

Apocalypse 111

Chapter 111: Help me do something

In his last life, in the apocalypse that Ye Zhongming was familiar with, there were many reasons why humans were able to live in a world filled with more and more higher level zombies, monsters with great reproductive abilities, mutated things with high intellect, plants and animals which evolved into extremely strong beings.

But one thing couldn't be denied, among all those reasons, one of the biggest was the invention of crystal weapons.

Weapons were obviously important. Especially in human history, weapons evolved along with time and got much stronger than humans themselves.

It was the same in the apocalypse too. Zombies and mutated beings while evolving, some parts of their bodies would change. Some were not obvious like skin and bones while some were more obvious like tails, iron arms, sharp claws etc weird shapes.

Those monsters with special features would undoubtedly have a bigger advantage.

Maybe some strong humans could face off with them with skills or jobs but these humans were the minority. Most humans were just newly evolved so they were powerless when facing these nonhuman lifeforms.

So how would humans deal with these monsters? Guns? Not to mention that the weapons designed during peacetime to be used against other humans were getting weaker against the stronger monsters, the destroyed production line of weapons was also not enough to keep up with their usage.

Weapons from the gachapon? Too little.

Weapons crafted by Smiths? Too little.

Weapons from the dungeons? Too little.

Although the weapons obtained during this channel were huge, but there were too few of them. As compared to the number of survivors, the contrast was huge.

This was why at the start of the apocalypse, human evolution speed couldn't catch up to the mutated life forms. Along with weapons that weren't getting stronger, it wasn't hard to see why there wasn't an absolute disadvantage.

Only until crystal weapons appeared.

Ye Zhongming remembered clearly the day he came back from a mission and he got a piece of shocking news. A large base worked with a squad to clear out a famous dungeon and it was a complete victory. A week after the victory, the two forces worked together to reclaim a primary city!

Humans had never obtained such gains before, they had not wiped out so many zombies and monsters in one go yet. Even nuclear attacks couldn't compare to this.

Ye Zhongming found out that it was due to a new weapon. These weapons were different from traditional guns. They didn't need gunpowder but demon crystals. More accurately, through

technological methods, to obtain the energy from the demon crystal and then release it through complicated methods to kill someone.

Crystal Guns, Crystal Bombs, Crystal Mines, Crystal Cannons etc weapons were all formed.

Although they couldn't solve the problem of equipping crystals with cold weapons, but the birth of crystal weapons helped to solve the strength problem of human weapons. Normal evolved could use crystal weapons to fight against strong mutated life forms.

This was one of the most crucial moments of the apocalypse. Along with that memorable day, a name was remembered by everyone.

Le Dayuan.

The inventor of the crystal weapons, Father of the crystal weapons!

Ye Zhongming was fortunate to meet Le Dayuan once during a group mission. He saw a type 30 crystal cannon that they had spent huge amounts to bring over being manned by Le Dayuan.

Although he didn't have the right to speak to him, but his looks were deeply imprinted in his mind.

Thus today, when he grabbed the tired-looking middle-aged man to run, he recognised that this person was the one that invented the crystal weapons. The strong person is known as the most valuable human of the apocalypse.

Ye Zhongming's mood was similar to when he got the ghost metal. He was filled with excitement and anticipation as he knew what he had hold of.

In his last life, the faction that Le Dayuan was under became one of the richest and strongest factions and they occupied a full city and built high and firm walls. With this to rely on, they built a city defence system that couldn't be sieged. On every wall were two 'Black Hole' crystal cannons that could threaten nine star evolved and level nine mutated life forms.

Until Ye Zhongming revived, that place had the most humans and had the top three overall strength!

All of this was because of Le Dayuan.

Now that he had this guy then would he be like that faction and have similar achievements?

He felt more and more excited when he thought about it.

"Why, why did you save me?" Le Dayuan's IQ wasn't like a normal person and maybe his personality had flaws but when he saw that these people saved his life and used such a miraculous healing method to heal him, he naturally knew that there was a reason.

"I, I am not of much use, I can't kill zombies, I can't find food, I..." Thinking about what he faced during those few days, Le Dayuan's eyes were red and he couldn't continue.

Ye Zhongming's eyelids jumped when he heard it.

You can't kill zombies? You might not have killed many directly but those you killed indirectly were uncountable. He was a zombie demon king!

"I recognise you."

Ah? Le Dayuan raised his head and looked at Ye Zhongming with his high degree spectacles.

"I am in my 4th year of university and am about to graduate. I saw promotion materials about the factory and it introduced you. I have always respected engineers and designers so I remembered it. It was a coincidence that we bumped into you so naturally I would save you."

.

What material? It was just something that Ye Zhongming saw on the door of the factory when Ye Zhongming came to find Le Dayuan.

He smiled. In the past, his identity would make people respect him but now he was just a burden.

"All of you head out." Ye Zhongming told the others to head out. He took out a crystal and placed it in front of Le Dayuan.

"Do you know this?"

"Yes." Le Dayuan nodded. Everyone knew what this was. Most people have found out about the gachapon and knew that this thing could spin it to give rewards.

"I have an idea." Ye Zhongming was calm and solemn, "If we can draw the energy in this out and deal with it, humans can use it. Engineer Le, do you think this works?"

Naturally, you need to use technology to draw out the interest of such people who were interested in research and development.

As expected, the moment he heard it his eyes lit up. After gaining his agreement, Le Dayuan took up the demon crystal and rubbed it in his hands. He smelled it and was considering the possibilities that Ye Zhongming had mentioned.

Ye Zhongming struck the metal when it was hot and said out a series of theories that he knew about the crystal weapons. He even revealed some parts of the system.

Le Dayuan was an expert and he was so excited that he even forgot about the miraculous healing of his wound. He was extremely excited and mumbled a bunch of technical phrases that Ye Zhongming couldn't understand.

"Eat something first." Ye Zhongming handed over a box of luncheon meat and a bag of bread, "I heard that people in research like to drink red wine? I found a bottle of this, you can drink it."

Naturally, he heard the news that Le Dayuan liked red wine. The thirsty Le Dayuan was obviously really grateful about it.

As for this bottle of wine, Ye Zhongming went to a supermarket to get it.

Ye Zhongming looked at Le Dayuan who was eating the food and said, "If you don't mind then you can just follow us. At least you don't have to worry about being hungry and you can also research the crystals. I will try my best to provide you with the conditions. What do you think?"

Le Dayuan didn't raise his head and he continued to eat. Just that his movement got slower and slower. He understood what Ye Zhongming meant, he was recruiting him.

"Help me do something, after that my life will be yours!"

.....

Guan Changchun was enjoying and felt some pain. Rage rose up in his heart and he kicked the girl kneeling in front of him.

"Damn, you can't even do this then what is the point of you?"

The young girl held her chest and didn't dare to say a word. She didn't even dare to stand up.

The mechanic took a greedy glance at the girl before walking to Guan Changchun, "Boss eat a can of fruits, have some vitamins."

Guan Changchun acknowledged his subordinate and took over the can. While eating he thought about the group he met today. He could tell that they were all strong but why did they save a piece of trash?

No one would be willing to raise a burden now.

Changchun suddenly recalled that his subordinate had that person's wife so he wanted to ask her about it. Before he opened his mouth, he heard a large explosion and the door was knocked open.

The building that housed their families was in chaos and many people ran out to take a look.

"Don't panic!" Guan Changchun walked out with his iron pipe. He gathered many men and shouted, "Head back and wait! We are still here, no need to be afraid!"

Those people kept quiet and he brought his men down.

When he saw these people, his expression changed.

"You!"

Chapter 112: Terrifying goal

"What do you want to do?"

Guan Changchun tried to keep himself calm and not look at the zombie bodies outside the door that were bloody and had their crystals dug out.

Ye Zhongming signaled for Little Tiger and Liang Chuyin to search the building. This was a habit. Finding the danger and solving it to prevent accidents from happening.

He glanced toward where Le Dayuan was looking and saw a shifty muscular guy in the crowd. When he got close to them, someone wanted to stop him but he kicked him aside. The guy fell to the ground holding his ribs and he sucked in a deep breath. Probably a few bones of his were already broken.

Ye Zhongming's action caused many of them to quieten down. Even Guan Changchun bit his teeth and was hesitating about whether or not to stop this guy.

"You, what are you doing?"

The mechanic saw Ye Zhongming walk towards him and he started to stammer. No choice, he was stronger than him and this group looked strong. There were a few of them holding guns and blades.

Ye Zhongming was lazy to speak, he just pulled his collar and dragged him in front of Le Dayuan.

“Ah!”

The mechanic wanted to say something but suddenly a sharp pain spread from his leg which forced him to kneel down. If not for someone holding his collar, he would have been rolling around.

His right leg was broken by Ye Zhongming.

He reached out his hands and pressed his shoulders. The strength of an evolved was enough to break the bones of normal people. This made the mechanic shout in pain. But in the next second, a gun was pressed on his cheek to force him to swallow his screams back.

He rolled on the ground and wanted to hold his leg but he also wanted to touch his mouth but his hands couldn't move. Red liquid flowed from his mouth which was mixed with several teeth. The intense pain caused him to faint in just two seconds.

Such a situation caused the others around to retreat. But just a few steps and they saw a bald dog staring at them aggressively from the stairs. Occasionally it would bare its fangs at them.

“Mutated dog!” Someone recognised Yellow Ball. The number of mutated cats and dogs wasn't as many as ants and rats but there was still a large number of them.

“I will leave him to you.” Ye Zhongming pointed at him and said to Le Dayuan, “Blade or gun?”

Le Dayuan shook his head and walked to the door that was knocked open. He picked up a brick that dropped and walked beside the fainted worker, “Can you wake him up for me?”

Ye Zhongming kicked the left leg which was still okay.

“Pa! Pa! Pa!”

In this building that was specially built for the families of the workers, the once kind and weak Le Dayuan used a brick to smash his head.

Park Xiuying turned around and she couldn't bear to look at these scenes. Although she didn't know what problems Le Dayuan had with this person, but she could see his hatred in his eyes. It was extreme hatred.

Mo Ye frowned when she saw it. It wasn't that she couldn't handle such a scene but she was curious why Ye Zhongming would take such good care of this person.

Although she hadn't followed Ye Zhongming for a long time, but she knew that although he wasn't someone with good traditional values, but as long as you didn't affect his interests, he wouldn't kill people. He also wouldn't kill normal people.

But for this guy called Le Dayuan, Mo Ye could tell that Ye Zhongming was treating him differently. She didn't understand why he was so special. He would even find trouble with normal people for this guy.

Xia Lei couldn't take it and went to pull Le Dayuan back, "This is enough, his head already fell to the ground and he is dead."

Le Dayuan was pulled back and he raised his head. He looked at Xia Lei with a pair of bloodshot eyes like a beast that ate humans, "Let go!"

Although Xia Lei wasn't evolved but she was an outstanding cop. Obviously, Le Dayuan couldn't handle her and was unable to break free.

"You..." Xia Lei wanted to stop him but she felt her wrists go numb. Ye Zhongming walked to her side with a sunken face and knocked her arm aside.

"Nothing to do with you, just stand aside."

If Mo Ye and the others stopped him, Ye Zhongming would have given them face as if they were partners. He would use a gentler method to explain to them why Le Dayuan was going mad.

But Xia Lei wasn't on his side. The moment he sent her to her husband then their relationship was over. This was why Ye Zhongming not beating her up was already him being polite.

"But you..."

Ye Zhongming turned around before she could say anything and he was not planning to even bother about her. He just brought Le Dayuan up the building.

Liang Chuyin walked over and said, "Found it, in the building."

Le Dayuan heard it and his bloodstained face was filled with shock. He rubbed his hands on his pants.

Ye Zhongming could understand his complicated emotions. He passed a dagger into his hands and said, "Go in, there are some things you have to decide yourself."

Le Dayuan nodded. He stood at the door for a dozen seconds before opening it and walking in.

He rested on the wall and waited. Little Tiger squatted beside him and smoked.

"Boss, what is the background of this big brother? He has problems with these people?"

Ye Zhongming sighed, "The world is in a mess, people who kill your parents and rape your wife will be your enemies."

This sentence stunned Mo Ye and Park Xiuying. They realised something, even Xia Lei was stunned.

Le Dayuan roared, what he said proved what they guessed. Everyone kept silent and sensed the sadness and emotions of the guy in the room.

Sounds spread from within. Some were screams and some were cries.

20 minutes later, the door opened and Le Dayuan stumbled out. He was holding Ye Zhongming's dagger but there was no blood on it.

“I can’t.” Rather than it being a conversation, he was just talking to himself, “Let her die herself.”

Ye Zhongming nodded. He took out some food and water and walked to the stunned girl in the room.

“Thank you.” Le Dayuan watched and thanked him with his hoarse voice. After taking one deep look at the person who was once his wife, he turned around to leave. He didn’t turn back after.

The apocalypse changed many things, a large portion of that made one heartpained.

.....

Le Dayuan felt much better when he left. He had let go of some things and he was also looking forward to some things.

“Engineer Le!”

Someone called out to him and when everyone turned their heads, they saw that they were his colleagues.

“Engineer Le can we, can we follow you?”

They were all research members and were abandoned in the corridor to die. Now that they saw their friend back with a few strong evolved, they were tempted.

He hesitated. To be honest, he hoped to bring them. Not only did they have a good relationship, but he needed some help when researching. He hoped to have a few people that he was familiar with in a foreign team.

But he was not the leader and did not have the rights. He could only look towards Ye Zhongming for help. Those people also focused on Ye Zhongming after seeing that.

This young man’s choice directly affected their life.

Ye Zhongming frowned and his eyes shone. He wasn’t willing to bring along a few normal people that were burdensome but he had to take care of Le Dayuan’s emotions. Secondly, maybe some of them were of great help to him in the last life so that made him hesitate.

“I can only bring five, you choose. Choose those with best skills and knowledge that can help you.” Ye Zhongming looked at Le Dayuan, “There are many things we have to do, five is the limit, I hope you can understand.”

Le Dayuan told Ye Zhongming that if he helped him take revenge then he would be his men. Now that his boss said that, he was someone that knew his place so he agreed, choosing five from this 20 men group.

Ye Zhongming nodded. This Le Dayuan was someone with high iq and eq, the people he chose were all alone and it was obvious that he didn’t want to cause more problems for Ye Zhongming.

The others begged but Le Dayuan bit his teeth and apologised before joining his group.

.....

On the second morning, Ye Zhongming's team finally neared the new region. But they didn't head right to Xia Lei's husband, they went to the suburbs.

"This is our goal, the final one. Clear this place and then we will find Xia Lei's husband." Ye Zhongming dotted a map.

Le Dayuan joined the meeting for the first time as a member of the team.

"Farm?"

Mo Ye took a look at the map and didn't understand why.

"Right, a green wild boar farm."

"Boss you want to eat pork? Right those cans and dried biscuits are so plain."

"You only know how to eat." Mo Ye scolded her little disciple but he just laughed and didn't take it to heart.

"We are going there for the demon crystals." Ye Zhongming said out his goal, "Level two ones."

Everyone's expression turned solemn but they didn't think much about it. After all, this wasn't the first time he killed level two mutated life forms. Now if they worked with other team members, they could also kill level two mutated lifeforms.

But Ye Zhongming's words shocked everyone and turned their faces white.

"Not one, but a group, at least 50 of them."

Chapter 113: Boar King

As compared to the city where there were abandoned cars and destroyed buildings, the suburbs looked much better.

But the wandering zombies, mutated monsters and the few corpses that got eaten up was a clear sign to those alive that this was the apocalypse.

Ye Zhongming placed down the binoculars and realised that his palm was a little wet.

He was someone with dry hands so such a situation was rare.

Ye Zhongming knew that he was nervous.

Probably anyone who faced a nine star expert in the last life would be nervous too.

Ye Zhongming set his final target here, a green boar farm. At the same time, this was where many true experts were born in his last life.

Boar King Gu Pan!

Speaking of Gu Pan, people in his last life will only describe him with the word, legendary.

His stories were as legendary as those web novels. They were really interesting. If one wrote a novel based on his story, his evolution process was like he was blessed by the heavens.

To say something, this fellow was hacking.

The reason why this Gu Pan was so strong and overpowered was because he had a bunch of loyal mutated boars.

Right, a bunch. Not one, not two, not ten but a whole bunch.

It wasn't rare for humans to have pets. For example people like Ye Zhongming who had a close relationship with animals during peacetime so the pets were really loyal to them. During the apocalypse after these pets mutated it didn't affect their relationship and they thus evolved into battle pets.

There were many such examples. It even made Ye Zhongming suspect whether or not the mutated cat by the Talking Lady's side was her pet. If not it didn't explain how she had three skills at level two.

But be it Ye Zhongming or Talking Lady, they both had pets that made people jealous of them. However, that was just one. This Gu Pan had many and their evolution levels were really high.

When Ye Zhongming heard about Gu Pan, this Boar King had 30 evolved wild boars at a similar level as him. At that time, Ye Zhongming was just three star while this Boar King had reached six star and he had a bunch of level six mutated boars. That Gu Pan might not be invincible among humans but he was definitely top ten.

When Ye Zhongming reached five star, this Boar King was already a nine star expert. He was one of the first humans who reached that level. Moreover, he had five boars left, each was level eight. In terms of strength, no human dared to say that they were stronger than him. After all, he had level eight helpers that were loyal to him.

Even Mu Xinfei who Ye Zhongming had met said this about Gu Pan-- People with pets are rare, but for you to have so many pets, that was more than enough.

At that time, many survivors envied Gu Pan.

But that probably proved a phrase that was that geniuses and crazy people were separated by one line. This Gu Pan was such a person. He was strong but he was stubborn and didn't want to join any faction. He too didn't create his own faction. He just brought his boars around to kill high level zombies and monsters. He went into fallen cities and dungeons for his adventures.

But in the dangerous apocalypse, unless you were so strong such that nothing could threaten you, if not one person's use was very limited.

Gu Pan was like that. No matter how strong he was, no matter how strong his boars were, he was alone. Those mutated boars allow him to challenge things above his level, allowing him to gain crystals to evolve quickly but when he reached his peak, his five level eight boars were really attractive to people.

Finally, two nine star experts and their factions joined hands to sneak attack him. After holding him back, the two nine star experts killed the five level eight boars and then dealt with Gu Pan. After killing him, they fed his corpse to the pets and formed the first level nine pet in human history.

Gu Pan's glorious life ended in tragedy.

At that time, Ye Zhongming had just become a six star evolved.

People started to understand things about him when he died. Especially after someone started a book called The Strongest Humans which recorded human history during the apocalypse. Ye Zhongming read it and knew that Gu Pan and he came from the same city. He knew that Gu Pan opened a farm and was a pig feeder.

So Ye Zhongming targeted this boar king and locked onto his boars that had evolved to level two. He needed to evolve and he needed a large amount of level two crystals. This was the only place that he felt could give him the amount he needed.

Maybe he had to kill a future nine star expert this time but he didn't mind. Wang Ding was a nine star expert that was known as Heaven Blade but he still sliced off an arm of his. If not for his mental energy running out, one future nine star expert would have died at his hands.

Since that was the case, why not kill another?

Moreover, Gu Pan's life sounded sad but how did his boars evolve so quickly? How were they able to maintain the same rate of evolution as their master when they were level six or seven?

That was because of blood, most of them were human blood!

No one was innocent in the apocalypse.

Everyone deserved to die!

Looking at the hundreds of corpses in the pig farm that were left with bones, who would believe you if you said that they were all zombies? How many workers could a farm have?

"74." Mo Ye wiped off the sweat on her forehead and felt her mouth was a little dry, "Among them, there are 46 level two ones and 28 level one."

"Damn!" Little Tiger's face was actually filled with excitement, causing Mo Ye to roll her eyes at him.

"Zhongming, should we reconsider?" Teacher Park was shocked. The dense group of mutated boars was just too terrifying. They hadn't even seen so many level one mutated lifeforms together, not to mention level two ones.

Ye Zhongming breathed out slowly, "High risk high reward, since that is the case why not we go all out!"

He looked around, "This will be dangerous. Xia Lei and Engineer Le you stay here, the rest follow me. Any objections?"

Chapter 114: Wild Boars in trouble

Gu Pan giggled and poured a 50 year Maotai into a translucent alcohol cup. He often did this since the start of the apocalypse.

It wasn't that he had gone mad but because he was happy, he was really happy.

He graduated from a university, a famous one! He should have found a good job in the city and reached his first peak when he was 30 and then marry a beautiful wife and have a fat kid. He would have his own career and his own family.

Even he felt that this was his path.

Unfortunately, he was introverted and was a very simple person. When he entered the workforce, he was unlucky to meet bad colleagues. He was ostracised, blamed, and framed. Not only did he fail to advance his career, but he also ended up owing people loads of money.

To help Gu Pan pay his debts so that he didn't end up in jail, his parents sold their home, dragging their sick bodies out to earn money for him. Although they paid up his debts, but they suffered from a tough life and subsequently died from an illness.

Since then, he changed. He became unwilling to communicate with others and locked himself in. He hated the world and lived like that for several years. Until a classmate who was close to him during university learned about his situation and lent him some money for him to start a business.

He chose to open a farm and was breeding the more popular green wild boar.

He had hope and gratitude as he started this new job. At first, things were smooth and he realised that he had a rare talent.

The boars he raised were all really strong and fat. He had the best quality boars in the area out of all the farms.

But when he was dreaming about getting rich, the buyer that signed a contract with him went against his word and didn't want to purchase the boars.

The classmate that loaned him the money had invested in a factory to buy pigs as well as the future raising for these pigs. After this batch of pigs were sold, he could earn some capital. But the buyer didn't want to buy which broke that money chain.

Gu Pan tried to find the buyer but he ignored him. He wanted to sue but the courts would take a long time to decide which he didn't have enough.

Seeing that he didn't have enough money to buy feed for the pigs, right when he was crying in front of the pen, the apocalypse arrived.

Gu Pan was shocked to realise that his pigs started to mutate. Some became bloodthirsty and violent. They charged out to attack the workers that fed them and would even eat walking zombies. Very quickly, the first batch of mutant boars evolved and became level two mutated life forms. The strongest one could knock down brick walls and could bite off the head of strong men with one mouth.

Moreover, no matter how bloodthirsty they were, they wouldn't attack Gu Pan. After running out in the day to find their food, they would return to the farm at night and sleep beside Gu Pan. They were extremely friendly towards him.

Gu Pan was touched and he realised that he had a huge opportunity in front of him.

He started to find humans and zombies to mix in the feed to feed those boars that hadn't mutated.

Some died but some survived and successfully mutated.

In just a few days, all his boars turned into mutated life forms.

Gu Pan couldn't forget the scenes when he brought a bunch of them to walk out of the farm. Be it zombies or mutated beings, all of them turned into corpses and feed when attacked by this close to 100 strong boar hoard.

His pets attacked, ate and evolved!

Very quickly he had dozens of level two mutated boars. Since then, Gu Pan found out about the apocalypse gachapon.

Crystals which others felt needed to risk their lives to get was something he got the easiest. He was also able to evolve and become one star. He also obtained many other things, some to eat, some to use, some to play, weapons and even immunity potions and equipment.

He was the strongest person in the suburbs.

But he knew that he couldn't be satisfied like that, he had to keep himself strong. So he made his boars evolve. The level two ones needed more energy so he shall leave that to next time. He let the level one boars evolve and then he started to gather level two demon crystals. He searched for the level two wheel as he wanted to become level two evolved.

He drank the Maotai in the cup and then he threw a famous whiskey into the wall, shattering it all over. The few highest level boars looked at their master and then continued to sleep.

"What nonsense, so disgusting."

Gu Pan cursed before taking out a bottle of wine and tasting it.

The one star evolved body made Gu Pan's wine addiction even worse. In the past, he would get drunk from just 250ml of alcohol, but he could even drink a liter now and still think clearly.

He contemplated the news he heard recently and analysed where the level two gachapon could be.

Suddenly, he opened his eyes.

His heart felt some pain and that would only happen when his pets died.

He didn't panic. He closed his eyes to sense it before breathing out.

The one that died was a level one boar.

This thing happened in the past. After all, mutated boars couldn't eat feed like before and they needed flesh. Gu Pan couldn't always be by their side so he allowed them to head out to hunt. Although he felt heart pained that they were killed by others, he didn't care much.

But a moment later, he sensed another death. Although it was also a level one boar, but two deaths made him suspicious.

Did they face a level two zombie or mutated life form?

When he was finding it weird, there was another signal. A third one died!

This time he was shocked. Three deaths didn't happen before so something huge must have occurred.

He walked out of his room to sense the surroundings. He noticed that they died from three different directions so he was less worried. If that was the case then it might be an accident.

But he still treated them as his own sons and daughters so he decided to take a look. He gave out a 'lu' sound to summon a few level two boars that were resting in his home. He found the strongest one to ride and he pointed in a direction. He led a bunch of them into the dust.

"Boss he headed out. He has seven at home, three level two and four level one!" Little Tiger's excited voice spread from the walkie talkie.

Chapter 115: Each person must be able to fend for themselves

"Move!"

With Ye Zhongming's orders, the few members around the farm began their operation.

Le Dayuan volunteered to join the operation so Ye Zhongming placed him on a tower to use the binoculars to report where each member was going towards. Xia Lei was then in charge of his safety.

After getting the signal, Mo Ye who was running slowly suddenly turned around. She had ten level one mutated boars behind her. After she killed one, they started to chase her.

She calmly raised the strengthened grey rifle and fired at these mutated boars.

The terrifying armor piercing bullets that were modified were really strong and shot into the head of one of them. It shot out from its neck and blood splattered in the sky.

The giant body of the boar fell onto the ground as it continued to slide forwards due to the momentum. It stopped breathing when it stopped.

Mo Ye didn't pay attention to her gains and continued to fire.

Peng! Peng! Peng!

Three more shots!

At this distance and facing such a huge target, Mo Ye couldn't miss. Moreover, after evolving, her hands were more stable and her vision was better. Three shots smashed the heads of three mutated boars.

Mo Ye knew her mission. Everyone waited her patiently for two days to find out their eating and hunting situation. She had to complete her mission to reduce the pressure on Ye Zhongming.

After four shots, the mutated boars were in front of her. They raised their tough fur to make them look like huge porcupines. The two sharp fangs told Mo Ye that they weren't gentle creatures like porcupines that would just curl up in the face of danger. They were mutated lifeforms that drank human blood.

She placed the gun on her back and held Moon Edge in her hands. She was really focused. She held the blade in front of her and waited for the boars to clash.

Mo Ye remembered what Ye Zhongming said when he was giving out the assignments.

"Only be evolving faster than others will we not get eliminated, if not it would be a matter of time before we die."

Everyone was smart and Mo Ye understood what he meant. People who couldn't keep up with Ye Zhongming would get eliminated.

A week had passed since the apocalypse started and Mo Ye had changed. She wasn't the cop that felt like she could save everyone. She was a woman trying to survive in the apocalypse. She understood that to survive she had to treat other lives like dirt. At the same time, she also had hopes, this hope wasn't huge but it existed.

If she could live, then maybe she could meet her parents.

The mutated boars were finally here. Her heroic face and distinct features had viciousness and killing intent that she didn't have during peacetime. She waved Moon Edge. The evolved's strength along with the sharpness of the silver blade sliced a boar into two.

The fresh blood scattered across her face and pieces of its intestine hung on her body. She didn't even blink. She placed Moon Edge in front of her and sliced the neck of another boar. Blood shot out and this boar tilted to the side.

She didn't get careless and quickly retreated. She avoided two boars and got close to a small van.

There was an explosion as a boar stabbed its fangs into the metal car which forced Mo Ye to dodge once more.

Ye Zhongming told everyone that the boars might have skills which were either the fang thrust or Pig Hammer. Which was them using their heads to smash into you. Apart from that, if they had mutations on their bodies then you had to pay attention to that area.

Mo Ye observed that the level one mutated boars didn't have any special mutations so she just had to avoid them when they got close.

These boars were all not afraid to die. Seeing that they forced Mo Ye back to the car they started to attack. Mo Ye chopped off the fangs of one before another rammed its head at her. Mo Ye could only jump and twist her knees to dodge that attack.

The huge head of the boar rubbed the bottom of her feet and hit another boar. Their faces were broken due to each other.

Before Mo Ye landed, another boar charged. This time she couldn't dodge. She tried to use the blade to block but due to the angle, she couldn't use much strength.

Seeing that she was about to get injured, a yellow shadow jumped out from behind the car and pounced onto the boar. Its body which weighed a few hundred kilograms was sent rolling to the side.

Mo Ye landed and stabbed her blade into the mouth of one of them, ending its life. She shouted, "Thank you Yellow Dog!"

Yellow Ball slashed this pig's stomach with its sharp claws before jumping aside, dodging its counter attack. It barked at Mo Ye to express that it had a name and that it wasn't called Yellow Dog.

With Yellow Ball's help, Mo Ye relied on Moon Edge to quickly deal with all of them.

Yellow Ball ate the most tender part of the boar while Mo Ye dug the crystals and said into the walkie talkie, "The battle is over, I will reach the second mission area in two minutes."

.....

Liang Chuyin ran quickly, beside her, Diamond Shield was rotating.

She had to find an observation point to locate the two level two mutated boars. Moreover, she had to kill them before Diamond Shield ran out and then head to her second mission.

In the past, she only faced a level one mutated life form before. Honestly, for someone without any experience, she could only rely on instincts.

After confirming her target, everyone was waiting for a chance. A chance when the boars scattered. Only then could everyone weaken Gu Pan. If not, even with Ye Zhongming, they didn't have the strength to challenge the farm owner.

But once they executed the plan, everyone needed to be able to hold their ground. They had to wipe out as many boars as they could to reduce Ye Zhongming's pressure.

The mission was given randomly. Liang Chuyin's mission was to kill two mutated boars.

Liang Chuyin knew that it was dangerous and she might even lose her life... But she wanted to try.

Chapter 116: Influencer's battle

Two mutated boars chewed loudly on the tender organs of humans. Although these things didn't contain much energy but their texture was good.

A boar used its fangs to pierce into the kidney while the other tried to snatch it. The two of them fought with one another for a while before eating their own things.

Their master prohibited them from killing one another. Moreover, one of them was male and one was female so they were partners in the past.

Suddenly, the male boar heard something and turned its head. It looked towards the entrance of the small alley and two seconds later, a thin person appeared there holding a weird whip.

The male boar immediately picked up a sweet scent from this human woman.

An evolved!

It scoffed. The greedy female's egg sized eyes glanced toward this female. It didn't move. It was using its cumbersome hooves to break open the chest plate of the human. The most tender heart was below.

Seeing that the female boar was not going to move, the male boar scoffed and slowly turned around. It roared furiously at the human, the blood and flesh fragments in its mouth were spat far away along with its saliva.

Terror flashed in Liang Chuyin's eyes.

This was normal.

This was similar to peacetime when a male would be afraid when another guy picked up a knife. Much less in the apocalypse where there were clear level distinctions. A level one evolved was now looking at a level two mutated life form, moreover, it was two of them.

She sucked in a deep breath and the fear on her face was replaced by determination.

A guy's figure appeared in his mind and she felt much more courageous.

The male boar was really hot tempered. It didn't sense anything dangerous about the human in front of it so it attacked right away. It lowered its head and charged toward Liang Chuyin.

The level two boar was much bigger than a level one boar and it looked similar to a camel. If this boar hit him, the 1.7 meter tall Liang Chuyin's C cup would shatter.

She knew that there was some gap between this level two mutated life form and her. She looked at the Diamond Shield before throwing out her job skill-- Dancing Shadows!

The mutated willow branch was made into a grey whip and it turned into numerous whip shadows, covering Liang Chiyin's petite body.

This attack skill that attacked everything within a range was actually more suitable to be used as an AOE spell, for example, the group that Mo Ye was about to face.

But the mutated boars had strong defence and in same level lifeforms, they were above average. Ye Zhongming didn't think that she could insta kill level one mutated boars. If she couldn't then she would face many injured and berserk boars and it would be hard for her to deal with them.

Although she could use the skill again, two times together could kill those boars but after which she would lose her combat strength. To sacrifice a person with a job for a bunch of level one mutated pigs, was not a worthy trade.

The male level two boar didn't expect this human to use such a strong attack but it was already within attack range. When the whip hit its body, those sharp leaves broke apart its skin and left blood marks on it.

Its eyes turned red from the pain but it ignored the whips and used its talent skill Pig Hammer. That firm head smashed towards Liang Chuyin.

Dancing Shadows was just too quick. In a short time, the whip smacked down dozens of times in a small region, and each one hit this male boar which caused it to have more and more wounds. In a short few meters, its body was dyed red and one couldn't tell what its original fur color was.

Finally, when the skill was about to end, it charged beside Liang Chuyin. This boar brought its rage and hatred and smashed into Liang Chuyin.

But the male boar felt that things weren't right. It was familiar with the feeling when it smashed into a human. It raised its head and saw a weird thing blocking in front of it.

It was the Diamond Shield.

There was a breaking sound.

The diamond shield shattered. This shield could only last for a while and now it was hit by the skill of a level two mutated life form. It completed its use and shattered.

But the shattering Diamond Shield caused it to stop. The strong recoil caused its skull to cave in and it stumbled.

This was similar to when a car smashed into a wall. If the wall was not firm, the car would go through it. But if the wall was firm then it would be blocked by the wall. Under these two

situations, the damage to the car would be totally different. The former wouldn't be as serious. The first thing damaged in the first case would be the wall but in the second case, it would be the car.

The male boar was like that. If it knocked into a soft body then it would win. But now it smashed into a shield so it was tough on it. It bled from all seven holes and became a blood pig.

Liang Chuyin saw that it was badly injured so it obviously didn't hold back. It whipped down between its eyes. That was where its skull collapsed so that whip opened up its head. It didn't even cry out and its body smashed into the ground and twitched. It was obvious that it was going to die.

Liang Chuyin heaved a sigh of relief. In her heart, she was much more respectful of Ye Zhongming. It was as if he had predicted this situation. That guy could always find a chance to win with what they had.

The female boar was momentarily stunned so she probably didn't expect the male boar to die so quickly. She spat out half the heart in her mouth and started to charge.

It wanted to take revenge for its partner!

Different from the male boar was because the female boar's talent was fang thrust. It raised its two thick and sharp fangs and wanted to pierce through this human and then flick her away. Once she landed on the ground, she would break open her chest!

Liang Chuyin started to retreat. She didn't go deep into the alley, she retreated and headed out of the alley right away, disappearing from her view.

The furious female boar didn't slow down. It charged and the wide road allowed it to see more but she realised that in that just a second, it lost track of that human.

Some sound spread from above. The female boar raised its head and saw that person landing from above. Her hand let go of a dagger that was stuck into the wall.

This human used the dagger to jump into mid air, using its blind spot to sneak attack it.

The female boar was a level two mutated life form. It was far smarter than normal animals. Although this human sneak attacked it but it didn't panic at all. It opened its mouth like it was laughing at this human.

When being sneak attacked, the female boar stopped its body and stood on two legs. Its two fangs aimed at Liang Chuyin who was descending from above.

In the next second, its fangs would pierce the influencer's body!

Chapter 117: Job and skill advantage

Liang Chuyin looked at the female boar's fang get closer and closer to her. She was fully focused.

She flicked her wrist and the mutated willow whip wrapped the anti-theft window on the side. She pulled and her body changed directions. The fangs of the boar brushed past her body.

Liang Chuyin didn't use much strength so she just dodged its attack. Her body was still near its head. She took out a weird-looking gun and pointed it on this female boar's head.

The gun fired.

Three bullets flew into the head of the female boar. At this distance, even if it was a level two mutated lifeform it wouldn't be able to dodge it.

Its huge body fell and the ground around shook. Blood and brains shot out from the hole and left a pool of blood on the ground.

Liang Chuyin landed beside the corpse of the female boar, her face was covered in sweat. She landed really elegantly but it obviously wasn't as easy as it looked.

Wind Dancer was such a job. No matter the time, each action was elegant. Killing intent was hidden within these eye catching movements.

Gun, was what Ye Zhongming got from the gachapon that belonged to the father and son. After enhancing it, he passed it to Liang Chuyin. Although the influencer didn't have shooting basics but the close distance meant that she couldn't miss.

Under such conditions, Liang Chuyin completed an impossible mission. She solo-ed two level two mutated boars.

"Mission complete, heading to the second location." Liang Chuyin dug out the crystals and headed to the next location.

.....

Little Tiger rode a motorcycle and stepped on the corpse of a mutated boar.

The rumbling sound got clearer and clearer.

Everyone had their mission today and so did Little Tiger. He used the height to observe the movement of Gu Pan. After Gu Pan left, he carried a level one mutated boar that he killed and waited for her.

He waited for Gu Pan.

Although he didn't have to attack like the others, but he was in the most danger as he had to face Gu Pan and his boar army.

If it was someone else, they might not be terrified but they would be nervous. Little Tiger was resting on his motor like there was nothing serious at all. He chewed on the chewing gum that he got from the gachapon and he wasn't worried about Gu Pan and his boar army getting close.

Finally, Gu Pan turned a corner and appeared. The streets that weren't clean in a week had gathered up a huge amount of dust. The dust covered the corpses and also the past civilisations.

Little Tiger straightened his body and saw Gu Pan looking over at him. He kicked the boar's corpse over and then pointed a middle finger at Gu Pan.

Seeing his pet's corpse being treated like that, Gu Pan was furious. He rode the wild boar and sped up, charging over with the hoard.

This aura 'shocked' Little Tiger as he laughed. He stepped on the throttle and the bike flew towards another direction.

While running he shouted loudly, "Dummy come and chase me!"

Gu Pan was so furious that his eyes were about to pop out.

Since he got these boars he did suffer from some losses. For example, he faced two strong level two monsters a few days ago, four or five boars died because of that.

But he did benefit. His boars evolved after eating the two corpses and he also gained two level two crystals.

But now, his boars were dying for no reason and their crystals were being dug. These losses were not something that he had suffered before.

Level two mutated boars were really quick. Even if it was carrying a person it was still keeping up with the motorcycle. After half a minute, they were a distance away from the farm.

At that moment, Gu Pan felt that more of his boars were losing contact with him. First was ten level one boars and then was two level two mutated boars!

Gu Pan understood that he was being targeted, someone was planning to kill his pets!

The guy riding the motorcycle was just drawing him away!

After understanding that point, Gu Pan told his boars to stop and turn around.

He had to head back as he sensed that the remaining boars were dying quickly!

.....

Ye Zhongming didn't bother to hide his tracks at all, he knocked open the gate of the farm and charged in.

The three level two and four level one boars heard the sounds and charged out.

There was no hesitation at all. They clashed with their invader.

Ye Zhongming waved Moon Edge. A shining blade slashed the sky and into the body of the level two mutated boar!

This was the reason why a job was good, it allowed you to have strength above your own evolution level.

In his last life, Ye Zhongming knew that Gu Pan's boars had strong defence. At that time, their bodies were covered in oil. Along with some talent skills, it was hard to damage them.

But now they were far from that level. Their mutated level two bodies were unable to block the sharp silver weapons and that boar was sliced into two.

He retracted his blade and pointed.

The feed grinder in the farm turned into a metal monster that helped Ye Zhongming block the strike of another wild boar.

Ye Zhongming landed beside the metal monster, using this strength to jump. He waved the second blade. His target was the brown fur boar that had knocked into the metal monster.

The huge head was sliced off. Warm blood spurted all over the metal monster that was now turned into a pile of scrap metal.

In just an instance, Ye Zhongming killed two level two mutated monsters!

Job and skills allowed him to kill monsters above his level.

But Ye Zhongming knew that it was not time to be happy. He used his arm shield to block a level one boar. His body twisted to receive the last wild boar.

Maybe the death of two level two boars made the boar feel fear. It was really careful when facing this human. It moved and didn't give Ye Zhongming a chance.

Ye Zhongming didn't force it. He charged into a few level one boars. He raised the blade and killed these mutated monsters that didn't deal a threat to him.

The entire area was covered in a thick blood smell.

He turned around and faced a level two mutated boar. Both man and boar didn't dare to be careless.

Chapter 118: If we don't die

The mutated boar was not stupid. On the contrary, they were really swift and nimble. Ye Zhongming was just one star evolved and his attack speed was not as fast as their movement.

If they fought back and knocked him, Ye Zhongming would be badly injured if not dead.

Moon Edge's sharpness was something that these mutated boars feared. A weapon that could instantly kill other boars caused them to be afraid of activating their skills in case they got killed too.

One man and one boar were in a standstill and no one made a move.

The walkie talkie tied to his shoulder transmitted the news that Gu Pan was rushing back so Ye Zhongming knew that he couldn't continue waiting.

He sucked in a deep breath and moved Moon Edge.

This action made the mutated boar nervous. It snorted as a form of warning.

Ye Zhongming licked his lips and took a step forwards. He flicked Moon Edge upwards and sliced toward the wild boar's body.

The mutated boar dodged it and the blade glow flashed across its body.

The boar was tempted to attack. It noticed that although this guy's weapon was sharp, but his level meant that he was not able to use it to its potential.

Ye Zhongming slashed out once more and this time it was towards its other side.

In the end, it dodged it easily.

The boar lowered its head and it was considering whether or not to attack.

There was some movement from behind and before it could react, half a wall pressed down and smashed right into it.

It sensed a huge sense of danger. This wall couldn't hurt it but it affected its vision and it knew that the guy's attack was definitely here.

It smashed towards the other side.

This speed was far quicker than that human!

But the boar only heard the human say some words before its body was sliced open. Even when it was about to die, it didn't know what was going on.

What Ye Zhongming said was-- Ocean Break.

The blademaster branch skill of the Light Seal Blademaster job.

He didn't use the strong 'Seal: Flame Blade'. Although that skill could directly insta kill this level two mutated boar, but it consumed too much mental energy and would affect his plan such that his entire operation would fail.

So he could only use Ocean Break which was the blademaster branch skill.

Although this skill still used a few dozen points of mental energy but it was what he could accept. Moreover, Ocean Break allowed him to slash three blades out quickly which helped to prevent the boar from dodging.

He wiped the sweat off his forehead and cleaned up the battlefield. After reporting it using the walkie talkie, he left the farm.

.....

Mo Ye squatted quietly beside the window. The grey rifle in her hands was pointed at the streets.

This was the essential path toward the farm.

There was some movement from behind her. Liang Chuyin was now by her side and she squatted down swiftly.

"Brother Ye succeeded." Liang Chuyin looked at the streets and praised, "So amazing, he dealt with three level two and four level one boars alone and only took a few minutes."

"It isn't that he is amazing, it is just that you are too obsessed."

Park Xiuying who was laying in wait here laughed at the influencer.

The two of them had a good relationship so they didn't worry much when they spoke.

"Who was the one that kept thinking about Brother Ye when Wang Ding trapped us?" The influencer fought back causing Teacher Park's face to flush red.

"I didn't mean that." Park Xiuying was obviously not Liang Chuyin's match and she tried to explain, "Anyways we didn't mean the same thing, I just hoped that he appeared to save us."

"Save you and then you give him your body?"

"Why are you so annoying? Don't use your thoughts on others."

Mo Ye listened to two girls younger than her bicker and she smiled. But her expression changed and she said, "They are here!"

The two girls started to focus right away.

At the end of the road was a huge sky of dust and then there was the rumbling of hooves.

Gu Pan and his boar army were here.

“Time to get to work!”

Liang Chuyin stood up and took in a deep breath. She told Park Xiuying to give her a shield and then she stuck herself near the window and got ready to jump down.

She looked at the boars get close and she grumbled, “Damn, if I die today I am still a virgin.”

.

The atmosphere went from solemn to lively once more. Mo Ye couldn’t help but laugh as she stared at Liang Chuyin before calming herself down once more.

Park Xiuying gave Liang Chuyin a shield and her face flushed red, “Everything comes out of your mouth.”

.....

Gu Pan was really close. He could sense that all his pets that were left at home had really died and his heart hurt.

To help these pets evolve, he went against his conscience to do many things. He dreamt that one day he would lead these strong pets to roam the earth.

But in just a short while, over twenty of them died! Twenty, he only had 70+ of them and close to a third of them were dead!

Gu Pan didn’t slow down because his pets were all dead. This place was really close to home so he wanted to stop the killer there and then kill him bit by bit.

“Peng!”

A gunshot fired which stunned him.

Following which, he saw a level two boar drop from mid air, smashing onto the ground. There was a clear bullet hole on its left side that was bleeding.

Gu Pan immediately laid on the pig’s back.

This level two boar was the one that sensed danger and jumped out to help its master block. If not for it then Gu Pan would have already died.

Gu Pan who found out everything broke out in cold sweat.

He realised that each step he took was being calculated. From drawing his attention to killing the scattered boars, to ambushing him here. He was under someone’s control.

He was anxious and gave out a shout. The boars slowed down and many of them covered him to try to block every attack angle.

“Peng!”

Another gun shot and another boar were killed.

This time, Gu Pan picked up the source of the gunshot. He roared in rage and ordered the boars to attack the building where the shooter was hiding at.

.....

Liang Chuyin looked at the dense boar hoard and knew that it was her time to strike. She held the whip tightly in her hands and jumped off the second floor.

When she was in mid air, she used Shadow Dance!

“If we don’t die today, let’s find a day to lose our virginities!”

Chapter 119: New District Hunting Squad

“Jiaming do you hear that? The gunshots.”

The young man hiding behind an abandoned cleaning car listened in and said to the partner beside him.

Jiaming nodded his head. He heard the gunshot too.

“Did people from the base come out to hunt?”

The person who spoke asked. He looked at the zombies who had gotten close to this place but were now drawn away from the gunshot.

A level one demon crystal could exchange for 2.5 kilograms of rice in the new district base.

“Not sure but it shouldn’t be.” Jiaming shook his head and saw the zombies get further away so he slowly relaxed his body. He placed his shovel back into his waist. After confirming that there was no more dangers, he sat down.

“You know the situation in the base. Bullets are so important and they are all in the hands of the gun unit and Director Wang, they definitely won’t use them to kill zombies. Also Da Ming, weren’t you in the army? Can’t you hear something special about the gunshot?”

When Da Ming heard that, he really felt that the gunshot was special and it was really crisp.

“It is good that we have a gun, it makes it easier to kill zombies. A few more days and we can buy potions and become evolved. When the time comes, we will be able to roam the world...”

“Wake up!”

Jiaming interrupted Da Ming’s dream, “An evolution potion is 100 level one crystals now so we have to kill a hundred zombies. We worked so hard for so many days and how many did we kill? Only ten and we nearly died. Moreover, guns aren’t good for small scale battles anymore and we would draw unknown dangers. Blades, swords, arrows and bows are the better items.”

Da Ming sighed, “Things would be good if we can spin the gachapon. Maybe we can get a potion in our first spin.”

Jia Ming rolled his eyes at Da Ming, “Spin it when you want? Then how will others control you?”

The two of them wanted to continue but the gunshots spread once more and it sounded like it was getting more and more intense.

They looked at one another and Jia Ming was anxious, “Isn’t that side the territory of that weird guy with many pigs?”

“Like...”

“Take a look?”

“Should we not? I heard that the weird person let his pigs eat humans. The people at the base talked to him and he ignored them. What if we get eaten?”

“But what if we gain something?”

The two of them were tempted and decided to take a look.

.....

“Commander Meng, do we continue forwards?”

A thirty year old man took out a crumpled cigarette and took out a stick to pass it to this tanned young man.

Usually, this Commander Meng wouldn’t take it. He would say that the brand was not good and it was cheap. He would also say that it was too crumpled so it disgusted him.

But things were different now. Although only a week passed but the world was changing too quickly. Apart from the base, the other areas all had human eating monsters. If they weren’t careful then they would die. Food and water were a serious shortage, not to mention things like alcohol and cigarettes that could reduce pressure and fear, they were far more valuable than rice and noodles.

If Ye Zhongming was here, he would tell them that these things would only get more and more expensive. Especially those produced before the apocalypse, those were the most expensive ones.

.

Food prices in the new district base was rising, past money was not trash paper and no one wanted to even pick it up from the floor. The more important goods were weapons and crystals. Only those two things could be exchanged for food and water, even potions.

As for beer and cigarettes, the new district base didn’t have many. After these few days of consumption, their prices increased too. Although it was not as much as when Ye Zhongming revived, it was still expensive.

People were just so weird, they couldn’t even eat food but they were still willing to spend money on this.

Outside of the base were zombies and monsters so usually no one would dare to come out. Only soldiers and bold commoners would head out to hunt. Jia Ming and Da Ming were the latter and this small squad was the former.

“Qin Ke, don’t call me commander, we are all in the base and are trying to survive.”

Meng Fang took the cigarette and took in a deep breath. He felt the smoke spreading in his body and he closed his eyes in enjoyment.

Only at that moment, he could forget where he was, he forgot the fact that he could die at any moment.

“Then don’t call me Qin Ke, I am Qin Yu.” Qin Yu looked at the rifle beside Meng Fang and he craved it.

Things were great if he had his own gun. Qin Yu sighed.

With guns, one would have crystals. With crystals, one could evolve and live well. One would also have power in the new district.

Qin Yu’s head felt hot when he thought about the status and benefits that those evolved had.

“Commander, we have collected most things, but...” A guy in dirty army uniform ran over and said softly, “Zombies and monsters entered and there aren’t many things that can be eaten. There is only a bag of rice, some bean oil and also some noodles.”

Meng Fang’s expression was a little bad. He brought people out of the dirty water pipes to avoid the zombies around and even lost two lives when they faced mutated rats. They spent so much effort fighting zombies for half an hour, losing a few before occupying this small shop. They only got one bag of rice?

As for oil... Without dishes what is the point of that?

Qin Yu was in despair too. He spent a huge price to get a chance to head out with this hunting squad. He wanted to benefit but now it seemed like his wishes were about to fail.

“At least we got ten crystals...” That soldier said but he knew that he was speaking nonsense. These weren’t their own and they had to hand it over. It would be good if they could even keep two of them.

If they didn’t submit it, their loved ones in the district would be in trouble. They also would not be able to restock on bullets.

Meng Fang looked forwards. Qin Yu asked if he wanted to continue and he thought that it was a dumb question. But now, if they didn’t head to the weird man’s farm, this hunt would be a loss.

Right when he was hesitating, he heard gunshots from the distance. He opened his eyes for a few seconds and waved, “Let’s go and take a look!”

.....

Liang Chuyin jumped at a good time. Gu Pan’s hoard was right in her attack range.

Shadow Dance was activated and the whips landed on the bodies of the mutated boars.

At the same time, Liang Chuyin absorbed a demon crystal.

For this operation, Ye Zhongming passed the green necklace to her. Beginner Meditation Exchange was activated, turning the crystal’s energy into mental energy which entered her body to ensure that she would be able to use two job skills without falling unconscious.

She was courageous and landed in the pig hoard.

Chapter 120: Surrounded

If Liang Chuyin's whip was also a silver weapon, then this skill was enough to insta kill all these mutated boars, even level two mutated boars would be killed. Their evolution stage was not enough for them to block the strength of such weapons.

But this mutated willow branch was only enchanted and strengthened. It was only white so it could only deal some damage to the level two mutated boars but not enough to kill them.

But Liang Chuyin's attacks still caused at least half of the boars to be badly injured. Some level one boars were split open and badly injured. Some of them fell to the ground and lost their ability to fight.

Mo Ye stood up from the window. She was searching for Gu Pan. But that human actually disappeared in the boar hoard.

Mo Ye had no choice but to fire at the level two mutated boars.

The modified rifle and bullets were a one shot kill as long as they hit.

One boar after another fell under her precise shooting.

The results seemed glorious but they had to pay a price. Each armor piercing bullet meant that they consumed the sharpest part of a mutated life form as material. Liang Chuyin was also risking her life to buy a chance.

Park Xiuying's face got whiter and whiter. She used Diamond Shield on Liang Chuyin several times. Each second, the shield would break due to the boar attacks. Just five-six seconds passed and Teacher Park's mental energy was about to run out. At most, it could last for 2-3 more seconds.

When Mo Ye pulled the trigger, no more bullets fired out. Her expression changed and she shouted to Liang Chuyin, "No more bullets, come up!"

Liang Chuyin wrapped her whip upwards, holding a pipe and then pulling it. Her body flew out from the boar hoard and Mo Ye helped to pull her into the building.

At this moment, Park Xiuying's final Diamond Shield broke. If she took one more second then Liang Chuyin would not have been able to return.

"You are injured." Mo Ye saw the area around the influencer's stomach dyed red. It was obvious that she was injured during the fight. The Diamond Shield didn't fully protect her.

Park Xiuying bit her teeth and threw out a Cleansing Dew. Her mental energy had run out.

"Go, let's go upwards."

Mo Ye helped the weak Park Xiuying. The three of them were heading to the roof where they had a way out. They would jump to another building from there and the rest would be left to Ye Zhongming.

But before they walked out of the room, the door was knocked open. Gu Pan appeared there. Beside him was a muscular level two boar and the white crystal on its head was actually showing signs of black. It was about to evolve to level three.

Gu Pan's eyes were about to pop out from rage.

In just that short moment, twenty plus boars had died!

Along with those that this group had killed previously, half of his boars were gone!

Gu Pan was afraid before all this, he was really afraid.

He couldn't understand why this woman's gun was so strong. One shot could kill a level two boar. The most advanced rifle he had seen couldn't cause such high damage.

He could not understand how the fox-like woman would have a translucent shield around her. That small thing could block the full strength hit of a level two boar.

Gu Pan was shivering from fear.

He even wanted to bring his strongest few boars and flee.

But he entered the building and when he was outside, he heard that the people had ran out of bullets. He heard that the shield was gone so he picked up his courage. He wanted to capture these few women. He wanted to understand what was going on and then torture them, kill them and then feed them to the pigs!

The boars charged in and dashed towards the second floor but the door was stuck. From the window, one could see dozens of them just guarding there.

In that moment, the three women went from attacking to defending and they were trapped.

"Die, die." Gu Pan muttered. His voice was ice cold and he didn't give them a chance at all. He roared towards them and the boar charged out from beside him, raising its fang at the three girls.

Mo Ye pulled Teacher Park back and dashed forwards with Moon Edge. Liang Chuyin bit her lips and dragged her exhausted body to coordinate with Mo Ye.

The blade and whip covered the entire room.

The boar that charged first did not expect Moon Edge to be so sharp and its head was sliced off. The boar behind it wanted to dodge but Liang Chuyin grabbed its feet and sent it towards MO Ye's blade. So there was yet another boar corpse in the room.

Gu Pan who had already entered the room instinctively took two steps back.

These women actually had a blade that could kill level two mutated boars!

Gu Pan's courage, balls, viciousness, killing intent were all built on his boars. When he realised that they were not invincible, he was back to the failure that he was in peacetime.

Maybe many years later when he grew strong, he would break free from the shadows of the past. But at least now, he was not as courageous as what Ye Zhongming saw in his last life.

The boars charged viciously which gave him a bit more courage. The three girls were forced to the window.

Even if they had weapons that could kill level two mutated lifeforms, but they still had to defend themselves. Too many boars meant that Mo Ye could only defend.

"Captain, jump!"

Little Tiger shouted. Mo Ye turned her head and saw Little Tiger riding his motorcycle into the mutated boars. After knocking one aside, he rolled on the ground and used Moon Edge to kill and slash them.

“Jump!”

Mo Ye was swift and tossed Park Xiuying towards Liang Chuyin, covering them as they jumped. She slashed to force one boar aside before she jumped.

Gu Pan came to the window right away and many boars beside him took the leap. They might not be able to jump up to the second floor but jumping down was not a problem.

Mo Ye, Little Tiger etc were quick but the mutated boars were quicker. Their level two evolved bodies were not what humans could compare to. Instantly, the remaining 30 boars surrounded the four of them.
