

Another World 911

Chapter 911 – Connecting Heaven Palace? Attack it!

Looking at the lights on the shore, Zhao Hai was unexpectedly calm. He knew that as the leader of their team, he couldn't show too much emotion or else it would affect the morale. Fortunately, Zhao Hai had other people to take command. Zhao Hai really didn't have the talent for strategy.

At the same time, Bingya and the others also came out of their rooms. Their expressions were tinged with excitement.

As members of the Foreign Races, they had never dreamed that they would be able to attack the capital of the Central Continent. This was something impossible for them before, but now they were actually here. How could they not feel excited?

Zhao Hai wasn't anxious. He stood quietly on the Hell King's ship as he looked at the shore. Slowly, the clamor became smaller and smaller, the people on the shore becoming less and less. Before long, the place had gone quiet while the lights had become sparse.

Zhao Hai was still unmoving. This caused Bingya and the others to be anxious. They looked quite uneasy. In the end, Bingya couldn't help but take a step forward and approach Zhao hai.

After Bingya arrived by Zhao Hai's side, Zhao Hai looked at him and said, "What's wrong? Worried?"

Bingya gawked, then he immediately nodded and said, "I'm quite worried."

Zhao Hai smiled faintly and said, "Don't think about it too much. People had just fallen asleep. It's possible that there are some people who are still up. We can't risk being discovered at this time. Let's wait, then we make our move."

Bingya nodded and didn't speak anymore. However, he was still somewhat restless as he walked back and forth. Zhao Hai gave him a glance a few times before he said, "Just calm down. At this time, the one who has a weaker heart would take the bigger blow. In any case, we're already here, they cannot run no matter what they do."

Bingya and the others' faces turned red as they turned speechless. Their mood was totally different from Zhao Hai's. In the past, they were always the ones being attacked by the Divines. Now, it was the Divines who were going to be attacked.

After waiting for about an hour, the shores finally became completely peaceful. Seeing that there were less lights, Zhao Hai knew that the time has come. He turned to Bubble and said, "Bubble, let's go up." Bubble complied as they ascended towards the river's surface.

Bubble went up until he finally separated from the river. Bit by bit, he went towards the sky. Due to being small, it was close to impossible to spot Bubble. Because of this, he managed to attract no attention.

Upon reaching the skies, Zhao Hai immediately made Bubble withdraw. After that, he increased the Hell King's ship's size.

At the same time, they were also flying horizontally along the Central Continent. They were heading towards a place with red lights. Zhao Hai knew that this wasn't the sky being red. Instead, it was a reflection coming from the city with no evenings, Central City.

In less than an hour, Zhao Hai arrived outside the city. This city was incredibly big. Zhao Hai looked dumbfoundedly at its size, he couldn't even estimate how many people were inside such a settlement.

After some time, Zhao Hai recovered. Then he looked at the city and bitterly smiled. It was because he can see huge letters on the city's gates that spelled, Central!

With these letters, nobody would suspect that this was Central City. However, what made Zhao Hai surprised was the construction of the city. There were broken walls, and there were places with no walls, disconnecting the line altogether. It looked more like a cultural site than a completely defendable establishment.

Such a city was both good and bad news. It was good because there were no walls to block them. But it was bad because there definitely were key place that needed to defended in this city. It was only hard to spot because of the city's structure.

But before long, Zhao Hai managed to find his target. In the center of the city was a very high mountain. On the mountain were palaces. Of all the sectors in Central City, this area had the most magnificent lighting, it looked like the Imperial Palace of the Central Continent.

While Zhao Hai was pondering over this, Bingya suddenly exclaimed, "Central Continent's Connecting Heaven Palace!"

Zhao Hai turned to Bingya and said, "Connecting Heaven Palace?"

Bingya nodded, his two eyes shining as he said, "There was no mountain there in the first place. But later on, the people of the Central Continent used a lot of experts to build that mountain there. The mountain symbolizes that the palace can connect to the heavens."

Zhao Hai smiled faintly and said, "Connecting Heaven Palace, interesting. Let's attack that place today. Bingya, get ready. I'm afraid we'll be spotted as soon as we enter the city. We'll go with the fastest speed and head directly to the mountain. I want to lay waste to that palace."

When Bingya and the others heard Zhao Hai, they immediately got up and got excited. Connecting Heaven Palace was the face of the Central Continent. Thinking about that place being ruined would naturally make them feel excitement.

Zhao Hai also made his preparations as he took his staff out and called Cai'er over. He didn't dare treat this matter lightly. The last time, Zhao Hai was separated from Cai'er. Thinking about this made Zhao Hai wipe a cold sweat. He needed to be ready for any encounter.

Zhao Hai didn't send Bubble back to the Space. Bubble was now resting on top of his head.

Inside the Hell King's ship, there were also massive amounts of undead prepared. If the other party uses another method to disconnect him from the Space, then the undead on board would at least provide him with some support.

After everything was prepared, Zhao Hai began to lead the Hell King's ship to move forward. When the ship crossed the city's walls, the word 'Central' began to make grating squeals. Along with the squeal were red lights flashing all around the city, warning the populace of an incoming danger.

Zhao Hai didn't expect the city's defenses to be this good. Although the walls were torn down, the warning system was actually still this sensitive. Moreover, the range of this alarm encompasses the whole torn down wall. Immediately after an intruder passes the walls, the alarm would immediately blare up.

However, what happened next made Zhao Hai confused. In Zhao Hai's mind, since Central City's alarms were this developed, then it meant that its citizens and soldiers were similarly as alert. But instead, the reaction of the people inside the city was very strange. All of them wore their clothes as they went out with expressions of confusion and anxiety. They were looking around blankly while the alarm was sounding out.

Aside from the residents, the army also disappointed Zhao Hai. Their response was too slow. Zhao Hai had noted several garrisons around the city. However, he didn't care much about them. His present target was Connecting Heaven Palace. These military compounds were not his priority.

After the alarm sounded out, the soldiers actually had the same response as the commoners. They were somewhat at a loss upon hearing the alarm. Even the senior officers had the same response.

Upon seeing this situation, Zhao Hai was shocked. The army that would protect this city was actually this incompetent. Zhao Hai couldn't help but feel disappointed at the Divines.

However, this was a good thing for Zhao Hai. He didn't care about them anymore as he led the Hell King's ship towards Connecting Heaven Palace at the quickest speed.

Compared to before, the Hell King's ship's speed was much greater. The commoners could only feel a flash of shadow above them as it passed by. Even if they wanted to look for it, their eyes wouldn't be able to catch up.

Although Central City was very big, the Hell King's ship managed to quickly arrive by Connecting Heaven Palace. The army stationed inside Connecting Heaven Palace actually had a faster response compared to those soldiers outside. Because of this, the palace's defenses have been established. Their magic cannons were also at the ready.

During his fights back at the Taurus Continent, after crashing into the Divine Race's base, Zhao Hai discovered that he really preferred to destroy his enemy in the most violent and simple way. He felt like it was more satisfying that way.

The troops inside Connecting Heaven Palace soon discovered Zhao Hai's ship. Naturally, since the ship was very fast, the moment the troops decided to make an attack was the moment the ship hit their magic shield. While the troops were dumbfounded, the Hell King's ship proceeded to bulldoze the shield defending the palace.

The protective shield around Connecting Heaven Palace can be said to be the most firm defense in all of the Divine Race territories. The defense uses God-rank magic beast cores as power while other cities only used 9th rank cores. The disparity on both was naturally clear.

However, this firm defense was actually treated by the Hell King's ship as mere paper as it broke through with little to no difficulty. After that, the Hell King's ship hit a wall and drove through it. The wall didn't even scrape the ship as a huge hole bore into it.

And the Hell King's ship didn't stop there. After boring a hole through the wall, the ship kept advancing. Everything in front of it was demolished, houses, walls, people, it didn't matter. The Hell King's ship was like a bullet being shot through a watermelon. The ship headed forwards and continued on towards the mountain where Connecting Heaven Palace was. It was intent on going through it!

Chapter 912 – They Should've Thought About It Long Ago!

Boom! A heaven-shaking sound was heard, shaking the entire Central City. The people who were awoken by the alarm and had come out saw their holy place being penetrated by a golden light.

These people didn't know what just happened, they were dumbfounded for some time. What was going on? Was the Deity punishing them?

While they were puzzled, that golden light made a turn-around, heading towards Connecting Heaven Palace once more. This time, people were able to see it clearly. It was actually a huge golden ship!

What made the Divines dumbfounded was that this ship was like a child that had found a new fun toy to play with. It hit the Connecting Heaven Palace again and again. It started at the top of the mountain and gradually went down. Their prided mountain was being smashed to pieces.

Every Divine had lost the ability to think. They didn't know what was happening. They didn't know what the ship was doing and why was it attacking the palace.

At this moment, the soldiers of Central City finally responded. All Divine soldiers took their weapons and went towards the palace with the quickest speed they could muster.

These soldiers knew what the destruction of the Connecting Heaven palace meant. Losing the palace meant losing the dignity of the Central Continent. It would be a huge blow to the Central Continent.

At this point, the Divine soldiers had gone mad. They all rushed towards the palace and tear apart the one who dared to make an attack.

However, the soldiers had no opportunity to do so. Connecting Heaven Palace was not a natural mountain, it was artificially made. In terms of strength, it was still inferior to ones made by nature. After being hit by the Hell King's ship multiple times, the mountain finally couldn't withstand it and just collapsed.

But Zhao Hai wasn't finished, he didn't intend to let anybody go. He commanded the ship's cannons to shoot towards the palace's direction. All the Divines who flew out of the mountain were killed on the spot.

This time, Zhao Hai can finally see how the improved magic cannons performed. If the previous cannons of the ship were to be ordinary magic cannons of the Ark Continent, then the improved cannons were like the huge cannons of the Divine Race.

The Hell King's ship's cannons weren't just a bit more powerful. In fact, in the ship's recent upgrade, the cannons received the greatest improvement in power.

First, the cannons' materials have changed. The magic cannons that Zhao Hai used were made by iron, making them useless after being used for some time. However, the magic cannons of the Hell King's ship were now made from specially synthesized materials. Its strength had increased by a lot. Even if they were used for a long time, they would still remain undamaged.

Second, the raw power used by the cannons. Zhao Hai's cannons used magic crystals as a power source. On the other hand, the Hell King's ship's cannons used the yin-yang pond as a power source. The energy contained inside the yin-yang pond was much greater compared to the energy inside magic crystals. With this, it was natural for the Hell King's ship's cannons to be more powerful.

And third, the magic armors that Zhao Hai gained helped a lot. Although Zhao Hai didn't have the time to study the magic armors and just handed them over to Karen, the magic formations on those armors were still used to improve the Hell King's ship. The magic formations on the magic armors helped the cannons to increase their output. Among the three improvements, this one was the one that benefitted the cannons the most.

At this time, Zhao Hai was confident that as long as the cannons hit a God-rank expert, then that expert would certainly die. If ten magic cannons combine their power, then even Supreme Elders in their ultimate weapons wouldn't be able to block them.

Zhao Hai had the ship circle around the rubble that was Connecting Heaven Palace. Every Divine they discovered were immediately attacked and killed. Even if there weren't any people in sight, the cannons were still firing. Everything that was the Connecting Heaven Palace was destroyed, nothing good was left.

This process might look like it took a long time, but everything had just happened in less than an hour. In this one hour, Central City's soldiers had slowly encircled the Hell King's ship.

After Zhao Hai saw that the Connecting Heaven Palace was almost destroyed, he decided to leave. He turned the ship and went straight to the Divine Race Soldiers.

When the troops saw that Zhao Hai was heading towards them, instead of retreating, they actually proceeded to clash. They took up their arms and charged towards the Hell King's ship. They were like warriors carrying swords and spears charging towards an enemy tank.

Zhao Hai didn't care about these soldiers. He wasn't planning to fight with these people as he just drove the ship through them. The golden streak of light vanished from the horizon soon after, leaving the maddened soldiers with nothing to do.

At this time, the commoners started to respond. They wept and wailed as they ran towards the Connecting Heaven palace. The palace was too important for the people living in the Central Continent. This was their source of energy, their pride. But under their gazes, it was mercilessly destroyed. Nothing noteworthy was left.

The Divines began to congregate towards the place where the palace was located. The majestic structure was destroyed, not even a tile was left. All of the Divines in the capital cried. There were even some soldiers who couldn't bear the thorn in their hearts and committed suicide.

The symbol of the Central Continent, the pride of the Central Continent, the strength of the Central Continent, the Connecting Heaven Palace has been destroyed. And the culprit was Zhao Hai!

After Zhao Hai's assault on Central City, he got rid of the pursuers before returning to Divine Gift River. Then he had Bubble surround the ship and sank to the bottom of the river without coming out.

The duration of the assault was too short. It only took an hour or so from beginning to end. To be honest, Bingya and the others weren't expecting Zhao Hai to use this method to deal with the palace. Before they could even move their hands, Zhao Hai had already made an attack and the battle was over.

Actually, it wasn't only Bingya's team, Laura and the others weren't expecting Zhao Hai to do this as well.

In fact, Zhao Hai didn't think that this was what he would be doing too. After he heard Bingya mention the Connecting Heaven Palace, he was suddenly struck by an idea.

Connecting Heaven Palace was a symbol of the Central Continent's strength. If it was destroyed by him, then it would certainly be a huge blow to the Central Continent. Even if Elder Star was quite the schemer, he would still be compelled to return to the Central Continent to handle this matter. Otherwise, the Central Continent would be sunk into chaos.

The Divines were proud, and this was even more true for those who lived in the Central Continent. With how resounding the slap that Zhao Hai gave them, nobody could blame the Central Divines if they were to go insane.

In this case, if Elder Star didn't make a move, then the Central Divines would meet their end. Because of this, Zhao Hai decided to demolish the Connecting Heaven Palace. With this, Elder Star should be forced to return to the Central Continent.

After Bubble sank to the bottom of the river, Zhao Hai finally gave out a sigh of relief. He was really afraid that the Divines would use a special weapon to deal with him. But now, it seems like his worries were unnecessary.

Bingya's team, as well as Laura and the others stood by Zhao Hai's side. When Laura saw Zhao Hai sighing in relief, she smiled and said, "Brother Hai, were you really that nervous?"

Zhao Hai turned to Laura and smiled bitterly, "Really nervous. It's natural, we're in the Central Continent, a place known as the most formidable in the Divine Realm. Moreover, we are attacking its capital city. How can I not be nervous? However, it's great that they weren't as formidable as we thought."

Bingya looked at Zhao Hai, his eyes shone as he said, "Mister, did you know how important the Connecting Heaven Palace was? Not only in the Central Continent, but the entire Divine Race looked up to it. Connecting Heaven Palace was the Divine Race's symbol of authority and strength. Now that Mister destroyed it, then it meant that Mister has announced his eternal enmity against the Divine Race."

When he heard Bingya, Zhao Hai couldn't help but smile bitterly, "When the Divines attacked the Ark Continent, they should've known that our enmity is irreconcilable. This is just the start!"

Bingya didn't know what to say. Zhao Hai surely had the strength to back up his words. If those words came out from another person's mouth, then people would just laugh at them. Upon hearing Zhao Hai, Bingya suddenly felt that the Divine Realm might have no Divines left in the future!

After seeing that Bingya had stayed silent, Zhao Hai opened his mouth and said, "Bingya, tell your people about what just happened. Remind them to be extra alert. After knowing what we just did, it's possible that all the Divines would go crazy. If they couldn't find us, then they might shift their rage to your clans. Have your people tread carefully."

Bingya's expression changed, then he made a nod. He knew that Zhao Hai was telling the truth. After knowing this information, the Divines would surely go mad. They will rush to the Central Continent to look for Zhao Hai. And if they failed to find Zhao Hai, then they would shift their attention to the foreign races, given that Zhao Hai was allied with them. The foreign races might have a bad time coming.

Zhao Hai waved his hand and said, "Alright, go take a rest. Have your people help us in paying attention to the Divine Race's response. The more details, the better."

Bingya nodded before returning to his room along with Ryder and Yehta. They immediately relayed the information to their clans, telling them about the event that happened in the Central Continent. They instructed their people to be ready at all times.

After seeing Bingya and the others leaving, Zhao Hai turned to Laura and said, "Inform Fei'er about this as well. Tell them that they might suffer for a while."

When Laura heard Zhao Hai say this, she paused for a moment before her eyes shone, "Brother Hai, are you ready to make a move on the three clans?"

Zhao Hai smiled faintly and said, "It's about time, isn't it?"

Chapter 913 – Elder Star's Plan

Elder Star quietly stood on the balcony of his room. He was currently in the Leo Continent's Imperial Palace.

The structure of this Palace was very grand, but compared to Connecting Heaven Palace, it still had some shortcomings. However, Elder Star didn't care. Although he lived in Connecting Heaven Palace, he settled on a small side residence. He didn't involve himself in politics, he just stayed in cultivating. He was waiting to ascend one day.

At this time, if it wasn't for Jie Yu's letter asking for his help, he wouldn't have come out. He knew that he was required this time.

Zhao Hai's strength was something that surpassed his imagination. In the past, Elder Star wouldn't have even thought that a person would be able to escape an attack made by five Supreme Elders. They made ample preparations for the ambush. The enemy was even captured inside Sealing Star Disk. However,

the enemy was actually able to come out! Moreover, after withdrawing, he even managed to destroy their base.

This person was too dangerous! After clashing with Zhao Hai, Elder Star understood how terrible Zhao Hai was. Elder Star believes that if Zhao Hai keeps being in the Divine Realm, then the entire Divine Race would be endangered.

Not only was Zhao Hai strong, he was also vicious and merciless.

The people of the Taurus Continent has been slaughtered by Zhao Hai. It was startling even for Elder Star.

Naturally, Elder Star knew about what the Taurus Divines did back in the Ark Continent. However, Elder Star was a member of the Divine Race, and he had the pride of a Divine. In his view, the people of the Ark Continent were lesser beings. It didn't matter how many of those people were slaughtered. It was just like how people from the Ark Continent didn't treat slaves as equals. The Divines didn't look at the people from the Ark Continent as beings that were on the same level.

But after Zhao Hai's slaughter, Elder Star began to feel a sense of dread.

If Zhao Hai wasn't dealt with soon, then more Divines would fall.

There were two reasons why Elder Star decided to eliminate Zhao Hai. First was the rebellion of the Thunder Clan, Barbarians, and the Winged Pegasus , and second was the alliance with the foreign races.

The rebellion of the three clans had caused the large scale rebellion of the Divine Realm's vassal races. This effect can still be felt up to this time. There were still people from the other continents that were yet to deal with their vassal races. The Divines were caught unprepared.

Next was the alliance with the foreign races. The battle between the foreign races and the Divine race had lasted for tens of thousands of years. Their hatred for each other has been engraved on their bones. In this case, if Zhao Hai cooperates with the foreign races and succeed, then what would happen to the Divines?

Because of these reasons, Elder Star has to cooperate with the other Supreme Elders in order to eliminate Zhao Hai.

Just like what Zhao Hai guessed, Elder Star and the others' deployment of the troops was a ploy. Zhao Hai had fought with Gold Ben before and the Taurus Divines also clashed with Zhao Hai back in the Ark Continent. Therefore, they already have some sort of information about Zhao Hai. They had discovered that Zhao Hai was a sly person. If the Divines were to really attack the foreign races, then Zhao Hai definitely wouldn't help. Instead, Zhao Hai would just go to the Divine Race continents and cause trouble. And when the Divines retreat, they would also need to watch for their backs.

Because of this, Elder Star needed to make advance preparations. After studying Zhao Hai, he found out that Zhao Hai was a person who didn't like taking risks. He would carefully plan things out before making the first step. Elder Star knew that Zhao Hai wouldn't support the Foreign Races if the Divines were to attack them. So Elder Star decided to speak his words back in the Taurus Continent. However, it can be said that it wasn't a planned act. Only Elder Star was pretending, the others weren't.

Elder Star only thought about this plan when he was on his way to the Taurus Continent so he didn't have time to discuss it with the others. Because of this, he could only act by himself. Only after they retreated from the Taurus Continent did he reveal his plan to the others.

Elder Star did all of these because he discovered that Zhao Hai seemed to be one step ahead of them at all times. Therefore, Elder Star suspected that Zhao Hai might have a method to monitor them.

This thought stemmed from what happened with the second supply transport. Although they wanted to deal with Zhao Hai, they still decided to change their course. Delivering the supplies was much more important than facing Zhao Hai.

However, even if they changed their route, Zhao Hai was still able to encounter them. If Zhao Hai didn't have means to monitor them, then this outcome wouldn't have happened.

Elder Star didn't know how Zhao Hai did it, but he still didn't dare to take it lightly. In the end, he chose a conservative approach and deceived everyone. It wouldn't be too late to discuss things when they return to their territory.

Therefore, Elder Star and the others only discussed after reaching the Leo Continent. The reason Elder Star dared to do his current plan was because he has a treasure in his hands.

Without this treasure, Elder Star's plan would've been impossible to accomplish. One can say that they were already on the path of defeat from the very beginning. Of the 13 Continents in the Divine Realm, three of them belonged to the foreign races while one has been conquered by Zhao Hai. This left nine continents for the Divine Race. And the Divines were also left with 9 Supreme Elders. The Scorpio Supreme Elder had already fallen into Zhao Hai's hands. This loss also informed Elder Star about Zhao Hai's strength.

1 or 2 Supreme Elders wouldn't be a threat to Zhao Hai. Instead, it would be a gift to him. Because of this, Elder Star decided that everyone would move as one. With the strength of 9 Supreme Elders, Zhao Hai would surely be destroyed.

However, an issue had arisen with this arrangement. With nine people going together, this meant that all of them could only stay in one continent. If Zhao Hai chose to attack a continent besides where the Supreme Elders were, then the Supreme Elders wouldn't be able to do anything.

In the end, when Elder Star presented his treasure, the other Supreme Elders began to feel relief. The treasure that Elder Star had was known as the Seven Star Heaven Lock.

This treasure was actually several formation disks. It looked like the Star Sealing Disk but has inferior offense. The Sealing Star Disk can injure the enemy while the Seven Star Heaven Lock can only trap them.

If one talks about killing the enemy, then the Sealing Star Disk was naturally very formidable. Moreover, with more Ultimate Weapons, the disk would become more powerful.

But if one wanted to seal a person, then the Sealing Star Disk was actually inferior to the Seven Star Heaven Lock. The Seven Star Heaven Lock was divided into eight formation disks; the seven stars and the core.

And these eight disks can be used separately. Even if they were used individually, as long as the Seven Star Heaven Lock formation was established, the effects would manifest. Moreover, its might wasn't low.

Elder Star took this set of formation disks and gave one to each continent. The continents would house these disks and as long as they use it to surround Zhao Hai for several days, then the Supreme Elders can rush over and deal with him.

The reason why Elder Star was confident that these disks can surround Zhao Hai was due to the testing that he did before. These formation disks have their own characteristics. Once one was trapped inside a Seven Star Heaven Lock formation, then one would be trapped inside for seven days. Elder Star had tried it before, no matter if it was a Supreme Elder or an ordinary person, one could only be trapped for seven days, and nobody was able to break the formation. If two formation disks were used, then the trap would last 14 days. If three, then 21 days, and so on. If one uses eight formation disks, then the victim would be trapped for 56 days. After 56 days, whether the victim was dead or alive, the formation would unravel. Only when the formation was set up once more could it be used again.

Elder Star used this formation one time to trap the three Foreign Race Supreme Elders for 56 days. That was the time where the foreign races suffered the heaviest loss. If not for Elder Star being unsure of eliminating the three Supreme Elders, then the foreign races would have surely been slaughtered.

Because of the Seven Star Heaven Lock, Elder Star was assured that they could deal with Zhao Hai. In his opinion, no matter which continent Zhao Hai attacked, he would still be surrounded and trapped. Seven days was enough for the Supreme Elders to travel to any continent and eliminate Zhao Hai.

And just to be sure, in addition to the true Seven Star Heaven Lock, Elder Star also made imitations of the treasure. However, these imitations weren't very useful. If these imitations were to trap Zhao Hai, then they would only last a short time.

However, a short time was a huge factor when it came to the battlefield. If Zhao Hai was trapped inside an imitation, then the one who held the true formation disk would be able to go to where Zhao Hai was and trap him. After that, Elder Star and the others would soon arrive to kill Zhao Hai.

This plan was very good. Naturally, there was a Seven Star Heaven Lock disk in the Central Continent. However, whether they be an ordinary Divine or Elder Star, nobody expected Zhao Hai to attack the Central Continent. This was because it was very far from where Zhao Hai was. Zhao Hai wanted to solve the attack on the foreign races, but attacking the Central Continent was the slowest method. Because of this, nobody expected Zhao Hai to target the Central Continent. Instead, he would choose a continent that was much closer to the Taurus Continent.

Besides these arrangements, Elder Star also informed all of the Fishmen to thoroughly monitor the seas. As soon as they spot Zhao Hai, they would immediately make a report.

The Fishman Race's news was the quickest in the Divine Realm. Therefore, Elder Star was confident in his plan to deal with Zhao Hai.

However, despite all of these, Elder Star still couldn't help but feel uneasy. Their army had already departed and had clashed with the foreign races. Yet there still weren't any news about Zhao Hai. This caused Elder Star to feel restless.

He reviewed his plan carefully once more and there shouldn't be any flaws. This allowed him to loosen up a bit.

At this time, the sound of rapid footsteps can be heard.

Chapter 914 – Maddened Divine Race

Naturally, Elder Star was able to hear those footsteps. Judging by the cadence on each step, it should be Gold Ben. Gold Ben was now a stray dog. His strength was inferior to Elder Star, and now he had become the Elder's faithful subordinate. This was because Gold Ben knew that if there was someone that can help him take revenge in the Divine Realm, then it would be Elder Star.

This didn't pertain to Elder Star's strength, instead it was because of his identity. Elder Star was the Supreme Elder of the Central Continent, he was a Supreme Elder that held more power compared to the other Supreme Elders. Because of this, the Supreme Elders have him as their center. If Gold Ben wanted to have his revenge, then he can only depend on Elder Star to organize the other Supreme Elders. Only Elder Star had this ability.

Gold Ben was a decisive person. He was very willing to be Elder Star's subordinate in order to make Elder Star move.

Because of this, when Elder Star heard that it was Gold Ben, he went back to standing in the balcony. He thought that since Gold Ben has come, then Zhao Hai should have appeared.

Gold Ben entered the room. When he saw Elder Star just posing there, he didn't know whether he should laugh or cry. In the past, Gold Ben didn't know about Elder Star's temper since they didn't have

much contact. But now, Gold Ben discovered that Elder Star wanted to make poses in order to highlight his extraordinary points. Elder Star was doing that same thing right now.

“I don’t know if he can still make a pose when he hears this news.” Gold Ben thought of this as he walked towards Elder Star.

Elder Star didn’t wait for Gold Ben to open his mouth as he asked, “What happened? Did you find any traces of Zhao Hai?”

Gold Ben nodded and said, “Yes, Zhao Hai has appeared. He attacked the Central Continent and ruined the Connecting Heaven Palace. The mountain was knocked down by his ship. From what I had heard, nobody from the palace survived.”

Elder Star just stood there and quietly listened. Seeing little reaction from Elder Star, Gold Ben actually started to admire him.

But at this moment, Elder Star turned around, fierce expression plastered on his face. He glared at Gold Ben and said, “What did you just say? Zhao Hai attacked what?”

Gold Ben couldn’t help but scold his heart. He really thought that Elder Star had a good control over his emotions. As it turns out, he was just too stunned to respond.

Although he had unspoken criticisms, Gold Ben repeated his report. Although it was already his second time hearing this, Elder Star stood there, looking at Gold Ben. Then Elder Star muttered, “This, how can this be possible? Didn’t the Connecting Heaven Palace have a Seven Star Heaven Lock disk? How can this happen?”

Gold Ben shook his head and said, “At present, we still don’t know everything. But this matter has already been spread outside. We need to head to the Central Continent to have a look.”

When Gold Ben said this, Elder Star looked at him and said, “Yes, you’re right. We have to go and have a look.” After that, Elder Star’s figure disappeared. Gold Ben saw Elder Star flying out of the balcony and headed directly towards the Central Continent.

Gold Ben didn't immediately follow Elder Star. Instead, he quickly went to inform the others. The other Supreme Elders couldn't sit still too. Although Zhao Hai didn't attack their continents, Connecting Heaven Palace was the pride of the Divine Race. They couldn't just let Zhao Hai go after he destroyed it.

The news didn't only arrive at the Leo Continent. It didn't take long before the entire Divine Realm got wind of what happened. When the Divines heard this, they couldn't help but turn crazy.

Those who'd gone mad first were the citizens of the Central Continent. They couldn't believe it, someone actually dared to attack them. Moreover, under their gazes, their sacred palace was destroyed. This was without a doubt a slap on the face of the Central Continent. It would be strange if they didn't go insane.

However, the worse thing about this situation was the fact that the crazed residents of the Central Continent were left with no leader. The members of the Central Continent's Imperial family lived in the palace. Now that they had been eliminated, the Central Continent became a headless dragon. Nobody had the authority to lead the angry mob of Central Divines. At the same time, their reason has already been burned by the anger that they felt.

A person's anger was a terrifying thing. This was especially true for people with great strength.

With the Central Continent in its current state, the first to lose their reason were the capital city's soldiers. They started to destroy everything around them and murder people. The entire capital city was soon plunged into chaos.

After that, the entire Central Continent turned insane. When evening neared, the Central Continent had long lost its peace.

Zhao Hai didn't expect the result to be this drastic. He just destroyed a structure in the Central Continent, yet the entire continent had gone to chaos.

Zhao Hai blankly stared at the monitor, dumbfounded at what was happening. Laura and the others had the same thought. This scene was far from their imagination.

After some time, Zhao Hai turned to Laura and forced a smile, "It seems like we've stirred a hornet's nest."

Laura smiled bitterly and said, "How can it turn into this? Can Brother Hai ask Bingya and the others?"

Zhao Hai smiled and shook his head, "There's no need to ask. Didn't Bingya already tell us the answer? The ruined palace seems to be really important for the Divines. Otherwise, the the Divines wouldn't have this much reaction. However, this result is good for us. If the Divines start to go mad at the Foreign Races, then wouldn't that be great? What do you think?" Laura smiled and said, "That is truly good news. But to be honest, this has been too cruel to the Divines."

Zhao Hai smiled bitterly and said, "This situation isn't about us being cruel to them. But them being cruel to us. Alright, no matter what, if Elder Star is really planning to make a move, then I think he would arrive very soon."

Laura nodded and said, "I think Elder Star had also gone mad. He should already be heading here at the fastest speed. What do we do next?"

Zhao Hai smiled and said, "Us? How about we pay a visit to the Leo Continent? If they come to the Central Continent, then we'll go to the Leo Continent and make a mess there. The Leo Continent is also the best place to contact the foreign races."

Laura nodded, "That is a good idea. But did the Leo Continent make any preparations? What are we going to do about that?"

Zhao Hai smiled faintly and said, "Then wouldn't it be better if they were prepared? What do we need to fear? First we make a mess of the Leo Continent and then we see what kind of reaction the Divines would have." Laura frowned and said, "With this current situation, the Divines would surely attack the Foreign Races. Maybe they'll even attack the Thunder Clan and the others, or even eliminate the vassal races."

Zhao Hai just smiled and said, "They will certainly make a move on the Thunder Clan and the others. They know that those three clans are our earliest allies. If those three clans were to be in trouble, we certainly couldn't just ignore it. Moreover, compared to the foreign races, the three clans are much easier to deal with."

Laura stared, then she nodded. But Lizzy frowned as she said, "If I'm a Divine, then I would deal with the vassal races first. Eliminating any disturbances behind."

Zhao Hai smiled faintly and said, "Then it's a pity that you're not a Divine. This time, we had truly hit a sensitive nerve of the Divine Race. What they want to do right now is to deal with us. From what I can see, the vassal races had yet to make a result even after a few days. For the Divines, as long as we are dealt with, going for the vassal races would be very easy to do. I reckon they will come to us first."

Lizzy nodded, she thought that Zhao Hai was correct. These vassal races truly weren't a big threat to the Divine Race. Even if the Divine Race army didn't attack them, as long as a Supreme Elder was sent in, then the vassal races wouldn't be able to resist.

However, Zhao Hai's group was different. They had the strength to contend against ultimate weapons. In this case, Zhao Hai's demise would need to be prioritized.

It can be said that using ultimate weapons required a certain price to pay for the Supreme Elders. If they waste this opportunity and deal with the vassal races, then what would they do in order to face Zhao Hai? In this case, they can only wait for their deaths, and the end of the Divine Race. Because of this, the Divines would want to find Zhao Hai and compel him to a decisive battle.

After thinking about this, Lizzy immediately said, "Big Brother Hai, I think we should tell Fei'er and the others about this as soon as possible. If they are unprepared, then their losses would be very big."

Zhao Hai nodded, "We certainly need to inform them. However, the three clans won't listen to us, there's nothing much we can do. Forget it, let's just have fate decide. I hope that after they eat some losses, they would come to trust me and agree to enter the Space."

Lizzy and the others smiled bitterly. They knew that this won't be easy. The Thunder Clan and the others were very tenacious people. It was close to impossible for the the three clans to trust Zhao Hai completely. It would take quite the effort to have them move to the Space.

But as the matter stands, the three clans would surely lose big after facing the Divines. This wasn't something that Lizzy and the others wanted to see, this caused them to be in a dilemma.

To be honest, Lizzy and the other didn't intend to push the three clans to a corner when they attacked the central continent. This development was just not under their control.

Chapter 915 – Destruction and Regret!

Zhao Hai didn't immediately tell Fei'er about what he had speculated. After all, these were just his guesses. Moreover, Zhao Hai wouldn't let the Divine Supreme Elders to easily deal with Fei'er and the others.

Currently, Zhao Hai was able to equip more and more Devil Legion Soldiers with combat suits that were grown in the Space. To be honest, even if the Supreme Elders were to gang up on him, Zhao Hai could just mobilize the Devil Legion. He wasn't really afraid of the Divine Race.

However, that would also cause huge losses to the Devil Legion. This wasn't something that Zhao Hai wanted to see. Zhao Hai hoped to preserve the Devil Legion as much as possible.

If Zhao Hai didn't plan to use the Devil Legion to deal with the O'Neal family, then it was the same for the battle against the stronger Supreme Elders.

Although it can be said that the Devil Legion was under the command of the Great Demon King, the Great Demon King has slowly undergone a change. And this change was something that Zhao Hai hoped for.

The Great Demon King's change began when Zhao Hai gave the Devil Legion the combat suits. After giving the combat suits, Zhao Hai actually didn't give them anything to do. The Great Demon King thought that Zhao Hai gave them combat suits in order to command them, instead it was actually to give help. Because of this, the Great Demon King began to look at Zhao Hai in a different light.

Further down the line, with the Space's help, the Great Demon King would look favorably towards Zhao Hai. But now, the Great Demon King was still at a crucial moment. Zhao Hai didn't want to move the Devil Legion at this time lest he waste all of his previous efforts.

Besides the Devil Legion, Zhao Hai also took great care towards the people from the Ark Continent. At this moment, Zhao Hai had already raised a lot of people into God-ranks using his potions. Moreover, Zhao Hai also selected some of them and had them sent to the hell background for some tempering.

However, it would be impossible for to form an army out of the Ark Continent's people in a short period of time. Their strength was still not up to par. Forget about Supreme Elders, none of them had even fought against other God-rank experts. Even if they had combat suits, they still didn't have the ability to join the fight in the Divine Realm.

Besides the Ark Continent and the Demons, the other army that Zhao Hai can use was his undead. At this time, Zhao Hai had collected a large quantity of God-rank undead. These undead were mostly Demigods, but there were still a lot of them who had reached true God-rank strength.

But Zhao Hai found a problem. After equipping the combat suits, the undead couldn't actually use 100% of their strength. The combat suits were completely unsuitable for the use of the undead. This worried Zhao Hai.

Of all the combat suits made by the Space, save some for Zhao Hai, everything was given to the Devil Legion. If Zhao Hai wanted to equip the entire Devil Legion with combat suits, then it would take him a very long time. Because of this, Zhao Hai decided to give combat suits to his God-rank undead, further improving their strengths.

However, Zhao Hai was left disappointed. After putting the combat suits on, these God-rank undead did improve in strength, but compared to Supreme Elders, they were still vastly inferior. Moreover, these undead would move awkwardly inside those suits. This might not look serious, but in a real combat situation this was fatal. Forget about improving their strength, the undead would be hindered by the combat suits. This forced Zhao Hai to abandon his plan.

Because of these reasons, if Zhao Hai wanted to fight the Supreme Elders, then he would have to make a move himself. But the issue with this was that Zhao Hai couldn't make a lot of moves.

Just like how the Supreme Elders couldn't use their combat weapons for a long time, Zhao Hai also couldn't move a lot or else he would be kicked out by the realm and ascend with no way of coming back. To be honest, Zhao Hai still didn't want to leave. The Divine Realm still had a lot of good things that were yet to be taken. At the very least, Zhao Hai wanted to get the Sealing Star Disk that was in the hands of Elder Star.

.....

Zhao Hai resumed to watch the Divines. They were still in chaos. At this time, not only the Central Continent, the other continents went insane as well. Even the continents of the foreign races were affected.

When Bingya and the others told their clans that Zhao Hai destroyed the Connecting Heaven Palace, their clans thought that this was a joke. But when they noticed that the attacking army retreated quickly, even discarding their supplies, they understood that it was real. This caused an uproar among the foreign races.

There were a lot of people from the foreign races that haven't seen Zhao Hai. They allied with Zhao Hai entirely because they thought that he was competent. Being able to destroy the Taurus Divines was an evidence to this.

But Zhao Hai was actually able to destroy the Connecting Heaven Palace. Although the Connecting Heaven Palace wasn't a sacred landmark of the Foreign races, the foreign races knew what the palace represented for the Divine Race. The Foreign Races' three Supreme Elders immediately convened in order to discuss how to deal with this matter.

In their opinion, this was an opportunity but at the same time it may become a maelstrom. It was an opportunity because of the accident with the Connecting Heaven Palace. At this time, the Divines were in chaos so the foreign races might be able to use this to make an attack.

However, it may become a maelstrom because this event was just too huge. The degree of randomness in this situation was quite high. It wasn't even sure if the Divines were to continue being chaotic or if they were going to band together. The foreign races weren't sure if they were to gain from this maelstrom or if they would be flattened.

The ordinary members of the foreign races didn't have these complicated thoughts. They hated the Divines because the Divines always bullied them. Now that the Divines were having a disaster, it was natural if they were happy. These ordinary members weren't stupid. They were also able to think that the Divines were in chaos. Because of this, they unanimously demanded to send troops to the Divine Race territory.

But the biggest beneficiary of this matter would be the vassal races. With what has happened, the Divines didn't have the time to deal with the vassal rebellion. As long as they don't taunt the Divines,

then the Divines wouldn't care about them. This made the vassal races, who had been suppressed by the Divines, feel strange. They didn't know what happened. They even thought that the foreign races had sent troops in order to help them break through.

Three days after Zhao Hai destroyed the Connecting Heaven Palace, Elder Star arrived in the Central Continent. At this time, the Central Continent was a land of chaos. All the cities were almost in ruins. In the past, the Central Continent was very lively, but now it was reduced to this state. This made Elder Star pale.

Elder Star's expression was dark. On the road, he managed to see Divines fighting and carrying out meaningless massacres. Those people seem to have lost their minds.

Although Elder Star wanted them to stop, these people simply couldn't hear anything. Their eyes were blood red, the only thing they knew right now was murder. They were already beyond help!

After the destruction of the Connecting Heaven Palace, these people went crazy. Some of them even killed their own families. After the anger in their hearts was quenched and they realized what they had done, they turned insane once more.

When he saw this situation, Elder Star knew that the Central Continent had come to its end. Restoring the continent to its former state would be almost impossible. Moreover, the economy and cultural situation of the Central Continent has been turned back at a minimum of 200 years.

Of course, Elder Star wasn't without harvest. He still met people who were sober. These people were weak and didn't dare to stay in the cities. They were afraid of those madmen to they could only run to the wild. They haven't eaten, nor they had any change of clothes. They were having difficulties getting by.

Elder Star couldn't help but feel helpless when he saw this. In the end, he arranged these people to settle on one of the cities. As for the madmen that were in that city, Elder Star had to steel his heart and kill them all.

Following close behind Elder Star were the other Supreme Elders. They were startled at what the Central Continent had become. They didn't think that the Central Continent would turn into this wasteland. Their hearts bled for the people, and they were also scared!

The plan was set-up by Elder Star. And although Elder Star was the one who proposed it, it was discussed repeatedly and the Supreme Elders thought that it was perfect. And it wasn't only because of the Seven Star Heaven Lock, it was also because of the arrangement of the Divines and the Fishmen as well.

The Divine Realm's Fishman Race survived in the sea for a long time. Moreover, they can command their magic beasts to defend each continent. One could say that there was no way for Zhao Hai to escape their eyes.

However, Zhao Hai actually managed to slip through, and even destroyed the Connecting Heaven Palace. Such skill was something that the Divines didn't have. Facing this mysterious enemy that was able to appear and disappear at will, the Supreme Elders couldn't help but feel frightened deep inside.

Zhao Hai only managed to see Elder Star five days after Elder Star arrived at the Central Continent. The reason for this was because Elder Star had been gathering refugees and killing those who had gone insane.

Upon seeing Elder Star, Zhao Hai couldn't help but jump. The last time he saw Elder Star, the elder still looked like a lordly middle-aged person. He spoke clearly and had a great demeanor.

But now, Elder Star's appearance was completely different. His hair had almost turned white, his clothes were ragged. He had two blood red eyes and looked thin. He looked crazy and didn't have his lordly look anymore.

However, Zhao Hai can understand Elder Star's mood. Elder Star was a native of the Central Continent. After becoming the Supreme Elder, he regarded everyone in the Central Continent as his juniors, his children, his family members. Now that his home has been turned to this, he found it hard to accept it.

Zhao Hai lightly sighed. He didn't really expect the Central Continent to turn into this. He only attacked the Connecting Heaven Palace because it was the Central Continent's Imperial Palace. Moreover, Bingya also said that the place was an important landmark. Zhao Hai only wanted to cause panic in the Central Continent, compelling Elder Star to come back. Then Zhao Hai would hide in some place, waiting for a convenient time to make a move.

However, the situation had turned into something that exceeded his imagination. Zhao Hai didn't expect the reaction to be this severe. The entire continent actually turned frantic upon the destruction of their Connecting Heaven Palace.

Take Divine Gift City for example. When Zhao Hai arrived here, the city was still a bustling hub. But in the past few days, the city basically destroyed itself under Zhao Hai's watch. Zhao Hai saw the city's residence destroy their homes bit by bit. They killed their family members, then went insane before killing each other. Even if Zhao Hai had a heart of stone, he still couldn't look at this calmly. If one compares these people to the captured Taurus Divines, the Taurus Divines would look to be the happy ones.

Although there were Taurus Divines who were killed, only a small number of commoners died. There were still people among the Taurus Divines who had the capacity to hate, and those who can still think about revenge.

On the other hand, the people from the Central Continent were different. They hated Zhao Hai, yes, but after becoming sober, they hated themselves even more. They hated themselves for ruining their homes and killing their families. They couldn't bear this shock as they just turned insane once more.

Afterwards, Zhao Hai managed to see the other Supreme Elders. These Supreme Elders appeared distressed. However, their complexion was still better compared to Elder Star. After counting nine Supreme Elders, Zhao Hai felt relief.

Laura and the others had also seen what happened. Every time they see a Divine turn crazy, they also couldn't help but lose a bit of their sanity.

Zhao Hai felt that this wasn't good, so he sent Laura and the others to the Space. He told them to do something else in order to waste time. Meanwhile, Zhao Hai stayed and looked at the monitor.

When he discovered Elder Star, Zhao Hai immediately called Laura and the others back. But before they arrived, Zhao Hai turned the monitor off.

When Laura and the others came out, they saw Zhao Hai sitting in the living room. There was a bottle of liquor in front of him, the bottle only had half of its contents left.

Zhao Hai was someone who drinks minimally. This was something that Laura and the others knew. After seeing this, they understood that Zhao Hai was also feeling ill. This caused the group to feel bad. Meg immediately went to the kitchen and prepared some good food that would go great with wine. Meanwhile, Laura and the others sat down with him.

Chapter 916 – Don't Offend A Dark Mage!

One couldn't always do what one likes. There's always a consequence in every action!

This statement was in Zhao Hai's mind at this time. He knew that he was in an irreconcilable situation with the Divine Race now. Even if he was willing to give up, the Divines wouldn't let him off.

To be honest, Zhao Hai didn't care about murder. But after seeing the current state of the Divines, Zhao Hai was shaken.

Laura and the others were able to understand Zhao Hai's thoughts. Zhao Hai wasn't a stone hearted person. Although he was indifferent towards the enemy, he would still have a soft heart for ordinary people.

Because of this, Zhao Hai was sad regarding the current situation. Laura and the others didn't say anything and just accompanied Zhao Hai. They wanted to let Zhao Hai feel that he wasn't alone.

At this time, Meg arrived with the side dishes and then placed them on the table. After taking a sip of his wine, Zhao Hai said, "Elder Star and the others have arrived. It seems like the Central Continent would start to calm down soon. Moreover, it seems like they really did have a plan to deal with us. We thought that they had a teleportation device but we were wrong. We still don't know what method they had prepared for us."

Laura and the others slightly frowned. The appearance of the group of Supreme Elders meant that they had confidence and means in dealing with Zhao Hai. But what was their plan? It was still a mystery.

Lizzy turned to Zhao Hai and said, "Brother Hai, aren't we going to attack the Leo Continent? How about we go through with that plan? If we attack the Leo Continent, then we would be able to see what methods they had prepared. No matter what, they need to use that method sooner or later. When the time comes, wouldn't we be able to find out?"

Zhao Hai nodded and said, "It seems like that is the only way. Alright, now that Elder Star and the others are here, I guess it's time to go to the Leo continent."

The next moment, they already appeared inside the Leo Continent's Lion River, the continent's largest river.

Zhao Hai and the others arrived here with the help of the Space. In the past, they entered the Leo Continent through this river. Because of this, the Space already recorded the place down.

After arriving at Lion River, Zhao Hai didn't immediately go and attack the Leo Divines. He knew what his goal was, and that was to attack the place that the Leo Divines hold dear. Only in this way would the Supreme Elders be moved, and only then could Zhao Hai find an opportunity to defeat them.

Zhao Hai and the others walked along the river while observing the situation with the Leo Continent. What Zhao Hai saw was something different from what he imagined. Zhao Hai thought that it was only the Central Continent who had a chaotic result. After all, the attack was made in the Central Continent. Other places shouldn't be affected.

However, there were some troubles in the Leo Continent as well. But the situation here was much better compared to the Central Continent. Although there were still people who caused trouble, they were still able to be controlled.

After seeing this, Zhao Hai wasn't sure if he should make a move. It was clear that if he acts now, then that would be the spark that would light a fire on the Leo Continent. At this time, the Leo Continent was like a barrel of gunpowder with a fuse. As long as a spark came in, the barrel would explode.

Zhao Hai looked at the monitor and frowned. Lizzy and the others looked at the screen as well. After a few moments, the group turned their gazes towards Zhao Hai.

Feeling everybody else's gaze, Zhao Hai clenched his teeth and said, "We go through!"

Then after that, Zhao Hai went outside and said, "Bingya, come here."

Bingya and the others stayed inside their room in the past few days. They contacted their clans from time to time, so they knew that the Divine Race army had retreated. This allowed them to feel relief.

Bingya and the others were unable to see the situation outside, so they weren't aware about what the Central Continent turned into. However, when they saw Zhao Hai's state, they chose the right decision and just stayed in.

Now that Zhao Hai called him over, Bingya, as well as Ryder and Yehta, immediately ran out. They knew that Zhao Hai wouldn't call them out for no reason. After seeing Zhao Hai, the three couldn't help but stare. Zhao Hai's expression was heavy, this caused their hearts to sink. They didn't know what caused Zhao Hai to be like this.

Zhao Hai looked at the trio and said, "What is the most important place in the Leo Continent? Where should we attack?" Bingya was stunned. He didn't expect Zhao Hai's question. However, Bingya carefully gave his answer, "Mister, did something happen? Isn't it too risky to attack the Leo Continent? Did Elder Star and the others go to the Central Continent?"

Zhao Hai nodded and said, "Correct, they already arrived there. We're now in the Leo Continent. Tell me which place to attack."

Bingya thought for a moment and said, "The Leo Continent is quite special. From what I learned from the family, their most important landmark isn't their Imperial Palace, but Lion Rock!"

Zhao Hai nodded and said, "Continue"

Bingya gave a nod, "Lion Rock is a giant tomb where the Leo Emperors are buried as well as the warriors who died for the Continent. It is a place where the spirit of the Leo Continent resides in."

Zhao Hai couldn't help but frown. He wasn't a grave digger. However, this target only comprised of dead people, so there weren't so many murders but in exchange they could plunge the Leo Continent into chaos.

Bingya saw Zhao Hai's expression and then said, "Aside from Lion Rock, the Imperial Palace is also quite important. However, the palace is heavily guarded. At least, an army is stationed there."

Zhao Hai looked at Bingya and said, "Where is Lion Rock?"

Bingya responded, "It is 50 kilometers east of Lion Palace. The name of the rock came from how it looks like a Lion lying on the ground. I heard that the Leo Royals bury their Emperors there. At the same time, that is also the place where they bury the brave warriors who defended the Leo Royals."

Zhao Hai nodded and said, "Where is Lion Palace's specific location?"

Bingya answered, "Lion Palace is on the east bank of the Lion River. It isn't close to the River, but there is a satellite city nearby called Thirsty Lion City. If we don't plan to go to Lion Palace, then we can just continue going along the River to reach the head part of Lion Rock. Its position makes it look like the Lion is drinking by the river."

Zhao Hai gave a nod, "Good, then let's go and destroyed Lion Rock later today."

Bingya and the others didn't dare to say anything. They knew Zhao Hai's way of doing things, and they also wouldn't oppose to the idea. Their hatred towards the Divines was too deep. They couldn't wait to destroy the Divine Race's grave.

What Zhao Hai and the others didn't know was the fact that Elder Star and the others were in the Leo Continent during the time they went astray. Luckily, Zhao Hai didn't think of making a move at that time.

Bingya saw that Zhao Hai's expression didn't go any better. On the contrary, Zhao Hai looked distant. In the end, Bingya couldn't help but ask, "Mister, did something happen?" Zhao Hai looked at Bingya and smiled, "Don't worry, nothing is wrong. The situation is greatly beneficial to us."

But Bingya was still confused, "But why is Mister's expression heavy? I just couldn't help but think that something bad has happened. Is Mister really fine?"

Zhao Hai shook his head and said, "It's fine. Go and prepare, we'll arrive at Lion Rock soon."

Upon hearing Zhao Hai, Bingya couldn't help but stare, then he asked, "Mister, we're nearing Lion Rock? That quick?"

Zhao Hai smiled faintly and said, "Of course we're fast. Don't worry, even if we arrive at Lion Rock, we won't begin immediately. We'll do the same as before, we attack at night. This time, I'm planning to turn all the Leo Emperors into undead!"

As soon as Zhao Hai said this, Bingya and the others couldn't help but shiver in fright. Zhao Hai's means were too ruthless. It was at this time where they understood why the clan didn't want to offend Dark Mages. One shouldn't offend a Dark Mage.

Before long, the Hell King's ship stopped. Zhao Hai turned to the three and said, "Alright, go and take a rest. We've reached Lion Rock. We make our move this evening." After saying that, Zhao Hai went to return to his room.

Bingya and the others looked at Zhao Hai in confusion. They didn't know why Zhao Hai was in a bad mood today.

When Zhao Hai returned to his room, Laura and the others immediately went to welcome him. Laura looked at Zhao Hai and said, "Brother Hai, will we really turn the skeletons in Lion Rock into undead? Those undead wouldn't be that strong, they're quite useless. Even if they are transformed by the Space, their strength could only be as strong as ordinary undead."

Zhao Hai steeled his heart and said, "Yes, we'll turn every skeleton there into undead. Moreover, we won't have the Space improve them and just let them attack the Leo Continent. In any case, the Divines are now our enemy. We need to refrain from showing pity. We need to deal with the Divine Race. After that, there's still the O'Neal family and the Underworld. Perhaps, we can even use the Divines in the future."

As soon as they heard this, Laura and the others gawked. Then they began to understand Zhao Hai. It was indeed like what Zhao Hai said. Maybe they can save more people this way.

Chapter 917 – This Also Costs Money?

Just like what Zhao Hai said, more people would be saved if the Divines were dealt with much sooner. Zhao Hai was very clear that the Underworld was still encroaching. Although the O'Neal family was

present, it would be impossible for them to stop its advance. In this case, the Dark mist would reach the Divine Realm, and that day wouldn't be too far.

From the moment the Underworld appeared to the present, about one year has passed. But these days, the Dark Mist had already spread towards the Aksu Empire. This speed was nothing short of quick. It would be soon before the O'Neal family would clash with the underworld.

Judging by the speed, the Dark Mist would surely reach the Divine Realm. When that time comes, more people would certainly die in the Divine Realm...

Zhao Hai wasn't expecting the Divines to deal with the Underworld. The Dark Mist's expansion was like the law of the heaven and the earth. The Dark Mist suppresses all light while darkness was strengthened by it. In this case, it would be hard for the Divines to deal with the Underworld.

If the Divines fail to deal with the Underworld, then the Divines would get exterminated. With this eventuality, Zhao Hai might as well finish the war as soon as possible. Perhaps he can rescue the Divine commoners and send them to the Space.

After expressing this thought, Laura and the others didn't speak anything. Attacking Lion Rock at this time was indeed the better choice. This method might have some unexpected effects.

Zhao Hai kept silent and just sat down as he looked at the monitor. Bingya and the others returned to their rooms. They went on to contact their clan for updates. They wanted to find out why Zhao Hai's mood was terrible.

When Bingya got the result, he finally found out how messed up the Central Continent had become. The vassal races even used this opportunity to grab some territory. However, the Divines didn't do anything about it.

After knowing this result, Bingya couldn't help but get shocked. He never expected it to be like this. He immediately called Ryder and Yehta over to his room and told them about the information he received.

When Ryder and Yehta heard Bingya, they were stunned. Then Ryder whispered, "The Central Continent is now under chaos, but why is Mister unhappy?"

Yehta also frowned, she was similarly confused about this matter. Normally, with this outcome, the one who would be the happiest would be Zhao Hai. Instead, Zhao Hai was actually not.

Bingya thought for a moment and said, "I thought of one possibility. It's possible that Mister is thinking that it's too excessive. Remember, back in the Taurus Continent, Mister only killed those who dared to rebel. As for the commoners, Mister would just send them to another place using his ability. In the past, I thought Mister just killed them. But now, I realized that he just sent them to another place. This time, the Central Continent's chaos not only included the soldiers, it affected the commoners as well. It's possible that Mister didn't want to see this. Therefore, Mister had a bad mood."

Yehta and Ryder nodded, they thought that this explanation was reasonable. However, Ryder suddenly saw Bingya frown. He couldn't help but feel puzzled as he said, "Bingya, what's wrong?"

Bingya frowned and said, "I always thought that Mister came to the Divine Realm in order to exact revenge. However, with Mister strength, he should have already caused a big mess to the Divine Realm. Why is this the case?"

Ryder and Yehta couldn't help but frown as well. They had followed Zhao Hai for some time already, so they were very clear about Zhao Hai's strength. Zhao Hai's abilities exceeded their explanation. Even if the Supreme Elders were sent in, he still wasn't compelled to use all of his strength. This was a completely different conduct for someone who wanted revenge. They didn't think about it before since Zhao Hai had killed a lot of Divines. But after Bingya said this, they also thought that Zhao Hai's actions were a bit strange. It didn't look like he was out for revenge.

Zhao Hai wasn't paying attention to Bingya and the others. After he saw Bingya and the others return to their rooms, Zhao Hai made his move. He commanded his ship and drilled underneath Lion Rock.

Drilling underground wasn't an easy task, but Zhao Hai was able to find a method.

He used the magic cannons of the Hell King's ship to shoot at the river, vaporizing the rocks and allowing him to pass through.

Zhao Hai took Bubble back, but the Hell King's ship didn't become bigger. Because of this, even if Zhao Hai had disturbed the bottom of Lion River, he didn't attract any attention.

Zhao Hai slowly moved forward as it penetrated the ground under Lion Rock. Then Zhao Hai stopped, he was waiting until night comes.

The reason why Zhao Hai had the ship go under Lion Rock wasn't just because he wanted to stage an attack. He also wanted to see if there were any defenses in the vicinity.

Zhao Hai soon discovered that he did the right thing. Although there weren't a lot of Divines here, there was a huge magic formation surrounding the rock. At the same time, there was an army of 10 thousand Divines stationed at one corner. As soon as there was little movement, they can react immediately.

Moreover, Zhao Hai found out that every other hour, the army would send out 1000 soldiers to survey the area around Lion Rock. One could say that the defense was quite strict.

This place was very deep into the Leo Continent. For the Leo Divines to arrange an army in this place only shows how important Lion Rock was.

But this only caused Zhao Hai's idea to destroy Lion Rock to be strengthened. With the current atmosphere, the destruction of Lion Rock would surely push the Leo Divines to insanity.

When the Leo Divines go mad, Zhao Hai would benefit no matter which party they decide to attack. If they attack the foreign races and cause the foreign races to be in a dangerous position, then perhaps Zhao Hai can use this opportunity to send the foreign races to the Space.

If the Divines act on the Thunder Clan and the others, then Zhao Hai would choose to entangle them in the Taurus Continent. After that, Zhao Hai could use the Divines to pressure the Thunder Clan and the others. This way, they might be compelled to move into the Space. No matter which move the Divines make, Zhao Hai's move this time would be worth it.

After knowing about the defense situation of Lion Rock, Zhao Hai moved on and carefully examined the defensive formation. When Zhao Hai saw this formation, he couldn't help but pause. This magic formation didn't follow the convention used by the other formations of the Divine Race.

Although Zhao Hai wasn't skilled in magic formations, he had a lot of interactions with them in the past few days. In this case, he had some understanding with regards to them. Moreover, defensive formations were the most commonly used formations, making Zhao Hai even more familiar.

And even if there were a lot of defensive formations in the Divine Realm, Zhao Hai found out that those defensive formations were the most basic types. At the most, there were more complicated ones but they can still be readable.

Meanwhile, the magic formation on Lion Rock was something that Zhao Hai had never seen before. This formation comprised of several formation disks. From what Zhao Hai counted, there were eight disks in this formation.

Zhao Hai looked at the eight positions carefully. He found that their placement seemed to be very new and was arranged not too long ago.

After seeing this, Zhao Hai couldn't help but get curious. He immediately made Cai'er record the formation and sent it to the scanner to be analyzed.

When the formation went out of the building, the scanner immediately issued a sound, "Because formation is higher than Host's level, asking Host to pay 1 million gold coins!"

Upon hearing this, Zhao Hai couldn't help but gawk. He didn't think that the scanner would have this ability, moreover it also asked for payment.

Zhao Hai turned to Cai'er and said, "Cai'er, how does this work? Why does the scanner require money? If the formation is higher than my level, then wouldn't it just say nothing? Just like the combat suits?"

Cai'er smiled and said, "Young Master, it seems like you didn't read the Universal Scanner's description. The scanner can also improve itself. And since you are the host, the scanner would cater to your convenience. You are level 85 now, as long as the item is less than 50 levels above you, then you can spend money in order to analyze it."

Zhao Hai stared, he didn't expect it to be like this. He nodded and said, "So it's like that. I didn't read the description properly. Good, then scan it immediately!" In any case, Zhao Hai wasn't short on money.

One million gold coins was only a small number to him. Naturally, he wouldn't want to miss this opportunity.

After the scanner has been ordered, it immediately deducted 1 million gold coins from Zhao Hai's account. It didn't take long after that for a response to come out, "The original formation is a Cultivation Civilization trap. Formation has eight disks altogether, one main disk and seven sub-disks. If someone unknowingly enters the formation, then they would be trapped for up to 56 days. Host can print the formation and methods of cracking it. Suggesting host to find the genuine formation disk and combine it with the Hell King's ship in order to oppose the enemy!"

Chapter 918 – Strange Undead

Valuable!

Too valuable! Spending those 1 million gold coins was extremely worth it!

This was the only thing that was booming in Zhao Hai's mind this time. He never imagined the scanner to be this powerful. It even gave the method to break the formation. For Zhao Hai, this was too important.

The information about the formation and the method to break it was too precious for Zhao Hai. At this time, he didn't have too much knowledge regarding the Cultivation Realm, especially formations.

From Lu Wei's fragment, Zhao Hai learned that formations were very important in the Cultivation Realm.

It was almost impossible to leave a formation. Moreover, the magic formations of the Cultivation Realm were fundamentally different compared to the ones that Zhao Hai had seen before. If Zhao Hai ascends to the Cultivation Realm, then the enemy could surely use magic arrays in order to deal with him.

This formation's appearance was an absolutely good thing for Zhao Hai. This would allow him to better understand the formations of the Cultivation Realm.

In the past, Zhao Hai was able to gain items from the Cultivation Realm. Both the Pagoda and the Hell King's ship were items that Zhao Hai stole. They also had formations inside them, but they were too complex, Zhao Hai had no way to use them. It was like having a primary school kid write a university level thesis.

But this time, the magic formation wasn't that complex. It could be said that this formation was a very common one. Most importantly, the Space was able to give the method to set it up as well as how to break it. This information were very useful in studying formations.

Additionally, the scanner also mentioned that this formation had formation disks, which were made from Cultivation Realm materials. For these materials to combine with the Hell King's ship was good news for Zhao Hai. The Hell King's ship wasn't all-powerful. Once Zhao Hai arrives at the Cultivation Realm, he would need to survive. This was something that Zhao Hai cared the most about.

Zhao Hai quickly said, "Print it, immediately print it out."

The Space's prompt wasn't only heard by Zhao Hai, Laura and the others were able to hear it as well and they were glad. They had been with Zhao Hai for a long time, naturally they knew what would be good for him.

Lizzy quickly turned to Zhao Hai and said, "Brother Hai, do you think that this is the method the Divines prepared for us? It's obvious that the formation is quite new. Even if they can only hold us for a few days, Elder Star would be able to come and kill us."

Zhao Hai stared, then he nodded and said, "That seems to be so. But how could they be sure that the formation would be able to trap us? This newly made formation seems to be unable to do 100% of its strength."

At this time, Cai'er came in and said, "Young Master, here are the printed pages." Held in her arms were a stack of papers.

Zhao Hai quickly received the stack of papers and carefully examined it. When he saw that the formation could be used separately, he immediately confirmed that this formation was prepared for him.

Zhao Hai turned his head to Lizzy and smiled, "Lizzy, it seems like you're correct. This formation is a set called the Seven Star Heaven Lock. It's certain that the Divines had prepared this for us. What a pity, back when we attacked the Connecting Heaven palace, we didn't look carefully. Perhaps we might be able to find a Seven Star Heaven Lock formation disk."

After saying that, he handed the stack of papers over to Lizzy. Lizzy looked at it and nodded, "It seems like this formation was given by Lu Wei to Elder Star."

Zhao Hai nodded, "But now these formations are useless to us, they might as well be decoration. Later on, we can get the disks and integrate them into the Hell King's ship."

Laura faintly smiled, "I think there should be an original disk in the Leo Continent. Otherwise, they wouldn't be able to make full use of the formation. We should look for it here." Zhao Hai thought about it but he shook his head and said, "Forget it, our main goal now is to cause chaos to the Divines. If we take too long in the Leo Continent, it's very likely that Elder Star would be able to react. In any case, with those things in Elder Star's hand, we should be able to get them soon."

Laura nodded and said, "That is also a good idea. Tonight, we'll give the Divines a good surprise."

Zhao Hai smiled faintly. However, his expression turned ice-cold. Zhao Hai wasn't thinking about the Divines right now, instead, he was thinking about Lu Wei.

The Divines have Lu Wei as their backer. If Lu Wei couldn't stop Zhao Hai here, then he would surely make his move in the Cultivation Realm.

The skies slowly went dark. Just like before, Zhao Hai was very patient and didn't immediately make a move. At the same time, Zhao Hai wanted to see how the army acts when night came.

It didn't take long for Zhao hai to discover that the army's situation was also quite good at night. While they would send a patrol every hour during the day, during the night, they send patrols twice every hour. Other than that, everything else was the same.

Zhao Hai was currently sitting inside the Hell King's ship. But at the same time, he ordered the ship's cannons to begin firing up towards Lion Rock.

During the daytime, Zhao Hai saw that the Lion Rock was a mountain covered with a forest on top. This made Lion Rock look like a green lion.

Unlike what Zhao Hai imagined before, the tomb wasn't built on top of Lion Rock. Instead, the tomb was made inside a cavern carved out inside the mountain.

Lion Rock was quite special. Although it was on water, the flow just stopped outside. The cavern that was carved out was very dry. After the Leo Divines carved the mountain up, they proceeded to build the tomb inside. The tomb was decorated luxuriously, it was like a palace inside. Inside the tomb were a few coffins. The coffins were made out of fine white stone. Zhao Hai knew that this stone was a kind of radiant mineral, completely suitable for light attribute magic. In the Divine Realm, it was quite a precious mineral.

In the middle of the tomb were two coffins made out of this radiant stone. These two coffins were made of big and small stones. One looked sharp and angular, giving one a strong and hardened aura. The other had rounded corners, giving a soft feeling. These two coffins were in the very center of the tomb. The two coffins were propped up by a platform made entirely out of radiant stone. The platform was carved beautifully, making it the main structure of the tomb.

Below these two main coffins were the other coffins. These coffins revolved around the two coffins.

After seeing this, Zhao Hai could deduce that inside the two coffins were the two most respected members of the Leo Imperial Clan. The other coffins were their children.

Outside the Imperial tomb were more coffins. The materials of those coffins weren't as good. Some of them were made of gold, some were silver, while some were bronze. There were also more coffins further out made from iron and wood. The materials probably referred to the owners' status.

Because of this, it took Zhao Hai quite a long time before reaching the tomb. Zhao Hai had the ship fire as he made a passage leading to the tomb.

Making the passage wasn't for Zhao Hai. He had the passage made in order for his magic to go through. Zhao Hai planned to send the underworld's dark mist into the passage and see what the result would be.

The Underworld's dark mist had the ability to turn dead people into undead. Zhao Hai wanted to see how long the dark mist would turn these skeletons into undead.

Naturally, Zhao Hai wasn't planning to go all out with his cannons. That would make too much sound, alerting the people outside. Zhao Hai didn't want to make his presence known. Because of this, Zhao Hai adjusted the power of his cannons to be low, just enough to drill a hole while making the least sound.

At around 9 pm, the magic cannons finally made a connection to the tomb. This passage wasn't very big, it could only allow a big mouse to go through.

Zhao Hai immediately fed the dark mist into the passage. He had the dark mist enter the passage and go into the tomb.

The Dark Mist entered the passage and began to get thicker and thicker. Before long, the wooden coffins rocked slowly as each skeleton got up. After that, the iron coffins were next, then the bronze coffins, then the silver coffins, and the the gold ones.

But when the dark mist met the tombs made out of radiant stone, it began to experience difficulties. The radiant stone seems to have a resistance towards the dark mist. When the dark mist met the coffin, the radiant stone began to light up pushing the dark mist away.

Zhao Hai stared for a moment before he frowned. He didn't expect that the radiant stones were able to block the dark mist of the Underworld. If this was the case, then the Divines might be able to defeat the Underworld.

While he was thinking about this, Laura suddenly said, "Brother Hai, quick, look!"

Zhao Hai quickly turned to look at the monitor. What he saw made him shocked. The dark mist seemed to be irritated. It rolled and smashed towards the radiant stone, causing it to become weaker and weaker. Before long, the repelling light disappeared and the dark mist surrounded the coffin.

Soon after that, the coffins shook as skeletons came out one by one. These skeletons were quite tall and the clothes they wore were very magnificent.

However, there were also some differences on the clothes they wore. Although some were wearing white robes, there were some who wore armor and some just wore ordinary Divine Race clothes.

What made Zhao Hai surprised were the two coffins in the middle of the tomb. It seems like they weren't affected by what was happening around them. They remained motionless, not moving at all.

As Zhao Hai was thinking that the two skeletons were already turned into dust, the two coffins began to move. The rocking became more and more violent until the cover of the two coffins flew out and smashed into the ground.

After that, four pure white bony hands extended from the coffins as two people slowly sat up. It only took one glance for people to see that the two skeletons were of a man and a woman. Both of them wore beautifully made white long gowns. Embroidered on their gowns were golden lions. The man had a lion on his gown while the woman had a lioness.

Then something out of Zhao Hai's expectation happened. After the two skeletons sat up, they simultaneously stood up and walked together hand in hand.

After seeing this, Zhao Hai and the others were dumbfounded. But regardless of what they were thinking, the two skeletons continued to move.

One must know that Zhao Hai didn't use any magic. Instead, he just released the Underworld's Dark Mist. From what Zhao Hai can remember, although the Dark Mist had formidable abilities, it couldn't grant wisdom to the undead. In other words, the undead would be just like puppets.

However, from what Zhao Hai could see, this doesn't seem to be the case. Not only were these undead quite strong, they seem to have awareness. What was the meaning of this?"

As Zhao Hai was puzzled, another event happened. After seeing the two skeletons that were holding hands, the other undead suddenly bowed down. It was as if they had seen their king!

This startled Zhao Hai and the others once more. Then Zhao Hai's expression changed. It can be said that it was Zhao Hai who turned them into undead. If they were able to give respects, then it should be towards Zhao Hai. So how could these undead bow down to the two skeletons? Were these undead not under the control of Zhao Hai?

Chapter 919 – Heart Bond!

The undead can overthrow their masters. Such matters had occurred even back in the Ark Continent. If the Undead was stronger than its master, then it could wrestle control even if they were bound by some law.

When Zhao Hai saw the undead act like this, he couldn't help but think about this situation.

However, Zhao Hai still felt a bit strange about this. He didn't understand how this could happen. The Dark Mist of the Underworld could turn people into undead, but the undead wouldn't be smart. Undead were divided into different kinds. The most common undead were the ones that Zhao Hai was using. They were just people being turned into undead. Since these people haven't died for a long time, their flesh and blood can still be absorbed into their bones. Because of this, the undead were still able to preserve most of their strength.

The second type of undead were those who had died for a long time. After a long time, the corpses would decompose, only leaving the bones behind. At this time, there wouldn't be any blood and flesh left to absorb, causing the skeleton to be weak. Therefore, these kinds of undead became the weakest types.

Since Zhao Hai was only using the undead in Lion Rock to cause chaos, he didn't care if they were strong or not. Zhao Hai wanted to let the Leo Divines know that he had desecrated their Lion Rock, causing them to be mad.

But now, the situation caused Zhao Hai to be puzzled. However, when Zhao Hai was beginning to calm down, he understood that the undead didn't break his control. This was because every time the undead wanted to leave the control of their masters, the master would immediately suffer injuries. One of the more severe cases were the masters completely losing their senses, directly turning into people with no sense of self.

Zhao Hai discovered that he wasn't harmed at all. One should know that Zhao Hai was the one who released the Dark Mist. Although it was the Dark Mist of the Underworld, it was a dark mist that was reformed by the Space. The dark mist carried Zhao Hai's imprint, which essentially meant that it was Zhao Hai's dark mist. If these undead really got out of Zhao Hai's control, then Zhao Hai would have been injured; but he wasn't.

Zhao Hai looked at the undead and then appeared inside the tomb. He wanted to see what was going on.

While Laura and the others were still startled at the scene, they suddenly discovered that Zhao Hai appeared on the monitor. This caused their expressions to change. They were afraid that the undead might attack Zhao Hai.

However, the matter actually went opposite to what they expected. When Zhao Hai appeared inside the tomb, the two skeletons immediately turned towards Zhao Hai and proceeded to kneel.

Zhao Hai loosened up and waved his hand, making the two undead stand up. Then Zhao Hai tested the two undead with his spiritual force to see if they can communicate.

This communication allowed Zhao Hai to know the identity of these two people. These people weren't simple, they were the first generation monarchs of the Leo Continent. Additionally, they have another status, cultivators from the Cultivation Realm.

However, they weren't especially strong cultivators. They were young trainee pharmacists in their own sect. In the Cultivation Realm, each sect would have their own Pill Divisions. Pill-making always went hand-in-hand with martial cultivation. Almost every cultivator would take pills in some point in their lives. There were a lot of pills in the Cultivation Realm, but the most common of them were pills that increase cultivation.

Each sect would find children who were skilled in pharmacy and teach them simple refining methods. After that, the sects would provide them with medicine furnaces and give them some pill-making knowledge. When those children grew up, they would become qualified pharmacists.

The two skeletons studied pill-making at a very young age. When they were about ten years old, an enemy sect suddenly went to attack their sect. While the two groups were fighting, the two ten year olds were spectating them inside the Pill Division. Then all of a sudden, the two sides made a huge attack on each other, causing a spatial crack to appear. Naturally, the strong experts were fine. But the two weak ten-year olds actually fell into the crack, ending up in the Divine Realm.

When they arrived in the Divine Realm, the place where they fell into was the Leo Continent. Later on, they were rescued by an old soul, a wealthy merchant. They also found that the Divine Realm was very different compared to the Cultivation Realm. Therefore, they didn't dare to reveal their true identity.

The two were young pill-makers. Their refining talents were very good, but their cultivation talent wasn't.

However, after arriving in the Divine Realm, they had found out that they were very rare cultivation talents. Moreover, Battle Qi and Magic that was practiced here wasn't too different to the most basic skills that a cultivator would learn. Therefore, the two just went to cultivate according to what they learned and then ended up as the rulers of the Leo Continent.

But although their cultivation was quite good, they didn't get too far in their cultivation since the heaven and earth aura of the Divine Realm wasn't sufficient. In the end, the two weren't able to ascend to the Cultivation Realm and finally passed away in the Leo Continent.

At the same time, the two were also able to find out that the Divine Realm was ruled by a cultivator. However, they didn't dare to reveal their identity. They knew that if their identity as cultivators were to be known, then they would be hunted down and killed. Because of this, they brought this secret with them to the grave.

At that time, their descendants and most trusted people were able to learn some cultivation methods of the Cultivation Realm. These methods of cultivation placed great importance to one's own body. This caused these people to have bodies that were more formidable compared to the other Divines in the Divine Realm.

And before the two died, they also arranged for this tomb to be built. There wasn't much on this tomb other than an array that would keep a physical body intact for a very long time. In general, a body would survive here for a millenium without rotting. At the same time, the flesh and blood would also slowly integrate with the bones, leaving a skeleton that was much stronger compared to others.

Now, Zhao Hai turned them into undead. Although Zhao Hai used the Underworld's Dark Mist, this dark mist was improved by the Space. This allowed the dark mist to preserve an undead's wisdom.

If it was any ordinary person, then their spiritual wisdom might have already dissipated. However, the people on this tomb were different. Since their bodies had united with their skeletons, their wisdom got preserved. This explains why, after being turned into undead, the skeletons still had the mind to kneel upon seeing the two undead cultivators. They were still aware that the two were their ancestor kings.

Although the two were already turned into skeleton and couldn't be identified using their faces, their garments alone described their status. Most importantly, the division between undead were very strict. Therefore, the undead immediately bent their knees upon seeing the two.

After coming to know about this, Zhao Hai relaxed. Although these undead were able to preserve their wisdom, they were still loyal towards him.

However, there was still one thing that made Zhao Hai quite confused. There should be no feelings between undead creatures. Even if they stood in front of their parents or children, their sentiment towards each other should have ended after they died.

So this begs the reason why the two undead immediately held hands together after being resurrected?

Zhao Hai asked the two undead about this and immediately got his answer. The answer made Zhao Hai stare. The two undead casted a spell on each other when they were still alive, and the spell was called 'Heart Bond'!

This spell wasn't a Divine Realm spell, it came from the Cultivation Realm. They unintentionally learned this spell back when they were young. But due to their small age, they didn't know what the spell represented. However, when the two became married, they realized what Heart Bond really was.

Heart Bond was a spell that manifests all throughout the caster's life. The casters needed to be a man and a woman, and they need to be in love with each other otherwise the spell would not work. This spell was quite special. Once one party became injured and was about to die, the other person can use this technique in order to make the injured recover in an instant. However, this action would cause the healthy party to lose half of their life force. It was a very overbearing spell.

Actually, the two had a chance to ascend. However, the woman was injured in a fight once. In order to treat his partner, the man used Heart Bond's effect.

The woman recovered but this reduced the man's life force. After this event, neither of the two were able to ascend.

In addition to healing, Heart Bond also had another feature. Once one of the casters die, the other cannot live. Moreover, even after they died, the two were still affected by the spell. Never in their whole life, and death, would the two be separated.

After hearing this spell, Zhao Hai became very curious. He immediately asked the two for the spell's details. Since the two were now Zhao Hai's subordinates, they immediately told him everything. Not only the spell, they also divulged some pill-making information as well as things about the Cultivation Realm.

Chapter 920 – Too Hateful!

Zhao Hai sat inside his room and looked at the monitor. He took a token from his staff and handed it over to the two undead cultivators. The two were already famous in the Divine Realm, however, Zhao Hai wanted to know them by their names in the Cultivation Realm, Qing Feng, and Mingyue!

At this time, Qing Feng and Mingyue were bringing the undead to head out of the tomb. Zhao Hai increased their strengths while turning their coffins into weapons. The bronze and iron coffins were made into weapons while the silver and gold coffins were stored in the Space.

Zhao Hai was a frugal person, so how could he just waste silver and gold. Because of this, the weapons equipped by the undead were all iron and bronze weapons.

As Zhao Hai got stronger and stronger, his control over metals became greater and greater as well. His divergent ability was actually good for combat. However, since the weapons of the opponents were always covered with battle qi, using metals to fight was generally useless.

Zhao Hai spectated the undead as they attacked the military encampment. The undead inside was beyond what Zhao Hai expected. Inside the tomb were nearly 100 thousand undead, all of them powerful experts when they were alive. The weakest of them were at full god-rank. Moreover, there was Qing Feng and Mingyue, two ascendant-level experts back when they were alive.

And with the formation that Qingfeng and Mingyue used in the tomb, the flesh and blood of the undead were integrated into their skeletons. This allowed them to preserve their strength. This caused the near 100 thousand undead to have incredible strength.

Qing Feng and Mingye were now at the foot of the mountain, getting ready to attack the army. But as they got close, the camp's alarm suddenly activated, alerting the entire army camp.

Because of what happened in the Central Continent, the nerves of the other Divines were quite tight. Now that the alarm had sounded out, the soldiers immediately jumped up at the fastest speed, they grabbed their weapons and ran out without even wearing their armors. They didn't have time to.

The soldiers in the compound were getting extremely alert. The magic lamps in the compound were now being lit up, allowing them to see the scenery inside and outside. What they saw startled each and every one of them.

They were all soldiers, elites at that. They could see the number of their enemies in just a glance. Therefore, upon heading out of their camp, they immediately knew that they were surrounded by no less than ten thousand undead.

While the soldiers were stunned, the undead were already rushing over. The soldiers were surprised because they felt that the clothes the undead wore were quite strange.

A lot of these undead were dressed like noble Divines. Moreover, some of them were wearing ancient robes. Nevertheless, the undead looked gorgeous, causing the soldiers to feel very strange.

Just as the soldiers were preparing to clash with the enemy, the undead's strength surprised them once more. All of the undead were God-rank.

Carvalho stood in the center of the compound as he inspected the undead. The clothes on these undead seemed to have been worn for a long time, and their style was very old. However, the weapons that they were using looked newly made, this puzzled him.

Then suddenly, Carvalho noticed where these undead were coming from. They could be seen coming out of Lion Rock.

Carvalho looked at Lion Rock as his expression changed. He looked at the undead carefully before he suddenly spotted an armored undead. Carvalho's eyes focused even more before it flashed an ominous light. He immediately turned to his subordinates and commanded loudly, "Brothers, join me, we need to kill our way out!"

Carvalho's command made the others soldiers stare. These people weren't Carvalho's subordinates for a day or two. They knew Carvalho and were very loyal to him. However, his order this time was not something they expected to come out of his mouth.

One must know that guarding Lion Rock was an important matter for the Leo Divines. Moreover, the Leo Clan had an order that was specifically directed at the troops guarding Lion Rock. Fleeing during battle is punishable with nine generations execution!

This meant that once you are assigned to Lion Rock, you will die in battle there. Once you flee, then 9 generations of your family would be killed.

This was the order that caused the soldiers to feel confused at Carvalho's order. Upon seeing the strength of the undead, the soldiers were already prepared to die here. They understood that if they retreat, then their families would be implicated. But if they die here, then their families might be protected.

Carvalho immediately knew what the soldiers were thinking, after all, they were long time friends. However, Carvalho commanded once more, "Brothers, I couldn't promise anything, but we need to head out of this place. This matter is related to the fate of our Leo Continent. Quick, gather together!"

Zhao Hai sat on his room and looked at Carvalho. He knew that Carvalho had already guessed what was happening. But instead of impeding Carvalho's escape, Zhao Hai wanted to release him in order to spread the information regarding what happened to Lion Rock.

Carvalho's men chose to believe in him, so they immediately grouped up and proceeded to rush out.

But when Carvalho's group went on to clash with the undead, they suddenly discovered that the undead weren't as powerful as they thought. Although Carvalho lost about half of his people, they still managed to escape.

After the clash, Carvalho quickly rushed towards Thirsty Lion City. Carvalho knew that Thirsty Lion City was a satellite of Lion City. Because of that, there were a lot of defenders there that could block the undead. Moreover, he also needs the city to send a signal back to Lion City, asking for reinforcements.

At the thought of this, Carvalho's mood improved. He turned his head and glanced coldly at the slowly retreating undead.

At this time, an aide beside Carvalho said, "General, where did those undead come from?"

Carvalho smiled bitterly, he didn't know how to answer. He was very clear that those undead were their buried ancestors inside Lion Rock. If this news was spread to the continent, then its effect would be resounding. Since he knew what the outcome would be, he thought twice about informing his men.

Carvalho's aide looked at him and said, "General? What's wrong?"

Carvalho sighed, he didn't have the guts to hide the truth from his brothers, so he whispered, "Those undead came from Lion Rock. I'm certain that this is Zhao Hai's doing."

The aide froze for a moment, then he said, "Lion Rock? Why would they come from Lion Rock? General, you mean, Zhao Hai is here? The one we are at war with?"

Carvalho looked at his subordinate and sighed, "I'm 80% sure. Remember the clothes that those undead wore. Although we still wear robes up to this time, our style changed a lot. However, the robes worn by those undead seem to be from ancient times. Additionally, they appeared near Lion Rock. I'm quite sure that Zhao Hai went to Lion Rock and turned our ancestors into undead!"

Upon hearing this, the aide's eyes turned blood red, "Zhao Hai went too far! I will tear him to pieces!"

Carvalho calmly replied, "Zhao Hai is truly an archenemy of the Divine Race. If we don't deal with him, then the Divines would be in peril" At this time, flames suddenly flashed outside Thirsty Lion City, the reinforcements have come. Carvalho immediately went forward and said, "May I meet the general? This one is Lion Rock's General Carvalho."

The opposite party gave way before a voice was heard, "Carvalho, you brat, you want to die do you? How dare you run away from the camp! Tsk, tell me what happened." As the voice came in, a huge figure appeared in front of the reinforcing army.

Upon seeing this person, Carvalho began to loosen up. He quickly replied, "Kale, you old fatty. Don't waste any time and come over to help us. I have an important matter to see his Majesty. This is a matter of the Leo Continent's life and death. We need to be careful."

It's clear that the opposite party was a friend judging by the jokes they threw at each other. The reinforcing army immediately planned to head towards Lion Rock to surround it. At the same time, scouts were also sent in to see the situation at Lion Rock.

As the reinforcing general reached Carvalho, the latter turned his head and said, "Kale, let your people retreat, it's useless. Come with me to Lion City, we need to report this matter to His Majesty."

It's obvious that Kale trusted Carvalho's decision, so he looked at him and said, "Alright, let's go immediately." After that, he commanded his people to stay put while also recalling the scouts.

At this time, Carvalho's aide reminded him, "General, we need this to be hidden from as many people as possible. It's best to have an encirclement around Lion Rock just to make sure nobody goes there."

When he heard this, Carvalho stared for a moment before he nodded and said, "Alright, go send people to surround Lion Rock. Make sure nobody approaches the area. However, make sure to keep a safe distance."
