

Another World 951

Chapter 951 – Demonstration of Authority

Normally, Zhao Hai wouldn't eavesdrop on Bingya's group. But at this time, he actually did.

After seeing the three being silent, Zhao Hai turned his head to Laura and said, "Laura, how do you see this?"

Laura smiled and said, "It's a good thing. We can see that they are more inclined towards Brother Hai. However, they still can't let go of their clans. It seems like they couldn't bear the attitude of their Patriarch."

Zhao Hai nodded and said, "I really didn't expect that those people from the Foreign Races would actually have a plot for me. Interesting."

Lizzy was somewhat indignant as she said, "Big Brother Hai, so what do we do now? We shouldn't help these kinds of people."

Zhao Hai smiled faintly and said, "In any case, we know about their plan. And now that they're aware that we know, they would have no way to change it. From what I can see, there's no need to stop their plan. We can also make use of them and have them help us deal with the nine Supreme Elders. Our ultimate goal are the combat suits. We need to send them to the Space no matter what. And at the very least, they have some sort of relationship to us. The three races of the Ark Continent have them as ancestors."

Lizzy nodded, "Big Brother Hai, you truly have a tender heart. We don't need to think about these people at all. Just go and take control of them. Look at the Winged Pegasus, everytime I see them, I couldn't help but get pissed off."

Zhao Hai smiled bitterly and didn't say anything. He knew that Lizzy was right, he really was tender-hearted. However, this property of his was relative.

Laura smiled and said, "Alright Lizzy, stop complaining. If Brother Hai isn't this soft hearted, then he wouldn't be Zhao Hai. Brother Hai, now that the O'Neal family has started to relocate towards the Taurus Continent, should we make a move?"

Zhao Hai faintly smiled and said, "Don't worry, let's have them settle down first. In any case, we made Axe aware that the enemy is in the Taurus Continent. And that's enough for now."

Laura nodded, "Then we'll let them prepare for a while. From what I can see, the Winged Pegasus will take a very long time before they move, a few months at least. We have enough time."

Zhao Hai smiled and bit, he didn't say anything. He knew that Laura was also feeling angry inside. The Winged Pegasus clan were still disobeying. A turtle would be quicker compared to their current pace.

Over the next days, nothing significant happened. The armies of the foreign races and the Leo divines were still fighting in the Leo Continent. Both sides had no way to gain the upper hand. Zhao Hai also used these days to travel.

The Hell King's ship was fast. Compared to Bingya's expectation, they arrived in the Foreign Race Territory a day earlier. They encountered the Aries Continent First, the continent of the Beastmen, Bingya's home.

Zhao Hai stood on the Hell King's ship as he looked at the vast continent in the distance. He couldn't help but smile, he wanted to know how the Beastmen would treat him.

Bingya's group as well as Laura and the others were standing beside Zhao Hai. Laura and the others were curious about the continent while Bingya and the others were anxious.

They had been away for almost a year. All this time, they were with Zhao Hai and haven't returned. They were unaware of the state of their clans.

However, upon thinking about his Patriarch's attitude, Bingya couldn't help but feel cold. They were getting closer and closer to the continent. Upon reaching a certain distance, the sentries of the continent would surely see them. However, there seem to be nobody here, not a single guard nor civilian.

Bingya's face turned ugly as he turned to Zhao Hai and said, "We've been unfair to Mister. Maybe the guards have been eliminated when the Supreme Elders came. That's why they failed to see us."

Zhao Hai smiled faintly and didn't say anything. He already knew that the Beastmen had noticed them. However, they didn't come because they wanted to demonstrate their authority.

Sure enough, when Zhao Hai's Hell King's ship entered the Aries Continent, a large group of people suddenly flew up from the ground. Then they formed a circular formation and surrounded the ship.

After looking at this, Zhao Hai couldn't help but laugh. He didn't go forward and instead just stopped the ship. He wanted to see how the Beastmen play this scene out.

These Beastmen weren't very different compared to the Ark Continent's Beastmen, but they were indeed visibly stronger.

Bingya and the others weren't fools, so when they saw this situation, they immediately understood what the clan wanted to do. The three's expression changed. They didn't think that the clan would do such a thing, they were playing with Zhao Hai's face.

After thinking about this, Bingya couldn't help but turn to look at Zhao Hai. He saw a teasing expression in Zhao Hai's eyes. After noticing this, Bingya's heart sank. He had seen this expression whenever Zhao Hai saw an enemy opposing him. After seeing this look, the enemy wouldn't have a great time.

At the thought of this, Bingya immediately turned to the Beastmen and said, "Everyone, are you here to greet Mister Zhao Hai? This lowly one is the Wolf tribe's Bingya."

Bingya did this in order to provide his people with stairs to step down. This would also give Zhao Hai face while preserving the clan's reputation.

Bingya thought that his plan was good. But unfortunately, he didn't have a large prestige in the clan. For him to provide Zhao Hai face in behalf of the clan was simply not possible. Because of this, the people still didn't react after hearing him. Instead, they stepped closer to the Hell King's ship.

Then one Lion Beastman stepped forward. This man wore leather armor and had a huge sword in his hand. There was an uncommon might in the Lion Beastman's eyes as he looked at Bingya and the others with disdain. Then when he looked at Zhao Hai, he seem to have a smirking gaze.

The Lion beastman stood there and looked at Zhao Hai before saying, "We were ordered by the Patriarchs to look for suspicious people. Anyone who wants to enter the Beastman Continent needs to be examined." Naturally, the Lion meant the Aries Continent. Only after the Beastmen occupied this place was it called Beastman Continent.

Zhao Hai looked at the Lion and couldn't help but smile. Then he said, "So the Beastman Continent has this rule. I apologize for offending you with my ignorance. Since this is the case, then I will take my leave." After he said that, the Beastmen suddenly discovered that the ship had already disappeared from their encirclement. When the Hell King's ship reappeared, it was already outside the continent.

When the Lion saw Zhao Hai's move, he couldn't help but get stunned, then he panicked. They thought that Zhao Hai would have reactions to this, such as anger or reluctance. However, they didn't expect Zhao Hai to just turn and leave. He even managed to escape their encirclement. Because of this, the script that they made had become useless.

Most importantly, Zhao Hai was here to help them against their enemies. However, the three Patriarchs wanted to occupy a higher position when cooperating with Zhao Hai, so they needed to take him down a notch. However, who would've thought that Zhao Hai would just turn around and leave? He ended up not caring about their affair, leaving the foreign races to deal with the nine Supreme Elders all by themselves. To be honest, the three foreign races aren't capable of stopping the Supreme Elders.

When Zhao Hai came out of the encirclement, he turned and then flew back. The ship's speed wasn't very fast. When Laura and the others saw that Zhao Hai went out of the encirclement, they immediately laughed. Zhao Hai could just choose to not play along, and the Beastmen had never thought of it.

Bingya was looking awkwardly at Laura and the others. He didn't know what to say while his anger started to well up.

It was the Patriarch who told him to ask Zhao Hai for help. And now that Zhao Hai was here, they instead forced him to leave. This basically threw Bingya's face into the water. If not for the hair on Bingya's face, Zhao Hai would have seen Bingya becoming as red as a tomato.

Ryder and Yehta were also feeling very awkward. They knew that this matter wasn't only decided by the Beastman Patriarch, the three Patriarchs should have reached an agreement to demonstrate their authority. Because of this, Ryder and Yehta felt very bad.

Zhao Hai looked at the three and smiled, "It's fine, you three doesn't have to wear that expression. I know that this matter is out of your control. There's no need to be embarrassed. Now I want to see what kind of characters your Patriarchs are, to be able to think genius ideas as this. Hahaha."

Although Zhao Hai was ridiculing their Patriarch, Bingya and the others weren't offended. They were currently feeling incensed towards their clan, especially towards their Patriarchs.

Laura and the others stopped laughing, then Laura smiled and said, "Brother Hai, do you think the three Patriarchs would come and invite us back?"

Zhao Hai smiled faintly and said, "I cannot say for certain. It depends on the nine Supreme Elders. If they're formidable and couldn't be blocked, then they would ask us back. But if the nine Supreme Elders aren't pushing hard, then they might not."

Laura replied, "How could the nine Supreme Elders not push hard? They're currently holding a lot of hatred in their stomachs. And they want to make the foreign race army retreat from the Leo Continent. In this case, they surely wouldn't hold back."

Zhao Hai nodded, "I think so too. In fact, the nine Supreme Elders are making the right move. If they attack the foreign races, then the three Supreme Elders surely wouldn't be able to stop them. In the end, they could only order their army to retreat, freeing the Leo Continent from crisis. And if the foreign races doesn't call their troops back, then they would return to the Leo Continent and deal with the invading army. This would also free the Leo Continent from its predicament. More importantly, they would be able to cause heavy damages to the foreign races along the way. However, they seemed to exclude me from their calculations, which makes me a bit confused."

Laura replied, "Perhaps they believed that you are still entangled by the other Divines. Since you don't have time, they decided to go with their plan."

Zhao Hai nodded, "That is possible. Alright, in any case this is a good opportunity for us to deal with the Supreme Elders. If we miss this, then it might be difficult to do so in the future."

Laura agreed, "Right, the Supreme Elders are also starting to become smart. They knew that we couldn't deal with all of them at once, so they decided to stay together. It wouldn't be easy for us to deal with them this way."

Zhao Hai nodded, "I think the Supreme Elders are now trying to preserve their blood."

While Zhao Hai and the others were talking, Bingya's group were looking anxiously at the Aries Continent. They were waiting for people from their family to come and invite Zhao Hai back.

However, they could only be disappointed. Their people didn't come out. It seems like Zhao Hai had nothing to do with them anymore when he left.

Zhao Hai didn't care about this as he waved his hand and had the ship descend. After falling to the sea's surface, it stayed there and floated, just like any other ship.

Then Zhao Hai turned to Laura and the others and said, "We haven't had the time to relax. Since we have a few days to spare then we might as well. What do you think?"

Laura smiled, "Good. We haven't relaxed for a long time. Younger Sister Meg, please make us a couple of dishes. We'll be drinking a few cups with Brother Hai." Meg nodded before she turned around and went to prepare.

After seeing Zhao Hai's reaction, Bingya and the others didn't know whether they should be relieved or be worried. They should be relieved since Zhao Hai didn't go away despite leaving the Aries Continent. He's close to the Aries Continent so he would be able to quickly offer help. Bingya understood that this was an opportunity provided by Zhao Hai. As for what the foreign races plans to do, he wouldn't care.

However, Bingya and the others were also worried because of the people in their clan. It has been quite some time before Zhao Hai left the Aries Continent. However, up until this time, nobody went to look for them. This doesn't make any sense. Bingya was afraid of Zhao Hai being offended, causing the foreign races to suffer a loss.

Chapter 952 – Feeling!

Zhao Hai could also see the expression of Bingya's group. However, Zhao Hai didn't say anything. He just gave Bingya and the others a nod before he sat down on the deck.

Before long, Meg brought out various types of dishes and set them out on the table. Zhao Hai took some liquor as the women took a seat. Then Zhao Hai raised his glass towards Bingya and said, "Bingya, you couldn't be blamed for what just happened. This type of thing is not strange for me. In any case, I will not let the Divine Supreme Elders go. You can rest assured."

Bingya couldn't say anything, he could only bitterly smile. Even if Zhao Hai didn't mention it, he already gave great face towards the foreign races. If it was anybody else who was treated like Zhao Hai, then they would have already been angered.

After Zhao Hai drank from his glass, he said, "We're not just waiting for the foreign races to come for us. We're also here to prevent the nine Supreme Elders from leaving. This is the only way to get to the Leo Continent. As long as we wait here, then we would surely meet the nine Supreme Elders. Even if they give up on assaulting the foreign races, we can still stop them here."

Bingya nodded, then he held a wine glass up for Zhao Hai and said, "Mister, I apologize. I'm also unaware of this matter. I ask mister to forgive me."

Zhao Hai smiled faintly and said, "It's alright. This isn't your idea. People your age cannot come up with these kinds of plans. Come and eat, how has your cultivation been these days?" Upon hearing Zhao Hai mention this, the three couldn't help but be shaken. It can be said that they were very happy these recent days. With their constant cultivation, they already reached peak God-rank, half step towards the boundary. Just in their clan, only a few people had reached this level.

They had received a lot of benefits because of Zhao Hai. At the very least, their speed of practice was much better compared to when they were back in their clans.

The three also knew that they couldn't practice as peacefully in their clans as in the Hell King's ship. There were a lot of matters in their families, tasks for people like them to do. Every time they take care of something, they would delay their cultivation. But if they don't do those tasks, then they would be punished. This wasn't the case with Zhao Hai. They had almost nothing to do here. As long as they kept contact with their family and be polite to Zhao Hai, everything was alright. Because of this, they had a lot of time to practice, which was very good for them.

After eating, Bingya and the others returned to their room. They wanted to communicate with their clan and ask about what just happened.

Zhao Hai didn't care about them. After eating, he went back to his room as he sat drinking tea and looking at the screen. The screen wasn't showing the situation with the foreign races, instead it showed the O'Neal family's base.

The base construction of the O'Neal family was very quick. Although they didn't use magic, their specially designed magic armors made things very convenient.

The base was enormous and the area around it has been levelled. Except for the advance base that was built at the center, the area around it also had beginning stages of construction. These were prepared for the future.

The O'Neal family's commodities were also beginning to be transported to the Taurus Continent. It's good since the spatial rift was located in the Radiant Empire. Surrounding the rift on three sides was water. Allowing the O'Neal family to move easily.

The O'Neal family's Patriarch didn't immediately leave. Instead, he remained in the Rosen Empire. He wanted to wait for the opportune time before moving. After all, moving the family's base was a strategically crucial decision.

Laura was sitting besides Zhao Hai. After taking a sip of her tea, she turned her head to Zhao Hai and said, "Brother Hai, why are we waiting? Shouldn't we make a move?"

Zhao Hai smiled faintly and said, "We don't need to do anything right now. Let's just wait here and rest for a few days. To be honest, besides this place, nothing else in the Divine Realm interests me."

Laura nodded. The other places in the Divine Realm were already insignificant to them. What's left for them to do was to acquire the 11 combat suits as well as Elder Star's Star Disk. As soon as they get these things, the Divine Realm was no longer worth paying attention to.

Lizzy was also looking at the O'Neal family. After some time, she turned to Zhao Hai and said, "Big Brother Hai, do you think the O'Neal family has an Ascension Magic Armor?"

Zhao Hai shook his head and said, "Currently, I don't know. But now, the magic armors that they have are only up to God-rank. These magic armors are now useless to us. These magic armors are almost the same. Moreover, their materials aren't that special. Acquiring higher ranked magic armors would be much harder."

Laura nodded and said, "We already have a lot of formations inside the Space. However, we still don't have the means to digest them. We can use these formations on other things, but not on magic armors."

Zhao Hai nodded, "After dealing with the nine Supreme Elders, our next target would be the Atlanta Plane's Ascension Magic Armor."

Laura replied, "Right, I also think that we should go to the Atlanta Plane first. If the magic armor is really useful to us, then that would be the best."

Zhao Hai nodded, "The reason I don't want to go to the Underworld was because I can feel a sense of strangeness there. It's possible that there are even more powerful beings than the Skeleton King. Because of this, I plan to head to the Atlanta Plane first."

Megan seemed puzzled as she asked, "Elder Brother Hai, you mean that the Skeleton King isn't a top existence in the Underworld? But didn't you say that the Skeleton King could compare to the Supreme Elders? If the Underworld had stronger beings, then why would they still be in a lower realm?"

Zhao Hai shook his head and said, "This I don't know. I just feel like that Underworld isn't simple. Because of this, we need to be completely prepared for our safety. I have a feeling that entering the Underworld would be much worse than entering the Cultivation Realm. It might even be more dangerous."

When Megan and the other heard this, their expression couldn't help but change. Although Zhao Hai said that it was just a feeling, those who were with him for a long time knew that Zhao Hai's instinct was sometimes very accurate.

Laura nodded and said, "Alright. After we take care of the matters here, then we'll head to the Atlanta Plane to take a look. Brother Hai, when do we start leading the O'Neal family to the Winged Pegasus Plane? I'm starting to get annoyed at the Winged Pegasus."

Zhao Hai smiled faintly and said, "Forget it, just leave them for now, there's no need to be annoyed. Just take a rest. We might have a tough battle in the following days."

Laura smiled and said, "If it's tough even for you, then there's no need for us to join in. You can just solve it alone. You can take a rest Brother Hai, you can leave us here to watch."

Zhao Hai smiled faintly and said, "Alright, I'll go take bath first then rest."

After saying that, Zhao Hai went to the Hot Spring.

Completely different from the leisurely Zhao Hai were the foreign races. The three Patriarchs had come together to discuss their situation.

The Beastman Patriarch looked at the other two and said, "What do you think about this matter? What is the meaning of Zhao Hai's reaction?"

The Dwarf Patriarch said, "I already said before that the plan won't work. Zhao Hai is here to help us, but instead you want to demonstrate your authority. I won't be able to help you if he goes away due to anger."

The Elven Patriarch looked at the Dwarf Patriarch and said, "Alright, there's no use arguing at this point. We need Zhao Hai to help us deal with the nine Supreme Elders. However, if Zhao Hai doesn't come, will the nine Supreme Elders still attack us? From what I can see, the biggest enemy of the nine Supreme Elders aren't us, but Zhao Hai. Zhao Hai is now about to destroy the Divines. If the nine Supreme Elders kept attacking us, then shouldn't Zhao Hai appear?"

The Dwarf replied, "Let me ask, what have we done to help Zhao Hai? Why would he help us? Right, we got in contact with the vassal races and let them rebel. However, we all know that the impact of the rebellion is only very small. Zhao Hai doesn't need our help. He can deal with the Divines on his own. In this case, do you think he had feelings towards us?"

The Beastmen Patriarch coldly snorted and said, "Alright, we wanted to demonstrate our power but instead lowering our position. Now that this had happened, we should think about how we can make Zhao Hai come back and help us. I think this is a good opportunity for Zhao Hai, he shouldn't let this go."

Zhao Hai understands that the nine Supreme Elders are his biggest enemies. He needs to concede a lot of things in order to face them. Because of this, despite knowing about our plan, he still came to support us. As long as we can please Zhao Hai, he will certainly come back.”

The Elven Patriarch actually knit her brows and said, “How about we ask Yehta and the others about Zhao Hai’s reaction? Let’s see if we still have an opportunity to bring Zhao Hai back. What do you think?”

The Beastman Patriarch nodded and said, “We should ask them. They followed behind Zhao Hai for a long time. Zhao Hai shouldn’t place them in an awkward situation.” The other two nodded. At this time, the Beastman Patriarch’s messenger fish suddenly sounded.

Chapter 953 – Not Planning To Go Back

The Beastman Patriarch stared for a moment before holding his messenger fish. The messenger fish was connected to Bingya, the Beastman Patriarch quickly said, “Bingya, what happened?”

When Bingya heard the Patriarch’s voice, his anger couldn’t help but flare up again. However, he still replied, “Patriarch, why did you treat Mister Zhao Hai like that? He is very angry.”

Upon hearing Bingya’s inquiry, The Patriarch calmly replied, “Bingya, you should know your identity. You are a Beastman. You should consider our race first, not outsiders.”

It was at this point that Bingya angrily replied, “Is the Patriarch being responsible for our clan? Mister Zhao Hai said that the reason the nine Supreme Elders attacked us is because we dispatched troops to the Leo Continent. They attacked us because they want us to retrieve our troops. If our army doesn’t turn back to help us, then the Supreme Elders would return to the Leo Continent in order to eliminate the army. Wouldn’t that cause huge losses to the clan? Has the Patriarch thought about this?” Along the last lines of his statement, Bingya was almost roaring. Normally, he wouldn’t have the guts to do so. Beastmen were stern people. Daring to talk to the Patriarch like this was a deadly sin. However, since Bingya was quite angry, he couldn’t help but berate the Patriarch.

The Beastman Patriarch and the other two Patriarch couldn’t help but stare when Bingya roared. Then their expression changed. They knew that if what Bingya said was true, then their army in the Leo Continent would suffer under the Supreme Elders.

But the Beastman Patriarch recovered as he immediately replied, “Bingya, don’t say useless things. How is Zhao Hai now? He really doesn’t want to help us?”

When he heard the Patriarch, Bingya replied, "He shouldn't for a while. But as long as the Patriarch asks Mister, he should go back. However, the Patriarch needs to be fast. Otherwise, if Mister Zhao Hai is gone, then our loss would be great."

When the Patriarch heard this, he said, "Wait a moment." Then he turned to the two patriarchs and said, "What do you two think about this?"

The Dwarf Patriarch said, "What else can we do, we need to ask him back. Pleasing someone as strong as Zhao Hai isn't a disgrace. If Zhao Hai doesn't care about our situation, then the one suffering losses would be us. Moreover, the nine Supreme Elders have no means to deal with him. Do you think that the foreign races could fight like Zhao Hai? If we push him away, then we would only harm ourselves with no benefits."

Although the Elven Patriarch was arrogant, she wasn't a fool, so she nodded and said, "We were indeed excessive this time. We need to ask Zhao Hai to come back. Nothing is more important than the lives of our clansmen. And with Zhao Hai's help, our troops would be able to deal with the Leo Continent, providing us with a new good territory. Meanwhile, the vassal races would seep into their own continents. In the end, we would not have any problems keeping our continent."

The Beastman Patriarch nodded and said, "Alright, then we'll go ask him. In any case, the one who will benefit the most would be us." The Dwarf Patriarch didn't reply. Although we wasn't happy about this, he also knew that it was good for their people. He wouldn't deny anything that could benefit his race.

After seeing that nobody wanted to add anything, the Beastman Patriarch nodded and said, "Alright, let's go and prepare. We'll ask Bingya where they currently are and then we'll go see them."

The Dwarf Patriarch and the Elf Patriarch nodded before leaving the Beastman Patriarch's room. After returning to their respective rooms, they immediately took their messenger fish out to ask whether the situation was indeed as Bingya said.

However, they didn't think that Bingya and the others were now acting as one. While Bingya was talking to the Beastman Patriarch, Ryder and Yehta were also with him. Because of this, they heard everything that Bingya said to the Beastman Patriarch. So they didn't say anything wrong when asked.

When the two put their messenger fishes down, they looked at each other and sighed. Bingya looked at the two and said, "I'm actually surprised. I thought our three races were very close. I didn't expect the alliance to waver over a small thing." Ryder sighed, then he turned to the two and said, "To tell you the truth, after this even, I'm won't be heading back to the clan. I'm prepared to follow mister along with my family. I feel like following Mister would make my family more comfortable. At least Mister doesn't use condescending tones when speaking to us. Moreover, he doesn't seem to be eager in manipulating people for benefit."

Ryder's words made Bingya and Yehta stunned. The three of them had some prestige in their clans and they were quite famous. They were even called geniuses by some people. However, they were clear that there were more geniuses like them in the clan. The only reason these geniuses weren't famous was because they haven't had any merits to their name yet. This wasn't because they were lazy, nor was it because they couldn't take hardships. In the battle against the Divine Race, these geniuses died because of the decisions made by their own side.

In the beginning, Ryder didn't think that the world would be this dark. However, the deeper he understood the matters of the world, the more he was made aware of the truth. Because of this, he was cautious whenever he handled affairs. He didn't dare to be arrogant nor bear a deep grudge. Otherwise, a day would come when he would suffer the consequences of his decisions.

To be honest, to those who were ambitious, they would just treat this danger as a game. If they win, then they would be rewarded. But if they lose, then they would die.

However, Ryder wasn't this kind of person. He belonged to the kind of people who want their family to grow and develop. Because of this, he was very uncomfortable when it came to plots. He already had too much of it in his life.

But he couldn't fully divorce themselves from this life since he already entered the circle. Only dead people can get away from this. Even if you held great power, as long as you enter this circle, you still couldn't guarantee that you can retire from it.

Now, Ryder finally found an opportunity for him to remove himself from such a life, and that was with Zhao Hai. With Zhao Hai's strength, he wouldn't be afraid of retaliation from the foreign races. Moreover, they had followed Zhao Hai for some time, so Ryder believed that Zhao Hai already understood them. Because of this, he opened this matter up with Bingya and Yehta.

Bingya looked at Ryder and said, "Have you really thought this through? If you did, then let's not think about whether your family agrees or not, instead, think about the other Dwarves. You will be offending them."

Ryder nodded, "I have thought about it. I will ask Mister tomorrow and see if he will agree. If he does, then I will find a way to move my family." Bingya looked at Ryder and said, "Alright, I'll ask Mister as well. Yehta, you're with us right?"

Yehta looked at the two and smiled, "Of course, you can count me in. Why would I want to be left behind? Let's not wait until tomorrow, let's go now."

Just as her voice fell, Zhao Hai's voice was heard, "Hahaha. There's no need to look for me. I've waited for this day for a long time."

The three stared, then they saw Zhao Hai walked into their room. The three stared for a moment before they quickly got up and bowed. Then Bingya asked, "Mister, why did you come here?" Zhao Hai looked at the three and said, "I heard your words. What's wrong? Surprised? Don't forget, your inside my Hell King's ship. Nothing can evade my sight inside the ship."

As soon as the three heard Zhao Hai, they couldn't help but gawk. Zhao Hai looked at the three and smiled, "I don't listen to your conversations all the time. But today is an exception. I know that you would talk to your Patriarchs. I just want to know the reactions of your clans. To be honest, their conduct disappointed me. However, you three made me glad."

Bingya couldn't help but get embarrassed, then he asked, "So Mister agrees with our request?"

Zhao Hai smiled and said, "Agree, of course I agree. After the fight, you can go and take your families to the ship. I will arrange a good place for them, you can rest assured."

Bingya looked at Zhao Hai, but he was still uncertain so he asked, "Mister, if I may ask, did you send the Demons and the Divines to that place? From what I can assume, you didn't arrange them at the same place as the Ark Continent. So where did they go?"

Zhao Hai smiled faintly and said, “This is my biggest secret. Since you asked, I can only tell you that it is an absolutely safe place. If you want to go, then I can take you over there to have a look. However, you need to pledge to your heart’s demon that without my permission you cannot tell anyone about this matter.”

Zhao Hai knew that for Bingya and the others, the binding force of a Blood Oath would be too weak. Fortunately, he was made aware of the Heart’s Demon Oath. The restraint of this oath is very strong. As long as one cultivates and pledges to a Heart’s Demon Oath, then once they violate their oath, they will be possessed by a Devil and die.

Chapter 954 – Heart’s Demon Oath

Naturally, this oath wasn’t invincible. The most important condition for this oath was that the person who made this oath should have a lower cultivation compared to the one who issued for it.

Once the pledger becomes more powerful, then they can break this pledge at any time. Because of this, the oath wasn’t perfect.

However, this pledge was extremely useful for Zhao Hai. He has the Space, and as long as Bingya and the others enter for some time, then they wouldn’t betray him. Because of this guarantee, Zhao Hai dared to issue them this pledge.

This Heart’s Demon Pledge wasn’t from the Divine Realm. Instead, it was a Cultivation Realm’s method acquired from Lu Wei. This pledge would be used by both the pledger and the person who accepts the pledge. Otherwise, there would be no results. This was also the method used by Lu Wei to control the Divines. Other than calling Lu Wei the Deity, no other matters about him should spread.

Lu Wei used this method on the Divines due to the existence of the plane’s laws. This made it impossible for the Divines to be stronger than Lu Wei as long as they were in the Divine Realm. This enabled the Divines to keep Lu Wei’s secrets, including the method of collecting Faith Power. Among the Divines, there were only a few people who knew about Lu Wei’s method to collect Faith Power.

But although most of the Divines didn’t know what Lu Wei was doing in the Divine Realm, the method of Heart’s Demon Oath was passed down. Because of this, a lot of people in the Divine Realm were aware of it.

Naturally, Bingya and the others were also aware of this. However, they didn't expect Zhao Hai to make them undergo this vow. The oath was useful for people with lower cultivation, but it couldn't control a person's loyalty. As long as you do what you vowed to do, then everything else you do was irrelevant.

For example, if one makes an oath to keep a secret, then as long as you keep that secret, you can do whatever you want. You can kill the one you made an oath to and it wouldn't break the oath. This was also a way to cancel the oath. It can be said that this was the Oath's largest flaw.

Bingya's group didn't think that Zhao Hai would restrain them using this oath. To be honest, this pledge was just too loose.

Zhao Hai looked at Bingya's group and smiled, "What's wrong? Are you unwilling?" Bingya quickly shook his head and said, "No, I willing. Mister can rest assured."

Ryder and Yehta also agreed.

After the three agreed, they immediately began to murmur a spell. Zhao Hai also began to recite alongside them. The voices of the four people seem to meld together. Before long, the oath made by Bingya's group began to form tangible words as it floated on top of their heads. On the other side, three little devils flew out of Zhao Hai's body. These three devils were covered with green flames as they went to the words and ate them. After that, the devils merged with Bingya, Ryder, and Yehta's bodies. That action concluded the oath-taking ceremony.

When Laura and the others saw this ceremony, they couldn't help but sink into a daze. But after the Oath was cast, they immediately recovered.

Zhao Hai looked at Bingya's group and said, "It's done. You're now part of my Buda Clan. Starting today, just call me Young Master. Laura, take them to see the Space. Don't hide anything from them."

Laura nodded before she turned to the trio and said, "Come with me." The trio nodded. Zhao Hai waved his hand to open a spatial rift. Then the group entered.

After the group had gone, Zhao Hai couldn't help but smile. To be honest, he didn't expect Bingya and the others to reach a decision at this time. However, this was a good thing. Zhao Hai had already seen

their abilities. Even if he hadn't seen everything they can offer, that doesn't matter. As long as they become his people, then everything was fine.

Zhao Hai turned around and then entered his room. He believed that the Beastmen would come looking for him. Although the Beastman handled the matter strangely, they wouldn't be able to hold off against the nine Supreme Elders for long. They weren't fools, after weighing the advantages and disadvantages, they should be looking for him for help.

At this time, Laura brought Bingya and the others to enter the Space. Naturally, the first place they went to was the Ark Space.

And just like Zhao Hai said, Bingya and the others were shown the entirety of the Space. They were also shown the state of the three races, showing them their current living condition.

Bingya's group looked at the Space with stunned faces. They didn't think that there would be such a mysterious place. This was simply a perfect place.

Zhao Hai calmly sat inside his room as he observed the state of the O'Neal family. From time to time, he would switch the display to show the Leo Continent. He believed that the foreign race army should have been made aware of their current state. Zhao Hai could see the foreign races' decision by looking at their movement.

The foreign race army in the Leo Continent didn't move. They didn't attack nor retreat. Instead, they guarded the cities that they had captured and just stayed there.

Upon seeing this, Zhao Hai knew that the foreign races would come and see him. If the foreign races didn't plan to see him, then the army should have retreated. Otherwise, once the nine Supreme Elders returned, the army would be over. Now that the army didn't move, this was to say that the foreign races had decided to deal with the nine Supreme Elders. With the current strength of the foreign races, there was only one way they could do this and it was to ask Zhao Hai for help.

For people in Zhao Hai's level, fighting against them was no longer a matter of quantity. Even if they were besieged by millions and millions of people, they would still be able to kill all of the enemies. However, one shouldn't forget that the foreign races also had three Supreme Elders. If they wanted to constrain the Supreme Elders, then as long as they don't care about casualties, then they should be able to do it.

However, the elite troops of the foreign races were now attacking the Leo Continent. Entangling the Supreme Elders using an ordinary army wouldn't be a good idea. Not to say about their strength being insufficient, their willpower was also weak. Their training wouldn't be up to par to the point of affecting the entire outcome of any battle.

Zhao Hai also believed that even if the three Patriarchs had small brains, they still wouldn't use this method. They would certainly cooperate with him. This was because using human wave tactics would just cause huge casualties without even a certainty that they would be able to block the nine Supreme Elders. Also, once the nine Supreme Elders plans to retaliate in full force, the foreign races would surely be living in a nightmare.

On the other hand, if they invite Zhao Hai, then with Zhao Hai's strength, they would surely be able to hold the nine Supreme Elders back with little to no casualty. Only fools wouldn't know which option to choose.

After thinking about this, Zhao Hai couldn't help but rub his blood ghost staff. Presently, the staff only had the Scorpio symbol. He was hoping to see 12 symbols in the future.

Several hours passed and Laura returned with Bingya's group. After seeing the Space, Bingya and the others have become more respectful towards Zhao Hai. They had seen the Ark Space, the Demon Space, the Fishman Space, the Goblin Space, as well as the Divine Space.

At the same time, Laura also told them the reason why Zhao Hai couldn't accompany them. It was because if Zhao Hai stays too long inside the Space, then he would risk ascending once he goes out.

Upon hearing this, Bingya and the others couldn't help but be surprised. Although the Divines had been spreading rumors about ascension, they haven't seen anyone ascend before. But now, they heard Zhao Hai's possible ascension.

Originally, Zhao Hai planned for Bingya and the others to stay in the Space for some time. However, Bingya had to come out this time because he had something to tell Zhao Hai. The Beastman Patriarch just called and asked about their current location. It seems like the Patriarch was preparing to meet Zhao Hai himself.

Because of this, Bingya didn't have a choice but to come out of the Space. After hearing Bingya, Zhao Hai smiled and said, "Did you tell them where they can meet us?"

Bingya nodded and said, "I did, but I didn't tell them our current location. I told the Patriarch that the Young Master is heading towards the Taurus Continent. I believe that they will go there in order to find us."

Zhao Hai nodded with satisfaction and said, "Alright. How was your visit to the Space? When your family comes, I will arrange a good place for them." Bingya smiled and said, "Young Master, I'd like us to settle in Wild Dragon Island so that we can offer some help. What do you think?"

Zhao Hai smiled and said, "Alright, then I'll prepare a place for you there. However, although Wild Dragon Island seems relaxed, we don't want to accommodate idlers. You need to find things that you can contribute towards."

Bingya nodded and said, "Mister can rest assured. Our families aren't senior officials or nobles. They couldn't sit well if they do nothing." Zhao Hai nodded and said, "In fact, you should have already seen that the jobs in the Space are just a means to spend time. Even if people didn't go to work, they could still eat and be warm. But if you think about it, working will give people a purpose. Otherwise, they would be no different than a pig."

Bingya and the others nodded. Then Zhao Hai asked, "Do you really want to move your family to the Space? If so, I can give you three command tokens. After you meet your family, you can use these tokens to open a spatial rift to the Space. What do you think?"

Bingya was stunned for a moment, then he said to Zhao Hai, "Young Master, we have one request." Zhao Hai smiled and said, "Alright, tell me." Zhao Hai had a faint guess about their request. After Bingya and the others saw the situation inside the Space, they should have the inkling to have more people move in. After all, the situation inside the Space was very good.

And just as Zhao Hai thought, Bingya said, "Young Master, we want our clansmen to enter the Space." Zhao Hai smiled faintly and said, "I don't oppose to having more people move to the Space. However, this will offend your Patriarchs. Under the current circumstances, I don't want to have a conflict with them. At the very least, I don't want any troubles before dealing with the nine Supreme Elders."

The expression of the trio brightened up as they nodded. Then Zhao Hai waved his hand and said, "Go and take a rest. You'll have to stay on the ship in the next few days." The three nodded before heading back to their rooms.

After waiting for the three to leave, Laura turned to Zhao Hai and said, "Congratulations Brother Hai. The three of them are quite strong. They also some ability to lead. They're quite talented so they should be good after some training."

Zhao Hai smiled faintly and said, "I really don't care about using them. In fact, there are a lot of talented people like them inside the Space. I just want them to help me move the foreign races to the Space."

Laura nodded. There were now a lot of races inside Zhao Hai's Space. There are the people from the Ark Continent, the Fishmen, and the Demons. Almost all of these people were now Zhao Hai's followers. They would agree to Zhao Hai's requests, so there weren't that much need for talented leaders. However, when it came to moving the foreign races to the Space, only Bingya and the others had the ability to do so. Zhao Hai could also use the undead to snatch people, just like what Zhao Hai did with the Divines. However, Zhao Hai didn't want to use that method unless otherwise needed.

And just as Bingya said, the foreign races began to travel towards the Taurus Continent. The Hell King's ship had also changed its route and headed there to wait for the Patriarchs.

It was good that the Taurus Continent wasn't far. And with the Hell King's ship's speed, Zhao Hai arrived at the route to the Taurus Continent before long. Then he stopped in place as he waited.

Zhao Hai wasn't worried much about waiting for the nine Supreme Elders. After all, the route from the Leo Continent and the foreign race territories was already mapped by him. If the Supreme Elders decided to run, Zhao Hai could quickly catch up.

Chapter 955 – I Have a Request

Zhao Hai sat calmly on the ship's deck. There was a small table on the side of his reclining chair with a cup of tea on top of it. Zhao Hai also held a book in his hand, one couldn't help but see him as being unfettered and free.

His chair was made from his staff. Zhao Hai felt that sitting this way on the ship's deck would make him look comfortable. This was to let the foreign races know that he wasn't worried too much about their matter.

Laura and the others weren't outside. Instead, it was Bingya's group who stood beside Zhao Hai. The trio were becoming more and more respectful to Zhao Hai. They didn't expect Zhao Hai to have a thing as magical as the Space. To be honest, they couldn't wait to move their family.

At this time, Zhao Hai suddenly smiled. The book he was reading was just a book about magical formations, there wasn't anything much about it. The reason why Zhao Hai had this book was just to let the Patriarch see that he was reading it.

Zhao Hai smiled because he knew that that Patriarchs had arrived. However, Zhao Hai didn't go out and just lied down on his chair, reading his book. It looks like he wasn't able to notice the visitors that arrived.

Before long, a group of people appeared in the sky. Being the representative, Bingya turned to Zhao Hai and said, "Mister, they're here." Zhao Hai already had talked to them about what to do in advance.

Zhao Hai didn't think about retaliating against the foreign races. There was no need to be spiteful. After all, Zhao Hai still needs to cooperate with them. Before he achieved his goals, then Zhao Hai would have to play nice. As for after that, nobody knows.

Zhao Hai placed his book on the small table before looking at the flying foreign races. The group was already quite nearby. Zhao Hai waved his hand, making the Hell King's ship fly upwards to meet the guests.

Before long, Zhao Hai arrived in front of the foreign races. In front of the group was a Lion Beastman, then a Dwarf was to his left while an Elf was to the right.

The three leaders were also sizing Zhao Hai up. The two sides didn't speak. After some time, the Lion bowed slightly towards Zhao Hai. He looked like an iron rod as he bowed, he looked very stiff, every move was done very laboriously. It can be said that he just made a light leaning motion as he said, "Beastman Patriarch Solomon has seen Mister Zhao Hai."

Compared to the Lion, the Dwarf was much more polite as he bowed and said, "Dwarf Patriarch Leir has met Mister Zhao Hai." The Elven woman also gave a bow and introduced herself, "Elf Yerd has seen Mister Zhao Hai." The Elf Queen's attitude towards Zhao Hai was better than the Beastman but worse than the Dwarf. Because of this, Zhao Hai couldn't figure out which side she was on.

Zhao Hai can see how intimate these people felt towards him judging by their attitudes. Zhao Hai had a good feeling about the Dwarf Patriarch. However, separating them at this time would be impossible.

Zhao Hai also gave a bow and said, "Zhao Hai has seen the Patriarchs. I didn't expect the three Patriarch to pay me a personal visit. I'll have to invite you to share a few cups with me on the ship."

After being invited by Zhao Hai to embark, the three people looked at each other before they nodded. Then the trio descended to the Hell King's ship. While on the ship, Zhao Hai waved his hand, producing three additional chairs.

After the three were asked to sit down, Laura and the others walked out of their room. On each of their hands were dishes and some wine.

Upon seeing this display, the three Patriarchs knew that Zhao Hai had been prepared. The Patriarchs couldn't help but get stunned. Then the three turned towards where Bingya and the others were. Bingya just shook his head gently before turning to look at Zhao Hai.

Naturally, Zhao Hai saw their movements. Zhao Hai looked at the Patriarchs and smiled, "I'll have to apologize to you three. Before, when I came to the Foreign race territory, I left because of a little bit of anger. I regretted my action at that time. And now that the Patriarchs came to personally visit, I couldn't help but feel ashamed."

Upon hearing Zhao Hai, Solomon looked more arrogant, Lier looked quite ashamed, while Yerd seems unresponsive, however, a glint flashed through her eyes.

Zhao Hai immediately knew what was going on upon seeing their reaction. Solomon thought that Zhao Hai admitted defeat. While Lier thought that Zhao Hai was satirizing them. As for Yerd, Zhao Hai didn't know what she was currently thinking about.

Solomon, with his proud expression, looked at Zhao Hai and said, "Mister came in to help us, we shouldn't have taken things too far. It was only because the nine Supreme Elders had been very ferocious in their attack that we decided to be extra careful. If Mister misunderstood, then let this Solomon offer his apologies." Although he said this, Solomon's arrogant expression betrayed his apology.

Zhao Hai smiled faintly and said, "So the Patriarch is just being careful, this Zhao Hai can understand. So why did the Patriarchs come and see me today?"

A flash of anger appeared in Solomon's eyes. He thought that he had already given Zhao Hai face by his apology. Zhao Hai shouldn't be acting ignorant at this time.

However, Solomon was also aware that he couldn't offend Zhao Hai at this moment. Therefore, he could only answer, "The three of us came today to invite Mister to the foreign race territory in order to cooperate with us in dealing with the nine Supreme Elders. What does Mister think?"

Zhao Hai smiled faintly and said, "Of course I agree. It'll be great if we can deal with the nine Supreme Elders. But before I go and fight, I have a request that I'd like the three of you to agree first."

The trio looked at each other, they didn't expect Zhao Hai to negotiate with them at this time. Solomon was angry, but he still had to suppress his temper, so he said, "Mister, please tell us."

Zhao Hai replied, "It's this, since we will deal with the nine Supreme Elders, then after we're done, their ultimate weapons would lose their masters. I'm not greedy, so the ultimate weapon would go to the ones who kill their master. Do you agree to this?"

The three looked at each other before they all nodded. Although they want to obtain the ultimate weapons, they knew that if they didn't accept Zhao Hai's request, then Zhao Hai wouldn't help them. Because of this, they could only agree to Zhao Hai's condition.

However, the three didn't know that this wasn't Zhao Hai's request. His request wasn't this simple, so Zhao Hai continued, "I happen to like researching things, this includes the Ultimate Weapons. If I'm able to get ultimate weapons in this fight, then I'd like to exchange it with your three clans so that I can do my research. This also includes the three ultimate weapons of your clan as well as the Scorpio ultimate weapon that I have. After I'm finished with my research, I will give all the ultimate weapons to you guys,

including my Scorpio ultimate weapon.” Then Zhao Hai waved his hand as an ultimate weapon appeared on deck, it was the Scorpio combat suit.

Although Zhao Hai’s conditions were very awkward, Solomon and the others could understand that Zhao Hai wanted the 13 ultimate weapons to be in his hands.

This caused the three to get awkward. However, when they thought about Zhao Hai’s later conditions, they couldn’t help but feel that it was possible. After all, Zhao Hai was giving up the combat suit that he had.

Zhao Hai’s possession of the Scorpio combat suit was already known by the three Patriarchs. Even if Zhao Hai couldn’t obtain a combat suit in the upcoming battle, his own combat suit as a condition was already enough.

Solomon looked at Zhao Hai and said, “If Mister wants to study the ultimate weapons for a few days, then do you need to have all of them in your hands?”

Zhao Hai shook his head and said, “Of course not. I can study them one by one. This also depends on the number of ultimate weapons that I have. If I haven’t killed a Divine Supreme Elder, then I can research one ultimate weapon at a time. If I have two ultimate weapons, then I can research two at a time. But no matter how many ultimate weapons I have, my research wouldn’t take more than three days. What do you think?”

No matter which angle Solomon and the others looked at it, this was a profitable trade for them. How could they just let go of this opportunity? The three looked at each other before Solomon turned to Zhao Hai and said, “Mister, are you telling the truth?”

Zhao Hai smiled faintly and said, “Of course, I don’t need to lie. You can rest assured. In any case, you could always keep at least three ultimate weapons in your hand at all times. What do you need to be afraid of?”

The three nodded simultaneously. Solomon looked at the other two, then after seeing their agreeing nod, he turned to Zhao Hai and said, “Then we’ll accept Mister’s condition.”

Zhao Hai nodded, "Alright, then since we have reached an agreement, there's no need to discuss anything more. Let's go and deal with the Supreme Elders. Please have your guards enter the ship so that we can get going."

The three looked at Zhao Hai before turning their heads to their guards. All in all, their guards numbered 30 thousand people. How could all of them fit inside the ship? Wouldn't Zhao Hai's ship sink?

Zhao Hai saw their doubtful expressions, but he just smiled and said, "Rest assured, my ship can fit all of us. Just order them to head in." The three Patriarchs nodded before they waved their hands, commanding their guards to embark on the ship. Under the shocked gazes of the three Patriarchs, the Hell King's ship acted like a bottomless vessel as it continuously took in all of the 30 thousand guards. The three curiously inspected the situation of their men only to find out that each guard had their own personal room. This caused the three Patriarchs to be startled.

Chapter 956 – If You Believe In Me, Then You Will Have Eternal Life!

While Solomon and the others were looking at the Hell King's ship, the ship had already departed. And when they headed back out into the deck, they were already close to reaching the Aries Continent.

When Solomon and the others saw this, they couldn't help but look at each other. It seems like they had to re-evaluate Zhao Hai's strength.

They knew that Zhao Hai was strong, but they weren't able to see it firsthand. Zhao Hai being able to rush towards the Aries Continent in such a short time was a testament to his own strength.

Zhao Hai stopped right outside the Aries Continent, he didn't enter but instead looked at Solomon's group and said, "Patriarchs, where are we heading?"

Solomon looked at Zhao Hai and said, "Let's turn and head to the Libra Continent." After that, Zhao Hai turned the ship towards the Libra Continent and then went straight towards it.

The speed of the Hell King's ship had now reached its limit. However, the ship was still very calm, as though it was stationary and only had a few light breezes. This made Solomon and the others more and more impressed.

As the ship was traveling, Zhao Hai turned his head to the three Patriarchs and said, "Patriarchs, I'm not too familiar with the foreign races, can you help me understand?"

The three Patriarchs looked at each other. And then, Solomon and Yerd took a step back, leaving Leir in front. It was clear that they wanted Leir to do the explaining.

After Leir saw this situation, he couldn't help but smile awkwardly and said, "It looks like I will be the one explaining to Mister." Solomon nodded before he turned to Zhao Hai and said, "Mister, we want to rest first. Leir should be able to accommodate you. What do you think?"

Zhao Hai nodded before he turned to Bingya and said, "Bingya, I'll have to ask you to lead Patriarch Solomon and Queen Yerd to their rooms so that they can take a rest."

Bingya's group nodded before proceeding to lead Solomon and Yerd to their rooms. Yerd managed to notice that their rooms were one of the better rooms inside the ship. However, there seems to be more of these types of rooms present.

After waiting for Solomon and the others to head down the ship, Zhao Hai clapped his hands. Laura and the others immediately offered Zhao Hai some wine. This time, the wine was one of the better wines in Zhao Hai's hands. Zhao Hai offered Leir a glass before he held his own and said, "Patriarch Leir, among your group who sought me, only you saw me in a positive light. Let this Zhao Hai offer you a glass."

As soon as Leir heard Zhao Hai, his face couldn't help but show his embarrassment. He also thought that Solomon was quite excessive this time. However, he still held his glass up and replied, "Actually, Solomon and Yerd doesn't have any bad intentions. They're just used to acting like this because of their position. I hope that Mister won't be offended."

Zhao Hai pretended to be angry as he said, "If it wasn't for the fact that I wanted to deal with the nine Supreme Elders, then I wouldn't have stomached such attitude. Alright, there's no need to talk about this. With Patriarch Leir's temperament, I'm certain that we would have a good future together."

Leir smiled and replied, "Mister is really lifting me up. It's my pleasure to be Mister's friend. If you need the help of the Dwarven race in the future, then please don't hesitate to tell us."

Zhao Hai smiled faintly and said, "To be honest, I feel quite strange. Back in the Ark Continent, my relationship with the three races is quite good. Whether it be the Dwarves, Beastman, or Elves, all of them are my friends. However, it seems like the Beastmen and the Elves of the Divine Realm aren't looking at me favorably."

Leir couldn't help but bitterly smile. He was very clear about why Solomon didn't like Zhao Hai. In Solomon's eyes, Zhao Hai was a destroyer of the established order. He managed to throw off the balance of the Divine Realm, this caused Solomon to be afraid of him.

Zhao Hai was just too strong. With his own strength, he managed to almost destroy the entire Divine Race. The Divines were much stronger than the foreign races. And if Zhao Hai decides to turn on the foreign races, then the foreign races would have a hard time stopping him. It was also for this reason that Elf Yerd was reluctant to get in contact with Zhao Hai.

Zhao Hai looked at Leir's expression and smiled, "Actually, I couldn't stay in the Divine Realm for a long time. I don't belong to this place and I have more matters to attend to. The reason I dealt with the Divines was because I wanted the Ark Continent to have vengeance. To be honest, my enmity towards the Divines have gone too thin. If I wasn't worried about the nine Supreme Elders eliminating the foreign races, then I might have left the Divine Realm a long time ago."

Leir looked puzzled at Zhao Hai, "Why would Mister say that? The Divines have been greatly damaged. Even if the nine Supreme Elders retreats, they shouldn't be able to deal with us right?"

Zhao Hai smiled bitterly and said, "No, it's the opposite. If the Supreme Elders manages to retreat, then your days would be bad."

Leir was still puzzled, but before he manages to ask, Zhao Hai continued, "The reason why you can block the Divines was because the Divine Race aren't a united group. Instead, they divided themselves into ten different groups, each had their own Elders and plans for going forward. Because of this, they didn't do their best during their attacks towards the foreign races. And when a group of them attack you, their Supreme Elders were less than what you have. But this time, the nine Supreme Elders are concentrated in the Leo Continent. This means that a single Divine Race group now has more Supreme Elders than you. As the war progresses, the foreign races would slowly be defeated."

Upon hearing Zhao Hai, Leir couldn't help but stare blankly. He wiped a cold sweat, they haven't thought about this point. After being reminded by Zhao Hai, Leir felt that things are far from being great as they imagined.

Zhao Hai looked at Leir and continued, "To be honest, dealing with the nine Supreme Elders wouldn't provide any benefits for me. Back in the Taurus Continent, the Supreme Elders wanted to threaten me using the Thunder Clan and the others. And at that time, they realized that if they return to the Leo Continent, then they would have a chance to save the Divine Race. Because of this, they went to attack you so that you would make your troops retreat. In this case, I am not in the equation anymore. They don't care about me. I don't have to deal with them and I can just leave. But do you know why I didn't leave? No matter what, your races provided me with help in dealing with the Divine Race. You also sent Divine Artifacts to your people back in the Ark Continent, providing them with great kindness. My relationship with the three races in the Ark Continent is very good. I'm a Crown Prince of the Beastman, and a Foreign Elder to the Elves and the Dwarves. Because of this, I decided to help you one time in dealing with the Divine Race."

Leir listened quietly to Zhao Hai's words and found out that Zhao Hai wasn't wrong. From looking at Zhao Hai's appearance, he seems to be a kind of person who didn't want to rule the Divine Realm. Otherwise, he wouldn't destroy the Divine Race. Zhao Hai could just leave, he didn't need to care about the muddied waters of the Divine Realm anymore.

Zhao Hai looked at Leir and smiled, "Patriarch Leir, you're a Patriarch, so you should be familiar with this word."

Leir became confused at Zhao Hai's query. So upon hearing Zhao Hai, Leir tilted his head and asked, "What word?"

Zhao Hai smiled faintly and answered, "Ascension!"

As soon as Leir heard this, he couldn't help but gawk. Then he said, "Ascension? Does Mister want to ascend?" As a Patriarch, he wasn't a stranger to ascension. However, he didn't expect Zhao Hai to have thoughts about it.

Zhao Hai looked at Leir and said, "Do you think the Divine Realm can hold me?"

Leir stared, then he smiled bitterly and said, "Right, even the nine Supreme Elders couldn't stop you. With your current strength, there's no way for the Divine Realm to accommodate you. The next step for you would be to ascend."

Zhao Hai smiled and said, "Right, I will ascend after taking care of things in the Divine Realm. Because of this, I won't be here in the future. Later on, the foreign races wouldn't have anything to do with me."

Leir smiled bitterly, he felt unworthy because of Solomon. Solomon was worried that Zhao Hai would replace the position that the Divine Race held. It seems like Zhao Hai wants to ascend, he simply didn't have anything left to do in the Divine Realm.

Upon thinking up to here, Leir couldn't help but sigh. Then he drank from his wine glass before looking at Zhao Hai and asking, "Mister, did you subdue the Demon Race?"

Zhao Hai nodded and said, "Correct. The Demons, the people in the Ark Continent, as well as the Goblins have now become my people. They're currently in a very safe place. Maybe I could even take them with me when I ascend." When Leir heard this, he stared for a moment before he said, "Bring them when you ascend? How is that possible?"

Zhao Hai smiled faintly and said, "What if I had better things like the Hell King's ship?" Leir's eyes lit up, then he said, "Is Mister telling the truth?"

Zhao Hai just smiled and said, "If you believe my words, then it's true. If you don't then it's false. And if you believe in me, then you will have eternal life! Hahahaha." After that, Zhao Hai drank his wine before turning to look at the distant horizon.

Leir stood up, his eyes seem to be filled with passion as he said, "Mister, can you take us along?"

Zhao Hai chuckled a bit before answering, "This isn't something that you can decide in a short time. In your case, ruminate on this idea for some time. However, I hope you don't tell Patriarch Solomon and Queen Yerd about this."

Chapter 957 – Violent Debate

When Leir heard this, he couldn't help but feel regretful. He also knew that things like these weren't something that he could decide alone.

At this time, five people came out. Solomon had a smile on his face as he looked at Zhao Hai and said, "Mister, let this Solomon congratulate you. I didn't think that Mister would want to ascend, I'm really envious."

As soon as Leir heard Solomon, he couldn't help but get startled. Then he turned to look at Zhao Hai. He thought that Zhao Hai's ascension was only something that the two of them knew. Now it seems like this wasn't the case.

Zhao Hai gave Leir a smile, making the latter relax. Then Zhao Hai turned his head to Solomon and said, "The Patriarch's congratulations are a bit early. I'm not even sure if I can ascend."

Solomon smiled and said, "Not early, not early. The Divine Realm cannot hold someone like Mister for too long. Mister should inform us when you ascend, we need to attend the ceremony. If this Solomon can see someone ascend, then I wouldn't have lived this life in vain."

Zhao Hai smiled faintly and said, "Of course. If I am about to ascend, then I will inform the Patriarch. Rest assured."

When Leir heard the conversation between Zhao Hai and Solomon, he couldn't help but think. Then he turned to look at Bingya who stood behind Solomon and Yerd. He now understood that Solomon had called Bingya over to his room and asked about Zhao Hai's situation. It should have been Bingya who told Solomon about Zhao Hai's ascension. Because of this, Solomon's attitude towards Zhao Hai had changed.

However, by listening to Solomon's words, it seems like Bingya didn't tell him that Zhao Hai can take people along with him when he ascends. This might be because Bingya and the others were unaware of this fact.

If Bingya didn't know, then there was nothing strange about the current situation. But if they knew but didn't say it, then that could only mean one thing, they had already become Zhao Hai's people.

At the thought of this, Leir couldn't help but take another sip of his wine. After placing his wine glass down, he felt shock. He understood that Bingya's group had already sided with Zhao Hai.

When Leir placed his glass down, he understood the truth. Zhao Hai only gave him a glass to drink, yet Leir already felt close to him. He even felt dissatisfied towards Solomon and Yerd. Bingya and the others had been with Zhao Hai for so long, so how could they not be swayed by Zhao Hai's influence? Additionally, with the bait of being taken along when Zhao Hai ascends, it was natural for Bingya and the others to submit to Zhao Hai.

After figuring this out, Leir couldn't help but take another glance at Zhao Hai; who was currently talking with Solomon. Leir suddenly found Zhao Hai to be terrifying. He seemed to have calculated every step of the way. And even if one knew his purpose, there was still no way to stop him. Zhao Hai would use a person's interest in order to pull them into his circle. As long as he wants something, then he would make sure that everyone would have a share. In this case, even if one knew his plans, they would still find themselves helping him.

Was he an ally, or an enemy? What was he? As he thought about the state of the nine Supreme Elders, Leir couldn't help but shudder. As the Dwarf Patriarch, he had a certain understanding about the Supreme Elders. Upon seeing the appearance of the nine Supreme Elders, Leir was shocked. If Elder Star and the others didn't use their ultimate weapons, then Leir wouldn't have believed that they were the Divine Race's Supreme Elders. And to think that this suffering was caused by Zhao Hai alone.

When he thought about this, Leir quickly decided to not be Zhao Hai's enemy. Leir couldn't help but look at Solomon's relaxed expression as he chatted with Zhao Hai. Leir sighed in his heart, he knew that Zhao Hai wouldn't befriend Solomon and Yerd. At the same time, Zhao Hai was also giving Leir a test. If Leir could keep Zhao Hai's secret, then Zhao Hai might treat him as a friend. If Leir couldn't, then he won't be getting on Zhao Hai's good side.

Leir let out a long breath. He held his wine glass towards Zhao Hai and laughed, "Mister, your liquor is really great. I don't know if Mister would agree to giving me some. If I cannot drink this liquor later on, then I'm afraid I would have trouble sleeping."

Although this seems to be a simple request for liquor and nothing else, there was a hint of friendliness in those words. If he didn't regard Zhao Hai as a friend, then how could he ask for Zhao Hai's wine? Who would want to drink a stranger's liquor?

Leir talked to Zhao Hai in this manner because he believed that Zhao Hai could understand. Zhao Hai was a smart man.

And just as Leir thought, Zhao Hai's smile became wider. He turned to Leir and laughed, "If the Patriarch likes my wine, then I will definitely give you some. This is not a big deal."

Solomon and Yerd didn't suspect anything. They were aware that Dwarves were famed for their love of liquor. Additionally, Leir had always been acting positively towards Zhao Hai, so asking for liquor was not strange.

At this time, a continent appeared on the horizon. The Continent gave one a heavy earthly feeling.

Leir stood up and pointed to the Continent and then said, "Mister, that is the Libra Continent where the Dwarves live. It is the place with the richest deposit of minerals in the Divine Realm. The reason why the nine Supreme Elders attacked us was because almost all of the weapons used by the Beastmen and the Elves were made by us. As long as they deal with us, then they would find it easier to deal with the other two races."

Solomon and Yerd didn't find fault in Leir's words. This was because Leir was right. The three foreign races were interdependent on each other. The Elves mainly supplied food, the Dwarves supply the weapons, and the Beastmen provide mounts and armor. This way, the three races were closely related.

However, the Dwarves were a bit more important. This was because both the Dwarves and the Beastmen were already mostly self sufficient on food. As for armors, God-rank experts rarely find any uses for them. On the other hand, weapons were indispensable for any expert. Good weapons would allow someone to fight stronger enemies.

Because of this, the Divines always attacked the Dwarves first. But since the other two races were quite close, they were able to support the Dwarves. This allowed the Dwarves to stay safe for a long time.

Zhao Hai nodded, "Dwarven weapons are indeed very good. Back in the Ark Continent, I had a lot of interactions with the Dwarves. At that time, the three foreign races were being ostracized by the Radiant Church. There basically isn't any easy way to come in contact with them. In the end, I was able to make good business. I would trade for the Beastman Race's milk wine with Dwarven Weapons. I also use Elven artware to trade for goods with the Humans. Then I use what I earn to buy living commodities for the Beastmen and the Dwarves. Hehe."

Upon hearing this, Leir and the other gawked. They didn't have much information about Zhao Hai's life back in the Ark Continent. Now that Zhao Hai revealed his experiences, they couldn't help but feel that Zhao Hai was a merchant.

The trio looked at Zhao Hai with confused expressions. Zhao Hai smiled faintly and said, "The Patriarchs aren't thinking incorrectly, I am indeed a Human Merchant, a very good one. Not only did I do business with the Humans, I also traded with the Beastmen, the Dwarves, the Elves, the Fishmen, basically almost everyone in the Ark Continent. Of course there are exceptions, I didn't trade with the Radiant Church. Since I am a Dark Mage, they would immediately want to burn me on sight. I also didn't trade with the Dragons since they are the dogs of the Divine Race. And finally, I didn't trade with the magic beasts, they really didn't have anything that I want."

Leir and the others just smiled, they were now more curious about Zhao Hai's life back in the Ark Continent. How could a Merchant have such a status? How did he manage to acquire his current strength?

As they were thinking, the ship had entered the Libra Continent. Zhao Hai calmly looked around the place. However, it seems like there were no fighting going on. Zhao Hai couldn't help but turn to Leir and asked, "Where are the nine Supreme Elders? Aren't they here?"

Leir smiled bitterly and answered, "They're here. But us Dwarves live just like our people back in the Ark Continent, in caves. After the nine Supreme Elders came here, they already destroyed several of our settlements. Because they were caves, we couldn't see any signs here in the surface."

After that, Solomon interjected, "They never did this before. The Divine Supreme Elders are very arrogant. In the past, they greatly disdained going underground. However, they broke the norm this time. They engaged in guerilla warfare with us inside the caves. Because of this, most of the fights happen underground."

Zhao Hai nodded, "They have no other way. This time, they only came with nine People. They don't want to waste too much energy, so the best way they can go forward is to just kill people."

The group nodded. The means of combat used by the nine Supreme Elders had greatly changed. It seems like they really suffered a huge loss under Zhao Hai.

At this time, a mountain in the distance suddenly exploded. Then several humanoid forms came out.

Zhao Hai saw this and immediately said, "It's the Supreme Elders. Patriarchs, I will have to evict you from the ship. I won't have time to take care of you when the fight starts."

After saying that, Zhao Hai waved his hand. Solomon's group immediately got ejected from the ship, as did Bingya's group and the thirty thousand guards. Nobody knew how they managed to get out of the ship.

While they were dumbfounded, Zhao Hai already threw himself towards the battlefield.

Naturally, the two sides who were fighting had noticed Zhao Hai. When they saw Zhao Hai, the three foreign race Supreme Elders couldn't help but smile. They were being besieged by Elder Star and the others. Now that Zhao Hai was here, he might be able to save them.

At the same time, when Elder Star and the others saw Zhao Hai, their expressions also turned happy. Then their faces turned serious before reforming in preparation for fighting Zhao Hai.

However, the three foreign race Supreme Elders actually separated from the fight. They turned away from Elder Star and the others but they didn't go near Zhao Hai.

Upon seeing this situation, Zhao Hai couldn't help but criticize them. The three Supreme Elders were too stupid. In face of an enemy, they actually acted like this. Were they making it clear that they weren't in the same side as him? This point could be used against them.

And just as Zhao Hai thought, when Elder Star saw the reaction of the foreign Supreme Elders, his eyes flashed. Then he turned calm but he had a hint of joy in his expression.

Zhao Hai slowed his ship down as he stopped about a hundred meters away from Elder Star's group. Meanwhile, the three Supreme Elders placed themselves on the left side of the Divines. This caused the parties to form a triangle.

Elder Star looked at Zhao Hai with eyes full of hatred as he said, “Zhao Hai, I didn’t think that you would actually appear here. For a black-hearted person like you, you actually came to help the foreign races. I couldn’t help but be surprised. You just watched as the entire Thunder Clan got exterminated. So why did you come here to help the foreign races?”

Elder Star’s words were nothing less than poisonous. This was simply telling the foreign races that Zhao Hai was a cruel person. He just stayed still as the Thunder Clan was exterminated by Elder Star’s group, he didn’t offer any help. Now that Zhao Hai came here to assist, he surely has some sinister plot going on.

Zhao Hai looked at Elder Star and smiled, “You know that I can’t beat you, so why would I run into your trap back then? Do you think I’m stupid? But now, the situation is different. Along with the three Foreign Supreme Elders, I have confidence in keeping you here. In a few days, you would be the remaining Divines in the Divine Realm. After that, the Divine Realm would belong to the foreign races.”

A sharp tongue, this was a true sharp tongue. Elder Star used words in order to put a wedge on Zhao Hai’s relationship with the foreign races. At the same time, Zhao Hai also used words in order to convince the foreign races to deal with Elder Star’s group. Only then could the foreign races gain complete freedom in the Divine Realm.

Elder Star’s mouth turned into a sneer as he said, “Is it? If you deal with us, then wouldn’t the Divine Realm belong to you!?”

Elder Star wasn’t easy to deal with. He launched another verbal blow.

Chapter 958 – Fierce Battle

Zhao Hai could understand Elder Star’s purpose. Elder Star wanted to remind the foreign races that if Zhao Hai could deal with the Divines, then he could also deal with the foreign races.

Checks and balances was a method used by leaders, almost everyone used it. If a leader couldn’t use checks and balances, then it would be impossible for him to be a great leader.

Elder Star was the Central Continent’s Supreme Elder, so he was very familiar with this system. Naturally, he also knew how to use it.

Sure enough, after Elder Star said this, the three foreign race Supreme Elders didn't look great as they turned to Zhao Hai. It's very obvious that they realized Elder Star's thought a long time ago. Otherwise, they would have went to Zhao Hai after seeing him. Instead, they chose to maintain a safe distance away.

After seeing the reaction of the foreign race Elders, Zhao Hai couldn't help but smile faintly as he turned to looked Elder Star and said, "Elder Star doesn't have to worry about this. I already discussed this matter with the Foreign Race Patriarchs. After I deal with your group, I will then leave the Divine Realm. The Patriarchs also knew the reason why I have to leave."

Zhao Hai's words towards Elder Star made the three Supreme Elders feel embarrassed. Zhao Hai turned his head towards the three Supreme Elders and said, "If you lose the opportunity to deal with them, then you will never have the upper hand. I will leave the Divine realm in the future. And when the time comes, only the three of you will be left to deal with the nine Supreme Elders."

When the three Supreme Elders heard Zhao Hai, their complexion couldn't help but change. To be honest, Zhao Hai's words hit them in their greatest weak spot.

Zhao Hai's threat was just a possibility, it was still left to be proven. After all, Zhao Hai was their ally at this time. If Zhao Hai left, then the entire Divine Realm would be left to the foreign races and the remnant group of the Divine Race. However, the Divines were the enemies of the foreign races, they were hostile towards each other for tens of thousands of years. Their hatred had already penetrated their bones. If the foreign races didn't use this opportunity, then the foreign races would have to be left to deal with the Divines all on their own when Zhao Hai leaves.

When Elder Star heard this, he knew that his side of the debate was not doing well. His eyes narrowed as he gave his command, "Let's begin!" Along with his voice, he also activated his Star Disk.

The Star Disk moved in Elder Star's hand. It rotated quickly as it launched lights in all directions. After that, Zhao Hai felt a change in the surroundings. Then he was met with a starry sky.

Zhao Hai didn't panic as he observed the situation around him. The distant sky had constellations floating around. What made Zhao Hai strange was the fact that the Star Disk seem to have much more constellations than he expected.

After looking at these extra constellations, Zhao Hai understood that they belonged to the foreign races. It was the Aries Constellation, Libra Constellation, and the Virgo Constellation.

Zhao Hai didn't know if it was his imagination or not, but the three constellations seem to be quite grey. The three combat suits also seem to be struggling.

Zhao Hai smiled and said, "Elder Star, I didn't expect you to use this move. However, this didn't work the last time. Did you forget? I have broken this before."

After Zhao Hai said that, he moved his hand as the Dao Lotus went to the sun where the Star Disk was. With Zhao Hai's power as well as the Dao Lotus' strength, a loud bang was heard before the illusion in the sky disappeared.

But although the illusion had disappeared, Zhao Hai discovered the situation was still not very good. The three Supreme Elders of the foreign races seem to be under Elder Star's control. They were standing there, motionless, but their bodies seem to be gently shaking.

Zhao Hai knew that the three Supreme Elders were fighting against Elder Star's control. They were currently in the process of breaking loose. But before that, Zhao Hai had to face the nine Supreme Elders alone.

Elder Star looked at Zhao Hai and laughed, "Zhao Hai, coming here is your biggest mistake. Now that the three of them are restrained by me, you will have to face us all alone. Let's see what you can do now."

Zhao Hai just gave a faint smile as he said, "What? Do you think I'm afraid of you?" After that, Zhao Hai waved his hand as a red scorpion went out of his staff. The scorpion shook its body before it threw itself towards the Supreme Elders. The Supreme Elders' expressions changed. Naturally, they could recognize that this was the Scorpio Clan's ultimate weapon. They didn't dare to underestimate it, so Gold Ben went forward in order to fight the scorpion.

Zhao Hai didn't pay any attention towards Gold Ben. Instead, he had the Hell King's ship fly towards Elder Star. However, the other Supreme Elders besides Elder Star went forward to stop him.

At this time, Zhao Hai sent Laura and the others to the Space. Then he reduced the ship's size and handed its control over to Cai'er. Meanwhile, Zhao Hai wielded his staff as he went to attack the Leo Supreme Elder. The staff in his hand turned into a sledgehammer before it slammed towards the Leo Supreme Elder.

The Pisces Supreme Elder, Mingdasir, as well as the Cancer Supreme Elder, Jie Yu, came to assist. As the group clashed, a dogfight immediately occurred.

However, since Zhao Hai wasn't able to use his full strength, he was pushed to the defensive side. But he wasn't in any real danger. Meanwhile, Elder Star closed his eyes, his head was sweating. He was trying his hardest to suppress the three Supreme Elders as long as possible.

The three Supreme Elders have forgotten that Elder Star's Star Disk was able to suppress them. The reason why Elder Star didn't use this earlier was because using the Star Disk in this manner wasn't an easy task. It would require immense energy from Elder Star, it would also have some side effects.

The 13 ultimate weapons were a set. If they were used to face an enemy, then they were naturally very powerful. However, if you have them fight each other, then it would cost a lot. It was just like having a person fight his right hand using his left. The one who would be injured would be the man himself.

Solomon and the others observed the fight in the distance. They couldn't help but feel that the battle was too terrifying. Although the fighting was in the sky, hills around the Supreme Elders and Zhao Hai were being destroyed while mountains were swaying violently. At the same time, ripples in the firmament could be clearly seen. Solomon and the others felt that the skies were being twisted.

At this moment, Gold Ben was fighting with the red scorpion, the Hell King's ship was also able to tie four Supreme Elders down, and Zhao Hai was fighting three Supreme Elders. Zhao Hai's opponents were exerting their full force. They knew that as long as they eliminate Zhao Hai, the Hell King's ship would turn useless.

However, Zhao Hai wasn't easily dealt with. Although Jie Yu's group had the upper hand, Zhao Hai was still able to counter-attack. At the very least, self-preservation was possible for Zhao Hai.

At this point, Zhao Hai's body had turned into its crystal form. His magic staff was ever changing. In any moment, it would turn into a weapon, and the next moment it would become two weapons. Even after being besieged by three people, Zhao Hai was still far from defeat.

Jie Yu and the others couldn't help but worry. They knew that it was impossible to hold off the three Supreme Elders for a long time. If they couldn't deal with Zhao Hai soon, then when the three Supreme Elders gets loose, the state of the battle would be flipped over.

Jie Yu and the others didn't know how fierce Zhao Hai was. Now, they finally understood that they had underestimated Zhao Hai. Zhao Hai was just too strong.

Time passed by and Jie Yu's group were getting more and more worried. Elder Star was also sweating more and more. At the same time, the three Supreme Elders were shaking more violently.

It was at this moment that Zhao Hai felt something strange. Although he was at a disadvantage, he wasn't worried, he wasn't even injured. Because of this, Zhao Hai was still able to observe the current state of the battlefield.

Although the Hell King's ship had tied four Supreme Elders, these Supreme Elders weren't really incapable of leaving the battle. As long as three of them stop the ship, the other one could just leave for a moment and deal with the three Supreme Elders. This would eliminate Elder Star's troubles. However, why haven't they done this?

Suddenly, Zhao Hai thought of something that he'd like to try. He immediately contacted Cai'er using his mind. When Cai'er heard Zhao Hai, she immediately complied.

While Jie Yu and the others were heavily engaged with Zhao Hai, a group of undead suddenly appeared near Elder Star. Upon seeing this, Jie Yu and the others weren't afraid, instead they looked at Zhao Hai with ridicule. They thought that Zhao Hai wanted to deal with Elder Star using these undead.

However, what the undead did next startled them. The undead didn't deal with Elder Star, instead, they turned around and threw themselves towards the three Supreme Elders.

Upon seeing this, the complexion on Jie Yu and the others' faces changed. However, they knew that they wouldn't be able to stop the undead. The undead established their Domain and attacked the foreign race Supreme Elders. When Solomon and the others saw this, they couldn't help but be confused. They didn't understand why Zhao Hai would attack their Supreme Elders at this time.

But much to their surprise, when the Undead attacked the foreign race Supreme Elders, a loud bang was heard. The bodies of the foreign race Supreme Elders shook as they opened their eyes slowly. Meanwhile, Elder Star's body shook before he vomited blood. This made Solomon and the others even more shocked, they couldn't understand what just happened.

At this moment, Zhao Hai laughed wildly.

Chapter 959 – Elaborate Sneak Attack

Zhao Hai laughed as he looked at Jie Yu, "I never understood why you didn't attack the foreign race Supreme Elders despite being able to suppress them. If Elder Star can suppress them for a long time, then the three Supreme Elders wouldn't have survived up to this time. As it turns out, attacking them would actually break the suppression. Hahahaha. Three Elders, come help me."

Upon hearing Zhao Hai, the three foreign race Supreme Elders couldn't help but laugh as well. The Beastman Supreme Elder smiled and said, "Mister Zhao Hai is really extraordinary. You were still able to see through this despite being besieged at all sides. Great. You two, let's go." After he said that, he rushed towards Elder Star. Meanwhile the two other Supreme Elders flew towards Gold Ben, evidently planning to deal with him first.

After seeing the situation, Gold Ben couldn't help but fluster. His figure moved as he went towards the group fighting the Hell King's ship. Using their collective strength, they were hoping to destroy the ship, the scorpion, as well as the two Foreign Race Supreme Elders.

At this time, Elder Star also moved and decided to join the battle. Naturally, the Beastman Supreme Elder adjusted his course in order to clash with Elder Star.

When Zhao Hai saw this, his complexion slightly changed. He could understand what the three Supreme Elders wanted to do. It might seem like they weren't doing anything wrong and that they just decided to focus the enemies in one point. However, Zhao Hai knew that there was something hidden underneath.

And this thing was the foreign Elders' plan to use the nine Supreme Elders to cause damage to Zhao Hai. This way, when they win against the Divines, Zhao Hai wouldn't become another threat.

But even if the three Supreme Elders had this plan in mind, Zhao Hai had already been alert from the very beginning. He wouldn't place himself in danger, so instead of having the scorpion join the large battle, he had it regroup with himself. With the scorpion assisting him, the pressure on Zhao Hai became lighter.

When the pressure on him lightened up, Zhao Hai couldn't help but laugh as he strengthened his power. And with the weapons in his hands always changing forms, Jie Yu's group began to be pushed back.

When Elder Star's group saw this situation, their expression couldn't help but change. However, they had no cards left to play.

According to the situation, Elder Star and the others should have been on the defensive. After all, the Hell King's ship could already block four. With the addition of the three Supreme Elders, the number advantage should have been flipped.

However, this wasn't the case. Because of Elder Star's participation, the strength of the Divine Supreme Elders have been strengthened. If not for the Hell King's ship, the three foreign race Supreme Elders should have already been in a dangerous position.

Zhao Hai also noticed this situation, but he didn't say anything. Instead, he strengthened his offensive and placed more pressure on Jie Yu's group.

Jie Yu's group began to be overwhelmed by Zhao Hai. This caused Jie Yu to become more and more angry. They desperately attacked, but their disadvantage couldn't be compensated by just mere effort. They were in a complete disadvantage. Every ten attacks made by Zhao Hai, they could only make two.

When Jie Yu's group began to be completely overwhelmed, Zhao Hai's figure suddenly vanished. In the next moment, Zhao Hai reappeared behind the Pisces Supreme Elder. His staff transformed into a huge sledgehammer before hitting the Elder's back.

Mingdasir was currently fighting against the giant scorpion. Although the scorpion's attack wasn't weak, it wasn't a threat towards him. Moreover, he also knew that Zhao Hai was being entangled by Jie Yu, so he was safe for the moment. Because of this, he relaxed his body for a bit. But who would've thought that Zhao Hai would suddenly appear behind him.

Mingdasir suddenly felt an immense force strike his back. Although his muscles vibrated in order to mitigate the damage, he could still feel the damage done. The hammer cracked his bones. After that, Mingdasir felt his internal organs being assaulted. He never expected that Zhao Hai's attack would reach this magnitude. Mingdasir's internal organs were smashed. Then as he spurted out blood, the scorpion's tail suddenly came and pierced his throat.

After hitting Mingdasir with his hammer, Zhao Hai immediately vanished. Then he reappeared near Jie Yu.

Zhao Hai's move surprised everyone. They didn't expect that while being in the middle of a fight, Zhao Hai still managed to sneak attack Mingdasir.

While everyone was stunned, Zhao Hai had already succeeded. Mingdasir died in the hands of Zhao Hai. It was also at this time that the scorpion returned to Zhao Hai's side.

Jie Yu roared in anger as he went all out against Zhao Hai. Jie Yu was using his own life force to attack. Zhao Hai could only parry, he didn't have the chance to hit back for some time.

At this moment, the scorpion went to attack once again. Meanwhile, Mingdasir's body disappeared into a spatial rift. The scorpion's next target was the Leo Clan's Supreme Elder.

Jie Yu kept desperately attacking Zhao Hai. Anyone would know that this wouldn't be kept for long. However, not everyone noticed that Jie Yu was slowly pushing Zhao Hai towards the Hell King's ship.

As Zhao Hai got closer and closer to the Hell King's ship, Zhao Hai's figure suddenly stopped mid-air. He didn't retreat and instead turned his magic staff into a rapier as he sent a strike towards Jie Yu's throat. But at the same time, Jie Yu also sent a punch towards Zhao Hai's chest.

This exchange looked life-threatening. If Zhao Hai continued his rapier's attack, then he would be hit in his chest. In this case, Zhao Hai should be taking his rapier back. However, he didn't do it.

Zhao Hai's rapier proceeded to strike, not caring even a bit about Jie Yu's punch. Jie Yu's eyes couldn't help but show panic. His current actions were actually a gamble. He bet that with Zhao Hai at the winning side, then he wouldn't go all out. Because of this, he pretended to be desperate. However, it seems like he bet wrongly.

The reason why Jie Yu was acting desperately was because he wanted Zhao Hai to be pushed towards Elder Star's group. This way, everyone could group up to kill Zhao Hai.

The timing of Zhao Hai's attack was very good. It was too late for Jie Yu to withdraw right now. Jie Yu could only watch as his throat was pierced by Zhao Hai.

When he saw this, Jie Yu couldn't help but go truly all out. Although he couldn't change the course of his fist, he still did his best to dodge Zhao Hai's rapier. However, Jie Yu forgot that Zhao Hai's weapons can transform. Just as Jie Yu dodged the rapier, the rapier suddenly turned into a shovel, transforming the strike into a slash.

Although Jie Yu can manage to dodge the strike, he couldn't evade the slash. Jie Yu's head met the shovel and was cut down. And since everything happened too fast, Jie Yu's fist still managed to hit Zhao Hai's shoulder. However, the force was just too small.

But even if the punch was weak, Zhao Hai was still pushed towards Elder Star and the others. Elder Star and the others already noted Jie Yu's situation. After seeing Jie Yu push Zhao Hai towards them, they immediately knew what Jie Yu was planning. Because of this, Elder Star and the others were already prepared to deal with Zhao Hai.

However, who would've thought that Zhao Hai had already calculated Jie Yu's plan. Although he noticed Jie Yu pushing him towards Elder Star, he still pretended to be unaware. In fact, he was just waiting for an opportunity.

Zhao Hai's shovel hit Jie Yu in the head, and at the same time, Zhao Hai was also pushed towards Elder Star's group. Upon seeing this, the eyes of the Divines turned red. Then Gold Ben and two other Supreme Elders immediately moved and attacked the back of Zhao Hai.

But at this moment, Zhao Hai's figure suddenly vanished. This time, Zhao Hai reappeared behind the Leo Supreme Elder who was currently fighting against the scorpion. Zhao Hai turned his staff into a rapier once more and attacked the Leo Supreme Elder's head. With his previous momentum still preserved and the fact that Zhao Hai appeared close by, the rapier didn't take too long before it punctured through the Leo Supreme Elder's brain.

At the same time, the scorpion used this opportunity to sever the Leo Supreme Elder's head using its pincers. Then Zhao Hai's figure drew back along with the scorpion. After that, Zhao Hai waved his hand as the Leo Supreme Elder's body and combat suit vanished in mid-air.

Zhao Hai also did the same to Jie Yu's corpse. Meanwhile, the scorpion went forward in order to join the battle on Elder Star's side. Elder Star and the others stared. They didn't expect Zhao Hai to kill three of them in a short time. This caused their eyes to turn even more red.

However, Zhao Hai didn't give them an opportunity to stare. His figure moved as he joined the large fight. This caused Elder Star's side to be completely pushed back. There simply wasn't an opportunity for them to flip the situation over.

A sense of despair flashed through Elder Star's eyes. Then he stopped in mid-air before turning his head to Zhao Hai and spoke, "Mister Zhao Hai. Please stop, I have some words to say."

Zhao Hai stopped along with the Hell King's ship and the scorpion. Upon seeing the situation, the three foreign race Supreme Elders stopped as well along with the rest of the Divine Supreme Elders. All of them were looking at Elder Star, waiting for his words to be spoken.

Chapter 960 – The Biggest Benefit Is Yours

Elder Star looked at Zhao Hai as he smiled bitterly and said, "Zhao Hai, I have to recognize that the biggest mistake the Divines has made was to become your enemy. You are indeed very strong."

Zhao Hai stood on the Hell King's ship, he smiled towards Elder Star and replied, "I'll have to thank the Elder for the recognition. However, I still won't let you off."

Elder Star forced a smile and said, "I'm not counting on you letting us go. However, I hope that you can agree to a request. As long as you comply, all of us will kill ourselves in front of you. None of us will rebel."

Zhao Hai looked into Elder Star and said, "Then please tell me your request."

Elder Star replied, "In this situation, we already don't plan on going out alive. However, if you don't agree, we will go all out. I believe that 1 or two of us would be able to escape. Those who would escape wouldn't seek revenge against you, instead, they will kill everyone in the Divine Realm, no matter civilian or experts. When that time comes, it would be a headache for you."

Zhao Hai nodded and said, "It truly will. Tell me your request."

Elder Star took a deep breath and said, "I hope that you can assure us that the Divines would survive. Leave a few Divines alive, don't kill them all."

Zhao Hai stared for a moment. He didn't expect this to be Elder Star's request. He thought about it and said, "Alright, I agree. Although this Zhao Hai is ruthless towards his enemies, I can still keep my words. To be honest, there's no point in lying to a few dead people."

Elder Star nodded and said, "Alright, I believe you. I hope you can keep your promise." After that, Elder Star vomited blood before any signs of life vanished from his eyes.

When the other Divine Supreme Elders saw Elder Star's action, they didn't hesitate and did the same. Every one of them vomited blood before falling down from the sky.

Zhao Hai waved his hand and took the corpses of the Supreme Elders to the Hell King's ship's deck. Zhao Hai looked at them and said, "No matter what, you are heroes of your race."

After that, Zhao Hai made the Hell King's ship fly towards where Solomon and the others were. At this time, the foreign races' Supreme Elders were already beside their race's Patriarchs.

Zhao Hai glanced at the group before turning his head to Solomon, "Patriarch Solomon, as you have seen, I will be taking the ultimate weapons with me. Three days later, I will give them all to you. When the time comes, I hope that you can give me the ultimate weapons of your races."

Solomon knew that the elimination of the Divine Race's Supreme Elders was all because of Zhao Hai, so he nodded and said, "Alright, we will certainly comply."

Zhao Hai nodded, then the Hell King's ship vanished in mid-air. A while after Zhao Hai vanished, the three foreign race Supreme Elders turned to Solomon and asked, "Solomon, what is this all about? Why would you hand the ultimate weapons of the three races over?"

Solomon proceeded to explain the pre-arranged condition. Naturally, he emphasized the fact that Zhao Hai would give them all 13 ultimate weapons in the end.

The three Supreme Elders gawked, but they didn't oppose to Solomon's acceptance of Zhao Hai's condition. Accepting Zhao Hai's request would give them 13 ultimate weapons. On the other hand, if they don't accept, then they would develop a hatred towards Zhao Hai. If Zhao Hai decides to deal with them, then they would certainly find it hard to resist.

At this time, Zhao Hai sent the combat suits to the Space. Along with the prompts, Zhao Hai also acquired eight more combat suit seeds.

Then suddenly, the Star Disk made Zhao Hai stunned. This was because the Star Disk's prompt was different compared to the combat suits.

The prompt for the Star Disk went like this, "Special group plate detected. This formation disk can be used alongside the Seven Star Heaven Lock Disk. Formation is incomplete. Upon completing the formation, the Host would find a pleasant surprise. Hoping for the host to complete the formation as soon as possible."

Unexpectedly, the Star Disk didn't produce a seed. Zhao Hai was stuck with what to do. When the time comes, if he couldn't hand the Star Disk over, wouldn't Solomon and the others become angry?

However, Zhao Hai changed his thoughts about this matter. Even if he didn't hand the Star Disk to Solomon and the others, what can they do about it? Can they beat Zhao Hai with their current strength? At the thought of this, Zhao Hai relaxed. However, he didn't immediately combine the Star Disk with the Seven Star Heaven Lock.

At the same time, Zhao Hai also commanded Cai'er to plant the eight combat suit seeds. These seeds would take less than three days to mature. However, Zhao Hai still allocated three days in the agreement in order to provide himself with some allowance.

On the other hand, the original combat suits had integrated themselves into the Blood Ghost Staff. Now, the staff has eight additional constellations. At the same time, eight huge beasts were added to Zhao Hai's staff. These beasts were quite special. All of them had the appearance of a scorpion but with little differences here and there. Their abilities weren't the same as well. What made Zhao Hai puzzled was the fact that all of them turned into scorpions. Shouldn't they transform into the form of their constellations?

After asking the Space, Zhao Hai understood that the 12 beasts could change form at will. But since the most powerful form for them at this time was a scorpion, all of them adapted to this image. If Zhao Hai wanted, they could transform into any constellation he wants to.

Zhao Hai immediately had them change their form. Before long, they all became their own figures. Zhao Hai asked the Space about why the scorpion had the most powerful form. The response made Zhao Hai unsure whether he should laugh or cry.

It went like this, when Zhao Hai took in the Capricorn combat suit, the Space could've turned it's form into a goat. But since a goat was a herbivorous creature and wasn't suitable for slaughter, the Space went according the laws of the 12 combat suits and turned the Capricorn combat suit into a scorpion. This was because scorpions not only have two pincers, they also have an attacking tail. At the same time, they could also use their mouths and even their feet to attack the enemy. Lastly, of all the animals, the scorpion's carapace provided it with a good defense. Because of this, the Space went for the battle-ready scorpion form.

Naturally, scorpions weren't this flexible. It would be impossible for their tails to be like whips. However, the Space still deemed its form appropriate. So the Space turned all of the combat suits into scorpions. Zhao Hai hadn't thought about this before, so he only reacted upon seeing them now.

However, this was still good news for Zhao Hai. With all these combat suits, Zhao Hai would have more means to attack. And with the combat suits' diverse forms, they would have more methods of attack. With all of these in hand, of course Zhao Hai would be glad.

Three days passed by in a blink of an eye. Three days later, Zhao Hai appeared in the skies of the Libra Continent. Solomon and the others were already waiting there for him. Zhao Hai waved his hand as nine

ultimate weapons appeared in front of Solomon and the others. Naturally, these combat suits were made from the seeds in the Space. The original combat suits had integrated themselves to Zhao Hai's staff.

However, this didn't mean that the seed combat suits were much worse compared to the original. These suits might not be stronger than the original, but they were now free from the Star Disk's control. Also, the problems of energy consumption and other shortcomings of the original combat suits had been fixed.

Of course, only the original combat suits could combine with the Blood Ghost Staff and transform into different forms at will. However, the foreign races didn't need to know about this.

Zhao Hai handed the nine combat suits to Solomon before he said, "Patriarch Solomon, I'm afraid I would have to be unfair to you."

The complexion on the faces of Solomon and the others changed. Every one of them began to feel anxious, they think that Zhao Hai wanted to snatch the combat suits of their Supreme Elders. Upon seeing their expression, Zhao Hai couldn't help but smile faintly and said, "Patriarch Solomon, there's no need to be anxious. I'm not here to steal the ultimate weapons. But I do have something to tell you. I finished researching these ultimate weapons. However, a mishap occurred when I began to study the Star Disk. I didn't expect the Star Disk to combine with my Hell King's ship. You should know that I snatched my ship from the Divine Race's Deity. My understanding of the ship is extremely limited. I didn't think that the Star Disk would fuse with the ship. So now, I cannot take the Star Disk out. I hope that the Patriarchs could forgive me."

After hearing this, Solomon and the others relaxed. To be honest, even if Zhao Hai didn't give them the Star Disk and a couple of ultimate weapons, they could still accept it. After all, they were profiting big in this exchange.

Solomon looked at the others and saw their expressions loosen. Solomon became relieved as he turned his head to Zhao Hai and said, "Mister, there's no need to apologize. Since this is the case, then Mister can have the Star Disks. Elders, please give Mister your ultimate weapons."

The three Supreme Elders didn't say anything as they took their combat suits off and handed them over to Zhao Hai. At the same time, Zhao Hai also gave the nine combat suits to the Supreme Elders. Zhao Hai didn't take the three combat suits immediately, instead he looked at the three elders and said, "Elders, I made some modifications on the nine combat suits. I hope that you can try them on and tell me what

you think. If you like it, then I will be taking these three ultimate weapons. If you don't then I will just leave them behind."

When the three Elders heard Zhao Hai, their expressions changed. But after a moment, they chose a combat suit and proceeded to wear it.

They had used combat suits for a long time. Although they had traded their combat suits, they didn't feel anything strange. Combat suits don't recognize masters. Because of this, the elders just equipped the ultimate weapons.

Upon wearing the combat suits, the Elders immediately felt the differences. In the past, whenever they wear their ultimate weapons, even if it increases their strength, they could still feel a constricting feeling. This made it impossible for them to use the combat suits for a long period of time.

But now, these combat suits didn't have this feeling. Instead, they were very comfortable. Moreover, the power that they can exert right now was not much less compared to before.

The three elders felt that this might be an illusion. So they tried other combat suits and even compared notes. In the end, the result was the same, this made the Elders feel relieved.

Also, as the three looked at the combat suits, they discovered that they were shiny as though they were new. There wasn't even a small dent seen, it was surprising.

One must know that ultimate weapons were around for who knows how many years. The ultimate weapons would surely be damaged along the way. However, these combat suits were flawless, it seems like Zhao Hai fixed them.

The three elders looked at each other and saw the surprise on each other's eyes. Then the three bowed slightly to Zhao Hai and said, "Mister, there's no need to worry about it. They're very comfortable to wear and it seems like Mister even repaired them. We need to thank Mister for this."

Solomon and the others were looking anxiously at the three Elders. After hearing the elders, they couldn't help but feel relieved. Then they looked at Zhao Hai differently while also feeling some guilt.

Zhao Hai smiled and replied, "It's good that the Elders liked them. To be honest, my research on these combat suits didn't take too much time. However, it took a lot of effort to repair them. Fortunately, nothing went wrong in the repair. This shall be my gift to the foreign races. Everyone, I'll be taking these three suits. After three days, I will come back here and return them to you. You can rest assured."

After he said that, Zhao Hai brought his Hell King's ship and vanished from the Libra Continent. When Zhao Hai reappeared on the Taurus Continent, Laura and the others came out. Plastered on their faces were huge smiles.

Upon looking at their expressions, Zhao Hai couldn't help but get puzzled as he asked, "What happened? Why are you all smiling?"

Laura smiled and said, "Brother Hai, your methods are too great. Although biggest benefit is yours, it was still them who had to give thanks. You haven't noticed, but even Solomon and the others were looking gratefully towards you."

Zhao Hai smiled faintly and said, "Actually, this isn't considered as me taking advantage of them. Although they can use the original ultimate weapons, it would still be a waste. Those ultimate weapons are much more useful in my possession. In their hands, the ultimate weapons would just be like sledgehammers being wielded by three-year olds. At that age, the most they could use are wooden swords. The combat suits produced by the Space is more suited for them. Not only was the burden removed, their effective strength was also further improved."

Laura smiled and said, "In any case, you gained advantages this time. Brother Hai, didn't the Space say that a reward would be given when the collection is complete? Quick, let's see what that reward is."

Zhao Hai smiled and said, "Alright, I'm quite curious as well. This isn't the first time that the Space produced mysterious things. But every time we gained a lot. This time, I wonder what benefits we could get." Then after saying that, Zhao Hai sent the combat suits to the Space.
