cannons more secure.

Moreover, there were also additional things installed. Zhao Hai glanced at the new additions and could see some ballista-like things. It seems like the Divine Race were really placed in a very disadvantageous position. They were even compelled to take these kinds of things out.

Fei'er and the others were standing next to Zhao Hai. Things haven't started yet, so they don't have to be with their armies to take command. Therefore, they went to Zhao Hai's side to discuss additional matters.

Fei'er looked at the Divine Race's defensive line and frowned, "It seems like breaking through won't be easy. Don't underestimate those structures made to shelter the magic cannons. Those aren't made with ordinary magic. It's a kind of magic developed by the Divine Race in the past few years. Those structures are very hard, no worse than steel. In the Divine Realm, this magic is called iron earth spell."

Zhao Hai stared, then he raised his eyebrow and said, "Iron earth? Interesting. Although the Divine Race didn't research any new weapons, it seems like they are more skillful when it comes to using magic."

Fei'er agreed and said, "The Divine Race have indeed become more skillful when it comes to magic. Moreover, their research made a lot of new magic spells. However, not many people were interested in them and it had little use to the military. It seems like the Divines have brought over some people from the magic academy this time."

Zhao Hai looked curiously at Fei'er and said, "Magic academy? What is that?"

Fei'er smiled faintly and said, "The magic academy is a place the Divines use to research magic. That is also the place where children go to study magic. However, those who are admitted mostly belonged to Nobles, Royal Clans, and talented people. Their strength is formidable. The students and teachers of the academy can go against a regiment of God-ranks."

Zhao Hai stared, he gave out a light 'hoh' before he said, "I didn't think that the Divine Race would have a place like that. Good, it's good that people from the academy came. It seems like the Divine Race has reached a dire state."

Fei'er nodded, "Right. In the Divine Realm, the status of the magic academy is very high. If they aren't in dire straits, the Taurus Divines wouldn't have asked for their help. However, with the magic academy here, our troubles wouldn't be small."

Zhao Hai smiled faintly and said, "That doesn't matter. Let's try attacking first. Let's see how they receive it." After he said that, the army had already surrounded the defensive line. Then they proceeded to enter the Divine Race's firing distance.

Zhao Hai waved his hand to make the army stop. Zhao Hai looked at the defensive line before he waved his hand once more. A squad of about fifty thousand made one cone formation and threw themselves towards the defensive line.

The Divine Race was very clear that this was only a probe. However, they knew that they couldn't just let this small squad off. Who knows what things were installed inside those undead.

This squad hadn't entered the firing distance yet but the cannons had already started to fire. White lights shot out from the defensive line and went straight towards the undead.

The undead squad suddenly sped up. They had a few javelins inside their bodies, but since they weren't in fighting distance, they still kept flying forward.

Fei'er looked at the undead and couldn't help but feel envy. The undead were really the best kinds of soldiers. They weren't affected by pain nor were they afraid of death. Even if half of their bodies were wiped out, they could still continue to fight. No other army could achieve this.

However, Fei'er was also clear that other than Zhao Hai, no other person is able to command an undead army as large as this. The undead didn't have their own thoughts, commanding them would need more than just an ordinary commander.

Naturally, Fei'er doesn't know about the existence of the Space. He was comparing Zhao Hai to other dark mages. Ordinary undead could only receive commands such as advance, retreat, and attack. For them to exhibit such complex formations was completely impossible.

Fei'er and the others watched the undead acting like fish as they evaded the Divine Race's barrage. Zhao Hai also discovered something about the magic cannons' attack. These cannons could only target one person while causing minimal damage to those around the target. It looks like they were using water element stones to power the cannons.

Chapter 843 - The Bastards, They Dare To Trick Me!

Then Zhao Hai changed his mind as he understood what was going on. The Divine Race did indeed use some magic crystals to power their magic cannons, however, the crystals were much worse compared what Zhao Hai had. Zhao Hai's fire element crystals were able to do massive area damage. If the Divine Race's cannons used an area attack, then the power of the cannons would be greatly reduced. They might not even be a threat for God-ranks or 9th ranks.

Zhao Hai wanted the fifty thousand undead to see what the defensive line had. Besides the magic cannons and ballistas, he wanted to see if there was anything else.

At this time, the undead had already reached their firing distance. They immediately took their javelins and proceeded to throw them towards the Divine Race.

But at the same time, the defensive line also released a batch of arrows. These arrows were fired from the ballistas. Their range was quite far, and the heads were bigger compared to the javelins thrown by the undead.

What Zhao Hai didn't expect was the arrows actually managed to explode the undead. The undead squad were ravaged, a lot of them were directly smashed to pieces.

Zhao Hai gawked, then he raised an eyebrow as he chuckled, "Interesting. I didn't expect the Divine Race to have this kind of weapon. Fei'er, do you know what those arrows are? Why did they explode?"

Fei'er's expression was quite ugly, then he said, "It's possible that they're a secret weapon. I hadn't heard about them before."

Zhao Hai nodded. He didn't care about it anymore as he waved his hand and released a hundred thousand undead. The 50 thousand that he lost was just a negligible amount.

However, the 100 thousand that Zhao Hai sent this time was different. The 50 thousand undead before didn't have any defensive measures since Zhao Hai wanted to see how strong the magic cannons were. After seeing that the cannons were inferior, Zhao Hai became relieved. 9th ranks might die to the cannons, but God-ranks should be able to survive.

The reason why Zhao Hai sent a shield along with his undead this time was to see the properties of those new arrows. If those arrows could penetrate the shields, then more casualties would come up.

The Divine Race seemed to understand Zhao Hai's plan. The small shield containing 100 thousand undead slowly entered the range of the magic cannons. As the undead approached, the magic cannons shot over and over. Zhao Hai also found a problem, although the shield was very good in defending, the people behind it can only wait for the attacks to finish before they could make their move. If the arrows could break through the shield, then the undead casualties would surely mount up.

The Divine Race kept attacking with their magic cannons, they wanted to consume the energy of the shield. They don't want the undead to go too far into the frontlines, they also wanted to see the other cards in Zhao Hai's hands.

However, the Divine Race had underestimated the shield made by Karen. This defensive formation can be used to defend a city, this was a testament to its defensive might. Although there weren't any improvements to defensive formations for a long time, this also meant that they were already strong. It was difficult to improve because it had small shortcomings. If there were weaknesses anywhere, then they would've already been improved.

The power of the magic cannons used by the Divine Race was inferior compared to Zhao Hai's. And now that those magic cannons were against a shield powered by Zhao Hai's crystals, it was for certain that the cannons had no effect. The shield didn't even tremble, it's like the magic cannons were only giving it a scratch.

The Divines began to panic, however, they quickly settled down. After entering the firing range of the ballistas, the defensive line began to launch their attacks once more. Zhao Hai didn't let the undead use their javelins, he wanted to see how the Divine Race deals with it.

The arrows quickly came in contact with the shield. There was a fierce explosion on the point of impact. However, Zhao Hai was able to see that the shield only shook gently, it was still up!

Zhao Hai relaxed, then he immediately ordered the undead to throw their javelins. The javelins directly soared towards the ballistas. At this time, earthen walls suddenly rose up, blocking the javelins. However, the power of these blood lightning javelins was much stronger compared to the cannons or the arrows used by the Divine Race. The earthen walls were blown up after a few javelins hit them...

But still, Zhao Hai slightly frowned, it seems like this wall was also made out of iron earth magic. Otherwise, it wouldn't have been this resistant to explosions. It seems like the Divine Race had made sufficient preparations this time.

Fei'er and the others' expressions were also somewhat ugly. They have battled with Zhao Hai, so naturally they were aware about how strong these javelins were. They didn't expect the other party's earth walls to actually block a few of those javelins.

Fei'er turned to look at Zhao Hai, his gaze asking whether Zhao Hai had any means to deal with this. Zhao Hai turned to Fei'er and smiled, "The probe is at its end, we'll start the official attack. I will have the undead go first, otherwise, our casualties would be too big. You go back and wait for my order."

Fei'er and the others complied. Fei'er and the others were already convinced of Zhao Hai's ability, so when they heard his words, they didn't have any misgivings at all.

After Fei'er and the others left, Zhao Hai turned to the Demon Dragon King and said, "Demon Dragon, after I let the undead attack, don't have your soldiers follow. Although their strength isn't weak, their ranks aren't high. I don't want them to die in vain. Later on when I'm able to mass produce God-rank potions, we can promote their strength. Only then can they enter the battle."

The Demon Dragon King gawked, then he nodded. He can understand why Zhao Hai would tell him this. Demons took bravery very seriously. If you let their armies into the battlefield but you refrain them from

fighting, then they would treat it as an insult. If Zhao Hai didn't explain these things, then the Demon Dragon King would think that Zhao Hai was looking down on them. When the time comes, it would create a misunderstanding.

Now that Zhao Hai took the effort to explain, the Demon Dragon King didn't become offended, instead he even felt grateful. After seeing the Demon Dragon King nod, Zhao Hai said, "You go back to the Devil Legion. This time, don't attack, just wait for my orders." Demon Dragon gave his affirmation before he went back to the Devil Legion. Zhao Hai remained in his place, standing calmly in front of his dense undead army.

Zhao Hai looked at the Divine Race's defensive line and then waved his hand. The undead immediately threw themselves towards the Divine Race's defensive line. Now that the undead can charge behind a shield, they weren't afraid of the magic cannons. Among them were huge undead carrying magic cannons. There were even some undead with larger bodies capable of carrying more magic cannons.

The large magic cannons were almost exclusively mounted on top of dragons. Dragons have the most strength among all of the undead, both their attack and defense were the best. Zhao Hai also moved forward with the undead army. At this time, their position was about two kilometers away from the Divine Race army. This distance was beyond the scope of the monitor, what Zhao Hai wanted to do now was to place the defensive line within the Space's range so that he can use the undead with more flexibility.

Not long after Zhao Hai started his advance, the Divine Race's cannon attack started to arrive. Although the magic cannons weren't as good as Zhao Hai's, their range was quite far and they were enough to deal with most 9th ranks. Moreover, the Divine Race had a lot more of those magic cannons compared to Zhao Hai. Also, the Divine Race's cannons were under reinforced shelter, this prevented Zhao Hai from shooting them down.

However, Zhao Hai had his magic shield, so it was impossible for the cannons to do any damage to the undead army. Additionally, Zhao Hai also had his cannons. Once these cannons reach their range, the cannon fire would become two-ways.

Before long, Zhao Hai's magic cannons had reached their range. With Zhao Hai's order, about ten thousand lights began to approach the Divine Race's defensive line.

Although the shelters were made out of reinforced magic, it was still impossible for it to sustain so much damage. So even if these shelters had blocked Zhao Hai's attack, there were still parts where they had been destroyed.

At this moment, something unexpected appeared in Zhao Hai's sight. The Divine Race's ballistas suddenly shot their arrows. The undead army were yet to enter its firing range!

This was out of Zhao Hai's expectation. Upon further observation, Zhao Hai discovered that these ballistas should have more range compared to those used in the Ark Continent. It seems like the Divine Race were holding back, they intentionally reduced their range!. Zhao Hai thought, those bastards, they dared to trick me!

At the thought of this, Zhao Hai couldn't help but get angry. He also took some ballistas with him. However, their range was worse than a 9th rank throwing javelins. They were used back in the Accra Mountain because of the height advantage. But in this battle, they weren't that appropriate to use. It was better to have the undead carry javelins and throw it themselves.

Chapter 844 - Lu Wei Appears

Zhao Hai looked at this situation and made a command in his mind. Then in the middle of the ballista troops, undead started to appear. All of these undead were God-ranks. Upon appearing, all the undead proceeded to attack the Divines manning the ballistas.

These Divines didn't expect Zhao Hai to have this trick, naturally they were caught off guard. Before long, the Divine Race didn't have any means to fire their ballistas.

The God-rank undead that Zhao Hai sent were all from the Divine Race. Their fighting strength was no weaker than their brethren, conversely, they were even stronger in battle.

The other Divines quickly responded to the attack on the ballistas and sent support troops over. Zhao Hai knew that these support troops couldn't be allowed to besiege the undead. If the undead were surrounded, then they would certainly suffer losses.

Zhao Hai immediately retrieved the God-rank undead back into the Space. Several of the undead took ballistas along.

However, the undead didn't just retreat. After taking several ballistas along, they immediately left behind some blood lightning beads, destroying the Divine Race's ballista shelter...

After destroying the ballistas, the Divine Race's base became somewhat panicked. At this time, the magic cannon shelters were also being besieged by the undead. The sudden appearance of the undead once again surprised the Divines. Before the Divines respond, they were already killed by the undead.

One by one, Zhao Hai captured the magic cannon and ballista shelters. However, Zhao Hai didn't relax. He expects that the Divine Race would have more than this. Therefore, Zhao Hai held Fei'er and the others back. He just had the undead continue on with their attack.

Just like Zhao Hai thought, as the undead proceeded another batch of light came out from behind the defensive line. One could see that the lights were from the cannons, there were also arrows trailing behind.

Zhao Hai saw this and understood that the Divine Race had set up two bases. The ones captured by Zhao Hai was a fake one. The real base was now armed and ready.

Moreover, Zhao Hai discovered that he couldn't see any magic cannons nor ballistas in this base. Zhao Hai let the Space look into it but he couldn't see anything. Behind the fake defensive line was just displayed as a huge white blot.

Besides the monitor, Zhao Hai also couldn't see the cannons using his own eyes. It didn't take long for Zhao Hai to understand that the Divine Race was using illusion formations to hide their base. This would make it difficult for Zhao Hai to find their ballistas and magic cannons.

Zhao Hai smiled faintly, the Divines really prepared well this time. But will this stop him? The Divine Race were too naive.

As the undead advanced, they suddenly discovered that they were blocked. In front of them was a shield barring their entry.

From time to time, there were cannon fire and arrows coming from behind the shield. Zhao Hai's undead were completely under attack right now, without the chance to fight back.

It's good that Zhao Hai's army also had their own defensive formation. Otherwise, they would've suffered huge losses. However, Zhao Hai knew that this couldn't drag on. The Divine Race were certainly buying time to deal with the Thunder Clan, Barbarians, and the Winged Pegasus people. If they were done dealing with the three races, then they would begin to turn on the Ark Continent. At that time, the losses would be bigger. For Zhao Hai, this was completely disadvantageous, he couldn't have this situation happen.

Zhao Hai finally made his move. He established his Domain and then released the sword carriage. The Domain turned into a giant as he held the Domain Weapon, ready to strike through the protective shield.

There was nothing in front of it, but the giant sword seems to be blocked by a transparent bubble. There was no way for it to go through.

Zhao Hai increased the strength of his thrust, making the sword sink further. Then before long, the bubble exploded, revealing the huge base in front.

This base had magic cannons, ballistas, soldiers, summoners, and cavalry. At this time, there were people in the base wearing mage robes who were vomiting blood. The other Divines looked in shock at Zhao Hai and the Domain Weapon.

Zhao Hai didn't delay as he made another move and killed his way towards the Divines. At the same time, he also gave Fei'er and the others an order to attack.

Zhao Hai believes that this was the Divine Race's final stronghold, it was impossible for it to become yet another fake base. Once Fei'er and the others received the order, they immediately charged towards the Divine Race.

However, the Divine Race were quick to recover. They started to go all out, there were light beams, arrows, javelins flying up in the air. War cries could be heard all along the battlefield.

At this time, the summoners also made their move. Under the protection of the soldiers, they started to chant their spell. Upon hearing this, Zhao Hai's expression couldn't help but change. This was the incantation used to summon Lu Wei.

Sure enough, after the incantation was finished, white lights suddenly shot out from the summoners. When the lights coalesced, a spatial rift appeared in the sky. From that spatial rift, a shadow of a person came out.

After seeing this person, Zhao Hai's pupils shrunk. This person was no other than Lu Wei. In the past, Lu Wei used the pagoda as a medium to send his incarnation to the Ark Continent. That incarnation almost killed Zhao Hai. Fortunately, Zhao Hai was able to deal with the situation.

Zhao Hai knew that Lu Wei wouldn't just stop at that. But he didn't think that Lu Wei would send another incarnation this early. Does he think that he could deal with Zhao Hai this time?

Zhao Hai just stood within his Domain and coldly looked at Lu Wei. Lu Wei was also looking at Zhao Hai. After some time, Lu Wei smiled and laughed before he said, "I didn't think that you would actually survive. Moreover, you also dared to face my incarnation once more. Hahaha. It seems like trash still had their uses. I need to thank them for giving me the opportunity to take my revenge."

Zhao Hai looked at Lu Wei and then sneered, "What? Are you confident in beating me this time? Don't be too naive. Last time, you even managed to gift me a magic treasure."

Lu Wei looked at Zhao Hai with hatred as he said, "Don't worry, this young master will surely take your soul out and refine it. I'll make sure that you suffer eternal torment without any way to reincarnate!"

Zhao Hai smiled faintly as he retrieved his Domain and stored the sword carriage. He knew that these things were useless against Lu Wei. Then while standing still, Zhao Hai took the tiny pagoda out. The pagoda was glittering and shiny, it was quite attractive.

Zhao Hai looked at Lu Wei and said, "I know that you're quite strong. It seems like your avatar this time is much stronger compared to the one before. But that all of that is useless against me. Hahahaha. For you, it might be difficult to be strong, but to me, it's quite easy. Do you know why? Because you are already old, you're past your prime!"

Lu Wei was shocked upon seeing the pagoda on Zhao Hai's hand. His eyes couldn't hide his astonishment, but it was quickly replaced with the look of greed. He looked up at the sky and loudly laughed before he said, "Good, you're quite good, kid. I didn't expect your crafting skill to be this high. You actually refined the pagoda and added ten thousand year old ice. Hahahaha. Good, good. As long as I retrieve the pagoda, my strength would increase. It seems like I need to give you my gratitude."

Zhao Hai smiled faintly before he gently swung the pagoda. The bells on the pagoda started to chime. The Divines who heard this sound immediately had a look of suffering on their faces. On the other hand, Lu Wei's expression couldn't help but change.

Zhao Hai looked at Lu Wei and said, "So you discovered the artifact spirit. It's different from before, no? Do you think that connecting to your soul would make the pagoda return to you? You're too naive. I've already destroyed your soul inside the pagoda."

Lu Wei's complexion changed. His shocked face turned to Zhao Hai, "This is impossible. How can you know all of these? This is impossible!"

Zhao Hai smiled faintly and said, "Sect Elder Lu, everything is possible in this world. Since I managed to defeat you last time, I can defeat you this time as well." After that, Zhao Hai had the pagoda fly up. As the pagoda rose, it immediately turned into a massive pagoda capable of holding the heavens and the earth.

The bells on the pagoda chimed, all who heard the sound felt their minds go tranquil. Their heart for battle was immediately quenched.

Lu Wei knew about this kind of spiritual attack. He just didn't expect Zhao Hai to be able to achieve it here.

Zhao Hai looked at Lu Wei and smiled. He waved his hand and had the pagoda charge towards Lu Wei's incarnation. At the same time, Lu Wei waved his hand and retrieved a carved shield made out of the head of an animal. Once the pagoda hit the shield, it shook, however, it wasn't able to push through.

Lu Wei saw this and couldn't help but smile. He looked at Zhao Hai and laughed, "It's like a wax tipped spearhead, completely useless. You're dead, kid!"

Zhao Hai couldn't help but show his amazement. He turned to Lu Wei and said, "I didn't expect your incarnation to be this powerful. It seems like you really intend to deal with me this time."

Lu Wei had a wicked gaze as he looked at Zhao Hai, then with a cold voice he replied, "You've made a huge mistake. I manage this place, and it would provide me with faith power. But because of you, all faith power disappeared. Not only did I lose faith power, I also lost an avatar. I became a laughingstock in the sect because of that. So how could I just let you go off easily? If I can't take your soul out and make you suffer in eternal hell, I won't be able to erase my hatred!"

Zhao Hai's expression changed. He took the pagoda back to protect his body. At the same time, Lu Wei patted his small bag and took out a ship.

This ship was divided into 18 floors. Its body was fully pitch black. On the ship were black masts with the character for 'prison' written in red ink.

On each floor on the ship were murals. Each mural depicted various punishments for 18 different sins. The eighteen floors corresponded to the 18 hells!

After the ship was taken out, it immediately floated in mid-air and turned into an extremely huge ship. The ship was completely covered with a ghastly mist. There were also wailing coming out of it from time to time. All those who heard these wailings would feel pain in their heart.

Zhao Hai's complexion turned ugly, the pagoda's bells continued to ring as it resisted the wailing emitted by the ship. At the same time, Zhao Hai also made a retreat. His face slowly turned blue as the veins on his head started to darken.

Lu Wei looked at Zhao Hai's appearance and couldn't help but let some steam out from within. Although he had suffered several losses before, it was either from those with the same rank or higher. He could still accept those losses, but Zhao Hai? This person was just a single dust in a small plane that he managed. This person actually defeated his incarnation and stole an artifact from him. How could Lu Wei just accept it? He was indescribably mad.

After seeing that Zhao Hai retreated, Lu Wei immediately had the ship collide with the pagoda. The ship's speed was very fast, causing the wailing sound to get sharper. With no time to respond, Zhao Hai had to hit the ship with the pagoda.

The pagoda violently shook, a fissure can clearly be seen on its body.

Zhao Hai's expression turned ugly, his body emitted a layer of white light and shot it towards the pagoda. But at this moment, the second impact of the ship came. The pagoda shook even more violently. Zhao Hai couldn't stop the blood from going out of his mouth as he made a sudden retreat.

Naturally, it was impossible for Lu Wei to let Zhao Hai retreat like that. His body appeared on the back of the ship as they went on to chase Zhao Hai.

Chapter 845 - Great Dao Lotus Formation

Fei'er and the others were also able to see this fight. For them, the scales of the battle was beyond their capability.

They had seen Zhao Hai use the domain weapon before, but to be honest, after seeing Lu Wei's ship, they were certain that the domain weapon would shatter upon meeting this ship.

Their heads couldn't help but keep looking towards Zhao Hai and Lu Wei, their clash was just too shocking.

Similarly shocked was the Demon Dragon King. He had seen Lu Wei's portrait before, however he didn't see him with his own eyes. Because of this, he still had some disbelief regarding this matter. But now that Lu Wei was literally in front of him, it was impossible for him to reject it.

Lu Wei hasn't changed his appearance. Therefore, he still looked the same as the one in the portrait. He didn't even change his clothes, it's not possible for the Demon Dragon King to mistake him with someone else.

At this time, Zhao Hai can see that this ghastly ship was the medium that Lu Wei was using to manifest his incarnation. Moreover, the ship was certainly more powerful than the soul sucking pagoda.

Zhao Hai was currently retreating while spurting out blood. The alliance members were stunned. They knew that if Zhao Hai cannot stop Lu Wei, then they could only wait for their deaths. They couldn't help but get worried for Zhao Hai's situation.

The ones focusing on the fight wasn't only the alliance, the Divines were concerned about the result as well. In fact, this summoning was because of Lu Wei. He couldn't stomach the humiliation from last time, so he commanded the Divine Race to summon him. He wanted to deal with Zhao Hai himself.

Lu Wei's plan was good, but he didn't think that Zhao Hai was expecting him to come back at some point. Therefore, Zhao Hai had been ready, causing Lu Wei to have problems in swiftly getting rid of him.

As the chase went on, they eventually arrived back at the Ark Continent. At this moment, Zhao Hai stopped, he stood still as he smiled at Lu Wei.

After seeing Zhao Hai's expression, Lu Wei stared. He stopped his chase and carefully went forward. He was afraid that Zhao Hai might have some traps. Lu Wei looked at Zhao Hai and said, "Kid, there's no need to be mysterious. Either way, you will die today!"

Zhao Hai looked at Lu Wei as he smiled faintly and said, "I just want to thank mister Lu Wei for giving me yet another magic treasure. Hahaha. Aren't you confused as to why I stopped? Then see it for yourself." After he said this, Zhao Hai's body vanished.

Lu Wei stopped and looked around, there seems to be no change in the surroundings. But the complete disappearance of Zhao Hai took him by surprise. Then he operated the ship to fly forward. However, after some time, there seems to be no change.

The scenery kept passing by him, but Lu Wei still couldn't see Zhao Hai. This confused Lu Wei even more. He went in all directions but Zhao Hai still wasn't there.

Lu Wei's complexion turned gloomy. He suddenly thought that Zhao Hai had left him here to go and deal with the Divine Race.

After thinking about this, Lu Wei immediately turned around towards the Divine Realm. But when he turned, he was suddenly shocked. The rift joining the Ark Continent and the Divine Race had vanished!

Lu Wei stared, he looked all around and saw no changes in the surrounding. He tried to fly forward and the scenery moved with him, when he stopped, the scenery stopped. Everything was normal besides the fact that the spatial rift had vanished. It was this abnormality that Lu Wei understood, Zhao Hai had trapped him in a weird array!

An array was a special method of attacking and trapping someone in the immortal cultivation plane. It didn't exist in the Ark Continent, nor did it exist in the Divine Realm. The magic formations that the Ark Continent was completely different than these magic arrays.

But generally speaking, magic formations and magic arrays both used the power of the heavens to serve its purpose. However, compared to formations, arrays were more profound, their formidability was several folds more. Magic formations of the Ark Continent would look like drawings of a three-year old while magic arrays were something studied by university students.

In the immortal cultivation realm, no matter what you do, you must use an array. Otherwise, things would be difficult. If one makes an immortal cave, one should use an array. When one fought, arrays were crucial. Even in crafting weapons, arrays held an important role. It can be said that arrays and the people of the immortal cultivation realm were mutually related.

Because of this , after several tries, Lu Wei was able to affirm that he has been trapped in Zhao Hai's array.

Now he can understand why Zhao Hai vanished. He didn't go and kill the Divine Race, he was operating the array.

Lu Wei was indeed inside Zhao Hai's formation, however, contrary to what he thought, the formation didn't need someone to control it. It was because the place where Lu Wei was now was inside Zhao Hai's Dao Lotus.

After Zhao Hai controlled the dao lotus, he discovered that it had countless uses. Not only could it help him cultivate, it can also attack and trap his enemies. Most importantly, the dao lotus was like a living being. It can absorb energy from the world and cultivate.

The dao lotus was constantly helping Zhao Hai in his cultivation, increasing his level all the time. At the same time it also absorbs some energy for itself. For every seven units of energy that Zhao Hai absorbed, the lotus would have three units absorbed for its own cultivation.

But during a fight, all the energy that the lotus absorbed were all given to Zhao Hai. Because of this, Zhao Hai wasn't dissatisfied of the lotus taking his energy for itself. In any case, the dao lotus was his innate life weapon. The stronger the lotus got, the stronger he would be.

The reason why Zhao Hai retreated was because he was baiting Lu Wei towards the dao louts, only then could he do something to the incarnation. Lu Wei's projection was very strong. Even if Zhao Hai went all out, it would still be difficult. However, if Lu Wei was trapped inside the lotus, things would be different.

The Dao Lotus was itself a magical array, and it was very strong. Zhao Hai even compared it to the tiny pagoda. In the end, the pagoda couldn't compare to the lotus.

Zhao Hai didn't want Lu Wei to know about the lotus. Therefore, Zhao hai used the Space to arrange the lotus array in the Ark Continent. Then he showed that he was weak to lure Lu Wei in.

Zhao Hai doesn't believe that Lu Wei's incarnation would be able to break out of the dao lotus. There simply was no way for him to go out. Lu Wei thought that he was inside Zhao Hai's array, but he didn't think that he was trapped inside a magic treasure.

Zhao Hai was in the Space looking calmly at Lu Wei. Lu Wei was currently standing in place and had a thinking expression on his face. Zhao Hai understood that Lu Wei must have discovered his current situation and was trying to think of a way of breaking out.

Zhao Hai looked at Lu Wei and then at the ship. In fact, they were in the same place since the beginning, they didn't leave. Zhao Hai knew that Lu Wei was still quite lucky since the attacks were yet to come. Once Zhao Hai starts attacking, Lu Wei wouldn't be having a good time.

At this time, Lu Wei started to move. He patted the bag on his side and took out a plate. Along with the plate were a lot of small flags.

Lu Wei raised his hand as the plate flew out from his hand. Then the plate slowly grew larger before it buried itself in the ground. At this point, the small flags had increased their size to a normal flag.

Lu Wei walked inside the area covered by the plate and pulled out a flag and placed it in the middle. Zhao Hai saw Lu Wei continue to go about and place the flags on certain places. His array seemed to be controlled by the plate and the flags.

Zhao Hai didn't worry too much as he spectated Lu Wei. This was because Zhao Hai had found out that everything has already been overpowered by the Dao Lotus, including the plate and flag array. Although Lu Wei could see some effects, Zhao Hai knew that the plate and flags were already broken. At this point, the effects were only an illusion made by the Dao Lotus.

However, Lu Wei didn't know about this. He was still planting flags as he used his formation. He kept grabbing phantom threads in the surroundings, not knowing that they were illusions made by the lotus.

After a some time, Lu Wei saw a crack in the space. He flew out of the the plate's range and looked around. He nodded before he entered the crack.

Zhao Hai knew that things had reached its end. This was because Lu Wei was advancing towards the center of the lotus. As long as he flew forward, the Dao Lotus would proceed to attack him.

Before long, Lu Wei's flight speed had slowed down. His speed kept decreasing as though he was mired in a swamp.

Naturally, Lu Wei quickly realized what was happening. His complexion changed as he immediately stopped. Then he ordered his ship to retreat. However, he didn't know that invisible forces had already surrounded him, proceeding to attack!

Chapter 846 - Human Fueled Ship

Zhao Hai looked at Lu Wei and knew that it was time to end things. Fei'er and the others were still fighting in the Divine Realm, so things couldn't be delayed. Since physical their physical attacks were useless against Lu Wei's avatar, then Zhao Hai might as well use soul attacks.

After thinking up to here, Zhao Hai immediately released the pagoda to help the dao lotus to deal with Lu Wei. Actually, the pagoda wasn't badly damaged at all. Zhao Hai just deliberately seem like it was broken so that he can lure Lu Wei in. One must know that ten thousand year old ice couldn't be easily broken.

Lu Wei was in big trouble now. He was continually attacked from all sides. In Zhao Hai's eyes, there was just a cloudless sky. But for Lu Wei, he was surrounded by dark clouds that attacked him with constant lightning strikes.

Lu Wei felt distressed while receiving these attacks. He had discovered that these lightning were fatal to him.

Zhao Hai thought that these attacks wouldn't do great damage to Lu Wei. After all, Lu Wei was only a projection, because of this, he had the pagoda go to help.

Actually, Zhao Hai's understanding of the dao lotus was still too limited. In fact, the dao lotus' main attacks were dealt directly to the soul. Otherwise, it would have been impossible for it to trap the enemy.

However, Zhao Hai having the pagoda help was the right decision. Although the pagoda couldn't compare to the dao lotus, its soul attacks were more sinister. The Dao Lotus would just attack the soul while the pagoda would directly swallow it, refining the soul to become its own energy.

Lu Wei didn't know that Zhao Hai had sent the pagoda after him. At this point, he was commanding the ship to resist the various attacks.

At this time, Lu Wei was resisting the pressure mounted on top of him. But suddenly, the pressure vanished. Lu Wei stared blankly. At this moment, a strong suction suddenly came from the top of his head, sucking Lu Wei in. Upon sensing this attack, Lu Wei immediately commanded the ship to counter the suction. However, he suddenly found that his connection to the ship has vanished.

Lu Wei became surprised. His divine sense was attached to the ship. If he lost contact with the ship, then this body would lose its strength.

Lu Wei looked around and discovered that he had arrived inside a room. It seems like he was inside a pagoda. Upon thinking about this, Lu Wei's expression sank. He understood that he had been trapped inside the soul sucking pagoda.

He was only a simple soul right now, his formidable strength was gone. At this point, he was as good as dead.

However, Lu Wei also thought that this was an opportunity. Because he remembered that he just used the ship to crack the pagoda. As long as he blows a part of his soul and destroys the pagoda, then he could have the opportunity to ascend back to the immortal cultivation realm.

The reason why Lu Wei thought about this was because although his soul was inside the pagoda, his divine will was still inside the ship. As long as his soul escapes the grasp of the pagoda, then the ship would still be under his control. Although he can't defeat Zhao Hai, the ship can still return.

After thinking up to here, Lu Wei immediately blew himself up. After a bang, Lu Wei's soul became weaker. However, the Pagoda actually didn't move. While Lu Wei was stunned, a lot of mouths suddenly appeared, ripping Lu Wei's body to pieces.

As Lu Wei's soul was shredded, the ship finally lost its master. It slowly shrank until it became as small as one's palm. Then it proceeded to fall towards the ground.

Naturally, Zhao Hai won't have the ship fall into the ground. A spatial rift appeared below the ship and then absorbed it into the Space.

When the ship entered the Space, a prompt was immediately heard, "Hostile program detected in the Space. Proceeding to subdue. Program has surrendered. Item with rich death qi detected. Its uses need further research. Host is be able to use the item right now."

Zhao Hai gave a sigh of relief. Then he proceeded to input his energy inside the ship. As it absorbed Zhao Hai's energy, the ship also became larger.

Zhao Hai's energy caused the ship to enlarge up to a meter long. Then Zhao Hai carefully inspected the ghastly ship. He discovered that the ship had more energy amplification compared to domain weapons.

After his energy enters the ship, the amount that would be used was countless times more. Naturally, domain weapons could do the same, but they were much worse compared to the ship. Compared to domain weapons, the ship could amplify energy 10 thousand times more. The difference was just too far.

Zhao Hai gave a satisfied nod. After receiving the dao lotus and pagoda, Zhao Hai released the ship and stood on its bow as he headed towards the Divine Realm's spatial rift.

In the Divine Realm, the undead, Demons, Thunder Clan, Barbarians, and Winged Pegasus were still fighting against the Divine Race army. At this point, the Divine Race were at a high morale. They just saw Lu Wei hit Zhao Hai to the point of vomiting blood. In their opinion, Zhao Hai's time was nearing its end.

At the same time, Fei'er and the others' morale was also greatly affected. They were unaware of it, but they were now depending on Zhao Hai. Now that they saw him getting injured, their mood couldn't help but sink.

At this time, a ship slowly entered the Divine Realm. When the Divines saw this, they couldn't help but let out a loud cheer. Now that the ship has returned, this meant that Zhao Hai was gone.

However, the Divine Race's cheer came at an abrupt stop. This was because the person standing on the ship's bow wasn't Lu Wei.

Those present focused their gazes and found out that it was actually Zhao Hai. The Divines were completely dumbfounded while Fei'er and the others felt indescribably glad.

Zhao Hai looked at the Divines and coldly smiled, "What? Still waiting for your deity? Sorry but he will not be coming back."

All of the Divines were staring at Zhao Hai. They didn't expect that Zhao Hai, who had just vomited blood, would actually eliminate their Deity.

Zhao Hai didn't become polite as he immediately directed the ship to hammer towards the Divine Race. The speed of the ship was very fast, the dazed Divines didn't even have time to recover before they had been smashed by Zhao Hai. Blood immediately splattered in the air. Those hit by the ship were almost

immediately flattened and killed. Those who didn't die were crippled. At this time, the dead bodies were all sucked into the ship.

It wasn't Zhao Hai taking the bodies into the Space, instead, the ship was taking them for itself. This caused Zhao Hai to be slightly stunned. Then he used his divine sense to scan the ship. He discovered that the ship was refining the corpses of those who died. Upon refining, the energy produced was used to power the ship. At the same time, the souls of those who died were transformed into ghosts. This ship actually used people to fuel itself.

The more people it refined, the more imposing the ship became. Zhao Hai finally understood that this ship was of the devil attribute. It would fuel itself with the bodies of its enemies, making it stronger as more people were killed.

While Zhao Hai was inspecting the ship, Fei'er and the others immediately took the chance to overrun the Divine Race. At this point, the Divine Race's morale had sunk into a steep decline.

After Zhao Hai finished his inspection, he discovered that there were no longer enemy soldiers in front of him. The Divine Race army had unexpectedly been routed.

Zhao Hai quickly understood why this was the case. Lu Wei's status with the Divine Race was very high. Therefore, the more powerful Lu Wei seemed, the more confidence the Divine Race had. And now that Lu Wei was killed, the morale of the Divine Race would naturally be greatly reduced. At this point, it would be hard for them to stop the attack of the alliance.

After beating the Divine Race army, Zhao Hai and the others didn't stay. Instead, they advanced into the Taurus Continent. While they advanced, Zhao Hai came across something that surprised him. They had just passed through a village with no person inside.

Zhao Hai carefully looked at the village. It seems like the people inside didn't move out recently, but days before. Moreover, their retreat seems to be organized. Everything that was usable and consumable were all taken away.

Zhao Hai couldn't help but knit his brows. Did the Divine Race know that they couldn't block the alliance?

At this time, Fei'er and the others also arrived by Zhao Hai's side. At this point, Zhao Hai had already stored the ship, but Fei'er and the others were looking at him with respect. Zhao Hai and Lu Wei's battle had made them understand the disparity between their strengths.

Zhao Hai looked at Fei'er and said, "Where did the Divine Race retreat to?"

Fei'er immediately answered, "They should be in Holy Light City, the nearest big city in this region. It has a population of more than 20 million. Moreover, its defensive capability is quite strong. From what I can remember, there should be about 5000 magic cannons protecting the city. It also has plenty of ballista. Most importantly, the city is protected by a strong defensive formation."

Zhao Hai frowned when he heard this, then he said, "How strong is the Divine Race's defensive formation?"

Fei'er answered, "Generally, the defensive formations of the Divine Race are quite strong. Even God ranks would have problems breaking through it. This was because of the foreign races. The Taurus Divines knew their capabilities so they strengthened the defenses of their cities."

Zhao Hai nodded, "Let's stop here first, have everyone rest. At the same time, send people to the spatial rift while I have my undead repair the Divine Race's defensive line. We might have use for it later on."

Fei'er and the others immediately nodded before turning around to leave. After they left, Zhao Hai frowned. He looked towards the Taurus Continent, wondering about what their plan was.

Chapter 847 - Hell King's Ship

Naturally, Zhao Hai wasn't just looking at the scenery. To be honest, the Divine Realm wasn't that much better compared to the Ark Continent. The grass and landscape here was no different. This was what confused Zhao Hai.

At this time, Zhao Hai wanted to know why the people of the village retreated. Did they expect Lu Wei to fail? Is that the reason? However, if that was the case, then the Divine Race's rout was unjustified.

If the Divine Race didn't have any confidence in Lu Wei, then they wouldn't have lost their will when he was eliminated. Now that they retreated, this meant that they trusted Lu Wei to succeed. But if they were confident in Lu Wei, then they wouldn't have evacuated their people.

It was a contradictory thing, Zhao Hai was unable to make sense of it. After all, he doesn't understand how the Divine Race thinks.

Fei'er and the others had returned to Zhao Hai's side. At this point, they were already treating him as the alliance leader.

After the group got into the ship and sat down, they saw Zhao Hai's puzzled expression. Upon knowing why, Fei'er and the others were similarly confused.

After some time, Shan opened his mouth and said, "Maybe the Divine Race wanted us to come to the Taurus Continent. They would block the spatial rift and then trap us in here."

Zhao Hai frowned, then he said, "That is impossible. The Divine Race knows about our strength. And with your three races, it would be impossible for them to surround us. Luring us deep into the continent would be an unwise decision."

Fei'er knit his brows as he added, "I agree with mister. It might seem like the Divine Race had a lot of troops to face us, but mister might not have noticed that there were a lot of recruits among them. For these people, their emotions greatly affected their performance. After Lu Wei was eliminated and mister appeared with his ship, they were immediately routed. If this was the true Divine Race army, this would not happen."

Zhao Hai nodded, he knew the tenacity of a regular Divine Race army. They have fought in the Accra Mountains for days without anybody abandoning the army. The soldiers this time were very quick to go back.

Fei'er looked at Zhao Hai and said, "Therefore, I think that the Divine Race didn't have regular troops available right now. Those Divines we faced today might have been composed of civilians. This would explain their lack of will. If this is the case, then it would be unlikely for the Divine Race to lure us into the continent. That would just be a death wish."

Yue frowned, then he said, "What about the Divines doing this intentionally? They sent such an army so that we could be confident when entering the Taurus Continent. Then they would deal with us."

Zhao Hai also frowned, then he turned his head to the others and said, "Thinking about it at this time is useless. How about we just follow our original plan. You can leave the spatial rift to me. Fei'er, you go and send elite troops to contact your people. Go and see their current situation. Also, give a deadline to the person you've sent. If they don't return by that time, then it means that your people are in dire state. What we need to do now is confront the Divines in Holy Light City. Let's not think about going too deep."

Fei'er and the others nodded. Then the Demon Dragon King, who had not yet spoken, said, "Mister, have you thought about the simplest possibility? Maybe before Lu Wei appeared, the Divine Race already took their people back. That is to say, Lu Wei only came here to deal with you. If this was the case, then that would be a reasonable explanation for this."

As soon as he heard the Demon Dragon King, Zhao Hai stared blankly. He smiled bitterly and said, "It seems you're right. It's possible that we've been thinking about it too much. But in any case, we still cannot underestimate the Divine Race. Let's go according to our plan. We must capture Holy Light city and make it our base."

Fei'er and the others were also thinking that this was their safest choice. So they gave Zhao Hai an approving nod. Zhao Hai looked at the group and then said, "If there's nothing else, then I won't be holding you back for long. Demon Dragon, help me rebuild the defensive line. Have the Devil Legion guard the place as well, we need to ensure the safety of our retreat. I will leave magic cannons and javelins to you. Right we should study the Divine Race ballistas. I want to know the reason why they shoot much further."

When he heard Zhao Hai, Fei'er smiled faintly and said, "Mister, there's no need to think about the ballistas. The reason they shoot farther is simply because they used more advanced materials. The inhabitants aren't the only strong people in the Divine Realm. The plants and beasts are stronger as well. Because of this, it's natural for the ballistas made here to be better than the ones in the Ark Continent."

Zhao Hai thought about it and nodded, "So it's like that. Haha. I've been thinking too much into things lately. It seems like we should remake our javelins with materials from the Divine Realm. This way, it'll be better for us to deal with the Divine Race."

The group gave a chuckle. Zhao Hai looked at them and then said, "You don't have to worry about supplies, I'll take care of it. Right, have your messenger ask if your people need anything. I'll try my best to provide some help."

Fei'er and the others nodded. Although their faces were calm, all of them knew that their people were having a hard time. This was especially true when it came to weapons. Meanwhile, Zhao Hai had a lot of good weapons. Magic cannons, javelins, and even defensive magic formations. All of these things are very useful against the Divine Race. If Zhao Hai could provide them, then their people would be more relaxed in their battles.

Zhao Hai smiled and then said, "Alright, you can go back to your armies. Also, arrange some alarms. We don't want the Divine Race to sneak an attack. Although they are frightened, we cannot rule out the possibility of counter attack."

After Fei'er and the others left, Zhao Hai went back to the Space with the Demon Dragon King. After they entered the Space, Zhao Hai looked at Demon Dragon King and said, "Demon Dragon, when you leave, go and take the sword carriage with you. I have this ship now, so the carriage is useless to me. You can use it to improve your combat power."

The Demon Dragon King stared, then a smile couldn't help but bloom on his face. The Sword Chariot was the Divine Race's Domain Weapon. Zhao Hai had used it twice before, so the Demon Dragon King knew about its might. He didn't expect Zhao Hai to give it to him.

Although the Demon Dragon King's Domain was a black dragon, black dragons still had their claws, he could still hold the Domain Weapon. Having the sword carriage would surely amplify his strength. Later on, he wouldn't be afraid of facing the Divine Race's most powerful people.

The Demon Dragon King quickly bowed to Zhao Hai and said, "Mister, thank you very much!"

Zhao Hai smiled faintly and said, "It's fine, don't be too polite. Right, I'll have some people sent to rebuild the defensive line. Go prepare the Devil Legion and then send them there. Have them be familiar with the weapons as soon as possible."

The Demon Dragon King nodded. Then Zhao Hai waved as he took the sword carriage out and gave it to the Demon Dragon King. Actually, domain weapons didn't need animals to pull them. As long as its

owner provides energy, then they can move by themselves. However, this was more troublesome compared to having it pulled by magic beasts. Because of this, most people would have their domain weapons pulled by magic beasts.

Since he doesn't need it anymore, Zhao Hai gave the domain weapon to Demon Dragon. It can be said that the Demon Dragon King was well prepared to receive it. He already had magic beasts pulling his black dragon carriage, so he didn't need to pick his magic beasts. He can just command his dragons to pull the sword carriage instead.

Then Zhao Hai sent the Demon Dragon King to the Demon Space before he returned to the villa. Laura and the others were currently inspecting the pagoda and the ship. At this time, the pagoda and ship were in their smaller form. The crystal pagoda looked very beautiful, like a piece of art. The ship was also quite beautiful, but its ghastly vibe was something hard to like.

Zhao Hai looked at Laura and said, "How is it? Aren't they nice?"

Laura nodded, then she said, "They're nice. But I don't like the ship. It's gloomy, it makes me uncomfortable."

Zhao Hai agreed, "That ship is quite a problem. I want it modified. How about we go to the processing machine. Let's see if there's a way to improve it."

When Laura and the others heard this, they became excited. Then they pulled Zhao Hai to the processing machine.

Upon arriving at the processing machine, Zhao Hai placed the pagoda and the ship on the ground before he pushed the start button. The processing machine gave out a white light, then a voice was heard, "Items rich in Yin energy detected. The two items are compatible and can be combined. Requirements for the upgrade is moon profound water, river of earth fire, golden sand, tree of life, goldmetal wood, and 1 million gold coins. Needs 48 hours to complete. Host may choose the final appearance."

Zhao Hai stared, he didn't think that the processing could actually combine the two items. Moreover, it seems like he could choose its shape. This surprised Zhao Hai.

He immediately turned to the page with the item's final form. There were numerous ships shown. But the common thing among them was that they were all very attractive.

Zhao Hai's eyes couldn't help but hurt upon seeing the multiple choices. After a while, he turned to Laura and the others and said, "Which one would you choose?"

As if in agreement, Laura and the others pointed at a picture of a ship. The ship looked very beautiful. It had a light colored hull with a pointed corner at front. It still had 18 decks, and it had a cabin with 9 floors. A flag was set up in front of the ship but the image was left blank. It seems like Zhao Hai was free to choose what flag to place there. Between the topmost deck and the cabin was another floor with a door. Behind the door was a circular pool. The pool's pattern was like the Taiji figure. Half of it was water, the half was fire. Outside the taiji pool was the eight trigrams chart. Moreover, there were innumerable golden threads going out of it, merging throughout the ship. It looks like the pool was the one powering the ship.

Underneath the ship was water, which was just like waves of the sea. However, it surrounded the ship, clumped up and not flowing down.

Behind the ship were circular holes with flames blowing out from time to time.

Besides these things, there were also cannons on both sides of the ship. There were 64 cannons on each side, 128 cannons in total.

There were also carvings on the 18 layers of hell on the ship. Although they looked horrible, one could still look at it as some kind of unique art.

On the top deck of the ship were four bells, one for each angle. The little bells were transparent, they seemed to be made of crystal, looking very attractive.

Compared to the other ships, this ship was surely a step up, no wonder the women liked it. Zhao Hai smiled faintly and then said, "Good, then we'll have this ship. As for the flag, the Buda Clan's Wild Dragon Flag should be good. As for its name, do you have any suggestions?"

Laura thought for a moment and said, "I don't have any problems with the flag. As for the name, since it has carvings of hell, how about we name it Hell King's ship? What do you think?"

Zhao Hai looked at Lizzy and the others, who gave him a nod. Naturally, Zhao Hai wouldn't decline this suggestion, so he nodded and said, "Alright, then this ship will be named Hell King's ship." Then Zhao Hai pressed the screen and chose the ship's image.

The processing machine let out a bright light as it absorbed the tiny pagoda and the ship. Zhao Hai could also see his hard earned money being taken away. At the same time, profound moon water, the river of earth fire, golden sands, a goldmetal tree, and a tree of life also vanished from the Space.

Zhao Hai couldn't help but sigh upon seeing this as he said, "It took so much, let's just hope that the result is worth it."

When they heard Zhao Hai, the women couldn't help but let out a tender smile.

Chapter 848 - Having a Meal with the Demons

Zhao Hai and the others returned to the Space. Then after looking at the Divine Race for some time, Zhao Hai sighed and said, "Cai'er, arrange some undead to repair the defensive line. Also, have some people collect plants and animals from the Divine Realm. No matter what, we need to increase the plant reserves of the Space." Cai'er nodded and then went on to take care of it. At this time, Zhao Hai suddenly feel his messenger fish move. He took a look at it and saw that it was connected to the Great Demon King.

Zhao Hai held his messenger fish and immediately said, "Your Majesty, do you need me for something?" Then the Great Demon King's happy voice was heard, "Mister, all of the Demons had already move into the Space. Mister can now close the spatial rift. Also, I want to invite mister over for a feast. I know mister has a lot of things, but I want to ask you to taste the food of the Demon Realm." Zhao Hai stared, he didn't expect the Demons to move this quickly. Actually, the reason why the Demons were slow was because of the magic beasts. Now that the beast tide has passed, the Demons had little to worry about. This caused their speed to quicken.

Zhao Hai immediately gave his response, "Alright, I will certainly go. Your Majesty can rest assured." Then he stored the messenger fish before looking at Laura and the others. He smiled faintly and said, "I wonder what the food of the Demon Realm tastes like." Laura smiled as well and said, "I haven't eaten

their food before. So what do we do? Do we go now?" Zhao Hai smiled and said, "Yeah. Right, we need to prepare some gifts." Zhao Hai's gift wasn't expensive, only some magic beasts and all sorts of wine.

Any race would like these things. Moreover, although they weren't precious to Zhao Hai, they still held some value to the Demons.

The Space was currently rich with things. Although it lacked gold coins, it was only because they still haven't emptied the warehouse. If they sold the things in the warehouse, then Zhao Hai would definitely earn a load of money. However, there was only a small advantage in selling those things in the Space. And even if Zhao Hai wasn't rich, he still had ample money to spend on things.

Not being able to purchase the ten magic backgrounds and 20 ordinary backgrounds was no big deal for Zhao Hai. Most of these places would only be used to grow plants and animals, and there was no need to rush it right now.

The reason why Zhao Hai wanted to upgrade the Space in the past was because he wanted to train God-ranks. But now, the need for God-ranks wasn't as great as before. At this time, there were several millions of God-ranks in the Space. Also, there were some undead in the hell background who had broken through. Zhao Hai was in no need for additional God-ranks at this point.

After preparing his gifts, Zhao Hai led Laura and the others to the Demon Space. Upon arriving, Zhao Hai can see the Devil's Chariot and Sword Carriage up in the air. Both of them were waiting for Zhao Hai.

When the Great Demon King and the Demon Dragon King saw Zhao Hai and his wives, they immediately went forward and gave a salute, "Mister, welcome!" Zhao Hai hastily returned the salute, "Your Majesty, Demon Dragon, you're too polite. Right, let me introduce you to my wives..." The Great Demon King didn't expect to see a Demon among Zhao Hai's wives. He stared at Berry and then said, "I didn't think mister would have a Demon as his wife. Madame, are you a Demon from the Demon Realm?" The Demon Dragon King forced a smile as he gave a reply, "Your Majesty, madame is someone we sent to guard the Demonic Abyss. I believe madame is named Berry?" Berry gave the Great Demon King and the Demon Dragon King a salute. Then she smiled faintly and said, "I have seen Your Majesty and the Demon Dragon King. I am indeed named Berry."

Zhao Hai smiled and said, "You should know about the custom of the Succubus Clan. I broke Berry's spiritual attack, so she took me as her husband. Hehe. Right, you have to thank Berry. If not for her, I wouldn't have been confident in taking the Demons to the Space."

When the Great Demon King and the Demon Dragon King heard this, they immediately gave Berry a salute. They were thankful to Berry. To the Demons, the Space was literally Heaven.

Berry was a clever woman, she understood that Zhao Hai only did this in order to elevate her face. Therefore, she didn't say anything.

After exchanging their greetings, Zhao Hai said, "Alright, we shouldn't be too formal here. Didn't you invite me to a meal? Let's go eat." When the Great Demon King and Demon Dragon King heard this, they couldn't help but chuckle. Then the Great Demon King said, "Alright, then let's go down."

Zhao Hai smiled, then he said, "I've brought some gifts as well. Here." Then he took the magic beasts and liquor out.

Besides these, Zhao Hai also used this opportunity to give grain seeds and vegetable seeds. Also, he provided some methods of raising magic beasts. And lastly, there were methods of making liquor.

In the past, the Demons were living in the material-poor Demon Realm. Cultivating plants was mostly non-existent in that plane. Moreover, most of the plants there were poisonous. Their seeds might be edible, but the plants themselves couldn't be grown on one's house, it was a potential hazard to those around it.

Naturally, the Great Demon King knew how important these things were to the Demons. He took a look at these things and then suddenly bowed to Zhao Hai, "I represent all the Demons in expressing our gratitude!" Zhao Hai quickly waved his hand and said, "It's fine. These are things I ought to do. I got you into the Space. You have to treat your neighbors properly, right? There's no need to be too polite" At this time, the Demon Dragon King suddenly said, "Mister, don't you need some gold right now?" Zhao Hai stared, he looked puzzled at Demon Dragon as he asked, "Demon Dragon, what do you mean? Do you have a lot of gold?"

Demon Dragon forced a smile and said, "Mister, you might not know, but gold is completely useless in the Demon Realm. We have several gold ore deposits in the Demon Realm, and they are high-grade ores as well. We Demons only use gold to make our weapons look more terrifying. I seem to have heard that gold is very useful in the Ark Continent. If mister needs some gold, then Me and His Majesty can point some areas out for you."

Zhao Hai gawked, then he turned to look at the Great Demon King. The Great Demon King smiled bitterly and said, "Mister, I forgot out it. Demon Dragon King is telling the truth. The Demon Realm has a lot of various ores. If mister needs them, we can give you their locations."

Zhao Hai couldn't help but laugh as he said, "Alright, that would be great. To be honest, I really need gold right now. How about this, I'll get you a map of the Demon Realm tomorrow. You can just mark those places there and I'll get them myself. I want everything!" When the Great Demon King heard this, he wasn't offended, instead he said, "Alright, mister can rest assured. We will certainly mark everything, we won't miss a spot." Zhao Hai laughed once more before following the Great Demon King and the Demon Dragon King.

This place wasn't the Great Demon King's new palace, it was just a place where Demons had grouped up. There were no construction projects here, only Demons gathering around.

These Demons were the first soldiers to enter the Space. At this point, they had already settled their people. They only came here to greet Zhao Hai.

Zhao Hai looked at everyone. Then he smiled faintly and said, "Everyone is here. It seems like you really want me to have a good feast. But with so many people, I'm afraid I won't be able to eat everything."

Contrary to what Zhao Hai imagined, the people didn't laugh, everyone just stayed silent. Zhao Hai saw this and didn't know what to do, he even felt a little embarrassed.

At this time, the Demons simultaneously knelt. Then they knocked their heads to the ground and loudly shouted, "Thank you, mister!" Then they knocked their heads once more and shouted, "Thank you, mister!"...

After knocking their heads nine times, they stopped. Zhao Hai looked at the Demons and couldn't help but get teary eyed. He was moved by their action. He calmed himself down as he looked at the Demons and said, "Alright, everyone, don't be too polite. Now that you've entered the Space, we're already part of one family. Don't be too respectful to me. Just be yourself, I'm just here to taste some dishes that you made."

The Demons laughed and then prepared the food. At this time, Zhao Hai turned to the Great Demon King and the Demon Dragon King and said, "Next time, don't let them do that. It scares me a lot."

The Great Demon King smiled and said, "Everyone just wanted to express their gratitude. Moreover, I didn't plan this thing, they did it themselves. I wouldn't be able to stop them." Zhao Hai smiled bitterly and didn't say anything else. After the group found a place to sit down, Zhao Hai turned to the Great Demon King and said, "Your Majesty, I need you to take your devil's chariot and help me in the next two days. I want to attack the Divine Race's Holy Light City. However, the ship I just acquired was being refined and needs two days before I can use it. I'll need to depend on you until that time."

Chapter 849 - A Use of the Underworld's Dark Mist

The Great Demon King gawked, then he nodded and said, "Mister, you don't need to worry. I will be waiting for your word."

Zhao Hai smiled and said, "Then that's great. We need to take Holy Light City, that will be our first foothold in the Divine Realm."

The Demon Dragon King smiled, "We have two Domain Weapons, taking Holy Light City shouldn't be a problem. Mister shouldn't worry about it."

Zhao Hai smiled faintly and replied, "I hope so. Before, when we waged war with the Divine Race, we didn't really have so much understanding about the inner works of the Divine Race. Although we had killed a lot of them, they weren't really high level members of their society. However, Fei'er told me that the city has a defensive formation and a lot of magic cannons guarding it. We need to deal with these things carefully."

The Demon Dragon King had followed Zhao Hai these days, naturally he knew about things, so he nodded. The Great Demon King was himself a clever man, he didn't need further explanation as he said, "Mister, rest assured. When the time comes, I certainly won't hold back." Zhao Hai nodded. At this time, the dishes that the Demons prepared was also delivered. One has to recognize that although the Demons didn't have a lot, their food still had flavor that was different compared to the Ark Continent.

After having eaten their meal, Zhao Hai and the others returned to the Space's villa. Then Zhao Hai inspected the processing machine. The timer was still going on, everything was normal. Then after that, Zhao Hai looked at the situation of the spatial rift's defense, everything was also good. Then Zhao Hai changed the monitor to show the Atlanta Plane, he wanted to see what was going on there.

The Atlanta continent was still on the process of preparation. Zhao Hai saw plenty of things that they took care of. Besides military cargo, there were also items that Zhao Hai couldn't recognize. Some looked like magic armor parts and some seem to be the power source needed by the magic armors.

Zhao Hai discovered that the energy used by the magic armors was called energy crystal by the Atlanta continent's people. However, Zhao Hai has not yet figured out what this energy crystal was. But it should be more or less like Zhao Hai's crystal stones.

Zhao Hai's surveillance centered on Axe. But after this fellow went back to the family and attended the conference, he didn't do anything else. This caused Zhao Hai to be unable to see much further into magic armors.

After seeing the state of the Atlanta Plane, Zhao Hai reckoned they would need a few months before they can invade. This enables Zhao Hai to have some time to breathe.

While Zhao Hai was looking at the monitor, Cai'er flew towards Zhao Hai. She was carrying a map on her hands and stretched it out, "Young Master, look. This is the Demon Realm's map."

Zhao Hai looked at the map and said, "We mapped it this quickly? Good good. I'll give this to the Great Demon King. Then we'll take our iron armor beasts to open up mines in the Demon Realm."

After Zhao Hai gave the map to the Great Demon King, the Great Demon King immediately marked the ore deposits of the Demon Realm. Zhao Hai took the map back to the villa and immediately made Cai'er send the iron armor beasts to mine the ores.

One has to recognize how suitable the iron armor beasts were to mining. Their digging speed was very fast. Not even stone can stop their advance.

Moreover, these iron armor beasts weren't low level anymore. This caused them to have more wisdom. At this point, they didn't need a Dwarf guiding them in order to dig for ores.

The number of iron beasts in the space was quite a lot. In addition to being sent to the Demon Realm, Zhao Hai also sent a lot of them to mine in the Ark Continent. There were still some untapped mines

back there. Zhao Hai used to mine with his undead, however, their mining speed was not ideal. Zhao Hai only remembered about the iron beasts quite recently. With how fast the beasts were in mining, Zhao Hai had to recognize that they were indeed born to excavate.

After handling these matters, Zhao Hai discovered that the skies had turned bright. After a few more hours, it would be the opportune time to attack Holy Light City. Since there were still some mystery about the Divine Race being routed, Zhao Hai and the others need to attack Holy Light City. This would allow them to see whether the Divine Race were planning to lure them or they were just having trouble with defending.

Since there was still time left, Zhao Hai took the chance to look into the state of the Beastman Prairie. The situation wasn't looking great. At this point, the underworld had covered 80 percent of the prairie.

The speed of the dark mist was very fast. Suddenly, Zhao Hai had a thought. Didn't the hell background had a dark mist similar to the underworld? If this was the case, then can he use the underworld's dark mist to upgrade the hell background?

After thinking about it, Zhao Hai couldn't sit still. He immediately opened a rift and drew some dark mist into the Space.

After the underworld's dark mist entered, a prompt was suddenly heard, "Darkness attribute poison mist detected. Has aggressive properties. Has benefits towards darkness lifeforms and robots. Can improve hell background."

Zhao Hai laughed, he didn't expect his idea to actually work. This was great news.

However, Zhao Hai also knew that getting any more dark mist was useless. It's effects can only be gained on the first absorption.

But this was still good. If the dark mist was useful for the hell background, then wouldn't other things in the underworld be useful as well? If that was the case, then going to the underworld would have to be placed on the list.

After taking care of the dark mist, Zhao Hai discovered that the time was almost up. Zhao Hai switched the monitor off and then went to the Demon Space. The Demons were currently very busy. After all, they had just entered the Space, they still had plenty of things to take care of.

However, after the Great Demon King heard the situation from the Demon Dragon King, he didn't rest that evening and just took care of the matters of the Demon Race. At the very least, he had assigned people to various tasks.

Fortunately, taking care of things came quite easy because of the Space's environment. The Demons didn't need to worry about food and drink, this allowed them to focus on constructing their own homes.

When Zhao Hai arrived in the Demon Space, the Great Demon King and Demon Dragon King had almost finished their matters. Then Zhao Hai asked the Great Demon King to arrange the Devil Legion to the spatial rift where the defensive line was being rebuilt by the undead.

Currently the Devil Legion wasn't very strong, so Zhao Hai couldn't bear to let them enter the battlefield. Zhao Hai believed that the potential of this army was immeasurable.

Zhao Hai can cultivate powerful people in the Space. However, trained people who hadn't killed before will have limited performance during a fight. On the other hand, the Devil Legion were people brought up by mountains of corpses and seas of blood. Although their strength was low and couldn't express great fighting prowess, their potential was very high. Once they have the power, no person in the Space would be able to face them.

For Zhao Hai, the Devil Legion was a treasure, so having them fight at this time would be a waste. Because of this, he didn't have the Devil Legion participate in the upcoming fight. After the Devil Legion grows stronger, only then can they display their might.

People could experience rapid promotion, but their mental states couldn't be trained quickly. After they go to the battlefield, they may panic or even go crazy. The Devil Legion didn't have this problem. They had already fought many battles and had withstood the pressure of killing. What they lack right now was strength. But with Zhao Hai as their backer, it would be only need a short time before this issue is solved.

After taking care of the Devil Legion, Zhao Hai led the Great Demon King and Demon Dragon King into the Divine Realm. At the same time, Fei'er and the other had just eaten their meals.

After seeing Zhao Hai arrive, Fei'er and the others immediately went to greet them. But upon seeing the Devil's Chariot, their faces couldn't help but change. They could feel that the chariot was yet another Domain Weapon.

At this point, Zhao Hai already had his blood ghost staff. This was the weapon he was most comfortable with. He had handed it over to the Great Demon King before, now he had taken it back.

After Zhao Hai saw Fei'er and the others arrived, he smiled faintly and let go of the staff. The staff flew out front and then formed into a huge platform. In this platform, there were furnitures and other things such as teacups and pots. Whether it be furniture or utensils, all of them had a red translucent appearance, they looked quite attractive.

This startled Fei'er and the others once more. Fei'er had been with the Divine race for some time. But he hadn't seen nor heard of an artifact capable of doing this.

Zhao Hai beckoned his hand and then said, "Come toward the platform. Let's sit and have a talk." Then he led the Great Demon King and Demon Dragon King to sit. At the same time, Fei'er and the others looked at the platform and also stepped on it.

When the group had sat down, Zhao Hai took out some tea leaves and began to soak it with water in the teapot. After having settled, Zhao Hai gestured to the Great Demon King and said, "This is the Lord of the Demon Realm, the Great Demon King. I asked His Majesty today to help us break through Holy Light City. With two Domain Weapons, we should be able to take the city with ease."

Fei'er frowned and said, "Mister, the ship you used yesterday was quite strong. If you take that ship out, then wouldn't we be able to take the city in a blink of an eye?"

Zhao Hai smiled bitterly and replied, "I also wanted to use it. However, I can't right now. I discovered a weak point on the ship when I used it yesterday, so I decided to refine it once more. I won't be able to use it while it's being upgraded. If we want to use that ship, then we would need to wait for a couple of days."

Although Zhao Hai just blurted those words out like it was nothing, Fei'er and the others comprehended something else. In their opinion, the ship was already the world's most powerful weapon. However, such a weapon actually had a weak point in Zhao Hai's eyes. Moreover, he was even proceeding to upgrade it!

They looked at each other and saw the color of surprise on their eyes. However, Fei'er still kept his calm as he said, "That is also good. I believe that with two domain weapons, there would be no problems in taking the city. We've also sent people to contact our races. We've given them five days to return. Even if they have troubles, they can still see our situation and then return. But if they don't return in five days, then we can assume that an accident has happened."

Zhao Hai nodded and said, "Alright, then let's start taking over Holy Light City."

The group nodded before they left the platform to command their army, only the Great Demon King and Demon Dragon King remained. Currently, the Devil Legion was already guarding the defensive line. However, the undead were still going on with their work.

Zhao Hai looked at the two and then smiled before taking out a spatial bag and giving it to the Great Demon King. Then he said, "Your Majesty, after you head back to the Demon Space, give this to your people. This way, they'll have a way to message you whenever they need it."

The Great Demon King looked into the spatial bag and saw a lot of messenger fish bottles, numbering way more than ten thousand. The Great Demon King immediately looked at Zhao Hai and smiled, "Mister, thank you very much. This will be very useful for us." Zhao Hai smiled faintly and said, "At present, the messenger fishes have limited functions. Later on when we improve it, you can use the messenger fish to contact many people."

The Great Demon King smiled and said, "Its state right now is still very good. With them, my life would be much easier."

The Demon Dragon King smiled as well and said, "It surely will. Sending letters is sometimes very inconvenient. With the messenger fish, everything would be more convenient."

Zhao Hai smiled faintly and said, "I'll give some to Fei'er and the others as well. But not too many, just enough for them to command their army more efficiently. After all, they're still our allies."

The Great Demon King and Demon Dragon King laughed. At this time, Zhao Hai's platform slowly moved forward. Following the platform was the undead army. The Barbarian, Winged Pegasus, and Thunder Clan were also following closely behind. Their advance was slow, but in turn, they maintained a solid formation.

Although the army's advance wasn't quick, they were also quite close to Holy Light City. Before long, Zhao Hai could see a huge city in the horizon.

The city was huge, enough for more than 20 million people to settle in. Its walls reached a height of over a hundred meters, and panning about a thousand li(500km). It was bigger than the cities of ancient china by many folds.

Such a city can only appear in a world with magic, it was impossible for it to exist back on Earth.

At this time, the entire Holy Light City was surrounded by a layer of translucent light. They had already erected their formation and was ready to meet Zhao Hai's attack.

Zhao Hai slowly stood up and walked to the edge of the platform. He gazed at the city and exclaimed, "It's majestic. I'm afraid it's much bigger than your capital, Your Majesty. I didn't expect huge cities like these to exist in the Divine Realm."

The Great Demon King and Demon Dragon King also stood up and went to either side of Zhao Hai to look at Holy Light City. The Great Demon King exclaimed in surprise as well, "It's truly grand. No city in the Demon Realm and Ark Continent could compare to this one. I'm afraid only the Divines can make it. It seems like there are some truths to the greatness of the Divine Race."

Zhao Hai smiled faintly and said, "Their claim to be gods seems to hold some truth. However, they shouldn't have provoked me. Even if they are gods, they still wouldn't escape my revenge."

The Great Demon King and Demon Dragon King both laughed. They didn't think that Zhao Hai was joking, he did have the strength to back his words.

As they got closer to Holy Light city, the view got clearer and clearer. On the walls of the city were Divine Race soldiers. The walls were very wide, allowing more than soldiers to be occupied on top of it. Magic cannons and ballistas used to defend the city were also on the walls, ready to fire a full salvo when the fight starts.

Zhao Hai's platform stopped, causing the entire alliance army to stop as well. Their position was beyond the range of both magic cannons and ballista so they weren't worried of any attacks coming their way.

Then Zhao Hai had his platform move around the city. Holy Light City was indeed really good. The walls were made of stone and looked very tough.

After some time, Zhao Hai returned to his original position. At this time, Fei'er, Yue, and Shan had arrived at the platform. The three people didn't show their surprise, they were already used to seeing it.

Zhao Hai gave a spatial bag to each of them and telling them about the messenger fish. After that, he asked them, "What is Holy Light city's status in the Taurus Continent? Is it a big city in the Divine Realm?"

Fei'er was very happy upon receiving the messenger fish, and when he heard Zhao Hai, he immediately placed the bag aside and answered, "There aren't a lot of cities as big as Holy Light City in the Taurus Continent, only ten. As for its ranking, it's about at rank five. Shan, did I remember it correctly?"

Shan shook his head and said, "If I can remember, Holy Light City is 4th biggest in the Taurus Continent. Their biggest is Divine Will City, then Divine Purpose City, Divine Light City after that, fourth is Holy Light City, and fifth is Holy Earth City. Then the next five is Sacred Artifact City, Divine Scripture City, Divine Grace City, Taurus Holy City, and Holy Sea City."

Zhao Hai nodded and said, "What ranking is this based on? Is it by area or population?"

Fei'er nodded and said, "It's calculated based on both land area and population. The Taurus Continent's biggest city, Divine Will City, is said to be the place where the Deity first appeared. Therefore, it held great significance to the Taurus Continent. It's area is about twice as large as Holy Light City, but the population is roughly the same."

Zhao Hai nodded and said, "It's really amazing how they are able to make cities that big. Imagine the resources they needed to use."

Fei'er smiled bitterly and said, "The Divine Race spent a lot of manpower and materials in order to further expand their cities over the years. I even heard that when they conquered the Ark Continent, they would proceed to do their expansion once more. They would gather several people from the different planes to help them expand their cities."

Zhao Hai's expression turned cold, "They would use this method to exhaust the strength of our planes. So even if we want to resist them, then it would be impossible."

Fei'er sullenly nodded and said, "If not for this, we wouldn't have been anxious in rebelling. If we don't rebel, then we would be weakened forever. Actually, our move is too hasty, we weren't even able to make proper preparations. However, we don't have any other choice other than to make a move."

Zhao Hai nodded, he smiled faintly and then said, "However, the Divines didn't expect to encounter a problem in the Ark Continent. In their minds, they thought that the Ark Continent didn't have any God-ranks. As long as they change the laws of the plane, then it would be very easy to conquer the continent."

Fei'er and the others kept silent. They themselves knew that what Zhao Hai said was the truth since this was what they thought as well.

Zhao Hai looked at the time and then gave a nod. He looked at the others and then said, "It's time. Prepare the army. Your Majesty, Demon Dragon, it's time to show your strength. As long as you deal with the shield, then everything can be left to us. Fei'er, you and the others go back and wait for my signal." The group nodded and went on to prepare. Meanwhile, Zhao Hai stayed on the platform and stayed still. At this time, Demon Dragon and the Great Demon King returned to their carriages and then supported their Domains. The Demon Dragon King established his Black Dragon Domain, then the dragon's clawed hand grasped the sword chariot before throwing himself towards Holy Light City.

On the other hand, the Great Demon King's Domain was a giant devil. After his Domain turned into a giant, he grasped on the chains of the devil's chariot, turning the chariot into a large morningstar. After that, he also soared towards Holy Light City.

Those at Holy Light City didn't expect Zhao Hai to send two Domain Weapons after them. They thought Zhao Hai would use his magic cannons and javelins so they were very eager to teach him a lesson. Unfortunately for them, their plans had become useless.

The Great Demon King and Demon Dragon King arrived outside Holy Light City. They were completely unaffected by the magic cannons and the arrows. Demon Dragon held his sword and swung straight towards the city. The Great Demon King did the same thing with his morningstar.

Both attacks smashed towards the city, however the translucent shield just trembled slightly. It seems like the two attacks didn't affect the shield.

However, Zhao Hai didn't worry. Although the two attacks seem to have no effect, Zhao Hai can sense the shield weakening, it's power has been reduced by a lot. Zhao Hai believed that with a few more attacks the shield of the city will be broken through.

Zhao Hai also discovered that the Domain Weapons were able to block both the magic cannons and the ballista. Naturally, this was because Domain weapons were higher levelled items compared to the magic cannons and ballistas. Moreover, they reinforced one's Domain, this allowed the Great Demon King and Demon Dragon King to almost ignore all of the attacks from Holy Light City.

Just as Zhao Hai thought about how easy it would be for the Great Demon King and Demon Dragon King to break through, two figures suddenly appeared from Holy Light City. These two figures were two knight type Domains. Moreover, these two Domains held two spears in their hands.

The appearance of these two people made Zhao Hai stare. He didn't think that the Divine Race would prepare two Domain Weapons to deal with him.

In fact, Zhao Hai didn't know, but just like what Demon Dragon said, the Divine Race were prepared in dealing with Zhao Hai. They took the people from the town and villages into Holy Light City while arranging two Domain Weapons in the spatial right. However, Lu Wei suddenly gave word that he wanted to personally deal with Zhao Hai. Because of this, the Divine Race changed their plan and relocated the two Domain Weapons to Holy Light City. They believed that with Lu Wei present, the two Domain Weapons wouldn't need to be used.

Unfortunately, Lu Wei failed, causing Zhao Hai to continue his advance towards Holy Light City after routing the army. This caused them to be caught off guard.

Fortunately, the two Domain Weapons were stationed in the City. This caused the city to have some form of resistance. With the two Domain Weapons, Zhao Hai should be dealt with.

But unexpectedly, Zhao Hai's side had two Domain Weapons as well. This caused the two Domain Weapon experts to make a move ahead of time. These two were initially meant to deal with Zhao Hai, first they were relocated by Lu Wei, and now they have to deal with the two Demon experts. Their purpose had been driven back once more.

The Great Demon King and Demon Dragon King similarly didn't expect that the enemy would have two Domain Weapon experts. But since the two of them were veterans in battle, they immediately went and fought the enemies two on two.

Both the Great Demon King and Demon Dragon King were peak existences in the Demon Realm, nobody was stronger than them when it came to battles. For them to reach their current level meant that they were extremely rich with battle experience.

Similarly, those bearing Domain Weapons in the Divine Realm were elites of their clans who had fought in many battles. This fight had turned into an intense battle. There was no clear winner between two sides.

From what Zhao Hai saw, the Great Demon King held an advantage against his enemy while the Demon Dragon King was falling behind. Deciding this battle in a short period of time would be impossible.

Chapter 850 – Domain Weapon vs Domain Weapon!

Although Zhao Hai just blurted those words out like it was nothing, Fei'er and the others comprehended something else. In their opinion, the ship was already the world's most powerful weapon. However, such a weapon actually had a weak point in Zhao Hai's eyes. Moreover, he was even proceeding to upgrade it!

They looked at each other and saw the color of surprise on their eyes. However, Fei'er still kept his calm as he said, "That is also good. I believe that with two domain weapons, there would be no problems in taking the city. We've also sent people to contact our races. We've given them five days to return. Even

if they have troubles, they can still see our situation and then return. But if they don't return in five days, then we can assume that an accident has happened."

Zhao Hai nodded and said, "Alright, then let's start taking over Holy Light City."

The group nodded before they left the platform to command their army, only the Great Demon King and Demon Dragon King remained. Currently, the Devil Legion was already guarding the defensive line. However, the undead were still going on with their work.

Zhao Hai looked at the two and then smiled before taking out a spatial bag and giving it to the Great Demon King. Then he said, "Your Majesty, after you head back to the Demon Space, give this to your people. This way, they'll have a way to message you whenever they need it."

The Great Demon King looked into the spatial bag and saw a lot of messenger fish bottles, numbering way more than ten thousand. The Great Demon King immediately looked at Zhao Hai and smiled, "Mister, thank you very much. This will be very useful for us." Zhao Hai smiled faintly and said, "At present, the messenger fishes have limited functions. Later on when we improve it, you can use the messenger fish to contact many people."

The Great Demon King smiled and said, "Its state right now is still very good. With them, my life would be much easier."

The Demon Dragon King smiled as well and said, "It surely will. Sending letters is sometimes very inconvenient. With the messenger fish, everything would be more convenient."

Zhao Hai smiled faintly and said, "I'll give some to Fei'er and the others as well. But not too many, just enough for them to command their army more efficiently. After all, they're still our allies."

The Great Demon King and Demon Dragon King laughed. At this time, Zhao Hai's platform slowly moved forward. Following the platform was the undead army. The Barbarian, Winged Pegasus, and Thunder Clan were also following closely behind. Their advance was slow, but in turn, they maintained a solid formation.

Although the army's advance wasn't quick, they were also quite close to Holy Light City. Before long, Zhao Hai could see a huge city in the horizon.

The city was huge, enough for more than 20 million people to settle in. Its walls reached a height of over a hundred meters, and panning about a thousand li(500km). It was bigger than the cities of ancient china by many folds.

Such a city can only appear in a world with magic, it was impossible for it to exist back on Earth.

At this time, the entire Holy Light City was surrounded by a layer of translucent light. They had already erected their formation and was ready to meet Zhao Hai's attack.

Zhao Hai slowly stood up and walked to the edge of the platform. He gazed at the city and exclaimed, "It's majestic. I'm afraid it's much bigger than your capital, Your Majesty. I didn't expect huge cities like these to exist in the Divine Realm."

The Great Demon King and Demon Dragon King also stood up and went to either side of Zhao Hai to look at Holy Light City. The Great Demon King exclaimed in surprise as well, "It's truly grand. No city in the Demon Realm and Ark Continent could compare to this one. I'm afraid only the Divines can make it. It seems like there are some truths to the greatness of the Divine Race."

Zhao Hai smiled faintly and said, "Their claim to be gods seems to hold some truth. However, they shouldn't have provoked me. Even if they are gods, they still wouldn't escape my revenge."

The Great Demon King and Demon Dragon King both laughed. They didn't think that Zhao Hai was joking, he did have the strength to back his words.

As they got closer to Holy Light city, the view got clearer and clearer. On the walls of the city were Divine Race soldiers. The walls were very wide, allowing more than soldiers to be occupied on top of it. Magic cannons and ballistas used to defend the city were also on the walls, ready to fire a full salvo when the fight starts.

Zhao Hai's platform stopped, causing the entire alliance army to stop as well. Their position was beyond the range of both magic cannons and ballista so they weren't worried of any attacks coming their way.

Then Zhao Hai had his platform move around the city. Holy Light City was indeed really good. The walls were made of stone and looked very tough.

After some time, Zhao Hai returned to his original position. At this time, Fei'er, Yue, and Shan had arrived at the platform. The three people didn't show their surprise, they were already used to seeing it.

Zhao Hai gave a spatial bag to each of them and telling them about the messenger fish. After that, he asked them, "What is Holy Light city's status in the Taurus Continent? Is it a big city in the Divine Realm?"

Fei'er was very happy upon receiving the messenger fish, and when he heard Zhao Hai, he immediately placed the bag aside and answered, "There aren't a lot of cities as big as Holy Light City in the Taurus Continent, only ten. As for its ranking, it's about at rank five. Shan, did I remember it correctly?"

Shan shook his head and said, "If I can remember, Holy Light City is 4th biggest in the Taurus Continent. Their biggest is Divine Will City, then Divine Purpose City, Divine Light City after that, fourth is Holy Light City, and fifth is Holy Earth City. Then the next five is Sacred Artifact City, Divine Scripture City, Divine Grace City, Taurus Holy City, and Holy Sea City."

Zhao Hai nodded and said, "What ranking is this based on? Is it by area or population?"

Fei'er nodded and said, "It's calculated based on both land area and population. The Taurus Continent's biggest city, Divine Will City, is said to be the place where the Deity first appeared. Therefore, it held great significance to the Taurus Continent. It's area is about twice as large as Holy Light City, but the population is roughly the same."

Zhao Hai nodded and said, "It's really amazing how they are able to make cities that big. Imagine the resources they needed to use."

Fei'er smiled bitterly and said, "The Divine Race spent a lot of manpower and materials in order to further expand their cities over the years. I even heard that when they conquered the Ark Continent, they would proceed to do their expansion once more. They would gather several people from the different planes to help them expand their cities."

Zhao Hai's expression turned cold, "They would use this method to exhaust the strength of our planes. So even if we want to resist them, then it would be impossible."

Fei'er sullenly nodded and said, "If not for this, we wouldn't have been anxious in rebelling. If we don't rebel, then we would be weakened forever. Actually, our move is too hasty, we weren't even able to make proper preparations. However, we don't have any other choice other than to make a move."

Zhao Hai nodded, he smiled faintly and then said, "However, the Divines didn't expect to encounter a problem in the Ark Continent. In their minds, they thought that the Ark Continent didn't have any God-ranks. As long as they change the laws of the plane, then it would be very easy to conquer the continent."

Fei'er and the others kept silent. They themselves knew that what Zhao Hai said was the truth since this was what they thought as well.

Zhao Hai looked at the time and then gave a nod. He looked at the others and then said, "It's time. Prepare the army. Your Majesty, Demon Dragon, it's time to show your strength. As long as you deal with the shield, then everything can be left to us. Fei'er, you and the others go back and wait for my signal." The group nodded and went on to prepare. Meanwhile, Zhao Hai stayed on the platform and stayed still. At this time, Demon Dragon and the Great Demon King returned to their carriages and then supported their Domains. The Demon Dragon King established his Black Dragon Domain, then the dragon's clawed hand grasped the sword chariot before throwing himself towards Holy Light City.

On the other hand, the Great Demon King's Domain was a giant devil. After his Domain turned into a giant, he grasped on the chains of the devil's chariot, turning the chariot into a large morningstar. After that, he also soared towards Holy Light City.

Those at Holy Light City didn't expect Zhao Hai to send two Domain Weapons after them. They thought Zhao Hai would use his magic cannons and javelins so they were very eager to teach him a lesson. Unfortunately for them, their plans had become useless.

The Great Demon King and Demon Dragon King arrived outside Holy Light City. They were completely unaffected by the magic cannons and the arrows. Demon Dragon held his sword and swung straight towards the city. The Great Demon King did the same thing with his morningstar.

Both attacks smashed towards the city, however the translucent shield just trembled slightly. It seems like the two attacks didn't affect the shield.

However, Zhao Hai didn't worry. Although the two attacks seem to have no effect, Zhao Hai can sense the shield weakening, it's power has been reduced by a lot. Zhao Hai believed that with a few more attacks the shield of the city will be broken through.

Zhao Hai also discovered that the Domain Weapons were able to block both the magic cannons and the ballista. Naturally, this was because Domain weapons were higher levelled items compared to the magic cannons and ballistas.
