

Another World 941

Chapter 941 – Skeleton King!

Lewis looked at the Dark Mist. He was the northern army's first squad commander. Because of this, he remained behind. Moreover, he was continuously entrusted with heavy responsibilities.

Lewis was clearly aware about how much importance the clan attached to the northern defensive line. Moreover, he also understood the present situation. The methods the Clan prepared to deal with the Dark Mist were simply useless. The Dark Mist was still expanding. For the family, this was a great trial. If they don't do well, then the family would suffer a loss.

But there was no other method for Lewis. The innate Yin domain appearing here was strange in itself. The fact that it was also expanding made it even more mystical.

Lewis was constantly worried. However, today, he was feeling extra worried, and he didn't know why. He seemed to have an apprehensive feeling.

Lewis was very convinced of this feeling. This ability wasn't born with him, but instead he acquired it after suffering a serious injury. This intuition was very strange, but it was real. And this feeling has helped Lewis several times. After he became a war tank driver, he managed to avoid several dangers by relying on his intuition.

And now, the danger he felt was unprecedented. This caused Lewis to feel fear and apprehension. The people who were with Lewis couldn't help but feel strange, this was because Lewis looked very anxious this particular day.

Lewis couldn't explain his feeling to them. Even if he did, the others wouldn't necessarily believe in him. Because of this, Lewis can only prepare to deal with the emergency the moment it happened.

Although the sun was hanging high up in the sky, making it the hottest time of the day, Lewis still felt a wave of chills. He would have a cold sweat from time to time.

Suddenly, the Dark Mist in front of them tumbled. Lewis became even more anxious. But the strange thing was his heart beginning to calm down. He knew that his intuition was acting up again, something was about to happen.

Lewis didn't think too much, he didn't want to wait until something happened. He immediately turned his war tank around and began to run away as fast as possible.

Lewis' action made the people around him feel strange. The person who opened his mouth to talk to Lewis was Theo. Theo looked at Lewis strangely and asked, "Big Brother Lewis, what's wrong? Why are we retreating? Shouldn't we stay to observe the Dark Mist?"

Lewis shook his head and said, "It's not good, the place has become dangerous."

Just as Lewis said that, a magic armor pilot suddenly called out in alarm. Lewis and Theo quickly looked at the war tank's rear view mirror. What they saw made them turn blank.

Flying out from the dark mist was a group of people. Or it could be said to be a group of undead. Most of these undead were golden yellow, they looked like they were cast from gold.

The golden yellow skeletons were riding similarly golden yellow magic beasts. In their hands were golden yellow weapons that seemed to have extraordinary might.

In the middle of these undead was another group of crystal skeletons. The appearance of these skeletons was just like the golden yellow undead but they looked much more advanced.

And in the very middle of these crystal undead was a carriage. It was a very unusual carriage as it was made out of bones. Pieces of crystal bones made up the pieces of the carriage, and it was pulled by four crystal undead magic beasts.

Inside this carriage was an undead. However, this undead was different from the others. This undead was wearing full body armor!

Correct, it was a full body armor. It was a radiant, golden armor. It seemed to be made out of gold but if you look closely it was made the same way as the carriage. The armor was made out of small pieces of bone, all connected to form this golden crystal bone body armor.

At the same time, the helmet, shoulder, elbow, and knee armors were all made out of golden skulls. Not only did it look defensive, it looked terrifying as well.

The helmet itself looked very special. It was made with a golden ox-head. Its horns pointed to the skies, looking extremely domineering.

On the back of the undead was a cape. However, the cape didn't look very neat, it looked like it was worn for a very long time. But although it was ripped and fragmented, the cape didn't make the undead look inferior. Conversely, the cape increased morbid feeling one would feel upon gazing at the undead.

There was a visor on the helmet, but at this time, it was opened. As the undead sat there, its two golden eyes were burning, giving people a huge sense of pressure.

The undead just sat quietly inside his bone carriage. His body was motionless but his aura announces a presence of a king. The king of all skeletons.

When Lewis saw these undead, he couldn't help but violently shake. His expression changed for the worse as he sped up even more towards the southern part of the Aksu Empire.

It didn't take too long before the undead discovered them. A squad of golden skeletons immediately charged. Lewis opened the war tank's doors as Theo and other people entered their magic armors and shot towards the sky.

Lewis paid extreme attention to the current matter. He told Theo and the others to not stray away from the war tank. The nearer they were to the war tank, the easier would it be for the war tank to provide support. If they were far, then they risk getting into a dangerous situation.

Theo and the others have experienced actual combat, so they were quite aware of what to do during battles. They didn't fight the undead head on. Instead, they used their magic armors to fire energy beams towards the enemy.

But much to the surprise of Theo's group, the undead were very agile. They were able to dodge the energy beams as they continued to rush towards the magic armors.

Theo and the others stared before they became shocked. They didn't think that the undead would be this agile. Moreover, they were quite fast. The magic armors that they were proud of actually couldn't escape the undead's pursuit.

Theo and the others immediately launched bombs. After a loud explosion, the undead came out. They were basically uninjured, causing Theo to be startled once more.

At this moment, several energy beams hit the undead. The golden undead shook fiercely before the fell.

Theo and the others stared before they looked at the direction where the energy beams came from. The group couldn't help but turn red as they immediately began to lure the undead around.

But at the same time, the undead also noted the war tank on the ground. Ten undead immediately rushed towards the war tank. Lewis wildly drove the war tank around to get away from the undead while also firing energy beams.

However, not everyone manage to notice that the undead who fell to the ground didn't actually die. Instead, the fires in their eyes just became faint. But when they fell to the ground, spatial rifts suddenly opened, taking them all in. Once the undead entered the spatial rift, the rift would also disappear.

Although not everyone manage to notice this, the Skeleton King did. Upon seeing his golden skeletons vanish, he seemed to stare. Then he stood up and slowly went towards the carriage door. A crystal undead quickly opened the door for him.

The Skeleton King stepped out of his carriage and descended as though he was walking down a staircase. Every undead stopped in place, aside from those who were fighting Theo's group.

Before long the Skeleton King reached the ground. He arrived at a place where a golden skeleton vanished. He carefully examined the ground, only to find nothing special there. Even a hint of energy was absent from the area.

At this time, a spatial rift suddenly opened while a person walked out of it. The Skeleton just looked at the person that appeared before him. He didn't make a move.

This person was wearing a black magic robe. In his hand was a blood red crystal skeleton staff. He had a smiling expression on his face. There was no need to say about the man's status, he was a Dark Mage.

This person was Zhao Hai. When the skeletons went out of the Dark Mist, Cai'er immediately informed him. Because of this, Zhao Hai paid attention to the scene. After seeing the golden skeletons falling to the ground, Zhao Hai couldn't help but absorb them into the Space. Although the Space issued some prompts, it was actually very short. It just identified them as robots and improved the defensive abilities of the Space's undead.

But when he saw the Skeleton King's movements, Zhao Hai couldn't help but get curious. Because of this, he decided to personally meet the Skeleton King.

While the Skeleton King was sizing up Zhao Hai, Zhao Hai was also observing the Skeleton King. To be honest, this was the first time that Zhao Hai had seen an undead as eye-catching as this one. At this moment, the Skeleton King sent a spiritual wave towards Zhao Hai. This wasn't an attack, but instead a means to communicate.

Zhao Hai had also experienced a similar situation before, so he wasn't startled as he sent a similar spiritual wave to meet the other party. Upon contact, Zhao Hai suddenly felt an ancient but domineering voice inside his mind, "Who are you? Are you the one who took my subordinates?"

Chapter 942 – Zhao Hai's Guess

Zhao Hai looked at the undead and smiled, "Is Excellency the Underworld's Skeleton King?" The Skeleton King curiously looked at Zhao Hai and said, "Who are you? Where is this place? Why do you know my status? Are you the one that opened that spatial rift?" Zhao Hai looked at the Skeleton King and smiled faintly, "I don't have that great of an ability. I might be able to open spatial rifts, but I can't open rifts as large as the one you went through. And to be honest, no plane would want to open a spatial rift to the Underworld." The Skeleton King looked at Zhao Hai and gently tilted his head. It was obvious that he was quite curious about Zhao Hai, then he said, "You are a man who is well-informed. You know that I'm the Skeleton King and that we're from the Underworld, yet you don't seem to be afraid. Are you strong?"

Zhao Hai slightly smiled as he said, "I have some confidence in my strength. Also, before you appeared here, I have already moved everyone, my family, my friends, as well as those who have a relationship with me. So even if you overturn the heavens here, it would still not affect me. However, I will take your subordinates away, I'm quite curious about them. I want to study them well."

The flame in the Skeleton King's eyes suddenly increased in intensity, he looked angry. The Skeleton King looked at Zhao Hai and spoke in a calm manner, "You want to turn us into your slaves?" Zhao Hai smiled faintly and said, "You can't say that, but it's about the same. I have an ability to turn all the undead I caught into my own servants."

The flame in the Skeleton King's eyes blazed even greater. He look straight at Zhao Hai and said, "Human, I know that you are strong, but you must die!" After speaking this, the Skeleton King reached back to his cape. When his hands came out again, two golden axes could be seen, huge golden broad axes.

The edges on these axes were like two huge semicircles with a diameter of about a meter. Engraved on the back of each blade was a skull pattern. The axe's handle seem to be made of sections of vertebrae.

Zhao Hai looked at the Skeleton King's appearance and couldn't help but smile. He shook his magic staff, turning it into a sword. The appearance of this sword was just like a tang blade.

The Skeleton King looked at Zhao Hai's sword with curiosity. However, he didn't say anything as his figure moved and, just like a tornado, swung himself towards Zhao Hai.

Zhao Hai discovered that the Skeleton King's movements were very unusual. His whole person was continuously brandishing the two axes as he revolved. With the rotation as well as the weight of the axes, the force exerted by each axe was evidently astonishing.

However, at Zhao Hai's level, this kind of attack wasn't a threat. The weight of the weapon itself was useless against Zhao Hai. Zhao Hai waved his sword in order to block the axes.

Bang! A huge force rang through the tang blade. Zhao Hai couldn't help but be stunned. He didn't expect the strength of the Skeleton King to be this strong. Even with his strength, he could still feel the impact of the attack. If it was any other God-rank expert, then they surely wouldn't be able to receive it.

But what made Zhao Hai feel strange was the fact that the Skeleton King was evidently a very strong God-rank expert. He might have even reached the upper ranks of God-rank. However, the Skeleton King didn't use a Domain, which puzzled Zhao Hai.

Still, the other party wasn't useless even without using a Domain. After blocking the enemy's attack, Zhao Hai's body moved and went on to retreat.

However, the Skeleton King kept attacking Zhao Hai. This was where Zhao Hai discovered that the Skeleton King's revolving attacks weren't only used to amplify his attacks, but it also allowed him to attack repeatedly. Each attack was linked, tightly connected that even if the enemy steps back they would still be met with an attack. Zhao Hai was in this situation. The Skeleton King looked like a tornado spinning towards Zhao Hai.

Zhao Hai saw this situation and knew that he couldn't drag this on. He transformed his tang blade into a huge shield as he placed it in front of him to block.

The Skeleton King didn't expect Zhao Hai to use this move, he didn't think that Zhao Hai's weapon could become this big. But the Skeleton King didn't stop, he continued to revolve towards Zhao Hai, seeking a flaw in his defense.

Zhao Hai held his huge shield on one hand, and suddenly a red blade appeared on the other. The blade had a thick back, making it quite heavy. Naturally, this blade was made from the blood ghost staff. As Zhao Hai grasped his shield, he brandished his blade to attack the Skeleton King.

Finally, the Skeleton King's rhythm was disrupted. At this time, Zhao Hai used his shield to smash towards the Skeleton King. Unable to bear the impact, the Skeleton King drew back several steps. Zhao Hai used this opportunity to jump out of the Skeleton King's range. The shield and blade vanished as they returned to being the blood ghost staff.

Zhao Hai looked at the Skeleton King and smiled, "Your Excellency, I still have some matters to attend to, so I couldn't fight with you for a long time. When I have time later on, I will certainly ask your Excellency for advice." After saying this, his body immediately vanished.

Although they had only fought for a short time, Zhao Hai actually felt that the Skeleton King was very formidable. If he wanted to deal with the Skeleton King, then he would have to exert some effort. Because of this, he chose to retreat.

Since the clash was very short, Lewis and the others were unable to notice anything as they fought with the undead.

Upon seeing Zhao Hai vanish, the Skeleton King's eyes couldn't help but blaze up more vigorously. It can be said that the Skeleton King was truly angered by Zhao Hai. Then he turned to look at Theo's group who were still fighting with the golden undead. The axes disappeared from his hand before he waved to his subordinates. Then a small number of crystal undead flew out and directly threw themselves towards Lewis and the others.

At this point, Lewis and the others could neither run nor fight. Since this was the case, then they could only drag on. They knew that their base wasn't far away. They were hoping that someone would be able to see their situation and send some support. Otherwise, they would surely be in extreme danger.

Fortunately, Lewis' hopes came true. From their base's direction, a thousand magic armors suddenly began to head out.

But at this time, the crystal skeletons were already near and had initiated their attack. This began an exchange that made Theo and the others feel chills. They didn't expect the undead to be this violent, the magic armors were completely unable to block.

In a short time, four magic armors were destroyed by the crystal undead. They fell down to the ground, their pilots certainly dead.

After seeing this situation, Theo immediately made everyone throw every bomb they had. They need to resist these skeletons long enough for their reinforcements to arrive.

In the war tank, Lewis also had a similar type of bomb. He kept launching them to the point of covering the heavens and the earth. These bombs managed to keep the undead off, but they did little to no damage. However, the reinforcements had already arrived, both sides quickly began to fight each other.

With such a large movement, it was impossible for the other O'Neal family members to not notice it. Before long, more and more magic armors and war tanks began to head towards the ensuing battle.

Upon seeing the situation, the Skeleton King returned to his carriage. He knew that continuing wouldn't be good, so he waved his hand causing the undead to retreat. Then they slowly went back to the Dark Mist. Although the O'Neal family wanted to pursue, they didn't do it in the end.

The Skeleton King didn't go too far from the Dark Mist. Before long, his entourage was surrounded by the underworld's fog. There were still some magic armors who decided to head into the dark mist. But since the dark mist amplified the strength of the undead, they could only be destroyed.

The O'Neal family's general saw this situation and immediately ordered a retreat. After returning to their base, he quickly wrote a letter and had it sent to the Patriarch at the quickest speed.

After Zhao Hai returned to the Hell King's ship, Laura immediately went to welcome him. Then she asked, "Brother Hai, how was it? Is that really the Skeleton King? Was he strong?"

Zhao Hai nodded and said, "He's indeed the Skeleton King, and he's very strong. Even if the Supreme Elders use their ultimate weapons, they might not necessarily be his match. Moreover, I suspect he is just like the O'Neal family. They weren't governed by Lu Wei."

Zhao Hai said this as he entered the room. Lizzy and Megan were currently directing the undead to deal with the Pisces Divines. They were now having a much easier time since they now have a lot more ranged undead. All of these new additions came from the Sagittarius Continent. Now, they were all Zhao Hai's people. The Space also increased their strength. So it was no wonder that the Pisces Divines simply couldn't block their assault.

This was exactly where Zhao Hai's abilities shone when fighting against people. His subordinates would only increase while the enemies number less and less. In this case, he naturally had the upper hand.

Seeing that Lizzy and Megan were wholly absorbed in their task, Zhao Hai decided to not disturb them. He looked for a place to sit down inside the room, then Meg offered him tea to drink. After that Laura said, "Brother Hai, how are you sure that they weren't managed by Lu Wei?"

Zhao Hai replied, "This is just a feeling. It's quite obvious that Lu Wei has handed this plane over to the Divines. Then he used the Divines to conquer other planes. However, the strength of the Underworld is obviously stronger than the Divines. If the Underworld was also under Lu Wei's control, then why would he need to support the Divine Race? A territory only needs one King. If the Underworld was controlled by Lu Wei, and he still supported the Divines, then doesn't it seem wrong? Moreover, have you noticed? The Divines as well as its contemporaries used Domains in order to fight. At the same time, even other races would use Domains during battles. I suspect that this is a feature of the planes being managed by Lu Wei. When I fought against the Skeleton King, he didn't use his Domain." Laura nodded, then she

said, “So you mean that since the Divines changed the laws of the Ark Continent, they managed to connect two other planes that weren’t under Lu Wei’s control?”

Zhao Hai nodded, “That is the most likely case. If that is so, then the Cultivation World might be more complex than we thought. Think about it, Lu Wei forbade anyone from studying magic armors. Magic armors belong to type of technological civilization. From this point, we can roughly infer that Lu Wei had some relationship with people using magic armors, or he might have a hatred against technological civilizations. The case of the Underworld is much more complicated. Almost all energy in the Underworld is dark and toxic. I can remember that there are demonic influences in the Cultivation Realm. And since Lu Wei is from an orthodox sect, he would have a grudge against them. Now that these three planes were connected together, I’m afraid things wouldn’t turn out well.”

Laura knit her brows and said, “Brother Hai, you mean this thing might cause some chaos in the Cultivation Realm?” Zhao Hai shook his head and said, “As for its effect, I don’t know. But from what I can see, since the planes are divided, those who ascend would have a mark of the planes where they came from. And since we have a grudge against Lu Wei, we would be marked by Lu Wei’s group when we ascend. I’m afraid that we would be chased down when that time comes.”

Laura’s expression couldn’t help but change upon hearing Zhao Hai. With an anxious voice she said, “Brother Hai, so what do we do? Can we do anything? Will our situation be even more difficult after we ascend?”

Zhao Hai smiled bitterly and said, “I’m afraid it can only be like this. But I still want to see what happens if we ascend in either the Atlanta Plane or the Underworld. Will we still be marked by Lu Wei? As long as we can temporarily avoid Lu Wei’s detection, then with the Space’s abilities, we would be able to have a stable foothold in the Cultivation Realm. When the time comes, it would be impossible for Lu Wei to deal with us.”

Chapter 943 – The Hard to Deal With Gemini and Aquarius Continents

Laura didn’t think that Zhao Hai would have such thoughts. She looked puzzled as Zhao Hai as she asked, “Brother Hai, how did you come up with such ideas?”

Zhao Hai smiled faintly and said, “Just after fighting the Skeleton King. The Skeleton King reminded me that the Underworld and the Atlanta Plane weren’t managed by Lu Wei. After we ascend, we might not be far from Lu Wei, but we might end up in his enemy. If Lu Wei wanted to deal with us, it won’t be very easy.”

Laura nodded and said, "That would be the case if that is true. It's worth trying. But Brother Hai, isn't the energy inside your body increasing? With so many things left unsolved, what will happen if you suddenly ascend?"

Zhao Hai smiled faintly and said, "Then I could only count on a reserve plan. I think the Atlanta Plane would be good. Since I had this idea, we might as well pick this direction and go. What we have to do right now is to settle things we needed to settle before we go."

Laura nodded before she turned her head. She looked at Lizzy and Megan's progress in commanding the undead to deal with the Pisces Divines.

Zhao Hai wasn't worried about Lizzy and Megan. Without their Supreme Elder to help, the Pisces Divines could only fall to the undead.

Sure enough, just like what Zhao Hai thought, Lizzy and Megan were able to deal with the Pisces Divines with little effort. At this time, Zhao Hai was carrying a few undead in order to deal with another continent.

Upon seeing that there were no issues in the Pisces Continent, Zhao Hai turned his head to Laura and said, "Since there are no problems in the Pisces Continent, should we go on to the next step?" Laura looked at Zhao Hai and said, "What does Brother Hai plan to do?"

Zhao Hai smiled faintly and said, "Aren't the foreign races sending their army? Since we're doing well, we should prepare to support them. With the help of the foreign races, we would be able to deal with the Supreme Elders. As long as we dealt with the Supreme Elders, we can then start making a move on the O'Neal family. Now that the Underworld has begun to make moves, we need to settle our plans a little bit faster."

Laura nodded then said, "Brother Hai, how about this. Since we have enough numbers in our hands, it would be better for us to attack two Continents at once. This way, we would be able to deal with the Divines as soon as possible. The Leo Continent is currently being left to the foreign races. As long as the Supreme Elders know that the Divines have been extinguished and that the Leo Continent was being conquered by the foreign races, then they will certainly settle accounts with the foreign races. At that time, we can clean them up and take their combat suits."

Zhao Hai nodded, then he said, "Then we'll deal with two Continents at once. Right, we need to study the Continent we'll attack next."

As Zhao Hai was researching his next target, the O'Neal family began to worry about one matter.

In the past, they only needed to think about the dark mist's expansion. But now it was different, the undead has started to venture out. Moreover, their fighting strength was very formidable. And this was only a small group! If more of these undead come out, how would the O'Neal family deal with it?

It was because of this that the people in the Aksu Empire's defensive line immediately sent a letter to the family. And while waiting for the family's reply, the defensive line became even more careful. The patrols sent at night had increased a lot.

They were clear that the undead would have reduced strength during the day. But in night, they would be strengthened. The undead that came out this time went out during the day, and the O'Neal family already had difficult time dealing with them. If they came out during the night, how powerful would they be?

The O'Neal family's northern defensive line became more vigilant than before. They didn't want to fall under the undead's blade.

Sending reports back to the O'Neal family was now faster than before. This was due to the Patriarch's arrangements. Between the northern defensive line and the Divine Realm's spatial rift were a lot supply stations. They could now send magic armors to send their letters since they could just resupply at these supply stations.

The reason why the Patriarch did this was because they need to make the communication more convenient. The Patriarch knew too well how important communication was when it came to the family's operations.

When the letter reached his table, the Patriarch couldn't help but get stunned. He never thought that an accident would happen in the northern defensive line this soon. This caused the final hesitation on his heart to disappear.

When he received Axe's report, the Patriarch still had some reservations. Must they really risk moving their operation to the plane that Axe discovered? In any case, they already found their enemy in that plane. If they left the Ark Continent now, wouldn't it be a waste? But this letter finally made the Patriarch determined to shift the family's focus to the south.

The reason why the O'Neal Patriarch thought about this was because their headquarters was already much closer to the south. Therefore, it would be fine to shift the family's focus there. Additionally, the Dark Mist had become much more dangerous. The Patriarch also knew that there seem to be no immediate danger in the plane that Axe discovered. Moreover, that plane was much bigger than the Ark Continent, which was important for the O'Neal family.

Therefore, upon receiving the news from the north, the Patriarch immediately sent a family elder in order to observe the plan that Axe discovered.

The Patriarch was still quite worried about Axe. After all, Axe wasn't very successful in the beginning. He just listened to Zhao Hai's words and returned home prematurely. He didn't take the time and see the Ark Continent for himself. If he made the effort to scout the Ark Continent beforehand, the O'Neal family would not have been in an embarrassing situation in the beginning.

Although he had decided to develop the south, the O'Neal family didn't relax their surveillance over the northern part of the continent. The undead were too strong, the O'Neal family needed to be careful.

Just as the O'Neal family was preparing to move to the Divine Realm, the foreign races arrived at the Leo Continent. Recently, the atmosphere of the Leo Continent was becoming more and more tense. Ever since Zhao Hai's attack, the Leo Divines have always waited for him to come back. Once he did, they would surely teach him a lesson.

However, Zhao Hai didn't go to the Leo Continent, instead he destroyed the other continents one by one. This caused the Leo Divines to feel even more terrified. They didn't expect Zhao Hai to be this strong.

But the Leo Continent didn't forget that they were members of the Divine Race. This caused the fire inside them to blaze more and more. As they were preparing to go all out against Zhao Hai, the foreign races' attack came.

The Divines and the foreign races had a grudge, but just as the Leo Divines weren't having a good time, the foreign races came to attack. This made the Leo Divines even more angry. A great battle between the foreign races and the Leo Divines quickly ensued.

The foreign race army was a coalition between three continents. They numbered more than 50 million in total. And since the Leo Divines had the territorial advantage, they already had an army prepared. Additionally, compared to the the foreign races, the Leo Divines had the help of the Fishman race. Because of this, both sides were at fairly equal states.

Naturally, Zhao Hai was aware of this situation. At this point, besides the Leo Continent, only the Gemini Continent and the Aquarius Continent was left, the other Continents were destroyed by Zhao Hai. Zhao Hai was now preparing to deal with the two remaining continents.

After carefully researching the Gemini and Aquarius Continents, Zhao Hai discovered that they were the most difficult continents to deal with.

It wasn't strange for Zhao Hai to just know about this at this time. He didn't know much about the Divine Realm. He was unaware about the various groups in the Divine Realm and what they were good at. It was only after he met these people did he know their abilities.

The Gemini and Aquarius Continents were difficult to deal with because they had their own unique abilities. The Gemini Divines were really worthy of their name. The number of twins in the Gemini Continent was much higher compared to the other continents. In ten households, five of them would have twins as their offsprings. It was a quite surprising statistic.

Because these twins grew together and trained together, they were able to have a tacit understanding about each others' abilities. This boosted their strengths compared to any other paired groups. Because of this, the Gemini Divines were very well known to be very hard to fight against.

On the other hand, the Aquarius Divines were also quite formidable. They don't have a lot of twins, but what made the Aquarius Divines very hard to deal with were their extreme talent for potions. They had potions that were very strange and unusual, with endless functions and uses. They could poison a person, or heal them, they could enhance one's cultivation or just cure common illnesses. Because of their potions, the Aquarius Divines were known to be people one wouldn't want to provoke. They had a similar status as the Dark Mages back in the Ark Continent.

Chapter 944 – The Proud Winged Pegasus Patriarch

Actually, the various Divines in each Continent had their own characteristics. Although they were collectively called the Divine Race, each group actually had various qualities. The Gemini Divines had a lot of twins, the Aquarius Divines use potions, the Central Divines were the most arrogant, the Leo Divines were the most domineering, and etc. Some of these characteristics can be seen immediately while some were seen later on.

In the past, Zhao Hai wasn't very familiar with these. But after dealing with the other Divines, he learned that each Divine group were terrifying in their own way.

The people in the Central Continent might look elegant in the surface, but they were also very arrogant. They wouldn't get offended over ordinary things, after all, they were Central Divines. With their identity, it would be too below them to be offended by the smallest of things.

After Zhao Hai destroyed the Connecting Heaven Palace, the Central Divines turned insane, this was because of their arrogance. They couldn't bear such a blow. They were like Princes being held down by a mere beggar. They couldn't stomach such an insult.

After seeing the foreign races clash with the Leo Divines, Zhao Hai did intend to intervene. He wanted the foreign races to meddle in order to distract the nine Supreme Elders. Meanwhile, Zhao Hai would be dealing with the Gemini and Aquarius Continent.

Although it was said that the Gemini and Aquarius Continent were very hard to deal with, they weren't that formidable for Zhao Hai. The Gemini Divines might pose a challenge, but the Aquarius Divines were nothing to Zhao Hai.

The Aquarius Divines use potions, but Zhao Hai's subordinates were undead. The undead creatures were mostly immune to the potions of the Aquarius Divines. Because of this, the Aquarius Divines weren't in Zhao Hai's view. The more difficult ones were the Gemini Divines.

Twin Gemini Divines had great understanding of each other, which made them difficult to deal with. The power of twin Geminis outweigh the power of three people. Because of this, most of Zhao Hai's attention was focused on the Gemini Continent.

Although the Gemini Divines were a bit difficult to deal with, Zhao Hai still wasn't worried. After all, he had the superiority in numbers.

At this time, the Barbarians had completely moved to the Space. Meanwhile, the Winged Pegasus were still fighting against the Supreme Elders.

Along this span of time, the disadvantage of the Supreme Elders' ultimate armors were beginning to show. Unlike Zhao Hai's undead who could attack day and night, the Supreme Elders needed to stop once in a while. Therefore, their assault on the Winged Pegasus Clan wasn't going very smoothly.

The nine Supreme Elders had truly overestimated themselves. In their opinion, Zhao Hai alone wouldn't be able to completely deal with the Divine Race territory.

However, they've forgotten about one point. Zhao Hai had more than 1 billion undead in his hands. On the other hand, they were only nine people. With this disparity, it would be hard for them to keep up.

This didn't mean that the Winged Pegasus were their match. But the Winged Pegasus were able to entangle them, even if the Supreme Elders weren't paying any hard sacrifices.

In the first few battles against the Supreme Elders, the Winged Pegasus suffered heavy casualties since they didn't understand the Supreme Elders. However, even if this was the case, this wouldn't remain forever. The Winged Pegasus weren't stupid. After a few more battles, they were able to find means to deal with the Supreme Elders.

After a while, the Winged Pegasus found ways to entangle the Supreme Elders. They would approach the Supreme Elders in a loose formation so that the Supreme Elders would have to fight for a longer time. Because of this, when the Supreme Elders retreated, the Winged Pegasus didn't suffer very large losses. This also made the Winged Pegasus Patriarch more and more confident.

At this time, the Barbarian Patriarch appeared in the Winged Pegasus Plane along with Shan and the others. The Barbarian Patriarch didn't regret moving to the Space. The environment inside was much better compared to their previous place. This made the Barbarians very happy. After settling for a bit, he immediately went with Shan to the Winged Pegasus Plane.

Shan was anxious since he knew that they didn't have much time. The O'Neal family had entered the Divine Plane, but Zhao Hai was still dealing with the Divines. Even if the Winged Pegasus were able to

block the nine Supreme Elders, they could still be attacked by the O'Neal family. Shan didn't have confidence in the Winged Pegasus when it came to defending against the O'Neal family.

Upon knowing these facts, Shan badly wanted his people to enter the Space as soon as possible. Shan also knew why Zhao Hai didn't offer any more help, and he couldn't blame Zhao Hai for it.

Besides Shan's group, the Barbarian Patriarch only brought 20 Barbarian guards along. However, when they came out of the room, they immediately attracted the attention of the Winged Pegasus members. Before long, they were encircled.

Shan was fearless as he looked at these people and said, "Let us pass, the Barbarian Patriarch is here for a visit."

Upon hearing this, the Winged Pegasus couldn't help but freeze for a moment. They didn't expect Shan to be calm in this situation. And since the Barbarians were too imposing, the crowd immediately opened a path for them to go through.

The other Winged Pegasus looked at Shan with complication gazes. Shan's reputation in the clan was very high in the past. A lot of people were optimistic about him. But now, he was seen as a criminal. And through the continuous propaganda by the Patriarch, Shan had become someone who wanted to sell their entire clan into slavery.

Shan didn't care about the looks his clansmen were giving him. After talking with Zhao Hai, his mind has been opened up. Just like Zhao Hai said, there's no need to worry about how they saw him, as long as he was doing the right thing. All Shan had to do was do what he thought was correct.

Shan and the others didn't stop and walked towards the Pegasus Clan's Grand Hall. Upon arriving, they saw the Winged Pegasus Patriarch in the entrance preparing to meet the Barbarian Patriarch. No matter what, the Barbarians were their close allies, the Winged Pegasus Patriarch had to give face.

Upon seeing the Barbarian Patriarch, the Winged Pegasus Patriarch immediately gave his greeting, "Brother Jinsong, you actually have time to visit us? Please, come inside." The Winged Pegasus Patriarch didn't even spare Shan a glance, he just treated him as though he didn't exist. This attitude showed the Winged Pegasus Patriarch's current thought.

Jinson looked at the Winged Pegasus Patriarch and laughed, "Brother Yifei is too polite. There's no need for you to meet us outside."

Before long, the group arrived inside the Assembly Hall. Inside the hall were Winged Pegasus members who held certain status. They were already inside waiting to welcome Patriarch Jinsong. The banquet has been set up, Patriarch Yifei even went on and personally served Jinsong.

After the dishes had been set up, Winged Pegasus Yifei took up his wine glass and said, "Brother Jinsong, your visit to the Winged Pegasus Clan truly made me happy. Unfortunately, since we are currently busy, you caught us unprepared. Please forgive me."

Jinsong smiled faintly as he also held his wine glass up and said, "I'm aware that the Winged Pegasus are in a special situation. Brother Yifei's preparation actually exceeded my expectations. Brother Yifei doesn't need to be polite."

Patriarch Yifei laughed and said, "Brother Jinsong's words truly make me glad. In any case, the Divine Supreme Elders look very mediocre. They wouldn't be able to pose a threat to the Winged Pegasus Clan. There's no need for Brother Jinsong to worry."

Jinson smiled faintly, he stayed silent and only raised his glass before downing it together with Yifei. Shan held a calm expression as well. He knew that Yifei's words were directed at him, but he didn't care. Instead, he felt pity for Yifei. He didn't know anything yet he was acting as though he had everything in control.

Yifei gave Shan an emotionless gaze. He knew that he couldn't do anything to Shan at this time. However, he thought that Shan was here because he asked Jinsong a favor in order to let him back into the Winged Pegasus Clan. The Winged Pegasus Patriarch plans to accept in order to show his magnanimity.

After drinking his wine, Yifei went straight to the point as he turned to Jinsong and said, "Brother Jinsong, are you here just to share a drink with me? If Brother Jinsong needs anything, then please don't hold back."

Barbarian Jinsong looked at Patriarch Yifei and said, "Brother might not believe me, but I really did want to visit the Winged Pegasus a long time ago. But since there were a lot of recent matters I need to take

care of, I only had the chance today. However, there is indeed one thing I came here for. Brother Yifei, I hope that you can agree to move the Winged Pegasus to mister Zhao Hai's Space."

Upon hearing Jinsong say this, Yifei couldn't help but get shocked. He didn't expect Jinsong to persuade them about this matter. This was completely in the opposite direction of what he thought. After he gawked for a moment, Yifei's expression changed, "Brother Jinsong, are you cracking a joke? Why would I enter Mister Zhao Hai's Space? The divine Supreme Elders have no means to deal with us right now. Why would I subject myself to being a slave?!"

Jinsong looked at Yifei and said, "Brother Yifei, can you really completely defend against the Supreme Elders? The Supreme Elders have yet to go all out. Once they do so, things won't be this easy anymore."

Chapter 945 – Selfishness That Leads to Insanity

Patriarch Yifei looked at Jinsong and said, "Brother Jinsong, what are you saying? Are you looking down on my Winged Pegasus Clan?"

Jinsong shook his head and said, "I'm not. The Winged Pegasus and the Barbarians have been allies for a long time, so I'm very clear about the strength of the Winged Pegasus. However, there's something that Brother Yifei doesn't know. Mister Zhao Hai has already eliminated the Central Divines, Cancer Divines, Capricorn Divines, Sagittarius Divines, and the Taurus Divines. He is now planning to deal with the other continents. At the same time, the foreign races are also planning to deal with the Leo Divines. If the Supreme Elders come to know about this, they will certainly go all out in dealing with the Winged Pegasus. Brother Yifei, are you really confident in dealing with the Supreme Elders?"

When he heard Jinsong, Yifei's expression couldn't help but change. He didn't expect Zhao Hai would have the strength to deal with several continents.

Patriarch Yifei was clear about how the Divines would seek revenge upon this grievance. If they knew about this matter, they would definitely go mad. When the time comes, can the Winged Pegasus really block their attack? Yifei wasn't too confident about this, after all the strength of the Supreme Elders were well known.

Patriarch Jinsong looked at Yifei and said, "Brother Yifei, to tell you the truth, I wasn't able to come here earlier because I was busy moving my people to Mister Zhao Hai's Space. We've just finished moving recently. The environment inside the Space is very good. We won't need to worry about fighting, we won't worry about eating and drinking as well. And if we want something, we can earn it with our own hands....."

“Shut up!”

Jinsong didn't even finish talking as he was interrupted by Yifei. He looked at Jinsong and said, “The decisions of the Barbarian Clan is the Barbarian Clan's matter. The Winged Pegasus will never enter Mister Zhao Hai's Space and become slaves. How strong could the Divines be? Up until now, they had yet to deal with us.”

Initially, Yifei was expressionless as he listened to Jinsong's words. But suddenly a thought passed through his mind, “If we enter Zhao Hai's Space now, then wouldn't he look like a joke to Shan?” It was because of this that he decided to interrupt Jinsong.

Even after hearing Yifei, Jinsong didn't give up, he sighed and said, “Brother Yifei, let me tell you, in the past, Mister Zhao Hai asked us to help him deal with the O'Neal family. Now, the O'Neal family has entered the Taurus Continent. It's possible that they would discover our three planes soon. Brother Yifei, do you really want to plunge the Winged Pegasus War into endless fighting?”

When he heard Jinsong, Yifei's expression turned angrier. He looked at Jinsong and said, “Is Brother Jinsong serious? Didn't Mister Zhao Hai say that he will block the O'Neal family by entering the spatial rift?”

Upon hearing Yifei, Shan's expression changed. Yifei already didn't give Zhao Hai any face and doubted everything. But now, he decided to trust Zhao Hai about this matter, how thick can one's face be?

Jinsong also despised Yifei, but he didn't show it. He only replied, “Mister wanted to compel the Supreme Elders to return, so he had to withdraw majority of his troops away from the spatial rift. Moreover, there are a lot more O'Neal family troops this time. They were able to easily rush through the defense.”

Yifei looked at Jinsong and asked, “Brother Jinsong, this information, where did you get it from?”

Jinsong replied, “It's from Mister Zhao Hai. What's wrong?”

Yifei laughed and said, "Of course there's something wrong. That's a serious problem. Why would I believe the words that Mister Zhao Hai spoke? He just said this to deceive us into moving towards his Space."

Jinsong stared, he never expected Yifei to say such words. At this point, why would Zhao Hai deceive them? What kind of person would actually think like this.

Jinsong quickly replied, "Brother Yifei, I'm afraid Mister Zhao Hai would not use this to deceive us. If the O'Neal family really arrives, then what would you do?"

Yifei waved his hand and said, "So what if the O'Neal family arrives? I don't believe that they are stronger than the nine Supreme Elders. We managed to block the Supreme Elders, so why do we need to fear the O'Neal family? Brother Jinsong, when did your Barbarian Clan turned into cowards? You actually got scared by just a few words. You became slaves for another and you still wanted to persuade me."

When Jinsong heard this, his expression couldn't help but change. This wasn't only an insult to him, it was also an insult to the entire Barbarian Clan. How could Jinsong just bear with it?

Barbarian Jinsong's brows knitted as he stood up and looked at Yifei, "Winged Pegasus Yifei, since we're disregarding face, do you really think that your Winged Pegasus Clan could contend with the various groups of the Divine Race? Mister Zhao Hai has already cleaned many Divine Race Continents. For him to deal with you would be very easy. Why would he even try to deceive you? You shouldn't look too highly of yourself."

When he heard Jinsong, Yifei couldn't help but sneer, "What? You want to scare me? If Mister Zhao Hai really wanted to destroy the Winged Pegasus Clan, then let him come."

Jinsong looked at the rotten Yifei. After a while, he calmed down and said, "I don't think Mister Zhao Hai has time to waste on you. Just wait until the O'Neal family and the Underworld deals with you. We're leaving." Then he turned around and proceeded to leave.

At this time, Yifei suddenly opened his mouth, "Coward Jinsong, do you really think you can just leave like that?"

Jinsong turned back with a fierce look on his face. A killing aura began to well up from his body as he looked at Yifei and said, "What? Yifei, you also want to capture me today?"

Yifei looked at Jinsong and sneered, "I won't be stopping you from leaving, but Shan couldn't go with you. He is a Winged Pegasus. Moreover, I've issued an arrest for him. He cannot leave."

Jinsong looked at Yifei and sneered, "Yifei, the reason for your order of arrest, you know what it is better than anyone. You also issued an arrest for Fei'er and Ding, so you also want them to stay? Yifei, it's not that this Jinsong is looking down on you, but if Shan and the others really did want to kill you, do you really think that you would still be alive today? As a fellow Patriarch, I will take them with me and there's nothing you can do about it."

Yifei looked at Jinsong and said, "Don't forget whose territory you're in. You actually dare to talk to me like this in my Winged Pegasus Clan? Do you really intend to leave?"

Jinsong laughed and said, "We Barbarians don't fear death. Dying in battle would be an honor to us. You want to use death to threaten me? You're dreaming."

The guards were already putting on a show. Jinsong's guards wanted to open a way to outside, but the Winged Pegasus guards wouldn't allow them. It didn't take long before a conflict occurred.

When the Winged Pegasus members in the Great Hall saw this situation, they couldn't help but stare. Their expressions were very complicated. If Jinsong suffers an accident here, then the Barbarians surely wouldn't take it lightly. The Winged Pegasus couldn't risk having another enemy at this time.

Also, at this time, the Winged Pegasus members in the hall discovered that Patriarch Yifei had turned mad. His arrogance has been turned to insanity.

At this moment, a person suddenly appeared inside the hall. This person wore a black mage's robe. As soon as he appeared, the place immediately turned quiet, all eyes were concentrated on him. This person was Zhao Hai.

When Zhao Hai appeared inside the hall, he looked at Patriarch Yifei as well as the Winged Pegasus members and said, "I didn't think that even after being careful, people would still doubt this Zhao Hai."

Hahaha. I want you to be my slaves? In my hands are a billion undead, why would I want to enslave you? You Winged Pegasus really think highly upon yourselves. Good, since you don't want to enter my Space, then I won't persuade you any longer. If you don't enter, then you won't enter. I won't lose anything in any case."

Yifei couldn't help but stare at Zhao Hai. He had met Zhao Hai one time before, this was when they were going to deal with the Taurus Divines. At that time, the three Patriarchs visited Zhao Hai. To be honest, his impression of Zhao Hai at that time wasn't so good. This was because Zhao Hai looked too ordinary, he had no traces of extraordinary features. This was where he started to look down on Zhao Hai.

However, he didn't expect Zhao Hai to suddenly appear inside the Hall. After he stared for a moment, Yifei's eyes shone, it was as if he had something on Zhao Hai. He looked at Zhao Hai and shouted, "Zhou Hai, are you really incapable of helping us? Or are you just looking at the sidelines? Tell me the truth."

Zhao Hai looked at Yifei and smiled, "Patriarch Yifei, you are truly smart. But unfortunately, you used your intelligence in the wrong place. Correct, from the very beginning, I was capable of helping your clan. But I chose to stay and observe in the side."

Upon hearing Zhao Hai say this, the mouths of Winged Pegasus members couldn't help but drop. The Winged Pegasus always thought that Zhao Hai had no time to save them. Now that Zhao Hai said this, it was equal to telling them that he was using the Supreme Elders to force them to enter his Space. This caused the current atmosphere to change.

Yifei proudly looked at Jinsong and the others, then he sneered, "Good, so you finally admit that you are only using the Supreme Elders to compel us to your Space, right?"

Zhao Hai nodded, "Correct. I intend to use the Divine Race in order compel you to the Space."

Yifei laughed loudly and said, "Jinsong, Fei'er, Shan, can you see this? This came from Zhao Hai's mouth, the one you're trying to help. Hahahaha. This is too funny."

Jinsong looked at Yifei and sneered, "Funny? We already knew about this matter. Mister already has a lot to think about. Besides the Supreme Elders and the O'Neal family, there's also the Underworld in the Ark Continent. The underworld's undead aren't any weaker compared to the Divine Race. With all of those enemies, do you really think that you can block them by yourself?"

After speaking up to here, Jinsong turned to look at the other Winged Pegasus inside the Hall and said, "In the past, when we dealt with the Taurus Divines together with Mister, we didn't even need to dispatch troops. We only did so since we don't want to one-sidedly accept Mister's kindness. We sent troops in order to gain an equal position as Mister. At that time, Mister didn't say anything about it since he respected our decision. This caused our clans to suffer a huge loss. At that time, we blamed Mister. We thought that Mister asked us for troops so that we would suffer losses. Tell me, did we really trust Mister? What about later on, when we heard that the Divines are going to attack us. Mister sent troops in order to act alongside us against the Taurus Divines. Mister had always been helping us unconditionally. I just want to ask you, why was that?"

After speaking up to here, Jinsong looked at them and said, "Why would Mister save us now? We didn't trust Mister. In the face of such an ally, would you come and save them?"

The Winged Pegasus listened to Jinsong's words. They had to recognize Jinsong's words. They didn't trust Zhao Hai, so why would Zhao Hai save them?

Jinsong looked at the crowd and continued, "Mister has been silently helping us all this time. Because of the war against the Taurus Divines, we suffered huge damages to our strengths. Therefore, we were forced to return to our planes in order to recover. If not for Mister, we wouldn't have been able to recover for a long time. The Divine Race's army should've already attacked us. And now, we still suspect him, now that is funny."

Zhao Hai smiled faintly, then he turned to Jinsong and said, "Patriarch Jinsong, there's no need to waste words. We're already aware that Patriarch Yifei isn't willing to move to the Space. I just didn't expect the other Winged Pegasus members to be the same as him. They clearly knew what was going on, but they still don't know what to do. This Zhao Hai doesn't want to bother saving such a race. Let's just leave them on their own."

Upon hearing Zhao Hai, Shan immediately knelt down and said, "Mister, I ask you to please save my Winged Pegasus Clan. Otherwise, we will surely perish."

Zhao Hai smiled bitterly and said, "In this case, what could I do? I'll be unfair to you, but there's nothing that I can do."

Chapter 946 – I Will Play With You Next Time

When Shan heard Zhao Hai, his expression couldn't help but turn grey in defeat. After some time, he suddenly clenched his teeth. His eyes turned fierce as he looked at Zhao Hai and said, "Mister, I ask you to remove Winged Pegasus Yifei. This way, nobody would stop the clan from entering the Space."

Zhao Hai and everyone inside the Hall stared. Nobody thought that Shan would actually request such a thing from Zhao Hai. This was equal to publicly declaring his rebellion.

Everyone inside the hall stared at Shan, especially the members of the Winged Pegasus Clan. These people were high-level members of the clan, and it can be said that they observed Shan grow up. They completely understood what kind of person Shan was, but they didn't expect Shan to actually say those words.

In an instant, all sorts of gazes turned towards Shan's figure. Shan remained unmoving as he looked at Zhao Hai and said, "Mister, I'm not trying to rebel. But Mister, think about it, if Mister doesn't kill those who oppose the clan entering the Space, then the Winged Pegasus could only wait to be annihilated. In comparison, killing a few people could be considered nothing. I ask Mister to please accept my request."

Zhao Hai gawked, to be honest, he really didn't think much about it. To be honest, it was very easy to deal with Yifei. However, if he killed Yifei here, Jinsong and Fei'er might develop worries. This would be disadvantageous to Zhao Hai.

Most importantly, if this matter gets passed on and the vassal races and foreign races, Zhao Hai would have problems later on.

Actually, Zhao Hai had met a lot of vassal races during the times when he was dealing with the Divines. The vassal races had been lukewarm to Zhao Hai. The foreign races also had their own thoughts regarding Zhao Hai.

If his meddling in the Pegasus Clan's matter was known by the vassal races, then these vassal races might cause troubles for Zhao Hai later. This was something that Zhao Hai didn't want to see.

But now that it was Shan who asked him, Zhao Hai didn't immediately decline. With Shan's request, everything had changed.

If Shan didn't ask Zhao Hai and just interfered with the Winged Pegasus Clan, then this would be akin to him wanting to usurp the Winged Pegasus Clan. Shan's request transformed the situation into Zhao Hai being asked for help. This narrative was completely different.

Naturally, as for how other people saw it, Zhao Hai really didn't care. Maybe in the eyes of the others, Zhao Hai and Shan were doing a two-man play.

Zhao Hai paused before turning his head to look at Jinsong. Although Jinsong was a straightforward Barbarian, he was clear about what Zhao Hai thought about at this time.

Jinsong said with a serious tone, "Mister, if you deal with Yifei, you will save a lot of people. This Jinsong requests Mister to do it."

When Yifei saw this situation, he panicked as he screamed loudly, "Zhao Hai, if you dare make a move on me, the Winged Pegasus Clan will not let you go."

Zhao Hai looked at Yifei as though he was looking at a clown. Then he coldly said, "The Winged Pegasus Clan wouldn't let me off? Hahaha, do you think that I'm afraid of the Winged Pegasus Clan? If it wasn't for Shan, I wouldn't have considered your Winged Pegasus Clan. Haven't you heard of how many people I killed in the Divine Race territory?"

When Zhao Hai said this, Yifei couldn't help but be stunned. He knew that Zhao Hai wasn't lying. The moment Zhao Hai stepped into the Divine Realm, he had already started killing. The number of Zhao Hai's kills was much more than the entirety of the Winged Pegasus Clan.

It was at this moment that Yifei discovered that the things he has been clinging on were worthless. In the face of absolute strength, status and authority were mere sandcastles, once a wave comes they will quickly collapse.

After thinking about this, Winged Pegasus Yifei suddenly knelt to Zhao Hai and said, "I ask Mister to spare my life. I agree to move my clan to the Space." For Yifei, this wasn't shameful. In order to survive, he didn't hesitate to do it.

Zhao Hai looked at Yifei and said, "If you think you can still save yourself, you're too late. To be honest, I'm tired of talking to you. You threaten me, and you think you can still go away? Stop dreaming." After that, Zhao Hai waved his hand. In the next moment, he was already holding Yifei's head. Nobody even saw him move.

Then Zhao Hai turned his head to the other Winged Pegasus Members and said, "Is there anybody else who wants to object?"

The Winged Pegasus clan members looked at the bloody head in Zhao Hai's hand. Nobody dared to speak. After seeing the head, nobody wanted to object.

Zhao Hai looked at those present and said, "Since everyone agrees, then everything else is easier to do. Go and prepare, I will go and see the nine Supreme Elders."

After Zhao Hai went out, Fei'er and the others also left while Shan stayed. Now that the Patriarch is dead, the person with the highest influence was Speaker Fang. But since Speaker Fang and Shan were in the same faction, everyone was looking at Shan.

With Speaker Fang and Shan, and the fact that the Zhao Hai was still in the Winged Pegasus' Plane, nobody dared to stop them. This allowed the migration to smoothly begin.

At this time, Zhao Hai was already inside the Hell King's ship along with Fei'er, Ding, and Jinsong. They also found two Winged Pegasus members to guide them towards the Supreme Elders.

It was still daytime, the time where the Supreme Elders would make their move. At this point, the Winged Pegasus had been very slippery. They didn't fight the Supreme Elders but they swarmed them like flies. This caused the Supreme Elders to feel terrible.

Gold Ben and the others were exploding with rage in these past few days. They knew that the more time they spent here the more losses the Divine Race would have. However, they couldn't retreat now. If they retreat, then they would sooner or later be dealt with by the Demon Zhao Hai. Because of this, even if they feared that the Divines were already extinguished, they still need to persist.

Without the means to cure the hatred in their heart, Gold Ben and the others vented on the Winged Pegasus. This caused their attacks to be more fierce. However, with the arrangement of the Winged Pegasus Clan, their attacks were loud thunders but with small rain.

On this day, Gold Ben and three others were fighting with the Winged Pegasus while Elder Star and the others were resting. Suddenly, Elder Star saw a small golden dot on the horizon. The dot got bigger and bigger until it became Zhao Hai's Hell King's Ship.

Upon seeing the enemy, one couldn't help but feel hatred. Elder Star's eyes were red after seeing Zhao Hai. However, he didn't immediately attack. He just looked at the ship with his red eyes as it approached. He looked like an injured beast waiting to take revenge.

After staring at Zhao Hai for some time, Elder Star said, "Everyone, Zhao Hai has finally appeared, get ready."

Upon hearing this, Gold Ben and the three others stopped, they immediately noticed Zhao Hai's ship. This caused them to be happy before they moved and went into their positions with the Seven Star Heaven Lock disks in their hands. Elder Star didn't participate in this formation as he held his Star Disk, preparing to attack Zhao Hai.

Before long, Zhao Hai appeared in front of Elder Star and the others. Zhao Hai decreased the ship's altitude as he looked at Elder Star and said, "Elder Star, we meet again. I didn't expect that you would use this method. It's not easy to compel me to show up. However, you really are heartless. You chose to sacrifice your people just to deal with me."

Elder Star icily looked at Zhao Hai and said, "Zhao Hai, you finally appeared. We didn't think that you would have such a ruthless heart. You actually allowed the Thunder Clan to be extinguished."

Zhao Hai smiled faintly and said, "Elder Star, do you seriously think that you've eliminated the Thunder Clan? I'm only here today to tell you that of the ten Divine Continents, only the Leo, Gemini, and Aquarius Continents are left. The Gemini and Aquarius Continents are currently being attacked by me while the Leo Continent is assaulted by the foreign races. I came here to give you the last chance to save your Divine Race. Let me tell you, even if you eliminate the Winged Pegasus Clan today, I still wouldn't stop. Do you really believe that the Winged Pegasus are important to me?"

Elder Star looked at Zhao Hai and smiled coldly, “Zhao Hai, do you think that you can escape today? Arrange the formation!” Just as Elder Star’s voice fell, Gold Ben and the others immediately moved and started the Seven Star Heaven Lock formation.

As the Seven Star Heaven Lock formation was being established, Elder Star also used his Star Disk. Upon seeing this situation, Zhao Hai couldn’t help but faintly smile. He didn’t move and just allowed Elder Star and the others to finish their action.

Before long, Gold Ben and the others launched their disks before returning to Elder Star’s side. The Seven Star Heaven Lock formation suspended in the air as it sent seven-colored lights from time to time.

When they arrived by Elder Star’s side, Gold Ben and the others immediately equipped their combat suits as they prepared to combat Zhao Hai using Elder Star’s ultimate weapon.

Zhao Hai looked at the situation before he suddenly laughed. Then he maneuvered the Hell King’s ship towards the Seven Star Heaven Lock before he waved his hand and taking the disks. After the disks were taken to the Space, Zhao Hai turned to Elder Star’s group and said, “Everyone, I’ll be taking the Seven Star Heaven Lock today. I will play with you next time. Hahahaha. Everyone, farewell!” After that, the Hell King’s ship vanished from sight.

Chapter 947 – Protecting The Last Bloodline

Elder Star stared at the place where Zhao Hai disappeared. It took him quite a while to recover. Then suddenly, he vomited blood, he was completely mad at Zhao Hai.

Gold Ben and the others also had the look of defeat on their faces. They knew that they truly lost this time. They had no way to deal with Zhao Hai.

After Gold Ben saw Elder Star shake and collapse, he immediately went forward to offer support. He wasn’t mad at Zhao Hai at this time, it can be said that he couldn’t afford to be angry at Zhao Hai.

When one meets a well-matched rival, one would get angry whenever one couldn’t defeat him and lose. However, when one meets an enemy that couldn’t be defeated, one wouldn’t have the means to be angry.

Perhaps the words that could describe Gold Ben's emotion right now was 'accepting fate'! Gold Ben had accepted his defeat.

After some time, Elder Star took a deep breath before looking at Gold Ben and the others and said, "We're finished. We miscalculated. We didn't expect Zhao Hai to be this strong. The Divine Race has been destroyed by his hands."

Jie Yu's eyes were scarlet red as he said, "No, we must deal with him, we need to kill him. Elder Star, we can use Blood Sacrifice in order to have the Deity deal with Zhao Hai."

Elder Star smiled bitterly and said, "Jie Yu, haven't you understood Zhao Hai? If the Deity could deal with him, then he would've made a move already. He wouldn't have allowed Zhao Hai to destroy the Divine Race. Don't forget, he needs us in order to collect Faith Power. Also, where did you think Zhao Hai get his Hell King's Ship? He took it from the Deity."

Jie Yu couldn't accept it as he said, "Then what do we do now? Do we just wait?"

Elder Star shook his head and said, "It would be too late for us to provide help, but we could still protect our last bloodline."

Gold Ben and the others stared. They looked confused at Elder Star. They didn't know what Elder Star meant. It was already too late for them to provide help yet they would protect their bloodline?

Elder Star looked at the group and said, "Haven't you heard Zhao Hai? Although his words said that he had destroyed the Divine Race, he revealed that he was still dealing with the Gemini and Aquarius Continents. Although these clans couldn't stop Zhao Hai, they could at least delay him for several days. Otherwise, Zhao Hai wouldn't have come to pester us here. He also revealed another matter, he said that the foreign races are now dealing with the Leo Divines."

As soon as they heard Elder Star, Gold Ben and the others quickly nodded. They understood what Elder Star wanted to say. They had fought against the foreign races for many years, so they knew how strong the foreign races were. It would be impossible for the foreign races to smoothly take the Leo Continent. Moreover, the Leo Divines had been holding their anger down all this time. Now that the foreign races came, they would be the target for this hatred. The foreign races wouldn't be able to succeed in a short time.

The Gemini and Aquarius Continents were too far for them to rescue. Moreover, they had no way to deal with Zhao Hai. On the other hand, there were a lot of ways to deal with the foreign races.

Gold Ben and the others were watching Elder Star, they were waiting for what he would say next. Elder Star continued, "There's no point in dealing with the Winged Pegasus Clan anymore. We'll set out immediately and deal with the foreign races. As long as we attack the foreign races, their army would come back. And when they do so, we will return to the Leo Continent. Whether it was Zhao Hai or the foreign races, they would still have a hard time dealing with all nine of us. As long as we block their attacks, the Leo Continent would be saved, saving the last blood of the Divine Race.

Gold Ben and the others nodded. However, Gold Ben had some doubts, "What do we do if the foreign races don't return?"

Elder Star shook his head and said, "No, the foreign races aren't Zhao Hai. As Zhao Hai said, he had no close relationship with the Winged Pegasus Clan. Therefore, even if we deal with the Winged Pegasus just like the Thunder Clan, Zhao Hai might not return. On the other hand, the foreign races are different. Their roots lie in their continents, if we attack them, then they would definitely return."

Gold Ben and the others nodded. They agreed with Elder Star's words. After seeing the group agree, Elder Star nodded and said, "Since everyone agrees, then let's not waste time. Let's go."

Jie Yu looked towards the Winged Pegasus Clan and said with indignation, "Do we let them off like just like that?"

Elder Star replied, "We will find opportunities to deal with them in the future. In any case, they won't be able to run away. Let's go." Jie Yu looked at the Winged Pegasus once more before he turned around and followed Elder Star.

After seeing Elder Star and the others leave, Zhao Hai relaxed. If Elder Star and the others didn't leave, then he might make some moves. It wouldn't be good for Zhao Hai to fight right now, or else he would ascend.

The reason why Zhao Hai told Elder Star too much was because he wanted this result. He wanted the Supreme Elders to shift their hatred towards the foreign races. Now, it seems that he had succeeded.

Zhao Hai was sitting in his room as he was looking at Elder star and the others. Because of this, Jinsong and the others were still unaware of what happened. Jinsong and the others were still inside the Hell King's ship. They were anxious, afraid that they would encounter the anger of the Supreme Elders.

At this time, Zhao Hai exited from his room. Then he turned to Jinsong and the others and smiled, "It's fine, there's no need to be worried. The nine Supreme Elders are leaving the Winged Pegasus plane."

Jinsong and the others stared, naturally they didn't know that Zhao Hai was able to see Elder Star and the others.

Because of this, they didn't believe Zhao Hai immediately. On the other hand, Fei'er didn't doubt Zhao Hai. He had the longest contact with Zhao Hai, so he was aware of all the magical things that Zhao Hai could do.

Fei'er laughed before he looked at Zhao Hai and said, "Mister is truly fierce. In just a few words, you managed to shift their target to the foreign races."

Zhao Hai smiled bitterly and said, "It wasn't that easy. If I told them yesterday, then they might not have retreated. It was only today that the foreign races arrived at the Leo Continent. If I told the Supreme Elders before that, then they might have stayed here."

Fei'er nodded, then he looked at Zhao Hai and asked, "Mister, are you telling the truth? That the only Divines left in the Divine Realm are the Leo, Gemini, and Aquarius Divines?"

Zhao Hai nodded and said, "It's true. I already told you when you entered the Space, I have many means. But the Divines aren't the ones that worry me. There's the O'Neal family as well as the Underworld. When the Supreme Elders decided to deal with you, I'm already prepared to send you to the Space. Even if not everyone entered the Space, I could still send people to constrain the Supreme Elders while you enter. I will also be dealing with the Divines in the meantime. When the time comes, I will release information so that the foreign races wouldn't be able to sit by and do nothing. They will certainly dispatch their troops, providing a new target for the Supreme Elders' hatred. You will be safe during that period of time, you won't be having too much losses. Unfortunately, matters turned into this messy situation."

Fei'er had the look of shame on his face, he bowed and said, "I've been unfair to Mister, I have disappointed you."

Zhao Hai shook his head and said, "This isn't your mistake. You already tried your best. In any case, things had already happened, there's no need to think too much about it. Just go and help Shan out."

The group nodded before Zhao Hai led the Hell King's ship towards the Winged Pegasus' Palace. Shan was also inside the palace. Upon seeing Zhao Hai and the other come back, the expressions on the Winged Pegasus members' face changed. They didn't know what Zhao Hai came for this time.

Zhao Hai looked at Shan and smiled, "The Supreme Elders have retreated. You can now prepare in peace. I will be heading back, I still have a lot of matters to attend to."

Upon hearing Zhao Hai, the Winged Pegasus members relaxed. However, there were some members who had the look of indignation on their faces. They thought that Zhao Hai went too far. He obviously came intentionally late. This caused the Winged Pegasus to suffer a huge loss. Moreover, he even forced them to enter the Space.

Zhao Hai didn't care about the expressions of these people. He turned his head to Shan and said, "Shan, I will leave things here to you. If something came up, then just contact me. I will come and help you." After saying this, Zhao Hai scanned the Winged Pegasus members. These people couldn't help but lower their heads.

These people were clearly aware. Although Yifei wasn't the clan's strongest expert, as a Patriarch, he wasn't weak, he had achieved God-rank strength. However, such strength couldn't even block Zhao Hai's move. He couldn't even make any move to resist as he was instantly killed. Zhao Hai's strength made the Winged Pegasus members startled, they became afraid.

Shan understood what Zhao Hai said. He didn't say anything else as he nodded and said, "Yes Mister. I will move the clan to the Space as soon as possible."

Zhao Hai nodded, then he turned to look at Jinson and Speaker Fang. Then he bowed to them and said, "I will have to ask your help in order to settle the Winged Pegasus Clan. You need to move the clan in the fastest way possible. I'm afraid I won't have time to manage things here. The Supreme Elders are now heading towards the foreign races. I need to quickly take care of the Gemini and Aquarius Divines in

order to face the Supreme Elders. I hope I would have enough time to work with the foreign Supreme Elders. Otherwise, things would be troublesome.”

Jinsong and Fang immediately returned the bow and said, “Mister, you can rest assured.”

Zhao Hai nodded, then his figure flashed as he disappeared from the Winged Pegasus Clan’s palace.

Chapter 948 – Different Ways of Ascending

Zhao Hai returned to his room. Laura and the others were looking at him with smiles. Although they were fighting with the Gemini and Aquarius Divines, the situation was already under Lizzy and Megan’s control. Because of this, they were able to relax.

When Laura saw Zhao Hai she immediately said, “Brother Hai, very well done. I didn’t expect that this matter would be solved this quickly. I must admit, Shan is very good. In the critical moment, he was able to make a firm decision.”

Zhao Hai smiled faintly and said, “That fellow is indeed very good. Alright, there’s no need to manage them. We need to focus on our next step. First we need to deal with the Gemini and Aquarius Divines. Also, make sure to get the Aquarius Continent’s potion formulas. They might prove useful someday.”

Lizzy nodded. Then Zhao Hai continued, “Second is to lead the O’Neal family to the Winged Pegasus. I expect the migration to not be smooth. We’ll need to use the O’Neal family to whip them.”

Laura and the other stared. Laura looked confused at Zhao Hai and said, “Brother Hai, are you sure? Will they still dare? Didn’t the Winged Pegasus agree?”

Zhao Hai sneered and said, “Agree? It was because they were afraid. Most of the Winged Pegasus members are still reluctant to relocate. Do you really think that Jinsong would be able to convince them? To the Winged Pegasus, Jinsong is an outsider, he wouldn’t be able control them. At the same time, Shan is too inexperienced. If the Winged Pegasus decided to drag on, then that wouldn’t be good. Me being able to force the Supreme Elders back only added to the Winged Pegasus clan’s dissatisfaction. They think that I always had the ability to save them but I just decided not to. They certainly hate me more now. If you don’t whip those kinds people, then they will not believe you.”

Lizzy and Megan nodded. Commanding troops were their job, so luring the O'Neal family would also be left to them.

Zhao Hai continued, "Third, we need to support the foreign races. The Supreme Elders wouldn't be polite to the foreign races. We will use this opportunity to get the Divine Race's combat suits. As for the foreign Supreme Elders, we will need to find a way to get theirs."

The group nodded. But as for the third one, Lizzy and Megan didn't have anything to do about it. They were tasked to direct the army, as for the Supreme Elders, that was for Zhao Hai.

At this time, Laura opened her mouth and said, "Brother Hai, since we have time, why don't we combine the Seven Star Heaven Lock and the Hell King's ship. This way, the ship would be stronger. Then we would be more relaxed when dealing with Elder Star."

Zhao Hai nodded, "Right, I forgot. But let's place the Seven Star Heaven Lock in the Space first. Let's see if a prompt would appear."

Then Zhao Hai waved his hand, taking the Seven Star Heaven Lock from the warehouse to the Space. But much to Zhao Hai's surprise, there was no prompt. This caused him to feel awkward.

After that, Zhao Hai decided to run the formation through the Universal Scanner.

When the entire procedure was finished, the scanner issued a sound, "Seven Star Heaven Lock disks detected. Asking for permission to proceed. Will need 100 thousand gold coins to continue the analysis."

Zhao Hai didn't know whether to laugh or cry, then he turned to Laura and said, "You always said that I would die for money. Look, it seems like I really would."

Laura and the others laughed. Then Zhao Hai said, "Immediately start analyzing." A hundred thousand gold coins immediately vanished from Zhao Hai's stockpile. Before long, the scanner spewed out some words, "Analysis completed. Seven Star Heaven Lock disks detected. Item is unique to the Cultivation Realms. Grade, low. Materials used are, gold essence, silver essence, soul stone. Proportions are 1 to 3 to 0.5. Forging method used is a common method of the Cultivation World, which contains forty-nine sets of arrays. Arrays used respectively are, magnifying array, reduction array....."

“Asking the host for permission to extract the Seven Star Heaven Lock’s abilities. Minerals required are present inside the Space, but are not enough. If Host want to proceed, 10 million gold coins are required. If Host wants to extract the formation, 1 million gold coins are required.”

Zhao Hai smiled bitterly, then he turned to Laura and the others. The women understood Zhao Hai’s gaze, the Space was asking for money once more. After seeing Zhao Hai’s bitter smile, they couldn’t help but laugh again. Fortunately, they were a lot of saved money inside the Space. In addition to the mines in the Demon Realm, Ruyen was also doing great business in the Ark Space. Because of this, the Space wasn’t short on money.

Zhao Hai sighed and said, “Proceed.” After issuing this order, 11 million gold was immediately deducted.

Zhao Hai sighed, then with an intention, he sent the Hell King’s ship into the Space. As the ship entered the Space, a prompt was immediately heard, “Seven Star Heaven Lock disks may merge with the Hell King’s ship to increase the ship’s strength. The Hell King’s ship will acquire the ability to trap enemies. Asking Host for permission to proceed.”

Zhao Hai stared for a moment, he thought that this action would cost money once more. However, it seems like the Space was doing this for free. Zhao Hai quickly felt happy as he quickly said, “Begin merging!”

After issuing this order, the Seven Star Heaven Lock disks immediately flew towards the Hell King’s ship. In a flash, the disks and the ship met each other. The integration caused a bright light to emerge. When the light vanished, Zhao Hai observed the Hell King’s ship. On each side of the ship, four disks could be seen. These eight disks looked like wheels.

Naturally, these disks were the Seven Star Heaven Lock disks. As the eight disks stood on each side of the Hell King’s ship, they kept on spinning. This caused the ship to have the feeling of being fast. It looked like it was there for a moment, then at another place in the next. An outsider wouldn’t be able to determine its specific position.

Zhao Hai knew that this was due to the formation. With the addition of the formation disks, the Hell King’s ship looked even more mystical.

Zhao Hai made an intention in his mind, making the Hell King's ship approach. However, they didn't embark. They just stood outside and looked at the ship.

In the past, the Hell King's ship would give one the feeling of brilliance. But now, the ship had a ethereal aura. It fluttered in place as though it was a mirage.

Laura's eyes shone as she said, "Very good. It looks very nice." Zhao Hai smiled faintly. At this time, the ship had already arrived in front of them.

Laura and the others stood on the ship and looked around. However, they were left disappointed, there were no changes inside the ship.

Zhao Hai smiled faintly and said, "Alright, don't worry about it. Let's go, we still need to carry out our plans. Lizzy, Megan, I will leave the Gemini and Aquarius Divines to you. Deal with them as soon as possible. Don't forget about the potion formulas."

The two nodded before they turned around and left the room. After that, Zhao Hai turned to Laura and said, "We need to update Bingya and the others about the situation. They had been crazily cultivating these past few days."

Laura smiled and said, "Right, if you didn't say that, I would've forgotten about them. They didn't come out when the Hell King's ship was being modified. Will they have any problems?"

Zhao Hai replied, "It's fine, rest assured. They wouldn't be able to hear any noises from outside. Just like how they didn't hear what we said to Fei'er and the others."

Laura nodded and said, "Right, we can't let them know that. From what I can see, even if they are getting more and more loyal towards you, they are still very concerned about their families. If we let them know about our plan, then they might inform their clans and think that we are planning on doing bad things to them."

Zhao Hai sighed, "I feel like I have no choice. The Divine Realm's 13 ultimate weapons would be a very big help to us if we gather them all."

Laura nodded, then she went on to comfort Zhao Hai, “Brother Hai, don’t think too much about it. After we ascend, there would be a lot of enemies going after us. If we suffer any accidents, then everyone inside the Space would be gone.”

Zhao Hai sighed and said, “Right, we cannot control the incoming danger. We just need to be extremely careful.”

Laura nodded, “Brother Hai, if you can choose where to ascend, would you pick the Atlanta Plane or the Underworld?”

Zhao Hai smiled faintly and said, “If I could choose, then I would head to the Atlanta Plane. The Underworld is full of undead. Even if I ascend there, we wouldn’t be able to live well.”

Laura agreed, “Then we need to know more about the O’Neal family. Right, Brother Hai, how about we ask the O’Neal family undead about any legends of ascension that they have.”

Zhao Hai stared, then he nodded and said, “Right, I forgot about this. Let’s go ask them right now.” Then he waved his hand as three undead magic armor pilots appeared in front of him. The three undead quickly bowed and said, “We have seen the Young Master.”

Zhao Hai had met them before when he asked about the magic armors. So after Zhao Hai nodded, he immediately went straight to the point, “Have you heard any tales of ascension from the Atlanta Plane?”

The three undead nodded. Zhao Hai’s mind shook as he pointed to an undead and said, “You, what tales have you heard?”

The selected undead stepped forward and said, “Young Master, in the Atlanta Plane, tales of ascension are divided into three types. Each of the three continent have their own tales. In the Warrior Continent, I heard that after one practiced to a certain degree, then they would be able to use their battle qi to cut the firmament open before ascending. In the Mage Continent, the situation is similar. As long as a mage practices to a degree, they can rend the firmament in order to ascend. However, our Magic Armor Continent is somewhat special. We practice spiritual force and our method of ascending is different. If someone from the Magic Armor Continent wants to ascend, then we would have to rely on our magic armors. In the Magic Armor Continent, the clans keep a special type of magic armor. These magic armors are called Ascension Magic Armors. These magic armors aren’t the same as conventional magic

armors. Their attacking strength is more powerful but are more difficult to operate. Whenever someone thinks that they could operate the magic armor, then they would have to apply to the families and be tested. Only those who passed the tests would be qualified to use those magic armors. Once they manage to successfully use the magic armor, then they can assault the heavens in order to ascend. I heard that even if one ascends, the Ascension Magic Armor would remain.”

Zhao Hai nodded, then he turned to the other two and said, “Do you have anything to add?”

The other two shook their head. Then Zhao Hai waved his hand, putting those undead away.

Laura looked at Zhao Hai and said, “It looks like we need to go to the Atlanta Plane. As for ascending, I’m afraid we would need to head to the Mage or Warrior Continents.”

Zhao Hai nodded and said, “That wouldn’t be easy. It seems like ascending would not be so simple. If we have time, we’ll have to go to the Atlanta Plane to take a look.”

Laura nodded, then suddenly she said, “Brother Hai, you could also head to the Magic Armor Continent and find a way to get your hands on these ascension magic armors. See if you can operate them. If you can, then you can just use them to ascend. What do you think?”

When he heard this, Zhao Hai’s eyes shone, “That’s good as well. Good, then after we settle things here, we’ll go to the Magic Armor Continent and see if we can steal an ascension magic armor for ourselves.”

Chapter 949 – Letting Me Do Free Work?

Axe quietly sat on top of the war tank as he stared at the vast expanse of land outside their base. He could see that the land was very fertile and its air was much better compared to the Ark Continent. But aside of being happy, Axe was also annoyed.

They didn’t encounter any attacks in the defensive line, but when they sent their scouts for reconnaissance, they began to be assaulted, and all of the enemies were undead.

However, the situation made Axe more annoyed than worried. There weren’t a lot of undead, but they were very fast. Their coordination was very good as well. One would be easily entangled once one fought them. Although they weren’t a threat to Axe, they made it very difficult for the scouts to do their job.

After failing several times, Axe lost his patience. He dropped the scouting plan and instead focused on the base's construction.

It's also strange that while they were building their base, the undead didn't come to attack them. This caused Axe to be confused. He already told his father about this matter.

Axe was also informed by his father about the appearance of strong undead in the Ark Continent's Dark Mist. Because of this, the family has decided to shift their center of development. Moreover, in the near future, his father would bring important people of the family to this place.

After hearing about this, Axe became both worried and happy. He was worried about the dark mist but happy because the family has decided to shift their attention to this place. This was equal to Axe having set up a great contribution. This was something good for him.

While Axe was thinking about these matters, someone suddenly arrived. Axe turned his head and saw that it was George. After accepting the other party's salute, Axe looked at George and said, "George, why did you come?" Axe's war tank was now stopped right outside the base. He came out in order to relax. Because of this, he was surprised to see George appearing here. He already told his people to leave him be unless an important matter had come.

George bowed to Axe and said, "Young Lord, the Clan's Elders have arrived. This time, they presented the Patriarch's mark to inspect. After their inspection, it's possible that the Patriarch would come here."

Upon hearing this, Axe gave a nod and said, "Alright, let's go back." Then he proceeded to command the war tank and returned to the base.

Actually, this investigation was just a casual stroll in the surroundings. The O'Neal family's elders were already clear about their current state. The north wasn't getting any quieter and the family had no way to deal with it. Because of this, it was inevitable for the family to move southward.

Additionally, the environment here was really good. Although there had been some traces of war here, it had already happened months ago. With time being the only factor left, the grass grew back, causing the natural appearance of the place to be appealing.

The elders didn't dally for too long, they immediately wanted to tell the Patriarch about the situation. After they left, Axe quickly ordered for the expansion of the base.

Just as Axe was busily expanding the base, the Underworld was also beginning to make their move. The expansion of the Dark Mist went faster and more undead began to venture out at night. The scope of their operations were also becoming bigger and bigger.

In the face of this, the O'Neal family could only draw back. Their relocation was already imminent. The O'Neal Patriarch immediately issued the order to move.

It's fortunate that the Ark Continent wasn't their land. Because of this, they managed to pack up their things quickly. However, the relay stations were kept in place. The O'Neal family's Patriarch still wanted to use them to monitor the Dark Mist's situation.

While the O'Neal family was preparing to move, Zhao Hai's battle against the Gemini and Aquarius Divines was nearing its end. In fact, the Aquarius Continent was already done. The potions of the Aquarius Divines were indeed very good, but they had little to no use against the undead. Because of this, their defeat came faster. The only remaining target right now were the Gemini Divines.

On the other hand, the Leo Divines and the foreign races were still fighting. The tenacity of the foreign races was quite strong, but the Leo Divines were able to block their attack, dragging the foreign races into a long-term battle.

The foreign races wanted to take advantage of the situation while Zhao Hai was attacking the Divine Race. They dispatched their troops in order to gain profits. However, they didn't think that they would be met with the Leo Divines. Halting their advance through the Divine Race territory.

With the Leo Divines blocking their attack, the foreign races weren't having an easy time. The Foreign race territories weren't close to the Leo Continent. Because of this, their supplies only depended on their rear ships. With this, their supply line would inevitably suffer some issues. As time passes, the price that they would pay could only rise.

The foreign races didn't have any good means to solve this situation. If they don't succeed in this war, then they would have wasted their earlier investments. Giving up at this point would cause them huge losses, but if they continue, they still wouldn't be able to take the Leo Continent in a short time.

Actually, from the very beginning of the battle, the foreign races felt that something was wrong. The Leo Divines seem to be prepared for war. This caused the Foreign races to suffer a huge loss, they were placed in a disadvantageous position.

Zhao Hai was paying attention to this matter. He was also aware that the Supreme Elders were heading towards the Foreign Race territories. He wanted to see the reaction of the foreign races when they hear this news.

Just as Zhao Hai was being busy with these things, the O'Neal family officially began their relocation. The entire O'Neal family took their troops and began to gather in the Taurus Continent.

Naturally, Zhao Hai knew about this. However, he didn't make a move. He was just waiting for them to finish making their base. When that time comes, they definitely won't just stay still. Once they begin to expand outward, he would lead them to the Winged Pegasus Clan.

The Winged Pegasus Clan's migration wasn't going very smoothly. The Winged Pegasus were angry at Zhao Hai because of what happened. Although they agreed to move under his threat, the speed of relocation was going at a snail's pace.

Shan was aware of this development, but he didn't want to trouble Zhao Hai. He already asked Zhao Hai for help once. If he couldn't manage things this time, then he really wouldn't have any face left to meet Zhao Hai.

Even if Zhao Hai knew about the situation of the Winged Pegasus Clan, he still didn't go and deal with them. He knew that the more he interfered, the more the Winged Pegasus would resent him. And Zhao Hai didn't want this to happen.

After three days, the Gemini Divines were finally dealt with, making Zhao Hai feel at ease. He was now waiting for the news regarding the nine Supreme Elders beginning their attack on the foreign races.

Zhao Hai believed that when the nine Supreme Elders attacked, the foreign races would surely inform Bingya and the others. At that time, he would know.

The nine Supreme Elders didn't let Zhao Hai wait for long. Two days after Zhao Hai had dealt with the Gemini Continent, Bingya suddenly went to see Zhao Hai. After allowing Bingya into his room, Bingya immediately said, "Mister, please help the Foreign Races!"

When he saw Bingya's appearance, Zhao Hai knew what Bingya was going to say. He smiled faintly and said, "Bingya, what's wrong? Say it slowly, there's no need to be anxious."

Bingya stabilized his mood before he said, "Mister, we don't know why, but the Divine Supreme Elders suddenly attacked the Foreign Race territory. Our three Supreme Elders are currently resisting them. I ask Mister to help us out."

Zhao Hai nodded, "Alright, I will depart immediately." Bingya happily nodded before he turned around and left.

After Bingya left, Lizzy immediately opened the monitor to show the situation with the Leo Continent. They wanted to see the response of the foreign race army.

Zhao Hai looked at the monitor and said, "Did the foreign race army not receive any news? Why aren't they preparing to head back to help?"

Lizzy shook her head and said, "They should have. A messenger fish is certainly present in the army, they can't just keep their soldiers in the dark. I think they had already received the news but they don't plan to retreat. And this time, Bingya asked us for help. I reckon they plan to have us cooperate with the three Foreign Race Supreme Elders in order to constrain the nine Supreme Elders. Meanwhile, they will use this opportunity to sweep the Leo Continent."

Zhao Hai thought about it for a moment before he laughed and said, "So the Foreign Races wanted me to do free labor. Hahaha. Interesting. I figured they'd do that."

Lizzy looked at Zhao Hai and asked, "Big Brother Hai, what do you plan to do now? Should we help them?"

Zhao Hai smiled faintly and said, "We'll help, why wouldn't we? Not only would we help, we'll see it to the very end. Since they wanted use to cooperate with the Foreign Supreme Elders, then we'll cooperate in order to deal with the nine Supreme Elders. However, don't forget that our goal are the combat suits. Other matters aren't important."

Lizzy nodded and said, "Alright, I understand. But Big Brother Hai, do we just let the foreign races gain such a huge benefit?"

Zhao Hai smiled faintly and said, "We do not have something we need in the Leo Continent. If they want it then we'll just hand it over. This would also have them owe us a favor. In this case, if we were to borrow their ultimate weapons, they surely would have a hard time rejecting."

Chapter 950 – Two Matters, One Problem

When they heard Zhao Hai, Lizzy and the others stared. Then they quickly understood what Zhao Hai meant. The Foreign Race were really quite sly this time, they actually wanted to use Zhao Hai as free labor. However, Zhao Hai plans to use this opportunity to have the foreign races owe him a favor. Otherwise, the foreign races wouldn't comply if he ever wanted to borrow their combat suits one day.

If it was someone else, then even if they managed to borrow the combat suits, they still wouldn't be able to gain something from it. However, Zhao Hai was different since he has the Space. As long as he managed to borrow the combat suits and sends them to the Space, he could immediately produce seeds. When those seeds are made, he can then return the combat suits to the foreign races. In this case, the foreign races could only benefit from the situation.

After thinking about this, Lizzy and the others smiled. Laura looked at Zhao Hai and said, "Brother Hai, do we head to the Foreign Race Territory now?"

Zhao Hai smiled faintly and said, "Rest assured, we will head to the Foreign Race Territory. You go and rest. I'll be heading out, Bingya and the others should still be outside their rooms."

After he said this, Zhao Hai walked out of his room. Indeed, Bingya and the others were outside and had yet to return to their room.

At this time, Bingya and the others were extremely worried. They didn't expect the nine Supreme Elders to attack the Foreign Race territory. For them, this was terrible news.

Bingya and the others had experienced the strength of the nine Supreme Elders. Even Zhao Hai wouldn't dare to meet them head on, not to say about other people.

Although the Foreign Races also had three Supreme Elders, and their ultimate weapons were the same as the Divine Race, they were still at a numerical disadvantage.

Moreover, Bingya and the others knew that overwhelming the nine Supreme Elders with numbers was impossible. Only people with the same calibre could match them.

Therefore, they were anxious. One shouldn't underestimate the nine Supreme Elders. Their collective strength was enough to make the Foreign Races shudder.

After looking at their expressions, Zhao Hai smiled faintly and said, "Why don't you enter your rooms and rest? Rest assured, I will provide help. Since I haven't been to the Foreign Race Territory, I can't use my space transmission. We can only head there slowly using the ship."

Although Zhao Hai mentioned that they were going slowly, their actual speed was actually very fast. After being upgraded by the Seven Star Heaven Lock disks, the ship's speed was greatly improved.

However, Bingya and the others weren't able to truly notice this point. Upon hearing Zhao Hai, the three quickly turned their heads. They immediately gave Zhao Hai a bow and said, "Mister."

Zhao Hai nodded, then he smiled and said, "It'll be fine, don't worry about it too much. The troops sent by your clans to attack the Leo Continent haven't retreated. It seems like the nine Supreme Elders aren't going all out. So there's no need for you to be anxious about it."

When Bingya heard this, his eyes couldn't help but reveal a trace of shock. He didn't know if Zhao Hai's words were intentional or not.

In fact, Bingya and the others already knew about their clan's plan, they weren't excluded from knowing the facts. Although they thought that using Zhao Hai wasn't good, they continued to keep quiet for the benefit of their clan. However, they didn't expect Zhao Hai to be this frank about the topic.

Bingya looked at Zhao Hai with some anxiety. Zhao Hai's smile was the same as before, Bingya didn't know if it was an illusion or not, but he felt that Zhao Hai's eyes seem to flash for a bit.

Bingya could feel a cold sweat coming out, but he still bowed to Zhao Hai and said, "Yes. Mister should also know that using ordinary troops against the Supreme Elders would be useless. There's no point in them heading back."

Zhao Hai smiled faintly at Bingya and said, "Really? I haven't thought about this point. Alright, let's not talk about this anymore. According to our present speed, how long do we need to travel in order to reach the Foreign Race territory?"

Bingya thought for a moment and answered, "By our current speed, we should arrive at the Foreign Race territory in three days."

Zhao Hai nodded, "Go and send word to your clans, tell them to drag the nine Supreme Elders as long as possible. The sudden attack of the Supreme Elders is certainly because of the attack made by the foreign races. They want you to retreat so they went to the Foreign Race territory, If they see that your army didn't retreat, then they might go to the Leo Continent. Or else they risk being exterminated."

Upon hearing Zhao Hai, Bingya immediately knew that Zhao Hai was aware of their plan. He even guessed the plan of the nine Supreme Elders. Bingya couldn't help but be ashamed as he answered, "Yes Mister, I will send word immediately."

After that, Bingya and the others returned to their room. Zhao Hai looked at the three and faintly smiled. He said so much because he wanted to send a strike at Bingya. At the same time, he wanted to borrow Bingya's mouth to tell the foreign races that he was aware of their plan.

Zhao Hai wasn't the type to grab merit, but there were some times where it was necessary. If he didn't let the other side know that he was aware of the tricks they were pulling, then they would only treat him as a fool. But if you make them aware that you knew about their plan, then they would need to feel grateful to you. This was Zhao Hai's intent.

When Bingya returned to his room, he immediately took his messenger fish out and said, "Patriarch, Patriarch, are you there?"

A low and deep voice was heard, "Bingya, how was it? Did Zhao Hai agree?"

Bingya's heart couldn't help but skip a beat. There were no means of respect from the Patriarch's words. This caused Bingya to feel uncomfortable.

However, Bingya still replied, "Patriarch, Mister Zhao Hai seems to be aware of our plan. He just told me that our troops in the Leo Continent aren't planning to withdraw, I think he's implying something. However, he still decided to help us and is currently rushing towards the territory. He told me that the nine Supreme Elders were attacking us because they want our army to withdraw. And if we don't retreat, they would head back or else risk losing everything."

However, Bingya didn't expect the Patriarch to just snort and said, "I don't need you to teach me how this works. Tell Mister Zhao Hai to rest assured. We will hold the Supreme Elders here."

Bingya's expression sank, however he still nodded and said, "Yes, Patriarch. I will relay your words." After that, Bingya placed his messenger fish down.

Bingya's conversation with the Patriarch was also heard by Ryder and Yehta. Their expressions weren't attractive. The Patriarch was very impolite. This impoliteness made them feel disgraced.

The three were with Zhao Hai for a long time but they also gave huge contributions to their clans. The three always thought that they were regarded as great characters. But now, it seems like they were treated as nothing.

This made the three feel indignant. Zhao Hai was very strong, but even he was very polite to them, he was very kind. Zhao Hai never treated them as though they were his subordinates. Zhao Hai even treasured his undead.

Compared to Zhao Hai, their Patriarch's response was truly poor. After some time, Bingya turned to Ryder and Yehta, he sighed and then said, "The Patriarch is really too tall to see the picture. He really thinks that he can plot against Mister. From what I can see, Mister already knew about their plan."

Ryder forced a smile and said, "If Mister isn't someone who can do those calculations casually, then he wouldn't have lived up to this day. I just hope that the clan wouldn't do anything excessive. Otherwise, the foreign races might follow the steps of the Divine Race."

Bingya sighed and said, "Alright, let's not talk about this. In any case, Mister already knows what we are doing. And we don't have a control of the direction we're heading at."

Ryder forced a smile and said, "We want to take control, but unfortunately we can't. Forget it, we'll just let it be."

After not saying anything for a while, Yehta suddenly said, "If Mister becomes hostile against the Foreign Races one day, which side will the both of you help?"

If Yehta brought this issue up earlier, then Bingya and Ryder might immediately say that they'll help the clan. But now, Bingya and Ryder were unsure.

To be honest, their hearts were leaning towards their clansmen. However, the way their Patriarchs handled things left the three of them disappointed. On the other hand, the three had seen how Zhao Hai handles things in the past few days. Although the relationship between Zhao Hai and the foreign races was just superficial, Zhao Hai still greatly helped the foreign races. In this case, instead of being grateful to Zhao Hai, the clan actually plotted against him. They were acting like fools, something that Bingya and the others couldn't accept.

After the two didn't say anything, Yehta couldn't help but bitterly smile. To be honest, she also didn't have an answer. It was because of this that she decided to ask Ryder and Bingya, she didn't expect the two of them to be indecisive as well.

As the three became silent, their mood became complex. They just hope that Zhao Hai wouldn't become their enemy one day.
